1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA

AMERICAN OVERSIGHT

COUNTY/MUNICIPALITY OF _____

OATH OF CUSTODIANS AND DEPUTY CUSTODIANS OF GEORGIA VOTING SYSTEM

I, _____, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of _____, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all components to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the voting system for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

_____

(Deputy) Custodian

Administered by, sworn to,

and subscribed before me,

this ____ day of _____, 20__

Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. Any electronic ballot markers, ballot scanners, electronic poll books, ballot boxes and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The election management system computers shall not be moved or relocated for any purposes. Should it become necessary to relocate an election management system computer or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in advance in writing of the reason

AMERICAN OVERSIGHT

for the relocation and the proposed new location. The election management system shall not be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent. If an emergency arises causing the election management system to be moved, the election superintendent is responsible to notify the Secretary of State as soon as possible of the move.

4. The poll manager shall sign a receipt for components of the voting system assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All voting system components and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of any instances of unaccounted for components of the voting system as soon as possible.

7. The election superintendent shall perform an audit count of all voting system components housed and maintained by the jurisdiction on an annual basis. The results of the audit shall be submitted to the Secretary of State.

Authority: O.C.G.A. §§ 21-2-31, 21-2-379.6

**Rule 183-1-12-.07 Preparation for Elections.**

1. The election superintendent shall review the electronic databases used to generate ballots for correctness and accuracy in generating paper ballots and touchscreen displays.

2. Each ballot style and touchscreen display shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to check that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where

AMERICAN OVERSIGHT

applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style or touchscreen display.

3. For each office up for election, the paper ballot or touchscreen display shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5. In partisan elections, the paper ballot and touchscreen display shall designate the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

4. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

5. The election superintendent shall review the audio ballot prepared for use with the touchscreen display for voters with disabilities. The superintendent shall confirm that every section of the audio ballot is pronounced correctly. The election superintendent shall also confirm that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such audio recordings.

6. The Superintendent shall check that the memory cards used in the ballot scanner are formatted and contain no extraneous software or data prior to use in an election. The ballot scanner memory cards shall be named to indicate the polling place where they will be used. If more than one ballot scanner is to be used in a single polling place, the memory card name shall differentiate between the scanners.

Authority: O.C.G.A. §§ 21-2-31, 21-2-379.4, 21-2-379.5

**Rule 183-1-12-.08 Logic and Accuracy Testing.**

1. Primaries and Elections.

   a. On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the

AMERICAN OVERSIGHT

election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use on Election Day.

b. On or before the third day preceding the advance voting period, the election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use during the advance voting period. Voting system components that passed logic and accuracy testing for advance voting do not have to be re-tested for use on Election Day for the same election, unless there is a change in the programming or database used by the component.

c. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the voting system components for use in the primary or election will commence, and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing. Prior to a runoff election, the Superintendent shall prominently post notice of the date, time, and place of such testing at least 24 hours prior to its occurrence.

d. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the voting system components. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing, as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the voting system components.

2. In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

AMERICAN OVERSIGHT

a. Be available for the first hour of the first day of testing to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

b. Maintain a presence at all times during the preparation and testing process;

c. Administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

d. Establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however, the area should be of such nature so as to allow the preparation and testing process to proceed without interference with by the general public;

e. Allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

f. Prohibit any preparation and testing reports created for recording the seal numbers of voting system components from being disclosed to the public;

g. Prohibit the security seal numbers or other security measures of any voting system components from being disclosed to the public; and

h. Prohibit photographic and audio equipment of any kind, including cell phone cameras, from being used to record the security seal numbers or other measures used to secure any voting system components, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and other security measures on any voting system component are not recorded or displayed in any manner.

3. During the public preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners to be used in a particular primary or election, the election superintendent shall cause each electronic ballot marker and scanner to be programmed with the election

AMERICAN OVERSIGHT

files for the precinct at which the electronic ballot marker and ballot scanner unit will be used.

The superintendent shall cause the accuracy of the components to be tested by causing the following tasks to be performed:

A. Check that the electronic poll books accurately look up and check-in voters via both the scanning function and manual lookup and create a voter card that pulls up the correct ballot on the electronic ballot marker for every applicable ballot style.

B. Check that the touchscreen on the electronic ballot marker accurately displays the correct selections and that the touchscreen accurately reflects the selected choices.

C. Check that the printer prints a paper ballot that accurately reflect the choices selected on the touchscreen and immediately mark all printed paper ballots as “test” ballots.

D. Check that the ballot scanner scans the paper ballot, including both ballots marked by electronic ballot markers and ballots marked with a pen, and that the ballot scanner scans ballots regardless of the orientation the ballot is entered into the scanner.

E. Check that the tabulation contained in the ballot scanner memory card can be accurately uploaded to the election management system, and that the tabulated results match the selections indicated on the paper ballot.

If any component fails any of the testing, the component shall not be used in a primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the component shall be cleared of any vote totals collected during testing. A zero tape shall be run on the ballot scanner subsequent to successful testing, and the tape shall be attached to the custodian's certification form to document the logic and accuracy testing. The components shall then be sealed and securely stored for transfer to the polling place.

4. After the completion of Logic and Accuracy testing on any voting system component, each component shall be sealed and safely and securely stored until such time as the component is transported to the polling place in which such component is to be used. The zero tapes, results tapes, test ballots, and other paperwork shall be securely stored by the superintendent.

Authority: O.C.G.A. § 21-2-31

AMERICAN OVERSIGHT

**Rule 183-1-12-.09. Transport to Polls.**

1. The election superintendent shall take all necessary measures to cause the voting system components to be safely and securely transported to the polling places.

2. The election superintendent shall cause the voting system components for each polling place to be delivered to the polling place at least one hour before the time for the opening of the polls. The election superintendent shall cause magnifying devices to be made available at each polling place to assist voters in reviewing their paper ballots.

3. If the voting system components are stored at a polling place prior to the arrival of the poll manager or their designee, the election superintendent shall cause the components to remain stored in a locked, secure manner with appropriate climate control as described in Rule 183-1-12-.04.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.10 Before the Opening of the Polls.**

1. The poll officers shall set up and power on the voting system components for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the voting system components and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each voting system component is intact and that there is no evidence or indication of any tampering. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that component when such component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering, the election superintendent shall be immediately notified and such component shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. The poll manager shall check that the electronic poll books, electronic ballot markers, and ballot scanners all indicate zero counts prior to the opening of the polls.

4. The poll manager shall cause each ballot scanner in the polling place to run a zero tape prior to the start of voting. If the tape does not show zero votes prior to the start of voting, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. The poll manager and two witnesses who have been sworn as poll officers pursuant to O.C.G.A. §§ 21-2-94 and 21-2-95 shall sign the zero tape from the ballot scanner. The

AMERICAN OVERSIGHT

poll manager and those same two witnesses shall then confirm that the ballot box is empty. The Secretary of State shall develop a form to be signed by the poll manager and the two witnesses attesting that the ballot box was empty prior to the opening of the polls. Such form shall include the date and time it was executed, shall be attached to the zero tape generated by the ballot scanner attached to that ballot box, and shall be returned to the election superintendent with the polling place recap forms at the close of the polls. The ballot box shall then be securely locked and sealed. Once the ballot box is verified to have been empty and locked and sealed, no person shall access the inside of the ballot box while voting is occurring unless it is absolutely necessary to the functioning of elections. Any such access shall be by the poll manager and two witnesses who have been sworn as poll officers, and the poll manager and witnesses shall attest, on a form to be developed by the Secretary of State, to when and for what purpose the ballot box was accessed, and that no action was taken to affect the results of the election. That form shall also be returned to the election superintendent with the polling place recap form at the close of the polls.

6. The poll officers shall verify that there is no unauthorized matter affixed to any of the voting system components or present in the voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least one printed sample ballot and at least one voting instructions poster approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. At least one printed sample ballot and one voting instructions poster shall also be posted in the enclosed space. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the voting system that has been approved or provided by the Secretary of State. The poll officers shall also have a sufficient supply of sample ballots available should voters request to view them while voting or reviewing their ballot.

8. As near as possible to exit of the enclosed space in every polling place in a manner that is visible to voters as they exit the enclosed space, the poll manager shall post a sign that informs voters that ballots shall not be removed from the enclosed space.

Authority: O.C.G.A. § 21-2-31, 21-2-94, 21-2-95

**Rule 183-1-12-.11 Conducting Elections.**

1. As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the voting system, including specific verbal instruction to review their printed ballot prior to scanning it and that sample ballots and magnifying devices are available upon request to assist them in reviewing their paper ballot. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular candidate, political party, or political body, or for or against any particular question.

2. (a) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete

AMERICAN OVERSIGHT

a voter's certificate and submit it to the poll officers. The voter certificate may be an electronic or paper record. The poll officers shall verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters.

(b) A poll officer shall then issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot on the touchscreen or utilize the correct access code to manually bring up the correct ballot on the touchscreen. The voter shall then enter the enclosed space in the polling place and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen component, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll officer. Then the voter shall exit the enclosed area of the polling place.

(c) If an emergency situation makes utilizing the electronic ballot markers impossible or impracticable, as determined by the election superintendent, the poll officer shall issue the voter an emergency paper ballot that is to be filled out with a pen after verifying the identity of the voter and that the person is a registered voter of the precinct. Emergency paper ballots shall not be treated as provisional ballots, but instead shall be placed into the scanner in the same manner that printed ballots in the polling place are scanned. The election superintendent shall cause each polling place to have a sufficient amount of emergency paper ballots so that voting may continue uninterrupted if emergency circumstances render the electronic ballot markers or printers unusable. The poll manager shall store all emergency ballots in a secure manner and that all used and unused emergency ballots are accounted for. All unused emergency ballots shall be placed into a secure envelope and sealed such that the envelope cannot be opened without breaking such seal.

(d) If an emergency situation exists that makes voting on the electronic ballot markers impossible or impracticable, the poll manager shall alert the election superintendent as soon as possible. The existence of an emergency situation shall be in the discretion of the election supervisor. However, if a poll manager is unable to contact the election superintendent after diligent effort, the poll manager shall have the ability to declare that an emergency situation exists at the polling place. The poll manager shall continue diligent efforts to contact the election superintendent, and shall inform the superintendent as soon as possible of the situation at the polling place. The election superintendent, in his or her discretion, shall either overrule or concur with the declaration of emergency circumstances. While the determination of an emergency situation is in the discretion of the election superintendent, the types of events that may be considered emergencies are power outages, malfunctions causing a sufficient number of electronic ballot markers to be unavailable for use, or waiting times longer than 30 minutes.

3. At least once each hour during the time while the polls are open, the poll officers shall examine the enclosed space to verify that no unauthorized matter has been affixed to any

AMERICAN OVERSIGHT

voting system component or placed in the voting booth and that the voting system components have not been tampered with in any manner. Poll officers shall also check that no unattended ballots are left in the printer or anywhere in the enclosed space other than the appropriate ballot box. Any unattended ballots found in the enclosed space that do not belong to a voter currently in the enclosed space shall not be counted, but shall be secured and labelled as unattended ballots.

4. The polling place shall be arranged in such a manner as to provide for the privacy of the elector while voting and to allow monitoring of each voting system component by the poll officers while the polls are open. The electronic ballot markers and ballot scanners used in the polling place shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one electronic ballot marker configured for use by physically disabled electors at each advance voting location. In addition, at least one ballot marking device shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to provide for the privacy of such electors while voting.

5. It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card into the ballot marking device and in explaining the operation of the unit to the voter; provided that the poll officer shall withdraw from the voting booth prior to the voter making any selections. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote for any particular candidate, political party, or political body, or for or against any particular question.

6. Voters utilizing an audio tactile interface (ATI) device to vote on the ballot marking device without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409; however, if another person other than a poll officer is handling the printed ballot before it is inserted into the scanner, that person shall be considered as assisting.

7. The poll officers shall confirm that voters deposit their ballots and return the voter access cards to the poll officers prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling place and provide staffing at such places at the polling place to confirm that a voter will not leave the enclosed space with a ballot or voter access card.

8. The election superintendent shall cause each polling place to be sufficiently staffed and a poll officer to be stationed at every ballot scanner in use in the polling place while voting is occurring. The poll officer stationed at the ballot scanner shall offer instruction throughout the period while voting is occurring reminding voters to review their printed paper ballots, but shall take all reasonable precautions not to view the selections on an elector's ballots unless it is required due to assistance requested by the elector.

AMERICAN OVERSIGHT

9. A voter may request information from poll officers concerning how to use the electronic ballot marker or any other voting system component at any time during the voting process. However, once the voter scans his or her ballot into the ballot scanner, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again. If a voter leaves the room encompassing the enclosed space with his or her paper ballot and does not place that ballot into the appropriate ballot scanner or ballot box, that voter shall be deemed to have voted and may not thereafter vote again. A sign shall be placed at the exit of the enclosed space that informs every voter that ballots may not be removed from the enclosed space. Any paper ballot that is removed from the room encompassing the enclosed space shall not be counted and shall be marked as spoiled by a poll officer.

10. (a) If a voter discovers that the ballot presented on the electronic ballot marker is not correct or, for a partisan primary, is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the electronic ballot marker without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot and make any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters.

(b) If, while reviewing his or her printed ballot, the voter discovers that the printed ballot does not contain the proper ballot selections or that the voter was not issued the proper ballot, the voter shall immediately inform a poll officer. The poll officer shall spoil the paper ballot and take the necessary steps to allow the voter to make his or her selections again on the electronic ballot marker and cause the correct ballot to be issued.

(c) If the voter places his or her paper ballot into the ballot scanner or ballot box prior to notifying the poll officials of any errors in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot.

11. (a) If any voting system component malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the component until and unless the malfunction is corrected. The poll manager shall utilize appropriate backup procedures so that voting is not interrupted due to any equipment malfunctions. The election superintendent shall immediately arrange for the repair of the voting system component or shall provide a replacement component as soon as practicable. A replacement component shall not be used unless it has been appropriately tested prior to its use.

(b) In the event that a ballot scanner malfunctions, the voter shall place their voted ballot in the emergency bin connected to the ballot box. The ballots in the emergency bin shall be counted when the ballot scanner is properly functioning, by a replacement ballot scanner brought to the polling place, or, if neither are available, by another scanner at the county elections office. Poll officers may scan ballots placed into the emergency bin through the ballot scanner or a replacement ballot scanner when doing so will not interfere

AMERICAN OVERSIGHT

with voting. A voter placing his or her ballot into the emergency bin is considered to have voted that ballot and shall not be permitted to cast another ballot.

Authority: O.C.G.A. §§ 21-2-31, 21-2-409, 21-2-410

**Rule 183-1-12-.12 Tabulating Results.**

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager and two witnesses who have been previously sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall begin the closing procedure on each ballot scanner so that no further votes are cast and record the number of scanned ballots from every ballot scanner used in the polling place. The poll manager and the two witnesses shall record the number of scanned ballots from each scanner on a recap form to be developed by the Secretary of State. The poll manager and the two witnesses shall cause each ballot scanner to print three tapes of the tabulated results and shall sign each tape indicating that it is a true and correct copy of the tape produced by the ballot scanner. If the poll manager or the witnesses have reason to believe that printed tapes are not a true and correct tabulation of the ballots scanned by that ballot scanner, the poll manager or witness shall document the reasons and evidence for that belief and inform the election superintendent, who shall take appropriate action, in his or her discretion, so that the ballots in the ballot box associated with the ballot scanner are accurately tabulated.

2. The poll manager shall cause the number of printed ballots from each ballot marking device to be recorded on the recap form. The poll manager shall further cause the number of spoiled ballots and ballots placed in the emergency bin of the scanner that were unable to be scanned to be recorded on the recap form. The poll manager shall cause the total number of voter check ins from the electronic poll book and/or paper voter list to be recorded on the recap form. If the numbers recorded on the recap form do not reconcile with each other, the poll manager shall immediately determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken.

3. One of the three tapes of the tabulated results printed from the ballot scanner shall be affixed to the door of the polling place for the information of the public along with a copy of the provisional ballot recap form for the polling place. One tape shall be placed into an envelope (or reusable document storage container suitable for the same purposes) provided by the election superintendent, along with the "poll officer" memory card from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The poll manager and the two witnesses shall initial the envelope indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the

AMERICAN OVERSIGHT

number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the polling place recap form.

4. The poll manager and two witnesses who have been sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall unseal and open each ballot box, remove the paper ballots from each ballot box, and place the paper ballots into a durable, portable, secure and sealable container to be provided for transport to the office of the election superintendent. A separate container shall be used for the paper ballots from each ballot box and the container shall be labelled with the polling place, ballot scanner serial number, the number assigned to the ballot scanner for that election, the count of the ballots from the tabulation tape, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the poll manager and the same two witnesses such that it cannot be opened without breaking the seal. The poll manager and the two witnesses shall sign a label affixed to the container indicating that it contains all of the correct ballots from the indicated ballot box and no additional ballots.

5. The poll manager and the same two witnesses who emptied the ballot box shall complete and sign a form indicating that the ballot box was properly emptied and the ballots were properly stored and secured. Such form shall be delivered to the election superintendent with the completed polling place recap form. The ballot box shall be resealed and the new seal numbers shall be documented.

6. The envelopes containing the tabulation tape and the memory card, the containers containing the paper ballots, the completed polling place recap forms, voter access cards, supervisor's cards, electors lists, numbered lists of voters, electronic poll books, and other such paperwork shall be delivered to the election superintendent by the poll manager and at least one other sworn poll officer or law enforcement official. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials. The poll manager and any poll officers who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with. The election superintendent, in his or her discretion, may allow a designee of the poll manager to deliver the envelopes or containers containing the ballot scanner tabulation tapes and memory cards to be used for unofficial reporting of results prior to the delivery of the other polling place materials provided that the same procedures for transit and delivery set forth herein are followed.

7. Before leaving the polling place, the poll manager shall power off, secure, and seal all electronic ballot markers, ballot boxes, and ballot scanners. The polling place shall be locked to prohibit unauthorized entry.

(b) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards shall be

AMERICAN OVERSIGHT

sworn in the same manner that custodians are sworn before entering into their duties.

2. Only persons who are permanent employees of the election superintendent or have been duly sworn as poll officers or custodians shall touch or be in contact with any ballot, container, returns, tapes, device, memory card, or any other such election materials. Only persons who are employed by the election superintendent or have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center so that the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of any election materials from a polling place, the election superintendent or his or her designee shall provide a receipt that clearly states what election materials have been delivered.

5. Upon receiving the paper ballots and the memory cards, the election superintendent shall verify the signatures on the sealed envelopes and containers, verify that the seals are intact, that the envelopes or containers have not been opened, and that there is no evidence of tampering with the envelopes, containers, or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes and containers are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card and results tape. The election superintendent or his or her designee shall then insert the memory card into the election management system computer and transfer the vote totals from the memory card into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards to the election management system and consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated returns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

AMERICAN OVERSIGHT

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within fourteen days following a primary, election, or runoff.

(c) Election Night Reporting. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon prior notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

Authority: O.C.G.A. §§ 21-2-31, 21-2-94, 21-2-95

**Rule 183-1-12-.13 Storage of Returns.**

(a) After tabulating and consolidating the results, the election superintendent shall prepare an electronic file which shall contain a copy of the information contained on each memory card which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The electronic file shall be stored on a secure medium which shall be placed in a sealed envelope or container and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each ballot scanner and the corresponding paper ballots shall also be deposited with the clerk of superior court.

(c) The memory cards shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards for programming ballot scanners units for the next primary, election, or runoff.

Authority: O.C.G.A. §§ 21-2-31, 21-2-500

AMERICAN OVERSIGHT

**Rule 183-1-12-.14 Maintenance of Equipment.**
(a) Each county shall be responsible for maintaining all components of the voting system, including electronic ballot markers, printers, ballot scanners, electronic poll books, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a warranty/maintenance agreement for such equipment and software or shall assume the responsibility for repair, maintenance, and upkeep of all system components.

(b) In the event of any malfunction or problem with any voting system component, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.15 Use of Equipment by Municipalities.**
The county election superintendent is authorized to permit any municipality within the county to conduct its election with electronic ballot markers, printers, ballot scanners, and other components of the statewide voting system through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll officers in the proper operation and conduct of elections utilizing such equipment through an appropriate training program approved by the Secretary of State.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.16 Demonstrations of Voting Equipment**
When being used for demonstration and voter education purposes, electronic ballot markers and ballot scanners shall not utilize or be programmed with the official ballot to be used in the primary or election. The device shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

Authority: O.C.G.A. § 21-2-31

**Rule 183-12-.17 Tabulating Center Personnel, Trained and Certified**
All tabulating center personnel must be trained in their respective duties and certified as required by O.C.G.A. § 21-2-99 for poll officers. All programmers, operators, and data center personnel shall be sworn as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 for poll officers.

AMERICAN OVERSIGHT

Authority: O.C.G.A. §§ 21-2-31, 21-2-94, 21-2-95, 21-2-99

**Rule 183-12-.18 Provisional Ballots**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§ 21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The election superintendent shall also be prepared to resupply polling places with provisional ballots in needed ballot styles in a timely manner while voting is occurring so that polling places do not run out of provisional ballots. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. The poll manager shall cause all voted provisional ballots to be deposited into the provisional ballot box and not be inserted into the polling place ballot scanner and kept separate and apart from non-provisional ballots case at the polling place. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the polling place shall have an electronic poll book that includes a mastered list of registered voters in the state, and the poll workers shall check the list to determine if the person is assigned to a different polling place within the county or registered in a different county. If the person's name appears on the master list for a different precinct within the same county, the poll workers shall inform the person of his or her correct polling place. The person shall be instructed to go to his or her correct polling place if practicable, but that if it is not practicable for the person to get to his or her correct polling place before the close of polls, that the person may vote a provisional ballot in the polling place in which they are present. If, after receiving that instruction,

AMERICAN OVERSIGHT

the person states that it is not practicable for him or her to get to their correct polling place prior to the close of voting, the poll officer shall offer the person a provisional ballot. If the person is registered in a different county, the poll officer shall inform the person that he or she appears to be registered in a different county. If the person is still eligible to vote in the county in which they appear to be registered, the person may return to that county to vote. If the person states a good-faith belief that he or she timely registered to vote in the county in which he or she is present, he or she shall be offered a provisional ballot.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote in the county in which he or she is present.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the precinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by 0.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct within the same county where the person is present, the registrars shall direct the poll officers to inform the person of the appropriate other precinct and the registrars shall notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417. the person shall be permitted to vote in the same manner as other persons in such other precinct. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct in which the person

AMERICAN OVERSIGHT

is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21·2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall inform the poll officers and the person shall be offered a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county at which the person is present, the registrars shall direct the poll officers to inform the person of the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter registration form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. § 21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2·419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to receive a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

AMERICAN OVERSIGHT

(i) Upon accepting the opportunity to receive a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an Inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope or reusable document container which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. § 21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. § 21- 2-220. the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person. the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer

AMERICAN OVERSIGHT

envelope. The person shall then retire to the provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. § 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person, by email, by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter registration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the ballot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure

AMERICAN OVERSIGHT

container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220. the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officer, along with two other witnesses sworn as poll officers, shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officer and witnesses shall then compare the

AMERICAN OVERSIGHT

total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another. the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officer and witnesses shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall cause the envelope containing the provisional ballot voter's certificates and voter registration cards to be promptly removed from the other materials and, if applicable, transferred to the registrars for processing. If applicable, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(a) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(b) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(c) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(d) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the

AMERICAN OVERSIGHT

registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(e) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word “Duplicate" and shall bear the name of the precinct and the same unique identifying number as the original ballot at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff.

AMERICAN OVERSIGHT

The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as "Not Counted" and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13) Upon identifying the rejected provisional ballot electors, the registrars shall proceed fil the earliest possible time to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. The registrars shall also attempt to notify the person by telephone or email if the provisional ballot voter certificate contains an email address or telephone number. If the person's voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(a) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(b) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2·226(d).

(c) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

Authority: O.C.G.A. §§ 21-2-31, 21-2-,226, 21-2-417, 21-2-418, 21-2-419, 21-2-420

AMERICAN OVERSIGHT

**Rule 183-1-12-.19 Preparation of the Electors List and Use of Electronic Poll Book**

(1) Election superintendents shall cause each polling place to be equipped with an appropriate number of electronic poll books within the county during primaries, elections, and runoffs. Electronic poll books shall be the primary method for checking in voters and creating voter access cards, but the superintendent shall cause every polling place to be equipped with a paper backup list of every registered voter assigned to that polling place. The paper backup list shall be used in case the electronic poll books do not properly function. The superintendent shall cause poll workers to be adequately training checking in voters on both electronic poll books and paper backup list.

(2) The county election superintendent shall maintain each electronic poll book device, and all components in a secure location as provided for in Rule .183·1-12-.04 and 183-1-12-.05.

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of all such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the Selection management system database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the election management system database that occur after the process for programing the electronic poll books has begun.

(7) During the period in which election system components are tested and prepared prior to delivery to polling places, the election superintendent shall cause each electronic poll book to undergo logic and accuracy testing. Each electronic poll book must pass such logic and accuracy test prior to being delivered to a polling place. The election superintendent or registrars shall verify the information contained on the electronic poll books prior to delivering the units to polling places.

(8) Prior to delivery to a polling place, the election superintendent or registrars shall cause the electronic poll books to accurately mark all persons who have been issued or cast absentee ballots in the election.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the electronic poll books with the other election materials from the polling place to the election superintendent. The registrars and election superintendent shall inform the

AMERICAN OVERSIGHT

Secretary of State of all voters who cast ballots in each primary election or runoff in a format to be determined by the Secretary of State and in the same time period as the official election returns.

(10) For electors whose names are added to the voter registration rolls after the preparation of the electronic poll books, the registrars shall provide a printed supplemental list for use at the affected polling places.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.20 Use of Emergency Paper Absentee Ballots When Voting Machines are Inaccessible**

Emergency paper ballots shall be offered to and may be used by persons with disabilities in non-emergency situations if the electronic ballot marker are inaccessible.

Authority: O.C.G.A. § 21-2-31

AMERICAN OVERSIGHT

**NOTICE OF INTENT TO POST A RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-12, *RULES OF STATE ELECTION BOARD*, RULE 183-1-12-.01 THROUGH 183-1-12-.19 *VOTING MACHINES – VOTE RECORDERS* AND NOTICE OF PUBLIC HEARING.**

TO ALL INTERESTED PERSONS AND PARTIES:

Notice is hereby given that pursuant to the authority set forth below, the Georgia State Election Board, (hereinafter "SEB") proposes to post SEB rule, Rule 183-1-12-.01 through 183-1-12-.19 *Voting Machines – Vote Recorders* (hereinafter "proposed rule").

This notice, together with an exact copy of the proposed new rule and a synopsis of the proposed rule, is being distributed to all persons who have requested, in writing, that they be placed on a distribution list. A copy of this notice, an exact copy of the proposed rule amendment, and a synopsis of the proposed rule amendment may be reviewed during normal business hours of 8:00 a.m. to 5:00 p.m. Monday through Friday, except official state holidays, at the Office of the Secretary of State, Elections Division, 2 Martin Luther King Jr. Drive, S.E., 8th Floor West Tower, Atlanta, Georgia 30334. These documents will also be available for review on the State Election Board's web page at https://sos.ga.gov/index.php/elections/state_election_board. Copies may also be requested by contacting the Elections Division at 404-656-2871.

To provide the public an opportunity to comment upon and provide input into the proposed rule amendment, a public hearing will be held on:

January 22, 2020
9:00 a.m.
2 Martin Luther King Jr. Dr. SE
18th Floor, West Tower
Room 1816
Atlanta, GA 30334

At the public hearing anyone may present data, make a statement, comment or offer a viewpoint or argument whether orally or in writing. Oral statements should be concise and will be limited to 3 minutes per person. Additional comments should be presented in writing. Lengthy statements or statements of a considerable technical or economic nature, as well as previously recorded messages, must be submitted for the official record on or before January 13, 2020 to the address below. Written comments must be received on or before January 13, 2020 and be addressed to Jasmine Shannon by mail to Office of the Secretary of State, Elections Division, 2 Martin Luther King Jr. Drive, S.E., 8th Floor West Tower, Atlanta, Georgia 30334 or by email to jshannon@sos.ga.gov.

The State Election Board will consider the proposed rule at a meeting scheduled to begin at 9:00 a.m. on January 22, 2020 at 2 MLK Jr. Dr. SE, 18th Floor, West Tower, Room 1816, Atlanta, Georgia 30334.

This notice is given in compliance with O.C.G.A. §50-13-4.

AMERICAN OVERSIGHT

This 19th day of December, 2019.

Brad Raffensperger
Chairman, State Elections Board

Posted: December 19, 2019

AMERICAN OVERSIGHT

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-12, *RULES OF STATE ELECTION BOARD*, RULE 183-1-12-.01 THROUGH 183-1-12-.19 *VOTING MACHINES – VOTE RECORDERS***

Purpose: The purpose of the revisions to rule is to clarify and define the procedures and requirements of maintaining, storing, transporting, testing, preparing, and handling the components of the voting systems before, during, and after Election Day.

Main Features: The main feature of the revisions to this rule are updates to reflect changes in Georgia law and the move to a new voting system. The rule clarifies that voting in Georgia, beginning with the 2020 Presidential Preference Primary, will take place on paper ballots primarily marked by electronic ballot markers. The rule updates definitions, storage and security requirements, rules for transporting equipment and ballots to and from the polls, and the setup of polling places. The rule also updates provisional ballot and electronic poll book procedures.

**DIFFERENCES BETWEEN THE EXISTING RULE AND THE PROPOSED AMENDMENTS OF THE STATE ELECTION BOARD, CHAPTER 183-1-12, *RULES OF STATE ELECTION BOARD*, RULE 183-1-12-.01 THROUGH 183-1-12-.19 *VOTING MACHINES – VODTE RECORDERS***

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added.

**CHAPTER 183-1-12**
**~~VOTING MACHINES – VOTE RECORDERS~~**
**PREPARATION FOR AND CONDUCT OF PRIMARIES AND ELECTIONS**

**Rule 183-1-12-.01 Conduct of Elections**

1. Beginning with the ~~November 2002 General Election~~ 2020 Presidential Preference Primary, all federal, state, and county general primaries and elections, special primaries and elections, and referendums in the State of Georgia shall be conducted via an Optical Scanning Voting System as defined by O.C.G.A. 21-2-1(19.1). Voting at the polls, including both Election Day and absentee-in-person voting shall be conducted via ballots marked by electronic ballot markers and tabulated by ballot scanners. The electronic ballot markers and ballot scanners shall be supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. Absentee-by-mail voting shall also be conducted through the use of an optical scanning voting system. ~~at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE)~~

AMERICAN OVERSIGHT

~~voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.~~

2. The Superintendent shall cause every polling place and advance voting location to have a sufficient number of blank paper ballots that can be marked by pen available for use in the event of emergency. The election superintendent shall also be prepared to resupply polling places with emergency paper ballots in needed ballot styles in a timely manner while voting is occurring so that polling places do not run out of emergency paper ballots.

Authority: O.C.G.A. §§ 21-2-1, 21-2-31

**Rule 183-1-12-.02 Definitions ~~Direct Recording Electronic Voting Equipment~~**

(1) As used in this rule, the term:

(a) "Ballot" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(b) "Ballot scanner" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(c) "Ballot Style" shall mean the specific offices, candidates, and questions displayed on an electronic ballot marker or paper ballot for voters according to their assigned precinct.

(d) "Electronic ballot marker" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(e) "Election management system" is an electronic system that contains databases for elections, allows for the creation of ballots, generates ballot scanner memory cards, and computes tabulated results, amongst performing other election functions.

(f) "Electronic poll book" shall mean an electronic device that contains a list registered voters with sufficient information to look up voter, check them in, and encode voter access cards that bring up the correct ballot on an electronic ballot marker.

(g) "Election superintendent" or "superintendent" means a county board of elections and registrations, a county board of elections, a judge of the probate court, or an elections supervisor or director so designated by a county board or judge of the probate court. For municipal elections, the term shall include the municipal counterparts set forth in O.C.G.A. § 21-2-2.

(h) "Enclosed space" shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet

AMERICAN OVERSIGHT

of the ballot box, voting compartments, voting booths, voting machines, electronic ballot markers, or ballot scanners.

(i) "Opening of the Polls" shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term "Closing of the Polls" shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or closing of the doors of the polling place.

(j) "Poll officer" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(k) "Polling place" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(l) "Precinct" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(m) "Voter Access Card" shall mean the electronic card issued to a voter which is inserted into an electronic ballot marker to bring up the voter's correct ballot.

(n) "Zero Tape" shall mean a tape printed out by a ballot scanner unit which shows that no votes have been tabulated by the scanner for that election.

(o) "Voting system" or "voting system components" shall include electronic ballot markers, printers, ballot scanners, election management systems, electronic poll books, and voter access cards.

Authority: O.C.G.A. §§ 21-2-2, 21-2-31

~~(1) Definitions.~~
~~As used in this rule, the term:~~
~~(a) "Assist", assisted","assisting", or "assistance" means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2-379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2-587, 21-2-590, 21-2-591, 21-2-592.~~
~~(b) "Ballot" shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.~~
~~(c) "Ballot Encoder Device" shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.~~

AMERICAN OVERSIGHT

(d) "Ballot Style" shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.
(e) "Counter" shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The "election counter" is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The "system counter" is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.
(f) "DRE unit" shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.
(g) "Early voting period" shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.
(h) "Enclosed space" shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments, voting booths, or voting machines.
(i) "Memory Card" shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.
(j) "Opening of the Polls" shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term "Closing of the Polls" shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or closing of the doors of the polling place.
(k) "Supervisor's Card" shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.
(l) "Voter Access Card" shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.
(m) "VWD Device" is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.
(n) "Zero Tape" shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

(2) Receipt, Maintenance, and Storage.
(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the

AMERICAN OVERSIGHT

~~Secretary of State. No DRE unit shall be accepted by the county or placed into service until such time as the unit satisfactorily passes the prescribed acceptance tests.~~

~~(b) Storage of DRE units.~~

~~1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.~~

~~2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.~~

~~3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.~~

~~4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal numbers shall be recorded and on file in the office of the election superintendent.~~

~~5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.~~

~~6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.~~

~~(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.~~

~~(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and~~

AMERICAN OVERSIGHT

consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

AMERICAN OVERSIGHT

~~STATE OF GEORGIA~~
~~COUNTY/MUNICIPALITY OF _____~~
~~OATH OF CUSTODIANS AND DEPUTY CUSTODIANS~~
~~OF DRE UNITS~~

~~I, _____, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of _____, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.~~

~~_____~~
~~(Deputy) Custodian~~
~~Administered by, sworn to,~~
~~and subscribed before me,~~
~~this _____ day of _____, 200__.~~

~~_____~~
~~Superintendent~~
~~(Required by O.C.G.A. Section 21-2-379.6(b))~~

~~2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.~~

~~3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.~~

~~4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.~~

AMERICAN OVERSIGHT

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words "Official Ballot" shall be displayed in 16 point Arial Bold.

