AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

BIOGRAPHIES:

Dr. Scott Rivkees, *State Surgeon General and Secretary, Florida Department of Health*

Dr. Scott A. Rivkees, Florida's Surgeon General, is focused on protecting, promoting and improving the health of everyone who calls Florida home. As Surgeon General, Dr. Rivkees also serves as state health officer for the Florida Department of Health. In this capacity, he oversees the operations of the state health office in Tallahassee, 67 county health departments, 22 area offices for the Division of Children's Medical Services, 12 regional offices for the Division of Medical Quality Assurance, nine area offices for the Division of Disability Determinations and three public health laboratories.

Dr. Rivkees has committed his career to building a culture of health that can help each adult and child in Florida live a long and healthy life.

Before his tenure as Florida's Surgeon General, Dr. Rivkees served as chair of the department of pediatrics at the University of Florida College of Medicine and physician-in-chief of UF Health Shands Children's Hospital, part of UF Health Shands Hospital and the University of Florida's Academic Health Center. He also served as academic chair of pediatrics at Orlando Health and the University of Florida College of Medicine pediatric chair at Studer Family Children's Hospital at Sacred Heart in Pensacola.

Dr. Rivkees is a graduate of Rutgers University and the University of Medicine and Dentistry of New Jersey. He received residency, fellowship and postdoctoral training and served as faculty at Massachusetts General Hospital and Harvard Medical School. Before moving to Florida, Dr. Rivkees served as professor of pediatrics with tenure at Yale University. As associate chair for research he started and directed the Yale Pediatric Thyroid Center, one of the first of its kind in the United States.

Dr. Rivkees has worked with the National Institutes of Health and the U.S. Food and Drug Administration on drug safety issues. He was responsible for the safety alert on liver toxicity caused by the antithyroid drug propylthiouracil. This led to major international treatment practice changes. For his effort, he was recognized as the 2018 recipient of the American Thyroid Association's Paul Starr Award.

AMERICAN OVERSIGHT

During his career, Dr. Rivkees has been named as "One of America's Best Doctors," "One of America's Top Pediatricians" and "One of New York's Best Doctors." He is a member of the American Society for Clinical Investigation, the Connecticut Academy of Science and a fellow of the American Academy for the Advancement of Science. Dr. Rivkees is also a recipient of the Pioneer Award from CARES and the Special Service Award from the American Academy of Pediatrics.

Dr. Rivkees has had more than 30 years of continuous research funding from the National Institutes of Health. He has more than 250 publications.

He is past chair of the Board of Scientific Counselors for the Eunice Kennedy Shriver National Institute of Child Health and Human Development. He is past chair of the Advocacy Committee of the Association of Medical School Pediatric Department Chairs, past treasurer of the Florida Chapter of the American Academy of Pediatrics and past member of the Pediatric Policy Council.

Dr. Shamarial Roberson, *Deputy Secretary for Thursday, Florida Department of Health*

Dr. Roberson most recently served as the Department's Director for the Division of Community Health Promotion. She joined the Department as a chronic disease epidemiologist and evaluator where she served for two years as the bureau epidemiologist. Dr. Roberson was also a section administrator in Chronic Disease Prevention, providing administrative direction and policy coordination for the Bureau. Her first job out of college was as a middle school teacher, where she taught science and health for more than four years.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Richard Corcoran, *Commissioner, Florida Department of Education*

Commissioner Richard Corcoran moved to Florida as a child in 1976. Both of his parents grew up during the Great Depression and fought in World War II. They instilled a great sense of pride in public service and duty in him at an early age.

From them, Commissioner Corcoran developed the principles by which he and his wife of over 24 years, Anne, who is also an attorney, teach their six children today.

Commissioner Corcoran grew up in Pasco County, Florida where he graduated from Hudson High School. He earned a Bachelor's Degree from St. Leo College in 1989 and a Juris Doctorate from Regent University in 1996. While enrolled in college, Richard also served in the U.S. Naval Reserve (1987-1993).

Commissioner Corcoran has been a practicing attorney in Florida for almost 20 years. He also served as the Speaker of the Florida House from 2016-2018. During his tenure in the state House, he pushed through over $10 billion in tax cuts, the elimination of over 5,000 regulations, the massive expansion of school choice, and the strongest ethics and transparency laws in state history.

Commissioner Corcoran is a passionate advocate for improving the education system in Florida. He fully believes every child can learn and that all children deserve the opportunity to receive a world-class education.

Dr. Stephen White, *Director, Florida Department of Health Miami Laboratory*

Stephen serves as the bioterrorism defense coordinator for the Florida Department of Health. He has held this position for nearly four years. He previously served in the same role from August 2011 to June 2015.

Stephen has a PhD in public health from Florida International Univiersity as well as bachelors and masters degrees from Texas Tech University in clinical laboratory science and practice management.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Dr. Yesenia Villalta, *Administrator, Florida Department of Health in Miami-Dade County*

Dr. Villalta was born in Miami, Florida. After graduating from Coral Gables High School, she attended Miami-Dade College, where she majored in chemistry. Dr. Villalta is a three-time graduate of the University of Miami School of Nursing, where she earned a Bachelors and Masters of Science in Nursing as well as a Doctor of Nursing Practice degree. Upon graduation, she worked in the private sector and then made a change to public health.

Dr. Villalta has nearly 13 years of experience in a variety of public health functions and 19 years in the field of nursing. She started her career with public health in 2005, at DOH-Miami-Dade as an Advanced Practice Registered Nurse. Dr. Villalta also served as Assistant Director of Nursing in 2007, until being appointed Executive Community Health Nursing Director in 2014.

Dr. Villalta also served as Assistant Director of Nursing in 2007, until being appointed Executive Community Health Nursing Director in 2014.

Mark Racicot, *CEO, North Shore Medical Center*

Prior to his appointment to North Shore Medical Center Racicot was the chief executive officer at Florida Medical Center and he also served as the chief operating officer at Palmetto General Hospital where he was also the lead COO for Tenet's Miami-Dade Group hospitals. Under his leadership of Broward and Miami-Dade, Racicot implemented processes to improve standardization and efficiency across the five hospitals. He also helped create a regional capital plan to refurbish patient rooms over a three year period across the ten hospitals in Florida. At Palmetto, Racicot oversaw the design and construction of the hospital's new 31-bed clinical decision unit. He also managed a variety of projects including a new CT unit and MRI replacement in the imaging department and telemetry system upgrades on three nursing units. A known relationship builder, Racicot was also responsible for leading ancillary and support teams to significantly improve throughout and patient experience. He previously worked in healthcare in New England.

Racicot holds a Bachelor of Science degree in Civil Engineering from WPI and is a registered engineer. In addition, he has a Master of Business Administration from Fitchburg State University.

Esteban Bovo, *Commissioner, Miami-Dade County Commission*

Esteban L. Bovo, Jr. was elected in 2011 to serve as the Miami-Dade County Commissioner representing District 13, which includes Hialeah, Miami Lakes, Palm Springs North, and neighboring areas of unincorporated Miami-Dade. On December 6th, 2016 Commissioner Bovo was elected Chairman of the Board of County Commissioners for the 2017-2018 term.

Bovo commenced his public service when he was appointed Councilman for the City of Hialeah in 1998. After being re-elected twice, Chairman Bovo's colleagues selected him as President of the Hialeah City Council and he remained in that capacity throughout his term. As Councilman, Bovo sponsored the anti-predator legislation and focused on improving the city for the residents.

In November 2008, Bovo was elected as State Representative for District 110 and was re-elected without opposition in 2010. During his tenure in the Florida Legislature, Bovo was an outspoken advocate for the historic Hialeah Park and worked diligently towards its re-opening. Throughout the 2009 legislative session, he also sponsored a resolution naming May as "A Safe Haven for Newborns Month," in recognition of the Gloria M. Silveiro Foundation. Additionally, he designated April 17, 2009 as "Bay of Pigs Memorial Day" in commendation of the Museum and Library for 2506 Assault Brigade, where historic memorabilia is preserved.

Bovo continued to focus his legislative agenda on the betterment and safety of our community by sponsoring the Ashley Nicole Valdes Act, which requires defendants who have been arrested for leaving the scene of a fatal accident to be held in custody until a judge ruling. Due to his tenacity and dedication to public service, his colleagues in the Florida Legislature nominated him as Chairman of the Hispanic Legislative Caucus and was subsequently chosen to chair the Committee of Business Regulation in Tallahassee.

Bovo as Chairman of the County Commission has restructured the commission committee system and established a Chairman's Policy Council to address several key issues facing our community. The Policy Council has been tasked with developing recommendations to address issues such as mass transit expansion funding, courthouse and jail infrastructure funding, sea level rise, housing affordability, and gun violence epidemic. As a County Commissioner, Esteban Bovo, Jr. maintains an open-door policy and continues his commitment to improving our quality of life in Miami-Dade County.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Esteban L. Bovo, Jr. was born on June 12, 1962 in Queens, New York to Marilyn and Esteban Bovo-Carás.. Esteban Bovo has been a proud resident of Miami-Dade County for over 47 years and holds a Bachelor's degree in Political Science from Florida International University. He is married to Viviana and has five children; Oscar, Bianca, Esteban, Sofia, and Alessandro.

Rebecca Sosa, *Commissioner, Miami-Dade County Commission*

Rebeca Sosa has served on the Miami-Dade County Commission as District 6 commissioner since June 2001. She has been re-elected four times - most recently in 2014 without opposition- to represent the residents of the City of Miami, Coral Gables, West Miami, Hialeah and Miami Springs and the unincorporated communities of Schenley Park, Coral Villas, Red Bird, Coral Terrace, Little Gables and Fontainebleau.

On Nov. 20, 2012, she was elected by her colleagues as Chairwoman of the County Commission where she served a two-year term.

Commissioner Sosa was born in Camaguey, Cuba. She received her Bachelor Degree in Secondary Education from the University of Puerto Rico and a Bachelor Degree in Elementary Education from Saint Thomas University where she graduated Summa Cum Laude. She holds certifications both in elementary education and as an instructor for English for Speakers of Other Languages (ESOL). Commissioner Sosa has been an educator for more than 30 years and is currently a teacher-trainer for Miami-Dade County Public Schools.

Prior to joining Miami-Dade County, Commissioner Sosa served as mayor of the City of West Miami from 1994 to 2001 where her leadership resulted in the city's recovery from a 52 percent budget deficit, thus removing it from the Governor's Emergency List.

Roberto Martell, *Mayor, Town of Medley*

As Mayor of the Town of Medley, Roberto Martell is committed to serving his community. Mayor Roberto Martell began his public service in 2008 after being elected to the seat of Councilperson. In 2012, he was elected as Mayor of the Town of Medley, and in 2016 was re-elected for his second term as Mayor. Mayor Martell always puts forth the best interests of the residents, staff and business which make Medley what it is

AMERICAN OVERSIGHT

today.

Establishing his construction company, Martell Construction in 1987, Roberto Martell always excelled beyond the highest levels of expertise and honesty in the industry. Prior to beginning his company, Roberto Martell oversaw construction work on the Metro Rail, as well as drew up plans for new, turn-key properties. Inhis business, Martell believed in being straightforward and facilitating the construction process for his clients, including addressing any concerns regarding the before and during the construction, adhering to a strict construction timetable, and making sure work was completed in the most time and cost-effective way possible.

In March of 2016, Mayor Roberto Martell was appointed by Florida Governor Rick Scott to the Metropolitan Planning Organization of Miami-Dade County. Mayor Martell also proudly serve's on the following committee's: South Florida Regional Planning Council, MPO's Executive Policy Committee and the MPO's Fiscal Priorities Committee. Through his hard work and dedication, Mayor Martell continues to strive to bring economic growth and development to his Town.

Cliff Bauer, *Vice President of Government Relations, Miami Jewish Health*

Cliff Bauer oversees and represents Miami Jewish Health's PACE program and other public health programs and services to state and federal government agencies and regulators. He has more than 40 years of experience in healthcare management and has consulted for and guided healthcare associations on Medicare Advantage HMO programs and public health department grant programs.

Bauer is on the board of directors for the National PACE Association, Greater Miami Chamber of Commerce and Our Florida Promise, and is an adjunct professor at Florida International University.

He holds a Bachelor of Arts in biology from the University of Missouri and a master's degree in health administration from St. Louis University.

Steven Sonenreich, *President & CEO, Mount Sinai Medical Center*

Steven D. Sonenreich's 35-year career in healthcare began at Mount Sinai Medical Center in 1976.

In 1996, Steve left Mount Sinai for the opportunity to become chief executive officer of Cedars Medical Center in Miami. Under his direction, Cedars won several awards for customer service and overall performance. The Mount Sinai Medical Center Board of Trustees recruited Steve back to the hospital in his current position in late October 2001.

Under Sonenreich's leadership, Mount Sinai has been designated one of America's Top Hospitals for the last five consecutive years by U.S. News & World Report. In addition, Sonenreich helped expand Mount Sinai's operations over six South Florida locations to include the region's only freestanding emergency department and multiple outpatient physician offices. He has been honored as 2012 Citizen of the Year by the Miami Beach Chamber of Commerce and he received an award from The South Florida Business Journal as one of the ten Miami Ultimate CEOs in 2012.

He earned his Bachelor of Arts degree from the State University of New York at Binghamton and a Master of Business Administration and Certification in Healthcare Administration from the University of Miami.

Matthew A. Love, *President and CEO, Nicklaus Children's Health System*

Matthew A. Love has accepted the permanent role of president and chief executive officer (CEO) at Nicklaus Children's Health System (NCHS) in January 2020. Love, who joined the health system as chief financial officer in October 2018, was appointed interim president and CEO by the NCHS board of directors in July 2019.

Love has more than 20 years of experience in financial and operational oversight in both adult and pediatric healthcare systems. Prior to joining NCHS, he served as senior vice president and chief financial officer of Regions for Mercy Health System in Ohio, where he led a team of seven regional chief financial officers.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Jose Pepe, *Commissioner, Miami-Dade County Commission*

Commissioner Jose "Pepe" Diaz serves as the Commissioner for District 12, which includes the cities of Doral, Hialeah, Hialeah Gardens, Medley, Sweetwater, Virginia Gardens, and a large portion of unincorporated Miami-Dade County. He was first elected as commissioner in September 2002 and was re-elected to a fifth term in 2018. He also served as the Vice-Chairman of the Miami-Dade Board of County Commissioners from 2009-2010.

Commissioner Diaz has served in various capacities on different committees of the County Commission. Currently, he serves on the Health Care and County Operations Committee, the Public Safety and Rehabilitation Committee and the Parks, Recreation and Cultural Affairs Committee. He also serves as the Chairman of the Miami-Dade Value Adjustment Board and is a member of the South Florida Regional Planning Council. Additionally, Commissioner Diaz, who proudly served as a member of the U.S. Marine Corps, was appointed as Miami-Dade County's Military Liaison and also serves as the Chairman of Miami-Dade County's Military Affairs Board.

On the international level, Commissioner Diaz serves as Chairman of the International Trade Consortium Board and is an advocate for trade and forging partnerships with other nations. In March 2010, Commissioner Diaz was appointed by U.S. Trade Representative Ron Kirk to serve on the Intergovernmental Policy Advisory Committee on Trade (IGPAC), and proudly served until April 2018. In this capacity, Commissioner Diaz advised, consulted with, and made recommendations to the U.S. Trade Representative from the perspective of local governments. He also serves as Chairman of the Jay Malina International Trade Consortium (ITC), where he has been instrumental in making profitable connections for businesses on behalf of Miami-Dade County with the Caribbean and Latin America. He toured several Asian cities in 2005 (Tianjin, Hong Kong and Shanghai), met with government officials and business organizations to promote trade partnerships, and participated in a ceremony to mark a joint venture between Florida International University and Tianjin University of Commerce. The commissioner and the Asian delegation also secured a cooperative agreement for the County with Tianjin's Municipal People's Government.

Before joining the Commission, Commissioner Diaz worked to resolve the ongoing flooding issues throughout Miami-Dade County as Mayor of Sweetwater.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Commissioner Jose "Pepe" Diaz is married and has three daughters. He was born in Pinar del Rio, Cuba and has lived in Sweetwater, Fla., for more than 30 years. In 1979, Commissioner Diaz enlisted in the U.S. Marine Corps and was honorably discharged in December 1984. In 1986, he began his career in public service as Chairman of the City of Sweetwater Police Retirement Trust Fund Board. For the next seven years, he served on the City of Sweetwater Commission and was elected Mayor of Sweetwater in May 1999.

Rodolfo Garcia, *CEO, Westchester General Hospital*

Rodolfo "Rudy" Garcia (born April 15, 1963) was a Republican member of the Florida Senate, representing the 40th District since 2001. Previously he was a member of the Florida House of Representatives from 1985 through 2000. He ran for Mayor of Hialeah, Florida in 2011, but lost. Garcia has ben the CEO of Westchester General Hospital since 2017.

Jonathan Martinez, *Executive Officer, City of Hialeah Mayor's Office*

Jonathan Martinez is the Mayor's Executive Officer in the City of Hialeah. He has served in this position for over two years. Prior to this, Martinez worked for the City of Hialeah for nearly thirteen years as a Community Development Administrative Officer and the Mayor's Liaison to Community Development. He is also a Trust Member at Citizen Independent Transportation Trust. Martinez attended Barry University.

Coronavirus prompts new emergency declaration in Florida

By Gary Fineout, Arek Sarkissian

03/09/2020 08:04 PM EDT

TALLAHASSEE — Florida Gov. Ron DeSantis declared a state of emergency due to the ongoing coronavirus threat in the state, capping off a surreal day in which the Legislature briefly shut down operations in the state capitol out of fear that five legislators might have been exposed to the respiratory virus.

DeSantis, who met with President Donald Trump Monday to discuss the crisis, sought to reassure Floridians that the state is preparing for the worst. But the governor said that there's no evidence that the disease is spreading through entire communities. So far, 18 people in the

AMERICAN OVERSIGHT

state have tested positive for the virus and there have been two fatalities.

“My hope is we continue to address this aggressively,” said DeSantis, who stressed that state officials were pursuing a strategy of containment.

“This is a fluid situation,” he said. “This is going to be a team effort, this is going to be a bottom-up effort.”

And while state officials are making preparations — including the possibility of shifting hundreds of thousands of students to virtual learning and urging nursing homes and hospitals to screen visitors — DeSantis said there were no plans to “dictate” to local communities that they should cancel events.

The governor’s calm was in stark contrast to a spectacle that unfolded in the Florida House before his remarks. In the middle of session, House Speaker Jose Oliva announced that five legislators and a staff member had agreed to quarantine themselves because they had attended conferences in Washington where participants had tested positive.

Oliva said the move was a precaution and that the five legislators — Republicans Anthony Sabatini of Howey-in-the-Hills, Byron Donalds of Naples, Thad Altman of Indialantic, Cord Byrd of Neptune Beach and House Democratic Leader Kionne McGhee — would be tested.

A House cleaning crew led by state Rep. Cary Pigman (R-Avon Park), an emergency doctor, sprayed and wiped the desks of the legislators. Ninety minutes later, the non-quarantined members were called back to the chamber. From the floor, Pigman said Florida Surgeon General Scott Rivkees had concluded that the five members faced a low risk of contracting the virus and would return to the chamber.

DeSantis declared a public health emergency March 1, but Monday‘s declared state of emergency gives the governor new powers. It gives Florida the ability to bring in out-of-state medical personnel, purchase supplies more quickly and deploy the Florida National Guard if necessary.

The ongoing crisis has been one of the most serious tests for DeSantis, as both he and Rivkees have come under criticism for the way they’ve released information.

U.S. Sen. Rick Scott (R-Fla.) over the weekend was among those asking questions, saying he was surprised to see that one of the fatalities was in Lee County, adjacent to his home county of Collier County.

“People are going to chirp,” DeSantis said when asked about Scott. He noted that state officials did not have test results for the Lee County resident until after they had died from the virus.

AMERICAN OVERSIGHT

STATE OF FLORIDA
DEPARTMENT OF HEALTH
DECLARATION OF PUBLIC HEALTH EMERGENCY

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that appears to occur through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, as of February 29, 2020, COVID-19 has spread throughout China and to 67 other countries and territories, including 62 cases within the United States; and

WHEREAS, the Centers for Disease Control and Prevention recommends that all states and territories implement aggressive measures to slow and contain transmission of COVID-19 in the United States; and

WHEREAS, on January 30, 2020, the World Health Organization declared a public health emergency of international concern related to COVID-19; and

WHEREAS, on January 31, 2020, the United States Department of Health and Human Services declared that a public health emergency exists nationwide as a result of confirmed cases of COVID-19 in the United States; and

WHEREAS, one Hillsborough County resident and one Manatee County resident have tested presumptively positive for COVID-19; and

WHEREAS, on March 1, 2020, Governor Ron DeSantis issued Executive Order 20-51, declaring that appropriate measures to control the spread of COVID-19 in the State of Florida are necessary, and therefore directed that a Public Health Emergency be declared in the State of Florida; and

WHEREAS, implementation of basic precautions of infection control and prevention, including staying at home when ill and practicing respiratory and hand hygiene are necessary to slow or prevent the spread of COVID-19; and

WHEREAS, COVID-19 is a communicable disease with significant morbidity and mortality, and presents a severe danger to public health; and

WHEREAS, COVID-19 is a threat to public health in Florida.

NOW, THEREFORE, I, Scott A. Rivkees, M.D., State Surgeon General and State Health Officer, by virtue of Executive Order Number 20-51 issued by Governor Ron DeSantis, the authority vested in me by section 381.00315, Florida Statutes, and after consultation with

AMERICAN OVERSIGHT

Governor Ron DeSantis and public health officials within the Department of Health, do hereby declare that a public health emergency exists in the State of Florida. In order to respond to this emergency, the following shall commence:

Section 1. In order to protect public health, I find it is necessary for the Florida Department of Health to request assistance from the Centers for Disease Control and Prevention to address this public health emergency.

Section 2. In order to protect public health, I find it is necessary to advise individuals in the State of Florida that have traveled to an area that the Centers for Disease Control and Prevention has issued a Warning Level 3 or Alert Level 2 Travel Health Notice, or have been in close contact with an individual that has traveled to such an area, that develop symptoms of fever, cough, shortness of breath, or difficulty breathing within 14 days of such travel or close contact should immediately contact the Florida Department of Health in their current county and self-isolate until cleared by the Florida Department of Health.

Section 3. In order to protect public health, I find it is necessary to advise any individuals who believe they may have been exposed to COVID-19 to contact their local county health department **prior to** travelling to any physician's office, emergency department, hospital, or urgent care center, to ensure proper protective measures are taken to prevent further risk of spread to others.

Section 4. In order to protect public health, I find it is necessary to remind health care providers, hospitals, and labs that they are required to immediately report all suspected cases of COVID-19 to the local county health department to ensure a prompt public health response to prevent disease among close contacts.

Section 5. In order to protect public health, the Florida Department of Health will maintain an Incident Management Team to coordinate the public health response for the State of Florida.

Section 6. In order to protect public health, the Florida Department of Health, at such time when necessary, may take actions to protect the public health, pursuant to the authority of section 381.00315, Florida Statutes, including quarantine, isolation and other interventions.

Issued this 1st day of March 2020, in Department of Health offices, Tallahassee, Leon County, Florida.

Scott A. Rivkees, M.D.
State Surgeon General

AMERICAN OVERSIGHT

STATE OF FLORIDA

OFFICE OF THE GOVERNOR
EXECUTIVE ORDER NUMBER 20-51
(Declares a State of Emergency and Establishes COVID-19 Disease Response Protocol)

WHEREAS, Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, in late 2019, a new and significant outbreak of COVID-19 emerged in China; and

WHEREAS, the World Health Organization previously declared COVID-19 a Public Health Emergency of International Concern; and

WHEREAS, in response to the recent COVID-19 outbreak in China, Iran, Italy and South Korea, the Centers for Disease Control and Prevention ("CDC") has deemed it necessary to prohibit or restrict non-essential travel to or from those countries; and

WHEREAS, the CDC currently recommends community preparedness and everyday prevention measures be taken by all individuals and families in the United States, including voluntary home isolation when individuals are sick with respiratory symptoms, covering coughs and sneezes with a tissue and disposal of the tissue immediately thereafter, washing hands often with soap and water for at least 20 seconds, use of alcohol-based hand sanitizers with 60%-95% alcohol if soap and water are not readily available, and routinely cleaning frequently touched surfaces and objects to increase community resilience and readiness for responding to an outbreak; and

Commented [SLLR1]: https://www.cdc.gov/coronavirus/2019-ncov/preparing-individuals-communities.html

DRAFT

AMERICAN OVERSIGHT

WHEREAS, two individuals in the state of Florida tested presumptively positive for COVID-19 on February 29, 2020, including a resident of Manatee County that was hospitalized in Sarasota County and a resident of Hillsborough County with recent travel to Italy; and

WHEREAS, the CDC currently recommends mitigation measures for communities experiencing an outbreak including staying at home when sick, keeping away from others who are sick, limiting face-to-face contact with others as much as possible, consulting with your healthcare provider if individuals or members of a household are at high risk for COVID-19 complications, wearing a facemask if advised to do so by a healthcare provider or by a public health official, staying home when a household member is sick with respiratory disease symptoms if instructed to do so by public health officials or a health care provider; and

WHEREAS, the CDC currently recommends community mitigation measures to be implemented by local authorities in communities where COVID-19 is occurring, including, temporary closures or dismissals of childcare facilities and schools, and other social distancing measures that increase the physical space between people including modifying, postponing, or cancelling mass gatherings; and

WHEREAS, it is necessary and appropriate to take action to ensure that COVID-19 remains controlled, and that residents and visitors in Florida remain safe and secure;

NOW, THEREFORE, I RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution, chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order to take immediate effect:

Section 1. Because of the foregoing conditions, I declare that a state of emergency exists in the following counties: Manatee, Sarasota, and Hillsborough Counties/the state of Florida,

DRAFT

AMERICAN OVERSIGHT

pursuant to his authority in section 381.00315, Florida Statutes. The State Health Officer is authorized and directed to use his judgment as to the duration and geographical boundaries of this public health emergency.

Section 2. Because of the foregoing conditions, I direct the State Health Officer and Surgeon General, Dr. Scott Rivkees, to declare a public health emergency in Manatee, Sarasota, and Hillsborough Counties/the state of Florida, pursuant to his authority in section 381.00315, Florida Statutes. The State Health Officer is authorized and directed to use his judgment as to the duration and geographical boundaries of this public health emergency.

Section 3. In accordance with section 381.0011(7), Florida Statutes, I declare the State Health Officer and Surgeon General as the State Coordinating Officer and direct the State Health Officer to take any action necessary to protect the public health.

Section 4. The State Health Officer is directed to follow the guidelines established by the CDC in establishing protocols to control the spread of COVID-19 and educate the public on prevention.

Section 5. In accordance with section 381.0011(7), Florida Statutes, I designate the Florida Department of Health as the lead state agency to coordinate emergency response activities among the various state agencies and local governments. The State Health Officer, or his designee, shall advise the Executive Office of the Governor on the implementation of these emergency response activities.

Section 6. I find that the special duties and responsibilities resting upon some State, regional, and local agencies and other governmental bodies in responding to the emergency may require them to suspend the application of the statutes, rules, ordinances, and orders they administer. Therefore, I issue the following authorizations:

DRAFT

AMERICAN OVERSIGHT

A. Pursuant to section 252.36(5)(a), Florida Statutes, the Executive Office of the Governor may suspend all statutes and rules affecting budgeting to the extent necessary to provide budget authority for state agencies to cope with this emergency. The requirements of sections 252.46 and 120.54(4), Florida Statutes, do not apply to any such suspension issued by the Executive Office of the Governor, however, no such suspension shall remain in effect beyond expiration of this Executive Order, to include any extension.

B. Each state agency may suspend the provisions of any regulatory statute prescribing the procedures for conduct of state business or the orders or rules of that agency, if strict compliance with the provisions of any such statute, order, or rule would in any way prevent, hinder, or delay necessary action in coping with the emergency. This includes, but is not limited to, the authority to suspend any and all statutes, rules, ordinances, or orders which affect leasing, printing, purchasing, travel, and the condition of employment and the compensation of employees. For the purposes of this Executive Order, "necessary action in coping with the emergency" means any emergency mitigation, response, or recovery action: (1) prescribed in the State Comprehensive Emergency Management Plan ("CEMP"); (2) directed by the Executive Office of the Governor; or (3) ordered by the State Coordinating Officer. The requirements of sections 252.46 and 120.54(4), Florida Statutes, shall not apply to any such suspension issued by a State agency; however, no such suspension shall remain in effect beyond the expiration of this Executive Order, to include any extensions of this Order.

C. In accordance with section 456.0275, Florida Statutes, pharmacists may dispense up to a 30-day emergency prescription refill of maintenance medication to persons who reside in an area or county covered under this Executive Order and to emergency personnel who

DRAFT

AMERICAN OVERSIGHT

have been activated by their state and local agency but who do not reside in an area or county covered by this Executive Order.

D. In accordance with section 252.38, Florida Statutes, each political subdivision within the State of Florida may waive the procedures and fom1alities otherwise required of the political subdivision by law pertaining to:

1) Performance of public work and taking whatever prudent action is necessary to ensure the health, safety, and welfare of the community;

2) Entering into contracts; however, political subdivisions are cautioned against entering into time and materials contracts without ceiling as defined by 2 CFR 200.318(j) or cost plus percentage contracts as defined by 2 CFR 200.323(d);

3) Incurring obligations;

4) Employment of permanent and temporary workers;

5) Utilization of volunteer workers;

6) Rental of equipment;

7) Acquisition and distribution, with or without compensation, of supplies, materials, and facilities; and,

8) Appropriation and expenditure of public funds.

E. All State agencies responsible for the use of State buildings and facilities may close such buildings and facilities in those portions of the State affected by this emergency, to the extent to meet this emergency. I direct each State agency to report the closure of any State building or facility to the Secretary of the Department of Management Services. Under the authority contained in section 252.36, Florida Statutes, I direct each County to report the closure of any building or facility operated or maintained by the County or any political subdivision therein

DRAFT

AMERICAN OVERSIGHT

to the Secretary of the Department of Management Services. Furthermore, I direct the Secretary of the Department of Management Services to:

1) Maintain an accurate and up-to-date list of all such closures; and,

2) Provide that list daily to the State Coordinating Officer.

Section 7. I find that the demands placed upon the funds appropriated to the agencies of the State of Florida and to local agencies are unreasonably great and may be inadequate to pay the costs of coping with this disaster. In accordance with section 252.37(2), Florida Statutes, I direct that sufficient funds be made available, as needed, by transferring and expending moneys appropriated for other purposes, moneys from unappropriated surplus funds, or from the Budget Stabilization Fund.

Commented [SLLR2]: Taken from hurricane EO. Prescription refill waiver most appropriate, but put the others in here too in an abundance of caution.

Section 8. All activities taken by the State Health Officer with respect to this emergency before the issuance of this Executive Order are ratified.

Commented [SLLR3]: Necessary?

Section 9. The Florida Department of Health will actively monitor all asymptomatic travelers with no known exposure to COVID-19 who are identified by the CDC as being located in Florida for a period of 14 days after leaving the COVID-19 affected country. Active monitoring by the Florida Department of Health will include at least the following:

A. Risk assessment within 12 hours of the traveler's arrival in Florida.

B. Twice-daily temperature checks of the traveler reported to the Florida Department of Health.

Section 10. The Florida Department of Health, pursuant to its authority in section 391.00315, Florida Statutes, will quarantine or isolate all individuals meeting the CDC's definition of a Person Under Investigation ("PUI") for a period of 14 days or until the person tests negative for COVID-19.

DRAFT

AMERICAN OVERSIGHT

Section 11. I hereby direct the Florida Department of Health to make its own determinations as to quarantine and other necessary public health interventions as permitted under Florida law.

Section 12. All agencies under the direction of the Governor are directed to fully cooperate with the Florida Department of Health, and any representative thereof in furtherance of this Order. Agencies not under the direction of the Governor are requested to provide such assistance as is required.

Section 13. This Executive Order shall expire sixty days from this date unless extended.

DRAFT

AMERICAN OVERSIGHT

STATE OF FLORIDA
DEPARTMENT OF HEALTH
DECLARATION OF PUBLIC HEALTH EMERGENCY

WHEREAS, Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that appears to occur through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, as of February 29, 2020, COVID-19 has spread throughout China and to 31 other countries and territories, including 69cases within the United States; and

WHEREAS, the Centers for Disease Control and Prevention recommends that all states and territories implement aggressive measures to slow and contain transmission of COVID-19 in the United States; and

WHEREAS, on January 30, 2020, the World Health Organization declared a public health emergency of international concern related to COVID-19; and

WHEREAS, on January 31, 2020, the United States Department of Health and Human Services declared that a public health emergency exists nationwide as a result of confirmed cases of COVID-19 in the United States; and

WHEREAS, on March 1, 2020, two persons in Hillsborough and Sarasota counties tested presumptive positive for COVID-19; and

WHEREAS, on March 1, 2020, Governor Ron DeSantis issued Executive Order 20-XX, declaring that COVID-19 threatens the state of Florida with an emergency, and that as a consequence, a state of emergency exists in the State of Florida; and

WHEREAS, implementation of basic precautions of infection control and prevention, including staying at home when ill and practicing respiratory and hand hygiene are necessary to slow or prevent the spread of COVID-19; and

WHEREAS, COVID-19 is a communicable disease with significant morbidity and presents a severe danger to public health; and

WHEREAS, COVID-19 is a threat to public health in Florida.

NOW, THEREFORE, I, Scott A. Rivkees, M.D., State Surgeon General and State Health Officer, by virtue of Executive Order Number 20-XX issued by Governor Ron DeSantis, the authority vested in me by section 381.00315, Florida Statutes, and after consultation with Governor Ron DeSantis and public health officials within the Department of Health, do hereby

AMERICAN OVERSIGHT
FL-GOV-20-0899-A-001152

declare that a public health emergency exists in Hillsborough, Sarasota, and Manatee Counties/the State of Florida. In order to respond to this emergency, the following shall commence:

Section 1. In order to protect public health, I find it is necessary for the Florida Department of Health to request assistance from the Centers for Disease Control and Prevention to address this public health emergency.

Section 2. In order to protect public health, I find it is necessary to advise individuals in the state of Florida that have traveled to an area that the Centers for Disease Control and Prevention has issued a Warning Level 3 or Alert Level 2 Travel Health Notice, or have been in close contact with an individual that has traveled to such an area, that develop symptoms of fever, cough, shortness of breath, or difficulty breathing within 14 days of such travel or close contact should immediately contact the Florida Department of Health in their current county and self-isolate until cleared by the Florida Department of Health.

Section 3. In order to protect public health, I find it is necessary to require any individual that believes they may have been exposed to COVID-19 to contact their local county health department **prior to** travelling to any physician's office, emergency department, hospital, or urgent care center to ensure proper protective measures are taken to prevent further risk of spread to others.

Section 4. In order to protect public health, I find it is necessary to remind health care providers, hospitals, and labs that they are required to immediately report all suspected cases of COVID-19 to the local county health department to ensure a prompt public health response to prevent disease among close contacts.

Section 5. In order to protect public health, the Florida Department of Health will maintain an Incident Management Team to coordinate the public health response for the State of Florida.

Section 6. In order to protect public health, the Florida Department of Health, at such time when necessary, may take actions to protect the public health, pursuant to the authority of section 381.00315, Florida Statutes, including quarantine, isolation and other interventions.

Section 7. In order to protect public health, and in accordance with Executive Order 20-51 and section 456.0725, Florida Statutes, pharmacists may dispense up to a 30-day emergency prescription refill of maintenance medication to individuals in the state of Florida affected by this Public Health Emergency.

Issued this _____ day of March 2020, in Department of Health offices, Tallahassee, Leon County, Florida.

AMERICAN OVERSIGHT

has:

- been on a cruise anywhere,
- left the US,
- been to one of the domestic "red dot" areas (more info to come on that), or
- been on a commercial airplane in the LAST TWO WEEKS.

  These people should self-isolate for 14 days from the date of their last known exposure risk.

Attached is guidance I received from my DMS contact here at the SEOC.

As you know, the situation is changing rapidly and this information is valid as of the time I send it.

Subject: DCF HR 2020-032:**IMPORTANT** Leave Information Related to COVID-19

TO: All DCF Employees

PURPOSE: To notify you on leave use as it relates to Coronavirus Disease 2019 (COVID-19). Please adhere to the following:

- When on personal travel, state employees should follow the Centers for Disease Control and Prevention (CDC) best practices for prevention and treatment of COVID-19, especially employees who are considered at-risk or who have dependents or care for those with underlying conditions or vulnerabilities.
- Employees who travel or who live with an individual who has traveled internationally will not be allowed to return to work for 14 days upon return to the United States. If an employee is unable to return to work due to the stipulations mentioned above, available annual, sick, or personal leave (personal leave includes personal holiday and any compensatory leave) must be used. Employees who can work remotely may be able to do so with supervisor/management approval. Employees without available leave or approval to receive sick leave donations in accordance with the department's Sick Leave Transfer Plan, and who are unable to work remotely, may be subject to leave without pay.
- State employees who personally travel on a cruise or to an area of the United States experiencing community spread of COVID-19 as identified by the CDC or a state public health agency will not be allowed to return to work for 14 days upon returning to the United States. Employees will need to utilize their available sick, annual, or personal leave during this 14-day period. Employees who can work remotely may be able to do so with supervisor/management approval. Employees without available leave or approval to receive sick leave donations in accordance with the department's Sick Leave Transfer Plan, and who are unable to work remotely, may be subject to leave without pay.
- Employees who self-isolate due to possible exposure, even if not displaying symptoms of COVID-19, upon request of the Supervisor must provide appropriate supporting information and/or documentation. Employee will need to utilize available sick, annual, or personal leave during this 14-day period. Employees who

AMERICAN OVERSIGHT

can work remotely may be able to do so with supervisor/management approval. Employees without available leave or approval to receive sick leave donations in accordance with the department's Sick Leave Transfer Plan, and who are unable to work remotely, may be subject to leave without pay.

- Employees who have taken sick leave as a result of displaying possible COVID-19 symptoms such as fever, cough, runny nose, etc. may return to work once they no longer pose a health hazard to fellow employees which will require a medical release.

NOTE: Administrative leave may **not** be utilized at this time. Administrative leave may only be utilized as outlined in CFOP 60-40, Chapter 8, Leave for Disasters and Other Emergency Conditions.

Please see the attached Frequently Asked Questions (FAQs) for additional information.

If you have any questions regarding leave use, please contact your local Human Resources Business Partner. Requests/questions related to working remotely should be directed to your supervisor/management.

Thank you in advance for joining in efforts to reduce the spread of COVID-19. We will continue to closely monitor and evaluate available information and provide guidance as this is a rapidly evolving situation.

We appreciate your patience and commitment to protecting our communities.

Thank you.

ATTENTION: PLEASE DO NOT REPLY TO THIS EMAIL. This email address is not monitored and any requests submitted to this email address will not be responded to or processed. If you have questions or need assistance, the appropriate contact information is indicated above. Or you may create a ticket in the MyHR411 Self Service Portal. Please visit http://eww.dcf.state.fl.us/myhr411/SelfService/ to find training on how to create tickets and view communications regarding the use of the Human Resources self-service portal.

AMERICAN OVERSIGHT

Department of MANAGEMENT SERVICES
Division of State Human Resource Management

COVID-19: Frequently Asked Questions
HR Practitioners (SPS Agencies Only)

1. What resources are available for more information about COVID-19?

- Executive Order Number 20-51
- Florida Department of Health's COVID-19 Resources
- Centers for Disease Control and Prevention's COVID-19 Resources
- Human Resources Pandemic Emergency Response Program Manual
- Department of Health's COVID-19 Call Center 1-(866) 779-6121 or COVID-19@flhealth.gov. The Call Center is available Monday through Friday, 8:00am to 7:00pm.

2. If an employee is ordered by the Florida Department of Health (FDOH) or the U.S. Center for Disease Control (CDC) to mandatory isolation related to COVID-19, what leave should be used by an employee during this period?

Since the employee would be under a mandatory isolation as ordered by either the FDOH or the CDC, the employee would be eligible to use his/her accrued sick leave or leave without pay for work time missed while on an ordered isolation period, regardless of whether the employee has tested positive for COVID-19. However, if an employee is not ill and is not ordered to remain in isolation by FDOH or CDC, or any other health care practitioner, an employee is not eligible to use sick leave, but may use annual leave, compensatory leave or leave without pay, subject to the approval of the agency.

3. Are OPS employees eligible for paid hours off during an isolation period?

No. The use of accrued leave is only available to employees filling salaried positions within the SPS. OPS employees are specifically excluded pursuant to Rule 60L-33.005, Florida Administrative Code (F.A.C.), Other Personal Services Employment.

4. Are supervisors authorized to send sick employees home?

As always, if the health of fellow employees is endangered by an employee exhibiting observable symptoms of an infectious disease, supervisors have the authority and obligation to require the employee to leave the workplace. Where practicable, supervisors should first seek the approval of their manager, division director, or human resources before sending a sick employee home. Symptoms of the COVID-19 virus include fever, cough, or shortness of breath.

5. Are leave requests under the Family and Medical Leave Act and the State's Family Supportive Work Program permitted for a qualifying personal illness or to care for sick family members during the response to COVID-19?

Yes. Employer obligations under the federal FMLA and state FSWP continue. Agencies should support employees seeking medical assistance for themselves and their families including the approval of FMLA and FSWP for eligible employees, when appropriate.

AMERICAN OVERSIGHT

6. If a school or day care center closes in response to COVID-19 and employees request leave to be off with their children, may employees use sick leave to stay home with their children?

Sick leave is not authorized when the need for leave is solely related to childcare of a healthy child when schools or daycares have closed. Employees may only use sick leave to care for children who are sick. Agencies should follow normal policies and procedures including Rule 60L-34.0042, F.A.C., when determining if sick leave is appropriate. Agencies are encouraged to be flexible, to the extent possible, when reviewing leave requests to care for children who are unable to attend school or day care centers that close in response to COVID-19. If everyone in the family is well, employees should use annual leave or compensatory leave.

Note: If schools and day care centers are closed in response to COVID-19, employees will not be allowed to bring their children to work.

7. Is management permitted to rescind approved annual and compensatory leave?

Yes, if an employee's absence would disrupt the State's business operations (e.g., significant staffing shortages). Before rescinding approved leave, management should seek staff to volunteer for work. Rescinding leave that is already in progress should be reasonably based on an employee's ability to return to work.

8. Do agencies have the authority to require a medical certification before allowing an employee to return to work from any infectious disease?

Yes. Medical certifications may be required at the agency's discretion.

9. If an individual is under isolation and/or experiencing symptoms consistent with COVID-19, may agencies permit and/or encourage employees to telework as an option in order to minimize interactions between employees at the work facility (social distancing)?

If the nature of an employee's work responsibilities can be accomplished away from the assigned work facility and if any necessary technological/equipment needs can be satisfied, the agency may permit and encourage employees to telework as a way to reduce the face-to-face contacts between employees at the regular work location. Agencies should review their telework policies to ensure they are current and up-to-date and consider whether any component of their policies should be modified to allow broader use of telework as appropriate.

10. Can agencies require employees to work from home?

If an employee is not experiencing symptoms of an illness that could endanger others and if the employee has not been asked to self-isolate by either FDOH or the CDC, an employer cannot force the employee to work from home.

AMERICAN OVERSIGHT

11. How should agencies manage their contingent workforce such as contractors, volunteers, and OPS employees?

Agencies should plan for the possibility that their contingent workforce may be impacted by COVID-19 and should plan accordingly. While the State Personnel System does not provide paid leave to individuals in these work arrangements, as with its own employees, agencies should also be flexible to the needs of the contingent workforce and plan for the possibility that the contingent workforce may be limited. Additionally, agencies may consider using contingent workers as a way to continue normal operations if a significant portion of the regular workforce is impacted by COVID-19.

Filing # 104886923 E-Filed 03/13/2020 11:49:42 PM

IN THE CIRCUIT COURT OF THE SECOND JUDICIAL CIRCUIT, IN AND FOR LEON COUNTY, FLORIDA

TEDDI PITTS

Plaintiff,

v.

STATE OF FLORIDA, OFFICE OF THE GOVERNOR,

Defendant.
_____/

CASE NO.: 20-CA- 2020 CA 000504
FLA BAR NO.: 0739685

COMPLAINT

Plaintiff, TEDDI PITTS, hereby sues Defendant, STATE OF FLORIDA, OFFICE OF THE GOVERNOR, and alleges:

NATURE OF THE ACTION

1. This is an action brought under Chapter 112, Florida Statutes.

2. This action involves claims which are, individually, in excess of Thirty Thousand Dollars ($30,000.00), exclusive of costs and interest.

THE PARTIES

3. At all times pertinent hereto, Plaintiff, TEDDI PITTS, has been a resident of the State of Florida and was employed by Defendant State of Florida. Plaintiff is a member of a protected class due to her submission of a grievance reporting and disclosing Defendant's malfeasance, misfeasance and/or gross misconduct. Plaintiff was retaliated against after reporting Defendant's unlawful employment practices.

4. At all times pertinent hereto, Defendant, STATE OF FLORIDA, OFFICE OF THE GOVERNOR, has been organized and existing under the laws of the State of Florida. At all times

AMERICAN OVERSIGHT

pertinent to this action, Defendant has been an "employer" as that term is used under the applicable laws identified above. Defendant was Plaintiff's employer as it relates to these claims.

CONDITIONS PRECEDENT

5. Plaintiff has satisfied all conditions precedent to bringing this action in that Plaintiff filed a charge of discrimination with the Equal Employment Opportunity Commission and the Florida Commission on Human Rights ("FCHR"). This action is timely filed thereafter.

STATEMENT OF THE ULTIMATE FACTS

6. Plaintiff, a protected whistleblower, was employed as the Executive Director of Florida Transportation Commission ("FTC").

7. From May 2018 to May 2019, Plaintiff filed four (4) Whistleblower Charges with the FCHR against the Florida Department of Transportation ("FDOT") and the FTC wherein she reported misfeasance, malfeasance, or gross misconduct by FDOT and FTC.

8. On May 9, 2018, Plaintiff filed a Whistleblower Charge of Discrimination with the FCHR, predominately addressing FTC's retaliatory conduct towards her after reporting and investigating an unauthorized $5.5 billion surplus.

9. Plaintiff filed her second Whistleblower Charge with the FCHR on December 12, 2018 and addressed FTC and FDOT's continued retaliation.

10. Plaintiff filed her third Whistleblower Charge with the FCHR on January 29, 2019, wherein she identified FTC's retaliatory actions against her, including, but not limited to, her constructive and/or actual termination by FTC.

11. On March 8, 2019, Plaintiff filed the fourth Whistleblower Charge with FCHR alleging retaliation and interference with Plaintiff's business relationships by FTC and Defendant Governor's Office.

AMERICAN OVERSIGHT

12. The Defendant, Office of Governor, was provided a copy of all of these charges as required by law.

13. In retaliation for her filing of these charges and for her reporting of the misfeasance, malfeasance, and/or gross misconduct by these Defendants, the Defendant Office of Governor has retaliated against Plaintiff by blocking her job opportunities specifically but not limited to the following: on April 23, 2019, Plaintiff was contacted by the Florida Agency for Persons with Disabilities ("APD"), and asked if she would be interested in a vacant position as its Deputy Director of Budget and Planning which not had been advertised.

14. On April 23, 2019, Plaintiff interviewed for the position with APD Chief of Staff David Dobbs and on April 24, 2019, she interviewed with the APD Director Barbara Palmer.

15. Director Palmer offered Plaintiff the position which Plaintiff accepted.

16. Director Palmer told Plaintiff that because the position was a leadership position, they had to let the Governor's Office know who they wanted to hire and that she would make the call that afternoon.

17. Plaintiff was interviewed by Defendant Office of Governor Deputy Chief of Staff James Blair on May 17, 2019. Blair told Plaintiff he had to run it up the ladder. Blair told APD Dodds and Palmer that the interview went great and that he was impressed.

18. On May 31, 2019, APD Chief of Staff Dobbs called Plaintiff and told her the Governors Office did not approve her hire and wanted to see more applicants. Dobbs told the Defendant Office of Governor that Plaintiff was the best they were going to find, but they told him no, and to send more applicants. Dobbs expressed that he was very disappointed that Office of Governor was taking these actions and that this had never happened before. APD Dobbs stated that it was normally just a formality and that APD always made the determination for hire.

AMERICAN OVERSIGHT

19. Plaintiff was denied this job opportunity due to the Defendant Office of Governor retaliation for Plaintiff's filing of her previous charges and reporting of misfeasance, malfeasance, and/or gross misconduct by FDOT, FTC, and Office of Governor. There is a causal connection between Plaintiff's continued reporting under the Public Whistleblower's Act and the continued retaliation prohibiting Plaintiff form obtaining one or more job, the above job being only an example of positions she has been denied, upon information and belief, due to the actions of the Defendant in retaliation against her.

20. Plaintiff has retained the undersigned to represent her interests in this cause and is obligated to pay a fee for these services. Defendant should be made to pay said fee under the laws referenced above.

COUNT I
PUBLIC WHISTLEBLOWER RETALIATION

21. Paragraphs 1 through 20 above are incorporated herein by reference.

22. This count sets forth a claim against Defendant under §112.3187, et seq., Florida Statutes.

23. Plaintiff was a public employee protected under the provisions of Chapter 112, Florida Statutes.

24. As stated more specifically in part above, Plaintiff reported and disclosed violations of rules, regulations and laws, and/or malfeasance, misfeasance and/or gross misconduct to persons both inside and outside of her normal chain of command, and to others having the authority to investigate, police, manage and otherwise remedy the violations of rules, regulations and laws that she reported. Plaintiff also disclosed this information when she participated in investigations, hearings, or other agency inquiries. Plaintiff reported malfeasance, misfeasance, and other acts specifically outlined in §112.3187(5), Florida Statutes.

AMERICAN OVERSIGHT

25. After reporting these matters and/or participating in investigations, hearings, or other agency inquiries, as related in part above, Plaintiff was the victim of retaliatory actions set forth in part above including without limitation her termination.

26. The failure to hire Plaintiff in one or more jobs and/or being blocked from one or more positions is the result of her reporting violations of rules, regulations or laws, and/or her reporting malfeasance, misfeasance or gross misconduct, and/or her participating in investigations, hearings or other inquiries, specified in part above.

27. The actions of all employees within Defendant who affected Plaintiff's prospective employment adversely did so at least in part in retaliation against her for her "whistleblowing" activities.

28. As a direct and proximate result of the actions taken against her by Defendant, Plaintiff has suffered injury, including but not limited to past and future wage losses, loss of benefits, emotional pain and suffering, loss of the capacity for the enjoyment of life and other tangible and intangible damages. These damages have occurred in the past, are occurring at present and will occur in the future. Plaintiff is entitled to injunctive relief.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff demands judgment against Defendant for the following:

(a) that process issue and this Court take jurisdiction over this case;

(b) that this Court grant equitable relief against Defendant under the applicable counts set forth above, mandating Defendant's obedience to the laws enumerated herein and providing other equitable relief to Plaintiff;

AMERICAN OVERSIGHT

(c) enter judgment against Defendant and for Plaintiff awarding all legally-available general and compensatory damages and economic loss to Plaintiff from Defendant for Defendant's violations of law enumerated herein;

(d) enter judgment against Defendant and for Plaintiff awarding all legally-available damages for emotional pain and suffering to Plaintiff from Defendant for Defendant's violations of law enumerated herein.

(e) enter judgment against Defendant and for Plaintiff permanently enjoining Defendant from future violations of law enumerated herein;

(f) enter judgment against Defendant and for Plaintiff awarding Plaintiff attorney's fees and costs;

(g) award Plaintiff interest where appropriate; and

(h) grant such other further relief as being just and proper under the circumstances, including but not limited to reinstatement.

DEMAND FOR TRIAL BY JURY

Plaintiff hereby demands a trial by jury on all issues herein that are so triable.

DATED this 13th day of March 2020.

AMERICAN OVERSIGHT

Respectfully submitted,

/s/ Marie A. Mattox

Coronavirus: summary of persons being monitored and persons under investigation (confidential)

Mar 3, 2020 at 5:07 PM

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	929
CDC notifications	689
Other notifications*	240
Type of exposure	
Travel exposure	789
Airline/vessel contact	48
Close contact with case	88
Unknown	4
Exposure risk (cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html)	
High	19
Medium	647
Unknown (not contacted yet)	12
Low/no identified risk**	251
Total persons of high, medium, or unknown risk	678
Still being monitored	253
Contacted in person	94
Persons still monitored by top 10 counties	
Sarasota	63
Broward	48
Orange	20
Dade	19
Manatee	14
Hillsborough	13
Duval	11
Pinellas	8
Volusia	5
Leon	5

* Other notifications: persons who self-report, persons identified during monitoring of another person, etc.

**People with low or no risk identified through case contact investigations are not routinely being managed in the surveillance system, so are not reflected in this number.

Persons under investigation (PUI): people who meet laboratory testing criteria based on symptoms and exposure

Total identified	62
Tested negative	24

Confirmed and probable cases

Cases in Florida residents	3
Confirmed	2
Repatriated confirmed cases	1
Probable	0
Cases in non-Florida residents	1
Confirmed	1
Probable	0

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Tuesday, March 3, 2020 at 7:30 p.m.

CASES TO DATE

- 62 persons under investigation
- 24 negatives
- 3 cases in Florida residents
    - 2 diagnosed in Florida
    - 1 diagnosed and isolated in another state
- 1 presumptive positive (non-Florida resident) being sent to CDC today
- 38 tests in state results pending
- 929 people monitored to date
- 253 of that 929 are currently being monitored

The newly reported case diagnosed in another state was a Florida resident repatriated from China to Washington state and will remain in Washington until they test negative.

People who have tested positive for COVID-19 will remain in isolation until they test negative.

Call Center hotline hours extended: 8 a.m. – 8 p.m. EST and will extent to 12:00 a.m. EST on March 4.

CURRENT OPERATIONAL OBJECTIVES

1. **Contain the spread of the virus in Florida** through rapid identification and isolation of suspect cases, active monitoring and limited movement of travelers with increased risks during the incubation period.
2. **Implement laboratory testing** capability in Florida public health laboratories.
3. **Provide guidance and information to healthcare providers** in Florida regarding reporting suspect cases, infection control procedures, and clinical care.
4. **Disseminate coordinated public health messaging** to the public, healthcare stakeholders and partner agencies.
5. **Support county health department (CHD) operations** for epidemiological investigations, monitoring, public messaging and preparedness through resources, staffing and technical guidance.
6. **Prepare for the possibility that coronavirus becomes a global pandemic** by ensuring plans, resources and capabilities are in place to respond to a widespread outbreak and lessen the impacts on communities in Florida.
7. Monitor Florida hospitals for increased patient volume and support **strategies for medical surge.**

DRAFT

AMERICAN OVERSIGHT

KEY ACTIVITIES

Incident Management

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls. Calls are scheduled for each Wednesday at 2:00 EST.
- Established a public call-center for questions regarding COVID-19. Call center will launch Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumtive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.

Disease Control - COMPLETED

- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

Disease Control – IN PROGRESS

- Developing laboratory guidance for implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.

AMERICAN OVERSIGHT

- Validating laboratory test kits in state public health labs.
- Close contacts of presumtive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Confirmatory testing from CDC on presumtive cases expected on March 2.

Pandemic Preparedness - COMPLETED

- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:
    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.

Pandemic Preparedness – IN PROGRESS

- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.

AMERICAN OVERSIGHT

- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Pending scheduling of weekly emergency management partner call for pandemic planning in coordination with the Division of Emergency Management.

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.
January 30, 2020	• World Health Organization declared the outbreak a public health emergency of international concern.
January 31, 2020	• Public Health Emergency was declared in the U.S. • U.S. government suspended entry of persons posing a risk of transmitting the virus in the U.S. • Distributed update CHD guidance document and health care provider letter with new patient under investigation criteria sent by CDC.
February 5, 2020	• Florida Department of Health began receiving notifications of persons entering Florida from outside the U.S. with potential exposure to monitor during the incubation period. • Conducted update call with Florida Hospital Association partners.
February 6, 2020	• Developed and distributed guidance on CHD implementation of CDCs guidance on risk assessment and monitoring of travelers to county health directors and epidemiologists.
February 12, 2020	• Conducted first Public Health & Healthcare Stakeholders Conference Call.
February 13, 2020	• Expanded activation of Incident Management Team to include Divisions of Disease Control, Bureau of Preparedness and Response, Office of Communications, Office of the Gneral Counsel and Office of County Health Systems.
February 19, 2020	• Conducted briefing with Executive Office of the Governor.
February 20, 2020	• Distributed CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions. • Distributed Long-Term Care Guidance to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions.
February 26, 2020	• Conducted briefing with Executive Office of the Governor. • Activated emergency duty policy to mobilize Department staff as needed to support the incident response.
February 27, 2020	• Distributed Personal Protective Equipment landscape assessment.
February 28, 2020	• Coducted press conference with Governor, Lieutenant Governor, State Surgeon General (SSG) and Deputy Scretary for Health regardign State Response to COVID-19. • Conducted Agency Emergency Coordination Officer Pandemic Preparedness Plannign Meeting in coordination with the Division of Emergency Management.

AMERICAN OVERSIGHT

	• Participated in meeting with Vice President Mike Pence, Gov. Ron DeSantis, Florida Lt. Gov. Jeanette Núñez, the U.S. Surgeon General and the Florida Surgeon General • Publically announced persons under investigation and monitoring numbers.
February 29, 2020	• Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs • Implemented testing at the State Public Health Laboraties.
March 1, 2020	• Presumtive positive cases of residents in Manatee and Hillsborough announced via press release. • Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency. • SSG Rivkees declared a public health emergency for the novel coronavirus in Florida. • Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education. • Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories
March 2, 2020	• DOH public call center for COVID-19 opened. • CDC confirmed two cases of COVID-19.
March 3, 2020	• Conducted call with Florida Healthcare Association for nurnsing homes. • Conducted call with Assisted Living Facilities and other residential treatment facilities. • Conducted call with Florida Medical Association • Scheduled twice meeting with county emergency mangement officials in coordination with the Division of Emergency Managemet. • Scheduled State Agency briefing. • Extened call center hours to 8pm EST (7pm CST) • Conducted call with Florida's federal legislative delegation.

Subject: Follow-Up Vice President's Discussion with Our Nation's Governors on COVID-19 Coordination & Preparedness

Our Nations' Governors,

Thank you for joining today's discussion between the **Vice President and Our Nation's Governors on COVID-19 Coordination & Preparedness**. Below you will find a readout of the briefing along with additional resources.

Vice President Mike Pence today participated in a discussion with more than 50 of our Nation's governors to provide an update on the work of the White House Coronavirus Task Force, to continue coordination with governors and state and local officials to respond to and prepare for the coronavirus, and to thank governors and state and local leaders—particularly state and local health officials—for their leadership.

AMERICAN OVERSIGHT

The Vice President first introduced Ambassador Debbie Birx. M.D. as the White House Coronavirus Coordinator. Dr. Birx is a world renowned expert in handling the HIV/AIDS epidemic who will play a critical role in the Administration's efforts and understands the importance of a whole-of-government approach alongside governors, state and local leaders.

Next, U.S. Department of Health and Human Services (HHS) Secretary Alex Azar, and Centers for Disease Control & Prevention (CDC) Principal Deputy Director Dr. Anne Schuchat provided a status update on the Coronavirus, outlined ongoing Federal efforts, and discussed State and local actions with the governors.

Governor Larry Hogan, Chair of the National Governors Association, joined the Vice President in person, and other governors joined via video teleconference or phone.

Since the very beginning of the coronavirus outbreak, the President has taken an unprecedented whole-of-government approach to protect the American people, thus the Vice President pledged to convene the governors for a teleconference on a weekly basis, assuring that Federal leaders will continue its close coordinate with our Nation's governors and other State and local leaders on a Whole-of Government Approach to the developing situation.

Moving forward, the Vice President asks that you keep the following resources close at hand.

Helpful Agency Contact Information: Below, please find contact information for our Intergovernmental Affairs colleagues across the Federal family.

Framework Mitigation Strategies for Communities with Local COVID-19 Transmission

Protect yourself and your community from getting and spreading respiratory illnesses like coronavirus disease 2019. Everyone has a role to play in getting ready and staying healthy. CDC is aggressively responding to the global outbreak of COVID-19 and community spread in the United States. CDC's all of community approach is focused to slow the transmission of COVID-19, reduce illness and death, while minimizing social and economic impacts.

<!--[if !supportLists]-->• <!--[endif]-->A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission *(more* here*; 10-page frame work for States, localities, and communities).*

<!--[if !supportLists]-->• <!--[endif]-->CDC mitigation strategies for Santa Clara (CA), Seattle (WA), New Rochelle (NY), Florida, and Massachusetts.

Centers for Medicare & Medicaid Services (CMS) Resources for States

On Friday, the Trump Administration announced aggressive actions and regulatory flexibilities to help healthcare providers and states respond to and contain the spread of 2019 Novel Coronavirus Disease (COVID-19). CMS is taking several actions following President Trump's declaration of a national emergency due to COVID-19. A press release outlining CMS announcement can be found here. A fact sheet outlining these actions can be found here.

<!--[if !supportLists]-->• <!--[endif]-->**Flexibility and Relief for State Medicaid Agencies**: The national emergency declaration also enables CMS to grant state and territorial Medicaid agencies a wider range of flexibilities under section 1135 waivers. States and territories are now encouraged to assess their needs and request these available flexibilities, which are outlined in the Medicaid and CHIP Disaster Response Toolkit.

AMERICAN OVERSIGHT

Examples of flexibilities available to states under section 1135 waivers include the ability to permit out-of-state providers to render services, temporarily suspend certain provider enrollment and revalidation requirements to promote access to care, allow providers to provide care in alternative settings, waive prior authorization requirements, and temporarily suspend certain pre-admission and annual screenings for nursing home residents. For more information and to access the toolkit, visit here.

<!--[if !supportLists]-->• <!--[endif]-->**Waivers and Flexibilities for Hospitals and other Healthcare Facilities**: CMS will temporarily waive or modify certain Medicare, Medicaid, and CHIP requirements. CMS will also issue several blanket waivers, listed on the website below, and the CMS Regional Offices will review other provider-specific requests. These waivers provide continued access to care for beneficiaries. For more information on the waivers CMS has granted, visit here.

<!--[if !supportLists]-->• <!--[endif]-->**Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance**: As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found here (3/9). The Press Release can be found here and all CMS guidance related to COVID-19 can be found here.

---------- Forwarded message ---------
This is the best email I have seen on the Corona Virus prevention ...

> **Sent:** Tue, Mar 3, 2020 at 8:17 AM
> **Subject:**
> I received this on a neighborhood chat email I believe it has the best recommendations about the COVID-19 virus.
>
> Good advice from James Robb, M.D., Fellow of the College of American Pathologists, posted 2/26/2020: Subject: What I am doing for the upcoming COVID-19 (coronavirus) pandemic. Dear Colleagues, as some of you may recall, when I was a professor of pathology at the University of California San Diego, I was one of the first molecular virologists in the world to work on coronaviruses (the 1970s). I was the first to demonstrate the number of genes the virus contained. Since then, I have kept up with the coronavirus field and its multiple clinical transfers into the human population (e.g., SARS, MERS), from different animal sources. The current projections for its expansion in the US are only probable, due to continued insufficient worldwide data, but it is most likely to be widespread in the US by mid to late March and April. Here is what I have done and the precautions that I take and will take. These are the same precautions I currently use during our influenza seasons, except for the mask and gloves:
>
> 1) NO HANDSHAKING! Use a fist bump, slight bow, elbow bump, etc.
>
> 2) Use ONLY your knuckle to touch light switches. elevator buttons, etc.. Lift the gasoline dispenser with a paper towel or use a disposable glove.
>
> 3) Open doors with your closed fist or hip - do not grasp the handle with your hand, unless there is no other way to open the door. Especially important on bathroom and post office/commercial doors.
>
> 4) Use disinfectant wipes at the stores when they are available, including wiping the handle and child seat in grocery carts.
>
> 5) Wash your hands with soap for 10-20 seconds and/or use a greater than 60% alcohol-based hand sanitizer whenever you return home from ANY activity that involves locations where other people have been.
>
> 6) Keep a bottle of sanitizer available at each of your home's entrances. AND in your car for use after getting gas or touching other contaminated objects when you can't immediately wash your hands.

AMERICAN OVERSIGHT

7) If possible, cough or sneeze into a disposable tissue and discard. Use your elbow only if you have to. The clothing on your elbow will contain infectious virus that can be passed on for up to a week or more! What I have stocked in preparation for the pandemic spread to the US:

1) Latex or nitrile latex disposable gloves for use when going shopping, using the gasoline pump, and all other outside activity when you come in contact with contaminated areas. Note: This virus is spread in large droplets by coughing and sneezing. This means that the air will not infect you! BUT all the surfaces where these droplets land are infectious for about a week on average - everything that is associated with infected people will be contaminated and potentially infectious. The virus is on surfaces and you will not be infected unless your unprotected face is directly coughed or sneezed upon. This virus only has cell receptors for lung cells (it only infects your lungs) The only way for the virus to infect you is through your nose or mouth via your hands or an infected cough or sneeze onto or into your nose or mouth.

2) Stock up now with disposable surgical masks and use them to prevent you from touching your nose and/or mouth (We touch our nose/mouth 90X/day without knowing it!). This is the only way this virus can infect you - it is lung-specific. The mask will not prevent the virus in a direct sneeze from getting into your nose or mouth - it is only to keep you from touching your nose or mouth.

3) Stock up now with hand sanitizers and latex/nitrile gloves (get the appropriate sizes for your family). The hand sanitizers must be alcohol-based and greater than 60% alcohol to be effective.

4) Stock up now with zinc lozenges. These lozenges have been proven to be effective in blocking coronavirus (and most other viruses) from multiplying in your throat and nasopharynx. Use as directed several times each day when you begin to feel ANY "cold-like" symptoms beginning. It is best to lie down and let the lozenge dissolve in the back of your throat and nasopharynx. Cold-Eeze lozenges is one brand available, but there are other brands available. I, as many others do, hope that this pandemic will be reasonably contained, BUT I personally do not think it will be. Humans have never seen this snake-associated virus before and have no internal defense against it. Tremendous worldwide efforts are being made to understand the molecular and clinical virology of this virus. Unbelievable molecular knowledge about the genomics, structure, and virulence of this virus has already been achieved. BUT, there will be NO drugs or vaccines available this year to protect us or limit the infection within us. Only symptomatic support is available. I hope these personal thoughts will be helpful during this potentially catastrophic pandemic. You are welcome to share this email

Subject: HHS Announces Initial Funding to Jurisdictions Supporting COVID-19 Response

Dear Partner –

Today, the U.S. Department of Health and Human Services (HHS), through the Centers for Disease Control and Prevention (CDC) is announcing upcoming action to provide initial resources to a limited number of state and local jurisdictions in support of our nation's response to the coronavirus disease 2019 (COVID-19).

"State and local governments are the backbone of our public health system. They have been essential partners in the ongoing work to contain and mitigate the spread of COVID-19 in the United States," said HHS Secretary Alex Azar. "The Trump Administration is acting swiftly through every avenue we have to ensure state and local governments have the support they need to combat this outbreak."

"CDC is committed to working with state, local, tribal and territorial public health departments to mitigate community spread of novel coronavirus in this nation," said CDC Director Robert R. Redfield, M.D. "Our partners are on the front lines of this response and we support their efforts to increase needed public health capacity to confront the challenges this virus presents."

Using funds provided to CDC through the HHS Secretary's Transfer, CDC will:

- Award an initial $25 million cooperative agreement to the states and local jurisdictions who have borne the largest burden of response and preparedness activities to date. This is an initial award for those jurisdictions who require immediate assistance for activities such as monitoring of travelers, data management, lab equipment, supplies, staffing, shipping, infection control, and surge staffing. Once supplemental funding is provided, support will be provided to all states and local jurisdictions for a variety of critical public health activities.

AMERICAN OVERSIGHT

- Award an initial $10 million cooperative agreement to state and local jurisdictions to begin implementation of coronavirus surveillance across the U.S., building on existing influenza activities and other surveillance systems. This initial award is for a limited number of jurisdictions. Once supplemental funding is provided, additional support will be provided to all states and local jurisdictions to enhancing testing and surveillance.

CDC will use existing networks to reach out to state and local jurisdictions to access this initial funding.

For more information about COVID-19, please visit CDC's website: https://www.cdc.gov/coronavirus/2019-ncov/index.html

Sincerely,
Darcie

Subject: IMPORTANT ANNOUNCEMENT FROM MHS CHIEF MEDICAL OFFICER - CORANAVIRUS (COVID-19) UPDATE

Dear Memorial Team,

We are continuing to monitor the development of 2019 Novel Coronavirus Disease (COVID-19). It is imperative as a healthcare team we remain focused on the safety and privacy of our patients, staff and community and prepared to provide the level of care needed to manage a virus of this kind.

At this time, the Florida Department of Health in Broward County has reported two presumptive positive cases of the 2019 Novel Coronavirus (COVID-19) in Broward County. We are working closely with and following the lead of all local, state and federal organizations at the forefront of the coronavirus response, including the Centers for Disease Control and Prevention (CDC) and Florida Department of Health in Broward County. Memorial

AMERICAN OVERSIGHT

has policies and practices in place to minimize exposures to respiratory pathogens including virus that causes COVID-19, and we are taking all appropriate and necessary precautions for the safety and well-being of our employees, patients and community.

You can help us by informing your family and friends of the following guideline:

- Anyone with signs/symptoms of sore throat, fever, chills, cold, cough, nausea, vomiting, or diarrhea should not visit patients in the hospital.

- **MemorialDocNow – FREE virtual visits:** Encourage use for anyone who would like a telehealth alternative to assess symptoms. Memorial is making this service available for FREE to everyone in our community through March 31 at this time with the use of the "MemorialCares" code.

Protective Equipment:

Before using protective equipment (masks, gowns, etc.), please ensure that you are using it according to hospital guidelines.

All symptomatic patients need a procedure mask immediately

All healthcare workers caring for a Person Under Investigation of COVID-19 wear:
Gloves, Gown, N95 Respirator, Face Shield

For a full presentation of this with illustrations, please refer to the Intranet under:

MHS COVID-19 Educational Toolkit & Resources

Operational Changes:

During this respiratory infection season, we are taking necessary precautions to keep everyone at our hospitals safe. For this reason, we are making a few adjustments to our visiting policy, limiting our access points and implementing screenings.

To view these changes, please follow these links for the intranet and also Memorial's external facing websites:

- **MHS:** https://www.mhs.net/patients-visitors/coronavirus-disease
- **JDCH:** https://www.jdch.com/patients-families/coronavirus-

disease

Public Classes:

In an abundance of caution, all public classes have been cancelled. If you are unsure about the status of your class or event, please contact the organizer or check the events page on our web.

Employee Communication: It's important that you maintain communication with your supervisor.

- **MHS Intranet:**
  - **Human Resources** is posting updates and new information as it becomes available
  - **Infectious Disease Information Page:** provides updated information for clinicians about patient care and management of COVID-19

Please remain in contact with your leader during this time. We also encourage you to stay updated with the CDC's information at cdc.gov/coronavirus/2019-ncov/index.html.

Thank you for your continued commitment to our community.

Sincerely.

You can help us by informing your family and friends of the following guideline:

- Anyone with signs/symptoms of sore throat, fever, chills, cold, cough, nausea, vomiting, or diarrhea should not visit patients in the hospital.

- **MemorialDocNow – FREE virtual visits:** Encourage use for anyone who would like a telehealth alternative to assess symptoms. Memorial is making this service available for FREE to everyone in our community through March 31 at this time with the use of the "MemorialCares" code.

Protective Equipment:

Before using protective equipment (masks, gowns, etc.), please ensure that you are using it according to hospital guidelines.

All symptomatic patients need a procedure mask immediately

All healthcare workers caring for a Person Under Investigation of COVID-19 wear:
Gloves, Gown, N95 Respirator, Face Shield

For a full presentation of this with illustrations, please refer to the Intranet under:

MHS COVID-19 Educational Toolkit & Resources

Operational Changes:

During this respiratory infection season, we are taking necessary precautions to keep everyone at our hospitals safe. For this reason, we are making a few adjustments to our visiting policy, limiting our access points and implementing screenings.

AMERICAN OVERSIGHT

To view these changes, please follow these links for the intranet and also Memorial's external facing websites:

- **MHS:** https://www.mhs.net/patients-visitors/coronavirus-disease
- **JDCH:** https://www.jdch.com/patients-families/coronavirus-disease

Public Classes:

In an abundance of caution, all public classes have been cancelled. If you are unsure about the status of your class or event, please contact the organizer or check the events page on our web.

Employee Communication: It's important that you maintain communication with your supervisor.

- **MHS Intranet:**
- **Human Resources** is posting updates and new information as it becomes available
- **Infectious Disease Information Page:** provides updated information for clinicians about patient care and management of COVID-19

Please remain in contact with your leader during this time. We also encourage you to stay updated with the CDC's information at cdc gov/coronavirus/2019-ncov/index html.

Thank you for your continued commitment to our community.

Sincerely.

Stanley W. Marks, M.D.

Memorial Healthcare System

Subject: IMPORTANT: Travel Restrictions for Employees of the State Personnel System (COVID-19)

Since the first two presumptive positive cases were identified in Florida on March 1, 2020, Governor DeSantis has proactively and aggressively prepared the state to combat Coronavirus Disease 2019 (COVID-19). The Governor's top priority is the health, safety and welfare of all Floridians.

AMERICAN OVERSIGHT

Today, Governor DeSantis directed the Department of Management Service to provide the following direction to all employees in the State Personnel System:

Business

- All non-essential in-state and all out-of-state travel for state business is prohibited for the next 30 days.
- Florida National Guard, state Law Enforcement, state Emergency and Medical personnel are allowed to travel if the travel is deemed mission critical and is specifically approved by the agency head.
- Employees should avoid, when possible, attending large gatherings.
- Videoconferencing and virtual meetings are encouraged in lieu of travel.

Personal

- When on personal travel, state employees should follow CDC best practices for prevention and treatment of COVID-19, especially employees who are considered at-risk or who have dependents or care for those with underlying conditions or vulnerabilities.
- State employees who personally travel internationally will not be allowed to return to work for 14 days upon returning to the United States. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.
- State employees who personally travel on a cruise or to an area of the United States experiencing community spread of COVID-19 as identified by the Centers for Disease Control and Prevention or a state public health agency will not be allowed to return to work for 14 days upon returning home. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.

This travel policy applies to all employees of the State Personnel System, including the heads of executive agencies. Please consult your supervisor/HR Office and your agency's telework and leave policies for guidance regarding your

AMERICAN OVERSIGHT

specific situation.

Thank you in advance for joining in efforts to reduce the spread of COVID-19. We will continue to closely monitor and evaluate available information and guidance as this is a rapidly evolving situation.

We appreciate your patience and commitment to protecting our communities. If you have questions, please call John Apthorp at (850) 922-1274.

Subject: JTF COVID Commander's Notes 17 Mar 2020

Gentlemen,

- FLNG currently has 598 on State Active Duty with a projection to go 608 by WED 18 MAR 2020.

- FLNG (TF 50) conducted direct planning efforts with Broward County officials and Memorial Hospital Staff. Final coordination with DEM has PPE, POD Set Up Package and Sampling kits all projected for rapid delivery to the footprint. TF 50 will conduct rehearsals and training with hospital / DOH staff as they prepare for logistics push. The mission is on glide path for execution later this week.

- TF 50 continues support to the State Logistics Readiness Center (SLRC).

AMERICAN OVERSIGHT

- FLNG continues to aggressively seek and apply force protection methods to safeguard our Soldiers and Airmen while supporting the Citizens of Florida. The Joint Planning Group is conducting contingency planning to project resource shortfalls, protocol for infected FLNG personnel and support to mega-city testing sites.

- FLNG TF COVID continues to re-evaluate distance versus physical manning while maintaining operational capability. JTF COVID continues to conduct command and control, planning and coordination with COVID response stakeholders.

Very Respectfully,

Mike

MICHAEL A. LADD
Colonel, Florida Army National Guard
J3, Director of Military Support (DOMS)

Florida Division of Emergency Management Issues Emergency Order to Protect Residents in Nursing Homes, Assisted Living Facilities and Other Long-Term Care Facilities

TALLAHASSEE, Fla. – Today, at Governor DeSantis' direction, Florida Division of Emergency Management Director Jared Moskowitz issued an Emergency Order temporarily restricting visitation to nursing homes, assisted living facilities (ALFs), adult family-care homes, long-term care facilities and adult group homes.

By restricting visitation, the state is taking proactive measures to limit the potential of COVID-19 entering those facilities. This order has been issued in recognition of the fact that the elderly and those with underlying medical conditions are at higher risk for serious illness from COVID-19. This is also consistent with directions given by the Federal Centers for Medicare and Medicaid Services.

People who will now be restricted from visi ing nursing homes, ALFs, adult family-care homes, long-term care facilities and adult group homes include:

- Any person infected with COVID-19 who has not had two consecutive negative test results separated by 24 hours;
- Any person showing or presenting symptoms of cough, fever, shortness of breath, or sore throat;
- Any person who has or may have been in close contact with a person(s) infected with COVID-19 who has not tested negative for COVID-19 is prohibited from visiting a facility until 14 days after their interaction wi h the person(s) who is infected with COVID-19;
- Any person who traveled internationally is prohibited from visiting a facility until 14 days after their return to the United States;
- Any person who traveled on a cruise ship is prohibited from visiting a facility until 14 days after their return to the United States;
- Any person who has been in a community with confirmed community spread of COVID-19, as identified by the Centers for Disease Control and Prevention or a state public health agency, is prohibited from visiting a facility within 14 days of their presence in the community with community spread; or
- Any person who resides in a community with confirmed community spread of COVID-19, as identified by he Centers for Disease Control and Prevention or a state public health agency, is prohibited from visiting a facility.

Joint Information Center on COVID-19 for the State of Florida

FOR IMMEDIATE RELEASE
March 13, 2020

Contact: Joint Information Center on COVID-19 for the State of Florida
(850) 815-4940, ESF14@em.myflorida.com

Florida Department of Health Announces One Additional Positive COVID-19 Case in Florida for March 12th

TALLAHASSEE — Tonight, the Florida Department of Health announced one additional positive case of coronavirus disease (COVID-19), bringing the total confirmed new cases for Thursday, March 12th to 17 individuals who tested positive for COVID-19. To keep Florida residents and visitors safe and aware about the status of the virus, the Department is issuing regular updates as information becomes available.

This latest positive COVID-19 case, in addition to 15 others, were tested in Florida Department of Health labs. The positive COVID-19 case in Seminole County was performed through a partnership with AdventHealth Altamonte Springs*. The Department of Health is now including results from private laboratories in these daily reports. Results from private labs will initially include fewer details, such as travel, because the state epidemiological team does not learn about the private lab cases until the results are added into the state system. As soon as the Department of Health learns of a positive case from a private lab, the epidemiological investigation begins. The Department of Health will provide additional information about private lab cases as soon as details become available.

New Positive Case

- A 42-year old male in Miami-Dade County has tested positive for COVID-19. This individual is isolated and will continue to remain isolated until cleared by public health officials. This is a travel related case and is associated with exposure to an international traveler.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

AMERICAN OVERSIGHT

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

AMERICAN OVERSIGHT

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified four positive COVID-19 cases associated with Port Everglades in Broward County, Florida. All three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

Actions the State of Florida has taken on COVID-19:

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.

AMERICAN OVERSIGHT

- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

What You Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on

AMERICAN OVERSIGHT

objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD.

AMERICAN OVERSIGHT

The health care provider will work with the Department to determine if the person should be tested for COVID-19.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

STATE OF FLORIDA

OFFICE OF THE GOVERNOR
EXECUTIVE ORDER NUMBER 14-280
(Establishes Ebola Virus Disease Response Protocol)

WHEREAS, the Ebola Virus Disease ("EVD") is a severe, potentially fatal illness that can spread among humans through direct contact with the bodily fluid of an infected person or the remains of an infected person; and

WHEREAS, earlier this year, a new and significant outbreak of EVD emerged in West Africa; and

WHEREAS, the World Health Organization previously declared EVD a Public Health Emergency of International Concern; and

WHEREAS, in response to the recent EVD outbreak in West Africa, the Centers for Disease Control and Prevention ("CDC") in cooperation with the United States Department of Homeland Security have instituted enhanced EVD screening for travelers from EVD-affected countries in West Africa at certain airports in the United States; and

WHEREAS, the CDC currently sends to the Florida Department of Health lists of travelers from EVD-affected countries for the purpose of monitoring persons with possible EVD exposure; and

WHEREAS, the CDC Interim Guidance for Monitoring and Movement of Persons with EVD Exposure currently recommends that asymptomatic travelers with a high risk of exposure to EVD be conditionally released to the community for self-monitoring and daily contact with public health authorities for a period of 21 days following the last known EVD exposure; and

AMERICAN OVERSIGHT

WHEREAS, the CDC Interim Guidance also currently recommends that asymptomatic travelers with no known exposure to EVD engage in self-monitoring through twice daily temperature checks for a period of 21 days after leaving the EVD-affected country; and

WHEREAS, it is necessary and appropriate to take action to ensure that EVD remains controlled, and that residents of Florida remain safe and secure;

NOW, THEREFORE, I, RICK SCOTT, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution, and all other applicable laws, do hereby promulgate the following Executive Order, to take immediate effect:

Section 1. The Florida Department of Health will actively monitor all asymptomatic travelers with no known exposure to EVD who are identified by the CDC as being located in Florida for a period of 21 days after leaving the EVD-affected country. Active monitoring by the Florida Department of Health will include at least the following:

A. An in-person risk assessment within 12 hours of the traveler's arrival in Florida.

B. Twice daily, in-person temperature checks of the traveler.

Section 2. The Florida Department of Health, pursuant to its authority in section 381.00315(4), Florida Statutes, will quarantine all high-risk travelers from EVD-affected countries in West Africa who are identified by the CDC as being located in Florida for a period of 21 days following last known EVD exposure.

Section 3. I hereby direct the Florida Department of Health to make its own determinations as to quarantine and other necessary public health interventions as permitted under Florida law.

AMERICAN OVERSIGHT

Section 4. All agencies under the direction of the Governor are directed to fully cooperate with the Florida Department of Health, and any representative thereof in furtherance of this Order. Agencies not under the direction of the Governor are requested to provide such assistance as is required.

IN TESTIMONY WHEREOF, I have hereunto set my hand and cause the Great Seal of the State of Florida to be affixed, at Tallahassee, the Capitol, this 25th day of October, 2014.

STATE OF FLORIDA

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER NUMBER 16-29

(Governor Scott Directs Public Health Emergency in Four Counties for Zika Virus)

WHEREAS, the World Health Organization declared a Public Health Emergency of International Concern related to the Zika virus on February 1, 2016; and

WHEREAS, there have been nine confirmed travel-related cases of the Zika virus in Florida (none of which have been pregnant women) in Miami-Dade, Hillsborough, Lee, and Santa Rosa Counties; and

WHEREAS, the Zika virus is transmitted by a bite from an infected Aedes mosquito and other transmittal methods are still being determined; and

WHEREAS, the Zika virus has been associated with microcephaly and neurological disorders including Guillain- Barré Syndrome; and

WHEREAS, instances of microcephaly and neurological disorders have been diagnosed in infants and are believed to have been contracted in utero as a result of the mother being bitten by an infected Aedes mosquito; and

WHEREAS, although Florida's current nine Zika cases were travel-related, Aedes mosquitos are common in Florida; and

WHEREAS, it is necessary and appropriate to take action to ensure that the Zika virus remains controlled, and that residents of Florida remain safe and healthy.

NOW, THEREFORE, I, RICK SCOTT, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section 1(a) of the Florida Constitution and by the Public Health Act, and all other applicable laws, promulgate the following Executive Order, to take immediate effect:

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001238

Section 1. Because of the foregoing conditions, I direct the State Health Officer and Surgeon General, Dr. John Armstrong, to declare a public health emergency in Miami-Dade, Hillsborough, Lee, and Santa Rosa Counties, pursuant to its authority in section 381.00315, Florida Statutes. The State Health Officer is authorized and directed to use his judgment as to the duration and the geographical boundaries of this public health emergency.

Section 2. In accordance with section 381.0011(7), Florida Statutes, I direct the State Health Officer to take any action necessary to protect the public health. Further, I direct the State Health Officer to immediately notify the Commissioner of Agriculture of this threat to public health pursuant to section 388.45, Florida Statutes. Furthermore, this statute authorizes the Commissioner of Agriculture to issue a mosquito declaration in Miami-Dade, Hillsborough, Lee and Santa Rosa Counties. Special attention shall be paid to residential areas, as CDC guidance indicates that backpack mosquito spray measures may be most effective.

Section 3. The State Health Officer is directed to follow the guidelines established by the Centers for Disease Control and Prevention ("CDC") in establishing protocols to control the spread of the Zika virus and educate the public on prevention.

Section 4. In accordance with section 381.0011(7), Florida Statutes, I designate the Florida Department of Health as the lead state agency to coordinate emergency response activities among the various state agencies and local governments. The State Health Officer, or his designee, shall advise the Executive Office of the Governor on the implementation of these emergency response activities.

Section 5. All actions taken by the State Health Officer with respect to this emergency before the issuance of this Executive Order are ratified.

AMERICAN OVERSIGHT

Section 6. I hereby direct the Florida Department of Health to make its own determinations as to further resources and information needed in the State from the CDC to combat the spread of Zika and other measures that may need to be taken to protect public health.

Section 7. I hereby direct the Department of Environmental Protection and the Fish and Wildlife Conservation Commission to support the Department of Agriculture and Consumer Services in any way as it develops extensive mosquito control plans to contain the spread of this illness in partnership with Florida's counties, cities, and mosquito control districts.

Section 8. All agencies under the direction of the Governor are directed to fully cooperate with the Florida Department of Health, and any representative thereof in the furtherance of this Order. Agencies not under the direction of the Governor are requested to provide such assistance as is required.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed, at Tallahassee, this 3rd day of February, 2016.

STATE OF FLORIDA
DEPARTMENT OF HEALTH
DECLARATION OF PUBLIC HEALTH EMERGENCY

WHEREAS, Zika fever, a dengue-like illness caused by a flavivirus transmitted by the Aedes mosquito, has been diagnosed in Central and South America, Mexico, the Carribbean and other areas in the world. Outbreaks of the fever have occurred in Africa, Southeast Asia and the Pacific Islands; and

WHEREAS, the World Health Organization has declared a Public Health Emergency of International Concern related to the Zika virus on February 1, 2016; and

WHEREAS, there have been nine confirmed travel-related cases of the Zika virus (none of which have been pregnant women) in Miami-Dade, Hillsborough, Lee, and Santa Rosa counties, Florida; and

WHEREAS, the Zika virus is transmitted by a bite from an infected Aedes mosquito and other transmission methods are still being determined; and

WHEREAS, there are reports of infants born with microcephaly and persons contracting neurological disorders including Guillain-Barre Syndrome in areas where Zika virus has been diagnosed; and

WHEREAS, although Florida's current nine Zika cases were travel-related, Aedes mosquitos are common in Florida;

NOW, THEREFORE, I, John H. Armstrong, MD, FACS, Surgeon General of Florida and State Health Officer, by virtue of Executive Order Number 16-29 of Governor Rick Scott and the authority vested in me by section 381.00315, Florida Statutes, do hereby declare that a public health emergency exists in Florida. In order to respond to this emergency, the following shall commence:

1. Section 1. The Commissioner of Agriculture is hereby notified of this threat to public health from the Zika virus transmission to humans from the bite of an infected Aedes mosquito. Further, the appropriate resources of the Department of Health are available to the Commissioner of Agriculture in execution of the powers and duties outlined in section 388.45, Florida Statutes.

2. Section 2. This Public Health Emergency Declaration shall be limited to the following counties:

AMERICAN OVERSIGHT
FL-GOV-20-0899-A-001242

a. Miami-Dade;
b. Hillsborough;
c. Lee; and
d. Santa Rosa.

2. Section 3. On or before February 15, 2016, a meeting shall be convened in the above detailed counties that will include at a minimum the following participants, a representative from:

   a. the county commission;
   b. the city commissions;
   c. the mosquito control board;
   d. the county extension office;
   e. the county health department;
   f. the tourist development council;
   g. emergency management;
   h. the airport or port authority, as applicable;
   i. the county medical society; and
   j. any other necessary community partners.

At the meeting, the following topics shall be discussed: mosquito control best practices and public outreach strategies for those communities with high risk or vulnerable populations. The County Health Officer shall prepare a summary of the meeting and develop action plans for the execution of prevention programs and provide it to the Department of Health's Central incident command offices.

3. Section 4. The County Health Officers for those affected counties shall develop an outreach program for local medical professionals to increase awareness and access to diagnostic tools.

Executed this 3rd day of February 2016, in Department of Health Offices, Tallahassee, Leon County, Florida.

John H. Armstrong, M.D., FACS

AMERICAN OVERSIGHT

March 6, 2020

DEPARTMENT OF HEALTH ANNOUNCES IMPORTANT UPDATES REGARDING COVID-19 IN FLORIDA

TWO CONFIRMED DEATHS REGARDING COVID-19

Contact:
Communications Office
NewsMedia@flhealth.gov
(850) 245-4111

Tallahassee, Fla. — The Florida Department of Health has announced updates regarding the 2019 coronavirus disease (COVID-19) in Florida. Two individuals have died and two new presumptive positive cases have been identified in Broward County.

Deceased Individuals

- A previously announced COVID-19 patient in Santa Rosa County has died, following an international trip.
- A new case of a COVID-19 patient in her seventies in Lee County has died, following an international trip.

New Presumptive Positive Cases

- A 75-year old male in Broward County has been identified as a presumptive positive. This person is isolated and will continue to remain isolated until cleared by public health officials.
- A 65-year old male in Broward County has been identified as a presumptive positive. This person is isolated and will continue to remain isolated until cleared by public health officials.

The Florida Department of Health is working closely with the patients, potential close contacts of each case and health care providers to isolate and monitor persons who may have been exposed to COVID-19 and implement testing of anyone who may develop COVID-19 symptoms, including fever, cough or shortness of breath.

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

AMERICAN OVERSIGHT

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from the COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes, are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to this virus. As a reminder, the Department always recommends everyday preventive actions to help impede the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
    - If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local county health department (CHD) and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the county health department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Please visit the Department's dedicated COVID-19 webpage at www.FloridaHealth.gov/COVID-19. This remains the best and most up-to-date resource for information and guidance regarding COVID-19 in Florida.

AMERICAN OVERSIGHT

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-866-779-6121** or emailing COVID-19@flhealth.gov**. The Call Center is available 24 hours a day, seven days a week.**

In addition, please visit http://www.floridahealth.gov/all-county-locations.html to locate and obtain contact information for your local CHD.

The CDC also has a website with information related to COVID-19: https://www.cdc.gov/coronavirus/2019-ncov/index.html.

About the Florida Department of Health

The Department, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Follow us on Facebook, Instagram and Twitter at @HealthyFla. For more information about the Florida Department of Health, please visit www.FloridaHealth.gov.

2. Lt. Governor Nunez
3. Dr. Rivkees

Talking Points

[INTRODUCTION]

- Good morning. Thank you all for joining us here at the Florida Department of Health Tampa Branch Laboratory.

- I'm here with Lieutenant Governor Jeanette Nunez, State Surgeon General Dr. Scott Rivkees, Deputy Secretary for Health Dr. Shamarial Roberson and Education Commissioner Richard Corcoran to provide an update on Coronavirus (COVID-19).

- Last week, Lieutenant Governor Nunez, Dr. Rivkees and I met with Vice President Mike Pence, U.S. Surgeon General Jerome Adams and Assistant Surgeon General Admiral Stephen Redd to discuss preparedness efforts here in Florida.

- The Vice President assured us that we have the full support of the federal government.

[ANNOUNCEMENT]

- Last night, the Department of Health announced that there are two presumptive positive cases of 2019 Coronavirus disease in Florida.

- The first patient is an adult resident in Manatee County without travel history to countries identified for restricted travel by the CDC.

- The second patient is an adult resident in Hillsborough County with a history of travel to Italy.

AMERICAN OVERSIGHT

- In total, 23 people have been tested. The state is currently monitoring 184 and 795 have been monitored.

- **The two individuals who have tested positive remain in isolation at this time. Despite these cases, the overall immediate threat to the public remains low.**

- **With that said, we still need to ensure that our state is prepared.**

- Last night, I issued an Executive Order establishing the Department of Health, under Dr. Rivkees' leadership, as the agency responsible for the response and coordination of the relevant state agencies for the COVID-19 response.

- In the Order I also directed the Department of Health to declare a public health emergency to better equip our state with the resources needed to handle this threat.

- The Public Health Emergency ensures that healthcare providers, hospitals and labs immediately report all suspected cases to the Department of Health.

- It also advises individuals of the proper protective measures that need to be taken regarding the possible exposure to COVID-19.

- Individuals that have traveled to an area that the CDC has issued a Warning Level 3 or Alert Level 2 Travel Health Notice, or those that have been in contact with someone who has traveled to these places, should immediately contact the Florida Department of Health upon developing symptoms.

- These symptoms include fever, cough, shortness of breath, or difficulty breathing. Current countries at a Level 3 Travel Health Notice include China, Iran, South Korea and Italy. Japan is at an Alert Level 2 Travel Health Notice.

- To prevent the risk of spreading, the Public Health Emergency also advises individuals who believe they may have been exposed to COVID-19 to contact their local county health department prior to traveling to any physician's office, emergency department, hospital or urgent care center.

AMERICAN OVERSIGHT

[FLORIDA DEPARTMENT OF HEALTH INVOLVEMENT]

- The Florida Department of Health has been fully engaged from the very beginning with their response and epidemiology teams working on this issue since the first week of January.

- **The Department of Health is now able to test for Coronavirus. Labs in Tampa, Jacksonville and Miami can conduct the tests.**

- **This allows test results to be available to state health officials in 24 to 48 hours, as opposed to 3-5 days.**

- We have an Incident Management Team (IMT) in place, and we are working in lockstep with the CDC, receiving multiple updates daily.

- Hundreds of dedicated DOH professionals are responding, including staff in Tallahassee's Central Office and each of our 67 County Health Departments.

- We have also engaged the medical community through correspondence and weekly calls, and have established a DOH website related to COVID-19 at **www.floridahealth.gov/COVID-19**.

- This is the best and most up-to-date source for information and guidance regarding COVID-19 in Florida.

- The State of Florida is fully committed to doing everything we can to prepare for and respond to COVID-19.

- With that, I'd like to introduce Lieutenant Governor Jeanette Nunez.

Subject:	Governor"s Order Restricting Visitors to ALFs and Nursing Homes
Date:	Monday, March 16, 2020 1:14:29 PM
Attachments:	DEM_ORDER_NO._20-002_In_re_COVID-19_Public_Health_Emergency_Issued_March_11_2020_.pdf COMPLAINT The Crossings.pdf

Dear Mr. Jacquot,

I write in the hope that you may be able to help me with something. Attached is a copy of the Governor's order restricting, not banning, visitors to ALFs and nursing facilities. Unless this has been amended, in writing and signed, this is the governing document with respect to visitors.

I've also attached a copy of the lawsuit against the facility and the executive director.

My husband is in an assisted living facility that currently has a negligence and abuse lawsuit filed against it and the acting executive director. My visits with my husband aren't social. My visits with my husband assist in his care. I count the number of bruises on his body, and if he has more bruises than he did after my last visit, I ask why. Most times, caregivers do not know. Oftentimes the caregivers do not call me when he does fall. I check his diaper rash and fungus breakouts that he gets from being in a wet diaper for too long. I check for UTIs and dehydration. I feed him. Before sitting him in a chair in the common area, I check to make sure that it isn't wet or that it doesn't have feces on it from another incontinent resident. I check his bedding and oftentimes change it myself because a cover was simply pulled over a chux that is wet from urine or diarrhea. I clean the feces that is smeared on his bathroom grab bars, the wall next to the garbage can, the doorknob, and on the floor and in the grout. I make sure that he is wearing his glasses and that they are clean. I make sure that his shirt isn't on him backward and that the clothes he is wearing are his clothes and that they fit. I monitor his medicine. I deliver some of his medicine to the facility. I clean, clip and/or file his toenails and fingernails. He doesn't blow his nose anymore so I clean his nose. I clean his ears. I keep his ears and nose hair trimmed so that it is easier to clean his nose and his ears. These aren't social visits, they are visits that are critical to his care. In addition, my husband has late-stage Alzheimer's disease. He hasn't said my name in a year. He doesn't understand talking on the phone, FaceTime or Skype. If he doesn't see me for 30 days, he will forget me … and once he is finally allowed to see me, he won't remember me. My husband is a decorated, disabled Vietnam combat veteran.

If you would like to see the pictures of my husband's bruises, as well as the unclean, unsanitary condition of his room and the common areas, I am happy to provide that to you as well.

Even under this order, some facilities are allowing immediate family members to self-report symptoms and/or exposure and have their temperatures taken. If they don't have a fever, they are allowed to visit their loved ones. My husband will die from a fall because he is unsupervised before he "might" catch this virus. I understand wanting to protect the elderly … but this one size fits all solution simply doesn't. We need to come up with something else. Please contact me to discuss what the alternatives may be.

Thank you,

AMERICAN OVERSIGHT

STATE OF FLORIDA
DIVISION OF EMERGENCY MANAGEMENT

IN RE: SUSPENSION OF STATUTES, RULES, AND ORDERS, PURSUANT TO EXECUTIVE ORDER NUMBER 20-52, MADE NECESSARY BY THE COVID-19 PUBLIC HEALTH EMERGENCY

DEM ORDER NO. 20-002

EMERGENCY ORDER

WHEREAS, the Governor of the State of Florida issued Executive Order No. 20-52 in response to the COVID-19 Public Health Emergency which poses a severe threat to the entire State of Florida and requires that timely precautions are taken to protect the communities, critical infrastructure, and general welfare of this State; and,

WHEREAS, the Governor has designated the Director of the Division of Emergency Management as the State Coordinating Officer for the duration of this emergency and has delegated to the State Coordinating Officer the authority to exercise those powers delineated in sections 252.36(5)-(10), Florida Statutes; and,

NOW THEREFORE, I hereby find that the Division of Emergency Management's timely performance of disaster response functions related to COVID-19 Public Health Emergency is hindered by the application of procedures imposed by statute, rule, and/or order.

Therefore, pursuant to Section 2 of Executive Order No. 20-52, I hereby issue the following authorization(s):

I. Suspend sections 393.13(4), 400.022(1)(b), 429.28(1)(d), 429.85(1)(d) Florida Statutes, for the particular purpose of prohibiting certain individuals from visiting facilities. For purposes of this order, a facility includes nursing homes, assisted living

AMERICAN OVERSIGHT

facilities, adult family-care homes, long-term care facilities, and adult group homes. The order applies as follows:

a. Any person infected with COVID-19 who has not had two consecutive negative test results separated by 24 hours is prohibited from visiting a facility; or

b. Any person showing or presenting signs or symptoms of a respiratory infection, including cough, fever, shortness of breath or sore throat is prohibited from visiting a facility; or

c. Any person who has or may have been in close contact with a person(s) infected with COVID-19 who has not tested negative for COVID-19 is prohibited from visiting a facility until 14 days after their interaction with the person(s) who is infected with COVID-19; or

d. Any person who traveled internationally is prohibited from visiting a facility until 14 days after their return to the United States; or

e. Any person who traveled on a cruise ship is prohibited from visiting a facility until 14 days after their return to the United States; or

f. Any person who has been in a community with confirmed community spread of COVID-19, as identified by the Centers for Disease Control and Prevention or a state public health agency, is prohibited from visiting a facility within 14 days of their presence in the community with community spread; or

g. Any person who resides in a community with confirmed community spread of COVID-19, as identified by the Centers for Disease Control and

AMERICAN OVERSIGHT

Prevention or a state public health agency, is prohibited from visiting a facility.

Because section 252.36(5)(a), Florida Statutes, allows the Governor to suspend the provisions of "any regulatory statute prescribing the procedures for [the] conduct of state business", and because Executive Order No. 20-52 designates the Director of the Division of Emergency Management as the State Coordinating Officer for this emergency, the requirements of sections 252.46 and 120.54(4), Florida Statutes, do not apply to this Order.

The effective dates of this Order shall correspond with the effective dates of Executive Order No. 20-52.

By Order of the State Coordinating Officer executed this 11th day of March, 2020, in Tallahassee, Leon County, Florida.

Jared Moskowitz
State Coordinating Officer
Florida Division of Emergency Management

IN AND FOR HILLSBOROUGH COUNTY, STATE OF FLORIDA
CIVIL DIVISION

THE ESTATE OF ROSEMARY HELEN RIEDLE, by and through JEANETTE M. RIEDLE, Personal Representative,

Plaintiff,

vs.

CASE NO:

THE CROSSINGS AT RIVERVIEW, LLC; SABER HEALTHCARE HOLDINGS, LLC; CHP II RIVERVIEW FL TENANT, LLC; CHP II TRS HOLDING, INC.; FOSTER DEVELOPMENT, INC.; and PAMELA CUTSURIES (as to THE CROSSINGS AT RIVERVIEW),

Defendants.
_____/

COMPLAINT

Plaintiff, THE ESTATE OF ROSEMARY HELEN RIEDLE, by and through JEANETTE M. RIEDLE, Personal Representative, and by and through undersigned counsel, hereby sues Defendants, THE CROSSINGS AT RIVERVIEW, LLC; SABER HEALTHCARE HOLDINGS, LLC; CHP II RIVERVIEW FL TENANT, LLC; CHP II TRS HOLDING, INC.; FOSTER DEVELOPMENT, INC.; and PAMELA CUTSURIES and alleges:

JURISDICTION, PARTIES AND VENUE ALLEGATIONS

1. This is an action for damages in excess of Thirty Thousand Dollars ($30,000.00).

2. On May 7, 2017, ROSEMARY HELEN RIEDLE was admitted to THE CROSSINGS AT RIVERVIEW, located at 8451 US Highway 301 S, Riverview, FL, 33578, in Hillsborough County, where she remained in primary residence until she was discharged on February 24, 2019.

AMERICAN OVERSIGHT
FL-GOV-20-0899-A-001276

3. Plaintiff, JEANETTE M. RIEDLE, is the Personal Representative of THE ESTATE OF ROSEMARY HELEN RIEDLE, pursuant to Letters of Administration, dated October 24, 2019, which are attached hereto as Exhibit "A".

4. THE CROSSINGS AT RIVERVIEW, is a fictitious name owned by Defendant, THE CROSSINGS AT RIVERVIEW, LLC. Following a change of ownership effective in 2018, THE CROSSINGS AT RIVERVIEW was owned by CHP II RIVERVIEW FL TENANT, LLC.

5. Defendant, THE CROSSINGS AT RIVERVIEW, LLC, is an active Florida limited liability company, with its principal place of business at 26691 Richmond Road, Bedford Heights, OH, 44146, which is doing business in Florida.

6. THE CROSSINGS AT RIVERVIEW, LLC conducted and engaged in business activities within the State of Florida; engaged in substantial and not isolated activities within the State of Florida; and purposely availed itself of the privileges of the State of Florida, through its ownership of, leasing of, operation of, management of, and/or consultation with assisted living facilities, including THE CROSSINGS AT RIVERVIEW, within the State of Florida. Accordingly, pursuant to Florida Statute §48.193, THE CROSSINGS AT RIVERVIEW, LLC is subject to the jurisdiction of the courts of the State of Florida.

7. THE CROSSINGS AT RIVERVIEW, LLC committed tortious acts against ROSEMARY HELEN RIEDLE in the State of Florida. Each tortious act is specifically alleged in the subsequent counts. Accordingly, pursuant to Florida Statute §48.193(1)(b), THE CROSSINGS AT RIVERVIEW, LLC is subject to the jurisdiction of the Courts of the State of Florida.

8. THE CROSSINGS AT RIVERVIEW, LLC is the licensee that operated the assisted living facility during ROSEMARY HELEN RIEDLE's residency and as such owed a

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001277

duty to ROSEMARY HELEN RIEDLE to exercise reasonable care in its operation according to §429.29(3) and §429.26 Florida Statutes.

9. Defendant, SABER HEALTHCARE HOLDINGS, LLC, is an active Ohio limited liability company, with its principal place of business at 26691 Richmond Road, Bedford Heights, OH, 44146, which is doing business in Florida.

10. SABER HEALTHCARE HOLDINGS, LLC holds 100 percent sole ownership of THE CROSSINGS AT RIVERVIEW, LLC.

11. SABER HEALTHCARE HOLDINGS, LLC conducted and engaged in business activities within the State of Florida; engaged in substantial and not isolated activities within the State of Florida; and purposely availed itself of the privileges of the State of Florida, through its ownership of, leasing of, operation of, management of, and/or consultation with assisted living facilities, including THE CROSSINGS AT RIVERVIEW, within the State of Florida. Accordingly, pursuant to Florida Statute §48.193, SABER HEALTHCARE HOLDINGS, LLC is subject to the jurisdiction of the courts of the State of Florida.

12. SABER HEALTHCARE HOLDINGS, LLC committed tortious acts against ROSEMARY HELEN RIEDLE in the State of Florida. Each tortious act is specifically alleged in the subsequent counts. Accordingly, pursuant to Florida Statute §48.193(1)(b), SABER HEALTHCARE HOLDINGS, LLC is subject to the jurisdiction of the Courts of the State of Florida.

13. SABER HEALTHCARE HOLDINGS, LLC is an entity that owned, operated, managed and oversaw THE CROSSINGS AT RIVERVIEW, and as such, owed a duty to ROSEMARY HELEN RIEDLE to exercise reasonable care according to §429.29(3), Florida Statutes.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001278

14. A change in ownership of THE CROSSINGS AT RIVERVIEW occurred during ROSEMARY HELEN RIEDLE's residency.

15. CHP II RIVERVIEW FL TENANT, LLC also held the license to operate the nursing home during ROSEMARY HELEN RIEDLE's residency.

16. Defendant, CHP II RIVERVIEW FL TENANT, LLC, is an active Delaware foreign limited liability company, with its principal place of business at 450 S Orange Ave, Orlando, FL, 32801, which is doing business in Florida.

17. CHP II RIVERVIEW FL TENANT, LLC conducted and engaged in business activities within the State of Florida; engaged in substantial and not isolated activities within the State of Florida; and purposely availed itself of the privileges of the State of Florida, through its ownership of, leasing of, operation of, management of, and/or consultation with assisted living facilities, including THE CROSSINGS AT RIVERVIEW, within the State of Florida. Accordingly, pursuant to Florida Statute §48.193, CHP II RIVERVIEW FL TENANT, LLC is subject to the jurisdiction of the courts of the State of Florida.

18. CHP II RIVERVIEW FL TENANT, LLC committed tortious acts against ROSEMARY HELEN RIEDLE in the State of Florida. Each tortious act is specifically alleged in the subsequent counts. Accordingly, pursuant to Florida Statute §48.193(1)(b), CHP II RIVERVIEW FL TENANT, LLC is subject to the jurisdiction of the Courts of the State of Florida.

19. CHP II RIVERVIEW FL TENANT, LLC is the licensee that operated the assisted living facility during ROSEMARY HELEN RIEDLE's residency and as such owed a duty to ROSEMARY HELEN RIEDLE to exercise reasonable care in its operation according to §429.29(3) and §429.26 Florida Statutes.

AMERICAN OVERSIGHT

20. Defendant, CHP II TRS HOLDING, INC., is an active Delaware foreign profit corporation, with its principal place of business at 450 S Orange Avenue, Orlando, FL, 32801, which is doing business in Florida.

21. CHP II TRS HOLDING, INC. is the sole 100 percent owner of CHP II RIVERVIEW FL TENANT, LLC.

22. CHP II TRS HOLDING, INC. conducted and engaged in business activities within the State of Florida; engaged in substantial and not isolated activities within the State of Florida; and purposely availed itself of the privileges of the State of Florida, through its ownership of, leasing of, operation of, management of, and/or consultation with assisted living facilities, including THE CROSSINGS AT RIVERVIEW, within the State of Florida. Accordingly, pursuant to Florida Statute §48.193, CHP II TRS HOLDING, INC. is subject to the jurisdiction of the courts of the State of Florida.

23. CHP II TRS HOLDING, INC. committed tortious acts against ROSEMARY HELEN RIEDLE in the State of Florida. Each tortious act is specifically alleged in the subsequent counts. Accordingly, pursuant to Florida Statute §48.193(1)(b), CHP II TRS HOLDING, INC. is subject to the jurisdiction of the Courts of the State of Florida.

24. CHP II TRS HOLDING, INC. is an entity that owned, operated, managed and oversaw THE CROSSINGS AT RIVERVIEW, and as such, owed a duty to ROSEMARY HELEN RIEDLE to exercise reasonable care according to §429.29(3), Florida Statutes.

25. Defendant, FOSTER DEVELOPMENT, INC., is an active Missouri foreign profit corporation, with its principal place of business at 1240 E Independence Street, Suite 200, Springfield, MO, 65804, which is doing business in Florida.

AMERICAN OVERSIGHT

26. FOSTER DEVELOPMENT, INC. is the management company for CHP II RIVERVIEW FL TENANT, LLC.

27. FOSTER DEVELOPMENT, INC. conducted and engaged in business activities within the State of Florida; engaged in substantial and not isolated activities within the State of Florida; and purposely availed itself of the privileges of the State of Florida, through its ownership of, leasing of, operation of, management of, and/or consultation with assisted living facilities, including THE CROSSINGS AT RIVERVIEW, within the State of Florida. Accordingly, pursuant to Florida Statute §48.193, FOSTER DEVELOPMENT, INC. is subject to the jurisdiction of the courts of the State of Florida.

28. FOSTER DEVELOPMENT, INC. committed tortious acts against ROSEMARY HELEN RIEDLE in the State of Florida. Each tortious act is specifically alleged in the subsequent counts. Accordingly, pursuant to Florida Statute §48.193(1)(b), FOSTER DEVELOPMENT, INC. is subject to the jurisdiction of the Courts of the State of Florida.

29. FOSTER DEVELOPMENT, INC. is an entity that owned, operated, managed and oversaw THE CROSSINGS AT RIVERVIEW, and as such, owed a duty to ROSEMARY HELEN RIEDLE to exercise reasonable care according to §429.29(3), Florida Statutes.

30. Defendant, PAMELA CUTSURIES, was at all material times hereto a resident of the State of Florida and the Administrator at THE CROSSINGS AT RIVERVIEW.

31. Defendant, PAMELA CUTSURIES, was an administrator at the assisted living facility during ROSEMARY HELEN RIEDLE'S residency and as such owed a duty to ROSEMARY HELEN RIEDLE to exercise reasonable care according to §429.29(3) and §429.26, Florida Statutes.

AMERICAN OVERSIGHT

32. Every facility shall be under the supervision of an administrator who is responsible for the operation and maintenance of the facility including the management of all staff and the provision of adequate care to all residents as required by Florida Statute §429 and Florida Administrative Code 58A.

33. Pursuant to Chapter §429.255(1)(b) & Florida Administrative Code 58A, all staff in facilities licensed under this part shall exercise their professional responsibility to observe residents, to document observations on the appropriate resident's record, and to report the observations to the resident's physician. However, the owner or administrator of the facility shall be responsible for determining that the resident receiving services is appropriate for residency in the facility and has the further responsibility for monitoring the continuing appropriateness of placement of a resident in the facility.

34. PAMELA CUTSURIES conducted and engaged in business activities within the State of Florida; engaged in substantial and not isolated activities within the State of Florida; and purposely availed herself of the privileges of the State of Florida, through her ownership of, leasing of, operation of, and/or consultation with assisted living facilities, including THE CROSSINGS AT RIVERVIEW, within the State of Florida. Accordingly, pursuant to Florida Statute §48.193, PAMELA CUTSURIES is subject to the jurisdiction of the courts of the State of Florida.

35. PAMELA CUTSURIES committed tortious acts against ROSEMARY HELEN RIEDLE in the State of Florida. Each tortious act is specifically alleged in the subsequent counts, which include violations of Chapter 429 and common law. Accordingly, pursuant to Florida Statute §48.193(1)(b), PAMELA CUTSURIES is subject to the jurisdiction of the courts of the State of Florida.

AMERICAN OVERSIGHT

36. PAMELA CUTSURIES is an individual that operated, managed and oversaw THE CROSSINGS AT RIVERVIEW, and as such, owed a duty to ROSEMARY HELEN RIEDLE to exercise reasonable care according to §429.29(3), Florida Statutes.

37. Pursuant to Florida Statute 429.29(1), the owner or administrator of a facility is responsible for determining the appropriateness of admission of an individual to the facility and for determining the continued appropriateness of residence of an individual in the facility.

38. Plaintiff has performed all conditions precedent to commencement of this action.

Count I
Non-Lethal Negligence Damages Against
THE CROSSINGS AT RIVERVIEW, LLC; SABER HEALTHCARE HOLDINGS, LLC; CHP II RIVERVIEW FL TENANT, LLC; CHP II TRS HOLDING, INC.; FOSTER DEVELOPMENT, INC.; and PAMELA CUTSURIES

39. Plaintiff re-alleges Paragraphs 1 through 38 above.

40. The acts and omissions of Defendants, as set forth herein, constitute violations of the residents' rights of ROSEMARY HELEN RIEDLE, pursuant to Florida Statute §429.28.

41. Defendants owed a duty to ROSEMARY HELEN RIEDLE to properly hire, retain and supervise employees on Defendants' staff and to ensure that any such licensed nurses or resident care aides exercised care consistent with the prevailing professional standard of care for a nurse.

42. Notwithstanding the responsibility of the Defendants to provide ROSEMARY HELEN RIEDLE with reasonable care, Defendants failed to act reasonably in the care of ROSEMARY HELEN RIEDLE by failing to ensure or monitor the appropriateness of placement in this facility; failing to provide ROSEMARY HELEN RIEDLE a safe environment; failing to prevent and protect ROSEMARY HELEN RIEDLE from falling and being injured by falls in the facility; failing to monitor and adequately respond to changes in physical signs and symptoms of

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001283

ROSEMARY HELEN RIEDLE; failing to properly train and supervise staff; failing to provide adequate and appropriate supervision to ensure ROSEMARY HELEN RIEDLE's safety; and failing to provide ROSEMARY HELEN RIEDLE with adequate and appropriate health care consistent with established and recognized standards within the community.

43. Additionally, Defendants endangered residents, including ROSEMARY HELEN RIEDLE, by failing to use reasonable care in accepting and keeping residents in order to obtain maximum census levels, which allows for increased revenues. The Defendants further endangered residents by failing to adjust staffing levels to meet the needs of the residents, including ROSEMARY HELEN RIEDLE, which significantly contributed to the following failures: failure to provide ROSEMARY HELEN RIEDLE a safe environment; failure to prevent and protect ROSEMARY HELEN RIEDLE from falling and being injured by falls in the facility; failure to monitor and adequately respond to changes in physical signs and symptoms of ROSEMARY HELEN RIEDLE; failure to properly train and supervise staff; failure to provide adequate and appropriate supervision to ensure ROSEMARY HELEN RIEDLE's safety; and failure to provide ROSEMARY HELEN RIEDLE with adequate and appropriate health care consistent with established and recognized standards within the community.

44. Defendants each knew or should have known that the above-described failures occurred or were likely to occur thus exposing ROSEMARY HELEN RIEDLE to injury.

45. Defendants' breach of the duties owed to Plaintiff as set forth herein was the legal cause of the loss, injury and damages suffered by ROSEMARY HELEN RIEDLE, which included numerous falls, a skin tear to her left elbow, and a hematoma to her head.

46. As a direct and proximate result of Defendants' negligent acts and omissions, ROSEMARY HELEN RIEDLE suffered bodily injury and resulting pain and suffering,

AMERICAN OVERSIGHT

disability, disfigurement, mental anguish, loss of capacity for the enjoyment of life, expense of hospitalization, medical and nursing care and treatment, and aggravation of a previously existing condition.

WHEREFORE, Plaintiff demands judgment against the Defendants for damages as stated above and further demands a trial by jury, together with such other and further relief as this Court deems appropriate.

Count II
Lethal Negligence Damages Against
THE CROSSINGS AT RIVERVIEW, LLC; SABER HEALTHCARE HOLDINGS, LLC; CHP II RIVERVIEW FL TENANT, LLC; CHP II TRS HOLDING, INC.; FOSTER DEVELOPMENT, INC.; and PAMELA CUTSURIES

47. Plaintiff re-alleges Paragraphs 1 through 38 above.

48. This is a claim for lethal negligence seeking survival damages.

49. The acts and omissions of Defendants, as set forth herein, constitute violations of the residents' rights of ROSEMARY HELEN RIEDLE, pursuant to Florida Statute §429.28.

50. Defendants owed a duty to ROSEMARY HELEN RIEDLE to properly hire, retain and supervise employees on Defendants' staff and to ensure that any such licensed nurses or resident care aides exercised care consistent with the prevailing professional standard of care for a nurse.

51. Notwithstanding the responsibility of the Defendants to provide ROSEMARY HELEN RIEDLE with reasonable care, Defendants failed to act reasonably in the care of ROSEMARY HELEN RIEDLE by failing to ensure or monitor the appropriateness of placement in this facility; failing to provide ROSEMARY HELEN RIEDLE a safe environment; failing to prevent and protect ROSEMARY HELEN RIEDLE from falling and being injured by falls in the facility; failing to monitor and adequately respond to changes in physical signs and symptoms of

AMERICAN OVERSIGHT

ROSEMARY HELEN RIEDLE; failing to properly train and supervise staff; failing to provide adequate and appropriate supervision to ensure ROSEMARY HELEN RIEDLE's safety; and failing to provide ROSEMARY HELEN RIEDLE with adequate and appropriate health care consistent with established and recognized standards within the community.

52. Additionally, Defendants endangered residents, including ROSEMARY HELEN RIEDLE, by failing to use reasonable care in accepting and keeping residents in order to obtain maximum census levels, which allows for increased revenues. The Defendants further endangered residents by failing to adjust staffing levels to meet the needs of the residents, including ROSEMARY HELEN RIEDLE, which significantly contributed to the following failures: failure to provide ROSEMARY HELEN RIEDLE a safe environment; failure to prevent and protect ROSEMARY HELEN RIEDLE from falling and being injured by falls in the facility; failure to monitor and adequately respond to changes in physical signs and symptoms of ROSEMARY HELEN RIEDLE; failure to properly train and supervise staff; failure to provide adequate and appropriate supervision to ensure ROSEMARY HELEN RIEDLE's safety; and failure to provide ROSEMARY HELEN RIEDLE with adequate and appropriate health care consistent with established and recognized standards within the community.

53. Defendants each knew or should have known that the above-described failures occurred or were likely to occur thus exposing ROSEMARY HELEN RIEDLE to injury.

54. Defendants' breach of the duties owed to Plaintiff as set forth herein was the legal cause of the loss, injury and damages suffered by ROSEMARY HELEN RIEDLE, which included numerous falls, a skin tear to her left elbow, and a hematoma to her head.

55. As a direct and proximate result of Defendants' negligent acts and omissions, ROSEMARY HELEN RIEDLE suffered bodily injury and resulting pain and suffering,

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001286

disability, disfigurement, mental anguish, loss of capacity for the enjoyment of life, expense of hospitalization, medical and nursing care and treatment, aggravation of a previously existing condition and ultimately, caused the death of ROSEMARY HELEN RIEDLE, on February 24, 2019.

WHEREFORE, Plaintiff demands judgment against the Defendants for damages as stated above and further demands a trial by jury, together with such other and further relief as this Court deems appropriate.

Count III
Wrongful Death Damages Against
THE CROSSINGS AT RIVERVIEW, LLC; SABER HEALTHCARE HOLDINGS, LLC; CHP II RIVERVIEW FL TENANT, LLC; CHP II TRS HOLDING, INC.; FOSTER DEVELOPMENT, INC.; and PAMELA CUTSURIES

56. Plaintiff re-alleges Paragraphs 1 through 38 above.

57. This is a claim for lethal negligence seeking wrongful death damages.

58. The acts and omissions of Defendants, as set forth herein, constitute violations of the residents' rights of ROSEMARY HELEN RIEDLE, pursuant to Florida Statute 429.28.

59. Defendants owed a duty to ROSEMARY HELEN RIEDLE to properly hire, retain and supervise employees on Defendants' staff and to ensure that any such licensed nurses or resident care aides exercised care consistent with the prevailing professional standard of care for a nurse.

60. Notwithstanding the responsibility of the Defendants to provide ROSEMARY HELEN RIEDLE with reasonable care, Defendants failed to act reasonably in the care of ROSEMARY HELEN RIEDLE by failing to ensure or monitor the appropriateness of placement in this facility; failing to provide ROSEMARY HELEN RIEDLE a safe environment; failing to prevent and protect ROSEMARY HELEN RIEDLE from falling and being injured by falls in the

AMERICAN OVERSIGHT
FL-GOV-20-0899-A-001287

facility; failing to monitor and adequately respond to changes in physical signs and symptoms of ROSEMARY HELEN RIEDLE; failing to properly train and supervise staff; failing to provide adequate and appropriate supervision to ensure ROSEMARY HELEN RIEDLE's safety; and failing to provide ROSEMARY HELEN RIEDLE with adequate and appropriate health care consistent with established and recognized standards within the community.

61. Additionally, Defendants endangered residents, including ROSEMARY HELEN RIEDLE, by failing to use reasonable care in accepting and keeping residents in order to obtain maximum census levels, which allows for increased revenues. The Defendants further endangered residents by failing to adjust staffing levels to meet the needs of the residents, including ROSEMARY HELEN RIEDLE, which significantly contributed to the following failures: failure to provide ROSEMARY HELEN RIEDLE a safe environment; failure to prevent and protect ROSEMARY HELEN RIEDLE from falling and being injured by falls in the facility; failure to monitor and adequately respond to changes in physical signs and symptoms of ROSEMARY HELEN RIEDLE; failure to properly train and supervise staff; failure to provide adequate and appropriate supervision to ensure ROSEMARY HELEN RIEDLE's safety; and failure to provide ROSEMARY HELEN RIEDLE with adequate and appropriate health care consistent with established and recognized standards within the community.

62. Defendants each knew or should have known that the above-described failures occurred or were likely to occur thus exposing ROSEMARY HELEN RIEDLE to injury.

63. Defendants' breach of the duties owed to Plaintiff as set forth herein was the legal cause of the loss, injury and damages suffered by ROSEMARY HELEN RIEDLE, which included numerous falls, a skin tear to her left elbow, and a hematoma to her head.

AMERICAN OVERSIGHT

64. As a direct and proximate result of Defendants' negligent acts and omissions, ROSEMARY HELEN RIEDLE died on February 24, 2019.

65. As a direct and proximate result of the Defendants' acts and omissions, which resulted in the death of ROSEMARY HELEN RIEDLE, the Estate of ROSEMARY HELEN RIEDLE has incurred extensive medical, nursing, funeral, and other expenses.

66. ROSEMARY HELEN RIEDLE died with surviving children, JEANETTE M. RIEDLE, DONNA SAMULOWITZ, ROBERT RIEDLE, JR., MD., and DEBRA BURNS, all of whom are potential beneficiaries of a recovery for wrongful death.

67. As a result of the death of ROSEMARY HELEN RIEDLE, JEANETTE M. RIEDLE, DONNA SAMULOWITZ, ROBERT RIEDLE, JR., MD., and DEBRA BURNS suffered loss of support and services and will suffer such losses in the future, loss of parental companionship, instruction and guidance, and mental pain and suffering.

68. JEANETTE M. RIEDLE is the Personal Representative of the Estate of ROSEMARY HELEN RIEDLE. On behalf of the Estate of ROSEMARY HELEN RIEDLE, JEANETTE M. RIEDLE seeks recovery of medical and funeral expenses chargeable to the Estate.

WHEREFORE, Plaintiff demands judgment against the Defendant for damages as stated above and further demands a trial by jury, together with such other and further relief as this Court deems appropriate.

Count IV
Breach of Fiduciary Duty
THE CROSSINGS AT RIVERVIEW, LLC and CHP II RIVERVIEW FL TENANT, LLC

69. Plaintiff re-alleges and incorporates herein by reference paragraphs 1 through 7, 15 through 18, and 38 above.

AMERICAN OVERSIGHT

70. This is a claim that presents a theory of recovery based upon the presence of a fiduciary duty owed by Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, exclusive of and in addition to all rights encompassed in negligence or Chapter 429, Fla. Stat.

71. At all times material, ROSEMARY HELEN RIEDLE was incapable of independently providing for all of her necessary care and services to attain and maintain the highest practicable physical, mental, and psychosocial well-being.

72. ROSEMARY HELEN RIEDLE was incapable of dealing with THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC on equal terms, and was incapable of engaging in any arm's length relationships with THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC.

73. ROSEMARY HELEN RIEDLE placed a special confidence and trust in THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC to provide for all of her necessary care and services to attain and maintain the highest practicable physical, mental, and psychosocial well-being. ROSEMARY HELEN RIEDLE also relied on THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC to provide such care and services.

74. THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC accepted the special confidence and trust placed upon them by ROSEMARY HELEN RIEDLE by admitting her into THE CROSSINGS AT RIVERVIEW and by reserving the right to specifically determine the level of care, protection, supplies and services that would be provided to ROSEMARY HELEN RIEDLE.

75. THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001290

TENANT, LLC individually and collectively controlled, oversaw and orchestrated every single aspect of ROSEMARY HELEN RIEDLE's existence, from the mundane (such as the clothing worn) to the vital (such as determining when and how healthcare would be provided, as well as how much food and water ROSEMARY HELEN RIEDLE could consume).

76. ROSEMARY HELEN RIEDLE was solely and particularly dependent upon the employees, officers, directors, and agents of THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC to provide for his daily care, protection, services, supplies and personal and intimate needs.

77. THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC developed a special relationship with ROSEMARY HELEN RIEDLE by virtue of the nature of the care and services provided, the supposedly superior knowledge, skill and abilities, the enormous disparity of power and unequal bargaining position, Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, enjoyed over ROSEMARY HELEN RIEDLE, as well as his inability to care for and provide for herself.

78. This special relationship allowed Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, to occupy a position of confidence toward ROSEMARY HELEN RIEDLE, which required fidelity, loyalty, good faith, and fair dealing by Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC. Additionally, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC had a duty to refrain from engaging in self-dealing.

79. THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC systematically accepted monies intended for the provision of care and services

AMERICAN OVERSIGHT

to the residents, including ROSEMARY HELEN RIEDLE, while representing that the THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC would provide the full value of the care and services as required.

80. At all times material to this action, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC named herein was a fiduciary of ROSEMARY HELEN RIEDLE.

81. At all times material to this action, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC owed a fiduciary duty to ROSEMARY HELEN RIEDLE.

82. Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC failed to provide the full value of care and services as promised and as required.

83. Notwithstanding their fiduciary duties to ROSEMARY HELEN RIEDLE, Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, acted and failed to act in material breach of the duties owed to ROSEMARY HELEN RIEDLE and to the direct detriment of residents, including ROSEMARY HELEN RIEDLE. Instead THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC acted or failed to act in ways to promote its own interests and in ways in contravention of the interests of the residents, including ROSEMARY HELEN RIEDLE.

84. THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC breached and violated its relationship of trust, special confidence, and its fiduciary obligations and duties owed to ROSEMARY HELEN RIEDLE by:

a) allowing the use of revenues and assets obtained from residents and their

AMERICAN OVERSIGHT

payor sources for inflated, unreasonable and improper inter-company fees and transfers designed and created for the benefit of THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's affiliates, parents, owners and corporate entities, instead of utilizing said resources effectively and efficiently to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident, including ROSEMARY HELEN RIEDLE as required; and,

b) entering into numerous contracts that were for the benefit of THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, their owners and operators and worked to the detriment of residents, including ROSEMARY HELEN RIEDLE. These contracts included, but not limited to, lease and sub-lease agreements, back office agreements, pharmacy goods and services agreements, management agreements, and therapy services agreements.

85. In violating their fiduciary obligations and duties to ROSEMARY HELEN RIEDLE, as referenced herein, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC knew, or should have known, that ROSEMARY HELEN RIEDLE would suffer harm.

86. Defendants', THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's breaches of the duties owed to ROSEMARY HELEN RIEDLE, as set forth herein were the legal cause of the loss, injury and damages suffered by ROSEMARY HELEN RIEDLE.

WHEREFORE, Plaintiff demands judgment for disgorgement of profits and any

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001293

consequential damages against THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC and further demands a trial by jury together with such other and further relief as this Court deems appropriate.

Count V
Aiding and Abetting Breach of Fiduciary Duty
SABER HEALTHCARE HOLDINGS, LLC; CHP II TRS HOLDING, INC.; and FOSTER DEVELOPMENT, INC.
(the "Corporate Defendants")

87. Plaintiff re-alleges and incorporates herein by reference paragraphs 1 through 3, 9 through 12, 20 through 23, 25 through 28, and 38 above.

88. This is a claim that presents a theory of recovery based upon the presence and breach of a fiduciary duty owed by Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, aided and abetted by the Corporate Defendants, exclusive of and in addition to all rights encompassed in negligence or Chapter 429, Fla. Stat.

89. As set forth in Count IV above, Defendants, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, owed and breached fiduciary duties it owed to the residents of THE CROSSINGS AT RIVERVIEW, including ROSEMARY HELEN RIEDLE.

90. The Corporate Defendants are related entities within a single enterprise or joint venture which all share common ownership, directors, officers and managers.

91. The Corporate Defendants had knowledge of ROSEMARY HELEN RIEDLE's fiduciary relationship with THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC by virtue of the nature of the care and services required, the supposedly superior knowledge, skill and abilities, and the enormous disparity of power and

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001294

unequal bargaining position that the THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC enjoyed over ROSEMARY HELEN RIEDLE.

92. By reason of their shared and/or common ownership, directors, officers and managers and contractual relationships, the Corporate Defendants, knew of the fiduciary duties THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC owed to ROSEMARY HELEN RIEDLE and knew of THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's breach of those duties as described in the preceding Count.

93. The Corporate Defendants knew that the residents at THE CROSSINGS AT RIVERVIEW, including ROSEMARY HELEN RIEDLE, were incapable of independently providing their own necessary care and were solely and specifically dependent upon the employees, officers, directors, and agents to provide for their basic daily care, protection, services, supplies, and personal and intimate needs.

94. The Corporate Defendants knowingly participated and provided substantial assistance and encouragement to THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC in connection with its breach of fiduciary duties to ROSEMARY HELEN RIEDLE, as set forth in detail within Count IV, above.

