Austin Evers
American Oversight
1030 15th Street, NW
Washington, DC, 20005

Dear Austin Evers:

This letter is the initial agency decision on one the Veterans Health Administration referred portions of your July 28, 2020, request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, submitted to the Department of Veterans Affairs (VA), FOIA Service requesting the following records:

“All calendars and calendar entries for the agency officials listed below, including any calendars maintained on their behalf, reflecting events that took place from January 1, 2020 to the date the search is conducted. For calendar entries created in Outlook or similar programs, the documents should be produced in “memo” form to include all invitees, any notes, and all attachments. Please do not limit your search to Outlook calendars—we request the production of any calendar—paper or electronic, whether on government-issued or personal devices—used to track or coordinate how these individuals allocate their time on agency business. The search should include any calendars associated with an agency official’s individual email account, as well as any official calendars maintained for the official, including by his or her administrative assistant or scheduler.

Specified Agency Officials:

CFBP

- a. Director Kathy Kraninger
- b. Deputy Director Tom Pahl
- c. Chief of Staff Kirsten Sutton

COMM

- a. Secretary Wilbur Ross
- b. Deputy Secretary Karen Dunn Kelley
- c. Chief of Staff Michael J. Walsh Jr.

DOE

- a. Secretary Dan Brouillette
- b. Under Secretary Mark Menezes
- c. Chief of Staff James Colgary

DOL

- a. Secretary Eugene Scalia
- b. Deputy Secretary Patrick Pizzella
- c. Chief of Staff Rachel Mondl

ED

- a. Secretary Betsy DeVos
- b. Nate Bailey, or any other person serving as Chief of Staff
- c. Deputy Secretary Mitchell Zais
- d. Assistant Secretary, Office of Elementary and Secondary Education, Frank Brogan
- e. Assistant Secretary, Office of Planning, Evaluation and Policy Development, James Blew
- f. Principal Deputy Under Secretary Diane Auer Jones

EPA

- a. Administrator Andrew Wheeler
- b. Chief of Staff Mandy Gunasekara

HUD

- a. Secretary Ben Carson
- b. Deputy Secretary Brian Montgomery
- c. Chief of Staff Andrew Hughes

STATE

- a. Secretary Mike Pompeo
- b. Senior Advisor Toni Porter
- c. Counselor Thomas Ulrich Brechbuhl
- d. Chief of Protocol Cam Henderson
- e. Global AIDS Coordinator and Special Representative for Global Health Diplomacy, Deborah Birx

USDA

- a. Secretary Sonny Perdue
- b. Chief of Staff Ray Starling

VA

- a. Secretary Robert Wilkie
- b. Acting Deputy Secretary Pamela J. Powers
- c. Acting Chief of Staff Brooks D. Tucker."

As indicated in their November 23, 2020 letter (sixth interim Initial Agency Decision), your request was referred to the VA Office of the Secretary (OSVA) on August 7, 2020. Per OSVA's August 7, 2020 letter, they notated that you clarified your request with the following on August 7, 2020: "American Oversight agrees to limit the calendars for Mr. Tucker and Ms. Powers to positions held in the Office of the

Secretary...American Oversight further understands that Ms. Powers has not changed positions during the relevant time period.”

VA Office of the Secretary (OSVA) in their sixth interim release determined that one hundred (100) pages of the responsive records originated with the Department of Veterans Affairs, Veterans Health Administration (VHA), and as a result, OSVA referred these one hundred (100) pages to the VHA Central Office FOIA Office for further processing and direct response on November 23, 2020 to you under the FOIA tracking number of 21-01193-F. No further searches were completed. VHA FOIA Central Office FOIA received your request on November 23, 2020 under the above mentioned FOIA tracking number.

After a review of the records, all of the information is provided in its entirety. No portions of the requested records have been withheld either in whole or in part. This concludes VHA's response to your FOIA request.