AMERICAN OVERSIGHT

(ii) All text beneath the words "Official Ballot" which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.
(iii) The words "I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law." shall be displayed in 8 point Arial Narrow Italicized.
(iv) The name of the office shall be displayed in 12 point Arial Bold.
(v) Information on the designation of the office ("To succeed _____") and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.
(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.
(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.
(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.
(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.
(x) The choices for voting on a question (i.e.,"YES" and "NO") shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:
(i) All text, designations, and names shall be displayed in black letters.
(ii) The background colors shall be as follows:
(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).
(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).
(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).
(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).
(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).
(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).
(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency;

AMERICAN OVERSIGHT

~~or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.~~

~~(b) Setup and Testing.~~

~~1. Primaries and Elections.~~

~~(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.~~

~~In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:~~

~~During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;~~

~~(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;~~

AMERICAN OVERSIGHT

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;
(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;
(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;
(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;
(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;
(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.
(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The

AMERICAN OVERSIGHT

~~custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.~~

~~(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.~~

~~2. Primary Runoffs and Election Runoffs.~~

~~(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.~~

~~In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:~~

~~During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;~~

~~(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;~~

~~(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;~~

~~(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public~~

AMERICAN OVERSIGHT

insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

AMERICAN OVERSIGHT

~~(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.~~

~~(c) Transport to Polls.~~

~~1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.~~

~~2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.~~

~~3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.~~

~~4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.~~

~~(d) Before the Opening of the Polls.~~

~~1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.~~

~~2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.~~

~~3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.~~

~~4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall~~

AMERICAN OVERSIGHT

not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

(4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the "cast ballot" button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

AMERICAN OVERSIGHT

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the "start" button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement

AMERICAN OVERSIGHT

DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll

AMERICAN OVERSIGHT

~~manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.~~

~~5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.~~

~~6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.~~

~~7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.~~

~~8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.~~

~~(b) Electronic Transmission of Precinct Results to Central Office.~~

~~1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.~~

~~2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.~~

~~(c) Consolidation of Results.~~

~~1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.~~

AMERICAN OVERSIGHT

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated returns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write-in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon

AMERICAN OVERSIGHT

~~one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.~~

~~(6) Storage of Returns.~~

~~(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.~~

~~(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.~~

~~(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.~~

~~(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.~~

~~(7) Recounts and Recanvass.~~

~~(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.~~

AMERICAN OVERSIGHT

~~(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvas is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.~~
~~(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.~~

~~(8) Maintenance of Equipment.~~
~~(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self-insure such equipment and software.~~
~~(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.~~

~~(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.~~
~~(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.~~

**Rule 183-1-12-.03 <u>Acceptance Testing</u> ~~Tabulating Center Personnel, Trained and Certified~~**

~~All tabulating center personnel must be trained in their respective duties and certified as required by O.C.G.A. Section 21-2-99 for poll officers. All programmers, operators, and~~

AMERICAN OVERSIGHT

~~data center personnel shall be sworn as provided in O.C.G.A. Sections 21-2-94 and 21-2-95 for poll officers.~~

(1) Acceptance tests. Upon the receipt of new, repaired, or upgraded components of the voting system, including electronic ballot markers (which consists of both a touchscreen and a printer), ballot scanners, electronic poll books, and election management systems, the election superintendent of the county is responsible to check that an acceptance test has been performed on the device in accordance with standards issued by the Secretary of State. No component of the voting system shall be placed into service until such time as the unit satisfactorily passes the prescribed acceptance tests.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.04 Storage, Maintenance, and Transport of Statewide Voting System Components.** ~~**Certification of Program Instructions**~~

~~During the official computer certification, all program test decks, program instructions, and print out sheets become property of the superintendent. All program instructions must be certified by the programmers who programmed them, and such instructions shall be kept with the test decks and filed with the Clerk of the Superior Court following consolidation and certification of the election returns.~~

1. The election superintendent of the county shall maintain all components of the voting system (including electronic ballot markers, ballot scanners, electronic poll books, and election management systems) in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. All electronic components of the voting system shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than O degrees Celsius (32 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 20 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such components. The components shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the components are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such components or such space. The components shall be stored in their packaging boxes or carrying cases with foam inserts and shall not be stacked more than four units high. The back-up battery for the ballot scanner shall be charged at least every 9 months.

3. The storage areas for the voting system components at the county election office or other designated county facility shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion

AMERICAN OVERSIGHT

detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department.

4. The election Superintendent shall maintain numbered seals on all electronic ballot markers and ballot scanners in storage and all seal numbers shall be recorded and on file in the office of the election superintendent.

5. All components of the voting system shall be securely transported to polling places. Electronic ballot markers (including printers) and ballot scanners shall be transported in secure boxes or carrying cases that provide vibration and impact protection.

6. Upon delivery to a polling place in preparation for a primary, election, or runoff, all components of the voting system shall be secured and protected from unauthorized access. Upon delivery, the components shall either be stored in a locked, secure room at the polling place; in a locked, secure container that is reasonably affixed to the polling place; be under visual surveillance of an election official or their designee, law enforcement official, or licensed security guard; or, if the previously listed options are not feasible, in another manner, that in the reasonable judgement of the superintendent, secures and protects the voting system components from unauthorized access. Any electronic visual surveillance used for security when voting is not taking place shall not record, capture, or otherwise compromise the privacy of an elector's ballot.

7. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the State.

8. Maintenance of Voting System Components. After the end of the initial warranty period for state owned voting system components, the county shall be responsible for maintaining an appropriate warranty or otherwise be responsible for maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.05 Security of Voting System Components at County Elections Office or Designated County Storage Area**

1. Software security. The software contained in electronic ballot markers, ballot scanners, election managements systems, and electronic poll books, regardless of whether the unit is owned by the county or the State, shall not be modified, upgraded, or changed in any way without the specific prior approval of the Secretary of State.

AMERICAN OVERSIGHT

2. Electronic ballot markers, ballot scanners, and election management systems shall not be connected to the internet and no other software shall be loaded onto or maintained or used on computers on which the election management system software is located except as specifically authorized by the Secretary of State.

3. The room in which the election management system is located shall be locked at all times when the system is not directly under the supervision of the election superintendent or his or her designee. Lock and key access to the room where the election management system is located shall be limited to the county election superintendent; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the room in which the election management system is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the election management system is located. Emergency personnel shall have access to the room in which the election management system is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

4. The election management system shall remain password-locked at all times when not muse.

5. While in storage at the county elections office or designated county facility, all components of the voting system (including electronic ballot markers, ballot scanners, electronic poll books, ballot boxes, and election management systems) shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry as soon as possible and the election superintendent must maintain a log of those persons who entered the storage area.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.06 Handling of Voting System. ~~Provisional Ballots~~**

AMERICAN OVERSIGHT

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA

COUNTY/MUNICIPALITY OF _____

OATH OF CUSTODIANS AND DEPUTY CUSTODIANS OF GEORGIA VOTING SYSTEM

I, _____, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of _____, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all components to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the voting system for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

_____

(Deputy) Custodian

Administered by, sworn to,

and subscribed before me,

this _____ day of _____, 200_

Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. Any electronic ballot markers, ballot scanners, electronic poll books, ballot boxes and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time

AMERICAN OVERSIGHT

when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The election management system computers shall not be moved or relocated for any purposes. Should it become necessary to relocate an election management system computer or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in advance in writing of the reason for the relocation and the proposed new location. The election management system shall not be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent. If an emergency arises causing the election management system to be moved, the election superintendent is responsible to notify the Secretary of State as soon as possible of the move.

4. The poll manager shall sign a receipt for components of the voting system assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All voting system components and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of any instances of unaccounted for components of the voting system as soon as possible.

7. The election superintendent shall perform an audit count of all voting system components housed and maintained by the jurisdiction on an annual basis. The results of the audit shall be submitted to the Secretary of State.

Authority: O.C.G.A. §§ 21-2-31, 21-2-379.6

AMERICAN OVERSIGHT

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§ 21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the

AMERICAN OVERSIGHT

~~precinct and shall permit the person to vote in the same manner as other voters in the precinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.~~

~~(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).~~

~~(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.~~

~~(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the~~

AMERICAN OVERSIGHT

~~information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter registration form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. § 21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).~~

~~(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.~~

~~(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).~~

~~(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot voting booth and vote the ballot. Upon completing the~~

AMERICAN OVERSIGHT

ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. § 21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. § 21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed

AMERICAN OVERSIGHT

~~therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.~~

~~(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. § 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.~~

~~(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.~~

~~(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.~~

~~(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter registration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the ballot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.~~

~~(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer~~

AMERICAN OVERSIGHT

ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officers shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officers shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officers shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the provisional ballot recap

AMERICAN OVERSIGHT

~~sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.~~

~~(10) Upon receiving the election materials from the precincts, the election superintendent shall ensure that the envelope containing the provisional ballot voter's certificates and voter registration cards is promptly removed from the other materials and transferred to the registrars for processing. In any event, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.~~

~~(11) (a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.~~

~~(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.~~

~~(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.~~

~~(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.~~

~~(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.~~

~~(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.~~

AMERICAN OVERSIGHT

~~(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the style of ballot (district combination) cast by the provisional ballot voter.~~

~~(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.~~

~~(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct in the nonreflective area at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word "Duplicate" and shall bear the name of the precinct and the same unique identifying number as the original ballot in the nonreflective area at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.~~

~~(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.~~

~~(d) The rejected provisional ballots shall be marked on the outer envelope as "Not Counted" and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.~~

AMERICAN OVERSIGHT

~~(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).~~

~~(13) (a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed promptly to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. If the person's voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.~~

~~(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.~~

~~(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2-226(d).~~

~~(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.~~

**Rule 183-1-12-.07 Preparation for Elections. ~~of the Electors List and Use of ExpressPoll~~**

1. The election superintendent shall review the electronic databases used to generate ballots for correctness and accuracy in generating paper ballots and touchscreen displays.

2. Each ballot style and touchscreen display shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to check that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices

AMERICAN OVERSIGHT

and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style or touchscreen display.

3. For each office up for election, the paper ballot or touchscreen display shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5. In partisan elections, the paper ballot and touchscreen display shall designate the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

4. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

5. The election superintendent shall review the audio ballot prepared for use with the touchscreen display for voters with disabilities. The superintendent shall confirm that every section of the audio ballot is pronounced correctly. The election superintendent shall also confirm that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such audio recordings.

6. The Superintendent shall check that the memory cards used in the ballot scanner are formatted and contain no extraneous software or data prior to use in an election. The ballot scanner memory cards shall be named to indicate the polling place where they will be used. If more than one ballot scanner is to be used in a single polling place, the memory card name shall differentiate between the scanners.

Authority: O.C.G.A. §§ 21-2-31, 21-2-379.4, 21-2-379.5

~~(1) Beginning July 1, 2006, counties shall use ExpressPoll units at precincts within the county during primaries, elections, and runoffs. The ExpressPoll~~

AMERICAN OVERSIGHT

~~units shall be utilized in lieu of the printed electors list and ballot encoders in each precinct where in use.~~

~~(2) The county election superintendent shall maintain each ExpressPoll unit, and all components in a secure location under the same conditions as provided for DRE units under Rule 183-1-12-.02(2).~~

~~(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.~~

~~(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of all such data entry after a registration deadline.~~

~~(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the GEMS database for the county.~~

~~(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the GEMS database that occur after the process for creating ExpressPoll flash cards begins.~~

~~(7) During the period in which DRE units are tested and prepared prior to delivery to the precincts, the election superintendent shall cause each ExpressPoll unit to undergo logic and accuracy testing. Each ExpressPoll unit must pass such logic and accuracy test prior to being assigned to a precinct. The registrars shall verify the information contained on the ExpressPoll units when assigning the units to precincts.~~

~~(8) Prior to delivery to the precincts, the registrars shall ensure that all persons who have been issued or cast absentee ballots are marked accordingly on the ExpressPoll units.~~

~~(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the ExpressPoll units with the other election materials from the precinct to the election superintendent. The registrars and election superintendent shall coordinate the return of the flash cards from the ExpressPoll units to the Secretary of State such that the cards are returned in the same time period as the official election returns.~~

~~(10) For electors whose names are added to the voter registration rolls after the deadline for preparing the flash cards for the ExpressPoll units, the registrars shall provide a printed supplemental list for use at the affected precincts.~~

**Rule 183-1-12-.08 Logic and Accuracy Testing.**

1. Primaries and Elections.

   a. On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the

AMERICAN OVERSIGHT

election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use on Election Day.

b. On or before the third day preceding the advance voting period, the election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use during the advance voting period. Voting system components that passed logic and accuracy testing for advance voting do not have to be re-tested for use on Election Day for the same election, unless there is a change in the programming or database used by the component.

c. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the voting system components for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing. Prior to a runoff election, the Superintendent shall prominently post notice of the date, time, and place of such testing at least 24 hours prior to its occurrence.

d. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the voting system components. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the voting system components.

2. In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

AMERICAN OVERSIGHT

a. Be available for the first hour of the first day of testing to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

b. Maintain a presence at all times during the preparation and testing process;

c. Administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

d. Establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however, the area should be of such a nature so as to allow the preparation and testing process to proceed without interference with by the general public;

e. Allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

f. Prohibit any preparation and testing reports created for recording the seal numbers of voting system components from being disclosed to the public;

g. Prohibit the security seal numbers or other security measures of any voting system components from being disclosed to the public; and

h. Prohibit photographic and audio equipment of any kind, including cell phone cameras, from being used to record the security seal numbers or other measures used to secure any voting system components, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and other security measures on any voting system component are not recorded or displayed in any manner.

3. During the public preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners to be used in a particular primary or election, the election superintendent shall cause each electronic ballot marker and scanner to be programmed with the election

AMERICAN OVERSIGHT

files for the precinct at which the electronic ballot marker and ballot scanner unit will be used.

The superintendent shall cause the accuracy of the components to be tested by causing the following tasks to be performed:

A. Check that the electronic poll books accurately look up and check-in voters via both the scanning function and manual lookup and create a voter card that pulls up the correct ballot on the electronic ballot marker for every applicable ballot style.

B. Check that the touchscreen on the electronic ballot marker accurately displays the correct selections and that the touchscreen accurately reflects the selected choices.

C. Check that the printer prints a paper ballot that accurately reflect the choices selected on the touchscreen and immediately mark all printed ballots as "test" ballots.

D. Check that the ballot scanner scans the paper ballot, including both ballots marked by electronic ballot markers and ballots marked with a pen, and that the ballot scanner scans ballots regardless of the orientation the ballot is entered into the scanner.

E. Check that the tabulation contained in the ballot scanner memory card can be accurately uploaded to the election management system, and that the tabulated results match the selections indicated on the paper ballot.

If any component fails any of the testing, the component shall not be used in a primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the component shall be cleared of any vote totals collected during testing. A zero tape shall be run on the ballot scanner subsequent to successful testing, and the tape shall be attached to the custodian's certification form to document the logic and accuracy testing. The components shall then be sealed and securely stored for transfer to the polling place.

4. After the completion of Logic and Accuracy testing on any voting system component, each component shall be sealed and safely and securely stored until such time as the component is transported to the polling place in which such component is to be used. The zero tapes, results tapes, test ballots, and other paperwork shall be securely stored by the superintendent.

Authority: O.C.G.A. § 21-2-31

AMERICAN OVERSIGHT

**Rule 183-1-12-.09. Transport to Polls.**

1. The election superintendent shall take all necessary measures to cause the voting system components to be safely and securely transported to the polling places.
2. The election superintendent shall cause the voting system components for each polling place to be delivered to the polling place at least one hour before the time for the opening of the polls. The election superintendent shall cause magnifying devices to be made available at each polling place to assist voters in reviewing their paper ballots.
3. If the voting system voting system components are stored at a polling place prior to the arrival of the poll manager or their designee, the election superintendent shall cause the units are stored in a locked, secure manner with appropriate climate control as described in Rule 183-1-12-.04.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.10 ~~Use of Absentee Ballots When Voting Machines are Inaccessible~~ Before the Opening of the Polls.**

~~Absentee ballots may be used by the handicapped if voting machines are inaccessible.~~

1. The poll officers shall set up and power on the voting system components for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the voting system components and to prevent interference with the duties of the poll officers.
2. The poll officers shall verify that the seal for each voting system component is intact and that there is no evidence or indication of any tampering. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that component when such component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering, the election superintendent shall be immediately notified and such component shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.
3. The poll manager shall check that the electronic poll books, electronic ballot markers, and ballot scanners all indicate zero counts prior to the opening of the polls.
4. The poll manager shall cause each ballot scanner in the polling place to run a zero tape prior to the start of voting. If the tape does not show zero votes prior to the start of voting, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.
5. The poll manager and two witnesses who have been sworn as poll officers pursuant to O.C.G.A. §§ 21-2-94 and 21-2-95 shall sign the zero tape from the ballot scanner. The poll manager and those same two witnesses shall then confirm that the ballot box is empty. The Secretary of State shall develop a form to be signed by the poll manager and the two witnesses attesting that the ballot box was empty prior to the opening of the polls. Such form shall include the date and time it was executed, shall be attached to the zero tape generated by the ballot scanner attached to that ballot box, and shall be returned to the election superintendent with the polling place recap forms at the close of the polls. The

AMERICAN OVERSIGHT

ballot box shall then be securely locked and sealed. Once the ballot box is verified to have been empty and locked and sealed, no person shall access the inside of the ballot box while voting is occurring unless it is absolutely necessary to the functioning of elections. Any such access shall be by the poll manager and two witnesses who have been sworn as poll officers, and the poll manager and witnesses shall attest, on a form to be developed by the Secretary of State, to when and for what purpose the ballot box was accessed, and that no action was taken to affect the results of the election. That form shall also be returned to the election superintendent with the polling place recap form at the close of the polls.

6. The poll officers shall verify that there is no unauthorized matter affixed to any of the voting system components or present in the voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least one printed sample ballot and at least one voting instructions poster approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. At least one printed sample ballot and one voting instructions poster shall also be posted in the enclosed space. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the voting system that has been approved or provided by the Secretary of State. The poll officers shall also have a sufficient supply of sample ballots available should voters request to view them while voting or reviewing their ballot.

8. As near as possible to exit of the enclosed space in every polling place in a manner that is visible to voters as they exit the enclosed space, the poll manager shall post a sign that informs voters that ballots shall not be removed from the enclosed space.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.11 Conducting Elections.**

1. As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the voting system, including specific verbal instruction to review their printed ballot prior to scanning it and that sample ballots and magnifying devices are available upon request to assist them in reviewing their paper ballot. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular candidate, political party, or political body, or for or against any particular question.

2. (a) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The voter certificate may be an electronic or paper record. The poll officers shall verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters.

(b) A poll officer shall then issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot on the touchscreen or utilize the correct access code to manually bring up the correct ballot on the touchscreen. The voter shall then

AMERICAN OVERSIGHT

enter the enclosed space in the polling place and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen unit, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll officer. Then the voter shall exit the enclosed area of the polling place.

(c) If an emergency situation makes utilizing the electronic ballot markers impossible or impracticable, as determined by the election superintendent, the poll officer shall issue the voter an emergency paper ballot that is to be filled out with a pen after verifying the identity of the voter and that the person is a registered voter of the precinct. Emergency paper ballots shall not be treated as provisional ballots, but instead shall be placed into the scanner in the same manner that printed ballots in the polling place are scanned. The election superintendent shall cause each polling place to have a sufficient amount of emergency paper ballots so that voting may continue uninterrupted if emergency circumstances render the electronic ballot markers or printers unusable. The poll manager shall store all emergency ballots in a secure manner and that all used and unused emergency ballots are accounted for. All unused emergency ballots shall be placed into a secure envelope and sealed such that the envelope cannot be opened without breaking such seal.

(d) If an emergency situation exists that makes voting on the electronic ballot markers impossible or impracticable, the poll manager shall alert the election superintendent as soon as possible. The existence of an emergency situation shall be in the discretion of the election supervisor. However, if a poll manager is unable to contact the election superintendent after diligent effort, the poll manager shall have the ability to declare that an emergency situation exists at the polling place. The poll manager shall continue diligent efforts to contact the election superintendent, and shall inform the superintendent as soon as possible of the situation at the polling place. The election superintendent, in his or her discretion, shall either overrule or concur with the declaration of emergency circumstances. While the determination of an emergency situation is in the discretion of the election superintendent, the types of events that may be considered emergencies are power outages, malfunctions causing a sufficient number of electronic ballot markers to be unavailable for use, or waiting times longer than 30 minutes

3. At least once each hour during the time while the polls are open, the poll officers shall examine the enclosed space to verify that no unauthorized matter has been affixed to any voting system component or placed in the voting booth and that the voting system components have not been tampered with in any manner. Poll officers shall also check that no unattended ballots are left in the printer or anywhere in the enclosed space other than the appropriate ballot box. Any unattended ballots found in the enclosed space that do not belong to a voter currently in the enclosed space shall not be counted, but shall be secured and labelled as unattended ballots.

4. The polling place shall be arranged in such a manner as to provide for the privacy of the elector while voting and to allow monitoring of each voting system component by the poll officers while the polls are open. The electronic ballot markers and ballot scanners used in the polling place shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one electronic ballot marker configured for use by physically disabled electors at each advance

AMERICAN OVERSIGHT

voting location. In addition, at least one ballot marking device shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to provide for the privacy of such electors while voting.

5. It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card into the ballot marking device and in explaining the operation of the unit to the voter; provided that the poll officer shall withdraw from the voting booth prior to the voter making any selections. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote for any particular candidate, political party, or political body, or for or against any particular question.

6. Voters utilizing an audio tactile interface (ATI) device to vote on the ballot marking device without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409; however, if another person other than a poll officer is handling the printed ballot before it is inserted into the scanner, that person shall be considered as assisting.

7. The poll officers shall confirm that voters deposit their ballots and return the voter access cards to the poll officers prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling place and provide staffing at such places at the polling place to confirm that a voter will not leave the enclosed space with a ballot or voter access card.

8. The election superintendent shall cause each polling place to be sufficiently staffed and a poll officer to be stationed at every ballot scanner in use in the polling place while voting is occurring. The poll officer stationed at the ballot scanner shall offer instruction throughout the period while voting is occurring reminding voters to review their printed paper ballots, but shall take all reasonable precautions not to view the selections on an elector's ballot unless it is required due to assistance requested from the elector.

9. A voter may request information from poll officers concerning how to use the electronic ballot marker or any other voting system component at any time during the voting process. However, once the voter scans his or her ballot into the ballot scanner, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again. If a voter leaves the room encompassing the enclosed space with his or her paper ballot and does not place that ballot into the appropriate ballot scanner or ballot box, that voter shall be deemed to have voted and may not thereafter vote again. A sign shall be placed at the exit of the enclosed space that informs every voter that ballots may not be removed from the enclosed space. Any paper ballot that is removed from the room encompassing the enclosed space shall not be counted and shall be marked as spoiled by a poll officer.

10. (a) If a voter discovers that the ballot presented on the electronic ballot marker is not correct or, for a partisan primary, is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the electronic ballot marker without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot and make any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters.

AMERICAN OVERSIGHT

(b) If, while reviewing his or her printed ballot, the voter discovers that the printed ballot does not contain the proper ballot selections or that the voter was not issued the proper ballot, the voter shall immediately inform a poll officer. The poll officer shall spoil the paper ballot and take the necessary steps to allow the voter to make his or her selections again on the electronic ballot marker and cause the correct ballot to be issued.

(c) If the voter places his or her paper ballot into the ballot scanner or ballot box prior to notifying the poll officials of any errors in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot.

11. (a) If any voting system component malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The poll manager shall utilize appropriate backup procedures so that voting is not interrupted due to any equipment malfunctions. The election superintendent shall immediately arrange for the repair of the voting system component or shall provide a replacement component as soon as practicable. A replacement component shall not be used unless it has been appropriately tested prior to its use.

(b) In the event that a ballot scanner malfunctions, the voter shall place their voted ballot in the emergency bin connected to the ballot box. The ballots in the emergency bin shall be counted when the ballot scanner is properly functioning, by a replacement ballot scanner brought to the polling place, or, if neither are available, by another scanner at the county elections office. Poll officers may scan ballots placed into the emergency bin through the ballot scanner or a replacement ballot scanner when doing so will not interfere with voting. A voter placing his or her ballot into the emergency bin is considered to have voted that ballot and shall not be permitted to cast another ballot.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.12 Tabulating Results.**

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager and two witnesses who have been previously sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall begin the closing procedure on each ballot scanner so that no further votes are cast and record the number of scanned ballots from every ballot scanner used in the polling place. The poll manager and the two witnesses shall record the number of scanned ballots from each scanner on a recap form to be developed by the Secretary of State. The poll manager and the two witnesses shall cause each ballot scanner to print three tapes of the tabulated results and shall sign each tape indicating that it is a true and correct copy of the tape produced by the ballot scanner. If the poll manager or the witnesses have reason to believe that printed tapes are not a true and correct tabulation of the ballots scanned by that ballot scanner, the poll manager or witness shall document the reasons and evidence for that belief and inform the election superintendent, who shall take appropriate action, in his or her discretion, so that the ballots in the ballot box associated with the ballot scanner are accurately tabulated.

AMERICAN OVERSIGHT

2. The poll manager shall cause the number of printed ballots from each ballot marking device to be recorded on the recap form. The poll manager shall further cause the number of spoiled ballots and ballots placed in the emergency bin of the scanner that were unable to be scanned to be recorded on the recap form. The poll manager shall cause the total number of voter check ins from the electronic poll book and/or paper voter list to be recorded on the recap form. If the numbers recorded on the recap form do not reconcile with each other, the poll manager shall immediately determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken.

3. One of the three tapes of the tabulated results printed from the ballot scanner shall be affixed to the door of the polling place for the information of the public along with a copy of the provisional ballot recap form for the polling place. One tape shall be placed into an envelope (or reusable document storage container suitable for the same purposes) provided by the election superintendent, along with the "poll officer" memory card from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The poll manager and the two witnesses shall initial the envelope indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the polling place recap form.

4. The poll manager and two witnesses who have been sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall unseal and open each ballot box, remove the paper ballots from each ballot box, and place the paper ballots into a durable, portable, secure and sealable container to be provided for transport to the office of the election superintendent. A separate container shall be used for the paper ballots from each ballot box and the container shall be labelled with the polling place, ballot scanner serial number, the number assigned to the ballot scanner for that election, the count of the ballots from the tabulation tape, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the poll manager and the same two witnesses such that it cannot be opened without breaking the seal. The poll manager and the two witnesses shall sign a label affixed to the container indicating that it contains all of the correct ballots from the indicated ballot box and no additional ballots.

5. The poll manager and the same two witnesses who emptied the ballot box shall complete and sign a form indicating that the ballot box was properly emptied and the ballots were properly stored and secured. Such form shall be delivered to the election superintendent with the completed polling place recap form. The ballot box shall be resealed and the new seal numbers shall be documented.

6. The envelopes containing the tabulation tape and the memory card, the containers containing the paper ballots, the completed polling place recap forms, voter access cards, supervisor's cards, electors lists, numbered lists of voters, electronic poll books, and other such paperwork shall be delivered to the election superintendent by the poll manager and at least one other sworn poll officer or law

AMERICAN OVERSIGHT

enforcement official. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials. The poll manager and any poll officers who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with. The election superintendent, in his or her discretion, may allow a designee of the poll manager to deliver the envelopes or containers containing the ballot scanner tabulation tapes and memory cards to be used for unofficial reporting of results prior to the delivery of the other polling place materials provided that the same procedures for transit and delivery set forth herein are followed.

7. Before leaving the polling place, the poll manager shall power off, secure, and seal all electronic ballot markers, ballot boxes, and ballot scanners. The polling place shall be locked to prohibit unauthorized entry.

(b) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards shall be sworn in the same manner that custodians are sworn before entering into their duties.

2. Only persons who are permanent employees of the election superintendent or have been duly sworn as poll officers or custodians shall touch or be in contact with any ballot, container, returns, tapes, device, memory card, or any other such election materials. Only persons who are employed by the election superintendent or have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center so that the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of any election materials from a polling place, the election superintendent or his or her designee shall provide a receipt that clearly states what election materials have been deliver.

5. Upon receiving the paper ballots and the memory cards, the election superintendent shall verify the signatures on the sealed envelopes and containers, verify that the seals are intact, that the envelopes or containers have not been opened, and that there is no evidence of tampering with the envelopes, containers, or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes and containers are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card and results tape. The election superintendent or his or her designee shall then insert the memory card into the election management system computer and transfer the vote totals from the memory card into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards to the election management system and consolidating such totals with the totals from the absentee

AMERICAN OVERSIGHT

ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated returns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within fourteen days following a primary, election, or runoff.

(c) Election Night Reporting. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon prior notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.13 Storage of Returns.**

(a) After tabulating and consolidating the results, the election superintendent shall prepare an electronic file which shall contain a copy of the information contained on each memory card which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The electronic file shall be stored on a secure medium which shall be placed in a sealed envelope or container and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each ballot scanner and the corresponding paper ballots shall also be deposited with the clerk of superior court.

(c) The memory cards shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards for programming ballot scanners units for the next primary, election, or runoff.

AMERICAN OVERSIGHT

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.14 Maintenance of Equipment.**

(a) Each county shall be responsible for maintaining all components of the voting system, including electronic ballot markers, printers, ballot scanners, electronic poll books, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a warranty/maintenance agreement for such equipment and software or shall assume the responsibility for repair, maintenance, and upkeep of all system components.

(b) In the event of any malfunction or problem with any voting system component, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.15 Use of Equipment by Municipalities.**

(a) The county election superintendent is authorized to permit any municipality within the county to conduct its election with electronic ballot markers, printers, ballot scanners, and other components of the statewide voting system through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll officers in the proper operation and conduct of elections utilizing such equipment through an appropriate training program approved by the Secretary of State.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.16 Demonstrations of Voting Equipment**

(a) When being used for demonstration and voter education purposes, electronic ballot markers and ballot scanners shall not utilize or be programmed with the official ballot to be used in the primary or election. The device shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

**Rule 183-12-.17 Tabulating Center Personnel, Trained and Certified**

All tabulating center personnel must be trained in their respective duties and certified as required by O.C.G.A. § 21-2-99 for poll officers. All programmers, operators, and data center personnel shall be sworn as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 for poll officers.

AMERICAN OVERSIGHT

Authority: O.C.G.A. § 21-2-31

**Rule 183-12-.18 Provisional Ballots**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§ 21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The election superintendent shall also be prepared to resupply polling places with provisional ballots in needed ballot styles in a timely manner while voting is occurring so that polling places do not run out of provisional ballots. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. The poll manager shall cause all voted provisional ballots to be deposited into the provisional ballot box and not be inserted into the polling place ballot scanner and kept separate and apart from non-provisional ballots case at the polling place. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the polling place shall have an electronic poll book that includes a mastered list of registered voters in the state, and the poll workers shall check the list to determine if the person is assigned to a different polling place within the county or registered in a different county. If the person's name appears on the master list for a different precinct within the same county, the poll workers shall inform the person of his or her correct polling place. The person shall be instructed to go to his or her correct polling place if practicable, but that if it is not practicable for the person to get to his or her correct polling place before the close of polls, that the person may vote a provisional ballot in the polling place in which they are present. If, after receiving that instruction, the person states that it is not practicable for him or her to get to their correct polling

AMERICAN OVERSIGHT

place prior to the close of voting, the poll officer shall offer the person a provisional ballot. If the person is registered in a different county, the poll officer shall inform the person that he or she appears to be registered in a different county. If the person is still eligible to vote in the county in which they appear to be registered, the person may return to that county to vote. If the person states a good-faith belief that he or she timely registered to vote in the county in which he or she is present, he or she shall be offered a provisional ballot.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote in the county in which he or she is present.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the precinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by 0.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct within the same county where the person is present, the registrars shall direct the poll officers to inform the person of the appropriate other precinct and the registrars shall notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417. the person shall be permitted to vote in the same manner as other persons in such other precinct. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21·2-419(c).

AMERICAN OVERSIGHT

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall inform the poll officers and the person shall be offered a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county at which the person is present, the registrars shall direct the poll officers to inform the person of the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter registration form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. § 21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2·419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to receive a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon accepting the opportunity to receive a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars

AMERICAN OVERSIGHT

along with an Inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope or reusable document container which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. § 21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. § 21- 2-220. the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person. the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person

AMERICAN OVERSIGHT

to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. § 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person, by email, by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter registration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the ballot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220. the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state

AMERICAN OVERSIGHT

by mail without providing the required identification. and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary. election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officer, along with two other witnesses sworn as poll officers, shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officer and witnesses shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another. the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officer and witnesses shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall cause the envelope containing the provisional ballot voter's certificates and voter registration cards to be promptly removed from the other materials and, if applicable, transferred to the registrars for processing. If applicable, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also

AMERICAN OVERSIGHT

remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11)

(a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the

AMERICAN OVERSIGHT

inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word “Duplicate" and shall bear the name of the precinct and the same unique identifying number as the original ballot at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as "Not Counted" and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13)

(a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed fil the earliest possible time to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. The registrars shall also attempt to notify the person by telephone or email if the provisional ballot voter certificate contains an email address or telephone number. If the person's voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect

AMERICAN OVERSIGHT

ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2·226(d).

(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.19 Preparation of the Electors List and Use of Electronic Poll Book**

(1) Election superintendents shall cause each polling place to be equipped with an appropriate number of electronic poll books within the county during primaries, elections, and runoffs. Electronic poll books shall be the primary method for checking in voters and creating voter access cards, but the superintendent shall cause every polling place to be equipped with a paper backup list of every registered voter assigned to that polling place. The paper backup list shall be used in case the electronic poll books do not properly function. The superintendent shall cause poll workers to be adequately training checking in voters on both electronic poll books and paper backup list.

(2) The county election superintendent shall maintain each electronic poll book device, and all components in a secure location as provided for in Rule .183·1-12-.04 and 183-1-12-.05.

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of all such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the Selection management system database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the

AMERICAN OVERSIGHT

election management system database that occur after the process for programing the electronic poll books has begun.
(7) During the period in which election system components are tested and prepared prior to delivery to polling places, the election superintendent shall cause each electronic poll book to undergo logic and accuracy testing. Each electronic poll book must pass such logic and accuracy test prior to being delivered to a polling place. The election superintendent or registrars shall verify the information contained on the electronic poll books prior to delivering the units to polling places.
(8) Prior to delivery to a polling place, the election superintendent or registrars shall cause the electronic poll books to accurately mark all persons who have been issued or cast absentee ballots in the election.
(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the electronic poll books with the other election materials from the polling place to the election superintendent. The registrars and election superintendent shall inform the Secretary of State of all voters who cast ballots in each primary election or runoff in a format to be determined by the Secretary of State and in the same time period as the official election returns.
(10) For electors whose names are added to the voter registration rolls after the preparation of the electronic poll books, the registrars shall provide a printed supplemental list for use at the affected polling places.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.20 Use of Emergency Paper Absentee Ballots When Voting Machines are Inaccessible**

Emergency paper ballots shall be offered to and may be used by persons with disabilities in non-emergency situations if the electronic ballot marker are inaccessible.

Authority: O.C.G.A. § 21-2-31

AMERICAN OVERSIGHT

## COPY OF THE PROPOSED NEW RULE

**RULE 183-1-12.01 Conduct of Elections**

1. Beginning with the 2020 Presidential Preference Primary, all federal, state, and county general primaries and elections, special primaries and elections, and referendums in the State of Georgia shall be conducted via an Optical Scanning Voting System as defined by O.C.G.A. 21-2-1(19.1). Voting at the polls, including both Election Day and absentee-in-person voting shall be conducted via ballots marked by electronic ballot markers and tabulated by ballot scanners. The electronic ballot markers and ballot scanners shall be supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. Absentee-by-mail voting shall also be conducted through the use of an optical scanning voting system.

2. The Superintendent shall cause every polling place and advance voting location to have a sufficient number of blank paper ballots that can be marked by pen available for use in the event of emergency. The election superintendent shall also be prepared to resupply polling places with emergency paper ballots in needed ballot styles in a timely manner while voting is occurring so that polling places do not run out of emergency paper ballots.

Authority: O.C.G.A. §§ 21-2-1, 21-2-31

**RULE 183-1-12.02 Definitions**

(1) As used in this rule, the term:

(a) "Ballot" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(b) "Ballot scanner" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(c) "Ballot Style" shall mean the specific offices, candidates, and questions displayed on an electronic ballot marker or paper ballot for voters according to their assigned precinct.

