Re: 20-cv-02195 (2021-HQLI-00010)

Dear Ms. Anthony:

This is an interim response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS). For this production, DHS reviewed 514 pages of FEMA records. Of the 514 pages, 313 are released in full, 5 pages are withheld in part, and 28 pages are withheld in full, pursuant to FOIA exemptions (b)(5) and (b)(6). The pages for release are Bates stamped DHS-FEMA-031122-02195-000001 through DHS-FEMA-031122-02195-000346.

Furthermore, 17 pages will be sent for referral, 1 page will be sent for consultation. 24 pages were found to be non-responsive, and 126 pages were found to be duplicates.

If you have any questions regarding this release, please contact Assistant U.S. Attorney, Thomas Duffey, United States Attorney's Office, U.S. District Court for the District of Columbia, by email at Thomas.Duffey@usdoj.gov.

Sincerely,

A handwritten signature in blue ink that reads "Eric A. Neuschaefer".

Changes for v4																	
But PPE Demand into direct and indirect care																	
Collected low and high acuity estimates and added % of patients that are high acuity as an input in the model																	
Notes																	
PPE: Usage per day is per patient																	
Standard Practice Protocol is intended to model PPE usage that follows CDC guidelines with adaptation due to shortages																	
Critical Shortage Protocol is added from Standard Practice Protocol to model PPE usage under shortage conditions in which re-use or alternate PPE might occur																	
Face Mask and N95 Utilization split to account for prioritization of N95s for aerosol generating procedures																	
More than 1 count of gloves per visit to account for situations requiring double-gloving or re-gloving																	
PAPR - est. cost of PAPR = \$1,800, if N95 cost is \$2 per mask, PAPR is 90% more expensive. PAPR is more easily reusable and some healthcare providers can't use N95s																	
PAPR use modeled as 1 PAPR for every 100 N95s																	
Usage per outpatient ED visit based on low acuity patient usage																	
Additional hospital usage - respiratory monitoring based on applying C-19 PPE protocols to any daily full admissions per bed																	
Additional hospital usage - universal masking based on distributing facemasks to all clinical personnel for extended use, shortage protocol replaced every 10 days, standard protocol replaced every 5 days

Facemasks being used for all visits. Gloves previously used for all visits so no additional PPE usage for all visits. Gloves included in Contact and Aerosol PPE to allow for extra glove use. Additional PPE used for responding to calls with breathing problems, choking, sick person or cardiac arrest				
2 EMTs responding to each call				
Law Enforcement and National Guard allocated 1 pair of gloves and 1 face mask per day				
Modeling call volume for those requiring PPE to be steady - this may decrease or increase based on local experience/variables

Proceedings: IN CHAMBERS—ORDER EXTENDING TEMPORARY RESTRAINING ORDER AND PERMITTING SUPPLEMENTAL BRIEFING

On March 26, 2020, in light of the Coronavirus 2019 (“COVID-19”) public health crisis, Plaintiffs filed an *Ex Parte* Application for a Temporary Restraining Order (“TRO”) and requested an Order to Show Cause (“OSC”) why a preliminary injunction should not issue, arguing that Defendants Office of Refugee Resettlement (“ORR”) and Immigration and Customs Enforcement (“ICE”) must promptly release or provide justification for retaining custody over eligible Class Members, and that ORR and ICE should implement the practices recommended by the United States Centers for Disease Control and Prevention (“CDC”) to avoid the spread of infection. [Doc. # 733.] On March 27, 2020, Defendants filed their response, and the Court held a hearing. [Doc. # 736.]

The Court granted in part and denied in part the *Ex Parte* Application for a TRO, concluding that Plaintiffs had raised serious questions going to the merits of whether ICE had complied with the *Flores* Settlement Agreement’s (“FSA”) requirement to provide safe and sanitary facilities for Class Members during the pandemic and whether ICE and ORR had complied with the FSA’s requirements to “release a minor from its custody without unnecessary delay” and “make and record the prompt and continuous efforts on its part toward family reunification and the release of the minor.” *See Flores* Agreement ¶¶ 12, 14, 18 [Doc. # 101]. Plaintiffs also satisfied the other injunctive relief factors. TRO at 12–13 [Doc. # 740]. Accordingly, the Court ordered ORR and ICE to make every effort to promptly and safely release Class Members in accordance with Paragraphs 14 and 18 of the FSA and the Court’s prior orders; to submit to inspections by the Juvenile Coordinators; to provide evidentiary snapshots to the Court, the Special Monitor Andrea Ordin, and Class Counsel; and to show cause by April 10, 2020, why the Court should not grant Plaintiffs’ motion for preliminary injunction (“MPI”). TRO at 13–15.

