Subject:	4/13/2020 public records request from The New York Times
Date:	Monday, April 13, 2020 2:56:07 PM

Hi, all. This is a request pursuant to the Public Records Act, Chapter 119 of the Florida Statutes.

Florida reports coronavirus statistics through a daily report on floridadisaster.org. That report identifies the number of coronavirus cases involving residents or staff of long-term care facilities by county. The New York Times requests records revealing the identity of the long-term care facilities where the cases identified in the report work/reside. We do not seek the names of any infected persons.

This request also serves as the written notice required by Section 119.12 of the Florida Statutes.

Thank you,

Good evening Louise,
Would you ask your team to look this over one more time for any unacceptable terms that were included and adjust accordingly if this were to be a DOH agreement?
Many thanks.

V/r,

Florida has a very broad public records law. Written communications to or from state officials regarding state business constitute public records. Public records are available to the public and media upon request, unless the information is subject to a specific statutory exemption. Therefore, any information that you send to this address, including your contact information, may be subject to public disclosure.

Under Florida law, correspondence with the Florida Division of Emergency Management, which is neither confidential nor exempt pursuant to Florida Statutes Chapter 119, is a public record made available upon request.

Subject: At FEMA, Companies Offer Critical Coronavirus Supplies the Government Can't Buy
Date: Wednesday, April 8, 2020 9:58:51 AM

I am being told that Congressman Stephanie Murphy and President Trump al are telling people that testing is free. If this is correct, please confirm, and tell me how we can recover the costs, instead of billing insurance and third parties.

My understanding is that is the case at the DOH that has no supplies, and cannot accommodate the demand. In Orlando at the Orange County Convention Center, they are testing 250 per day, 5 hour wait with the National Guard. I could test 2,000 per day with no wait, at each of four locations, but I have to charge people or bill their insurance or Medicare, which is the limiting factor in scheduling people.

If I could do it for "free" I could test 8,000 people per day, in Brevard County alone.

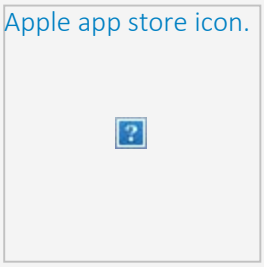
At FEMA, Companies Offer Critical Coronavirus Supplies the Government Can't Buy

More than 1,000 companies responded to the Federal Emergency Management Agency's call about two weeks ago to provide needed supplies for the coronavirus pandemic response, according to a person familiar with the matter.



As of early Monday, only three companies had supplies the agency could

actually buy.

Subject: Canceled: Florida Healthcare Provider Stakeholder Call for 2019 Novel Coronavirus

Importance: High

The Florida Department of Health invites you to join us for a weekly public health stakeholder conference call regarding the 2019 novel corona virus outbreak. The target audience for this call is the healthcare community in Florida. During the call we will provide the most current situation both globally, as well as in Florida and share the Department's response actions.

Please share this invitation with your membership as appropriate.

AMERICAN OVERSIGHT

When: Each Wednesday at 2:00 p.m. EST

Call in Information: 888-585-9008 Pin 208-305-233

Rural Partners,

Please save the date and send me your requests to be added to the agenda. These can include requests for assistance from a rural community, or for agencies to present on programs or new Notices of Funding Availability. We encourage REDI and Federal agency partners to take the opportunity to highlight their special rural programs.

Subject:	CANCELLED Administrative Law March Madness Happy Hour March 19 at Miller"s Ale House

Due to the CV we are cancelling this event. We will try to schedule something once everything settles down.

Subject: Administrative Law March Madness Happy Hour March 19 at Miller's Ale House

Hello again, everyone.

Our next event is coming up in a couple weeks on March 19 at 530 at Miller's Ale House in Tallahassee. This will be our second annual March Madness event where we get together to network, watch the first day of the basketball tournament, and raise money for a good cause, the Refuge House.

I wanted to reach out to the entire section to make sure everyone who would like to sponsor an event has the opportunity to do so. We ask that sponsors donate at least $250 towards the event. Sponsors will be recognized on all ALS online media as well as on our event flyer (which will be updated) and live at the event. An initial draft of the flyer is attached. Sponsorship money will go first to paying the bar tab and then all overage is donated to the Refuge House. We find this increases attendance which typically increases donations to our partnering charity.

Let me know by the end of next week if your firm would like to be a sponsor. And as always, we hope to see everyone at the event.

Have a good weekend,

Matthew E. W. Bryant

Dr. Rivkees

As always it is a pleasure to speak with you. I spoke with our HHS Liaison to the Department of State and he is willing to work to set up a call with the Department of State. Based on your desire we can include CDC. I included the CDC guidance on cruise ships.

I should have a name of a Customs and Border Protection (CBP) representative for you shortly.

Jeanne

Update from our DOS partners

Coral Princess

Coral Princess arrived in Port of Miami today (April 4) at 10:00 ET. Ship is close to the Port but has not docked yet. Waiting final order on that, however the Mayor of Miami approved the ship last night and they have a "verbal" ok from the CAPT of Port. Miami Unified Command is meeting now (noon) to review (really just to iron out the details of) the plan (see attached) with the Cruise Line. They have 4 critically ill (3 Amcits) that would medevac to local hospitals and 50 Florida residents that would also disembark. All other passengers will remain on the ship until travel arrangements are made (possibly flights tomorrow April 5)). There are 65 sick passengers and 4 of them on oxygen which are the ones to be medevac.

Jeanne

Based on our earlier conversations today about the med surge planning for the ACS locations there was dialogue about cruise ships. To assist in your planning I am providing the latest CDC guidance on the **Public Health Management for Cruise Ships Arriving at a US Port during COVID-19 Pandemic.**

Can you provide us your visibility on incoming cruise ships? We have reached out to the Department of State for a listing as well.
Please let me know what assistance I can provide.

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Original documents located at links below:

Please forward to the appropriate agencies, for obvious reasons, the Lee Sheriff has a major conflict here.

The Justice Department has opened a civil rights investigation against the Lee Sheriff Carmine Marceno involving torture and attempted murder of an elderly disabled adult lodged in the Lee Jail for failure to pay a contempt of court fine. Please forward this to the appropriate State agency for investigation. The Fl Dept of Health has also opened investigations against the Sheriff's Medical staff. see docs below.

In my above response to the DOJ (in an email) I posed the question to the FL DOH if taking a person, cold turkey, off blood pressure medications that he had been on for 22 years would increase the disabled elderly adult's risk of death. No answer was received, the answer is obvious. This conduct constitutes felony abuse of a disabled adult and perhaps attempted murder.

Unfortunately one is my appellate attorney the other is an Assistant Attorney General.

Please consider this as a complaint regarding unauthorized practice of medicine by
Judge James Adams and possibly these 2 attorneys.

This conduct borders on the unauthorized practice of medicine and these two attorneys provide content that can only be provided by a medical expert in a court proceeding.

They try to undermine the ADA treatment plan to allow the various officials involved in this matter to continue to refuse ADA accommodations to the disabled. The purpose of the the lies of these 2 attorneys is to get a Court to negate or declare the ADA plan as forgery or a fraud. They are trying to create case law to prejudice the disabled in FLorida and/or trying to get an appellate court to disregard the ADA plan.

Rebecca Potter is the LMHC who authored the ADA accommodations plan, I was her patient and she also served as my ADA advocate. Also detailed is the conduct of Judge Adams acting as a medical expert in the case and trumping the genuine and legitimate findings and recommendations of a licensed medical professional who was trained by Doctor Karin Huffer who original set fort a subset of PTSD, Legal Abuse Syndrome, Ms. Huffer also treated me and has written a book on the topic. I have very servere PTSD/LAS.
https://en.wikipedia.org/wiki/Karin_Huffer

A non-medical legal issue is that Judge Adams engaged in an early sentencing phase prior to trial forbidden by the federal constitution, the judge can not address sentencing without the facts introduced at trial.

One thing to note is that Judge Krier who presided early in the case advocated a medical inquiry into my competency. Judge Adams without jurisdiction to do so over-ruled this important statement of Judge Krier.

excerpts from the 2 briefs,
First Florida's brief on the issue,

After Judge Adams determined Appellant forfeited his
contempt charge, Appellant began filing a multitude of various motions with the court. Like many pro se pleadings, they were not model pleadings; among them were several motions whose titles suggest Appellant believed he was not competent

29

to conduct his own defense. The motions essentially alleged, in various ways, that while Appellant was competent to stand trial with the help of counsel, he was not competent to act as his own attorney. (R. 1406, 1476, 1696). Attached to several of these motions was an unsigned report, allegedly drafted by a Rebecca Potter, LMHC, that suggested Appellant would struggle with his own representation and he should be appointed counsel to represent him. (R. 1117, 1125, 1408, 1478, 1624).

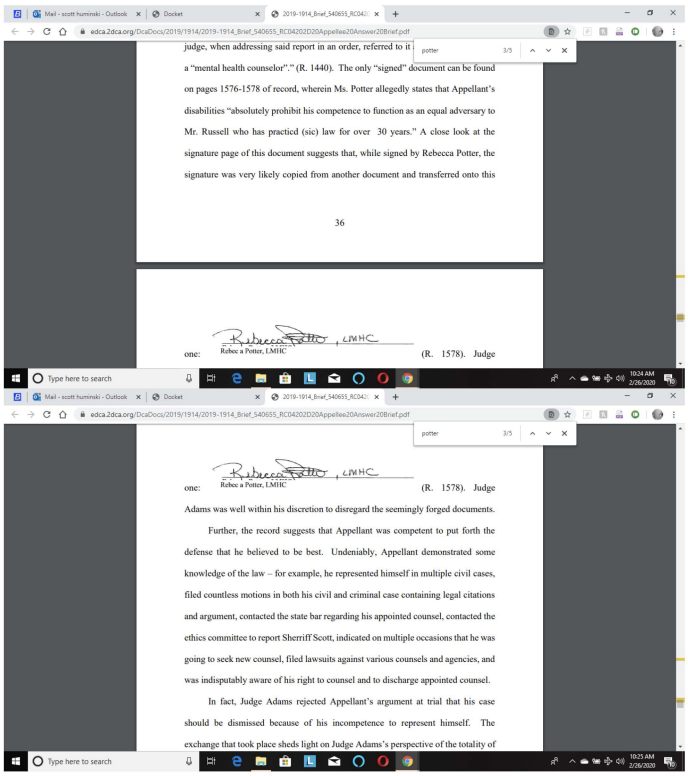
Attached to several of these motions was an unsigned report, allegedly drafted by a Rebecca Potter, LMHC, that suggested Appellant would struggle with his own representation and he should be appointed counsel to represent him. (R. 1117, 1125, 1408, 1478, 1624).

The trial court denied these motions by written order on more than one occasion, finding, for example, that the "allegations in the report [from Rebecca Potter] do not demonstrate that Defendant is incompetent pursuant to Fla. Stat. §916.12" and that Appellant "has made no allegations, and the Court has made no observations, which would cause this Court to have a reasonable belief Defendant may be incompetent (R. 1440, 1702).

As Appellant's argument on appeal seemingly challenges his competency both to stand trial and to represent himself at trial, both challenges will be addressed in an abundance of caution.



i. Competency to proceed to trial

this one borders on unauthorized practice of medicine by a government attorney

Here, the trial court had no *reasonable* grounds to believe that Appellant suffered from such a severe mental illness that he could not conduct trial proceedings on his own. While the record contains a report from a "Rebecca Potter" suggesting Appellant would benefit from the appointment of counsel, the report stops short of alleging any mental illnesses that would prohibit Appellant from representing himself. More importantly, even assuming the report made such a statement, the authenticity of this report is questionable at best; it is written in the same grammatical and distinct way as Appellant's pro-se motions and, most notably, is unsigned. Interestingly, it appears that Judge Adams also questioned the veracity of the report and its true author. Stopping short of accusing Appellant of lying, the judge, when addressing said report in an order, referred to it as being "prepared by a "mental health counselor"." (R. 1440). The only "signed" document can be found on pages 1576-1578 of record, wherein Ms. Potter allegedly states that Appellant's disabilities "absolutely prohibit his competence to function as an equal adversary to

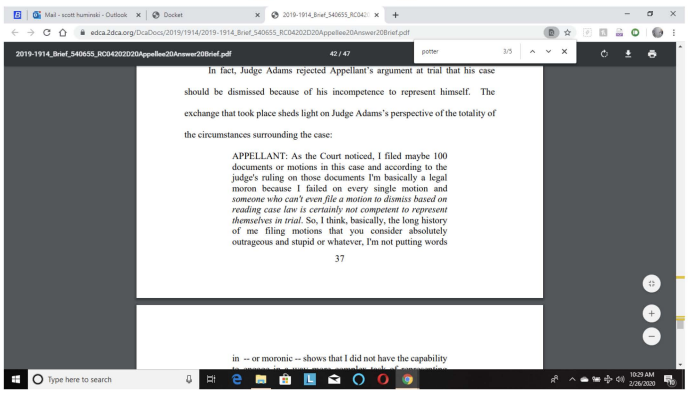
Further, the record suggests that Appellant was competent to put forth the defense that he believed to be best. Undeniably, Appellant demonstrated some knowledge of the law – for example, he represented himself in multiple civil cases, filed countless motions in both his civil and criminal case containing legal citations and argument, contacted the state bar regarding his appointed counsel, contacted the ethics committee to report Sherriff Scott, indicated on multiple occasions that he was going to seek new counsel, filed lawsuits against various counsels and agencies, and was indisputably aware of his right to counsel and to discharge appointed counsel.



In fact, Judge Adams rejected Appellant's argument at trial that his case should be dismissed because of his incompetence to represent himself. The exchange that took place sheds light on Judge Adams's perspective of the totality of

one: Rebeca Potter, LMHC (R. 1578). Judge Adams was well within his discretion to disregard the seemingly forged documents.

Further, the record suggests that Appellant was competent to put forth the defense that he believed to be best. Undeniably, Appellant demonstrated some knowledge of the law – for example, he represented himself in multiple civil cases, filed countless motions in both his civil and criminal case containing legal citations and argument, contacted the state bar regarding his appointed counsel, contacted the ethics committee to report Sherriff Scott, indicated on multiple occasions that he was going to seek new counsel, filed lawsuits against various counsels and agencies, and was indisputably aware of his right to counsel and to discharge appointed counsel.

In fact, Judge Adams rejected Appellant's argument at trial that his case should be dismissed because of his incompetence to represent himself. The exchange that took place sheds light on Judge Adams's perspective of the totality of

> APPELLANT: As the Court noticed, I filed maybe 100 documents or motions in this case and according to the judge's ruling on those documents I'm basically a legal moron because I failed on every single motion and *someone who can't even file a motion to dismiss based on reading case law is certainly not competent to represent themselves in trial.* So, I think, basically, the long history of me filing motions that you consider absolutely outrageous and stupid or whatever, I'm not putting words

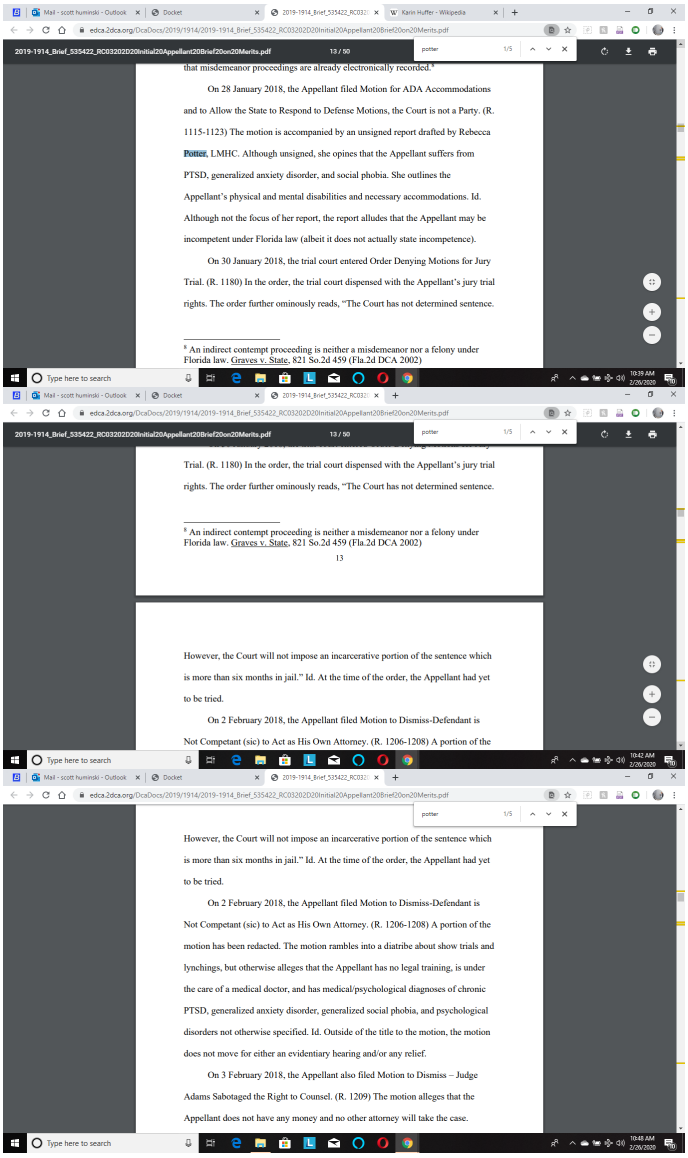
STATE: Judge, I would just ask that you t… personal observations of Mr. Huminski, since your interactions with him in this particular case. The things that are reflected in the court file clearly show that Mr. Huminski has an understanding of the civil world and criminal arena, to the extent that he knows the participants, he knows the roles of the participants, he certainly has the ability to assist with his lawyer, so competency is not an issue in this particular incident.

THE COURT: Mr. Huminski, your – your filings, even though you have characterized them as stupid, moronic or -- or whatever, I've not really considered them as such, simply considered you as a prose litigant, you know, filing many motions in the case, some of which are in contravention of the order that Judge Krier had previously put in place.



(R. 2397-2399).

Because the record does not provide reasonable grounds for Judge Adams to believe that Appellant suffered from such a severe mental illness that he could not conduct his own defense, the court did not err in failing to conduct a competency hearing before requiring Appellant to proceed pro-se.

WHETHER THE TRIAL COURT ERRED IN

Excerpts from brief of Anthony Candela, esq.

that misdemeanor proceedings are already electronically recorded.[8]

On 28 January 2018, the Appellant filed Motion for ADA Accommodations and to Allow the State to Respond to Defense Motions, the Court is not a Party. (R. 1115-1123) The motion is accompanied by an unsigned report drafted by Rebecca Potter, LMHC. Although unsigned, she opines that the Appellant suffers from PTSD, generalized anxiety disorder, and social phobia. She outlines the Appellant's physical and mental disabilities and necessary accommodations. Id. Although not the focus of her report, the report alludes that the Appellant may be incompetent under Florida law (albeit it does not actually state incompetence).

On 30 January 2018, the trial court entered Order Denying Motions for Jury Trial. (R. 1180) In the order, the trial court dispensed with the Appellant's jury trial rights. The order further ominously reads, "The Court has not determined sentence.

[8] An indirect contempt proceeding is neither a misdemeanor nor a felony under Florida law. Graves v. State, 821 So.2d 459 (Fla.2d DCA 2002)

However, the Court will not impose an incarcerative portion of the sentence which is more than six months in jail." Id. At the time of the order, the Appellant had yet to be tried.

On 2 February 2018, the Appellant filed Motion to Dismiss-Defendant is Not Competant (sic) to Act as His Own Attorney. (R. 1206-1208) A portion of the motion has been redacted. The motion rambles into a diatribe about show trials and lynchings, but otherwise alleges that the Appellant has no legal training, is under the care of a medical doctor, and has medical/psychological diagnoses of chronic PTSD, generalized anxiety disorder, generalized social phobia, and psychological disorders not otherwise specified. Id. Outside of the title to the motion, the motion does not move for either an evidentiary hearing and/or any relief.

On 3 February 2018, the Appellant also filed Motion to Dismiss – Judge Adams Sabotaged the Right to Counsel. (R. 1209) The motion alleges that the Appellant does not have any money and no other attorney will take the case.

However, the Court will not impose an incarcerative portion of the sentence which is more than six months in jail." Id. At the time of the order, the Appellant had yet to be tried.

On 2 February 2018, the Appellant filed Motion to Dismiss-Defendant is Not Competant (sic) to Act as His Own Attorney. (R. 1206-1208) A portion of the motion has been redacted. The motion rambles into a diatribe about show trials and lynchings, but otherwise alleges that the Appellant has no legal training, is under the care of a medical doctor, and has medical/psychological diagnoses of chronic PTSD, generalized anxiety disorder, generalized social phobia, and psychological disorders not otherwise specified. Id. Outside of the title to the motion, the motion does not move for either an evidentiary hearing and/or any relief.

On 3 February 2018, the Appellant also filed Motion to Dismiss – Judge Adams Sabotaged the Right to Counsel. (R. 1209) The motion alleges that the Appellant does not have any money and no other attorney will take the case.

(R. 1497-1499) The Appellant lists four expert witnesses. The

the witnesses will testify to the impact of PTSD on the element of *mens rea*. The addresses of the witness were conspicuously absent. Id. The notice does not have any reports or curriculum vitae attached.[12] Later, the Appellant filed for an appeal from county to circuit court. (R. 1499-1500) The Appellant filed a request for indigency. (R. 1503) There is no clerk's determination.

On 20 February 2018, the Appellant filed Sworn Opinion of Expert Rebecca Potter, LMHC Conderning (sic) the Competence of Scott Huminski to Conduct his Own Criminal Defense Without the Assistance of Counsel. (R. 1576-1631) Attached to this document, there are several items, including, Counselor Potter's unsigned report. There is some sort of signed jurat but there are inconsistencies like the signatory's name appears to have been lifted from somewhere and recopied and the jurat does not appear to apply to any specific set of facts. Id.

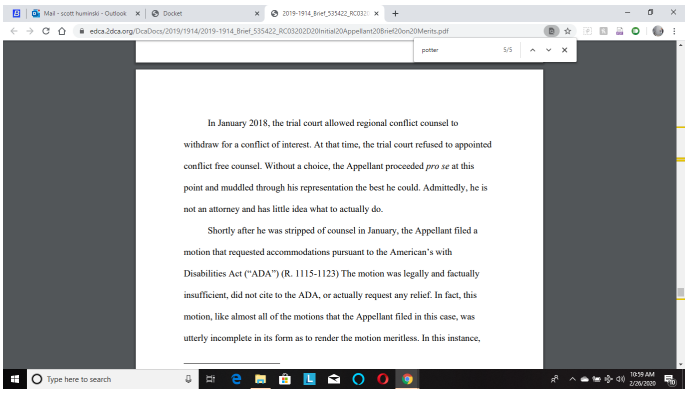
On 21 February 2018, the trial court entered Order Denying Successive Motions to Appoint Counsel. (R. 1637)

Without reports or curriculum vitae, it seems as if my attorney supports the judge acting as a medical expert in the case where he should have been acting as a non-biased decision-maker.

recopied and the jurat does not appear to apply to any specific set of facts. Id.

On 21 February 2018, the trial court entered Order Denying Successive Motions to Appoint Counsel. (R. 1637)

[12] Counsel Potter's report has been attached to several motions. Dr. Lado has also been mentioned. Dr. Seth Silverman, M.D., and Karin Huffer, Ph.D. are new names.



18

On 22 February 2018, the Appellant filed Motion for Appointment of Counsel. (R. 1642-1643) An affidavit of indigency is attached.

On 27 February 2018, the Appellant filed Memorandum Concerning Violation of Huminski's Sixth Amendment Rights. (R. 1682-1688) He also filed

In January 2018, the trial court allowed regional conflict counsel to withdraw for a conflict of interest. At that time, the trial court refused to appointed conflict free counsel. Without a choice, the Appellant proceeded *pro se* at this point and muddled through his representation the best he could. Admittedly, he is not an attorney and has little idea what to actually do.

Shortly after he was stripped of counsel in January, the Appellant filed a motion that requested accommodations pursuant to the American's with Disabilities Act ("ADA") (R. 1115-1123) The motion was legally and factually insufficient, did not cite to the ADA, or actually request any relief. In fact, this motion, like almost all of the motions that the Appellant filed in this case, was utterly incomplete in its form as to render the motion meritless. In this instance,

Rebecca Potter, LMHC. Although the report is unsigned, she opines that the Appellant suffers from PTSD, generalized anxiety disorder, and social phobia. She outlines the Appellant's physical and mental disabilities and necessary accommodations. Id. In her professional opinion, she believes that the Appellant will struggle with his own representation. Id. Although not the focus of her report, the report alludes that the Appellant may be incompetent under Florida law (albeit it does not actually state incompetence).