(d) "Electronic ballot marker" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(e) "Election management system" is an electronic system that contains databases for elections, allows for the creation of ballots, generates ballot scanner memory cards, and computes tabulated results, amongst performing other election functions.

(f) "Electronic poll book" shall mean an electronic device that contains a list registered voters with sufficient information to look up voter, check them

AMERICAN OVERSIGHT

in, and encode voter access cards that bring up the correct ballot on an electronic ballot marker.

(g) "Election Superintendent" or "superintendent" means a county board of elections and registrations, a county board of elections, a judge of the probate court, or an elections supervisor or director so designated by a county board or judge of the probate court. For municipal elections, the term shall include the municipal counterparts set forth in O.C.G.A. § 21-2-2.

(h) "Enclosed space" shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments, voting booths, voting machines, electronic ballot markers, or ballot scanners.

(i) "Opening of the Polls" shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term "Closing of the Polls" shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or closing of the doors of the polling place.

(j) "Poll officer" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(k) "Polling place" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(l) "Precinct" shall have the meaning set forth in O.C.G.A. § 21-2-2.

(m) "Voter Access Card" shall mean the electronic card issued to a voter which is inserted into an electronic ballot marker to bring up the voter's correct ballot.

(n) "Zero Tape" shall mean a tape printed out by a ballot scanner unit which shows that no votes have been tabulated by the scanner for that election.

(o) "Voting system" or "voting system components" shall include electronic ballot markers, printers, ballot scanners, election management systems, electronic poll books, and voter access cards.

Authority: O.C.G.A. §§ 21-2-2, 21-2-31

**Rule 183-1-12-.03 Acceptance Testing**

(1) Acceptance tests. Upon the receipt of new, repaired, or upgraded components of the voting system, including electronic ballot markers (which consists of both a touchscreen and a printer), ballot scanners, electronic poll books, and election management systems,

AMERICAN OVERSIGHT

the election superintendent of the county is responsible to check that an acceptance test has been performed on the device in accordance with standards issued by the Secretary of State. No component of the voting system shall be placed into service until such time as the unit satisfactorily passes the prescribed acceptance tests.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.04 Storage, Maintenance, and Transport of Statewide Voting System Components.**

1. The election superintendent of the county shall maintain all components of the voting system (including electronic ballot markers, ballot scanners, electronic poll books, and election management systems) in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. All electronic components of the voting system shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 0 degrees Celsius (32 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 20 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such components. The components shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the components are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such components or such space. The components shall be stored in their packaging boxes or carrying cases with foam inserts and shall not be stacked more than four units high. The back-up battery for the ballot scanner shall be charged at least every 9 months.

3. The storage areas for the voting system components at the county election office or other designated county facility shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department.

4. The election Superintendent shall maintain numbered seals on all electronic ballot markers and ballot scanners in storage and all seal numbers shall be recorded and on file in the office of the election superintendent.

5. All components of the voting system shall be securely transported to polling places. Electronic ballot markers (including printers) and ballot scanners shall be transported in secure boxes or carrying cases that provide vibration and impact protection.

AMERICAN OVERSIGHT

6. Upon delivery to a polling place in preparation for a primary, election, or runoff, all components of the voting system shall be secured and protected from unauthorized access. Upon delivery, the components shall either be stored in a locked, secure room at the polling place; in a locked, secure container that is reasonably affixed to the polling place; be under visual surveillance of an election official or their designee, law enforcement official, or licensed security guard; or, if the previously listed options are not feasible, in another manner, that in the reasonable judgement of the superintendent, secures and protects the voting system components from unauthorized access. Any electronic visual surveillance used for security when voting is not taking place shall not record, capture, or otherwise compromise the privacy of an elector's ballot.

7. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the State.

8. Maintenance of Voting System Components. After the end of the initial warranty period for state owned voting system components, the county shall be responsible for maintaining an appropriate warranty or otherwise be responsible for maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.05 Security of Voting System Components at County Elections Office or Designated County Storage Area**

1. Software security. The software contained in electronic ballot markers, ballot scanners, election managements systems, and electronic poll books, regardless of whether the unit is owned by the county or the State, shall not be modified, upgraded, or changed in any way without the specific prior approval of the Secretary of State.

2. Electronic ballot markers, ballot scanners, and election management systems shall not be connected to the internet and no other software shall be loaded onto or maintained or used on computers on which the election management system software is located except as specifically authorized by the Secretary of State.

3. The room in which the election management system is located shall be locked at all times when the system is not directly under the supervision of the election superintendent or his or her designee. Lock and key access to the room where the election management system is located shall be limited to the county election superintendent; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel

AMERICAN OVERSIGHT

shall have access to the room in which the election management system is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the election management system is located. Emergency personnel shall have access to the room in which the election management system is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

4. The election management system shall remain password-locked at all times when not in use.

5. While in storage at the county elections office or designated county facility, all components of the voting system (including electronic ballot markers, ballot scanners, electronic poll books, ballot boxes, and election management systems) shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry as soon as possible and the election superintendent must maintain a log of those persons who entered the storage area.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.06 Handling of Voting System.**

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA

AMERICAN OVERSIGHT

COUNTY/MUNICIPALITY OF _____

OATH OF CUSTODIANS AND DEPUTY CUSTODIANS OF GEORGIA VOTING SYSTEM

I, _____, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of _____, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all components to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the voting system for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

_____

(Deputy) Custodian

Administered by, sworn to,

and subscribed before me,

this ____ day of _____, 20__

Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. Any electronic ballot markers, ballot scanners, electronic poll books, ballot boxes and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The election management system computers shall not be moved or relocated for any purposes. Should it become necessary to relocate an election management system computer or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in advance in writing of the reason

AMERICAN OVERSIGHT

for the relocation and the proposed new location. The election management system shall not be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent. If an emergency arises causing the election management system to be moved, the election superintendent is responsible to notify the Secretary of State as soon as possible of the move.

4. The poll manager shall sign a receipt for components of the voting system assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All voting system components and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of any instances of unaccounted for components of the voting system as soon as possible.

7. The election superintendent shall perform an audit count of all voting system components housed and maintained by the jurisdiction on an annual basis. The results of the audit shall be submitted to the Secretary of State.

Authority: O.C.G.A. §§ 21-2-31, 21-2-379.6

**Rule 183-1-12-.07 Preparation for Elections.**

1. The election superintendent shall review the electronic databases used to generate ballots for correctness and accuracy in generating paper ballots and touchscreen displays.

2. Each ballot style and touchscreen display shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to check that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where

AMERICAN OVERSIGHT

applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style or touchscreen display.

3. For each office up for election, the paper ballot or touchscreen display shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5. In partisan elections, the paper ballot and touchscreen display shall designate the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

4. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

5. The election superintendent shall review the audio ballot prepared for use with the touchscreen display for voters with disabilities. The superintendent shall confirm that every section of the audio ballot is pronounced correctly. The election superintendent shall also confirm that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such audio recordings.

6. The Superintendent shall check that the memory cards used in the ballot scanner are formatted and contain no extraneous software or data prior to use in an election. The ballot scanner memory cards shall be named to indicate the polling place where they will be used. If more than one ballot scanner is to be used in a single polling place, the memory card name shall differentiate between the scanners.

Authority: O.C.G.A. §§ 21-2-31, 21-2-379.4, 21-2-379.5

**Rule 183-1-12-.08 Logic and Accuracy Testing.**

1. Primaries and Elections.

   a. On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the

AMERICAN OVERSIGHT

election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use on Election Day.

b. On or before the third day preceding the advance voting period, the election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use during the advance voting period. Voting system components that passed logic and accuracy testing for advance voting do not have to be re-tested for use on Election Day for the same election, unless there is a change in the programming or database used by the component.

c. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the voting system components for use in the primary or election will commence, and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing. Prior to a runoff election, the Superintendent shall prominently post notice of the date, time, and place of such testing at least 24 hours prior to its occurrence.

d. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the voting system components. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing, as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the voting system components.

2. In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

AMERICAN OVERSIGHT

a. Be available for the first hour of the first day of testing to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

b. Maintain a presence at all times during the preparation and testing process;

c. Administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

d. Establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however, the area should be of such nature so as to allow the preparation and testing process to proceed without interference with by the general public;

e. Allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

f. Prohibit any preparation and testing reports created for recording the seal numbers of voting system components from being disclosed to the public;

g. Prohibit the security seal numbers or other security measures of any voting system components from being disclosed to the public; and

h. Prohibit photographic and audio equipment of any kind, including cell phone cameras, from being used to record the security seal numbers or other measures used to secure any voting system components, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and other security measures on any voting system component are not recorded or displayed in any manner.

3. During the public preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners to be used in a particular primary or election, the election superintendent shall cause each electronic ballot marker and scanner to be programmed with the election

AMERICAN OVERSIGHT

files for the precinct at which the electronic ballot marker and ballot scanner unit will be used.

The superintendent shall cause the accuracy of the components to be tested by causing the following tasks to be performed:

A. Check that the electronic poll books accurately look up and check-in voters via both the scanning function and manual lookup and create a voter card that pulls up the correct ballot on the electronic ballot marker for every applicable ballot style.

B. Check that the touchscreen on the electronic ballot marker accurately displays the correct selections and that the touchscreen accurately reflects the selected choices.

C. Check that the printer prints a paper ballot that accurately reflect the choices selected on the touchscreen and immediately mark all printed paper ballots as “test” ballots.

D. Check that the ballot scanner scans the paper ballot, including both ballots marked by electronic ballot markers and ballots marked with a pen, and that the ballot scanner scans ballots regardless of the orientation the ballot is entered into the scanner.

E. Check that the tabulation contained in the ballot scanner memory card can be accurately uploaded to the election management system, and that the tabulated results match the selections indicated on the paper ballot.

If any component fails any of the testing, the component shall not be used in a primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the component shall be cleared of any vote totals collected during testing. A zero tape shall be run on the ballot scanner subsequent to successful testing, and the tape shall be attached to the custodian's certification form to document the logic and accuracy testing. The components shall then be sealed and securely stored for transfer to the polling place.

4. After the completion of Logic and Accuracy testing on any voting system component, each component shall be sealed and safely and securely stored until such time as the component is transported to the polling place in which such component is to be used. The zero tapes, results tapes, test ballots, and other paperwork shall be securely stored by the superintendent.

Authority: O.C.G.A. § 21-2-31

AMERICAN OVERSIGHT

**Rule 183-1-12-.09. Transport to Polls.**

1. The election superintendent shall take all necessary measures to cause the voting system components to be safely and securely transported to the polling places.

2. The election superintendent shall cause the voting system components for each polling place to be delivered to the polling place at least one hour before the time for the opening of the polls. The election superintendent shall cause magnifying devices to be made available at each polling place to assist voters in reviewing their paper ballots.

3. If the voting system components are stored at a polling place prior to the arrival of the poll manager or their designee, the election superintendent shall cause the components to remain stored in a locked, secure manner with appropriate climate control as described in Rule 183-1-12-.04.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.10 Before the Opening of the Polls.**

1. The poll officers shall set up and power on the voting system components for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the voting system components and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each voting system component is intact and that there is no evidence or indication of any tampering. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that component when such component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering, the election superintendent shall be immediately notified and such component shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. The poll manager shall check that the electronic poll books, electronic ballot markers, and ballot scanners all indicate zero counts prior to the opening of the polls.

4. The poll manager shall cause each ballot scanner in the polling place to run a zero tape prior to the start of voting. If the tape does not show zero votes prior to the start of voting, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. The poll manager and two witnesses who have been sworn as poll officers pursuant to O.C.G.A. §§ 21-2-94 and 21-2-95 shall sign the zero tape from the ballot scanner. The

AMERICAN OVERSIGHT

poll manager and those same two witnesses shall then confirm that the ballot box is empty. The Secretary of State shall develop a form to be signed by the poll manager and the two witnesses attesting that the ballot box was empty prior to the opening of the polls. Such form shall include the date and time it was executed, shall be attached to the zero tape generated by the ballot scanner attached to that ballot box, and shall be returned to the election superintendent with the polling place recap forms at the close of the polls. The ballot box shall then be securely locked and sealed. Once the ballot box is verified to have been empty and locked and sealed, no person shall access the inside of the ballot box while voting is occurring unless it is absolutely necessary to the functioning of elections. Any such access shall be by the poll manager and two witnesses who have been sworn as poll officers, and the poll manager and witnesses shall attest, on a form to be developed by the Secretary of State, to when and for what purpose the ballot box was accessed, and that no action was taken to affect the results of the election. That form shall also be returned to the election superintendent with the polling place recap form at the close of the polls.

6. The poll officers shall verify that there is no unauthorized matter affixed to any of the voting system components or present in the voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least one printed sample ballot and at least one voting instructions poster approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. At least one printed sample ballot and one voting instructions poster shall also be posted in the enclosed space. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the voting system that has been approved or provided by the Secretary of State. The poll officers shall also have a sufficient supply of sample ballots available should voters request to view them while voting or reviewing their ballot.

8. As near as possible to exit of the enclosed space in every polling place in a manner that is visible to voters as they exit the enclosed space, the poll manager shall post a sign that informs voters that ballots shall not be removed from the enclosed space.

Authority: O.C.G.A. § 21-2-31, 21-2-94, 21-2-95

**Rule 183-1-12-.11 Conducting Elections.**

1. As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the voting system, including specific verbal instruction to review their printed ballot prior to scanning it and that sample ballots and magnifying devices are available upon request to assist them in reviewing their paper ballot. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular candidate, political party, or political body, or for or against any particular question.

2. (a) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete

AMERICAN OVERSIGHT

a voter's certificate and submit it to the poll officers. The voter certificate may be an electronic or paper record. The poll officers shall verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters.

(b) A poll officer shall then issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot on the touchscreen or utilize the correct access code to manually bring up the correct ballot on the touchscreen. The voter shall then enter the enclosed space in the polling place and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen component, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll officer. Then the voter shall exit the enclosed area of the polling place.

(c) If an emergency situation makes utilizing the electronic ballot markers impossible or impracticable, as determined by the election superintendent, the poll officer shall issue the voter an emergency paper ballot that is to be filled out with a pen after verifying the identity of the voter and that the person is a registered voter of the precinct. Emergency paper ballots shall not be treated as provisional ballots, but instead shall be placed into the scanner in the same manner that printed ballots in the polling place are scanned. The election superintendent shall cause each polling place to have a sufficient amount of emergency paper ballots so that voting may continue uninterrupted if emergency circumstances render the electronic ballot markers or printers unusable. The poll manager shall store all emergency ballots in a secure manner and that all used and unused emergency ballots are accounted for. All unused emergency ballots shall be placed into a secure envelope and sealed such that the envelope cannot be opened without breaking such seal.

(d) If an emergency situation exists that makes voting on the electronic ballot markers impossible or impracticable, the poll manager shall alert the election superintendent as soon as possible. The existence of an emergency situation shall be in the discretion of the election supervisor. However, if a poll manager is unable to contact the election superintendent after diligent effort, the poll manager shall have the ability to declare that an emergency situation exists at the polling place. The poll manager shall continue diligent efforts to contact the election superintendent, and shall inform the superintendent as soon as possible of the situation at the polling place. The election superintendent, in his or her discretion, shall either overrule or concur with the declaration of emergency circumstances. While the determination of an emergency situation is in the discretion of the election superintendent, the types of events that may be considered emergencies are power outages, malfunctions causing a sufficient number of electronic ballot markers to be unavailable for use, or waiting times longer than 30 minutes.

3. At least once each hour during the time while the polls are open, the poll officers shall examine the enclosed space to verify that no unauthorized matter has been affixed to any

AMERICAN OVERSIGHT

voting system component or placed in the voting booth and that the voting system components have not been tampered with in any manner. Poll officers shall also check that no unattended ballots are left in the printer or anywhere in the enclosed space other than the appropriate ballot box. Any unattended ballots found in the enclosed space that do not belong to a voter currently in the enclosed space shall not be counted, but shall be secured and labelled as unattended ballots.

4. The polling place shall be arranged in such a manner as to provide for the privacy of the elector while voting and to allow monitoring of each voting system component by the poll officers while the polls are open. The electronic ballot markers and ballot scanners used in the polling place shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one electronic ballot marker configured for use by physically disabled electors at each advance voting location. In addition, at least one ballot marking device shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to provide for the privacy of such electors while voting.

5. It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card into the ballot marking device and in explaining the operation of the unit to the voter; provided that the poll officer shall withdraw from the voting booth prior to the voter making any selections. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote for any particular candidate, political party, or political body, or for or against any particular question.

6. Voters utilizing an audio tactile interface (ATI) device to vote on the ballot marking device without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409; however, if another person other than a poll officer is handling the printed ballot before it is inserted into the scanner, that person shall be considered as assisting.

7. The poll officers shall confirm that voters deposit their ballots and return the voter access cards to the poll officers prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling place and provide staffing at such places at the polling place to confirm that a voter will not leave the enclosed space with a ballot or voter access card.

8. The election superintendent shall cause each polling place to be sufficiently staffed and a poll officer to be stationed at every ballot scanner in use in the polling place while voting is occurring. The poll officer stationed at the ballot scanner shall offer instruction throughout the period while voting is occurring reminding voters to review their printed paper ballots, but shall take all reasonable precautions not to view the selections on an elector's ballots unless it is required due to assistance requested by the elector.

AMERICAN OVERSIGHT

9. A voter may request information from poll officers concerning how to use the electronic ballot marker or any other voting system component at any time during the voting process. However, once the voter scans his or her ballot into the ballot scanner, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again. If a voter leaves the room encompassing the enclosed space with his or her paper ballot and does not place that ballot into the appropriate ballot scanner or ballot box, that voter shall be deemed to have voted and may not thereafter vote again. A sign shall be placed at the exit of the enclosed space that informs every voter that ballots may not be removed from the enclosed space. Any paper ballot that is removed from the room encompassing the enclosed space shall not be counted and shall be marked as spoiled by a poll officer.

10. (a) If a voter discovers that the ballot presented on the electronic ballot marker is not correct or, for a partisan primary, is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the electronic ballot marker without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot and make any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters.

(b) If, while reviewing his or her printed ballot, the voter discovers that the printed ballot does not contain the proper ballot selections or that the voter was not issued the proper ballot, the voter shall immediately inform a poll officer. The poll officer shall spoil the paper ballot and take the necessary steps to allow the voter to make his or her selections again on the electronic ballot marker and cause the correct ballot to be issued.

(c) If the voter places his or her paper ballot into the ballot scanner or ballot box prior to notifying the poll officials of any errors in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot.

11. (a) If any voting system component malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the component until and unless the malfunction is corrected. The poll manager shall utilize appropriate backup procedures so that voting is not interrupted due to any equipment malfunctions. The election superintendent shall immediately arrange for the repair of the voting system component or shall provide a replacement component as soon as practicable. A replacement component shall not be used unless it has been appropriately tested prior to its use.

(b) In the event that a ballot scanner malfunctions, the voter shall place their voted ballot in the emergency bin connected to the ballot box. The ballots in the emergency bin shall be counted when the ballot scanner is properly functioning, by a replacement ballot scanner brought to the polling place, or, if neither are available, by another scanner at the county elections office. Poll officers may scan ballots placed into the emergency bin through the ballot scanner or a replacement ballot scanner when doing so will not interfere

AMERICAN OVERSIGHT

with voting. A voter placing his or her ballot into the emergency bin is considered to have voted that ballot and shall not be permitted to cast another ballot.

Authority: O.C.G.A. §§ 21-2-31, 21-2-409, 21-2-410

**Rule 183-1-12-.12 Tabulating Results.**

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager and two witnesses who have been previously sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall begin the closing procedure on each ballot scanner so that no further votes are cast and record the number of scanned ballots from every ballot scanner used in the polling place. The poll manager and the two witnesses shall record the number of scanned ballots from each scanner on a recap form to be developed by the Secretary of State. The poll manager and the two witnesses shall cause each ballot scanner to print three tapes of the tabulated results and shall sign each tape indicating that it is a true and correct copy of the tape produced by the ballot scanner. If the poll manager or the witnesses have reason to believe that printed tapes are not a true and correct tabulation of the ballots scanned by that ballot scanner, the poll manager or witness shall document the reasons and evidence for that belief and inform the election superintendent, who shall take appropriate action, in his or her discretion, so that the ballots in the ballot box associated with the ballot scanner are accurately tabulated.

2. The poll manager shall cause the number of printed ballots from each ballot marking device to be recorded on the recap form. The poll manager shall further cause the number of spoiled ballots and ballots placed in the emergency bin of the scanner that were unable to be scanned to be recorded on the recap form. The poll manager shall cause the total number of voter check ins from the electronic poll book and/or paper voter list to be recorded on the recap form. If the numbers recorded on the recap form do not reconcile with each other, the poll manager shall immediately determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken.

3. One of the three tapes of the tabulated results printed from the ballot scanner shall be affixed to the door of the polling place for the information of the public along with a copy of the provisional ballot recap form for the polling place. One tape shall be placed into an envelope (or reusable document storage container suitable for the same purposes) provided by the election superintendent, along with the "poll officer" memory card from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The poll manager and the two witnesses shall initial the envelope indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the

AMERICAN OVERSIGHT

number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the polling place recap form.

4. The poll manager and two witnesses who have been sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall unseal and open each ballot box, remove the paper ballots from each ballot box, and place the paper ballots into a durable, portable, secure and sealable container to be provided for transport to the office of the election superintendent. A separate container shall be used for the paper ballots from each ballot box and the container shall be labelled with the polling place, ballot scanner serial number, the number assigned to the ballot scanner for that election, the count of the ballots from the tabulation tape, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the poll manager and the same two witnesses such that it cannot be opened without breaking the seal. The poll manager and the two witnesses shall sign a label affixed to the container indicating that it contains all of the correct ballots from the indicated ballot box and no additional ballots.

5. The poll manager and the same two witnesses who emptied the ballot box shall complete and sign a form indicating that the ballot box was properly emptied and the ballots were properly stored and secured. Such form shall be delivered to the election superintendent with the completed polling place recap form. The ballot box shall be resealed and the new seal numbers shall be documented.

6. The envelopes containing the tabulation tape and the memory card, the containers containing the paper ballots, the completed polling place recap forms, voter access cards, supervisor's cards, electors lists, numbered lists of voters, electronic poll books, and other such paperwork shall be delivered to the election superintendent by the poll manager and at least one other sworn poll officer or law enforcement official. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials. The poll manager and any poll officers who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with. The election superintendent, in his or her discretion, may allow a designee of the poll manager to deliver the envelopes or containers containing the ballot scanner tabulation tapes and memory cards to be used for unofficial reporting of results prior to the delivery of the other polling place materials provided that the same procedures for transit and delivery set forth herein are followed.

7. Before leaving the polling place, the poll manager shall power off, secure, and seal all electronic ballot markers, ballot boxes, and ballot scanners. The polling place shall be locked to prohibit unauthorized entry.

(b) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards shall be

AMERICAN OVERSIGHT

sworn in the same manner that custodians are sworn before entering into their duties.

2. Only persons who are permanent employees of the election superintendent or have been duly sworn as poll officers or custodians shall touch or be in contact with any ballot, container, returns, tapes, device, memory card, or any other such election materials. Only persons who are employed by the election superintendent or have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center so that the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of any election materials from a polling place, the election superintendent or his or her designee shall provide a receipt that clearly states what election materials have been delivered.

5. Upon receiving the paper ballots and the memory cards, the election superintendent shall verify the signatures on the sealed envelopes and containers, verify that the seals are intact, that the envelopes or containers have not been opened, and that there is no evidence of tampering with the envelopes, containers, or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes and containers are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card and results tape. The election superintendent or his or her designee shall then insert the memory card into the election management system computer and transfer the vote totals from the memory card into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards to the election management system and consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated returns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

AMERICAN OVERSIGHT

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within fourteen days following a primary, election, or runoff.

(c) Election Night Reporting. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon prior notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

Authority: O.C.G.A. §§ 21-2-31, 21-2-94, 21-2-95

**Rule 183-1-12-.13 Storage of Returns.**

(a) After tabulating and consolidating the results, the election superintendent shall prepare an electronic file which shall contain a copy of the information contained on each memory card which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The electronic file shall be stored on a secure medium which shall be placed in a sealed envelope or container and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each ballot scanner and the corresponding paper ballots shall also be deposited with the clerk of superior court.

(c) The memory cards shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards for programming ballot scanners units for the next primary, election, or runoff.

Authority: O.C.G.A. §§ 21-2-31, 21-2-500

AMERICAN OVERSIGHT

**Rule 183-1-12-.14 Maintenance of Equipment.**
(a) Each county shall be responsible for maintaining all components of the voting system, including electronic ballot markers, printers, ballot scanners, electronic poll books, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a warranty/maintenance agreement for such equipment and software or shall assume the responsibility for repair, maintenance, and upkeep of all system components.

(b) In the event of any malfunction or problem with any voting system component, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.15 Use of Equipment by Municipalities.**
The county election superintendent is authorized to permit any municipality within the county to conduct its election with electronic ballot markers, printers, ballot scanners, and other components of the statewide voting system through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll officers in the proper operation and conduct of elections utilizing such equipment through an appropriate training program approved by the Secretary of State.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.16 Demonstrations of Voting Equipment**
When being used for demonstration and voter education purposes, electronic ballot markers and ballot scanners shall not utilize or be programmed with the official ballot to be used in the primary or election. The device shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

Authority: O.C.G.A. § 21-2-31

**Rule 183-12-.17 Tabulating Center Personnel, Trained and Certified**
All tabulating center personnel must be trained in their respective duties and certified as required by O.C.G.A. § 21-2-99 for poll officers. All programmers, operators, and data center personnel shall be sworn as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 for poll officers.

AMERICAN OVERSIGHT

Authority: O.C.G.A. §§ 21-2-31, 21-2-94, 21-2-95, 21-2-99

**Rule 183-12-.18 Provisional Ballots**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§ 21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The election superintendent shall also be prepared to resupply polling places with provisional ballots in needed ballot styles in a timely manner while voting is occurring so that polling places do not run out of provisional ballots. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. The poll manager shall cause all voted provisional ballots to be deposited into the provisional ballot box and not be inserted into the polling place ballot scanner and kept separate and apart from non-provisional ballots case at the polling place. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the polling place shall have an electronic poll book that includes a mastered list of registered voters in the state, and the poll workers shall check the list to determine if the person is assigned to a different polling place within the county or registered in a different county. If the person's name appears on the master list for a different precinct within the same county, the poll workers shall inform the person of his or her correct polling place. The person shall be instructed to go to his or her correct polling place if practicable, but that if it is not practicable for the person to get to his or her correct polling place before the close of polls, that the person may vote a provisional ballot in the polling place in which they are present. If, after receiving that instruction,

AMERICAN OVERSIGHT

the person states that it is not practicable for him or her to get to their correct polling place prior to the close of voting, the poll officer shall offer the person a provisional ballot. If the person is registered in a different county, the poll officer shall inform the person that he or she appears to be registered in a different county. If the person is still eligible to vote in the county in which they appear to be registered, the person may return to that county to vote. If the person states a good-faith belief that he or she timely registered to vote in the county in which he or she is present, he or she shall be offered a provisional ballot.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote in the county in which he or she is present.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the precinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by 0.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct within the same county where the person is present, the registrars shall direct the poll officers to inform the person of the appropriate other precinct and the registrars shall notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417. the person shall be permitted to vote in the same manner as other persons in such other precinct. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct in which the person

AMERICAN OVERSIGHT

is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21·2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall inform the poll officers and the person shall be offered a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county at which the person is present, the registrars shall direct the poll officers to inform the person of the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter registration form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. § 21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2·419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to receive a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

AMERICAN OVERSIGHT

(i) Upon accepting the opportunity to receive a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an Inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope or reusable document container which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. § 21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. § 21- 2-220. the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person. the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer

AMERICAN OVERSIGHT

envelope. The person shall then retire to the provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. § 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person, by email, by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter registration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the ballot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure

AMERICAN OVERSIGHT

container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220. the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officer, along with two other witnesses sworn as poll officers, shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officer and witnesses shall then compare the

AMERICAN OVERSIGHT

total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another. the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officer and witnesses shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall cause the envelope containing the provisional ballot voter's certificates and voter registration cards to be promptly removed from the other materials and, if applicable, transferred to the registrars for processing. If applicable, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(a) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(b) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(c) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(d) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the

AMERICAN OVERSIGHT

registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(e) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word “Duplicate" and shall bear the name of the precinct and the same unique identifying number as the original ballot at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff.

AMERICAN OVERSIGHT

The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as "Not Counted" and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13) Upon identifying the rejected provisional ballot electors, the registrars shall proceed fil the earliest possible time to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. The registrars shall also attempt to notify the person by telephone or email if the provisional ballot voter certificate contains an email address or telephone number. If the person's voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(a) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(b) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2·226(d).

(c) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

Authority: O.C.G.A. §§ 21-2-31, 21-2-,226, 21-2-417, 21-2-418, 21-2-419, 21-2-420

AMERICAN OVERSIGHT

**Rule 183-1-12-.19 Preparation of the Electors List and Use of Electronic Poll Book**

(1) Election superintendents shall cause each polling place to be equipped with an appropriate number of electronic poll books within the county during primaries, elections, and runoffs. Electronic poll books shall be the primary method for checking in voters and creating voter access cards, but the superintendent shall cause every polling place to be equipped with a paper backup list of every registered voter assigned to that polling place. The paper backup list shall be used in case the electronic poll books do not properly function. The superintendent shall cause poll workers to be adequately training checking in voters on both electronic poll books and paper backup list.

(2) The county election superintendent shall maintain each electronic poll book device, and all components in a secure location as provided for in Rule .183·1-12-.04 and 183-1-12-.05.

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of all such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the Selection management system database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the election management system database that occur after the process for programing the electronic poll books has begun.

(7) During the period in which election system components are tested and prepared prior to delivery to polling places, the election superintendent shall cause each electronic poll book to undergo logic and accuracy testing. Each electronic poll book must pass such logic and accuracy test prior to being delivered to a polling place. The election superintendent or registrars shall verify the information contained on the electronic poll books prior to delivering the units to polling places.

(8) Prior to delivery to a polling place, the election superintendent or registrars shall cause the electronic poll books to accurately mark all persons who have been issued or cast absentee ballots in the election.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the electronic poll books with the other election materials from the polling place to the election superintendent. The registrars and election superintendent shall inform the

AMERICAN OVERSIGHT

Secretary of State of all voters who cast ballots in each primary election or runoff in a format to be determined by the Secretary of State and in the same time period as the official election returns.

(10) For electors whose names are added to the voter registration rolls after the preparation of the electronic poll books, the registrars shall provide a printed supplemental list for use at the affected polling places.

Authority: O.C.G.A. § 21-2-31

**Rule 183-1-12-.20 Use of Emergency Paper Absentee Ballots When Voting Machines are Inaccessible**

Emergency paper ballots shall be offered to and may be used by persons with disabilities in non-emergency situations if the electronic ballot marker are inaccessible.

Authority: O.C.G.A. § 21-2-31

**NOTICE OF INTENT TO POST A RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-14, *RULES OF STATE ELECTION BOARD*, RULE 183-1-14-.02 *ADVANCE VOTING*, RULE 183-1-14-.11 *MAILING AND ISSUANCE OF BALLOTS*, RULE 183-1-14-.12 *ELGIBILIGTY OF APPLICATION FOR ABSENTEE BALLOT*, 183-1-14-.13 *PROMPT NOTIFICATION OF ABSENTEE BALLOT REJECTION* AND NOTICE OF PUBLIC HEARING.**

TO ALL INTERESTED PERSONS AND PARTIES:

Notice is hereby given that pursuant to the authority set forth below, the Georgia State Election Board, (hereinafter "SEB") proposes to post an SEB rule, Rule 183-1-14-.02 *Advanced Voting, Rule 183-1-14-*.11 *Mailing and Issuance of Ballots*, Rule 183-1-14-.12 *Eligibility of Application for Absentee Ballot*, Rule 183-1-14-.13 *Prompt Notification of Absentee Ballot Rejection* (hereinafter "proposed rule").

This notice, together with an exact copy of the proposed new rule and a synopsis of the proposed rule, is being distributed to all persons who have requested, in writing, that they be placed on a distribution list. A copy of this notice, an exact copy of the proposed rule amendment, and a synopsis of the proposed rule amendment may be reviewed during normal business hours of 8:00 a.m. to 5:00 p.m. Monday through Friday, except official state holidays, at the Office of the Secretary of State, Elections Division, 2 Martin Luther King Jr. Drive, S.E., 8th Floor West Tower, Atlanta, Georgia 30334. These documents will also be available for review on the State Election Board's web page at https://sos.ga.gov/index.php/elections/state_election_board. Copies may also be requested by contacting the Elections Division at 404-656-2871.

To provide the public an opportunity to comment upon and provide input into the proposed rule amendment, a public hearing will be held on:

January 22, 2020
9:00 a.m.
2 Martin Luther King Jr. Dr. SE
18th Floor, West Tower
Room 1816
Atlanta, GA 30334

At the public hearing anyone may present data, make a statement, comment or offer a viewpoint or argument whether orally or in writing. Oral statements should be concise and will be limited to 3 minutes per person. Additional comments should be presented in writing. Lengthy statements or statements of a considerable technical or economic nature, as well as previously recorded messages, must be submitted for the official record on or before January 13, 2020 to the below address for written comments. Written comments must be received on or before January 13, 2020 and be addressed to Jasmine Shannon by mail to Office of the Secretary of State, Elections Division, 2 Martin Luther King Jr. Drive, S.E., 8th Floor West Tower, Atlanta, Georgia 30334 or by email to jshannon@sos.ga.gov.

AMERICAN OVERSIGHT

The State Election Board will consider the proposed rule at a meeting scheduled to begin at 9:00 a.m. on January 22, 2020 at 2 MLK Jr. Dr. SE, 18th Floor, West Tower, Room 1816, Atlanta, Georgia 30334.

This notice is given in compliance with O.C.G.A. §50-13-4.

This 19th day of December, 2019.

Brad Raffensperger
Chairman, State Elections Board

Posted: December 19, 2019

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-14, *RULES OF STATE ELECTION BOARD*, RULE 183-1-14-.02 *ADVANCE VOTING*, RULE 183-1-14-.11 *MAILING AND ISSUANCE OF BALLOTS*, RULE 183-1-14-.12 *ELGIBILIGTY OF APPLICATION FOR ABSENTEE BALLOT*, 183-1-14-.13 *PROMPT NOTIFICATION OF ABSENTEE BALLOT REJECTION***

Purpose: The purpose of the rule is to revise the procedures for advance and absentee voting to be consistent with the requirements of the updated laws and new voting system.

Main Features: The main feature of the rule is to update the procedures for absentee voting to comply with Georgia law and to conform to the new components of the voting system. Rule 183-1-14-.02 is being revised to instruct election officials on how to conduct advance voting using the new voting equipment. Rule 183-1-14.11 is being revised to clarify the processes for mailing and issuing absentee and provisional ballots. Rule 183-1-14-.12 is being revised to advise persons or entities on how to properly format and process absentee ballot applications. Rule 183-1-14-.13 is being created to ensure that election officials promptly notify electors when their absentee ballots have been rejected.

**DIFFERENCES BETWEEN THE EXISTING RULE AND THE PROPOSED AMENDMENTS OF THE STATE ELECTION BOARD, CHAPTER 183-1-14, *RULES OF STATE ELECTION BOARD*, RULE 183-1-14-.02 *ADVANCE VOTING*, RULE 183-1-14-.11 *MAILING AND ISSUANCE OF BALLOTS*, RULE 183-1-14-.12 *ELGIBILIGTY OF APPLICATION FOR ABSENTEE BALLOT*, RULE 183-1-14-.13 *PROMPT NOTIFICATION OF ABSENTEE BALLOT REJECTION***

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added.

