EXTERNAL SENDER

Khahilia, please see below. I think that the reference to 20-2817 should be a reference to 20-2827 instead.

Let me know if you want me to do any follow up on this.

Subject: Re: Public Records Requests from American Oversight

Hi there Josh:

Thanks again for your patience as we process American Oversight's requests. Please see the results of two of the requests you've submitted on their behalf.

AZ-GOV-20-2817

Please find the responsive records attached and their attachments at the dropbox link below:

Attachments: <https://www.dropbox.com/sh/qr494gkplb9xlap/AAx29hIPOD1FQpVhT2MEf4a?dl=0>

After conducting a search for AZ-GOV-21-0317, we found no responsive records.

We continue to process American Oversight's outstanding requests.

Thanks.

Bobby

Hi there Josh,

Tried reaching you at your number. I'm reached at 858.735.4133.

Thanks.

On Fri, Jun 11, 2021 at 10:59 AM Josh Bendor <jbendor@omlaw.com> wrote:

Thanks Bobby. We have four requests outstanding and they have all been pending for a while (over 2 months from when I resent them to you). We would therefore request that you complete three of those requests (20-2827, 21-0195, and 21-0317) by the end of next week. Request 20-2855 is a lower priority and we are ok if you complete it by the end of the month. Please confirm that you can do this.

Subject: Re: Public Records Requests from American Oversight

Hi Josh,

Happy Monday. Wanted to close the loop on AZ-GOV-20-2792 and AZ-GOV-20-2924.

Per your request on AZ-GOV-20-7292, I searched the electronic mailboxes of the three individuals listed in the request and searched for any correspondence with individuals with email addresses ending in "@lgraham.senate.gov" or "judiciary-rep.senate.gov" or "@lindseygraham.com" between the dates of 11/3/2020 - 11/20/2020. Those parameters resulted in no responsive records.

You can find the responsive records for AZ-GOV-20-2924 attached. I look to get you AZ-GOV-20-2855 very soon as well as the remainder of your requests.

Thanks again for your patience as we process the remainder of your requests.

Cc: Luci Davis <ldavis@omlaw.com>
Subject: RE: Public Records Requests from American Oversight

Bobby, I wanted to follow up on this and American Oversight's other public records requests. I sent all these requests in the first week of April (three on April 1 and three on April 6). So far we have received a response to only one of them, the request marked AZ-

GOV-20-2792, and for that, all we have been told is that no responsive records were found, but we have not been provided with any information on how the search was conducted. We have not received a response on any of the remaining requests, which are:

AZ-GOV-20-2827
AZ-GOV-20-2855
AZ-GOV-20-2924
AZ-GOV-21-0195
AZ-GOV-21-0317

To avoid any further delay, we would like to reach agreement on a rolling production schedule such that responses to these requests will be completed within the next thirty days. I am happy to discuss, but since you have a better sense for the status of your efforts on each of these requests, it probably makes more sense for you to propose a production schedule than for me to do so. Please let me know what you propose or if you'd like to discuss by phone. You can also just give me a call at 602 640 9350. I'd like to get the schedule nailed down by the end of this week or early next week at the latest.

Thanks,
Josh

Subject: RE: Public Records Requests from American Oversight

Thanks Bobby. To be clear, I wasn't asking about how your office conducts public records searches generally, but how it conducted this specific search. Can you let me know? Was it an electronic search, and if so, whose files were searched and what terms were used? If it was not an electronic search, what method was used for each part of the request? Thanks
Josh

Subject: Re: Public Records Requests from American Oversight

Hi Josh,

You have asked me to provide information on how our office performs searches for public records.

Searches for public records are based on the request and may include an electronic search, a manual search or both depending on the request. When conducting an electronic search, our office will identify the appropriate custodians of the records or use the named custodians in the request and search their electronic records for the requested terms.

For records that require a manual search, our office contacts named custodians as well as unnamed custodians who might have responsive records. If responsive records are located, they are scanned and provided to the requester.

We continue to process your additional requests and aim to get them to you soon.

Thank you.

Bobby

Bobby, thanks for your email. We would appreciate more information from the Governor's office on how the search was conducted to determine that no responsive records exist. For example, if it was an electronic search, whose files were searched and what terms were used? If it was not an electronic search, what method was used for each part of the request?

Thanks so much,
Josh

Bobby,

We represent American Oversight with regards to the public records requests it has submitted to the Governor's office. Can you please let me know the status of

the responses to the following requests? We have not received acknowledgement letters or documents in response to any of them. I have identified them below using American Oversight's internal tracking numbers, which can be found in the lower right-hand corner of the documents.

- AZ-GOV-20-2792 – submitted November 19, 2020
- AZ-GOV-20-2827– submitted November 23, 2020
- AZ-GOV-20-2924 – submitted December 14, 2020

We also have other requests pending with your office, but wanted to start with these.

If it would help to discuss, please let me know when you're available, or give me a call at (602) 341-9885.

Thanks,

Josh

HOW TO READ THIS REPORT

'Hospitals' tabs: "Hospital - all responses"; "Hospital - low supply"

- Column Z: Indicates whether the facility failed one of the 5 data quality checks that we are performing to highlight responses that may be inconsistent (for example, a facility indicates 0 days of supply for N95 but indicates having units)
- Column AA: Indicates the number of "low supply" responses based on 5 PPE categories (N95s, Surgical Masks, Eye protection, Gowns, Gloves) across the 4 supply questions: Days supply, Able to obtain, Able to maintain, Units on hand
- Columns AB-BC: Provide the detailed responses for each fo the 5 PPE categories across the 4 supply questions
- Column BD: Free text response, where a facility can provide more detail on any supply issues

'LTCF' tabs: "LTCF - all responses"; "LTCF - low supply"

- Column P: Indicates the overall supply status for the facility. Options include: "Greater than 1 week supply in all PPE categories"; "Less than 1 week supply in at least 1 PPE category"; "No supply in at least 1 PPE category"
- Columns Q-AB: Provide details responses across the 5 PPE categories based on two questions: "Do you have current supply?"; "Do you have enough supply for 1 week"

2		AZ - Supplies Red Report - Non-reporting hospitals							
3		Data provisional - For Internal Use Only (FIUO)							
4									
5		This tab provides information of facilities that did not submit supplies data per the FAQ in the past week. Data intended to guide outreach to increase compliance.							
6		Note: Some facilities may be reporting non-supplies data, therefore may have a submission in the past week, but did not report supplies data.							
7		Link to FAQ (with detail on questions): https://www.hhs.gov/sites/default/files/covid-19-faqs-hospitals-hospital-laboratory-acute-care-facility-data-reporting.pdf

2		AZ - Supplies Red Report - LTCFs latest responses								
3		Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)								
4										
5		This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.								
6		Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time								
7		Link with more detail on the COVID-19 module for the NHSN survey: https://www.cdc.gov/nhsn/covid19/report-overview.html								
8										
9		Updated:	09 November 2020, 1900							
10		LTCF NHSN data updated through:	08 November 2020, 2359							
11										
12		Indicates a PPE category with "no current supply"								
13		Indicates a PPE category with "less than one week supply"								
14

1	Details	
	Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

4	11/02/2020	
5	10/23/2020 - 10/29/2020	
6	Additional information about the fields in the report is listed below.	
7	Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file.	
8	Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.	
9	The certified bed count associated with the hospital in the CMS POS file.	
10	The number of individual hospital campuses covered by the CCN level reported displayed in this report.	
11	The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.	
12	The number of the days in the prior 7 day period that the hospital reported 100% of required fields.	
13	The percentage of required fields reported over the prior 7 day period.	
14	Indicates wheter a hospital is only required to report once a week, on Wednesdays.	
15	The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.

1	Details	
	Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

5	10/30/2020 - 11/05/2020	
6	Additional information about the fields in the report is listed below.	
7	Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file.	
8	Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.	
9	The certified bed count associated with the hospital in the CMS POS file.	
10	The number of individual hospital campuses covered by the CCN level reported displayed in this report.	
11	The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.	
12	The number of the days in the prior 7 day period that the hospital reported 100% of required fields.	
13	The percentage of required fields reported over the prior 7 day period.	
14	Indicates whether a hospital is only required to report once a week, on Wednesdays.	
15	The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.

1	Details	
	Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

4	11/16/2020	
5	11/06/2020 - 11/12/2020	
6	Additional information about the fields in the report is listed below.	
7	Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file.	
8	Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through Teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.	
9	The certified bed count associated with the hospital in the CMS POS file.	
10	The number of individual hospital campuses covered by the CCN level reported displayed in this report.	
11	The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.	
12	The number of the days in the prior 7 day period that the hospital reported 100% of required fields.	
13	The percentage of required fields reported over the prior 7 day period.	
14	Indicates whether a hospital is only required to report once a week, on Wednesdays.	
15	The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.

1	Details	
	Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

4	11/23/2020	
5	11/13/2020 - 11/19/2020	
6	Additional information about the fields in the report is listed below.	
7	Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file.	
8	Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through Teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.	
9	The certified bed count associated with the hospital in the CMS POS file.	
10	The number of individual hospital campuses covered by the CCN level reported displayed in this report.	
11	The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.	
12	The number of the days in the prior 7 day period that the hospital reported 100% of required fields.	
13	The percentage of required fields reported over the prior 7 day period.	
14	Indicates whether a hospital is only required to report once a week, on Wednesdays.	
15	The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.	
16	A separate tab showing facilities currently in suspense regarding CoP requirements due to being in a work plan or other related reasons is shown if any facilities are currently in suspense. These CCNs will not be included in the tab listing all other hospitals or included in any summary counts while in suspense.

****Note: This is a state-specific email and is being sent for operational purposes only****

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- State-Level COVID-19 Profile (1 Attachment)
- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- CMS Testing Dashboard (1 Attachment)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is

being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal Emergency Management Agency (FEMA) partners.

State-Level COVID-19 Profile (as of November 22, 2020) (See Attachment)

Attached you will find the twenty-third iteration (updated 11-22-2020) of your state-level COVID-19 profile. The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from data available at the Federal level. We are looking to use consistent data sources and methods across jurisdictions. We look forward to your feedback on this iteration. ***This profile can be shared widely with other state and local officials, public health leaders, emergency management leaders, etc.***

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (as of November 23, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a [letter](#) from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – November 20, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and

facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on November 18, 2020. The LTCFs data is current as of 11:59 p.m. Eastern Time on November 22, 2020.

-

Nursing Home COVID-19 State Analysis (as of November 19, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.***

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) [National Healthcare Safety Network](#) (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

CMS Testing Dashboard (as of November 23, 2020) (See Attachment)

This file shows the number and percent of facilities in each state and county that may not be testing residents and staff as required to detect COVID-19 early and prevent its spread. States can identify facilities that should have reported resident and/or staff testing based on their county positivity rate or based on an outbreak. Once identified, we encourage states to take action to understand why a facility reported that they didn't conduct testing and identify the solutions to ensure the appropriate type of testing is conducted. We note that this information is based on self-reported data from nursing homes and therefore, may contain some errors. For instructions, users should view the "Readme" tab, which explains the data on subsequent tabs.

Hospital-Level Data Collection Report by State (November 13, 2020 – November 19, 2020) (See Attachment)

- **Background:** The [Secretary's Guidance for Hospital Reporting and FAQ](#) and the new [CMS Interim Final Rule Comment \(IFC\)](#) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes

short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.

- **Feedback:** *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.* Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard ([Website Link](#)):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov ([Website Link](#)):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - [Raw Data](#)
 - [Dashboard Map View with Search by Hospital](#)
 - [Hospital Reporting Trend Dashboard](#)
 - [State Certification Status for Hospital Reporting](#)

Shipments by U.S. Government and Commercial Distributors - AZ

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of November 20, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally except for a very minor decrease (<0.1%) in Gloves; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

Report generated on November 22, 2020. Data includes shipments through November 19, 2020 and deliveries through November 20, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on November 21 and may not reflect all PPE shipped by the end of November 21.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

AZ Nursing Home State Overview

Number of Facilities: 145

Data Source: CDC NHSN | Data as of: 11/15/2020 | Report Date: 11/19/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Summary of all AZ Nursing Homes

Residents New Weekly Confirmed Cases:	148
Residents Total Confirmed Cases:	3,388
Residents Weekly COVID-19 Deaths:	13
Residents Total COVID-19 Deaths:	661
% of Facilities with New Resident Cases this Week:	18%
% of Facilities with New Staff Cases this Week:	33%
% of Facilities with New Resident Deaths this Week:	5%

Numbers of Nursing Homes in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

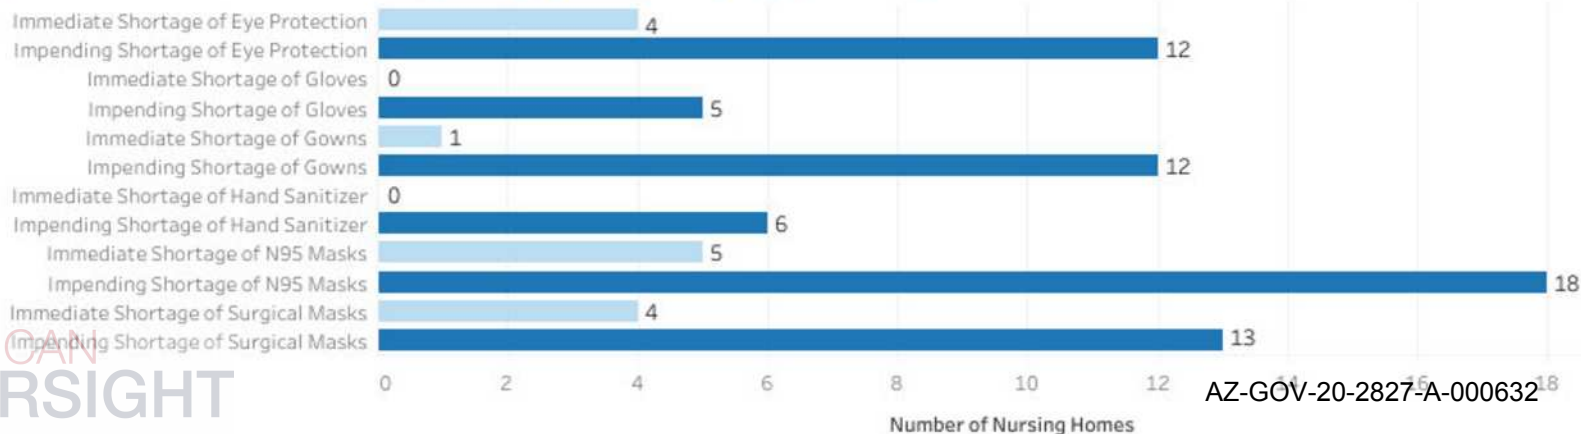

Green < 5% | Yellow 5-10% | Red >10%

Nursing Homes Reporting a Shortage in Personnel

Nursing Homes with Immediate and Impending (1 Week Out) Supply Shortages

AZ Nursing Homes That Require a Survey Due to First Case or Three or More Cases This Week

Number of Facilities: **145** | Facilities that Require a Survey: **14** | % of Facilities that Require a Survey: **10%**

A survey is an on-site visit to evaluate compliance with federal health and safety requirements.

Data Source: CDC NHSN | Data as of: 11/15/2020 | Report Date: 11/19/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Nursing Homes with an Initial Case

1 AZ nursing homes reported their first case in the last week (see below).

13 AZ nursing homes reported 3 or more cases in the last week (not shown). 14 AZ nursing homes met at least one of these criteria and will be prioritized for survey visits in the next 2-5 days to help quickly control transmission.

ARIZONA

STATE REPORT

11.22.2020

Issue 23

SUMMARY

- Arizona is in the red zone for cases, indicating 101 or more new cases per 100,000 population, with the 30th highest rate in the country. Arizona is in the red zone for test positivity, indicating a rate at or above 10.1%, with the 27th highest rate in the country.
- Arizona has seen an increase in new cases and an increase in test positivity.
- Arizona is in full resurgence and must increase mitigation back to the summer interventions. Hospitalizations are rising rapidly and Arizona must mitigate to flatten the curve.
- The following three counties had the highest number of new cases over the last 3 weeks: 1. Maricopa County, 2. Pima County, and 3. Pinal County. These counties represent 78.6% of new cases in Arizona.
- 93% of all counties in Arizona have moderate or high levels of community transmission (yellow, orange, or red zones), with 87% having high levels of community transmission (red zone).
- During the week of Nov 9 - Nov 15, 17% of nursing homes had at least one new resident COVID-19 case, 34% had at least one new staff COVID-19 case, and 3% had at least one new resident COVID-19 death.
- New hospital admissions in Arizona are dramatically increasing, especially in those over 70.
- Arizona had 304 new cases per 100,000 population, compared to a national average of 356 per 100,000.
- Current staff deployed from the federal government as assets to support the state response are: 9 to support operations activities from FEMA and 2 to support operations activities from CDC.
- Between Nov 14 - Nov 20, on average, 225 patients with confirmed COVID-19 and 237 patients with suspected COVID-19 were reported as newly admitted each day to hospitals in Arizona. This is an increase of 13% in total COVID-19 hospital admissions.

RECOMMENDATIONS

- Referring to the national profiles in the back of the packet, there is aggressive, rapid, and expanding community spread across the country, reaching over 2,000 counties. In states with aggressive mitigation, we are beginning to see the impact of that mitigation despite the cooling weather. We are also seeing stabilization in many European countries that implemented strong public and private mitigation, but preserved schooling. However, in many areas of the country, mitigation efforts are inadequate or too recently implemented to see a significant impact. All states and all counties must flatten the curve to sustain the health system for both COVID and non-COVID emergencies.
- The silent community spread that precedes and continues to drive these surges can only be identified and interrupted through proactive, focused testing for both the identification of asymptomatic and pre-symptomatic individuals. This must be combined with significant behavior change of all Americans. Ensure masks at all times in public, increase physical distancing through significant reduction in capacity in public and private indoor spaces, and ensure every American understands the clear risks of ANY family or friend interactions outside of their immediate household indoors without masks.
- Aggressive weekly testing of all members staying on Tribal lands must occur to support ongoing mitigation efforts.
- Proactive weekly testing of groups representative of the community (teachers, community college students, county workers, staff in crowded or congregate settings, all hospital personnel, large private sector employers) will help identify the depth and breadth of community infection. These cases should be triangulated with cases among long-term care facility (LTCF) staff to identify geographic areas with high numbers of asymptomatic and pre-symptomatic cases, which should then trigger widespread testing, identification, and isolation of positive cases among community members, stopping ongoing spread. These efforts to identify and reduce asymptomatic transmission should run concurrently with testing of symptomatic persons and contact tracing of cases.
- Expanded, strategic use of point-of-care antigen tests with immediate results will be critical to expanding this model into the community; these tests should be used among all individuals independent of symptoms in orange and red counties in Arizona.
- Antigen tests perform well in the highly infectious window and will be effective in identification of the asymptomatic and pre-symptomatic infectious cases.
- Antigen tests do not perform well after 8-10 days post infection when nucleic acid cycle times are >30.
- We need to protect those we are thankful for in our families and communities. Ensure indoor masking around vulnerable family members during any gatherings due to significant amount of virus circulating and the high rate of asymptomatic and undiagnosed infections among family and community members. Public spaces where masking is not possible must have a significant reduction in capacity or close.
- There are early signs of reduced N95, gown, and glove supply in specific hospitals' reporting. Please contact all hospitals reporting less than one week's supply to confirm data; contact the regional FEMA office for support if this supply issue is confirmed.
- Ensure all universities returning in the winter move to mandatory weekly testing of all on and off campus students. Planning for that must begin now.
- There continue to be high levels of positive staff at LTCF, indicative of continued and unmitigated community spread in these geographic locations.
- Specific, detailed guidance on community mitigation measures can be found on the [CDC website](https://www.cdc.gov).

