Christine Monahan
American Oversight
1030 15th Street NW, Suite B255
Washington, District of Columbia 20005
Email: foia@americanoversight.org

Dear Ms. Monahan:

This letter is regarding to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of April 10, 2020, assigned #20-01221-FOIA, for:

1. "All records reflecting the content of the phone call on or about January 3, 2020 between George F. Gao, director of the Chinese Center for Disease Control and Prevention, via phone call to CDC Director Robert Redfield, including preparatory briefings, materials shared during the call, handwritten or electronic notes taken during the call, memoranda memorializing the call, read-outs of the call, or emails discussing the call.
2. All records reflecting the content of Director Redfield's subsequent communication with HHS Secretary Alex Azar regarding Director Redfield's phone call on or about January 3, 2020 with Director Gao, including any materials exchanged between Director Redfield and Secretary Azar, and any notes or memoranda memorializing this communication.

At a minimum, a search for responsive records should include a search of the files of (a) the CDC Office of the Director; and (b) the CDC Office of the Chief of Staff."

We located 44 pages of responsive records (15 pages released in full; 10 pages disclosed in part; 1 page withheld in full, and 18 referred to the U.S. Department of Health and Human Services). After a careful review of these pages, some information was withheld from release pursuant to 5 U.S.C. §552 Exemption (b)(5) and (b)(6).

EXEMPTION 5

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process privilege. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The materials that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not contain or represent formal or informal agency policies or decisions. Examples of information withheld include comments, opinions, and draft documents.

EXEMPTION 6

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such a personal phone number. We have determined that the individual to whom this information pertains has a substantial privacy interest in withholding it.

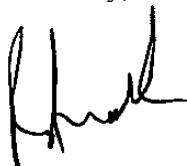

In addition, the search of CDC files produced records (18 pages) that originated with the Department of Health and Human Services (HHS). These documents were referred to HHS for review and direct response to you. Contact information for HHS is provided below.

Ms. Kristine Zadrovitz
Department of Health and Human Services (HHS)
Freedom of Information Officer
Hubert H. Humphrey Building, Room 729H
200 Independence Avenue, SW
Washington, D.C. 20201
Phone: 202-690-7453
Fax: 202-690-8320
Email: FOIARequest@hhs.gov

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIARequest@psc.hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be postmarked or electronically transmitted by September 22, 2020.

Sincerely,

Roger Andoh
CDC/ATSDR FOIA Officer
Office of the Chief Operating Officer

Subject: letter for China

Dear Exec Sec team,

Dr. Redfield would like to send a formal letter to China CDC offering technical assistance. He would like to put the below email on CDC stationary and send as a follow up PDF to China CDC. The [addressee's title](#) and Dr. Redfield's signature block can change, but he would like to keep the text as is.

Would you please create Monday and we can send from his personal box?

Many thanks and warm regards for 2020,

Hugh

.....

Dear George,

I have been closely following the cluster of pneumonia of unknown etiology centralized on a local seafood market, Hua Nan Seafood Market in Wuhan, China. CDC has substantive expertise in identifying the etiology of pneumonia outbreaks caused by novel pathogens. CDC also has a long history of working collaboratively with the government of China on pneumonia and respiratory infectious diseases.

China has tremendous capacity in infectious diseases and outbreak investigation. In the spirit of cooperation, I would like to offer CDC technical experts in laboratory and epidemiology of respiratory infectious diseases to assist you and China CDC in identification of this unknown and possibility novel pathogen.

Feel free to reach out to me directly if we can be of any assistance. I look forward to your response.

Sincerely,

Robert R. Redfield, MD
Director, CDC

The CDC continues to monitor an epidemic of pneumonia of unknown etiology centralizing on a local seafood market, Hua Nan Seafood Market in Wuhan, China. As of January 5th, 2020, there are 59 cases of pneumonia of unknown etiology, of which 7 are severe. Presently all cases are being isolated and treated in the Wuhan medical facility. The seafood market has been closed for disinfection since they also sell animals. At present in the early investigation, there has not been apparent human to human transmission nor infected healthcare workers. Dr. Redfield spoke directly with the head of the Chinese CDC, George Gao, over the weekend to offer the assistance of the CDC in Atlanta.