In accordance with the TRO, Defendants submitted spreadsheets with information about (1) all of the 648 Class Members in ICE’s custody as of March 28, 2020 and (2) all of the class

members in the care of the 33 ORR facilities located in the states with the largest numbers of COVID-19 cases at that time. The ICE spreadsheet contains minimal detail about each minor's circumstances—for example, 272 of the minors are listed merely as “In custody—pending IJ hearing/decision” and 133 of the minors are listed as “In custody—pending USCIS response.”¹ Sixty-six minors remain in custody because they are plaintiffs or potential plaintiffs in federal class actions. Of the 648 Class Members listed, their status is as follows:

- 18 – recently released
- 131 – in ICE custody for less than 20 days
- 108 – in ICE custody between 21 and 30 days
- 294 – in ICE custody between one month and three months
- 70 – in ICE custody for over six months
- 27 – in ICE custody for over nine months.²

In accordance with the TRO, ICE submitted video tours of its three Family Residential Centers (“FRCs”). The ICE Juvenile Coordinator, Deane Dougherty, also submitted a report noting that of the files she reviewed, ICE had made individual determinations of each Class Members’ parole eligibility and that she continued to monitor the management of COVID-19 containment policies at the FRCs.

The ORR spreadsheet includes, *inter alia*, detailed summaries of efforts to release the minors and reasons why the minors remained in custody, such as the lack of an available sponsor (mentioned in 73 minors’ cases) or the inability of the sponsor to meet ORR’s fingerprinting requirement due to pandemic-related closure of fingerprinting sites (mentioned in 51 minors’ cases). Five selected ORR facilities submitted photos and/or videos of the facilities, and the ORR Juvenile Coordinator, Aurora Miranda-Maese, submitted a report indicating overall satisfaction with ORR’s compliance with COVID-19 guidance in shelter care and pointing out areas of improvement which she had already communicated to the facilities.

From the data provided by Defendants and observations from attorneys working with Class Members, Plaintiffs identify several issues that may result in unnecessary delay of minors’ release in violation of the FSA:

¹ The Court surmises from these entries and the history of this case that over half of the minors are still in ICE custody pending hearings or decisions by an Immigration Judge or U.S. Citizenship and Immigration Services relating to asylum applications.

² These numbers are based on the Court’s independent review of the ICE spreadsheet provided to the Court, the Monitor, and Class Counsel.

Case No. **CV 85-4544-DMG (AGRx)**Date **April 10, 2020**Title ***Jenny L. Flores, et al. v. William P. Barr, et al.***Page **3 of 6**

1. ICE's cursory and unsatisfactory efforts to "record the prompt and continuous efforts" to release minors in ICE custody, based on the lack of individualized parole eligibility data provided and insufficient explanation of why a minor must remain in custody for the pendency of an asylum application or federal lawsuit;
2. ORR's blanket ban of release of all minors placed in New York, California, or Washington, where COVID-19 has prompted stay-at-home orders;
3. ORR's policy of postponing release of all minors in a facility with a confirmed case of COVID-19, though minors could possibly be quarantined safely in a sponsor's home;
4. ORR's failure to adapt its fingerprinting requirements for certain vetted sponsors despite the unavailability of fingerprinting facilities during the pandemic;
5. ORR's failure to adapt its home studies requirement for certain vetted sponsors despite the indefinite pause on home studies during the pandemic; and
6. ORR's blanket ban on release of children with removal orders based on the Migrant Protection Protocols, or "Remain in Mexico" policy.

See Pls.' Reply [Doc. # 754]. Plaintiffs also argue that ICE has not sufficiently implemented protective measures against COVID-19 in its FRCs, submitting supplemental declarations from ICE detainees in support. *Id.* at 16–17; *see* Doc. # 761. Plaintiffs therefore request a preliminary injunction that—for the umpteenth time—orders ICE and ORR to abide by the FSA and to continue to require, as an interim measure, that the agencies provide summaries of efforts towards family reunification or release of minors to the Monitor and Class Counsel. *Id.* at 30–33.

