Via email:

Dear Ms. Stoneman:

This letter is regarding your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of April 15, 2020, assigned #20-01247-FOIA, for

1. All emails (complete email chains, email attachments, calendar invitations, and calendar invitation attachments) between the 10 CDC officials listed in Column A, and 8 Indian Health Service officials in Column B, containing any of 26 key terms listed.

2. All emails, (complete email chains, email attachments, calendar invitations, and calendar invitation attachments) between 15 CDC officials listed and official representatives of the Cherokee and Navajo nations
[COVID-19]

We located 580 pages of responsive records (174 pages released in full or part; 406 pages withheld in full). After a careful review of these pages, some information was withheld from release pursuant to 5 U.S.C. §552 Exemption(s) 5 and 6. The documents can be accessed here: <https://centersfordiseasecontrol.sharefile.com/d-sff531c6c59bb446bbadcc21867f70eb8>.

EXEMPTION 5

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process and presidential communications privileges. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The information that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not represent formal or informal agency policies or decisions. Examples of information withheld include recommendations, comments, opinions. The presidential communications privilege protects documents solicited and received by the President or his immediate White House advisers who have broad and significant responsibility for investigating and formulating the advice to be given to the President.

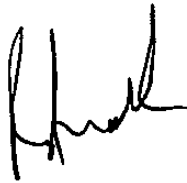

EXEMPTION 6

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such as personal email addresses and phone numbers. We have determined that the individual(s) to whom this information pertains has a substantial privacy interest in withholding it.

You may contact our FOIA Public Liaison at 770-488-6246 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App/Index.aspx>. Your appeal must be electronically transmitted by June 28, 2023.

Sincerely,

A handwritten signature in black ink, appearing to read 'Roger Andoh', with a stylized, cursive script.

Subject: Letter from National Indian Health Board Conveying Indian Country's Position on Distribution of Tribal Set Aside COVID-19 Under HR 6074

Dear Secretary Azar:

Attached, please find correspondence from Victoria Kitcheyan, Chairwoman of the National Indian Health Board, conveying Indian Country's position and guidance in regard to the distribution of Tribal and Urban Indian –specific COVID-19 funding as articulated in HR 6074.

Should you have any questions regarding this matter, please do not hesitate to Chairwoman Kitcheyan or myself.

Thank you, Miigwech – for your attention to this important information.

**Re: Allocation of Coronavirus Preparedness and Response Supplemental
Appropriations Act Funds to Urban Indian Organizations**

Dear Secretary Azar:

On behalf of the National Council of Urban Indian Health (NCUIH) and the urban Indian organizations (UIOs) we represent,¹ we write to inform you of the method of expeditious distribution and amount of resources necessary for UIOs under the Coronavirus Preparedness and Response Supplemental Appropriations Act, supported by data collected from a national call for information from UIOs on their facility needs, incurred costs, and suggested mechanisms for funding. NCUIH urges you to implement the funding distribution recommendations outlined in this letter to ensure UIOs promptly receive the necessary resources to prevent, prepare, and respond to the domestic presence of the 2019 novel coronavirus (COVID-19). Any contrary action or delay in the distribution of funds to areas of significant need will impact lives.

NCUIH is the national representative of UIOs receiving grants under Title V of the Indian Health Care Improvement Act and the American Indians and Alaska Natives (AI/ANs) they serve. Founded in 1998, NCUIH is a 501(c)(3) organization created to support the development of quality, accessible, and culturally sensitive health care programs for AI/ANs living in urban communities. NCUIH fulfills its mission by serving as a resource center providing advocacy, education, training, and leadership for Urban Indian health care providers. NCUIH strives to improve the health of the more than 70%²

¹ NCUIH represents 41 urban Indian organizations which operate 74 facilities spanning 22 states.

² The American Indian and Alaska Native Population. U.S. Census Bureau. Accessed January 12, 2012, at: <http://www.census.gov/prod/cen2010/briefs/c2010br-10.pdf>.

percent of the AI/AN population living in urban settings, supported by quality, accessible health care centers and governed by leaders in the Indian community.

BACKGROUND

On March 6, 2020, H.R. 6074, Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Act) became law. The Act provides \$8.3 billion in emergency funding for federal agencies to respond to the COVID-19 outbreak, including \$2.2 billion for the Centers for Disease Control and Prevention (CDC), of which *not less than* \$950,000,000 will be distributed via grants or cooperative agreements to states, localities, territories, tribes, tribal organizations, urban Indian health organizations, or health service providers to tribes, and a proviso that “*not less than* \$40,000,000 of such funds shall be allocated to tribes, tribal organizations, urban Indian health organizations, or health service providers to tribes.” Grants or cooperative agreements with urban Indian health organizations will provide these funds to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities to prevent, prepare for, and respond to COVID-19, as well as to *reimburse costs* expended for these purposes incurred between January 20 and March 6, 2020.

