Thanks Chris. Don't see a need for a call, but my staff is still reviewing the Operations Plan and we'll get you any comments/w]questions we may have. From an initial review, only question is when Princess will need the terminal for crew/passenger CBP debark and clearance since the port and Princess will need to staff the terminal during that period, and there is conflicting information between the Princess Debarkation Plan and a separate schedule from CBP.

Subject: Request for Disembarkation from Caribbean Princess on 28 April 2020 Port Everglades for Charter flights departing from MIA

Dear LCDR Briggs and CDC Team,

Please accept our request to the Port Everglades Unified Command concerning the disembarkation of 193 well passengers and crew from Caribbean Princess (Argentinian and Peruvian Nationals/Residents) for two charter flights on Tuesday 28 April, 2020.

These charter flights have been organized by the Argentine and Peruvian Governments in conjunction with the US State Department to facilitate the return of these individuals to their home residences. Without these charter flights, these individuals would not have the opportunity to return home due to the current travel restrictions in place. Both governments requested we allow their citizens and legal residents on our ship to participate in these charters.

The charter flights are slated to depart on Tuesday morning at 0900 and so we are submitting this request as required (> 72 hours in advance). Everyone will be health screened prior to departure and they will be transported directly to Miami International Airport in private vehicle conveyances.

The required attestation document has been completed and is attached as our plan pends approval by the CDC.

Please don't hesitate to contact me if you have any questions or concerns with this request.

AMERICAN OVERSIGHT

Thank you for your consideration in the matter.

Subject: Request for Disembarkation from Caribbean Princess on 28 April 2020 Port Everglades for Charter flights departing from MIA

Dear LCDR Briggs and CDC Team,

Please accept our request to the Port Everglades Unified Command concerning the disembarkation of 193 well passengers and crew from Caribbean Princess (Argentinian and Peruvian Nationals/Residents) for two charter flights on Tuesday 28 April, 2020.

AMERICAN OVERSIGHT

These charter flights have been organized by the Argentine and Peruvian Governments in conjunction with the US State Department to facilitate the return of these individuals to their home residences. Without these charter flights, these individuals would not have the opportunity to return home due to the current travel restrictions in place. Both governments requested we allow their citizens and legal residents on our ship to participate in these charters.

The charter flights are slated to depart on Tuesday morning at 0900 and so we are submitting this request as required (> 72 hours in advance). Everyone will be health screened prior to departure and they will be transported directly to Miami International Airport in private vehicle conveyances.

The required attestation document has been completed and is attached as our plan pends approval by the CDC.

Please don't hesitate to contact me if you have any questions or concerns with this request.

Thank you for your consideration in the matter.

Best regards,

Thanks Chris. Don't see a need for a call, but my staff is still reviewing the Operations Plan and we'll get you any comments/w]questions we may have. From an initial review, only question is when Princess will need the terminal for crew/passenger CBP debark and clearance since the port and Princess will need to staff the terminal during that period, and there is conflicting information between the Princess Debarkation Plan and a separate schedule from CBP.

Gentlemen/Ladies,

I had Nancy Murphy speak to Ernie Reddick, with the Department of State, this morning and he tells me that they are going to have a skeleton crew over at the Capitol for the Florida Administrative Register (FAR) and Bureau of Administrative Code (BAC) filings. Most of our rulemaking (notices) are done electronically, so submission should not be a problem if it is done by the lawyers/paralegals from home. There will be issues with filing rules for final adoption because those still have to be done via hard copies. As of now, there will be someone over there to accept the hard copies for rule adoption. If access to the Capitol becomes an issue, Mr. Reddick has assured us he will let us in or will and find a way to meet us outside to receive the filings. We will keep you informed if and when anything changes.

Good morning, please find some proactive social media below for consideration. I think these would be really helpful messages to have on the DOH twitter.

1. It is vital to prevent the spread of illness to others, if you do not feel well. Please stay home! #COVID19 FloridaHealth.gov/COVID-19
2. Wash your hands often and thoroughly with soup and water for at least 20 seconds! Key times include after touching door handles and surfaces that are frequently touched by other people, or after coughing. FloridaHealth.gov/COVID-19.
3. Try to reduce how often you touch your face – your eyes, nose and mouth are the commonest routes of infection. This takes practice: most of us touch our faces 150 to 200 times per day. FloridaHealth.gov/COVID-19.
4. Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe can help prevent the spread of COVID-19. More prevention tips - http://www.floridahealth.gov/diseases-and-conditions/COVID-19/need-to-know/Prevention.html.
5. If you are experiencing symptoms such as fever, cough, or shortness of breath contact your health provider to decide the best course of action. For information, check out FloridaHealth.gov/COVID-19.
6. Helping prevent the spread of #COVID19 can be done through actions as simple as washing your hands. Learn more at our website, FloridaHealth.gov/COVID-19. We continue to carefully assess this situation as it progresses.
7. Play your part in preventing the spread of illnesses by taking preventative measures. Want to know more? Visit FloridaHealth.gov/COVID-19 for FAQs and discover helpful links.
8. Not sure where to turn for the latest travel notices? Visit https://bit.ly/2PRpjVQ to stay up-to-date on any restrictions which may affect your plans.

Subject: Suicide or life in prison

This is the choice I am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: Attempted murder, felony abuse of a disabled adult by Lee Sheriff Carmine Marceno - Justice Dept. investigating Civil Rights violations, FL DOH investigating

Original documents located at links below:

Please forward to the appropriate agencies, for obvious reasons, the Lee Sheriff has a major conflict here.

The Justice Department has opened a civil rights investigation against the Lee Sheriff Carmine Marceno involving torture and attempted murder of an elderly disabled adult lodged in the Lee Jail for failure to pay a contempt of court fine. Please forward this to the appropriate State agency for investigation. The Fl Dept of Health has also opened investigations against the Sheriff's Medical staff. see docs below.

DOJ civil rights investigation of Carmine Marceno
https://judgeelizabethyknierleecountyflcorruption.files.wordpress.com/2017/06/us-doj-investigation-lee-sheriff.pdf

DOJ forms completed with evidence received at the DOJ on 3/11/2020
https://judgeelizabethyknierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

In my above response to the DOJ (in an email) I posed the question to the FL DOH if taking a person, cold turkey, off blood pressure medications that he had been on for 22 years would increase the disabled elderly adult's risk of death. No answer was received, the answer is obvious. This conduct constitutes felony abuse of a disabled adult and perhaps attempted murder.

FL DOH documents and affidavit sparking the investigation.

Subject: FL AAG concedes statutory misdemeanor fines/fees were illegal

Which caused my incarceration for being poor and when no legal fine or fee existed.

Page 10 of gov't brief link below,

"Appellee concedes that imposition of the cost of prosecution was improper because contempt is a common law crime and the statutes governing contempt do not explicitly allow for the cost of prosecution to be imposed." AAG Chelsea Alper, esq..

The government brief is here. She conceded one fine/fee was illegal, when in reality, all fines and fees were illegal by the AAG's logic and correct interpretation of FL law.

Here is her full brief, the gov't and my own attorney seem to derive pleasure from insulting me.
https://edca.2dca.org/DcaDocs/2019/1914/2019-1914_Brief_540655_BC042020220Appellee20Answer20Brief.pdf

My main fear is: how many citizens have been abused like this and how many more will face corporal punishment and torture for being too poor to afford to pay fines/fees that are patently illegal, not supported by any FL law.

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 96, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: Huminski arrest and incarceration completely illegal

Hi DOH,

The crimes related to felony abuse of a disabled person began at the first hearing with Judge Krier in 2017, she colluded with Judge Adams to illegally move the case to county court because it was a so-called "misdemeanor", absolutely false see below emails detailing that contempt in most State's, including Florida and in federal court is a "*sui generis* common law offense". At the below link there are many cases from every DCA in Florida and from the FL Supreme Court.

https://scholar.google.com/scholar?hl=en&as_sdt=40006&q=contempt+sui+generis+florida&oq=sui

Every fine and fee that caused my incarcerated for not paying were illegal and unlawful.

Note the below correctly revealing that the arrest, toture and incarceration that led to the felony abuse of a disabled adult by the sheriff was completely illegal. Just simple google searches by a non-legal practitioner reveal incredibly bad motives, a frivolous prosecution and pure evil abuse of government power to advance a corrupt agenda. Ms. Alper is the Attorney General's attorney who is pursuing this wrongful agenda. The AG's office wants to cover this up, luckily they can not cover up for the sheriff's nurses. -- scott

Here's a break down of the fees and fines illegally charged by Judge Adams that caused my incarceration and felony abuse of a disabled adult by the sheriff. The arrest and incarceration was completely unlawful.

I was incarcerated and tortured by the sheriff and his staff for not paying completely illegal fines and fees and then summarily convicted for a probation violation for not paying the illegal fines and fees by Judge Adams. He is a danger to society. I did pay the $300 in probation fees because if I didn't the arrest warrant would have issued sooner and $50 a month was manageable.

Fine $500 under 775.083 **(e) $500, when the conviction is of a misdemeanor of the second degree or a noncriminal violation.**

Illegal for a sui generis common law offense, not a conviction, a judgment was rendered on a common law offense.

noun

1. a formal declaration that someone is guilty of a criminal offense, made by the verdict of a jury or the decision of a judge in a court of law.

Subject: Ms. Alper stop your collections activities while appeal is pending

Continuing to badger me for fines and fees (including a bogus misdemeanor fee) is fraud and illegal.

First the case involves a sui generis common law offense, not a misdemeanor, the fee is illegal.

This is the case law in most States including florida and in the federal system. Here's the results of a simple google search, have you done this search yet? See Ballengee below ("It is **sui generis** and is not, therefore, a crime ..."), it is un-defensible to charge criminal fines/fees for a non-crime. Just plain crazy, the state of the courts in the 20th circuit and lee county. Insanity. – scott

Subject: Lee Sheriff refuses Sunshine Law request and refuses all law enforcement services to resident of Lee County

My disabilities and extreme fear of being subjected to torture again by the Lee Sheriff only permit my communication with law enforcement via email which the sheriff prohibited. Judge Adams' orders prohibited LCSO contact already (all parties to the civil or criminal cases) and prohibits communication with Florida. Mr. Holloway did not have to repeat the words of Judge Adams just to harass, terrorize, harm and injure. NO CONTACT OR COMMUNICATION, I get it.

The only reason I felt confident in contacting the DOH is because Medical Doctors are not known for the same kind of Neanderthal behavior and wrongful shooting and killing of citizens. In fact, the medical profession is far more civilized.

The sheriff has no need to communicate this to me when it is already codified in the order of Judge Adams prohibiting all LCSO contact under threat of imprisonment. I believe Mr. Holloway chose to send this email merely to harass, terrorize and make it perfectly clear that the sheriff is excluding Huminski from law enforcement services. This causes me great anxiety and I have forgone reporting crimes that I have observed in Lee County, including the smoking of crack in the LCSO jail and curfew violations in my neighborhood after Irma.

I collected much information while in jail for the betterment of society, which will continue to be released. see below,

The order of Judge Adams mandating no contact with the LCSO remains pending appeal. My contact with you, as I explained previously is in your capacity with the County. It is criminal indirect contempt of court for me to have contact with the Sheriff or LCSO staff. See order of Judge Adams prohibiting such contact at the below link which was post on my door when I was arrested by your thugs.
https://judgeelizabethtyknerleecountyfcorruption.files.wordpress.com/2017/06/docs-on-door-for-lcso-gag-order.pdf

The sheriff has violated the Sunshine laws by not providing the arrest report from 2/12/19 and continues to do so. Latest document request is here, luckily the web address of the is not a LCSO address or I would have been prohibited from contact for sunshine requests as well.

Here is the latest request that you have ignored, now for the third time. Stating clarification needed for merely requesting the arrest report and any recordings during transport to jail requires no clarification. Here is the third request, what do you think you need to hide via violation of sunshine law requests?

Lee Sheriff Disabled Elder Abuse & torture
scott huminski is making this request to Lee County Sheriff's Office of Lee County.
www.muckrock.com

Please discontinue violations of sunshine law requests. Seems like the truth hurts, especially the State DOH investigation of the LCSO medical staff. Buy cheap, get cheap. Not a good policy for medical services, neither is your procedures that allow your nurses to override and trump the medical treatments and medications set forth by M.D.'s. In FL nurses can not act in violation of the orders of Medical Doctors. You get what you pay for, sub-standard medical treatment. I think you need to polygraph the guard who put me in solitary on 2/12/19 and, by doing so, engaged in felony abuse of a disabled adult. The reports you are hiding reveal the truth, I was not disorderly, I merely stated that judge adams issued a gag/no-contact order prohibiting all LCSO contact. You engaged in entrapment regarding criminal contempt of judge adams' order. I await my arrest for this so-called crime that occurred dozens of times during my incarceration. Obviously.

Why are you still obstructing the request for the arrest report and transportation recordings?

Are you shutting down sunshine requests from muckrock.com as well. I noticed that I can no longer request via the portal. -- scott huminski

Dear Mr. Huminski -

Please be advised that as of Monday, 02/17/2020, your emails to all Lee County Sheriff's Office email addresses will be sequestered by our Technical Services staff, and will not reach any LCSO email address.

Please do not assume your emails will be read or acted upon.

We simply do not have the staff or resources to wade through the mass of irrelevant, inaccurate, irrational and/or abusive content in your emails, in attempts to locate a legitimate concern or request.

Our duty to use taxpayers' funds reasonably and wisely requires we dedicate our limited resources to addressing legitimate concerns and requests.

Feel free to mail, call, or stop by should you have a specific legitimate request for assistance.

If you legitimately require police or medical emergency assistance, please call 911.

Be advised, if this access to LCSO facilities and staff is abused - as you have abused your email access - appropriate action will be taken to cause such abuse to cease.

If required, we will seek and obtain another court order directing you cease such contact, as well as monetary damages and attorneys fees as appropriate.

We wish you the best in your future endeavors.

Thank you for your cooperation.

Subject: New Sunshine Law/FOIA request and evidence re: Lee Sheriff felony abuse of a disabled adult and FL DOH/U.S. DOJ ADA investigations

New request that the sheriff has dodged two times previously,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-torture-88182/

Also attached are the documents taped to the door of my home at the time of arrest that alerted the LCSO that contact and communication with Huminski would violate Judge Adams' gag/no-contact order placing Huminski in criminal contempt of court. As stated in the above link, I also verbally informed the arresting deputy of the gag order preventing contact and communication with LCSO staff and he waived protection by the gag order. The documents were placed upon my door on 10/3/2018 and were visible by deputies that knocked on my door from 10/3/18 until the date of arrest.

I have the originals viewed by the LCSO arresting deputies with the tape still on them that attached them to my door.

Upon arrival at the Jail, after I mentioned the gag order to the jail staff and they started the "sovereign citizen" chant and the arresting deputy quickly left the room so that he would not interfere with the entertainment the jail staff was enjoying from the punishment and abuse of myself for mentioning the gag order.

The LCSO had knowledge that the gag order existed when they punished me with solitary in inhumane conditions for merely mentioning the existence of the patently insane/corrupt gag order instead of pulling up the case on the public court information system and then seeking legal advise on how to handle such a case whereby contact with any LCSO personnel is barred by court

AMERICAN OVERSIGHT

order. They chose a backwoods hillbilly style of justice instead of a concern to obey the law.

This is why the sheriff is refusing to produce the report from the arrest or any recordings made in the police cruiser while transporting to the jail. He is trying to cover-up the misconduct and crimes.

There is no law enforcement duty to create new crime (contempt of court) as was done in the instant matter, to the contrary, law enforcement should not engage in conduct that creates new crimes. -- scott huminski

Subject: DOI ADA Complaint, ADA violations at Lee County, Florida Jails

Hello,

I have been on complete SS disability for 10 years with avascular necrosis of knees and hips, bilateral hip replacements, gout, spinal stenosis, degenerative disk disease, open back surgery, hypertension, PTSD, anxiety disorder and social phobia. I was jailed for 3 weeks for not paying a contempt of court fine in Lee County, Florida 6 months after open back surgery while I was still experiencing post-surgical pain and disability. I was provided zero accommoadations, forced to sleep on the floor because I was physically unable to jump into a top bunk, no ADA compliant toilet/shower facilities. Transported in a school bus without handicap grab bars (I was handcuffed and chained to other inmates so grab bars may not have been helpful if they were available). My blood pressure and PTSD/anxiety medications were abruptly ended and I was place in solitary for 8 hours in only my underwear and shorts and barefoot in a 55 degree windy cell with only steel and concrete surfaces that plummeted my temperature to 97 degrees. Inmates wear thermal underwear and a fairly heavy jump suit. These acts are felony abuse of a disabled adult under State law, Florida statute 825.102, and patently clear ADA violations.

All disabled persons residing at the Lee jails are subjected to similar ADA violations.

Further, the sheriff has formal written rules in place that allow his nurses to override and trump any determinations of disability made by the Social Security administration and medical doctors to allow him to violate the ADA with a fraudulent determination by his nurses.

General counsel for the Florida Department of Health is prosecuting the medical personnel. I don't believe they are addressing the ADA issues. See links below that also contain contact info. for the officials involved in the DOH investigations. The FL DOH has extensive documentation on this issue and I waive all privacy and HIPAA rights concerning my medical records currently in the custody of the FL DOH and the DOH can forward all materials to the Dept. of Justice.

Subject: Lee sheriff medial staff Sunshine law production fraud and Courthouse corruption

I suppose I shouldn't be as critical of the sheriff printing out a document, hand-modifying it, and providing that as valid sunshine law production of documents in light of the following:

Clerk Linda Doggett, printed out a June 5 Circuit Court order from 17-ca-421 (the order was 119 pages long and originally filed in 17-ca-421 on 4/26/17) On June 30 of 2017,

04/26/2017	Order to Show Cause	119

She hand modified the order by adding a non-existent docket number and without a new judicial signature,

She processed it as a valid order received from a judge,

the court clerk then initiated a new criminal proceeding in Lee county court (17-mm-815) with a hand modified Circuit Court order without participation of a judge or prosecutor. A new low in courthouse corruption that initiated circumstances that led to the DOH and ADA issues now under investigation.

This clerk engaged in a litany of State and Federal crimes including, but not limited to, fraud, forgery, obstruction of justice and federal civil rights crimes by acting as a judge or prosecutor, the only entities that can initiate a prosecution.

To add insult to injury, Clerk Linda Doggett certified to the 2nd District Court of Appeal, under oath, that her forgery was a true and correct judicial order issued in the County Court. Nothing is further from the truth. The prosecutors and even my current counsel are OK with this fraud upon the appellate court.

Official crime is rampant in Lee County.

Below is a screen shot of the original 6/5 order (page 1) followed by the fraudulent forged one that Linda Doggett fraudulently filed as an authentic judicial order on June 30 which she boldly certified as authentic to the 2 DCA absent 116 pages with the forged docket number. Lots of government crime here makes one wonder if the sheriff was trying to kill me during my lodging at his facilities. He probably came close with the denial of my blood pressure medications.

True docketing of the order of the deficient order (sans 116 pages) in **Circuit Court**

06/05/2017	Order to Show Cause	3

Fraudulent docketing of the June 6 Circuit order on June 30 in **COUNTY COURT** (certified by crooked clerk to the DCA)

06/05/2017	Order to Show Cause Filed	3

The legitimate Circuit Court 6/5 order printed out by the clerk for the manufacture of the 6/30 fraud.

AMERICAN OVERSIGHT

Now the forged/fraudulent order of Clerk Dogget absent the required Judicial signature and proper caption. Note the double time stamp, an admission that it is not a genuine judicial order, rather, it is an order manufactured by the clerk. She is so sloppy, she didn't even correct the caption when forging her new order as she was initiating a new prosecution with her manufactured order in the COUNTY COURT not Circuit. She missed changing the caption to County Court. Criminals often make stupid mistakes when they are operating in their official capacity and believe they are unaccountable.

THESE COURTS HEAR DEATH PENALTY CASES, NOTHING CAN BE TRUSTED
especially when defense attorneys like Mr. Candela assist in the fraud upon the appellate courts.

Subject: Lee sheriff medal staff

This conduct in oklahoma, see below, is the exact same mindset of many of the female guards at the Lee jails including the one that responded on the intercom concerning my report of the Redman Syndrome from toxic medications supplied to me without my knowledge or consent. When she stated "don't take pills you're not supposed to", luckily for me, my situation was not life threatening unlike the unfortunate fellow below. After acknowledgement of the toxicity of one of the medications they supplied me with, they kept on trying to dispense the toxin to me and I had to interrogate the person dispensing medications until I was released.

Eventually, for some reason, they had me sign a form refusing the toxin instead of immediately removing the offending medication they swapped for my Toprol 200. This was probably to document that I was refusing medication when the opposite was true, I desperately wanted my blood pressure medication, not the medications concocted by these nurses who apparently believe a 5 minute interview gives them knowledge superior to a licensed doctor.

I had been under the care of physicians for 22 years, since when can a nurse with zero knowledge of my medical history trump the long-time treatment plan of medical doctors.

Upon intake, a patient should be asked if they are on total Social Security disability and be provided with ADA compliant lodging. If the sheriff has a problem with this he can sort out the disability situation with the Social Security administration and seek review of their determinations.

If a patient is on medications prescribe by a long-time family physician, a sheriff's nurses must not massively change the treatment plan without consulting the prescribing physician. These nurses who ignore the directions and advise of experienced MD's should not completely disregard the knowledge and wisdom of experienced doctors. Doctors place patients on medications for very good reasons after long-term knowledge of a patient that should not be altered by nurses working for law enforcement. At the very least they should have substituted 200 mg of metoprolol succinate with 200 mg of metoprolol tartrate (this medication is inferior for Huminski, but far better than the path they took). Had they inquired, I would have demanded the beta-blockers instead of water pills that I knew I had a problem with as far as side effects and it didn't help with my blood pressure. Further my PTSD, anxiety and blood pressure are linked to adrenal response which water pills do not address. No one inquired as to why I was on a fairly high dose of Toprol.

Subject: Lee sheriff lies and evades/dodges Sunshine Law requests

The sheriff claims the requests were unclear which is a lie. One request asks for bunk assignments of Huminski's cellmates. The other request asks for the police report concerning Huminski's arrest and transport to the Fort Myers jail, a two hour period whereby the arresting officer was quizzing Huminski while entering data into his computer. i.e. Distracted Driving and probably an accepted practice at the LCSO.

The first thing Huminski said to the officer informed him of the no-contact order of Judge Adams preventing communication with LCSO staff under penalty of imprisonment, the deputy then waived his protection by the gag orders and Huminski then responded to the questions. Upon arrival at jail, Huminski alerted the staff of the existence of the gag order, the staff repeatedly chanted "sovereign citizen" (whatever that is) and placed Huminski in solitary and engaged in felony abuse of a disabled adult. The arresting officer was present when the decision was made to place Huminski in solitary as a punishment for mentioning Judge Adam's gag order.

Many times the cover-up is worse than the crime. See the request's content in the below sheriff emails,

Dear SCOTT HUMINSKI,

Regarding the Media Request received on 1/20/2020 requesting records, the records have been in "Requested Clarification" status for 10 business days. The Lee County Sheriff considers this request closed. If you would still like the records, please submit another Media Request. Thank you for using the Public Records Center.

Request Details:

AMERICAN OVERSIGHT

Reference # M051080-012020

Description of Records Requested: The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Lee sheriff and the ADA

The Department of Justice (DOJ) regulates Title II of the Americans with Disabilities Act (ADA), which covers state and local governments. These public entities are responsible for the operation or management of juvenile and adult jails, detention and correctional facilities, whether they are operated directly by the state or local government, or through contracts, licenses, or other arrangements with other entities. (§35.151(k) and §35.152)

Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Accessible cells or housing units need to be available in all security classifications and/or program levels of a facility.

Unless it is appropriate to make an exception, public entities must not place inmates with disabilities in:

- Inappropriate security classifications because no accessible cells or beds are available;
- Medical areas unless they are actually receiving medical care or treatment;
- Facilities that do not offer the same programs as facilities where they otherwise would be housed; or
- Distant facilities where they would otherwise not be housed and that would deprive them of visitation with family members.
- Huminski was placed in a cell block without ADA compliant cells.

Minimum Requirements from the 2010 Standards (§35.151(k))

New construction of jails, prisons, and other detention and correctional facilities must comply with the 2010 ADA Standards for Accessible Design. At least 3% of cells must be accessible for individuals with mobility disabilities, including those who use wheelchairs. Accessible cells must be provided in each classification level.

At least 2% of the general holding and housing cells must be equipped with communication features designed to accommodate individuals who are deaf or hard of hearing. These features include telephones with volume control where telephones are provided in cells, and visible alarm signals where audible emergency alarm systems are provided for occupants of cells and occupants are allowed to evacuate independently. (Sections 232 and 807, ADA Standards)

Alterations to jails, prisons, and other detention and correctional facilities must also comply with the 2010 ADA Standards until new construction levels of access are achieved within the facility.

When alterations are made to specific cells, required features for mobility access may be provided in substitute cells (cells other than those where alterations are originally planned), as long as the substitute cell:

- Is located within the same prison site,
- Is integrated with other cells to the maximum extent feasible, and
- Has equal physical access to areas used by inmates or detainees for visitation, dining, recreation, educational programs, medical services, work programs, religious services, and other offered programs.

If it is technically infeasible to locate a substitute cell within the same prison site, the substitute cell may be provided at another prison within the same system.

Medical and long-term care facilities in detention and correctional facilities, whether they are licensed or not, are also subject to the 2010 ADA Standards for accessibility.

In passing the Americans with Disabilities Act ("ADA"), Congress noted that the isolation and segregation of persons with disabilities due to the discriminatory effects of physical barriers are a "serious and pervasive social problem," and there has been very little "legal recourse to redress such discrimination." The ADA lists several purposes, one of which is "to provide clear, strong, consistent enforceable standards" as part of a mandate to eliminate such discrimination. The ADA is modeled after section 504 of the Rehabilitation Act of 1973. A key difference is that while the Rehabilitation Act requires facilities that received federal funding to be accessible to persons with disabilities, Title III of the ADA applies to places of public accommodation specified by the ADA, regardless of the receipt of federal funding.

Under the ADA, new construction must be "readily accessible" to persons with disabilities. The new construction's "readily accessible" standard is met if the new construction or alteration is done in compliance with either the 1991 or the 2010 ADA Standards for Accessible Design. These standards include detailed, lengthy and technical specifications. In contrast, existing facilities must be made accessible to disabled persons if the changes are "readily achievable." The "readily achievable" standard for existing facilities is met by making alterations that are "easily accomplishable and able to be carried out without much difficulty or expense."

After its passage, Congress charged the Department of Justice ("DOJ") with implementing the ADA. One of the DOJ's ongoing tasks, in partnership with the Federal Access Board, is to create regulations to provide guidance for the enforcement of the ADA. Congress created the Federal Access Board in 1973 to ensure access to federally funded buildings, and it has become a "leading source of information on accessible design." The DOJ codifies the resulting regulations in the Code of Federal Regulations, and the appendices of that code further explain the regulations. In 1991, the Federal Access Board created the ADA Accessibility Guidelines ("the ADAAG"). The ADAAG were purely advisory to the DOJ and addressed new construction standards. The DOJ then sought public comment on the ADAAG, made applicable changes based on those comments, and finally adopted and codified the ADAAG as the official standards for the ADA. In 2010, the DOJ released a revised version, which became effective March 15, 2012.

Courts have upheld the "two distinct systems for regulating building accessibility: one to apply to existing facilities (those designed and constructed for occupancy before January 26, 1993) and another to apply to later-constructed facilities." Pre-existing or "grandfathered facilities" only need remove easily removed barriers. In contrast to grandfathered facilities, new construction violations are indefensible, unless there is a structural impracticability. A structural impracticability exists when "unique characteristics . . . make accessibility unusually difficult to achieve." Apart from structural impracticability, courts have no authority to apply equitable discretion in excusing the violation.

Overall, statutes, advisory and technical assistance materials, and case law work as a team to contribute to the goals of the ADA, voiced by President George H.W. Bush, "[E]very man, woman, and child with a disability can now pass through once-closed doors into a bright new era of equality, independence and freedom."

The Huminski was housed, transported and accessed portions of the Lee Jails built or significantly modified after January 26, 1993, as such, these areas of the Lee Jails must comply with the ADA and are not "grandfathered-in". There is very little or no attempt to comply with the ADA by the Lee Sheriff.

Some ADA accomodations are as follows:

Examples of "readily achievable" barrier removal that must complied with include, but are not limited to, the following actions (some of these were absolutely absent in Huminski's cell and during his transports between facilities in non-ADA compliant vehicles):

Installing ramps;

Making curb cuts in sidewalks and entrances;

Widening doors;

Installing offset hinges to widen doorways;

Installing accessible door hardware;

Installing grab bars in toilet stalls;

Installing a raised toilet seat;

Repositioning the paper towel dispenser in a bathroom;

Installing an accessible paper cup dispenser at an existing inaccessible water fountain;

Subject: Re: Lee sheriff foia/sunshine law fraud

In the attached, sheriff supplies 4 bed/bunk designations (A,B,1,10):

A = unknown
B = a handwritten notation added to the attached document at the time of production stating "B=bottom". A fraud, handwritten notes added at the time of production have no place in a FOIA/Sunshine law response. What is A then? The first several days I resided at the jail, there were not enough beds for the number of inmates, bunk designations, if there genuinely is such a thing, are meaningless in overcrowding situations. The sheriff does not enforce top or bottom bunk assignments.
1 = unknown
10 = unknown

Then a snippet of a nurse's comment from another alleged document was cut and pasted to the bottom of the attached production.

When I requested the original entire record/document that contained the nurse's bunk designation via another request,

THE SHERIFF RESPONDED . **No Documents Responsive to your Request** (see below) apparently there was fraud in the attached production and the lack of an originating document indicates that the nurse's bunk designation may have been manufactured by the sheriff to avoid negative consequences.

AMERICAN OVERSIGHT

A sheriff becoming evasive and deceptive in document production is a good sign of corruption and the desire to avoid consequences by dishonesty and fraud.

Describe the Record(s) Requested:
In your last production, you supplied an excerpt of a document or record detailing a nurse advising that I be assigned a bottom bunk. I need this in context of the full record, document or database. The nurses message on 2/13/2019 that you included in the document entitled Huminski_OMS_housing_R supplied by you on 1/17/2020 clearly indicates that the nurse's comments were cut and pasted from a document, record or database. For review of the document in context, I request the full document, record or database that the excerpt was taken from. Attached is a copy of what you produced which is something that was clearly manufactured from excerpts from an original document/record. Please supply the full document/record or database. Please see attached and provide an original full screenshot of the nurse's directions in context of the records above and below the nurse's comment.

Subject: Lee sheriff nurses acting without supervision by physician

It is impossible to believe that a physician supervised any of the medical staff at the Lee Sheriff's facilities because no Doctor would disturb 22 years of successful medication and completely yank a patient off all medications that worked perfectly for 22 years. The Toprol ER that was prescribed to Huminski had a dual purpose; one as an excellent blood pressure control and as an anti-anxiety medication. Because of Toprol's control of adrenaline, it helps mitigate Huminski's anxiety and related disabilities. For this reason Toprol is often prescribed for stage fright and anxiety issues. It is very helpful to Huminski and his handling and management of his disabilities.

> Propranolol and Toprol Used for short-term relief of social anxiety. May reduce some peripheral symptoms of anxiety, such as tachycardia and sweating, and general tension, can help control symptoms of stage *fright* and public-speaking fears, has few side effects.

It is my belief there was no supervising physician as required by statute at the Lee Sheriff's facilities. See below for nurse practitioners and physician assistants. No Physician would look at Huminski's medical history and recommend an ending of medications that worked perfectly for 22 years and take a risk of side effects when Huminski's long-time medicines were tolerated perfectly by Huminski and worked supremely well. The result of the Lee Sheriff's medical staff's experimentation with Huminski's medications met no protocol of a supervising physician, if there was a supervising doctor. No doctor would recommend the "cold turkey" ending of medications taken for 22 years and no written protocol exists supporting the conduct in the instant matter. Because of the lack of supervision or proper protocol, Huminski suffered increased severity of his PTSD, GAD and social phobia as well as soaring blood pressure that Huminski worried would cause a stroke, organ damage, heart issues or kill him.

Huminski was never offered a consultation with a physician, nor, did he know there was a physician available at the Lee Sheriff's facilities. The Redman Syndrome caused by the toxins prescribed to Huminski are not the product of negligence, they are the product of a mindset that the incarcerated are sub-human and don't deserve carefully thought out treatments and medications. It would not be surprising to find out that Huminski was prescribed the same medications given to all patients with hypertension at the Sheriff's facilities, a one size fits all mentality, which is not the case in the practice of medicine. Medical history is supremely important.