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback.

Europe is experiencing a fall surge similar to the USA and is showing early signs of improvement through country-specific mitigation efforts.

- 80% (48/60 countries) require wearing masks in all public settings
 - Most countries have imposed fines for non-compliance
- 93% (56/60) have significant restrictions on gathering size
- 63% (38/60) have some form of nonessential business closures, initially focused on bars and reducing restaurant capacity
- 60% (37/60) have some form of entertainment or public space restriction
- 65% (39/60) have deployed a contact tracing app

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases: County-level data from USAFacts through 11/20/2020.

Change in SNFs with at least one resident COVID-19 case, death	≤-2%		-1% - 1%		≥2%		
Total new COVID-19 hospital admissions per 100 beds	≤2	3 - 5	6 - 10	11 - 20	21 - 30		≥31
Change in total new COVID-19 hospital admissions per 100 beds	≤-26%	-25% - -11%	-10% - 0%	1% - 10%	11% - 25%		≥26%

- Some dates may have incomplete data due to delays and/or differences in state reporting. Data may be backfilled over time, resulting in week-to-week changes. It is critical that states provide as up-to-date data as possible. Figures and values may also differ from state reports due to differing methodologies.
- Color threshold values are rounded before color classification.
- Cases and deaths:** County-level data from USAFacts as of 19:25 EST on 11/22/2020. State values are calculated by aggregating county-level data from USAFacts. Data are reviewed on a daily basis against internal and verified external sources and, if needed, adjusted.
- Testing:** The data presented represent viral COVID-19 laboratory diagnostic and screening test (reverse transcription polymerase chain reaction, RT-PCR) results—not individual people—and exclude antibody and antigen tests, unless stated otherwise. CELR (COVID-19 Electronic Lab Reporting) state health department-reported data are used to describe county-level viral COVID-19 RT-PCR result totals when information is available on patients' county of residence or healthcare providers' practice location. HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs) are used otherwise. Because the data are deidentified, total RT-PCR tests are the number of tests performed, not the number of individuals tested. RT-PCR test positivity rate is the number of positive tests divided by the number of tests performed and resulted. Last week data are from 11/12 to 11/18; previous week data are from 11/5 to 11/11; the week one month before data are from 10/15 to 10/21. HHS Protect data is recent as of 12:03 EST on 11/22/2020. Testing data are inclusive of everything received and processed by the CELR system as of 19:00 EST on 11/21/2020.
- Hospitalizations:** Unified hospitalization dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. The data presented represents raw data provided; we are working diligently with state liaisons to improve reporting consistency. Data is recent as of 18:06 EST on 11/22/2020.
- Hospital PPE:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is recent as of 18:25 EST on 11/21/2020.
- Skilled Nursing Facilities:** National Healthcare Safety Network (NHSN). Data report resident and staff cases independently. Quality checks are performed on data submitted to the NHSN. Data that fail these quality checks or appear inconsistent with surveillance protocols may be excluded from analyses. Data presented in this report are more recent than data publicly posted by CMS. Last week is 11/9-11/15, previous week is 11/2-11/8. Facilities that are undergoing reporting quality review are not included in the table, but may be included in other NHSN analyses.
- County and Metro Area Color Categorizations**
 - Red Zone:** Those core-based statistical areas (CBSAs) and counties that during the last week reported both new cases at or above 101 per 100,000 population, and a lab test positivity result at or above 10.1%.
 - Orange Zone:** Those CBSAs and counties that during the last week reported both new cases between 51-100 per 100,000 population, and a lab test positivity result between 8.0-10.0%, or one of those two conditions and one condition qualifying as being in the "Red Zone."
 - Yellow Zone:** Those CBSAs and counties that during the last week reported both new cases between 10-50 per 100,000 population, and a lab test positivity result between 5.0-7.9%, or one of those two conditions and one condition qualifying as being in the "Orange Zone" or "Red Zone."

Date: Tuesday, November 17, 2020 12:16:02 PM
Attachments: [image001.png](#)
[image002.png](#)

Governors & Senior Staff,

Thank you for your efforts in the whole-of-America approach to responding to COVID-19.

This week, you received the following state-specific documents (please let us know if you need them resent or if you have any questions):

- State-Level COVID-19 Profile
- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests (State Distribution & Direct Deployment to Higher-risk, Vulnerable populations)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data
 - Hospital & Long-Term Care Facility Supplies Data
- Summary of Nursing Home COVID-19 State Analysis
- Hospital-Level Data Collection Report by State

Additional Items of Note

- **Updated COVID-19 Medical Staffing Requests Advisory (see [here](#)):** FEMA has updated its medical staffing requests advisory with 12 actions items for state, local, and territorial governments to address. As a reminder, all requests to the Federal government must be formally communicated by your state emergency manager to your FEMA Regional Administrator. This is the same process as natural disasters (e.g., hurricane recovery, flood recovery, tornado recovery, etc.). If you have specific needs, please reach out to your FEMA Regional Administrator.
- **Building Vaccine Confidence:** The Vice President and CDC Director Redfield asked governors to engage your citizens to build vaccine confidence with a focus on reinforcing trust by sharing clear and accurate information, empowering healthcare providers, and engaging communities and individuals. CDC resources can be found [here](#). Additionally, governors and state leaders can provide input on vaccine prioritization and best practices to the Advisory Committee on Immunization Practices (ACIP) [here](#).

- **Best Practices on Asymptomatic Testing:** We welcome your input on best practices to advance asymptomatic testing. Below are a few best practices from governors. Please send any additional best practices to the White House Office of Intergovernmental Affairs.
 - **Governor Tim Walz of Minnesota** [established](#) free, “no barrier” testing access with an emphasis on reaching the 18 to 35 age group.
 - **Governor Doug Burgum of North Dakota** [established](#) free public testing events across the state with available locations and times updated weekly.
 - **Governor Gina Raimondo of Rhode Island** [established](#) an asymptomatic testing website as part of the state’s early warning system for COVID-19 surveillance with testing available for Rhode Islanders in high-contact jobs, certain age groups, travelers, etc.
 - **Governor Jim Justice of West Virginia** [established](#) immediate, free testing that is developed within 24 hours of a county moving into red, orange, or gold status.

Readout from the Trump Administration’s 41st Governors Briefing on COVID-19 Response & Best Practices

Yesterday, Vice President Mike Pence led a discussion with the chief executives and senior leaders of approximately 50 states, territories, and the city of Washington, DC, and the White House Coronavirus Task Force to discuss local, state, and federal COVID-19 response and recovery efforts including the continued collaboration on vaccine distribution and administration planning.

The Vice President discussed with governors the ongoing robust coordination with state and local governments in preparing to distribute a safe and effective vaccine. The Vice President also updated governors on the unprecedented medical and supply mobilization to support state and hospital needs.

FEMA Administrator Gaynor and General Sanford of DOD provided an update on key medical supply chain and stockpiles management. The Vice President previously asked governors to work with their state emergency managers and health teams to build a 60-day state stockpile of PPE and key supplies and to ensure healthcare providers quality and timely reporting of supplies at the provider-level (e.g., hospital, long-term care facility) to help support data-driven decision-making to ensure data-drive decisions on healthcare supplies and support. The Federal government has worked towards building a 90-day Federal stockpile for PPE and supplies, and establishing ongoing protocols to replenish the stockpile.

Dr. Fauci and Administrator Hahn provided an update on vaccine development and reminded governors about the multi-layered, transparent, and independent vaccine approval process. Commissioner Hahn also provided an update on the authorization of monoclonal antibodies as a treatment for COVID-19. Director Redfield provided an update on state vaccine distribution plans and ongoing CDC technical assistance

efforts. Secretary Azar and Operation Warp Speed Ostrowski provided an update on vaccine distribution and administrative planning. All 64 public health jurisdictions submitted their vaccine distribution microplans to the CDC in October, and the CDC reviewed and provided feedback on these iterative documents.

Administrator Verma provided an update on the comprehensive payment and funding plan allowing all Americans to access an eventual vaccine at no cost. CMS has also taken proactive measures to remove regulatory barriers and ensure consistent coverage and payment for the administration of an eventual vaccine.

Ambassador Birx provided an update on data and trends from across the Nation and discussed engagement meeting with state, local, tribal, and community leaders.

Participants from the White House Coronavirus Task Force:

- Vice President Mike Pence
- Secretary Alex Azar, *U.S. Department of Health & Human Services (HHS)*
- Ambassador Deborah Birx, *M.D., White House Coronavirus Task Force Coordinator*
- Administrator Pete Gaynor, *Federal Emergency Management Agency (FEMA)*
- Commissioner Stephen Hahn, *Food and Drug Administration (FDA), HHS*
- Administrator Seema Verma, *Centers for Medicare & Medicaid Services (CMS), HHS*
- Director Anthony Fauci, *M.D., National Institute of Allergy & Infectious Diseases, HHS*
- Director Robert Redfield, *M.D., Centers for Disease Control and Prevention (CDC), HHS*
- Brigadier General David Sanford, *Defense Supply Center & Defense Logistics Agency Aviation, DOD*
- Paul Ostrowski, *Director for Supply, Production & Distribution, Operation Warp Speed (OWS)*

Since January 2020, the Trump Administration has organized and hosted 41 governors-only briefings to drive effective communication and collaboration at every level of government. Public health incidents, like natural disasters, are locally-executed, State-managed, and Federally-supported. This is likely the most robust Federal-State collaboration in our Nation's history.

Operation Warp Speed (OWS) aims to deliver 300 million doses of a safe, effective vaccine for COVID-19 by January 2021, as part of a broader strategy to accelerate the development, manufacturing, and distribution of COVID-19 vaccines, therapeutics, and diagnostics (collectively known as countermeasures). You can find more information [here](#).

- **Week of November 13 Summary** [Here](#)

Recent Vaccine Development Announcements

- **Pfizer & BioNTech Vaccine Candidate Against COVID-19 Achieved Success in First Interim Analysis from Phase 3 Study** (details [here](#)). As part of Operation Warp Speed, the Federal government [signed](#) an agreement with Pfizer in July 2020 for up to 600 million doses of their COVID-19 vaccine.
- **Promising Interim Results from Clinical Trial of NIH-Moderna COVID-19 Vaccine** (details [here](#)). HHS Secretary Azar [said](#), “The Moderna/NIH vaccine candidate is now the second vaccine to show the potential for very high efficacy in Phase 3 trials. Operation Warp Speed has provided about \$2 billion in funding and operational support for development, manufacturing, and eventual potential delivery of the Moderna/NIH vaccine.”

Comprehensive Plan to Ensure consistent Coverage & Payment

CMS recently released a comprehensive plan with proactive measures to remove regulatory barriers and ensure consistent coverage and payment for the administration of an eventual vaccine for millions of Americans. Comprehensive plan can be found [here](#).

- **Medicare:** Beneficiaries with Medicare pay nothing for COVID-19 vaccines and their copayment/coinsurance and deductible are waived.
- **Medicare Advantage (MA):** For calendar years 2020 and 2021, Medicare will pay directly for the COVID-19 vaccine and its administration for beneficiaries enrolled in MA plans. MA plans would not be responsible for reimbursing providers to administer the vaccine during this time. Medicare Advantage beneficiaries also pay nothing for COVID-19 vaccines and their

copayment/coinsurance and deductible are waived.

- **Medicaid:** State Medicaid and CHIP agencies must provide vaccine administration with no cost sharing for most beneficiaries during the public health emergency. Following the public health emergency, depending on the population, states may have to evaluate cost sharing policies and may have to submit state plan amendments if updates are needed.
- **Private Plans:** CMS, along with the Departments of Labor and the Treasury, is requiring that most private health plans and issuers cover a recommended COVID-19 vaccine and its administration, both in-network and out-of-network, with no cost sharing. The rule also provides that out-of-network rates cannot be unreasonably low, and references CMS's reimbursement rates as a potential guideline for insurance companies.
- **Uninsured:** For individuals who are uninsured, providers will be able to be reimbursed for administering the COVID-19 vaccine to individuals without insurance through the Provider Relief Fund, administered by the Health Resources and Services Administration (HRSA).

Trump Administration Partners with Chain & Independent Community Pharmacies to Increase Access to Future COVID-19 Vaccines

To maximize access to COVID-19 vaccines for all Americans, HHS has announced the U.S. government's partnerships with large chain pharmacies and networks that represent independent pharmacies and regional chains. Through the partnership with pharmacy chains, this program covers approximately 60 percent of pharmacies throughout the 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Through the partnerships with network administrators, independent pharmacies and regional chains will also be part of the federal pharmacy program, further increasing access to vaccine across the country—particularly in traditionally underserved areas. In addition to traditional brick-and-mortar pharmacies, pharmacists, pharmacy interns, and pharmacy technicians also provide vaccinations in retail and grocery stores. Therefore, pharmacy vaccinators are crucial public health partners for increasing access and convenience of COVID-19 vaccines.

Many pharmacists and the interns and technicians working under their supervision are trained to provide immunizations and are already important immunizers in their communities. Pharmacists are also a trusted health resource in their communities, and have played a vital role in the public health response to COVID-19 by counseling patients, expanding access to childhood vaccinations during the pandemic, and ordering and administering COVID-19 tests. By working with these partners, the federal government will rapidly expand access to COVID-19 vaccines. Vaccine will be administered at partners' pharmacy locations at no cost to patients. **You can find additional information and a list of chain and community-pharmacies networks that have signed [here](#).**

ADDITIONAL INFORMATION & RESOURCES

Contacting Your FEMA Regional Administrator & Medical Staffing Needs

The Federal Emergency Management Agency (FEMA) has activated the National Response Coordination Center (NRCC). All requests to the Federal government must be formally communicated by your state emergency manager to your FEMA Regional Administrator. This is the same process as natural disasters (e.g., hurricane recovery, flood recovery, tornado recovery, etc.). **If you have specific needs, please reach out to your FEMA Regional Administrator. See for [updated COVID-19 Medical Staffing Requests Advisory](#).**

Protecting the Most Vulnerable Resources

- **HHS & CMS Launch Nursing Home Resource Center:** HHS & CMS have [launched](#) the National Nursing Home COVID-19 Action Network, a virtual mentoring and consultation network designed to protect residents and staff by reducing the spread of the novel coronavirus in nursing homes. A partnership of HHS, the Institute for Healthcare Improvement (IHI), and Project ECHO, this voluntary, collaborative program employs a 16-session curriculum rooted in case-based learning, peer-to-peer sharing, local nursing home/hospital networks, and on-demand mentoring with national experts.

- **CMS Action on Strengthening COVID-19 Surveillance with Reporting & Testing Requirements:** CMS announced sweeping [regulatory changes](#) that require nursing homes to test staff and offer testing to residents for COVID-19 regularly.
 - **Toolkit on State Action to Mitigate COVID-19 Prevalence in Nursing Homes** ([Here](#))
-

Testing & Supply Resources

- **FDA Approved Tests:** To date, the FDA has currently authorized 288 tests under EUAs; these include 223 molecular tests, 58 antibody tests, and 7 antigen tests. You can find the full list [here](#).
 - [Coronavirus Disease 2019 Testing Basics](#)
 - [A Closer Look at COVID-19 Diagnostic Testing](#)
 - **Maximizing Testing Ecosystem:** Governors and states are encouraged to maximize their entire testing ecosystem – state health lab through [pooled testing](#), academic institutions including using non-CLIA certified labs for [surveillance testing](#), [community-based testing sites](#), and utilizing 13,000+ [FQHCs](#).

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests

You and your teams continue to receive your state-specific distribution, and your shipping point-of-care will continue to receive upcoming shipping details including your initial wave of BinaxNOW tests. In September, our Nation's Governors were briefed by the Vice President on the distribution of 100 million Abbott BinaxNOW tests to our Nation's Governors and received a [letter](#) from the President. You can find additional information on BinaxNOW tests [here](#).

- **Point-of-Contact Reminder:** HHS would like to remind states, for any questions, or to file a product complaint pertaining to the BinaxNOW COVID-19 Ag Card, please contact Abbott Technical Services at 1-800-257-9525 between 8:00 a.m. – 8:00 p.m. Eastern Time between Monday – Friday. The Technical Services team can also be reached via e-mail at ts.scr@abbott.com. For shipment issues or questions, email ARDxUSGovernmentSupport@abbott.com. All other general questions can be directed to HHSBINAX@hhs.gov.

****Note: This is a state-specific email and is being sent for operational purposes only****

THE WHITE HOUSE

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- State-Level COVID-19 Profile (1 Attachment)
- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal

Emergency Management Agency (FEMA) partners.

State-Level COVID-19 Profile (as of November 15, 2020) (See Attachment)

Attached you will find the twenty-second iteration (updated 11-15-2020) of your state-level COVID-19 profile. The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from data available at the Federal level. We are looking to use consistent data sources and methods across jurisdictions. We look forward to your feedback on this iteration. ***This profile can be shared widely with other state and local officials, public health leaders, emergency management leaders, etc.***

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (as of November 16, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On Monday, September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a [letter](#) from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact shortly.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – November 13, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on November 11, 2020. The LTCFs data is current as of 11:59 p.m. Eastern Time on November 15, 2020.

Nursing Home COVID-19 State Analysis (as of November 12, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.*** These documents are now more detailed and actionable for governors.

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) [National Healthcare Safety Network](#) (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

Hospital-Level Data Collection Report by State (October 5, 2020 – November 12, 2020) (See Attachment)

- **Background:** The [Secretary's Guidance for Hospital Reporting and FAQ](#) and the new [CMS Interim Final Rule Comment \(IFC\)](#) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays

only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.

