3 a State described in subsection (b)(1)(B)) which will be
4 payable during the period of the agreement (determined

14 Secretary finds that his estimates for any prior
15 calendar month were greater or less than the
16 amounts which should have been paid to the
17 State. Such estimates may be made on the
18 basis of such statistical, sampling, or other
19 method as may be agreed upon by the Secretary
20 and the State agency of the State involved.

23 be) shall continue to be payable to such individual
24 for any week beginning on or after such date for
25 which the individual is otherwise eligible for regular

1 compensation (or short-time compensation) with re-

20 et seq.) relating to the Coronavirus Disease 2019

10 amounts in the Treasury not otherwise appropriated, for
11 the fiscal year ending September 30, 2020, to remain

2 when allocating resources from the Housing Assistance
3 Fund using the process established under subsection (c)

6 with Secretary created pursuant to subsection (d)(1) and

8 (h) RESCISSION OF FUNDS.—Any funds that have

16 **SEC. 109. MORTGAGE FORBEARANCE.**

17 (a) FINDINGS.—

18 (1) FINDINGS.—Congress finds that—

19 (A) the collection of debts involves the use
20 of the mails and wires and other instrumental-
21 ities of interstate commerce;

22 (B) at times of major disaster or emer-
23 gency, the income of consumers is often im-
24 paired and their necessary daily expenses often
25 increase;

1 (C) temporary forbearance benefits not
2 only consumer and small business debtors, but
3 also other creditors by avoiding downward col-
4 lateral price spirals triggered by an increase in
5 foreclosure activity;

6 (D) without forbearance, many consumers
7 and small businesses are unlikely to be able to
8 pay their obligations according to their original
9 terms and are likely to default on obligations or
10 file for bankruptcy, resulting in reduced recov-
11 eries for creditors, and in the case of bank-
12 ruptcy, no recovery of unaccrued interest;

13 (E) with forbearance, creditors are likely
14 to realize greater long-term value because con-
15 sumers and small businesses will be more likely
16 to be able to repay their obligations after the
17 major disaster or emergency has subsided;

18 (F) the legislative and administrative re-
19 sponse to major disasters and emergencies may
20 consist of multiple components divided among
21 different statutes and programs; and

22 (G) when evaluating whether property has
23 been taken from a person without just com-
24 pensation, a holistic evaluation of the burdens
25 and benefits of all legislative and administrative

1 responses, including indirect benefits from mac-
2 roeconomic stabilization, is appropriate.

3 (2) FURTHER FINDINGS REGARDING MORTGAGE
4 FORBEARANCE.—Congress further finds that—

5 (A) ensuring that consumers are able to
6 remain in their residences reduces the disrup-
7 tions and economic harm caused by such disas-
8 ters and emergencies by ensuring that con-
9 sumers are able to continue their existing em-
10 ployment, education, childcare, and healthcare
11 arrangements, which are often geographically-
12 based;

13 (B) temporary forbearance on residential
14 mortgages is therefore critical to fostering eco-
15 nomic recovery and stability in the wake of
16 major disasters or emergencies;

17 (C) temporary mortgage forbearance dur-
18 ing a declared disaster benefits not only mort-
19 gagors, but also mortgagees because mortga-
20 gors' ability to pay is likely to be restored after
21 a disaster or emergency subsides, so forbear-
22 ance may increase mortgagors' total recovery.
23 Without forbearance, mortgagors are likely to
24 default or file for bankruptcy, resulting in sig-
25 nificant losses for mortgagees; and

1 (D) temporary mortgage forbearance dur-
2 ing a declared disaster also benefits the mortga-
3 gees of other properties because housing prices
4 are geographically and serially correlated so an
5 increase in foreclosures can drive down the
6 value of collateral for all mortgage lenders, fur-
7 ther destabilizing the economy.

8 (3) FURTHER FINDINGS REGARDING MORTGAGE
9 SERVICERS.—Congress further finds that—

10 (A) mortgage servicers are often contrac-
11 tually obligated to advance scheduled mortgage
12 payments to securitization investors, irrespec-
13 tive of whether the servicer collects the payment
14 from the mortgagor;

15 (B) mortgage servicers are often thinly
16 capitalized and with limited capacity for engag-
17 ing in large scale advancing of payments to
18 securitization investors;

19 (C) securitization investors have long been
20 aware of servicers' thin capitalization;

21 (D) in the wake of the 2008 financial cri-
22 sis, several servicers had difficulty obtaining
23 sufficiently liquidity to make advances;

24 (E) mortgage servicing is a heavily regu-
25 lated industry;

1 (F) in response to the 2008 financial cri-
2 sis, Congress created a safe harbor for mort-
3 gage servicers that undertook loan modifica-
4 tions;

5 (G) in response to the 2008 financial cri-
6 sis, the Home Affordable Modification Program
7 paid mortgage servicers to undertake loan
8 modifications;

9 (H) as part of the 2012 joint State-Fed-
10 eral National Mortgage Settlement, mortgage
11 servicers committed to undertaking loan modi-
12 fications; and

13 (I) investors in mortgage securitizations
14 are or should be aware of servicers' thin cap-
15 italization, liquidity constraints, the extent and
16 history of servicing regulation and therefore do
17 not have a reasonable expectation that the
18 terms of servicing contracts will be enforceable
19 at times of national financial crisis.

20 (4) DETERMINATION.—It is the sense of the
21 Congress that, on the basis of the findings described
22 under paragraphs (1), (2), and (3), the Congress de-
23 termines that the provisions of this Act are nec-
24 essary and proper for the purpose of carrying into
25 execution the powers of the Congress to regulate

1 commerce among the several States and to establish
2 uniform bankruptcy laws.

3 (b) PROHIBITION ON FORECLOSURES AND REPOS-
4 SESSIONS DURING THE COVID–19 EMERGENCY.—

5 (1) PROHIBITION ON FORECLOSURES.—The
6 Real Estate Settlement Procedures Act of 1974 (12
7 U.S.C. 2601 et seq.) is amended—

8 (A) in section 3 (12 U.S.C. 2602)—

9 (i) in paragraph (8), by striking
10 “and” at the end;

11 (ii) in paragraph (9), by striking the
12 period at the end and inserting “; and”;
13 and

14 (iii) by adding at the end the fol-
15 lowing:

16 “(10) the term ‘COVID–19 emergency’ means
17 the period that begins upon the date of the enact-
18 ment of this Act and ends on the date of the termi-
19 nation by the Federal Emergency Management
20 Agency of the emergency declared on March 13,
21 2020, by the President under the Robert T. Stafford
22 Disaster Relief and Emergency Assistance Act (42
23 U.S.C. 4121 et seq.) relating to the Coronavirus
24 Disease 2019 (COVID–19) pandemic.”; and

1 (B) in section 6(k)(1) (12 U.S.C.
2 2605(k)(1))—

3 (i) in subparagraph (D), by striking
4 “or” at the end;

5 (ii) by redesignating subparagraph
6 (E) as subparagraph (G); and

7 (iii) by inserting after subparagraph
8 (D) the following:

9 “(E) commence or continue any judicial
10 foreclosure action or non-judicial foreclosure
11 process or any action to evict a consumer fol-
12 lowing a foreclosure during the COVID–19
13 emergency or the 180-day period following such
14 emergency (except that such prohibition shall
15 not apply to a mortgage secured by a dwelling
16 that the servicer has determined after exer-
17 cising reasonable diligence is vacant or aban-
18 doned);

19 “(F) fail to toll the time in a foreclosure
20 process on a property during the COVID–19
21 emergency or the 180-day period following such
22 emergency (except that such prohibition shall
23 not apply to a mortgage secured by a dwelling
24 that the servicer has determined after exer-

1 cising reasonable diligence is vacant or aban-
2 doned); or”.

3 (2) REPOSSESSION PROHIBITION.—During the
4 COVID–19 emergency and for the 180-day period
5 following such emergency, a servicer of a consumer
6 loan secured by a manufactured home or a motor ve-
7 hicle may not repossess such home or vehicle.

8 (c) FORBEARANCE OF RESIDENTIAL MORTGAGE
9 LOAN PAYMENTS FOR SINGLE FAMILY PROPERTIES (1–
10 4 UNITS).—Section 6 of the Real Estate Settlement Pro-
11 cedures Act of 1974 (12 U.S.C. 2605) is amended by add-
12 ing at the end the following:

13 “(n) FORBEARANCE DURING THE COVID–19 EMER-
14 GENCY.—

15 “(1) CONSUMER RIGHT TO REQUEST A FOR-
16 BEARANCE.—

17 “(A) REQUEST FOR FORBEARANCE.—A
18 borrower experiencing a financial hardship dur-
19 ing the COVID–19 emergency may request for-
20 bearance from any mortgage obligation, regard-
21 less of delinquency status, by submitting a re-
22 quest to the borrower’s servicer, either orally or
23 in writing, affirming that the borrower is expe-
24 riencing hardship during the COVID–19 emer-
25 gency. A borrow shall not be required to provide

1 any additional documentation to receive such
2 forbearance.

3 “(B) LENGTH OF FORBEARANCE; EXTEN-
4 SION.—A forbearance requested pursuant to
5 subparagraph (A) shall be provided for a period
6 of 180 days, and may be extended upon request
7 of the borrower for an additional 180 days.

8 “(C) TREATMENT OF TENANTS.—A bor-
9 rower receiving a forbearance under this sub-
10 section with respect to a mortgage secured by
11 a dwelling that has tenants, whether or not the
12 borrower also lives in the dwelling, shall provide
13 the tenants with rent relief for a period not less
14 than the period covered by the forbearance.

15 “(2) AUTOMATIC FORBEARANCE FOR DELIN-
16 QUENT BORROWERS.—

17 “(A) IN GENERAL.—Notwithstanding any
18 other law governing forbearance relief, during
19 the COVID–19 emergency, any borrower who is
20 or becomes 60 days or more delinquent on a
21 mortgage obligation shall automatically be
22 granted a 180-day forbearance, which may be
23 extended upon request of the borrower for an
24 additional 180 days. Such a borrower may elect
25 to continue making regular payments by noti-

1 fying the servicer of the mortgage obligation of
2 such election.

3 “(B) NOTICE TO BORROWER.—The
4 servicer of a mortgage obligation placed in for-
5 bearance pursuant to subparagraph (A) shall
6 provide the borrower written notification of the
7 forbearance and its duration as well as informa-
8 tion about available loss mitigation options and
9 the right to end the forbearance and resume
10 making regular payments.

11 “(C) TREATMENT OF PAYMENTS DURING
12 FORBEARANCE.—Any payments made by the
13 borrower during the forbearance period shall be
14 credited to the borrower’s account in accord-
15 ance with section 129F of the Truth in Lending
16 Act (15 U.S.C. 1639f) or as the borrower may

5 emergency—

5 “(B) OTHER REQUIREMENTS.—

3 under this subsection is required to make
4 payments to an escrow account, the
5 servicer shall pay or advance the escrow
6 disbursements in a timely manner (defined
7 as on or before the deadline to avoid a
8 penalty), regardless of the status of the
9 borrower’s payments. The servicer may col-
10 lect any resulting escrow shortage or defi-
11 ciency from the borrower after the forbear-
12 ance period ends, in a lump sum payment,
13 spread over 60 months, or capitalized into

25 Disaster Relief and Emergency Assistance Act

1 or other Federal law, (II) upon request of an
2 Issuer of any security, the Association elects to
3 extend to the Issuer one or more of the disaster

8 Procedures Act of 1974 with respect to a resi-

18 subject to any injunction, stay, or other equitable re-
19 lief to such party, based upon its good faith compli-

17 U.S.C. 1639a(f)(3)).

18 (4) RULE OF CONSTRUCTION.—No provision of
19 paragraph (1) or (2) shall be construed as affecting
20 the liability of any servicer or person for actual
21 fraud in servicing of a loan or for the violation of
22 a State or Federal law.

23 (i) POST-PANDEMIC MORTGAGE REPAYMENT OP-

20 scheduled or calculated as if the borrower made
21 all contractual payments on time and in full
22 under the terms of the mortgage contract in ef-

3 **SEC. 207. MINORITY DEPOSITORY INSTITUTION.**

4 (a) SENSE OF CONGRESS ON FUNDING THE LOAN-
5 LOSS RESERVE FUND FOR SMALL DOLLAR LOANS.—The
6 sense of Congress is the following:

7 (1) The Community Development Financial In-
8 stitutions Fund (the “CDFI Fund”) is an agency of
9 the Department of the Treasury, and was estab-
10 lished by the Riegle Community Development and
11 Regulatory Improvement Act of 1994. The mission
12 of the CDFI Fund is “to expand economic oppor-
13 tunity for underserved people and communities by
14 supporting the growth and capacity of a national
15 network of community development lenders, inves-
16 tors, and financial service providers”. A community
17 development financial institution (a “CDFI”) is a
18 specialized financial institution serving low-income
19 communities and a Community Development Entity
20 (a “CDE”) is a domestic corporation or partnership
21 that is an intermediary vehicle for the provision of
22 loans, investments, or financial counseling in low-in-
23 come communities. The CDFI Fund certifies CDFIs
24 and CDEs. Becoming a certified CDFI or CDE al-

1 lows organizations to participate in various CDFI
2 Fund programs as follows:

3 (A) The Bank Enterprise Award Program,
4 which provides FDIC-insured depository institu-
5 tions awards for a demonstrated increase in
6 lending and investments in distressed commu-
7 nities and CDFIs.

8 (B) The CDFI Program, which provides
9 Financial and Technical Assistance awards to
10 CDFIs to reinvest in the CDFI, and to build
11 the capacity of the CDFI, including financing
12 product development and loan loss reserves.

13 (C) The Native American CDFI Assistance
14 Program, which provides CDFIs and spon-
15 soring entities Financial and Technical Assist-
16 ance awards to increase lending and grow the
17 number of CDFIs owned by Native Americans
18 to help build capacity of such CDFIs.

19 (D) The New Market Tax Credit Program,
20 which provides tax credits for making equity in-
21 vestments in CDEs that stimulate capital in-
22 vestments in low-income communities.

23 (E) The Capital Magnet Fund, which pro-
24 vides awards to CDFIs and nonprofit affordable
25 housing organizations to finance affordable

1 housing solutions and related economic develop-
2 ment activities.

3 (F) The Bond Guarantee Program, a
4 source of long-term, patient capital for CDFIs
5 to expand lending and investment capacity for
6 community and economic development purposes.

7 (2) The Department of the Treasury is author-
8 ized to create multi-year grant programs designed to
9 encourage low-to-moderate income individuals to es-
10 tablish accounts at federally insured banks, and to
11 improve low-to-moderate income individuals' access
12 to such accounts on reasonable terms.

13 (3) Under this authority, grants to participants
14 in CDFI Fund programs may be used for loan-loss
15 reserves and to establish small-dollar loan programs
16 by subsidizing related losses. These grants also allow
17 for the providing recipients with the financial coun-
18 seling and education necessary to conduct trans-
19 actions and manage their accounts. These loans pro-
20 vide low-cost alternatives to payday loans and other
21 nontraditional forms of financing that often impose
22 excessive interest rates and fees on borrowers, and
23 lead millions of Americans to fall into debt traps.
24 Small-dollar loans can only be made pursuant to

1 terms, conditions, and practices that are reasonable
2 for the individual consumer obtaining the loan.

3 (4) Program participation is restricted to eligi-
4 ble institutions, which are limited to organizations
5 listed in section 501(c)(3) of the Internal Revenue
6 Code and exempt from tax under 501(a) of such
7 Code, federally insured depository institutions, com-
8 munity development financial institutions and State,
9 local, or Tribal government entities.

10 (5) Since its founding, the CDFI Fund has
11 awarded over \$3,300,000,000 to CDFIs and CDEs,
12 allocated \$54,000,000,000 in tax credits, and
13 \$1,510,000,000 in bond guarantees. According to

18 **SEC. 502. DIVERSE INVESTMENT ADVISERS.**

19 (a) FINDINGS.—The Congress finds the following:

20 (1) Diverse individual-owned and controlled
21 firms continue to face obstacles, such as discrimina-
22 tion and other related barriers, when competing for
23 investment adviser services opportunities, including
24 Federal opportunities.

1 (2) The Government Accountability Office
2 found in September 2017 that asset management
3 firms (also known as firms providing investment ad-
4 viser services) registered in the United States man-
5 age more than \$70,000,000,000,000 of assets and
6 that minority- and women-owned asset management
7 firms manage less than 1 percent of such assets.

8 (3) Conscious efforts to facilitate diverse and
9 inclusive firm selection for investment advisers serv-
10 ices opportunities are required to overcome obstacles
11 facing diverse individual-owned and controlled firms,
12 especially as women- and minority-owned businesses
13 across the financial services sector struggle to re-
14 cover from the impacts of the coronavirus disease
15 (COVID–19) outbreak and future major disasters.

16 (4) Despite evidence that women and minority-
17 owned firms perform as well as and sometimes out-
18 perform their industry counterparts, they are not
19 consistently selected to manage institutional assets.
20 Although women and minority-owned firms account
21 for approximately 8.6 percent of the asset manage-
22 ment industry, recent reports show that they only
23 manage 1.1 percent of all assets under management
24 or \$785 billion out of \$71.4 trillion, and are under-
25 represented as managers in every asset class.

1 (b) INVESTMENT ADVISER CONTRACTING BY PER-

6 **EMPLOYEE COLLECTIVE BAR-**
7 **GAINING AND OFFICIAL TIME**

8 **SEC. 160001. SHORT TITLE.**

9 This division may be cited as the “Protecting Collec-
10 tive Bargaining and Official Time for Federal Workers
11 Act”.

12 **SEC. 160002. FINDINGS.**

13 Congress finds the following:

14 (1) Federal Unions play a critical role in pro-
15 tecting the rights of Federal workers by allowing
16 members to have a collective voice on the job and in
17 the legislative process, advance issues for working
18 families, ensure equal opportunities for all workers,
19 and raise the standards by which all professional
20 and technical workers are employed.

21 (2) Collective bargaining is essential to the
22 union process, because it provides mutual agreement
23 between all parties that fosters harmonious relation-
24 ships between the Federal Government and its em-
25 ployees and protects the interest of both parties.

1 (3) The current administration has acted
2 through Executive Orders and official memorandums
3 to dismantle Federal Unions and undermine their
4 collective bargaining rights across the Federal work-
5 force and these directives have already negatively
6 impacted labor contracts, both signed and under ac-
7 tive negotiation.

8 (4) These orders set an aggressive schedule for
9 unions to engage in collective bargaining, while also
10 slashing the unions official time for performing
11 union duties by over 91 percent in some cases.
12 These actions are limiting the ability for unions to
13 prepare for negotiations and perform their legally re-
14 quired employee representational duties.

15 (5) Section 7101(a) of title 5, United States
16 Code, states, “Congress finds that labor organiza-
17 tions and collective bargaining in the civil service are
18 in the public interest.”. Attempting to eliminate the
19 Union by eliminating almost all its official time re-
20 pudiates the statutory position that unions are in
21 the public interest.

22 (6) Through these orders, agencies are required
23 to comply with artificial bargaining schedules, which
24 undermine good faith negotiations and divert the de-
25 cision-making to an impasse panel, which has no

1 union representation on it and does not represent
2 both parties.

3 (7) Collectively, the administration's actions
4 have violated Congressional intent, undermined the
5 ability of unions to engage in collective bargaining,
6 and threatened the rights and benefits of millions of
7 Federal workers.

24 amended—

25 (1) in paragraph (4)—

9 **SEC. 211. REJECTION OF COLLECTIVE BARGAINING AGREE-**
10 **MENTS.**

11 (a) IN GENERAL.—Section 1113 of title 11, United
12 States Code, is amended by striking subsections (a)
13 through (f) and inserting the following:

14 “(a) The debtor in possession, or the trustee if one
15 has been appointed under this chapter, other than a trust-
16 ee in a case covered by subchapter IV of this chapter and
17 by title I of the Railway Labor Act (45 U.S.C. 151 et
18 seq.), may reject a collective bargaining agreement only
19 in accordance with this section. In this section, a reference
20 to the trustee includes the debtor in possession.

21 “(b) No provision of this title shall be construed to
22 permit the trustee to unilaterally terminate or alter any
23 provision of a collective bargaining agreement before com-
24 plying with this section. The trustee shall timely pay all
25 monetary obligations arising under the terms of the collec-

1 tive bargaining agreement. Any such payment required to
2 be made before a plan confirmed under section 1129 is
3 effective has the status of an allowed administrative ex-
4 pense under section 503.

5 “(c)(1) If the trustee seeks modification of a collec-
6 tive bargaining agreement, the trustee shall provide notice
7 to the labor organization representing the employees cov-
8 ered by the collective bargaining agreement that modifica-
9 tions are being proposed under this section, and shall
10 promptly provide an initial proposal for modifications to
11 the collective bargaining agreement. Thereafter, the trust-
12 ee shall confer in good faith with the labor organization,
13 at reasonable times and for a reasonable period in light
14 of the complexity of the case, in attempting to reach mutu-
15 ally acceptable modifications of the collective bargaining
16 agreement.