RECOMMENDATIONS

In order to formulate an adequate, reasonable, and accurate national request regarding the distribution of this funding, NCUIH reached out to all 41 UIOs for input on their facilities’ needs, estimated reimbursement costs, and their suggested mechanism to receive funding from the supplemental appropriations.

A. HHS Must Ensure \$120 Million Is Distributed to Indian Health Care Providers

NCUIH’s outreach demonstrated that significant need exists. Many UIOs have already begun planning for local outbreaks, with some already in the midst of local epidemics. Although the federal government has a trust obligation to provide health care services to AI/AN people regardless of their place of residence, UIOs, who serve AI/ANs residing in urban areas, operate on extremely low margins and suffer from chronic underfunding. Currently, the IHS budget provides a mere \$57,684,000 for 41 facilities to operate 74 health facilities in 22 states. UIOs must look to grants and other supplemental funding sources to provide additional services and serve more patients. However, UIOs

have been left out of previous spending packages that address epidemics, like Zika. It is imperative that these funds reach UIOs expeditiously as these low margins will make it extremely difficult for these facilities to adequately plan for and address the COVID-19 epidemic. For instance, the 2018-2019 partial government shutdown had dire impacts on UIOs and caused, among other things: facilities closures, staff layoffs, reduced hours, and canceled programs/services. It is imperative that adequate supplementary funding reach these providers promptly to ensure they may continue to provide high quality care to their patients while also managing local outbreaks and minimizing risks to their communities. In addition, COVID-19 could have devastating impacts on AI/ANs in light of the health disparities they face.

For these reasons, NCUIH supports the request of the National Indian Health Board (NIHB) to provide \$120 million (of the \$2.2 billion appropriated to CDC) to tribes, tribal organizations, and urban Indian organizations. It is imperative that these funds not only reach Indian Health Care Providers quickly but also enable them to provide clinical care, as well as support the necessary supplies and resources to isolate and treat patients while mitigating the risk of spread to the community.

B. Funds Must Support Clinical Care and Supplies Including PPE

Among priorities identified in responses from UIOs were the needs for funding to support supplies, including adequate sterilization and sanitation supplies like hand soap, hand sanitizer, hospital-grade cleaning supplies; PPE including surgical and N95 masks, gloves, gowns, etc.; and administrative costs including the need for additional temporary staff to account for staff illness and additional internet access for remote staff. These costs quickly add up and UIOs report significant difficulty in obtaining adequate supplies as well as price hikes cutting into their already limited funding. Therefore, we support the request of NIHB to enable the funds to provide the necessary clinical support but also ensure funds can be utilized for these purposes.

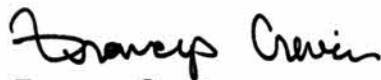

C. Suggested Mechanism to Distribute the Federal Funding

The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 states that the Director of CDC “may satisfy the funding thresholds outlined [regarding funding to urban Indian health organizations] by making awards through other grant or cooperative agreement mechanisms” and each grantee “shall submit a spend plan to the CDC not later than 45 days after [March 6, 2020].” However, not all of the 41 UIOs have existing cooperative agreements with CDC. NCUIH notes the extreme

sense of urgency in disseminating these funds given the rapid spread of COVID-19 and that facilities are necessarily already preparing for the epidemic. Therefore, any unnecessary delay is unacceptable – including delay caused by a novel grant or application process. To that end, NCUIH supports an inter-agency agreement with IHS, as outlined in NIHB's request, for prompt distribution from IHS to Indian Health Care Providers (including UIOs), to the extent that such distribution can occur expeditiously. In the event this would create unforeseen delays in funds distribution, NCUIH recommends CDC work expeditiously with IHS and stakeholders to ensure Tribes, tribal organizations, and UIOs can have access to the resources they need to protect their patients.

Communications on this matter may be directed to Julia Dreyer, Federal Relations Director for NCUIH at jdreyer@ncuih.org.

Sincerely,

Francys Crevier

Good Morning Everyone,

As Tyler mentioned below he wanted to pull everyone together for the weekend to make sure everyone was on the same page for tribal issues related to COVID-19 before the weekend. HHS has offered to host the meeting we will provide the group with a tour of our Secretary's command center here. The time that works for our SOC is 1:30 so we can do a brief tour and then convene for the meeting after the tour. I will send a calendar invite to everyone. Please let me know who will be attending with you.

Thanks,
Stacey

All,

Dr. Montero and Team,

We have been working with WH IGA on the Tribal front. We are having a meeting tomorrow with HIS, VA, WH, DOI and hopefully you can join by phone to discuss tribal coordination. Below is the goals that the WH would like to see for the Tribal community. I wanted to make sure you seen this and if you might already have some of this in the works for Tribes. Happy to discuss offline but would really like for you to join us tomorrow. The group is going to meet from 1:30 – 2:30 tomorrow with a 15 minute tour of the SOC. We will start the meeting after that.

