Good Morning, Ms. Wishgrad

Per your public records request, responsive documents from the Orange County Attorney's Office are available for you to download at this link <https://ocfl.box.com/s/9k1f4uzb8w6ziekgfyoaamk0i5gp90x0>.

Our ISS department will be conducting a scan of appropriate e-mails and you will hear from the Public Records Unit or other office if there is a required payment invoice for such document retrieval and review. Additionally, because more than one office may have records responsive to your request you may get responses from each of those office separately.

Some of the documents you are seeking may be available from other sources, it is for that reason I am offering you the following websites to help you facilitate your research efforts:

- <http://www.myfloridalegal.com/covid19>
- <http://www.floridahealth.gov/>
- <https://www.flgov.com/covid-19/>

While Orange County is permitted by law to charge for the actual cost of time and resources to produce a public record, this request took a minimal amount of time so there is no charge to you.

You may contact me at (407) 836-7336, or maria.vargas@ocfl.net, if you have any questions or concerns regarding your public records request.

Subject: FW: Places of Worship

Mayors – good morning. I'm the Governor's General Counsel and I'm happy to be helpful with the question below and any other questions you may have on the Executive Order. The Governor's Order only restricts individuals by limiting their movement, except when those individuals are participating in an essential service or activity. The Order enforces this by law enforcement with a second degree misdemeanor on the individual. Further, Section 4 of the Order only preempts to the extent a local authority seeks to add to the essential list in the Governor's Order.

The Governor's Order does not do either of the following, and local authorities are not preempted in any way:

1. The Governor's Order does not affect whether a local authority may close a business (or in other words, decide if a business is non-essential). That local enforcement would presumably be directly on the business itself.
2. The Governor's Order does not dictate whether additional social distancing or group gathering requirements can be placed on essential services or essential activities. Local authorities can do so both on individuals and on businesses/organizations.

So yes you can use your own authority to close or restrict how any business/organization must comply with your codes. The Governor's Order does not give a business/organization any "right" to avoid your codes.

Subject: Places of Worship

Shane,

I wanted to reach out because I have been hearing the argument that we do not have a right to close or restrict places of worship. I disagree with that legal analysis in all respects.

The First Amendment says: "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof;..." We are doing neither.

Our police powers to protect health, safety and welfare remain in tact. So, for instance, a new place of worship must comply with all building codes. If the roof is not up to code, they do not receive the CO and they cannot open. If after a storm, the building integrity has been degraded such that the building is not safe, we red-tag the building and no one can enter. In both situations, the law is clear - we have the right and the obligation to protect the health, safety and welfare of the community and there is no conflict with constitutional provisions.

This is the same analysis. Based upon proven science, these large gatherings are jeopardizing the health, safety and welfare. As a result, we feel very strongly not only can we restrict access, we have an obligation to do so based upon the science. Fortunately, most of the places of worship agree and are self-complying. Our issue is if we face a Tampa situation where now we would not be able to enforce

restrictions or the fact that we have so many store-front places of worship -- combined with the upcoming holidays. Thank you for considering this issue and I hope the Governor will reconsider or clarify EO 20-92.

Best,
Mike

Still working on a specific contact. Here is the general information gathered so far from the governor's office:

Have a sort of answer. Regarding the EO, auto dealers are covered in Miami order, so they are covered in state order. Golf is covered as "outdoor recreational" so long as CDC is followed. For superseding, I was told by gov policy chief that gov won't be enforcing against locals that are more stringent.

WHEREAS, as Governor, I am responsible for meeting the dangers presented to this state and its people by this emergency.

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution, Chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order to take immediate effect:

Section 1. Because of the foregoing conditions, I declare a state of emergency exists in the State of Florida.

Section 2. I designate the Director of the Division of Emergency Management (“Director”) as the State Coordinating Officer for the duration of this emergency and direct him to execute the State’s Comprehensive Emergency Management Plan and other response, recovery, and mitigation plans necessary to cope with the emergency. Additionally, I designate the State Health Officer and Surgeon General as a Deputy State Coordinating Officer and State Incident Commander.