**RULE 183-1-14-.02 Advance Voting**

(1) Counties and municipalities ~~are authorized to use DRE units~~ shall use electronic markers and ballot scanners for in-person absentee ~~balloting in accordance with the Georgia Election Code (O.C.G.A. Ch. 21-2) and these rules~~ voting during the advance voting period. As used in this rule, the term "registrar" or "registrars" ~~shall include~~ means a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, ~~and~~ or the designee of a~~ny~~ board of registrars, board of elections and registration, or joint county-municipal board of elections and registration. ~~The election superintendent and registrars shall by agreement determine the type of election equipment to be used in such election for in-person absentee voting and for absentee voting by mail or other legally appropriate means in which the ballot is sent or delivered to a voter for voting away from the office of the registrars.~~

(2) The registrar shall publish the times, dates. and locations of the availability of advance voting in their jurisdiction on a publicly accessible website, or if the registrar does not have a website. in a newspaper of general circulation or by posting in a prominent location in the county, no later than 7 days prior to the beginning of the advance voting period. Any additional advance voting locations added after that deadline shall be published as soon as possible. The registrar shall endeavor not to remove or alter any advance voting locations after they are published, but if emergency or unforeseen circumstances make such a change necessary, the registrar shall publish those changes as soon as possible.

(~~2~~3) ~~DRE units~~ Electronic ballot markers and ballot scanners shall be configured and tested in accordance with the provisions of Rule 183-1-12-.0~~2~~8 prior to use in ~~absentee balloting~~ advance voting. Public notice of the time and place for such configuration and testing of the ~~DRE units~~ electronic ballot markers and ballot scanners to be used for ~~absentee balloting~~ advance voting shall be given in accordance with O.C.G.A. § 21-2-37~~9.6~~4 and 21-2-379.25 and Rule 183-1-12-.0~~2~~8 prior to such configuration and testing.

(~~3~~4) The ~~DRE units~~ electronic ballot markers and ballot scanners to be used for ~~in-person absentee~~ advance voting shall be set up in a manner to assure the privacy of the

AMERICAN OVERSIGHT

elector while casting his or her ballot while maintaining the security of such ~~units~~ components against tampering, damage, or other improper conduct. In addition, there shall be at least one ~~DRE unit~~ electronic ballot marker configured for use by physically disabled electors~~.~~ at each advance voting location.

(~~4~~5) Voter access cards for use in ~~DRE units~~ electronic ballot markers for ~~in-person absentee balloting~~ advance voting may be encoded by use of ~~ballot encoder devices, DRE units specifically and exclusively set up for that purpose, or by use of the VCProgrammer software on appropriate computers.~~ an electronic poll book or other device approved by the Secretary of State. The registrar may also utilize the correct access code to manually bring up the correct ballot on the touchscreen.

(~~5~~6) ~~Each DRE unit to be used for in-person absentee voting shall be programmed so as to permit the challenging of ballots in accordance with law and the removal of such ballots from the count if such challenges are sustained by the registrars.~~ Magnifying devices shall be available at advance voting locations to assist voters in reviewing their paper ballots.

(~~6~~7) On the first day of the ~~absentee~~ advance voting period, prior to any votes being cast on ~~the DRE units~~ ballot scanners, the registrars shall verify that the seals for each ~~DRE unit~~ electronic ballot marker, ballot scanner, and ballot box ~~is~~ are intact and that there is no evidence or indication of any tampering with the seal or the ~~unit~~ component. The registrar~~s~~ shall verify that the number of the seal matches the number of the seal recorded for that ~~unit~~ component when such ~~unit~~ component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or ~~unit~~ component, the ~~Secretary of State and the~~ election superintendent shall be immediately notified and such ~~unit~~ component shall not be used until such matters are resolved by agreement of the ~~Secretary of State, the~~ election superintendent~~,~~ and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the ~~DRE units~~ voting system components and to prevent interference with the duties of the registrars~~, except that the public view shall not be obstructed~~. The registrars and two witnesses sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall run a zero tape on each ~~DRE unit~~ ballot scanner prior to the beginning of a~~bsentee~~ advance voting on ~~such units.~~ those scanners, and ~~T~~the registrar~~s~~ and the two witnesses shall sign the zero tape in the space provided. The registrars shall~~, without removing the tape from the unit,~~ verify that ~~all vote registers shown on~~ the electronic ballot markers and ballot scanners all indicate zero counts prior to the opening of the polls.~~ tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided.~~ If the ~~zero~~ tape does not show ~~that all~~ zero vote~~s~~ ~~registers are set to zero and that there are votes on the unit~~ prior to the start of voting, the election superintendent shall be immediately notified and such ~~unit~~ component shall not be used until the ~~unit~~ component is cleared and the matter is resolved by agreement of the election superintendent and the registrars. ~~After verifying and signing the zero tape, t~~The registrar~~s~~ and the same two sworn witnesses who signed ~~shall securely lock the tape~~

AMERICAN OVERSIGHT

~~compartment leaving~~ the zero tape ~~in place on the unit and~~ shall inspect and confirm that the ballot box associated with that scanner is empty and contains no ballots or other unauthorized matter, and ~~configure the unit for voting. The registrars~~ shall verify that ~~the election counter on each DRE unit is set at zero~~ fact in writing on a form to be developed by the Secretary of State. ~~If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars.~~ Such form shall include the date and time it was executed, shall be attached to the zero tape generated by the ballot scanner attached to that ballot box, and shall be returned to the election superintendent at the close of the advance voting period with the other paperwork from the voting location. The registrars shall verify that there is no unauthorized matter affixed to the ~~DRE units or present in the cases~~ electronic ballot markers, ballot scanners, or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting ~~on the DRE unit~~ that has been approved or provided by the Secretary of State. ~~Each DRE unit shall be clearly marked with a unique designation that is visible on the exterior of the unit.~~

(~~7~~8) ~~If a DRE unit is to be used for the creation of voter access cards, such DRE unit shall be set up properly for such purpose and shall be used exclusively for such purpose and no other purpose during the absentee voting period. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE unit and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed.~~If at the close of voting on any day during the advance voting period, there are more than 1,500 ballots inside any ballot box, the registrar and two sworn witnesses shall unseal the ballot box, remove the paper ballots, and place the ballots in one or more durable, portable, secure, and sealable containers. The registrars shall ~~run a zero tape on the DRE unit prior to creating any voter access cards on such unit.~~ complete and affix to each container a form identifying the advance voting location, the advance voting dates that the ballots were cast, the ballot scanner serial number, the number assigned to that ballot scanner for that specific election, the count of the ballots from the ballot scanner, and the date and time that the ballot box was emptied. ~~The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for the creation of voter access cards. The registrars shall verify that the election counter on the unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars~~

AMERICAN OVERSIGHT

~~shall make a notation of the election counter reading on the daily recap sheet.~~ The container shall be sealed and signed by the registrar and the two witnesses such that it cannot be opened without breaking the seal. The ballot box shall be resealed, and the new seal numbers shall be documented. The registrar and at least one sworn witness shall deliver the ballot container to the election superintendent for secured storage until time for the tabulation of votes, and the election superintendent shall complete a chain of custody form indicating the delivery of the secure container. The form shall be signed by the registrar and any witnesses who travelled with the registrar indicating that no sealed documents were unsealed enroute and have not been tampered with. In the discretion of the registrar, the same procedure for emptying the ballot box may be followed if there are less than 1,500 ballots in the ballot box at the end of any advance voting day, but the ballot box shall not be opened while voting is taking place except as authorized by Rule 183-1-12-.10(5).

(~~8~~9) At the close of ~~business~~ voting each day during the ~~absentee~~ advance voting period, the registrars shall document the election counter number from the ballot scanner on the daily recap sheet. ~~Each DRE unit used for in-person absentee voting shall then be turned off and closed.~~ The memory cards ~~(PCMCIA card)~~ shall remain in the ~~unit~~ ballot scanner at all times during the ~~absentee balloting~~ advance voting period until the polls close on the day of the primary, election, or runoff. Each ~~DRE unit~~ electronic ballot marker, ballot scanner, ballot box, electronic poll book, paper backup poll book, and voter access cards shall then be ~~sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each DRE unit shall then be secured overnight. In addition, all voter access cards shall be~~ secured~~ly stored~~ overnight. ~~and when not in use. If a DRE unit is used to program voter access cards, the registrars shall make a notation of the election counter number on the daily recap sheet. If such number is not zero, the registrars shall notify the Secretary of State immediately and shall ascertain the reason for the discrepancy and shall make a notation of such discrepancy and the reason for it on the daily recap sheet. Such DRE unit shall not be used for creation of voter access cards unless and until the unit is fully tested and reconfigured and the election counter reset at zero pursuant to procedures established by the Secretary of State. The DRE unit shall be turned off and secured for the night.~~ If the room where advance voting is taking place cannot be locked and secured overnight in the reasonable judgment of the superintendent, the superintendent shall cause the voting system components to be stored in a locked, secure container that is reasonably affixed to the polling place; be under visual surveillance of an election official or their designee, a licensed security guard, or a law enforcement official; or if, if the previously listed options are not feasible, in another manner that in the reasonable judgment of the superintendent secures and protects the voting system components from unauthorized access. Any electronic visual surveillance used for security when voting is not taking place shall not record, capture, or otherwise compromise the privacy of an elector's ballot.

(~~9~~10) Each morning during the ~~absentee balloting~~ advance voting period prior to voting beginning, the registrars shall ~~publicly~~ verify the seal numbers on each ~~DRE unit~~ electronic ballot marker and ballot scanner to be used for ~~absentee~~ advance voting with the number of the seal recorded on the daily recap sheet from the previous day of

AMERICAN OVERSIGHT

~~absentee~~ advance voting and shall verify that the seals ~~and DRE unit~~ do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the ~~DRE unit~~ electronic ballot markers and ballot scanners shall be ~~opened and~~ turned on. If the numbers do not match or there is evidence of tampering, the ~~Secretary of State~~ election superintendent shall be notified immediately and the ~~unit~~ component shall not be used until such discrepancy is resolved to the satisfaction of ~~the Secretary of State,~~ the election superintendent~~,~~ and the registrars. After ~~opening and~~ turning on the ~~unit~~ ballot scanners, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of ~~absentee~~ advance voting. If the numbers do not match, the ~~Secretary of State~~ election superintendent shall be immediately notified and the ~~unit~~ component shall not be used until such discrepancy is resolved to the satisfaction of ~~the Secretary of State,~~ the election superintendent~~,~~ and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day. ~~If a DRE unit is to be used for programming voter access cards, the registrars shall open and turn on the power for such unit. The registrars shall then verify that the election counter is set on zero. If the election counter is not set at zero, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. A notation shall be made on the daily recap sheet of the election counter number and the unit shall be configured to create voter access cards.~~

(11~~0~~) Voters who vote absentee ballots in person ~~on the DRE units~~ shall first complete an absentee ballot application and sign an oath, ~~document.~~ which may be on the same form and may be on paper or digital. After the registrars determine that the voter is eligible to vote ~~by absentee ballot~~, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. Each voter shall be offered instruction by a registrar in the method of voting on the voting system, including specific instruction to review their printed ballot prior to scanning it. In providing such instruction, the registrar shall not in any manner request, suggest, or seek or persuade or induce any voter to vote any particular ticker or for any particular candidate, or for or against any particular question. The voter shall then be issued a voter access card programmed with the correct ballot style or the registrar shall use the correct access code to manually bring up the correct ballot on the electronic ballot marker. ~~The registrars shall record on the absentee voter log the voter's name, registration number, voter ID number, and designation of the DRE unit on which the voter shall vote.~~ The voter shall then ~~be permitted to vote on the designated DRE unit. After completing voting, the voter shall return the voter access card to the registrars~~. enter the enclosed space in the advance voting location and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen unit, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll worker.

(12~~1~~) ~~At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrars shall record the election counter number on the daily recap sheet.~~ The registrar~~s~~ shall ~~publicly configure the DRE units~~

AMERICAN OVERSIGHT

~~used for absentee voting to end the election and prevent further voting on the units. The units shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The units shall then be secured until time for the tabulation of votes. For the DRE unit used for the creation of voter access cards, such unit shall be secured and returned to the election superintendent. Two zero tapes shall be printed and signed by the registrars confirming that all vote counters are set at zero. The memory card (PCMCIA cards) from the units used for the creation of voter access cards shall be removed from the units and placed along with the signed zero tapes in a sealed envelope which shall be returned to the election superintendent.~~ cause each advance voting location to be sufficiently staffed and a poll worker is to be stationed at every ballot scanner in use in the polling place while voting is occurring. The poll officer stationed at the ballot scanner shall offer instruction throughout the period while voting is occurring reminding voters to review their printed paper ballots, but shall take all reasonable precautions not to view the selections on an elector's ballot unless it is required by assistance requested from the elector.

(13~~2~~) At the ~~close of the polls on the day of the primary, election, or runoff,~~ end of the advance voting period, the registrar~~s~~ shall record the election counter number from each ballot scanner on the daily recap sheet. ~~deliver all of the DRE units used for in-person absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal number of each DRE unit with the number recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. After verifying the seal number and the integrity of the seal on each unit, the poll managers shall open each unit and turn on the power for the unit. The managers shall then compare the numbers shown on the election counters of the unit with the numbered list of absentee electors, the absentee voter log, and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The managers of the absentee ballot precinct shall accept or reject absentee ballots cast on DRE units as directed by the registrars, using the procedures established by the Secretary of State. After completion of the acceptance and rejection process for the absentee ballots cast on the DRE units, the poll manager shall cause each DRE unit to print a minimum of three tapes showing the vote totals as cast on that DRE unit. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each DRE unit shall be posted on the door of the absentee ballot precinct for the~~

AMERICAN OVERSIGHT

~~information of the public. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The DRE units shall then be placed in a secure area with appropriate climate control. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.~~ The ballot scanners shall be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The registrar and two sworn witnesses shall unseal the ballot box, remove the paper ballots, and place the ballots in one or more durable, portable, secure, and sealable containers. The registrars shall complete and affix to each container a form identifying the advance voting location, the advance voting dates that the ballots were cast, ballot scanner serial number, the number assigned to that ballot scanner for that specific election, the count of the ballots from the ballot scanner, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the registrar and the two witnesses such that it cannot be opened without breaking the seal. The ballot box shall be resealed, and the new seal numbers shall be documented. The registrar and at least one sworn witness shall deliver the ballot container to the election superintendent for secured storage until time for the tabulation of votes, and the election superintendent shall complete a chain of custody form indicating the delivery of the secure container. The form shall be signed by the registrar and any witnesses who travelled with the registrar indicating that no sealed documents were unsealed enroute and have not been tampered with. The ballot scanners and ballot containers shall then be secured until time for the tabulation of votes.

(14~~3~~) ~~Any notices to the Secretary of State about discrepancies in numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has initiated an investigation of the matter.~~ By the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the ballot scanners used for advance voting and all other absentee ballots received to the election superintendent or the tabulating center. The election superintendent or tabulating center personnel shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The election superintendent or tabulating center personnel shall verify the seal numbers of each ballot scanner with the numbers recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State and the election superintendent shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the discrepancy has been determined to the satisfaction of the election superintendent.

AMERICAN OVERSIGHT

(15) After verifying the seal number and the integrity of the seal on each ballot scanner, the election superintendent or tabulating center personnel shall open each ballot scanner and turn on the power. The election superintendent or tabulating center personnel shall then compare the numbers shown on the election counters of the ballot scanners with the numbered list of absentee electors and the absentee ballot recap form to verify that there are no discrepancies. If there is a discrepancy, no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the election superintendent. The election superintendent or tabulating center personnel shall cause each ballot scanner to print a minimum of three tapes showing the vote totals as cast on that ballot scanner. Three witnesses shall sign each of the tapes or shall write on the tapes the reason why they will not sign the tapes. One copy of the results tape for each ballot scanner shall be made available for the information of the public. One tape shall be placed into an envelope (or reusable document storage container suitable for the same purpose), provided by the election superintendent along with “poll worker" memory cards from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The envelope shall be initialed by the poll manager and the two witnesses indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the absentee ballot recap form.

(16) After completing the printing of the results, the ballot scanner shall be turned off, secured, and resealed. The ballot scanners shall then be placed in a secure area with appropriate climate control. The envelopes containing the memory cards and results tapes, voter access cards, poll worker cards, ballot encoder devices, numbered lists of absentee voters, absentee ballot recap forms, and other such paperwork shall be transported to the office of the election superintendent by the election superintendent or tabulating center personal, which transportation shall at all times involve at least two authorized individuals. The office of the election superintendent shall receive the materials and shall document delivery. The election superintendent or tabulating center personal who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with.

(17) Any notices to the Secretary of State about discrepancies in numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has initiated an investigation of the matter.

Authority: O.C.G.A. §§ 21-2-31, 21-2-385

AMERICAN OVERSIGHT

**RULE 183-1-14-.11 Mailing and Issuance of Ballots**

During early voting, as additional applicants for absentee ballots are determined to be eligible, the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots or provisional absentee ballots, if appropriate, to such additional applicants immediately upon determining their eligibility. The board or clerk shall make such determination and mail or issue official absentee ballots; provisional absentee ballots, if appropriate, or notices of rejection of absentee ballot applications to such additional ~~eligible~~ applicants within 3 business days after receiving the absentee ballot applications.

Authority: O.C.G.A. §§ 21-2-31, O.C.G.A § 21-2-384

**RULE 183-1-14-.12 Eligibility of Application for Absentee Ballot**

(1) The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

(a~~1~~). In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.

(b~~2~~). In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

(2) Any person or entity, except an election superintendent or registrar, that creates an application for absentee ballot form for an elector, other than the elector themselves, shall ensure that the absentee ballot form is substantially in the same form as the application for absentee ballot form made available by the Secretary of State. Such person or entity shall also clearly disclose on the face of the application for absentee ballot form that they created the application for absentee ballot form. Any nonconforming application for absentee ballot shall still be processed if it meets the legal requirements of O.C.G.A. § 21-2-381(a).

Authority: O.C.G.A. §§ 21-2-31, O.C.G.A § 21-2-381

AMERICAN OVERSIGHT

**RULE 183-1-14-.13 Prompt Notification of Absentee Ballot Rejection**

When a timely submitted absentee ballot is rejected, the board of registrars or absentee ballot clerk shall notify the elector by mailing written notice no later than the close of business on the third business day after receiving the absentee ballot. However, for any timely submitted absentee ballot that is rejected after the close of the advance voting period, the board of registrars or absentee ballot clerk shall notify the elector by mailing written notice no later than 3:00 PM on the next business day. The board of registrars or absentee ballot clerk shall also attempt to notify the elector by email and telephone within the same time requirements if an email or telephone number is on the elector's voter registration record.

Authority: O.C.G.A. §§ 21-2-31, O.C.G.A § 21-2-386

AMERICAN OVERSIGHT

## COPY OF THE PROPOSED NEW RULE

### RULE 183-1-14-.02 Advance Voting

(1) Counties and municipalities shall use electronic markers and ballot scanners for in-person absentee voting during the advance voting period. As used in this rule, the term “registrar” or "registrars" means a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, or the designee of a board of registrars, board of elections and registration, or joint county-municipal board of elections and registration.

(2) The registrar shall publish the times, dates. and locations of the availability of advance voting in their jurisdiction on a publicly accessible website, or if the registrar does not have a website. in a newspaper of general circulation or by posting in a prominent location in the county, no later than 7 days prior to the beginning of the advance voting period. Any additional advance voting locations added after that deadline shall be published as soon as possible. The registrar shall endeavor not to remove or alter any advance voting locations after they are published, but if emergency or unforeseen circumstances make such a change necessary, the registrar shall publish those changes as soon as possible.

(3) Electronic ballot markers and ballot scanners shall be configured and tested in accordance with the provisions of Rule 183-1-12-.08 prior to use in advance voting. Public notice of the time and place for such configuration and testing of the electronic ballot markers and ballot scanners to be used for advance voting shall be given in accordance with O.C.G.A. § 21-2-374 and 21-2-379.25 and Rule 183-1-12-.08 prior to such configuration and testing.

(4) The electronic ballot markers and ballot scanners to be used for advance voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such components against tampering, damage, or other improper conduct. In addition, there shall be at least one electronic ballot marker configured for use by physically disabled electors. at each advance voting location.

(5) Voter access cards for use in electronic ballot markers for advance voting may be encoded by use of an electronic poll book or other device approved by the Secretary of State. The registrar may also utilize the correct access code to manually bring up the correct ballot on the touchscreen.

(6) Magnifying devices shall be available at advance voting locations to assist voters in reviewing their paper ballots.

(7) On the first day of the advance voting period, prior to any votes being cast on ballot scanners, the registrars shall verify that the seals for each electronic ballot marker, ballot scanner, and ballot box are intact and that there is no evidence or indication of any

AMERICAN OVERSIGHT

tampering with the seal or the component. The registrars shall verify that the number of the seal matches the number of the seal recorded for that component when such component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or component, the election superintendent shall be immediately notified and such component shall not be used until such matters are resolved by agreement of the election superintendent and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the voting system components and to prevent interference with the duties of the registrars. The registrars and two witnesses sworn as poll officers as provided in O.C.G.A. §§ 21-2-94 and 21-2-95 shall run a zero tape on each ballot scanner prior to the beginning of advance voting on those scanners, and the registrar and the two witnesses shall sign the zero tape in the space provided. The registrars shall verify that the electronic ballot markers and ballot scanners all indicate zero counts prior to the opening of the polls. If the tape does not show zero votes prior to the start of voting, the election superintendent shall be immediately notified and such component shall not be used until the component is cleared and the matter is resolved by agreement of the election superintendent and the registrars. The registrar and the same two sworn witnesses who signed the zero tape shall inspect and confirm that the ballot box associated with that scanner is empty and contains no ballots or other unauthorized matter, and shall verify that fact in writing on a form to be developed by the Secretary of State. Such form shall include the date and time it was executed, shall be attached to the zero tape generated by the ballot scanner attached to that ballot box, and shall be returned to the election superintendent at the close of the advance voting period with the other paperwork from the voting location. The registrars shall verify that there is no unauthorized matter affixed to the electronic ballot markers, ballot scanners, or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting that has been approved or provided by the Secretary of State.

(8) If at the close of voting on any day during the advance voting period, there are more than 1,500 ballots inside any ballot box, the registrar and two sworn witnesses shall unseal the ballot box, remove the paper ballots, and place the ballots in one or more durable, portable, secure, and sealable containers. The registrars shall complete and affix to each container a form identifying the advance voting location, the advance voting dates that the ballots were cast, the ballot scanner serial number, the number assigned to that ballot scanner for that specific election, the count of the ballots from the ballot scanner, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the registrar and the two witnesses such that it cannot be opened without breaking the seal. The ballot box shall be resealed, and the new seal numbers shall be documented. The registrar and at least one sworn witness shall deliver the ballot container to the election superintendent for secured storage until time for the tabulation of votes, and the election superintendent shall complete a chain of custody form indicating the delivery of the secure container. The form shall be signed by the registrar and any witnesses who travelled with the registrar indicating that no sealed documents were

AMERICAN OVERSIGHT

unsealed enroute and have not been tampered with. In the discretion of the registrar, the same procedure for emptying the ballot box may be followed if there are less than 1,500 ballots in the ballot box at the end of any advance voting day, but the ballot box shall not be opened while voting is taking place except as authorized by Rule 183-1-12-.10(5).

(9) At the close of voting each day during the advance voting period, the registrars shall document the election counter number from the ballot scanner on the daily recap sheet. The memory cards shall remain in the ballot scanner at all times during the advance voting period until the polls close on the day of the primary, election, or runoff. Each electronic ballot marker, ballot scanner, ballot box, electronic poll book, paper backup poll book, and voter access cards shall then be secured overnight. If the room where advance voting is taking place cannot be locked and secured overnight in the reasonable judgment of the superintendent, the superintendent shall cause the voting system components to be stored in a locked, secure container that is reasonably affixed to the polling place; be under visual surveillance of an election official or their designee, a licensed security guard, or a law enforcement official; or if, if the previously listed options are not feasible, in another manner that in the reasonable judgment of the superintendent secures and protects the voting system components from unauthorized access. Any electronic visual surveillance used for security when voting is not taking place shall not record, capture, or otherwise compromise the privacy of an elector's ballot.

(10) Each morning during the advance voting period prior to voting beginning, the registrars shall verify the seal numbers on each electronic ballot marker and ballot scanner to be used for advance voting with the number of the seal recorded on the daily recap sheet from the previous day of advance voting and shall verify that the seals do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the electronic ballot markers and ballot scanners shall be turned on. If the numbers do not match or there is evidence of tampering, the election superintendent shall be notified immediately and the component shall not be used until such discrepancy is resolved to the satisfaction of the election superintendent and the registrars. After turning on the ballot scanners, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of advance voting. If the numbers do not match, the election superintendent shall be immediately notified and the component shall not be used until such discrepancy is resolved to the satisfaction of the election superintendent and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day.

(11) Voters who vote absentee ballots in person shall first complete an absentee ballot application and sign an oath, which may be on the same form and may be on paper or digital. After the registrars determine that the voter is eligible to vote, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. Each voter shall be offered instruction by a registrar in the method of voting on the voting system, including specific instruction to review their printed ballot prior to scanning it. In providing such instruction, the registrar shall not in any manner request, suggest, or seek

AMERICAN OVERSIGHT

or persuade or induce any voter to vote any particular ticker or for any particular candidate, or for or against any particular question. The voter shall then be issued a voter access card programmed with the correct ballot style or the registrar shall use the correct access code to manually bring up the correct ballot on the electronic ballot marker. The voter shall then enter the enclosed space in the advance voting location and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen unit, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll worker.

(12) The registrars shall cause each advance voting location to be sufficiently staffed and a poll worker is to be stationed at every ballot scanner in use in the polling place while voting is occurring. The poll officer stationed at the ballot scanner shall offer instruction throughout the period while voting is occurring reminding voters to review their printed paper ballots.

(13) At the end of the advance voting period, the registrars shall record the election counter number from each ballot scanner on the daily recap sheet. The ballot scanners shall be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The registrar and two sworn witnesses shall unseal the ballot box, remove the paper ballots, and place the ballots in one or more durable, portable, secure, and sealable containers. The registrars shall complete and affix to each container a form identifying the advance voting location, the advance voting dates that the ballots were cast, ballot scanner serial number, the number assigned to that ballot scanner for that specific election, the count of the ballots from the ballot scanner, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the registrar and the two witnesses such that it cannot be opened without breaking the seal. The ballot box shall be resealed, and the new seal numbers shall be documented. The registrar and at least one sworn witness shall deliver the ballot container to the election superintendent for secured storage until time for the tabulation of votes, and the election superintendent shall complete a chain of custody form indicating the delivery of the secure container. The form shall be signed by the registrar and any witnesses who travelled with the registrar indicating that no sealed documents were unsealed enroute and have not been tampered with. The ballot scanners and ballot containers shall then be secured until time for the tabulation of votes.

(14) By the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the ballot scanners used for advance voting and all other absentee ballots received to the election superintendent or the tabulating center. The election superintendent or tabulating center personnel shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The election superintendent or tabulating center personnel shall verify the seal numbers of each ballot scanner with the numbers recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State and the election superintendent shall be notified

AMERICAN OVERSIGHT

immediately and no further action shall be taken with regard to such unit until the reason for the discrepancy has been determined to the satisfaction of the election superintendent.

(15) After verifying the seal number and the integrity of the seal on each ballot scanner, the election superintendent or tabulating center personnel shall open each ballot scanner and turn on the power. The election superintendent or tabulating center personnel shall then compare the numbers shown on the election counters of the ballot scanners with the numbered list of absentee electors and the absentee ballot recap form to verify that there are no discrepancies. If there is a discrepancy, no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the election superintendent. The election superintendent or tabulating center personnel shall cause each ballot scanner to print a minimum of three tapes showing the vote totals as cast on that ballot scanner. Three witnesses shall sign each of the tapes or shall write on the tapes the reason why they will not sign the tapes. One copy of the results tape for each ballot scanner shall be made available for the information of the public. One tape shall be placed into an envelope (or reusable document storage container suitable for the same purpose), provided by the election superintendent along with “poll worker" memory cards from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The envelope shall be initialed by the poll manager and the two witnesses indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the absentee ballot recap form.

(16) After completing the printing of the results, the ballot scanner shall be turned off, secured, and resealed. The ballot scanners shall then be placed in a secure area with appropriate climate control. The envelopes containing the memory cards and results tapes, voter access cards, poll worker cards, ballot encoder devices, numbered lists of absentee voters, absentee ballot recap forms, and other such paperwork shall be transported to the office of the election superintendent by the election superintendent or tabulating center personal, which transportation shall at all times involve at least two authorized individuals. The office of the election superintendent shall receive the materials and shall document delivery. The election superintendent or tabulating center personal who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with.

(17) Any notices to the Secretary of State about discrepancies in numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has initiated an investigation of the matter.

**RULE 183-1-14-.13 Prompt Notification of Absentee Ballot Rejection**

When a timely submitted absentee ballot is rejected, the board of registrars or absentee ballot clerk shall notify the elector by mailing written notice no later than the close of business on the third business day after receiving the absentee ballot. However, for any timely submitted absentee ballot that is rejected after the close of the advance voting period, the board of registrars or absentee ballot clerk shall notify the elector by mailing written notice no later than 3:00 PM on the next business day. The board of registrars or absentee ballot clerk shall also attempt to notify the elector by email and telephone within the same time requirements if an email or telephone number is on the elector's voter registration record.

AMERICAN OVERSIGHT

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-, *RULES OF STATE ELECTION BOARD*, RULE 183-1-6-.02 (6) And *183-1-6-.02 (7)***

Purpose: Intent and Purpose. These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31)). It is the intent and purpose of the rule to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

Main Features: The main features are to require third-party voter registration groups to inform applicants that they are required to list their Georgia driver's license or identification card number on their voter registration application if they have one and prohibit third-party voter registrations groups from telling applicants that they do not have to list their driver's license number if they have one, to instruct an applicant to contact their county board of registrars if they have not received notification of the disposition of the application within two weeks of submitting the application, and to limit the prohibition on voter registration activities in certain places.

**DIFFERENCES BETWEEN THE EXISTING RULE AND THE PROPOSED AMENDMENTS OF THE STATE ELECTION BOARD, *RULES OF STATE ELECTION BOARD*, RULE 183-1-6-.02 (6) And 183-1-6-.02 (7)**

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added.

**RULE 183-1-6-.02 (6)—Required Activities**

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within <u>two</u> ~~three to four~~ weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

AMERICAN OVERSIGHT

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all applicants that they are required to:

(1) List their Georgia driver's license of Georgia state issued ID number if one has been issue;
(2) List the last four digits of their social security number if the applicants have not been issued a Georgia driver's license or Georgia state issued ID; and
(3) Indicate on the form that they do not have a Georgia driver's, Georgia state issued ID, or social security if none of the foregoing have been issued;

(~~d~~ e) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(~~e~~ f) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**RULE 183-1-6-.02 (7)—Prohibited Activities**

(7) **Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

AMERICAN OVERSIGHT

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted near the voter registration activities;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant;

(h) Conduct voter registration activities in places where the primary purpose of that place is the sale and consumption alcoholic beverages are sold and consumed on the same premises; and;

(i) Tell applicants that they did not have to their Georgia driver's license or identification card number on the voter registration application if the applicant has been issued a Georgia driver's license or identification card.

Authority: O.C.G.A. § 21-2-31

## COPY OF THE PROPOSED NEW RULE

**RULE 183-1-6-.02 (6)—Required Activities**

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within two weeks of submitting the application, the applicant should contact the appropriate board of registrars to

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-, *RULES OF STATE ELECTION BOARD*, RULE 183-1-6-.02 (6) And *183-1-6-.02 (7)***

Purpose: Intent and Purpose. These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31)). It is the intent and purpose of the rule to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

Main Features: The main features are to require third-party voter registration groups to inform applicants that they are required to list their Georgia driver's license or identification card number on their voter registration application if they have one and prohibit third-party voter registrations groups from telling applicants that they do not have to list their driver's license number if they have one, to instruct an applicant to contact their county board of registrars if they have not received notification of the disposition of the application within two weeks of submitting the application, and to limit the prohibition on voter registration activities in certain places.

**DIFFERENCES BETWEEN THE EXISTING RULE AND THE PROPOSED AMENDMENTS OF THE STATE ELECTION BOARD, *RULES OF STATE ELECTION BOARD*, RULE 183-1-6-.02 (6) And 183-1-6-.02 (7)**

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added.

**RULE 183-1-6-.02 (6)—Required Activities**

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within <u>two</u> ~~three to four~~ weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

AMERICAN OVERSIGHT

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all applicants that they are required to:

(1) List their Georgia driver's license of Georgia state issued ID number if one has been issue;
(2) List the last four digits of their social security number if the applicants have not been issued a Georgia driver's license or Georgia state issued ID; and
(3) Indicate on the form that they do not have a Georgia driver's, Georgia state issued ID, or social security if none of the foregoing have been issued;

(~~d~~ e) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(~~e~~ f) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**RULE 183-1-6-.02 (7)—Prohibited Activities**

(7) **Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

AMERICAN OVERSIGHT

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

AMERICAN OVERSIGHT

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-13, *RULES OF STATE ELECTION BOARD*, RULE 183-1-13-.01 *ELECTION DAY EQUIPMENT ALLOCATION*.**

Purpose: The purpose of the rule is to define the term "electors", as used in O.C.G.A. § 21-2-367(b), to exclude electors who have already voted in the given election for the purpose of calculating the minimum amount of voting booths or enclosures required in precincts on Election Day.

Main Features: The main feature is clarity on how to calculate the minimum allocation requirement in O.C.G.A. § 21-2-367(b) by removing from the calculation those electors that have already voted in an election.

**THE PROPOSED RULE OF THE STATE ELECTION BOARD, CHAPTER 183-1-13, *RULES OF STATE ELECTION BOARD*, RULE 183-1-13-.01 *ELECTION DAY EQUIPMENT ALLOCATION*.**

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added. There is no current rule under State Board Rule 183-1-13-.01.

**RULE 183-1-13-.01 Election Day Equipment Allocation**

As used in O.C.G.A. § 21-2-367(b), the term "electors" shall mean those electors on the official list of electors for the precinct who have not voted as of Election Day.

Authority: O.C.G.A. § 21-2-31

AMERICAN OVERSIGHT

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-13, *RULES OF STATE ELECTION BOARD*, RULE 183-1-13-.02 *ASSISTIVE TECHNOLOGY DEVICES.***

Purpose: The purpose of the rule is to allow illiterate or disabled voters to use an assistive technology device to review their paper ballot prior to casting their vote.

Main Features: The main feature of the rule is to provide a legal method for illiterate and disabled voters to review printed ballots using assistive technology devices without violating existing laws against the use of photography of a ballot.

**THE PROPOSED AMENDMENTS OF THE STATE ELECTION BOARD, CHAPTER 183-1-13, *RULES OF STATE ELECTION BOARD*, RULE 183-1-13-.02 *ASSISTIVE TECHNOLOGY DEVICES.***

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added. There is no current rule under State Board Rule 183-1-13-.02

**RULE 183-1-13-.02 Assistive Technology Devices**

An illiterate or disabled elector who is entitled to receive assistance pursuant to O.C.G.A. §§ 21-2-385 or 21-2-409, or a person assisting such an elector, may use an assistive technology device to help the elector review their paper ballot prior to casting. Any image of the ballot obtained through using an assistive technology device shall be immediately deleted. Use of an assistive technology device by an illiterate or disabled elector or by a person assisting an illiterate or disabled elector shall not be deemed a violation of O.C.G.A. § 21-2-413(e).

