Re: Freedom of Information Act Request No. 2020USMS35471/2021-USMS-362410
Subject: Directives regarding Use of Force, Rules of Engagement, and Deployment

Dear Requester;

The United States Marshals Service (USMS) is responding to your Freedom of Information Act (FOIA) request for the following records from June 6, 2020 until the date the search was conducted:

1. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding your agency's use of force guidelines, policies, doctrines, or protocols (including, but not limited to, all records specifying circumstances and limitations for the use of force).
2. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding your agency's rules of engagement (including, but not limited to, all records specifying intervention criteria).
3. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding the deployment of your agency's officers, agents, or members (including, but not limited to, all records specifying logistical deployment information).
4. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding the visual or verbal presentation of law enforcement credentials identifying your agency's officers, agents, or members deployed in response to protests or purported civil unrest (including, but not limited to, all records concerning verbal self-identification to members of the public or press, badge display

standards or requirements, or name display standards or requirements).

Upon further review, it appears that this request, initially submitted to USMS on July 17, 2020 referencing MULTI-20-1769-1776, is a near duplicate of USMS case 2020USMS35413, which was submitted to USMS on June 25, 2020 referencing MULTI-20-1619-1629¹. The only difference between the two requests is the search date parameters for the FOIA requests. 2020USMS35471 encompasses June 6, 2020 until the date the search was completed and USMS emailed its final response to 2020USMS35413 on May 12, 2021, completing that request.

Pursuant to your request, the USMS completed a search of records in the Office of the Director on August 4, 2020, the Investigative Operations Division on November 24, 2020, Tactical Operations Division on August 25, 2020, the Training Division on August 7, 2020, and the Judicial Security Division on August 14, 2020 and located 192 pages of responsive documentation. These pages are released to you with portions withheld pursuant to Exemptions (b)(5), (b)(6), (b)(7)(c), (b)(7)(e), and (b)(7)(f) of the FOIA, 5 U.S.C. § 552(b).

Please note that in this release you will see portions of email records labeled “duplicate of previous email.” This notation was made as this release involves large amounts of duplicate email chains. In order to expedite the release of documents to you, the USMS FOIA Office marked certain emails as “Duplicate of Previous Email”; these emails have been fully processed in the preceding pages and can be located based on the subject line of each email and timestamp.

FOIA Exemption (b)(5) protects "inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency." 5 U.S.C. § 552(b)(5) (2006 & Supp. IV 2010). The three primary, most frequently invoked privileges that are incorporated into Exemption 5 are the deliberative process privilege, the attorney work-product privilege, and the attorney-client privilege. The deliberative process privilege protects the integrity of decision-making practices within an agency by exempting from mandatory disclosure opinions, conclusions, and recommendations included within non-final inter-agency or intra-agency memoranda or letters. Public release of internal, pre-decisional communications could discourage the expression of candid opinions among agency personnel. Employee trepidation regarding public release of internal agency communications and draft documents could inhibit the free and frank exchange of information among agency personnel. The purpose of the deliberative process privilege is to prevent injury to the quality of agency decisions. NLRB v. Sears, Roebuck & Co., 421 U.S. 132, 151 (1975).

¹The June 25, 2020 request sought:

1. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding your agency's use of force guidelines, policies, doctrines, or protocols (including, but not limited to, all records specifying circumstances and limitations for the use of force).
2. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding your agency's rules of engagement (including, but not limited to, all records specifying intervention criteria).
3. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding the deployment of your agency's officers, agents, or members (including, but not limited to, all records specifying logistical deployment information).
4. All records reflecting any order, directive, or guidance (including informal direction distributed to your agency's officers, agents, or members) regarding the visual or verbal presentation of law enforcement credentials identifying your agency's officers, agents, or members deployed in response to protests or purported civil unrest (including, but not limited to, all records concerning verbal self-identification to members of the public or press, badge display standards or requirements, or name display standards or requirements).

Please provide all responsive records drafted, revised, finalized, or distributed from May 25, 2020 through June 5, 2020.

FOIA Exemption (b)(6) allows an agency to withhold personnel, medical, and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Records that apply to or describe a particular individual, including investigative records, qualify as “personnel,” “medical,” or “similar files” under Exemption 6. FOIA Exemption (b)(7)(C) protects records or information compiled for law enforcement purposes to the extent that the production of such records or information could reasonably be expected to constitute an unwarranted invasion of personal privacy. A discretionary release of such records is not appropriate. See United States Department of Justice (DOJ) v. Reporters Committee for Freedom of the Press, 489 U.S. 749 (1989).

FOIA Exemption (b)(7)(F) protects law enforcement information that “could reasonably be expected to endanger the life or physical safety of any individual.” 5 U.S.C. § 552(b)(7)(F) (2006), amended by OPEN Government Act of 2007, Pub. L. No. 110175, 121 Stat. 2524. Courts have routinely upheld the use of Exemption (b)(7)(F) to protect the identities of law enforcement agents, as well as protect the names and identifying information of non-law enforcement federal employees, local law enforcement personnel, and other third persons in connection with particular law enforcement matters. See Rugiero v. DOJ, 257 F.3d 534, 552 (6th Cir. 2001); Johnston v. DOJ, No. 97-2173, 1998 WL 518529, *1 (8th Cir. Aug. 10, 1998).

Accordingly, the personally identifiable information of law enforcement officers and government employees was withheld from the responsive documentation. The disclosure of such sensitive information contained in records compiled for law enforcement purposes to the public could subject law enforcement officers and other government personnel to harassment and unwelcome contact. This could disrupt and impede official agency activity, as well as endanger the safety of law enforcement officials. Additionally, the personally identifiable information of third parties named in the records was withheld. The disclosure of third party information could constitute an unwarranted invasion of personal privacy and subject the individuals to embarrassment, harassment, and undue public attention. Individuals have a recognized privacy interest in not being publicly associated with law enforcement investigations, not being associated unwarrantedly with alleged criminal activity, and controlling how communications about them are disseminated.

Finally, FOIA Exemption (b)(7)(E) exempts from release information that would disclose law enforcement techniques or procedures, the disclosure of which could reasonably be expected to risk circumvention of the law. Public disclosure of law enforcement techniques, procedures, and equipment could allow people seeking to violate the law to take preemptive steps to counter actions taken by USMS during investigatory operations. Information pertaining to investigatory methods are law enforcement techniques and procedures that are not commonly known. The disclosure of this information serves no public benefit and would have an adverse impact on agency operations.