17 “(2) The initial proposal and subsequent pro-
18 posals by the trustee for modification of a collective
19 bargaining agreement shall be based upon a business
20 plan for the reorganization of the debtor, and shall
21 reflect the most complete and reliable information
22 available. The trustee shall provide to the labor or-
23 ganization all information that is relevant for nego-
24 tiations. The court may enter a protective order to
25 prevent the disclosure of information if disclosure

1 could compromise the position of the debtor with re-
2 spect to the competitors in the industry of the debt-
3 or, subject to the needs of the labor organization to
4 evaluate the proposals of the trustee and any appli-
5 cation for rejection of the collective bargaining
6 agreement or for interim relief pursuant to this sec-
7 tion.

8 “(3) In consideration of Federal policy encour-
9 aging the practice and process of collective bar-
10 gaining and in recognition of the bargained-for ex-
11 pectations of the employees covered by the collective
12 bargaining agreement, modifications proposed by the
13 trustee—

14 “(A) shall be proposed only as part of a
15 program of workforce and nonworkforce cost
16 savings devised for the reorganization of the
17 debtor, including savings in management per-
18 sonnel costs;

19 “(B) shall be limited to modifications de-
20 signed to achieve a specified aggregate financial
21 contribution for the employees covered by the
22 collective bargaining agreement (taking into
23 consideration any labor cost savings negotiated
24 within the 12-month period before the filing of
25 the petition), and shall be not more than the

1 minimum savings essential to permit the debtor
2 to exit bankruptcy, such that confirmation of a
3 plan of reorganization is not likely to be fol-
4 lowed by the liquidation, or the need for further
5 financial reorganization, of the debtor (or any
6 successor to the debtor) in the short term; and

7 “(C) shall not be disproportionate or overly
8 burden the employees covered by the collective
9 bargaining agreement, either in the amount of
10 the cost savings sought from such employees or
11 the nature of the modifications.

12 “(d)(1) If, after a period of negotiations, the trustee
13 and the labor organization have not reached an agreement
14 over mutually satisfactory modifications, and further ne-
15 gotiations are not likely to produce mutually satisfactory
16 modifications, the trustee may file a motion seeking rejec-
17 tion of the collective bargaining agreement after notice
18 and a hearing. Absent agreement of the parties, no such
19 hearing shall be held before the expiration of the 21-day
20 period beginning on the date on which notice of the hear-
21 ing is provided to the labor organization representing the
22 employees covered by the collective bargaining agreement.
23 Only the debtor and the labor organization may appear
24 and be heard at such hearing. An application for rejection

1 shall seek rejection effective upon the entry of an order
2 granting the relief.

3 “(2) In consideration of Federal policy encour-
4 aging the practice and process of collective bar-
5 gaining and in recognition of the bargained-for ex-
6 pectations of the employees covered by the collective
7 bargaining agreement, the court may grant a motion
8 seeking rejection of a collective bargaining agree-
9 ment only if, based on clear and convincing evi-
10 dence—

11 “(A) the court finds that the trustee has
12 complied with the requirements of subsection
13 (c);

14 “(B) the court has considered alternative
15 proposals by the labor organization and has
16 concluded that such proposals do not meet the
17 requirements of subsection (c)(3)(B);

18 “(C) the court finds that further negotia-
19 tions regarding the proposal of the trustee or
20 an alternative proposal by the labor organiza-
21 tion are not likely to produce an agreement;

22 “(D) the court finds that implementation
23 of the proposal of the trustee shall not—

24 “(i) cause a material diminution in
25 the purchasing power of the employees cov-

1 ered by the collective bargaining agree-
2 ment;

3 “(ii) adversely affect the ability of the
4 debtor to retain an experienced and quali-
5 fied workforce; or

6 “(iii) impair the labor relations of the
7 debtor such that the ability to achieve a
8 feasible reorganization would be com-
9 promised; and

10 “(E) the court concludes that rejection of
11 the collective bargaining agreement and imme-
12 diate implementation of the proposal of the
13 trustee is essential to permit the debtor to exit
14 bankruptcy, such that confirmation of a plan of
15 reorganization is not likely to be followed by liq-
16 uidation, or the need for further financial reor-
17 ganization, of the debtor (or any successor to
18 the debtor) in the short term.

19 “(3) If the trustee has implemented a program
20 of incentive pay, bonuses, or other financial returns
21 for insiders, senior executive officers, or the twenty
22 next most highly compensated employees or consult-
23 ants providing services to the debtor during the
24 bankruptcy, or such a program was implemented
25 within 180 days before the date of the filing of the

1 petition, the court shall presume that the trustee has
2 failed to satisfy the requirements of subsection
3 (c)(3)(C).

4 “(4) In no case shall the court enter an order
5 rejecting a collective bargaining agreement that
6 would result in modifications to a level lower than
7 the level proposed by the trustee in the proposal
8 found by the court to have complied with the re-
9 quirements of this section.

10 “(5) At any time after the date on which an
11 order rejecting a collective bargaining agreement is
12 entered, or in the case of a collective bargaining
13 agreement entered into between the trustee and the
14 labor organization providing mutually satisfactory
15 modifications, at any time after that collective bar-
16 gaining agreement has been entered into, the labor
17 organization may apply to the court for an order
18 seeking an increase in the level of wages or benefits,
19 or relief from working conditions, based upon
20 changed circumstances. The court shall grant the re-
21 quest only if the increase or other relief is not incon-
22 sistent with the standard set forth in paragraph
23 (2)(E).

24 “(e) During a period during which a collective bar-
25 gaining agreement at issue under this section continues

1 in effect and a motion for rejection of the collective bar-
2 gaining agreement has been filed, if essential to the con-
3 tinuation of the business of the debtor or in order to avoid
4 irreparable damage to the estate, the court, after notice
5 and a hearing, may authorize the trustee to implement
6 interim changes in the terms, conditions, wages, benefits,
7 or work rules provided by the collective bargaining agree-
8 ment. Any hearing under this subsection shall be sched-
9 uled in accordance with the needs of the trustee. The im-
10 plementation of such interim changes shall not render the
11 application for rejection moot and may be authorized for
12 not more than 14 days in total.

13 “(f)(1) Rejection of a collective bargaining agreement
14 constitutes a breach of the collective bargaining agree-
15 ment, and shall be effective no earlier than the entry of
16 an order granting such relief.

17 “(2) Notwithstanding paragraph (1), solely for
18 purposes of determining and allowing a claim arising
19 from the rejection of a collective bargaining agree-
20 ment, rejection shall be treated as rejection of an ex-
21 ecutory contract under section 365(g) and shall be
22 allowed or disallowed in accordance with section
23 502(g)(1). No claim for rejection damages shall be
24 limited by section 502(b)(7). Economic self-help by
25 a labor organization shall be permitted upon a court

1 order granting a motion to reject a collective bar-
2 gaining agreement under subsection (d) or pursuant
3 to subsection (e), and no provision of this title or of
4 any other provision of Federal or State law may be
5 construed to the contrary.

6 “(g) The trustee shall provide for the reasonable fees
7 and costs incurred by a labor organization under this sec-
8 tion, upon request and after notice and a hearing.

9 “(h) A collective bargaining agreement that is as-
10 sumed shall be assumed in accordance with section 365.”.

11 (b) PROHIBITION ON MODIFICATION OF RETIREE
12 BENEFITS.—Section 1114 of title 11, United States Code,
13 is further amended by adding at the end the following:

14 “(n) Notwithstanding any other provision in this title,
15 the trustee may not modify retiree benefits if the debtor
16 is an air carrier, as such term is defined in section 40102
17 of title 49, United States Code, or an affiliate of such air
18 carrier, that received assistance under the Emergency
19 Pension Plan Relief Act of 2020.”.

22 Code of Federal Regulations;

23 (2) determine and prescribe minimum capital
24 and funding requirements for each such air carrier

3 occurrence of a terror attack, pandemic, or other na-
4 tional or global event that reduces economic activity;

5 (3) require each such air carrier to conduct an
6 annual stress test to determine the extent of finan-
7 cial stress that the air carrier can withstand before
8 becoming financially insolvent, using at least 3 sets
9 of assumptions regarding the severity of financial
10 stress and to report the results of such test to the
11 Office for analysis;

12 (4) based on an analysis of the stress tests per-
13 formed under paragraph (3), annually adjust the
14 minimum capital and funding requirements imposed
15 under paragraph (2); and

20 (3) SMALL AIRPORTS.—This subsection shall

23 may also apply to the corporation for financial assistance

8 (1)(C), the financial assistance provided pursuant to such
9 application under this subsection shall be the present value
10 of the amount (determined by the plan actuary and sub-

16 projected under paragraph (1).

17 “(5)(A)(i) Except as provided in subparagraph (B),
18 if the corporation determines at the time of approval, or

7 a defined benefit plan for which the plan actuary has
8 certified under section 305(b)(3) that the plan is or
9 will be in critical status for the plan year in which
10 such amendment would become effective or for any
11 of the succeeding 5 plan years.

12 “(2) REQUIREMENTS.—Any amendment pursu-
13 ant to paragraph (1) to incorporate the features of
14 a composite plan as a component of a multiemployer
15 plan shall—

19 effective date of the amendment;

7 contributions to the multiemployer plan
8 are required, which shall occur on the first
9 day of the first plan year beginning after
10 the termination, or if earlier, the re-open-

2 benefit plan component of the plan.

3 “(3) SPECIAL RULES.—If a multiemployer plan
4 is amended pursuant to paragraph (1)—

5 “(A) the requirements of this title and title
6 IV shall be applied to the composite plan com-

9 ponent were maintained as a separate plan; and

10 “(B) the assets of the composite plan com-
11 ponent and the defined benefit plan component
12 of the plan shall be held in a single trust form-

17 the interest which each of the plan compo-
18 nents has in the trust, including separate

20 the benefit of each plan component, dis-
21 bursements made from each plan compo-
22 nent’s account in the trust, investment ex-
23 perience of the trust allocable to that ac-
24 count, and administrative expenses (wheth-
25 er direct expenses or shared expenses allo-

1 cated proportionally), and permits, but
2 does not require, the pooling of some or all
3 of the assets of the two plan components
4 for investment purposes; and

5 “(ii) that the assets of each of the two
6 plan components shall be held, invested,
7 reinvested, managed, administered and dis-
8 tributed for the exclusive benefit of the

10 plan component, and in no event shall the
11 assets of one of the plan components be
12 available to pay benefits due under the
13 other plan component.

14 “(4) NOT A TERMINATION EVENT.—Notwith-
15 standing section 4041A, an amendment pursuant to
16 paragraph (1) to incorporate the features of a com-

20 “(5) NOTICE TO THE SECRETARY.—

21 “(A) NOTICE.—The plan sponsor of a
22 composite plan shall provide notice to the Sec-
23 retary of the intent to establish the composite

7 composite plan incorporated as a component of
8 a multiemployer plan as described in paragraph
9 (1), such notice shall include a certification by
10 the plan actuary under section 305(b)(3) that
11 the effective date of the amendment occurs in

15 “(6) REFERENCES TO COMPOSITE PLAN COM-

17 plan’ includes a composite plan component added to
18 a defined benefit plan pursuant to paragraph (1).

19 “(7) RULE OF CONSTRUCTION.—Paragraph
20 (2)(A) shall not be construed as preventing the plan
21 sponsor of a multiemployer plan from adopting an
22 amendment pursuant to paragraph (1) because some
23 collective bargaining agreements are amended to
24 cease any covered employer’s obligation to contribute
25 to the multiemployer plan before or after the plan

1 amendment is effective. Paragraph (2)(B) shall not
2 be construed as preventing the plan sponsor of a
3 multiemployer plan from adopting an amendment
4 pursuant to paragraph (1) because some partici-
5 pants cease to have contributions made to the multi-
6 employer plan on their behalf before or after the
7 plan amendment is effective.

8 “(c) COORDINATION WITH FUNDING RULES.—Ex-
9 cept as otherwise provided in this title, sections 302, 304,
10 and 305 shall not apply to a composite plan.

11 “(d) TREATMENT OF A COMPOSITE PLAN.—For pur-
12 poses of this Act (other than sections 302 and 4245), a
13 composite plan shall be treated as if it were a defined ben-
14 efit plan unless a different treatment is provided for under
15 applicable law.

16 **“SEC. 802. FUNDED RATIOS; ACTUARIAL ASSUMPTIONS.**

17 “(a) CERTIFICATION OF FUNDED RATIOS.—

18 “(1) IN GENERAL.—Not later than the one-
19 hundred twentieth day of each plan year of a com-
20 posite plan, the plan actuary of the composite plan
21 shall certify to the Secretary, the Secretary of the
22 Treasury, and the plan sponsor the plan’s current
23 funded ratio and projected funded ratio for the plan
24 year.

1 “(2) DETERMINATION OF CURRENT FUNDED
2 RATIO AND PROJECTED FUNDED RATIO.—For pur-
3 poses of this section:

4 “(A) CURRENT FUNDED RATIO.—The cur-
5 rent funded ratio is the ratio (expressed as a
6 percentage) of—

7 “(i) the value of the plan’s assets as
8 of the first day of the plan year; to

9 “(ii) the plan actuary’s best estimate
10 of the present value of the plan liabilities
11 as of the first day of the plan year.

12 “(B) PROJECTED FUNDED RATIO.—The
13 projected funded ratio is the current funded
14 ratio projected to the first day of the fifteenth
15 plan year following the plan year for which the
16 determination is being made.

17 “(3) CONSIDERATION OF CONTRIBUTION RATE
18 INCREASES.—For purposes of projections under this
19 subsection, the plan sponsor may anticipate con-
20 tribution rate increases beyond the term of the cur-
21 rent collective bargaining agreement and any agreed-
22 to supplements, up to a maximum of 2.5 percent per
23 year, compounded annually, unless it would be un-
24 reasonable under the circumstances to assume that
25 contributions would increase by that amount.

1 “(b) ACTUARIAL ASSUMPTIONS AND METHODS.—

2 For purposes of this part:

3 “(1) IN GENERAL.—All costs, liabilities, rates
4 of interest and other factors under the plan shall be
5 determined for a plan year on the basis of actuarial
6 assumptions and methods—

7 “(A) each of which is reasonable (taking
8 into account the experience of the plan and rea-
9 sonable expectations);

10 “(B) which, in combination, offer the actu-
11 ary’s best estimate of anticipated experience
12 under the plan; and

13 “(C) with respect to which any change
14 from the actuarial assumptions and methods
15 used in the previous plan year shall be certified
16 by the plan actuary and the actuarial rationale
17 for such change provided in the annual report
18 required by section 103.

19 “(2) FAIR MARKET VALUE OF ASSETS.—The
20 value of the plan’s assets shall be taken into account
21 on the basis of their fair market value.

22 “(3) DETERMINATION OF NORMAL COST AND
23 PLAN LIABILITIES.—A plan’s normal cost and liabil-
24 ities shall be based on the most recent actuarial

1 valuation required under section 801(a)(5)(A) and
2 the unit credit funding method.

3 “(4) TIME WHEN CERTAIN CONTRIBUTIONS
4 DEEMED MADE.—Any contributions for a plan year
5 made by an employer after the last day of such plan
6 year, but not later than two and one-half months
7 after such day, shall be deemed to have been made
8 on such last day. For purposes of this paragraph,
9 such two and one-half month period may be ex-
10 tended for not more than six months under regula-
11 tions prescribed by the Secretary of the Treasury.

12 “(5) ADDITIONAL ACTUARIAL ASSUMPTIONS.—
13 Except where otherwise provided in this part, the
14 provisions of section 305(b)(3)(B) shall apply to any
15 determination or projection under this part.

16 **“SEC. 803. REALIGNMENT PROGRAM.**

17 “(a) REALIGNMENT PROGRAM.—

18 “(1) ADOPTION.—In any case in which the plan
19 actuary certifies under section 802(a) that the plan’s
20 projected funded ratio is below 120 percent for the
21 plan year, the plan sponsor shall adopt a realign-
22 ment program under paragraph (2) not later than
23 210 days after the due date of the certification re-
24 quired under such section 802(a). The plan sponsor
25 shall adopt an updated realignment program for

1 each succeeding plan year for which a certification
2 described in the preceding sentence is made.

3 “(2) CONTENT OF REALIGNMENT PROGRAM.—

4 “(A) IN GENERAL.—A realignment pro-
5 gram adopted under this paragraph is a written
6 program which consists of all reasonable meas-
7 ures, including options or a range of options to
8 be undertaken by the plan sponsor or proposed
9 to the bargaining parties, formulated, based on
10 reasonably anticipated experience and reason-
11 able actuarial assumptions, to enable the plan
12 to achieve a projected funded ratio of at least
13 120 percent for the following plan year.

14 “(B) INITIAL PROGRAM ELEMENTS.—Rea-
15 sonable measures under a realignment program
16 described in subparagraph (A) may include any
17 of the following:

18 “(i) Proposed contribution increases.

19 “(ii) A reduction in the rate of future
20 benefit accruals, so long as the resulting
21 rate is not less than 1 percent of the con-
22 tributions on which benefits are based as
23 of the start of the plan year (or the equiva-
24 lent standard accrual rate as described in
25 section 305(e)(6)).

1 “(iii) A modification or elimination of
2 adjustable benefits of participants that are
3 not in pay status before the date of the no-
4 tice required under subsection (b)(1).

5 “(iv) Any other lawfully available
6 measures not specifically described in this
7 subparagraph or subparagraph (C) or (D)
8 that the plan sponsor determines are rea-
9 sonable.

10 “(C) ADDITIONAL PROGRAM ELEMENTS.—
11 If the plan sponsor has determined that all rea-
12 sonable measures available under subparagraph
13 (B) will not enable the plan to achieve a pro-
14 jected funded ratio of at least 120 percent for
15 the following plan year, such reasonable meas-
16 ures may also include—

17 “(i) a reduction of accrued benefits
18 that are not in pay status by the date of
19 the notice required under subsection
20 (b)(1); or

21 “(ii) a reduction of any benefits of
22 participants that are in pay status before
23 the date of the notice required under sub-
24 section (b)(1) other than core benefits as
25 defined in paragraph (4).

1 “(D) ADDITIONAL REDUCTIONS.—In the
2 case of a composite plan for which the plan
3 sponsor has determined that all reasonable
4 measures available under subparagraphs (B)
5 and (C) will not enable the plan to achieve a
6 projected funded ratio of at least 120 percent
7 for the following plan year, such reasonable
8 measures may also include—

9 “(i) a further reduction in the rate of
10 future benefit accruals without regard to
11 the limitation applicable under subpara-
12 graph (B)(ii); or

13 “(ii) a reduction of core benefits;
14 provided that such reductions shall be equitably
15 distributed across the participant and bene-
16 ficiary population, taking into account factors,
17 with respect to participants and beneficiaries
18 and their benefits, that may include one or
19 more of the factors listed in subclauses (I)
20 through (X) of section 305(e)(9)(D)(vi), to the
21 extent necessary to enable the plan to achieve
22 a projected funded ratio of at least 120 percent
23 for the following plan year, or at the election of
24 the plan sponsor, a projected funded ratio of at
25 least 100 percent for the following plan year

1 and a current funded ratio of at least 90 per-
2 cent.

3 “(3) ADJUSTABLE BENEFIT DEFINED.—For
4 purposes of this part, the term ‘adjustable benefit’
5 means—

6 “(A) benefits, rights, and features under
7 the plan, including post-retirement death bene-
8 fits, 60-month guarantees, disability benefits
9 not yet in pay status, and similar benefits;

10 “(B) any early retirement benefit or retire-
11 ment-type subsidy (within the meaning of sec-
12 tion 204(g)(2)(A)) and any benefit payment op-
13 tion (other than the qualified joint and survivor
14 annuity); and

15 “(C) benefit increases that were adopted
16 (or, if later, took effect) less than 60 months
17 before the first day such realignment program
18 took effect.

19 “(4) CORE BENEFIT DEFINED.—For purposes
20 of this part, the term ‘core benefit’ means a partici-
21 pant’s accrued benefit payable in the normal form of
22 an annuity commencing at normal retirement age,
23 determined without regard to—

24 “(A) any early retirement benefits, retire-
25 ment-type subsidies, or other benefits, rights, or

1 features that may be associated with that ben-
2 efit; and

3 “(B) any cost-of-living adjustments or ben-
4 efit increases effective after the date of retire-
5 ment.

6 “(5) COORDINATION WITH CONTRIBUTION IN-
7 CREASES.—

8 “(A) IN GENERAL.—A realignment pro-
9 gram may provide that some or all of the ben-
10 efit modifications described in the program will
11 only take effect if the bargaining parties fail to
12 agree to specified levels of increases in contribu-
13 tions to the plan, effective as of specified dates.

14 “(B) INDEPENDENT BENEFIT MODIFICA-
15 TIONS.—If a realignment program adopts any
16 changes to the benefit formula that are inde-
17 pendent of potential contribution increases,
18 such changes shall take effect not later than
19 180 days after the first day of the first plan
20 year that begins following the adoption of the
21 realignment program.

22 “(C) CONDITIONAL BENEFIT MODIFICA-
23 TIONS.—If a realignment program adopts any
24 changes to the benefit formula that take effect
25 only if the bargaining parties fail to agree to

1 contribution increases, such changes shall take
2 effect not later than the first day of the first
3 plan year beginning after the third anniversary
4 of the date of adoption of the realignment pro-
5 gram.