Again, on 2 February 2018, the Appellant filed Motion to Dismiss-Defendant is Not Competant (sic) to Act as His Own Attorney. (R. 1206-1208) A portion of the motion has been redacted. The motion rambles into a diatribe about show trials and lynchings, but otherwise alleges that the Appellant has no legal training, is under the care of a medical doctor, and has medical/psychological diagnoses of chronic post-traumatic stress disorder ("PTSD"), generalized anxiety disorder, generalized social phobia, and psychological disorders not otherwise

an evidentiary hearing and/or any relief.

On 13 February 2018, the Appellant also filed Notice of Dismiss, Huminski is Incompetent to Conduct His Own Defense and Memo In Support of Motice (sic), Iluminski (sic) is Incompetent to Conduct His Own Defense. (R. 1406-1434)

41

The memo cites to Indiana v. Edwards, 554 U.S. 164, 128 S.Ct. 2379, 171 L.Ed.2d 345 (2008). By way of explanation in Edwards, the United States Supreme Court held that the Constitution permits states to insist upon representation by counsel of persons who are competent to enough to stand trial but who still suffer from severe mental illness to the point where they are not competent to conduct the trial proceedings by themselves. Id.

Although there are big problems here, the worst issue is

See below. DOH please expedite to avoid harm, injury or death to those who follow me confronted by these abuses.

Mr. Candela (my alleged appellate atty) and Ms. Alper (AAG). I consent to a 10 day leave for you to withdraw the lies from both briefs. Hmm. Very odd that a defense attorney and a prosecutor would join forces against the defendant. -- scott

Subject: One question for medical practitioners

Is a person more likely to die when his blood pressure medications that he had been on for 22 years are abruptly ended than just staying on the medications prescribed by medical doctors for 22 years with great success? Seems like there are two questions, are nurses in florida allowed to over-ride medications and treatments prescribed by an M.D., I hope not to prevent this scenario happening elsewhere in the State.

AMERICAN OVERSIGHT

These nurses made a finding that my doctor had erred and all my doctors prior were clueless as well. Its not the doctors, its prison nurses.

If the answer to question 1 is yes, the nurses may qualify for attempted murder charges as may others involved in this matter. If they are still practicing medicine the public is at risk. Does the Sheriff still employ these nurses or are they harming another community?

Subject: FL AAG concedes statutory misdemeanor fines/fees were illegal

Which caused my incarceration for being poor and when no legal fine or fee existed.

Page 10 of gov't brief link below,

"Apellee concedes that imposition of the cost of prosecution was improper because contempt is a common law crime and the statutes governing contempt do not explicitly allow for the cost of prosecution to be imposed." AAG Chelsea Alper, esq..

The government brief is here. She conceded one fine/fee was illegal, when in reality, all fines and fees were illegal by the AAG's logic and correct interpretation of FL law.

Here is her full brief, the gov't and my own attorney seem to derive pleasure from insulting me.
https://edca.2dca.org/DcaDocs/2019/1914/2019-1914_Brief_540655_BC042021220Appellee20Answer20Brief.pdf

My main fear is: how many citizens have been abused like this and how many more will face corporal punishment and torture for being too poor to afford to pay fines/fees that are patently illegal, not supported by any FL law.

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 98, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: Huminski arrest and incarceration completely illegal

Hi DOH,

The crimes related to felony abuse of a disabled person began at the first hearing with Judge Krier in 2017, she colluded with Judge Adams to illegally move the case to county court because it was a so-called "misdemeanor", absolutely false see below emails detailing that contempt in most State's, including Florida and in federal court is a "*sui generis* common law offense". At the below link there are many cases from every DCA in Florida and from the FL Supreme Court.

https://scholar.google.com/scholar?hl=en&as_sdt=40006&q=contempt+sui+generis+florida&oq=sui

Every fine and fee that caused my incarcerated for not paying were illegal and unlawful.

Note the below correctly revealing that the arrest, toture and incarceration that led to the felony abuse of a disabled adult by the sheriff was completely illegal. Just simple google searches by a non-legal practitioner reveal incredibly bad motives, a frivolous prosecution and pure evil abuse of government power to advance a corrupt agenda. Ms. Alper is the Attorney General's attorney who is pursuing this wrongful agenda. The AG's office wants to cover this up, luckily they can not cover up for the sheriff's nurses. -- scott

Here's a break down of the fees and fines illegally charged by Judge Adams that caused my incarceration and felony abuse of a disabled adult by the sheriff. The arrest and incarceration was completely unlawful.

I was incarcerated and tortured by the sheriff and his staff for not paying completely illegal fines and fees and then summarily convicted for a probation violation for not paying the illegal fines and fees by Judge Adams. He is a danger to society. I did pay the $300 in probation fees because if I didn't the arrest warrant would have issued sooner and $50 a month was manageable.

Fine $500 under 775.083 **(e) $500, when the conviction is of a misdemeanor of the second degree or a noncriminal violation.**

Illegal for a sui generis common law offense, not a conviction, a judgment was rendered on a common law offense.

Continuing to badger me for fines and fees (including a bogus misdemeanor fee) is fraud and illegal.

First the case involves a sui generis common law offense, not a misdemeanor, the fee is illegal.

This is the case law in most States including florida and in the federal system. Here's the results of a simple google search, have you done this search yet? See Ballengee below ("It is **sui generis** and is not, therefore, a crime .."), it is un-defensible to charge criminal fines/fees for a non-crime. Just plain crazy, the state of the courts in the 20th circuit and lee county. Insanity. -- scott

Subject: Lee Sheriff refuses Sunshine Law request and refuses all law enforcement services to resident of Lee County

My disabilities and extreme fear of being subjected to torture again by the Lee Sheriff only permit my communication with law enforcement via email which the sheriff prohibited. Judge Adams' orders prohibited LCSO contact already (all parties to the civil or criminal cases) and prohibits communication with Florida. Mr. Holloway did not have to repeat the words of Judge Adams just to harass, terrorize, harm and injure. NO CONTACT OR COMMUNICATION, I get it.

The only reason I felt confident in contacting the DOH is because Medical Doctors are not known for the same kind of Neanderthal behavior and wrongful shooting and killing of citizens. In fact, the medical profession is far more civilized.

The sheriff has no need to communicate this to me when it is already codified in the order of Judge Adams prohibiting all LCSO contact under threat of imprisonment. I believe Mr. Holloway chose to send this email merely to harass, terrorize and make it perfectly clear that the sheriff is excluding Huminski from law enforcement services. This causes me great anxiety and I have forgone reporting crimes that I have observed in Lee County, including the smoking of crack in the LCSO jail and curfew violations in my neighborhood after Irma.

I collected much information while in jail for the betterment of society, which will continue to be released. see below,

The order of Judge Adams mandating no contact with the LCSO remains pending appeal. My contact with you, as I explained previously is in your capacity with the County. It is criminal indirect contempt of court for me to have contact with the Sheriff or LCSO staff. See order of Judge Adams prohibiting such contact at the below link which was post on my door when I was arrested by your thugs.

The sheriff has violated the Sunshine laws by not providing the arrest report from 2/12/19 and continues to do so. Latest document request is here, luckily the web address of the is not a LCSO address or I would have been prohibited from contact for sunshine requests as well.

Here is the latest request that you have ignored, now for the third time. Stating clarification needed for merely requesting the arrest report and any recordings during transport to jail requires no clarification. Here is the third request, what do you think you need to hide via violation of sunshine law requests?

AMERICAN OVERSIGHT

scott huminski is making this request to Lee County Sheriff's Office of Lee County.
www.muckrock.com

Please discontinue violations of sunshine law requests. Seems like the truth hurts, especially the State DOH investigation of the LCSO medical staff. Buy cheap, get cheap. Not a good policy for medical services, neither is your procedures that allow your nurses to override and trump the medical treatments and medications set forth by M.D.'s. In FL nurses can not act in violation of the orders of Medical Doctors. You get what you pay for, sub-standard medical treatment. I think you need to polygraph the guard who put me in solitary on 2/12/19 and, by doing so, engaged in felony abuse of a disabled adult. The reports you are hiding reveal the truth, I was not disorderly, I merely stated that judge adams issued a gag/no-contact order prohibiting all LCSO contact. You engaged in entrapment regarding criminal contempt of judge adams' order. I await my arrest for this so-called crime that occurred dozens of times during my incarceration. Obviously.

Why are you still obstructing the request for the arrest report and transportation recordings?

Are you shutting down sunshine requests from muckrock.com as well. I noticed that I can no longer request via the portal. -- scott huminski

Dear Mr. Huminski -

Please be advised that as of Monday, 02/17/2020, your emails to all Lee County Sheriff's Office email addresses will be sequestered by our Technical Services staff, and will not reach any LCSO email address.

Please do not assume your emails will be read or acted upon.

We simply do not have the staff or resources to wade through the mass of irrelevant, inaccurate, irrational and/or abusive content in your emails, in attempts to locate a legitimate concern or request.

Our duty to use taxpayers' funds reasonably and wisely requires we dedicate our limited resources to addressing legitimate concerns and requests.

Feel free to mail, call, or stop by should you have a specific legitimate request for assistance.

If you legitimately require police or medical emergency assistance, please call 911.

Be advised, if this access to LCSO facilities and staff is abused - as you have abused your email access - appropriate action will be taken to cause such abuse to cease.

If required, we will seek and obtain another court order directing you cease such contact, as well as monetary damages and attorneys fees as appropriate.

We wish you the best in your future endeavors.

Thank you for your cooperation.

Subject: New Sunshine Law/FOIA request and evidence re: Lee Sheriff felony abuse of a disabled adult and FL DOH/U.S. DOJ ADA investigations

New request that the sheriff has dodged two times previously,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-torture-88182/

Also attached are the documents taped to the door of my home at the time of arrest that alerted the LCSO that contact and communication with Huminski would violate Judge Adams' gag/no-contact order placing Huminski in criminal contempt of court. As stated in the above link, I also verbally informed the arresting deputy of the gag order preventing contact and communication with LCSO staff and he waived protection by the gag order. The documents were placed upon my door on 10/3/2018 and were visible by deputies that knocked on my door from 10/3/18 until the date of arrest.

I have the originals viewed by the LCSO arresting deputies with the tape still on them that attached then to my door.

Upon arrival at the Jail, after I mentioned the gag order to the jail staff and they started the "sovereign citizen" chant and the arresting deputy quickly left the room so that he would not interfere with the entertainment the jail staff was enjoying from the punishment and abuse of myself for mentioning the gag order.

The LCSO had knowledge that the gag order existed when they punished me with solitary in inhumane conditions for merely mentioning the existence of the patently insane/corrupt gag order instead of pulling up the case on the public court information system and then seeking legal advise on how to handle such a case whereby contact with any LCSO personnel is barred by court order. They chose a backwoods hillbilly style of justice instead of a concern to obey the law.

This is why the sheriff is refusing to produce the report from the arrest or any recordings made in the police cruiser while transporting to the jail. He is trying to cover-up the misconduct and crimes.

There is no law enforcement duty to create new crime (contempt of court) as was done in the instant matter, to the contrary, law enforcement should not engage in conduct that creates new crimes. -- scott huminski

Subject: DOJ ADA Complaint, ADA violations at Lee County, Florida Jails

Hello,

I have been on complete SS disability for 10 years with avascular necrosis of knees and hips, bilateral hip replacements, gout, spinal stenosis, degenerative disk disease, open back surgery, hypertension, PTSD, anxiety disorder and social phobia. I was jailed for 3 weeks for not paying a contempt of court fine in Lee County, Florida 6 months after open back surgery while I was still experiencing post-surgical pain and disability. I was provided zero accommoadations, forced to sleep on the floor because I was physically unable to jump into a top bunk, no ADA compliant toilet/shower facilities. Transported is a school bus without handicap grab bars (i was handcuffed and chained to other inmates so grab bars may not have been helpful if they were available). My blood pressure and PTSD/anxiety medications were abruptly ended and I was place in solitary for 8 hours in only my underwear and shorts and barefoot in a 55 degree windy cell with only steel and concrete surfaces that plummeted my temperature to 97 degrees. Inmates wear thermal underwear and a fairly heavy jump suit. These acts are felony abuse of a disabled adult under State law, Florida statute 825.102, and patently clear ADA violations.

All disabled persons residing at the Lee jails are subjected to similar ADA violations.

Further, the sheriff has formal written rules in place that allow his nurses to override and trump any determinations of disability made by the Social Security administration and medical doctors to allow him to violate the ADA with a fraudulent determination by his nurses.

General counsel for the Florida Department of Health is prosecuting the medical personnel. I don't believe they are addressing the ADA issues. See links below that also contain contact info. for the officials involved in the DOH investigations. The FL DOH has extensive documentation on this issue and I waive all privacy and HIPAA rights concerning my medical records currently in the custody of the FL DOH and the DOH can forward all materials to the Dept. of Justice.

Dear Florida Dept. of Health,

Please forward copies of all documents related to the pending investigations detailed below to the Department of Justice - ADA enforcement unit. I waive all privacy and HIPAA rights, the safety and well-being of the public far outweigh privacy concerns. The ADA is a core federal issue applicable to the States.

Subject: Lee sheriff medial staff Sunshine law production fraud and Courthouse corruption

I suppose I shouldn't be as critical of the sheriff printing out a document, hand-modifying it, and providing that as valid sunshine law production of documents in light of the following:

Clerk Linda Doggett, printed out a June 5 Circuit Court order from 17-ca-421 (the order was 119 pages long and originally filed in 17-ca-421 on 4/26/17) On June 30 of 2017,

04/26/2017	Order to Show Cause	119

She hand modified the order by adding a non-existent docket number and without a new judicial signature,

She processed it as a valid order received from a judge,

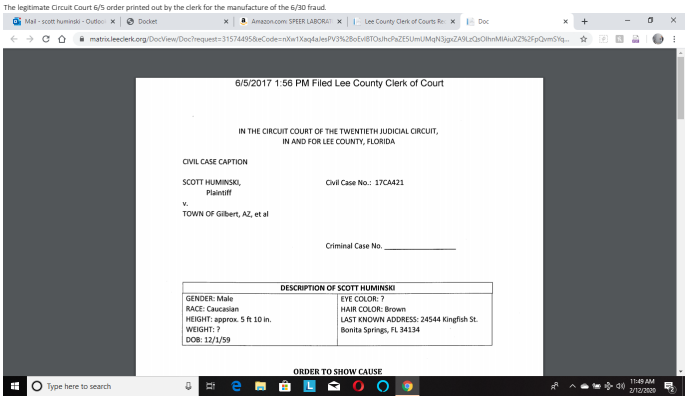
the court clerk then initiated a new criminal proceeding in Lee county court (17-mm-815) with a hand modified Circuit Court order without participation of a judge or prosecutor. A new low in courthouse corruption that initiated circumstances that led to the DOH and ADA issues now under investigation.

This clerk engaged in a litany of State and Federal crimes including, but not limited to, fraud, forgery, obstruction of justice and federal civil rights crimes by acting as a judge or prosecutor, the only entities that can initiate a prosecution.

To add insult to injury, Clerk Linda Doggett certified to the 2nd District Court of Appeal, under oath, that her forgery was a true and correct judicial order issued in the County Court. Nothing is further from the truth. The prosecutors and even my current counsel are OK with this fraud upon the appellate court.

Official crime is rampant in Lee County.

Below is a screen shot of the original 6/5 order (page 1) followed by the fraudulent forged one that Linda Doggett fraudulently filed as an authentic judicial order on June 30 which she boldly certified as authentic to the 2 DCA absent 116 pages with the forged docket number. Lots of government crime here makes one wonder if the sheriff was trying to kill me during my lodging at his facilities. He probably came close with the denial of my blood pressure medications.



True docketing of the order of the deficient order (sans 116 pages) in **Circuit Court**

06/05/2017	Order to Show Cause	3

Fraudulent docketing of the June 6 Circuit order on June 30 in **COUNTY COURT** (certified by crooked clerk to the DCA)

06/05/2017	Order to Show Cause Filed	3

The legitimate Circuit Court 6/5 order printed out by the clerk for the manufacture of the 6/30 fraud.

Now the forged/fraudulent order of Clerk Dogget absent the required Judicial signature and proper caption. Note the double time stamp, an admission that it is not a genuine judicial order, rather, it is an order manufactured by the clerk. She is so sloppy, she didn't even correct the caption when forging her new order as she was initiating a new prosecution with her manufactured order in the COUNTY COURT not Circuit. She missed changing the caption to County Court. Criminals often make stupid mistakes when they are operating in their official capacity and believe they are unaccountable.

AMERICAN OVERSIGHT

Subject: Lee sheriff medial staff

This conduct in oklahoma, see below, is the exact same mindset of many of the female guards at the Lee jails including the one that responded on the intercom concerning my report of the Redman Syndrome from toxic medications supplied to me without my knowledge or consent. When she stated "don't take pills you're not supposed to", luckily for me, my situation was not life threatening unlike the unfortunate fellow below. After acknowledgement of the toxicity of one of the medications they supplied me with, they kept on trying to dispense the toxin to me and I had to interrogate the person dispensing medications until I was released.

Eventually, for some reason, they had me sign a form refusing the toxin instead of immediately removing the offending medication they swapped for my Toprol 200. This was probably to document that I was refusing medication when the opposite was true, I desperately wanted my blood pressure medication, not the medications concocted by these nurses who apparently believe a 5 minute interview gives them knowledge superior to a licensed doctor.

I had been under the care of physicians for 22 years, since when can a nurse with zero knowledge of my medical history trump the long-time treatment plan of medical doctors.

Upon intake, a patient should be asked if they are on total Social Security disability and be provided with ADA compliant lodging. If the sheriff has a problem with this he can sort out the disability situation with the Social Security administration and seek review of their determinations.

If a patient is on medications prescribe by a long-time family physician, a sheriff's nurses must not massively change the treatment plan without consulting the prescribing physician. These nurses who ignore the directions and advise of experienced MD's should not completely disregard the knowledge and wisdom of experienced doctors. Doctors place patients on medications for very good reasons after long-term knowledge of a patient that should not be altered by nurses working for law enforcement. At the very least they should have substituted 200 mg of metoprolol succinate with 200 mg of metoprolol tartrate (this medication is inferior for Huminski, but far better than the path they took). Had they inquired, I would have demanded the beta-blockers instead of water pills that I knew I had a problem with as far as side effects and it didn't help with my blood pressure. Further my PTSD, anxiety and blood pressure are linked to adrenal response which water pills do not address. No one inquired as to why I was on a fairly high dose of Toprol.

Subject: Lee sheriff lies and evades/dodges Sunshine Law requests

The sheriff claims the requests were unclear which is a lie. One request asks for bunk assignments of Huminski's cellmates. The other request asks for the police report concerning Huminski's arrest and transport to the Fort Myers jail, a two hour period whereby the arresting officer was quizzing Huminski while entering data into his computer. I.e. Distracted Driving and probably an accepted practice at the LCSO.

The first thing Huminski said to the officer informed him of the no-contact order of Judge Adams preventing communication with LCSO staff under penalty of imprisonment, the deputy then waived his protection by the gag orders and Huminski then responded to the questions. Upon arrival at jail, Huminski alerted the staff of the existence of the gag order, the staff repeatedly chanted "sovereign citizen" (whatever that is) and placed Huminski in solitary and engaged in felony abuse of a disabled adult. The arresting officer was present when the decision was made to place Huminski in solitary as a punishment for mentioning Judge Adam's gag order.

Many times the cover-up is worse than the crime. See the request's content in the below sheriff emails,

Dear SCOTT HUMINSKI,

Regarding the Media Request received on 1/20/2020 requesting records, the records have been in "Requested Clarification" status for 10 business days. The Lee County Sheriff considers this request closed. If you would still like the records, please submit another Media Request. Thank you for using the Public Records Center.

Request Details:

Reference # MD51080-012020

Description of Records Requested: The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Lee sheriff and the ADA

The Department of Justice (DOJ) regulates Title II of the Americans with Disabilities Act (ADA), which covers state and local governments. These public entities are responsible for the operation or management of juvenile and adult jails, detention and correctional facilities, and community correctional facilities, whether they are operated directly by the state or local government, or through contracts, licenses, or other arrangements with other entities. (§35.151(k) and §35.152)

Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Accessible cells or housing units need to be available in all security classifications and/or program levels of a facility.

Unless it is appropriate to make an exception, public entities must not place inmates with disabilities in:

- Inappropriate security classifications because no accessible cells or beds are available;
- Medical areas unless they are actually receiving medical care or treatment;
- Facilities that do not offer the same programs as facilities where they otherwise would be housed; or
- Distant facilities where they would otherwise not be housed and that would deprive them of visitation with family members.
- Huminski was placed in a cell block without ADA compliant cells.

Minimum Requirements from the 2010 Standards (§35.151(k))

New construction of jails, prisons, and other detention and correctional facilities must comply with the 2010 ADA Standards for Accessible Design. At least 3% of cells must be accessible for individuals with mobility disabilities, including those who use wheelchairs. Accessible cells must be provided in each classification level.

At least 2% of the general holding and housing cells must be equipped with communication features designed to accommodate individuals who are deaf or hard of hearing. These features include telephones with volume control where telephones are provided in cells, and visible alarm signals where audible emergency alarm systems are provided for occupants of cells and occupants are allowed to evacuate independently. (Sections 232 and 807, ADA Standards)

Alterations to jails, prisons, and other detention and correctional facilities must also comply with the 2010 ADA Standards until new construction levels of access are achieved within the facility.

When alterations are made to specific cells, required features for mobility access may be provided in substitute cells (cells other than those where alterations are originally planned), as long as the substitute cell:

- Is located within the same prison site,
- Is integrated with other cells to the maximum extent feasible, and
- Has equal physical access to areas used by inmates or detainees for visitation, dining, recreation, educational programs, medical services, work programs, religious services, and other offered programs.

If it is technically infeasible to locate a substitute cell within the same prison site, the substitute cell may be provided at another prison within the same system.

Medical and long-term care facilities in detention and correctional facilities, whether they are licensed or not, are also subject to the 2010 ADA Standards for accessibility.

In passing the Americans with Disabilities Act ("ADA"), Congress noted that the isolation and segregation of persons with disabilities due to the discriminatory effects of physical barriers are a "serious and pervasive social problem," and there has been very little "legal recourse to redress such discrimination." The ADA lists several purposes, one of which is "to provide clear, strong, consistent enforceable standards" as part of a mandate to eliminate such discrimination. The ADA is modeled after section 504 of the Rehabilitation Act of 1973. A key difference is that while the Rehabilitation Act requires facilities that received federal funding to be accessible to persons with disabilities, Title III of the ADA applies to places of public accommodation specified by the ADA, regardless of the receipt of federal funding.

Under the ADA, new construction must be "readily accessible" to persons with disabilities. The new construction's "readily accessible" standard is met if the new construction or alteration is done in compliance with either the 1991 or the 2010 ADA Standards for Accessible Design. These standards include detailed, lengthy and technical specifications. In contrast, existing facilities must be made accessible to disabled persons if the changes are "readily achievable." The "readily achievable" standard for existing facilities is met by making alterations that are "easily accomplishable and able to be carried out without much difficulty or expense."

AMERICAN OVERSIGHT

After its passage, Congress charged the Department of Justice ("DOJ") with implementing the ADA. One of the DOJ's ongoing tasks, in partnership with the Federal Access Board, is to create regulations to provide guidance for the enforcement of the ADA. Congress created the Federal Access Board in 1973 to ensure access to federally funded buildings, and it has become a "leading source of information on accessible design." The DOJ codifies the resulting regulations in the Code of Federal Regulations, and the appendices of that code further explain the regulations. In 1991, the Federal Access Board created the ADA Accessibility Guidelines ("the ADAAG"). The ADAAG were purely advisory to the DOJ and addressed new construction standards. The DOJ then sought public comment on the ADAAG, made applicable changes based on those comments, and finally adopted and codified the ADAAG as the official standards for the ADA. In 2010, the DOJ released a revised version, which became effective March 15, 2012.

Courts have upheld the "two distinct systems for regulating building accessibility: one to apply to existing facilities (those designed and constructed for occupancy before January 26, 1993) and another to apply to later-constructed facilities." Pre-existing or "grandfathered facilities" only need remove easily removed barriers. In contrast to grandfathered facilities, new construction violations are indefensible, unless there is a structural impracticability. A structural impracticability exists when "unique characteristics . . . make accessibility unusually difficult to achieve." Apart from structural impracticability, courts have no authority to apply equitable discretion in excusing the violation.

Overall, statutes, advisory and technical assistance materials, and case law work as a team to contribute to the goals of the ADA, voiced by President George H.W. Bush, "[E]very man, woman, and child with a disability can now pass through once-closed doors into a bright new era of equality, independence and freedom."

The Huminski was housed, transported and accessed portions of the Lee Jails built or significantly modified after January 26, 1993, as such, these areas of the Lee Jails must comply with the ADA and are not "grandfathered-in". There is very little or no attempt to comply with the ADA by the Lee Sheriff.