Enforcement of Related Statutes

Listed below are numerous statutes cited in the Executive Order issued by President Trump on June 26, 2020. Many of the statutes require specific elements to be present to demonstrate a violation (e.g., on federal property, in public, affected by interstate commerce, etc.). Therefore, it is imperative that District/Division leadership must work in concert with their respective U.S. Attorney's Offices (USAO) and strictly adhere to their guidance when enforcing this Executive Order. It is strongly recommended that District/Division leadership review these statutes and the Executive Order with your local USAO and provide DUSMs with a clear understanding of their authority.

EXECUTIVE ORDERS

Executive Order on Protecting American Monuments, Memorials, and Statues and Combating Recent Criminal Violence

— LAW & JUSTICE

Issued on: June 26, 2020

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Purpose. The first duty of government is to ensure domestic tranquility and defend the life, property, and rights of its citizens. Over the last 5 weeks, there has been a sustained assault on the life and property of civilians, law enforcement officers, government property, and revered American monuments such as the Lincoln Memorial. Many of the rioters, arsonists, and left-wing extremists who have carried out and supported these acts have explicitly identified themselves with ideologies — such as Marxism — that call for the destruction of the United States system of government.

Anarchists and left-wing extremists have sought to advance a fringe ideology that paints the United States of America as fundamentally unjust and have sought to impose that ideology on Americans through violence and mob intimidation. They have led riots in the streets, burned police vehicles, killed and assaulted government officers as well as business owners defending their property, and even

seized an area within one city where law and order gave way to anarchy. During the unrest, innocent citizens also have been harmed and killed.

These criminal acts are frequently planned and supported by agitators who have traveled across State lines to promote their own violent agenda. These radicals shamelessly attack the legitimacy of our institutions and the very rule of law itself.

Key targets in the violent extremists' campaign against our country are public monuments, memorials, and statues. Their selection of targets reveals a deep ignorance of our history, and is indicative of a desire to indiscriminately destroy anything that honors our past and to erase from the public mind any suggestion that our past may be worth honoring, cherishing, remembering, or understanding.

In the last week, vandals toppled a statue of President Ulysses S. Grant in San Francisco. To them, it made no difference that President Grant led the Union Army to victory over the Confederacy in the Civil War, enforced Reconstruction, fought the Ku Klux Klan, and advocated for the Fifteenth Amendment, which guaranteed freed slaves the right to vote. In Charlotte, North Carolina, the names of 507 veterans memorialized on a World War II monument were painted over with a symbol of communism. And earlier this month, in Boston, a memorial commemorating an African-American regiment that fought in the Civil War was defaced with graffiti. In Madison, Wisconsin, rioters knocked over the statue of an abolitionist immigrant who fought for the Union during the Civil War. Christian figures are now in the crosshairs, too. Recently, an influential activist for one movement that has been prominent in setting the agenda for demonstrations in recent weeks declared that many existing religious depictions of Jesus and the Holy Family should be purged from our places of worship.

Individuals and organizations have the right to peacefully advocate for either the removal or the construction of any monument. But no individual or group has the right to damage, deface, or remove any monument by use of force.

In the midst of these attacks, many State and local governments appear to have lost the ability to distinguish between the lawful exercise of rights to free speech and assembly and unvarnished vandalism. They have surrendered to mob rule, imperiling community safety, allowing for the wholesale violation of our laws, and privileging the violent impulses of the mob over the rights of law-abiding citizens. Worse, they apparently have lost the will or the desire to stand up to the radical fringe and defend the fundamental truth that America is good, her people are virtuous, and that justice prevails in this country to a far greater extent than anywhere else in the world. Some particularly misguided public officials even appear to have accepted the idea that violence can be virtuous and have prevented their police from enforcing the law and protecting public monuments, memorials, and statues from the mob's ropes and graffiti.

My Administration will not allow violent mobs incited by a radical fringe to become the arbiters of the aspects of our history that can be celebrated in public spaces. State and local public officials' abdication of their law enforcement responsibilities in deference to this violent assault must end.

Sec. 2. Policy. (a) It is the policy of the United States to prosecute to the fullest extent permitted under Federal law, and as appropriate, any person or any entity that destroys, damages, vandalizes, or desecrates a monument, memorial, or statue within the United States or otherwise vandalizes government property. The desire of the Congress to protect Federal property is clearly reflected in section 1361 of title 18, United States Code, which authorizes a penalty of up to 10 years' imprisonment for the willful injury of Federal property. More recently, under the Veterans' Memorial Preservation and Recognition Act of 2003, section 1369 of title 18, United States Code, the Congress punished with the same penalties the destruction of Federal and in some cases State-maintained monuments that honor military veterans. Other criminal statutes, such as the Travel Act, section 1952 of title 18, United States Code, permit prosecutions of arson damaging monuments, memorials, and statues on State grounds in some cases. Civil statutes like the Public System Resource Protection Act, section 100722 of title 54, United States

Code, also hold those who destroy certain Federal property accountable for their offenses. The Federal Government will not tolerate violations of these and other laws.

(b) It is the policy of the United States to prosecute to the fullest extent permitted under Federal law, and as appropriate, any person or any entity that participates in efforts to incite violence or other illegal activity in connection with the riots and acts of vandalism described in section 1 of this order. Numerous Federal laws, including section 2101 of title 18, United States Code, prohibit the violence that has typified the past few weeks in some cities. Other statutes punish those who participate in or assist the agitators who have coordinated these lawless acts. Such laws include section 371 of title 18, United States Code, which criminalizes certain conspiracies to violate Federal law, section 2 of title 18, United States Code, which punishes those who aid or abet the commission of Federal crimes, and section 2339A of title 18, United States Code, which prohibits as material support to terrorism efforts to support a defined set of Federal crimes. Those who have joined in recent violent acts around the United States will be held accountable.

(c) It is the policy of the United States to prosecute to the fullest extent permitted under Federal law, and as appropriate, any person or any entity that damages, defaces, or destroys religious property, including by attacking, removing, or defacing depictions of Jesus or other religious figures or religious art work. Federal laws prohibit, under certain circumstances, damage or defacement of religious property, including the Church Arson Prevention Act of 1996, section 247 of title 18, United States Code, and section 371 of title 18, United States Code. The Federal Government will not tolerate violations of these laws designed to protect the free exercise of religion.

(d) It is the policy of the United States, as appropriate and consistent with applicable law, to withhold Federal support tied to public spaces from State and local governments that have failed to protect public monuments, memorials, and statues from destruction or vandalism. These jurisdictions' recent abandonment of

their law enforcement responsibilities with respect to public monuments, memorials, and statues casts doubt on their willingness to protect other public spaces and maintain the peace within them. These jurisdictions are not appropriate candidates for limited Federal funds that support public spaces.