Authority: O.C.G.A. § 21-2-31

**COPY OF THE PROPOSED NEW RULE**

**RULE 183-1-13-.02 Assistive Technology Devices**

An illiterate or disabled elector who is entitled to receive assistance pursuant to O.C.G.A. §§ 21-2-385 or 21-2-409, or a person assisting such an elector, may use an assistive technology device to help the elector review their paper ballot prior to casting. Any image of the ballot obtained through using an assistive technology device shall be immediately deleted. Use of an assistive technology device by an illiterate or disabled elector or by a person assisting an illiterate or disabled elector shall not be deemed a violation of O.C.G.A. § 21-2-413(e).

Authority: O.C.G.A. § 21-2-31

**NOTICE OF INTENT TO POST A RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-15, *RULES OF STATE ELECTION BOARD*, RULE 183-1-15-.03 *OPTICAL SCAN RECOUNT PROCEDURE* AND NOTICE OF PUBLIC HEARING.**

TO ALL INTERESTED PERSONS AND PARTIES:

Notice is hereby given that pursuant to the authority set forth below, the Georgia State Election Board, (hereinafter "SEB") proposes to post an SEB rule, Rule 183-1-15-.03 *Optical Scan Recount Procedure* (hereinafter "proposed rule").

This notice, together with an exact copy of the proposed new rule and a synopsis of the proposed rule, is being distributed to all persons who have requested, in writing, that they be placed on a distribution list. A copy of this notice, an exact copy of the proposed rule, and a synopsis of the proposed rule may be reviewed during normal business hours of 8:00 a.m. to 5:00 p.m. Monday through Friday, except official state holidays, at the Office of the Secretary of State, Elections Division, 2 Martin Luther King Jr. Drive, S.E., 8th Floor West Tower, Atlanta, Georgia 30334. These documents will also be available for review on the State Election Board's web page at https://sos.ga.gov/index.php/elections/state_election_board. Copies may also be requested by contacting the Elections Division at 404-656-2871.

To provide the public an opportunity to comment upon and provide input into the proposed rule, a public hearing will be held on:

February 28, 2020
9:00 a.m.
2 Martin Luther King Jr. Dr. SE
18th Floor, West Tower
Room 1816
Atlanta, GA 30334

At the public hearing anyone may present data, make a statement, comment or offer a viewpoint or argument whether orally or in writing. Oral statements should be concise and will be limited to 3 minutes per person. Additional comments should be presented in writing. Lengthy statements or statements of a considerable technical or economic nature, as well as previously recorded messages, must be submitted for the official record on or before February 17, 2020 to the address below. Written comments must be received on or before February 17, 2020 and be addressed to Jasmine Shannon by mail to Office of the Secretary of State, Elections Division, 2 Martin Luther King Jr. Drive, S.E., 8th Floor West Tower, Atlanta, Georgia 30334 or by email to jshannon@sos.ga.gov.

The State Election Board will consider the proposed rule at a meeting scheduled to begin at 9:00 a.m. on February 28, 2020 at 2 MLK Jr. Dr. SE, 18th Floor, West Tower, Room 1816, Atlanta, Georgia 30334.

AMERICAN OVERSIGHT

**SYNOPSIS OF THE PROPOSED RULE OF THE STATE ELECTIONS BOARD, CHAPTER 183-1-15, *RULES OF STATE ELECTION BOARD*, RULE 183-1-15-.03 *OPTICAL SCAN RECOUNT PROCEDURE***

Purpose: The purpose of the rule is to provide a detailed description of the procedure for recounting votes using an optical scanning voting system.

Main Features: The main feature of the rule is to implement a uniform procedure for conducting a recount that ensures an accurate and timely tabulation of the ballots cast while maintaining chain of custody and integrity of the process.

**THE PROPOSED RULE OF THE STATE ELECTION BOARD, CHAPTER 183-1-15, *RULES OF STATE ELECTION BOARD*, RULE 183-1-15-.03 *OPTICAL SCAN RECOUNT PROCEDURE***

NOTE: Struck through text is proposed to be deleted. Underlined text is proposed to be added. There is no current rule under State Board Rule 183-1-15-.03.

**RULE 183-1-15-.03 Optical Scan Recount Procedure**

1. Recounts of primaries and elections conducted using an optical scanning voting system shall be in accordance with this rule.

2. The recount shall be conducted by tabulating all ballots utilizing ballot scanners.

3. Prior to conducting a recount, the election superintendent shall test each ballot scanner to be used in the recount. A test deck shall be prepared to include scanning ballots marked by an electronic ballot marker and absentee ballots marked by hand. A manual hand count of the test deck shall be made and compared to the electronic tabulation of the test deck. If the two counts do not match, the discrepancy shall be researched and additional tests may be run. If the discrepancy cannot be resolved such that the manual hand count and electronic tabulation of the test deck matches, the ballot scanner shall not be used in the recount.

4. The recount shall be open to the view of the public, but no person except one designated for the purpose by the superintendent or the superintendent's authorized deputy shall touch any ballot or ballot container. The superintendent may designate a viewing area by which members of the public are limited for the purpose of good order and maintaining the integrity of the recount.

5. The tabulation of ballots must be completed through a precise, controlled process that ensures, for each ballot scanner used in the recount, no more than one ballot container is unsealed at any given time.

AMERICAN OVERSIGHT

6. A clear audit trail must be maintained at all times during the recount, including but not limited to, a log of the seal numbers on ballot containers before and after the recount.

7. The ballot scanner shall be programmed to flag or reject ballots that contain an overvote for the contest to be recounted. One or more recount vote review panels shall be established, consistent with O.C.G.A. § 21-2-483(g), to manually review the overvoted ballots. The recount vote review panel shall determine by majority vote the elector's intent, as described in O.C.G.A. § 21-2-438(c), a duplicate ballot shall be created consistent with the elector's intent for the contest to be recounted, labeled "RECOUNT DUPLICATE", and used in the recount. The original overvoted ballot shall be retained.

8. All ballots that required a duplicate ballot to be created in the original primary or election, as allowed by law, shall be reviewed by a recount vote review panel to determine that the votes marked in the contest to be recounted on the duplicated ballot are consistent with the elector's intent on the original ballot, as described in O.C.G.A. § 21-2-438(c). If a majority of the recount vote review panel determines that the duplicated ballot is not consistent with the elector's intent on the original ballot, a new true duplicate ballot shall be created consistent with the elector's intent for the contest to be recounted, labeled "RECOUNT DUPLICATE", and used in the recount. The original overvoted ballot and initial duplicated ballot shall be retained.

9. If it appears that a ballot is so torn, bent, or otherwise defective that it cannot be processed by the ballot scanner, the recount vote review panel shall prepare a duplicate ballot for the contest to be recounted. All duplicate ballots created during the recount shall be clearly labeled by the word "RECOUNT DUPLICATE". The defective ballot shall be retained.

10. After all of the valid ballots to be included in the recount have been tabulated, the superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If upon completing the recount, it shall appear that the original vote count for the recounted contest was incorrect, such returns and all papers being prepared by the superintendent shall be corrected accordingly.

Authority: O.C.G.A. §§ 21-2-31, 21-2-495

## COPY OF THE PROPOSED NEW RULE

### RULE 183-1-15-.03 Optical Scan Recount Procedure

1. Recounts of primaries and elections conducted using an optical scanning voting system shall be in accordance with this rule.

2. The recount shall be conducted by tabulating all ballots utilizing ballot scanners.

3. Prior to conducting a recount, the election superintendent shall test each ballot scanner to be used in the recount. A test deck shall be prepared to include scanning ballots marked by an electronic ballot marker and absentee ballots marked by hand. A manual hand count of the test deck shall be made and compared to the electronic tabulation of the test deck. If the two counts do not match, the discrepancy shall be researched and additional tests may be run. If the discrepancy cannot be resolved such that the manual hand count and electronic tabulation of the test deck matches, the ballot scanner shall not be used in the recount.

4. The recount shall be open to the view of the public, but no person except one designated for the purpose by the superintendent or the superintendent's authorized deputy shall touch any ballot or ballot container. The superintendent may designate a viewing area by which members of the public are limited for the purpose of good order and maintaining the integrity of the recount.

5. The tabulation of ballots must be completed through a precise, controlled process that ensures, for each ballot scanner used in the recount, no more than one ballot container is unsealed at any given time.

6. A clear audit trail must be maintained at all times during the recount, including but not limited to, a log of the seal numbers on ballot containers before and after the recount.

7. The ballot scanner shall be programmed to flag or reject ballots that contain an overvote for the contest to be recounted. One or more recount vote review panels shall be established, consistent with O.C.G.A. § 21-2-483(g), to manually review the overvoted ballots. The recount vote review panel shall determine by majority vote the elector’s intent, as described in O.C.G.A. § 21-2-438(c), a duplicate ballot shall be created consistent with the elector’s intent for the contest to be recounted, labeled “RECOUNT DUPLICATE”, and used in the recount. The original overvoted ballot shall be retained.

8. All ballots that required a duplicate ballot to be created in the original primary or election, as allowed by law, shall be reviewed by a recount vote review panel to determine that the votes marked in the contest to be recounted on the duplicated ballot are consistent with the elector’s intent on the original ballot, as described in O.C.G.A. § 21-2-438(c). If a majority of the recount vote review panel determines

AMERICAN OVERSIGHT

that the duplicated ballot is not consistent with the elector's intent on the original ballot, a new true duplicate ballot shall be created consistent with the elector's intent for the contest to be recounted, labeled "RECOUNT DUPLICATE", and used in the recount. The original overvoted ballot and initial duplicated ballot shall be retained.

9. If it appears that a ballot is so torn, bent, or otherwise defective that it cannot be processed by the ballot scanner, the recount vote review panel shall prepare a duplicate ballot for the contest to be recounted. All duplicate ballots created during the recount shall be clearly labeled by the word "RECOUNT DUPLICATE". The defective ballot shall be retained.

10. After all of the valid ballots to be included in the recount have been tabulated, the superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If upon completing the recount, it shall appear that the original vote count for the recounted contest was incorrect, such returns and all papers being prepared by the superintendent shall be corrected accordingly.

Hi Rick,

Please see the email below from me and the one from Ryan regarding the draft rules - they are attached to this email. I will add you to the email chain for the group discussion.

Thank you for your input into the draft.

Talk soon,

Lynn Bailey, Executive Director
Richmond County Board of Elections

Subject: Fwd: [EXTERNAL] Draft Rules for Storage, L&A Testing, Election Day, and Early Voting

Good morning all,

The first draft of the proposed rules are attached for our review. As you heard in the conference call yesterday, the rules are not procedures but rather an set out an outline for the boundaries of our procedures. I have not taken the time to read them yet. I wanted to get them to you guys ASAP.

Let's all take a look and share comments. I will be in the lookout and provide a synopsis of our thoughts. It is all fluid at this point and I expect we will talk with the State about them at Conference. As you know, the SEB meeting at which these rules will be considered is scheduled for 12/17. The Rules Committee will be meeting next week after Conference. Ryan's email below will provide some insight into process.

I would suggest that we do not distribute the draft as it almost certainly will change and we don't want to publish it until it has been fully considered. As Ryan states below, before the SEB meeting but after review, a draft of the rules will be released to stakeholders.

AMERICAN OVERSIGHT

Happy reading. I'll be in touch soon!

From: Germany, Ryan <rgermany@sos.ga.gov>
Sent: Wednesday, December 4, 2019 5:40 PM
To: Fuchs, Jordan; Harvey, Chris; Rayburn, Kevin; Sullivan, Rebecca; David Worley; Lynn Bailey
Subject: [EXTERNAL] Draft Rules for Storage, L&A Testing, Election Day, and Early Voting

Working Group Members,

At long last, please see the first draft rules. These are rewrites of Rule 183-1-12, which encompasses storage, security, L&A testing, and election day operations, and Rule 183-1-14, which deals with early voting. We are working on additional rules, but wanted to send these first. Both will still need attention paid to formatting, but I wanted to get these to you so we can start discussing substance. Lynn—please do circulate these to your county working group because these are the basic operational rules.

I think it makes sense to try to meet later next week if that works for people. Lynn and our office will be at the GEOA/VRAG convention so they will have an opportunity to discuss these with other county election officials there. Are people available next Thursday or Friday? I am certainly open to individual comments prior to that.

I am planning to have the rules package ready to present to the SEB at the Dec. 17th meeting, so I would like to be able to circulate it outside groups prior to that (the two parties, etc.) but after we have incorporated comments from the Working Group.

Thanks,

Ryan

**Subject:** Dominion Voting System Training

Clayton - DeKalb - Douglas – Fayette – Fulton – Henry - Gwinnett - Rockdale

Your county is scheduled for the Tuesday and Wednesday, October 8-9, 2019, Dominion Voting System Training at the SOS-CES Office located at 120 Interstate North Parkway, Suite 210, Atlanta 30339.

The training will be from 9am to 4pm (could extend later if needed) both days. We ask that you not arrive more than 30 minutes before class time. The instructors need time to set up and get ready for the day.

Each county can bring 3 to 4 individuals. Please be aware that the ideal seating is three individuals at a table. If you send more than three, the overflow will be at a table without a laptop. The laptop set up simulates the EMS (Elections Management System).

This training is for the Election Superintendent for each county and any support staff that operate the elections in your county. This is not board member training unless the board member is one of the hands on, working members of the office for L&A, Advanced in Person Voting and Absentee by Mail, Tabulation and Election Management System operations.

There are a few restaurants close by for lunch. Some are even in walking distance from the office.

Parking at the office complex is limited. Please do not park in spaces designated for other businesses. Carpooling is helpful.

Please provide the list of names, titles and email addresses for the staff members that are attending training. I would like to have these names by Friday, October 4, 2019.

The only things you need to bring are pens, highlighters and notepads.

We look forward to seeing all of you there.

Please let me know if you have any questions or concerns.

Best regards,

AMERICAN OVERSIGHT

Also interesting, and I was amused by the characterization of early voting, being an election innovation, as "a good deed destined for punishment." MCC

From The New York Times:

'The State Kind of Dumped This On Us:' Early Voting Stirs Anxiety in N.Y.

Think of the perils of an Election Day: broken voting machines, endless lines, frantic calls to extend voting hours. Now, imagine nine days of that.

From: Secretary of State Press Release [notifications@sos.ga.gov]
Sent: Thursday, December 05, 2019 4:58 PM
To: Barron, Richard L.
Subject: Elections Update from Secretary of State Brad Raffensperger

Dear Friend,

Today Georgia launched Secure the Vote—an inclusive voter education effort for our new secure, verifiable paper-ballot system. In this effort we will need your help to engage voters in Georgia and your county.

We launched the SecureVoteGa.com website to help aid in your education outreach efforts. It includes videos, frequently asked questions, printable handouts, and other resources to help your effort to educate your voters.

As you know, the state has made the significant investment to purchase all the equipment and peripherals necessary to run elections in your county for the next ten years.

1. You will NOT need to purchase software licenses for the equipment.

2. Each county is will be provided a mobile ballot printer—lowering overall costs for absentee, provisional and backup paper ballots.

3. We have also increased the investment in high-speed central scanning, which will aid in counting absentee ballot, auditing and recounts.

4. At the conference we will be launching a matching grant program that will be discussed and capped at $10,000 and $15,000 for capital investments (non-consumables.)

This is a significant investment and should signal to each of you the importance we are placing on securing each and every eligible vote.

With this partnership and investment, we encourage you to help us spread the message about Secure The Vote by sharing SecureVoteGa.com with your voters on social media.

Thank you for working with us to Secure every Georgian's Vote.

Sincerely,

Brad Raffensperger
Secretary of State

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good afternoon,

The City of College Park's ballot needs to have an adjustment to the name due to the last name of a candidate not reflecting its name as registered in the voter registration system.

It is currently listed on the ballot as: Bianca A. M. Broom
Due to the change the candidate has requested to have her name listed on the ballot as : Bianca Angela Motley Broom

"Motley Broom" is her entire last name, middle name Angela.

I included all the email threads to this is below and attached for verification should it be needed. I will come by and pick up the new database once all the ballot proofs have been signed off. Let me know if you need anything else in this matter.

Brenda:

Can you please send this to the city clerks in cities that overlap Commissioner District 6? Please tell them to forward it to all candidates running for office in precincts that overlap with Commissioner Dist 6, as well as all affected elected officials? Please have librarians in the affected areas post the press release, too. Send it to the BOC, as well.

Thanks,
Rick

---

Derrick:

Can you check the DRE screen for the two races on the ballot on Tuesday to see how they look at normal magnification and sight-challenged magnification, please? Vernetta said that the candidates are on two pages, but Pam noted that the candidates are probably on the same page, but that a voter would need to scroll to see all of the choices.

If you read this email chain you will see that someone is complaining and charging that we are trying to advantage someone with this set up. Mary Carole needs to answer the gentleman. I have cc'd her on this email.

Thanks,
Rick

Rick, I didn't see that you received this message. I suppose I ought to respond. Somebody doesn't have a position on the ballot as good as the Incumbent-with-last-name-beginning-with-A. The only alternative I can think of is smaller text which disadvantages the sight-impaired. Your recommendation as to response is requested. Mary Carole

Mr. Mark Wingate (Republican)

[redacted]

AMERICAN OVERSIGHT

[redacted]

Members of the Fulton County Board of Registration & Elections:

Former Law Judge Savannah Potter Miller Lane of the Voter Protection Project has raised a concern that on the large text ballot [for one Office, if not both] a candidate's name appears alone on a page.

Could there be an unintended advantage given to a particular candidate when that candidate's name falls on a page separate from the page containing the names of all the other candidates?

What are the ramifications of reducing the large text font so all nine names fit on one page?

Please consider looking into this matter. Thank you.

Ben Howard
Senior Advocate, Public Policy Analyst

C: Judge Savannah Potter Miller Lane

**Subject:** New Voting System Update

All,

Here is the latest update on the new voting system.

1. We had a smooth start with advance voting in the seven pilot counties. We had to have a quick lesson on brining the UPS units on-line, but once that was cleared up, voting has gone well. Turnout is light, so we have not yet seen much stress-testing of the system yet.
2. As of the close of polls yesterday, 1000 votes had been cast in pilot counties.
3. The ballot box that was used at the state fair in Perry received approximately 3,700 ballots and was not filled to capacity. That is a good sign for the ballot boxes to hold a good number of ballots beyond the 2,000-2,500 originally estimated.

AMERICAN OVERSIGHT

4. You must use HP manufactured toner cartridges in all BMD printers in elections.
5. The pickup of old voting equipment will commence soon. Look for an OEB later this week giving details about the process.
6. Here's a link to the AJC article describing the first day of voting on the BMDs https://www.ajc.com/news/state--regional-govt--politics/voters-critique-georgia-new-voting-machines-test-run-begins/Ax5aTgIBvqgMKeFiLWfyHK/
7. Pilot counties are using several versions of new forms and procedures to see what works.
8. Training is continuing through the state.
9. Openings in scheduled training. Check Dynamo posts or with Melanie Frechette for openings.
10. It's 160 days until the Presidential Preference Primary on March 24, 2020.

Note the discussion of pop-up polling places.

The Student Vote Is Surging. So Are Efforts to Suppress It.

The share of college students casting ballots doubled from 2014 to 2018, a potential boon to Democrats. But in Texas and elsewhere, Republicans are erecting roadblocks to the polls.

Dear Election Supervisor Barron,

My name is Atticus, I'm with the Associated Press Election Research Team. Last year April Majors spoke to a colleague of mine about a precinct project we were conducting in the state of Georgia for the 2018 General Election. She answered a series of questions they had about seven precincts in Fulton County and instructed us on the best way to obtain results on election night. We will be repeating the same process for next year's Presidential Primary and General Election and I was hoping you would be able to confirm some of the answers she gave my colleague last year, to make sure nothing has changed, or that you don't want anything done differently on our end.

Here are the questions I have about SC05B:

AMERICAN OVERSIGHT

- Is SC05B still located in Congressional District 13?
- Have there been any boundary changes to SC05B since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at the Cliftondale Community Center?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
- Will your county website have precinct level results on election night?

Here are the questions I have about SC08F:

- Is SC08F still located in Congressional District 13?
- Have there been any boundary changes to SC08F since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at Banneker School?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
- Will your county website have precinct level results on election night?

Here are the questions I have about 06R:

- Is 06R still located in Congressional District 5?
- Have there been any boundary changes to 06R since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at the First Presbyterian Church?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
- Will your county website have precinct level results on election night?

Here are the questions I have about AP09A:

- Is AP09A still located in Congressional District 6?
- Have there been any boundary changes to AP09A since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at Webb Bridge Middle?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?

AMERICAN OVERSIGHT

Will your county website have precinct level results on election night?

Here are the questions I have about 03A:

- Is 03A still located in Congressional District 5?
- Have there been any boundary changes to 03A since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at Allen Temple AME Church?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
- Will your county website have precinct level results on election night?

Here are the questions I have about SS14:

- Is SS14 still located in Congressional District 11?
- Have there been any boundary changes to SS14 since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at Ridgeview Charter Middle School?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
- Will your county website have precinct level results on election night?

Here are the questions I have about SS29A:

- Is SS29A still located in Congressional District 6?
- Have there been any boundary changes to SS29A since the 2018 General Election?
    - If not, do you know the last year that there were boundary changes to the precinct?
- Does the precinct still vote at First Baptist Church Sandy Springs/Cumberland Academy?
    - If so, do any additional precincts also vote at that polling location?
- Will the precinct results on election night include absentee votes?
- In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
- Will your county website have precinct level results on election night?

In 2018, election night results were posted at the polling locations of the abovementioned precincts for the public to view. Will that be the case again in 2020? Will any additional credentials be required to access the results?

My most sincere thanks for your time and consideration with these questions.

On Oct 23, 2019, at 8:44 AM, Barron, Richard L. <Richard.Barron@fultoncountyga.gov> wrote:

Yes, the board voted 3-0 against approving another early voting site because no money exists in the current budget for an additional one. My recommendation after explaining the situation from Mark Wingate's inquiry one month ago on behalf of the city through your request was to forego another site because of financial restrictions and allowing people to another site. The board asked questions and decided against approving one. Using that site in the future for elections is something we want to do, though.

Subject: RE: Question regarding EV voting location for December runoff

The reason I ask is that the I believe the Mayor and CC would be supportive of ADDING the JC City Hall for December. I know our City Clerk was wary of having the City Hall as a location for November b/c the City Hall would not be completed by Nov. The building is 99.9% complete now and we have occupied it since April. Simply put, I think the City Hall would make a wonderful EV location for December and it would serve a….geographic gap in our EV locations up here.

I understand what you said below but if there was an opportunity to add City Hall for Dec (I think we will have 3 runoffs in December) than I can help get a resolution of support from the Council for that.

To: Craig Kidd <Craig.Kidd@johnscreekga.gov<mailto:Craig.Kidd@johnscreekga.gov>>
Subject: RE: Question regarding EV voting location for December runoff

Mr. Kidd:

Mark Wingate made an inquiry regarding this recently. I told Mark that we should have taken this up in July at the city clerk's meeting or within three weeks after the meeting when we made the EV locations final. The only time it is appropriate to change the location between the election and the runoff is if the location we chose becomes unavailable for some reason. I'm sorry we are unable to be of more service at this point. Changing polling locations on short notice is a tricky business for us in terms of public perception.

I will, however, bring it up with the Board of Registration and Elections on Monday when we certify the results for the October 15th election.

Regards,
Rick

Subject: Question regarding EV voting location for December runoff

Mr. Barron, I am confirming from the source what I suspect to be true. I take it that an EV location cannot be added for the December runoff. For it to be open for the runoff, it had to be used for the first round. We've had some questions. Thanks!

**Subject:** Rejected Absentee Ballots

Is it ok for Ralph to bring the rejected Req for AB applications and/or rejected ABs to our September Bd meeting? Since Chairman Pitts started e-blasting the daily EV results to both Fulco listserv and his personal networks, I suspect its the reason for the call I just got regarding whether or not the board is "clueless" as to why nearly a 1/3 of the Req of AB applications received to date have been rejected. I read the reasons listed on the EV results sheet giving examples why an app would be rejected. My response wasn't received well. Is it possible to make it available for a quick review before the meeting starts?

No problem, Rick. Why don't you call me on my cell [redacted] -- this weekend when it's convenient for you - I'm around both today and tomorrow. I'm trying to put together a list of improvements that could come from the SOS rather than the counties, and want to ask you - What are specific changes that the SOS could make that would make registration and voting easier and more accessible for voters? And are there changes from the SOS that would make your job as a county director easier? Are there ways that the SOS could influence or interact with DDS to cut down on the errors from DDS? I will not attribute anything to you, and I know that Chris Harvey is a reasonable person to deal with, but you're the best person I know to give me ideas.
Many thanks.

AMERICAN OVERSIGHT

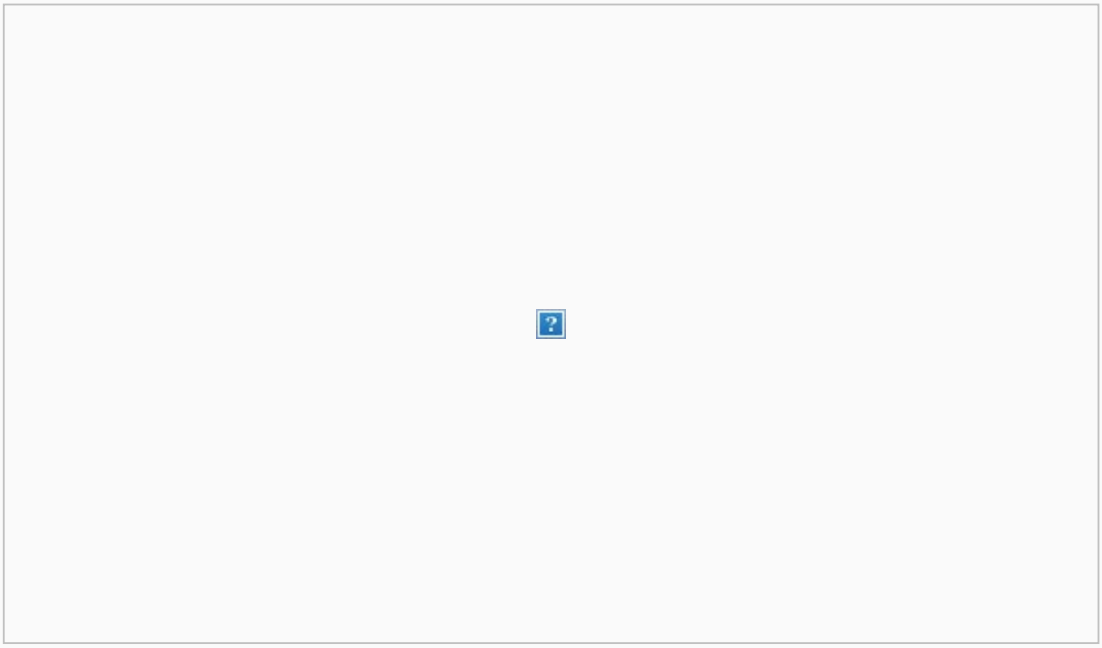
# Fulton County Democratic Party

## Monthly Meeting



Thursday, October 10, 2019
Meeting 7:00 pm, 6:30 pm Snack & Chats
CWA Local 3204 Union Hall
279 Logan St. SE
Atlanta, GA 30312

This Thursday, the Fulton Democrats will be joined by Fulton County Director of Registration & Elections, **Rick Barron**.

AMERICAN OVERSIGHT

We will also have one of Georgia's new voting machines on hand for attendees to get an up close look at and ask Mr. Barron questions about.

Atlanta's Pride Parade is October 13th and everyone is invited to march with the DPG and LGBTQ+ caucus. You can get complete details here: https://www.facebook.com/events/549836625843327/

AMERICAN OVERSIGHT

Also:

Save the date for the Democratic Party of Georgia's **State Dinner** on Tuesday, October 22. Get details and tickets here: https://www.facebook.com/events/2418224215114711/

Become a **poll worker**! Apply to work at election polling places - get paid, help voters and save our Democracy! Learn more here: http://www.fultoncountyga.gov/registration-elections-cd/6252-poll-worker-application?fbclid=IwAR2Fuu3CU0B9VAAMehjzBd9FtcEMBgCQcykCrl0cNygtVC3FYAIVOPSNTrA

See you this Thursday. As always, feel free to bring a friend. The Union Hall has parking and is a half a mile from the King Memorial MARTA stop on the Blue Line.

A friendly reminder! Please pay your annual $25 dues to be a member of the Democratic Party. We'll use the money for voter education efforts in Fulton County, like mailers, social media ads, community events, and canvassing cards.

**Pay Dues**

**Subject: RE: Election Irregularities**

She stated that they were directed to this polling location. Nothing indicated on the voter's record to suggest that staff would have sent the voter to her polling location. I wonder who directed her to that location. Could it have been a poll worker using precinct details? Johnny had told the poll workers not to use Precinct Details for this election. I looked at the voter records and found the following:

1. Andrienna Anderson was registered at RW21, but her address was updated because of NCOA changed on 08-07. She is now registered in SS11A. What probably happened to her is she made a change of address at the post office and didn't realized if it is a change of address is within the county that the SOS send us the list of voters to update their voter registration. This is based on the SOS interpretation of the NVRA.

2. Terry Blankenship was a Dekalb county voter but went to DDS on 01/23/2019 and was registered into city of Sandy Springs. Poll worker probably liked at Precinct Details.

3. Katherine King Young. There was a voter who matched named Katherine L. Young who was born on the same birthday. The voter didn't respond to the felon letter that was sent and was removed from the rolls. We have updated procedures to look at the social security number also in the matching criteria.

4. Mr. Carvallo Jarpa is registered in Sandy Springs. Therefore he would not be eligible to vote. His children did not submit an absentee application for the November Election.

<[redacted] Kathleen Ruth <[redacted]
**Subject: Electronic ABSENTEE BALLOT**

Good Day:

Thank you for your email. The staff complied with your Application for An Official Absentee Ballot as completed. You indicated by checking the OST box that you are a temporary oversees resident. Since only UOCAVA voters may receive ballots electronically, you are not eligible to receive the absentee ballot via this method. Moving forward, If you are an UOCAVA voter please indicate that by checking the appropriate box on the Application For An Official Absentee Ballot.

Moreover, since you didnt provide your temporary overseas address where indicated on the form, our staff correctly mailed your ballot to your local address here in Fulton County.

Lastly, please only check one (1) box indicating why you are requesting an Absentee Ballot, on the Application attached you selected two boxes, one box that you are over 65 and the other box stating that you are a temporary oversees resident. Filling this form out incorrectly could delay or prevent processing.

Thank you for reaching out and hopefully this information helps you as Georgia prepares for the Presidential Preference Primary in March 2020. Good luck!

~Vernetta Nuriddin~

Subject: RE: ABSENTEE BALLOT APPLICATION

Dear Sante Askin.
As I indicated in my original requests back in September for an absentee ballot, I am living out of the country and will be here until December. You will note that I checked that category on the application. That entitles me to an electronic ballot. The paper ballot you sent to my house is not acceptable. I cannot use it. You cannot just decide that my right to vote be denied simply because you "did not issue electronic ballots this calendar year". You must issue the electronic ballot for me because that is the only means by which I can vote. This is not your decision to make. Your duty is to serve the citizens of the county according to the voting regulations. Please issue the requested electronic ballot that I requested so that I may participate in the municipal elections as requested.
Thank you for your timely response to my request so that I can exercise my rights as a citizen.

Mr. Barron and the Fulton County Election Board,

Be advised that this is an official notice to cease and desist the certification of the special election that was held on September 17, 2019, certification scheduled to be held on Monday September 23, 2019 at 1:00 p.m. The special election included filling both seats for the Atlanta Board of Education, District 2 and Commissioner, District 6. Please refer and review the full attached letter.

Regards,

Keisha Carey

**Subject:** RE: [EXTERNAL] Draft Rules for Storage, L&A Testing, Election Day, and Early Voting
**Date:** Friday, December 6, 2019 10:52:02 AM

---

The person that wrote paragraphs 13-15 has never worked an election, obviously. It is confused lawyer speak. Sharon, please add any comments you have to Blake's below in order for me to send a coherent response to Lynn.

I'm finishing up the next set and will forward them. It is much longer.

---

From: Evans, Joseph
Sent: Friday, December 06, 2019 9:56 AM
To: Barron, Richard L.
Cc: Benjamin, Sharon
Subject: RE: [EXTERNAL] Draft Rules for Storage, L&A Testing, Election Day, and Early Voting

I just read through the document. I sent it to Sharon as well. Here are my initial thoughts:

I do not have any substantial concerns about the first seven paragraphs.

Paragraph 8 - I have concerns about the requirement for video surveillance or human monitoring. I'd rather the SOS say something like, "The level of security provided by each county will be reviewed by the SOS on a case by case basis to ensure that each county is providing a sufficient level of security to ensure the integrity of the election." As you mention in your note, I think our carts provide a sufficient level of security, especially when compared to other practices across the state/country. If we were simply leaving the BMDs out in carrying cases like some counties, then I understand the need for additional security. However, the carts provide a much higher level of security. That stated, if we have to provide cameras, then I like the idea that was mentioned in our regional meeting about game cameras. A decent game camera can be purchased for around $100, so we could buy 50 of them for a cheap price. The EV workers could set it up before the leave each night. It would turn on if it detected motion.

Paragraphs 13-15 - I have significant concerns about these paragraphs. Here they are:

1. The beginning of paragraph 13 essentially says that "the ballot scanners used for in-person absentee voting and all other absentee ballots should be delivered to the manager of the absentee ballot precinct." I don't think this is saying what the SOS is intending it to say. I'm confused by it. First of all, we should certainly pick up all scanners and deliver them to our warehouse before Election Day. Second, I'm unsure who is being referred to as "the manager of the absentee ballot precinct." Are they referencing the EV managers? If so, why are we delivering the other absentee ballots to the EV managers. Or, are they referencing the election superintendent?

2. Paragraph 13 goes on to say that "the poll officers of the absentee ballot precinct shall count all of the absentee ballots." Then, the paragraph reads that "the poll officers shall verify the seal numbers of each ballot scanner with the numbers recorded on the daily recap sheet form..." Does the word "count" mean hand count or machine count? If it means hand count, then this is concerning because it sounds like we are supposed to count the ballots after polls close on Election Day before we can break seals and remove memory cards. This requirement would severely delay our ability to report results in a timely manner. If it means machine count, then technically the machines have already counted the ballots when each ballot was scanned, and I wouldn't think we would be required to count the ballots again before reporting results.

3. Paragraph 14 begins the discussion of turning on the machines to print tapes and remove memory cards. The paragraph reads, "The manager shall then compare the numbers shown on the election counters of the ballot scanners with the numbered list of absentee electors and the absentee ballot precinct recap form to verify that there are no discrepancies." The paragraph goes on to say, "If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot

AMERICAN OVERSIGHT

precinct." This is concerning because in a large election where we have 30 plus early voting sites, there will most likely be a discrepancy between the numbered list of absentee electors and the number on the scanner. Although we do everything we can to keep them from occurring, discrepancies can be caused by someone simply walking out of the voting location after checking in. It is concerning to think that we would have to stop the reporting of results to notify the SOS of small discrepancies on a busy election night.

4. This says 3 tapes should print from each scanner. We should have the option to pull cards and report results first before printing tapes.

5. Paragraph 15 - Again, we should not be transporting early voting memory cards after polls have closed on election night. We should already have them at our warehouse.

Subject: Fwd: [EXTERNAL] Draft Rules for Storage, L&A Testing, Election Day, and Early Voting

Good morning all,

The first draft of the proposed rules are attached for our review. As you heard in the conference call yesterday, the rules are not procedures but rather an set out an outline for the boundaries of our procedures. I have not taken the time to read them yet. I wanted to get them to you guys ASAP.

Let's all take a look and share comments. I will be in the lookout and provide a synopsis of our thoughts. It is all fluid at this point and I expect we will talk with the State about them at Conference. As you know, the SEB meeting at which these rules will be considered is scheduled for 12/17. The Rules Committee will be meeting next week after Conference. Ryan's email below will provide some insight into process.