Some ADA accomodations are as follows:

Examples of "readily achievable" barrier removal that must complied with include, but are not limited to, the following actions (some of these were absolutely absent in Huminski's cell and during his transports between facilities in non-ADA compliant vehicles):

Installing ramps;

Making curb cuts in sidewalks and entrances;

Widening doors;

Installing offset hinges to widen doorways;

Installing accessible door hardware;

Installing grab bars in toilet stalls;

Installing a raised toilet seat;

Repositioning the paper towel dispenser in a bathroom;

Installing an accessible paper cup dispenser at an existing inaccessible water fountain;

Subject: Re: Lee sheriff fola/sunshine law fraud

In the attached, sheriff supplies 4 bed/bunk designations (A,B,1,10):

A = unknown
B = a handwritten notation added to the attached document at the time of production stating "B=bottom". A fraud, handwritten notes added at the time of production have no place in a FOIA/Sunshine law response. What is A then? The first several days I resided at the jail, there were not enough beds for the number of inmates, bunk designations, if there genuinely is such a thing, are meaningless in overcrowding situations. The sheriff does not enforce top or bottom bunk assignments.
1 = unknown
10 = unknown

Then a snippet of a nurse's comment from another alleged document was cut and pasted to the bottom of the attached production.

When I requested the original entire record/document that contained the nurse's bunk designation via another request,

THE SHERIFF RESPONDED **No Documents Responsive to your Request** (see below) apparently there was fraud in the attached production and the lack of an originating document indicates that the nurse's bunk designation may have been manufactured by the sheriff to avoid negative consequences.

A sheriff becoming evasive and deceptive in document production is a good sign of corruption and the desire to avoid consequences by dishonesty and fraud.

Describe the Record(s) Requested:
In your last production, you supplied an excerpt of a document or record detailing a nurse advising that I be assigned a bottom bunk. I need this in context of the full record, document or database. The nurses message on 2/13/2019 that you included in the document entitled Huminski_OMS_housing_R supplied by you on 1/17/2020 clearly indicates that the nurse's comments were cut and pasted from a document, record or database. For review of the document in contest, I request the full document, record or database that the excerpt was taken from. Attached is a copy of what you produced which is something that was clearly manufactured from excerpts from an original document/record. Please supply the full document/record or database. Please see attached and provide an original full screenshot of the nurse's directions in context of the records above and below the nurse's comment.

Subject: Lee sheriff nurses acting without supervision by physician

It is impossible to believe that a physician supervised any of the medical staff at the Lee Sheriff's facilities because no Doctor would disturb 22 years of successful medication and completely yank a patient off all medications that worked perfectly for 22 years. The Toprol ER that was prescribed to Huminski had a dual purpose; one as an excellent blood pressure control and as an anti-anxiety medication. Because of Toprol's control of adrenaline, it helps mitigate Huminski's anxiety and related disabilities. For this reason Toprol is often prescribed for stage fright and anxiety issues. It is very helpful to Huminski and his handling and management of his disabilities.

> Propranolol and Toprol Used for short-term relief of social anxiety. May reduce some peripheral symptoms

AMERICAN OVERSIGHT

of anxiety, such as tachycardia and sweating, and general tension, can help control symptoms of *stage fright* and public-speaking fears, has few side effects.

It is my belief there was no supervising physician as required by statute at the Lee Sheriff's facilities. See below for nurse practitioners and physician assistants. No Physician would look at Huminski's medical history and recommend an ending of medications that worked perfectly for 22 years and take a risk of side effects when Huminski's long-time medicines were tolerated perfectly by Huminski and worked supremely well. The result of the Lee Sheriff's medical staff's experimentation with Huminski's medications met no protocol of a supervising physician, if there was a supervising doctor. No doctor would recommend the "cold turkey" ending of medications taken for 22 years and no written protocol exists supporting the conduct in the instant matter. Because of the lack of supervision or proper protocol, Huminski suffered increased severity of his PTSD, GAD and social phobia as well as soaring blood pressure that Huminski worried would cause a stroke, organ damage, heart issues or kill him.

Huminski was never offered a consultation with a physician, nor, did he know there was a physician available at the Lee Sheriff's facilities. The Redman Syndrome caused by the toxins prescribed to Huminski are not the product of negligence, they are the product of a mindset that the incarcerated are sub-human and don't deserve carefully thought out treatments and medications. It would not be surprising to find out that Huminski was prescribed the same medications given to all patients with hypertension at the Sheriff's facilities, a one size fits all mentality, which is not the case in the practice of medicine. Medical history is supremely important.

Nurse practitioner,
Practice Authority
A written protocol between an NP and the supervising physician is required. The degree and method of supervision that is determined by the NP and the physician must be specifically identified in the written protocol. General supervision by the physician is required and specified in the written protocol and must include a description of the duties of the NP, a description of the duties of the physician (which includes consultant and supervisory arrangements in case the physician is unavailable), the management areas for which the NP is responsible, a provision for annual review by the parties, and specific conditions and a procedure for identifying conditions that require direct evaluation or specific consultation by the physician. Fla. Admin. Code §64B9-4.010

Physician Assistant,
Supervision Requirements
The law outlines the exact means of responsible supervision. Direct supervision is not required, but the supervising physician must be easily available or be physically present for consultation. Fla. Admin. Rules §64B8-30.001(3), Fla. Stat. §459.022(f)

Subject: Lee sheriff retaliation, Gov't Answer Brief Due - 2 weeks

Attorneys Alper & Candela, Please note the answer brief in the 2 DCA is due on 2/12/2020. No extensions will be consented to. Mr. Candela, conflict yourself off the case please as I have legal malpractice claims against you for negligence proximately arising out of your refusal to file a motion to stay the sentence and all matters below pending appeal. The record is clear concerning the injury and damage caused by your failing to seek a stay; incarceration, torture and ADA violations by the Sheriff.

Below is my complaint to the U.N. concerning the human rights violations of the Lee Sheriff (the human right of free speech) and the current sheriff is the hand-picked replacement (buddy) for Sheriff Mike Scott (a defendant in Huminski v. Mike Scott et al, 17-ca-421, aka Huminski v. Gilbert),

A clever scheme by the sheriff to make himself litigation-proof by making the service of himself in the DCA and Florida Supreme Court a crime (contempt of Judge Krier's and Judge Adams' gag orders). AKA obstruction of justice via a prior restraint.

Tying my hands concerning service of papers, mandated by Rule, violates the First Amendment and Due Process and these activities are federal civil rights crimes.

Subject: Re: Lee sheriff more ADA violations

If a patient under the care of the Lee Sheriff suffers a medical emergency and is hospitalized, the fictional medical record manufactured by the sheriff can lead to medical errors. As I pointed out in a prior email, falsely reporting that someone is a smoker or IV street drug user as suggested by the falsehoods included in my erroneous medical records can harm and endanger the life of a patient is crisis.

Said errors could send doctors in a wrong direction when attempting diagnosis and alter treatment plans and medications potentially causing delay, harm, injury or death. Medical record errors may lead to the use of the least optimal medication, treatment or procedure.

I have reproduced below the email pointing out the sloppiness and careless/reckless disregard by the Lee Sheriff concerning medical record accuracy in medical records that he maintains, controls and disseminates pursuant to HIPAA regulations.

Subject: Re: Lee sheriff more ADA violations

None of the vehicles Huminski was transported in comply with ADA requirements for transport of the fully disabled.

Aggravating this fact is that while boarding and departing from transport, disabled patients are handcuffed and chained together while transported. During these transports, I was in fear of injury or death proximately arising from the complete absence of ADA accommodations during transport by the Lee Sheriff. --scott huminski

Subject: Re: Lee sheriff more ADA violations

The Sheriff refuses to give flu shots to residents of his facilities. This violate the universal support of immunization in the medical profession and is medical malpractice. This policy creates a heightened danger to the elderly and violates the well-established precept of herd immunity. As his jails lodge patients for less than a year, un-vaccinated patients are release into the public everyday impacting high risk groups of the elderly or very young because of the Sheriff's negligence and medical malpractice.

Subject: Re: Lee sheriff more ADA violations

Please seek a DOH emergency order concerning the LCSO medical staff allegations and ADA violations. As the Sheriff places restrictions on what medications and services can be provided to residents in his facility, his licenses with the Boards should be revoked. If he is not licensed, but making medical decisions such as the medications allowed in his facility, he is practicing medicine without a license.

When I was afflicted with Redman syndrome (instigated by denial of my blood pressure medication and dispensing a toxin to me) and requested an injection of anti-inflammatory medication, the nurse replied that the sheriff does not allow it. The sheriff is practicing medicine without a license. These nurses look to the sheriff and his rules as they would directives from a doctor. Apparently, any kind of injection is prohibited by the sheriff. Again, his unlicensed practice of medicine.

Also, in my first two days residing in the Lee jails, one inmate was in excruciating back pain that far exceeded the capabilities of over-the-counter pain relief. He was denied that because of the sheriff's determination of which medications and procedures that are allowed (by the rules of a non-medical practitioner). This resident was in the highest level of pain I've observed in my 60 years and his treatment by the sheriff's policy to withhold FDA approved medications is torture and a cruel and unusual punishment under the Eighth Amendment.

Please end the suffering and torture at this government facility which will not be accomplished by sanctions against the licensed providers, the Sheriff and his rules, customs and procedures are at the core of the medical misconduct at his facilities. -- scott huminski

p.s. DOH please forward this to the Prosecution Services Unit and provide an email for this entity.

Subject: Lee sheriff new FOIA request

Media Request less than a minute ago
Provide the housing and bunk assignments of persons who shared a cell with Huminski for the first 10 days of his stay in the lee jails starting with 2/1/19. Huminski's cellbunk assignment was provided in the sheriff's 1/17/2020 production. Provide the same for Huminski's cellmates.

Status : Received

To view all requests go to
https://leecountysheriff.govqa.us/WEBAPP/_rs/Customerissues.aspx

User is s_huminski@live.com
password 123456

The sheriff will not be able to supply this as for the first 3 days, the cell blocks were overcrowded and there were not enough bunks for Huminski and approximately 10 others. No cell or bunk assignments were communicated by the sheriff. This is a per se ADA violation. The elderly disabled should not be treated like 3rd class citizens and made to sleep on the floor.

Subject: Lee sheriff refuses to produce document

He refused to supply the full document that the bunk assignment was taken from. What a crook. The cover-up is worse than the original crime.

Subject: Re: Lee sheriff FOIA

The sheriff deliberately did not produce the records related to my arrest and transportation to jail. Why, because I was not disorderly. The woman put me into solitary confinement in the inhumanely cold cell because I advised her of the Judge Adams gag order prohibiting my communication with any LCSO staff. Stating a fact is not disorderly conduct.

new FOIA
Media Request less than a minute ago
The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Re: Lee sheriff document production

Just like how the Lee Sheriff does not alert a patient that their life-sustaining medication that you have been on for 22 years is being completely ended putting one at risk of death and injury, the sheriff also maintains secrecy as to any assignment of bunks and no procedure exists for enforcement of bunk assignments.

The 2/13/2019 alleged medical record recently supplied is not in the original production of medical records supplied by the sheriff. I suspect fraud concerning this record. In either case, where-ever this document came from if it is not a fraud, these records are not supplied to inmates via any practice, policy or procedure adopted by the sheriff. Further what was supplied is a cut and pasted excerpt from a document that contains damning information that the sheriff wishes to keep secret.

While imprisoned, I asked the medical provider for my medical records and she denied the request. The medical records supplied related to these matters do not contain the cut and pasted bottom bunk directives.

In the Lee jails, bottom bunks are on a first come first serve basis and if there is a dispute the law of the jungle prevails -- might is right, where an elderly disabled person can not prevail regarding such confrontations with other inmates.

LEE SHERIFF supply the full document where the cut and pasted bunk assignment came from. Many times a cover-up is worse than the original transgressions. -- scott huminski

It is my moral and ethical duty to make sure you don't do this to anyone else. Again, I am forced to assume the role law enforcement should have handled, like the death threats from the Arizona terror cell (Trevor Nelson, Debra Riffel of Maricopa County) that instigated this series of events.

Subject: Lee Sheriff: Medical Ethics, Disability and Supremacy Clause violations

Hi,

In the United States, federal laws concerning disabilities are binding on the States (and Counties) via operation of the Supremacy Clause. Article VI, Paragraph 2, U.S. Constitution.

Disability is defined under laws, rules and procedures employed by the Social Security Administration which includes phases: Application, Initial, Reconsideration, Hearing, and Appeals Council. A federal finding of disability can not be altered by State or County agencies, including nurses working for the Lee Sheriff.

Persons found disabled under federal law are protected under the Americans with Disabilities Act (ADA) and treatment of the disabled is governed by the ADA.

The sheriff or the medical staff he employs/retains can not trump/alter a disability determination under federal law. Housing and transporting a disabled individual must comply with the ADA which the Sheriff deliberately ignores and violates.

The torture of Huminski prior to a medical screening with solitary confinement in an inhumanely cold cell without adequate clothing or shelter from the 55 degree temperatures is a violation of the ADA and patently cruel torture.

The sheriff's expectation that the disabled hop onto a bunk over 4 feet in the air is a violation of the ADA, his own policies and procedures should have prevented this.
See below policy excerpt.

An inconsistency with federal law is the provision in the sheriff's below policies and procedures that provide that a nurse working for the sheriff can modify or ignore a finding of disability under federal law and this provides a corrupt green light to the sheriff to violate the ADA.

Violations of the ADA by the sheriff's medical staff is a violation of medical ethics and are federal crimes.
Some of these crimes are set forth at the below link.
https://www.fbi.gov/investigate/civil-rights/federal-civil-rights-statutes

The sheriff placing his "medical provider" (the sheriff's nurses) in charge of disability determinations when the federal government has extensive laws and procedures involving the disabled violates federal law and the Supremacy Clause.

Florida does assist the federal government in the determination of disabilities in the Division of Disability Determination (FL Dept. of Health), however, nurses working for the sheriff have no authority under state or federal law to disturb a finding of disability under federal law. The sheriff's policies and procedures concerning the disabled is unlawful. Further, the sheriff lying in medical records that Huminski was on disability because of drug use is a violation of federal law and medical ethics. Huminski was placed on disability after his first hip replacement and was lodged by the sheriff 6 months after back surgery.

The sheriff can and should avail himself to the programs provided by the Fl Dept. of Health concerning lodging of the disabled instead of trying to be the law unto himself.
See link below.

Upon intake, the sheriff should query if an individual is disabled and receiving federal or state funding because of a disability. Upon an affirmative response, the patient should be lodged in an ADA approved cell. After that, the sheriff should consult the Fl Dept. of Health or Social Security Administration if the sheriff believes an individual is not disabled or if he disagrees with the findings of the United States. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Based upon further review, it has become clear that the sheriff engages in wholesale violations of the Americans with Disabilities Act (ADA) and for the safety of those still suffering in the Lee jails, the federal government should take control of these facilities to bring them back into compliance with federal law.

Why was I jailed? ... for failure to pay a contempt of court fine that I could not afford (debtor's prison). Good old fashioned justice. With Mr. Candela not helping by his refusal to stay matters while appeal was pending. The prosecutor's office knows all these facts and are just as liable.

Please forward relevant materials to the U.S. Attorney's Office for this District and to the U.S. Attorney General before death, injury or harm comes to person at these facilities because of the sheriff's disdain for the rule of law.

Time is of the essence. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Hi,
I began reviewing the production of today. I think this will yield a wide pot pouri of the sheriff's violations of his own policies and procedures. After 1 minute into my review the following came up revealing a complete disregard for his own policies concerning the fully disabled. Like myself -- on full social security disability for 10 years for mental and physical disabilities.

The sheriff knows bad things happen when one breaks the law, likewise, bad things happen when he violates his own policies and procedures. There would have been fewer ADA violations and felony abuse of an elderly disabled had the sheriff obeyed his own regulations concerning single cell occupancy had he just followed his own rules instead of making the disabled elderly sleep on the floor. If I was assigned a single cell per his policies, I wouldn't have had to sleep on the floor. Its not just me he abuses, he abuses every disabled person in his jail. If the ADA had criminal sanctions, the sheriff should be first in line. As my review continues, I will update. see below single occupancy policies.

AMERICAN OVERSIGHT

a) Female and male inmates:

(1) Adult Female Felons
(2) Adult Female Misdemeanants
(3) Adult Female Sentenced
(4) Adult Female Non-Sentenced
(5) Adult Male Felons
(6) Adult Male Misdemeanants
(7) Adult Male Sentenced
(8) Adult Male Non-Sentenced

b) Other classes of detainees (witnesses, inmates with civil charges)
c) Inmates with special problems (alcoholics, narcotic addicts, mentally disturbed persons, and physically challenged persons)
d) Inmates requiring disciplinary confinement
e) Inmates requiring administrative confinement
f) Inmates requiring protective custody
g) Juveniles

7. Single occupancy cells will be utilized for the following:

a) Inmates with severe medical disabilities per the medical provider
b) Inmates suffering from serious mental illness defined by the mental health provider
c) Inmates likely to be exploited or victimized by others
d) Inmates who have other special needs for single occupancy housing.
e) VIP's. (Ref. - SOP 3.01 Section E)
f) Inmates that fail to adapt to a general population setting

8. Juveniles will be separated by sight and sound from the adult population when awaiting trial as an adjudicated adult. Juveniles not subject to trial as an adult are not housed in any LCSO Corrections Facility.
9. Inmates will not be discriminated against (Ref. SOP 4.09 I.)

10. Current and accurate records will be maintained for each inmate committed to or housed in a LCSO Corrections Facility. Procedures will be established to safeguard legally privileged or confidential information. Inmate records will contain, at a minimum, the following:

a) Intake/booking information

Subject: Lee Sheriff production of documents re: FL Health Investigations

See attached, even though the fee was paid, I don't see any documents

In a collateral issue, here is a document evidencing the Lee Sheriff's/Judge's/Prosecutor's obstruction of service in a matter before the Florida Supreme Court,
https://efactssc-public.flcourts.org/casedocuments/2018/1282/2018-1282_motion_117214_motion2dother20substantive.pdf

Note that the order of Judge Adams made criminal any contact with the parties to the criminal and civil matters. This means the State of Florida. It is also in the above link. -- scott

Subject: threats

Mr. Candela, Your threats to me attempting to stop my reportage concerning the felony abuse of a disabled adult and collateral matters could be construed as obstruction of justice.

Please file a motion in the appeal to stay/enjoin the Florida collection activities and punishments while the case is on appeal. You failed to do this at the appropriate time causing my incarceration. This a very common appellate motion quite similar to a motion to release from custody while on appeal. I don't wish to be jailed again because of your failure to file proper and quite common motions at the proper time.

Just the fact that you are appointed does not mean you have to withhold filing of proper and necessary papers in court. You must treat appointed legal work with the same vigor as paying clients. Failure to do so is a violation of the rules of professional conduct and ethical precepts.

I don't know what is up with you, but, you refused my direct instructions to deny the request for enlargement of time and consented to the government delay. This conduct prejudices and injures me.

Subject: Huminski writ of prohibition/mandamus

Mr. Candela, I take your silence as a refusal to file a writ to prohibit collection activities by the State pending resolution of the appeal. I will file it in the next week. It will be less than a page long. A no-brainer. Let me know today if you have changed your position.

This issue may only be tangentially related to the Health Departments investigations. It is being provided to maintain context and this email is core protected political expression afforded the highest level of protection under the First Amendment. (see below link re: core protected political expression) Obviously all my speech is speech critical of the Sheriff, a candidate for public office. Seeking and obtaining the gag order is a serious crime under Title 18. See below criminal statutes.

Mr Holloway, as I have pointed out, all communications with you are in your capacity with the county, not LCSO. All contact with the LCSO is barred via the gag orders entered by Judge Adams. Gag orders requested by the sheriff that remain pending for life. This calls into question if the sheriff can hold office while denying public safety services to a resident (s) of the county he serves. I think not. This affront to the First Amendment, barring core protected political expression are federal crimes defined in
the Title criminal 18 links below as they violate Huminski's First Amendment right to criticize the sheriff and report criminal activity to the sheriff or his staff. One can not be a county sheriff and then pick and chose persons not eligible for public safety services based upon their opinions or the type of crimes they report.

Why did the sheriff seek to silence me? ... to cover up his support of the interstate transmission of terrorist death threat by the Nelson/Riffel domestic terror cell.-- scott

Subject: Florida Sunshine Law Request: Lee Sheriff Disabled Elder Abuse Portal

To Whom It May Concern:

Pursuant to the Florida Sunshine Law, I hereby request the following records:

All records, reports, recordings and documents related to the arrest of

The period of interest is from 10:00 A.M. to Noon on 2/12/2019 while Huminski was in custody of the arresting deputy.

Supply all documents, recordings, materials related to the compliance with the ADA (Americans with Disabilities Act) of LCSO transport vehicles (buses, vans, cars and other) that were used to transport Huminski both upon arrest and during other transport of Huminski that occurred during his stay at LCSO facilities.

Provide all documentation as to what ADA accommodations were provided to Huminski in his jail cell that allowed him access to the top bunk when the bottom bunk was occupied by another resident.

Provide all materials and documents related to Huminski's complete disability, medicare and social security and any and all materials related to ADA accommodations and treatment of the fully disabled at LCSO facilities (specifically to Huminski and generically).

All materials related to the determination that Huminski committed the crime of disorderly conduct at his intake as set forth in the records last produced by the LCSO and all materials related to LCSO procedures concerning placing a person in solitary confinement and disciplinary matters concerning inmates.

Booking #
897183
Arrested
2019-02-12 11:54
Status
Released: 2019-03-04 19:30

All handwritten or digital records related to the dispensing of medications to Huminski which include 15 to 30 notations of blood pressure pursuant to the directives of the LCSO medical staff including the blood pressure readings taken and recorded approximately 9 to 11 hours after arrest in Bonita Springs. Including Huminski's vitals which indicated a temperature of 97.0 after 8 + hours of solitary in inhumanely cold temperatures without adequate clothing or shelter. Prescribing directions from LCSO staff required the taking of Huminski's blood pressure at the time medications were dispensed, which was done and recorded by the LCSO staff that distributed medications. Supply this data.

Attached is a brief filed in the 2nd District Court of Appeals indicating LCSO knowledge of Huminski's disability situation discussed before LCSO staff in court.

All documents and materials related to the felony violations of the elder/disabled adult abuse statute perpetrated by the LCSO set forth in the attached emails to the Florida Department of Health that triggered 3 investigations of LCSO medical staff. See attached.

AMERICAN OVERSIGHT

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.

Sincerely,

scott huminski

Subject: Lee Sheriff refuses to comply with Sunshine Law foi request

This is the request they are ignoring,

https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

I seek assistance with getting compliance with the Sunshine Laws.

The sheriff began his refusal to comply with sunshine requests after he became aware of 3 investigations pending against his medical staff for felony abuse of a disabled adult. See https://web.archive.org/web/20200108134730/https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/fl-investigation-of-lcso.pdf

Subject: Lee Sheriff Foia re: DOH investigations, Complaint # 201944590 & 201994592

A new related Foia (sunshine law request) is here concerning the withholding of medical services,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84837/

I note that the sheriff failed to respond to the request of 12/12/19 with knowledge that I am seeking the information to forward to State agencies concerning the pending investigations. *Per se* obstruction of justice. The sheriff refuses to even acknowledge receipt of the information request.
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

It is unclear if the sheriff's department itself is licensed with the DOH in any capacity, although, they are the caretakers of medical records and in control of the privacy and dissemination of medical records consistent with HIPAA or similar state regulations/statutes. It certainly appears that jails should be regulated in a similar manner to nursing homes, hospitals and other care-giver entities. -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These documents support the retaliation as a motive behind the sheriff's felony abuse of a disabled adult. F.S. 825-102, and verify his obstruction of justice of the federal courts. (U.S. Bankruptcy Court, a unit of the U.S.D.C.) -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These felonies and *per se* medical ethics violations concerning the LCSO medical staff are retaliatory because Huminski exposed the crimes of the sheriff embodied in his request and receipt of a gag order that obstructed justice (including witness intimidation and tampering) of cases before the United States Bankruptcy Court, the Florida 2nd Circuit and Florida Supreme Court. At the most rudimentary level, the sheriff's gag order preventing service of himself and his office in cases where court rules, Due Process and other authorities mandated service of the sheriff are patently criminal obstruction of justice.

My certificates of service in the aforementioned tribunals clearly state that service was obstructed by the sheriff. Even service of the State of Florida was obstructed by the gag order obtained by the sheriff. See below documents and most specifically this one,
https://edca.2dca.org/DCADocs/2017/4740/174740_26_12182017_1121006Z_e.pdf

Here is a complaint filed with the United Nations on the topic

https://web.archive.org/web/20181031133103/https://judgepelizabethyklerieecountyflcorruption.files.wordpress.com/2017/06/un-human-rights-compl-2-converted.pdf

The obstruction of justice by the sheriff is undisputed and on the record see below links.