(e) It is the policy of the United States, as appropriate and consistent with applicable law, to withhold Federal support from State and local law enforcement agencies that have failed to protect public monuments, memorials, and statues from destruction or vandalism. Unwillingness to enforce State and local laws in the face of attacks on our history, whether because of sympathy for the extremists behind this violence or some other improper reason, casts doubt on the management of these law enforcement agencies. These law enforcement agencies are not appropriate candidates for limited Federal funds that support State and local police.

Sec. 3. Enforcing Laws Prohibiting the Desecration of Public Monuments, the Vandalism of Government Property, and Recent Acts of Violence. (a) The Attorney General shall prioritize within the Department of Justice the investigation and prosecution of matters described in subsections 2(a), (b), and (c) of this order. The Attorney General shall take all appropriate enforcement action against individuals and organizations found to have violated Federal law through these investigations.

(b) The Attorney General shall, as appropriate and consistent with applicable law, work with State and local law enforcement authorities and Federal agencies to ensure the Federal Government appropriately provides information and assistance to State and local law enforcement authorities in connection with their investigations or prosecutions for the desecration of monuments, memorials, and statues, regardless of whether such structures are situated on Federal property.

Sec. 4. Limiting Federal Grants for Jurisdictions and Law Enforcement Agencies that Permit the Desecration of Monuments, Memorials, or Statues. The heads of all executive departments and agencies shall examine their respective grant programs

and apply the policies established by sections 2(d) and (e) of this order to all such programs to the extent that such application is both appropriate and consistent with applicable law.

Sec. 5. Providing Assistance for the Protection of Federal Monuments, Memorials, Statues, and Property. Upon the request of the Secretary of the Interior, the Secretary of Homeland Security, or the Administrator of General Services, the Secretary of Defense, the Attorney General, and the Secretary of Homeland Security shall provide, as appropriate and consistent with applicable law, personnel to assist with the protection of Federal monuments, memorials, statues, or property. This section shall terminate 6 months from the date of this order unless extended by the President.

Sec. 6. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) This order is not intended to, and does not, affect the prosecutorial discretion of the Department of Justice with respect to individual cases.

FW: The Informer - June 2020

Staff,

I try to only send these out when there is a case that is relevant to our scope of work.

This edition, check out the *Cole v Hutchins* decision. Covers qualified immunity in a OIS where the officer ended up being found to have used force unreasonably (objective reasonableness as being a major component how our using of force is judge). Interesting points on how they got to that finding of unreasonableness.

If you haven't signed up for these I would suggest it, now more than ever.

Thanks, let me know if you have questions.

PSWRFTF

Situation Report PSWRFTF – Operation Phalanx July 25-26th, 2020

Situation:

PSWRFTF deployment to Oakland, CA federal courthouse to support “Operation Phalanx”.

Background:

On 07/23/2020, USM Donald O’Keefe requested PSWRFTF deploy to assist with securing the Ronald V. Dellums Federal Building and US Courthouse located at 1301 Clay St., Oakland, CA 94612.

Initial reports from intelligence agencies described a peaceful protest in the area of the courthouse to stand in solidarity of the protests in Portland, OR. These same intelligence agencies reported as of 07/24/2020 the tone of the protest had evolved into a high likelihood of violence. The following is an excerpt from an alert to law enforcement agencies:

Protest Alert!

Protest Alert! Law Enforcement Sensitive..Oakland, CA..Saturday, July 25, 2020..1930 Hours PST..Solidarity With Portland Against Fed Occupation

Impact:	High
Intention:	To rally and solidarity march against Federal law enforcement in Portland, to disrupt all businesses and vehicle traffic at the rally point and the march. To confront any counter-protesters and any Federal law enforcement agency
Crowd:	Estimates of 200 Antifa militants are expected but may change to a higher number, especially after 2000 hours
Comments from Editor:	Based on our sources in the San Francisco Bay Area direct action civil disobedience will occur, violence is likely, Federal buildings in Oakland will be targets by the Antifa militants. Pre-positioned weapons by the militants are likely to be found in the downtown area. We expect the militants to throw objects at law enforcement. Arson, may occur, fireworks maybe deployed by the militants, graffiti tagging will occur. This will be a very loud action. We will be monitoring

Excerpt from Operational Plan created by N/CA:

On Monday, May 25th, 2020, George Floyd died while being taken into custody in Minneapolis, Minnesota. There have been protest and riots since this time. In Portland, there has been continuous protest/riot at the U.S. federal building. Currently there is a protest (Solidarity with Portland) planned in Oakland for Saturday July 25th at 1830 hours at the Oscar Grant Plaza. There is a believe that the protest may move to the Oakland federal building (1301 Clay Street). Recent information states that there will be possible people looking to cause civil disobedience/violence at federal building.

(b)(7)(E)
(b)(7)(E)

Security Posture:

Total Personnel

Approx ☐ FPS Officer

Approx ☐ HSI SRT

☐ USMS Deputies

This Operation entails providing counter protest security for the US Federal Bldg and the US Federal Court House Annex.

The Federal Bldg is comprised of a North & South Tower with a 5th floor connecting bridge. The Federal Courthouse is located on the first floor of the east side of the south fed bldg tower.

FPS/ICE will be assigned security operations for the Fed Bldg North & South Towers with a reaction team staged on the connecting bridge for quick access to either bldg or the courthouse. (b)(7)(E)

USMS Teams will remain in the Federal Courthouse annex. With a ☐ man reaction designated to support FPS/ICE personnel if needed.

Operational Planning:

Mission

Protection of people and interior of federal courthouse. Support/Evacuation of courthouse/federal building if needed. The Marshals will not be manning the exterior of the building. The only time a Deputy will go outside is protection of life, or if there is possibility that someone is trying to gain access to the courthouse. The outside of the building will be monitored in the FPS control room.

The Deputies will be staged in the lobby of the courthouse standing by. In the event of an emergency, a team of DUSMs will deploy (b)(7)(E) while other DUSMs address the situation (fire suppression, arrest, medical aid). (b)(7)(E)

All staff will need to be here prior to 1800hrs to park in the downstairs garage. The garage metal gate will then be closed to block outside access. There will be a briefing in Conference Room H (5th floor) in the North Tower at 1800hrs. (b)(7)(E) cars will be needed to have keys left in them for emergency evacuation.

