AMERICAN OVERSIGHT

Total Checl	Notes
FALSE	Their advanced voting votes decreased by 304. They said that the recount number of ballots more closely matches their hand records.
FALSE	Election Day and Advanced Voting ballots are mixed. Hand marked ballots are also mixed. They had 49 ballots stuck in adjudication that did not report in the original certified results.
FALSE	About 46 advanced voting ballots are mixed in with Election Day. ABM went up by 22, which the director confirmed is accurate. They reviewed their numbers and confirmed that the recount results are accurate. Absentee numbers went up by 52. They confirmed their new numbers are correct.
	Election Day numbers went down by 13. The county confirmed the recount is correct. Election Day and Advanced Voting ballots are mixed. Hand marked ballots are also mixed. Election Day went down by 32 They are working on it 9 ballots 18 ballots in ABM - They said some ballots were stuck together the first time. About 9 Election Day ballots mixed in with AV ballots
	The county put 106 in the wrong category.

AMERICAN OVERSIGHT

Their ballots are mixed together
They mixed some advanced voting ballots in with Election Day ballots.

They mixed some Election Day ballots in with advanced voting ballots.

AMERICAN OVERSIGHT

Provisionals mixed in with ABM

All ballots are mixed and director is out.

AMERICAN OVERSIGHT

14 absentee ballots were accidentally put in the provisional bucket.

Ok. To confirm, you want the information below in a singular email like this sent to the house and senate members?

Subject: 12.04.2020 - Secretary of State Election Update - State Farm Video Debunked by WSBTV

Dear Members of the General Assembly,

Please see the news article and summary information that may be helpful to you in addressing constituent inquiries.

State Farm Video Debunked by WSBTV:
https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/

- For the third time, counties across Georgia have certified votes from November□s presidential election.
- The outcome is not expected to change, but legal challenges are still underway.
- One involves a video from State Farm Arena that has since gone viral. President Trump's lawyers and other supporters call it the smoking gun, proving election fraud.
- Channel 2 investigative reporter Justin Gray spent the day with Georgia election officials, going through the video frame-by-frame to show everyone what really happened.
- Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.
- State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.
- They were, in fact, official, sealed ballot containers.
- "We can show exactly when they were placed in there," lead investigator Frances Watson said.
- "Watson said they weren't mystery ballots that came from a mystery location. Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.
- At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.
- The reason? Employees thought they were done for the night.
- "They were closing things up and getting ready to leave," Watson said.
- Here's where the confusion comes in:
    - Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the Secretary of State's office called and said they shouldn't stop counting for the night so early.
    - After that call, employees pulled the containers of ballots back out and went back to work.

AMERICAN OVERSIGHT

- "No magically-appearing ballots," Gabriel Sterling with the Secretary of State's office said. "These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors."

- So what about the time gap between when the media and observers left and then the observers returned about an hour later?
  - Employees scanned ballots.
  - "These are just typical everyday election workers are just doing their jobs," Sterling said. "This is not some Ocean's Eleven-level scheme being put together in the middle of the night."
  - There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

AMERICAN OVERSIGHT

happened.

Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.

State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.

They were, in fact, official, sealed ballot containers.

"We can show exactly when they were placed in there," lead investigator Francy Watson said. "

Watson said they weren't mystery ballots that came from a mystery location.

Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.

At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.

The reason? Employees thought they were done for the night.

"They were closing things up and getting ready to leave," Watson said.

Here's where the confusion comes in:

Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the Secretary of State's office called and said they shouldn't stop counting for the night so early.

After that call, employees pulled the containers of ballots back out and went back to work.

"No magically-appearing ballots," Gabriel Sterling with the Secretary of State's office said. "These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors."

So what about the time gap between when the media and observers left and then the observers returned about an hour later? Employees scanned ballots.

"These are just typical everyday election workers are just doing their jobs," Sterling said. "This is not some Ocean's Eleven-level scheme being put together in the middle of the night."

There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

AMERICAN OVERSIGHT

Subject: Final Approval requested 12.04.2020

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
- State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board
- Rules and Rulemaking of the State Election Board: https://sos.ga.gov/index.php/elections/state_election_board

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections, the precinct scanner

AMERICAN OVERSIGHT

4. resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

AMERICAN OVERSIGHT

Ryan,

Will you please review/approve the draft of this version below. I talked with Frances on the Fulton points, and incorporated the changes you suggested on the phone.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

1. Video footage from State Farm Arena has already been reviewed: (Insert WSB Link)
   - The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
   - Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
   - This independent elections monitor remained with Fulton County throughout the Election Day.
   - He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
   - It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
   - The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
   - At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
- State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board
- Rules and Rulemaking of the State Election Board: https://sos.ga.gov/index.php/elections/state_election_board
- RULE 183-1-14-0.8-.14 Secure Absentee Ballot Drop Boxes: https://sos.ga.gov/admin/uploads/Rule%20183-1-14-0.8-.14%20Secure%20Absentee%20Ballot%20Drop%20Boxes.pdf
- SEB Rule 183-1-14-0.9-.15 Processing Absentee Ballots Prior to Election Day: https://sos.ga.gov/admin/uploads/Rule%20183-1-14-0.9-.15%20Processing%20Absentee%20Ballots%20Prior%20to%20Election%20Day.pdf

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.

AMERICAN OVERSIGHT

5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Ryan,

Will you please review/approve the draft of this version below. I talked with Frances on the Fulton points, and incorporated the changes you suggested on the phone.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

1. Video footage from State Farm Arena has already been reviewed: (Insert WSB Link)
   - The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
   - Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
   - This independent elections monitor remained with Fulton County throughout the Election Day.
   - He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
   - It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
   - The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
   - At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.

Counties are still entering that data as well. It's not unusual for them to see where there are discrepancies and then go back through their records to get everything as complete as possible. They have until 60 days after the election by law.

That's a really good point. I certainly wouldn't expect it to line up perfectly either for the reasons you stated. As Gabriel has said in multiple press conferences, "when human beings are involved, mistakes are going to happen." I think pointing them to their own county election office for perspective is a good idea. However, the size of that gap in Fulton is going to get asked. Presumably, the size of difference between check in and number of ballots is, by percentage, going to be a low number. That would be helpful to have.

Sam,

As to your questions about number of ballots, it is typical for the number of ballots cast to not exactly line up with the credit for voting given. I would say it is more typical for them not to add up exactly. I would encourage legislators to talk to their own counties to see if their numbers add up exactly (they won't). Generally, this is because a poll worker or other worker does not properly enter credit for voting when checking in a voter. It's not evidence of fraud, and it's not like the mismatches only show up in absentee ballots. They show up in in-person voting too where all voters have to show photo ID prior to being allowed. We need to paint a more accurate picture when talking with these guys and not just focus on one county. They need to realize this is regular election stuff. They need to realize they would also be casting the results of their own election in doubt because their counties probably don't add up either.

Thanks,
Ryan

Gabriel,

I saw a response you wrote on social media explaining what happened in Fulton County on someone else's post. Would you be willing to write up something more formalized that we can send to legislators? We are getting requests from legislators to help them understand what happened.

Also, I sent the following to Brian and Blake this morning. Please let me know if I should send it to someone else:

Are you guys able to get me the following information so that I can respond to legislators when they ask?

1. How many absentee ballots were accepted in Fulton?
2. How many absentee in person votes in Fulton?
3. How many Election Day voters were there in Fulton?
4. Are the number of voters checked in with Fulton equal the number of those three above added up? (It would be deeply troubling if the number of checked in voters is lower than those 3 above)
5. Do we have turnout percentages for the state and how Fulton compared in terms of turnout to the rest of the state?

That's a really good point. I certainly wouldn't expect it to line up perfectly either for the reasons you stated. As Gabriel has said in multiple press conferences, "when human beings are involved, mistakes are going to happen." I think pointing them to their own county election office for perspective is a good idea. However, the size of that gap in Fulton is going to get asked. Presumably, the size of difference between check in and number of ballots is, by percentage, going to be a low number. That would be helpful to have.

Subject: RE: Fulton County video

Sam,

As to your questions about number of ballots, it is typical for the number of ballots cast to not exactly line up with the credit for voting given. I would say it is more typical for them not to add up exactly. I would encourage legislators to talk to their own counties to see if their numbers add up exactly (they won't). Generally, this is because a poll worker or other worker does not properly enter credit for voting when checking in a voter. It's not evidence of fraud, and it's not like the mismatches only show up in absentee ballots. They show up in in-person voting too where all voters have to show photo ID prior to being allowed. We need to paint a more accurate picture when talking with these guys and not just focus on one county. They need to realize this is regular election stuff. They need to realize they would also be casting the results of their own election in doubt because their counties probably don't add up either.

Thanks,
Ryan

Gabriel,

I saw a response you wrote on social media explaining what happened in Fulton County on someone else's post. Would you be willing to write up something more formalized that we can send to legislators? We are getting requests from legislators to help them understand what happened.

Also, I sent the following to Brian and Blake this morning. Please let me know if I should send it to someone else:

Are you guys able to get me the following information so that I can respond to legislators when they ask?

1. How many absentee ballots were accepted in Fulton?
2. How many absentee in person votes in Fulton?
3. How many Election Day voters were there in Fulton?
4. Are the number of voters checked in with Fulton equal the number of those three above added up? (It would be deeply troubling if the number of checked in voters is lower than those 3 above)
5. Do we have turnout percentages for the state and how Fulton compared in terms of turnout to the rest of the state?

Echoing Sam,

Can we confirm all the Fulton county absentee ballot drop boxes have video recording? I know by law they must, and want to confirm they do. **Legislators want to know the extent to our investigation into Fulton Arena, if GBI can do an investigation, and if they can get a report. Can you please draft an official response?**

The previous answer provided on the 11.20.2020 Legislator FAQ is listed below for reference:

Did Fulton County count ballots without observation? This particular issue remains under investigation. The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left. **Since both the observer and investigator remained with Fulton County workers, scanning was observed by the Secretary of State's Office at all times.** Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.

I think we need to address the Fulton situation. We just need to say something like what you had but change the part about the monitor to: a State Election Board monitor was on scene soon after the time period depicted in the video and confirmed that the Fulton county election officials depicted in the video were performing regular election duties.

What's the thing about single vs. double signature match? We should probably address that too.

Subject: RE: Draft RG/ST approval - 12.03.2020 - Secretary of State Election Update

Thanks, Ryan! I took out the bolded sentence "at all times". Is that approved with the edit?

We had "at all times" in the 11.20.2020 FAQ, and I think it may have been in a press release first. So that is worth noting. Sen. Parent brought up that we had a monitor there the whole time.

Dear Members of the General Assembly,

Please see the information below that may be helpful to you in addressing constituent inquiries.

Absentee Ballot Drop Boxes:

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020**. *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots) this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters."
- **Anyone can request to see the absentee ballot drop box video recording by making an open record request to the county. The bipartisan county elections/registration board may also view these video recordings.**
- There is a posted sign with all absentee ballot drop boxes showing that:
    - The drop box is under 24 hours, video surveillance.
    - Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
    - A violation can result in a fine of up to $10,000 and 10 years in prison.

Fulton County Observation on Election Day:

- This particular issue remains under investigation.
- Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left.
- As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.
- The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left.

AMERICAN OVERSIGHT

- Fulton County Chairman, Robb Pitts, testified this morning the water leak that occurred at State Farm Arena occurred at 6:07 A.M. and was resolved at 8:07 A.M. on November 3, 2020, and no ballots were damaged.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Subject: RE: Draft RG/ST approval - 12.03.2020 - Secretary of State Election Update

Thanks, Ryan! I took out the bolded sentence "at all times". Is that approved with the edit?

We had "at all times" in the 11.20.2020 FAQ, and I think it may have been in a press release first. So that is worth noting. Sen. Parent brought up that we had a monitor there the whole time.

AMERICAN OVERSIGHT

Dear Members of the General Assembly,

Please see the information below that may be helpful to you in addressing constituent inquiries.

Absentee Ballot Drop Boxes:

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020**. *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots) this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters."
- **Anyone can request to see the absentee ballot drop box video recording by making an open record request to the county. The bipartisan county elections/registration board may also view these video recordings.**
- There is a posted sign with all absentee ballot drop boxes showing that:
    - The drop box is under 24 hours, video surveillance.
    - Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
    - A violation can result in a fine of up to $10,000 and 10 years in prison.

Fulton County Observation on Election Day:

- This particular issue remains under investigation.
- Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left.
- As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.
- The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left.
- Fulton County Chairman, Robb Pitts, testified this morning the water leak that occurred at State Farm Arena occurred at 6:07 A.M. and was resolved at 8:07 A.M. on November 3, 2020, and no ballots were damaged.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.

AMERICAN OVERSIGHT

- Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

This looks good to me. Ryan, would you be sure to check the language about the drop box to make sure it's accurate. I seem to remember the SEB making some tweaks to the drop box provision and just want to make sure we are accurate.

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020.** *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots) this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters."
- **Anyone can request to see the absentee ballot drop box video recording by making an open record request to the county. The bipartisan county elections/registration board may also view these video recordings.**
- There is a posted sign with all absentee ballot drop boxes showing that:
    - The drop box is under 24 hours, video surveillance.
    - Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
    - A violation can result in a fine of up to $10,000 and 10 years in prison.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614

AMERICAN OVERSIGHT

- /#/summary
  - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
  - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters.

- **Anyone can request to see the absentee ballot drop box video recording by making an open record request to the county. The bipartisan county elections/registration board may also view these video recordings.**
- There is a posted sign with all absentee ballot drop boxes showing that:
  - The drop box is under 24 hours, video surveillance.
  - Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
  - A violation can result in a fine of up to $10,000 and 10 years in prison.

Fulton County Observation on Election Day:

- This particular issue remains under investigation.
- Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left.
- As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.
- The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left. **Since both the observer and investigator remained with Fulton County workers, scanning was observed by the Secretary of State's Office at all times.**
- Fulton County Chairman, Robb Pitts, testified this morning the water leak that occurred at State Farm Arena occurred at 6:07 A.M. and was resolved at 8:07 A.M. on November 3, 2020, and no ballots were damaged.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
  - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
  - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: RE: Draft RG/ST approval - 12.03.2020 - Secretary of State Election Update

Thanks, Ryan! I took out the bolded sentence "at all times". Is that approved with the edit?

We had "at all times" in the 11.20.2020 FAQ, and I think it may have been in a press release first. So that is worth noting. Sen. Parent brought up that we had a monitor there the whole time.

Dear Members of the General Assembly,

Please see the information below that may be helpful to you in addressing constituent inquiries.

Absentee Ballot Drop Boxes:

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020**. *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots) this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Subject: Draft for RG/ST approval 12.02.2020 - Secretary of State Election Update

12.02.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see the links to today's election updates from the Secretary of State, and additional information that may be helpful to you in addressing constituent inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and The New Georgia Project, that have repeatedly and aggressively sought to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020 Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e. someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as

AMERICAN OVERSIGHT

- electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from The New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from The New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said The New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had not lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from The New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
    - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of States office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia Code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

AMERICAN OVERSIGHT

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

AMERICAN OVERSIGHT

12.02.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see the links to today's election updates from the Secretary of State, and additional information that may be helpful to you in addressing constituent inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and The New Georgia Project, that have repeatedly and aggressively sought to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020 Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e. someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from The New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from The New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said The New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had not lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from The New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
    - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of States office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC). https://ericstates.org/

AMERICAN OVERSIGHT

- mission of ERIC is to assist states in improving the accuracy of voter rolls, and also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia Code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: RE: State Election Board - *Correction* Proposed Rules (November 23, 2020)

Good morning, Abigail,

We are going to reiterate the residency requirements in OCGA 21-2-217 in an OEB instead of proposing a new rule.

We amended the drop box rule to include language that allows the SOS investigators and the public to request the video surveillance of the drop boxes from the counties at a cost that is not burdensome and for the request is to be fulfilled as quickly as possible. This rule is extended to February 4th, which is 30 days after the January 5th runoff election, so that it is in compliance with the spoliation requirements in the Rule.

- County election officials are getting a lot of ORRs for the videos and they are telling the requestors that it is going to be three weeks or so until they can get the records to them.
- The purpose was to make the video footage more readily available to the publica and not burdensome

The early processing rule was extended to January 5th. There will be three weeks of early processing again, however, we amended the Rule to require all election officials to begin early processing the last week of early voting, and counties must give notice of time/location of early processing (which is already in the rule) and adhere to when they say they are going to commence early scanning.

- There was concern that election officials were publishing their notice that they were going to start on a certain day/time, but then would change their mind last minute and not adhere to when they said they were going to commence early processing.
- The process needs to be transparent and the public needs to be afforded the opportunity to observe the process.
- It is also expected that we are going to have a high volume of AB voters for the runoff and that extending the rule helps with the burden of processing the ABs.

I hope this helps! Please let me know if you have any other questions.

Have a happy Thanksgiving!

Gabrielle

Subject: FW: 11.18.2020 - Draft FAQ
Attachments: 11.19.2020 Draft FAQ.docx

Ryan,

We need to send legislators an update on signature verification and the audit. Can you please tell me if the below questions are approved and review the FAQ when you can. I got most of the answers from previously approved posts or the code, and just need someone to review that they can be sent to legislators to share with their constituents.

SIGNATURE VERIFICATION

1. **Can you review the signatures during the risk-limiting audit?** Counties conducted a full manual tally of the already accepted ballots. **The voter's signature on the absentee ballot application has to be matched to the voter's signature on file before they are ever sent a ballot.** The voter's signature on the absentee ballot return envelope is then matched again to the voter's signatures on file. Once an absentee ballot has gone through the verification process, it is separated from the envelope that contains the signature. Once a ballot has been cast (whether in person or absentee by mail), there is no way to go back to see who cast that ballot. This is important, and in the Georgia Constitution, to maintain the privacy of each citizen's vote.

2. **How do counties compare signatures?** The Secretary of State's Office brought in the Georgia Bureau of Investigation to train elections workers on signature match. These highly trained officials conduct signature match *twice* during the absentee ballot process, securing votes in Georgia and helping make sure that each person gets one vote. Counties can review signatures in ENet, in local drives at the counties, and in paper files at the county to ensure the signature matches.

3. **Is the voter notified if the signature does not match?** Yes, if the signature is missing or is NOT consistent with the signatures on file, the county office rejects the ballot, but then contacts the voter and sends a ¤cure affidavit¤ for the voter to provide a signature AND copy of identification to confirm that it is actually the registered voter who voted and returned the ballot. If the voter fails to provide this information by three days after the election, the ballot is not counted. If the voter does provide this ¤cure affidavit¤ and copy of identification, the absentee ballot is ¤cured¤ and is counted with the other absent ballots.

4. **Were ballots rejected for signature issues?** Yes. The number of absentee ballot rejections for signature issues increased approximately 350% in the November 2020 election in Georgia from the 2018 election, about the same rate of increase as the total number of absentee ballots accepted. The rejection rate for absentee ballots with missing or non-matching signatures in the 2020 General Election was 0.15%, the same rejection rate for signature issues as the 2018 General Election. In the 2020 Primary, 3,266 absentee ballots were rejected for missing or non-matching signatures out of 1,151,371 absentee ballots cast, a rejection rate of 0.28%. The lower rejection rate in the general election compared to the primary is likely the result of both parties attempting to help voters cure their absentee ballots pursuant to the process set forth in Georgia statute.

Thanks!

Subject: 11.18.2020 - Draft FAQ

Ryan/Gabe,

Attached are 42 frequently asked questions and answers. Will you please review and approve if these can be used to help SOS and senate staff answer constituent questions?

From a process standpoint, I think it would be helpful if we have an FAQ webpage we can update daily as we get new responses. Then we can send the senators a new email with the link and the new questions and answers in the body of the text.

Thanks!

Subject: Re: Facebook question(s)

Here is what I understand the answers to be. Ryan, please jump in and correct where necessary.

What policies did you implement to catch and/or prevent ballot harvesting?
A. One of the first actions I took as Secretary of State was to push for making ballot harvesting illegal in Georgia. Before 2019, ballot harvesting was not explicitly forbidden. So in terms of prevention, the first step is to make it illegal and instruct county election offices to be on the lookout for ballot harvesting. Like other crimes, when there is evidence, you pursue those who have broken the law. Our office has investigated allegations of ballot harvesting and will continue to do so.

Do mail-in ballots have to provide a state issued photo ID ? If not, why is this acceptable when a vote in person is required to show an ID?
A. Ballots cast Absentee by mail do not currently require a government-issued photo ID. This dates back to the 2005 law passed in the GA General Assembly that required photo ID for voting in person, but not for Absentee by mail. In order for government-issued photo ID to be required with absentee by mail, the state legislature would need to pass legislation requiring it. It is worth noting that the absentee ballot online request portal that our office set up this year does require proof of a government-issued photo ID.

Was the address and residency validated and matched with state records on mail ins?
A. A voter must request an absentee ballot before they can be sent one. By registering to vote in GA, the individual is declaring that they are a resident of GA. Misrepresentation of that is a felony and could be punishable by [Ryan, please fill in]

Have all mail in names been matched with voter registration?
A. Yes. In order for a ballot to be issued, an absentee ballot request must be submitted by the voter and that application is matched to the voter registration on file for the individual.

If a signature doesn't match, does the state notify the voter so they can "fix" it because it's discrimination against black people to require signatures to match?
A. If a voter's signature doesn't match, the county elections office is required to notify the individual and give them an opportunity to "cure" the failed signature.

Also, your argument for not rechecking signatures was that they were separated from ballot to ensure privacy. So, basically there will be no signature verification after hundreds of thousands were "approved" after election? To ensure transparency and legitimacy of the election, could you have enclosed the signature in an attached envelope (hidden from being seen) until all disputed mail ins were verified instead of tossing them making it impossible to be fairly verified in case of fraud investigation?
A. There are two signature matches that must occur before a ballot is accepted. First, unless using the online portal where a government-issued ID is used to match the voter, the individual must sign their application. Then, upon returning the absentee ballot to the county elections office, there is another signature match performed. Once the signature is matched, the ballot is then separated from the envelope to ensure voter privacy - the secrecy at the ballot box we all treasure as Americans. While county offices are required to keep applications and outer envelopes on file, there is no way to match the signature to a ballot that has been cast.