Please be advised you may appeal this full grant response to:

Office of the General Counsel (024)
Department of Veterans Affairs
810 Vermont Avenue, N.W.
Washington, D.C. 20420
Email: ogcfoiaappeals@va.gov

If you should choose to file an appeal, your appeal must be postmarked or electronically transmitted no later than ninety (90) calendar days from the date of this letter. Please include a copy of this letter with your written appeal and clearly state why you disagree with the determinations set forth in this response.

You may also seek assistance and/or dispute resolution services for any other aspect of your FOIA request, excluding the release determination, from VHA's FOIA Public Liaison and or Office of Government Information Services (OGIS) as provided below:

VHA FOIA Public Liaison:
Email Address: vhafoia2@va.gov
Phone Number: (877) 461-5038

Office of Government Information Services (OGIS)
Email: ogis@nara.gov
Fax: (202) 741-5769
Mailing address:
Office of Government Information Services
National Archives and Records Administration
8601 Adelphi Road
College Park, MD 20740-6001

Thank you for your interest in VA. If you have any further questions, please feel free to contact me at (785) 230-8430 or via email at stacy.ekis@va.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Stacy Ekis", written in a cursive style.

Stacy Ekis
VHA FOIA Officer

Enclosure:

Humanitarian Cases:

Current Census: 44

- New Jersey HCS: 10
- New York Harbor HCS: 30
- Ann Arbor: 4

Total Admissions: 67 (includes current census, discharges, and deaths)

- New Jersey: 12
- New York Harbor: 49 (3 deaths)
- Ann Arbor: 4
- Miami: 1
- San Francisco: 1

Indian Health Service Outreach:

- 30 new positive cases of COVID-19 for the Navajo Nation, 2,134 total negative results
 - The total number of positive tests for COVID-19 = 384 for the Navajo Nation– (according to the Navajo Department of Health and Navajo Area Indian Health Service, in coordination with the Navajo Epidemiology Center). There is now a total of 15 confirmed deaths related to COVID-19.
 - Three COVID-19 patients on ventilators and one on a converted anesthesia machine at Gallup Indian Medical Center (federal IHS facility).
 - VA agreed to accept the 4 critical patients for transfer down to the Albuquerque VA. They are developing a task order to cover activities.

Other Updates:

- Developing "live" map journal to model next VA "hot spots".
- VA Public Health, Coronavirus website has been visited 209,040 (+4,734) times with 187,762 (+4,131) unique visits.
- #LiveWholeHealth-Self Care Resources campaign for Veterans during Coronavirus crisis just launched.
 - The first Vantage and first Facebook post of a self-care resource blog went out. A blog post will be going out every day with an associated Facebook post.
 - <https://www.blogs.va.gov/VAntage/73363/live-whole-health-self-care-episode-1/>

Humanitarian Cases:

Total Admissions: 90 (includes current census, discharges, and deaths)

- New Jersey: 21, 4 discharged, 1 death
- New York Harbor: 58, 19 discharged, 5 deaths
- Ann Arbor: 10
- Miami: 1 discharged
- San Francisco: 1 discharged
- Detroit: 3

FOR OFFICIAL USE ONLY

- New Mexico: 2
- Bedford: 10 State Veterans Home patients (COVID-19 positive unit)
- Providence: 7 community nursing home patients (COVID-19 positive unit)

Pending Mission Assignments:

- Louisiana (Shreveport) beds -currently determining needs
 - Med/Surg 16; ICU 2
- Albuquerque HHS Indian Health Services Beds
 - ICU or Acute Care 4
 - Working to add an additional 8 ICU or Acute Care
- Albuquerque HHS Indian Health Services ventilators
 - 2 Albuquerque VAMC HHS Indian Health Services Ventilators
- Oregon / Roseburg VAMC Beds
 - 25 Med/Surg
- Oregon / Roseburg VAMC PPE UV Decon
 - 50 filtered face masks daily
- Guam RN Support
 - Drafting proposal
- Illinois Beds (Hines, JB, Marion)
 - 4 ICU Marion, 6 ICU and 25 Med/Surg at Hines/JB
- Hew Haven CT – Homeless Outreach Assistance