Command & Control

FPS is the lead law enforcement agency for any activity occurring outside of federal courthouses/facilities. Team Leader/District Management will coordinate command and control responsibilities with the FPS leadership. If requested by FPS, the team will respond and assist FPS with any issues that arise that the Marshals can feasibly aid with resolving. Oakland PD will be monitoring the protest from their EOC (1603 Martin Luther King Way). Oakland will respond to the federal building if they deem it is necessary to protect life.

(b)(6);

I need to task you with the SITREP for this deployment.

The scope of the SITREP is for IOD purposes only. The district will more than likely be doing one for the overall mission but because we have staff interwoven into this, I would like our own done.

Use the format as best you can and please add to it if you see fit. These are just the minimums I need from you guys. I started the template for you. Everything from the top to the embedded picture is what I wrote. Everything else below the picture is from an old sit rep but I left it there so you could see what I was looking for.

In the Deployment Activity, it should encompass from when you guys started the day (briefings included) and when you break down and head to the hotel. Include anything pertinent you think I or IOD HQ should know (actions taken by the team, important intelligence about numbers of people, significant damage to any structures, assaults towards LEOs, etc.). Really this thing paints the picture for us and I appreciate you doing it.

Call me if you have any questions.

Reporting will be due before you end shift. The disbursement of the SITREP will include me, (b)(6); (b)(7)(C); (b)(7)(F)

DC's, I do not want these SITREPs forwarded or sent to anyone outside of this email group. Once sent to me and if necessary, I will edit for forwarding to IOD HQ and others if I deem appropriate.

Thanks fellas, let me know if anyone has any questions.

Fyi the email below.

Looks like USMS mobilizing large groups to Chicago and DC should be staffed up here soon.

I think all of our guys who have collaterals that involve travel away from normal operations are gone. Until further notice, no one will deploy to a detail without notifying me first. Normally I'd prefer you guys handling the manpower and when the guys deploy to their collaterals, but we've hit a weird time and I need to keep an eye on our staffing.

As I'm aware we have (b)(6); (b)(7)(C); (b)(7)(F) on detail. For our group that's a bunch so please run any future requests to participate on other details through me until we get clear of these details that may come up for the rest of the country.

(b)(6); can you get me (b)(6); return date with (b)(7)(E)?

Thanks, give me a shout if you guys have any questions.

Gents,

(b)(6) and his group have been put on a stand-by role to assist with any of the operations to protect the federal monuments.

The attached op plan is basically a cut and paste of the Directors email and left very generic....such as the mission right now. Like I stated before, please be ready to deploy our people. Give them direction to be ready to deploy on short notice.

Any questions, please give me a shout.

(U//LES) This Alert Notice (AN) provides situational awareness regarding a potential threat to USMS protected interests during a planned nationwide day of action. On July 23, 2020, the USMS received information about a Pacific Northwest Youth Liberation Front (PNWYLF) "Call for Day of Action Against the Federal Invasion" on July 25, 2020. PNWYLF members are suspected of being Violent Opportunists (VO) attacking the Federal Courthouse in Portland, Oregon. OPI recommends law enforcement (LE) personnel remain vigilant for potential activity of protective interest stemming from this call for action.

Subject: Message From Director Washington Re: Coordination Meeting for Federal Response to Statue/Monument Vandalism

Gentlemen,

Sorry for the late e mail. If you haven't received a copy, please see the below e mail from the Director. The Attorney General has directed the USMS to immediately prepare to provide law enforcement support to protect national monuments across the country. IMT has been activated and the entire (b)(7)(E) has been mobilized to support this mission. We have not been asked to provide personnel at this point, but please remain flexible as the ask may come. Additionally, an expected ramp up of protest activity is expected across the country between now and the July 4th weekend. As of now, it is up to each of you to decide on how to support local law enforcement based on the activity in your AORs. However, the expectation is we focus more on supporting local law enforcement through arrest teams as opposed to dealing with protesters or protecting courthouses. Please coordinate with your districts concerning the coordination with the FBI and USAO

regarding arresting protesters who may face federal charges. HQ will begin staffing the FBI Strategic Information & Operation Center (SIOC) tomorrow through July 8th to provide intelligence to the field. Lastly, please remain mindful of the Coronavirus spikes in many parts of the country. A number of our offices and personnel have been affected in the past week or so. Please let me know if you have any questions and/or if there is anything you need. Take care and stay safe.

Subject: Message From Director Washington Re: Coordination Meeting for Federal Response to Statue/Monument Vandalism

Sent on behalf of Director Washington:

Team,

Quick follow-up from this afternoon's National Conference Call. Following our meeting, we participated in a call with the Department of Justice and the Law Enforcement Components and discussed the overarching strategy for addressing the current rash of vandalism and destruction of statues.

The Federal Bureau of Investigation will be hosting a nationwide video teleconference late Thursday (6/25/20) afternoon. Tentative time is 4:30 pm (EST).

The purpose of the video teleconference will be to discuss DOJ investigative and prosecutorial guidance for prevention of statue, monument, and federal property destruction leading into, and immediately after the July 4th Holiday. Additionally, it will provide an opportunity for local law enforcement leaders to collaborate on resources available to support a potential response.

Please coordinate directly with your United States Attorney and FBI Special Agent in Charge to get the logistics information (time/location) so you can attend the video teleconference.

Thank you in advance for all that you do for this great Nation.

Lean Forward

Donald W. Washington
Director

Call me if you have questions.

Subject: SAFE LA Task Force Update

All,

I wanted to update everyone on the progress of the SAFE LA Task Force. Our main focus is to assist our partner agencies in identifying suspects involved in significant crimes during the civil unrest.

Initially, the LAPD SAFE LA Task Force:

- Identified police officers who were assaulted
- Identified police vehicles that were destroyed
- Identified and recovered various videos of criminal activity
- Met with the business community and stakeholders to identify victims of a crime
- Distributed community alerts for information on crimes

Ultimately, the LAPD SAFE LA Task Force has assumed:

- **(158) Assaults on Officers**
 - (5) Attempt Murder on PO, (139) ADW on PO, (14) Battery on a PO
- **(10) Arson** related crimes
 - The Grove LAPD Substation
 - Melrose Mac computer store at 6614 Melrose Ave
 - Mozza2Go Italian restaurant at 6610 Melrose Ave
 - (7) police vehicles
- **(20) Looting** related crimes
 - Multiple businesses were looted and displayed on social media

On Monday June 29th, we plan to launch the LAPD/FBI SAFE LA TIPS webpage for the public's assistance in identifying pictures of potential suspects involved in significant criminal behavior.