Subject: GA Voting Works Drop Box Donation

Good morning,

Please let me know if you all are interested in receiving more drop boxes for your counties. GA Voting Works is going to try to get donations for more boxes. You all would be responsible for handling installation and any camera /surveillance cost, but the boxes would be paid for. This is not a guarantee that you will get all or anything you ask for but it does not hurt to ask. Please respond to this email by Friday, if you are interested.

Thank you,

Leigh Combs

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

I have been requesting this information since November 5th. I have checked the chain of command, and you have the ability to walk this request through personally. This has gone on long enough. I have saved every email, + 37 recorded phone calls, including a detailed list of names involved, I have made to the governor and Secretary of State. With these recorded phone calls and emails, I have more than enough proof that I have been denied access to public information as outlined in the Georgia Information Act. I have asked for this information as a voter of the state of Georgia, more importantly, as someone who loves this state. I have no intentions of using these materials maliciously, nor do I have any intent on posting it publicly. However, if the majority of my request is not fulfilled by 4 p.m. today, I have 2 Media Outlets and my local Republican office standing by to receive copies of all my correspondence, and detailed list of names involved. I have been nothing but patient, polite, and forthcoming in this matter, despite the fact I was met with nothing but hostility on the telephone on at least 29 of those phone calls. According to legal counsel I have received, I have not asked for any information out of the scope of the Georgia Information Act. I was also informed I reserve the right, and I intend on exercising that right,to post all of my emails and recorded phone conversations, including names of everyone involved, as I see fit. Considering the time frame when I started this request, if the majority of my request or not met by 4 p.m., I intend on exercising that right. I would appreciate a speedy turnaround, and anticipate hearing from you today. I understand it may take a day or two to get the video together, but there should be no problem fulfilling the rest of my request by the end of the day.

Sincerely,
Mark Kacsir

AMERICAN OVERSIGHT

Consider this an open records request for the following, D-Suit 5.5 -A Test Report Completed and signed on August 7, 2019, Michael Walker and Wendy Owens, project managers of before mentioned report. There are 13 pages of this report missing from Ga. Records online. Also, the CCTV Footage from State Records involving all Ballot Drop Boxes from 12pm -3pm November 1, 2020 - November 6, 2020. Also, we request Receipt total of said Dominion Voting Systems Equipment, Georgia residents have a right to know what we spent the funds on, and who benefited from said purchase, records avail. online are INCOMPLETE. Our calculated totals, based on pricing in July, do not correspond with what was reported when equipment was purchased. We are also hereby requesting names of those individuals issued Access drives, admin login ability, and those individuals who had access to Dominion Switches, I also hereby request information regarding individuals involved in the purchase of said Dominion Voting systems, Sales representatives names, purchasers names, and an accurate count of Dominion Equipment purchased, as records avail. are INCOMPLETE. Any individual name requested will be required for subpoenas if I decide to move forward. I am requesting this information under the protection of Georgia information ACT..

Thank You, Mark Kacsir.

Consider this an open records request for the following, D-Suit 5.5 -A Test Report Completed and signed on August 7, 2019, Michael Walker and Wendy Owens, project managers of before mentioned report. There are 13 pages of this report missing from Ga. Records online. Also, the CCTV Footage from State Records involving all Ballot Drop Boxes from 12pm -3pm November 1, 2020 - November 6, 2020. Also, we request Receipt total of said Dominion Voting Systems Equipment, Georgia residents have a right to know what we spent the funds on, and who benefited from said purchase, records avail. online are INCOMPLETE. Our calculated totals, based on pricing in July, do not correspond with what was reported when equipment was purchased. We are also hereby requesting names of those individuals issued Access drives, admin login ability, and those individuals who had access to Dominion Switches, I also hereby request information regarding individuals involved in the purchase of said Dominion Voting systems, Sales representatives names, purchasers names, and an accurate count of Dominion Equipment purchased, as records avail. are INCOMPLETE. Any individual name requested will be required for subpoenas if I decide to move forward. I am requesting this information under the protection of Georgia information ACT..

Thank You, Mark Kacsir.

Subject:

Please poll your counties and see if they would like to ask for more ballot drop boxes and how many. GA Voting Works is going to try to get donations for more boxes, and we need a list of counties who would like them. The counties would have to handle installation and any camera/surveillance costs, but the boxes themselves would be paid for. There isn't a guarantee that they will get all or anything they ask for, but it doesn't hurt or cost anything to ask. We need this response by Friday. Please set up a new spreadsheet to track responses.

Here is the list Blake. It is being updated to include tomorrow for people who have credentials. I will send you an updated list once it is completed.

Also, we are in the process of recruiting more monitors who will need to deploy on Monday. We will need some way to get credentials over the weekend.

Is Hannah Kitzmiller's situation in Rockdale resolved?

Thanks.

Hi Blake,

Just tried to call you. Our monitor in Rockdale County is being denied access as a monitor because her credentials from SOS identify her as an observer.

Can you please help resolve this? I fear this is going to be an issue for our monitors.

Sita

Hi Blake, Ryan and Chris,

Would it be possible for you to forward the communication that you will be sending to the counties on the provisions of access that Carter Center monitors will receive?

We would like to be able to have that on file, and also be able to share it with our observers so that they can show it to county election officials if there any questions about the degree of access for our monitors since our current accreditation documentation calls us observers.

Many thanks,
Avery

Good Afternoon Chris,

I hope you are doing okay.

I wanted to give you a heads up – a lawsuit was filed against my Board, and me, last night.

I have attached for your information.

It is my county attorney's opinion that these lists are not subject to open records.

An emergency hearing was called for this morning. I was in court until just after 11am. The judge ruled in our favor; we will not be providing these lists to requestors.

Subject: absentee ballots sent from one county to another

Chris,

Apparently Clarke County (and likely others) are sending absentee ballots they received for other counties in their drop boxes to the correct county. It's fine for them to send them, but those ballots should not be counted if they did not arrive at the correct registrar's office by 7 p.m. on Election Night. The receiving county should treat them as a late arriving ballot. Apparently there was some confusion about this at Columbia County. Can we send something out reminding counties of this?

Thanks,
Ryan

November 17, 2020

Secretary of State's Office to Hold News Conference

What: A news conference on the post-election audit/hand recount

When: Tuesday, November 17, 4 p.m.

Where: Zoom link:here

Please click on the three dots (more) to raise your hand to be recognized for a question.

Note: This is a new Zoom link from this mornings news conference.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record primary turnout in 2020, with over 1.1 million absentee by mail voters and over 1.2 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

Subject: Approval requested - Secretary of State Election Update

Subject: 11.30.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see the links to today's Election Update from the Secretary of State. We have also included bullet point notes and background information that may be helpful to you in addressing constituent inquiries. **As a reminder, Bartow, Ben Hill, Clarke, Clayton, DeKalb, Fulton, Oconee, Pierce, Polk, and Taliaferro are conducting December 1, 2020, Special Election Runoffs.**

10:30 AM Election Update: https://www.gpb.org/events/news/2020/11/30/secretary-of-states-office-election-briefing

- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division.
- The Secretary of State's Office is opening an investigation into third party groups working to register people in other states to vote here in GA.
- We have opened an investigation into a group called America Votes, who allegedly attempted to send absentee ballot applications to people at addresses where they have not lived since 1994.
- We have opened an investigation into Vote Forward, who allegedly attempted to register a deceased Alabama woman to vote.
- We have opened an investigation into the New Georgia Project, who allegedly sent voter registration applications to New York City.
- We have opened a registration into Operation New Voter Registration Georgia, who allegedly have encouraged college students in Georgia to change their residency to Georgia and then change it back after the election. Voting in Georgia when you are not a resident of Georgia is a felony.
- Georgia law is clear about the seriousness of the crime committed by those looking to come to Georgia solely for the purpose of voting in the January 5th runoff elections. O.C.G.A. § 21-2-217(a)(4) requires that registrants be "a resident of this state and of the county or municipality in which he or she seeks to vote." O.C.G.A. § 21-2-217(a)(1) adds that "the residence of any person shall be held to be in that place in which such person's habitation is fixed, without any present intention of removing therefrom;" this would include individuals who move to Georgia solely for the sake of casting a ballot in an election with no intention of remaining in the state. **False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and /or up to a $100,000 fine (O.C.G.A. § 21-2-561).**
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 PER COUNT (O.C.G.A. § 16-14-5).

AMERICAN OVERSIGHT

- Casting an illegal vote in GA is a felony.
- Casting more than one vote in an election is a felony.
- Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.
- 1,040 absentee ballots have already been accepted by the counties for January 5, 2020.

4:00 PM Election Update: https://www.gpb.org/events/news/2020/11/30/secretary-of-state-gives-election-update

- As of 4:00 PM today, 43 counties are finished with the recount requested by President Donald Trump. The recount is scheduled to be completed by midnight December 2, 2020.
- Fulton County has encountered some challenges with rescanning. They have a total of 17 scanners and plan to finish tomorrow between 7:00 AM -11:00 PM. DeKalb and Cobb Counties are completed with physical scanning. Gwinnett County has 120,000 ballots left to scan (about 60% done).
- 947,928 absentee ballot requests have been made for the January 5th Election, including 604,255 request from the rollover list.
- The 604,255 persons on the rollover list to receive an absentee ballot for January 5th Election have been mailed ballots. 488,238 absentee ballots were mailed by Runbeck, and 116,017 were mailed through Ft. Orange (vendor selected by Gwinnett and DeKalb).
- The new request being made through the Secretary of States secure online absentee ballot portal requires a driver's license or voter ID number.

If you have any questions, please do not hesitate to reach out to me or our Legislative Director, Hayley McCloud.

Sincerely,

Sam Teasley

Good afternoon! I've gotten a letter from state Rep. Tom Kirby, R-Loganville, that he supposedly he sent to Secretary Raffensperger saying he interprets the law that the drop boxes shouldn't be used in the runoff.

The letter is attached. I'd like to know if the secretary, Gabriel Sterling or anyone else in the office has a comment.

Thanks,

David

Subject: 11.19.2020 - Election FAQ for Final Approval

Jordan,

Here is the updated FAQ for approval. Please let me know if we can share this with legislators.

Significant edits since legal reviewed in yellow:

12. **What policies did the Secretary of State implement to catch and/or prevent ballot harvesting?** Secretary of State Raffensperger advocated to make ballot harvesting illegal in Georgia. Since the passage of HB 316, ballot harvesting is explicitly forbidden by Georgia code. The Secretary of State's office has instructed county election offices to be on the lookout for ballot harvesting, and has trained investigators to investigate allegations of ballot harvesting. Absentee ballot drop boxes are required to be monitored by 24/7 video surveillance.

41. **Were there software updates the day before the election?** No. An election worker in one county who originally claimed that recanted when shown the log files from the devices in question.

Sincerely,

Hayley

AMERICAN OVERSIGHT

From: McCloud, Hayley
To: Watson, Frances <fwatson@sos.ga.gov>
CC: Germany, Ryan <rgermany@sos.ga.gov>
Teasley, Sam <samteasley@sos.ga.gov>
Date: 12/4/2020 5:02:17 PM
Subject: Frances, can you please review: 12.04.2020 - Secretary of State Election Update

Frances, Ryan asked me to get with you to review the first bullet point paragraph of this letter regarding Fulton County. Could you please advise/revise?

State Farm Arena Video:

Video footage from State Farm Arena has already been debunked: link here.

- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election. This independent elections monitor remained with Fulton while scanning occurred.
- There have been several stories on the Fulton County video, and our office would like to draw your attention to this report: (Insert WSB Link)
- On the morning of November 3, 2020, Fulton County reported a plumbing leak to the Secretary of State's Office. Fulton County reported that the plumbing leak did not damage any ballots and that it was resolved a few hours later.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go, and left.
- The Secretary of State's Office has opened an investigation into Fulton the case is still actively being investigated.
- Per O.C.G.A. § 21-2-408(b)(1), each political party and political body may designate two official poll watchers for each precinct.
- Poll watchers recruitment and training is a party function. While poll watchers are allowed and encouraged to observe, they are not required.
- The Secretary of State's Office has launched an investigation into why the monitors from the political parties appear to have left before scanning ended.
- The observers were free to return at any time.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned.
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- The ballots seen in the video appear to be in regular ballot containers, not suitcases, and they had been removed from their envelopes and processed while news media and election observers for the Republican Party and Trump campaign were present.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

Video footage from State Farm Arena has already been debunked: link here.

- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election. This independent elections monitor remained with Fulton while scanning occurred.
- There have been several stories on the Fulton County video, and our office would like to draw your attention to this report: (Insert WSB Link)
- On the morning of November 3, 2020, Fulton County reported a plumbing leak to the Secretary of State's Office. Fulton County reported that the plumbing leak did not damage any ballots and that it was resolved a few hours later.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go, and left.
- The Secretary of State's Office has opened an investigation into Fulton the case is still actively being investigated.
- Per O.C.G.A. § 21-2-408(b)(1), each political party and political body may designate two official poll watchers for each precinct.
- Poll watchers recruitment and training is a party function. While poll watchers are allowed and encouraged to observe, they are not required.
- The Secretary of State's Office has launched an investigation into why the monitors from the political parties appear to have left before scanning ended.
- The observers were free to return at any time.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned.
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- The ballots seen in the video appear to be in regular ballot containers, not suitcases, and they had been removed from their envelopes and processed while news media and election observers for the Republican Party and Trump campaign were present.

The State Election Board:

- In Georgia, counties run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. Our Elections Division instructed counties to train their scanner poll workers to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Under the explanation of how votes are uploaded:

The voter has the option to review the content of the printed ballot to confirm the selections they made are present and accurate on the printed ballot.

I propose adding an additional sentence:
Our Elections Division instructed counties to train their scanner poll workers to prompt the voter to review their ballot to ensure its accuracy.

The precinct scanner scans the content of the ballot and records the intent of the voter; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.

I propose:
The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. Our Elections Division instructed counties to train their scanner poll workers to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Under the explanation of how votes are uploaded:

The voter has the option to review the content of the printed ballot to confirm the selections they made are present and accurate on the printed ballot.

I propose adding an additional sentence:
Our Elections Division instructed counties to train their scanner poll workers to prompt the voter to review their ballot to ensure its accuracy.

The precinct scanner scans the content of the ballot and records the intent of the voter; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.

I propose:
The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.

Jordan,

Per your request, please see the draft update for today which has not received legal review yet.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

Fulton County:

1. Fulton County was assigned an independent elections monitor as part of the State Election Board investigation

AMERICAN OVERSIGHT

1. into the June 9, 2020, Primary Election. This independent elections monitor remained with Fulton while scanning occurred.
2. There have been several stories on the Fulton County video, and our office would like to draw your attention to this report: https://leadstories.com/hoax-alert/2020/12/fact-check-video-from-ga-does-not-show-suitcases-filled-with-ballots-pulled-from-under-a-table-after-poll-workers-dismissed.html
3. On the morning of November 3, 2020, Fulton County reported a plumbing leak to the Secretary of State's Office. Fulton County reported that the plumbing leak did not damage any ballots and that it was resolved a few hours later.
4. It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go, and left.
5. The Secretary of State's Office was aware that Fulton County scanning had continued during the period captured in the video presented at the Senate hearing. This office dispatched an investigator and notified the independent monitor appointed by the State Election Board. The state monitor and the state investigator observed scanning until it was halted.
6. Per O.C.G.A. § 21-2-408(b)(1), each political party and political body may designate two official poll watchers for each precinct.
7. Poll watchers recruitment and training is a party function. While poll watchers are allowed and encouraged to observe, they are not required.
8. The Secretary of State's Office has launched an investigation into why the monitors from the political parties appear to have left before scanning ended.
9. The observers were free to return at any time.
10. At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned.
11. The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
12. The ballots seen in the video appear to be in regular ballot containers, not suitcases, and they had been removed from their envelopes and processed while news media and election observers for the Republican Party and Trump campaign were present.

The State Election Board

1. In Georgia, counties run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
2. When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
3. Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
4. The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
5. State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board
6. Rules and Rulemaking of the State Election Board:

Ryan/Jordan, is this approved to go out?

Dear Members of the General Assembly,

Please see the information below that may be helpful to you in addressing constituent inquiries.

Absentee Ballot Drop Boxes:

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020**. *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots) this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters."
- There is a posted sign with all absentee ballot drop boxes showing that:

AMERICAN OVERSIGHT

- The drop box is under 24 hours, video surveillance.
- Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
- A violation can result in a fine of up to $10,000 and 10 years in prison.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
  - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
  - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

I think we need to address the Fulton situation. We just need to say something like what you had but change the part about the monitor to: a State Election Board monitor was on scene soon after the time period depicted in the video and confirmed that the Fulton county election officials depicted in the video were performing regular election duties.

What's the thing about single vs. double signature match? We should probably address that too.

Thanks, Ryan! I took out the bolded sentence "at all times". Is that approved with the edit?

We had "at all times" in the 11.20.2020 FAQ, and I think it may have been in a press release first. So that is worth noting. Sen. Parent brought up that we had a monitor there the whole time.

- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2- 381(a)(1)(A); O.C.G.A. § 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters."
- **Anyone can request to see the absentee ballot drop box video recording by making an open record request**

AMERICAN OVERSIGHT

- **to the county. The bipartisan county elections/registration board may also view these video recordings.**
- There is a posted sign with all absentee ballot drop boxes showing that:
    - The drop box is under 24 hours, video surveillance.
    - Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
    - A violation can result in a fine of up to $10,000 and 10 years in prison.

Fulton County Observation on Election Day:

- This particular issue remains under investigation.
- Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left.
- As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.
- The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left.
- Fulton County Chairman, Robb Pitts, testified this morning the water leak that occurred at State Farm Arena occurred at 6:07 A.M. and was resolved at 8:07 A.M. on November 3, 2020, and no ballots were damaged.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Subject: Draft RG/ST approval - 12.03.2020 - Secretary of State Election Update

Ryan and Sam,

Will you please review the letter below to send today? Tomorrow I think we should send out an explanation of what the SEB does and how votes are uploaded. We have had positive feedback for sending just the facts updates from both sides. Thanks for your help with this.

Dear Members of the General Assembly,

Please see the information below that may be helpful to you in addressing constituent inquiries.

Absentee Ballot Drop Boxes:

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020**. *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots) this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf

Thanks, Ryan! I took out the bolded sentence "at all times". Is that approved with the edit?

We had "at all times" in the 11.20.2020 FAQ, and I think it may have been in a press release first. So that is worth noting. Sen. Parent brought up that we had a monitor there the whole time.

  - The drop box is under 24 hours, video surveillance.
  - Only the voter, the voters approved family members, an individual residing in same household, or a caretaker of a voter with disability can drop off the voter's ballot.
  - A violation can result in a fine of up to $10,000 and 10 years in prison.

Fulton County Observation on Election Day:

- This particular issue remains under investigation.
- Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left.
- As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.
- The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left. **Since both the observer and investigator remained with Fulton County workers, scanning was observed by the Secretary of State's Office at all times.**
- Fulton County Chairman, Robb Pitts, testified this morning the water leak that occurred at State Farm Arena occurred at 6:07 A.M. and was resolved at 8:07 A.M. on November 3, 2020, and no ballots were damaged.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
  - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
  - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Rough draft:

Ballot tabulation process on Election Day

1. After a voter makes their selections using the BMD, the BMD prints out the voter's ballot
2. The Voter reviews the content of the printed ballot to confirm the selections they made are present and accurate on the printed ballot
3. The Voter inserts their ballot into a precinct scanner
4. The precinct scanner scans the content of the ballot and records the intent of the voter; the precinct scanner resides on a sealed ballot box which then holds the scanned ballot
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner
6. At the end of Election Day, a poll worker closes the election on the precinct scanner and the precinct scanner tabulates all the information its has collected from the ballots inserted and produces a vote tally tape for that single device
7. The vote tally tape is posted at the precinct and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system
11. The Secretary of State's election night report system receives uploads from all counties and aggregates the county-calculated results and display them out to the public

Subject: Chairman Rick Jasperse Questions

Hey,

I know everyone is slammed today. Do we have answers to the two questions below, or materials we can provide on the timeline of the water break, or a graphic to prove that the machines are air gapped and the votes don't leave the country?

1) Do we have the timeline for the Fulton county water break? Was it 6:07 AM and resolved by 8:07 AM. Is there any timeline we can provide to prove our observer was there?

2) Do we have a chart that explains, without risking security, how the results are tabulated and uploaded without leaving our country?

Chairman's Question: "The hardest question revolves around Dominion and this issue about software and ballot data leaving Georgia to be processed or worked through something called an algorithm in a foreign country. I could not even begin to answer that question. It's really undermining of the equipment and the software that's going on. So that people do not trust the basics of what is going on. So is there a pathway that a vote takes that leaves our state. Do we have flow chart on the path a vote takes and who touches it."

Thanks!

Dear Members of the General Assembly,

Please see the links to today's election updates from the Secretary of State and additional information that may be helpful to you in addressing constituent inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and the New Georgia Project, that have repeatedly and aggressively sought

AMERICAN OVERSIGHT

- to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020, Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from the New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from the New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said the New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from the New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
    - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

AMERICAN OVERSIGHT

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of State's Office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and it also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from the New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from the New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said the New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from the New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
    - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of State's Office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and it also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory

AMERICAN OVERSIGHT

- opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: Chairman Rick Jasperse Questions

Hey,

I know everyone is slammed today. Do we have answers to the two questions below, or materials we can provide on the timeline of the water break, or a graphic to prove that the machines are air gapped and the votes don't leave the country?