Nurse practitioner,
Practice Authority
A written protocol between an NP and the supervising physician is required. The degree and method of supervision that is determined by the NP and the physician must be specifically identified in the written protocol. General supervision by the physician is required and specified in the written protocol and must include a description of the duties of the NP, a description of the duties of the physician (which includes consultant and supervisory arrangements in case the physician is unavailable), the management areas for which the NP is responsible, a provision for annual review by the parties, and specific conditions and a procedure for identifying conditions that require direct evaluation or specific consultation by the physician. Fla. Admin. Code 64B9-4.010

Physician Assistant,
Supervision Requirements
The law outlines the exact means of responsible supervision. Direct supervision is not required, but the supervising physician must be easily available or be physically present for consultation. Fla. Admin. Rules 64B8-30.001(3), Fla. Stat. §459.022(f)

Subject: Lee sheriff retaliation, Gov't Answer Brief Due - 2 weeks

Attorneys Alper & Candela, Please note the answer brief in the 2 DCA is due on 2/12/2020. No extensions will be consented to. Mr. Candela, conflict yourself off the case please as I have legal malpractice claims against you for negligence proximately arising out of your refusal to file a motion to stay the sentence and all matters below pending appeal. The record is clear concerning the injury and damage caused by your failing to seek a stay; incarceration, torture and ADA violations by the Sheriff.

Below is my complaint to the U.N. concerning the human rights violations of the Lee Sheriff (the human right of free speech) and the current sheriff is the hand-picked replacement (buddy) for Sheriff Mike Scott (a defendant in Huminski v. Mike Scott et al, 17-ca-421, aka Huminski v. Gilbert),

A clever scheme by the sheriff to make himself litigation-proof by making the service of himself in the DCA and Florida Supreme Court a crime (contempt of Judge Krier's and Judge Adams' gag orders). AKA obstruction of justice via a prior restraint.

Tying my hands concerning service of papers, mandated by Rule, violates the First Amendment and Due Process and these activities are federal civil rights crimes.

Subject: Re: Lee sheriff more ADA violations

If a patient under the care of the Lee Sheriff suffers a medical emergency and is hospitalized, the fictional medical record manufactured by the sheriff can lead to medical errors. As I pointed out in a prior email, falsely reporting that someone is a smoker or IV street drug user as suggested by the falsehoods included in my erroneous medical records can harm and endanger the life of a patient is crisis.

Said errors could send doctors in a wrong direction when attempting diagnosis and alter treatment plans and medications potentially causing delay, harm, injury or death. Medical record errors may lead to the use of the least optimal medication, treatment or procedure.

I have reproduced below the email pointing out the sloppiness and careless/reckless disregard by the Lee Sheriff concerning medical record accuracy in medical records that he maintains, controls and disseminates pursuant to HIPAA regulations.

Subject: Re: Lee sheriff more ADA violations

None of the vehicles Huminski was transported in comply with ADA requirements for transport of the fully disabled.

Aggravating this fact is that while boarding and departing from transport, disabled patients are handcuffed and chained together while transported. During these transports, I was in fear of injury or death proximately arising from the complete absence of ADA accommodations during transport by the Lee Sheriff. --scott huminski

Subject: Re: Lee sheriff more ADA violations

Line items from medical records supplied by the sheriff that are lies followed by reality. This entire intake procedure took only a few minutes, the paperwork generated doesn't match the small interview. Thus the below false statements.

History of drug use ..... yes (absolutely did not state this to anyone, a lie)

Prior incarceration ..... yes (a lie)

Substance use disorder ..... yes (a lie)

Substance abuse ..... yes (a lie)
2/27
History of withdrawal ..... false (yes, i did withdraw from gabapentin prescribed for spine pain, the prior year, medication did not help)

Smoking ..... yes (false)

Street Drugs ..... yes (false, only take drugs prescribed by doctors and dispensed at Walmart or licensed dispensaries)

Brian Medin "he is on SSI for PTSD, drug issues (a bold faced lie regarding "drug issues", the PTSD portion is correct)

The Sheriff refuses to give flu shots to residents of his facilities. This violate the universal support of immunization in the medical profession and is medical malpractice. This policy creates a heightened danger to the elderly and violates the well-established precept of herd immunity. As his jails lodge patients for less than a year, un-vaccinated patients are release into the public everyday impacting high risk groups of the elderly or very young because of the Sheriff's negligence and medical malpractice.

Subject: Lee sheriff more ADA violations

The sheriff provide NO ada compliant toilet facilities without proper height commodes and without the required handicap grab bars.

Below are guidelines and information concerning the sheriff's disdain for the ADA and failure to provide ADA compliant bathroom facilities.

https://www.buildings.com/article-details/articleid/9242/title/the-ada-compliant-restroom

The shower facilities are similarly ADA non-compliant in every location Huminski resided in at the Lee Jails.

These ADA violations are especially egregious for persons with recent open back surgery such as Huminski.

The ADA-Compliant Restroom

Find out how to make your restroom ADA compliant in this article.

Subject: Lee sheriff new FOIA request

Media Request less than a minute ago
Provide the housing and bunk assignments of persons who shared a cell with Huminski for the first 10 days of his stay in the lee jails starting with 2/12/19. Huminski's cellbunk assignment was provided in the sheriff's 1/17/2020 production. Provide the same for Huminski's cellmates.

Status : Received

To view all requests go to
https://leecountysheriff.govqa.us/WEBAPP/_rs/Customerissues.aspx

User is s_huminski@live.com
password 123456

The sheriff will not be able to supply this as for the first 3 days, the cell blocks were overcrowded and there were not enough bunks for Huminski and approximately 10 others. No cell or bunk assignments were communicated by the sheriff. This is a per se ADA violation. The elderly disabled should not be treated like 3rd class citizens and made to sleep on the floor.

new FOIA
Media Request less than a minute ago
The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Re: Lee sheriff document production

Just like how the Lee Sheriff does not alert a patient that their life-sustaining medication that you have been on for 22 years is being completely ended putting one at risk of death and injury, the sheriff also maintains secrecy as to any assignment of bunks and no procedure exists for enforcement of bunk assignments.

The 2/13/2019 alleged medical record recently supplied is not in the original production of medical records supplied by the sheriff. I suspect fraud concerning this record. In either case, where-ever this document came from if it is not a fraud, these records are not supplied to inmates via any practice, policy or procedure adopted by the sheriff. Further what was supplied is a cut and pasted excerpt from a document that contains damning information that the sheriff wishes to keep secret.

While imprisoned, I asked the medical provider for my medical records and she denied the request. The medical records supplied related to these matters do not contain the cut and pasted bottom bunk directives.

In the Lee jails, bottom bunks are on a first come first serve basis and if there is a dispute the law of the jungle prevails -- might is right, where an elderly disabled person can not prevail regarding such confrontations with other inmates.

LEE SHERIFF supply the full document where the cut and pasted bunk assignment came from. Many times a cover-up is worse than the original transgressions. -- scott huminski

Subject: Lee sheriff foia

Regarding Lee sheriff fraud that I was assigned a bottom bunk. The sheriff does not provide this information to residents, if the document they provided is valid, it is kept secret from inmates. I would be happy to take a polygraph concerning any fact I have supplied related to these matters.

Subject: Lee Sheriff: Medical Ethics, Disability and Supremacy Clause violations

Mr. Candela,

Your failure to file a motion to stay the matters below pending appeal, thus, your negligence and malpractice, proximately caused me extreme injury and damage at the hands of the Sheriff and State's attorney.

I have retained an out-of-state law firm to prosecute you for legal malpractice. They are taking it on a contingency basis. 50% Suit will be filed after the government's answer brief in the 2 DCA. This is why I directed you to oppose any extensions requested by the government. I need(ed) relief from the government misconduct ASAP, a task that you failed.

We are also bringing an 42 U.S.C. § 1983 action against former State's Attorney Stephen Russell, State's Attorney Amira Fox and Anthony Kunasek. Judges may be added later.

The sheriff will also be a defendant in causes of action arising under 42 U.S.C. § 1983 and the Americans with Disabilities Act. Of course we have to deal with the gag orders of Judge Adams preventing service of the Sheriff (a defendant in Huminski v. Gilbert, et al., 17-ca-421). Your disdain for the First Amendment by not handling the bedrock First Amendment violations in the gag orders of Judge Krier, Judge McHugh and Judge Adams in your brief is noted. The gag orders are unconstitutionally vague, over-broad are a forbidden prior restraint and silence core protected political expression.

Thanks for setting me up for grave human rights violations.

Move to disqualify yourself from the 2 DCA appeal immediately. My online review of your misconduct should be sufficient to get you off the case.

The review is here at a permanent link,
https://web.archive.org/save/https://anthonycandelaattorneylawyerreviewtampaflorida.law.blog/

It is my moral and ethical duty to make sure you don't do this to anyone else. Again, I am forced to assume the role law enforcement should have handled, like the death threats from the Arizona terror cell (Trevor Nelson, Debra Riffel of Maricopa County) that instigated this series of events.

Subject: Lee Sheriff violates his own policies and procedures

Based upon further review, it has become clear that the sheriff engages in wholesale violations of the Americans with Disabilities Act (ADA) and for the safety of those still suffering in the Lee jails, the federal government should take control of these facilities to bring them back into compliance with federal law.

Why was I jailed? ... for failure to pay a contempt of court fine that I could not afford (debtor's prison). Good old fashioned justice. With Mr. Candela not helping by his refusal to stay matters while appeal was pending. The prosecutor's office knows all these facts and are just as liable.

Please forward relevant materials to the U.S. Attorney's Office for this District and to the U.S. Attorney General before death, injury or harm comes to person at these facilities because of the sheriff's disdain for the rule of law.

Time is of the essence. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Hi,
I began reviewing the production of today. I think this will yield a wide pot pouri of the sheriff's violations of his own policies and procedures. After 1 minute into my review the following came up revealing a complete disregard for his own policies concerning the fully disabled. Like myself -- on full social security disability for 10 years for mental and physical disabilities.

The sheriff knows bad things happen when one breaks the law, likewise, bad things happen when he violates his own policies and procedures. There would have been fewer ADA violations and felony abuse of an elderly disabled had the sheriff obeyed his own regulations concerning single cell occupancy had he just followed his own rules instead of making the disabled elderly sleep on the floor. If I was assigned a single cell per his policies, I wouldn't have had to sleep on the floor. Its not just me he abuses, he abuses every disabled person in his jail. If the ADA had criminal sanctions, the sheriff should be first in line. As my review continues, I will update. see below single occupancy policies.

In a collateral issue, here is a document evidencing the Lee Sheriff's/Judge's/Prosecutor's obstruction of service in a matter before the Florida Supreme Court,

Note that the order of Judge Adams made criminal any contact with the parties to the criminal and civil matters. This means the State of Florida. It is also in the above link. -- scott

Subject: threats

Mr. Candela, Your threats to me attempting to stop my reportage concerning the felony abuse of a disabled adult and collateral matters could be construed as obstruction of justice.

Please file a motion in the appeal to stay/enjoin the Florida collection activities and punishments while the case is on appeal. You failed to do this at the appropriate time causing my incarceration. This a very common appellate motion quite similar to a motion to release from custody while on appeal. I don't wish to be jailed again because of your failure to file proper and quite common motions at the proper time.

Just the fact that you are appointed does not mean you have to withhold filing of proper and necessary papers in court. You must treat appointed legal work with the same vigor as paying clients. Failure to do so is a violation of the rules of professional conduct and ethical precepts.

I don't know what is up with you, but, you refused my direct instructions to deny the request for enlargement of time and consented to the government delay. This conduct prejudices and injures me.

Subject: Huminski writ of prohibition/mandamus

Mr. Candela, I take your silence as a refusal to file a writ to prohibit collection activities by the State pending resolution of the appeal. I will file it in the next week. It will be less than a page long. A no-brainer. Let me know today if you have changed your position.

This issue may only be tangentially related to the Health Departments investigations. It is being provided to maintain context and this email is core protected political expression afforded the highest level of protection under the First Amendment. (see below link re: core protected political expression) Obviously all my speech is speech critical of the Sheriff, a candidate for public office. Seeking and obtaining the gag order is a serious crime under Title 18. See below criminal statutes.

Mr Holloway, as I have pointed out, all communications with you are in your capacity with the county, not LCSO. All contact with the LCSO is barred via the gag orders entered by Judge Adams. Gag orders requested by the sheriff that remain pending for life. This calls into question if the sheriff can hold office while denying public safety services to a resident (s) of the county he serves. I think not. This affront to the First Amendment, barring core protected political expression are federal crimes defined in
the Title criminal 18 links below as they violate Huminski's First Amendment right to criticize the sheriff and report criminal activity to the sheriff or his staff. One can not be a county sheriff and then pick and chose persons not eligible for public safety services based upon their opinions or the type of crimes they report.

Why did the sheriff seek to silence me? ... to cover up his support of the interstate transmission of terrorist death threat by the Nelson/Riffel domestic terror cell.-- scott

Subject: Lee Sheriff Foia re: DOH investigations, Complaint # 201944590 & 201994592

A new related Foia (sunshine law request) is here concerning the withholding of medical services,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84837/

I note that the sheriff failed to respond to the request of 12/12/19 with knowledge that I am seeking the information to forward to State agencies concerning the pending investigations. *Per se* obstruction of justice. The sheriff refuses to even acknowledge receipt of the information request.
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

It is unclear if the sheriff's department itself is licensed with the DOH in any capacity, although, they are the caretakers of medical records and in control of the privacy and dissemination of medical records consistent with HIPAA or similar state regulations/statutes. It certainly appears that jails should be regulated in a similar manner to nursing homes, hospitals and other care-giver entities. -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These documents support the retaliation as a motive behind the sheriff's felony abuse of a disabled adult. F.S. 825-102, and verify his obstruction of justice of the federal courts. (U.S. Bankruptcy Court, a unit of the U.S.D.C.) -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These felonies and *per se* medical ethics violations concerning the LCSO medical staff are retaliatory because Huminski exposed the crimes of the sheriff embodied in his request and receipt of a gag order that obstructed justice (including witness intimidation and tampering) of cases before the United States Bankruptcy Court, the Florida 2nd Circuit and Florida Supreme Court. At the most rudimentary level, the sheriff's gag order preventing service of himself and his office in cases where court rules, Due Process and other authorities mandated service of the sheriff are patently criminal obstruction of justice.

My certificates of service in the aforementioned tribunals clearly state that service was obstructed by the sheriff. Even service of the State of Florida was obstructed by the gag order obtained by the sheriff. See below documents and most specifically this one,
https://edca.2dca.org/DCADocs/2017/4740/174740_26_12182017_112120062_e.pdf

Here is a complaint filed with the United Nations on the topic

https://web.archive.org/web/20181031133103/https://judgepelizabethyklerieecountyflcorruption.files.wordpress.com/2017/06/un-human-rights-compl-2-converted.pdf

The obstruction of justice by the sheriff is undisputed and on the record see below links.

Subject: Fw: State's Atty Cover up felony obstruction by Sheriff Scott

The Sheriff obstructed service in the U.S. Bankruptcy Court (a unit of U.S. District Court), obstructed service in the 2DCA 2D17-4740, obstructed my attendance at a hearing in 17-CA-421 and is engaging in ongoing obstruction in 17-MM-815.

The sheriff procured a protective order for him and his staff that prohibits contact or communication. WITHOUT EXCEPTION. As such I am banished from the Lee Court complex in violation of Huminski v. Corsones, 396 F.3d 53 (2nd Cir. 2005). This and other issued are exhaustively documented in the below papers filed in the 2DCA.

Subject: Conflict counsel must recuse

Hi Atty Neymotin,

Your office has advised me to violate the Orders of Judge Krier. The protective order entered by Judge Krier prevents any contact with the Sheriff or his staff. As such, it is criminal contempt for me to interact with court security screeners and bailiffs at the lee court.

Advising me to violate the orders of the Circuit Court is unethical. With that in mind, what is your office's advice for the hearing tomorrow concerning my attendance?

Do I not attend and risk a bench warrant or attend and risk a contempt charge? -- scott huminski

Hi Atty Neymotin,

Your office has performed zero work on the criminal matter and refuses anything and everything I have requested in support of my defense. Assign a different attorney or recuse your off the case. You are still responsible for the 2DCA matter.

Neglect of a legal matter entrusted to your office is an ethical violation. -- scott huminski

Subject: Conflict counsel dodging appeal other misconduct

Hi Atty Neymotin,

Your office is responsible for handling this criminal appeal/petition. This is a criminal contempt case assigned to Z. Miller of your office. This appeal arises directly out of the criminal matter assigned to your office. I must also inform you that I am receiving ineffective assistance of counsel in the underlying criminal matter. The criminal case was pending in the Circuit Court for several months and then was "transferred" to County Court.

Please assign an attorney who knows the below law to my case and assign your appellate people to the appeal. See 2DCA docket below. The criminal case is frivolous and the order involved that I allegedly violated are patently unconstitutional and mandate surrender of constitutional rights -- exceptions to the Collateral Bar Rule, that your office has ignored.

THERE IS NO STATUTE, COURT RULE OR FL AUTHORITY THAT PROVIDES FOR A TRANSFER BETWEEN CIRCUIT AND COUNTY COURTS. YOUR OFFICE'S FAILURE TO RECOGNIZE THIS FUNDAMENTAL ISSUE IS WASTING THE TIME OF ALL AND CONSTITUTES CONDUCT PREJUDICIAL TO THE ADMINISTRATION OF JUSTICE AND wastes judicial resources.

Please recuse off this case if you do not have the staff expertise to handle the issues. Mr. Miller refuses to file motions I have requested based upon the above and other issues. -- scott huminski

Subject: Lee Sheriff medical staff felony abuse of a disabled adult, Complaint # 201944590 & 201994592

Another FOIA to the LCSO on the felony abuse of a disabled adult that may assist in the investigations pending against the Lee Sheriff's medical staff. See link below. At the link is a downloadable copy of all correspondences, to date, with the DOH concerning the LCSO medical staff.

I note that the LCSO was well aware of my disabled status based upon it's status as a defendant in Huminski v. Mike Scott, et. al. (aka Huminski v. Gilbert, et. al.), 17-CV-421, 20th Circuit, a lawsuit concerning the death threats issued to Huminski (2015-2017) from Trevor Nelson and/or Debra Riffel (while impersonating Officer Ryan Pillar) of Maricopa County, Arizona and the impersonation of Huminski by the same two individuals in letters sent to Officer Ryan Pillar (Gilbert, AZ Police) his parents and others in 2012-2015 approximately. Thank you. -- scott huminski

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

The decision to deny me medical services upon intake into the Lee Jails and to place me in solitary instead (along with previous complained of LCSO criminal conduct), was done with the knowledge that my age was approximately 60,

putting the LCSO and their medical staff on notice that felony abuse of an elderly and/or disabled adult was on the table. Of course, medical services or denial of medical services that constitute felony violations of F.S. § 825.102 are *per se* unethical under medical ethical guidelines. Crime is not a valid medical treatment or service. See this thread.

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hello,

The placement of myself in solitary prior to medical screening for an elderly fully disabled adult with chronic medical issues is a felony, F.S. § 825.102, by the LCSO.

AMERICAN OVERSIGHT

See statute excerpts (full statute below) concerning the immediate placement of myself into solitary in a 55 degree cell barefoot with only a thin t-shirt and shorts without any bedding that drove my body temperature down to 97.0, i.e. torture/malicious punishment.

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

These felonies are per se medical malpractice and caregiver malpractice as they are felonies against the elderly disabled. Thank you. --Scott huminski

Hi, I am in receipt of your recent letters.

I believe that the sheriff's medical staff lied about my medical record to gain State/Federal funding or grants, etc. concerning their lies input into my medical records.

I am not on Social Security Disability because of "street drug" use as lied to by the LCSO. I grant the FlHealth.gov power of attorney to access my first 5 years of medicare/social security records. I am on Social Security for joint issues, avascular necrosis, PTSD, Social Phobia, GAD. Now spinal stenosis and spinal disk degradation are added to the list.

I don't use "street drugs" as mentioned several times in the LCSO medical records. Medical marijuana and prescriptions filled at Walmart are not "street drugs". All of this is a lie, probably to secure funding or for some other improper motive.

False "street drug" information entered by the LCSO medical staff caused me to be place on "DETOX" for 10 days which prevented me from obtaining sleep medication for 10 days. Lies in medical records can cause injury. I once had a bogus allergy to penicillin sneak unto my records elsewhere and that led to my treatment with a lesser effective drug. False medical information is dangerous to the safety of the patient. During those first 10 days, I got 2-3 hours of sleep a night as a result of LCSO lies. Also felony abuse of a elderly disabled adult. See statute below.

Please do not hesitate to obtain the Social Security/medicare information related to the lies entered into my medical records. Power of attorney is granted to the Florida Department of Health and/or Ylonka Guzman Jimenez to obtain these records from the federal government.

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hi, I am writing to ascertain if more input from myself is required for the above board complaints.

Cutting my beta blockers 75% from 200 mg to 50 per day (with a less effective drug), when there was a recent hospitalization for transient ischemic attack (mini stroke) is not only unethical and a violation of medical norms (especially without initiating a physician / patient relationship) and blindly prescribing is abuse of a disabled adult. I have been on on SSDI for 10 years.

This is a felony in Florida and a federal civil rights crime (8th Amendment violation) punishable under federal civil rights crime statutes 18 USC 241, 242. Please refer this to the U.S. Attorney, the FDLE and the Florida and U.S. Attorney Generals. Thanks -- scott huminski

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Missing Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

I noticed that in the brief medical intake that occurred after my 8 hours in solitary in a 55 degree room (I was barefoot and clothed in a light t-shirt and shorts) there was no taking of vitals reported. The reason was that I was becoming hypothermic from the 8 hours of solitary in a cell without bedding, only concrete and steel existed in the cell. Deliberately causing physical harm is an assault and battery. Please forward this to the FDLE and U.S. Attorney. My temperature after solitary was 97 which they took but did not disclose in the records the jail produced.

The name of the pharmacy or pharmacist was not provided in the records. I never received the proper literature with any medications provided, a pharmacy error, which would have prevented the Redman Syndrome that caused me medical harm. Had I received the proper paperwork, as regular pharmacies provide, I would have alerted the staff of a toxic medication and I would have refused the offending medication(s). The level of prescribing secrecy and lack of pharmacy information provided to the patient about the drugs dispensed caused the problem.

My blood pressure was taken at least 10 times and recorded by individuals who dispensed medications (I don't know their professional information) and these records were not supplied. They document my out of control blood pressure. Thank you. -- scott huminski

Hello, They finally released my records. I still don't know the professions of any of the names provided, i.e. doctor, nurse, aid, pharmacy tech, etc..

I gave no consent to anyone to stop existing medications or to consent for new medications upon intake to the jail.

I was arrested at approximately 10:30 and got to the Jail at the below time, noon, and immediately was put in solitary for 8 hours as the medical records reflect. If one has diabetes, seizures or many other problems, this custom of warehousing patients for up to 8 hours with no medical information taken could prove deadly to persons with medical issues. During this initial solitary there was no inquiry if i had food allergies or special/religious food needs and i was provided a meal blindly -- bologna on white. This is dangerous. I was never consulted with by a doctor concerning the vast changes in my medicines or never asked if I had questions for a pharmacist when medicines were dispensed. Note the 7:58 time on the medical history documenting the solitary.

I don't know and never met Andrew Grey, I don't know if this person is a doctor, nurse, pharmacist, and they never mentioned to me they were taking me off medications I have been on for 22 years. My only history of withdrawal was when I ended gabapentin for spine pain and sciatica a year earlier.

Kathy Verdes lied about drug abuse when she stated i take "street drugs" and this contradicts the walmart prescriptions verified on 2/19/2019 which had a xanax prescription. (see attached) I never had this issue and never told her I did. Alprazolam, xanax has been prescribed to me for 22 years, I take it as directed.

Huminski was deprived of all morning medications on 2/27/19 per entry of Karen Hergal, this is common, to get 12 hour medications at far longer or shorter intervals than required. This happened to me many times. There are also an entry of "denies all" that did not happen. Ms. Hergal lied about a history with street drugs.

Prior to administering the first doses of new medications, if I was told they were stopping the treatment that worked well for 22 years, patient should be allowed a consult with a pharmacist or doctor on the new medications.

Note that after side effects from HCTZ (or clonidine) was noted, the toxins that caused Red Man Syndrome (that i was prescribed deltasone for), on 2/19/19 they re-prescribed the toxin and it was delivered to me for a day or two until I noticed problems and I had to interrogate the person dispensing the pills and i had to deny the toxin. My declining the toxin is also in the attached.

Although my blood pressure had been recorded 10 or so times, the report on 2/14/2019 had a blood pressure of 153/114 p 136, revealing the ineffective treatment plan without concern for patient's 22 year history of successful blood pressure management. This is dangerous. I feel symptoms of tightness in chest/anxiety/fear when my blood pressure soars without adequate medical intervention. Elevated blood pressure can cause organ damage, stroke, heart issues and more. This negatively impacted my anxiety issues because I thought I might die from the extremely high (for me) blood pressure.

See entry of 07/08/2019 [sic] (the date is probably around 2/16/2019) where i emphasize my 20 years of successful medications and relatively good health.

On or about 2/18/2019 i spoke to a female guard via the intercom system and explained that I was given medications that made me ill and required medical intervention, she rudely stated "don't take pills you're not supposed to". I explained the pills were started without me knowing. This is misconduct.

2/27/2019 Brian Medlin lied that i was on social security for drugs problems. I am on social security for joint issues (hips, knees) and for PTSD, Social phobia and generalized anxiety disorder.

In summation, this is the worst medical treatment I have received in my entire life and, at 60 this year, it is the first time I spent in jail. -- scott huminski

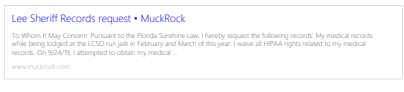
As you can see, the Sheriff is refusing to forward medical information because there are many problems with the medical treatment of patients at the Lee jail. I hereby grant the FL Health Department and their associated Medical and Pharmacy Boards power of attorney concerning my medical records being withheld by the sheriff. There are dangerous medical situations at the jail. Luckily, my experience wasn't fatal, the same might not be true in the future.

I have no knowledge of who the persons were dispensing the medication at the jail ... nurses, pharmacy techs, medical assistants, etc..



I waive all HIPAA rights/protections and my jail medical records may be posted online or shared by anyone to anyone at any time. Thank you.

Dear scott huminski:

Lee County Sheriff's Office received a public records request from you on October 03, 2019. You requested the following:

" To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.
Sincerely,
scott huminski

Your request has been received and is being processed.
Please Note: All requests are completed in the order in which they are received. Additional information or clarification may be needed to fulfill your request. Failure to provide additional information or clarification within 10 business days will cause your request to be canceled and closed out. You will then be required to submit a new request.
Research-intensive requests may require more than 10 business days to fulfill and may require a paid deposit before the request can be fulfilled. All deposit invoices are due upon receipt. Release of information requires payment in full. Additionally, any further requests may not be considered until unpaid invoices are paid in full.
Please contact our office immediately once requested information is no longer needed. Payment for completed requests prior to cancellation is expected. If you wish to pick up the request, please contact us in advance.
While use of GovQA for public records requests is not mandatory, requests submitted outside of the GovQA portal may delay the receipt of requested information.

Subject: IAIL Medical Board & Pharmacy Board Complaint # 201944146

Hello, I am in receipt of your letter of 10/11/2019.

The sheriff has ordered the medical staff to not supply various medications that are medically appropriate and necessary for patients. Thus, loyalty to the sheriff and his rules has trumped the medical staff's proper handling of the cases and limitations of FDA approved medications that can be prescribed to patients lodged at the sheriff's facilities pursuant to policies and procedures mandated by the sheriff. A potential case of unauthorized practice of medicine by the sheriff via his control over the doctors and medical staff working for him in Fort Myers. I consider the handling of my medical records request beginning with in-person visits on 9/24/2019 obstruction of justice related to the medical and pharmacy boards potential investigation into medical care at the Lee jails.

Allowing a sheriff to determine what medications can be prescribed by tying the hands of licensed medical professionals is corrupt. Solitary confinement without inquiring into the medical situation is a violation of medical ethics and norms. Withholding access to a physician for 5-7 days after blindly prescribing incorrect and outright toxic medications is a violation of medical ethics and professional guidelines. All persons lodged at these jails should have an immediate consultation with a physician to establish a proper patient - physician relationship, prior to prescribing, to save lives and maintain health.

The sheriff's office wrote as follows (see below) concerning (1) my attempt to obtain my medical records followed by (2) his classification of my 2nd request as a duplicate and finally (3) my request via the muckrock.com website which remains pending. I ask that you expedite this matter to avoid further medical harm to persons lodged in the Lee jails whereby doctors are prohibited from freely and without interference allowed to engage in the practice of medicine pursuant to their training and experience free of interference from the sheriff or his policies and procedures. -- scott huminski

I note that the personnel who dispensed the medications daily had no name tags and did not identify themselves as employees or subcontractors of any company. -- scott huminski

Subject: Suicide or life in prison

This is the choice I am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these thugs will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: Attempted murder, felony abuse of a disabled adult by Lee Sheriff Carmine Marceno - Justice Dept. investigating Civil Rights violations, FL DOH investigating

Original documents located at links below:

Please forward to the appropriate agencies, for obvious reasons, the Lee Sheriff has a major conflict here.

The Justice Department has opened a civil rights investigation against the Lee Sheriff Carmine Marceno involving torture and attempted murder of an elderly disabled adult lodged in the Lee Jail for failure to pay a contempt of court fine. Please forward this to the appropriate State agency for investigation. The Fl Dept of Health has also opened investigations against the Sheriff's Medical staff. see docs below.

DOJ civil rights investigation of Carmine Marceno

https://judgeelizabethyknierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

In my above response to the DOJ (in an email) I posed the question to the FL DOH if taking a person, cold turkey, off blood pressure medications that he had been on for 22 years would increase the disabled elderly adult's risk of death. No answer was received, the answer is obvious. This conduct constitutes felony abuse of a disabled adult and perhaps attempted murder.

FL DOH documents and affidavit sparking the investigation.

Subject: FL AAG concedes statutory misdemeanor fines/fees were illegal

Which caused my incarceration for being poor and when no legal fine or fee existed.

Page 10 of gov't brief link below,

"Appellee concedes that imposition of the cost of prosecution was improper because contempt is a common law crime and the statutes governing contempt do not explicitly allow for the cost of prosecution to be imposed." AAG Chelsea Alper, esq..

The government brief is here. She conceded one fine/fee was illegal, when in reality, all fines and fees were illegal by the AAG's logic and correct interpretation of FL law.

Here is her full brief, the gov't and my own attorney seem to derive pleasure from insulting me.
https://edca.2dca.org/DcaDocs/2019/1914/2019-1914_Brief_540655_BC042020220Appellee20Answer20Brief.pdf

My main fear is: how many citizens have been abused like this and how many more will face corporal punishment and torture for being too poor to afford to pay fines/fees that are patently illegal, not supported by any FL law.

Thanks, --scott huminski

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 96, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: Huminski arrest and incarceration completely illegal

Hi DOH,

The crimes related to felony abuse of a disabled person began at the first hearing with Judge Krier in 2017, she colluded with Judge Adams to illegally move the case to county court because it was a so-called "misdemeanor", absolutely false see below emails detailing that contempt in most State's, including Florida and in federal court is a "*sui generis* common law offense". At the below link there are many cases from every DCA in Florida and from the FL Supreme Court.

https://scholar.google.com/scholar?hl=en&as_sdt=40006&q=contempt+sui+generis+florida&oq=sui

Every fine and fee that caused my incarcerated for not paying were illegal and unlawful.

Note the below correctly revealing that the arrest, toture and incarceration that led to the felony abuse of a disabled adult by the sheriff was completely illegal. Just simple google searches by a non-legal practitioner reveal incredibly bad motives, a frivolous prosecution and pure evil abuse of government power to advance a corrupt agenda. Ms. Alper is the Attorney General's attorney who is pursuing this wrongful agenda. The AG's office wants to cover this up, luckily they can not cover up for the sheriff's nurses. -- scott

Here's a break down of the fees and fines illegally charged by Judge Adams that caused my incarceration and felony abuse of a disabled adult by the sheriff. The arrest and incarceration was completely unlawful.

I was incarcerated and tortured by the sheriff and his staff for not paying completely illegal fines and fees and then summarily convicted for a probation violation for not paying the illegal fines and fees by Judge Adams. He is a danger to society. I did pay the $300 in probation fees because if I didn't the arrest warrant would have issued sooner and $50 a month was manageable.