Logistics:

- 1,270 Cepheid Kits
- 1500 Cepheid Swabs
- 204,800 N95 Moldex masks
- 22,680 N95 masks
- Shipped 30 Cepheid Kits

Other Updates:

- Continued development of plan on how we might assist IHS and other tribal nations health systems
- Continuing to monitor ventilation needs across the enterprise
- Determining the need of resourcing second order of trailers for fatality management

Staff Cases

- Total positive cases = 1,373. There is no change in the data since yesterday.
- There have been 9 employee deaths (Ann Arbor, Detroit, Indianapolis, Houston, 3 in Reno, Shreveport, and Greater Los Angeles – contracted security officer). There is no change in data.

Humanitarian Cases:

Total Admissions: 139 (includes current census, discharges, and deaths)

- New Jersey: 24, 5 discharged, 1 death
- New York Harbor: 80, 23 discharged, 5 deaths
- Ann Arbor: 10, 2 discharged
- Miami: 1 discharged
- San Francisco: 1 discharged
- Detroit: 4
- New Mexico: 2
- Bedford: 10 State Veterans Home patients (COVID-19 positive unit)
- Providence: 7 community nursing home patients (COVID-19 positive unit); 6 of the 7 were transferred back to the community nursing home; the remaining patient died.

1 New Active Signed Mission Assignment

- Mission Assignment (**Louisiana (Shreveport) beds**)
 - Med/Surg 16; ICU 2

VA COVID-19 Response

- VA is ready for this emergency. We began emergency preparedness exercises weeks before the first coronavirus case was confirmed in the U.S.
- These actions were critical to our ability to meet specialized health care needs of Veterans to this day.
 - As a result of these early actions, VA facilities are equipped with supplies to handle an influx of patients.
- But we have more than supplies – we have a strategy for protecting and caring for Veterans.
- We are screening all Veterans who enter our health care facilities for flu-like symptoms to ensure the safety of patients and staff, and we are administering coronavirus tests as needed.
- The decision to test a patient depends on several factors, such as whether the patient has been in close contact with the virus, and whether the patient lives in an area where it is spreading.
- VA's testing capacity meets current demand. For the latest testing and case figures, visit [VA.gov/coronavirus](https://www.va.gov/coronavirus)
 - **VA has administered more than 33,800 tests and has more than 3,000 additional tests on hand.**
 - **3,700 VA patients have tested positive for COVID-19, and we are continuing to care for these Veterans. 3,058 are at home.**
- We are also taking special care of our two most vulnerable patient populations: nursing home residents and spinal-cord injury patients.
 - To prevent the spread of the virus among these groups, VA last week adopted a "no visitor" policy, except for when patients are in the last stages of life in a hospice unit.

What should Veterans do if they believe they may have contracted the coronavirus?

- Any Veteran with symptoms such as fever, cough or shortness of breath should immediately contact their local VA facility. We urge Veterans to call before visiting.
- You can find contact information for your closest VA facility at [VA.gov](https://www.va.gov), as well as other options for reaching us, such as through a telehealth connection.
- For family members – we are urging all visitors who do not feel well to postpone their visits to VA facilities.

Fourth Mission

- VA is ready to carry out its "Fourth Mission," which is to support the broader national response in a time of crisis, if needed.
- VA stands ready to assist civilian health care systems if they hit their capacity to care for patients, a point we have not reached yet.
- If VA facilities are needed, we will coordinate with the Department of Health and Human Services, which is leading the federal effort.

- We have already deployed some staff to assist HHS, and we are working directly with the Centers for Disease Control and Prevention and other federal partners to monitor the outbreak.
- VA has served as a frontline responder to natural disasters such as the hurricanes that hit Puerto Rico and our southern states, and VA will continue in this role during this crisis.

MISSION Act and COVID-19

VA is not stopping the MISSION Act. VA is not pausing the MISSION Act.