1) Do we have the timeline for the Fulton county water break? Was it 6:07 AM and resolved by 8:07 AM. Is there any timeline we can provide to prove our observer was there?

2) Do we have a chart that explains, without risking security, how the results are tabulated and uploaded without leaving our country?

Chairman's Question: "The hardest question revolves around Dominion and this issue about software and ballot data leaving Georgia to be processed or worked through something called an algorithm in a foreign country. I could not even begin to answer that question. It's really undermining of the equipment and the software that's going on. So that people do not trust the basics of what is going on. So is there a pathway that a vote takes that leaves our state. Do we have flow chart on the path a vote takes and who touches it."

Thanks!

Hayley

Last night you asked if I had any questions that might could be asked.

I spoke to my Rotary Club on elections today .....I ran over in time and only had one stomp out. So many questions .....

The hardest question revolves around Dominion and this issue about software and ballot data leaving Georgia to be processed or worked through something called an algorithm in a foreign country. I could not even begin to answer that question. It's really undermining of the equipment and the software that's going on So that people do not trust the basics of what is going on. So is there a pathway that a vote takes that leaves our state. Do we have flow chart on the path a vote takes and who touches it.

Well I also attempted to explain the State Farm Arena water pipe break and the confusion that goes on about that from a question about that. When I said that we meaning the Secretary of State had a state observer still in the State Farm Arena observing even after some GOP monitors left one of my local realtors said bullshit and stomped out....of a Rotry meeting . Do you have an explanation or timeline of what really happened so I can touch base with him and explain it to him. I understand there's a video tape etc. to verify what really went on. I would like to straighten this out with him. I think other people want to know to.

So is that what you wanted to see in questions?

inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and the New Georgia Project, that have repeatedly and aggressively sought to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020, Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from the New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from the New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said the New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had lived in a different state for five years.

- where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of State's Office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and it also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: Chairman Rick Jasperse Questions

Hey,

I know everyone is slammed today. Do we have answers to the two questions below, or materials we can provide on the timeline of the water break, or a graphic to prove that the machines are air gapped and the votes don't leave the country?

1) Do we have the timeline for the Fulton county water break? Was it 6:07 AM and resolved by 8:07 AM. Is there any timeline we can provide to prove our observer was there?

2) Do we have a chart that explains, without risking security, how the results are tabulated and uploaded without

AMERICAN OVERSIGHT

leaving our country?

Chairman's Question: "The hardest question revolves around Dominion and this issue about software and ballot data leaving Georgia to be processed or worked through something called an algorithm in a foreign country. I could not even begin to answer that question. It's really undermining of the equipment and the software that's going on. So that people do not trust the basics of what is going on. So is there a pathway that a vote takes that leaves our state. Do we have flow chart on the path a vote takes and who touches it."

Thanks!

Hayley

Hayley

Last night you asked if I had any questions that might could be asked.

I spoke to my Rotary Club on elections today ran over in time and only had one stomp out. So many questions ..

The hardest question revolves around Dominion and this issue about software and ballot data leaving Georgia to be processed or worked through something called an algorithm in a foreign country. I could not even begin to answer that question. It's really undermining of the equipment and the software that's going on So that people do not trust the basics of what is going on. So is there a pathway that a vote takes that leaves our state. Do we have flow chart on the path a vote takes and who touches it.

Well I also attempted to explain the State Farm Arena water pipe break and the confusion that goes on about that from a question about that. When I said that we meaning the Secretary of State had a state observer still in the State Farm Arena observing even after some GOP monitors left one of my local realtors said bullshit and stomped out of a Rotry meeting . Do you have an explanation or timeline of what really happened so I can touch base with him and explain it to him. I understand there's a video tape etc. to verify what really went on. I would like to straighten this out with him. I think other people want to know to.

So is that what you wanted to see in questions?

On Dec 2, 2020, at 7:02 PM, McCloud, Hayley <hmccloud@sos.ga.gov> wrote:

Dear Members of the General Assembly,

Please see the links to today's election updates from the Secretary of State and additional information that may be helpful to you in addressing constituent inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and the New Georgia Project, that have repeatedly and aggressively sought to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020, Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**

AMERICAN OVERSIGHT

- If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
- Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).
- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from the New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from the New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said the New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from the New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
  - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of State's Office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and it also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.

AMERICAN OVERSIGHT

- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*

Subject: Fwd: Follow-up: Election Issue from Rep. Penny Houston

This appears to be the follow up when a voter says they are interested in voting absentee. Is that a tracking link that counts how many people click on it?

The bvmga link goes to the ballot request portal.

Secretary of State's Office to Hold News Conference

What: A news conference on the post-election audit/hand recount

When: Tuesday, November 17, 4 p.m.

Where: Zoom link:here

Please click on the three dots (more) to raise your hand to be recognized for a question.

Note: This is a new Zoom link from this mornings news conference.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record primary turnout in 2020, with over 1.1 million absentee by mail voters and over 1.2 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

Jordan,

Since legislators are requesting a FAQ only version of the letter they can share, **do you approve me sending just the FAQ attached, the OEB, and letting them know in a new email that they can share this with their constituents?** I highlighted the changes from the version you approved in yellow below and added one question on residency using Ryan's language.

Do you have to be registered to vote in the General Election to vote in the General Election Runoff?
While O.C.G.A § 21-2-501(a)(10) indicates that only voters who were registered to vote in the General Election shall be able to vote in the runoff, a federal judge has ordered the state may not enforce this state code and must allow voters to register to vote up to 30 days before the election for federal offices. On October 13, 2017, the Hon. Timothy C. Batten, Sr., US District Court Judge, ordered that the Secretary of State is enjoined from enforcing Georgia law for the purpose of establishing the voter registration deadline for any election for federal office, including runoffs, that is later than the lesser of 30 days before the date of the election.

Is it a crime to fraudulently register to vote?
To register to vote in Georgia, you must be a resident of Georgia. Registering to vote if you are not a resident is a felony punishable by up to 10 years in prison and a fine of up to $100,000 (O.C.G.A § 21-2-561). To be considered a resident of Georgia, a person must have a fixed habitation in Georgia with no intention of removing therefrom (OCGA 21-2-217). A person shall not be considered to have gained residence in Georgia if they have come for temporary purposes only without the intention of making the state such person's permanent place of abode per O.C.G.A § 21-2-217(a)(3). The county board of registrars has the right and duty to examine any registrant's qualifications to register to vote, including examining their residency (O.C.G.A § 21-2-217). When you become a resident of Georgia, Georgia law requires that you update your driver's license to a Georgia driver's license within 30 days. The Secretary of State's office is working on an emergency State Election Board Rule to clarify how county election boards can ensure that new registrants are in fact residents of Georgia.

Reply-To: [redacted]

I would like to suggest that the SOS or whomever has all the facts, to give us a paper that explains facts and false on the election issue. It would make it easier to speak with constituents when armed correctly. We could have each of us send some questions that could be replaced with answers. I cannot keep telling them I don't have an answer.

Senator Elect Sheila McNeill

Yep. I even started sharing calculator screen shots that as of the 11/3 election, Perdue was 28k or so votes short of 50%.

In other words, Trump would be declared the winner well before Perdue would avoid a runoff.

Ryan,

Thanks for providing those answers. The version you edited didn't have the more detailed questions added by Gabe. **While this is on hold pending approval**, I am including the final draft I have for review in the text below and attached with everyone's combined edits.

November 11, 2020

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Every legal vote must be counted, and any credible instances of illegal voting must be promptly and thoroughly investigated. I understand many of you are getting calls and emails about elections. Please know that you have an open line of communication with me and my team. We are here to serve, and we will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system. This letter contains answers to frequently asked questions. If you or your office would like additional information, please do not hesitate to ask.

What oversight power does the Secretary of State's office have to ensure county elections offices comply with election laws?
In Georgia, counties run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections. The Secretary of State's Office Investigations Division has POST-certified law enforcement officers that investigate any allegations of non-compliance with election law and regulations. Those investigations are then brought to the State Election Board, which decides the appropriate action.

How can we stop and prevent voter fraud?
My office investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

When can we expect official election results?
98 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th. After the state certifies the election results, the losing candidate may request a recount if the losing candidate is within 0.5% margin between the winning candidate.

Can ballots be accepted after the close of polls?
Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day in order to be counted. **Post marked dates are only applicable to military and overseas ballots in compliance with federal election law**. These military and overseas ballots must be postmarked by Election Day and received by Friday, November 6th, in order to be counted.

Did Fulton County count ballots without observation?

AMERICAN OVERSIGHT

The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party appointed poll watchers may have left. **Since both the observer and investigator remained with Fulton County workers, scanning was observed by the Secretary of State's Office at all times.** Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go. This particular issue remains under investigation.

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?
Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors. Counties must provide a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. **It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter list.**

What was the breakdown of absentee and Election Day voting?
Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Why do we have absentee voting?
The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since 2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

Since I voted early in person, why does My Voter Page show me voting absentee?
Any time a voter votes before Election Day it is considered "absentee" voting**.** "Early voting" and "advanced voting" is absentee in-person voting.

Will there be a risk limiting audit?
Yes. On November 11, 2020, my office announced that the Presidential race will be audited. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence.

What is the difference between an audit and a recount?
An audit is done prior to state certification of the election and is required by law since the enactment of HB 316. A recount must be requested after state certification, and is a recount of each and every ballot.

How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.

Could counties scan absentee ballots before November 3rd?
Georgia counties had two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, my office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. The majority of Georgia counites had scanned the absentee ballots they received prior to Election Day, and were only scanning ballots received on Election Day after the close of polls.

When is the voter registration deadline for the January 5th runoff?

AMERICAN OVERSIGHT

The last day to register to vote in the January 5, 2021, runoff is December 7, 2020. Only citizens who are legal, permanent residents of the county may register or vote. Learn more about the requirements for voter registration here: https://sos.ga.gov/index.php/Elections/register_to_vote

Again, if I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

Sincerely,

Brad Raffensperger

Gabe,
I added your answers and made minor edits. As I mentioned, this is a long letter. I would recommend that we have Tori send this as an email with the text in the email when it is approved.

Ryan,
Please review these answers carefully and send for approval. I believe this is more effective if we can get it out sooner than later.

November 10, 2020

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Please know that I will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system**. Please see the answers to frequently asked questions below and know that I value and appreciate your support as we work together to ensure every legal vote is counted, and credible instances of fraud are promptly and thoroughly investigated**.

What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?
Ryan

Did Fulton County tell media and observers to go home and keep counting?
Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. These are workers who opened, sorted and stacked absentee ballots. As they left some allegedly stated that they were, "done counting for the night." At the same time those who were scanning ballots continued their work. Some party observers have stated they were told they needed to go. **This particular issue remains under investigation.** Regardless, the Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers as they continued to scan ballots through the night. Since both the observer and investigator remained with Fulton County Workers, scanning was observed by the Secretary of State's office at all times.

How can we stop and prevent voter fraud?
Citizens may use the online reporting form or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

What was the breakdown of absentee and Election Day voting?
Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Since I voted early in person, why does My Voter Page show me voting absentee?
Any time a voter votes before Election Day it is considered "absentee" voting. "Early voting" and "advanced voting" is absentee in-person voting.

How do we know counties stopped collecting new ballots that did not meet the legal deadline in this state?
County election officials take an oath to uphold the laws of this state and country, and **it is a felony to commit voter fraud. Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day**.

AMERICAN OVERSIGHT

Ballots received after the close of polls must be kept separate. (The post mark date is only applicable to military and overseas ballots in compliance with federal election law.)

What is a military ballot?

What is often referred to as a "military ballot" is a UOCAVA ballot for military and overseas voters. The federal *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)* requires states and counties to accept the ballots of overseas citizens and members of the military and their spouses three days after the election as long as these UOCAVA ballots are postmarked by Election Day. 18,407 UOCAVA ballots were accepted and 7,786 ballots were not returned to county election offices by the legal deadline. Counties are required to mail UOCAVA ballots at least 45 days before a federal election.

Can the number of outstanding ballots increase after the election?

Since Georgia counties receive absentee ballots up to the close of polls on Election Day in compliance with state and federal law, they may not know the total number of ballots that have been received until after the close of polls when those ballots are reviewed for a signature match, opened, scanned, and recorded. 1,303,749 absentee ballots were requested, and 126,400 absentee ballots were requested and not cast.

Why do we have absentee voting?

The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since 2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

When can we expect official election results?

91 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th.

Why did we have to wait for election results?

The federal *Voting Rights Act of 1993* requires our state to allow three additional days for provisional ballots to be cured and for military and overseas ballots post-marked by Election Day to be received. Georgia counties had over two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, the Secretary of State's Office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. Not all of the counties utilized this option, and some counties had a backlog of absentee ballots to scan on top of the new ballots that were received until the close of polls on Election Day.

When will the recount occur?

The recount will occur after the state certifies election results.

What is the difference between an audit and a recount?

An audit is done prior to state certification of the election and is required by law. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence. A recount is a recount of each and every ballot.

Will there be a risk limiting audit?

Yes, there will be a risk liming audit as required by the passage of HB 316. The November General Election statewide contest to be audited by all 159 counties will be announced on Wednesday, November 11, 2020 at 1:00 p.m. EST. This meeting will be held at 214 State Capitol, Atlanta, Georgia 30334, and it will be accessible via the following link: https://zoom.us/webinar/register/WN_VbWHeGFXSViTL0M-4zIMOw. Immediately following the announcement, the Secretary of State will oversee the random selection of the ballots to be audited. Counties will be notified of the ballots they must audit following their selection.

Are recounts automatic?

Recounts are not automatic in Georgia. After the state certifies the election results, the losing candidate *may request* a recount if the losing candidate is within a 0.5% margin between the winning candidate.

What mechanisms are in place to prevent felon voting?

Ryan?

AMERICAN OVERSIGHT

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?
Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors and providing a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter roll.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.
How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.
Is there any validity to the red-flagged voter registration issue in Fulton County?
No. The data used by the media does not directly reference those who cast votes in the November 2020 election. Georgia uses the National Change of Address (NCOA) information in odd numbered years, as allowed under federal law for voter list maintenance, to send voters a verification card. If they do not return it, they are moved from active voter status to inactive status.

Again, thank you for your support in protecting Georgia's reputation as a leader in elections administration. If I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

>
> **What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?**

RYAN QUestion

> **What is the difference between an audit and a recount?**

An audit is done prior to state certification of the election and is required under our election law. In this case the state has chosen to do a Risk Limiting Audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence.

A recount is just what it sounds like. A recounting of each and every ballot.

> **What mechanisms are in place to prevent felon voting?**

RYAN

> **What mechanisms are in place to prevent double-voting?**

The main thing is to give "credit for voting" in real time. This is especially true in early voting and absentee voting. As long as county election workers have given the credit for voting in the voter registration system that would prevent a voter from voting absentee or early and then vote again early or on election day.

> **How do we know that the software issue in Michigan did not occur in Georgia?**

Because there was no software issue in Michigan. It was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of her seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner she added the race to. She needed to do it for all 17. In so doing, the database only recognized the data from the one scanner and none of the others. It is like if one has formulas in a spreadsheet and they randomly add a column...the formulas aren't finding what they are supposed to. So again, this issue had zero to do with software and everything to do with human error in a process.

> **Is there any validity to the red-flagged voter registration issue in Fulton County?**

No. This data has no direct reference to people who cast votes in the November 2020 election. The state uses the National Change of Address (NCOA) information in odd numbered years, as allowed under Federal Law, for voter list maintenance to send voters a verification card. If they do not return it, they are moved to inactive status.

> **Did Fulton County tell media and observers to go home and keep counting?**

Late in the evening of election night, Tuesday, November 3, a portion of Fulton election workers completed their duties and were sent home. These are the workers who opened, sorted and stacked absentee ballots. As they left some said they were "done counting for the night". At the same time those who were scanning ballots continued their work. Party observers state they were told they needed to go. This particular issue remains under investigation. Regardless, the Secretary of State's office had both a State Monitor (which had been placed to keep an eye on Fulton) and a state POST Certified Investigator remained with the Fulton workers as they continued to scan ballots through the night. So the Fulton scanning was observed by my office at all times.

Email 1 Subject: 12.08.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see this week's election updates from the Secretary of State, and additional information that may be helpful to you in addressing constituent inquiries.

November 3, 2020, Election Results:
Secretary of State Brad Raffensperger recertified the results of the November 3, 2020, presidential election.

- The recertification came following an audit-triggered hand recount and a formal recount requested by the

AMERICAN OVERSIGHT

- Trump campaign. Both recounts upheld the original outcome of the race. The certified results of state and federal races can be found on the Secretary of State's website: https://results.enr.clarityelections.com/GA/105369/web.264614/#/summary
- Please see the press release here: https://sos.ga.gov/index.php/elections/secretary_of_state_certifies_election_kraken_case_dismissed
- The "Kraken" case brought by Sidney Powell and Lin Wood was dismissed by a federal judge. https://www.cnbc.com/2020/12/07/judge-dismisses-sidney-powell-lawsuit-challenging-trump-georgia-loss.html

Voting System Audit:
Please see the audit report attached (as a PDF) to this email on the machines conducted by Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory. The audit was conducted after the November 3rd election.

- The audit found the machines tested were working accurately.
- This post-election audit was conducted on Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Please view the public release here:
  - https://sos.ga.gov/index.php/elections/secretary_raffensperger_announces_completion_of_voting_machine_audit_using_forensic_techniques_no_sign_of_foul_play

Email 2 Subject: 12.08.2020 - Secretary of State Election Information - SEB

Dear Members of the General Assembly,

Please see information from the Secretary of State on the role of the State Election Board that may be helpful to you in addressing constituent inquiries.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
- State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board

Subject: 12.04.2020 - Secretary of State Election Update - State Farm Video Debunked by WSBTV

Dear Members of the General Assembly,

Please see the news article and summary information that may be helpful to you in addressing constituent inquiries.

State Farm Video Debunked by WSBTV:
https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/

- For the third time, counties across Georgia have certified votes from November□s presidential election.
- The outcome is not expected to change, but legal challenges are still underway.
- One involves a video from State Farm Arena that has since gone viral. President Trump's lawyers and other supporters call it the smoking gun, proving election fraud.
- Channel 2 investigative reporter Justin Gray spent the day with Georgia election officials, going through the video frame-by-frame to show everyone what really happened.
- Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.
- State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.
- They were, in fact, official, sealed ballot containers.
- "We can show exactly when they were placed in there," lead investigator Frances Watson said.
- "Watson said they weren't mystery ballots that came from a mystery location. Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.
- At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.
- The reason? Employees thought they were done for the night.
- "They were closing things up and getting ready to leave," Watson said.
- Here's where the confusion comes in:
  - Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the

AMERICAN OVERSIGHT

- Secretary of State's office called and said they shouldn't stop counting for the night so early.
- After that call, employees pulled the containers of ballots back out and went back to work.
- "No magically-appearing ballots," Gabriel Sterling with the Secretary of State's office said. "These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors."

- So what about the time gap between when the media and observers left and then the observers returned about an hour later?
  - Employees scanned ballots.
  - "These are just typical everyday election workers are just doing their jobs," Sterling said. "This is not some Ocean's Eleven-level scheme being put together in the middle of the night."
  - There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

For the third time, counties across Georgia have certified votes from November s presidential election.
The outcome is not expected to change, but legal challenges are still underway. One involves a video from State Farm Arena that has since gone viral. President Trump s lawyers and other supporters call it the smoking gun, proving election fraud.

Content Continues Below

AMERICAN OVERSIGHT

Channel 2 investigative reporter Justin Gray spent the day with Georgia election officials, going through the video frame-by-frame to show everyone what really happened.
Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.
State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.
They were, in fact, official, sealed ballot containers.
"We can show exactly when they were placed in there," lead investigator Franc Watson said. "
Watson said they weren't mystery ballots that came from a mystery location.
Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.
At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.
The reason? Employees thought they were done for the night.
"They were closing things up and getting ready to leave," Watson said.
Here's where the confusion comes in:
Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the Secretary of State's office called and said they shouldn't stop counting for the night so early.
After that call, employees pulled the containers of ballots back out and went back to work.
"No magically-appearing ballots," Gabriel Sterling with the Secretary of State's office said. "These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors."
So what about the time gap between when the media and observers left and then the observers returned about an hour later? Employees scanned ballots.
"These are just typical everyday election workers are just doing their jobs," Sterling said. "This is not some Ocean's Eleven-level scheme being put together in the middle of the night."
There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

Subject: Final Approval requested 12.04.2020

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to

AMERICAN OVERSIGHT

2. prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: Final Approval requested 12.04.2020

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

Ryan,

Will you please review/approve the draft of this version below. I talked with Frances on the Fulton points, and incorporated the changes you suggested on the phone.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

1. Video footage from State Farm Arena has already been reviewed: (Insert WSB Link)
   - The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
   - Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
   - This independent elections monitor remained with Fulton County throughout the Election Day.
   - He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
   - It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
   - The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
   - At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

State Farm Video Debunked by WSBTV:
https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/

For the third time, counties across Georgia have certified votes from November's presidential election.

The outcome is not expected to change, but legal challenges are still underway.

One involves a video from State Farm Arena that has since gone viral. President Trump's lawyers and other supporters call it the smoking gun, proving election fraud.

Content Continues Below

Channel 2 investigative reporter Justin Gray spent the day with Georgia election officials, going through the video frame-by-frame to show everyone what really happened.

Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.

AMERICAN OVERSIGHT

State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.

They were, in fact, official, sealed ballot containers.

"We can show exactly when they were placed in there," lead investigator Frances Watson said. "

Watson said they weren't mystery ballots that came from a mystery location.

Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.

At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.

The reason? Employees thought they were done for the night.

"They were closing things up and getting ready to leave," Watson said.

Here's where the confusion comes in:

Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the Secretary of State's office called and said they shouldn't stop counting for the night so early.