Thank you,
Stacey

Hi Everyone,
If we could host the meeting on Friday from 1:30-2:30 at the beginning of the meeting we can give this small group a tour of our Secretary's Command Center. If you can send us a list of who is attending we send to security.

Tyler, were you going to reach to VA for their participation?
Thanks,
Stacey

Subject: Public Health Crises Response NOFO and Cherokee Award

Importance: High

Hi CDC Colleagues,

HHS plans to announce the \$750,000 award to Cherokee Nation in support of the COVID-19 response today. It's our understanding that this money is being pushed out through the [Public Health Crises Response NOFO](#) and is separate from the forthcoming \$40 million Tribal set-aside. However, once this announcement goes out, we know that there will be a lot of questions from Tribes about how and why Cherokee was able to access this money so soon. As

such, we request your assistance in developing an Internal FAQ about the NOFO so that we can be prepared for these questions, especially in light of the All-Tribes call on COVID-19 tomorrow. If you could send us the information by **12 PM ET tomorrow**, we would greatly appreciate it!

We can use your help with the following information.

7. When & how was the Funding Opportunity announced?
8. When did Cherokee apply?
9. Did other Tribes apply?
10. Why was Cherokee accepted?
 - a. What is the criteria used when accepting an application?
11. When are funds made available under this reward
12. When is the next round of applications due?
13. Any other relevant information that you think may be helpful

Thank you very much for your quick attention to this request!

Respectfully,

Devin Delrow, JD

Associate Director for Tribal Affairs

Hi Folks,

Thanks for being available on such short notice. I've pasted below my thoughts on what we plan to achieve in this meeting and also attached a draft agenda. Please edit or provide feedback to the agenda as you deem appropriate. I'll send the final copy out late this evening or early in the morning. The agenda is high-level and our discussion on each of the topics will similarly be fairly brief so that we can get through a lot of information points efficiently – I want to be respectful of your time as principals and allow you to get back to your work as quickly as possible. I'll pull some staff work to follow up and synthesize our discussions in an after action. Ultimately, I want to develop a messaging product that we can share out to Indian Country in unison.

Stacey,

Many thanks for your coordination on this. I didn't know how long to allocate to the SOC tour so please let me know how long you think that'll take and I'll update the agenda.

Attachments: Tribal Relations COVID-19 Coordinating Meeting.docx, COVID-19 External Affairs Management Plan_v2.8 (002).docx

Morning Folks,

Looking forward to catching up with you all today. Couple points I want to make before we meet – this meeting is principally intended to synthesize our messaging to Indian Country on COVID-19. I don't want to create additional chains of reporting, bloat your respective comms processes, or otherwise restrict our ordinary efficiencies in responding to the ongoing crises. I do want to unify our voice to Indian Country to subdue concerns that tribes may be having about a lack of information.

I've attached an updated meeting agenda as well as the External Affairs Management Plan that our WH EA folks have developed recently for your situational awareness. We'll keep our discussions concise today and I'll coordinate follow up with each of the agencies afterward for specifics.

Thank you all for your hard work and flexibility.

Mvto,
Tyler

Subject: RE: WH COVID-19 Tribal Meeting

Hi Folks,

Thanks for being available on such short notice. I've pasted below my thoughts on what we plan to achieve in this meeting and also attached a draft agenda. Please edit or provide feedback to the agenda as you deem appropriate. I'll send the final copy out late this evening or early in the morning. The agenda is high-level and our discussion on each of the topics will similarly be fairly brief so that we can get through a lot of information points efficiently – I want to be respectful of your time as principals and allow you to get back to your work as quickly as possible. I'll pull some staff work to follow up and synthesize our discussions in an after action. Ultimately, I want to develop a messaging product that we can share out to Indian Country in unison.

Stacey,

Many thanks for your coordination on this. I didn't know how long to allocate to the SOC tour so please let me know how long you think that'll take and I'll update the agenda.

BEGIN MEETING OBJECTIVES/

For now, the primary goals are as follows:

Hi Everyone,

If we could host the meeting on Friday from 1:30-2:30 at the beginning of the meeting we can give this small group a tour of our Secretary's Command Center. If you can send us a list of who is attending we send to security.

Tyler, were you going to reach to VA for their participation?

Thanks,
Stacey

Subject: INVITATION to CDC - IHS Call with Urban Indian Organization Leaders - June 2, 2020 - 4PM-5PM Eastern
Attachments: Final Francys Crevier Funds Urban Indian Orgs encrypted.pdf

Good evening,

The Indian Health Service (IHS) invites you to join a national call with Urban Indian Organization (UIO) Leaders on Tuesday, June 2, 2020, from 4:00 PM – 5:00 PM (Eastern). We hold this call weekly to provide COVID-19 updates to UIO leaders. Please confirm your availability to join IHS leadership on the call to provide a brief update (5-10 minutes) on CDC funding that is available for UIO and participate in a moderated Q&A session.