I would suggest that we do not distribute the draft as it almost certainly will change and we don't want to publish it until it has been fully considered. As Ryan states below, before the SEB meeting but after review, a draft of the rules will be released to stakeholders.

Happy reading. I'll be in touch soon!

Lynn Bailey, Executive Director
Richmond County Board of Elections

To: Fuchs, Jordan; Harvey, Chris; Rayburn, Kevin; Sullivan, Rebecca; David Worley; Lynn Bailey
Subject: [EXTERNAL] Draft Rules for Storage, L&A Testing, Election Day, and Early Voting

Working Group Members,

At long last, please see the first draft rules. These are rewrites of Rule 183-1-12, which encompasses storage, security, L&A testing, and election day operations, and Rule 183-1-14, which deals with early voting. We are working on additional rules, but wanted to send these first. Both will still need attention paid to formatting, but I wanted to get these to you so we can start discussing substance. Lynn—please do circulate these to your county working group because these are the basic operational rules.

I think it makes sense to try to meet later next week if that works for people. Lynn and our office will be at the GEOA/VRAG convention so they will have an opportunity to discuss these with other county election officials there. Are people available next Thursday or Friday? I am certainly open to individual comments prior to that.

I am planning to have the rules package ready to present to the SEB at the Dec. 17th meeting, so I would like to be able to circulate it outside groups prior to that (the two parties, etc.) but after we have incorporated comments from

AMERICAN OVERSIGHT

the Working Group.

Thanks,

Ryan

I have forwarded your email to Ralph Jones since he manages the by-mail absentee balloting process. You should receive a response from his team shortly. All ballots must be received by our office by the time polls close on Election Day.

One thing that I did not think about is that our offices are scheduled to be closed on Thanksgiving and the day after, which might change when applications have to be received by; however, I will discuss this with Ralph and his team. You will receive another email with more details shortly.

Thank you,

Blake,

Sorry for all the questions about the absentee ballots but we have received quite a few phone calls about this and we want to make sure we have it correct on our website and our responses to people who call. Part of the issue is that being Thanksgiving Week many people have called and said they will not be here for early voting and would rather not go to the polls on the actual election date (not sure why since I don't forsee lines of people even though for our City this Runoff is extremely important). They have chosen to do absentee ballot voting but they want to make sure their ballot is counted. That being the case, if the Election office will take an application as late as 5:00 on Friday, November 29th, how is it possible for the Elections office to then send out the ballot to them and you get it back by Tuesday, December 3rd by 5:00 p.m. That is where the questions come

Thanks, Marlee.

I have a question regarding your request. If the application must be received by Nov. 29, when must the actual ballot be postmarked/received by? It would appear that we need to provide two dates—one for the application and one for the ballot. Does that sound correct?

I'm having a hard time finding any definitive information. The best answer I found is that the application must be received 4 days before election day and the ballot must be received by election day, not just postmarked by election day. If so, that doesn't seem possible. If Fulton County receives a request by on mail on Friday, Nov. 29 at 5 PM, I suspect the earliest the ballot would be received by the voter would be on Monday, Dec. 2. The voter would then have to next-day mail the ballot in order for it to be received by Tuesday, Dec. 3. Right? Am I missing something? Ms. Press,

I have forwarded your email to Ralph Jones since he manages the by-mail absentee balloting process. You should receive a response from his team shortly. All ballots must be received by our office by the time polls close on Election Day.

One thing that I did not think about is that our offices are scheduled to be closed on Thanksgiving and the day after, which might change when applications have to be received by; however, I will discuss this with Ralph and his team. You will receive another email with more details shortly.

Thank you,

AMERICAN OVERSIGHT

**Subject:** FW: Absentee Ballots

Blake,

Sorry for all the questions about the absentee ballots but we have received quite a few phone calls about this and we want to make sure we have it correct on our website and our responses to people who call. Part of the issue is that being Thanksgiving Week many people have called and said they will not be here for early voting and would rather not go to the polls on the actual election date (not sure why since I don't forsee lines of people even though for our City this Runoff is extremely important). They have chosen to do absentee ballot voting but they want to make sure their ballot is counted. That being the case, if the Election office will take an application as late as 5:00 on Friday, November 29th, how is it possible for the Elections office to then send out the ballot to them and you get it back by Tuesday, December 3rd by 5:00 p.m. That is where the questions come in.

Thanks, Marlee.

I have a question regarding your request. If the application must be received by Nov. 29, when must the actual ballot be

AMERICAN OVERSIGHT

postmarked/received by? It would appear that we need to provide two dates—one for the application and one for the ballot. Does that sound correct?

I'm having a hard time finding any definitive information. The best answer I found is that the application must be received 4 days before election day and the ballot must be received by election day, not just postmarked by election day. If so, that doesn't seem possible. If Fulton County receives a request by on mail on Friday, Nov. 29 at 5 PM, I suspect the earliest the ballot would be received by the voter would be on Monday, Dec. 2. The voter would then have to next-day mail the ballot in order for it to be received by Tuesday, Dec. 3. Right? Am I missing something? Is there a **specific cut-off date** that the Absentee ballots must be at the Fulton County office in order to get an Absentee Ballot and get it back to Fulton county for the December 3rd runoff? We are trying to get that information on our website also since we have been getting inquiries about this.

**From:** Evans, Joseph
**Sent:** Wednesday, October 09, 2019 12:07 PM
**To:** Barron, Richard L.; Jones, Ralph; Williams, Nadine; Benjamin, Sharon
**Subject:** Fwd: address for Samuel H. Archer Hall

After this runoff election, we should probably look at changing the address for Archer Hall (04W). The city of Atlanta uses 830 Westview Drive SW with a building number for all Morehouse buildings.

It's kind of confusing as far as decided which address will best benefit voters. We just need to commit to one.

For the runoff, we placed a sign order today to try to get extra signs to put at Morehouse.

Blake

AMERICAN OVERSIGHT

**Subject:** Re: By Mail Absentee Information for Runoff

Several years ago a gentleman came to council after the 2015 runoff to comment that not adequate time was allowed for absentee ballots for individuals in the military oversees. His issue was a lawsuit stating the short time frame for voting was unconstitutional because individuals serving oversees (as well as individuals who reside there for other reasons) are not given adequate notice and therefore are unable to vote.

Joanie - do you know if we have any residents in this situation?

That is the wrong quote from Allied Fence. The one we signed was for 20' sides, not 15'. I'll contact them about it.

I agree. They don't need to install until after DREAM has done a draft layout of the warehouse considering the size of the carts and the size of the precinct scanners.

Do we have a meeting with DREAM on Friday?

**Subject:** RE: College Park Municipal Elections

**How will early votes be tallied and kept secure until election day? How are absentee ballots judged to be truly sent in by the individual voter?**

Every absentee ballot by mail that comes in is verified by matching the signature on the ballot to that of the registered voter's signature on file.

**How will provisional ballots be handled?**

Each provisional ballot is researched to see if the voter is registered and qualified to vote in this election. If the voter is qualified then their ballot is counted.

**Importance:** High

All,

I just received a call regarding campaigning at CT Martin. The caller stated that she just bused a van of seniors to CT Martin and groups supporting candidates Joe Carn, Yoshina Colbert Bradford and Gordon Joyner are in the parking lot with signs campaigning.

She said she went to the polling site last week and complained to the poll manager, and also let her know that she did not see a "NO Campaigning within 150 feet" sign. The poll manager advised that she would post the sign. However, she did not see it today.

The caller's contact information is below:

Rick,

Ms. Daniel said Gordon Joyner 's campaign is outside of the 150 feet sign. His campaign is allowed in the parking lot as long as its outside the 150 feet mark.

C.T. Martin has a huge parking lot.

Thanks

Brenda, here are the edits I made. I am also copying Rick in case he wants to add anything.

Hello Judge Cox,

Per our conversation today regarding the time of reporting for the election results on September 17, I spoke with the Elections Chief, Mr. Blake Evans and two things happened:

1) After polls closed for BOC District 6, many precincts checked in at our South Fulton Service Center located at 5600 [redacted] We had two police escorts ready to drive the memory cards from the South Fulton Service Center to our Elections Preparation Center that evening. Once about half of the precincts arrived, one police escort departed the South Fulton Service Center, and the other waited until the remainder of results arrived. Prior to November 2018, we were allowed to modem results from our check-in centers to our Elections Preparation Center in order to report results quicker; however, the state has requested that we not modem results anymore.

2) After consulting with the Secretary of State's Office, we decided that we would not begin any computation and canvassing of early voting results until all polls closed (including those in Atlanta Board of Education District 2). Therefore, we were not able to begin breaking seals on the early voting equipment until 8:00pm.

In order to report results quicker on October 15th, we are requiring more of the precincts in Board of Commissioners District 6 to drive results directly to our Elections Preparation Center instead of checking in at the South Fulton Service Center. Much of the delay comes from having to transport results from the South Fulton Service Center since we can no longer modem results.

Hello Judge Cox,

Per our conversation today regarding the time of reporting for the election results on September 17, I spoke with the Elections Chief, Mr. Blake Evans and two things happened:

1) After polls closed for BOC District 6, all election documents were to be delivered to the Elections Preparation Center, [redacted] NW, instead of the South Service Center on [redacted] The memory cards were delivered separately by the Police to [redacted]

2) It was decided to wait until Atlanta Public Schools, District 2 Special Election closed at 8 PM, before tablulating BOC District 6 early voting and absentee by mail results.

Hi Blake –

It seems like this is a bug that we are currently unfolding, so thank you for bringing this to our attention. The user has the ability to sort candidates by votes, but it does not seem that the vote type breakdown is moving with the candidate. The product team will work on resolving that issue, and if it can not be fixed in production in time for the next election, we will suppress the ability to sort the candidates for the time being.

Now, I will move forward with the precinct county at the contest detail issue. I'll be back in touch about that one.

Thanks,

Maria

Blake:

How many people do we have to process the EV locations at 7 pm Tuesday night? We might want to add 2-4 people that night from a pool to which Derrick has access. Since it'll be ten sites I want it to be as brisk as possible to close those out and get them tabulated. Find out how many guys Derrick can dedicate to it with his current crew and determine whether we need a few people for that night.

**Subject:** RE: Election results

We can begin counting absentee by-mail ballots at 7:00am on Election Day. The people who process the absentee ballots during the day have to be quarantined until polls close. The results are reported soon after polls close.

We have to wait until polls close to begin breaking seals on early voting machines. Once we break the seals, we remove the memory cards and read the results. We can then report the results.

All early voting and absentee results will be reported Tuesday night along with the Election Day precinct results.

Blake:

How many people do we have to process the EV locations at 7 pm Tuesday night? We might want to add 2-4 people that night from a pool to which Derrick has access. Since it'll be ten sites I want it to be as brisk as possible to close those out and get them tabulated. Find out how many guys Derrick can dedicate to it with his current crew and determine whether we need a few people for that night.

Rick

**Subject:** RE: Election results

We can begin counting absentee by-mail ballots at 7:00am on Election Day. The people who process

AMERICAN OVERSIGHT

the absentee ballots during the day have to be quarantined until polls close. The results are reported soon after polls close.

We have to wait until polls close to begin breaking seals on early voting machines. Once we break the seals, we remove the memory cards and read the results. We can then report the results.

All early voting and absentee results will be reported Tuesday night along with the Election Day precinct results.

Are we changing this on both the Fulton database and the Clayton county database? This race effects two county databases, and I would prefer for the race to look the same in both counties. Have you all discussed this with your legal teams?

Good afternoon,

The City of College Park's ballot needs to have an adjustment to the name due to the last name of a candidate not reflecting its name as registered in the voter registration system.

It is currently listed on the ballot as: Bianca A. M. Broom
Due to the change the candidate has requested to have her name listed on the ballot as : Bianca Angela Motley Broom

"Motley Broom" is her entire last name, middle name Angela.

I included all the email threads to this is below and attached for verification should it be needed. I will come by and pick up the new database once all the ballot proofs have been signed off. Let me know if you need anything else in this matter.

| **Attachments:** | image001.png<br>image002.png |

---

The following need to be inserted into their places. Also, I agreed with Blake on one below regarding provisional ballots.

*Election Day Polls are open: 7 a.m. to 7 p.m.

* You must request an absentee ballot for every election in which you want to vote,…

* You can request an absentee ballot by calling the Fulton County Registration and Election's office.

*Absentee ballots can be returned by voters personally, by a voter's family member, by an individual residing in a voter's household, by a disabled voter's caregiver, or by an employee of a jail where elector is in custody.*

* ~~There are~~ Voting machines designed to accommodate those with disabilities.

**Unofficial Precinct Returns**
The first returns are projected to be available at approximately 9:30 p.m. "Why 9:30? on election night and the final returns are projected to be available at approximately 11:30 p.m.

**Day after Election**
*All results displayed on our web portal on election night are UNOFFICIAL until certified by the Board of Registration and Elections. They include Absentee Ballots but does not include Provisional Ballots.

---

**Sent:** Thursday, October 17, 2019 9:27 AM
**To:** McCloud, Brenda; Barron, Richard L.
**Cc:** Jones, Kelvin; Pressley, Jordan; Benjamin, Sharon; Coman, Pamela; Gilstrap, Derrick; Harris, Johnny; Jones, Ralph; Williams, Nadine
**Subject:** RE: Final Draft of 2019 Voter Guide

Suggestions:

In the Sample Ballot section, I would change "overall view of what is on the Fulton County Ballot" to "overall view of what is on municipal ballots in Fulton County" since there are no county contests.

In the Voter Registration and Address Changes section, shouldn't it say you must be registered to vote at least 29 days prior instead of 30 days?

In the Provisional Ballots section, should we delete the first paragraph? Yes let's delete that.

AMERICAN OVERSIGHT

In the Unofficial Precinct Returns section, please change it to say that "The first returns are projected to be available by 8:00 p.m. on election night and the final returns are projected to be available at approximately 11:30 p.m.

**Subject:** RE: 2019 Voter Guide

Thank you for sending this over, Breauna. I will add it to the guide.

Do you know if the sample ballots are available yet, and if so, where I can find them?

Thanks!
Jess

Vernetta:

We are happy to have you review any rejected applications or rejected ballots in the office before or after any BRE meeting or at any other time. That is consistent with our policy for any citizen that submits an open records request. If you want us to copy anything for you examine the documents, Sante Askin can help you. I feel it is a bad practice to remove absentee applications and envelopes containing ballots from the office for perusal at BRE meetings. I consulted with Mr. Jones and he feels the same in order to avoid losing something and also for appearances sake with regard to Fulton County citizens.

We added a column to our early voting report at your request after the last BRE meeting but Mr. Jones is unaware of any inconsistencies between what appeared on early voting report versus what is available on the SOS site. That information is entered into ElectioNet before we place it on the early voting summary spreadsheet.

Regards,
Rick

Subject: Fulton County Ga- Sept 2019 Unapproved Minutes-Amendment on Page 5

Good Day:

Gentle note that on page 5, there is a bit of misinformation. Please see highlighted excerpt below. Unfortunately, I wasn't able to find the video stream of this meeting to support either my version or your Chair's version of the meeting below. Please include Director Barron statement that he could not bring the rejected ballots to the board meeting because of safety reasons. Mr. Jones did not dispute Mr. Barron's statement nor Mr. Jones did not mention nor provide for review any rejected application for AB nor rejected Absentee Ballots during nor after the September Board meeting. Parenthetically, these documents were not made available prior nor during the subsequent Certification Meeting for the Sept 17th elections.

After the meeting, I did ask Mr. Jones how I could see the rejected AB, he informed that I can come back to the department. I asked him if I should send him an email or call, he insisted that I would not be meeting with him and gave me a name of one of his clerks whom I was unfamiliar. In the past, the chair has been quite honest about her belief that she has autonomy to modify the minutes at will, I think that her summarization below may have unintentionally misrepresented the facts.

Ms. Nuriddin expressed a previous request made to Mr. Barron to inform Mr. Jones to present the Voter Registration rejected Absentee Application for examination. Mr. Jones mentioned the documents are available for review

Madam Chair, I respectfully submit the below amendment to the September Minutes.

Ms. Nuriddin expressed a previous request made to Mr. Barron to inform Mr. Jones to present the Voter Registration rejected Absentee Applications for Absentee Ballots as well as any rejected Absentee Ballots for examination. Mr. Jones mentioned the documents are available for review. Director Barron stated that because of safety reasons, the rejected AB were not made available for inspection at the Board meeting.

I apologize if I am speaking out of turn but the absentee ballot process is the fiduciary responsibility of this board. Further, the BRE is accountable and legally liable for this process. Thank you for considering amending the minutes as suggested. Also,

AMERICAN OVERSIGHT

please let this email serve as another request that all rejected applications for absentee ballots as well as all rejected absentee and provisional ballots be made available for inspection at every elections certification meeting of this Board. I do appreciate the one time that the rejected absentee ballots were made available to this board. During that time, we inspected many rejected ballots which appeared to all been written in the same handwriting. After that election, no other rejected ballots have been presented to this board for inspection. Thank you for your time.

p.s. The reason for my request is that during the September elections there were inconsistencies in the rejected AB ballots reported to the board and what appeared on the Absentee Ballot log downloaded from SOS state's office.

Rick,

Here's the letter I mentioned during the staff meeting. Make any edits you want. Once you are finished with it, I will email a signed letter to the school system.

I think the school system mainly wants something written from us they can reference when people ask them why schools are polling locations.

Mark:

It runs contrary to best practices and in the interest of consistency in polling locations to switch up EV sites between the election and the runoff without a compelling reason, such as the building being unavailable. The city clerk for Johns Creek should have brought this up in July at the clerks meeting or in the two weeks that followed it when we made the locations final.

If Johns Creek asks us to move the location and voters become angry with the change between elections we will bear the brunt of the blowback. We can be accused of disenfranchising voters for moving it, and also we have used Park Place at Newtown before. Whereas, since I've been here we have never used Johns Creek City Hall.

Let me know if you have any questions.

Regards,
Rick

Sharon and Derrick, are you comfortable with the new L&A schedule for the October runoffs? This means L&A for the October runoffs will start the same time as November elections on Thursday.

Just want to make sure everyone is confident we can get everything done on the new timeline.

Thank you all for working this out.

**From:** Barron, Richard L.
**To:** Jones, Ralph; Williams, Nadine
**Cc:** Coman, Pamela; Askin, Sante; Evans, Joseph; Benjamin, Sharon; Bodison, Mariska; Harris, Johnny
**Subject:** RE: November 5, 2017 City of Atlanta Runoff
**Date:** Tuesday, October 29, 2019 12:07:31 PM

---

Sharon or Johnny,

Do you know where this document could be?

_____

From: Jones, Ralph
Sent: Tuesday, October 29, 2019 11:42 AM
To: Barron, Richard L.; Williams, Nadine
Cc: Coman, Pamela; Askin, Sante; Evans, Joseph; Benjamin, Sharon; Bodison, Mariska
Subject: RE: November 5, 2017 City of Atlanta Runoff

I believe this document will be with Elections paperwork.
Registration doesn't keep this document. We usually fill out the absentee and provisionals numbers and hand it off to Elections to finish completing the form.
I believe if you check the Elections documents sent to the warehouse, it might be in there.

**EXTERNAL EMAIL:** Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Everything is ready for you at the warehouse. The address is [redacted] It is at the Election Preparation Center. I have cc'd Derrick Gilstrap, who will be your contact at the warehouse.

I checked with Sante Askin in Voter Registration and she indicated she is unable to find the file for the Absentee Ballot Recap Sheet. Any chance that the previous investigators have a copy of it? Ralph will try to locate on our P: drive, but it seems as though it might have a file name we are unable to recognize or it is on someone's PC on the local drive.

I talked with Mr. Ralph Jones about obtaining a copy of the absentee ballot recap sheet from the November 5, 2017 Runoff Election, but he was not able to provide it. Is there someone else I could talk to about obtaining a copy of the Absentee Ballot Recap Sheet? Thanks, Glenn

Dear Mr. Barron,

Please find attached the poll watcher letters, as promised.

Will the badges be ready by Monday? Do you have a sense for what time? Sara or I will pick them up and distribute them to the poll watchers Monday night.

Thanks so much,
Saira

AMERICAN OVERSIGHT

To: [redacted]
Subject: Precinct Research

Dear Ms. Mary Carole Cooney,

My name is Atticus, I'm with the Associated Press Election Research Team. Last year April Majors spoke to a colleague of mine about a precinct project we were conducting in the state of Georgia for the 2018 General Election. She answered a series of questions they had about seven precincts in Fulton County and instructed us on the best way to obtain results on election night. We will be repeating the same process for next year's Presidential Primary and General Election and I was hoping someone would be able to confirm some of the answers she gave my colleague last year, to make sure nothing has changed, or that you don't want anything done differently on our end.

Here are the questions I have about SC05B:

* Is SC05B still located in Congressional District 13?
* Have there been any boundary changes to SC05B since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?
* Does the precinct still vote at the Cliftondale Community Center?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

Here are the questions I have about SC08F:

* Is SC08F still located in Congressional District 13?
* Have there been any boundary changes to SC08F since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?
* Does the precinct still vote at Banneker School?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

Here are the questions I have about 06R:

* Is 06R still located in Congressional District 5?
* Have there been any boundary changes to 06R since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?
* Does the precinct still vote at the First Presbyterian Church?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

Here are the questions I have about AP09A:

* Is AP09A still located in Congressional District 6?
* Have there been any boundary changes to AP09A since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?
* Does the precinct still vote at Webb Bridge Middle?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

Here are the questions I have about 03A:

* Is 03A still located in Congressional District 5?
* Have there been any boundary changes to 03A since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?
* Does the precinct still vote at Allen Temple AME Church?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

Here are the questions I have about SS14:

* Is SS14 still located in Congressional District 11?
* Have there been any boundary changes to SS14 since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?

AMERICAN OVERSIGHT

* Does the precinct still vote at Ridgeview Charter Middle School?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

Here are the questions I have about SS29A:

* Is SS29A still located in Congressional District 6?
* Have there been any boundary changes to SS29A since the 2018 General Election?
  * If not, do you know the last year that there were boundary changes to the precinct?
* Does the precinct still vote at First Baptist Church Sandy Springs/Cumberland Academy?
  * If so, do any additional precincts also vote at that polling location?
* Will the precinct results on election night include absentee votes?
* In 2018 there was a single tape of results posted, will that be the case again? Or, will there be multiple tapes which will need to be added up?
* Will your county website have precinct level results on election night?

In 2018, election night results were posted at the polling locations of the abovementioned precincts for the public to view. Will that be the case again in 2020? Will any additional credentials be required to access the results?

My most sincere thanks for your time and consideration with these questions.

Best,

Atticus

Department

Hello,

For items 3 & 4, DREAM simply needs a completed project request form which I'll forward shortly. Once that form is returned, we'll assign a project manager to meet with Elections staff to walk the two projects to get an understanding of what's desired. Our next step would be to have our Construction division obtain installation/construction quotes for review.

Thanks.

Hello,

AMERICAN OVERSIGHT

For items 3 & 4, DREAM simply needs a completed project request form which I'll forward shortly. Once that form is returned, we'll assign a project manager to meet with Elections staff to walk the two projects to get an understanding of what's desired. Our next step would be to have our Construction division obtain installation/construction quotes for review.

Thanks.

warehouse.

I know we have annual contracts in place with IT for security/surveillance systems and cameras and DREAM has contracts for fencing and construction/renovations. Please advise how Registrations and Elections should proceed.

Yeah. That is what we are going to talk about today. Something is seriously wrong with it. They've replaced all the cylinders, one cylinder twice, the catalytic converter, all the fuel injectors and all the spark plugs and some twice.

Hello,

AMERICAN OVERSIGHT

For items 3 & 4, DREAM simply needs a completed project request form which I'll forward shortly. Once that form is returned, we'll assign a project manager to meet with Elections staff to walk the two projects to get an understanding of what's desired. Our next step would be to have our Construction division obtain installation/construction quotes for review.

Thanks.

Joseph Davis
Director
DREAM

AMERICAN OVERSIGHT

to current security/surveillance systems

2. Upgrades to cameras
3. Fencing inside of the warehouse located at [redacted] in anticipation of the new voting systems which will have to be secured
4. Renovation of a room into a training room at the warehouse.

I know we have annual contracts in place with IT

AMERICAN OVERSIGHT

for
security/surveillance
systems and
cameras and
DREAM has
contracts for
fencing and
construction/renovations.
Please advise
how
Registrations
and Elections
should proceed.

Ms. Strong-Whitaker,

Hope you are doing well! I am trying to figure out the process for our elections office to get quotes to purchase certain items. Specifically, we are considering upgrades to our security/surveillance system at our Election Preparation Center. What process do I need to follow to begin getting quotes?

Thank you!

**From:** Barron, Richard L.
**To:** [redacted]
**Cc:** Evans, Joseph; Bodison, Mariska
**Subject:** RE: Request for assistance
**Date:** Thursday, October 3, 2019 12:18:49 PM

---

Blake:

I'm in this HEROES training all day. Mary Carole needs statistics, as you will see below. Can you please get her some statistics? Mariska, can you send Mary Carole the one page handout regarding the new voting system?

Mary Carole, we have only received our demo unit thus far. I expect no delivery of new equipment until after the December runoff. We need the State to retrieve all of the old equipment from our warehouse before we can accept new equipment.

Counties are starting to receive training this week, except for the pilot counties, who received training three weeks ago. Six counties are using the new equipment in November and December. They will report to us their experience at the December meeting.

We have submitted a financial request to Fulton County for extra equipment and accessories and more personnel because although the State has been generous in funding the bulk of the new system some counties are receiving less than they should. Fulton County also has the smallest staff of the four largest counties in Georgia in spite of being the biggest county. We have more than 833,000 registered voters in Fulton County.

If anyone wants to set up a demonstration of the new voting system at an event they can contact Brenda McCloud at 404-612-7020. We will limit the number of demos until after Election Day in November because we only have one demo unit and we are conducting the runoff for APS 2 and CD 6, on top pf beginning early voting for the municipal general elections.

Vote early! Visit fultonelections.com for more information. Perhaps Mariska can send you an early voting flyer for November.

Thanks,
Rick

Subject: Request for assistance

Rick, I've been invited, because I'm an elected County official and a woman, to be a guest at a celebration in Milton on Sunday of the centennial of American women's suffrage. I would be grateful if you would throw me a few facts to deliver if I'm called upon to give a speech – they are vague about what I'm supposed to do.
Can you tell me the following:

· What is the November election in Milton for – mayor, council?

· How many machines and poll workers will we deploy for early voting and election day?

· Likelihood of run-off in December?

· County-wide, how many new voting machines will we deploy for the March PPP and how many poll workers?

· Any other acts you think might impress my audience?

AMERICAN OVERSIGHT

Thank you for any assistance you can lend to my being an impressive speaker. Mary Carole

**Subject:** Response to Commissioner Hausmann

Commissioner Hausmann called about an issue at East Roswell Branch Library in regards to voters being turned away. Below is the response I plan to send her. Please let me know if it needs to be edited.

Commissioner Hausmann,

After talking with our team and our early voting workers at East Roswell Branch Library, we determined that voters in precinct RW20 had to check-in by filling out manual absentee applications rather than receiving pre-filled applications from the poll workers. We use EasyVote for checking in voters. If the system loses connection the voter fills out his or her information rather than receiving a pre-filled application that can be verified with an initial. We are the only county in the state that issues pre-filled absentee applications for early voting. The issue was addressed earlier this morning, and unless connection is lost we anticipate no additional problems throughout the remainder of the early voting period.

Additionally, the early voting manager at East Roswell Branch Library confirmed that one of her clerks asked a voter in RW20 to come back later after the check-in process was working properly again. The clerk has since been corrected. Proper procedure is to check-in voters using a manual application if EasyVote is down.

If you hear of any other difficulties, please let us know.

Thank you,

FULTON COUNTY

**To:** Evans, Joseph; Barron, Richard L.
**Subject:** Re: Someone please call Betty

Marie says Mrs. Price has been very rude to her.

I can upload the training file from home. I just need someone to send me the spreadsheet from InfoAdvantage.

I am currently at the doctor office. I will do it as soon as I arrive at home.

Thanks

Once she gets access to the online training, she's probably going to be disappointed because of how short it is. It only takes 15-20 minutes to complete because we cover all the important material in hands-on class.

Rick, Marie spoke to Betty Price. Price says cant log in to online training because it requires your SS#. Marie told her it maybe a few days before it is in the system. Price tells me that you all are stonewalling her!!!! Price says now she has trouble with enrolling for class room training. Can someone get her on track please?

Hi Rick and Brenda,
The 3048 Touch machines we are getting from the State are sufficient for us to run the elections ? That number includes backups ?

---

**Cc:** Anderson, Dick; Husserl, James
**Subject:** RE: Soundings request for elections

Chris Harvey, State Election Director, told me today that the State might cover maintenance costs for ten years. That would not cover warranty costs. For two years, all maintenance and warranty costs will be covered by the State, but after that, the State may continue to pay maintenance costs for ten years.

The State may provide a small amount of money for discretionary spending for toner, paper, tables, carts, etc., but that depends upon whether they cover ten years of maintenance fees.

Once the Presidential Preference Primary concludes, and probably the General Primary, we will have a better idea how the new voting system will affect our costs long term. We may need to adjust supplemental staff after two elections.

Hi Ellis:

Now that the State of Georgia has signed a contract with Dominion Voting Systems, we have more clarity on the allocation of equipment for Fulton County. We have more details on what the State is providing counties and how this will impact our operations.

I have attached a soundings request with several attachments that support the request.

If you would like to meet to discuss this request, please let me know.

Thanks,
Rick

**Subject:** RE: Soundings request for elections
**Date:** Wednesday, September 11, 2019 6:00:00 PM
**Attachments:** Voting System Allocation for Fulton County.xlsx

---

The peripherals, such as the cables for the BMDs and printers come with them. We currently have 3058 DREs. We are receiving the same number of BMDs each with an accompanying printer.

I have let the State know that we should be receiving more poll books than Cobb County, which is currently not the case. Cobb has a larger allocation than us. I told them that we would need at least 100 more because we were always at full use when we had 663 Express Polls. We usually had no backups and we needed more in the field.

A new bus, fully outfitted for our system would be $230,000-$250,000.

If we were to get two buses and reduce our early voting site numbers by two that would save us $50,000 per election. After 9-10 elections the bus and early voting sites savings would be a wash. We could have one bus for the north and one for the south that would visit up to 19 sites per large election. On Election Day, those buses could serve as a backup to a site that needed to close or could also serve as a stopgap for any sites that were experiencing heavier than anticipated turnout. Each bus would be outfitted with at least ten voting stations and a check in desk. The current demo model they have for an earlier voting system has 15 voting stations. During the year when Elections isn't using the buses, perhaps they could be used by other departments, such as the Police or Sheriff for community relations or the library system or whomever else would want to borrow them.

The forklift we are leasing is $1,700 per month, which is very expensive.

We are getting two years of warranty and maintenance from the State. After that, we may get eight additional years of maintenance, but no more warranty. The State will decide upon that soon.

The secure carriers slash voting stations are an essential piece of election success. If we don't get the carriers we are going to have to get something to transport them in and secure them, plus tables for all of the polling places and we will also have to buy privacy screens. Additionally, the units will be harder to deliver and harder to secure from the public after we deliver.

Great.

I will try to schedule a meeting this week (let's see if Friday works) to review your request with Dick.

They have a number of questions and are trying to do the following

AMERICAN OVERSIGHT

1) Dick and Sharon wanted to get a good understanding of what is the "Expected Package" that should come with each voting machine. In other words, one voting machine should come with 2 printers, 1 high speed scanners, and so on. What are the peripheral items with each machine. What items are not peripheral (system wide)
2) Are we getting what we need from the State ? If not, what assumptions or assessment are you making to come to that conclusion. What is missing (number of units coming back to the peripheral components).
3) How does the equipment we are receiving compare to what we currently have ? How many voting machines do we currently have that are active ? What does the State have that belongs to us? If we are getting 3048, how does that compare to what we currently have ? Are we better or worse.

We know we will be going through a testing period during the primary season and we would really like to know what infrastructure is essential to ensure we can hold a seamless primary process.

I will try to send an invite. Let me know if that works.

**Subject:** Training for Next Week

A reminder that we need the names of the 3 to 4 staffers that are attending the training on Tuesday and Wednesday, October 8 and 9th, from 9am to 4pm.

Please let me know if you have any questions.

The following is the information.

Clayton - DeKalb - Douglas – Fayette – Fulton – Gwinnett - Henry - Rockdale

Your county is scheduled for the Tuesday and Wednesday, October 8-9, 2019, Dominion Voting System Training at the SOS-CES Office located at 120 Interstate North Parkway, Suite

AMERICAN OVERSIGHT

210, Atlanta 30339.

The training will be from 9am to 4pm (could extend later if needed) both days. We ask that you not arrive more than 30 minutes before class time. The instructors need time to set up and get ready for the day.

Each county can bring 3 to 4 individuals. Please be aware that the ideal seating is three individuals at a table. If you send more than three, the overflow will be at a table without a laptop. The laptop set up simulates the EMS (Elections Management System).

This training is for the Election Superintendent for each county and any support staff that operate the elections in your county. This is not board member training unless the board member is one of the hands on, working members of the office for L&A, Advanced in Person Voting and Absentee by Mail, Tabulation and Election Management System operations.

There are a few restaurants close by for lunch. Some are even in walking distance from the office.

Parking at the office complex is limited. Please do not park in spaces designated for other businesses. Carpooling is helpful.

Please provide the list of names, titles and email addresses for the staff members that are attending training. I would like to have these names by Friday, October 4, 2019.

The only things you need to bring are pens, highlighters and notepads.

Best regards,

Melanie H Frechette

Here's what we got so far:

1. New poll books, which were programmed exactly the same as the original poll books, were delivered to the precinct before 7am. The new poll books arrived locked and sealed in their cases, and they were accompanied by the appropriate paperwork. No voters were impacted.

2. The Government Center is in APS District 2. Please see attached map.

3. Still investigating

4. Still investigating

5. We cannot investigate this because there is no voter information.

6. Sante confirmed that zero ballots were rejected due to this delay.

7. We are confident that all results from this election are accurate, true, and valid.

I'll forward it to them. She does this every time she loses an election.

Nathaniel Dyer wants a new election, too.

They finished a distance 6th and 7th in the results. Mr Dyer blames us for the low turnout, but turnout is the responsibility of the candidates. District 2 did have an EV site, but APS only wanted one location.

**Cc:** Evans, Joseph
**Subject:** Someone please call Betty
**Date:** Monday, October 7, 2019 1:58:19 PM

---

Rick, Marie spoke to Betty Price. Price says cant log in to online training because it requires your SS#. Marie told her it maybe a few days before it is in the system. Price tells me that you all are stonewalling her!!!! Price says now she has trouble with enrolling for class room training. Can someone get her on track please?

# COUNTY MANAGER'S EXECUTIVE TEAM MEETING AGENDA

**Tuesday, November 25, 2019**
**9:30 a.m. – 11:30 a.m.**
**Fulton County Government Center**
**Conference Room 4056**

**MISSION STATEMENT:**
To deliver efficient, high-impact service to every resident and visitor of Fulton County

**MOTTO:**
Because we care, we serve!

**COUNTY SECURITY**
*404-612-4279*

**CUSTOMER SERVICE**
404-612-4000

**DREAM EMERGENCY**
404-612-0179

**NEXT EXECUTIVE TEAM MEETING**
**December 9, 2019**

**Call to Order**

**Departmental Announcements**

**All Departments:**

- Operational/Proactive Excellence
- Public Communications

**Legal**

**BOC Agenda Review**

**Q&A/Adjournment**

**Reminders and Announcements: Mark Your Calendars**

- In observance of the Thanksgiving Holiday, the County will be closed on Thursday and Friday, November 28th & 29th, 2019.
- The deadline to submit items to the County Manager for approval for the December 4th BOC is Tuesday, November 26th) and all add-on Agenda items require the County Manager's approval.
- Please remember to wear your County issued identification badge at all times for safety purposes. Online Security Awareness Training continues through December 15, 2019.
- Memos addressed to the BOC from Department Heads must go "Through" the County Manager and the department head's Chief Officer. No memos should be distributed to the BOC without the County Manager and Chief Officers' review and signature of approval.
- Please allow a 2 week planning period for all Agenda items (e.g. Resolutions, IGAs, contracts, and MOUs) that require the County Attorney's Office legal review, and please remember to adhere to the SIRE BOC Agenda Schedule.
- The deadline for department heads to submit memos to the County Manager's Office for distribution to the BOC is **3:00 p.m.** Memos received after 3:00 pm will be distributed the following business day.