Pursuant to section 252.36(1)(a), Florida Statutes, I delegate to the State Coordinating Officer the authority to exercise those powers delineated in sections 252.36(5)-(10), Florida Statutes, which he shall exercise as needed to meet this emergency, subject to the limitations of section 252.33, Florida Statutes. A. Seek direct assistance and enter into agreements with any and all agencies of the United States Government as may be needed to meet the emergency.

B. Designate additional Deputy State Coordinating Officers, as necessary.

C. Suspend the effect of any statute, rule, or order that would in any way prevent, hinder, or delay any mitigation, response, or recovery action necessary to cope with this emergency.

D. Enter orders as may be needed to implement any of the foregoing powers; however, the requirements of sections 252.46 and 120.54(4), Florida Statutes, do not apply to any such orders issued by the State Coordinating Officer; however, no such order shall remain in effect beyond the expiration of this Executive Order, to include any extension.

Section 3. I order the Adjutant General to activate the Florida National Guard, as needed, to deal with this emergency.

Section 4. I find that the special duties and responsibilities resting upon some State, regional, and local agencies and other governmental bodies in responding to the emergency may require them to suspend the application of the statutes, rules, ordinances, and orders they administer. Therefore, I issue the following authorizations:

A. Pursuant to section 252.36(1)(a), Florida Statutes, the Executive Office of the Governor may suspend all statutes and rules affecting budgeting to the extent necessary to provide budget authority for state agencies to cope with this emergency. The requirements of sections 252.46 and 120.54(4), Florida Statutes, do not apply to any such suspension issued by the Executive Office of the Governor; however, no such suspension shall remain in effect beyond the expiration of this Executive Order, to include any extension.

B. Each State agency may suspend the provisions of any regulatory statute prescribing the procedures for conduct of state business or the orders or rules of that agency, if strict compliance with the provisions of any such statute, order, or rule would in any way prevent, hinder, or delay necessary action in coping with the emergency. This includes, but is not limited to, the authority to suspend any and all statutes, rules, ordinances, or orders which affect leasing, printing, purchasing, travel, and the condition of employment and the compensation of employees. For the purposes of this Executive Order, “necessary action in coping with the emergency” means any emergency mitigation, response, or recovery action: (1) prescribed in the State Comprehensive Emergency Management Plan (“CEMP”); or (2) ordered by the State Coordinating Officer. The requirements of sections 252.46 and 120.54, Florida Statutes, shall not apply to any such suspension issued by a State agency; however, no such suspension shall remain in effect beyond the expiration of this Executive Order, to include any extensions.

C. In accordance with section 465.0275, Florida Statutes, pharmacists may dispense up to a 30-day emergency prescription refill of maintenance medication to persons who reside in an area or county covered under this Executive Order and to emergency personnel who have been activated by their state and local agency but who do not reside in an area or county covered by this Executive Order.

D. In accordance with section 252.38, Florida Statutes, each political subdivision within the State of Florida may waive the procedures and formalities otherwise required of the political subdivision by law pertaining to:

- 1) Performance of public work and taking whatever prudent action is necessary to ensure the health, safety, and welfare of the community;
- 2) Entering into contracts; however, political subdivisions are cautioned against entering into time and materials contracts without ceiling as defined by 2 CFR 200.318(j) or cost plus percentage contracts as defined by 2 CFR 200.323(d);
- 3) Incurring obligations;
- 4) Employment of permanent and temporary workers;

- 8) Appropriation and expenditure of public funds.

E. All State agencies responsible for the use of State buildings and facilities may close such buildings and facilities in those portions of the State affected by this emergency, to the extent necessary to meet this emergency. I direct each State agency to report the closure of any State

building or facility to the Secretary of the Department of Management Services. Under the authority contained in section 252.36, Florida Statutes, I direct each County to report the closure of any building or facility operated or maintained by the County or any political subdivision therein to the Secretary of the Department of Management Services. Furthermore, I direct the Secretary of the Department of Management Services to:

- 1) Maintain an accurate and up-to-date list of all such closures; and,
- 2) Provide that list daily to the State Coordinating Officer.