(b)(5)

We invite you to observe next week's call. Colleagues from FEMA will join us on the May 26 call. Details are available on our IHS Event Calendar Web site: <https://www.ihs.gov/ihscaledar/calendar/indian-health-service-urban-indian-organization-leader-call-covid-19-update3/> We will be adding June UIO leader calls to the Web site next week. Please let me know if you have any questions.

Take care and have a nice weekend!

Sincerely,

Ben Smith

Subject: DC OT20-2004 Info - CDC has a new
noncompetitive grant, Supporting Tribal Public
Health Capacity in Coronavirus Preparedness and
Response (CDC-RFA-OT20-2004) to expand access
to all tribal communities

Announcement from CDC,

- CDC has a new noncompetitive grant, *Supporting Tribal Public Health Capacity in Coronavirus Preparedness and Response (CDC-RFA-OT20-2004)* to expand access to all tribal communities. Under this mechanism:
 - A total of \$159M is allocated for tribal communities.
 - The application due date is May 31st.
 - This funding is intended to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities for COVID-19.
 - In order to allocate resources quickly, CDC is awarding funding on a rolling basis, as applications are submitted.
 - We would like to see applications from all eligible applicants: All federally recognized tribal nations, all tribes and tribal organizations that contract or compact with IHS under Title I and Title V of the Indian Self-Determination and Education Assistance Act, and consortia of these tribes or their bona fide agents are eligible

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30329-4027

May 22, 2020

Francys Crevier
Executive Director
National Council on Urban Indian Health
924 Pennsylvania Avenue, SE
Washington, DC 20003

Dear Executive Director Crevier:

Thank you for your recent letter to the Secretary of Health and Human Services Alex Azar regarding the allocation of Coronavirus Disease 2019 (COVID-19) Preparedness and Response Supplemental Appropriations Act Funds to Urban Indian organizations. I am responding on behalf of the Secretary.

The Centers for Disease Control and Prevention (CDC) understands that American Indians and Alaska Natives (AI/AN) communities have unique challenges when confronting COVID-19. We want to ensure that they are empowered with the funds they need to address this growing pandemic.

I am aware that Dr. Jose Montero, director of our Center for State, Tribal, Local, and Territorial Support (CSTLTS) and Captain Carmen Clelland, director of CSTLTS' Office of Tribal Affairs and Strategic Alliances, met with you, Jamie Ischcomer, and Julia Dryer on April 28, 2020, and discussed the funding from CDC, strategy, and future opportunities. During this meeting, CSTLTS offered to continue the dialog and engage the National Center for Urban Indian Health (NCUIH) on identifying additional ways to support urban Indian health. CDC recognizes the importance of protecting the health of tribal members living in urban areas. To date, with the first award being in March, CDC has awarded \$9.9 million in COVID funding to NCUIH for Urban Indian health centers, epidemiology and surveillance activities, and to support training for tribal healthcare personnel.

In addition, the following COVID-19 funding opportunities are currently still open for applications:

- *Supporting Tribal Public Health Capacity in Coronavirus Preparedness and Response (CDC-RFA-OT20-2004)* (Notice of Funding Opportunity, www.grants.gov/web/grants/view-opportunity.html?oppId=325942). Applications are due May 31, 2020; CDC is funding applications as they come in rather than waiting for the deadline.
- *Comprehensive Suicide Prevention (CDC-RFA-CE20-2001)* (Notice of Funding Opportunity, www.grants.gov/web/grants/view-opportunity.html?oppId=324377; CDC program website, www.cdc.gov/injury/fundedprograms/comprehensive-suicide-prevention). Applications are due May 26, 2020.

Additionally, we would like to share with you some of our guidance specifically written for AI/AN communities: www.cdc.gov/coronavirus/2019-ncov/community/tribal/index.html. Guidance is developed to inform healthcare providers and the public about what is currently known about various subjects concerning COVID-19. It is a set of voluntary recommendations intended to assist healthcare providers and the public as we work to end the COVID-19 threat. CDC will continue to develop, update, and distribute guidance. As always, please regularly visit our COVID-19 website www.cdc.gov/coronavirus/2019-ncov for CDC's latest and most up-to-date information, resources, and guidance.

Please contact Dr. Montero at (404) 498-1668 or JMontero@cdc.gov, or Captain Clelland at (404) 498-2208 or CClelland@cdc.gov to continue the discussion with CSTLTS, for CSTLTS/NCUIH grant business and programmatic matters, and other non-emergency tribal public health issues. If you have questions or concerns or need technical assistance from CDC's Emergency Response Center (EOC) on COVID-19, please contact the EOC Tribal Technical Assistance Unit at eocevent434@cdc.gov.