Because ICE and ORR's recent data disclosure has brought to light new, more particularized issues not previously raised in Plaintiffs' TRO or Defendants' Opposition, Defendants request the opportunity to file a Second Supplemental Opposition. [Doc. # 762.] The Court agrees that permitting Defendants to respond would create a more complete record before it rules on Plaintiffs' request for preliminary injunction. Accordingly, Defendants' request is **GRANTED**. In their Second Supplemental Opposition, Defendants shall address Plaintiffs' supplemental declarations about conditions at the FRCs as well as the following questions:

1. As discussed above, ICE's uniform perfunctory explanations for non-release seem to imply that a blanket prohibition on release exists as to minors who are categorized as "pending IJ hearing/decision," "pending USCIS response," or are plaintiffs or class members in litigation. Do these explanations contravene this Court's June 27, 2017 Order [*see* Doc. # 363 at 20–27; 394 F. Supp. 3d 1041, 1063–1068 (C.D. Cal. 2017)]? What individualized

parole determinations and continuous efforts to secure a minor's release does ICE undertake in these categories, especially in light of the COVID-19 pandemic?

2. Does ORR have a blanket ban on releasing children placed in states where there are "shelter in place" or "stay at home" orders? Now that 42 states have these "stay at home orders" in place, has that ban been extended to states other than New York, California, and Washington? How does ORR perform an individualized assessment of each minor's eligibility for release in states where "stay at home" orders are in place?
3. Does ORR maintain a policy of postponing release of all minors in a facility with a confirmed case of COVID-19? Does ORR consider releasing minors to be quarantined in a sponsor's home? If not, why not?
4. In light of the unavailability of fingerprinting facilities in many areas due to COVID-19, will ORR adjust its fingerprinting requirements for eligible vetted sponsors? For example, would ORR consider postponing or suspending its fingerprinting requirements like some state child services agencies have done due to the pandemic?
5. Why does the Migrant Protection Protocols affect a minor's eligibility to be released?

Because the Court grants Defendants the opportunity to provide further explanations before it makes a determination of whether there has been "unnecessary delay" in contravention of Paragraphs 14 and 18 of the *Flores* Agreement, there is a high probability that Plaintiffs will suffer irreparable harm if the Court's March 28, 2020 TRO is lifted. As discussed in the TRO, the medical consensus is that any form of congregate care puts a child in custody at higher risk of infection. *See* TRO at 6, 12. Any unnecessary delay in releasing a minor is, under normal circumstances, a violation of the FSA, but the current pandemic makes the Agreement's promise to protect and expeditiously release minors even more critical to their safety. The balance of equities therefore tips sharply in Plaintiffs' favor.

The Court stresses that its TRO does not read a new requirement of "unexplained delay" into the FSA. In the context of Plaintiffs' motion, however, where they have pointed to evidence that certain of Defendants' policies have caused "unnecessary delay" in the release of eligible Class Members, Defendants must explain why these policies are not "unnecessary" or have not caused delay in order to meet their *evidentiary* burden of responding to Plaintiffs' motion and to facilitate the transfer of relevant information to the Court. An unsatisfactory explanation or an unexplained delay in a Class Member's release may be *evidence* of "unnecessary delay" in release.

Of course, if Defendants wish to waive their right to respond to Plaintiffs' arguments and evidence, then they need not explain their delay.

Pursuant to Federal Rule of Civil Procedure 65(b)(2), the Court therefore **EXTENDS**, for a period of 14 days, the following aspects of the March 28, 2020 TRO:

1. Defendants are **ORDERED TO SHOW CAUSE** by **April 24, 2020 at 10:00 a.m.** why a preliminary injunction should not issue (1) requiring Defendants to make and record continuous efforts to release class members; (2) enjoining Defendants from keeping minors who have suitable custodians in congregate custody due to ORR's unexplained failure to promptly release these minors to suitable sponsors under the TVPRA; and (3) enjoining Defendants from keeping minors who have suitable custodians in congregate custody due to ICE's unexplained failure to release these minors within 20 days, especially given the emergent circumstances and the Court's prior orders requiring the same (*see, e.g.*, July 24, 2015 Order [Doc. # 177], June 27, 2017 Order [Doc. # 363], July 9, 2018 Order [Doc. # 455], July 30, 2018 Order [Doc. # 470]).
2. Pending the OSC hearing, **IT IS HEREBY FURTHER ORDERED** as follows:
 - a. ORR and ICE shall make every effort to promptly and safely release Class Members in accordance with Paragraphs 14 and 18 of the FSA and the Court's prior orders (*see, e.g.*, July 24, 2015 Order [Doc. # 177], June 27, 2017 Order [Doc. # 363], July 9, 2018 Order [Doc. # 455], July 30, 2018 Order [Doc. # 470]).
 - b. By **April 17, 2020**, Defendants may file a Second Supplemental Response to Plaintiffs' supplemental declarations about conditions at the FRCs and the questions enumerated above regarding whether certain of their policies have caused unnecessary delay in the release of Class Members in violation of Paragraphs 14 and 18 of the FSA. Plaintiffs may file their reply to Defendants' Second Supplemental Response by **April 22, 2020**.

Coronavirus (COVID-19) Pandemic Whole-of-America Response

Thursday, April 9, 2020

"WHAT THE CDC HAS DONE IS THAT WE'VE REALLY LOOKED AT THE ESSENTIAL WORK FORCE, AND HOW TO MAINTAIN THAT WORK FORCE, PARTICULARLY AT THIS TIME AS WE BEGIN TO GET READY TO RE-OPEN, AND HAVE CONFIDENCE IN BRINGING OUR WORK FORCES BACK TO WORK." - CDC DIRECTOR DR. ROBERT REDFIELD.

Topline Briefing Points and Messages

- FEMA, HHS, and our federal partners work with state, local, tribal and territorial governments to execute a whole-of-America response to COVID-19 pandemic and protect the health and safety of the American people.
- FEMA Project Air Bridge expedites movement of critical supplies, in varying quantities, from the global market to medical distributors in various locations across the U.S.
 - **As of April 8**, 21 flights have landed, containing critical personal protective equipment (PPE): gloves, gowns, goggles, and masks.
 - Three flights are scheduled to arrive today, 1 in Chicago, 1 in New York City, and 1 in Dallas/Ft. Worth.
 - An additional 49 flights are scheduled over the next three weeks.
 - Overseas flights arrive at operational hub airports for distribution to hotspots and nationwide locations through regular supply chains. Flight arrivals do not mean supplies will be distributed in the operational hub locations.
 - FEMA is providing distributors with up-to-date information on the locations across the country hardest hit by COVID-19 or in most need of resources now and in the future.
 - Per agreements with distributors, 50 percent of supplies on each plane are for customers within the hotspot areas with most critical needs. The remaining 50 percent is fed into distributors' normal supply chain to their customers in other areas nationwide.
 - HHS and FEMA determine hotspot areas based on CDC data.
- Considering both scarcity of ventilators in the Strategic National Stockpile (SNS) and current capacity of the private sector to meet demand, the federal government has adopted a process to manage federal ventilator resources to ensure the right amount of ventilators are shipped to the to the right states to sustain life within a 72-hour window.
 - Emergency managers and public health officials submit requests for ventilators to FEMA/HHS, providing detailed data on:
 - Total medical/ hospital beds;
 - Total acute care (ICU) beds;
 - Normal occupancy;
 - Predicted surge occupancy; and
 - Number of ventilators available in your state.

DAILY BRIEFING POINTS: COVID-19 WHOLE-OF-AMERICA RESPONSE

- States can send requests outside of the 72-hour window for consideration by the federal government; allocation decisions and/or shipments, however, should not be expected until the state is within the immediate 72-hour window.
- The federal government has 8,324 total ventilators available: 7,724 in the Strategic National Stockpile; 600 from the Department of Defense.
- On **April 8**, the Department of Health and Human Services announced the first contract for ventilator production rated under the Defense Production Act, to General Motors.
 - GM's contract, at a total contract price of \$489.4 million, is for 30,000 ventilators to be delivered to the Strategic National Stockpile by the end of August, with a production schedule allowing for the delivery of 6,132 ventilators by June 1.
 - On April 3, President Trump issued "Memorandum on Allocating Certain Scarce or Threatened Health and Medical Resources to Domestic Use" directing DHS and FEMA, in consultation with the HHS, to use the Defense Production Act to keep scarce medical resources within the United States for domestic use. CBP is assisting FEMA in temporarily detaining export shipments of PPE. PPE subject to this policy includes: N95 respirators, and a variety of other respirators; surgical masks; and, surgical gloves.
- On **April 8**, CDC issued additional guidance to help ensure critical infrastructure workers can perform their jobs safely after potential exposure to the virus.
 - The guidance covers essential health care workers who've been exposed to the coronavirus.
 - Essential workers can, under certain circumstances, go back to work, if they're asymptomatic and take the recommended actions of taking their temperature before they go to work, wearing a face mask at all times, and practicing social distancing when they're at work.