Subject: Fw: State's Atty Cover up felony obstruction by Sheriff Scott

The Sheriff obstructed service in the U.S. Bankruptcy Court (a unit of U.S. District Court), obstructed service in the 2DCA 2D17-4740, obstructed my attendance at a hearing in 17-CA-421 and is engaging in ongoing obstruction in 17-MM-815.

The sheriff procured a protective order for him and his staff that prohibits contact or communication. WITHOUT EXCEPTION. As such I am banished from the Lee Court complex in violation of Huminski v. Corsones, 396 F.3d 53 (2nd Cir. 2005). This and other issued are exhaustively documented in the below papers filed in the 2DCA.

Subject: Conflict counsel must recuse

Hi Atty Neymotin,

Your office has advised me to violate the Orders of Judge Krier. The protective order entered by Judge Krier prevents any contact with the Sheriff or his staff. As such, it is criminal contempt for me to interact with court security screeners and bailiffs at the lee court.

Advising me to violate the orders of the Circuit Court is unethical. With that in mind, what is your office's advice for the hearing tomorrow concerning my attendance?

Do I not attend and risk a bench warrant or attend and risk a contempt charge? -- scott huminski

Hi Atty Neymotin,

Your office has performed zero work on the criminal matter and refuses anything and everything I have requested in support of my defense. Assign a different attorney or recuse your off the case. You are still responsible for the 2DCA matter.

Neglect of a legal matter entrusted to your office is an ethical violation. -- scott huminski

Subject: Conflict counsel dodging appeal other misconduct

Hi Atty Neymotin,

Your office is responsible for handling this criminal appeal/petition. This is a criminal contempt case assigned to Z. Miller of your office. This appeal arises directly out of the criminal matter assigned to your office. I must also inform you that I am receiving ineffective assistance of counsel in the underlying criminal matter. The criminal case was pending in the Circuit Court for several months and then was "transferred" to County Court.

Please assign an attorney who knows the below law to my case and assign your appellate people to the appeal. See 2DCA docket below. The criminal case is frivolous and the order involved that I allegedly violated are patently unconstitutional and mandate surrender of constitutional rights -- exceptions to the Collateral Bar Rule, that your office has ignored.

THERE IS NO STATUTE, COURT RULE OR FL AUTHORITY THAT PROVIDES FOR A TRANSFER BETWEEN CIRCUIT AND COUNTY COURTS. YOUR OFFICE'S FAILURE TO RECOGNIZE THIS FUNDAMENTAL ISSUE IS WASTING THE TIME OF ALL AND CONSTITUTES CONDUCT PREJUDICIAL TO THE ADMINISTRATION OF JUSTICE AND wastes judicial resources.

Please recuse off this case if you do not have the staff expertise to handle the issues. Mr. Miller refuses to file motions I have requested based upon the above and other issues. -- scott huminski

Subject: Lee Sheriff medical staff felony abuse of a disabled adult, Complaint # 201944590 & 201994592

Another FOIA to the LCSO on the felony abuse of a disabled adult that may assist in the investigations pending against the Lee Sheriff's medical staff. See link below. At the link is a downloadable copy of all correspondences, to date, with the DOH concerning the LCSO medical staff.

I note that the LCSO was well aware of my disabled status based upon it's status as a defendant in Huminski v. Mike Scott, et. al. (aka Huminski v. Gilbert, et. al.), 17-CV-421, 20th Circuit, a lawsuit concerning the death threats issued to Huminski (2015-2017) from Trevor Nelson and/or Debra Riffel (while impersonating Officer Ryan Pillar) of Maricopa County, Arizona and the impersonation of Huminski by the same two individuals in letters sent to Officer Ryan Pillar (Gilbert, AZ Police) his parents and others in 2012-2015 approximately. Thank you. -- scott huminski

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

The decision to deny me medical services upon intake into the Lee Jails and to place me in solitary instead (along with previous complained of LCSO criminal conduct), was done with the knowledge that my age was approximately 60,

putting the LCSO and their medical staff on notice that felony abuse of an elderly and/or disabled adult was on the table. Of course, medical services or denial of medical services that constitute felony violations of F.S. § 825.102 are *per se* unethical under medical ethical guidelines. Crime is not a valid medical treatment or service. See this thread.

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hello,

The placement of myself in solitary prior to medical screening for an elderly fully disabled adult with chronic medical issues is a felony, F.S. § 825.102, by the LCSO.

AMERICAN OVERSIGHT

See statute excerpts (full statute below) concerning the immediate placement of myself into solitary in a 55 degree cell barefoot with only a thin t-shirt and shorts without any bedding that drove my body temperature down to 97.0, i.e. torture/malicious punishment.

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

These felonies are per se medical malpractice and caregiver malpractice as they are felonies against the elderly disabled. Thank you. --Scott huminski

Hi, I am in receipt of your recent letters.

I believe that the sheriff's medical staff lied about my medical record to gain State/Federal funding or grants, etc. concerning their lies input into my medical records.

I am not on Social Security Disability because of "street drug" use as lied to by the LCSO. I grant the FlHealth.gov power of attorney to access my first 5 years of medicare/social security records. I am on Social Security for joint issues, avascular necrosis, PTSD, Social Phobia, GAD. Now spinal stenosis and spinal disk degradation are added to the list.

I don't use "street drugs" as mentioned several times in the LCSO medical records. Medical marijuana and prescriptions filled at Walmart are not "street drugs". All of this is a lie, probably to secure funding or for some other improper motive.

False "street drug" information entered by the LCSO medical staff caused me to be place on "DETOX" for 10 days which prevented me from obtaining sleep medication for 10 days. Lies in medical records can cause injury. I once had a bogus allergy to penicillin sneak unto my records elsewhere and that led to my treatment with a lesser effective drug. False medical information is dangerous to the safety of the patient. During those first 10 days, I got 2-3 hours of sleep a night as a result of LCSO lies. Also felony abuse of a elderly disabled adult. See statute below.

Please do not hesitate to obtain the Social Security/medicare information related to the lies entered into my medical records. Power of attorney is granted to the Florida Department of Health and/or Ylonka Guzman Jimenez to obtain these records from the federal government.

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hi, I am writing to ascertain if more input from myself is required for the above board complaints.

Cutting my beta blockers 75% from 200 mg to 50 per day (with a less effective drug), when there was a recent hospitalization for transient ischemic attack (mini stroke) is not only unethical and a violation of medical norms (especially without initiating a physician / patient relationship) and blindly prescribing is abuse of a disabled adult. I have been on on SSDI for 10 years.

This is a felony in Florida and a federal civil rights crime (8th Amendment violation) punishable under federal civil rights crime statutes 18 USC 241, 242. Please refer this to the U.S. Attorney, the FDLE and the Florida and U.S. Attorney Generals. Thanks -- scott huminski

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Missing Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

I noticed that in the brief medical intake that occurred after my 8 hours in solitary in a 55 degree room (I was barefoot and clothed in a light t-shirt and shorts) there was no taking of vitals reported. The reason was that I was becoming hypothermic from the 8 hours of solitary in a cell without bedding, only concrete and steel existed in the cell. Deliberately causing physical harm is an assault and battery. Please forward this to the FDLE and U.S. Attorney. My temperature after solitary was 97 which they took but did not disclose in the records the jail produced.

The name of the pharmacy or pharmacist was not provided in the records. I never received the proper literature with any medications provided, a pharmacy error, which would have prevented the Redman Syndrome that caused me medical harm. Had I received the proper paperwork, as regular pharmacies provide, I would have alerted the staff of a toxic medication and I would have refused the offending medication(s). The level of prescribing secrecy and lack of pharmacy information provided to the patient about the drugs dispensed caused the problem.

My blood pressure was taken at least 10 times and recorded by individuals who dispensed medications (I don't know their professional information) and these records were not supplied. They document my out of control blood pressure. Thank you. -- scott huminski

Hello, They finally released my records. I still don't know the professions of any of the names provided, i.e. doctor, nurse, aid, pharmacy tech, etc..

I gave no consent to anyone to stop existing medications or to consent for new medications upon intake to the jail.

I was arrested at approximately 10:30 and got to the Jail at the below time, noon, and immediately was put in solitary for 8 hours as the medical records reflect. If one has diabetes, seizures or many other problems, this custom of warehousing patients for up to 8 hours with no medical information taken could prove deadly to persons with medical issues. During this initial solitary there was no inquiry if i had food allergies or special/religious food needs and i was provided a meal blindly -- bologna on white. This is dangerous. I was never consulted with by a doctor concerning the vast changes in my medicines or never asked if I had questions for a pharmacist when medicines were dispensed. Note the 7:58 time on the medical history documenting the solitary.

AMERICAN OVERSIGHT

I don't know and never met Andrew Grey, I don't know if this person is a doctor, nurse, pharmacist, and they never mentioned to me they were taking me off medications I have been on for 22 years. My only history of withdrawal was when I ended gabapentin for spine pain and sciatica a year earlier.

Kathy Verdes lied about drug abuse when she stated i take "street drugs" and this contradicts the walmart prescriptions verified on 2/19/2019 which had a xanax prescription. (see attached) I never had this issue and never told her I did. Alprazolam, xanax has been prescribed to me for 22 years, I take it as directed.

Huminski was deprived of all morning medications on 2/27/19 per entry of Karen Hergal, this is common, to get 12 hour medications at far longer or shorter intervals than required. This happened to me many times. There are also an entry of "denies all" that did not happen. Ms. Hergal lied about a history with street drugs.

Prior to administering the first doses of new medications, if I was told they were stopping the treatment that worked well for 22 years, patient should be allowed a consult with a pharmacist or doctor on the new medications.

Note that after side effects from HCTZ (or clonidine) was noted, the toxins that caused Red Man Syndrome (that i was prescribed deltasone for), on 2/19/19 they re-prescribed the toxin and it was delivered to me for a day or two until I noticed problems and I had to interrogate the person dispensing the pills and i had to deny the toxin. My declining the toxin is also in the attached.

Although my blood pressure had been recorded 10 or so times, the report on 2/14/2019 had a blood pressure of 153/114 p 136, revealing the ineffective treatment plan without concern for patient's 22 year history of successful blood pressure management. This is dangerous. I feel symptoms of tightness in chest/anxiety/fear when my blood pressure soars without adequate medical intervention. Elevated blood pressure can cause organ damage, stroke, heart issues and more. This negatively impacted my anxiety issues because I thought I might die from the extremely high (for me) blood pressure.

See entry of 07/08/2019 [sic] (the date is probably around 2/16/2019) where i emphasize my 20 years of successful medications and relatively good health.

On or about 2/18/2019 i spoke to a female guard via the intercom system and explained that I was given medications that made me ill and required medical intervention, she rudely stated "don't take pills you're not supposed to". I explained the pills were started without me knowing. This is misconduct.

2/27/2019 Brian Medlin lied that i was on social security for drugs problems. I am on social security for joint issues (hips, knees) and for PTSD, Social phobia and generalized anxiety disorder.

In summation, this is the worst medical treatment I have received in my entire life and, at 60 this year, it is the first time I spent in jail. -- scott huminski

As you can see, the Sheriff is refusing to forward medical information because there are many problems with the medical treatment of patients at the Lee jail. I hereby grant the FL Health Department and their associated Medical and Pharmacy Boards power of attorney concerning my medical records being withheld by the sheriff. There are dangerous medical situations at the jail. Luckily, my experience wasn't fatal, the same might not be true in the future.

I have no knowledge of who the persons were dispensing the medication at the jail ... nurses, pharmacy techs, medical assistants, etc..

I waive all HIPAA rights/protections and my jail medical records may be posted online or shared by anyone to anyone at any time. Thank you.

Dear scott huminski:

Lee County Sheriff's Office received a public records request from you on October 03, 2019. You requested the following:

" To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.
Sincerely,
scott huminski

Your request has been received and is being processed.
Please Note: All requests are completed in the order in which they are received. Additional information or clarification may be needed to fulfill your request. Failure to provide additional information or clarification within 10 business days will cause your request to be canceled and closed out. You will then be required to submit a new request.
Research-intensive requests may require more than 10 business days to fulfill and may require a paid deposit before the request can be fulfilled. All deposit invoices are due upon receipt. Release of information requires payment in full. Additionally, any further requests may not be considered until unpaid invoices are paid in full.
Please contact our office immediately once requested information is no longer needed. Payment for completed requests prior to cancellation is expected. If you wish to pick up the request, please contact us in advance.
While use of GovQA for public records requests is not mandatory, requests submitted outside of the GovQA portal may delay the receipt of requested information.

Subject: IAIL Medical Board & Pharmacy Board Complaint # 201944146

Hello, I am in receipt of your letter of 10/11/2019.

The sheriff has ordered the medical staff to not supply various medications that are medically appropriate and necessary for patients. Thus, loyalty to the sheriff and his rules has trumped the medical staff's proper handling of the cases and limitations of FDA approved medications that can be prescribed to patients lodged at the sheriff's facilities pursuant to policies and procedures mandated by the sheriff. A potential case of unauthorized practice of medicine by the sheriff via his control over the doctors and medical staff working for him in Fort Myers. I consider the handling of my medical records request beginning with in-person visits on 9/24/2019 obstruction of justice related to the medical and pharmacy boards potential investigation into medical care at the Lee jails.

Allowing a sheriff to determine what medications can be prescribed by tying the hands of licensed medical professionals is corrupt. Solitary confinement without inquiring into the medical situation is a violation of medical ethics and norms. Withholding access to a physician for 5-7 days after blindly prescribing incorrect and outright toxic medications is a violation of medical ethics and professional guidelines. All persons lodged at these jails should have an immediate consultation with a physician to establish a proper patient - physician relationship, prior to prescribing, to save lives and maintain health.

The sheriff's office wrote as follows (see below) concerning (1) my attempt to obtain my medical records followed by (2) his classification of my 2nd request as a duplicate and finally (3) my request via the muckrock.com website which remains pending. I ask that you expedite this matter to avoid further medical harm to persons lodged in the Lee jails whereby doctors are prohibited from freely and without interference allowed to engage in the practice of medicine pursuant to their training and experience free of interference from the sheriff or his policies and procedures. -- scott huminski

Complaint / Affidavit of Scott Huminski

NOW COMES, Scott Huminski ("Huminski"), and, under oath, hereby states, swears, complains and deposes as follows,

1) Twenty two years ago Huminski was prescribed Toprol ER for blood pressure and alprazolam for anxiety. Huminski has been on these medications to the present except when he was under the medical care of the Lee County Sheriff's Office ("LCSO") and their medical staff.
2) Prior to being placed on Toprol ER, Huminski tried diuretics and had severe side effects including Red Man Syndrome.
3) Huminski was arrested and lodged at the LCSO jails for 20 days in February and March of 2019 for failing to pay a fine for contempt of court.

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff
Date: Tuesday, March 17, 2020 6:06:00 PM
Attachments: [redacted]

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: Attempted murder, felony abuse of a disabled adult by Lee Sheriff Carmine Marceno - Justice Dept. Investigating Civil Rights violations, FL DOH investigating

Original documents located at links below:

Please forward to the appropriate agencies, for obvious reasons, the Lee Sheriff has a major conflict here.

The Justice Department has opened a civil rights investigation against the Lee Sheriff Carmine Marceno involving torture and attempted murder of an elderly disabled adult lodged in the Lee Jail for failure to pay a contempt of court fine. Please forward this to the appropriate State agency for investigation. The FI Dept of Health has also opened investigations against the Sheriff's Medical staff. see docs below.

DOJ civil rights investigation of Carmine Marceno
https://judgelizabethvkrierleecountyfl.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf

DOJ forms completed with evidence received at the DOJ on 3/11/2020
https://judgelizabethvkrierleecountyfl.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

In my above response to the DOJ (in an email) I posed the question to the FL DOH if taking a person, cold turkey, off blood pressure medications that he had been on for 22 years would increase the disabled elderly adult's risk of death. No answer was received, the answer is obvious. This conduct constitutes felony abuse of a disabled adult and perhaps attempted murder.

FI DOH documents and affidavit sparking the investigation.

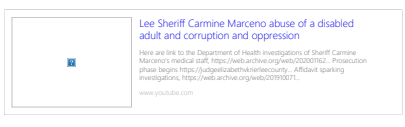
Subject: Request for ADA advocate or victim's advocate re: pending DOH investigations & filings

If allowed, I would like to request appointment of an ADA advocate or victim's advocate regarding the DOH matters pending concerning the medical staff of the Lee Sheriff. As always, all expression from myself is core protected political expression afforded the highest level of protection under the First Amendment.

Here are my recent filings in the 2 DCA that may be of relevance to the DOH investigations.



The entire matter that led up to the DOH issues and associated crimes against me perpetrated by the sheriff was an unlawful and unconstitutional sham. See filings,

Below is music I recently released concerning the crime and corruption experienced in Lee County, more selections are on youtube under, my band, Scott X and the Constitution Commandos. I rely heavily upon the First Amendment to hopefully end the official corruption and crime in Lee County.

Subject: 2 attorneys attempt to undermine the ADA accommodation plans of a medical provider

AMERICAN OVERSIGHT

Unfortunately one is my appellate attorney the other is an Assistant Attorney General.

Please consider this as a complaint regarding unauthorized practice of medicine by
Judge James Adams and possibly these 2 attorneys.

This conduct borders on the unauthorized practice of medicine and these two attorneys provide content that can only be provided by a medical expert in a court proceeding.

They try to undermine the ADA treatment plan to allow the various officials involved in this matter to continue to refuse ADA accommodations to the disabled. The purpose of the the lies of these 2 attorneys is to get a Court to negate or declare the ADA plan as forgery or a fraud. They are trying to create case law to prejudice the disabled in FLorida and/or trying to get an appellate court to disregard the ADA plan.

Rebecca Potter is the LMHC who authored the ADA accommodations plan, I was her patient and she also served as my ADA advocate. Also detailed is the conduct of Judge Adams acting as a medical expert in the case and trumping the genuine and legitimate findings and recommendations of a licensed medical professional who was trained by Doctor Karin Huffer who original set fort a subset of PTSD, Legal Abuse Syndrome, Ms. Huffer also treated me and has written a book on the topic. I have very servere PTSD/LAS.
https://en.wikipedia.org/wiki/Karin_Huffer

A non-medical legal issue is that Judge Adams engaged in an early sentencing phase prior to trial forbidden by the federal constitution, the judge can not address sentencing without the facts introduced at trial.

One thing to note is that Judge Krier who presided early in the case advocated a medical inquiry into my competency. Judge Adams without jurisdiction to do so over-ruled this important statement of Judge Krier.

Karin Huffer - Wikipedia
Karin Huffer was an American marriage and family therapist, who is known for identifying a potential consequence of legal abuse, the condition known as Legal Abuse Syndrome (LAS), a form of posttraumatic stress disorder (PTSD) which can be caused by ethical violation, betrayal, abuse of power, lack of accountability, or fraud within the legal system.

excerpts from the 2 briefs,
First Florida's brief on the issue,

After Judge Adams determined Appellant forfeited his
contempt charge, Appellant began filing a multitude of various motions with the court. Like many pro se pleadings, they were not model pleadings; among them were several motions whose titles suggest Appellant believed he was not competent

29

to conduct his own defense. The motions essentially alleged, in various ways, that while Appellant was competent to stand trial with the help of counsel, he was not competent to act as his own attorney. (R. 1406, 1476, 1696). Attached to several of these motions was an unsigned report, allegedly drafted by a Rebecca Potter, LMHC, that suggested Appellant would struggle with his own representation and he should be appointed counsel to represent him. (R. 1117, 1125, 1408, 1478, 1624).

(R. 1117, 1125, 1408, 1478, 1624).

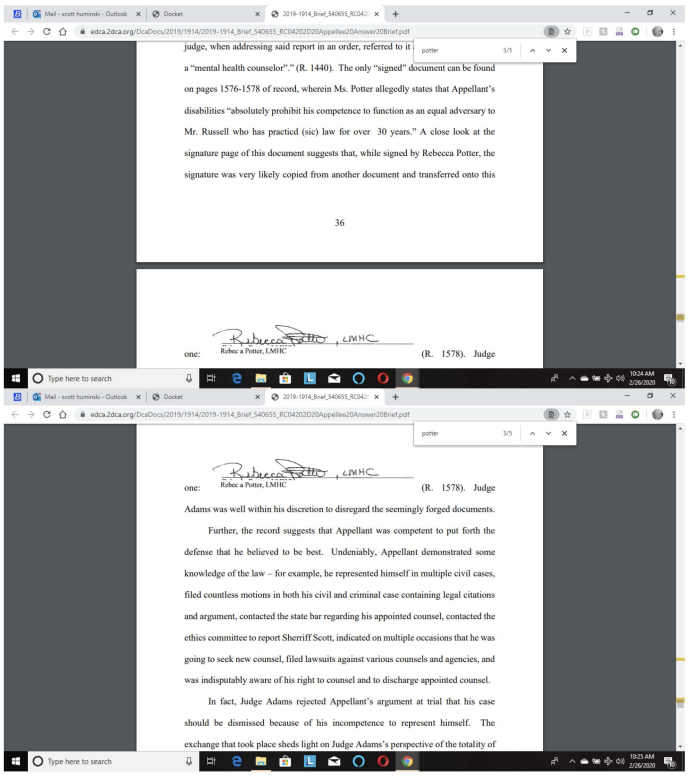
The trial court denied these motions by written order on more than one occasion, finding, for example, that the "allegations in the report [from Rebecca Potter] do not demonstrate that Defendant is incompetent pursuant to Fla. Stat. §916.12" and that Appellant "has made no allegations, and the Court has made no observations, which would cause this Court to have a reasonable belief Defendant may be incompetent (R. 1440, 1702).



As Appellant's argument on appeal seemingly challenges his competency both to stand trial and to represent himself at trial, both challenges will be addressed in an abundance of caution.

i. Competency to proceed to trial

this one borders on unauthorized practice of medicine by a government attorney

Here, the trial court had no *reasonable* grounds to believe that Appellant suffered from such a severe mental illness that he could not conduct trial proceedings on his own. While the record contains a report from a "Rebecca Potter" suggesting Appellant would benefit from the appointment of counsel, the report stops short of alleging any mental illnesses that would prohibit Appellant from representing himself. More importantly, even assuming the report made such a statement, the authenticity of this report is questionable at best; it is written in the same grammatical and distinct way as Appellant's pro-se motions and, most notably, is unsigned. Interestingly, it appears that Judge Adams also questioned the veracity of the report and its true author. Stopping short of accusing Appellant of lying, the judge, when addressing said report in an order, referred to it as being "prepared by a "mental health counselor"." (R. 1440). The only "signed" document can be found on pages 1576-1578 of record, wherein Ms. Potter allegedly states that Appellant's disabilities "absolutely prohibit his competence to function as an equal adversary to

A close look at the signature page of this document suggests that, while signed by Rebecca Potter, the signature was very likely copied from another document and transferred onto this

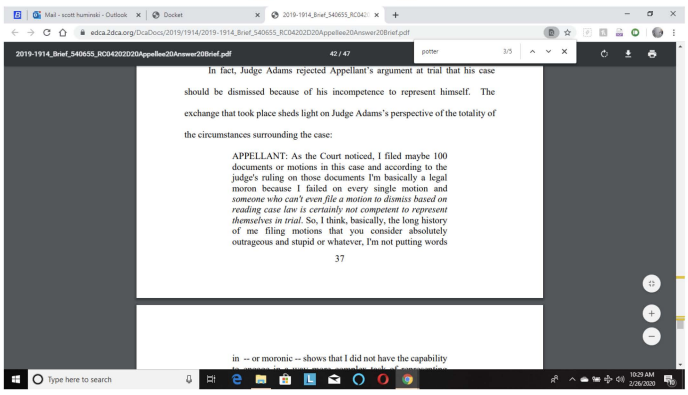
Further, the record suggests that Appellant was competent to put forth the defense that he believed to be best. Undeniably, Appellant demonstrated some knowledge of the law – for example, he represented himself in multiple civil cases, filed countless motions in both his civil and criminal case containing legal citations and argument, contacted the state bar regarding his appointed counsel, contacted the ethics committee to report Sherriff Scott, indicated on multiple occasions that he was going to seek new counsel, filed lawsuits against various counsels and agencies, and was indisputably aware of his right to counsel and to discharge appointed counsel.