AMERICAN OVERSIGHT

**(1)** Counties and municipalities shall use electronic ballot markers and ballot scanners for in-person absentee balloting in accordance with the Georgia Election Code (O.C.G.A. Ch. 21-2) and these rules. As used in this rule, the term "registrar" or “registrars” means a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, and the designee of any board of registrars, board of elections and registration, or joint county-municipal board of elections and registration.

**(2)** Electronic ballot markers and ballot scanners shall be configured and tested in accordance with the provisions of Rule 183-1-12-.08 prior to use in absentee balloting. Public notice of the time and place for such configuration and testing of the electronic ballot markers and ballot scanners to be used for absentee balloting shall be given in accordance with O.C.G.A. §§ 21-2-374 and 21-2-379.25 and Rule 183-1-12-.08 prior to such configuration and testing.

**(3)** The electronic ballot markers and ballot scanners to be used for in-person absentee voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one electronic ballot marker configured for use by physically disabled electors at each advance voting location.

**(4)** Voter access cards for use in electronic ballot markers for in-person absentee balloting may be encoded by use of an electronic poll book or other device approved by the Secretary of State. The registrar may also utilize the correct access code to manually bring up the correct ballot on the touchscreen.

**(5)** Magnifying devices shall be available at advance voting locations to assist voters in reviewing their paper ballots.

**(6)** On the first day of the absentee voting period, prior to any votes being cast on ballot scanners, the registrar shall verify that the seals for each electronic ballot marker, ballot scanner, and ballot box are intact and that there is no evidence or indication of any tampering with the seal or the component. The registrar shall verify that the number of the seal matches the number of the seal recorded for that component when such component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or component, the Secretary of State and the election superintendent shall be immediately notified and such component shall not be used until such matters are resolved by agreement of the Secretary of State, the election superintendent, and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the voting system components and to prevent interference with the duties of the registrars. The registrar and two sworn witnesses shall run a zero tape on each ballot scanner prior to the beginning of absentee voting on those scanners, and the registrar and the two witnesses shall sign the zero tape in the space provided. The registrars shall verify that the electronic ballot markers and ballots scanners all indicate zero counts prior to the

AMERICAN OVERSIGHT

opening of the polls. If the tape does not show zero votes prior to the start of voting, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. The registrar and the same two sworn witnesses who signed the zero tape shall inspect and confirm that the ballot box associated with that scanner is empty and contains no ballots or other unauthorized matter, and shall verify that fact in writing on a form to be developed by the Secretary of State. Such form shall include the date and time it was executed, shall be attached to the zero tape generated by ballot scanner attached to that ballot box, and shall be returned to the election superintendent at the close of the voting period with the other paperwork from the voting location. The registrars shall verify that there is no unauthorized matter affixed to the electronic ballot markers, ballot scanners, or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting that has been approved or provided by the Secretary of State.

**(7)** At the close of voting each day during the absentee voting period, the registrar shall power off each ballot scanner. If at the close of voting on any day during the absentee voting period, there are more than 1,500 ballots inside any ballot box, the registrar and two sworn witnesses shall unseal the ballot box, remove the paper ballots, and place the ballots in one or more durable, portable, secure, and sealable containers. The registrars shall complete and affix to each container a form identifying the early voting location, the early voting dates that the ballots were cast, ballot scanner serial number, the number assigned to that ballot scanner for that specific election, the count of the ballots from the ballot scanner, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the registrar and the two witnesses such that it cannot be opened without breaking the seal. The ballot box shall be resealed, and the new seal numbers shall be documented. The registrar and at least one sworn witness shall deliver the ballot container to the election superintendent for secured storage until time for the tabulation of votes, and the election superintendent shall complete a chain of custody form indicating the delivery of the secure container. The form shall be signed by the registrar and any witnesses who travelled with the registrar indicating that no sealed documents were unsealed enroute and have not been tampered with. In the discretion of the registrar, the same procedure for emptying the ballot box may be followed if there are less than 1,500 ballots in the ballot box at the end of any early voting day, but the ballot box shall not be opened while voting is taking place except as authorized by Rule 183-1-12-.10(5).

**(8)** At the close of voting each day during the absentee voting period, the registrars shall document the election counter number from the ballot scanners on the daily recap sheet. The memory cards shall remain in the ballot scanner at all times during the absentee balloting period until the polls close on the day of the primary, election, or runoff. Each electronic ballot marker and ballot scanner shall then be sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each electronic ballot marker and ballot scanner shall then be secured overnight. Such overnight security shall include physically locking the room and either video surveillance or human monitoring. In addition, all voter access cards shall be securely stored overnight and when not in use.

**Commented [BRL1]:** The zero tape that is run on the first morning should be removed and held in sealed bag until the end of early voting. We should also change in-person absentee voting to early voting throughout the SEB Rules. In-Person absentee is awkward and confuses voters.

**Commented [BRL2]:** We have to purchase camera monitoring systems or hire overnight security for each early voting site? We will have 24-30 going per day next year. We are paying $2.6 million for secure carriers that BMDs and printers and scanners will be secured inside every night in each polling station. The voters will be voting from them as the equipment will be securely affixed inside before they leave the warehouse. Is the State going to provide funds to purchase camera systems or offset security personnel costs?

AMERICAN OVERSIGHT

**(9)** Each morning during the early voting period prior to voting beginning, the registrars shall publicly verify the seal numbers on each electronic ballot marker and ballot scanner to be used for absentee voting with the number of the seal recorded on the daily recap sheet from the previous day of absentee voting and shall verify that the seals do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the electronic ballot markers and ballot scanners shall be turned on. If the numbers do not match or there is evidence of tampering, the Secretary of State shall be notified immediately and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. After turning on the ballot scanners, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of absentee voting. If the numbers do not match, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day.

**(10)** Voters who vote absentee ballots in person shall first complete an absentee ballot application and sign an oath, which may be on the same form and may be on paper or digital. After the registrars determine that the voter is eligible to vote, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. Each voter shall be offered instruction by a registrar in the method of voting on the voting system, including specific instruction to review their printed ballot prior to scanning it. In providing such instruction, the registrar shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question. The voter shall then be issued a voter access card programmed with the correct ballot style or the registrar shall use the correct access code to manually bring up the correct ballot on the electronic ballot marker. The voter shall then enter the enclosed space in the early voting location and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen unit, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll worker.

**(11)** The registrar shall ensure that the early voting location is sufficiently staffed and that a poll worker is stationed at every ballot scanner in use in the polling place while voting is occurring. The poll worker stationed at the ballot scanner shall verbally instruct every voter to review his or her paper ballot prior to placing it into the ballot scanner and to alert a poll worker if the voter needs to make any corrections.

**(12)** At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrar shall record the election counter number from each ballot scanner on the daily recap sheet. The registrar and two sworn witnesses shall unseal the ballot box, remove the paper ballots, and place the ballots in one or more durable, portable, secure, and sealable containers. The registrars shall complete and affix to each container a form identifying the early voting location, the early voting dates that the ballots were cast, ballot scanner serial number, the number assigned to that ballot scanner for that specific election, the count of the ballots from the ballot scanner, and the date and time that the ballot box was emptied. The

AMERICAN OVERSIGHT

container shall be sealed and signed by the registrar and the two witnesses such that it cannot be opened without breaking the seal. The ballot box shall be resealed, and the new seal numbers shall be documented. The registrar and at least one sworn witness shall deliver the ballot container to the election superintendent for secured storage until time for the tabulation of votes, and the election superintendent shall complete a chain of custody form indicating the delivery of the secure container. The form shall be signed by the registrar and any witnesses who travelled with the registrar indicating that no sealed documents were unsealed enroute and have not been tampered with. The ballot scanners shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The ballot scanners and ballot containers shall then be secured until time for the tabulation of votes.

**(13)** At the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the ballot scanners used for in-person absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal numbers of each ballot scanner with the numbers recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct.

**Commented [RB3]:** In 13-15 is this saying that on Election Day that we must deliver the voted early voting ballots to the early voting poll managers for them to verify the counts and print tapes from early voting? Then, after verifying seals and such, they post ta tape on the door of the EV site? Or, is this done on the last day of early voting? This is unclear to me.

**(14)** After verifying the seal number and the integrity of the seal on each ballot scanner, the poll managers shall open each ballot scanner and turn on the power. The managers shall then compare the numbers shown on the election counters of the ballot scanners with the numbered list of absentee electors and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The poll manager and two witnesses sworn as poll workers shall cause each ballot scanner to print a minimum of three tapes showing the vote totals as cast on that ballot scanner. The poll manager and the two witnesses shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each ballot scanner shall be posted on the door of the absentee ballot precinct for the information of the public. One tape shall be placed into an envelope provided by the election superintendent along with one of the memory cards from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The envelope shall be initialed by the poll manager and the two witnesses indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the absentee precinct recap form.

AMERICAN OVERSIGHT

**(15)** After completing the printing of the results, the ballot scanners shall be turned off, secured, and resealed. The ballot scanners shall then be placed in a secure area with appropriate climate control. The envelopes containing the memory cards and results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other sworn poll worker. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials. The poll manager and any poll workers who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with.

**(16)** Any notices to the Secretary of State about discrepancies in numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has initiated an investigation of the matter.

CITY COUNCIL
ATLANTA, GEORGIA

**19 R 5075**

**A RESOLUTION**
**BY COUNCILMEMBER CARLA SMITH**

**TO CALL A REFFERENDUM TO REIMPOSE A SPECIAL ONE PERCENT, (1%), SALES AND USE TAX TO FUND WATER AND SEWER PROJECTS AND COSTS, SUBJECT TO REFFERENDUM APPROVAL; TO REGULATE AND PROVIDE FOR THE CALLING OF AN ELECTION AND TO CALL AN ELECTION TO DETERMINE THE REIMPOSITION OR NON-REIMPOSITION OF THE SALES AND USE TAX; TO SPECIFY THE AGGREGATE MAXIMUM COSTS OF SUCH PROJECTS AND MAINTENANCE AND OPERATION COSTS TO BE FUNDED BY THE SALES AND USE TAX; TO SPECIFY THE MAXIMUM PERIOD OF TIME THE SALES AND USE TAX WILL BE REIMPOSED; AND FOR OTHER PURPOSES.**

**WHEREAS,** pursuant to Article 4, Chapter 8 of Title 48 of the Official Code of Georgia Annotated, on July 20, 2004, the City of Atlanta (the "City") called a referendum to impose a special one percent sales and use tax to partially fund the City's water and sewer projects and costs and the residents of the City voted to impose such tax; and

**WHEREAS,** such special one percent sales and use tax was in effect from October 1, 2004 to September 30, 2008, and was able to be reimposed; and

**WHEREAS,** pursuant to Article 4, Chapter 8 of Title 48 of the Official Code of Georgia Annotated, on February 5, 2008, the City called a referendum to reimpose a special one percent sales and use tax to partially fund the City's water and sewer projects and costs and the residents of the City voted to reimpose such tax; and

**WHEREAS,** such special one percent sales and use tax was in effect from October 1, 2008 to September 30, 2012, and was able to be reimposed; and

**WHEREAS,** pursuant to Article 4, Chapter 8 of Title 48 of the Official Code of Georgia Annotated, on March 6, 2012, the City called a referendum to reimpose a special one percent sales and use tax to partially fund the City's water and sewer projects and costs and the residents of the City voted to reimpose such tax; and

**WHEREAS,** such one percent sales and use tax was in effect from October 1, 2012 to September 30, 2016, and was able to be reimposed; and

**WHEREAS,** pursuant to Article 4, Chapter 8 of Title 48 of the Official Code of Georgia Annotated, on March 1, 2016, the City called a referendum to reimpose a special one percent sales and use tax to partially fund the City's water and sewer projects and costs and the residents of the City voted to reimpose such tax; and

AMERICAN OVERSIGHT

GA-FULTON-20-1047-A-001790

**WHEREAS,** such one percent sales and use tax was in effect from October 1, 2016 to September 30, 2020, and was able to be reimposed; and

**WHEREAS,** the City Council of the City of Atlanta (the "City Council") is the governing authority of the City, a municipal corporation, created and existing under the laws of the State of Georgia, and is charged with the duties of levying taxes, contracting debts, and managing the affairs of the City; and

**WHEREAS,** it appears to the City Council that the most feasible plan for funding a portion of the City's water and sewer projects and costs is to reimpose a special one percent sales and use tax, upon the termination of the special one percent sales and use tax presently in effect, pursuant to Article 4 of Chapter 8 of Title 48 of the Official Code of Georgia Annotated; and

**WHEREAS,** under Article 4 of Chapter 8 of Title 48 of the Official Code of Georgia Annotated, it is necessary to submit to the qualified voters of the City the question of whether a special one percent sales and use tax should be reimposed to fund water and sewer projects and costs.

**THE CITY COUNCIL OF THE CITY OF ATLANTA, GEORGIA,** hereby resolves that there is hereby reimposed upon termination of the special one percent sales and use tax presently in effect within the City, a special sales and use tax at the rate of one percent, pursuant to Article 4 of Chapter 8 of Title 48 of the Official Code of Georgia Annotated, subject to approval by a majority of the qualified voters residing within the corporate limits of the City voting in the referendum called below, for a maximum period of time of 16 calendar quarters, for the purposes of funding water and sewer projects and costs, at the aggregate maximum cost of Seven Hundred Fifty Million Dollars and Zero Cents ($750,000,000.00).

**BE IT FURTHER RESOLVED,** there is hereby authorized to be called and there is hereby called an election to be held in all precincts in the City on Tuesday, March 24, 2020, which was chosen by the Secretary of State of the State of Georgia for the presidential preference primary pursuant to Georgia law, for the purpose of submitting to the qualified voters of the City the question of whether a special one percent sales and use tax should be reimposed within the City, upon the termination of the special one percent sales and use tax presently in effect, for a maximum period of time of 16 calendar quarters, for the purposes of funding water and sewer projects and costs, at the aggregate maximum cost of Seven Hundred Fifty Million Dollars and Zero Cents ($750,000,000.00).

**BE IT FURTHER RESOLVED,** that the ballot to be used in the election shall have printed thereon the question to be determined by the voters, to wit:

> "Shall a special 1 percent sales and use tax be reimposed in the City of Atlanta for a period of time not to exceed 16 calendar quarters and for the raising of not more than Seven Hundred Fifty Million Dollars and Zero Cents ($750,000,000.00) for the purpose of funding water and sewer projects and costs?"

The ballot shall have printed thereon the word "YES" and the word "NO" so that each voter may vote in either the affirmative or the negative as to the question propounded. The polls in each of

AMERICAN OVERSIGHT

the precincts within the City shall be opened at 7:00 a.m. and close at 7:00 pm. On the day fixed for the election, and the election shall be held at the regular and established places for holding elections in the City. Notwithstanding any provision of this resolution, the election shall be held in accordance and in conformity with the Constitution and the laws of the United States of America and of the State of Georgia.

**BE IT FURTHER RESOLVED,** that the Fulton County Board of Elections and Registration is hereby appointed as the Municipal Election Superintendent to conduct the election, to receive from poll officers the returns of the election, to canvass and compute such returns, to certify as soon as practicable following the election the results thereof to the Council, and to take such other actions in the premises as provided by law.

**BE IT FURTHER RESOLVED,** that the Municipal Clerk is hereby ordered and directed forthwith to furnish the Municipal Election Superintendent of the City with a duly certified copy of this resolution in order that the Municipal Election Superintended may take action as provided by law.

**BE IT FINALLY RESOLVED,** that the notice attached as Exhibit "A" shall be incorporated into the call of the election by the Municipal Election Superintendent.

## EXHIBIT A

### NOTICE OF SALES AND USE TAX ELECTION TO THE QUALIFIED VOTERS OF THE CITY OF ATLANTA

YOU ARE HEREBY NOTIFIED that Tuesday, March 24, 2020, the date chosen by the Secretary of State of the State of Georgia for the presidential preference primary pursuant to Georgia law, an election will be held in all of the precincts of the City of Atlanta (the "City"). At the election there will be submitted to the qualified voters of the City for their determination the question of whether a special one percent sales and use tax should be reimposed within the City, upon the termination of the special one percent sales and use tax presently in effect, for a maximum period of time of 16 calendar quarters, for the purposes of funding water and sewer projects and costs, at an aggregate maximum cost of Seven Hundred Fifty Million Dollars and Zero Cents ($750,000,000.00).

Voters desiring to vote for the reimposition of such sales and use tax shall do so by voting "YES" and voters desiring to vote against the reimposition of such sales and use tax shall do so by voting "NO," as to the question propounded to-wit:

> "Shall a special 1 percent sales and use tax be reimposed in the City of Atlanta for a period of time not to exceed 16 calendar quarters and for the raising of not more than Seven Hundred Fifty Million Dollars and Zero Cents ($750,000,000.00) for the purpose of funding water and sewer projects and costs?"

The several places for holding the election shall be in the regular and established precincts of the City, and the polls will be open from 7:00 a.m. to 7:00 p.m. on the date fixed for the election. Those qualified to vote at the election shall be determined in all respects in accordance and in conformity with the Constitution and the laws of the United States of America and of the State of Georgia.

This notice is given pursuant to joint action of the City Council of the City of Atlanta and the Municipal Election Superintendent of the City.

# Fulton County Board of Registration and Elections Certifies Election Results

**ATLANTA** – During its September 23, 2019 Board meeting, the Fulton County Board of Registration & Elections certified the results of the September 17, 2019 election for Fulton County Commission District 6 and Atlanta Board of Education District 2. The results include the candidates moving forward to the runoff election for the two races:

Board of Commissioners: District 6
Joe Carn: 1607
Gordon Joyner: 1223

Atlanta Board of Education: District 2
A. Baldon: 342
D. Huntley: 282

The runoff election will be held on October 15, 2019. The Polls will open at 7:00 a.m. and close at 7 p.m. in Commissioner District 6, but stay open until 8 p.m. within Atlanta Board of Election District 2.

AMERICAN OVERSIGHT

SECURE THE VOTE

Dear Friend,

Today Georgia launched Secure the Vote—an inclusive voter education effort for our new secure, verifiable paper-ballot system. In this effort we will need your help to engage voters in Georgia and your county.

We launched the **SecureVoteGA.com** website to help aid in your education outreach efforts. It includes videos, frequently asked questions, printable handouts, and other resources to help your effort to educate your voters.

As you know, the state has made the significant investment to purchase all the equipment and peripherals necessary to run elections in your county for the next ten years.

1. **You will NOT need to purchase software licenses for the equipment.**

2. Each county will be provided a **Mobile Ballot Printer**—lowering overall costs for absentee, provisional and backup paper ballots.

3. We have also increased the investment in **high-speed central scanning**, which will aid in counting absentee ballots, auditing and recounts.

4. At the conference we will be launching a **matching grant program** that will be discussed and capped at $10,000 to $15,000 for capital investments (non-consumables).

This is a significant investment and should signal to each of you the importance we are placing on securing each and every eligible vote.

With this partnership and investment, we encourage you to help us spread the message, train your poll workers, and educate your voters about Secure The Vote by sharing **SecureVoteGA.com** on social media, in your emails, and any other communications outlets you use.

Thank you for working with us to Secure every Georgian's Vote. Our whole team looks forward to seeing you at the Conference in Savannah.

Sincerely,

Brad Raffensperger

Brad Raffensperger
Secretary of State
SECURE THE VOTE

## Rule 183-1-12-.01 Conduct of Elections

1. Beginning with the 2020 Presidential Preference Primary, all federal, state, and county general primaries and elections, special primaries and elections, and referendums in the State of Georgia shall be conducted via an Optical Scanning Voting System as defined by O.C.G.A. 21-2-1(19.1). Voting at the polls, including both Election Day and absentee-in-person voting shall be conducted via ballots marked by electronic ballot markers and tabulated by ballot scanners. The electronic ballot markers and ballot scanners shall be supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. Absentee-by-mail voting shall be conducted through the use scanning ballots tabulated by a ballot scanners.

2. The Superintendent shall ensure that every polling place and advance voting location has a sufficient number of blank paper ballots that can be marked by pen available for use in the event of emergency.

## Rule 183-1-12-.02 Definitions

(HOLD)

## Rule 183-1-12-.03 Acceptance Testing

(1) Acceptance tests. Upon the receipt of new or repaired components of the voting system, including electronic ballot markers (which consists of both a touchscreen and a printer), ballot scanners, electronic poll books, and election management systems, the election superintendent of the county is responsible to ensure that an acceptance test has been performed on the device in accordance with standards issued by the Secretary of State. No component of the voting system shall be placed into service until such time as the unit satisfactorily passes the prescribed acceptance tests.

## Rule 183-1-12-.04 Storage, Maintenance, and Transport of Statewide Voting System Components.

1. The election superintendent of the county shall maintain all components of the voting system (including electronic ballot markers, ballot scanners, electronic poll books, and election management systems) in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.
2. All electronic components of the voting system shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 0 degrees Celsius (32 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 20 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such components. The components shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the components are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such components or such

AMERICAN OVERSIGHT

space. The components shall be stored in their packaging boxes or carrying cases with foam inserts and shall not be stacked more than four units high. The back-up battery for the ballot scanner shall be charged at least every 9 months.

3. The storage areas for the voting system components shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department.

4. The election Superintendent shall maintain numbered seals on all electronic ballot markers and ballot scanners in storage and all seal numbers shall be recorded and on file in the office of the election superintendent.

5. All components of the voting system shall be securely transported to polling places. Electronic ballot markers (including printers) and ballot scanners shall be transported in secure boxes or carrying cases with foam inserts to provide vibration and impact protection.

6. Upon delivery to a polling place in preparation for a primary, election, or runoff, all components of the voting system shall be secured and protected from unauthorized access. When voting is not taking place, the components shall either be stored in a locked, secure room at the polling place or shall be under personal supervision or an election official or law enforcement official.

7. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the State.

8. Maintenance of Voting System Components. After the end of the initial warranty period for state owned voting system components, the county shall be responsible for maintaining an appropriate warranty or otherwise be responsible for maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

**Commented [RB1]:** Fulton is going to store them in steel carriers to which they were be installed upon receipt from the State. The vendor from whom we purchased the equipment is Election Works and many counties around the country store such equipment inside those carriers. Storing them in the boxes is too labor intensive This should read that the storage shall be adequate to store and protect the equipment. We can store, charge, L&A test, deliver and have voters vote from these carriers. Some will store, two and some will store four. The carriers that store two will also store a scanner. The UPS batteries will be placed inside as well.

**Commented [RB2]:** See my comment above. Please alter language. Foam inserts will be unnecessary for us.

## Rule 183-1-12-.05 Security of Voting System

1. Software security. The software contained in electronic ballot markers, ballot scanners, election managements systems, and electronic poll books, regardless of whether the unit is owned by the county or the State, shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State.

2. Electronic ballot markers, ballot scanners, and election management systems shall not be connected to the internet and no other software shall be loaded onto or maintained or

AMERICAN OVERSIGHT

used on computers on which the election management system software is located except as specifically authorized by the Secretary of State.

3. The room in which the election management system is located shall be locked at all times when the system is not directly under the supervision of the election superintendent or his or her designee. Lock and key access to the room where the election management system is located shall be limited to the county election superintendent; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the room in which the election management system is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the election management system is located. Emergency personnel shall have access to the room in which the election management system is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

4. The election management system shall remain password-locked at all times when not in use.

5. All components of the voting system (including electronic ballot markers, ballot scanners, electronic poll books, ballot boxes, and election management systems shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

**Rule 183-1-12-.06 Handling of Voting System**.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

AMERICAN OVERSIGHT

STATE OF GEORGIA

COUNTY/MUNICIPALITY OF _____

OATH OF CUSTODIANS AND DEPUTY CUSTODIANS

OF GEORGIA VOTING SYSTEM

I, _____, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of _____, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all components to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the voting system for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

_____

(Deputy) Custodian

Administered by, sworn to,

and subscribed before me,

this _____ day of _____, 200__.

_____

Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. Any electronic ballot markers, ballot scanners, electronic poll books, ballot boxes and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

AMERICAN OVERSIGHT

3. The election management system computers shall not be moved or relocated for any purposes. Should it become necessary to relocate an election management system computer or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. The election management system shall not be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent. If an emergency arises causing the election management system to be moved, the election superintendent is responsible to notify the Secretary of State as soon as possible of the move.
4. The poll manager shall sign a receipt for components of the voting system assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.
5. All voting system components and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.
6. The election superintendent shall notify the Secretary of State of any instances of unaccounted for components of the voting system as soon as possible.
7. The election superintendent shall perform an audit count of all voting system components housed and maintained by the jurisdiction on an annual basis. The results of the audit shall be submitted to the Secretary of State.

**Rule 183-1-12-.07 Preparation for Elections.**

1. The election superintendent shall ensure that the electronic databases used to generate both paper ballots and touchscreen selection are correct and generate accurate paper ballots and touchscreen displays.
2. Each ballot style and touchscreen display shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and

AMERICAN OVERSIGHT

that the correct offices and questions are presented on each ballot style or touchscreen display.

3. For each office up for election, the paper ballot or touchscreen display shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5. In partisan elections, the paper ballot or touchscreen display shall designate the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

4. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

5. The election superintendent shall ensure that an audio ballot is prepared for use with the touchscreen display for voters with disabilities. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such audio recordings.

6. The Superintendent shall ensure that the memory cards used in the ballot scanner are formatted and contain no extraneous software or data prior to use in an election. The ballot scanner memory cards shall be labeled to indicate the polling place where they will be used. If more than one ballot scanner is to be used in a single polling place, the memory card label shall differentiate between the scanners.

## Rule 183-1-12-.08 Logic and Accuracy Testing.

1. Primaries and Elections.
   a. On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners for use during the early voting period. Voting system components that passed logic and accuracy testing for early voting do not have to be re-tested for use on Election Day for the same election, unless there is a

AMERICAN OVERSIGHT

change in the programming of the component. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the voting system components for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing. Prior to a runoff election, the Superintendent shall prominently post notice of the date, time, and place of such testing at least 24 hours prior to its occurrence. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the voting system components. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the voting system components.

2. In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

(a) Be available for the first hour of the first day of testing to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) Maintain a presence at all times during the preparation and testing process

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process;

AMERICAN OVERSIGHT

however the area should be of such a nature so as to allow the preparation and testing process to proceed without interference with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers of voting system components from being disclosed to the public;

(g) prohibit the security seal numbers attached to any voting system components from being disclosed to the public;

(h) prohibit photographic and audio equipment of any kind, including cell phone cameras, from being used to record the record the security seal numbers used to secure any voting system components, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers on any voting system component are not recorded or displayed in any manner;

3. During the public preparation and testing of the electronic poll books, electronic ballot markers, printers, and ballot scanners to be used in a particular primary or election, the election superintendent shall cause each electronic ballot marker and scanner to be programmed with the election database for the precinct at which the electronic ballot marker and ballot scanner unit will be used.

The superintendent shall cause the accuracy of the components to be tested by causing the following tasks to be performed:

A. Ensure that the electronic poll books create a voter card that pulls up the correct ballot on the electronic ballot marker.

B. Ensure that the touchscreen on the electronic ballot marker accurately displays the correct selections and that the touchscreen accurately reflects the selected choices.

C. Ensure that the printer prints a paper ballot that accurately reflect the choices selected on the touchscreen.

D. Ensure that the ballot scanner scans the paper ballot, including both ballots marked by electronic ballot markers and ballots marked with a pen, and that the ballot scanner scans ballots regardless of the orientation the ballot is entered into the scanner.

E. Ensure that the tabulation contained in the ballot scanner memory card can be accurately uploaded to the election management system, and that the tabulated results match the selections indicated on the paper ballot.

If any component fails any of the testing, the component shall not be used in a primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes logic and accuracy tests. Upon the

AMERICAN OVERSIGHT

successful completion of the logic and accuracy test, the component shall be cleared of any vote totals collected during testing. A zero tape shall be run on the ballot scanner subsequent to successful testing, and the tape shall be attached to the custodian's certification form to document the logic and accuracy testing. The components shall then be sealed and securely stored for transfer to the polling place.

4. After the completion of Logic and Accuracy testing on any voting system component, each component shall be safely and securely stored until such time as the component is transported to the polling place in which such component is to be used.

**Rule 183-1-12-.09 Transport to Polls**.

1. The election superintendent shall take all necessary measures to ensure that the voting system components are safely and securely transported to the polling places.
2. The election superintendent shall ensure the voting system components for each polling place are delivered to the polling place at least two hours before the time for the opening of the polls.
3. If the ~~voting system~~ voting system components are stored at a polling place prior to the arrival of the poll manager or their designee, the election superintendent shall ensure that the units are stored in a locked, secure manner with appropriate climate control. If it is not possible to store the voting system components in a locked, secure manner in any polling place, the superintendent shall ensure that law enforcement or security personnel are onsite whenever any voting system component is present at the polling place when the poll manager, or their designee, is not present.

**Rule 183-1-12-.10 Before the Opening of the Polls.**

1. The poll officers shall set up and power on the voting system components for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the voting system components and to prevent interference with the duties of the poll officers.
2. The poll officers shall verify that the seal for each voting system component is intact and that there is no evidence or indication of any tampering. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that component when such component was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering, the election superintendent shall be immediately notified and such component shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

AMERICAN OVERSIGHT

3. The poll manager shall ensure that the electronic poll books, electronic ballot markers, and ballot scanners all indicate zero counts prior to the opening of the polls.
4. The poll manager shall cause each ballot scanner in the polling place to run a zero tape prior to the start of voting. If the tape does not show zero votes prior to the start of voting, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.
5. The poll manager and two witnesses who have been sworn as poll workers shall sign the zero tape from the ballot scanner. The poll manager and those same two witnesses shall then confirm that the ballot box is empty. The Secretary of State shall develop a form to be signed by the poll manager and the two witnesses attesting that the ballot box was empty prior to the opening of the polls. Such form shall include the date and time it was executed, shall be attached to the zero tape generated by the ballot scanner attached to that ballot box, and shall be returned to the election superintendent with the polling place recap forms at the close of the polls. The ballot box shall then be securely locked and sealed. Once the ballot box is verified to have been empty and locked and sealed, no person shall access the inside of the ballot box while voting is occurring unless it is absolutely necessary to the functioning of elections. Any such access shall be by the poll manager and two witnesses who have been sworn as poll workers, and the poll manager and witnesses shall attest to when, for what purpose the ballot box was accessed, and that no action was taken to affect the results of the election on a form to be developed by the Secretary of State. That form shall also be returned to the election superintendent with the polling place recap form at the close of the polls.
6. The poll officers shall verify that there is no unauthorized matter affixed to any of the voting system components or present in the voting booths.
7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least one printed sample ballot and at least one voting instructions poster approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. At least one printed sample ballot and one voting instructions poster shall also be posted in the enclosed space. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the voting system that has been approved or provided by the Secretary of State. The poll officers shall also have a sufficient supply of sample ballots available should voters request to view them while voting or reviewing their ballot.
8. As near as possible to the exit of the enclosed space in every polling place in a manner that is visible to voters as they exit the enclosed space, a sign shall be posted that informs voters that they may not remove their ballot from the enclosed space and that any ballots taken outside of the enclosed space will not be counted.

**Commented [RB3]:** The zero tape needs to be removed and stored on Election Day rather than left on the scanner. That is an issue of common sense.

**Rule 183-1-12-.11 Conducting Elections.**

AMERICAN OVERSIGHT

1. As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the voting system, including specific instruction to review their printed ballot prior to scanning it. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.
2. (a) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The voter certificate may be an electronic or paper record. The poll officers shall verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot on the touchscreen or utilize the correct access code to manually bring up the correct ballot on the touchscreen. The voter shall then enter the enclosed space in the polling place and proceed to vote his or her choices. Upon making his or her selections, the voter shall cause the paper ballot to print, remove his or her printed ballot from the printer, remove the voter access card from the touchscreen unit, review the selections on his or her printed ballot, scan his or her printed ballot into the scanner, and return the voter access card to a poll officer.

   Then the voter shall exit the enclosed area of the polling place.

   (b) If emergency situations makes utilizing the electronic ballot markers impossible or impracticable, as determined by the election superintendent, the poll officer shall issue the voter an emergency paper ballot that is to be filled out with a pen after verifying the identity of the voter and that the person a registered voter of the precinct. Emergency paper ballots shall not be treated as provisional ballots, but instead shall be placed into the scanner in the same manner that printed ballots in the polling place are scanned. The election superintendent shall ensure that each polling place has a sufficient amount of emergency paper ballots so that voting may continue uninterrupted if emergency circumstances render the touchscreens or printers unusable.

   (c) If an emergency situation exists that makes voting on the electronic ballot markers impossible or impracticable, the poll manager shall alert the election superintendent as soon as possible. The existence of an emergency situation shall be in the discretion of the election supervisor. However, if a poll manager is unable to contact the election superintendent after diligent effort, the poll manager shall have the ability to declare that an emergency situation exists at the polling place. The poll manager shall continue diligent efforts to contact the election superintendent, and shall inform the superintendent as soon

AMERICAN OVERSIGHT

as possible of the situation at the polling place. The election superintendent, in his or her discretion, shall either overrule or concur with the declaration of emergency circumstances.

3. At least once each hour during the time while the polls are open, the poll officers shall examine the enclosed space ~~to ensure~~ to verify and to ensure that no unauthorized matter has been affixed to any voting system component~~-~~ or placed in the voting booth and that the voting system components have not been tampered with in any manner. Poll officers shall also ensure that no unattended ballots are left in the printer or anywhere in the enclosed space other than the appropriate ballot box. Any unattended ballots found in the enclosed space that do not belong to a voter currently in the enclosed space shall not be counted, ~~-~~but shall be secured and labelled as unattended ballots.

4. The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting and to allow monitoring of each voting system component by the poll workers while the polls are open. In addition, at least one ballot marking device shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

5. It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll workers to assist a voter in inserting the voter card into the ballot marking device and in explaining the operation of the unit to the voter; provided that the poll worker withdraws from the voting booth prior to the voter pressing the "start" button or beginning voting. The poll workers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

6. Voters utilizing a VWD device to vote on the ballot marking device without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409; however, if a another person is handling the printed ballot before it is inserted into the scanner, that person shall be considered as assisting.

7. The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

8. The election superintendent shall ensure that the polling place is sufficiently staffed and that a poll worker is stationed at every ballot scanner in use in the polling place while voting is occurring. The poll worker stationed at the ballot scanner shall verbally instruct every voter to review his or her paper ballot prior to placing it into the ballot scanner and to alert a poll worker if the voter needs to make any corrections.

9. A voter may request information from poll workers concerning how to vote on the ballot marking device at any time during the voting process. However, once the voter scans his or her ballot into the ballot scanner, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again. If a voter leaves the enclosed space with his or her paper ballot and does not place that ballot into the appropriate ballot scanner or ballot box, that voter shall be deemed to have voted and may

AMERICAN OVERSIGHT

not thereafter vote again. A sign shall be placed at the exit of the enclosed space that informs every voter that if they remove their ballot from this area, their ballot will not be counted. Any paper ballots that is removed from the enclosed space shall not be counted.

10. (a) If a voter discovers that the ballot presented on the ballot marking device is not correct or, for a partisan primary, is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the ballot marking device without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters.