95. In addition to this knowledge, the Corporate Defendants aided and abetted Defendant THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC in its breach of fiduciary duties and rendered substantial assistance and encouragement for the same, by, among other things:

a) exercising dominance and control over THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's revenues by regularly

AMERICAN OVERSIGHT

and repeatedly sweeping virtually all of the facility's revenues into an account controlled by the Corporate Defendants and/or their designee;

b) knowingly and intentionally taking, creating and accepting inter-company fees and transfers, comprised of revenues obtained from the residents and designed to improperly and unjustly enrich the Corporate Defendants, instead of allowing the facility to utilize said resources effectively and efficiently to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident, including ROSEMARY HELEN RIEDLE, as required;

c) knowingly and intentionally taking, creating and accepting inter-company fees and transfers, comprised of revenues obtained from residents, for the purpose of insulating themselves from civil liability, regulatory oversight and accountability;

d) structuring and approving contracts between the Corporate Defendants and THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, which the Corporate Defendants knew or should have known would result in the diversion of facility revenues necessary to provide the care and services to its residents, including ROSEMARY HELEN RIEDLE;

e) overseeing and approving the THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's acceptance of monies from residents, including ROSEMARY HELEN RIEDLE, knowing the facility could not provide full value of the care and services to meet the care and safety needs of the residents;

AMERICAN OVERSIGHT

f) directly or indirectly misrepresenting the nature of the relationship between the Corporate Defendants and THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, in which Corporate Defendants, by virtue of their common owners, officers and managers, controlled the business operations and working capital of the facility and inappropriately commingled its revenues by making intra-company transfers to related facilities;

g) structuring the managing and operating business model for the facility in a way that constrained its ability to provide the level of care and services to residents, including ROSEMARY HELEN RIEDLE, while simultaneously benefitting upstream corporate entities; and,

h) influencing, advocating, and approving THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's improper payments to the Corporate Defendants, which they knew or should have known exceeded amounts a prudent and cost conscious buyer would pay, and which they also knew or should have known would cause the monies intended for the provision of care and services to the residents, including ROSEMARY HELEN RIEDLE, to be depleted.

96. The conduct of the Corporate Defendants, as aforesaid, constitutes aiding and abetting THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC's breach of fiduciary duty and subjects the Corporate Defendants to liability for the harm suffered by Plaintiff.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001297

97. In aiding and abetting THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC in violating fiduciary obligations and duties to ROSEMARY HELEN RIEDLE as referenced herein, the Corporate Defendants knew, or should have known, that ROSEMARY HELEN RIEDLE would suffer harm.

98. As a result of the Corporate Defendants aiding and abetting in the breaches of fiduciary duties by THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC, the Corporate Defendants were improperly and unjustly enriched, THE CROSSINGS AT RIVERVIEW, LLC; and CHP II RIVERVIEW FL TENANT, LLC was left without the necessary resources to function in the residents' best interests, and ROSEMARY HELEN RIEDLE suffered both the injuries set forth herein as well as economic harm.

WHEREFORE, Plaintiff demands judgment against the Corporate Defendants for disgorgement of profits and any consequential damages against the Corporate Defendants and further demands a trial by jury, together with such other and further relief as this Court deems appropriate.

Count VI
Violations of Florida Statutes §415.1111 as to
SABER HEALTHCARE HOLDINGS, LLC; CHP II TRS HOLDING, INC.;
and FOSTER DEVELOPMENT, INC.;

99. Plaintiff re-alleges and incorporates herein by reference paragraphs 1 through 3, 9, 12, 20, 23, 25, 28, and 38 above.

100. For the purposes of this count and only this count, it is not alleged that Defendants are a licensee or entity that established, controlled, conducted, managed or operated THE CROSSINGS AT RIVERVIEW.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001298

101. ROSEMARY HELEN RIEDLE was at all relevant times a vulnerable adult with a long-term disability. She was over eighteen (18) years of age and was unable to perform the normal activities of daily living or to provide for her own care or protection due to her disability.

102. The Defendants' acts or omissions constitute exploitation of a vulnerable adult in violation of §415.1111, Florida Statutes.

103. Defendants knew or should have known that ROSEMARY HELEN RIEDLE lacked the capacity to consent, but Defendants obtained or used, or endeavored to obtain or use ROSEMARY HELEN RIEDLE's funds, assets or property, including Medicare and Medicaid benefits, with the intent to temporarily or permanently deprive ROSEMARY HELEN RIEDLE of the use, benefit or possession of the funds, assets, or property for the benefit of someone other than ROSEMARY HELEN RIEDLE.

104. Defendants failed or refused to effectively use ROSEMARY HELEN RIEDLE's income or assets for the necessities required for her support and maintenance.

105. Defendants received compensation Defendants should have known would deprive THE CROSSINGS AT RIVERVIEW of adequate resources to provide the necessities of ROSEMARY HELEN RIEDLE's support and maintenance.

106. The compensation Defendants received was derived from the private funds of vulnerable adults, including ROSEMARY HELEN RIEDLE, or from Medicaid and/or Medicare funds that were beneficiaries' assets, including ROSEMARY HELEN RIEDLE, which were paid to Defendants for the sole purpose of providing for the support and maintenance of ROSEMARY HELEN RIEDLE.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001299

107. Defendants' failure or refusal to effectively use ROSEMARY HELEN RIEDLE's income or assets as set forth herein, was the proximate cause of the losses she suffered including, but not limited to the use, benefit, or possession of the funds, assets or property for her benefit.

108. As a direct and proximate result of Defendants' acts and omissions, ROSEMARY HELEN RIEDLE was deprived of the use, benefit or possession of the funds, assets or property.

WHEREFORE, Plaintiff demands judgment against Defendants, disgorgement of profits, consequential damages, attorneys' fees and costs, pre-judgment interest, the opportunity to amend this Complaint to add a demand for punitive damages at the appropriate time, trial by jury of all matters so triable, and such other relief this Court deems appropriate.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001301

IN THE CIRCUIT COURT FOR HILLSBOROUGH COUNTY, FLORIDA PROBATE DIVISION

IN RE: ESTATE OF
ROSEMARY HELEN RIEDLE, A/K/A ROSEMARI RIEDLE

File No. 19-CP-003188

Division

Deceased.

LETTERS OF ADMINISTRATION
(single personal representative)

TO ALL WHOM IT MAY CONCERN:

WHEREAS, ROSEMARY HELEN RIEDLE, A/K/A ROSEMARY RIEDLE, a resident of Hillsborough County, Florida, died on February 24, 2019, owning assets in the State of Florida, and

WHEREAS, JEANETTE M. RIEDLE has been appointed Personal Representative of the estate of the decedent and has performed all acts prerequisite to issuance of Letters of Administration in the estate,

NOW, THEREFORE, I, the undersigned Circuit Judge, declare JEANETTE M. RIEDLE duly qualified under the laws of the State of Florida to act as Personal Representative of the estate of ROSEMARY HELEN RIEDLE, A/K/A ROSEMARY RIEDLE, deceased, with full power to administer the estate according to law; to ask, demand, sue for, recover and receive the property of the decedent; to pay the debts of the decedent as far as the assets of the estate will permit and the law directs; and to make distribution of the estate according to law.

Any settlement entered into by the Personal Representative must be approved by this Court if (1) there is an objection by any survivor to the amount or apportionment of the settlement, (2) the settlement affects a survivor who is a minor or incompetent, or (3) there will be any unsatisfied, valid creditor claims. A copy of these Letters shall be filed in the wrongful death proceeding.

Ordered on _____, 2019.

From: Baker, Michael (OS/IEA)
To: Baker, Michael (OS/IEA)
Subject: HHS Releases Funding and Other Resources for COVID-19
Date: Wednesday, March 11, 2020 3:55:55 PM

Dear Partner –

Thank you for your continued engagement and partnership with us to address and mitigate the spread of COVID-19. We highly value our strong ongoing partnership, and hope to continue to be a resource to you as you implement community mitigation techniques. As you might imagine, a number of HHS divisions are releasing COVID-19-related information on funding and guidance. We thought it would be helpful to batch up information on key issues to keep you up-to-date.

Funding for States to Address COVID-19
Perhaps of keenest interest to you and your health officials is an update on funding for states and communities to address mitigation of COVID-19. Today, the Department of Health and Human Services (HHS) is announcing upcoming action by the Centers for Disease Control and Prevention (CDC) to provide resources to state and local jurisdictions in support of our nation's response to the coronavirus disease 2019 (COVID-19).

The $8.3 billion dollar Supplemental passed by Congress included statutory language which prescribed the exact formula for disbursing the money: states will receive 90% of their 2019 CDC PHEP grants. This marks the first tranche of funding to states from the $8.3 billion supplemental. Today, CDC is contacting State Health Officers to move forward with awarding over $560 million to states, localities, territories, and tribes. CDC will use existing networks to reach out to state and local jurisdictions to access this initial funding. To view the list of CDC funding actions to jurisdictions, click here.

Helping Communities Know Mitigation Strategies
Yesterday, CDC released their "Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission." Essentially, this is a guide for communities describing possible mitigation strategies for communities dealing with transmission at three different levels: (1) None/Minimal, (2) Moderate, or (3) Substantial. Community mitigation strategies, which are non-pharmaceutical interventions, are often the most available interventions to help slow the transmission of COVID-19 in communities. The Mitigation Plans include a set of actions that persons and communities can take to slow the spread of respiratory virus infections. The Community Mitigation Plan can be found here.

Guidance on Infection Control For Healthcare Workers
Yesterday, CDC released updated guidance on infection prevention and control recommendations. Healthcare workers are fighting this outbreak on the front lines, and this guidance is intended to provide assistance to healthcare settings that are handling suspected or confirmed cases of COVID-19. This guidance is applicable to all U.S. healthcare settings, but not for non-healthcare settings. There is separate guidance for that. The new guidance on infection control can be found here.

Guidance on Laboratories
The CDC has been actively working to address the need for testing across the country. In addition to public health laboratories, private labs are doing testing. In addition to reviewing

AMERICAN OVERSIGHT

the Updated Guidance on Evaluating and Testing Persons for Coronavirus Disease 2019, the CDC recently updated the FAQ website for laboratories, and we encourage you to read through the site to answer preliminary questions, though we stand ready to answer other questions that you may have.

OMB Flexibilities

On March 9, 2020, OMB issued a memo that provides administrative relief for recipients and applicants of Federal financial assistance who are directly impacted by COVID-19. The grant flexibilities include 10 actions that HHS can take to provide short-term administrative and financial management relief, allowing funds to be awarded quicker and giving grantees the ability to focus on their critical response, research, or services. More information can be found here.

General Preparation Information

On March 9, 2020, the White House Coronavirus Task Force released practical steps that we recommend posting and sharing to keep workplaces, school, home and commercial establishments safe. This information can be found here.

As the President, the Vice President, and the entire White House team continue to stress, the COVID-19 response is a whole-of-government effort. Each department has a number of specific resources. We encourage you to explore those resources as necessary to respond to the situation in your communities.

If you have any questions on these items or other issues, please feel free to reach out.

Thanks,

Darcie L. Johnston
Director, Intergovernmental Affairs
U.S. Department of Health and Human Services

AMERICAN OVERSIGHT
FL-GOV-20-0899-A-001306

February 2020
Office for Civil Rights, U.S. Department of Health and Human Services
BULLETIN: HIPAA Privacy and Novel Coronavirus

In light of the Novel Coronavirus (2019-nCoV) outbreak, the Office for Civil Rights (OCR) at the U.S. Department of Health and Human Services (HHS) is providing this bulletin to ensure that HIPAA covered entities and their business associates are aware of the ways that patient information may be shared under the HIPAA Privacy Rule in an outbreak of infectious disease or other emergency situation, and to serve as a reminder that the protections of the Privacy Rule are not set aside during an emergency.

The HIPAA Privacy Rule protects the privacy of patients' health information (protected health information) but is balanced to ensure that appropriate uses and disclosures of the information still may be made when necessary to treat a patient, to protect the nation's public health, and for other critical purposes.

The U.S. Centers for Disease Control and Prevention (CDC) has advised: if you were in China within the past 14 days and feel sick with fever, cough, or difficulty breathing, you should get medical care. Call the office of your health care provider before you go and tell them about your travel and your symptoms. They will give you instructions on how to get care without exposing other people to your illness. While sick, avoid contact with people, don't go out and delay any travel to reduce the possibility of spreading illness to others. More information from the CDC available at: https://www.cdc.gov/coronavirus/2019-ncov/downloads/2019-ncov-factsheet.pdf.

Sharing Patient Information

Treatment Under the Privacy Rule, covered entities may disclose, without a patient's authorization, protected health information about the patient as necessary to treat the patient or to treat a different patient. Treatment includes the coordination or management of health care and related services by one or more health care providers and others, consultation between providers, and the referral of patients for treatment. See 45 CFR §§ 164.502(a)(1)(ii), 164.506(c), and the definition of "treatment" at 164.501.

Public Health Activities The HIPAA Privacy Rule recognizes the legitimate need for public health authorities and others responsible for ensuring public health and safety to have access to protected health information that is necessary to carry out their public health mission. Therefore, the Privacy Rule permits covered entities to disclose needed protected health information without individual authorization:

- ***To a public health authority***, such as the CDC or a state or local health department, that is authorized by law to collect or receive such information for the purpose of preventing or controlling disease, injury or disability. This would include, for example, the reporting of disease or injury; reporting vital events, such as births or deaths; and conducting public health surveillance, investigations, or interventions. A "public health authority" is an agency or authority of the United States government, a State, a territory, a political subdivision of a State or territory, or Indian tribe that is responsible for public health matters as part of its official mandate, as well as a person or entity acting under a grant of authority from, or under a contract with, a public health agency. See 45 CFR §§ 164.501 and 164.512(b)(1)(i). For example, a covered entity may disclose to the CDC protected health information on an ongoing basis as needed to report all prior and prospective cases of patients exposed to or suspected or confirmed to have Novel Coronavirus (2019-nCoV).

AMERICAN OVERSIGHT

- ***At the direction of a public health authority, to a foreign government agency*** that is acting in collaboration with the public health authority. See 45 CFR 164.512(b)(1)(i).
- ***To persons at risk*** of contracting or spreading a disease or condition if other law, such as state law, authorizes the covered entity to notify such persons as necessary to prevent or control the spread of the disease or otherwise to carry out public health interventions or investigations. See 45 CFR 164.512(b)(1)(iv).

Disclosures to Family, Friends, and Others Involved in an Individual's Care and for Notification A covered entity may share protected health information with a patient's family members, relatives, friends, or other persons identified by the patient as involved in the patient's care. A covered entity also may share information about a patient as necessary to identify, locate, and notify family members, guardians, or anyone else responsible for the patient's care, of the patient's location, general condition, or death. This may include, where necessary to notify family members and others, the police, the press, or the public at large. See 45 CFR 164.510(b).

- The covered entity should get verbal permission from individuals or otherwise be able to reasonably infer that the patient does not object, when possible; if the individual is incapacitated or not available, covered entities may share information for these purposes if, in their professional judgment, doing so is in the patient's best interest.
- For patients who are unconscious or incapacitated: A health care provider may share relevant information about the patient with family, friends, or others involved in the patient's care or payment for care, if the health care provider determines, based on professional judgment, that doing so is in the best interests of the patient. For example, a provider may determine that it is in the best interests of an elderly patient to share relevant information with the patient's adult child, but generally could not share unrelated information about the patient's medical history without permission.
- In addition, a covered entity may share protected health information with disaster relief organizations that, like the American Red Cross, are authorized by law or by their charters to assist in disaster relief efforts, for the purpose of coordinating the notification of family members or other persons involved in the patient's care, of the patient's location, general condition, or death. It is unnecessary to obtain a patient's permission to share the information in this situation if doing so would interfere with the organization's ability to respond to the emergency.

Disclosures to Prevent a Serious and Imminent Threat Health care providers may share patient information with anyone as necessary to prevent or lessen a serious and imminent threat to the health and safety of a person or the public – consistent with applicable law (such as state statutes, regulations, or case law) and the provider's standards of ethical conduct. See 45 CFR 164.512(j). Thus, providers may disclose a patient's health information to anyone who is in a position to prevent or lesson the serious and imminent threat, including family, friends, caregivers, and law enforcement without a patient's permission. HIPAA expressly defers to the professional judgment of health professionals in making determinations about the nature and severity of the threat to health and safety. See 45 CFR 164.512(j).

Disclosures to the Media or Others Not Involved in the Care of the Patient/Notification In general, except in the limited circumstances described elsewhere in this Bulletin, affirmative reporting to the media or the public at large about an identifiable patient, or the disclosure to the public or media of specific information about treatment of an identifiable patient, such as specific tests, test results or details of a patient's illness, may not be done without the patient's written authorization (or the written authorization of a personal representative who is a person legally authorized to make health care

AMERICAN OVERSIGHT

decisions for the patient). See 45 CFR 164.508 for the requirements for a HIPAA authorization. Where a patient has not objected to or restricted the release of protected health information, a covered hospital or other health care facility may, upon request, disclose information about a particular patient by name, may release limited facility directory information to acknowledge an individual is a patient at the facility, and may provide basic information about the patient's condition in general terms (*e.g.*, critical or stable, deceased, or treated and released). Covered entities may also disclose information if the patient is incapacitated, and if the disclosure is believed to be in the best interest of the patient and consistent with any prior expressed preferences of the patient. See 45 CFR 164.510(a).

Minimum Necessary For most disclosures, a covered entity must make reasonable efforts to limit the information disclosed to that which is the "minimum necessary" to accomplish the purpose. (Minimum necessary requirements do not apply to disclosures to health care providers for treatment purposes.) Covered entities may rely on representations from a public health authority or other public official that the requested information is the minimum necessary for the purpose, when that reliance is reasonable under the circumstances. For example, a covered entity may rely on representations from the CDC that the protected health information requested by the CDC about all patients exposed to or suspected or confirmed to have Novel Coronavirus (2019-nCoV) is the minimum necessary for the public health purpose. In addition, internally, covered entities should continue to apply their role-based access policies to limit access to protected health information to only those workforce members who need it to carry out their duties. See 45 CFR §§ 164.502(b), 164.514(d).

Safeguarding Patient Information

In an emergency situation, covered entities must continue to implement reasonable safeguards to protect patient information against intentional or unintentional impermissible uses and disclosures. Further, covered entities (and their business associates) must apply the administrative, physical, and technical safeguards of the HIPAA Security Rule to electronic protected health information.

HIPAA Applies Only to Covered Entities and Business Associates

The HIPAA Privacy Rule applies to disclosures made by employees, volunteers, and other members of a covered entity's or business associate's workforce. Covered entities are health plans, health care clearinghouses, and those health care providers that conduct one or more covered health care transactions electronically, such as transmitting health care claims to a health plan. Business associates generally are persons or entities (other than members of the workforce of a covered entity) that perform functions or activities on behalf of, or provide certain services to, a covered entity that involve creating, receiving, maintaining, or transmitting protected health information. Business associates also include subcontractors that create, receive, maintain, or transmit protected health information on behalf of another business associate. The Privacy Rule does not apply to disclosures made by entities or other persons who are not covered entities or business associates (although such persons or entities are free to follow the standards on a voluntary basis if desired). There may be other state or federal rules that apply.

Business Associates A business associate of a covered entity (including a business associate that is a subcontractor) may make disclosures permitted by the Privacy Rule, such as to a public health authority, on behalf of a covered entity or another business associate to the extent authorized by its business associate agreement.

Subject:	Happening Soon: White House Briefing Call on Regulatory Reform with Dr. Art Laffer
Date:	Tuesday, March 3, 2020 12:47:13 PM
Attachments:	Outlook-cid_image0.png Outlook-Image resu.png Outlook-Related im.png Outlook-Related im.png Outlook-Help advan.png

Below is an invite for today for you to join Dr. Art Laffer and White House Senior Administration Officials to discuss the bipartisan *Initiative on Regulatory Innovation and regulatory reform*.

The call will take place at **2p.m. Eastern today.** Be sure to register by clicking the link in the below email in order to receive the call-in information.

Thank you to everyone who has already signed up and confirmed they are willing to be listed as a Champion for the White House Initiative on Regulatory Innovation and regulatory reform.

For those of you that are interested in joining this initiative and have not yet confirmed, please email Tim Williams and me and indicate you want to join and are willing to be listed as a White House Regulatory Champion on a publicly available website. *(There is no financial commitment or time commitment. More info below from the White House).*

Sincerely,

Jeff Small
Senior Advisor to the Secretary
U.S. Department of the Interior
Intergovernmental Affairs/External Affairs/Communications
1849 C Street NW
Office 6217

Note: Every email and text I send or receive is subject to public release under the Freedom of Information Act.

THE WHITE HOUSE

Leaders and Staff,

On Tuesday, March 3, please join Dr. Art Laffer and Senior Administration Officials to discuss the bipartisan *Governors' Initiative on Regulatory Innovation* and regulatory reform. If you would like to join, registration instructions and additional background information are below.

Briefing Call Registration

- **Date:** Tuesday, March 3
- **Time:** 2:00 PM Eastern Time
- **Call-In Registration**: **CLICK HERE**
- **Note:** You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Biography

Arthur B. Laffer is one of the most influential economists in American history. He is renowned for his economic theory, the "Laffer Curve," which establishes the strong incentive effects of lower tax rates that spur investment, production, jobs, wages, economic growth, and tax compliance. Dr. Laffer was the first chief economist of the Office of Management and Budget and a top economic advisor to President Ronald Reagan. Among other accomplishments during his distinguished career, he served as a consultant to the Department of the Treasury and Department of Defense. Dr. Laffer's public service and contributions to economic policy have helped spur prosperity for our Nation. On June 19, 2019, Dr. Laffer received the Presidential Medal of Freedom from President Trump.

Become a "Champion" for the Initiative on Regulatory Innovation

The White House is identifying State, Local, and Tribal leaders to be Champions for the Initiative on Regulatory Innovation. Being a Champion means you are a State, Local, or Tribal leaders working to do any of the following:

- Advance occupational licensing reforms,
- Transforming America's communities through smarter regulations,
- Accelerating infrastructure and energy deployment through permitting reform and alignment, ***OR***

AMERICAN OVERSIGHT

- Putting people over paperwork by reducing the volume and costs of regulations.

There is no financial, budgetary, or time commitment to being a Champion. The White House would welcome your partnership to advance one or more of the goals of the Initiative. **Please let us know if you are willing to be a Champion and send any suggestions for other Champions to** The White House Office of Intergovernmental Affairs at Zachariah.D.Swint2@who.eop.gov**.**

Below you will find additional information about the *Initiative.*

Thanks,

Zach

Zach Swint
Office of Intergovernmental Affairs
The White House

ADDITIONAL INFORMATION

Overview: On October 21, the Administration announced a Governors' Initiative on Regulatory Innovation to extend the President's historic regulatory reform to State and local levels. This initiative, led by Vice President Mike Pence, aims to cut regulations and costs, advance occupational licensing reform, and better align local, state and federal regulations. The initiative will work with State, local, and tribal leaders from across the country who are championing deregulatory and smarter regulation activity.

On December 16, 2019, President Donald J. Trump and Vice President Mike Pence met with our Nation's governors, local, and tribal leaders to discuss the **Governors' Initiative on Regulatory Innovation** and the Administration's historic regulatory reform. The President expressed his gratitude for the work that the leaders are doing to bring his regulatory reform successes to their states. State, local, and tribal leaders highlighted their work on the four workstreams of the initiative: workforce mobility, transforming American communities, American energy dominance, and people over paperwork. The following leaders attended: Governor Mike Dunleavy (Alaska), Governor Asa Hutchinson (Arkansas), Governor Brad Little (Idaho), Governor Eric Holcomb (Indiana), Governor Pete Ricketts (Nebraska), Governor Kristi Noem (South Dakota), Governor-elect Tate Reeves (Mississippi), Senate President Larry Obhof (Ohio), State Representative Jim Townsend (New Mexico), and Chairman Christine Sage, Southern Ute Indian Tribe (CO).

Over the next year, Administration leaders will participate in a series of events and programming with state, local, and tribal leaders to drive further deregulatory momentum at every level of government.

Initiative Purpose: To drive economic growth, improve government responsiveness, empower state, local and tribal leaders, and liberate the forgotten men and women of America from burdensome regulations. The initiative aims to cut regulations and costs, better align state-federal regulations and permitting, and ease burdens on hardworking Americans.

Advance Occupational
Licensing Reform

Better Align Local, State,
& Federal Regulations

AMERICAN OVERSIGHT

Cut
Regulations
& Costs

The Trump Administration has cut 7 ½ regulations for every new significant rule. This has exceeded the President's 2-for-1 promise. These reforms have contributed to more than two million Americans rising out of poverty, seven million Americans liberated from food stamps, the highest median income in our Nation's history, the lowest poverty rates, rising incomes, and the lowest unemployment rates in half a century. Working together, we can improve the well-being of those we serve, including the forgotten men and women of this country.

AMERICAN OVERSIGHT

Help advance these goals at the State, local, and tribal level!
BECOME A CHAMPION!

JOIN TODAY! To add your name to the Champions list, contact Zach Swint with White House Intergovernmental Affairs at Zachariah.D.Swint2@who.eop.gov or 202-881-6717

Fact Sheet – What You Need to Know | Building on President Trump's Historic Deregulation at Every Level of Government
The Trump Administration, in bipartisan partnership with state, local, and tribal government leaders is working to liberate the forgotten men and women of America from burdensome regulations.

HISTORIC DEREGULATION: Since taking office, President Donald J. Trump has led historic deregulation efforts to roll back red tape that burdened Americans and stifled economic growth.

- Under the President's leadership, the Administration has cut 8 and a half regulations for every new rule, far exceeding his promise to cut two regulations for every new one.
- President Trump's deregulatory efforts have already slashed regulatory costs by nearly $50 billion, with savings reaching $220 billion once major actions are fully implemented.
- The Trump Administration's deregulatory efforts will help save American households an estimated $3,100 each year.
- President Trump is increasing accountability and transparency at Federal agencies to stop the costly administrative abuse that hurts American families and small businesses.
- Under the previous administration, agencies too often abused their power by surprising Americans with penalties based on unlawful and secret interpretations of regulations.

GOVERNORS' INITIATIVE ON REGULATORY INNOVATION: The bipartisan Initiative aims to bring important regulatory reform led by the Administration across the country.

- On October 21, the ***Governors' Initiative on Regulatory Innovation*** was announced at the Cabinet meeting to extend the President's historic regulatory reform to every level of government. This initiative, led by Vice President Mike Pence, aims to cut regulations and costs, advance occupational licensing reform, and better align State and Federal regulations.
- State, local, and tribal leaders from across the Nation who are participating in the initiative, including championing occupational licensing reforms, which is especially important for military spouses. Some recent announcements include:
    - Governor Brad Little recently announced that Idaho had simplified 75 percent of rules in their administrative code in one year, becoming one of the least-regulated states in country.
    - Ohio State Senators, including Senate President Larry Obhof, recently announced legislation to recognize occupational licenses obtained in other states.
    - Governor Chris Sununu of New Hampshire signed an executive order that streamlines and expedites the process of licensing and credentialing applications for individuals who are providing services under the Medicaid to Schools Program.

WORKSTREAMS: The Governors' Initiative on Regulatory Innovation will work with state, local, and tribal leaders in key areas to bring economic opportunity to all.

- Advancing workforce freedom and mobility through occupational licensing reform, including for military spouse recognitions, fee reductions, and universal occupational licensing recognition.
- Transforming America's communities through smarter regulations to expand affordable housing options and economic investments in forgotten communities.
- Accelerating infrastructure and energy deployment through permitting reform and alignment.
- Putting people over paperwork by reducing the volume and costs of regulations.

AMERICAN OVERSIGHT

BENEFITTING ALL AMERICANS: President Trump's deregulation efforts are offering real benefits in Americans' daily lives.

- American workers are benefitting as the President's deregulation helps unleash the American economy, leading to more than 6 million new jobs, rising wages, and low unemployment.
- Deregulation is saving small businesses from wasting time and money on compliance costs.
- President Trump has helped lift the burden of overregulation off American farmers by following through on his promise to repeal the Obama-era Waters of the United States rule.
- Americans are gaining access to more affordable healthcare options thanks to the Administration's regulatory reform. The Administration has worked to expand affordable coverage options through association health plans, short-term plans, and health reimbursement arrangements.
- President Trump is working to boost American auto producers and provide savings for consumers by replacing the Obama-era Corporate Average Fuel Economy (CAFE) regulations.

AMERICAN OVERSIGHT

March 16, 2020

Shane Strum
Chief of Staff
Governor Ron DeSantis
State of Florida
Tallahassee, FL

Dear Mr. Strum:

I am writing regarding Health First, a health system in Brevard County, Florida which currently owns four hospitals, a large physician group representing more than 700 employed physicians, a hospice, a commercial and Medicare Advantage insurance company (Health First Health Plans) and numerous related businesses. Health First maintains a monopoly in the inpatient markets in South Brevard County and Brevard County, as well as a monopoly in the Medicare Advantage market in Brevard County. Brevard County is located on the east coast of Central Florida, one hour from Orlando. It is the home to the Kennedy Space Center, numerous high tech government contractors and 600,000 people.

Health First was founded in 1995 as a result of the merger of 3 hospitals and a physician group. Shortly thereafter, Health First added a health insurance company and subsequently built a fourth hospital. Health First maintains 90% market share in the inpatient market in South Brevard County, and 70% market share in the inpatient market in Brevard County. The Health First Health Plan Medicare Advantage plan has more than 50% market share in the Medicare Advantage market in Brevard County.

Health First has been sued at least 6 times for violation of federal and state antitrust laws. In 1996, they were sued by Wuesthoff Hospital, a competing hospital. This suit was settled in 2000 resulting in subsequent antitrust case filed by Wuesthoff in 2005. Health First was sued by Dr. Richard Hynes, Devin Datta, The B.A.C.K. Center and a number of other physician in 2006, by OMNI Healthcare, a multispecialty physician group and 9 other physicians and physician groups in 2013, by Parrish Medical Center, a public, tax district safety-net hospital in North Brevard County in 2015 and by Brian Dunfee, M.D., Robert Kennedy, M.D. and their physician group in 2019. I have enclosed a copy of the first amended complaint filed by OMNI Healthcare, et. al, Judge Dalton's order on Health First's motion to dismiss, and Judge Dalton's order on Health First's motion for summary judgement. Despite a settlement agreement after the parties came to an agreement on the financial terms of settlement one day following the beginning of trial in Federal Court, ($32 million) Health First has failed to honor its obligations under the settlement agreement. Since 2016, Health First has enhanced its market power, as a result of additional anti-competitive conduct.

FAX (321) 728-0226

A Multispecialty Physician Group With Offices Throughout Brevard County

AMERICAN OVERSIGHT

It is being alleged that Health First has engaged in anti-competitive conduct, unfair and deceptive trade practices and other illegal conduct, which would support the allegation that Health First is violating numerous federal and state laws. The following are some examples of the allegations which have been made against Health First and its officers:

1. Health First has engaged in mail fraud, wire fraud, identity theft and has knowingly falsely accused board members and public officials of a competing hospital, competing physicians and the CEO of a competing hospital of criminal activity. This was done through the dissemination of a 31 page document sent to community leaders using a fictitious e-mail address in the name of one of their competitors. The email was allegedly authored by the president of a company that provides marketing services to Health First and Mathew Gerrell, the Senior Vice President of Strategy and CEO of the Health First Health Plans. Both of their names were found in the metadata of the PDF that accompanied the email. This has been confirmed by Florida Today, a local newspaper and the Brevard County Sherriff's Office.

2. Health First requires patients covered by Health First Health Plan beneficiaries to see providers employed by Health First, rather allowing patients to see in network providers of their choosing. This is a violation of federal and state statutes.

3. Ongoing exclusionary conduct. Despite executing a settlement agreement in 2016 that required the Health First Health Plan to contract with competing medical facilities, Health First has continued to refuse to contract with any imaging facilities, surgical centers, cancer centers, or other facilities that compete with Health First's facilities.

4. Health First excludes competing Medicare Advantage Plans from contracting with Health First physicians, Health First hospitals and other Health First facilities.

5. The use of fictitious Google reviews. Health First engaged 321 Digital Creative Marketing a digital marketing company to post fictitious negative Google reviews for the purpose of harming their competitors and positive fictitious Google reviews for the benefit of themselves. A detective employed by the Brevard Count Sherriff's Office Economic Crimes Unit obtained sworn testimony from a former employee of 321 Marketing, that at the direction of Joe Boutin the president of 321 Marketing, she engaged in identity theft, wire fraud and false advertising for the benefit of Health First.

ADMINISTRATION
APOLLO PROFESSIONAL CENTER
1344 S. Apollo Blvd.
Suite 303
Melbourne, FL 32901
(321) 727-3495
FAX (321) 728-0226

AMERICAN OVERSIGHT

6. Recently, William Potter, a well respected attorney and the Secretary of the Health First Board of Directors abruptly resigned from the Health First Board, when Steve Johnson, the CEO of Health First refused to deny his personal knowledge or involvement in allegations of identity theft, mail fraud, wire fraud.

7. Health First prevented their employed physicians from providing a competing hospital with medical data in an effort to prevent the hospital from maintaining its American College of Surgeons Commission on Cancer Community Cancer Center accreditation resulting in litigation. (Judge Dalton's order is attached)

8. Health First engages in violations of the federal anti-kickback statutes which makes it possible for it to compensate their employed physicians in excess of fair market value.

9. Given its market power and anti-competitive conduct, Health First's hospitals and outpatient facilities are able to contract with health plans at rates that are as much two fold higher than competitors. This causes companies and public entities to pay exorbitant costs for health care in Brevard County.

10. When patients receiving care from non-Health First physicians are admitted to Health First hospitals, Health First employees regularly inform them that their physicians do not have admitting privileges, and refer these patients to Health First employed physicians.

11. Health loses more than $100 million on its employed physician group. This loss while not economically rational and potentially a violation of the Stark amendment and the anti-kickback statutes allows Health First to maintain its monopoly in inpatient services.

12. During the last year it has been reported that three executives at Health First divided more than $25 million in total compensation. In 2017, Health First made interest free loans in the amount of $38 million to four senior executives. Several of these executives are no longer employed by Health First, yet the loans have not been repaid. Given Governor DeSantis' recent executive order and Attorney General Ashley Moody's law suit against the Florida Coalition Against Domestic Violence, it would appear that the Governor and Attorney General would be interested in investigating these allegations.

ADMINISTRATION
APOLLO PROFESSIONAL CENTER
1344 S. Apollo Blvd.
Suite 303
Melbourne, FL 32901
(321) 727-3495
FAX (321) 728-0226

AMERICAN OVERSIGHT

13. It has been alleged that Health First and 321 Marketing conspired to mail fictitious information to physician offices in the community and hired private investigators to harass OMNI employees and other physicians for the purpose of harming its competition.

14. It has been alleged that Health First and 321 Marketing filed a fictitious complaint against one of their competitors with the Florida Bar, on fictitious Parrish Medical Center stationery, alleging the practice of law without a license, which is a crime.

15. It has been alleged that Health First arranged to have a microphone hidden in OMNI's board room for the purpose of monitoring meetings held in its offices.

16. Health First has nearly $1 billion in cash/investments and as a non-profit institution it does not pay tax.

As a taxpayer, a consumer, and a citizen, I believe that this conduct is both improper and illegal. I would suggest that an investigation be initiated for the purpose of protecting the citizens of Brevard, restoring competition to this market, reducing the cost of health care, enforcing the laws of our state and improving the quality of health care.

Sincerely,

Craig Deligdish, M.D.

AMERICAN OVERSIGHT
FL-GOV-20-0899-A-001320

IN THE CIRCUIT COURT OF THE
EIGHTEENTH JUDICIAL CIRCUIT IN AND
FOR BREVARD COUNTY, FLORIDA

OMNI HEALTHCARE, INC.
f/k/a OMNI HEALTHCARE, P.A.,

Plaintiff,

vs.

ROSS A. CLEVENS and
BKR MANAGEMENT GROUP, LLC,

Defendants.
_____/

CASE NO. 05-2010-CA-11156

SECOND AMENDED COMPLAINT

Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., a Florida corporation ("Omni"), sues Defendants, Ross A. Clevens ("Clevens") and BKR Management Group LLC ("BKR"), and alleges:

I. Allegations Common to All Counts

1. Omni is a corporation organized and existing under the laws of the State of Florida with its principal place of business in Brevard County, Florida. On or about July 20, 2006, Omni changed its name from Omni Healthcare, P.A. to Omni Healthcare, Inc.

2. Clevens is a physician residing in Brevard County, Florida.

3. BKR is the owner of the real property located at 3 Suntree Place, Melbourne, Brevard County, Florida 32940, wherein Imperial Salon and Spa does business.

4. Omni is a multi-specialty medical practice employing physicians and health care providers in Brevard County, Florida.

5. Omni and its predecessors in interest have been in continuous existence for more than twenty years.

AMERICAN OVERSIGHT

6. All conditions precedent to bringing this action have occurred or been waived by the course of conduct of the parties.

II. Employment Agreement

7. On or about July 8, 1998, Clevens entered into an Employment Agreement with Omni. A copy of the Employment Agreement is attached hereto and incorporated herein as Exhibit "A".

8. Clevens is a specialist in the field of cosmetic surgery.

A. Term

9. Pursuant to Section 28 of the Employment Agreement, the term of Clevens' employment was for a period of sixty (60) months. The Agreement automatically renewed for additional five (5) year terms unless elected by either party by at least thirty (30) days prior written notice.

10. On or about January 3, 2010 Clevens unilaterally terminated his employment with Omni without giving the requisite thirty (30) day written notice.

11. Prior to his termination Clevens' five (5) years term automatically renewed on July 8, 2008, which extended his term of employment to July 8, 2013.

12. When he terminated Clevens had approximately three and one-half (3½) years left on his employment term.

B. Compensation

13. Pursuant to Schedule "A" of his Employment Agreement, Clevens was compensated using a formula of a percentage of his gross receipts (the total cash receipts derived from his services) minus direct expenses (expenses allocable to the care center at which Clevens rendered medical services) and overhead (the costs of Omni which could

AMERICAN OVERSIGHT

not be allocated specifically to Clevens' care center), otherwise known as his "productivity share."

14. To avoid interruptions in the payment of his compensation, based on regular fluctuations in his revenues, Clevens, like other physicians, was paid based on a draw for each pay period.

15. At the conclusion of his employment, Clevens was to repay any draws paid to him in excess of the final reconciliation of his productivity share. Conversely, if his draws were less than his productivity share, he would be entitled to payment of the difference.

III. Shareholder Agreement

16. On or about December 1, 1997, Clevens entered into that certain Shareholder Agreement (hereinafter referred to as "Shareholder Agreement"). A copy of the Shareholder Agreement is attached hereto and incorporated herein as Exhibit "B".

17. The Shareholder Agreement was executed in accordance with § 607.0732, Florida Statutes.

18. All of Omni's shareholders approved the Shareholder Agreement, making it effective and enforceable.

IV. Restrictive Covenants

19. Omni is comprised of general practitioners and specialists who rely on patients referred to them by referring physicians ("Referring Physicians").

20. Omni relies upon the Referring Physicians to provide regular referrals of patients for its physicians and health care providers.

AMERICAN OVERSIGHT

21. Since its inception Omni has maintained the confidentiality of its list of Referring Physicians.

22. Additionally, since its inception Omni has established relationships with existing and prospective patients.

23. Having provided quality medical services to the Brevard community in excess of twenty years, Omni has established goodwill with patients and Referring Physicians.

24. Omni safeguards this goodwill and the confidentiality of its patients and Referring Physicians by requiring its physicians to enter into covenants not to compete, covenants not to solicit and covenants to maintain the confidentiality of its trade secrets and knowhow.

25. If these covenants are violated, Omni vigorously prosecutes its rights under the physician agreements.

26. As a specialist, Clevens relied on referrals from Omni's Referring Physicians to obtain patients.

27. When Clevens became employed with Omni he had no patient base and no Referring Physicians. Clevens was completely dependent on Omni's physicians and Referring Physicians to build his practice.

28. Clevens took advantage of Omni's goodwill, patient relationships and Referring Physicians to build a thriving practice while employed by Omni.

29. Pursuant to Section 9 of his Employment Agreement, Clevens agreed, *inter alia,* that for a period of two years following the termination of his employment that he would not undertake any business activity competitive with any part of the business of

AMERICAN OVERSIGHT

Omni, practice medicine in any hospital in the territory as defined in the Employment Agreement, or accept any employment or activity which would require him to reveal or use any confidential information of Omni, as defined in the Employment Agreement, in any area within a ten (10) mile radius of Omni's locations. See Exhibit "A".

30. Pursuant to Section 9 of the Employment Agreement, Clevens further agreed not to solicit any of Omni's patients for a period of two (2) years following the termination of his employment.

31. Pursuant to Section 8 of the Shareholder Agreement, Clevens agreed, *inter alia,* that for a period of three (3) years following the occurrence of a "Purchase Event", as defined by the Shareholder Agreement, he would not undertake any business activity competitive with any part of the business of Omni, practice medicine in any hospital in the territory as defined in the Shareholder Agreement, accept any employment or activity which would require him to reveal or use any confidential information of Omni, or own, operate or otherwise become associated with or provide assistance to any business or activity which business or endeavor was, directly or indirectly, in competition with Omni's operations, in any area within a ten (10) mile radius of any of Omni's locations. See Exhibit "B".

32. Pursuant to Section 8 of the Shareholder Agreement, Clevens further agreed not to solicit any of Omni's patients for a period of three (3) years following the closing of a Purchase Event, as defined by the Shareholder Agreement.

33. Omni has legitimate and protectable interests in its trade secrets, its good name and reputation, patients and patient lists and relationships with persons and

AMERICAN OVERSIGHT

entities who order, refer or receive medical services furnished by Omni, its physicians and medical health providers.

34. As set forth in the Shareholder Agreement, Clevens **agreed**, *inter alia,* that Omni and its predecessors have developed and maintained a substantial medical practice in Brevard County, Florida, and that Omni's medical practice and the goodwill associated with it have been developed over many years of practice, and Omni and its predecessors have developed substantial relationships with its patients.

35. As set forth in the Shareholder Agreement, Clevens further **agreed** that Omni has legitimate and protectable interests in its trade secrets, its good name and reputation, patients and patient lists and relationships with persons and entities who order, refer or receive medical services furnished by Omni.

36. As set forth in the Shareholder Agreement, Clevens further **agreed** and acknowledged that Omni has acquired significant goodwill associated with its name, trademarks, business location and trade dress.

37. As set forth in the Shareholder Agreement, Clevens further **agreed** and acknowledged that Omni has a legitimate and protectable interest in the marketing and promotional network of medical offices in Brevard County, Florida.

38. When Clevens terminated his employment with Omni on January 3, 2010, it triggered a Purchase Event as defined in Section 3.2 of the Shareholder Agreement.

39. After his termination of employment with Omni, Clevens did not comply with the restrictive covenants in his Employment Agreement and Shareholder Agreement.

AMERICAN OVERSIGHT

40. Instead, during the restricted period Clevens set up a medical practice within the restricted territory in competition with Omni using the goodwill, patient-referring relationships and patients he developed while Omni employed him.

41. Without the misappropriation of Omni's goodwill, patient-referring relationships and patients, Clevens would not have been able to create a medical practice that was mature and well established upon his leaving Omni.

42. Clevens used the reputation, goodwill and relationships with Referring Physicians that Omni had created prior to Clevens' employment to develop a medical practice that he simply carved off from Omni and began practicing without interruption.

Count I
(Breach of Employment Agreement – Actual Damages)

43. This is an action for damages in excess of $15,000.00, exclusive of interest, costs and attorney's fees.

44. Paragraphs 1 through 42 are realleged and incorporated herein.

45. Clevens did not provide the required notice when he terminated his employment.

46. There were approximately forty-two (42) months left on Clevens' term of employment when he terminated.

47. Omni has been damaged as a result of Clevens' breach of contract.

48. Pursuant to Section 21 of the Employment Agreement, Omni is entitled to an award of attorney's fees and costs for bringing this action.

WHEREFORE, Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., demands judgment against Defendant, Ross A. Clevens, for damages, prejudgment interest, costs, attorney's fees, and all other relief deemed just and proper by this Court.

AMERICAN OVERSIGHT

Count II
(Breach of Employment Agreement – Liquidated Damages)

49. This is an action for damages in excess of $15,000.00, exclusive of interest, costs and attorney's fees.

50. Paragraphs 1 through 42 are realleged and incorporated herein.

51. Clevens has breached section 8 of the Employment Agreement with Omni in the following manner:

a. He has engaged in competing medical practice to Omni's within the restricted area since his termination;

b. He has solicited patients (directly and indirectly) that were first seen by him while he was employed by Omni during the subject period;

c. He has intentionally diverted the business relationships and Referring Physicians of Omni to his benefit.

52. By breaching the Employment Agreement, Clevens has successfully diverted business, patients, business relationships, Referring Physicians, profits and income away from Omni.

53. As set forth in section 9 of the Employment Agreement, the parties acknowledged the difficulty in calculating actual damages for such a breach. Accordingly, the parties agreed to liquidated damages in the sum of $250,000.

54. Omni is entitled to liquidated damages from Clevens in the amount of $250,000, plus prejudgment interest, costs and attorney's fees.

55. Pursuant to section 21 of the Employment Agreement, Omni is entitled to an award of attorney's fees for bringing this action.

AMERICAN OVERSIGHT

WHEREFORE, Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., demands judgment against Defendant, Ross A. Clevens, for liquidated damages in the principal amount of $250,000.00, plus prejudgment interest, costs and attorney's fees, and all other relief deemed just and proper by this Court.

Count III
(Breach of Employment Agreement – Actual Damages)

56. This is an action for damages in excess of $15,000.00, exclusive of interest, costs and attorney's fees.

57. Paragraphs 1 through 42 above are realleged and incorporated herein.

58. Clevens has breached section 8 of the Employment Agreement with Omni in the following manner:

a. He has engaged in competing medical practice to Omni's within the restricted area since his termination;

b. He has solicited patients (directly and indirectly) that were first seen by him while he was employed by Omni during the subject period;

c. He has intentionally diverted the business relationships and Referring Physicians of Omni to his benefit.

59. By breaching the Employment Agreement, Clevens has successfully diverted business, patients, business relationships, Referring Physicians, profits and income away from Omni.

60. Accordingly, Omni has suffered and will continue to suffer actual damages as a result of the misconduct of Clevens.

61. Pursuant to section 21 of the Employment Agreement, Omni is entitled to an award of attorney's fees for bringing this action.

AMERICAN OVERSIGHT

WHEREFORE, Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., demands judgment against Defendant, Ross A. Clevens., for damages, prejudgment interest, costs and all other relief deemed just and proper by this Court.

Count IV
(Breach of Shareholder Agreement – Actual Damages)

62. This is an action for damages in excess of $15,000.00, exclusive of interest, costs and attorney's fees.

63. Paragraphs 1 through 42 are realleged and incorporated herein.

64. Clevens has breached paragraph 8 of the Shareholder Agreement with Omni in the following manner:

a. He has engaged in competing medical practice to Omni's within the restricted area since his termination;

b. He has solicited patients (directly and indirectly) that were first seen by him while he was employed by Omni during the subject period;

c. He has intentionally diverted the business relationships and Referring Physicians of Omni to his benefit.

65. By breaching the Shareholder Agreement, Clevens has successfully diverted business, patients, business relationships, Referring Physicians, profits and income away from Omni.

66. Accordingly, Omni has suffered and will continue to suffer actual damages as a result of the misconduct of Clevens.

67. Pursuant to paragraph 20 of the Shareholder Agreement, Omni is entitled to an award of attorney's fees for bringing this action.

AMERICAN OVERSIGHT

WHEREFORE, Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., demands judgment against Defendant, Ross A. Clevens, for damages, prejudgment interest, costs, attorney's fees, and all other relief deemed just and proper by this Court.

Count V
(Writ of Replevin)

68. This is an action to replevy personal property located in Brevard County, Florida, pursuant to Section 78.068 of the Florida Statutes. The value of the property to be replevy exceeds $15,000.00, exclusive of interest, costs and attorney's fees.

69. Paragraphs 1 through 6 are realleged and incorporated herein.

70. On or about January 26, 2006, Omni entered into a lease agreement for the lease of a Rhytek Skin Resurfacing Laser, for use in the treatment of patients at Omni's 1344 S. Apollo Boulevard, Melbourne, Florida office. A copy of the Master Lease and Equipment Schedule is attached hereto as Composite Exhibit "C".

71. On or about April 14, 2007, Surgery Centers of Brevard, Inc. (a corporate entity founded by the shareholder of Omni) entered into a Master Lease agreement for the lease of a 2008 Lutronic Laser. A copy of the Master Lease and Equipment Schedule is attached hereto as Exhibit "D".

72. On or about April 13, 2007, Omni entered into a Guaranty agreement guaranteeing payment under the Master Lease. A copy of the Guaranty is attached hereto as Exhibit "E".

73. On August 19, 2009, Surgery Centers of Brevard, Inc. executed a Transfer and Assumption Agreement, transferring all right, title, obligations and interest in and to the Lutronic Laser to Omni. Omni acquired this equipment for use in the treatment of

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-2010899AA001533XXXX-XX

patients at Omni's 1344 S. Apollo Boulevard, Melbourne, Florida office. A copy of the lease and Transfer and Assumption Agreement is attached hereto as Exhibit "F".

74. Prior to January 3, 2010, Omni purchased various equipment for use at the Omni medical offices, including but not limited to:

a. (2) Nikon digital camera sets;

b. (2) Dell laptop computers;

c. (1) EPI light (for use with laser skin resurfacing equipment); and

d. (1) Electrosurgical unit.

These items are listed on Omni's 2009 Intangible Personal Property Tax Return attached hereto as Exhibit "G".

75. Omni is entitled to the possession of this equipment by virtue of its status as the owner and/or lessee of said equipment.

76. On Sunday, January 3, 2010, Clevens unilaterally terminated his employment with Omni and entered into the Omni office located at 1344 S. Apollo Boulevard, Melbourne, Florida, and unlawfully removed the following:

a. (1) Rhytec skin resurfacing laser;

b. (2) 2008 Lutronic laser;

c. (2) Nikon digital camera sets;

d. (2) Dell laptop computers;

e. (1) EPI light (for use with laser skin resurfacing equipment); and

f. (1) Electrosurgical unit.

AMERICAN OVERSIGHT

77. After unlawfully removing the aforementioned equipment from Omni's office, Clevens delivered said equipment to Imperial Salon and Spa, located at 3 Suntree Place, Melbourne, Florida 32940, real property owned by BKR.

78. To Omni's best knowledge, information and belief, the equipment to be replevied, as described in paragraph 74, is located at Imperial Salon and Spa, 3 Suntree Place, Melbourne, Florida 32940.

79. Although demand has been made to Clevens for the surrender of the equipment, Clevens refuses to release the equipment.

80. The equipment is wrongfully detained by Clevens. Clevens came into possession of the equipment by entering into Omni's office on a Sunday, after he terminated his employment with Omni, and surreptitiously removed it, loaded it into a van and unlawfully took it and delivered it to 3 Suntree Place, Melbourne, Florida 32940. Clevens has no right to said equipment, the title and ownership of the equipment remains with Omni.

81. The equipment has not been taken for any tax, assessment of fine pursuant to law.

82. The equipment has not been taken under the execution or attachment against the equipment of Omni.

83. The value of the equipment is $50,000.

WHEREFORE, Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., prays this Court:

a. Enter an order directing the Clerk to issue a prejudgment writ of replevin, conditioned upon Omni first posting a bond equal to twice the amount of the

AMERICAN OVERSIGHT

debt or twice the value of the equipment, whichever is less as determined by the Court, as security damages, Defendants, Ross A. Clevens and BKR Management Group, LLC, may sustain if the writ is determined to have been obtained wrongfully,

b. Enter a final judgment of replevin in favor of Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., and against Defendants, Ross A. Clevens and BKR Management Group, LLC;

c. Enter a deficiency judgment in favor of Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., and against Defendants, Ross A. Clevens and BKR Management Group, LLC, for such sums as are required to make Omni whole; and

d. Enter an order granting Plaintiff, Omni Healthcare, Inc. f/k/a Omni Healthcare, P.A., its costs and all other relief deemed just and proper by the Court.

Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20-0899-A-001535-XXX-XX

OMNI HEALTHCARE, P.A.

EMPLOYMENT AGREEMENT

WITH ROSS A. CLEVENS, M.D.

Omni HealthCare, P.A. ("Corporation" or "Employer") and Ross A. Clevens, M.D., ("Employee"), agree as follows:

1. **EMPLOYMENT.** Employer hereby employs Employee, and Employee hereby accepts such employment, on the terms and subject to the conditions set forth herein.

2. **COMPENSATION AND OTHER BENEFITS.** During the term of this Agreement, Employer agrees to pay Employee such wages and bonuses and provide Employee such benefits as are set forth on Schedule A attached hereto and incorporated by reference or, in the absence of any provision for bonuses, such bonus as may from time to time be awarded to Employee by the Employer in its discretion. All such wages and bonuses shall be subject to customary withholding taxes and other employment taxes as required by law.

3. **SERVICES.**

(a) Employee agrees to devote substantially his or her entire professional medical time and attention to, and provide substantially the full range of medical services he or she customarily provides through, the practice of his or her medical profession for the Corporation, together with such administrative and management duties as he or she may be required to perform for the Corporation, the amount of which shall not be unreasonable considering Employee's patient load and the number of patients Employee attracts to Employer. Employee shall not, without the express prior written consent of Employer, directly or indirectly, render services of a professional medical nature to or for any person or firm, or engage directly or indirectly in any activity competitive with or adverse to Employer's business or practice, whether alone, as a partner, or as an officer, director, employee, independent contractor, agent, shareholder or in any other capacity during the term of this Agreement, except in order to fulfill Employee's obligations under this Agreement. Employer shall direct, control and supervise the duties and work of Employee; provided however, that Employer shall not impose employment duties or constraints of any kind which would require Employee to violate the ethics of the profession or any ordinance or law. Employee shall have the authority and responsibility to supervise and direct the affairs of the office in which he practices (the "care center") in substantially the manner existing prior to the date hereof, subject only to the terms of the shareholder agreement among the Corporation, Employee and all other shareholders of even date herewith (the "Shareholder Agreement"). Employee shall work the time necessary to provide care for his or her patients and manage the care center properly. Employer shall provide reasonable office space, equipment and personnel appropriate for Employee's performance of his or her professional duties under this Agreement.

(b) Employee agrees to act as the on-site manager and medical director of the care center, responsible for all quality assurance and utilization review activities thereat, as well as employee selection, training, scheduling, supervision and management. The parties recognize that Employer is governed by a board of directors, with which Employee shall communicate directly with respect to the operation of the care center, as and when needed. All decisions during the term hereof regarding the hiring, firing, compensation and other terms of employment of employees in the care center, as well as the day to day activities of the medical practice thereat, shall be made by Employer.

(c) Employee agrees to cover his or her patients at the office and hospitals in the same manner as he or she has done prior to the date hereof. If Employee so desires, a coverage, night call and weekend rotation may be arranged among Employee and the other physicians employed by Corporation on a mutually agreeable basis.

4. **VACATION.** Employee shall be responsible for arranging his or her own coverage for any time off with other physicians employed by, or otherwise acceptable to Employer during any period of vacation, time off for illness or time spent in continuing medical education. The amount of any time off shall be within the Employee's discretion.

5. **TERMINATION.** This Agreement shall be terminated upon the happening of any of the following events:

(a) whenever Employee shall cease to be licensed or otherwise qualified to practice medicine under the laws of Florida or Employee shall be excluded from participation in the Medicare program;

(b) whenever Employee gives Employer no less than thirty (30) days prior written notice to terminate this Agreement;

(c) upon the death or retirement of Employee or if Employee is unable to conduct his or her practice on a full-time basis in the manner previously conducted, for a period of six (6) months in any twelve (12) month period, whether as a result of any physical or mental disability or otherwise;

(d) whenever Employee shall be convicted of or plead no contest or guilty to any felony or any misdemeanor involving patient or child abuse;

(e) upon the imposition of any sanctions against Employee materially restricting his or her right to practice medicine by the Department of Professional Regulation, the Health Care Financing Administration, the Drug Enforcement Agency, or any other regulatory agency governing the Corporation or Employee with respect to the business of the Corporation, or Employee's becoming a "sanctioned individual" (as that term is used in Section 2 of the Medicare and Medicaid Patient and Program Protection Act of 1987) (42 U.S.C. 1320a-7);

(f) at any time by Employer, without cause, upon thirty (30) days prior written notice if the Corporation determines, by unanimous vote (excluding the interested party) of its board

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX

AMERICAN OVERSIGHT

of directors, and at least ninety percent (90%) of the number of Shareholders (excluding the interested party) that termination of Employee is in the best interest of the Corporation; or

(g) by Employee in the event Employer files a petition for voluntary bankruptcy or involuntary bankruptcy proceedings against Employer are duly commenced and not dismissed within thirty (30) days from the date filed, or Employer makes a general assignment of its assets for the benefit of its creditors or if any payment due Employee hereunder is not paid within two (2) weeks of its due date.

Upon any termination of this Agreement, Employee shall be entitled to receive the remuneration accrued but unpaid as of the date of his or her termination, subject in all respects to the terms of the Shareholder Agreement. Following any termination, each party shall have access to all medical and financial records reasonably needed to respond to any lawsuit, audit, investigation or any other actual or threatened dispute or inquiry.

6. **SEVERANCE COMPENSATION.** In the event of any termination of this Agreement, Employee shall be entitled to receive, as severance compensation and in lieu of all other claims for compensation hereunder (but in addition to the purchase price for his or her shares owned in Employer pursuant to the Shareholder Agreement), and amount calculated as follows:

(a) the amount of accounts receivable generated by Employee for services rendered by him or her actually collected by Employer or Employee within four (4) months after the date of termination; less

(b) Employee's share of all overhead and operating expenses of Employee's care center, including prorations and accruals, to and including the date of termination and the amount of all loans, liabilities or other obligations then outstanding from Employee to Employer (whether or not otherwise then due and payable by their respective terms but excluding contingent liabilities under guarantees or indemnification obligations unless there shall exist or be threatened any action or default with respect to the underlying obligation of the Corporation), together with such reasonable reserve as may be required by two thirds (2/3) vote of the Employer's board of directors to protect the Employer against any reasonably anticipated amounts or liabilities for which Employee would be liable to Employer (e.g. tax or payment audit liabilities, pending or threatened litigation exposure, and/or other items whether or not similar to the foregoing).

7. **EMPLOYER'S AUTHORITY.** Employee agrees to observe and comply with the rules and regulations of Employer as adopted by Employer, either orally or in writing, respecting the performance of his or her duties, and to carry out and to perform directions and policies announced to him or her by Employer from time to time, either orally or in writing. Such rules and regulations include adherence to Employer's utilization review and management policies as from time to time established by Employer's board of directors or any committee thereof, and Employee hereby waives any right or cause of action against Employer, all board members, and all persons involved in the utilization review and management process for actions or recommendations taken or made without

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010CA011156XXXX-XX
AMERICAN OVERSIGHT

actual malicious intent. Employee specifically understands that Employer shall have final authority over the acceptance or refusal of any person for whom professional services may be rendered, and over the amount of fees to be charged such person. The power to direct, control and supervise the manner and place of and time for performing Employee's duties shall be exercised by Employer's board of directors or its physician designate(s).

8. **EFFECTIVE DATE.** The effective date of this Agreement ("Effective Date") shall be July 8, 1998.

9. **RESTRICTIVE COVENANTS.**

(a) (i) Employee agrees that Employer has developed and maintained a substantial medical practice in Brevard County, Florida, and that Employer's medical practice and the goodwill associated with it have been developed over many years of practice. The medical practice and goodwill of Employer are valuable, proprietary interests.

(ii) Employee further acknowledges that Employer has a legitimate and protectable interest in trade secrets, its good name and reputation, patients and patient lists.

(b) Employee, therefore, covenants and agrees that during the course of his or her employment and for a period of two (2) years following the termination of his or her employment by Employer or Employee for any reason, Employee shall not, either alone or with a combination of others, undertake any business activity competitive with any part of the business of Employer, practice medicine in any hospital in the Territory (as hereinafter defined), nor accept any employment or other commitment or otherwise engage in any activity that will require him or her to reveal or use any Confidential Information (as hereinafter defined) of Employer, nor directly or indirectly, own, operate, manage, join, control, participate in the ownership, management, operation and/or control of, or be paid or employed by, or otherwise become associated with and provide assistance to, as an employee, agent, advisor, independent contractor, officer, director, shareholder, owner or otherwise, any business or activity within the Territory in which Employer conducts business or markets its products and/or services or in which any of its customers are located, which business or endeavor is, directly or indirectly, in competition with the business of Employer's operations. Employee agrees that the "Territory" of Employer's business is an area within a ten (10) mile radius of any location at which Employer maintains an office which renders medical services, other than ancillary testing services.

(c) During the course of his or her employment and for a period of two (2) years following the termination of employment by Employer or Employee, Employee shall not, for himself or herself, or on behalf of any other person, persons, firm, partnership, corporation, or company, whether or not Employee has any part or involvement with the foregoing, call upon any patient of Employer for the purpose of soliciting, selling, renting or other business promotion to any of said patients, products and/or services similar to products and services sold by Employer, nor will Employee, in any way, directly or indirectly, for himself or herself or on behalf of, or in conjunction with any other person, persons, firm, partnership, corporation, or company, solicit, divert, or take

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX

AMERICAN OVERSIGHT

away any such patient of Employer during the two (2) year term following the termination of his or her employment with Employer; nor will Employee, directly or indirectly, for himself or herself or on behalf of, or in conjunction with any other person, persons, firm, partnership, corporation, or company, induce, or attempt to induce, any customer, to sever or otherwise alter its relationship with Employer during the course of his or her employment and for the two (2) year term following the termination of his or her employment with Employer.

(d) During the course of his or her employment and for a period of two (2) years following the termination of his or her employment, Employee shall not, for himself or herself, or on behalf of any other person, persons, firm, partnership, corporation, or company, whether or not Employee has any part or involvement with the foregoing, hire or retain the services of any agents or employees of Employer for any purpose, or induce any agent, employee, or representative of Employer to sever or otherwise alter their relationship with Employer.

(e) (i) Employee acknowledges and understands that during his or her association with Employer, Employee will have access to and become familiar with various trade secrets and know how, which are owned by and are the property of Employer and which constitutes Confidential Information of Employer.

(ii) Employee shall not, at any time during his or her employment or thereafter, except as property required in the course of his or her employment, publish, disclose, or authorize anyone else to publish or disclose any Confidential Information to the public, directly or indirectly, nor to use the same in any way, or allow others to use such Confidential Information, except as expressly authorized by Employer in writing.

(iii) The term "Confidential Information shall mean all materials and information related to or associated with Employer's services, products, business or activities; proprietary computer software or data; marketing plans or techniques; patient lists; information relating to finance, accounting, sales, personnel and management; and information related to supplier lists, price lists, costs of goods and services and maintenance; and trade secrets (as defined in Section 812.081, Fla. Stat.).

(f) Employee agrees that the foregoing provisions are a material inducement for Employer to venture into an employment agreement with Employee and that the foregoing provisions are reasonable and necessary for the protection of Employer. Employee further agrees that Employee is fully capable of earning a living outside of the Territory upon termination of this Agreement.

(g) The provisions of this section 9 shall survive termination of Employee's employment relationship with Employer. Each of the restrictive covenants contained in this section 9 are separate, distinct and severable obligations. In the event any of such covenants should be held invalid or unenforceable by a court of competent jurisdiction, the others shall not be affected thereby.

(h) In the event of a breach or threatened breach by Employee of his or her obligations under this restrictive covenant, Employee acknowledges that Employer will not have an

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010-CA-011156-XXXX-XX
AMERICAN OVERSIGHT

adequate remedy at law and shall be entitled to such equitable and injunctive relief as may be available to restrain Employer from the violations of the provisions of this restrictive covenant. Additionally, nothing herein shall be construed as prohibiting Employer from pursuing any other remedies available herein for such breach or threatened breach, including the recovery of damages from Employee.

(i) The parties agree that the issuance of injunctive relief in favor of Employer for any violation by Employee of the covenants and agreements contained in this section 9 does not preclude or remedy actual damages which Employer shall suffer prior to the issuance of such injunctive relief, or which shall continue notwithstanding the issuance of injunctive relief. The parties agree that it is impracticable and extremely difficult to determine such actual damages which may result from Employee's failure to comply with the provisions of this section 9 for any one (1) or more of the following reasons:

(i) the difficulty of Employer to prevent a breach of this section 9 by Employee;

(ii) the difficulty of Employer to calculate actual damages and loss of business resulting from disclosure of Confidential Information by Employee in violation of this Agreement;

(iii) the difficulty of Employer to ascertain the impact of a breach of this Agreement on Employer's patients; and

(iv) the difficulty that Employer may experience in obtaining timely injunctive relief.

Therefore, it is expressly agreed by Employer and Employee that in the event Employee violates the terms and provisions of this section 9, Employer shall receive the sum of two hundred fifty thousand dollars ($250,000.00) in lump sum from Employee, which sum Employee shall pay within thirty (30) days of receipt of written notice from Employer. Such sum shall constitute liquidated damages in full settlement of Employer's damage claims. It is expressly acknowledged by Employee that said payment shall not be interpreted nor construed as a penalty, but as a good faith attempt and a reasonable estimation of the parties to determine the damages which Employer shall suffer in the event of a breach of this section 9 by Employee. The parties agree that this subsection (i) is intended to compensate Employer for damages caused by Employee prior to the attainment of injunctive relief and for damages which cannot be prevented by injunctive relief.

10. **LIMITATIONS ON AUTHORITY**. Without the express written consent of Employer, Employee shall have no apparent or implied authority to do any of the following acts:

(a) extend the credit of Employer or any of its other physicians;

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010-CA-011156-XXXX-XX
AMERICAN OVERSIGHT

(b) bind Employer under any contract, agreement, note, mortgage, or other obligation;

(c) discharge any debt due Employer unless Employer has received the full amount thereof; or

(d) sell, mortgage, transfer or otherwise dispose of any assets of Employer.

11. **MEDICAL RECORDS AND PATIENT INFORMATION**. All medical records and patient information concerning the patients of the practice shall be the property of Employer and shall be maintained and filed in accordance with Employer's usual and customary policies and procedures as they exist, and from time to time may be modified by the board of its designee. Employer and Employee agree to maintain the confidentiality of patient medical records and to prevent unauthorized disclosure in accordance with the laws of the State of Florida and such federal laws as may be applicable from time to time. Upon the request of any patient, Employee shall have the right to copy and examine records of the patient provided that the copying of the records does not violate professional ethics and is performed during regular office hours by Employer's staff. The cost of photocopying shall be borne by Employee.

12. **SUPERVENING LAW**. In the event that Employer, acting upon advice of counsel, reasonably determines that: (i) Employer or Employee will be subject to criminal or civil sanctions as a result of the interest of Employer or the interest of Employee in this Agreement or in referring patients to the facility by Employer or Employee; or (ii) any aspect of the operation of this Agreement violates or, with the passage of time, is likely to violate any laws, rules or regulations applicable to Employer or Employee, Employer and Employee agree to modify this Agreement to the extent necessary to prevent the occurrence of any event described in clauses (i) and (ii) above. In the event this Agreement cannot be reasonably so modified, this Agreement may be terminated in the reasonable discretion of Employer.

13. **OFFSET**. In the event Employee becomes indebted to Employer and fails to pay the indebtedness when it becomes due, Employer, without notice, may offset the amount of such indebtedness against monies payable to Employee hereunder, whether as salary, bonus, severance compensation or otherwise. This right of offset includes, but is not limited to, Employee's obligation to provide tail insurance coverage.

14. **ASSIGNMENT**. This Agreement may be assigned by Employer pursuant to any merger or sale of all or substantially all its assets or any reorganization (as defined in Section 368(a) of the Internal Revenue Code of 1986, as amended) by Employer. This Agreement is a personal services contract of the Employee and may not be assigned by Employee without the prior written consent of Employer.

15. **ENTIRE AGREEMENT**. This Agreement constitutes the entire agreement of the parties relating to the employment of Employee by Employer and supersedes any and all other oral or written agreements relating to the employment of Employee.

AMERICAN OVERSIGHT

16. **GOVERNING LAW; JURISDICTION**. The parties acknowledge that a substantial portion of negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Brevard County, Florida, and that, therefore, each of the parties irrevocably and unconditionally (i) agrees that any suit, action or legal proceeding arising out of or relating to this Agreement shall be brought in the courts of record in the State of Florida and Brevard County; (ii) consents to the jurisdiction of each such court in any suit, action or proceeding and expressly waives removal to a federal court; (iii) waives any objection which it may have to the laying of venue, or any such suit, action or proceeding in any of such court; and (iv) agrees that service of any court paper may be effected by such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws or court rules.

17. **COUNTERPARTS**. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original as against any party whose signature appears thereon, and all of which together shall constitute one (1) and the same agreement.

18. **HEADINGS**. The section and other headings contained in this Agreement are for reference purposes only and do not effect in any way the meaning or interpretation of any or all of the provisions of this Agreement.

19. **PRONOUNS AND PLURALS**. Whenever the context may require, any pronoun used in this Agreement shall include the corresponding masculine, feminine, or neuter forms, and the singular forms of nouns, pronouns, and verbs include the plural and vice versa.

20. **NOTICES**. Whenever any party hereto desires or is required to give any notice, demand, consent, approval, satisfaction, or request with respect to this Agreement, each such communication shall be in writing and shall be effective only if it is delivered by personal service (which shall include delivery by delivery service, overnight delivery service, telecopy or telefax) or mailed, by United States certified mail, postage prepaid, and addressed as follows:

If to Employee: Ross A. Clevens, M.D.
505 Newport Dr.
Indialantic, FL 32903

If to Employer: Omni HealthCare, P.A.
Sheridan Professional Center
95 Bulldog Boulevard, Suite 100

AMERICAN OVERSIGHT

Such communications, when personally delivered, shall be effective upon receipt, but, if sent by certified mail in the manner set forth above, shall be effective two (2) business days following deposit in the United States mail. Any party may change its address for such communications by giving notice thereof to the other party in accordance with the requirements of this section.

21. **ATTORNEY'S FEES**. In the event any litigation, arbitration or similar proceeding ("Litigation") is commenced or defended by any party to this Agreement claiming, in such Litigation or defense, a breach of this Agreement by the other party, and in the event such commencing or defending party is successful on the merits of such claim or defense, and substantially prevails in the Litigation, the party against whom such claim is made or such defense is asserted shall pay to the claimant or defendant, as the case may be, all costs and expenses, including, without limitation, attorney's fees, court costs, and costs for experts and investigation, whether at trial, on appeal, or during investigation of such claimant or defendant in prosecuting such claim or establishing such defense.

22. **CONFIDENTIALITY**. Except as otherwise required by law, Employee and Employer agree that the terms and conditions of this Agreement shall remain confidential and such terms and conditions shall not be disclosed unless the parties mutually agree in writing to any such disclosure.

23. **CONSTRUCTION OF AGREEMENT**. This Agreement has been negotiated by the respective parties and the language shall not be construed for or against either party.

24. **ABSENCE OF THIRD PARTY BENEFICIARY RIGHTS**. No provision of this Agreement is intended or shall be construed to provide or create any third party beneficiary right or any other right of any kind in any patient, customer, affiliate, shareholder, partner, officer, director, employee, or agent of either party, or in any other person and all terms and provisions hereof shall be solely between the parties to this Agreement.

25. **AMENDMENT AND WAIVERS**. Any term or provision of this Agreement may be amended and the observance of any terms of this Agreement may be waived (either generally or in a particular instance, and either retroactively or prospectively) only by a writing signed by each party hereto. The waiver by a party of any breach hereof or default hereunder shall not be deemed to constitute a waiver of any other breach or default. The failure of any party to enforce any provision hereof shall not be construed as or constitute a waiver of the right of such party thereafter to enforce such provision.

26. **COMPUTATION OF PAYMENTS**. The amounts due to Employee under this Agreement shall be determined by Employer's accountant and all such determinations shall be final and binding upon the parties, absent manifest error.

27. **EXPENSES.** During the period of his or her employment, Employer shall pay on behalf of Employee, or Employee shall be reimbursed for, malpractice insurance coverage in amounts equal to the coverage that is carried for other similar physician employees of Employer. Additionally,

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010-CA-011156-XXXX-XX
AMERICAN OVERSIGHT

Employer will pay or reimburse Employee for any other business-related expenses, health plans, personnel, capital items or other services or assets reasonably requested by Employee, provided that (i) to the extent required by the Internal Revenue Code or regulations promulgated thereunder, appropriate types of documentation may be required prior to reimbursement of any such expenses, and (ii) any such expenditures shall be added to Employee's overhead for determining his or her compensation pursuant to Schedule A hereto.

28. **TERM.** The term of this Agreement shall be for a period of sixty (60) months, commencing on the Effective Date of this Agreement, subject to prior termination as provided in section 5 above. This Agreement shall be renewed automatically for additional five (5) year terms unless otherwise elected by either party by at least thirty (30) days prior written notice

29. **FEES FOR SERVICES.** All income generated by Employee for services to be provided hereunder, all activities undertaken during normal work hours or on call hours, and all activities covered by malpractice insurance as part of his practice of medicine, shall belong to Employer, whether paid directly to Employer or Employee. Employee specifically covenants and agrees to bill all amounts for his or her professional services in the name and for the account of the Corporation. Employee agrees, upon request by Corporation, to render an accounting of all transactions relating to his or her practice during the course of his or her employment hereunder.

30. **TAIL INSURANCE**. Employee agrees to maintain, at his or her own expense, extended liability coverage, also referred to as tail coverage, for a period of five (5) years after termination of this Agreement. Such tail insurance shall be issued by a company acceptable to Employer and in such form as is satisfactory to Employer. Notwithstanding the foregoing, Employer shall purchase and maintain tail insurance for a period of five (5) years following the termination of this Agreement if terminated on account of the death of Employee or if Employee has been employed by Employer for more than five (5) years prior to the date of termination. Employee may, in lieu of tail coverage, provide Employer with evidence of continuing malpractice coverage on a claims made basis for such five (5) year period.

31. **COMPENSATION FORMULA**. The compensation formula contained on Schedule A may be amended by Employer by the action of the board of directors and the shareholders in accordance with subsection 4.2(c) of the Shareholder's Agreement among Employee and other shareholders of the corporation and the Corporation.

SCHEDULE "A"

The following definitions shall apply to the provisions of this Schedule:

1. Care Center means the medical office of Employer at which Employee renders medical services on behalf of Employer.

2. Direct Expenses means expenses directly allocable to the Care Center such as employee (excluding employed physicians, licensed physician assistants and nurse practitioners) insurance, employee fringe benefits, payroll taxes, supplies, utilities, rent, principal and interest, the cost of goods sold, and any other expense item than Overhead.

3. Gross Receipts means the total cash receipts derived from the rendition of physician services as defined in 42 U.S.C 1395x(g) by Employee. In addition, Gross Receipts shall also be derived from ancillary goods and services rendered by the physician and by his Care Center. Such goods and services shall include, but may not be limited to complementary cosmetic, cosmeceutical, pharmaceutical, or nutritional products and the rendering of complementary services be medical or paramedical personnel including but not limited to nurses, medical assistants, facialists, technicians, aestheticians, massage therapists and permanent make-up artists.

4. Net Revenue means Gross Receipts less Employee's share of Direct Expenses and Overhead allocated to the Care Center.

5. Overhead means costs of Employer which cannot be allocated specifically as a Care Center(s). The determination of an item of cost or expense as a Direct Expense or Overhead shall be made in the sole discretion of the Board of Directors. Overhead shall be allocated equally to each Care Center or in any other manner determined by the Board of Directors from time to time.

Commencing with the effective date of this Agreement and for a period of sixty (60) consecutive months thereafter, subject to earlier termination, Employee shall be employed by Employer at a base compensation determined as follows:

(i) Except as provided below, Employee's base compensation shall be equal to Employee's Net Revenue. In determining Net Revenue, Direct Expenses at the Care Center shall be allocated among Employee, other shareholder employees, employed physicians, employed licensed physician assistants, nurse practitioners and any other individual health care provider in a uniform manner determined by the Board of Directors in its sole discretion.

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010-CA-011156-XXXX-XX
AMERICAN OVERSIGHT

Employee's base compensation hereunder takes into account Gross Receipts generated in his or her practice, including the sale of cosmetic goods and products, and Direct Expenses and Overhead expenses incurred by Employer with respect thereto (based on information supplied to Employer regarding Employee's practice). It is therefore further agreed that in the event such Gross Receipts or such Direct or Overhead expenses change materially as a result of any action, judgment, ruling, finding, assessment or other matter having retroactive application or effect, including without implied limitation a liability in excess of insurance coverage limitations, any uninsured liability, any IRS audit liabilities arising out of management of Employee's Care Center, or Medicare or other third party payor denial or claim for overpayment or offset, then the Employee's compensation shall be adjusted accordingly. In the event of a downward adjustment, Employee's next due compensation (or bonus) payment(s) shall be reduced by such amount, provided that if Employee is no longer entitled to compensation or (bonus) or same is insufficient to satisfy such deficit, Employee shall repay any excess compensation he or she received within ten (10) days of such adjustment being made by the regularly engaged accountant of Employer (subject to Employee's right to verify the accuracy of such calculations. Any indemnification obligation of Employee to the Corporation or its shareholders shall for all purposes be treated as a "downward adjustment" subject to offset or repayment as excess compensation as set forth above.

Employee shall be eligible to earn bonus compensation during the term of this Agreement subject to the following:

(i) Employer shall pay Employee a bonus only in the event income from the medical practice of non-shareholder employees, excess revenue from risk based contracts, and income from the operation of ancillary service facilities (such as clinical laboratory and diagnostic imaging) and any other income in the aggregate generate available cash flow.

(ii) The amount of bonus, if any, to be paid Employee from net cash flow derived from the medical practice of a non-shareholder employee shall be allocated among shareholder employees pro rata on the basis of service points described on Appendix A hereto. Provided however, net cash flow from non-shareholder employees performing services at the practice locations historically performed by Health Care Associates of Brevard, Inc. shall be allocated exclusively to Scott Z. Seminer, M.D. and Craig K. Deligdish, M.D. in equal proportions.

(iii) The amount of bonus derived from net cash flow resulting from the performance of risk-based contracts shall be allocated among shareholder employees on a per capita basis. The amount of revenue to be credited to employees of the Corporation for the performance of services under such risk based contracts shall be determined by a vote of sixty-six and two thirds percent (66-2/3%) of the entire number of members of the Board of Directors. The amount of revenue, if any, which remains after the payment to employees

Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010-CA-011156-XXXX-XX
AMERICAN OVERSIGHT

for services rendered shall constitute the net cash flow which is distributed pursuant to this clause (iii).

(iv) Fifty percent (50%) of the net cash flow, if any, derived from Employer's operation of ancillary service facilities shall be allocated to shareholder employees on a per capita basis. The remaining fifty percent (50%) shall be allocated among shareholder employees based on a productivity formula adopted by a vote of sixty-six and two thirds percent (66-2/3%) of the entire number of the Board of Directors. Such formula shall be determined in accordance with applicable law regulating the referral of medical services to entities in which persons have an ownership interest or compensation arrangement.

(v) Any other income shall be allocated among shareholder employees on a pro rata basis.

(vi) Employee shall cause to be created and maintained internal accounting information as to the productivity of employee and each other's shareholder employee. Employee, at his or her own expense, shall have the right to inspect and verify such accounting information directly or through his or her designated representative.

(vii) Notwithstanding any calculations whatsoever, the amount of bonus to be paid to any shareholder employee shall be determined in the sole discretion of the Board of Directors, giving due regard the cash on hand, anticipated cash flow and reasonable working capital and other reserves.

Employee hereby agrees that, if at any time during the term hereof or within five (5) years after the termination or expiration hereof for any reason whatsoever, any public or private payor (including without limitation Medicare, Medicaid, insurance carriers, HMOs or PPOs) shall become entitled to any return of payment, offset, credit or other amount from Employer as a result of the disallowance or reduction in scope or amount of any services rendered or procedures performed or charges billed or collected by Employer for services rendered by Employee or his or her Care Center, or to any patient of Employee or his or her Care Center upon Employee's direction, Employee shall be liable to reimburse to Employer all amounts received by or credited to Employee with respect to the services to which such disallowance or reduction relates. Further, Employee shall be liable to reimburse to Employer all amounts charged or assessed against or reasonably incurred by Employer (such as malpractice assessments, judgments, legal or accounting fees, or other sums) relating to Employee's Care Center or patients prior to his or her date of termination.

Notwithstanding anything contained herein to the contrary, Employee's bonus and base compensation shall be reduced pro rata along with other shareholder employees in order to pay for the redemption of the shares of a shareholder employee who has terminated his employment and ownership interest in Employer.

AMERICAN OVERSIGHT

SHAREHOLDER AGREEMENT

THIS SHAREHOLDER AGREEMENT (the "Agreement") is made as of the first day of December, 1997, by and among OMNI HEALTHCARE, P.A., a professional service corporation, (the "Corporation"), and individually the "Shareholder", and collectively the "Shareholders" described in Exhibit "A".

WITNESSETH:

WHEREAS, each Shareholder owns shares of the Corporation's common stock; and

WHEREAS, the Shareholders collectively own all of the presently issued and outstanding shares of stock of the Corporation (the "Shares"); and

WHEREAS, the Corporation and the Shareholders deem it to be in their mutual best interests to impose certain restrictions and obligations on themselves and any transfer of Shares; and

WHEREAS, the Corporation and the Shareholders deem it to be in their mutual best interests to create value in the Shares of the Corporation.

NOW, THEREFORE, for and in consideration of the mutual promises and covenants contained herein, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Statement of Purpose. The foregoing recitals are true and correct. This Agreement is intended for all purposes to constitute a shareholders' agreement under Florida Statutes, Section 607.0732, as in effect on the date hereof. The primary purpose of the Corporation is to enable its Shareholders and other employed physicians to continue to provide the highest quality medical services to their patients despite the myriad of cost containment and administrative restrictions and burdens being placed upon them. It is the goal of the Corporation to (i) provide managerial capabilities and fiscal and administrative sophistication not generally affordable to solo or small practices, (ii) help keep its physicians abreast of legal and regulatory changes impacting their practices, (iii) achieve economies of scale through group purchasing activities, and (iv) understand how best to contain health care costs without jeopardizing the quality of care its physicians are accustomed and dedicated to providing their patients. It is believed that, despite governmental and third party payor initiatives and reforms designed to decrease total health care expenditures, it is possible to maintain high quality, private medical practices by pooling resources and talents into a multi-site group practice owned by the Corporation. The Shareholders intend that the Corporation shall at all times constitute a "group practice" within the meaning of state and federal laws and regulations, and will act consistently with such intention. To do so requires some sacrifice of individual autonomy to corporate decision making in the areas set forth herein.

Exhibit "B"

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20091899AA-001351-XXX-XX

2. Restrictions.

2.1 Restriction on Transfer. Except as provided in this Agreement, the Shareholders acknowledge that all of their Shares in the Corporation shall be subject to the terms of this Agreement and that none of their Shares nor any Shares, or any right, title, or interest therein now owned or hereafter acquired by such Shareholder shall be sold, assigned, transferred, pledged, encumbered or in any other way disposed of, and no sale, assignment, transfer, pledge, encumbrance or other disposition whatsoever of any of the Shares, or of any right, title or interest therein, shall be valid or binding except upon compliance with the terms, covenants and conditions of this Agreement. Each Shareholder acknowledges that the certificate representing his ownership of Shares has been delivered to the Corporation endorsed in blank and that this Agreement constitutes a perfected security interest in said Shares as defined in Section 678.321, Florida Statutes. The Corporation shall not transfer on its books any Shares covered by this Agreement except in compliance with this Agreement. Any execution, levy, or other legal process taken with respect to the Shares shall constitute a default of this Agreement as to the applicable Shareholder and the Corporation may foreclose upon its security interest according to law.

2.2 Legends. Each certificate representing one (1) or more Shares shall bear a legend stating that the ownership of such Shares is subject to the restrictions, terms and conditions of this Agreement. A copy of this Agreement and any other agreement that may be entered into by the parties restricting the Shares shall be kept on file at the principal office of the Corporation and copies thereof shall be freely available to the parties hereto. There shall be endorsed on each stock certificate issued by the Corporation the following legend:

"NOTICE IS HEREBY GIVEN THAT THE SALE, ASSIGNMENT, TRANSFER, PLEDGE OR OTHER DISPOSITION OF THE SHARES OF COMMON STOCK REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A CERTAIN SHAREHOLDER AGREEMENT DATED AS OF DECEMBER 1, 1997 AMONG THE CORPORATION AND ITS STOCKHOLDERS, AS MAY BE SUBSEQUENTLY AMENDED, A COPY OF WHICH IS ON FILE IN THE OFFICE OF THE SECRETARY OF THE CORPORATION.

THE SHARES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AND MAY NOT BE SOLD, TRANSFERRED, OR OTHERWISE DISPOSED OF IN THE ABSENCE OF AN EFFECTIVE REGISTRATION STATEMENT UNDER SUCH ACT OR AN OPINION OF COUNSEL TO THE CORPORATION TO THE EFFECT THAT SUCH REGISTRATION IS NOT REQUIRED. FURTHER, SHARES OF STOCK OF THE CORPORATION SHALL NOT BE OWNED BY ANY PERSON WHO IS NOT A PHYSICIAN DULY LICENSED BY AND RESIDENT WITHIN THE STATE OF FLORIDA."

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520089AA001352XXX-XX

No Shares which are authorized to be transferred or assigned in accordance with the terms of this Agreement shall be so transferred or assigned to any person who has not signed this Agreement or a separate consent agreeing to be bound by the terms of this Agreement.

2.3 Dilution. No common stock or other shares or securities of whatever kind or class, or options, warrants, rights or conversion privileges or other commitments for the issuance of common or preferred stock or other securities, shall be authorized, issued, distributed or made available by the Corporation to persons other than physician-employees without the recommendation and prior written consent or vote of two-thirds (2/3) of the board of directors of the Corporation (the "Board of Directors") and the approval of holders of at least two-thirds (2/3) of the outstanding Shares except as provided in paragraph 5.1(b) below. It is expected that additional physicians will become Shareholders from time-to-time in the future. In such event, pro rata dilution shall occur.

3. Transfer of Shares.

3.1 Restricted Transfers. A Shareholder shall not have the right or power to sell, assign, transfer or otherwise dispose of any Shares except in accordance with this Agreement. Any transfer or attempted transfer of Shares in violation of this Agreement shall be null and void and shall not be recognized by the Corporation.

3.2 Purchase of Shares.

(a) Upon the occurrence of any event described in paragraph (b) below (referred to herein as a "Purchase Event") with respect to any Shareholder, the Corporation shall be required to purchase all of the Shares of the Shareholder. The purchase price of the Shares (the "Purchase Price") shall be determined solely under the provisions of subsection 3.3 below. The Purchase Price shall be paid as provided in subsection 3.4 below at the closing of the transaction, which shall be at the principal office of the Corporation at a date and time set by the Corporation, but in no event later than ninety (90) days after the Purchase Event. In the event the Corporation tenders the Purchase Price for the purchase of Shares in accordance with the terms of this Agreement, such Shares shall be treated as redeemed for all purposes regardless of whether the Shareholder surrenders or transfers the Shares or accepts the tender and all rights of the Shareholder in such Shares shall cease.

(b) A Purchase Event is any event causing the termination of a Shareholder's employment with the Corporation, voluntary or involuntary, including death.

3.3 Purchase Price.

(a) (i) Except as provided herein, with respect to any purchase of Shares resulting from a Purchase Event described in paragraph 3.2(b) above, the Purchase Price shall be equal to the Shareholder's pro rata share of the Net Value (as defined below) of each Profit Center (as defined below) ownership of which is attributed to a Shareholder.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001353XXX-XX

(ii) The Net Value of a Profit Center shall be equal the average annual net operating income of the Profit Center for the three (3) fiscal years of the Profit Center immediately preceding the date of the Purchase Event capitalized by a capitalization rate of ten percent (10%) and reduced by the outstanding principal balances of any indebtedness and liabilities attributable to the Profit Center. The average annual net operating income of a Profit Center shall be equal to the gross revenues of the Profit Center less operating expenses without reduction for debt service or depreciation. In calculating operating expenses, compensation of Shareholders shall be calculated using only revenue from the rendition of physicians services, as defined in 42 U.S.C. 1395 x(g), by Shareholders.

(iii) In each instance, the period required to determine the Purchase Price shall extend the time for closing provided in subsection 3.2.

(b) In the event of any purchase of Shares under subsection 3.2, the Corporation shall use its best efforts to have the Shareholder (or his estate, as applicable) released from any personal guarantees of the Corporation's indebtedness or leases, provided that the failure to obtain any such release shall not constitute grounds for refusal by the Shareholder (or his estate) to sell his Shares to the Corporation as provided this Agreement. If the Purchase Event is the death, disability or retirement of the Shareholder, the remaining Shareholders agree that, two (2) years after the date of such Purchase Event, they will take all actions necessary to obtain the release of all personal guarantees of such deceased, disabled or retired Shareholder, including the execution and delivery of additional several guarantees to replace such released guarantees, but only if no default has occurred or call been made under the guarantee(s) or guaranteed obligation(s) during the period of two (2) years after the date of such Purchase Event. Further, in such circumstances and subject to the same condition, the Corporation will indemnify such Shareholder (or his estate) against any claim arising more than two (2) years after the date of such Purchase Event out of any such guarantee(s).

(c) Notwithstanding anything herein to the contrary, the Corporation shall have the right to offset against the Purchase Price the amount of any loans, liabilities, or other amounts outstanding from a Shareholder to the Corporation (whether or not otherwise then due and payable by their respective terms) upon the occurrence of a Purchase Event and/or to create a reasonable and appropriate escrow fund from all or a portion of the Purchase Price as a reserve against any reasonably anticipated amounts or liabilities for which such Shareholder would be liable to the Corporation. For purposes hereof, "liabilities to the Corporation" shall not be construed to include the amount of any guarantees or indemnification obligations by such Shareholder with respect to the Corporation's obligations unless such obligations are then in default. Any such reserve shall be created only by approval of two-thirds (2/3) of the Directors (as hereinafter defined).

(d) Notwithstanding anything contained herein to the contrary, if a Purchase Event occurs within five (5) years of the date a Shareholder acquired any Shares, the Purchase Price shall be the lesser of the amount determined in accordance with paragraph 3.3(a)

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-[illegible]

above or the aggregate amount paid by the Shareholder for the acquisition of all Shares owned by said Shareholder at the time of the Purchase Event.

3.4 Method of Payment. With respect to any purchase of Shares by the Corporation under this Agreement, the Purchase Price shall be paid at closing as follows:

(a) There shall first be credited against the Purchase Price any amount appropriate as an offset pursuant to paragraph 3.3(c) above.

(b) Subject to paragraph (c) below, the Purchase Price (as adjusted by any credits) shall be paid twenty percent (20%) in cash or cash equivalent, and the balance shall be paid by the delivery at closing of the Corporation's or purchasing Shareholder's unsecured promissory note (the "Note"). The Note shall bear interest at the Applicable Federal Rate (AFR), as defined in the Internal Revenue Code of 1986, as amended, in effect at closing and shall be payable in twenty-four (24) equal monthly installments, commencing on the last day of the first full calendar month after the date of closing. The Note shall be prepayable in whole or in part at any time without premium or penalty, with any prepayment being applied against principal installments in the inverse order of maturity. Notwithstanding the foregoing, in the event that the Corporation receives any life insurance proceeds with respect to the deceased Shareholder, all net proceeds (after payment of any income tax or alternative minimum tax created by the Corporation's receipt of such proceeds) shall be applied immediately to payment of the Purchase Price.

(c) At any time the Corporation is obligated to make down payments and monthly installments of amounts owed to Shareholders for the redemption of Shares (including the Purchase Price hereunder) and the total of such amounts owed exceeds ten percent (10%) of the net Shareholder revenue of the Corporation, the terms of payment described in paragraph (b) above shall be amended pro rata with all such obligations to reduce the cash down payment, extend the terms of the Note and reduce the monthly payment so that the Corporation is not obligated to pay more than ten percent (10%) of the net Shareholder revenue of the Corporation in any one (1) fiscal year. Further, any annual amounts received by physician Shareholders as severance compensation pursuant to their employment agreements with the Corporation shall reduce the limitation of the obligation of the Corporation contained in this paragraph 3.4(c) (ten percent (10%) of net Shareholder revenue)by the sum of said annual amounts. "Net Shareholder revenue" shall mean gross revenue of the Corporation minus cash expenses of the Corporation, except Shareholder salaries and amounts owed to Shareholders for redemption of Shares (including the Purchase Price hereunder).

3.5 Determination of Amounts. The determination of the Purchase Price, net Shareholder revenue and other amounts described in this section 3 shall be made by the Corporation's independent certified public accountant (unless any determination has been reserved to the Board of Directors) whose decision shall be final, conclusive and binding on the Corporation and the Shareholders absent manifest error.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001355XXX-XX

3.6 Insurance Proceeds. In order to provide funds for the redemption of Shares of common stock upon the death of a Shareholder, the Corporation may acquire at its expense a life insurance policy on any Shareholder(s), from a reputable life insurance company, in amounts as determined by the Board of Directors. Each Shareholder agrees to cooperate with the Corporation in procuring such insurance, including submitting to physical examinations, if necessary. All attributes of ownership of each policy shall be reserved to the Corporation.

3.7 Determination of Ownership.

(a) Ownership of Shares shall be attributed to the three (3) "Profit Centers" of the Corporation described below.

(i) Clinical Laboratory: The assets (tangible and intangible) of the Corporation utilized to perform clinical laboratory tests.

(ii) HCA: The assets (tangible and intangible) of the Corporation conducting the medical practice of the Corporation which was acquired by the Corporation from Health Care Associates of Brevard, Inc.

(iii) General: The assets (tangible and intangible) of the Corporation not described in paragraphs (a) or (b) above.

(b) Share ownership shall be attributed to each Profit Center in accordance with Exhibit A.

(c) Except as provided in subsections 3.3, 4.5 and 4.7, each Share shall be entitled to equal voting rights, dividends and proceeds upon liquidation.

4. Management.

4.1 Board of Directors. Except as provided in subsection 4.2 or 4.3 below, or as specifically provided elsewhere in the bylaws or herein, any action of the Board of Directors shall require the affirmative vote of a majority the of a quorum of Directors present at a duly called meeting of the Board of Directors. Except for actions of the Board of Directors requiring a simple majority vote, references to any action of "the Directors" in this Agreement shall mean the entire number of the members of the Board of Directors. The bylaws shall provide for the executive offices of the Corporation, but the Board of Directors, by majority vote, shall have the authority to expand, reduce or otherwise modify the number, title and function of said offices and to appoint officers to serve in any other offices from time to time, subject only to the express limitations of the bylaws. Members of the Board of Directors and committees thereof (if any) shall be entitled to compensation from the Corporation as provided for in the bylaws.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001358XXX-XX

4.2 Decisions Requiring Super-Majority Approval of Board of Directors and Shareholders. The following actions of the Corporation shall require the recommendation and consent of two-thirds (2/3) of the Directors (exclusive of any interested Director) and the approval or written consent of the holders of at least two-thirds (2/3) of the entire number of Shares:

(a) to sell, transfer, encumber, lease or otherwise dispose of any assets of the Corporation (except as provided in subsection 4.7) having an aggregate value in excess of one hundred thousand dollars ($100,000.00) other than in the ordinary course of business;

(b) to enter into any other agreement outside the ordinary course of business (i) obligating the Corporation for an amount in excess of one hundred thousand dollars ($100,000.00), or (ii) having a non-cancelable term in excess of one (1) year; and

(c) to amend the articles of incorporation of the Corporation, this Agreement, or the compensation formulae by which Shareholder employees are paid for services rendered or allocated overhead.

Any approval required under this subsection 4.2 shall be obtained in accordance with the provisions of the bylaws of the Corporation with respect to meetings of the Board of Directors and/or Shareholders or actions taken by the Board of Directors and/or Shareholders by written consent in lieu of a meeting.

4.3 Decisions Requiring Super-Majority Approval of Board of Directors. Without the recommendation and consent of at least two-thirds (2/3) of the Directors (exclusive of any interested Director), the Corporation shall not:

(a) remove any officer from his position;

(b) offer any physician the opportunity to become a Shareholder (and in the event of any such offer, the same super-majority approval shall be required to establish the price and any other terms of such offer); provided, however, that this limitation is subject to and superseded in the event of any conflict by the provisions of subsection 4.4 below;

(c) hire any physician employees;

(d) enter into any agreement, loan or other transaction (including reading and/or other professional service agreements) with a Shareholder or any members of his/her family, or any entity in which a Shareholder and/or members of his/her family own an interest of more than ten percent (10%) (herein referred to as an "Affiliate");

(e) negotiate changes to the standard form of employment, executed by all other Shareholders, or waive or reduce the amount of professional liability insurance coverage required for its Shareholders;

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20091899AA-001357-XXX-XX

(f) confess any judgment or settle any malpractice or legal dispute in excess of twenty-five thousand dollars ($25,000.00); or

(g) accept, terminate or allocate to any care center or to any group of physicians any managed care contract.

4.4 Employment Agreements. Each Shareholder hereby agrees to execute and deliver an employment agreement in substantially the form attached hereto as Exhibit "B", subject only to such changes as may be required to reflect the Shareholder's specialty, the agreements set forth herein, and/or as may be approved by two-thirds (2/3) of the Directors. Each Shareholder agrees to provide substantially the full range of his/her services and furnish and bill substantially all of his/her professional services through the Corporation so long as such requirements are legally necessary to qualify the Corporation as a "group practice" within the meaning of state and federal laws.

4.5 Dividends. No Shareholder shall be entitled to receive any dividends declared by the Corporation during the period of three (3) years which began on the date the Shareholder first acquires any Shares of the Corporation. Dividends not received by a Shareholder because of the application of this subsection 4.5 shall not be deemed to be payable at any other time.

4.6 No Restriction on Other Business Opportunities. Notwithstanding anything herein, at law or in equity to the contrary, no "corporate opportunity doctrine" shall exist as between the Corporation and any Shareholder(s), and no Shareholder shall be required to offer any business opportunity of any nature to any other Shareholder. It is expressly intended by all parties that the business be limited strictly to the provision of physician services and services incident thereto. Neither the Corporation nor any Shareholder shall have any right to or interest in any other income or assets derived by another Shareholder from sources outside the business.

4.7 Sale of Assets.

(a) Upon the sale of substantially all of the assets of the Corporation and the distribution of proceeds therefrom, each Shareholder shall receive a pro rata share of the proceeds according to the number of Shares owned by such Shareholder.

(b) Upon the sale of substantially all of the assets of the HCA Profit Center, which is not conducted in accordance with the sale of substantially all of the assets of the Corporation and the distribution of proceeds resulting therefrom, each Shareholder ownership of whose shares is attributed to such Profit Center shall receive a pro rata share of the proceeds according to the number of Shares owned by each Shareholder which are attributed to such Profit Center. A sale pursuant to this subsection 4.7(b) shall be approved only by a majority vote of the holders of those Shares which are attributed to such Profit Center and the Corporation or any other Shareholder(s) shall have no power to authorize or preclude such sale. The Corporation and each

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-2009-00899AA-001358-XXX-XX

other Shareholder shall provide all consents and resolutions which may be required by a third party to effectuate such sale.

(c) Upon the sale of substantially all of the assets of the Clinical Laboratory Profit Center, which is not conducted in accordance with the sale of substantially all of the assets of the Corporation and the distribution of proceeds resulting therefrom, the Shareholder ownership of whose shares is attributed to such Profit Center shall receive the proceeds from such sale. A sale pursuant to this paragraph 4.7(c) shall be approved only by the Shareholder ownership of whose Shares are attributed to such Profit Center, and the Corporation or any other Shareholder(s) shall have no power to authorize or preclude such sale. The Corporation and each other Shareholder shall provide all consents and resolutions which may be required by any third party to effectuate such sale.

(d) In the event of any sale pursuant to paragraph 4.7(b) or 4.7(c) above, proceeds resulting therefrom shall be distributed to applicable Shareholder(s) and the shares owned by each such Shareholder which are attributable to the Profit Center the asset sold shall be transferred by such Shareholder to the Corporation in exchange therefor.

(e) In the event of a sale of less than substantially all of the assets of the Corporation not involving a sale of substantially all of the assets of the clinical laboratory Profit Center or the HCA Profit Center, each Shareholder shall receive a pro rata share of the proceeds according to the number of Shares owned by such Shareholder.

(f) Notwithstanding anything contained herein to the contrary, in the event a sale or transfer described in this subsection 4.7 occurs within three (3) years after a Shareholder first acquired any Shares in the Corporation, such Shareholder shall receive as a distribution of the proceeds of such sale or transfer an amount which equals the lesser of the amount determined in accordance with this subsection 4.7 or an amount which equals the product of the aggregate purchase price paid by such Shareholder for his or her Shares and the ratio that price paid for the Corporation's assets bears to the fair market value of all assets of the Corporation at the time of closing of such transfer or sale. The balance of the proceeds distributed to Shareholders from the price paid to the Corporation for the sale or transfer shall be redistributed among the other Shareholders in accordance with their proportionate Share ownership.

4.8 New Shareholders. In the event the Board of Directors determines to offer a physician an opportunity to become a Shareholder, each Shareholder agrees, if required by the Board of Directors, to sell to such physician a number of his or her Shares which equals the product of the number of Shares to be purchased by the physician and the ratio that the number of the Shareholder's Shares bears to the total number of Shares issued and outstanding. The price per share for such purchase and sale shall be the same for all Shareholders. All Shares sold to such physician shall be from Shares attributed to the General Profit Center and shall continue to be so attributed. Notwithstanding the foregoing, a Shareholder who first acquired Shares in the Corporation less than three (3) years from the date of closing of the sale to said physician shall not be entitled to sell any

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001358XXX-XX

of his or her Shares which, for purposes of this subsection 4.8, shall be deemed not to be issued and outstanding as of the closing date.

4.9 Allocation Determinations. The determination of any amounts to be payable to any Shareholder under this section 4 shall be made by the Corporation's independent certified public accountant whose decision shall be final, conclusive, and binding on the Corporation and Shareholders absent manifest error.

4.10 Special Provision Regarding Clinical Laboratory. In the event Craig K. Deligdish, M.D. shall cease to be a Shareholder for any reason, the Corporation shall employ Craig K. Deligdish, M.D., upon his election to be delivered to the Corporation prior to the closing of a Purchase Event, as the medical director/administrator of the Clinical Laboratory Profit Center having responsibility for all medical, quality assurance, utilization review, educational and fiscal aspects of its operation. Compensation for such services shall be on fair market value terms.

5. Financial Matters.

5.1 Mandatory Loans.

(a) Each Shareholder covenants that, upon request of the holders of at least two-thirds (2/3) of the Shares that all Shareholders shall make loans to the Corporation, he/she will loan to the Corporation, on a per capita basis in accordance with the number of Shareholders, such amounts as may be determined to be necessary; provided, however, that in no event shall this covenant obligate a Shareholder to contribute more than an additional fifty thousand dollars ($50,000.00) to the Corporation in any consecutive twelve (12) month period. Any such loan shall be made within thirty (30) days after proper written demand is made upon the Shareholders. Loans shall bear interest at the AFR.

(b) In the event a Shareholder defaults in his/her obligation under the foregoing paragraph (a), at the option of the Corporation, to be exercised by majority vote of the Board of Directors, (i) such default shall be treated as a Purchase Event under subsection 3.2, or (ii) the Corporation may bring suit to enforce such payment obligation.

(c) In the event that funds in addition to those committed under paragraph (a) are required by the Corporation, the Corporation shall first seek funding from not less than three (3) institutional lenders on then market terms. If such funding cannot be obtained, or cannot be obtained within the time period required by the Corporation, any Shareholder(s) may provide such funding, and any such funds furnished by a Shareholder shall be treated as an unsecured demand loan bearing interest at ten percent (10%) per annum. If more than one (1) Shareholder desires to loan money to the Corporation on such terms, the required amount shall be borrowed pro rata from such Shareholders.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20091899AA-001368XXX-XX

5.2 Personal Guarantees.

(a) By execution hereof, each Shareholder agrees to personally guarantee, jointly and severally with all other Shareholders, all obligations of the Corporation requiring personal guarantees if the Board of Directors, by affirmative vote of not less than two-thirds (2/3) of its members, requests same and at least two-thirds (2/3) of the Shareholders approve such request in writing; provided, however, that the provisions of this paragraph shall not be enforceable by specific performance or through any provision for indemnification herein against any Shareholder who (i) does not approve such guarantee, and (ii) submits his written notice of termination of employment within ten (10) days after the date of such Shareholder approval.

(b) In the event that any personal guarantee of a Shareholder is enforced to satisfy any obligation of the Corporation, such Shareholder shall have a right of contribution against each other Shareholder to the extent required to make the total payments made as a consequence of such Shareholder guarantees be on a pro rata basis in accordance with their respective ownership of Shares.

5.3 Indemnification Obligation.

(a) Each Shareholder (herein, an "Indemnitor") agrees to indemnify and hold harmless the Corporation and each other Shareholder ("Indemnitee") from and against any and all claims, expenses, causes of action, damages, losses, costs and/or obligations (including reasonable attorney's and accountant's fees, whether suit be brought or not and including all pre- and post-trial proceedings to the extent not covered by insurance (collectively, "Claims") arising or allegedly arising in any manner out of or attributable to such Indemnitor's acts or omissions, whether prior to or after the effective date hereof. Without limitation of the foregoing, and by way of example only, the foregoing is intended to require indemnification for Claims arising out of malpractice actions involving acts or omissions of the Indemnitor or employees under his supervision; investigations, proceedings, denials, or other adverse actions against any Indemnitee by Medicare or any other payor arising out of the Indemnitor's acts, omissions or practices (or those employees under Indemnitor's supervision); or any other litigation or proceeding involving any Indemnitee as a result of the acts or omissions of the Indemnitor. Such indemnification obligation shall survive any termination of this Agreement or sale by the Indemnitor of his stock in the Corporation.

(b) If any Indemnitee hereunder shall receive notice of any claim or proceeding against it that gives or allegedly gives rise to rights of indemnification hereunder, the Indemnitee shall give the Indemnitor prompt written notice thereof, and the Indemnitor shall have the right to contest and conduct the defense, negotiation, settlement and/or compromise of any action brought against the Indemnitee at the Indemnitor's sole expense; provided that if the Indemnitor shall fail to notify the Indemnitee of the assumption of the defense of any such action within fifteen (15) days after the giving of such notice by the Indemnitee, then the Indemnitee shall have the right

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001361XXXX-XX

to take any such action it deems appropriate to defend, contest, settle or compromise any such action or assessments and claim indemnification as provided herein. The Indemnitor shall incur liability under this section only for Claims as to which effective notice has been given. If the Indemnitor defends any action for which indemnification is claimed, the Indemnitee shall be entitled to participate, solely at its own expense, in the defense of such action and all negotiations pertaining thereto, provided that such defense and negotiations, and any settlement or compromise thereof, shall be conducted by and subject to the ultimate control of the Indemnitor. Notwithstanding the above, failure of the Indemnitee to notify the Indemnitor of any claim for which it is entitled to indemnify hereunder shall not impair, limit or affect the indemnification provided herein so long as the ability of the Indemnitor to contest, defend or dispute such Claim has not been materially and adversely affected or the Indemnitor has not otherwise been prejudiced by such failure. In the event that any Indemnitee shall have received a written opinion from counsel reasonably acceptable to Indemnitor to the effect that there may be legal defenses or claims available to such Indemnitee which are different from, additional to or in conflict with those available to the Indemnitor, then Indemnitor shall not have the right to assume and control the defense and negotiation of such claim on such Indemnitee's behalf, and in such event the fees and expenses of the Indemnitee in defending and negotiating such Claim shall be borne by the Indemnitor.

5.4 Books and Records. The Corporation shall at all times keep full and accurate books and records, and such books and records shall be available for inspection during normal business hours by the Shareholders and their respective representatives. The Corporation shall also furnish to each of the Shareholders in a timely manner all financial statements and tax returns of the Corporation and other information reasonably requested.

5.5 Fiscal Year. The fiscal year of the Corporation shall end on the thirty-first (31st) day of December of each year.

6. Agreement Binding on Transferees. In addition to any other restrictions imposed by this Agreement on a transfer of any interest in Shares of the Corporation, any such transfer, whether with or without consideration, shall be void and of no effect unless prior to such transfer the proposed transferee(s) (including, where appropriate, trustees and beneficiaries) shall have agreed to be bound by the provisions of, and shall have executed a copy of, this Agreement.

7. Effect of Prohibited Transfer. The Corporation shall not be required to (a) transfer on its books any Shares which shall have been sold or transferred in violation of any of the provisions of this Agreement, or (b) treat as the owner of such Shares, or to pay dividends to, any transferee to whom any such Shares shall have been so sold or transferred.

8. Restrictive Covenants. Each Shareholder whose name appears on Exhibit "C" attached hereto ("Restricted Shareholder") agrees to the following restrictive covenants in consideration of becoming a Shareholder in the Corporation and in anticipation of the occurrence of a Purchase Event with respect to his Shares.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001362XXX-XX

8.1 (a) Restricted Shareholder agrees that the Corporation and its predecessors have developed and maintained a substantial medical practice in Brevard County, Florida and that the Corporation's medical practice and the goodwill associated with it have been developed over many years of practice. Restricted Shareholder further agrees that the Corporation's medical practice is a multi-specialty group practice. The medical practice and goodwill of the Corporation are valuable, proprietary interests.

(b) Restricted Shareholder further acknowledges that the Corporation has a legitimate and protectable interest in trade secrets, its good name and reputation, patients and patient lists.

(c) Restricted Shareholder further acknowledges and agrees that Restricted Shareholder gained access to the Corporation's trade secrets, referral sources, patients and patient lists as a result of the Corporation's employment of Restricted Shareholder and the issuance by the Corporation of Shares to Restricted Shareholder. Restricted Shareholder further acknowledges and agrees that the benefits to Restricted Shareholder of section 3 were bargained for by the Corporation in reliance upon the Restricted Shareholder's agreement to this section 8 in order to preserve the practice and goodwill of the Corporation upon the occurrence of a Purchase Event.

(d) Restricted Shareholder further acknowledges and agrees that the provisions of this section 8 are intended and shall be within the scope of Section 542.335, Fla. Stat., and shall be in addition to any restrictive covenants contained in any employment agreement between the Restricted Shareholder and the Corporation.

8.2 Restricted Shareholder, therefore, covenants and agrees that the closing of a Purchase Event and for a period of three (3) years following the closing of a Purchase Event, Restricted Shareholder shall not, either alone or with a combination of others, undertake any business activity competitive with any part of the business of the Corporation, practice medicine in any hospital in the Territory (as hereinafter defined), nor accept any employment or other commitment or otherwise engage in any activity that will require him to reveal or use any Confidential Information (as hereinafter defined) of the Corporation, nor directly or indirectly, own, operate, manage, join, control, participate in the ownership, management, operation and/or control of, or be paid or employed by, or otherwise become associated with and provide assistance to, as an employee, agent, advisor, independent contractor, officer, director, shareholder, owner or otherwise, any business or activity within the Territory in which Restricted Shareholder conducts business or markets its products and/or services or in which any of its patients or customers are located, which business or endeavor is, directly or indirectly, in competition with the business of the Corporation's operations. Restricted Shareholder agrees that the "Territory" of the Corporation's business is an area within a ten (10) mile radius of any location at which the Corporation maintains a medical office which renders medical services other than ancillary testing services.

8.3 For a period of three (3) years following the closing of a Purchase Event, Restricted Shareholder shall not, for himself, or on behalf of any other person, persons, firm,

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520089AA001363XXX-XX

partnership, corporation, or company, whether or not Restricted Shareholder has any part or involvement with the foregoing, call upon any patient of the Corporation for the purpose of soliciting, selling, renting, or other business promotion to any of said patients, products and/or services similar to products and services sold by the Corporation; nor will Restricted Shareholder, in any way, directly or indirectly, for himself or on behalf of, or in conjunction with any other person, persons, firm, partnership, corporation, or company, solicit, divert, or take away any such patient of the Corporation during the three (3) year term following the closing of a Purchase Event; nor will Restricted Shareholder, directly or indirectly, for himself or on behalf of, or in conjunction with any other person, persons, firm, partnership, corporation, or company, induce, or attempt to induce, any patient or customer, to sever or otherwise alter this relationship with Employer during the course of his employment and for the three (3) year term following the closing of a Purchase Event.

8.4 For a period of three (3) years following the closing of a Purchase Event, Restricted Shareholder shall not, for himself, or on behalf of any other person, persons, firm, partnership, corporation, or company, whether or not Restricted Shareholder has any part or involvement with the foregoing, hire or retain the services of any agents or employees of the Corporation for any purpose, or induce or attempt to induce any agent, employee, or representative of the Corporation to sever or otherwise alter their relationship with the Corporation.

8.5 (a) Restricted Shareholder acknowledges and understands that during his association with the Corporation, Restricted Shareholder will have access to and become familiar with various trade secrets, and know how, which is owned by and is the property of the Corporation and which constitutes "Confidential Information" of the Corporation.

(b) Restricted Shareholder shall not, at any time during his ownership of Shares or thereafter, except as properly required in the course of his employment, publish, disclose, or authorize anyone else to publish or disclose any Confidential Information to the public, directly or indirectly, nor to use the same in any way, or allow others to use such Confidential Information, except as expressly authorized by the Corporation in writing.

(c) The term "Confidential Information" shall mean all materials and information related to or associated with the Corporation's services, products, business or activities; marketing plans or techniques; patient lists, information relating to finance, accounting, sales, personnel and management; referral sources; proprietary computer software and data; and information related to supplier lists, price lists, costs of goods and services and maintenance; and trade secrets (as defined in Section 812.081, Fla. Stat.).

8.6 Restricted Shareholder agrees that the foregoing provisions are a material inducement for the Corporation to agree to the provisions of section 3 with Restricted Shareholder and that the foregoing provisions are reasonable and necessary for the protection of the Corporation. Restricted Shareholder further agrees that Restricted Shareholder is fully capable of earning a living outside of the Territory upon the closing of a Purchase Event.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-520899AA001364XXX-XX

8.7 Each of the restrictive covenants contained in subsections 8.2, 8.3, 8.4 and 8.5 is a separate, distinct and severable obligation. In the event any of such covenants should be held invalid or unenforceable by a court of competent jurisdiction, the others shall not be affected thereby.

8.8 Restricted Shareholder covenants and agrees that, if Restricted Shareholder shall violate any of the covenants and agreements provided for pursuant to the foregoing subsections of this section, the Corporation shall suffer irreparable injury and the Corporation shall be entitled to obtain preliminary and permanent injunctive relief prohibiting such practice in addition to any damages which may be suffered, together with reasonable attorney's fees and other costs in connection with any such litigation.

8.9 The parties agree that the issuance of injunctive relief in favor of the Corporation for any violation by Restricted Shareholder of the covenants and agreements contained in this section 8 does not preclude or remedy actual damages which the Corporation shall suffer prior to the issuance of such injunctive relief or which shall continue notwithstanding the issuance of injunctive relief. The parties agree that it is impracticable and extremely difficult to determine such actual damages which may result from Restricted Shareholder's failure to comply with the provisions of this section 8 for any one (1) or more of the following reasons:

(a) the difficulty of the Corporation to prevent a breach of this section 8 by Restricted Shareholder;

(b) the difficulty of the Corporation to calculate actual damages and loss of business resulting from disclosure of Confidential Information or the solicitation of employees of the Corporation by Restricted Shareholder in violation of this Agreement;

(c) the difficulty of the Corporation to ascertain the impact of a breach of this Agreement on the Corporation's patients; and

(d) the difficulty that the Corporation may experience in obtaining timely injunctive relief.

Therefore, it is expressly agreed by the Corporation and Restricted Shareholder that in the event Restricted Shareholder violates the terms and provisions of this section 8, the Corporation shall receive the sum of two hundred fifty thousand dollars ($250,000.00) in lump sum from Restricted Shareholder, which sum Restricted Shareholder shall pay within thirty (30) days of receipt of written notice from the Corporation. Such sum shall constitute liquidated damages and shall not be interpreted or construed as a penalty, but as a good faith attempt and a reasonable estimation of the parties to determine damages which the Corporation shall suffer in the event of a breach of this section 8 by Restricted Shareholder. The parties agree that this subsection 8.9 is intended to compensate the Corporation for damages caused by Restricted Shareholder prior to the attainment of injunctive relief by the Corporation and for damages which cannot be prevented by injunctive relief. Notwithstanding the foregoing, the damages stated herein shall be reduced to the extent of

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20091899AA-001365XXX-XX

any damages collected by the Corporation for breach by Restricted Shareholder of the restrictive covenant contained in his employment agreement with the Corporation.

9. Adjustments for Stock Splits, Stock Dividends, etc. If, from time to time during the term of this Agreement, there is any stock split-up, stock dividend, stock distribution or other reclassification of the capital stock of the Corporation, any and all new, substituted or additional securities to which a Shareholder or any transferee is entitled by reason of his ownership of the Shares of the Corporation's stock shall be immediately subject to the provisions of this Agreement in the same manner and to the same extent as the outstanding Shares.

10. Amendment. The provisions of this Agreement may be amended as to the Shareholders and the Corporation, as to any particular transaction or otherwise, by the recommendation and approval of at least two-thirds (_) of the Directors and by the approval of holders of at least two-thirds (_) of the entire number of Shares. Provided however, that no provision requiring the consent of a greater percentage of Directors or Shareholders shall be amended without the approval of such greater percentage, and the provisions of subsections 3.3, 3.7, 4.7 and 4.10 shall not be amended without the approval of holders of all of the Shares of the Corporation.

11. Notices. All notices and other communications hereunder shall be in writing and shall be deemed to have been duly given and received upon personal delivery, three (3) days after mailing, first class postage prepaid, or one (1) day after delivery to an independent overnight courier. Notice shall be given in each instance to the Corporation at its principal office and to any Shareholder or transferee at the address appearing in the stock books of the Corporation or to any such other address as any Shareholder shall designate to the Corporation in writing.

12. Titles. The titles of the sections and subsections herein have been inserted as a matter of convenience or for reference only, and shall not control or affect the meaning or construction of any of the terms or provisions hereof.

13. Complete Agreement. This Agreement contains the entire understanding between the parties and supersedes any prior understandings and agreements between them regarding the within subject matter. There are no representations, agreements, arrangements or understandings, oral or written, between or among the parties hereto relating to the subject matter of this Agreement that are not fully expressed herein. This Agreement supersedes any prior shareholder agreement among any Shareholders of the Corporation.

14. Governing Law. This Agreement and all rights and obligations hereunder shall be governed by the laws of the State of Florida.

15. Number; Gender. The use of the singular herein shall be deemed to be or include the plural (and vice-versa), and the use of any gender shall be deemed to include all genders, wherever appropriate.

AMERICAN OVERSIGHT
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20091899AA001366XXX-XX

16. Binding Effect. This Agreement shall be binding upon, and inure to the benefit of, the parties hereto and their respective spouses, heirs, executors, administrators, personal and legal representatives, successors and permitted assigns.

17. Severability. Each section, subsection and paragraph hereof shall be considered severable, and if for any reason any section, subsection or paragraph is determined to be invalid under current or future law, such section, subsection or paragraph shall be deemed limited by construction in scope and extent to the minimum extent necessary to render the same valid and enforceable. In the event no such limiting construction is possible, such invalid or unenforceable provision shall be deemed severed from this Agreement and such invalidity or unenforceability shall not impair the operation of or otherwise affect the valid portions of this Agreement.

18. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be an original, and all of which together shall constitute one (1) and the same instrument.

19. Jurisdiction and Venue. The parties acknowledge that a substantial portion of negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Brevard County, Florida, and that, therefore, each of the parties irrevocably and unconditionally (a) agrees that any suit, action or legal proceeding arising out of or relating to this Agreement shall be brought in the courts of record of the State of Florida in Brevard County; (b) consents to the jurisdiction of each such court in any such suit, action or proceeding and expressly waives removal to a federal court; (c) waives any objection which it may have to the laying of venue or any such suit, action or proceeding in any of such courts; and (d) agrees that service of any court paper may be effected on such party by mail as provided in this Agreement, or in such other manner as may be provided under applicable laws or court rules.

20. Enforcement Costs. If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses even if not taxable as court costs (including, without limitation, all such fees, costs and expenses incident to appeals), incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

21. Restriction or Redemption. To the extent Section 607.06401, Fla. Stat., imposes a restriction upon the Corporation's ability to redeem Shares of the Corporation, the Corporation shall redeem those Shares pursuant to this Agreement to the extent allowed by law. The Corporation's obligation to purchase Shares or to which Section 607.06401 restricts redemption shall be suspended until the conditions stated in subsection (3) thereof shall have been eliminated.

22. Acknowledgment. By execution hereof, each Shareholder acknowledges that he/she has been advised that the Corporation's counsel is not acting as counsel to any individual

Shareholder but has heretofore represented certain of them; consequently, each Shareholder is encouraged to consult with his/her own legal and accounting advisers in connection with this Agreement and the transactions contemplated hereby.

IN WITNESS WHEREOF, the Corporation and the Shareholders have signed this Agreement as of the day and year first above written.

OMNI HEALTHCARE, P.A.

Master Lease No. 122081

MASTER LEASE AGREEMENT
LESSOR: CITICORP VENDOR FINANCE, INC.

LESSEE: OMNI HEALTHCARE, P.A.

IMPORTANT INFORMATION ABOUT ESTABLISHING A RELATIONSHIP WITH LESSOR

To help the United States Government fight terrorism and money laundering, Federal law requires us to obtain, verify, and record information that identifies each person or business that opens an account or establishes a relationship. What this means for you: When you open an account or establish a relationship, we will ask for your name, street address, date of birth, and identification number, such as a social security number or taxpayer identification number. For businesses, we will ask for the business name, street address and tax identification number. Federal law requires us to obtain this information. We may also ask to see your driver's license or other identifying documents that will allow us to identify you.

TERMS AND CONDITIONS OF LEASE

1. LEASE OF EQUIPMENT; ACCEPTANCE. A. Lessor hereby leases to Lessee, and Lessee hereby leases from Lessor, the equipment described in one or more equipment schedules (the "Schedule"), that may hereafter be executed by Lessor and Lessee (the equipment, together with all replacement parts, repairs, additions, substitutions and accessories shall be referred to as the "Equipment") on the terms and conditions contained in this Lease ("Lease") and in any Schedule. This Lease and each of the terms and conditions herein contained will be incorporated into each Schedule in full to the same extent as if each of the terms and conditions had been repeated and set forth in full therein, and this Master Lease Agreement shall control and be effective as to all such Schedules except to the extent that the Master Lease Agreement may be inconsistent with the terms and provisions of such Schedule, in which event the terms and provisions of such Schedule shall prevail. Each Schedule shall constitute a separate lease and a distinct and independent obligation of the Lessee. The parties intend this Lease to be a "Finance Lease" under Article 2A of the Uniform Commercial Code.

B. Lessee's confirmation to Lessor, by written delivery and acceptance certificate, telephone or other means as required by Lessor, of the delivery and acceptance of the Equipment to and by Lessee in all respects shall constitute Lessee's acknowledgment of its receipt of the Equipment in good and working condition, that all installation and other work necessary prior to the use thereof has been completed, that Lessee has inspected the Equipment and has found it to be satisfactory in all respects. Lessee understands that Lessor will be relying upon such confirmation by Lessee as a condition of making payment for the Equipment.

2. ORDER AND DELIVERY OF EQUIPMENT; LESSOR'S RIGHT TO TERMINATE. Lessee hereby requests Lessor to order the Equipment from the Supplier named on the Schedule and to arrange for delivery of the Equipment to Lessee at Lessee's expense, and to lease the Equipment to Lessee. If the Equipment is not delivered to and accepted by Lessee in form satisfactory to Lessor, within ninety (90) days from the date Lessor orders the Equipment, Lessor may terminate the applicable Schedule and its obligations thereunder. Lessee waives any requirement of Lessor to furnish Lessee a copy of Lessor's purchase order for the Equipment.

3. TERM AND RENT. A. The initial term ("Initial Term") of any Schedule to which this Lease relates shall commence on the day the first item of Equipment listed on such Schedule is delivered to Lessee or Lessee's representative (the "Commencement Date") and shall be of such duration as is prescribed in such Schedule. Advance Rent and any Security Deposit as provided in any Schedule shall be payable upon the execution of this Lease or the applicable Schedule. Interim rent shall be payable for the period between the Commencement Date and the first day of the month following the Commencement Date at a daily rate equal to the periodic rental provided in any Schedule divided by the number of days in the period and subsequent payments shall be due periodically in advance on the first day of each successive period thereafter until all rent and other sums chargeable to Lessee hereunder are paid in full. Lessee's obligation to pay rent and Lessee's other monetary obligations hereunder are absolute and unconditional and are not subject to any abatement, set-off, defense or counterclaim for any reason whatsoever. Any Security Deposit shall secure all obligations of Lessee hereunder and may be applied at Lessor's discretion to any past due obligation of Lessee and to the extent not applied shall be returned to Lessee, without interest, at the expiration of this Lease or the applicable Schedule. All payments of rent shall be made to Lessor at the address set forth herein or such other address as Lessor shall designate in writing. Lessee agrees to pay Lessor a non-refundable origination fee of $250.00 in connection with this Lease.

B. If any payment hereunder is not made by Lessee when due, Lessee shall be charged a late fee of ten percent (10%) of the amount of such payment, plus interest on such amount at the rate of 1.15% per month from the due date until the date paid, but as to each of the foregoing, in no event more than the maximum rate permitted by law.

4. NO WARRANTIES BY LESSOR, DISCLAIMER OF IMPLIED WARRANTIES AND WAIVER OF DEFENSES. LESSOR IS NOT THE MANUFACTURER OR SUPPLIER OF THE EQUIPMENT, AND MAKES NO WARRANTY, EXPRESSED OR IMPLIED, TO ANYONE, AND DISCLAIMS ALL WARRANTIES AS TO THE SUITABILITY, DURABILITY, DESIGN, CONDITION, CAPACITY, PERFORMANCE OR ANY OTHER ASPECT OF THE EQUIPMENT, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR USE OR PURPOSE. AS TO LESSOR AND ITS ASSIGNS, LESSEE LEASES THE EQUIPMENT "AS IS." LESSEE REPRESENTS THAT IT HAS SELECTED THE EQUIPMENT AND THE SUPPLIER AND ACKNOWLEDGES THAT LESSOR HAS NOT RECOMMENDED THE SUPPLIER. LESSOR SHALL HAVE NO OBLIGATION TO INSTALL, MAINTAIN, ERECT, TEST, ADJUST, OR SERVICE THE EQUIPMENT, ALL OF WHICH LESSEE SHALL PERFORM, OR CAUSE THE SAME TO BE PERFORMED BY QUALIFIED THIRD PARTIES. LESSOR, ITS AFFILIATES, OFFICERS, DIRECTORS, SHAREHOLDERS AND LESSOR'S ASSIGNEE SHALL NOT BE LIABLE TO LESSEE OR OTHERS FOR ANY LOSS, DAMAGE OR EXPENSE OF ANY KIND OR NATURE CAUSED DIRECTLY OR INDIRECTLY BY ANY EQUIPMENT HOWEVER ARISING, OR THE USE OR MAINTENANCE THEREOF OR THE FAILURE OF OPERATION THEREOF, OR THE REPAIRS, SERVICE OR ADJUSTMENT THERETO. NO REPRESENTATION OR WARRANTY AS TO THE EQUIPMENT OR ANY OTHER MATTER BY THE SUPPLIER OR OTHERS SHALL BE BINDING ON THE LESSOR NOR SHALL THE BREACH OF SUCH RELIEVE LESSEE OF, OR IN ANY WAY AFFECT, ANY OF LESSEE'S OBLIGATIONS TO LESSOR HEREIN. IF THE EQUIPMENT IS UNSATISFACTORY FOR ANY REASON, LESSEE SHALL MAKE CLAIM ON ACCOUNT THEREOF SOLELY AGAINST SUPPLIER, AND ANY OF SUPPLIER'S VENDORS, AND SHALL NEVERTHELESS PAY LESSOR ALL RENT AND OTHER SUMS PAYABLE UNDER THIS LEASE. LESSOR HEREBY ASSIGNS TO LESSEE, SOLELY FOR THE PURPOSE OF PROSECUTING SUCH A CLAIM, ANY OF THE RIGHTS WHICH LESSOR MAY HAVE AGAINST SUPPLIER AND SUPPLIER'S VENDORS FOR BREACH OF WARRANTY OR OTHER REPRESENTATIONS RESPECTING THE EQUIPMENT. REGARDLESS OF CAUSE, LESSEE WILL NOT ASSERT ANY CLAIM WHATSOEVER AGAINST LESSOR, ITS AFFILIATES, OFFICERS, DIRECTORS OR SHAREHOLDERS FOR LOSS OF ANTICIPATORY PROFITS OR ANY OTHER DIRECT, INDIRECT, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES. NOR SHALL LESSOR BE RESPONSIBLE FOR ANY DAMAGES OR COSTS WHICH MAY BE ASSESSED AGAINST LESSEE IN ANY ACTION

AMERICAN OVERSIGHT
Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-20100899AA001388XXX-XX

FOR INFRINGEMENT. LESSOR MAKES NO WARRANTY AS TO THE TREATMENT OF THIS LEASE FOR TAX OR ACCOUNTING PURPOSES. NOTWITHSTANDING ANY FEES WHICH MAY BE PAID BY LESSOR TO SUPPLIER OR ANY AGENT OF SUPPLIER, LESSEE UNDERSTANDS AND AGREES THAT NEITHER SUPPLIER NOR ANY AGENT OF SUPPLIER IS AN AGENT OF LESSOR OR IS AUTHORIZED TO WAIVE OR ALTER ANY TERM OR CONDITION OF THIS LEASE. PROVIDED THE LESSEE IS NOT IN DEFAULT UNDER THE LEASE, ALL WARRANTIES FROM SUPPLIER TO LESSOR ARE HEREBY ASSIGNED TO LESSEE.