In fact, Judge Adams rejected Appellant's argument at trial that his case should be dismissed because of his incompetence to represent himself. The exchange that took place sheds light on Judge Adams's perspective of the totality of

> APPELLANT: As the Court noticed, I filed maybe 100 documents or motions in this case and according to the judge's ruling on those documents I'm basically a legal moron because I failed on every single motion and *someone who can't even file a motion to dismiss based on reading case law is certainly not competent to represent themselves in trial.* So, I think, basically, the long history of me filing motions that you consider absolutely outrageous and stupid or whatever, I'm not putting words

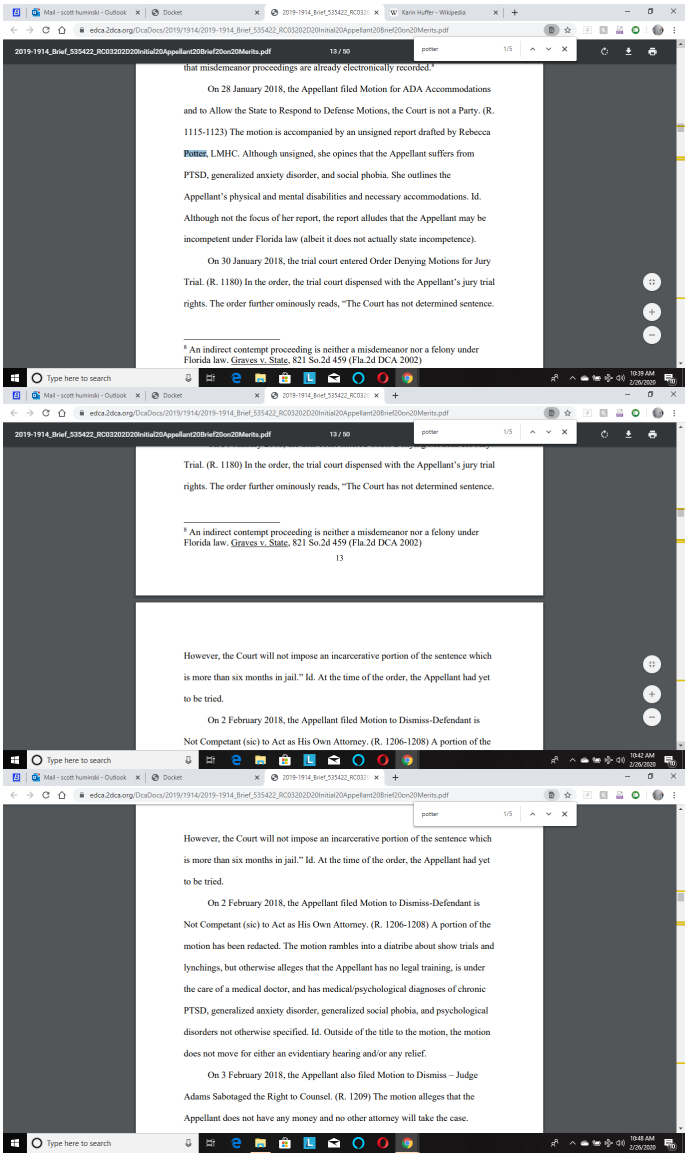
STATE: Judge, I would just ask that you t… personal observations of Mr. Huminski, since your interactions with him in this particular case. The things that are reflected in the court file clearly show that Mr. Huminski has an understanding of the civil world and criminal arena, to the extent that he knows the participants, he knows the roles of the participants, he certainly has the ability to assist with his lawyer, so competency is not an issue in this particular incident.

THE COURT: Mr. Huminski, your – your filings, even though you have characterized them as stupid, moronic or -- or whatever, I've not really considered them as such, simply considered you as a prose litigant, you know, filing many motions in the case, some of which are in contravention of the order that Judge Krier had previously put in place.



(R. 2397-2399).

Because the record does not provide reasonable grounds for Judge Adams to believe that Appellant suffered from such a severe mental illness that he could not conduct his own defense, the court did not err in failing to conduct a competency hearing before requiring Appellant to proceed pro-se.

WHETHER THE TRIAL COURT ERRED IN

Excerpts from brief of Anthony Candela, esq.

that misdemeanor proceedings are already electronically recorded.[8]

On 28 January 2018, the Appellant filed Motion for ADA Accommodations and to Allow the State to Respond to Defense Motions, the Court is not a Party. (R. 1115-1123) The motion is accompanied by an unsigned report drafted by Rebecca Potter, LMHC. Although unsigned, she opines that the Appellant suffers from PTSD, generalized anxiety disorder, and social phobia. She outlines the Appellant's physical and mental disabilities and necessary accommodations. Id. Although not the focus of her report, the report alludes that the Appellant may be incompetent under Florida law (albeit it does not actually state incompetence).

On 30 January 2018, the trial court entered Order Denying Motions for Jury Trial. (R. 1180) In the order, the trial court dispensed with the Appellant's jury trial rights. The order further ominously reads, "The Court has not determined sentence.

[8] An indirect contempt proceeding is neither a misdemeanor nor a felony under Florida law. Graves v. State, 821 So.2d 459 (Fla.2d DCA 2002)

However, the Court will not impose an incarcerative portion of the sentence which is more than six months in jail." Id. At the time of the order, the Appellant had yet to be tried.

On 2 February 2018, the Appellant filed Motion to Dismiss-Defendant is Not Competant (sic) to Act as His Own Attorney. (R. 1206-1208) A portion of the motion has been redacted. The motion rambles into a diatribe about show trials and lynchings, but otherwise alleges that the Appellant has no legal training, is under the care of a medical doctor, and has medical/psychological diagnoses of chronic PTSD, generalized anxiety disorder, generalized social phobia, and psychological disorders not otherwise specified. Id. Outside of the title to the motion, the motion does not move for either an evidentiary hearing and/or any relief.

On 3 February 2018, the Appellant also filed Motion to Dismiss – Judge Adams Sabotaged the Right to Counsel. (R. 1209) The motion alleges that the Appellant does not have any money and no other attorney will take the case.

the witnesses will testify to the impact of PTSD on the element of *mens rea*. The addresses of the witness were conspicuously absent. Id. The notice does not have any reports or curriculum vitae attached.[12] Later, the Appellant filed for an appeal from county to circuit court. (R. 1499-1500) The Appellant filed a request for indigency. (R. 1503) There is no clerk's determination.

On 20 February 2018, the Appellant filed Sworn Opinion of Expert Rebecca Potter, LMHC Conderning (sic) the Competence of Scott Huminski to Conduct his Own Criminal Defense Without the Assistance of Counsel. (R. 1576-1631) Attached to this document, there are several items, including, Counselor Potter's unsigned report. There is some sort of signed jurat but there are inconsistencies like the signatory's name appears to have been lifted from somewhere and recopied and the jurat does not appear to apply to any specific set of facts. On 22 February 2018, the Appellant filed Motion for Appointment of Counsel. (R. 1642-1643) An affidavit of indigency is attached.

In January 2018, the trial court allowed regional conflict counsel to withdraw for a conflict of interest. At that time, the trial court refused to appointed conflict free counsel. Without a choice, the Appellant proceeded *pro se* at this point and muddled through his representation the best he could. Admittedly, he is not an attorney and has little idea what to actually do.

Shortly after he was stripped of counsel in January, the Appellant filed a motion that requested accommodations pursuant to the American's with Disabilities Act ("ADA") (R. 1115-1123) The motion was legally and factually insufficient, did not cite to the ADA, or actually request any relief. In fact, this motion, like almost all of the motions that the Appellant filed in this case, was utterly incomplete in its form as to render the motion meritless. In this instance,

Id. Although not the focus of her report, the report alludes that the Appellant may be incompetent under Florida law (albeit it does not actually state incompetence).

Again, on 2 February 2018, the Appellant filed Motion to Dismiss-Defendant is Not Competant (sic) to Act as His Own Attorney. (R. 1206-1208) A portion of the motion has been redacted. The motion rambles into a diatribe about show trials and lynchings, but otherwise alleges that the Appellant has no legal training, is under the care of a medical doctor, and has medical/psychological diagnoses of chronic post-traumatic stress disorder ("PTSD"), generalized anxiety disorder, generalized social phobia, and psychological disorders not otherwise

On 13 February 2018, the Appellant also filed Notice of Dismiss, Huminski is Incompetent to Conduct His Own Defense and Memo In Support of Motice (sic), Iluminski (sic) is Incompetent to Conduct His Own Defense. (R. 1406-1434)

41

The memo cites to Indiana v. Edwards, 554 U.S. 164, 128 S.Ct. 2379, 171 L.Ed.2d 345 (2008). By way of explanation in Edwards, the United States Supreme Court held that the Constitution permits states to insist upon representation by counsel of persons who are competent to enough to stand trial but who still suffer from severe mental illness to the point where they are not competent to conduct the trial proceedings by themselves. Subject: FL AG lies that Huminski forged the signature of a medical provider

See below. DOH please expedite to avoid harm, injury or death to those who follow me confronted by these abuses.

Mr. Candela (my alleged appellate atty) and Ms. Alper (AAG). I consent to a 10 day leave for you to withdraw the lies from both briefs. Hmm. Very odd that a defense attorney and a prosecutor would join forces against the defendant. -- scott

Subject: One question for medical practitioners

Is a person more likely to die when his blood pressure medications that he had been on for 22 years are abruptly ended than just staying on the medications prescribed by medical doctors for 22 years with great success? Seems like there are two questions, are nurses in florida allowed to over-ride medications and treatments prescribed by an M.D., I hope not to prevent this scenario happening elsewhere in the State.

AMERICAN OVERSIGHT

These nurses made a finding that my doctor had erred and all my doctors prior were clueless as well. Its not the doctors, its prison nurses.

If the answer to question 1 is yes, the nurses may qualify for attempted murder charges as may others involved in this matter. If they are still practicing medicine the public is at risk. Does the Sheriff still employ these nurses or are they harming another community?

Subject: FL AAG concedes statutory misdemeanor fines/fees were illegal

Which caused my incarceration for being poor and when no legal fine or fee existed.

Page 10 of gov't brief link below,

"Apellee concedes that imposition of the cost of prosecution was improper because contempt is a common law crime and the statutes governing contempt do not explicitly allow for the cost of prosecution to be imposed." AAG Chelsea Alper, esq..

The government brief is here. She conceded one fine/fee was illegal, when in reality, all fines and fees were illegal by the AAG's logic and correct interpretation of FL law.

Here is her full brief, the gov't and my own attorney seem to derive pleasure from insulting me.
https://edca.2dca.org/DcaDocs/2019/1914/2019-1914_Brief_540655_BC042021220Appellee20Answer20Brief.pdf

My main fear is: how many citizens have been abused like this and how many more will face corporal punishment and torture for being too poor to afford to pay fines/fees that are patently illegal, not supported by any FL law.

Thanks, --scott huminski

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 98, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: Huminski arrest and incarceration completely illegal

Hi DOH,

The crimes related to felony abuse of a disabled person began at the first hearing with Judge Krier in 2017, she colluded with Judge Adams to illegally move the case to county court because it was a so-called "misdemeanor", absolutely false see below emails detailing that contempt in most State's, including Florida and in federal court is a "*sui generis* common law offense". At the below link there are many cases from every DCA in Florida and from the FL Supreme Court.

https://scholar.google.com/scholar?hl=en&as_sdt=40006&q=contempt+sui+generis+florida&oq=sui

Every fine and fee that caused my incarcerated for not paying were illegal and unlawful.

Note the below correctly revealing that the arrest, toture and incarceration that led to the felony abuse of a disabled adult by the sheriff was completely illegal. Just simple google searches by a non-legal practitioner reveal incredibly bad motives, a frivolous prosecution and pure evil abuse of government power to advance a corrupt agenda. Ms. Alper is the Attorney General's attorney who is pursuing this wrongful agenda. The AG's office wants to cover this up, luckily they can not cover up for the sheriff's nurses. -- scott

Here's a break down of the fees and fines illegally charged by Judge Adams that caused my incarceration and felony abuse of a disabled adult by the sheriff. The arrest and incarceration was completely unlawful.

I was incarcerated and tortured by the sheriff and his staff for not paying completely illegal fines and fees and then summarily convicted for a probation violation for not paying the illegal fines and fees by Judge Adams. He is a danger to society. I did pay the $300 in probation fees because if I didn't the arrest warrant would have issued sooner and $50 a month was manageable.

Continuing to badger me for fines and fees (including a bogus misdemeanor fee) is fraud and illegal.

First the case involves a sui generis common law offense, not a misdemeanor, the fee is illegal.

This is the case law in most States including florida and in the federal system. Here's the results of a simple google search, have you done this search yet? See Ballengee below ("It is **sui generis** and is not, therefore, a crime .."), it is un-defensible to charge criminal fines/fees for a non-crime. Just plain crazy, the state of the courts in the 20th circuit and lee county. Insanity. -- scott

Subject: Lee Sheriff refuses Sunshine Law request and refuses all law enforcement services to resident of Lee County

My disabilities and extreme fear of being subjected to torture again by the Lee Sheriff only permit my communication with law enforcement via email which the sheriff prohibited. Judge Adams' orders prohibited LCSO contact already (all parties to the civil or criminal cases) and prohibits communication with Florida. Mr. Holloway did not have to repeat the words of Judge Adams just to harass, terrorize, harm and injure. NO CONTACT OR COMMUNICATION, I get it.

The only reason I felt confident in contacting the DOH is because Medical Doctors are not known for the same kind of Neanderthal behavior and wrongful shooting and killing of citizens. In fact, the medical profession is far more civilized.

The sheriff has no need to communicate this to me when it is already codified in the order of Judge Adams prohibiting all LCSO contact under threat of imprisonment. I believe Mr. Holloway chose to send this email merely to harass, terrorize and make it perfectly clear that the sheriff is excluding Huminski from law enforcement services. This causes me great anxiety and I have forgone reporting crimes that I have observed in Lee County, including the smoking of crack in the LCSO jail and curfew violations in my neighborhood after Irma.

I collected much information while in jail for the betterment of society, which will continue to be released. see below,

The order of Judge Adams mandating no contact with the LCSO remains pending appeal. My contact with you, as I explained previously is in your capacity with the County. It is criminal indirect contempt of court for me to have contact with the Sheriff or LCSO staff. See order of Judge Adams prohibiting such contact at the below link which was post on my door when I was arrested by your thugs.
https://judgeelizabethkrierleecountyflcorruption.files.wordpress.com/2017/06/docs-on-door-for-lcso-gag-order.pdf

The sheriff has violated the Sunshine laws by not providing the arrest report from 2/12/19 and continues to do so. Latest document request is here, luckily the web address of the is not a LCSO address or I would have been prohibited from contact for sunshine requests as well.

Here is the latest request that you have ignored, now for the third time. Stating clarification needed for merely requesting the arrest report and any recordings during transport to jail requires no clarification. Here is the third request, what do you think you need to hide via violation of sunshine law requests?

Lee Sheriff Disabled Elder Abuse & torture

AMERICAN OVERSIGHT

scott huminski is making this request to Lee County Sheriff's Office of Lee County.
www.muckrock.com

Please discontinue violations of sunshine law requests. Seems like the truth hurts, especially the State DOH investigation of the LCSO medical staff. Buy cheap, get cheap. Not a good policy for medical services, neither is your procedures that allow your nurses to override and trump the medical treatments and medications set forth by M.D.'s. In FL nurses can not act in violation of the orders of Medical Doctors. You get what you pay for, sub-standard medical treatment. I think you need to polygraph the guard who put me in solitary on 2/12/19 and, by doing so, engaged in felony abuse of a disabled adult. The reports you are hiding reveal the truth, I was not disorderly, I merely stated that judge adams issued a gag/no-contact order prohibiting all LCSO contact. You engaged in entrapment regarding criminal contempt of judge adams' order. I await my arrest for this so-called crime that occurred dozens of times during my incarceration. Obviously.

Why are you still obstructing the request for the arrest report and transportation recordings?

Are you shutting down sunshine requests from muckrock.com as well. I noticed that I can no longer request via the portal. -- scott huminski

Dear Mr. Huninski -

Please be advised that as of Monday, 02/17/2020, your emails to all Lee County Sheriff's Office email addresses will be sequestered by our Technical Services staff, and will not reach any LCSO email address.

Please do not assume your emails will be read or acted upon.

We simply do not have the staff or resources to wade through the mass of irrelevant, inaccurate, irrational and/or abusive content in your emails, in attempts to locate a legitimate concern or request.

Our duty to use taxpayers' funds reasonably and wisely requires we dedicate our limited resources to addressing legitimate concerns and requests.

Feel free to mail, call, or stop by should you have a specific legitimate request for assistance.

If you legitimately require police or medical emergency assistance, please call 911.

Be advised, if this access to LCSO facilities and staff is abused - as you have abused your email access - appropriate action will be taken to cause such abuse to cease.

If required, we will seek and obtain another court order directing you cease such contact, as well as monetary damages and attorneys fees as appropriate.

We wish you the best in your future endeavors.

Thank you for your cooperation.

Subject: New Sunshine Law/FOIA request and evidence re: Lee Sheriff felony abuse of a disabled adult and FL DOH/U.S. DOJ ADA investigations

New request that the sheriff has dodged two times previously,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-torture-88182/

Also attached are the documents taped to the door of my home at the time of arrest that alerted the LCSO that contact and communication with Huminski would violate Judge Adams' gag/no-contact order placing Huminski in criminal contempt of court. As stated in the above link, I also verbally informed the arresting deputy of the gag order preventing contact and communication with LCSO staff and he waived protection by the gag order. The documents were placed upon my door on 10/3/2018 and were visible by deputies that knocked on my door from 10/3/18 until the date of arrest.

I have the originals viewed by the LCSO arresting deputies with the tape still on them that attached then to my door.

Upon arrival at the Jail, after I mentioned the gag order to the jail staff and they started the "sovereign citizen" chant and the arresting deputy quickly left the room so that he would not interfere with the entertainment the jail staff was enjoying from the punishment and abuse of myself for mentioning the gag order.

The LCSO had knowledge that the gag order existed when they punished me with solitary in inhumane conditions for merely mentioning the existence of the patently insane/corrupt gag order instead of pulling up the case on the public court information system and then seeking legal advise on how to handle such a case whereby contact with any LCSO personnel is barred by court order. They chose a backwoods hillbilly style of justice instead of a concern to obey the law.

This is why the sheriff is refusing to produce the report from the arrest or any recordings made in the police cruiser while transporting to the jail. He is trying to cover-up the misconduct and crimes.

There is no law enforcement duty to create new crime (contempt of court) as was done in the instant matter, to the contrary, law enforcement should not engage in conduct that creates new crimes. -- scott huminski

Subject: DOJ ADA Complaint, ADA violations at Lee County, Florida Jails

Hello,

I have been on complete SS disability for 10 years with avascular necrosis of knees and hips, bilateral hip replacements, gout, spinal stenosis, degenerative disk disease, open back surgery, hypertension, PTSD, anxiety disorder and social phobia. I was jailed for 3 weeks for not paying a contempt of court fine in Lee County, Florida 6 months after open back surgery while I was still experiencing post-surgical pain and disability. I was provided zero accommoadations, forced to sleep on the floor because I was physically unable to jump into a top bunk, no ADA compliant toilet/shower facilities. Transported is a school bus without handicap grab bars (I was handcuffed and chained to other inmates so grab bars may not have been helpful if they were available). My blood pressure and PTSD/anxiety medications were abruptly ended and I was place in solitary for 8 hours in only my underwear and shorts and barefoot in a 55 degree windy cell with only steel and concrete surfaces that plummeted my temperature to 97 degrees. Inmates wear thermal underwear and a fairly heavy jump suit. These acts are felony abuse of a disabled adult under State law, Florida statute 825.102, and patently clear ADA violations.

All disabled persons residing at the Lee jails are subjected to similar ADA violations.

Further, the sheriff has formal written rules in place that allow his nurses to override and trump any determinations of disability made by the Social Security administration and medical doctors to allow him to violate the ADA with a fraudulent determination by his nurses.

General counsel for the Florida Department of Health is prosecuting the medical personnel. I don't believe they are addressing the ADA issues. See links below that also contain contact info. for the officials involved in the DOH investigations. The FL DOH has extensive documentation on this issue and I waive all privacy and HIPAA rights concerning my medical records currently in the custody of the FL DOH and the DOH can forward all materials to the Dept. of Justice.

Subject: DOJ ADA investigation

*** the content of this email constitutes core protected political expression, i.e. speech critical of government intending to promote change and it is afforded the highest level of protection under the First Amendment ***

Dear Florida Dept. of Health,

Please forward copies of all documents related to the pending investigations detailed below to the Department of Justice - ADA enforcement unit. I waive all privacy and HIPAA rights, the safety and well-being of the public far outweigh privacy concerns. The ADA is a core federal issue applicable to the States.

Subject: Lee sheriff medial staff Sunshine law production fraud and Courthouse corruption

I suppose I shouldn't be as critical of the sheriff printing out a document, hand-modifying it, and providing that as valid sunshine law production of documents in light of the following:

Clerk Linda Doggett, printed out a June 5 Circuit Court order from 17-ca-421 (the order was 119 pages long and originally filed in 17-ca-421 on 4/26/17) On June 30 of 2017,

04/26/2017	Order to Show Cause	119

She hand modified the order by adding a non-existent docket number and without a new judicial signature,

She processed it as a valid order received from a judge,

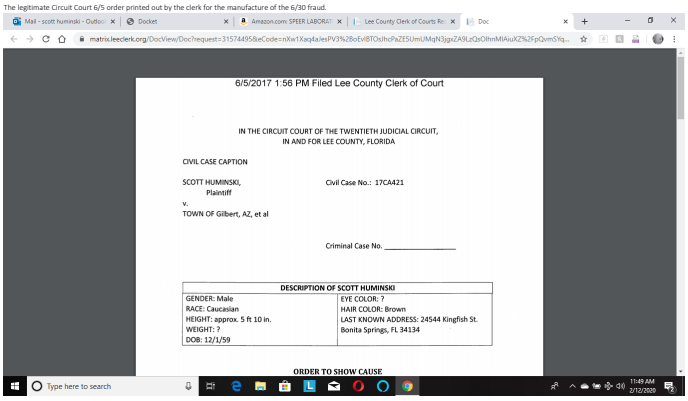
the court clerk then initiated a new criminal proceeding in Lee county court (17-mm-815) with a hand modified Circuit Court order without participation of a judge or prosecutor. A new low in courthouse corruption that initiated circumstances that led to the DOH and ADA issues now under investigation.

This clerk engaged in a litany of State and Federal crimes including, but not limited to, fraud, forgery, obstruction of justice and federal civil rights crimes by acting as a judge or prosecutor, the only entities that can initiate a prosecution.

To add insult to injury, Clerk Linda Doggett certified to the 2nd District Court of Appeal, under oath, that her forgery was a true and correct judicial order issued in the County Court. Nothing is further from the truth. The prosecutors and even my current counsel are OK with this fraud upon the appellate court.

Official crime is rampant in Lee County.

Below is a screen shot of the original 6/5 order (page 1) followed by the fraudulent forged one that Linda Doggett fraudulently filed as an authentic judicial order on June 30 which she boldly certified as authentic to the 2 DCA absent 116 pages with the forged docket number. Lots of government crime here makes one wonder if the sheriff was trying to kill me during my lodging at his facilities. He probably came close with the denial of my blood pressure medications.



True docketing of the order of the deficient order (sans 116 pages) in **Circuit Court**

06/05/2017	Order to Show Cause	3

Fraudulent docketing of the June 6 Circuit order on June 30 in **COUNTY COURT** (certified by crooked clerk to the DCA)

06/05/2017	Order to Show Cause Filed	3

The legitimate Circuit Court 6/5 order printed out by the clerk for the manufacture of the 6/30 fraud.

Now the forged/fraudulent order of Clerk Dogget absent the required Judicial signature and proper caption. Note the double time stamp, an admission that it is not a genuine judicial order, rather, it is an order manufactured by the clerk. She is so sloppy, she didn't even correct the caption when forging her new order as she was initiating a new prosecution with her manufactured order in the COUNTY COURT not Circuit. She missed changing the caption to County Court. Criminals often make stupid mistakes when they are operating in their official capacity and believe they are unaccountable.

AMERICAN OVERSIGHT

Subject: Lee sheriff medial staff

This conduct in oklahoma, see below, is the exact same mindset of many of the female guards at the Lee jails including the one that responded on the intercom concerning my report of the Redman Syndrome from toxic medications supplied to me without my knowledge or consent. When she stated "don't take pills you're not supposed to", luckily for me, my situation was not life threatening unlike the unfortunate fellow below. After acknowledgement of the toxicity of one of the medications they supplied me with, they kept on trying to dispense the toxin to me and I had to interrogate the person dispensing medications until I was released.

Eventually, for some reason, they had me sign a form refusing the toxin instead of immediately removing the offending medication they swapped for my Toprol 200. This was probably to document that I was refusing medication when the opposite was true, I desperately wanted my blood pressure medication, not the medications concocted by these nurses who apparently believe a 5 minute interview gives them knowledge superior to a licensed doctor.

I had been under the care of physicians for 22 years, since when can a nurse with zero knowledge of my medical history trump the long-time treatment plan of medical doctors.

Upon intake, a patient should be asked if they are on total Social Security disability and be provided with ADA compliant lodging. If the sheriff has a problem with this he can sort out the disability situation with the Social Security administration and seek review of their determinations.

