The attached Excel file is broken out with two tabs: one for wildfires and a separate, second tab for flooding and sea rise. The tab labelled "004549 - Flood & Sea Level Rise" lists the 37 sites identified in your request and includes a hyper link corresponding to each one's Superfund Site Profile page. Those pages display relevant site documents responsive to your request as well as general site information. The information you requested can be found in either a record of decision, record of decision amendment or in an explanation of significant differences. In a case where the cleanup remedy is in place, a five-year review document should be searched.

Additionally, after an exceptionally active 2017 hurricane season, the EPA performed an analysis of the season's effect on Superfund National Priorities List and Superfund Alternative Approach site remedies. This comprehensive analysis found, overall, that remedies are resilient. While tropical force winds or greater and/or inundation affected more than 250 sites, none indicated substantial impairment to a remedy's protectiveness and only 16 sites reported minor damage. EPA completed its report in 2018. You may find information in this report to be of interest; it can be found at: <https://www.epa.gov/superfund/evaluation-remedy-resilience-superfund-npl-and-saa-sites>.

You may appeal this determination by email at hq.foia@epa.gov, or by mail to the EPA's National FOIA Office, U.S. EPA, 1200 Pennsylvania Avenue, N.W. (2310A), Washington, DC 20460 or through FOIAonline if you are an account holder. If you are submitting your appeal by hand delivery, courier service, or overnight delivery, you must address your correspondence to 1200 Pennsylvania Avenue, N.W., WJC-N Building, Room 7309C, Washington, DC 20460.

Your appeal must be in writing, and it must be received no later than 90 calendar days from the date of this letter. The Agency will not consider appeals received after the 90-calendar-day limit. Appeals received after 5:00 p.m. EST will be considered received the next business day. The appeal letter should include the FOIA tracking number listed above. For quickest possible handling, the subject line of your email, the appeal letter, and its envelope, if applicable, should be marked "Freedom of Information Act Appeal."

If you need any further assistance or would like to discuss any aspect of your request, you may seek assistance from EPA's FOIA Public Liaison at hq.foia@epa.gov or call (202) 566-1667. You may also seek assistance from the Office of Government Information Services (OGIS). You may contact OGIS in any of the following ways: by mail, Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD

20740-6001; email: ogis@nara.gov; telephone: (202) 741-5770 or (877) 684-6448; or fax: (202) 741-5769. For all media inquiries, please contact press@epa.gov.