6 “(D) REVOCATION OF CERTAIN BENEFIT
7 MODIFICATIONS.—Benefit modifications de-
8 scribed in subparagraph (C) may be revoked, in
9 whole or in part, and retroactively or prospec-
10 tively, when contributions to the plan are in-
11 creased, as specified in the realignment pro-
12 gram, including any amendments thereto. The
13 preceding sentence shall not apply unless the
14 contribution increases are to be effective not
15 later than the fifth anniversary of the first day
16 of the first plan year that begins after the
17 adoption of the realignment program.

18 “(b) NOTICE.—

19 “(1) IN GENERAL.—In any case in which it is
20 certified under section 802(a) that the projected
21 funded ratio is less than 120 percent, the plan spon-
22 sor shall, not later than 30 days after the date of
23 the certification, provide notification of the current
24 and projected funded ratios to the participants and

1 beneficiaries, the bargaining parties, and the Sec-
2 retary. Such notice shall include—

3 “(A) an explanation that contribution rate
4 increases or benefit reductions may be nec-
5 essary;

6 “(B) a description of the types of benefits
7 that might be reduced; and

8 “(C) an estimate of the contribution in-
9 creases and benefit reductions that may be nec-
10 essary to achieve a projected funded ratio of
11 120 percent.

12 “(2) NOTICE OF BENEFIT MODIFICATIONS.—

13 “(A) IN GENERAL.—No modifications may
14 be made that reduce the rate of future benefit
15 accrual or that reduce core benefits or adjust-
16 able benefits unless notice of such reduction has
17 been given at least 180 days before the general
18 effective date of such reduction for all partici-
19 pants and beneficiaries to—

20 “(i) plan participants and bene-
21 ficiaries;

22 “(ii) each employer who has an obliga-
23 tion to contribute to the composite plan;
24 and

1 “(iii) each employee organization
2 which, for purposes of collective bar-
3 gaining, represents plan participants em-
4 ployed by such employers.

5 “(B) CONTENT OF NOTICE.—The notice
6 under subparagraph (A) shall contain—

7 “(i) sufficient information to enable
8 participants and beneficiaries to under-
9 stand the effect of any reduction on their
10 benefits, including an illustration of any
11 affected benefit or subsidy, on an annual
12 or monthly basis that a participant or ben-
13 eficiary would otherwise have been eligible
14 for as of the general effective date de-
15 scribed in subparagraph (A); and

16 “(ii) information as to the rights and
17 remedies of plan participants and bene-
18 ficiaries as well as how to contact the De-
19 partment of Labor for further information
20 and assistance, where appropriate.

21 “(C) FORM AND MANNER.—Any notice
22 under subparagraph (A)—

23 “(i) shall be provided in a form and
24 manner prescribed in regulations of the
25 Secretary of Labor;

1 “(ii) shall be written in a manner so
2 as to be understood by the average plan
3 participant.

4 “(3) MODEL NOTICES.—The Secretary shall—

5 “(A) prescribe model notices that the plan
6 sponsor of a composite plan may use to satisfy
7 the notice requirements under this subsection;
8 and

9 “(B) by regulation enumerate any details
10 related to the elements listed in paragraph (1)
11 that any notice under this subsection must in-
12 clude.

13 “(4) DELIVERY METHOD.—Any notice under
14 this part shall be provided in writing and may also
15 be provided in electronic form to the extent that the
16 form is reasonably accessible to persons to whom the
17 notice is provided.

18 **“SEC. 804. LIMITATION ON INCREASING BENEFITS.**

19 “(a) LEVEL OF CURRENT FUNDED RATIOS.—Except
20 as provided in subsections (c), (d), and (e), no plan
21 amendment increasing benefits or establishing new bene-
22 fits under a composite plan may be adopted for a plan
23 year unless—

1 “(1) the plan’s current funded ratio is at least
2 110 percent (without regard to the benefit increase
3 or new benefits);

4 “(2) taking the benefit increase or new benefits
5 into account, the current funded ratio is at least 100
6 percent and the projected funded ratio for the cur-
7 rent plan year is at least 120 percent;

8 “(3) in any case in which, after taking the ben-
9 efit increase or new benefits into account, the cur-
10 rent funded ratio is less than 140 percent and the
11 projected funded ratio is less than 140 percent, the
12 benefit increase or new benefits are projected by the
13 plan actuary to increase the present value of the
14 plan’s liabilities for the plan year by not more than
15 3 percent; and

16 “(4) expected contributions for the current plan
17 year are at least 120 percent of normal cost for the
18 plan year, determined using the unit credit funding
19 method and treating the benefit increase or new ben-
20 efits as in effect for the entire plan year.

21 “(b) ADDITIONAL REQUIREMENTS WHERE CORE
22 BENEFITS REDUCED.—If a plan has been amended to re-
23 duce core benefits pursuant to a realignment program
24 under section 803(a)(2)(D), such plan may not be subse-

1 quently amended to increase core benefits unless the
2 amendment—

3 “(1) increases the level of future benefit pay-
4 ments only; and

5 “(2) provides for an equitable distribution of
6 benefit increases across the participant and bene-
7 ficiary population, taking into account the extent to
8 which the benefits of participants were previously re-
9 duced pursuant to such realignment program.

10 “(c) EXCEPTION TO COMPLY WITH APPLICABLE
11 LAW.—Subsection (a) shall not apply in connection with
12 a plan amendment if the amendment is required as a con-
13 dition of qualification under part I of subchapter D of
14 chapter 1 of the Internal Revenue Code of 1986 or to com-
15 ply with other applicable law.

16 “(d) EXCEPTION WHERE MAXIMUM DEDUCTIBLE
17 LIMIT APPLIES.—Subsection (a) shall not apply in con-
18 nection with a plan amendment if and to the extent that
19 contributions to the composite plan would not be deduct-
20 ible for the plan year under section 404(a)(1)(E) of the
21 Internal Revenue Code of 1986 if the plan amendment is
22 not adopted.

23 “(e) EXCEPTION FOR CERTAIN BENEFIT MODIFICA-
24 TIONS.—Subsection (a) shall not apply in connection with

1 a plan amendment under section 803(a)(5)(C), regarding
2 conditional benefit modifications.

3 “(f) TREATMENT OF PLAN AMENDMENTS.—For pur-
4 poses of this section—

5 “(1) if two or more plan amendments increas-
6 ing benefits or establishing new benefits are adopted
7 in a plan year, such amendments shall be treated as
8 a single amendment adopted on the last day of the
9 plan year;

10 “(2) all benefit increases and new benefits
11 adopted in a single amendment are treated as a sin-
12 gle benefit increase, irrespective of whether the in-
13 creases and new benefits take effect in more than
14 one plan year; and

15 “(3) increases in contributions or decreases in
16 plan liabilities which are scheduled to take effect in
17 future plan years may be taken into account in con-
18 nection with a plan amendment if they have been
19 agreed to in writing or otherwise formalized by the
20 date the plan amendment is adopted.

21 **“SEC. 805. COMPOSITE PLAN RESTRICTIONS TO PRESERVE**
22 **LEGACY PLAN FUNDING.**

23 “(a) TREATMENT AS A LEGACY PLAN.—

24 “(1) IN GENERAL.—For purposes of this part
25 and parts 2 and 3, a defined benefit plan shall be

1 treated as a legacy plan with respect to the com-
2 posite plan under which the employees who were eli-
3 gible to accrue a benefit under the defined benefit
4 plan become eligible to accrue a benefit under such
5 composite plan.

6 “(2) COMPONENT PLANS.—In any case in
7 which a defined benefit plan is amended to add a
8 composite plan component pursuant to section
9 801(b), paragraph (1) shall be applied by sub-
10 stituting ‘defined benefit component’ for ‘defined
11 benefit plan’ and ‘composite plan component’ for
12 ‘composite plan’.

13 “(3) ELIGIBLE TO ACCRUE A BENEFIT.—For
14 purposes of paragraph (1), an employee is consid-
15 ered eligible to accrue a benefit under a composite
16 plan as of the first day in which the employee com-
17 pletes an hour of service under a collective bar-
18 gaining agreement that provides for contributions to
19 and accruals under the composite plan in lieu of ac-
20 cruals under the legacy plan.

21 “(4) COLLECTIVE BARGAINING AGREEMENT.—
22 As used in this part, the term ‘collective bargaining
23 agreement’ includes any agreement under which an
24 employer has an obligation to contribute to a plan.

1 “(5) OTHER TERMS.—Any term used in this
2 part which is not defined in this part and which is
3 also used in section 305 shall have the same mean-
4 ing provided such term in such section.

5 “(b) RESTRICTIONS ON ACCEPTANCE BY COMPOSITE
6 PLAN OF AGREEMENTS AND CONTRIBUTIONS.—

7 “(1) IN GENERAL.—The plan sponsor of a com-
8 posite plan shall not accept or recognize a collective
9 bargaining agreement (or any modification to such
10 agreement), and no contributions may be accepted
11 and no benefits may be accrued or otherwise earned
12 under the agreement—

13 “(A) in any case in which the plan actuary
14 of any defined benefit plan that would be treat-
15 ed as a legacy plan with respect to such com-
16 posite plan has certified under section
17 305(b)(3) that such defined benefit plan is or
18 will be in critical status for the plan year in
19 which such agreement would take effect or for
20 any of the succeeding 5 plan years; and

21 “(B) unless the agreement requires each
22 employer who is a party to such agreement, in-
23 cluding employers whose employees are not par-
24 ticipants in the legacy plan, to provide contribu-
25 tions to the legacy plan with respect to such

1 composite plan in a manner that satisfies the
2 transition contribution requirements of sub-
3 section (d).

4 “(2) NOTICE.—Not later than 30 days after a
5 determination by a plan sponsor of a composite plan
6 that an agreement fails to satisfy the requirements
7 described in paragraph (1), the plan sponsor shall
8 provide notification of such failure and the reasons
9 for such determination—

10 “(A) to the parties to the agreement;

11 “(B) to active participants of the com-
12 posite plan who have ceased to accrue or other-
13 wise earn benefits with respect to service with
14 an employer pursuant to paragraph (1); and

15 “(C) to the Secretary, the Secretary of the
16 Treasury, and the Pension Benefit Guaranty
17 Corporation.

18 “(3) LIMITATION ON RETROACTIVE EFFECT.—
19 This subsection shall not apply to benefits accrued
20 before the date on which notice is provided under
21 paragraph (2).

22 “(c) RESTRICTION ON ACCRUAL OF BENEFITS
23 UNDER A COMPOSITE PLAN.—

24 “(1) IN GENERAL.—In any case in which an
25 employer, under a collective bargaining agreement

1 entered into after the date of enactment of the Giv-
2 ing Retirement Options to Workers Act of 2020,
3 ceases to have an obligation to contribute to a multi-
4 employer defined benefit plan, no employees em-
5 ployed by the employer may accrue or otherwise earn
6 benefits under any composite plan, with respect to
7 service with that employer, for a 60-month period
8 beginning on the date on which the employer entered
9 into such collective bargaining agreement.

10 “(2) NOTICE OF CESSATION OF OBLIGATION.—
11 Within 30 days of determining that an employer has
12 ceased to have an obligation to contribute to a leg-
13 acy plan with respect to employees employed by an
14 employer that is or will be contributing to a com-
15 posite plan with respect to service of such employees,
16 the plan sponsor of the legacy plan shall notify the
17 plan sponsor of the composite plan of that cessation.

18 “(3) NOTICE OF CESSATION OF ACCRUALS.—
19 Not later than 30 days after determining that an
20 employer has ceased to have an obligation to con-
21 tribute to a legacy plan, the plan sponsor of the
22 composite plan shall notify the bargaining parties,
23 the active participants affected by the cessation of
24 accruals, the Secretary, the Secretary of the Treas-
25 ury, and the Pension Benefit Guaranty Corporation

1 of the cessation of accruals, the period during which
2 such cessation is in effect, and the reasons therefor.

3 “(4) LIMITATION ON RETROACTIVE EFFECT.—

4 This subsection shall not apply to benefits accrued
5 before the date on which notice is provided under
6 paragraph (3).

7 “(d) TRANSITION CONTRIBUTION REQUIREMENTS.—

8 “(1) IN GENERAL.—A collective bargaining
9 agreement satisfies the transition contribution re-
10 quirements of this subsection if the agreement—

11 “(A) authorizes payment of contributions
12 to a legacy plan at a rate or rates equal to or
13 greater than the transition contribution rate es-
14 tablished by the legacy plan under paragraph
15 (2); and

16 “(B) does not provide for—

17 “(i) a suspension of contributions to
18 the legacy plan with respect to any period
19 of service; or

20 “(ii) any new direct or indirect exclu-
21 sion of younger or newly hired employees
22 of the employer from being taken into ac-
23 count in determining contributions owed to
24 the legacy plan.

25 “(2) TRANSITION CONTRIBUTION RATE.—

1 “(A) IN GENERAL.—The transition con-
2 tribution rate for a plan year is the contribution
3 rate that, as certified by the actuary of the leg-
4 acy plan in accordance with the principles in
5 section 305(b)(3)(B), is reasonably expected to
6 be adequate—

7 “(i) to fund the normal cost for the
8 plan year;

9 “(ii) to amortize the plan’s unfunded
10 liabilities in level annual installments over
11 25 years, beginning with the plan year in
12 which the transition contribution rate is
13 first established; and

14 “(iii) to amortize any subsequent
15 changes in the legacy plan’s unfunded li-
16 ability due to experience gains or losses
17 (including investment gains or losses, gains
18 or losses due to contributions greater or
19 less than the contributions made under the
20 prior transition contribution rate, and
21 other actuarial gains or losses), changes in
22 actuarial assumptions, changes to the leg-
23 acy plan’s benefits, or changes in funding
24 method over a period of 15 plan years be-

1 ginning with the plan year in which such
2 change in unfunded liability is incurred.

3 The transition contribution rate for any plan
4 year may not be less than the transition con-
5 tribution rate for the plan year in which such
6 rate is first established.

7 “(B) MULTIPLE RATES.—If different rates
8 of contribution are payable to the legacy plan
9 by different employers or for different classes of
10 employees, the certification shall specify a tran-
11 sition contribution rate for each such employer.

12 “(C) RATE APPLICABLE TO EMPLOYER.—

13 “(i) IN GENERAL.—Except as pro-
14 vided by clause (ii), the transition con-
15 tribution rate applicable to an employer for
16 a plan year is the rate in effect for the
17 plan year of the legacy plan that com-
18 mences on or after 180 days before the
19 earlier of—

20 “(I) the effective date of the col-
21 lective bargaining agreement pursuant
22 to which the employer contributes to
23 the legacy plan; or

24 “(II) 5 years after the last plan
25 year for which the transition contribu-

1 tion rate applicable to the employer
2 was established or updated.

3 “(ii) EXCEPTION.—The transition
4 contribution rate applicable to an employer
5 for the first plan year beginning on or
6 after the commencement of the employer’s
7 obligation to contribute to the composite
8 plan is the rate in effect for the plan year
9 of the legacy plan that commences on or
10 after 180 days before such first plan year.

11 “(D) EFFECT OF LEGACY PLAN FINANCIAL
12 CIRCUMSTANCES.—If the plan actuary of the
13 legacy plan has certified under section 305 that
14 the plan is in endangered or critical status for
15 a plan year, the transition contribution rate for
16 the following plan year is the rate determined
17 with respect to the employer under the legacy
18 plan’s funding improvement or rehabilitation
19 plan under section 305, if greater than the rate
20 otherwise determined, but in no event greater
21 than 75 percent of the sum of the contribution
22 rates applicable to the legacy plan and the com-
23 posite plan for the plan year.

24 “(E) OTHER ACTUARIAL ASSUMPTIONS
25 AND METHODS.—Except as provided in sub-

1 paragraph (A), the determination of the transi-
2 tion contribution rate for a plan year shall be
3 based on actuarial assumptions and methods
4 consistent with the minimum funding deter-
5 minations made under section 304 (or, if appli-
6 cable, section 305) with respect to the legacy
7 plan for the plan year.

8 “(F) ADJUSTMENTS IN RATE.—The plan
9 sponsor of a legacy plan from time to time may
10 adjust the transition contribution rate or rates
11 applicable to an employer under this paragraph
12 by increasing some rates and decreasing others
13 if the actuary certifies that such adjusted rates
14 in combination will produce projected contribu-
15 tion income for the plan year beginning on or
16 after the date of certification that is not less
17 than would be produced by the transition con-
18 tribution rates in effect at the time of the cer-
19 tification.

20 “(G) NOTICE OF TRANSITION CONTRIBU-
21 TION RATE.—The plan sponsor of a legacy plan
22 shall provide notice to the parties to collective
23 bargaining agreements pursuant to which con-
24 tributions are made to the legacy plan of
25 changes to the transition contribution rate re-

1 quirements at least 30 days before the begin-
2 ning of the plan year for which the rate is effec-
3 tive.

4 “(H) NOTICE TO COMPOSITE PLAN SPON-
5 SOR.—Not later than 30 days after a deter-
6 mination by the plan sponsor of a legacy plan
7 that a collective bargaining agreement provides
8 for a rate of contributions that is below the
9 transition contribution rate applicable to one or
10 more employers that are parties to the collective
11 bargaining agreement, the plan sponsor of the
12 legacy plan shall notify the plan sponsor of any
13 composite plan under which employees of such
14 employer would otherwise be eligible to accrue
15 a benefit.

16 “(3) CORRECTION PROCEDURES.—Pursuant to
17 standards prescribed by the Secretary, the plan
18 sponsor of a composite plan shall adopt rules and
19 procedures that give the parties to the collective bar-
20 gaining agreement notice of the failure of such
21 agreement to satisfy the transition contribution re-
22 quirements of this subsection, and a reasonable op-
23 portunity to correct such failure, not to exceed 180
24 days from the date of notice given under subsection
25 (b)(2).

1 “(4) SUPPLEMENTAL CONTRIBUTIONS.—A col-
2 lective bargaining agreement may provide for supple-
3 mental contributions to the legacy plan for a plan
4 year in excess of the transition contribution rate de-
5 termined under paragraph (2), regardless of whether
6 the legacy plan is in endangered or critical status for
7 such plan year.

8 “(e) NONAPPLICATION OF COMPOSITE PLAN RE-
9 STRICTIONS.—

10 “(1) IN GENERAL.—The provisions of sub-
11 sections (a), (b), and (c) shall not apply with respect
12 to a collective bargaining agreement, to the extent
13 the agreement, or a predecessor agreement, provides
14 or provided for contributions to a defined benefit
15 plan that is a legacy plan, as of the first day of the
16 first plan year following a plan year for which the
17 plan actuary certifies that the plan is fully funded,
18 has been fully funded for at least three out of the
19 immediately preceding 5 plan years, and is projected
20 to remain fully funded for at least the following 4
21 plan years.

22 “(2) DETERMINATION OF FULLY FUNDED.—A
23 plan is fully funded for purposes of paragraph (1)
24 if, as of the valuation date of the plan for a plan
25 year, the value of the plan’s assets equals or exceeds

1 the present value of the plan’s liabilities, determined
2 in accordance with the rules prescribed by the Pen-
3 sion Benefit Guaranty Corporation under sections
4 4219(c)(1)(D) and 4281 for multiemployer plans
5 terminating by mass withdrawal, as in effect for the
6 date of the determination, except the plan’s reason-
7 able assumption regarding the starting date of bene-
8 fits may be used.

9 “(3) OTHER APPLICABLE RULES.—Except as
10 provided in paragraph (2), actuarial determinations
11 and projections under this section shall be based on
12 the rules in section 305(b)(3) and section 802(b).

13 **“SEC. 806. MERGERS AND ASSET TRANSFERS OF COM-**
14 **POSITE PLANS.**

15 “(a) IN GENERAL.—Assets and liabilities of a com-
16 posite plan may only be merged with, or transferred to,
17 another plan if—

18 “(1) the other plan is a composite plan;

19 “(2) the plan or plans resulting from the merg-
20 er or transfer is a composite plan;

21 “(3) no participant’s accrued benefit or adjust-
22 able benefit is lower immediately after the trans-
23 action than it was immediately before the trans-
24 action; and

1 “(4) the value of the assets transferred in the
2 case of a transfer reasonably reflects the value of the
3 amounts contributed with respect to the participants
4 whose benefits are being transferred, adjusted for al-
5 locable distributions, investment gains and losses,
6 and administrative expenses.

7 “(b) LEGACY PLAN.—

8 “(1) IN GENERAL.—After a merger or transfer
9 involving a composite plan, the legacy plan with re-
10 spect to an employer that is obligated to contribute
11 to the resulting composite plan is the legacy plan
12 that applied to that employer immediately before the
13 merger or transfer.

14 “(2) MULTIPLE LEGACY PLANS.—If an em-
15 ployer is obligated to contribute to more than one
16 legacy plan with respect to employees eligible to ac-
17 cruce benefits under more than one composite plan
18 and there is a merger or transfer of such legacy
19 plans, the transition contribution rate applicable to
20 the legacy plan resulting from the merger or trans-
21 fer with respect to that employer shall be determined
22 in accordance with the provisions of section
23 805(d)(2)(B).”.