After that call, employees pulled the containers of ballots back out and went back to work.

"No magically-appearing ballots," Gabriel Sterling with the Secretary of State's office said. "These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors."

So what about the time gap between when the media and observers left and

AMERICAN OVERSIGHT

then the observers returned about an hour later? Employees scanned ballots.

“These are just typical everyday election workers are just doing their jobs,” Sterling said. “This is not some Ocean’s Eleven-level scheme being put together in the middle of the night.”

There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the

AMERICAN OVERSIGHT

11. county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Why'd we take out the WSB link? We should say that the allegations regarding the video have been debunked by WSB, who went through the entire video, not a misleading 30 second clip.

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County

AMERICAN OVERSIGHT

- Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.

State Farm Video Debunked by WSBTV:
https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/

- For the third time, counties across Georgia have certified votes from Novem[illegible]on.

AMERICAN OVERSIGHT

- The outcome is not expected to change, but legal challenges are still underway.
- One involves a video from State Farm Arena that has since gone viral. President Trump's lawyers and other supporters call it the smoking gun, proving election fraud.
- Channel 2 investigative reporter Justin Gray spent the day with Georgia election officials, going through the video frame-by-frame to show everyone what really happened.
- Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.
- State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.
- They were, in fact, official, sealed ballot containers.
- "We can show exactly when they were placed in there," lead investigator Frances Watson said.
- "Watson said they weren't mystery ballots that came from a mystery location. Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.
- At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.
- The reason? Employees thought they were done for the night.
- "They were closing things up and getting ready to leave," Watson said.
- Here's where the confusion comes in:
    - Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the Secretary of State's office called and said they shouldn't stop counting for the night so early.
    - After that call, employees pulled the containers of ballots back out and went back to work.
    - "No magically-appearing ballots," Gabriel Sterling with the Secretary of State's office said. "These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors."
- So what about the time gap between when the media and observers left and then the observers returned about an hour later?
    - Employees scanned ballots.
    - "These are just typical everyday election workers are just doing their jobs," Sterling said. "This is not some Ocean's Eleven-level scheme being put together in the middle of the night."
    - There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: Final Approval requested 12.04.2020

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county

AMERICAN OVERSIGHT

- election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Subject: Ryan - Approval requested 12.04.2020

Ryan,

Will you please review/approve the draft of this version below. I talked with Frances on the Fulton points, and incorporated the changes you suggested on the phone.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

1. Video footage from State Farm Arena has already been reviewed: (Insert WSB Link)
   - The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
   - Fulton County was assigned an independent elections monitor as part of the State Election Board investigation into the June 9, 2020, Primary Election.
   - This independent elections monitor remained with Fulton County throughout the Election Day.
   - He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
   - It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
   - The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
   - At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
- State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Gabe,
I added your answers and made minor edits. As I mentioned, this is a long letter. I would recommend that we have Tori send this as an email with the text in the email when it is approved.

Ryan,
Please review these answers carefully and send for approval. I believe this is more effective if we can get it out sooner than later.

AMERICAN OVERSIGHT

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Please know that I will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system. **Please see the answers to frequently asked questions below and know that I value and appreciate your support as we work together to ensure every legal vote is counted, and credible instances of fraud are promptly and thoroughly investigated.**

What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?
Ryan

Did Fulton County tell media and observers to go home and keep counting?
Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. These are workers who opened, sorted and stacked absentee ballots. As they left some allegedly stated that they were, "done counting for the night." At the same time those who were scanning ballots continued their work. Some party observers have stated they were told they needed to go. **This particular issue remains under investigation.** Regardless, the Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers as they continued to scan ballots through the night. Since both the observer and investigator remained with Fulton County Workers, scanning was observed by the Secretary of State's office at all times.

How can we stop and prevent voter fraud?
Citizens may use the online reporting form or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

What was the breakdown of absentee and Election Day voting?
Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Since I voted early in person, why does My Voter Page show me voting absentee?
Any time a voter votes before Election Day it is considered "absentee" voting. "Early voting" and "advanced voting" is absentee in-person voting.

How do we know counties stopped collecting new ballots that did not meet the legal deadline in this state?
County election officials take an oath to uphold the laws of this state and country, and **it is a felony to commit voter fraud. Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day.** Ballots received after the close of polls must be kept separate. (The post mark date is only applicable to military and overseas ballots in compliance with federal election law.)

What is a military ballot?
What is often referred to as a "military ballot" is a UOCAVA ballot for military and overseas voters. The federal *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)* requires states and counties to accept the ballots of overseas citizens and members of the military and their spouses three days after the election as long as these UOCAVA ballots are postmarked by Election Day. 18,407 UOCAVA ballots were accepted and 7,786 ballots were not returned to county election offices by the legal deadline. Counties are required to mail UOCAVA ballots at least 45 days before a federal election.

Can the number of outstanding ballots increase after the election?
Since Georgia counties receive absentee ballots up to the close of polls on Election Day in compliance with state and federal law, they may not know the total number of ballots that have been received until after the close of polls when those ballots are reviewed for a signature match, opened, scanned, and recorded. 1,303,749 absentee ballots were requested, and 126,400 absentee ballots were requested and not cast.

Why do we have absentee voting?
The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since

AMERICAN OVERSIGHT

2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

When can we expect official election results?
91 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th.

Why did we have to wait for election results?
The federal *Voting Rights Act of 1993* requires our state to allow three additional days for provisional ballots to be cured and for military and overseas ballots post-marked by Election Day to be received. Georgia counties had over two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, the Secretary of State's Office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. Not all of the counties utilized this option, and some counties had a backlog of absentee ballots to scan on top of the new ballots that were received until the close of polls on Election Day.

When will the recount occur?
The recount will occur after the state certifies election results.

What is the difference between an audit and a recount?
An audit is done prior to state certification of the election and is required by law. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence. A recount is a recount of each and every ballot.

Will there be a risk limiting audit?
Yes, there will be a risk liming audit as required by the passage of HB 316. The November General Election statewide contest to be audited by all 159 counties will be announced on Wednesday, November 11, 2020 at 1:00 p.m. EST. This meeting will be held at 214 State Capitol, Atlanta, Georgia 30334, and it will be accessible via the following link: https://zoom.us/webinar/register/WN_VbWHeGFXSViTL0M-4zIMOw. Immediately following the announcement, the Secretary of State will oversee the random selection of the ballots to be audited. Counties will be notified of the ballots they must audit following their selection.

Are recounts automatic?
Recounts are not automatic in Georgia. After the state certifies the election results, the losing candidate *may request* a recount if the losing candidate is within a 0.5% margin between the winning candidate.

What mechanisms are in place to prevent felon voting?
Ryan?

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?
Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors and providing a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter roll.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.

How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.

Is there any validity to the red-flagged voter registration issue in Fulton County?

AMERICAN OVERSIGHT

No. The data used by the media does not directly reference those who cast votes in the November 2020 election. Georgia uses the National Change of Address (NCOA) information in odd numbered years, as allowed under federal law for voter list maintenance, to send voters a verification card. If they do not return it, they are moved from active voter status to inactive status.

Again, thank you for your support in protecting Georgia's reputation as a leader in elections administration. If I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

Sincerely,

Brad Raffensperger

An audit is done prior to state certification of the election and is required under our election law. In this case the state has chosen to do a Risk Limiting Audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election

AMERICAN OVERSIGHT

outcome of a statewide election to a 90-95% degree of confidence.

A recount is just what it sounds like. A recounting of each and every ballot.

What mechanisms are in place to prevent felon voting?

RYAN

What mechanisms are in place to prevent double-voting?

The main thing is to give "credit for voting" in real time. This is especially true in early voting and absentee voting. As long as county election workers have given the credit for voting in the voter registration system that would prevent a voter from voting absentee or early and then vote again early or on election day.

How do we know that the software issue in Michigan did not occur in Georgia?

Because there was no software issue in Michigan. It was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of her seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner she added the race to. She needed to do it for all 17. In so doing, the database only recognized the data from the one scanner and none of the others. It is like if one has formulas in a spreadsheet and they randomly add a column...the formulas aren't finding what they are supposed to. So again, this issue had zero to do with software and everything to do with human error in a process.

Is there any validity to the red-flagged voter registration issue in Fulton County?

No. This data has no direct reference to people who cast votes in the November 2020 election. The state uses the National Change of Address (NCOA) information in odd numbered years, as allowed under Federal Law, for voter list maintenance to send voters a verification card. If they do not return it, they are moved to inactive status.

Did Fulton County tell media and observers to go home and keep counting?

Late in the evening of election night, Tuesday, November 3, a portion of Fulton election workers completed their duties and were sent home. These are the workers who opened, sorted and stacked absentee ballots. As they left some said they were "done counting for the night". At the same time those who were scanning ballots continued their work. Party observers state they were told they needed to go. This particular issue remains under investigation. Regardless, the Secretary of State's office had both a State Monitor (which had been placed to keep an eye on Fulton) and a state POST Certified Investigator remained with the Fulton workers as they continued to scan ballots through the night. So the Fulton scanning was observed by my office at all times.

Thanks!

Hayley

Is there any validity to the red-flagged voter registration issue in Fulton County?
No. The data used by the media does not directly reference those who cast votes in the November 2020 election. Georgia uses the National Change of Address (NCOA) information in odd numbered years, as allowed under federal law for voter list maintenance, to send voters a verification card. If they do not return it, they are moved from active voter status to inactive status.

Again, thank you for your support in protecting Georgia's reputation as a leader in elections administration. If I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

Sincerely,

Brad Raffensperger

RYAN QUestion

> **What is the difference between an audit and a recount?**

An audit is done prior to state certification of the election and is required under our election law. In this case the state has chosen to do a Risk Limiting Audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence.

A recount is just what it sounds like. A recounting of each and every ballot.

> **What mechanisms are in place to prevent felon voting?**

RYAN

> **What mechanisms are in place to prevent double-voting?**

The main thing is to give "credit for voting" in real time. This is especially true in early voting and absentee voting. As long as county election workers have given the credit for voting in the voter registration system that would prevent a voter from voting absentee or early and then vote again early or on election day.

> **How do we know that the software issue in Michigan did not occur in Georgia?**

Because there was no software issue in Michigan. It was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of her seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner she added the race to. She needed to do it for all 17. In so doing, the database only recognized the data from the one scanner and none of the others. It is like if one has formulas in a spreadsheet and they randomly add a column...the formulas aren't finding what they are supposed to. So again, this issue had zero to do with software and everything to do with human error in a process.

> **Is there any validity to the red-flagged voter registration issue in Fulton County?**

No. This data has no direct reference to people who cast votes in the November 2020 election. The state uses the National Change of Address (NCOA) information in odd numbered years, as allowed under Federal Law, for voter list maintenance to send voters a verification card. If they do not return it, they are moved to inactive status.

> **Did Fulton County tell media and observers to go home and keep counting?**

Late in the evening of election night, Tuesday, November 3, a portion of Fulton election workers completed their duties and were sent home. These are the workers who opened, sorted and stacked absentee ballots. As they left some said they were "done counting for the night". At the same time those who were scanning ballots continued their work. Party observers state they were told they needed to go. This particular issue remains under investigation. Regardless, the Secretary of State's office had both a State Monitor (which had been placed to keep an eye on Fulton) and a state POST Certified Investigator remained with the Fulton workers as they continued to scan ballots through the night. So the Fulton scanning was observed by my office at all times.

Gabe,
I added your answers and made minor edits. As I mentioned, this is a long letter. I would recommend that we have Tori send this as an email with the text in the email when it is approved.

Ryan,
Please review these answers carefully and send for approval. I believe this is more effective if we can get it out sooner than later.

November 10, 2020

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Please know that I will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system**. Please see the answers to frequently asked questions below and know that I value and appreciate your support as we work together to ensure every legal vote is counted, and credible instances of fraud are promptly and thoroughly investigated.**

What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?
Ryan

Did Fulton County tell media and observers to go home and keep counting?
Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. These are workers who opened, sorted and stacked absentee ballots. As they left some allegedly stated that they were, "done counting for the night." At the same time those who were scanning ballots continued their work. Some party observers have stated they were told they needed to go. **This particular issue remains under investigation.** Regardless, the Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers as they continued to scan ballots through the night. Since both the observer and investigator remained with Fulton County Workers, scanning was observed by the Secretary of State's office at all times.

How can we stop and prevent voter fraud?
Citizens may use the online reporting form or call the **Voter Fraud Hotline at 877-725-9797** to report questionable

AMERICAN OVERSIGHT

elections activity. A POST-certified investigator will contact them for more information if needed.

What was the breakdown of absentee and Election Day voting?
Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Since I voted early in person, why does My Voter Page show me voting absentee?
Any time a voter votes before Election Day it is considered "absentee" voting. "Early voting" and "advanced voting" is absentee in-person voting.

How do we know counties stopped collecting new ballots that did not meet the legal deadline in this state?
County election officials take an oath to uphold the laws of this state and country, and **it is a felony to commit voter fraud. Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day.** Ballots received after the close of polls must be kept separate. (The post mark date is only applicable to military and overseas ballots in compliance with federal election law.)

What is a military ballot?
What is often referred to as a "military ballot" is a UOCAVA ballot for military and overseas voters. The federal *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)* requires states and counties to accept the ballots of overseas citizens and members of the military and their spouses three days after the election as long as these UOCAVA ballots are postmarked by Election Day. 18,407 UOCAVA ballots were accepted and 7,786 ballots were not returned to county election offices by the legal deadline. Counties are required to mail UOCAVA ballots at least 45 days before a federal election.

Can the number of outstanding ballots increase after the election?
Since Georgia counties receive absentee ballots up to the close of polls on Election Day in compliance with state and federal law, they may not know the total number of ballots that have been received until after the close of polls when those ballots are reviewed for a signature match, opened, scanned, and recorded. 1,303,749 absentee ballots were requested, and 126,400 absentee ballots were requested and not cast.

Why do we have absentee voting?
The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since 2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

When can we expect official election results?
91 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th.

Why did we have to wait for election results?
The federal *Voting Rights Act of 1993* requires our state to allow three additional days for provisional ballots to be cured and for military and overseas ballots post-marked by Election Day to be received. Georgia counties had over two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, the Secretary of State's Office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. Not all of the counties utilized this option, and some counties had a backlog of absentee ballots to scan on top of the new ballots that were received until the close of polls on Election Day.

When will the recount occur?
The recount will occur after the state certifies election results.

What is the difference between an audit and a recount?
An audit is done prior to state certification of the election and is required by law. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence. A recount is a recount of each and every ballot.

Will there be a risk limiting audit?
Yes, there will be a risk liming audit as required by the passage of HB 316. The November General Election statewide

AMERICAN OVERSIGHT

contest to be audited by all 159 counties will be announced on Wednesday, November 11, 2020 at 1:00 p.m. EST. This meeting will be held at 214 State Capitol, Atlanta, Georgia 30334, and it will be accessible via the following link: https://zoom.us/webinar/register/WN_VbWHeGFXSViTL0M-4zIMOw. Immediately following the announcement, the Secretary of State will oversee the random selection of the ballots to be audited. Counties will be notified of the ballots they must audit following their selection.

Are recounts automatic?
Recounts are not automatic in Georgia. After the state certifies the election results, the losing candidate *may request* a recount if the losing candidate is within a 0.5% margin between the winning candidate.

What mechanisms are in place to prevent felon voting?
Ryan?

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?
Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors and providing a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter roll.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.
How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.
Is there any validity to the red-flagged voter registration issue in Fulton County?
No. The data used by the media does not directly reference those who cast votes in the November 2020 election. Georgia uses the National Change of Address (NCOA) information in odd numbered years, as allowed under federal law for voter list maintenance, to send voters a verification card. She had only updated the information on the one scanner she added the race to. She needed to do it for all 17. In so doing, the database only recognized the data from the one scanner and none of the others. It is like if one has formulas in a spreadsheet and they randomly add a column...the formulas aren't finding what they are supposed to. So again, this issue had zero to do with software and everything to do with human error in a process.

> **Is there any validity to the red-flagged voter registration issue in Fulton County?**

No. This data has no direct reference to people who cast votes in the November 2020 election. The state uses the National Change of Address (NCOA) information in odd numbered years, as allowed under Federal Law, for voter list maintenance to send voters a verification card. If they do not return it, they are moved to inactive status.

> **Did Fulton County tell media and observers to go home and keep counting?**

AMERICAN OVERSIGHT

Late in the evening of election night, Tuesday, November 3, a portion of Fulton election workers completed their duties and were sent home. These are the workers who opened, sorted and stacked absentee ballots. As they left some said they were "done counting for the night". At the same time those who were scanning ballots continued their work. Party observers state they were told they needed to go. This particular issue remains under investigation. Regardless, the Secretary of State's office had both a State Monitor (which had been placed to keep an eye on Fulton) and a state POST Certified Investigator remained with the Fulton workers as they continued to scan ballots through the night. So the Fulton scanning was observed by my office at all times.

Thanks!

Hayley

Gabe,
I added your answers and made minor edits. As I mentioned, this is a long letter. I would recommend that we have Tori send this as an email with the text in the email when it is approved.

Ryan,
Please review these answers carefully and send for approval. I believe this is more effective if we can get it out sooner than later.

November 10, 2020

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Please know that I will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system. **Please see the answers to frequently asked questions below and know that I value and appreciate your support as we work together to ensure every legal vote is counted, and credible instances of fraud are promptly and thoroughly investigated**.

What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?
Ryan

Did Fulton County tell media and observers to go home and keep counting?
Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. These are workers who opened, sorted and stacked absentee ballots. As they left some allegedly stated that they were, "done counting for the night." At the same time those who were scanning ballots continued their work. Some party observers have stated they were told they needed to go. **This particular issue remains under investigation.** Regardless, the Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers as they continued to scan ballots through the night. Since both the observer and investigator remained with Fulton County Workers, scanning was observed by the Secretary of State's office at all times.

How can we stop and prevent voter fraud?
Citizens may use the online reporting form or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

What was the breakdown of absentee and Election Day voting?
Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Since I voted early in person, why does My Voter Page show me voting absentee?

AMERICAN OVERSIGHT

Any time a voter votes before Election Day it is considered "absentee" voting. "Early voting" and "advanced voting" is absentee in-person voting.

How do we know counties stopped collecting new ballots that did not meet the legal deadline in this state?
County election officials take an oath to uphold the laws of this state and country, and **it is a felony to commit voter fraud. Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day**. Ballots received after the close of polls must be kept separate. (The post mark date is only applicable to military and overseas ballots in compliance with federal election law.)

What is a military ballot?
What is often referred to as a "military ballot" is a UOCAVA ballot for military and overseas voters. The federal *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)* requires states and counties to accept the ballots of overseas citizens and members of the military and their spouses three days after the election as long as these UOCAVA ballots are postmarked by Election Day. 18,407 UOCAVA ballots were accepted and 7,786 ballots were not returned to county election offices by the legal deadline. Counties are required to mail UOCAVA ballots at least 45 days before a federal election.

Can the number of outstanding ballots increase after the election?
Since Georgia counties receive absentee ballots up to the close of polls on Election Day in compliance with state and federal law, they may not know the total number of ballots that have been received until after the close of polls when those ballots are reviewed for a signature match, opened, scanned, and recorded. 1,303,749 absentee ballots were requested, and 126,400 absentee ballots were requested and not cast.

Why do we have absentee voting?
The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since 2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

When can we expect official election results?
91 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th.

Why did we have to wait for election results?
The federal *Voting Rights Act of 1993* requires our state to allow three additional days for provisional ballots to be cured and for military and overseas ballots post-marked by Election Day to be received. Georgia counties had over two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, the Secretary of State's Office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. Not all of the counties utilized this option, and some counties had a backlog of absentee ballots to scan on top of the new ballots that were received until the close of polls on Election Day.

When will the recount occur?
The recount will occur after the state certifies election results.

What is the difference between an audit and a recount?
An audit is done prior to state certification of the election and is required by law. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence. A recount is a recount of each and every ballot.

Will there be a risk limiting audit?
Yes, there will be a risk liming audit as required by the passage of HB 316. The November General Election statewide contest to be audited by all 159 counties will be announced on Wednesday, November 11, 2020 at 1:00 p.m. EST. This meeting will be held at 214 State Capitol, Atlanta, Georgia 30334, and it will be accessible via the following link: https://zoom.us/webinar/register/WN_VbWHeGFXSViTL0M-4zIMOw. Immediately following the announcement, the Secretary of State will oversee the random selection of the ballots to be audited. Counties will be notified of the ballots they must audit following their selection.

Are recounts automatic?

AMERICAN OVERSIGHT

Recounts are not automatic in Georgia. After the state certifies the election results, the losing candidate *may request* a recount if the losing candidate is within a 0.5% margin between the winning candidate.

What mechanisms are in place to prevent felon voting?
Ryan?

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?
Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors and providing a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter roll.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.
How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.
Is there any validity to the red-flagged voter registration issue in Fulton County?
No. The data used by the media does not directly reference those who cast votes in the November 2020 election. Georgia uses the National Change of Address (NCOA) information in odd numbered years, as allowed under federal law for voter list maintenance, to send voters a verification card. If they do not return it, they are moved from active voter status to inactive status.

Again, thank you for your support in protecting Georgia's reputation as a leader in elections administration. If I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

Sincerely,

Brad Raffensperger
Georgia Secretary of State Brad Raffensperger

RYAN QUestion

> **What is the difference between an audit and a recount?**

An audit is done prior to state certification of the election and is required under our election law. In this case the state has chosen to do a Risk Limiting Audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence.

A recount is just what it sounds like. A recounting of each and every ballot.

> **What mechanisms are in place to prevent felon voting?**

RYAN

> **What mechanisms are in place to prevent double-voting?**

The main thing is to give "credit for voting" in real time. This is especially true in early voting and absentee voting. As long as county election workers have given the credit for voting in the voter registration system that would prevent a voter from voting absentee or early and then vote again early or on election day.