Fine $500 under 775.083 **(e) $500, when the conviction is of a misdemeanor of the second degree or a noncriminal violation.**

Illegal for a sui generis common law offense, not a conviction, a judgment was rendered on a common law offense.

noun

1. a formal declaration that someone is guilty of a criminal offense, made by the verdict of a jury or the decision of a judge in a court of law.

Conviction

The outcome of a criminal prosecution which concludes in a judgment that the defendant is guilty of the crime charged. The juncture of a criminal proceeding during which the question of guilt is ascertained. In a case where the perpetrator has been adjudged guilty and sentenced, a record of the summary proceedings brought pursuant to any penal statute before one or more justices of the peace or other properly authorized persons.

conviction - Dictionary Definition : Vocabulary.com

In the legal world, when a judge or jury convicts someone of a crime — finding them guilty — this is called a conviction. Prosecutors try to get convictions, and defense attorneys try to prevent them. Also, convictions are beliefs — principles.

Continuing to badger me for fines and fees (including a bogus misdemeanor fee) is fraud and illegal.

First the case involves a sui generis common law offense, not a misdemeanor, the fee is illegal.

This is the case law in most States including florida and in the federal system. Here's the results of a simple google search, have you done this search yet? See Ballengee below ("It is **sui generis** and is not, therefore, a crime ..."), it is un-defensible to charge criminal fines/fees for a non-crime. Just plain crazy, the state of the courts in the 20th circuit and lee county. Insanity. – scott

Subject: Lee Sheriff refuses Sunshine Law request and refuses all law enforcement services to resident of Lee County

My disabilities and extreme fear of being subjected to torture again by the Lee Sheriff only permit my communication with law enforcement via email which the sheriff prohibited. Judge Adams' orders prohibited LCSO contact already (all parties to the civil or criminal cases) and prohibits communication with Florida. Mr. Holloway did not have to repeat the words of Judge Adams just to harass, terrorize, harm and injure. NO CONTACT OR COMMUNICATION, I get it.

The only reason I felt confident in contacting the DOH is because Medical Doctors are not known for the same kind of Neanderthal behavior and wrongful shooting and killing of citizens. In fact, the medical profession is far more civilized.

The sheriff has no need to communicate this to me when it is already codified in the order of Judge Adams prohibiting all LCSO contact under threat of imprisonment. I believe Mr. Holloway chose to send this email merely to harass, terrorize and make it perfectly clear that the sheriff is excluding Huminski from law enforcement services. This causes me great anxiety and I have forgone reporting crimes that I have observed in Lee County, including the smoking of crack in the LCSO jail and curfew violations in my neighborhood after Irma.

I collected much information while in jail for the betterment of society, which will continue to be released. see below,

The order of Judge Adams mandating no contact with the LCSO remains pending appeal. My contact with you, as I explained previously is in your capacity with the County. It is criminal indirect contempt of court for me to have contact with the Sheriff or LCSO staff. See order of Judge Adams prohibiting such contact at the below link which was post on my door when I was arrested by your thugs.
https://judgeelizabethbykrierleecountycorruption.files.wordpress.com/2017/06/docs-on-door-for-lcso-gag-order.pdf

The sheriff has violated the Sunshine laws by not providing the arrest report from 2/12/19 and continues to do so. Latest document request is here, luckily the web address of the is not a LCSO address or I would have been prohibited from contact for sunshine requests as well.

Here is the latest request that you have ignored, now for the third time. Stating clarification needed for merely requesting the arrest report and any recordings during transport to jail requires no clarification. Here is the third request, what do you think you need to hide via violation of sunshine law requests?

Lee Sheriff Disabled Elder Abuse & torture
scott huminski is making this request to Lee County Sheriff's Office of Lee County.
www.muckrock.com

Please discontinue violations of sunshine law requests. Seems like the truth hurts, especially the State DOH investigation of the LCSO medical staff. Buy cheap, get cheap. Not a good policy for medical services, neither is your procedures that allow your nurses to override and trump the medical treatments and medications set forth by M.D.'s. In FL nurses can not act in violation of the orders of Medical Doctors. You get what you pay for, sub-standard medical treatment. I think you need to polygraph the guard who put me in solitary on 2/12/19 and, by doing so, engaged in felony abuse of a disabled adult. The reports you are hiding reveal the truth, I was not disorderly, I merely stated that judge adams issued a gag/no-contact order prohibiting all LCSO contact. You engaged in entrapment regarding criminal contempt of judge adams' order. I await my arrest for this so-called crime that occurred dozens of times during my incarceration. Obviously.

Why are you still obstructing the request for the arrest report and transportation recordings?

Are you shutting down sunshine requests from muckrock.com as well. I noticed that I can no longer request via the portal. -- scott huminski

Dear Mr. Huminski -

Please be advised that as of Monday, 02/17/2020, your emails to all Lee County Sheriff's Office email addresses will be sequestered by our Technical Services staff, and will not reach any LCSO email address.

Please do not assume your emails will be read or acted upon.

We simply do not have the staff or resources to wade through the mass of irrelevant, inaccurate, irrational and/or abusive content in your emails, in attempts to locate a legitimate concern or request.

Our duty to use taxpayers' funds reasonably and wisely requires we dedicate our limited resources to addressing legitimate concerns and requests.

Feel free to mail, call, or stop by should you have a specific legitimate request for assistance.

If you legitimately require police or medical emergency assistance, please call 911.

Be advised, if this access to LCSO facilities and staff is abused - as you have abused your email access - appropriate action will be taken to cause such abuse to cease.

If required, we will seek and obtain another court order directing you cease such contact, as well as monetary damages and attorneys fees as appropriate.

We wish you the best in your future endeavors.

Thank you for your cooperation.

Subject: New Sunshine Law/FOIA request and evidence re: Lee Sheriff felony abuse of a disabled adult and FL DOH/U.S. DOJ ADA investigations

New request that the sheriff has dodged two times previously,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-torture-88182/

Also attached are the documents taped to the door of my home at the time of arrest that alerted the LCSO that contact and communication with Huminski would violate Judge Adams' gag/no-contact order placing Huminski in criminal contempt of court. As stated in the above link, I also verbally informed the arresting deputy of the gag order preventing contact and communication with LCSO staff and he waived protection by the gag order. The documents were placed upon my door on 10/3/2018 and were visible by deputies that knocked on my door from 10/3/18 until the date of arrest.

I have the originals viewed by the LCSO arresting deputies with the tape still on them that attached them to my door.

Upon arrival at the Jail, after I mentioned the gag order to the jail staff and they started the "sovereign citizen" chant and the arresting deputy quickly left the room so that he would not interfere with the entertainment the jail staff was enjoying from the punishment and abuse of myself for mentioning the gag order.

The LCSO had knowledge that the gag order existed when they punished me with solitary in inhumane conditions for merely mentioning the existence of the patently insane/corrupt gag order instead of pulling up the case on the public court information system and then seeking legal advise on how to handle such a case whereby contact with any LCSO personnel is barred by court

AMERICAN OVERSIGHT

order. They chose a backwoods hillbilly style of justice instead of a concern to obey the law.

This is why the sheriff is refusing to produce the report from the arrest or any recordings made in the police cruiser while transporting to the jail. He is trying to cover-up the misconduct and crimes.

There is no law enforcement duty to create new crime (contempt of court) as was done in the instant matter, to the contrary, law enforcement should not engage in conduct that creates new crimes. -- scott huminski

Subject: DOI ADA Complaint, ADA violations at Lee County, Florida Jails

Hello,

I have been on complete SS disability for 10 years with avascular necrosis of knees and hips, bilateral hip replacements, gout, spinal stenosis, degenerative disk disease, open back surgery, hypertension, PTSD, anxiety disorder and social phobia. I was jailed for 3 weeks for not paying a contempt of court fine in Lee County, Florida 6 months after open back surgery while I was still experiencing post-surgical pain and disability. I was provided zero accommoadations, forced to sleep on the floor because I was physically unable to jump into a top bunk, no ADA compliant toilet/shower facilities. Transported in a school bus without handicap grab bars (I was handcuffed and chained to other inmates so grab bars may not have been helpful if they were available). My blood pressure and PTSD/anxiety medications were abruptly ended and I was place in solitary for 8 hours in only my underwear and shorts and barefoot in a 55 degree windy cell with only steel and concrete surfaces that plummeted my temperature to 97 degrees. Inmates wear thermal underwear and a fairly heavy jump suit. These acts are felony abuse of a disabled adult under State law, Florida statute 825.102, and patently clear ADA violations.

All disabled persons residing at the Lee jails are subjected to similar ADA violations.

Further, the sheriff has formal written rules in place that allow his nurses to override and trump any determinations of disability made by the Social Security administration and medical doctors to allow him to violate the ADA with a fraudulent determination by his nurses.

General counsel for the Florida Department of Health is prosecuting the medical personnel. I don't believe they are addressing the ADA issues. See links below that also contain contact info. for the officials involved in the DOH investigations. The FL DOH has extensive documentation on this issue and I waive all privacy and HIPAA rights concerning my medical records currently in the custody of the FL DOH and the DOH can forward all materials to the Dept. of Justice.

Subject: Lee sheriff medial staff Sunshine law production fraud and Courthouse corruption

I suppose I shouldn't be as critical of the sheriff printing out a document, hand-modifying it, and providing that as valid sunshine law production of documents in light of the following:

Clerk Linda Doggett, printed out a June 5 Circuit Court order from 17-ca-421 (the order was 119 pages long and originally filed in 17-ca-421 on 4/26/17) On June 30 of 2017,

04/26/2017	Order to Show Cause	119

She hand modified the order by adding a non-existent docket number and without a new judicial signature,

She processed it as a valid order received from a judge,

the court clerk then initiated a new criminal proceeding in Lee county court (17-mm-815) with a hand modified Circuit Court order without participation of a judge or prosecutor. A new low in courthouse corruption that initiated circumstances that led to the DOH and ADA issues now under investigation.

This clerk engaged in a litany of State and Federal crimes including, but not limited to, fraud, forgery, obstruction of justice and federal civil rights crimes by acting as a judge or prosecutor, the only entities that can initiate a prosecution.

To add insult to injury, Clerk Linda Doggett certified to the 2nd District Court of Appeal, under oath, that her forgery was a true and correct judicial order issued in the County Court. Nothing is further from the truth. The prosecutors and even my current counsel are OK with this fraud upon the appellate court.

Official crime is rampant in Lee County.

Below is a screen shot of the original 6/5 order (page 1) followed by the fraudulent forged one that Linda Doggett fraudulently filed as an authentic judicial order on June 30 which she boldly certified as authentic to the 2 DCA absent 116 pages with the forged docket number. Lots of government crime here makes one wonder if the sheriff was trying to kill me during my lodging at his facilities. He probably came close with the denial of my blood pressure medications.

True docketing of the order of the deficient order (sans 116 pages) in **Circuit Court**

06/05/2017	Order to Show Cause	3

Fraudulent docketing of the June 6 Circuit order on June 30 in **COUNTY COURT** (certified by crooked clerk to the DCA)

06/05/2017	Order to Show Cause Filed	3

The legitimate Circuit Court 6/5 order printed out by the clerk for the manufacture of the 6/30 fraud.

AMERICAN OVERSIGHT

Now the forged/fraudulent order of Clerk Dogget absent the required Judicial signature and proper caption. Note the double time stamp, an admission that it is not a genuine judicial order, rather, it is an order manufactured by the clerk. She is so sloppy, she didn't even correct the caption when forging her new order as she was initiating a new prosecution with her manufactured order in the COUNTY COURT not Circuit. She missed changing the caption to County Court. Criminals often make stupid mistakes when they are operating in their official capacity and believe they are unaccountable.

THESE COURTS HEAR DEATH PENALTY CASES, NOTHING CAN BE TRUSTED
especially when defense attorneys like Mr. Candela assist in the fraud upon the appellate courts.

Subject: Lee sheriff medal staff

This conduct in oklahoma, see below, is the exact same mindset of many of the female guards at the Lee jails including the one that responded on the intercom concerning my report of the Redman Syndrome from toxic medications supplied to me without my knowledge or consent. When she stated "don't take pills you're not supposed to", luckily for me, my situation was not life threatening unlike the unfortunate fellow below. After acknowledgement of the toxicity of one of the medications they supplied me with, they kept on trying to dispense the toxin to me and I had to interrogate the person dispensing medications until I was released.

Eventually, for some reason, they had me sign a form refusing the toxin instead of immediately removing the offending medication they swapped for my Toprol 200. This was probably to document that I was refusing medication when the opposite was true, I desperately wanted my blood pressure medication, not the medications concocted by these nurses who apparently believe a 5 minute interview gives them knowledge superior to a licensed doctor.

I had been under the care of physicians for 22 years, since when can a nurse with zero knowledge of my medical history trump the long-time treatment plan of medical doctors.

Upon intake, a patient should be asked if they are on total Social Security disability and be provided with ADA compliant lodging. If the sheriff has a problem with this he can sort out the disability situation with the Social Security administration and seek review of their determinations.

If a patient is on medications prescribe by a long-time family physician, a sheriff's nurses must not massively change the treatment plan without consulting the prescribing physician. These nurses who ignore the directions and advise of experienced MD's should not completely disregard the knowledge and wisdom of experienced doctors. Doctors place patients on medications for very good reasons after long-term knowledge of a patient that should not be altered by nurses working for law enforcement. At the very least they should have substituted 200 mg of metoprolol succinate with 200 mg of metoprolol tartrate (this medication is inferior for Huminski, but far better than the path they took). Had they inquired, I would have demanded the beta-blockers instead of water pills that I knew I had a problem with as far as side effects and it didn't help with my blood pressure. Further my PTSD, anxiety and blood pressure are linked to adrenal response which water pills do not address. No one inquired as to why I was on a fairly high dose of Toprol.

Subject: Lee sheriff lies and evades/dodges Sunshine Law requests

The sheriff claims the requests were unclear which is a lie. One request asks for bunk assignments of Huminski's cellmates. The other request asks for the police report concerning Huminski's arrest and transport to the Fort Myers jail, a two hour period whereby the arresting officer was quizzing Huminski while entering data into his computer. i.e. Distracted Driving and probably an accepted practice at the LCSO.

The first thing Huminski said to the officer informed him of the no-contact order of Judge Adams preventing communication with LCSO staff under penalty of imprisonment, the deputy then waived his protection by the gag orders and Huminski then responded to the questions. Upon arrival at jail, Huminski alerted the staff of the existence of the gag order, the staff repeatedly chanted "sovereign citizen" (whatever that is) and placed Huminski in solitary and engaged in felony abuse of a disabled adult. The arresting officer was present when the decision was made to place Huminski in solitary as a punishment for mentioning Judge Adam's gag order.

Many times the cover-up is worse than the crime. See the request's content in the below sheriff emails,

Dear SCOTT HUMINSKI,

Regarding the Media Request received on 1/20/2020 requesting records, the records have been in "Requested Clarification" status for 10 business days. The Lee County Sheriff considers this request closed. If you would still like the records, please submit another Media Request. Thank you for using the Public Records Center.

Request Details:

AMERICAN OVERSIGHT

Reference # M051080-012020

Description of Records Requested: The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Lee sheriff and the ADA

The Department of Justice (DOJ) regulates Title II of the Americans with Disabilities Act (ADA), which covers state and local governments. These public entities are responsible for the operation or management of juvenile and adult jails, detention and correctional facilities, whether they are operated directly by the state or local government, or through contracts, licenses, or other arrangements with other entities. (§35.151(k) and §35.152)

Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Accessible cells or housing units need to be available in all security classifications and/or program levels of a facility.

Unless it is appropriate to make an exception, public entities must not place inmates with disabilities in:

- Inappropriate security classifications because no accessible cells or beds are available;
- Medical areas unless they are actually receiving medical care or treatment;
- Facilities that do not offer the same programs as facilities where they otherwise would be housed; or
- Distant facilities where they would otherwise not be housed and that would deprive them of visitation with family members.
- Huminski was placed in a cell block without ADA compliant cells.

Minimum Requirements from the 2010 Standards (§35.151(k))

New construction of jails, prisons, and other detention and correctional facilities must comply with the 2010 ADA Standards for Accessible Design. At least 3% of cells must be accessible for individuals with mobility disabilities, including those who use wheelchairs. Accessible cells must be provided in each classification level.

At least 2% of the general holding and housing cells must be equipped with communication features designed to accommodate individuals who are deaf or hard of hearing. These features include telephones with volume control where telephones are provided in cells, and visible alarm signals where audible emergency alarm systems are provided for occupants of cells and occupants are allowed to evacuate independently. (Sections 232 and 807, ADA Standards)

Alterations to jails, prisons, and other detention and correctional facilities must also comply with the 2010 ADA Standards until new construction levels of access are achieved within the facility.

When alterations are made to specific cells, required features for mobility access may be provided in substitute cells (cells other than those where alterations are originally planned), as long as the substitute cell:

- Is located within the same prison site,
- Is integrated with other cells to the maximum extent feasible, and
- Has equal physical access to areas used by inmates or detainees for visitation, dining, recreation, educational programs, medical services, work programs, religious services, and other offered programs.

If it is technically infeasible to locate a substitute cell within the same prison site, the substitute cell may be provided at another prison within the same system.

Medical and long-term care facilities in detention and correctional facilities, whether they are licensed or not, are also subject to the 2010 ADA Standards for accessibility.

In passing the Americans with Disabilities Act ("ADA"), Congress noted that the isolation and segregation of persons with disabilities due to the discriminatory effects of physical barriers are a "serious and pervasive social problem," and there has been very little "legal recourse to redress such discrimination." The ADA lists several purposes, one of which is "to provide clear, strong, consistent enforceable standards" as part of a mandate to eliminate such discrimination. The ADA is modeled after section 504 of the Rehabilitation Act of 1973. A key difference is that while the Rehabilitation Act requires facilities that received federal funding to be accessible to persons with disabilities, Title III of the ADA applies to places of public accommodation specified by the ADA, regardless of the receipt of federal funding.

Under the ADA, new construction must be "readily accessible" to persons with disabilities. The new construction's "readily accessible" standard is met if the new construction or alteration is done in compliance with either the 1991 or the 2010 ADA Standards for Accessible Design. These standards include detailed, lengthy and technical specifications. In contrast, existing facilities must be made accessible to disabled persons if the changes are "readily achievable." The "readily achievable" standard for existing facilities is met by making alterations that are "easily accomplishable and able to be carried out without much difficulty or expense."

After its passage, Congress charged the Department of Justice ("DOJ") with implementing the ADA. One of the DOJ's ongoing tasks, in partnership with the Federal Access Board, is to create regulations to provide guidance for the enforcement of the ADA. Congress created the Federal Access Board in 1973 to ensure access to federally funded buildings, and it has become a "leading source of information on accessible design." The DOJ codifies the resulting regulations in the Code of Federal Regulations, and the appendices of that code further explain the regulations. In 1991, the Federal Access Board created the ADA Accessibility Guidelines ("the ADAAG"). The ADAAG were purely advisory to the DOJ and addressed new construction standards. The DOJ then sought public comment on the ADAAG, made applicable changes based on those comments, and finally adopted and codified the ADAAG as the official standards for the ADA. In 2010, the DOJ released a revised version, which became effective March 15, 2012.

Courts have upheld the "two distinct systems for regulating building accessibility: one to apply to existing facilities (those designed and constructed for occupancy before January 26, 1993) and another to apply to later-constructed facilities." Pre-existing or "grandfathered facilities" only need remove easily removed barriers. In contrast to grandfathered facilities, new construction violations are indefensible, unless there is a structural impracticability. A structural impracticability exists when "unique characteristics . . . make accessibility unusually difficult to achieve." Apart from structural impracticability, courts have no authority to apply equitable discretion in excusing the violation.

Overall, statutes, advisory and technical assistance materials, and case law work as a team to contribute to the goals of the ADA, voiced by President George H.W. Bush, "[E]very man, woman, and child with a disability can now pass through once-closed doors into a bright new era of equality, independence and freedom."

The Huminski was housed, transported and accessed portions of the Lee Jails built or significantly modified after January 26, 1993, as such, these areas of the Lee Jails must comply with the ADA and are not "grandfathered-in". There is very little or no attempt to comply with the ADA by the Lee Sheriff.

Some ADA accomodations are as follows:

Examples of "readily achievable" barrier removal that must complied with include, but are not limited to, the following actions (some of these were absolutely absent in Huminski's cell and during his transports between facilities in non-ADA compliant vehicles):

Installing ramps;

Making curb cuts in sidewalks and entrances;

Widening doors;

Installing offset hinges to widen doorways;

Installing accessible door hardware;

Installing grab bars in toilet stalls;

Installing a raised toilet seat;

Repositioning the paper towel dispenser in a bathroom;

Installing an accessible paper cup dispenser at an existing inaccessible water fountain;

Subject: Re: Lee sheriff foia/sunshine law fraud

In the attached, sheriff supplies 4 bed/bunk designations (A,B,1,10):

A = unknown
B = a handwritten notation added to the attached document at the time of production stating "B=bottom". A fraud, handwritten notes added at the time of production have no place in a FOIA/Sunshine law response. What is A then? The first several days I resided at the jail, there were not enough beds for the number of inmates, bunk designations, if there genuinely is such a thing, are meaningless in overcrowding situations. The sheriff does not enforce top or bottom bunk assignments.
1 = unknown
10 = unknown

Then a snippet of a nurse's comment from another alleged document was cut and pasted to the bottom of the attached production.

When I requested the original entire record/document that contained the nurse's bunk designation via another request,

THE SHERIFF RESPONDED . **No Documents Responsive to your Request** (see below) apparently there was fraud in the attached production and the lack of an originating document indicates that the nurse's bunk designation may have been manufactured by the sheriff to avoid negative consequences.

AMERICAN OVERSIGHT

A sheriff becoming evasive and deceptive in document production is a good sign of corruption and the desire to avoid consequences by dishonesty and fraud.

Describe the Record(s) Requested:
In your last production, you supplied an excerpt of a document or record detailing a nurse advising that I be assigned a bottom bunk. I need this in context of the full record, document or database. The nurses message on 2/13/2019 that you included in the document entitled Huminski_OMS_housing_R supplied by you on 1/17/2020 clearly indicates that the nurse's comments were cut and pasted from a document, record or database. For review of the document in context, I request the full document, record or database that the excerpt was taken from. Attached is a copy of what you produced which is something that was clearly manufactured from excerpts from an original document/record. Please supply the full document/record or database. Please see attached and provide an original full screenshot of the nurse's directions in context of the records above and below the nurse's comment.

Subject: Lee sheriff nurses acting without supervision by physician

It is impossible to believe that a physician supervised any of the medical staff at the Lee Sheriff's facilities because no Doctor would disturb 22 years of successful medication and completely yank a patient off all medications that worked perfectly for 22 years. The Toprol ER that was prescribed to Huminski had a dual purpose; one as an excellent blood pressure control and as an anti-anxiety medication. Because of Toprol's control of adrenaline, it helps mitigate Huminski's anxiety and related disabilities. For this reason Toprol is often prescribed for stage fright and anxiety issues. It is very helpful to Huminski and his handling and management of his disabilities.

> Propranolol and Toprol Used for short-term relief of social anxiety. May reduce some peripheral symptoms of anxiety, such as tachycardia and sweating, and general tension, can help control symptoms of stage *fright* and public-speaking fears, has few side effects.

It is my belief there was no supervising physician as required by statute at the Lee Sheriff's facilities. See below for nurse practitioners and physician assistants. No Physician would look at Huminski's medical history and recommend an ending of medications that worked perfectly for 22 years and take a risk of side effects when Huminski's long-time medicines were tolerated perfectly by Huminski and worked supremely well. The result of the Lee Sheriff's medical staff's experimentation with Huminski's medications met no protocol of a supervising physician, if there was a supervising doctor. No doctor would recommend the "cold turkey" ending of medications taken for 22 years and no written protocol exists supporting the conduct in the instant matter. Because of the lack of supervision or proper protocol, Huminski suffered increased severity of his PTSD, GAD and social phobia as well as soaring blood pressure that Huminski worried would cause a stroke, organ damage, heart issues or kill him.

Huminski was never offered a consultation with a physician, nor, did he know there was a physician available at the Lee Sheriff's facilities. The Redman Syndrome caused by the toxins prescribed to Huminski are not the product of negligence, they are the product of a mindset that the incarcerated are sub-human and don't deserve carefully thought out treatments and medications. It would not be surprising to find out that Huminski was prescribed the same medications given to all patients with hypertension at the Sheriff's facilities, a one size fits all mentality, which is not the case in the practice of medicine. Medical history is supremely important.

Nurse practitioner,
Practice Authority
A written protocol between an NP and the supervising physician is required. The degree and method of supervision that is determined by the NP and the physician must be specifically identified in the written protocol. General supervision by the physician is required and specified in the written protocol and must include a description of the duties of the NP, a description of the duties of the physician (which includes consultant and supervisory arrangements in case the physician is unavailable), the management areas for which the NP is responsible, a provision for annual review by the parties, and specific conditions and a procedure for identifying conditions that require direct evaluation or specific consultation by the physician. Fla. Admin. Code 64B9-4.010

Physician Assistant,
Supervision Requirements
The law outlines the exact means of responsible supervision. Direct supervision is not required, but the supervising physician must be easily available or be physically present for consultation. Fla. Admin. Rules 64B8-30.001(3), Fla. Stat. §458.022(f)

Subject: Lee sheriff retaliation, Gov't Answer Brief Due - 2 weeks

Attorneys Alper & Candela, Please note the answer brief in the 2 DCA is due on 2/12/2020. No extensions will be consented to. Mr. Candela, conflict yourself off the case please as I have legal malpractice claims against you for negligence proximately arising out of your refusal to file a motion to stay the sentence and all matters below pending appeal. The record is clear concerning the injury and damage caused by your failing to seek a stay; incarceration, torture and ADA violations by the Sheriff.

Below is my complaint to the U.N. concerning the human rights violations of the Lee Sheriff (the human right of free speech) and the current sheriff is the hand-picked replacement (buddy) for Sheriff Mike Scott (a defendant in Huminski v. Mike Scott et al, 17-ca-421, aka Huminski v. Gilbert),

A clever scheme by the sheriff to make himself litigation-proof by making the service of himself in the DCA and Florida Supreme Court a crime (contempt of Judge Krier's and Judge Adams' gag orders). AKA obstruction of justice via a prior restraint.

Tying my hands concerning service of papers, mandated by Rule, violates the First Amendment and Due Process and these activities are federal civil rights crimes.

Subject: Re: Lee sheriff more ADA violations

If a patient under the care of the Lee Sheriff suffers a medical emergency and is hospitalized, the fictional medical record manufactured by the sheriff can lead to medical errors. As I pointed out in a prior email, falsely reporting that someone is a smoker or IV street drug user as suggested by the falsehoods included in my erroneous medical records can harm and endanger the life of a patient is crisis.

Said errors could send doctors in a wrong direction when attempting diagnosis and alter treatment plans and medications potentially causing delay, harm, injury or death. Medical record errors may lead to the use of the least optimal medication, treatment or procedure.

I have reproduced below the email pointing out the sloppiness and careless/reckless disregard by the Lee Sheriff concerning medical record accuracy in medical records that he maintains, controls and disseminates pursuant to HIPAA regulations.

Subject: Re: Lee sheriff more ADA violations

None of the vehicles Huminski was transported in comply with ADA requirements for transport of the fully disabled.

Aggravating this fact is that while boarding and departing from transport, disabled patients are handcuffed and chained together while transported. During these transports, I was in fear of injury or death proximately arising from the complete absence of ADA accommodations during transport by the Lee Sheriff. --scott huminski

The Sheriff refuses to give flu shots to residents of his facilities. This violate the universal support of immunization in the medical profession and is medical malpractice. This policy creates a heightened danger to the elderly and violates the well-established precept of herd immunity. As his jails lodge patients for less than a year, un-vaccinated patients are release into the public everyday impacting high risk groups of the elderly or very young because of the Sheriff's negligence and medical malpractice.

Subject: Re: Lee sheriff more ADA violations

Please seek a DOH emergency order concerning the LCSO medical staff allegations and ADA violations. As the Sheriff places restrictions on what medications and services can be provided to residents in his facility, his licenses with the Boards should be revoked. If he is not licensed, but making medical decisions such as the medications allowed in his facility, he is practicing medicine without a license.

When I was afflicted with Redman syndrome (instigated by denial of my blood pressure medication and dispensing a toxin to me) and requested an injection of anti-inflammatory medication, the nurse replied that the sheriff does not allow it. The sheriff is practicing medicine without a license. These nurses look to the sheriff and his rules as they would directives from a doctor. Apparently, any kind of injection is prohibited by the sheriff. Again, his unlicensed practice of medicine.

Also, in my first two days residing in the Lee jails, one inmate was in excruciating back pain that far exceeded the capabilities of over-the-counter pain relief. He was denied that because of the sheriff's determination of which medications and procedures that are allowed (by the rules of a non-medical practitioner). This resident was in the highest level of pain I've observed in my 60 years and his treatment by the sheriff's policy to withhold FDA approved medications is torture and a cruel and unusual punishment under the Eighth Amendment.

Please end the suffering and torture at this government facility which will not be accomplished by sanctions against the licensed providers, the Sheriff and his rules, customs and procedures are at the core of the medical misconduct at his facilities. -- scott huminski

The sheriff's jail and customs, policies and procedures therein violate virtually every topic discussed in the below summary of ADA requirements in his jails.

Subject: Lee sheriff more ADA violations

The sheriff provide NO ada compliant toilet facilities without proper height commodes and without the required handicap grab bars.

Below are guidelines and information concerning the sheriff's disdain for the ADA and failure to provide ADA compliant bathroom facilities.

https://www.buildings.com/article-details/articleid/9242/title/the-ada-compliant-restroom

The shower facilities are similarly ADA non-compliant in every location Huminski resided in at the Lee Jails.

These ADA violations are especially egregious for persons with recent open back surgery such as Huminski.

The ADA-Compliant Restroom

Find out how to make your restroom ADA compliant in this article.

Subject: Lee sheriff new FOIA request

Media Request less than a minute ago
Provide the housing and bunk assignments of persons who shared a cell with Huminski for the first 10 days of his stay in the lee jails starting with 2/12/19. Huminski's cell/bunk assignment was provided in the sheriff's 1/17/2020 production. Provide the same for Huminski's cellmates.

Status : Received

User is s_huminski@live.com
password 123456

The sheriff will not be able to supply this as for the first 3 days, the cell blocks were overcrowded and there were not enough bunks for Huminski and approximately 10 others. No cell or bunk assignments were communicated by the sheriff. This is a per se ADA violation. The elderly disabled should not be treated like 3rd class citizens and made to sleep on the floor.

new FOIA
Media Request less than a minute ago
The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Re: Lee sheriff document production

Just like how the Lee Sheriff does not alert a patient that their life-sustaining medication that you have been on for 22 years is being completely ended putting one at risk of death and injury, the sheriff also maintains secrecy as to any assignment of bunks and no procedure exists for enforcement of bunk assignments.

The 2/13/2019 alleged medical record recently supplied is not in the original production of medical records supplied by the sheriff. I suspect fraud concerning this record. In either case, where-ever this document came from if it is not a fraud, these records are not supplied to inmates via any practice, policy or procedure adopted by the sheriff. Further what was supplied is a cut and pasted excerpt from a document that contains damning information that the sheriff wishes to keep secret.

While imprisoned, I asked the medical provider for my medical records and she denied the request. The medical records supplied related to these matters do not contain the cut and pasted bottom bunk directives.

In the Lee jails, bottom bunks are on a first come first serve basis and if there is a dispute the law of the jungle prevails -- might is right, where an elderly disabled person can not prevail regarding such confrontations with other inmates.

LEE SHERIFF supply the full document where the cut and pasted bunk assignment came from. Many times a cover-up is worse than the original transgressions. -- scott huminski

Subject: Lee sheriff foia

Regarding Lee sheriff fraud that I was assigned a bottom bunk. The sheriff does not provide this information to residents, if the document they provided is valid, it is kept secret from inmates. I would be happy to take a polygraph concerning any fact I have supplied related to these matters.

Subject: Lee Sheriff: Medical Ethics, Disability and Supremacy Clause violations

Mr. Candela,

Your failure to file a motion to stay the matters below pending appeal, thus, your negligence and malpractice, proximately caused me extreme injury and damage at the hands of the Sheriff and State's attorney.

I have retained an out-of-state law firm to prosecute you for legal malpractice. They are taking it on a contingency basis. 50% Suit will be filed after the government's answer brief in the 2 DCA. This is why I directed you to oppose any extensions requested by the government. I need(ed) relief from the government misconduct ASAP, a task that you failed.

We are also bringing an 42 U.S.C. § 1983 action against former State's Attorney Stephen Russell, State's Attorney Amira Fox and Anthony Kunasek. Judges may be added later.