24 (2) PENALTIES.—

1 (A) CIVIL ENFORCEMENT OF FAILURE TO
2 COMPLY WITH REALIGNMENT PROGRAM.—Sec-
3 tion 502(a) of such Act (29 U.S.C. 1132(a)) is
4 amended—

5 (i) in paragraph (10), by striking “or”
6 at the end;

7 (ii) in paragraph (11), by striking the
8 period at the end and inserting “; or”; and

9 (iii) by adding at the end the fol-
10 lowing:

11 “(12) in the case of a composite plan required
12 to adopt a realignment program under section 803,
13 if the plan sponsor—

14 “(A) has not adopted a realignment pro-
15 gram under that section by the deadline estab-
16 lished in such section; or

17 “(B) fails to update or comply with the
18 terms of the realignment program in accordance
19 with the requirements of such section,

20 by the Secretary, by an employer that has an obliga-
21 tion to contribute with respect to the composite plan,
22 or by an employee organization that represents ac-
23 tive participants in the composite plan, for an order
24 compelling the plan sponsor to adopt a realignment
25 program, or to update or comply with the terms of

1 the realignment program, in accordance with the re-
2 quirements of such section and the realignment pro-
3 gram.”.

4 (B) CIVIL PENALTIES.—Section 502(c) of
5 such Act (29 U.S.C. 1132(c)) is amended—

6 (i) by moving paragraphs (8), (10),
7 and (12) each 2 ems to the left;

8 (ii) by redesignating paragraphs (9)
9 through (12) as paragraphs (12) through
10 (15), respectively; and

11 (iii) by inserting after paragraph (8)
12 the following:

13 “(9) The Secretary may assess against any plan
14 sponsor of a composite plan a civil penalty of not
15 more than \$1,100 per day for each violation by such
16 sponsor—

17 “(A) of the requirement under section
18 802(a) on the plan actuary to certify the plan’s
19 current or projected funded ratio by the date
20 specified in such subsection; or

21 “(B) of the requirement under section 803
22 to adopt a realignment program by the deadline
23 established in that section and to comply with
24 its terms.

1 “(10)(A) The Secretary may assess against any
2 plan sponsor of a composite plan a civil penalty of
3 not more than \$100 per day for each violation by
4 such sponsor of the requirement under section
5 803(b) to provide notice as described in such section,
6 except that no penalty may be assessed in any case
7 in which the plan sponsor exercised reasonable dili-
8 gence to meet the requirements of such section
9 and—

10 “(i) the plan sponsor did not know that the
11 violation existed; or

12 “(ii) the plan sponsor provided such notice
13 during the 30-day period beginning on the first
14 date on which the plan sponsor knew, or in ex-
15 ercising reasonable due diligence should have
16 known, that such violation existed.

17 “(B) In any case in which the plan sponsor ex-
18 ercised reasonable diligence to meet the require-
19 ments of section 803(b)—

20 “(i) the total penalty assessed under this
21 paragraph against such sponsor for a plan year
22 may not exceed \$500,000; and

23 “(ii) the Secretary may waive part or all of
24 such penalty to the extent that the payment of

1 such penalty would be excessive or otherwise in-
2 equitable relative to the violation involved.

3 “(11) The Secretary may assess against any
4 plan sponsor of a composite plan a civil penalty of
5 not more than \$100 per day for each violation by
6 such sponsor of the notice requirements under sec-
7 tions 801(b)(5) and 805(b)(2).”.

8 (3) CONFORMING AMENDMENT.—The table of
9 contents in section 1 of such Act (29 U.S.C. 1001
10 note) is amended by inserting after the item relating
11 to section 734 the following:

“PART 8—COMPOSITE PLANS AND LEGACY PLANS

12 (b) AMENDMENT TO THE INTERNAL REVENUE CODE
13 OF 1986.—

14 (1) IN GENERAL.—Part III of subchapter D of
15 chapter 1 of the Internal Revenue Code of 1986 is
16 amended by adding at the end the following:

17 **“Subpart C—Composite Plans and Legacy Plans**

“Sec. 437. Composite plan defined.
“Sec. 438. Funded ratios; actuarial assumptions.
“Sec. 439. Realignment program.
“Sec. 440. Limitation on increasing benefits.
“Sec. 440A. Composite plan restrictions to preserve legacy plan funding.
“Sec. 440B. Mergers and asset transfers of composite plans.

1 **“SEC. 437. COMPOSITE PLAN DEFINED.**

2 “(a) IN GENERAL.—For purposes of this title, the
3 term ‘composite plan’ means a pension plan—

4 “(1) which is a multiemployer plan that is nei-
5 ther a defined benefit plan nor a defined contribu-
6 tion plan,

7 “(2) the terms of which provide that the plan
8 is a composite plan for purposes of this title with re-
9 spect to which not more than one multiemployer de-
10 fined benefit plan is treated as a legacy plan within
11 the meaning of section 440A, unless there is more
12 than one legacy plan following a merger of composite
13 plans under section 440B,

14 “(3) which provides systematically for the pay-
15 ment of benefits—

16 “(A) objectively calculated pursuant to a
17 formula enumerated in the plan document with
18 respect to plan participants after retirement,
19 for life, and

20 “(B) in the form of life annuities, except
21 for benefits which under section 411(a)(11)
22 may be immediately distributed without the
23 consent of the participant,

24 “(4) for which the plan contributions for the
25 first plan year are at least 120 percent of the nor-
26 mal cost for the plan year,

1 “(5) which requires—

2 “(A) an annual valuation of the liability of
3 the plan as of a date within the plan year to
4 which the valuation refers or within one month
5 prior to the beginning of such year,

6 “(B) an annual actuarial determination of
7 the plan’s current funded ratio and projected
8 funded ratio under section 438(a),

9 “(C) corrective action through a realign-
10 ment program pursuant to section 439 when-
11 ever the plan’s projected funded ratio is below
12 120 percent for the plan year, and

13 “(D) an annual notification to each partici-
14 pant describing the participant’s benefits under
15 the plan and explaining that such benefits may
16 be subject to reduction under a realignment
17 program pursuant to section 439 based on the
18 plan’s funded status in future plan years, and

19 “(6) the board of trustees of which includes at
20 least one retiree or beneficiary in pay status during
21 each plan year following the first plan year in which
22 at least 5 percent of the participants in the plan are
23 retirees or beneficiaries in pay status.

24 “(b) TRANSITION FROM A MULTIEMPLOYER DE-
25 FINED BENEFIT PLAN.—

1 “(1) IN GENERAL.—The plan sponsor of a de-
2 fined benefit plan that is a multiemployer plan may,
3 subject to paragraph (2), amend the plan to incor-
4 porate the features of a composite plan as a compo-
5 nent of the multiemployer plan separate from the
6 defined benefit plan component, except in the case of
7 a defined benefit plan for which the plan actuary has
8 certified under section 432(b)(3) that the plan is or
9 will be in critical status for the plan year in which
10 such amendment would become effective or for any
11 of the succeeding 5 plan years.

12 “(2) REQUIREMENTS.—Any amendment pursu-
13 ant to paragraph (1) to incorporate the features of
14 a composite plan as a component of a multiemployer
15 plan shall—

16 “(A) apply with respect to all collective
17 bargaining agreements providing for contribu-
18 tions to the multiemployer plan on or after the
19 effective date of the amendment,

20 “(B) apply with respect to all participants
21 in the multiemployer plan for whom contribu-
22 tions are made to the multiemployer plan on or
23 after the effective date of the amendment,

24 “(C) specify that the effective date of the
25 amendment is—

1 “(i) the first day of a specified plan
2 year following the date of the adoption of
3 the amendment, except that the plan spon-
4 sor may alternatively provide for a sepa-
5 rate effective date with respect to each col-
6 lective bargaining agreement under which
7 contributions to the multiemployer plan
8 are required, which shall occur on the first
9 day of the first plan year beginning after
10 the termination, or if earlier, the re-open-
11 ing, of each such agreement, or such ear-
12 lier date as the parties to the agreement
13 and the plan sponsor of the multiemployer
14 plan shall agree to, and

15 “(ii) not later than the first day of the
16 fifth plan year beginning on or after the
17 date of the adoption of the amendment,

18 “(D) specify that, as of the amendment’s
19 effective date, no further benefits shall accrue
20 under the defined benefit component of the
21 multiemployer plan, and

22 “(E) specify that, as of the amendment’s
23 effective date, the plan sponsor of the multiem-
24 ployer plan shall be the plan sponsor of both

1 the composite plan component and the defined
2 benefit plan component of the plan.

3 “(3) SPECIAL RULES.—If a multiemployer plan
4 is amended pursuant to paragraph (1)—

5 “(A) the requirements of this title shall be
6 applied to the composite plan component and
7 the defined benefit plan component of the mul-
8 tiemployer plan as if each such component were
9 maintained as a separate plan, and

10 “(B) the assets of the composite plan com-
11 ponent and the defined benefit plan component
12 of the plan shall be held in a single trust form-
13 ing part of the plan under which the trust in-
14 strument expressly provides—

15 “(i) for separate accounts (and appro-
16 priate records) to be maintained to reflect
17 the interest which each of the plan compo-
18 nents has in the trust, including separate
19 accounting for additions to the trust for
20 the benefit of each plan component, dis-
21 bursements made from each plan compo-
22 nent’s account in the trust, investment ex-
23 perience of the trust allocable to that ac-
24 count, and administrative expenses (wheth-
25 er direct expenses or shared expenses allo-

1 cated proportionally), and permits, but
2 does not require, the pooling of some or all
3 of the assets of the two plan components
4 for investment purposes, and

5 “(ii) that the assets of each of the two
6 plan components shall be held, invested,
7 reinvested, managed, administered and dis-
8 tributed for the exclusive benefit of the
9 participants and beneficiaries of each such
10 plan component, and in no event shall the
11 assets of one of the plan components be
12 available to pay benefits due under the
13 other plan component.

14 “(4) NOT A TERMINATION EVENT.—Notwith-
15 standing section 4041A of the Employee Retirement
16 Income Security Act of 1974, an amendment pursu-
17 ant to paragraph (1) to incorporate the features of
18 a composite plan as a component of a multiemployer
19 plan does not constitute termination of the multiem-
20 ployer plan.

21 “(5) NOTICE TO THE SECRETARY.—

22 “(A) NOTICE.—The plan sponsor of a
23 composite plan shall provide notice to the Sec-
24 retary of the intent to establish the composite
25 plan (or, in the case of a composite plan incor-

1 porated as a component of a multiemployer
2 plan as described in paragraph (1), the intent
3 to amend the multiemployer plan to incorporate
4 such composite plan) at least 30 days prior to
5 the effective date of such establishment or
6 amendment.

7 “(B) CERTIFICATION.—In the case of a
8 composite plan incorporated as a component of
9 a multiemployer plan as described in paragraph
10 (1), such notice shall include a certification by
11 the plan actuary under section 432(b)(3) that
12 the effective date of the amendment occurs in
13 a plan year for which the multiemployer plan is
14 not in critical status for that plan year and any
15 of the succeeding 5 plan years.

16 “(6) REFERENCES TO COMPOSITE PLAN COM-
17 PONENT.—As used in this subpart, the term ‘com-
18 posite plan’ includes a composite plan component
19 added to a defined benefit plan pursuant to para-
20 graph (1).

21 “(7) RULE OF CONSTRUCTION.—Paragraph
22 (2)(A) shall not be construed as preventing the plan
23 sponsor of a multiemployer plan from adopting an
24 amendment pursuant to paragraph (1) because some
25 collective bargaining agreements are amended to

1 cease any covered employer’s obligation to contribute
2 to the multiemployer plan before or after the plan
3 amendment is effective. Paragraph (2)(B) shall not
4 be construed as preventing the plan sponsor of a
5 multiemployer plan from adopting an amendment
6 pursuant to paragraph (1) because some partici-
7 pants cease to have contributions made to the multi-
8 employer plan on their behalf before or after the
9 plan amendment is effective.

10 “(c) COORDINATION WITH FUNDING RULES.—Ex-
11 cept as otherwise provided in this title, sections 412, 431,
12 and 432 shall not apply to a composite plan.

13 “(d) TREATMENT OF A COMPOSITE PLAN.—For pur-
14 poses of this title (other than sections 412 and 418E),
15 a composite plan shall be treated as if it were a defined
16 benefit plan unless a different treatment is provided for
17 under applicable law.

18 **“SEC. 438. FUNDED RATIOS; ACTUARIAL ASSUMPTIONS.**

19 “(a) CERTIFICATION OF FUNDED RATIOS.—

20 “(1) IN GENERAL.—Not later than the one-
21 hundred twentieth day of each plan year of a com-
22 posite plan, the plan actuary of the composite plan
23 shall certify to the Secretary, the Secretary of
24 Labor, and the plan sponsor the plan’s current fund-

1 ed ratio and projected funded ratio for the plan
2 year.

3 “(2) DETERMINATION OF CURRENT FUNDED
4 RATIO AND PROJECTED FUNDED RATIO.—For pur-
5 poses of this section—

6 “(A) CURRENT FUNDED RATIO.—The cur-
7 rent funded ratio is the ratio (expressed as a
8 percentage) of—

9 “(i) the value of the plan’s assets as
10 of the first day of the plan year, to

11 “(ii) the plan actuary’s best estimate
12 of the present value of the plan liabilities
13 as of the first day of the plan year.

14 “(B) PROJECTED FUNDED RATIO.—The
15 projected funded ratio is the current funded
16 ratio projected to the first day of the fifteenth
17 plan year following the plan year for which the
18 determination is being made.

19 “(3) CONSIDERATION OF CONTRIBUTION RATE
20 INCREASES.—For purposes of projections under this
21 subsection, the plan sponsor may anticipate con-
22 tribution rate increases beyond the term of the cur-
23 rent collective bargaining agreement and any agreed-
24 to supplements, up to a maximum of 2.5 percent per
25 year, compounded annually, unless it would be un-

1 reasonable under the circumstances to assume that
2 contributions would increase by that amount.

3 “(b) ACTUARIAL ASSUMPTIONS AND METHODS.—
4 For purposes of this part—

5 “(1) IN GENERAL.—All costs, liabilities, rates
6 of interest, and other factors under the plan shall be
7 determined for a plan year on the basis of actuarial
8 assumptions and methods—

9 “(A) each of which is reasonable (taking
10 into account the experience of the plan and rea-
11 sonable expectations),

12 “(B) which, in combination, offer the actu-
13 ary’s best estimate of anticipated experience
14 under the plan, and

15 “(C) with respect to which any change
16 from the actuarial assumptions and methods
17 used in the previous plan year shall be certified
18 by the plan actuary and the actuarial rationale
19 for such change provided in the annual report
20 required by section 6058.

21 “(2) FAIR MARKET VALUE OF ASSETS.—The
22 value of the plan’s assets shall be taken into account
23 on the basis of their fair market value.

24 “(3) DETERMINATION OF NORMAL COST AND
25 PLAN LIABILITIES.—A plan’s normal cost and liabil-

ities shall be based on the most recent actuarial valuation required under section 437(a)(5)(A) and the unit credit funding method.

“(4) TIME WHEN CERTAIN CONTRIBUTIONS DEEMED MADE.—Any contributions for a plan year made by an employer after the last day of such plan year, but not later than two and one-half months after such day, shall be deemed to have been made on such last day. For purposes of this paragraph, such two and one-half month period may be extended for not more than six months under regulations prescribed by the Secretary.

“(5) ADDITIONAL ACTUARIAL ASSUMPTIONS.—Except where otherwise provided in this subpart, the provisions of section 432(b)(3)(B) shall apply to any determination or projection under this subpart.

“SEC. 439. REALIGNMENT PROGRAM.

“(a) REALIGNMENT PROGRAM.—

“(1) ADOPTION.—In any case in which the plan actuary certifies under section 438(a) that the plan’s projected funded ratio is below 120 percent for the plan year, the plan sponsor shall adopt a realignment program under paragraph (2) not later than 210 days after the due date of the certification required under section 438(a). The plan sponsor shall

1 adopt an updated realignment program for each suc-
2 ceeding plan year for which a certification described
3 in the preceding sentence is made.

4 “(2) CONTENT OF REALIGNMENT PROGRAM.—

5 “(A) IN GENERAL.—A realignment pro-
6 gram adopted under this paragraph is a written
7 program which consists of all reasonable meas-
8 ures, including options or a range of options to
9 be undertaken by the plan sponsor or proposed
10 to the bargaining parties, formulated, based on
11 reasonably anticipated experience and reason-
12 able actuarial assumptions, to enable the plan
13 to achieve a projected funded ratio of at least
14 120 percent for the following plan year.

15 “(B) INITIAL PROGRAM ELEMENTS.—Rea-
16 sonable measures under a realignment program
17 described in subparagraph (A) may include any
18 of the following:

19 “(i) Proposed contribution increases.

20 “(ii) A reduction in the rate of future
21 benefit accruals, so long as the resulting
22 rate shall not be less than 1 percent of the
23 contributions on which benefits are based
24 as of the start of the plan year (or the

1 equivalent standard accrual rate as de-
2 scribed in section 432(e)(6)).

3 “(iii) A modification or elimination of
4 adjustable benefits of participants that are
5 not in pay status before the date of the no-
6 tice required under subsection (b)(1).

7 “(iv) Any other legally available meas-
8 ures not specifically described in this sub-
9 paragraph or subparagraph (C) or (D)
10 that the plan sponsor determines are rea-
11 sonable.

12 “(C) ADDITIONAL PROGRAM ELEMENTS.—
13 If the plan sponsor has determined that all rea-
14 sonable measures available under subparagraph
15 (B) will not enable the plan to achieve a pro-
16 jected funded ratio of at least 120 percent the
17 following plan year, such reasonable measures
18 may also include—

19 “(i) a reduction of accrued benefits
20 that are not in pay status by the date of
21 the notice required under subsection
22 (b)(1), or

23 “(ii) a reduction of any benefits of
24 participants that are in pay status before
25 the date of the notice required under sub-

1 section (b)(1) other than core benefits as
2 defined in paragraph (4).

3 “(D) ADDITIONAL REDUCTIONS.—In the
4 case of a composite plan for which the plan
5 sponsor has determined that all reasonable
6 measures available under subparagraphs (B)
7 and (C) will not enable the plan to achieve a
8 projected funded ratio of at least 120 percent
9 for the following plan year, such reasonable
10 measures may also include—

11 “(i) a further reduction in the rate of
12 future benefit accruals without regard to
13 the limitation applicable under subpara-
14 graph (B)(ii), or

15 “(ii) a reduction of core benefits,
16 provided that such reductions shall be equitably
17 distributed across the participant and bene-
18 ficiary population, taking into account factors,
19 with respect to participants and beneficiaries
20 and their benefits, that may include one or
21 more of the factors listed in subclauses (I)
22 through (X) of section 432(e)(9)(D)(vi), to the
23 extent necessary to enable the plan to achieve
24 a projected funded ratio of at least 120 percent
25 for the following plan year, or at the election of

1 the plan sponsor, a projected funded ratio of at
2 least 100 percent for the following plan year
3 and a current funded ratio of at least 90 per-
4 cent.

5 “(3) ADJUSTABLE BENEFIT DEFINED.—For
6 purposes of this subpart, the term ‘adjustable ben-
7 efit’ means—

8 “(A) benefits, rights, and features under
9 the plan, including post-retirement death bene-
10 fits, 60-month guarantees, disability benefits
11 not yet in pay status, and similar benefits,

12 “(B) any early retirement benefit or retire-
13 ment-type subsidy (within the meaning of sec-
14 tion 411(d)(6)(B)(i)) and any benefit payment
15 option (other than the qualified joint and sur-
16 vivor annuity), and

17 “(C) benefit increases that were adopted
18 (or, if later, took effect) less than 60 months
19 before the first day such realignment program
20 took effect.

21 “(4) CORE BENEFIT DEFINED.—For purposes
22 of this subpart, the term ‘core benefit’ means a par-
23 ticipant’s accrued benefit payable in the normal form
24 of an annuity commencing at normal retirement age,
25 determined without regard to—

1 “(A) any early retirement benefits, retire-
2 ment-type subsidies, or other benefits, rights, or
3 features that may be associated with that ben-
4 efit, and

5 “(B) any cost-of-living adjustments or ben-
6 efit increases effective after the date of retire-
7 ment.

8 “(5) COORDINATION WITH CONTRIBUTION IN-
9 CREASES.—

10 “(A) IN GENERAL.—A realignment pro-
11 gram may provide that some or all of the ben-
12 efit modifications described in the program will
13 only take effect if the bargaining parties fail to
14 agree to specified levels of increases in contribu-
15 tions to the plan, effective as of specified dates.

16 “(B) INDEPENDENT BENEFIT MODIFICA-
17 TIONS.—If a realignment program adopts any
18 changes to the benefit formula that are inde-
19 pendent of potential contribution increases,
20 such changes shall take effect not later than
21 180 days following the first day of the first
22 plan year that begins following the adoption of
23 the realignment program.

24 “(C) CONDITIONAL BENEFIT MODIFICA-
25 TIONS.—If a realignment program adopts any

1 changes to the benefit formula that take effect
2 only if the bargaining parties fail to agree to
3 contribution increases, such changes shall take
4 effect not later than the first day of the first
5 plan year beginning after the third anniversary
6 of the date of adoption of the realignment pro-
7 gram.

8 “(D) REVOCATION OF CERTAIN BENEFIT
9 MODIFICATIONS.—Benefit modifications de-
10 scribed in paragraph (3) may be revoked, in
11 whole or in part, and retroactively or prospec-
12 tively, when contributions to the plan are in-
13 creased, as specified in the realignment pro-
14 gram, including any amendments thereto. The
15 preceding sentence shall not apply unless the
16 contribution increases are to be effective not
17 later than the fifth anniversary of the first day
18 of the first plan year that begins after the
19 adoption of the realignment program.