> **How do we know that the software issue in Michigan did not occur in Georgia?**

Because there was no software issue in Michigan. It was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of her seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner she added the race to. She needed to do it for all 17. In so doing, the database only recognized the data from the one scanner and none of the others. It is like if one has formulas in a spreadsheet and they randomly add a column...the formulas aren't finding what they are supposed to. So again, this issue had zero to do with software and everything to do with human error in a process.

> **Is there any validity to the red-flagged voter registration issue in Fulton County?**

No. This data has no direct reference to people who cast votes in the November 2020 election. The state uses the National Change of Address (NCOA) information in odd numbered years, as allowed under Federal Law, for voter list maintenance to send voters a verification card. If they do not return it, they are moved to inactive status.

AMERICAN OVERSIGHT

Did Fulton County tell media and observers to go home and keep counting?

Late in the evening of election night, Tuesday, November 3, a portion of Fulton election workers completed their duties and were sent home. These are the workers who opened, sorted and stacked absentee ballots. As they left some said they were "done counting for the night". At the same time those who were scanning ballots continued their work. Party observers state they were told they needed to go. This particular issue remains under investigation. Date: 11/16/2020 2:31:05 PM
Subject: RE: Recount vis a vis Senate race review

Thank you for reaching out to us.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Thank you for your support,

Brad Raffensperger
Secretary of State

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Regarding the recount, there is no sensible reason (other than having something to hide) for your decision to not re-examine and record (or in fact ignore) Senate race results during this so-called audit recount. This is disgraceful and will NOT be forgiven by anyone aware. There is almost certain to be a recount for one if not both of these races and the audit is the surest means of certifying those results. The fact that there are (reportedly) no signature checks to be done is simply shocking - you may reap the whirlwind when the Dems take your job(s).

Despite what you did to Doug Collins, it is simply and finally time to do the right thing for our State and our Country. Surely, I beg you, at some point the survival of the rule of law becomes paramount over personal considerations.

Please.

Respectfully,

AMERICAN OVERSIGHT

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

ctions here in GA. I want every legal vote to be counted, and every illegal vote to be discarded, regardless of the candidate.

I voted in person, and was required to show a valid ID. This should be standard practice, however, since mail-in ballots were deemed to be legal, it is essential that the signature be verified. It has come to my attention you have chosen not to make this a requirement during the presidential recount and the runoff elections. How can you know if a vote is valid if you don't verify the signature? In addition, you must conduct a full audit of the ballots as part of the recount to ensure they are valid, otherwise, why even go through the process? All you will be doing is counting ballots without knowing whether they are valid or not, which will not only be a waste of time and taxpayer dollars, but call into question the integrity of State of Georgia.

Brad, free and fair elections are the foundation of our republic, and it is essential the residents of both GA, and the remainder of the country have faith in the result produced by you and your team.

Best regards,
Steve

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

Thank you for your support,

Brad Raffensperger
Secretary of State

We, are the people of Georgia, and all that we are asking is a fair and honest count of each vote cast in Georgia. We only ask for the elections to be correct. We are not a third world country with no voice. This is what makes America great. Either way, we will accept the final decision, but require that it is done correctly. If allowed it only breaks down the whole state of Georgia and our Nation.

We demand that you stop the fraudulent recount and require an audit. My daughter in law for example, absentee ballot was rejected for her signature, and that should not have been. I believe those counting were making excuses to delay and reject those votes. The November 3rd election must be voided by the legislature and electors chosen. All down-ball races must be set for a new election date. It was unconstitutional for the Secretary of State to change the absentee ballot rule on March 6, 2020, by Consent Agreement with the Democratic Party. We ask you do the right thing and keep our elections free from fraud. Please help us.

I implore you to order a special session of the Legislature – now! There is NO transparency in the current recount. Fraudulent ballots are being RECOUNTED. I demand an audit of the ballots cast! Too many fraudulent activities occurred during our election!! The fraud has been exposed!! **Why** would you reside over massive fraud and not call in the Georgia State Legislature?

The Constitution says the LEGISLATURE IS RESPONSIBLE, not the Secretary of State, not the Court. The Legislature is to rule on this. The Legislature needs to do its job. Georgians are watching, America is watching!!

I demand that this election be conducted according to the Law. American's must trust an accurate electoral outcome!!

Do what is right for Georgians as well as ALL American citizens!

You must **COURAGEOUSLY** step up and live up to the oath you swore to – to follow the Constitution and rule of Law. Every **legal vote** must be counted and every **illegal vote** MUST be thrown out!!

You are duty bound Sir, to uphold the Constitution. The law must be followed in this election and the obvious fraud corrected NOW. Call a SPECIAL SESSION OF THE LEGISLATURE immediately!

Subject: RE: Re election fraud

Thank you for reaching out.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Dear Secretary Raffensperger,

My vote deserves verification of everything required for a legal ballot to be cast. Signatures - everything. It is odd that the Democrats conned SOS Raffensperger back in march at the start of the pandemic to make arrangements to get mail in ballots accepted late. The Secretary had no authority to do this contrary to law. **Everybody** can get their ballot in on time. Why did there need to be a means for late ballots to be accepted? This is a clear plan for election interference. It's not like people didn't have four years to know this election was coming. This violates equal protection and should have been seen as concession to Democrats but for what purpose? I would like an investigation of the Secretary's finances to find out if there was any bribery to do this as well as in selecting the voting machines and software. Did the Secretary have the machines and software checked by someone knowledgeable in election tampering? The Secretary needs to be arrested and recalled for breaking his oath of office to uphold the Constitution of the State of Georgia. Hang a dang deadline! Failure to verify everything on every ballot just submits to the Democrats. There needs to be a special session to change the deadline. A deadline means nothing if the results are not accurate according to law. Check everything. Be a part of the solution in an accurate election or you are part of the problem and subject to recall also. If either you or the Secretary do not want to do your jobs then resign.

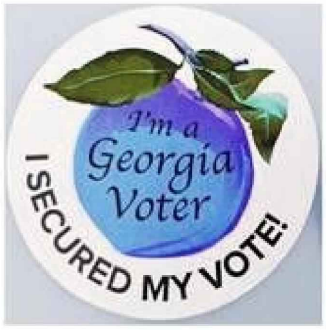
It seems the more we learn about the actions and non-actions of government leaders and some election workers before, during and after the most recent election, the clearer it becomes that many legal votes have been cancelled (not counted, stolen, replaced). Even worse, it seems the current level of fraud, likely due to both incompetence and intent, is not being aggressively addressed to preserve our trust in the voting system for the state of Georgia.



Please call a Special Session of the Georgia State Legislature to address each of the issues that are eroding our liberties. The outcome of the session and the action taken should enable you, with absolute confidence, to attest and fully prove that only legal votes were counted in our state: 1 vote each made by registered voters (no 'identify theft'), who are individually validated as residents of Georgia and citizens of the United States of America; and confirmed fairly by poll workers from both parties.

Sadly, I have low expectations the right actions will be taken unless someone else exposes the shenanigans. I expect just talk and finger pointing and cover-up pretending it was a fully fair election.

If things do not get fixed, perhaps you and the leadership of our state can decide which candidate sticker should replace the current "Georgia Voter" sticker. Candidate 2 is how I feel, and for good reason.

AMERICAN OVERSIGHT

Subject: RE: AUDIT the 2020 election results - Signature Verification Required

Thank you for reaching out.

Claims that signature match was weakened in Georgia are 100% false.

As Secretary of State, I was the first to take steps to limit voter fraud with absentee ballots since a Republican legislature voted for no-excuse absentee ballot voting in 2005. One of my first steps as Secretary of State was to OUTLAW ballot harvesting, which has let fraud to go unchecked in California.

For the first time in Georgia history, we launched an electronic portal that REQUIRED photo ID to request an absentee ballot.
Lastly, we worked with the Georgia Bureau of Investigation to train elections workers on signature match. These highly trained officials conduct signature match *twice* during the absentee ballot process, securing votes in Georgia and helping make sure that each person gets one vote.

Changes were made to our voting process in an unlawful manner. All changes related to Georgia's voting process must go through and be made by the Georgia State Legislature and I understand there was an agreement made outside of the state legislature to change the absentee ballot procedure. As I understand, with this illegal change there is no way legitimately and legally for Georgia to certify its election results and the recount is totally fraudulent, as well.

I ask that as a representative of Georgia's constituents that you follow the law and that changes to the voting process be done lawfully through the legislature and anything that was done illegally to be thrown out.

All,

It is with a heavy heart that I write to you this afternoon. I have lived in Georgia for 18 years and call it home. As an American and a taxpaying resident of Georgia, I am urging you to do the right thing and call a special session of Georgia Congress.

WE THE PEOPLE of Georgia deserve & demand a full and accurate audit and recount with matching signatures of this election!
That is the most important thing right now and your silence speaks volumes. If you care about the voting rights of Georgia citizens, then please call a special session of Georgia Congress.

Thank you,

Betty Crowe

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature and taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.
Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

As a Georgia resident and I'm quite concerned about what is taking place in the current recount. I am urging you not to certify electors until the election results, with a full recount, with Republican observers no more than three feet away, and with full verification of signatures and dates on which ballots were received, are verified. The agreement that you, the Georgia Secretary of State entered into with pressure from Stacey Abrams, to accept ballots where signatures couldn't be verified is ludicrous, and should NOT stand. That needs to be corrected now and prior to the run-off election in January. The voters of this state need to have confidence in our Voting system, and today, I, and many more like myself, have NO CONFIDENCE that the system is fair and possibly has been compromised.

As you, the Secretary of State, to say "I was the first to take steps to **LIMIT** voter fraud with absentee ballots" is appalling. "LIMIT voter fraud" , how about ELIMINATE. Georgia's electronic voting machines made by foreign companies can be easily manipulated and it makes it all that more important to review EVERY SINGLE ballot by hand with VERIFICATION by each party to validate this election. You as Secretary of State should understand the IMPORTANCE to our votes!

Thank you for your time,

Secretary of State Raffensperger,

I am a Georgia native who has been voting in every major election since I turned eighteen over twelve years ago. As a law-abiding citizen who proudly loves the United States of America, I request the following:

I ask that you urge Governor Kemp to call a special session of the Georgia Legislator so that the unlawful consent agreement that was signed on 3/6/2020 by you can be made null and void. This agreement is dangerous to our electoral system, and opens the door to fraudulent voting which is in direct violation of the Constitution. The American people and citizens of Georgia do not trust our electoral system as it stands, and we will not remain silent on the matter.

Sincerely,

Shelby Barill

Dear Governor Kemp and SOS Raffensperger,

We the citizens of the beautiful state of Georgia request/demand that
At a Special Session, the General Assembly should pass a bill that basically says:

"Georgia will not certify 11/3/2020 results or pass on Georgia's Electoral votes unless and until Georgia audits in-person and absentee/mail-in ballots against the Voter Registration signature."

This effectively means GA must hold a new election because GA did NOT KEEP and CANNOT match up in-person or absentee/mail-in ballots to voter registration signature records.

Sincerely,

I served as a volunteer Audit Monitor on November 14th and 15th 2020 in Georgia and I am very concerned that this Georgia "audit" is not fair and transparent.

I was not allowed to Monitor the 2 people typing the counts in the computer in the back of the room. That is where the "Audit" results are stored.

Because of a "Consent Decree" deal struck between the Governor and Stacy Abrams, we are not allowed to match signatures. This deal has to be unconstitutional. Regardless, and respectfully, it is enabling, allowing and inviting cheating and fraud. This is unacceptable.

I am very concerned, as I learn of more issues with this "audit" in other counties, as Ms. Sydney Powell has signed affidavits explaining.

Why did Georgia buy these Dominion machines. So much was known about the remote control capability, changing votes capability, storing in foreign countries, moving votes from one candidate to another - folder to folder, etc. It's in their manual. https://archive.vn/LhJHM

I understand that Governor Kemp's prior chief of staff moved on to lobby for DOMINION, who sold products to Georgia, while GA Secretary of State took campaign cash from the wife of

AMERICAN OVERSIGHT

Dominion's partner's CEO. Is this true?

See this article: https://nationalfile.com/georgia-ex-kemp-staffer-lobbies-for-dominion-voting-madness-leads-to-lame-recount/

It says :

> "In Georgia, election integrity advocates managed to stop state lawmakers from passing a bill in 2018 (SB403) that would have enabled universal use ballot-marking devices. But lawmakers went ahead and passed a new bill (HB316), enabling them in 2019. Georgia has since purchased BMDs from Dominion, whose lobbyist, Jared Thomas, was Governor Brian Kemp's chief of staff and press secretary from 2012 to 2015 when Kemp was secretary of state. Dominion's partner in the state is KNOWiNK, a supplier of electronic poll books, which are used to sign in voters and confirm voter registrations.
> KNOWiNK's founder and CEO, Scott Leiendecker, is a former Republican election official whose wife donated $2,500 to the campaign of Georgia's current secretary of state, Brad Raffensperger, in November 2018.
>
> The Georgia election in 2020 was an absolute mess, with a burst pipe at State Farm Arena used to justify late-night vote-counting in Fulton County that gave Joe Biden a mystical lead.Not surprisingly, considering Governor Kemp and the Secretary of State's connections to Dominion and its Georgia partner, the "recount" in Georgia was quite lame Friday, with no actual auditing of the ballots as expected."

Here's another article: https://www.americanoversight.org/investigation/georgias-voting-machines-and-election-security

> It says: "In July 2019, Georgia Secretary of State Brad Raffensperger announced that the state had awarded a $107 million contract to manufacturer Dominion Voting Systems to replace existing voting machines with a new "verified paper ballot system." As reported by the *Atlanta Journal-Constitution*, both Dominion and the state's former elections company, Election Systems & Software, had connections with Gov. Brian Kemp's administration. Dominion lobbyist Jared Thomas had been a longtime political and campaign aide to Kemp, who previously served as secretary of state, and another lobbyist, Barry Herron, had worked for Diebold Election Systems, which had originally sold Georgia its electronic voting machines."

I implore the Governor of Georgia to:
1. Order special session of legislature
2. Void unlawful election - cast electoral vote for @realDonaldTrump
3. Schedule all down ballot races for 1/21 election
4. Demand @KLoeffler resign
5. Appoint @RepDougCollins

To gain the approval and consent of the governed, the government of the United States and the State of Georgia, must demonstrate that the elections it funds and operates are indeed free and fair so that the American People can have faith that their voice and vote matters.

AMERICAN OVERSIGHT

Sincerely, Jennifer Gwen Waller

November 16, 2020

Mr. Raffensperger,

I've spoken to someone inside the Secretary of State's office. They said that you are directing them to tell concerned voters, like myself, that the Voter Signatures are NOT being verified during this recount.

When I asked Why not? They answered because you said they were verified in the first count!!!!

What an outrage. The point of this is to recount to make sure LEGAL votes are counted and ILLEGAL votes are thrown out! How do you propose to do that if you are not verifying voter signatures during this RECOUNT!!

It's a critical matter especially in light of the fact that you changed the process in which voter signatures are verified in the first place.

Why did you CHANGE THE ELECTION LAWS and consent to a settlement proposed by the Democrats? You did not have the constitutional right to do so.

AMERICAN OVERSIGHT

Why did you adopt a signature authorization process that would be completely UNREALISTIC and CUMBERSOME to implement given hundreds and thousands of mail ballots? Thereby increasing the likelihood that many ILLEGAL votes would not be rejected but simply passed through.

Have republican inspectors been allowed to monitor the count AND recount as per law OF EVERY MAIL BALLOT?

You see, Mr. Raffensperger, there ARE serious concerns with what you have undertaken in Georgia. IT IS NOT MISINFORMATION!

I've also called your election Liasons, and they refuse to give out public information. What are you all hiding?! This is a sham! This is why We, The People, are calling for this election in your state to be THROWN OUT and ruled INVALID.

We, the People, demand and deserve an honest and fair election! We are not going away. We will continue to FIGHT BACK until justice is served.

Thank you,

Muriel Sitton

Subject: RE: Security, Integrity and Transparency

Randall,

Dominion Voting Systems is entirely American-owned. Any claims otherwise are totally false and inaccurate. Additionally, Dominion Voting Systems do not change ballots. That has been proven false repeatedly. It is complete disinformation.

The audit-triggered hand recount focuses on the plain English written choices of the voters. If they voted in person, the ballots say either Donald J. Trump, Joseph R. Biden, or Jo Jorgensen, in plain English, and voters were told to double check their selection before casting. For absentee ballot voters, the selection will be identified by the oval filled in by the voter by hand.

After ballots were counted by scanners the first time around, this hand recount will provide verification of the security and reliability of Georgia's voting system. Any claim otherwise is 100% false.

Thank you for your support,

I don't believe anyone highlighted your absentee process as an issue as a frontline issue, and your talking points associated with that are impressive.

It's the back end of the affair that requires full audit and review.

It would be in your best interest to cooperate sooner rather than later, sir.

Dominion is an issue amongst a host of other items, such as lack of poll watching transparency and the "pipe" scandal.

Plus, your dealings with foreign entities in securing election hardware and software raise huge questions of election integrity. See EO 09/12/2018, as you may have been swept into a dark corner. You should have heeded SoS Pompeo's stern counsel.

On a whole, your election results require full audit of each ballot, matching signatures and voter registrations. Some explanation will be required re Stacie Abrams activities during the elections. She should be more careful.

I should not need to enumerate all the issues that cause people to question the results; however, if you would like, I can supply you with documented issues if that would help. Just let me know. An army of researchers are waiting to supply you with what you might require.

Sadly, you have done an enormous disservice to the American people. God knows, we know and you know.

AMERICAN OVERSIGHT

Regards,

An American Patriot

MEDIA ADVISORY
November 16, 2020

AMERICAN OVERSIGHT

Secretary Raffensperger Issues Warning Against Activist Groups Helping Out of State Illegal Voters: 'We will catch you. We Prosecute.'

(ATLANTA) – Secretary of State Brad Raffensperger issued a warning to groups that are helping individuals move to Georgia solely for the purpose of voting in the January Senate runoffs elections. Groups that finance or organize such efforts are involved in conspiracy to commit voter fraud and could be charged under Georgia's Racketeering Conspiracy laws.

"Make no mistake about it, I will seek to prosecute those who try to undermine our elections to the fullest extent of the law," said Raffensperger. "The integrity of our elections is paramount. Outside groups who seek to interfere with democracy in Georgia should be forewarned that the consequences will be severe."

Georgia law is clear about the seriousness of the crime committed by those looking to come to Georgia solely for the purpose of voting in the January 5 Senate runoff elections.

OCGA § 21-2-21(a)(4) requires that registrants be "a resident of this state and of the county or municipality in which he or she seeks to vote." O.C.G.A. § 21-2-217(a)(1) adds that "the residence of any person shall be held to be in that place in which such person's habitation is fixed, without any present intention of removing therefrom;" this would include individuals who move to Georgia solely for the sake of casting a ballot in an election with no intention of remaining in the state.

False registration, i.e. someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).

Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 PER COUNT (O.C.G.A. § 16-14-5).

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record overall, early, in-person, and absentee-by-mail turnout during the November 2020 elections.

Dear Brad,

How is your day? Hopefully stressful. Sir, how in the world is a monitor supposed to watch 10 TEAMS OF PEOPLE AND ALL THE BALLOTS TO MAKE SURE EACH BALLOT IS LEGAL? I am beyond incensed right now! Even if this is what was agreed to how could you possibly think so low of the integrity of our election system to not think this is ridiculous. The main issue is that there are a GREAT DEAL ILLEGAL BALLOTS. How can so few monitors ensure this? You know dead people's ballots were included in this vote. Do people honestly think that a criminal would stop just at using dead people's votes? How in the world is there supposed to be ANY CONFIDENCE in this vote without a rigorous AUDIT OF THE BALLOTS AND SOFTWARE SYSTEMS? You to blame for ALLOWING THIS LACK OF FAIRNESS. I will be donating to your opponents and conducting phone campaigns along with my friends to make sure those like you get out of office for allowing this treasonous cheating to persist.

Thank you for reaching out.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Thank you for your support,

Dear Mr. Raffensperger,

It is my understanding that you are in charge of the Georgia vote recount.

In spite of the huge blot on the validity of the reputation of the recent elections, you are privileged to be involved with a partial remedy for a very messy election result. It has come to my attention that only the ballots are counted, with no scrutiny of signatures. It is not acceptable for both legal and illegal ballots to have the same value, but rather an affront to all Americans, a grievous injustice.
Nor is it fair that, once again, the observers from both political parties are not allowed enough proximity for careful viewing of each and every ballot.

You are in the unique position of setting things right, and I pray that you and your staff will do the right thing. America deserves fair elections.

Respectfully,
Claudia Mason
a voting U.S. citizen

Sir,

It is being reported that you are not allowing signature verification of mail-in ballots in our state's recount in addition to calling for the count to conclude tomorrow. How can you in good faith deny the validation of every ballot cast here or hasten its due process? Is required voter ID no longer the law in the state of Georgia? Otherwise, what is the point of showing my ID when I go to the polls if such laws are simply suspended or set aside should ballots be cast by mail?

I'm embarrassed that we, or rather you, are allowing this to happen in our state. It shouldn't be too difficult to compare voter roles to the number of ballots cast to verify authenticity, yet we are seemingly unable or unwilling to do so. If we are doing so, why are you not publicly releasing those roles and ballot numbers or using it to defend us?

I feel that your inaction, or more to the point, your dismissal of those verification pathways required by law have betrayed the good citizens of Georgia that demand accountability in our electoral process.

It saddens me that you seem comfortable in being complicit in the suspect, if not outright fraudulent behavior captured on video by personnel at some of our polling locations and your abject failure to enforce the laws of our state should prompt you to heed the calls to resign as you sir, are unfit for office.

Where is your dignity? Where is your honor? If not for yourself, then for us; the people you so blithely, at least in this case, say elected you?