Section 5. I find that the demands placed upon the funds appropriated to the agencies of the State of Florida and to local agencies are unreasonably great and the funds currently available may be inadequate to pay the costs of coping with this emergency. In accordance with section 252.37(2), Florida Statutes, I direct that sufficient funds be made available, as needed, by transferring and expending moneys appropriated for other purposes, moneys from unappropriated surplus funds, or from the Budget Stabilization Fund.

Section 6. All State agencies entering emergency final orders or other final actions in response to this emergency shall advise the State Coordinating Officer contemporaneously or as soon as practicable.

Section 7. Medical professionals and workers, social workers, and counselors with good and valid professional licenses issued by states other than the State of Florida may render such services in Florida during this emergency for persons affected by this emergency with the condition that such services be rendered to such persons free of charge, and with the further condition that such services be rendered under the auspices of the American Red Cross or the Florida Department of Health.

Section 8. All activities taken by the Director of the Division of Emergency Management and the State Health Officer and Surgeon General with respect to this emergency before the issuance of this Executive Order are ratified. This Executive Order shall expire sixty days from this date unless extended.

**ADVISORY MEMORANDUM ON IDENTIFICATION OF ESSENTIAL CRITICAL
INFRASTRUCTURE WORKERS DURING COVID-19 RESPONSE**

FROM: Christopher C. Krebs
Director
Cybersecurity and Infrastructure Security Agency (CISA)

As the Nation comes together to slow the spread of COVID-19, on March 16th the President issued updated Coronavirus Guidance for America that highlighted the importance of the critical infrastructure workforce.

The Cybersecurity and Infrastructure Security Agency (CISA) executes the Secretary of Homeland Security's authorities to secure critical infrastructure. Consistent with these authorities, CISA has developed, in collaboration with other federal agencies, State and local governments, and the private sector, an "Essential Critical Infrastructure Workforce" advisory list. This list is intended to help State, local, tribal and territorial officials as they work to protect their communities, while ensuring continuity of functions critical to public health and safety, as well as economic and national security. Decisions informed by this list should also take into consideration additional public health considerations based on the specific COVID-19-related concerns of particular jurisdictions.

This list is advisory in nature. It is not, nor should it be considered, a federal directive or standard. Additionally, this advisory list is not intended to be the exclusive list of critical infrastructure sectors, workers, and functions that should continue during the COVID-19 response across all jurisdictions. Individual jurisdictions should add or subtract essential workforce categories based on their own requirements and discretion.

The advisory list identifies workers who conduct a range of operations and services that are typically essential to continued critical infrastructure viability, including staffing operations centers, maintaining and repairing critical infrastructure, operating call centers, working construction, and performing operational functions, among others. It also includes workers who support crucial supply chains and enable functions for critical infrastructure. The industries they support represent, but are not limited to, medical and healthcare, telecommunications, information technology systems, defense, food and agriculture, transportation and logistics, energy, water and wastewater, law enforcement,

and public works.

State, local, tribal, and territorial governments are responsible for implementing and executing response activities, including decisions about access and reentry, in their communities, while the Federal Government is in a supporting role. Officials should use their own judgment in issuing implementation directives and guidance. Similarly, while adhering to relevant public health guidance, critical infrastructure owners and operators are expected to use their own judgement on issues of the prioritization of business processes and workforce allocation to best ensure continuity of the essential goods and services they support. All decisions should appropriately balance public safety, the health and safety of the workforce, and the continued delivery of essential critical infrastructure services and functions. While this advisory list is meant to help public officials and employers identify essential work functions, it allows for the reality that some workers engaged in activity determined to be essential may be unable to perform those functions because of health-related concerns.

CISA will continue to work with our partners in the critical infrastructure community to update this advisory list if necessary as the Nation's response to COVID-19 evolves.

Should you have questions about this list, please contact CISA at CISA.CAT@cisa.dhs.gov.

Guidance on the Essential Critical Infrastructure Workforce: Ensuring Community and National Resilience In COVID-19 Response

Version 2.0 (March 28, 2020)

THE IMPORTANCE OF ESSENTIAL CRITICAL INFRASTRUCTURE WORKERS

Functioning critical infrastructure is imperative during the response to the COVID-19 emergency for both public health and safety as well as community well-being. Certain critical infrastructure industries have a special responsibility in these times to continue operations.