Moving forward, the SAFE LA Task Force plans to hold a weekly conference call to allow each agency to share significant information to the group. Additionally, we plan to set up a cloud based drive to share files which might be beneficial to each agency in identifying suspects involved in crimes in several jurisdictions.

The next conference call is tentatively going to be Tuesday June 30th at 1330 hours. I will confirm on Monday and provide the conference call information.

Please call or email if you have any questions and thank you for your partnership.

Respectfully,

Staff,

Please ensure that all of the cases that we work related to the civil disturbances are entered and closed in JDIS in the format (b) needed. If you pass any of the cases off to the District, make sure we let them know how to close them out too.

Soon, there is going to be a press conference announcing this mission and some of its successes. Once I am notified of the time and dates, I am going to have (b) go into JDIS and get me the stats and breakdowns of what you all have accomplished so far. We also will need to send something up the IOD Chain reflecting your efforts and I want to ensure it is captured accurately so we can display you and your team's hard work.

The press conference was supposed to happen next Tuesday but is being postponed for a date to be named later.

I appreciate your work and your efforts to this mission.

Give me a shout if you have any questions or comments.

Subject: Urgent Update SAFE LA Task Force

SAFE LA Task Force Members,

We made it through last night's protests but are still evaluating the injuries and damage. We sustained damage to our Police Headquarters Facility, Metro Detention Center, and the nearby Federal Buildings. Antifa was present with BLM and other groups which became problematic. **Please see the below assessment for your awareness and do not forward to anyone other than your agency executives.**

Today, BLM is sponsoring a protest at the Federal Building on Wilshire in West LA at 1200 hours which has the possibility to become problematic for all of us.

This is only for your awareness and to brief your agency executives. I am not pressing the panic button.

Be safe

(b)(7)(F)

Good morning,

I conducted real-time social media listening for yesterday's protest in DTLA and observed the following via livestreams:

There was a 1400 hours march for Vanessa Guillen at Olvera St that came to City Hall at 1600 hours, adding numbers to the City Hall crowd. The diversity of different organizations led to some friction, notably between Antifa (which organized the 1630 protest) and RevCom/RefuseFascism. This was later discussed on an Antifa Twitter account. Initially several speakers took "center stage" in front of City Hall, and at the conclusion of speakers, the march headed toward PHF. Many of the Vanessa Guillen protesters departed in the opposite direction.

There was a genuine Antifa violent opportunist presence at the front of the march, complete with black/red flags, Anarchy flags/symbols, and banners. Many Antifa members were clothed in traditional "black bloc" attire, and several wore improvised body armor (motorcycle armor, elbow/knee pads, helmets, etc.). I also noted the presence of umbrellas and makeshift shields. At one point, members appeared to be practicing using the umbrellas in a spartan-style skirmish line. One shield appeared to be made from a small surfer-style boogie board. There were multiple skateboarders that also used their skateboards as shields.

Criminal activity commenced shortly after the march began. Antifa led the crowd around the back of PHF, up the breezeway, and to the front of PHF. There was a lone security officer at the front desk. Upon arrival at approximately 1730, an Antifa member shouted "F**k the system" and began tagging/crossing out the badges display at the front of PHF with spray paint. LA Antifa did not use their public Twitter account for

communications during the entirety of the march – and it's possible they were using their encrypted Telegram channel for communications.

I continued to observe ongoing criminal activity throughout, including persistent graffiti (there is likely more than what I could glimpse from the livestreams) and property destruction. It appeared that additional Antifa members either joined the march, and/or changed over into "Black Bloc" attire. Several were also clothed in camouflage. They went to the rear of the Metropolitan Detention Center near Alameda/Temple, shattered windows, and encountered several Federal security officers. They then proceeded to parallel the freeway, where they were met for the first time by a small LAPD skirmish line. Several marchers began to encircle behind the skirmish line, and an organizer finally got the marchers moving again. The organizers/leaders made it known in advance that they intended to take the freeway, and further south they did so. CHP ran traffic breaks.

The wide open space on the freeway led to what I refer to as the "Be Water" stage (a reference to Hong Kong-style tactics where groups organically disperse into smaller units, flow through streets, and eventually coalesce back together making them difficult to anticipate or contain). "Be water" has been discussed in the past, and was shared with the Oregon protest organizers (YLF) as a reminder in a tweet yesterday. As the marchers spread out, they eventually rendezvoused back in DTLA near City Hall, and this led to the standoffs/help calls at the Federal Courthouse and a larger LAPD footprint. I observed several improvised weapons, including sticks, bats, leaf blowers, smoke/dry ice bombs, rocks, and frozen water bottles. Livestreamers also referred to the presence of a machete.

During one altercation, an LAPD officer was tackled from behind leading to a short scuffle that was filmed and has since started to go viral. (Users have also created a Tiktok video of the LAPD officer being tackled, looped over and over and showing violence against the police). Most of the march concluded at City Hall and Grand Park – and organizers felt they could "fall back" to Grand Park because it was "County" territory. At the conclusion, there were social media posts suggesting many people will be back for today's protest in West Bureau. Today's protest is officially endorsed by BLMLA, which typically results in a higher turnout in terms of crowd size.

Situation Report

PSWRFTF – Security of U.S. Courthouse in Los Angeles, CA

July 25, 2020

Situation:

PSWRFTF personnel deployed to U.S. Courthouse in downtown Los Angeles.

Background:

On 07/25/2020, C/CA management requested PSWRFTF personnel to assist with securing the U.S. Courthouse located at 350 W. 1st St., Los Angeles.

According to open source reporting, Los Angeles was listed as one of the cities to have been inspired on Twitter to conduct protests by the Pacific Northwest Youth Liberation Front (PNWYLF), one of the major antagonists in the ongoing Portland, OR attacks on the U.S. Courthouse.

IOD Deployment Activity on 7/25/20:

- 1700: The Los Angeles Police Department declared a citywide tactical alert due to protest in downtown Los Angeles.
- 1830: Approximately 200 protestors approached the front entrance of the U.S Courthouse in downtown Los Angeles and began banging on the glass windows and doors. The protestors then backed up in an organized manner and other protestors began throwing broken cinder blocks and frozen water bottles at the entrance windows and doors. LAPD units across the street at City Hall responded and deployed impact munitions. As the crowd was dispersing, they shot fireworks at LAPD officers. None of the protestors entered the building. Damage done to the U.S Courthouse was three shattered windows and graffiti on two exterior walls. No injuries to LAPD or USMS personnel.
- 1900: C/CA management requested PSWRFTF assistance at the U.S Courthouse in downtown Los Angeles.
- 2000: PSWRFTF personnel arrived at U.S Courthouse.
- 2030: PSWRFTF, District, and Federal Protective Service personnel were briefed and given assignments.
- 2300: USMS personnel were advised by LAPD that the citywide tactical alert was called off.
- 0100: IOD, District, and FPS personnel departed the U.S Courthouse. No activity to report during the shift.