It should come as no shock that I and many others will not be supporting your reelection should you choose to pursue it and I personally will be doing my best to point out this abandonment so that others may do so as well.

To: brad@sos.ga.gov <brad@sos.ga.gov>

As a citizen of the state of Georgia who voted in this last election, I am demanding that a full, independent audit (not recount) be conducted in Georgia.

Do the right thing. I do not trust what happened and I believe the computer system was fraudulent and I believe the mail-in ballots had fraud. This is unacceptable and criminal if fraud existed.

Also the attached letter from Doug Collins exposes your apparent lack of transparency and fairness. Please resolve these issues immediately. Please work for the good of insuring election integrity. Be part of this solution to restore trust.

Dear All,

I am Georgia born and raised and have called it home for 41 years! I have always been happy to call this my home, as Georgia is such a special place to me, and it÷s the place where I÷m raising my own family.

As an American and a taxpaying and voting resident of Georgia (who voted for all of you!!), I am asking you to do the right thing and call a special session of the Georgia Congress!! We, the People of Georgia, DESERVE and DEMAND a full and accurate vote audit and recount including matching signatures for this election! This is so important right now, and your silence speaks volumes...it÷s extremely disheartening.

If you care about our state and the voting rights of Georgia citizens, you must call a special session of Georgia Congress. Please help keep America GREAT, and do the right thing!

Dear Secretary of State Raffensperger,

I'm emailing you on behalf of the American people to ensure a fair and free election process ... American elections need to remain fair and free from ALL corruption. We the American tax paying citizens are requesting you and your fellow Georgia lawmakers to call for a special legislative session in Georgia to hold a full and fair election recount, audit and full oversight by the Georgia legislature. Whatever the final election outcome we the "people" need to be completely confident in our election process and elected officials. Also, please ONLY allow in person voting (and authorized absentee voting) in Georgia's upcoming Senate runoff elections. Finally, an election audit needs to be completed in front of representatives from both parties in true transparency. Thank you for your time, we the people will be watching how this process is carried out. Our freedom is on the ballot.

Regards,

Drew Shipp

- Call a Special Legislative Session to Challenge the Election Results
- Audit Signatures on Absentee Ballots During the Hand Recount
- Ensure a Fair and Transparent Election Where Every LEGAL Vote Counts

I am a US citizen and resident of the state of Washington, a graduate of the University of Alaska, a 10-year Microsoft employee, and a small business owner. I believe in the Constitution and the fundamental right it guarantees to have my voice heard by voting in our elections.

My voice, along with millions of other Americans, is not being heard due to multiple forms of voter fraud and suppression. The mainstream media is complicit in this suppression by censoring Conservative voices on social media sites like Twitter, Facebook and YouTube - while spreading false information through network news outlets such as CNN, NBC, FOX News, and others.

Despite attempts to control the narrative, the 2020 Presidential Election was not the most secure

AMERICAN OVERSIGHT

election in our nation's history - far from it. There is overwhelming evidence of ballot harvesting, backdating, ballots collected after the deadline, tens of thousands of ballots delivered in the middle of the night, absentee ballots without verified signatures, poll watchers being denied their right to observe and challenge suspect ballots, deceased individuals voting, and even potential electronic manipulation of vote counts.

According to an article on CNBC:

> With the margin being so close, it will require a full, by-hand recount in each county," Raffensperger said at a press conference."
>
> "This will help build confidence. It will be an audit, a recount and a recanvass all at once," Raffensperger said. "It will be a heavy lift but we will work with the counties to get this done in time for our state certification."

From <https://www.cnbc.com/2020/11/11/presidential-election-georgia-announces-a-recount-as-biden-leads.html>

However, it is apparent that the effort currently underway is not a "full, by-hand recount in each county" and is simply a "risk-limiting" audit. This audit will not be effective to uncover voter fraud - it is simply recounting the same votes that were illegally cast.

The citizens of the United States of America deserve a fair and transparent election. This has not happened in Georgia, and we demand that Governor Kemp call a Special Legislative Session to challenge the Presidential Election and demand that the US Senate race be made transparent.

We elect our representatives to speak for us - all of us. Please do not silence over 70 million Americans who seek fair and transparent elections.

Respectfully submitted,

Cynthia Lynn Basham

Claims that signature match was weakened in Georgia are 100% false.

As Secretary of State, I was the first to take steps to limit voter fraud with absentee ballots since a Republican legislature voted for no-excuse absentee ballot voting in 2005.

One of my first steps as Secretary of State was to OUTLAW ballot harvesting, which has let fraud to go unchecked in California.
For the first time in Georgia history, we launched an electronic portal that REQUIRED photo ID to request an absentee ballot.
Lastly, we worked with the Georgia Bureau of Investigation to train elections workers on signature match. These highly trained officials conduct signature match *twice* during the absentee ballot process, securing votes in Georgia and helping make sure that each person gets one vote.

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Dear Sir,

I am writing to respectfully demand a special session of legislature to remedy the current recount going on for the 2020 presidential election. The recount must include the legal signature validation/verification of the Mail-in ballots in all manner that they are vulnerable to falsification, otherwise it is a pointless action and a clear indicator that there's something being hidden.

Thank you,
Michael Bonnycastle
Very concerned citizen

Subject: RE: Audit all ballots

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

Thank you for your support,

Brad Raffensperger
Secretary of State

Mr. Secretary of State,

The voters of the state of Georgia demand an audit of all legal votes! Do not recount fraudulent votes!

Thank you and I await your prompt reply.
Christia Spivey

Subject: RE: Demand for Special Session of Legislature to Address GA Election Fraud

Thank you for reaching out.

Claims that signature match was weakened in Georgia are 100% false. As Secretary of State, I was the first to take steps to limit voter fraud with absentee ballots since a Republican legislature voted for no-excuse absentee ballot voting in 2005.

One of my first steps as Secretary of State was to OUTLAW ballot harvesting, which has let fraud to go unchecked in California.
For the first time in Georgia history, we launched an electronic portal that REQUIRED photo ID to request an absentee ballot.

Lastly, we worked with the Georgia Bureau of Investigation to train elections workers on signature match. These highly trained officials conduct signature match *twice* during the absentee ballot process, securing votes in Georgia and helping make sure that each person gets one vote.

Dominion Voting Systems is entirely American-owned. Any claims otherwise are totally false and inaccurate. Additionally, Dominion Voting Systems do not change ballots. That has been proven false repeatedly. It is complete disinformation.

The audit-triggered hand recount focuses on the plain English written choices of the voters. If they voted in person, the ballots say either Donald J. Trump, Joseph R. Biden, or Jo Jorgensen, in plain English, and voters were told to double check their selection before casting. For absentee ballot voters, the selection will be identified by the oval filled in by the voter by hand. After ballots were counted by scanners the first time around, this hand recount will provide verification of the security and reliability of Georgia's voting system. Any claim otherwise is 100% false.

This recount is being conducted with unprecedented openness and transparency.

Every county is required under the rules and regulations set out by my office to allow party monitors unfettered access to watch the recount for any issues. I have stressed this issue repeatedly to the counties.

Each party is entitled to appoint one monitor per ten audit tables, a ratio that both the Republican and Democrat parties agreed to before the Georgia Republican Party later backtracked. Press and anyone else from the general public can watch from a designated zone to make sure they aren't interfering with the recount itself. I have also called on counties to livestream the recount whenever possible.

This audit is open and transparent. Any suggestion otherwise is a lie and total fake news.

Thank you for your support,
Brad Raffensperger
Secretary of State

Subject: Demand for Special Session of Legislature to Address GA Election Fraud

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

AMERICAN OVERSIGHT

Call for a special session of the legislature to address election fraud, void the election, and cast electoral vote for President Trump.

As you are aware, many fraudulent actions occurred in Georgia before, during, and after the election, including but not limited to the following:

1. Republican observers sent home at 10:30 pm on election night under false pretenses only to return to count votes for three hours without observation.
2. Unlawful 2020 Consent Decree preventing signature matching.
3. Dominion Voting Systems computer fraud and vote switching.
4. Recount currently being hastily done with observers NOT allowed to view close enough to identify fraud and signatures NOT being checked or matched.
5. Georgia public officials financially involved with Dominion Voting Systems.

Please provide a response with what you plan to do about these issues.

Subject: RE: FIGHT BACK *** We The People ***

Thank you for reaching out to us.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Thank you for your support,

Brad Raffensperger

ATTENTION: Secretary of State Brad Raffensperger

November 14, 2020

Dear Mr. Raffensperger,

We, the People, demand a special session of the Georgia legislature!

Voters are being cheated. Georgia's election was unlawful and now the present recount is a fraud and a sham.

We are writing to let you know in no uncertain terms that we will not tolerate these shenanigans. Why have you, The Secretary of State, along with the Governor of Georgia, and others in power not called a special session of legislature yet?!

The recount underway in your state is another fraud. Your counties are recounting fraudulent votes. A lawsuit newly filed states that you, Secretary of State Brad Raffensperger, entered into an unconstitutional agreement whereby Voters signatures need NO VERIFICATION. Your agreement also allowed that Voter registrations need NOT BE VERIFIED. This is a deal of the devil!
How can you call this a recount.... when you are merely recounting the fraud?! We are also aware of evidence that Republican inspectors are not being allowed to inspect the recounts.

That's not all. We are also aware of overwhelming evidence that *massive fraud* was in the computer voting system in addition to mail ballots.

We The People have the power, not Chinese-corrupted officials.

We will not stand for this. FIX THIS FRAUD. NOW. We the People will not be defrauded and let

AMERICAN OVERSIGHT

corrupt politicians steal our money and our votes.

FIX THIS FRAUD. NOW.

We will FIGHT BACK!

Sincerely,

Muriel Sitton

EVERY CITIZEN SHOULD HAVE A VOTER ID CARD

by: LT GEN, MARVIN L. COVAULT, US ARMY retired
December 10, 2020

I have been thinking a lot about how to have honest presidential elections. A recent blog, WE NEED A NEW LAW FOR NATIONAL ELECTIONS 20 November 2020, provided a solution in the form of new federal law.

In case you missed it, the essence of the proposal is as follows:

- There will be **only two** authorized election possibilities; in-person and absentee ballot requested by the voter.
- The election period will be the first Saturday, Sunday, and Monday (a national election holiday) in November.
- The presidential candidates will be on a separate ballot.
- When finished filling out the ballot the voter will hand that ballot to a 3-person counting team where the ballot will be immediately numbered, initialed by the three team members, and a tally of whom the vote was for recorded. That will take about 15 seconds at which time the ballot will be placed in a storage box.
- When the box is full it will be sealed, numbered, signed, and

AMERICAN OVERSIGHT

- placed in a locked limited-access secure room.
- There will be a time-stamped chain of custody for every ballot, in-person or absentee.

This is easy and doable.

I followed that on 30 November with a blog, CAMPAIGN FINANCE REFORM. The key point of that blog was to point out that the 2020 campaigns spent about $14 billion with out-of-control spending by Super PACs and billionaires. Under the new federal law campaign financing for all federal candidates will consist of one, and only one, source. The source is the voter who is geographically associated with the candidate. The proposed new federal law would limit campaign contributions to $1000 per person per candidate in their state.

Scrupulous records would be required by every candidate matching money contributed and money spent. It is all about accountability by the contributors and the candidates. In that blog, I recommended tracking the contributions with an individual's social security number.

Using SSN is doable but I have determined there is an even better way; **individual Voter ID numbers**. Thus, this blog:
EVERY CITIZEN SHOULD HAVE A VOTER ID CARD.

I believe we can make the voting process even more simple and free of fraudulent activities with a new federal law requiring Voter ID Cards. Think of it as a picture ID (like your driver's license) with a "swipe" capability (like your credit card) that will display on a screen all of the times the Voter ID Card has been "*used*". We need a federal law to make Voter ID Cards happen.

The intent of the Voter ID Card Law is to positively identify a voter at a voting site with a current photo, a valid state Voter ID number, current address, and a history of voter activity.

Under this federal law, everyone who is eligible to vote must have a Voter ID Card in order to perform in-person voting or to apply for an absentee ballot, the only two voting methods that would be authorized.

The Voter ID Card will be obtained from a State Department of Motor Vehicle (DMV) facility and it will expire simultaneously with the expiration of your driver's license. Both can be renewed at the same time.

The Voter ID Card will be the same size and quality as today's driver's license. The Voter ID card will present a photo, full name, date of birth, address, sex, eye color, height, hair color, expiration date, and, most importantly, an individual Voter ID 10-digit number beginning

AMERICAN OVERSIGHT

with the two-letter state abbreviation such as TX-456-789-3322.

In order to obtain a Voter ID Card, you must be 18 years of age and present: A valid passport or birth certificate proving identity and date of birth. One document confirming full name and Social Security Number. Two documents with a current physical address proving state residency.

The State DMV will immediately provide the State Election Headquarters with all Voter ID Card data.

When a voter presents their Voter ID Card at the voting site, the voter administrative assistant will swipe the Voter ID Card and ascertain if that particular Voter ID Card number has already been used during the current election period. If not, the assistant will print out an individual ballot that has the voter's full name, address, and Voter ID Card number printed on the ballot. In the presence of the voting assistant, the voter will sign the ballot acknowledging that the data is correct. Fraudulently signing a ballot will be a federal offense.

Once the voter has filled out the ballot and it has been read by the vote tabulating machine, any subsequent ballots presented with that Voter ID number will be automatically rejected.

Those who are physically unable to travel to a DMV processing site may sign a sworn affidavit requesting that another person assists in getting them a Voter ID Card.

Across America, the states' voter registration rolls are terribly maintained and highly inaccurate. The Voter ID Card system will solve those problems and be self-policing. That is, when a Voter ID Card hits the expiration date the software will automatically delete that voter ID number from the system. Furthermore, when a voter gets a new card or renews an expired one, the system will automatically add the voter to the registration rolls.

So what? The so what is that we will no longer have dead people voting. One method of voter fraud struck down.

Ballot stuffing: Casting illegal votes or submitting more than one ballot per voter. That cannot be done with this system because every ballot must have a Voter ID number on it and that number can only be used once during an election cycle.

Voter registration fraud: Filling out and submitting a voter registration card for a fictional person, or filling out a voter registration card with the name of a real person but without that person's consent and forging his or her signature on the card. None of that can happen with the Voter ID Card system in place because of the voter identification requirements at the DMV site.

AMERICAN OVERSIGHT

Voter impersonation: A person claims to be someone else when casting a vote. The Voter ID Card prevents all of that activity.

Fraud by election officials: Manipulation of ballots by officials administering the election, such as tossing out ballots or casting ballots in voters' names. Each ballot will have a valid Voter ID number on it. If not, the system will not accept it. If it does have a valid number, the system will only accept it once. Another fraud problem solved.

Absentee ballot vote fraud: A person attempts to fill out and turn in an absentee ballot containing false information. The Voter ID Card will not allow this because an absentee ballot application must contain a valid Voter ID Card number. The only way absentee ballot fraud can exist is if a registered voter has their Voter ID Card stolen; an insignificant number.

With respect to campaign contributions, the change is simple. Every eligible voter who wishes to make a campaign contribution will need to have a Voter ID Card because, under the new federal law, the contribution cannot be accepted by the candidate without a Voter ID number. And that ID number will be the key to auditing a candidate's contributions.

Bottom line:

1. We have seen the videos of ballot counting rooms with dozens of people milling about, workers carrying stacks of loose ballots, tables piled high with hundreds of ballots, and workers taking ballots from one stack and placing it on another stack. Zero ballot security.
2. Under the new proposed federal election law, the voter will relinquish a completed ballot into the hands of a 3-person counting team, and literally within seconds that ballot will be numbered, time-date stamped, initialed by each team member, the vote tallied to the correct candidate and the ballot secured in a storage box. Seconds, not hours or days.
3. Under the new federal Campaign Finance Reform law, throughout the campaign, auditors will be active in every state. Candidates running for US House and Senate seats and for President must keep scrupulous records and be able to match contributions totals with campaign expenditures and prove that no voter has contributed more than $1000 to their campaign. The Voter ID # is the key to making this work.
4. Voting is a civic responsibility. We value our freedoms: freedom of speech, religion, bearing arms, assembly, etc. But freedom is not free. We all need to play a role.

AMERICAN OVERSIGHT

Voter apathy is rampant and disgusting. In the 2016 election, an estimated 100 million eligible voters did not vote. In the 2020 election, a record number of Americans voted but still an estimated 80 million did not.

With this Voter ID Card law in place, the Department of Education should initiate an on-going national campaign to get every high school in the country involved in voter registration. Most high school graduates are age 18. Every high school should have a program that encourages every student who turns 18 to immediately get a Voter ID Card. Encourage them to participate in elections beginning with the first election following their eligibility and make it a lifetime civic duty response.

A note to subscribers: There are four imperatives to getting our national elections under control.
Part One, 20 November 2020, was:
WE NEED A NEW LAW FOR NATIONAL ELECTIONS,

Part Two, 30 November 2020, was:
CAMPAIGN FINANCE REFORM,

This is Part Three:
EVERY CITIZEN SHOULD HAVE A VOTER ID CARD.

Coming soon, Part Four:
CHANGE THE WAY WE CONDUCT PRIMARY ELECTIONS.

If you agree with any of these proposals, I encourage you to contact your US Representative and Senators.

Thank you,

Lt Gen, MARVIN L. COVAULT, US ARMY retired,
author of VISION TO EXECUTION,

Kindest regards,

Henry P. McIntosh IV

Keval,

Can you run this list up against the NCOA list as well?

Thanks,
Ryan

Ryan,

Andrew and I compared the two files you provided to the cancelled felons for Fulton County (see attachment) and no one showed up.

Can we run the attached up against our felon list? It's new voter registrations with the registration address being the Fulton jail.

Blake—I'm looking at some data Keval put together. Can you look into why these absentee ballot applications were rejected? The first four were in Cobb and the remainder were in Gwinnett. I don't think they were improperly rejected, but I am curious for the rejected reason.

Thanks,
Ryan

Jordan and Ryan,
Attached are two files. The first one is an NCOA file; it is filtered currently on Ballot Status = A and State everything other than GA. This used the postal service voter name and address to create its output.

The second file are some records where ballots were sent to a Studio business in the ATTN to a Molly Honea. You may have more records that include her, but it seemed odd to us. This file has a second tab, but I think the tab is just Mercer students, so that tab may be ok. I spot-checked some students, and some I was able to find as students and others I was not.

I hope this helps.

RE: Emergency Rule 183-1-14-0.8-.14, Secure Absentee Ballot Drop Boxes, amended, State Election Board

We acknowledge receipt of your transmittal of the referenced emergency rule amendment.

We have recorded said emergency rule amendment as having been received and filed on November 23, 2020, to become effective on November 23, 2020, the date of adoption. The emergency rule amendment shall remain in effect for a period of 30 days following the January 5, 2021 election, expiring on February 4, 2021, as specified by the Agency.

Sincerely,

Doris Cooley
Administrative Procedure Division

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

Ryan and David,

Good evening. I assume you have seen the attached lawsuit against your clients, which is what the Amistad Project contends they filed today. Will you please let me know if you have confirmation that it was in fact filed today? It does not appear on the docket and I suspect it will not before Friday.

AMERICAN OVERSIGHT

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

> I was a poll worker on election day for the Whatley Precinct in Walton County, GA for the general election November 3, 2020. I also participated every day of the recount as a sorter/counter. I did not witness any irregularities in the actions of the Walton County election staff or volunteer workers. The problems that concern me relate to the electronic vote tabulating system. I strongly suspect there is election interference caused by that electronic system.
>
> I have attached my summary spreadsheet of the Walton County Electronic vs. Recount. I have additional documentation if necessary.
>
> Election Day was the only Batch Type which I could segregate to compare to the electronic results since the electronic batches segregated by precinct while the paper ballots for non-Election Day were not similarly segregated. There is a tab on the attached spreadsheet which details the differences by precinct. The valid write-ins on Election Day for the Big 3 candidates totaled 230; they are added to the total at the bottom.
>
> One concern is the difference between electronic and paper ballots by precinct. However, the differences in the counts are considerably higher precinct by precinct. See those differences in Column AA of the spreadsheet. All the differences showed fewer paper ballots than electronic ballots. With the Election Day write-ins for the big 3, the difference is 77 paper ballot votes fewer than electronic. That is distributed as follows:

			Trump	Biden	Jorgensen	

AMERICAN OVERSIGHT

Recount Election Day Total		Total w/WI's	9162	2111	222	11495
ELECTRONIC SYSTEM		Electronic	9202	2145	225	11572
DIFFERENCES Electronic Minus Recount			40	34	3	77
% by Party Differences			51.9%	44.2%	3.9%	
% by Party Recount Election Day Only			79.7%	18.4%	1.9%	

The distribution by party of the differences is considerably off from the total election day proportions. That proportional difference could be caused by the relatively small difference compared to the total. However, remember this is only election day. Election day was only about 23% of the total votes cast. There may also be similar problems in the other batches which warrant further analysis.

On the electronic sheets by precinct, the sum for one of the columns each for Good Hope, South Monroe, West Monroe, Walnut Grove and West Walton was 1 or 2 higher than the correct calculated total. There were no similar differences for the other 16 precincts. How is this possible with whole numbers and small totals? It is possible with an algorithm shaving fractional votes. The fractional votes do not appear. There is no such thing as a fractional vote. However, if there was a .3 or .4 after each of the absentees, the total votes would be 241 rather than the correct 239. See example below:

Precinct	Good Hope		
General Election	Election Day	Advanced Voting	Absentee by Mail
Trump	631	640	154
Biden	52	103	84
Jorgensen	8	6	1
Total Votes	691	749	239
			241
			Wrong Total
			2

I apologize for the somewhat clumsy/clunky spreadsheets and presentation but time is of the essence. This is a critically important issue for Walton County, Georgia and the United States of America.