5. **TITLE; PERSONAL PROPERTY.** The Equipment is, and shall at all times be owned by Lessor and Lessee shall have no interest in the Equipment except that of Lessee and Lessee shall have no right to purchase or otherwise acquire title to or ownership of any of the Equipment. If Lessor supplies Lessee with labels indicating that the Equipment is owned by Lessor, Lessee shall affix such labels to the Equipment. Lessee hereby authorizes Lessor to insert in this Lease the serial numbers, and other identification data of Equipment when determined by Lessor. To protect Lessor's rights in the Equipment in the event this Lease is determined to be a security agreement, Lessee hereby grants to Lessor a security interest in the Equipment described herein and in the Schedules, as well as all equipment and other assets that are the subject of all other financings by us and our affiliates or in any invoices that contain descriptions of the Equipment, and all proceeds and products thereof. Lessee hereby authorizes Lessor, at Lessee's expense, to cause this Lease, or any statement or other instrument in respect of this Lease showing the interest of Lessor in the Equipment, including Uniform Commercial Code financing statements, to be filed or recorded, and grants Lessor and its agents the right to execute Lessee's name thereon. Lessee agrees to execute, deliver and file any statement or instrument requested by Lessor for such purpose, and if certificates of title are issued or outstanding with respect to any of the Equipment, Lessee will cause the interest of Lessor to be properly noted thereon, and agrees to pay or reimburse Lessor for any searches, filings, recordings, stamp fees or taxes related to the filing or recording of any such instrument or statement, plus Lessor's handling charges. Lessee shall, at its expense, protect and defend Lessor's title against all persons claiming against or through Lessee, at all times keeping the Equipment free from any legal process or encumbrance whatsoever including but not limited to liens, attachments, levies and executions, and shall give Lessor immediate written notice thereof and shall indemnify Lessor from any loss caused thereby. Lessee shall, upon Lessor's request, execute or obtain from third parties and deliver to Lessor such estoppel certificates, landlord's waivers and such further instruments and assurances as Lessor deems necessary or advisable for the confirmation or perfection of Lessor's rights hereunder. The Equipment is, and shall at all times be and remain, personal property notwithstanding that the Equipment or any part thereof may now be or hereafter become, in any manner, affixed or attached to real property or any improvements thereon.

6. **MAINTENANCE, USE AND LOCATION.** Lessee shall, at its own cost and expense, maintain the Equipment in good operating condition and repair and protect the Equipment from deterioration other than normal wear and tear; the Equipment is to be used for business purposes only in the regular course of its business, within its normal operating capacity, without abuse; shall comply with all laws, ordinances, regulations, requirements and rules with respect to the use, maintenance and operation of the Equipment; shall not make any modification, alteration or addition to the Equipment without the prior written consent of Lessor, which shall not be unreasonably withheld, except for engineering changes recommended by and made by the manufacturer; shall install on the Equipment all engineering changes offered by the manufacturer without charge which enhance the safety of the Equipment; shall not so affix the Equipment to realty as to change its nature to real property or a fixture; and shall keep the Equipment at the location shown herein, and shall not remove the Equipment without prior written consent of Lessor. Lessee will grant access to the Equipment to Lessor, Lessor's designee, and the manufacturer during normal working hours for inspection, repair, preventative maintenance, installation of engineering changes and for any other reasonable purpose. Lessee shall during the term of this Lease, at its own expense, enter into and maintain in force a contract with the manufacturer or other acceptable maintenance company covering the maintenance of the Equipment and furnish a copy thereof to Lessor upon request. If Lessor incurs any costs or expenses to bring the Equipment up to good working order and appearance, Lessee shall immediately reimburse Lessor for all such costs or expenses.

7. **REDELIVERY; RENEWAL TERM.** No more than 180 days but not less than 120 days prior to the end of the initial term or 90 days prior to the end o any renewal term of this Lease, Lessee shall give Lessor written notice of Lessee's intent to return the Equipment. Within ten (10) days of expiration or earlier termination of this Lease, Lessee shall return the Equipment and all cable, wiring, connectors, accessories and attachments thereto, freight and insurance prepaid, to Lessor in good repair, condition and working order, ordinary wear and tear resulting from proper use thereof only excepted. Lessee shall have the Equipment certified as acceptable for the manufacturer's standard maintenance contract and such certification shall be presented to Lessor at least fourteen (14) days prior to redelivery to Lessor. Lessor shall have the right, by notice to Lessee, and at Lessee's cost, to make all arrangements for the discontinuance, disassembly, packing and transportation of each item of Equipment and to designate a redelivery location. If Lessee fails to give Lessor the required notice or to return the Equipment as provided herein, at Lessor's option, this Lease shall renew for additional terms of 120 days each at a periodic rent equal to the periodic rent stated herein. Nothing contained herein is intended to relieve Lessee of its obligations to return the Equipment to Lessor as provided herein or restrict Lessor's right to recover the Equipment in the event of the failure of Lessee to so return the Equipment at the expiration or termination of this Lease. If requested by Lessor, Lessee shall store the Equipment at Lessee's premises for a period of up to ninety (90) days at no cost to Lessor.

8. **RISK OF LOSS.** Lessee is responsible for installing and keeping the Equipment in good working order. Except for ordinary wear and tear, Lessee is responsible for protecting the Equipment from damage and loss of any kind from date of shipment to Lessee until its return to Lessor. **THE OCCURRENCE OF ANY SUCH LOSS OR DAMAGE SHALL NOT RELIEVE LESSEE OF ANY OBLIGATION HEREUNDER.** Lessee shall immediately notify Lessor of any damage to or destruction of the Equipment. In the event of loss or damage, Lessee, at Lessor's sole option, shall (a) promptly cause the damaged Equipment to be repaired to the condition it is required to be maintained under this Lease, in which case Lessee agrees to continue to pay rental payments; or (b) replace lost or unrepairable damaged Equipment with substantially identical Equipment in good condition and working order with documentation creating clear title thereto in Lessor or (c) pay to Lessor the present value of the unpaid balance of the rent to become du under this Lease plus Lessor's anticipated residual value of the Equipment at the scheduled expiration of this Lease, all discounted at six (6%) percent per annum to the date of loss. Upon Lessor's receipt of replacement Equipment or payment as provided in (b) or (c) hereof, Lessee and/or Lessee's insurer shal be entitled to Lessor's interest in said item for salvage purposes, in its then condition and location, without warranty, express or implied.

9. **INSURANCE.** Lessee agrees, during the term of this Lease, to keep the Equipment fully insured against damage and loss, from every cause whatsoev for not less than the full replacement value thereof, and to obtain a general public liability insurance policy, in each case from an insurer or insur reasonably satisfactory to Lessor, naming Lessor and its assigns as loss payees and additional insureds. Lessee agrees to provide Lessor with certificate other evidence of such insurance. If Lessee fails to obtain such insurance or to provide evidence thereof to Lessor, Lessee agrees that Lessor may, but s not be obligated to, obtain such insurance on Lessee's behalf and charge Lessee for all costs and expenses associated therewith. Without limiting generality of the foregoing, Lessee specifically acknowledges and agrees that if Lessor obtains such insurance on Lessee's behalf, Lessee will be require pay a monthly insurance charge consisting of reimbursement for premiums advanced to the insurer, finance charges on the unreimbursed balance of s premiums at a rate of 16% per annum and a fee of $5.00. Lessor, its assignees and/or affiliates receive a portion of the insurance charges which may incl a profit from such charges.

AMERICAN OVERSIGHT

10. TAXES AND CHARGES. This Lease is intended to be a net lease, and all payments hereunder are intended to be net to Lessor to the extent permitted by applicable law. Lessee shall pay directly (or, at Lessor's option, reimburse Lessor for) all license fees, assessments and other government charges, and all sales, use, excise, franchise, personal property and any other similar tax or taxes (herein collectively called "Charges") now or hereafter imposed, levied or assessed by any state, federal or local government or agency upon any of the Equipment or upon the leasing, purchase, ownership, use, possession, financing or operation thereof, or upon the receipt of rental payments therefore, even if Lessee's status provides for its exemption from the Charges (excluding income and gross receipt taxes on rental payments, except any such tax on rental payments which is a substitution for, or relieves Lessee from, the payment of taxes which Lessee would otherwise be obligated to pay or reimburse Lessor as herein provided) before the same shall become in default or subject to the payment of any penalty or interest. Lessee shall supply Lessor with receipts or other evidence of payment of all Charges as may reasonably be requested by Lessor. Lessee shall further comply with all state and local laws requiring the filing of ad valorem or other tax returns relating to any Charges. Lessee shall notify the Lessor of the imposition of, or, to Lessee's knowledge, the proposed imposition of, any Charges by supplying to Lessor (within five (5) days after receipt thereof by Lessee) a copy of the invoice or other documents respecting such Charges. Unless otherwise directed by Lessor in writing, Lessor shall pay all personal property taxes with respect to the Equipment and Lessee shall reimburse Lessor therefore upon demand.

11. LEASE IRREVOCABILITY AND OTHER COVENANTS AND REPRESENTATIONS OF LESSEE. Lessee agrees that this Lease is irrevocable for the full term hereof and the Lessee's obligations under this Lease are absolute and shall continue without abatement and regardless of any disability of Lessee to use the Equipment or any part thereof because of any reason including, but not limited to war, act of God, governmental regulations, strike, loss, damage, destruction, obsolescence, failure of or delay in delivery, failure of the Equipment to operate properly, termination by operation of law, or any other cause. Lessee represents that this Lease has been duly authorized by all necessary action on its part, is a valid, binding and legally enforceable obligation of Lessee in accordance with its terms and is not in any respect inconsistent with Lessee's Charter or By-Laws or any law, regulation, order or agreement binding upon Lessee; and the Equipment shall be used by Lessee solely for business purposes and that all financial and other information submitted to Lessor was and will be true and correct.

12. INDEMNITY. Lessee shall indemnify and hold Lessor harmless from and against any and all claims, actions, suits, proceedings, costs, expenses, damages and liabilities, pre and post judgment attorneys' fees and costs, arising out of, connected with, or resulting from the Equipment or this Lease, including without limitation, the manufacture, selection, delivery, possession, use, lease, operation, removal or return of the Equipment.

13. DEFAULT AND REMEDIES. A. The occurrence of any one of the following events shall be deemed an "Event of Default" under this Lease: (a) Lessee fails to pay any rent or any other payment hereunder when due; or (b) Lessee fails to pay, when due, any indebtedness to Lessor arising independently of this Lease, including but not limited to, any other financings between Lessee or any affiliate of Lessor and Lessee, and such default shall continue for five (5) days; or (c) Lessee fails to perform any of the terms, covenants or conditions of this Lease or any other financing between Lessor or any affiliate of Lessor and Lessee, other than as provided in (a) or (b) above, and such failure continues after ten (10) days written notice; or (d) any representation of Lessee contained in this Lease or any other related agreement, or in any credit or other information submitted to Lessor in connection with this transaction is untrue or incorrect; or (e) Lessee sells substantially all of its assets out of the ordinary course of business, merges or consolidates with any other person, or, sustains a change in its ownership of more than 20% in the aggregate; or (f) Lessee becomes insolvent or makes an assignment for the benefit of creditors; or (g) a receiver, trustee, conservator or liquidator of Lessee or of all or a substantial part of its assets is appointed with or without the application or consent of Lessee; or (h) a petition is filed by or against Lessee under the Bankruptcy Code or any amendment thereto, or under any other insolvency law or laws, providing for the relief to debtors; or (i) Lessee sustains a material adverse change in its condition (financial or otherwise); or (j) there is a default under any agreement which supports or is related to this Lease.

B. Upon an Event of Default, Lessor may, to the extent permitted by applicable law, exercise any one or more of the following remedies:

(i) Terminate this Lease with respect to all or any part of Equipment;

(ii) Recover from Lessee all rent and other amounts then due and as they shall thereafter become due hereunder;

(iii) Take possession of any or all items of Equipment on any Schedule, wherever the same may be located, without demand or notice, without any court order or other process of law and without liability to Lessee for any damages occasioned by such taking of possession, and any such taking of possession shall not constitute a termination of this Lease;

(iv) Declare the entire unpaid balance of rent and other amounts for the unexpired term of this Lease immediately due and payable and recover from Lessee, with respect to any and all Items of Equipment and with or without repossessing the Equipment the sum of:

1. The unpaid balance of all rent and other amounts due for the balance of the term of this Lease, discounted at four (4%) percent per annum; and,

2. Lessor's anticipated residual recovery from the Equipment at the scheduled expiration of the initial term of this Lease, discounted at four (4%) percent per annum; provided, however, that upon repossession or surrender of Equipment, Lessor may sell, lease or otherwise dispose of Equipment in a commercially reasonable manner, with or without notice and on public or private bid, and if so, shall apply the net proceeds thereof (after deducting all expenses, including attorneys' fees and costs incurred in connection therewith), to the sum of (1) and (2) above;

(v) Declare any other financings between Lessor or any affiliate of Lessor and Lessee in default and exercise with respect thereto and the collateral which is the subject thereof any of the remedies provided for herein;

(vi) Pursue any other remedy available at law or in equity, including but not limited to seeking damages or specific performance and/or obtaining an injunction.

C. Lessee shall be liable and shall pay to Lessor all expenses incurred by Lessor in connection with the pre and post judgment enforcement of any of the Lessor's remedies, including all expenses of repossessing, storing, shipping, repairing, and selling the Equipment and/or other collateral, and Lessor's reasonable attorneys' fees and costs. Lessor and Lessee acknowledge the difficulty in establishing a value for the unexpired lease term and owing to such difficulty agree that the provisions of this paragraph 13 represent an agreed measure of damages and are not to be deemed a forfeiture or penalty.

D. All remedies of Lessor hereunder are cumulative, are in addition to any other remedies provided for by law, and may, to the extent permitted by law, be exercised concurrently or separately. The exercise of any one remedy shall not be deemed to be an election of such remedy or to preclude the exercise of a other remedy. No failure on the part of the Lessor to exercise and no delay in exercising any right or remedy shall operate as a waiver thereof or modify th terms of this Lease. A waiver of default shall not be a waiver of any other or subsequent default. If this Lease is determined to be subject to any laws limiting the amount chargeable or collectible by Lessor then Lessor's recovery shall in no event exceed the maximum amounts permitted by law.

AMERICAN OVERSIGHT

14. ASSIGNMENT, WAIVER OF DEFENSES; QUIET ENJOYMENT. LESSEE SHALL NOT ASSIGN, TRANSFER, PLEDGE, OR OTHERWISE DISPOSE OF THIS LEASE OR ANY INTERESTS HEREUNDER NOR SUBLET OR LEND EQUIPMENT OR PERMIT IT TO BE USED BY ANYONE OTHER THAN LESSEE OR LESSEE'S EMPLOYEES WITHOUT LESSOR'S PRIOR WRITTEN CONSENT. Lessor may, without notice or consent, assign or transfer this Lease or grant a security interest in any Equipment, any rentals, or any other sums due or to become due hereunder, and in such event Lessor's assignee, transferee or grantee shall have all the rights, powers, privileges, and remedies of Lessor hereunder. Lessee agrees that, following its receipt of notice of any assignment by Lessor of this Lease or the Rental Payments payable hereunder, it will pay the Rental Payments due hereunder directly to the assignee (or to whomever the assignee shall designate). Lessee agrees that no assignee of Lessor shall be bound to perform any duty, covenant, condition or warranty attributable to Lessor, and Lessee further agrees not to raise any claim or defense arising out of this Lease or otherwise which it may have against Lessor as a defense, counterclaim, or offset to any action by an assignee or secured party hereunder. Upon Lessor's request, Lessee will acknowledge to any assignee receipt of Lessor's notice of assignment. Nothing contained herein is intended to relieve Lessor of any of its obligations. Provided Lessee is not in default hereunder, Lessee shall quietly use and enjoy the Equipment, subject to the terms hereof.

15. PERFORMANCE BY LESSOR OF LESSEE'S OBLIGATIONS. In the event Lessee fails to comply with any provisions of this Lease, Lessor shall have the right, but shall not be obligated, to effect such compliance on behalf of Lessee upon ten (10) days prior written notice to Lessee. In such event, all monies expended by, and all expenses of Lessor in effecting such compliance shall be deemed to be additional rent and shall be paid by Lessee to Lessor at the time of the next rent payment.

16. GOVERNING LAW; JURISDICTION AND VENUE; WAIVER OF TRIAL BY JURY AND RIGHTS AND REMEDIES UNDER THE UNIFORM COMMERCIAL CODE. (A) This Lease is governed by the laws of the State of New Jersey, but only to the extent such state law is not preempted by federal law or regulation. (B) Lessee consents to the personal jurisdiction to the federal and state courts of the State of New Jersey with respect to any action arising out of this Lease or the Equipment, provided, however, Lessor may, in its sole discretion, believe this Lease in any court having lawful jurisdiction thereof. This means any legal action arising out of this Lease may be filed in New Jersey, and Lessee may be required to defend and litigate any such action in New Jersey. (C) To the extent permitted by law, Lessee waives trial by jury in any action related to or arising out of this Lease or the Equipment by or against Lessor hereunder. LESSEE HEREBY WAIVES ANY AND ALL RIGHTS AND REMEDIES GRANTED LESSEE BY SECTIONS 2A-508 THROUGH 2A-522 OF THE UNIFORM COMMERCIAL CODE. LESSEE WAIVES THE RIGHT TO FILE ANY AMENDMENTS OR TERMINATIONS OF FINANCING STATEMENTS WITHOUT LESSOR'S SIGNATURE.

17. FINANCIAL STATEMENTS. Lessee agrees to deliver to Lessor annual financial statements and such quarterly financial statements, in form and substance as Lessor requests.

18. GENERAL. This Lease shall inure to the benefit of and is binding upon the heirs, personal representatives, successors and assigns of the parties hereto. Time is of the essence of this Lease. This Lease and any Schedule shall be effective when executed by a duly authorized officer of Lessor. This Lease and any Schedule contains the entire agreement between Lessor and Lessee with respect to the subject matter hereof, and all negotiations and understandings have been merged herein. No modification of this Lease shall be effective unless in writing and executed by an executive officer of Lessor. All covenants and obligations of Lessee to be performed pursuant to this Lease, including all payments to be made by Lessee hereunder, shall survive the expiration or earlier termination of this Lease. If more than one Lessee is named in this Lease, the liability of each shall be joint and several. In the event any provision of this Lease shall be unenforceable, then such provision shall be deemed deleted, however, all other provisions hereof shall remain in full force and effect. Service of all notices under this Lease shall be sufficient if given personally, mailed to the party intended at its address set forth herein, or at such other address as said party may provide in writing from time to time by certified mail, or overnight mail service. Any such notice sent by certified mail to said address shall be deemed effective five (5) days after it is deposited in the United States mail, duly addressed and with postage prepaid, and any notice given by delivery or overnight mail shall be deemed effective when received. The Lessee agrees and stipulates that such reproduction of this Lease (by photocopy, facsimile or otherwise) shall, to the extent permitted by applicable law, be admissible in evidence as the original itself in any judicial or administrative proceeding (whether or not the original is in existence and whether or not the reproduction was made by the Lessor in the regular course of business).

IN WITNESS WHEREOF, the parties have executed this Lease as of , 2006.

EQUIPMENT SCHEDULE NO. 002

This Equipment Schedule No. 002 ("Equipment Schedule") to that certain Master Lease Agreement Number 122081 (hereinafter called the "Master Lease") between Lessor and the Lessee whose name appears below, together with the Master Lease, constitutes a lease of the Equipment described below (hereinafter, collectively, this "Lease"). All the terms and conditions of the Master Lease are incorporated herein as if all said terms and conditions were fully set forth herein. All capitalized terms used but not defined herein shall have the meanings given such terms in the Master Lease. It is the intent of the parties that this Equipment Schedule be separately enforceable as a complete and independent lease, independent of all other Equipment Schedules to the Master Lease.

LESSEE: OMNI HEALTHCARE, P.A. 95 Bulldog Boulevard, Suite 100 Melbourne, FL 32901	SUPPLIER: RHYTEC, INC. 1000 Winter Street, Suite 3600 Waltham, MA 02451

QTY	DESCRIPTION OF EQUIPMENT (Indicate If Used Equipment) (SERIAL NO.)	(MODEL NO.)
One (1)	Skin Resurfacing Laser	

EQUIPMENT LOCATION IF DIFFERENT THAN ABOVE:
Ross Clevens, MD, FACS/Center for Facial Plastic Surger
Omni Healthcare, P.A.
1344 S. Apollo Boulevard
Melbourne, FL 32901

INITIAL TERM OF LEASE	RENTAL PAYMENTS PAYABLE	TOTAL NO. AND AMOUNT OF EACH RENTAL PAYMENT DURING INITIAL TERM OF LEASE	ADVANCE RENTAL PAYMENT TO BE APPLIED TO	SECURITY DEPOSIT
36 MONTHS	PERIODICALLY AS FOLLOWS _x_ MONTHLY __ QUARTERLY __ OTHER	36 Monthly Payments of $1,805.18	THE FIRST $1,805.18 MONTH(S) AND THE LAST $0.00 MONTH(S) RENTAL PAYMENTS TOTALING $1,805.18 (ADVANCE PAYMENTS MUST ACCOMPANY LEASE APPLICATION)	$N/A

Monthly Rent: The first payment of monthly rent is due and payable on the Commencement Date. Subsequent payments of monthly rent are due and payable on the first day of each succeeding month.

Chattel Paper: To the extent this Lease may be considered "chattel paper" as defined in the Uniform Commercial Code, only Counterpart Number One of any of the manually executed counterparts of this Equipment Schedule incorporating the terms of the Master Lease Agreement, shall constitute the original of this Lease, and no interest in this Lease may be created or transferred except by transfer of possession of that counterpart.

End Of Term Option: Provided no Event of Default exists uncured and notwithstanding anything contained in the Lease to the contrary, Lessor hereby grants to Lessee the option to purchase the equipment subject to the Lease (the "Equipment") at the end of the initial term of the Lease for $1.00 (the "Purchase Option") upon providing the Lessor with 180 days written notice. IF THE PURCHASE OPTION IS EXERCISED, THE EQUIPMENT WILL BE SOLD BY LESSOR TO LESSEE "AS IS, WHERE IS", WITHOUT ANY WARRANTY, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR TITLE.

Rental Payments: The rental payments are predicated on the current like-term interest SWAP Rate of 4.83% as of 11/21/05. The final rate (and payment) will be adjusted upward or downward and will fix upon the commencement of the Lease, based upon changes in the current like term Interest SWAP Rates in effect at that time. Interest SWAP Rates are as defined on November 14, 2001 in the Federal Reserve Statistical Release H-15 report. Current Interest SWAP Rates are published daily and can be found at:

http://www.federalreserve.gov/releases/H15/update/h15upd.htm.

Maintenance/Supplies/Services: Lessee agrees to pay the monthly payments under this Lease which may include charges (the "Charges") for supplies ("Supplies"), maintenance and/or warranty services (collectively the "Services") to be furnished by Supplier to Lessee for use with the Equipment. Lessee agrees that Lessor is not a manufacturer or supplier of the Supplies or Services and Lessee will look only to Supplier for the furnishing of Supplies and the performance of Services. Lessee further agrees that its obligations under this Lease are unconditional notwithstanding any breach by Supplier of any obligation to Lessee to furnish the Supplies and/or provide the Services.

AMERICAN OVERSIGHT

Bank of America

Banc of America Leasing & Capital, LLC — Master Lease Agreement Number: 17382-90000

This Master Lease Agreement, dated as of April 13, 2007 (this "Agreement"), is by and between Banc of America Leasing & Capital, LLC, a Delaware limited liability company having an office at 2059 Northlake Parkway, 4 South, Tucker, GA 30084 (together with its successors and assigns, "Lessor"), and Surgery Center of Brevard, Inc. as "Lessee", a Corporation existing under the laws of the state of Florida and having its chief executive office and any organizational identification number as specified with its execution of this Agreement below. Certain defined terms used herein are identified in bold face and quotation marks throughout this Agreement and in Section 15 below. This Agreement sets forth the terms and conditions for the lease of Equipment between Lessor and Lessee pursuant to one or more "Schedules" incorporating by reference the terms of this Agreement, together with all exhibits, addenda, schedules, certificates, riders and other documents and instruments executed and delivered in connection with such Schedule (as amended from time to time, a "Lease"). Each Lease constitutes a separate, distinct and independent lease of Equipment and contractual obligations of Lessee. This Agreement is not an agreement or commitment by Lessor or Lessee to enter into any future Leases or other agreements, or for Lessor to provide any financial accommodations to Lessee. Lessor shall not be obligated under any circumstances to advance any progress payments or other funds for any Equipment or to enter into any Lease if there shall have occurred a material adverse change in the operations, business, properties or condition, financial or otherwise, of Lessee or any Guarantor. This Agreement and each Lease shall become effective only upon Lessor's acceptance and execution thereof at its corporate offices set forth above.

1. **Lease; Term; Non-Interference.** Lessor and Lessee agree to lease Equipment described in Schedules entered into from time to time, together with all other documentation from Lessee required by Lessor with respect to such Lease. Upon receipt of any item or group of Equipment intended for Lease hereunder, Lessee shall execute a Schedule, with all information fully completed and irrevocably accepting such Equipment for Lease, and deliver such Schedule to Lessor for its review and acceptance. Provided no Event of Default has occurred, Lessee shall be entitled to use and possess the Equipment during the original Lease Term provided in the Schedule (together with any extensions or renewals thereof in accordance with terms of the Lease, the "Lease Term") free from interference by any person claiming by, through or under Lessor.

2. **Rent.** "Rent" shall be payable to Lessor during the Lease Term in the amounts and at the times provided in the Schedule. If any Rent or other amount payable hereunder is not paid within 10 days of its due date, Lessee shall pay an administrative late charge of 5% of the amount not timely paid. All Rent and other amounts payable under a Lease shall be made in immediately available funds at Lessor's address above or such other place as Lessor shall specify in writing. Unless otherwise provided herein, payments received under any Lease will be applied to all interest, fees and amounts owing thereunder (other than Rent), and then to Rent payable thereunder.

3. **Net Lease; Disclaimer Of Warranties.** Each Lease is a net lease and a "finance lease" under Article 2A of the UCC, and Lessee waives all rights and remedies Lessee may have under sections 2A-508 – 2A-522 thereof, including any right to cancel or repudiate any Lease or to reject or revoke acceptance of any Equipment. Upon the "Acceptance Date" provided in the Schedule for each Lease, Lessee's Obligations thereunder (i) shall be non-cancelable, absolute and unconditional under all circumstances for the entire Lease Term, (ii) shall be unaffected by the loss or destruction of any Equipment, and (iii) shall not be subject to any abatement, deferment, reduction, set-off, counterclaim, recoupment or defense for any reason whatsoever. LESSOR IS NOT A VENDOR OR AGENT OF THE EQUIPMENT VENDOR AND HAS NOT ENGAGED IN THE SALE OR DISTRIBUTION OF ANY EQUIPMENT. LESSOR MAKES NO EXPRESS OR IMPLIED REPRESENTATIONS OR WARRANTIES AS TO TITLE, MERCHANTABILITY, PERFORMANCE, CONDITION, EXISTENCE, FITNESS OR SUITABILITY FOR LESSEE'S PURPOSES OF ANY EQUIPMENT, PATENT, TRADEMARK OR COPYRIGHT INFRINGEMENTS, THE CONFORMITY OF THE EQUIPMENT TO THE DESCRIPTION THEREOF IN ANY LEASE, OR ANY OTHER REPRESENTATION OR WARRANTY OF ANY KIND WITH RESPECT TO THE EQUIPMENT. If Equipment is not delivered or properly installed, does not operate as warranted, becomes obsolete, or is unsatisfactory for any reason, Lessee shall make all claims on account thereof solely against Vendor and not against Lessor. Lessee is solely responsible for the selection, shipment, delivery and installation of the Equipment and its Vendors, expressly disclaims any reliance upon any statements or representations made by Lessor in connection therewith, and has received and approved the terms of any purchase orders, warranties, licenses or agreements with respect to the Equipment. During the Lease Term, Lessee shall be entitled, on a non-exclusive basis, to enforce any applicable Vendor warranties, to the extent permitted thereby and by applicable law. Lessor assigns such warranties to Lessee, to the extent permitted thereby, and agrees to cooperate with Lessee, at Lessee's sole cost and expense, in making any reasonable claim against such Vendor arising from any defect in the Equipment.

4. **Use; Maintenance; Location; Inspection.** Lessee shall: (i) use, operate, protect and maintain the Equipment (a) in good operating order, repair, condition and appearance, in the same condition as when received, ordinary wear and tear excepted, (b) consistent with prudent industry practice (but in no event less than the extent to which Lessee maintains other similar equipment in the prudent management of its assets and properties), and (c) in compliance with all applicable insurance policies, laws, ordinances, rules, regulations and manufacturer's recommended maintenance and repair procedures, and (ii) maintain comprehensive books and records regarding the use, operation, maintenance and repair of the Equipment. The Equipment shall be used only within the 48 contiguous United States, solely for business purposes (and not for any consumer, personal, home, or family purpose), and shall not be abandoned or used for any unlawful purpose. Lessee shall not discontinue use of any Equipment except for normal maintenance nor, through modifications, alterations or otherwise, impair the current or residual value, useful life, utility or originally intended function of any Equipment without Lessor's prior consent. Any replacement or substitution of parts, improvements, upgrades, or additions to the Equipment during the Lease Term shall be the property of Lessor and subject to the Lease, except that if no Event of Default exists, Lessee may at its expense remove improvements or additions provided by Lessee that can be readily removed without impairing the value, function or remaining useful life of the Equipment. If requested by Lessor, Lessee shall cause Equipment to be plainly marked to disclose Lessor's ownership, as specified by Lessor. Lessee shall not change the location or, in the case of over-the-road vehicles, the base of any Equipment specified in its Schedule without Lessor's prior written consent. Lessor shall have the right to enter any premises where Equipment is located and inspect it (together with related books and records) at any reasonable time.

AMERICAN OVERSIGHT

5. Loss and Damage. Lessee assumes all risk of (and shall promptly notify Lessor in writing of any occurrence of) any damage to or loss, theft, confiscation or destruction of any Equipment from any cause whatsoever (a "Casualty") from the date shipped or otherwise made available to Lessee and continuing until it is returned to and accepted by Lessor in the condition required by the Lease, including Section 8 of this Agreement. If any Equipment suffers a Casualty which Lessor determines is repairable, Lessee shall at its expense promptly place the same in good repair, condition or working order. If any Equipment suffers a Casualty which Lessor determines is beyond repair or materially impairs its residual value (a "Total Loss"), Lessee shall at Lessor's option either (a) promptly replace such Equipment with a similar item reasonably acceptable to Lessor having an equivalent value, utility and remaining useful life of such Equipment, whereupon such replacement items shall constitute Equipment for all purposes the Lease, or (b) on the Rent payment date following such Casualty (or, if none, within 30 days) pay Lessor the Stipulated Loss Value for such Equipment, together with all Rent scheduled for payment on such date, and all accrued interest, late charges and other amounts then due and owing under the Lease. Upon such payment following a Total Loss, the Lease with respect to the Equipment suffering a Total Loss shall terminate, and Lessor shall transfer all of its right, title and interest in such Equipment, free from all liens and encumbrances created by Lessor, but otherwise on an "AS-IS, WHERE-IS," quitclaim basis. If less than all Equipment under a Schedule suffers a Total Loss, (i) the Stipulated Loss Value with respect to any such item of Equipment shall be calculated by reference to the allocable portion of "Lessor's Cost" provided in the applicable Schedule, Rent or other amount related to such item, as reasonably determined by Lessor, and (ii) the remaining Rent under the Schedule shall be proportionately reduced as reasonably calculated by Lessor upon Lessor's receipt of the payments described above.

6. Insurance. Lessee, at its own expense, shall keep each item of Equipment insured against all risks for its replacement value, and in no event less than its Stipulated Loss Value, and shall maintain public liability and, with respect to Equipment that is over-the-road vehicles, automotive liability insurance against such risks and for such amounts as Lessor may require. All such insurance shall (a) be with companies rated "A-" or better by A.M. Best Company, in such form as Lessor shall approve, (b) specify Lessor and Lessee as insureds and provide that it may not be canceled or altered in any way that would affect the interest of Lessor without at least 30 days' prior written notice to Lessor (10 days' in the case of nonpayment of premium), (c) be primary, without right of contribution from any other insurance carried by Lessor and contain waiver of subrogation and "breach of warranty" provisions satisfactory to Lessor, (d) provide that all amounts payable by reason of loss or damage to Equipment shall be payable solely to Lessor, unless Lessor otherwise agrees, and (e) contain such other endorsements as Lessor may reasonably require. Lessee shall provide Lessor with evidence satisfactory to Lessor of the required insurance upon the execution of any Schedule and promptly upon any renewal of any required policy.

7. Indemnities; Taxes. Lessee's indemnity and reimbursement obligations set forth below shall survive the cancellation, termination or expiration of any Lease or this Agreement.

(a) General Indemnity. Lessee shall indemnify, on an after-tax basis, defend and hold harmless Lessor and its respective officers, directors, employees, agents and Affiliates ("Indemnified Persons") against all claims, liabilities, losses and expenses whatsoever (except those determined by final decision of a court of competent jurisdiction to have been directly and primarily caused by the Indemnified Person's gross negligence or willful misconduct), including court costs and reasonable attorneys' fees and expenses (together, "Attorneys' Fees"), in any way relating to or arising out of the Equipment or any Lease at any time, or the ordering, acquisition, rejection, installation, possession, maintenance, use, ownership, condition, destruction or return of the Equipment, including any claims based in negligence, strict liability in tort, environmental liability or infringement.

(b) General Tax Indemnity. Lessee shall pay or reimburse Lessor, and indemnify, defend and hold Lessor harmless from, on an after-tax basis, all taxes, assessments, fees and other governmental charges paid or required to be paid by Lessor or Lessee in any way arising out of or related to the Equipment or any Lease before or during the Lease Term or after the Lease Term following an Event of Default, including foreign, Federal, state, county and municipal fees, taxes and assessments, and property, value-added, sales, use, gross receipts, excise, stamp and documentary taxes, and all related penalties, fines, additions to tax and interest charges ("Impositions"), excluding only Federal and state taxes based on Lessor's net income to/to such taxes are in lieu of any Imposition Lessee would otherwise be required to pay hereunder. Lessee shall timely pay any Imposition for which Lessee is primarily responsible under law and any other Imposition not payable or not paid by Lessor, but Lessee shall have no obligation to pay any Imposition being contested in good faith and by appropriate legal proceedings, the nonpayment of which does not, in the opinion of Lessor, result in a material risk of adverse effect on the title, property, use, disposition or other rights of Lessor with respect to the Equipment. Upon Lessor's request, Lessee shall furnish proof of its payment of any Imposition.

(c) Income Tax Indemnity. Lessor shall be treated for federal and state income tax purposes as the owner of the Equipment and shall be entitled to take into account certain Tax Benefits in computing its income tax liabilities in connection with any Lease. If Lessor suffers a Tax Loss by reason of any act or failure to act by Lessee, or Lessee's breach of any representation, warranty or agreement in any Lease then, upon Lessor's demand and at Lessor's option, either: (i) all Basic Rent under the Lease, if any, shall be increased by an amount, or (ii) Lessee shall pay Lessor a lump sum amount, which in either case shall maintain the net economic after-tax yield, cash-flow and rate of return Lessor originally anticipated, based on Lessor's federal and state corporate income tax rate in effect on the Acceptance Date of the applicable Schedule and other assumptions originally used by Lessor in evaluating the transaction and setting the Rent therefor and other terms thereof. Lessee shall also pay Lessor on demand all interest, costs (including Attorneys' Fees), penalties and additions to tax associated with the Tax Loss. Lessor shall have no obligation to contest any Tax Loss. All references to "Lessor" in this Section 7(c) shall include (A) Lessor's successors and Assignees, and (B) each member of the affiliated group of corporations, as defined in Section 1504(a) of the Code, of which Lessor or such successor or Assignee is at any time a member. As used herein: "Tax Benefits" means all items of income, deduction (including depreciation consistent with Lessee's representation in the applicable Schedule), credit, gain or loss relating to ownership of the Equipment as are provided to owners of similar equipment under the Code and applicable state tax laws in effect on the Acceptance Date of such Schedule; and "Tax Loss" means and will be deemed to be suffered if Lessor loses, is delayed in claiming, is required to recapture, is not allowed or may not claim all or any portion of any Tax Benefits, provided, however, that Lessee shall be under no obligation to make any payments with respect to a Tax Loss to the extent that it (1) is caused by Lessor's failure to have sufficient taxable income to benefit from any Tax Benefits, or (2) results from any disposition of Equipment by Lessor other than a disposition of Equipment following an Event of Default.

8. Return. Upon any cancellation, termination or expiration of any Lease (after the occurrence of an Event of Default or otherwise), Lessee shall, at its expense, cause the Equipment to be prepared and adequately protected for shipment by an authorized manufacturer's representative and either surrender it to Lessor in place or, if instructed by Lessor, ship the Equipment to Lessor, freight and insurance pre-paid, to a place designated by Lessor within the 48 contiguous United States, in the condition required under Section 4 hereof and under the applicable Schedule, able to be put into immediate service and to perform at manufacturer's rated levels (if any), together with all related manuals, documents and records, and, if applicable, reassembled by an authorized

manufacturer's representative and immediately qualified for the manufacturer's (or its authorized servicing representative's) then available service contract or warranty. If requested by Lessor, Lessee shall, at its expense: (i) cause the Equipment to qualify for all applicable licenses or permits necessary for its operation and for its intended purpose, and to comply with all specifications and requirements of applicable federal, state and local laws, regulations and ordinances; (ii) provide safe, suitable storage, acceptable to Lessor, for the Equipment for a period not to exceed 90 days from the date of return; and (iii) cooperate with Lessor in attempting to remarket the Equipment, including display and demonstration to prospective parties, and allowing Lessor to conduct a private sale on Lessee's premises. If Lessee does not surrender or return any item of Equipment to Lessor on the date or in the condition required under a Lease, in addition to all other available rights and remedies, at Lessor's election, such Equipment shall continue to be subject to all the terms and conditions of the Lease, with Rent and other charges continuing to accrue and be payable under the Lease with respect to such Equipment until it is so surrendered or returned to Lessor, except that Rent shall accrue at 125% of the last Rent allocable to such item of Equipment (as reasonably calculated by Lessor) during the Lease Term, payable on demand.

9. **Lessee Representations and Agreements.** Lessee represents, warrants and agrees that: (a) Lessee has had for the previous 5 years (except as previously disclosed to Lessor in writing) the legal name and form of business organization in the state described above; (b) Lessee's chief executive office and notice address, taxpayer identification number and any organizational identification number is as described with its execution of this Agreement below; (c) Lessee shall notify Lessor in writing at least 30 days before changing its legal name, state of organization, chief executive office location or organizational identification number; (d) Lessee is duly organized and existing in good standing under the laws of the state described above and all other jurisdictions where legally required in order to carry on its business, shall maintain in good standing in all such jurisdictions, and shall conduct its business and manage its properties in compliance with all applicable laws, rules or regulations binding on Lessee; (e) the execution, delivery and performance of this Agreement, each Lease and Related Agreement to which it is a party has been duly authorized by Lessee, each of which are and will be binding on and enforceable against Lessee in accordance with their terms, and do not and will not contravene any other instrument or agreement binding on Lessee; and (f) there is no pending litigation, tax or environmental claim, proceeding, dispute or regulatory or enforcement action (and Lessee shall promptly notify Lessor of any of the same that may hereafter arise) that may adversely affect any Equipment or Lessee's financial condition or impair its ability to perform its Obligations.

10. **Title; Property; Additional Security.** (a) Title; Personal Property. Each Lease is and is intended to be a lease of personal property for all purposes. Lessee does not acquire any right, title or interest in or to any Equipment, except the right to use and possess the same under the terms of the applicable Lease. Except as specifically provided in the applicable Schedule, Lessee has no right or option to extend the Lease Term of a Lease or purchase any Equipment. Lessee assigns all of its rights (but none of its obligations) to Lessor under any purchase orders, invoices or other contracts of sale with respect to the Equipment, and conveys whatever right, title and interest it may now or hereafter have in any Equipment to Lessor. Lessor shall be the sole owner of Equipment free and clear of all liens or encumbrances, other than Lessee's rights under the Lease. Lessee will not create or permit to exist any lien, security interest, charge or encumbrance on any Equipment except those created by Lessor. The Equipment shall remain personal property at all times, notwithstanding the manner in which it may be affixed to realty. Lessee shall obtain and record such instruments and take such steps as may be necessary to (i) prevent any creditor, landlord, mortgagee or other entity (other than Lessor) from having any lien, charge, security interest or encumbrance on any Equipment, and (ii) ensure Lessor's right of access to and removal of Equipment in accordance with the Lease.

(b) Additional Security. To secure the punctual payment and performance of Lessee's Obligations under each Lease and, as a separate grant of security, to secure the payment and performance of all other Obligations owing to Lessor, Lessee grants to Lessor a continuing security interest in the Collateral, provided, however, that if there then exists no Event of Default, Lessor's security interest in Collateral subject to a Lease shall terminate upon the payment and performance of all Obligations of Lessee under the applicable Lease. Notwithstanding the grant of a security interest in any Collateral, Lessee shall have no right to sell, lease, rent, dispose or surrender possession, use or operation of any Equipment to any third parties without the prior written consent of Lessor. The foregoing grant of a security interest shall not of itself be a factor in determining whether any Lease creates a lease or security interest in the Equipment under applicable provisions of the UCC.

11. **Default.** Each of the following (a "Default") shall, with the giving of any notice or passage of any time period specified, constitute an "Event of Default" hereunder and under all Leases: (1) Lessee fails to pay any Rent or other amount owing under any Lease within 10 days of its due date; (2) Lessee fails to maintain insurance as required herein, or sells, leases, subleases, assigns, conveys, or suffers to exist any lien, charge, security interest or encumbrance on, any Equipment without Lessor's prior consent, or any Equipment is subjected to levy, seizure or attachment; (3) Lessee fails to perform or comply with any other covenant or obligation under any Lease or Related Agreement and, if curable, such failure continues for 30 days after written notice thereof by Lessor to Lessee; (4) any representation, warranty or other written statement made to Lessor by Lessee in connection with this Agreement, any Lease, Related Agreement or other Obligation, or by any Guarantor pursuant to any Guaranty (including financial statements) proves to have been incorrect in any material respect when made; (5) Lessee (w) enters into any merger or consolidation with, or sells or transfers all or any substantial portion of its assets to, or enters into any partnership or joint venture other than in the ordinary course of business with, any entity, (x) dies (if a natural person), dissolves, liquidates or ceases or suspends the conduct of business, or ceases to maintain its existence, (y) if Lessee is a privately held entity, enters into or suffers any transaction or series of transactions as a result of which Lessee is directly or indirectly controlled by persons or entities not directly or indirectly controlling Lessee as of the date hereof, or (z) if Lessee is a publicly held entity, there shall be a change in the ownership of Lessee's stock or other equivalent ownership interest such that Lessee is no longer subject to the reporting requirements of, or no longer has a class of equity securities registered under, the Securities Act of 1933 or the Securities Exchange Act of 1934; (6) Lessee undertakes any general assignment for the benefit of creditors or commences any voluntary case or proceeding for relief under the federal bankruptcy code, or any other law for the relief of debtors, or takes any action to authorize or implement any of the foregoing; (7) the filing of any petition or application against Lessee under any law for the relief of debtors, including proceedings under the federal bankruptcy code, or for the subjection of property of Lessee to the control of any court, receiver or agency for the benefit of creditors if such petition or application is consented to by Lessee or is otherwise not dismissed within 60 days from the date of filing; (8) any default occurs under any other lease, credit or other agreement or instrument to which Lessee and Lessor or any Affiliate of Lessor are now or hereafter party; (9) any default occurs under any other agreement or instrument to which Lessee is a party and under which there is outstanding, owing or committed an aggregate amount greater than $100,000; (10) any attempted repudiation, breach or default of any Guaranty; or (11) the occurrence of any event described in clauses (4) through (9) above with reference to any Guarantor or any controlling shareholder, general partner or member of Lessee. Lessee shall promptly notify Lessor in writing of any Default or Event of Default.

12. Remedies. (a) Upon the occurrence of an Event of Default, Lessor may, in its discretion, exercise any one or more of the following remedies with respect to any or all Leases or Equipment: (1) cause Lessee to promptly discontinue use of or disable any Equipment, or to assemble and return any Equipment or other Collateral in accordance with the terms of the applicable Lease; (2) remedy such Event of Default or proceed by court action, either at law or in equity, to enforce performance of the applicable provisions of any Lease; (3) with or without court order, enter upon the premises where Equipment is located and repossess and remove the same, all without liability for damage to such premises or by reason such entry or repossession, except for Lessor's gross negligence or willful misconduct; (4) dispose of any Equipment in a public or private transaction, or hold, use, operate or keep idle the Equipment, free and clear of any rights or interests of Lessee therein; (5) recover direct, incidental, consequential and other damages for the breach of any Lease, including the payment of all Rent and other amounts payable thereunder (discounted at the Discount Rate with respect to any accelerated future amounts), and all costs and expenses incurred by Lessor in exercising its remedies or enforcing its rights thereunder (including all Attorneys' Fees); (6) by written notice to Lessee, cancel any Lease and, as liquidated damages for the loss of Lessor's bargain and not as a penalty, declare immediately due and payable an amount equal to the Stipulated Loss Value applicable to such Leases which Lessee acknowledges to be reasonable liquidated damages in light of the anticipated harm to Lessor that might be caused by an Event of Default and the facts and circumstances existing as of the Acceptance Date of each Lease; (7) without notice to Lessee, apply or set-off against any Obligations all security deposits, advance payments, proceeds of letters of credit, certificates of deposit (whether or not matured), securities or other additional collateral held by Lessor or otherwise credited by or due from Lessor to Lessee; or (8) pursue all other remedies provided under the UCC or other applicable law. Upon the commencement of any voluntary case under the federal bankruptcy code concerning the Lessee, the remedy provided in clause (6) above shall be automatically exercised without the requirement of prior written notice to Lessee or of any other act or declaration by Lessor, and the liquidated damages described therein shall be immediately due and payable. Lessee shall pay interest equal to the lesser of (a) 12% per annum, or (b) the highest rate permitted by applicable law ("Default Rate") on (i) any amount other than Rent owing under any Lease and not paid when due, (ii) Rent not paid within 30 days of its due date, and (iii) any amount required to be paid upon cancellation of any Lease under this Section 12. Any payments received by Lessor after an Event of Default, including proceeds of any disposition of Equipment, shall be applied in the following order: (A) to all of Lessor's costs (including Attorneys' Fees), charges and expenses incurred in taking, removing, holding, repairing and selling or leasing the Equipment or other Collateral or enforcing the provisions hereof; (B) to the extent not previously paid by Lessee, to pay Lessor for any damages then remaining unpaid hereunder; (C) to reimburse Lessor for any sums previously paid by Lessor as damages hereunder; and (D) the balance, if any, shall be retained by Lessor.

(b) No remedy referred to in this Section 12 shall be exclusive, each shall be cumulative (but not duplicative of recovery of any Obligation) and in addition to any other remedy referred to above or otherwise available to Lessor at law or in equity, and all such remedies shall survive the cancellation of any Lease. Lessor's exercise or partial exercise of, or failure to exercise, any remedy shall not restrict Lessor from further exercise of that remedy or any other available remedy. No extension of time for payment or performance of any Obligation shall operate to release, discharge, modify, change or affect the original liability of Lessee for any Obligations, either in whole or in part. Lessor may proceed against any Collateral or Guarantor, or may proceed contemporaneously or in the first instance against Lessee, in such order and at such times following an Event of Default as Lessor determines in its sole discretion. In any action to repossess any Equipment or other Collateral, Lessee waives any bonds and any surety or security required by any applicable laws as an incident to such repossession. Notices of Lessor's intention to accelerate, acceleration, nonpayment, presentment, protest, dishonor, or any other notice whatsoever (other than notices of Default specifically required of Lessor pursuant to Section 11 above) are waived by Lessee and any Guarantor. Any notice given by Lessor of any disposition of Collateral or other intended action of Lessor which is given in accordance with this Agreement at least 5 business days prior to such action, shall constitute fair and reasonable notice of such action.

13. Assignment. Lessor and any Assignee may assign or transfer any of Lessor's interests in any Lease or Equipment without notice to Lessee, subject, however, to the rights of Lessee to use and possess the Equipment under such Lease for so long as no Event of Default has occurred and is continuing. Lessee agrees that: (i) the rights of any Assignee shall not be affected by any breach or default of Lessor or any prior Assignee, and Lessee shall not assert any defense, rights of set-off or counterclaim against any Assignee, nor hold or attempt to hold such Assignee liable for any such breach or default; (ii) no Assignee shall be required to assume any obligations of Lessor under any Lease except the obligation of non-interference in Section 1 above; (iii) any Assignee expressly assuming the obligations of Lessor shall thereupon be responsible for Lessor's duties under the applicable Lease accruing after assignment and Lessor shall be released from such duties; and (iv) Lessee shall execute and deliver upon request such additional documents, instruments and assurances as Lessor deems necessary in order to (y) acknowledge and confirm all of the terms and conditions of any Lease and Lessor's or such Assignee's rights with respect thereto, and Lessee's compliance with all of the terms and provisions thereof, and (z) preserve, protect and perfect Lessor's or Assignee's right, title or interest hereunder and in any Equipment, including, without limitation, such UCC financing statements or amendments, control agreements, corporate or member resolutions, votes, notices of assignment of interests, and confirmations of Lessee's obligations and representations and warranties with respect thereto as of the dates requested. Lessor may disclose to any potential Assignee any information regarding Lessee, any Guarantor and their Affiliates. Lessee shall not assign, pledge, hypothecate or in any way dispose of any of its rights or obligations under any Lease, or enter into any sublease of any Equipment, without Lessor's prior written consent. Any purported assignment, pledge, hypothecation, disposal or sublease by Lessee made without Lessor's prior written consent shall be null and void.

14. (a) During the term of any Lease, Lessee shall (i) maintain books and records in accordance with generally accepted accounting principles ("GAAP") and prudent business practice, (ii) promptly and in no event later than 120 days after each fiscal year end furnish Lessor company prepared financial statements of Lessee and of any Guarantor, prepared in accordance with GAAP consistently applied, and (iii) at Lessor's request, furnish Lessor all other financial information and reports reasonably requested by Lessor at any time, including tax returns, quarterly or other interim financial statements of Lessee and of any Guarantor. Lessee shall furnish such other information as Lessor may reasonably request at any time concerning Lessee, any Guarantor and their respective affiliates, or any Unit. Lessee shall promptly notify Lessor of any Event of Default or event or circumstance which, with notice, lapse of time or both, would be an Event of Default.

(b) Lessee represents and warrants that all information furnished and to be furnished by Lessee or any Guarantor to Lessor is accurate, and that all financial statements Lessee or any Guarantor has furnished and hereafter may furnish to Lessor reasonably reflect and will reflect, as of their respective dates, results of the operations and the financial condition of Lessee, such Guarantor or any other entity they purport to cover.

(c) Credit and other information regarding Lessee, any Guarantor or their affiliates may be shared by Lessor with its affiliates and agents.

15. Definitions

As used herein, the following terms shall have the meanings assigned or referred to them below:

"Affiliate" means any entity controlling, controlled by or under common control with the referee entity; "control" includes (i) the ownership of 25% or more of the voting stock or other ownership interest of any entity and (ii) the status of a general partner of a partnership or managing member of a limited liability company.

"Assignee" means any assignee or transferee of all or any of Lessor's right, title and interest in any Lease or any Equipment.

"Code" means the Internal Revenue Code of 1986, as amended.

"Collateral" means and includes all of Lessee's right, title and interest in and to all Equipment, together with: (i) all parts, attachments, accessories and accessions to, substitutions and replacements for, each item of Equipment; (ii) all accounts, chattel paper, and general intangibles arising from or related to any sale, lease, rental or other disposition of any Equipment to third parties, or otherwise resulting from the possession, use or operation of any Equipment by third parties, including instruments, investment property, deposit accounts, letter of credit rights, and supporting obligations arising thereunder or in connection therewith; (iii) all insurance, warranty and other claims against third parties with respect to any Equipment; (iv) all software and other intellectual property rights used in connection therewith; (v) proceeds of all of the foregoing, including insurance proceeds and any proceeds in the form of goods, accounts, chattel paper, documents, instruments, general intangibles, investment property, deposit accounts, letter of credit rights and supporting obligations; and (vi) all books and records regarding the foregoing, in each case, now existing or hereafter arising.

"Discount Rate" means the 1-year Treasury Constant Maturity rate as published in the Selected Interest Rates table of the Federal Reserve statistical release H.15(519) for the week ending immediately prior to the original Acceptance Date of a Lease (or if such rate is no longer determined or published, a successor or alternate rate selected by Lessor).

"Equipment" means the items, units and groups of personal property, finished materials and fixtures described in each Schedule, together with all replacements, parts, additions, accessories and substitutions therefor, and "item of Equipment" means a "commercial unit" as defined and described in Article 2A of the UCC, and includes each functionally integrated and separately marketable group or unit of Equipment.

"Guarantor" means any guarantor, surety, endorser, general partner or co-lessee of Lessee, or other party liable in any capacity, or providing additional collateral security for, the payment or performance of any Obligations of Lessee.

"Guaranty" means any guaranty, surety instrument, security, indemnity, "keep-well" agreement or other instrument or arrangement from or with any Guarantor.

"Obligations" means and includes all obligations of Lessee owing to Lessor under this Agreement, any Lease or Related Agreement, or of any Guarantor owing to Lessor under any Guaranty, together with all other obligations, indebtedness and liabilities of Lessee to Lessor under any other financings, leases, loans, notes, progress payment agreements, guaranties or other agreements, of every kind and description, now existing or hereafter arising, direct or indirect, joint or several, absolute or contingent, whether for payment or performance, regardless of how the same may arise or by what instrument, agreement or book account they may be evidenced, including without limitation, any such obligations, indebtedness and liabilities of Lessee to others which may be obtained by Lessor through purchase, negotiation, discount, transfer, assignment or otherwise.

"Related Agreement" means and includes any Guaranty and any approval letter or progress payment, assignment, security or other agreement or addendum related to this Agreement, any Lease or any Collateral to which Lessee or any Guarantor is a party.

"Stipulated Loss Value" means, as of any particular date, the product obtained by multiplying the "Lessor's Cost" specified in the Schedule by the percentage set forth in the "Schedule of Stipulated Loss Values" attached to the Schedule, specified opposite the Rent installment number (or date) becoming due immediately after the Casualty, Event of Default or other event requiring the calculation of Stipulated Loss Value. If there is no Schedule of Stipulated Loss Values attached to a Schedule, or if the Schedule of Stipulated Loss Values does not otherwise cover a Rent installment number (or date), Stipulated Loss Value on any Rent payment date shall equal the net present value of (a) all unpaid Rent for the remainder of the Lease Term, plus (b) the amount of any purchase obligation, fixed price purchase option, or TRAC amount payment or, if there is no such obligation, option or payment, then the fair market value of the Equipment as of the end of the Lease Term, as estimated by Lessor in its sole discretion, all discounted to present value at the Discount Rate.

"UCC" means the Uniform Commercial Code in effect in the state specified in Section 16(f) of this Agreement.

"Vendor" means the manufacturer, distributor, supplier or other seller (whether or not a merchant or dealer) of the Equipment and any sales representative or agent thereof.

16. Miscellaneous. (a) At Lessor's request, Lessee shall execute, deliver, file and record such financing statements and other documents as Lessor deems necessary to protect Lessor's interest in the Equipment and to effectuate the purposes of any Lease or Related Agreement, and Lessee authorizes, and irrevocably appoints Lessor as its agent and attorney-in-fact, with right of substitution and coupled with an interest, to (i) execute, deliver, file, and record any such item, and to take such action for Lessee and in Lessee's name, place and stead, (ii) make minor corrections to manifest errors in factual data in any Schedule and any addenda, attachments, exhibits and riders thereto, and (iii) after the occurrence of an Event of Default, enforce claims relating to the Equipment against insurers, Vendors or other persons, and to make, adjust, compromise, settle and receive payment under such claims, but without any obligation to do so.

(b) Federal law requires all financial institutions to obtain, verify and record information that identifies each entity that obtains a loan or other financial accommodation. The first time Lessee requests a financial accommodation from Lessor, the Lessor may ask for Lessee's (or any Guarantor's) legal name, address, tax ID number and other identifying information. Lessee shall promptly provide copies of business licenses or other documents evidencing the existence and good standing of Lessee or any Guarantor requested by Lessor.

(c) Time is of the essence in the payment and performance of all of Lessee's Obligations under any Lease or Related Agreement. This Agreement, and each Lease or Related Agreement may be executed in one or more counterparts, each of which shall constitute one and the same agreement. All demands, notices, requests, consents, waivers and other communications concerning this Agreement and any Lease or Related Agreement shall be in writing and shall be deemed to have been duly given when received, personally delivered or three business days after being deposited in the mail, first class postage prepaid, or the business day after delivery to an express carrier, charges prepaid, addressed to each party at the address provided herein, or at such other address as may hereafter be furnished in writing by such party to the other.

(d) Except as otherwise agreed between Lessee and Lessor in writing, Lessee shall reimburse Lessor upon demand for costs and expenses incurred by Lessor in connection with the execution and delivery of this Agreement, any Lease or Related Agreement, Lessee shall reimburse Lessor on demand for all costs (including Attorneys' Fees) incurred by Lessor in connection with Lessee's exercise of any purchase or extension option under any Lease, or any amendment or waiver of the terms of this Agreement or any Lease or Related Agreement requested by Lessee.

AMERICAN OVERSIGHT
Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010CA011156XXXX-XX

(c) Any provisions of this Agreement or any Lease or Related Agreement which are unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such unenforceability without invalidating the remaining provisions thereof, and any such unenforceability shall not render unenforceable such provisions in any other jurisdiction. Any requirement for the execution and delivery of any document, instrument or notice may be satisfied, in Lessor's discretion, by authentication as a record within the meaning of, and to the extent permitted by, Article 9 of the UCC.

(f) THIS AGREEMENT AND ANY LEASE OR RELATED AGREEMENT, AND THE LEGAL RELATIONS OF THE PARTIES THERETO, SHALL IN ALL RESPECTS BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF FLORIDA, WITHOUT REGARD TO CHOICE OF LAW PRINCIPLES; THE PARTIES CONSENT AND SUBMIT TO THE JURISDICTION OF THE STATE AND FEDERAL COURTS OF SUCH STATE FOR THE PURPOSES OF ANY SUIT, ACTION OR OTHER PROCEEDING ARISING THEREFROM, AND EXPRESSLY WAIVE ANY OBJECTIONS THAT IT MAY HAVE TO THE VENUE OF SUCH COURTS. THE PARTIES EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY IN ANY ACTION BROUGHT ON OR WITH RESPECT THERETO. IN NO EVENT SHALL LESSOR HAVE ANY LIABILITY TO LESSEE FOR INCIDENTAL, GENERAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES. Any cause of action by Lessee against Lessor relating to this Agreement or any Lease or Related Agreement shall be brought within one year after any such cause of action first arises, and Lessee hereby waives the benefit of any longer period provided by statute.

(g) EACH LEASE, TOGETHER WITH THIS AGREEMENT AND ANY RELATED AGREEMENTS, (i) CONSTITUTES THE FINAL AND ENTIRE AGREEMENT BETWEEN THE PARTIES SUPERSEDING ALL CONFLICTING TERMS OR PROVISIONS OF ANY PRIOR PROPOSALS, APPROVAL LETTERS, TERM SHEETS OR OTHER AGREEMENTS OR UNDERSTANDINGS BETWEEN THE PARTIES, (ii) MAY NOT BE CONTRADICTED BY EVIDENCE OF (y) ANY PRIOR WRITTEN OR ORAL AGREEMENTS OR UNDERSTANDINGS, OR (z) ANY CONTEMPORANEOUS OR SUBSEQUENT ORAL AGREEMENTS OR UNDERSTANDINGS BETWEEN THE PARTIES; and (iii) MAY NOT BE AMENDED, NOR MAY ANY RIGHTS THEREUNDER BE WAIVED, EXCEPT BY AN INSTRUMENT IN WRITING SIGNED BY THE PARTY CHARGED WITH SUCH AMENDMENT OR WAIVER.

In Witness Whereof, Lessor and Lessee have executed this Agreement as of the date first above written.

Bank of America

Banc of America Leasing & Capital, LLC | Schedule to Master Lease Agreement | Schedule Number 004

This Schedule ("Schedule"), dated as of July 1, 2008, between Banc of America Leasing & Capital, LLC ("Lessor") and Surgery Centers of Brevard, Inc. ("Lessee") is executed pursuant to Master Lease Agreement Number 17387-90800 dated April 13, 2007 (the "Master Lease"), which is incorporated into this Schedule by this reference. Unless otherwise defined in this Schedule, capitalized terms used in this Schedule have the respective meanings assigned to such terms in the Master Lease. If any provision of this Schedule conflicts with any provision of the Master Lease, the provisions contained in this Schedule shall prevail. Lessee hereby authorizes Lessor to insert the serial numbers and other identification data of the Equipment, dates, and other omitted factual matters or descriptions in this Schedule.

1. Description of Equipment; Location. The Equipment subject to this Schedule, which has a cost to Lessor in the aggregate of $64,035.00, which may include taxes, shipping, installation and other related expenses, if any (collectively "Lessor's Cost"), are as follows:

Quantity	Description	Serial Number	Lessor's Cost
1	Lumonic Laser VRM II "Q" Switched Dual Pulsed Nd: YAG & KTP Laser, 110 Volt Electrical System, With accessory kit	MQ-G1202711	$79,500.00
1	VRM II Owners Manual		
1	1-Year Warranty Parts, Labor & Travel		
1	Discount		($24,500.00)

Location of Equipment. The Equipment will be located or (in the case of over-the-road vehicles) based at the following locations:

Location	Address	City	County	State	Zip
A.	95 Building Blvd., Suite 104	Melbourne	Brevard	FL	32901

2. Acceptance. Lessee acknowledges and represents that the Equipment (a) has been delivered to, received and inspected by Lessee, (b) is in good operating order, repair, condition and appearance, (c) is of the manufacture, design and capacity selected by Lessee and is suitable for the purposes for which the Equipment is leased, and is acceptable and satisfactory to Lessee, (d) do not require any additions or modifications to make them suitable for use, other than ancillary modifications or additions normally made by lessees of similar assets, and are available for use and lease by Lessee and Lessor, and (e) have been irrevocably accepted as "Equipment" leased by Lessee under this Schedule as of the date written below (the "Acceptance Date"). Lessee hereby authorizes and directs Lessor to reimburse Lessee or pay Vendors for the purchase price of the Equipment in accordance with Vendors' invoices therefor, receipt and approval of which are hereby reaffirmed by Lessee.

3. Lease Term. The original Lease Term for the Lease of Equipment under this Schedule consists of: (i) an "Interim Term" (if any) beginning on the Acceptance Date, and continuing through and including the day preceding the Base Date; and (ii) a "Base Term" of Thirty Six (36) months, beginning on July 9, 2008 (the "Base Date").

4. Rent. Rent payable under this Schedule consists of: (i) "Interim Rent", which shall be due Lessor for each day of the Interim Term and equal the daily equivalent of the Initial Base Rent, and payable on the Base Date; and (ii) "Base Rent", which shall be payable in advance in Thirty Six (36) consecutive monthly installments of $1,630.47 each, or as set forth in the Schedule of Base Rent Installments attached hereto, with the first Base Rent installment being payable on the Base Date and the remaining Base Rent installments being payable on the 9th day of each succeeding month.

5. Tax Exemption. Lessor will invoice Lessee for all sales, use and/or personal property taxes as and when due and payable in accordance

AMERICAN OVERSIGHT
Filing 40797531 OMNI HEALTHCARE VS R CLEVENS 05-2010-CA-011156-XXXX-XX
Filing 85226467 OMNI HEALTHCARE VS R CLEVENS FL-GOV-05-2010-CA-011156-XXXX-XX

with applicable law, unless Lessee timely delivers to Lessor a valid exemption certificate with respect to such taxes. Delivery of such certificate shall constitute Lessee's representation and warranty that no such taxes shall become due and payable with respect to the Equipment, and Lessee shall indemnify and hold harmless Lessor from and against any and all liability or damages, including late charges and interest which Lessor may incur by reason of the assessment of such taxes.

6. **Tax Matters.** Lessee represents, warrants and agrees that (i) Lessee will not claim that Lessee is the owner of the Equipment or that Lessee is otherwise entitled to all or any of the Tax Benefits; (ii) the Equipment will not require any improvements, modifications, or additions (other than ancillary or incidental items of removable equipment) in order to be rendered complete for its intended use by Lessee; (iii) the Equipment will not constitute "limited use property" within the meaning of Rev. Proc. 2001-28; (iv) during the Lease Term, Lessor shall not be required to include in its gross income for federal income tax purposes (1) any amount derived from the cost of any alteration, addition, improvement, modification, replacement, or substitution of the Equipment or from any refund or credit from the Vendor of the Equipment or (2) any foreign source income under Section 863 of the Code; and (v) the Equipment will not constitute "public utility property" or "tax-exempt use property" within the meaning of Sections 168(i)(10) or 168(h) of the Code.

7. **Further Representations and Agreements.** Lessee represents, warrants and agrees as follows: (a) all representations and warranties of Lessee contained in the Master Lease are restated as of the Acceptance Date and are true and correct as of such date; (b) there has been no material adverse change in the operations, business, properties or condition, financial or otherwise, of Lessee or any Guarantor since December 31, 2007; (c) there exists no Default or Event of Default as of the Acceptance Date; and (d) the operation and maintenance of any Equipment in the ordinary course by Lessee does not require the entry into any software or other intellectual property rights agreement with any licensor or other person, except as disclosed to Lessor in writing prior to the Acceptance Date.

8. **Lease Options**

Extension; Purchase Options. Provided no Event of Default has occurred and remains uncured, and upon Lessee having provided Lessor with written notice not more than 360 days or less than 180 days prior to expiration of the Lease Term, Lessee may irrevocably elect to:

(i) extend the Lease Term as to all and not less than all of the Equipment under this Schedule for a renewal period to be agreed upon by Lessee and Lessor for an amount equal to the then fair market rental value of the Equipment, as determined by Lessor, plus applicable taxes, payable monthly by Lessee to Lessor on the first day of each month during the extension term, or

(ii) purchase all of Lessor's right, title and interest in and to all, but not less than all, of the Equipment under this Schedule, free from all liens and encumbrances created by Lessor, but otherwise on an "AS-IS, WHERE-IS," quitclaim basis, for a purchase price not to exceed 30.00% of the purchase price; *plus* all Base Rent installments, late charges and other amounts then due and owing under the Lease; *plus* all applicable taxes, assessments and other charges due or payable in connection with the sale of the Equipment (collectively, the "Purchase Price"). Lessee shall pay Lessor the Purchase Price on or before the expiration of the Base Term in immediately available funds.

As used herein, "**fair market value**" means the amount which would be obtained in an arm's-length transaction between an informed and willing buyer-user (other than a buyer-user currently in possession or a used equipment or scrap dealer) and an informed and willing seller, each under no compulsion to buy or sell, and "**fair market rental value**" means the amount which would be obtained in an arm's-length transaction between an informed and willing lessee (other than a lessee currently in possession) and an informed and willing lessor, each under no compulsion to lease; provided, however, that in each such determination (a) the costs of removal of any Equipment from the location of current use shall not be a deduction from such value, (b) it shall be assumed (whether or not the same be true) that the Equipment has been maintained and would have been returned to Lessor in compliance with the requirements of this Lease, and (c) if any Equipment has been attached to or installed on or in any other property leased or owned by Lessee, the value for such Equipment shall be determined on an installed basis, in place and in use.

Banc of America Leasing & Capital, LLC **GUARANTY**

This Guaranty (this "Guaranty") is executed and delivered as of the date set forth below by the undersigned guarantor (the "Guarantor") in favor of Banc of America Leasing & Capital, LLC ("BALC"). BALC may, from time to time, enter into agreements with Surgery Center of Broward, Inc. ("Customer"). The term "Customer," if defined to include more than one party, shall mean "Customer and each of them" and this Guaranty shall secure payment of all of their respective Obligations (hereinafter defined) to BALC. BALC is unwilling to enter into such agreements with Customer, unless Guarantor absolutely and unconditionally guarantees to BALC the payment and performance of all obligations of Customer at any time owing to BALC. With knowledge that BALC will enter into agreements with or extend financial accommodations to Customer in reliance upon the existence of this Guaranty and the validity and enforceability of the obligations and liabilities of Guarantor to BALC contemplated hereby, Guarantor agrees with BALC as follows:

1. Guaranty. Guarantor guarantees to BALC the prompt payment and/or performance of all indebtedness, obligations and liabilities of Customer at any time owing to BALC, whether direct or indirect, matured or unmatured, primary or secondary, certain or contingent, or acquired by or otherwise created in favor of BALC, including without limitation any and all rent, loan, purchase or other installment payments, principal balances, taxes, indemnities, liquidated damages, accelerated amounts, return deficiency charges, stipulated loss and casualty value payments, transaction expenses and other reimbursements, administrative charges, all interest, late charges and fees, attorneys' fees or enforcement and other costs, which may at any time be payable to BALC, together with all claims for damages arising from or in connection with the failure to punctually and completely pay or perform such obligations, whether or not such obligations are from time to time reduced or extinguished and thereafter increased or incurred (collectively the "Obligations"). This Guaranty is a guaranty of payment and performance, and not a guaranty of collection, and Guarantor hereby undertakes and agrees that if Customer does not or is unable to punctually and completely pay or perform any Obligations for any reason, Guarantor shall (i) punctually pay any such Obligations requiring the payment of money which Customer fails to pay promptly, as and when due, in each case, as an Obligation for payment due directly from Guarantor to BALC and without any abatement, reduction, setoff, defense, counterclaim or recoupment, and (ii) punctually perform any and all Obligations not requiring the payment of money for the benefit of BALC, as an Obligation for performance due directly from Guarantor to BALC. Guarantor shall be deemed to be primarily liable for each Obligation and not merely as a surety thereof.

2. Continuing Nature of Guaranty; Revocation. This Guaranty is a continuing guaranty and shall in all respects be valid and enforceable without regard to the form or the amount of the Obligations in existence at any time. Guarantor may prospectively revoke this Guaranty by sending written notice, certified mail, return receipt requested, to BALC at the address for BALC specified above (the "Revocation Notice"). The revocation of this Guaranty shall not be effective with respect to any Obligation arising on or prior to the date occurring fifteen (15) days after BALC's receipt of the Revocation Notice (the "Revocation Date"), or to any Obligation arising at any time after the Revocation Date if such Obligation arises as the result of a commitment made by BALC to Customer on or prior to the Revocation Date.

3. Absolute, Unconditional, Joint and Several Nature of Guaranty. The obligations of Guarantor hereunder are absolute and unconditional, and shall be joint and several with each Guarantor executing this Guaranty and each other party that may be liable, directly or indirectly, for the payment or performance of any of the Obligations. If this Guaranty is executed by more than one party, the term "Guarantor" as used herein shall mean (unless the context otherwise requires) "the Guarantor and each of them" and each and every undertaking shall be their joint and several undertaking. If Customer is a partnership or a limited liability company, the obligations of Guarantor hereby contained shall remain in full force and effect notwithstanding any changes in the individuals or members comprising the partnership or the limited liability company, and the term "Customer" shall include any altered or successive partnerships or limited liability companies. Guarantor shall not be released from any obligations under or in respect of this Guaranty for any reason, nor shall such obligations be reduced, diminished or discharged for any reason, including without limitation:

(a) Modifications; Indulgences; Payment Applications. Any modifications, renewals, or alterations of any agreement, document or instrument relating to any Obligation; any indulgences, adjustments, preferences, extensions or compromises made by BALC in favor of Customer or Guarantor or any other party; or the application of any payments and receipts, by whomever paid and/or however realized, to any amounts owing by Guarantor or Customer to BALC in such manner as BALC shall determine in its sole discretion.

(b) Condition of Customer or Guarantor. Any insolvency, bankruptcy, arrangement, adjustment, composition, liquidation, disability, dissolution, appointment of a receiver for, or other similar proceeding affecting Customer or Guarantor; any sale, lease or other disposition of any of the assets of Customer or Guarantor; any reorganization of, or change in the composition of the shareholders, partners or members of, Customer or Guarantor; or any termination of, or other change in, the relationship between Customer and Guarantor.

(c) Invalidity of Obligations or Other Agreements. The invalidity, illegality or unenforceability of any Obligation for any reason whatsoever, including, but not limited to: the existence of void statements, defenses, counterclaims, deductions or offsets to any Obligation; the violation of applicable usury or other laws by any Obligations; or the lack of authenticity or genuineness of any document or instrument relating to the Obligations. This Guaranty shall be in addition to any other guaranty or other security for the Obligations, and it shall not be prejudiced or rendered unenforceable by the invalidity or unenforceability of any such other guaranty or security.

(d) Release of Customer. Any complete or partial release of Customer or any other party liable for any Obligation for any reason.

(e) Release and Care of Collateral; Status of Liens. Any sale, transfer, release, surrender, exchange, deterioration, waste, loss or impairment of any property transferred or assigned by Customer, Guarantor or any other party in respect of any Obligation or otherwise acquired by BALC for lease to Customer or otherwise in connection with any Obligation (collectively, the "Collateral"), whether negligent or willful; the failure of BALC or any other party to exercise reasonable care in the preservation, protection, sale or other treatment of any of the Collateral; the failure of BALC or any other party to create or properly perfect BALC's right, title or interest in any Collateral, or any mortgage, pledge, security interest, transfer or assignment of any Collateral (a "Lien"); the unenforceability of any Lien; the creation of any lien or encumbrance on any Collateral in favor of any other party, or the subordination of any Lien in favor of BALC to any such other lien or encumbrance; or the taking or accepting by BALC of any other security for, or assurance of payment of, any Obligation.

(f) Other Action or Inaction. Any other action or inaction on the part of BALC, whether or not such action or inaction prejudices Guarantor or increases the likelihood or amount that Guarantor will be required to pay or perform in connection with any Obligation pursuant to the terms hereof.

It is the obligation of Guarantor to discharge the Obligations when due, notwithstanding any occurrence, circumstance, event, action or omission whatsoever, whether or not particularly described herein. Guarantor is not entering into this Guaranty in reliance on the value or the availability of any Collateral. Guarantor acknowledges that Guarantor may be required to pay the Obligations, in full, without the assistance or support of any other party. Guarantor has not been induced to enter into this Guaranty on the basis that any party other than Customer will be liable to perform any Obligations or that BALC will look to any other party to perform any Obligation. BALC may release, or settle with, the Customer, any Guarantor, or any other party liable, directly or indirectly, for the performance of any Obligation, all without releasing the liability of any other party to this Guaranty. To the extent that this Guaranty is secured by property of Guarantor, BALC shall not be obligated to release its security interest in such property until all applicable preference periods have passed with respect to payments of Obligations made to BALC.

4. Waivers. Guarantor waives:

(a) Action Against Others. Any right to require BALC to: institute suit or exhaust remedies against Customer or any other party liable for any Obligation; enforce BALC's rights in any of the Collateral or other security which is at any time given to secure any Obligation; enforce BALC's rights against any

AMERICAN OVERSIGHT

other Guarantor or any other party liable on any Obligation; join Customer or any other party liable for any Obligation in any action seeking to enforce this Guaranty; or exhaust any other remedies available to BALC or resort to any other means of obtaining payment or performance of any Obligation.

(b) Notices. Notice of the execution, delivery or acceptance by BALC, Customer or any other party, of this Guaranty or any document, agreement or instrument evidencing any Obligation; notice of the amount of credit extended by BALC to Customer at any time, whether primary or secondary; notice of modifications or extensions of any Obligation; notice of defaults, or other non-performance by Customer in connection with any Obligation; notice of the transfer or disposition by BALC of any Obligation; notice of the repossession, sale or other disposition of any of the Collateral; notice of the acceptance of this Guaranty by BALC; demand and presentation for payment upon Customer or any other party liable for any Obligation; protest, notice of intention to accelerate or notice of acceleration of any Obligation, notice of protest and diligence in bringing suit against Customer or any other party; and any other action or inaction on the part of BALC in connection with this Guaranty or any Obligation.

(c) Subrogation. Any right which Guarantor may at any time have against Customer, or any other party liable for any Obligation, as a result of the performance by Guarantor of its obligations under this Guaranty, including, but not limited to contractual, statutory and common law rights of subrogation, reimbursement, indemnification, set-off or contribution, until all Obligations owing to BALC have been paid and performed in full.

(d) Survivable Defenses. Any defense which Guarantor may have or assert against the enforcement of this Guaranty or any Obligation based upon suretyship principles or any impairment of Collateral.

5. Representations, Warranties, Covenants. Guarantor hereby represents, warrants and covenants to and with BALC that:

(a) Benefit. Guarantor has received, or will receive, substantial benefit from the agreements and transactions giving rise to the Obligations and this Guaranty.

(b) Authorization; Enforceability. This Guaranty has been duly authorized by all necessary action on the part of Guarantor. The execution, delivery and performance of this Guaranty does not require the approval of, or giving of notice to, any governmental authority and does not contravene or constitute a default under any applicable laws, or any contract, mortgage, agreement, indenture, or other instrument to which Guarantor is a party or by which it may be bound. This Guaranty has been duly executed and delivered by Guarantor and constitutes the legal, valid and binding obligations of Guarantor enforceable in accordance with its terms except to the extent that the enforcement of remedies hereunder may be limited under applicable bankruptcy and insolvency laws, and the equitable discretion of any court of competent jurisdiction. To Guarantor's knowledge, there are no actions or proceedings pending or threatened against or affecting Guarantor or any of Guarantor's property before any court, administrative officer or administrative agency that, if decided adversely, could affect the financial condition or operations of Guarantor or the ability of Guarantor to perform its obligations hereunder.

(c) Access to Information; No Representations by BALC. Guarantor has adequate means to obtain continuing and sufficient information concerning the financial and business condition of the Customer and other parties liable in respect of the Obligations and BALC shall have no obligation to furnish any such information to Guarantor. Neither BALC nor any other party has made any representation, warranty or statement to Guarantor in order to induce Guarantor to execute this Guaranty.

(d) Subordination. All present and future indebtedness of Customer to Guarantor ("Subordinated Debt") shall be and hereby is subordinated to the prior payment and performance of all Obligations. For so long as there is no default hereunder or in connection with the Obligations or the Subordinated Debt, Guarantor may receive and Customer may pay (but not prepay, whether or not permitted or contemplated by the terms of the Subordinated Debt) principal and/or interest or other scheduled installment payments of Subordinated Debt from Customer. At any time while the Obligations are in default, Guarantor shall not demand or accept any payment of, or otherwise cancel, set-off or otherwise discharge any part of, the Subordinated Debt without the prior written consent of BALC. Upon the request of BALC, Guarantor shall deliver to BALC a certified statement of the outstanding Subordinated Debt, specifying in detail the time at which permitted payments of Subordinated Debt were made, if any, and such other information as BALC may request.

(e) Financial Condition; Solvency; Reports. As of the date hereof, and after giving effect to this Guaranty and the contingent obligations contained herein, Guarantor is solvent and has assets which, when fairly valued, exceed its liabilities. The performance of the obligations of Guarantor hereunder will not cause Guarantor to exceed its ability to pay its debts as they mature, and this Guaranty is made without any intent to hinder, delay or defraud either present or future creditors, purchasers or other interested persons. Guarantor shall provide to BALC such financial statements and other financial and other information concerning Guarantor as BALC may reasonably request from time to time.

(f) Assignment. BALC may, at any time and without the consent of, or notice to, Guarantor, assign all or any portion of its rights hereunder to any other party to which all or any portion of the Obligations are transferred, assigned or negotiated (an "Assignee"). Guarantor shall promptly execute and deliver to BALC or its Assignee such further and additional documents, instruments and assurances as BALC deems necessary (a) in order to acknowledge and confirm, for the benefit of BALC or its Assignee, all of the terms and conditions of all or any part of the Obligations or this Guaranty and BALC's or Assignee's rights with respect thereto, and Customer's and Guarantor's compliance with all of the terms and provisions thereof, and (b) to preserve, protect and perfect Lessor's or Assignee's right, title or interest hereunder and in any Collateral, including, without limitation, such UCC financing statements or amendments, control agreements, corporate or member resolutions, votes, certificates of compliance, notices of assignment or transfers of interests, and restatements and reaffirmations of Guarantor's obligations, representations, warranties and covenants hereunder as of the dates requested by BALC from time to time. This Guaranty shall not be deemed to create any right in any party except as provided herein and shall inure to the benefit of, and be binding upon, the successors and assigns of Guarantor and BALC, provided that Guarantor shall not assign or delegate any of its rights or obligations hereunder without the prior written consent of BALC.

(g) Further Assurances. Guarantor will promptly execute any documents and other records, including, amendments to this Guaranty, and will take such further action as BALC may reasonably request in order to carry out more effectively the intent and purposes of this Guaranty and to establish, perfect and protect BALC's rights and remedies hereunder and in any Collateral.

6. Default; Performance of Obligations. If (a) Customer defaults in the payment or performance of any Obligation, or (b) if there exists any event or condition which, with notice and/or the passage of time, would constitute a default under any document, agreement or instrument evidencing an Obligation (including any default relating to Guarantor or this Guaranty), or (c) any representation or warranty of Guarantor herein or in any certificate, agreement, statement or document furnished at any time to BALC by or on behalf Guarantor (including without limitation, any financial information), shall prove to be or to have been false or incorrect in any material respect; or (d) Guarantor shall fail to perform or observe any covenant (including without limitation, any financial covenant), condition or agreement required to be performed or observed by it hereunder or in connection with any Obligation, and such failure shall continue for 10 days after written notice thereof to Guarantor; or (e), or if there is a liquidation, bankruptcy, assignment for the benefit of creditors or similar proceeding affecting the status, existence, assets or obligations of Customer or any Guarantor or other party liable to BALC in respect of the Obligations, (each of the foregoing being hereinafter referred to as a "Default"), then the Obligations of Customer shall, at the sole option of BALC, be deemed to be accelerated and become immediately due and payable by Guarantor for all purposes of this Guaranty, and Guarantor shall (i) immediately pay directly to BALC all such Obligations for the payment of money owing to BALC by reason of acceleration or otherwise (including without limitation, any rent, liquidated damages, principal or interest payments or balances, fees, other installments or any other accrued or unaccrued amounts with respect to such Obligations), irrespective of whether a Default exists relating to Customer, and notwithstanding any stay, injunction or other prohibition preventing acceleration of any Obligations against Customer, and (ii) promptly perform all other Obligations. Guarantor shall be liable, as principal obligor and not as a surety or guarantor only, for all attorneys' fees and other costs and expenses incurred by BALC in connection with BALC's enforcement of this Guaranty), together with interest on all amounts recoverable under this Guaranty, compounded monthly in arrears, from the time such amounts become due and payable until the date of payment at the default rate of interest provided in the agreement evidencing the Obligations (without duplication). If BALC is required to return any payment made to BALC by or on behalf of Customer, whether as a result of Customer's bankruptcy, reorganization or otherwise, Guarantor acknowledges that this Guaranty covers all such amounts, notwithstanding that the original of this Guaranty may have been returned to Guarantor and/or otherwise canceled.

7. Governing Law; Miscellaneous. THIS GUARANTY AND THE LEGAL RELATIONS OF THE PARTIES HERETO SHALL IN ALL RESPECTS BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF RHODE ISLAND, WITHOUT REGARD TO PRINCIPLES REGARDING THE CHOICE OF LAW. GUARANTOR CONSENTS TO THE JURISDICTION AND VENUE OF [illegible] COURTS IN CONNECTION WITH BALC'S ENFORCEMENT OF ANY OBLIGATIONS UNDER OR IN RESPECT OF THIS GUARANTY. GUARANTOR HEREBY EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY IN ANY ACTION BROUGHT ON OR WITH RESPECT TO THIS

Guaranty-Organization

GUARANTY. Federal law requires all financial institutions to obtain, verify and record information that identifies each entity that obtains a loan or other financial accommodation. The first time Customer or Guarantor requests a financial accommodation from BALC, BALC will ask for the Customer's (or the Guarantor's) legal name, address, tax ID number and other identifying information. Guarantor shall promptly provide copies of business licenses or other documents evidencing the existence and good standing of Guarantor requested by BALC. Time is of the essence in the payment and performance of all Obligations and all of Guarantor's obligations and liabilities owing to BALC hereunder. This Guaranty constitutes the entire agreement of Guarantor and BALC relative to the subject matter hereof, and there are no prior or contemporaneous understandings or agreements, whether oral or in writing, between the parties hereto with respect to the subject matter hereof. Nothing herein shall be deemed or construed to amend, modify, supersede or replace any other guaranty or other written agreement of the Guarantor in favor of or with BALC without the express written agreement of Bank of America Leasing & Capital, LLC. No subsequent modification of, or supplement to, this Guaranty shall be enforceable against any party hereto unless the same is in writing and is duly signed by an authorized manager, member, officer or representative of the party against whom enforcement is sought. Any notices or demands required or permitted to be given under this Guaranty (a) shall be given in writing, (b) shall become effective (i) if delivered with receipt acknowledged, such as by Airborne, FedEx, UPS or other private courier service, on the date of such receipt, (ii) if delivery by other private courier or U. S. Postal Service is attempted but refused, on the date of such refusal, or (iii) if mailed by certified or registered mail, return receipt requested, postage prepaid, then on the date of receipt, and (c) shall be addressed to BALC to the attention of Customer Accounts, and to Guarantor at the address set forth below, or to such other address as the party to receive notice hereafter designates by such written notice.

The undersigned, pursuant to due corporate, limited liability company or partnership authority, as appropriate, has or have caused this Guaranty to be executed as of the date set forth below.

Banc of America Leasing & Capital, LLC

Transfer and Assumption Agreement - Master Lease Schedule No. 004

This Transfer and Assumption Agreement made this 17th day of August, 2009, by and among Surgery Centers of Brevard, Inc. ("Transferor"), Omni Health Care, Inc. ("Transferee"), and Banc of America Leasing & Capital, LLC ("BALC").

WITNESSETH:

Whereas, on the 17th day of August, 2007, BALC and Transferor entered into that certain Master Lease Agreement Number 17382-90000, (together with all addenda, attachments, schedules, and riders thereto, the "Contract"), a copy of which is attached hereto and made a part hereof;

Whereas, Transferor desires to sell and Transferee desires to acquire, all of Transferor's right, title, obligations, and interest in and to the equipment described in Schedule No. 004 to the Contract (the "Equipment"), including all of Transferor's obligations and responsibilities to BALC under the Contract;

Whereas, the Contract provides that Transferor may not transfer, convey or assign its interest in and to the Equipment without the written consent of BALC.

Now, therefore, in consideration of the premises and the mutual covenants hereinafter contained, and for other good and valuable consideration, the receipt and sufficiency whereof is hereby acknowledged, it is agreed as follows:

1. Transferor hereby conveys and assigns to Transferee all of Transferor's right, title, obligations, and interest in and to the Equipment "as is and where is", subject to the terms and conditions of the Contract.

2. Transferee hereby assumes all of the obligations and agrees to perform all of the terms, conditions and covenants set forth in the Contract.

3. Transferor shall not be released from any of its obligations or responsibilities under the Contract or contained in any other written agreement between Transferor and BALC, and Transferor and Transferee shall be jointly and severally liable to pay all amounts due under the Contract and to perform each and every condition, covenant, and obligation set forth in the Contract. Transferor's liability or obligation hereunder or under the Contract shall not be affected by any release, indulgence, compromise, settlement, extensions from time to time, or variation of terms hereunder or under the Contract.

4. The Equipment shall henceforth be located at 1344 South Apollo Blvd., Melbourne, FL 32940 , subject to all of the terms and conditions of the Contract.

5. Transferor expressly ratifies, consents to, and adopts any and all agreements which Transferee has made or may hereafter make with BALC regarding the use of the Equipment and hereby waives any and all notices of every kind to which Transferor may otherwise be entitled.

6. All notices hereunder shall be in writing and delivered in person or mailed to the party involved at its respective address set forth below, or at such other address as any party hereto may direct by notice in writing to other party. Any such notice by BALC shall be effective when deposited in the United States mail duly posted to the party to whom directed with postage prepaid. Any notice to BALC shall not be effective until received by BALC.

7. BALC MAKES NO WARRANTY OF ANY KIND, NATURE OR DESCRIPTION, EXPRESS OR IMPLIED, AS TO ANY MATTER INCLUDING THE CONDITION OF THE EQUIPMENT, ITS MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

8. BALC consents to the transfer and assumption of Transferor's interest in, to, and under the Equipment and the Contract, on the terms and conditions hereof, provided, however, that BALC's consent to the transfer and assumption of the Contract is expressly conditioned upon any guarantor of Transferor's obligations under the Contract consenting to such transfer and assumption and agreeing to remain liable on his, her or its guaranty.

9. This Agreement covers all agreements and understandings by and among the parties relating to the Equipment and the Contract and BALC shall not be bound by any representations or inducements not specifically set forth herein. This Agreement shall not be amended or altered, except in writing signed by the party to be charged, and shall be governed by the laws of the State of Florida. In the event that any party hereto is a partnership, then this Agreement is executed by a general partner thereof, and in the event that any party to this Agreement is a corporation, then this Agreement is executed by a duly authorized officer of said corporation, pursuant to authority granted by the Board of Directors of said Corporation.

10. This Agreement shall not become binding upon BALC until approved, accepted and executed by BALC at its offices in Tucker, Georgia by an authorized officer of BALC, and notice of such approval, acceptance and execution is hereby waived by all other parties.

AMERICAN OVERSIGHT

UNITED STATES DISTRICT COURT
MIDDLE DISTRICT OF FLORIDA
ORLANDO DIVISION

OMNI HEALTHCARE INC.; INTERVENTIONAL SPINE INSTITUTE OF FLORIDA; CRAIG DELIGDISH; C. HAMILTON BOONE, PA; BRIAN DOWDELL; RICHARD GAYLES; STAN GOLOVAC; LANCE GRENEVICKI; ALEKSANDER KOMAR; SCOTT SEMINER; INSTITUTE OF FACIAL SURGERY INC.; THE PAIN INSTITUTE INC.; and PHYSICIAN ASSISTANT SERVICES OF FLORIDA, LLC,

Plaintiffs,

v. Case No. 6:13-cv-1509-Orl-37DAB

HEALTH FIRST, INC.; HOLMES REGIONAL MEDICAL CENTER, INC.; HEALTH FIRST PHYSICIANS, INC.; HEALTH FIRST HEALTH PLANS, INC.; MICHAEL D. MEANS; and JERRY SENNE,

Defendants.

ORDER

This cause is before the Court on the following:

1. Plaintiffs' *Daubert* Motion to Exclude Defendants' Expert Testimony and Incorporated Memorandum of Law (Doc. 197), filed January 22, 2016;
2. Corporate Defendants' Memorandum in Opposition to Plaintiffs' *Daubert* Motion to Exclude Defendants' Expert's Testimony (Doc. 214), filed February 8, 2016;
3. Defendants' Motion to Exclude the Testimony of Dr. H.E. Frech, III and Incorporated Memorandum of Law (Doc. S-194), filed January 22, 2016;

AMERICAN OVERSIGHT

4. Plaintiffs' Opposition to Defendants' Motion to Exclude the Testimony of Dr. H.E. Frech, III and Incorporated Memorandum of Law (Doc. 212), filed February 5, 2016;
5. Defendants' Motion to Exclude the Testimony of Dr. Hal J. Singer and Incorporated Memorandum of Law (Doc. S-199), filed January 22, 2016;
6. Plaintiffs' Opposition to Defendants' Motion to Exclude the Testimony of Dr. Hal J. Singer and Incorporated Memorandum of Law (Doc. 213), filed February 5, 2016;
7. Corporate Defendants' Joint Motion for Summary Judgment and Incorporated Memorandum of Law (Doc. S-201), filed January 22, 2016;
8. Plaintiffs' Response to Corporate Defendants' Motion for Summary Judgment and Incorporated Memorandum of Law (Doc. S-235), filed February 22, 2016;
9. Corporate Defendants' Reply on Motion for Summary Judgment (Doc. 249), filed March 4, 2016;
10. Defendant Michael D. Means'[s] Motion for Summary Judgment (Doc. 189), filed January 21, 2016;
11. Defendant Jerry Senne's Motion for Summary Judgment (Doc. 195), filed January 22, 2016;
12. Plaintiffs' Response to Individual Defendants' Motion[s] for Summary Judgment and Incorporated Memorandum of Law (Doc. S-236), filed February 22, 2016;
13. Defendant Means'[s] Reply as to His Motion for Summary Judgment

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001414

(Doc. S-248), filed March 4, 2016;

14. Defendant Jerry Senne's Reply Memorandum (Doc. S-247), filed March 4, 2016; and

15. Notice of Supplemental Authority (Doc. 274), filed May 18, 2016.

Upon consideration, the Court finds that: (1) the parties' *Daubert* motions are due to denied; and (2) Defendants' respective motions for summary judgment are due to be granted in part and denied in part as specified in this ensuing Order.

BACKGROUND[1]

This monolithic action concerns claims brought under federal antitrust law, Florida's Deceptive and Unfair Trade Practices Act ("**FDUTPA**"), and a common law claim for tortious interference with business relationships. (*See* Doc. 57.) The litigation spans close to three years and the docket reveals more than three hundred docket entries. In a prior Order denying Defendants' motion to dismiss the operative ten-count, 101-page Complaint (Doc. 57), the Court set forth a thirteen-page recitation of the factual allegations underlying the instant action. (*See* Doc. 105 ("**Dismissal Order**").) As such, here, the Court elects to provide only a short summary of Plaintiffs' claims, the relevant parties, and the current posture of the proceedings.

Plaintiffs—Omni Healthcare Inc. ("**Omni**"), Interventional Spine Institute of Florida, doing business as Spine Orthopedics and Rehabilitation ("**SOAR**"), Dr. Craig Deligdish ("**Dr. Deligdish**"), C. Hamilton Boone ("**Boone**"), Dr. Brian Dowdell ("**Dr. Dowdell**"),

[1] In their submissions, the parties utilize a variety of methods to pincite specific portions of the record. For ease of reference, the Court has consistently cited to the assigned page numbers in the header of the documents, with the exception of documents consistently organized by paragraph number or mini-deposition page numbers throughout, which the Court cited according to such designations.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001415

Dr. Richard Gayles ("**Dr. Gayles**"), Dr. Lance Grenevicki ("**Dr. Grenevicki**"), Dr. Aleksander Komar ("**Dr. Komar**"), Dr. Scott Seminer ("**Dr. Seminer**"), the Institute of Facial Surgery Inc. ("**IFS**"), The Pain Institute Inc., doing business as Florida Pain ("**Florida Pain**"), and Physician Assistant Services of Florida, LLC ("**PAS**")—initiated the instant action on September 27, 2013. (Doc. 1.) In their Complaint, Plaintiffs allege that Defendants—Health First, Inc. ("**Health First**"), Holmes Regional Medical Center, Inc. ("**HRMC**"), Health First Physicians, Inc. ("**HF Physicians**"), and Health First Health Plans, Inc. ("**HFHP**") (collectively, "**the Corporate Defendants**")—have engaged in a continuing course of anticompetitive conduct, unfair trade practices, and tortious interference with Plaintiffs' business relationships in Southern Brevard County ("**SBC**") since the early 2000's. (Doc. 57, Doc. 194-1, pp. 86–87.) Additionally, Plaintiffs allege that the individual Defendants, Michael D. Means ("**Means**")—co-founder and former President and Chief Executive Officer ("**CEO**") of Health First—and Jerry Senne ("**Senne**")—former president and CEO of HRMC—(collectively, "**the Individual Defendants**"), personally orchestrated and participated in such conduct. (Doc. 57, ¶¶ 30–31, 188–95.)

Plaintiffs comprise various medical practices and providers in SBC. Omni, SOAR, IFS, Florida Pain, and PAS (collectively, "**the Medical Practice Plaintiffs**") are medical practices and physician assistant Boone and Drs. Deligdish, Seminer, Dowdell, Gayles, Golovac, Grenevicki, and Komar are medical providers.[2] (*See id.* ¶¶ 11–25.) As for Defendants, Health First is the parent corporation of the remaining Corporate Defendants, as well as three affiliated hospitals in Brevard County not named in this action—Cape

[2] Dr. Deligdish is the president of Omni. (Doc. 57, ¶ 22.) Dr. Grenevicki founded IFS. (*Id*. ¶ 22.)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001416

Canaveral Hospital, Inc., Palm Bay Hospital, and Viera Hospital, Inc. (*Id.* ¶ 26.) For their part, HRMC is an inpatient hospital located in Melbourne, Florida, HFHP is a health insurance company, and HF Physicians is the managing member of Health First Medical Group, LLC ("**HFMG**")—Brevard County's largest multi-specialty physicians group.[3] (*Id.* ¶¶ 27–29.) Though not a party to this action, the parties frequently mention Wuesthoff Medical Center, Melbourne ("**Wuesthoff**"), seemingly the only hospital in SBC that competes with the Health First affiliated hospitals. (*See id.* ¶ 1.) Wuesthoff entered the SBC market in 2002.

Reduced to its simplest form, the allegations in the Complaint are as follows: Plaintiffs aver that Defendants collectively implemented a common and self-enforcing scheme of anticompetitive conduct in SBC ("**the Alleged Common Scheme**"), whereby they: (1) mandated exclusive referral and admission practices within the Health First system ("**Exclusive Referral Practice**"); (2) excluded from HFHP medical practices and providers who refused to participate in the Exclusive Referral Practice ("**Blacklisted Providers**"); and (3) prevented providers within the Health First system from referring patients to the Blacklisted Providers lest they too be boycotted. (*See generally* Doc. 57.) Additionally, Plaintiffs allege that Defendants further cemented their power and dominance in the SBC physician services market by acquiring Melbourne Internal Medicine Associations ("**MIMA**")—the second largest physician group in Brevard County—in 2013 ("**MIMA Acquisition**"). (*See id.* ¶ 260.) Indeed, in Count I of the Complaint, Plaintiffs allege that the MIMA Acquisition was itself an impermissible merger

[3] Lead Plaintiff Omni is also a multi-specialty physicians practice with various ancillary service facilities. (Doc. 57, ¶ 20.)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001417

in violation of federal antitrust law. (*Id.* ¶ 299.) According to Plaintiffs, the Alleged Common Scheme substantially lessened competition in SBC, harmed Plaintiffs both monetarily and in their business relationships with former patients and fellow physicians, and resulted in higher prices and lower quality of care in SBC. (*Id*. ¶¶ 275–90, 409–22.)

Collectively, Omni, SOAR, Deligdish, Dowdell, Gayles, Golovac, Grenevicki, Komar, Seminer, IFS, and Florida Pain ("**the Antitrust Plaintiffs**") assert claims against Defendants for violations of federal antitrust law. (*Id.* ¶¶ 291–392.) All Plaintiffs join in the state law claims against Defendants. (*Id.* ¶¶ 393–422.) Specifically, Plaintiffs have sued Defendants for: (1) monopolization of the acute care inpatient hospital services market; (2) attempted monopolization of the physician services market, ancillary services market, and Medicare Advantage markets; (3) conspiracy to restrain trade and monopolize various markets; (4) unfair methods of competition; and (5) tortious interference with business relationships. (*Id.* ¶¶ 291–422.)

In January of 2016, the Corporate and Individual Defendants respectively moved for summary judgment on all ten counts of the Complaint. (*See* Docs. 189, 195, 201.) Additionally, the Corporate Defendants and Plaintiffs moved to exclude the testimony of three expert witnesses. (*See* Docs. 194, 197, 199.) Given the complexity of the arguments and claims, the Court held a full-day hearing on the foregoing motions on May 2, 2016. (*See* Doc. 272.) After taking the matters under advisement, the Court announced its rulings on the motions at the Final Pretrial Conference on July 21, 2016. (Doc. 298.) The instant Order memorializes such rulings.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001418

THE *DAUBERT* MOTIONS

I. Standards

In its gatekeeping role, a district court is tasked to ensure that juries only hear "expert" opinions that satisfy the following requirements:

> **Qualifications**—a witness that is "qualified as an expert by knowledge, skill, experience, training, or education" may testify as to his opinions of scientific, technical, or other specialized knowledge (Fed. R. Evid. 702) ("**Qualification Requirement**");
>
> **Reliability**—the testimony is "based upon sufficient facts or data" (Fed. R. Evid. Rule 702(b)) and "is the product of reliable principles and methods" (Fed. R. Evid. Rule 703(c)), which the witness applied "reliably to the facts of the case" (Fed. R. Evid. Rule 702(d)) ("**Reliability Requirement**"); and
>
> **Helpfulness**—the testimony will help the jury to "understand the evidence or to determine a fact in issue" (Fed. R. Evid. Rule 702(a)) ("**Helpfulness Requirement**").

City of Tuscaloosa v. Harcros Chems., Inc., 158 F.3d 548, 562–63 (11th Cir. 1998); *see also Cooper v. Marten Transp., Ltd.*, 539 F. App'x 963, 965–67 (11th Cir. 2013). Importantly, the Court must abstain from credibility determinations and any assessment of the merits of an expert witness's opinion—which are matters exclusively reserved to juries—and must instead narrowly focus on whether the proponent of the expert witness has established the Qualification, Reliability, and Helpfulness Requirements. *See Daubert v. Merrell Dow Pharm., Inc.*, 509 U.S. 579, 594–95 (1993); *see also Reeves v. Sanderson Plumbing Prods., Inc.*, 530 U.S. 133, 155 (2000).

To determine whether the Qualification Requirement is met, "courts generally look to evidence of the witness's education and experience" and determine whether such qualifications and expertise sufficiently "fit" with "the subject matter of the witness's proposed testimony." *In re Mentor Corp. ObTape Transobturator Sling Prods. Liab. Litig.*,

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001419

711 F. Supp. 2d 1348, 1367 (M.D. Ga. 2010) (citing *Maiz v. Virani*, 253 F.3d 641, 665 (11th Cir. 2001)).

A determination on the Reliability Requirement requires consideration of a plethora of matters, which vary depending on the opinions and testimony at issue, and include the following well-known *Daubert* factors:

(1) whether the expert's theory can be or has been tested;

(2) whether the theory has been subject to peer review and publication;

(3) the known or potential rate of error of the particular scientific technique; and

(4) whether the technique is generally accepted in the scientific community.

Daubert, 509 U.S. 579; *United States v. Frazier*, 387 F.3d 1244, 1262 (11th Cir. 2004). The factors pertinent to an analysis of the Reliability Requirement—including the *Daubert* factors—"are only illustrative and may not all apply in every case." *United States v. Abreu*, 406 F.3d 1304, 1307 (11th Cir. 2005). Ultimately, the district court must identify the pertinent factors, and it is accorded "wide latitude in deciding how to determine reliability." *Id.*

Finally, the Helpfulness Requirement turns on

> the common sense inquiry [of] whether the untrained layman would be qualified to determine intelligently and to the best possible degree the particular issue without enlightenment from those having a specialized understanding of the subject involved in the dispute.

See Fed. R. Evid. 702, Advisory Committee Notes (citation omitted).

The burden of establishing admissibility is borne by the proponent of the expert opinion. *See Kilpatrick v. Breg, Inc.*, 613 F.3d 1329, 1335 (11th Cir. 2010) (citing

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001420

McCorvey v. Baxter Healthcare Corp., 298 F.3d 1253, 1256 (11th Cir. 2002)); *see also Frazier*, 387 F.3d at 1260. The proponent does not have to prove that the opinion is scientifically correct, just that it is reliable and helpful. *See Lord v. Fairway Elec. Corp.*, 223 F. Supp. 2d 1270, 1279 (M.D. Fla. 2002) (citing Fed. R. Evid. 702, Advisory Committee Notes). If the proponent does so, then the court should open the gate by permitting the proponent to elicit testimony from the expert witness concerning his or her reliable opinions and by allowing the jury to fulfill its role of determining the weight to accord such testimony. Indeed, the Court's limited gatekeeping role "is not intended to supplant" presentation of contrary evidence to the jury or the practice of cross-examination in a courtroom. *See United States v. Ala. Power Co.*, 730 F.3d 1278, 1282–85 (11th Cir. 2013). Accordingly, once the proponent satisfies the minimum threshold for admissibility, the parties' remaining reliability and relevance disputes must be decided by the jury—preferably based on the litigants': (1) presentation of contrary evidence, such as testimony from the litigant's own expert witness providing both contrary opinions and criticism of—among other things—the opposing expert's qualifications and the inaccuracy or unreliability of his or her opinions; and (2) use of cross-examination and appropriate legal argument. *See id.*; *see also Costa v. Wyeth, Inc.*, No. 8:04-cv-2599-T-27MAP, 2012 WL 1069189, at *2 (M.D. Fla. Mar. 29, 2012).

II. Discussion

a. Dr. McCarthy

In their sole *Daubert* motion, Plaintiffs seek to exclude opinions set forth in defense expert Dr. Thomas McCarthy's ("**Dr. McCarthy**") respective liability and damages reports. (Doc. 197.) Plaintiffs contend that Dr. McCarthy's opinions are unreliable and do not fit

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001421

the issues to which they are applied. (*Id.* at 6.)

In his liability report, Dr. McCarthy opines that Health First does not possess market power in the inpatient hospital services market ("**Liability Opinion**"). (*See id.*) This Liability Opinion is based on Dr. McCarthy's comparison of Health First's actual hospital prices to "expected" hospital prices generated by Dr. McCarthy's regression analysis. (*Id.*) Dr. McCarthy also challenges the amount of damages calculated by Plaintiffs' expert, Dr. Hal J. Singer ("**Dr. Singer**"), based on a categorical breakdown Omni's operating costs ("**Damages Opinion**"). (*Id.*)

Per the Liability Opinion, Heath First does not exercise market power in the inpatient hospital services market because its prices are not higher than expected. (*Id.* at 15.) This opinion is based on a regression model which predicts that, as per-capita income within an area increases, hospital charges will decrease ("**Negative Correlation**"). (*Id.* at 21.) Plaintiffs contend that the Liability Opinion is contrary to: (1) longstanding, basic economic principles; (2) common sense; and (3) an econometric model developed and published by Dr. William Lynk, which consistently demonstrates a *positive* relationship between income and hospital prices—that is, as per-capita income within an area increases, hospital prices also increase. (*See id.* at 21–22.) Additionally, Plaintiffs take issue with the fact that Dr. McCarthy's model predicts a correlation between a hospital's share of revenue attributable to Medicaid and the hospital's charges, yet inexplicably predicts that such correlation was positive in 2007 and negative in 2013 ("**Flipped Correlation**"). (*Id.* at 22–23.) Plaintiffs posit that this model should not switch between a negative and positive correlation, but rather should be negative as in Dr. Lynk's model. (*Id.* at 23.) Plaintiffs maintain that the Negative and Flipped Correlations are

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001422

caused by a "specification error"—i.e., an incorrect key feature or assumption in the model. (*Id.*) As a result, Plaintiffs argue that Dr. McCarthy's model may yield incorrect or misleading results. (*Id.* at 23–24.)

In particular, Plaintiffs contend that "[t]he failure of a regression model to tell a coherent story about its independent variables means that it similarly will not confidently or coherently predict the dependent variable," which—in the present case—is hospital prices. (*Id.* at 24.) Moreover, Plaintiffs argue that standard economic tests as to the reliability of Dr. McCarthy's model reveal that his predicted hospital prices are severely inaccurate and yield a statistical confidence interval of 50 to 275 percent for HRMC. (*Id.* at 24–25.) As such, the predicted prices for HRMC may be significantly below or above HRMC's observed prices. (*Id.* at 25.) Consequently, Plaintiffs contend that Dr. McCarthy's opinion is inadmissible. (*See id.* at 20–26.)

Turning to the Damages Opinion, Plaintiffs primarily challenge Dr. McCarthy's reliance on a third-party valuation report prepared by Health Capital Consultants, LLC ("**HCC Valuation Report**") in determining Omni's fixed, variable, and partially variable costs. (*Id.* at 7, 9.) Plaintiffs argue that the cost estimates in the HCC Valuation Report: (1) do not reflect the economic realities of Omni's business; (2) lack a valid scientific connection to the disputed facts in the instant action; and (3) were unreasonably relied on by Dr. McCarthy. (*Id.* at 7.)

In particular, the authors of the HCC Valuation Report expressly disclaimed the reliability of the report for any purpose other than the estimation of Omni's fair market value.[4] (*Id.* at 9, 11.) Plaintiffs also seek exclusion of the Damages Opinion on the

[4] In its entirety, the disclaimer reads as follows:

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001423

grounds that Dr. McCarthy failed to independently verify the qualifications of the HCC Valuation Report's authors or the accuracy of their assumptions and conclusions. (*Id.* at 9.)

In their response, the Corporate Defendants raise several objections to Plaintiffs' *Daubert* Motion. (Doc. 214.) First, Corporate Defendants contend that Plaintiffs' criticism of Dr. McCarthy's Liability Opinion reflects "a fundamental misunderstanding of Dr. McCarthy's analysis and, ultimately, its purpose." (*Id.* at 10.) According to the Corporate Defendants, the purpose of Dr. McCarthy's regression analysis was to determine whether Health First's hospitals have high prices compared to their peer hospitals in Florida and whether market power was likely to be the cause of any pricing differentiation. (*Id.*) To achieve this purpose, Dr. McCarthy ran a regression to estimate how *non*-market power factors—including case-mix, patient demographics, input costs, and market power—affect prices on average; then he used the combined effect of those non-market factors to calculate the "expected" price for each hospital in Florida. (*Id.*) In light of this methodology, the Corporate Defendants maintain that: (1) Dr. McCarthy's regression analysis purposefully controlled for non-market power factors; and (2)

"The objective of this REPORT is to provide an estimate of the *Fair Market Value* . . . as of the VALUATION DATE, of the SUBJECT INTEREST. The purpose and specific use of this REPORT is to assist [Omni] in its advertisement to the management of the SUBJECT ENTITY regarding the consideration of a prospective transaction of the SUBJECT INTEREST.

The opinions expressed in this REPORT are restricted to that use and not valid if used for any other purpose. Any other use of this REPORT may lead the user to an incorrect conclusion for which the VALUATOR assumes no responsibility. No other use of this REPORT is permitted without the express written authorization of the VALUATOR. Possession of this REPORT or a copy thereof does not carry with it the right of publication. It may not be used for any other purpose, in whole or in part, by anyone except [Omni], for whom this REPORT was prepared, or conveyed to any other third party without the previous express written consent of the VALUATOR." (Doc. 197-2, pp. 9)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001424

therefore, the expected prices produced from the regression analysis contained no information about market power *by design*. (*Id.*) The Corporate Defendants represent that, because market power is captured only in the residual—that is, the difference between the expected price and actual observed price—Dr. McCarthy's analysis compares the residuals for each hospital in Florida to assess the relative market power of the Health First hospitals. (*Id.* at 11.) Consequently, Dr. McCarthy explains that his regression analysis determines the portion of the price explained by the observable non-market power factors to better isolate the portion of the price attributable to market power. (*Id.* at 12.)

Based on the foregoing, the Corporate Defendants reject the criticism of Plaintiffs' liability expert, Dr. H.E. Frech, III ("**Dr. Frech**"), who avers that Dr. McCarthy should have applied the standard error of the forecast ("**SEF**")[5] to account for variation in the dependent variable—the actual, or observed, prices left unexplained by the expected prices as estimated by the regression. (*Id.* at 11–12.) According to Dr. McCarthy, applying the SEF in this manner would have double-counted the residual. (*Id.* at 12.) Additionally, Dr. McCarthy explains that the breadth of Dr. Frech's confidence intervals is not surprising because the expected prices, unlike the observed prices, do not account for any measure of possible market power. (*Id.*) The gist of this argument is that Dr. Frech's confidence intervals compare apples to oranges. According to Dr. McCarthy, a properly computed confidence interval for his analysis reveals a much narrower confidence interval. (*Id.* at 12–13.)

[5] According to Plaintiffs, SEF is a measure of the degree of accuracy of a forecast. (Doc. 197, p. 24.)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001425

In addressing Plaintiffs' criticism of the Negative and Flipped Correlations, the Corporate Defendants contend that Dr. McCarthy's regression model is a "reduced form" model and, therefore, "does not presume a specific defined 'structural' relationship between the dependent variable and the explanatory variables of the regression." (*Id.* at 13.) The Corporate Defendants represent that: (1) a "reduced form" regression model can account for multiple and possibly competing structural relationships at the same time (*id.* at 13–14 (citing THAD W. MIRER, ECONOMIC STATISTICS & ECONOMETRICS 368–71 (3d ed. 1995))); and (2) as such, reduced form regression models often yield results that "have coefficient estimates that are statistically insignificant, . . . signs that are different than what economic theory may predict in a vacuum for any one variable, or that even change when estimated based on data from different time periods." (*Id.* at 14.) Moreover, referencing case law from the U.S. Supreme Court and within the U.S. Court of Appeals for the Eleventh Circuit, the Corporate Defendants aver that purported errors in the way an economist performs a regression analysis go to the weight, and not the admissibility, of the expert's opinion. (*Id.* at 15–16.) Finally, the Corporate Defendants point to a lack of evidence tending to show that: (1) the results of Dr. McCarthy's regression would change if the model was "corrected" as suggested by Dr. Frech; (2) the reliability of the regression model is questionable; or (3) Dr. McCarthy's regression methodology was so incomplete or inaccurate that an economist would not have relied on it in rendering an opinion. (*Id.* at 16.)

As to Dr. McCarthy's Damages Opinion, the Corporate Defendants argue that it was reasonable for Dr. McCarthy to use the variable costs identified in the HCC Valuation Report to perform his alternative estimate of damages because: (1) such costs were

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001426

determined in 2009 and 2010—entirely independent of the instant litigation; (2) the authors of the HCC Valuation Report had the necessary expertise to determine the difference between a fixed and variable cost; and importantly, (3) the authors consulted with Omni management and ownership in preparing the valuation report and also considered historical trends. (*Id.* at 5, 6.) As such, Dr. McCarthy concluded that the HCC Valuation Report was "the best independent information available to identify each category of operating costs as fixed, variable or partially variable in response to changes in physician counts." (Doc. 225, ¶ 57.) To corroborate this conclusion, the Corporate Defendants cite deposition testimony from Dr. Deligdish, in which he stated that Omni "cooperated with the valuation and the individuals doing the valuations so that they could provide the most accurate valuation of the company," and "provided them with full and total access to any information they requested." (Doc. 214-7, p. 9.) Therefore, the Corporate Defendants contend that it was not unreasonable for Dr. McCarthy to rely on the HCC Valuation Report without further consultation with its authors and without conducting any further independent investigation. (Doc. 214, p. 8.)

As an initial matter, there is no challenge to Dr. McCarthy's qualifications. Plaintiffs' objections are primarily geared toward the reliability of his data. Pursuant to the principles espoused in *Kumho Tire Co. v. Carmichael*, 119 S. Ct. 1167 (1998), all expert testimony should be evaluated for its relevance and reliability under criteria appropriate to the given discipline. *See also SMS Sys. Maint. Serv. Inc. v. Dig. Equip. Corp.*, 188 F.3d 11, 25 (1st Cir. 1999) ("An expert must vouchsafe the reliability of the data on which he relies and explain how the cumulation of that data was consistent with standards of the expert's profession.").

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001427

Upon consideration, the Court finds that Dr. McCarthy's regression analysis model is reliable and that his explanation in response to Plaintiffs' criticisms are reasonable. Importantly, the weight Dr. McCarthy's Liability Opinion is to be afforded, in light of the apparent inconsistencies in the Flipped and Negative Correlations, will have to be developed on cross examination and ultimately evaluated by the jury. Drs. McCarthy and Frech clearly disagree about the significance of such factors; however, this does not mean that the Court should "select" one expert over the other. Such a selection would usurp the function of the jury and counsel advocacy. Additionally, while the wide range of confidence interval values may indeed undercut the usefulness of Dr. McCarthy's opinion, it does not render the opinion inadmissible. The Court admits that the breadth of such range did present a close call as to whether Dr. McCarthy's opinion meets the *Daubert* "fit" or helpfulness prong. Nonetheless, for now, the Court concludes that the opinion is admissible.

As to Dr. McCarthy's Damages Opinion, while Plaintiffs challenge the propriety of Dr. McCarthy's wholesale adoption of Omni's fixed and variable costs as set forth in the HCC Valuation Report, they do not argue that the methodology employed in the report is itself unsound. Whether such use undermines the reliability of Dr. McCarthy's opinion is a "garbage in, garbage out" objection that is best left for cross examination. Standing alone, Dr. McCarthy's Damages Opinion may or may not be sufficient to support a defense verdict, but it is admissible. Therefore, Plaintiffs' *Daubert* motion is due to be denied.

b. Dr. Frech

According to the Corporate Defendants, Dr. Frech intends to provide expert

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001428

testimony: (1) defining the relevant product markets for Defendants' alleged anticompetitive conduct; (2) determining whether Health First possessed monopoly power and caused anticompetitive effects; and (3) evaluating whether there are any efficiency justifications that might outweigh such anticompetitive effects. (Doc. 194, p. 2.) The Corporate Defendants contend that the Court should exclude Dr. Frech's testimony because his methodology is flawed and his opinions are based on insufficient or incorrect facts or data that are contradicted by the record. (*Id.* at 1, 3.) Specifically, the Corporate Defendants maintain that Dr. Frech has not conducted any competitive pricing analysis of any market but, instead, has relied solely on the allegations in the Complaint, Plaintiffs' interrogatory answers, and select documents provided to him by another expert's assistant. (*Id.* at 3.) The Corporate Defendants also maintain that Dr. Frech's theory of liability: (1) has not been subject to peer review; (2) has an uncertain potential rate of error; and (3) is not generally accepted. (*Id.* at 20–21.)

The Corporate Defendants primarily criticize Dr. Frech's definition of the SBC geographical market and the cluster markets for services within that market. The Court declines to exclude Dr. Frech's opinion on this basis. As a threshold matter, Dr. Frech's report sets forth, in painstaking detail, the economic and factual grounds for his definition of the geographical market. (*See* Doc. 194-1, pp. 110–127.) These grounds are well in line with the Supreme Court's instruction that the definition of a relevant market should be a "pragmatic" exercise, "not a formal, legalistic one." *Brown Shoe Co. v. United States*, 370 U.S. 294, 336 (1962). Moreover, as set forth in Dr. Frech's report, the SBC geographic market is also supported by Health First's own internal documents and positions taken in prior litigation. (*See* Doc. 194-1, pp. 119, 121.) The Supreme Court has

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001429

also recognized that there is "no barrier to combining in a single market a number of different products or services where that combination reflects commercial realities." *United States v. Grinnell Corp.*, 384 U.S. 563, 572 (1966).

The remainder of the *Daubert* motion criticizes Dr. Frech's purported testimony as either contradicted by record evidence or factually unsupported. (*See* Doc. 194, pp. 13–20, 22–24.) Though the Corporate Defendants partially attack this testimony as "untested conclusions," the Court agrees with Plaintiffs' view that Health First's challenge largely amounts to a motion for summary judgment. (*See* Doc. 212, pp. 14–15.) "[I]t is not the role of the district court to make ultimate conclusions as to the persuasiveness of the proffered evidence." *Quiet Tech. DC-8, Inc. v. Hurel-Dubois UK Ltd.*, 326 F.3d 1333, 1341 (11th Cir. 2003). As such, the Court declines to follow the Corporate Defendants down the path of conflating admissibility with sufficiency. Indeed, "[t]he *Daubert* analysis should not supplant a trial on the merits." *Mathis v. Exxon Corp.*, 302 F.3d 448, 461 (5th Cir. 2002).

On balance, the Court finds that the Corporate Defendants' *Daubert* motion as to Dr. Frech is also due to be denied.

c. Dr. Singer

In a second *Daubert* motion, the Corporate Defendants move to exclude the testimony of Dr. Singer on the grounds that his methodology is flawed and his opinions are based on insufficient or incorrect facts or data. (Doc. 199, p. 1.) Specifically, the Corporate Defendants argue that: (1) because Dr. Singer's testimony relies on the testimony of Dr. Frech, it is flawed to the same extent that Dr. Frech's testimony is flawed; (2) Dr. Singer purports to testify that Plaintiffs should be awarded damages that do not

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001430

flow from Defendants' alleged anticompetitive conduct; and (3) Dr. Singer's damage calculations are contradicted by the facts and based on erroneous assumptions. (*Id.* at 1–2.)

Importantly, the Corporate Defendants take issue with Dr. Singer's seemingly blind acceptance of testimony that Plaintiffs' injuries were caused by Defendants' Alleged Common Scheme. (*Id.* at 5–10.) That is, the Corporate Defendants contend that Dr. Singer failed to consider alternative explanations or independently investigate the basis for such testimony. (*See id.* at 8–9.) Other challenges to Dr. Singer's report include arguments that he misattributed damages (*see id.* at 11–12 15–16, 19) and assumed a zero attrition rate among Omni physicians alleged to have left the practice as a result of Defendants' conduct (*id.* at 9-10).

In response, Plaintiffs argue that a damages expert may properly assume causation. (Doc. 213, p. 3.) Plaintiffs also point to portions of Dr. Singer's deposition in which he testified that he independently reviewed Plaintiffs' evidence for corroboration and explicitly recognized that Omni has at times experienced attrition for reasons unrelated to Defendants' conduct. (*See* Doc. 199-1, pp. 25, 26, 88 n.22.)

The Court construes the Corporate Defendants' challenge as an attack on Dr. Singer's damages model based on the failure to include all possible variables with respect to causation. However, "[a]ntitrust law does not require that the defendant be the exclusive cause of the plaintiff's injury but only a 'material' one." *Gulf States Reorganization Grp. v. Nucor Corp.*, 466 F.3d 961, 965 (11th Cir. 2006). Thus, while Dr. Singer's testimony may very well be subject to scrutiny on cross-examination, the Court finds that it is not excludable on this basis.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001431

In a similar vein, although the Corporate Defendants contend that Plaintiffs have the burden of disaggregating losses in the event that some losses are attributable to Defendants' illegal acts and other losses are not (Doc. 199, p. 4), the Court is persuaded by contrary authority. The Supreme Court has concluded that, where "the evidence sustain[s] verdicts for the plaintiffs,"

> in the absence of more precise proof, the jury [may] conclude as a matter of just and reasonable inference from the proof of the defendants' wrongful acts and their tendency to injure plaintiffs' business, and from the evidence of the decline in prices, profits[,] and values, not shown to be attributable to other causes, that defendants' wrongful acts had caused damage to the plaintiffs."

Bigelow v. RKO Radio Pictures, Inc., 327 U.S. 251, 264 (1946). Referencing proof of damage in antitrust suits, the *Bigelow* Court reiterated that "[t]he most elementary conceptions of justice and public policy require that the wrongdoer shall bear the risk of uncertainty which his own wrong has created." *Id.* at 265. In such circumstances, "the wrongdoer may not object to the plaintiff's reasonable estimate of the cause of injury and of its amount, supported by the evidence, because not based on more accurate data which the wrongdoer's misconduct has rendered unavailable." *Id.* Such authority supports Plaintiffs' contention that the burden should be on the violator—if liability is established—to disaggregate monetary losses. From there, the jury may be charged with carving out of Dr. Singer's testimony monetary losses unrelated to the challenged conduct, if any. As such, the Corporate Defendants' motion to exclude the testimony of Dr. Singer is due to be denied.

THE SUMMARY JUDGMENT MOTIONS

I. Standards

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001432

Summary judgment is appropriate only "if the movant shows that there is no genuine dispute as to any material fact and that the movant is entitled to judgment as a matter of law." Fed. R. Civ. P. 56(a); *Celotex Corp. v. Catrett*, 477 U.S. 317, 323 (1986). As to issues for which the movant would bear the burden of proof at trial, the "movant must affirmatively show the absence of a genuine issue of material fact, and support its motion with credible evidence demonstrating that no reasonable jury could find for the non-moving party on all of the essential elements of its case." *Landolfi v. City of Melbourne, Fla.*, 515 F. App'x 832, 834 (11th Cir. 2012) (citing *Fitzpatrick v. City of Atlanta*, 2 F.3d 1112, 1115 (11th Cir. 1993)). As to issues for which the non-movant would bear the burden of proof at trial, the movant has two options: (1) the movant may simply point out an absence of evidence to support the nonmoving party's case; or (2) the movant may provide "affirmative evidence demonstrating that the nonmoving party will be unable to prove its case at trial." *U.S. v. Four Parcels of Real Property in Green and Tuscaloosa Ctys. in State of Ala.*, 941 F.2d 1428, 1438 (11th Cir. 1991) (citing *Celotex Corp.*, 477 U.S. at 325).

"The burden then shifts to the non-moving party, who must go beyond the pleadings and present affirmative evidence to show that a genuine issue of material fact exists." *Porter v. Ray*, 461 F.3d 1315, 1320 (11th Cir. 2006) (citing *Fitzpatrick*, 2 F.3d at 1115–17). "A factual dispute is genuine 'if the evidence is such that a reasonable jury could return a verdict for the nonmoving party.'" *Four Parcels*, 941 F.2d at 1437 (quoting *Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242, 248 (1986)).

The Court must view the evidence and all reasonable inferences drawn from the evidence in the light most favorable to the non-movant. *Battle v. Bd. of Regents*,

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001433

468 F.3d 755, 759 (11th Cir. 2006). However, "[a] court need not permit a case to go to a jury . . . when the inferences that are drawn from the evidence, and upon which the non-movant relies, are 'implausible.'" *Mize v. Jefferson City Bd. of Educ.*, 93 F.3d 739, 743 (11th Cir. 1996).

II. Corporate Defendants' Motion for Summary Judgment ("MSJ")

A. Statute of Limitations

As a preliminary matter, the Court elects to address the Corporate Defendants' final argument in its MSJ—its contention that Plaintiffs' claims are partially barred by the four-year statute of limitations applicable to their antitrust and state law claims. *See* 15 U.S.C. § 15b; Fla. Stat. §§ 95.11(3)(f), 95.11(3)(p). Plaintiffs initiated the instant action on **September 27, 2013**. (*See* Doc. 1.) As such, the Corporate Defendants maintain that any claims or damages that accrued prior to **September 27, 2009**, are time barred. (Doc. 201, p. 33.) In particular, the Corporate Defendants argue that Plaintiffs may not seek any damages predicated on the termination of: (1) Omni's provider contracts with HFHP on October 1, 2008; (2) Dr. Dowdell's provider agreement with HFHP in February 2007; or (3) Dr. Komar's employment at the Heath First emergency intensive care unit in January 2009. (*Id.* at 33, 34, 37.) The Corporate Defendants also contend that, because Dr. Seminer disposed of his Omni shares in March 2009, any damages he suffered were sustained at that time and are thus barred. (*Id.* at 38.)

In response, Plaintiffs urge the Court to apply the continuing violation doctrine. (Doc. 235, p. 40.) In support, Plaintiffs argue that none of their claims are solely predicated on the termination of their provider agreements, but rather on Defendants' ongoing Alleged Common Scheme, inclusive of the 2013 MIMA Acquisition. (*Id.* at 39.)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001434

Indeed, Plaintiffs point to Dr. Singer's damages report, which describes the effects of Omni's continuing exclusion from the HFHP network, inclusive of the 2008 termination. (Doc. 235-47, ¶ 10.)

The former Fifth Circuit thoroughly addressed the application of the continuing violation doctrine in *Poster Exchange, Inc. v. National Screen Service Corporation*, 517 F.2d 117 (5th Cir. 1975), a decision that is binding on this Court. *See Bonner v. City of Prichard, Ala.*, 661 F.2d 1206, 1207 (11th Cir. 1981). The plaintiff in *Poster Exchange* alleged that the defendants engaged in a continued, unlawful antitrust conspiracy, monopoly, and attempted monopoly within the motion picture accessory industry. 517 F.2d at 119. One of the three issues on appeal was the applicability of the statute of limitations to the plaintiff's claim of a continuing antitrust conspiracy. *Id.* at 122. The Fifth Circuit agreed with the plaintiff's assertion that it was entitled to recover damages caused by the defendants' continuation of the alleged monopoly and conspiracy and that such actions should be treated "as a continuing series of acts upon which successive causes of action may accrue." *Id.* at 124–25. In so concluding, the Fifth Circuit highlighted that the plaintiff's complaint was "based on continuing antitrust behavior, not merely the continuing damage it feels from a single day's monopoly and refusal to deal" outside the limitations period. *Id.* at 125. Moreover, the *Poster Exchange* court stated that binding authority "la[id] to rest the theory that . . . suit upon a continued antitrust violation must be prosecuted from the first act of illegality (plus, of course, any period during which the limitations period was tolled.)" *Id.* at 126. The Fifth Circuit also distinguished between a violation that is final at its impact, such as the immediate and permanent destruction of a plaintiff's business, and the violation at issue in *Poster Exchange*, whereby "the action

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001435

complained of the was the exclusion of [the plaintiff] from any participation in the [relevant industry]," noting that in the latter example, "such action, while perhaps unequivocal, was not [necessarily] permanent." *Id.* at 126–27. However, the Fifth Circuit also clarified that "a newly accruing claim for damages must be based on some injurious act actually occurring during the limitations period, not merely the abatable but unabated inertial consequences of some pre-limitations action"—that is, the plaintiffs must demonstrate that the defendant's actions during the limitations period caused it harm. *Id.* at 128.

In anticipation of Plaintiffs' continuing violation argument, the Corporate Defendants rely on case law providing that, "[w]here rights and liabilities are finalized by a contract or by denial of a contract, and damages are at that time provable with certainty, the statute of limitations begins to run at that time." *Midwestern Waffles Inc. v. Waffle House, Inc.*, 734 F.2d 705, 715 (11th Cir. 1984); *see also City of El Paso v. Darbyshire St. Co.*, 575 F.2d 521, 523 (5th Cir. 1978). In support, the Corporate Defendants contend that the termination of Omni and Dr. Dowdell's provider agreements were final and unequivocal as of October 1, 2008, and February 1, 2007, respectively. (Doc. 201, p. 35.) The Corporate Defendants also argue that HFHP did not create any new or accumulating injuries by any subsequent refusals to deal. (*Id.* at 36.) Indeed, the Corporate Defendants maintain that all damages claimed by Omni and Dr. Dowdell in the instant litigation stem from the original termination of their provider agreements and not from any subsequent refusals to deal, as these were merely reaffirmations of the initial termination. (*Id.* at 36, 37.) To this point, Plaintiffs counter that Health First genuinely entertained reinstating Omni's provider agreement on multiple occasions over the years following Omni's termination. (Doc. 235, p. 40.)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001436

Under *Midwestern Waffles*, if Plaintiffs' subsequent requests for reinstatement as participating providers with HFHP were genuine—i.e., if Plaintiffs had reason to believe that their original terminations were subject to reconsideration—then "there would be a new alleged injury when a genuine subsequent request was denied." 734 F.2d at 715. Upon consideration of the record, the Court finds that Plaintiffs have produced evidence sufficient to warrant the application of the continuing violation doctrine. The instant action is more akin to the circumstances presented in *Poster Exchange* and the example of a genuine request for reinstatement as set forth in *Midwestern Waffles*. Plaintiffs cite to exhibits that demonstrate that HFHP considered reinstating Plaintiffs' provider agreements during the limitations period. (Doc. 238-36, 238-37, Doc. 238-38, Doc. 238-51, pp. 8–11.) This evidence shows that in two instances Health First conditioned Omni's reinstatement on its purchase of HFHP insurance for its employees (Doc. 238-36) and its individual physicians joining a physicians group, such as MIMA, that was "in line with Health First['s] interest" (Doc. 238-51, pp. 10–11). The record also supports Plaintiffs' contention that HFHP considered reinstating Dr. Dowdell in March of 2008. (Doc. 298-29.) Thus, HFHP's continued exclusion of Dr. Dowdell from the HFHP network despite his requests for reinstatement during the limitations period may also be fairly construed as new injuries under the continuing violation doctrine. (*See* Doc. 235-38, ¶¶ 15–16.)