By the Numbers

- Forty-two states, four territories and 24 tribes have issued stay-at-home orders.
- 52 states and territories have been approved for major disaster declarations to assist with additional needs identified.

FEMA and HHS Response

FEMA

- On **March 13**, President Trump declared a nationwide emergency pursuant to Stafford Act
 - 50 states, the District of Columbia, five territories, and 26 tribes are working directly with FEMA
 - A tribal government may choose to be a subrecipient under a state that has chosen to be a recipient of FEMA assistance, or choose to be a direct recipient of FEMA.
 - FEMA activated all 10 Regional Response Coordination Centers to support ongoing response efforts across the country. Emergency operations centers in all states and territories are activated.
- Requests for assistance, especially for critical supplies, should be routed through the proper channels as soon as possible. The most efficient way to identify critical gaps and get results:
 - Consistent with the principle of locally executed, state managed, and federally supported response, requests for assistance at the local and county levels should first be routed to their respective state.
 - Any needs that cannot be met by the state or tribe should then be sent to the respective FEMA regional office. FEMA regions will direct requests to FEMA NRCC in Washington, D.C. for fulfillment.
- FEMA/HHS are delivering supplies and ventilators using its logistics supply chain management system to procure and track commodities to supplement state and tribal purchases.
 - FEMA established an air bridge to reduce the time it takes for U.S. medical supply distributors to receive personal protective equipment and other critical supplies into the country for their respective customers.
 - FEMA covers the cost to fly supplies into the U.S. from overseas factories, reducing shipment time from weeks to days. FEMA does not have detailed visibility on PPE amounts until the cargo is loaded.

Subject: Talking points for Congressional Call - Bidding and DPA

Dave,

Below are the talking points you requested related to competition and DPA issues. Please let me know if you need anything else.

- The scarcity of resources is a **global issue** – the United States is competing for the same resources as many other countries.
- Overall, the federal government’s approach to this problem, to the best of our ability, is to allow regular supply chains to fill the orders they have from healthcare and critical infrastructure customers.
- In order to infuse the supply chain in days rather than weeks, the U.S., in partnership with private industry, is utilizing a unique strategy to maximize the availability of critical protective and lifesaving resources, through FEMA, for a whole-of-America response.
 - At the end of March, FEMA established “Project Air Bridge” to reduce the time it takes for U.S. medical supply distributors to receive personal protective

equipment and other critical supplies into the country for their respective customers.

- • Since the inception of the air bridge, 13 cargo planes have landed in the U.S. and have been distributed through supply chains across the country.
- • FEMA and our interagency partners continue to acquire supplies through new acquisition, DOD allocation. FEMA has only made **one direct purchase** off these flights to directly surge PPE into NY, NJ and CT.
 - • Per agreements with distributors, 50 percent of supplies on each plane are for customers within the hotspot areas with most critical needs. The remaining 50 percent is fed into distributors' normal supply chain to their customers in other areas nationwide.
- • As we process orders through the supply chain, we are maintaining close coordination with Governors to identify potential bidding conflicts.
- • We look to the Nation's Governors and Tribal Leaders to make us aware of specific information regarding apparent bidding conflict
 - • We will work closely with the State to resolve it in a way that best serves their needs.

Defense Production Act

- • FEMA has issued an N95 (DPA enabled) production order to 3M.
- • We are working with 3M to finalize the specifics of the timing and quantities of delivery.
 - • *Note: the President said 50M per month; the rated order calls for 60M per month*
- • We intend to use this new source of N95s to both fill State requests of FEMA for support and to reinforce normal supply chain fills.