Subject: Fw: Updated SITREP, 1/5/2020

I'm sending this quick update to reflect the additional laboratory information that was reported from China - namely that testing for MERS and SARS is negative. WHO also posted a notice but it does not really contain any new information. We'll have a more complete update tomorrow, including our plans for IMS and update on additional activities.

Nancy

**China Pneumonia of Unknown Etiology
Situational Report
January 5, 2020
EPI Week 1
Day 5 (Update)**

Topline Messages

- The current situation relates to an epidemic of pneumonia of unknown etiology centralizing on a local seafood market, Hua Nan Seafood Market in Wuhan, China.
- Updates are being provided by Wuhan City Health Committee.
- As of January 5, 2020, there are 59 cases of unexplained pneumonia of suspected viral etiology, of which 7 are severe and the remaining stable.
- Influenza, avian influenza, adenovirus, SARS-CoV, and MERS have reportedly been ruled out.
- Presently all cases are being isolated and treated in the Wuhan medical facility.
- The clinical syndrome includes fever, few with difficult breathing, and with bilateral lung infiltrates on chest x-ray
- There is no confirmed human-to-human transmission nor infected healthcare workers.
- The seafood market has undergone environmental remediation, and remains closed.

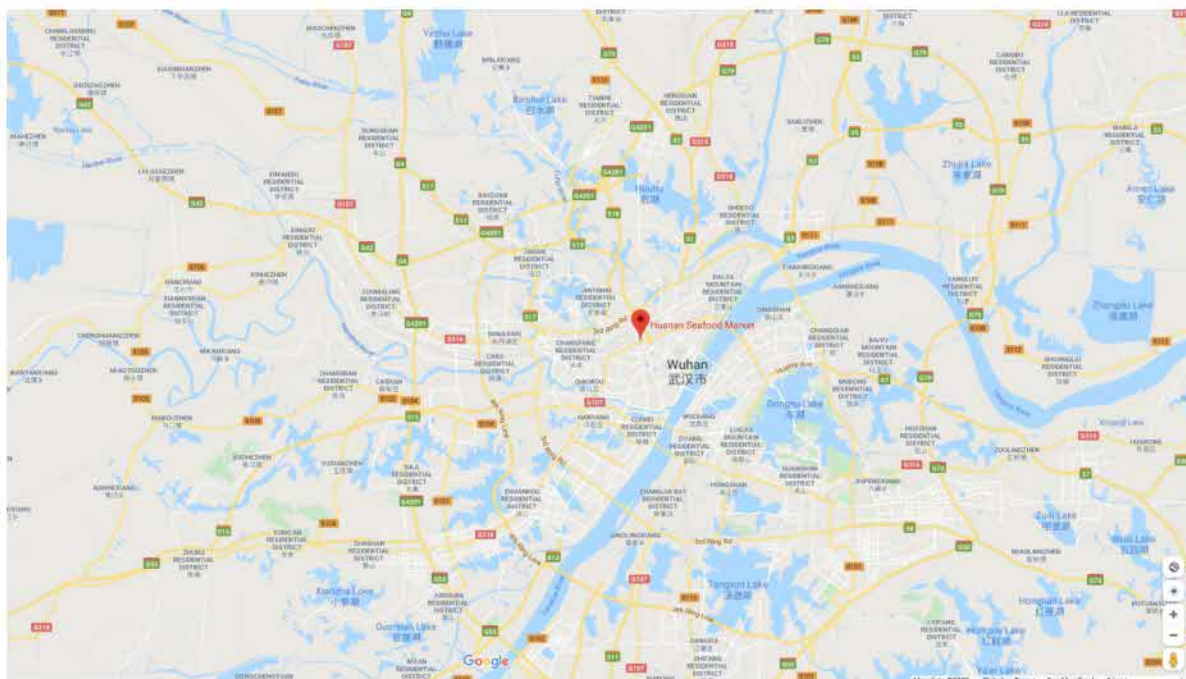

(b)(5)

(b)(5)

Situational Awareness

- The cases so far have been limited to Wuhan
- Location of the Seafood market within Wuhan

Hey Brian, Dr. Redfield did chat with the Secretary. Redfield is also going to try to chat with the head of the Chinese CDC(George GAO) and Tedros to try to get more information. We will keep you posted as we learn more. Also, below are some recommendations that our folks are encouraging us to consider. Please let me know if you have questions.