Similarly, the Corporate Defendants argue that the state law claims of Omni, Dr. Deligdish, SOAR, Dr. Komar, Boone, PAS, and Dr. Dowdell are also barred by the statute of limitations. (Doc. 201, pp. 37–38.) While it is true, as Defendants argue, that under Florida law a cause of action accrues from the time the injury is first inflicted on the

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001437

plaintiff, *Carter v. Cross*, 373 So. 2d 81 (Fla. 3d DCA 1979), it is also true that Florida recognizes the continuing tort doctrine. *Seaboard Air Line R.R. Co. v. Holt*, 92 So. 2d 169, 170 (Fla. 1956). In light of the foregoing, the Court finds that the application of the continuing tort doctrine is also warranted under the circumstances. As such, Defendants are not entitled to judgment as a matter of law on their statute of limitations defense at this time.

B. Count I

In Count I of the Complaint, Plaintiffs allege that the MIMA Acquisition was an impermissible merger in restraint of trade, thus violating Section 7 of the Clayton Act. (Doc. 57, ¶¶ 291–99.) Section 7 prohibits acquisitions "where in any line of commerce or in any activity affecting commerce in any section of the country, the effect of such acquisition may be substantially to lessen competition, or tend to create a monopoly." *Polypore Int'l, Inc. v. Fed. Trade Comm'n*, 686 F.3d 1208, 1213 (11th Cir. 2012) (quoting 15 U.S.C. § 18). Importantly, "Congress used the words 'may be substantially to lessen competition' to indicate that its concern was with probabilities, not certainties." *Brown Shoe Co.*, 370 U.S. at 323 (1962).

The crux of the Corporate Defendants' MSJ as to Count I is that Plaintiffs have uncovered no evidence that the MIMA Acquisition substantially lessened competition or tended to create a monopoly in the relevant market for physician services in SBC. (Doc. 201, p. 3.) The Court disagrees.

In the Complaint, Plaintiffs aver that, by acquiring the largest independent physicians group in SBC, Health First substantially lessened competition in the market for physician services by: (1) requiring that former MIMA physicians no longer accept

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001438

Medicare Advantage plans not offered by Health First, thereby forcing patients who wished to maintain their relationships with their physicians to switch to Health First's Medicare Advantage plans; and (2) ensuring that all employed physicians referred patients exclusively to Health First's hospitals, physicians, and ancillary service providers. (*Id.* ¶¶ 3, 263, 294.)

The parties first dispute whether the MIMA Acquisition is a vertical or horizontal merger. (*See* Doc. 235, p. 9; Doc. 249, pp. 4–5.) As Plaintiffs' Complaint alleges that the MIMA Acquisition was a vertical merger *(see, e.g.*, Doc. 57, ¶ 261), Plaintiffs are entitled to proceed under this theory if supported by the evidence.

As defined by the Supreme Court, "[e]conomic arrangements between companies standing in a supplier-customer relationship are characterized as 'vertical.'" *Brown Shoe Co.*, 370 U.S. at 323. On the other hand, "[a]n economic arrangement between companies performing similar functions in the production or sale of comparable goods or services is characterized as 'horizontal.'" *Id.* at 334.

Defendants admit that Health First is a non-for-profit corporation, with its principal place of business in SBC, which bills itself as "Central Florida's only fully integrated health system." (Doc. 11, p. 11.) Additionally, Health First is the parent corporation of: (1) HRMC; (2) Cape Canaveral Hospital; (3) Palm Bay Hospital; (4) Viera Hospital; (5) HF Physicians; and (6) HFHP. (*Id.*) Moreover, at the time of the MIMA Acquisition, MIMA was the largest independent physicians group in SBC. (Doc. 111, p. 3.) In light of these admissions, the Court finds that Plaintiffs' characterization of the MIMA Acquisition as a vertical merger is supported by the evidence as MIMA and Health First's other subsidiaries can be fairly described as downstream suppliers in Health First's integrated,

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001439

vertical market. *See* Joshua S. Gans, *Concentration-Based Merger Tests and Vertical Market Structure*, 50 J.L. & ECON. 661, 670 (2007) (explaining that the nature of a vertically integrated firm is its function as a net supplier of inputs and that "[a] merger between any upstream and downstream firm is a pure vertical integration").

In evaluating how a vertically integrated firm may lessen competition in a geographic market, the Supreme Court explained that,

> [t]he primary vice of vertical merger or other arrangement tying a customer to a supplier is that, by foreclosing the competitors of either party from a segment of the market otherwise open to them, the arrangement may act as a clog on competition, which deprives rivals of a fair opportunity to compete.

Brown Shoe Co., 370 U.S. at 323–24 (citing *Standard Oil Co. of Cal. v. United States*, 337 U.S. 293, 314 (1949)). Therefore, "the diminution of the vigor of competition which may stem from a vertical arrangement results primarily from a foreclosure or share of the market otherwise open to competitors." *Id.* at 328.

Contrary to the Corporate Defendants' contention, Plaintiffs maintain that they have produced sufficient evidence to demonstrate that the MIMA Acquisition substantially lessened competition in SBC. (Doc. 235, pp. 3–4.) First, Plaintiffs point to Kimberley Nowakowski's deposition testimony that physicians employed by HF Physicians are required to refer patients to Health First facilities or providers, unless: (1) the patient chooses otherwise; (2) medical necessity requires otherwise; or (3) the patient's insurance payer provides otherwise. (Doc. 235-38, p. 21.) Second, in his expert report, Dr. Frech concludes that, through acquisition and alignment, Health First has foreclosed more than 25% of the physician services market by its Exclusive Referral Practice. (Doc. 235-1, p. 81.) Finally, Plaintiffs produced a document entitled "HFMG Medicare

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001440

Advantage Transition Plan Summary" which outlines a plan for eliminating all non-HFHP Medicare Advantage plans, as established during the MIMA Acquisition. (Doc.235-4, p. 2.)

Upon consideration of the evidence, the Court finds that there is a genuine issue of material fact as to whether the MIMA Acquisition substantially lessens competition or tends to create a monopoly in SBC, thus foreclosing judgment as a matter of law as to Count I.[6]

C. Count II

In Count II, Plaintiffs allege that Health First and HRMC[7] have monopolized the acute care inpatient hospital services market in SBC in violation of Section 2 of the Sherman Act. (Doc. 57, ¶¶ 300–314.) Specifically, Plaintiffs aver that Health First's monopoly power in the inpatient hospital services market is demonstrated by: (1) its ability to exclude rival providers of inpatient hospital services; (2) its ability to raise prices to private health insurers and other third-party payors to above-competitive levels; and (3) its near 70% market share. (*Id.* ¶ 302.) Plaintiffs also allege that Health First has exercised, maintained, and exploited this monopoly power through exclusionary and anticompetitive conduct, including the Exclusive Referral Practice, group boycotts, concerted refusals to

[6] The Court also rejects the Corporate Defendants' argument that Plaintiffs lack standing to sue because they have not been *totally* excluded from the market. (*See* Doc. 201, p. 3 n.2.) As previously stated, "[t]he primary vice of vertical merger or other arrangement tying a customer to a supplier is that, by foreclosing the competitors of either party from a *segment* of the market otherwise open to them, the arrangement may act as a clog on competition, which deprives rivals of a fair opportunity to compete." *Brown Shoe Co.*, 370 U.S. at 323–24 (emphasis added). Moreover, nowhere in the Corporate Defendants' cited authority does the Eleventh Circuit pronounce that antitrust injury requires complete exclusion from the relevant market. *See Gulf States*, 466 F.3d 961.

[7] For purposes of addressing the Corporate Defendants' MSJ as to Count II only, the Court will refer to Health First and HRMC collectively as "Defendants."

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001441

deal, and monopoly leveraging. (*Id.* ¶ 305.)

"Section 2 of the Sherman Act provides that every person who shall monopolize, or attempt to monopolize any part of the trade or commerce among the several States shall be deemed guilty of a felony." *Morris Commc'ns Corp. v. PGA Tour Inc.*, 364 F.3d 1288, 1293 (11th Cir. 2004) (citing 15 U.S.C. § 2). In particular,

> [t]he offense of monopoly under § 2 of the Sherman Act has two elements: (1) the possession of monopoly power in the relevant market[;] and (2) the willful acquisition or maintenance of that power as distinguished from growth or development as a consequence of a superior product, business acumen, or historic accident.

Id. at 1293–94 (quoting *Grinnell Corp.*, 384 U.S. at 570–71). "The first element, monopoly power, is the power to control prices in or to exclude competition from the relevant market. The second element requires predatory or exclusionary acts or practices that have the effect of preventing or excluding competition within the relevant market." *Id.* at 1294. "In order for a practice to be exclusionary, it must harm the competitive process and thereby harm consumers." *Id.*

In their MSJ as to Count II, the Corporate Defendants contend that Plaintiffs have presented no evidence that either Health First or HRMC: (1) has the ability to control prices or exclude competition; or (2) engaged in any exclusionary conduct. (Doc. 201, pp. 5–8.) Plaintiffs counter that: (1) Health First's market share is prima facie evidence of monopoly power in the hospital market; and (2) the substantial barriers to entry in that market reinforce the power conferred by that market share. (*See* Doc. 235, p. 11–18.)

As stated by the Eleventh Circuit, "[t]he principal measure of actual monopoly power is market share." *U.S. Anchor Mfg., Inc. v. Rule Indus.*, 7 F.3d 986, 999 (11th Cir. 1993). Dr. Frech's expert report concludes that Health First's share of the

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001442

hospital market was 86.8% in 2014. (Doc. 235-1, p. 68 tbl.4.) Based on this evidence, the Court concludes that Plaintiffs have created a genuine issue of material fact as to Defendants' ability to exclude competition from the relevant market. *See Rule Indus.*, 7 F.3d at 999 (stating that "a sufficiently large market share may alone create a genuine dispute over whether the defendant possessed a dangerous probability of successfully monopolizing a market despite the existence of other facts tending to make monopolization unlikely, thereby precluding summary judgment for the defendant"). Indeed, the Eleventh Circuit has explicitly pronounced that binding circuit precedent compels the conclusion that "[a] market share estimated with reasonable confidence to fall between 60 and 65% suffices to raise a jury question concerning dangerous probability." *Id.* (citing *MaGhee v. N. Propone Gas Co.*, 858 F.2d 1487, 1506 (11th Cir. 1988)); *see also Grinnell Corp.*, 384 U.S. at 571 (finding that an 87% market share "leaves no doubt" as to monopoly power). In assessing whether an entity possesses monopoly power within a market, courts typically examine market structure in search of circumstantial evidence of monopoly power, such as whether the firm has a predominant market share and whether there is freedom of, or barriers to, entry. *McWane Inc. v. Fed. Trade Comm'n*, 783 F.3d 814, 830 (11th Cir. 2015).Therefore, evidence of Defendants' 86.8% market share in the inpatient hospital services market, coupled with Plaintiffs' evidence demonstrating the existence of high barriers to entry into the relevant market (*see* Doc. 235-1, pp. 69–70), presents a jury question as to the first element required for liability on Count II.

The Court similarly concludes that Plaintiffs have raised a factual issue for determination by the jury with respect to the second element of their claim in Count II—

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001443

the willful acquisition or maintenance of monopoly power as evidenced by the exclusion of competitors within the relevant market. Dr. Frech concluded that Defendants' exclusionary practices have resulted in antitrust injury—namely, the diversion of referrals from its providers—in multiple markets, including the acute-care inpatient services market. (Doc. 235-1, pp. 5–6, 87–90.) This evidence is corroborated by witness testimony elaborating on the specific ways in which Defendants engaged in exclusionary practices through its Exclusive Referral Practice. (*E.g.*, Doc. 235-38, pp. 5–6; Doc. 235-42, pp. 5–6; Doc. 238–45, pp. 4–5.) As such, the Corporate Defendants' MSJ as to Count III is due to be denied.

D. Counts III, IV, V, and VI

In Counts III through VI of the Complaint, Plaintiffs assert several attempted monopolization claims under Section 2 of the Sherman Act. (Doc. 57, ¶¶ 315–366.) Specifically, Plaintiffs allege that: (1) Health First and HF Physicians attempted to monopolize the physician services market (Count III); (2) Health First, HMRC, and HF Physicians attempted to monopolize the ancillary services market (Count IV); (3) Health First and HFHP attempted to monopolize the private health insurance market (Count V); and (4) Health First and HFHP attempted to monopolize the Medicare Advantage Market (Count VI). (*Id.*)

Under § 2 of the Sherman Act, "the conduct of a single firm [is] unlawful only when it actually monopolizes or threatens to do so." *Spectrum Sports, Inc. v. McQuillan*, 506 U.S. 447, 459 (1993). Thus, to state a claim for attempted monopolization, a plaintiff must demonstrate: (1) that the defendant possessed the specific intent to achieve monopoly power by predatory or exclusionary conduct; (2) that the defendant did in fact commit

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001444

such anticompetitive conduct; and (3) a dangerous probability that the defendant might have succeeded in its attempt to achieve monopoly power. *Rule Indus.*, 7 F.3d at 993.

"Most attempts to measure monopoly power involve quantifying the degree of concentration in a relevant market and/or the extent of a particular firm's ability to control productive capacity in that market." *Id.* at 994. Other relevant determinants of the market power of a prospective predator include the absolute and relative market shares of competing firms, "the strength and capacity of current competitors, the potential for entry[,] the historic intensity of competition[,] and the impact of the legal or natural environment. *Id.* (quoting *In re Int'l Tel. & Tel. Corp.*, 104 F.T.C. 280, 412 (1984)). However, "[d]espite the seemingly broad array of factors employed by the Federal Trade Commission, the principal judicial device for measuring actual or potential market power remains market share, typically measured in terms of a percentage of total market sales." *Rule Indus.*, 7 F.3d at 994.

Moreover, "[i]n evaluating a § 2 attempt to monopolize claim, it is necessary to consider the relevant market . . ." *Tech. Res. Servs., Inc. v. Dornier Med. Sys., Inc.*, 134 F.3d 1458, 1466 (11th Cir. 1998) (citing *Spectrum Sports,* 506 U.S. at 459). As such, the Court will, in turn, discuss whether the respective Defendants are entitled to summary judgment on Plaintiffs' attempted monopolization claims within each relevant market.

1. Physician Services Market

In their attempted monopolization claim in Count III, Plaintiffs allege that the relevant market is the physician services market in SBC. (Doc. 57, ¶ 316.) The Corporate Defendants contend that Plaintiffs' claim fails as a matter of law because: (1) a dangerous probability of success cannot be shown when the defendant possesses less than 50% of

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001445

the market; (2) there are low entry barriers into the physician services market; and (3) there is no evidence of any specific intent by HF Physicians to monopolize the physicians services market. (Doc. 249, p. 7; *see also* Doc. 201, p. 10.) The Corporate Defendants also maintain that Plaintiffs failed to properly define a relevant market. (Doc. 201, p. 10.)

With respect to the Corporate Defendants' contention that Plaintiffs have failed to define a relevant market, Plaintiffs' point to their response to the Corporate Defendants' *Daubert* motion to exclude the testimony of Dr. Frech—a motion which the Court intends to deny. (Doc. 235, p. 21.) In similar fashion, the Court rests on its prior pronouncement that the markets defined by Dr. Frech are sufficient for admission under *Daubert*. The Court thus rejects the Corporate Defendants' conclusory argument that the physician services market is inadequately defined.

As to the first element of an attempted monopolization claim, the Court agrees with Plaintiffs that a reasonable juror could infer that Health First and HF Physicians possessed the specific intent to monopolize based on the unfair or predatory nature of their tactics, particularly in coercing market participants to maximize referrals within the Health First system and minimize referrals outside of it. (Doc. 235-39, ¶ 6); *see also Spectrum Sports*, 506 U.S. at 459 (explaining that a finding that a defendant has engaged in unfair or predatory tactics may be sufficient to prove the necessary intent to monopolize). Additionally, Plaintiffs have produced evidence showing that physicians employed by Health First have unilaterally terminated all Medicare Advantage plans not offered by Health First (*see* Doc. 235-4), which Plaintiffs argue would cause Health First to forego significant sources of revenue. As the Eleventh Circuit has recognized, "[t]he

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001446

unilateral termination of a voluntary (and thus presumably profitable) course of dealing" may suggest "a willingness to forsake short-term profits to achieve an anticompetitive end," from which the intent to achieve monopoly power by exclusionary conduct may be inferred. *See Verizon Commc'ns, Inc. v. Law Offices of Curtis V. Trinko, LLP*, 50 U.S. 398, 409 (2004); *see also Aspen Skiing Co. v. Aspen Highlands Skiing Corp.*, 472 U.S. 585, 610–611 (1985). Such evidence is also sufficient to meet the second element of Plaintiffs' attempted monopolization claim in Count III.

Finally, the Court disagrees with the Corporate Defendants' interpretation of *Rule Industries* as containing a *per se* requirement that a defendant possess at least a 50% market share to constitute a dangerous probability of success under the third element of an attempted monopolization claim. The Court acknowledges that in concluding that there was insufficient evidence from which the jury could have found a dangerous probability of monopolization, the *Rule Industries* court held that, as a matter of law, there was no dangerous probability of success *because* the defendant possessed less than 50% of the market throughout the time of the alleged conduct. *Rule Indus.*, 7 F.3d at 1000–01. However, in the same decision, the *Rule Industries* court drew attention to the Fifth Circuit's cautionary remarks in *Cliff Ford Stores, Inc. v. Kroger, Inc.*, 417 F.2d 203, 207 n.2 (5th Cir 1969), that "one must be particularly wary of the numbers game of market percentage when considering an attempt to monopolize suit under the dangerous probability standard." *Rule Indus.*, 7 F.3d at 999. Accordingly, the Undersigned elects to follow the approach taken in *Gen. Cigar Holdings, Inc. v. Altadis, S.A.*, in which the court stated that, "consistent with [*Rule Industries*], if a plaintiff is to sustain an attempted monopolization claim with an allegation of less than 50% market share, he must also

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001447

allege other reasons that make a monopoly dangerously probable." 205 F. Supp. 2d 1335, 1351 (S.D. Fla. 2002), *aff'd sub nom.*, 54 F. App'x 492 (11th Cir. 2002).

Here, notwithstanding the fact that Health First possesses only a 27% market share in the physician services market (Doc. 235-1, p. 81 n.245; *see also* Doc. 201-8, 48:17–23), Plaintiffs provide evidence from their liability expert suggesting that: (1) markets for specialist physicians are significantly concentrated and involve substantial barriers to entry (*see* Doc. 235-1, pp. 52, 55–56 & n.152); (2) Health First's vertical integration, combined with its dominance in the market for acute inpatient hospital services, allows it to impair competition in multiple markets through exclusionary tactics and facilitate the exercise of monopoly power in markets, such as physician services, where its market share appears relatively low when viewed in isolation (Doc. 235-38, ¶ 6); and (3) absent "the dramatic contraction in the scale of Omni's operations resulting from Omni's exclusion from [HFHP]," Health First's market share in physician services would have been lower (*id.* ¶ 8). Additionally, in his declaration, Dr. Frech vouches that HF Physicians' market share in certain specialties is substantially higher than its share in physician services overall. (*Id.* ¶ 10 & tbl.1.) In light of this showing and the factors enumerated in *Rule Industries*, the Court concludes that the combined effect of Health First's 86% market share in the inpatient hospital services market, its 27% market share in the physician services market, and its ability to exclude competitors throughout is sufficient to create a jury question as to Health First and HF Physicians' "dangerous probability of achieving market power." Thus, Count III survives the Corporate Defendants' MSJ.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001448

2. Ancillary Services Market

Count IV of the Complaint alleges that Health First, HRMC, and HF Physicians attempted to monopolize the ancillary services market in SBC in violation of Section 2 of the Sherman Act. (Doc. 57, ¶¶ 328–40.) The Complaint defines the ancillary services market as "axillary or supplemental services provided by a licensed physician or medical practice to support diagnosis and treatment of a patient's condition." (*Id.* at ¶ 63.) As alleged, such services include: (1) diagnostic services (e.g., x-rays and laboratory testing); (2) durable medical equipment and medical devices (e.g., crutches and orthotics), (3) therapies (e.g., radiation therapy and dialysis); and (4) outpatient surgeries (e.g., in-house surgery suits and ambulatory surgery centers). (*Id.* at ¶ 64.) According to the Complaint, "[a]ncillary services are purchased in conjunction with medical or hospital care" and are most commonly "covered and paid for by the patient's insurance"; additionally, "patients are often directed to a particular ancillary service provider by their doctors or health plan." (*Id.*) Because patients' health plans typically only reimburse for services performed by approved ancillary service providers (*id.* ¶ 66), Plaintiffs allege that Health First has acquired a dominant share of the ancillary services market in SBC through its ownership and control of numerous subsidiaries (*id.* ¶ 70.) Finally, Plaintiffs allege that immediately following the MIMA Acquisition, the former MIMA physicians began: (1) terminating business relationships with ancillary service providers outside the Health First system; and (2) directing all ancillary services to Health First's own higher-priced providers. (Doc. 57, ¶ 270.) As a result, Plaintiffs aver that prices are higher, there are fewer alternatives for participants in the ancillary services market in SBC, and

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001449

that their ability to effectively compete in this market has been substantially limited. (*Id.* ¶¶ 332, 334.)

In support of their MSJ as to Count IV, the Corporate Defendants first present deposition testimony from Dr. Frech, in which he admits that he does not intend to offer any opinions as to the ancillary services market. (Doc. 201, p. 11 (citing Doc. 201-8, 23:12–21, 33:5–13, 46:8–9).) As "[c]onstruction of a relevant economic market or a show of monopoly power in that market" must be supported by expert testimony, the Corporate Defendants contend that Plaintiffs have abandoned this claim. (*Id.* (citing *Am. Key Corp. v. Cole Nat'l Corp.*, 762 F.2d 1529, 1579 (11th Cir. 1985).) Second, the Corporate Defendants maintain that, because Plaintiffs have failed to demonstrate that Defendants had a share of the market that was 50% or greater, they cannot prove that Defendants possessed a dangerous probability of success. (*Id.*) Finally, the Corporate Defendants contend that: (1) Plaintiffs cannot produce any evidence of specific intent by the relevant Defendants to monopolize the ancillary services market; and (2) there are low entry barriers into the ancillary services market. (Doc. 249, p. 7.)

In response, Plaintiffs cite numerous opinions in Dr. Frech's report as to the nature and effects of Health First's conduct in the ancillary services market. (Doc. 235, p. 21 (citing, *inter alia*, Doc. 235-1, ¶¶ 160, 165, 173, 197).) Additionally, Plaintiffs again maintain that *Rule Industries* did not set a bright-line rule requiring that a dangerous probability of success be demonstrated by possession of a market share that is greater than 50% during the relevant time period. (*Id.* at 22.) Instead, Plaintiffs argue that the conduct supporting their claim for attempted monopolization of the physician services market is sufficient to support their claim for attempted monopolization of the ancillary

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001450

services market because many of them are providers of both physician and ancillary services and sustained damages in the ancillary services market as a result of Health First's conduct. (*Id.*) Additionally, Plaintiffs contend that Health First has the power to force physicians to refer HFHP patients to Health First facilities for ancillary services by refusing to credential participating physicians to perform ancillary services at other locations. (*Id.* (citing Doc. 235-58, ¶ 8).)

Upon consideration of the evidence, the Court concludes that Plaintiffs have produced sufficient evidence to support the elements of an attempted monopolization claim in the ancillary services market. Here, Dr. Frech's report concludes, *inter alia*, that: (1) Health First has foreclosed 39% of radiologists in SBC through its exclusive relationship with Brevard Physicians Associates (Doc. 235-1, ¶¶ 165, 159); and (2) Health First's exclusive dealing arrangements have harmed competition in the physician and ancillary services markets (*id.* ¶ 197). The Court agrees with Plaintiffs that it is the role of counsel, not the expert, to procure the relevant testimony at trial to support Plaintiffs' claims. (*See* Doc. 235, p. 22.)

The declaration of Dr. Dowdell further corroborates the alleged exclusionary conduct. Dr. Dowdell specializes in interventional pain management and is the CEO, medical director, and sole shareholder of SOAR. (Doc. 235-58, ¶¶ 1, 3.) Dr. Dowdell declares that, during his tenure as an HFHP participating provider from 2003 to 2006, he was advised that Health First expected him to bring all his insured patients to Palm Bay Pain Clinic and to perform procedures on HFHP patients exclusively at Health First ambulatory surgery centers. (*Id.* ¶ 6.) HFHP also required its participating physicians to perform all X-rays, DEXA, MRIs, labs, physical therapy, and other ancillary services at a

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001451

Health First facility. (*Id.* ¶ 8.) According to Dr. Dowdell, this requirement greatly inconvenienced his patients and resulted in delays in diagnosis and treatment. (*Id.*)

On November 1, 2006, Peter Weiss ("**Dr. Weiss**")—CEO of HFHP—visited Dr. Dowdell's office to discuss pain management. (*Id.* ¶ 7.) At that time, Dr. Weiss learned that Dr. Dowdell was performing most of his surgical procedures at his in-office operating suite, as opposed to Health First facilities.[8] (*Id.*) According to Dr. Dowdell, Dr. Weiss was also aware that Dr. Dowdell was not bringing all his patients to Palm Bay Pain Clinic and Melbourne Same Day Surgery as previously instructed. (*Id.*) During the meeting, Dr. Dowdell requested credentialing with HFHP to perform X-rays and other ancillary services in his office. (*Id.* ¶ 8.) Two days later, Dr. Weiss informed Dr. Dowdell that the HFHP Board had voted to terminate his contract—effective February 2007—based on their belief that he potentially jeopardized patient care. (*Id.* ¶¶ 8, 9.) However, Dr. Dowdell believes that he was terminated because he did not comply with the requirement that he perform all of his surgical procedures at Health First facilities. (*Id.* ¶ 10.) Indeed, according to Dr. Dowdell's declaration, he met with Health First Medical Director Dr. Joe Collins ("**Dr. Collins**") and HFHP Director of Provider Relations Katie Fleming ("**Ms. Fleming**") on April 16, 2008, at which time Dr. Collins informed him that HFHP had no quantifiable evidence that any of his medical procedures jeopardized patient care. (*Id.* ¶ 11, 12.) Nonetheless, in response to Dr. Dowdell's request at the meeting as to whether he could bring an HFHP participating provider into his practice, Dr. Dowdell was told that if a

[8] In his declaration, Dr. Dowdell avers that his office operating suite was certified by the Department of Health. (Doc. 235-58, ¶ 7.)

AMERICAN OVERSIGHT

participating HFHP provider joined his practice, then that provider's contract would be terminated. (*Id.* ¶ 13.)

Prior to and after his termination from HFHP, Dr. Dowdell continued to see patients at HRMC. (*Id.* ¶ 18.) However, the nurse managers at HRMC often ignored his orders to refer these patients to non-Health First facilities; instead, the HRMC nurses transferred such patients to Health First facilities. (*Id.*) Additionally, despite continued communications with Health First and HFHP and repeated attempts at reinstatement, Dr. Dowdell's application to rejoin HFHP was continuously denied. (*See id.* ¶¶ 11, 12, 15, 16.)

As previously mentioned, specific intent may be inferred from predatory or exclusionary conduct. *See Spectrum Sports*, 506 U.S. at 459. Consequently, the Court finds that, based on the foregoing evidence of exclusionary conduct, a reasonable juror could conclude that Health First possessed the specific intent to achieve monopoly power in the ancillary services market and that Health First did in fact commit such anticompetitive conduct. *See Rule Indus.*, 7 F.3d at 993.

Finally, the Court reiterates its prior conclusion that Plaintiffs need not demonstrate that a defendant possess a 50% or greater market share to constitute a dangerous probability of success for an attempted monopolization claim if other factors are present. Although market share is the principal device utilized by courts to measure monopoly power, the extent of a firm's ability to control productive capacity in a market may alternatively be indicative of monopoly power. *See Rule Indus.*, 7 F.3d at 994. Here, the interrelated nature of Health First's alleged exclusionary treatment, location, and referral practices supports Plaintiffs' contention that Health First has the ability to control

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001453

productive capacity in the ancillary services market. Notably, Dr. Frech concludes that Health First's foreclosure of the physician services market through acquisition and alignment has anticompetitive effects on the ancillary services market by directing referrals to Health First hospitals and foreclosing referrals to other sources of ancillary services. (Doc. 235-1, ¶ 165.) Further illustration of the interconnected nature of these markets is evidenced by Dr. Frech's correlation of the decline in Omni's collections on ancillary services as physicians left its practice. (Doc. 235-47, ¶ 27.) To this end, Dr. Frech has compiled multiple tables demonstrating Omni's forgone revenues for ancillary services. (Doc. 235-47 ¶¶ 27–29, 37, 38; *id.* at 17–18 tbls.5A–5D, 21–22 tbls.6A–6D, 28–29 tbls.8A–8D, 30–31 tbls.9A–9D).)

Dr. Frech also concludes that, generally, a hospital's vertical integration into health plans "significantly increases health plans' bargaining power with independent physicians and ancillary service providers." (Doc. 235-1, ¶ 126.) Specific to Health First, Dr. Frech summarizes the anticompetitive nature of its vertical integration as a series of exclusionary activities designed to reduce competition among hospitals, physicians, health plans, and ancillary service providers, which it enforced through penalties for non-compliance—namely, termination of provider contracts. (*Id.* ¶¶ 147, 156, 197.) Given the parallel nature of the physician services and ancillary services markets, Dr. Dowdell's declaration, and Dr. Frech's conclusions—including his quantification of the foreclosure of radiologists in SBC—the Court is unable to conclude, as a matter of law, that Health First does not possess a dangerous probability of successfully achieving a monopoly of the ancillary services market in SBC. Not only does the evidence create a question of fact as to Health First's ability to control productive capacity in this market, but it also supports

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001454

a finding that there are substantial barriers to entry in the ancillary services market—i.e., the procurement of HFHP participating provider contracts predicated on the agreement to engage in exclusive referral and treatment practices that potentially violate the Sherman Act. Consequently, the Corporate Defendants' MSJ is due to be denied with respect to Count IV.

3. Private Health Insurance Market

At the outset of its response to the Corporate Defendants' MSJ, Plaintiffs concede that there is insufficient evidence to support their claim under Count V of the Complaint for attempted monopolization of the private health insurance market. (Doc. 235, p. 7, n.1.) Consequently, Plaintiffs purport to voluntarily dismiss this claim. (*Id.*) As the Corporate Defendants have already filed a MSJ and do not stipulate to dismissal (*see* Doc. 201; Doc. 249, p. 7, n.7), the Court construes Plaintiffs' concession as a request for voluntary dismissal by Court order pursuant to Federal Rule of Civil Procedure 41(a)(2) and finds that it is due to be granted. Accordingly, the Court will dismiss Count V of the Complaint with prejudice.

4. Medicare Advantage Market

Count VI of the Complaint alleges that Health First and HFHP attempted to monopolize the Medicare Advantage Market. (Doc. 57, ¶¶ 354–66.) In particular, Plaintiffs allege that Health First wields a dominant share of the Medicare Advantage market in SBC through its ownership and control of HFHP. (*Id.* ¶ 355.) According to Plaintiffs, Health First has enhanced and abused this market power through exclusionary conduct, which has harmed Plaintiffs, who participate in the relevant market as suppliers. (*Id.* ¶¶ 357, 359.) Specifically, Plaintiffs contract with private health insurers to offer services as part

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001455

of their provider networks, while insurers offering Medicare Advantage plans pay Plaintiffs for services rendered to their Medicare Advantage enrollees. (*Id.* ¶ 359.) Plaintiffs allege that Health First's exclusionary course of conduct has substantially limited their ability to effectively compete in this market. (*See id.* ¶ 360.)

In their MSJ as to Count VI, the Corporate Defendants argue that: (1) there is no evidence that Medicare Advantage is a separate market from traditional Medicare coverage (Doc. 201, p. 12); (2) Plaintiffs cannot produce any admissible evidence of a conspiracy and do not otherwise have proof of any unlawful exclusionary conduct (*id.* at 12–13); (3) HFHP's declining market share, new entry to market, and the lack of evidence of inhibited growth or competition therein support a finding that Health First and HFHP do not have a dangerous probability of success with respect to monopolization of the Medicare Advantage market (*id.* at 13–14); and (4) there is no evidence of specific intent to monopolize this market (Doc. 249, p. 8). Plaintiffs counter each of these arguments. (Doc. 235.)

As an initial matter, the Court agrees with Plaintiffs that Medicare Advantage is a product independent of Medicare, and thus the Medicare Advantage market is distinct from the traditional Medicare market. (*See* Doc. 235, pp. 22-23.) Importantly, this is the position taken by the Antitrust Division of the U.S. Department of Justice. *See United States v. UnitedHealth Grp. Inc.*, 1:08-cv-00322-ESH (D.D.C. Feb. 25, 2008), Doc. 1. This position is further supported by Dr. Frech's report, which cites at least two corroborating journal articles. (Doc. 235-1, ¶ 60.)

The remainder of the Corporate Defendants' arguments challenge the sufficiency of the evidence supporting the elements of an attempted monopolization claim. To

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001456

establish the intent element, Plaintiffs point to documentation outlining the steps of Health First's strategy—formulated during the MIMA Acquisition—to unilaterally terminate all non-Health First Medicare Advantage plans formerly accepted by MIMA. (Doc. 235-4.) The Corporate Defendants contend that, in light of the MIMA Acquisition, such termination constitutes a permissible unilateral refusal to deal because Health First hospitals have never contracted with any other Medicare Advantage plans. (Doc. 201, pp. 12–13.) However, the unilateral termination of a voluntary and presumably profitable course of dealing may be indicative of anticompetitive intent where it suggests a willingness to forsake short-term profits to achieve an anticompetitive end. *See Trinko*, 540 U.S. at 409 (summarizing the *Aspen Skiing* exception). Consequently, the Court finds this evidence sufficient to raise a jury question as to the intent element of an attempted monopolization claim.

Next, Plaintiffs argue that Health First's refusal to accept any Medicare Advantage plans outside its own constitutes anticompetitive conduct. (Doc. 235, p. 23.) Plaintiffs also maintain that the vertical integration of the Health First system injures competing Medicare Advantage plans because they are denied access to patients treated at HRMC, which Plaintiffs contend is the only hospital in SBC with Level II Trauma Center, Level II Neonatal Intensive Care Unit, and an air ambulance. (*Id.* at 23; *see also* Doc. 57, ¶ 116.) Additionally, Plaintiffs argue that Health First's Exclusive Referral Practice cements this effect within the physician services market. (Doc. 235, p. 24.) Upon consideration, the Court agrees that Health First's exclusion of HRMC—a "must have" hospital in SBC—from all competing Medicare Advantage plans evidences anticompetitive exclusive dealing on the part of Health First and HFHP.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001457

As to the third element, the Corporate Defendants underscore HFHP's declining share of the Medicare Advantage market in SBC, which has fallen from 100% in 2005 to 50–60% currently. (Doc. 201, p. 13.) Consequently, the Corporate Defendants contend that this decline evidences a lack of market power, which the Court should consider in determining whether there is a dangerous probability of successfully monopolizing the market. (*Id.* at 14.) In particular, the Corporate Defendants represent that this significant decline was created by new entry and expansion in the market by competitors, which evidences a lack of barriers to entry. (*Id.*; *see also* Doc. 249, p. 8.) Additionally, the Corporate Defendants argue that there is no evidence that new Medicare Advantage plans have been unable to effectively compete and grow despite the Corporate Defendants' alleged exclusionary conduct. (Doc. 201, p. 14.)

Although Plaintiffs concede that Health First's market share has declined, they maintain that its remaining market share is well within the range associated with a dangerous probability of achieving monopoly power. (Doc. 235, p. 24.) The Court agrees. Indeed, the Corporate Defendants concede that HFHP currently possesses a 50 to 60% share of the Medicare Advantage market. (Doc. 201, p. 13.) As contemplated by the Eleventh Circuit, "a sufficiently large market share may alone create a genuine dispute over whether the defendant possessed a dangerous probability of successfully monopolizing a market despite the existence of other facts tending to make monopolization unlikely, thereby precluding summary judgment for the defendant." *Rule Indus.*, 7 F.3d at 999. The Court thus declines to depart from Eleventh Circuit precedent concluding that "a dangerous probability of achieving monopoly power may be established by a 50% share," *Rule Indus.*, 7 F.3d at 1000. While the Corporate

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001458

Defendants are free to argue at trial that low barriers to entry and a declining market share negate the attempted monopolization claim that Plaintiffs allege in Count VI, the Court may not weigh the evidence to foreclose Plaintiffs' claim at this stage of the proceedings. As such, the Corporate Defendants' MSJ as to Plaintiffs' attempted monopolization claim in Count VI is due to be denied.

E. Count VII

In Count VII, Plaintiffs assert a claim against all Defendants for a contract, combination, or conspiracy in restraint of trade in violation of Section 1 of the Sherman Act ("**Section One Conspiracy Claim**"). (Doc. 57, ¶¶ 367–379.) Specifically, Plaintiffs allege that Defendants participated in a common scheme with co-conspirators[9] to restrain trade and exclude competition in the aforementioned markets by engaging in: (1) exclusive dealing arrangements; (2) tying arrangements; and (3) a group boycott/concerted refusal to deal. (*Id.* ¶¶ 367–69.) Plaintiffs Omni, SOAR, IFS, and Florida Pain allege that they were harmed by such conduct because: (1) they either had their provider contracts terminated or were denied access to the Health First network for refusing to agree to the exclusive dealing arrangements, which caused them to be denied access to Health First's enrollees; (2) the physicians who agreed to the exclusive dealing arrangements have subjected them to a group boycott/concerted refusal to deal; (3) they have stopped receiving inpatient referrals from HRMC; and (4) the exclusionary practices have prevented them from growing their businesses due to a lack of referrals and the inability to access a substantial segment of insured persons in SBC. (*Id.* ¶¶ 375–

[9] According to Plaintiffs, all physicians and medical practices that agreed to Health First's exclusive dealing arrangements are Defendants' co-conspirators—including MIMA and its physicians prior to the MIMA Acquisition.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001459

378). Additionally, Omni and SOAR allege that Health First has actively lured physicians away from their practices. (*Id.* ¶¶ 375, 376.) Meanwhile, the individual Antitrust Plaintiffs—Drs. Deligdish, Seminer, Dowdell, Gayles, Golovac, Grenevicki, and Komar—allege that they were harmed by Defendants' exclusionary practices because they have been: (1) denied access to Health First's members; and (2) blacklisted by Health First and, thus, received no patient referrals from HF Physicians or its co-conspirators, regardless of the patient's insurance provider. (*Id.* ¶ 379.)

Section One of the Sherman Act provides that "[e]very contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce . . . is declared to be illegal." 15 U.S.C. § 1. Therefore, to survive the Corporate Defendants' motion for judgment as a matter of law on their Section One Conspiracy Claim, Plaintiffs must prove the existence of an agreement to restrain trade between two or more persons evidenced by "a unity of purpose or a common design and understanding, or a meeting of minds in an unlawful arrangement." *Harcros Chems.*, 158 F.3d at 569.

In their MSJ, the Corporate Defendants contend that they are entitled to judgment as a matter of law because: (1) Plaintiffs cannot present any admissible evidence of any agreement or conspiracy; and (2) no legitimate inference may be drawn from any circumstantial evidence. (Doc. 201, p. 14.) In particular, the Corporate Defendants argue that the only evidence Plaintiffs can produce in support of a conspiracy between MIMA and Health First is inadmissible hearsay testimony from Dr. Deligdish. (*Id.* at 17–18.) Additionally, the Corporate Defendants aver that purely circumstantial evidence implying that HF Physicians and MIMA doctors conspired to admit patients only to Health First hospitals—and not Wuesthoff—cannot defeat their MSJ because the record evidence

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001460

shows legitimate reasons why doctors would not want to admit patients to Wuesthoff—namely, lack of the same services as Health First's hospitals and quality concerns. (Doc. 249, p. 9.)

In response, Plaintiffs point to documentary evidence that arguably raises questions of material fact with respect to their Section One Conspiracy Claim, thus precluding the grant of summary judgment. (Doc. 235, pp. 18–19.) First, Plaintiffs produce an email from Joseph.McClure@MIMA.com to Peter.Weiss@health-first.org in which the sender references "the political relationship, now years in duration between HFHP and MIMA" which "drives PET/CT and MRI to HRMC for [MIMA] patients." (Doc. 238-15, p. 2.) The email explains that "MIMA physicians do not have any choice in consulting radiologists for health plan patients as [they] do in all other fields" and continues to identify some of the sender's concerns regarding two erroneous diagnoses and the quality and standard of care by the HRMC radiologists. (*Id.*) The sender states that he does not know how to fix the problem and that he cannot refer to anyone but these physicians. (*Id.*) Additionally, Plaintiffs produced deposition testimony from a witness who points to the behavior of MIMA as evidence of a conspiracy—specifically, that: (1) MIMA has over 100 doctors and 10,000 hospital admissions a year, yet only one percent of those admissions is at Wuesthoff; and (2) MIMA has offices within one to three miles of Wuesthoff and has moved its building and main headquarters closer to Wuesthoff, yet still does not utilize Wuesthoff.[10] (Doc. 235-41, p. 6.)

Based on the foregoing, the Court finds that there is a genuine dispute of material

[10] Contrary to Defendants' arguments, none of Plaintiffs' proffered testimony constitutes hearsay.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001461

fact as to whether an illegal conspiracy existed between MIMA and Health First to refer patients only to Health First physicians and admit patients only to Health First hospitals. Such circumstantial evidence is sufficient to defeat the MSJ. Rarely will a plaintiff be able to establish the existence of a conspiracy with direct evidence of an explicit agreement; indeed, "most conspiracies are inferred from the behavior of the alleged conspirators." *Id.* (quoting *Seagood Trading Corp. v. Jerrico, Inc.*, 924 F.2d 1555, 1573 (11th Cir. 1991)). Thus, "[w]hen a plaintiff seeks to prove a conspiracy by inference, courts must be mindful that on summary judgment the inferences to be drawn from the underlying facts must be viewed in the light most favorable to the party opposing the motion.'" *Id.* (quoting *United States v. Diebold, Inc.*, 369 U.S. 654, 655 (1962)).

The Court acknowledges that "antitrust law limits the range of permissible inferences from ambiguous evidence in a § 1 case." *Matsushita Elec. Indus. Co. v. Zenith Radio Corp.*, 475 U.S. 574, 588 (1986). Notably, "conduct as consistent with permissible competition as with illegal conspiracy does not, standing alone, support an inference of antitrust conspiracy." *Id.* However, the Court finds that Plaintiffs' evidence does not fall into the latter category. Though the Corporate Defendants argue that there were legitimate reasons why doctors would not want to admit patients to Wuesthoff, they point only to Plaintiffs' response stating that the scope and sale of Wuesthoff's services are significantly more limited than those of Health First. (Doc. 249, p. 9, n.12 (citing Doc. 238, pp. 13–14).) A reasonable juror could conclude that MIMA physician Joseph McClure's email referencing the political relationship between MIMA and Health First and his inability to refer patients to radiologists outside HRMC—despite quality concerns—is more consistent with an illegal conspiracy than permissible competition. Consequently,

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001462

the Corporate Defendants' motion as to Count VI is due to be denied.[11]

F. Count VIII

In Count VIII of the Complaint, Plaintiffs allege that all Defendants violated Section 2 of the Sherman Act by engaging in a conspiracy to monopolize the market for physician services, ancillary services, and Medicare Advantage plans in SBC ("**Section Two Conspiracy Claim**"). (Doc. 57, ¶¶ 380–92.) According to Plaintiffs, Defendants have participated in a common scheme designed to leverage Health First's market power and create a vertically-integrated healthcare monopoly in SBC through multiple forms of exclusionary conduct. (*Id.* ¶ 380.) As in the alleged Section One Conspiracy Claim, Plaintiffs aver that Health First's co-conspirators consist of all the physicians and medical practices that agreed to Health First's exclusive dealing arrangements—including MIMA and its physicians prior to the MIMA Acquisition. (*Id.* ¶ 382.) Plaintiffs allege that such exclusionary conduct has hindered their ability to effectively compete in the relevant markets in SBC, thereby causing injury to competition and consumers. (*Id.* ¶ 386, 385.)

Unlike a § 2 attempted monopolization claim, a claim for conspiracy to monopolize does not require a showing of monopoly power. *Levine v. Cent. Fla. Med. Affiliates*, 72 F.3d 1538, 1556 (11th Cir. 1996). "Instead, a plaintiff proves a section 2 conspiracy to monopolize by showing: '(1) concerted action deliberately entered into with the specific intent of achieving a monopoly; and (2) the commission of at least one overt act in furtherance of the conspiracy.'" *Id.* (quoting *Todorov v. DCH Healthcare Auth.*,

[11] The Court also rejects the Corporate Defendants' contention that portions of Plaintiffs' evidence falls outside the scope of the Complaint. (*See* Doc. 249, p. 9.) To the contrary, Plaintiffs alleged a conspiracy based on exclusive dealing arrangements between MIMA and Health First. (*E.g.*, Doc. 57, ¶¶ 146–152, 368.) The evidence produced by Plaintiffs supports exactly that.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001463

921 F.2d 1439, 1460 n.35 (11th Cir. 1996)).

Incorporating the same arguments advanced in its MSJ as to Count VII, the Corporate Defendants contend that Plaintiffs cannot produce any admissible evidence of a conspiracy between the Corporate Defendants and any other entity. (Doc. 201, p. 20.) Specifically, the Corporate Defendants maintain that their conduct constitutes a unilateral refusal to deal based on legitimate business decisions. (*Id.*) Moreover, the Corporate Defendants again posit that Plaintiffs have not set forth sufficient evidence to: (1) define the ancillary services market; or (2) demonstrate that Health First possessed the required intent to monopolize the markets for hospital services, physician services, and Medicare Advantage insurance. (*Id.*) Plaintiffs similarly rely on their arguments in response to the Corporate Defendants' MSJ as to Count VII. (Doc. 235, p. 27.)

As it has done twice before in the instant Order, the Court again rejects the Corporate Defendants' contention that Plaintiffs have not adequately defined the ancillary services market. Similarly, the Court declines to revisit the Corporate Defendants' challenge as to the sufficiency of the evidence supporting a finding of specific intent to monopolize the hospital services, physician services, and Medicare Advantage insurance markets. Finally, the Court has already rejected the Corporate Defendants' contention that Plaintiffs' proffered evidence is probative only of a permissible unilateral refusal to deal, rather than an illegal conspiracy. As such, the Corporate Defendants' MSJ as to Count VIII also fails.

G. Count IX

Turning to Plaintiffs' state law claims, in Count IX of the Complaint, Plaintiffs seek damages and injunctive relief against all Defendants for alleged violations of FDUTPA.

AMERICAN OVERSIGHT

(Doc. 57, ¶¶ 393–405.) Plaintiffs predicate their FDUTPA claim on the Alleged Common Scheme (*see id.* ¶ 397), which they contend constitutes immoral, unethical, oppressive, and unscrupulous conduct that offends public policy and is substantially injurious to consumers. (*Id.* ¶ 396.)

Under FDUTPA, Plaintiffs must demonstrate only that: (1) the alleged conduct was unfair or deceptive; and (2) they were damaged by such unfair or deceptive conduct. *True Title, Inc. v. Blanchard*, No. 6:06-cv-1871-Orl-19DAB, 2007 WL 430659, at *3 (M.D. Fla. Feb. 5, 2007). A practice is unfair under FDUTPA if "it offends established public policy, is immoral, unethical, oppressive, unscrupulous, or substantially injurious to consumers." *Suris v. Gilmore Liquidating, Inc.,* 651 So. 2d 1282, 1283 (Fla. 3d DCA 1995) (citing *Spiegel, Inc. v. Fed. Trade Comm'n*, 540 F.2d 287, 293 (7th Cir. 1976)). "Antitrust violations are included within the conduct proscribed by the FDUTPA." *Marco Island Cable, Inc. v. Comcast Cablevision of South, Inc.*, No. 2:04-cv-26-FTM-29DNF, 2006 WL 1814333, at *6 (M.D. Fla. July 3, 2006). Given that the Court has already determined that the evidence supporting the antitrust violations alleged in Counts I through VIII is sufficient to survive the Corporate Defendants' MSJ, the Antitrust Plaintiffs have met their burden with respect to the first element of a FDUTPA claim.[12] The

[12] The Corporate Defendants also appear to dispute whether Plaintiffs are consumers of services within the purview of FDUTPA. (*See* Doc. 201, pp. 200, 201.) Though immaterial, the Court rejects this argument. Florida law has clearly established that the 2001 amendment to FDUTPA eradicated the prior requirement that a plaintiff be a consumer to seek relief under the statute. *N. Am. Clearing, Inc. v. Brokerage Comput. Sys., Inc.*, 666 F. Supp. 2d 1299, 1310 n.9 (M.D. Fla. 2009) (stating that "the 2001 Amendments to FDUTPA broadened its scope to allow any person or entity who has suffered a loss as a result of unfair or deceptive acts or practices to commence a private action for actual damages"); *see also Caribbean Cruise Line, Inc. v. Better Bus. Bureau of Palm Beach Cty.*, 169 So. 3d 164 (Fla. 4th DCA 2015) (same). Moreover, a claim under FDUTPA need not even arise out of a consumer transaction. *Furmanite America, Inc. v.*

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001465

remaining Plaintiffs—Boone and PAS—have also produced sufficient evidence of unfair and deceptive conduct on the part of Defendants. (*E.g.*, Doc. 235-57.)

With respect to the second element, the Corporate Defendants first maintain that the absence of evidence of actual damages, as defined by FDUTPA, is fatal to Plaintiffs' claim for damages under the statute. (Doc. 201, pp. 20–23, Doc. 249, p. 9.) Specifically, the Corporate Defendants maintain that Plaintiffs cannot demonstrate that the "things of value" they have purchased have diminished in valued as a result of Defendants' alleged actions. (Doc. 201, p. 22.) The Court agrees.

Under Florida law, "[t]he measure of actual damages is the difference in the market value of the product or service in the condition in which it was delivered and its market value and the condition in which it should have been delivered according to the contract of the parties."[13] *Rollins, Inc. v. Heller*, 454 So. 2d 580, 585 (Fla. 3d DCA 1984). Neither the Complaint, Plaintiffs' response to the Corporate Defendants' MSJ, nor Dr. Singer's damages report reveals a calculation of damages that fit within this definition. (*See* Doc. 57, ¶¶ 393–405; *see also* Doc. 199-1, pp. 80–84; *cf.* Doc. 235, p. 22–23.) As such, Plaintiffs' claim for damages in Count IX fails as a matter of law.

Nonetheless, under FDUTPA,

> anyone aggrieved by a violation of [the statute] may bring an action to obtain a declaratory judgment that an act or practice violates [the statute] and to enjoin a person who has violated, is violating, or is otherwise likely to violate [the statute].

T.D. Williamson, Inc., 506 F.Supp.2d 1134, 1145–46 (M.D. Fla. 2007).

[13] The only notable exception to this rule is "when the product is rendered valueless as a result of the defect." *Rollins, Inc.*, 454 So. 2d at 585. In that circumstance, "the purchase price is the appropriate measure of actual damages." *Id.*

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001466

Fla. Stat. § 501.211. Thus, "regardless of whether an aggrieved party can recover 'actual damages' under section 501.211(2), it may obtain injunctive relief under section 501.211(1)." *Wyndham Vacation Resorts v. Timeshares Direct, Inc.*, 123 So. 3d 1149, 1152 (Fla. 5th DCA 2012). As mentioned above, Plaintiffs also seek injunctive relief. (Doc. 57, ¶ 393.) To this point, the Corporate Defendants maintain that Plaintiffs offer no evidence that Dr. Gayles, Dr. Golovac, Dr. Dowdell, Dr. Grenevicki, or Boone were "aggrieved" within the meaning of FDUTPA. (Doc. 201, p. 23.)

Florida's Fifth District Court of Appeals ("**Fifth DCA**") has stated that, for purposes of § 501.211(1), an "aggrieved" person "must be able to demonstrate some specific past, present, or future grievance." *Ahearn v. Mayo Clinic*, 180 So. 3d 165, 173 (Fla. 5th DCA 2015). Consistent with prior case law, the *Ahearn* court concluded that an aggrieved party is not required to suffer monetary damages to maintain an action for an injunction under § 501.211(1). *Id*. at 171–73, 175. Rather, the *Ahearn* court found that the meaning of "aggrieved" as used in § 501.211(1) is more consistent with the *Black's Law Dictionary* definition describing a person "angry or sad on grounds of perceived unfair treatment" and, therefore, provides broader relief than FDUTPA's damages provision. *Id.* at 172, 175. However, the injury claimed cannot be merely speculative. *Id.* at 173.

Here, the Court finds that Dr. Singer's damages report sets forth affirmative evidence demonstrating that Dr. Gayles, Dr. Golovac, Dr. Dowdell, Dr. Grenevicki, and Boone were aggrieved by Defendants' alleged actions, which they contend harmed their respective practices. (Doc. 199-1, pp. 116–137.) Such evidence, *inter alia*, is sufficient to create a genuine issue of material fact as to Plaintiffs' FDUTPA claim for injunctive relief.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001467

Finally, the Corporate Defendants contend—once again—that HFHP is exempt from suit pursuant to § 501.212(4)(a) of the Florida Statutes. (*Id.* at 23–24.) The Court previously resolved this issue against Defendants in its Dismissal Order. (*See* Doc. 105, pp. 29–31.) The Corporate Defendants do not present any new basis or evidence for their exemption argument. As such, the Court construes their argument as an attempt to re-litigate an issue already determined by the Court, and finds that it is due to be denied.

H. Count X

In their tenth count, Plaintiffs assert a state law claim for tortious interference with business relationships against all Defendants. (Doc. 57, ¶¶ 406–422.) Under Florida law,

> "[t]he elements of the tort of intentional interference with an advantageous business relationship are: 1) the existence of a business relationship, not necessarily evidenced by an enforceable contract; 2) knowledge of the relationship on the part of the defendant; 3) an intentional and unjustified interference with that relationship by the defendant; and 4) damage to the plaintiff as a result of the breach of the relationship."

Magre v. Charles, 729 So. 2d 440, 443–44 (Fla. 5th DCA 1999). In particular, Plaintiffs allege that Defendants interfered with three different types of business relationships: (1) Plaintiffs' relationships with patients insured by HFHP ("**Patient Relationships**"); (2) Plaintiffs' relationship with other doctors who previously referred patients to them or otherwise utilized their services ("**Referral Relationships**"); and (3) Plaintiffs' relationships with physicians in their practices whom Health First lured away to join other practices ("**Practice Relationships**"). (Doc. 57, ¶ 406; *see also* Doc. 235, p. 30.)

The Corporate Defendants raise several grounds in support of their MSJ as to Count X. First, the Corporate Defendants contend that: (1) Plaintiffs' claim with respect to their Referral Relationships fails as a matter of law because payment or compensation

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001468

for referrals is illegal and, therefore, business relationships relating to patient referrals are not legally cognizable (Doc. 201, p. 24); (2) Plaintiffs cannot prove a business relationship with identifiable patients and physicians or Defendants' knowledge thereof (*id.* at 25, 26, 28); and (3) the record is devoid of any evidence of causation (*id.* at 25, 26, 28). The Corporate Defendants also argue that Plaintiffs cannot prove that HFHP's termination of Plaintiffs' provider contracts constituted unlawful interference because: (1) a claim for tortious interference cannot exist against a party to the relationship interfered with; and (2) such terminations were expressly permitted under the terms of the provider contracts. (*Id.* at 26–27.) Finally, the Corporate Defendants contend that their actions are protected under Florida's competition privilege. (*Id.* at 28.) Upon consideration, the Court finds that Plaintiffs have established a prima facie claim for tortious interference based on the exhibits cited in their response. Therefore, the Corporate Defendants' MSJ as to Count X is due to be denied.

As an initial matter, the Court rejects the Corporate Defendants' argument that a physician-referral relationship cannot form the basis of a tortious interference claim as it is squarely at odds with existing Florida law. *See, e.g.*, *Magre*, 729 So. 2d 440. Indeed, Plaintiffs' alleged damage does not turn on the procurement of an illegal referral fee but, rather, on their loss of paying patients as a result of Defendants' interference with their provider contracts stemming from their refusal to refer all patients to Health First facilities. (*See, e.g.*, Doc. 199-1, p. 38.)

In *Magre*, Florida's Fifth DCA reversed a grant of summary judgment in favor of the defendant on a tortious interference claim. *Id.* at 444. The facts of the case involved a surgeon's allegedly defamatory letter to his colleagues criticizing the plaintiff—

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001469

Dr. Magre—following the hospital's full reinstatement of Dr. Magre's previously suspended staff privileges. *Id.* at 442. In his complaint, Dr. Magre alleged that the defendant had intentionally interfered with his relationship with the hospital and members of its medical staff who referred patients to him because the letter contained "untrue statements concerning his professional skill and reputation." *Id.* at 442, 444. Ultimately, the *Magre* court concluded that, because the letter came after Dr. Magre's reinstatement with full staff privileges, it did not constitute intentional interference with a business relationship with the hospital, but may have constituted intentional and unjustified interference with Dr. Magre's business relationship with other doctors who refer patients to him. *Id.* at 444.

In a similar case, Florida's Third DCA reversed the lower court's dismissal of the plaintiffs' tortious interference claim on the ground that the plaintiffs sufficiently alleged a cause of action for tortious interference and that the competition privilege was a question of fact to be resolved at trial. *Greensberg v. Mount Sinai Med. Ctr. of Greater Miami, Inc.*, 629 So.2d 252, 256 (Fla. 3d DCA 1993). Specifically, in *Greensberg*, two cardiac surgeons experienced difficulty obtaining operating room time and assisting hospital personnel after Dr. Greensberg resigned as chairman of the department. *Id.* at 254. The newly-appointed chairman allegedly: (1) induced referring physicians to send patients to him instead of plaintiffs; and (2) refused to honor the recommendations of referring physicians who sent patients to plaintiffs. *Id.* at 254–55. According to the *Greensberg* plaintiffs, the defendants also told patients that plaintiffs no longer practiced cardiac surgery at the hospital and set up numerous obstacles to prevent plaintiffs from performing even emergency surgeries. *Id.* at 255. On appeal, the Third DCA agreed that

AMERICAN OVERSIGHT

the *Greensberg* plaintiffs had adequately alleged intentional interference with their relationships with referring physicians and patients. *Id.* at 255–56.

Finally, in *Scheller v. American Medical International Inc.*, 502 So.2d 1268 (Fla. 4th DCA 1987), the doctor-plaintiff brought a claim for tortious interference with an advantageous business relationship, alleging that the defendants interfered with his relationship with other physicians and their patients by preventing plaintiffs from offering pathology services at the hospital and interfering with his billing. *Id.* at 1271–72. As a result, the *Scheller* plaintiff alleged that he lost patients and patient referrals. *Id.* at 1272. In reversing the lower court's dismissal, the Fourth DCA held that the plaintiff's allegations were sufficient to state a cause of action for tortious interference. *Id.* In light of the foregoing authorities, the Court finds that the Corporate Defendants' first contention is not well taken.

The Corporate Defendants' second argument is equally unfounded. Indeed, Plaintiffs have produced sufficient evidence to demonstrate Defendants' knowledge of Plaintiffs' business relationship with identifiable patients and physicians and, contrary to the Corporate Defendants' contention, Plaintiffs do not allege a business relationship with the public at large. First, Plaintiffs produced a form letter sent from Dr. Collins to insured patients following the termination of its provider contract with Dr. Dowdell, encouraging Dr. Dowdell's patients to select a new physician from an enclosed list of participating providers in order to retain coverage for services. (Doc. 235-17.) Plaintiffs also present correspondence from MIMA physician Stephen Blythe to Dr. Weiss at Health First, informing Dr. Weiss: (1) that HFHP's termination of Omni's provider agreement had precipitated the receipt of ten to twenty daily phone calls from patients seeking new

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001471

primary care physicians; and (2) of the problem created by his inability to refer patients to a physician not yet credentialed by HFHP. (*See* Doc. 235-16.) Plaintiffs contend that the foregoing evidence supports their position that Health First: (1) intended for patients insured by HFHP to seek out other treating physicians; (2) had knowledge of the substantial numbers of patients who did exactly that; and (3) was aware of the importance to patients of seeking in-network providers. (Doc. 235, p. 31.) The Court agrees.

Based on the record evidence, a reasonable juror could also conclude that the Corporate Defendants had knowledge of Plaintiffs' prior Referral Relationships with HFHP participating physicians. At his deposition, Dr. Weiss testified that, "[i]f any participating physician in [HFHP] was referring routinely to doctors that were not participating in the plan, that would have caused a great deal of attention on the part of the leadership." (Doc. 235-50, p. 7.) Finally, it is beyond genuine dispute that the Corporate Defendants would have had knowledge of the relationship between Plaintiffs and the physicians they recruited to join HF Physicians, who were members of Plaintiffs' respective practices at the time.

Plaintiffs have also set forth sufficient evidence to create a factual issue as to whether Defendants' interference with Plaintiffs' Patient, Referral, and Practice Relationships was intentional or unjustified. Importantly, the parties offer contradicting theories with respect to the reasons for Defendants' conduct. Though the Corporate Defendants contend that their actions are shielded by Florida's competition privilege, this determination is more appropriately reserved to the jury under the present circumstances. To establish the competition privilege, the Corporate Defendants must show, *inter alia*, that it did not employ improper means and it did not intend to create or continue an illegal

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001472

restraint on competition. *Int'l Sales & Serv., Inc. v. Austral Insulated Prods.*, 262 F.3d 1152, 1159 (11th Cir. 2001). Such elements are hotly-debated issues in the instant litigation and both parties have produced evidence from which a reasonable juror could reach different conclusions. As such, summary judgment on the Corporate Defendants' competition privilege defense is not warranted. Indeed, "when there is room for different views, the determination of whether the interference was improper or not is ordinarily left to the jury, to obtain its common feel for the state of community mores and for the manner in which they would operate upon the facts in question." *Mfg. Research Corp. v. Greenlee Tool Corp.*, 693 F.2d 1037, 1040 (11th Cir. 1982).

The Corporate Defendants' final basis for summary judgment on Count X is that Plaintiffs are unable to produce any evidence of causation. (Doc. 201, p. 25.) This challenge is thus directed to the fourth element of a tortious interference claim, which requires Plaintiffs to prove damages *as a result of* Defendants' interference with their Patient, Referral, and Practice Relationships. Upon consideration, the Court finds that Dr. Singer's damage report presents enough evidence to withstand the Corporate Defendants' summary judgment challenge on this issue. (*See* Doc. 199-1, pp. 85–141); *see also Wolicki-Gables v. Arrow Int'l., Inc.*, 641 F. Supp. 2d 1270, 1288 (M.D. Fla. 2009) (recognizing that proximate causation is ordinarily determined by the jury, unless the court finds that the issue is undisputed after considering all facts and reasonable inferences in favor of the nonmoving party). Nonetheless, the Corporate Defendants are free to reassert their challenges to Dr. Singer's damage calculations during cross examination at trial.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001473

I. Refusals to Deal

As a final matter, the Corporate Defendants advance a catchall argument that the absence of any admissible evidence of a conspiracy renders their conduct lawful unilateral refusals to deal. (Doc. 201, pp. 29–33; Doc. 249, p. 2.) The Corporate Defendants also argue that the *Aspen Skiing* exception is inapplicable here because Plaintiffs lack evidence of anticompetitive intent or effect. (Doc. 249, pp. 2–4.) As outlined in its analysis of Plaintiffs' individual claims, the Court disagrees.

However, even if the Court were to accept the Corporate Defendants' argument that their conduct was done for legitimate business reasons, Plaintiffs have produced evidence to raise a material issue of fact as to this contention. Pursuant to Eleventh Circuit case law, "[o]nce the defendant has met its burden to show its valid business justification, the burden shifts to the plaintiff to show that the proffered business justification is pretextual." *Morris Commc'ns*, 364 F.3d at 1295. Plaintiffs point to multiple pieces of evidence, which suggest that the Corporate Defendants' purported business reasons are pretextual. (*See* Doc. 235, pp. 33–39.) As such, the Court declines to grant the Corporate Defendants' MSJ on this basis. "It is well-established that summary judgment is inappropriate to decide questions of scienter, knowledge, and intent." *Ross v. Bank South, N.A.*, 885 F.2d 723, 751 n.8 (11th Cir. 1989). Finally, the Court is mindful of the Supreme Court's instruction that "summary procedures should be used sparingly in complex antitrust litigation where motive and intent play leading roles[.]" *Poller v. Columbia Broad. Sys., Inc.*, 386 U.S. 464, 491 (1962).

III. Individual Defendants' Motion for Summary Judgment

Defendants Means and Senne also move for summary judgment on Counts VII

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001474

through X of the Complaint. (Docs. 189, 195.)

According to the Complaint, Means and Senne were executive members of Health First and HRMC, respectively, during the time of the alleged unlawful conduct. (*See* Doc. 57, ¶¶ 30, 31.) Specifically, Plaintiffs allege that Means and Senne initiated conversations with physicians in the Medical Practice Plaintiffs' practice groups following the termination of the relevant practice's provider contracts with HFHP. (*Id.* ¶¶ 154, 155.) Plaintiffs allege that, during these conversations, the Individual Defendants "actively lured" physicians away from the Medical Practice Plaintiffs by informing the physicians that "they could regain access to Health First's patients and referrals if they left their practice and joined HF Physicians or an independent group more loyal to Health First"—that is, one in which the physicians had agreed to enter into exclusivity arrangements pursuant the Exclusive Referral Practice. (*Id.* ¶ 153, 154.) The Medical Practice Plaintiffs allege that the foregoing conduct caused them injury by creating conditions which prevented them from achieving growth. (*Id.* ¶ 153.)

The Complaint also alleges that Means and Senne authorized, participated in, directed, and/or ratified the unlawful acts described therein, thus demonstrating that they actively and knowingly engaged in a scheme designed to achieve anticompetitive ends—namely, unlawfully maintaining Health First's hospital monopoly and attempting to monopolize several other healthcare-related markets. (*Id.* ¶¶ 189, 191, 193, 195.) As examples of such affirmative conduct, Plaintiffs represent that: (1) Means instructed the CEO of Wuesthoff to stay out of SBC and told physicians at a HRMC medical staff meeting, "if you sign letters of support for Wuesthoff, we will know who you are"; and

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001475

(2) Senne explicitly instructed Omni that it could participate in HFHP's network if it agreed to admit its patients exclusively to Health First's hospitals. (*Id.* ¶¶ 190, 194.)

In their respective MSJs, Means and Senne contend that Plaintiffs cannot produce any admissible evidence to demonstrate that they participated in, directed, or ratified the alleged illegal conduct. (Doc. 189, p. 2; Doc. 195, p. 2.) In response, Plaintiffs argue that there is a genuine dispute of material fact with respect to Senne and Means's individual liability and personal participation. (Doc. 236.) Upon review of the record, the Court concludes that, while it is not particularly strong, Plaintiffs' proffered evidence is sufficient to raise issues of material fact from which a reasonable juror could infer knowing participation on the part of the Individual Defendants.

A. Counts VII and VIII

A director, officer, or agent of a corporate entity may be individually liable for violations of the Sherman Act if he or she authorizes, orders, or participates in any of the actions constituting an antitrust violation. *See* 15 U.S.C. § 24; *see also United States v. Wise*, 370 U.S. 405, 416 (1962); *Longleaf Mitigation Dev. Co. v. Fla. Mitigation Providers, LLC*, 519 F.Supp.2d 1233, 1236 (M.D. Fla. 2007).

1. Count VII

To survive the Individual Defendants' motion on their Section One Conspiracy Claim, Plaintiffs must prove the existence of an agreement to restrain trade between two or more persons evidenced by "a unity of purpose or a common design and understanding, or a meeting of minds in an unlawful arrangement." *Harcros Chems.*, 158 F.3d at 569. Here, Plaintiffs allege that Means and Senne "directly participated in the common scheme by, *inter alia*, inviting physicians to enter exclusive dealing

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001476

arrangements [with] Health First and convincing physicians to leave those practices which refused to join the conspiracy." (Doc. 57, ¶ 370.) Upon consideration, the Court finds that Plaintiffs have produced sufficient evidence of Means and Senne's personal participation in such common scheme to subject them to individual liability for Plaintiffs' Section One Conspiracy Claim.

In particular, Plaintiffs point to correspondence from Senne from which a reasonable juror could infer that he helped perpetuate the alleged conspiracy by requiring MIMA physicians to refer cancer patients exclusively to Health First's cancer center as a condition of MIMA's participation in HFHP. (*See* Doc. 236-4.) Additionally, in its Dismissal Order, the Court previously held that Plaintiffs' meetings with Health First representatives, coupled with their subsequent exclusion from HFHP and "blacklisting" by HFHP network providers, adequately provided the context for the alleged agreement to boycott physicians who refused to enter into exclusive referral arrangements with Health First. (Doc. 105, p. 29.) To that end, Dr. Seminer's declaration (Doc. 236-12) provides supporting evidence of the alleged conspiracy. Indeed, Dr. Seminer's declaration recounts a conversation in which Senne agreed to contract with Omni for inclusion of its Sheridan Surgery Center within HFHP's network on the condition that Omni admit all its patients to Health First institutions and turn over several of its best primary care physicians to Health First. (*Id.* ¶ 6.) In another declaration, former Omni shareholder and current Omni employee Dr. Peter Tarashi ("**Dr. Tarashi**") stated that he met with Senne and Means following HFHP's termination of Omni's participation agreement. (Doc. 236-13, ¶¶ 2, 3.) In that meeting, Dr. Tarashi was told that he could become a participating provider with HFHP only if: (1) he signed an individual contract with HFHP

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001477

and left Omni; or (2) Dr. Deligdish and Dr. Seminer no longer had leadership roles at Omni and were not included in such contract. (*Id.* ¶ 5.) The Court finds that these declarations demonstrate that Senne and Means knowingly participated in and helped perpetrate the alleged conspiracy.

2. Count VIII

In Count VIII, Plaintiffs allege the same conduct on the part of the Individual Defendants as they do in Count VII. (*See* Doc. 57, ¶ 383.) The elements of a Section Two Conspiracy Claim, as alleged in Count VIII, include: (1) concerted action deliberately entered into with the specific intent of achieving a monopoly; and (2) the commission of at least one overt act in furtherance of the conspiracy. *Levine*, 72 F.3d at 1556.

As an initial matter, the Court concludes that Dr. Tarashi and Dr. Seminer's declarations (Docs. 236-12, 236-13), as well as Senne's correspondence regarding MIMA's exclusive referral of cancer patients to Health First facilities (Doc. 236-4), are also sufficient to support the contention that Senne and Means participated in the alleged Section Two Conspiracy Claim. Additionally, at his deposition, Emil Miller testified that, during discussions with Means about the opportunities for Wuesthoff and Health First to work collectively together, he was told that Wuesthoff should withdraw its application to build a hospital in SBC and "get out of the market." (Doc. 236-15, p. 5.) Such testimony is certainly probative of Means's personal perpetuation of the alleged Section Two Conspiracy Claim and, specifically, his intent to achieve a monopoly.

B. Counts IX and X

Finally, the Court finds that Plaintiffs have produced sufficient evidence to support their FDUTPA and tortious interference claims against the Individual Defendants.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001478

As previously iterated, to bring a claim under FDUTPA, a plaintiff need only plead that: (1) the alleged conduct was unfair or deceptive; and (2) the plaintiff was damaged by such conduct. *True Title*, 2007 WL 430659, at *3. A reasonable juror could conclude that the above-cited evidence is probative of unfair and deceptive conduct. Additionally, Plaintiffs contend that such conduct was part of the Alleged Common Scheme perpetuated through the Corporate Defendants. The Court has already concluded that the record contains adequate proof that Plaintiffs were aggrieved by this common scheme and may, thus, seek injunctive relief under FDUTPA. However, as aforementioned, Plaintiffs' damages evidence is insufficient to support a claim for actual damages under the statute.

Lastly, the elements of tortious interference require Plaintiffs to demonstrate: (1) the existence of a business relationship; (2) that Defendants had knowledge of that relationship; (3) that Defendants intentionally and unjustifiably interfered with that relationship; and (4) that Plaintiffs were damaged as a result of such interference. *Magre*, 729 So. 2d at 443–44. The Individual Defendants' primary challenges to Plaintiffs' tortious interference claim are that: (1) Plaintiffs lack admissible evidence as to Means and Senne's participation in the common scheme; and (2) the termination of the Omni contract was proper and based on legitimate business reasons. (Doc. 189, p. 14, Doc. 195, pp. 10–11.) However, the record evidence previously discussed supports the contrary conclusion that Senne and Means individually participated in the Alleged Common Scheme, which Plaintiffs also allege as the basis for their tortious interference claim. Indeed, the alleged interference with Plaintiffs' Patient, Referral, and Practice Relationships includes luring Omni providers to other medical practices, persuading Omni

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001479

patients to switch to alternative medical providers, terminating Omni's provider contracts, and blacklisting physicians. As the Court concluded in its analysis of the Corporate Defendants' MSJ, there are genuine issues of material fact as to the propriety of such conduct, which the Court must leave for the jury's determination at trial.

CONCLUSION[14]

Accordingly, it is hereby **ORDERED AND ADJUDGED** that:

1. Plaintiffs' Daubert Motion to Exclude Defendants' Expert Testimony and Incorporated Memorandum of Law (Doc. 197) is **DENIED**.
2. Defendants' Motion to Exclude the Testimony of Dr. H.E. Frech, III and Incorporated Memorandum of Law (Docs. S-194, 207) is **DENIED**.
3. Defendants' Motion to Exclude the Testimony of Dr. Hal J. Singer and Incorporated Memorandum of Law (Docs. S-199, 208) is **DENIED**.
4. Corporate Defendants' Joint Motion for Summary Judgment and Incorporated Memorandum of Law (Docs. S-201, 209), Defendant Michael D. Means'[s] Motion for Summary Judgment (Doc. 189), and Defendant Jerry Senne's Motion for Summary Judgment (Doc. 195) are **GRANTED IN PART AND DENIED IN PART**.
   a. Pursuant to Federal Rule of Civil Procedure 41(a)(2), Count V of the Third Amended Complaint (Doc. 57, ¶¶ 341–53) is **DISMISSED WITH PREJUDICE**.
   b. Plaintiffs' claim for actual damages in Count IX is **DISMISSED WITH**

[14] Any remaining arguments raised in the parties' motions but not expressly addressed in this Order are rejected.

AMERICAN OVERSIGHT

PREJUDICE. However, Plaintiffs are entitled to proceed on their claim for injunctive relief in Count IX.

c. In all other respects, Defendants' Motions for Summary Judgment are **DENIED**.

DONE AND ORDERED in Chambers in Orlando, Florida, on August 13, 2016.

ROY B. DALTON JR.
United States District Judge

Filing # 31396845 E-Filed 08/27/2015 02:01:22 PM

IN THE CIRCUIT COURT OF THE EIGHTEENTH JUDICIAL CIRCUIT IN AND FOR THE STATE OF FLORIDA, BREVARD COUNTY

CIVIL DIVISION

NORTH BREVARD COUNTY HOSPITAL DISTRICT, d/b/a PARRISH MEDICAL CENTER,

Plaintiff,

v.

HEALTH FIRST, INC., HEALTH FIRST HEALTH PLANS, INC., HEALTH FIRST INSURANCE, INC., HEALTH FIRST PHYSICIANS, INC., and HEALTH FIRST MEDICAL GROUP, LLC,

Defendants.
_____/

CASE NO.:

COMPLAINT

Plaintiff North Brevard County Hospital District d/b/a Parrish Medical Center ("North Brevard County Hospital District" or "PMC"), by and through undersigned counsel, hereby sues Defendants Health First, Inc., Health First Health Plans, Inc. ("HF Health Plans"), Health First Insurance, Inc. ("HF Insurance"), Health First Physicians, Inc. ("HF Physicians"), and Health First Medical Group, LLC ("HF Medical Group") (collectively referred to herein as "Health First"), for damages and injunctive relief as to a number of practices of Health First, based upon personal knowledge as to the facts pertaining to Plaintiff, and upon information and belief as to all other matters. Plaintiff states in support thereof as follows:

I. NATURE OF THE ACTION

1. By this action, PMC seeks, inter alia, to recover damages arising out of HF Health Plans' breach of the Participating Medical Facility Agreement, as amended, ("PFA"), attached

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-15-00599-A-000482XXX-XX

hereto as Exhibit A and also, as described below, seeks damages arising out of improper reduction in payments made to PMC by HF Health Plans and HF Insurance after the termination of the PFA.[1]

2. PMC had a contractual relationship with HF Health Plans and HF Insurance up until December 7, 2014 when the PFA was terminated, without cause.

3. Prior to that termination, beginning on or about April 1, 2013, HF Health Plans, with respect to its Medicare Advantage plans and/or lines of business ("Medicare Advantage Plans"), systematically underpaid reimbursement to PMC for services rendered to members enrolled in HF Health Plans' Medicare Advantage Plans in violation of the PFA, including, but not limited to, Addendum D to the PFA (referred to herein as the "Medicare Reimbursement Provisions").

4. HF Health Plans' purported justification for such unilateral reduction (the "Unilateral Reduction") is the Center of Medicare and Medicaid Services' ("CMS") reduction in payments to providers under the Medicare Fee-For-Service Program and reduction in the Net Capitation Payment to Medicare Advantage Organizations ("MAOs") made pursuant to the Budget Control Act of 2011 (the "CMS Sequestration Reduction"). The CMS Sequestration Reduction is inapplicable to the PFA, and thus HF Health Plans' Unilateral Reduction is a breach of the PFA.

5. By this action, PMC also seeks to recover damages for HF Health Plans' and HF Insurance's improper reduction in payments with respect to emergency services and care and follow up treatment to emergency services and care rendered by PMC from December 8, 2014 through March 7, 2015 to members enrolled in: (i) HF Health Plans' licensed health maintenance

[1] The PFA is attached as Exhibit A to the service copy of the Complaint, but not to the Complaint filed with the Court due to the confidentiality of the terms contained in the PFA.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-[illegible]XXX-XX

organization plans and/or lines of business, including without limitation, point of service plans and/or lines of business ("Licensed HMO and POS Plans"); and (ii) HF Health Plans' and HF Insurance's commercial plans and/or lines of business other than Licensed HMO and POS Plans ("Non HMO/POS Plans") ("Licensed HMO and POS Plans" and "Non HMO/POS Plans" are collectively referred to herein as "Commercial Plans").

6. Further, by way of this action, PMC, seeks to recover damages for, and enjoin Health First from, its anticompetitive conduct, including, without limitation, exclusive dealing arrangements, group boycott/concerted refusal to deal, and efforts to monopolize the markets for medical and radiation oncology physician services. Health First has created an anticompetitive model under which it owns and operates health insurers and various entities, including without limitation, hospitals, urgent care centers, free standing oncology centers, and HF Physicians. Such conduct has been implemented with the specific intent and purpose to further Health First's goal of eliminating competition in North Brevard County's healthcare industry, including, without limitation, in North Brevard County's market for medical oncology physician services and radiation oncology physician services.

7. In addition, by way of this action, PMC, seeks to enjoin Health First, Inc., HF Physicians, and HF Medical Group from improperly soliciting PMC's employed and/or contracted Physicians ("PMC Physicians") and from making disparaging and false statements regarding PMC in furtherance of such improper solicitation.

8. North Brevard County Hospital District is a political subdivision of the State of Florida created by the Legislature to provide for the health care needs of the public, and to operate a hospital, PMC. PMC is the hospital of last resort insofar as it bears the burden of providing medical services to the uninsured and/or indigent communities of North Brevard

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-000184-XXXX-XX

County. In furtherance of its legislative purpose, PMC provides a significant amount of charitable care. For example, in 2014, PMC provided charitable care in the amount of Eighteen Million and Eight Hundred Thousand Dollars ($18,800,000.00).

9. PMC expends considerable public resources in recruiting and retaining skilled physicians to provide various health services to the public. PMC Physicians practice through North Brevard Medical Support, Inc. ("NBMS"), a not-for-profit corporation authorized by North Brevard County Hospital District's charter to provide for the financial stability and well-being of PMC through physician recruitment, patient acquisition, and the providing of medical goods and services.

10. The present dispute is not between two private entities. Here, PMC is a governmental entity that was created by the Florida legislature for the public good in an effort to address the medical needs of the communities in North Brevard County. Consequently, allowing the anticompetitive conduct of Health First to continue thwarts the legislative purpose behind the creation of PMC and allows a private entity to obstruct PMC in its pursuit of that public good.

II. THE PARTIES, JURISDICTION, AND VENUE

11. Plaintiff, North Brevard County Hospital District, is an independent tax district with its principal place of business in Brevard County, Florida.

12. Defendant, Health First, Inc. is a Florida non-profit corporation with its principal place of business in Brevard County, Florida.

13. Defendant, Health First, Inc. owns and directs the affairs of Defendants, HF Health Plans, HF Insurance, HF Physicians, and HF Medical Group.

14. Defendant, Health First, Inc. has acquired, and currently owns and operates, the following hospitals in Brevard County: (i) Holmes Regional Medical Center ("Holmes"); (ii)

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

Cape Canaveral Hospital ("Cape Canaveral"); (iii) Viera Hospital ("Viera"); and (iv) Palm Bay Hospital ("Palm Bay") (Holmes, Viera, Palm Bay and Cape Canaveral are collectively referred to herein as "Health First Hospitals").

15. Defendant, HF Health Plans is a Florida corporation that is licensed as a health maintenance organization ("HMO") and Third Party Administrator ("TPA") in the State of Florida, with its principal place of business in Brevard County, Florida. HF Health Plans offers group and individual HMO and point of service ("POS") plans. HF Health Plans also offers TPA services, including, without limitation, administering Administrative Services Only plans for self-funded employer groups or other qualifying groups. Further, HF Health Plans is a Medicare Advantage Organization ("MAO") and offers Medicare Advantage Plans.

16. Defendant, HF Insurance is a Florida corporation that is licensed as a Life and Accident Health Insurer in the State of Florida, with its principal place of business in Brevard County, Florida. HF Insurance offers health care coverage options, including, but not limited to, Medicare Supplement plans and group and individual preferred provider organization ("PPO") plans. HF Insurance's plans are administered by HF Health Plans.

17. Defendant, HF Physicians is a Florida corporation with its principal place of business in Brevard County, Florida. HF Physicians is the Managing Member of Defendant, Health First Medical Group, LLC ("HF Medical Group")(HF Physicians and HF Medical Group are collectively referred to herein as "HF Doctors"). HF Medical Group is a Florida limited liability company with its principal place of business in Brevard County, Florida. HF Medical Group is Brevard County's largest multi-specialty physician group.

18. HF Health Plans, HF Insurance, and HF Physicians are wholly owned subsidiaries of the parent healthcare corporation, Health First, Inc. In addition to HF Health Plans, HF

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-220599-A-XXXX-XX

Insurance, HF Physicians, and HF Medical Group, Health First, Inc. owns and operates various entities, including, without limitation, Health First Hospitals, urgent care centers, outpatient centers, rehabilitation facilities, diagnostic and treatment centers, and a network of fitness and wellness services.

19. This Court has personal jurisdiction over each of the parties because they all are present and conduct substantial business in Brevard County, Florida.

20. Venue is appropriate in Brevard County, Florida because the Defendants conduct substantial business in Brevard County, Florida and because the events giving rise to the claims asserted herein occurred in Brevard County, Florida.

21. PMC has retained the undersigned counsel and agreed to pay undersigned counsel a reasonable attorneys' fee.

III. FACTUAL BACKGROUND

A. Creation of the PMC/HF Health Plans and HF Insurance Relationship

22. Effective February 1, 2007, PMC and HF Health Plans entered into the PFA whereby PMC agreed to render hospital services to members enrolled in HF Health Plans' plans and/or lines of business, in exchange for certain reimbursement terms and other conditions. Over the term of the PFA, it was amended three (3) times.

23. Pursuant to the Third Amendment to the PFA, effective January 1, 2013, PMC also became a participating provider for HF Health Plans' affiliate, HF Insurance. Further, pursuant to the Third Amendment to the PFA, HF Insurance is subject to the same rights and obligations as those applicable to HF Health Plans under the PFA, including HF Health Plans' obligations regarding reimbursement.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

24. Pursuant to the PFA, HF Health Plans and HF Insurance are obligated to reimburse PMC for services rendered to their members.

B. Breach of the PFA due to Improper Unilateral Reductions in Reimbursement

25. HF Health Plans has breached the PFA by systematically underpaying PMC for services rendered by PMC to members enrolled in HF Health Plans' Medicare Advantage Plans.

1. CMS Sequestration Reduction

26. As a result of the Budget Control Act of 2011, effective April 1, 2013, CMS implemented the CMS Sequestration Reduction.

27. CMS released a memorandum on May 1, 2013, attached hereto as Exhibit B, providing MAOs, Medicare Part D drug plans, and other programs with additional information about the application of the CMS Sequestration Reduction to the Medicare Advantage program, Medicare Part D, and other specified program payments. With regard to payment arrangements between MAOs and contractual providers, CMS stated in pertinent part:

> Section 1854(a)(6)(B)(iii) of the Social Security Act prohibits CMS from interfering in the payment arrangements between MAOs and contractual providers. The statute specifies that CMS 'may not require any MA organization to . . . require a particular price structure for payment under such a contract . . .' *Thus, whether and how sequestration might affect an MAO's payments to its contracted providers are governed by the terms of the contract between the MAO and the provider.*

(emphasis added).

28. Therefore, CMS instructs that the terms of the agreement between providers and MAOs govern whether and how an MAO may implement a reduction in reimbursement related to the CMS Sequestration Reduction.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

29. In an April 17, 2014 letter from CMS to the American Hospital Association ("CMS Letter to AHA"), attached hereto as Exhibit C, CMS provided the following relevant question and answer:

> **Question**: Does the two percent payment reduction under sequestration apply to the payment rates reflected in Medicare FFS fee schedules or does it only apply to the final payment amounts?
>
> **Answer:** Payment adjustments required under sequestration are applied to all claims *after determining the Medicare payment*, including application of the current fee schedule, coinsurance, any applicable deductible, and any applicable Medicare Secondary Payment adjustments. *All fee schedules, pricers, etc., are unchanged by sequestration. Only the* ***final payment amount*** *is reduced.*

(emphasis added).

30. CMS created a new Claim Adjustment Reason Code ("CARC"), CARC 253 – Sequestration – Reduction in Federal Spending, to identify when payment is reduced due to sequestration. CMS defines Claim Adjustment Reason Codes as "[a] national administrative code set that identifies the reason for any differences, or adjustments, between the original provider charge for a claim or service and the payer's payment for it."

31. As such, CARC 253 is an adjustment to the "final payment amount" paid by CMS to Medicare Fee-For-Service providers ("CMS Final Payment Amount"). In other words, the CMS Final Payment Amount is the amount that CMS pays to a Medicare Fee-For-Service provider, which does not include the amounts owed by a member under patient cost-share liability or the amounts owed by another payor in a coordination of benefits scenario.

2. HF Health Plans' Unilateral Reduction in Reimbursements Owed to PMC Violate the Express Terms of the PFA

32. The PFA and/or the Medicare Reimbursement Provisions therein do not permit HF Health Plans to implement the Unilateral Reduction. Further, the reimbursement terms of the PFA, as set forth in Addendum D to the PFA, are not tied to the CMS Final Payment Amount.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-24-0599-A-0001488-XXX-XX

HF Health Plans' Unilateral Reduction to the reimbursements owed to PMC for services rendered to members enrolled in its Medicare Advantage Plans despite its obligations under the PFA, including, but not limited to, the Medicare Reimbursement Provisions, is a breach of the Agreement.

33. Moreover, the scope of HF Health Plans' improper Unilateral Reduction to reimbursement to PMC under the PFA is comparatively even larger than the CMS Sequestration Reduction to reimbursements under the Medicare Fee-For-Service Program. HF Health Plans has systematically underpaid PMC by applying an improper Unilateral Reduction to the entire payer component of the reimbursement amount owed to PMC set forth in the Medicare Reimbursement Provisions. That reimbursement amount, due to the benefit structure of HF Health Plans' Medicare Advantage Plans, is greater than the Medicare payment component for services rendered by PMC to a beneficiary in the Medicare Fee-for-Service Program.

34. Nevertheless, HF Health Plans erroneously relies upon the CMS Sequestration Reduction as justification to implement the Unilateral Reduction.

35. In a March 26, 2013 letter, HF Health Plans advised NBMS that "[b]ecause Health First Health Plans will be receiving a two percent reduction across the board from CMS, we will be reducing our reimbursement to providers for the Medicare line of business by two percent as of the same date." *See* Letter from Katie Fleming, HF Health Plans' Director of Provider Relations, to NBMS dated March 26, 2013, attached hereto as Exhibit D.

36. In a May 20, 2013 letter to HF Health Plans, PMC notified HF Health Plans that the PFA does not allow HF Health Plans to apply the Unilateral Reduction to reimbursements

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-[illegible]XXX-XX

owed to PMC. *See* Letter from Timothy K. Skeldon, PMC's Sr. Vice President and CFO, to Ms. Fleming ("May 20, 2013 Letter"), attached hereto as Exhibit E.[2]

37. Despite PMC's notification that the Unilateral Reduction in reimbursements owed to PMC was prohibited under the PFA, HF Health Plans continued the improper Unilateral Reduction in reimbursement amounts owed to PMC pursuant to the Medicare Reimbursement Provisions.

38. In addition, in a June 21, 2013 letter to PMC, HF Health Plans denied any wrongdoing and refused to admit that PMC had been underpaid for its services due to the Unilateral Reduction. *See* Letter from Jennifer H. Brady, M.D., HF Health Plans' Vice President, Medical Director, to Mr. Skeldon ("June 21, 2013 Letter"), attached hereto as Exhibit F.[3]

C. HF Health Plans' and HF Insurance's Improper Payments for Non-Continuing Care Services

39. The PFA was terminated, without cause, effective 11:59 p.m., December 7, 2014.

40. The PFA provides that, subject to certain requirements in the PFA and under law, PMC shall continue to provide certain services to members who were receiving certain services as of December 7, 2014 ("Continuing Care Services").

41. As of December 8, 2014, with the exception of certain Continuing Care Services, the PFA does not set the reimbursement rate to be paid by HF Health Plans and/or HF Insurance for services rendered by PMC to members enrolled in their Commercial Plans.

[2] The May 20, 2013 Letter is attached as Exhibit E to the service copy of the Complaint, but not to the Complaint filed with the Court as the May 20, 2013 Letter contains certain confidential terms of the PFA.
[3] The June 21, 2013 Letter is attached as Exhibit F to the service copy of the Complaint, but not to the Complaint filed with the Court as the June 21, 2013 Letter contains certain confidential terms of the PFA.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000149-XXXX-XX

42. As described below, HF Health Plans and HF Insurance have improperly reduced payments to PMC for emergency services and care and follow up treatment for members provided emergency services and care by improperly reimbursing PMC as if such care was Continuing Care Services when such care was not Continuing Care Services.

1. Post-Contract Emergency Services and Care and Emergency Services and Care and Follow Up Treatment Rendered to Members Enrolled in HF Health Plans' and HF Insurance's Commercial Plans

43. Following termination of the PFA, members enrolled in HF Health Plans' and HF Insurance's Commercial Plans continued to present to PMC seeking care for emergency conditions. When such a patient presented to PMC, PMC was required by federal and state law to provide certain treatment.

44. After the termination of the PFA, certain members enrolled in HF Health Plans' and HF Insurance's Commercial Plans received follow up treatment from PMC to the emergency services and care rendered by PMC. With regard to such follow up treatment, HF Health Plans and/or HF Insurance authorized PMC to provide such services to the HF Health Plans' and/or HF Insurance's member.

45. For such emergency services and care and follow up treatment to such emergency services and care rendered by PMC from December 8, 2014 through March 7, 2015 to members enrolled in HF Health Plans' and HF Insurance's Commercial Plans, PMC has requested, but has not received, payment from HF Health Plans and HF Insurance of the amounts equal to PMC's billed charges for Commercial Plans.

46. Instead, with respect to services rendered during the ninety day (90) period after the termination of the PFA, beginning on December 8, 2014 and ending on March 7, 2015, HF Health Plans and HF Insurance improperly reduced reimbursement to PMC for emergency

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0899-A-[illegible]-XXX-XX

services and care and follow up treatment to emergency services and care provided to members enrolled in their Commercial Plans as if such services were Continuing Care Services, when such services were not Continuing Care Services.

47. HF Health Plans and HF Insurance incorrectly take the position that all hospital services rendered by PMC to their members enrolled in Commercial Plans during this post-contract period are Continuing Care Services. HF Health Plans and HF Insurance have inappropriately invoked Section 4.8, applicable to Continuing Care Services, of the terminated PFA to pay PMC at the rates set forth in the PFA as if the emergency services and care and follow up treatment to emergency services and care were Continuing Care Services. Such emergency services and care and follow up treatment to emergency services and care were not Continuing Care Services.

2. Post-Contract Emergency Services and Care Rendered by PMC to HF Health Plans' Licensed HMO and POS Plans

48. On and after December 8, 2014, Section 641.513(5), Florida Statutes, governs the reimbursement for emergency services and care rendered to members enrolled in HF Health Plans' Licensed HMO and POS Plans.

49. Section 641.513(5) provides, in relevant part, as follows:

> Reimbursement for services pursuant to this section by a provider who does not have a contract with the health maintenance organization shall be the lesser of:
>
> a. The provider's charges;
> b. The usual and customary provider charges for similar services in the community where the services were provided; or
> c. The charge mutually agreed upon by the health maintenance organization and the provider within 60 days of the submittal of the claim.

50. Plainly, unless otherwise mutually agreed upon pursuant to Section 641.513(5)(c), Florida Statutes, the statute sets the payment rate according to what the hospital (§ 641.513(5)(a),

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

Florida Statutes) or the local community of hospitals (§ 641.513(5)(b), Florida Statutes) **charge** for their emergency services and care.

51. Yet, in complete disregard of their obligations under Section 641.513(5), Florida Statutes, HF Health Plans refuses to pay PMC's billed charges for services rendered to members enrolled in HF Health Plans' Licensed HMO and POS plans after the termination of the PFA.

52. As established by the web-site operated by Florida's Agency for Health Care Administration, PMC's billed charges (§ 641.513(5)(a), Florida Statutes) are less than or equal to the usual and customary provider charges for similar services in the community where the services were provided (§ 641.513(5)(b), Florida Statutes). Moreover, PMC and HF Health Plans cannot mutually agree upon a payment pursuant to Section 641.513(5)(c), Florida Statutes. Therefore, HF Health Plans is obligated to pay PMC's billed charges pursuant to Section 641.513(5)(a), Florida Statutes, for emergency services and care rendered by PMC, from December 8, 2014 to March 7, 2015, to members enrolled in HF Health Plans' Licensed HMO and POS Plans.

53. PMC brings this action under Section 641.513(5), Florida Statutes, seeking damages because HF Health Plans is obligated to pay PMC's billed charges for emergency services and care rendered by PMC to members enrolled in its Licensed HMO and POS Plans which were not receiving care at the time of the termination, but is not paying PMC's billed charges for such emergency services and care.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-[illegible]-XXX-XX

D. Health First's Anticompetitive Conduct

1. Health First's Anticompetitive Conduct Throughout Brevard County

(a) Health First is a Vertically Integrated Healthcare System

54. Health First describes itself as "fully integrated health system." Health First purports to be a "fully integrated health system" in Brevard County by operating in all aspects within the healthcare system, including, without limitation, hospital services, physician services, outpatient services, ancillary services, and private health insurance products.

55. For example, Health First, Inc. has a dominant share of the market for acute care inpatient services in South Brevard County through its ownership of Holmes and Palm Bay hospitals.

56. Also, for example, Health First, Inc. owns HF Physicians, which is the Managing Member of HF Medical Group. In February 2013, Health First, Inc. acquired Melbourne Internal Medicine Associates, P.A. ("MIMA"), which at the time of its acquisition was the largest multi-specialty physician group in Brevard County. After Health First, Inc.'s acquisition of MIMA, HF Medical Group became the largest specialty physician group in Brevard County.

(b) Health First Uses and Abuses its Market Power in One Product/Service Market to Gain Control of Other Related Product/Service Markets

57. Health First has acquired and/or is in the process of acquiring a dominant market share of healthcare related markets in South Brevard County and certain healthcare related markets in North Brevard County.

58. Holmes is considered a "must have" hospital for health insurers offering health insurance products in South Brevard County because of its size and unique offerings. For example, Holmes is the only facility located in South Brevard County that offers "Level II"

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0899-A-[illegible]XXX-XX

trauma care, neonatal-intensive care, and is capable of receiving an air-ambulance. Health First, Inc. through Health First Hospitals, refuses to permit competitor health insurers to include Holmes in their provider networks unless those competitor health insurers also include Health First's other hospitals (Viera, Palm Bay, and Cape Canaveral) at above competitive reimbursement rates, which above competitive reimbursement rates are obtained by Health First, Inc.'s and Health First Hospitals' exploitation of their market power. Such conduct by Health First, Inc. and Health First Hospitals constitutes an impermissible tying arrangement. Further, Health First, Inc. through Health First Hospitals, contracts with its affiliated health plans, HF Health Plans and HF Insurance, at lower reimbursement rates than those charged to competitor health plans under the tying arrangements.

59. By coercing competitor health insurers to contract with all of Health First Hospitals at supra competitive prices, Health First, Inc. and Health First Hospitals are exploiting their market power in South Brevard County to increase profits beyond those it would otherwise earn in a competitive market and to increase the reimbursement expenses of competitor health insurers. In addition, Health First, Inc. through HF Doctors also engages in price discrimination whereby HF Physicians and/or HF Medical Group contract with Health First, Inc.'s affiliated health plans at lower prices than those charged to competitor health plans. Health First's price discrimination arrangements allows HF Health Plans and HF Insurance to charge lower premiums to their members and reduce member cost-share amounts, which in turn, grows HF Health Plans' and HF Insurance's market strength and Health First's market strength as a whole.

60. Health First requires that the physicians which comprise HF Doctors, including those HF Doctors' physicians that practice in North Brevard County, to admit exclusively or almost exclusively to Health First Hospitals, and refer exclusively or almost exclusively to other

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

HF Doctors and facilities owned by Health First. Such conduct constitutes exclusive dealing, a group boycott, and a concerted refusal to deal.

61. Also, Health First, Inc. through its affiliated health plans, HF Health Plans and HF Insurance, uses its dominant market share, in the Brevard County private health insurance market, to refuse to contract as participating providers with physicians practicing in Brevard County, including North Brevard County, unless they agree to: (a) admit exclusively or almost exclusively to Health First Hospitals; and (b) refer exclusively or almost exclusively to HF Doctors, physicians contracted with HF Health Plans and HF Insurance, and facilities owned by Health First. Such conduct constitutes exclusive dealing, a group boycott, and a concerted refusal to deal.

62. Health First also requires HF Doctors and other participating providers in HF Health Plans and HF Insurance's networks, including those physicians that practice in North Brevard County, to refuse to refer to physicians that do not refer all or nearly all of their patients to: (a) Health First Hospitals or other facilities owned by Health First; and (b) HF Doctors and/or physicians that are contracted with HF Health Plans and HF Insurance. Such conduct constitutes a group boycott or concerted refusal to deal.

63. A patient's utilization of a particular physician's or facilities' services is generally guided by a single purchase decision. This single purchase decision is typically seeking treatment at a hospital's emergency department or with a primary care physician. Most of a patient's subsequent healthcare-related choices will be dictated from that original decision by physician referrals. As such, physician referrals generally control the course and scope of services rendered to patients. Due to the passive nature of healthcare consumers, an entity that is able to influence physicians, will, to a substantial degree, control the patients' treatment options.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXXX-XX

64. Further, when independent physicians acquiesce to Health First's coercion, Health First expands its control over all the markets in which it participates. For instance, when independent physicians join HF Doctors, which competes with independent physicians in the physician services and ancillary services markets, HF Doctors increases its market share and loses competitors. As HF Doctors grows, Health First's influence correspondingly grows in the acute care inpatient hospital services, physician services, ancillary services, and private health insurance markets. Also, for example, when physicians enter into exclusive referral arrangements, and engage in group boycotts against or concerted refusals to deal with facilities not owned by Health First or physicians not contracted with Health First, Health First Hospitals and HF Doctors benefit from an influx of patients, which increases their market share.

65. Health First's exclusive referral arrangements and group boycotts also ensure that Health First Hospitals and HF Doctors render services to members of competitor health insurers' plans as much as possible, which correspondingly maximizes HF Health Plans' and HF Insurance's competitive advantage in the private health insurance market by maximizing competitor health insurers' reimbursement expenses, which have been inflated through Health First's tying arrangements and price discrimination that result from exploitation of market power. Further, the higher revenue generated from Health First's competitor health plans allows Health First to shift those profits to its affiliated health plans creating an unfair advantage in the market for private health insurance.

66. As a result and by Health First's design, it has become apparent to physicians practicing in Brevard County that, in order to provide services at Health First's affiliated facilities, gain access to patients enrolled in HF Health Plans' and HF Insurance's health plans, or obtain referrals from HF Doctors, Health First's affiliated entities, and/or participating

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

providers in HF Health Plans' and HF Insurance's networks, they are forced to participate in Health First's anticompetitive practices.

(c) Health First's Anticompetitive Healthcare Model is also Illustrated Through Two Recent Lawsuits

67. Health First's actions in furtherance of creating an anticompetitive healthcare model in South Brevard County are currently the subject of ongoing lawsuits in federal court alleging antitrust causes of action (*OMNI Healthcare Inc. et al. v. Health First, Inc. et al.*, Case No. 6:13-CV-01509-RBD-DAB, United States District Court for the Middle District of Florida ("OMNI Action")) and alleging causes of action under the Federal False Claims Act and the Florida False Claims Act (*United States of America et al. v. Health First, Inc. et al.*, Case No. 6:14-cv-00501-RBD-DAB, United States District Court for the Middle District of Florida ("Qui Tam Action")).

68. The allegations made in the OMNI Action and Qui Tam Action reflect how Health First has instituted and implemented an illegally maintained fully integrated healthcare system in South Brevard County through conduct that substantially mirrors its conduct in North Brevard County.

69. The plaintiffs in the OMNI Action allege that after Health First, Inc.'s acquisition of Health First Hospitals, Health First, Inc. and/or its wholly owned subsidiaries formed a healthcare monopoly in South Brevard County by controlling the relevant markets for acute care inpatient hospital services, physician services, ancillary services, private health insurance, and Medicare Advantage plans. The plaintiffs in the OMNI Action allege Health First, Inc. and/or its wholly owned subsidiaries accomplished that, through, for example: (a) tying arrangements between Health First Hospitals and HF Health Plans; (b) price discrimination arrangements by Health First Hospitals and HF Physicians in favor HF Health Plans and against competitor health

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

insurers; (c) entering into exclusive dealing arrangements with physicians, whereby as a precondition to accessing members enrolled in HF Health Plans' health plans such physicians must refer all or nearly all of their patients to physicians in HF Physicians or contracted with HF Health Plans and referring all of its patients to facilities owned by Health First; and (d) group boycotts of physicians who refuse to comply with Health First's exclusive referral arrangements by: (i) excluding such physicians from HF Health Plans' provider network; (ii) revoking such physicians' privileges at Health First Hospitals; and/or (iii) prohibiting HF Physicians or physicians contracted with HF Health Plans from referring members enrolled in competitor health insurers' health plans to such physicians.

70. The Relator in the Qui Tam Action alleges a variety of violations of the Anti-Kickback Statute and the Stark Act involving Health First, Inc.'s and/or its wholly owned subsidiaries' anticompetitive actions in South Brevard County by providing improper kickbacks and incentives to the physicians of MIMA (which was acquired by Health First, Inc., HF Physicians, and/or their wholly owned subsidiaries in 2013 and renamed HF Medical Group) and certain other physician groups, for referrals to Health First, Inc.'s facilities. The Relator alleges that as a result, for example, 99% of patients admitted by MIMA physicians were admitted to Health First Hospitals, despite the presence of Wuesthoff Hospital Melbourne, which was closer to MIMA's main location than any of the Health First Hospitals.

71. The Relator further alleged that Health First, Inc.'s and/or its wholly owned subsidiaries' improper kickbacks and incentives to MIMA physicians and other certain physician groups in exchange for exclusive referrals to its facilities include, without limitation: (a) in 1999 and in 2002, Health First, Inc. and/or its wholly owned subsidiaries sold portions of its ownership interest in outpatient facilities to certain physician groups, including MIMA, in

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

exchange for an agreement to exclusively refer patients to such facilities and HF Health Plans required its members to utilize such outpatient facilities by refusing to contract with competing facilities; (b) from 2000 through 2011, Health First, Inc. and/or Health First Hospitals employed MIMA physicians as medical directors of its facilities at exorbitant rates for little work in exchange for referring their patients exclusively to facilities owned by Health First, Inc.; and (c) in 2013, Health First, Inc. acquired MIMA and purchased MIMA's ownership in an outpatient facility, paying significantly above fair market value for both as a reward for patient referrals and in exchange for continued exclusive referrals. After the acquisition of MIMA, former MIMA physicians were told that their ability to contract with HF Health Plans was dependent on signing with Health First, Inc. and after signing, Health First, Inc. required those physicians to terminate all contracts with health insurers that allowed referrals to non-Health First Hospitals.

2. *Health First's Attempted Monopolization of the Markets for Medical Oncology Physician Services and Radiation Oncology Physician Services through Imminent Acquisition of Space Coast Cancer Center and Imposition of Exclusive Dealing Arrangements*

(a) Relevant Services Markets

72. The medical oncology physician services market comprises diagnosis of cancer, staging of cancer, and physician administered chemotherapy, hormone therapy, and other drugs to treat cancer. The radiation oncology physician services market comprises physician administered radiation therapy to treat cancer.

73. There is a low cross elasticity of demand between: (i) medical oncology physician services or radiation oncology physician services; and (ii) other physician services.

74. There are high barriers to entry into the market for medical oncology physician services or radiation oncology physician services in North Brevard County including, without limitation, licensure, medical education, and training requirements.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000150-XXXX-XX

(b) Relevant Geographic Market

75. To market their products to employers and individuals, private health insurers contract to purchase healthcare services, such as medical oncology physician services and radiation oncology physician services, in the geographic area in which members enrolled in their health plans are likely to seek medical care. Additionally, members of health plans typically seek medical care close to their homes or employment locations.

76. There is low cross elasticity of demand respectively between: (i) the medical oncology physician services and radiation oncology physician services outside North Brevard County; and (ii) the medical oncology physician services and radiation oncology physician services within North Brevard County.

77. Health insurers that sell policies to members in North Brevard County cannot reasonably purchase the medical oncology physician services and radiation oncology physician services outside North Brevard County as an alternative to serve those beneficiaries. As a result, physicians located outside of North Brevard County do not generally compete with healthcare providers within North Brevard County for the sale of medical oncology physician services and radiation oncology physician services.

78. As the actions and arrangements set forth herein which are being taken and imposed by Health First are so blatantly anticompetitive, under the antitrust "quick look" doctrine no geographic or product markets need be circumscribed. In the event that a relevant geographic market is required to be set forth in this suit, such market is North Brevard County.

79. HF Doctors, once a pending acquisition of Space Coast Cancer Center ("SCCC," described infra) closes, would have the market power, if acting collectively, to increase prices for

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2-2018-AA-[illegible]-XXX-XX

medical oncology physician services and radiation oncology physician services above competitive levels.

80. PMC participates in the markets for medical oncology physician services and radiation oncology physician services as a competitor as it offers such services.

(c) Imminent Acquisition of SCCC and Imposition of Exclusive Dealing

81. Recently, HF Medical Group has entered into an agreement with SCCC to acquire SCCC. The acquisition is scheduled to close in September 2015.

82. SCCC is a medical and radiation oncology physician practice and a free standing medical and radiation oncology center with two primary locations in Titusville (North Brevard County) and Viera (Central Brevard County). SCCC employs and/or contracts with six (6)[4] medical oncologists and two (2) radiation oncologists, all of which practice in North Brevard County.

83. Currently, in the market for medical oncology physician services in North Brevard County there are a total of nine (9) medical oncologists, six (6) of which are currently employed and/or contracted with SCCC and three (3) of which are independent of SCCC and HF Doctors. All such nine (9) medical oncologists are in-network providers for HF Health Plans and/or HF Insurance. All six (6) of the medical oncologists that are currently employed and/or contracted with SCCC currently have privileges at PMC. All three (3) of the medical oncologists that are independent of SCCC and HF Doctors currently have privileges at PMC.

[4] There are currently seven (7) medical oncologists employed and/or contracted with SCCC, but one was not included in the calculation because he will retire upon the closing of HF Medical Group's acquisition of SCCC.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-15-00599-A-0000XXX-XX

84. Currently, in the market for radiation oncology physician services in North Brevard County there are a total of three (3)[5] radiation oncologists, two (2) of which are currently employed and/or contracted with SCCC and one (1) of which is independent of SCCC and HF Doctors. All three (3) radiation oncologists practicing in North Brevard County are currently in-network providers for HF Health Plans and/or HF Insurance. Both of the radiation oncologists currently employed and/or contracted with SCCC currently have privileges at PMC and the one (1) radiation oncologist that is independent of SCCC and HF Doctors consults at PMC.

85. Upon the closing of HF Medical Group's acquisition of SCCC, the physicians that comprise SCCC will be employees of HF Doctors. As such, in September 2015, HF Doctors will employ six (6) of the nine (9) medical oncologists practicing in North Brevard County and two (2) of the three (3) radiation oncologists practicing in North Brevard County.

86. Subsequent to that acquisition, Health First will impose on all or most of those physicians the same exclusive dealing arrangements, as referenced in paragraphs 60-66 and 69-71 above, imposed on other physicians associated with Health First practicing in Brevard County. The exclusive dealing arrangements include requiring such medical and radiation oncologists to admit exclusively or almost exclusively to Health First Hospitals, and refer exclusively or almost exclusively to HF Doctors and facilities owned by Health First. Although the medical and radiation oncologists that are currently practicing at SCCC may retain their privileges at PMC after the acquisition, such privileges will, in practice, likely only be used for emergency services due to the exclusive dealing arrangements that such oncologists will have entered into with Health First.

[5] There are currently four (4) radiation oncologists practicing in North Brevard County, but one was not included in the calculation because of his imminent retirement.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000164-XXX-XX

87. After the closing of the acquisition, then, there is a dangerously high probability that HF Doctors will have a monopoly of the markets for medical oncology physician services and radiation oncology physician services in North Brevard County. There will only be three (3) medical oncologists in North Brevard County that are outside of HF Doctors' employment and there will only be one (1) radiation oncologist in North Brevard County outside of HF Doctors' employment. In addition, one hundred (100%) percent of the medical oncologists and radiation oncologists practicing in North Brevard County are in-network providers of HF Health Plans and/or HF Insurance and therefore will be subject to exclusive referral arrangements with Health First.

88. Given the imposition of Health First's exclusive dealing arrangements referenced above, PMC has experienced and will experience further reduction or elimination of referrals from HF Doctors' newly acquired medical oncologists and radiation oncologists and/or a reduction or elimination of acute care inpatient hospital services and outpatient services for medical and radiation oncology. Patients residing in North Brevard County, including members enrolled in health plans other than those plans affiliated with Health First, who would otherwise have received inpatient and/or outpatient oncology services at PMC through the medical and/or radiation oncologists acquired by HF Medical Group, will instead, because of the exclusive dealing arrangements, receive such services at a hospital owned by Health First significantly further south in Brevard County.

89. HF Medical Groups' pending acquisition of SCCC thus has a dangerously high probability of reducing competition and creating monopoly power in North Brevard County to the detriment of PMC as well as consumers. PMC will lose referrals and admissions, creating the risk that it will not be able to retain sufficient volume of referrals and admissions to support

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

the provision of such services. Some cancer patients will be deprived of receiving full care in their geographic area. Their physicians will be deprived of referral choice as to where their patients receive oncology services and the hospitals they are admitted to, to their and their patients' detriment including quality of care.

90. Such anticompetitive conduct will likely increase Health First's revenue through its inflated prices charged to competitor health plans for medical and radiation oncology physician services rendered by HF Doctors and/or participating providers in HF Health Plans' and/or HF Insurance's network. Patients will suffer in having to pay increased premiums.

91. There are no pro-competitive justifications for the exclusive dealing arrangements that would be sufficient to overcome their anticompetitive effects.

3. Exclusive Dealing Arrangements and Group Boycott Regarding HF Doctors and Providers in HF Health Plans' and HF Insurance's Networks in North Brevard County

(a) Relevant Services Market

92. The physician specialties that are included in HF Health Plans' and HF Insurance's networks are allergy & immunology, anesthesiology, audiology, bariatric surgery, breast surgery, cardiology, cardiovascular & thoracic surgery, cardiovascular diseases, clinical cardiac, clinical neurophysiology, colon & rectal surgery, critical care medicine, dentistry, dermatology, dermatopathology, electrophysiology, endocrinology & metabolism, family medicine, foot & ankle surgery, gastroenterology, general practice, general surgery, geriatric medicine, hand surgery/orthopaedic surgery, hematology, hospitalist, infectious disease, internal medicine, interventional cardiology, maternal & fetal medicine, medical oncology, neonatal-perinatal medicine, nephrology, neurology, neurosurgery, obstetrics & gynecology, ophthalmology, optometry, oral & maxillofacial surgery, orthopaedic surgery, otolaryngology

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

(ENT), pain management, pathology, pediatric allergy & immunology, pediatric cardiology, pediatric critical care medicine, pediatric dermatology, pediatric endocrinology, pediatric gastroenterology, pediatric hematology-oncology, pediatric nephrology, pediatric neurology, pediatric neurosurgery, pediatric ophthalmology, pediatric orthopaedics, pediatric otolaryngology, pediatric pulmonology, pediatric surgery, pediatric urology, pediatrics, perinatology, physical medicine & rehab, plastic & reconstructive surgery, podiatry, psychiatry, pulmonary medicine, pulmonology & critical care medicine, radiation oncology, rheumatology, sleep medicine, sports medicine, surgery – general, therapeutic radiology, thoracic surgery, transplant hepatology, urogynecology, urology, vascular surgery, and vitreoretinal disease (collectively referred to herein as the "Relevant Physician Specialty(ies)").

93. The markets for the Relevant Physician Specialties are comprised of healthcare services that a physician, licensed under state law to practice medicine or osteopathy, provides or coordinates.

94. There is a low cross elasticity of demand between physician services and non-physician healthcare services. There is also a low cross elasticity of demand between the Relevant Physician Specialties services.

95. Health insurers usually contract with an entire medical practice, rather than separately contract with each physician in a practice.

96. Physicians practicing in the Relevant Physician Specialties are typically reimbursed for services rendered at a rate according to a provider service agreement between the physician or the group medical practice and the health insurer.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-24-0599-A-[illegible]XXX-XX

97. Patients with health insurance have limited financial responsibility when receiving health services from a physician or facility. Members of health plans usually have cost-share responsibilities as part of their benefit plans.

98. As mentioned above, a patient's utilization of a particular physician's services is generally guided by a single purchase decision. This single purchase decision is typically seeking treatment at a hospital's emergency department or with a primary care physician. Most of a patient's subsequent healthcare-related choices will be dictated from that original decision by physician referrals. As such, physician referrals generally control the course and scope of services rendered to patients. Due to the passive nature of healthcare consumers, an entity that is able to influence physicians, will, to a substantial degree, control the patients' treatment options.

99. Therefore, patients will also suffer as their choice of hospital will be entirely removed by their physician's arrangement with Health First that forces physicians in the Relevant Physician Specialties to exclusively or nearly exclusively refer patients to Health First Hospitals.

100. The markets for the Relevant Physician Specialties have recently developed a trend in which physician practices form much larger physician practices through merger or acquisition. This recent trend is exemplified in Health First, Inc.'s acquisition of MIMA. Larger physician practices have an increased ability to bargain with health insurers for higher reimbursement rates.

101. There are high barriers to entry into the market for each of the Relevant Physician Specialties in North Brevard County including, without limitation, licensure, medical education, and training requirements. An additional barrier to entry is competing with larger physician practices resulting from the recent trend to consolidate and merge.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

(b) Relevant Geographic Market

102. Under the antitrust "quick look" doctrine, the practices at issue are so blatantly anticompetitive that a relevant geographic market need not be defined. In the event such definition were required, the relevant geographic market for the Relevant Physician Specialties markets would be the same as the medical oncology physician services market and radiation oncology physician services market, North Brevard County. To market their products to employers and individuals, private health insurers contract to purchase healthcare services, such as the Relevant Physician Specialties services, in the geographic area in which members enrolled in their health plans are likely to seek medical care.

103. Absent the wrongful conduct of Health First, a small percentage of members of health plans who live within North Brevard County would travel outside its borders to seek the Relevant Physician Specialty services. As a result, physicians practicing the Relevant Physician Specialties located outside of North Brevard County do not generally compete with physicians within North Brevard County for the Relevant Physician Specialty services. There is a low cross elasticity of demand between physicians practicing the Relevant Physician Specialty services outside North Brevard County and within North Brevard County.

104. HF Doctors would have the market power, if acting collectively, to increase prices above competitive levels.

(c) The Targeted Practices

105. HF Health Plans and/or HF Insurance have entered into exclusive dealing arrangements with physicians in the Relevant Physician Specialties practicing in North Brevard County who are not employed by Health First but who are members of their network of participating providers. Health First has also entered into exclusive dealing arrangements with

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2-2018-CV-00108-XXX-XX

the physicians that comprise HF Doctors. Such physicians are forced by Health First to refuse to deal with physicians and facilities that do not refer exclusively to Health First.

106. As a result, physicians in the Relevant Physician Specialties that refuse to enter into such exclusive referral arrangements have had their referrals cease from physicians that have entered into these exclusive referral arrangements and/or been otherwise blacklisted by Health First for failing to sufficiently comply with Health First's anticompetitive practices. For example, non-compliant physicians in the Relevant Physician Specialties have been terminated from Health First's network of participating providers and/or denied further access to Health First Hospitals and/or other facilities owned by Health First, including termination of hospital privileges at Health First Hospitals.

107. Health First's exclusive referral arrangements and imposition of group boycotts also restricts access by non-Health First affiliated physicians and facilities in the Relevant Physician Specialties in North Brevard County to: (a) members of HF Health Plans and HF Insurance who otherwise would have been referred absent their treating physician's participation in the exclusionary arrangements; and (b) members of competitor health plans who otherwise would have been referred absent their treating physician's participation in exclusionary arrangements. Thus, such members are deprived of access to PMC.

108. PMC has been harmed by the loss of referrals and admissions from physicians in the Relevant Physician Specialties in HF Doctors practicing in North Brevard County and from physicians in the Relevant Physician Specialties practicing in North Brevard County that are participating providers in HF Health Plans' and HF Insurance's networks. Rather than refer to PMC, such physicians refer patients residing in North Brevard County, including members

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-0000518-XXX-XX

enrolled in health plans other than those affiliated with Health First, for acute care inpatient services and outpatient services to Health First Hospitals, typically, Cape Canaveral or Viera.

109. Furthermore, after the initial referral to Cape Canaveral or Viera, Health First frequently transfers such patients to Holmes for treatment, thereby increasing Health First's revenue through the inflated prices (obtained through an abuse of market power) charged to competitor health plans. Such conduct by Health First is an example of Health First embedding its monopoly pricing in South Brevard County into the communities throughout Brevard County by requiring referrals and admissions of patients from physicians in the Relevant Physician Specialties practicing in North Brevard County to facilities owned by Health First.

110. Pursuant to such exclusive dealing arrangements and group boycotts, competition in the Relevant Physician Specialty markets in North Brevard County has been reduced and the ability of such physicians practicing in North Brevard County to provide quality medical care has been compromised by unduly restricting their ability to make meaningful choices concerning patient referrals and admissions thereby harming consumers.

111. Such exclusive dealing arrangements and group boycotts have harmed PMC and other competitors of Health First by foreclosing their access to a significant volume of patients within North Brevard County.

112. There are no pro-competitive justifications for such exclusive dealing arrangements and group boycotts that would be sufficient to overcome their anticompetitive effects.

E. HF Medical Group Solicits PMC's Physicians and Health First, Inc. Makes False Statements and Misrepresentations

113. HF Medical Group and/or its agents have solicited and continue to solicit PMC Physicians to cease working with PMC and join HF Medical Group and/or other physician

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-000161-XXXX-XX

groups with exclusive referral arrangements with HF Health Plans and/or HF Insurance with the intent to eliminate competition in North Brevard County, and thereby harm PMC's business interest.

114. HF Medical Group and/or its agents have solicited certain PMC physicians offering network access to members enrolled in HF Health Plans' and HF Insurance's plans and referrals of such members and/or members enrolled in competitor health insurers' plans that are being treated at a facility owned by Health First or by a physician that has entered into an exclusive referral arrangement with Health First, including HF Doctors, on the conditions that they: (a) leave PMC to join HF Medical Group or other physician groups that have existing exclusive referral arrangements with Health First; (b) agree to enter into an exclusive referral arrangement with Health First; (c) refuse to refer to physicians that are not contracted with HF Health Plans and HF Insurance; and (d) refuse to refer to facilities that are not owned by Health First.

115. Health First had access to the identities of PMC Physicians and knew that such PMC Physicians had contracts with PMC and/or an advantageous business relationship with PMC.

116. NMBS and HF Health Plans entered into the Health First Health Plans Participating Medical Group Agreement (the "Group Agreement"), effective April 1, 2012, pursuant to which NMBS billed HF Health Plans for covered services provided by PMC Physicians to members enrolled in HF Health Plans' plans. Health First had knowledge of the identities of PMC Physicians because Addendum B to the Group Agreement lists the names, specialties, and addresses of PMC Physicians.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000512-XXX-XX

117. Recently, HF Medical Group and/or its agents have solicited PMC Physicians to leave PMC and join HF Doctors and/or other physician groups with exclusive referral arrangements with HF Health Plans and/or HF Insurance.

118. Also recently, Health First, Inc.'s President and CEO, Steven Johnson, has made disparaging and false statements regarding PMC's economic future to elected officials in an effort to harm PMC's business interests, including, without limitation, to spread misinformation to encourage solicited PMC Physicians and/or PMC Physicians that Health First targeted for solicitation to leave PMC and join HF Doctors and/or physician groups with exclusive referral arrangements with HF Health Plans and/or HF Insurance and to also influence appointments to PMC's Board of Directors.

119. More specifically, Mr. Johnson questioned the financial efficacy of PMC by intentionally misrepresenting to elected officials that, "PMC would be out of business in two years."

120. Health First, Inc.'s and HF Medical Group's actions are deceptive, malicious and destructive to PMC's mission of providing quality healthcare to the members of the community it serves and to PMC's business interests.

121. On or about September 8, 2014, PMC provided notice to Mr. Johnson of its knowledge of Health First's wrongful solicitation of PMC Physicians.

122. On December 23, 2014, PMC sent counsel for Health First, Inc. and/or its owned entities, including HF Health Plans, a letter demanding that HF Health Plans cease: (i) disseminating false information about PMC to elected officials; (ii) contacting such elected officials in an effort to influence appointments to PMC's Board of Directors for HF Health

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-[illegible]-XXX-XX

Plans' own financial gain; and (iii) soliciting, and/or attempting to solicit, PMC Physicians (the "Cease and Desist Letter").

123. After PMC sent the Cease and Desist Letter, Health First continued its unlawful behavior against PMC. For example, Mr. Johnson made a disparaging and false statement to the Brevard County Board of County Commissioners that cited one of the rates in the PFA as indicative of the overall rates in the contract. In fact, that one rate was a rate for a sub-sect of services under one line of business and is not indicative of the rates throughout the PFA.

IV. CAUSES OF ACTION

COUNT I—BREACH OF CONTRACT
(Against HF Health Plans)

124. PMC realleges and adopts the allegations contained in paragraphs 1-4, 8, 11, 15-16, and 18-38 above as if fully set forth herein.

125. As referenced above, PMC and HF Health Plans entered into the PFA, as amended, effective February 1, 2007, which was terminated effective December 7, 2014.

126. Pursuant to PFA, PMC rendered hospital services to members enrolled in HF Health Plans' Medicare Advantage Plans.

127. HF Health Plans were obligated to pay PMC in compliance with the terms of the PFA, including, but not limited to, the Medicare Reimbursement Provisions.

128. For claims with dates of service on or about April 1, 2013 through on or about December 7, 2014, HF Health Plans systematically underpaid PMC pursuant to the Unilateral Reduction, despite its obligations under the PFA, including, but not limited to, the Medicare Reimbursement Provisions for services rendered by PMC to members enrolled in HF Health Plans' Medicare Advantage Plans.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-[illegible]-XXX-XX

129. HF Health Plans' conduct constitutes a breach of their obligations under the PFA, including, but not limited to, the Medicare Reimbursement Provisions.

130. As a result of HF Health Plans' conduct, PMC has been damaged in an amount in excess of $170,000.

131. All the conditions and covenants specified in the PFA have been performed, waived by HF Health Plans, or otherwise satisfied by PMC.

WHEREFORE, Plaintiff, PMC, hereby requests that this Court enter judgment for damages in its favor and against Defendant, HF Health Plans, award pre-judgment and post-judgment interest, attorneys' fees and costs pursuant to the PFA, and any other relief this Court deems just and proper.

COUNT II – VIOLATION OF SECTION 641.513(5), FLORIDA STATUTES
(Against HF Health Plans)

132. PMC realleges and adopts the allegations contained in paragraphs 1-2, 5, 8, 11, 15-16, 18-24, and 39-53 above as if fully set forth herein.

133. Following the termination of the PFA, from December 8, 2014 through March 7, 2015, PMC rendered emergency services and care to members enrolled in HF Health Plans' Licensed HMO and POS Plans as a non-contracted provider.

134. HF Health Plans has partially and improperly reimbursed PMC for emergency services and care rendered by PMC to such members.

135. Section 641.513(5), Florida Statutes, sets forth HF Health Plans' obligation to reimburse PMC for emergency services and care rendered by PMC to its members enrolled in its Licensed HMO and POS Plans, where there is no contract between PMC and HF Health Plan, by paying the lesser of "the provider's charges, the usual and customary provider charges for similar services in the community where the services were provided, or the charge mutually agreed upon

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000615-XXX-XX

by the health maintenance organization and the provider within 60 days of the submittal of the claim."

136. PMC and HF Health Plans cannot and have not mutually agreed upon a payment pursuant to Section 641.513(5)(c), Florida Statutes.

137. HF Health Plans has completely disregarded its obligation under Section 641.513(5)(a) or (b), Florida Statutes, and refuses to pay PMC's billed charges for emergency services and care rendered by PMC to members enrolled in HF Health Plans' Licensed HMO and POS Plans, which are less than or equal to the usual and customary provider charges for similar services in the community where the services were provided.

138. Thus, HF Health Plans' has violated Section 641.513(5), Florida Statutes.

139. Because of this blatant violation, PMC has been damaged by not being properly reimbursed for emergency services and care rendered by PMC to members enrolled in HF Health Plans' Licensed HMO and POS Plans.

140. As a result of HF Health Plans' conduct, PMC has been damaged.

WHEREFORE, Plaintiff, PMC, hereby requests that this Court enter judgment for damages in its favor and against Defendant, HF Health Plans, award pre-judgment and post-judgment interest, attorneys' fees and costs, and provide such other and further relief this Court deems necessary and appropriate.

COUNT III –UNJUST ENRICHMENT
(Against HF Health Plans and HF Insurance)

141. Plaintiff realleges and adopts the allegations contained in paragraphs 1-2, 5, 8, 11, 15-16, 18-24, and 39-53 above as if fully set forth herein.

142. The members enrolled in HF Health Plans' and/or HF Insurance's Commercial Plans, including, without limitation, HF Health Plans' Licensed HMO and POS Plans, pay HF

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-24-0599-A-[illegible]XXX-XX

Health Plans' and/or HF Insurance to ensure that they receive medical services and care. By providing certain of these members with emergency services and care and emergency services and care and subsequent treatment, Plaintiff conferred a benefit on HF Health Plans and/or HF Insurance.

143. For services rendered from December 8, 2014 through March 7, 2015, HF Health Plans and/or HF Insurance authorized the provision of subsequent treatment following emergency services and care rendered by PMC to members enrolled in HF Health Plans' and/or HF Insurance's Commercial Plans, including, without limitation, HF Health Plans' Licensed HMO and POS Plans. HF Health Plans and HF Insurance knowingly and voluntarily accepted these benefits.

144. HF Health Plans and HF Insurance have been unjustly enriched by not paying the billed charges for the emergency services and care and for the follow up treatment to the emergency services and care, rendered by PMC, from December 8, 2014 through March 7, 2015, to members enrolled in HF Health Plans' and HF Insurance's Commercial Plans. It is inequitable for HF Health Plans and HF Insurance to retain the benefit without paying the value thereof to PMC.

145. As a result of HF Health Plans' and HF Insurance's conduct, PMC has been damaged.

WHEREFORE, Plaintiff, PMC, hereby requests that this Court enter judgment for damages in its favor and against Defendants, HF Health Plans and HF Insurance, award pre-judgment and post-judgment interest, and provide such other and further relief this Court deems necessary and appropriate.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000517-XXXX-XX

COUNT IV - QUANTUM MERUIT
(Against HF Health Plans and HF Insurance)

146. PMC realleges and adopts the allegations contained in paragraphs 1-2, 5, 8, 11, 15-16, 18-24, and 39-53 above as if fully set forth herein.