- **Feedback:** *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.* Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard ([Website Link](#)):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov ([Website Link](#)):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - [Raw Data](#)
 - [Dashboard Map View with Search by Hospital](#)
 - [Hospital Reporting Trend Dashboard](#)
 - [State Certification Status for Hospital Reporting](#)

Items of Note

- **[Promising Interim Results from Clinical Trial of NIH-Moderna COVID-19 Vaccine:](#)** HHS Secretary Azar [said](#), "More good news today from #OperationWarpSpeed: The Moderna/NIH vaccine candidate is now the second vaccine to show the potential for very high efficacy in Phase 3 trials. Operation Warp Speed has provided about \$2 billion in funding and operational support for development, manufacturing, and eventual potential delivery of the Moderna/NIH vaccine. This news is another stunning result of President Trump's leadership and his unwavering support for #OperationWarpSpeed, an incredible tribute to American scientists and innovators, and one more reminder that there is light at the end of the tunnel."
- **[Trump Administration Partners with Chain and Independent Community Pharmacies to Increase Access to Future COVID-19 Vaccines:](#)** To maximize access to COVID-19 vaccines for all Americans, HHS has announced the U.S. government's partnerships with large chain pharmacies and networks that represent independent pharmacies and regional chains. Through the partnership with pharmacy chains, this program covers approximately 60 percent of pharmacies throughout the 50

states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Through the partnerships with network administrators, independent pharmacies and regional chains will also be part of the federal pharmacy program, further increasing access to vaccine across the country—particularly in traditionally underserved areas. In addition to traditional brick-and-mortar pharmacies, pharmacists, pharmacy interns, and pharmacy technicians also provide vaccinations in retail and grocery stores. Therefore, pharmacy vaccinators are crucial public health partners for increasing access and convenience of COVID-19 vaccines. Many pharmacists and the interns and technicians working under their supervision are trained to provide immunizations and are already important immunizers in their communities. Pharmacists are also a trusted health resource in their communities, and have played a vital role in the public health response to COVID-19 by counseling patients, expanding access to childhood vaccinations during the pandemic, and ordering and administering COVID-19 tests. By working with these partners, the federal government will rapidly expand access to COVID-19 vaccines. Vaccine will be administered at partners' pharmacy locations at no cost to patients. [Here is the list of chain and community-pharmacies networks that have signed on as of November 6.](#)

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - AZ

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of October 30, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

Some commercial volumes in the past week that were missing from the previous report have been recovered in this report. Cumulative commercial volumes may be understated due to one day of missing data for one distributor. Validation with the distributor is ongoing.

Report generated on November 15, 2020. Data includes shipments through November 12, 2020 and deliveries through November 13, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on November 14 and may not reflect all PPE shipped by the end of November 14.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

AZ Nursing Home State Overview

Number of Facilities: 145

Data Source: CDC NHSN | Data as of: 11/8/2020 | Report Date: 11/12/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Summary of all AZ Nursing Homes

Residents New Weekly Confirmed Cases:	81
Residents Total Confirmed Cases:	3,247
Residents Weekly COVID-19 Deaths:	11
Residents Total COVID-19 Deaths:	647
% of Facilities with New Resident Cases this Week:	15%
% of Facilities with New Staff Cases this Week:	28%
% of Facilities with New Resident Deaths this Week:	3%

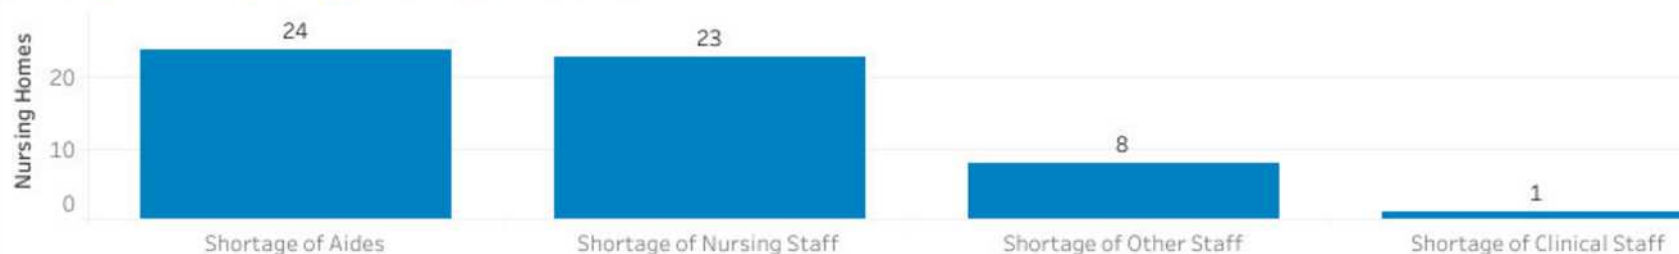

Numbers of Nursing Homes in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

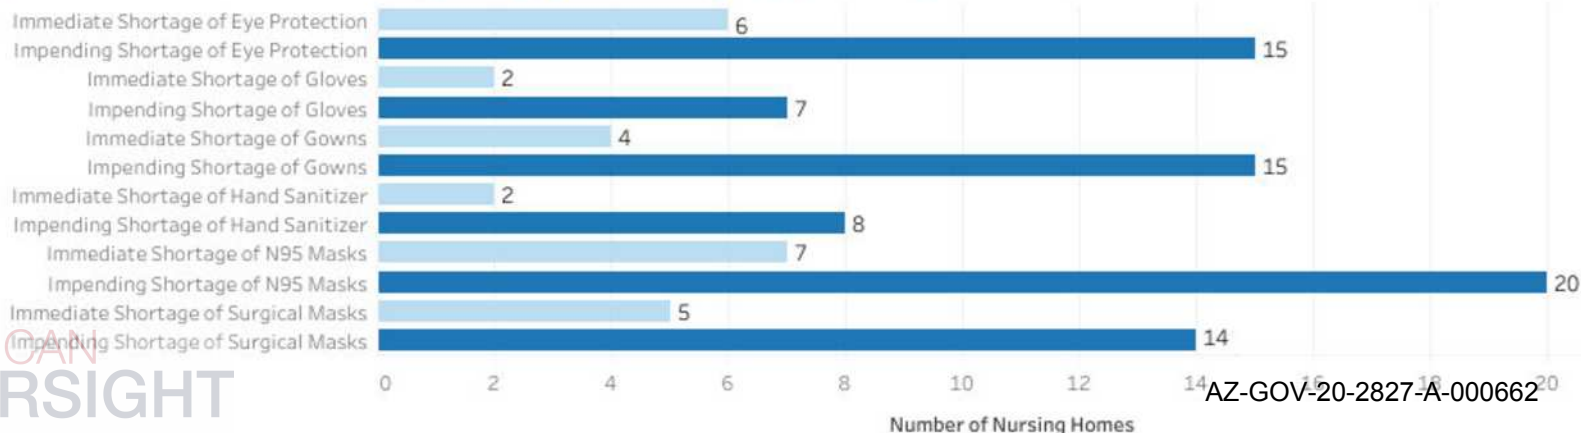

Green < 5% | Yellow 5-10% | Red >10%

Nursing Homes Reporting a Shortage in Personnel

Nursing Homes with Immediate and Impending (1 Week Out) Supply Shortages

AZ-GOV-20-2827-A-000662

AZ Nursing Homes That Require a Survey Due to First Case or Three or More Cases This Week

Number of Facilities: **145** | Facilities that Require a Survey: **8** | % of Facilities that Require a Survey: **6%**

A survey is an on-site visit to evaluate compliance with federal health and safety requirements.

Data Source: CDC NHSN | Data as of: 11/8/2020 | Report Date: 11/12/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Nursing Homes with an Initial Case

1 AZ nursing homes reported their first case in the last week (see below).
7 AZ nursing homes reported 3 or more cases in the last week (not shown). 8 AZ nursing homes met at least one of these criteria and will be prioritized for survey visits in the next 2-5 days to help quickly control transmission.

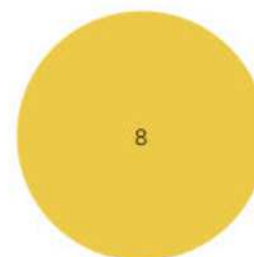

Federal Provider

Number	Provider Name	County
035293	WELLSPRINGS THERAPY CENTER OF PHOENIX	Maricopa

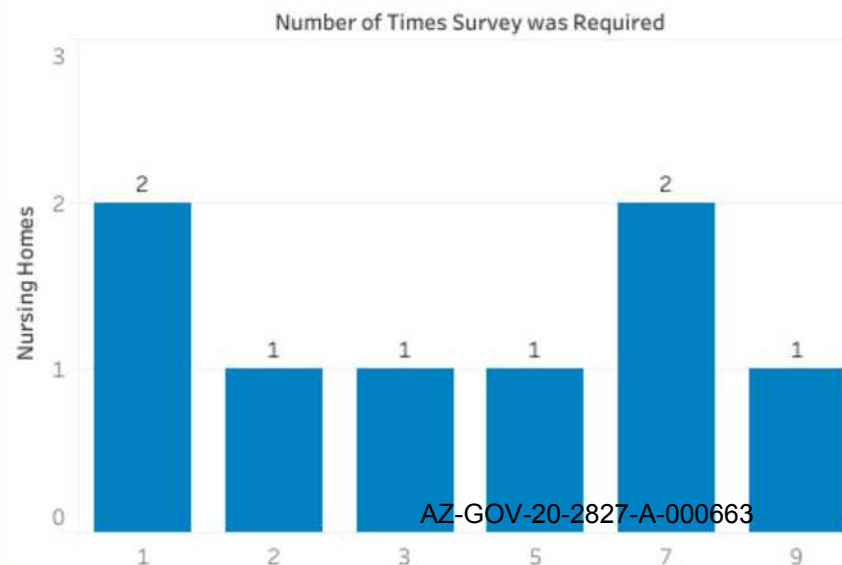

Nursing Homes that Need Surveys in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

Green < 5% | Yellow 5-10% | Red >10%

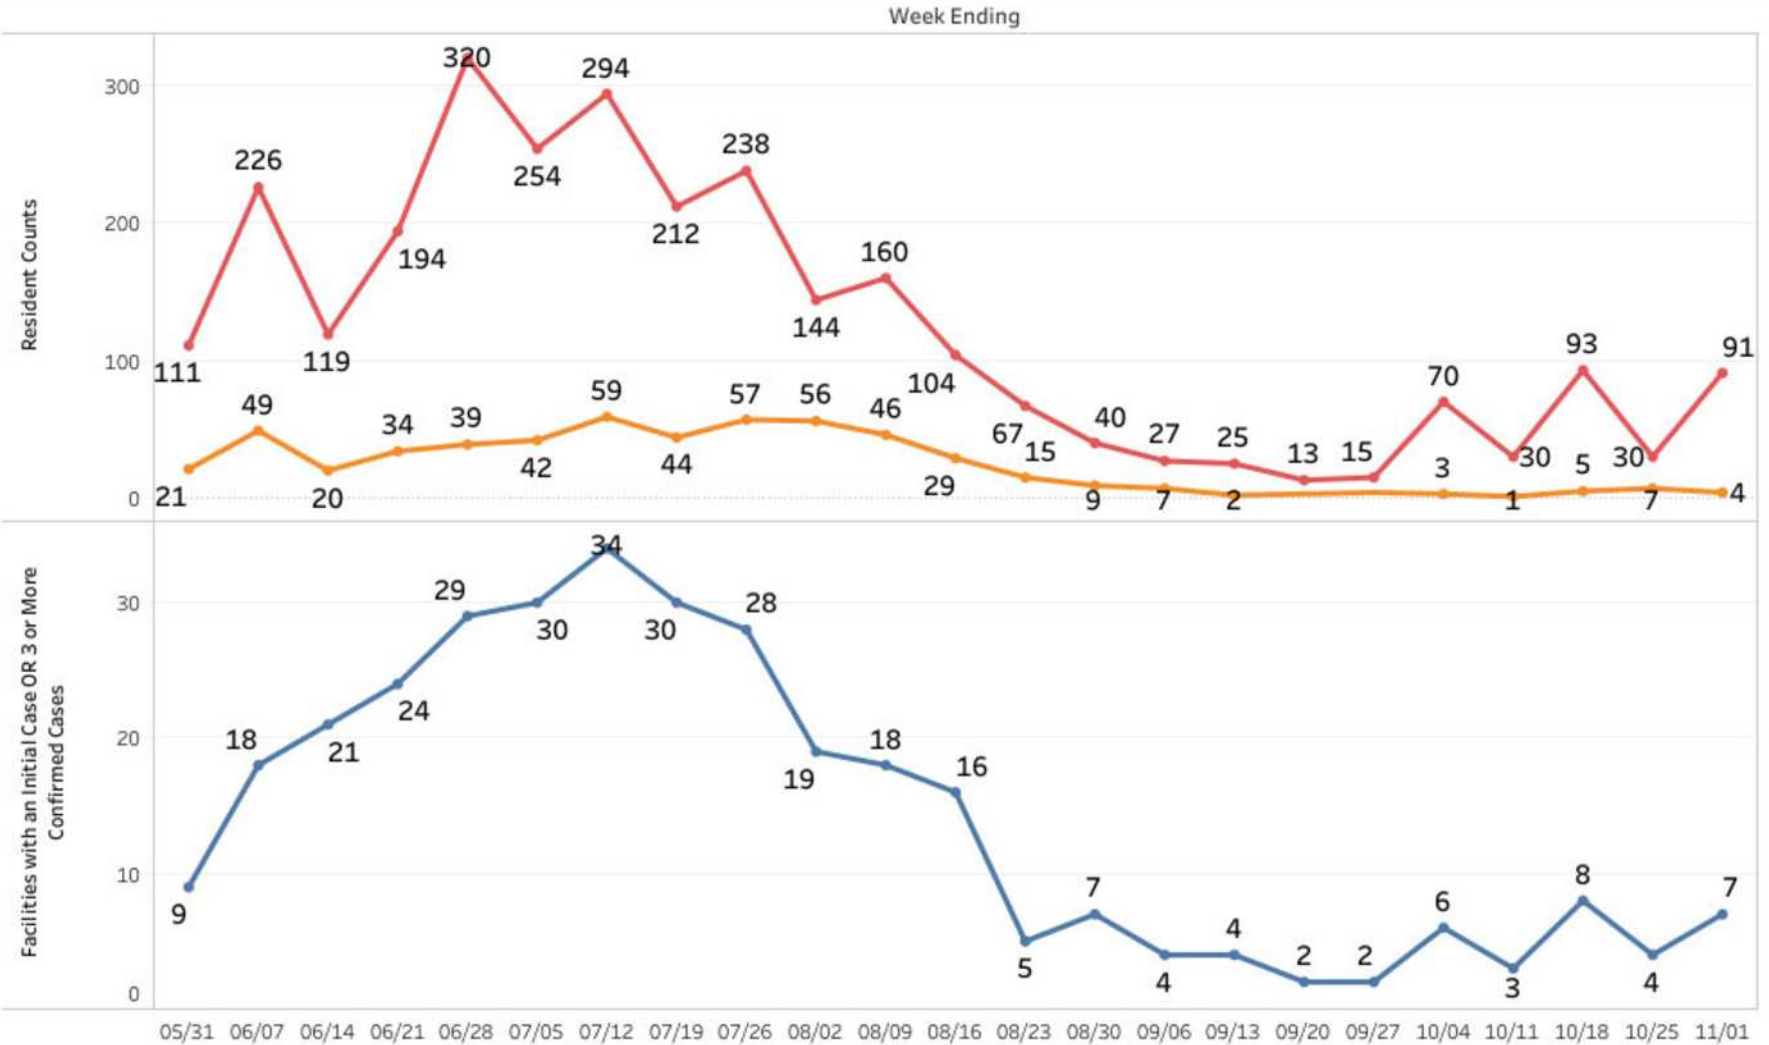

Number of Times the Nursing Homes Required a Survey

AZ Weekly Resident and Facility COVID-19 Counts

Data Source: CDC NHSN | Data as of: 11/01/2020 | Report Date: 11/13/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week. Therefore, the last reporting week is excluded from the trend lines.

ARIZONA

STATE REPORT

11.15.2020

Issue 22

SUMMARY

- Arizona is experiencing a significant resurgence of COVID with rising test positivity, cases, and hospitalizations, especially in those over 40. There is a significant increase in the counties in the red zone.
- Arizona is in the red zone for cases, indicating 101 or more new cases per 100,000 population, with the 34th highest rate in the country.
- Arizona is in the orange zone for test positivity, indicating a rate between 8.0% and 10.0%, with the 30th highest rate in the country.
- Arizona has seen an increase in new cases and an increase in test positivity.
- The following three counties had the highest number of new cases over the last 3 weeks: 1. Maricopa County, 2. Pima County, and 3. Pinal County. These counties represent 78.1% of new cases in Arizona.
- 100% of all counties in Arizona have moderate or high levels of community transmission (yellow, orange, or red zones), with 53% having high levels of community transmission (red zone).
- During the week of Nov 2 - Nov 8, 13% of nursing homes had at least one new resident COVID-19 case, 29% had at least one new staff COVID-19 case, and 3% had at least one new resident COVID-19 death.
- Arizona had 204 new cases per 100,000 population, compared to a national average of 294 per 100,000.
- Current staff deployed from the federal government as assets to support the state response are: 9 to support operations activities from FEMA; 4 to support testing activities from CDC; 8 to support epidemiology activities from CDC; and 1 to support operations activities from CDC.
- Between Nov 7 - Nov 13, on average, 168 patients with confirmed COVID-19 and 240 patients with suspected COVID-19 were reported as newly admitted each day to hospitals in Arizona. An average of 95% of hospitals reported either new confirmed or new suspected COVID patients each day during this period.

RECOMMENDATIONS

- Referring to the national profiles in the back of the packet, there is now aggressive, unrelenting, expanding broad community spread across the country, reaching most counties, without evidence of improvement but rather, further deterioration. Current mitigation efforts are inadequate and must be increased to flatten the curve to sustain the health system for both COVID and non-COVID emergencies.
- Arizona must now increase mitigation efforts as it did in the summer to flatten the curve.
- The silent community spread that precedes and continues to drive these surges can only be identified and interrupted through proactive, focused testing for the identification of both asymptomatic and pre-symptomatic individuals and significant behavior change of all Americans. Ensure masks at all times in public, increase physical distancing through significant reduction in capacity in public and private indoor spaces, and ensure every American understands the clear risks of ANY indoor interactions outside of their immediate household without masks.
- Proactive weekly testing of groups representative of the community (teachers, community college students, county workers, staff in crowded or congregate settings, all hospital personnel, large private sector employers) will help identify the depth and breadth of community infection. These cases should be triangulated with cases among long-term care facility (LTCF) staff to identify geographic areas with high numbers of asymptomatic and pre-symptomatic cases, which should then trigger widespread testing, identification, and isolation of positive cases among community members, stopping ongoing spread. These efforts to identify and reduce asymptomatic transmission should run concurrently with testing of symptomatic persons and contact tracing of cases.
- Expanded, strategic use of point-of-care antigen tests with immediate results will be critical to expanding this model into the community; these tests should be used among all individuals independent of symptoms in orange and red counties in Arizona.
- Antigen tests perform well in the highly infectious window and will be effective in identification of asymptomatic and pre-symptomatic infectious cases.
 - Antigen tests do not perform well after 8-10 days post infection when nucleic acid cycle times are greater than 30.
 - All antigen results must be reported with both the number of positive results and total tests conducted; positives must be reported as COVID cases.
- Proactive testing must be part of the mitigation efforts inclusive of mask wearing, physical distancing, and hand hygiene.
- We need to protect those we are thankful for in our families and communities. Ensure indoor masking around vulnerable family members during any gatherings due to the significant amount of virus circulating and the high rate of asymptomatic and undiagnosed infections among family and community members.
- New hospital admissions in Arizona are increasing rapidly, especially in those over 70.
- There are early signs of reduced N95, gown, and glove supply in specific hospitals' reporting. Please contact all hospitals reporting less than one week's supply to confirm data; contact the regional FEMA office for support if this supply issue is confirmed.
- Ensure university students continue their mitigation behaviors to prevent further outbreaks on or off campus. Ensure appropriate testing and behavior change in the 10 days prior to departure to hometowns for the holiday season.
- Ensure all nursing homes, assisted living, and elderly care sites have full testing capacity and are isolating positive staff and residents. There continue to be high levels of positive LTCF staff members, indicating continued and unmitigated community spread in these geographic locations.
- Ensure full flu immunizations across the state.
- Weekly testing of all Tribal members residing on reservations should be implemented immediately, providing accommodations for COVID-19 positive individuals to isolate immediately.
- Specific, detailed guidance on community mitigation measures can be found on the [CDC website](#).