20 “(b) NOTICE.—

21 “(1) IN GENERAL.—In any case in which it is
22 certified under section 438(a) that the projected
23 funded ratio is less than 120 percent, the plan spon-
24 sor shall, not later than 30 days after the date of
25 the certification, provide notification of the current

1 and projected funded ratios to the participants and
2 beneficiaries, the bargaining parties, and the Sec-
3 retary. Such notice shall include—

4 “(A) an explanation that contribution rate
5 increases or benefit reductions may be nec-
6 essary,

7 “(B) a description of the types of benefits
8 that might be reduced, and

9 “(C) an estimate of the contribution in-
10 creases and benefit reductions that may be nec-
11 essary to achieve a projected funded ratio of
12 120 percent.

13 “(2) NOTICE OF BENEFIT MODIFICATIONS.—

14 “(A) IN GENERAL.—No modifications may
15 be made that reduce the rate of future benefit
16 accrual or that reduce core benefits or adjust-
17 able benefits unless notice of such reduction has
18 been given at least 180 days before the general
19 effective date of such reduction for all partici-
20 pants and beneficiaries to—

21 “(i) plan participants and bene-
22 ficiaries,

23 “(ii) each employer who has an obliga-
24 tion to contribute to the composite plan,
25 and

1 “(iii) each employee organization
2 which, for purposes of collective bar-
3 gaining, represents plan participants em-
4 ployed by such employers.

5 “(B) CONTENT OF NOTICE.—The notice
6 under subparagraph (A) shall contain—

7 “(i) sufficient information to enable
8 participants and beneficiaries to under-
9 stand the effect of any reduction on their
10 benefits, including an illustration of any
11 affected benefit or subsidy, on an annual
12 or monthly basis that a participant or ben-
13 eficiary would otherwise have been eligible
14 for as of the general effective date de-
15 scribed in subparagraph (A), and

16 “(ii) information as to the rights and
17 remedies of plan participants and bene-
18 ficiaries as well as how to contact the De-
19 partment of Labor for further information
20 and assistance, where appropriate.

21 “(C) FORM AND MANNER.—Any notice
22 under subparagraph (A)—

23 “(i) shall be provided in a form and
24 manner prescribed in regulations of the
25 Secretary of Labor,

1 “(ii) shall be written in a manner so
2 as to be understood by the average plan
3 participant.

4 “(3) MODEL NOTICES.—The Secretary shall—

5 “(A) prescribe model notices that the plan
6 sponsor of a composite plan may use to satisfy
7 the notice requirements under this subsection,
8 and

9 “(B) by regulation enumerate any details
10 related to the elements listed in paragraph (1)
11 that any notice under this subsection must in-
12 clude.

13 “(4) DELIVERY METHOD.—Any notice under
14 this part shall be provided in writing and may also
15 be provided in electronic form to the extent that the
16 form is reasonably accessible to persons to whom the
17 notice is provided.

18 **“SEC. 440. LIMITATION ON INCREASING BENEFITS.**

19 “(a) LEVEL OF CURRENT FUNDED RATIOS.—Except
20 as provided in subsections (c), (d), and (e), no plan
21 amendment increasing benefits or establishing new bene-
22 fits under a composite plan may be adopted for a plan
23 year unless—

1 “(1) the plan’s current funded ratio is at least
2 110 percent (without regard to the benefit increase
3 or new benefits),

4 “(2) taking the benefit increase or new benefits
5 into account, the current funded ratio is at least 100
6 percent and the projected funded ratio for the cur-
7 rent plan year is at least 120 percent,

8 “(3) in any case in which, after taking the ben-
9 efit increase or new benefits into account, the cur-
10 rent funded ratio is less than 140 percent or the
11 projected funded ratio is less than 140 percent, the
12 benefit increase or new benefits are projected by the
13 plan actuary to increase the present value of the
14 plan’s liabilities for the plan year by not more than
15 3 percent, and

16 “(4) expected contributions for the current plan
17 year are at least 120 percent of normal cost for the
18 plan year, determined using the unit credit funding
19 method and treating the benefit increase or new ben-
20 efits as in effect for the entire plan year.

21 “(b) **ADDITIONAL REQUIREMENTS WHERE CORE**
22 **BENEFITS REDUCED.**—If a plan has been amended to re-
23 duce core benefits pursuant to a realignment program
24 under section 439(a)(2)(D), such plan may not be subse-

1 quently amended to increase core benefits unless the
2 amendment—

3 “(1) increases the level of future benefit pay-
4 ments only, and

5 “(2) provides for an equitable distribution of
6 benefit increases across the participant and bene-
7 ficiary population, taking into account the extent to
8 which the benefits of participants were previously re-
9 duced pursuant to such realignment program.

10 “(c) EXCEPTION TO COMPLY WITH APPLICABLE
11 LAW.—Subsection (a) shall not apply in connection with
12 a plan amendment if the amendment is required as a con-
13 dition of qualification under part I of subchapter D of
14 chapter 1 or to comply with other applicable law.

15 “(d) EXCEPTION WHERE MAXIMUM DEDUCTIBLE
16 LIMIT APPLIES.—Subsection (a) shall not apply in con-
17 nection with a plan amendment if and to the extent that
18 contributions to the composite plan would not be deduct-
19 ible for the plan year under section 404(a)(1)(E) if the
20 plan amendment is not adopted. The Secretary of the
21 Treasury shall issue regulations to implement this para-
22 graph.

23 “(e) EXCEPTION FOR CERTAIN BENEFIT MODIFICA-
24 TIONS.—Subsection (a) shall not apply in connection with

1 a plan amendment under section 439(a)(5)(C), regarding
2 conditional benefit modifications.

3 “(f) TREATMENT OF PLAN AMENDMENTS.—For pur-
4 poses of this section—

5 “(1) if two or more plan amendments increas-
6 ing benefits or establishing new benefits are adopted
7 in a plan year, such amendments shall be treated as
8 a single amendment adopted on the last day of the
9 plan year,

10 “(2) all benefit increases and new benefits
11 adopted in a single amendment are treated as a sin-
12 gle benefit increase, irrespective of whether the in-
13 creases and new benefits take effect in more than
14 one plan year, and

15 “(3) increases in contributions or decreases in
16 plan liabilities which are scheduled to take effect in
17 future plan years may be taken into account in con-
18 nection with a plan amendment if they have been
19 agreed to in writing or otherwise formalized by the
20 date the plan amendment is adopted.

21 **“SEC. 440A. COMPOSITE PLAN RESTRICTIONS TO PRE-**
22 **SERVE LEGACY PLAN FUNDING.**

23 “(a) TREATMENT AS A LEGACY PLAN.—

24 “(1) IN GENERAL.—For purposes of this sub-
25 chapter, a defined benefit plan shall be treated as a

1 legacy plan with respect to the composite plan under
2 which the employees who were eligible to accrue a
3 benefit under the defined benefit plan become eligi-
4 ble to accrue a benefit under such composite plan.

5 “(2) COMPONENT PLANS.—In any case in
6 which a defined benefit plan is amended to add a
7 composite plan component pursuant to section
8 437(b), paragraph (1) shall be applied by sub-
9 stituting ‘defined benefit component’ for ‘defined
10 benefit plan’ and ‘composite plan component’ for
11 ‘composite plan’.

12 “(3) ELIGIBLE TO ACCRUE A BENEFIT.—For
13 purposes of paragraph (1), an employee is consid-
14 ered eligible to accrue a benefit under a composite
15 plan as of the first day in which the employee com-
16 pletes an hour of service under a collective bar-
17 gaining agreement that provides for contributions to
18 and accruals under the composite plan in lieu of ac-
19 cruals under the legacy plan.

20 “(4) COLLECTIVE BARGAINING AGREEMENT.—
21 As used in this subpart, the term ‘collective bar-
22 gaining agreement’ includes any agreement under
23 which an employer has an obligation to contribute to
24 a plan.

1 “(5) OTHER TERMS.—Any term used in this
2 subpart which is not defined in this part and which
3 is also used in section 432 shall have the same
4 meaning provided such term in such section.

5 “(b) RESTRICTIONS ON ACCEPTANCE BY COMPOSITE
6 PLAN OF AGREEMENTS AND CONTRIBUTIONS.—

7 “(1) IN GENERAL.—The plan sponsor of a com-
8 posite plan shall not accept or recognize a collective
9 bargaining agreement (or any modification to such
10 agreement), and no contributions may be accepted
11 and no benefits may be accrued or otherwise earned
12 under the agreement—

13 “(A) in any case in which the plan actuary
14 of any defined benefit plan that would be treat-
15 ed as a legacy plan with respect to such com-
16 posite plan has certified under section
17 432(b)(3) that such defined benefit plan is or
18 will be in critical status for the plan year in
19 which such agreement would take effect or for
20 any of the succeeding 5 plan years, and

21 “(B) unless the agreement requires each
22 employer who is a party to such agreement, in-
23 cluding employers whose employees are not par-
24 ticipants in the legacy plan, to provide contribu-
25 tions to the legacy plan with respect to such

1 composite plan in a manner that satisfies the
2 transition contribution requirements of sub-
3 section (d).

4 “(2) NOTICE.—Not later than 30 days after a
5 determination by a plan sponsor of a composite plan
6 that an agreement fails to satisfy the requirements
7 described in paragraph (1), the plan sponsor shall
8 provide notification of such failure and the reasons
9 for such determination to—

10 “(A) the parties to the agreement,

11 “(B) active participants of the composite
12 plan who have ceased to accrue or otherwise
13 earn benefits with respect to service with an
14 employer pursuant to paragraph (1), and

15 “(C) the Secretary of Labor, the Secretary
16 of the Treasury, and the Pension Benefit Guar-
17 anty Corporation.

18 “(3) LIMITATION ON RETROACTIVE EFFECT.—
19 This subsection shall not apply to benefits accrued
20 before the date on which notice is provided under
21 paragraph (2).

22 “(c) RESTRICTION ON ACCRUAL OF BENEFITS
23 UNDER A COMPOSITE PLAN.—

24 “(1) IN GENERAL.—In any case in which an
25 employer, under a collective bargaining agreement

1 entered into after the date of enactment of the Giv-
2 ing Retirement Options to Workers Act of 2020,
3 ceases to have an obligation to contribute to a multi-
4 employer defined benefit plan, no employees em-
5 ployed by the employer may accrue or otherwise earn
6 benefits under any composite plan, with respect to
7 service with that employer, for a 60-month period
8 beginning on the date on which the employer entered
9 into such collective bargaining agreement.

10 “(2) NOTICE OF CESSATION OF OBLIGATION.—
11 Within 30 days of determining that an employer has
12 ceased to have an obligation to contribute to a leg-
13 acy plan with respect to employees employed by an
14 employer that is or will be contributing to a com-
15 posite plan with respect to service of such employees,
16 the plan sponsor of the legacy plan shall notify the
17 plan sponsor of the composite plan of that cessation.

18 “(3) NOTICE OF CESSATION OF ACCRUALS.—
19 Not later than 30 days after determining that an
20 employer has ceased to have an obligation to con-
21 tribute to a legacy plan, the plan sponsor of the
22 composite plan shall notify the bargaining parties,
23 the active participants affected by the cessation of
24 accruals, the Secretary, the Secretary of Labor, and
25 the Pension Benefit Guaranty Corporation of the

1 cessation of accruals, the period during which such
2 cessation is in effect, and the reasons therefor.

3 “(4) LIMITATION ON RETROACTIVE EFFECT.—

4 This subsection shall not apply to benefits accrued
5 before the date on which notice is provided under
6 paragraph (3).

7 “(d) TRANSITION CONTRIBUTION REQUIREMENTS.—

8 “(1) IN GENERAL.—A collective bargaining
9 agreement satisfies the transition contribution re-
10 quirements of this subsection if the agreement—

11 “(A) authorizes for payment of contribu-
12 tions to a legacy plan at a rate or rates equal
13 to or greater than the transition contribution
14 rate established under paragraph (2), and

15 “(B) does not provide for—

16 “(i) a suspension of contributions to
17 the legacy plan with respect to any period
18 of service, or

19 “(ii) any new direct or indirect exclu-
20 sion of younger or newly hired employees
21 of the employer from being taken into ac-
22 count in determining contributions owed to
23 the legacy plan.

24 “(2) TRANSITION CONTRIBUTION RATE.—

1 “(A) IN GENERAL.—The transition con-
2 tribution rate for a plan year is the contribution
3 rate that, as certified by the actuary of the leg-
4 acy plan in accordance with the principles in
5 section 432(b)(3)(B), is reasonably expected to
6 be adequate—

7 “(i) to fund the normal cost for the
8 plan year,

9 “(ii) to amortize the plan’s unfunded
10 liabilities in level annual installments over
11 25 years, beginning with the plan year in
12 which the transition contribution rate is
13 first established, and

14 “(iii) to amortize any subsequent
15 changes in the legacy plan’s unfunded li-
16 ability due to experience gains or losses
17 (including investment gains or losses, gains
18 or losses due to contributions greater or
19 less than the contributions made under the
20 prior transition contribution rate, and
21 other actuarial gains or losses), changes in
22 actuarial assumptions, changes to the leg-
23 acy plan’s benefits, or changes in funding
24 method over a period of 15 plan years be-

1 ginning with the plan year in which such
2 change in unfunded liability is incurred.

3 The transition contribution rate for any plan
4 year may not be less than the transition con-
5 tribution rate for the plan year in which such
6 rate is first established.

7 “(B) MULTIPLE RATES.—If different rates
8 of contribution are payable to the legacy plan
9 by different employers or for different classes of
10 employees, the certification shall specify a tran-
11 sition contribution rate for each such employer.

12 “(C) RATE APPLICABLE TO EMPLOYER.—

13 “(i) IN GENERAL.—Except as pro-
14 vided by clause (ii), the transition con-
15 tribution rate applicable to an employer for
16 a plan year is the rate in effect for the
17 plan year of the legacy plan that com-
18 mences on or after 180 days before the
19 earlier of—

20 “(I) the effective date of the col-
21 lective bargaining agreement pursuant
22 to which the employer contributes to
23 the legacy plan, or

24 “(II) 5 years after the last plan
25 year for which the transition contribu-

1 tion rate applicable to the employer
2 was established or updated.

3 “(ii) EXCEPTION.—The transition
4 contribution rate applicable to an employer
5 for the first plan year beginning on or
6 after the commencement of the employer’s
7 obligation to contribute to the composite
8 plan is the rate in effect for the plan year
9 of the legacy plan that commences on or
10 after 180 days before such first plan year.

11 “(D) EFFECT OF LEGACY PLAN FINANCIAL
12 CIRCUMSTANCES.—If the plan actuary of the
13 legacy plan has certified under section 432 that
14 the plan is in endangered or critical status for
15 a plan year, the transition contribution rate for
16 the following plan year is the rate determined
17 with respect to the employer under the legacy
18 plan’s funding improvement or rehabilitation
19 plan under section 432, if greater than the rate
20 otherwise determined, but in no event greater
21 than 75 percent of the sum of the contribution
22 rates applicable to the legacy plan and the com-
23 posite plan for the plan year.

24 “(E) OTHER ACTUARIAL ASSUMPTIONS
25 AND METHODS.—Except as provided in sub-

1 paragraph (A), the determination of the transi-
2 tion contribution rate for a plan year shall be
3 based on actuarial assumptions and methods
4 consistent with the minimum funding deter-
5 minations made under section 431 (or, if appli-
6 cable, section 432) with respect to the legacy
7 plan for the plan year.

8 “(F) ADJUSTMENTS IN RATE.—The plan
9 sponsor of a legacy plan from time to time may
10 adjust the transition contribution rate or rates
11 applicable to an employer under this paragraph
12 by increasing some rates and decreasing others
13 if the actuary certifies that such adjusted rates
14 in combination will produce projected contribu-
15 tion income for the plan year beginning on or
16 after the date of certification that is not less
17 than would be produced by the transition con-
18 tribution rates in effect at the time of the cer-
19 tification.

20 “(G) NOTICE OF TRANSITION CONTRIBU-
21 TION RATE.—The plan sponsor of a legacy plan
22 shall provide notice to the parties to collective
23 bargaining agreements pursuant to which con-
24 tributions are made to the legacy plan of
25 changes to the transition contribution rate re-

1 quirements at least 30 days before the begin-
2 ning of the plan year for which the rate is effec-
3 tive.

4 “(H) NOTICE TO COMPOSITE PLAN SPON-
5 SOR.—Not later than 30 days after a deter-
6 mination by the plan sponsor of a legacy plan
7 that a collective bargaining agreement provides
8 for a rate of contributions that is below the
9 transition contribution rate applicable to one or
10 more employers that are parties to the collective
11 bargaining agreement, the plan sponsor of the
12 legacy plan shall notify the plan sponsor of any
13 composite plan under which employees of such
14 employer would otherwise be eligible to accrue
15 a benefit.

16 “(3) CORRECTION PROCEDURES.—Pursuant to
17 standards prescribed by the Secretary of Labor, the
18 plan sponsor of a composite plan shall adopt rules
19 and procedures that give the parties to the collective
20 bargaining agreement notice of the failure of such
21 agreement to satisfy the transition contribution re-
22 quirements of this subsection, and a reasonable op-
23 portunity to correct such failure, not to exceed 180
24 days from the date of notice given under subsection
25 (b)(2).

1 “(4) SUPPLEMENTAL CONTRIBUTIONS.—A col-
2 lective bargaining agreement may provide for supple-
3 mental contributions to the legacy plan for a plan
4 year in excess of the transition contribution rate de-
5 termined under paragraph (2), regardless of whether
6 the legacy plan is in endangered or critical status for
7 such plan year.

8 “(e) NONAPPLICATION OF COMPOSITE PLAN RE-
9 STRICTIONS.—

10 “(1) IN GENERAL.—The provisions of sub-
11 sections (a), (b), and (c) shall not apply with respect
12 to a collective bargaining agreement, to the extent
13 the agreement, or a predecessor agreement, provides
14 or provided for contributions to a defined benefit
15 plan that is a legacy plan, as of the first day of the
16 first plan year following a plan year for which the
17 plan actuary certifies that the plan is fully funded,
18 has been fully funded for at least three out of the
19 immediately preceding 5 plan years, and is projected
20 to remain fully funded for at least the following 4
21 plan years.

22 “(2) DETERMINATION OF FULLY FUNDED.—A
23 plan is fully funded for purposes of paragraph (1)
24 if, as of the valuation date of the plan for a plan
25 year, the value of the plan’s assets equals or exceeds

1 the present value of the plan’s liabilities, determined
2 in accordance with the rules prescribed by the Pen-
3 sion Benefit Guaranty Corporation under sections
4 4219(c)(1)(D) and 4281 of Employee Retirement
5 Income and Security Act for multiemployer plans
6 terminating by mass withdrawal, as in effect for the
7 date of the determination, except the plan’s reason-
8 able assumption regarding the starting date of bene-
9 fits may be used.

10 “(3) OTHER APPLICABLE RULES.—Except as
11 provided in paragraph (2), actuarial determinations
12 and projections under this section shall be based on
13 the rules in section 432(b)(3) and section 438(b).

14 **“SEC. 440B. MERGERS AND ASSET TRANSFERS OF COM-**
15 **POSITE PLANS.**

16 “(a) IN GENERAL.—Assets and liabilities of a com-
17 posite plan may only be merged with, or transferred to,
18 another plan if—

19 “(1) the other plan is a composite plan,

20 “(2) the plan or plans resulting from the merg-
21 er or transfer is a composite plan,

22 “(3) no participant’s accrued benefit or adjust-
23 able benefit is lower immediately after the trans-
24 action than it was immediately before the trans-
25 action, and

1 “(4) the value of the assets transferred in the
2 case of a transfer reasonably reflects the value of the
3 amounts contributed with respect to the participants
4 whose benefits are being transferred, adjusted for al-
5 locable distributions, investment gains and losses,
6 and administrative expenses.

7 “(b) LEGACY PLAN.—

8 “(1) IN GENERAL.—After a merger or transfer
9 involving a composite plan, the legacy plan with re-
10 spect to an employer that is obligated to contribute
11 to the resulting composite plan is the legacy plan
12 that applied to that employer immediately before the
13 merger or transfer.

14 “(2) MULTIPLE LEGACY PLANS.—If an em-
15 ployer is obligated to contribute to more than one
16 legacy plan with respect to employees eligible to ac-
17 cruce benefits under more than one composite plan
18 and there is a merger or transfer of such legacy
19 plans, the transition contribution rate applicable to
20 the legacy plan resulting from the merger or trans-
21 fer with respect to that employer shall be determined
22 in accordance with the provisions of section
23 440A(d)(2)(B).”.

24 “(2) CLERICAL AMENDMENT.—The table of sub-

<AUTODATE>

To Whom It May Concern,

This letter is to provide information to you regarding the functions being performed by Contract Postal Units, Community Post Offices, and Village Post Offices in support of the essential government services being provided by the United States Postal Service ("USPS" or "Postal Service") to the American people. These facilities are under contract with the Postal Service to provide access to postal products and services in support of the Postal Service's ongoing operations.