147. From December 8, 2014 through March 7, 2015, PMC has rendered emergency services and care or emergency services and follow up treatment to such emergency services and care, to members enrolled in HF Health Plans' and HF Insurance's Commercial Plans, including, without limitation, HF Health Plans' Licensed HMO and POS Plans, as a non-participating provider.

148. PMC conferred a benefit upon HF Health Plans and HF Insurance by providing emergency services and care and by providing follow up treatment to such emergency services and care.

149. From December 8, 2014 through March 7, 2015, HF Health Plans and/or HF Insurance authorized the provision of subsequent treatment following emergency services and care rendered by PMC to members enrolled in HF Health Plans' and/or HF Insurance's Commercial Plans, including, without limitation, HF Health Plans' Licensed HMO and POS Plans. HF Health Plans and HF Insurance knowingly and voluntarily accepted these benefits.

150. A reasonable person in HF Health Plans' and HF Insurance's place, receiving such a benefit, would normally expect to pay for the full reasonable value of such services.

151. PMC is entitled to receive the full reasonable value of such services rendered. It would be inequitable for HF Health Plans and HF Insurance to be permitted to pay less than the full reasonable value of such services rendered by PMC to members enrolled in HF Health Plans' and HF Insurance's Commercial Plans.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-0000518-XXX-XX

152. As a result of HF Health Plans' and HF Insurance's conduct, PMC has been damaged.

WHEREFORE, Plaintiff, PMC, hereby requests that this Court enter judgment for damages in its favor and against Defendants, HF Health Plans and HF Insurance, award pre-judgment and post-judgment interest, and provide such other and further relief this Court deems necessary and appropriate.

COUNT V
VIOLATION OF THE FLORIDA ANTITRUST ACT
SECTION 542.23, FLORIDA STATUTES
Impermissible Merger in Restraint of Trade
(Against Health First, Inc., HF Physicians, and HF Medical Group)

153. PMC realleges and adopts the allegations contained in paragraphs 6-24, and 54-112 above as if fully set forth herein.

154. Antitrust law is designed, *inter alia*, to arrest in its incipiency the substantial lessening of competition from the acquisition by one corporation of a competing corporation.

155. HF Medical Group is in the process of acquiring SCCC to establish Health First's monopolistic control over medical oncology physician services and radiation oncology physician services in North Brevard County. Such monopolistic control will harm PMC.

156. Upon the acquisition described above, the prices for medical services in North Brevard County in the relevant service markets will likely increase, while incentives to improve the quality of medical services provided will have been removed. Therefore, the acquisition will also cause injury to both competition and consumers.

157. Furthermore, PMC will be additionally harmed by this acquisition as it will enhance Health First's control over physician referrals for medical and radiation oncology services in North Brevard County by reason of Health First's exclusionary practices of referral

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

prohibitions. Health First will most likely steer patients that receive services at SCCC to Health First Hospitals, other Health First facilities, HF Doctors, and/or other physicians contracted with HF Health Plans and/or HF Insurance.

158. These exclusionary practices will even further substantially limit PMC's ability to effectively compete in the markets for medical oncology physician services and radiation oncology physician services in North Brevard County.

159. These injuries reflect the type of injuries that antitrust laws were designed to prevent and are directly derived from the anticompetitive and exclusionary behaviors of Health First described herein.

160. If an injunction prohibiting HF Medical Group's acquisition of SCCC is not entered or, alternatively, divestiture of SCCC from HF Medical Group is not ordered, PMC will suffer irreparable harm.

161. There are no pro-competitive justifications for the acquisition and exclusionary practices described herein that would be sufficient to overcome their anticompetitive effects.

WHEREFORE, Plaintiff, PMC, hereby respectfully requests that the Court:

i. Issue an injunction prohibiting the acquisition of SCCC by HF Medical Group or, alternatively, order the divestiture of SCCC from HF Medical Group;

ii. Adjudge and decree that Health First, Inc., HF Physicians, and/or HF Medical Group have engaged in an unlawful anticompetitive agreement(s) and actions in violation of § 542.18, Florida Statutes (2015);

iii. Award PMC their reasonable attorneys' fees and costs incurred in pursuing this action; and

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2016-599-A-000528-XXX-XX

iv. Award such other and further relief the Court deems necessary and appropriate.

COUNT VI
VIOLATION OF THE FLORIDA ANTITRUST ACT
SECTION 542.19, FLORIDA STATUTES
Attempted Monopolization of the Medical Oncology Physician Services and Radiation Oncology Physician Services Market
(Against All Defendants)

162. PMC realleges and adopts the allegations contained in paragraphs 6-21, and 54-112 above as if fully set forth herein.

163. Health First is in the process of acquiring a dominant share of the medical oncology physician services and radiation oncology physician services markets in North Brevard County through HF Medical Group's acquisition of SCCC.

164. Additionally, as described *supra,* PMC participates in the medical oncology physician services and radiation oncology physician services markets in North Brevard County as a competitor as it offers these physician services.

165. Health First is enhancing and abusing its market power in the medical oncology physician services and radiation oncology physician services markets within North Brevard County through the anticompetitive conduct described herein including, but not limited to, HF Medical Group's acquisition of SCCC noted above and Health First's concurrent imposition of exclusive dealing arrangements, which together create a dangerously high probability of creating a monopoly in North Brevard County on the provision of those services.

166. Health First has acted with the specific intent of obtaining monopoly power for these healthcare markets within North Brevard County.

167. As a result, prices for medical oncology physician services and radiation oncology physician services offered within North Brevard County will most likely increase, options for

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]-XXX-XX

patient choice will decrease, and both competition for medical oncology physician services and radiation oncology physician services offered in the North Brevard County community will be harmed.

168. PMC has been, and will be, harmed by the various anticompetitive and exclusionary practices described herein.

169. These injuries reflect the type of injuries that Florida's antitrust laws were designed to prevent and are directly derived from the anticompetitive and exclusionary behaviors of Health First described herein.

170. If an injunction prohibiting HF Medical Group's acquisition of SCCC is not entered or, alternatively, divestiture of SCCC from HF Medical Group is not ordered, PMC will suffer irreparable harm.

171. If an injunction prohibiting exclusive dealing arrangements between Health First and the medical and radiation oncologists that will be acquired by HF Medical Group in the imminent acquisition of SCCC is not entered, PMC will suffer irreparable harm.

172. There are no pro-competitive justifications for the anticompetitive conduct described herein that would be sufficient to overcome their anticompetitive effects.

WHEREFORE, Plaintiff, PMC, hereby respectfully requests that the Court:

i. Adjudge and decree that Health First, Inc., HF Physicians, and/or HF Medical Group have attempted to monopolize the markets for medical and radiation oncology physician services, including, without limitation, diagnosis of cancer, staging of cancer, and implementation of treatment for cancer.

ii. Issue an injunction prohibiting the acquisition of SCCC by HF Medical Group or, alternatively, order the divestiture of SCCC from HF Medical Group;

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2-2018-CA-000522-XXXX-XX

iii. Invalidate any arrangements between any of the entities owned by Health First, Inc. and any medical or radiation oncologist in North Brevard County, to utilize Health First Hospitals or affiliated facilities exclusively or nearly exclusively or to refer exclusively or nearly exclusively to HF Doctors or other participating providers in HF Health Plans' or HF Insurance's networks, or otherwise exclude PMC from doing business with such medical or radiation oncologists;

iv. Adjudge and decree that Health First has engaged in an unlawful anticompetitive agreement(s) and actions in violation of § 542.18, Florida Statutes (2015);

v. Award PMC their reasonable attorneys' fees and costs incurred in pursuing this action; and

vi. Award such other and further relief the Court deems necessary and appropriate.

COUNT VII
VIOLATION OF THE FLORIDA ANTITRUST ACT
SECTION 542.18, FLORIDA STATUTES
Contract, Combination, or Conspiracy in Restraint of Trade
(Against All Defendants)

173. PMC realleges and adopts the allegations contained in paragraphs 6-21, and 54-112 above as if fully set forth herein.

174. Health First's various corporate entities have participated in a common scheme, combination or conspiracy with independent physicians in the Relevant Physician Specialties who are not Health First employees but are members of HF Health Plans' and/or HF Insurance's

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2016-A-000523-XXX-XX

physician networks, designed to exclude competition in the Relevant Physician Specialty service markets in North Brevard County.

175. The common scheme involves multiple forms of exclusive dealing restrictions or group boycotts, described above. The exclusive dealing arrangements violate § 542.18, Florida Statutes (2015). The group boycotts/concerted refusals to deal are per se violations of the § 542.18, Florida Statutes (2015), as they involve a horizontal agreement amongst direct competitors.

176. Each of the Defendants actively participated in, and gained a competitive advantage from, their anticompetitive practices, including, without limitation: (a) Health First, Inc., through its officers and board of directors, designed and implemented the common scheme described herein; (b) HF Doctors assist Health First in augmenting its market power in the Relevant Physician Specialty services markets in North Brevard County by boycotting physicians who refuse to enter into exclusive dealing arrangements with Health First or who are not contracted with HF Health Plans and/or HF Insurance; and (c) HF Health Plans and/or HF Insurance assist Health First in augmenting its market power in the Relevant Physician Specialty services markets in North Brevard County by implementing exclusive dealing arrangements with their participating providers in the Relevant Physician Specialties and forcing such providers to boycott non-participating providers and facilities that are not owned by Health First.

177. PMC participates in the markets for the Relevant Physician Specialties services in North Brevard County as a competitor.

178. As a result of the common scheme, there are fewer alternatives for patients in the relevant markets and prices are likely to rise, thereby causing injury to competition, consumers, and PMC.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000524-XXX-XX

179. PMC has been, and will continue to be, harmed by and suffer damages from the various anticompetitive and exclusionary practices described herein. For example, PMC is deprived of patient referrals, and the ability to make referrals, by the above exclusionary practices.

180. These injuries reflect the type of injuries that antitrust laws were designed to prevent and are directly derived from the anticompetitive and exclusionary behaviors of Health First described herein.

181. If an injunction prohibiting exclusive dealing arrangements between Health First and independent physicians in the Relevant Physician Specialties who are not Health First employees but are members of HF Health Plans' and/or HF Insurance's physician networks, PMC will suffer irreparable harm.

182. There are no pro-competitive justifications for the anticompetitive conduct described herein that would be sufficient to overcome their anticompetitive effects.

WHEREFORE, Plaintiff, PMC, hereby respectfully requests that the Court:

i. Invalidate any arrangements between any of the Heath First entities and any medical or radiation oncologist or any other physician in the Relevant Physician Specialties and/or medical group in the Relevant Physician Specialties in North Brevard County, to utilize Health First Hospitals or affiliated facilities exclusively or nearly exclusively or to refer exclusively or nearly exclusively to HF Doctors or other participating providers in HF Health Plans' or HF Insurance's networks, or otherwise exclude PMC from doing business with such physicians and/or medical groups;

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2-2018-CV-00599-AA-MJF-XXX-XX

ii. Adjudge and decree that Health First has engaged in an unlawful anticompetitive agreement(s) and actions in violation of § 542.18, Florida Statutes (2015);

iii. Award PMC treble damages, as required by statute;

iv. Award PMC their reasonable attorneys' fees and costs incurred in pursuing this action; and

v. Award such other and further relief the Court deems necessary and appropriate.

COUNT VIII
TORTIOUS INTERFERENCE WITH A CONTRACT
(Against Health First, Inc., HF Physicians, and HF Medical Group)

183. PMC realleges and adopts the allegations contained in paragraphs 7-14, 17, 19-21, and 113-123 above as if fully set forth herein.

184. As previously referenced, the Florida legislature established PMC in an effort to address the public health and welfare needs of the North Brevard County community. As such, it functions as the hospital of last resort for many of North Brevard County's indigent and uninsured residents.

185. Additionally, in furtherance of fulfilling its obligation to the public, PMC invests in, and expends, considerable public resources in recruiting and retaining skilled PMC Physicians who provide various health services to the members of the community.

186. PMC has an existing contractual relationship with PMC Physicians under which PMC has legal rights.

187. Health First is aware of PMC's contractual relationships with PMC Physicians.

188. HF Medical Group's solicitation of PMC Physicians were performed with the intention and purpose of harming PMC's business interests in order to remove competition in the

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-000526-XXX-XX

hospital services market and in the Relevant Physician Specialty services markets in North Brevard County to the detriment of consumers.

189. Health First, Inc. made disparaging and false statements to elected officials to spread misinformation in an effort to encourage the PMC Physicians that HF Medical Group solicited or intends to solicit to leave PMC and join HF Doctors and/or other physician groups with exclusive referral arrangements with HF Health Plans and HF Insurance.

190. HF Medical Group's solicitation of PMC Physicians is unjustified and in furtherance of improperly restraining competition in North Brevard County's healthcare markets.

191. HF Medical Group's solicitation of PMC Physicians is deceptive, malicious and destructive to PMC's mission of providing quality healthcare to the members of the North Brevard County community.

192. HF Medical Group's solicitation of PMC Physicians is not grounded in a legitimate economic basis.

193. PMC reasonably believes that HF Medical Group will continue to tortiously solicit PMC Physicians.

194. As a result of HF Medical Group's tortious solicitation of PMC Physicians, PMC has been irreparably harmed.

195. Compensatory damages will not sufficiently compensate PMC, and PMC does not have an adequate remedy at law.

196. PMC has a substantial likelihood of success on the merits of its case because HF Medical Group tortious solicitation of PMC Physicians is in furtherance of creating a prohibited anticompetitive healthcare market in North Brevard County.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-000527-XXXX-XX

197. If an injunction is not entered, PMC and the community it serves will continue to suffer irreparable harm as an anticompetitive healthcare market has the effect of driving the cost of healthcare up, while simultaneously lowering the quality of such healthcare.

198. The threatened injury to PMC and the public outweighs the possible harm to Health First, Inc., HF Physicians, and/or HF Medical Group.

199. The granting of an injunction prohibiting HF Medical Group from soliciting PMC Physicians will not disserve the public interest.

200. The granting of an injunction prohibiting Health First, Inc. from making disparaging, false statements, and/or misrepresentations about PMC will not disserve the public interest.

WHEREFORE, Plaintiff, PMC respectfully requests that the Court:

i. Issue an injunction prohibiting Health First, Inc., HF Physicians, and/or HF Medical from interfering with PMC's contractual relationships;

ii. Issue an injunction prohibiting Health First, Inc. from making disparaging statements, false statements, and/or misrepresentations about PMC;

iii. Award PMC its costs of this action; and

iv. Award such other and further relief the Court deems necessary and appropriate.

COUNT IX
TORTIOUS INTERFERENCE WITH
AN ADVANTAGEOUS BUSINESS RELATIONSHIP
(Against Health First, Inc., HF Physicians, and HF Medical Group)

201. PMC realleges and adopts the allegations contained in paragraphs 7-14, 17, 19-21, and 113-123 above as if fully set forth herein.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-24-0599-A-[illegible]XXX-XX

202. As previously referenced, the Florida legislature established PMC in an effort to address the public health and welfare needs of the North Brevard County community. As such, it functions as the hospital of last resort for many of North Brevard County's indigent and uninsured residents.

203. Additionally, in furtherance of fulfilling its obligation to the public, PMC invests in, and expends, considerable public resources in recruiting and retaining skilled PMC Physicians who provide various health services to the members of the community.

204. PMC has an existing advantageous business relationship with PMC Physicians under which PMC has legal rights.

205. Health First is aware of PMC's advantageous business relationships with PMC Physicians.

206. HF Medical Group's solicitation of PMC Physicians were preformed with the intention and purpose of harming PMC's business interests in order to remove competition in the hospital services market and in the Relevant Physician Specialty services markets in North Brevard County to the detriment of consumers.

207. Health First, Inc. made disparaging and false statements to elected officials to spread misinformation in an effort to encourage the PMC Physicians that HF Medical Group solicited or intends to solicit to leave PMC and join HF Doctors and/or other physician groups with exclusive referral arrangements with HF Health Plans and HF Insurance.

208. HF Medical Group's solicitation of PMC Physicians is unjustified and in furtherance of improperly restraining competition in North Brevard County's healthcare market to the detriment of consumers.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-2-2018-AA-000528-XXX-XX

209. HF Medical Group's solicitation of PMC Physicians is deceptive, malicious and destructive to PMC's mission of providing quality healthcare to the members of the community.

210. HF Medical Group's solicitation of PMC Physicians is not grounded in a legitimate economic basis.

211. PMC reasonably believes that HF Medical Group will continue to tortiously solicit PMC Physicians.

212. As a result of HF Medical Group's tortious solicitation of PMC Physicians, PMC has been irreparably harmed.

213. Compensatory damages will not sufficiently compensate PMC, and PMC does not have an adequate remedy at law.

214. PMC has a substantial likelihood of success on the merits of this case because HF Medical Group's tortious solicitation of PMC Physicians is in furtherance of creating a prohibited anticompetitive healthcare market in North Brevard County.

215. If an injunction is not entered, PMC and the community it serves will continue to suffer irreparable harm as an anticompetitive healthcare market has the effect of driving the cost of healthcare up, while simultaneously lowering the quality of such healthcare.

216. The threatened injury to PMC and the public outweighs the possible harm to Health First, Inc., HF Physicians, and HF Medical Group.

217. The granting of an injunction prohibiting HF Medical Group from soliciting PMC Physicians will not disserve the public interest.

218. The granting of an injunction prohibiting Health First, Inc. from making disparaging, false statements, and/or misrepresentations about PMC will not disserve the public interest.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-000538-XXX-XX

WHEREFORE, Plaintiff, PMC respectfully requests that the Court:

i. Issue an injunction prohibiting Health First, Inc., HF Physicians, and/or HF Medical Group from interfering with PMC's advantageous business relationships;

ii. Issue an injunction prohibiting Health First, Inc. from making disparaging statements, false statements, and/or misrepresentations about PMC;

iii. Award PMC its costs of this action; and

iv. Award such other and further relief the Court deems necessary and appropriate.

DEMAND FOR JURY TRIAL

Plaintiff hereby demands a trial by jury for all issues so triable.

SUBJECT: Additional Information Regarding the Mandatory Payment Reductions in the Medicare Advantage, Part D, and Other Programs

On March 22, 2013, the Centers for Medicare & Medicaid Services (CMS) released a memorandum notifying Medicare Advantage Organizations (MAOs), Part D plans, and other programs (including Managed Care Organizations) that, beginning April 1, 2013, payments made to MAOs, Part D sponsors, and other programs will generally be reduced by two percent in accordance with the Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA), as amended. This process of payment reduction is referred to as sequestration. This memorandum provides additional information about the application of sequestration to the Medicare Advantage (MA) program, Part D, and other specified program payments.

Calculation of Amount Being Sequestered

In its March 22, 2013 memorandum, CMS explained that the two percent sequestration reduction will be applied to MA, Part D, and other program payments associated with enrollment periods beginning on or after April 1, 2013. CMS has received a number of questions asking for more details about how the sequestration applies to the MA, Part D, and other program payments.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-000534-XXX-XX

Payments to all plans and plan types are subject to sequestration, including MAOs, Prescription Drug Plans, Sections 1876 and 1833 Cost Plans, Health Care Prepayment Plans, PACE plans, and demonstration plans of all types. The two percent reduction is applied to the Net Capitation Payment (NCP) made to plans. All non-exempt capitation payments are included in the NCP. For example, Part C Risk Adjusted payments (after MSP reduction) and MA rebates are included. For Part D, Direct Subsidy payments and Coverage Gap Discount payments are included. Part D payments for Low Income Subsidies and Reinsurance are exempt from sequestration and therefore not reduced.

Beginning April 1, 2013 (and for the duration of the sequestration period), prospective payments in the payment categories identified above are netted against adjustments to capitation payments for enrollment periods beginning or continuing in effect on or after April 1, 2013. The resulting NCP amount, whether positive or negative, is then multiplied by two percent to account for reductions that need to be made, and any reductions that were previously made for payments that are being adjusted (e.g., a retroactive disenrollment adjustment that is being processed for an enrollment payment that was previously reduced due to sequestration).

Only NCPs associated with enrollment periods beginning on or after April 1, 2013 are subject to sequestration. That means, for example, that the April 1, 2013 prospective payment made to a plan for members who were enrolled on April 1, 2013 is subject to the two percent reduction, but any payment adjustments to prospective payments made for those members for periods prior to April 1, 2013 are not subject to sequestration, even if those payment adjustments occur on or after April 1, 2013. Similarly, the 2012 final risk score reconciliation occurring later this year will not be affected by the sequester.

If there are any adjustments for periods that straddle April 1, 2013, the portion of the adjustment for the enrollment period starting on April 1, 2013 will be subject to sequestration. For example, if the State and County Code (SCC) for an enrollee changes for the May 1st payment and the SCC change is retroactive to January 2013, the portion of the adjustment relating to the January, February, and March payments will not be reduced due to the sequester, but the portion of the adjustment related to April payment will be reduced.

Cost Plans: The monthly payments made to Section 1876 and 1833 cost-based Managed Care Organizations (MCOs) are subject to sequestration in the same manner described above for MAOs. In addition, the reduction in payment will apply to the cost reports submitted by Sections 1876 and 1833 cost-based MCOs. The two percent reduction will be prorated based on the portion of the cost reporting period covered by the sequestration order, which became effective for Medicare programs on April 1, 2013. CMS will provide specific cost report preparation instructions at a later date.

Coverage Gap Discount Program (CGDP) Payments: Prospective CGDP payments from CMS to plans are subject to sequestration. Therefore, CMS will reduce the prospective CGDP payments by two percent. However, the actual discounts collected from the pharmaceutical manufacturers are not subject to sequestration. Because CMS is reducing payments associated with enrollment periods beginning April 1, 2013, any offsets that CMS makes for prospective CGDP payments made before April 1, 2013 are not subject to sequestration. CMS will make the

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-[illegible]XXX-XX

appropriate adjustments to the offset amount to reflect the required reductions, as well as to the prospective CGDP payment, when conducting the CGDP reconciliation for this time period.

Part D Risk Corridor Reconciliation: In accordance with Section 256(d) of BBEDCA, CMS will not take into account any reductions in prospective payment amounts due to sequestration for purposes of computing the Part D risk corridor reconciliation under section 1860D–15(e) of the Social Security Act. In other words, the "Target Amount" will not include any sequester reductions in prospective payments. In addition, Section 256(d)(7) of the BBEDCA exempts payments made under section 1860D-15(e)(2)(B) of the Social Security Act from sequestration. Therefore, any payment resulting from the Part D Reconciliation (i.e., payments made as a result of risk sharing) would not be subject to sequestration.

Electronic Health Records (EHR) Incentive Program Payments: Under section 256(d) of BBEDCA, incentive payments made under the EHR Incentive Program are subject to sequestration. Following the approach of applying sequestration to payments associated with enrollment periods beginning April 1, 2013, CMS will reduce the incentive payments by two percent when the last day of the EHR reporting period is on or after April 1, 2013. Note that the two percent reduction will be applied to the total incentive amount for that reporting period regardless of whether some of the EHR use accounted for in that reporting period occurred prior to April 1, 2013. The MA EHR incentive payments that CMS will make in June 2013 are for the 2012 reporting period and therefore will not be reduced due to sequestration.

Reducing Payments to Contracted Providers

Section 1854(a)(6)(B)(iii) of the Social Security Act prohibits CMS from interfering in the payment arrangements between MAOs and contract providers. The statute specifies that CMS "may not require any MA organization to…require a particular price structure for payment under such a contract…" Thus, whether and how sequestration might affect an MAO's payments to its contracted providers are governed by the terms of the contract between the MAO and the provider. We note that MAOs must follow the prompt pay provisions established in their contracts with providers and to pay providers under the terms of those contracts (see 42 CFR sections 422.520(b)(1) and (2)). Similarly, the question of whether and how sequestration might affect a Part D plan sponsor's payment to its contracted providers is governed by the payment terms of the contract between the plan sponsor and its network pharmacy providers. We note that Part D plan sponsors must follow the prompt pay provisions established in their contracts with network pharmacy providers and to pay the providers under the terms of those contracts (see 42 CFR sections 423.520(b)(1) and (2)).

Beneficiary Liability Under Sequestration

Sequestration does not affect the basic and supplemental benefits offered by the MAO or Part D sponsor, nor does it change the plan's approved premium or cost sharing requirements for CY 2013. As a result, MAOs and Part D sponsors are not permitted to modify the currently-approved benefit or cost sharing structure in any way. This includes increases in premiums or cost sharing, or reductions in benefits in an attempt to offset the lower payments due to sequestration.

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-22-0599-A-0001536-XXX-XX

Reducing Payments to Non-Contract Providers

Pursuant to the Medicare regulations at 42 CFR § 422.214, a non-contract provider must accept, as payment in full, the amount that it could collect if the beneficiary were enrolled in the Medicare Fee-for-Service program. On March 8, 2013, CMS sent a bulletin titled "Mandatory Payment Reductions in the Medicare Fee-for-Service (FFS) Program – Sequestration" via the Medicare Learning Network. That bulletin provided the following guidance regarding how the reduction applies to payments under the Medicare FFS program (i.e., Part A and Part B):

> In general, Medicare FFS claims with dates-of-service or dates-of-discharge on or after April 1, 2013, will incur a 2 percent reduction in Medicare payment. Claims for durable medical equipment (DME), prosthetics, orthotics, and supplies, including claims under the DME Competitive Bidding Program, will be reduced by 2 percent based upon whether the date-of-service or the start date for rental equipment or multi-day supplies is on or after April 1, 2013.
>
> The claims payment adjustment shall be applied to all claims after determining coinsurance, any applicable deductible, and any applicable Medicare Secondary Payment adjustments.
>
> Though beneficiary payments for deductibles and coinsurance are not subject to the 2 percent payment reduction, Medicare's payment to beneficiaries for unassigned claims is subject to the 2 percent reduction.

For example, if a provider bills for a service with a Medicare approved amount of $100.00 and $50.00 is applied to the deductible, a balance of $50.00 remains. Medicare FFS normally would pay 80 percent of the approved amount after the deductible is met, which is $40.00 ($50.00 x 80 percent = $40.00). The patient is responsible for the remaining 20 percent coinsurance amount of $10.00 ($50.00 - $40.00 = $10.00). However, due to the sequestration reduction, 2 percent of the $40.00 calculated payment amount is not paid, resulting in a payment of $39.20 instead of $40.00 ($40.00 x 2 percent = $0.80).

MAOs may apply a similar process to determine the amount owed to a non-contract provider. The MAO should calculate the net payment owed to the non-contract provider by subtracting the member's out-of-network (OON) cost-sharing amount from the total Medicare approved amount under FFS for that particular service. The minimum payment amount due to the non-contract provider would be equal to the net payment amount reduced by 2 percent due to sequestration. As an example, if a non-contract provider bills an MAO for a service with a FFS approved amount of $100.00 and the member has a 20 percent OON cost-sharing obligation, the member would be responsible for paying the $20 coinsurance amount ($100 x 20 percent = $20) and the MAO would normally pay the non-contract provider $80 ($100 x80% = $80). However, due to the sequestration reduction, the $80.00 calculated payment amount would be reduced by 2 percent ($80.00 x 2 percent = $1.60), resulting in a payment of $78.40 instead of $80.00 ($80.00 - $1.60 = $78.40).

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-24-0599-A-000537-XXXX-XX

We would note, however, that the requirement for a non-contract provider to accept FFS payment amounts as payment in full serves as a floor on MAOs' payments to these providers. As a result, it is at the MAOs' discretion as to whether to impose a reduction due to sequestration for these payments. Additionally, MAOs must continue to meet the prompt payment requirements for paying non-contract providers (see 42 CFR section 422.520(a)(3)).

If you have any questions about the guidance in the memorandum, please contact Jean Stiller at Jean.Stiller@cms.hhs.gov.

AMERICAN OVERSIGHT

Exhibit C

AMERICAN OVERSIGHT

DEPARTMENT OF HEALTH & HUMAN SERVICES

Centers for Medicare & Medicaid Services

Administrator
Washington, DC 20201

APR 17 2014

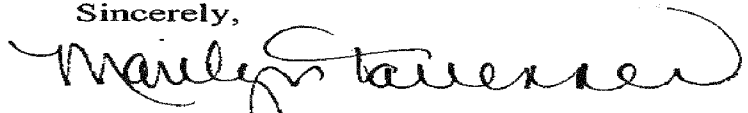
Mr. Rick Pollack
Executive Vice President
American Hospital Association
Liberty Place, Suite 700
325 Seventh Street, NW
Washington, DC 20004

Dear Mr. Pollack:

Thank you for your letter regarding the effect of sequestration on providers that contract with Medicare Advantage Organizations (MAOs). In your letter, you expressed concern that some MAOs are applying a sequestration payment reduction in cases where the MAO's contract with a provider uses Medicare fee-for-service (FFS) rates as a reference point. You requested that the Centers for Medicare & Medicaid Services issue guidance to MAOs to clarify that sequestration affects the amount that Medicare would otherwise pay, but does not constitute a change to Medicare (FFS) provider rates.

As you are aware, on March 1, 2013, the President was required by law to issue a sequestration order directing a series of across-the-board reductions in federal spending. The sequestration order generally included a two percent reduction to payments under Medicare, including payments to FFS providers and payments to MAOs. For providers in FFS Medicare, we have made available, through our Medicare Administrative Contractors, a series of questions and answers related to sequestration. This document includes the following question and answer related to Medicare FFS payment rates and sequestration:

> **Question:** Does the two percent payment reduction under sequestration apply to the payment rates reflected in Medicare FFS fee schedules or does it only apply to the final payment amounts?
>
> **Answer:** Payment adjustments required under sequestration are applied to all claims after determining the Medicare payment, including application of the current fee schedule, coinsurance, any applicable deductible, and any applicable Medicare Secondary Payment adjustments. All fee schedules, pricers, etc., are unchanged by sequestration. Only the final payment amount is reduced.



While we agree that the sequestration does not change the rates or fee schedules in the Medicare FFS program, we are prohibited from interfering in the payment arrangements between MAOs and contracted providers by section 1854(a)(6)(B)(iii) of the Social Security Act. Thus, whether and how reductions to plan payments due to sequestration might affect an MAO's payments to

AMERICAN OVERSIGHT
Filing 31396845 VS FL-GOV-20-0599-A-0001548-XXX-XX

its contracted providers are governed by the terms of the contract between the MAO and the provider. As we noted in the May 1, 2013, guidance, MAOs and Part D plan sponsors must follow the prompt pay provisions established in their contracts with providers and pay providers under the terms of those contracts (*See* 42 C.F.R. sections 422.520(b)(1) and (2); *See also* 42 C.F.R. sections 423.520(b)(1) and (2)). We encourage any provider or hospital with additional questions about sequestration or provider payment provisions to contact the MAO or Part D sponsor with which it has contracted.

I hope this information is helpful. I look forward to continuing to work with you to ensure Medicare beneficiaries have access to high quality services in the Medicare FFS and Medicare Advantage programs. Please do not hesitate to contact me with any further thoughts or concerns. I will also provide this response to the Senior Vice President, Linda Fishman.

Sincerely,

Marilyn Tavenner

NBMS
Attention: Felicia Rabsatt-Harris
7075 N. US Hwy 1 Suite 500
Port St. John, FL 0

Dear Felicia Rabsatt-Harris:

Our country is facing mandatory across-the-board reductions in Federal spending, also known as sequestration, as a requirement of the Budget Control Act of 2011. Unless Congress authorizes relief funding or eliminates the mandatory spending cuts by April 1, 2013, reimbursement for the Medicare Advantage programs will be affected.

How will the Centers for Medicare and Medicaid Services (CMS) make spending reductions?

CMS is implementing mandatory payment reductions in their payments to Medicare Advantage programs for payments made for claims with a date of service on or after April 1, 2013.

How is Health First Health Plans responding to the payment reduction?

Because Health First Health Plans will be receiving a two percent reduction across the board from CMS, we will be reducing our reimbursement to providers for the Medicare line of business by two percent as of the same date. The payment reduction will appear as a "prompt pay" discount on your remittance advice.

How will the payment reduction affect members of Health First Health Plans?

Because reductions will be applied after determining coinsurance, any applicable deductible and any Medicare Secondary Payment adjustments, the amounts that Health First Health Plans members pay will remain the same.

What happens if Congress authorizes relief funding before April 1?

We are hopeful that Congress will take action to eliminate the mandatory spending reductions. If this happens, Health First Health Plans will not reduce reimbursements.

Please contact me at (321) 434-5607 or Katie.Fleming@health-first.org with any questions you may have about Medicare's payment reductions and how this affects your claims.

Sincerely,

Katie Fleming

UNITED STATES DISTRICT COURT
MIDDLE DISTRICT OF FLORIDA
ORLANDO DIVISION

GERMAINE BLAINE; CYNTHIA BRYANT; JUAN CASTRO; ASHISH DALAL; FIRAS MUWALLA; BRENDAN PRENDERGAST; and RICHARD SPRAWLS,

Plaintiffs,

v.

Case No. 6:18-cv-487-Orl-37DCI

NORTH BREVARD COUNTY HOSPITAL DISTRICT,

Defendant.

ORDER

Before the Court is Defendant North Brevard County Hospital District, d/b/a Parrish Medical Center's ("**PMC**") Motion for Summary Judgment. (Doc. 137 ("**Motion**").) Plaintiffs responded (Doc. 148), and PMC replied (Doc. 154). On review, the Motion is granted.

I. BACKGROUND[1]

This case is about a public hospital's decision to deny seven doctors reappointment of medical privileges and the process it used to get there. Plaintiffs are oncologists

[1] The facts recited here are not the actual facts of the case. *See Davis v. Williams*, 451 F.3d 759, 763 (11th Cir. 2006). Rather, they reflect Plaintiff's "best case"—that is, the Court must consider the facts in the light most favorable to Plaintiff. *See Robinson v. Arrugueta*, 415 F.3d 1252, 1257 (11th Cir. 2005); *see also Walker v. City of Riviera Beach*, 212 F. App'x 835, 837 (11th Cir. 2006).

AMERICAN OVERSIGHT

employed by Health First, a health system based in Brevard County, who practice in Brevard County at various facilities. (Doc. 81, ¶¶ 2, 7.) Each successfully applied for medical privileges at PMC and had been re-appointed every time their terms came up. (*Id.* ¶ 12.) So when it came time to renew in 2017, they followed the same process outlined in PMC's Medical Staff Bylaws ("**Bylaws**"): submitting applications for PMC's CEO George Miktarian to review. (*Id.*; Doc. 33-1, ¶ 9; Doc. 81-1, pp. 33–38 (Bylaws reappointment process).) Dr. Miktarian then transmitted Plaintiffs' applications to the Credentials and Medical Ethics Committee ("**CMEC**"), which sent the applications to PMC's Medical Executive Committee ("**MEC**"). (Doc. 81,¶¶ 21–22.) The MEC reviewed the applications and, on November 21, 2017, provided a favorable recommendation regarding Plaintiffs' reappointment to PMC's Board of Directors ("**Board**"). (*Id.* ¶ 23.) All seemed well; Plaintiffs believed their applications would be approved again. (Doc. 81, ¶ 12; *e.g.*, Doc. 143-4, p. 57:19–23; Doc. 143-7, pp. 82:5–83:3.)

Meanwhile PMC had been seeking renewal of accreditation of their cancer program from the Commission on Cancer ("**CoC**"). This process began in 2016 and involved providing data and working closely with CoC staff, who would do a site visit. (Doc. 143-11, pp. 16:1–15, 40:17–41:2, 51:21–54:12.) When the process started, Plaintiff Dr. Dalal was chair of PMC's Cancer Committee and the representative of Health First. (Doc. 143-4, pp. 40:6–17, 41:6–43:7, 64:20–22.) At the September meeting, PMC's accreditation initiative was discussed and the subject of data came up, specifically that PMC needed data from Health First physicians to complete the accreditation process. (*Id.* at 40:6–17, 41:6–43:7.) Dr. Dalal said he would work on it and at a later meeting reported back that

AMERICAN OVERSIGHT

Nancy Payne, Health First's System Director, was the person to talk to. (*Id.*; Doc. 145-1, pp. 33:24–43:8; Doc. 143-8, p. 14:10–12.) He said he would coordinate with her, and PMC separately reached out to her requesting data. (Doc. 143-4, pp. 40:6–17, 41:6–43:7; Doc. 145-1, pp. 33:24–43:8; Doc. 143-8, pp. 27:1–28:8, 30:12–13, 32:7–12; 34:13–15, 41:17–22, 40:23–41:8 (Payne received emails over two years regarding data and received instructions not to provide certain information to PMC).) PMC didn't get everything they were looking for and continued to reach out to Nancy Payne over the next year, as all data requests were funneled her way. (Doc. 143-8, pp. 41:17–22, 52:5–8, 55:18–56:25, 57:24–58:10, 61:1–63:10, 64:6–65:4, 67:8–25, 75:4–25.) Separately, PMC asked Dr. Bryant for some specific information regarding radiation and she complied. (Doc. 143-2, pp. 100:18–101:19; Doc. 145-4, pp. 33:17–34:18.) Nancy Payne, however, was unresponsive to numerous inquiries PMC made about the data. (Doc. 143-8, pp. 41:17–22, 52:5–8, 55:18–56:25, 57:24–58:10, 61:1–63:10, 64:6–65:4, 67:8–25.)

While this was going on, the composition of PMC's Cancer Committee changed. Dr. Dalal was replaced by Dr. Deligdish, an oncologist in charge of a different practice group, as head of the committee. (Doc. 143-4, pp. 90:13–92:6; Doc. 143-5, pp. 10:4–20, 105:18–24, 124:12–20.) PMC noticed a decline in the amount of patients Plaintiffs treated at PMC, and chalked it up to Plaintiffs' association with Health First, which had its own facilities. (Doc. 145-2, p. 35:7–24; Doc. 33-3, ¶¶ 8–12.) So sometime in September 2017, after learning that PMC's numerous requests for data from Health First were outstanding, Dr. Deligdish phoned several Plaintiffs on PMC's behalf to discuss their association with Health First and mentioned the data requests to some. (Doc. 145-1, pp.

AMERICAN OVERSIGHT

89:24–90:11; Doc. 143-5, pp. 105:4–106:19, 109:8–14.) He met with Dr. Dalal in person. (Doc. 143-5, pp. 105:4–106:19.) At that time, Plaintiff Dr. Muwalla was the medical director of Health First, and on hearing of this data issue, he went to Nancy Payne. (Doc. 143-7, pp. 42:7–9, 43:11–13.) According to Dr. Muwalla, she told him she'd get back to him and couldn't release the data PMC was requesting absent approval from her superiors. (*Id.* at 43:16–24.) Those in charge at Health First decided not to release the data. (*Id.* at 56:16–25.)

Matters came to a head when Plaintiffs sought reappointment. Their employer, Health First, had decided not to comply with PMC's requests for data for re-accreditation purposes. (Doc. 145-3, pp. 18:6–18, 20:24–25:22.) PMC informed the CoC surveyor during the on-site visit of the data issues with Health First, who empathized with PMC's situation and created workarounds for some of the data requests. (Doc. 143-11, pp. 51:21–54:12, 73:10–74:17, 81:19–83:6.) Yet at the time Plaintiffs sought reappointment, there were still outstanding data inquiries from Health First. (*Id.* at 73:10–74:17, 81:19–84:25.) So although the MEC recommended approving Plaintiffs' reappointment, when their applications went to the Board, Dr. Miktarian distributed a memo he had Marsha Richardson, PMC's Director of Oncology Services, prepare that detailed all the times PMC had requested data from Health First, naming Plaintiffs. (Doc. 145-2, pp. 12:1–24, 79:23–81:3; Doc. 145-4, pp. 24:20–25, 87:18–92:2.) He also circulated a draft letter prepared by PMC's legal counsel addressed to each Plaintiff. (Doc. 145-2, pp. 85:1–86:3.) At the meeting, the Board decided to send back Plaintiffs' reappointment applications to the MEC because of these data issues ("**December 4 Meeting**"). (*Id.* at 57:3–8; Doc. 33-2, pp.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001549

2–15.)

The next day, Dr. Miktarian sent each Plaintiff a letter notifying them their refusal to provide data constituted a breach of PMC's Bylaws and could be a reason to deny reappointment. (Doc. 33-2, pp. 16–29 ("**December 5 Letter**").) He gave them five days to turn over any outstanding data and noted that even if they attempted to cure now, their applications could still be denied. (*Id.*)

Plaintiffs went to Health First management with the letters, as they didn't own the data and couldn't individually provide it. (Doc. 143-1, pp. 45:4–49:23; Doc. 143-2, pp. 93:15–99:24; Doc. 143-3, pp. 33:19–22, 41:20–46:1; Doc. 143-3, pp. 44:13–50:8; Doc. 143-7, pp. 57:17–64:3; Doc. 143-9, pp. 20:3–22:18; Doc. 143-10, pp. 59:25–60:3, 78:14–81:18.) Health First decided it would handle the entire situation through its legal department, taking the position that it didn't need to hand over the data as PMC was wrongfully attempting to deny these reappointment applications since Plaintiffs had no clinical issues. (Doc. 33-3, pp. 30–33; Doc. 143-1, pp. 53:12–56:2, 63:18–75:14; Doc. 143-2, pp. 101:22–108:13; Doc. 143-3, pp. 55:2–64:24; Doc. 143-4, pp. 57:7–62:16; Doc. 143-7, pp. 57:17–64:3, 74:2–24; Doc. 143-9, pp. 20:3–22:18, 100:5–19; Doc. 143-10, pp. 82:3–83:22.) Letters were exchanged staking out the parties' respective positions. (Doc. 33-1, ¶¶ 26–31, 33, 35–39; Doc. 33-2, pp. 36–49, 51–62; Doc. 33-3, pp. 30–33, 35–41.)

The MEC met after the Board sent back Plaintiffs' applications to the MEC and discussed Plaintiffs' reappointment. (Doc. 33-2, pp. 31–34.) Plaintiff Dr. Sprawls appeared at the meeting to provide his side of the story: he objected to the revocation of his privileges, the Bylaws didn't permit denial of his reappointment for this data reason, the

AMERICAN OVERSIGHT

provision of data had no bearing on his clinical capabilities, the data requests hadn't been made to him, and he had no control over the data. (Doc. 143-10, pp. 97:4–101:11.) The MEC decided to support the Board if the applications were denied. (Doc. 33-2, p. 33.)

The Board met again and heard Plaintiffs hadn't complied with data requests as Health First was refusing to turn it over. (Doc. 145-1, pp. 67:6–68:6.) At the same time, PMC was working with CoC to get an extension on its time to comply with two outstanding data requests and learning what to do to finish the accreditation process despite this missing data. (Doc. 143-11, pp. 81:19–87:13.) The Board decided to deny Plaintiffs' reappointment applications at the **January 8 Meeting**, and Dr. Miktarian sent each Plaintiff a letter notifying them of the denial and the expiration of their privileges. (Doc. 33-2, pp. 64–77.) He offered them the opportunity to appear before the Board for an interview and appeal the decision as the Bylaws allow. (*Id.*)

Feeling steamrolled, Plaintiffs responded via letter prepared by Health First's counsel. (*Id.* at 79–99.) They initially accepted the interview offer but then didn't respond to Dr. Miktarian's request to provide dates and times, later deciding "to forego" the interview. (*Id.*; Doc. 33-3, pp. 2–28, 43–44, 46–47.) They also didn't send any patient information or attempt to provide coordination of care plans. (Doc. 143-1, pp. 73:20–74:6; Doc. 143-2, p. 122:20–15; Doc. 143-3, pp. 60:2–13, 62:6–15; Doc. 143-7, pp. 72:15–73:3; Doc. 143-9, p. 97:1–12; Doc. 143-10, p. 115:21–25.)

With privileges gone, Plaintiffs filed this lawsuit alleging two claims initially: PMC violated their procedural due process by denying them reappointment without a hearing, and PMC breached the Bylaws by denying the applications for not providing the data,

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001551

which Plaintiffs dub a non-clinical business reason. (Doc. 1.) For the breach claim, they say Dr. Miktarian committed intentional fraud by telling the Board Plaintiffs failed to comply with numerous data requests made to them, repeating this in the December 5 Letter, and telling this to the MEC. (*Id.* ¶¶ 18, 24–25, 28–31, 61–62, 64–66.) With the Complaint, Plaintiffs moved for preliminary injunction. (Doc. 5.)

Following briefing and a hearing on the preliminary injunction (Docs. 32, 33, 35, 38, 39), the Court granted the motion in part on the procedural due process claim, ordering PMC to provide Plaintiffs a hearing in conformity with its Bylaws and reinstating Plaintiffs' privileges in the meantime. (Doc. 42 ("**First PI Order**").) PMC complied, holding a hearing on Plaintiffs' reappointment applications in conformity with the Bylaws before a neutral decisionmaker where Plaintiffs were represented by counsel and presented witness testimony and evidence ("**Ad Hoc Committee**"). (Doc. 81-1, pp. 92–96; Docs. 66-4, 66-5 (hearing transcript).) The focus was on the data: whether PMC requested data from Plaintiffs, whether Plaintiffs received data requests, how Plaintiffs responded, should their responses cost them reappointment, whether they provided the data, and whether denial of their reappointment applications was appropriate for not providing the data. (Doc. 81-1, p. 93.)

On consideration, the Ad Hoc Committee issued Findings and Recommendations. (Doc. 81-1, pp. 94–95.) First, the Ad Hoc Committee addressed "the central question—do the Medical Staff Bylaws require [Plaintiffs] to have supplied, or caused to be supplied, the requested data?" (*Id.* at 94.) It found:

AMERICAN OVERSIGHT

The Physicians are all board-certified oncologists serving on Parrish's Medical Staff.

Parrish has been accredited by the Commission on Cancer for at least 18 years.

The Commission publishes national standards for cancer care and issues accreditation to hospitals and other organizations meeting its standards.

Accreditation by the Commission and the collection of data for Commission accreditation are quality improvement programs that improve the quality of patient care at the hospital.

Until the Commission's most recent survey in 2016, Parrish has always received the Patient Data from the oncologists on its Medical Staff.

From early 2016 through late 2017, Parrish made repeated requests for Patient Data from Nancy Payne, Director, Health First Cancer Institute – the Physicians' employer. Dr. Dalal on several occasions identified Nancy Payne as the contact person for Patient Data requests.

Until 2016, Parrish had always received the requested data from the Physicians. Sometime before 2016, the Physicians became employees of Health First. Since 2016, the Physicians have worked exclusively for Health First.

Physicians do not dispute that Parrish addressed requests for data to the Physicians Employer (Health First), and Physicians were generally aware of these requests. Physicians' Proposed Findings at P 8. Dr. Dalal testified that the Physicians wanted Health First to respond to the Parrish letters requesting the data. *See, e.g.*, Hearing Transcript July 20th 2018 at p. 286, L 10-11.

There is no evidence to determine the reasons why Health First did not respond as Physicians asked.

It is also undisputed from the evidence presented that this data was not provided (with some limited exceptions, *supra* p.105). *See, e.g.*, Hearing Transcript July 19th, 2018 at p. 68, L 14-16; p. 107.

(*Id.* at 94–95.) So the Ad Hoc Committee answered the first question:

> [Plaintiffs] were aware of the unfulfilled requests for Patient Data and even if they did not have control of the data, they had a duty to supply it, or cause it to be supplied, as part of their obligations as staff members of [PMC].

(*Id.* at 96.)

Next, the Ad Hoc Committee asked, "Was denial of [Plaintiffs'] reappointment applications allowed under the Medical Staff Bylaws for the failure to provide the Patient

AMERICAN OVERSIGHT

Data request?":

> It is undisputed from the evidence presented that the data requested from the Physicians was for the purpose of Parrish maintaining its accreditation with the Commission on Cancer.
>
> The Committee finds that § 2.2 of the Medical Staff Bylaws, and not § 3.2-3, controls this issue. The Medical Staff is required, *inter alia*, to assist the Board "in identifying community health needs… and in implementing programs to meet those needs."
>
> The Committee finds that the Physicians' failure to provide the Patient Data hinders Parrish's cancer program and may cause the loss of its accreditation in the future. The Physicians' failure to provide the Patient Data hinders the delivery of quality patient care at Parrish.
>
> **The Committee answers the second question: We find that, under the Medical Staff Bylaws, clinical competency is not the sole basis for denying applications for reappointment. This Committee finds that: (i) Parrish made requests to the Physicians for the Patient Data; (ii) the Physicians failed to provide, or cause to be provided, the Patient Data; (3) the denial of the Physicians' reappointment to the medical staff is appropriate under the Medical Staff Bylaws based on their failure to provide, or cause to be provided, the Patient Data.**

(*Id.*) The Ad Hoc Committee concluded:

> **Conclusion**
>
> The Committee finds that the Medical Staff Bylaws are unambiguous and that the request for data was within the appropriate scope of Parrish's rights under the Medical Staff By-laws.
>
> The Physicians' did not provide, or cause to be provided, this data.
>
> This provision of such data was within the scope of their obligations under the Medical Staff By-laws.
>
> Accordingly, the Committee finds that the failure to provide the data was an appropriate basis for denying the applications for renewal of privileges.

(*Id.*) Plaintiffs submitted exceptions to the Ad Hoc Committee's recommendation, as to the overall conclusion and several other findings. (*Id.* at 98–101.) Following oral argument, Dr. Miktarian issued a ruling denying Plaintiffs' exceptions (*id.* at 103–107) and then issued his disposition with detailed findings of fact and his decision (*id.* at 109–121.) He concluded that denial of reappointment was appropriate. (*Id.* at 120–21.)

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001554

Plaintiffs appealed Dr. Miktarian's disposition to the Board, which reviewed the record and discussed the issues at a meeting on October 1. (*Id.* at 123–25.) It unanimously voted to affirm Dr. Miktarian's disposition to deny Plaintiffs' applications for reappointment and "found no information that would contravene its January 8, 2018 decision regarding the physicians' reappointment applications." (*Id.* at 125.) With that, Plaintiffs no longer held privileges at PMC.

Plaintiffs did not appeal the Board's decision in state court as the Bylaws allowed. (Doc. 77-6, p. 6.) Instead, they sought leave to file an amended complaint in this case—to bolster their pending claims with facts from the latest proceedings and tack on a substantive due process claim. (Doc. 62.) After this, they moved for a second preliminary injunction to restore their privileges pending trial. (Doc. 67.) Plaintiffs were allowed to file an amended complaint (Docs. 80, 81), and the Court held a hearing on the second preliminary injunction motion. (Docs. 90, 91.) The second go around, the Court denied Plaintiffs' request for a preliminary injunction, finding: (1) Plaintiffs had now received a full panoply of procedural due process; and (2) Plaintiffs had not established a likelihood of success on the merits for their two other claims. (Doc. 94 ("**Second PI Order**").)

With the close of discovery, the parties moved for summary judgment. Plaintiffs seek partial summary judgment on three affirmative defenses (Doc. 136), and PMC seeks summary judgment on all of Plaintiffs' claims (Doc. 137). Briefing complete (Docs. 147, 148, 153, 154), the Court now takes up PMC's fully dispositive motion.[2]

[2] The Court need not resolve Plaintiffs' motion for partial summary judgment because, as explained below, Plaintiffs' claims do not survive summary judgment.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001555

II. LEGAL STANDARDS

Summary judgment is appropriate only if the movant shows that there is no genuine dispute as to any material fact and that [it] is entitled to judgment as a matter of law." Fed. R. Civ. P. 56(a); *Celotex Corp. v. Catrett*, 477 U.S. 317, 323 (1986). As to issues for which the movant would bear the burden of proof at trial, it must affirmatively show the absence of a genuine issue of material fact and support its motion with credible evidence demonstrating that no reasonable jury could find for the nonmoving party on all of the essential elements of its case. *Fitzpatrick v. City of Atlanta*, 2 F.3d 1112, 1115 (11th Cir. 1993) (citing *United States v. Four Parcels of Real Prop. in Green & Tuscaloosa Ctys*, 941 F.2d 1428, 1438 (11th Cir. 1991)).

As to issues for which the nonmovant would bear the burden of proof at trial, the movant has two options: (1) it may simply point out an absence of evidence to support the nonmoving party's case; or (2) it may provide "affirmative evidence demonstrating that the nonmoving party will be unable to prove its case at trial." *Four Parcels*, 941 F.2d at 1438 (citing *Celotex Corp.*, 477 U.S. at 325). "The burden then shifts to the nonmoving party, who must go beyond the pleadings and present affirmative evidence to show that a genuine issue of material fact exists." *Porter v. Ray*, 461 F.3d 1315, 1320 (11th Cir. 2006) (citing *Fitzpatrick*, 2 F.3d at 1115–17).

"A factual dispute is genuine 'if the evidence is such that a reasonable jury could return a verdict for the nonmoving party.'" *Four Parcels*, 941 F.2d at 1437 (quoting *Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242, 248 (1986)). A court must view the evidence and all reasonable inferences drawn from the evidence in the light most favorable to the

AMERICAN OVERSIGHT

nonmovant, *Battle v. Bd. of Regents*, 468 F.3d 755, 759 (11th Cir. 2006), such that "when conflict arises between the facts evidenced by the parties, [the] court credit[s] the nonmoving party's version," *Evans v. Stephens*, 407 F.3d 1272, 1278 (11th Cir. 2005). However, "[the] court need not permit a case to go to a jury . . . when the inferences that are drawn from the evidence, and upon which the nonmovant relies, are 'implausible.'" *Mize v. Jefferson City Bd. of Educ.*, 93 F.3d 739, 743 (11th Cir. 1996). "When opposing parties tell two different stories, one of which is blatantly contradicted by the record, so that no reasonable jury could believe it, a court should not adopt that version of the facts for purposes of ruling on a motion for summary judgment." *Scott v. Harris*, 550 U.S. 372, 380 (2007).

III. DISCUSSION

PMC seeks summary judgment on all claims: (1) violating their procedural due process; (2) breach of Bylaws; and (3) violating their substantive due process. (Doc. 137.) The Court addresses each in turn.

A. Procedural Due Process

First, PMC argues summary judgment is appropriate on Plaintiffs' procedural due process claims since Plaintiffs received all the process due through the Ad Hoc Committee hearing and Plaintiffs' appeal. (Doc. 137, pp. 18–20.) In response, recognizing the Court already found in the Second PI Order that Plaintiffs had now received all the process that was due, Plaintiffs say their procedural due process claims were complete when PMC terminated their privileges in January 2018 without a hearing. (Doc. 148, pp. 12–13.) PMC is right.

AMERICAN OVERSIGHT

"[A] procedural due process violation is not complete 'unless and until the State fails to provide due process.'" *McKinney v. Pate*, 20 F.3d 1550, 1557 (11th Cir. 1994) (quoting *Zinermon v. Burch*, 494 U.S. 113, 123 (1990)). "In other words, the state may cure a procedural deprivation by providing a later procedural remedy." *Id.* If the matter reaches federal court and "a procedural deficit appears, the matter should, at that point, be remanded to the institution for its compliance with [applicable procedural] standards." *Woodbury v. McKinnon*, 447 F.2d 839, 846 (5th Cir. 1971) (quoting *Ferguson v. Thomas*, 430 F.2d 852, 858 (5th Cir. 1970)).[3] And when the procedures that follow comply with the requirements for procedural due process, "that ordinarily ends the matter." *Id.* (quoting *Ferguson*, 430 F.2d at 858).

Here, the Court finds that the requirements for procedural due process "were met before final disposition of the case." *Id.* As the Court stated in the Second PI Order, Plaintiffs' initial procedural due process claims were promising because their reappointment applications had been denied without a pre-deprivation hearing before a neutral decisionmaker. (Doc. 94, p. 7.) So the Court ordered and PMC provided such process, "in the form of a Bylaws-compliant hearing before a neutral decisionmaker where Plaintiffs were represented by counsel and could present evidence." (*Id.* (citing Doc. 42, pp. 11–16).) "No change in outcome was guaranteed." (*Id.*) And through that hearing, followed by Plaintiffs exhausting the appeal process, Plaintiffs received "the full

[3] The decisions of the former Fifth Circuit rendered before October 1, 1981 are binding on this circuit. *Bonner v. City of Prichard*, 661 F.2d 1206, 1207 (11th Cir. 1981) (en banc).

AMERICAN OVERSIGHT

panoply of due process protections." (*Id.* at 8 (quoting *Shahawy v. Harrison*, 875 F.2d 1529, 1533 (11th Cir. 1989)).) With all this, Plaintiffs can no longer maintain the position that PMC violated their procedural due process rights. PMC's Motion is granted as to these claims.

B. Breach of Bylaws

Next, PMC seeks summary judgment on Plaintiffs' breach of the Bylaws claims, arguing chiefly that PMC is entitled to statutory immunity under Fla. Stat. § 395.0191(7) because Plaintiffs haven't proved up that PMC acted with intentional fraud. (Doc. 137, pp. 21–24.) In response, Plaintiffs circle back to the argument that their reappointment applications can't be denied under the Bylaws for this data issue, which they argue is unrelated to patient care. (Doc. 148, pp. 13–17.) Plaintiffs then say § 395.0191(7) immunity doesn't apply here because PMC was acting in furtherance of business interests; and even if it does, whether Dr. Miktarian committed intentional fraud is a jury issue. (*Id.* at 17–20.) PMC's immunity argument carries the day.

Fla. Stat. § 395.0191(7) provides:

> There shall be no monetary liability on the part of, and no cause of action for injunctive relief or damages shall arise against, any licensed facility, its governing board or governing board members, medical staff, or disciplinary board or against its agents, investigators, witnesses, or employees, or against any other person, for any action arising out of or related to carrying out the provisions of this section, absent intentional fraud.

This "immunizes [any] hospital against any action for monetary or injunctive relief if it arises out of, or is related to, the appointment or reappointment process absent intentional fraud." *Lawnwood Med. Ctr., Inc. v. Desai*, 54 So. 3d 1027, 1031 (Fla. 4th DCA

AMERICAN OVERSIGHT

2011).[4] "To demonstrate intentional fraud, a plaintiff must show that the defendant made a misrepresentation about a material fact, and that the defendant knew the statement to be false." *Uche v. St. Lukes-St. Vincent Healthcare, Inc.*, No. 3:12-cv-865-J-32JBT, 2015 WL 476178, at *12 (M.D. Fla. Feb. 5, 2015) (first citing *Pierson v. Orlando Reg'l Healthcare Sys., Inc.*, No. 6:08-cv-466-Orl-28GJK, 2010 WL 1408391, at *8 (M.D. Fla. Apr. 6, 2010), *aff'd*, 451 F. App'x 862 (11th Cir. 2012); then citing *Myers v. Myers*, 625 So. 2d 1214, 1215 (Fla. 5th DCA 1995)).

Here, Plaintiffs latch intentional fraud onto Dr. Miktarian's conduct at the December 4 and January 8 Meetings, specifically when Dr. Miktarian informed the Board that Plaintiffs hadn't complied with numerous data requests and that this non-compliance jeopardized PMC's accreditation renewal.[5] (Doc. 148, pp. 4–8, 19.) Yet the evidence, viewed in Plaintiffs' best light, neither supports Plaintiffs' assignment of intentional fraud nor presents a genuine dispute of material fact.

First, Plaintiffs say Dr. Miktarian's statements to the Board that PMC had

---

[4] As an initial matter, the Court finds PMC may invoke § 395.0191(7) immunity over its denial of Plaintiffs' reappointment applications because, as stated in the Second PI Order, "the Bylaws allow issues outside the realm of clinical competence to be considered when evaluating a staff member's reappointment application," such as demonstrated professional ability and clinical judgment, professional ethics, discharge of staff obligations, and compliance with the Bylaws. (Doc. 94, pp. 5–6.) This echoes criteria § 395.0191(4) lists for determining a staff member's eligibility for privileges. Since Plaintiffs' claim is borne out of PMC's evaluation of their reappointment applications, § 395.0191(7) applies.

[5] In the Amended Complaint, Plaintiffs alleged Dr. Miktarian committed intentional fraud before the MEC also (Doc. 81, ¶¶ 28–31), but neither bring this up nor point to evidence in their Response to support this allegation (*See* Doc. 147, p. 19). Either way, the Court finds the record doesn't support this allegation.

AMERICAN OVERSIGHT

requested data from them is false and constitutes intentional fraud. (*Id.* at ¶ 2, p. 19.) Yet all Plaintiffs admitted in their depositions that they had been informed and/or asked about Health First providing PMC data for accreditation purposes before the December Board meeting. (Doc. 143-1, pp. 45:18–25, 54:6–56:2 (Dr. Blaine provided data when asked, knew Health First was asked many times for data); Doc. 143-2, pp. 94:16–95:25 (Dr. Bryant had been asked for data and complied with request); Doc. 143-3, pp. 34:8–11, 35:4–39:1, 40:3–15 (Dr. Castro was contacted by Dr. Deligdish for the data, Dr. Castro then talked to Nancy Payne); Doc. 143-4, pp. 26:14–25, 32:23–33:17, 35:4–37:11, 50:22–53:11 (Dr. Dalal knew about data being requested as part of reaccreditation, had conversations with Nancy Payne about providing the data); Doc. 143-7, pp. 28:17–29:3, 31:18–32:1, 40:1–42:6, 42:7–9, 43:11–24, 44:6–25, 46:6–25, 47:8–57:12 (Dr. Muwalla spoke to Dr. Deligdish and was told about PMC requesting data for COC accreditation, Dr. Muwalla then spoke to Nancy Payne and sent an email to Plaintiffs to not share the data, he got an email in November from Marsha Richardson at PMC contacting Nancy, Health First decided to involve legal); Doc. 143-9, pp. 57:10–58:13 (Dr. Prendergast had known about data from speaking with Dr. Deligdish and Dr. Dalal, he responded to Dr. Deligdish by identifying Nancy Payne); Doc. 143-10, p. 69:7–25 (Dr. Sprawls knew about PMC's data requests to Health First).) So Plaintiffs' own testimony refutes their contention that Dr. Miktarian "spoke falsely and with malice . . . when he advised PMC's Board that multiple requests for reaccreditation data were made to Physicians." (Doc. 148, p. 19.) As such, their assignment of intentional fraud on these grounds is baseless.

Next, Plaintiffs point to Dr. Miktarian's statements that PMC's accreditation was

AMERICAN OVERSIGHT

in jeopardy as evidence of intentional fraud because the CoC had been working with PMC to resolve its deficiencies. (*Id.* at 7–8, 19.) This assertion is unsupported by the record, which actually reveals that PMC fought tooth and nail to gain re-accreditation and succeeded despite this missing data. PMC worked with the CoC's surveyor to brainstorm and create workarounds to get at this missing data from another angle, via records it could obtain. (Doc. 143-11, pp. 40:17–41:2, 51:21–54:12, 73:10–74:17, 77:1–79:14, 81:19–84:25 (deposition of Vicki Chiapetta describing PMC's re-accreditation process).) And although PMC was able to resolve some deficiencies before the Board ultimately voted to deny Plaintiffs' reappointment applications, there were still two outstanding deficiencies PMC didn't resolve until two months later—one of which specifically required information on Health First policies and procedures. (*Id.* at 86:8–87:13, 94:1–99:24.) At the end of the day though, none of this changes the fact that PMC needed that data and not being able to get it jeopardized PMC's re-accreditation. (*Id.* at 134:2–135:5, 137:22–138:3, 144:23–156:25; Doc. 145-1, pp. 63:4–65:20.) Plaintiffs' evidence shows PMC didn't take no for an answer and still endeavored to obtain re-accreditation. But PMC's success doesn't mean the refusal to provide data didn't undermine and obstruct this process. Thus, Dr. Miktarian's statements to the Board linking the missing data to PMC's re-accreditation does not demonstrate intentional fraud.

With that, Plaintiffs have failed to provide evidence of intentional fraud in connection with the denial of their reappointment applications to supplant PMC's statutory immunity under Fla. Sta. § 395.0191(7). Accordingly, PMC is entitled to statutory immunity for Plaintiffs' breach of the Bylaws claims. The Motion is granted on

AMERICAN OVERSIGHT

these grounds.

C. Substantive Due Process

Last are Plaintiffs' substantive due process claims that "condition[ing] renewal of privileges on furnishing reaccreditation data requested by PMC" was unreasonable and arbitrary because supplying the data was not within Plaintiffs' control and unrelated to Plaintiffs' individual abilities and the provision of quality patient care. (Doc. 148, p. 20.) But when it comes to a substantive due process claim, as the Court explained previously, the Court cannot "substitute [its] judgment for that of the hospital's governing board or . . . reweigh the evidence regarding the renewal or termination of medical staff privileges." (Doc. 94, p. 6 (quoting *Shahawy*, 875 F.2d at 1533).) Rather:

> [T]he court is charged with the narrow responsibility of assuring that the qualifications imposed by the Board are reasonably related to the operation of the hospital and fairly administered. In short, so long as staff selections are administered with fairness, geared by a rationale compatible with hospital responsibility, and unencumbered with irrelevant considerations, a court should not interfere.

(Id. at 6–7 (quoting *Shahawy*, 875 F.2d at 1533).)

Like before, PMC's decision to deny Plaintiffs' reappointment applications because they failed to turn over, or cause to be turned over, the data requested for accreditation purposes clears this bar. (*See id.*); *see also Woodbury*, 447 F.2d at 845–846. Unlike the case Plaintiffs cite, *Foster v. Mobile County Hospital Board*, where the doctors' staff privileges were conditioned on their membership in an unrelated medical society and ability to curry favor with staff members, PMC denied Plaintiffs' reappointment applications after providing Plaintiffs the opportunity to rectify the situation. *See* 398 F.2d

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001563

227, 229–30 (5th Cir. 1968); (Doc. 148, p. 20; Doc. 33-2, pp. 16–29 (December 5 Letter).) No Plaintiff did. Instead, they took the issue up the chain of command at Health First, who staunchly refused to turn over the data and decided to treat this as a "legal issue." (Doc. 143-1, pp. 69:10–20; 70:16–72:18; Doc. 143-2, pp. 106:17–108:13; Doc. 143-4, pp. 59:11–60:24; Doc. 143-4, pp. 49:8–50:3, 57:24–58:5; Doc. 143-7, pp. 62:5–63:15; Doc. 143-8, p. 84:16–20; Doc. 143-9, p. 22:2–18.) Things escalated, and it became pellucid that the data wouldn't be turned over. (Doc. 33-2, pp. 30–99; Doc. 33-3, pp. 1–41.) So PMC denied Plaintiffs' reappointment, finding the repeated failure to provide data abrogated the Bylaws. (Doc. 33-2, pp. 64–77.)

While not a named party in this proceeding, at bottom, this dispute revolves around the thinly veiled effort of Health First to flex its muscle in the long running, heavily litigated, "scorched earth" turf war for Brevard County's healthcare business. The plaintiff physicians here, all imminently qualified in the field of oncology, have been employed as foot soldiers in the intractable hostilities. Whether Health First has any concern for the reputation of their employee physicians, or the unfettered delivery of health care services to Brevard County citizens, or simply regards this as unfortunate but necessary collateral damage is unclear. No sacrifice is too great when it's not yours.

Applying the Court's "narrow" scope of review to this decision, PMC's grounds for denial were "reasonably related the operation of the hospital," "fairly administered," "geared by a rationale compatible with hospital responsibility," and relevant to their pending applications. *See Shahawy*, 875 F.2d at 1533. In short, PMC's decision complies with substantive due process, and the Court cannot disturb PMC's judgment. *See id.*

AMERICAN OVERSIGHT

Therefore, PMC's Motion is granted for these claims.

IV. CONCLUSION

Accordingly, it is **ORDERED AND ADJUDGED** as follows:

1. Defendant North Brevard County Hospital District d/b/a Parrish Medical Center's Dispositive Motion for Summary Judgment and Incorporated Memorandum of Law (Doc. 137) is **GRANTED**.

2. The Clerk is **DIRECTED** to enter judgment in favor of Defendant North Brevard County Hospital District and against Plaintiffs Germaine Blaine, Cynthia Bryant, Juan Castro, Ashish Dalal, Firas Muwalla, Brendan Prendergast, and Richard Sprawls on all counts of the Amended Complaint (Doc. 81).

3. All other pending motions are **DENIED AS MOOT**.

4. The Clerk is **DIRECTED** to terminate any deadlines and close the file.

DONE AND ORDERED in Chambers in Orlando, Florida, on August 22, 2019.

ROY B. DALTON JR.
United States District Judge

Part IV Checklist of Required Schedules

			Yes	No
1	Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? *If "Yes," complete Schedule A*	1	Yes	
2	Is the organization required to complete *Schedule B, Schedule of Contributors* (see instructions)?	2	Yes	
3	Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? *If "Yes," complete Schedule C, Part I*	3		No
4	**Section 501(c)(3) organizations.** Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? *If "Yes," complete Schedule C, Part II*	4		No
5	Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? *If "Yes," complete Schedule C, Part III*	5		No
6	Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? *If "Yes," complete Schedule D, Part I*	6		No
7	Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? *If "Yes," complete Schedule D, Part II*	7		No
8	Did the organization maintain collections of works of art, historical treasures, or other similar assets? *If "Yes," complete Schedule D, Part III*	8		No
9	Did the organization report an amount in Part X, line 21 for escrow or custodial account liability, serve as a custodian for amounts not listed in Part X, or provide credit counseling, debt management, credit repair, or debt negotiation services? *If "Yes," complete Schedule D, Part IV*	9		No
10	Did the organization, directly or through a related organization, hold assets in temporarily restricted endowments, permanent endowments, or quasi-endowments? *If "Yes," complete Schedule D, Part V*	10		No
11	If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable			
a	Did the organization report an amount for land, buildings, and equipment in Part X, line 10? *If "Yes," complete Schedule D, Part VI*	11a	Yes	
b	Did the organization report an amount for investments—other securities in Part X, line 12 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part VII*	11b		No
c	Did the organization report an amount for investments—program related in Part X, line 13 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part VIII*	11c	Yes	
d	Did the organization report an amount for other assets in Part X, line 15 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part IX*	11d	Yes	
e	Did the organization report an amount for other liabilities in Part X, line 25? *If "Yes," complete Schedule D, Part X*	11e	Yes	
f	Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? *If "Yes," complete Schedule D, Part X*	11f	Yes	
12a	Did the organization obtain separate, independent audited financial statements for the tax year? *If "Yes," complete Schedule D, Parts XI and XII*	12a		No
b	Was the organization included in consolidated, independent audited financial statements for the tax year? *If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional*	12b	Yes	
13	Is the organization a school described in section 170(b)(1)(A)(ii)? *If "Yes," complete Schedule E*	13		No
14a	Did the organization maintain an office, employees, or agents outside of the United States?	14a	Yes	
b	Did the organization have aggregate revenues or expenses of more than $10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at $100,000 or more? *If "Yes," complete Schedule F, Parts I and IV*	14b	Yes	
15	Did the organization report on Part IX, column (A), line 3, more than $5,000 of grants or other assistance to or for any foreign organization? *If "Yes," complete Schedule F, Parts II and IV*	15		No
16	Did the organization report on Part IX, column (A), line 3, more than $5,000 of aggregate grants or other assistance to or for foreign individuals? *If "Yes," complete Schedule F, Parts III and IV*	16		No
17	Did the organization report a total of more than $15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? *If "Yes," complete Schedule G, Part I* (see instructions)	17		No
18	Did the organization report more than $15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? *If "Yes," complete Schedule G, Part II*	18		No
19	Did the organization report more than $15,000 of gross income from gaming activities on Part VIII, line 9a? *If "Yes," complete Schedule G, Part III*	19		No

20a	Did the organization operate one or more hospital facilities? *If "Yes," complete Schedule H*	**20a**		No
b	If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?	**20b**		
21	Did the organization report more than $5,000 of grants or other assistance to any domestic organization or domestic government on Part IX, column (A), line 1? *If "Yes," complete Schedule I, Parts I and II*	**21**	Yes	
22	Did the organization report more than $5,000 of grants or other assistance to or for domestic individuals on Part IX, column (A), line 2? *If "Yes," complete Schedule I, Parts I and III*	**22**		No
23	Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? *If "Yes," complete Schedule J*	**23**	Yes	
24a	Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than $100,000 as of the last day of the year, that was issued after December 31, 2002? *If "Yes," answer lines 24b through 24d and complete Schedule K If "No," go to line 25a*	**24a**	Yes	
b	Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?	**24b**		No
c	Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?	**24c**		No
d	Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?	**24d**		No
25a	**Section 501(c)(3), 501(c)(4), and 501(c)(29) organizations.** Did the organization engage in an excess benefit transaction with a disqualified person during the year? *If "Yes," complete Schedule L, Part I*	**25a**		No
b	Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? *If "Yes," complete Schedule L, Part I*	**25b**		No
26	Did the organization report any amount on Part X, line 5, 6, or 22 for receivables from or payables to any current or former officers, directors, trustees, key employees, highest compensated employees, or disqualified persons? *If "Yes," complete Schedule L, Part II*	**26**	Yes	
27	Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? *If "Yes," complete Schedule L, Part III*	**27**		No
28	Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions)			
a	A current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	**28a**	Yes	
b	A family member of a current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	**28b**		No
c	An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? *If "Yes," complete Schedule L, Part IV*	**28c**	Yes	
29	Did the organization receive more than $25,000 in non-cash contributions? *If "Yes," complete Schedule M*	**29**		No
30	Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? *If "Yes," complete Schedule M*	**30**		No
31	Did the organization liquidate, terminate, or dissolve and cease operations? *If "Yes," complete Schedule N, Part I*	**31**		No
32	Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? *If "Yes," complete Schedule N, Part II*	**32**		No
33	Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301 7701-2 and 301 7701-3? *If "Yes," complete Schedule R, Part I*	**33**		No
34	Was the organization related to any tax-exempt or taxable entity? *If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1*	**34**	Yes	
35a	Did the organization have a controlled entity within the meaning of section 512(b)(13)?	**35a**	Yes	
b	If 'Yes' to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? *If "Yes," complete Schedule R, Part V, line 2*	**35b**	Yes	
36	**Section 501(c)(3) organizations.** Did the organization make any transfers to an exempt non-charitable related organization? *If "Yes," complete Schedule R, Part V, line 2*	**36**		No
37	Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? *If "Yes," complete Schedule R, Part VI*	**37**		No
38	Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19? **Note.** All Form 990 filers are required to complete Schedule O	**38**	Yes

g	If the organization received a contribution of qualified intellectual property, did the organization file Form 8899 as required?		7g		
h	If the organization received a contribution of cars, boats, airplanes, or other vehicles, did the organization file a Form 1098-C?		7h		
8	**Sponsoring organizations maintaining donor advised funds.** Did a donor advised fund maintained by the sponsoring organization have excess business holdings at any time during the year?		8		
9a	Did the sponsoring organization make any taxable distributions under section 4966?		9a		
b	Did the sponsoring organization make a distribution to a donor, donor advisor, or related person?		9b		
10	**Section 501(c)(7) organizations.** Enter				
a	Initiation fees and capital contributions included on Part VIII, line 12	10a			
b	Gross receipts, included on Form 990, Part VIII, line 12, for public use of club facilities	10b			
11	**Section 501(c)(12) organizations.** Enter				
a	Gross income from members or shareholders	11a			
b	Gross income from other sources (Do not net amounts due or paid to other sources against amounts due or received from them)	11b			
12a	**Section 4947(a)(1) non-exempt charitable trusts.** Is the organization filing Form 990 in lieu of Form 1041?		12a		
b	If "Yes," enter the amount of tax-exempt interest received or accrued during the year	12b			
13	**Section 501(c)(29) qualified nonprofit health insurance issuers.**				
a	Is the organization licensed to issue qualified health plans in more than one state? **Note.** See the instructions for additional information the organization must report on Schedule O		13a		
b	Enter the amount of reserves the organization is required to maintain by the states in which the organization is licensed to issue qualified health plans	13b			
c	Enter the amount of reserves on hand	13c			
14a	Did the organization receive any payments for indoor tanning services during the tax year?		14a		No
b	If "Yes," has it filed a Form 720 to report these payments? *If "No," provide an explanation in Schedule O*		14b		

AMERICAN OVERSIGHT FL-GOV-20-0899-A-001571

Part VI **Governance, Management, and Disclosure** *For each "Yes" response to lines 2 through 7b below, and for a "No" response to lines 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O See instructions*

Check if Schedule O contains a response or note to any line in this Part VI . . . . . ☑

Section A. Governing Body and Management

				Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year	1a	16		
	If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O				
b	Enter the number of voting members included in line 1a, above, who are independent	1b	14		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee?	2			No
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors or trustees, or key employees to a management company or other person?	3			No
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?	4			No
5	Did the organization become aware during the year of a significant diversion of the organization's assets?	5			No
6	Did the organization have members or stockholders?	6			No
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?	7a			No
b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?	7b			No
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following				
a	The governing body?	8a		Yes	
b	Each committee with authority to act on behalf of the governing body?	8b		Yes	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? *If "Yes," provide the names and addresses in Schedule O*	9			No

Section B. Policies (*This Section B requests information about policies not required by the Internal Revenue Code.*)

			Yes	No
10a	Did the organization have local chapters, branches, or affiliates?	10a		No
b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes?	10b		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	11a		No
b	Describe in Schedule O the process, if any, used by the organization to review this Form 990			
12a	Did the organization have a written conflict of interest policy? *If "No," go to line 13*	12a	Yes	
b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	12b	Yes	
c	Did the organization regularly and consistently monitor and enforce compliance with the policy? *If "Yes," describe in Schedule O how this was done*	12c	Yes	
13	Did the organization have a written whistleblower policy?	13	Yes	
14	Did the organization have a written document retention and destruction policy?	14	Yes	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?			
a	The organization's CEO, Executive Director, or top management official	15a	Yes	
b	Other officers or key employees of the organization	15b	Yes	
	If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions)			
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?	16a	Yes	
b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?	16b	Yes	

Section C. Disclosure

17 List the States with which a copy of this Form 990 is required to be filed ▶

18 Section 6104 requires an organization to make its Form 1023 (or 1024 if applicable), 990, and 990-T (501(c)(3)s only) available for public inspection Indicate how you made these available Check all that apply

☐ Own website ☐ Another's website ☑ Upon request ☐ Other (explain in Schedule O)

19 Describe in Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year

20 State the name, address, and telephone number of the person who possesses the organization's books and records ▶ Arthur Craig Springer II 3300 Fiske Blvd Rockledge, FL 32955 (321) 434-5584

Part IV Supporting Organizations

(Complete only if you checked a box on line 12 of Part I If you checked 12a of Part I, complete Sections A and B If you checked 12b of Part I, complete Sections A and C If you checked 12c of Part I, complete Sections A, D, and E If you checked 12d of Part I, complete Sections A and D, and complete Part V)

Section A. All Supporting Organizations

			Yes	No
1	Are all of the organization's supported organizations listed by name in the organization's governing documents? *If "No," describe in* ***Part VI*** *how the supported organizations are designated If designated by class or purpose, describe the designation If historic and continuing relationship, explain*	1	Yes	
2	Did the organization have any supported organization that does not have an IRS determination of status under section 509 (a)(1) or (2)? *If "Yes," explain in* ***Part VI*** *how the organization determined that the supported organization was described in section 509(a)(1) or (2)*	2		No
3a	Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? *If "Yes," answer (b) and (c) below*	3a		No
b	Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? *If "Yes," describe in* ***Part VI*** *when and how the organization made the determination*	3b		
c	Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? *If "Yes," explain in* ***Part VI*** *what controls the organization put in place to ensure such use*	3c		
4a	Was any supported organization not organized in the United States ("foreign supported organization")? *If "Yes" and if you checked 12a or 12b in Part I, answer (b) and (c) below*	4a		No
b	Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? *If "Yes," describe in* ***Part VI*** *how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations*	4b		
c	Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? *If "Yes," explain in* ***Part VI*** *what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes*	4c		
5a	Did the organization add, substitute, or remove any supported organizations during the tax year? *If "Yes," answer (b) and (c) below (if applicable) Also, provide detail in* ***Part VI,*** *including (i) the names and EIN numbers of the supported organizations added, substituted, or removed, (ii) the reasons for each such action, (iii) the authority under the organization's organizing document authorizing such action, and (iv) how the action was accomplished (such as by amendment to the organizing document)*	5a		No
b	**Type I or Type II only.** Was any added or substituted supported organization part of a class already designated in the organization's organizing document?	5b		
c	**Substitutions only.** Was the substitution the result of an event beyond the organization's control?	5c		
6	Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? *If "Yes," provide detail in* ***Part VI.***	6	Yes	
7	Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? *If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ)*	7		No
8	Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? *If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ)*	8		No
9a	Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? *If "Yes," provide detail in* ***Part VI.***	9a		No
b	Did one or more disqualified persons (as defined in line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? *If "Yes," provide detail in* ***Part VI.***	9b		No
c	Did a disqualified person (as defined in line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? *If "Yes," provide detail in* ***Part VI.***	9c		No
10a	Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? *If "Yes," answer line 10b below*	10a		No
b	Did the organization have any excess business holdings in the tax year? *(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings)*	10b		

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001587

Part IV Supporting Organizations (continued)

			Yes	No
11	Has the organization accepted a gift or contribution from any of the following persons?			
a	A person who directly or indirectly controls, either alone or together with persons described in (b) and (c) below, the governing body of a supported organization?	11a		No
b	A family member of a person described in (a) above?	11b		No
c	A 35% controlled entity of a person described in (a) or (b) above? *If "Yes" to a, b, or c, provide detail in Part VI*	11c		No

Section B. Type I Supporting Organizations

			Yes	No
1	Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? *If "No," describe in* ***Part VI*** *how the supported organization(s) effectively operated, supervised, or controlled the organization's activities If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year*	1		
2	Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? *If "Yes," explain in* ***Part VI*** *how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised or controlled the supporting organization*	2		

Section C. Type II Supporting Organizations

			Yes	No
1	Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? *If "No," describe in* ***Part VI*** *how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s)*	1		

Section D. All Type III Supporting Organizations

			Yes	No
1	Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?	1	Yes	
2	Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization (s) or (ii) serving on the governing body of a supported organization? *If "No," explain in* ***Part VI*** *how the organization maintained a close and continuous working relationship with the supported organization(s)*	2	Yes	
3	By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? *If "Yes," describe in* ***Part VI*** *the role the organization's supported organizations played in this regard*	3	Yes	

Section E. Type III Functionally-Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year **(see instructions)**

- a ☐ The organization satisfied the Activities Test Complete **line 2** below
- b ☑ The organization is the parent of each of its supported organizations Complete **line 3** below
- c ☐ The organization supported a governmental entity Describe in **Part VI** how you supported a government entity (see instructions)

			Yes	No
2	Activities Test **Answer (a) and (b) below.**			
a	Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? *If "Yes," then in* ***Part VI identify those supported organizations and explain*** *how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities*	2a		
b	Did the activities described in (a) constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? *If "Yes," explain in* ***Part VI*** *the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement*	2b		
3	Parent of Supported Organizations **Answer (a) and (b) below.**			
a	Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? *Provide details in* ***Part VI.***	3a	Yes	
b	Did the organization exercise a substantial degree of direction over the policies, programs and activities of each of its supported organizations? *If "Yes," describe in* ***Part VI.*** *the role played by the organization in this regard*	3b	Yes

Part V **Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations**

1 ☐ Check here if the organization satisfied the Integral Part Test as a qualifying trust on Nov 20, 1970 (explain in Part VI) **See instructions.** All other Type III non-functionally integrated supporting organizations must complete Sections A through E

	Section A - Adjusted Net Income		(A) Prior Year	(B) Current Year (optional)
1	Net short-term capital gain	1		
2	Recoveries of prior-year distributions	2		
3	Other gross income (see instructions)	3		
4	Add lines 1 through 3	4		
5	Depreciation and depletion	5		
6	Portion of operating expenses paid or incurred for production or collection of gross income or for management, conservation, or maintenance of property held for production of income (see instructions)	6		
7	Other expenses (see instructions)	7		
8	**Adjusted Net Income** (subtract lines 5, 6 and 7 from line 4)	8		

	Section B - Minimum Asset Amount		(A) Prior Year	(B) Current Year (optional)
1	Aggregate fair market value of all non-exempt-use assets (see instructions for short tax year or assets held for part of year)	1		
a	Average monthly value of securities	1a		
b	Average monthly cash balances	1b		
c	Fair market value of other non-exempt-use assets	1c		
d	**Total** (add lines 1a, 1b, and 1c)	1d		
e	**Discount** claimed for blockage or other factors (explain in detail in Part VI)			
2	Acquisition indebtedness applicable to non-exempt use assets	2		
3	Subtract line 2 from line 1d	3		
4	Cash deemed held for exempt use Enter 1-1/2% of line 3 (for greater amount, see instructions)	4		
5	Net value of non-exempt-use assets (subtract line 4 from line 3)	5		
6	Multiply line 5 by 035	6		
7	Recoveries of prior-year distributions	7		
8	**Minimum Asset Amount** (add line 7 to line 6)	8		

	Section C - Distributable Amount			Current Year
1	Adjusted net income for prior year (from Section A, line 8, Column A)	1		
2	Enter 85% of line 1	2		
3	Minimum asset amount for prior year (from Section B, line 8, Column A)	3		
4	Enter greater of line 2 or line 3	4		
5	Income tax imposed in prior year	5		
6	**Distributable Amount.** Subtract line 5 from line 4, unless subject to emergency temporary reduction (see instructions)	6		

7 ☐ Check here if the current year is the organization's first as a non-functionally-integrated Type III supporting organization (see instructions)

FL-GOV-20-0899-A-001589

Part V **Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations (continued)**

Section D - Distributions	**Current Year**
1 Amounts paid to supported organizations to accomplish exempt purposes	
2 Amounts paid to perform activity that directly furthers exempt purposes of supported organizations, in excess of income from activity	
3 Administrative expenses paid to accomplish exempt purposes of supported organizations	
4 Amounts paid to acquire exempt-use assets	
5 Qualified set-aside amounts (prior IRS approval required)	
6 Other distributions (describe in **Part VI**) See instructions	
7 **Total annual distributions.** Add lines 1 through 6	
8 Distributions to attentive supported organizations to which the organization is responsive (provide details in **Part VI**) See instructions	
9 Distributable amount for 2017 from Section C, line 6	
10 Line 8 amount divided by Line 9 amount	

Section E - Distribution Allocations (see instructions)	**(i) Excess Distributions**	**(ii) Underdistributions Pre-2017**	**(iii) Distributable Amount for 2017**
1 Distributable amount for 2017 from Section C, line 6			
2 Underdistributions, if any, for years prior to 2017 (reasonable cause required-- explain in Part VI) See instructions			
3 Excess distributions carryover, if any, to 2017			
a			
b From 2013.			
c From 2014.			
d From 2015.			
e From 2016.			
f **Total** of lines 3a through e			
g Applied to underdistributions of prior years			
h Applied to 2017 distributable amount			
i Carryover from 2012 not applied (see instructions)			
j Remainder Subtract lines 3g, 3h, and 3i from 3f			
4 Distributions for 2017 from Section D, line 7 $			
a Applied to underdistributions of prior years			
b Applied to 2017 distributable amount			
c Remainder Subtract lines 4a and 4b from 4			
5 Remaining underdistributions for years prior to 2017, if any Subtract lines 3g and 4a from line 2 If the amount is greater than zero, explain in Part VI See instructions			
6 Remaining underdistributions for 2017 Subtract lines 3h and 4b from line 1 If the amount is greater than zero, explain in Part VI See instructions			
7 **Excess distributions carryover to 2018.** Add lines 3j and 4c			
8 Breakdown of line 7			
a Excess from 2013.			
b Excess from 2014.			
c Excess from 2015.			
d Excess from 2016.			
e Excess from 2017.

Open to Public Inspection

Name of the organization
Health First Inc

Employer identification number
59-3336894

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts.

Complete if the organization answered "Yes" on Form 990, Part IV, line 6.

		(a) Donor advised funds	(b) Funds and other accounts
1	Total number at end of year		
2	Aggregate value of contributions to (during year)		
3	Aggregate value of grants from (during year)		
4	Aggregate value at end of year		

5 Did the organization inform all donors and donor advisors in writing that the assets held in donor advised funds are the organization's property, subject to the organization's exclusive legal control? ☐ Yes ☐ No

6 Did the organization inform all grantees, donors, and donor advisors in writing that grant funds can be used only for charitable purposes and not for the benefit of the donor or donor advisor, or for any other purpose conferring impermissible private benefit? ☐ Yes ☐ No

Part II Conservation Easements. Complete if the organization answered "Yes" on Form 990, Part IV, line 7.

1 Purpose(s) of conservation easements held by the organization (check all that apply)

☐ Preservation of land for public use (e g , recreation or education)
☐ Preservation of an historically important land area
☐ Protection of natural habitat
☐ Preservation of a certified historic structure
☐ Preservation of open space

2 Complete lines 2a through 2d if the organization held a qualified conservation contribution in the form of a conservation easement on the last day of the tax year

		Held at the End of the Year
a	Total number of conservation easements	2a
b	Total acreage restricted by conservation easements	2b
c	Number of conservation easements on a certified historic structure included in (a)	2c
d	Number of conservation easements included in (c) acquired after 8/17/06, and not on a historic structure listed in the National Register	2d

3 Number of conservation easements modified, transferred, released, extinguished, or terminated by the organization during the tax year ▶ _____

4 Number of states where property subject to conservation easement is located ▶ _____

5 Does the organization have a written policy regarding the periodic monitoring, inspection, handling of violations, and enforcement of the conservation easements it holds? ☐ Yes ☐ No

6 Staff and volunteer hours devoted to monitoring, inspecting, handling of violations, and enforcing conservation easements during the year ▶ _____

7 Amount of expenses incurred in monitoring, inspecting, handling of violations, and enforcing conservation easements during the year ▶ $ _____

8 Does each conservation easement reported on line 2(d) above satisfy the requirements of section 170(h)(4)(B)(i) and section 170(h)(4)(B)(ii)? ☐ Yes ☐ No

9 In Part XIII, describe how the organization reports conservation easements in its revenue and expense statement, and balance sheet, and include, if applicable, the text of the footnote to the organization's financial statements that describes the organization's accounting for conservation easements

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets.

Complete if the organization answered "Yes" on Form 990, Part IV, line 8.

1a If the organization elected, as permitted under SFAS 116 (ASC 958), not to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide, in Part XIII, the text of the footnote to its financial statements that describes these items

b If the organization elected, as permitted under SFAS 116 (ASC 958), to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide the following amounts relating to these items

(i) Revenue included on Form 990, Part VIII, line 1 ▶ $ _____

(ii) Assets included in Form 990, Part X ▶ $ _____

2 If the organization received or held works of art, historical treasures, or other similar assets for financial gain, provide the following amounts required to be reported under SFAS 116 (ASC 958) relating to these items

a Revenue included on Form 990, Part VIII, line 1 ▶ $ _____

b Assets included in Form 990, Part X ▶ $ _____

AMERICAN OVERSIGHT

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets *(continued)*

3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply)

- a ☐ Public exhibition
- b ☐ Scholarly research
- c ☐ Preservation for future generations
- d ☐ Loan or exchange programs
- e ☐ Other

4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII

5 During the year, did the organization solicit or receive donations of art, historical treasures or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? ☐ Yes ☐ No

Part IV Escrow and Custodial Arrangements.
Complete if the organization answered "Yes" on Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII and complete the following table

		Amount
c	Beginning balance	1c
d	Additions during the year	1d
e	Distributions during the year	1e
f	Ending balance	1f

2a Did the organization include an amount on Form 990, Part X, line 21, for escrow or custodial account liability? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII Check here if the explanation has been provided in Part XIII . . . . . ☐

Part V Endowment Funds. Complete if the organization answered "Yes" on Form 990, Part IV, line 10.

	(a)Current year	(b)Prior year	(c)Two years back	(d)Three years back	(e)Four years back
1a Beginning of year balance					
b Contributions					
c Net investment earnings, gains, and losses					
d Grants or scholarships					
e Other expenditures for facilities and programs					
f Administrative expenses					
g End of year balance					

2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as

- a Board designated or quasi-endowment ▶
- b Permanent endowment ▶
- c Temporarily restricted endowment ▶

The percentages on lines 2a, 2b, and 2c should equal 100%

3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by

	Yes	No
(i) unrelated organizations	3a(i)	
(ii) related organizations	3a(ii)	

b If "Yes" on 3a(ii), are the related organizations listed as required on Schedule R? 3b

4 Describe in Part XIII the intended uses of the organization's endowment funds

Part VI Land, Buildings, and Equipment.
Complete if the organization answered "Yes" on Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Part V Supplemental Information
Provide additional information for responses to questions on Schedule L (see instructions)

Return Reference	Explanation
Part II	The organization acts as the payroll and benefit agent for its supported organizations to provide supplemental retirement benefits through an alternative funding arrangement the IRS calls "collateral assignment split dollar" (CASD) Although the IRS requires reporting in the loan section of Schedule L, CASD is not an actual loan No funds are transferred to the executive Rather, the "loan" treatment applies because after the executive has received retirement benefits, the organization recovers all of its outlays plus interest The recovery right is a key advantage of CASD for the organization Rather than paying retirement benefits to the executive that would never be recovered, under CASD the organization recovers not only its outlays, but also consideration for the time value of money This allows the organization to perpetuate its community mission
Part II, Loans To and From Interested Persons	(a) Name of Person Joseph G Felkner(b) Relationship with Organization EVP/CFO(c) Purpose of Loan Fund purchase of cash value life insurance policies(a) Name of Person Steven P Johnson(b) Relationship with Organization President/CEO HF(c) Purpose of Loan Fund purchase of cash value life insurance policies(a) Name of Person James S Mitchell III(b) Relationship with Organization Exec VP COO HF Inc(c) Purpose of Loan Fund purchase of cash value life insurance policies(a) Name of Person Jeffrey C Stalnaker(b) Relationship with Organization Sr VP HF Chief Physician Exec(c) Purpose of Loan Fund purchase of cash value life insurance policies

From: McBride, Bill
To: McBride, Bill
Subject: House Passed Families First Coronavirus Response Act
Date: Saturday, March 14, 2020 9:24:21 AM
Attachments: image002.png
Families First Summary FINAL.pdf

Good morning Governors,
I want to keep you and your staff updated on actions taken at the Federal level regarding COVID-19. Early this morning, the U.S. House of Representatives passed the Families First Coronavirus Response Act (H.R. 6201) by a 363-40 vote. This package provides free coronavirus testing, secures paid emergency leave, enhances Unemployment Insurance, strengthens food security initiatives, and increases federal Medicaid funding to states. The bill now awaits Senate action, which is expected the week of March 16.
Please find a summary of the bill attached. If you have questions or need additional information let me know and I will put you in touch with NGA's Government Relations team.
Best,
Bill

Bill McBride | Executive Director

National Governors Association
444 North Capitol Street NW
Suite 267
Washington, DC 20001

p/202-624-5320

www.nga.org

HHS Funding & Health-Care Provisions
Nutrition: The measure would appropriate $250 million for Health and Human Services Department programs that aid elderly Americans, divided as follows

- $160 million for home-delivered nutrition services.
- $80 million for congregate nutrition services that provide food in group settings, such as adult day care centers and meal sites.
- $10 million for nutrition services for American Indians.

It also would provide $64 million to the Indian Health Service for items and services related to Covid-19.
Medicaid Funding: States would be eligible for a 6.2 percentage point increase in their federal medical assistance percentages (FMAP). They would have to provide coverage of coronavirus testing without cost sharing and meet other criteria, such as not imposing more stringent eligibility standards or additional premiums.
States could cover tests for uninsured people through their Medicaid programs and receive a 100% FMAP to cover the cost.
Medicaid funding for U.S. territories would be increased.
Test Coverage: Insurers would be required to cover coronavirus tests and related services, such as provider visits for testing, without cost-sharing or prior authorization requirements. The cost-sharing prohibition would also apply to Medicaid, Medicare, TRICARE, veterans' health programs, the Indian Health Service, and coverage provided to federal civilian employees.
The bill would appropriate $1 billion to allow the National Disaster Medical System to reimburse provider costs associated with testing uninsured individuals.
Major insurance companies — including BlueCross BlueShield Association companies, Humana Inc., and UnitedHealth Group Inc. — have committed to waiving coronavirus test co-pays, according to Vice President Mike Pence.
Medicare currently covers testing without any patient cost-sharing. The Centers for Medicare and Medicaid Services wrote in March 12 guidance that states can modify their Medicaid plans to eliminate cost-sharing for certain services, such as Covid-19 tests, as long as their policy applies regardless of the diagnosis. The emergency declaration will also give states more flexibility in their programs.
The administration is also examining ways to provide free tests to the uninsured, CDC Director Robert Redfield said March 12.
Mask Liability: The measure would make personal respiratory protective devices a covered countermeasure under the Public Readiness and Emergency Preparedness Act (Public Law 109-148). The law allows HHS to provide liability protections for certain emergency response products.
Nutrition Assistance
The measure would provide

- $500 million in emergency funding for the WIC program.
- $400 million for the Commodity Assistance Program for the emergency food assistance program (TEFAP), $100 million of which could be used for costs related to the distribution of goods.
- $100 million for grants to the Northern Mariana Islands, Puerto Rico, and American Samoa for nutrition assistance provided in response to the virus.

SNAP Benefits for Kids: If a school is closed for at least five consecutive days because of a coronavirus-related public health emergency, states could adjust their Supplemental Nutrition Assistance Programs (SNAP) to provide additional aid to households with children eligible for free or reduced price school meals.
Additional benefits would have to be equal to the value of the meals for each eligible child in a household. Benefits could be distributed through an electronic benefits transfer card system. The Agriculture Department could purchase food commodities to ensure it can distribute them in areas where a public health emergency has been declared. "Such amounts as are necessary" would be appropriated for the meal provisions.
SNAPWork Requirements: The measure would waive federal work requirements for SNAP eligibility. The waiver would begin the first full month after the bill is enacted and terminate at the end of the first full month after a federal coronavirus-related emergency declaration is lifted. State-imposed work requirements wouldn't be changed, but a person's participation in SNAP during the emergency couldn't be counted for determining compliance with work requirements.
Other SNAP Benefits: States that make their own emergency or disaster declarations related to Covid-19 could request emergency allotments of food aid to support increased participation in SNAP and address temporary food needs. The provision wouldn't change the maximum monthly allotment for any household size. States would have to provide data sufficient to demonstrate the need for additional aid.
Meal Program Waivers: The package would allow USDA to waive statutory requirements for several food programs to ensure that meals can be provided during the emergency and to implement safety measures related to preventing the spread of Covid-19. It would allow nationwide waivers of eligible National School Lunch Program, School Breakfast Program, Child and Adult Care Food Program, and Summer Food Service Program requirements.
The department could waive nutritional content requirements and rules to provide meals through the Child and Adult Care Food Program in group settings.
Waivers related to Covid-19 that increase the cost to the federal government for school meals would be allowed.
USDA has granted waivers to 17 states as of March 12 to allow school systems to continue serving meals during prolonged coronavirus-related closures. Several other states also have waiver requests pending.
WIC Waivers: The measure would allow states to request waivers for the requirement that WIC recipients certify their eligibility in person and for deferring biometric and bloodwork requirements. USDA could also modify or waive WIC administrative requirements that a state can't meet due to the Covid-19 outbreak.
Coronavirus Emergency Leave
The agreement would create an emergency paid leave program to directly respond to the coronavirus. Private sector employers with fewer than 500 workers and government entities would have to provide as many as 12 weeks of job-protected leave under the Family and Medical Leave Act (FMLA) for employees who have to

- Comply with a requirement or recommendation to quarantine because of exposure to or symptoms of coronavirus.
- Provide care to a family member who's complying with such a requirement or recommendation.
- Provide care for child younger than 18 whose school or day care has closed because of coronavirus.

The first 14 days of leave could be unpaid, though a worker could choose to use accrued vacation days, personal leave, or other available paid leave for unpaid time off. Following the 14-day period, workers would receive a benefit from their employers that will be at least two-thirds of their normal pay rate.
The measure also would modify the FMLA to allow individuals to use unpaid leave if they are diagnosed with the virus, caring for a family member, or caring for a child whose school or day care has closed because of a public health emergency through Dec. 31, 2020.
The Labor Department would be authorized to issue regulations to

- Exclude certain health-care providers and emergency responders from paid leave benefits.
- Exempt small businesses with fewer than 50 employees from the paid leave requirements.

Workers under a multiemployer collective bargaining agreement and whose employers pay into a pension plan would have access to paid leave.
Emergency Sick Leave
Private sector employers with fewer than 500 workers and government entities would have to provide employees with paid sick time off to

- Self-quarantine.
- Obtain a medical diagnosis or care for coronavirus.
- Provide care for a family member who has been diagnosed or is in quarantine or for a child whose school or day care has closed due to coronavirus.

Full-time employees would receive 80 hours of sick leave under the new emergency leave program and part-time workers would be granted time off that's equivalent to their scheduled or normal work hours in a two-week period. Paid sick time could be carried over from year to year.
Workers would have to be paid at least their normal wage or the federal, state, or local minimum wage, whichever is greater. They would be paid, however, at two-thirds of their regular earning for providing caregiving to a family member.
Employers with similar existing paid leave policies would be required to provide workers with the emergency paid sick time. An employer couldn't require a worker to use any other available paid leave before using the sick time.
Employers would be prohibited from

- Requiring a worker to find a replacement to cover their hours during time off.
- Discharging or discriminating against workers for requesting paid sick leave or filing a complaint against the employer.

An employer could be subject to civil penalties for a violation of paid sick leave requirements.
Workers under a multiemployer collective bargaining agreement and whose employers pay into a pension plan would have access to paid emergency leave.
Employer Tax Credits
The measure would provide payroll tax credits to employers to cover wages paid to employees while they are taking time off under the bill's sick leave and family leave programs.
The payroll tax, which funds Social Security, is a 6.2% levy on wages imposed on both employers and employees. Employees' share wouldn't be affected by the bill.
The sick leave credit for each employee would be for wages of as much as $511 per day while the employee is receiving paid sick leave to care for themselves, or $200 if the sick leave is to care for a family member or child if their school is closed. The limit would be the excess of 10 days over the aggregate number of days taken into account for all preceding calendar quarters.
The family leave credit for each employee would be for wages of as much as $200 per day while the employee is receiving paid leave, or an aggregate of $10,000.
The credit would be refundable if it exceeded the amount the employer owed in payroll tax.
Employers couldn't receive the credit if they're also receiving a credit for paid family and medical leave established by the 2017 tax overhaul (Public Law 115-97). They would have to include the credit in their gross income.
State and local governments couldn't receive the credit.
The credit would be in effect for wages through the end of 2020.
The Treasury Department would have to issue regulations or guidance to ensure employers don't manipulate the credit, to minimize compliance and record-keeping burdens, to waive penalties for underpayments in anticipation of the credit, and to establish a process to recapture credits when there's an adjustment.
The measure would authorize the transfer of amounts equal to the credit, as well as lost revenue from wages that are exempt from payroll tax, to the Social Security and disability insurance trust funds from the general fund.
Self-Employed Tax Credit
The measure would provide a similar refundable credit against self-employment tax. It would cover 100% of self-employed individuals' sick-leave equivalent or 67% if they were taking care of a sick family member or child if their school was closed.

AMERICAN OVERSIGHT

Their sick-leave equivalent amount would be the lesser of their average daily self-employment income, or $511 per day if caring for themselves or $200 if caring for a family member. It would be available for 10 days over the number of days taken into account in preceding years.
Self-employed individuals could receive a family leave credit for as many as 50 days for the lesser of $200 or their average daily self-employment income.
Self-employed individuals would have to submit documentation, as required by the Treasury Department.
The measure would establish alternate requirements for self-employed individuals who also receive sick-leave pay from an employer. It would also establish rules for the credit to be provided in U.S. territories.
Unemployment Insurance
Emergency Transfers: The measure would provide as much as $1 billion for emergency transfers to states in fiscal 2020 to process and pay unemployment benefits.
Each state would receive a proportional amount based on the share of federal unemployment taxes paid by its employers.
States would receive half of their allocation within 60 days of the bill s enactment if they certify that they meet certain requirements, such as ensuring that workers can apply for benefits online or by phone.
States would receive the remaining funds if their unemployment claims increased by at least 10% over the same quarter in the previous year. They would have to waive certain eligibility rules for claimants and charges for employers affected by Covid-19.
States could modify certain unemployment policies, including rules related to job searches and initial payment waiting periods, on an emergency temporary basis to address the effects of Covid-19.
The Labor Department announced guidance March 12 to clarify that states can make other changes to their unemployment policies to cover affected workers. For instance, current law allows states to pay benefits when workers are quarantined, or when they leave their jobs due to a risk of exposure or to care for a family member, the department said.
Extended Benefits: Eligible laid-off workers can receive regular unemployment benefits for as long as 26 weeks in most states.
After exhausting those benefits, individuals in states with rising unemployment can qualify for an additional 13 weeks of benefits — or 20 weeks in some states — through the Extended Benefits (EB) program.
The bill would waive a state matching requirement and provide full federal funding for the EB program for the rest of 2020. To qualify, states would need to experience a 10% spike in unemployment claims over the past year and qualify for a full emergency funding transfer under the measure.
Interest-Free Loans: The bill would waive interest payments that states owe for the rest of 2020 on federal advances to their unemployment accounts.
Other Agencies
The measure also would provide

- $82 million to the Defense Department for Covid-19-related items and services through the Defense Health Program.
- $60 million for the Veterans Affairs Department.
- $15 million to the Internal Revenue Service to carry out the bill s provisions.

AMERICAN OVERSIGHT

H.R. 6201, FAMILIES FIRST CORONAVIRUS RESPONSE ACT

Title-By-Title Summary

The legislation guarantees free coronavirus testing, establishes paid leave, enhances Unemployment Insurance, expands food security initiatives, and increases federal Medicaid funding.

DIVISION A – Second Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020

Prepared by the Democratic staff of the House Committee on Appropriations and the House Committee on Education and Labor

Title I – Agriculture, Rural Development, Food and Drug Administration, and Related Agencies

Food and Nutrition Service – Includes funding to ensure the domestic nutrition assistance programs have adequate resources to help those impacted by the COVID-19 public health emergency. Funding is provided for:

- **The Special Supplemental Nutrition Program for Women Infants and Children (WIC)** – $500 million to provide access to nutritious foods to low-income pregnant women or mothers with young children who lose their jobs or are laid off due to the COVID-19 emergency.

- **The Emergency Food Assistance Program (TEFAP)** – $400 million to assist local food banks to meet increased demand for low-income Americans during the emergency. Of the total, $300 million is for the purchase of nutritious foods and $100 million is to support the storage and distribution of the foods.

In addition –

- The legislation includes a general provision that allows the Department of Agriculture to approve state plans to provide emergency Electronic Benefit Transfer (EBT) food assistance to households with children who would otherwise receive free or reduced-price meals if not for their schools being closed due to the COVID-19 emergency. In order to be eligible, the child's school must be closed for no less than 5 consecutive days.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001638

- Nutrition Assistance for U.S. Territories – $100 million for USDA to provide nutrition assistance grants to Puerto Rico, American Samoa, and the Commonwealth of the Northern Mariana Islands in response to the COVID-19 public health emergency.

Title II – Defense

Coverage of Testing for COVID-19 through the Department of Defense – Includes $82 million for the Department of Defense to cover the costs of COVID-19 diagnostic testing for beneficiaries receiving care through the Defense Health Program.

Title III – Financial Services and General Government

Implementation of Tax Credits – Includes $15 million for the Internal Revenue Service to implement tax credits for paid sick and paid family and medical leave.

Title IV – Interior, Environment, and Related Agencies

Coverage of Testing for COVID-19 through the Indian Health Service – Includes $64 million for the Indian Health Service to cover the costs of COVID-19 diagnostic testing for Indians receiving care through the Indian Health Service or through an Urban Indian Health Organization.

Title V – Labor, Health and Human Services, Education, and Related Agencies

Senior Nutrition Program – Includes $250 million for the Senior Nutrition program in the Administration for Community Living (ACL) to provide approximately 25 million additional home-delivered and pre-packaged meals to low-income seniors who depend on the Senior Nutrition programs in their communities.

This funding will provide meals to low-income seniors:

- who are home-bound;
- who have disabilities;
- who have multiple chronic illnesses;
- as well as caregivers for seniors who are home-bound.

ACL's Senior Nutrition grants are provided to States, territories, and eligible tribal organizations and serve more than 2.4 million individuals annually.

Nearly two-thirds of recipients of home-delivered meals report these meals as more than half of their food intake for the day.

Reimbursement for Diagnostic Testing and Services for COVID-19 in Uninsured Individuals – Includes $1 billion for the National Disaster Medical System to reimburse the costs of COVID-19 diagnostic testing and services provided to individuals without health insurance.

AMERICAN OVERSIGHT

Title VI – Military Construction, Veterans Affairs, and Related Agencies

Coverage of Testing for COVID-19 through the Veterans Health Administration – Includes $60 million for the Department of Veterans Affairs to cover the costs of COVID-19 diagnostic testing for veterans receiving care through Medical Services or through Medical Community Care.

Title VII – General Provisions

Technical budgetary provisions.

In addition –

- Ensures State Emergency Operations Centers receive regular and real-time reporting on aggregate testing and case data from health departments and share that data with the Centers for Disease Control and Prevention.

DIVISION B – Nutrition Waivers

Prepared by the Democratic staff of the House Committee on Agriculture and the House Committee on Education and Labor

Title I – Maintaining Essential Access to Lunch for Students Act

Section 2101. Short Title. The short title for the bill is the Maintaining Essential Access to Lunch for Students Act or the MEALS Act.

Section 2102. Waiver Exception for School Closures Due to COVID-19. Provides the Secretary of Agriculture the authority to issue waivers for state plans that increase costs to the federal government.

Title II – COVID-19 Child Nutrition Response Act

Section 2201. Short Title. The short title for the bill is the COVID-19 Child Nutrition Response Act.

Section 2202. National School Lunch Program Requirement Waivers Addressing COVID-19. Allows all child and adult care centers to operate as non-congregate (i.e. allows them to take food to go). Allows the Secretary of Agriculture to waive meal pattern requirements in child nutrition programs if there is a disruption to the food supply as a result of the COVID-19 emergency. Provides the Secretary of Agriculture the authority to issue nationwide school meal waivers during the COVID-19 emergency, which will eliminate paperwork for states and help more schools quickly adopt and utilize flexibilities.

Section 2203. Physical Presence Waiver Under WIC During Certain Public Health Emergencies. Provides the Secretary of Agriculture with the authority to grant waivers to allow

AMERICAN OVERSIGHT

participants to be certified for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) without being physically present at the WIC clinic.

Sec. 2204. Administrative Requirements Waiver Under WIC. This section provides the Secretary of Agriculture with the authority to waive administrative requirements that are barriers to serving WIC participants during the coronavirus outbreak.

Title III – SNAP COVID-19 Response Waivers

Section 2301. SNAP Flexibility for Low-Income Jobless Workers. Suspends the work and work training requirements for SNAP during this crisis.

Section 2302. Additional SNAP Flexibilities in a Public Health Emergency. Allows states to request special waivers from the Secretary to provide temporary, emergency CR-SNAP benefits to existing SNAP households up to the maximum monthly allotment, as well as give the Secretary broad discretion to provide much more flexibility for States in managing SNAP caseloads. Additionally, this language requires the Secretary to make State requests for waivers and the USDA response, as well as any USDA guidance on State flexibilities, publicly available online.

DIVISION C – Emergency Family and Medical Leave Expansion Act

Prepared by the Democratic staff of the House Committee on Education and Labor

Section 3101. Short Title. The short title for the bill is the Emergency Family and Medical Leave Expansion Act.

Section 3102. Amendments to the Family and Medical Leave Act of 1993. This section provides employees of employers with fewer than 500 employees and government employers, who have been on the job for at least 30 days, with the right take up to 12 weeks of job-protected leave under the Family and Medical Leave Act to be used for any of the following reasons:

- To adhere to a requirement or recommendation to quarantine due to exposure to or symptoms of coronavirus;
- To care for an at-risk family member who is adhering to a requirement or recommendation to quarantine due to exposure to or symptoms of coronavirus; and
- To care for a child of an employee if the child's school or place of care has been closed, or the child-care provider is unavailable, due to a coronavirus.

After the two weeks of paid leave, employees will receive a benefit from their employers that will be no less than two-thirds of the employee's usual pay.

Section 3103. Employment Under Multi-Employer Bargaining Agreements. The bill ensures employees who work under a multiemployer collective agreement and whose employers pay into a multiemployer plan are provided with leave.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001641

Section 3104. Effective Date. This Act takes effect not later than 15 days after the date of bill's enactment.

DIVISION D – Emergency Unemployment Insurance Stabilization and Access Act of 2020

Prepared by the Democratic staff of the House Committee on Ways and Means

Section 4101. Short Title. The short title for the division is the Emergency Unemployment Insurance Stabilization and Access Act of 2020.

Section 4102. Emergency Transfers for Unemployment Compensation Administration. This section provides $1 billion in 2020 for emergency grants to states for activities related to processing and paying unemployment insurance (UI) benefits, under certain conditions.

$500 million would be used to provide immediate additional funding to all states for staffing, technology, systems, and other administrative costs, so long as they met basic requirements about ensuring access to earned benefits for eligible workers. Those requirements are:

- Require employers to provide notification of potential UI eligibility to laid-off workers
- Ensure that workers have at least two ways (for example, online and phone) to apply for benefits
- Notify applicants when an application is received and being processed and if the application cannot be processed, provide information to the applicant about how to ensure successful processing.

States would be required to report on the share of eligible individuals who received UI benefits and the state's efforts to ensure access within one year of receiving the funding. The funding would be distributed in the same proportions as regular UI administrative funding provided through annual appropriations.

$500 million would be reserved for emergency grants to states which experienced at least a 10 percent increase in unemployment. Those states would be eligible to receive an additional grant, in the same amount as the initial grant, to assist with costs related to the unemployment spike, and would also be required to take steps to temporarily ease eligibility requirements that are limiting access to UI during the COVID-19 outbreak, like work search requirements, required waiting periods, and requirements to increase employer UI taxes if they have high layoff rates. Depending on the state, those actions might require changes in state law, or might just require changes in state policy. This section also provides temporary federal flexibility regarding those UI restrictions which are also in federal law.

Section 4103. Temporary Assistance for States with Advances. This section provides states with access to interest-free loans to help pay regular UI benefits through December 31, 2020, if needed.

Section 4104. Technical Assistance and Guidance for Short-Time Compensation Programs. This section requires the Secretary of Labor to provide technical assistance to states that want to set up work-sharing programs, in which employers reduce hours instead of laying employees off, and then employees receive partial unemployment benefits to offset the wage loss.

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001642

Section 4105. Full Federal Funding of Extended Unemployment Compensation for a Limited Period. For states that experience an increase of 10 percent or more in their unemployment rate (over the previous year) and comply with all the beneficiary access provisions in section 102, this section provides 100 percent federal funding for Extended Benefits, which normally require 50 percent of funding to come from states. Extended Benefits (EB) are triggered when unemployment is high in a state and provide up to an additional 26 weeks after regular UI benefits (usually 26 weeks) are exhausted. This section also suspends the financial penalty within EB for states that waive the usual one-week waiting period for benefits.

DIVISION E – Emergency Paid Sick Leave Act

Prepared by the Democratic staff of the House Committee on Education and Labor

Section 5101. Short Title. The Emergency Paid Sick Leave Act.

Section 5102. The Emergency Paid Sick Leave Act. This section requires employers with fewer than 500 employees and government employers to provide employees two weeks of paid sick leave, paid at the employee's regular rate, to quarantine or seek a diagnosis or preventive care for coronavirus; or paid at two-thirds the employee's regular rate to care for a family member for such purposes or to care for a child whose school has closed, or child care provider is unavailable, due to the coronavirus.

- Full-time employees are entitled to 2 weeks (80 hours) and part-time employees are entitled to the typical number of hours that they work in a typical two-week period.
- The bill ensures employees who work under a multiemployer collective agreement and whose employers pay into a multiemployer plan are provided with leave.

The Act, and the requirements under the Act, expire on December 31, 2020.

DIVISION F – Health Provisions

Prepared by the Democratic staff of the Committees on Energy and Commerce, Ways and Means, and Education and Labor

Section 6001. Coverage of Testing for COVID-19. This section requires private health plans to provide coverage for COVID-19 diagnostic testing, including the cost of a provider, urgent care center and emergency room visits in order to receive testing. Coverage must be provided at no cost to the consumer.

Section 6002. Waiving Cost Sharing Under the Medicare Program for Certain Visits Relating To Testing For COVID-19. This section requires Medicare Part B to cover beneficiary cost-sharing for provider visits during which a COVID-19 diagnostic test is administered or ordered. Medicare Part B currently covers the COVID-19 diagnostic test with no beneficiary cost-sharing.

Section 6003. Waiving Cost Sharing Under the Medicare Advantage Program for Certain Visits Relating to Testing for COVID-19. This section requires Medicare Advantage to provide

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001643

coverage for COVID-19 diagnostic testing, including the associated cost of the visit in order to receive testing. Coverage must be provided at no cost to the beneficiary.

Section 6004. Coverage at No Cost Sharing of COVID-19 Testing Under Medicaid and CHIP. This section requires Medicaid to provide coverage for COVID-19 diagnostic testing, including the cost of a provider visit in order to receive testing. Coverage must be provided at no cost to the beneficiary. It would also provide states with the option to extend Medicaid eligibility to uninsured populations for the purposes of COVID-19 diagnostic testing. State expenditures for medical and administrative costs would be matched by the federal government at 100 percent.

Section 6005. Treatment of Personal Respiratory Protective Devices as Covered Countermeasures. This section requires certain personal respiratory protective devices to be treated as covered countermeasures under the PREP Act Declaration for the purposes of emergency use during the COVID-19 outbreak and ending October 1, 2024.

Section 6006. Application with Respect to TRICARE, Coverage for Veterans, and Coverage for Federal Civilians. This section ensures that individuals enrolled in TRICARE, covered veterans, and federal workers have coverage for COVID-19 diagnostic testing without cost-sharing.

Section 6007. Coverage of Testing for COVID-19 At No Cost Sharing for Indians Receiving Contract Health Services. This section ensures that American Indians and Alaskan Natives do not experience cost sharing for COVID-19 testing, including those referred for care away from an Indian Health Service or tribal health care facility.

Section 6008. Emergency FMAP Increase. This section provides a temporary increase to states' federal medical assistance percentage for the duration of the public health emergency for COVID-19. It requires states to maintain eligibility standards that are no less restrictive than the date of enactment.

Section 6009. Increase in Medicaid Allotments for Territories. This section provides an increase to the territories' Medicaid allotments for 2020 and 2021. It will ensure that territories that receive an FMAP increase under the previous section will have the necessary additional federal funds for their Medicaid programs.

Section 6010. Clarification Relating to Secretarial Authority Regarding Medicare Telehealth Services Furnished During COVID-19 Emergency Period. This section makes a technical change to the Medicare telehealth provision of the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (P.L. 116-123) to ensure that new Medicare beneficiaries are able to access telehealth services under the emergency authority granted to the Secretary.

DIVISION G – Tax Credits For Paid Sick And Paid Family And Medical Leave

Prepared by the Democratic staff of the House Committee on Ways and Means

AMERICAN OVERSIGHT

Section 7001. Payroll Credit for Required Paid Sick Leave. This section provides a refundable tax credit equal to 100 percent of qualified paid sick leave wages paid by an employer for each calendar quarter.

The tax credit is allowed against the tax imposed by section 3111(a) (the employer portion of Social Security taxes). Qualified sick leave wages are wages required to be paid by the Emergency Paid Sick Leave Act.

The section makes a distinction between qualified sick leave wages paid with respect to employees who must self-isolate, obtain a diagnosis, or comply with a self-isolation recommendation with respect to coronavirus. For amounts paid to those employees, the amount of qualified sick leave wages taken into account for each employee is capped at $511 per day. For amounts paid to employees caring for a family member or for a child whose school or place of care has been closed, the amount of qualified sick leave wages taken into account for each employee is capped at $200 per day. The aggregate number of days taken into account per employee may not exceed the excess of 10 over the aggregate number of days taken into account for all preceding calendar quarters.

If the credit exceeds the employer's total liability under section 3111(a) for all employees for any calendar quarter, the excess credit is refundable to the employer. Employers may elect to not have the credit apply. To prevent a double benefit, no deduction is allowed for the amount of the credit. In addition, no credit is allowed with respect to wages for which a credit is allowed under section 45S.

The Secretary of the Treasury is given broad authority to issue regulations and guidance necessary to carry out the purposes of the section, including regulations and guidance related to avoidance, penalty waivers with respect to deposit amounts, compliance and record-keeping relief, and benefit recapture. The Social Security OASDI trust funds are held harmless by transferring funds from the General Fund. The section applies only to wages paid with respect to the period beginning on a date selected by the Secretary of the Treasury (or the Secretary's delegate) which is during the 15-day period beginning on the date of the enactment of this Act, and ending on December 31, 2020.

Section 7002. Credit for Sick Leave for Certain Self-Employed Individuals. This section provides a refundable tax credit equal to 100 percent of a qualified sick leave equivalent amount for eligible self-employed individuals who must self-isolate, obtain a diagnosis, or comply with a self-isolation recommendation with respect to coronavirus. For eligible self-employed individuals caring for a family member or for a child whose school or place of care has been closed due to coronavirus, the section provides a refundable tax credit equal to 67 percent of a qualified sick leave equivalent amount.

The credit is allowed against income taxes and is refundable. Eligible self-employed individuals are individuals who would be entitled to receive paid leave pursuant to the Emergency Paid Sick Leave Act if the individual was an employee of an employer (other than himself or herself). For eligible self-employed individuals who must self-isolate, obtain a diagnosis, or comply with a

AMERICAN OVERSIGHT

self-isolation recommendation, the qualified sick leave equivalent amount is capped at the lesser of $511 per day or the average daily self-employment income for the taxable year per day. For eligible self-employed individuals caring for a family member or for a child whose school or place of care has been closed due to coronavirus, the qualified sick leave equivalent amount is capped at the lesser of $200 per day or the average daily self-employment income for the taxable year per day.

In calculating the qualified sick leave equivalent amount, an eligible self-employed individual may only take into account those days that the individual is unable to work for reasons that would entitle the individual to receive paid leave pursuant to the Emergency Paid Sick Leave Act.

A self-employed individual must maintain documentation prescribed by the Secretary of the Treasury to establish his or her eligibility for the credit. To prevent a double benefit, the qualified sick leave equivalent amount is proportionately reduced for any days that the individual also receives qualified sick leave wages from an employer. The section contains rules to ensure that self-employed individuals in U.S. territories may claim the credit.

The Secretary of the Treasury is given broad authority to issue regulations and guidance necessary to carry out the purposes of the section, including regulations and guidance related to avoidance and compliance and record-keeping relief. The section applies only to days occurring during the period beginning on a date selected by the Secretary of the Treasury which is during the 15-day period beginning on the date of the enactment of this Act, and ending on December 31, 2020.

Section 7003. Payroll Credit for Required Paid Family Leave. This section provides a refundable tax credit equal to 100 percent of qualified family leave wages paid by an employer for each calendar quarter.

The tax credit is allowed against the tax imposed by section 3111(a) (the employer portion of Social Security taxes). Qualified family leave wages are wages required to be paid by the Emergency Family and Medical Leave Expansion Act.

The amount of qualified family leave wages taken into account for each employee is capped at $200 per day and $10,000 for all calendar quarters. If the credit exceeds the employer's total liability under section 3111(a) for all employees for any calendar quarter, the excess credit is refundable to the employer.

Employers may elect to not have the credit apply. To prevent a double benefit, no deduction is allowed for the amount of the credit. In addition, no credit is allowed with respect to wages for which a credit is allowed under section 45S.

The Secretary of the Treasury is given broad authority to issue regulations and guidance necessary to carry out the purposes of the section, including regulations and guidance related to avoidance, compliance and record-keeping relief, and benefit recapture. The Social Security OASDI trust funds are held harmless by transferring funds from the General Fund. The section

AMERICAN OVERSIGHT

applies only to wages paid with respect to the period beginning on a date selected by the Secretary of the Treasury which is during the 15-day period beginning on the date of the enactment of this Act, and ending on December 31, 2020.

Section 7004. Credit for Family Leave for Certain Self-Employed Individuals. This section provides a refundable tax credit equal to 100 percent of a qualified family leave equivalent amount for eligible self-employed individuals.

The credit is allowed against income taxes and is refundable. Eligible self-employed individuals are individuals who would be entitled to receive paid leave pursuant to the Emergency Family and Medical Leave Expansion Act if the individual was an employee of an employer (other than himself or herself). The qualified family leave equivalent amount is capped at the lesser $200 per day or or the average daily self-employment income for the taxable year per day. In calculating the qualified family leave equivalent amount, an eligible self-employed individual may only take into account those days that the individual is unable to work for reasons that would entitle the individual to receive paid leave pursuant to the Emergency Family and Medical Leave Expansion Act.

A self-employed individual must maintain documentation prescribed by the Secretary of the Treasury to establish his or her eligibility for the credit. To prevent a double benefit, the qualified sick leave equivalent amount is proportionately reduced for any days that the individual also receives qualified sick leave wages from an employer. The section contains rules to ensure that self-employed individuals in U.S. territories may claim the credit.

The Secretary of the Treasury is given broad authority to issue regulations and guidance necessary to carry out the purposes of the section, including regulations and guidance related to avoidance and compliance and record-keeping relief. The section applies only to days occurring during the period beginning on a date selected by the Secretary of the Treasury which is during the 15-day period beginning on the date of the enactment of this Act, and ending on December 31, 2020.

Section 7005. Special Rule Related to Tax on Employers. This section ensures that any wages required to be paid by reason of the Emergency Paid Sick Leave Act and the Emergency Family and Medical Leave Expansion Act will not be considered wages for purposes of section 3111(a). The Social Security OASDI trust funds are held harmless by transferring funds from the General Fund.

March 11, 2020

Dear Governor,

On behalf of the American Hotel & Lodging Association and the more 8.3 million associates supporting the hotel industry, thank you for your leadership in addressing the impacts of the coronavirus COVID-19.

While there are currently no restrictions to travel within the United States, our industry is taking very seriously the concerns of America's traveling public. That's why I'm sharing our Coronavirus Readiness Toolkit, which includes guidance to hoteliers on coordinating with state and local health officials, ensuring flexible sick leave policies and stressing workplace hygiene and prevention cleaning measures.

We are also hosting a series of webinars to ensure hoteliers have the latest guidance to protect the health of the traveling public and hotel employees.

The hotel industry has protocols in place to deal with everything from the common cold to the flu. And hotels are thoroughly cleaned every day. We have long been prepared to deal with public health challenges like Norovirus, H1N1, and now COVID-19. Thankfully, this preparedness aligns with the latest guidance from the Centers for Disease Control and Prevention.

Currently, our members are working with industry experts to increase the frequency of cleaning and supplying additional sanitizer stations with a minimum alcohol content of 60-90 percent.

As we all work to manage this situation, there is currently a low number of cases of COVID-19 in the United States. We remain vigilant about the cases being reported, yet we urge everyone to understand that travel is still safe. Travel and tourism are also critical to our national economy and virtually every local economy. During this time, please know that we are a partner to you in helping to address public concerns and encouraging safe travel for the benefit of communities across the country.

AMERICAN OVERSIGHT

America's hotel industry remains open and ready to serve our guests and to continue to provide livelihoods for the residents of your communities.

Sincerely,

Chip Rogers

GUIDANCE FOR EMPLOYERS TO PLAN & RESPOND TO CORONAVIRUS (COVID-19)

The following guidance may help prevent workplace exposures to acute respiratory illnesses, including the Coronavirus, in non-healthcare settings. The guidance also provides planning considerations if there are more widespread, community outbreaks of the Coronavirus from the Centers for Disease Control and Prevention (CDC). This guidance is based on what is currently known about the Coronavirus Disease 2019 (COVID-19).

All employers should be ready to implement strategies to protect their workforce from the Coronavirus while ensuring continuity of operations. As with all illnesses, sick employees should stay home and away from the workplace, use cough and sneeze etiquette, frequently clean hands with soap and water, and routinely clean commonly touched surfaces.

What steps can be taken in advance of employees getting sick?

Explore flex working options

- Determine policies and practices, such as telecommuting and flexible work hours.
- Supervisors should educate employees that if they become sick they should telework instead of coming into the workplace until symptoms are completely resolved.

Develop an employee communications plan

- Establish a process to communicate the latest Coronavirus information to employees and business partners (ex. CDC Coronavirus Workplace Tips For Employees).
- Anticipate employee fear, anxiety, rumors, and misinformation, and plan communications accordingly.

Decide how to handle an increase in absenteeism

Determine how you will operate if absenteeism spikes from increases in sick employees, those who stay home to care for sick family members, and those who must stay home to watch their children if dismissed from school.

Coordinate with state and local health officials

- Coordination with state and local health officials is strongly encouraged for all businesses to ensure timely and accurate information to guide appropriate responses in each location where their operations reside.
- Outbreak intensity may differ according to geographic location. Local health officials will be issuing guidance specific to their communities.
- Employers should take the time to research plans in place in each community where they have a business by contacting their local public health department.

Make a business continuity plan

Be prepared to change your business practices if needed to maintain critical operations (e.g., identify alternative suppliers, prioritize customers, consider digital meetings, or temporarily suspend some of your operations if needed).

AMERICAN OVERSIGHT

FL-GOV-20-0899-A-001651

GUIDANCE FOR EMPLOYERS TO PLAN & RESPOND TO CORONAVIRUS (COVID-19)

Symptoms
Symptoms include mild to severe respiratory illness with fever, cough, and difficulty breathing. and may appear in as few as two days or as long as 14 days after exposure.

Transmission
People can catch COVID-19 from others who have the virus or by touching these objects or surfaces, then touching their eyes, nose, or mouth.It may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes, but this is not thought to be the main way the virus spreads.

Preventative Measures
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick and stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

Teleconference in lieu of meeting in person if available.

- Educate your employees about COVID-19, its symptoms, and the potential health concerns associated with any travel at this time.
- Follow updates from the CDC and the World Health Organization (WHO) regarding additional precautions.

What should employers do if employees become sick?

- **Ensure flexible sick leave policies:** Consistent with public health guidance, permit employees to stay home to care for a sick family member, and that employees are aware of these policies. Actively encourage sick employees to notify their supervisor and stay home.
- **Local decision making:** Employers with more than one business location are encouraged to provide local managers with the authority to take appropriate actions based on the conditions in each locality.
- **Employee travel:** Ensure employees who become sick while traveling or on temporary assignment understand to notify their supervisor and call a healthcare provider for advice if needed.
- **Separate sick employees:** CDC recommends that employees who appear to have acute respiratory illness symptoms (i.e. cough, shortness of breath) upon arrival to work or become sick during the day should be separated from other employees and sent home immediately.
- **Social distancing:** Plan to minimize exposure between healthy employees and also between those employees and the public, if public health officials call for social distancing.
- **Workplace hygiene:** Routinely clean all frequently touched surfaces in the workplace, such as workstations, countertops, and doorknobs. Provide disposable wipes so that commonly used surfaces can be wiped down by employees before each use.