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback.

Europe is experiencing a fall surge similar to the USA and is showing early signs of improvement through country-specific mitigation efforts.

- 80% (48/60 countries) require wearing masks in all public settings
 - Most countries have imposed fines for non-compliance
- 93% (56/60) have significant restrictions on gathering size
- 63% (38/60) have some form of nonessential business closures, initially focused on bars and reducing restaurant capacity
- 60% (37/60) have some form of entertainment or public space restriction
- 65% (39/60) have deployed a contact tracing app

COLOR THRESHOLDS: Results for each indicator should be taken in context of the findings for related indicators (e.g., changes in case incidence and testing volume). Values are rounded before color classification.

Metric	Dark Green	Light Green	Yellow	Orange	Red
New cases per 100,000 population per week	≤4	5 – 9	10 – 50	51 – 100	≥101
Percent change in new cases per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	≥11%
Diagnostic test result positivity rate	≤2.9%	3.0% – 4.9%	5.0% – 7.9%	8.0% – 10.0%	≥10.1%
Change in test positivity	≤-2.1%	-2.0% – -0.6%	-0.5% – 0.0%	0.1% – 0.5%	≥0.6%
Total diagnostic tests resulted per 100,000 population per week	≥2001	1001 – 2000	750 – 1000	500 – 749	≤499
Percent change in tests per 100,000 population	≥26%	11% – 25%	1% – 10%	-10% – 0%	≤-11%
COVID-19 deaths per 100,000 population per week	0.0		0.1 – 1.0	1.1 – 2.0	≥2.1
Percent change in deaths per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	≥11%
Skilled Nursing Facilities with at least one resident COVID-19 case, death	0%		1% – 5%		≥6%
Change in SNFs with at least one resident COVID-19 case, death	≤-2%		-1% – 1%		≥2%

DATA NOTES

- Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes. It is critical that states provide as up-to-date data as possible.
- Cases and deaths:** County-level data from USAFacts as of 18:35 EST on 11/15/2020. State values are calculated by aggregating county-level data from USAFacts; therefore, values may not match those reported directly by the state. Data are reviewed on a daily basis against internal and verified external sources and, if needed, adjusted.
- Testing:** The data presented represent viral COVID-19 laboratory diagnostic and screening test (reverse transcription polymerase chain reaction, RT-PCR) results—not individual people—and exclude antibody and antigen tests, unless stated otherwise. CELR (COVID-19 Electronic Lab Reporting) state health department-reported data are used to describe county-level viral COVID-19 laboratory test (RT-PCR) result totals when information is available on patients' county of residence or healthcare providers' practice location. HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs) are used otherwise. Some states did not report on certain days, which may affect the total number of tests resulted and positivity rate values. Because the data are deidentified, total viral (RT-PCR) laboratory tests are the number of tests performed, not the number of individuals tested. Viral (RT-PCR) laboratory test positivity rate is the number of positive tests divided by the number of tests performed and resulted. Resulted tests are assigned to a timeframe based on this hierarchy of test-related dates: 1. test date; 2. result date; 3. specimen received date; 4. specimen collection date. Resulted tests are assigned to a county based on a hierarchy of test-related locations: 1. patient residency; 2. provider facility location; 3. ordering facility location; 4. performing organization location. States may calculate test positivity other using other methods. Last week data are from 11/5 to 11/11; previous week data are from 10/29 to 11/4; the week one month before data are from 10/8 to 10/14. HHS Protect data is recent as of 17:58 EST on 11/15/2020. Testing data are inclusive of everything received and processed by the CELR system as of 19:00 EST on 11/14/2020.
- Hospitalizations:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. The data presented represents raw data provided; we are working diligently with state liaisons to improve reporting consistency. Data is recent as of 19:14 EST on 11/15/2020.
- Hospital PPE:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is recent as of 16:19 EST on 11/14/2020.
- Skilled Nursing Facilities:** National Healthcare Safety Network (NHSN). Data report resident and staff cases independently. Quality checks are performed on data submitted to the NHSN. Data that fail these quality checks or appear inconsistent with surveillance protocols may be excluded from analyses. Data presented in this report are more recent than data publicly posted by CMS. Last week is 11/2-11/8, previous week is 10/26-11/1. Facilities that are undergoing reporting quality review are not included in the table, but may be included in other NHSN analyses.
- County and Metro Area Color Categorizations**
 - Red Zone:** Those core-based statistical areas (CBSAs) and counties that during the last week reported both new cases at or above 101 per 100,000 population, and a lab test positivity result at or above 10.1%.
 - Orange Zone:** Those CBSAs and counties that during the last week reported both new cases between 51–100 per 100,000 population, and a lab test positivity result between 8.0–10.0%, or one of those two conditions and one condition qualifying as being in the "Red Zone."
 - Yellow Zone:** Those CBSAs and counties that during the last week reported both new cases between 10–50 per 100,000 population, and a lab test positivity result between 5.0–7.9%, or one of those two conditions and one condition qualifying as being in the "Orange Zone" or "Red Zone."

****Note: This is a state-specific email and is being sent for operational purposes only****

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- State-Level COVID-19 Profile (1 Attachment)
- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have

also included our U.S. Department of Health & Human Services (HHS) and Federal Emergency Management Agency (FEMA) partners.

State-Level COVID-19 Profile (as of November 8, 2020) (See Attachment)

Attached you will find the twenty-first iteration (updated 11-8-2020) of your state-level COVID-19 profile. The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from data available at the Federal level. We are looking to use consistent data sources and methods across jurisdictions. We look forward to your feedback on this iteration. ***This profile can be shared widely with other state and local officials, public health leaders, emergency management leaders, etc.***

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (as of November 9, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On Monday, September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a [letter](#) from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact shortly.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – November 6, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on November 4, 2020. The LTCFs data is current as of 11:59 p.m.

Eastern Time on November 8, 2020.

-

Nursing Home COVID-19 State Analysis (as of November 5, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.*** These documents are now more detailed and actionable for governors.

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) [National Healthcare Safety Network](#) (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

Hospital-Level Data Collection Report by State (October 30, 2020 – November 5, 2020) (See Attachment)

- **Background:** The [Secretary's Guidance for Hospital Reporting and FAQ](#) and the new [CMS Interim Final Rule Comment \(IFC\)](#) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of

days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.

- **Feedback:** *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.* Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard ([Website Link](#)):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov ([Website Link](#)):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - [Raw Data](#)
 - [Dashboard Map View with Search by Hospital](#)
 - [Hospital Reporting Trend Dashboard](#)
 - [State Certification Status for Hospital Reporting](#)

Items of Note

- **Pfizer & BioNTech Vaccine Candidate Against COVID-19 Achieved Success in First Interim Analysis from Phase 3 Study:** Pfizer Inc. and BioNTech SE [announced](#) their mRNA-based vaccine candidate, BNT162b2, against SARS-CoV-2 has demonstrated evidence of efficacy against COVID-19 in participants without prior evidence of SARS-CoV-2 infection, based on the first interim efficacy analysis conducted on November 8, 2020 by an external, independent Data Monitoring Committee (DMC) from the Phase 3 clinical study. As part of Operation Warp Speed, the Federal government [signed](#) an agreement with Pfizer in July 2020 for up to 600 million doses of their COVID-19 vaccine.
- [FDA Authorizes Monoclonal Antibody for Treatment of COVID-19](#)
- **Updated Vaccine Distribution & Planning Resources**

- [HHS – Governor FAQ on Vaccine Distribution & Planning](#)
- [CDC –State-by-State Interim Jurisdiction COVID-19 Vaccination Playbook Executive Summaries](#)
- [CDC – Interim Jurisdiction COVID-19 Vaccination Playbook \(Updated – Version 2.0; 75 pages\)](#)
- [CDC – Vaccine Resource Website](#)
- [CDC – Benefits of Getting a COVID-19 Vaccine](#)
- [CDC – FAQ About COVID-19 Vaccination](#)
- **HHS & CMS Launch Nursing Home Resource Center:** HHS & CMS have **launched** the National Nursing Home COVID-19 Action Network, a virtual mentoring and consultation network designed to protect residents and staff by reducing the spread of the novel coronavirus in nursing homes. A partnership of HHS, the Institute for Healthcare Improvement (IHI), and Project ECHO, this voluntary, collaborative program employs a 16-session curriculum rooted in case-based learning, peer-to-peer sharing, local nursing home/hospital networks, and on-demand mentoring with national experts.

If you have any questions about this information, please let us know.

AZ Nursing Home State Overview

Number of Facilities: 145

Data Source: CDC NHSN | Data as of: 11/1/2020 | Report Date: 11/5/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Summary of all AZ Nursing Homes

Residents New Weekly Confirmed Cases:	86
Residents Total Confirmed Cases:	3,160
Residents Weekly COVID-19 Deaths:	4
Residents Total COVID-19 Deaths:	636
% of Facilities with New Resident Cases this Week:	8%
% of Facilities with New Staff Cases this Week:	23%
% of Facilities with New Resident Deaths this Week:	3%

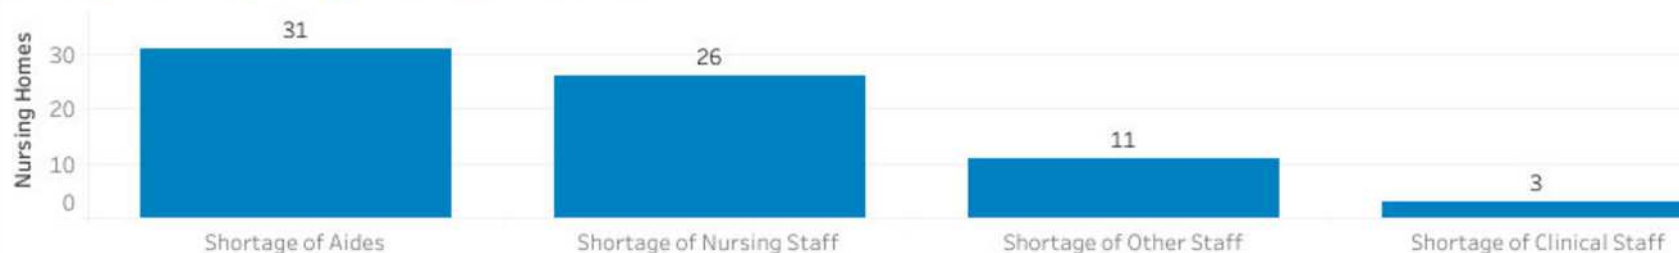

Numbers of Nursing Homes in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

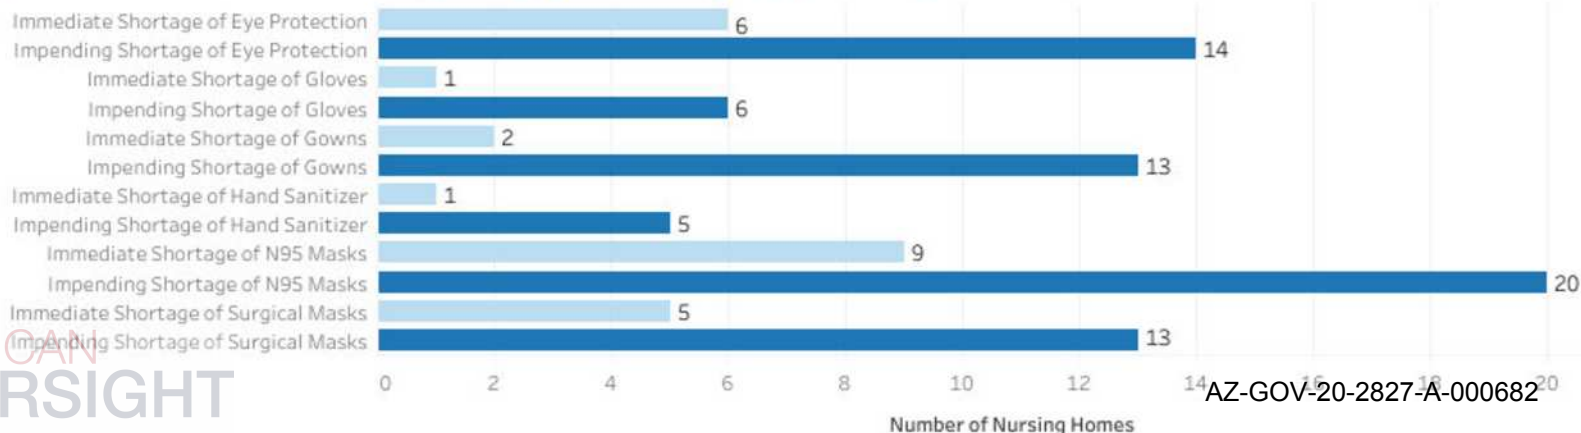

Green < 5% | Yellow 5-10% | Red >10%

Nursing Homes Reporting a Shortage in Personnel

Nursing Homes with Immediate and Impending (1 Week Out) Supply Shortages

AZ Nursing Homes That Require a Survey Due to First Case or Three or More Cases This Week

Number of Facilities: **145** | Facilities that Require a Survey: **6** | % of Facilities that Require a Survey: **4%**

A survey is an on-site visit to evaluate compliance with federal health and safety requirements.

Data Source: CDC NHSN | Data as of: 11/1/2020 | Report Date: 11/5/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Nursing Homes with an Initial Case

0 AZ nursing homes reported their first case in the last week (see below).

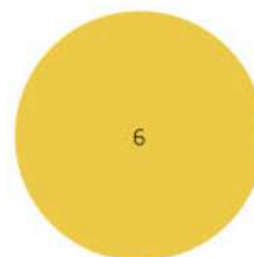

6 AZ nursing homes reported 3 or more cases in the last week (not shown). 6 AZ nursing homes met at least one of these criteria and will be prioritized for survey visits in the next 2-5 days to help quickly control transmission.

Zero nursing homes with an initial case.

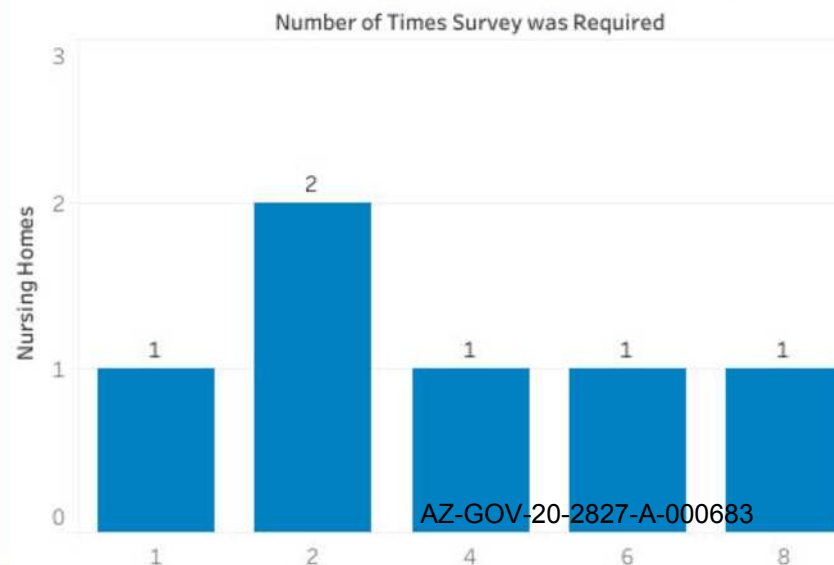

Nursing Homes that Need Surveys in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