The sheriff will also be a defendant in causes of action arising under 42 U.S.C. § 1983 and the Americans with Disabilities Act. Of course we have to deal with the gag orders of Judge Adams preventing service of the Sheriff (a defendant in Huminski v. Gilbert, et al., 17-ca-421). Your disdain for the First Amendment by not handling the bedrock First Amendment violations in the gag orders of Judge Krier, Judge McHugh and Judge Adams in your brief is noted. The gag orders are unconstitutionally vague, over-broad are a forbidden prior restraint and silence core protected political expression.

Thanks for setting me up for grave human rights violations.

Move to disqualify yourself from the 2 DCA appeal immediately. My online review of your misconduct should be sufficient to get you off the case.

The review is here at a permanent link,
https://web.archive.org/save/https://anthonycandelaattorneylawyerreviewtampaflorida.law.blog/

It is my moral and ethical duty to make sure you don't do this to anyone else. Again, I am forced to assume the role law enforcement should have handled, like the death threats from the Arizona terror cell (Trevor Nelson, Debra Riffel of Maricopa County) that instigated this series of events.

Subject: Lee Sheriff violates his own policies and procedures

Based upon further review, it has become clear that the sheriff engages in wholesale violations of the Americans with Disabilities Act (ADA) and for the safety of those still suffering in the Lee jails, the federal government should take control of these facilities to bring them back into compliance with federal law.

Why was I jailed? ... for failure to pay a contempt of court fine that I could not afford (debtor's prison). Good old fashioned justice. With Mr. Candela not helping by his refusal to stay matters while appeal was pending. The prosecutor's office knows all these facts and are just as liable.

Please forward relevant materials to the U.S. Attorney's Office for this District and to the U.S. Attorney General before death, injury or harm comes to person at these facilities because of the sheriff's disdain for the rule of law.

Time is of the essence. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Hi,
I began reviewing the production of today. I think this will yield a wide pot pouri of the sheriff's violations of his own policies and procedures. After 1 minute into my review the following came up revealing a complete disregard for his own policies concerning the fully disabled. Like myself -- on full social security disability for 10 years for mental and physical disabilities.

The sheriff knows bad things happen when one breaks the law, likewise, bad things happen when he violates his own policies and procedures. There would have been fewer ADA violations and felony abuse of an elderly disabled had the sheriff obeyed his own regulations concerning single cell occupancy had he just followed his own rules instead of making the disabled elderly sleep on the floor. If I was assigned a single cell per his policies, I wouldn't have had to sleep on the floor. Its not just me he abuses, he abuses every disabled person in his jail. If the ADA had criminal sanctions, the sheriff should be first in line. As my review continues, I will update. see below single occupancy policies.

Subject: threats

Mr. Candela, Your threats to me attempting to stop my reportage concerning the felony abuse of a disabled adult and collateral matters could be construed as obstruction of justice.

Please file a motion in the appeal to stay/enjoin the Florida collection activities and punishments while the case is on appeal. You failed to do this at the appropriate time causing my incarceration. This a very common appellate motion quite similar to a motion to release from custody while on appeal. I don't wish to be jailed again because of your failure to file proper and quite common motions at the proper time.

Just the fact that you are appointed does not mean you have to withhold filing of proper and necessary papers in court. You must treat appointed legal work with the same vigor as paying clients. Failure to do so is a violation of the rules of professional conduct and ethical precepts.

I don't know what is up with you, but, you refused my direct instructions to deny the request for enlargement of time and consented to the government delay. This conduct prejudices and injures me.

Subject: Huminski writ of prohibition/mandamus

Mr. Candela, I take your silence as a refusal to file a writ to prohibit collection activities by the State pending resolution of the appeal. I will file it in the next week. It will be less than a page long. A no-brainer. Let me know today if you have changed your position.

This issue may only be tangentially related to the Health Departments investigations. It is being provided to maintain context and this email is core protected political expression afforded the highest level of protection under the First Amendment. (see below link re: core protected political expression) Obviously all my speech is speech critical of the Sheriff, a candidate for public office. Seeking and obtaining the gag order is a serious crime under Title 18. See below criminal statutes.

Mr Holloway, as I have pointed out, all communications with you are in your capacity with the county, not LCSO. All contact with the LCSO is barred via the gag orders entered by Judge Adams. Gag orders requested by the sheriff that remain pending for life. This calls into question if the sheriff can hold office while denying public safety services to a resident (s) of the county he serves. I think not. This affront to the First Amendment, barring core protected political expression are federal crimes defined in
the Title criminal 18 links below as they violate Huminski's First Amendment right to criticize the sheriff and report criminal activity to the sheriff or his staff. One can not be a county sheriff and then pick and chose persons not eligible for public safety services based upon their opinions or the type of crimes they report.

Why did the sheriff seek to silence me? ... to cover up his support of the interstate transmission of terrorist death threat by the Nelson/Riffel domestic terror cell.-- scott

Subject: Lee Sheriff Foia re: DOH investigations, Complaint # 201944590 & 201994592

A new related Foia (sunshine law request) is here concerning the withholding of medical services,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84837/

I note that the sheriff failed to respond to the request of 12/12/19 with knowledge that I am seeking the information to forward to State agencies concerning the pending investigations. *Per se* obstruction of justice. The sheriff refuses to even acknowledge receipt of the information request.
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

It is unclear if the sheriff's department itself is licensed with the DOH in any capacity, although, they are the caretakers of medical records and in control of the privacy and dissemination of medical records consistent with HIPAA or similar state regulations/statutes. It certainly appears that jails should be regulated in a similar manner to nursing homes, hospitals and other care-giver entities. -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These felonies and *per se* medical ethics violations concerning the LCSO medical staff are retaliatory because Huminski exposed the crimes of the sheriff embodied in his request and receipt of a gag order that obstructed justice (including witness intimidation and tampering) of cases before the United States Bankruptcy Court, the Florida 2nd Circuit and Florida Supreme Court. At the most rudimentary level, the sheriff's gag order preventing service of himself and his office in cases where court rules, Due Process and other authorities mandated service of the sheriff are patently criminal obstruction of justice.

My certificates of service in the aforementioned tribunals clearly state that service was obstructed by the sheriff. Even service of the State of Florida was obstructed by the gag order obtained by the sheriff. See below documents and most specifically this one,
https://edca.2dca.org/DCADocs/2017/4740/174740_26_12182017_1121006Z_e.pdf

Here is a complaint filed with the United Nations on the topic

The obstruction of justice by the sheriff is undisputed and on the record see below links.

Subject: Fw: State's Atty Cover up felony obstruction by Sheriff Scott

The Sheriff obstructed service in the U.S. Bankruptcy Court (a unit of U.S. District Court), obstructed service in the 2DCA 2D17-4740, obstructed my attendance at a hearing in 17-CA-421 and is engaging in ongoing obstruction in 17-MM-815.

The sheriff procured a protective order for him and his staff that prohibits contact or communication. WITHOUT EXCEPTION. As such I am banished from the Lee Court complex in violation of Huminski v. Corsones, 396 F.3d 53 (2nd Cir. 2005). This and other issued are exhaustively documented in the below papers filed in the 2DCA.

Subject: Conflict counsel must recuse

Hi Atty Neymotin,

Your office has advised me to violate the Orders of Judge Krier. The protective order entered by Judge Krier prevents any contact with the Sheriff or his staff. As such, it is criminal contempt for me to interact with court security screeners and bailiffs at the lee court.

Advising me to violate the orders of the Circuit Court is unethical. With that in mind, what is your office's advice for the hearing tomorrow concerning my attendance?

Do I not attend and risk a bench warrant or attend and risk a contempt charge? -- scott huminski

Hi Atty Neymotin,

Your office has performed zero work on the criminal matter and refuses anything and everything I have requested in support of my defense. Assign a different attorney or recuse your off the case. You are still responsible for the 2DCA matter.

Neglect of a legal matter entrusted to your office is an ethical violation. -- scott huminski

Hi Atty Neymotin,

Subject: Conflict counsel dodging appeal other misconduct

Hi Atty Neymotin,

Your office is responsible for handling this criminal appeal/petition. This is a criminal contempt case assigned to Z. Miller of your office. This appeal arises directly out of the criminal matter assigned to your office. I must also inform you that I am receiving ineffective assistance of counsel in the underlying criminal matter. The criminal case was pending in the Circuit Court for several months and then was "transferred" to County Court.

Please assign an attorney who knows the below law to my case and assign your appellate people to the appeal. See 2DCA docket below. The criminal case is frivolous and the order involved that I allegedly violated are patently unconstitutional and mandate surrender of constitutional rights -- exceptions to the Collateral Bar Rule, that your office has ignored.

THERE IS NO STATUTE, COURT RULE OR FL AUTHORITY THAT PROVIDES FOR A TRANSFER BETWEEN CIRCUIT AND COUNTY COURTS. YOUR OFFICE'S FAILURE TO RECOGNIZE THIS FUNDAMENTAL ISSUE IS WASTING THE TIME OF ALL AND CONSTITUTES CONDUCT PREJUDICIAL TO THE ADMINISTRATION OF JUSTICE AND wastes judicial resources.

Please recuse off this case if you do not have the staff expertise to handle the issues. Mr. Miller refuses to file motions I have requested based upon the above and other issues. -- scott huminski

Subject: Lee Sheriff medical staff felony abuse of a disabled adult, Complaint # 201944590 & 201994592

Another FOIA to the LCSO on the felony abuse of a disabled adult that may assist in the investigations pending against the Lee Sheriff's medical staff. See link below. At the link is a downloadable copy of all correspondences, to date, with the DOH concerning the LCSO medical staff.

I note that the LCSO was well aware of my disabled status based upon it's status as a defendant in Huminski v. Mike Scott, et. al. (aka Huminski v. Gilbert, et. al.), 17-CV-421, 20th Circuit, a lawsuit concerning the death threats issued to Huminski (2015-2017) from Trevor Nelson and/or Debra Riffel (while impersonating Officer Ryan Pillar) of Maricopa County, Arizona and the impersonation of Huminski by the same two individuals in letters sent to Officer Ryan Pillar (Gilbert, AZ Police) his parents and others in 2012-2015 approximately. Thank you. -- scott huminski

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

The decision to deny me medical services upon intake into the Lee Jails and to place me in solitary instead (along with previous complained of LCSO criminal conduct), was done with the knowledge that my age was approximately 60,

putting the LCSO and their medical staff on notice that felony abuse of an elderly and/or disabled adult was on the table. Of course, medical services or denial of medical services that constitute felony violations of F.S. § 825.102 are *per se* unethical under medical ethical guidelines. Crime is not a valid medical treatment or service. See this thread.

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hello,

The placement of myself in solitary prior to medical screening for an elderly fully disabled adult with chronic medical issues is a felony, F.S. § 825.102, by the LCSO.

AMERICAN OVERSIGHT

See statute excerpts (full statute below) concerning the immediate placement of myself into solitary in a 55 degree cell barefoot with only a thin t-shirt and shorts without any bedding that drove my body temperature down to 97.0, i.e. torture/malicious punishment.

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

These felonies are per se medical malpractice and caregiver malpractice as they are felonies against the elderly disabled. Thank you. --Scott huminski

Hi, I am in receipt of your recent letters.

I believe that the sheriff's medical staff lied about my medical record to gain State/Federal funding or grants, etc. concerning their lies input into my medical records.

I am not on Social Security Disability because of "street drug" use as lied to by the LCSO. I grant the FlHealth.gov power of attorney to access my first 5 years of medicare/social security records. I am on Social Security for joint issues, avascular necrosis, PTSD, Social Phobia, GAD. Now spinal stenosis and spinal disk degradation are added to the list.

I don't use "street drugs" as mentioned several times in the LCSO medical records. Medical marijuana and prescriptions filled at Walmart are not "street drugs". All of this is a lie, probably to secure funding or for some other improper motive.

False "street drug" information entered by the LCSO medical staff caused me to be place on "DETOX" for 10 days which prevented me from obtaining sleep medication for 10 days. Lies in medical records can cause injury. I once had a bogus allergy to penicillin sneak unto my records elsewhere and that led to my treatment with a lesser effective drug. False medical information is dangerous to the safety of the patient. During those first 10 days, I got 2-3 hours of sleep a night as a result of LCSO lies. Also felony abuse of a elderly disabled adult. See statute below.

Please do not hesitate to obtain the Social Security/medicare information related to the lies entered into my medical records. Power of attorney is granted to the Florida Department of Health and/or Ylonka Guzman Jimenez to obtain these records from the federal government.

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hi, I am writing to ascertain if more input from myself is required for the above board complaints.

Cutting my beta blockers 75% from 200 mg to 50 per day (with a less effective drug), when there was a recent hospitalization for transient ischemic attack (mini stroke) is not only unethical and a violation of medical norms (especially without initiating a physician / patient relationship) and blindly prescribing is abuse of a disabled adult. I have been on on SSDI for 10 years.

This is a felony in Florida and a federal civil rights crime (8th Amendment violation) punishable under federal civil rights crime statutes 18 USC 241, 242. Please refer this to the U.S. Attorney, the FDLE and the Florida and U.S. Attorney Generals. Thanks -- scott huminski

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

Subject: Missing Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

I noticed that in the brief medical intake that occurred after my 8 hours in solitary in a 55 degree room (I was barefoot and clothed in a light t-shirt and shorts) there was no taking of vitals reported. The reason was that I was becoming hypothermic from the 8 hours of solitary in a cell without bedding, only concrete and steel existed in the cell. Deliberately causing physical harm is an assault and battery. Please forward this to the FDLE and U.S. Attorney. My temperature after solitary was 97 which they took but did not disclose in the records the jail produced.

The name of the pharmacy or pharmacist was not provided in the records. I never received the proper literature with any medications provided, a pharmacy error, which would have prevented the Redman Syndrome that caused me medical harm. Had I received the proper paperwork, as regular pharmacies provide, I would have alerted the staff of a toxic medication and I would have refused the offending medication(s). The level of prescribing secrecy and lack of pharmacy information provided to the patient about the drugs dispensed caused the problem.

My blood pressure was taken at least 10 times and recorded by individuals who dispensed medications (I don't know their professional information) and these records were not supplied. They document my out of control blood pressure. Thank you. -- scott huminski

Subject: Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

Hello, They finally released my records. I still don't know the professions of any of the names provided, i.e. doctor, nurse, aid, pharmacy tech, etc..

I gave no consent to anyone to stop existing medications or to consent for new medications upon intake to the jail.

I was arrested at approximately 10:30 and got to the Jail at the below time, noon, and immediately was put in solitary for 8 hours as the medical records reflect. If one has diabetes, seizures or many other problems, this custom of warehousing patients for up to 8 hours with no medical information taken could prove deadly to persons with medical issues. During this initial solitary there was no inquiry if i had food allergies or special/religious food needs and i was provided a meal blindly -- bologna on white. This is dangerous. I was never consulted with by a doctor concerning the vast changes in my medicines or never asked if I had questions for a pharmacist when medicines were dispensed. Note the 7:58 time on the medical history documenting the solitary.

I don't know and never met Andrew Grey, I don't know if this person is a doctor, nurse, pharmacist, and they never mentioned to me they were taking me off medications I have been on for 22 years. My only history of withdrawal was when I ended gabapentin for spine pain and sciatica a year earlier.

Kathy Verdes lied about drug abuse when she stated i take "street drugs" and this contradicts the walmart prescriptions verified on 2/19/2019 which had a xanax prescription. (see attached) I never had this issue and never told her I did. Alprazolam, xanax has been prescribed to me for 22 years, I take it as directed.

Huminski was deprived of all morning medications on 2/27/19 per entry of Karen Hergal, this is common, to get 12 hour medications at far longer or shorter intervals than required. This happened to me many times. There are also an entry of "denies all" that did not happen. Ms. Hergal lied about a history with street drugs.

Prior to administering the first doses of new medications, if I was told they were stopping the treatment that worked well for 22 years, patient should be allowed a consult with a pharmacist or doctor on the new medications.

Note that after side effects from HCTZ (or clonidine) was noted, the toxins that caused Red Man Syndrome (that i was prescribed deltasone for), on 2/19/19 they re-prescribed the toxin and it was delivered to me for a day or two until I noticed problems and I had to interrogate the person dispensing the pills and i had to deny the toxin. My declining the toxin is also in the attached.

Although my blood pressure had been recorded 10 or so times, the report on 2/14/2019 had a blood pressure of 153/114 p 136, revealing the ineffective treatment plan without concern for patient's 22 year history of successful blood pressure management. This is dangerous. I feel symptoms of tightness in chest/anxiety/fear when my blood pressure soars without adequate medical intervention. Elevated blood pressure can cause organ damage, stroke, heart issues and more. This negatively impacted my anxiety issues because I thought I might die from the extremely high (for me) blood pressure.

See entry of 07/08/2019 [sic] (the date is probably around 2/16/2019) where i emphasize my 20 years of successful medications and relatively good health.

On or about 2/18/2019 i spoke to a female guard via the intercom system and explained that I was given medications that made me ill and required medical intervention, she rudely stated "don't take pills you're not supposed to". I explained the pills were started without me knowing. This is misconduct.

2/27/2019 Brian Medlin lied that i was on social security for drugs problems. I am on social security for joint issues (hips, knees) and for PTSD, Social phobia and generalized anxiety disorder.

In summation, this is the worst medical treatment I have received in my entire life and, at 60 this year, it is the first time I spent in jail. -- scott huminski

As you can see, the Sheriff is refusing to forward medical information because there are many problems with the medical treatment of patients at the Lee jail. I hereby grant the FL Health Department and their associated Medical and Pharmacy Boards power of attorney concerning my medical records being withheld by the sheriff. There are dangerous medical situations at the jail. Luckily, my experience wasn't fatal, the same might not be true in the future.

I have no knowledge of who the persons were dispensing the medication at the jail ... nurses, pharmacy techs, medical assistants, etc..

I waive all HIPAA rights/protections and my jail medical records may be posted online or shared by anyone to anyone at any time. Thank you.

Dear scott huminski:

Lee County Sheriff's Office received a public records request from you on October 03, 2019. You requested the following:

" To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.
Sincerely,
scott huminski

Your request has been received and is being processed.
Please Note: All requests are completed in the order in which they are received. Additional information or clarification may be needed to fulfill your request. Failure to provide additional information or clarification within 10 business days will cause your request to be canceled and closed out. You will then be required to submit a new request.
Research-intensive requests may require more than 10 business days to fulfill and may require a paid deposit before the request can be fulfilled. All deposit invoices are due upon receipt. Release of information requires payment in full. Additionally, any further requests may not be considered until unpaid invoices are paid in full.
Please contact our office immediately once requested information is no longer needed. Payment for completed requests prior to cancellation is expected. If you wish to pick up the request, please contact us in advance.
While use of GovQA for public records requests is not mandatory, requests submitted outside of the GovQA portal may delay the receipt of requested information.

Subject: IAIL Medical Board & Pharmacy Board Complaint # 201944146

Hello, I am in receipt of your letter of 10/11/2019.

The sheriff has ordered the medical staff to not supply various medications that are medically appropriate and necessary for patients. Thus, loyalty to the sheriff and his rules has trumped the medical staff's proper handling of the cases and limitations of FDA approved medications that can be prescribed to patients lodged at the sheriff's facilities pursuant to policies and procedures mandated by the sheriff. A potential case of unauthorized practice of medicine by the sheriff via his control over the doctors and medical staff working for him in Fort Myers. I consider the handling of my medical records request beginning with in-person visits on 9/24/2019 obstruction of justice related to the medical and pharmacy boards potential investigation into medical care at the Lee jails.

Allowing a sheriff to determine what medications can be prescribed by tying the hands of licensed medical professionals is corrupt. Solitary confinement without inquiring into the medical situation is a violation of medical ethics and norms. Withholding access to a physician for 5-7 days after blindly prescribing incorrect and outright toxic medications is a violation of medical ethics and professional guidelines. All persons lodged at these jails should have an immediate consultation with a physician to establish a proper patient - physician relationship, prior to prescribing, to save lives and maintain health.

The sheriff's office wrote as follows (see below) concerning (1) my attempt to obtain my medical records followed by (2) his classification of my 2nd request as a duplicate and finally (3) my request via the muckrock.com website which remains pending. I ask that you expedite this matter to avoid further medical harm to persons lodged in the Lee jails whereby doctors are prohibited from freely and without interference allowed to engage in the practice of medicine pursuant to their training and experience free of interference from the sheriff or his policies and procedures. -- scott huminski

Attached please find a form I just received. Apparently there is a company involved in this somehow. Correctional Medical Group Companies. I don't know if they were my medical provider or the sheriff's department.

I note that the personnel who dispensed the medications daily had no name tags and did not identify themselves as employees or subcontractors of any company. -- scott huminski

Subject: Suicide or life in prison

This is the choice I am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Desperate attempt to urge the FDLE to address the felony abuse of a disabled adult by Lee Sheriff

I had dozens of contacts with the Lee Sheriff's staff while incarcerated for being poor. These contacts are all crimes under the order of Judge Adams to not communicate with the Lee Sheriff's staff. I don't know when or where these things will take action.

Should I just kill myself to deny the sheriff the pleasure of death at his hands?

The crimes have got to stop, soon. Maybe attempted murder and felony abuse of the disabled is an entertaining pastime in good ole boy Florida, I don't agree. -- scott

Subject: Attempted murder, felony abuse of a disabled adult by Lee Sheriff Carmine Marceno - Justice Dept. investigating Civil Rights violations, FL DOH investigating

Original documents located at links below:

Please forward to the appropriate agencies, for obvious reasons, the Lee Sheriff has a major conflict here.

The Justice Department has opened a civil rights investigation against the Lee Sheriff Carmine Marceno involving torture and attempted murder of an elderly disabled adult lodged in the Lee Jail for failure to pay a contempt of court fine. Please forward this to the appropriate State agency for investigation. The Fl Dept of Health has also opened investigations against the Sheriff's Medical staff. see docs below.

DOJ civil rights investigation of Carmine Marceno

https://judgeelizabethyknierleecountyflcorruption.files.wordpress.com/2017/06/doj-all-forms-signed-and-merged.pdf

In my above response to the DOJ (in an email) I posed the question to the FL DOH if taking a person, cold turkey, off blood pressure medications that he had been on for 22 years would increase the disabled elderly adult's risk of death. No answer was received, the answer is obvious. This conduct constitutes felony abuse of a disabled adult and perhaps attempted murder.

Subject: FL AAG concedes statutory misdemeanor fines/fees were illegal

Which caused my incarceration for being poor and when no legal fine or fee existed.

Page 10 of gov't brief link below,

"Appellee concedes that imposition of the cost of prosecution was improper because contempt is a common law crime and the statutes governing contempt do not explicitly allow for the cost of prosecution to be imposed." AAG Chelsea Alper, esq..

The government brief is here. She conceded one fine/fee was illegal, when in reality, all fines and fees were illegal by the AAG's logic and correct interpretation of FL law.

Here is her full brief, the gov't and my own attorney seem to derive pleasure from insulting me.
https://edca.2dca.org/DcaDocs/2019/1914/2019-1914_Brief_540655_BC042020220Appellee20Answer20Brief.pdf

My main fear is: how many citizens have been abused like this and how many more will face corporal punishment and torture for being too poor to afford to pay fines/fees that are patently illegal, not supported by any FL law.

Thanks, --scott huminski

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 96, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: Huminski arrest and incarceration completely illegal

Hi DOH,

The crimes related to felony abuse of a disabled person began at the first hearing with Judge Krier in 2017, she colluded with Judge Adams to illegally move the case to county court because it was a so-called "misdemeanor", absolutely false see below emails detailing that contempt in most State's, including Florida and in federal court is a "*sui generis* common law offense". At the below link there are many cases from every DCA in Florida and from the FL Supreme Court.

https://scholar.google.com/scholar?hl=en&as_sdt=40006&q=contempt+sui+generis+florida&oq=sui

Every fine and fee that caused my incarcerated for not paying were illegal and unlawful.

Note the below correctly revealing that the arrest, toture and incarceration that led to the felony abuse of a disabled adult by the sheriff was completely illegal. Just simple google searches by a non-legal practitioner reveal incredibly bad motives, a frivolous prosecution and pure evil abuse of government power to advance a corrupt agenda. Ms. Alper is the Attorney General's attorney who is pursuing this wrongful agenda. The AG's office wants to cover this up, luckily they can not cover up for the sheriff's nurses. -- scott

Here's a break down of the fees and fines illegally charged by Judge Adams that caused my incarceration and felony abuse of a disabled adult by the sheriff. The arrest and incarceration was completely unlawful.

I was incarcerated and tortured by the sheriff and his staff for not paying completely illegal fines and fees and then summarily convicted for a probation violation for not paying the illegal fines and fees by Judge Adams. He is a danger to society. I did pay the $300 in probation fees because if I didn't the arrest warrant would have issued sooner and $50 a month was manageable.

Fine $500 under 775.083 **(e) $500, when the conviction is of a misdemeanor of the second degree or a noncriminal violation.**

Illegal for a sui generis common law offense, not a conviction, a judgment was rendered on a common law offense.

noun

1. a formal declaration that someone is guilty of a criminal offense, made by the verdict of a jury or the decision of a judge in a court of law.

Continuing to badger me for fines and fees (including a bogus misdemeanor fee) is fraud and illegal.

First the case involves a sui generis common law offense, not a misdemeanor, the fee is illegal.

This is the case law in most States including florida and in the federal system. Here's the results of a simple google search, have you done this search yet? See Ballengee below ("It is **sui generis** and is not, therefore, a crime ..."), it is un-defensible to charge criminal fines/fees for a non-crime. Just plain crazy, the state of the courts in the 20th circuit and lee county. Insanity. – scott

Subject: Lee Sheriff refuses Sunshine Law request and refuses all law enforcement services to resident of Lee County

My disabilities and extreme fear of being subjected to torture again by the Lee Sheriff only permit my communication with law enforcement via email which the sheriff prohibited. Judge Adams' orders prohibited LCSO contact already (all parties to the civil or criminal cases) and prohibits communication with Florida. Mr. Holloway did not have to repeat the words of Judge Adams just to harass, terrorize, harm and injure. NO CONTACT OR COMMUNICATION, I get it.

The only reason I felt confident in contacting the DOH is because Medical Doctors are not known for the same kind of Neanderthal behavior and wrongful shooting and killing of citizens. In fact, the medical profession is far more civilized.

The sheriff has no need to communicate this to me when it is already codified in the order of Judge Adams prohibiting all LCSO contact under threat of imprisonment. I believe Mr. Holloway chose to send this email merely to harass, terrorize and make it perfectly clear that the sheriff is excluding Huminski from law enforcement services. This causes me great anxiety and I have forgone reporting crimes that I have observed in Lee County, including the smoking of crack in the LCSO jail and curfew violations in my neighborhood after Irma.

I collected much information while in jail for the betterment of society, which will continue to be released. see below,

The order of Judge Adams mandating no contact with the LCSO remains pending appeal. My contact with you, as I explained previously is in your capacity with the County. It is criminal indirect contempt of court for me to have contact with the Sheriff or LCSO staff. See order of Judge Adams prohibiting such contact at the below link which was post on my door when I was arrested by your thugs.
https://judgeelizabethbykrieflecountycorruption.files.wordpress.com/2017/06/docs-on-door-for-lcso-gag-order.pdf

The sheriff has violated the Sunshine laws by not providing the arrest report from 2/12/19 and continues to do so. Latest document request is here, luckily the web address of the is not a LCSO address or I would have been prohibited from contact for sunshine requests as well.

Here is the latest request that you have ignored, now for the third time. Stating clarification needed for merely requesting the arrest report and any recordings during transport to jail requires no clarification. Here is the third request, what do you think you need to hide via violation of sunshine law requests?

Lee Sheriff Disabled Elder Abuse & torture
scott huminski is making this request to Lee County Sheriff's Office of Lee County.
www.muckrock.com

Please discontinue violations of sunshine law requests. Seems like the truth hurts, especially the State DOH investigation of the LCSO medical staff. Buy cheap, get cheap. Not a good policy for medical services, neither is your procedures that allow your nurses to override and trump the medical treatments and medications set forth by M.D.'s. In FL nurses can not act in violation of the orders of Medical Doctors. You get what you pay for, sub-standard medical treatment. I think you need to polygraph the guard who put me in solitary on 2/12/19 and, by doing so, engaged in felony abuse of a disabled adult. The reports you are hiding reveal the truth, I was not disorderly, I merely stated that judge adams issued a gag/no-contact order prohibiting all LCSO contact. You engaged in entrapment regarding criminal contempt of judge adams' order. I await my arrest for this so-called crime that occurred dozens of times during my incarceration. Obviously.

Why are you still obstructing the request for the arrest report and transportation recordings?

Are you shutting down sunshine requests from muckrock.com as well. I noticed that I can no longer request via the portal. -- scott huminski

Dear Mr. Huminski -

Please be advised that as of Monday, 02/17/2020, your emails to all Lee County Sheriff's Office email addresses will be sequestered by our Technical Services staff, and will not reach any LCSO email address.

Please do not assume your emails will be read or acted upon.

We simply do not have the staff or resources to wade through the mass of irrelevant, inaccurate, irrational and/or abusive content in your emails, in attempts to locate a legitimate concern or request.

Our duty to use taxpayers' funds reasonably and wisely requires we dedicate our limited resources to addressing legitimate concerns and requests.

Feel free to mail, call, or stop by should you have a specific legitimate request for assistance.

If you legitimately require police or medical emergency assistance, please call 911.

Be advised, if this access to LCSO facilities and staff is abused - as you have abused your email access - appropriate action will be taken to cause such abuse to cease.

If required, we will seek and obtain another court order directing you cease such contact, as well as monetary damages and attorneys fees as appropriate.

We wish you the best in your future endeavors.

Thank you for your cooperation.

Subject: New Sunshine Law/FOIA request and evidence re: Lee Sheriff felony abuse of a disabled adult and FL DOH/U.S. DOJ ADA investigations

New request that the sheriff has dodged two times previously,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-torture-88182/

Also attached are the documents taped to the door of my home at the time of arrest that alerted the LCSO that contact and communication with Huminski would violate Judge Adams' gag/no-contact order placing Huminski in criminal contempt of court. As stated in the above link, I also verbally informed the arresting deputy of the gag order preventing contact and communication with LCSO staff and he waived protection by the gag order. The documents were placed upon my door on 10/3/2018 and were visible by deputies that knocked on my door from 10/3/18 until the date of arrest.

I have the originals viewed by the LCSO arresting deputies with the tape still on them that attached them to my door.

Upon arrival at the Jail, after I mentioned the gag order to the jail staff and they started the "sovereign citizen" chant and the arresting deputy quickly left the room so that he would not interfere with the entertainment the jail staff was enjoying from the punishment and abuse of myself for mentioning the gag order.

The LCSO had knowledge that the gag order existed when they punished me with solitary in inhumane conditions for merely mentioning the existence of the patently insane/corrupt gag order instead of pulling up the case on the public court information system and then seeking legal advise on how to handle such a case whereby contact with any LCSO personnel is barred by court

AMERICAN OVERSIGHT

order. They chose a backwoods hillbilly style of justice instead of a concern to obey the law.

This is why the sheriff is refusing to produce the report from the arrest or any recordings made in the police cruiser while transporting to the jail. He is trying to cover-up the misconduct and crimes.

There is no law enforcement duty to create new crime (contempt of court) as was done in the instant matter, to the contrary, law enforcement should not engage in conduct that creates new crimes. -- scott huminski

Subject: DOI ADA Complaint, ADA violations at Lee County, Florida Jails

Hello,

I have been on complete SS disability for 10 years with avascular necrosis of knees and hips, bilateral hip replacements, gout, spinal stenosis, degenerative disk disease, open back surgery, hypertension, PTSD, anxiety disorder and social phobia. I was jailed for 3 weeks for not paying a contempt of court fine in Lee County, Florida 6 months after open back surgery while I was still experiencing post-surgical pain and disability. I was provided zero accommoadations, forced to sleep on the floor because I was physically unable to jump into a top bunk, no ADA compliant toilet/shower facilities. Transported in a school bus without handicap grab bars (I was handcuffed and chained to other inmates so grab bars may not have been helpful if they were available). My blood pressure and PTSD/anxiety medications were abruptly ended and I was place in solitary for 8 hours in only my underwear and shorts and barefoot in a 55 degree windy cell with only steel and concrete surfaces that plummeted my temperature to 97 degrees. Inmates wear thermal underwear and a fairly heavy jump suit. These acts are felony abuse of a disabled adult under State law, Florida statute 825.102, and patently clear ADA violations.

All disabled persons residing at the Lee jails are subjected to similar ADA violations.

Further, the sheriff has formal written rules in place that allow his nurses to override and trump any determinations of disability made by the Social Security administration and medical doctors to allow him to violate the ADA with a fraudulent determination by his nurses.