There seems to be ample evidence for further investigation into the integrity and reliability of the electronic counting system.

Please contact me if I may be of further service.

Representative Tom Kirby
Secretary of State Brad Raffensperger

To all concerned:

I failed to copy Mrs. Margaret Hubbard, CPA on my previous email yesterday. A native of Walton County, she and her husband are both CPA's and are very well respected members of our community. She assisted in the hand recount at the Walton County Board of Elections, per her introduction at the bottom of this email. She just advised me by phone that she has a more detailed analysis of election day voting, which clearly outlines a 336 vote discrepancy on the reconciliation of the Election Day voting. It is my understanding that the machine tally's are 336 votes higher than the paper ballots.

In the interest of time, I have requested that she provide her analysis and explanation via email by copying all of us with this updated information. **I would certainly appreciate the SOS office sending out an investigator to review this situation as soon as possible.**

Kind regards,

Bruce

Lori,

Per our discussion, below is an email which I received today from one of the Walton County recount officials, a CPA who alleges data manipulation in our voter results.

I wanted to get this information to your office and I am copying my contacts at the Secretary of State's office for review and infestation.

I look forward to meeting with you in the morning at 9:00am to better understand what happened with the missing disk in the Between, Georgia precinct. Thank you and our entire team at the Walton County Board of Elections for your efforts to have safe and secure elections for our county!

Many thanks!

Bruce

Resent-From: <bruce.williamson@house.ga.gov>

Senator Jones and Representative Williamson,

I was honored to recount votes in Walton County. I have no criticisms of the process and people involved there. I am a CPA and have experience with numbers and systems. After the count was completed, I requested and was given an electronic copy of the General Election and Recount results. I analyzed these results yesterday and found evidence of systems manipulation.

I've attached the e-mail I sent to Mayor Martinez of Loganville with my spreadsheets and copies of the questionable totals. Martinez was one of the official observers. I also sent this information to Rep. Jody Hice

AMERICAN OVERSIGHT

whose staffer suggested I send it to you as well.

Please get to the bottom of this election fraud. I support a recall of both the Secretary of State and the Governor. This should never have happened.

Subject: FW: Details from Walton Co Recount we discussed

Rey,

Thanks for returning my call yesterday. I am very excited to be a part of this important process to protect our Republic from those who would steal our freedoms.

In the attached Details for Martinez Excel file is a tab which shows the details from the missing batch from Between. I was told that omission has been corrected. They said that the software did not notify them that a batch was missing although it should have so they did not know to look for it until the recount and the questions raised by different totals.

I also created a tab for each of the 5 precincts' details I summarized whose numbers did not add correctly and PDF's of those Election Summary Reports. In each of those incidences, the three candidates' detail did not total to the calculated total (first number on my detail sheet). The only way I know of for this to happen is if there are invisible fractions of votes in the candidates' numbers which make the final number larger than it should be. The 1 or 2 vote total difference in insignificant; the evidence of algorithmic manipulation is the critical issue.

Also, I've attached a scanned copy of the Election Summary Report cover page 12/12/2020. I do not have a digital copy of that report. I circled the incorrect totals for Advanced Voting (off by 1) and Absentee by Mail (off by 7). How can this happen except through improper manipulation?

Again, I found no fault with any of the people involved in the Walton County recount.

Please let me know if I can be of any further service.

Margaret Hubbard

AMERICAN OVERSIGHT

From: Mark Schultz <[redacted]>
To: Raffensperger, Bradbrad@sos.ga.gov
Date: 11/20/2020 11:30:19 AM
Subject: Re: Only Legal Votes Matter – Request for a Special Session of the Georgia State Legislature

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Dear Secretary Raffensperger and Staff,

First and foremost, I want to thank you for your reply to my Email sent on Monday. I sent a similar Email to other Georgia leaders (Governor, Lt. Governor, Senators, and Speaker of the Georgia House of Representatives) and none of them have replied.

Your sensitivity regarding mail-in ballots in our state is understood; and I believe this opened the door for election fraud. My questions are:

1.Why did the Secretary of State and the Election Board change the manner in which absentee ballots were counted without going through the state legislature?

2.It seems validation of legal voters was lax for the mail-in votes as compared to in-person votes. Why was there a double-standard?

3.Why were there occurrences where ballots were not confirmed fairly by poll workers from both parties?

4.Why were some poll workers sent home when voting was stopped late November 3rd/early November 4th, yet some poll workers either returned and/or continued to work? What happened during that time?

There are a lot more questions; but I will allow you to respond to these, first.

As a resident of Georgia and a citizen of the United States, I am embarrassed for all of us. The narrative we will hear is “there was no wide-spread election fraud”; and we know the recount in Georgia is just counting what has already happened, legally and illegally. Regretfully, if there was just enough election fraud (~1%) in our state by candidate Biden supporters, it changed the outcome of the presidential election in our state. If this is the case, some legal voters had their vote cancelled or stolen. That should not ever happen in our country.

Again, I thank you for your previous Email response and I look forward to a response to the 4 questions in this Email.

Sincerely,

Mark Schultz

Thank you for reaching out.

AMERICAN OVERSIGHT

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have tobe requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absenteevoting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

Thank you for your support,

Brad Raffensperger
Secretary of State

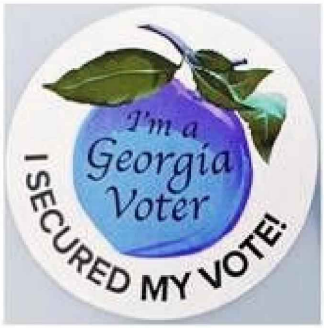
Subject: Only Legal Votes Matter – Request for a Special Session of the Georgia State Legislature

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

It seems the more we learn about the actions and non-actions of government leaders and some election workers before, during and after the most recent election, the clearer it becomes that many legal votes have been cancelled (not counted,stolen, replaced). Even worse, it seems the current level of fraud, likely due to both incompetence and intent, is not being aggressively addressed to preserve our trust in the voting system for the state of Georgia.

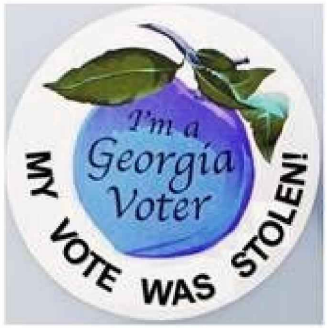


AMERICAN OVERSIGHT

Please call a Special Session of the Georgia State Legislature to address each of the issues that are eroding our liberties. The outcome of the session and the action taken should enable you, with absolute confidence, to attest and fullyprove that only legal votes were counted in our state: 1 vote each made by registered voters (no □identify theft□), who are individually validated as resider of Georgia and citizens of the United States of America; and confirmed fairly by poll workers from both parties.

Sadly, I have low expectations the right actions will be taken unless someone else exposes the shenanigans. I expect just talk and finger pointing and cover-up pretending it was a fully fair election.

If things do not get fixed, perhaps you and the leadership of our state can decide which candidate sticker should replace the current ¤Georgia Voter sticker. Candidate 2 is how I feel, and for gooc reason.



Current Sticker

Candidate 1

Candidate 2

Thank you for your attention and action on this critical matter. I look forward to your feedback.

Sincerely,

Mark H. Schultz

In a winner-take-all system, close margins of votes lead to fights that are as fierce after Election Day as the campaigns before. The passions we feel reflect voters' commitment to the ideals and principles they believe in. We all want our side to win because our side provides the best leadership for our nation and state. I know. I'm a passionate conservative, and as I've said before, I'm a proud Trump supporter. I was with him early in the 2016 election cycle, and he's governed the national by the same conservative principles that I hold dear. Like other Republicans, I'm disappointed our candidate didn't win Georgia's electoral votes.

Close elections sow distrust. People feel their side was cheated. We saw this from the Democrats in 2018. We see this from Republicans today.

Working as an engineer throughout my life, I live by the motto that numbers don't lie. As secretary of state, I believe that the numbers that we have presented today are correct. The numbers reflect the verdict of the people, not a decision by the secretary of state's office or of courts or of either campaign.

I want to do everything I can to build voters' trust in our electoral system. To that end, I want to work with the governor and legislators on legislation that improves on our current system.

First, I'd like to see legislation that allows for the state to intervene in counties that have systemic, ongoing problems in administering elections. Elections in our state are run by counties. Some do it great. Some don't. We need to have a remedy that allows the state to address problem areas and to get those counties moving in the right direction. The audit revealed that in some counties, not all of the votes had been counted. That doesn't mean those counties have systemic problems, but it does raise a concern. We must implement a reconciliation process that prevents such errors from happening in the future.

Second, we need some reforms to our absentee ballot laws. The state and counties performed admirably in rapidly transitioning our election system from one where a small percentage of the electorate voted by mail to one where a vast percentage voted by mail. Other states that have moved to vote-by-mail systems did that over a period of years. We did it in months. But such a large number of mail ballots has raised concerns about election integrity. I will work with legislators to find a solution that allows us to use the same security measures for votes by mail as we have for in-person voting. That would include a photo ID requirement. We know this works. We know this stops fraud. We know that claims that it would suppress votes have been proven wrong with empirical evidence. This move would have the added benefit of removing the controversial signature verification system that we use now. Democrats have long complained about it. Now Republicans are raising concerns too. We can move from a subjective system to an objective system and I think that should get done next year.

Third, because federal laws don't allow up to update our voter rolls as often as we need to, we need to have stricter controls that allow for challenges to voters who are suspected of not living where they are registered to vote. A simply tightening of the law would give teeth to these challenges and prevent people from voting illegally.

These measures will improve the security of our elections and that should lead to greater public trust. Our first goal is carrying out elections successfully and getting the results right. Our second goal is upholding people's faith in our democracy by demonstrating the integrity of our processes.

Legislative topics:

First, I'd like to see legislation that allows for the state to intervene in counties that have systemic, ongoing problems in administering elections. Elections in our state are run by counties. Some do it great. Some don't. We need to have a remedy that allows the state to address problem areas and to get those counties moving in the right direction. The audit revealed that in some counties, not all of the votes had been counted. That doesn't mean those counties have systemic problems, but it does raise a concern. We must implement a reconciliation process that prevents such errors from happening in the future.

Second, we need some reforms to our absentee ballot laws. The state and counties performed admirably in rapidly transitioning our election system from one where a small percentage of the electorate voted by mail to one where a vast percentage voted by mail. Other states that have moved to vote-by-mail systems did that over a period of years. We did it in months. But such a large number of mail ballots has raised concerns about election integrity. I will work with legislators to find a solution that allows us to use the same security measures for votes by mail as we have for in-person voting. That would include a photo ID requirement. We know this works. We know this stops fraud. We know that claims that it would suppress votes have been proven wrong with empirical evidence. This move would have the added benefit of removing the controversial signature verification system that we use now. Democrats have long complained about it. Now Republicans are raising concerns too. We can move from a subjective system to an objective system and I think that should get done next year.

Third, because federal laws don't allow up to update our voter rolls as often as we need to, we need to have stricter controls that allow for challenges to voters who are suspected of not living where they are registered to vote. A simply tightening of the law would give teeth to these challenges and prevent people from voting illegally.

These measures will improve the security of our elections and that should lead to greater public trust. Our first goal is carrying out elections successfully and getting the results right. Our second goal is upholding people's faith in our democracy by demonstrating the integrity of our

Other states that have moved to vote-by-mail systems did that over a period of years. We did it in months. But such a large number of mail ballots has raised concerns about election integrity. I will work with legislators to find a solution that allows us to use the same security measures for votes by mail as we have for in-person voting. That would include a photo ID requirement. We know this works. We know this stops fraud. We know that claims that it would suppress votes have been proven wrong with empirical evidence. This move would have the added benefit of removing the controversial signature verification system that we use now. Democrats have long complained about it. Now Republicans are raising concerns too. We can move from a subjective system to an objective system and I think that should get done next year.

Third, because federal laws don't allow up to update our voter rolls as often as we need to, we need to have stricter controls that allow for challenges to voters who are suspected of not living where they are registered to vote. A simply tightening of the law would give teeth to these challenges and prevent people from voting illegally.

These measures will improve the security of our elections and that should lead to greater public trust. Our first goal is carrying out elections successfully and getting the results right. Our second goal is upholding people's faith in our democracy by demonstrating the integrity of our

Senator Jones and Representative Williamson,

I was honored to recount votes in Walton County. I have no criticisms of the process and people involved there. I am a CPA and have experience with numbers and systems. After the count was completed, I requested and was given an electronic copy of the General Election and Recount results. I analyzed these results yesterday and found evidence of systems manipulation.

I've attached the e-mail I sent to Mayor Martinez of Loganville with my spreadsheets and copies of the questionable totals. Martinez was one of the official observers. I also sent this information to Rep. Jody Hice whose staffer suggested I send it to you as well.

Please get to the bottom of this election fraud. I support a recall of both the Secretary of State and the Governor. This should never have happened.

Subject: FW: Details from Walton Co Recount we discussed

Rey,

Thanks for returning my call yesterday. I am very excited to be a part of this important process to protect our Republic from those who would steal our freedoms.

In the attached Details for Martinez Excel file is a tab which shows the details from the missing batch from Between. I was told that omission has been corrected. They said that the software did not notify them that a batch was missing although it should have so they did not know to look for it until the recount and the questions raised by different totals.

I also created a tab for each of the 5 precincts' details I summarized whose numbers did not add correctly and PDF's of those Election Summary Reports. In each of those incidences, the three candidates' detail did not total to the calculated total (first number on my detail sheet). The only way I know of for this to happen is if there are invisible fractions of votes in the candidates' numbers which make the final number larger than it should be. The 1 or 2 vote total difference in insignificant; the evidence of algorithmic manipulation is the critical issue.

Also, I've attached a scanned copy of the Election Summary Report cover page 12/12/2020. I do not have a digital copy of that report. I circled the incorrect totals for Advanced Voting (off by 1) and Absentee by Mail (off by 7). How can this happen except through improper manipulation?

Again, I found no fault with any of the people involved in the Walton County recount.

Please let me know if I can be of any further service.

Subject: RE: RECOUNT, AUDIT AND VALIDATE ALL VOTES

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

Thank you for your support,

Brad Raffensperger
Secretary of State

Thank you for reaching out.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photoID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Thank you for your support,

Subject: Signature audit

GOP has requested that we go back and ¤audit counties verification of signatures on absentee ballots and absentee ballot applications.

While our office regularly conducts investigations into allegations of illegal conduct in Georgia elections, the GOP has not provided any evidence that signatures on absentee ballots were forged or that counties aren't probably verifying signatures. Any specific allegations of wrongdoing will be immediately investigated. We are currently investigating numerous allegations of wrongdoing regarding absentee ballots, including a couple dead voters whose family members appeared to fill out a ballot for them.

The rate of absentee ballots rejected for signature issues was the same in 2020 as it was in 2018, cutting against the idea that counties aren't verifying signatures. And that's after people cured their signature issues by signing an affidavit and showing their photo ID.

The problem with signature match is that it puts a subjective component into the process. That's why I have suggested that we move to a photo ID requirement for verifying absentee ballots. Photo ID has shown to work for in-person voting. It doesn't decrease access, and it increases confidence in the system. With such close elections in Georgia, we need to do everything we can to increase confidence in the system, and replacing a subjective component such as signature match with an objective measure that proves the voter is who say they are will help do that.

Subject: Signature audit

GOP has requested that we go back and ¤audit counties verification of signatures on absentee ballots and absentee ballot applications.

While our office regularly conducts investigations into allegations of illegal conduct in Georgia elections, the GOP has not provided any evidence that signatures on absentee ballots were forged or that counties aren't probably verifying signatures. Any specific allegations of wrongdoing will be immediately investigated. We are currently investigating numerous allegations of wrongdoing regarding absentee ballots, including a couple dead voters whose family members appeared to fill out a ballot for them.

The rate of absentee ballots rejected for signature issues was the same in 2020 as it was in 2018, cutting against the idea that counties aren't verifying signatures. And that's after people cured their signature issues by signing an affidavit and showing their photo ID.

The problem with signature match is that it puts a subjective component into the process. That's why I have suggested that we move to a photo ID requirement for verifying absentee ballots. Photo ID has shown to work for in-person voting. It doesn't decrease access, and it increases confidence in the system. With such close elections in Georgia, we need to do everything we can to increase confidence in the system, and replacing a subjective component such as signature match with an objective measure that proves the voter is who say they are will help do that.

Subject: Speech

In a winner-take-all system, close margins of votes lead to fights that are as fierce after Election Day as the campaigns before. The passions we feel reflect voters' commitment to the ideals and principles they believe in. We all want our side to win because our side provides the best leadership for our nation and state. I know. I'm a passionate conservative, and as I've said before, I'm a proud Trump supporter. I was with him early in the 2016 election cycle, and he's governed the national by the same conservative principles that I hold dear. Like other Republicans, I'm disappointed our candidate didn't win Georgia's electoral votes.

Close elections sow distrust. People feel their side was cheated. We saw this from the Democrats in 2018. We see this from Republicans today.

Working as an engineer throughout my life, I live by the motto that numbers don't lie. As secretary of state, I believe that the numbers that we have presented today are correct. The numbers reflect the verdict of the people, not a decision by the secretary of state's office or of courts or of either campaign.

I want to do everything I can to build voters' trust in our electoral system. To that end, I want to work with the governor and legislators on legislation that improves on our current system.

First, I'd like to see legislation that allows for the state to intervene in counties that have systemic, ongoing problems in administering elections. Elections in our state are run by counties. Some do it great. Some don't. We need to have a remedy that allows the state to address problem areas and to get those counties moving in the right direction. The audit revealed that in some counties, not all of the votes had been counted. That doesn't mean those counties have systemic problems, but it does raise a concern. We must implement a reconciliation process that prevents such errors from happening in the future.

Second, we need some reforms to our absentee ballot laws. The state and counties performed admirably in rapidly transitioning our election system from one where a small percentage of the electorate voted by mail to one where a vast percentage voted by mail. Other states that have moved to vote-by-mail systems did that over a period of years. We did it in months. But such a large number of mail ballots has raised concerns about election integrity. I will work with legislators to find a solution that allows us to use the same security measures for votes by mail as we have for in-person voting. That would include a photo ID requirement. We know this works. We know this stops fraud. We know that claims that it would suppress votes have been proven wrong with empirical evidence. This move would have the added benefit of removing the controversial signature verification system that we use now. Democrats have long complained about it. Now Republicans are raising concerns too. We can move from a subjective system to an objective system and I think that should get done next year.

AMERICAN OVERSIGHT

Third, because federal laws don't allow up to update our voter rolls as often as we need to, we need to have stricter controls that allow for challenges to voters who are suspected of not living where they are registered to vote. A simply tightening of the law would give teeth to these challenges and prevent people from voting illegally.

These measures will improve the security of our elections and that should lead to greater public trust. Our first goal is carrying out elections successfully and getting the results right. Our second goal is upholding people's faith in our democracy by demonstrating the integrity of our processes.

GA SOS

Simply claiming that the Signature matching process was "strengthened" this year does not make it so.
The "process" is not practical in as such that NOONE is going to do it. None is going to sing of & vote on these signatures if you believe that I have a bridge to sell you!
Further, just because officials received extra training — in rules that make checking ballot signatures almost impossible, does not make it verifiable that indeed you are counting ONLY LEGAL VOTES!

It should be verified that in fact your signature matching is being done w/o error as you stated you trained them to do.
Trust but Verify.

Subject: RE: GA AUDIT, Recanvass, Signature match???

Thank you for reaching out.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to

AMERICAN OVERSIGHT

have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

November 16, 2020

Mr. Raffensperger,

One more question, have you preserved all the voter envelopes that have voter oath signatures?

It is clear and documented that you modified procedures for rejecting mailed ballots set down by the Georgia Legislature in Georgia's election law. Something you DID NOT have the power nor the authority to do. I have a copy of the lawsuit should you like me to send you which states, among other things that you unconstitutionally modified the law that pertains to signature verification.

In a nutshell, it's evident you set up an especially cumbersome and time consuming three clerk panel to review hundreds of thousands if not millions of mailed ballots. Giving full reign to the fact that ballots not truly signed by the designated voter would never end up getting rejected by the cumbersome process you adopted and thus would end up being ILLEGALLY counted.

This is an outrage! I take great offense at your trying to condescend to me, a voter, when it's clear that something is very ROTTEN in your election process. Not to mention your computer software!! That will be the ultimate undoing I predict.

Be on guard Mr. Raffensperger. We, the people, once again demand that you clean up this process and recount ALL BALLOTS as your Georgia election laws required prior to the unconstituional "settlement" you embarked in. As such we demand that only LEGAL votes be counted, and ILLEGAL ballots be thrown out!!

We are watching you and your state. It is no surprise that we are unable to reach you directly by phone. All of your election numbers are blocked and busy. So I will await your reply via email . Or you may call me at [redacted].

Thank you,

Muriel Sitton

ATTENTION: Secretary of State Brad Raffensperger

November 14, 2020

Dear Mr. Raffensperger,

We, the People, demand a special session of the Georgia legislature!

Voters are being cheated. Georgia's election was unlawful and now the present recount is a fraud and a sham.

We are writing to let you know in no uncertain terms that we will not tolerate these shenanigans. Why have you, The Secretary of State, along with the Governor of Georgia, and others in power not called aspecial session of legislature yet?!

The recount underway in your state is another fraud. Your counties are recounting fraudulent votes. A lawsuit newly filed states that you, Secretary of State Brad Raffensperger, entered into an unconstitutionalagreement whereby Voters signatures need NO VERIFICATION. Your agreement also allowed that Voter registrations need NOT BE VERIFIED. This is a deal of the devil!

How can you call this a recount.... when you are merely recounting the fraud?! We are also aware of evidence that Republican inspectors are not being allowed to inspect the recounts.