Green < 5% | Yellow 5-10% | Red > 10%

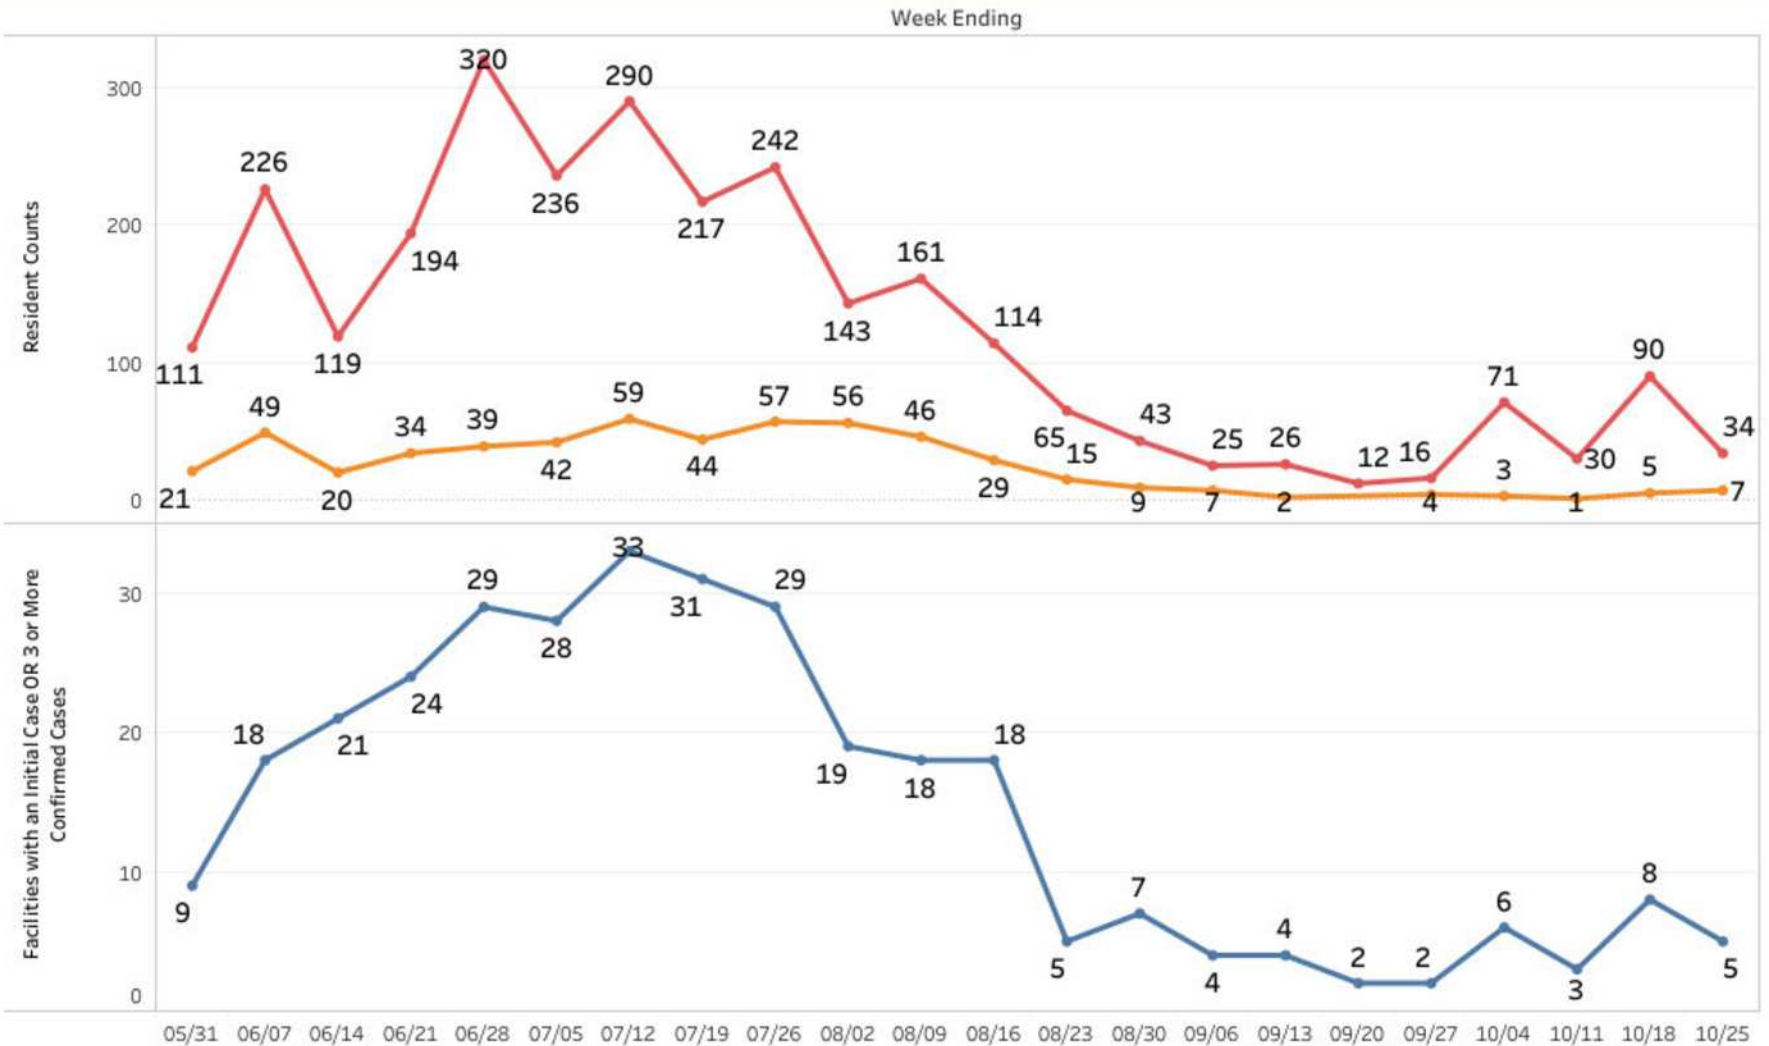

Number of Times the Nursing Homes Required a Survey

AZ Weekly Resident and Facility COVID-19 Counts

Data Source: CDC NHSN | Data as of: 9/27/2020 | Report Date: 11/5/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week. Therefore, the last reporting week is excluded from the trend lines.

■ Residents Weekly Confirmed COVID-19
■ Residents Weekly COVID-19 Deaths
■ Facilities with an Initial Case OR 3 or More Confirmed Cases

AZ-GOV-20-2827-A-000684

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - AZ

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of October 30, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

A backfill processed on November 7, 2020 reinstated U.S. government shipments from October 22, 2020 onward. Commercial volumes in the past week may be understated due to one day of missing data for one distributor. Validation with the distributor is ongoing.

Report generated on November 8, 2020. Data includes shipments through November 5, 2020 and deliveries through November 6, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on November 7 and may not reflect all PPE shipped by the end of November 7.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

ARIZONA

STATE REPORT

11.08.2020

Issue 21

SUMMARY

- Arizona is in the red zone for cases, indicating 101 or more new cases per 100,000 population, with the 32nd highest rate in the country. Arizona is in the yellow zone for test positivity, indicating a rate between 5.0% and 7.9%, with the 29th highest rate in the country.
- Arizona has seen an increase in new cases and an increase in test positivity. We are seeing a clear resurgence in community spread.
- The following three counties had the highest number of new cases over the last 3 weeks: 1. Maricopa County, 2. Pima County, and 3. Pinal County. These counties represent 78.7% of new cases in Arizona.
- 87% of all counties in Arizona have moderate or high levels of community transmission (yellow, orange, or red zones), with 27% having high levels of community transmission (red zone).
- During the week of Oct 26 - Nov 1, 8% of nursing homes had at least one new resident COVID-19 case, 26% had at least one new staff COVID-19 case, and 3% had at least one new resident COVID-19 death.
- Arizona had 147 new cases per 100,000 population, compared to a national average of 209 per 100,000.
- Current staff deployed from the federal government as assets to support the state response are: 9 to support operations activities from FEMA; 2 to support testing activities from CDC; and 9 to support epidemiology activities from CDC.
- Between Oct 31 - Nov 6, on average, 118 patients with confirmed COVID-19 and 205 patients with suspected COVID-19 were reported as newly admitted each day to hospitals in Arizona. An average of 94% of hospitals reported either new confirmed or new suspected COVID patients each day during this period.

RECOMMENDATIONS

- Refer to the national profiles in the back of the packet. There is continued, accelerating community spread across the top half of the country, where temperatures have cooled and Americans have moved indoors. Also shown is continued, significant deterioration in the Sunbelt as mitigation efforts were decreased over the past 6 weeks, leading to the most diffuse spread experienced to date.
- The silent community spread that precedes and continues throughout surges can only be identified and interrupted through proactive and increased testing and surveillance, as universities have done with frequent (weekly) required testing.
- This approach can be adapted to communities/counties in the orange or red zone with proactive weekly testing of groups from the community (teachers, community college students, county workers, staff in crowded or congregate settings, all hospital personnel, large private sector employers). These cases should be triangulated with cases among long-term care facility (LTCF) staff to identify geographic areas with high numbers of asymptomatic and pre-symptomatic cases, which should then trigger widespread proactive testing and isolation of positive cases among 18-40 year-old community members. These efforts to identify and reduce asymptomatic transmission should run concurrently with testing of symptomatic persons and contact tracing of cases.
- Expanded, strategic use of point-of-care antigen tests with immediate results will be critical to expanding this model into the community; these tests should be used among all individuals independent of symptoms in orange and red counties. Requiring use only in symptomatic individuals is preventing adequate testing and control of the pandemic.
- Antigen tests perform well in the highly infectious window and will be effective in identification of asymptomatic and pre-symptomatic infectious cases.
 - Antigen tests do not perform well after 8-10 days post infection when nucleic acid cycle times are greater than 30.
 - All antigen results must be reported with both the number of positive results and total tests conducted; positives must be reported as COVID cases.
- Proactive testing must be part of mitigation efforts inclusive of mask wearing, physical distancing, hand hygiene, and immediate isolation, contact tracing, and quarantine. All red and orange counties must begin proactive testing of 18-40 year-old community members.
- We need to protect those we are thankful for in our families and communities. Ensure indoor masking around vulnerable family members during any gatherings due to the significant amount of virus circulating and the high rate of asymptomatic and undiagnosed infections among family and community members.
- Test positivity, cases, and new hospital admissions in Arizona continue to rise; there must be increased mitigation at the community level. Mitigation efforts should continue to include wearing masks in public; physical distancing; hand hygiene; avoiding or eliminating the opportunities for mask-less crowding in public, including bars, and eliminating all social gatherings beyond the immediate household; and ensuring flu immunizations.
- Unrelenting and significant community spread is initiated by social gatherings among friends and family. People must remember that seemingly uninfected family members and friends may be infected but asymptomatic. Exposure to asymptomatic cases can easily lead to spread as people unmask in private gatherings.
- Ensure university students continue their mitigation behaviors to prevent further outbreaks on or off campus; ensure appropriate testing and behavior change in the 10 days prior to departure to hometowns for the holiday season.
- Ensure all nursing homes, assisted living, and elderly care sites have full testing capacity and are isolating positive staff and residents. There continue to be high levels of positive LTCF staff members, indicating continued and unmitigated community spread in these geographic locations.
- Weekly testing of all Tribal members residing on reservations should be implemented immediately, providing accommodations for COVID-19 positive individuals to isolate immediately.
- Specific, detailed guidance on community mitigation measures can be found on the [CDC website](https://www.cdc.gov).

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback.

METHODS

STATE REPORT | 11.08.2020

COLOR THRESHOLDS: Results for each indicator should be taken in context of the findings for related indicators (e.g., changes in case incidence and testing volume). Values are rounded before color classification.

Metric	Dark Green	Light Green	Yellow	Orange	Red
New cases per 100,000 population per week	≤4	5 – 9	10 – 50	51 – 100	≥101
Percent change in new cases per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	≥11%
Diagnostic test result positivity rate	≤2.9%	3.0% – 4.9%	5.0% – 7.9%	8.0% – 10.0%	≥10.1%
Change in test positivity	≤-2.1%	-2.0% – -0.6%	-0.5% – 0.0%	0.1% – 0.5%	≥0.6%
Total diagnostic tests resulted per 100,000 population per week	≥2001	1001 – 2000	750 – 1000	500 – 749	≤499
Percent change in tests per 100,000 population	≥26%	11% – 25%	1% – 10%	-10% – 0%	≤-11%
COVID-19 deaths per 100,000 population per week	0.0		0.1 – 1.0	1.1 – 2.0	≥2.1
Percent change in deaths per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	≥11%
Skilled Nursing Facilities with at least one resident COVID-19 case, death	0%		1% – 5%		≥6%
Change in SNFs with at least one resident COVID-19 case, death	≤-2%		-1% – 1%		≥2%

DATA NOTES

- Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes. It is critical that states provide as up-to-date data as possible.
- Cases and deaths:** County-level data from USAFacts as of 22:13 EST on 11/08/2020. State values are calculated by aggregating county-level data from USAFacts; therefore, values may not match those reported directly by the state. Data are reviewed on a daily basis against internal and verified external sources and, if needed, adjusted. Last week data are from 10/31 to 11/6; previous week data are from 10/24 to 10/30; the week one month before data are from 10/3 to 10/9.
- Testing:** The data presented represent viral COVID-19 laboratory diagnostic and screening test (reverse transcription polymerase chain reaction, RT-PCR) results—not individual people—and exclude antibody and antigen tests, unless stated otherwise. CELR (COVID-19 Electronic Lab Reporting) state health department-reported data are used to describe county-level viral COVID-19 laboratory test (RT-PCR) result totals when information is available on patients' county of residence or healthcare providers' practice location. HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs) are used otherwise. Some states did not report on certain days, which may affect the total number of tests resulted and positivity rate values. Because the data are deidentified, total viral (RT-PCR) laboratory tests are the number of tests performed, not the number of individuals tested. Viral (RT-PCR) laboratory test positivity rate is the number of positive tests divided by the number of tests performed and resulted. Resulted tests are assigned to a timeframe based on this hierarchy of test-related dates: 1. test date; 2. result date; 3. specimen received date; 4. specimen collection date. Resulted tests are assigned to a county based on a hierarchy of test-related locations: 1. patient residency; 2. provider facility location; 3. ordering facility location; 4. performing organization location. States may calculate test positivity other using other methods. Last week data are from 10/29 to 11/4; previous week data are from 10/22 to 10/28; the week one month before data are from 10/1 to 10/7. HHS Protect data is recent as of 11:59 EST on 11/08/2020. Testing data are inclusive of everything received and processed by the CELR system as of 19:00 EST on 11/07/2020.
- Hospitalizations:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. The data presented represents raw data provided; we are working diligently with state liaisons to improve reporting consistency. Data is recent as of 22:28 EST on 11/08/2020.
- Hospital PPE:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is recent as of 17:24 EST on 11/07/2020.
- Skilled Nursing Facilities:** National Healthcare Safety Network (NHSN). Data report resident and staff cases independently. Quality checks are performed on data submitted to the NHSN. Data that fail these quality checks or appear inconsistent with surveillance protocols may be excluded from analyses. Data presented in this report are more recent than data publicly posted by CMS. Last week is 10/26-11/1, previous week is 10/19-10/25. Facilities that are undergoing reporting quality review are not included in the table, but may be included in other NHSN analyses.
- County and Metro Area Color Categorizations**
 - Red Zone:** Those core-based statistical areas (CBSAs) and counties that during the last week reported both new cases at or above 101 per 100,000 population, and a lab test positivity result at or above 10.1%.
 - Orange Zone:** Those CBSAs and counties that during the last week reported both new cases between 51–100 per 100,000 population, and a lab test positivity result between 8.0–10.0%, or one of those two conditions and one condition qualifying as being in the “Red Zone.”
 - Yellow Zone:** Those CBSAs and counties that during the last week reported both new cases between 10–50 per 100,000 population, and a lab test positivity result between 5.0–7.9%, or one of those two conditions and one condition qualifying as being in the “Orange Zone.”

****Note: This is a state-specific email and is being sent for operational purposes only****

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- State-Level COVID-19 Profile (1 Attachment)
- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- Hospital-Level Data Collection Report by State (1 Attachment)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal

Emergency Management Agency (FEMA) partners.

State-Level COVID-19 Profile (as of November 1, 2020) (See Attachment)

Attached you will find the twentieth iteration (updated 11-1-2020) of your state-level COVID-19 profile. The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from data available at the Federal level. We are looking to use consistent data sources and methods across jurisdictions. We look forward to your feedback on this iteration. ***This profile can be shared widely with other state and local officials, public health leaders, emergency management leaders, etc.***

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (as of November 2, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On Monday, September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a [letter](#) from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact shortly.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – October 30, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (Updated: November 2, 2020) (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. Last week, we provided you this data in four separate Excel files. This week that data is combined into one file. The file is based on data provided by HHS Protect Unified Hospital Supplies data and NHSN Long-Term Care Facility (LTCF) supplies data.

Nursing Home COVID-19 State Analysis (as of October 29, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.*** These documents are now more detailed and

actionable for governors.

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) [National Healthcare Safety Network](#) (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

Hospital-Level Data Collection Report by State (October 23, 2020 – October 29, 2020) (See Attachment)

- **Background:** The [Secretary's Guidance for Hospital Reporting and FAQ](#) and the new [CMS Interim Final Rule Comment \(IFC\)](#) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.

- **Feedback:** *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.* Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard ([Website Link](#)):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov ([Website Link](#)):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.

If you have any questions about this information, please let us know.

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - AZ

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of 10/30/2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

Report generated on November 1, 2020. Data includes shipments through October 29, 2020 and deliveries through October 30, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on October 31 and may not reflect all PPE shipped by the end of October 31.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

AZ Nursing Home State Overview

Number of Facilities: 145

Data Source: CDC NHSN | Data as of: 10/25/2020 | Report Date: 10/29/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

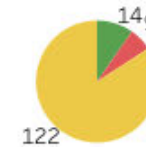

Summary of all AZ Nursing Homes

Residents New Weekly Confirmed Cases:	35
Residents Total Confirmed Cases:	3,100
Residents Weekly COVID-19 Deaths:	7
Residents Total COVID-19 Deaths:	648
% of Facilities with New Resident Cases this Week:	8%
% of Facilities with New Staff Cases this Week:	19%
% of Facilities with New Resident Deaths this Week:	3%

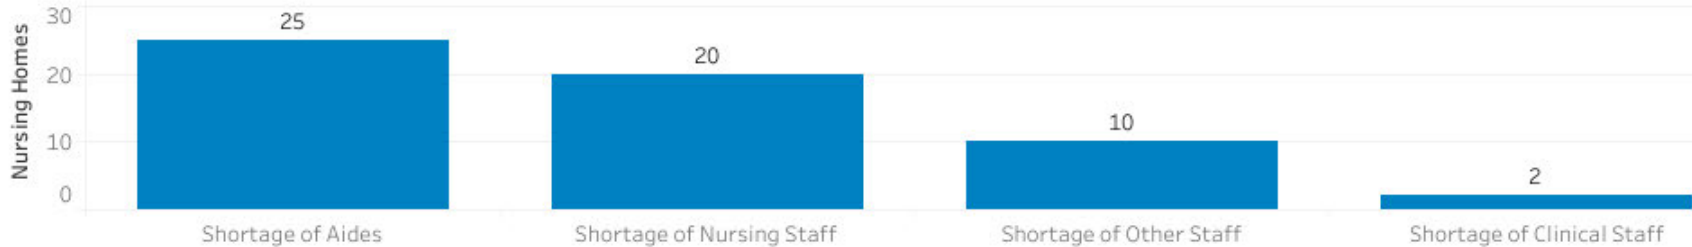

Numbers of Nursing Homes in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

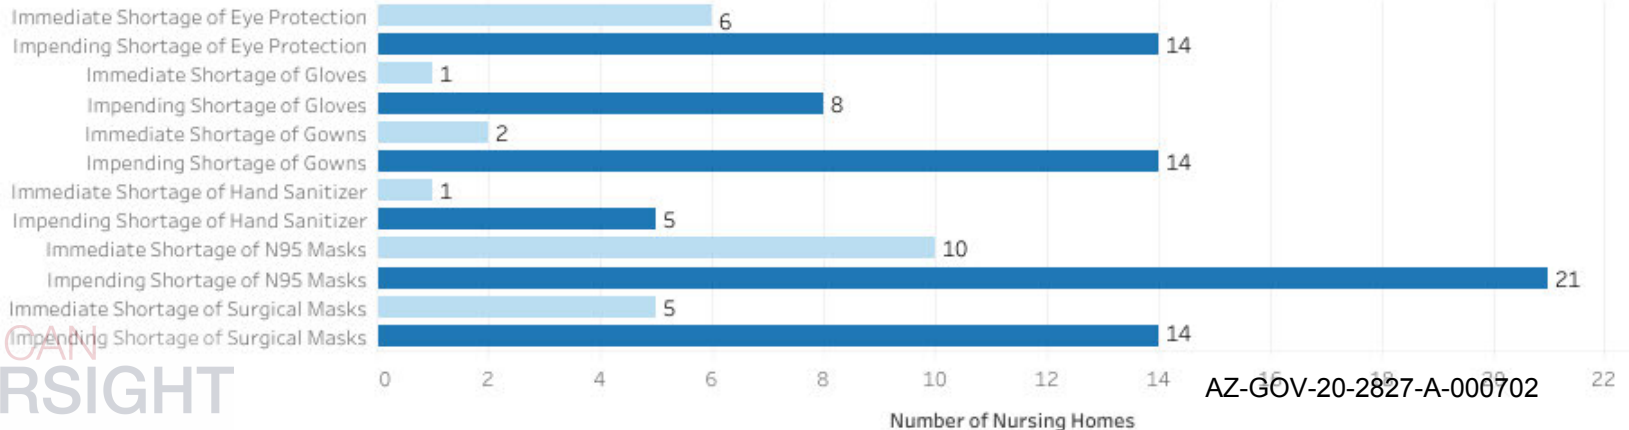

Green < 5% | Yellow 5-10% | Red >10%

Nursing Homes Reporting a Shortage in Personnel

Nursing Homes with Immediate and Impending (1 Week Out) Supply Shortages

AZ Nursing Homes That Require a Survey Due to First Case or Three or More Cases This Week

Number of Facilities: **145** | Facilities that Require a Survey: **5** | % of Facilities that Require a Survey: **3%**

A survey is an on-site visit to evaluate compliance with federal health and safety requirements.

