I defer to Brad and Jordan but my impression is that this would be a good idea...

This meeting should be scheduled through healthcare ready & representatives from FEMA logistics & FEMA administration (Jordan or his designee).

Dennis

Hey Dennis and Brad -

In an effort to socialize airbridge learnings early, I am passing an idea by you for feedback/approval.

I've been in regular contact with Tad Strong, McKesson's VP of Global Supplier Operations. He's offered to talk to his peers amongst the other distributors to walk through lessons learned to date from these first few missions (they've all been McKesson to date).

I *think* I have the right contacts at the distributors to facilitate this (below).

Is this something worth pursuing and being on tomorrow's agenda?

Best,

Ryan