Thank you, again, for the work NCUIH does to protect AI/AN communities and for your interest in this ongoing response. We appreciate your support as we all work together. CDC remains committed to protecting the American public in the face of this pandemic.

Sincerely,

A handwritten signature in black ink that reads "Robert R. Redfield MD". The signature is fluid and cursive, with the letters "R", "R", and "M" being particularly prominent.

Robert R. Redfield, MD
Director, CDC

Subject: RE: INVITATION to CDC - IHS Call with Urban Indian Organization Leaders - June 2, 2020 - 4PM-5PM Eastern

Good afternoon,

Thank you for your reply. We look forward to your participation. Later today, you will receive a Participant calendar invite. This provides a dial-in with a leader passcode and provides a live line throughout the call.

We will follow-up soon with additional details. Again, thank you for your partnership!

Sincerely,

Ben

Sent on behalf of Dr. José Montero –

Dear Mr. Smith,

Thank you for the invitation to speak on the Urban Indian Organization Leader call on June 2, 2020. CDC/ATSDR recognizes the importance of engaging with and listening to all constituents, including American Indians and Alaska Natives residing in urban areas, so I greatly appreciate the opportunity to participate in next week's call.

We look forward to continuing to strengthen the relationship among urban Indians, CDC/ATSDR, and our tribal-serving partners in promoting the health of American Indians and Alaska Natives.

Sincerely,

José T. Montero, M.D.

Subject: INVITATION to CDC - IHS Call with Urban Indian Organization Leaders - June 2, 2020 - 4PM-5PM Eastern

Good evening,

The Indian Health Service (IHS) invites you to join a national call with Urban Indian Organization (UIO) Leaders on Tuesday, June 2, 2020, from 4:00 PM – 5:00 PM (Eastern). We hold this call weekly to provide COVID-19 updates to UIO leaders. Please confirm your availability to join IHS leadership on the call to provide a brief update (5-10 minutes) on CDC funding that is available for UIO and participate in a moderated Q&A session.

(b)(5)

(b)(5)

We invite you to observe next week's call. Colleagues from FEMA will join us on the May 26 call. Details are available on our IHS Event Calendar Web site: <https://www.ihs.gov/ihscalendar/calendar/indian-health-service-urban-indian-organization-leader-call-covid-19-update3/> We will be adding June UIO leader calls to the Web site next week. Please let me know if you have any questions.

Take care and have a nice weekend!

Sincerely,

Ben Smith

Subject: DC OT20-2004 Info - CDC has a new
noncompetitive grant, Supporting Tribal Public
Health Capacity in Coronavirus Preparedness and
Response (CDC-RFA-OT20-2004) to expand access
to all tribal communities

Announcement from CDC,

- CDC has a new noncompetitive grant,
*Supporting Tribal Public Health Capacity in
Coronavirus Preparedness and Response
(CDC-RFA-OT20-2004)* to expand access to
all tribal communities. Under this
mechanism:
 - A total of \$159M is allocated for tribal
communities.

- The application due date is May 31st.
- This funding is intended to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities for COVID-19.
- In order to allocate resources quickly, CDC is awarding funding on a rolling basis, as applications are submitted.
- We would like to see applications from all eligible applicants: All federally recognized tribal nations, all tribes and tribal organizations that contract or compact with IHS under Title I and Title V of the Indian Self-Determination and Education Assistance Act, and consortia of these tribes or their bona fide agents are eligible

Attachments: tec-issuebrief CDC.PDF, Legal Issues Concerning Identifiable Health Data Sharing Between State L....pdf, RE: Detailed analysis of COVID-19 impact on AI/AN communities

Dr. McCollum and Ms. Neel,

Good afternoon. Please see the POLITICO article referenced below.

Also, the attached reports (which you are well-aware of) are provided for historical background and context.

I know you have been working with your contacts at CDC for many years, and that CDC's work with TECs has also been extensive over the years.

The article quotes the CDC spokesperson as being "unaware" of issues of public-health data-sharing with TECs, which we know is not accurate for CDC as a whole. I also know that you and the OPHS team have been engaged with CDC recently and in the past in advocating for data access issues for TECs.

I've also included my email to Anne Schuchat and her response, initially assigning Jenny McQuiston (but later delegated to you) for the tribal unit, as well as Robert Anderson to work with IHS on data (specifically at that time, mortality data).

American Indian tribes thwarted in efforts to get coronavirus data

The CDC has turned down tribal epidemiologists' requests for data that it's making freely available to states.

By [DARIUS TAHIR](#) and [ADAM CANCRYN](#)

06/11/2020 07:55 PM EDT

Updated: 06/11/2020 11:45 PM EDT

Federal and state health agencies are refusing to give Native American tribes and organizations representing them access to data showing how the coronavirus is spreading around their lands, potentially widening health disparities and frustrating tribal leaders already ill-equipped to contain the pandemic.