If a patient is on medications prescribe by a long-time family physician, a sheriff's nurses must not massively change the treatment plan without consulting the prescribing physician. These nurses who ignore the directions and advise of experienced MD's should not completely disregard the knowledge and wisdom of experienced doctors. Doctors place patients on medications for very good reasons after long-term knowledge of a patient that should not be altered by nurses working for law enforcement. At the very least they should have substituted 200 mg of metoprolol succinate with 200 mg of metoprolol tartrate (this medication is inferior for Huminski, but far better than the path they took). Had they inquired, I would have demanded the beta-blockers instead of water pills that I knew I had a problem with as far as side effects and it didn't help with my blood pressure. Further my PTSD, anxiety and blood pressure are linked to adrenal response which water pills do not address. No one inquired as to why I was on a fairly high dose of Toprol.

Subject: Lee sheriff lies and evades/dodges Sunshine Law requests

The sheriff claims the requests were unclear which is a lie. One request asks for bunk assignments of Huminski's cellmates. The other request asks for the police report concerning Huminski's arrest and transport to the Fort Myers jail, a two hour period whereby the arresting officer was quizzing Huminski while entering data into his computer. I.e. Distracted Driving and probably an accepted practice at the LCSO.

The first thing Huminski said to the officer informed him of the no-contact order of Judge Adams preventing communication with LCSO staff under penalty of imprisonment, the deputy then waived his protection by the gag orders and Huminski then responded to the questions. Upon arrival at jail, Huminski alerted the staff of the existence of the gag order, the staff repeatedly chanted "sovereign citizen" (whatever that is) and placed Huminski in solitary and engaged in felony abuse of a disabled adult. The arresting officer was present when the decision was made to place Huminski in solitary as a punishment for mentioning Judge Adam's gag order.

Many times the cover-up is worse than the crime. See the request's content in the below sheriff emails,

--- Please respond above this line ---

Dear SCOTT HUMINSKI,

Regarding the Media Request received on 1/20/2020 requesting records, the records have been in "Requested Clarification" status for 10 business days. The Lee County Sheriff considers this request closed. If you would still like the records, please submit another Media Request. Thank you for using the Public Records Center.

Request Details:

Reference # MD51080-012020

Description of Records Requested: The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Lee sheriff and the ADA

The Department of Justice (DOJ) regulates Title II of the Americans with Disabilities Act (ADA), which covers state and local governments. These public entities are responsible for the operation or management of juvenile and adult jails, detention and correctional facilities, whether they are operated directly by the state or local government, or through contracts, licenses, or other arrangements with other entities. (§35.151(k) and §35.152)

Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Accessible cells or housing units need to be available in all security classifications and/or program levels of a facility.

Unless it is appropriate to make an exception, public entities must not place inmates with disabilities in:

- Inappropriate security classifications because no accessible cells or beds are available;
- Medical areas unless they are actually receiving medical care or treatment;
- Facilities that do not offer the same programs as facilities where they otherwise would be housed; or
- Distant facilities where they would otherwise not be housed and that would deprive them of visitation with family members.
- Huminski was placed in a cell block without ADA compliant cells.

Minimum Requirements from the 2010 Standards (§35.151(k))

New construction of jails, prisons, and other detention and correctional facilities must comply with the 2010 ADA Standards for Accessible Design. At least 3% of cells must be accessible for individuals with mobility disabilities, including those who use wheelchairs. Accessible cells must be provided in each classification level.

At least 2% of the general holding and housing cells must be equipped with communication features designed to accommodate individuals who are deaf or hard of hearing. These features include telephones with volume control where telephones are provided in cells, and visible alarm signals where audible emergency alarm systems are provided for occupants of cells and occupants are allowed to evacuate independently. (Sections 232 and 807, ADA Standards)

Alterations to jails, prisons, and other detention and correctional facilities must also comply with the 2010 ADA Standards until new construction levels of access are achieved within the facility.

When alterations are made to specific cells, required features for mobility access may be provided in substitute cells (cells other than those where alterations are originally planned), as long as the substitute cell:

- Is located within the same prison site,
- Is integrated with other cells to the maximum extent feasible, and
- Has equal physical access to areas used by inmates or detainees for visitation, dining, recreation, educational programs, medical services, work programs, religious services, and other offered programs.

If it is technically infeasible to locate a substitute cell within the same prison site, the substitute cell may be provided at another prison within the same system.

Medical and long-term care facilities in detention and correctional facilities, whether they are licensed or not, are also subject to the 2010 ADA Standards for accessibility.

In passing the Americans with Disabilities Act ("ADA"), Congress noted that the isolation and segregation of persons with disabilities due to the discriminatory effects of physical barriers are a "serious and pervasive social problem," and there has been very little "legal recourse to redress such discrimination." The ADA lists several purposes, one of which is "to provide clear, strong, consistent enforceable standards" as part of a mandate to eliminate such discrimination. The ADA is modeled after section 504 of the Rehabilitation Act of 1973. A key difference is that while the Rehabilitation Act requires facilities that received federal funding to be accessible to persons with disabilities, Title III of the ADA applies to places of public accommodation specified by the ADA, regardless of the receipt of federal funding.

Under the ADA, new construction must be "readily accessible" to persons with disabilities. The new construction's "readily accessible" standard is met if the new construction or alteration is done in compliance with either the 1991 or the 2010 ADA Standards for Accessible Design. These standards include detailed, lengthy and technical specifications. In contrast, existing facilities must be made accessible to disabled persons if the changes are "readily achievable." The "readily achievable" standard for existing facilities is met by making alterations that are "easily accomplishable and able to be carried out without much difficulty or expense."

AMERICAN OVERSIGHT

After its passage, Congress charged the Department of Justice ("DOJ") with implementing the ADA. One of the DOJ's ongoing tasks, in partnership with the Federal Access Board, is to create regulations to provide guidance for the enforcement of the ADA. Congress created the Federal Access Board in 1973 to ensure access to federally funded buildings, and it has become a "leading source of information on accessible design." The DOJ codifies the resulting regulations in the Code of Federal Regulations, and the appendices of that code further explain the regulations. In 1991, the Federal Access Board created the ADA Accessibility Guidelines ("the ADAAG"). The ADAAG were purely advisory to the DOJ and addressed new construction standards. The DOJ then sought public comment on the ADAAG, made applicable changes based on those comments, and finally adopted and codified the ADAAG as the official standards for the ADA. In 2010, the DOJ released a revised version, which became effective March 15, 2012.

Courts have upheld the "two distinct systems for regulating building accessibility: one to apply to existing facilities (those designed and constructed for occupancy before January 26, 1993) and another to apply to later-constructed facilities." Pre-existing or "grandfathered facilities" only need remove easily removed barriers. In contrast to grandfathered facilities, new construction violations are indefensible, unless there is a structural impracticability. A structural impracticability exists when "unique characteristics . . . make accessibility unusually difficult to achieve." Apart from structural impracticability, courts have no authority to apply equitable discretion in excusing the violation.

Overall, statutes, advisory and technical assistance materials, and case law work as a team to contribute to the goals of the ADA, voiced by President George H.W. Bush, "[E]very man, woman, and child with a disability can now pass through once-closed doors into a bright new era of equality, independence and freedom."

The Huminski was housed, transported and accessed portions of the Lee Jails built or significantly modified after January 26, 1993, as such, these areas of the Lee Jails must comply with the ADA and are not "grandfathered-in". There is very little or no attempt to comply with the ADA by the Lee Sheriff.

Some ADA accomodations are as follows:

Examples of "readily achievable" barrier removal that must complied with include, but are not limited to, the following actions (some of these were absolutely absent in Huminski's cell and during his transports between facilities in non-ADA compliant vehicles):

Installing ramps;

Making curb cuts in sidewalks and entrances;

Widening doors;

Installing offset hinges to widen doorways;

Installing accessible door hardware;

Installing grab bars in toilet stalls;

Installing a raised toilet seat;

Repositioning the paper towel dispenser in a bathroom;

Installing an accessible paper cup dispenser at an existing inaccessible water fountain;

Subject: Re: Lee sheriff fola/sunshine law fraud

In the attached, sheriff supplies 4 bed/bunk designations (A,B,1,10):

A = unknown
B = a handwritten notation added to the attached document at the time of production stating "B=bottom". A fraud, handwritten notes added at the time of production have no place in a FOIA/Sunshine law response. What is A then? The first several days I resided at the jail, there were not enough beds for the number of inmates, bunk designations, if there genuinely is such a thing, are meaningless in overcrowding situations. The sheriff does not enforce top or bottom bunk assignments.
1 = unknown
10 = unknown

Then a snippet of a nurse's comment from another alleged document was cut and pasted to the bottom of the attached production.

When I requested the original entire record/document that contained the nurse's bunk designation via another request,

THE SHERIFF RESPONDED **No Documents Responsive to your Request** (see below) apparently there was fraud in the attached production and the lack of an originating document indicates that the nurse's bunk designation may have been manufactured by the sheriff to avoid negative consequences.

A sheriff becoming evasive and deceptive in document production is a good sign of corruption and the desire to avoid consequences by dishonesty and fraud.

Describe the Record(s) Requested:
In your last production, you supplied an excerpt of a document or record detailing a nurse advising that I be assigned a bottom bunk. I need this in context of the full record, document or database. The nurses message on 2/13/2019 that you included in the document entitled Huminski_OMS_housing_R supplied by you on 1/17/2020 clearly indicates that the nurse's comments were cut and pasted from a document, record or database. For review of the document in contest, I request the full document, record or database that the excerpt was taken from. Attached is a copy of what you produced which is something that was clearly manufactured from excerpts from an original document/record. Please supply the full document/record or database. Please see attached and provide an original full screenshot of the nurse's directions in context of the records above and below the nurse's comment.

Subject: Lee sheriff nurses acting without supervision by physician

It is impossible to believe that a physician supervised any of the medical staff at the Lee Sheriff's facilities because no Doctor would disturb 22 years of successful medication and completely yank a patient off all medications that worked perfectly for 22 years. The Toprol ER that was prescribed to Huminski had a dual purpose; one as an excellent blood pressure control and as an anti-anxiety medication. Because of Toprol's control of adrenaline, it helps mitigate Huminski's anxiety and related disabilities. For this reason Toprol is often prescribed for stage fright and anxiety issues. It is very helpful to Huminski and his handling and management of his disabilities.

> Propranolol and Toprol Used for short-term relief of social anxiety. May reduce some peripheral symptoms

AMERICAN OVERSIGHT

of anxiety, such as tachycardia and sweating, and general tension, can help control symptoms of *stage fright* and public-speaking fears, has few side effects.

It is my belief there was no supervising physician as required by statute at the Lee Sheriff's facilities. See below for nurse practitioners and physician assistants. No Physician would look at Huminski's medical history and recommend an ending of medications that worked perfectly for 22 years and take a risk of side effects when Huminski's long-time medicines were tolerated perfectly by Huminski and worked supremely well. The result of the Lee Sheriff's medical staff's experimentation with Huminski's medications met no protocol of a supervising physician, if there was a supervising doctor. No doctor would recommend the "cold turkey" ending of medications taken for 22 years and no written protocol exists supporting the conduct in the instant matter. Because of the lack of supervision or proper protocol, Huminski suffered increased severity of his PTSD, GAD and social phobia as well as soaring blood pressure that Huminski worried would cause a stroke, organ damage, heart issues or kill him.

Huminski was never offered a consultation with a physician, nor, did he know there was a physician available at the Lee Sheriff's facilities. The Redman Syndrome caused by the toxins prescribed to Huminski are not the product of negligence, they are the product of a mindset that the incarcerated are sub-human and don't deserve carefully thought out treatments and medications. It would not be surprising to find out that Huminski was prescribed the same medications given to all patients with hypertension at the Sheriff's facilities, a one size fits all mentality, which is not the case in the practice of medicine. Medical history is supremely important.

Nurse practitioner,

Practice Authority

A written protocol between an NP and the supervising physician is required. The degree and method of supervision that is determined by the NP and the physician must be specifically identified in the written protocol. General supervision by the physician is required and specified in the written protocol and must include a description of the duties of the NP, a description of the duties of the physician (which includes consultant and supervisory arrangements in case the physician is unavailable), the management areas for which the NP is responsible, a provision for annual review by the parties, and specific conditions and a procedure for identifying conditions that require direct evaluation or specific consultation by the physician. Fla. Admin. Code §64B9-4.010

Physician Assistant,

Supervision Requirements

The law outlines the exact means of responsible supervision. Direct supervision is not required, but the supervising physician must be easily available or be physically present for consultation. Fla. Admin. Rules §64B8-30.001(3), Fla. Stat. §459.022(f)

Subject: Lee sheriff retaliation, Gov't Answer Brief Due - 2 weeks

Attorneys Alper & Candela, Please note the answer brief in the 2 DCA is due on 2/12/2020. No extensions will be consented to. Mr. Candela, conflict yourself off the case please as I have legal malpractice claims against you for negligence proximately arising out of your refusal to file a motion to stay the sentence and all matters below pending appeal. The record is clear concerning the injury and damage caused by your failing to seek a stay; incarceration, torture and ADA violations by the Sheriff.

Below is my complaint to the U.N. concerning the human rights violations of the Lee Sheriff (the human right of free speech) and the current sheriff is the hand-picked replacement (buddy) for Sheriff Mike Scott (a defendant in Huminski v. Mike Scott et al, 17-ca-421, aka Huminski v. Gilbert),

A clever scheme by the sheriff to make himself litigation-proof by making the service of himself in the DCA and Florida Supreme Court a crime (contempt of Judge Krier's and Judge Adams' gag orders). AKA obstruction of justice via a prior restraint.

Tying my hands concerning service of papers, mandated by Rule, violates the First Amendment and Due Process and these activities are federal civil rights crimes.

Subject: Re: Lee sheriff more ADA violations

If a patient under the care of the Lee Sheriff suffers a medical emergency and is hospitalized, the fictional medical record manufactured by the sheriff can lead to medical errors. As I pointed out in a prior email, falsely reporting that someone is a smoker or IV street drug user as suggested by the falsehoods included in my erroneous medical records can harm and endanger the life of a patient is crisis.

Said errors could send doctors in a wrong direction when attempting diagnosis and alter treatment plans and medications potentially causing delay, harm, injury or death. Medical record errors may lead to the use of the least optimal medication, treatment or procedure.

I have reproduced below the email pointing out the sloppiness and careless/reckless disregard by the Lee Sheriff concerning medical record accuracy in medical records that he maintains, controls and disseminates pursuant to HIPAA regulations.

Subject: Re: Lee sheriff more ADA violations

None of the vehicles Huminski was transported in comply with ADA requirements for transport of the fully disabled.

Aggravating this fact is that while boarding and departing from transport, disabled patients are handcuffed and chained together while transported. During these transports, I was in fear of injury or death proximately arising from the complete absence of ADA accommodations during transport by the Lee Sheriff. --scott huminski

Subject: Re: Lee sheriff more ADA violations

The Sheriff refuses to give flu shots to residents of his facilities. This violate the universal support of immunization in the medical profession and is medical malpractice. This policy creates a heightened danger to the elderly and violates the well-established precept of herd immunity. As his jails lodge patients for less than a year, un-vaccinated patients are release into the public everyday impacting high risk groups of the elderly or very young because of the Sheriff's negligence and medical malpractice.

Subject: Re: Lee sheriff more ADA violations

Please seek a DOH emergency order concerning the LCSO medical staff allegations and ADA violations. As the Sheriff places restrictions on what medications and services can be provided to residents in his facility, his licenses with the Boards should be revoked. If he is not licensed, but making medical decisions such as the medications allowed in his facility, he is practicing medicine without a license.

When I was afflicted with Redman syndrome (instigated by denial of my blood pressure medication and dispensing a toxin to me) and requested an injection of anti-inflammatory medication, the nurse replied that the sheriff does not allow it. The sheriff is practicing medicine without a license. These nurses look to the sheriff and his rules as they would directives from a doctor. Apparently, any kind of injection is prohibited by the sheriff. Again, his unlicensed practice of medicine.

Also, in my first two days residing in the Lee jails, one inmate was in excruciating back pain that far exceeded the capabilities of over-the-counter pain relief. He was denied that because of the sheriff's determination of which medications and procedures that are allowed (by the rules of a non-medical practitioner). This resident was in the highest level of pain I've observed in my 60 years and his treatment by the sheriff's policy to withhold FDA approved medications is torture and a cruel and unusual punishment under the Eighth Amendment.

Please end the suffering and torture at this government facility which will not be accomplished by sanctions against the licensed providers, the Sheriff and his rules, customs and procedures are at the core of the medical misconduct at his facilities. -- scott huminski

p.s. DOH please forward this to the Prosecution Services Unit and provide an email for this entity.

Subject: Re: Lee sheriff more ADA violations

The sheriff's jail and customs, policies and procedures therein violate virtually every topic discussed in the below summary of ADA requirements in his jails.

Subject: Lee sheriff new FOIA request

Media Request less than a minute ago
Provide the housing and bunk assignments of persons who shared a cell with Huminski for the first 10 days of his stay in the lee jails starting with 2/1/19. Huminski's cellbunk assignment was provided in the sheriff's 1/17/2020 production. Provide the same for Huminski's cellmates.

Status : Received

To view all requests go to
https://leecountysheriff.govqa.us/WEBAPP/_rs/Customermissues.aspx

User is s_huminski@live.com
password 123456

The sheriff will not be able to supply this as for the first 3 days, the cell blocks were overcrowded and there were not enough bunks for Huminski and approximately 10 others. No cell or bunk assignments were communicated by the sheriff. This is a per se ADA violation. The elderly disabled should not be treated like 3rd class citizens and made to sleep on the floor.

Subject: Lee sheriff refuses to produce document

He refused to supply the full document that the bunk assignment was taken from. What a crook. The cover-up is worse than the original crime.

Subject: Re: Lee sheriff FOIA

The sheriff deliberately did not produce the records related to my arrest and transportation to jail. Why, because I was not disorderly. The woman put me into solitary confinement in the inhumanely cold cell because I advised her of the Judge Adams gag order prohibiting my communication with any LCSO staff. Stating a fact is not disorderly conduct.

new FOIA
Media Request less than a minute ago
The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Re: Lee sheriff document production

Just like how the Lee Sheriff does not alert a patient that their life-sustaining medication that you have been on for 22 years is being completely ended putting one at risk of death and injury, the sheriff also maintains secrecy as to any assignment of bunks and no procedure exists for enforcement of bunk assignments.

The 2/13/2019 alleged medical record recently supplied is not in the original production of medical records supplied by the sheriff. I suspect fraud concerning this record. In either case, where-ever this document came from if it is not a fraud, these records are not supplied to inmates via any practice, policy or procedure adopted by the sheriff. Further what was supplied is a cut and pasted excerpt from a document that contains damning information that the sheriff wishes to keep secret.

While imprisoned, I asked the medical provider for my medical records and she denied the request. The medical records supplied related to these matters do not contain the cut and pasted bottom bunk directives.

In the Lee jails, bottom bunks are on a first come first serve basis and if there is a dispute the law of the jungle prevails -- might is right, where an elderly disabled person can not prevail regarding such confrontations with other inmates.

LEE SHERIFF supply the full document where the cut and pasted bunk assignment came from. Many times a cover-up is worse than the original transgressions. -- scott huminski

It is my moral and ethical duty to make sure you don't do this to anyone else. Again, I am forced to assume the role law enforcement should have handled, like the death threats from the Arizona terror cell (Trevor Nelson, Debra Riffel of Maricopa County) that instigated this series of events.

Subject: Lee Sheriff: Medical Ethics, Disability and Supremacy Clause violations

Hi,

In the United States, federal laws concerning disabilities are binding on the States (and Counties) via operation of the Supremacy Clause. Article VI, Paragraph 2, U.S. Constitution.

Disability is defined under laws, rules and procedures employed by the Social Security Administration which includes phases: Application, Initial, Reconsideration, Hearing, and Appeals Council. A federal finding of disability can not be altered by State or County agencies, including nurses working for the Lee Sheriff.

Persons found disabled under federal law are protected under the Americans with Disabilities Act (ADA) and treatment of the disabled is governed by the ADA.

The sheriff or the medical staff he employs/retains can not trump/alter a disability determination under federal law. Housing and transporting a disabled individual must comply with the ADA which the Sheriff deliberately ignores and violates.

The torture of Huminski prior to a medical screening with solitary confinement in an inhumanely cold cell without adequate clothing or shelter from the 55 degree temperatures is a violation of the ADA and patently cruel torture.

The sheriff's expectation that the disabled hop onto a bunk over 4 feet in the air is a violation of the ADA, his own policies and procedures should have prevented this.
See below policy excerpt.

An inconsistency with federal law is the provision in the sheriff's below policies and procedures that provide that a nurse working for the sheriff can modify or ignore a finding of disability under federal law and this provides a corrupt green light to the sheriff to violate the ADA.

Violations of the ADA by the sheriff's medical staff is a violation of medical ethics and are federal crimes.
Some of these crimes are set forth at the below link.
https://www.fbi.gov/investigate/civil-rights/federal-civil-rights-statutes

The sheriff placing his "medical provider" (the sheriff's nurses) in charge of disability determinations when the federal government has extensive laws and procedures involving the disabled violates federal law and the Supremacy Clause.

Florida does assist the federal government in the determination of disabilities in the Division of Disability Determination (FL Dept. of Health), however, nurses working for the sheriff have no authority under state or federal law to disturb a finding of disability under federal law. The sheriff's policies and procedures concerning the disabled is unlawful. Further, the sheriff lying in medical records that Huminski was on disability because of drug use is a violation of federal law and medical ethics. Huminski was placed on disability after his first hip replacement and was lodged by the sheriff 6 months after back surgery.

The sheriff can and should avail himself to the programs provided by the Fl Dept. of Health concerning lodging of the disabled instead of trying to be the law unto himself.
See link below.

Upon intake, the sheriff should query if an individual is disabled and receiving federal or state funding because of a disability. Upon an affirmative response, the patient should be lodged in an ADA approved cell. After that, the sheriff should consult the Fl Dept. of Health or Social Security Administration if the sheriff believes an individual is not disabled or if he disagrees with the findings of the United States. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Based upon further review, it has become clear that the sheriff engages in wholesale violations of the Americans with Disabilities Act (ADA) and for the safety of those still suffering in the Lee jails, the federal government should take control of these facilities to bring them back into compliance with federal law.

Why was I jailed? ... for failure to pay a contempt of court fine that I could not afford (debtor's prison). Good old fashioned justice. With Mr. Candela not helping by his refusal to stay matters while appeal was pending. The prosecutor's office knows all these facts and are just as liable.

Please forward relevant materials to the U.S. Attorney's Office for this District and to the U.S. Attorney General before death, injury or harm comes to person at these facilities because of the sheriff's disdain for the rule of law.

Time is of the essence. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Hi,
I began reviewing the production of today. I think this will yield a wide pot pouri of the sheriff's violations of his own policies and procedures. After 1 minute into my review the following came up revealing a complete disregard for his own policies concerning the fully disabled. Like myself -- on full social security disability for 10 years for mental and physical disabilities.

The sheriff knows bad things happen when one breaks the law, likewise, bad things happen when he violates his own policies and procedures. There would have been fewer ADA violations and felony abuse of an elderly disabled had the sheriff obeyed his own regulations concerning single cell occupancy had he just followed his own rules instead of making the disabled elderly sleep on the floor. If I was assigned a single cell per his policies, I wouldn't have had to sleep on the floor. Its not just me he abuses, he abuses every disabled person in his jail. If the ADA had criminal sanctions, the sheriff should be first in line. As my review continues, I will update. see below single occupancy policies.

Subject: Lee Sheriff production of documents re: FL Health investigations

See attached, even though the fee was paid, I don't see any documents

In a collateral issue, here is a document evidencing the Lee Sheriff's/Judge's/Prosecutor's obstruction of service in a matter before the Florida Supreme Court,
https://efactssc-public.flcourts.org/casedocuments/2018/1282/2018-1282_motion_117214_motion2dother20substitue.pdf

Note that the order of Judge Adams made criminal any contact with the parties to the criminal and civil matters. This means the State of Florida. It is also in the above link. -- scott

Subject: threats

Mr. Candela, Your threats to me attempting to stop my reportage concerning the felony abuse of a disabled adult and collateral matters could be construed as obstruction of justice.

Please file a motion in the appeal to stay/enjoin the Florida collection activities and punishments while the case is on appeal. You failed to do this at the appropriate time causing my incarceration. This a very common appellate motion quite similar to a motion to release from custody while on appeal. I don't wish to be jailed again because of your failure to file proper and quite common motions at the proper time.

Just the fact that you are appointed does not mean you have to withhold filing of proper and necessary papers in court. You must treat appointed legal work with the same vigor as paying clients. Failure to do so is a violation of the rules of professional conduct and ethical precepts.

I don't know what is up with you, but, you refused my direct instructions to deny the request for enlargement of time and consented to the government delay. This conduct prejudices and injures me.

Subject: Huminski writ of prohibition/mandamus

Mr. Candela, I take your silence as a refusal to file a writ to prohibit collection activities by the State pending resolution of the appeal. I will file it in the next week. It will be less than a page long. A no-brainer. Let me know today if you have changed your position.