General counsel for the Florida Department of Health is prosecuting the medical personnel. I don't believe they are addressing the ADA issues. See links below that also contain contact info. for the officials involved in the DOH investigations. The FL DOH has extensive documentation on this issue and I waive all privacy and HIPAA rights concerning my medical records currently in the custody of the FL DOH and the DOH can forward all materials to the Dept. of Justice.

Subject: Lee sheriff medial staff Sunshine law production fraud and Courthouse corruption

I suppose I shouldn't be as critical of the sheriff printing out a document, hand-modifying it, and providing that as valid sunshine law production of documents in light of the following:

Clerk Linda Doggett, printed out a June 5 Circuit Court order from 17-ca-421 (the order was 119 pages long and originally filed in 17-ca-421 on 4/26/17) On June 30 of 2017,

04/26/2017	Order to Show Cause	119

She hand modified the order by adding a non-existent docket number and without a new judicial signature,

She processed it as a valid order received from a judge,

the court clerk then initiated a new criminal proceeding in Lee county court (17-mm-815) with a hand modified Circuit Court order without participation of a judge or prosecutor. A new low in courthouse corruption that initiated circumstances that led to the DOH and ADA issues now under investigation.

This clerk engaged in a litany of State and Federal crimes including, but not limited to, fraud, forgery, obstruction of justice and federal civil rights crimes by acting as a judge or prosecutor, the only entities that can initiate a prosecution.

To add insult to injury, Clerk Linda Doggett certified to the 2nd District Court of Appeal, under oath, that her forgery was a true and correct judicial order issued in the County Court. Nothing is further from the truth. The prosecutors and even my current counsel are OK with this fraud upon the appellate court.

Official crime is rampant in Lee County.

Below is a screen shot of the original 6/5 order (page 1) followed by the fraudulent forged one that Linda Doggett fraudulently filed as an authentic judicial order on June 30 which she boldly certified as authentic to the 2 DCA absent 116 pages with the forged docket number. Lots of government crime here makes one wonder if the sheriff was trying to kill me during my lodging at his facilities. He probably came close with the denial of my blood pressure medications.

True docketing of the order of the deficient order (sans 116 pages) in **Circuit Court**

06/05/2017	Order to Show Cause	3

Fraudulent docketing of the June 6 Circuit order on June 30 in **COUNTY COURT** (certified by crooked clerk to the DCA)

06/05/2017	Order to Show Cause Filed	3

The legitimate Circuit Court 6/5 order printed out by the clerk for the manufacture of the 6/30 fraud.

AMERICAN OVERSIGHT

Now the forged/fraudulent order of Clerk Dogget absent the required Judicial signature and proper caption. Note the double time stamp, an admission that it is not a genuine judicial order, rather, it is an order manufactured by the clerk. She is so sloppy, she didn't even correct the caption when forging her new order as she was initiating a new prosecution with her manufactured order in the COUNTY COURT not Circuit. She missed changing the caption to County Court. Criminals often make stupid mistakes when they are operating in their official capacity and believe they are unaccountable.

THESE COURTS HEAR DEATH PENALTY CASES, NOTHING CAN BE TRUSTED
especially when defense attorneys like Mr. Candela assist in the fraud upon the appellate courts.

Subject: Lee sheriff medal staff

This conduct in oklahoma, see below, is the exact same mindset of many of the female guards at the Lee jails including the one that responded on the intercom concerning my report of the Redman Syndrome from toxic medications supplied to me without my knowledge or consent. When she stated "don't take pills you're not supposed to", luckily for me, my situation was not life threatening unlike the unfortunate fellow below. After acknowledgement of the toxicity of one of the medications they supplied me with, they kept on trying to dispense the toxin to me and I had to interrogate the person dispensing medications until I was released.

Eventually, for some reason, they had me sign a form refusing the toxin instead of immediately removing the offending medication they swapped for my Toprol 200. This was probably to document that I was refusing medication when the opposite was true, I desperately wanted my blood pressure medication, not the medications concocted by these nurses who apparently believe a 5 minute interview gives them knowledge superior to a licensed doctor.

I had been under the care of physicians for 22 years, since when can a nurse with zero knowledge of my medical history trump the long-time treatment plan of medical doctors.

Upon intake, a patient should be asked if they are on total Social Security disability and be provided with ADA compliant lodging. If the sheriff has a problem with this he can sort out the disability situation with the Social Security administration and seek review of their determinations.

If a patient is on medications prescribe by a long-time family physician, a sheriff's nurses must not massively change the treatment plan without consulting the prescribing physician. These nurses who ignore the directions and advise of experienced MD's should not completely disregard the knowledge and wisdom of experienced doctors. Doctors place patients on medications for very good reasons after long-term knowledge of a patient that should not be altered by nurses working for law enforcement. At the very least they should have substituted 200 mg of metoprolol succinate with 200 mg of metoprolol tartrate (this medication is inferior for Huminski, but far better than the path they took). Had they inquired, I would have demanded the beta-blockers instead of water pills that I knew I had a problem with as far as side effects and it didn't help with my blood pressure. Further my PTSD, anxiety and blood pressure are linked to adrenal response which water pills do not address. No one inquired as to why I was on a fairly high dose of Toprol.

Subject: Lee sheriff lies and evades/dodges Sunshine Law requests

The sheriff claims the requests were unclear which is a lie. One request asks for bunk assignments of Huminski's cellmates. The other request asks for the police report concerning Huminski's arrest and transport to the Fort Myers jail, a two hour period whereby the arresting officer was quizzing Huminski while entering data into his computer. i.e. Distracted Driving and probably an accepted practice at the LCSO.

The first thing Huminski said to the officer informed him of the no-contact order of Judge Adams preventing communication with LCSO staff under penalty of imprisonment, the deputy then waived his protection by the gag orders and Huminski then responded to the questions. Upon arrival at jail, Huminski alerted the staff of the existence of the gag order, the staff repeatedly chanted "sovereign citizen" (whatever that is) and placed Huminski in solitary and engaged in felony abuse of a disabled adult. The arresting officer was present when the decision was made to place Huminski in solitary as a punishment for mentioning Judge Adam's gag order.

Many times the cover-up is worse than the crime. See the request's content in the below sheriff emails,

Dear SCOTT HUMINSKI,

Regarding the Media Request received on 1/20/2020 requesting records, the records have been in "Requested Clarification" status for 10 business days. The Lee County Sheriff considers this request closed. If you would still like the records, please submit another Media Request. Thank you for using the Public Records Center.

Request Details:

AMERICAN OVERSIGHT

Reference # M051080-012020

Description of Records Requested: The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Lee sheriff and the ADA

The Department of Justice (DOJ) regulates Title II of the Americans with Disabilities Act (ADA), which covers state and local governments. These public entities are responsible for the operation or management of juvenile and adult jails, detention and correctional facilities, whether they are operated directly by the state or local government, or through contracts, licenses, or other arrangements with other entities. (§35.151(k) and §35.152)

Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Accessible cells or housing units need to be available in all security classifications and/or program levels of a facility.

Unless it is appropriate to make an exception, public entities must not place inmates with disabilities in:

- Inappropriate security classifications because no accessible cells or beds are available;
- Medical areas unless they are actually receiving medical care or treatment;
- Facilities that do not offer the same programs as facilities where they otherwise would be housed; or
- Distant facilities where they would otherwise not be housed and that would deprive them of visitation with family members.
- Huminski was placed in a cell block without ADA compliant cells.

Minimum Requirements from the 2010 Standards (§35.151(k))

New construction of jails, prisons, and other detention and correctional facilities must comply with the 2010 ADA Standards for Accessible Design. At least 3% of cells must be accessible for individuals with mobility disabilities, including those who use wheelchairs. Accessible cells must be provided in each classification level.

At least 2% of the general holding and housing cells must be equipped with communication features designed to accommodate individuals who are deaf or hard of hearing. These features include telephones with volume control where telephones are provided in cells, and visible alarm signals where audible emergency alarm systems are provided for occupants of cells and occupants are allowed to evacuate independently. (Sections 232 and 807, ADA Standards)

Alterations to jails, prisons, and other detention and correctional facilities must also comply with the 2010 ADA Standards until new construction levels of access are achieved within the facility.

When alterations are made to specific cells, required features for mobility access may be provided in substitute cells (cells other than those where alterations are originally planned), as long as the substitute cell:

- Is located within the same prison site,
- Is integrated with other cells to the maximum extent feasible, and
- Has equal physical access to areas used by inmates or detainees for visitation, dining, recreation, educational programs, medical services, work programs, religious services, and other offered programs.

If it is technically infeasible to locate a substitute cell within the same prison site, the substitute cell may be provided at another prison within the same system.

Medical and long-term care facilities in detention and correctional facilities, whether they are licensed or not, are also subject to the 2010 ADA Standards for accessibility.

In passing the Americans with Disabilities Act ("ADA"), Congress noted that the isolation and segregation of persons with disabilities due to the discriminatory effects of physical barriers are a "serious and pervasive social problem," and there has been very little "legal recourse to redress such discrimination." The ADA lists several purposes, one of which is "to provide clear, strong, consistent enforceable standards" as part of a mandate to eliminate such discrimination. The ADA is modeled after section 504 of the Rehabilitation Act of 1973. A key difference is that while the Rehabilitation Act requires facilities that received federal funding to be accessible to persons with disabilities, Title III of the ADA applies to places of public accommodation specified by the ADA, regardless of the receipt of federal funding.

Under the ADA, new construction must be "readily accessible" to persons with disabilities. The new construction's "readily accessible" standard is met if the new construction or alteration is done in compliance with either the 1991 or the 2010 ADA Standards for Accessible Design. These standards include detailed, lengthy and technical specifications. In contrast, existing facilities must be made accessible to disabled persons if the changes are "readily achievable." The "readily achievable" standard for existing facilities is met by making alterations that are "easily accomplishable and able to be carried out without much difficulty or expense."

After its passage, Congress charged the Department of Justice ("DOJ") with implementing the ADA. One of the DOJ's ongoing tasks, in partnership with the Federal Access Board, is to create regulations to provide guidance for the enforcement of the ADA. Congress created the Federal Access Board in 1973 to ensure access to federally funded buildings, and it has become a "leading source of information on accessible design." The DOJ codifies the resulting regulations in the Code of Federal Regulations, and the appendices of that code further explain the regulations. In 1991, the Federal Access Board created the ADA Accessibility Guidelines ("the ADAAG"). The ADAAG were purely advisory to the DOJ and addressed new construction standards. The DOJ then sought public comment on the ADAAG, made applicable changes based on those comments, and finally adopted and codified the ADAAG as the official standards for the ADA. In 2010, the DOJ released a revised version, which became effective March 15, 2012.

Courts have upheld the "two distinct systems for regulating building accessibility: one to apply to existing facilities (those designed and constructed for occupancy before January 26, 1993) and another to apply to later-constructed facilities." Pre-existing or "grandfathered facilities" only need remove easily removed barriers. In contrast to grandfathered facilities, new construction violations are indefensible, unless there is a structural impracticability. A structural impracticability exists when "unique characteristics . . . make accessibility unusually difficult to achieve." Apart from structural impracticability, courts have no authority to apply equitable discretion in excusing the violation.

Overall, statutes, advisory and technical assistance materials, and case law work as a team to contribute to the goals of the ADA, voiced by President George H.W. Bush, "[E]very man, woman, and child with a disability can now pass through once-closed doors into a bright new era of equality, independence and freedom."

The Huminski was housed, transported and accessed portions of the Lee Jails built or significantly modified after January 26, 1993, as such, these areas of the Lee Jails must comply with the ADA and are not "grandfathered-in". There is very little or no attempt to comply with the ADA by the Lee Sheriff.

Some ADA accomodations are as follows:

Examples of "readily achievable" barrier removal that must complied with include, but are not limited to, the following actions (some of these were absolutely absent in Huminski's cell and during his transports between facilities in non-ADA compliant vehicles):

Installing ramps;

Making curb cuts in sidewalks and entrances;

Widening doors;

Installing offset hinges to widen doorways;

Installing accessible door hardware;

Installing grab bars in toilet stalls;

Installing a raised toilet seat;

Repositioning the paper towel dispenser in a bathroom;

Installing an accessible paper cup dispenser at an existing inaccessible water fountain;

Subject: Re: Lee sheriff foia/sunshine law fraud

In the attached, sheriff supplies 4 bed/bunk designations (A,B,1,10):

A = unknown
B = a handwritten notation added to the attached document at the time of production stating "B=bottom". A fraud, handwritten notes added at the time of production have no place in a FOIA/Sunshine law response. What is A then? The first several days I resided at the jail, there were not enough beds for the number of inmates, bunk designations, if there genuinely is such a thing, are meaningless in overcrowding situations. The sheriff does not enforce top or bottom bunk assignments.
1 = unknown
10 = unknown

Then a snippet of a nurse's comment from another alleged document was cut and pasted to the bottom of the attached production.

When I requested the original entire record/document that contained the nurse's bunk designation via another request,

THE SHERIFF RESPONDED . **No Documents Responsive to your Request** (see below) apparently there was fraud in the attached production and the lack of an originating document indicates that the nurse's bunk designation may have been manufactured by the sheriff to avoid negative consequences.

AMERICAN OVERSIGHT

A sheriff becoming evasive and deceptive in document production is a good sign of corruption and the desire to avoid consequences by dishonesty and fraud.

Describe the Record(s) Requested:
In your last production, you supplied an excerpt of a document or record detailing a nurse advising that I be assigned a bottom bunk. I need this in context of the full record, document or database. The nurses message on 2/13/2019 that you included in the document entitled Huminski_OMS_housing_R supplied by you on 1/17/2020 clearly indicates that the nurse's comments were cut and pasted from a document, record or database. For review of the document in context, I request the full document, record or database that the excerpt was taken from. Attached is a copy of what you produced which is something that was clearly manufactured from excerpts from an original document/record. Please supply the full document/record or database. Please see attached and provide an original full screenshot of the nurse's directions in context of the records above and below the nurse's comment.

Subject: Lee sheriff nurses acting without supervision by physician

It is impossible to believe that a physician supervised any of the medical staff at the Lee Sheriff's facilities because no Doctor would disturb 22 years of successful medication and completely yank a patient off all medications that worked perfectly for 22 years. The Toprol ER that was prescribed to Huminski had a dual purpose; one as an excellent blood pressure control and as an anti-anxiety medication. Because of Toprol's control of adrenaline, it helps mitigate Huminski's anxiety and related disabilities. For this reason Toprol is often prescribed for stage fright and anxiety issues. It is very helpful to Huminski and his handling and management of his disabilities.

> Propranolol and Toprol Used for short-term relief of social anxiety. May reduce some peripheral symptoms of anxiety, such as tachycardia and sweating, and general tension, can help control symptoms of stage *fright* and public-speaking fears, has few side effects.

It is my belief there was no supervising physician as required by statute at the Lee Sheriff's facilities. See below for nurse practitioners and physician assistants. No Physician would look at Huminski's medical history and recommend an ending of medications that worked perfectly for 22 years and take a risk of side effects when Huminski's long-time medicines were tolerated perfectly by Huminski and worked supremely well. The result of the Lee Sheriff's medical staff's experimentation with Huminski's medications met no protocol of a supervising physician, if there was a supervising doctor. No doctor would recommend the "cold turkey" ending of medications taken for 22 years and no written protocol exists supporting the conduct in the instant matter. Because of the lack of supervision or proper protocol, Huminski suffered increased severity of his PTSD, GAD and social phobia as well as soaring blood pressure that Huminski worried would cause a stroke, organ damage, heart issues or kill him.

Huminski was never offered a consultation with a physician, nor, did he know there was a physician available at the Lee Sheriff's facilities. The Redman Syndrome caused by the toxins prescribed to Huminski are not the product of negligence, they are the product of a mindset that the incarcerated are sub-human and don't deserve carefully thought out treatments and medications. It would not be surprising to find out that Huminski was prescribed the same medications given to all patients with hypertension at the Sheriff's facilities, a one size fits all mentality, which is not the case in the practice of medicine. Medical history is supremely important.

Nurse practitioner,
Practice Authority
A written protocol between an NP and the supervising physician is required. The degree and method of supervision that is determined by the NP and the physician must be specifically identified in the written protocol. General supervision by the physician is required and specified in the written protocol and must include a description of the duties of the NP, a description of the duties of the physician (which includes consultant and supervisory arrangements in case the physician is unavailable), the management areas for which the NP is responsible, a provision for annual review by the parties, and specific conditions and a procedure for identifying conditions that require direct evaluation or specific consultation by the physician. Fla. Admin. Code 64B9-4.010

Physician Assistant,
Supervision Requirements
The law outlines the exact means of responsible supervision. Direct supervision is not required, but the supervising physician must be easily available or be physically present for consultation. Fla. Admin. Rules 64B8-30.001(3), Fla. Stat. §458.022(f)

Subject: Lee sheriff retaliation, Gov't Answer Brief Due - 2 weeks

Attorneys Alper & Candela, Please note the answer brief in the 2 DCA is due on 2/12/2020. No extensions will be consented to. Mr. Candela, conflict yourself off the case please as I have legal malpractice claims against you for negligence proximately arising out of your refusal to file a motion to stay the sentence and all matters below pending appeal. The record is clear concerning the injury and damage caused by your failing to seek a stay; incarceration, torture and ADA violations by the Sheriff.

Below is my complaint to the U.N. concerning the human rights violations of the Lee Sheriff (the human right of free speech) and the current sheriff is the hand-picked replacement (buddy) for Sheriff Mike Scott (a defendant in Huminski v. Mike Scott et al, 17-ca-421, aka Huminski v. Gilbert),

A clever scheme by the sheriff to make himself litigation-proof by making the service of himself in the DCA and Florida Supreme Court a crime (contempt of Judge Krier's and Judge Adams' gag orders). AKA obstruction of justice via a prior restraint.

Tying my hands concerning service of papers, mandated by Rule, violates the First Amendment and Due Process and these activities are federal civil rights crimes.

Subject: Re: Lee sheriff more ADA violations

If a patient under the care of the Lee Sheriff suffers a medical emergency and is hospitalized, the fictional medical record manufactured by the sheriff can lead to medical errors. As I pointed out in a prior email, falsely reporting that someone is a smoker or IV street drug user as suggested by the falsehoods included in my erroneous medical records can harm and endanger the life of a patient is crisis.

Said errors could send doctors in a wrong direction when attempting diagnosis and alter treatment plans and medications potentially causing delay, harm, injury or death. Medical record errors may lead to the use of the least optimal medication, treatment or procedure.

I have reproduced below the email pointing out the sloppiness and careless/reckless disregard by the Lee Sheriff concerning medical record accuracy in medical records that he maintains, controls and disseminates pursuant to HIPAA regulations.

Subject: Re: Lee sheriff more ADA violations

None of the vehicles Huminski was transported in comply with ADA requirements for transport of the fully disabled.

Aggravating this fact is that while boarding and departing from transport, disabled patients are handcuffed and chained together while transported. During these transports, I was in fear of injury or death proximately arising from the complete absence of ADA accommodations during transport by the Lee Sheriff. --scott huminski

Subject: Re: Lee sheriff more ADA violations

Line items from medical records supplied by the sheriff that are lies followed by reality. This entire intake procedure took only a few minutes, the paperwork generated doesn't match the small interview. Thus the below false statements.

History of drug use ..... yes (absolutely did not state this to anyone, a lie)

Prior incarceration ..... yes (a lie)

Substance use disorder ..... yes (a lie)

Substance abuse ..... yes (a lie)
2/27
History of withdrawal ..... false (yes, i did withdraw from gabapentin prescribed for spine pain, the prior year, medication did not help)

Smoking ..... yes (false)

Street Drugs ..... yes (false, only take drugs prescribed by doctors and dispensed at Walmart or licensed dispensaries)

Brian Medin "he is on SSI for PTSD, drug issues (a bold faced lie regarding "drug issues", the PTSD portion is correct)

The sheriff's jail and customs, policies and procedures therein violate virtually every topic discussed in the below summary of ADA requirements in his jails.

Subject: Lee sheriff more ADA violations

The sheriff provide NO ada compliant toilet facilities without proper height commodes and without the required handicap grab bars.

Below are guidelines and information concerning the sheriff's disdain for the ADA and failure to provide ADA compliant bathroom facilities.

https://www.buildings.com/article-details/articleid/9242/title/the-ada-compliant-restroom

The shower facilities are similarly ADA non-compliant in every location Huminski resided in at the Lee Jails.

These ADA violations are especially egregious for persons with recent open back surgery such as Huminski.

The ADA-Compliant Restroom

Find out how to make your restroom ADA compliant in this article.

Subject: Lee sheriff new FOIA request

Media Request less than a minute ago
Provide the housing and bunk assignments of persons who shared a cell with Huminski for the first 10 days of his stay in the lee jails starting with 2/12/19. Huminski's cell/bunk assignment was provided in the sheriff's 1/17/2020 production. Provide the same for Huminski's cellmates.

Status : Received

To view all requests go to
https://leecountysheriff.govqa.us/WEBAPP/_rs/Customerissues.aspx

User is s_huminski@live.com
password 123456

The sheriff will not be able to supply this as for the first 3 days, the cell blocks were overcrowded and there were not enough bunks for Huminski and approximately 10 others. No cell or bunk assignments were communicated by the sheriff. This is a per se ADA violation. The elderly disabled should not be treated like 3rd class citizens and made to sleep on the floor.

new FOIA

Media Request less than a minute ago

The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Re: Lee sheriff document production

Just like how the Lee Sheriff does not alert a patient that their life-sustaining medication that you have been on for 22 years is being completely ended putting one at risk of death and injury, the sheriff also maintains secrecy as to any assignment of bunks and no procedure exists for enforcement of bunk assignments.

The 2/13/2019 alleged medical record recently supplied is not in the original production of medical records supplied by the sheriff. I suspect fraud concerning this record. In either case, where-ever this document came from if it is not a fraud, these records are not supplied to inmates via any practice, policy or procedure adopted by the sheriff. Further what was supplied is a cut and pasted excerpt from a document that contains damning information that the sheriff wishes to keep secret.

While imprisoned, I asked the medical provider for my medical records and she denied the request. The medical records supplied related to these matters do not contain the cut and pasted bottom bunk directives.

In the Lee jails, bottom bunks are on a first come first serve basis and if there is a dispute the law of the jungle prevails -- might is right, where an elderly disabled person can not prevail regarding such confrontations with other inmates.

LEE SHERIFF supply the full document where the cut and pasted bunk assignment came from. Many times a cover-up is worse than the original transgressions. -- scott huminski

Subject: Lee sheriff fola

Regarding Lee sheriff fraud that I was assigned a bottom bunk. The sheriff does not provide this information to residents, if the document they provided is valid, it is kept secret from inmates. I would be happy to take a polygraph concerning any fact I have supplied related to these matters.

Subject: Lee Sheriff: Medical Ethics, Disability and Supremacy Clause violations

Mr. Candela,

Your failure to file a motion to stay the matters below pending appeal, thus, your negligence and malpractice, proximately caused me extreme injury and damage at the hands of the Sheriff and State's attorney.

I have retained an out-of-state law firm to prosecute you for legal malpractice. They are taking it on a contingency basis. 50% Suit will be filed after the government's answer brief in the 2 DCA. This is why I directed you to oppose any extensions requested by the government. I need(ed) relief from the government misconduct ASAP, a task that you failed.

We are also bringing an 42 U.S.C. § 1983 action against former State's Attorney Stephen Russell, State's Attorney Amira Fox and Anthony Kunasek. Judges may be added later.

The sheriff will also be a defendant in causes of action arising under 42 U.S.C. § 1983 and the Americans with Disabilities Act. Of course we have to deal with the gag orders of Judge Adams preventing service of the Sheriff (a defendant in Huminski v. Gilbert, et al., 17-ca-421). Your disdain for the First Amendment by not handling the bedrock First Amendment violations in the gag orders of Judge Krier, Judge McHugh and Judge Adams in your brief is noted. The gag orders are unconstitutionally vague, over-broad are a forbidden prior restraint and silence core protected political expression.

Thanks for setting me up for grave human rights violations.

Move to disqualify yourself from the 2 DCA appeal immediately. My online review of your misconduct should be sufficient to get you off the case.

The review is here at a permanent link,
https://web.archive.org/save/https://anthonycandelaattorneylawyerreviewtampaflorida.law.blog/

It is my moral and ethical duty to make sure you don't do this to anyone else. Again, I am forced to assume the role law enforcement should have handled, like the death threats from the Arizona terror cell (Trevor Nelson, Debra Riffel of Maricopa County) that instigated this series of events.

Subject: Lee Sheriff violates his own policies and procedures

Based upon further review, it has become clear that the sheriff engages in wholesale violations of the Americans with Disabilities Act (ADA) and for the safety of those still suffering in the Lee jails, the federal government should take control of these facilities to bring them back into compliance with federal law.

Why was I jailed? ... for failure to pay a contempt of court fine that I could not afford (debtor's prison). Good old fashioned justice. With Mr. Candela not helping by his refusal to stay matters while appeal was pending. The prosecutor's office knows all these facts and are just as liable.

Please forward relevant materials to the U.S. Attorney's Office for this District and to the U.S. Attorney General before death, injury or harm comes to person at these facilities because of the sheriff's disdain for the rule of law.

Time is of the essence. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Hi,
I began reviewing the production of today. I think this will yield a wide pot pouri of the sheriff's violations of his own policies and procedures. After 1 minute into my review the following came up revealing a complete disregard for his own policies concerning the fully disabled. Like myself -- on full social security disability for 10 years for mental and physical disabilities.

The sheriff knows bad things happen when one breaks the law, likewise, bad things happen when he violates his own policies and procedures. There would have been fewer ADA violations and felony abuse of an elderly disabled had the sheriff obeyed his own regulations concerning single cell occupancy had he just followed his own rules instead of making the disabled elderly sleep on the floor. If I was assigned a single cell per his policies, I wouldn't have had to sleep on the floor. Its not just me he abuses, he abuses every disabled person in his jail. If the ADA had criminal sanctions, the sheriff should be first in line. As my review continues, I will update. see below single occupancy policies.

Subject: threats

Mr. Candela, Your threats to me attempting to stop my reportage concerning the felony abuse of a disabled adult and collateral matters could be construed as obstruction of justice.

Please file a motion in the appeal to stay/enjoin the Florida collection activities and punishments while the case is on appeal. You failed to do this at the appropriate time causing my incarceration. This a very common appellate motion quite similar to a motion to release from custody while on appeal. I don't wish to be jailed again because of your failure to file proper and quite common motions at the proper time.

Just the fact that you are appointed does not mean you have to withhold filing of proper and necessary papers in court. You must treat appointed legal work with the same vigor as paying clients. Failure to do so is a violation of the rules of professional conduct and ethical precepts.

I don't know what is up with you, but, you refused my direct instructions to deny the request for enlargement of time and consented to the government delay. This conduct prejudices and injures me.

Subject: Huminski writ of prohibition/mandamus

Mr. Candela, I take your silence as a refusal to file a writ to prohibit collection activities by the State pending resolution of the appeal. I will file it in the next week. It will be less than a page long. A no-brainer. Let me know today if you have changed your position.

This issue may only be tangentially related to the Health Departments investigations. It is being provided to maintain context and this email is core protected political expression afforded the highest level of protection under the First Amendment. (see below link re: core protected political expression) Obviously all my speech is speech critical of the Sheriff, a candidate for public office. Seeking and obtaining the gag order is a serious crime under Title 18. See below criminal statutes.

Mr Holloway, as I have pointed out, all communications with you are in your capacity with the county, not LCSO. All contact with the LCSO is barred via the gag orders entered by Judge Adams. Gag orders requested by the sheriff that remain pending for life. This calls into question if the sheriff can hold office while denying public safety services to a resident (s) of the county he serves. I think not. This affront to the First Amendment, barring core protected political expression are federal crimes defined in
the Title criminal 18 links below as they violate Huminski's First Amendment right to criticize the sheriff and report criminal activity to the sheriff or his staff. One can not be a county sheriff and then pick and chose persons not eligible for public safety services based upon their opinions or the type of crimes they report.

Why did the sheriff seek to silence me? ... to cover up his support of the interstate transmission of terrorist death threat by the Nelson/Riffel domestic terror cell.-- scott

Subject: Lee Sheriff Foia re: DOH investigations, Complaint # 201944590 & 201994592

A new related Foia (sunshine law request) is here concerning the withholding of medical services,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84837/

I note that the sheriff failed to respond to the request of 12/12/19 with knowledge that I am seeking the information to forward to State agencies concerning the pending investigations. *Per se* obstruction of justice. The sheriff refuses to even acknowledge receipt of the information request.
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

It is unclear if the sheriff's department itself is licensed with the DOH in any capacity, although, they are the caretakers of medical records and in control of the privacy and dissemination of medical records consistent with HIPAA or similar state regulations/statutes. It certainly appears that jails should be regulated in a similar manner to nursing homes, hospitals and other care-giver entities. -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These felonies and *per se* medical ethics violations concerning the LCSO medical staff are retaliatory because Huminski exposed the crimes of the sheriff embodied in his request and receipt of a gag order that obstructed justice (including witness intimidation and tampering) of cases before the United States Bankruptcy Court, the Florida 2nd Circuit and Florida Supreme Court. At the most rudimentary level, the sheriff's gag order preventing service of himself and his office in cases where court rules, Due Process and other authorities mandated service of the sheriff are patently criminal obstruction of justice.

My certificates of service in the aforementioned tribunals clearly state that service was obstructed by the sheriff. Even service of the State of Florida was obstructed by the gag order obtained by the sheriff. See below documents and most specifically this one,

Subject: Fw: State's Atty Cover up felony obstruction by Sheriff Scott

The Sheriff obstructed service in the U.S. Bankruptcy Court (a unit of U.S. District Court), obstructed service in the 2DCA 2D17-4740, obstructed my attendance at a hearing in 17-CA-421 and is engaging in ongoing obstruction in 17-MM-815.

The sheriff procured a protective order for him and his staff that prohibits contact or communication. WITHOUT EXCEPTION. As such I am banished from the Lee Court complex in violation of Huminski v. Corsones, 396 F.3d 53 (2nd Cir. 2005). This and other issued are exhaustively documented in the below papers filed in the 2DCA.

Subject: Conflict counsel must recuse

Hi Atty Neymotin,

Your office has advised me to violate the Orders of Judge Krier. The protective order entered by Judge Krier prevents any contact with the Sheriff or his staff. As such, it is criminal contempt for me to interact with court security screeners and bailiffs at the lee court.

Advising me to violate the orders of the Circuit Court is unethical. With that in mind, what is your office's advice for the hearing tomorrow concerning my attendance?

Do I not attend and risk a bench warrant or attend and risk a contempt charge? -- scott huminski

Hi Atty Neymotin,

Your office has performed zero work on the criminal matter and refuses anything and everything I have requested in support of my defense. Assign a different attorney or recuse your off the case. You are still responsible for the 2DCA matter.

Neglect of a legal matter entrusted to your office is an ethical violation. -- scott huminski

Hi Atty Neymotin,

Atty Miller lied to me after the hearing on his motion to recuse. He stated that your office would participate in the pending petition in the 2DCA, 2D17-4740. Lying undermines the attorney/client relationship. -- scott huminski

Subject: Conflict counsel dodging appeal other misconduct

Hi Atty Neymotin,

Your office is responsible for handling this criminal appeal/petition. This is a criminal contempt case assigned to Z. Miller of your office. This appeal arises directly out of the criminal matter assigned to your office. I must also inform you that I am receiving ineffective assistance of counsel in the underlying criminal matter. The criminal case was pending in the Circuit Court for several months and then was "transferred" to County Court.

Please assign an attorney who knows the below law to my case and assign your appellate people to the appeal. See 2DCA docket below. The criminal case is frivolous and the order involved that I allegedly violated are patently unconstitutional and mandate surrender of constitutional rights -- exceptions to the Collateral Bar Rule, that your office has ignored.

THERE IS NO STATUTE, COURT RULE OR FL AUTHORITY THAT PROVIDES FOR A TRANSFER BETWEEN CIRCUIT AND COUNTY COURTS. YOUR OFFICE'S FAILURE TO RECOGNIZE THIS FUNDAMENTAL ISSUE IS WASTING THE TIME OF ALL AND CONSTITUTES CONDUCT PREJUDICIAL TO THE ADMINISTRATION OF JUSTICE AND wastes judicial resources.

Please recuse off this case if you do not have the staff expertise to handle the issues. Mr. Miller refuses to file motions I have requested based upon the above and other issues. -- scott huminski

Subject: Lee Sheriff medical staff felony abuse of a disabled adult, Complaint # 201944590 & 201994592

Another FOIA to the LCSO on the felony abuse of a disabled adult that may assist in the investigations pending against the Lee Sheriff's medical staff. See link below. At the link is a downloadable copy of all correspondences, to date, with the DOH concerning the LCSO medical staff.