Data Source: CDC NHSN | Data as of: 10/25/2020 | Report Date: 10/29/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Nursing Homes with an Initial Case

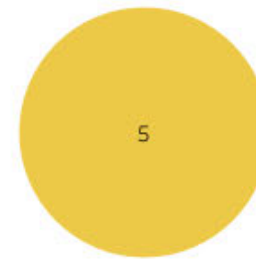

0 AZ nursing homes reported their first case in the last week (see below).
5 AZ nursing homes reported 3 or more cases in the last week (not shown). 5 AZ nursing homes met at least one of these criteria and will be prioritized for survey visits in the next 2-5 days to help quickly control transmission.

Zero nursing homes with an initial case.

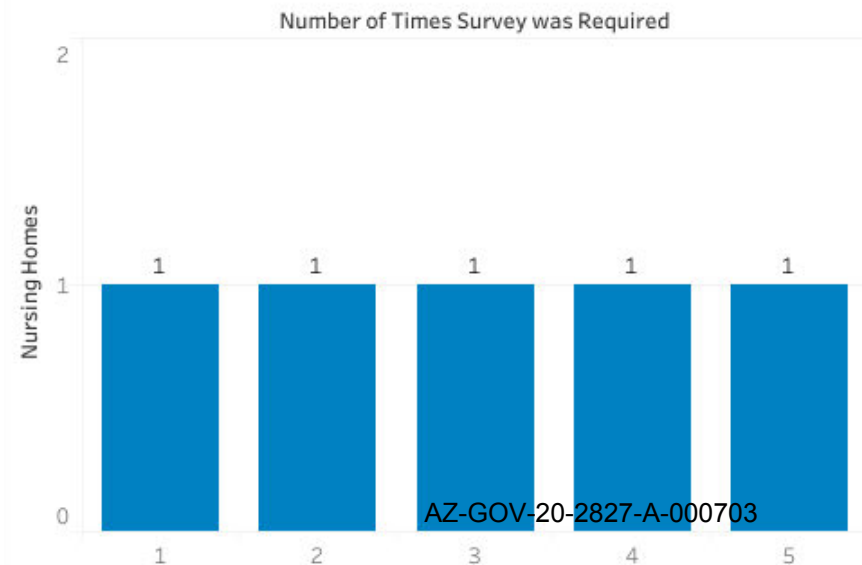

Nursing Homes that Need Surveys in Red/Yellow/Green Counties

Test Positivity Rates in AZ Counties:

Green < 5% | Yellow 5-10% | Red >10%

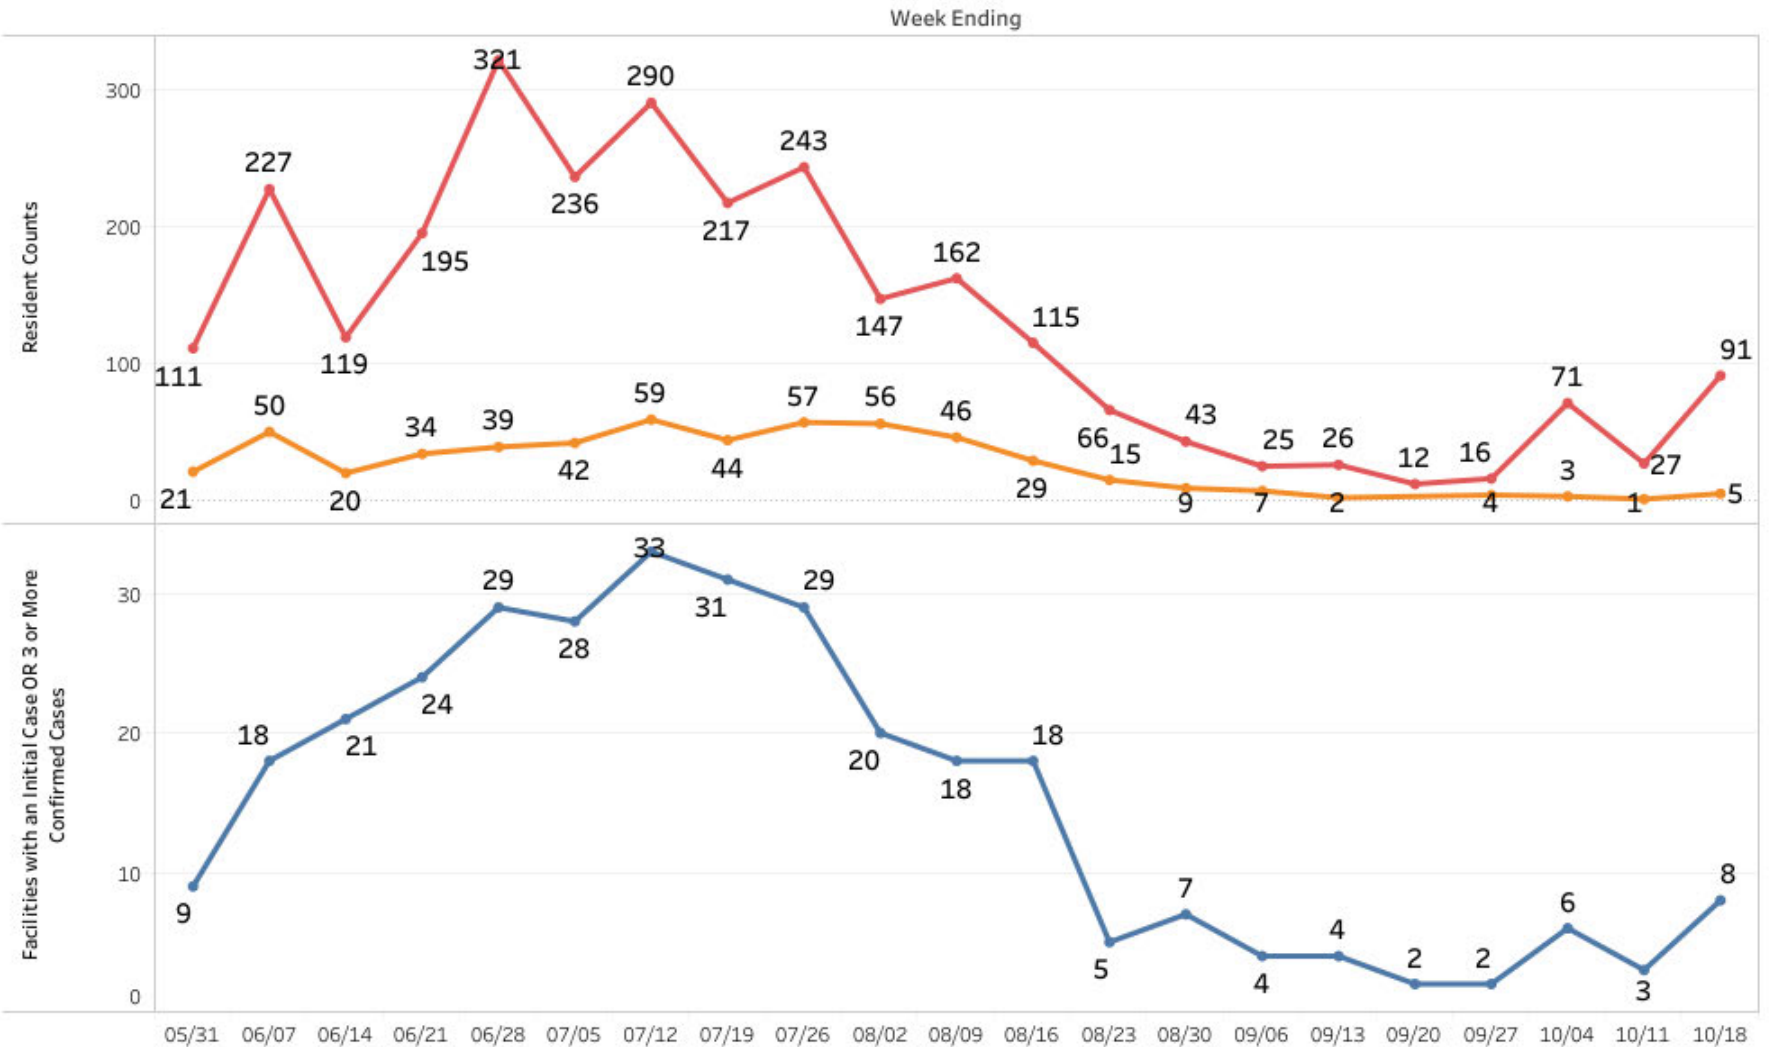

Number of Times the Nursing Homes Required a Survey

AZ Weekly Resident and Facility COVID-19 Counts

Data Source: CDC NHSN | Data as of: 9/27/2020 | Report Date: 10/29/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week. Therefore, the last reporting week is excluded from the trend lines.

ARIZONA

STATE REPORT

11.01.2020

Issue 20

SUMMARY

- Arizona is experiencing a resurgence in its epidemic and must immediately implement the mitigation efforts that worked in the summer, as well as expand testing to including the identification of the asymptomatic viral spreaders. Immediate action will prevent the exponential growth we see in other states.
- Arizona is in the red zone for cases, indicating 101 or more new cases per 100,000 population, with the 37th highest rate in the country. Arizona is in the yellow zone for test positivity, indicating a rate between 5.0% and 7.9%, with the 32nd highest rate in the country.
- Arizona has seen an increase in new cases and an increase in test positivity.
- The following three counties had the highest number of new cases over the last 3 weeks: 1. Maricopa County, 2. Pima County, and 3. Pinal County. These counties represent 77.3% of new cases in Arizona.
- 87% of all counties in Arizona have moderate or high levels of community transmission (yellow, orange, or red zones), with 20% having high levels of community transmission (red zone).
- During the week of Oct 19 - Oct 25, 8% of nursing homes had at least one new resident COVID-19 case, 19% had at least one new staff COVID-19 case, and 3% had at least one new resident COVID-19 death.
- Arizona had 112 new cases per 100,000 population, compared to a national average of 165 per 100,000.
- Current staff deployed from the federal government as assets to support the state response are: 9 to support operations activities from FEMA and 8 to support epidemiology activities from CDC.
- Between Oct 24 - Oct 30, on average, 96 patients with confirmed COVID-19 and 195 patients with suspected COVID-19 were reported as newly admitted each day to hospitals in Arizona. An average of 91% of hospitals reported either new confirmed or new suspected COVID patients each day during this period; therefore, this may be an underestimate of the actual total number of COVID-related hospitalizations. Underreporting may lead to a lower allocation of critical supplies.

RECOMMENDATIONS

- As you can see from the time sequence of maps at the back of your packet, there is a continued increase in cases, hospitalizations, and fatalities nationally, spreading southward from the coldest climates as the population moves indoors and cases increase exponentially. These maps demonstrate the previous impact of comprehensive mitigation efforts when implemented effectively in many areas and that partial or incomplete mitigation leads to prolonged community spread, hospitalizations, and increased fatalities.
- It also shows significant deterioration in the Sunbelt as mitigation efforts were decreased over the past 5 weeks.
- New hospital admissions in Arizona continue to rise, suggesting the foci of expanding community spread still exist and need to be identified and controlled.
- Arizona must expand mitigation in the counties with rising cases and hospitalizations. Mitigation efforts should continue to include wearing masks in public; physical distancing; hand hygiene; avoiding or eliminating the opportunities for mask-less crowding in public, including bars, and limiting all private social gatherings to the immediate household; and ensuring flu immunizations.
- Arizona must increase surveillance for silent community spread. Use the Abbott BinaxNOW or other antigen tests as weekly repeat surveillance in critical populations to monitor degree of silent (asymptomatic) community spread among community college students; K-12 teachers; students over 18; all hospital staff; staff working at nursing homes, assisted living, and other congregate living settings; prison staff; and first responders. Triangulate all these new positives to specific geographic locations and create testing incentives to increase testing of all community members; target all 18-35 year-old age groups to identify the highly contagious silent viral spreaders. All antigen results must be reported with both the number of positive results and total tests conducted; these must be reported as COVID cases and isolated.
- Unrelenting and significant community spread is initiated by social gatherings among friends and family. People must remember that seemingly uninfected family members and friends may be infected but asymptomatic. Exposure to asymptomatic cases can easily lead to spread as people unmask in private gatherings. There needs to be specific messaging about this type of community spread. Recruit hospital personnel to raise the alert through the media, including social media, by noting the exposure history of recent admissions; in other words, the percent of most recent hospital admissions who were infected at gatherings with family and friends.
- Ensure all K-12 schools are following CDC guidelines. Ensure university students continue their mitigation behaviors to ensure no further outbreaks on or off campus. Ensure appropriate testing and behavior change in the 10 days prior to student departure to hometowns for the holiday season.
- Ensure all nursing homes, assisted living, and elderly care sites have full testing capacity and are isolating positive staff and residents.
- Institute weekly testing of all members of Tribal Nations on reservations to stop both the asymptomatic, as well as symptomatic, community spread. It is critical to identify the asymptomatic spreaders; universities that contact traced symptomatic individuals and tested to find viral positive, asymptomatic students decreased community spread by 97% compared to colleges that only diagnosed symptomatic students and contact traced.
- Specific, detailed guidance on community mitigation measures can be found on the [CDC website](https://www.cdc.gov).

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback.

METHODS

STATE REPORT | 11.01.2020

COLOR THRESHOLDS: Results for each indicator should be taken in context of the findings for related indicators (e.g., changes in case incidence and testing volume). Values are rounded before color classification.

Metric	Dark Green	Light Green	Yellow	Orange	Red
New cases per 100,000 population per week	≤4	5 – 9	10 – 50	51 – 100	≥101
Percent change in new cases per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	≥11%
Diagnostic test result positivity rate	≤2.9%	3.0% – 4.9%	5.0% – 7.9%	8.0% – 10.0%	≥10.1%
Change in test positivity	≤-2.1%	-2.0% – -0.6%	-0.5% – 0.0%	0.1% – 0.5%	≥0.6%
Total diagnostic tests resulted per 100,000 population per week	≥2001	1001 – 2000	750 – 1000	500 – 749	≤499
Percent change in tests per 100,000 population	≥26%	11% – 25%	1% – 10%	-10% – 0%	≤-11%
COVID-19 deaths per 100,000 population per week	0.0		0.1 – 1.0	1.1 – 2.0	≥2.1
Percent change in deaths per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	≥11%
Skilled Nursing Facilities with at least one resident COVID-19 case, death	0%		1% – 5%		≥6%
Change in SNFs with at least one resident COVID-19 case, death	≤-2%		-1% – 1%		≥2%

DATA NOTES

- Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes. It is critical that states provide as up-to-date data as possible.
- Cases and deaths:** County-level data from USAFacts as of 18:13 EST on 11/01/2020. State values are calculated by aggregating county-level data from USAFacts; therefore, values may not match those reported directly by the state. Data are reviewed on a daily basis against internal and verified external sources and, if needed, adjusted. Last week data are from 10/24 to 10/30; previous week data are from 10/17 to 10/23; the week one month before data are from 9/26 to 10/2.
- Testing:** The data presented represent viral COVID-19 laboratory diagnostic and screening test (reverse transcription polymerase chain reaction, RT-PCR) results—not individual people—and exclude antibody and antigen tests, unless stated otherwise. CELR (COVID-19 Electronic Lab Reporting) state health department-reported data are used to describe county-level viral COVID-19 laboratory test (RT-PCR) result totals when information is available on patients' county of residence or healthcare providers' practice location. HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs) are used otherwise. Some states did not report on certain days, which may affect the total number of tests resulted and positivity rate values. Because the data are deidentified, total viral (RT-PCR) laboratory tests are the number of tests performed, not the number of individuals tested. Viral (RT-PCR) laboratory test positivity rate is the number of positive tests divided by the number of tests performed and resulted. Resulted tests are assigned to a timeframe based on this hierarchy of test-related dates: 1. test date; 2. result date; 3. specimen received date; 4. specimen collection date. Resulted tests are assigned to a county based on a hierarchy of test-related locations: 1. patient residency; 2. provider facility location; 3. ordering facility location; 4. performing organization location. States may calculate test positivity other using other methods. Last week data are from 10/22 to 10/28; previous week data are from 10/15 to 10/21; the week one month before data are from 9/24 to 9/30. HHS Protect data is recent as of 10:22 EST on 11/01/2020. Testing data are inclusive of everything received and processed by the CELR system as of 19:00 EDT on 10/31/2020.
- Hospitalizations:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. The data presented represents raw data provided; we are working diligently with state liaisons to improve reporting consistency. Data is recent as of 18:40 EST on 11/01/2020.
- Hospital PPE:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is recent as of 18:58 EDT on 10/31/2020.
- Skilled Nursing Facilities:** National Healthcare Safety Network (NHSN). Data report resident and staff cases independently. Quality checks are performed on data submitted to the NHSN. Data that fail these quality checks or appear inconsistent with surveillance protocols may be excluded from analyses. Data presented in this report are more recent than data publicly posted by CMS. Last week is 10/19-10/25, previous week is 10/12-10/18. Facilities that are undergoing reporting quality review are not included in the table, but may be included in other NHSN analyses.
- County and Metro Area Color Categorizations**
 - Red Zone:** Those core-based statistical areas (CBSAs) and counties that during the last week reported both new cases at or above 101 per 100,000 population, and a lab test positivity result at or above 10.1%.
 - Orange Zone:** Those CBSAs and counties that during the last week reported both new cases between 51–100 per 100,000 population, and a lab test positivity result between 8.0–10.0%, or one of those two conditions and one condition qualifying as being in the “Red Zone.”
 - Yellow Zone:** Those CBSAs and counties that during the last week reported both new cases between 10–50 per 100,000 population, and a lab test positivity result between 5.0–7.9%, or one of those two conditions and one condition qualifying as being in the “Orange Zone.”