The Postal Service's provision of postal services throughout the United States is not affected by State and local government actions that are restricting commercial and personal activities in response to the Coronavirus Disease 2019 (COVID)-19 pandemic. The Postal Service is an entity of the federal government, and the continued provision of postal services to the American people is designated as an essential function under federal law.

The Postal Service relies on its suppliers to provide this critical government service. The Postal Service's network of contractor-operated retail facilities enables the Postal Service to provide the American people with the ability to reasonably access postal services in communities throughout the United States, in conformance with federal law. Many of these contractor-operated facilities also provide postal delivery services, by providing P.O Boxes.

Postal and shipping workers, including those in the private sector, are also considered essential critical infrastructure workers under recent guidance issued by the Department of Homeland Security. Guidance issued by the White House and CDC has also indicated that such industries have a special responsibility to maintain normal work schedules.

Therefore, the Postal Service considers that the continued operations of this network of contractor-operated facilities is vital to the Postal Service's continued performance of its essential functions.

Questions regarding this letter may be directed to the Supply Management group within the Postal Service at (insert phone number).

Dear Mr. President:

We, the undersigned organizations, applaud the Administration and Congress for their swift actions to mitigate the impact of the unfolding Coronavirus pandemic. As our nation deals with this unprecedented public health crisis, we would like to emphasize to you and our senior government leaders that the transportation and goods movement industry stands ready and able to play a pivotal role in promoting economic growth while assisting with pandemic healthcare relief.

Commercial transportation firms will be essential in our country's ability to restore economic health, vitality and a return to everyday life. As the federal, state and local governments take steps to limit the spread of the Coronavirus, it is crucial that such actions do not inadvertently encumber the vital role of package and mail delivery services. We therefore write to encourage you, the Vice President, and the Coronavirus Task Force to reaffirm that transportation and shipping service providers, to include air, ground and ocean networks, are critical industries that should not be hindered by unnecessary restrictions impeding our ability to deliver.

Transportation service providers and shipping/postal operators have already been recognized by the Department of Homeland Security and Presidential Policy Directives as Critical Infrastructure industries. All of these firms utilize sophisticated networks of transportation modes including aviation, rail, ocean and truck to provide final-mile delivery for consumer goods, food, medical supplies and devices, among other items. Given the current disruption to the daily life of many Americans, there is even greater demand, and reliance upon, our services. Our organizations have implemented increased measures to ensure the safety of our people, our customers, and the general public.

It is imperative that precautionary actions taken by federal, state or municipal governments do not impose unnecessary burdens or logistical complications on package and mail delivery services, or on the people that provide those services, including our pilots, couriers, hub operators and truck drivers. Such unintended negative consequences will hamper our ability to reach businesses and consumers that are relying upon timely and dependable delivery. Neither restrictive public policies that impede interstate commerce (i.e. – Article I, Section 8 of the U.S. Constitution) should be enacted, nor should new local government initiatives create a regulatory patchwork that hinders operational efficiency.

Mr. President, the spread of the Coronavirus in the U.S. is testing government institutions, challenging private industry, and placing inordinate demands on our fellow citizens. As our nation mobilizes to mitigate the impact of the pandemic, we ask that you and your Coronavirus Task Force reiterate the valuable role our firms play in this regard, and discourage states and localities from implementing public policies that restrict our ability to serve the American people.

We stand ready and willing to continue this important service to our nation, and will continue to work with federal, state and local governments in a coordinated fashion to help our employees deliver for America in the safest possible manner while also keeping our employees and the customers they serve safe too.

Given the current disruption to the daily life of many Americans, there is even greater demand, and reliance upon, our services. Our organizations have implemented increased measures to ensure the safety of our people, our customers, and the general public.

It is imperative that precautionary actions taken by federal, state or municipal governments do not impose unnecessary burdens or logistical complications on package and mail delivery services, or on the people that provide those services, including our pilots, couriers, hub operators and truck drivers. Such unintended negative consequences will hamper our ability to reach businesses and consumers that are relying upon timely and dependable delivery. Neither restrictive public policies that impede interstate commerce (i.e. – Article I, Section 8 of the U.S. Constitution) should be enacted, nor should new local government initiatives create a regulatory patchwork that hinders operational efficiency.

Mr. President, the spread of the Coronavirus in the U.S. is testing government institutions, challenging private industry, and placing inordinate demands on our fellow citizens. As our nation mobilizes to mitigate the impact of the pandemic, we ask that you and your Coronavirus Task Force reiterate the valuable role our firms play in this regard, and discourage states and localities from implementing public policies that restrict our ability to serve the American people.

We stand ready and willing to continue this important service to our nation, and will continue to work with federal, state and local governments in a coordinated fashion to help our employees deliver for America in the safest possible manner while also keeping our employees and the customers they serve safe too.

Sincerely,

Chris Spear

			achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. 			achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. The UPU sets the operational, payment system, and security standards for the global postal network, and importantly establishes international postal delivery prices. Although the decision was made for the USPS to remain in the UPU, it is also looking to increase its overall competitiveness through newly developed in-country delivery solutions. Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. USPS therefore intends to secure delivery to the addressee at competitive rates with independently operated, for-profit commercial delivery providers.

20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. Although the decision was made for the USPS to remain in the UPU, it is also looking to increase its overall competitiveness through newly developed in-country delivery solutions. Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). 			achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. The UPU sets the operational, payment system, and security standards for the global postal network, and importantly establishes international postal delivery prices. Although the decision was made for the USPS to remain in the UPU, it is also looking to increase its overall competitiveness through newly developed in-country delivery solutions. Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. Although the decision was made for the USPS to remain in the UPU, it is also looking to increase its overall competitiveness through newly developed in-country delivery solutions. Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. Although the decision was made for the USPS to remain in the UPU, it is also looking to increase its overall competitiveness through newly developed in-country delivery solutions. Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. 			achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. 20/2-23	3/16/2020	Betsy Repper Purchasing Specialist Transportation Services	The purpose of this procurement is to contract for international commercial mail delivery to include in country delivery to the international recipient. The Postal Service's Global Business Solutions group (GB) seeks to enhance the organization's international operational efficiency and reduce costs for shipment of commercial goods within the global marketplace, inclusive of 213 destinating countries, dependencies, and areas of sovereignty. The resulting contracts are targeted to achieve value-added last mile delivery services and increase efficiency required as a result of the announced and planned exit of the United States from the Universal Postal Union (UPU). This is a new sourcing requirement. The United States currently provides international mail delivery through the UPU, a specialized agency of the United Nations that coordinates postal policies among member nations, in addition to a worldwide postal system. The UPU sets the operational, payment system, and security standards for the global postal network, and importantly establishes international postal delivery prices. Although the decision was made for the USPS to remain in the UPU, it is also looking to increase its overall competitiveness through newly developed in-country delivery solutions. Significant opportunities exist within the marketplace to provide value to U.S. merchants and grow USPS exports by improving export compliance, customs clearance, and last mile delivery performance from both a cost and service perspective. USPS therefore intends to secure delivery to the addressee at competitive rates with independently operated, for-profit commercial delivery providers.	\$4.4 billion over 7 years and 7 suppliers	No	[for discussion at DC meeting]

DRAFT – BOG Chair Letter to Leadership re COVID-19 v10:

DATE

The Honorable _____

Dear Representative/Senator _____,

We are writing to share with you the actions the United States Postal Service is taking to meet the needs of the American public and to protect our employees and customers as our nation responds to the Coronavirus Disease 2019 (COVID-19) pandemic, and to also inform you of the serious impacts that the pandemic is having on the Postal Service's financial condition.

As you know, our Board is comprised of both Republicans and Democrats, and we take pride in operating in a very bipartisan manner. We thank President Trump for appointing, and the Senate for confirming, a Board whose members bring unique capabilities, diverse perspectives, and broad experiences, and who are all committed to putting personal politics aside to represent the public interest and to ensure that the Postal Service continues to provide its essential services for the American people, both today and in the years to come. Since taking office, the Board has worked extensively to craft a plan to address the Postal Service's financial condition, a process that has taken on new urgency considering the impact of the COVID-19 pandemic on the Postal Service. The \$10 billion of additional borrowing authority provided in the CARES Act is a good start, and we also thank the Administration and Congress for taking that important action. However, as detailed below, this additional authority is not sufficient to address the near-term liquidity crisis that the Postal Service is facing as a result of the pandemic, which requires Congress to take further immediate action to ensure our continued ability to provide our critical services. Below, we address our recommendations to Congress for both immediate and longer-term relief, which have been adopted unanimously by the Board.

The Board and Postal Service management team, along with the 630,000 employees of the Postal Service, remain highly focused on our mission of binding the nation together and providing the American people with prompt, reliable, and universal postal delivery services. Our mission has never been more important than now, as Americans shelter in place, work from home, or otherwise practice social distancing. We operate by statute as a "basic and fundamental service" provided by the Federal Government to the American people. In addition, the continued provision of postal services is designated as an essential function of the Government during times of emergency pursuant to the framework of the National Continuity Policy, and the postal sector is also designated by the Department of Homeland Security as part of the nation's critical infrastructure. Six days per week, and in some instances seven, the men and women of the Postal Service accept, process, transport, and deliver important mail and vital packages, including important governmental information and benefits such as Census materials, social security and stimulus checks, and materials advising the public about COVID-19; materials relating to elections, including absentee ballots and political mail; materials that are essential to the functioning of our economy, such as transactional mail; and packages containing sustaining necessities, including medicines and other goods purchased online.

We are proud of the essential services that the Postal Service provides to the American people, and of the fact that the Postal Service consistently receives the highest public approval ratings

of any entity of the Federal Government. Indeed a recent survey by the Pew Research Center released on April 9 shows that an overwhelming 91 percent of respondents have a favorable view of USPS, and this favorable opinion is shared nearly equally by Republicans and Democrats alike. This standing with the American people is based in no small part on the Postal Service's nonpartisan, nonpolitical and equalitarian nature. In that regard, you can be assured that the Board fully recognizes that it is vital to the achievement of the Postal Service's mission that there is no actual or appearance of political bias or partiality on the part of the Postal Service. As such, we will be vigilant to ensure that the Postal Service does not endorse the political activities of any group, and we will continue to take appropriate legal and other actions to ensure that no group uses our trademarks or other intellectual property in connection with their political activities to suggest or infer that the Postal Service supports their political viewpoints. The Postal Service will remain politically neutral, nonpartisan, unbiased, and impartial, and we will not allow this great American institution to be misused as a part of the partisan political fray.

Postal Service Response to the Pandemic

The Board has also been holding meetings and briefings at regular intervals to receive the latest information and provide strategic direction to management on responding to the pandemic. We have established a dedicated COVID-19 Command Response leadership team to direct employee, operational, business, and customer continuity efforts during this extraordinary time. We are fully committed to being a source of consistency and reliability for American households and businesses throughout this national emergency, and to ensuring that the public can confidently depend upon our mailing and shipping services, both today and in the future. As we provide our vital service, we have been adjusting our policies and operating procedures in a manner consistent with the advice of the Department of Health and Human Services (HHS), the Centers for Disease Control (CDC), and other public health officials.

In this regard, the specific measures we have implemented in response to the COVID-19 outbreak include the following:

Keeping our employees safe. The essential services we provide are only possible due to the collective and individual efforts of the dedicated public servants who work for the Postal Service. We are doing everything that we can to protect the health and safety of our employees while they are performing their jobs, in a manner consistent with the advice of medical and public health professionals. To achieve this goal, the COVID-19 Command Response team at Headquarters is working closely with HHS, CDC, and other public health officials to receive their latest guidance on appropriate workplace practices. We are adjusting our policies accordingly, and are continually sharing the latest information throughout our organization. Specific actions we have taken include the following:

- Updated our leave policies to allow liberal use of leave, and to therefore give our employees the ability to stay home whenever they feel sick, must provide dependent care, or wish to abide by State or local shelter-in-place requirements. We have been actively encouraging any employee who feels sick to stay home. To facilitate their ability to do so, we entered into MOUs even in advance of the Families First Coronavirus Response Act with our unions and management associations to provide 80 hours of paid leave to employees, including non-career employees, for issues related to COVID-19. We expanded the definition of Sick Leave for Dependent Care for all employees to deal with the cascading closures of primary and secondary schools across the country. While we have taken these steps on our own initiative, we have also ensured that employees

will also receive the emergency leave authorized by the Families First Coronavirus Response Act, in addition to what they otherwise have accrued.

- Worked to overcome the challenges in the supply chain to ensure that our employees have ready access to hand sanitizer, and that they receive surgical masks and gloves upon request. This has been a matter of the highest priority for the Postal Service throughout the pandemic. We have shipped over 18 million masks throughout the country to ensure that they are available for our employees, and are working tirelessly to keep the supply chain for critical personal protective equipment flowing in the face of national challenges.
- Reinforced workplace behaviors to ensure that contact amongst our employees and with our customers reflects the best guidance regarding healthy interactions, social distancing, and risk minimization. We have implemented measures at retail facilities and mail processing facilities to ensure appropriate social distancing, including through signage, floor tape, and “cough/sneeze” barriers. We have also changed our delivery procedures to ensure the appropriate social distancing between our letter carriers and customers, such as by eliminating the customer signature requirement for certain deliveries. We are strongly encouraging the use of facial coverings in those environments where social distancing is difficult to maintain, and will continue to evaluate our policies in that regard in light of the evolving circumstances.
- Updated our cleaning policies to ensure that all cleaning in our facilities occurs in a manner consistent with CDC guidance relating to this pandemic.
- Expanded the use of telework for those employees who are able to perform their jobs remotely.
- Issued and continue to issue a daily cadence of communications to employees to ensure they have the latest information and guidance.

Keeping our customers safe. The CDC, the World Health Organization, as well as the U.S. Surgeon General have all said that there is very low risk that this virus is being spread through mail, which should be a comfort to the public. We are also adapting procedures to ensure that we are able to continue to provide service effectively and safely. As noted above, we are reinforcing workplace behaviors to ensure that contact between our employees and customers reflect the best guidance regarding healthy interactions, social distancing, and risk minimization. We are additionally taking steps to ensure that customers can safely come to our retail facilities, such as by limiting the number of individuals who can be in a lobby at any one time, and employing floor tape to ensure that customers waiting in line can maintain the appropriate distance from one another, and from the retail counter.

Network integrity/continuity of operations. The Postal Service is undertaking all reasonable measures to minimize impacts to our customers. Following our normal protocol, we began daily operational assessments and responses as the situation in China was first identified, and are coordinating organization-wide efforts to respond to evolving conditions, and to anticipate and prepare for customer and community needs throughout the country. We are highly confident in our ability to process and deliver the nation's mail and packages throughout this emergency. We do not expect significant lasting disruption or degradation in the services we provide in the domestic market, though we do anticipate that adjusting local operations in certain areas may be necessary to account for absent employees and other local contingencies, and that such

adjustments will likely have temporary service impacts. If, for some reason, we need to curtail or adjust operations in a particular facility or area, activation of localized continuity of operations plans will be implemented to provide required support – similar to planning we implement in the wake of hurricanes, flooding, wildfires and other disruptive events. In addition, given the impact of the pandemic on the availability of transportation, we have also been required to temporarily adjust our service standards for certain of our package products, and we have had to curtail operations to some foreign destinations where transportation is unavailable.

All-government emergency response. The Postal Service is playing an integral role in national emergency response and preparedness. The Postal Service is participating in the National Response Coordination Center (NRCC) headed by the Federal Emergency Management Agency (FEMA), and will continue to assist FEMA and other agencies in the whole-of-government response to the pandemic. The Postal Service has unique capabilities in this regard, because of our role as the most frequent touchpoint between the American people and the federal government through our nationwide retail and delivery network. For instance, we have leveraged our network to communicate CDC guidance to the public, both by displaying CDC posters in our retail facilities, by providing key information through our digital message boards in our large Post Offices, and by working with the Administration to help design and deliver a postcard from the President to every American household that relayed the key CDC guidance and that informed the recipients about the CDC's COVID-19 specific website.

Further, we have also donated and delivered 500,000 N-95 masks (which are different from the masks that our employees utilize) that were in excess of our needs to the Department of Health and Human Services for the Strategic National Stockpile for distribution to hospitals and other critical uses. Additionally, we are prepared to assist as necessary with the distribution of other personal protective equipment as a part of the Administration's pandemic response. Finally, we will be delivering information concerning the stimulus checks that were provided as a part of the CARES Act, and we will also be delivering the physical checks to those who will not be receiving them through direct deposit.

Impact of the Pandemic on the Postal Service's Financial Condition

While the criticality of the services the Postal Service provides has never been more evident, and we are committed to continuing to fulfill our essential universal service mission, the COVID-19 pandemic has also had drastic impacts on our financial condition. We have experienced significant and sudden declines in mail volume and revenue due to the pandemic. The result is a liquidity crisis that requires immediate action by Congress to ensure our continued ability to operate in the near term.

Our projections of the impact of the COVID-19 pandemic are grounded in three knowns and a significant number of unknowns. The three knowns include what is currently happening with mail volumes, the impact of the last recession (i.e., the Great Recession) on the Postal Service's volume after GDP growth resumed, and what mailers are communicating to the Postal Service regarding their short-term plans.

The first known is what is currently happening with mail volumes. We are seeing a significant decline across mail products, with growth in packages. All percentages describe the change in mail volume from the same period last year. During the first week of the COVID-impact (March 16-March 21), the Postal Service saw total delivered mail volume (consisting of letters and flats) decline by 5.3%, and these declines have accelerated significantly since then, as follows:

- The week of March 22nd total delivered mail volume declined by 7.5%
- The week of March 29th total delivered mail volume declined by 24.2%

- The week of April 5th total delivered mail volume declined by 32.2%.
- **UPDATE FOR ADDITIONAL WEEKS?**

Delivered packages have shown a growth trajectory which has been offsetting a portion of the mail revenues lost in recent weeks. The first week of the COVID-impact (March 16-March 21), the Postal Service saw delivered package volume decline by 1.0%, but since then packages have grown significantly, as follows:

- The week of March 22nd total delivered package volume grew by 5.0%
- The week of March 29th total delivered package volume increased by 11.8%
- The week of April 5th total delivered package volume increased by 20.7%.
- **UPDATE FOR ADDITIONAL WEEKS?**

However, package growth cannot fully counteract the impact of the mail volume declines we are experiencing. In addition, although package growth has accelerated, our current projection is that this trend will not continue and we will likely have declines in packages in the upcoming months. The reasons for this belief are as follows:

- First, some of our customers are already expressing concerns about what they are reading concerning our financial condition and stability, and are pursuing alternatives to move and deliver their products.
- Second, the significant decline in GDP and the increase in the unemployment rate and the resulting decline in consumer income will likely lead to less consumer spending and a decline in the overall package market.
- Third, package growth will also be likely be impacted by supply chain disruptions across the system, as shortages due to production and transportation disruptions, not only in the U.S, but throughout the world, ripple through the economy, thus reducing package volume.
- Finally, much of the package growth seen in recent weeks was fueled by consumers stocking up on basic needed household items and stockpiling food. Much of this spending was funneled through e-commerce because consumers did not want to physically shop in stores. As consumers reach higher inventory levels of household staples, repeat purchasing will decline. Additionally, as society begins to open up, many (but not all) consumers will return to shopping in stores.

The known impacts experienced by the Postal Service during and after the last recession in 2008-2009 also influence our analysis. During the Great Recession, the Postal Service lost significant mail volume that never returned; total volumes experienced a steep downward step between 2007 and 2009 and thereafter returned to a more gradual decline that has continued ever since. Prior to the recession, the Postal Service had total mail volume of 212B pieces in FY2007. After the recession, the Postal Service had 168B pieces within the system in FY2011, a decline of 20.7% of total mail volume. Mail volume declined by 43.9B pieces and \$9.2B in total revenue were lost during this period, with \$6.8 billion of revenue lost in 2009 alone.

The final known factor is what mailers are telling us about their short-term plans. For the most part, major mailers are expecting a slow-down in mailing due to the economic impact across the economy. Advertisers have reduced spending, which is having a significant effect on marketing mail, with marketing mail volume down **42.5% in the most recent week**.

There are three significant components to the COVID-19 impact that are unknown and make the effects of the pandemic on mail volumes extremely difficult to quantify:

- **Depth** of the short-term impact during Calendar Q2 and Q3. Specifically, how bad will economic conditions get?
- **Duration** of the economic impact. This is directly tied to how long the economy remains shuttered and will have a significant influence on FY2021 volumes and revenues.
- **Volume levels** to which mail returns after the pandemic is concluded. This will influence our financial outlook in future years. It is possible that many companies never return to business and that some portion of our volume will be permanently lost to digital alternatives. (As noted previously, after the Great Recession, a large portion of mail volume never returned and we suffered a permanent decline from FY2007 levels of over 20%).

Each of these components will ultimately be influenced by the degree to which GDP declines in the coming months, the increase in the unemployment rate and the persistence of higher unemployment levels, declines in business and consumer confidence and investment spending (which often significantly lag the beginning of an “official” recovery), and the timing of the reopening of segments of the economy. None of these elements are known or can be predicted with any real degree of certainty at this time. The estimates for GDP decline are diverse, with a recent survey of economists by the Wall Street Journal reporting a median decline in GDP of 26.5% in Postal Quarter 3 (April – June, 2020).¹ In addition, the same survey of economists suggests a median projection for the unemployment rate by June 2020 of 13%. To put that GDP loss in perspective, the Great Recession caused a 3.3% decline in GDP in FY2009; the median decline in GDP projected for this quarter (April – September 2020) is 7 times worse than the worst quarter GDP experienced in the last recession.