The Centers for Disease Control and Prevention has turned down tribal epidemiologists' requests for data that it's making freely available to states. Authorities in Michigan and Massachusetts since early spring have also resisted handing over information on testing and confirmed cases, citing privacy concerns, and refused to strike agreements with tribes on contact tracing or other surveillance, eight tribal leaders and health experts told POLITICO. In some instances, officials questioned tribes' legal standing as sovereign entities.

The communication gaps threaten to hinder efforts to track the virus within Native populations that are more prone to illness, disability and early death and have fragile health systems. Tribal authorities say without knowing who's sick and where, they can't impose lockdowns or other restrictions or organize contact tracing on tribal lands. The lack of data also is weighing on epidemiologists who track public health for the nearly three-quarters of Native Americans who live in urban areas and not on reservations.

“Because of the nature of the virus, which respects no physical boundaries, the ability to get the resources to where it's being disproportionately felt is a way to protect the broader population as well,” said Rep. Denny Heck (D-Wash.), a prominent lawmaker on American Indian affairs.

Native American organizations have repeatedly run into roadblocks trying to get data from federal officials over the past month. The CDC has denied a series of requests from the nation's 12 tribal epidemiology centers for raw coronavirus data — even though state health departments are allowed to freely access the information.

The tribal epidemiology centers were originally created to coordinate public health efforts between tribes and state and federal agencies. And under the Affordable Care Act, the centers are considered public health authorities on a par with state health departments and federal agencies such as the CDC.

But Abigail Echo-Hawk, the director of the Urban Indian Health Institute, told POLITICO that the CDC has so far rebuffed the centers' requests — telling her only that the data is nonpublic. “We struggle every single day to get the states, the counties and agencies like the CDC to actually comply with that,” Echo-Hawk said. “But they don't recognize us.”

As of publication time, the CDC had not responded to a series of questions about the standoff first submitted to the agency on Wednesday.

The Urban Indian Health Institute is the main epidemiology center tracking public health for Native Americans who live off of reservations. Its staff is trying to access the CDC's National Electronic Disease Surveillance System and several other sets of coronavirus-related data that would aid their efforts to analyze the underlying health risks that could be putting American Indians and Alaska Natives at higher risk for coronavirus.

Echo-Hawk said that during a May 26 call on the issue, a member of the CDC's Case Surveillance Task Force at one point tried to explain to what epidemiology was to her team — an episode that she said illustrated the condescending attitude often directed at Native health organizations.

“It's part of the systems of inequity in this country that I have to push, and we don't always have the political power to push these large agencies to give us what we need,” Echo-Hawk said. “This is public health epidemiology — it's not research. The data is meant to understand the health of the community and address pressing public health concerns.”

That has left UIHI and the other tribal epidemiology centers without access to core data about the coronavirus's spread nationwide, hampering efforts to track the disease across Native American populations and understand how and why it's killing tribal citizens in some areas at disproportionate rates.

Indigenous people have a higher Covid-19 mortality rate than whites, Asians and Latinos, according to an [analysis](#) by APM Research Lab. And in hard-hit New Mexico, Native Americans account for nearly 60 percent of coronavirus deaths but just 8.8 percent of the population.

Last month, the Indian Health Service's chief medical officer, Michael Toedt, claimed on a press call that that his agency and the CDC had a mechanism to address data-sharing disputes between tribal organizations and departments of health. But a CDC spokesperson claimed to not know about any data-sharing complications, and pointed to how the agency sent 15 experts to the Navajo Nation to assist with epidemiology and contact tracing.

"If you can't measure [the coronavirus,] you can't manage it," said Stacy Bohlen, the executive director of the National Indian Health Board, which provides policy expertise to the 560 federally recognized Native American tribes. "It's another chronic failing of what Indian people experience across the health system. We know it's happening across the country."

Tribal leaders have also hit roadblocks at the local level. The Bay Mills Indian Community in northern Michigan couldn't get Covid-19 data from surrounding Chippewa County after one of its members who worked as a guard at a local prison reported he was in sustained contact with a coronavirus patient. It took a showdown with the state before the tribal leaders won an agreement to share disease surveillance information with the state corrections department.

"It was a pretty heated exchange with the state, [we] said you guys are not an island," said Bryan Newland, chair of the Bay Mills Indian Community. "Your officers clock out and go into the community, we need to know about this stuff."

Newland said Chippewa County continues to refuse to enter into an agreement with the tribe on surveillance and contact tracing. County officials didn't return repeated requests for comment.

"We had never taken the time to foster a working relationship with our local health department," Newland said. "There was never an occasion to give a lot of thought to our relationship and how to foster it."

State officials in Massachusetts this spring cited privacy concerns in turning away a request for coronavirus data from the Wampanoag Tribe of Gay Head/Aquinnah, which had asserted its right as a federally recognized nation and was trying to assist Covid-19 patients released from hospitals, said the tribe's chair, Cheryl Andrews-Maltais.