[Overview of WHF Program.pdf](#)
[White House Appoints 2020-2021 Class of White House Fellows.pdf](#)

Dear Mr. Scarpinato:

On behalf of the President's Commission on White House Fellowships, I am excited to share the news that the application window for the 2021-2022 fellowship year is now open. I hope that you will receive the attached letter to Governor Ducey. As you can see, the letter details the opportunity for citizens of Arizona to apply for the program.

Since 1964, the White House Fellows program has offered over 800 exceptional Americans first-hand experience working with top officials from across the federal government. This uniquely non-partisan program has continued through ten Presidential Administrations and continues to be one of our nation's most prestigious programs for leadership and public service.

The 2021-2022 White House Fellowship program year will begin in September 2021 and conclude in September 2022. All applicants must be a U.S. citizens and have completed their undergraduate education.

Interested individuals may apply at: <https://fellows.whitehouse.gov/>. The application is available online will remain open until January 6, 2021, at 5:00 p.m. ET. We hope that you will share the news about this potential opportunity with your constituents. With your help, this very special, non-partisan program will continue to flourish.

Also attached is an overview of the program and the biographies of this year's Fellows. Please feel free to reach out to me or to McKinley Scholtz, Acting Deputy Director of the President's Commission on White House Fellowships at 202-395-4522. McKinley may also be reached by email at McKinley.M.Scholtz@who.eop.gov.

Thanks so much for your consideration of this request. Your support for the White House Fellowship will greatly strengthen the program in the years ahead.

Best regards,

Elizabeth

Elizabeth Dial Pinkerton
Director
President's Commission on White House Fellowships

PRESIDENT'S COMMISSION ON
WHITE HOUSE FELLOWSHIPS
THE WHITE HOUSE

November 13, 2020

The Honorable Doug Ducey
Governor of Arizona
1700 W. Washington Street
Phoenix, AZ 85007

Dear Governor Ducey:

The purpose of this letter is to seek your consideration in encouraging up-and-coming leaders in your state to consider applying to the White House Fellows Program. On behalf of the President's Commission on White House Fellowships, I am writing to you because we are particularly interested in identifying highly qualified candidates from a diverse set of backgrounds.

Since its inception in 1964, the White House Fellowship has served as a uniquely non-partisan program committed to leadership and service. Its goal is to identify those with great leadership potential, bring them to Washington, D.C., for one year to learn how our government works, and then have them return to their communities to do great things for our nation.

Each year, through a rigorous selection process, between 11 and 19 young leaders from across the country – and from a range of career fields – are selected to become White House Fellows. As Fellows, they serve for one year in Washington D.C., working with high-ranking officials across the Executive Branch including Cabinet Secretaries, senior White House aides, and other key leaders. The Fellowship also includes an extensive education program, including carefully planned policy trips, both international and domestic, when possible. The Fellows receive a federal salary and benefits. At the end of their Fellowship year, they will have gained a deep understanding of the workings of government at the highest levels.

Over the last half-century, the over 800 alumni of the Fellowship include numerous CEO's, Members of Congress, governors, state legislators, senior cabinet officials, non-profit leaders, clergy, scientists, engineers—even Pulitzer-prize winning authors.

The 2021-2022 White House Fellowship program year will begin in September 2021 and conclude in September 2022. All applicants must be U.S. citizens and have completed their undergraduate education. Federal Government employees are not eligible, with the exception of active duty military personnel. However, state and local government employees are eligible. Interested individuals may apply at: <https://fellows.whitehouse.gov/>. The application is available beginning November 2, 2020, and will remain open until January 6, 2021, at 5:00 p.m. ET.

I would be delighted to provide further perspective on this very special program. On behalf of the President's Commission on White House Fellowships, thank you in advance for your consideration. Please feel free to reach out to me at 202-395-4522 or by email at Elizabeth.D.Pinkerton@who.eop.gov. Thank you in advance for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Elizabeth', with a stylized flourish at the end.

Elizabeth Dial Pinkerton
Director
President's Commission on White House Fellowships

"A genuinely free society cannot be a spectator society... Freedom, in its deepest sense, requires participation. It requires full and zestful, knowledgeable participation."

— President Lyndon B. Johnson

WHITE HOUSE FELLOWS PROGRAM OVERVIEW

Founded in 1964, the President's Commission on White House Fellowships is the nation's premiere program for leadership and public service. The White House Fellowship offers exceptional Americans first-hand experience working at the highest levels of the Federal government. After a competitive application process, selected individuals spend a year in Washington, D.C. working as a full-time, paid Fellow aiding Cabinet Secretaries, senior White House staff, and other top-ranking government officials. Fellows also participate in an education program consisting of roundtable discussions with renowned leaders from the private and public sectors. Fellowships are awarded on a strictly non-partisan basis.

PROGRAM MISSION

In the words of President Lyndon B. Johnson, the purpose of the White House Fellows Program is "to give the Fellows first-hand, high-level experience with the workings of the Federal Government and to increase their sense of participation in our national affairs." In describing the criteria for selection, President Johnson envisioned Fellows who "have demonstrated high moral character, exceptional ability, marked leadership qualities, and unusual promise of future development." For 55 years, the White House Fellows program has delivered on this vision. After their year of service, Fellows are expected to take their acquired skills and knowledge back to their communities to work as private citizens and as national leaders in their fields.

SELECTION CRITERIA

- ◆ A record of remarkable professional achievement early in one's career.
- ◆ Evidence of leadership skills and the potential for further growth.
- ◆ A demonstrated commitment to public service.
- ◆ The skills to succeed at the highest levels of the Federal government, and the ability to work effectively as part of a team.

APPLICANT ELIGIBILITY

- ◆ Applicant must be a U.S. citizen.
- ◆ Federal government employees are not eligible, with the exception of career military personnel and some special government employees.
- ◆ Applicants must have completed their undergraduate education.
- ◆ Applications are available online in November and are due in January of each year and the Fellowship runs from August to August.

PROGRAM COMPONENTS

WORK PLACEMENT

The primary aim of the Fellowship is to place the Fellows in a work environment where positive role models provide mentorship and guidance and where they can make the greatest contribution. The work placement should tap the Fellows' full capacity and develop their abilities further. Fellows are not always assigned to a Federal agency associated with the Fellow's area of expertise.

EDUCATION PROGRAM

The education program supplements the Fellows' experience in their placements. The education component of the program provides off-the-record, candid discussions with distinguished leaders. Through the education program, Fellows gain valuable insights into the decision-making processes used to solve complex issues. They also learn about various management philosophies and leadership styles.

CLASS FELLOWSHIP

Among the most enriching components of the program is class fellowship, which often results in enduring friendships. Alumni convene at yearly meetings in Washington, D.C. and welcome new Fellows into one of the most prestigious networks of professionals and leaders in the country.

COMMUNITY SERVICE

Community service is a key component of the White House Fellowship. Fellows have a strong legacy of service to their communities and have consistently participated in community service projects throughout their year in Washington, D.C.

An important outcome of the Fellowship is to foster greater military-civilian engagement and understanding. Through a variety of activities, Fellows gain a deeper understanding about the important contributions of our service men and women, and the operations of our military. This component is among the most enriching aspects of the White House Fellowship and what makes the program truly unique and rewarding.

IMPACT OF THE FELLOWSHIP

Fellows make notable contributions during their year of service and continue to impact our communities, our country, and the world. Since 1964, over 800 Americans have participated in the White House Fellows program. Among them are prominent public and private sector leaders like Pulitzer Prize-winning author and historian, Doris Kearns Goodwin, Secretary Elaine L. Chao, former United States Ambassador to Japan, Bill Hagerty, and former Secretary of State General Colin Powell, who described the program as a "turning point" in his career. While these distinguished individuals are well-known, the ranks of the fellows alumni also include a Soldier's Medal recipient, the U.S. Army's highest decoration for valor in a non-combat situation, awarded for bravery exhibited during the Boston Marathon bombing, CEOs, teachers, social entrepreneurs, scientists, and founders of nonprofit organizations who we are proud to count as White House Fellows. Through this rich diversity of talent and experience, the Fellows family is united by an enduring commitment to public service.

Make an impact. Become a White House Fellow.

AZ-GOV-20-2827-A-000723

Office of the Press Secretary

FOR IMMEDIATE RELEASE

October 29, 2020

White House Appoints 2020 - 2021 Class of White House Fellows

Today, the President's Commission on White House Fellows announced the appointment of the 2020-2021 class of White House Fellows. The highly regarded White House Fellowship provides professionals from diverse backgrounds an opportunity to engage in public service for one year by serving in various roles in the Federal Government.

Created in 1964 by President Lyndon B. Johnson, the White House Fellows Program was designed "to give the Fellows first hand, high-level experience with the workings of the Federal Government and to increase their sense of participation in national affairs." The Fellowship was created as a non-partisan program and has maintained this tradition throughout both Republican and Democratic administrations. The mission of the White House Fellows Program is to encourage active citizenship and service to the Nation. Throughout the year, Fellows participate in an education program that expands their knowledge of leadership, policy-making, and contemporary issues. Community service plays a vital role in the program, and Fellows take part in service projects throughout the year.

The highly competitive selection process to become a White House Fellow is based on a record of professional accomplishment, evidence of leadership skills, the potential for further growth, and a commitment to service. Selected

individuals spend one year working as a full-time, paid fellow to senior White House Staff, Cabinet Secretaries, and other top-ranking government officials. Applications for the 2021-2022 Fellowship year will be accepted from November 2, 2020- January 6, 2021, at 5:00 p.m. ET. The application link and additional information is available at <https://www.whitehouse.gov/get-involved/fellows/>.

2020-2021 Class of White House Fellows:

Steve Clagett, Jr. is from Chesapeake Beach, Maryland, and is placed at the United States Department of Labor. Steve is a Lieutenant Commander in the United States Navy Reserve and a Navy SEAL. Since February 2020, Steve has worked with the Baltimore Ravens Player Personnel Department. In this position, he assisted with talent selection and preparations for the virtual NFL Draft. In the previous 13 years, he deployed to the Middle East, Africa, Europe, and the Pacific in support of Operation Enduring Freedom and Operation Iraqi Freedom. Steve's military awards include citations for combat deployments in Iraq, Afghanistan, Yemen, and Africa. Steve is a Commissioner with Maryland's Veterans Home Commission and a small business owner. He volunteers with Farming 4 Hunger, which is a non-profit organization that provides local produce for food banks in Southern Maryland while building a stronger community. Steve earned a Bachelor of Arts in Sociology with a minor in Public Service from the University of Notre Dame. He was a 4-year letter winner and 2-time captain on the lacrosse team. He is finishing a Master of Business Administration from the University of Virginia Darden School of Business.

Pia Dandiya is from Jupiter, Florida, and is placed at the United States Department of Education. Pia is the founding principal of Democracy Prep

Endurance High School in Harlem, New York. Every single graduate of her school went on to attend college despite nearly all living below the poverty line. Pia founded her high school at 28 years old, making her among the youngest principals in the country at the time. Her school remains one of the highest performing in New York and has earned the title of “Recognition School” for its high academic achievement. Pia began her career in Boston with Teach For America as a middle school math teacher, where she led her students to the highest growth percentile in state assessments at her school. Before transitioning to school leadership, Pia was a Manager of Teacher Leadership Development for Teach For America in New York, and a teacher at the first all-boys charter school in the country, Excellence Boys Charter School. She has been featured in national news pieces on effective teaching and speaks three languages, including Spanish and Hindi. Pia earned a Bachelor of Arts in Government from Harvard University and has a Master of Education from Boston University.

Lindsey Gerheim is from Alpharetta, Georgia, and is placed at the United States Department of Commerce. Following family tradition, she is the sixth to serve in law enforcement, seventh in the military, and first to combine paths as a United States Army Military Police Officer. Lindsey has deployed and led combat missions in Iraq, trained the Army’s newest officers, and served as Operations Officer for criminal investigators serving over 1 million personnel across 5 continents. As a Major in the United States Army, Lindsey previously served in Kuwait as Aide-de-Camp for the Army Central Command’s Deputy Commander, where she worked with United States Ambassadors and host nation military leaders in support of security initiatives across 20 nations. In Guantanamo Bay, Cuba, her unit was responsible for security of all high-value detainees and earned the Army’s Superior Unit Award. Lindsey has earned two Military Outstanding Volunteer Service Medals for her mentorship with youth

softball and ‘Sisters in Arms’ programs. Lindsey earned a Bachelor of Science from the United States Military Academy at West Point, where she was an All-American Scholar-Athlete and co-captain of Army’s Division-1 softball team. She earned a Master of Arts from Webster University and a National Academy Certificate from the Federal Bureau of Investigations.

Aleksas Juskys is from Wilmette, Illinois, and is placed at the Office of the Chief of Staff at the White House. Aleksas is a senior director of business operations at Rapid7, a leading cybersecurity company focused on strategic long-term growth for global go-to-market initiatives. Aleksas has worked at GE Aviation, where he was the Chief Financial Officer and operations leader for a \$1.5 billion military jet engine division. Aleksas also served in the United States Air Force as a fighter pilot, where he logged nearly 2,000 hours in the F-16, including combat missions in support of Operation Enduring Freedom. Aleksas served as an F-16 Instructor Pilot at the United States Air Force Weapons School. There, he planned and led large missions utilizing over \$12 billion of assets, served as a tactical mentor to international exercises involving more than a dozen countries, and developed and taught academics in collaboration with the Navy, Army, and Marine Corps. He earned his Bachelor of Science in Finance from the University of Illinois, a Master of Arts in International Studies from the Lauder Institute at the University of Pennsylvania, and a Master of Business Administration from the Wharton School.

Brian Kitching is from Lincoln, Nebraska, and is placed at the White House Office of Management and Budget and the United States Office of Personnel Management. Brian is a Lieutenant Colonel in the United States Army and has spent over 50 months deployed to combat since 2002. He has served in key roles within Special Operations and Infantry units, including assignments to the 75th Ranger Regiment, 101st and 82nd Airborne Divisions, and 3rd Infantry

Division. His military awards include two Bronze Stars for Valor and the Silver Star. His experience in the Middle East includes numerous kinetic combat operations, as well as economic development and social assistance missions over nearly 20 years. Brian served as a General Wayne Downing Scholar at the Combating Terrorism Center at West Point and is a term member for the Council on Foreign Relations. Brian most recently served as a Special Assistant to the 40th Chief of Staff of the Army. Brian earned a Bachelor of Science in Economics from Alabama A&M University, a Master of Public Administration from the Harvard Kennedy School of Government, and Master of Arts in International Affairs from the Fletcher School at Tufts University.

Dan Kurtenbach is from Nevada, Iowa, and is placed at the United States Small Business Administration. He was previously a program manager for new product introduction at Apple, where he worked on the company's flagship products for the iPhone and Core Technologies Product Operations team in Silicon Valley. Before Apple, he served as an Army Special Forces officer and led both special operations and conventional forces in the Middle East, Europe, and South and Southeast Asia. He served as an Infantry platoon leader in Iraq, commanded the Special Forces "A" team responsible for conducting humanitarian and rescue operations during the 2015 Nepal earthquake crisis, and led a special operations element in United States Embassy-Dhaka in 2016 during Bangladesh's spike in terrorism. Dan is active in advocating for mentoring service members as they separate from the military. Dan earned a Bachelor of Science in International Relations from the United States Military Academy at West Point, a Master of Business Administration from MIT's Sloan School of Management, and a Master in Public Administration from the Harvard Kennedy School.

Josephine Nguyen is from Burke, Virginia, and is placed at the United States Department of Health and Human Services. Josephine is a Commander and Physician in the United States Navy. As the former Deputy Chief Medical Executive for the CAPT Lovell Federal Health Care Center, she oversaw a \$100 million dollar budget and led an integrated Veterans Affairs/Department of Defense team of 1,140 staff. A board-certified dermatologist with over 20 publications, Josephine is the United States Navy Surgeon General's senior dermatology consultant. Passionate about patient advocacy, she holds national-level leadership positions in several medical organizations, served as a Dermatology World contributing editor, and she earned the Department of Defense's 2018 Female Senior Physician Leadership Award. Josephine served as a flight surgeon in the Indo-Pacific Theater, forward-deployed on the USS Kitty Hawk in direct support of aviation squadrons. She was a Robert Wood Johnson Health Policy Fellow and a physician advisor to Congressman Kevin Brady. She graduated second in order of merit from the United States Naval Academy, earned an M.D. from Stanford University, a Master of Science in Healthcare Delivery from Dartmouth University, completed a dermatology residency at the University of Pennsylvania, and is a graduate of a 2-year Wharton School Executive Education program.

Michelle Ruehl is from Lincoln Park, Michigan, and is placed at the United States Department of Transportation. Michelle is a Lieutenant Colonel in the United States Air Force Reserves. She is an instructor pilot and aerospace policy specialist who has flown over 800 combat hours in Afghanistan during Operation Enduring Freedom. Michelle served as an English professor, theater director, and sexual assault victim advocate for the United States Air Force Academy. She is the founder of the Social Impact Theater Project, an interactive intervention program for military members. Michelle used her certification as a Professional Association of Therapeutic Horsemanship riding

instructor to create and direct the nonprofit Parwana LEADership Legacy, which uses horses, sports, and music to provide leadership and resiliency programs for veterans and their families. She has served as a volunteer teacher in Ghana, Tanzania, and Nepal, and was a Visiting Senior Fellow at the Mitchell Institute for Aerospace Studies. She has been appointed to several boards, including for Mt. Carmel Veterans Service Center, the Colorado Springs Airport Commission, and New Summit Charter Academy. Michelle earned a Bachelor of Science in English from the United States Air Force Academy, a Master of Arts in Psychology from North Central University and a Master of Arts in English from the University of Colorado.

Wes Spurlock is from Norco, California, and is placed at the United States International Development Finance Corporation. He is a Lieutenant Colonel in the United States Air Force. Wes served as the Squadron Commander of the 344th Air Refueling Squadron at McConnell Air Force Base in Wichita, Kansas. As the Commander, Wes was responsible for leading a team of more than 100 military and civilian personnel that delivered and operated the Air Force's newest aircraft, the KC-46 Pegasus. Before that assignment, Wes was the Military Aide to President Obama and President Trump, where he was responsible for the Presidential Emergency Satchel (football) and assisted the President in implementing command and control of the United States' Nuclear Arsenal. He has served overseas on multiple deployments, including Operations Enduring Freedom, Iraqi Freedom, and Unified Protector. Wes is very involved with the Gold Star community. He earned a Bachelor of Science in Civil Engineering from the United States Air Force Academy with military distinction, a Master of Business Administration from Mississippi State University, and a Master in Public Administration from the Harvard Kennedy School of Government.