This advisory guidance and accompanying list are intended to support state, local, tribal, territorial and industry partners in identifying the critical infrastructure sectors and the essential workers needed to maintain the services and functions Americans depend on daily and that need to be able to operate resiliently during the COVID-19 pandemic response.

This document gives advisory guidance on defining essential critical infrastructure workers. Promoting the ability of such workers to continue to work during periods of community restriction, access management, social distancing, or closure orders/directives is crucial to community resilience and continuity of essential functions.

CISA will continually solicit and accept feedback on the list and will evolve the list in response to stakeholder feedback. We will also use our various stakeholder engagement mechanisms to work with partners on how they are using this list and share those lessons learned and best practices broadly. Feedback can be sent to CISA.CAT@CISA.DHS.GOV.

CONSIDERATIONS FOR GOVERNMENT AND BUSINESS

This list was developed in consultation with federal agency partners, industry experts, and State and local officials, and is based on several key principles:

1. Response efforts to the COVID-19 pandemic are locally executed, state managed, and federally supported.
2. Everyone should follow guidance from the CDC, as well as State and local government officials, regarding strategies to limit disease spread.
3. Workers should be encouraged to work remotely when possible and focus on core business activities. In-person, non-mandatory activities should be delayed until the resumption of normal operations.
4. When continuous remote work is not possible, businesses should enlist strategies to reduce the likelihood of spreading the disease. This includes, but is not necessarily limited to, separating staff by off-setting shift hours or days and/or social distancing. These steps can preserve the workforce and allow operations to continue.
5. All organizations should implement their business continuity and pandemic plans or put plans in place if they do not exist. Delaying implementation is not advised and puts at risk the viability of the business and the

health and safety of the employees.

6. Reliance on technology and just-in-time supply chains means that certain workers must be able to access certain sites, facilities, and assets to ensure continuity of functions.
7. Government employees, such as emergency managers, and the business community need to establish and maintain lines of communication.
8. When government and businesses engage in discussions about essential critical infrastructure workers, they need to consider the implications of business operations beyond the jurisdiction where the asset or facility is located. Businesses can have sizeable economic and societal impacts as well as supply chain dependencies that are geographically distributed.
9. Whenever possible, jurisdictions should align access and movement control policies related to critical infrastructure workers to lower the burden of workers crossing jurisdictional boundaries.

IDENTIFYING ESSENTIAL CRITICAL INFRASTRUCTURE WORKERS

The following list of identified essential critical infrastructure workers is intended to be overly inclusive reflecting the diversity of industries across the United States.

EXECUTIVE ORDER NUMBER 20-93

(COVID-19 Emergency Order – Reemployment Assistance Program)

WHEREAS, on March 1, 2020, I issued Executive Order 20-51 directing the Florida Department of Health to issue a Public Health Emergency; and

WHEREAS, on March 1, 2020, the State Surgeon General and State Health Officer declared a Public Health Emergency exists in the State of Florida as a result of COVID-19; and

WHEREAS, on March 9, 2020, I issued Executive Order 20-52 declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on March 16, 2020, President Donald J. Trump and the Centers for Disease Control and Prevention ("CDC") issued the "15 Days to Slow the Spread" guidance advising individuals to adopt far-reaching social distancing measures, such as avoiding gatherings of more than 10 people, and in states with evidence of community spread, recommending restrictions to certain establishments conducive to mass gatherings and congregations; and

WHEREAS, on March 29, 2020, the President extended such guidance to be in effect until April 30, 2020 and along with the White House Coronavirus Task Force urged Americans to continue to adhere to the guidelines and expand community mitigation efforts; and

WHEREAS, multiple Florida counties and local governments have ordered certain business closures and restricted public access outside of the home; and

WHEREAS, on April 1, 2020, in concert with the efforts of President Trump and the White House Coronavirus Task Force, and based on guidance provided by Florida Surgeon General and State Health Officer, Dr. Scott Rivkees, I directed all persons in Florida to limit their movements and personal interactions outside of home to only those necessary to obtain or provide essential services or conduct essential activities; and

WHEREAS, many Florida businesses have been negatively impacted by the spread of COVID-19 and the precautionary measures taken by the nation in response to COVID-19; and

WHEREAS, thousands of Floridians are seeking help from the Florida Department of Economic Opportunity (“DEO”) Reemployment Assistance Program leading to significantly greater demand upon DEO’s personnel, infrastructure, technology, and resources; and

WHEREAS, I have already directed DEO to work in concert with the federal government and other state agencies to pursue all measures necessary to help Florida’s citizens during these challenging times.