I note that the LCSO was well aware of my disabled status based upon it's status as a defendant in Huminski v. Mike Scott, et. al. (aka Huminski v. Gilbert, et. al.), 17-CV-421, 20th Circuit, a lawsuit concerning the death threats issued to Huminski (2015-2017) from Trevor Nelson and/or Debra Riffel (while impersonating Officer Ryan Pillar) of Maricopa County, Arizona and the impersonation of Huminski by the same two individuals in letters sent to Officer Ryan Pillar (Gilbert, AZ Police) his parents and others in 2012-2015 approximately. Thank you. -- scott huminski

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

The decision to deny me medical services upon intake into the Lee Jails and to place me in solitary instead (along with previous complained of LCSO criminal conduct), was done with the knowledge that my age was approximately 60,

putting the LCSO and their medical staff on notice that felony abuse of an elderly and/or disabled adult was on the table. Of course, medical services or denial of medical services that constitute felony violations of F.S. § 825.102 are *per se* unethical under medical ethical guidelines. Crime is not a valid medical treatment or service. See this thread.

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hello,

The placement of myself in solitary prior to medical screening for an elderly fully disabled adult with chronic medical issues is a felony, F.S. § 825.102, by the LCSO.

AMERICAN OVERSIGHT

See statute excerpts (full statute below) concerning the immediate placement of myself into solitary in a 55 degree cell barefoot with only a thin t-shirt and shorts without any bedding that drove my body temperature down to 97.0, i.e. torture/malicious punishment.

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

These felonies are per se medical malpractice and caregiver malpractice as they are felonies against the elderly disabled. Thank you. --Scott huminski

Hi, I am in receipt of your recent letters.

I believe that the sheriff's medical staff lied about my medical record to gain State/Federal funding or grants, etc. concerning their lies input into my medical records.

I am not on Social Security Disability because of "street drug" use as lied to by the LCSO. I grant the FlHealth.gov power of attorney to access my first 5 years of medicare/social security records. I am on Social Security for joint issues, avascular necrosis, PTSD, Social Phobia, GAD. Now spinal stenosis and spinal disk degradation are added to the list.

I don't use "street drugs" as mentioned several times in the LCSO medical records. Medical marijuana and prescriptions filled at Walmart are not "street drugs". All of this is a lie, probably to secure funding or for some other improper motive.

False "street drug" information entered by the LCSO medical staff caused me to be place on "DETOX" for 10 days which prevented me from obtaining sleep medication for 10 days. Lies in medical records can cause injury. I once had a bogus allergy to penicillin sneak unto my records elsewhere and that led to my treatment with a lesser effective drug. False medical information is dangerous to the safety of the patient. During those first 10 days, I got 2-3 hours of sleep a night as a result of LCSO lies. Also felony abuse of a elderly disabled adult. See statute below.

Please do not hesitate to obtain the Social Security/medicare information related to the lies entered into my medical records. Power of attorney is granted to the Florida Department of Health and/or Ylonka Guzman Jimenez to obtain these records from the federal government.

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hi, I am writing to ascertain if more input from myself is required for the above board complaints.

Cutting my beta blockers 75% from 200 mg to 50 per day (with a less effective drug), when there was a recent hospitalization for transient ischemic attack (mini stroke) is not only unethical and a violation of medical norms (especially without initiating a physician / patient relationship) and blindly prescribing is abuse of a disabled adult. I have been on on SSDI for 10 years.

This is a felony in Florida and a federal civil rights crime (8th Amendment violation) punishable under federal civil rights crime statutes 18 USC 241, 242. Please refer this to the U.S. Attorney, the FDLE and the Florida and U.S. Attorney Generals. Thanks -- scott huminski

Subject: Missing Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

I noticed that in the brief medical intake that occurred after my 8 hours in solitary in a 55 degree room (I was barefoot and clothed in a light t-shirt and shorts) there was no taking of vitals reported. The reason was that I was becoming hypothermic from the 8 hours of solitary in a cell without bedding, only concrete and steel existed in the cell. Deliberately causing physical harm is an assault and battery. Please forward this to the FDLE and U.S. Attorney. My temperature after solitary was 97 which they took but did not disclose in the records the jail produced.

The name of the pharmacy or pharmacist was not provided in the records. I never received the proper literature with any medications provided, a pharmacy error, which would have prevented the Redman Syndrome that caused me medical harm. Had I received the proper paperwork, as regular pharmacies provide, I would have alerted the staff of a toxic medication and I would have refused the offending medication(s). The level of prescribing secrecy and lack of pharmacy information provided to the patient about the drugs dispensed caused the problem.

My blood pressure was taken at least 10 times and recorded by individuals who dispensed medications (I don't know their professional information) and these records were not supplied. They document my out of control blood pressure. Thank you. -- scott huminski

Subject: Records: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592

Hello, They finally released my records. I still don't know the professions of any of the names provided, i.e. doctor, nurse, aid, pharmacy tech, etc..

I gave no consent to anyone to stop existing medications or to consent for new medications upon intake to the jail.

I was arrested at approximately 10:30 and got to the Jail at the below time, noon, and immediately was put in solitary for 8 hours as the medical records reflect. If one has diabetes, seizures or many other problems, this custom of warehousing patients for up to 8 hours with no medical information taken could prove deadly to persons with medical issues. During this initial solitary there was no inquiry if i had food allergies or special/religious food needs and i was provided a meal blindly -- bologna on white. This is dangerous. I was never consulted with by a doctor concerning the vast changes in my medicines or never asked if I had questions for a pharmacist when medicines were dispensed. Note the 7:58 time on the medical history documenting the solitary.

AMERICAN OVERSIGHT

I don't know and never met Andrew Grey, I don't know if this person is a doctor, nurse, pharmacist, and they never mentioned to me they were taking me off medications I have been on for 22 years. My only history of withdrawal was when I ended gabapentin for spine pain and sciatica a year earlier.

Kathy Verdes lied about drug abuse when she stated i take "street drugs" and this contradicts the walmart prescriptions verified on 2/19/2019 which had a xanax prescription. (see attached) I never had this issue and never told her I did. Alprazolam, xanax has been prescribed to me for 22 years, I take it as directed.

Huminski was deprived of all morning medications on 2/27/19 per entry of Karen Hergal, this is common, to get 12 hour medications at far longer or shorter intervals than required. This happened to me many times. There are also an entry of "denies all" that did not happen. Ms. Hergal lied about a history with street drugs.

Prior to administering the first doses of new medications, if I was told they were stopping the treatment that worked well for 22 years, patient should be allowed a consult with a pharmacist or doctor on the new medications.

Note that after side effects from HCTZ (or clonidine) was noted, the toxins that caused Red Man Syndrome (that i was prescribed deltasone for), on 2/19/19 they re-prescribed the toxin and it was delivered to me for a day or two until I noticed problems and I had to interrogate the person dispensing the pills and i had to deny the toxin. My declining the toxin is also in the attached.

Although my blood pressure had been recorded 10 or so times, the report on 2/14/2019 had a blood pressure of 153/114 p 136, revealing the ineffective treatment plan without concern for patient's 22 year history of successful blood pressure management. This is dangerous. I feel symptoms of tightness in chest/anxiety/fear when my blood pressure soars without adequate medical intervention. Elevated blood pressure can cause organ damage, stroke, heart issues and more. This negatively impacted my anxiety issues because I thought I might die from the extremely high (for me) blood pressure.

See entry of 07/08/2019 [sic] (the date is probably around 2/16/2019) where i emphasize my 20 years of successful medications and relatively good health.

On or about 2/18/2019 i spoke to a female guard via the intercom system and explained that I was given medications that made me ill and required medical intervention, she rudely stated "don't take pills you're not supposed to". I explained the pills were started without me knowing. This is misconduct.

2/27/2019 Brian Medlin lied that i was on social security for drugs problems. I am on social security for joint issues (hips, knees) and for PTSD, Social phobia and generalized anxiety disorder.

In summation, this is the worst medical treatment I have received in my entire life and, at 60 this year, it is the first time I spent in jail. -- scott huminski

As you can see, the Sheriff is refusing to forward medical information because there are many problems with the medical treatment of patients at the Lee jail. I hereby grant the FL Health Department and their associated Medical and Pharmacy Boards power of attorney concerning my medical records being withheld by the sheriff. There are dangerous medical situations at the jail. Luckily, my experience wasn't fatal, the same might not be true in the future.

I have no knowledge of who the persons were dispensing the medication at the jail ... nurses, pharmacy techs, medical assistants, etc..

I waive all HIPAA rights/protections and my jail medical records may be posted online or shared by anyone to anyone at any time. Thank you.

Dear scott huminski:

Lee County Sheriff's Office received a public records request from you on October 03, 2019. You requested the following:

" To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.
Sincerely,
scott huminski

Your request has been received and is being processed.
Please Note: All requests are completed in the order in which they are received. Additional information or clarification may be needed to fulfill your request. Failure to provide additional information or clarification within 10 business days will cause your request to be canceled and closed out. You will then be required to submit a new request.
Research-intensive requests may require more than 10 business days to fulfill and may require a paid deposit before the request can be fulfilled. All deposit invoices are due upon receipt. Release of information requires payment in full. Additionally, any further requests may not be considered until unpaid invoices are paid in full.
Please contact our office immediately once requested information is no longer needed. Payment for completed requests prior to cancellation is expected. If you wish to pick up the request, please contact us in advance.
While use of GovQA for public records requests is not mandatory, requests submitted outside of the GovQA portal may delay the receipt of requested information.

Subject: IAIL Medical Board & Pharmacy Board Complaint # 201944146

Hello, I am in receipt of your letter of 10/11/2019.

The sheriff has ordered the medical staff to not supply various medications that are medically appropriate and necessary for patients. Thus, loyalty to the sheriff and his rules has trumped the medical staff's proper handling of the cases and limitations of FDA approved medications that can be prescribed to patients lodged at the sheriff's facilities pursuant to policies and procedures mandated by the sheriff. A potential case of unauthorized practice of medicine by the sheriff via his control over the doctors and medical staff working for him in Fort Myers. I consider the handling of my medical records request beginning with in-person visits on 9/24/2019 obstruction of justice related to the medical and pharmacy boards potential investigation into medical care at the Lee jails.

Allowing a sheriff to determine what medications can be prescribed by tying the hands of licensed medical professionals is corrupt. Solitary confinement without inquiring into the medical situation is a violation of medical ethics and norms. Withholding access to a physician for 5-7 days after blindly prescribing incorrect and outright toxic medications is a violation of medical ethics and professional guidelines. All persons lodged at these jails should have an immediate consultation with a physician to establish a proper patient - physician relationship, prior to prescribing, to save lives and maintain health.

The sheriff's office wrote as follows (see below) concerning (1) my attempt to obtain my medical records followed by (2) his classification of my 2nd request as a duplicate and finally (3) my request via the muckrock.com website which remains pending. I ask that you expedite this matter to avoid further medical harm to persons lodged in the Lee jails whereby doctors are prohibited from freely and without interference allowed to engage in the practice of medicine pursuant to their training and experience free of interference from the sheriff or his policies and procedures. -- scott huminski

I note that the personnel who dispensed the medications daily had no name tags and did not identify themselves as employees or subcontractors of any company. -- scott huminski

Subject: Suicide or life in prison

This is the choice I am confronted with. I engaged in contact dozens of times with sheriff staff while incarcerated which translates to life in prison, or more likely, death at the hands of the sheriff, he won't screw up again. Speaking to the sheriff's staff is a crime, indirect criminal contempt of court, and Judge Adams will give me life. No thanks.

Then these government nurses who believe they are superior to medical doctors and can trump 22 years of my doctors medication and treatment plans and impose the death penalty would at least make the suffering less.

I only have a few years left, and I will not spend them in a police state jail. I've seen the LCSO cruisers stalking me across the street and attempting to follow me. This is enough. -- scott

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 96, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: Re: Huminski arrest and incarceration completely illegal

Judge Adams knew I was indigent and filed bankruptcy. Knowing this, at trial, after my 3 weeks of incarceration, he found me guilty of not being able to afford the fees. NOT A CRIME. No, zero, evidence was proffered at trial supported a conviction. Violation of probation, not paying fines and fees is only justified by evidence that one has the ability to pay. In the United States, there is no debtor's prison, as Judge Adams seems to believe.

Violation of probation is a separate crime, so the "conviction" could be entered on this offense, but, only if the violation was the product of refusal to pay, NOT being indigent and unable to pay.

Here's a good explanation by a FL attorney. You can not be convicted because you are poor. This is inhumane and a human rights violation. It is incredibly corrupt down here.

"Under Florida law, a violation of probation occurs when a defendant *willfully* and *substantially* fails to comply with the terms and conditions of his or her probationary sentence. Whether a violation was both willful and substantial in nature depends on the facts of each individual case and must be proven by state by the "greater weight of the evidence." State v. Melton, 65 So. 3d 96, 97 (Fla. 1st DCA 2011); Thompson v. State, 890 So. 2d 382, 383 (Fla. 2d DCA 2004)." (in Florida v. Huminski, probation violation case, Florida proffered zero evidence to support their allegations and I didn't admit to anything except being behind on the unlawful debt).

The conviction was incredibly illegal. Welcome to lee county, perhaps this conduct is happening in a county named after a confederate general who fought to preserve slavery to be true to the namesake. Slavery and the torture and other crimes in the instant matter share similar corrupt and inhumane characteristics.

Subject: FL AAG concedes statutory misdemeanor fines/fees were illegal

Which caused my incarceration for being poor and when no legal fine or fee existed.

Page 10 of gov't brief link below,

"Appellee concedes that imposition of the cost of prosecution was improper because contempt is a common law crime and the statutes governing contempt do not explicitly allow for the cost of prosecution to be imposed." AAG Chelsea Alper, esq..

The government brief is here. She conceded one fine/fee was illegal, when in reality, all fines and fees were illegal by the AAG's logic and correct interpretation of FL law.

Here is her full brief, the gov't and my own attorney seem to derive pleasure from insulting me.

My main fear is: how many citizens have been abused like this and how many more will face corporal punishment and torture for being too poor to afford to pay fines/fees that are patently illegal, not supported by any FL law.

In my above response to the DOJ (in an email) I posed the question to the FL DOH if taking a person, cold turkey, off blood pressure medications that he had been on for 22 years would increase the disabled elderly adult's risk of death. No answer was received, the answer is obvious. This conduct constitutes felony abuse of a disabled adult and perhaps attempted murder.

Subject: Huminski arrest and incarceration completely illegal

Hi DOH,

The crimes related to felony abuse of a disabled person began at the first hearing with Judge Krier in 2017, she colluded with Judge Adams to illegally move the case to county court because it was a so-called "misdemeanor", absolutely false see below emails detailing that contempt in most State's, including Florida and in federal court is a "*sui generis* common law offense". At the below link there are many cases from every DCA in Florida and from the FL Supreme Court.

https://scholar.google.com/scholar?hl=en&as_sdt=40006&q=contempt+sui+generis+florida&oq=sui

Every fine and fee that caused my incarcerated for not paying were illegal and unlawful.

Note the below correctly revealing that the arrest, toture and incarceration that led to the felony abuse of a disabled adult by the sheriff was completely illegal. Just simple google searches by a non-legal practitioner reveal incredibly bad motives, a frivolous prosecution and pure evil abuse of government power to advance a corrupt agenda. Ms. Alper is the Attorney General's attorney who is pursuing this wrongful agenda. The AG's office wants to cover this up, luckily they can not cover up for the sheriff's nurses. -- scott

Here's a break down of the fees and fines illegally charged by Judge Adams that caused my incarceration and felony abuse of a disabled adult by the sheriff. The arrest and incarceration was completely unlawful.

I was incarcerated and tortured by the sheriff and his staff for not paying completely illegal fines and fees and then summarily convicted for a probation violation for not paying the illegal fines and fees by Judge Adams. He is a danger to society. I did pay the $300 in probation fees because if I didn't the arrest warrant would have issued sooner and $50 a month was manageable.

Fine $500 under 775.083 **(e) $500, when the conviction is of a misdemeanor of the second degree or a noncriminal violation.**

Illegal for a sui generis common law offense, not a conviction, a judgment was rendered on a common law offense.

Continuing to badger me for fines and fees (including a bogus misdemeanor fee) is fraud and illegal.

First the case involves a sui generis common law offense, not a misdemeanor, the fee is illegal.

This is the case law in most States including florida and in the federal system. Here's the results of a simple google search, have you done this search yet? See Ballengee below ("It is **sui generis** and is not, therefore, a crime ..."), it is un-defensible to charge criminal fines/fees for a non-crime. Just plain crazy, the state of the courts in the 20th circuit and lee county. Insanity. – scott

Subject: Lee Sheriff refuses Sunshine Law request and refuses all law enforcement services to resident of Lee County

My disabilities and extreme fear of being subjected to torture again by the Lee Sheriff only permit my communication with law enforcement via email which the sheriff prohibited. Judge Adams' orders prohibited LCSO contact already (all parties to the civil or criminal cases) and prohibits communication with Florida. Mr. Holloway did not have to repeat the words of Judge Adams just to harass, terrorize, harm and injure. NO CONTACT OR COMMUNICATION, I get it.

The only reason I felt confident in contacting the DOH is because Medical Doctors are not known for the same kind of Neanderthal behavior and wrongful shooting and killing of citizens. In fact, the medical profession is far more civilized.

The sheriff has no need to communicate this to me when it is already codified in the order of Judge Adams prohibiting all LCSO contact under threat of imprisonment. I believe Mr. Holloway chose to send this email merely to harass, terrorize and make it perfectly clear that the sheriff is excluding Huminski from law enforcement services. This causes me great anxiety and I have forgone reporting crimes that I have observed in Lee County, including the smoking of crack in the LCSO jail and curfew violations in my neighborhood after Irma.

I collected much information while in jail for the betterment of society, which will continue to be released. see below,

The order of Judge Adams mandating no contact with the LCSO remains pending appeal. My contact with you, as I explained previously is in your capacity with the County. It is criminal indirect contempt of court for me to have contact with the Sheriff or LCSO staff. See order of Judge Adams prohibiting such contact at the below link which was post on my door when I was arrested by your thugs.
https://judgeelizabethbykrieclecountycorruption.files.wordpress.com/2017/06/docs-on-door-for-lcso-gag-order.pdf

The sheriff has violated the Sunshine laws by not providing the arrest report from 2/12/19 and continues to do so. Latest document request is here, luckily the web address of the is not a LCSO address or I would have been prohibited from contact for sunshine requests as well.

Here is the latest request that you have ignored, now for the third time. Stating clarification needed for merely requesting the arrest report and any recordings during transport to jail requires no clarification. Here is the third request, what do you think you need to hide via violation of sunshine law requests?

Lee Sheriff Disabled Elder Abuse & torture
scott huminski is making this request to Lee County Sheriff's Office of Lee County.
www.muckrock.com

Please discontinue violations of sunshine law requests. Seems like the truth hurts, especially the State DOH investigation of the LCSO medical staff. Buy cheap, get cheap. Not a good policy for medical services, neither is your procedures that allow your nurses to override and trump the medical treatments and medications set forth by M.D.'s. In FL nurses can not act in violation of the orders of Medical Doctors. You get what you pay for, sub-standard medical treatment. I think you need to polygraph the guard who put me in solitary on 2/12/19 and, by doing so, engaged in felony abuse of a disabled adult. The reports you are hiding reveal the truth, I was not disorderly, I merely stated that judge adams issued a gag/no-contact order prohibiting all LCSO contact. You engaged in entrapment regarding criminal contempt of judge adams' order. I await my arrest for this so-called crime that occurred dozens of times during my incarceration. Obviously.

Why are you still obstructing the request for the arrest report and transportation recordings?

Are you shutting down sunshine requests from muckrock.com as well. I noticed that I can no longer request via the portal. -- scott huminski

Dear Mr. Huminski -

Please be advised that as of Monday, 02/17/2020, your emails to all Lee County Sheriff's Office email addresses will be sequestered by our Technical Services staff, and will not reach any LCSO email address.

Please do not assume your emails will be read or acted upon.

We simply do not have the staff or resources to wade through the mass of irrelevant, inaccurate, irrational and/or abusive content in your emails, in attempts to locate a legitimate concern or request.

Our duty to use taxpayers' funds reasonably and wisely requires we dedicate our limited resources to addressing legitimate concerns and requests.

Feel free to mail, call, or stop by should you have a specific legitimate request for assistance.

If you legitimately require police or medical emergency assistance, please call 911.

Be advised, if this access to LCSO facilities and staff is abused - as you have abused your email access - appropriate action will be taken to cause such abuse to cease.

If required, we will seek and obtain another court order directing you cease such contact, as well as monetary damages and attorneys fees as appropriate.

We wish you the best in your future endeavors.

Thank you for your cooperation.

Subject: New Sunshine Law/FOIA request and evidence re: Lee Sheriff felony abuse of a disabled adult and FL DOH/U.S. DOJ ADA investigations

New request that the sheriff has dodged two times previously,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-torture-88182/

Also attached are the documents taped to the door of my home at the time of arrest that alerted the LCSO that contact and communication with Huminski would violate Judge Adams' gag/no-contact order placing Huminski in criminal contempt of court. As stated in the above link, I also verbally informed the arresting deputy of the gag order preventing contact and communication with LCSO staff and he waived protection by the gag order. The documents were placed upon my door on 10/3/2018 and were visible by deputies that knocked on my door from 10/3/18 until the date of arrest.

I have the originals viewed by the LCSO arresting deputies with the tape still on them that attached them to my door.

Upon arrival at the Jail, after I mentioned the gag order to the jail staff and they started the "sovereign citizen" chant and the arresting deputy quickly left the room so that he would not interfere with the entertainment the jail staff was enjoying from the punishment and abuse of myself for mentioning the gag order.

The LCSO had knowledge that the gag order existed when they punished me with solitary in inhumane conditions for merely mentioning the existence of the patently insane/corrupt gag order instead of pulling up the case on the public court information system and then seeking legal advise on how to handle such a case whereby contact with any LCSO personnel is barred by court

AMERICAN OVERSIGHT

order. They chose a backwoods hillbilly style of justice instead of a concern to obey the law.

This is why the sheriff is refusing to produce the report from the arrest or any recordings made in the police cruiser while transporting to the jail. He is trying to cover-up the misconduct and crimes.

There is no law enforcement duty to create new crime (contempt of court) as was done in the instant matter, to the contrary, law enforcement should not engage in conduct that creates new crimes. -- scott huminski

Subject: DOI ADA Complaint, ADA violations at Lee County, Florida Jails

Hello,

I have been on complete SS disability for 10 years with avascular necrosis of knees and hips, bilateral hip replacements, gout, spinal stenosis, degenerative disk disease, open back surgery, hypertension, PTSD, anxiety disorder and social phobia. I was jailed for 3 weeks for not paying a contempt of court fine in Lee County, Florida 6 months after open back surgery while I was still experiencing post-surgical pain and disability. I was provided zero accommoadations, forced to sleep on the floor because I was physically unable to jump into a top bunk, no ADA compliant toilet/shower facilities. Transported in a school bus without handicap grab bars (I was handcuffed and chained to other inmates so grab bars may not have been helpful if they were available). My blood pressure and PTSD/anxiety medications were abruptly ended and I was place in solitary for 8 hours in only my underwear and shorts and barefoot in a 55 degree windy cell with only steel and concrete surfaces that plummeted my temperature to 97 degrees. Inmates wear thermal underwear and a fairly heavy jump suit. These acts are felony abuse of a disabled adult under State law, Florida statute 825.102, and patently clear ADA violations.

All disabled persons residing at the Lee jails are subjected to similar ADA violations.

Further, the sheriff has formal written rules in place that allow his nurses to override and trump any determinations of disability made by the Social Security administration and medical doctors to allow him to violate the ADA with a fraudulent determination by his nurses.

General counsel for the Florida Department of Health is prosecuting the medical personnel. I don't believe they are addressing the ADA issues. See links below that also contain contact info. for the officials involved in the DOH investigations. The FL DOH has extensive documentation on this issue and I waive all privacy and HIPAA rights concerning my medical records currently in the custody of the FL DOH and the DOH can forward all materials to the Dept. of Justice.

Dear Florida Dept. of Health,

Please forward copies of all documents related to the pending investigations detailed below to the Department of Justice - ADA enforcement unit. I waive all privacy and HIPAA rights, the safety and well-being of the public far outweigh privacy concerns. The ADA is a core federal issue applicable to the States.

Subject: Lee sheriff medial staff Sunshine law production fraud and Courthouse corruption

I suppose I shouldn't be as critical of the sheriff printing out a document, hand-modifying it, and providing that as valid sunshine law production of documents in light of the following:

Clerk Linda Doggett, printed out a June 5 Circuit Court order from 17-ca-421 (the order was 119 pages long and originally filed in 17-ca-421 on 4/26/17) On June 30 of 2017,

04/26/2017	Order to Show Cause	119

She hand modified the order by adding a non-existent docket number and without a new judicial signature,

She processed it as a valid order received from a judge,

the court clerk then initiated a new criminal proceeding in Lee county court (17-mm-815) with a hand modified Circuit Court order without participation of a judge or prosecutor. A new low in courthouse corruption that initiated circumstances that led to the DOH and ADA issues now under investigation.

This clerk engaged in a litany of State and Federal crimes including, but not limited to, fraud, forgery, obstruction of justice and federal civil rights crimes by acting as a judge or prosecutor, the only entities that can initiate a prosecution.

To add insult to injury, Clerk Linda Doggett certified to the 2nd District Court of Appeal, under oath, that her forgery was a true and correct judicial order issued in the County Court. Nothing is further from the truth. The prosecutors and even my current counsel are OK with this fraud upon the appellate court.

Official crime is rampant in Lee County.

Below is a screen shot of the original 6/5 order (page 1) followed by the fraudulent forged one that Linda Doggett fraudulently filed as an authentic judicial order on June 30 which she boldly certified as authentic to the 2 DCA absent 116 pages with the forged docket number. Lots of government crime here makes one wonder if the sheriff was trying to kill me during my lodging at his facilities. He probably came close with the denial of my blood pressure medications.

True docketing of the order of the deficient order (sans 116 pages) in **Circuit Court**

06/05/2017	Order to Show Cause	3

Fraudulent docketing of the June 6 Circuit order on June 30 in **COUNTY COURT** (certified by crooked clerk to the DCA)

06/05/2017	Order to Show Cause Filed	3

The legitimate Circuit Court 6/5 order printed out by the clerk for the manufacture of the 6/30 fraud.

AMERICAN OVERSIGHT

Now the forged/fraudulent order of Clerk Dogget absent the required Judicial signature and proper caption. Note the double time stamp, an admission that it is not a genuine judicial order, rather, it is an order manufactured by the clerk. She is so sloppy, she didn't even correct the caption when forging her new order as she was initiating a new prosecution with her manufactured order in the COUNTY COURT not Circuit. She missed changing the caption to County Court. Criminals often make stupid mistakes when they are operating in their official capacity and believe they are unaccountable.

THESE COURTS HEAR DEATH PENALTY CASES, NOTHING CAN BE TRUSTED
especially when defense attorneys like Mr. Candela assist in the fraud upon the appellate courts.

Subject: Lee sheriff medal staff

This conduct in oklahoma, see below, is the exact same mindset of many of the female guards at the Lee jails including the one that responded on the intercom concerning my report of the Redman Syndrome from toxic medications supplied to me without my knowledge or consent. When she stated "don't take pills you're not supposed to", luckily for me, my situation was not life threatening unlike the unfortunate fellow below. After acknowledgement of the toxicity of one of the medications they supplied me with, they kept on trying to dispense the toxin to me and I had to interrogate the person dispensing medications until I was released.

Eventually, for some reason, they had me sign a form refusing the toxin instead of immediately removing the offending medication they swapped for my Toprol 200. This was probably to document that I was refusing medication when the opposite was true, I desperately wanted my blood pressure medication, not the medications concocted by these nurses who apparently believe a 5 minute interview gives them knowledge superior to a licensed doctor.

I had been under the care of physicians for 22 years, since when can a nurse with zero knowledge of my medical history trump the long-time treatment plan of medical doctors.

Upon intake, a patient should be asked if they are on total Social Security disability and be provided with ADA compliant lodging. If the sheriff has a problem with this he can sort out the disability situation with the Social Security administration and seek review of their determinations.

If a patient is on medications prescribe by a long-time family physician, a sheriff's nurses must not massively change the treatment plan without consulting the prescribing physician. These nurses who ignore the directions and advise of experienced MD's should not completely disregard the knowledge and wisdom of experienced doctors. Doctors place patients on medications for very good reasons after long-term knowledge of a patient that should not be altered by nurses working for law enforcement. At the very least they should have substituted 200 mg of metoprolol succinate with 200 mg of metoprolol tartrate (this medication is inferior for Huminski, but far better than the path they took). Had they inquired, I would have demanded the beta-blockers instead of water pills that I knew I had a problem with as far as side effects and it didn't help with my blood pressure. Further my PTSD, anxiety and blood pressure are linked to adrenal response which water pills do not address. No one inquired as to why I was on a fairly high dose of Toprol.

Subject: Lee sheriff lies and evades/dodges Sunshine Law requests

The sheriff claims the requests were unclear which is a lie. One request asks for bunk assignments of Huminski's cellmates. The other request asks for the police report concerning Huminski's arrest and transport to the Fort Myers jail, a two hour period whereby the arresting officer was quizzing Huminski while entering data into his computer. i.e. Distracted Driving and probably an accepted practice at the LCSO.

The first thing Huminski said to the officer informed him of the no-contact order of Judge Adams preventing communication with LCSO staff under penalty of imprisonment, the deputy then waived his protection by the gag orders and Huminski then responded to the questions. Upon arrival at jail, Huminski alerted the staff of the existence of the gag order, the staff repeatedly chanted "sovereign citizen" (whatever that is) and placed Huminski in solitary and engaged in felony abuse of a disabled adult. The arresting officer was present when the decision was made to place Huminski in solitary as a punishment for mentioning Judge Adam's gag order.

Many times the cover-up is worse than the crime. See the request's content in the below sheriff emails,

Dear SCOTT HUMINSKI,

Regarding the Media Request received on 1/20/2020 requesting records, the records have been in "Requested Clarification" status for 10 business days. The Lee County Sheriff considers this request closed. If you would still like the records, please submit another Media Request. Thank you for using the Public Records Center.

Request Details:

AMERICAN OVERSIGHT

Reference # M051080-012020

Description of Records Requested: The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Lee sheriff and the ADA

The Department of Justice (DOJ) regulates Title II of the Americans with Disabilities Act (ADA), which covers state and local governments. These public entities are responsible for the operation or management of juvenile and adult jails, detention and correctional facilities, whether they are operated directly by the state or local government, or through contracts, licenses, or other arrangements with other entities. (§35.151(k) and §35.152)

Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Accessible cells or housing units need to be available in all security classifications and/or program levels of a facility.

Unless it is appropriate to make an exception, public entities must not place inmates with disabilities in:

- Inappropriate security classifications because no accessible cells or beds are available;
- Medical areas unless they are actually receiving medical care or treatment;
- Facilities that do not offer the same programs as facilities where they otherwise would be housed; or
- Distant facilities where they would otherwise not be housed and that would deprive them of visitation with family members.
- Huminski was placed in a cell block without ADA compliant cells.

Minimum Requirements from the 2010 Standards (§35.151(k))

New construction of jails, prisons, and other detention and correctional facilities must comply with the 2010 ADA Standards for Accessible Design. At least 3% of cells must be accessible for individuals with mobility disabilities, including those who use wheelchairs. Accessible cells must be provided in each classification level.

At least 2% of the general holding and housing cells must be equipped with communication features designed to accommodate individuals who are deaf or hard of hearing. These features include telephones with volume control where telephones are provided in cells, and visible alarm signals where audible emergency alarm systems are provided for occupants of cells and occupants are allowed to evacuate independently. (Sections 232 and 807, ADA Standards)

Alterations to jails, prisons, and other detention and correctional facilities must also comply with the 2010 ADA Standards until new construction levels of access are achieved within the facility.

When alterations are made to specific cells, required features for mobility access may be provided in substitute cells (cells other than those where alterations are originally planned), as long as the substitute cell:

- Is located within the same prison site,
- Is integrated with other cells to the maximum extent feasible, and
- Has equal physical access to areas used by inmates or detainees for visitation, dining, recreation, educational programs, medical services, work programs, religious services, and other offered programs.

If it is technically infeasible to locate a substitute cell within the same prison site, the substitute cell may be provided at another prison within the same system.

Medical and long-term care facilities in detention and correctional facilities, whether they are licensed or not, are also subject to the 2010 ADA Standards for accessibility.