David Strong is from Novi, Michigan, and is placed at the United States Department of Defense. David is a board-certified Emergency Medicine Physician with specialty certification in Emergency Medical Services. He is a staff physician at Henry Ford Hospital, a non-profit institution with a tripartite mission of patient care, education, and research. David served as the Medical Director for the TCF Regional Care Center, an alternate care site built to care for Detroit's patients during the COVID-19 pandemic. While completing residency training at the University of Cincinnati, he volunteered as the resident assistant medical director for the Blue Ash Fire Department and the Cincinnati Police Department Special Weapons And Tactics Team. He was also a Flight Physician for Air Care, the University of Cincinnati's air medical transport service. David earned an M.D. and Ph.D. in Immunology from Washington University in St. Louis, where his thesis work focused on the identification of viral determinants of pathogenesis of the Murine Norovirus. He attended Johns Hopkins University where he earned a Bachelor of Arts and a Master of Science with a concentration in Cellular and Molecular Neuroscience.

Travis Thul is from Winona, Minnesota, and is placed at the Export-Import Bank of the United States. Travis is a Lieutenant Commander in the United States Coast Guard, an educator, an engineer, and an entrepreneur. He has led national level security operations and disaster response, including maritime Deputy Incident Commander for the 2020 Democratic National Convention, infrastructure reconstitution in Puerto Rico post Hurricane Maria, and Hurricane Florence triage operations. Travis served as Dean of Trades and Technology at Minnesota State College Southeast. He and his team of 35 faculty reimaged vocational-technical education. This included the Rural Advanced Manufacturing Education Hub, deploying tech-college education to regional high schools; the Advanced Manufacturing Infrastructure Initiative, raising over \$1M to build rapid prototyping labs; and the world's first Bicycle

Design and Fabrication degree, providing vocational training to Generation Z. Travis has chaired the American National Standards Institute Working Group for Wireless Power. Travis is a licensed Professional Engineer and holder of multiple patents. He earned an Associate of Applied Science from Fox Valley Technical College, a Bachelor of Science from the Milwaukee School of Engineering, a Master of Science from the University of Wisconsin-Madison, and a Doctor of Engineering from George Washington University.

Leah Tunnell is from Cedaredge, Colorado, and is placed at the United States Department of Housing and Urban Development. Leah has served around the globe in the United States Navy, first as a MH-60S “Knighthawk” helicopter pilot and now as a Foreign Area Officer. She flew in support of Operation Iraqi Freedom and served with Special Operations Task Force South-East in Afghanistan supporting Operation Enduring Freedom. She flew numerous mountain rescue missions in the Pacific Northwest as a Search and Rescue (SAR) Mission Commander and was awarded the Chief of Naval Operations SAR Model Manager Aircrew of the Year (Inland) in 2011. Leah served at the Pentagon and worked International Engagements for the Chief of Naval Operations, supporting implementation of the National Security and National Defense Strategies. She served as the Pol-Mil Advisor for Commander, United States SECOND Fleet and NATO Joint Force Command Norfolk. Leah studied Portuguese at the Defense Language Institute, graduating with Highest Honors and earned a Master’s Degree in Naval Sciences at the Brazilian Naval War College in Rio de Janeiro, Brazil.

Jonathon Westbrook is from Kansas City, Kansas, and is placed at the White House Office of American Innovation. He is a police officer for the Kansas City, Kansas Police Department (KCKPD). Jonathon was awarded the “Stanley Fisher Award” for dedication to the field beyond the classroom. He

volunteered as a mentor at Leavenworth Penitentiary through the Life Connections program and served as Youth Director and mentor at Bread of Life Outreach Ministries. In 2016, Jonathon was selected to lead the KCKPD OK mentoring program, empowering black men and boys to lead their community. Jonathon was selected to the Professional Standards Unit, where he wrote policy, operational standards, and addressed the local and national media on behalf of the KCKPD. He was appointed by Governor Sam Brownback to the Kansas Human Rights Commission and appointed by Ron Ryckman, Kansas Speaker of the House, to the Kansas African American Affairs Commission. Jonathon earned both an Associate Degree in Political Science and a Bachelor of Arts in Organizational Leadership from Donnelly College, as well as a Master of Public Administration from the University of Kansas.

Cathryn Yerage is from Goldsboro, North Carolina, and is placed at the United States Department of State. She is a Major in the United States Air Force and most recently, served as the Chief Executive Officer to the 437th Airlift Wing Commander at Joint Base Charleston, South Carolina, Air Mobility Command's largest and busiest strategic airlift wing. She was a direct representative of the Commander for all staff matters and led the front office through Hurricane Dorian evacuation and COVID-19 response. A C-17A pilot, she deployed as the Director of Operations for the only C-17A combat squadron, leading more than 26 aircrews in executing sorties resulting in the movement of 34.7 million pounds of cargo throughout the Middle East, Southwest Asia, and North Africa regions. With over 2,300 flight hours, 600 in combat, CJ has deployed four times in support of contingency operations and has extensive international exercise experience. She is commissioned through the United States Air Force Officer Training School in Montgomery, Alabama. CJ earned a Bachelor of Arts in English from the University of North Carolina at Chapel Hill and a Master of

International Relations and Conflict Resolution from the American Military University.

Subject: BRIEFING TIME CHANGE BY 2 HOURS -- INVITE: Governor-Only Briefing Call/VTC with the Vice President on Monday, November 16 at 2:00 p.m. ET
Date: Sunday, November 15, 2020 3:51:09 PM
Attachments: [image001.png](#)

Governor's Senior Staff (Chief of Staff, State-Federal Director, and Scheduler),

Tomorrow's (Monday, November 16) Governors-only Briefing with Vice President Mike Pence is now scheduled for 2:00 p.m. Eastern Time. The briefing is being moved up by two (2) hours from 4:00 p.m. to 2:00 p.m. Eastern Time).

RSVP

If your Governor can participate, please confirm your Governor for the new time by **10:00 a.m. Eastern Time tomorrow, Monday November 16**. If we do not hear back by 10:00 a.m. Eastern Time, we will assume your Governor cannot participate.

NEW TIME – Briefing Call/VTC Details

- **Date:** Monday, November 16, 2020
- **Time:** 2:00 p.m. Eastern Time
- **Expected Length:** 60 minutes (*Please communicate if your governor is expected to be late or depart early from the briefing*)
- **Call-in information:** Call in details will remain the same for VTC and audio. Please use the same dial in you have already received.

If you have any additional questions, please reach out to the White House Intergovernmental Affairs Office or the Office of the Vice President.

Regards,

Zach Swint

Office of Intergovernmental Affairs

The White House

Subject: INVITE: Governor-Only Briefing Call/VTC with Vice President Pence on Monday, November 16 at 4:00 p.m. ET

Governor's Senior Staff (Chief of Staff, State-Federal Director, and Scheduler),

Our Nation's Governors are invited to a **Governors-only Briefing Video Teleconference (with an audio option) with Vice President Mike Pence** on COVID-19 response and recovery. The briefing will be on **Monday, November 16, 2020 at 4:00 p.m. Eastern Time.**

Briefing Call/VTC Details

- **Date:** Monday, November 16, 2020
- **Time:** 4:00 p.m. Eastern Time
- **Expected Length:** 60-90 minutes (***Please communicate if your governor is expected to be late or depart early from the briefing***)
- **Video Teleconference Option:** Every State has video teleconference (VTC) capabilities through FEMA and we can provide you details upon request. If your governor is interested in joining through VTC please indicate so in the RSVP.
- **Reminder:** This is a Governor-only briefing. Participation in this call is for governors only, but we encourage governors to be joined by their state health official, emergency manager, Medicaid director, and members of the governor's vaccine distribution planning efforts, etc.

RSVP & Call-In/VTC Information – Deadline to RSVP is Saturday, November 14, at 12:00 p.m. ET

To RSVP your governor, email me (Zachariah.D.Swint2@who.eop.gov) by **no later than Saturday, November 14 at 12:00 p.m. Eastern Time.** Once you RSVP your governor, you will receive a call-in information link and guidance. **VTC guidance will be provided upon request.**

This is the 41st governors-only briefing organized by the Trump Administration since January 2020 on COVID-19.

If you have any additional questions, please reach out to the White House

Intergovernmental Affairs Office or the Office of the Vice President.

Regards,

Zach Swint

Subject: AZ: White House Holiday Open House Tour Invitation
Date: Tuesday, November 10, 2020 12:04:52 PM
Attachments: [image003.png](#)

Dear Governor's Senior Staff,

It is our pleasure to extend the opportunity for your office to attend a [White House Holiday Open House Tour](#) this coming December 2020. Every year, President Donald J. Trump and First Lady Melania Trump open the people's house up to the public to enjoy the White House's traditions, customs, and history. Holiday Open House Tours are similar to White House tours that includes viewing the decorations on display throughout the East Wing and Executive Residence, and include live music and a holiday treat for all visitors.

We would like to offer 2 tickets for this White House Holiday Open House Tour on December 3rd at 4:30 pm EST that can be used by staff members within your office. A staff member is permitted to use the tickets for them and a guest (e.g., family member, friend).

RSVP & Deadline to RSVP

RSVP no later than Tuesday, November 18 at 4:00 p.m. Eastern Time for your office's interest in utilizing these tickets.

• **Accept & Who Will Be Utilizing the Tickets**

Tickets	Name	Email (Need a Unique Email for Each Attendee)
1		
2		

• **Respectfully Decline the Tickets**

We will extend additional details including onboarding instructions once you RSVP. We appreciate your joint efforts in helping us serve the American people.

Sincerely,

Haley Friedman
Associate Director
White House
Office of Intergovernmental Affairs

Subject: White House Christmas Reception - December 14, 2020
Date: Friday, November 20, 2020 5:37:36 PM

Dear Governor Ducey,

Please see your invitation below for a White House Christmas Reception on Monday, December 14, 2020 at 7:00 p.m.

This invitation is for you plus 1 guest and is non-transferable.

Please accept or regret using the linked invitation below. When submitting your RSVP, you must use the email address in which you received this invitation to register yourself as the primary attendee. Once you have registered yourself, you will have the option to 'Submit & Add Guest' to then register your guest.

Please RSVP no later than Thursday, December 10, 2020.

The President and Mrs. Trump
request the pleasure of your company
at a Holiday Reception
to be held at
The White House
on Monday, December 14, 2020
at seven o'clock

Please respond via this link
for yourself and your guest
Kindly direct any questions to
The Social Secretary
The White House

1	About Line List											
2	Version: 1.2 (Sept. 19, 2020)											
3												
4	About											
5												
6	This line listing is a summary of COVID-19 information for all the Skilled Nursing Facilities (SNF) reporting to the NHSN Long-term Care COVID-19 module.											
7												
8	Contents											
9												
10	Confirmed resident cases											
11	Confirmed Staff cases											
12	Staffing shortage											
13	PPE supply shortage											
14	COVID-19 potential outbreak alert											
15	Access to SARS-CoV-2 Testing											
16	Potential data quality issues (resident)											
17												
18	Potential Outbreak Indicators											
19												
20	The line list also includes criteria developed to identify facilities with recent COVID-19 activity that may be indicative of an outbreak.											
21												
22	These criteria are called "outbreak alerts" and have been applied to resident and staff confirmed COVID-19 case data.											
23												
24	Outbreak Alert Definitions											
25												
26	<table><tr><td>Resident Alert</td><td>>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week</td></tr><tr><td>Staff Alert</td><td>>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.</td></tr><tr><td>Sort Factor</td><td>Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count</td></tr></table>						Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week	Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.	Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count
Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week											
Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.											
Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count

1	About Line List											
2	Version: 1.2 (Sept. 19, 2020)											
3												
4	About											
5												
6	This line listing is a summary of COVID-19 information for all the Skilled Nursing Facilities (SNF) reporting to the NHSN Long-term Care COVID-19 module.											
7												
8	Contents											
9												
10	Confirmed resident cases											
11	Confirmed Staff cases											
12	Staffing shortage											
13	PPE supply shortage											
14	COVID-19 potential outbreak alert											
15	Access to SARS-CoV-2 Testing											
16	Potential data quality issues (resident)											
17												
18	Potential Outbreak Indicators											
19												
20	The line list also includes criteria developed to identify facilities with recent COVID-19 activity that may be indicative of an outbreak.											
21												
22	These criteria are called "outbreak alerts" and have been applied to resident and staff confirmed COVID-19 case data.											
23												
24	Outbreak Alert Definitions											
25												
26	<table><tr><td>Resident Alert</td><td>>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week</td></tr><tr><td>Staff Alert</td><td>>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.</td></tr><tr><td>Sort Factor</td><td>Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count</td></tr></table>						Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week	Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.	Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count
Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week											
Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.											
Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count

	A
1	This Testing Dashboard provides monitoring of the following types of nursing home testing:
2	1) How nursing homes are conducting COVID-19 routing staff testing and outbreak testing under nursing home requirements; and
3	2) How nursing homes are reporting results of COVID-19 tests that have been conducted under Clinical Laboratory Improvement Amendment (CLIA) requirements.
4	NOTE: This information indicates if noncompliance may be more likely, but cannot conclusively determine if noncompliance exists. Actual noncompliance needs to be determined by inspection from surveyors.
5	
6	Summary of Content:
7	State tab: Aggregated information for all nursing homes in each state
8	County tab: Aggregated information for all nursing homes in each county
9	Facility tab: A listing of each nursing home's individual county positivity classification and reported testing.
10	
11	State and County Tabs Section/Column Descriptions:
12	Facilities w/New Cases: The number and percentage of facilities reporting one new COVID-19 resident case after being COVID-free, or reporting 3 or more COVID-19 resident cases.
13	Positivity Testing: The number of facilities in each state and county with a moderate community positivity classification (5-10% - Yellow), and a high community positivity classification (>10% - Red). Facilities in yellow counties should be testing staff once a week, and facilities in Red counties should be testing staff twice a week.
14	Routine Staff Testing: The number and percent of facilities that reported no staff testing in the current week, while residing in a yellow or red county (lower is better). Facilities that report no staff testing have a higher likelihood of noncompliance.
15	Outbreak Testing: The number and percent of facilities that reported at least one COVID-19 case in the last two weeks, but also reported no tests conducted in the last week (lower is better). Facilities reporting at least one case should be conducting "outbreak testing". Facilities that report no testing have a higher likelihood of noncompliance.
16	Reporting POC Test Results: The number Point-Of-Care (POC) tests conducted, reported, and the percent of test results reported out of the number of tests conducted.
17	
18	Facility Tab Section/Column Descriptions:
19	Routine Staff Testing: Each facility's county positivity classification and whether or not (Y/N) the facility conducted staff testing in the last week. An entry of "Yellow" or "Red" in column K, coupled with "N" in column L, indicates a higher likelihood of noncompliance.
20	Outbreak Testing: Whether or not (Y/N) a facility reported at least one COVID-19 case in the last two weeks, and if the facility conducted tests of residents and staff in the last week (Y/N). An entry of "Y" in column M, coupled with "N" in column N, indicates a higher likelihood of noncompliance.
21	Reporting POC Test Results: (UNDER DEVELOPMENT) The number of POC tests conducted, the number of POC test results reported, and the percent of test results reported out of the number of tests conducted.
22	
23	NOTE: We recommend not printing the County and Facility Tabs.

1	About Line List											
2	Version: 1.2 (Sept. 19, 2020)											
3												
4	About											
5												
6	This line listing is a summary of COVID-19 information for all the Skilled Nursing Facilities (SNF) reporting to the NHSN Long-term Care COVID-19 module.											
7												
8	Contents											
9												
10	Confirmed resident cases											
11	Confirmed Staff cases											
12	Staffing shortage											
13	PPE supply shortage											
14	COVID-19 potential outbreak alert											
15	Access to SARS-CoV-2 Testing											
16	Potential data quality issues (resident)											
17												
18	Potential Outbreak Indicators											
19												
20	The line list also includes criteria developed to identify facilities with recent COVID-19 activity that may be indicative of an outbreak.											
21												
22	These criteria are called "outbreak alerts" and have been applied to resident and staff confirmed COVID-19 case data.											
23												
24	Outbreak Alert Definitions											
25												
26	<table><tr><td>Resident Alert</td><td>>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week</td></tr><tr><td>Staff Alert</td><td>>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.</td></tr><tr><td>Sort Factor</td><td>Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count</td></tr></table>						Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week	Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.	Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count
Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week											
Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.											
Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count

1	About Line List											
2	Version: 1.2 (Sept. 19, 2020)											
3												
4	About											
5												
6	This line listing is a summary of COVID-19 information for all the Skilled Nursing Facilities (SNF) reporting to the NHSN Long-term Care COVID-19 module.											
7												
8	Contents											
9												
10	Confirmed resident cases											
11	Confirmed Staff cases											
12	Staffing shortage											
13	PPE supply shortage											
14	COVID-19 potential outbreak alert											
15	Access to SARS-CoV-2 Testing											
16	Potential data quality issues (resident)											
17												
18	Potential Outbreak Indicators											
19												
20	The line list also includes criteria developed to identify facilities with recent COVID-19 activity that may be indicative of an outbreak.											
21												
22	These criteria are called "outbreak alerts" and have been applied to resident and staff confirmed COVID-19 case data.											
23												
24	Outbreak Alert Definitions											
25												
26	<table><tr><td>Resident Alert</td><td>>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week</td></tr><tr><td>Staff Alert</td><td>>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.</td></tr><tr><td>Sort Factor</td><td>Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count</td></tr></table>						Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week	Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.	Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count
Resident Alert	>= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week											
Staff Alert	>= 1 confirmed staff cases in a facility where no confirmed staff cases were reported during the 4-week period prior to the most recent week >= 30 Res Case Alert: > = 30 confirmed resident cases in the last week.											
Sort Factor	Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count

2		AZ - Supplies Red Report - Non-reporting hospitals							
3		Data provisional - For Internal Use Only (FIUO)							
4									
5		This tab provides information of facilities that did not submit supplies data per the FAQ in the past week. Data intended to guide outreach to increase compliance.							
6		Note: Some facilities may be reporting non-supplies data, therefore may have a submission in the past week, but did not report supplies data.							
7		Link to FAQ (with detail on questions): https://www.hhs.gov/sites/default/files/covid-19-faqs-hospitals-hospital-laboratory-acute-care-facility-data-reporting.pdf

2		AZ - Supplies Red Report - LTCFs latest low responses								
3		Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)								
4										
5		This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.								
6		Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time								
7		Link with more detail on the COVID-19 module for the NHSN survey: https://www.cdc.gov/nhsn/covid19/report-overview.html								
8										
9		Updated:	16 November 2020, 1200							
10		LTCF NHSN data updated through:	15 November 2020, 2359							
11										
12		Indicates a PPE category with "no current supply"								
13		Indicates a PPE category with "less than one week supply"								
14

2		AZ - Supplies Red Report - LTCFs latest low responses								
3		Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)								
4										
5		This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.								
6		Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time								
7		Link with more detail on the COVID-19 module for the NHSN survey: https://www.cdc.gov/nhsn/covid19/report-overview.html								
8										
9		Updated:	23 November 2020, 1400							
10		LTCF NHSN data updated through:	22 November 2020, 2359							
11										
12		Indicates a PPE category with "no current supply"								
13		Indicates a PPE category with "less than one week supply"								
14