Operational Planning:

The purpose of this operation is to prevent protestors from entering the U.S. Courthouse. All personnel will be staged inside at the front entrance of the U.S. Courthouse and [REDACTED] teams. Each team will have a [REDACTED] Teams will only deploy outside the front entrance in the event protestors attempt to make entry into the courthouse. The exterior of the building will be monitored by CSOs in the control room.

Current Operational Needs:

None

Personnel involved:

[REDACTED] IOD PSWRFTF [REDACTED]
[REDACTED] - C/CA [REDACTED]
[REDACTED] FPS Officers

Hey fellas,

Are any of you available to be on standby Fri-Sunday to assist with security at the federal courthouse in downtown LA? Nothing solid yet but in the event that any protests or civil unrest takes place near the courthouse the district will need some assistance. If you're unavailable, no worries.

Gents,

I just spoke to the BHPD Captain running their department's response to election week and as of now they have no new intel on protest activity for next week. There will be a Trump rally taking place this Saturday in Beverly Hills, so based on how that turns out we should have some intel/indication of how

Subject: Standby for Mutual Aid Request | Nov 2-6

Importance: High

Gents,

Due to the possibility of civil unrest/disturbance with the upcoming election day (Nov 3), our task force has been assigned to be on standby for mutual aid assistance for Beverly Hills Police Department. Further operational details to follow, but for now please mark your calendars and make yourselves available 24/7 during the following dates: **Nov 2-6.**

This standby status is mandatory for (b)(7)(E) Everyone on this email is not scheduled for leave during these dates (except (b)(6) on Nov 2). Please monitor your phones and be ready to report to Beverly Hills ASAP. **If you have a schedule conflict between Nov 2-6, let me know ASAP.**

In the likelihood that we do get deployed to assist BHPD it will likely be in the evening hours into the early morning. If we end up responding we will need everyone rested and fully operational. Please telework or work from the office during this week of standby to prevent fatigue or getting tied up with something in the field. *This mutual aid assistance will take precedence over case work during election week.*

(b)(6), (b)(7)(C), (b)(7)(F) will be putting out a message for everyone to call in this Friday for a conference call to discuss this operation a little further. Please ensure you make the call.

Thank you,

(b)(6);

(b)(6) and his group have been put on a stand-by role to assist with any of the operations to protect the federal monuments.

The attached op plan is basically a cut and paste of the Directors email and left very generic....such as the mission right now. Like I stated before, please be ready to deploy our people. Give them direction to be ready to deploy on short notice.

Any questions, please give me a shout.

Type of Operation: Federal Agency Assist
WSIN Number: (b)(7)(E)

Location

1301 Clay Street, Oakland, CA

Schedule

Saturday July 25th, 1800-2400hrs

BACKGROUND INFORMATION

On Monday, May 25th, 2020, George Floyd died while being taken into custody in Minneapolis, Minnesota. There have been protest and riots since this time. In Portland, there has been continuous protest/riot at the U.S. federal building. Currently there is a protest (Solidarity with Portland) planned in Oakland for Saturday July 25th at 1830 hours at the Oscar Grant Plaza. There is a believe that the protest may move to the Oakland federal building (1301 Clay Street). Recent information states that there will be possible people looking to cause civil disobedience/violence at federal building.

MISSION:

Protection of people and interior of federal courthouse. Support/Evacuation of courthouse/federal building if needed. The Marshals will not be manning the exterior of the building. The only time a Deputy will go outside is protection of life, or if there is possibility that someone is trying to gain access to the courthouse. The outside of the building will be monitored in the FPS control room.

The Deputies will be staged in the lobby of the courthouse standing by. In the event of an emergency, a team of DUSMs will (b)(7)(E) while other DUSMs address the situation (fire suppression, arrest, medical aid). (b)(7)(E)

All staff will need to be here prior to 1800hrs to park in the downstairs garage. The garage metal gate will then be closed to block outside access. There will be a briefing in Conference Room H (5th floor) in the North Tower at 1800hrs. (b)(7)(E) will be needed to have keys left in them for emergency evacuation.

COMMAND & CONTROL:

FPS is the lead law enforcement agency for any activity occurring outside of federal courthouses/facilities. Team Leader/District Management will coordinate command and control responsibilities with the FPS leadership. If requested by FPS, the team will respond and assist FPS with any issues that arise that the Marshals can feasibly aid with resolving. Oakland PD will be monitoring the protest from their EOC (1603 Martin Luther King Way). Oakland will respond to the federal building if they deem it is necessary to protect life.

Subject: Oakland protest 7/25/2020

Importance: High

All,

See below for anticipated protest in Oakland this Saturday, July 25 starting at 7:30pm. There is no specific information that they plan to target the federal courthouse however given the proximity and the ongoing issues in Portland we need to be prepared in case they do. FPS will be onsite with a team as well.

Eight DUSMs are needed to be onsite in the courthouse from 6pm to 12am on Saturday for this event as a precautionary measure in case hostile actors attempt to make entry into the courthouse. Please respond with your ability to assist ASAP.

Subject: Portland Day 2

District personnel advised that 3 spent shell casings were discovered by CSO's this morning outside the Courthouse. A series of explosions were heard last night however were initially thought to be fireworks. It is unclear that the target was and if anything or anyone was hit.

Protesters were out in higher numbers tonight.

At approximately midnight protesters breached the perimeter fence around the front of the Courthouse and then completely destroyed it and drug it away. This allowed unrestricted access to the front entrance. One unsuccessful attempt was made to throw a piece of the fence through the window above the plywood.

Protesters then proceeded to add to the graffiti on the front of the Courthouse.

Protesters threw the usual rocks bottles and marbles at police. The also were launching flares and fireworks at the police.

(b)(7)(E)

While District personnel were securing them from inside protesters were banging on them. Since the doors were in a bling spot a (b)(7)(E) to determine if protesters were attempting to breach the doors.