Are there additional measures in affect in response to the Coronavirus?

- **CDC's Traveler's Health Notices:** Check the latest guidance and recommendations for each country to which you plan to travel.
- **Outside the United States:** Sick employees should follow your company's policy for obtaining medical care or contact a healthcare provider or overseas medical assistance company to assist them with finding an appropriate healthcare provider in that country. A U.S. consular officer can help locate healthcare services. However, U.S. embassies, consulates, and military facilities do not have the legal authority, capability, and resources to evacuate or give medicines, vaccines, or medical care to private U.S. citizens overseas. Travel restrictions may be enacted by other countries which may limit the ability of employees to return home if they become sick while on travel status.
- **Health confidentiality:** If an employee is confirmed to have the Coronavirus infection, employers should inform fellow employees of their possible exposure to the Coronavirus in the workplace but maintain confidentiality as required by the Americans with Disabilities Act (ADA). Employees exposed to a co-worker with confirmed Coronavirus should refer to CDC guidance for how to conduct a risk assessment of their potential exposure.

For more information about the Coronavirus, please visit AHLA.com/covid19 and the CDC website at cdc.gov

Travel Leaders Echo Experts: Make Fact-Based Decisions About Traveling

U.S. Officials: "It Is Safe for Healthy Americans to Travel"

WASHINGTON (March 10, 2020)—A coalition of 150 travel-related organizations issued the following statement on the latest developments around coronavirus (signatories below):
"For the travel and hospitality industry, the safety of the traveling public, our guests and our employees is of the utmost importance. We are in daily contact with public health authorities and are acting on the most up-to-date information on the evolving coronavirus situation.

"Health and government officials have continually assured the public that healthy Americans can 'confidently travel in this country.' While it's critically important to remain vigilant and take useful precautions in times like these, it's equally important to make calm, rational, and fact-based decisions.

"Though the headlines may be worrisome, experts continue to say the overall coronavirus risk in the U.S. remains low. At-risk groups are older individuals and those with underlying health conditions, who should take extra precautions.

"The latest expert guidance indicates that for the overwhelming majority, it's OK to live, work, play and travel in the U.S. By seeking and heeding the latest expert guidance—which includes vigorous use of good health practices, similar to the preventive steps recommended for the seasonal flu—America's communities will stay strong and continue to thrive. The decision to cancel travel and events has a trickle-down effect that threatens to harm the U.S. economy, from locally owned hotels, restaurants, travel advisors and tour operators to the service and frontline employees who make up the backbone of the travel industry and the American economy.

"We are mindful of a guiding principle that long predates this current public health situation: without the safety and security of travelers, there can be no travel. The travel industry will maintain lines of contact with the Centers for Disease Control and Prevention, the U.S. Departments of Homeland Security and Health and Human Services and will remain vigilant for any changes. Collectively, we are taking enhanced steps to ensure both the safety of travelers, guests and our own employees."

Subject: IMPORTANT: Travel Restrictions for Employees of the State Personnel System (COVID-19)AP
Date: Thursday, March 12, 2020 8:51:13 PM
Attachments: image001.png
image002.png
image003.png
image004.png

Since the first two presumptive positive cases were identified in Florida on March 1, 2020, Governor DeSantis has proactively and aggressively prepared the state to combat Coronavirus Disease 2019 (COVID-19). The Governor's top priority is the health, safety and welfare of all Floridians.

Today, Governor DeSantis directed the Department of Management Service to provide the following direction to all employees in the State Personnel System:

Business

- All non-essential in-state and all out-of-state travel for state business is prohibited for the next 30 days.
- Florida National Guard, state Law Enforcement, state Emergency and Medical personnel are allowed to travel if the travel is deemed mission critical and is specifically approved by the agency head.
- Employees should avoid, when possible, attending large gatherings.
- Videoconferencing and virtual meetings are encouraged in lieu of travel.

Personal

- When on personal travel, state employees should follow CDC best practices for prevention and treatment of COVID-19, especially employees who are considered at-risk or who have dependents or care for those with underlying conditions or vulnerabilities.
- State employees who personally travel internationally will not be allowed to return to work for 14 days upon returning to the United States. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.
- State employees who personally travel on a cruise or to an area of the United States experiencing community spread of COVID-19 as identified by the Centers for Disease Control and Prevention or a state public health agency will not be allowed to return to

AMERICAN OVERSIGHT

work for 14 days upon returning home. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.

This travel policy applies to all employees of the State Personnel System, including the heads of executive agencies. Please consult your supervisor/HR Office and your agency's telework and leave policies for guidance regarding your specific situation.

Thank you in advance for joining in efforts to reduce the spread of COVID-19. We will continue to closely monitor and evaluate available information and guidance as this is a rapidly evolving situation.

We appreciate your patience and commitment to protecting our communities. If you have questions, please call John Apthorp at (850) 922-1274.

Subject: INVITATION: Briefing Call on COVID-19 TODAY (March 12) at 2:00 p.m. ET
Date: Thursday, March 12, 2020 11:26:41 AM
Attachments: image001.png

State and Local Leaders,

On **Thursday, March 12, at 2:00 p.m. Eastern Time**, please join Senior Administration Officials for a briefing call on COVID-19 (coronavirus) regarding President Trump issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries. Additional details can be found below. We will also provide an update on implementing mitigation strategies for communities with local COVID-transmission (A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission).

Briefing Call Registration on 212(f) & Community Mitigation Strategies

- **Date: Today,** Thursday, March 11
- **Time:** 2:00 PM ET (please note time zone)
- **Call-In Registration**: **CLICK HERE**
- **Note:** You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Below, please find additional information. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office directly if we can be of assistance.

Sincerely,
Zach

President Donald J. Trump Has Taken Unprecedented Steps to Respond to The Coronavirus and Protect the Health and Safety Of Americans
"Together we are putting into policy a plan to prevent, detect, treat and create a vaccine

AMERICAN OVERSIGHT

against coronavirus to save lives in America and the world. America will get it done!" – President Donald J. Trump

President Donald J. Trump signed a Presidential Proclamation, which suspends the entry of most foreign nationals who have been in certain European countries at any point during the 14 days prior to their scheduled arrival to the United States. These countries, known as the Schengen Area, include: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. This does not apply to legal permanent residents, (generally) immediate family members of U.S. citizens, and other individuals who are identified in the proclamation.

Statement from DHS Acting Secretary Chad F. Wolf: "Protecting the American people from threats to their safety is the most important job of the President of the United States. The actions President Trump is taking to deny entry to foreign nationals who have been in affected areas will keep Americans safe and save American lives. I applaud the president for making this tough but necessary decision. While these new travel restrictions will be disruptive to some travelers, this decisive action is needed to protect the American public from further exposure to the potentially deadly coronavirus. In January and February, the Administration issued similar travel restrictions on individuals who had been in China and Iran. That action proved to be effective in slowing the spread of the virus to the U.S., while public health officials prepared. In the next 48 hours, in the interest of public health, I intend to issue a supplemental Notice of Arrivals Restriction requiring U.S. passengers that have been in the Schengen Area to travel through select airports where the U.S. Government has implemented enhanced screening procedures."

RESTRICTING TRAVEL FROM IMPACTED AREAS: President Donald J. Trump is taking further action to curb the spread of the coronavirus to the United States from other countries.

- President Trump is issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries.
  - Section 212(f) of the INA only applies to the movement of human beings, not goods or cargo.
- The restriction applies to foreign nationals who have been in the Schengen Area, 26 countries in Europe with open borders agreements, in the last 14 days.
- Those who are exempt from these restrictions, such as American citizens, will be directed to a limited number of airports where screening can take place.
- There is extensive travel back and forth between Europe that heightens the risk here in the United States.

LOOKING OUT FOR AMERICAN BUSINESSES AND WORKERS: President Donald J. Trump is committed to protecting American businesses and workers from the impacts of coronavirus.

- The President is announcing an economic assistance package to help support businesses and workers who have been harmed by this outbreak.
- President Trump has instructed the Small Business Administration (SBA) to exercise available authority to provide loans to businesses affected by the coronavirus.
  - These loans will help overcome disruptions caused by the coronavirus.
  - The President is calling on Congress to increase funding for this program by an additional $50 billion.
- The President will be instructing the Department of the Treasury to defer tax payments

AMERICAN OVERSIGHT

for certain individuals and businesses negatively impacted by the coronavirus.
    - This action will provide more than $200 billion of additional liquidity to the economy.
- President Trump is calling on Congress to immediately pass payroll tax relief.
- The President announced that he will soon be taking emergency action to provide financial relief for workers who are ill, quarantined, or caring for others due to the coronavirus.
    - The President also called on Congress to take action to extend this relief for workers.

LEADING AN AGGRESSIVE, WHOLE-OF-GOVERNMENT APPROACH: President Trump has taken unprecedented steps to protect the health of Americans in response to the coronavirus.

- The President is leveraging all of our resources to respond to the coronavirus, bringing together government and private industry in a collaborative response.
- The Trump Administration declared a public health emergency in January to bolster response efforts.
- President Trump took early action to help curb the spread of the virus from other countries to the United States, providing important time for response and preparations.
    - In January, President Trump acted quickly to restrict travel from foreign nationals traveling from China.
    - In February, the President restricted travel for individuals recently traveling from Iran.
    - The Administration put into place mandatory screening for all travelers coming into the country from Italy and South Korea.
    - Travel advisories for severely impacted areas like Italy and South Korea have been raised to their highest level.
- Today, the President directed his Administration to make general-use face masks available to our healthcare workers.
    - The Administration's actions will help make millions of general-use respirators available to keep healthcare workers safe and mitigate transmission of the virus.
- President Trump signed into law more than $8 billion to fund response efforts.
- The Administration has taken bold steps to incentivize the development of therapeutics and vaccines to treat and prevent the spread of the coronavirus.
- Working across the public and private sectors, the Trump Administration continues to drastically expand testing capacity.
    - More than 1 million tests have been distributed nationwide, with another 4 million tests being shipped out by the end of the week.
    - Testing is now available in every State lab in the country and commercial labs are now deploying tests, which will help generate a dramatic increase in availability.
- The Trump Administration has released guidance on how to keep businesses, schools, community gathering places, and families safe.
    - From the start, President Trump has made keeping the public informed a top priority.
- The Administration has announced that health plans with health savings accounts will be able to cover coronavirus testing and treatment without co-payments.

ICYMI | Vice President Pence Discusses the Coronavirus Response on the Morning Shows

AMERICAN OVERSIGHT

Earlier this morning, Vice President Pence joined Good Morning America, The Today Show, Fox & Friends, New Day, and CBS This Morning to discuss the steps that this administration is taking to combat the coronavirus.

ON ABC's GOOD MORNING AMERICA

WATCH HERE.

From very early on, President Trump took decisive action to put the health of the American people first.

> "We all have known from the beginning that the coronavirus would continue to spread across this country, and it's one of the reasons why, from very early on, President Trump took decisive action to put the health of the American people first, not only declaring a public health emergency in January, but in that same month he suspended all travel from China -- an unprecedented move -- and quarantined Americans that were returning from the region. Since that time, George, we've -- we've issued travel advisories for areas of South Korea, Italy; screened all persons coming on direct flights. But, frankly, as we watched the epicenter of the coronavirus shift from China and South Korea to Europe, the President thought it was proper for us to impose a 30-day suspension on all travel from continental Europe."

The President, again, made another unprecedented decision in suspending all travel from Europe, because we want to stop the flow of people bringing the coronavirus here.

> "The reality is that, really, just two weeks ago, in Italy, there were less than 500 cases and now there's 12,000 cases in Italy, George. We have tens of thousands of people that travel to the United States from Europe every day. Seventy percent of new cases in the world were in Europe. And when we looked yesterday at the -- what was then the 35 states where we had cases, about 30 of them could be traced to contacts with Europe. And so the President, again, made another unprecedented decision in suspending all travel from Europe, because we essentially want -- we essentially want to stop the flow of people bringing the coronavirus here, but then continuing to surge resources, particularly into California, Washington State, New York, and other communities where we've seen community spread. It's a combination of efforts that's being driven by the top health experts in the world on

AMERICAN OVERSIGHT

our task force. But the President -- the President showed again yesterday a willingness to take decisive action on multiple levels to protect the American people."

We want to send a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus, you should not be worried about the cost of testing or treatment.

"We're making steady progress. We're going to continue to make a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus or you have symptoms, we don't want people to be worried about the cost of testing, to be worried about the cost of treatment… As the President made clear last night, we're working with Congress and exploring actions the President can take to make sure that hourly wage earners know that you can stay home without risking losing a paycheck or losing your job if you feel if you feel that you've been exposed to the coronavirus."

ON NBC's TODAY SHOW

WATCH HERE.

From early on in this effort, we have addressed the testing issue. We made changes through the FDA that allowed for state labs and hospitals to engage in testing.

"From early on in this effort we've been addressing the testing issue. We made changes through the FDA that allowed for state labs and university hospitals and hospitals to engage in testing. And I'm pleased to report every state lab in America can do testing now. Many university laboratories are doing it. Washington State – the University of Washington is doing extraordinary work. but we are literally working hour by hour to expand the testing and we think the key Savannah is going to be what we call commercial laboratories like LabCorp and Quest who are already spinning up production at the president's direction last week on tests that can be available on a broad basis in the days ahead for the American people. we're making real progress but rest assured we're going to continue to drive forward."

The American people should know that President Trump has no higher priority than the health, safety and well-being of the American people.

AMERICAN OVERSIGHT

"The American people should know that President Trump has no higher priority than the health and safety and wellbeing of the people in this country. You can go to coronavirus.gov right now to find out what every American can do to keep yourself, your family, your workplace and your school safe. But you can rest assured we're going to focus on communities where we've had community spread, and the President's action yesterday suspending travel from Europe is one more example of how he's putting the health of America first."

ON FOX NEWS' FOX & FRIENDS

WATCH HERE AND HERE.

The President has called this a whole-of-government approach, but he has also called this is a whole-of-America approach.

"The President, you know, he said this was a whole-of-government approach but he also said this is a whole-of-America approach. So he's brought in business leaders from nursing homes; yesterday, banking; hospitals, and the rest. But one of the things we did that's most important on testing was the President brought in the leaders of the top commercial laboratories in the country who, as we speak, have already approved a test that is being spun up. It's being sent out to market. Quest, LabCorp, the largest commercial laboratories in the country, are working very closely with our administration. We're clearing the red tape out of the way. That's going to be the way that, in the days ahead, we're going to -- we're going to have broad-based testing available all across the country."

We are working together to contain the spread of the coronavirus. And we will get through this.

"Our goal, as the coronavirus spreads in this country -- and the vast majority who would contract it will have flu-like symptoms and recover. Our goal nonetheless is to hold down that overall number as much as possible. And we will do that with the continuing cooperation of American families, schools, businesses, and states. And that's the vision President Trump has. All of us working together will get through this."

We are focusing on supporting efforts at the state and local level in Washington State, and in California. CDC issued strong guidelines for those

AMERICAN OVERSIGHT

communities about public activities, large gatherings and at schools. We will continue simply to follow the data on this.

> "Make no mistake about it: We are also focusing on supporting efforts at the state and local level in California, in Washington State, and in California. CDC issued very strong guidelines for those communities about public activities, large gatherings, schools. And we'll continue simply to follow the data on this and make strong recommendations where we have what's known as "community spread. But for every American, right now, as the President said last night, it's a good time to use common sense. Wash your hands often. Clean, you know, often-used surfaces. All that information is available at Coronavirus.gov. So we're going to try and mitigate the spread in this country but also prevent, through the President's decisive action last night, people from bringing the coronavirus into the United States any further from Europe."

We are encouraging best practices for every American. We are focusing on communities where we have community spread.

> "I want to say to your viewers, just as the President said last night, the risk to the average American of contracting the coronavirus remains low, but we do know that seniors with serious underlying chronic health conditions are particularly vulnerable to very serious outcomes. And so we're encouraging best practices for every American. We're focusing on communities where we have community spread."

Those with a family member who is a senior citizen should support them in engaging in good hygiene and good health practices.

> "For any American that's watching today that has a family member or a loved one who's a senior citizen with a serious underlying health condition, this is a very good time to help and to support them to be able to avoid public places, and everyone around them to engage in good hygiene and good practices to protect those that are most vulnerable."

ON CNN's NEW DAY

WATCH HERE AND HERE.

We have been meeting with industry leaders in one relevant industry after

AMERICAN OVERSIGHT

another to ensure that the full resources of America are being brought to bear.

> "We're not doing a travel ban as our strategy. The suspending all travel for 30 days from Europe is a part of the strategy. The other part is an aggressive mitigation strategy. I spoke to the governors of New York, Washington State, and California tomorrow -- or yesterday. CDC issued strong guidance to those areas where we have community spread. We've flowed resources. We've flowed support to those areas. And so it's a combination of strategies that the President has employed here. As he says, it's "all hands on deck," "a whole-of-government approach," but it's also a whole-of-America approach. We've literally been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear."

Any American who is concerned about being exposed to the coronavirus, should call their doctor and get tested.

> "Anyone who's looking on today who might be concerned that they were exposed to coronavirus or have symptoms should call their doctor. Their doctor, with any question, can call their state laboratory and be able to find out how they can have a test processed."

We are making steady progress. We don't want anybody to avoid having a test because they are concerned financially.

> "But make no mistake about it: We're making steady progress. We've made changes at the FDA in January, at the President's direction. And the American people can be confident we're going to continue to roll out the test. And maybe most significant on that score is that the President brought health insurance companies in last week and they all agreed to waive the co-pays on testing. We expanded testing to Medicare and Medicaid patients. And we also expanded coverage for treatment, and health insurance companies expanded coverage for treatment. We don't want anybody to avoid having a test because they're concerned financially."

The risk to the average American remains low.

> "I want people to know that the risk to contracting the coronavirus, according to all of our experts, for the average American remains low. Most people that contract it, will have flu-like symptoms and recover."

ON CBS This Morning

AMERICAN OVERSIGHT

WATCH HERE.

We are going to continue to put in every effort in place to protect the health and safety of the American people.

> "The President took the unprecedented step of suspending all travel from China which was the originating country of this virus. We also established travel advisories, and we've been screening passengers on all direct flights from South Korea and Italy. But with the epicenter of this epidemic now moving from China and South Korea to Europe, yesterday the President again took the unprecedented step of suspending all travel from Europe for the next 30 days, and that in combination with our strong mitigation efforts in communities that are experiencing what our experts call community spread, areas of California, Washington State, and New York, we're going to continue to put every effort at home and with regard to these travel restrictions in place to protect the health and safety of the American people."

In the days ahead, we are going to continue to see the availability of tests at your local doctor and your local pharmacy expand.

> "Testing is happening in every state lab in the country. Many university hospitals have taken the FDA test, like the University of Washington, is doing a great job expanding testing capabilities. But the biggest piece on the testing is that our commercial labs that the President brought in last week, companies like Quest and LabCorp, have already had approved a new test that they several days ago had begun to take to market which they can do in a vast and expansive way across the country. And literally in the days ahead, we're going to continue to see the availability of tests at your local doctor, ultimately at your local pharmacy, continue to expand."

When President Trump learned that 70% of the new cases this week, around the world, were in Europe, he took decisive action to protect the American people.

> "Make no mistake about it: All the new cases in the world, this week, 70% of the new cases were in Europe. And the increase has been dramatic. When the President imposed the travel advisory and we began screening all flights, all passengers coming into the United States from Italy two weeks ago, there were roughly 500 coronavirus cases. Now there's 12,000, about 1,000 in Germany, about 1,000 in France. That's the reason why the President essentially said full stop, we're going to

AMERICAN OVERSIGHT

suspend all travel, and that American citizens coming home and legal residents will be funneled through 13 different airports. They'll get an initial health screening coming in. But we're going to ask everyone returning to our country to self-quarantine for 14 days."

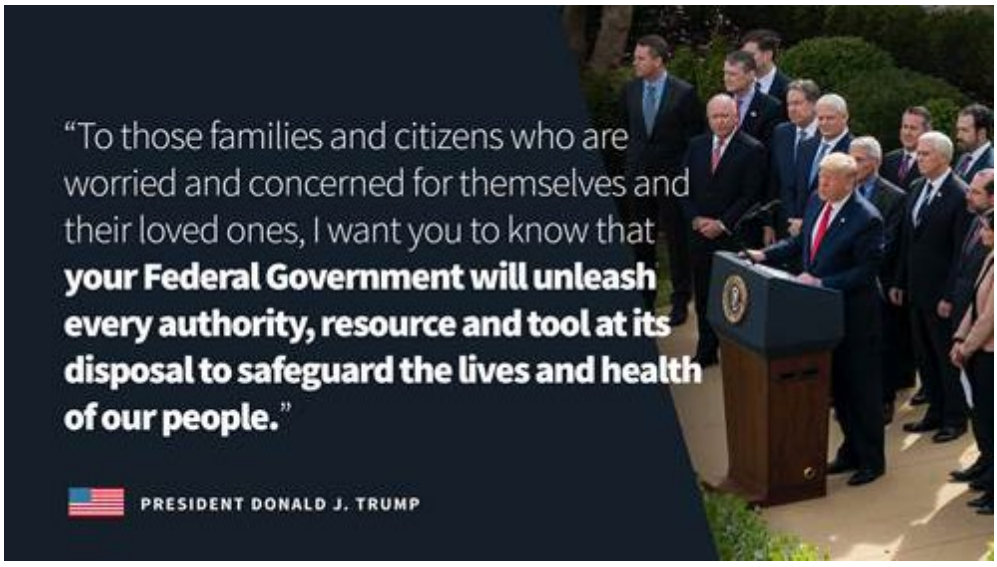
Subject: INVITE: State & Local Briefing Call on COVID-19 (Wednesday, March 18, 1:00 PM ET)
Date: Tuesday, March 17, 2020 9:28:35 AM
Attachments: image001.png

THE WHITE HOUSE



State and Local Elected Officials –

On **Wednesday, March 18, at 1:00 PM ET**, please join Senior Administration Officials for a briefing call on COVID-19 (coronavirus). Registration instructions are below. Please note that this call is intended for state and local elected officials. We encourage you to share this invitation with your county and/or municipal colleagues as well as public health officials.

Important Note: Call-in lines are limited. Please register only if you are able to join the call. State and local leaders (especially staff) working in the same office are encouraged to register once as a group and use one call-in line to maximize the number of people who can join.

Recent Actions

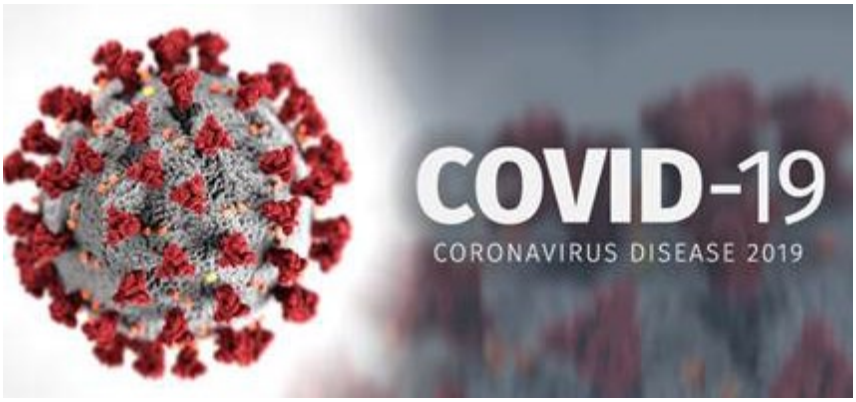
- FDA - Coronavirus (COVID-19) Update: FDA Provides More Regulatory Relief During Outbreak, Continues to Help Expedite Availability of Diagnostics (Click Here)
- CMS Approves First State Request for 1135 Medicaid Waiver in Florida (Click Here)

Briefing Call Registration
Date: Wednesday, March 18
Time: 1:00 PM ET (please note time zone)

AMERICAN OVERSIGHT

Call-In Registration: **CLICK HERE**
Note: You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Below, please find additional information that we continue to update. It includes an overview of the recent Presidential Emergency Declaration, information on the Small Business Administration's disaster assistance program, etc. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office directly if we can be of assistance. As a reminder, WH IGA is the primary liaison between the White House and the country's State and local elected officials and Tribal Governments.



Sincerely,

Nic

COVID-19: Background & Additional Information

Background

Under the leadership of President Trump and Vice President Pence, the full weight of the U.S. Government is working to protect the health and safety of the American people. Since the beginning of the outbreak, President Trump has taken unprecedented steps – including prudent travel restrictions and an early containment strategy – to protect the health of Americans in response to the coronavirus. In January, the President formed a Coronavirus Task Force, led by Vice President Mike Pence and comprised of subject-matter experts, to organize a whole-of-government response (**President Donald J. Trump Has Taken Unprecedented Steps to Respond To the Coronavirus and Protect the Health and Safety of Americans**). The Coronavirus Task Force and broader Administration have and will continue to work with State-Local-Tribal officials and private sector and non-profit partners in preparing for and responding to the Coronavirus. ***It is important to note that at this time, the risk to the average American remains low. All***

AMERICAN OVERSIGHT

agencies are working aggressively to monitor this continuously evolving situation and to keep our partners and the public informed.

Recent Announcements

President Donald J. Trump Announces New Guidelines to Address COVID-19 – The President's Guidelines for America: 15 Days to Slow the Spread
Monday, March 16, President Donald J. Trump announced new guidelines to address COVID-19, stop the spread, and protect health. *The President's Coronavirus Guidelines for America: 15 Days to Slow the Spread* can be found **here**.

President Donald J. Trump Directs FEMA Support Under Emergency Declaration for COVID-19
The federal government continues to take aggressive and proactive steps to address the COVID-19 threat as the health and safety of the American people remain a top priority (**President Donald J. Trump Has Mobilized the Full Resources of the Federal Government to Respond to the Coronavirus**). On Friday, March 13, President Trump **declared** a nationwide emergency pursuant to Sec. 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the "Stafford Act") (***Letter from President Donald J. Trump on Emergency Determination Under the Stafford Act***). This increases federal support to the Department of Health and Human Services (HHS) in its role as the lead federal agency for the ongoing COVID-19 pandemic response. As a result of the President's decisive, unprecedented action, FEMA is directed to assist state, local, tribal, territorial governments and other eligible entities with the health and safety actions they take on behalf of the American public. FEMA actions will be in support of HHS and in coordination with state, tribal and territorial governments. Eligible emergency protective measures taken at the direction or guidance of public health

AMERICAN OVERSIGHT

officials in response to this emergency, and not supported by the authorities of another federal agency, will be reimbursed strictly under the FEMA Public Assistance program. FEMA assistance will be provided at a 75 percent Federal cost share. Reimbursable activities typically include emergency protective measures such as the activation of State Emergency Operations Centers, National Guard costs, law enforcement and other measures necessary to protect public health and safety. To note, the declaration does not make direct financial assistance available to individuals.**. *Municipalities and counties are encouraged to work directly with their local emergency management offices and through the State Emergency Management Agency for all requests for assistance.*** You can read more about the disaster recovery process here.

Presidential Proclamation To Protect the Homeland from Travel-Related Coronavirus Spread

On Thursday, March 12, President Donald J. Trump signed a **Presidential Proclamation**, which suspends the entry of most foreign nationals who have been in certain European countries at any point during the 14 days prior to their scheduled arrival to the United States. These countries, known as the Schengen Area, include: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. *This does not apply to legal permanent residents, (generally) immediate family members of U.S. citizens, and other individuals who are identified in the proclamation.*

HUD Releases Quick Guide to CDBG Eligible Activities to Support Infectious Disease Response

CDBG grantees should coordinate with local health authorities before undertaking any activity to support state or local pandemic response. Grantees may use Community Development Block Grant (CDBG) funds for a range of eligible activities that prevent and respond to the spread of infectious diseases such as the coronavirus disease 2019 (COVID-19). The guide can be found **here**.

SBA To Provide Disaster Loans for Small Businesses Impacted by Coronavirus (COVID-19)

On Thursday, March 12, SBA Administrator Jovita Carranza issued the following statement: "The President took bold, decisive action to make our 30 million small businesses more resilient to Coronavirus-related economic disruptions. Small businesses are vital economic engines in every community and state, and they have helped make our economy the strongest in the world. Our Agency will work directly with state Governors to provide targeted, low-interest disaster recovery loans to small businesses that have been severely impacted by the situation. Additionally, the SBA continues to assist small businesses with counseling and navigating their own preparedness plans through our network of 68 District Offices and numerous Resource Partners located around the country. The SBA will continue to provide every small business with the most effective and customer-focused response possible during these times of uncertainty." SBA's Economic Injury Disaster Loans offer up to $2 million in assistance for a small business. These loans can provide vital economic support to small businesses to help overcome the temporary loss of revenue they are experiencing. More information can be found **here**.

CDC to Award Over $560 Million to State & Local Jurisdictions in Support of COVID-19 Response

The Department of Health and Human Services (HHS) is announcing another upcoming action by the Centers for Disease Control and Prevention (CDC) to provide resources to state and local jurisdictions in support of our nation's response to the coronavirus disease

AMERICAN OVERSIGHT

2019 (COVID-19). The $8.3 billion dollar Supplemental passed by Congress included **statutory language** which prescribed the exact formula for disbursing the money: states will receive 90% of their **2019 CDC PHEP grants**. This marks the first tranche of funding to states from the $8.3 billion supplemental. Your state health officers are receiving a letter today from CDC outlining what is needed to receive the funding, essentially they need to submit a spend plan and they will receive guidance on what that spend plan should contain. More **here**.

CDC Releases Mitigation Framework for States, Localities, and Communities
Protect yourself and your community from getting and spreading respiratory illnesses like coronavirus disease 2019. Everyone has a role to play in getting ready and staying healthy. CDC is aggressively responding to the global outbreak of COVID-19 and community spread in the United States. CDC's all of community approach is focused to slow the transmission of COVID-19, reduce illness and death, while minimizing social and economic impacts. Framework includes: (i) Local Factors to Consider for Determining Mitigation Strategies, (ii) Community mitigation strategies by setting and by level of community transmission or impact of COVID-19, and (iii) Potential mitigation strategies for public health functions. More **here**.

White House Coronavirus Task Force Announces Community Mitigation Strategies for Seattle-King, Pierce, and Snohomish C, WA Santa Clara, CA and New Rochelle, NY
The White House Coronavirus Task Force has recommended community mitigation strategies for Seattle, Washington and Santa Clara County, California due to widespread transmission of coronavirus disease 2019 (COVID-19). These mitigation activities are designed to address the effects of COVID-19 on areas that are experiencing community spread. You can find the guidance for Seattle, Washington and Santa Clara, California **here**. The Task Force also announced community mitigation strategies for New Rochelle, New York, which can be viewed **here**.

Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance
As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found here (3/9). The Press Release can be found here and all CMS guidance related to COVID-19 can be found **here**.

Federal Agency Action Overview

U.S. Department of Health & Human Services (HHS)

- The Department of Health and Human Services is committed to providing as much information as possible to prepare communities for response to COVID-19. The Department, through the Centers for Disease Control and Prevention, the Food and Drug Administration, and other agencies, continuously provide guidance to healthcare providers, laboratories, communities, and state and local officials for dealing with suspected or confirmed cases of COVID-19. The most up-to-date information can be found at **www.coronavirus.gov**.
- Wednesday, March 12, CDC **announced** the imminent release of almost $600 million to support state and local authorities respond to the COVID-19 outbreak. Full funding amounts are **here**.
- CDC released their "**Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission**." This is a guide for communities describing possible coronavirus transmission. Community mitigation strategies are often the most available interventions to help slow the transmission of COVID-19 in communities.
- The CDC has been actively working to address the need for testing across the country. You can find more information about testing **here**. We encourage review of the **Updated Guidance on Evaluating and Testing Persons for Coronavirus Disease 2019**, as well as the recently updated the **FAQ website**

AMERICAN OVERSIGHT

for laboratories to determine best practices for testing.

- The U.S. Public Health Service Commissioned Corps has deployed hundreds of officers to help with this response. As America's Health Responders, the Commissioned Corps is currently very involved in assisting the CDC with airport screenings, deploying staff to support hospitals, among other important missions. Find out more about Commissioned Corps activities **here**.
- Part of preparedness includes a robust blood supply. The current situation around COVID-19 heightens the need for a ready blood supply, please encourage your health community members to keep their appointments to donate blood.
- CDC released updated **guidance** on infection prevention and control recommendations for healthcare workers. Healthcare workers are fighting this outbreak on the front lines, and this guidance is intended to provide assistance to healthcare settings that are handling suspected or confirmed cases of COVID-19. This guidance is applicable to all U.S. healthcare settings.
- The President's emergency declaration gives HHS important powers to enhance state and local communities' ability to respond to the outbreak, including flexibility around Medicare and Medicaid rules.
    - *Flexibility and Relief for State Medicaid Agencies*: The national emergency declaration also enables CMS to grant state and territorial Medicaid agencies a wider range of flexibilities under section 1135 waivers. States and territories are now encouraged to assess their needs and request these available flexibilities, which are outlined in the Medicaid and CHIP Disaster Response Toolkit. Examples of flexibilities available to states under section 1135 waivers include the ability to permit out-of-state providers to render services, temporarily suspend certain provider enrollment and revalidation requirements to promote access to care, allow providers to provide care in alternative settings, waive prior authorization requirements, and temporarily suspend certain pre-admission and annual screenings for nursing home residents. For more information and to access the toolkit, visit **here**.
    - *Waivers and Flexibilities for Hospitals and other Healthcare Facilities*: CMS will temporarily waive or modify certain Medicare, Medicaid, and CHIP requirements. CMS will also issue several blanket waivers, listed on the website below, and the CMS Regional Offices will review other provider-specific requests. These waivers provide continued access to care for beneficiaries. For more information on the waivers CMS has granted, visit **here**.
    - *Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance*: As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found **here** (3/9). The Press Release can be found **here** and all CMS guidance related to COVID-19 can be found **here**.

U.S. Small Business Administration (SBA)

- The Small Business Administration will work directly with state Governors to provide targeted, low-interest loans to small businesses and non-profits that have been severely impacted by the Coronavirus (COVID-19). The SBA's Economic Injury Disaster Loan program provides small businesses with working capital loans of up to $2 million that can provide vital economic support to small businesses to help overcome the temporary loss of revenue they are experiencing.
- The Coronavirus Preparedness and Response Supplemental expanded the disaster

AMERICAN OVERSIGHT

definition for the Small Business Administration's Economic Injury Disaster Loans (EIDL) to include COVID-19. Economic Injury Disaster Loans are SBA loans that are available to eligible Small Businesses, Small agricultural cooperatives, and most non-profits that have experienced substantial economic injury as a result of a disaster.
    - EIDLs are available in areas that are declared a disaster area by the SBA.
    - There has to be an SBA Disaster Declaration in an area for EIDL loans to be made available, which originates from a request made by the Governor.
    - To assist in the efforts, the SBA engages with States' Emergency Response Teams to help them comply with the requirements before a request is made.
- EIDL Loan Details
    - Entities that can apply for EIDL loans are eligible Small Businesses, Small agricultural cooperatives, and most private nonprofit organizations.
    - EIDL Loans are up to $2million and have terms as long as 30 years.
- State and local officials who have been contacted by Small Businesses that may have been affected should share that information with their Governor or the State's Emergency Response Officials. More information on SBA's disaster loans, including eligibility and how to apply for loans, can be found here: **www.SBA.gov/disaster**

U.S. Department of Education (DoED)

- The Department of Education has established a dedicated Coronavirus **webpage**, which includes resources for institutions of higher education and for K-12.
    - The website includes **guidance** for students at institutions of higher education, and covers Coronavirus-related scenarios that could impact students who are enrolled in study abroad programs, students who meet full-time requirements but fall below 12 credit hours, students who are quarantined and miss class, campuses that have temporarily stopped offering ground-based classes to prevent the spread of Coronavirus, and foreign schools that serve Americans who receive Federal financial aid. Also see a **letter from the Office for Civil Rights** that addresses potential discrimination associated with coronavirus.
- The Department is working on additional information for families and communities including:
    - Information regarding certain flexibilities under the Every Student Succeeds Act, or "ESSA;"
    - Information regarding services to children with disabilities;
    - A fact sheet from our Office for Civil Rights on the risk of Coronavirus in schools while protecting the civil rights of students; and
    - Information on the Family Education Records Privacy Act, or "FERPA," as it pertains to K-12 and higher education students.
- The Department will continue to update its website, ed.gov/coronavirus. Please direct education related questions to **COVID-19@ed.gov**.

U.S. Department of Transportation (DOT)

- The U.S. Department of Transportation, in its important supporting role, has and will continue to coordinate with transportation stakeholders, foreign counterparts and other federal agencies to manage the risk in the United States.
- The U.S. government's travel restrictions and advisories have been a remarkably effective 'first layer' of containment. These travel requirements delayed the arrival of the virus to the United States, giving the nation precious time to prepare further

AMERICAN OVERSIGHT

measures, and plan for mitigation. This achievement took the cooperation of nearly 200 commercial airlines, a like number of overseas airports, and the Civil Aviation Authority of China.

- DOT continues to ensure: an active air bridge remains in place for the safe return of Americans from affected areas; airlines are funneling passenger flights to one of the eleven designated U.S. airports equipped to health-screen Americans returning from affected areas; continued air and sea cargo traffic between the US and China; health protocols are established to protect the crews of aircraft continuing to fly between the US and foreign locations; and, dissemination of health messages about the virus, for airlines to use to inform their passengers.
- External Stakeholder outreach is being actively conducted throughout the modes of transportation in DOT. DOT has already hosted calls with stakeholders for the Federal Aviation Administration, Federal Transit Authority, Federal Motor Carrier Safety Administration, and others. Additional calls are scheduled for outreach to additional stakeholders in all surface transportation, maritime, and labor.
- On March 13, USDOT issued a national emergency declaration to provide hours-of-service regulatory relief to commercial vehicle drivers transporting emergency relief to the nationwide COVID-19 outbreak. The declaration does not cover routine commercial deliveries, or transportation of mixed loads of essential supplies and/or persons and goods or persons not related to emergency needs. Effective immediately, the declaration will remain in effect for the duration of the emergency or until 11:59 P.M. (ET), April 11, 2020, whichever occurs sooner. Learn more **here**.

U.S. Department of Labor (DOL)

- The Occupational Safety and Health Administration (OSHA) developed COVID-19 **planning guidance** for employers to implement engineering, administrative, and work practice controls and personal protective equipment (PPE). The guidance is intended for planning purposes – employers and workers should use the planning guidance to help identify risk levels in workplace settings and to determine any appropriate control measures to implement.
- The U.S. Office of Personnel Management (OPM), an independent agency that serves as the chief human resources agency and personnel policy manager for the Federal Government, issued **guidance** for Federal Agencies regarding COVID-19 and human resources policies.
- DOL announced new guidance outlining flexibilities that States have in administering their unemployment (UI) programs to assist Americans affected by the COVID-19 outbreak. Under the guidance, federal law permits significant flexibility for states to amend their laws to provide UI benefits in multiple scenarios related to COVID-19. Learn more **here**.
- On March 14, DOL issued new temporary enforcement **guidance** for respirator fit-testing in healthcare during the COVID-19 outbreak. The temporary guidance is aimed at ensuring healthcare workers have full access to needed N95 respiratory protection. OSHA recommends that employers supply healthcare personnel who provide direct care to patients with known or suspected coronavirus with other respirators that provide equal or higher protection, such as N99 or N100 filtering facepieces, reusable elastomeric respirators with appropriate filters or cartridges, or powered air purifying respirators. Learn more **here**.

U.S. Department of Housing & Urban Development (HUD)

- The health and well-being of our country's most vulnerable citizens is Secretary Ben Carson's highest priority. At the direction of Secretary Carson senior HUD, officials have developed an Infectious Disease Toolkit for Continuum of Care homeless

AMERICAN OVERSIGHT

shelters (CoC). This includes specific documents addressing preparedness in shelters and encampment settings. More **here**.

- HUD has sent communication to CoC and Housing Opportunities for Persons With AIDS (HOPWA) grantees, highlighting the importance of infectious disease preparedness and linking to CDC and Healthcare for the Homeless resources: **Infectious Disease Preparedness Among Homeless Assistance Providers**.
- HUD released a quick guide to CDBG eligible activities to support infectious disease response. Grantees should coordinate with local health authorities before undertaking any activity to support State or local pandemic response. The guide can be found **here**.
- HUD is coordinating with the CDC, Healthcare for the Homeless, United States Interagency Council on Homelessness (USICH) on messaging and cross-promoting resource materials. This will continue on an ongoing basis. Also, the Department is reaching out to Health Resources and Services Administration (HRSA) and Substance Abuse and Mental Health Services Administration (SAMHSA) for future coordination.
- HUD has plenty of resources for your communities including:
    - Communities can use their unspent Emergency Solutions Grants and Continuum of Care Program funds to help address needs related to coronavirus. Additionally, a portion of CDBG funds are also available for public services, including health care.
    - Technical Assistance is available for ESG and CoC Program recipients if requested. Additionally, communities that want to amend their CDBG plans, can reach out to their CPD representative if they need assistance.

U.S. Department of Agriculture (USDA)

- USDA Secretary Sonny Perdue **announced proactive flexibilities** to allow meal service during school closures to minimize potential exposure to the coronavirus. During an unexpected school closure, schools can leverage their participation in one of USDA's summer meal programs to provide meals at no cost to students. Under normal circumstances, those meals must be served in a group setting. However, in a public health emergency, the law allows USDA the authority to waive the group setting meal requirement, which is vital during a social distancing situation.
- USDA intends to use all available program flexibilities and contingencies to serve program participants across our 15 nutrition programs. USDA has already begun to issue waivers to ease program operations and protect the health of participants. USDA is receiving requests for waivers on an ongoing basis. As of today, USDA has been asked to waive congregate feeding requirements in Washington, California, Maryland, Alaska, Utah, Pennsylvania, Wyoming, Maine, Kansas, New Jersey, New York, South Carolina, South Dakota, and Virginia and USDA has granted those requests.
- For more information about the coronavirus response across USDA, please visit: **www.usda.gov/coronavirus**.

U.S. Department of Homeland Security (DHS)

- While the overall risk to the American public remains low, actions by DHS and the administration are decreasing the strain on public health officials by screening incoming travelers, expediting the processing of U.S. citizens returning from China, and ensuring resources are focused on the health and safety of the American people. It is important to recognize, that while there is a significant focus on containing and

AMERICAN OVERSIGHT

mitigating the spread of COVID-19, all departments and agencies of DHS are continuing to perform their regular duties with no impact on their mission.

- DHS is working to recognize, detect, and assist individuals attempting to enter the U.S. through our, airports, land ports, or waterways who may be carrying the virus: Cruise Lines International Association, CDC, USCG, and CBP. DHS is working with the Department of State, HHS, and the senior public health leadership with the Government of Mexico to prepare for any COVID-19 cases identified along the South West Border. This effort includes coordination with state, and local Public Health Officials to develop reporting and response courses of action.
- FEMA has rostered 56 four-person Incident Management Assistance Teams.
- The Countering Weapons of Mass Destruction Office, which contains the National Biosurveillance Integration Center and the Chief Medical Officer, has maintained close coordination with our Components and U.S. Government partners regarding the status of the outbreak and associated U.S. Government response actions.

Local Preparedness Tips

- Response is locally executed, state managed, and federally supported.
- Ensuring clear, open lines of communication with the public and making information and guidance readily available.
- Proactively sharing and disseminating *verified and accurate* guidance and information such as HHS/CDC **guidance for families, businesses, and schools**.
- Reviewing Federal guidance such as the HHS/CDC **Community Mitigation Framework**.
- Coordinating with State and local health authorities.
- Reviewing local preparedness plans and strategies.

image007.png
image008.png

To Our Esteemed Community Leaders,
Please join us for the Air Force Research Laboratory INSPIRE event, 30 April 2020.

cid:image001.png@01D4F040 343D9010

Team AFRL,

Please join us for this year's AFRL Inspire and Tech Expo! Inspire is a celebration of the people and contributions that make AFRL an outstanding research organization. Inspire showcases the innovative ideas and passionate people AFRL has to offer in short, entertaining and thought-provoking talks. Each speaker brings a different slice of AFRL that highlights our willingness to dream big and tackle heroic challenges for our Airmen.

While you're there, explore the AFRL Inspire Tech Expo showcasing Air Force Vanguard technologies from across AFRL. This year's exhibit will also include displays from Eglin AFB units, including the Army Green Berets and Army Rangers!

I look forward to seeing you there!

v/r,

GARRY A. HAASE
Colonel, USAF
Director, Air Force Research Laboratory Munitions Directorate

Click here to register for AFRL Inspire 2020

When: Thursday, 30 April 2020

Where: Emerald Coast Convention Center, 1250 Miracle Strip Parkway SE, Fort Walton Beach, FL 32548

Time: Early registration will be open at the venue from 12:00pm – 4:00pm on April 29th. Standard registration and Tech Expo will be open from 9:00am - 12:30pm (CST) on April 30th; AFRL Inspire will begin promptly at 1:00pm (CST) on April 30th

Social: Join us immediately following the Inspire talks for the Inspire Social, featuring a beach

AMERICAN OVERSIGHT

environment, networking opportunities, entertainment, heavy hors d'oeuvres and a lot of fun! The social will be held in the Four Points Sheraton Destin-Fort Walton Beach outdoor courtyard.

AMERICAN OVERSIGHT

From:	Diane Carr
To:	Strum, Shane
Subject:	Joint Letter from Carmakers and Car Dealers / Motor Vehicle Facilities Continued Operation Essential to COVID-19 Response
Date:	Wednesday, March 18, 2020 10:53:10 AM
Attachments:	NADA-Auto Innovators Letter to the President March-17-2020.pdf ATT00001.htm

---

Good morning, Shane-

I hope this e-mail finds you well as you and Governor DeSantis continue your proactive response to the coronavirus outbreak in our state.

I'm reaching out today to forward a letter from Johnson & Blanton's client, the Alliance for Automotive Innovation, which is attached below. As the trade association that represents the nation's car manufacturers, the Alliance has partnered with the National Automobile Dealers Association to send a letter to President Trump and his administration requesting that motor vehicle facilities remain open as essential businesses when local jurisdictions issue COVID-19 closure orders. The continued operation of these facilities is necessary given the importance of safe transportation in addressing the outbreak. And while Governor DeSantis has not yet signaled the need for significant business closures as a part of Florida's COVID-19 response, the Alliance would respectfully request that motor vehicle facilities be considered essential operations and not ordered to close should the closure of non-essential businesses be recommended going forward.

On behalf of Johnson & Blanton, I offer our sincere thanks to you, Governor DeSantis, and the many public servants now working overtime to contain the spread of the spread of coronavirus. Your efforts on our behalf are very much appreciated.

Best regards,

Diane Carr

AMERICAN OVERSIGHT

March 17, 2020

President Donald J. Trump
The White House
Office of the President
1600 Pennsylvania Avenue, N.W
Washington, D.C. 20500

Dear President Trump:

We are the trade associations that represent the companies manufacturing, and the dealerships distributing, servicing, and maintaining the operational safety of, the nation's motor vehicles. The Alliance for Automotive Innovation represents manufacturers comprising 99 percent of the country's vehicle production capability, while the National Automobile Dealers Association represents over 90 percent of the nation's franchised new-car and -truck dealers.

As our nation continues to confront the coronavirus's challenges, we want to underscore the importance of ensuring that consumers have access to a safe and well-functioning motor vehicle fleet. Motor vehicles, both new and old, are critical to ensure that the public can get food and other necessities of life, as well as to continue to interact with one another in a manner consistent with public health officials' recommendations. This applies not only to light-duty vehicles but also to the medium- and heavy-duty trucks that are a crucial component of the nation's transportation infrastructure. In fact, the federal government includes manufacturing (including auto manufacturing) as critical infrastructure when it comes to the economic continuity of the United States. Given the importance of safe transportation in addressing the coronavirus outbreak, we have an obligation to ensure that motor vehicles remain safe and are properly maintained.

To that end, it is vital that vehicle repair, maintenance, and sales facilities be considered essential operations when federal, state, and local officials impose certain requirements due to the coronavirus outbreak. These facilities perform needed safety recall repairs, manufacturer warranty work, and safety-critical maintenance, including brake repair, steering repair, and much more. And they provide replacement vehicles when necessary. We note that many local jurisdictions, when issuing closure orders for non-essential businesses, have included motor vehicle facilities on the list of those that are essential. For example, yesterday's shelter-in-place order issued by the Health Officer of the City and County of San Francisco determined that "gas stations and auto-supply, auto-repair, and related facilities" were essential businesses outside the order's reach. That order can be found here: https://oewd.org/sites/default/files/2020.03.16%20Final%20Order%20C19-07%20-%20Shelter%20in%20Place.pdf. Similar guidance is needed nationally.

AMERICAN OVERSIGHT

Accordingly, we hereby request that, as you consider further national initiatives to contain the severity and duration of the spread of the coronavirus, including potential Executive Orders, you ensure that our nation's motor vehicle fleet remains as safe and operational as possible.

Thank you for your prompt attention to this crucial matter.

John Bozzella

Coronavirus: summary of persons being monitored, persons under investigation, and cases

Mar 18, 2020 at 5:08 PM

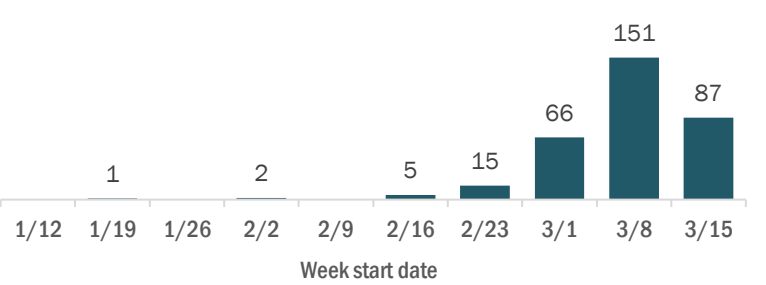
Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	2,327
Total persons of high, medium, or unknown risk	1,815
High/medium/unknown risk still being monitored	967

Persons under investigation (PUI):
people who meet laboratory testing criteria based on symptoms and exposure

Total identified	2,800
Tested positive	328
Tested negative	1,332
Currently awaiting testing	1,140



Confirmed cases

Confirmed cases in Florida residents	299
Confirmed by BPHL/CDC	177
Positive by commercial/hospital lab	122
Characteristics of Florida resident cases	
Not exposed/infectious in Florida	6
Hospitalized	79
Deaths	8
Cases in non-Florida residents	29
Confirmed by BPHL/CDC	23
Positive by commercial/hospital lab	6
Total cases	328
Traveled	92
Contact with confirmed case	56
Traveled and contact with confirmed case	71
Neither	109
Travel is unknown*	67
Contact is unknown*	21
Contact is pending*	60

*Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

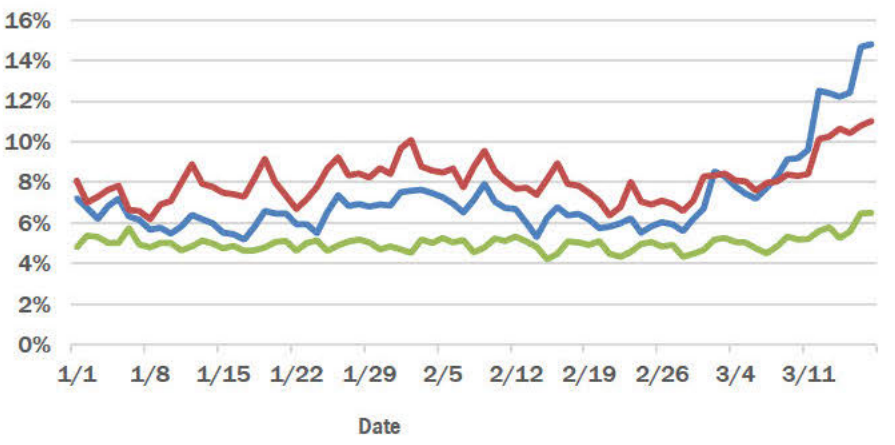
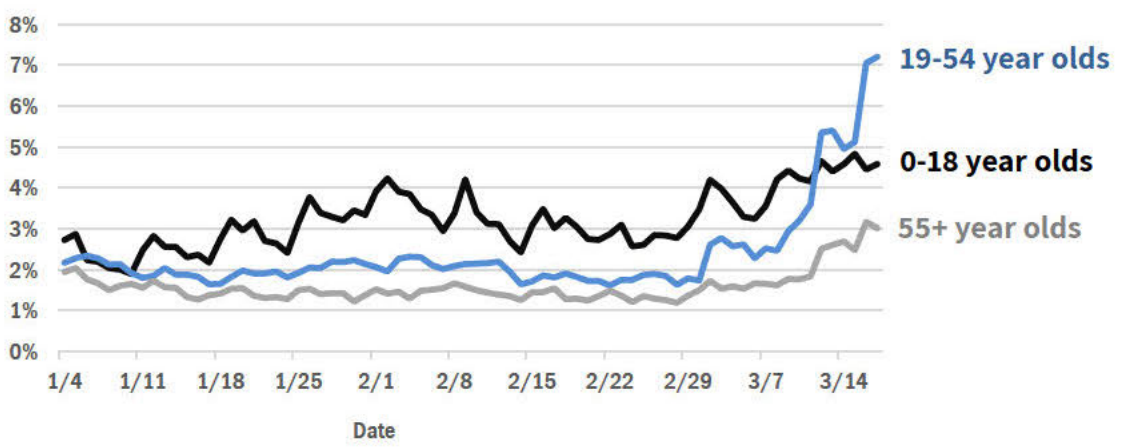
Coronavirus: additional surveillance information

Mar 18, 2020 at 5:08 PM



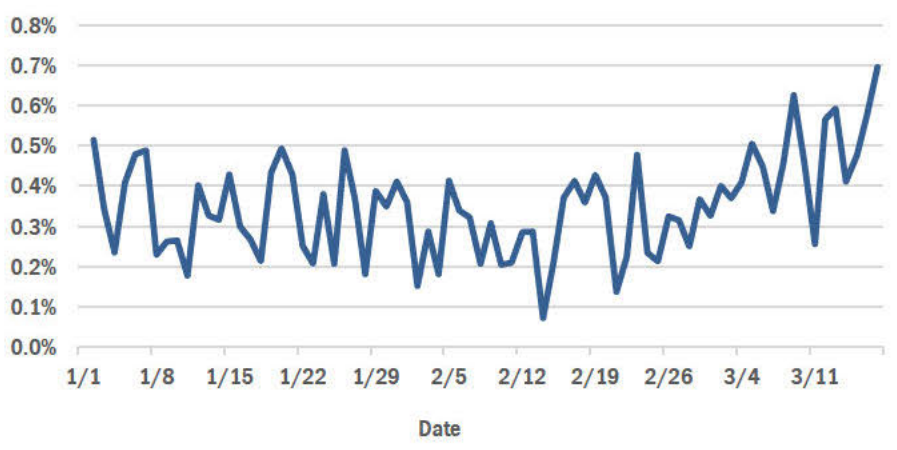
Data in this report are provisional and subject to change.

Statewide emergency department (ED) chief complaint and admission data

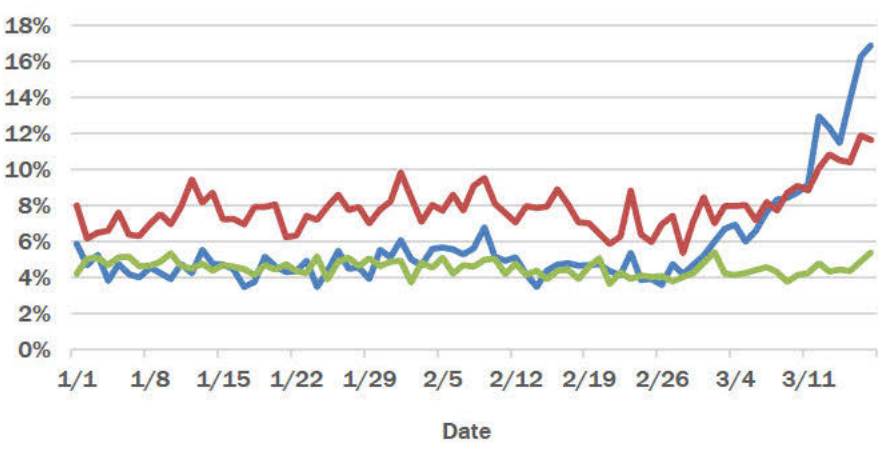


The daily percent of ED visits statewide that result in **cough-associated admissions** has increased over the past 2 weeks.

The daily percent of ED visits statewide that mention **cough** or **fever** (or both) has increased steadily over the past 2 weeks. **Shortness of breath** is stable and within expected levels for this time of year.



The daily percent of ED visits statewide that mention cough has been elevated for the past 2 weeks for all age groups, particularly **19-54 year olds.**



Broward County ED chief complaint and admission data

The daily percent of ED visits that result in **cough-associated admissions** in Broward County has increased over the past 2 weeks.

The daily percent of ED visits that mention **cough** or **fever** (or both) in Broward County has increased sharply the past 2 weeks. **Shortness of breath** is stable and within expected levels for this time of year.

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 215 of 216 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Coronavirus: summary of persons being monitored and persons under investigation (confidential)

Mar 15, 2020 at 7:26 AM

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

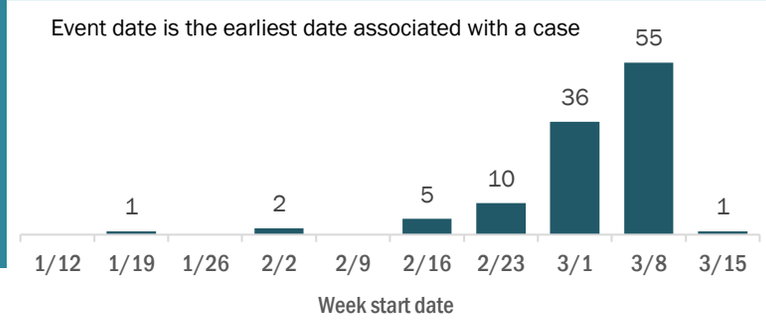
Total reports	1,529
CDC notifications	857
Other notifications*	672
Type of exposure	
Travel exposure	952
Airline/vessel contact	128
Close contact with case	367
Unknown	82

Exposure risk cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html	Travel/airline/ vessel/unknown	Contact with case
High	1	49
Medium	806	129
Unknown (not contacted yet)	86	11
Low/no identified risk**	269	178
Total persons of high, medium, or unknown risk	893	189
Still being monitored	278	131
Contacted in person	19	7
Persons still monitored by top 10 counties		
Sarasota	25	35
Dade	51	4
Broward	46	9
Lee	11	18
Orange	22	0
Palm Beach	18	0
Pasco	9	8
Pinellas	16	0
Hillsborough	10	5
Santa Rosa	1	13

* Other notifications: persons who self-report, persons identified during monitoring of another person, etc.

**People with low or no risk identified through case investigations are not routinely being managed in the surveillance system, so are not reflected in this number.

Persons under investigation (PUI): people who meet laboratory testing criteria based on symptoms and exposure



Total identified	1,196
Tested positive	111
Tested negative	669
Currently awaiting testing	416

Confirmed cases

Confirmed cases in Florida residents	98
Confirmed by BPHL/CDC	70
Positive by commercial/hospital lab	22
Not exposed/infectious in Florida	6
Deaths	4
Cases in non-Florida residents	13
Confirmed by BPHL/CDC	11
Positive by commercial/hospital lab	2
Total cases	111
Traveled	29
Contact with confirmed case	17
Traveled and contact with confirmed case	35
Neither	30

10-week trend by event date

Event date is the earliest date associated with a case

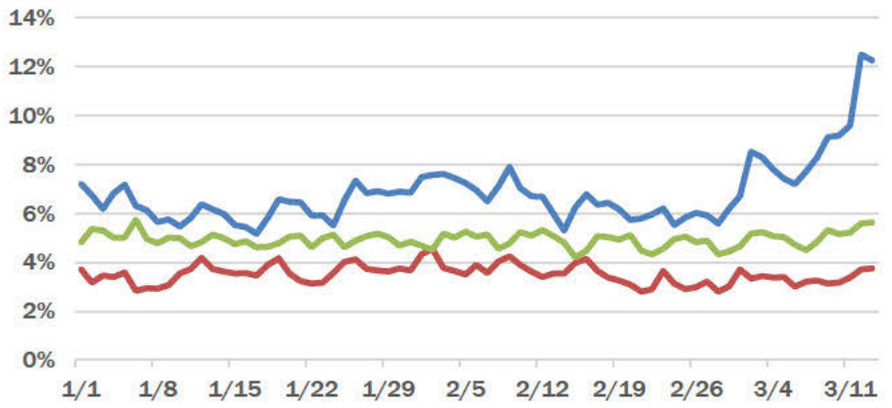
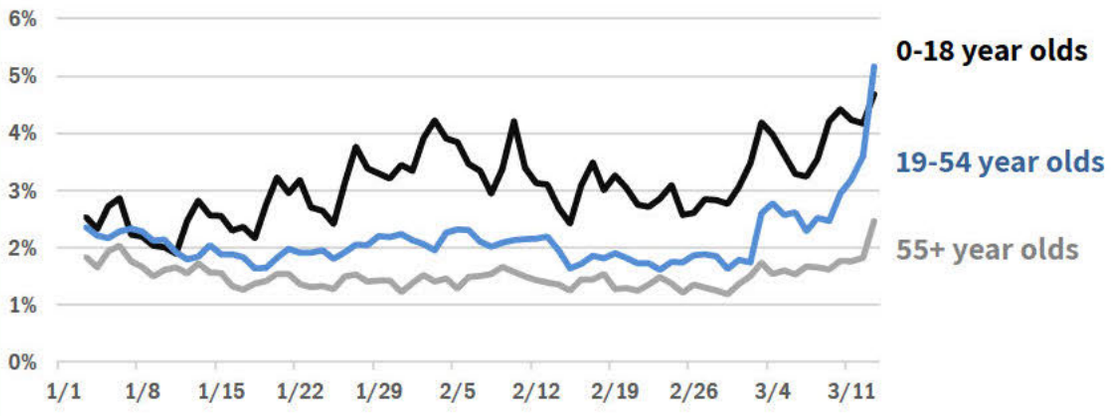
Coronavirus: additional surveillance information (confidential)



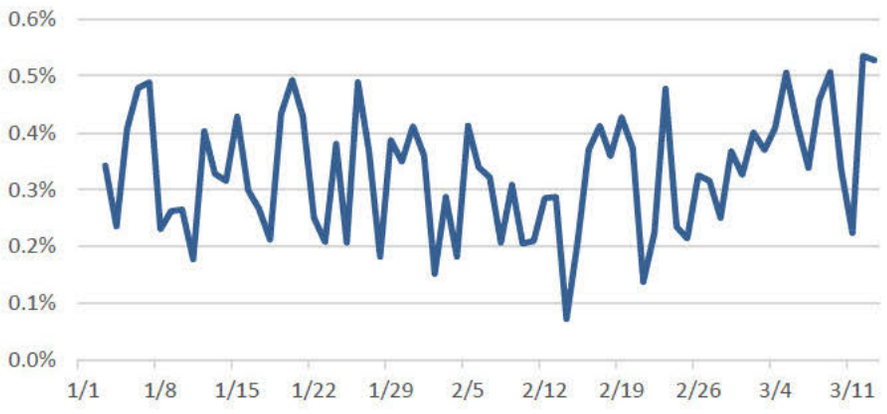
Mar 15, 2020 at 7:26 AM

Statewide emergency department (ED) chief complaint and admission data

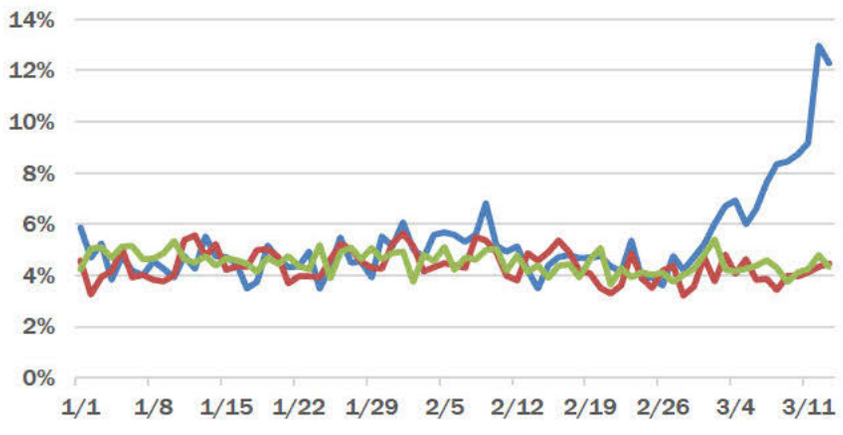


The daily percent of ED visits statewide that result in **cough-associated admissions** remains within expected levels.

The daily percent of ED visits statewide that mention **cough** has been elevated for the past 2 weeks. **Shortness of breath** and **fever** are stable and within expected levels for this time of year.



The daily percent of ED visits statewide that mention cough has been elevated for the past 2 weeks for all age groups, particularly **19-54 year olds.**



Broward County ED chief complaint and admission data

The daily percent of ED visits that result in **cough-associated admissions** in Broward County remains within expected levels.

The daily percent of ED visits that mention **cough** in Broward County has been elevated for the past 2 weeks. **Shortness of breath** and **fever** are stable and within expected levels for this time of year.

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 215 of 216 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Saturday, March 14, 2020 at 11:30 p.m.

CASES TO DATE

- 1196 persons under investigation
- 669 negatives
- 111 total cases reported
  - 98 in Florida residents
    - 92 diagnosed in Florida
    - 6 diagnosed and isolated in another state
  - 13 confirmed positive (non-Florida resident)
- 4 deaths
- 416 tests in state results pending
- 1529 people monitored to date
- 409 of that 1529 are currently being monitored

Call Center hotline hours are 24 hours a day, seven days a week

KEY ACTIVITIES

Department of Health

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Activated Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.

DRAFT

AMERICAN OVERSIGHT

- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.
- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.
- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:
    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.

AMERICAN OVERSIGHT

- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.
- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

Agency for Health Care Administration

- Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Tuesday, March 3, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for assisted living facilities, intermediate care facilities, Agency for Persons with Disabilities (APD) group homes and adult family care homes on Tuesday, March 3, with nearly 1500 participants. Secretary Mayhew, Surgeon General Rivkees and APD Director Palmer addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for hospitals in conjunction with the Florida Hospital Association on Wednesday, March 4, with 84 locations participating. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting Florida hospitals.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Friday, March 6, with 524 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as a newly developed visitor screening toolkit and recent memos from the Centers for Medicare and Medicare Services.
- Hosted a statewide call for hospitals in conjunction with LeadingAge Florida and the Florida Life Care Residents Association on Friday, March 6, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting senior populations and nursing homes.

AMERICAN OVERSIGHT

- Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
- Sent an e-blast on CDC infection prevention and control guidelines to hospitals across the state.
- AHCA Secretary Mayhew is visiting nursing homes and hospital facilities in Jacksonville and Orlando today to discuss COVID-19 preparations and response and respond to any concerns and questions from local partners.
- Verified ESS data dashboards is in production
- Shared contact e-mail with local health department for communication to providers (AHCA asked to be copied on communication)
- Allowed for early refills of prescription drugs in Medicaid
- Provided guidance to Medicaid health plans on coding and billing for COVID-19
- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- Sent Policy Transmittal (PT 2020-12) to all SMMC health plans on guidance on how to proceed with provision of Medicaid services in accordance with Governor DeSantis's Executive Order Number 20-52
- Sent e-blast regarding CMS guidance on Emergency Medical Treatment and Labor Act (EMTALA) Requirements and Implications
- Sent e-blast regarding CMS guidance for Home Health Agencies
- Sent e-blast regarding CMS guidance for Hospice Agencies
- Sent e-blast regarding CMS guidance for Dialysis Facilities
- Sent e-blast regarding CMS guidance for use of Certain Industrial Respirators by Health Care Personnel
- To take full advantage of the flexibilities provided through the declaration by President Trump of a national state of an emergency, AHCA will eliminate regulatory barriers that may delay or obstruct critical COVID-19 response.
    - Waiving prior authorization requirements for Medicaid
    - Removing Medicaid limits on services
    - Extending timelines for Medicaid health plan appeals and fair hearings
    - Expanding Medicaid provider enrollment
    - Limiting face-to-face Medicaid provider site visits
- AHCA will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from CMS related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.

Agency for Persons with Disabilities

- Distributed DOH and CDC guidance to Florida Association of Rehabilitative Services, Arc of Florida, Family Care Council of Florida and Florida Developmental Disabilities Council.
- Added COVID-19 information to APD website.

AMERICAN OVERSIGHT

- Visitor Screening Criteria has been implemented at APD-owned facilities in Marianna and Gainesville
- Agency is developing visitor questionnaires for Adult Day Training facilities and group homes
- Examining telework capacity/ability
- Meeting with AHCA regarding rule waivers/exemptions for APD clients living in residential facilities
- Working to procure cleaning supplies and/or services for APD buildings.
- Facility in Gainesville has cancelled community events on campus and is cancelling large trips for residents going off-site.
- Started twice-weekly conferences with the Superintendents of APD-owned facilities to discuss coronavirus updates and needs.
- Forensic Facility in Chattahoochee needs guidance on admitting individuals who have been court-ordered to reside at this facility.
- APD has issued an advisory to all group home providers & owners and all Adult Day Training facilities regarding Emergency Order 20-002
- APD is reviewing its own rules, policies and procedures for potential wavers needed
- APD has established daily meetings with its executive management and incident management team
- APD is developing reporting tools for employees and clients who are isolated or quarantined
- APD's forensic Facility in Chattahoochee needs guidance on admitting individuals across the state who have been court-ordered to reside at this facility.

Board of Governors for the State University System

- Participate in multiple statewide calls for situational awareness.
- The Chancellors Office has advised our 12 state university partners to continue to follow the guidance of the CDC and Florida Dept. of Health
- Posted the DOH Link on the Board webpage
- Posted information on each universities COVD-29 response on our webpage https://www.flbog.edu/2020/03/05/university-information-on-covid-19/
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.

Department of Agriculture and Consumer Services

- Press Conference on Gas Pump Skimmers & Coronavirus with Deputy Commissioner Mary Barzee Flores.
- Communique about Guidance on COVID-19 Food Safety for Consumers, Food Establishments
- Provided food establishments, Florida Retail Federation and Petroleum Marketers Association (convenience stores) with an email blast regarding shopping cart sanitation and sharing, and providing hand sanitizer.
- Uploaded WHO Technical Guidance information to WebEOC
- Coordination call with UF College of Veterinary Medicine, DOH State Public Health Veterinarian, 3/12/20
- The division held a call this morning with the School Nutrition Directors of the 17 counties that currently have confirmed cases of COVID-19 to discuss program flexibilities related to serving meals to students in the event of unanticipated school closures.

AMERICAN OVERSIGHT

•

Department of Business and Professional Regulation

- Incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices.
- Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises

Department of Children & Families

- Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage.
- Provided update to DCF Leadership and Communications team on International Travel amplifying Department of Health messaging applying guidance to persons who have travelled anywhere internationally or on a cruise.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- On March 11, Guidance and preventative measures, including screening questions, was sent statewide to Adult Protective Services staff
- Conducting daily leadership calls at 3:30pm for situational awareness and leadership level decision making
- Collecting staffing availability for critical classes

Department of Citrus

- Memo sent to staff on March 5th, 2020
- Availability to telework for sick individuals

Department of Corrections

- Hosted conference calls with institutional and community corrections regional leadership to discuss COVID-19:
- Reiterated the importance of personal hygiene best practices and enhanced cleaning efforts
- Actively monitoring staff for symptoms as well as proactively send inmates to medical for assessment.
- All wardens and community corrections leaders have been in contact with their local health department to make sure open lines of communications exist in the event of a potential case in their area.
- Private prison partners have aligned their response to COVID-19 to the Department's response
- Medical services contractor, Centurion, was directed to allow inmates initiating a medical visit due to symptoms relating to a potential communicable disease, such as influenza, not be charged a co-payment.
- Institutional medical staff have been instructed to notify DOH if a single inmate presents with symptoms, discontinuing the former procedure of cluster reporting.

AMERICAN OVERSIGHT

- Centurion will stage a minimum of 25 PPE's at each facility; supplies should be delivered Friday, March 13th. Excess supplies will be staged at the regional offices for redistribution as needed. Access to additional supplies is being coordinated through CDC, should this become necessary.
- H/R is drafting an essential staffing message as it relates to CDC/DOH "Stop the Spread" campaign.
- Office of Institutions staff participated in a webinar with the American Correctional Association (ACA) titled "Coronavirus COVID-19: Impact on Corrections."
- Considering canceling visitation and volunteer programs at institutions with highest risk populations.
- Considering relaxing the entry and exit procedure as it relates to alcohol-based hand sanitizer for individual staff.
- Considering suspending recruitment events at public locations.
- Informed visitors and volunteers if you are feeling sick with a fever, persistent cough, or find it difficult to breathe – please do not enter a correctional institution.
- Restrict inmate transfers to mission critical needs
- New commitments will remain at reception centers at least 14-days prior to transfer. quarantine dorm at reception centers for.
- Initiating screening process.
- Staff are temporarily permitted to enter secured perimeters with alcohol-based hand sanitizer.
- Tracking staff who report flu-like symptoms and their work availability.
- Established a trigger matrix for presumptive positive & positive COVID-19 inmates.
- Verify Staff who have VPN Access
- Suspended visitation for 30-days and initiated active screening process at all entrance/exit points.
- Drafting communication to inmate population about visitation cancelation.
- Procurement: Review with vendors J-pay credits and free Securus minutes is visitation if suspended.
- OIT: Coordinate emergency alternative for visitor services call center.
- Considering expanding the institutional restrictions to include volunteer programs, community work squads.
- Communications: Expand inmate tracking graphic to include how many inmates were referred to DOH and how many were tested for COVID-19.

Department of Education

- Distributed guidance from the CDC and the Florida Department of Health concerning care and cleaning of schools, returning students from foreign trips, quarantining in college or university dorms.
- Coordinated with pandemic planning activities.
- Participated in statewide call for educational entities.
- Distributed the Policy for Diagnostic Testing to the Board of Governors.
- 11:00 AM – Superintendents call regarding emergency workflows and concerns (Commissioner and DOE Leadership involved)
- Santa Fe College is requesting hand sanitizer due to vendor indicating their request is on back order. Request has been provided to ESF 6.

AMERICAN OVERSIGHT

- Disseminated information based on Governors request to close all schools in all districts.
- Disseminated information based on Governors request through the Board of Governors State University system

Department of Elder Affairs

- Provided guidance to Area Agencies on Aging on how to protect clients and staff and no resources have been requested at this time.
- Guidance from the Florida Department of Health and CDC Websites have been provided to all DOEA Staff in an email from the Secretary.
- Provide guidance from the Florida Department of Health's website to Area Agencies on Aging and lead agencies on how to protect clients and staff.
- Added a link to the Florida Department of Health Coronavirus site on the Department of Elder Affairs website page.
- Pushed out messaging on social media focused toward caregivers and family, urging them to think about COVID-19 before visiting seniors or elderly loved ones
- Provide guidance from the Florida Department of Health's website to Statewide CARES offices, Area Agencies on Aging and lead agencies on how to protect clients and staff
- Meetings with the Statewide Cares offices, Area Agencies on Aging, Directors, ECO's and Alternate to discuss any needs. We will continue to have this 2-3 times a week or as needed if the event elevates.
- Providing individual technical assistance calls to most statewide AAAs anticipating meal site closures and allowable flexibility.
- Scheduled daily update calls with AAA Emergency Coordinators to assess activities, technical assistance and assess unmet needs.
- Provided technical assistance to all AAAs that 701A, 701C, and 701S can be completed over the phone.
- Provided instruction of the flexibility of client care plans usually required face-toface every 6 months to be done for the next 30 day over the phone. Timeframe to be reevaluated as necessary

Department of Environmental Protection

- Both Florida State Parks and DEP have been sharing DOH and EOG guidance on all social media platforms.
- On March 5, a message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication.
- On March 5, the DOH banner graphic was placed on the DEP website.
- Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment.
- On March 6, DEP provided verbal response guidance and FAQs to Florida State Park field staff and Public Services to prepare for inquiries from the public.
- On March 7, all Florida State Parks and DEP accounts began posting direct content.
- DEP has reviewed the agency's Continuity of Operations Plan's pandemic protocols to make sure it is up- to-date and reflects most recent DOH and CDC guidance.
- DEP continues to coordinate with the Governor's Office and Department of Health on emerging case-specific issues.

AMERICAN OVERSIGHT

- DEP Leadership continues to communicate hand washing and safety protocols.
- Extra hand sanitizing stations have been placed in the Bob Martinez, Douglas and Carr buildings in Tallahassee.
- On March 5, guidance was sent to all Land and Recreation employees on the appropriate use of disposable gloves and masks as personal protective equipment.
- DEP's Division of Recreation and Parks continues to evaluate and procure necessary personal protective equipment and sanitation supplies to ensure the health and safety of employees, volunteers and visitors at state parks.
- On March 9, Florida State Parks and DEP social accounts posted health and safety tips to social media channels.
- On March 9, all Florida State Parks and DEP social media accounts began sharing Department of Elder Affairs social content and continues to share real-time EOG and DOH guidance on social channels.
- Deputy Secretary Adam Blalock sent an email to Ecosystems Recreation staff regarding the use of disposable gloves and masks as personal protective equipment at aquatic preserves and National Estuarine Research Reserves. The message includes resources for DOH and CDC guidance to be posted at sites for visitors and employees.
- A press release is expected to be distributed informing the public that the Blue-Green Algae Task Force meeting will be postponed. This will be issued upon receipt of the pending DMS guidance.
- DEP is evaluating events and travel within the next 30 days, based on pending DMS guidance to determine if cancellations or rescheduling is required.
- DEP's South District placed DOH precaution sheets in all bathrooms.
- DEP's Southeast District sent an internal message to all staff this morning reminding them: to familiarize themselves with the resources the District has made available to them, the importance of taking preventative measures, and the availability of hand sanitizing stations throughout the District Office.

Department of Financial Services and Office of Financial Regulation

- OFR - prepared draft proclamations for external stakeholders on proper notice to the Office regarding office closures of financial institutions
- Authorized purchase of hand sanitizer and disinfecting wipes for all offices
- Informed employees of proper procedures for workspace cleanliness/mitigation of spread of illnesses
- Monitoring guidance from DMS regarding office closures; annual leave, sick leave, admin. Leave policies
- Pulling back on out-of-state travel and minimizing in-state travel for employees
- Social distancing

Department of Highway Safety & Motor Vehicles

- Providing to all its employees FDOH and CDC guidance, resources and materials on best practices to prevent illness.
- Created an internal SharePoint webpage where all pertinent FDOH and CDC COVID-19 updates, resources and guidance are being stored for department employees to access.

AMERICAN OVERSIGHT

- Increasing sanitation efforts at its facilities with a focus on high-traffic areas and frequently contacted surfaces, such as elevators, door handles, water fountains, etc.
- Working to ensure it has an adequate supply of sanitation products for its facilities as well as its public-facing personnel, such as driver license office staff and members of the Florida Highway Patrol.
- Exploring the feasibility and technical requirements, should it become necessary, of telework and modified staffing at certain locations.
- Updated its Pandemic annex for the department's Continuity of Operation Plan.
- FHP has provided FDLE COVID-19 Florida Law Enforcement Guide and FDOH Public Safety Answering Points guidance to all FHP personnel.

Department of Juvenile Justice

- Juvenile Justice's Office of Health Services is developing a protocol and messaging, including a process matrix, for each of our programs' designated health authorities and medical staff on what to do if a youth is suspected to have contracted COVID-19.
- Staff at our residential commitment programs and detention centers are reaching out to their local health departments to ensure a clear line of communication and what the process will be if a youth is suspected to have contracted COVID-19.
- Evaluating visitation policy and procedures to determine necessary screening measures to ensure both the safety of the youth and staff in our programs and uninterrupted visitation schedules.
- DJJ will begin to review and modify if necessary our continuity of operations planning (COOP) in response to COVID-19.
- Evaluating procedures and any necessary precautions related to youth taken into custody by law enforcement who are brought to our juvenile assessment centers.
- Visitor sign translated in Spanish to post at the entrance in their offices, centers and facilities
- Provided to our law enforcement partners statewide our modified screening protocols and procedures for youth taken into custody at Juvenile Assessment Centers (JAC) and Detention Screening Units (DSU). DJJ Secretary and leadership team held conference calls with the following entities to discuss our COVID-19 protocols: Detention Regional Directors and Superintendents; Residential Regional Directors and Residential Contracted Provider CEOs; and Probation Regional Directors and Probation Contracted Providers including the Florida Network, Children-in Need of Services/Families-in-Need of Services (CINS/FINS) providers
- Distributed four documents via email to the listed groups: Protocols at Juvenile Assessment Centers and Detention Screening Units; Visitor Screening Tools; Notice to Family Members and Guardians of Youth in our programs and a Coronavirus (COVID-19) Precautions STOP signage which is also translated in Spanish. Provided notice to family members and guardians of youth in our programs requesting not to visit youth in our facilities if they have or had within the last 48 hours any symptoms of respiratory illness, or recently spent time with anyone exhibiting these symptoms.
- Provided notice to vendors, guests, volunteers and business partners the same message and requested if there are problems providing critical services for our youth, please contact us to discuss alternatives.
- We have developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs.

AMERICAN OVERSIGHT

- We are sending a notice to parents and guardians of youth in programs regarding the new visitor screening protocol. This information will be included within the admission packet for new youth admitted.
- We have sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted
- Effective 3/14 DJJ will suspend visitation to our detention centers and residential facilities until further notice and re-evaluate when it is safe to resume. Letters are being distributed to parents/guardians and all partners including chief judges, state attorneys, public defenders and their respective associations, provider CEOs, program directors, prevention providers, and detention superintendents.
- In DJJ's detention centers and residential facilities, youth will be able to make contact with parents/guardians via skype, Facetime or other means to the extent possible.
- DJJ is discussing with the judge in Circuit 2 the possibility for on-site detention hearings; until a decision is made DJJ will continue to transport youth to court for hearings.
- Assistant Secretaries in centers and facilities are evaluating the possibility of staff shortages and are discussing with our private providers plans for addressing needs and issues in maintaining staff ratios.
- Due to school closures our private provider teachers are being advised to follow the guidelines of the local school districts as it relates to continuing school for youth. There might also be a need to utilize teachers to meet the staff-youth ratio.
- DJJ is also evaluating and discussing with private providers alternate means for serving youth (contractually) and requesting their input on options for providing case management services remotely and identifying alternative activities for youth.
-

Department of Law Enforcement

- FDLE Commissioner has distributed a message to FDLE members about COVID19 prevention and precautions.
- Acquiring safety equipment and some PPE equipment.
- Provided legal reference kit to law enforcement statewide (ESF-16)
- Distributed "Law Enforcement Guidance" flyer to agencies statewide (ESF-16)
- Attended meetings with DEM/DOH/FHP and ESF-16 members
- Continue regular meetings with headquarters and state-wide leadership. "
- Reviewing COOP and expanded modified staffing opportunities, ordered an increase in bandwith and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE has attended National Governor's Association / Homeland Security Administration / Center for Disease Control conference calls
- RDSTF meetings
- State partners providing immediate needs list to ESF-16 in reference to PPE
- Providing situational uppdates to partners about cyber/malware sites for COVID-19

Department of Lottery

AMERICAN OVERSIGHT

- Terminal messages have been sent to all of the Florida Lottery's more than 13,000 retailers detailing how to properly clean and disinfect highly touched areas like Lottery touchscreen terminals and vending machines.
- Lottery sales representatives are reiterating the safety tips provided by the Department of Health to retailers and encouraging retailers who may have additional questions visit the COVID-19 website.

Department of Management Services

- Reached out to multiple vendors for quotes for hand sanitizer and wipes for Supervisor of Elections.
- Searching for buildings that could host affected people in a quarantine type setting. Looking for isolation rooms as well as exploring state parks for camping room settings.
- Ordered and are delivering roughly 300 standing hand sanitizer dispensers and 160 gallons of gel hand sanitizer to facilities.
- Increased daily sanitation efforts of state buildings and distributed guidance to facility managers to increase efforts to sanitize office spaces.
- Contacted several environmental vendors that can be pre-positioned to mobilize in the event of a viricidal cleaning at a state-maintained facility.
- DMS' Division of Retirement Call Center and PeopleFirst Call Center personnel were provided boilerplate messaging to direct callers to DOH COVID-19 webpage or dedicated call center/email for latest updates.
- Human Resource Management provided guidance to HR Directors on leave policies.
- Provided guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits.
- Prepared employee telework guidance and workforce planning information for HR Directors specific to COVID-19.
- Division of State Technology is researching quotes for additional VPN services as needed to support employees teleworking.
- DMS has placed web banners on People First, MFMP, FRS portal, mybenefits.com, myflorida.com, and Travel system websites directing them to the DOH COVID-19 site for official updates.
- Created best practices/preventative guidance to provide to agencies working with landlords in lease-based facilities. Contains list of recommended agency contracts a resource for additional cleaning services. Memo was sent to agency leasing contacts and communication offices.
- The Division of Human Resource Management is finalizing updates to their section of the DOH Pandemic Plan.
- Division public safety personnel continues to coordinate with the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management held a call with Facility Managers to provide CDC guidance for cleaning, posters on handwashing to post in common

AMERICAN OVERSIGHT

areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Email was sent follow-up with resources.

- DMS' Division of Real Estate Development and Management held a call with Capitol facility manager, Sergeant of Arms, and Capitol Police to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Division also held a call with Earley's Kitchen on the same. Email was sent follow-up with resources.
- DMS has identified 500 ventilators; awaiting approval
- DMS has activated more personnel to the EOC to research and secure commodities as the needs arise. Lead time for out-of-stock items is also being assessed for possible
- HRM continues to provide guidance as needed to HR Directors on leave policies.
- HRM/DSGI will continue to provide guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management continues to update Facility Managers as needed to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination
- DMS' Division of Real Estate Development and Management will continue to provide updated guidance to the Capitol facility manager, Sergeant of Arms, Capitol Police, and Earley's Kitchen to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination
- Procured 10 box trucks (rentals) for the SLRC
- Procured 10 drivers for the box trucks
- HRM continues to provide guidance as needed to HR Directors on leave policies.
- HRM/DSGI will continue to provide guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits

Department of Revenue

- Distributed information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19. "
- Guidance has been posted in public areas of the Department's CCOC building for visitors and meeting attendees in the building"
- The Department of Revenue's General Tax Administration (GTA) program is working with our tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- Information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19.
- The Department of Revenue's General Tax Administration (GTA) program is working with our tax processing vendor to ensure continuity in tax data and payment processing.

AMERICAN OVERSIGHT

- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- Emailed information and FAQ's to employees related to the Department's response to COVID 19 with links to the Florida Department of Health and the Centers for Disease Control
- Communicated with supervisors' additional details in reference to leave and travel requests.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

Department of Transportation

- Hosted call for seaports and airports on COVID-19
- Sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees.
- Beginning on Tuesday, 10 March 2020, FDOT is hosting two weekly teleconferences, one with passenger seaports and the other with public use airports, to provide a briefing and take questions.
- Secretary Thibault facilitated a conference call on Thursday, 05 March 2020 with Governor DeSantis and State Surgeon General Rivkees to advise seaports and public use airports regarding COVID-19 efforts.

Department of State

- The Florida Department of State has provided guidance and information to all 67 Florida Supervisors of Elections on how to prepare for COVID-19 at their polling locations for the March 17 Presidential Preference Primary.
- The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
- The Florida Department of State is using its social media platforms to encourage voters who are concerned about COVID-19 to make themselves aware of voting options and ways to protect themselves and their families.
- Social Media Messages-
    - #Florida voters concerned about Coronavirus Disease 2019 (COVID-19) should make themselves aware of ways to protect themselves and their family. Learn more about #COVID19 and ways to prevent the virus using resources from @HealthyFla here: http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of Vote-By-Mail ballots. The deadline to request a vote-by-mail ballot to be mailed to you is Saturday, March 7. More information: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of early voting sites. To see when and where early voting is available in

AMERICAN OVERSIGHT

your county visit: https://dos.myflorida.com/media/702721/2020-early-voting-locations-and-times-master-20200302.pdf.
    - Voters exhibiting symptoms of #COVID19 can designate someone to pick up their vote-by-mail ballot for them as late as 7:00 pm on Election Day by filling out affidavits for that designee. More information at: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - I always encourage #Florida voters to be informed about voting and what we are doing to protect their vote; that won't change.
    - I also want to ensure that voters inform themselves about #COVID19 & learn ways to protect themselves & their family. http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html"
- DOS also has an upcoming Supervisor of Elections call scheduled for Thursday, 3/12/20 at 10:00 A.M., in which DEM and DOH have been requested to attend.
- DOS is currently working on our telework policy. We have also increased hand sanitizer and sent an agency-wide communication to our members in order to provide employee guidance related to COVID-19.
- The Secretary of State, Assistant Secretary/Chief of Staff, Director of Elections and ECO held a call with the Director of Emergency Management and Chief of Staff to discuss preparation efforts that may be needed. The Director of Elections has surveyed all SOEs to ask what polling locations they have in assisted living facilities and if those polling locations are open to the public or residents only.
- The Department of State met via conference call today with all 67 county Supervisors of Elections to discuss COVID-19 as it relates to election polling places. On the call were representatives from The Florida Department of Health, Florida Division of Emergency Management and Volunteer Florida. Supervisors were updated about COVID-19 and the precautions to take regarding polling places from DOH and provided options for assistance from Volunteer Florida. Supervisors were also reminded to work with their county Emergency Management offices for available resources to combat the COVID-19 emergency
- The Museum of Florida History has implemented the following, in addition to regular cleaning tasks:
    - Removed guest sign in book; Education Staff to record the visitor information.
    - Added to the list of opening cleaning chores: (Disinfecting wipes are preferred over spray to minimize possible damage to artifacts.)
    - Clean all push buttons for life casts, dioramas, and other touchables in exhibits as identified and approved with disinfecting wipes.
    - Clean wheelchairs after every use with disinfecting wipes.
    - Clean surfaces of benches with disinfecting wipes.
    - Clean surface of survey podium with disinfecting wipes.
    - Placed additional hand sanitizer dispensers at entrance and exit of Museum.
    - Turned off touchscreen survey and rely on paper surveys.
- Staff using disinfecting wipes on phones and keyboards.
- COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces

Department of Veteran Affairs

AMERICAN OVERSIGHT

- Florida Department of Veterans' Affairs (FDVA) resources are currently focused on our network of state veterans' homes. FDVA operates state veterans' homes in Panama City, Lake City, St. Augustine, Daytona Beach, Pembroke Pines, Port Charlotte and Land O' Lakes.
- Effective March 11, 2020, the Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

Fish and Wildlife Conservation Commission

- Information regarding awareness, precautions, and reporting has been disseminated agency wide.
- Participated in a briefing from the Department of Homeland Security's Senior Medical Officer was shared with ESF-16 partners and FDLE personnel.
- Guidance has been issued for taking appropriate precautions to mitigate risk from COVID-19 agency wide.
- Accounted for all agency issued personal protective equipment.
- We are modifying work schedules to allow non-essential personnel to telework.
- We have ordered latex gloves for LE members and they should be in by 03/20/20.
- All training has been cancelled.
- All in state travel has been cancelled unless it is deemed an LE emergency and must be approved by the Executive Director.
- All out of state travel has been cancelled

Office of Attorney General

- Activated the Price Gougin Hotline is response
- Monitoring staff travel and continuing internal staffing calls in preparation of potential staffing/telework situations in the coming weeks

Volunteer Florida

- Volunteer Florida has passed CDC guidance on COVID-19 to employees and our Florida VOAD Partners"

AMERICAN OVERSIGHT

- "Volunteer Florida conducted an initial meeting with the FLVOAD to discuss additional actions including a FLVOAD call to be conducted this week to ensure all member organizations and partners are aware of CDC guidance. "
- VF is coordinating with the Florida Department of Elder Affairs to see how we can assist with spreading information to seniors.
- VF coordinated latest messaging with FLVOAD and discussed scheduling a call for next week with all FLVOAD partners. FLVOAD pushed out messaging via social media and will be scheduling a call for next week.
- VF participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunity platform) and how it can be used by offices to help recruit volunteers for Tuesday's upcoming election to due to COVID-19 fears at some poling sites.

Water Management Districts

- Reviewing continuity of operations and telework plans.
- Increasing cleaning and sanitation of failities.
- Installed hand sanitizer and distributed sanitary wipes throughout facilities
- Instituted regular sanitary wipe-downs of common areas and meeting rooms
- The District has suspended all official travel and meetings
- Preparing resources for staff to work remotely as needed
- Provided staff education
- Conducted public Governing Board meeting
- Purchasing thermometers, alcohol wipes, gloves
- Finance began tracking costs under separate codes

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.

Coronavirus: summary of persons being monitored and persons under investigation (confidential)

Mar 8, 2020 at 8:26 PM

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	1,104
CDC notifications	765
Other notifications*	339
Type of exposure	
Travel exposure	855
Airline/vessel contact	90
Close contact with case	153
Unknown	6

Exposure risk cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html	**Travel/airline/ vessel/unknown**	**Contact with case**
High	0	25
Medium	693	65
Unknown (not contacted yet)	13	4
Low/no identified risk**	245	59
Total persons of high, medium, or unknown risk	706	94
Still being monitored	212	90
Contacted in person	60	8
Persons still monitored by top 10 counties		
Sarasota	4	49
Broward	43	4
Dade	32	3
Orange	20	0
Hillsborough	12	7
Manatee	6	12
Pinellas	15	0
Duval	12	0
Volusia	7	5
Lee	2	9

* Other notifications: persons who self-report, persons identified during monitoring of another person, etc.

**People with low or no risk identified through case investigations are not routinely being managed in the surveillance system, so are not reflected in this number.

Persons under investigation (PUI): people who meet laboratory testing criteria based on symptoms and exposure

Total identified	273
Tested positive	18
Tested negative	140
Currently awaiting testing	115

Confirmed cases

Cases in Florida residents	17
Confirmed	12
Deaths	2
Repatriated confirmed cases	5
Cases in non-Florida residents	1

AMERICAN OVERSIGHT

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Saturday, March 8, 2020 at 8 p.m.

CASES TO DATE

- 273 persons under investigation
- 140 negatives
- 18 total cases reported
    - 17 in Florida residents
        - 12 diagnosed in Florida
        - 5 diagnosed and isolated in another state
    - 1 confirmed positive (non-Florida resident)
- 2 deaths
- 115 tests in state results pending
- 1104 people monitored to date
- 302 of that 1104 are currently being monitored

New case in Broward county identified today.

Call Center hotline hours are 24 hours a day, seven days a week

CURRENT OPERATIONAL OBJECTIVES

1. **Contain the spread of the virus in Florida** through rapid identification and isolation of suspect cases, active monitoring and limited movement of travelers with increased risks during the incubation period.
2. **Implement laboratory testing** capability in Florida public health laboratories.
3. **Provide guidance and information to healthcare providers** in Florida regarding reporting suspect cases, infection control procedures, and clinical care.
4. **Disseminate coordinated public health messaging** to the public, healthcare stakeholders and partner agencies.
5. **Support county health department (CHD) operations** for epidemiological investigations, monitoring, public messaging and preparedness through resources, staffing and technical guidance.
6. **Prepare for the possibility that coronavirus becomes a global pandemic** by ensuring plans, resources and capabilities are in place to respond to a widespread outbreak and lessen the impacts on communities in Florida.
7. Monitor Florida hospitals for increased patient volume and support **strategies for medical surge.**

DRAFT

AMERICAN OVERSIGHT

KEY ACTIVITIES

Department of Health

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Activated Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.
- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.
- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:

AMERICAN OVERSIGHT

    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.
- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

DRAFT

AMERICAN OVERSIGHT

Agency for Health Care Administration

- Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Tuesday, March 3, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for assisted living facilities, intermediate care facilities, Agency for Persons with Disabilities (APD) group homes and adult family care homes on Tuesday, March 3, with nearly 1500 participants. Secretary Mayhew, Surgeon General Rivkees and APD Director Palmer addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for hospitals in conjunction with the Florida Hospital Association on Wednesday, March 4, with 84 locations participating. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting Florida hospitals.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Friday, March 6, with 524 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as a newly developed visitor screening toolkit and recent memos from the Centers for Medicare and Medicare Services.
- Hosted a statewide call for hospitals in conjunction with LeadingAge Florida and the Florida Life Care Residents Association on Friday, March 6, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting senior populations and nursing homes.
- Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.

Agency for Persons with Disabilities

- Distributed DOH and CDC guidance to Florida Association of Rehabilitative Services, Arc of Florida, Family Care Council of Florida and Florida Developmental Disabilities Council.
- Added COVID-19 information to APD website.

Board of Governors for the State University System

- Participate in multiple statewide calls for situational awareness.
- The Chancellors Office has advised our 12 state university partners to continue to follow the guidance of the CDC and Florida Dept. of Health
- Posted the DOH Link on the Board webpage
- Posted information on each universities COVD-29 response on our webpage https://www.flbog.edu/2020/03/05/university-information-on-covid-19/

Department of Children & Families

AMERICAN OVERSIGHT

- Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage.

Department of Education

- Distributed guidance from the CDC and the Florida Department of Health concerning care and cleaning of schools, returning students from foreign trips, quarantining in college or university dorms.
- Coordinated with pandemic planning activities.
- Participated in statewide call for educational entities.

Department of Elder Affairs

- Provided guidance to Area Agencies on Aging on how to protect clients and staff and no resources have been requested at this time.
- Guidance from the Florida Department of Health and CDC Websites have been provided to all DOEA Staff in an email from the Secretary.
- Provide guidance from the Florida Department of Health's website to Area Agencies on Aging and lead agencies on how to protect clients and staff.
- Added a link to the Florida Department of Health Coronavirus site on the Department of Elder Affairs website page.

Department of Environmental Protection

- Both Florida State Parks and DEP have been sharing DOH and EOG guidance on all social media platforms.
- On March 5, a message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication.
- On March 5, the DOH banner graphic was placed on the DEP website.
- Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment.
- On March 6, DEP provided verbal response guidance and FAQs to Florida State Park field staff and Public Services to prepare for inquiries from the public.
- On March 7, all Florida State Parks and DEP accounts began posting direct content.
- DEP has reviewed the agency's Continuity of Operations Plan's pandemic protocols to make sure it is up- to-date and reflects most recent DOH and CDC guidance.
- DEP continues to coordinate with the Governor's Office and Department of Health on emerging case-specific issues.
- DEP Leadership continues to communicate hand washing and safety protocols.
- Extra hand sanitizing stations have been placed in the Bob Martinez, Douglas and Carr buildings in Tallahassee.
- • On March 5, guidance was sent to all Land and Recreation employees on the appropriate use of disposable gloves and masks as personal protective equipment.
- • DEP's Division of Recreation and Parks continues to evaluate and procure necessary personal protective equipment and sanitation supplies to ensure the health and safety of employees, volunteers and visitors at state parks.

AMERICAN OVERSIGHT

Department of Highway Safety & Motor Vehicles

- Providing to all its employees FDOH and CDC guidance, resources and materials on best practices to prevent illness.
- Created an internal SharePoint webpage where all pertinent FDOH and CDC COVID-19 updates, resources and guidance are being stored for department employees to access.
- Increasing sanitation efforts at its facilities with a focus on high-traffic areas and frequently contacted surfaces, such as elevators, door handles, water fountains, etc.
- Working to ensure it has an adequate supply of sanitation products for its facilities as well as its public-facing personnel, such as driver license office staff and members of the Florida Highway Patrol.
- Exploring the feasibility and technical requirements, should it become necessary, of telework and modified staffing at certain locations.

Department of Law Enforcement

- FDLE Commissioner has distributed a message to FDLE members about COVID19 prevention and precautions.
- Acquiring safety equipment and some PPE equipment.
- Provided legal reference kit to law enforcement statewide (ESF-16)
- Distributed "Law Enforcement Guidance" flyer to agencies statewide (ESF-16)
- Attended meetings with DEM/DOH/FHP and ESF-16 members
- Continue regular meetings with headquarters and state-wide leadership. "

Department of Management Services

- Reached out to multiple vendors for quotes for hand sanitizer and wipes for Supervisor of Elections.
- Searching for buildings that could host affected people in a quarantine type setting. Looking for isolation rooms as well as exploring state parks for camping room settings.
- Ordered and are delivering roughly 300 standing hand sanitizer dispensers and 160 gallons of gel hand sanitizer to facilities.
- Increased daily sanitation efforts of state buildings and distributed guidance to facility managers to increase efforts to sanitize office spaces.
- Contacted several environmental vendors that can be pre-positioned to mobilize in the event of a viricidal cleaning at a state-maintained facility.
- DMS' Division of Retirement Call Center and PeopleFirst Call Center personnel were provided boilerplate messaging to direct callers to DOH COVID-19 webpage or dedicated call center/email for latest updates.
- Human Resource Management provided guidance to HR Directors on leave policies.
- Provided guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits.
- Prepared employee telework guidance and workforce planning information for HR Directors specific to COVID-19.
- Division of State Technology is researching quotes for additional VPN services as needed to support employees teleworking.
- DMS has placed web banners on People First, MFMP, FRS portal, mybenefits.com, myflorida.com, and Travel system websites directing them to the DOH COVID-19 site for official updates.

AMERICAN OVERSIGHT

- Created best practices/preventative guidance to provide to agencies working with landlords in lease-based facilities. Contains list of recommended agency contracts a resource for additional cleaning services. Memo was sent to agency leasing contacts and communication offices.
- The Division of Human Resource Management is finalizing updates to their section of the DOH Pandemic Plan.
- Division public safety personnel continues to coordinate with the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management held a call with Facility Managers to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Email was sent follow-up with resources.
- DMS' Division of Real Estate Development and Management held a call with Capitol facility manager, Sergeant of Arms, and Capitol Police to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Division also held a call with Earley's Kitchen on the same. Email was sent follow-up with resources.

Department of Revenue

- Distributed information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19. "
- Guidance has been posted in public areas of the Department's CCOC building for visitors and meeting attendees in the building"

Department of Transportation

- Hosted call for seaports and airports on COVID-19
- Sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees.

Department of State

- The Florida Department of State has provided guidance and information to all 67 Florida Supervisors of Elections on how to prepare for COVID-19 at their polling locations for the March 17 Presidential Preference Primary.
- The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.

AMERICAN OVERSIGHT

- The Florida Department of State is using its social media platforms to encourage voters who are concerned about COVID-19 to make themselves aware of voting options and ways to protect themselves and their families.
- Social Media Messages-
    - #Florida voters concerned about Coronavirus Disease 2019 (COVID-19) should make themselves aware of ways to protect themselves and their family. Learn more about #COVID19 and ways to prevent the virus using resources from @HealthyFla here: http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of Vote-By-Mail ballots. The deadline to request a vote-by-mail ballot to be mailed to you is Saturday, March 7. More information: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of early voting sites. To see when and where early voting is available in your county visit: https://dos.myflorida.com/media/702721/2020-early-voting-locations-and-times-master-20200302.pdf.
    - Voters exhibiting symptoms of #COVID19 can designate someone to pick up their vote-by-mail ballot for them as late as 7:00 pm on Election Day by filling out affidavits for that designee. More information at: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - I always encourage #Florida voters to be informed about voting and what we are doing to protect their vote; that won't change.
    - I also want to ensure that voters inform themselves about #COVID19 & learn ways to protect themselves & their family. http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html"
- DOS also has an upcoming Supervisor of Elections call scheduled for Thursday, 3/12/20 at 10:00 A.M., in which DEM and DOH have been requested to attend.
- DOS is currently working on our telework policy. We have also increased hand sanitizer and sent an agency-wide communication to our members in order to provide employee guidance related to COVID-19.

Fish and Wildlife Conservation Commission

- Information regarding awareness, precautions, and reporting has been disseminated agency wide.
- Participated in a briefing from the Department of Homeland Security's Senior Medical Officer was shared with ESF-16 partners and FDLE personnel.
- Guidance has been issued for taking appropriate precautions to mitigate risk from COVID-19 agency wide.
- Accounted for all agency issued personal protective equipment.

Volunteer Florida

- Volunteer Florida has passed CDC guidance on COVID-19 to employees and our Florida VOAD Partners"

AMERICAN OVERSIGHT

- "Volunteer Florida conducted an initial meeting with the FLVOAD to discuss additional actions including a FLVOAD call to be conducted this week to ensure all member organizations and partners are aware of CDC guidance. "

Water Management Districts

- Reviewing continuity of operations and telework plans.
- Increasing cleaning and sanitation of failities.

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.
January 30, 2020	• World Health Organization declared the outbreak a public health emergency of international concern.
January 31, 2020	• Public Health Emergency was declared in the U.S. • U.S. government suspended entry of persons posing a risk of transmitting the virus in the U.S. • Distributed update CHD guidance document and health care provider letter with new patient under investigation criteria sent by CDC.
February 5, 2020	• Florida Department of Health began receiving notifications of persons entering Florida from outside the U.S. with potential exposure to monitor during the incubation period. • Conducted update call with Florida Hospital Association partners.
February 6, 2020	• Developed and distributed guidance on CHD implementation of CDCs guidance on risk assessment and monitoring of travelers to county health directors and epidemiologists.
February 12, 2020	• Conducted first Public Health & Healthcare Stakeholders Conference Call.
February 13, 2020	• Expanded activation of Incident Management Team to include Divisions of Disease Control, Bureau of Preparedness and Response, Office of Communications, Office of the Gneral Counsel and Office of County Health Systems.
February 19, 2020	• Conducted briefing with Executive Office of the Governor.
February 20, 2020	• Distributed CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions. • Distributed Long-Term Care Guidance to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions.
February 26, 2020	• Conducted briefing with Executive Office of the Governor. • Activated emergency duty policy to mobilize Department staff as needed to support the incident response.
February 27, 2020	• Distributed Personal Protective Equipment landscape assessment.
February 28, 2020	• Coducted press conference with Governor, Lieutenant Governor, State Surgeon General (SSG) and Deputy Scretary for Health regardign State Response to COVID-19. • Conducted Agency Emergency Coordination Officer Pandemic Preparedness Plannign Meeting in coordination with the Division of Emergency Management.

AMERICAN OVERSIGHT

	• Participated in meeting with Vice President Mike Pence, Gov. Ron DeSantis, Florida Lt. Gov. Jeanette Núñez, the U.S. Surgeon General and the Florida Surgeon General • Publically announced persons under investigation and monitoring numbers.
February 29, 2020	• Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs • Implemented testing at the State Public Health Laboraties.
March 1, 2020	• Presumtive positive cases of residents in Manatee and Hillsborough announced via press release. • Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency. • SSG Rivkees declared a public health emergency for the novel coronavirus in Florida. • Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education. • Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories
March 2, 2020	• DOH public call center for COVID-19 opened. • CDC confirmed two cases of COVID-19. • DOT Secretary Thibault sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees. • DCF's Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage. • DCF General Services staff throughout the state were directed to work with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and ordering more as needed.

DRAFT

AMERICAN OVERSIGHT

March 3, 2020	• Conducted call with Florida Healthcare Association for nursing homes. • Conducted call with Assisted Living Facilities and other residential treatment facilities. • Conducted call with Florida Medical Association • Scheduled twice meeting with county emergency mangement officials in coordination with the Division of Emergency Managemet. • Scheduled State Agency briefing. • Extened call center hours to 8pm EST (7pm CST) • Conducted call with Florida's federal legislative delegation. • DCF initiated status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday. • DCF Secretary Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates. • DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They will be reporting weekly with updates and to ensure compliance with virus prevention.
March 4, 2020	• Participated in the Florida Association of District School Superintendents call with Governor DeSantis, Lt. Governor Nunez, and Commissioner Corcoran. • Conducted weekly conference call with all public health & healthcare stakeholders hosted by the Florida Department of Health. • Conducted conference Call with Florida Hospitals hosted by the Florida Hospital Association. • Sustained healthcare call center. • Activated Joint Information Center with the Division of Emergency Management. • Extended public information call center hours to midnight. • The University Chancellors as well as university staff have participated in various statewide calls hosted by the SERT, including this past Wednesday's call on 03/4/2020 for all superintendents with the Governor and Surgeon General. • A poster detailing preventative actions was sent to Florida's 175 state parks and GTM Research Reserve, Rookery Bay Aquatic Preserve, and Apalachicola National Estuarine Research Reserve.
March 5, 2020	• Announced new presumptive positive case in a Florida resident from Sarasota County. • Requested 1.5 million N-95 masks from the federal stockpile. • Distributed screening guidance to public safety answering points. • Conducted a teleconference for the seaports and public airports. The call was hosted by the Florida Department of Transportation. • Received notification from CDC that Florida has been awarded $500,000 through the Public Health Emergency Response Cooperative Agreement.

AMERICAN OVERSIGHT

	• Secretary Thibault from the Department of Transportation facilitated a conference call with the Governor, Florida Surgeon General to advise on seaports and public use airports regarding COVID-19 efforts. • DCF distributed guidance from Centers for Medicare & Medicaid Services for hospitals and nursing homes was distributed for immediate implementation at both the State-operated and private Mental Health Treatment Facilities. The Chief Medical Officer of Florida State Mental Health Treatment Facilities is in the lead to oversee compliance and provide weekly reporting. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • A message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication. • DOH banner graphic was placed on the DEP website. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
March 6, 2020	• Extended call center hours to Monday – Friday for 24 hours a day. • Identified vendor for shipping container and assessed the supply chain quantities available for future needs. • Continues compiling Alternate Care Site supplies and tactics. • Continue to assess N95 supply chain. • Coordinated with the Florida Poison Control Information Network for transition of COVID-19 information line for long term sustainment. • Continue to pilot strategies including texting and video conferencing for monitoring persons under investigation. • Provided situational update on the Florida Health Care Association conference call. There were 524 call participants. • Participated in a conference call with the members of the Florida Association of Health Plans. • Participated in a conference call with Leading Age. There were 228 participants. • Provided a situational update on the Florida Hospital Association hosted conference call for hospitals. • Conducted a briefing for State Agency Emergency Coordination Officers on COVID-19 response actions and activities other agencies can take to assist with the coordinated statewide response.

AMERICAN OVERSIGHT

March 7, 2020	• Governor did press conference in Fort Lauderdale with Vice President Pence • Activated State Emergency Operations Center and is currently at a level two • Conducted notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Coordinated with AHCA to provide hospital guidance on masks through email blast. • Coordinated group notification to ACTRIMS conference attendees. • Identified resource plan for Alternate Care Site for hospital augmentation • Coordinated with DEM to gain knowledge of PPE resources through other state agencies.
March 8, 2020	• Conducted contingency planning for large scale quarantine for cruise ships. • Continuation of notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • AHCA roll-up information o **Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.** o **Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.** o **Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.** o **Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.**

COVID-19 Daily Talking Points
March 9, 2020

The Florida Department of Health's highest priority at this time is controlling the spread of COVID-19 and ensuring anyone who is likely to spread it is appropriately identified, treated and isolated.

The Department is advising all individuals who have traveled internationally to self-isolate for 14 days following their date of return to the United States.

The Department is urging residents to stay informed on how to protect themselves and their communities from COVID-19.

The Department encourages everyone to seek medical attention and diagnosis if they suspect they have contracted COVID-19 or come into contact with someone who has COVID-19.

The Department's dedicated COVID-19 webpage at www.FloridaHealth.gov/COVID-19 remains the best and most up-to-date resource for information and guidance regarding COVID-19 in Florida.

Governor DeSantis is working closely with state agencies and the Department to monitor, prepare and prevent the spread of this virus.

The Department of Health updates Florida's COVID-19 information page daily. Please visit FloridaHealth.gov/ COVID-19/ for the latest information.

Yesterday, the Department announced one new positive Florida COVID-19 case in Broward County. That individual is isolated and being appropriately cared for.

Florida Residents Diagnosed in Florida				
	County	Age	Sex	Recent History of International Travel
1	Manatee	63	Male	No
2	Hillsborough	29	Female	Yes
3	Santa Rosa	71	Male	Yes
4	Broward	75	Male	No
5	Broward	65	Male	No
6	Lee	77	Female	Yes
7	Lee	77	Male	Yes
8	Charlotte	54	Female	Yes
9	Okaloosa	61	Female	Yes
10	Volusia	66	Female	Yes

AMERICAN OVERSIGHT

11	Manatee	81	Female	Yes
12	Broward	67	Male	No

Below is a complete summary of COVID-19 in Florida:

- 115 tests in state results pending
- 140 negatives
- 18 Florida cases (17 Florida residents)
    - 12 diagnosed in Florida
    - 5 diagnosed and isolated in another state
    - 1 confirmed positive non-Florida resident
- 1,104 people monitored to date
- 302 of 1,104 are currently being monitored

The Florida Department of Health is actively involved in enhanced surveillance for respiratory illness that may be COVID-19. Epidemiologists will follow up on any suspected cases that meet criteria for COVID-19 to arrange for testing when needed and monitor contacts of any confirmed cases, if they occur.

The Department will communicate regularly with the public and health care providers with updates on COVID-19 and other respiratory illnesses.

Everyone plays a part in lowering the impact within our communities and workplaces – taking every day preventative actions helps to impede the spread of respiratory diseases such as COVID-19. Preventative actions include:

- **Washing your hands frequently with soap and water for at least 20 seconds**, especially after going to the bathroom, before eating, and after blowing your nose, coughing or sneezing. If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol.
- **Avoiding close contact** with people who are sick.
- **Staying home when you are sick**. **This message cannot be emphasized enough.**
- Employees who have symptoms of acute respiratory illness are recommended to stay home and not come to work until they are free of fever (100.4° F or greater using an oral thermometer), signs of a fever, and any other symptoms for at least 24 hours, without the use of fever-reducing or other symptom-altering medicines (e.g. cough suppressants). Employees should notify their supervisor and stay home if they are sick.
- **Before traveling take certain steps**:
    - Check the CDC's Traveler's Health Notices for the latest guidance and recommendations for each country to which you will travel.
    - Employees who become sick while traveling must understand that they should notify their supervisor and should promptly call a healthcare provider for advice if needed.

The Department of Health has set up a dedicated COVID-19 Call Center for questions about this virus. Anyone with questions may call **1-(866) 779-6121** or email **COVID-19@flhealth.gov**. **The Call Center is available 24 hours a day, seven days a week.**

AMERICAN OVERSIGHT

If Asked:

"What is the Department doing about the cruise ships near Florida that could be carrying individuals infected with COVID-19?"

-The Department of Health has been notified that two cruise ships off the coast of Miami may have cases of COVID-19.

Although this issue falls under federal jurisdiction, since being notified, DOH has been working closely with the cruise industry, CDC, Coast Guard and other partners to ensure every effort is made to keep the Floridians on board safe, while also protecting Florida residents across the state. Over the coming days, we will continue to work with these partners to provide testing support and resolve this situation as quickly as possible.

"What is the number of patients tested in my county?"

-We appreciate the desire to understand how many Floridians in each community have been tested, received a negative test or are under public health monitoring as a result of suspicion they may have COVID-19 or has been in contact with someone who have COVID-19. Balancing the privacy of the individuals being tested and monitored and the confidentiality of the epidemiological investigations with the responsibility to Floridians to disclose information to protect the public is a vital role of the Florida Department of Health. Due to the nature of a unique virus, such as COVID-19, to share how many people in each community that have been tested or are under public health monitoring could potentially release identifying information, especially in Florida's smaller communities.

As such, in order to protect personally identifiable health information (PHI) of Floridians, the Florida Department of Health is unable to break down the number of individuals who have received a negative test, have pending test results or are under public health monitoring by community.

Floridians can view the aggregate state level information at www.FLHealth.gov/COVID-19. This information is updated daily.

Additionally, the Florida Department of Health is encouraging all Floridians to be aware. Floridians should practice good hand hygiene and wash their hands with soap and water for a minimum of 20 seconds, use a tissue when they sneeze or cough and immediately dispose of it in the trash and stay home if they are sick."

TALLAHASSEE — The Florida Department of Health is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware about the status of the virus, the Department is issuing regular updates as information becomes available.

International Travel Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to self-isolate for 14 days following their date of return to the United States.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled on a river cruise on the Nile River in Egypt in February 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with coronavirus disease 2019 (COVID-19), including two positive cases in Florida.

COVID-19 Cases

Additional Positive Cases Linked to Florida:

- 1 non-Florida resident
- 5 diagnosed and isolated in another state

COVID-19 Testing Results

- 18 Florida cases (17 Florida residents)
    - 12 diagnosed in Florida
    - 5 diagnosed and isolated in another state
    - 1 confirmed positive non-Florida resident
- 115 tests in state results pending
- 140 negatives
- 1,104 people monitored to date
- 302 of 1,104 are currently being monitored

[HOLD FOR NEW CASE DETAILS]

People who have tested positive for COVID-19 will remain in isolation until they test negative.

COVID Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov**.

Department Activities

- Governor Ron DeSantis issued an Executive Order directing the State Surgeon General to declare a public health emergency.
- State Surgeon General Dr. Scott Rivkees declared a public health emergency for the novel coronavirus in Florida.

AMERICAN OVERSIGHT

- Established an incident management team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls. Calls are scheduled for each Wednesday at 2:00 EST.
- Established a public call-center for questions regarding COVID-19.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes, are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;

AMERICAN OVERSIGHT

- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local county health department (CHD) and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the county health department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Monday, March 9, 2020 at 11 p.m.

CASES TO DATE

- 397 persons under investigation
- 222 negatives
- 20 total cases reported
    - 19 in Florida residents
        - 14 diagnosed in Florida
        - 5 diagnosed and isolated in another state
    - 1 confirmed positive (non-Florida resident)
- 2 deaths
- 155 tests in state results pending
- 1161 people monitored to date
- 319 of that 1161 are currently being monitored

New cases in Volusia and Broward county identified today.

Call Center hotline hours are 24 hours a day, seven days a week

CURRENT OPERATIONAL OBJECTIVES

1. **Contain the spread of the virus in Florida** through rapid identification and isolation of suspect cases, active monitoring and limited movement of travelers with increased risks during the incubation period.
2. **Implement laboratory testing** capability in Florida public health laboratories.
3. **Provide guidance and information to healthcare providers** in Florida regarding reporting suspect cases, infection control procedures, and clinical care.
4. **Disseminate coordinated public health messaging** to the public, healthcare stakeholders and partner agencies.
5. **Support county health department (CHD) operations** for epidemiological investigations, monitoring, public messaging and preparedness through resources, staffing and technical guidance.
6. **Prepare for the possibility that coronavirus becomes a global pandemic** by ensuring plans, resources and capabilities are in place to respond to a widespread outbreak and lessen the impacts on communities in Florida.
7. Monitor Florida hospitals for increased patient volume and support **strategies for medical surge.**

DRAFT

AMERICAN OVERSIGHT

KEY ACTIVITIES

Department of Health

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Activated Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.
- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.
- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:

AMERICAN OVERSIGHT

    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.
- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

DRAFT

AMERICAN OVERSIGHT

Agency for Health Care Administration

- Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Tuesday, March 3, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for assisted living facilities, intermediate care facilities, Agency for Persons with Disabilities (APD) group homes and adult family care homes on Tuesday, March 3, with nearly 1500 participants. Secretary Mayhew, Surgeon General Rivkees and APD Director Palmer addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for hospitals in conjunction with the Florida Hospital Association on Wednesday, March 4, with 84 locations participating. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting Florida hospitals.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Friday, March 6, with 524 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as a newly developed visitor screening toolkit and recent memos from the Centers for Medicare and Medicare Services.
- Hosted a statewide call for hospitals in conjunction with LeadingAge Florida and the Florida Life Care Residents Association on Friday, March 6, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting senior populations and nursing homes.
- Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
- Sent an e-blast on CDC infection prevention and control guidelines to hospitals across the state.

Agency for Persons with Disabilities

- Distributed DOH and CDC guidance to Florida Association of Rehabilitative Services, Arc of Florida, Family Care Council of Florida and Florida Developmental Disabilities Council.
- Added COVID-19 information to APD website.

Board of Governors for the State University System

- Participate in multiple statewide calls for situational awareness.
- The Chancellors Office has advised our 12 state university partners to continue to follow the guidance of the CDC and Florida Dept. of Health
- Posted the DOH Link on the Board webpage
- Posted information on each universities COVD-29 response on our webpage https://www.flbog.edu/2020/03/05/university-information-on-covid-19/

AMERICAN OVERSIGHT

Department of Agriculture and Consumer Services

- Press Conference on Gas Pump Skimmers & Coronavirus with Deputy Commissioner Mary Barzee Flores.
- Communique about Guidance on COVID-19 Food Safety for Consumers, Food Establishments

Department of Children & Families

- Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage.
- Provided update to DCF Leadership and Communications team on International Travel amplifying Department of Health messaging applying guidance to persons who have travelled anywhere internationally or on a cruise.

Department of Citrus

- Memo sent to staff on March 5th, 2020
- Availability to telework for sick individuals

Department of Corrections

- Hosted conference calls with institutional and community corrections regional leadership to discuss COVID-19:
- Reiterated the importance of personal hygiene best practices and enhanced cleaning efforts
- Actively monitoring staff for symptoms as well as proactively send inmates to medical for assessment.

Department of Education

- Distributed guidance from the CDC and the Florida Department of Health concerning care and cleaning of schools, returning students from foreign trips, quarantining in college or university dorms.
- Coordinated with pandemic planning activities.
- Participated in statewide call for educational entities.
- Distributed the Policy for Diagnostic Testing to the Board of Governors.

Department of Elder Affairs

- Provided guidance to Area Agencies on Aging on how to protect clients and staff and no resources have been requested at this time.
- Guidance from the Florida Department of Health and CDC Websites have been provided to all DOEA Staff in an email from the Secretary.
- Provide guidance from the Florida Department of Health's website to Area Agencies on Aging and lead agencies on how to protect clients and staff.
- Added a link to the Florida Department of Health Coronavirus site on the Department of Elder Affairs website page.
- Pushed out messaging on social media focused toward caregivers and family, urging them to think about COVID-19 before visiting seniors or elderly loved ones

AMERICAN OVERSIGHT

- Provide guidance from the Florida Department of Health's website to Statewide CARES offices, Area Agencies on Aging and lead agencies on how to protect clients and staff

Department of Environmental Protection

- Both Florida State Parks and DEP have been sharing DOH and EOG guidance on all social media platforms.
- On March 5, a message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication.
- On March 5, the DOH banner graphic was placed on the DEP website.
- Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment.
- On March 6, DEP provided verbal response guidance and FAQs to Florida State Park field staff and Public Services to prepare for inquiries from the public.
- On March 7, all Florida State Parks and DEP accounts began posting direct content.
- DEP has reviewed the agency's Continuity of Operations Plan's pandemic protocols to make sure it is up- to-date and reflects most recent DOH and CDC guidance.
- DEP continues to coordinate with the Governor's Office and Department of Health on emerging case-specific issues.
- DEP Leadership continues to communicate hand washing and safety protocols.
- Extra hand sanitizing stations have been placed in the Bob Martinez, Douglas and Carr buildings in Tallahassee.
- On March 5, guidance was sent to all Land and Recreation employees on the appropriate use of disposable gloves and masks as personal protective equipment.
- DEP's Division of Recreation and Parks continues to evaluate and procure necessary personal protective equipment and sanitation supplies to ensure the health and safety of employees, volunteers and visitors at state parks.
- On March 9, Florida State Parks and DEP social accounts posted health and safety tips to social media channels.
- On March 9, all Florida State Parks and DEP social media accounts began sharing Department of Elder Affairs social content and continues to share real-time EOG and DOH guidance on social channels.

Department of Highway Safety & Motor Vehicles

- Providing to all its employees FDOH and CDC guidance, resources and materials on best practices to prevent illness.
- Created an internal SharePoint webpage where all pertinent FDOH and CDC COVID-19 updates, resources and guidance are being stored for department employees to access.
- Increasing sanitation efforts at its facilities with a focus on high-traffic areas and frequently contacted surfaces, such as elevators, door handles, water fountains, etc.
- Working to ensure it has an adequate supply of sanitation products for its facilities as well as its public-facing personnel, such as driver license office staff and members of the Florida Highway Patrol.
- Exploring the feasibility and technical requirements, should it become necessary, of telework and modified staffing at certain locations.
- Updated its Pandemic annex for the department's Continuity of Operation Plan.

AMERICAN OVERSIGHT

- FHP has provided FDLE COVID-19 Florida Law Enforcement Guide and FDOH Public Safety Answering Points guidance to all FHP personnel.

Department of Juvenile Justice

- Juvenile Justice's Office of Health Services is developing a protocol and messaging, including a process matrix, for each of our programs' designated health authorities and medical staff on what to do if a youth is suspected to have contracted COVID-19.
- Staff at our residential commitment programs and detention centers are reaching out to their local health departments to ensure a clear line of communication and what the process will be if a youth is suspected to have contracted COVID-19.
- Evaluating visitation policy and procedures to determine necessary screening measures to ensure both the safety of the youth and staff in our programs and uninterrupted visitation schedules.
- DJJ will begin to review and modify if necessary our continuity of operations planning (COOP) in response to COVID-19.
- Evaluating procedures and any necessary precautions related to youth taken into custody by law enforcement who are brought to our juvenile assessment centers.

Department of Law Enforcement

- FDLE Commissioner has distributed a message to FDLE members about COVID19 prevention and precautions.
- Acquiring safety equipment and some PPE equipment.
- Provided legal reference kit to law enforcement statewide (ESF-16)
- Distributed "Law Enforcement Guidance" flyer to agencies statewide (ESF-16)
- Attended meetings with DEM/DOH/FHP and ESF-16 members
- Continue regular meetings with headquarters and state-wide leadership. "
- Reviewing COOP and expanded modified staffing opportunities
- FDLE has attended National Governor's Association / Homeland Security Administration / Center for Disease Control conference calls
- RDSTF meetings

Department of Management Services

- Reached out to multiple vendors for quotes for hand sanitizer and wipes for Supervisor of Elections.
- Searching for buildings that could host affected people in a quarantine type setting. Looking for isolation rooms as well as exploring state parks for camping room settings.
- Ordered and are delivering roughly 300 standing hand sanitizer dispensers and 160 gallons of gel hand sanitizer to facilities.
- Increased daily sanitation efforts of state buildings and distributed guidance to facility managers to increase efforts to sanitize office spaces.
- Contacted several environmental vendors that can be pre-positioned to mobilize in the event of a viricidal cleaning at a state-maintained facility.
- DMS' Division of Retirement Call Center and PeopleFirst Call Center personnel were provided boilerplate messaging to direct callers to DOH COVID-19 webpage or dedicated call center/email for latest updates.
- Human Resource Management provided guidance to HR Directors on leave policies.

AMERICAN OVERSIGHT

- Provided guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits.
- Prepared employee telework guidance and workforce planning information for HR Directors specific to COVID-19.
- Division of State Technology is researching quotes for additional VPN services as needed to support employees teleworking.
- DMS has placed web banners on People First, MFMP, FRS portal, mybenefits.com, myflorida.com, and Travel system websites directing them to the DOH COVID-19 site for official updates.
- Created best practices/preventative guidance to provide to agencies working with landlords in lease-based facilities. Contains list of recommended agency contracts a resource for additional cleaning services. Memo was sent to agency leasing contacts and communication offices.
- The Division of Human Resource Management is finalizing updates to their section of the DOH Pandemic Plan.
- Division public safety personnel continues to coordinate with the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management held a call with Facility Managers to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Email was sent follow-up with resources.
- DMS' Division of Real Estate Development and Management held a call with Capitol facility manager, Sergeant of Arms, and Capitol Police to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Division also held a call with Earley's Kitchen on the same. Email was sent follow-up with resources.

Department of Revenue

- Distributed information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19. "
- Guidance has been posted in public areas of the Department's CCOC building for visitors and meeting attendees in the building"

Department of Transportation

- Hosted call for seaports and airports on COVID-19
- Sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees.

AMERICAN OVERSIGHT

- Beginning on Tuesday, 10 March 2020, FDOT is hosting two weekly teleconferences, one with passenger seaports and the other with public use airports, to provide a briefing and take questions.
- Secretary Thibault facilitated a conference call on Thursday, 05 March 2020 with Governor DeSantis and State Surgeon General Rivkees to advise seaports and public use airports regarding COVID-19 efforts.

Department of State

- The Florida Department of State has provided guidance and information to all 67 Florida Supervisors of Elections on how to prepare for COVID-19 at their polling locations for the March 17 Presidential Preference Primary.
- The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
- The Florida Department of State is using its social media platforms to encourage voters who are concerned about COVID-19 to make themselves aware of voting options and ways to protect themselves and their families.
- Social Media Messages-
    - #Florida voters concerned about Coronavirus Disease 2019 (COVID-19) should make themselves aware of ways to protect themselves and their family. Learn more about #COVID19 and ways to prevent the virus using resources from @HealthyFla here: http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of Vote-By-Mail ballots. The deadline to request a vote-by-mail ballot to be mailed to you is Saturday, March 7. More information: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of early voting sites. To see when and where early voting is available in your county visit: https://dos.myflorida.com/media/702721/2020-early-voting-locations-and-times-master-20200302.pdf.
    - Voters exhibiting symptoms of #COVID19 can designate someone to pick up their vote-by-mail ballot for them as late as 7:00 pm on Election Day by filling out affidavits for that designee. More information at: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - I always encourage #Florida voters to be informed about voting and what we are doing to protect their vote; that won't change.
    - I also want to ensure that voters inform themselves about #COVID19 & learn ways to protect themselves & their family. http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html"
- DOS also has an upcoming Supervisor of Elections call scheduled for Thursday, 3/12/20 at 10:00 A.M., in which DEM and DOH have been requested to attend.
- DOS is currently working on our telework policy. We have also increased hand sanitizer and sent an agency-wide communication to our members in order to provide employee guidance related to COVID-19.

AMERICAN OVERSIGHT

Fish and Wildlife Conservation Commission

- Information regarding awareness, precautions, and reporting has been disseminated agency wide.
- Participated in a briefing from the Department of Homeland Security's Senior Medical Officer was shared with ESF-16 partners and FDLE personnel.
- Guidance has been issued for taking appropriate precautions to mitigate risk from COVID-19 agency wide.
- Accounted for all agency issued personal protective equipment.

Volunteer Florida

- Volunteer Florida has passed CDC guidance on COVID-19 to employees and our Florida VOAD Partners"
- "Volunteer Florida conducted an initial meeting with the FLVOAD to discuss additional actions including a FLVOAD call to be conducted this week to ensure all member organizations and partners are aware of CDC guidance. "

Water Management Districts

- Reviewing continuity of operations and telework plans.
- Increasing cleaning and sanitation of failities.