The tribe persisted, only to learn the state lumped Native American patients in with those from other racial categories. While it's since obtained a more thorough breakdown, the delay left the tribe flying blind, she said.

Massachusetts is one of at least two dozen states that either groups Native Americans into an "other" racial category as part of its coronavirus data, or doesn't track Native American case or death data at all.

The group includes New York and New Jersey, which have among the largest urban concentrations of American Indians in the U.S.

Tribal leaders attribute the difficulties accessing data to a lack of knowledge of how Native American communities function and local authorities' lack of interest in working with them.

Subject: Request for CDC
Attachments: FOR IMMEDIATE RELEASE - 78 new cases and three more deaths related to COVID-19 reported.pdf, daily_report_2020.04.24.pdf

CDC Colleagues:

Navajo Nation reports a total of 52 deaths and 1,360 individuals testing positive (see attached letter). Navajo Nation is about the same size as WV in land mass. NN population is 356,890, but the on-reservation population is estimated to be about 174,000.

$1,360 \text{ cases} / 174,000 * 100,000 = 781 \text{ cases per } 100,000 \text{ on-reservation residents}$
Their report of 52 deaths also exceeds many states, and
 $52 \text{ deaths} / 174,000 * 100,000 = 29.8 \text{ deaths per } 100,000 \text{ on reservation residents}$

According to data from Navajo Nation, if Navajo Nation were to be considered a state, it would place 3rd behind NJ and NY in # of cases per 100,000, and would be tied with Michigan for number of deaths per 100,000 residents.

(b)(5)

Thank you for your consideration.

FOR IMMEDIATE RELEASE

April 23, 2020

78 new cases and three more deaths related to COVID-19 reported

WINDOW ROCK, Ariz. — The Navajo Department of Health in coordination with the Navajo Epidemiology Center and the Navajo Area Indian Health Service, reported 78 new cases of COVID-19 and a total of 52 deaths for the Navajo Nation as of Thursday. The total number of positive COVID-19 cases for the Navajo Nation has reached 1,360, which includes 642 men and 718 women with an average age of 48-years-old. There is a total of 6,473 negative test results.

The 1,360 confirmed positive cases on the Navajo Nation include the following counties:

- Navajo County, AZ: 350
- Apache County, AZ: 287
- Coconino County, AZ: 229
- McKinley County, NM: 296
- San Juan County, NM: 135
- Cibola County, NM: 14
- San Juan County, UT: 19
- Socorro County, NM: 17
- Sandoval County, NM: 13

The Navajo Epidemiology Center has validated a daily decrease of COVID-19 cases, however the Nation has not reached its peak of overall positive cases. There are currently seven Navajo Nation Public Health Emergency Orders to reduce the spread of COVID-19, which is a contributing factor for the daily decrease of cases. The orders include a Nation-wide shelter-in-place, limiting large gatherings, a daily curfew from 8:00 p.m. to 5:00 a.m., a 57-hour weekend curfew during the month of April, and mandating all individuals on the Navajo Nation to wear face masks.

On Thursday, Navajo Nation President Jonathan Nez and Vice President Lizer led a massive distribution of care packages, food supplies, and fire wood to approximately 250 members of the Navajo Nation who reside in the remote area of Jeddito, Ariz., to help families, elderly people, and high-risk residents with essential items during the ongoing COVID-19 pandemic.

“The proactive measures that we’ve put in place are working to slow down the virus, so let’s keep it up. During this pandemic, we need to remember that we are all related in one way or another and we should help one another and that includes holding each other accountable. We have a

Nation-wide shelter-in-place order, but we can't be everywhere to ensure compliance by the people. If you have a family member or relative who isn't staying home, unless it's to purchase essential items, then please tell them to comply. We are doing our very best to save lives and stop the spread of the virus," said President Nez, adding that Jeddito was selected based on need-assessments and advisement from Community Health Representatives and health care experts.

On Friday, the Navajo Nation's 57-hour weekend curfew is set to begin at 8:00 p.m. and last until Monday at 5:00 a.m. This is the third weekend-long curfew that the Navajo Department of Health has implemented to keep people home to help slow the spread of COVID-19. The only exceptions are for essential workers and in cases of emergency.

"We are seeing good signs that the virus is beginning to slow, but we need to keep our guard up and continue staying home as much as possible. Last weekend, we have over 100 citations issued for curfew violators. Let's strive to improve this number by complying with the curfew and holding our family and friends accountable. President Nez and I are praying for all of our people each day, especially for those who have contracted the virus and for the families who have lost loved ones. Our thoughts and prayers are with you all," Vice President Lizer stated.

President Nez and Vice President Lizer extend their appreciation to the majority of Navajo citizens who are complying with the Navajo Nation orders. Most importantly, the Administration thanks the doctors, nurses, first responders, and public safety officers, who serve on the front lines.