1. Breach of Federal Property. If an unauthorized person physically enters the building DUSMs will take action to arrest the offender. If there is a breach of safeguards (doors/windows) in an attempt to enter the building, the USMS will respond to deter entry. Only persons who enter the building will be arrested/detained.
2. Rescue of federal employee/emergency response personnel: If a federal employee or LE personnel find themselves in a position of danger in front of the federal building, USMS personnel will attempt to rescue the person by establishing a protective area and retrieving the person into the federal building and then re-secure the building.
3. In the event security of the courthouse cannot be safely maintained and withdrawal is necessary, deputies will secure doors to the deter or delay entry and access to chambers and court floors. Deputies will also coordinate with FPS to direct public elevators to home floors.
4. Deadly force IS NOT authorized to prevent protesters/rioters from entering the Federal Building or Court House. USMS personnel may use deadly force only when necessary; that is, when there is an objectively reasonable belief that the subject of such force poses an imminent danger of death or serious physical injury to the employee or to another person

All deployment actions will be coordinated with FPS control

COMMAND & CONTROL:

FPS is the lead law enforcement agency for any activity occurring outside of federal courthouses/facilities. Team Leader/District Management will coordinate command and control responsibilities with the FPS leadership. If requested by FPS, the team will respond and assist FPS with any issues that arise that the Marshals can feasibly aid with resolving. Oakland PD will be monitoring the protest from their EOC (1603 Martin Luther King Way).

USE OF FORCE:

DUSMs will adhere to the USMS use of force policies.

HOSTAGE PLAN:

Should any DUSM be taken hostage, the hostage signal will be communicated to other DUSMs and additional team members will address the threat, secure the area and attempt to stabilize the scene. If a Hostage Drill is feasible, it is to be implemented. Any injured DUSM will be taken to closest hospital.

Subject: RE: CIB Intelligence Rotation - Weekend Coverage

Good Morning Everyone,

I'm looking for remote weekend coverage for Saturday/Sunday from anyone available.

(b)(6); (b)(7)(C); (b)(7)(F) please pass to any of your folks that I may have left off!

Day shift 6:00am-6:00pm

Evening shift 6:00pm-6:00am

Priority Work Items for the shift:

in a follow up email.

- From 4pm-4am we will rotate one person that will be manning the overnight shift. This shift will be done from your telework location, you do NOT need to come to Springfield.
- During that time you will also be responsible for assisting on any workups and notifying the proper POC from the field if needed.
- Actionable intel, for this purpose, is defined as anything that is SPECIFIC in nature to an area, person, or location. If you have a time and place something may happen, if you have a specific target that should be watched out for, or if you have a specific vehicle in an area that would all be considered actionable. Right now "threats to law enforcement" are everywhere and we are doing our best to be vigilant in that aspect already.
- You will all be given access to two things:
The ongoing VCC for CIB, as well as the email inbox
(b)(6); (b)(7)(C) @usdoj.gov where all actionable items incoming from the field will come. Please make sure if you do NOT have a (b)(7)(F) account that you go in and request one ASAP. If you have not had VCC training or are not familiar with it then please let us know and we will replace you with someone else or make sure you share a time slot with a second person.
- (b)(6); (b)(7)(C); (b)(7)(F) will be making the night rotation for the week and will send it out to you all shortly, but has been gracious enough to take tonight himself.
- During your shift you will be working directly with (b)(6); (b)(7)(C); (b)(7)(E); (b)(7)(F) so if you are night shift, please give him a call when you start and yall can sort out to do lists.
- This will continue on until we are told to stop/violence and threat of violence subsides.

I appreciate all your willingness to help and your patience with me as I try to coordinate this massive undertaking. If anyone can get it re-organized correctly, its CIB, we got this!!

(b)(6); (b)(7)(C); (b)(7)(F) can you please send out the rotation when you get a chance and also add me to the CIB inbox? Thanks!

OPERATIONAL PLAN

Northern District of California

Donald M. O'Keefe
United States Marshal

Operation 2020 SF Protest

This Operational Plan is the property of the United States Marshal Service. Neither it nor its contents may disseminate outside the agency to which it is loaned. All copies are to be returned to the Deputy in Charge at the conclusion of the operation.

INFORMATION

(b)(6); (b)(7)(C); (b)(7)(F)

Type of Operation: Federal Agency Assist

WSIN # [REDACTED] Called in by [REDACTED] 10/17/2020 @ 0835hrs

Location

450 Golden Gate, San Francisco

Schedule

October 17, 2020, 1200hrs – End of Protest

BACKGROUND INFORMATION

The neo-fascist group “The Proud Boys” are planning a protest on 10-17-2020 at the Civic Center in San Francisco. A counter protest will be held by Anti-Fascist groups during the same time. There is a belief that the protest could become violent. San Francisco PD will be deploying to the area to monitor the situation.

MISSION:

Protection of people and interior of federal courthouse. Support/Evacuation of courthouse/federal building if needed. The Marshals will not be manning the exterior of the building. The only time a Deputy will go outside is protection of life, or if there is possibility that someone is trying to gain access to the courthouse. The outside of the building will be monitored in the FPS control room.

The Deputies will be assigned to standby at the federal building in case the protest makes it way there. DUSMs will always follow USMS policy during the protest. [REDACTED]

[REDACTED]
(b)(7)(E)

All staff will need to be at the federal building by 1030hrs for a briefing at 1100hrs on the main floor of 450. Cars will be parked in the garage parking.

DEPLOYMENT:

USMS personnel will only deploy from the staging area for the following reasons:

1. Breach of Federal Property. If an unauthorized person physically enters the building DUSMs will take action to arrest the offender. If there is a breach of safeguards (doors/windows) in an attempt to enter the building, the USMS will respond to deter entry. Only persons who enter the building will be arrested/detained.
2. Rescue of federal employee/emergency response personnel: If a federal employee or LE personnel find themselves in a position of danger in front of the federal building, USMS personnel will attempt to rescue the person by establishing a protective area and retrieving the person into the federal building and then re-secure the building.
3. In the event security of the courthouse cannot be safely maintained and withdrawal is necessary, deputies will secure doors to the deter or delay entry and access to chambers and court floors. Deputies will also coordinate with FPS to direct public elevators to home floors.
4. Deadly force IS NOT authorized to prevent protesters/rioters from entering the Federal Building or Court House. USMS personnel may use deadly force only when necessary; that is, when there is an objectively reasonable belief that the subject of such force poses an imminent danger of death or serious physical injury to the employee or to another person

All deployment actions will be coordinated with FPS control

COMMAND & CONTROL:

FPS is the lead law enforcement agency for any activity occurring outside of federal courthouses/facilities. Team Leader/District Management will coordinate command and control responsibilities with the FPS leadership. If requested by FPS, the team will respond and assist FPS with any issues that arise that the Marshals can feasibly aid with resolving. San Francisco PD will be the main police force dealing with the protest

USE OF FORCE:

DUSMs will adhere to the USMS use of force policies.