These GDP and unemployment projections, when considered in light of the Postal Service’s financial results during the Great Recession, and the most recent volume decline information, have led us to the following initial estimates for the next 18 months, and for the longer-term:

- Short-term impact - Postal Q3 & Q4 (April – September)
 - We expect a significant short-term impact for the remainder of FY2020 due to the economic impact of COVID-19 which will cause projected declines of approximately 50% in volumes in Q3 and 57% in Q4, based on the speed at which volume has already declined, the GDP and unemployment projections estimated by economists and information communicated by mailers.
- Medium-term impact - Fiscal Year 2021 (October 2020 – September 2021)
 - As time moves forward and the economic lock-down begins to lessen, we project a gradual return of volumes beginning in Q1, FY 2021, to about 60% of the corresponding pre-COVID levels in Q1.
 - For the rest of FY 2021, we estimate that volumes will gradually return to about 74% of pre-COVID volume levels. As noted, current projections by economists suggest the economic impact of the pandemic will be worse than the Great Recession (when we permanently lost over 20% of volumes).
 - For the entirety of FY 2021, we estimate that total volume will be approximately 70% of pre-COVID volume levels.
- Long-term impact - Fiscal Year 2022 and beyond

¹ WSJ Survey of Economists - <https://www.wsj.com/graphics/econsurvey/>

- The longer-term projection suggests a return to a “new normal” of about 75% of pre-COVID volume levels, which is slightly worse than the last recession when we returned to a new normal of approximately 80% of pre-recession volumes. We then expect the long-term gradual secular volume declines that we were experiencing prior to the pandemic will resume for the next 10 years.

All of these volume assumptions are dependent on many facets of the COVID-19 disruption that are as yet unknown. For example, the longer the economic lock-down continues and more businesses are disrupted, the higher the likelihood that the level of volume return could be less than currently projected. Likewise, if the economic lock-down retreats in the coming weeks and businesses return to normal quickly, it is possible that the volume levels could be greater than these projections. Ultimately, given the significant uncertainty concerning these matters, our projections, while severe, should not be considered a worst case, because it is conceivable that the impact of COVID-19 on mail volumes could be even more dire than we are anticipating.

Based on these projections, it is expected that the Postal Service’s financial condition will worsen significantly compared to previous estimates. Our current projections, which are based upon the assumptions set forth herein, indicate that the Postal Service will be essentially illiquid in **September 2020** if additional cash is not obtained (either through the additional \$10B Treasury loan under the CARES Act, or alternative funding mechanisms). At that time, the Postal Service would have less than one payroll of cash remaining (payroll is ~\$2B bi-weekly), with a negative cash balance projected for October, when the \$1.5B workers’ compensation cash payment is due to the Department of Labor. While previous estimates put this date as early as June, this has been extended until September due to our ability to delay payment of employer Social Security taxes pursuant to the CARES Act (~\$1.1B thru September 2020), and our ability to obtain an additional \$3.4B from the Federal Financing Bank pursuant to a short-term note that was available to us under our existing statutory borrowing authority. A portion of this note (\$400M) must be repaid by September 2020, while the remaining \$3B must be repaid by April 2, 2021.

We are in discussions with the Treasury regarding the borrowing authority in the CARES Act, including the terms and conditions that would apply to such borrowing. We anticipate that this borrowing will be provided to us and that we will be required to borrow the full \$10 billion that is available, for the reasons noted herein.

However, even with this additional \$10B, the Postal Service will continue to face a liquidity crisis in the near-term. Over the next 18 months (to the end of the next fiscal year, September 2021), we project our net loss will increase by \$22.8B versus previous projections as a direct result of the impacts of the COVID-19 pandemic. Based upon our current projections, we will run out of cash in **April 2021** even if we secure the additional \$10B in borrowing under the CARES Act. Finally, over the longer term (10 years), we project our net loss will increase by \$54.3B versus previous projections, directly due to the COVID-19 pandemic.

The Postal Service will continue to take aggressive action to reduce expenses commensurate with these volume declines through overtime and overall workhour reductions, and curtailing of all travel and other discretionary spending. However, due to the impact of COVID-19 on employee availability, the fixity of our network, and the costs associated with the leave provisions of the Families First Coronavirus Response Act, our ability to significantly reduce expenses in the short-run is limited. For instance, any savings associated with reduced workhours are diminished because the new leave provisions of the Families First Coronavirus Relief Act have added additional costs to the Postal Service that are estimated to be

approximately \$600M-\$900M, depending on how many of our employees suffer a qualifying condition related to COVID-19, and on how many of our employees have children and dependents out of school/daycare. Unlike other entities, these expenses are not reimbursable to the Postal Service under the statute. In addition, it is expected that additional supplies and cleaning services required due to COVID-19 could cost the Postal Service over \$100M over the next 6 months.

Given the economic uncertainty underlying the pandemic, the Postal Service will continuously monitor and evaluate new information as it becomes available, including current mail volumes, announcements by governments concerning the opening of aspects of the economy, input from our mail and shipping customers, as well as economic projections for the broader economy. This new information will necessitate updates to our forecast and the Postal Service will incorporate on an ongoing basis any relevant new information as it becomes available to ensure we have the most updated assessment of the pandemic on our financial condition.

Legislative Relief Sought from Congress

There is an immediate need for Congress to give the Postal Service relief to address the direct impacts that the COVID-19 pandemic has had and will have on our financial condition, so that we can ensure our continued ability to operate in the near term. To address the impacts of the pandemic, we seek the following four items from Congress:

- \$25B in funds to cover the estimated COVID-19 losses over the next two years;
- \$25B in funds for modernization, to address the long-term undercapitalization of the Postal Service that has been exacerbated by the pandemic, which will help the Postal Service weather the longer term economic impacts to our business resulting from the pandemic and ensure that our critical infrastructure will be ready to support the Nation for current and future needs;
- Satisfaction of our \$14.4B in outstanding debt to the Federal Financing Bank
- Unrestricted borrowing authority up to \$25B, by consolidating our existing borrowing authority of \$15B under Title 39 of the United States Code, and \$10B under the CARES Act, based on streamlined procedures, and by eliminating the \$3B annual borrowing limitation.

As noted above, we estimate that the impact of COVID-19 will increase our net losses over the next 18 months by approximately \$23B. Our request for \$25B is intended to cover these losses, with a small cushion to account for contingencies, and hence to ensure our continued ability to operate in the near term. In this regard, our projections are not the worst case that could happen: in fact, we are not sure where the bottom is in terms of volume declines. As a result, it is important to build in some cushion to help ensure we remain liquid.

The longer-term impact of COVID-19 is estimated at almost \$55B. In particular, the severe impact that the pandemic will have on our cash flows over the longer-term, due to the permanent shift in volumes, will exacerbate the fact that we are severely undercapitalized, by requiring us to further defer critically important capital investments. Modernizing our operations and infrastructure, such as through the purchase of new delivery vehicles, automated mail processing equipment, and other capital investments, is essential to our ability to continue providing our vital services to the American people in a prompt, reliable, and efficient manner.

We therefore are requesting \$25B to address the impact that the pandemic will have on our ability to modernize our critical operations infrastructure. This will not only have a direct benefit to the American people in terms of ensuring our ability to provide our services, but will also act as a stimulus to the economy as our Nation recovers from the pandemic, as these funds will be used to purchase goods from suppliers in the private sector.

Finally, eliminating our current debt and creating a streamlined borrowing process moving forward will give the Postal Service immediate financial relief, as well as critical flexibility to ensure our continued ability to operate in the short-term. We propose that future borrowings from Treasury or the Federal Financing Bank occur through the framework of the note purchase agreement through which we borrowed funds from Federal Financing Bank for the past two decades. The note purchase agreement provided a streamlined mechanism for such borrowings, and gives the Postal Service needed certainty as to its ability to readily access cash. In addition, the agreement sets forth reasonable and appropriate terms and conditions that protects the interests of both the Postal Service and Treasury.

While this immediate action by Congress is critical to ensuring that we can withstand the direct impacts of the pandemic in the near term, it is important to note that it will not resolve the fundamental problems with the Postal Service's business model, or restore the Postal Service to longer-term financial stability. In fact, this short-term relief will only allow us to maintain operations **until 2023**, if provided in full.

The Postal Service operates under a statutory and regulatory structure that does not give us sufficient flexibility to reduce costs and increase revenue to meet the challenges of the secular decline in the use of the mail. The Board also believes that it is important that Congress eventually act to address these business model issues, to ensure that the Postal Service can be financially stable over the next 10 years, though to be clear this is not something we are seeking immediately. That said, within the next 12-18 months, the Board also recommends that Congress will need to enact financial reforms that give us greater pricing and product flexibility, as well as the ability to address our retiree health benefits program, which is not properly integrated with Medicare, and our unaffordable pension payment obligations. Absent such reforms, which we believe have broad support among postal stakeholders, it would be necessary for the Board to adopt more significant and controversial structural reforms to ensure our ability to survive over the next 10 years.

Conclusion

The lives of the American public have changed dramatically over the last several weeks, and it is during difficult times when the true value of the Postal Service to the nation is most evident. One of our strengths as an organization is our stabilizing role in a crisis: the American people take confidence from our regular, daily role in their community and in their lives. We are proud of the heroism shown by our employees during this pandemic, by their steadfast determination to continue working every day to provide our vital service to the American people. Our request to Congress for the short-term financial relief discussed in this letter is designed to ensure that we can continue to serve the essential needs of the American people as a part of the nation's critical infrastructure.

Please let us know if you have any questions regarding this letter, and we look forward to continuing to work with you and the Administration in addressing the Postal Service's financial challenges, and in preserving this great American institution.

DRAFT – BOG Chair Letter to Leadership re COVID-19 v10:

DATE

The Honorable _____

Dear Representative/Senator _____,

We are writing to share with you the actions the United States Postal Service is taking to meet the needs of the American public and to protect our employees and customers as our nation responds to the Coronavirus Disease 2019 (COVID-19) pandemic, and to also inform you of the serious impacts that the pandemic is having on the Postal Service's financial condition.

As you know, our Board is comprised of both Republicans and Democrats, and we take pride in operating in a very bipartisan manner. We thank President Trump for appointing, and the Senate for confirming, a Board whose members bring unique capabilities, diverse perspectives, and broad experiences, and who are all committed to putting personal politics aside to represent the public interest and to ensure that the Postal Service continues to provide its essential services for the American people, both today and in the years to come. Since taking office, the Board has worked extensively to craft a plan to address the Postal Service's financial condition, a process that has taken on new urgency considering the impact of the COVID-19 pandemic on the Postal Service. The \$10 billion of additional borrowing authority provided in the CARES Act is a good start, and we also thank the Administration and Congress for taking that important action. However, as detailed below, this additional authority is not sufficient to address the near-term liquidity crisis that the Postal Service is facing as a result of the pandemic, which requires Congress to take further immediate action to ensure our continued ability to provide our critical services. Below, we address our recommendations to Congress for both immediate and longer-term relief, which have been adopted unanimously by the Board.

The Board and Postal Service management team, along with the 630,000 employees of the Postal Service, remain highly focused on our mission of binding the nation together and providing the American people with prompt, reliable, and universal postal delivery services. Our mission has never been more important than now, as Americans shelter in place, work from home, or otherwise practice social distancing. We operate by statute as a "basic and fundamental service" provided by the Federal Government to the American people. In addition, the continued provision of postal services is designated as an essential function of the Government during times of emergency pursuant to the framework of the National Continuity Policy, and the postal sector is also designated by the Department of Homeland Security as part of the nation's critical infrastructure. Six days per week, and in some instances seven, the men and women of the Postal Service accept, process, transport, and deliver important mail and vital packages, including important governmental information and benefits such as Census materials, social security and stimulus checks, and materials advising the public about COVID-19; materials relating to elections, including absentee ballots and political mail; materials that are essential to the functioning of our economy, such as transactional mail; and packages containing sustaining necessities, including medicines and other goods purchased online.

We are proud of the essential services that the Postal Service provides to the American people, and of the fact that the Postal Service consistently receives the highest public approval ratings

of any entity of the Federal Government. Indeed a recent survey by the Pew Research Center released on April 9 shows that an overwhelming 91 percent of respondents have a favorable view of USPS, and this favorable opinion is shared nearly equally by Republicans and Democrats alike. This standing with the American people is based in no small part on the Postal Service's nonpartisan, nonpolitical and equalitarian nature. In that regard, you can be assured that the Board fully recognizes that it is vital to the achievement of the Postal Service's mission that there is no actual or appearance of political bias or partiality on the part of the Postal Service. As such, we will be vigilant to ensure that the Postal Service does not endorse the political activities of any group, and we will continue to take appropriate legal and other actions to ensure that no group uses our trademarks or other intellectual property in connection with their political activities to suggest or infer that the Postal Service supports their political viewpoints. The Postal Service will remain politically neutral, nonpartisan, unbiased, and impartial, and we will not allow this great American institution to be misused as a part of the partisan political fray.

Postal Service Response to the Pandemic

The Board has also been holding meetings and briefings at regular intervals to receive the latest information and provide strategic direction to management on responding to the pandemic. We have established a dedicated COVID-19 Command Response leadership team to direct employee, operational, business, and customer continuity efforts during this extraordinary time. We are fully committed to being a source of consistency and reliability for American households and businesses throughout this national emergency, and to ensuring that the public can confidently depend upon our mailing and shipping services, both today and in the future. As we provide our vital service, we have been adjusting our policies and operating procedures in a manner consistent with the advice of the Department of Health and Human Services (HHS), the Centers for Disease Control (CDC), and other public health officials.

In this regard, the specific measures we have implemented in response to the COVID-19 outbreak include the following:

Keeping our employees safe. The essential services we provide are only possible due to the collective and individual efforts of the dedicated public servants who work for the Postal Service. We are doing everything that we can to protect the health and safety of our employees while they are performing their jobs, in a manner consistent with the advice of medical and public health professionals. To achieve this goal, the COVID-19 Command Response team at Headquarters is working closely with HHS, CDC, and other public health officials to receive their latest guidance on appropriate workplace practices. We are adjusting our policies accordingly, and are continually sharing the latest information throughout our organization. Specific actions we have taken include the following:

- Updated our leave policies to allow liberal use of leave, and to therefore give our employees the ability to stay home whenever they feel sick, must provide dependent care, or wish to abide by State or local shelter-in-place requirements. We have been actively encouraging any employee who feels sick to stay home. To facilitate their ability to do so, we entered into MOUs even in advance of the Families First Coronavirus Response Act with our unions and management associations to provide 80 hours of paid leave to employees, including non-career employees, for issues related to COVID-19. We expanded the definition of Sick Leave for Dependent Care for all employees to deal with the cascading closures of primary and secondary schools across the country. While we have taken these steps on our own initiative, we have also ensured that employees

will also receive the emergency leave authorized by the Families First Coronavirus Response Act, in addition to what they otherwise have accrued.

- Worked to overcome the challenges in the supply chain to ensure that our employees have ready access to hand sanitizer, and that they receive surgical masks and gloves upon request. This has been a matter of the highest priority for the Postal Service throughout the pandemic. We have shipped over 18 million masks throughout the country to ensure that they are available for our employees, and are working tirelessly to keep the supply chain for critical personal protective equipment flowing in the face of national challenges.
- Reinforced workplace behaviors to ensure that contact amongst our employees and with our customers reflects the best guidance regarding healthy interactions, social distancing, and risk minimization. We have implemented measures at retail facilities and mail processing facilities to ensure appropriate social distancing, including through signage, floor tape, and “cough/sneeze” barriers. We have also changed our delivery procedures to ensure the appropriate social distancing between our letter carriers and customers, such as by eliminating the customer signature requirement for certain deliveries. We are strongly encouraging the use of facial coverings in those environments where social distancing is difficult to maintain, and will continue to evaluate our policies in that regard in light of the evolving circumstances.
- Updated our cleaning policies to ensure that all cleaning in our facilities occurs in a manner consistent with CDC guidance relating to this pandemic.
- Expanded the use of telework for those employees who are able to perform their jobs remotely.
- Issued and continue to issue a daily cadence of communications to employees to ensure they have the latest information and guidance.

Keeping our customers safe. The CDC, the World Health Organization, as well as the U.S. Surgeon General have all said that there is very low risk that this virus is being spread through mail, which should be a comfort to the public. We are also adapting procedures to ensure that we are able to continue to provide service effectively and safely. As noted above, we are reinforcing workplace behaviors to ensure that contact between our employees and customers reflect the best guidance regarding healthy interactions, social distancing, and risk minimization. We are additionally taking steps to ensure that customers can safely come to our retail facilities, such as by limiting the number of individuals who can be in a lobby at any one time, and employing floor tape to ensure that customers waiting in line can maintain the appropriate distance from one another, and from the retail counter.

Network integrity/continuity of operations. The Postal Service is undertaking all reasonable measures to minimize impacts to our customers. Following our normal protocol, we began daily operational assessments and responses as the situation in China was first identified, and are coordinating organization-wide efforts to respond to evolving conditions, and to anticipate and prepare for customer and community needs throughout the country. We are highly confident in our ability to process and deliver the nation's mail and packages throughout this emergency. We do not expect significant lasting disruption or degradation in the services we provide in the domestic market, though we do anticipate that adjusting local operations in certain areas may be necessary to account for absent employees and other local contingencies, and that such

adjustments will likely have temporary service impacts. If, for some reason, we need to curtail or adjust operations in a particular facility or area, activation of localized continuity of operations plans will be implemented to provide required support – similar to planning we implement in the wake of hurricanes, flooding, wildfires and other disruptive events. In addition, given the impact of the pandemic on the availability of transportation, we have also been required to temporarily adjust our service standards for certain of our package products, and we have had to curtail operations to some foreign destinations where transportation is unavailable.

All-government emergency response. The Postal Service is playing an integral role in national emergency response and preparedness. The Postal Service is participating in the National Response Coordination Center (NRCC) headed by the Federal Emergency Management Agency (FEMA), and will continue to assist FEMA and other agencies in the whole-of-government response to the pandemic. The Postal Service has unique capabilities in this regard, because of our role as the most frequent touchpoint between the American people and the federal government through our nationwide retail and delivery network. For instance, we have leveraged our network to communicate CDC guidance to the public, both by displaying CDC posters in our retail facilities, by providing key information through our digital message boards in our large Post Offices, and by working with the Administration to help design and deliver a postcard from the President to every American household that relayed the key CDC guidance and that informed the recipients about the CDC's COVID-19 specific website.

Further, we have also donated and delivered 500,000 N-95 masks (which are different from the masks that our employees utilize) that were in excess of our needs to the Department of Health and Human Services for the Strategic National Stockpile for distribution to hospitals and other critical uses. Additionally, we are prepared to assist as necessary with the distribution of other personal protective equipment as a part of the Administration's pandemic response. Finally, we will be delivering information concerning the stimulus checks that were provided as a part of the CARES Act, and we will also be delivering the physical checks to those who will not be receiving them through direct deposit.

Impact of the Pandemic on the Postal Service's Financial Condition

While the criticality of the services the Postal Service provides has never been more evident, and we are committed to continuing to fulfill our essential universal service mission, the COVID-19 pandemic has also had drastic impacts on our financial condition. We have experienced significant and sudden declines in mail volume and revenue due to the pandemic. The result is a liquidity crisis that requires immediate action by Congress to ensure our continued ability to operate in the near term.

Our projections of the impact of the COVID-19 pandemic are grounded in three knowns and a significant number of unknowns. The three knowns include what is currently happening with mail volumes, the impact of the last recession (i.e., the Great Recession) on the Postal Service's volume after GDP growth resumed, and what mailers are communicating to the Postal Service regarding their short-term plans.

The first known is what is currently happening with mail volumes. We are seeing a significant decline across mail products, with growth in packages. All percentages describe the change in mail volume from the same period last year. During the first week of the COVID-impact (March 16-March 21), the Postal Service saw total delivered mail volume (consisting of letters and flats) decline by 5.3%, and these declines have accelerated significantly since then, as follows:

- The week of March 22nd total delivered mail volume declined by 7.5%
- The week of March 29th total delivered mail volume declined by 24.2%

- The week of April 5th total delivered mail volume declined by 32.2%.
- **UPDATE FOR ADDITIONAL WEEKS?**

Delivered packages have shown a growth trajectory which has been offsetting a portion of the mail revenues lost in recent weeks. The first week of the COVID-impact (March 16-March 21), the Postal Service saw delivered package volume decline by 1.0%, but since then packages have grown significantly, as follows:

- The week of March 22nd total delivered package volume grew by 5.0%
- The week of March 29th total delivered package volume increased by 11.8%
- The week of April 5th total delivered package volume increased by 20.7%.
- **UPDATE FOR ADDITIONAL WEEKS?**

However, package growth cannot fully counteract the impact of the mail volume declines we are experiencing. In addition, although package growth has accelerated, our current projection is that this trend will not continue and we will likely have declines in packages in the upcoming months. The reasons for this belief are as follows:

- First, some of our customers are already expressing concerns about what they are reading concerning our financial condition and stability, and are pursuing alternatives to move and deliver their products.
- Second, the significant decline in GDP and the increase in the unemployment rate and the resulting decline in consumer income will likely lead to less consumer spending and a decline in the overall package market.
- Third, package growth will also be likely be impacted by supply chain disruptions across the system, as shortages due to production and transportation disruptions, not only in the U.S, but throughout the world, ripple through the economy, thus reducing package volume.
- Finally, much of the package growth seen in recent weeks was fueled by consumers stocking up on basic needed household items and stockpiling food. Much of this spending was funneled through e-commerce because consumers did not want to physically shop in stores. As consumers reach higher inventory levels of household staples, repeat purchasing will decline. Additionally, as society begins to open up, many (but not all) consumers will return to shopping in stores.