For more information including reports, helpful prevention tips, and more resources, please visit the Navajo Department of Health's COVID-19 website at <http://www.ndoh.navajo-nsn.gov/COVID-19>. To contact the main Navajo Health Command Operations Center, please call [\(928\) 871-7014](tel:9288717014).

Just wanted to note - several unions representing 15 million workers wrote a petition to the Trump Administration accusing the Administration of not using the DPA sufficiently to remedy "PPE shortages" across the nation (b)(5) They are threatening to sue the Administration if there is no response within 15 days.

May be good (b)(5)

Subject: (b)(5)

Hi Everyone –

(b)(5)

Background: The Provider Relief Fund (PRF) is an important tool to support healthcare institutions across the Nation who have been impacted by decreased revenues and COVID-19 related preparedness and response expenses. HHS will distribute approximately \$500 million from the PRF to hospitals and other healthcare providers on the front lines of the coronavirus response in Indian Country based on operating expenses and census data for each entity's service area. This is another example of the President supporting Native Americans to respond to and recover from COVID-19. Healthcare entities in Indian Country have been impacted like other healthcare providers across the Nation and an allocation of funds would help those entities cover operating expenses. Tribal entities have received approximately \$4.8 billion in funding from the tribal set-aside in the Coronavirus Relief Fund (CRF). The allocation will be announced today, Friday, May 22, but distributions will not start until Wednesday, May 27.

Thanks,
Natalie

Subject:

(b)(5)

Hi Everyone –

(b)(5)

Background: The Provider Relief Fund (PRF) is an important tool to support healthcare institutions across the Nation who have been impacted by decreased revenues and COVID-19 related preparedness and response expenses. HHS will distribute approximately \$500 million from the PRF to hospitals and other healthcare providers on the front lines of the coronavirus response in Indian Country based on operating expenses and census data for each entity's service area. This is another example of the President supporting Native Americans to respond to and recover from COVID-19. Healthcare entities in Indian Country have been impacted like other healthcare providers across the Nation and an allocation of funds would help those entities cover operating expenses. Tribal entities have received approximately \$4.8 billion in funding from the tribal set-aside in the Coronavirus Relief Fund (CRF). The allocation will be announced today, Friday, May 22, but distributions will not start until Wednesday, May 27.

Thanks,
Natalie

(b)(5)

(b)(5)

Background: The Provider Relief Fund (PRF) is an important tool to support healthcare institutions across the Nation who have been impacted by decreased revenues and COVID-19 related preparedness and response expenses. HHS will distribute approximately \$500 million from the PRF to hospitals and other healthcare providers on the front lines of the coronavirus response in Indian Country based on operating expenses and census data for each entity's service area. This is another example of the President supporting Native Americans to respond to and recover from COVID-19. Healthcare entities in Indian Country have been impacted like other healthcare providers across the Nation and an allocation of funds would help those entities cover operating expenses. Tribal entities have received approximately \$4.8 billion in funding from the tribal set-aside in the Coronavirus Relief Fund (CRF). The allocation will be announced today, Friday, May 22, but distributions will not start until Wednesday, May 27.

Thanks,
Natalie

Subject:

(b)(5)

Hi Everyone –

(b)(5)

Background: The Provider Relief Fund (PRF) is an important tool to support healthcare institutions across the Nation who have been impacted by decreased revenues and COVID-19 related preparedness and response expenses. HHS will distribute approximately \$500 million from the PRF to hospitals and other healthcare providers on the front lines of the coronavirus response in Indian Country based on operating expenses and census data for each entity's service area. This is another example of the President supporting Native Americans to respond to and recover from COVID-19. Healthcare entities in Indian Country have been impacted like other healthcare providers across the Nation and an allocation of funds would help those entities cover operating expenses. Tribal entities have received approximately \$4.8 billion in funding from the tribal set-aside in the Coronavirus Relief Fund (CRF). The allocation will be announced today, Friday, May 22, but distributions will not start until Wednesday, May 27.

Thanks,
Natalie

Hi Everyone –

(b)(5)

(b)(5)

Background: The Provider Relief Fund (PRF) is an important tool to support healthcare institutions across the Nation who have been impacted by decreased revenues and COVID-19 related preparedness and response expenses. HHS will distribute approximately \$500 million from the PRF to hospitals and other healthcare providers on the front lines of the coronavirus response in Indian Country based on operating expenses and census data for each entity's service area. This is another example of the President supporting Native Americans to respond to and recover from COVID-19. Healthcare entities in Indian Country have been impacted like other healthcare providers across the Nation and an allocation of funds would help those entities cover operating expenses. Tribal entities have received approximately \$4.8 billion in funding from the tribal set-aside in the Coronavirus Relief Fund (CRF). The allocation will be announced today, Friday, May 22, but distributions will not start until Wednesday, May 27.

Thanks,
Natalie