In passing the Americans with Disabilities Act ("ADA"), Congress noted that the isolation and segregation of persons with disabilities due to the discriminatory effects of physical barriers are a "serious and pervasive social problem," and there has been very little "legal recourse to redress such discrimination." The ADA lists several purposes, one of which is "to provide clear, strong, consistent enforceable standards" as part of a mandate to eliminate such discrimination. The ADA is modeled after section 504 of the Rehabilitation Act of 1973. A key difference is that while the Rehabilitation Act requires facilities that received federal funding to be accessible to persons with disabilities, Title III of the ADA applies to places of public accommodation specified by the ADA, regardless of the receipt of federal funding.

Under the ADA, new construction must be "readily accessible" to persons with disabilities. The new construction's "readily accessible" standard is met if the new construction or alteration is done in compliance with either the 1991 or the 2010 ADA Standards for Accessible Design. These standards include detailed, lengthy and technical specifications. In contrast, existing facilities must be made accessible to disabled persons if the changes are "readily achievable." The "readily achievable" standard for existing facilities is met by making alterations that are "easily accomplishable and able to be carried out without much difficulty or expense."

After its passage, Congress charged the Department of Justice ("DOJ") with implementing the ADA. One of the DOJ's ongoing tasks, in partnership with the Federal Access Board, is to create regulations to provide guidance for the enforcement of the ADA. Congress created the Federal Access Board in 1973 to ensure access to federally funded buildings, and it has become a "leading source of information on accessible design." The DOJ codifies the resulting regulations in the Code of Federal Regulations, and the appendices of that code further explain the regulations. In 1991, the Federal Access Board created the ADA Accessibility Guidelines ("the ADAAG"). The ADAAG were purely advisory to the DOJ and addressed new construction standards. The DOJ then sought public comment on the ADAAG, made applicable changes based on those comments, and finally adopted and codified the ADAAG as the official standards for the ADA. In 2010, the DOJ released a revised version, which became effective March 15, 2012.

Courts have upheld the "two distinct systems for regulating building accessibility: one to apply to existing facilities (those designed and constructed for occupancy before January 26, 1993) and another to apply to later-constructed facilities." Pre-existing or "grandfathered facilities" only need remove easily removed barriers. In contrast to grandfathered facilities, new construction violations are indefensible, unless there is a structural impracticability. A structural impracticability exists when "unique characteristics . . . make accessibility unusually difficult to achieve." Apart from structural impracticability, courts have no authority to apply equitable discretion in excusing the violation.

Overall, statutes, advisory and technical assistance materials, and case law work as a team to contribute to the goals of the ADA, voiced by President George H.W. Bush, "[E]very man, woman, and child with a disability can now pass through once-closed doors into a bright new era of equality, independence and freedom."

The Huminski was housed, transported and accessed portions of the Lee Jails built or significantly modified after January 26, 1993, as such, these areas of the Lee Jails must comply with the ADA and are not "grandfathered-in". There is very little or no attempt to comply with the ADA by the Lee Sheriff.

Some ADA accomodations are as follows:

Examples of "readily achievable" barrier removal that must complied with include, but are not limited to, the following actions (some of these were absolutely absent in Huminski's cell and during his transports between facilities in non-ADA compliant vehicles):

Installing ramps;

Making curb cuts in sidewalks and entrances;

Widening doors;

Installing offset hinges to widen doorways;

Installing accessible door hardware;

Installing grab bars in toilet stalls;

Installing a raised toilet seat;

Repositioning the paper towel dispenser in a bathroom;

Installing an accessible paper cup dispenser at an existing inaccessible water fountain;

Subject: Re: Lee sheriff foia/sunshine law fraud

In the attached, sheriff supplies 4 bed/bunk designations (A,B,1,10):

A = unknown
B = a handwritten notation added to the attached document at the time of production stating "B=bottom". A fraud, handwritten notes added at the time of production have no place in a FOIA/Sunshine law response. What is A then? The first several days I resided at the jail, there were not enough beds for the number of inmates, bunk designations, if there genuinely is such a thing, are meaningless in overcrowding situations. The sheriff does not enforce top or bottom bunk assignments.
1 = unknown
10 = unknown

Then a snippet of a nurse's comment from another alleged document was cut and pasted to the bottom of the attached production.

When I requested the original entire record/document that contained the nurse's bunk designation via another request,

THE SHERIFF RESPONDED . **No Documents Responsive to your Request** (see below) apparently there was fraud in the attached production and the lack of an originating document indicates that the nurse's bunk designation may have been manufactured by the sheriff to avoid negative consequences.

AMERICAN OVERSIGHT

A sheriff becoming evasive and deceptive in document production is a good sign of corruption and the desire to avoid consequences by dishonesty and fraud.

SCOTT A HUMINSKI, *citizen-reporter*

Describe the Record(s) Requested:
In your last production, you supplied an excerpt of a document or record detailing a nurse advising that I be assigned a bottom bunk. I need this in context of the full record, document or database. The nurses message on 2/13/2019 that you included in the document entitled Huminski_OMS_housing_R supplied by you on 1/17/2020 clearly indicates that the nurse's comments were cut and pasted from a document, record or database. For review of the document in context, I request the full document, record or database that the excerpt was taken from. Attached is a copy of what you produced which is something that was clearly manufactured from excerpts from an original document/record. Please supply the full document/record or database. Please see attached and provide an original full screenshot of the nurse's directions in context of the records above and below the nurse's comment.

Subject: Lee sheriff nurses acting without supervision by physician

It is impossible to believe that a physician supervised any of the medical staff at the Lee Sheriff's facilities because no Doctor would disturb 22 years of successful medication and completely yank a patient off all medications that worked perfectly for 22 years. The Toprol ER that was prescribed to Huminski had a dual purpose; one as an excellent blood pressure control and as an anti-anxiety medication. Because of Toprol's control of adrenaline, it helps mitigate Huminski's anxiety and related disabilities. For this reason Toprol is often prescribed for stage fright and anxiety issues. It is very helpful to Huminski and his handling and management of his disabilities.

> Propranolol and Toprol Used for short-term relief of social anxiety. May reduce some peripheral symptoms of anxiety, such as tachycardia and sweating, and general tension, can help control symptoms of stage *fright* and public-speaking fears, has few side effects.

It is my belief there was no supervising physician as required by statute at the Lee Sheriff's facilities. See below for nurse practitioners and physician assistants. No Physician would look at Huminski's medical history and recommend an ending of medications that worked perfectly for 22 years and take a risk of side effects when Huminski's long-time medicines were tolerated perfectly by Huminski and worked supremely well. The result of the Lee Sheriff's medical staff's experimentation with Huminski's medications met no protocol of a supervising physician, if there was a supervising doctor. No doctor would recommend the "cold turkey" ending of medications taken for 22 years and no written protocol exists supporting the conduct in the instant matter. Because of the lack of supervision or proper protocol, Huminski suffered increased severity of his PTSD, GAD and social phobia as well as soaring blood pressure that Huminski worried would cause a stroke, organ damage, heart issues or kill him.

Huminski was never offered a consultation with a physician, nor, did he know there was a physician available at the Lee Sheriff's facilities. The Redman Syndrome caused by the toxins prescribed to Huminski are not the product of negligence, they are the product of a mindset that the incarcerated are sub-human and don't deserve carefully thought out treatments and medications. It would not be surprising to find out that Huminski was prescribed the same medications given to all patients with hypertension at the Sheriff's facilities, a one size fits all mentality, which is not the case in the practice of medicine. Medical history is supremely important.

Nurse practitioner,
Practice Authority
A written protocol between an NP and the supervising physician is required. The degree and method of supervision that is determined by the NP and the physician must be specifically identified in the written protocol. General supervision by the physician is required and specified in the written protocol and must include a description of the duties of the NP, a description of the duties of the physician (which includes consultant and supervisory arrangements in case the physician is unavailable), the management areas for which the NP is responsible, a provision for annual review by the parties, and specific conditions and a procedure for identifying conditions that require direct evaluation or specific consultation by the physician. Fla. Admin. Code 64B9-4.010

Physician Assistant,
Supervision Requirements
The law outlines the exact means of responsible supervision. Direct supervision is not required, but the supervising physician must be easily available or be physically present for consultation. Fla. Admin. Rules 64B8-30.001(3), Fla. Stat. §458.022(f)

Subject: Lee sheriff retaliation, Gov't Answer Brief Due - 2 weeks

Attorneys Alper & Candela, Please note the answer brief in the 2 DCA is due on 2/12/2020. No extensions will be consented to. Mr. Candela, conflict yourself off the case please as I have legal malpractice claims against you for negligence proximately arising out of your refusal to file a motion to stay the sentence and all matters below pending appeal. The record is clear concerning the injury and damage caused by your failing to seek a stay; incarceration, torture and ADA violations by the Sheriff.

Below is my complaint to the U.N. concerning the human rights violations of the Lee Sheriff (the human right of free speech) and the current sheriff is the hand-picked replacement (buddy) for Sheriff Mike Scott (a defendant in Huminski v. Mike Scott et al, 17-ca-421, aka Huminski v. Gilbert),

A clever scheme by the sheriff to make himself litigation-proof by making the service of himself in the DCA and Florida Supreme Court a crime (contempt of Judge Krier's and Judge Adams' gag orders). AKA obstruction of justice via a prior restraint.

Tying my hands concerning service of papers, mandated by Rule, violates the First Amendment and Due Process and these activities are federal civil rights crimes.

Subject: Re: Lee sheriff more ADA violations

If a patient under the care of the Lee Sheriff suffers a medical emergency and is hospitalized, the fictional medical record manufactured by the sheriff can lead to medical errors. As I pointed out in a prior email, falsely reporting that someone is a smoker or IV street drug user as suggested by the falsehoods included in my erroneous medical records can harm and endanger the life of a patient is crisis.

Said errors could send doctors in a wrong direction when attempting diagnosis and alter treatment plans and medications potentially causing delay, harm, injury or death. Medical record errors may lead to the use of the least optimal medication, treatment or procedure.

I have reproduced below the email pointing out the sloppiness and careless/reckless disregard by the Lee Sheriff concerning medical record accuracy in medical records that he maintains, controls and disseminates pursuant to HIPAA regulations.

Subject: Re: Lee sheriff more ADA violations

None of the vehicles Huminski was transported in comply with ADA requirements for transport of the fully disabled.

Aggravating this fact is that while boarding and departing from transport, disabled patients are handcuffed and chained together while transported. During these transports, I was in fear of injury or death proximately arising from the complete absence of ADA accommodations during transport by the Lee Sheriff. --scott huminski

Subject: Re: Lee sheriff more ADA violations

The Sheriff refuses to give flu shots to residents of his facilities. This violate the universal support of immunization in the medical profession and is medical malpractice. This policy creates a heightened danger to the elderly and violates the well-established precept of herd immunity. As his jails lodge patients for less than a year, un-vaccinated patients are release into the public everyday impacting high risk groups of the elderly or very young because of the Sheriff's negligence and medical malpractice.

Subject: Lee sheriff more ADA violations

The sheriff provide NO ada compliant toilet facilities without proper height commodes and without the required handicap grab bars.

Below are guidelines and information concerning the sheriff's disdain for the ADA and failure to provide ADA compliant bathroom facilities.

https://www.buildings.com/article-details/articleid/9242/title/the-ada-compliant-restroom

The shower facilities are similarly ADA non-compliant in every location Huminski resided in at the Lee Jails.

These ADA violations are especially egregious for persons with recent open back surgery such as Huminski.

The ADA-Compliant Restroom

Find out how to make your restroom ADA compliant in this article.

Subject: Lee sheriff new FOIA request

Media Request — less than a minute ago
Provide the housing and bunk assignments of persons who shared a cell with Huminski for the first 10 days of his stay in the lee jails starting with 2/12/19. Huminski's cell/bunk assignment was provided in the sheriff's 1/17/2020 production. Provide the same for Huminski's cellmates.

password 123456

The sheriff will not be able to supply this as for the first 3 days, the cell blocks were overcrowded and there were not enough bunks for Huminski and approximately 10 others. No cell or bunk assignments were communicated by the sheriff. This is a *per se* ADA violation. The elderly disabled should not be treated like 3rd class citizens and made to sleep on the floor.

new FOIA

Media Request less than a minute ago

The records related to my arrest on 2/12/19 and the first 2 hours in custody of the sheriff's department. That is records related to huminski's arrest at approximately 10 AM until he arrived at the jail at approximately noon that same day. On the ride to the jail, the arresting officer was entering quite a bit of information into his computer. Supply these records. Second request.

Subject: Re: Lee sheriff document production

Just like how the Lee Sheriff does not alert a patient that their life-sustaining medication that you have been on for 22 years is being completely ended putting one at risk of death and injury, the sheriff also maintains secrecy as to any assignment of bunks and no procedure exists for enforcement of bunk assignments.

The 2/13/2019 alleged medical record recently supplied is not in the original production of medical records supplied by the sheriff. I suspect fraud concerning this record. In either case, where-ever this document came from if it is not a fraud, these records are not supplied to inmates via any practice, policy or procedure adopted by the sheriff. Further what was supplied is a cut and pasted excerpt from a document that contains damning information that the sheriff wishes to keep secret.

While imprisoned, I asked the medical provider for my medical records and she denied the request. The medical records supplied related to these matters do not contain the cut and pasted bottom bunk directives.

In the Lee jails, bottom bunks are on a first come first serve basis and if there is a dispute the law of the jungle prevails -- might is right, where an elderly disabled person can not prevail regarding such confrontations with other inmates.

LEE SHERIFF supply the full document where the cut and pasted bunk assignment came from. Many times a cover-up is worse than the original transgressions. -- scott huminski

Regarding Lee sheriff fraud that I was assigned a bottom bunk. The sheriff does not provide this information to residents, if the document they provided is valid, it is kept secret from inmates. I would be happy to take a polygraph concerning any fact I have supplied related to these matters.

Subject: Lee Sheriff: Medical Ethics, Disability and Supremacy Clause violations

Mr. Candela,

Your failure to file a motion to stay the matters below pending appeal, thus, your negligence and malpractice, proximately caused me extreme injury and damage at the hands of the Sheriff and State's attorney.

I have retained an out-of-state law firm to prosecute you for legal malpractice. They are taking it on a contingency basis. 50% Suit will be filed after the government's answer brief in the 2 DCA. This is why I directed you to oppose any extensions requested by the government. I need(ed) relief from the government misconduct ASAP, a task that you failed.

We are also bringing an 42 U.S.C. § 1983 action against former State's Attorney Stephen Russell, State's Attorney Amira Fox and Anthony Kunasek. Judges may be added later.

The sheriff will also be a defendant in causes of action arising under 42 U.S.C. § 1983 and the Americans with Disabilities Act. Of course we have to deal with the gag orders of Judge Adams preventing service of the Sheriff (a defendant in Huminski v. Gilbert, et al., 17-ca-421). Your disdain for the First Amendment by not handling the bedrock First Amendment violations in the gag orders of Judge Krier, Judge McHugh and Judge Adams in your brief is noted. The gag orders are unconstitutionally vague, over-broad are a forbidden prior restraint and silence core protected political expression.

Thanks for setting me up for grave human rights violations.

Move to disqualify yourself from the 2 DCA appeal immediately. My online review of your misconduct should be sufficient to get you off the case.

The review is here at a permanent link,
https://web.archive.org/save/https://anthonycandelaattorneylawyerreviewtampaflorida.law.blog/

It is my moral and ethical duty to make sure you don't do this to anyone else. Again, I am forced to assume the role law enforcement should have handled, like the death threats from the Arizona terror cell (Trevor Nelson, Debra Riffel of Maricopa County) that instigated this series of events.

Subject: Lee Sheriff violates his own policies and procedures

Based upon further review, it has become clear that the sheriff engages in wholesale violations of the Americans with Disabilities Act (ADA) and for the safety of those still suffering in the Lee jails, the federal government should take control of these facilities to bring them back into compliance with federal law.

Why was I jailed? ... for failure to pay a contempt of court fine that I could not afford (debtor's prison). Good old fashioned justice. With Mr. Candela not helping by his refusal to stay matters while appeal was pending. The prosecutor's office knows all these facts and are just as liable.

Please forward relevant materials to the U.S. Attorney's Office for this District and to the U.S. Attorney General before death, injury or harm comes to person at these facilities because of the sheriff's disdain for the rule of law.

Time is of the essence. -- scott huminski

Subject: Lee Sheriff violates his own policies and procedures

Hi,
I began reviewing the production of today. I think this will yield a wide pot pouri of the sheriff's violations of his own policies and procedures. After 1 minute into my review the following came up revealing a complete disregard for his own policies concerning the fully disabled. Like myself -- on full social security disability for 10 years for mental and physical disabilities.

The sheriff knows bad things happen when one breaks the law, likewise, bad things happen when he violates his own policies and procedures. There would have been fewer ADA violations and felony abuse of an elderly disabled had the sheriff obeyed his own regulations concerning single cell occupancy had he just followed his own rules instead of making the disabled elderly sleep on the floor. If I was assigned a single cell per his policies, I wouldn't have had to sleep on the floor. Its not just me he abuses, he abuses every disabled person in his jail. If the ADA had criminal sanctions, the sheriff should be first in line. As my review continues, I will update. see below single occupancy policies.

Subject: Lee Sheriff production of documents re: FL Health investigations

See attached, even though the fee was paid, I don't see any documents

In a collateral issue, here is a document evidencing the Lee Sheriff's/Judge's/Prosecutor's obstruction of service in a matter before the Florida Supreme Court,
https://efactssc-public.flcourts.org/casedocuments/2018/1282/2018-1282_motion_117214_motion2dother20substantive.pdf

Note that the order of Judge Adams made criminal any contact with the parties to the criminal and civil matters. This means the State of Florida. It is also in the above link. -- scott

Subject: threats

Mr. Candela, Your threats to me attempting to stop my reportage concerning the felony abuse of a disabled adult and collateral matters could be construed as obstruction of justice.

Please file a motion in the appeal to stay/enjoin the Florida collection activities and punishments while the case is on appeal. You failed to do this at the appropriate time causing my incarceration. This a very common appellate motion quite similar to a motion to release from custody while on appeal. I don't wish to be jailed again because of your failure to file proper and quite common motions at the proper time.

Just the fact that you are appointed does not mean you have to withhold filing of proper and necessary papers in court. You must treat appointed legal work with the same vigor as paying clients. Failure to do so is a violation of the rules of professional conduct and ethical precepts.

I don't know what is up with you, but, you refused my direct instructions to deny the request for enlargement of time and consented to the government delay. This conduct prejudices and injures me.

Subject: Huminski writ of prohibition/mandamus

Mr. Candela, I take your silence as a refusal to file a writ to prohibit collection activities by the State pending resolution of the appeal. I will file it in the next week. It will be less than a page long. A no-brainer. Let me know today if you have changed your position.

This issue may only be tangentially related to the Health Departments investigations. It is being provided to maintain context and this email is core protected political expression afforded the highest level of protection under the First Amendment. (see below link re: core protected political expression) Obviously all my speech is speech critical of the Sheriff, a candidate for public office. Seeking and obtaining the gag order is a serious crime under Title 18. See below criminal statutes.

Mr Holloway, as I have pointed out, all communications with you are in your capacity with the county, not LCSO. All contact with the LCSO is barred via the gag orders entered by Judge Adams. Gag orders requested by the sheriff that remain pending for life. This calls into question if the sheriff can hold office while denying public safety services to a resident (s) of the county he serves. I think not. This affront to the First Amendment, barring core protected political expression are federal crimes defined in
the Title criminal 18 links below as they violate Huminski's First Amendment right to criticize the sheriff and report criminal activity to the sheriff or his staff. One can not be a county sheriff and then pick and chose persons not eligible for public safety services based upon their opinions or the type of crimes they report.

Why did the sheriff seek to silence me? ... to cover up his support of the interstate transmission of terrorist death threat by the Nelson/Riffel domestic terror cell.-- scott

Subject: Lee Sheriff Foia re: DOH investigations, Complaint # 201944590 & 201994592

A new related Foia (sunshine law request) is here concerning the withholding of medical services,
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84837/

I note that the sheriff failed to respond to the request of 12/12/19 with knowledge that I am seeking the information to forward to State agencies concerning the pending investigations. *Per se* obstruction of justice. The sheriff refuses to even acknowledge receipt of the information request.
https://www.muckrock.com/foi/lee-county-36/lee-sheriff-disabled-elder-abuse-84341/

It is unclear if the sheriff's department itself is licensed with the DOH in any capacity, although, they are the caretakers of medical records and in control of the privacy and dissemination of medical records consistent with HIPAA or similar state regulations/statutes. It certainly appears that jails should be regulated in a similar manner to nursing homes, hospitals and other care-giver entities. -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These documents support the retaliation as a motive behind the sheriff's felony abuse of a disabled adult. F.S. 825-102, and verify his obstruction of justice of the federal courts. (U.S. Bankruptcy Court, a unit of the U.S.D.C.) -- scott huminski

Subject: Lee Sheriff felonies are RETALIATORY, Complaint # 201944590 & 201994592

These felonies and *per se* medical ethics violations concerning the LCSO medical staff are retaliatory because Huminski exposed the crimes of the sheriff embodied in his request and receipt of a gag order that obstructed justice (including witness intimidation and tampering) of cases before the United States Bankruptcy Court, the Florida 2nd Circuit and Florida Supreme Court. At the most rudimentary level, the sheriff's gag order preventing service of himself and his office in cases where court rules, Due Process and other authorities mandated service of the sheriff are patently criminal obstruction of justice.

My certificates of service in the aforementioned tribunals clearly state that service was obstructed by the sheriff. Even service of the State of Florida was obstructed by the gag order obtained by the sheriff. See below documents and most specifically this one,
https://edca.2dca.org/DCADocs/2017/4740/174740_26_12182017_1121006Z_e.pdf

Here is a complaint filed with the United Nations on the topic

https://web.archive.org/web/20181031133103/https://judgeelizabethyklerieecountyflcorruption.files.wordpress.com/2017/06/un-human-rights-compl-2-converted.pdf

The obstruction of justice by the sheriff is undisputed and on the record see below links.

Subject: Fw: State's Atty Cover up felony obstruction by Sheriff Scott

The Sheriff obstructed service in the U.S. Bankruptcy Court (a unit of U.S. District Court), obstructed service in the 2DCA 2D17-4740, obstructed my attendance at a hearing in 17-CA-421 and is engaging in ongoing obstruction in 17-MM-815.

The sheriff procured a protective order for him and his staff that prohibits contact or communication. WITHOUT EXCEPTION. As such I am banished from the Lee Court complex in violation of Huminski v. Corsones, 396 F.3d 53 (2nd Cir. 2005). This and other issued are exhaustively documented in the below papers filed in the 2DCA.

Subject: Conflict counsel must recuse

Hi Atty Neymotin,

Your office has advised me to violate the Orders of Judge Krier. The protective order entered by Judge Krier prevents any contact with the Sheriff or his staff. As such, it is criminal contempt for me to interact with court security screeners and bailiffs at the lee court.

Advising me to violate the orders of the Circuit Court is unethical. With that in mind, what is your office's advice for the hearing tomorrow concerning my attendance?

Do I not attend and risk a bench warrant or attend and risk a contempt charge? -- scott huminski

Hi Atty Neymotin,

Your office has performed zero work on the criminal matter and refuses anything and everything I have requested in support of my defense. Assign a different attorney or recuse your off the case. You are still responsible for the 2DCA matter.

Neglect of a legal matter entrusted to your office is an ethical violation. -- scott huminski

Hi Atty Neymotin,

Atty Miller lied to me after the hearing on his motion to recuse. He stated that your office would participate in the pending petition in the 2DCA, 2D17-4740. Lying undermines the attorney/client relationship. -- scott huminski

Subject: Conflict counsel dodging appeal other misconduct

Hi Atty Neymotin,

Your office is responsible for handling this criminal appeal/petition. This is a criminal contempt case assigned to Z. Miller of your office. This appeal arises directly out of the criminal matter assigned to your office. I must also inform you that I am receiving ineffective assistance of counsel in the underlying criminal matter. The criminal case was pending in the Circuit Court for several months and then was "transferred" to County Court.

Please assign an attorney who knows the below law to my case and assign your appellate people to the appeal. See 2DCA docket below. The criminal case is frivolous and the order involved that I allegedly violated are patently unconstitutional and mandate surrender of constitutional rights -- exceptions to the Collateral Bar Rule, that your office has ignored.

THERE IS NO STATUTE, COURT RULE OR FL AUTHORITY THAT PROVIDES FOR A TRANSFER BETWEEN CIRCUIT AND COUNTY COURTS. YOUR OFFICE'S FAILURE TO RECOGNIZE THIS FUNDAMENTAL ISSUE IS WASTING THE TIME OF ALL AND CONSTITUTES CONDUCT PREJUDICIAL TO THE ADMINISTRATION OF JUSTICE AND wastes judicial resources.

Please recuse off this case if you do not have the staff expertise to handle the issues. Mr. Miller refuses to file motions I have requested based upon the above and other issues. -- scott huminski

Subject: Lee Sheriff medical staff felony abuse of a disabled adult, Complaint # 201944590 & 201994592

Another FOIA to the LCSO on the felony abuse of a disabled adult that may assist in the investigations pending against the Lee Sheriff's medical staff. See link below. At the link is a downloadable copy of all correspondences, to date, with the DOH concerning the LCSO medical staff.

I note that the LCSO was well aware of my disabled status based upon it's status as a defendant in Huminski v. Mike Scott, et. al. (aka Huminski v. Gilbert, et. al.), 17-CV-421, 20th Circuit, a lawsuit concerning the death threats issued to Huminski (2015-2017) from Trevor Nelson and/or Debra Riffel (while impersonating Officer Ryan Pillar) of Maricopa County, Arizona and the impersonation of Huminski by the same two individuals in letters sent to Officer Ryan Pillar (Gilbert, AZ Police) his parents and others in 2012-2015 approximately. Thank you. -- scott huminski

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

The decision to deny me medical services upon intake into the Lee Jails and to place me in solitary instead (along with previous complained of LCSO criminal conduct), was done with the knowledge that my age was approximately 60,

putting the LCSO and their medical staff on notice that felony abuse of an elderly and/or disabled adult was on the table. Of course, medical services or denial of medical services that constitute felony violations of F.S. § 825.102 are *per se* unethical under medical ethical guidelines. Crime is not a valid medical treatment or service. See this thread.

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hello,

The placement of myself in solitary prior to medical screening for an elderly fully disabled adult with chronic medical issues is a felony, F.S. § 825.102, by the LCSO.

AMERICAN OVERSIGHT

See statute excerpts (full statute below) concerning the immediate placement of myself into solitary in a 55 degree cell barefoot with only a thin t-shirt and shorts without any bedding that drove my body temperature down to 97.0, i.e. torture/malicious punishment.

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

These felonies are per se medical malpractice and caregiver malpractice as they are felonies against the elderly disabled. Thank you. --Scott huminski

Hi, I am in receipt of your recent letters.

I believe that the sheriff's medical staff lied about my medical record to gain State/Federal funding or grants, etc. concerning their lies input into my medical records.

I am not on Social Security Disability because of "street drug" use as lied to by the LCSO. I grant the FlHealth.gov power of attorney to access my first 5 years of medicare/social security records. I am on Social Security for joint issues, avascular necrosis, PTSD, Social Phobia, GAD. Now spinal stenosis and spinal disk degradation are added to the list.

I don't use "street drugs" as mentioned several times in the LCSO medical records. Medical marijuana and prescriptions filled at Walmart are not "street drugs". All of this is a lie, probably to secure funding or for some other improper motive.

False "street drug" information entered by the LCSO medical staff caused me to be place on "DETOX" for 10 days which prevented me from obtaining sleep medication for 10 days. Lies in medical records can cause injury. I once had a bogus allergy to penicillin sneak unto my records elsewhere and that led to my treatment with a lesser effective drug. False medical information is dangerous to the safety of the patient. During those first 10 days, I got 2-3 hours of sleep a night as a result of LCSO lies. Also felony abuse of a elderly disabled adult. See statute below.

Please do not hesitate to obtain the Social Security/medicare information related to the lies entered into my medical records. Power of attorney is granted to the Florida Department of Health and/or Ylonka Guzman Jimenez to obtain these records from the federal government.

Florida Statutes Title XLVI. Crimes § 825.102. Abuse, aggravated abuse, and neglect of an elderly person or disabled adult

(1) "Abuse of an elderly person or disabled adult" means:

(a) Intentional infliction of physical or psychological injury upon an elderly person or disabled adult;

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(2) "Aggravated abuse of an elderly person or disabled adult" occurs when a person:

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

Subject: Medical Board & Pharmacy Board Complaint # 201944590 & 201994592 against LCSO medical staff

Hi, I am writing to ascertain if more input from myself is required for the above board complaints.

Cutting my beta blockers 75% from 200 mg to 50 per day (with a less effective drug), when there was a recent hospitalization for transient ischemic attack (mini stroke) is not only unethical and a violation of medical norms (especially without initiating a physician / patient relationship) and blindly prescribing is abuse of a disabled adult. I have been on on SSDI for 10 years.

This is a felony in Florida and a federal civil rights crime (8th Amendment violation) punishable under federal civil rights crime statutes 18 USC 241, 242. Please refer this to the U.S. Attorney, the FDLE and the Florida and U.S. Attorney Generals. Thanks -- scott huminski

(a) Commits aggravated battery on an elderly person or disabled adult;

(b) Willfully tortures, maliciously punishes, or willfully and unlawfully cages, an elderly person or disabled adult; or

(c) Knowingly or willfully abuses an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult.

A person who commits aggravated abuse of an elderly person or disabled adult commits a felony of the first degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(3)(a) "Neglect of an elderly person or disabled adult" means:

1. A caregiver's failure or omission to provide an elderly person or disabled adult with the care, supervision, and services necessary to maintain the elderly person's or disabled adult's physical and mental health, including, but not limited to, food, nutrition, clothing, shelter, supervision, medicine, and medical services that a prudent person would consider essential for the well-being of the elderly person or disabled adult; or

2. A caregiver's failure to make a reasonable effort to protect an elderly person or disabled adult from abuse, neglect, or exploitation by another person.

Neglect of an elderly person or disabled adult may be based on repeated conduct or on a single incident or omission that results in, or could reasonably be expected to result in, serious physical or psychological injury, or a substantial risk of death, to an elderly person or disabled adult.

(b) A person who willfully or by culpable negligence neglects an elderly person or disabled adult and in so doing causes great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the second degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

(c) A person who willfully or by culpable negligence neglects an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or disabled adult commits a felony of the third degree, punishable as provided in s. 775.082 , s. 775.083 , or s. 775.084 .

I noticed that in the brief medical intake that occurred after my 8 hours in solitary in a 55 degree room (I was barefoot and clothed in a light t-shirt and shorts) there was no taking of vitals reported. The reason was that I was becoming hypothermic from the 8 hours of solitary in a cell without bedding, only concrete and steel existed in the cell. Deliberately causing physical harm is an assault and battery. Please forward this to the FDLE and U.S. Attorney. My temperature after solitary was 97 which they took but did not disclose in the records the jail produced.

The name of the pharmacy or pharmacist was not provided in the records. I never received the proper literature with any medications provided, a pharmacy error, which would have prevented the Redman Syndrome that caused me medical harm. Had I received the proper paperwork, as regular pharmacies provide, I would have alerted the staff of a toxic medication and I would have refused the offending medication(s). The level of prescribing secrecy and lack of pharmacy information provided to the patient about the drugs dispensed caused the problem.

My blood pressure was taken at least 10 times and recorded by individuals who dispensed medications (I don't know their professional information) and these records were not supplied. They document my out of control blood pressure. Thank you. -- scott huminski

Hello, They finally released my records. I still don't know the professions of any of the names provided, i.e. doctor, nurse, aid, pharmacy tech, etc..

I gave no consent to anyone to stop existing medications or to consent for new medications upon intake to the jail.

I was arrested at approximately 10:30 and got to the Jail at the below time, noon, and immediately was put in solitary for 8 hours as the medical records reflect. If one has diabetes, seizures or many other problems, this custom of warehousing patients for up to 8 hours with no medical information taken could prove deadly to persons with medical issues. During this initial solitary there was no inquiry if i had food allergies or special/religious food needs and i was provided a meal blindly -- bologna on white. This is dangerous. I was never consulted with by a doctor concerning the vast changes in my medicines or never asked if I had questions for a pharmacist when medicines were dispensed. Note the 7:58 time on the medical history documenting the solitary.

AMERICAN OVERSIGHT

897183

I don't know and never met Andrew Grey, I don't know if this person is a doctor, nurse, pharmacist, and they never mentioned to me they were taking me off medications I have been on for 22 years. My only history of withdrawal was when I ended gabapentin for spine pain and sciatica a year earlier.