This issue may only be tangentially related to the Health Departments investigations. It is being provided to maintain context and this email is core protected political expression afforded the highest level of protection under the First Amendment. (see below link re: core protected political expression) Obviously all my speech is speech critical of the Sheriff, a candidate for public office. Seeking and obtaining the gag order is a serious crime under Title 18. See below criminal statutes.

Mr Holloway, as I have pointed out, all communications with you are in your capacity with the county, not LCSO. All contact with the LCSO is barred via the gag orders entered by Judge Adams. Gag orders requested by the sheriff that remain pending for life. This calls into question if the sheriff can hold office while denying public safety services to a resident (s) of the county he serves. I think not. This affront to the First Amendment, barring core protected political expression are federal crimes defined in
the Title criminal 18 links below as they violate Huminski's First Amendment right to criticize the sheriff and report criminal activity to the sheriff or his staff. One can not be a county sheriff and then pick and chose persons not eligible for public safety services based upon their opinions or the type of crimes they report.

Why did the sheriff seek to silence me? ... to cover up his support of the interstate transmission of terrorist death threat by the Nelson/Riffel domestic terror cell.-- scott

Subject: Florida Sunshine Law Request: Lee Sheriff Disabled Elder Abuse Portal

To Whom It May Concern:

Pursuant to the Florida Sunshine Law, I hereby request the following records:

All records, reports, recordings and documents related to the arrest of

The period of interest is from 10:00 A.M. to Noon on 2/12/2019 while Huminski was in custody of the arresting deputy.

Supply all documents, recordings, materials related to the compliance with the ADA (Americans with Disabilities Act) of LCSO transport vehicles (buses, vans, cars and other) that were used to transport Huminski both upon arrest and during other transport of Huminski that occurred during his stay at LCSO facilities.

Provide all documentation as to what ADA accommodations were provided to Huminski in his jail cell that allowed him access to the top bunk when the bottom bunk was occupied by another resident.

Provide all materials and documents related to Huminski's complete disability, medicare and social security and any and all materials related to ADA accommodations and treatment of the fully disabled at LCSO facilities (specifically to Huminski and generically).

All materials related to the determination that Huminski committed the crime of disorderly conduct at his intake as set forth in the records last produced by the LCSO and all materials related to LCSO procedures concerning placing a person in solitary confinement and disciplinary matters concerning inmates.

Booking #
897183
Arrested
2019-02-12 11:54
Status
Released: 2019-03-04 19:30

All handwritten or digital records related to the dispensing of medications to Huminski which include 15 to 30 notations of blood pressure pursuant to the directives of the LCSO medical staff including the blood pressure readings taken and recorded approximately 9 to 11 hours after arrest in Bonita Springs. Including Huminski's vitals which indicated a temperature of 97.0 after 8 + hours of solitary in inhumanely cold temperatures without adequate clothing or shelter. Prescribing directions from LCSO staff required the taking of Huminski's blood pressure at the time medications were dispensed, which was done and recorded by the LCSO staff that distributed medications. Supply this data.

Attached is a brief filed in the 2nd District Court of Appeals indicating LCSO knowledge of Huminski's disability situation discussed before LCSO staff in court.

All documents and materials related to the felony violations of the elder/disabled adult abuse statute perpetrated by the LCSO set forth in the attached emails to the Florida Department of Health that triggered 3 investigations of LCSO medical staff. See attached.

AMERICAN OVERSIGHT

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.

Sincerely,

scott huminski

Subject: Lee Sheriff refuses to comply with Sunshine Law foi request

This is the request they are ignoring,

https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

I seek assistance with getting compliance with the Sunshine Laws.

The sheriff began his refusal to comply with sunshine requests after he became aware of 3 investigations pending against his medical staff for felony abuse of a disabled adult. Subject: Lee Sheriff Foia re: DOH investigations, Complaint # 201944590 & 201994592

A new related Foia (sunshine law request) is here concerning the withholding of medical services,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84837/

I note that the sheriff failed to respond to the request of 12/12/19 with knowledge that I am seeking the information to forward to State agencies concerning the pending investigations. *Per se* obstruction of justice. The sheriff refuses to even acknowledge receipt of the information request.
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

It is unclear if the sheriff's department itself is licensed with the DOH in any capacity, although, they are the caretakers of medical records and in control of the privacy and dissemination of medical records consistent with HIPAA or similar state regulations/statutes. It certainly appears that jails should be regulated in a similar manner to nursing homes, hospitals and other care-giver entities. -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These felonies and *per se* medical ethics violations concerning the LCSO medical staff are retaliatory because Huminski exposed the crimes of the sheriff embodied in his request and receipt of a gag order that obstructed justice (including witness intimidation and tampering) of cases before the United States Bankruptcy Court, the Florida 2nd Circuit and Florida Supreme Court. At the most rudimentary level, the sheriff's gag order preventing service of himself and his office in cases where court rules, Due Process and other authorities mandated service of the sheriff are patently criminal obstruction of justice.

My certificates of service in the aforementioned tribunals clearly state that service was obstructed by the sheriff. Even service of the State of Florida was obstructed by the gag order obtained by the sheriff. See below documents and most specifically this one,
https://edca.2dca.org/DCADocs/2017/4740/174740_26_12182017_1121006Z_e.pdf

Here is a complaint filed with the United Nations on the topic

https://web.archive.org/web/20181031133103/https://judgepelizabethykrierleecountyflcorruption.files.wordpress.com/2017/06/un-human-rights-compl-2-converted.pdf

The obstruction of justice by the sheriff is undisputed and on the record see below links.

Subject: Fw: State's Atty Cover up felony obstruction by Sheriff Scott

The Sheriff obstructed service in the U.S. Bankruptcy Court (a unit of U.S. District Court), obstructed service in the 2DCA 2D17-4740, obstructed my attendance at a hearing in 17-CA-421 and is engaging in ongoing obstruction in 17-MM-815.

The sheriff procured a protective order for him and his staff that prohibits contact or communication. WITHOUT EXCEPTION. As such I am banished from the Lee Court complex in violation of Huminski v. Corsones, 396 F.3d 53 (2nd Cir. 2005). This and other issued are exhaustively documented in the below papers filed in the 2DCA.

Subject: Conflict counsel must recuse

Hi Atty Neymotin,

Your office has advised me to violate the Orders of Judge Krier. The protective order entered by Judge Krier prevents any contact with the Sheriff or his staff. As such, it is criminal contempt for me to interact with court security screeners and bailiffs at the lee court.

Advising me to violate the orders of the Circuit Court is unethical. With that in mind, what is your office's advice for the hearing tomorrow concerning my attendance?

Do I not attend and risk a bench warrant or attend and risk a contempt charge? -- scott huminski

Hi Atty Neymotin,

Your office has performed zero work on the criminal matter and refuses anything and everything I have requested in support of my defense. Assign a different attorney or recuse your off the case. You are still responsible for the 2DCA matter.

Subject: Conflict counsel dodging appeal other misconduct

Hi Atty Neymotin,

Your office is responsible for handling this criminal appeal/petition. This is a criminal contempt case assigned to Z. Miller of your office. This appeal arises directly out of the criminal matter assigned to your office. I must also inform you that I am receiving ineffective assistance of counsel in the underlying criminal matter. The criminal case was pending in the Circuit Court for several months and then was "transferred" to County Court.

Please assign an attorney who knows the below law to my case and assign your appellate people to the appeal. See 2DCA docket below. The criminal case is frivolous and the order involved that I allegedly violated are patently unconstitutional and mandate surrender of constitutional rights -- exceptions to the Collateral Bar Rule, that your office has ignored.

THERE IS NO STATUTE, COURT RULE OR FL AUTHORITY THAT PROVIDES FOR A TRANSFER BETWEEN CIRCUIT AND COUNTY COURTS. YOUR OFFICE'S FAILURE TO RECOGNIZE THIS FUNDAMENTAL ISSUE IS WASTING THE TIME OF ALL AND CONSTITUTES CONDUCT PREJUDICIAL TO THE ADMINISTRATION OF JUSTICE AND wastes judicial resources.

Please recuse off this case if you do not have the staff expertise to handle the issues. Mr. Miller refuses to file motions I have requested based upon the above and other issues. -- scott huminski

Subject: Lee Sheriff medical staff felony abuse of a disabled adult, Complaint # 201944590 & 201994592

Another FOIA to the LCSO on the felony abuse of a disabled adult that may assist in the investigations pending against the Lee Sheriff's medical staff. See link below. At the link is a downloadable copy of all correspondences, to date, with the DOH concerning the LCSO medical staff.

I note that the LCSO was well aware of my disabled status based upon it's status as a defendant in Huminski v. Mike Scott, et. al. (aka Huminski v. Gilbert, et. al.), 17-CV-421, 20th Circuit, a lawsuit concerning the death threats issued to Huminski (2015-2017) from Trevor Nelson and/or Debra Riffel (while impersonating Officer Ryan Pillar) of Maricopa County, Arizona and the impersonation of Huminski by the same two individuals in letters sent to Officer Ryan Pillar (Gilbert, AZ Police) his parents and others in 2012-2015 approximately. Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

The decision to deny me medical services upon intake into the Lee Jails and to place me in solitary instead (along with previous complained of LCSO criminal conduct), was done with the knowledge that my age was approximately 60,

putting the LCSO and their medical staff on notice that felony abuse of an elderly and/or disabled adult was on the table. Of course, medical services or denial of medical services that constitute felony violations of F.S. § 825.102 are *per se* unethical under medical ethical guidelines. Crime is not a valid medical treatment or service. See this thread.

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hello,

The placement of myself in solitary prior to medical screening for an elderly fully disabled adult with chronic medical issues is a felony, F.S. § 825.102, by the LCSO.

AMERICAN OVERSIGHT

See statute excerpts (full statute below) concerning the immediate placement of myself into solitary in a 55 degree cell barefoot with only a thin t-shirt and shorts without any bedding that drove my body temperature down to 97.0, i.e. torture/malicious punishment.

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

These felonies are per se medical malpractice and caregiver malpractice as they are felonies against the elderly disabled. Thank you. --Scott huminski

Hi, I am in receipt of your recent letters.

I believe that the sheriff's medical staff lied about my medical record to gain State/Federal funding or grants, etc. concerning their lies input into my medical records.

I am not on Social Security Disability because of "street drug" use as lied to by the LCSO. I grant the FlHealth.gov power of attorney to access my first 5 years of medicare/social security records. I am on Social Security for joint issues, avascular necrosis, PTSD, Social Phobia, GAD. Now spinal stenosis and spinal disk degradation are added to the list.

I don't use "street drugs" as mentioned several times in the LCSO medical records. Medical marijuana and prescriptions filled at Walmart are not "street drugs". All of this is a lie, probably to secure funding or for some other improper motive.

False "street drug" information entered by the LCSO medical staff caused me to be place on "DETOX" for 10 days which prevented me from obtaining sleep medication for 10 days. Lies in medical records can cause injury. I once had a bogus allergy to penicillin sneak unto my records elsewhere and that led to my treatment with a lesser effective drug. False medical information is dangerous to the safety of the patient. During those first 10 days, I got 2-3 hours of sleep a night as a result of LCSO lies. Also felony abuse of a elderly disabled adult. See statute below.

Please do not hesitate to obtain the Social Security/medicare information related to the lies entered into my medical records. Power of attorney is granted to the Florida Department of Health and/or Ylonka Guzman Jimenez to obtain these records from the federal government.

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hi, I am writing to ascertain if more input from myself is required for the above board complaints.

Cutting my beta blockers 75% from 200 mg to 50 per day (with a less effective drug), when there was a recent hospitalization for transient ischemic attack (mini stroke) is not only unethical and a violation of medical norms (especially without initiating a physician / patient relationship) and blindly prescribing is abuse of a disabled adult. I have been on on SSDI for 10 years.

This is a felony in Florida and a federal civil rights crime (8th Amendment violation) punishable under federal civil rights crime statutes 18 USC 241, 242. Please refer this to the U.S. Attorney, the FDLE and the Florida and U.S. Attorney Generals. Thanks -- scott huminski

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Missing Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

I noticed that in the brief medical intake that occurred after my 8 hours in solitary in a 55 degree room (I was barefoot and clothed in a light t-shirt and shorts) there was no taking of vitals reported. The reason was that I was becoming hypothermic from the 8 hours of solitary in a cell without bedding, only concrete and steel existed in the cell. Deliberately causing physical harm is an assault and battery. Please forward this to the FDLE and U.S. Attorney. My temperature after solitary was 97 which they took but did not disclose in the records the jail produced.

The name of the pharmacy or pharmacist was not provided in the records. I never received the proper literature with any medications provided, a pharmacy error, which would have prevented the Redman Syndrome that caused me medical harm. Had I received the proper paperwork, as regular pharmacies provide, I would have alerted the staff of a toxic medication and I would have refused the offending medication(s). The level of prescribing secrecy and lack of pharmacy information provided to the patient about the drugs dispensed caused the problem.

My blood pressure was taken at least 10 times and recorded by individuals who dispensed medications (I don't know their professional information) and these records were not supplied. They document my out of control blood pressure. Thank you. -- scott huminski

Subject: Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

Hello, They finally released my records. I still don't know the professions of any of the names provided, i.e. doctor, nurse, aid, pharmacy tech, etc..

I gave no consent to anyone to stop existing medications or to consent for new medications upon intake to the jail.

I was arrested at approximately 10:30 and got to the Jail at the below time, noon, and immediately was put in solitary for 8 hours as the medical records reflect. If one has diabetes, seizures or many other problems, this custom of warehousing patients for up to 8 hours with no medical information taken could prove deadly to persons with medical issues. During this initial solitary there was no inquiry if i had food allergies or special/religious food needs and i was provided a meal blindly -- bologna on white. This is dangerous. I was never consulted with by a doctor concerning the vast changes in my medicines or never asked if I had questions for a pharmacist when medicines were dispensed. Note the 7:58 time on the medical history documenting the solitary.

AMERICAN OVERSIGHT

897183

I don't know and never met Andrew Grey, I don't know if this person is a doctor, nurse, pharmacist, and they never mentioned to me they were taking me off medications I have been on for 22 years. My only history of withdrawal was when I ended gabapentin for spine pain and sciatica a year earlier.

Kathy Verdes lied about drug abuse when she stated i take "street drugs" and this contradicts the walmart prescriptions verified on 2/19/2019 which had a xanax prescription. (see attached) I never had this issue and never told her I did. Alprazolam, xanax has been prescribed to me for 22 years, I take it as directed.

Huminski was deprived of all morning medications on 2/27/19 per entry of Karen Hergal, this is common, to get 12 hour medications at far longer or shorter intervals than required. This happened to me many times. There are also an entry of "denies all" that did not happen. Ms. Hergal lied about a history with street drugs.

Prior to administering the first doses of new medications, if I was told they were stopping the treatment that worked well for 22 years, patient should be allowed a consult with a pharmacist or doctor on the new medications.

Note that after side effects from HCTZ (or clonidine) was noted, the toxins that caused Red Man Syndrome (that i was prescribed deltasone for), on 2/19/19 they re-prescribed the toxin and it was delivered to me for a day or two until I noticed problems and I had to interrogate the person dispensing the pills and i had to deny the toxin. My declining the toxin is also in the attached.

Although my blood pressure had been recorded 10 or so times, the report on 2/14/2019 had a blood pressure of 153/114 p 136, revealing the ineffective treatment plan without concern for patient's 22 year history of successful blood pressure management. This is dangerous. I feel symptoms of tightness in chest/anxiety/fear when my blood pressure soars without adequate medical intervention. Elevated blood pressure can cause organ damage, stroke, heart issues and more. This negatively impacted my anxiety issues because I thought I might die from the extremely high (for me) blood pressure.

See entry of 07/08/2019 [sic] (the date is probably around 2/16/2019) where i emphasize my 20 years of successful medications and relatively good health.

On or about 2/18/2019 I spoke to a female guard via the intercom system and explained that I was given medications that made me ill and required medical intervention, she rudely stated "don't take pills you're not supposed to". I explained the pills were started without me knowing. This is misconduct.

2/27/2019 Brian Medlin lied that i was on social security for drugs problems. I am on social security for joint issues (hips, knees) and for PTSD, Social phobia and generalized anxiety disorder.

In summation, this is the worst medical treatment I have received in my entire life and, at 60 this year, it is the first time I spent in jail. -- scott huminski

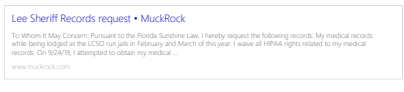
As you can see, the Sheriff is refusing to forward medical information because there are many problems with the medical treatment of patients at the Lee jail. I hereby grant the FL Health Department and their associated Medical and Pharmacy Boards power of attorney concerning my medical records being withheld by the sheriff. There are dangerous medical situations at the jail. Luckily, my experience wasn't fatal, the same might not be true in the future.

I have no knowledge of who the persons were dispensing the medication at the jail ... nurses, pharmacy techs, medical assistants, etc..



I waive all HIPAA rights/protections and my jail medical records may be posted online or shared by anyone to anyone at any time. Thank you.

Dear scott huminski:

Lee County Sheriff's Office received a public records request from you on October 03, 2019. You requested the following:

" To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.
Sincerely,
scott huminski

Your request has been received and is being processed.
Please Note: All requests are completed in the order in which they are received. Additional information or clarification may be needed to fulfill your request. Failure to provide additional information or clarification within 10 business days will cause your request to be canceled and closed out. You will then be required to submit a new request.
Research-intensive requests may require more than 10 business days to fulfill and may require a paid deposit before the request can be fulfilled. All deposit invoices are due upon receipt. Release of information requires payment in full. Additionally, any further requests may not be considered until unpaid invoices are paid in full.
Please contact our office immediately once requested information is no longer needed. Payment for completed requests prior to cancellation is expected. If you wish to pick up the request, please contact us in advance.
While use of GovQA for public records requests is not mandatory, requests submitted outside of the GovQA portal may delay the receipt of requested information.

Subject: IAIL Medical Board & Pharmacy Board Complaint # 201944146

Hello, I am in receipt of your letter of 10/11/2019.

The sheriff has ordered the medical staff to not supply various medications that are medically appropriate and necessary for patients. Thus, loyalty to the sheriff and his rules has trumped the medical staff's proper handling of the cases and limitations of FDA approved medications that can be prescribed to patients lodged at the sheriff's facilities pursuant to policies and procedures mandated by the sheriff. A potential case of unauthorized practice of medicine by the sheriff via his control over the doctors and medical staff working for him in Fort Myers. I consider the handling of my medical records request beginning with in-person visits on 9/24/2019 obstruction of justice related to the medical and pharmacy boards potential investigation into medical care at the Lee jails.

Allowing a sheriff to determine what medications can be prescribed by tying the hands of licensed medical professionals is corrupt. Solitary confinement without inquiring into the medical situation is a violation of medical ethics and norms. Withholding access to a physician for 5-7 days after blindly prescribing incorrect and outright toxic medications is a violation of medical ethics and professional guidelines. All persons lodged at these jails should have an immediate consultation with a physician to establish a proper patient - physician relationship, prior to prescribing, to save lives and maintain health.

The sheriff's office wrote as follows (see below) concerning (1) my attempt to obtain my medical records followed by (2) his classification of my 2nd request as a duplicate and finally (3) my request via the muckrock.com website which remains pending. I ask that you expedite this matter to avoid further medical harm to persons lodged in the Lee jails whereby doctors are prohibited from freely and without interference allowed to engage in the practice of medicine pursuant to their training and experience free of interference from the sheriff or his policies and procedures. -- scott huminski

Re: Public Records Request of October 03, 2019. Reference #: P038030-100319

Dear scott huminski:

Lee County Sheriff's Office received a request from you on October 03, 2019. You requested the following:
To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.
Sincerely,
scott huminski

I note that the personnel who dispensed the medications daily had no name tags and did not identify themselves as employees or subcontractors of any company. -- scott huminski

Complaint / Affidavit of Scott Huminski

NOW COMES, Scott Huminski ("Huminski"), and, under oath, hereby states, swears, complains and deposes as follows,

1) Twenty two years ago Huminski was prescribed Toprol ER for blood pressure and alprazolam for anxiety. Huminski has been on these medications to the present except when he was under the medical care of the Lee County Sheriff's Office ("LCSO") and their medical staff.
2) Prior to being placed on Toprol ER, Huminski tried diuretics and had severe side effects including Red Man Syndrome.
3) Huminski was arrested and lodged at the LCSO jails for 20 days in February and March of 2019 for failing to pay a fine for contempt of court.

AMERICAN OVERSIGHT

4) Upon arrest, Huminski was brought to jail and immediately put in solitary confinement without regard for his medical needs. After 8 hours in solitary, Huminski was interviewed by LCSO staff and Huminski supplied a list of his medications including alprazolam, Toprol ER and Lovaza..

5) LCSO chose to discontinue Huminski's medications without notifying him, without consent and without an interview/consultation by a physician.

6) Huminski had no contact with a Doctor until 5-7 days into his lodging with the LCSO, yet, all his medications were changed without seeing a doctor and without an inquiry into Huminski's medical history.

7) In the past Huminski had tried to substitute Metoprolol Succinate (Toprol ER), with Metoprolol Tartrate (Lopressor), a much more affordable medicine. Huminski found the Lopressor not effective and his private doctor advised the long-acting Toprol ER was superior.

8) Throughout his care under the LCSO and their Medical Doctor, Huminski's blood pressure soared for weeks until he finally was supplied Toprol ER. Huminski gets anxiety symptoms and an uncomfortable feeling in his chest when his blood pressure soars, which is what happened with the LCSO handling his health care.

9) For the first week of lodging with the LCSO, Huminski was given medications in a small dixie cup which Huminski presumed included medications he had been taking for the last 22 years and he was not

AMERICAN OVERSIGHT

informed that his medications had been stopped and/or modified without his consent or knowledge.

10) Along with soaring blood pressure, Huminski began experiencing symptoms of Red Man Syndrome over his entire body and eventually all his skin peeled off in a manner similar to sunburn.

11) Huminski, suspecting he was given medications that were ineffective or outright toxic to him, began to ask the nurse what the medications were and as it turns out he was told one medication was a "water pill" which Huminski still does not know the specific medication although he knows not to take this family of medicines from past experience and, similarly Huminski knew he had to take Toprol ER not Lopressor for his high blood pressure. Because of a refusal of the medical staff to inform patients of medication changes, potentially deadly results may occur at LCSO facilities.

12) Huminski began refusing the medication that had proven toxic to him in the past, but, knowing of this toxicity, the LCSO kept trying to dispense to him doses of the toxin.

13) Huminski believes the secrecy of the LCSO medical staff in not advising him that his medications were being withheld and that he was getting new medicines caused his soaring blood pressures and Red Man Syndrome. If a new medication plan was suggested to Huminski, he would have advised his physician of the problems with the new medications that he knew from past experiences.

AMERICAN OVERSIGHT

14) When Huminski saw a female physician at 5-7 days at the LCSO facility, he was prescribed a corticosteroid to relieve his Red Man symptoms although the diuretics were still provided to him which he had to continue to refuse. This is after he told the physician of his history with these medications.

15) Huminski believes no prescribing changes should be made without a doctor's consultation and a medical history taken to avoid side effects or allergies with medicines secretly provided to individuals. Even consultation by telephone with a physician would have eliminated these medical errors and provided the necessary medical history.

16) Huminski does not know the identity of the doctor(s) involved in his medical situation with the LCSO and his direct oral request for his records from the LCSO M.D. was refused.

17) On 9/24/19 Huminski attempted to get his medical records from the LCSO by visiting two LCSO locations without success.

18) Huminski has filed a freedom of information request to the LCSO to obtain his medical records and he is awaiting a response. See link, https://www.muckrock.com/foi/lee-county-36/lee-sheriff-records-request-81140/

19) Both the pharmacists and doctors involved with the LCSO know that new residents with LCSO do not get any consultation with a M.D. prior to initial prescribing of medicines or discontinuing medicines.

20) Although Huminski may or may not have had symptoms related to the sudden stopping of alprazolam, its clear from just looking at the

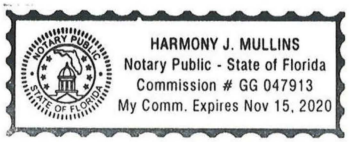
21) The LCSO physicians and pharmacist employees failed to "Do No Harm", by design of the system they work within.



22) Huminski waives all HIPAA rights related to his medical records held by the LCSO and these records may be made public to further transparency related to this rogue medical provider.

Shane,

OMNI Healthcare is testing upwards of 1,000 Floridians daily for Coronavirus, using five laboratories that have obtained EUA from the FDA. One of these labs is Diartherix located in Huntsville, AL and New York. OMNI has been sending specimens to this lab for two weeks. We have validated Diatherix's accuracy and turnaround time **(same day)** and this has been further documented in the attached WSJ article published 4/2/20. I have been asked to reach out to you to assist in maintaining Diatherix' supply chain.