The guidance that was sent out didn't accurately characterize what we're doing.

We are facing a public health crisis. Our job is to make sure Veterans are cared for properly and ensure they are not contracting COVID-19.

That's why VA is taking into account whether referrals for community care are clinically appropriate during the COVID-19 outbreak.

VA is taking the following steps in order to ensure the safety of Veterans as they access care:

- VA community care referrals for emergent or urgent clinical needs will continue as necessary.
- Veterans with care currently scheduled in the community should continue with this care as clinically appropriate and if available.
- Referral requests for non-emergent care with community providers will be reviewed on a case-by-case basis for immediate clinical need and with regard to the safety of the Veteran when being seen in-person, regardless of wait time or drive time eligibility.
 - There will be more community care options in areas where it is deemed safe to refer Veterans to such care and where community providers are able to accept referrals
- VA is expanding the use of telehealth and telephone sessions to address many of Veterans' routine medical needs.

FOR OFFICIAL USE ONLY
April 14, 2020

Veteran Cases

- Total positive inpatient and outpatient Veteran cases = 4,261, an increase of 164 cases (4%).
- There are 257 deaths within VHA (increase of 16)– see below for more information.

- New Mexico: 4, 1 discharged

Supplemental Funding Update
April 16, 2020

VA has received Supplemental Funding in two parts:

- March 18 – Received \$60 million to cover lost revenue from prohibition on charging a copay for COVID-19 testing or visits associated with testing. P.L. 116-127: Families First Coronavirus Response Act.
- March 27 – Received \$19.6 billion for VA in CARES legislation. P.L. 116-136: Coronavirus Aid, Relief, and Economic Security (CARES) Act.

CARES Breakout – Medical Care and Information Technology are the major recipients

- Medical Care - \$17.2B
- OIT - \$2.1B
- Balance is misc (Gen Admin, VBA, State Home Grants, OIG)

Medical Care Distribution

- Initial distribution to the Veteran Integrated Service Networks (VISNs) of **\$5.3 billion**
- This allocation was based on a couple of factors:
 - Historical workload using the same methodology we used to allocate funds for Fiscal Year 2020 (Veterans Equitable Resource Allocation (VERA) Model; and,
 - Based on the number of Medical/Surgical (Med/Surg) and Intensive Care Unit (ICU) beds at each location and the estimated cost to cover 90 days of inpatient Corona Virus Disease (COVID-19) care at each location.
- Initial allocation ensured all facilities had adequate resources to operate; we have the flexibility to adjust as necessary and target facilities experiencing higher workload/costs and are monitoring that daily

How Much VA has Spent

- As of Apr 9 we obligated \$768M and will surpass \$1B this week (week of Apr 13)

What VA is Buying

Medical Costs

- Contracts to support national purchases of PPE and equipment (e.g., ventilators) as well as costs associated with level-setting Personal Protective Equipment (PPE) and equipment throughout the country
- Travel, housing, and other support for employees deploying to other medical centers
- Salary costs incurred to hire and retain staff to support the pandemic
- Medical facility costs mostly related to reconfiguring space to open additional beds and creating negative pressure rooms
- Costs associated with Community Care to cover increased demand in the community by Veterans for both COVID-19 related and non-COVID related medical care
- Grants for Construction for State Extended Care Facilities is pending as there may need to be a technical update to allow for grant requests outside the normal grant process.

Homeless Veterans

- **Supportive Services for Veteran Families Program:** \$202 million has been allocated to provide emergency housing and homelessness prevention assistance to mitigate the expected wave of evictions and potential homelessness that will result from extensive

unemployment. Funds for this program will also assist the Housing and Urban Development -VA Supportive Housing program in placing Veterans in safe housing to isolate them from the virus.