(b) If, while reviewing his or her printed ballot, the voter discovers that the printed ballot does not contain the proper ballot selections or that the voter was not issued the proper ballot, the voter shall immediately inform a poll officer. The poll officer shall spoil the paper ballot and take the necessary steps to allow the voter to make his or her selections again on the ballot marking device and ensure that he or she is issued the correct ballot.

(c) If the voter places his or her paper ballot into the ballot scanner or ballot box prior to notifying the poll officials of any errors in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot.

11. If any voting system component malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The poll manager shall utilize appropriate backup procedures to ensure that voting is not interrupted due to any equipment malfunctions. The election superintendent shall immediately arrange for the repair of the voting system component or shall provide a replacement component as soon as practicable. A replacement component shall not be used unless it has been appropriately tested prior to its use.

In the event that a ballot scanner malfunctions, the voter shall place their voted ballot in the emergency bin connected to the ballot box. The ballots in the emergency bin shall be counted when the ballot scanner is properly functioning, by a replacement ballot scanner brought to the polling place, or, if neither are available, by a central scanner at the county elections office. Poll officers may scan ballots placed into the emergency bin through the ballot scanner or a replacement ballot when doing so will not interfere with voting. A voter placing his or her ballot into the emergency bin is considered to have voted that ballot and shall not be permitted to cast another ballot.

**Rule 183-1-12-.12 Tabulating Results.**

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager and two witnesses who have been previously sworn as poll workers shall record the number of scanned ballots from every ballot scanner used in the polling place and begin the closing procedure on each ballot scanner to ensure that no further votes are

AMERICAN OVERSIGHT

cast. The poll manager and the two witnesses shall record the number of scanned ballots from each scanner on a recap form to be developed by the Secretary of State.

The poll manager and the two witnesses shall cause each ballot scanner to print three tapes of the tabulated results and shall sign each tape indicating that it is a true and correct copy of the tape produced by the ballot scanner. If the poll manager or the witnesses have reason to believe that printed tapes are not a true and correct tabulation of the ballots scanned by that ballot scanner, the poll manager or witness shall document the reasons and evidence for that belief and inform the election superintendent, who shall take appropriate action, in his or her discretion, to ensure that the ballots in the ballot box associated with the ballot scanner are accurately tabulated.

2. The poll manager shall cause the number of printed ballots from each ballot marking device to be recorded on the recap form. The poll manager shall further cause the number of spoiled ballots and ballots placed in the emergency bin of the scanner that were unable to be scanned to be recorded on the recap form. The poll manager shall cause the total number of voter check ins from the electronic poll pad and/or paper voter list to be recorded on the recap form. If the numbers recorded on the recap form do not reconcile with each other, the poll manager shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. One of the three tapes of the tabulated results printed from the ballot scanner shall be affixed to the door of the polling place for the information of the public along with a copy of the provisional ballot recap form for the polling place. One tape shall be placed into an envelope provided by the election superintendent, along with one of the memory cards from the ballot scanner. The envelope shall be sealed by the poll manager and the same two witnesses who signed the tape such that the envelope cannot be opened without breaking such seal. The envelope shall be initialed by the poll manager and the two witnesses indicating that it contains the correct tape and memory card from the indicated ballot scanner. The envelope shall be labelled with the name of the polling place, the serial number of the ballot scanner, and the number assigned to the ballot scanner for that election. The third tape shall be placed into another envelope with the polling place recap form.

4. The poll manager and the same two witnesses who signed the tabulation cases shall unseal and open each ballot box, remove the paper ballots from each ballot box, and place the paper ballots into a durable, portable, secure and sealable container to be provided for transport to the office of the election superintendent. A separate container shall be used for the paper ballots from each ballot box and the container shall be labelled with the polling place, ballot scanner serial number, the number assigned to the ballot scanner for that election, the count of the ballots from the tabulation tape, and the date and time that the ballot box was emptied. The container shall be sealed and signed by the poll manager and the same two witnesses such that

AMERICAN OVERSIGHT

it cannot be opened without breaking the seal. The poll manager and the two witnesses shall sign the outside of the container indicating that it contains all of the correct ballots from the indicated ballot box and no additional ballots.

5. The poll manager and the same two witnesses who emptied the ballot box shall complete and sign a form indicating that the ballot box was properly emptied and the ballots were properly stored and secured. Such form shall be delivered to the election superintendent with the completed polling place recap form. The ballot box shall be resealed and the new seal numbers shall be documented.

6. The envelopes containing the tabulation tape and the memory card, the containers containing the paper ballots, the completed polling place recap forms, voter access cards, supervisor's cards, electors lists, numbered lists of voters, electronic poll books, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other sworn poll worker. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials. The poll manager and any poll workers who travelled with the materials shall sign a form indicating that no sealed documents were unsealed enroute and that the materials have not been tampered with.

7. Before leaving the polling place, the poll manager shall ensure that all electronic ballot markers, ballot boxes, and ballot scanners are secure and sealed. The polling place shall be locked to prohibit unauthorized entry.

(b) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any ballot, container, returns, tapes, device, memory card, or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

AMERICAN OVERSIGHT

4. Upon the delivery of the paper ballots and the memory cards from each polling place, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards and polling place election materials.
5. Upon receiving the paper ballots and the memory cards, the election superintendent shall verify the signatures on the sealed envelopes and containers, verify that the seals are intact, that the envelopes or containers have not been opened, and that there is no evidence of tampering with the envelopes, containers, or their contents.
6. In the case of elections for county, state, and federal office, after verifying that the envelopes and containers are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card and results tape. The election superintendent or his or her designee shall then insert the memory card into the election management system computer and transfer the vote totals from the memory card into the election management system for official tabulation and consolidation.
7. After transferring all of the vote totals from the memory cards to the election management system and consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated returns for the primary, election, or runoff.
8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.
9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(c) Election Night Reporting. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

**Rule 183-1-12-.13 Storage of Returns.**

AMERICAN OVERSIGHT

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each ballot scanner and the corresponding paper ballots shall also be deposited with the clerk of superior court.

(c) The memory cards shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards for programming ballot scanners units for the next primary, election, or runoff.

### Rule 183-1-12-.14 Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the electronic ballot markers, printers, ballot scanners, electronic poll books, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a warranty/maintenance agreement for such equipment and software or shall self-insure such equipment and software.

(b) In the event of any malfunction or problem with any voting system component, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

### Rule 183-1-12-.15 Use of Equipment by Municipalities.

(a) The county election superintendent is authorized to permit any municipality within the county to conduct its election with electronic ballot markers, printers, ballot scanners, and other components of the statewide voting system through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through an appropriate training program approved by the Secretary of State.

AMERICAN OVERSIGHT

## Rule 183-1-12-.16 Demonstrations of Voting Equipment

(a) When being used for demonstration and voter education purposes, electronic ballot markers and ballot scanners shall not utilize or be programmed with the official ballot to be used in the primary or election. The device shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election

AMERICAN OVERSIGHT

# Nov. 5. 2019 Voting Irregularity Samples

Assistant Manager JC19/RW21
Susan Voyles

We had multiple people who were directed to this polling location who were in fact residents of another city/municipality. All had a status of "N" These are two examples:

1. Anderson, Adrienna
   5501 Glenridge Drive NE Apt. 618
   Atlanta, GA 30342

   DOB 10/25/1973

2. Blankenship, Terry Jan (she had her registration card—photo included)
   3100 River Exchange Dr. Apt 617
   Norcross, GA 30092

   DOB 8/13/1948
   City Precinct Name: SS01
   Polling Location: Life Center Ministries
   2690 Mount Vernon road, Atlanta, 30338

I had another woman who had attempted to early vote and was told by the clerk that she was not eligible because she was a "felon". This was not true, she has never even been accused of anything. On the day of early voting, she spoke with Ralph Jones at 404-612-7050. He believed that her record might have been confused with another similar name. He instructed politely to return the day of and everything would be corrected. He gave her his name and number in the event that she had any further issues.

DAY OF VOTING: When she came to vote this time, there was absolutely NO record o her in the system at all. We called Ralph Jones and he recalled the earlier incident and gave me permission to encode a card so that she could vote. (On an initial call Ralph was not available and the first woman, not Pamela, told me that she couldn't vote). Copies of her DL licenses are included. Ralph was very polite and helpful.

3. Young, Katherine King

AMERICAN OVERSIGHT

900 Tiverton Ln
Johns Creek, Georgia 30622-1053

The final incident was a very articulate man who had been sent down to me because he also had the N indicating that he lived in an area where he was not participating in the election.

4. Carvallo Jarpa, Manuel Alfonso
   9401 Roberts Dr. Apt 22A
   Atlanta, Ga 30350

   DOB 10/24/1962

   Polling Place SS15B
   Sandy Springs Middle School

Mr. Carvallo indicated that he believed the County was trying to keep immigrants from voting. He also indicated that his two college age children did not receive their Absentee Ballots (his daughter goes to Vanderbilt and his son attends UNC). I politely explained that the county and the state did everything to insure that all eligible voters can vote. I explained that he did not live in either jurisdiction that was voting in the election (He lives in Sandy Springs). I also remarked that both my husband and son-in-law are immigrants. That fact made him calm down. I also explained that the reason his children might not have received absentee ballots was due to the fact that Sandy Springs was not voting in this municipal election. He accepted that explanation.

O.C.G.A. 21-2-94 (2010)
21-2-94. Form of manager's oath

*The following shall be the form of the oath to be taken by each manager:*
*"I, , do swear (or affirm) that I will as manager duly attend the ensuing election (or primary) during the continuance thereof, that I will not admit any person to vote, except such as I shall firmly believe to be registered and entitled to vote at such election (or primary), according to the laws of this state, that I will not(vexatiously) delay or refuse to permit any person to vote whom I shall believe to be entitled to vote as aforesaid, that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying on the same, that I will make a true and perfect return of the said election (or primary), and that I will at all times truly, impartially, and faithfully perform my duties therein to the best of my judgment and ability."*

AMERICAN OVERSIGHT

This is the oath that we take first thing in the morning. The issues noted above all had one other thing in common. Even though they were all coded with a N and lived in cities other than Johns Creek or Roswell (the two elections at the polls conducted at JC19/RW21). HOWEVER, had we not been vigilant, we would have permitted at least a dozen with the code N to vote, even though they were non-residents. When we switched over to the "Precinct Details" it listed the voting location as Johns Creek Environmental Campus. Somewhere there was a mix-up in system that might cause errors in the election.

All of the people who have trained me have clearly explained when to, and when not to, use a Provisional Ballot. However, one of the people in this poll explained that her instructor made it very clear that regardless of the state law, or our oath, we are to permit people who are out of district to vote. There are obvious exceptions, 6:55, raining and no chance to make it to their precinct, but this is not the intent of that instructor. Her intent causes poll workers to violate their oath if they follow her instructions and to ignore state law. In the cases above where they did not live in the city holding an election, this would have added more than a dozen voters who were not qualified to vote. Looking forward, that also causes confusion for the voter in a larger election if they were to return to the wrong poll and insist that they have always voted there. This would cause them to possibly miss voting for certain House District, State Senate races in which they would normally be entitled to vote: this process would remove their valuable right to vote and might cost their candidate an election.

I politely explained that the county and the state did everything to insure that all eligible voters can vote. I explained that he did not live in either jurisdiction that was voting in the election (He lives in Sandy Springs). I also remarked that both my husband and son-in-law are immigrants. That fact made him calm down. I also explained that the reason his children might not have received absentee ballots was due to the fact that Sandy Springs was not voting in this municipal election. He accepted that explanation.

O.C.G.A. 21-2-94 (2010)
21-2-94. Form of manager's oath

*The following shall be the form of the oath to be taken by each manager:*
*"I, , do swear (or affirm) that I will as manager duly attend the ensuing election (or primary) during the continuance thereof, that I will not admit any person to vote, except such as I shall firmly believe to be registered and entitled to vote at such election (or primary), according to the laws of this state, that I will not(vexatiously) delay or refuse to permit any person to vote whom I shall believe to be entitled to vote as aforesaid, that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying on the same, that I will make a true and perfect return of the said election (or primary), and that I will at all times truly, impartially, and faithfully perform my duties therein to the best of my judgment and ability."*

AMERICAN OVERSIGHT

This is the oath that we take first thing in the morning. The issues noted above all had one other thing in common. Even though they were all coded with a N and lived in cities other than Johns Creek or Roswell (the two elections at the polls conducted at JC19/RW21). HOWEVER, had we not been vigilant, we would have permitted at least a dozen with the code N to vote, even though they were non-residents. When we switched over to the "Precinct Details" it listed the voting location as Johns Creek Environmental Campus. Somewhere there was a mix-up in system that might cause errors in the election.

All of the people who have trained me have clearly explained when to, and when not to, use a Provisional Ballot. However, one of the people in this poll explained that her instructor made it very clear that regardless of the state law, or our oath, we are to permit people who are out of district to vote. There are obvious exceptions, 6:55, raining and no chance to make it to their precinct, but this is not the intent of that instructor. Her intent causes poll workers to violate their oath if they follow her instructions and to ignore state law. In the cases above where they did not live in the city holding an election, this would have added more than a dozen voters who were not qualified to vote. Looking forward, that also causes confusion for the voter in a larger election if they were to return to the wrong poll and insist that they have always voted there. This would cause them to possibly miss voting for certain House District, State Senate races in which they would normally be entitled to vote: this process would remove their valuable right to vote and might cost their candidate an election.

AMERICAN OVERSIGHT

FULTON COUNTY
REGISTRATION & ELECTIONS

RICHARD BARRON - DIRECTOR
BLAKE EVANS - ELECTIONS CHIEF
RALPH JONES - REGISTRATION CHIEF

404-612-7020

# ELECTION INFORMATION SHEET

**Election: GENERAL MUNCIPAL AND SPECIAL RUNOFF ELECTIONS**

**Election Date to be conducted: DECEMBER 3, 2019**

**Time polls are open: 7:00 A.M. – 7:00 P.M.**

**Closing date for registration in election: OCTOBER 7, 2019**

**Municipalities involved in election: COLLEGE PARK, JOHNS CREEK & ROSWELL**

## VOTING ELIGIBILITY

You are eligible to vote in Georgia if you are:

- A Citizen of the United States
- A Legal Resident
- At least 18 years old (May register at 171/2 years old)
- Have not been found to be mentally incompetent by the court
- Are not serving a sentence for a felony
- Meet all other State requirements, such as showing a Photo ID

## SIX FORMS OF ACCEPTABLE PHOTO IDENTIFICATION

Georgia Voters are required to show one of **six** forms of valid photo identification when voting in person, during the absentee or early voting period or at the polls on Election Day. The valid forms of identification are as follows:

- A Georgia driver's license (even if expired)
- A valid State or federal government photo ID
- A valid U.S. passport
- A valid government employee photo ID (city, county, state, or other government entity)
- A valid U.S. military photo ID
- A valid Tribal photo ID

Voters who do not have any of the above IDs may obtain an official Georgia Voter photo ID card free of charge at any Georgia Department of Driver Services, or the Fulton County Registration and Elections Department. Voters may contact the Georgia Department of Driver Services at (678)-413-8400, (678)-413-8500, or (678)-413-8600 to obtain an ID card.

AMERICAN OVERSIGHT

An ID card may also be obtained from the Fulton County Government Center, North Fulton Service Center and South Fulton Service Center.

Proof of Georgia residency, registered voter status, and documentation of date of birth is required for issuance of the Voter ID card. The Georgia Voter ID card is valid for voting purposes only.

## WAYS TO VOTE

**Eligible voters have two ways to cast ballots prior to Election Day:** Absentee Vote by Mail and Early Voting.

**Absentee VOTE BY MAIL:** Eligible voters (meaning registered voters) desiring to vote by mail may do so **WITHOUT PROVIDING A REASON OR IDENTIFICATION, IF AN APPLICATION FOR A BALLOT IS MAILED**. **However, this does not apply to voters who registered for the first time in Georgia by mail and did not provide ID with their registration application. First time voters must present one of the six acceptable forms of identification or a copy of a current utility bill, bank statement, government check, paycheck, or other governmental document that shows the name and address of the voter**.

### How to Request an Absentee Ballot

Voters may **mail** or **fax** a written request for an absentee ballot. The written request should include the **name and date of the election** (**General Municipal and Special Runoff Elections – December 3, 2019**), **voter's name** and **address as registered, and date of birth**. **The address where the ballot is to be mailed, a daytime phone number, and voter's signature are also required.**

Voters may call the main Fulton County Registration and Elections Office at (404)-612-7060, and an application will be sent to them for completion. The absentee ballot request should be mailed to: **Fulton County Voter Registration, Attn: Absentee Ballot Division, 130 Peachtree St., SW, Suite 2186, Atlanta, GA 30303**. The fax number is (404)-612-3697. Requests for absentee ballots may be submitted now.

Applications for absentee ballots are available on the County's website: www.fultonelections.com

Users should then click on "**Voting Information**," and **"Voting by Mail"** to access the application.

### Last day to Request an Absentee Ballot

**Wednesday, November 27, 2019** is the last day that Fulton County Registration and Elections may mail out an Absentee Ballot at 6:00 pm. The office will be closed November 28 – 29, 2019 for Thanksgiving.

Voted ballots for **the General Municipal and Special Runoff Elections** that are sealed in the white and yellow envelopes provided, must be received in the Absentee Ballot section by **7:00 p.m**. on Election Day, **Tuesday, December 3, 2019**.

AMERICAN OVERSIGHT

**NOTICE: To ensure that an absentee ballot counts, voters must complete the following:**

**Clearly mark the ovals for the candidate selected, seal the ballot in the white envelope, then place the white envelope in the yellow outer envelope, and be sure to complete and sign the oath on the back of the yellow envelope before mailing.**

**EARLY VOTING-** This is the second way to cast a ballot prior to Election Day**.** Early voting will begin on Monday, November 25, 2019 – Wednesday, November 27, 2019

Schedule is attached.

Those who vote in-person during Early Voting must provide an acceptable form of photo identification.

Voters who do not have any of the above IDs should contact the Georgia Department of Driver Services at: (678) 413-8400, (678) 413-8500 or (678) 413-8600 to obtain an official government photo ID card.

A voter without a driver's license or other acceptable photo ID may receive a free Georgia ID card upon providing proof they are a Georgia voter. An ID card valid for voting purposes only is available at the Fulton County Government Center, North Fulton Service Center and the South Fulton Service Center.

For additional information, please call the Voter Registration Office at (404) 612-7020.

## OBSERVATION COUNT AND VIEW OF ELECTION RESULTS

**OBSERVATION OF COUNT** – *The Public insofar as space permits* may observe the tabulation of votes until all votes are tallied in the designated area of the Ballot Tabulation Center at 1365 English Street, NW, Atlanta, Georgia 30318. ***Note***: If counting begins prior to 7:00 p.m., all individuals counting and observing must remain sequestered until 7:00 p.m., so that results are not released prior to the close of polls.

**INFORMATION DISSEMINATION AND VIEW OF ELECTION RESULTS -** Fulton County Registration and Elections Department provides unofficial and official Election Results electronically at no cost.

**ELECTION NIGHT-** All results displayed on election night are **UNOFFICIAL** and include Absentee Ballots, but do not include Provisional Ballots.

Election night results may be obtained by:

**1. In Person-** Fulton County Elections Preparation Center
1365 English Street, NW, Atlanta, GA 30318

**2. Telephone** - (404) 612-7020

**3. Online – www.fultonelections.com**

AMERICAN OVERSIGHT

**UNOFFICIAL PRECINCT RETURNS** - The first returns are projected to be available at approximately 8:00 PM on election night and the final returns are projected to be available at approximately 11:30 PM**.**

**DAY AFTER ELECTION** - All results displayed on election night and the day after an election are UNOFFICIAL and include Absentee Ballots, but do not include Provisional Ballots. The day after an Election, unofficial results may be obtained by:

1. **In-Person -** A summary of the unofficial election results will be released at the Fulton County Elections Preparation Center, 1365 English Street, NW, Atlanta, GA 30318 following the tabulation of all ballots (except mail-in absentee and provisional ballots).

2. **Telephone -** (404) 612-7020 for **unofficial precinct returns** (Statement of Vote results) will be available by 10:00 a.m. the day after the election.

3. **Via Internet at WEB SITE:** www.fultonelections.com

Times indicated on this sheet when results are expected and completed are given only as a guide and should only be used as such (they should not be interpreted as facts). Election results could be in much earlier or later as conditions warrant. All election results are **unofficial** until certified by the Board of Registration and Elections. If you have any questions, please do not hesitate to ask. Your cooperation is greatly appreciated.

## COUNTING OF ABSENTEE AND PROVISIONAL BALLOTS

**ABSENTEE BALLOTS** - Will be tabulated beginning no earlier than 7:00 A.M. on Election Day until all ballots are counted at the Fulton County Elections Preparation Center at 1365 English Street, NW, Atlanta, Georgia 30318.

**PROVISIONAL BALLOTS -** Will be tabulated beginning at 12:00 p.m. on the Thursday **after** the election at the Fulton County Elections Preparation Center at 1365 English Street, NW, Atlanta, Georgia 30318.

Provisional voters have until 5:00 p.m. the Friday **after** the election to provide any required documentation.

Provisional voting allows the voter to cast a paper ballot in person, even if all the requirements for doing so cannot be met at the time. The provisional ballot will count if the problem is solved within three days after Election Day.

**The three reasons for voting a provisional ballot are:**

1. Voter is unable to show one of the required forms of photo ID when voting in person.

2. When voter first registered to vote in Georgia, registration was by mail, the voter did not provide any identification at that time, and was unable to present acceptable identification the first time voter voted in person.

4. Voter's name does not appear on the list of registered voters in the precinct.

AMERICAN OVERSIGHT

## CERTIFICATION OF ELECTION RESULTS

**CERTIFICATION OF ELECTION RESULTS-** will tentatively take place at 6:30pm the **Friday** after the election: **December 6, 2019 (tentative date).** Please contact the Fulton County Registration and Elections Office prior to certification to confirm the date, time and place at (404) 612-7020 between 8:30 a.m. and 5:00 p.m.

**Interviews with the press will not be permitted with the Director, Elections Chief or Registration Chief prior to the certification meeting on December 6, 2019.** However, the press is welcome to attend this meeting.

## REGISTRATION & ELECTION SERVICES

**SAMPLE BALLOTS** – find a copy of Sample ballot(s) attached. Sample Ballots are also posted on the website at **www.fultonelections.com**.

**STATISTICS AND REPORTS AVAILABLE-**

a. Candidate's List
b. Precinct locators with registered voters by precinct (free online)
c. Detailed election results - online
d. Number of registered voters by political districts
e. Precinct maps by political district can be obtained from the web
f. Sample Ballots – Sample ballots are posted on the website at www.fultonelections.com, and at each library for viewing only
g. Precinct specific sample ballots can be obtained at www.mvp.sos.ga.gov

Fulton County Board of Commissioners

# Agenda Item Summary

**BOC Meeting Date**
**11/6/2019**

| **Requesting Agency** | **Commission Districts Affected** |
|---|---|
| Registration and Elections | All Districts |

**Requested Action** *(Identify appropriate Action or Motion, purpose, cost, timeframe, etc.)*

Request approval of award without competition – Registration and Elections, 19SS412047C-BKJ, Voting System Stations with Election Works (Geneva, IL), in an amount not to exceed $2,600,000.00 to provide secure steel voting system carriers and voting stations. Effective upon BOC Approval.

**Requirement for Board Action** *(Cite specific Board policy, statute or code requirement)*

In accordance with Purchasing Code Section 102-384, after conducting a good faith review, the Purchasing Department has determined only one source is available for the required supply, service, or construction item, thus the request shall be forwarded to the Board of Commissioners for approval.

**Is this Item related to a Strategic Priority Area?** *(If yes, note strategic priority area below)*

Yes, All people are trust that government is efficient, effective and fiscally sound.

**Is this a purchasing item?**

Yes

**Summary & Background** *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

**Scope of Work:** To purchase 800 secure steel voting system stations/carriers which include ballot marking devices, printers, scanners and uninterruptible power supply batteries mounted within the cabinets. All equipment will be connected and tested within the carriers. The new voting system requires voters to (1) vote electronically on touch screen; (2) print ballot on a printer in order to review and to ensure their vote was recorded accurately; and (3) scan their printed ballot on a scanner.

These units will provide the following benefits:

- Allowing for warehouse staff to test the logic and accuracy of the voting system from the carriers
- Efficiency in set-up by decreasing the set up time and demands on Poll Workers
- Security, units can be locked and sealed
- Durability (15 year lifespan)
- Ease of delivery of equipment

The carriers can be sealed and delivered to polling places. On Election Day poll workers power the carriers. Once the voting system has power, the Poll Workers open wings to allow voters access to vote.

| **Agency Director Approval** | | **County Manager's Approval** |
|---|---|---|
| **Typed Name and Title**<br>Felicia Strong-Whitaker, Director | **Phone**<br>(404) 612-5800 | |
| **Signature** | **Date** | |

AMERICAN OVERSIGHT

The carriers can be sealed each night through Early Voting and also on Election Day after voting concludes.

Election Works has a patent pending with the United States Patent and Trademark Office.

**Community Impact:** Secure storage in durable, long lasting steel units and secure, stable delivery of sensitive election equipment increases confidence in citizens in the voting process. We believe this product will give us the most secure voting delivery method to voters of any county in the State of Georgia.

**Department Recommendation:** Approval

**Project Implications:** Implementation of the new voting system comes with many opportunities and pitfalls. This is an opportunity to make the job of a poll worker easier as it also streamlines behind the scenes administrative processes.

**Community Issues/Concerns:** We need to address community concerns regarding secure storage of our voting equipment once it leaves our warehouse. Pairing voting units in secure storage containers that double as voting stations increases our control over voting delivery to the citizens of Fulton County. It reduces access to bad actors in a way that will lead the State of Georgia forward.

**Department Issues/Concerns:** We are concerned about activist lawsuits continuing to use Fulton County as the Exemplar County in Georgia. We feel that purchasing these secure carriers will reduce access by bad actors and reduce the target painted by lawsuits against Fulton County because of the added security for our equipment.

**History of BOC Agenda Item:** This is a new request.

ELECTION WORKS

October 23, 2019

Fulton County Board of Elections
Attn: Richard Barron, Director of Elections
130 Peachtree ST.
Suite 2186
Atlanta, GA 30303

Dear Mr. Barron,

This letter is to confirm that our customized multi-position voting station (also referred to as ESC) is a proprietary product developed, designed, and produced solely by Election Works Corporation.

Election Works is the only company that custom designs our multi-position voting stations to meet the specific needs of each county individually. Additionally, we have a patent pending on our multi-position voting stations.

If you have any further questions, please feel free to call.

Sincerely,

Sandra Hed

# Fulton County Early Voting & Election Day to Overlap at One Location

Tuesday, October 15 is Election Day for the Special Election Runoff for Fulton County Commission District 6 and Atlanta Public Schools District 2.

Early voting will take place for these races through Friday, October 11 at five locations from 8:30 a.m. to 6 p.m. On Election Day, it is required by law that all eligible voters in those races vote at their assigned polling place.

Tuesday, October 15 is also the first day of early voting for the November 5, 2019 Municipal Election.

The Wolf Creek Library is both an Election Day polling place for the aforementioned Commissioner District 6 election, as well as an early voting site for the November 5 Municipal General and Special Election. Early voting and Election Day voting will occur in separate portions of the building using separate election equipment, requiring voters to check in twice.

Voters who are assigned to Wolf Creek as their Election Day polling place who also wish to cast their ballots in early voting will check in separately for that election. Any Fulton County voter living in a city with a municipal election in November can vote early in the municipal elections at Wolf Creek Library. Only voters assigned to the Wolf Creek precinct should participate in the Election Day voting for Commission District 6 at that location.

No other Early Voting locations will be used as Election Day polling sites for the Special Election runoff. No ballots for the November 5 municipal elections will be available at any Commissioner District 6 Election Day polling site.

Dear Mr. Boyajan,

I am writing this letter to follow-up on a productive meeting that you and other members of the Fulton County School District recently had recently with my elections staff.

I understand that you had concern regarding whether we could move all of our Election Day polling locations out of Fulton County school facilities. Unfortunately, we are unable to do that at this time; however, please know our office is committed to looking for alternatives to schools as polling locations. In fact, we have reduced the number of county schools that are polling locations from 60 in 2012 to 37, currently.

We are sensitive that schools are less than ideal polling locations for a variety of reasons. We have been unable to identify suitable facilities in some voting precincts. In some cases, we have been asked to leave facilities and have had to resort to using schools as we have no other options.

My staff will continue to look for alternatives to schools. If anyone in the school system is aware of facilities that might serve as good alternatives to schools, please contact our Elections Chief, Blake Evans, at joseph.evans@fultoncountyga.gov. We would be happy to research whether the potential alternative could serve as a polling location.

Thank you and all members of the Fulton County School District for partnering with us. We are committed to continue working with you to serve the best interests of Fulton County residents.

Sincerely,

Richard Barron, Director
Fulton County Department of Registration and Elections

# INTER-OFFICE MEMORANDUM

**TO:** Richard Barron, Director

**FROM:** Ralph M. Jones, Registration Chief
Registration and Elections

**RE:** Monthly Operations Report for October 2019

**DATE:** November 4, 2019

This Monthly Report provides a summary of the critical registration activities, workload levels and voter statistics for the Registration Division of the Fulton County Registration & Elections Department for October 2019. The primary activities upon which we worked in September were processing voter registration applications, confirmation notices, researching street issues, municipal voter/street audits as well as voter registration applicant processing problems, preparing notices to voter registration applicants, scanning, indexing registration cards, and training.

## VOTER REGISTRATION

The total number of voter registration applications we have received in 2019 is **307,643**. We received **47,097** voter applications in October. We are processing those applications.

As of November 1, 838,839 (747,918 active and 90,921 inactive) registered voters reside in Fulton County. This is a record for Fulton County.

**The Historic Overview of Registration Applications for the Months of September/October are as follows:**

| Year | September Voter Registration Applications | October Voter Registration Applications |
|---|---|---|
| 2011 | 7,543 | 9,245 |
| 2012 | 25,191 | 45,320 |
| 2013 | 10,600 | 8,079 |
| 2014 | 19,693 | 18,428 |
| 2015 | 13,139 | 12,322 |
| 2016 | 37,268 | 58,727 |
| 2017 | 23,361 | 24,528 |
| 2018 | 37,803 | 58,711 |
| 2019 | 45,476 | 47,097 |
| | | |
| Total Applications for 2019 | | 307,643 |

AMERICAN OVERSIGHT

Registration Division - Operations for October 2019

## REGISTRATION REPORTS:

### FELON LIST

State law requires counties to review felon reports and to conduct hearings for those voters with matching data that raises questions regarding their eligibility to vote in accordance with O.G.C.A 21-2-228. All reports must be processed in accordance with O.C.G.A. 21-2-231.

Number scheduled for October Hearing 0.

We mailed 432 letters to voters who are suspected felons. If they do not respond, they will be removed from the voting rolls.

## DEPUTY REGISTRAR ACTIVITIES

**The Registration Division completed the following Voter Education Activities for the Month of September:**

| Deputy Registrars Trained | Deputy Registrar Classes | Deputy Registrar Drives |
|---|---|---|
| 2 | 2 | 8 |

We issued 164 TVICs. We sold 3 voter list CD's.

## PERSONNEL/STAFFING:

We have a total of 10 permanent employees and 2 managers currently. We have six supplemental workers who started on July 24, 2019. They have gone through a newly revised three-day training schedule. We added four more supplemental staff on September 18, 2019. We have a total of 10 supplemental workers.

### WebEOC Training

The staff received training in the Web EOC in regard to Election Day. Their software has been updated and the new features of the software were demonstrated.

### Inactive to Delete

Confirmation Notices will be mailed to voters by the Secretary of State on Wednesday, November 6, 2019. If a voter fails to make contact with the office, the voter will be removed from the roll. These voters have been on Inactive status since November 2016, as none have voted, signed a petition or updated their address with our office. Before the November 2016 election, a confirmation card was mailed to the voter, also. The office never received any responses from the voter before they were moved from Active status to Inactive status. Fulton County has 45,525 voters who meet this category.

### Telephone Answering Guide

The Telephone Answering Guide has been updated and will be used for the upcoming election. The Guide will be distributed during the Web EOC Training to make sure that everyone understands and each person will have their own copy to review in advance.

### Interviews for New Positions

The interviews for the new positions have been scheduled for November 18th – November 20th. We

AMERICAN OVERSIGHT

will be interviewing for the Voter Registration Supervisor position and also six Registration Officers. We will have three people on the interview panel for all positions.

**Deputy Registrar Classes Online**

We received a suggestion from someone who was interested in taking the Deputy Registrar Class that we post the schedule for the classes on line. This is suggestion that we will be implemented.

**SAP Training**

SAP Training took place for managers last week. This is a mandatory training class for Success Factors. Ralph Jones and Pamela Coman attended on Monday, October 28, 2019. This training will assist managers to move forward with a new web based software put in place to create and track goals of the staff. Most will be aligned with our Key Performance Indicators (KPI's), while other goals are important to the overall success of the department outside of the KPI's.

**CENSUS 2020**

The 2020 Census Municipal Strategy Work Session took place on Thursday, October 24, 2019 at Atlanta Technical College. Stakeholders were present and a panel discussion ensued on the topics and strategies that are in place and can be used by others. Pamela Coman attended from our office and the Voter Education and Outreach Team was present, as well. People will be able to reply online, by phone or by mail. March of 2020 is when everything will begin.

**TASKS TO BE PERFORMED FOR FUTURE REPORTING PERIODS:**

- Notifications of Hearing for Felons
- Coordinating Deputy Voter Registration Drives as Requested
- Continue List Maintenance Activities
- Continue Review / Update Voter Registration procedures
- Continue Indexing, Scanning Voter Registration Applications
- Continue to Perform / Conduct performance counseling sessions
- Respond to State Election Investigations
- Continue Precinct Card Mailings and other Correspondences
- Staff Training

## REGISTRATION REPORTS:

### FELON LIST

State law requires counties to review felon reports and to conduct hearings for those voters with matching data that raises questions regarding their eligibility to vote in accordance with O.G.C.A 21-2-228. All reports must be processed in accordance with O.C.G.A. 21-2-231.

Number scheduled for October Hearing 0.

We mailed 918 letters to voters who are suspected felons. If they do not respond, they will be removed from the voting rolls.

## DEPUTY REGISTRAR ACTIVITIES

**The Registration Division completed the following Voter Education Activities for the Month of September:**

| Deputy Registrars Trained | Deputy Registrar Classes | Deputy Registrar Drives |
|---|---|---|
| 48 | 6 | 17 |

We issued 208 TVICs. We sold 2 voter list CD's.

## PERSONNEL/STAFFING:

We have a total of 10 permanent employees and 2 managers currently. We have six supplemental workers who started on July 24, 2019. They have gone through a newly revised three-day training schedule. We added four more supplemental staff on September 18, 2019. We have a total of 10 supplemental workers.

## GROC CERTIFICATION:

Registration Division has three new employees who have completed their GROC Certification process. GROC is Georgia Registrar Official Certification. Employees have to finish eight online modules and pass each module test with a score of at least 80%. Certification is based on election law, registration basics, administrating oaths, absentee procedures and others. We will celebrate two employees at the October Board Meeting.

## NATIONAL VOTER REGISTRATION DAY 2019:

National Voter Registration Day took place on September 24, 2019. Our goal was to register 300 people. We exceeded our goal and registered 433 people. In addition, the Online Applications for the 23rd and 24th totaled 1,339. Our office was fully engaged by partnering with multiple colleges such as Georgia State University (Downtown and Alpharetta Campuses), Morehouse College and Atlanta Metropolitan State College. We also partnered with area high schools, as well. We spoke at Georgia State University, which was covered by FGTV. The link to the story is as follows: **https://youtu.be/YEKYJhB3MCM?t=307.** We look forward to the 2020 event next year.