The known impacts experienced by the Postal Service during and after the last recession in 2008-2009 also influence our analysis. During the Great Recession, the Postal Service lost significant mail volume that never returned; total volumes experienced a steep downward step between 2007 and 2009 and thereafter returned to a more gradual decline that has continued ever since. Prior to the recession, the Postal Service had total mail volume of 212B pieces in FY2007. After the recession, the Postal Service had 168B pieces within the system in FY2011, a decline of 20.7% of total mail volume. Mail volume declined by 43.9B pieces and \$9.2B in total revenue were lost during this period, with \$6.8 billion of revenue lost in 2009 alone.

The final known factor is what mailers are telling us about their short-term plans. For the most part, major mailers are expecting a slow-down in mailing due to the economic impact across the economy. Advertisers have reduced spending, which is having a significant effect on marketing mail, with marketing mail volume down **42.5% in the most recent week**.

There are three significant components to the COVID-19 impact that are unknown and make the effects of the pandemic on mail volumes extremely difficult to quantify:

- **Depth** of the short-term impact during Calendar Q2 and Q3. Specifically, how bad will economic conditions get?
- **Duration** of the economic impact. This is directly tied to how long the economy remains shuttered and will have a significant influence on FY2021 volumes and revenues.
- **Volume levels** to which mail returns after the pandemic is concluded. This will influence our financial outlook in future years. It is possible that many companies never return to business and that some portion of our volume will be permanently lost to digital alternatives. (As noted previously, after the Great Recession, a large portion of mail volume never returned and we suffered a permanent decline from FY2007 levels of over 20%).

Each of these components will ultimately be influenced by the degree to which GDP declines in the coming months, the increase in the unemployment rate and the persistence of higher unemployment levels, declines in business and consumer confidence and investment spending (which often significantly lag the beginning of an “official” recovery), and the timing of the reopening of segments of the economy. None of these elements are known or can be predicted with any real degree of certainty at this time. The estimates for GDP decline are diverse, with a recent survey of economists by the Wall Street Journal reporting a median decline in GDP of 26.5% in Postal Quarter 3 (April – June, 2020).¹ In addition, the same survey of economists suggests a median projection for the unemployment rate by June 2020 of 13%. To put that GDP loss in perspective, the Great Recession caused a 3.3% decline in GDP in FY2009; the median decline in GDP projected for this quarter (April – September 2020) is 7 times worse than the worst quarter GDP experienced in the last recession.

These GDP and unemployment projections, when considered in light of the Postal Service’s financial results during the Great Recession, and the most recent volume decline information, have led us to the following initial estimates for the next 18 months, and for the longer-term:

- Short-term impact - Postal Q3 & Q4 (April – September)
 - We expect a significant short-term impact for the remainder of FY2020 due to the economic impact of COVID-19 which will cause projected declines of approximately 50% in volumes in Q3 and 57% in Q4, based on the speed at which volume has already declined, the GDP and unemployment projections estimated by economists and information communicated by mailers.
- Medium-term impact - Fiscal Year 2021 (October 2020 – September 2021)
 - As time moves forward and the economic lock-down begins to lessen, we project a gradual return of volumes beginning in Q1, FY 2021, to about 60% of the corresponding pre-COVID levels in Q1.
 - For the rest of FY 2021, we estimate that volumes will gradually return to about 74% of pre-COVID volume levels. As noted, current projections by economists suggest the economic impact of the pandemic will be worse than the Great Recession (when we permanently lost over 20% of volumes).
 - For the entirety of FY 2021, we estimate that total volume will be approximately 70% of pre-COVID volume levels.
- Long-term impact - Fiscal Year 2022 and beyond

¹ WSJ Survey of Economists - <https://www.wsj.com/graphics/econsurvey/>

- The longer-term projection suggests a return to a “new normal” of about 75% of pre-COVID volume levels, which is slightly worse than the last recession when we returned to a new normal of approximately 80% of pre-recession volumes. We then expect the long-term gradual secular volume declines that we were experiencing prior to the pandemic will resume for the next 10 years.

All of these volume assumptions are dependent on many facets of the COVID-19 disruption that are as yet unknown. For example, the longer the economic lock-down continues and more businesses are disrupted, the higher the likelihood that the level of volume return could be less than currently projected. Likewise, if the economic lock-down retreats in the coming weeks and businesses return to normal quickly, it is possible that the volume levels could be greater than these projections. Ultimately, given the significant uncertainty concerning these matters, our projections, while severe, should not be considered a worst case, because it is conceivable that the impact of COVID-19 on mail volumes could be even more dire than we are anticipating.

Based on these projections, it is expected that the Postal Service’s financial condition will worsen significantly compared to previous estimates. Our current projections, which are based upon the assumptions set forth herein, indicate that the Postal Service will be essentially illiquid in **September 2020** if additional cash is not obtained (either through the additional \$10B Treasury loan under the CARES Act, or alternative funding mechanisms). At that time, the Postal Service would have less than one payroll of cash remaining (payroll is ~\$2B bi-weekly), with a negative cash balance projected for October, when the \$1.5B workers’ compensation cash payment is due to the Department of Labor. While previous estimates put this date as early as June, this has been extended until September due to our ability to delay payment of employer Social Security taxes pursuant to the CARES Act (~\$1.1B thru September 2020), and our ability to obtain an additional \$3.4B from the Federal Financing Bank pursuant to a short-term note that was available to us under our existing statutory borrowing authority. A portion of this note (\$400M) must be repaid by September 2020, while the remaining \$3B must be repaid by April 2, 2021.

We are in discussions with the Treasury regarding the borrowing authority in the CARES Act, including the terms and conditions that would apply to such borrowing. We anticipate that this borrowing will be provided to us and that we will be required to borrow the full \$10 billion that is available, for the reasons noted herein.

However, even with this additional \$10B, the Postal Service will continue to face a liquidity crisis in the near-term. Over the next 18 months (to the end of the next fiscal year, September 2021), we project our net loss will increase by \$22.8B versus previous projections as a direct result of the impacts of the COVID-19 pandemic. Based upon our current projections, we will run out of cash in **April 2021** even if we secure the additional \$10B in borrowing under the CARES Act. Finally, over the longer term (10 years), we project our net loss will increase by \$54.3B versus previous projections, directly due to the COVID-19 pandemic.

The Postal Service will continue to take aggressive action to reduce expenses commensurate with these volume declines through overtime and overall workhour reductions, and curtailing of all travel and other discretionary spending. However, due to the impact of COVID-19 on employee availability, the fixity of our network, and the costs associated with the leave provisions of the Families First Coronavirus Response Act, our ability to significantly reduce expenses in the short-run is limited. For instance, any savings associated with reduced workhours are diminished because the new leave provisions of the Families First Coronavirus Relief Act have added additional costs to the Postal Service that are estimated to be

approximately \$600M-\$900M, depending on how many of our employees suffer a qualifying condition related to COVID-19, and on how many of our employees have children and dependents out of school/daycare. Unlike other entities, these expenses are not reimbursable to the Postal Service under the statute. In addition, it is expected that additional supplies and cleaning services required due to COVID-19 could cost the Postal Service over \$100M over the next 6 months.

Given the economic uncertainty underlying the pandemic, the Postal Service will continuously monitor and evaluate new information as it becomes available, including current mail volumes, announcements by governments concerning the opening of aspects of the economy, input from our mail and shipping customers, as well as economic projections for the broader economy. This new information will necessitate updates to our forecast and the Postal Service will incorporate on an ongoing basis any relevant new information as it becomes available to ensure we have the most updated assessment of the pandemic on our financial condition.

Legislative Relief Sought from Congress

There is an immediate need for Congress to give the Postal Service relief to address the direct impacts that the COVID-19 pandemic has had and will have on our financial condition, so that we can ensure our continued ability to operate in the near term. To address the impacts of the pandemic, we seek the following four items from Congress:

- \$25B in funds to cover the estimated COVID-19 losses over the next two years;
- \$25B in funds for modernization, to address the long-term undercapitalization of the Postal Service that has been exacerbated by the pandemic, which will help the Postal Service weather the longer term economic impacts to our business resulting from the pandemic and ensure that our critical infrastructure will be ready to support the Nation for current and future needs;
- Satisfaction of our \$14.4B in outstanding debt to the Federal Financing Bank
- Unrestricted borrowing authority up to \$25B, by consolidating our existing borrowing authority of \$15B under Title 39 of the United States Code, and \$10B under the CARES Act, based on streamlined procedures, and by eliminating the \$3B annual borrowing limitation.

As noted above, we estimate that the impact of COVID-19 will increase our net losses over the next 18 months by approximately \$23B. Our request for \$25B is intended to cover these losses, with a small cushion to account for contingencies, and hence to ensure our continued ability to operate in the near term. In this regard, our projections are not the worst case that could happen: in fact, we are not sure where the bottom is in terms of volume declines. As a result, it is important to build in some cushion to help ensure we remain liquid.

The longer-term impact of COVID-19 is estimated at almost \$55B. In particular, the severe impact that the pandemic will have on our cash flows over the longer-term, due to the permanent shift in volumes, will exacerbate the fact that we are severely undercapitalized, by requiring us to further defer critically important capital investments. Modernizing our operations and infrastructure, such as through the purchase of new delivery vehicles, automated mail processing equipment, and other capital investments, is essential to our ability to continue providing our vital services to the American people in a prompt, reliable, and efficient manner.

We therefore are requesting \$25B to address the impact that the pandemic will have on our ability to modernize our critical operations infrastructure. This will not only have a direct benefit to the American people in terms of ensuring our ability to provide our services, but will also act as a stimulus to the economy as our Nation recovers from the pandemic, as these funds will be used to purchase goods from suppliers in the private sector.

Finally, eliminating our current debt and creating a streamlined borrowing process moving forward will give the Postal Service immediate financial relief, as well as critical flexibility to ensure our continued ability to operate in the short-term. We propose that future borrowings from Treasury or the Federal Financing Bank occur through the framework of the note purchase agreement through which we borrowed funds from Federal Financing Bank for the past two decades. The note purchase agreement provided a streamlined mechanism for such borrowings, and gives the Postal Service needed certainty as to its ability to readily access cash. In addition, the agreement sets forth reasonable and appropriate terms and conditions that protects the interests of both the Postal Service and Treasury.

While this immediate action by Congress is critical to ensuring that we can withstand the direct impacts of the pandemic in the near term, it is important to note that it will not resolve the fundamental problems with the Postal Service's business model, or restore the Postal Service to longer-term financial stability. In fact, this short-term relief will only allow us to maintain operations **until 2023**, if provided in full.

The Postal Service operates under a statutory and regulatory structure that does not give us sufficient flexibility to reduce costs and increase revenue to meet the challenges of the secular decline in the use of the mail. The Board also believes that it is important that Congress eventually act to address these business model issues, to ensure that the Postal Service can be financially stable over the next 10 years, though to be clear this is not something we are seeking immediately. That said, within the next 12-18 months, the Board also recommends that Congress will need to enact financial reforms that give us greater pricing and product flexibility, as well as the ability to address our retiree health benefits program, which is not properly integrated with Medicare, and our unaffordable pension payment obligations. Absent such reforms, which we believe have broad support among postal stakeholders, it would be necessary for the Board to adopt more significant and controversial structural reforms to ensure our ability to survive over the next 10 years.

Conclusion

The lives of the American public have changed dramatically over the last several weeks, and it is during difficult times when the true value of the Postal Service to the nation is most evident. One of our strengths as an organization is our stabilizing role in a crisis: the American people take confidence from our regular, daily role in their community and in their lives. We are proud of the heroism shown by our employees during this pandemic, by their steadfast determination to continue working every day to provide our vital service to the American people. Our request to Congress for the short-term financial relief discussed in this letter is designed to ensure that we can continue to serve the essential needs of the American people as a part of the nation's critical infrastructure.

Please let us know if you have any questions regarding this letter, and we look forward to continuing to work with you and the Administration in addressing the Postal Service's financial challenges, and in preserving this great American institution.

Dear Representative/Senator _____,

We are writing to share with you the actions the United States Postal Service is taking to meet the needs of the American public and to protect our employees and customers as our nation responds to the Coronavirus Disease 2019 (COVID-19) pandemic, and to also inform you of the serious impacts that the pandemic is having on the Postal Service's financial condition.

As you know, our Board is comprised of both Republicans and Democrats, and we take pride in operating in a very bipartisan manner. We thank President Trump for appointing, and the Senate for confirming, a Board whose members bring unique capabilities, diverse perspectives, and broad experiences, and who are all committed to putting personal politics aside to represent the public interest and to ensure that the Postal Service continues to provide its essential services for the American people, both today and in the years to come. Since taking office, the Board has worked extensively to craft a plan to address the Postal Service's financial condition, a process that has taken on new urgency considering the impact of the COVID-19 pandemic on the Postal Service. The \$10 billion of additional borrowing authority provided in the CARES Act is a good start, and we also thank the Administration and Congress for taking that important action. However, as detailed below, this additional authority is not sufficient to address the near-term liquidity crisis that the Postal Service is facing as a result of the pandemic, which requires Congress to take further immediate action to ensure our continued ability to provide our critical services. Below, we address our recommendations to Congress for both immediate and longer-term relief, which have been adopted unanimously by the Board.

The Board and Postal Service management team, along with the 630,000 employees of the Postal Service, remain highly focused on our mission of binding the nation together and providing the American people with prompt, reliable, and universal postal delivery services. Our mission has never been more important than now, as Americans shelter in place, work from home, or otherwise practice social distancing. We operate by statute as a "basic and fundamental service" provided by the Federal Government to the American people. In addition, the continued provision of postal services is designated as an essential function of the Government during times of emergency pursuant to the framework of the National Continuity Policy, and the postal sector is also designated by the Department of Homeland Security as part of the nation's critical infrastructure. Six days per week, and in some instances seven, the men and women of the Postal Service accept, process, transport, and deliver important mail and vital packages, including important governmental information and benefits such as Census materials, social security and stimulus checks, and materials advising the public about COVID-19; materials relating to elections, including absentee ballots and political mail; materials that are essential to the functioning of our economy, such as transactional mail; and packages containing sustaining necessities, including medicines and other goods purchased online.

We are proud of the essential services that the Postal Service provides to the American people, and of the fact that the Postal Service consistently receives the highest public approval ratings

of any entity of the Federal Government. Indeed a recent survey by the Pew Research Center released on April 9 shows that an overwhelming 91 percent of respondents have a favorable view of USPS, and this favorable opinion is shared nearly equally by Republicans and Democrats alike. This standing with the American people is based in no small part on the Postal Service's nonpartisan, nonpolitical and equalitarian nature. In that regard, you can be assured that the Board fully recognizes that it is vital to the achievement of the Postal Service's mission that there is no actual or appearance of political bias or partiality on the part of the Postal Service. As such, we will be vigilant to ensure that the Postal Service does not endorse the political activities of any group, and we will continue to take appropriate legal and other actions to ensure that no group uses our trademarks or other intellectual property in connection with their political activities to suggest or infer that the Postal Service supports their political viewpoints. The Postal Service will remain politically neutral, nonpartisan, unbiased, and impartial, and we will not allow this great American institution to be misused as a part of the partisan political fray.

Postal Service Response to the Pandemic

The Board has also been holding meetings and briefings at regular intervals to receive the latest information and provide strategic direction to management on responding to the pandemic. We have established a dedicated COVID-19 Command Response leadership team to direct employee, operational, business, and customer continuity efforts during this extraordinary time. We are fully committed to being a source of consistency and reliability for American households and businesses throughout this national emergency, and to ensuring that the public can confidently depend upon our mailing and shipping services, both today and in the future. As we provide our vital service, we have been adjusting our policies and operating procedures in a manner consistent with the advice of the Department of Health and Human Services (HHS), the Centers for Disease Control (CDC), and other public health officials.

In this regard, the specific measures we have implemented in response to the COVID-19 outbreak include the following:

Keeping our employees safe. The essential services we provide are only possible due to the collective and individual efforts of the dedicated public servants who work for the Postal Service. We are doing everything that we can to protect the health and safety of our employees while they are performing their jobs, in a manner consistent with the advice of medical and public health professionals. To achieve this goal, the COVID-19 Command Response team at Headquarters is working closely with HHS, CDC, and other public health officials to receive their latest guidance on appropriate workplace practices. We are adjusting our policies accordingly, and are continually sharing the latest information throughout our organization. Specific actions we have taken include the following:

- Updated our leave policies to allow liberal use of leave, and to therefore give our employees the ability to stay home whenever they feel sick, must provide dependent care, or wish to abide by State or local shelter-in-place requirements. We have been actively encouraging any employee who feels sick to stay home. To facilitate their ability to do so, we entered into MOUs even in advance of the Families First Coronavirus Response Act with our unions and management associations to provide 80 hours of paid leave to employees, including non-career employees, for issues related to COVID-19. We expanded the definition of Sick Leave for Dependent Care for all employees to deal with the cascading closures of primary and secondary schools across the country. While we have taken these steps on our own initiative, we have also ensured that employees

will also receive the emergency leave authorized by the Families First Coronavirus Response Act, in addition to what they otherwise have accrued.

- Worked to overcome the challenges in the supply chain to ensure that our employees have ready access to hand sanitizer, and that they receive surgical masks and gloves upon request. This has been a matter of the highest priority for the Postal Service throughout the pandemic. We have shipped over 18 million masks throughout the country to ensure that they are available for our employees, and are working tirelessly to keep the supply chain for critical personal protective equipment flowing in the face of national challenges.
- Reinforced workplace behaviors to ensure that contact amongst our employees and with our customers reflects the best guidance regarding healthy interactions, social distancing, and risk minimization. We have implemented measures at retail facilities and mail processing facilities to ensure appropriate social distancing, including through signage, floor tape, and “cough/sneeze” barriers. We have also changed our delivery procedures to ensure the appropriate social distancing between our letter carriers and customers, such as by eliminating the customer signature requirement for certain deliveries. We are strongly encouraging the use of facial coverings in those environments where social distancing is difficult to maintain, and will continue to evaluate our policies in that regard in light of the evolving circumstances.
- Updated our cleaning policies to ensure that all cleaning in our facilities occurs in a manner consistent with CDC guidance relating to this pandemic.
- Expanded the use of telework for those employees who are able to perform their jobs remotely.
- Issued and continue to issue a daily cadence of communications to employees to ensure they have the latest information and guidance.

Keeping our customers safe. The CDC, the World Health Organization, as well as the U.S. Surgeon General have all said that there is very low risk that this virus is being spread through mail, which should be a comfort to the public. We are also adapting procedures to ensure that we are able to continue to provide service effectively and safely. As noted above, we are reinforcing workplace behaviors to ensure that contact between our employees and customers reflect the best guidance regarding healthy interactions, social distancing, and risk minimization. We are additionally taking steps to ensure that customers can safely come to our retail facilities, such as by limiting the number of individuals who can be in a lobby at any one time, and employing floor tape to ensure that customers waiting in line can maintain the appropriate distance from one another, and from the retail counter.

Network integrity/continuity of operations. The Postal Service is undertaking all reasonable measures to minimize impacts to our customers. Following our normal protocol, we began daily operational assessments and responses as the situation in China was first identified, and are coordinating organization-wide efforts to respond to evolving conditions, and to anticipate and prepare for customer and community needs throughout the country. We are highly confident in our ability to process and deliver the nation's mail and packages throughout this emergency. We do not expect significant lasting disruption or degradation in the services we provide in the domestic market, though we do anticipate that adjusting local operations in certain areas may be necessary to account for absent employees and other local contingencies, and that such

adjustments will likely have temporary service impacts. If, for some reason, we need to curtail or adjust operations in a particular facility or area, activation of localized continuity of operations plans will be implemented to provide required support – similar to planning we implement in the wake of hurricanes, flooding, wildfires and other disruptive events. In addition, given the impact of the pandemic on the availability of transportation, we have also been required to temporarily adjust our service standards for certain of our package products, and we have had to curtail operations to some foreign destinations where transportation is unavailable.

All-government emergency response. The Postal Service is playing an integral role in national emergency response and preparedness. The Postal Service is participating in the National Response Coordination Center (NRCC) headed by the Federal Emergency Management Agency (FEMA), and will continue to assist FEMA and other agencies in the whole-of-government response to the pandemic. The Postal Service has unique capabilities in this regard, because of our role as the most frequent touchpoint between the American people and the federal government through our nationwide retail and delivery network. For instance, we have leveraged our network to communicate CDC guidance to the public, both by displaying CDC posters in our retail facilities, by providing key information through our digital message boards in our large Post Offices, and by working with the Administration to help design and deliver a postcard from the President to every American household that relayed the key CDC guidance and that informed the recipients about the CDC's COVID-19 specific website.