- **Grant and Per Diem Program:** Grants from the GPD program usually consist of a capped per diem payment from VA to community organizations to provide transitional housing and supportive services to Veterans. The CARES Act allocates \$88 million to this program and allows VA to waive per diem limits during the crisis to empower GPD grantees to provide all needed emergency housing and supportive services, including emergency placement in hotels for Veterans who need to be isolated for their safety or the safety of others.
- **Health Care for Homeless Veterans Programs:** \$10 million has been allocated to provide emergency shelter and supportive services during the crisis, including placement in hotel rooms for Veterans needing emergency placement or isolation to avoid spreading the virus. Housing will be paired with care, treatment, and rehabilitative services.

OIT

- Doubled network bandwidth across all gateways to support both telework and telehealth
- Purchased 250,000 laptops to support telehealth and telework operations.
- The first 600 laptops shipped last week with 2,000 more this week
- Immediately enabling 15 additional high-priority sites for tele-ICU by mid-April

VA COVID-19 Response

- VA is ready for this emergency. We began emergency preparedness exercises weeks before the first coronavirus case was confirmed in the U.S.
- These actions were critical to our ability to meet specialized health care needs of Veterans to this day.
 - As a result of these early actions, VA facilities are equipped with supplies to handle an influx of patients.
- But we have more than supplies – we have a strategy for protecting and caring for Veterans.
- We are screening all Veterans who enter our health care facilities for flu-like symptoms to ensure the safety of patients and staff, and we are administering coronavirus tests as needed.
- The decision to test a patient depends on several factors, such as whether the patient has been in close contact with the virus, and whether the patient lives in an area where it is spreading.
- VA's testing capacity meets current demand. For the latest testing and case figures, visit [VA.gov/coronavirus](https://www.va.gov/coronavirus)
 - **VA has administered more than 40,000 tests and has more than 3,000 additional tests on hand.**
 - **4,975 VA patients have tested positive for COVID-19, and we are continuing to care for these Veterans.**
- We are also taking special care of our two most vulnerable patient populations: nursing home residents and spinal-cord injury patients.
 - To prevent the spread of the virus among these groups, VA last week adopted a "no visitor" policy, except for when patients are in the last stages of life in a hospice unit.

What should Veterans do if they believe they may have contracted the coronavirus?

- Any Veteran with symptoms such as fever, cough or shortness of breath should immediately contact their local VA facility. We urge Veterans to call before visiting.
- You can find contact information for your closest VA facility at [VA.gov](https://www.va.gov), as well as other options for reaching us, such as through a telehealth connection.
- For family members – we are urging all visitors who do not feel well to postpone their visits to VA facilities.

Fourth Mission

- VA is ready to carry out its "Fourth Mission," which is to support the broader national response in a time of crisis, if needed.
- VA stands ready to assist civilian health care systems if they hit their capacity to care for patients, a point we have not reached yet.
- If VA facilities are needed, we will coordinate with the Department of Health and Human Services, which is leading the federal effort.

- We have already deployed some staff to assist HHS, and we are working directly with the Centers for Disease Control and Prevention and other federal partners to monitor the outbreak.
- VA has served as a frontline responder to natural disasters such as the hurricanes that hit Puerto Rico and our southern states, and VA will continue in this role during this crisis.

As of 4/14/20 (new info)

VA staff data shows a dramatic jump in virtual mental health care services in March, a sign Veterans are successfully accessing care despite the challenges the pandemic has presented.

- VA Video Connect allows Veterans to consult with their healthcare provider via their computer, tablet or phone.
- Also, during March, mental health providers completed more than 34,000 appointments with Veterans using VA Video Connect, an increase of 70% from the 20,000 appointments made in February, before the pandemic. Here's a breakdown of the increases.
 - Telehealth group therapy conducted more than 2,700 visits in March, a jump of more than 200% from the prior month.
 - Mental health care and consultation delivered by phone rose to more than 154,000 appointments in March, up 280% from the 40,000 appointments in February.
 - Vet Centers across the nation held more than 47,000 virtual appointments in March, a 200% increase from February. These counseling sessions dealt with mental health issues.