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.
January 30, 2020	• World Health Organization declared the outbreak a public health emergency of international concern.
January 31, 2020	• Public Health Emergency was declared in the U.S. • U.S. government suspended entry of persons posing a risk of transmitting the virus in the U.S. • Distributed update CHD guidance document and health care provider letter with new patient under investigation criteria sent by CDC.
February 5, 2020	• Florida Department of Health began receiving notifications of persons entering Florida from outside the U.S. with potential exposure to monitor during the incubation period. • Conducted update call with Florida Hospital Association partners.
February 6, 2020	• Developed and distributed guidance on CHD implementation of CDCs guidance on risk assessment and monitoring of travelers to county health directors and epidemiologists.
February 12, 2020	• Conducted first Public Health & Healthcare Stakeholders Conference Call.
February 13, 2020	• Expanded activation of Incident Management Team to include Divisions of Disease Control, Bureau of Preparedness and Response, Office of Communications, Office of the Gneral Counsel and Office of County Health Systems.
February 19, 2020	• Conducted briefing with Executive Office of the Governor.
February 20, 2020	• Distributed CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions. • Distributed Long-Term Care Guidance to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions.
February 26, 2020	• Conducted briefing with Executive Office of the Governor. • Activated emergency duty policy to mobilize Department staff as needed to support the incident response.
February 27, 2020	• Distributed Personal Protective Equipment landscape assessment.
February 28, 2020	• Coducted press conference with Governor, Lieutenant Governor, State Surgeon General (SSG) and Deputy Scretary for Health regardign State Response to COVID-19. • Conducted Agency Emergency Coordination Officer Pandemic Preparedness Plannign Meeting in coordination with the Division of Emergency Management.

AMERICAN OVERSIGHT

	• Participated in meeting with Vice President Mike Pence, Gov. Ron DeSantis, Florida Lt. Gov. Jeanette Núñez, the U.S. Surgeon General and the Florida Surgeon General • Publically announced persons under investigation and monitoring numbers.
February 29, 2020	• Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs • Implemented testing at the State Public Health Laboraties.
March 1, 2020	• Presumtive positive cases of residents in Manatee and Hillsborough announced via press release. • Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency. • SSG Rivkees declared a public health emergency for the novel coronavirus in Florida. • Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education. • Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories
March 2, 2020	• DOH public call center for COVID-19 opened. • CDC confirmed two cases of COVID-19. • DOT Secretary Thibault sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees. • DCF's Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage. • DCF General Services staff throughout the state were directed to work with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and ordering more as needed.

DRAFT

AMERICAN OVERSIGHT

March 3, 2020	• Conducted call with Florida Healthcare Association for nursing homes. • Conducted call with Assisted Living Facilities and other residential treatment facilities. • Conducted call with Florida Medical Association • Scheduled twice meeting with county emergency mangement officials in coordination with the Division of Emergency Managemet. • Scheduled State Agency briefing. • Extened call center hours to 8pm EST (7pm CST) • Conducted call with Florida's federal legislative delegation. • DCF initiated status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday. • DCF Secretary Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates. • DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They will be reporting weekly with updates and to ensure compliance with virus prevention.
March 4, 2020	• Participated in the Florida Association of District School Superintendents call with Governor DeSantis, Lt. Governor Nunez, and Commissioner Corcoran. • Conducted weekly conference call with all public health & healthcare stakeholders hosted by the Florida Department of Health. • Conducted conference Call with Florida Hospitals hosted by the Florida Hospital Association. • Sustained healthcare call center. • Activated Joint Information Center with the Division of Emergency Management. • Extended public information call center hours to midnight. • The University Chancellors as well as university staff have participated in various statewide calls hosted by the SERT, including this past Wednesday's call on 03/4/2020 for all superintendents with the Governor and Surgeon General. • A poster detailing preventative actions was sent to Florida's 175 state parks and GTM Research Reserve, Rookery Bay Aquatic Preserve, and Apalachicola National Estuarine Research Reserve.
March 5, 2020	• Announced new presumptive positive case in a Florida resident from Sarasota County. • Requested 1.5 million N-95 masks from the federal stockpile. • Distributed screening guidance to public safety answering points. • Conducted a teleconference for the seaports and public airports. The call was hosted by the Florida Department of Transportation. • Received notification from CDC that Florida has been awarded $500,000 through the Public Health Emergency Response Cooperative Agreement.

DRAFT

AMERICAN OVERSIGHT

	• Secretary Thibault from the Department of Transportation facilitated a conference call with the Governor, Florida Surgeon General to advise on seaports and public use airports regarding COVID-19 efforts. • DCF distributed guidance from Centers for Medicare & Medicaid Services for hospitals and nursing homes was distributed for immediate implementation at both the State-operated and private Mental Health Treatment Facilities. The Chief Medical Officer of Florida State Mental Health Treatment Facilities is in the lead to oversee compliance and provide weekly reporting. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • A message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication. • DOH banner graphic was placed on the DEP website. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
March 6, 2020	• Extended call center hours to Monday – Friday for 24 hours a day. • Identified vendor for shipping container and assessed the supply chain quantities available for future needs. • Continues compiling Alternate Care Site supplies and tactics. • Continue to assess N95 supply chain. • Coordinated with the Florida Poison Control Information Network for transition of COVID-19 information line for long term sustainment. • Continue to pilot strategies including texting and video conferencing for monitoring persons under investigation. • Provided situational update on the Florida Health Care Association conference call. There were 524 call participants. • Participated in a conference call with the members of the Florida Association of Health Plans. • Participated in a conference call with Leading Age. There were 228 participants. • Provided a situational update on the Florida Hospital Association hosted conference call for hospitals. • Conducted a briefing for State Agency Emergency Coordination Officers on COVID-19 response actions and activities other agencies can take to assist with the coordinated statewide response.

AMERICAN OVERSIGHT

March 7, 2020	• Governor did press conference in Fort Lauderdale with Vice President Pence • Activated State Emergency Operations Center and is currently at a level two • Conducted notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Coordinated with AHCA to provide hospital guidance on masks through email blast. • Coordinated group notification to ACTRIMS conference attendees. • Identified resource plan for Alternate Care Site for hospital augmentation • Coordinated with DEM to gain knowledge of PPE resources through other state agencies.
March 8, 2020	• Conducted contingency planning for large scale quarantine for cruise ships. • Continuation of notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates. • Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices. • Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7. • Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
March 9, 2020	• Governor conducted press conference with agency heads to provide an update to the public on the state's response • Attended Community Health Center call • Conducted county call with all case counties • Updated the testing algorithm • Provided guidance to county health departments on public safety answering points • Conducted call for the Congressional Delegation • Conducted call the Florida State Legislature • Provided coordination for seaports call

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Thursday, March 12, 2020 at 11:00 p.m.

CASES TO DATE

- 750 persons under investigation
- 478 negatives
- 51 total cases reported
    - 45 in Florida residents
        - 40 diagnosed in Florida
        - 5 diagnosed and isolated in another state
    - 6 confirmed positive (non-Florida resident)
- 2 deaths
- 221 tests in state results pending
- 1413 people monitored to date
- 365 of that 1413 are currently being monitored

Of the 17 new cases identified today (4) were in Broward, (2) Palm Beach, (1) Lee, (1) Miami-Dade, Seminole (1), Alachua (1), Duval (1), Volusia (1), Clay (1), Hillsborough (1) and (3) out-of-state residents.

****** THERE IS A DELAY IN PRIVATE LAB TESTING BEING INCORPORATED INTO OFFICIAL REPORTING SYSTEMS*****

Call Center hotline hours are 24 hours a day, seven days a week

KEY ACTIVITIES

Department of Health

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.

AMERICAN OVERSIGHT

- Activated Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.
- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.
- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:
    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education

AMERICAN OVERSIGHT

    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.
- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

Agency for Health Care Administration

- Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Tuesday, March 3, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for assisted living facilities, intermediate care facilities, Agency for Persons with Disabilities (APD) group homes and adult family care homes on Tuesday, March 3, with nearly 1500 participants. Secretary Mayhew, Surgeon General Rivkees and APD Director Palmer addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for hospitals in conjunction with the Florida Hospital Association on Wednesday, March 4, with 84 locations participating. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting Florida hospitals.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Friday, March 6, with 524 participants. Secretary Mayhew and Surgeon General

AMERICAN OVERSIGHT

Rivkees addressed critical issues impacting these providers such as a newly developed visitor screening toolkit and recent memos from the Centers for Medicare and Medicare Services.

- Hosted a statewide call for hospitals in conjunction with LeadingAge Florida and the Florida Life Care Residents Association on Friday, March 6, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting senior populations and nursing homes.
- Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
- Sent an e-blast on CDC infection prevention and control guidelines to hospitals across the state.
- AHCA Secretary Mayhew is visiting nursing homes and hospital facilities in Jacksonville and Orlando today to discuss COVID-19 preparations and response and respond to any concerns and questions from local partners.
- Verified ESS data dashboards is in production
- Shared contact e-mail with local health department for communication to providers (AHCA asked to be copied on communication)
- Allowed for early refills of prescription drugs in Medicaid
- Provided guidance to Medicaid health plans on coding and billing for COVID-19
- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- Sent Policy Transmittal (PT 2020-12) to all SMMC health plans on guidance on how to proceed with provision of Medicaid services in accordance with Governor DeSantis's Executive Order Number 20-52
- Sent e-blast regarding CMS guidance on Emergency Medical Treatment and Labor Act (EMTALA) Requirements and Implications
- Sent e-blast regarding CMS guidance for Home Health Agencies
- Sent e-blast regarding CMS guidance for Hospice Agencies
- Sent e-blast regarding CMS guidance for Dialysis Facilities
- Sent e-blast regarding CMS guidance for use of Certain Industrial Respirators by Health Care Personnel

Agency for Persons with Disabilities

- Distributed DOH and CDC guidance to Florida Association of Rehabilitative Services, Arc of Florida, Family Care Council of Florida and Florida Developmental Disabilities Council.
- Added COVID-19 information to APD website.
- Visitor Screening Criteria has been implemented at APD-owned facilities in Marianna and Gainesville
- Agency is developing visitor questionnaires for Adult Day Training facilities and group homes
- Examining telework capacity/ability
- Meeting with AHCA regarding rule waivers/exemptions for APD clients living in residential facilities
- Working to procure cleaning supplies and/or services for APD buildings.

AMERICAN OVERSIGHT

- Facility in Gainesville has cancelled community events on campus and is cancelling large trips for residents going off-site.
- Started twice-weekly conferences with the Superintendents of APD-owned facilities to discuss coronavirus updates and needs.
- Forensic Facility in Chattahoochee needs guidance on admitting individuals who have been court-ordered to reside at this facility.
- APD has issued an advisory to all group home providers & owners and all Adult Day Training facilities regarding Emergency Order 20-002
- APD is reviewing its own rules, policies and procedures for potential wavers needed
- APD has established daily meetings with its executive management and incident management team
- APD is developing reporting tools for employees and clients who are isolated or quarantined
- APD's forensic Facility in Chattahoochee needs guidance on admitting individuals across the state who have been court-ordered to reside at this facility.

Board of Governors for the State University System

- Participate in multiple statewide calls for situational awareness.
- The Chancellors Office has advised our 12 state university partners to continue to follow the guidance of the CDC and Florida Dept. of Health
- Posted the DOH Link on the Board webpage
- Posted information on each universities COVD-29 response on our webpage https://www.flbog.edu/2020/03/05/university-information-on-covid-19/

Department of Agriculture and Consumer Services

- Press Conference on Gas Pump Skimmers & Coronavirus with Deputy Commissioner Mary Barzee Flores.
- Communique about Guidance on COVID-19 Food Safety for Consumers, Food Establishments
- Provided food establishments, Florida Retail Federation and Petroleum Marketers Association (convenience stores) with an email blast regarding shopping cart sanitation and sharing, and providing hand sanitizer.
- Uploaded WHO Technical Guidance information to WebEOC
- Coordination call with UF College of Veterinary Medicine, DOH State Public Health Veterinarian, 3/12/20

Department of Business and Professional Regulation

- Incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices.
- Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises

Department of Children & Families

AMERICAN OVERSIGHT

- Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage.
- Provided update to DCF Leadership and Communications team on International Travel amplifying Department of Health messaging applying guidance to persons who have travelled anywhere internationally or on a cruise.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- On March 11, Guidance and preventative measures, including screening questions, was sent statewide to Adult Protective Services staff

Department of Citrus

- Memo sent to staff on March 5th, 2020
- Availability to telework for sick individuals

Department of Corrections

- Hosted conference calls with institutional and community corrections regional leadership to discuss COVID-19:
- Reiterated the importance of personal hygiene best practices and enhanced cleaning efforts
- Actively monitoring staff for symptoms as well as proactively send inmates to medical for assessment.
- All wardens and community corrections leaders have been in contact with their local health department to make sure open lines of communications exist in the event of a potential case in their area.
- Private prison partners have aligned their response to COVID-19 to the Department's response
- Medical services contractor, Centurion, was directed to allow inmates initiating a medical visit due to symptoms relating to a potential communicable disease, such as influenza, not be charged a co-payment.
- Institutional medical staff have been instructed to notify DOH if a single inmate presents with symptoms, discontinuing the former procedure of cluster reporting.
- Centurion will stage a minimum of 25 PPE's at each facility; supplies should be delivered Friday, March 13th. Excess supplies will be staged at the regional offices for redistribution as needed. Access to additional supplies is being coordinated through CDC, should this become necessary.
- H/R is drafting an essential staffing message as it relates to CDC/DOH "Stop the Spread" campaign.
- Office of Institutions staff participated in a webinar with the American Correctional Association (ACA) titled "Coronavirus COVID-19: Impact on Corrections."
- Considering canceling visitation and volunteer programs at institutions with highest risk populations.
- Considering relaxing the entry and exit procedure as it relates to alcohol-based hand sanitizer for individual staff.
- Considering suspending recruitment events at public locations.

DRAFT

AMERICAN OVERSIGHT

- Informed visitors and volunteers if you are feeling sick with a fever, persistent cough, or find it difficult to breathe – please do not enter a correctional institution.
- Restrict inmate transfers to mission critical needs
- New commitments will remain at reception centers at least 14-days prior to transfer. quarantine dorm at reception centers for.
- Initiating screening process.
- Staff are temporarily permitted to enter secured perimeters with alcohol-based hand sanitizer.
- Tracking staff who report flu-like symptoms and their work availability.
- Established a trigger matrix for presumptive positive & positive COVID-19 inmates.
- Verify Staff who have VPN Access
- Suspended visitation for 30-days and initiated active screening process at all entrance/exit points.
- Drafting communication to inmate population about visitation cancelation.
- Procurement: Review with vendors J-pay credits and free Securus minutes is visitation if suspended.
- OIT: Coordinate emergency alternative for visitor services call center.
- Considering expanding the institutional restrictions to include volunteer programs, community work squads.
- Communications: Expand inmate tracking graphic to include how many inmates were referred to DOH and how many were tested for COVID-19.

Department of Education

- Distributed guidance from the CDC and the Florida Department of Health concerning care and cleaning of schools, returning students from foreign trips, quarantining in college or university dorms.
- Coordinated with pandemic planning activities.
- Participated in statewide call for educational entities.
- Distributed the Policy for Diagnostic Testing to the Board of Governors.
- 11:00 AM – Superintendents call regarding emergency workflows and concerns (Commissioner and DOE Leadership involved)
- Santa Fe College is requesting hand sanitizer due to vendor indicating their request is on back order. Request has been provided to ESF 6.
- Closures
    - Hillsborough County - Farnell Middle School will be closed Thursday and Friday.
    - Okaloosa County - Rocky Bayou Christian School's campuses in Niceville and Crestview will be closed for March 9 - March 23.
    - College of the Florida Keys is closing for 21 days following spring break

Department of Elder Affairs

- Provided guidance to Area Agencies on Aging on how to protect clients and staff and no resources have been requested at this time.
- Guidance from the Florida Department of Health and CDC Websites have been provided to all DOEA Staff in an email from the Secretary.
- Provide guidance from the Florida Department of Health's website to Area Agencies on Aging and lead agencies on how to protect clients and staff.

AMERICAN OVERSIGHT

- Added a link to the Florida Department of Health Coronavirus site on the Department of Elder Affairs website page.
- Pushed out messaging on social media focused toward caregivers and family, urging them to think about COVID-19 before visiting seniors or elderly loved ones
- Provide guidance from the Florida Department of Health's website to Statewide CARES offices, Area Agencies on Aging and lead agencies on how to protect clients and staff
- Meetings with the Statewide Cares offices, Area Agencies on Aging, Directors, ECO's and Alternate to discuss any needs. We will continue to have this 2-3 times a week or as needed if the event elevates.

Department of Environmental Protection

- Both Florida State Parks and DEP have been sharing DOH and EOG guidance on all social media platforms.
- On March 5, a message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication.
- On March 5, the DOH banner graphic was placed on the DEP website.
- Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment.
- On March 6, DEP provided verbal response guidance and FAQs to Florida State Park field staff and Public Services to prepare for inquiries from the public.
- On March 7, all Florida State Parks and DEP accounts began posting direct content.
- DEP has reviewed the agency's Continuity of Operations Plan's pandemic protocols to make sure it is up- to-date and reflects most recent DOH and CDC guidance.
- DEP continues to coordinate with the Governor's Office and Department of Health on emerging case-specific issues.
- DEP Leadership continues to communicate hand washing and safety protocols.
- Extra hand sanitizing stations have been placed in the Bob Martinez, Douglas and Carr buildings in Tallahassee.
- On March 5, guidance was sent to all Land and Recreation employees on the appropriate use of disposable gloves and masks as personal protective equipment.
- DEP's Division of Recreation and Parks continues to evaluate and procure necessary personal protective equipment and sanitation supplies to ensure the health and safety of employees, volunteers and visitors at state parks.
- On March 9, Florida State Parks and DEP social accounts posted health and safety tips to social media channels.
- On March 9, all Florida State Parks and DEP social media accounts began sharing Department of Elder Affairs social content and continues to share real-time EOG and DOH guidance on social channels.
- Deputy Secretary Adam Blalock sent an email to Ecosystems Recreation staff regarding the use of disposable gloves and masks as personal protective equipment at aquatic preserves and National Estuarine Research Reserves. The message includes resources for DOH and CDC guidance to be posted at sites for visitors and employees.
- A press release is expected to be distributed informing the public that the Blue-Green Algae Task Force meeting will be postponed. This will be issued upon receipt of the pending DMS guidance.

AMERICAN OVERSIGHT

- DEP is evaluating events and travel within the next 30 days, based on pending DMS guidance to determine if cancellations or rescheduling is required.
- DEP's South District placed DOH precaution sheets in all bathrooms.
- DEP's Southeast District sent an internal message to all staff this morning reminding them: to familiarize themselves with the resources the District has made available to them, the importance of taking preventative measures, and the availability of hand sanitizing stations throughout the District Office.

Department of Financial Services and Office of Financial Regulation

- OFR - prepared draft proclamations for external stakeholders on proper notice to the Office regarding office closures of financial institutions
- Authorized purchase of hand sanitizer and disinfecting wipes for all offices
- Informed employees of proper procedures for workspace cleanliness/mitigation of spread of illnesses
- Monitoring guidance from DMS regarding office closures; annual leave, sick leave, admin. Leave policies
- Pulling back on out-of-state travel and minimizing in-state travel for employees
- Social distancing

Department of Highway Safety & Motor Vehicles

- Providing to all its employees FDOH and CDC guidance, resources and materials on best practices to prevent illness.
- Created an internal SharePoint webpage where all pertinent FDOH and CDC COVID-19 updates, resources and guidance are being stored for department employees to access.
- Increasing sanitation efforts at its facilities with a focus on high-traffic areas and frequently contacted surfaces, such as elevators, door handles, water fountains, etc.
- Working to ensure it has an adequate supply of sanitation products for its facilities as well as its public-facing personnel, such as driver license office staff and members of the Florida Highway Patrol.
- Exploring the feasibility and technical requirements, should it become necessary, of telework and modified staffing at certain locations.
- Updated its Pandemic annex for the department's Continuity of Operation Plan.
- FHP has provided FDLE COVID-19 Florida Law Enforcement Guide and FDOH Public Safety Answering Points guidance to all FHP personnel.

Department of Juvenile Justice

- Juvenile Justice's Office of Health Services is developing a protocol and messaging, including a process matrix, for each of our programs' designated health authorities and medical staff on what to do if a youth is suspected to have contracted COVID-19.
- Staff at our residential commitment programs and detention centers are reaching out to their local health departments to ensure a clear line of communication and what the process will be if a youth is suspected to have contracted COVID-19.
- Evaluating visitation policy and procedures to determine necessary screening measures to ensure both the safety of the youth and staff in our programs and uninterrupted visitation schedules.

AMERICAN OVERSIGHT

- DJJ will begin to review and modify if necessary our continuity of operations planning (COOP) in response to COVID-19.
- Evaluating procedures and any necessary precautions related to youth taken into custody by law enforcement who are brought to our juvenile assessment centers.
- Visitor sign translated in Spanish to post at the entrance in their offices, centers and facilities
- Provided to our law enforcement partners statewide our modified screening protocols and procedures for youth taken into custody at Juvenile Assessment Centers (JAC) and Detention Screening Units (DSU). DJJ Secretary and leadership team held conference calls with the following entities to discuss our COVID-19 protocols: Detention Regional Directors and Superintendents; Residential Regional Directors and Residential Contracted Provider CEOs; and Probation Regional Directors and Probation Contracted Providers including the Florida Network, Children-in Need of Services/Families-in-Need of Services (CINS/FINS) providers
- Distributed four documents via email to the listed groups: Protocols at Juvenile Assessment Centers and Detention Screening Units; Visitor Screening Tools; Notice to Family Members and Guardians of Youth in our programs and a Coronavirus (COVID-19) Precautions STOP signage which is also translated in Spanish. Provided notice to family members and guardians of youth in our programs requesting not to visit youth in our facilities if they have or had within the last 48 hours any symptoms of respiratory illness, or recently spent time with anyone exhibiting these symptoms.
- Provided notice to vendors, guests, volunteers and business partners the same message and requested if there are problems providing critical services for our youth, please contact us to discuss alternatives.
- We have developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs.
- We are sending a notice to parents and guardians of youth in programs regarding the new visitor screening protocol. This information will be included within the admission packet for new youth admitted.
- We have sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted

Department of Law Enforcement

- FDLE Commissioner has distributed a message to FDLE members about COVID19 prevention and precautions.
- Acquiring safety equipment and some PPE equipment.
- Provided legal reference kit to law enforcement statewide (ESF-16)
- Distributed "Law Enforcement Guidance" flyer to agencies statewide (ESF-16)
- Attended meetings with DEM/DOH/FHP and ESF-16 members
- Continue regular meetings with headquarters and state-wide leadership. "
- Reviewing COOP and expanded modified staffing opportunities, ordered an increase in bandwith and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE has attended National Governor's Association / Homeland Security Administration / Center for Disease Control conference calls

AMERICAN OVERSIGHT

- RDSTF meetings
- State partners providing immediate needs list to ESF-16 in reference to PPE
- Providing situational uppdates to partners about cyber/malware sites for COVID-19

Department of Lottery

- Terminal messages have been sent to all of the Florida Lottery's more than 13,000 retailers detailing how to properly clean and disinfect highly touched areas like Lottery touchscreen terminals and vending machines.
- Lottery sales representatives are reiterating the safety tips provided by the Department of Health to retailers and encouraging retailers who may have additional questions visit the COVID-19 website.

Department of Management Services

- Reached out to multiple vendors for quotes for hand sanitizer and wipes for Supervisor of Elections.
- Searching for buildings that could host affected people in a quarantine type setting. Looking for isolation rooms as well as exploring state parks for camping room settings.
- Ordered and are delivering roughly 300 standing hand sanitizer dispensers and 160 gallons of gel hand sanitizer to facilities.
- Increased daily sanitation efforts of state buildings and distributed guidance to facility managers to increase efforts to sanitize office spaces.
- Contacted several environmental vendors that can be pre-positioned to mobilize in the event of a viricidal cleaning at a state-maintained facility.
- DMS' Division of Retirement Call Center and PeopleFirst Call Center personnel were provided boilerplate messaging to direct callers to DOH COVID-19 webpage or dedicated call center/email for latest updates.
- Human Resource Management provided guidance to HR Directors on leave policies.
- Provided guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits.
- Prepared employee telework guidance and workforce planning information for HR Directors specific to COVID-19.
- Division of State Technology is researching quotes for additional VPN services as needed to support employees teleworking.
- DMS has placed web banners on People First, MFMP, FRS portal, mybenefits.com, myflorida.com, and Travel system websites directing them to the DOH COVID-19 site for official updates.
- Created best practices/preventative guidance to provide to agencies working with landlords in lease-based facilities. Contains list of recommended agency contracts a resource for additional cleaning services. Memo was sent to agency leasing contacts and communication offices.
- The Division of Human Resource Management is finalizing updates to their section of the DOH Pandemic Plan.
- Division public safety personnel continues to coordinate with the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.

DRAFT

AMERICAN OVERSIGHT

- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management held a call with Facility Managers to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Email was sent follow-up with resources.
- DMS' Division of Real Estate Development and Management held a call with Capitol facility manager, Sergeant of Arms, and Capitol Police to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Division also held a call with Earley's Kitchen on the same. Email was sent follow-up with resources.
- DMS has identified 500 ventilators; awaiting approval

- HRM continues to provide guidance as needed to HR Directors on leave policies.
- HRM/DSGI will continue to provide guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management continues to update Facility Managers as needed to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination
- DMS' Division of Real Estate Development and Management will continue to provide updated guidance to the Capitol facility manager, Sergeant of Arms, Capitol Police, and Earley's Kitchen to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination

Department of Revenue

- Distributed information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19. "
- Guidance has been posted in public areas of the Department's CCOC building for visitors and meeting attendees in the building"
- The Department of Revenue's General Tax Administration (GTA) program is working with our tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- Information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19.
- The Department of Revenue's General Tax Administration (GTA) program is working with our tax processing vendor to ensure continuity in tax data and payment processing.

AMERICAN OVERSIGHT

- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- Emailed information and FAQ's to employees related to the Department's response to COVID 19 with links to the Florida Department of Health and the Centers for Disease Control
- Communicated with supervisors' additional details in reference to leave and travel requests.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

Department of Transportation

- Hosted call for seaports and airports on COVID-19
- Sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees.
- Beginning on Tuesday, 10 March 2020, FDOT is hosting two weekly teleconferences, one with passenger seaports and the other with public use airports, to provide a briefing and take questions.
- Secretary Thibault facilitated a conference call on Thursday, 05 March 2020 with Governor DeSantis and State Surgeon General Rivkees to advise seaports and public use airports regarding COVID-19 efforts.

Department of State

- The Florida Department of State has provided guidance and information to all 67 Florida Supervisors of Elections on how to prepare for COVID-19 at their polling locations for the March 17 Presidential Preference Primary.
- The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
- The Florida Department of State is using its social media platforms to encourage voters who are concerned about COVID-19 to make themselves aware of voting options and ways to protect themselves and their families.
- Social Media Messages-
    - #Florida voters concerned about Coronavirus Disease 2019 (COVID-19) should make themselves aware of ways to protect themselves and their family. Learn more about #COVID19 and ways to prevent the virus using resources from @HealthyFla here: http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of Vote-By-Mail ballots. The deadline to request a vote-by-mail ballot to be mailed to you is Saturday, March 7. More information: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of early voting sites. To see when and where early voting is available in

AMERICAN OVERSIGHT

your county visit: https://dos.myflorida.com/media/702721/2020-early-voting-locations-and-times-master-20200302.pdf.
    - Voters exhibiting symptoms of #COVID19 can designate someone to pick up their vote-by-mail ballot for them as late as 7:00 pm on Election Day by filling out affidavits for that designee. More information at: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - I always encourage #Florida voters to be informed about voting and what we are doing to protect their vote; that won't change.
    - I also want to ensure that voters inform themselves about #COVID19 & learn ways to protect themselves & their family. http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html"
- DOS also has an upcoming Supervisor of Elections call scheduled for Thursday, 3/12/20 at 10:00 A.M., in which DEM and DOH have been requested to attend.
- DOS is currently working on our telework policy. We have also increased hand sanitizer and sent an agency-wide communication to our members in order to provide employee guidance related to COVID-19.
- The Secretary of State, Assistant Secretary/Chief of Staff, Director of Elections and ECO held a call with the Director of Emergency Management and Chief of Staff to discuss preparation efforts that may be needed. The Director of Elections has surveyed all SOEs to ask what polling locations they have in assisted living facilities and if those polling locations are open to the public or residents only.
- The Department of State met via conference call today with all 67 county Supervisors of Elections to discuss COVID-19 as it relates to election polling places. On the call were representatives from The Florida Department of Health, Florida Division of Emergency Management and Volunteer Florida. Supervisors were updated about COVID-19 and the precautions to take regarding polling places from DOH and provided options for assistance from Volunteer Florida. Supervisors were also reminded to work with their county Emergency Management offices for available resources to combat the COVID-19 emergency
- The Museum of Florida History has implemented the following, in addition to regular cleaning tasks:
    - Removed guest sign in book; Education Staff to record the visitor information.
    - Added to the list of opening cleaning chores: (Disinfecting wipes are preferred over spray to minimize possible damage to artifacts.)
    - Clean all push buttons for life casts, dioramas, and other touchables in exhibits as identified and approved with disinfecting wipes.
    - Clean wheelchairs after every use with disinfecting wipes.
    - Clean surfaces of benches with disinfecting wipes.
    - Clean surface of survey podium with disinfecting wipes.
    - Placed additional hand sanitizer dispensers at entrance and exit of Museum.
    - Turned off touchscreen survey and rely on paper surveys.
- Staff using disinfecting wipes on phones and keyboards.
- COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces

Department of Veteran Affairs

AMERICAN OVERSIGHT

- Florida Department of Veterans' Affairs (FDVA) resources are currently focused on our network of state veterans' homes. FDVA operates state veterans' homes in Panama City, Lake City, St. Augustine, Daytona Beach, Pembroke Pines, Port Charlotte and Land O' Lakes.
- Effective March 11, 2020, the Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

Fish and Wildlife Conservation Commission

- Information regarding awareness, precautions, and reporting has been disseminated agency wide.
- Participated in a briefing from the Department of Homeland Security's Senior Medical Officer was shared with ESF-16 partners and FDLE personnel.
- Guidance has been issued for taking appropriate precautions to mitigate risk from COVID-19 agency wide.
- Accounted for all agency issued personal protective equipment.

Office of Attorney General

- Activated the Price Gougin Hotline is response
- Monitoring staff travel and continuing internal staffing calls in preparation of potential staffing/telework situations in the coming weeks

Volunteer Florida

- Volunteer Florida has passed CDC guidance on COVID-19 to employees and our Florida VOAD Partners"
- "Volunteer Florida conducted an initial meeting with the FLVOAD to discuss additional actions including a FLVOAD call to be conducted this week to ensure all member organizations and partners are aware of CDC guidance. "
- VF is coordinating with the Florida Department of Elder Affairs to see how we can assist with spreading information to seniors.
- VF coordinated latest messaging with FLVOAD and discussed scheduling a call for next week with all FLVOAD partners. FLVOAD pushed out messaging via social media and will be scheduling a call for next week.

AMERICAN OVERSIGHT

- VF participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunity platform) and how it can be used by offices to help recruit volunteers for Tuesday's upcoming election to due to COVID-19 fears at some poling sites.

Water Management Districts

- Reviewing continuity of operations and telework plans.
- Increasing cleaning and sanitation of failities.
- Installed hand sanitizer and distributed sanitary wipes throughout facilities
- Instituted regular sanitary wipe-downs of common areas and meeting rooms
- The District has suspended all official travel and meetings
- Preparing resources for staff to work remotely as needed
- Provided staff education
- Conducted public Governing Board meeting
- Purchasing thermometers, alcohol wipes, gloves
- Finance began tracking costs under separate codes

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.

They will be reporting weekly with updates and to ensure compliance with virus prevention.
March 4, 2020	• Participated in the Florida Association of District School Superintendents call with Governor DeSantis, Lt. Governor Nunez, and Commissioner Corcoran. • Conducted weekly conference call with all public health & healthcare stakeholders hosted by the Florida Department of Health. • Conducted conference Call with Florida Hospitals hosted by the Florida Hospital Association. • Sustained healthcare call center. • Activated Joint Information Center with the Division of Emergency Management. • Extended public information call center hours to midnight. • The University Chancellors as well as university staff have participated in various statewide calls hosted by the SERT, including this past Wednesday's call on 03/4/2020 for all superintendents with the Governor and Surgeon General. • A poster detailing preventative actions was sent to Florida's 175 state parks and GTM Research Reserve, Rookery Bay Aquatic Preserve, and Apalachicola National Estuarine Research Reserve.
March 5, 2020	• Announced new presumptive positive case in a Florida resident from Sarasota County. • Requested 1.5 million N-95 masks from the federal stockpile. • Distributed screening guidance to public safety answering points. • Conducted a teleconference for the seaports and public airports. The call was hosted by the Florida Department of Transportation. • Received notification from CDC that Florida has been awarded $500,000 through the Public Health Emergency Response Cooperative Agreement.

AMERICAN OVERSIGHT

	• Secretary Thibault from the Department of Transportation facilitated a conference call with the Governor, Florida Surgeon General to advise on seaports and public use airports regarding COVID-19 efforts. • DCF distributed guidance from Centers for Medicare & Medicaid Services for hospitals and nursing homes was distributed for immediate implementation at both the State-operated and private Mental Health Treatment Facilities. The Chief Medical Officer of Florida State Mental Health Treatment Facilities is in the lead to oversee compliance and provide weekly reporting. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • A message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication. • DOH banner graphic was placed on the DEP website. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
March 6, 2020	• Extended call center hours to Monday – Friday for 24 hours a day. • Identified vendor for shipping container and assessed the supply chain quantities available for future needs. • Continues compiling Alternate Care Site supplies and tactics. • Continue to assess N95 supply chain. • Coordinated with the Florida Poison Control Information Network for transition of COVID-19 information line for long term sustainment. • Continue to pilot strategies including texting and video conferencing for monitoring persons under investigation. • Provided situational update on the Florida Health Care Association conference call. There were 524 call participants. • Participated in a conference call with the members of the Florida Association of Health Plans. • Participated in a conference call with Leading Age. There were 228 participants. • Provided a situational update on the Florida Hospital Association hosted conference call for hospitals. • Conducted a briefing for State Agency Emergency Coordination Officers on COVID-19 response actions and activities other agencies can take to assist with the coordinated statewide response.

AMERICAN OVERSIGHT

March 7, 2020	• Governor did press conference in Fort Lauderdale with Vice President Pence • Activated State Emergency Operations Center and is currently at a level two • Conducted notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Coordinated with AHCA to provide hospital guidance on masks through email blast. • Coordinated group notification to ACTRIMS conference attendees. • Identified resource plan for Alternate Care Site for hospital augmentation • Coordinated with DEM to gain knowledge of PPE resources through other state agencies.
March 8, 2020	• Conducted contingency planning for large scale quarantine for cruise ships. • Continuation of notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates. • Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices. • Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7. • Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
March 9, 2020	• Governor conducted press conference with agency heads to provide an update to the public on the state's response • Attended Community Health Center call • Conducted county call with all case counties • Updated the testing algorithm • Provided guidance to county health departments on public safety answering points • Conducted call for the Congressional Delegation • Conducted call the Florida State Legislature • Provided coordination for seaports call

AMERICAN OVERSIGHT

March 10, 2020	• Disseminated Enhance Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) and Clinician Screening Tool • Coordinated with County Health Departments on how to prepare for planning a response one their county has a case of COVID-19. • Continue to coordinate efforts on call center to transfer to Poison Control contract. • Coordinated with the Division of Emergency Management to order resources.
March 11, 2020	• MCM Coordinator discussed Point of Collection contingency plan strategies with her workgroup • Supporting 3 missions • Coordinated contingency planning for nursing home PUI • ASPR notified ESF8 there will be a portion of requested cache delivered • Coordinated with Dr. Schepke on validation of resource request
March 12, 2020	• Participated in calls with Corrections and LEO • Conducted call with Senior hospital leadership and clinical lab directors regarding testing for COVID • Contracted with Poison Control to take over COVID-19 call center on 3/13/20 at noon • Received six trucks of requested SNS order • Purchased 10,000 test kits • Continue to fill resources request as supplies allow •

Florida has a very broad public records law. Written communications to or from state officials regarding state business constitute public records. Public records are available to the public and media upon request, unless the information is subject to a specific statutory exemption. Therefore, any information that you send to this address, including your contact information, may be subject to public disclosure.

AMERICAN OVERSIGHT

- Washington
  - Washington Governor Jay Inslee's ban covers Seattle and surrounding counties, including King, Snohomish and Pierce and the type of gatherings include social, spiritual and recreational activities. According to a statement by Inslee, "these include but are not limited to: community, civic, public, leisure, faith-based, or sporting events; parades; concerts; festivals; conventions; fundraisers and similar activities." In addition to the ban on large gatherings, a number of Seattle public schools have closed down and many colleges and universities in the state of Washington are suspending or canceling in-person class.
  - RCW 43.06.220 - https://app.leg.wa.gov/RCW/default.aspx?cite=43.06.220 – full text
  - Provisions cited in WA Governor's proclamation "RCW 43.06.220(1)(b) and RCW 43.06.220(1)(h), to help preserve and maintain life, health, property or the public peace"

    RCW 43.06.220 - Excerpt

    State of emergency—Powers of governor pursuant to proclamation.
    (1) The governor after proclaiming a state of emergency and prior to terminating such, may, in the area described by the proclamation issue an order prohibiting:
    (b) Any number of persons, as designated by the governor, from assembling or gathering on the public streets, parks, or other open areas of this state, either public or private;
    …
    (h) Such other activities as he or she reasonably believes should be prohibited to help preserve and maintain life, health, property or the public peace.
    …
    (5) Any person willfully violating any provision of an order issued by the governor under this section is guilty of a gross misdemeanor.
    [2019 c 472 § 2; 2008 c 181 § 1; 2003 c 53 § 222; 1969 ex.s. c 186 § 3.]

AMERICAN OVERSIGHT

- Oregon
  - In the News
    - "Oregon Governor Kate Brown followed suit and on Wednesday night, placed a ban on gatherings of over 250 people for four weeks. Brown also suggested that non-essential school-related gatherings should be canceled, such as field trips and parent meetings, as well as recommending increased physical space between employees in offices, limited in-person meetings, limited travel and working in staggered rotations when possible." - https://www.newsweek.com/these-are-all-states-that-have-banned-large-gatherings-people-due-coronavirus-1491950

  - Oregon Executive Orders in re: COVID-19
    - OR EO 20-03, issued 3/8/20: Oregon's initial executive order – does not cover bans; https://www.oregon.gov/gov/Documents/executive_orders/eo_20-03.pdf
      - ORS 401.165 et seq. empowers the Governor to declare a state of emergency upon determining that an emergency has occurred or is imminent. "Pursuant to that authority, I find that the novel infectious coronavirus has created a threat to public health and safety, and constitutes a statewide emergency under ORS 401.025(1)."
    - OR EO 20-05, issued 3/12/20: Governor Kate Brown today set new rules to slow the spread of COVID-19 in Oregon; Executive Order 20-05 outlines rules addressing large gatherings and social distancing. Available at https://drive.google.com/file/d/1k9gLrQP4adjP6hrd_03BXLtVkkDHSXps/view
      - "Pursuant to ORS 433.441(3)(a) and (d), ORS 401.175(1), and ORS 40 1.188(2), [the Governor is] prohibiting large social, spiritual, and recreational gatherings of 250 people or more, statewide…"

  - Oregon Revised Statutes (cited in EO 20-05)
    - ORS 433.441(3)(a) and (d), - https://www.oregonlaws.org/ors/433.441

      (3)During a public health emergency, the Governor may:
      (a)Close, order the evacuation of or the decontamination of any facility the Governor has reasonable cause to believe may endanger the public health.
      …
      (d) Control or limit entry into, exit from, movement within and the occupancy of premises in any public area subject to or threatened by a public health emergency if such actions are reasonable and necessary to respond to the public health emergency.

AMERICAN OVERSIGHT

- ORS 401.175(1), https://www.oregonlegislature.gov/bills_laws/ors/ors401.html

  401.175 Additional powers during emergency. During the existence of an emergency, the Governor may:
  (1) Assume complete control of all emergency operations in the area specified in a proclamation of a state of emergency issued under ORS 401.165, direct all rescue and salvage work and do all things deemed advisable and necessary to alleviate the immediate conditions.
  …

- ORS 401.188(2), https://www.oregonlegislature.gov/bills_laws/ors/ors401.html

  401.188 Management of resources during emergency; rules. Whenever the Governor has declared a state of emergency, the Governor may issue, amend and enforce rules and orders to:
  …
  (2) Prescribe and direct activities in connection with use, conservation, salvage and prevention of waste of materials, services and facilities, including, but not limited to, production, transportation, power and communication facilities training, and supply of labor, utilization of industrial plants, health and medical care, nutrition, housing, rehabilitation, education, welfare, child care, recreation, consumer protection and other essential civil needs; and
  …

- PENALTIES - 401.990 Penalties.

  Any person knowingly violating any provision of this chapter, or any of the rules, regulations or orders adopted and promulgated under this chapter, shall, upon conviction thereof, be guilty of a Class C misdemeanor. [1967 c.480 §8; 1977 c.248 §4; 1983 c.586 §41; 2009 c.718 §48]

- Oregon provided a link to the guidance for large events and public gatherings - https://sharedsystems.dhsoha.state.or.us/DHSForms/Served/le2262.docx

- https://www.oregon.gov/newsroom/Pages/NewsDetail.aspx?newsid=36153
- On 3/12/20, Oregon's governor announced strategies at 9am PST / noon EST to include:
  - 1. Large gatherings: All large gatherings over 250 people will be canceled statewide effective immediately for four weeks. A gathering is defined as any event in a space in which appropriate social distancing of a minimum of three feet cannot be maintained.
  - 2. Schools: In addition to previous guidance issued on March 8, 2020 to keep schools open, all non-essential school-associated gatherings and group activities should be canceled — such as group parent meetings, field trips, and competitions.
  - 3. Workplace: Recommended implementation of distancing measures including an increased physical space between employees in offices and worksites, limited

AMERICAN OVERSIGHT

in-person meetings, limited travel, and staggered work schedules where possible.

- 4. Long-Term Care and Assisted Living: Strict limitations announced this week by the Oregon Health Authority and Department of Human Services remain in place.

- Oregon's Dept of Human Services public health recommendation is made/issued per Oregon Executive Order 20-03 issued by the Governor on 3/8/20 (https://content.govdelivery.com/attachments/ORDHS/2020/03/10/file_attachments/1397712/NF-20-67%20Executive%20Letter%20from%20Mike%20McCormick.pdf)

AMERICAN OVERSIGHT

- California
    - Governor Gavin Newsom to place a ban on gatherings of 250 people or more.
    - San Francisco Mayor London Breed placed a citywide ban on large gatherings of 1,000 people or more.
    - CA Declaration of State of Emergency (SOE) - https://www.gov.ca.gov/wp-content/uploads/2020/03/3.4.20-Coronavirus-SOE-Proclamation.pdf (3-4-20)
        - SOE does not include a ban on gatherings. CA SOE cites to "California Emergency Services Act, and in particular, Government Code section 8625"
    - Governor's Press release –
        - 3/11/20 https://www.gov.ca.gov/2020/03/11/california-public-health-experts-mass-gatherings-should-be-postponed-or-canceled-statewide-to-slow-the-spread-of-covid-19/
            - State public health experts announce that gatherings with 250 people or more should be rescheduled or canceled
            - Smaller gatherings can proceed if organizers implement 6 feet of social distancing
        - 3/12/20 https://www.gov.ca.gov/2020/03/12/governor-newsom-statement-on-disney-agreeing-to-close-california-parks/
            - "Late last night, California put out a new policy on mass gatherings and engaged in deep conversations with Disney and other companies about how to meet it. Using that policy, Disney made the right call in the interest of public health and agreed to shut down their California parks. ***Expect more announcements like this shortly***." (emphasis added)

    - CA Gathering guidance (not an order)- https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/Gathering_Guidance_03.11.20.pdf
        - No state code was cited as authority for this gathering guidance.
        - California's guidance says: "Large gatherings that include 250 people or more should be postponed or canceled. … This includes gatherings such as concerts, conferences, and professional, college, and school sporting events."

    - College/University Board of Trustees or President may declare a state of emergency
        - 3345.26 Board of trustees or president may declare state of emergency.

AMERICAN OVERSIGHT

(A) The board of trustees or president of a college or university which receives any state funds in support thereof, may declare a state of emergency when there is a clear and present danger of disruption of the orderly conduct of lawful activities at such college or university through riot, mob action, or other substantial disorder, and may do any one or more of the following, as are necessary to preserve order and discipline at such college or university during such emergency:
(1) Limit access to university property and facilities by any person or persons;
(2) Impose a curfew;
(3) Restrict the right of assembly by groups of five or more persons;
(4) Provide reasonable measures to enforce limitations on access, a curfew, and restrictions on the right of assembly imposed pursuant to this section.
(B) Notice of action taken pursuant to division (A) of this section shall be posted or published in such manner as is reasonably calculated to reach all persons affected.
(C) Division (A)(1) and (A)(2) of this section shall not be construed to limit the authority of the board of trustees, president, or other proper official of a college or university to impose reasonable restrictions on use of and access to, and the hours of use of and access to university property and facilities, for purposes of regulating the proper operation of such university, and regardless whether any emergency exists.
Effective Date: 09-16-1970.

- Chapter 3701: DEPARTMENT OF HEALTH - http://codes.ohio.gov/orc/3701
  - The Ohio Dept of Health "director of health" has special duties during an epidemic.
  - 3701.14 Special duties of director of health. - (A) The director of health shall investigate or make inquiry as to the cause of disease or illness, including contagious, infectious, epidemic, pandemic, or endemic conditions, and take prompt action to control and suppress it….
  - 3701.28 Powers of department when local authorities fail to act. - When a contagious or infectious disease becomes or threatens to become epidemic in a municipal corporation or township, and the local authorities neglect or refuse to enforce efficient measures for its prevention, the director of health may appoint a medical or sanitary officer and such assistants as he may require, and authorize him to enforce such orders or regulations as the director deems necessary.
  - 3701.352 Violations prohibited. - No person shall violate any rule the director of health or department of health adopts or any order the director or department of health issues under this chapter to prevent a threat to the public caused by a pandemic, epidemic, or bioterrorism event.
- Chapter 3707: BOARD OF HEALTH - http://codes.ohio.gov/orc/3707
  - 3707.04 Quarantine regulations. - In time of epidemic or threatened epidemic, or when a dangerous communicable disease is unusually prevalent, the board of health of a city or general health district, after a personal investigation by its

AMERICAN OVERSIGHT

members or executive officer to establish the facts in the case, and not otherwise, may impose a quarantine on vessels, railroads, or other public or private vehicles conveying persons, baggage, or freight, or used for such purpose. The board may make and enforce such rules and regulations as are wise and necessary for the protection of the health of the people of the community or state, but the running of any train or car on any steam or electric railroad, or of steamboats, vessels, or other public conveyances shall not be prohibited.
A true copy of such quarantine rules and regulations shall be immediately furnished by such board to the department of health, and thereafter no change shall be made except by the order of the department or the board to meet a new and sudden emergency.

- 3707.26 Board shall inspect schools and may close them. - Semiannually, and more often, if in its judgment necessary, the board of health of a city or general health district shall inspect the sanitary condition of all schools and school buildings within its jurisdiction, and may disinfect any school building. During an epidemic or threatened epidemic, or when a dangerous communicable disease is unusually prevalent, the board may close any school and prohibit public gatherings for such time as is necessary.

Coronavirus: summary of persons being monitored, persons under investigation, and cases

Mar 18, 2020 at 9:54 AM

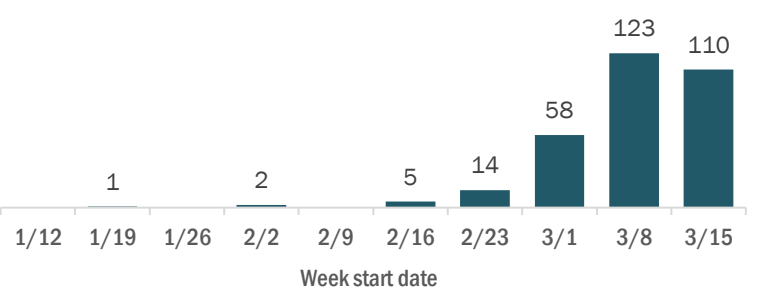
Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	2,159
Total persons of high, medium, or unknown risk	1,674
High/medium/unknown risk still being monitored	878

Persons under investigation (PUI):
people who meet laboratory testing criteria based on symptoms and exposure

Total identified	2,493
Tested positive	314
Tested negative	1,225
Currently awaiting testing	954



Confirmed cases

Confirmed cases in Florida residents	289
Confirmed by BPHL/CDC	172
Positive by commercial/hospital lab	117
Characteristics of Florida resident cases	
Not exposed/infectious in Florida	6
Hospitalized	66
Deaths	7
Cases in non-Florida residents	25
Confirmed by BPHL/CDC	23
Positive by commercial/hospital lab	2
Total cases	314
Traveled	73
Contact with confirmed case	50
Traveled and contact with confirmed case	63
Neither	128
Travel is unknown*	99
Contact is unknown*	19
Contact is pending*	90

*Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

10-week trend by event date

Event date is the earliest date associated with a case

Coronavirus: summary of persons being monitored, persons under investigation, and cases

Mar 18, 2020 at 7:50 AM

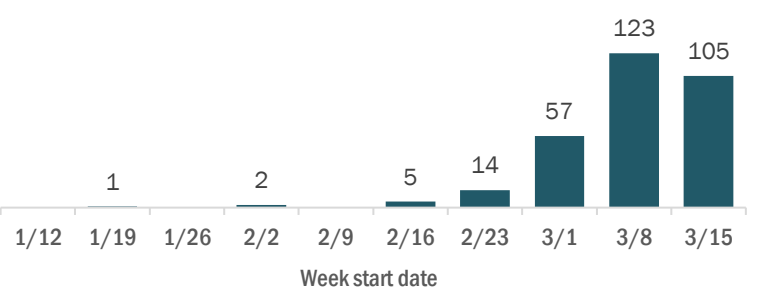
Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	**2,140**
Total persons of high, medium, or unknown risk	1,656
High/medium/unknown risk still being monitored	870

Persons under investigation (PUI):
people who meet laboratory testing criteria based on symptoms and exposure

Total identified	2,443
Tested positive	308
Tested negative	1,186
Currently awaiting testing	949



Confirmed cases

Confirmed cases in Florida residents	**283**
Confirmed by BPHL/CDC	170
Positive by commercial/hospital lab	113
Characteristics of Florida resident cases	
Not exposed/infectious in Florida	6
Hospitalized	63
Deaths	7
Cases in non-Florida residents	**25**
Confirmed by BPHL/CDC	23
Positive by commercial/hospital lab	2
Total cases	**308**
Traveled	71
Contact with confirmed case	50
Traveled and contact with confirmed case	63
Neither	124
Travel is unknown*	95
Contact is unknown*	17
Contact is pending*	88

*Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

10-week trend by event date

Event date is the earliest date associated with a case

Coronavirus: summary of persons being monitored, persons under investigation, and cases

Mar 17, 2020 at 5:11 PM

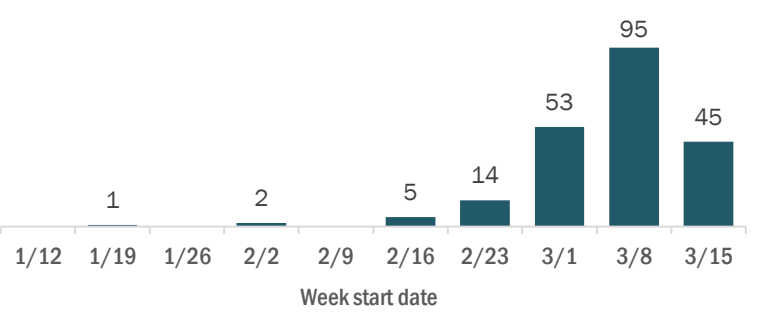
Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	**2,097**
Total persons of high, medium, or unknown risk	1,614
High/medium/unknown risk still being monitored	832

Persons under investigation (PUI):
people who meet laboratory testing criteria based on symptoms and exposure

Total identified	2,294
Tested positive	216
Tested negative	1,017
Currently awaiting testing	1,061



Confirmed cases

Confirmed cases in Florida residents	**195**
Confirmed by BPHL/CDC	129
Positive by commercial/hospital lab	66
Characteristics of Florida resident cases	
Not exposed/infectious in Florida	6
Hospitalized	49
Deaths	7
Cases in non-Florida residents	**21**
Confirmed by BPHL/CDC	19
Positive by commercial/hospital lab	2
Total cases	**216**
Traveled	58
Contact with confirmed case	42
Traveled and contact with confirmed case	56
Neither	60
Travel is unknown*	41
Contact is unknown*	11
Contact is pending*	35

*Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

10-week trend by event date

Event date is the earliest date associated with a case

Coronavirus: summary of persons being monitored, persons under investigation, and cases

Mar 17, 2020 at 9:59 AM

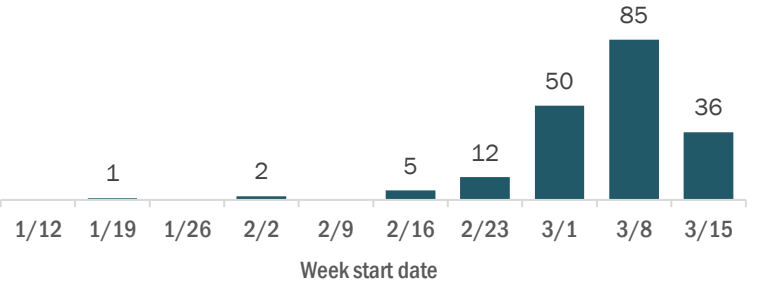
Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	1,792
Total persons of high, medium, or unknown risk	1,322
High/medium/unknown risk still being monitored	558

Persons under investigation (PUI):
people who meet laboratory testing criteria based on symptoms and exposure

Total identified	2,004
Tested positive	192
Tested negative	940
Currently awaiting testing	872



Confirmed cases

Confirmed cases in Florida residents	173
Confirmed by BPHL/CDC	119
Positive by commercial/hospital lab	54
Characteristics of Florida resident cases	
Not exposed/infectious in Florida	6
Deaths	5
Cases in non-Florida residents	19
Confirmed by BPHL/CDC	18
Positive by commercial/hospital lab	1
Total cases	192
Traveled	51
Contact with confirmed case	39
Traveled and contact with confirmed case	53
Neither	49
Travel is unknown*	34
Contact is unknown*	10
Contact is pending*	27

*Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

10-week trend by event date

Event date is the earliest date associated with a case

AMERICAN OVERSIGHT

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Wednesday, March 11, 2020 at 11:00 p.m.

CASES TO DATE

- 577 persons under investigation
- 392 negatives
- 34 total cases reported
    - 31 in Florida residents
        - 26 diagnosed in Florida
        - 5 diagnosed and isolated in another state
    - 3 confirmed positive (non-Florida resident)
- 2 deaths
- 151 tests in state results pending
- 1287 people monitored to date
- 324 of that 1287 are currently being monitored

Of the six new cases identified today (3) were in Broward, (1) Lee, (1) Miami-Dade, and (1) New York resident hospitalized in St. Johns county.

Call Center hotline hours are 24 hours a day, seven days a week

CURRENT OPERATIONAL OBJECTIVES

1. **Contain the spread of the virus in Florida** through rapid identification and isolation of suspect cases, active monitoring and limited movement of travelers with increased risks during the incubation period.
2. **Implement laboratory testing** capability in Florida public health laboratories.
3. **Provide guidance and information to healthcare providers** in Florida regarding reporting suspect cases, infection control procedures, and clinical care.
4. **Disseminate coordinated public health messaging** to the public, healthcare stakeholders and partner agencies.
5. **Support county health department (CHD) operations** for epidemiological investigations, monitoring, public messaging and preparedness through resources, staffing and technical guidance.
6. **Prepare for the possibility that coronavirus becomes a global pandemic** by ensuring plans, resources and capabilities are in place to respond to a widespread outbreak and lessen the impacts on communities in Florida.
7. Monitor Florida hospitals for increased patient volume and support **strategies for medical surge.**

DRAFT

AMERICAN OVERSIGHT

KEY ACTIVITIES

Department of Health

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Activated Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.
- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.
- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:

AMERICAN OVERSIGHT

    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.
- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

DRAFT

AMERICAN OVERSIGHT

Agency for Health Care Administration

- Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Tuesday, March 3, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for assisted living facilities, intermediate care facilities, Agency for Persons with Disabilities (APD) group homes and adult family care homes on Tuesday, March 3, with nearly 1500 participants. Secretary Mayhew, Surgeon General Rivkees and APD Director Palmer addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for hospitals in conjunction with the Florida Hospital Association on Wednesday, March 4, with 84 locations participating. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting Florida hospitals.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Friday, March 6, with 524 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as a newly developed visitor screening toolkit and recent memos from the Centers for Medicare and Medicare Services.
- Hosted a statewide call for hospitals in conjunction with LeadingAge Florida and the Florida Life Care Residents Association on Friday, March 6, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting senior populations and nursing homes.
- Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
- Sent an e-blast on CDC infection prevention and control guidelines to hospitals across the state.
- AHCA Secretary Mayhew is visiting nursing homes and hospital facilities in Jacksonville and Orlando today to discuss COVID-19 preparations and response and respond to any concerns and questions from local partners.
- Verified ESS data dashboards is in production
- Shared contact e-mail with local health department for communication to providers (AHCA asked to be copied on communication)
- Allowed for early refills of prescription drugs in Medicaid
- Provided guidance to Medicaid health plans on coding and billing for COVID-19

Agency for Persons with Disabilities

- Distributed DOH and CDC guidance to Florida Association of Rehabilitative Services, Arc of Florida, Family Care Council of Florida and Florida Developmental Disabilities Council.
- Added COVID-19 information to APD website.

AMERICAN OVERSIGHT

- Visitor Screening Criteria has been implemented at APD-owned facilities in Marianna and Gainesville
- Agency is developing visitor questionnaires for Adult Day Training facilities and group homes
- Examining telework capacity/ability
- Meeting with AHCA regarding rule waivers/exemptions for APD clients living in residential facilities
- Working to procure cleaning supplies and/or services for APD buildings.
- Facility in Gainesville has cancelled community events on campus and is cancelling large trips for residents going off-site.
- Started twice-weekly conferences with the Superintendents of APD-owned facilities to discuss coronavirus updates and needs.
- Forensic Facility in Chattahoochee needs guidance on admitting individuals who have been court-ordered to reside at this facility.

Board of Governors for the State University System

- Participate in multiple statewide calls for situational awareness.
- The Chancellors Office has advised our 12 state university partners to continue to follow the guidance of the CDC and Florida Dept. of Health
- Posted the DOH Link on the Board webpage
- Posted information on each universities COVD-29 response on our webpage https://www.flbog.edu/2020/03/05/university-information-on-covid-19/

Department of Agriculture and Consumer Services

- Press Conference on Gas Pump Skimmers & Coronavirus with Deputy Commissioner Mary Barzee Flores.
- Communique about Guidance on COVID-19 Food Safety for Consumers, Food Establishments
- Provided food establishments, Florida Retail Federation and Petroleum Marketers Association (convenience stores) with an email blast regarding shopping cart sanitation and sharing, and providing hand sanitizer.

Department of Business and Professional Regulation

- Incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices.
- Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises

Department of Children & Families

- Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage.

AMERICAN OVERSIGHT

- Provided update to DCF Leadership and Communications team on International Travel amplifying Department of Health messaging applying guidance to persons who have travelled anywhere internationally or on a cruise.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.

Department of Citrus

- Memo sent to staff on March 5th, 2020
- Availability to telework for sick individuals

Department of Corrections

- Hosted conference calls with institutional and community corrections regional leadership to discuss COVID-19:
- Reiterated the importance of personal hygiene best practices and enhanced cleaning efforts
- Actively monitoring staff for symptoms as well as proactively send inmates to medical for assessment.
- All wardens and community corrections leaders have been in contact with their local health department to make sure open lines of communications exist in the event of a potential case in their area.
- Private prison partners have aligned their response to COVID-19 to the Department's response
- Medical services contractor, Centurion, was directed to allow inmates initiating a medical visit due to symptoms relating to a potential communicable disease, such as influenza, not be charged a co-payment.
- Institutional medical staff have been instructed to notify DOH if a single inmate presents with symptoms, discontinuing the former procedure of cluster reporting.
- Centurion will stage a minimum of 25 PPE's at each facility; supplies should be delivered Friday, March 13th. Excess supplies will be staged at the regional offices for redistribution as needed. Access to additional supplies is being coordinated through CDC, should this become necessary.
- H/R is drafting an essential staffing message as it relates to CDC/DOH "Stop the Spread" campaign.
- Office of Institutions staff participated in a webinar with the American Correctional Association (ACA) titled "Coronavirus COVID-19: Impact on Corrections."
- Considering canceling visitation and volunteer programs at institutions with highest risk populations.
- Considering relaxing the entry and exit procedure as it relates to alcohol-based hand sanitizer for individual staff.
- Considering suspending recruitment events at public locations.
- Informed visitors and volunteers if you are feeling sick with a fever, persistent cough, or find it difficult to breathe – please do not enter a correctional institution.
- Restrict inmate transfers to mission critical needs
- New commitments will remain at reception centers at least 14-days prior to transfer. quarantine dorm at reception centers for.
- Initiating screening process.
- Staff are temporarily permitted to enter secured perimeters with alcohol-based hand sanitizer.

AMERICAN OVERSIGHT

- Tracking staff who report flu-like symptoms and their work availability.
- Established a trigger matrix for presumptive positive & positive COVID-19 inmates.

Department of Education

- Distributed guidance from the CDC and the Florida Department of Health concerning care and cleaning of schools, returning students from foreign trips, quarantining in college or university dorms.
- Coordinated with pandemic planning activities.
- Participated in statewide call for educational entities.
- Distributed the Policy for Diagnostic Testing to the Board of Governors.
- 11:00 AM – Superintendents call regarding emergency workflows and concerns (Commissioner and DOE Leadership involved)

Department of Elder Affairs

- Provided guidance to Area Agencies on Aging on how to protect clients and staff and no resources have been requested at this time.
- Guidance from the Florida Department of Health and CDC Websites have been provided to all DOEA Staff in an email from the Secretary.
- Provide guidance from the Florida Department of Health's website to Area Agencies on Aging and lead agencies on how to protect clients and staff.
- Added a link to the Florida Department of Health Coronavirus site on the Department of Elder Affairs website page.
- Pushed out messaging on social media focused toward caregivers and family, urging them to think about COVID-19 before visiting seniors or elderly loved ones
- Provide guidance from the Florida Department of Health's website to Statewide CARES offices, Area Agencies on Aging and lead agencies on how to protect clients and staff

Department of Environmental Protection

- Both Florida State Parks and DEP have been sharing DOH and EOG guidance on all social media platforms.
- On March 5, a message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication.
- On March 5, the DOH banner graphic was placed on the DEP website.
- Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment.
- On March 6, DEP provided verbal response guidance and FAQs to Florida State Park field staff and Public Services to prepare for inquiries from the public.
- On March 7, all Florida State Parks and DEP accounts began posting direct content.
- DEP has reviewed the agency's Continuity of Operations Plan's pandemic protocols to make sure it is up- to-date and reflects most recent DOH and CDC guidance.
- DEP continues to coordinate with the Governor's Office and Department of Health on emerging case-specific issues.
- DEP Leadership continues to communicate hand washing and safety protocols.
- Extra hand sanitizing stations have been placed in the Bob Martinez, Douglas and Carr buildings in Tallahassee.

AMERICAN OVERSIGHT

- On March 5, guidance was sent to all Land and Recreation employees on the appropriate use of disposable gloves and masks as personal protective equipment.
- DEP's Division of Recreation and Parks continues to evaluate and procure necessary personal protective equipment and sanitation supplies to ensure the health and safety of employees, volunteers and visitors at state parks.
- On March 9, Florida State Parks and DEP social accounts posted health and safety tips to social media channels.
- On March 9, all Florida State Parks and DEP social media accounts began sharing Department of Elder Affairs social content and continues to share real-time EOG and DOH guidance on social channels.
- Deputy Secretary Adam Blalock sent an email to Ecosystems Recreation staff regarding the use of disposable gloves and masks as personal protective equipment at aquatic preserves and National Estuarine Research Reserves. The message includes resources for DOH and CDC guidance to be posted at sites for visitors and employees.

Department of Financial Services and Office of Financial Regulation

- OFR - prepared draft proclamations for external stakeholders on proper notice to the Office regarding office closures of financial institutions
- Authorized purchase of hand sanitizer and disinfecting wipes for all offices
- Informed employees of proper procedures for workspace cleanliness/mitigation of spread of illnesses
- Monitoring guidance from DMS regarding office closures; annual leave, sick leave, admin. Leave policies
- Pulling back on out-of-state travel and minimizing in-state travel for employees
- Social distancing

Department of Highway Safety & Motor Vehicles

- Providing to all its employees FDOH and CDC guidance, resources and materials on best practices to prevent illness.
- Created an internal SharePoint webpage where all pertinent FDOH and CDC COVID-19 updates, resources and guidance are being stored for department employees to access.
- Increasing sanitation efforts at its facilities with a focus on high-traffic areas and frequently contacted surfaces, such as elevators, door handles, water fountains, etc.
- Working to ensure it has an adequate supply of sanitation products for its facilities as well as its public-facing personnel, such as driver license office staff and members of the Florida Highway Patrol.
- Exploring the feasibility and technical requirements, should it become necessary, of telework and modified staffing at certain locations.
- Updated its Pandemic annex for the department's Continuity of Operation Plan.
- FHP has provided FDLE COVID-19 Florida Law Enforcement Guide and FDOH Public Safety Answering Points guidance to all FHP personnel.

Department of Juvenile Justice

- Juvenile Justice's Office of Health Services is developing a protocol and messaging, including a process matrix, for each of our programs' designated health authorities and medical staff on what to do if a youth is suspected to have contracted COVID-19.

AMERICAN OVERSIGHT

- Staff at our residential commitment programs and detention centers are reaching out to their local health departments to ensure a clear line of communication and what the process will be if a youth is suspected to have contracted COVID-19.
- Evaluating visitation policy and procedures to determine necessary screening measures to ensure both the safety of the youth and staff in our programs and uninterrupted visitation schedules.
- DJJ will begin to review and modify if necessary our continuity of operations planning (COOP) in response to COVID-19.
- Evaluating procedures and any necessary precautions related to youth taken into custody by law enforcement who are brought to our juvenile assessment centers.

Department of Law Enforcement

- FDLE Commissioner has distributed a message to FDLE members about COVID19 prevention and precautions.
- Acquiring safety equipment and some PPE equipment.
- Provided legal reference kit to law enforcement statewide (ESF-16)
- Distributed "Law Enforcement Guidance" flyer to agencies statewide (ESF-16)
- Attended meetings with DEM/DOH/FHP and ESF-16 members
- Continue regular meetings with headquarters and state-wide leadership. "
- Reviewing COOP and expanded modified staffing opportunities
- FDLE has attended National Governor's Association / Homeland Security Administration / Center for Disease Control conference calls
- RDSTF meetings
- State partners providing immediate needs list to ESF-16 in reference to PPE

Department of Lottery

- Terminal messages have been sent to all of the Florida Lottery's more than 13,000 retailers detailing how to properly clean and disinfect highly touched areas like Lottery touchscreen terminals and vending machines.
- Lottery sales representatives are reiterating the safety tips provided by the Department of Health to retailers and encouraging retailers who may have additional questions visit the COVID-19 website.

Department of Management Services

- Reached out to multiple vendors for quotes for hand sanitizer and wipes for Supervisor of Elections.
- Searching for buildings that could host affected people in a quarantine type setting. Looking for isolation rooms as well as exploring state parks for camping room settings.
- Ordered and are delivering roughly 300 standing hand sanitizer dispensers and 160 gallons of gel hand sanitizer to facilities.
- Increased daily sanitation efforts of state buildings and distributed guidance to facility managers to increase efforts to sanitize office spaces.
- Contacted several environmental vendors that can be pre-positioned to mobilize in the event of a viricidal cleaning at a state-maintained facility.

DRAFT

AMERICAN OVERSIGHT

- DMS' Division of Retirement Call Center and PeopleFirst Call Center personnel were provided boilerplate messaging to direct callers to DOH COVID-19 webpage or dedicated call center/email for latest updates.
- Human Resource Management provided guidance to HR Directors on leave policies.
- Provided guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits.
- Prepared employee telework guidance and workforce planning information for HR Directors specific to COVID-19.
- Division of State Technology is researching quotes for additional VPN services as needed to support employees teleworking.
- DMS has placed web banners on People First, MFMP, FRS portal, mybenefits.com, myflorida.com, and Travel system websites directing them to the DOH COVID-19 site for official updates.
- Created best practices/preventative guidance to provide to agencies working with landlords in lease-based facilities. Contains list of recommended agency contracts a resource for additional cleaning services. Memo was sent to agency leasing contacts and communication offices.
- The Division of Human Resource Management is finalizing updates to their section of the DOH Pandemic Plan.
- Division public safety personnel continues to coordinate with the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management held a call with Facility Managers to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Email was sent follow-up with resources.
- DMS' Division of Real Estate Development and Management held a call with Capitol facility manager, Sergeant of Arms, and Capitol Police to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Division also held a call with Earley's Kitchen on the same. Email was sent follow-up with resources.
- DMS has identified 500 ventilators; awaiting approval

Department of Revenue

- Distributed information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19. "
- Guidance has been posted in public areas of the Department's CCOC building for visitors and meeting attendees in the building"
- Information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19.

Department of Transportation

AMERICAN OVERSIGHT

- Hosted call for seaports and airports on COVID-19
- Sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees.
- Beginning on Tuesday, 10 March 2020, FDOT is hosting two weekly teleconferences, one with passenger seaports and the other with public use airports, to provide a briefing and take questions.
- Secretary Thibault facilitated a conference call on Thursday, 05 March 2020 with Governor DeSantis and State Surgeon General Rivkees to advise seaports and public use airports regarding COVID-19 efforts.

Department of State

- The Florida Department of State has provided guidance and information to all 67 Florida Supervisors of Elections on how to prepare for COVID-19 at their polling locations for the March 17 Presidential Preference Primary.
- The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
- The Florida Department of State is using its social media platforms to encourage voters who are concerned about COVID-19 to make themselves aware of voting options and ways to protect themselves and their families.
- Social Media Messages-
    - #Florida voters concerned about Coronavirus Disease 2019 (COVID-19) should make themselves aware of ways to protect themselves and their family. Learn more about #COVID19 and ways to prevent the virus using resources from @HealthyFla here: http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of Vote-By-Mail ballots. The deadline to request a vote-by-mail ballot to be mailed to you is Saturday, March 7. More information: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of early voting sites. To see when and where early voting is available in your county visit: https://dos.myflorida.com/media/702721/2020-early-voting-locations-and-times-master-20200302.pdf.
    - Voters exhibiting symptoms of #COVID19 can designate someone to pick up their vote-by-mail ballot for them as late as 7:00 pm on Election Day by filling out affidavits for that designee. More information at: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - I always encourage #Florida voters to be informed about voting and what we are doing to protect their vote; that won't change.

AMERICAN OVERSIGHT

- I also want to ensure that voters inform themselves about #COVID19 & learn ways to protect themselves & their family. http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html"

- DOS also has an upcoming Supervisor of Elections call scheduled for Thursday, 3/12/20 at 10:00 A.M., in which DEM and DOH have been requested to attend.
- DOS is currently working on our telework policy. We have also increased hand sanitizer and sent an agency-wide communication to our members in order to provide employee guidance related to COVID-19.
- The Secretary of State, Assistant Secretary/Chief of Staff, Director of Elections and ECO held a call with the Director of Emergency Management and Chief of Staff to discuss preparation efforts that may be needed. The Director of Elections has surveyed all SOEs to ask what polling locations they have in assisted living facilities and if those polling locations are open to the public or residents only.

Department of Veteran Affairs

- Florida Department of Veterans' Affairs (FDVA) resources are currently focused on our network of state veterans' homes. FDVA operates state veterans' homes in Panama City, Lake City, St. Augustine, Daytona Beach, Pembroke Pines, Port Charlotte and Land O' Lakes.
- Effective March 11, 2020, the Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

Fish and Wildlife Conservation Commission

- Information regarding awareness, precautions, and reporting has been disseminated agency wide.
- Participated in a briefing from the Department of Homeland Security's Senior Medical Officer was shared with ESF-16 partners and FDLE personnel.
- Guidance has been issued for taking appropriate precautions to mitigate risk from COVID-19 agency wide.
- Accounted for all agency issued personal protective equipment.

Office of Attorney General

- Activated the Price Gougin Hotline is response

AMERICAN OVERSIGHT

Volunteer Florida

- Volunteer Florida has passed CDC guidance on COVID-19 to employees and our Florida VOAD Partners"
- "Volunteer Florida conducted an initial meeting with the FLVOAD to discuss additional actions including a FLVOAD call to be conducted this week to ensure all member organizations and partners are aware of CDC guidance. "
- VF is coordinating with the Florida Department of Elder Affairs to see how we can assist with spreading information to seniors.

Water Management Districts

- Reviewing continuity of operations and telework plans.
- Increasing cleaning and sanitation of failities.

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.
January 30, 2020	• World Health Organization declared the outbreak a public health emergency of international concern.
January 31, 2020	• Public Health Emergency was declared in the U.S. • U.S. government suspended entry of persons posing a risk of transmitting the virus in the U.S. • Distributed update CHD guidance document and health care provider letter with new patient under investigation criteria sent by CDC.
February 5, 2020	• Florida Department of Health began receiving notifications of persons entering Florida from outside the U.S. with potential exposure to monitor during the incubation period. • Conducted update call with Florida Hospital Association partners.
February 6, 2020	• Developed and distributed guidance on CHD implementation of CDCs guidance on risk assessment and monitoring of travelers to county health directors and epidemiologists.
February 12, 2020	• Conducted first Public Health & Healthcare Stakeholders Conference Call.
February 13, 2020	• Expanded activation of Incident Management Team to include Divisions of Disease Control, Bureau of Preparedness and Response, Office of Communications, Office of the Gneral Counsel and Office of County Health Systems.
February 19, 2020	• Conducted briefing with Executive Office of the Governor.
February 20, 2020	• Distributed CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions. • Distributed Long-Term Care Guidance to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions.
February 26, 2020	• Conducted briefing with Executive Office of the Governor. • Activated emergency duty policy to mobilize Department staff as needed to support the incident response.
February 27, 2020	• Distributed Personal Protective Equipment landscape assessment.
February 28, 2020	• Coducted press conference with Governor, Lieutenant Governor, State Surgeon General (SSG) and Deputy Scretary for Health regardign State Response to COVID-19. • Conducted Agency Emergency Coordination Officer Pandemic Preparedness Plannign Meeting in coordination with the Division of Emergency Management.

AMERICAN OVERSIGHT

	• Participated in meeting with Vice President Mike Pence, Gov. Ron DeSantis, Florida Lt. Gov. Jeanette Núñez, the U.S. Surgeon General and the Florida Surgeon General • Publically announced persons under investigation and monitoring numbers.
February 29, 2020	• Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs • Implemented testing at the State Public Health Laboraties.
March 1, 2020	• Presumtive positive cases of residents in Manatee and Hillsborough announced via press release. • Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency. • SSG Rivkees declared a public health emergency for the novel coronavirus in Florida. • Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education. • Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories
March 2, 2020	• DOH public call center for COVID-19 opened. • CDC confirmed two cases of COVID-19. • DOT Secretary Thibault sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees. • DCF's Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage. • DCF General Services staff throughout the state were directed to work with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and ordering more as needed.

AMERICAN OVERSIGHT

March 3, 2020	• Conducted call with Florida Healthcare Association for nursing homes. • Conducted call with Assisted Living Facilities and other residential treatment facilities. • Conducted call with Florida Medical Association • Scheduled twice meeting with county emergency mangement officials in coordination with the Division of Emergency Managemet. • Scheduled State Agency briefing. • Extened call center hours to 8pm EST (7pm CST) • Conducted call with Florida's federal legislative delegation. • DCF initiated status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday. • DCF Secretary Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates. • DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They will be reporting weekly with updates and to ensure compliance with virus prevention.
March 4, 2020	• Participated in the Florida Association of District School Superintendents call with Governor DeSantis, Lt. Governor Nunez, and Commissioner Corcoran. • Conducted weekly conference call with all public health & healthcare stakeholders hosted by the Florida Department of Health. • Conducted conference Call with Florida Hospitals hosted by the Florida Hospital Association. • Sustained healthcare call center. • Activated Joint Information Center with the Division of Emergency Management. • Extended public information call center hours to midnight. • The University Chancellors as well as university staff have participated in various statewide calls hosted by the SERT, including this past Wednesday's call on 03/4/2020 for all superintendents with the Governor and Surgeon General. • A poster detailing preventative actions was sent to Florida's 175 state parks and GTM Research Reserve, Rookery Bay Aquatic Preserve, and Apalachicola National Estuarine Research Reserve.
March 5, 2020	• Announced new presumptive positive case in a Florida resident from Sarasota County. • Requested 1.5 million N-95 masks from the federal stockpile. • Distributed screening guidance to public safety answering points. • Conducted a teleconference for the seaports and public airports. The call was hosted by the Florida Department of Transportation. • Received notification from CDC that Florida has been awarded $500,000 through the Public Health Emergency Response Cooperative Agreement.

AMERICAN OVERSIGHT

	• Secretary Thibault from the Department of Transportation facilitated a conference call with the Governor, Florida Surgeon General to advise on seaports and public use airports regarding COVID-19 efforts. • DCF distributed guidance from Centers for Medicare & Medicaid Services for hospitals and nursing homes was distributed for immediate implementation at both the State-operated and private Mental Health Treatment Facilities. The Chief Medical Officer of Florida State Mental Health Treatment Facilities is in the lead to oversee compliance and provide weekly reporting. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • A message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication. • DOH banner graphic was placed on the DEP website. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
March 6, 2020	• Extended call center hours to Monday – Friday for 24 hours a day. • Identified vendor for shipping container and assessed the supply chain quantities available for future needs. • Continues compiling Alternate Care Site supplies and tactics. • Continue to assess N95 supply chain. • Coordinated with the Florida Poison Control Information Network for transition of COVID-19 information line for long term sustainment. • Continue to pilot strategies including texting and video conferencing for monitoring persons under investigation. • Provided situational update on the Florida Health Care Association conference call. There were 524 call participants. • Participated in a conference call with the members of the Florida Association of Health Plans. • Participated in a conference call with Leading Age. There were 228 participants. • Provided a situational update on the Florida Hospital Association hosted conference call for hospitals. • Conducted a briefing for State Agency Emergency Coordination Officers on COVID-19 response actions and activities other agencies can take to assist with the coordinated statewide response.

AMERICAN OVERSIGHT

March 7, 2020	• Governor did press conference in Fort Lauderdale with Vice President Pence • Activated State Emergency Operations Center and is currently at a level two • Conducted notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Coordinated with AHCA to provide hospital guidance on masks through email blast. • Coordinated group notification to ACTRIMS conference attendees. • Identified resource plan for Alternate Care Site for hospital augmentation • Coordinated with DEM to gain knowledge of PPE resources through other state agencies.
March 8, 2020	• Conducted contingency planning for large scale quarantine for cruise ships. • Continuation of notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates. • Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices. • Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7. • Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.
March 9, 2020	• Governor conducted press conference with agency heads to provide an update to the public on the state's response • Attended Community Health Center call • Conducted county call with all case counties • Updated the testing algorithm • Provided guidance to county health departments on public safety answering points • Conducted call for the Congressional Delegation • Conducted call the Florida State Legislature • Provided coordination for seaports call

AMERICAN OVERSIGHT

March 10, 2020	• Disseminated Enhance Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) and Clinician Screening Tool • Coordinated with County Health Departments on how to prepare for planning a response one their county has a case of COVID-19. • Continue to coordinate efforts on call center to transfer to Poison Control contract. • Coordinated with the Division of Emergency Management to order resources.
March 11, 2020	• MCM Coordinator discussed Point of Collection contingency plan strategies with her workgroup • Supporting 3 missions • Coordinated contingency planning for nursing home PUI • ASPR notified ESF8 there will be a portion of requested cache delivered • Coordinated with Dr. Schepke on validation of resource request • Put out (Samantha fill in lab guidance verbiage) •

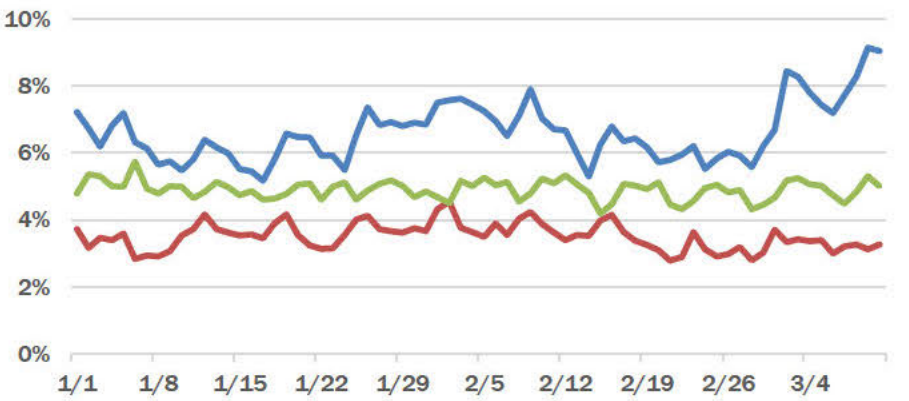
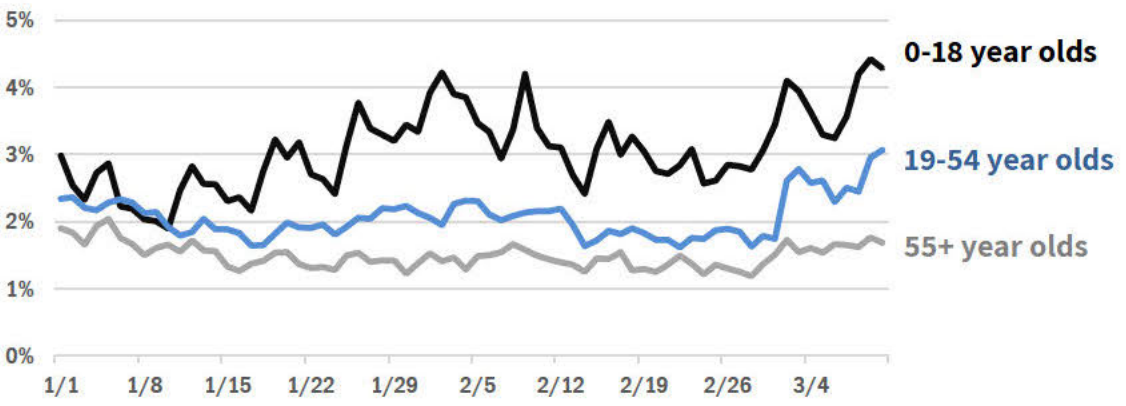
Coronavirus: additional surveillance information (confidential)



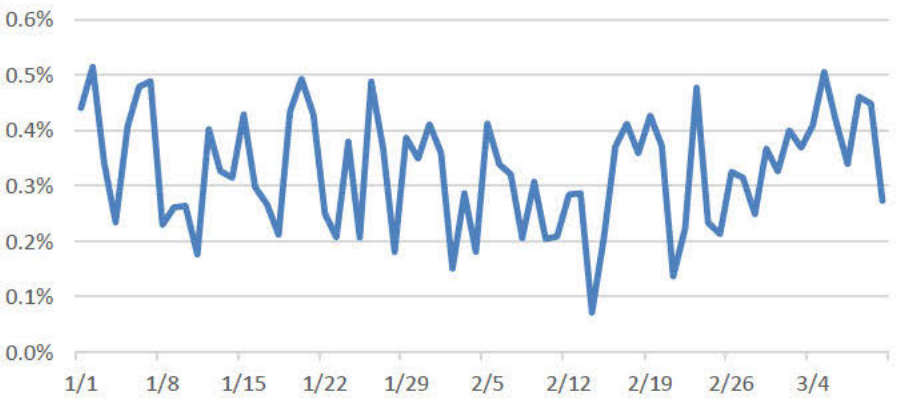
Mar 12, 2020 at 7:20 AM

Statewide emergency department (ED) chief complaint and admission data

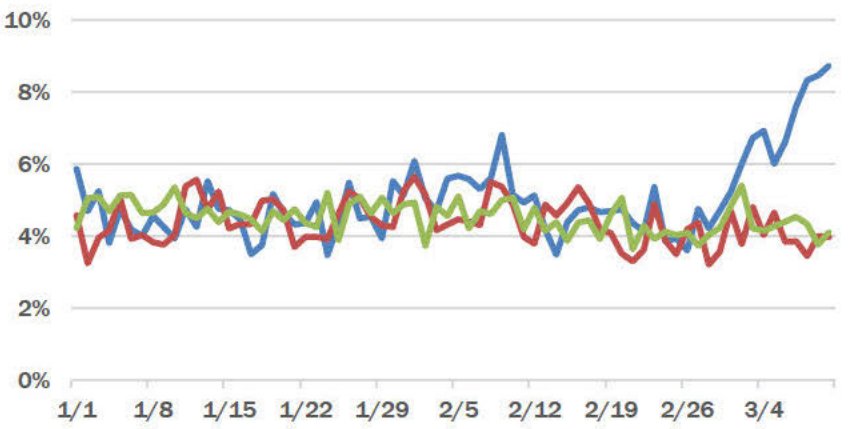


The daily percent of ED visits statewide that result in **cough-associated admissions** remains within expected levels.

The daily percent of ED visits statewide that mention **cough** has been elevated for the past week. **Shortness of breath** and **fever** are stable and within expected levels for this time of year.



The daily percent of ED visits statewide that mention cough has been elevated for the past week for **0-18 year olds** and **19-54 year olds**, and remains above expected levels for this time of year.



Broward County ED chief complaint and admission data

The daily percent of ED visits that result in **cough-associated admissions** in Broward County remains within expected levels.

The daily percent of ED visits that mention **cough** in Broward County has been elevated for the past week. **Shortness of breath** and **fever** are stable and within expected levels for this time of year.

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 215 of 216 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Saturday, March 7, 2020 at 9.22 a.m
CORRECTED

CASES TO DATE

- 207 persons under investigation
- 107 negatives
- 13 total cases reported
    - 12 in Florida residents
        - 7 diagnosed in Florida
        - 5 diagnosed and isolated in another state
    - 1 confirmed positive (non-Florida resident)
- 87 tests in state results pending
- 1018 people monitored to date
- 278 of that 1018 are currently being monitored

New Lee County cases added.

Cases reported today in Broward and Lee county are awaiting confirmation from CDC.

Call Center hotline hours are 24 hours a day, seven days a week

CURRENT OPERATIONAL OBJECTIVES

1. **Contain the spread of the virus in Florida** through rapid identification and isolation of suspect cases, active monitoring and limited movement of travelers with increased risks during the incubation period.
2. **Implement laboratory testing** capability in Florida public health laboratories.
3. **Provide guidance and information to healthcare providers** in Florida regarding reporting suspect cases, infection control procedures, and clinical care.
4. **Disseminate coordinated public health messaging** to the public, healthcare stakeholders and partner agencies.
5. **Support county health department (CHD) operations** for epidemiological investigations, monitoring, public messaging and preparedness through resources, staffing and technical guidance.
6. **Prepare for the possibility that coronavirus becomes a global pandemic** by ensuring plans, resources and capabilities are in place to respond to a widespread outbreak and lessen the impacts on communities in Florida.
7. Monitor Florida hospitals for increased patient volume and support **strategies for medical surge.**

DRAFT

AMERICAN OVERSIGHT

KEY ACTIVITIES

Incident Management

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Activated Joint Information Center in coordination with the Division of Emergency Management.
- E

Disease Control - COMPLETED

- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

Disease Control – IN PROGRESS

- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.

AMERICAN OVERSIGHT

- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.

Pandemic Preparedness - COMPLETED

- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:
    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Disseminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.

Pandemic Preparedness – IN PROGRESS

- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.

DRAFT

AMERICAN OVERSIGHT

- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.
January 30, 2020	• World Health Organization declared the outbreak a public health emergency of international concern.
January 31, 2020	• Public Health Emergency was declared in the U.S. • U.S. government suspended entry of persons posing a risk of transmitting the virus in the U.S. • Distributed update CHD guidance document and health care provider letter with new patient under investigation criteria sent by CDC.
February 5, 2020	• Florida Department of Health began receiving notifications of persons entering Florida from outside the U.S. with potential exposure to monitor during the incubation period. • Conducted update call with Florida Hospital Association partners.
February 6, 2020	• Developed and distributed guidance on CHD implementation of CDCs guidance on risk assessment and monitoring of travelers to county health directors and epidemiologists.
February 12, 2020	• Conducted first Public Health & Healthcare Stakeholders Conference Call.
February 13, 2020	• Expanded activation of Incident Management Team to include Divisions of Disease Control, Bureau of Preparedness and Response, Office of Communications, Office of the Gneral Counsel and Office of County Health Systems.
February 19, 2020	• Conducted briefing with Executive Office of the Governor.
February 20, 2020	• Distributed CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions. • Distributed Long-Term Care Guidance to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions.
February 26, 2020	• Conducted briefing with Executive Office of the Governor. • Activated emergency duty policy to mobilize Department staff as needed to support the incident response.
February 27, 2020	• Distributed Personal Protective Equipment landscape assessment.
February 28, 2020	• Coducted press conference with Governor, Lieutenant Governor, State Surgeon General (SSG) and Deputy Scretary for Health regardign State Response to COVID-19. • Conducted Agency Emergency Coordination Officer Pandemic Preparedness Plannign Meeting in coordination with the Division of Emergency Management.

AMERICAN OVERSIGHT

	• Participated in meeting with Vice President Mike Pence, Gov. Ron DeSantis, Florida Lt. Gov. Jeanette Núñez, the U.S. Surgeon General and the Florida Surgeon General • Publically announced persons under investigation and monitoring numbers.
February 29, 2020	• Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs • Implemented testing at the State Public Health Laboraties.
March 1, 2020	• Presumtive positive cases of residents in Manatee and Hillsborough announced via press release. • Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency. • SSG Rivkees declared a public health emergency for the novel coronavirus in Florida. • Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education. • Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories
March 2, 2020	• DOH public call center for COVID-19 opened. • CDC confirmed two cases of COVID-19.
March 3, 2020	• Conducted call with Florida Healthcare Association for nursing homes. • Conducted call with Assisted Living Facilities and other residential treatment facilities. • Conducted call with Florida Medical Association • Scheduled twice meeting with county emergency mangement officials in coordination with the Division of Emergency Managemet. • Scheduled State Agency briefing. • Extened call center hours to 8pm EST (7pm CST) • Conducted call with Florida's federal legislative delegation.
March 4, 2020	• Participated in the Florida Association of District School Superintendents call with Governor DeSantis, Lt. Governor Nunez, and Commissioner Corcoran. • Conducted weekly conference call with all public health & healthcare stakeholders hosted by the Florida Department of Health. • Conducted conference Call with Florida Hospitals hosted by the Florida Hospital Association. • Sustained healthcare call center. • Activated Joint Information Center with the Division of Emergency Management. • Extended public information call center hours to midnight.

AMERICAN OVERSIGHT

March 5, 2020	• Announced new presumptive positive case in a Florida resident from Sarasota County. • Requested 1.5 million N-95 masks from the federal stockpile. • Distributed screening guidance to public safety answering points. • Conducted a teleconference for the seaports and public airports. The call was hosted by the Florida Department of Transportation. • Received notification from CDC that Florida has been awarded $500,000 through the Public Health Emergency Response Cooperative Agreement.
March 6, 2020	• Extended call center hours to Monday – Friday for 24 hours a day. • Identified vendor for shipping container and assessed the supply chain quantities available for future needs. • Continues compiling Alternate Care Site supplies and tactics. • Continue to assess N95 supply chain. • Coordinated with the Florida Poison Control Information Network for transition of COVID-19 information line for long term sustainment. • Continue to pilot strategies including texting and video conferencing for monitoring persons under investigation. • Provided situational update on the Florida Health Care Association conference call. There were 524 call participants. • Participated in a conference call with the members of the Florida Association of Health Plans. • Participated in a conference call with Leading Age. There were 228 participants. • Provided a situational update on the Florida Hospital Association hosted conference call for hospitals. • Conducted a briefing for State Agency Emergency Coordination Officers on COVID-19 response actions and activities other agencies can take to assist with the coordinated statewide response.

AMERICAN OVERSIGHT

Forum Club of Southwest Florida, Inc.

Speaking Order

1. Joe Fogg
2. **Governor DeSantis**

Talking Points

[Introduction]

- Thank you for inviting me to speak at the Forum Club today.

- This organization provides a great service to the community by bringing in speakers from a wide range of backgrounds: Supreme Court justices, business leaders, former governors—the list is long and distinguished.

- As Governor, I am excited to share with you the great things we are doing in Florida to that will bring about a brighter future for all Floridians.

[COVID-19]

- Before I get into some of my initiatives and policy priorities, I will briefly address the state's response to COVID-19.

- On the first of this month, I issued an Executive Order directing the Department of Health to declare a public health emergency to better equip our state with the resources needed to handle this threat.

- I also asked the state legislature and federal government for additional funds to ensure the state has the means to test for COVID-19 as quickly as possible and ability to effectively communicate with the public about how to stay healthy.

- Our state Surgeon General, Dr. Scott Rivkees and his public health team have been working with our local County Health Departments and the CDC to ensure we are doing all we can to mitigate any spread of the virus.

- I've also met with Vice President Pence and he has assured me that we have the full support of the federal government.

AMERICAN OVERSIGHT

- While we're doing everything we can to prepare, the public should know that the virus still poses a low threat to the United States.

[Economy]

- **Aside from the COVID-19 distraction, Florida is a state on the ascent.**

- Florida's recent job reports give us a snapshot of a strong economy:

    - **Our unemployment rate recently dropped to 3.0 percent – the lowest recorded unemployment in Florida's history; and**

    - **The state's annual private-sector job growth rate of 2.5 percent continues to outpace the national job growth rate of 1.5 percent.**

[Business Recruitment]

- Florida is attracting people and companies from around the country and world.

- And my administration is assisting companies with their move.

- In particular, we are selling Florida to major companies dealing with the inhospitable politics and high taxes. So far, I've made three economic development trips--two to New York and one to Chicago—and look forward to more in the near future.

- For me, the sales pitch for Florida is easy, and for companies, the decision to relocate is even easier:

    - Low taxes vs high taxes;

    - Low cost of living vs high cost of living;

    - Good weather vs bad weather;

    - An education system focused on the student vs an education system focused on the administrator;

AMERICAN OVERSIGHT

- A healthy environment vs. a polluted environment.

- And they're taking us up on it. It seems like every day I am announcing a new company is relocating to or expanding in Florida.

- Two industries in particular are worth highlighting for their recent growth.

[Commercial Space]

- The first is the commercial space industry.

- Just recently, I announced that a company called "Made In Space," which is on the cutting edge of aerospace manufacturing and innovation, decided to relocate their corporate headquarters and satellite manufacturing operations from the highly-taxed, highly-regulated state of California, to the business friendly environment of Florida.

- Made In Space's move just builds on other exciting announcements in the aerospace industry I've been able to make since taking office.

- **Last year:**

  - **Firefly Aerospace Inc.** announced a multi-year, $52 million launch and development project that is expected to generate over 200 jobs;

  - **Boeing** announced that it is moving its Space and Launch Headquarters from Arlington, Va. to Titusville;

  - **Lockheed Martin** announced the establishment of its new Fleet Ballistic Missile Program Headquarters on the Space Coast; **and**

  - **One Web Satellites** opened the doors to its new 105,500 square foot production facility, which has two production lines capable of producing two satellites a day, creating 250 new high-tech jobs and 3,000 indirect jobs through the supply chain.

- And mega companies like Space X and Blue Origin continue to grow their footprints in Florida.

AMERICAN OVERSIGHT

- To assist the industry, I am constantly looking for areas to make infrastructure and workforce investments though my Job Growth Grant Fund. **So far:**

    - I made significant infrastructure investments in both the **Melbourne Airport and Pensacola Airport**.

    - Both airports will now be able to attract and support major new developments. The **Pensacola airport** will be the site of one of the biggest maintenance overhaul and repair operations in the world.

- I will continue to look for ways to support commercial space; I think Florida is just beginning to scratch the surface of our potential in this very exciting industry.

[Financial Industry and FinTech]

- The second industry I'd like to highlight is the financial services industry.

- Banks and private equity funds, hedge funds and venture capital firms are all moving to Florida in droves to escape the high taxes and political demagoguery of the northeast.

- My administration has placed a priority on supporting the financial industry because it offers high paying jobs, fuels innovation and attracts growth.

- To that end, in 2019, I announced my initiative to grow and recruit the future of financial technology in Florida by creating a FinTech regulatory sandbox.

- In the past, state regulatory structures have impeded transformative and innovative technology development.

- The "regulatory sandbox" will ease regulatory burdens for innovators in the financial services technology sector in ways that are not contemplated in our current regulations and provide them with the ability to test a product's market viability without extensive regulatory hurdles.

AMERICAN OVERSIGHT

- To complement that initiative, I also announced my objective to create "FinTech" academies at our state colleges and technical centers through the award of grants from the Florida Job Growth Grant Fund.

- FinTech academies will offer students the ability to grow with the continuously evolving world of technology and its intersection with finance.

- I was proud to announce the first Fin Tech academy in Jacksonville just a few weeks ago.

[*Legislative session: Budget, Environment, Education*]

- Beyond diversifying our economy and supporting new and exciting industries, we are nearing the end of our Legislative Session, where I think we will be able to put a lot of wins on the board for Floridians.

- **Three areas in particular are worth noting.**

[Budget]

- **First**, Florida is constitutionally required to pass a balanced budget. My Bolder, Brighter, Better Future budget called on the Legislature to place **$5.6 billion be in reserves and** provide Floridians with **$300 million** in tax relief.

- I'm confident the Legislature will deliver a fiscally sound product, but I look forward to closely reviewing each line with my veto pen to make sure of it.

[Environment]

- **Second**, I am hoping to build on my administration's efforts to protect and preserve Florida's environment.

- In my first year as Governor, with the help of the Florida Legislature, we were able to make significant progress for the environment.

    - In my first budget as Governor I secured well over $625 million for Everglades restoration and the protection of our water resources.

AMERICAN OVERSIGHT

- This $625 million not only gave us an encouraging start to achieve our goal of $2.5 billion over four years, it also included the largest investment in the Everglades in a single year in Florida's history.

- This session, I'm asking the Legislature to make the $625 million recurring for the next three years to ensure we meet the $2.5 billion goal.

- Additionally, I appointed the state's first Chief Science Officer, Dr. Thomas Frazer, to help ensure the state adheres to science when determining how to best utilize the state's limited resources on water quality and other initiatives.

- I created the Blue Green Algae Task Force and re-established the Red Tide Task Force to help address the terrible algal blooms that plagued communities around the state in 2017 and 2018, including the Indian River Lagoon.

- We also recently reached an agreement to purchase **20,000 acres of critical wetlands in the heart of the Everglades**.

    - **The purchase will permanently save the land from oil drilling, which was the landowner's plan. The purchase will also be the largest wetland acquisition in a decade.**

- Further, we continue to work closely with the Army Corps of Engineers to limit harmful discharges from Lake Okeechobee to the east and west.

- So far, the Corps has significantly limited discharges compared to previous years, and estuaries are largely algae-free.

- I also worked with President Trump to confirm he would include $250 million for South Florida Ecosystem Restoration in his 2021 budget – one of the biggest requests for Everglades funding by any president.

- The $250 million follows his previous request of $200 million and would fulfill the Army Corps' maximum capacity for restoration projects.

AMERICAN OVERSIGHT

- To complement all of these efforts, we're spending the last days of session pushing for **two** more major pieces of legislation in addition to my ask for continued funding:

    - comprehensive water quality legislation that incorporates recommendations from the Blue-Green Algae Task force;

    - and a bill that will increase fines associated with environmental penalties by 50 percent across the board.

- I feel confident on both fronts and hope to have them on my desk soon.

[Education]

- **Lastly**, like last session, I am pursuing a bold education agenda.

- In 2019 for K-12, my administration secured the highest ever per pupil spending at $7,672, and by creating the Family Empowerment Scholarship and securing $147 million for the Gardiner Scholarship, we accomplished more for school choice than has been accomplished in decades.

- **This year on K-12:**

    - We're seeking to increase the minimum salary for public school teachers to $47,500, bringing Florida from the bottom half to number 2 in the nation;

    - We're continuing record investments in educational choice programs so parents, particularly low-income parents, can place their child in a good school;

    - We're measuring results through accountability by replacing Common Core with the B.E.S.T. Standards; and

    - We're placing a renewed emphasis on American Civics education.

- On the higher education front, U.S. News and World Report has-- for the third year in the row-- ranked Florida as having the best public higher education system in the country:

AMERICAN OVERSIGHT

- UF is ranked 7th, heading for the top 5;
- FSU is ranked 18th, heading for the top 15; and
- USF is ranked 44th, heading for the top 25.

- I will continue to support our universities, but I am also leaning in on career and technical education.
- A four-year degree from a brick and ivy university is not for everyone. Some students are far better off learning a trade than incurring insurmountable debt for a useless degree.
- We are pursuing additional funds for workforce development to continue on our path to making Florida the number one state in the nation for career and technical training programs by 2030.
- There is a large and growing demand for jobs in education, health services, trade, transportation and technology, and Florida's education options should be able to match it.

[Close]

- From COVID-19 to education and everything in between, my administration will continue moving aggressively to serve the people of this great state.
- Thank you all for having me here at the Forum Club.
- I look forward to returning to see you all again soon.
- Thank you.

AMERICAN OVERSIGHT

STATE OF FLORIDA
DEPARTMENT OF HEALTH
DECLARATION OF PUBLIC HEALTH EMERGENCY

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that appears to occur through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, as of February 29, 2020, COVID-19 has spread throughout China and to 67 other countries and territories, including 62 cases within the United States; and

WHEREAS, the Centers for Disease Control and Prevention recommends that all states and territories implement aggressive measures to slow and contain transmission of COVID-19 in the United States; and

WHEREAS, on January 30, 2020, the World Health Organization declared a public health emergency of international concern related to COVID-19; and

WHEREAS, on January 31, 2020, the United States Department of Health and Human Services declared that a public health emergency exists nationwide as a result of confirmed cases of COVID-19 in the United States; and

WHEREAS, one Hillsborough County resident and one Manatee County resident have tested presumptively positive for COVID-19; and

WHEREAS, on March 1, 2020, Governor Ron DeSantis issued Executive Order 20-51, declaring that appropriate measures to control the spread of COVID-19 in the state of Florida are necessary, and therefore directed that a Public Health Emergency be declared in the state of Florida; and

WHEREAS, implementation of basic precautions of infection control and prevention, including staying at home when ill and practicing respiratory and hand hygiene are necessary to slow or prevent the spread of COVID-19; and

WHEREAS, COVID-19 is a communicable disease with significant morbidity and mortality, and presents a severe danger to public health; and

WHEREAS, COVID-19 is a threat to public health in Florida.

NOW, THEREFORE, I, Scott A. Rivkees, M.D., State Surgeon General and State Health Officer, by virtue of Executive Order Number 20-51 issued by Governor Ron DeSantis, the authority vested in me by section 381.00315, Florida Statutes, and after consultation with

AMERICAN OVERSIGHT

Governor Ron DeSantis and public health officials within the Department of Health, do hereby declare that a public health emergency exists in the State of Florida. In order to respond to this emergency, the following shall commence:

Section 1. In order to protect public health, I find it is necessary for the Florida Department of Health to request assistance from the Centers for Disease Control and Prevention to address this public health emergency.

Section 2. In order to protect public health, I find it is necessary to advise individuals in the state of Florida that have traveled to an area that the Centers for Disease Control and Prevention has issued a Warning Level 3 or Alert Level 2 Travel Health Notice, or have been in close contact with an individual that has traveled to such an area, that develop symptoms of fever, cough, shortness of breath, or difficulty breathing within 14 days of such travel or close contact should immediately contact the Florida Department of Health in their current county and self-isolate until cleared by the Florida Department of Health.

Section 3. In order to protect public health, I find it is necessary to advise any individuals who believe they may have been exposed to COVID-19 to contact their local county health department **prior to** travelling to any physician's office, emergency department, hospital, or urgent care center, to ensure proper protective measures are taken to prevent further risk of spread to others.

Section 4. In order to protect public health, I find it is necessary to remind health care providers, hospitals, and labs that they are required to immediately report all suspected cases of COVID-19 to the local county health department to ensure a prompt public health response to prevent disease among close contacts.

Section 5. In order to protect public health, the Florida Department of Health will maintain an Incident Management Team to coordinate the public health response for the State of Florida.

Section 6. In order to protect public health, the Florida Department of Health, at such time when necessary, may take actions to protect the public health, pursuant to the authority of section 381.00315, Florida Statutes, including quarantine, isolation and other interventions.

Issued this 1st day of March 2020, in Department of Health offices, Tallahassee, Leon County, Florida.

Scott A. Rivkees, M.D.
State Surgeon General

AMERICAN OVERSIGHT

COVID-19 Incident Management Team
Activities Roll-up for Executive Management
As of Sunday, March 8, 2020 at 8 p.m.

CASES TO DATE

- 273 persons under investigation
- 140 negatives
- 18 total cases reported
    - 17 in Florida residents
        - 12 diagnosed in Florida
        - 5 diagnosed and isolated in another state
    - 1 confirmed positive (non-Florida resident)
- 2 deaths
- 115 tests in state results pending
- 1104 people monitored to date
- 302 of that 1104 are currently being monitored

New case in Broward county identified today.

Call Center hotline hours are 24 hours a day, seven days a week

CURRENT OPERATIONAL OBJECTIVES

1. **Contain the spread of the virus in Florida** through rapid identification and isolation of suspect cases, active monitoring and limited movement of travelers with increased risks during the incubation period.
2. **Implement laboratory testing** capability in Florida public health laboratories.
3. **Provide guidance and information to healthcare providers** in Florida regarding reporting suspect cases, infection control procedures, and clinical care.
4. **Disseminate coordinated public health messaging** to the public, healthcare stakeholders and partner agencies.
5. **Support county health department (CHD) operations** for epidemiological investigations, monitoring, public messaging and preparedness through resources, staffing and technical guidance.
6. **Prepare for the possibility that coronavirus becomes a global pandemic** by ensuring plans, resources and capabilities are in place to respond to a widespread outbreak and lessen the impacts on communities in Florida.
7. Monitor Florida hospitals for increased patient volume and support **strategies for medical surge.**

DRAFT

AMERICAN OVERSIGHT

KEY ACTIVITIES

Department of Health

- Established an incident management team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19 as depicted in the updated Florida's Response to Emerging Infectious Disease infographic.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call-center for questions regarding COVID-19. Call center launched Monday, March 2nd.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Presumptive positive cases of residents in Manatee and Hillsborough announced via press release.
- Governor DeSantis issued an Executive Order directing the SSG to declare a public health emergency.
- SSG Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Activated Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surviellance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Approved updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19).
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs.
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician level briefing for medical audiences.
- Close contacts of presumptive cases have been identified and are being monitored for 14 days. Any close contacts with symptoms will be tested.
- Developing plans for implementation of private lab testing.
- Procured a personal protective equipment cache of 169,200 N95 respirators with fit testing kits.
- Disseminated pandemic planning guidance as follows:

AMERICAN OVERSIGHT

    - Department of Health (DOH) Infographic: Florida's Response to Emerging Infectious Diseases
    - CDC Long-Term Care Facility Pandemic Preparedness Checklist provided to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions (HCC).
    - Journal Publication: Community Mitigation Guidelines to Prevent Pandemic Influenza to County Health Departments and Health Care Coalitions.
    - CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions
    - Disseminated CDC Guidance: Strategies for Optimizing the Supply of N95 Respirators to CHDs and HCCs.
- Advised to CHDs and HCCs to keep any expired personal protective equipment until further guidance is received regarding potential extended use.
- Conducted two meetings with the Division of Emergency Management (DEM) regarding inter-agency coordination for pandemic planning and established on-going weekly coordination meetings.
- Conducted a pandemic planning meeting with select state agencies to further develop tactical implementation plans. Those agencies include:
    - Agency for Health Care Administration
    - Department of Education
    - Department of Management Services
    - Division of Emergency Management
    - Florida National Guard
- Dissiminated a landscape assessment to healthcare system partners to gauge personal protective equipment supply level and gaps among Florida's healthcare providers.
- Continued development of public information documents for the public.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- Developing infographics for the general public and community partners regarding non-pharmaceutical interventions and how they are applied during a pandemic.
- Developing protocols for Public Safety Answering Points and Emergency Medical Service providers to prioritize transports and support home health activities.
- Developing guidance for healthcare facilities on decompressing the emergency departments.
- Developing alternate care site support packages with tents and temporary facilities, that could be deployed to hospitals to support the triage and treatment of cases prior to entering the emergency department.
- Developing guidance and allocations strategies for the distribution and dispensing of medical countermeasures to include personal protective equipment and vaccine (for when it becomes available).
- Developing protocols for CHDs in the protection of their staff and clinic activities through the development of safety and health guidance.
- Developing logistical capabilities to support a large quarantine if necessary.
- Requested additional N-95 masks from the federal stockpile.

DRAFT

AMERICAN OVERSIGHT

Agency for Health Care Administration

- Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Tuesday, March 3, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for assisted living facilities, intermediate care facilities, Agency for Persons with Disabilities (APD) group homes and adult family care homes on Tuesday, March 3, with nearly 1500 participants. Secretary Mayhew, Surgeon General Rivkees and APD Director Palmer addressed critical issues impacting these providers such as restricting and screening visitors.
- Hosted a statewide call for hospitals in conjunction with the Florida Hospital Association on Wednesday, March 4, with 84 locations participating. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting Florida hospitals.
- Hosted a statewide call for nursing homes in conjunction with the Florida Health Care Association on Friday, March 6, with 524 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting these providers such as a newly developed visitor screening toolkit and recent memos from the Centers for Medicare and Medicare Services.
- Hosted a statewide call for hospitals in conjunction with LeadingAge Florida and the Florida Life Care Residents Association on Friday, March 6, with 1000 participants. Secretary Mayhew and Surgeon General Rivkees addressed critical issues impacting senior populations and nursing homes.
- Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.

Agency for Persons with Disabilities

- Distributed DOH and CDC guidance to Florida Association of Rehabilitative Services, Arc of Florida, Family Care Council of Florida and Florida Developmental Disabilities Council.
- Added COVID-19 information to APD website.

Board of Governors for the State University System

- Participate in multiple statewide calls for situational awareness.
- The Chancellors Office has advised our 12 state university partners to continue to follow the guidance of the CDC and Florida Dept. of Health
- Posted the DOH Link on the Board webpage
- Posted information on each universities COVD-29 response on our webpage https://www.flbog.edu/2020/03/05/university-information-on-covid-19/

Department of Children & Families

AMERICAN OVERSIGHT

- Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage.

Department of Education

- Distributed guidance from the CDC and the Florida Department of Health concerning care and cleaning of schools, returning students from foreign trips, quarantining in college or university dorms.
- Coordinated with pandemic planning activities.
- Participated in statewide call for educational entities.

Department of Elder Affairs

- Provided guidance to Area Agencies on Aging on how to protect clients and staff and no resources have been requested at this time.
- Guidance from the Florida Department of Health and CDC Websites have been provided to all DOEA Staff in an email from the Secretary.
- Provide guidance from the Florida Department of Health's website to Area Agencies on Aging and lead agencies on how to protect clients and staff.
- Added a link to the Florida Department of Health Coronavirus site on the Department of Elder Affairs website page.

Department of Environmental Protection

- Both Florida State Parks and DEP have been sharing DOH and EOG guidance on all social media platforms.
- On March 5, a message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication.
- On March 5, the DOH banner graphic was placed on the DEP website.
- Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment.
- On March 6, DEP provided verbal response guidance and FAQs to Florida State Park field staff and Public Services to prepare for inquiries from the public.
- On March 7, all Florida State Parks and DEP accounts began posting direct content.
- DEP has reviewed the agency's Continuity of Operations Plan's pandemic protocols to make sure it is up- to-date and reflects most recent DOH and CDC guidance.
- DEP continues to coordinate with the Governor's Office and Department of Health on emerging case-specific issues.
- DEP Leadership continues to communicate hand washing and safety protocols.
- Extra hand sanitizing stations have been placed in the Bob Martinez, Douglas and Carr buildings in Tallahassee.
- • On March 5, guidance was sent to all Land and Recreation employees on the appropriate use of disposable gloves and masks as personal protective equipment.
- • DEP's Division of Recreation and Parks continues to evaluate and procure necessary personal protective equipment and sanitation supplies to ensure the health and safety of employees, volunteers and visitors at state parks.

AMERICAN OVERSIGHT

Department of Highway Safety & Motor Vehicles

- Providing to all its employees FDOH and CDC guidance, resources and materials on best practices to prevent illness.
- Created an internal SharePoint webpage where all pertinent FDOH and CDC COVID-19 updates, resources and guidance are being stored for department employees to access.
- Increasing sanitation efforts at its facilities with a focus on high-traffic areas and frequently contacted surfaces, such as elevators, door handles, water fountains, etc.
- Working to ensure it has an adequate supply of sanitation products for its facilities as well as its public-facing personnel, such as driver license office staff and members of the Florida Highway Patrol.
- Exploring the feasibility and technical requirements, should it become necessary, of telework and modified staffing at certain locations.

Department of Law Enforcement

- FDLE Commissioner has distributed a message to FDLE members about COVID19 prevention and precautions.
- Acquiring safety equipment and some PPE equipment.
- Provided legal reference kit to law enforcement statewide (ESF-16)
- Distributed "Law Enforcement Guidance" flyer to agencies statewide (ESF-16)
- Attended meetings with DEM/DOH/FHP and ESF-16 members
- Continue regular meetings with headquarters and state-wide leadership. "

Department of Management Services

- Reached out to multiple vendors for quotes for hand sanitizer and wipes for Supervisor of Elections.
- Searching for buildings that could host affected people in a quarantine type setting. Looking for isolation rooms as well as exploring state parks for camping room settings.
- Ordered and are delivering roughly 300 standing hand sanitizer dispensers and 160 gallons of gel hand sanitizer to facilities.
- Increased daily sanitation efforts of state buildings and distributed guidance to facility managers to increase efforts to sanitize office spaces.
- Contacted several environmental vendors that can be pre-positioned to mobilize in the event of a viricidal cleaning at a state-maintained facility.
- DMS' Division of Retirement Call Center and PeopleFirst Call Center personnel were provided boilerplate messaging to direct callers to DOH COVID-19 webpage or dedicated call center/email for latest updates.
- Human Resource Management provided guidance to HR Directors on leave policies.
- Provided guidance to all SPS employees on preventive actions in the workplace, reporting symptoms, use of leave and utilizing health insurance benefits.
- Prepared employee telework guidance and workforce planning information for HR Directors specific to COVID-19.
- Division of State Technology is researching quotes for additional VPN services as needed to support employees teleworking.
- DMS has placed web banners on People First, MFMP, FRS portal, mybenefits.com, myflorida.com, and Travel system websites directing them to the DOH COVID-19 site for official updates.

AMERICAN OVERSIGHT

- Created best practices/preventative guidance to provide to agencies working with landlords in lease-based facilities. Contains list of recommended agency contracts a resource for additional cleaning services. Memo was sent to agency leasing contacts and communication offices.
- The Division of Human Resource Management is finalizing updates to their section of the DOH Pandemic Plan.
- Division public safety personnel continues to coordinate with the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- Public safety communications personnel continue to coordinate with state 911/public safety communications personnel on their plans to ensure emergency communications systems are not impacted by a reduction in staffing resources.
- DMS' Division of Real Estate Development and Management held a call with Facility Managers to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Email was sent follow-up with resources.
- DMS' Division of Real Estate Development and Management held a call with Capitol facility manager, Sergeant of Arms, and Capitol Police to provide CDC guidance for cleaning, posters on handwashing to post in common areas, and directions to building occupants and managers on steps to take to prevent workplace contamination. Division also held a call with Earley's Kitchen on the same. Email was sent follow-up with resources.

Department of Revenue

- Distributed information to employees related to the Department's response to COVID 19 and select material from the Department of Health and the Centers for Disease Control and Prevention on steps people can take to limit the spread of COVID 19. "
- Guidance has been posted in public areas of the Department's CCOC building for visitors and meeting attendees in the building"

Department of Transportation

- Hosted call for seaports and airports on COVID-19
- Sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees.

Department of State

- The Florida Department of State has provided guidance and information to all 67 Florida Supervisors of Elections on how to prepare for COVID-19 at their polling locations for the March 17 Presidential Preference Primary.
- The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.

AMERICAN OVERSIGHT

- The Florida Department of State is using its social media platforms to encourage voters who are concerned about COVID-19 to make themselves aware of voting options and ways to protect themselves and their families.
- Social Media Messages-
    - #Florida voters concerned about Coronavirus Disease 2019 (COVID-19) should make themselves aware of ways to protect themselves and their family. Learn more about #COVID19 and ways to prevent the virus using resources from @HealthyFla here: http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of Vote-By-Mail ballots. The deadline to request a vote-by-mail ballot to be mailed to you is Saturday, March 7. More information: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - The Florida Department of State encourages voters concerned about #COVID19 to take advantage of early voting sites. To see when and where early voting is available in your county visit: https://dos.myflorida.com/media/702721/2020-early-voting-locations-and-times-master-20200302.pdf.
    - Voters exhibiting symptoms of #COVID19 can designate someone to pick up their vote-by-mail ballot for them as late as 7:00 pm on Election Day by filling out affidavits for that designee. More information at: https://dos.myflorida.com/elections/for-voters/voting/vote-by-mail/
    - I always encourage #Florida voters to be informed about voting and what we are doing to protect their vote; that won't change.
    - I also want to ensure that voters inform themselves about #COVID19 & learn ways to protect themselves & their family. http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html"
- DOS also has an upcoming Supervisor of Elections call scheduled for Thursday, 3/12/20 at 10:00 A.M., in which DEM and DOH have been requested to attend.
- DOS is currently working on our telework policy. We have also increased hand sanitizer and sent an agency-wide communication to our members in order to provide employee guidance related to COVID-19.

Fish and Wildlife Conservation Commission

- Information regarding awareness, precautions, and reporting has been disseminated agency wide.
- Participated in a briefing from the Department of Homeland Security's Senior Medical Officer was shared with ESF-16 partners and FDLE personnel.
- Guidance has been issued for taking appropriate precautions to mitigate risk from COVID-19 agency wide.
- Accounted for all agency issued personal protective equipment.

Volunteer Florida

- Volunteer Florida has passed CDC guidance on COVID-19 to employees and our Florida VOAD Partners"

DRAFT

AMERICAN OVERSIGHT

- "Volunteer Florida conducted an initial meeting with the FLVOAD to discuss additional actions including a FLVOAD call to be conducted this week to ensure all member organizations and partners are aware of CDC guidance. "

Water Management Districts

- Reviewing continuity of operations and telework plans.
- Increasing cleaning and sanitation of failities.

DRAFT

AMERICAN OVERSIGHT

TIMELINE OF SIGNIFICANT ACTIVITIES

Time Line	Key Activities
January 21, 2020	• DOH Website updated with novel coronavirus as a trending topic. • CDC Health Alert Network Advisories on surveillance, testing, and infection control of novel coronavirus disseminated through the Health Alert Network.
January 29, 2020	• Distributed reporting and preparedness guidance document for health care providers (HCPs) and laboratories to stakeholders through Medical Quality Assurance and County Health Department/Health Officers.
January 30, 2020	• World Health Organization declared the outbreak a public health emergency of international concern.
January 31, 2020	• Public Health Emergency was declared in the U.S. • U.S. government suspended entry of persons posing a risk of transmitting the virus in the U.S. • Distributed update CHD guidance document and health care provider letter with new patient under investigation criteria sent by CDC.
February 5, 2020	• Florida Department of Health began receiving notifications of persons entering Florida from outside the U.S. with potential exposure to monitor during the incubation period. • Conducted update call with Florida Hospital Association partners.
February 6, 2020	• Developed and distributed guidance on CHD implementation of CDCs guidance on risk assessment and monitoring of travelers to county health directors and epidemiologists.
February 12, 2020	• Conducted first Public Health & Healthcare Stakeholders Conference Call.
February 13, 2020	• Expanded activation of Incident Management Team to include Divisions of Disease Control, Bureau of Preparedness and Response, Office of Communications, Office of the Gneral Counsel and Office of County Health Systems.
February 19, 2020	• Conducted briefing with Executive Office of the Governor.
February 20, 2020	• Distributed CDC Healthcare Providers Preparedness Checklist & Hospital Preparedness Tool to Florida Hospital Association and Health Care Coalitions. • Distributed Long-Term Care Guidance to Agency for Health Care Administration, Florida Health Care Association and Health Care Coalitions.
February 26, 2020	• Conducted briefing with Executive Office of the Governor. • Activated emergency duty policy to mobilize Department staff as needed to support the incident response.
February 27, 2020	• Distributed Personal Protective Equipment landscape assessment.
February 28, 2020	• Coducted press conference with Governor, Lieutenant Governor, State Surgeon General (SSG) and Deputy Scretary for Health regardign State Response to COVID-19. • Conducted Agency Emergency Coordination Officer Pandemic Preparedness Plannign Meeting in coordination with the Division of Emergency Management.

DRAFT

AMERICAN OVERSIGHT

	• Participated in meeting with Vice President Mike Pence, Gov. Ron DeSantis, Florida Lt. Gov. Jeanette Núñez, the U.S. Surgeon General and the Florida Surgeon General • Publically announced persons under investigation and monitoring numbers.
February 29, 2020	• Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, HCCs and CHDs • Implemented testing at the State Public Health Laboraties.
March 1, 2020	• Presumtive positive cases of residents in Manatee and Hillsborough announced via press release. • Governor DeSantis issued an Executive Order directing the SSG to declare a poublic health emergency. • SSG Rivkees declared a public health emergency for the novel coronavirus in Florida. • Distributed updated CDC guidance for schools to CHDs and the Deaprtment of Education. • Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories
March 2, 2020	• DOH public call center for COVID-19 opened. • CDC confirmed two cases of COVID-19. • DOT Secretary Thibault sent out an all staff and consultant email on Monday, March 2, addressing all talking points provided from DOH from hand washing, hand sanitizers, telework, vigilance on symptoms, workplace safety and employee welfare. A follow-up email was also sent to all employees from FDOT HR on Q&A for telework, leave rules and use, supervisor roles in encountering symptomatic employees. • DCF's Office of Child Welfare sent communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). This information was also posted prominently on DCF's Child Care webpage. • DCF General Services staff throughout the state were directed to work with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and ordering more as needed.

DRAFT

AMERICAN OVERSIGHT

March 3, 2020	• Conducted call with Florida Healthcare Association for nursing homes. • Conducted call with Assisted Living Facilities and other residential treatment facilities. • Conducted call with Florida Medical Association • Scheduled twice meeting with county emergency mangement officials in coordination with the Division of Emergency Managemet. • Scheduled State Agency briefing. • Extened call center hours to 8pm EST (7pm CST) • Conducted call with Florida's federal legislative delegation. • DCF initiated status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday. • DCF Secretary Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates. • DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They will be reporting weekly with updates and to ensure compliance with virus prevention.
March 4, 2020	• Participated in the Florida Association of District School Superintendents call with Governor DeSantis, Lt. Governor Nunez, and Commissioner Corcoran. • Conducted weekly conference call with all public health & healthcare stakeholders hosted by the Florida Department of Health. • Conducted conference Call with Florida Hospitals hosted by the Florida Hospital Association. • Sustained healthcare call center. • Activated Joint Information Center with the Division of Emergency Management. • Extended public information call center hours to midnight. • The University Chancellors as well as university staff have participated in various statewide calls hosted by the SERT, including this past Wednesday's call on 03/4/2020 for all superintendents with the Governor and Surgeon General. • A poster detailing preventative actions was sent to Florida's 175 state parks and GTM Research Reserve, Rookery Bay Aquatic Preserve, and Apalachicola National Estuarine Research Reserve.
March 5, 2020	• Announced new presumptive positive case in a Florida resident from Sarasota County. • Requested 1.5 million N-95 masks from the federal stockpile. • Distributed screening guidance to public safety answering points. • Conducted a teleconference for the seaports and public airports. The call was hosted by the Florida Department of Transportation. • Received notification from CDC that Florida has been awarded $500,000 through the Public Health Emergency Response Cooperative Agreement.

DRAFT

AMERICAN OVERSIGHT

	• Secretary Thibault from the Department of Transportation facilitated a conference call with the Governor, Florida Surgeon General to advise on seaports and public use airports regarding COVID-19 efforts. • DCF distributed guidance from Centers for Medicare & Medicaid Services for hospitals and nursing homes was distributed for immediate implementation at both the State-operated and private Mental Health Treatment Facilities. The Chief Medical Officer of Florida State Mental Health Treatment Facilities is in the lead to oversee compliance and provide weekly reporting. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • A message from DEP Secretary Noah Valenstein was sent to all employees relaying Department of Health guidance and links and contacts information for DOH resources. Preventative actions and FAQs were included in this communication. • DOH banner graphic was placed on the DEP website. • Message was sent to Land and Recreation employees by Deputy Secretary Shawn Hamilton on the appropriate use of disposable gloves and masks as personal protective equipment. • The Florida Department of State met with Supervisors of Elections via Conference Call on March 5, 2020, to discuss Governor Ron DeSantis' #2020-51 Executive Order establishing coronavirus response protocols and ways to prepare and protect voters and pollworkers for the March 17 Presidential Preference Primary.
March 6, 2020	• Extended call center hours to Monday – Friday for 24 hours a day. • Identified vendor for shipping container and assessed the supply chain quantities available for future needs. • Continues compiling Alternate Care Site supplies and tactics. • Continue to assess N95 supply chain. • Coordinated with the Florida Poison Control Information Network for transition of COVID-19 information line for long term sustainment. • Continue to pilot strategies including texting and video conferencing for monitoring persons under investigation. • Provided situational update on the Florida Health Care Association conference call. There were 524 call participants. • Participated in a conference call with the members of the Florida Association of Health Plans. • Participated in a conference call with Leading Age. There were 228 participants. • Provided a situational update on the Florida Hospital Association hosted conference call for hospitals. • Conducted a briefing for State Agency Emergency Coordination Officers on COVID-19 response actions and activities other agencies can take to assist with the coordinated statewide response.

AMERICAN OVERSIGHT

March 7, 2020	• Governor did press conference in Fort Lauderdale with Vice President Pence • Activated State Emergency Operations Center and is currently at a level two • Conducted notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • Coordinated with AHCA to provide hospital guidance on masks through email blast. • Coordinated group notification to ACTRIMS conference attendees. • Identified resource plan for Alternate Care Site for hospital augmentation • Coordinated with DEM to gain knowledge of PPE resources through other state agencies.
March 8, 2020	• Conducted contingency planning for large scale quarantine for cruise ships. • Continuation of notification calls to travelers recently traveled on tours to Egypt, Israel, and Jordan between Feb 4-18 may have been exposed to coronavirus disease 2019 (COVID-19). • AHCA roll-up information o **Opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.** o **Sent e-blast to all AHCA licensed health care providers sharing key guidance including CDC and DOH information regarding the importance of screening visitors, infection control protocol, and hygiene best practices.** o **Expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.** o **Preparing e-blasts for DOH call meeting notices on Tuesday, March 10; one e-blast for long-term care facilities and one e-blast for hospitals.**

COVID-19 Testing Results

- 18 Florida cases (17 Florida residents)
    - 12 diagnosed in Florida
    - 5 diagnosed and isolated in another state
    - 1 confirmed positive non-Florida resident isolated in Florida.
- 115 tests in state results pending
- 140 negatives
- 1,104 people monitored to date
- 302 of 1,104 are currently being monitored

People who have tested positive for COVID-19 will remain in isolation until they test negative.

COVID Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov**.

Department Activities

- Governor Ron DeSantis issued an Executive Order directing the State Surgeon General to declare a public health emergency.
- State Surgeon General Dr. Scott Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Established an incident management team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and

guidance for pandemic planning. Over five hundred participants joined the calls. Calls are scheduled for each Wednesday at 2:00 EST.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities, and hospitals.
- Established a public call-center for questions regarding COVID-19.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, Health Care Coalitions (HCCs) and County Health Departments (CHD).
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes, are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;

AMERICAN OVERSIGHT

- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local county health department (CHD) and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the county health department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Follow us on Facebook, Instagram and Twitter at @HealthyFla. For more information please visit www.FloridaHealth.gov.

AMERICAN OVERSIGHT

COVID-19 Daily Talking Points
March 9, 2020

The Florida Department of Health's highest priority at this time is controlling the spread of COVID-19 and ensuring anyone who is likely to spread it is appropriately identified, treated and isolated.

The Department will be sending a press release update every morning, seven days per week, to keep the public informed.

The Department is advising all individuals who have traveled internationally to self-isolate for 14 days following their date of return to the United States.

The Department is urging residents to stay informed on how to protect themselves and their communities from COVID-19.

The Department encourages everyone to seek medical attention and diagnosis if they suspect they have contracted COVID-19 or come into contact with someone who has COVID-19.

The Department's dedicated COVID-19 webpage at www.FloridaHealth.gov/COVID-19 remains the best and most up-to-date resource for information and guidance regarding COVID-19 in Florida.

Governor DeSantis is working closely with state agencies and the Department to monitor, prepare and prevent the spread of this virus.

The Department of Health updates Florida's COVID-19 information page daily. Please visit FloridaHealth.gov/ COVID-19/ for the latest information.

Yesterday, the Department announced one new positive Florida COVID-19 case in Broward County. That individual is isolated and being appropriately cared for.