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution Chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order to take immediate effect:

Section 1. Personnel Support for Reemployment Assistance

I hereby direct all executive agency heads, in consultation with the Department of Management Services (“DMS”), to identify and deploy executive agency personnel to assist DEO with their reemployment assistance efforts, including call center operations and other citizen

services. In order to improve the operation and responsiveness of DEO's reemployment assistance efforts, assigned personnel shall, to the extent reasonably possible, cease their current governmental responsibilities and fully devote their services to the DEO program. All deployed personnel shall maintain current benefits and salary and DEO shall determine how best to quickly utilize these employees to serve Floridians negatively impacted by COVID-19.

Section 2. Training

Training shall be streamlined and administered quickly, for a short duration, so that agency personnel may be deployed as soon as possible.

Section 3. Reemployment Applications

In light of the unprecedented and increasing call volume at DEO's reemployment assistance call center during the COVID-19 statewide emergency, DEO shall pursue, in addition to internet and telephonic reemployment applications, new or alternative forms and methods for receiving applications, including making paper applications readily available on DEO's website and throughout the state at each of the 24 Local Workforce Development Boards. I hereby direct CareerSource Florida to assist DEO with dissemination and collection of paper applications and direct DEO to identify a third-party company to assist with collection of physical applications and delivery to DEO. DEO shall immediately establish a secure system through which applications may be efficiently submitted for organized processing and review.

Section 4. Emergency Procurement

DEO shall immediately procure additional capacity, software, technology and/or other resources as needed to ensure the state's reemployment assistance call center, website and staff can accommodate the increasing volume of applications and queries.

Section 5. Implementation

DMS and DEO shall supplement and provide guidance as necessary to implement this order.

Section 6. Duration

This directive shall remain in effect until the expiration of Executive Order 20-52 including any extensions.

WHEREAS, on March 9, 2020, I issued Executive Order 20-52 declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on April 3, 2020, I issued Executive Order 20-91 and Executive Order 20-92 directing all persons in Florida to limit their movements and personal interactions outside of their home only to those necessary to obtain or provide essential services or conduct essential activities; and

WHEREAS, my administration has implemented a data-driven strategy devoted to high-volume testing and aggressive contact tracing, as well as strict screening protocols in long-term care facilities to protect vulnerable residents; and

WHEREAS, data collected by the Florida Department of Health indicates the State has achieved several critical benchmarks in flattening the curve, including a downward trajectory of hospital visits for influenza-like illness and COVID-19-like syndromic cases, a decrease in percent positive test results, and a significant increase in hospital capacity since March 1, 2020; and

WHEREAS, during the week of April 20, 2020, I convened the Task Force to Re-Open Florida to evaluate how to safely and strategically re-open the State; and

WHEREAS, the path to re-opening Florida must promote business operation and economic recovery while maintaining focus on core safety principles.

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section (1)(a) of the Florida Constitution and Chapter 252, Florida Statutes, and all other applicable laws, promulgate the following Executive Order:

Section 1. Phase 1 Recovery

In concert with the efforts of President Donald J. Trump and the White House Coronavirus Task Force, and based on guidance provided by the White House and the Centers for Disease Control and Prevention (CDC), the Occupational Safety and Health Administration (OSHA), and the Florida Surgeon General and State Health Officer, Dr. Scott Rivkees, I hereby adopt the following in response to the recommendations in Phase 1 of the plan published by the Task Force to Re-Open Florida.

Section 2. Responsible Individual Activity

A. All persons in Florida shall continue to limit their personal interactions outside the home; however, as of the effective date of this order, persons in Florida may provide or obtain:

1. All services and activities currently allowed, *i.e.*, those described in Executive Order 20-91 and its attachments, which include activities detailed in Section 3 of Executive Order 20-91, the U.S. Department of Homeland Security in its Guidance on the Essential Critical Infrastructure Workforce and a list propounded by Miami-Dade County in multiple orders (as of April 1, 2020), as well as other services and activities approved by the State Coordinating Officer. Such services should continue to follow safety

guidelines issued by the CDC and OSHA. If necessary, employee screening or use of personal protective equipment should continue.