MISSION Act and COVID-19

VA is not stopping the MISSION Act. VA is not pausing the MISSION Act.

The guidance that was sent out didn't accurately characterize what we're doing.

We are facing a public health crisis. Our job is to make sure Veterans are cared for properly and ensure they are not contracting COVID-19.

That's why VA is taking into account whether referrals for community care are clinically appropriate during the COVID-19 outbreak.

VA is taking the following steps in order to ensure the safety of Veterans as they access care:

- VA community care referrals for emergent or urgent clinical needs will continue as necessary.
- Veterans with care currently scheduled in the community should continue with this care as clinically appropriate and if available.

- Referral requests for non-emergent care with community providers will be reviewed on a case-by-case basis for immediate clinical need and with regard to the safety of the Veteran when being seen in-person, regardless of wait time or drive time eligibility.
 - There will be more community care options in areas where it is deemed safe to refer Veterans to such care and where community providers are able to accept referrals
- VA is expanding the use of telehealth and telephone sessions to address many of Veterans' routine medical needs.

FOR OFFICIAL USE ONLY
April 17, 2020

Veteran Cases

- Total positive inpatient and outpatient Veteran cases = 4,825, an increase of 164 cases (3%).
- Total deaths within VHA were 306 (increase of 19)– see below for more information.

- Chicago: 1 ICU inpatient

Total of 39 State Veterans' Home Patients

- Bedford: 25 State Veterans' Home patients (COVID-19 positive unit) total; 2 passed away.
- Boston: 2 transferred patients from Bedford to West Roxbury died.
- Providence: 7 community nursing home patients (COVID-19 positive unit); 6 of the 7 were transferred back to the community nursing home; the remaining patient died.
- Long Beach: 5 community nursing home patients are being transferred; 2 of the 5 tested positive and placed in the COVID-19 positive unit. Remaining 3 waiting results.

VHA Non-Veteran Bed Report (current):

Detroit	Med/Surg – 5	ICU – 13
Ann Arbor	Med/Surg – 13	ICU – 13
Hines	Med/Surg – 42	ICU – 23
Jesse Brown	Med/Surg – 34	ICU – 20

FOR OFFICIAL USE ONLY

Mission Assignments Update:

2 new pending

- Massachusetts Soldiers Home Support
 - Resource Request Number: pending
 - Assistance Requested: acute care, intensive care, and skilled nursing (nursing home) care for residents/patients
 - Initial request is for support in Chelsea, MA and Holyoke
- Rhode Island Behavioral Health

Gallup Indian Health Service

- 1 new admission last night, with a pending transfer back to Gallup.
- A ventilated COVID positive patient remains in the ICU and repeat COVID testing is positive; another patient is deconditioned but is recovering slowly.
- Accepted and received a COVID positive patient on a ventilator requiring blood pressure support and COVID ICU admission last night. Currently stable in the ICU.

**Department of Veterans Affairs (VA)
Veterans Health Administration (VHA)
VA National COVID-19 Blood Drive
SecVA Video Talking Points – April 23, 2020**

Purpose & Mission

- Due to COVID-19, thousands of blood drives in communities across the country have been cancelled as workplaces, schools, and other locations that regularly host them have closed.
- Because volunteer donors are the only source of blood and blood products necessary to treat trauma and other chronic illnesses, this has resulted in an ongoing national shortage.
- As a leader in health care, VA has an obligation to step forward to offer this support to our country. This is the time to do our part as an organization and as individuals – for the greater good.
- VA is partnering with the Red Cross and other local blood centers to sponsor blood drives at VA medical centers nationwide.
- This effort builds on local employee blood drives already underway at VA facilities across the country
- It also demonstrates our “fourth mission” to back up the nation's health system and serve our fellow citizens in times of crisis.
- VA facilities are asked to volunteer to host blood drives only after determining that it will not impact Veteran care.
- Blood drives will be staffed by the Red Cross or other blood center and will provide their own masks and supplies.