HOSTAGE PLAN:

Should any DUSM be taken hostage, the hostage signal will be communicated to other DUSMs and additional team members will address the threat, secure the area and attempt to stabilize the scene. If a Hostage Drill is feasible, it is to be implemented. Any injured DUSM will be taken to closest hospital.

United States Marshals Service POLICY DIRECTIVES

TRAINING

14.15 USE OF FORCE

- A. **Proponent:** Training Division.
- B. **Purpose:** This directive provides United States Marshals Service (USMS) policy and procedures concerning the use of force. This policy is not intended to and does not create any right or benefit, substantive or procedural, enforceable at law or in equity, against the United States, its departments, agencies, or other entities, its officers or employees, or any other person. Deviations from this policy may be made only with the Director's approval.
- C. **Authority:** The Director's authority to establish a use of force policy is contained in 28 U.S.C. § 561(g), 18 U.S.C. § 3053, and 28 U.S.C. § 566(d). On July 1, 2004, the Attorney General approved a revised Deadly Force Policy for the Department of Justice (DOJ), which applies to all DOJ components. On April 21, 2011, the Attorney General approved the DOJ Policy Statement on Use of Less-Than-Lethal Devices, which applies to all DOJ components.
- D. **Policy:** The use of force by a Deputy United States Marshal (DUSM) must be objectively reasonable and may range from verbal commands to the use of deadly force.

1. Reporting:

- a. DUSMs will report all intentional and all unintentional incidents involving the use of firearms, less-than-lethal devices, or physical force greater than minor restraint (b)(7)(E) Task Force Officers (TFOs), or DUSMs acting on their behalf, will report deployment of less-than-lethal devices (b)(7)(E) (b)(7)(E)
- b. Districts and task forces should become familiar with the policies and procedures of state/local agencies that participate on USMS-led task forces regarding the release of supporting documentation (e.g., photos, reports of injuries, etc.). When agencies' policies and procedures allow TFO submissions regarding a Use of Force Incident, the submission should include all available supporting documentation.

2. Use of Less-Than-Lethal Force:

- a. DUSMs are authorized to use only those less-than-lethal devices that are approved for use by the USMS and that they are trained to use.
- b. DUSMs may use less-than-lethal force only in situations where reasonable force, based upon the totality of the circumstances at the time of the incident, is necessary to:
 - 1) Protect themselves or others from physical harm;
 - 2) Restrain or subdue a resistant prisoner or suspect;

- 3) Make an arrest;
 - 4) Prevent a prisoner from escaping; or
 - 5) Otherwise obtain lawful compliance from a subject.
- c. DUSMs are not authorized to use less-than-lethal devices if voice commands or physical control achieve the law enforcement objective. DUSMs using a less-than-lethal device must stop using the device once it is no longer needed to achieve the law enforcement purpose for which it is being used. Less-than-lethal weapons may not be used to punish, harass, taunt, or abuse a subject.
 - d. **Prohibited Techniques:** The following acts or techniques associated with the use of less-than-lethal force are prohibited absent exigent circumstances:
 - 1) Choke holds, carotid-control holds, or other neck restraint;
 - 2) Use of baton to apply choke or "come-along" holds to the neck area; and
 - 3) Intentional strikes with a baton to the head, face, groin, solar plexus, neck, kidneys, or spinal column.
3. **Deadly Force:** DUSMs may use deadly force only when necessary; that is, when the DUSM has a reasonable belief that the subject of such force poses imminent danger of death or serious physical injury to the DUSM or to another person.
 - a. Deadly force may not be used solely to prevent the escape of a fleeing suspect or an escaping USMS detainee. A DUSM may use deadly force against a fleeing suspect or escaping USMS detainee only when the DUSM has a reasonable belief that the suspect or detainee poses an imminent danger of death or serious physical injury to the DUSM or to another person.
 - b. Firearms may not be fired solely to disable moving vehicles.
 - c. If feasible, and if doing so would not increase the danger to the DUSM or others, a verbal warning to submit to the authority of the DUSM shall be given prior to the use of deadly force.
 - d. DUSMs will be trained in alternative methods and tactics for handling resisting subjects, which must be used when the use of deadly force is not authorized by this policy.
 - e. Warning shots are not permitted outside of the prison context.
 4. **Medical Attention:** In all use of force incidents, DUSMs must make necessary medical assistance available to subjects as soon as practicable. Any injury to USMS personnel or another party must be documented and reported (b)(7)(E)

(b)(7)(E)

E. Responsibilities:

1. United States Marshals (USMs), Chief Deputy United States Marshals (CDUSMs), and Assistant Directors must ensure that all employees authorized to use force comply with the reporting and training requirements and demonstrate proficiency with approved devices and firearms.

2. Regional Fugitive Task Force Commanders, USMs, and CDUSMs will be responsible for notifying their TFOs about this policy and their responsibilities under the policy.
3. The Office of Professional Responsibility will be responsible for preparing annual reports detailing use of force incidents.

F. Procedures: None.

G. Definitions:

1. **Deadly Force:** Any force that is likely to cause death or serious physical injury.
2. **Less-Than-Lethal Force:** Force that is neither likely nor intended to cause death or serious physical injury.
3. **Serious Physical Injury:** Bodily injury that is likely to cause death or serious/permanent disfigurement or loss of function of a body part or organ.
4. **Deputy United States Marshal:** All operational employees assigned to the 082, 1801, 1802, and 1811 job series (including Inspectors, Supervisory Deputy United States Marshals, and CDUSM); employees who have a valid special deputation; and employees whom the USMS has authorized to carry a firearm as a requirement of their duty assignments.
5. **Less-Than-Lethal Devices** include, but are not limited to:
 - a. Conducted Energy Devices (e.g., electronic immobilization, control, and restraint devices);
 - b. Impact Devices (e.g., batons, bean bag projectiles); and
 - c. Chemical Agents (e.g., pepper spray).

This is 100% your call. I will support as you deem appropriate. Our primary mission is this basic class, if you felt you could cut him loose, we could send. If not, mission first.

This is a difficult lift if our priority for (b)(6) is basic training. He will be an integral part of the tactics curriculum, which begins Saturday and runs all of next week and beyond.

If the priority is the mission in Portland, then I'll adjust.