2. Additional services responsibly provided in accordance with Sections 3 and 4 of this order in counties other than Miami-Dade, Broward and Palm Beach. In Miami-Dade, Broward and Palm Beach counties, allowances for services and activities from Sections 3 and 4 of this order will be considered in consultation with local leadership.

B. Except as provided in Section 2(A)(1) of this order, senior citizens and individuals with a significant underlying medical condition (such as chronic lung disease, moderate-to-severe asthma, serious heart conditions, immunocompromised status, cancer, diabetes, severe obesity, renal failure and liver disease) are strongly encouraged to stay at home and take all measures to limit the risk of exposure to COVID-19.

C. For the duration of this order, all persons in Florida should:

1. Avoid congregating in large groups. Local jurisdictions shall ensure that groups of people greater than ten are not permitted to congregate in any public space that does not readily allow for appropriate physical distancing.
2. Avoid nonessential travel, including to U.S. states and cities outside of Florida with a significant presence of COVID-19.
3. Adhere to guidelines from the CDC regarding isolation for 14 days following travel on a cruise or from any international destination and any area with a significant presence of COVID-19.

D. This order extends Executive Order 20-80 (Airport Screening and Isolation) and Executive Order 20-82 (Isolation of Individuals Traveling to Florida), with exceptions for persons involved in military, emergency, health or infrastructure response or involved in commercial activity. This order extends Sections 1(C) and 1(D) of Executive Order 20-86 (Additional Requirements of Certain Individuals Traveling to Florida), which authorize the Department of Transportation, with assistance from the Florida Highway Patrol and county sheriffs, to continue to implement checkpoints on roadways as necessary.

Section 3. Businesses Restricted by Previous Executive Orders

Unless I direct otherwise, for the duration of this order, the following applies to businesses directly addressed by my previous Executive Orders:

- A. Bars, pubs and nightclubs that derive more than 50 percent of gross revenue from the sale of alcoholic beverages shall continue to suspend the sale of alcoholic beverages for on-premises consumption. This provision extends Executive Order 20-68, Section 1 as modified by Executive Order 20-71, Sections 1 and 2.
- B. Restaurants and food establishments licensed under Chapters 500 or 509, Florida Statutes, may allow on-premises consumption of food and beverage, so long as they adopt appropriate social distancing measures and limit their indoor occupancy to no more than 25 percent of their building occupancy. In addition, outdoor seating is permissible with appropriate social distancing. Appropriate social distancing requires maintaining a minimum of 6 feet between parties, only seating parties of 10 or fewer people and keeping bar counters closed to seating. This provision

extends Executive Order 20-68, Section 3 and supersedes the conflicting provisions of Executive Order 20-71, Section 2 regarding on-premises food consumption.

- C. Gyms and fitness centers closed by Executive Order 20-71 shall remain closed.
- D. The prohibition on vacation rentals in Executive Order 20-87 remains in effect for the duration of this order.
- E. The Department of Business and Professional Regulation shall utilize its authorities under Florida law to implement and enforce the provisions of this order as appropriate.

Section 4. Other Affected Business Services

Unless I direct otherwise, for the duration of this order, the following applies to other business services affected by my previous Executive Orders:

- A. In-store retail sales establishments may open storefronts if they operate at no more than 25 percent of their building occupancy and abide by the safety guidelines issued by the CDC and OSHA.
- B. Museums and libraries may open at no more than 25 percent of their building occupancy, provided, however, that (a) local public museums and local public libraries may operate only if permitted by local government, and (b) any components of museums or libraries that have interactive functions or exhibits, including child play areas, remain closed.

Section 5. Medical Procedures

Subject to the conditions outlined below, elective procedures prohibited by Executive Order 20-72 may resume when this order goes into effect. A hospital ambulatory surgical center, office surgery center, dental office, orthodontic office, endodontic office or other health care