Kathy Verdes lied about drug abuse when she stated i take "street drugs" and this contradicts the walmart prescriptions verified on 2/19/2019 which had a xanax prescription. (see attached) I never had this issue and never told her I did. Alprazolam, xanax has been prescribed to me for 22 years, I take it as directed.

Huminski was deprived of all morning medications on 2/27/19 per entry of Karen Hergal, this is common, to get 12 hour medications at far longer or shorter intervals than required. This happened to me many times. There are also an entry of "denies all" that did not happen. Ms. Hergal lied about a history with street drugs.

Prior to administering the first doses of new medications, if I was told they were stopping the treatment that worked well for 22 years, patient should be allowed a consult with a pharmacist or doctor on the new medications.

Note that after side effects from HCTZ (or clonidine) was noted, the toxins that caused Red Man Syndrome (that i was prescribed deltasone for), on 2/19/19 they re-prescribed the toxin and it was delivered to me for a day or two until I noticed problems and I had to interrogate the person dispensing the pills and i had to deny the toxin. My declining the toxin is also in the attached.

Although my blood pressure had been recorded 10 or so times, the report on 2/14/2019 had a blood pressure of 153/114 p 136, revealing the ineffective treatment plan without concern for patient's 22 year history of successful blood pressure management. This is dangerous. I feel symptoms of tightness in chest/anxiety/fear when my blood pressure soars without adequate medical intervention. Elevated blood pressure can cause organ damage, stroke, heart issues and more. This negatively impacted my anxiety issues because I thought I might die from the extremely high (for me) blood pressure.

See entry of 07/08/2019 [sic] (the date is probably around 2/16/2019) where i emphasize my 20 years of successful medications and relatively good health.

On or about 2/18/2019 i spoke to a female guard via the intercom system and explained that I was given medications that made me ill and required medical intervention, she rudely stated "don't take pills you're not supposed to". I explained the pills were started without me knowing. This is misconduct.

2/27/2019 Brian Medlin lied that i was on social security for drugs problems. I am on social security for joint issues (hips, knees) and for PTSD, Social phobia and generalized anxiety disorder.

In summation, this is the worst medical treatment I have received in my entire life and, at 60 this year, it is the first time I spent in jail. -- scott huminski

As you can see, the Sheriff is refusing to forward medical information because there are many problems with the medical treatment of patients at the Lee jail. I hereby grant the FL Health Department and their associated Medical and Pharmacy Boards power of attorney concerning my medical records being withheld by the sheriff. There are dangerous medical situations at the jail. Luckily, my experience wasn't fatal, the same might not be true in the future.

I have no knowledge of who the persons were dispensing the medication at the jail ... nurses, pharmacy techs, medical assistants, etc..

I waive all HIPAA rights/protections and my jail medical records may be posted online or shared by anyone to anyone at any time. Thank you.

Subject: Public Records Request :: P038030-100319
[redacted]
Dear scott huminski:

Lee County Sheriff's Office received a public records request from you on October 03, 2019. You requested the following:

" To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

Re: Public Records Request of October 03, 2019. Reference #: P038030-100319

Dear scott huminski:

Lee County Sheriff's Office received a request from you on October 03, 2019. You requested the following:
To Whom It May Concern:
Pursuant to the Florida Sunshine Law, I hereby request the following records:
My medical records while being lodged at the LCSO run jails in February and March of this year. I waive all HIPAA rights related to my medical records.
On 9/24/19, I attempted to obtain my medical records by inquiring at the 6 Mile Cypress LCSO location and at the lobby of the Ortiz Jail with no success.
In the alternative, please forward all documents/forms related to the procedure to gain access to these records. A medical provider refusing to supply requested medical records creates an actionable matter with the State medical board. Medical licenses may be revoked. Thank you. -- scott huminski
The requested documents will be made available to the general public, and this request is not being made for commercial purposes.
In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.
Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.

Subject: IAIL Medical Board & Pharmacy Board Complaint # 201944146

Hello, I am in receipt of your letter of 10/11/2019.

The sheriff has ordered the medical staff to not supply various medications that are medically appropriate and necessary for patients. Thus, loyalty to the sheriff and his rules has trumped the medical staff's proper handling of the cases and limitations of FDA approved medications that can be prescribed to patients lodged at the sheriff's facilities pursuant to policies and procedures mandated by the sheriff. A potential case of unauthorized practice of medicine by the sheriff via his control over the doctors and medical staff working for him in Fort Myers. I consider the handling of my medical records request beginning with in-person visits on 9/24/2019 obstruction of justice related to the medical and pharmacy boards potential investigation into medical care at the Lee jails.

Allowing a sheriff to determine what medications can be prescribed by tying the hands of licensed medical professionals is corrupt. Solitary confinement without inquiring into the medical situation is a violation of medical ethics and norms. Withholding access to a physician for 5-7 days after blindly prescribing incorrect and outright toxic medications is a violation of medical ethics and professional guidelines. All persons lodged at these jails should have an immediate consultation with a physician to establish a proper patient - physician relationship, prior to prescribing, to save lives and maintain health.

The sheriff's office wrote as follows (see below) concerning (1) my attempt to obtain my medical records followed by (2) his classification of my 2nd request as a duplicate and finally (3) my request via the muckrock.com website which remains pending. I ask that you expedite this matter to avoid further medical harm to persons lodged in the Lee jails whereby doctors are prohibited from freely and without interference allowed to engage in the practice of medicine pursuant to their training and experience free of interference from the sheriff or his policies and procedures. -- scott huminski

Because the Lee Jail keeps the identities of the medical staff anonymous and secret, I don't have access to the identities of these persons. I don't have knowledge of what drug I was given that caused me medical harm and the sheriff's office is not cooperative concerning medical records release. Attached please find a form I just received. Apparently there is a company involved in this somehow. Correctional Medical Group Companies. I don't know if they were my medical provider or the sheriff's department.

I note that the personnel who dispensed the medications daily had no name tags and did not identify themselves as employees or subcontractors of any company. -- scott huminski

- Section 381.0031(6) requires that information submitted to the Department in these investigations remain confidential and exempt from chapter 119, **"and is to be made public only when necessary to protect public health."** This determination can be made by the State Surgeon General (also cited as the State Health Officer).
    - Rule 64D-3.036 provides that all information contained in laboratory reports, notifiable disease or condition case reports and in related epidemiological investigatory notes is confidential as provided in section 381.0031(6), F.S., and will **only be released upon the State Health Officer's determination that release of the information is necessary for the protection of the public's health due to the highly infectious nature of the disease, the potential for further outbreaks, and/or the inability to identify or locate specific persons in contact with the cases**.

Subject: [External] Sun-Sentinel Public Records Request for Facilities Affected by COVID-19

Ms. Mayhew:

This firm represents the Sun-Sentinel. The Sun-Sentinel has requested the names and addresses of the 19 long-term care facilities that have either a suspected or confirmed case of coronavirus, but AHCA has failed to release the names based on patient privacy concerns. Please provide the statutory exemption you believe prevents the disclosure of this information in accordance with AHCA's obligations under Fla. Stat. s. 119.07(1)(e)-(f).

The delay/refusal to provide this information violates Florida's public records laws. No exemption prevents the disclosure of the names of these facilities. In fact, Florida law permits the release of such information when "necessary for public health." *See* Fla. Stat. s. 381.0031(6). This information is indisputably vital to public health, as facilities, patients, family members, and the public at large need to understand *immediately* who has been exposed to COVID-19 so they can take the necessary precautions to halt the spread of this virus. The release of the *facilities'* names will in no way implicate the private health information of specific individuals or their identities.

Accordingly, we request that the list of names and addresses of the facilities be produced immediately.

Hi Helen,

We have received information that the woman who has been infected with coronavirus flew through the Tampa airport on her way home from Italy.

We are in urgent need of confirming as much information about this as possible tonight.
We would like to have further information to give the public as much clarity possible beyond what we already know.

Here is a list of questions from reporter Zack Sampson, who is CC'd. You can either call him to follow up at 401-474-2585.
Or you can call me. Thanks.

When was her flight?
What was the flight number and route?
Which gate and terminal did she come through?
How many people might have been exposed?
What requests has DOH or the CDC made of the airport?
How are you determining who might have been exposed?
When was the airport notified and how?
What steps were taken to sanitize any areas that might have been exposed?
Have you notified the airline and/or any other passengers on said flight(s)?

We haven't waived sunshine requirement at this point. Let's definitely chat about this.

The EO doesn't give locals the ability to waive the statutory sunshine requirements, only Governor or SCO can do that. What they can do is utilize the pre-existing allowances under sunshine to hold telephonic meetings as long as they follow all the other requirements.

Erik,

I'd like to chat with you today about guidance for county/community attorneys on public meetings during state of emergency. I'll catch up with you soon. Just spoke with Ms. Friedlander from Osceola County and want to see if we can have some sort of reach out to the Florida Association of Community Attorneys too.

Thanks!

Hi Joe – are you tracking the MS Marina (Oceania)? I'm tracking 653 Amcits on board, COVID(+) cases on ship, headed to Miami but no ports there open. This is going to be a problem soon. We're getting inquiries from the Australians and Andorrans. This is the latest I have:

18MAR: Indications that an Oceania cruise ship will be arriving at Port of Miami sometime next week with various COVID-19 positives on it. Consular Affairs from the Australian Embassy contacted to say they had been notified overnight that the MS Marina (Oceania) is returning to Miami from South America via the Panama Canal after it was denied docking by several countries. The latest advice the Embassy has is that it is passing through the Canal could take 5 or 6 days. Australian Embassy in Mexico and Honorary Consul in Panama are trying to assist at least 49 Australians on board - some of whom are starting to run short of medications etc. - but are having difficulty contacting the crew and Oceania's agents in Panama. CONS provided them with the contact for Norwegian cruise lines which is a parent company of Oceania. OFM indicates Port of Miami is not aware of the ship coming to Miami and questioned where it would even dock as all available ports are occupied. OFM in touch with Norwegian.

Under Florida law, correspondence with the Florida Division of Emergency Management, which is neither confidential nor exempt pursuant to Florida Statutes Chapter 119, is a public record made available upon request.

Hi Joe – are you tracking the MS Marina (Oceania)? I'm tracking 653 Amcits on board, COVID(+) cases on ship, headed to Miami but no ports there open. This is going to be a problem soon. We're

AMERICAN OVERSIGHT

getting inquiries from the Australians and Andorrans. This is the latest I have:

18MAR: Indications that an Oceania cruise ship will be arriving at Port of Miami sometime next week with various COVID-19 positives on it. Consular Affairs from the Australian Embassy contacted to say they had been notified overnight that the MS Marina (Oceania) is returning to Miami from South America via the Panama Canal after it was denied docking by several countries. The latest advice the Embassy has is that it is passing through the Canal could take 5 or 6 days. Australian Embassy in Mexico and Honorary Consul in Panama are trying to assist at least 49 Australians on board - some of whom are starting to run short of medications etc. - but are having difficulty contacting the crew and Oceania's agents in Panama. CONS provided them with the contact for Norwegian cruise lines which is a parent company of Oceania. OFM indicates Port of Miami is not aware of the ship coming to Miami and questioned where it would even dock as all available ports are occupied. OFM in touch with Norwegian.

Hello,

This is a public records request for any accounting of suspected and/or confirmed deaths from COVID-19/Corona virus in Florida from January 1 to date. Pursuant to Chapter 119, we request these records in the form in which they are stored, including but not limited to a data spreadsheet or other database, to include all fields. We request that these records be shared electronically to eliminate the need and cost of reproduction and staff time.

If I can help clarify this request in any way, please let me know.

Thank you.

John,

On the call earlier this week we were told there were over 70,000 people between state and international waters off our coast on these ships. We were also provided numbers of people who have tested positive with covid and how many others have symptoms. Do you have the numbers of how many have covid and how many others have symptoms? Do we believe these numbers the cruise ships have supplied since they have been less than honest through this whole process? Also do we know how many potential medevacs we have had or may be looking at over the next several weeks? What facility (with federal support) should the state have to plan for in the event we have a stream of people from these ships that need immediate medical care?

Jeanne:

AMERICAN OVERSIGHT

We currently for Florida do not have any new cruise ships with PAX arriving for the near future. We do have cruise ships with crew in and around Florida. These vessels are working disembarkation plans with CDC for the crews. Numbers of vessels in this category as of yesterday were 38 vessels with 33,536 crew members. This number fluctuates, as vessels move in and out for stores, fuel and disembarkation.

Hope this helps.

John

Director Moskowitz:

I apologize for not getting back sooner, I have had computer problems for most of today. The answers to your questions are summarized below

1) For crew numbers, you are correct and I share those numbers with FDEM/FDOH staff throughout the week. The crew numbers as of yesterday were 33,536 crew members in/near Florida and 41,013 crew members in the Bahamas/Caribbean.
2) The COVID numbers are reported to/by CDC, I have worked with CDR Otis and supplied a contact at CDC Atlanta so that ESF-8 could have the best visibility on the numbers. Per CDR

AMERICAN OVERSIGHT

Otis, CDC is working on a product for cruise ships. Date for release is TBD. (CDR Otis, please feel free to amplify/correct). However, having said that, the numbers that USCG has are as follows for the 40 cruise ships in or near Florida: COVID-19: 34 cases, ILI: 132 cases, and ARI: 65 cases. These numbers have not been verified by CDC.

3) Since March 8, 2020, USCG shows 16 MEDIVACs and 27 medical evacuations from cruise ships. In the majority of these cases, USCG involvement was limited to facilitating medical transport between the cruise ship and the accepting hospital. There are another seven cases we are aware of, but did not have involvement in.
4) The USCG does not have data on the future number of crew members who will need care. The CDC or FDOH, in partnership with the cruise lines and other port partners, would be in the best position to estimate/model the potential future number of crew members who will need care.

Please let me know if there is anything else we can do to assist you.

v/r,

CDR Fitzgerald

John,

On the call earlier this week we were told there were over 70,000 people between state and international waters off our coast on these ships. We were also provided numbers of people who have tested positive with covid and how many others have symptoms. Do you have the numbers of how many have covid and how many others have symptoms? Do we believe these numbers the cruise ships have supplied since they have been less than honest through this whole process? Also do we know how many potential medevacs we have had or may be looking at over the next several weeks? What facility (with federal support) should the state have to plan for in the event we have a stream of people from these ships that need immediate medical care?

Thank you,

Jared,

For certain patients and circumstances, practitioners licensed in Florida may not have to have an in person visit. We have waived in person visit requirements for certain instances to allow telehealth including refilling prescriptions under chapter 893. However, if practitioners are able to fulfill their professional roles via telephone, that is not necessarily barred by Florida law. For example, I am aware that licensed mental health counselors may do some telephonic consultations with their patients. Nothing currently prohibits those things and ultimately, it is in the discretion of the licensed health care practitioner based on their experience, professional judgment, and the specific circumstances of each patient.

Hello:
Sorry for a late Friday night email but once again I need help. I will try to be succinct about the issue.

- we are in a pandemic crisis
- we treat a vulnerable population
- the Feds, CMS, the State and commercial insurance has loosened restrictions and are allowing phone services to be provided to those that do not have the ability to do services by computer or smart phones
- the Department of Health and the Licensing board for Social Workers, Marriage and Family and Mental Health Counselors has NOT reduced the regulations on providing phone services when Telehealth can't be provided by video with phone
- this is a HUGE BARRIER to providing services to some of our population
- also, Registered Interns may not see any new patients by Telehealth during the COVID-19 crisis

THIS WILL BE A MAJOR TO ALL PROVIDERS ACROSS THE STATE. Can you help??? We need to be able to provide services to all not just those that can afford the appropriate electronics! We need fewer people to gather in on place for services! Providing services by video, video and phone, and just phone, protects the patients and our staff. WE NEED YOUR HELP!!

With Gratitude,

Candy

Hi Ms. Irving,

First, I want to compliment Ms. Williams and Ms. Hartman for their prompt responses to my question regarding Telehealth and Interns.

Next, I am asking for assistance in answering the question that I sent to both Ms. Williams and to Hartman, Janet E Janet.Hartman@flhealth.gov. I received two different responses.

AMERICAN OVERSIGHT

I asked if the following was allowed:

> During the COVID-19 Emergency, the registered intern can perform **phone and telehealth services for "New" patients** as part of their employment. They just can't count these hours toward the license.

Ms. Williams stated this was **correct**.

Ms. Hartman stated **it was not allowed** and continued to reference only what was written in the attached emergency rule.
Ms. Hartman stated in her email, "During the board meeting today, registered interns accepting new patients to provide therapy by telehealth was discussed, but was ultimately not authorized. So the short answer is no, they may not provide therapy to new clients by telehealth."

Could you please respond on which answer is correct?

Hi, Alberto,

Will you help us understand how the department collects and reports inconclusive and negative results for COVID-19 testing in the daily updates?

Are the 1,221 inconclusive results reported at 10 a.m. today representative of all tests performed at all labs, or just some labs, such as Bureau of Public Health labs? This was the case for the number of persons awaiting testing.

I also wanted to ask for clarification on the negative results reported by the department. Are the 187,942 negative results based on results reported by all labs?

On April 14, the department introduced an emergency rule requiring all labs to report positive and negative results immediately.

Will you explain how the department collected data on negative results prior to the April 14 emergency rule?

If labs were already reporting this information, then why was the rule necessary? If they were not all reporting this information, then how did the department collect data on

negative results reported by the agency prior to the rule?

Thank you for your help with these questions. We would appreciate a response today if possible.

Erik,

Thanks. Couple general thoughts on the comments:

1. I didn't think the public records paragraph at D.8 is necessary because this isn't a contract for services, but it could be left in. The name of whoever is to be AHCA's single point of contact would be inserted at the end.
2. If the AHCA person's name is in D.8, then public records requests for this contract would default to AHCA, which addresses the question on who would handle such requests. (Obviously we'd prefer not to be the ones tasking point on all the PRRs, but we can certainly respond to the data since it is ours.)
3. Also didn't think paragraph I. regarding attorney general cooperation was necessary because this is not a services contract.

Let me know your thoughts on this. I still haven't heard from McKinsey.

AMERICAN OVERSIGHT

Chris/Jennifer/Kim/Amanda,

The purpose of the agreement should just be for bed count and hospital modeling.

I don't know that Health needs to be included for that purpose or that there needs to be any HIPAA requirements in the draft. Can one of you take point in trying to get something drafted for that purpose? I think it just needs to be between DEM and the company? Perhaps AHCA as well for the institutional information. Chris can determine who leads.

Erik/Stefan,

Hi Joe – are you tracking the MS Marina (Oceania)? I'm tracking 653 Amcits on board, COVID(+) cases on ship, headed to Miami but no ports there open. This is going to be a problem soon. We're getting inquiries from the Australians and Andorrans. This is the latest I have:

18MAR: Indications that an Oceania cruise ship will be arriving at Port of Miami sometime next week with various COVID-19 positives on it. Consular Affairs from the Australian Embassy contacted to say they had been notified overnight that the MS Marina (Oceania) is returning to Miami from South America via the Panama Canal after it was denied docking by several countries. The latest advice the Embassy has is that it is passing through the Canal could take 5 or 6 days. Australian Embassy in Mexico and Honorary Consul in Panama are trying to assist at least 49 Australians on board - some of whom are starting to run short of medications etc. - but are having difficulty contacting the crew and Oceania's agents in Panama. CONS provided them with the contact for Norwegian cruise lines which is a parent company of Oceania. OFM indicates Port of Miami is not aware of the ship coming to Miami and questioned where it would even dock as all available ports are occupied. OFM in touch with Norwegian.

We haven't waived sunshine requirement at this point. Let's definitely chat about this.

The EO doesn't give locals the ability to waive the statutory sunshine requirements, only Governor or SCO can do that. What they can do is utilize the pre-existing allowances under sunshine to hold telephonic meetings as long as they follow all the other requirements.

Erik,

I'd like to chat with you today about guidance for county/community attorneys on public meetings during state of emergency. I'll catch up with you soon. Just spoke with Ms. Friedlander from Osceola County and want to see if we can have some sort of reach out to the Florida Association of Community Attorneys too.

Thanks!

Good Morning,

Hope this finds everyone well. My question was whether we had this data or retained it in the first place.

We may not have this information, but instead may have inputted data based on information provided by DOH, to push out to the public. (death count on the webpage)

I was going to respond with this number but wanted to make sure it was accurate and the Division's place to do so.

Sorry that was not clear from my forwarded email.

I know everyone is extremely busy and I appreciate your time and assistance. Sorry to bother you with another PRR.

I will respond based on what FDEM has unless I hear anything different.

Have a great day everyone!

Hello,

This is a public records request for any accounting of suspected and/or confirmed deaths from COVID-19/Corona virus in Florida from January 1 to date. Pursuant to Chapter 119, we request these records in the form in which they are stored, including but not limited to a data spreadsheet or other database, to include all fields. We request that these records be shared electronically to eliminate the need and cost of reproduction and staff time.

If I can help clarify this request in any way, please let me know.

Thank you.

Currently we are working on getting our employees to your airport, when that happens the forms should be given to DOH official upon deplaning. At this point we do not have employees there, so if someone at the airport can retain the forms. Copying DOH Chief of Staff and General Counsel, and our SERT Chief on this e-mail.

Florida has a very broad public records law. Written communications to or from state officials regarding state business constitute public records. Public records are available to the public and media upon request, unless the information is subject to a specific statutory exemption. Therefore, any information that you send to this address, including your contact information, may be subject to public disclosure.

Good Morning,

Hope this finds everyone well. My question was whether we had this data or retained it in the first place.

We may not have this information, but instead may have inputted data based on information provided by DOH, to push out to the public. (death count on the webpage)

I was going to respond with this number but wanted to make sure it was accurate and the Division's place to do so.

Sorry that was not clear from my forwarded email.

I know everyone is extremely busy and I appreciate your time and assistance. Sorry to bother you with another PRR.

I will respond based on what FDEM has unless I hear anything different.

Have a great day everyone!

Hello,

This is a public records request for any accounting of suspected and/or confirmed deaths from COVID-19/Corona virus in Florida from January 1 to date. Pursuant to Chapter 119, we request these records in the form in which they are stored, including but not limited to a data spreadsheet or other database, to include all fields. We request that these records be shared electronically to eliminate the need and cost of reproduction and staff time.

If I can help clarify this request in any way, please let me know.

Thank you.

As you are all well aware, a request to answer a question is not a public records request under Florida law.

However, I can assign a public records request number to this request and fulfill through the Department of Health's public records office. The workplace of any individual that is a person under investigation or is known to have been positive for COVID-19 is confidential pursuant to section 381.0031(6), and Florida Administrative Code Rule 64D-3.036, and is only released if necessary for the protection of public health. Such a determination has not been made outside of the State Surgeon General's disclosure of the employment area for Port Everglades to date.

If, somehow, the *questions* below are supposed to be interpreted as public records requests, any documents with that information are confidential and exempt from disclosure under that statutory section and rule. The Department is publishing on its website the age, gender, county of residence, and travel-related nexus of all positive cases thus far. There are no other records we can provide.

Thank you for the response, however per Florida Statutes you are legally obligated to fulfil my request OR state in writing the basis for the denial, including the **exact statutory citation authorizing the denial** as required by s. 119.07(1)(d), F.S.

Respect for privacy Is not a legal Florida statute. Documents can be redacted to protect patient privacy as far as is dictated by law, however place of employment with such a large employer would not identify a single specific individual. Additionally, disclosing where patients are being hospitalized would also not identify a patient or compromise privacy. To reiterate my legal request, Pursuant to Article I, section 24 of the Florida Constitution, and chapter 119, F.S., I am requesting an opportunity to inspect or obtain copies of public records that relate to the three questions I have posed (copied below) including any email correspondence and death records/certificates between state/local agencies and medical facilities.

2) We have 2 doctors on record stating someone in the Orlando Health system has died from COVID-19/Coronavirus, can you confirm this?
3) We have those same 2 doctors on record claiming there are multiple patients at Orlando Health being treated for COVID-19/Coronavirus complications, can you confirm this?
4) We have multiple sources telling us a doctor at Orlando Health has tested positive for COVID-19. Was he seeing patients when he was exhibiting symptoms?

I am including our attorneys on this email should you require further legal clarification.

Good Evening,

First, I would like to thank you all for your tireless efforts. I know the phones in our newsroom are ringing off the hook, I can't imagine how busy all of you are.

I have a few questions I need to try to find answers to.

1) I saw there was an additional Florida death today. Can you release information on where that death was? I checked out the dashboards and the comprehensive data list, but I could not find there the death occurred.
2) We have 2 doctors on record stating someone in the Orlando Health system has died from COVID-19/Coronavirus, can you confirm this?
3) We have those same 2 doctors on record claiming there are multiple patients at Orlando Health being treated for COVID-19/Coronavirus complications, can you confirm this?
4) We have multiple sources telling us a doctor at Orlando Health has tested positive for COVID-19. Was he seeing patients when he was exhibiting symptoms?

AMERICAN OVERSIGHT

Pursuant to Article I, section 24 of the Florida Constitution, and chapter 119, F.S., I am requesting an opportunity to inspect or obtain copies of public records that relate to the four questions I have posed including any email correspondence and death records/certificates between state/local agencies and medical facilities. Should you deny my request, or any part of the request, please state in writing the basis for the denial, including the **exact statutory citation authorizing the denial** as required by s. 119.07(1)(d), F.S.

Respect for privacy Is not a legal Florida statute. Documents can be redacted to protect patient privacy as far as is dictated by law, however place of employment with such a large employer would not identify a single specific individual. Additionally, disclosing where patients are being hospitalized would also not identify a patient or compromise privacy. To reiterate my legal request, Pursuant to Article I, section 24 of the Florida Constitution, and chapter 119, F.S., I am requesting an opportunity to inspect or obtain copies of public records that relate to the three questions I have posed (copied below) including any email correspondence and death records/certificates between state/local agencies and medical facilities.

Re: EXPEDITED FOIA Request for the names of nursing homes that have had positive tests for covid-19 and the novel coronavirus, and other information, under Florida Sunshine Law

Dear Information Officer:

I am a representative of the Washington Post, a news media organization primarily engaged in the dissemination of information that is urgently needed to inform the public of actual or alleged government activity, so please process this request in an expedited manner.

AMERICAN OVERSIGHT

Pursuant to the Florida Sunshine Law Fla. Stat. §§ 286.011 to 286.012 (1991), I hereby request the following:

--The names of each nursing home, hospital and assisted living facility that has had a positive covid-19 test.

--The date and location of each positive test in a facility, and a breakdown by age and whether they are staff, residents or visitors.

If you regard these documents as potentially exempt from the public record act's disclosure requirements, I request that you nonetheless exercise your discretion to disclose them. As required, please release all segregable, non-exempt portions of documents, preferably via email to **maria.sacchetti@washpost.com** .

To permit me to reach an intelligent and informed decision whether to contest any denied material, please describe any withheld records (or portions thereof) and explain the basis for your exemption claims.

While I am aware that you may be entitled to charge some reasonable fees to process this request, I hereby request that you waive all such fees. Waiver of fees is in the public interest because the furnishing of the information sought by this request will primarily benefit the public and is likely to contribute significantly to public understanding of the operations or activities of the government. If, however, you decide not to waive fees and expect them to exceed $100, please advise me as to the estimated cost of fulfilling the request (including copying charges).

I look forward to hearing your prompt response to my request, as required by law.

Sincerely,

Re: EXPEDITED FOIA Request for the names of nursing homes that have had positive tests for covid-19 and the novel coronavirus, and other information, under Florida Sunshine Law

Dear Information Officer:

I am a representative of the Washington Post, a news media organization

AMERICAN OVERSIGHT

primarily engaged in the dissemination of information that is urgently needed to inform the public of actual or alleged government activity, so please process this request in an expedited manner.

Pursuant to the Florida Sunshine Law Fla. Stat. §§ 286.011 to 286.012 (1991), I hereby request the following:

--The names of each nursing home, hospital and assisted living facility that has had a positive covid-19 test.

--The date and location of each positive test in a facility, and a breakdown by age and whether they are staff, residents or visitors.

If you regard these documents as potentially exempt from the public record act's disclosure requirements, I request that you nonetheless exercise your discretion to disclose them. As required, please release all segregable, non-exempt portions of documents, preferably via email to **maria.sacchetti@washpost.com** .

To permit me to reach an intelligent and informed decision whether to contest any denied material, please describe any withheld records (or portions thereof) and explain the basis for your exemption claims.

While I am aware that you may be entitled to charge some reasonable fees to process this request, I hereby request that you waive all such fees. Waiver of fees is in the public interest because the furnishing of the information sought by this request will primarily benefit the public and is likely to contribute significantly to public understanding of the operations or activities of the government. If, however, you decide not to waive fees and expect them to exceed $100, please advise me as to the estimated cost of fulfilling the request (including copying charges).

I look forward to hearing your prompt response to my request, as required by law.

Sincerely,

Maria Sacchetti

Good morning Stephanie,

Pardon, but state officials referred us to you, in the attached email, and so does the department's web site. http://www.floridahealth.gov/newsroom/2020/03/032420-1800-covid19.pr.html
Can you please explain how your agency is reporting the numbers without the names? Please see page 2. https://floridadisaster.org/globalassets/covid-19-data---daily-report-2020-03-24-1657.pdf

This is an urgent inquiry. Your agency, the Department of Emergency Management, is reporting that 37 of approximately 72,000 nursing home residents are infected, and Florida has not released the home names since our inquiries several days ago.

As you know, nursing homes are considered extremely vulnerable to covid-19, and it is not clear if all residents, families, visitors and vendors have been informed of the infections.

Sincerely,
Maria Sacchetti

It is correct that a person who tested negative on 3/24 at a Department of Health laboratory, where we use the CDC developed COVID-19 assay, had a subsequent specimen test positive at a commercial laboratory on 3/26. There is no reason to believe that either result is incorrect. It could be that the person did not shed virus on 3/24 but did on 3/26. There could also have been differences in the quality of the sample and the integrity of the sample before it is tested. These can all contribute to different results from one day to another during the course of disease.

Florida Department of Health retested the sample from 3/24 using a different assay that we have recently started running and verified in our laboratory. We performed the repeat with the Abbott m2000 SARS-C0V-2 Assay which targets the N gene and the RdRp gene. This was also negative.

As tests are performed there is always a chance of a false negative or a false positive. It is also important to note that this is a new virus and testing procedures are being refined throughout this response.

Hello, I'm a reporter at the Wall Street Journal. I heard from a Florida doctor who has concerns that the Florida bureau of laboratories' Jacksonville public health lab reported a false negative result to him for a child his practice tested for coronavirus last week. The patient was also tested at another lab twice, before and after the Jacksonville result, and those results were positive ones.

I'd like to ask if you are able to provide any information about the sensitivity of the state labs' tests when used in both lab and real-world situations, and whether you have any comment on what could cause test to produce varying results on the same patient during the same time interval. I'd also be interested in hearing any guidance you have been giving to health providers regarding specimen collection, storage or shipment, and what techniques you are using to collect specimens at DOH testing sites.

Please let me know if you have any questions about this inquiry. My deadline is end of day, today.

Thanks,
Chris

Thank you Louise. The education law folks are interested in this issue, too, because school boards and charter school boards have the same quorum requirement. If possible, could you include me on any communication re: what you decide? I'm hoping that DOH makes that determination, because I suspect we won't be able to meet in person for the foreseeable future. Hope all is going as well as possible for you under the circumstances.

Susan and Bob:

We reached out to

Louise St. Laurent
General Counsel
Office of the General Counsel
Florida Department of Health

(850) 597-3531 (Cell)

The Department of Health arguably has authority from the Governor's declaration of emergency to waive the requirement that a quorum must be physically present. She is in the process of determining whether there is such authority and whether the Department of Health wishes to exercise that authority. Should the Department of Health take action I will forward on.

Bob,

We are asking the same questions here. My research indicates that the AG always has opined that a quorum must be physically present before anyone who is sick or infirm may appear by telephone. I have not found any latitude for allowing a videoconference of the board members under circumstances such as an epidemic. The emergency management statutes don't address any type of relaxation of or waiver of the Sunshine law requirements, at least nothing I have found.

Florida has a very broad public records law. As a result, any written communication created or received by City of Pensacola officials and employees will be made available to the public and media, upon request, unless otherwise exempt. Under Florida law, email addresses are public records. If you do not want your email address released in response to a public records request, do not send electronic mail to this office. Instead, contact our office by phone or in writing.

Given the issues that COVID-19 presents, other than asking the Governor to include a waiver of the public meeting requirements in the Declaration of Emergency, does anyone have any ideas about the ability to handle public meetings during an infectious disease breakout? Natural disasters do provide some challenges, but this seems to be different. I would welcome any suggestions. The issues I see is that we have to have a quorum of our Board present to begin a meeting and we have to provide some method for public participation.