Florida Residents Diagnosed in Florida				
	County	Age	Sex	Recent History of International Travel
1	Manatee	63	Male	No
2	Hillsborough	29	Female	Yes
3	Santa Rosa	71	Male	Yes
4	Broward	75	Male	No
5	Broward	65	Male	No
6	Lee	77	Female	Yes
7	Lee	77	Male	Yes
8	Charlotte	54	Female	Yes

AMERICAN OVERSIGHT

9	Okaloosa	61	Female	Yes
10	Volusia	66	Female	Yes
11	Manatee	81	Female	Yes
12	Broward	67	Male	No

Below is a complete summary of COVID-19 in Florida:

- 115 tests in state results pending
- 140 negatives
- 18 Florida cases (17 Florida residents)
    - 12 diagnosed in Florida
    - 5 diagnosed and isolated in another state
    - 1 confirmed positive non-Florida resident isolated in Florida.
- 1,104 people monitored to date
- 302 of 1,104 are currently being monitored

The Florida Department of Health is actively involved in enhanced surveillance for respiratory illness that may be COVID-19. Epidemiologists will follow up on any suspected cases that meet criteria for COVID-19 to arrange for testing when needed and monitor contacts of any confirmed cases, if they occur.

The Department will communicate regularly with the public and health care providers with updates on COVID-19 and other respiratory illnesses.

Everyone plays a part in lowering the impact within our communities and workplaces – taking every day preventative actions helps to impede the spread of respiratory diseases such as COVID-19. Preventative actions include:

- **Washing your hands frequently with soap and water for at least 20 seconds**, especially after going to the bathroom, before eating, and after blowing your nose, coughing or sneezing. If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol.
- **Avoiding close contact** with people who are sick.
- **Staying home when you are sick**. **This message cannot be emphasized enough.**
- Employees who have symptoms of acute respiratory illness are recommended to stay home and not come to work until they are free of fever (100.4° F or greater using an oral thermometer), signs of a fever, and any other symptoms for at least 24 hours, without the use of fever-reducing or other symptom-altering medicines (e.g. cough suppressants). Employees should notify their supervisor and stay home if they are sick.
- **Before traveling take certain steps**:
    - Check the CDC's Traveler's Health Notices for the latest guidance and recommendations for each country to which you will travel.
    - Employees who become sick while traveling must understand that they should notify their supervisor and should promptly call a healthcare provider for advice if needed.

The Department of Health has set up a dedicated COVID-19 Call Center for questions about this virus. Anyone with questions may call **1-(866) 779-6121** or email **COVID-19@flhealth.gov**. **The Call Center is available 24 hours a day, seven days a week.**

AMERICAN OVERSIGHT

If Asked:

"What is the Department doing about the cruise ships near Florida that could be carrying individuals infected with COVID-19?"

-The Department of Health has been notified that two cruise ships off the coast of Miami may have cases of COVID-19.

Although this issue falls under federal jurisdiction, since being notified, DOH has been working closely with the cruise industry, CDC, Coast Guard and other partners to ensure every effort is made to keep the Floridians on board safe, while also protecting Florida residents across the state. Over the coming days, we will continue to work with these partners to provide testing support and resolve this situation as quickly as possible.

"What is the number of patients tested in my county?"

-We appreciate the desire to understand how many Floridians in each community have been tested, received a negative test or are under public health monitoring as a result of suspicion they may have COVID-19 or has been in contact with someone who have COVID-19. Balancing the privacy of the individuals being tested and monitored and the confidentiality of the epidemiological investigations with the responsibility to Floridians to disclose information to protect the public is a vital role of the Florida Department of Health. Due to the nature of a unique virus, such as COVID-19, to share how many people in each community that have been tested or are under public health monitoring could potentially release identifying information, especially in Florida's smaller communities.

As such, in order to protect personally identifiable health information (PHI) of Floridians, the Florida Department of Health is unable to break down the number of individuals who have received a negative test, have pending test results or are under public health monitoring by community.

Floridians can view the aggregate state level information at www.FLHealth.gov/COVID-19. This information is updated daily.

Additionally, the Florida Department of Health is encouraging all Floridians to be aware. Floridians should practice good hand hygiene and wash their hands with soap and water for a minimum of 20 seconds, use a tissue when they sneeze or cough and immediately dispose of it in the trash and stay home if they are sick."

UPDATE REGARDING INTERNATIONAL TRAVEL: Department of Health COVID-19 Update

Contact:
Communications Office
NewsMedia@flhealth.gov
(850) 245-4111

TALLAHASSEE — The Florida Department of Health is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware about the status of the virus, the Department is issuing regular updates as information becomes available. The Department will be sending this press release update every morning, seven days per week.

International Travel Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to follow the **new CDC guidelines**, summarized below:

- **Level 3:** Mandatory 14-day self-isolation and practice social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your county health department or health care provider.
- **Level 2 and Cruises:** Monitor your health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your county health department or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled on a river cruise on the Nile River in Egypt in February 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with coronavirus disease 2019 (COVID-19), including two positive cases in Florida.

Department Activities

- Governor Ron DeSantis issued an Executive Order directing the State Surgeon General to declare a public health emergency.
- State Surgeon General Dr. Scott Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Established an incident management team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls. Calls are scheduled for each Wednesday at 2:00 EST.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities, and hospitals.
- Established a public call-center for questions regarding COVID-19.
- Developed and distributed the communications approved COVID-19 Presentation to CHDs for use at community meetings.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, Health Care Coalitions (HCCs) and County Health Departments (CHD).
- Implemented testing at all three State Public health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

AMERICAN OVERSIGHT

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes, are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local county health department (CHD) and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the county health department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

About the Florida Department of Health

AMERICAN OVERSIGHT

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Follow us on Facebook, Instagram and Twitter at @HealthyFla. For more information please visit www.FloridaHealth.gov.

HI Team –

Updated the DOH FAQ regarding COVID-19. Sending to all, but Courtney is getting it to the epidemiologists for review.

Thanks,

Taryn

AMERICAN OVERSIGHT

Who is at a higher risk to contract COVID-19?

Older adults and people who have serious chronic medical conditions including heart disease, diabetes, and lung disease have a higher risk of contracting COVID-19.

If you are at higher risk for serious illness from COVID-19 because of your age or because you have a serious long-term health problem, it is extra important for you to take actions to reduce your risk of getting sick with the disease.

What should I do if I am an older adult with higher risk of contracting the COVID-19 virus?

If you are at higher risk of getting very sick from COVID-19, you should:

- Stock up on supplies
- Take everyday precautions to keep space between yourself and others
- When you go out in public, keep away from others who are sick, limit close contact and wash your hands often.
- Avoid crowds as much as possible

During a COVID-19 outbreak in your community, stay home as much as possible.

What is COVID-19?

COVID-19 is caused by a previously unrecognized coronavirus, called COVID-19.

For more information about COVID-19 please visit the Center for Disease Control (CDC) website, and the World Health Organization (WHO) website.

What is the status of the COVID-19 outbreak in Florida?

For the latest situation report in Florida, please visit the Florida Department of Health's website.

How many cases of COVID-19 have been reported to the Florida Department of Health?

AMERICAN OVERSIGHT

To see the latest case count please visit the Florida Department of Health's COVID-19 page.

What is the Florida Department of Health doing to address COVID-19?

The Florida Department of Health (FDOH) is actively educating the community about how to prevent the spread and working with those infected to ensure their safety as well as the safety of those in their community. FDOH Epidemiologists are conducting tests in the three laboratories throughout Florida, in Miami, Jacksonville, and Tampa. They are also monitoring and conducting investigations on suspected cases that meet criteria for COVID-19, and are following up on these cases. Epidemiologic consultation is available 24/7 through the county health departments and Bureau of Epidemiology at 850-245-4401.

The Florida Department of Health will continue to communicate regularly with the public and health care providers with updates on COVID-19 and other respiratory illnesses.

What are the symptoms and signs of COVID-19?

Patients with confirmed COVID-19 infection have reportedly had mild to severe respiratory illness with symptoms of:

- Fever
- Cough
- Difficulty breathing

Read about COVID-19 Symptoms.

How does the virus spread?

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

What should I do if I think I (or someone in my family) might have COVID-19?

- Contact your county health department (CHD).

AMERICAN OVERSIGHT

- Consult a health-care provider as soon as possible. Call ahead and tell them before you visit that you think you may have COVID-19 so they can take precautions to prevent exposing other people.
- Cover your mouth and nose with a tissue when coughing or sneezing.
- If you have a surgical mask, wear it during close contact with other people. A mask can reduce the number of droplets coughed into the air.
- Remember, very few respiratory infections will be COVID-19.
- **Review your signs, symptoms and travel history thoroughly with your physician.**
- 24/7 Consultation is available to physicians through contacting their county health department and the Florida Department of Health Bureau of Epidemiology at (850) 245-4401.

If I were exposed to COVID-19, how long would it take for me to become sick?

The time between exposure to the COVID-19 virus and onset of symptoms is called the "incubation period." The incubation period for COVID-19 is typically 2 to 14 days, although in some cases it may be longer.

Is it safe to take a cruise?

If you are an older adult and therefore have a higher risk of contracting COVID-19, no, it is recommended not to take cruise at this time.

Is it safe to travel internationally?

The Florida Department of Health is recommending that Floridians avoid any international travel. The CDC has issued its most severe threat-level warning for China, South Korea, Italy, and Iran, and strongly recommending that US citizens avoid traveling to those countries. The CDC has also issued a level 2 warning for Japan. Please visit the CDC website to see the most updated travel notices.

What if I recently travelled internationally and got sick?

If you have traveled to any international destination within 14 days and have developed a fever, cough, or have difficulty breathing, you should:

- Call your local county health department.
- Seek medical care right away. Before you go to a doctor's office or emergency room, call ahead and tell them about your recent travel and your symptoms.
- Avoid contact with others.
- Not travel while sick.

AMERICAN OVERSIGHT

- Cover your mouth and nose with a tissue or your sleeve (not your hands) when coughing or sneezing.
- Wash hands often with soap and water for at least 20 seconds to avoid spreading the virus to others. Use an alcohol-based hand sanitizer if soap and water are not available.
- CDC does have additional specific guidance for travelers available online.

How can I protect myself?

There are some common-sense precautions that you can take that apply to many infectious diseases.

- The most important precaution is frequent hand washing with soap and water and the use of 60% alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unclean hands.
- Encourage people around you to cover their nose and mouth with a tissue when coughing or sneezing.

Helpful prevention and treatment guidelines can be found on the CDC's website: Prevention and Treatment and Guidelines for Hand Hygiene

Why is the novel coronavirus (2019-nCoV) now being called COVID-19?

The World Health Organization made an announcement Feb. 11 that the official name for the illness caused by the new coronavirus (previously known as 2019 Novel Coronavirus or 2019-nCoV) is now COVID-19.

What are coronaviruses?

Coronaviruses are a group of viruses that have a halo or crown-like (corona) appearance when viewed under a microscope. These viruses are a common cause of mild to moderate upper respiratory illness in humans and are associated with respiratory, gastrointestinal, liver and neurologic disease in animals.

If coronaviruses usually cause mild illness in humans, how could this new coronavirus be responsible for a potentially life-threatening disease such as COVID-19?

There is not enough information about the new virus to determine the full range of illness that it might cause. Coronaviruses have occasionally been linked to pneumonia

AMERICAN OVERSIGHT

in humans, especially people with weakened immune systems. The viruses also can cause severe disease in animals, including cats, dogs, pigs, mice, and birds.

How long can COVID-19 survive in the environment?

The length of time that the virus survives likely depends on a number of factors. These factors could include the type of material or body fluid containing the virus and various environmental conditions such as temperature or humidity. Researchers at the Centers for Disease Control and Prevention and other institutions are designing standardized experiments to measure how long COVID-19 can survive in situations that simulate natural environmental conditions.

Are there disinfectants available that can inactivate (kill) COVID-19?

Right now, there are no disinfectant products registered by the U.S. Environmental Protection Agency for use on environmental surfaces that are specifically listed as having the ability to kill COVID-19. However, related viruses that have similar physical and biochemical properties can be killed with bleach, ammonia or alcohol, or cleaning agents containing any of these disinfectants. Cleaning agents should be used according to the manufacturer's instructions.

Where can I get more information about COVID-19?

Please call the Florida Department of Health's COVID Call Center at **1 (866) 779-6121** or email COVID-19@flhealth.gov.**The Call Center is available 24/7.**

For Florida specific information, please visit The Florida Department of Health website.

The Centers for Disease Control and Prevention and World Health Organization are excellent sources of information about this evolving outbreak. You can access their websites here:

CDC COVID-19 Website

World Health Organization (WHO) Website

What should I do if I had close contact with someone who has COVID-19?

If you have come in contact with an individual that has recently traveled anywhere internationally, and feel sick with fever, cough, or difficulty breathing, you should:

AMERICAN OVERSIGHT

- Call your local county health department.
- Seek medical care right away. Before you go to a doctor's office or emergency room, call ahead and tell them about your recent travel and your symptoms.
- Avoid contact with others.
- Not travel while sick.
- Cover your mouth and nose with a tissue or your sleeve (not your hands) when coughing or sneezing.
- Wash hands often with soap and water for at least 20 seconds to avoid spreading the virus to others. Use an alcohol-based hand sanitizer if soap and water are not available.
- CDC does have additional specific guidance for travelers available online.

Is there a vaccine?

Currently, there is no vaccine available to protect against COVID-19.

What are the treatments?

There is no specific antiviral treatment recommended for COVID-19 infection. People infected with COVID-19 should receive supportive care to help relieve symptoms. Learn more about COVID-19 Treatment.

Should I be tested for COVID-19?

If you develop a fever and symptoms of respiratory illness, such as cough or shortness of breath, **within 14 days of any international travel**, you should call your county health department in your area to coordinate testing with a local healthcare provider.

If you have had close contact with someone showing these symptoms who has recently traveled **anywhere** internationally, you should call your county health department to coordinate testing with a local healthcare provider.

Your healthcare provider will work with your county health department, and they will coordinate with the Florida Department of Health and CDC to determine if you need to be tested for COVID-19.

How do you test a person for COVID-19?

AMERICAN OVERSIGHT

Your healthcare professional will work with your county health department to determine if you need to be tested for COVID-19.

A person who is tested will have three specimens taken: oral, nasal, and saliva. The samples will be given to the county health department, who will then either ship or deliver them to the closest state laboratory. If a specimen is tested positive, it will be identified as 'presumptive positive' until the result is confirmed at the Centers for Disease Control and Prevention (CDC).

For more information on COVID-19 testing see CDC Tests for COVID-19.

Is COVID-19 the same as the MERS-CoV or SARS virus?

No. Coronaviruses are a large family of viruses, some causing illness in people and others that circulate among animals, including camels, cats and bats. The recently emerged COVID-19 is not the same as the coronavirus that causes Middle East Respiratory Syndrome (MERS) or the coronavirus that caused Severe Acute Respiratory Syndrome (SARS) in 2003. There are ongoing investigations to learn more. This is a rapidly evolving situation and information will be updated as it becomes available.

Should I be concerned about pets or other animals and COVID-19?

While this virus seems to have emerged from an animal source, it is now spreading from person-to-person. The Florida Department of Health and CDC recommend that people traveling to China avoid animals both alive and dead, but there is no reason to think that any animals or pets in the United States might be a source of infection with this new coronavirus.

What about animals or animal products imported from China?

CDC does not have any evidence to suggest that animals or animal products imported from China pose a risk for spreading COVID-19 in the United States. This is a rapidly evolving situation and information will be updated as it becomes available. The United States Department of Agriculture regulates the importation of animals and animal products, and CDC regulates the importation of animals and animal products capable of spreading human disease.

Who is at a higher risk to contract COVID-19?

Older adults and people who have serious chronic medical conditions including heart disease, diabetes, and lung disease have a higher risk of contracting COVID-19.

If you are at higher risk for serious illness from COVID-19 because of your age or because you have a serious long-term health problem, it is extra important for you to take actions to reduce your risk of getting sick with the disease.

What should I do if I am an older adult with higher risk of contracting the COVID-19 virus?

If you are at higher risk of getting very sick from COVID-19, you should:

- Stock up on supplies
- Take everyday precautions to keep space between yourself and others
- When you go out in public, keep away from others who are sick, limit close contact and wash your hands often.
- Avoid crowds as much as possible

During a COVID-19 outbreak in your community, stay home as much as possible.

What is COVID-19?

COVID-19 is caused by a previously unrecognized coronavirus, called COVID-19.

For more information about COVID-19 please visit the Center for Disease Control (CDC) website, and the World Health Organization (WHO) website.

What is the status of the COVID-19 outbreak in Florida?

For the latest situation report in Florida, please visit the Florida Department of Health's website.

How many cases of COVID-19 have been reported to the Florida Department of Health?

AMERICAN OVERSIGHT

To see the latest case count please visit the Florida Department of Health's COVID-19 page.

What is the Florida Department of Health doing to address COVID-19?

The Florida Department of Health (FDOH) is actively educating the community about how to prevent the spread and working with those infected to ensure their safety as well as the safety of those in their community. FDOH Epidemiologists are conducting tests in the three laboratories throughout Florida, in Miami, Jacksonville, and Tampa. They are also monitoring and conducting investigations on suspected cases that meet criteria for COVID-19, and are following up on these cases. Epidemiologic consultation is available 24/7 through the county health departments and Bureau of Epidemiology at 850-245-4401.

The Florida Department of Health will continue to communicate regularly with the public and health care providers with updates on COVID-19 and other respiratory illnesses.

What are the symptoms and signs of COVID-19?

Patients with confirmed COVID-19 infection have reportedly had mild to severe respiratory illness with symptoms of:

- Fever
- Cough
- Difficulty breathing

Read about COVID-19 Symptoms.

How does the virus spread?

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

What should I do if I think I (or someone in my family) might have COVID-19?

- Contact your county health department (CHD).

AMERICAN OVERSIGHT

- Consult a health-care provider as soon as possible. Call ahead and tell them before you visit that you think you may have COVID-19 so they can take precautions to prevent exposing other people.
- Cover your mouth and nose with a tissue when coughing or sneezing.
- If you have a surgical mask, wear it during close contact with other people. A mask can reduce the number of droplets coughed into the air.
- Remember, very few respiratory infections will be COVID-19.
- **Review your signs, symptoms and travel history thoroughly with your physician.**
- 24/7 Consultation is available to physicians through contacting their county health department and the Florida Department of Health Bureau of Epidemiology at (850) 245-4401.

If I were exposed to COVID-19, how long would it take for me to become sick?

The time between exposure to the COVID-19 virus and onset of symptoms is called the "incubation period." The incubation period for COVID-19 is typically 2 to 14 days, although in some cases it may be longer.

Is it safe to take a cruise?

U.S. citizens, particularly travelers with underlying health conditions, should not travel by cruise ship. CDC notes increased risk of infection of COVID-19 in a cruise ship environment. In order to curb the spread of COVID-19, many countries have implemented strict screening procedures that have denied port entry rights to ships and prevented passengers from disembarking. In some cases, local authorities have permitted disembarkation but subjected passengers to local quarantine procedures. While the U.S. government has evacuated some cruise ship passengers in recent weeks, repatriation flights should not be relied upon as an option for U.S. citizens under the potential risk of quarantine by local authorities.

This is a fluid situation. CDC notes that older adults and travelers with underlying health issues should avoid situations that put them at increased risk for more severe disease. This entails avoiding crowded places, avoiding non-essential travel such as long plane trips, and especially avoiding embarking on cruise ships. Passengers with plans to travel by cruise ship should contact their cruise line companies directly for further information and continue to monitor the Travel.state.gov website and see the latest information from the CDC: https://www.cdc.gov/quarantine/cruise/index.html.

Is it safe to travel internationally?

The Florida Department of Health is recommending that Floridians avoid any international travel. The CDC has issued its most severe threat-level warning for

AMERICAN OVERSIGHT

China, South Korea, Italy, and Iran, and strongly recommending that US citizens avoid traveling to those countries. The CDC has also issued a level 2 warning for Japan. Please visit the CDC website to see the most updated travel notices.

What if I recently travelled internationally and got sick?

If you have traveled to any international destination within 14 days and have developed a fever, cough, or have difficulty breathing, you should:

- Call your local county health department.
- Seek medical care right away. Before you go to a doctor's office or emergency room, call ahead and tell them about your recent travel and your symptoms.

Looping in DBPR to see if that's true, that delivery drivers need a specific license and/or insurance. When I was 16-18, I delivered pizza in Ohio and didn't need anything specific because you were covered under the business policy.

If that is a requirement, we should discuss further how we can increase delivery options.

Subject: Another question, re: servers

I have a restaurant client that will likely lay off servers because I'm assuming a complete dining room closure is coming soon. Would the Gov be able to allow servers to be delivery drivers without a specific license for delivery? Also, they have in the past had to get an insurance policy. He would move them from server pay to hourly employee as well.

Please note that under Florida law correspondence sent to the Governor's Office, which is not confidential or exempt pursuant to chapter 119 of the Florida Statutes, is a public record made available upon request.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

BIOGRAPHIES:

Dr. Scott Rivkees, *State Surgeon General and Secretary, Florida Department of Health*

Dr. Scott A. Rivkees, Florida's Surgeon General, is focused on protecting, promoting and improving the health of everyone who calls Florida home. As Surgeon General, Dr. Rivkees also serves as state health officer for the Florida Department of Health. In this capacity, he oversees the operations of the state health office in Tallahassee, 67 county health departments, 22 area offices for the Division of Children's Medical Services, 12 regional offices for the Division of Medical Quality Assurance, nine area offices for the Division of Disability Determinations and three public health laboratories.

Dr. Rivkees has committed his career to building a culture of health that can help each adult and child in Florida live a long and healthy life.

Before his tenure as Florida's Surgeon General, Dr. Rivkees served as chair of the department of pediatrics at the University of Florida College of Medicine and physician-in-chief of UF Health Shands Children's Hospital, part of UF Health Shands Hospital and the University of Florida's Academic Health Center. He also served as academic chair of pediatrics at Orlando Health and the University of Florida College of Medicine pediatric chair at Studer Family Children's Hospital at Sacred Heart in Pensacola.

Dr. Rivkees is a graduate of Rutgers University and the University of Medicine and Dentistry of New Jersey. He received residency, fellowship and postdoctoral training and served as faculty at Massachusetts General Hospital and Harvard Medical School. Before moving to Florida, Dr. Rivkees served as professor of pediatrics with tenure at Yale University. As associate chair for research he started and directed the Yale Pediatric Thyroid Center, one of the first of its kind in the United States.

Dr. Rivkees has worked with the National Institutes of Health and the U.S. Food and Drug Administration on drug safety issues. He was responsible for the safety alert on liver toxicity caused by the antithyroid drug propylthiouracil. This led to major international treatment practice changes. For his effort, he was recognized as the 2018 recipient of the American Thyroid Association's Paul Starr Award.

AMERICAN OVERSIGHT

During his career, Dr. Rivkees has been named as "One of America's Best Doctors," "One of America's Top Pediatricians" and "One of New York's Best Doctors." He is a member of the American Society for Clinical Investigation, the Connecticut Academy of Science and a fellow of the American Academy for the Advancement of Science. Dr. Rivkees is also a recipient of the Pioneer Award from CARES and the Special Service Award from the American Academy of Pediatrics.

Dr. Rivkees has had more than 30 years of continuous research funding from the National Institutes of Health. He has more than 250 publications.

He is past chair of the Board of Scientific Counselors for the Eunice Kennedy Shriver National Institute of Child Health and Human Development. He is past chair of the Advocacy Committee of the Association of Medical School Pediatric Department Chairs, past treasurer of the Florida Chapter of the American Academy of Pediatrics and past member of the Pediatric Policy Council.

Dr. Shamarial Roberson, *Deputy Secretary for Thursday, Florida Department of Health*

Dr. Roberson most recently served as the Department's Director for the Division of Community Health Promotion. She joined the Department as a chronic disease epidemiologist and evaluator where she served for two years as the bureau epidemiologist. Dr. Roberson was also a section administrator in Chronic Disease Prevention, providing administrative direction and policy coordination for the Bureau. Her first job out of college was as a middle school teacher, where she taught science and health for more than four years.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Richard Corcoran, *Commissioner, Florida Department of Education*

Commissioner Richard Corcoran moved to Florida as a child in 1976. Both of his parents grew up during the Great Depression and fought in World War II. They instilled a great sense of pride in public service and duty in him at an early age.

From them, Commissioner Corcoran developed the principles by which he and his wife of over 24 years, Anne, who is also an attorney, teach their six children today.

Commissioner Corcoran grew up in Pasco County, Florida where he graduated from Hudson High School. He earned a Bachelor's Degree from St. Leo College in 1989 and a Juris Doctorate from Regent University in 1996. While enrolled in college, Richard also served in the U.S. Naval Reserve (1987-1993).

Commissioner Corcoran has been a practicing attorney in Florida for almost 20 years. He also served as the Speaker of the Florida House from 2016-2018. During his tenure in the state House, he pushed through over $10 billion in tax cuts, the elimination of over 5,000 regulations, the massive expansion of school choice, and the strongest ethics and transparency laws in state history.

Commissioner Corcoran is a passionate advocate for improving the education system in Florida. He fully believes every child can learn and that all children deserve the opportunity to receive a world-class education.

Dr. Stephen White, *Director, Florida Department of Health Miami Laboratory*

Stephen serves as the bioterrorism defense coordinator for the Florida Department of Health. He has held this position for nearly four years. He previously served in the same role from August 2011 to June 2015.

Stephen has a PhD in public health from Florida International Univiersity as well as bachelors and masters degrees from Texas Tech University in clinical laboratory science and practice management.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Dr. Yesenia Villalta, *Administrator, Florida Department of Health in Miami-Dade County*

Dr. Villalta was born in Miami, Florida. After graduating from Coral Gables High School, she attended Miami-Dade College, where she majored in chemistry. Dr. Villalta is a three-time graduate of the University of Miami School of Nursing, where she earned a Bachelors and Masters of Science in Nursing as well as a Doctor of Nursing Practice degree. Upon graduation, she worked in the private sector and then made a change to public health.

Dr. Villalta has nearly 13 years of experience in a variety of public health functions and 19 years in the field of nursing. She started her career with public health in 2005, at DOH-Miami-Dade as an Advanced Practice Registered Nurse. Dr. Villalta also served as Assistant Director of Nursing in 2007, until being appointed Executive Community Health Nursing Director in 2014.

Mark Racicot, *CEO, North Shore Medical Center*

Prior to his appointment to North Shore Medical Center Racicot was the chief executive officer at Florida Medical Center and he also served as the chief operating officer at Palmetto General Hospital where he was also the lead COO for Tenet's Miami-Dade Group hospitals. Under his leadership of Broward and Miami-Dade, Racicot implemented processes to improve standardization and efficiency across the five hospitals. He also helped create a regional capital plan to refurbish patient rooms over a three year period across the ten hospitals in Florida. At Palmetto, Racicot oversaw the design and construction of the hospital's new 31-bed clinical decision unit. He also managed a variety of projects including a new CT unit and MRI replacement in the imaging department and telemetry system upgrades on three nursing units. A known relationship builder, Racicot was also responsible for leading ancillary and support teams to significantly improve throughout and patient experience. He previously worked in healthcare in New England.

Racicot holds a Bachelor of Science degree in Civil Engineering from WPI and is a registered engineer. In addition, he has a Master of Business Administration from Fitchburg State University.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Esteban Bovo, *Commissioner, Miami-Dade County Commission*

Esteban L. Bovo, Jr. was elected in 2011 to serve as the Miami-Dade County Commissioner representing District 13, which includes Hialeah, Miami Lakes, Palm Springs North, and neighboring areas of unincorporated Miami-Dade. On December 6th, 2016 Commissioner Bovo was elected Chairman of the Board of County Commissioners for the 2017-2018 term.

Bovo commenced his public service when he was appointed Councilman for the City of Hialeah in 1998. After being re-elected twice, Chairman Bovo's colleagues selected him as President of the Hialeah City Council and he remained in that capacity throughout his term. As Councilman, Bovo sponsored the anti-predator legislation and focused on improving the city for the residents.

In November 2008, Bovo was elected as State Representative for District 110 and was re-elected without opposition in 2010. During his tenure in the Florida Legislature, Bovo was an outspoken advocate for the historic Hialeah Park and worked diligently towards its re-opening. Throughout the 2009 legislative session, he also sponsored a resolution naming May as "A Safe Haven for Newborns Month," in recognition of the Gloria M. Silveiro Foundation. Additionally, he designated April 17, 2009 as "Bay of Pigs Memorial Day" in commendation of the Museum and Library for 2506 Assault Brigade, where historic memorabilia is preserved.

Bovo continued to focus his legislative agenda on the betterment and safety of our community by sponsoring the Ashley Nicole Valdes Act, which requires defendants who have been arrested for leaving the scene of a fatal accident to be held in custody until a judge ruling. Due to his tenacity and dedication to public service, his colleagues in the Florida Legislature nominated him as Chairman of the Hispanic Legislative Caucus and was subsequently chosen to chair the Committee of Business Regulation in Tallahassee.

Bovo as Chairman of the County Commission has restructured the commission committee system and established a Chairman's Policy Council to address several key issues facing our community. The Policy Council has been tasked with developing recommendations to address issues such as mass transit expansion funding, courthouse and jail infrastructure funding, sea level rise, housing affordability, and gun violence epidemic. As a County Commissioner, Esteban Bovo, Jr. maintains an open-door policy and continues his commitment to improving our quality of life in Miami-Dade County.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Esteban L. Bovo, Jr. was born on June 12, 1962 in Queens, New York to Marilyn and Esteban Bovo-Carás.. Esteban Bovo has been a proud resident of Miami-Dade County for over 47 years and holds a Bachelor's degree in Political Science from Florida International University. He is married to Viviana and has five children; Oscar, Bianca, Esteban, Sofia, and Alessandro.

Rebecca Sosa, *Commissioner, Miami-Dade County Commission*

Rebeca Sosa has served on the Miami-Dade County Commission as District 6 commissioner since June 2001. She has been re-elected four times - most recently in 2014 without opposition- to represent the residents of the City of Miami, Coral Gables, West Miami, Hialeah and Miami Springs and the unincorporated communities of Schenley Park, Coral Villas, Red Bird, Coral Terrace, Little Gables and Fontainebleau.

On Nov. 20, 2012, she was elected by her colleagues as Chairwoman of the County Commission where she served a two-year term.

Commissioner Sosa was born in Camaguey, Cuba. She received her Bachelor Degree in Secondary Education from the University of Puerto Rico and a Bachelor Degree in Elementary Education from Saint Thomas University where she graduated Summa Cum Laude. She holds certifications both in elementary education and as an instructor for English for Speakers of Other Languages (ESOL). Commissioner Sosa has been an educator for more than 30 years and is currently a teacher-trainer for Miami-Dade County Public Schools.

Prior to joining Miami-Dade County, Commissioner Sosa served as mayor of the City of West Miami from 1994 to 2001 where her leadership resulted in the city's recovery from a 52 percent budget deficit, thus removing it from the Governor's Emergency List.

Roberto Martell, *Mayor, Town of Medley*

As Mayor of the Town of Medley, Roberto Martell is committed to serving his community. Mayor Roberto Martell began his public service in 2008 after being elected to the seat of Councilperson. In 2012, he was elected as Mayor of the Town of Medley, and in 2016 was re-elected for his second term as Mayor. Mayor Martell always puts forth the best interests of the residents, staff and business which make Medley what it is

AMERICAN OVERSIGHT

today.

Establishing his construction company, Martell Construction in 1987, Roberto Martell always excelled beyond the highest levels of expertise and honesty in the industry. Prior to beginning his company, Roberto Martell oversaw construction work on the Metro Rail, as well as drew up plans for new, turn-key properties. Inhis business, Martell believed in being straightforward and facilitating the construction process for his clients, including addressing any concerns regarding the before and during the construction, adhering to a strict construction timetable, and making sure work was completed in the most time and cost-effective way possible.

In March of 2016, Mayor Roberto Martell was appointed by Florida Governor Rick Scott to the Metropolitan Planning Organization of Miami-Dade County. Mayor Martell also proudly serve's on the following committee's: South Florida Regional Planning Council, MPO's Executive Policy Committee and the MPO's Fiscal Priorities Committee. Through his hard work and dedication, Mayor Martell continues to strive to bring economic growth and development to his Town.

Cliff Bauer, *Vice President of Government Relations, Miami Jewish Health*

Cliff Bauer oversees and represents Miami Jewish Health's PACE program and other public health programs and services to state and federal government agencies and regulators. He has more than 40 years of experience in healthcare management and has consulted for and guided healthcare associations on Medicare Advantage HMO programs and public health department grant programs.

Bauer is on the board of directors for the National PACE Association, Greater Miami Chamber of Commerce and Our Florida Promise, and is an adjunct professor at Florida International University.

He holds a Bachelor of Arts in biology from the University of Missouri and a master's degree in health administration from St. Louis University.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Steven Sonenreich, *President & CEO, Mount Sinai Medical Center*

Steven D. Sonenreich's 35-year career in healthcare began at Mount Sinai Medical Center in 1976.

In 1996, Steve left Mount Sinai for the opportunity to become chief executive officer of Cedars Medical Center in Miami. Under his direction, Cedars won several awards for customer service and overall performance. The Mount Sinai Medical Center Board of Trustees recruited Steve back to the hospital in his current position in late October 2001.

Under Sonenreich's leadership, Mount Sinai has been designated one of America's Top Hospitals for the last five consecutive years by U.S. News & World Report. In addition, Sonenreich helped expand Mount Sinai's operations over six South Florida locations to include the region's only freestanding emergency department and multiple outpatient physician offices. He has been honored as 2012 Citizen of the Year by the Miami Beach Chamber of Commerce and he received an award from The South Florida Business Journal as one of the ten Miami Ultimate CEOs in 2012.

He earned his Bachelor of Arts degree from the State University of New York at Binghamton and a Master of Business Administration and Certification in Healthcare Administration from the University of Miami.

Matthew A. Love, *President and CEO, Nicklaus Children's Health System*

Matthew A. Love has accepted the permanent role of president and chief executive officer (CEO) at Nicklaus Children's Health System (NCHS) in January 2020. Love, who joined the health system as chief financial officer in October 2018, was appointed interim president and CEO by the NCHS board of directors in July 2019.

Love has more than 20 years of experience in financial and operational oversight in both adult and pediatric healthcare systems. Prior to joining NCHS, he served as senior vice president and chief financial officer of Regions for Mercy Health System in Ohio, where he led a team of seven regional chief financial officers.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Jose Pepe, *Commissioner, Miami-Dade County Commission*

Commissioner Jose "Pepe" Diaz serves as the Commissioner for District 12, which includes the cities of Doral, Hialeah, Hialeah Gardens, Medley, Sweetwater, Virginia Gardens, and a large portion of unincorporated Miami-Dade County. He was first elected as commissioner in September 2002 and was re-elected to a fifth term in 2018. He also served as the Vice-Chairman of the Miami-Dade Board of County Commissioners from 2009-2010.

Commissioner Diaz has served in various capacities on different committees of the County Commission. Currently, he serves on the Health Care and County Operations Committee, the Public Safety and Rehabilitation Committee and the Parks, Recreation and Cultural Affairs Committee. He also serves as the Chairman of the Miami-Dade Value Adjustment Board and is a member of the South Florida Regional Planning Council. Additionally, Commissioner Diaz, who proudly served as a member of the U.S. Marine Corps, was appointed as Miami-Dade County's Military Liaison and also serves as the Chairman of Miami-Dade County's Military Affairs Board.

On the international level, Commissioner Diaz serves as Chairman of the International Trade Consortium Board and is an advocate for trade and forging partnerships with other nations. In March 2010, Commissioner Diaz was appointed by U.S. Trade Representative Ron Kirk to serve on the Intergovernmental Policy Advisory Committee on Trade (IGPAC), and proudly served until April 2018. In this capacity, Commissioner Diaz advised, consulted with, and made recommendations to the U.S. Trade Representative from the perspective of local governments. He also serves as Chairman of the Jay Malina International Trade Consortium (ITC), where he has been instrumental in making profitable connections for businesses on behalf of Miami-Dade County with the Caribbean and Latin America. He toured several Asian cities in 2005 (Tianjin, Hong Kong and Shanghai), met with government officials and business organizations to promote trade partnerships, and participated in a ceremony to mark a joint venture between Florida International University and Tianjin University of Commerce. The commissioner and the Asian delegation also secured a cooperative agreement for the County with Tianjin's Municipal People's Government.

Before joining the Commission, Commissioner Diaz worked to resolve the ongoing flooding issues throughout Miami-Dade County as Mayor of Sweetwater.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Commissioner Jose "Pepe" Diaz is married and has three daughters. He was born in Pinar del Rio, Cuba and has lived in Sweetwater, Fla., for more than 30 years. In 1979, Commissioner Diaz enlisted in the U.S. Marine Corps and was honorably discharged in December 1984. In 1986, he began his career in public service as Chairman of the City of Sweetwater Police Retirement Trust Fund Board. For the next seven years, he served on the City of Sweetwater Commission and was elected Mayor of Sweetwater in May 1999.

Rodolfo Garcia, *CEO, Westchester General Hospital*

Rodolfo "Rudy" Garcia (born April 15, 1963) was a Republican member of the Florida Senate, representing the 40th District since 2001. Previously he was a member of the Florida House of Representatives from 1985 through 2000. He ran for Mayor of Hialeah, Florida in 2011, but lost. Garcia has ben the CEO of Westchester General Hospital since 2017.

Jonathan Martinez, *Executive Officer, City of Hialeah Mayor's Office*

Jonathan Martinez is the Mayor's Executive Officer in the City of Hialeah. He has served in this position for over two years. Prior to this, Martinez worked for the City of Hialeah for nearly thirteen years as a Community Development Administrative Officer and the Mayor's Liaison to Community Development. He is also a Trust Member at Citizen Independent Transportation Trust. Martinez attended Barry University.

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

BIOGRAPHIES

Chad Wolf, *Secretary, Department of Homeland Security*

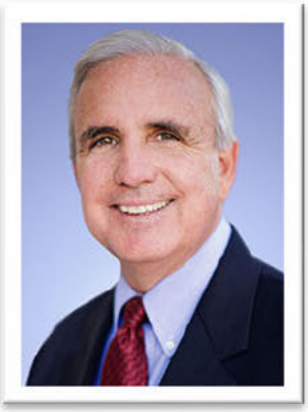
On November 13, 2019, Chad F. Wolf was designated as the Acting Secretary of Homeland Security by President Donald J. Trump and was also confirmed as the first Under Secretary of the U.S. Department of Homeland Security's (DHS) Office of Strategy, Policy, and Plans (PLCY). Previously, he served as the Acting Under Secretary.

As the senior official for PLCY, Mr. Wolf leads the Department's policymaking process to develop and coordinate strategies and policies that advance the homeland security mission and protect the American public.

Since his selection by the President, Mr. Wolf has advanced many of the Administration's critical priorities across the entire homeland security mission. Mr. Wolf oversaw the completion of the recently released DHS Strategic Plan, which establishes the Department's long-term strategic goals and objectives to inform key leadership decisions. Additionally, he led several significant initiatives to counter international and domestic terrorism, prevent terrorist travel, safeguard the U.S. electoral process, and protect American trade interests. As part of his duties, Mr. Wolf led and coordinated the Department's engagement with international partners to protect American homeland security interests at home and abroad.

During his tenure, Mr. Wolf has made significant progress to strengthen U.S. border security, address the humanitarian crisis on the U.S. Southwest Border, and improve the integrity of the U.S. immigration system. As a result of these efforts, Mr. Wolf and his staff have implemented policies that protect American communities from transnational criminal organizations and safeguard American workers.

With over 20 years of policy development and management experience in both the public and private sectors, Mr. Wolf is an effective leader and policymaker on a variety of complex issues. During the Trump Administration, he served as the Chief of Staff for the Transportation Security Administration (TSA), Deputy Chief of Staff and Chief of Staff for the Department. For his leadership and management of complex national issues, Mr. Wolf received the U.S. Secretary of Homeland Security Distinguished Service Medal. Shortly after the terrorist attack on September 11, 2001, Mr. Wolf served as the Assistant Administrator of Transportation Security Policy in which he played a leading role in establishing the Transportation Security Administration.



Beyond his service in the executive branch, Mr. Wolf served as Vice President and Senior Director at Wexler & Walker, a bipartisan public policy consultancy, and held staff positions in the U.S. Senate.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Mr. Wolf earned his Bachelor of Arts in History from Southern Methodist University, and holds a Master's Certificate in Government Contract Management from Villanova University.

Carlos Gimenez, *Mayor, Miami-Dade County*

Carlos A. Gimenez is the Mayor of Miami-Dade – Florida's most populous county. He is Miami-Dade's highest-ranking elected official and chief administrator, who oversees a metropolitan government with 28,417 employees, an annual budget of approximately $8.9 billion, and serving 2.7 million residents.

Mayor Giménez is a Cuban American (naturalized in January 1975) retired firefighter and Mayor of Miami-Dade County, Florida, elected to office June 28, 2011 in a special election. He previously served as a Miami-Dade County Commissioner from 2003 through 2011, and the Fire Chief of the City of Miami Fire Department. He is a member of the Republican Party, but his position of mayor of Miami-Dade County is a nonpartisan one.

Mayor Gimenez has continued to consistently hold the line on tax increases and to date, the average homeowner has saved approximately $1,400 in property taxes. He championed and secured approval for the largest tax cut in County history six years ago, and collectively Miami-Dade taxpayers have saved approximately $2 billion during his tenure.

Gimenez was re-elected as Mayor in 2012 and again in 2016 for two consecutive four-year terms. He brings with him over 40 years of public service experience.

Dale V.C Holness, *Mayor, Broward County*

Mr. Holness is the first Jamaican-American to hold the position, received a unanimous vote from the Broward County Commission which is required by charter to elect a mayor and vice mayor each year in November.

Mr. Holness previously served as vice mayor.

He was first elected in 2010 to represent residents of Broward County's District 9, which includes a population in excess of 200,000 and covers more than eight municipalities in Broward County.

Prior to being elected a Broward County commissioner, he served as a City of Lauderhill commissioner from 2004 to 2010. During his terms in office he served as vice mayor

AMERICAN OVERSIGHT

twice — 2007 and 2010 — started the Lauderhill Chamber of Commerce and established the Lauderhill Business Incubator.

A practicing real estate broker for more than 30 years, he is the president and CEO of All Broward Realty. He is a well-known advocate for small, minority and women-owned businesses, fair wages for workers, improving and providing economic development opportunities for all, and homeownership.

His global advocacy includes positioning Broward County as the center for international trade with the recent success of the annual Florida International Trade and Cultural Expo held October 9-10, 2019 with representation from 60 countries and nearly 2,000 people in attendance, the largest to date.

Dr. Stephen Redd, *Deputy Director for Public Health Service and Implementation Science, CDC*

RADM Stephen C. Redd is the Deputy Director for Public Health Service and Implementation Science at the Centers for Disease Control and Prevention (CDC). Dr. Redd currently oversees the Center for Preparedness and Response; the Center for Global Health; the Center for State, Tribal, Local, and Territorial Support; and the Office of Minority Health and Health Equity. In his deputy director role, he focused on the adoption of implementation science principles at CDC. In collaboration with multiple groups, he is working to understand how public health can most effectively address social determinants of health in various sectors.

Dr. Redd became Director for CDC's Center for Preparedness and Response while CDC responded to the 2014 West Africa Ebola outbreak, when he helped to ensure that congressional stakeholders were kept up-to-date on the evolving outbreak. He worked across the agency to prepare for the possibility of additional Ebola cases in the United States. Since then, he has engaged in the agency's responses to the Zika virus and multiple hurricanes.

Previously, Dr. Redd served as incident commander for the 2009 H1N1 pandemic response, which was the longest activation of CDC's Emergency Operations Center at the time. As the leader of the response, involving more than 3,000 CDC staff, he aided in the effort to vaccinate 81 million people against H1N1 in the United States. Dr. Redd has participated in many disease outbreak investigations and responses, including Legionnaires' disease, strategic development for the control of malaria, and the elimination of measles in the United States.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Dr. Redd is board certified in internal medicine, a Fellow in the American College of Physicians, and a member of the Commissioned Officers Association. He received his baccalaureate degree in history from Princeton University and his medical degree with honors from the Emory University School of Medicine. He trained in medicine at the Johns Hopkins Hospital before completing CDC's two-year Epidemic Intelligence Service training program.

Honored with numerous awards for his work—among them the USPHS Distinguished Service Medal and the Meritorious Service Medal—Dr. Redd is a three-time nominee and winner of CDC's prestigious Charles C. Shepard Science Award for outstanding scientific publication at CDC.

Ambassador Debbie Birx, M.D., *White House (T)*

Ambassador-at-Large, Deborah L. Birx, M.D., is the Coordinator of the United States Government Activities to Combat HIV/AIDS and U.S. Special Representative for Global Health Diplomacy. Ambassador Birx is a world-renowned medical expert and leader in the field of HIV/AIDS. Her three-decade-long career has focused on HIV/AIDS immunology, vaccine research, and global health. As the U.S. Global AIDS Coordinator, Ambassador Birx oversees the implementation of the U.S. President's Emergency Plan for AIDS Relief (PEPFAR), the largest commitment by any nation to combat a single disease in history, as well as all U.S. Government engagement with the Global Fund to Fight AIDS, Tuberculosis and Malaria. Serving as the U.S. Special Representative for Global Health Diplomacy, she aligns the U.S. Government's diplomacy with foreign assistance programs that address global health challenges and accelerate progress toward: achieving an AIDS-free generation; ending preventable child and maternal deaths; and preventing, detecting, and responding to infectious disease threats.

In 1985, Ambassador Birx began her career with the Department of Defense (DoD) as a military-trained clinician in immunology, focusing on HIV/AIDS vaccine research. From 1985-1989, she served as an Assistant Chief of the Hospital Immunology Service at Walter Reed Army Medical Center. Through her professionalism and leadership in the field, she progressed to serve as the Director of the U.S. Military HIV Research Program (USMHRP) at the Walter Reed Army Institute of Research from 1996-2005. Ambassador Birx helped lead one of the most influential HIV vaccine trials in history (known as RV 144 or the Thai trial), which provided the first supporting evidence of any vaccine's potential effectiveness in preventing HIV infection. During this time, she also rose to the rank of Colonel, bringing together the Navy, Army, and Air Force in a new model of cooperation – increasing the

AMERICAN OVERSIGHT

efficiency and effectiveness of the U.S. Military's HIV/AIDS efforts through inter- and intra-agency collaboration. Then known as Colonel Birx, she was awarded two prestigious U.S. Meritorious Service Medals and the Legion of Merit Award for her groundbreaking research, leadership, and management skills during her tenure at DOD.

From 2005-2014, Ambassador Birx served successfully as the Director of CDC's Division of Global HIV/AIDS (DGHA), which is part of the agency's Center for Global Health. As DGHA Director, she utilized her leadership ability, superior technical skills, and infectious passion to achieve tremendous public health impact. She successfully led the implementation of CDC's PEPFAR programs around the world and managed an annual budget of more than $1.5 billion. Ambassador Birx was responsible for all of the agency's global HIV/AIDS activities, including providing oversight to more than 400 staff at headquarters, over 1,500 staff in the field, and more than 45 country and regional offices in Africa, Asia, Caribbean, and Latin America. Recognized for her distinguished and dedicated commitment to building local capacity and strengthening quality laboratory health services and systems in Africa, in 2011, Ambassador Birx received a Lifetime Achievement Award from the African Society for Laboratory Medicine. In 2014, CDC honored her leadership in advancing the agency's HIV/AIDS response with the highly prestigious William C. Watson, Jr. Medal of Excellence.

Ambassador Birx has published over 220 manuscripts in peer-reviewed journals, authored nearly a dozen chapters in scientific publications, as well as developed and patented vaccines. She received her medical degree from the Hershey School of Medicine, Pennsylvania State University, and beginning in 1980 she trained in internal medicine and basic and clinical immunology at the Walter Reed Army Medical Center and the National Institutes of Health. Ambassador Birx is board certified in internal medicine, allergy and immunology, and diagnostic and clinical laboratory immunology.

Adam Goldstein, Chairman, Cruise Line International Association

Adam Goldstein was appointed chairman of the Cruise Line International Association on January 1, 2019. Goldstein previously served as CLIA Global Chair in 2015 and 2016 and has remained on the CLIA Global Executive Committee for the past two years. In addition to his more than 30-year tenure with RCL, he most recently served as the Florida-Caribbean Cruise Association Charmain, CLIA's sister association.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Richard Fain, *Chairman, Royal Caribbean International Ltd.*

Richard D. Fain is chairman and chief executive officer of Royal Caribbean Cruises Ltd. (NYSE: RCL). RCL owns and operates Royal Caribbean International, Celebrity Cruises, Azamara, and recently acquired two-thirds ownership of Silversea Cruises. Additionally, RCL is part of joint ventures that operate TUI Cruises and Pullmantur Cruceros. The company's 63 ships carry more than 6 million guests a year to ports on all seven continents.

Since taking the helm of RCL in 1988, Fain has guided the company's growth to its current place on the S&P 500, as well as its repeat listing by the Ethisphere Institute as a World's Most Ethical Company. For the second year running, Barron's recently named him one of the World's 30 Best CEOs for his vision and changing the course of the industry.

Fain serves on the University of Miami Board of Trustees and is also a member of the Posse Foundation board and the World Travel and Tourism Council's executive committee. He has been recognized with the Federal Maritime Commission's Earth Day Award, the Travel Weekly Lifetime Achievement Award, the South Florida Business Journal Ultimate CEO Award, the Ellis Island Medal of Honor, and membership in the South Florida Business Hall of Fame. The French government honored Fain as a Chevalier de la Legion d'Honneur, while the Finnish government named him a Commander, First Class, of the Order of the Lion.

Fain holds a B.S. degree in economics from the University of California at Berkeley and an M.B.A. from the Wharton School of Business at the University of Pennsylvania. He and his wife Colleen have four children and seven grandchildren.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Arnold Donald, *CEO, Carnival Corporation*

Donald has been president and CEO of Carnival Corporation, the world's largest leisure travel company with 10 global cruise line brands, including Carnival Cruise Line, Holland America Line and Princess Cruises, since July 2013. He has also been a director of Carnival Corporation since 2001 and a director of Carnival plc since 2003.

Donald was president and CEO of The Executive Leadership Council, a professional network of African-American executives of major U.S. companies, from 2010 to June 2012. He previously served as president and CEO of Juvenile Diabetes Research Foundation International from 2006 to 2008. From 2000 to 2005, Donald was Chairman of the Board of Merisant Company, a manufacturer and marketer of tabletop sweetener products, including the Equal® and Canderel® brands. From 2000 to 2003, he was also CEO of Merisant Company. From 1998 to 2000, he was a senior vice president of Monsanto Company, which develops agricultural products and consumer goods, and president of its nutrition and consumer sector. Prior to that, he was president of Monsanto Company's agricultural sector.

He has been a member of the boards of directors of Bank of America Corporation since January 2013 and Crown Holdings, Inc. since July 1999. He was a member of the board of The Laclede Group, Inc. from January 2003 to January 2014, Oil-Dri Corporation of America from December 1997 to January 2013 and The Scotts Company from March 2000 to January 2009. He is also principal of AWDPLC LLC, a private investment company.

Ashford serves as president of Holland America Line, leading the award-winning cruise line's brand and business, including its fleet of 14 premium vessels — including the new 2,650-guest ms Koningsdam to launch in April — carrying approximately 850,000 guests annually to all seven continents. He oversees Holland America Line's sales and marketing, revenue management, deployment and itinerary planning, public relations, hotel operations and strategy.

Ashford is on the board of directors for global manufacturing company ITT Corp. He was named to the "Directorship 100" of the National Association of Corporate Directors in 2013 and 2014, and is a Purdue University School of Technology Distinguished Alumnus. An active community supporter, he is on the board of directors of the Executive Leadership Council, the preeminent membership organization for the development of global black leaders; and for Streetwise Partners, which brings together low-income individuals and volunteer business professionals to develop workplace skills and employment networks. Ashford holds a Bachelor of Science degree and Master of Science degree in Organizational Leadership and Industrial Technology from Purdue University.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Donald and Ashford were both recognized in Savoy Magazine's 2014 "Top Most Influential Blacks in Corporate America." Ashford made that list while he was president of the Talent Business Segment for Mercer, the global consulting leader in talent, health, retirement and investments.

Frank Del Rio, *CEO Norwegian Cruise Line Holdings*

Frank J. Del Rio is the president and chief executive officer of S&P 500 company Norwegian Cruise Line Holdings Ltd. (NYSE: NCLH), which operates Norwegian Cruise Line, Oceania Cruises and Regent Seven Seas Cruises. Del Rio assumed this role in January 2015. An over 25-year cruise industry veteran, Del Rio has successfully led Norwegian Cruise Line Holdings in delivering industry leading financial results while providing an unparalleled guest experience. Under his leadership, the company has expanded its fleet with the newest and most innovative ships at sea, introduced the company's latest island destination, Harvest Caye in Belize, and significantly strengthened its global footprint.

Previously, Del Rio served as chairman and chief executive officer of Prestige Cruise Holdings, Inc., the parent company operating both Oceania Cruises and Regent Seven Seas Cruises. Del Rio founded Oceania Cruises in 2002, and in doing so, created a new "upper premium" market space in the cruise industry. Under his leadership the line has grown from a fledgling start-up with one 684-passenger ship to a dominant player in the upscale cruise market with six ships totaling 5,300 berths, including the addition of two highly acclaimed 1,250-passenger sister ships, Marina and Riviera. In 2008, Prestige Cruise Holdings acquired Regent Seven Seas Cruises and quickly completed a turnaround which positioned Regent Seven Seas Cruises as the market leader in luxury cruising and in turn positioned Prestige Cruise Holdings as the premier operator of upscale cruise brands.

Del Rio, who was born in Havana, Cuba and emigrated to the United States in 1961 at age six, earned his bachelor's degree in accounting from the University of Florida and is a Certified Public Accountant.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Richard Sasso, *Chairman, MSC Cruises USA*

Richard E. Sasso, chairman of MSC Cruises North America, has been a popular and well-respected figure in the cruise industry for more than 44 years and involved in the travel industry for 48 years.

After holding key positions at Costa Cruises and Chandris Cruises, Sasso joined the senior management team that launched Celebrity Cruises in 1990. He served as president of that line from 1995 to 2002 and was instrumental in establishing it as a top premium cruise line.

Sasso was named president of MSC Cruises USA in April 2004. Since then, he has effectively positioned MSC Cruises for growth in the North American market and in November 2013, MSC Cruises debuted one of its most dazzling vessels, MSC Divina, to Port Miami. In August 2016, Sasso assumed the role of Chairman of MSC Cruises for North America.

Kelly Craighead, *President & CEO, Cruise Line International Association*

Cruise Lines International Association (CLIA) appointed Kelly Craighead as President and Chief Executive Officer effective January 1, 2019. Craighead will be taking over the role currently held by Cindy D'Aoust, who in July of this year announced her intent to leave her position by year's end.

Craighead has spent over 15 years in the public and private sectors, recently serving as Deputy Assistant Secretary for Travel and Tourism in the U.S. Department of Commerce where she advanced travel and tourism priorities within the Administration and with Congress. As the first Executive Director of the National Travel & Tourism Office, Kelly led initiatives that generated over $250 billion annually from International visitors to the U.S. while also representing the United States internationally. Kelly remains active in global tourism efforts and is engaged with several international organizations focused on advancing travel and tourism priorities.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Juan Kuryla, *Port Director & CEO, Port Miami*

Mr. Kuryla began his career with Miami-Dade County in the Parks and Recreation Department in 1987. He moved to the County's Finance Department in 1993 as an administrative officer, where he managed a grants program funded by tourist tax dollars. After approximately a year and a half in the Finance Department, Mr. Kuryla took the position of Section Head at the County's Public Works Department's Road, Bridge and Canal Maintenance Division.

In 1996, Mr. Kuryla was promoted to work in the County Manager's Office as an Assistant Administrator. He was promoted again in May 1998 to the Port of Miami as Assistant to the Port Director, where he oversaw the Department's local, state and federal legislative agenda. From February 2001 through February 2007 Mr. Kuryla held the positions of Assistant Port Director for Intergovernmental Affairs and Assistant Port Director for Intergovernmental Affairs and Promotions.

In 2007, Mr. Kuryla was promoted to Assistant Port Director for Maritime Services. In this capacity, he served as co-lead negotiator for the Port on all long term agreements executed with cruise and cargo customers as well as oversaw Port operations, facilities management, berthing, and property management, in addition to the customer service, business development, public information and media relations. In 2009, Mr. Kuryla was promoted to Deputy Port Director. In this capacity, he was responsible for directly overseeing the Port's five assistant port directors. In May 2013, Mr. Kuryla was promoted to Seaport Director Designee.

On April 1, 2014 Mayor Carlos A. Gimenez appointed Mr. Kuryla to the position of Director of Port Miami, where he oversees operations and capital development for the largest cruise port in the world. In 2013, 4.13 million passengers passed through Port Miami's terminals and berthed 2500 cargo and cruise vessels. Port Miami generates more than 207,000 jobs and has an economic impact of 27 billion.

Mr. Kuryla holds a Bachelor of Business Administration and Master of Business Administration from Florida International University. In 2010, Mr. Kuryla obtained his Professional Port Manager PPM® degree from the American Association of Port Authorities (AAPA).

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Captain John Murray, *Port Director & CEO, Port Canaveral*

Captain John W. Murray joined the Canaveral Port Authority (CPA) in February 2016. A highly respected maritime executive, Capt. Murray brings a wealth of maritime experience to his role as Chief Executive Officer and Port Director for one of the world's most dynamic ports.

Prior to joining CPA, Capt. Murray was president and chief executive officer of Hapag-Lloyd USA, the U.S.-flag shipping subsidiary of Hapag-Lloyd AG, a leading global liner shipping company. A 40-year maritime industry veteran, Capt. Murray has held numerous positions of responsibility, rising through the management ranks following various mergers and acquisitions at Lykes Lines, CP Ships and finally, Hapag-Lloyd.

A U.S. Coast Guard licensed captain, Capt. Murray earned a Bachelor of Science Degree in Nautical Science from the Maine Maritime Academy. Upon graduation, he joined Lykes Lines as a Third Mate, quickly rose to Master, and his last at-sea assignment was commanding the S.S. Brinton Lykes. Capt. Murray's shore side assignments included Mid-Atlantic Division Regional Operations Manager in Norfolk, Va., overseeing vessel fleet operations for Lykes' Marine Division, and Vice President, Operations with responsibility for all Lykes Lines container logistics, marine and insurance activities. He was named President and CEO of Lykes Lines in 2000.

Capt. Murray is at the helm of Port Canaveral, one of Florida's fastest growing seaports. With a staff of more than 200 Port employees, he manages a world-class gateway for cruises, cargo, recreation and logistics, as well as a gateway to new frontiers, including space.

Capt. Murray has been a member of the National Cargo Bureau since 1997, was elected to the American Bureau of Shipping in 2016, and is appointed to the National Academies of Sciences, Engineering, and Medicine (NASEM) Transportation Research Board. He served on the U.S. Transportation Command (USTRANSCOM) Executive Working Group (EWG) and participated in the biannual Department of Defense forum established to regularly interact with commercial ocean carriers supporting U.S. military sealift requirements. Capt. Murray has testified before the U.S. Congress as a subject matter expert in maritime industry management and vessel operations in a global economy. His additional professional affiliations include a long-standing member of the National Defense Transportation Association, the Navy League of the United States, the Council of American Master Mariners, and the International Propeller Club chapters in Washington, D.C., Tampa and Port Canaveral, Florida.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Glenn Wiltshire, *Acting Port Director & CEO, Port Everglades*

The Broward County Commission appointed Glenn Wiltshire as Acting Chief Executive and Port Director of Port Everglades following the recent death of Steven Cernak in March 2019. Wiltshire, a 30-year U.S. Coast Guard veteran, has served as Deputy Port Director since 2006.

During Wiltshire's tenure at Port Everglades, he successfully implemented several innovative programs to support increasing cargo, cruise, and petroleum volumes. He worked closely with U.S. Customs and Border Protection and other state and federal agencies to introduce new technology such as facial recognition, mobile and automated passport control. He also negotiated multiple long-term commercial agreements and managed capital improvements to port facilities. As Chair of the Florida Seaport Transportation and Economic Development Council Security Committee, Wiltshire led a multi-year effort that resulted in legislative changes that eliminated duplicative state security standards and separate state criminal history checks.

Prior to joining Port Everglades, Wiltshire was the U.S. Coast Guard Captain of the Port of New York/New Jersey where he was responsible for all safety, security, environmental protection, and commerce operations programs in nation's third largest port. He also held leadership positions in Washington, DC, where he oversaw marine safety, environmental regulation, strategic transportation planning and defense response efforts.

Wiltshire earned a Master's degree in Public Administration from the John F. Kennedy School of Government at Harvard University, and a Bachelor's degree in Ocean Science from the United States Coast Guard Academy.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 10:30 a.m. – 12:00 p.m.
Florida Department of Health Tampa Laboratory, 3602 Spectrum Boulevard, Tampa, FL 33612

BIOGRAPHIES:

Dr. Scott Rivkees, *State Surgeon General and Secretary, Florida Department of Health*

Dr. Scott A. Rivkees, Florida's Surgeon General, is focused on protecting, promoting and improving the health of everyone who calls Florida home. As Surgeon General, Dr. Rivkees also serves as state health officer for the Florida Department of Health. In this capacity, he oversees the operations of the state health office in Tallahassee, 67 county health departments, 22 area offices for the Division of Children's Medical Services, 12 regional offices for the Division of Medical Quality Assurance, nine area offices for the Division of Disability Determinations and three public health laboratories.

Dr. Rivkees has committed his career to building a culture of health that can help each adult and child in Florida live a long and healthy life.

Before his tenure as Florida's Surgeon General, Dr. Rivkees served as chair of the department of pediatrics at the University of Florida College of Medicine and physician-in-chief of UF Health Shands Children's Hospital, part of UF Health Shands Hospital and the University of Florida's Academic Health Center. He also served as academic chair of pediatrics at Orlando Health and the University of Florida College of Medicine pediatric chair at Studer Family Children's Hospital at Sacred Heart in Pensacola.

Dr. Rivkees is a graduate of Rutgers University and the University of Medicine and Dentistry of New Jersey. He received residency, fellowship and postdoctoral training and served as faculty at Massachusetts General Hospital and Harvard Medical School. Before moving to Florida, Dr. Rivkees served as professor of pediatrics with tenure at Yale University. As associate chair for research he started and directed the Yale Pediatric Thyroid Center, one of the first of its kind in the United States.

Dr. Rivkees has worked with the National Institutes of Health and the U.S. Food and Drug Administration on drug safety issues. He was responsible for the safety alert on liver toxicity caused by the antithyroid drug propylthiouracil. This led to major international treatment practice changes. For his effort, he was recognized as the 2018 recipient of the American Thyroid Association's Paul Starr Award.

AMERICAN OVERSIGHT

During his career, Dr. Rivkees has been named as “One of America’s Best Doctors,” “One of America's Top Pediatricians" and “One of New York’s Best Doctors.” He is a member of the American Society for Clinical Investigation, the Connecticut Academy of Science and a fellow of the American Academy for the Advancement of Science. Dr. Rivkees is also a recipient of the Pioneer Award from CARES and the Special Service Award from the American Academy of Pediatrics.

Dr. Rivkees has had more than 30 years of continuous research funding from the National Institutes of Health. He has more than 250 publications.

He is past chair of the Board of Scientific Counselors for the Eunice Kennedy Shriver National Institute of Child Health and Human Development. He is past chair of the Advocacy Committee of the Association of Medical School Pediatric Department Chairs, past treasurer of the Florida Chapter of the American Academy of Pediatrics and past member of the Pediatric Policy Council.

Dr. Shamarial Roberson, *Deputy Secretary for Thursday, Florida Department of Health*

Dr. Roberson most recently served as the Department's Director for the Division of Community Health Promotion. She joined the Department as a chronic disease epidemiologist and evaluator where she served for two years as the bureau epidemiologist. Dr. Roberson was also a section administrator in Chronic Disease Prevention, providing administrative direction and policy coordination for the Bureau. Her first job out of college was as a middle school teacher, where she taught science and health for more than four years.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 10:30 a.m. – 12:00 p.m.
Florida Department of Health Tampa Laboratory, 3602 Spectrum Boulevard, Tampa, FL 33612

Richard Corcoran, *Commissioner, Florida Department of Education*

Commissioner Richard Corcoran moved to Florida as a child in 1976. Both of his parents grew up during the Great Depression and fought in World War II. They instilled a great sense of pride in public service and duty in him at an early age.

From them, Commissioner Corcoran developed the principles by which he and his wife of over 24 years, Anne, who is also an attorney, teach their six children today.

Commissioner Corcoran grew up in Pasco County, Florida where he graduated from Hudson High School. He earned a Bachelor's Degree from St. Leo College in 1989 and a Juris Doctorate from Regent University in 1996. While enrolled in college, Richard also served in the U.S. Naval Reserve (1987-1993).

Commissioner Corcoran has been a practicing attorney in Florida for almost 20 years. He also served as the Speaker of the Florida House from 2016-2018. During his tenure in the state House, he pushed through over $10 billion in tax cuts, the elimination of over 5,000 regulations, the massive expansion of school choice, and the strongest ethics and transparency laws in state history.

Commissioner Corcoran is a passionate advocate for improving the education system in Florida. He fully believes every child can learn and that all children deserve the opportunity to receive a world-class education.

Dr. Andrew Cannons, *Director, Tampa Laboratory, Florida Department of Health*

Dr. Cannons has served as lab director at the DOH Tampa lab for the last 8 years. Prior to this position he served as scientific director of the USF Center for Biological Defense for nearly a decade.

Dr. Cannons holds a bachelors degree and doctorate degree in biology and biochemistry from the University of Bradford.

Press Conference Regarding COVID-19

Monday, March 2, 2020 10:30 a.m. – 12:00 p.m.
Florida Department of Health Tampa Laboratory, 3602 Spectrum Boulevard, Tampa, FL 33612

John Couris, *President and CEO, Tampa General Hospital*

John D. Couris is the president and CEO of Tampa General Hospital, a nationally renowned nonprofit academic medical center. As a recognized leader in the health care industry, John has achieved tremendous success through innovation, technological integration and strategic collaborations.

He writes about these experiences in leadership and some of the most critical and relevant issues facing the health care industry today on his blog, posted here at www.changewithcouris.com. John also shares his experience and perspective on health care innovation and management at conferences across the country. Currently, over 30,000 individuals across the health care sector, as well as lawmakers, public policy advocates, and executives, have engaged with John via LinkedIn.

Prior to joining Tampa General Hospital, John served as president and CEO of Jupiter Medical Center, the region's leading medical center. During his tenure, the organization expanded its services and forged innovative partnerships with some of the leading providers in the nation, including Mount Sinai New York and Nicklaus Children's Hospital in Miami. Under John's leadership, Jupiter Medical Center developed a partnership with IBM Watson, becoming the first community regional medical center in the country to adopt IBM Watson for oncology.

John also led efforts to raise over $170 million to support technological investments, critical care services and new centers of excellence.

John's career began at Massachusetts General Hospital, one of the premier academic medical centers in the country. From there, he spent the next ten years with BayCare System, rising from vice president of ambulatory care at Morton Plant Mease Health Care in Clearwater to chief operating officer.

Throughout his over twenty-year career, John has demonstrated a unique ability to lead organizations and empower individuals to reach their fullest potential while generating high levels of return on investment and developing innovative programs that consistently deliver on results.

John is a graduate of Boston University and holds a Master's of Science in management from Lesley University in Cambridge, Massachusetts. Beginning in February 2019, John will pursue his Doctor of Business Administration at the University of South Florida Muma College of Business. He resides in Tampa, Florida, with his wife, Dianne, and their two children, Benjamin and Isabelle.

Florida Department of Health Tampa Laboratory, 3602 Spectrum Boulevard, Tampa, FL 33612

Betsy Benac, Commission Chair, Manatee County

Benac has 34 years of experience as a professional land planner in both the public and private sectors. [3]

Among her successes as Commissioner are the replacement of the aging DeSoto Bridge, which she was able to get designated the top regional priority for funding. [3]

Benac's service on the Manasota Basin Board of the Southwest Florida Water Management District included planning and funding long-term water supply projects. Her environmental record includes contributions to the policy boards of the Sarasota and Tampa Bay National Estuary Programs.

She has also served on the boards of the Manatee Chamber of Commerce, the Bradenton Area Economic Development Corp. and Leadership Manatee, among other organizations.

Steve Litschauer, *Emergency Management Chief, Manatee County*

Steve Litschauer has served as Manatee County's Emergency Management Chief since April 2019. Litschauer previously worked as an emergency management officer and later Operations Manager before assuming his current role. Litschauer has had a lengthy career in law enforcement, including 32 years as the captain of the Manatee County Sheriff's Office. Litschauer earned his degree in Psychology from Saint Leo College.

Jacob A. Saur, *Director of Public Safety, Manatee County*

Jacob A Saur was appointed as Manatee County's new public safety director in January of 2020. Saur previously served as the county's emergency communications chief and has worked for Manatee County since 2001. Saur championed multiple projects, along the way positioning Manatee County as a leader in the public safety industry. Saur graduated from Manatee Technical College and Saint Petersburg College. He

is a Registered Public-Safety Leader (RPL) and Emergency Number Professional (ENP).

Cynthia Saunders, *Superintendent, School District of Manatee County*

Cynthia Saunders was sworn in as Superintendent of the School District of Manatee County on June 28, 2018. Her nearly 30 years of service in education in Florida include experience as a classroom teacher, assistant principal and principal as well as time in district administrative and leadership positions including curriculum and staff development, Executive Director of Secondary Schools and Deputy Superintendent of Instructional Services.

Mrs. Saunders came to Manatee County in July 2013 as Executive Director of Secondary Schools and became Deputy Superintendent of Instructional Services in March 2015. With the help of her leadership, experience and community spirit, the School District of Manatee County has seen momentous gains academically, financially and in terms of community support during her tenure.

Vanessa Baugh, *Commissioner, Manatee County District 5*

Commissioner Baugh is originally from Virginia and moved to Florida in 1999. She and her husband, Don started Vanessa Fine Jewelry in 1999, which is located on Lakewood Main Street. They have four children and 10 grandchildren. Baugh graduated from Tidewater Community College with a degree in business. She is the President and CEO of Vanessa Fine Jewelry and has been the Commissioner of Manatee County District 5 for over seven years.

Florida Department of Health Tampa Laboratory, 3602 Spectrum Boulevard, Tampa, FL 33612

Dennis Jones, *Chief, Hillsborough County Fire and Rescue*

Chief Jones has served as the fire chief for Hillsborough County since August 2015. Prior to this position, he served as fire training specialist for the City of Tampa Fire Rescue. Both of these positions were after he retired from the City of Tampa Fire Rescue for 32 years, retiring as chief in May 2010.

Chief Jones holds a bachelor's degree in fire science from Columbia Southern University. He is also a licensed paramedic.

Mike Merrill, *County Administrator, Hillsborough County*

The Administrator is the County's chief executive officer. Hillsborough County's current Administrator, Mike Merrill, sets the framework for carrying out the Board of County Commissioners' decisions, including preparing an annual budget, monitoring the effectiveness of County services, and overseeing the management of more than 4,000 County employees.

Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

17. Marco Rubio, *Senator, Florida*

BIOGRAPHIES

Chad Wolf, *Secretary, Department of Homeland Security*

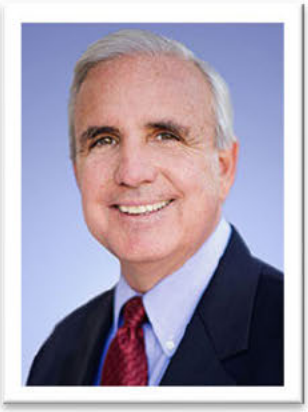
On November 13, 2019, Chad F. Wolf was designated as the Acting Secretary of Homeland Security by President Donald J. Trump and was also confirmed as the first Under Secretary of the U.S. Department of Homeland Security's (DHS) Office of Strategy, Policy, and Plans (PLCY). Previously, he served as the Acting Under Secretary.

As the senior official for PLCY, Mr. Wolf leads the Department's policymaking process to develop and coordinate strategies and policies that advance the homeland security mission and protect the American public.

Since his selection by the President, Mr. Wolf has advanced many of the Administration's critical priorities across the entire homeland security mission. Mr. Wolf oversaw the completion of the recently released DHS Strategic Plan, which establishes the Department's long-term strategic goals and objectives to inform key leadership decisions. Additionally, he led several significant initiatives to counter international and domestic terrorism, prevent terrorist travel, safeguard the U.S. electoral process, and protect American trade interests. As part of his duties, Mr. Wolf led and coordinated the Department's engagement with international partners to protect American homeland security interests at home and abroad.

During his tenure, Mr. Wolf has made significant progress to strengthen U.S. border security, address the humanitarian crisis on the U.S. Southwest Border, and improve the integrity of the U.S. immigration system. As a result of these efforts, Mr. Wolf and his staff have implemented policies that protect American communities from transnational criminal organizations and safeguard American workers.

With over 20 years of policy development and management experience in both the public and private sectors, Mr. Wolf is an effective leader and policymaker on a variety of complex issues. During the Trump Administration, he served as the Chief of Staff for the Transportation Security Administration (TSA), Deputy Chief of Staff and Chief of Staff for the Department. For his leadership and management of complex national issues, Mr. Wolf received the U.S. Secretary of Homeland Security Distinguished Service Medal. Shortly after the terrorist attack on September 11, 2001, Mr. Wolf served as the Assistant Administrator of Transportation Security Policy in which he played a leading role in establishing the Transportation Security Administration.



Beyond his service in the executive branch, Mr. Wolf served as Vice President and Senior Director at Wexler & Walker, a bipartisan public policy consultancy, and held staff positions in the U.S. Senate.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Mr. Wolf earned his Bachelor of Arts in History from Southern Methodist University, and holds a Master's Certificate in Government Contract Management from Villanova University.

Carlos Gimenez, *Mayor, Miami-Dade County*

Carlos A. Gimenez is the Mayor of Miami-Dade – Florida's most populous county. He is Miami-Dade's highest-ranking elected official and chief administrator, who oversees a metropolitan government with 28,417 employees, an annual budget of approximately $8.9 billion, and serving 2.7 million residents.

Mayor Giménez is a Cuban American (naturalized in January 1975) retired firefighter and Mayor of Miami-Dade County, Florida, elected to office June 28, 2011 in a special election. He previously served as a Miami-Dade County Commissioner from 2003 through 2011, and the Fire Chief of the City of Miami Fire Department. He is a member of the Republican Party, but his position of mayor of Miami-Dade County is a nonpartisan one.

Mayor Gimenez has continued to consistently hold the line on tax increases and to date, the average homeowner has saved approximately $1,400 in property taxes. He championed and secured approval for the largest tax cut in County history six years ago, and collectively Miami-Dade taxpayers have saved approximately $2 billion during his tenure.

Gimenez was re-elected as Mayor in 2012 and again in 2016 for two consecutive four-year terms. He brings with him over 40 years of public service experience.

Dale V.C Holness, *Mayor, Broward County*

Mr. Holness is the first Jamaican-American to hold the position, received a unanimous vote from the Broward County Commission which is required by charter to elect a mayor and vice mayor each year in November.

Mr. Holness previously served as vice mayor.

He was first elected in 2010 to represent residents of Broward County's District 9, which includes a population in excess of 200,000 and covers more than eight municipalities in Broward County.

Prior to being elected a Broward County commissioner, he served as a City of Lauderhill commissioner from 2004 to 2010. During his terms in office he served as vice mayor

AMERICAN OVERSIGHT

twice — 2007 and 2010 — started the Lauderhill Chamber of Commerce and established the Lauderhill Business Incubator.

A practicing real estate broker for more than 30 years, he is the president and CEO of All Broward Realty. He is a well-known advocate for small, minority and women-owned businesses, fair wages for workers, improving and providing economic development opportunities for all, and homeownership.

His global advocacy includes positioning Broward County as the center for international trade with the recent success of the annual Florida International Trade and Cultural Expo held October 9-10, 2019 with representation from 60 countries and nearly 2,000 people in attendance, the largest to date.

Dr. Stephen Redd, *Deputy Director for Public Health Service and Implementation Science, CDC*

RADM Stephen C. Redd is the Deputy Director for Public Health Service and Implementation Science at the Centers for Disease Control and Prevention (CDC). Dr. Redd currently oversees the Center for Preparedness and Response; the Center for Global Health; the Center for State, Tribal, Local, and Territorial Support; and the Office of Minority Health and Health Equity. In his deputy director role, he focused on the adoption of implementation science principles at CDC. In collaboration with multiple groups, he is working to understand how public health can most effectively address social determinants of health in various sectors.

Dr. Redd became Director for CDC's Center for Preparedness and Response while CDC responded to the 2014 West Africa Ebola outbreak, when he helped to ensure that congressional stakeholders were kept up-to-date on the evolving outbreak. He worked across the agency to prepare for the possibility of additional Ebola cases in the United States. Since then, he has engaged in the agency's responses to the Zika virus and multiple hurricanes.

Previously, Dr. Redd served as incident commander for the 2009 H1N1 pandemic response, which was the longest activation of CDC's Emergency Operations Center at the time. As the leader of the response, involving more than 3,000 CDC staff, he aided in the effort to vaccinate 81 million people against H1N1 in the United States. Dr. Redd has participated in many disease outbreak investigations and responses, including Legionnaires' disease, strategic development for the control of malaria, and the elimination of measles in the United States.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Dr. Redd is board certified in internal medicine, a Fellow in the American College of Physicians, and a member of the Commissioned Officers Association. He received his baccalaureate degree in history from Princeton University and his medical degree with honors from the Emory University School of Medicine. He trained in medicine at the Johns Hopkins Hospital before completing CDC's two-year Epidemic Intelligence Service training program.

Honored with numerous awards for his work—among them the USPHS Distinguished Service Medal and the Meritorious Service Medal—Dr. Redd is a three-time nominee and winner of CDC's prestigious Charles C. Shepard Science Award for outstanding scientific publication at CDC.

Ambassador Debbie Birx, M.D., *White House (T)*

Ambassador-at-Large, Deborah L. Birx, M.D., is the Coordinator of the United States Government Activities to Combat HIV/AIDS and U.S. Special Representative for Global Health Diplomacy. Ambassador Birx is a world-renowned medical expert and leader in the field of HIV/AIDS. Her three-decade-long career has focused on HIV/AIDS immunology, vaccine research, and global health. As the U.S. Global AIDS Coordinator, Ambassador Birx oversees the implementation of the U.S. President's Emergency Plan for AIDS Relief (PEPFAR), the largest commitment by any nation to combat a single disease in history, as well as all U.S. Government engagement with the Global Fund to Fight AIDS, Tuberculosis and Malaria. Serving as the U.S. Special Representative for Global Health Diplomacy, she aligns the U.S. Government's diplomacy with foreign assistance programs that address global health challenges and accelerate progress toward: achieving an AIDS-free generation; ending preventable child and maternal deaths; and preventing, detecting, and responding to infectious disease threats.

In 1985, Ambassador Birx began her career with the Department of Defense (DoD) as a military-trained clinician in immunology, focusing on HIV/AIDS vaccine research. From 1985-1989, she served as an Assistant Chief of the Hospital Immunology Service at Walter Reed Army Medical Center. Through her professionalism and leadership in the field, she progressed to serve as the Director of the U.S. Military HIV Research Program (USMHRP) at the Walter Reed Army Institute of Research from 1996-2005. Ambassador Birx helped lead one of the most influential HIV vaccine trials in history (known as RV 144 or the Thai trial), which provided the first supporting evidence of any vaccine's potential effectiveness in preventing HIV infection. During this time, she also rose to the rank of Colonel, bringing together the Navy, Army, and Air Force in a new model of cooperation – increasing the

AMERICAN OVERSIGHT

efficiency and effectiveness of the U.S. Military's HIV/AIDS efforts through inter- and intra-agency collaboration. Then known as Colonel Birx, she was awarded two prestigious U.S. Meritorious Service Medals and the Legion of Merit Award for her groundbreaking research, leadership, and management skills during her tenure at DOD.

From 2005-2014, Ambassador Birx served successfully as the Director of CDC's Division of Global HIV/AIDS (DGHA), which is part of the agency's Center for Global Health. As DGHA Director, she utilized her leadership ability, superior technical skills, and infectious passion to achieve tremendous public health impact. She successfully led the implementation of CDC's PEPFAR programs around the world and managed an annual budget of more than $1.5 billion. Ambassador Birx was responsible for all of the agency's global HIV/AIDS activities, including providing oversight to more than 400 staff at headquarters, over 1,500 staff in the field, and more than 45 country and regional offices in Africa, Asia, Caribbean, and Latin America. Recognized for her distinguished and dedicated commitment to building local capacity and strengthening quality laboratory health services and systems in Africa, in 2011, Ambassador Birx received a Lifetime Achievement Award from the African Society for Laboratory Medicine. In 2014, CDC honored her leadership in advancing the agency's HIV/AIDS response with the highly prestigious William C. Watson, Jr. Medal of Excellence.

Ambassador Birx has published over 220 manuscripts in peer-reviewed journals, authored nearly a dozen chapters in scientific publications, as well as developed and patented vaccines. She received her medical degree from the Hershey School of Medicine, Pennsylvania State University, and beginning in 1980 she trained in internal medicine and basic and clinical immunology at the Walter Reed Army Medical Center and the National Institutes of Health. Ambassador Birx is board certified in internal medicine, allergy and immunology, and diagnostic and clinical laboratory immunology.

Adam Goldstein, *Chairman, Cruise Line International Association*

Adam Goldstein was appointed chairman of the Cruise Line International Association on January 1, 2019. Goldstein previously served as CLIA Global Chair in 2015 and 2016 and has remained on the CLIA Global Executive Committee for the past two years. In addition to his more than 30-year tenure with RCL, he most recently served as the Florida-Caribbean Cruise Association Charmain, CLIA's sister association.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Richard Fain, *Chairman, Royal Caribbean International Ltd.*

Richard D. Fain is chairman and chief executive officer of Royal Caribbean Cruises Ltd. (NYSE: RCL). RCL owns and operates Royal Caribbean International, Celebrity Cruises, Azamara, and recently acquired two-thirds ownership of Silversea Cruises. Additionally, RCL is part of joint ventures that operate TUI Cruises and Pullmantur Cruceros. The company's 63 ships carry more than 6 million guests a year to ports on all seven continents.

Since taking the helm of RCL in 1988, Fain has guided the company's growth to its current place on the S&P 500, as well as its repeat listing by the Ethisphere Institute as a World's Most Ethical Company. For the second year running, Barron's recently named him one of the World's 30 Best CEOs for his vision and changing the course of the industry.

Fain serves on the University of Miami Board of Trustees and is also a member of the Posse Foundation board and the World Travel and Tourism Council's executive committee. He has been recognized with the Federal Maritime Commission's Earth Day Award, the Travel Weekly Lifetime Achievement Award, the South Florida Business Journal Ultimate CEO Award, the Ellis Island Medal of Honor, and membership in the South Florida Business Hall of Fame. The French government honored Fain as a Chevalier de la Legion d'Honneur, while the Finnish government named him a Commander, First Class, of the Order of the Lion.

Fain holds a B.S. degree in economics from the University of California at Berkeley and an M.B.A. from the Wharton School of Business at the University of Pennsylvania. He and his wife Colleen have four children and seven grandchildren.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Arnold Donald, *CEO, Carnival Corporation*

Donald has been president and CEO of Carnival Corporation, the world's largest leisure travel company with 10 global cruise line brands, including Carnival Cruise Line, Holland America Line and Princess Cruises, since July 2013. He has also been a director of Carnival Corporation since 2001 and a director of Carnival plc since 2003.

Donald was president and CEO of The Executive Leadership Council, a professional network of African-American executives of major U.S. companies, from 2010 to June 2012. He previously served as president and CEO of Juvenile Diabetes Research Foundation International from 2006 to 2008. From 2000 to 2005, Donald was Chairman of the Board of Merisant Company, a manufacturer and marketer of tabletop sweetener products, including the Equal® and Canderel® brands. From 2000 to 2003, he was also CEO of Merisant Company. From 1998 to 2000, he was a senior vice president of Monsanto Company, which develops agricultural products and consumer goods, and president of its nutrition and consumer sector. Prior to that, he was president of Monsanto Company's agricultural sector.

He has been a member of the boards of directors of Bank of America Corporation since January 2013 and Crown Holdings, Inc. since July 1999. He was a member of the board of The Laclede Group, Inc. from January 2003 to January 2014, Oil-Dri Corporation of America from December 1997 to January 2013 and The Scotts Company from March 2000 to January 2009. He is also principal of AWDPLC LLC, a private investment company.

Ashford serves as president of Holland America Line, leading the award-winning cruise line's brand and business, including its fleet of 14 premium vessels — including the new 2,650-guest ms Koningsdam to launch in April — carrying approximately 850,000 guests annually to all seven continents. He oversees Holland America Line's sales and marketing, revenue management, deployment and itinerary planning, public relations, hotel operations and strategy.

Ashford is on the board of directors for global manufacturing company ITT Corp. He was named to the "Directorship 100" of the National Association of Corporate Directors in 2013 and 2014, and is a Purdue University School of Technology Distinguished Alumnus. An active community supporter, he is on the board of directors of the Executive Leadership Council, the preeminent membership organization for the development of global black leaders; and for Streetwise Partners, which brings together low-income individuals and volunteer business professionals to develop workplace skills and employment networks. Ashford holds a Bachelor of Science degree and Master of Science degree in Organizational Leadership and Industrial Technology from Purdue University.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Donald and Ashford were both recognized in Savoy Magazine's 2014 "Top Most Influential Blacks in Corporate America." Ashford made that list while he was president of the Talent Business Segment for Mercer, the global consulting leader in talent, health, retirement and investments.

Frank Del Rio, *CEO Norwegian Cruise Line Holdings*

Frank J. Del Rio is the president and chief executive officer of S&P 500 company Norwegian Cruise Line Holdings Ltd. (NYSE: NCLH), which operates Norwegian Cruise Line, Oceania Cruises and Regent Seven Seas Cruises. Del Rio assumed this role in January 2015. An over 25-year cruise industry veteran, Del Rio has successfully led Norwegian Cruise Line Holdings in delivering industry leading financial results while providing an unparalleled guest experience. Under his leadership, the company has expanded its fleet with the newest and most innovative ships at sea, introduced the company's latest island destination, Harvest Caye in Belize, and significantly strengthened its global footprint.

Previously, Del Rio served as chairman and chief executive officer of Prestige Cruise Holdings, Inc., the parent company operating both Oceania Cruises and Regent Seven Seas Cruises. Del Rio founded Oceania Cruises in 2002, and in doing so, created a new "upper premium" market space in the cruise industry. Under his leadership the line has grown from a fledgling start-up with one 684-passenger ship to a dominant player in the upscale cruise market with six ships totaling 5,300 berths, including the addition of two highly acclaimed 1,250-passenger sister ships, Marina and Riviera. In 2008, Prestige Cruise Holdings acquired Regent Seven Seas Cruises and quickly completed a turnaround which positioned Regent Seven Seas Cruises as the market leader in luxury cruising and in turn positioned Prestige Cruise Holdings as the premier operator of upscale cruise brands.

Del Rio, who was born in Havana, Cuba and emigrated to the United States in 1961 at age six, earned his bachelor's degree in accounting from the University of Florida and is a Certified Public Accountant.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Richard Sasso, *Chairman, MSC Cruises USA*

Richard E. Sasso, chairman of MSC Cruises North America, has been a popular and well-respected figure in the cruise industry for more than 44 years and involved in the travel industry for 48 years.

After holding key positions at Costa Cruises and Chandris Cruises, Sasso joined the senior management team that launched Celebrity Cruises in 1990. He served as president of that line from 1995 to 2002 and was instrumental in establishing it as a top premium cruise line.

Sasso was named president of MSC Cruises USA in April 2004. Since then, he has effectively positioned MSC Cruises for growth in the North American market and in November 2013, MSC Cruises debuted one of its most dazzling vessels, MSC Divina, to Port Miami. In August 2016, Sasso assumed the role of Chairman of MSC Cruises for North America.

Kelly Craighead, *President & CEO, Cruise Line International Association*

Cruise Lines International Association (CLIA) appointed Kelly Craighead as President and Chief Executive Officer effective January 1, 2019. Craighead will be taking over the role currently held by Cindy D'Aoust, who in July of this year announced her intent to leave her position by year's end.

Craighead has spent over 15 years in the public and private sectors, recently serving as Deputy Assistant Secretary for Travel and Tourism in the U.S. Department of Commerce where she advanced travel and tourism priorities within the Administration and with Congress. As the first Executive Director of the National Travel & Tourism Office, Kelly led initiatives that generated over $250 billion annually from International visitors to the U.S. while also representing the United States internationally. Kelly remains active in global tourism efforts and is engaged with several international organizations focused on advancing travel and tourism priorities.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Juan Kuryla, *Port Director & CEO, Port Miami*

Mr. Kuryla began his career with Miami-Dade County in the Parks and Recreation Department in 1987. He moved to the County's Finance Department in 1993 as an administrative officer, where he managed a grants program funded by tourist tax dollars. After approximately a year and a half in the Finance Department, Mr. Kuryla took the position of Section Head at the County's Public Works Department's Road, Bridge and Canal Maintenance Division.

In 1996, Mr. Kuryla was promoted to work in the County Manager's Office as an Assistant Administrator. He was promoted again in May 1998 to the Port of Miami as Assistant to the Port Director, where he oversaw the Department's local, state and federal legislative agenda. From February 2001 through February 2007 Mr. Kuryla held the positions of Assistant Port Director for Intergovernmental Affairs and Assistant Port Director for Intergovernmental Affairs and Promotions.

In 2007, Mr. Kuryla was promoted to Assistant Port Director for Maritime Services. In this capacity, he served as co-lead negotiator for the Port on all long term agreements executed with cruise and cargo customers as well as oversaw Port operations, facilities management, berthing, and property management, in addition to the customer service, business development, public information and media relations. In 2009, Mr. Kuryla was promoted to Deputy Port Director. In this capacity, he was responsible for directly overseeing the Port's five assistant port directors. In May 2013, Mr. Kuryla was promoted to Seaport Director Designee.

On April 1, 2014 Mayor Carlos A. Gimenez appointed Mr. Kuryla to the position of Director of Port Miami, where he oversees operations and capital development for the largest cruise port in the world. In 2013, 4.13 million passengers passed through Port Miami's terminals and berthed 2500 cargo and cruise vessels. Port Miami generates more than 207,000 jobs and has an economic impact of 27 billion.

Mr. Kuryla holds a Bachelor of Business Administration and Master of Business Administration from Florida International University. In 2010, Mr. Kuryla obtained his Professional Port Manager PPM® degree from the American Association of Port Authorities (AAPA).

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Captain John Murray, *Port Director & CEO, Port Canaveral*

Captain John W. Murray joined the Canaveral Port Authority (CPA) in February 2016. A highly respected maritime executive, Capt. Murray brings a wealth of maritime experience to his role as Chief Executive Officer and Port Director for one of the world's most dynamic ports.

Prior to joining CPA, Capt. Murray was president and chief executive officer of Hapag-Lloyd USA, the U.S.-flag shipping subsidiary of Hapag-Lloyd AG, a leading global liner shipping company. A 40-year maritime industry veteran, Capt. Murray has held numerous positions of responsibility, rising through the management ranks following various mergers and acquisitions at Lykes Lines, CP Ships and finally, Hapag-Lloyd.

A U.S. Coast Guard licensed captain, Capt. Murray earned a Bachelor of Science Degree in Nautical Science from the Maine Maritime Academy. Upon graduation, he joined Lykes Lines as a Third Mate, quickly rose to Master, and his last at-sea assignment was commanding the S.S. Brinton Lykes. Capt. Murray's shore side assignments included Mid-Atlantic Division Regional Operations Manager in Norfolk, Va., overseeing vessel fleet operations for Lykes' Marine Division, and Vice President, Operations with responsibility for all Lykes Lines container logistics, marine and insurance activities. He was named President and CEO of Lykes Lines in 2000.

Capt. Murray is at the helm of Port Canaveral, one of Florida's fastest growing seaports. With a staff of more than 200 Port employees, he manages a world-class gateway for cruises, cargo, recreation and logistics, as well as a gateway to new frontiers, including space.

Capt. Murray has been a member of the National Cargo Bureau since 1997, was elected to the American Bureau of Shipping in 2016, and is appointed to the National Academies of Sciences, Engineering, and Medicine (NASEM) Transportation Research Board. He served on the U.S. Transportation Command (USTRANSCOM) Executive Working Group (EWG) and participated in the biannual Department of Defense forum established to regularly interact with commercial ocean carriers supporting U.S. military sealift requirements. Capt. Murray has testified before the U.S. Congress as a subject matter expert in maritime industry management and vessel operations in a global economy. His additional professional affiliations include a long-standing member of the National Defense Transportation Association, the Navy League of the United States, the Council of American Master Mariners, and the International Propeller Club chapters in Washington, D.C., Tampa and Port Canaveral, Florida.

AMERICAN OVERSIGHT

Vice President Michael Pence Meeting Regarding COVID-19

Saturday, March 7, 2020, 2:30 p.m. – 3:30 p.m.
Port Everglades Administration Building, 1850 Eller Drive, Fort Lauderdale, FL 33316

Glenn Wiltshire, *Acting Port Director & CEO, Port Everglades*

The Broward County Commission appointed Glenn Wiltshire as Acting Chief Executive and Port Director of Port Everglades following the recent death of Steven Cernak in March 2019. Wiltshire, a 30-year U.S. Coast Guard veteran, has served as Deputy Port Director since 2006.

During Wiltshire's tenure at Port Everglades, he successfully implemented several innovative programs to support increasing cargo, cruise, and petroleum volumes. He worked closely with U.S. Customs and Border Protection and other state and federal agencies to introduce new technology such as facial recognition, mobile and automated passport control. He also negotiated multiple long-term commercial agreements and managed capital improvements to port facilities. As Chair of the Florida Seaport Transportation and Economic Development Council Security Committee, Wiltshire led a multi-year effort that resulted in legislative changes that eliminated duplicative state security standards and separate state criminal history checks.

Prior to joining Port Everglades, Wiltshire was the U.S. Coast Guard Captain of the Port of New York/New Jersey where he was responsible for all safety, security, environmental protection, and commerce operations programs in nation's third largest port. He also held leadership positions in Washington, DC, where he oversaw marine safety, environmental regulation, strategic transportation planning and defense response efforts.

Wiltshire earned a Master's degree in Public Administration from the John F. Kennedy School of Government at Harvard University, and a Bachelor's degree in Ocean Science from the United States Coast Guard Academy.

BIOGRAPHIES:

Dr. Scott Rivkees, *State Surgeon General and Secretary, Florida Department of Health*

Dr. Scott A. Rivkees, Florida's Surgeon General, is focused on protecting, promoting and improving the health of everyone who calls Florida home. As Surgeon General, Dr. Rivkees also serves as state health officer for the Florida Department of Health. In this capacity, he oversees the operations of the state health office in Tallahassee, 67 county health departments, 22 area offices for the Division of Children's Medical Services, 12 regional offices for the Division of Medical Quality Assurance, nine area offices for the Division of Disability Determinations and three public health laboratories.

Dr. Rivkees has committed his career to building a culture of health that can help each adult and child in Florida live a long and healthy life.

Before his tenure as Florida's Surgeon General, Dr. Rivkees served as chair of the department of pediatrics at the University of Florida College of Medicine and physician-in-chief of UF Health Shands Children's Hospital, part of UF Health Shands Hospital and the University of Florida's Academic Health Center. He also served as academic chair of pediatrics at Orlando Health and the University of Florida College of Medicine pediatric chair at Studer Family Children's Hospital at Sacred Heart in Pensacola.

Dr. Rivkees is a graduate of Rutgers University and the University of Medicine and Dentistry of New Jersey. He received residency, fellowship and postdoctoral training and served as faculty at Massachusetts General Hospital and Harvard Medical School. Before moving to Florida, Dr. Rivkees served as professor of pediatrics with tenure at Yale University. As associate chair for research he started and directed the Yale Pediatric Thyroid Center, one of the first of its kind in the United States.

Dr. Rivkees has worked with the National Institutes of Health and the U.S. Food and Drug Administration on drug safety issues. He was responsible for the safety alert on liver toxicity caused by the antithyroid drug propylthiouracil. This led to major international treatment practice changes. For his effort, he was recognized as the 2018 recipient of the American Thyroid Association's Paul Starr Award.

AMERICAN OVERSIGHT

During his career, Dr. Rivkees has been named as "One of America's Best Doctors," "One of America's Top Pediatricians" and "One of New York's Best Doctors." He is a member of the American Society for Clinical Investigation, the Connecticut Academy of Science and a fellow of the American Academy for the Advancement of Science. Dr. Rivkees is also a recipient of the Pioneer Award from CARES and the Special Service Award from the American Academy of Pediatrics.

Dr. Rivkees has had more than 30 years of continuous research funding from the National Institutes of Health. He has more than 250 publications.

He is past chair of the Board of Scientific Counselors for the Eunice Kennedy Shriver National Institute of Child Health and Human Development. He is past chair of the Advocacy Committee of the Association of Medical School Pediatric Department Chairs, past treasurer of the Florida Chapter of the American Academy of Pediatrics and past member of the Pediatric Policy Council.

Dr. Shamarial Roberson, *Deputy Secretary for Thursday, Florida Department of Health*

Dr. Roberson most recently served as the Department's Director for the Division of Community Health Promotion. She joined the Department as a chronic disease epidemiologist and evaluator where she served for two years as the bureau epidemiologist. Dr. Roberson was also a section administrator in Chronic Disease Prevention, providing administrative direction and policy coordination for the Bureau. Her first job out of college was as a middle school teacher, where she taught science and health for more than four years.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Richard Corcoran, *Commissioner, Florida Department of Education*

Commissioner Richard Corcoran moved to Florida as a child in 1976. Both of his parents grew up during the Great Depression and fought in World War II. They instilled a great sense of pride in public service and duty in him at an early age.

From them, Commissioner Corcoran developed the principles by which he and his wife of over 24 years, Anne, who is also an attorney, teach their six children today.

Commissioner Corcoran grew up in Pasco County, Florida where he graduated from Hudson High School. He earned a Bachelor's Degree from St. Leo College in 1989 and a Juris Doctorate from Regent University in 1996. While enrolled in college, Richard also served in the U.S. Naval Reserve (1987-1993).

Commissioner Corcoran has been a practicing attorney in Florida for almost 20 years. He also served as the Speaker of the Florida House from 2016-2018. During his tenure in the state House, he pushed through over $10 billion in tax cuts, the elimination of over 5,000 regulations, the massive expansion of school choice, and the strongest ethics and transparency laws in state history.

Commissioner Corcoran is a passionate advocate for improving the education system in Florida. He fully believes every child can learn and that all children deserve the opportunity to receive a world-class education.

Dr. Stephen White, *Director, Florida Department of Health Miami Laboratory*

Stephen serves as the bioterrorism defense coordinator for the Florida Department of Health. He has held this position for nearly four years. He previously served in the same role from August 2011 to June 2015.

Stephen has a PhD in public health from Florida International Univiersity as well as bachelors and masters degrees from Texas Tech University in clinical laboratory science and practice management.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Dr. Yesenia Villalta, *Administrator, Florida Department of Health in Miami-Dade County*

Dr. Villalta was born in Miami, Florida. After graduating from Coral Gables High School, she attended Miami-Dade College, where she majored in chemistry. Dr. Villalta is a three-time graduate of the University of Miami School of Nursing, where she earned a Bachelors and Masters of Science in Nursing as well as a Doctor of Nursing Practice degree. Upon graduation, she worked in the private sector and then made a change to public health.

Dr. Villalta has nearly 13 years of experience in a variety of public health functions and 19 years in the field of nursing. She started her career with public health in 2005, at DOH-Miami-Dade as an Advanced Practice Registered Nurse. Dr. Villalta also served as Assistant Director of Nursing in 2007, until being appointed Executive Community Health Nursing Director in 2014.

Mark Racicot, *CEO, North Shore Medical Center*

Prior to his appointment to North Shore Medical Center Racicot was the chief executive officer at Florida Medical Center and he also served as the chief operating officer at Palmetto General Hospital where he was also the lead COO for Tenet's Miami-Dade Group hospitals. Under his leadership of Broward and Miami-Dade, Racicot implemented processes to improve standardization and efficiency across the five hospitals. He also helped create a regional capital plan to refurbish patient rooms over a three year period across the ten hospitals in Florida. At Palmetto, Racicot oversaw the design and construction of the hospital's new 31-bed clinical decision unit. He also managed a variety of projects including a new CT unit and MRI replacement in the imaging department and telemetry system upgrades on three nursing units. A known relationship builder, Racicot was also responsible for leading ancillary and support teams to significantly improve throughout and patient experience. He previously worked in healthcare in New England.

Racicot holds a Bachelor of Science degree in Civil Engineering from WPI and is a registered engineer. In addition, he has a Master of Business Administration from Fitchburg State University.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Esteban Bovo, *Commissioner, Miami-Dade County Commission*

Esteban L. Bovo, Jr. was elected in 2011 to serve as the Miami-Dade County Commissioner representing District 13, which includes Hialeah, Miami Lakes, Palm Springs North, and neighboring areas of unincorporated Miami-Dade. On December 6th, 2016 Commissioner Bovo was elected Chairman of the Board of County Commissioners for the 2017-2018 term.

Bovo commenced his public service when he was appointed Councilman for the City of Hialeah in 1998. After being re-elected twice, Chairman Bovo's colleagues selected him as President of the Hialeah City Council and he remained in that capacity throughout his term. As Councilman, Bovo sponsored the anti-predator legislation and focused on improving the city for the residents.

In November 2008, Bovo was elected as State Representative for District 110 and was re-elected without opposition in 2010. During his tenure in the Florida Legislature, Bovo was an outspoken advocate for the historic Hialeah Park and worked diligently towards its re-opening. Throughout the 2009 legislative session, he also sponsored a resolution naming May as "A Safe Haven for Newborns Month," in recognition of the Gloria M. Silveiro Foundation. Additionally, he designated April 17, 2009 as "Bay of Pigs Memorial Day" in commendation of the Museum and Library for 2506 Assault Brigade, where historic memorabilia is preserved.

Bovo continued to focus his legislative agenda on the betterment and safety of our community by sponsoring the Ashley Nicole Valdes Act, which requires defendants who have been arrested for leaving the scene of a fatal accident to be held in custody until a judge ruling. Due to his tenacity and dedication to public service, his colleagues in the Florida Legislature nominated him as Chairman of the Hispanic Legislative Caucus and was subsequently chosen to chair the Committee of Business Regulation in Tallahassee.

Bovo as Chairman of the County Commission has restructured the commission committee system and established a Chairman's Policy Council to address several key issues facing our community. The Policy Council has been tasked with developing recommendations to address issues such as mass transit expansion funding, courthouse and jail infrastructure funding, sea level rise, housing affordability, and gun violence epidemic. As a County Commissioner, Esteban Bovo, Jr. maintains an open-door policy and continues his commitment to improving our quality of life in Miami-Dade County.

AMERICAN OVERSIGHT

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Esteban L. Bovo, Jr. was born on June 12, 1962 in Queens, New York to Marilyn and Esteban Bovo-Carás.. Esteban Bovo has been a proud resident of Miami-Dade County for over 47 years and holds a Bachelor's degree in Political Science from Florida International University. He is married to Viviana and has five children; Oscar, Bianca, Esteban, Sofia, and Alessandro.

Rebecca Sosa, *Commissioner, Miami-Dade County Commission*

Rebeca Sosa has served on the Miami-Dade County Commission as District 6 commissioner since June 2001. She has been re-elected four times - most recently in 2014 without opposition- to represent the residents of the City of Miami, Coral Gables, West Miami, Hialeah and Miami Springs and the unincorporated communities of Schenley Park, Coral Villas, Red Bird, Coral Terrace, Little Gables and Fontainebleau.

On Nov. 20, 2012, she was elected by her colleagues as Chairwoman of the County Commission where she served a two-year term.

Commissioner Sosa was born in Camaguey, Cuba. She received her Bachelor Degree in Secondary Education from the University of Puerto Rico and a Bachelor Degree in Elementary Education from Saint Thomas University where she graduated Summa Cum Laude. She holds certifications both in elementary education and as an instructor for English for Speakers of Other Languages (ESOL). Commissioner Sosa has been an educator for more than 30 years and is currently a teacher-trainer for Miami-Dade County Public Schools.

Prior to joining Miami-Dade County, Commissioner Sosa served as mayor of the City of West Miami from 1994 to 2001 where her leadership resulted in the city's recovery from a 52 percent budget deficit, thus removing it from the Governor's Emergency List.

Roberto Martell, *Mayor, Town of Medley*

As Mayor of the Town of Medley, Roberto Martell is committed to serving his community. Mayor Roberto Martell began his public service in 2008 after being elected to the seat of Councilperson. In 2012, he was elected as Mayor of the Town of Medley, and in 2016 was re-elected for his second term as Mayor. Mayor Martell always puts forth the best interests of the residents, staff and business which make Medley what it is

AMERICAN OVERSIGHT

today.

Establishing his construction company, Martell Construction in 1987, Roberto Martell always excelled beyond the highest levels of expertise and honesty in the industry. Prior to beginning his company, Roberto Martell oversaw construction work on the Metro Rail, as well as drew up plans for new, turn-key properties. Inhis business, Martell believed in being straightforward and facilitating the construction process for his clients, including addressing any concerns regarding the before and during the construction, adhering to a strict construction timetable, and making sure work was completed in the most time and cost-effective way possible.

In March of 2016, Mayor Roberto Martell was appointed by Florida Governor Rick Scott to the Metropolitan Planning Organization of Miami-Dade County. Mayor Martell also proudly serve's on the following committee's: South Florida Regional Planning Council, MPO's Executive Policy Committee and the MPO's Fiscal Priorities Committee. Through his hard work and dedication, Mayor Martell continues to strive to bring economic growth and development to his Town.

Cliff Bauer, *Vice President of Government Relations, Miami Jewish Health*

Cliff Bauer oversees and represents Miami Jewish Health's PACE program and other public health programs and services to state and federal government agencies and regulators. He has more than 40 years of experience in healthcare management and has consulted for and guided healthcare associations on Medicare Advantage HMO programs and public health department grant programs.

Bauer is on the board of directors for the National PACE Association, Greater Miami Chamber of Commerce and Our Florida Promise, and is an adjunct professor at Florida International University.

He holds a Bachelor of Arts in biology from the University of Missouri and a master's degree in health administration from St. Louis University.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Steven Sonenreich, *President & CEO, Mount Sinai Medical Center*

Steven D. Sonenreich's 35-year career in healthcare began at Mount Sinai Medical Center in 1976.

In 1996, Steve left Mount Sinai for the opportunity to become chief executive officer of Cedars Medical Center in Miami. Under his direction, Cedars won several awards for customer service and overall performance. The Mount Sinai Medical Center Board of Trustees recruited Steve back to the hospital in his current position in late October 2001.

Under Sonenreich's leadership, Mount Sinai has been designated one of America's Top Hospitals for the last five consecutive years by U.S. News & World Report. In addition, Sonenreich helped expand Mount Sinai's operations over six South Florida locations to include the region's only freestanding emergency department and multiple outpatient physician offices. He has been honored as 2012 Citizen of the Year by the Miami Beach Chamber of Commerce and he received an award from The South Florida Business Journal as one of the ten Miami Ultimate CEOs in 2012.

He earned his Bachelor of Arts degree from the State University of New York at Binghamton and a Master of Business Administration and Certification in Healthcare Administration from the University of Miami.

Matthew A. Love, *President and CEO, Nicklaus Children's Health System*

Matthew A. Love has accepted the permanent role of president and chief executive officer (CEO) at Nicklaus Children's Health System (NCHS) in January 2020. Love, who joined the health system as chief financial officer in October 2018, was appointed interim president and CEO by the NCHS board of directors in July 2019.

Love has more than 20 years of experience in financial and operational oversight in both adult and pediatric healthcare systems. Prior to joining NCHS, he served as senior vice president and chief financial officer of Regions for Mercy Health System in Ohio, where he led a team of seven regional chief financial officers.

Press Conference Regarding COVID-19

Monday, March 2, 2020 2:00 p.m. – 3:30 p.m.
Florida Department of Health in Miami-Dade County, 1350 NW 14th Street, Room 401, Miami, FL 33125

Jose Pepe, *Commissioner, Miami-Dade County Commission*

Commissioner Jose "Pepe" Diaz serves as the Commissioner for District 12, which includes the cities of Doral, Hialeah, Hialeah Gardens, Medley, Sweetwater, Virginia Gardens, and a large portion of unincorporated Miami-Dade County. He was first elected as commissioner in September 2002 and was re-elected to a fifth term in 2018. He also served as the Vice-Chairman of the Miami-Dade Board of County Commissioners from 2009-2010.

Commissioner Diaz has served in various capacities on different committees of the County Commission. Currently, he serves on the Health Care and County Operations Committee, the Public Safety and Rehabilitation Committee and the Parks, Recreation and Cultural Affairs Committee. He also serves as the Chairman of the Miami-Dade Value Adjustment Board and is a member of the South Florida Regional Planning Council. Additionally, Commissioner Diaz, who proudly served as a member of the U.S. Marine Corps, was appointed as Miami-Dade County's Military Liaison and also serves as the Chairman of Miami-Dade County's Military Affairs Board.

On the international level, Commissioner Diaz serves as Chairman of the International Trade Consortium Board and is an advocate for trade and forging partnerships with other nations. In March 2010, Commissioner Diaz was appointed by U.S. Trade Representative Ron Kirk to serve on the Intergovernmental Policy Advisory Committee on Trade (IGPAC), and proudly served until April 2018. In this capacity, Commissioner Diaz advised, consulted with, and made recommendations to the U.S. Trade Representative from the perspective of local governments. He also serves as Chairman of the Jay Malina International Trade Consortium (ITC), where he has been instrumental in making profitable connections for businesses on behalf of Miami-Dade County with the Caribbean and Latin America. He toured several Asian cities in 2005 (Tianjin, Hong Kong and Shanghai), met with government officials and business organizations to promote trade partnerships, and participated in a ceremony to mark a joint venture between Florida International University and Tianjin University of Commerce. The commissioner and the Asian delegation also secured a cooperative agreement for the County with Tianjin's Municipal People's Government.

Before joining the Commission, Commissioner Diaz worked to resolve the ongoing flooding issues throughout Miami-Dade County as Mayor of Sweetwater.

Subject: CONFIRMATION (FL) -- Governor-Only Briefing Call on Monday, March 2 at 12:00 p.m. ET

Note: This email and its content is not for sharing or distribution outside of a governor and governor's senior staff. Each governor is permitted only one dial-in per state (no exceptions). Please read this email carefully, and please confirm receipt of email and instructions.

THE WHITE HOUSE

Shane,

Your Governor is **CONFIRMED** to participate in the **Governors-only Briefing Call with Vice President Mike Pence** and Senior Administration Officials on **Monday, March 2, 2020 at 12:00 p.m. Eastern Time** for an update on the Federal-State-Local preparedness and response efforts to COVID-19.

Briefing Call Details

- **Date:** Monday, March 2, 2020
- **Time:** 12:00 p.m. Eastern Time
- **Expected Length:** 30 minutes
- **Federal Participants:** Vice President Mike Pence, HHS Secretary Azar, and additional Senior Administration Officials
- **Governors-Only Participation:** Participation in this call is for governors only. While we are allowing governors to be joined by their relevant cabinet members and key state officials (in the room with the governor – i.e. one call-in per state), only governors will be allowed to actively participate in the briefing.

Call-In Information – ONLY ONE DIAL-IN PER STATE (NO EXCEPTIONS)

Please read carefully and do NOT share or distribute the call-in information. The call line has limited lines and we are permitting only one call-in per state. All relevant cabinet members and key state officials must join their governor in the same room to ensure you are using the access code only once per state. ***If your state dials-in using the same access code as the governor, you may prevent your governor from participating in the call as lines are limited.***

Subject: CONFIRMATION (FL) -- Governor-Only Briefing Call on Monday, March 2 at 12:00 p.m. ET

***Note*: This email and its content is not for sharing or distribution outside of a governor and governor's senior staff. Each governor is permitted only one dial-in per state (no exceptions). Please read this email carefully, and please confirm receipt of email and instructions.**

THE WHITE HOUSE

Shane,

Your Governor is **CONFIRMED** to participate in the **Governors-only Briefing Call with Vice President Mike Pence** and Senior Administration Officials on **Monday, March 2, 2020 at 12:00 p.m. Eastern Time** for an update on the Federal-State-Local preparedness and response efforts to COVID-19.

Briefing Call Details

- **Date:** Monday, March 2, 2020
- **Time:** 12:00 p.m. Eastern Time
- **Expected Length:** 30 minutes
- **Federal Participants:** Vice President Mike Pence, HHS Secretary Azar, and additional Senior Administration Officials
- **Governors-Only Participation:** Participation in this call is for governors only. While we are allowing governors to be joined by their relevant cabinet members and key state officials (in the room with the governor – i.e. one call-in per state), only governors will be allowed to actively participate in the briefing.

-

AMERICAN OVERSIGHT

Call-In Information – ONLY ONE DIAL-IN PER STATE (NO EXCEPTIONS)

Please read carefully and do NOT share or distribute the call-in information. The call line has limited lines and we are permitting only one call-in per state. All relevant cabinet members and key state officials must join their governor in the same room to ensure you are using the access code only once per state. ***If your state dials-in using the same access code as the governor, you may prevent your governor from participating in the call as lines are limited.***

-

- **Phone Number for Governor Dial-In Only:** ~~888-600-5819~~ *(Note: this phone number will not start working until 6:00 a.m. ET on March 2)*
- **Access Code for Governor Only:** [redacted]
- **Testing & Troubleshooting:** Governors' staff may contact the FEMA Operations Center (540-542-2171) to conduct a test at least one hour prior to connecting to the call.

If you have any additional questions, please reach out to the Office of the Vice President or White House Intergovernmental Affairs Office.

Date:	Wednesday, March 11, 2020 4:36:40 PM
Attachments:	image001.png

Good Afternoon,

As a follow-up to this morning's update, below you will find details on CDC's awarding of over $560 million State and local jurisdictions in support of COVID-19 response, and community mitigation strategies for Seattle (WA) and Santa Clara (CA).

CDC to Award Over $560 Million to State & Local Jurisdictions in Support of COVID-19 Response (more here)
The Department of Health and Human Services (HHS) is announcing another upcoming action by the Centers for Disease Control and Prevention (CDC) to provide resources to state and local jurisdictions in support of our nation's response to the coronavirus disease 2019 (COVID-19). The $8.3 billion dollar Supplemental passed by Congress included statutory language which prescribed the exact formula for disbursing the money: states will receive 90% of their 2019 CDC PHEP grants. This marks the first tranche of funding to states from the $8.3 billion supplemental. Your state health officers are receiving a letter today from CDC outlining what is needed to receive the funding, essentially they need to submit a spend plan and they will receive guidance on what that spend plan should contain.

-

White House Coronavirus Task Force Announces Community Mitigation Strategies for Seattle, Santa Clara

The White House Coronavirus Task Force today recommended 30-day mitigation strategies for Seattle-King, Pierce, and Snohomish County, Washington, and Santa Clara County, California due to widespread transmission of coronavirus disease 2019 (COVID-19). These mitigation activities are designed to address the effects of COVID-19 on areas that are experiencing community spread.

"President Trump has made clear that the Task Force must move decisively to protect the health and safety of the American people," said Vice President Mike Pence. "These recommendations outline a whole-of-community approach to immediately minimize the impacts of coronavirus in these cities and towns. I look forward to the continued partnership between the Task Force and State and local leaders."

Earlier today, Vice President Pence spoke with California Governor Gavin Newsom and Washington Governor Jay Inslee about these community mitigation strategies. The Task Force and the Centers for Disease Control and Prevention (CDC) have worked closely with state and local leaders in California, Washington, and around the Nation to develop these strategies. Additionally, CDC has teams in these areas working with public health partners to respond to the situation on the ground.

Cooperation with communities, businesses, and healthcare organizations is necessary to implement extensive community mitigation activities with the goal of protecting:

- Individuals at risk for severe illness, including persons with underlying health

AMERICAN OVERSIGHT

conditions including immune suppression and especially seniors with underlying health conditions;
- The healthcare workforce; and
- Critical infrastructure workforces.

Due to widespread community transmission of COVID-19 in these communities, examples of mitigation strategies for these areas include, but are not limited to:

- Individuals should practice protective measures (e.g., hand washing);
- Schools should conduct regular health checks of students, staff, and visitors;
- Senior living facilities should implement social distancing measures;
- Workplaces should encourage staff to telework and expand sick leave policies;
- Community and faith-based organizations should move gatherings of any size to video-accessible venues or postpone/cancel; and
- Healthcare facilities should implement triage before entering facilities.

In making these recommendations, the Task Force considered guidance from multiple Federal agencies, including technical advice from CDC. These community mitigation strategies are recommended for 30 days, after which local and state public health officials, in coordination with CDC will reassess the individual community situations.

Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance
As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found here (3/9). The Press Release can be found here and all CMS guidance related to COVID-19 can be found here.

Below you will find addition information.

Thanks,
Nic

Subject: COVID-19 Update: Resources for All Americans & Framework for Mitigation

AMERICAN OVERSIGHT

Good Morning,

The White House Task Force on Coronavirus and the Centers for Disease Control & Prevention have released two helpful documents for State, local, tribal, and community leaders.

- **Actions for All Americans** *(4-page slide deck)*
- **A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission** *(10-page frame work for States, localities, and communities)*

You can find additional information about both documents and resources below.

Actions for All Americans *(4-page slide deck)*

- Keeping the workplace safe
- Keeping the school safe
- Keeping the home safe
- Keeping commercial establishments safe

A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission *(10-page frame work for States, localities, and communities)*
Protect yourself and your community from getting and spreading respiratory illnesses like coronavirus disease 2019. Everyone has a role to play in getting ready and staying healthy. CDC is aggressively responding to the global outbreak of COVID-19 and community spread in the United States. CDC's all of community approach is focused to slow the transmission of COVID-19, reduce illness and death, while minimizing social and economic impacts. Framework includes:

- Local Factors to Consider for Determining Mitigation Strategies
- Community mitigation strategies by setting and by level of community transmission or impact of COVID-19
- Potential mitigation strategies for public health functions

Background & Additional Information (*Updated*)

Background: Under the leadership of President Trump and Vice President Pence, the full weight of the U.S. Government is working to protect the health and safety of the American people. Decisive action from President Trump at the beginning of the COVID-19 outbreak—including prudent travel restrictions and an early containment strategy—has given State and local officials and private sector partners time to prepare. In January, the President formed a Coronavirus Task Force, led by Vice President Mike Pence and comprised of subject-matter experts, to organize a whole-of-government response. The Coronavirus Task Force and broader Administration have worked and will continue to work with State-Local-Tribal officials and private sector and non-profit partners in preparing for and responding to the Coronavirus. ***It is important to note that at this time, the risk for the average American remains low, and all agencies are working aggressively to monitor this continuously evolving situation and to keep our partners and***

Local Preparedness Tips: Responses locally executed, state managed, and federally supported.

- Ensuring clear, open lines of communication with the public and making information and guidance readily available.
- Sharing and disseminating *verified and accurate* guidance and information.
- Coordinating with State and local health authorities (a complete list of State & Territorial Health Department Websites can be found **here**)
- Reviewing local preparedness plans and strategies.

What You Need To Know: President Trump and the Administration Are Taking a Whole-Of-Government Approach to Protecting the American People

Top Line

- The risk to the American public remains low.
- The Coronavirus Task Force is marshalling a whole-of government response to COVID-19 and driving collaboration between Federal-State-Tribal-Local stakeholders.
- The Federal Government has been able to provide tests to all the state jurisdictions and labs that have requested it. In addition, all state labs have the test and are empowered to conduct the test themselves. Complementing these efforts, leading commercial laboratories in the country will soon have tests available for local

AMERICAN OVERSIGHT

doctors, pharmacies, and broadly to the American public.

President Trump has made the safety, security and health of the American people his top priority from day one.

- There is no higher priority for President Trump than protecting the health and safety of Americans.
- In 2018, President Trump signed the **National Biodefense Strategy**, which improves speed of action in situations such as this.
- While additional cases are expected, the general risk to the average American remains low, and the Administration is taking measures to keep the threat low.

Since the very beginning of the coronavirus outbreak, the President has taken an unprecedented whole-of-government approach to protect the American people.

- President Trump took unprecedented action and suspended all travel into the United States from China and has issued subsequent screening measures and guidance on travel from other impacted areas across the globe.
- Issuing a public health emergency declaration on January 31.
- Establishing the White House task force to combat the coronavirus spread. The Task Force is coordinating and marshalling the full resources and capabilities of the Federal government to respond to the coronavirus.
- Forging relationships and collaboration between the public and private sectors.
- Remained in close contact with our Nation's governors and other key stakeholders.
- *The Washington Times: **Thanks to Trump Administration, the United States has a Coronavirus Plan of Action**.*
- *Dr. Marc Siegel: **Coronavirus Public Health Response Has Been Handled Well***
- **Actions for All Americans** *(4-page slide deck)*
- **A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission** *(10-page frame work for States, localities, and communities)*

While the overall threat to the American public remains low, the President has directed the White House Task Force to take all steps to ensure the health and well-being of the American people and we are well-prepared.

- Americans do not need to change their day-to-day lives but should stay informed and practice good hygiene.
- There are good tried and true hygiene practices which can be very effective to reduce the chance of getting sick.
- Travelers are encouraged to always exercise healthy travel habits when traveling and to follow appropriate guidance (*see* **here**). At this time, there are no domestic travel restrictions in the United States.
- We are working rapidly on therapeutics and vaccines and have launched the first U.S. clinical trial for an investigational antiviral.
- The Federal Government has been able to provide tests to all the state jurisdictions and labs that have requested it. Between March 2nd and 5th, more than 900,000 tests were distributed across the country.
- The United States has the finest public health system in the world and knows the playbook to respond to infectious disease outbreaks.

AMERICAN OVERSIGHT

Local, State, tribal, & Federal coordinated preparedness & response efforts.

- Federal officials have been working diligently to communicate with State, local, and tribal officials on the Federal government's efforts to prepare and respond to COVID-1.
- Our Nation's Governors have participated in-person and on conference call briefings with Federal partners on January 30, February 9, February 20, March 2, and March 9. These communications remain ongoing.
- White House, OMB, HHS, DHS, DOT, and State Department Officials met with over 40 State, county, and city health officials from over 30 States and territories to thank them for their leadership and to continue discussions on the Federal-State-Local partnership to prepare and respond to COVID-19 (February 25).
- HHS, CDC, DHS, and Federal partners have held numerous national briefing calls with State, local, tribal, private-sector, and community leaders.
- The Trump Administration is partnering with State, local, and tribal elected and appointed leaders' associations.

Recent Actions: Below, please find pertinent updates on pertinent Administrations actions.

Subject: Chemical Industry Response to COVID 19

Shane & Diane,

My name is Wes Robinson with the American Chemistry Council, the primary trade organization for the chemical industry. I know you both must be extremely busy and thanks for all that you are doing. Attached is a letter we are distributing to each Governor and the White House. It outlines the role that the chemical industry plays in fighting this pandemic, the steps we are taking to keep our employees safe, and to ask that when leaders consider directives to close businesses that the chemical sector be regarded as an essential sector since we have such a large role in this fight.

Please let me know if there is any way I can be of service to either of you and I am wishing you both the best as you work to combat this pandemic.

Thank you,

Wes

STATE OF FLORIDA

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER NUMBER 20-XX

(Emergency Management – COVID-19 – Nonessential Elective Medical Procedures)

WHEREAS, Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, on March 1, 2020, I issued Executive Order number 20-51 directing the Florida Department of Health to issue a Public Health Emergency; and

WHEREAS, on March 1, 2020, the State Surgeon General and State Health Officer declared a Public Health Emergency exists in the State of Florida as a result of COVID-19; and

WHEREAS, on March 9, 2020, I issued Executive Order 20-52 declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on March 18, 2020, President Donald J. Trump and the Centers for Medicare and Medicaid Services recommended providers limit all "nonessential" elective medical and surgical procedures, including dental procedures; and

WHEREAS, due to the outbreak of COVID-19, the State Surgeon General and the Secretary for the Agency of Health Care Administration have recommended, due to the current conditions caused by COVID-19 in this state, that appropriate measures must be taken to conserve all medical supplies, including personal protective equipment (PPE), to only that which is necessary to be used in response to this emergency or for any other medical event of urgent or emergent nature; and

DRAFT

AMERICAN OVERSIGHT

WHEREAS, due to the outbreak of COVID-19, it is necessary to preserve essential resources for use by health care professionals and others responding to this emergency, including ~~personal protective equipment (~~PPE~~)~~, that may be used by physicians, dentists, and other health care provider practices; and

WHEREAS, it is necessary and appropriate to take action to ensure that COVID-19 remains controlled, and that residents and visitors in Florida remain safe and secure;

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution, Chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order to take immediate effect:

Section 1. Because of the foregoing conditions, and based on recommendations from the Department of Health and the Agency for Health Care Administration by reason of conditions arising from this emergency, I hereby employ the following measures and direct as follows:

Pursuant to section 252.36(7), Florida Statutes,

A. All licensed health care facilities in the state shall immediately cease performing elective procedures.

B. All health care practitioners licensed in Florida shall immediately cease performing elective procedures.

C. Elective procedures shall include any medically unnecessary, non-urgent, or non-emergency procedure or surgery which, if delayed, does not place a patient's immediate health, safety, or well-being at risk, or will, if delayed, not immediately contribute to the worsening of a serious or life-threatening medical condition.

AMERICAN OVERSIGHT

STATE OF FLORIDA

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER NUMBER 20-XX

(Emergency Management – COVID-19 – Public Health Emergency)

WHEREAS, Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, on March 1, 2020, I issued Executive Order number 20-51 directing the Florida Department of Health to issue a Public Health Emergency; and

WHEREAS, on March 1, 2020, the State Surgeon General and State Health Officer declared a Public Health Emergency exists in the State of Florida as a result of COVID-19; and

WHEREAS, on March 9, 2020, I issued Executive Order 20-52 declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on March 18, 2020, President Donald J. Trump and the Centers for Medicare and Medicaid Services recommended providers limit all "nonessential" elective medical and surgical procedures, including dental procedures; and

WHEREAS, due to the outbreak of COVID-19, the State Surgeon General and the Secretary for the Agency of Healthcare Administration have recommended, due to the current conditions caused by COVID-19 in this state, that appropriate measures must be taken to conserve all medical supplies, including personal protective equipment (PPE), to only that which is necessary to be used in response to this emergency or for any other medical event of urgent or emergent nature ~~**WHEREAS,**~~

Formatted: Font: 12 pt

Formatted: Not Highlight

Formatted: Indent: First line: 0.5

Commented [SLLR1]: I have added this to track 252.36(7) in an abundance of caution but am open to other suggestions or removal.

DRAFT

AMERICAN OVERSIGHT

WHEREAS, due to the outbreak of COVID-19, it is necessary to preserve essential resources for use by health care professionals and others responding to this emergency, including personal protective equipment (PPE), that may be ~~in use in~~used by physicians, dentists, and other health care provider~~s~~ practices; and

WHEREAS, it is necessary and appropriate to take action to ensure that COVID-19 remains controlled, and that residents and visitors in Florida remain safe and secure;

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution, Chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order to take immediate effect:

Section 1. Because of the foregoing conditions, and based on recommendations from the Department of Health and the Agency for Health Care Administration by reason of conditions arising from this emergency, I hereby employ the following measures and direct as follows:

Pursuant to section 252.36(7), Florida Statutes,

A. All licensed health care facilities in the state shall immediately cease performing elective procedures.

B. All health care practitioners licensed in Florida shall immediately cease performing elective procedures.

C. Elective procedures shall include any medically unnecessary, non-urgent, or non-emergency procedure or surgery which, if delayed, does not place a patient's immediate health, safety, or well-being at risk, or will, if delayed, not immediately contribute to the worsening of a serious or life-threatening medical condition.

Subject: RE: Draft Attorney Work Product for Review

I sent a whereas that captures comments from the press conference to Louise. We could amend it to say,

WHEREAS, on March 18, 2020, the White House issued a statement recommending patients cancel all elective procedures to help with the health care capacity nationwide;

WHEREAS, surgeons, patients, and hospitals need to prioritize preserving equipment and protecting patients from unnecessary exposure to COVID-19;

How does this look? It tracks the format of the Bar EO from yesterday. The Governor likes to show the chronology of getting to the need for an EO. If there is another WHEREAS clause about new guidance re: elective procedures etc that would be nice to add.

STATE OF FLORIDA

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER NUMBER 20-XX

(Emergency Management – COVID-19 – Public Health Emergency)

WHEREAS, Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza; and

WHEREAS, on March 1, 2020, I issued Executive Order number 20-51 directing the Florida Department of Health to issue a Public Health Emergency; and

WHEREAS, on March 1, 2020, the State Surgeon General and State Health Officer declared a Public Health Emergency exists in the State of Florida as a result of COVID-19; and

WHEREAS, on March 9, 2020, I issued Executive Order 20-52 declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on March 18, 2020, President Donald J. Trump and the Centers for Medicare and Medicaid Services recommended providers limit all "nonessential" elective medical and surgical procedures, including dental procedures; and

~~**WHEREAS**,~~

WHEREAS, due to the outbreak of COVID-19, it is necessary to preserve essential resources for use by health care professionals and others responding to this emergency including personal protective equipment (PPE) that may be in use in physicians, dentists, and other health care providers practices; and

WHEREAS, it is necessary and appropriate to take action to ensure that COVID-19 remains controlled, and that residents and visitors in Florida remain safe and secure;

DRAFT

AMERICAN OVERSIGHT

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution, Chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order to take immediate effect:

Section 1. Because of the foregoing conditions, and based on recommendations from the Department of Health and the Agency for Health Care Administration by reason of conditions arising from this emergency, I hereby employ the following measures and direct as follows:

Pursuant to section 252.36(7), Florida Statutes,

A. All licensed health care facilities in the state shall immediately cease performing elective procedures.

B. All health care practitioners licensed in Florida shall immediately cease performing elective procedures.

C. Elective procedures shall include any medically unnecessary, non-urgent, or non-emergency procedure or surgery which, if delayed, does not place a patient's immediate health, safety, or well-being at risk, or will, if delayed, not immediately contribute to the worsening of a serious or life-threatening medical condition.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed, at Tallahassee, this 18th day of March, 2020

I'm unsure which agency licenses dental practices, but I presume AHCA or DOH. Louise? Stefan?

If we need to clarify, we can rework the definition of elective procedure to say "any medically unnecessary, non-urgent, or non-emergency medical **or dental** procedure or surgery which…."