Call to Action

- If you are healthy, please **roll up your sleeve** and donate at your VA today. Visit redcrossblood.org to schedule an appointment.
- In some areas, VA works with other local blood centers to host blood drives. Check your VA medical center website for more specific information.
- Federal guidance also provides an exemption from ‘stay at home’ or ‘shelter in place orders’ to participate in the safe, lifesaving activity of blood donation.
- With a simple blood donation, you can help save the life of someone who could be a coworker, loved one or neighbor. One donation can help save more than one life.

Health and Safety

- The health and safety of Veterans, health care workers and blood donors is our top priority.
- Giving blood is safe and coronavirus or COVID-19 cannot be transmitted by giving or receiving blood.
- All blood drives adhere to the highest standards of safety and infection control including added safety precautions such as:
 - Requiring all donors and staff to wear masks.
 - Donor and staff temperature checks before entering VA donation spaces.
 - Hand sanitizer available at entry and throughout donation process.
 - Spacing donor beds/donor space 6 feet apart.

- Using antiseptic scrubs on arms and sterile blood collection sets.
- Frequent disinfectant wipe-downs of surfaces

Additional Information for Blood Donors

- Basic eligibility requirements for blood donation can be found [here at redcrossblood.org](https://www.redcrossblood.org).
- The actual donation itself only takes about 8-10 minutes. Donors can also save up to 15 minutes at the blood drive by completing the [Red Cross RapidPass®](#) questionnaire before arriving for their appointment.
- RapidPass® must be completed the day of your donation.
- Out of an abundance of caution, individuals who wish to donate are asked to postpone for 28 days following:
 - Travel to China and its special administrative regions, Hong Kong and Macau, as well as Iran, Italy and South Korea
 - Diagnosis of COVID-19 or contact with a person who or is suspected to have the virus.

FOR OFFICIAL USE ONLY
April 21, 2020

Veteran Cases

- Total positive inpatient and outpatient Veteran cases = 5,154, an increase of 115 cases (2%).
- Total deaths within VHA were 345 (increase of 19)– see below for more information.

Mission Assignments:14 Active Signed; 1 new

- **(NRCC LNOs)** - National Level Activation – Activate VA to NRCC/RRCC and other locations identified by FEMA
- **(NYC Beds)** - NYS requests VHA provide 15 Intensive Care Unit (ICU) and 35 Acute Care beds at the Manhattan/Brooklyn VAMC
- **(NJ Beds)** - VHA will provide 5 Intensive Care Unit (ICU) and 15 Acute Care beds at the East Orange VAMC
- **(Idaho Lab)** - VHA support lab testing
- **(Detroit MPU)** - Provide one (1) 53 Mobile Pharmacy Unit (MPU)
- **(Roseburg PPE Decon)** - 50 filtered face masks daily
- **(Illinois Beds)** - Beds – 45 med/surg, 15 ICU
- **(New Haven CT Homeless Outreach)** - 3 clinicians
- **(Oregon / Roseburg VAMC Beds)** - Beds - 25 Med/Surg
- **(NJ Veterans Homes)** - Nurses/Aides/ testing supplies + services/ telehealth
- **(MI Beds)** - Ann Arbor/Detroit Med/Surg 35; ICU 15
- **(Louisiana (Shreveport) beds)** - **Still active;** 16 med/surg and 2 ICU
- **(MA Soldiers Home Support)** - acute care, intensive care, and skilled nursing (nursing home) care for residents/patients. Initial request is for support in Chelsea, MA and Holyoke
- **(Florida Nursing Home Augmentation)** – 12 teams starting today, potentially up to 15 Support Teams with time

Pending Mission Assignments

- RI Behavioral Health
- Spokane Washington State Support - ICU (3) Med/Surg 5
- Washington State Veteran Homes Testing Support - Testing and SVH Support
- Washington State - Fit Testing
- North Dakota/Minnesota – delivery of meals to elderly and infirm Veterans and civilians
