Dear Mr. Evers:

RE: Freedom of Information Act Request EPA-HQ-2020-004548

Thank you for your May 5, 2020, Freedom of Information Act (FOIA) request, "Records sufficient to identify any site-specific efforts to determine climate change related risks, including, but not limited to, wildfires, at any of the Superfund sites listed below. These documents may include climate change risk assessments, surveys, investigations, or other relevant documents."

Site EPA ID Superfund Name

1. NYSFN0204269 Shenandoah Road Groundwater Contamination
2. NJD981557879 Cornell Dubilier Electronics Inc.
3. SCD980558050 Townsend Saw Chain Co.
4. NJSFN0204232 Riverside Industrial Park
5. NYD980780779 Hertel Landfill
6. NJD002144517 Pierson's Creek
7. MSD065490930 Picayune Wood Treating Site
8. NYD980535652 Applied Environmental Services
9. NJD980505176 Brick Township Landfill
10. NJD980529713 Reich Farms
11. NJD002517472 Metaltec/Aerosystems
12. ALD001221902 Ciba-Geigy Corp. (McIntosh Plant)
13. CAN000906063 Blue Ledge Mine
14. NYD980654206 Port Washington Landfill
15. AZ0000309013 Iron King Mine - Humboldt Smelter
16. GAD003269578 Woolfolk Chemical Works, Inc.

22. MTD982572562 Basin Mining Area
23. SCD094995503 Kalama Specialty Chemicals

The attached Excel file is broken out with two tabs: one for wildfires and a separate, second tab for flooding and sea rise. The tab labelled "004548 – Wildfires" lists the 23 sites identified in your request and includes a hyper link corresponding to each one's Superfund Site Profile page.

Those pages display relevant site documents responsive to your request as well as general site information. The information you requested can be found in either a record of decision, record of decision amendment or in an explanation of significant differences. In a case where the cleanup remedy is in place, a five-year review document should be searched.

Additionally, after an exceptionally active 2017 hurricane season, the EPA performed an analysis of the season's effect on Superfund National Priorities List and Superfund Alternative Approach site remedies. This comprehensive analysis found, overall, that remedies are resilient. While tropical force winds or greater and/or inundation affected more than 250 sites, none indicated substantial impairment to a remedy's protectiveness and only 16 sites reported minor damage. EPA completed its report in 2018. You may find information in this report to be of interest; it can be found at: <https://www.epa.gov/superfund/evaluation-remedy-resilience-superfund-npl-and-saa-sites>.

You may appeal this determination by email at hq.foia@epa.gov, or by mail to the EPA's National FOIA Office, U.S. EPA, 1200 Pennsylvania Avenue, N.W. (2310A), Washington, DC 20460 or through FOIAonline if you are an account holder. If you are submitting your appeal by hand delivery, courier service, or overnight delivery, you must address your correspondence to 1200 Pennsylvania Avenue, N.W., WJC-N Building, Room 7309C, Washington, DC 20460.

Your appeal must be in writing, and it must be received no later than 90 calendar days from the date of this letter. The Agency will not consider appeals received after the 90-calendar-day limit. Appeals received after 5:00 p.m. EST will be considered received the next business day. The appeal letter should include the FOIA tracking number listed above. For quickest possible handling, the subject line of your email, the appeal letter, and its envelope, if applicable, should be marked "Freedom of Information Act Appeal."

If you need any further assistance or would like to discuss any aspect of your request, you may seek assistance from EPA's FOIA Public Liaison at hq.foia@epa.gov or call (202) 566-1667. You may also seek assistance from the Office of Government Information Services (OGIS). You may contact OGIS in any of the following ways: by mail, Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001; email: ogis@nara.gov; telephone: (202) 741-5770 or (877) 684-6448; or fax: (202) 741-5769. For all media inquiries, please contact press@epa.gov.