From March 16th through today, Diatherix, has result reported over 35,000 COVID-19 results the same day as specimen receipt. This is due to that fact that Diatherix is a high throughput lab, servicing the US, with capabilities to receive and report on the same day up to 5000 specimens. Diatherix has over 10,000 unique physicians and 2000 individual hospitals or physician offices that have ordered this year. So far, they been able to provide the necessary testing supplies (swabs and tubes) as well as run the specimens in the lab without issues. They want to avoid an interruption of service through securing our most significant supply chain issues.

Like many healthcare companies and laboratories, Diatherix has entered a period of concern that could halt its COVID testing directly as a result of the inability to obtain key products. They have worked hard to find alternate solutions, each of which have to be evaluated and validated within the process to ensure accurate results. There are several that continue to provide concern, and they need help to protect their supply chains from those that seek to over-order and hoard these products. These needs include primers, reagents, plates, transport media, swabs and the other supplies necessary to support testing.

These numbers may appear as a standout volume because all 5000 tests per day utilize ThermoFisher's Kingfisher extraction equipment. For example, they use 8 cases per day of the Kingfisher DeepWell plates. Historical orders are about half of what we need now, as they have added more staff and equipment to try and keep up with the demands from the crisis.

Please let me know what information we can provide to help secure these products so that may continue to service the Floridians.

Good afternoon,

Please find attached a latest draft for review. It currently covers the following issues, although it will be amended shortly to add protocol waivers for physicians assistants (similar to number 2 below):

1. Licensed mental health interns without on-site supervision
   http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0400-0499/0491/Sections/0491.005.html
2. APRN protocol waivers
   http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0400-0499/0464/Sections/0464.012.html
3. Volunteer Health Care Provider Program waiver of new form for existing patients with new conditions
   http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0700-0799/0766/Sections/0766.1115.html
4. Telehealth providers in Florida to use audio-only telephone calls for existing patients if the patient doesn't have access to a smart device or computer;
   http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=456.47&URL=0400-0499/0456/Sections/0456.47.html
5. Allowing for audio-only telephone calls for prescribing of controlled substances for specific conditions if the patient doesn't have access to a smart device or computer;
   (same as #4)
6. Allowing for audio-only telephone calls for recertification orders of medical marijuana for existing patients if the patient doesn't have access to a smart device or computer;
   (same as #4) and

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Subject: Court filing re: Clerk Linda Doggett's forgery of court orders

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with

healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

AMERICAN OVERSIGHT

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal

contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: DOH investigation of Lee Sheriff Carmin Marceno"s medical staff, the back story
Date: Saturday, April 4, 2020 3:02:45 PM

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Subject: Court filing re: Clerk Linda Doggett's forgery of court orders

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal

contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: DOH investigation of Lee Sheriff Carmin Marceno"s medical staff, the back story
Date: Saturday, April 4, 2020 3:02:45 PM

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Subject: Court filing re: Clerk Linda Doggett's forgery of court orders

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with

healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal

contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Subject: Court filing re: Clerk Linda Doggett's forgery of court orders

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with

healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

AMERICAN OVERSIGHT

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal

contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

After 22 years of successful blood pressure control, these nurses stopped it, cold turkey, and secretly provided me with a known toxin. Had the nurses just told me *we are taking you off the medications prescribed by your* ***Doctor's, (M.D.'s)*** *and are giving you this new drug,* I would have objected and told them of my past experience with HCTZ. Because I was not alerted to the drastic change in my medications, I suffered extreme side effects and risked death from stroke or heart issues with my blood pressure out of control. Some organ damage occurred as is the case with virtually all hypertension cases.

Again, I pose the question after being on a successful blood pressure medication for 22 years, by **Doctors** not nurses, does a nurse abruptly stopping the life-preserving medication increase the risk of death? If so, this is attempted murder. Do medical ethics allow a nurse to trump the treatment of an M.D.?

These Nurses are still at it, believing they know better than M.D.'s, putting the lives of the people of Florida in jeopardy. see below, licenses (to kill) still in place with no disciplinary action. From day one my urine turned very cloudy and then after I kept unknowingly taking the toxin Red Man Syndrome occurred. Both classic side effects of HCTZ toxicity. All they had to do was to ask me if I ever had issued with HCTZ (a very common hypertension medication), because I wasn't on this drug because of side effects. The nurses should have told me of the addition of a drug I had problems with 22 years ago.

Nurses do not have the same education and training that a M.D. has. They should not recklessly disregard the treatment/medication plan of a licensed M.D.

These nurses can not continue to harm people. Please stop them. -- scott

Subject: DOH investigation re:Lee Sheriff Carmine Marceno's medical staff status

Hi, What is the status of these investigations? See below petition to stop the felony abuse of disabled adults by the Sheriff, please sign if you agree.

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by

AMERICAN OVERSIGHT

SCOTT HUMINSKI

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

AMERICAN OVERSIGHT

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

AMERICAN OVERSIGHT

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Subject: Court filing re: Clerk Linda Doggett's forgery of court orders

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of

AMERICAN OVERSIGHT

court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

AMERICAN OVERSIGHT

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

After 22 years of successful blood pressure control, these nurses stopped it, cold turkey, and secretly provided me with a known toxin. Had the nurses just told me *we are taking you off the medications prescribed by your* ***Doctor's, (M.D.'s)*** *and are giving you this new drug,* I would have objected and told them of my past experience with HCTZ. Because I was not alerted to the drastic change in my medications, I suffered extreme side effects and risked death from stroke or heart issues with my blood pressure out of control. Some organ damage occurred as is the case with virtually all hypertension cases.

Again, I pose the question after being on a successful blood pressure medication for 22 years, by **Doctors** not nurses, does a nurse abruptly stopping the life-preserving medication increase the risk of death? If so, this is attempted murder. Do medical ethics allow a nurse to trump the treatment of an M.D.?

These Nurses are still at it, believing they know better than M.D.'s, putting the lives of the people of Florida in jeopardy. see below, licenses (to kill) still in place with no disciplinary action. From day one my urine turned very cloudy and then after I kept unknowingly taking the toxin Red Man Syndrome occurred. Both classic side effects of HCTZ toxicity. All they had to do was to ask me if I ever had issued with HCTZ (a very common hypertension medication), because I wasn't on this drug because of side effects. The nurses should have told me of the addition of a drug I had problems with 22 years ago.

Nurses do not have the same education and training that a M.D. has. They should not recklessly disregard the treatment/medication plan of a licensed M.D.

These nurses can not continue to harm people. Please stop them. -- scott

Subject: DOH investigation re:Lee Sheriff Carmine Marceno's medical staff status

Hi, What is the status of these investigations? See below petition to stop the felony abuse of disabled adults by the Sheriff, please sign if you agree.

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by

AMERICAN OVERSIGHT

SCOTT HUMINSKI

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

AMERICAN OVERSIGHT

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

AMERICAN OVERSIGHT

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of

AMERICAN OVERSIGHT

court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

AMERICAN OVERSIGHT

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

After 22 years of successful blood pressure control, these nurses stopped it, cold turkey, and secretly provided me with a known toxin. Had the nurses just told me *we are taking you off the medications prescribed by your* ***Doctor's, (M.D.'s)*** *and are giving you this new drug,* I would have objected and told them of my past experience with HCTZ. Because I was not alerted to the drastic change in my medications, I suffered extreme side effects and risked death from stroke or heart issues with my blood pressure out of control. Some organ damage occurred as is the case with virtually all hypertension cases.

Again, I pose the question after being on a successful blood pressure medication for 22 years, by **Doctors** not nurses, does a nurse abruptly stopping the life-preserving medication increase the risk of death? If so, this is attempted murder. Do medical ethics allow a nurse to trump the treatment of an M.D.?

These Nurses are still at it, believing they know better than M.D.'s, putting the lives of the people of Florida in jeopardy. see below, licenses (to kill) still in place with no disciplinary action. From day one my urine turned very cloudy and then after I kept unknowingly taking the toxin Red Man Syndrome occurred. Both classic side effects of HCTZ toxicity. All they had to do was to ask me if I ever had issued with HCTZ (a very common hypertension medication), because I wasn't on this drug because of side effects. The nurses should have told me of the addition of a drug I had problems with 22 years ago.

Nurses do not have the same education and training that a M.D. has. They should not recklessly disregard the treatment/medication plan of a licensed M.D.

These nurses can not continue to harm people. Please stop them. -- scott

Subject: DOH investigation re:Lee Sheriff Carmine Marceno's medical staff status

Hi, What is the status of these investigations? See below petition to stop the felony abuse of disabled adults by the Sheriff, please sign if you agree.

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by

AMERICAN OVERSIGHT

SCOTT HUMINSKI

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

AMERICAN OVERSIGHT

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

AMERICAN OVERSIGHT

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of

AMERICAN OVERSIGHT

court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

AMERICAN OVERSIGHT

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

After 22 years of successful blood pressure control, these nurses stopped it, cold turkey, and secretly provided me with a known toxin. Had the nurses just told me *we are taking you off the medications prescribed by your* ***Doctor's, (M.D.'s)*** *and are giving you this new drug,* I would have objected and told them of my past experience with HCTZ. Because I was not alerted to the drastic change in my medications, I suffered extreme side effects and risked death from stroke or heart issues with my blood pressure out of control. Some organ damage occurred as is the case with virtually all hypertension cases.

Again, I pose the question after being on a successful blood pressure medication for 22 years, by **Doctors** not nurses, does a nurse abruptly stopping the life-preserving medication increase the risk of death? If so, this is attempted murder. Do medical ethics allow a nurse to trump the treatment of an M.D.?

These Nurses are still at it, believing they know better than M.D.'s, putting the lives of the people of Florida in jeopardy. see below, licenses (to kill) still in place with no disciplinary action. From day one my urine turned very cloudy and then after I kept unknowingly taking the toxin Red Man Syndrome occurred. Both classic side effects of HCTZ toxicity. All they had to do was to ask me if I ever had issued with HCTZ (a very common hypertension medication), because I wasn't on this drug because of side effects. The nurses should have told me of the addition of a drug I had problems with 22 years ago.

Nurses do not have the same education and training that a M.D. has. They should not recklessly disregard the treatment/medication plan of a licensed M.D.

These nurses can not continue to harm people. Please stop them. -- scott

Subject: DOH investigation re:Lee Sheriff Carmine Marceno's medical staff status

Hi, What is the status of these investigations? See below petition to stop the felony abuse of disabled adults by the Sheriff, please sign if you agree.

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by

AMERICAN OVERSIGHT

SCOTT HUMINSKI

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

AMERICAN OVERSIGHT

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

AMERICAN OVERSIGHT

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of

AMERICAN OVERSIGHT

court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

AMERICAN OVERSIGHT

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by **SCOTT HUMINSKI**

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years

AMERICAN OVERSIGHT

after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

Subject: DOH investigation of Lee Sheriff Carmin Marceno's medical staff, the back story

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Subject: Court filing re: Clerk Linda Doggett's forgery of court orders

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: DOH investigation re:Lee Sheriff Carmine Marceno"s medical staff status
Date: Tuesday, April 14, 2020 10:24:31 AM

Hi, What is the status of these investigations? See below petition to stop the felony abuse of disabled adults by the Sheriff, please sign if you agree.
https://sign.moveon.org/petitions/sean-hannity-s-and-rick-scott-s-best-sheriff-friend-in-big-trouble-doj-investigates-marceno#

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by **SCOTT HUMINSKI**

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf
https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years

AMERICAN OVERSIGHT

after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

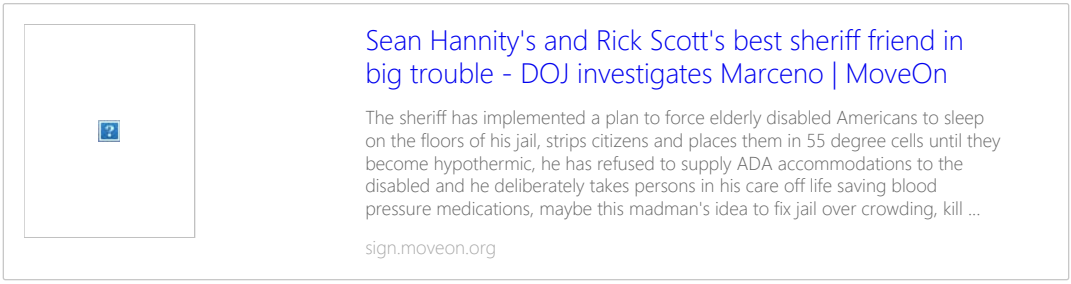
Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?



The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Hi, What is the status of these investigations? See below petition to stop the felony abuse of disabled adults by the Sheriff, please sign if you agree.

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by **SCOTT HUMINSKI**

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years

AMERICAN OVERSIGHT

after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

I left a message to get the status on the investigations of the Sheriff's medical staff's felony abuse of a disabled adult. Any news?

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

Here is the filing initiating a criminal contempt case against Linda Doggett for forging court orders and then certifying, under oath, to the 2 DCA that they are true and authentic originals. They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

TO: Florida Attorney General, Florida Governor

Sean Hannity's and Rick Scott's best sheriff friend in big trouble - DOJ investigates Marceno

Campaign created by **SCOTT HUMINSKI**

Initiate criminal investigations.

The Department of Justice has launched a civil rights investigation that could take years. There are a multitude of State crimes that can be charged and quickly bring this rogue Lee Sheriff Carmine Marceno to justice and protect the public from his illegal antics. Little time is left to prevent a death at the hands of Lee Sheriff Carmine Marceno (R).

DOJ letter followed by my reply per their request,

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

Why is this important?

The sheriff has implemented a plan to force elderly disabled Americans to sleep on the floors of his jail, strips citizens and places them in 55 degree cells until they become hypothermic, he has refused to supply ADA accommodations to the disabled and he deliberately takes persons in his care off life saving blood pressure medications, maybe this madman's idea to fix jail over crowding, kill them.

Florida Department of Health investigation against Lee Sheriff Carmine Marceno and his staff.

Prosecution phase begins

Subject: Why Amira Fox's sharia law is not good for Lee county or the USA

*** This letter constitutes core protected political expression, i.e. speech that is afforded the highest level of protection under the First Amendment, speech critical of government intending to create reform and change (re: Amira Fox's support of a AZ domestic terror cell and forgery of court orders) ***

There exists a domestic terror cell in Maricopa County, AZ that issued multiple and frequent death threats against Huminski and his family prior to the fall of 2012. AZ law enforcement was clueless and failed to execute a mental health pickup (Surprise, AZ police) of the leader of that terror cell, Justin M. Nelson. Thanks to police misconduct he hung himself at 36 years old because the mental health pickup was ignored. A human being is dead because of police corruption and negligence. I have no love for this guy, but he shouldn't have died because of police misconduct. See obituary.

http://www.rivernewsonline.com/main.asp?SectionID=3&SubSectionID=28&ArticleID=57106
or
https://www.dailypress.net/obituaries/2013/05/justin-michael-nelson/

With help of the terror cell members, Justin Nelson, Trevor Nelson, Debra Riffel and unknown others, the terror cell forced Huminski and family to move to escape the continued death threats in Arizona.

At last, the Huminski's escaped the terrorism by moving to Florida at great financial loss in 2012. Happy ending -- no. The AZ terror cell could not let it go.

Two years after moving, the Huminski's began receiving more terrorist death threats from the AZ terror cell, apparently in retaliation for their leader's suicide.

Then, came in the LCSO and U.S. Postal Inspector's service.

The USPIS has many of the letters given to them prior to opening, meaning that all forensic evidence therein including trace DNA, atmospheric evidence pointing to were the letters originated via dust, pollen, etc. that was sealed in the self adhesive stamps and envelopes was intact. Self adhesive stamps and envelopes create a nice way to forensically freeze time and pinpoint the origin of crimes perpetrated via the U.S. Mails. The forensic evidence revealed the origin of the interstate death threat letters transmitted by the terror cell. Every law enforcement agency involved knows where the death threats originated from via their analysis of the trace microscopic evidence. Inquire with m. cavic the so-called postal investigator in the distribution list above.

As we all know, in areas of the world governed by Sharia Law, State Attorney Amira Fox's ancestry, terrorists are held in high regard and are praised. The exact same honor she has placed upon the AZ terror cell, reverence, a feeling of praise and respect for a domestic terror cell willing to act as boldly as those in the middle east.

This is the law that has been implemented Lee County Florida by the highest law enforcement official in the County, Amira Fox. This is why terror tactics have been allowed to flourish in Lee County. The interstate transmission of terrorist death threats into Lee County by the U.S. Mails is music to the ears of Amira Fox.

Well, what do these terrorist death threats look like, see the sign posted in my front yard that contains the content of the terror cell death threats issued by the terror cell 2 years after the death of their leader. No resident of lee County should be forced to live like this. See Youtube video,

https://www.youtube.com/watch?v=-dJYlLMBLVk

Did Mike Scott push this acceptance of the transmission of terrorist death threats into Lee County, yes and no, only with the urging of Amira Fox. The same is true of his hand-appointed replacement, Carmine Marceno. A sheriff can not disobey the wishes of the top law enforcement official in the County. The former thin-skinned State's Attorney spent most of his time suing the press because they stated the truth about him, he probably had no time to worry about anything but his vanity.

The the brilliant LCSO thought, Huminski must be sending letters from Arizona to Lee County to himself. Such a brilliant thought after Huminski moved, at great cost, to distance himself from the Arizona terrorist cell. Motive? Or, is there a massive motive for the AZ terror cell to seek revenge for the death of their leader?

A listen to the recording of the polygraph given to Huminski, by the LCSO, regarding this outrageous and idiotic theory that Huminski, 2 years

AMERICAN OVERSIGHT

after leaving Arizona, sent death threat letters to himself from Arizona and in these letters Huminski impersonated Gilbert Arizona police officer Ryan Pillar is dispositive. During the polygraph, the corrupt polygraph cop, showed his frustration with Huminski's truthful responses by alleging Huminski was some sort of mastermind at defeating a polygraph. Typical tunnel vision of corrupt cops to achieve wrongful convictions. A normal human being would conclude Huminski was telling the truth. Lots of crime here, but, thanks to Amira Fox, the crime continues and is unpunished and ongoing, although the terror cell recently has been quiet, they can act at any time.

All know about the forgery of court orders under the supervision of Amira Fox set forth in these emails and below, so the story continues. How many more crimes does Lee County need under the guidance of Amira fox and is the support of a domestic terror cell proper conduct for a state's attorney, simply because this conduct is often praised in the land of her ancestors. It is one thing to respect your ancestors, according to reports, a P.L.O. terrorist leader, but, implementing these practices in the United States should be frowned upon. Certainly, conduct not worthy of election as a State's Attorney.

What happened last time when Huminski was confronted with a Nazi State's Attorney who won all his elections unopposed for 20 years?

In 2002, Huminski chose to run for State's Attorney in Bennington, Vermont on an anti-authoritarian platform. His opponent was the nominee of both the Republican and Democratic party- a weird fluke of VT law.

The result, Huminski garnered 21% of the popular vote at the election, the corrupt Nazi State's Attorney was easily defeated by a Democratic opponent at the next election. Let's hope it does not take 20 years to remove the fascist Amira Fox and her police state regime.

HOW DO WE KNOW AMIRA FOX IS A TERRORIST AKIN TO HER P.L.O. TERRORIST RELATIVES

Case, 17-mm-815, was initiated by a forged charging document, a document printed our from another court, hand-modified without a new judicial signature, and filed as an original by Clerk Linda Doggett. Terrorist Amira Fox had evey opportunity to dismiss or withdraw the forged charging document. What did she do, she was looking for blood, a pound of flesh, as is the custom in sharia law and countries ruled by this fascist form of law. She succeeded, I almost died. This evil woman has no respect for the American way, she only has the desire to bring despicable forms of oppression, Sharia Law, to the United States. Whether her motive is loyalty to another country, another way of life or something a bit more evil, her support of the forgery that is rampant at the Lee Courthouse is enough to earn her the classification as a terrorist. No Amira Fox, forgery of court orders is not the way justice is dispensed in the United States. If you disagree, leave or at the very least resign. Forgery is not how the United State courts operate.

Forgery pending in one of Amira Fox's biggest accomplishments,

The public can be the judge, here are two court filings regarding the forgery supported by Amira Fox (I will deal with her support of the Arizona domestic terror cell in a later filing). Be the judge, there are two charging documents in the below links, pick out the forgery, there are three judicial recusal orders, pick out the one authentic order.

Hint, in the charging documents (show cause orders) look at the court time and date stamps and look at the handwritten docket numbers. Prosecutor Amira Fox can't just take an order from one court, modify it and then file it in traffic court, family court, the supreme court, etc. and then state that the forged and copied order is a valid court order from a judge in 2 cases, 3 cases or 10 cases. Perhaps, I'm too concerned with detail, but, this is forgery, it is a crime. This evil woman must be removed from office, there is no blood lust in America that she so desires, she got her pound of flesh from attempting to kill me in her friend's, neo-nazi Carmine Marceno's Stalag, no more terror and suffering in this police state.

I guarantee the remaining members of the Arizona Terror Cell, Trevor Nelson, Debra Riffel and others are doing fine and ready to strike under the protection of Amira Fox. Do we need support of terrorists from a State's Attorney? Existing evidence shows this terror cell now has operatives in Lee County. No terrorism Amira Fox.

Here is the backstory on how they placed me in the clutches of this madman .... PERJURY BY COURT STAFF.

See the *per se* perjured papers that initiated the contempt of court case at the link in the below email to the FDLE. Every step of the way, gov't and official crime permeated this matter. Can't say various gov't agencies don't cooperate. A little too much order in the below court story.

They should put her away for life, imagine all the false imprisonment this evil woman has caused, what terror and human suffering that has been caused by her crimes. Her forged documents are at the end of the below court paper. It doesn't take a forensic expert to detect he felonies.

https://judgeelizabethvkrierleecountyflcorruption.files.wordpress.com/2017/06/linda-doggett-contempt-forgery.pdf

One thing for sure, she's fails at being a good white collar criminal, she leaves too much evidence and her forgeries were sloppy.

No new news on the justice department civil rights investigation or the investigation by the Fl. Dept. of Health of the sheriff's staff who engaged in felony abuse of a disabled adult.

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

I am thinking they may be medivac'd to FL?

Costa Magica and Costa Favolosa are north of Cuba heading north toward the U.S. Costa Magica has a crew member in critical condition (male, 32, Philippines, bilateral pneumonia)and in is need of urgent medical evacuation. The Company is coordinating with USCG to perform a medivac (details being worked). Magica has an additional 3 crew members who need medical support ashore and Favolosa has 5 crew members who need medical support ashore. The Company is also working a plan to repatriate ~300 EU, ~600 Philippine and ~250 Indonesia asymptomatic crew members later this week.

Good Morning all,

First let me say, thank you so much for what you all are doing. I understand this is an ever changing situation. I also understand that we are in this for an extended period of time.

I need to ask you a serious favor, we have got to get better coordination at the local level involving the state's messaging about cases. I would like to ask that I have a call this morning before the 1115 call, to discuss this process. I do not want this simple process to become a spectacle, so can we get a lead representative from from EM and the office of communications for DOH to discuss this issue this morning.

AMERICAN OVERSIGHT

Again, I understand you a are crazy busy, but I am actually trying to help ease some of the stresses in this event. We are very early in a long term event that will be impacting our state.

I appreciate your consideration in this.

Kevin, remember Deepwater Horizon? 

Keep up the great work.

Latest document request,

The sheriff refuses to acknowledge this request,

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Latest document request,

The sheriff refuses to acknowledge this request,

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott

Subject: Suicide or life in prison

This is the choice i am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Latest document request,

The sheriff refuses to acknowledge this request,

In this one that the sheriff has dodged, gave him the opportunity to provide cell and bunk assignments in the cell block I was put in to put to rest the fact that they made me sleep on the floor and that I was not provided an ADA compliant cell, toilet, sink and showering facilities. He refuses to supply the data because much of it does not exist, the bunk assignment for myself that they produced were manufactured. No one in the cell blocks i was lodged in were given a bunk assignment, it is first come first serve, if you are disabled and can't jump to the bunk 5 feet in the air, you sleep on the floor or fight to get the bunk that is more ADA compliant. The disabled stand no chance in prevailing in a fight with healthy residents half their age to get ADA compliance. This policy of the sheriff, if you want ADA accommodations, fight for them, is repulsive.

The LCSO has completely dodged this one. My muckrock account states no fees do to the corrupt sheriff.

Subject: another death threat and LCSO

An LCSO goon was banging on my door when i issued a notice against trespass months ago. So much for the rule of law.

I guess they figured out they can arrest me for dozens of crimes for communicating with the LCSO, allegedly indirect criminal contempt of court and now they are out for blood and now get one more crime if we answered the door to these nazis.

Oh, got another death threat over the weekend, can't report it, all communication with LCSO staff is barred by order of judge adams.

I reported the LCSO gag order at their jail and I was then tortured for telling the truth. Crimes punishable by one year in prison, with the number or counts here, i die in prison or not give them the pleasure and entertainment by ending my life. -- scott