That's not all. We are also aware of overwhelming evidence that *massive fraud* was in the computer voting system in addition to mail ballots.

We The People have the power, not Chinese-corrupted officials.

We will not stand for this. FIX THIS FRAUD. NOW. We the People will not be

AMERICAN OVERSIGHT

defrauded and let corrupt politicians steal our money and our votes.

FIX THIS FRAUD. NOW.

We will FIGHT BACK!

Sincerely,

Muriel Sitton

Registered Voter, U.S.A.

Mr. Raffensperger,

We are not the victims of "Disinformation". So this is not "disinformation". We The People are victims of an election system that has failed to be honest and transparent. There are many claims that I can flood your email with. But I trust that you are well aware of the claims against you and your system, including the lawsuit recently filed against you.

So are you stating that you ARE verifying all voter signatures, whether it be absentte, online, or any other?

Exactly how are those verifications being done?

Are you saying that voter registrations ARE being verified?

Are are you saying that republican poll inspectors/watchers have been observing the process every step of the way?

What is your discard rate of mail ballots at this time?

Please confirm.

Thank you,

Muriel Sitton

ATTENTION: Secretary of State Brad Raffensperger

November 14, 2020

Dear Mr. Raffensperger,

We, the People, demand a special session of the Georgia legislature!

Voters are being cheated. Georgia's election was unlawful and now the present recount is a fraud and a sham.

We are writing to let you know in no uncertain terms that we will not tolerate these shenanigans. Why have you, The Secretary of State, along with the Governor of Georgia, and others in power not called aspecial session of legislature yet?!

AMERICAN OVERSIGHT

The recount underway in your state is another fraud. Your counties are recounting fraudulent votes. A lawsuit newly filed states that you, Secretary of State Brad Raffensperger, entered into an unconstitutionalagreement whereby Voters signatures need NO VERIFICATION. Your agreement also allowed that Voter registrations need NOT BE VERIFIED. This is a deal of the devil!

How can you call this a recount.... when you are merely recounting the fraud?! We are also aware of evidence that Republican inspectors are not being allowed to inspect the recounts.

That's not all. We are also aware of overwhelming evidence that *massive fraud* was in the computer voting system in addition to mail ballots.

We The People have the power, not Chinese-corrupted officials.

We will not stand for this. FIX THIS FRAUD. NOW. We the People will not be defrauded and let corrupt politicians steal our money and our votes.

FIX THIS FRAUD. NOW.

We will FIGHT BACK!

Sincerely,

Muriel Sitton

Registered Voter, U.S.A.

Thank you for the form letter reply. Clearly others have expressed the same concerns if you have a reply ready to cut and paste.
A full audit of all of the the ballots cast in the presidential election is necessary to ensure the outcome is valid. Along with the signature verification issue of mail-in ballots, the integrity of the Dominion voting machines have been called into question. Better to expend the extra effort and get the outcome right, than to cut corners.
Your reputation is at stake, so if for no other reason, do the right thing and conduct the audit.

This email originated from outside of Veracode.

Thank you for reaching out.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

ctions here in GA. I want every legal vote to be counted, and every illegal vote to be discarded, regardless of the candidate.

I voted in person, and was required to show a valid ID. This should be standard practice, however, since mail-in ballots were deemed to be legal, it is essential that the signature be verified. It has come to my attention you have chosen not to make this a requirement during the presidential recount and the runoff elections. How can you know if a vote is valid if you don't verify the signature? In addition, you must conduct a full audit of the ballots as part of the recount to ensure they are valid, otherwise, why even go through the process? All you will be doing is counting ballots without knowing whether they are valid or not, which will not only be a waste of time and taxpayer dollars, but call into question the integrity of State of Georgia.

Brad, free and fair elections are the foundation of our republic, and it is essential the residents of both GA, and the remainder of the country have faith in the result produced by you and your team.

Best regards,
Steve

Changes were made to our voting process in an unlawful manner. All changes related to Georgia's voting process must go through and be made by the Georgia State Legislatureand I understand there was an agreement made outside of the state legislature to change the absentee ballot procedure. As I understand, with this illegal change there is no way legitimately and legally for Georgia to certify its election results and the recountis totally fraudulent, as well.

I ask that as a representative of Georgia's constituents that you follow the law and that changes to the voting process be done lawfully through the legislature and anythingthat was done illegally to be thrown out.

Very interesting.
More Republicans have reservations about the new machines yet they overwhelmingly had no problems with them.

Republicans favored the post office versus drop boxes.

Republicans think their vote was accurately counted , but didn't know if everyone else's were.

And they were less pleased with our Office's performance than independents and Democrats.
And that is most likely due to the huge post election disinformation campaign.

I respectfully disagree that the claims are 100% false. Please explain this "Consent" decree. Please explain why the Audit is not doing signature matching. Please explain the election night vote counting that stopped and magically came back with Biden winning. Please explain why Monitors are not allowed to observe the Audit data entry into Arlo. Please explain why the Dominion system was purchased for Georgia even though there was ample evidence that it is easy to conduct fraudulent elections with it.

I served as a volunteer Audit Monitor on November 14th and 15th 2020 in Georgia and I am very concerned that this Georgia "audit" is not fair and transparent.

I was not allowed to Monitor the 2 people typing the counts in the computer in the back of the room. That is where the "Audit" results are stored.

Because of a "Consent Decree" deal struck between the Governor and Stacy Abrams, we are not allowed to match signatures. This deal has to be unconstitutional. Regardless, and respectfully, it is enabling,
allowing and inviting cheating and fraud. This is unacceptable.

I am very concerned, as I learn of more issues with this "audit" in other counties, as Ms. Sydney Powell has signed affidavits explaining.

Why did Georgia buy these Dominion machines. So much was known about the remote control capability, changing votes capability, storing in foreign countries, moving votes from one candidate to another
- folder to folder, etc. It's in their manual.
https://archive.vn/LhJHM

I understand that Governor Kemp's prior chief of staff moved on to lobby for DOMINION, who sold products to Georgia, while GA Secretary of State took campaign cash from the wife of Dominion's partner'sCEO. Is this true?

See this article: https://nationalfile.com/georgia-ex-kemp-staffer-lobbies-for-dominion-voting-madness-leads-to-lame-recount/

AMERICAN OVERSIGHT

It says :

> "In Georgia, election integrity advocates managed to stop state lawmakers from passing a bill in 2018 (SB403)that would have enabled universal use ballot-marking devices. But lawmakers went ahead and passed a new bill (HB316),enabling them in 2019. Georgia has since purchased BMDs from Dominion,whose lobbyist,Jared Thomas, was Governor Brian Kemp's chief of staff and press secretary from2012 to 2015 when Kemp was secretary of state. Dominion's partner in the state is KNOWiNK,a supplier of electronic poll books, which are used to sign in voters and confirm voter registrations. KNOWiNK's founderand CEO , Scott Leiendecker, is a former Republicanelection official whose wife donated$2,500 to the campaign of Georgia's current secretary of state, Brad Raffensperger, in November 2018.
>
> The Georgia election in 2020 was an absolute mess, with a burst pipe at State Farm Arena used to justify late-night vote-counting in Fulton County that gave Joe Biden a mystical lead.Not surprisingly,considering Governor Kemp and the Secretary of State's connections to Dominion and its Georgia partner, the "recount" in Georgia was quite lame Friday, with no actual auditing of the ballots as expected."

Here's another article:
https://www.americanoversight.org/investigation/georgias-voting-machines-and-election-security

> It says: "In July 2019, Georgia Secretary of State Brad Raffensperger announced that the state had awarded a $107 million contract to manufacturer Dominion Voting Systems to replace existing voting machines with a new "verified paper ballot system." As reported by the *Atlanta Journal-Constitution*, both Dominion and the state's former elections company, Election Systems & Software, had connections with Gov. Brian Kemp's administration. Dominion lobbyist Jared Thomas had been a longtime political and campaign aide to Kemp, who previously served as secretary of state, and another lobbyist, Barry Herron, had worked for Diebold Election Systems, which had originally sold Georgia its electronic voting machines."

I implore the Governor of Georgia to:

1. Order special session of legislature

2. Void unlawful election - cast electoral vote for @realDonaldTrump

3. Schedule all down ballot races for 1/21 election

4. Demand @KLoeffler resign

AMERICAN OVERSIGHT

5. Appoint @RepDougCollins

To gain the approval and consent of the governed, the government of the United States and the State of Georgia, must demonstrate that the elections it funds and operates are indeed free and fair sothat the American People can have faith that their voice and vote matters.

Sincerely, Jennifer Gwen Waller

AMERICAN OVERSIGHT

Subject: RE: Election Fraud

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

Thank you for your support,

Brad Raffensperger
Secretary of State

You have perjured yourself.

You can't bypass the state legislature as you did in March 2020. And please provide a source showing that all parts, components and processes with Dominion are American owned...better yet American made.

The evidence weighs heavily against you. You continue to lie to us, and we won't stand for it. Blood of Patriots will not allow you to get away with what you've done.

Continue with platitudes and talking points. They won't help.

It's a sad day when you allow Perkins Coie and a side deal with Stacie Abrams and the Democratic machine to bypass legislative processes in the name of a virus to justify mail-in voting that was used to perpetrate fraud against the American people. Countless households in GA received mail-in ballots, multitudes of them.

Lin Wood has all the evidence and sworn affidavits. You won't be able to run out the clock. Your corruption will be exposed because, like it or not, God's pure justice will flow and the sins of those involved in this corruption will be shouted from the rooftops.

Resolve and constancy will not be diminished on our part. God is on our side. I so testify in the name of Jesus Christ.

Let there be a fair review of all things. Complete and total transparency, not what happened in the sham recount. We all saw what happened.

If you're right, what are you afraid of? The truth transparent and for all to see is the only way forward. Anything else you say is meaningless. Concede to the will of the people you're supposed to work for.

/s/ Son of Liberty and of original Patriots

AMERICAN OVERSIGHT

The audit-triggered hand recount focuses on the plain English written choices of the voters. If they voted in person, the ballots say either Donald J. Trump, Joseph R. Biden, or Jo Jorgensen, in plain English, and voters were told to doublecheck their selection before casting. For absentee ballot voters, the selection will be identified by the oval filled in by the voter by hand.

After ballots were counted by scanners the first time around, this hand recount will provide verification of the security and reliability of Georgia's voting system. Any claim otherwise is 100% false.

I don't believe anyone highlighted your absentee process as an issue as a frontline issue, and your talking points associated with that are impressive.

It's the back end of the affair that requires full audit and review.

It would be in your best interest to cooperate sooner rather than later, sir.

Dominion is an issue amongst a host of other items, such as lack of poll watching transparency and the "pipe" scandal.

Plus, your dealings with foreign entities in securing election hardware and software raise huge questions of election integrity. See EO 09/12/2018, as you may have been swept into a dark corner. You should have heeded SoS Pompeo's sterncounsel.

On a whole, your election results require full audit of each ballot, matching signatures and voter registrations. Some explanation will be required re Stacie Abrams activities during the elections. She should be more careful.

I should not need to enumerate all the issues that cause people to question the results; however, if you would like, I can supply you with documented issues if that would help. Just let me know. An army of researchers are waiting to supplyyou with what you might require.

Sadly, you have done an enormous disservice to the American people. God knows, we know and you know.

Regards,

An American Patriot

Thank you for recounting all the votes and checking all signatures.

Any kickbacks received from the voting machines or software company are illegal! So we are hoping you didn't get any !

Better get your ducks in a row because the patriots are coming.

Georgia is MAGA country.

Call a special legislature! Certifying illegal votes is FRAUD.

Dear Secretary of State for The State of Georgia Brad,

My vote was stolen in the widespread voter fraud that occurred in you state.

As a shareholder in the United States of America I demand a full independent audit (not by your Stare) of each And every legal vote.

Please publish all results and prosecute fraud. Also IT Audit independent Analysis Of each and every legal vote before results are certified.

John OBrien
USA Citizen

I don't believe anyone highlighted your absentee process as an issue as a frontline issue, and your talking points associated with that are impressive.

It's the back end of the affair that requires full audit and review.

It would be in your best interest to cooperate sooner rather than later, sir.

Dominion is an issue amongst a host of other items, such as lack of poll watching transparency and the "pipe" scandal.

Plus, your dealings with foreign entities in securing election hardware and software raise huge questions of election integrity. See EO 09/12/2018, as you may have been swept into a dark corner. You should have heeded SoS Pompeo's stern counsel.

On a whole, your election results require full audit of each ballot, matching signatures and voter registrations. Some explanation will be required re Stacie Abrams activities during the elections. She should be more careful.

I should not need to enumerate all the issues that cause people to question the results; however, if you would like, I can supply you with documented issues if that would help. Just let me know. An army of researchers are waiting to supply you with what you might require.

Sadly, you have done an enormous disservice to the American people. God knows, we know and you know.

Regards,

An American Patriot

> I implore you to order a special session of the Legislature – now! There is NO transparency in the current recount. Fraudulent ballots are being RECOUNTED. I demand an audit of the ballots cast! Too many fraudulent activities occurred during our election!! The fraud has been exposed!! **Why** would you reside over massive fraud and not call in the Georgia State Legislature?

AMERICAN OVERSIGHT

The Constitution says the LEGISLATURE IS RESPONSIBLE, not the Secretary of State, not the Court. The Legislature is to rule on this. The Legislature needs to do its job. Georgians are watching, Americais watching!!

I demand that this election be conducted according to the Law. American's must trust an accurate electoral outcome!!

Do what is right for Georgians as well as ALL American citizens!

You must **COURAGEOUSLY** step up and live up to the oath you swore to – to follow the Constitution and rule of Law. Every **legal vote** must be counted and every **illegal vote** MUST be thrown out!!

You are duty bound Sir, to uphold the Constitution. The law must be followed in this election and the obvious fraud corrected NOW. Call a SPECIAL SESSION OF THE LEGISLATURE immediately!

A Concerned American Citizen,

Melanie Royer

MEDIA ADVISORY
November 16, 2020

Secretary Raffensperger Issues Warning Against Activist Groups Helping Out of State Illegal Voters: 'We will catch you. We Prosecute.'

(ATLANTA) – Secretary of State Brad Raffensperger issued a warning to groups that are helping individuals move to Georgia solely for the purpose of voting in the January Senate runoffs elections. Groups that finance or organize such efforts are involved in conspiracy to commit voter fraud and could be charged under Georgia's Racketeering Conspiracy laws.

"Make no mistake about it, I will seek to prosecute those who try to undermine our elections to the fullest extent of the law," said Raffensperger. "The integrity of our elections is paramount. Outside groups who seek to interfere with democracy in Georgia should be forewarned that the consequences will be severe."

AMERICAN OVERSIGHT

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record overall, early, in-person, and absentee-by-mail turnout during the November 2020 elections.

Excuse me but voting is not secure and you have not properly accepted ballots according to law. You have no authority to change law. That is the authority of the legislature.

Particularly, I voted early in person. There was reported to people in line that voting had been delayed due to an earlier not enough band width problem. Why were they even needing band width when no reporting was supposed to be done at that time? I suspect hacking of some kind. Then there were 2 men in suits that approached the outside ballot depository and appeared to check it. Then they went inside and moved about the voting area but did not vote. They were wearing lanyards but I could not read the id. As I was leaving at the same time I could see a gun under one of their coats. They were checking something.

My ballot was number 1169. I put it in the scanner myself being told it didnt matter which way I put it in. I became suspicious of the ballot depositories two of which I know for a fact were placed in unmonitored, dark, isolated areas appearing to be easily removable or tampered. I am attaching a picture of one from main street in Canton. It was actually darker than shown in the picture made brighter by camera flash. I contacted media and local and state elections boards October 15 being told the boxes were according to prescribed despite what I could see.

Now with all the problem with the election I want to know my ballot was counted as it was cast and verify that it was counted at all me having been advised it didnt matter how it was put in the scanner. I have checked with my local elections board and been advised that there is no way for a voter to verify how their vote was counted. It can only be verified received. So in essence numbers can be spit out and there is no way to verify them and the paper ballots and all the money spent on the new system is a non verifiable waste.

Voting is a contract via a fiduciary and a valid contract requires a way to determine if the contract has been fulfilled or breached. This voting system does not do that. We hand our votes over with no way to know if they were handled properly. Now we have a Secretary of State that failed to require equal protection for voters who voted on time. There was no reason to allow late mail votes. If the Democrats knew in March voting could be delayed then common sense would have dictated they get their ballots out and instruct voters to get them mailed in time to be lawfully counted. You had no business selling out voters by making illegal provision. You should have told Democrats in March to get their votes in on time and been suspicious of them asking you to go beyond your legal autbority. You had no other legal option than to require lawful voting. I do not appreciate this misdeed or the current voting system.
Deborah Davis

On Mon, Nov 16, 2020, 2:23 PM Raffensperger, Brad <brad@sos.ga.gov> wrote:

AMERICAN OVERSIGHT

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballotonline through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been castwould do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Thank you for your support,

Brad Raffensperger
Secretary of State

Dear Secretary Raffensperger,

AMERICAN OVERSIGHT

My vote deserves verification of everything required for a legal ballot to be cast. Signatures - everything. It is odd that the Democrats conned SOS Raffensperger back in march at the start of the pandemicto make arrangements to get mail in ballots accepted late. The Secretary had no authority to do this contrary to law. **Everybody** can get their ballot in on time. Why did there need to be a means for late ballots to be accepted? This is a clear planfor election interference. It's not like people didn't have four years to know this election was coming. This violates equal protection and should have been seen as concession to Democrats but for what purpose? I would like an investigation of the Secretary'sfinances to find out if there was any bribery to do this as well as in selecting the voting machines and software. Did the Secretary have the machines and software checked by someone knowledgeable in election tampering? The Secretary needs to be arrestedand recalled for breaking his oath of office to uphold the Constitution of the State of Georgia. Hang a dang deadline! Failure to verify everything on every ballot just submits to the Democrats. There needs to be a special session to change the deadline.A deadline means nothing if the results are not accurate according to law. Check everything. Be a part of the solution in an accurate election or you are part of the problem and subject to recall also. If either you or the Secretary do not want to do yourjobs then resign.

Please do a thorough audit and verify signatures. Also, request a special session of legislature.

After finding the 2600 uncounted votes, you and all of the American public now know for a fact that the election results were not accurate. How many other votes have not been counted? How many votes are illegal? How many votes were changed in the software system? You won't know the answers to that unless you thoroughly investigate.

Dear Brad,
Thank-you for responding so quickly and genuinely.
I believe you have done much on your side, but there are things beyond your direction or control that may have caused many illegal ballots to be processed.
You have heard of Hammer and Scorecard as well as Dominion and Scytl. These are just the ones I know of
that are software and computer changes in previous and this election that have been used in 28 states.

If you want all Americans to stand behind the elections, please take the time to assure that all fraud investigations have been completed
before making a decision.
We want to believe in our government.
All the Republicans want to know is that we stop fraud in this 2020 election... and for future elections.
The fraud Its not your fault, but allowing truth to bring Americans together is your decision.
Unity or division:(
Appreciatively,
Laurie Punches

Dear Secretary of State Raffensperger and State Election Board members:

Please find attached and below a letter signed by several in-state partners requesting that your office consider critical election administration fixes ahead of the January 5 runoff. We humbly respect a response from your office confirming receipt of this letter by **this Friday December 4.**

Sent
via email

November
30, 2020

Honorable
Brad Raffensperger
Georgia
Secretary of State

State Capitol
Atlanta,
GA 30334

Re:
Urgent Action Needed to Ensure
Safe and Accessible Voting
in Georgia's Runoff Elections

AMERICAN OVERSIGHT

Dear
Secretary of State Raffensperger:

On
behalf of All Voting is Local, Georgia, the NAACP Legal Defense and Educational Fund, Inc., SPLC Action Fund, and the undersigned organizations, we urge you to take the following critical steps to ensure that all voters can safely and securely exercise their
right to vote in the January 5th
runoff elections: (1) mandate specific weekend early voting dates;
(2) address widespread technological and training issues with poll pads; (3) clarify confusing absentee ballot status information on the My Voter Page and BallotTrax websites; and (4) mandate at least one drop box for every 15,000 to 20,000 voters.

Not only will these nonpartisan and commonsense steps help ensure voters
are able to safely cast their ballot in the upcoming runoff, they will also instill confidence in both voters and nonpartisan voting rights and civic organizations that rely on your leadership to improve our elections. These actions are especially important
now as Georgia's COVID-19 rates are climbing and voters need safe
and reliable methods to vote.

1. **Mandate Specific Weekend Early Voting Dates.**

It is widely expected that voter turnout for the January 5 runoff elections
will be extremely high. The early voting period for
runs from December 14 through January
1, coinciding with the holiday season. State offices are closed for official holidays on December 25 and January 1, and we anticipate most counties will not offer early voting on those days.
We also anticipate some counties may
not offer early voting on December 24 or December 31. This expected shortening of the available days for early voting during the holiday season will make it more difficult
for voters to utilize early voting options and is likely to increase
the number of voters who will vote in-person on January 5th,
leading to long lines and increased risks of COVID-19.

To mitigate the likelihood of long lines
on January 5th,
counties should be directed to add additional early voting days and hours to account for any reduction due to the conflicts with the holidays. We urge you to mandate that all counties offer early voting for at least two weekend dates during the early voting
period. Alternatively, we recommend extending voting hours to make up for lost time. All changes should be mandatory across the state in order to reduce the risk of voter confusion and guarantee that every voter has the same opportunity to cast their ballot
regardless of where they live.

2. **Address Widespread Technological and Training Issues with Poll Pads.**

On
Election Day, voters encountered widespread problems with poll

AMERICAN OVERSIGHT

pads, including poll pads that were slow, non-operational, or that did not arrive on time. Many poll workers were not able to quickly address and resolve these widespread issues.
These issues caused voter confusion,
longer wait times, and increased strain on poll workers.
We urge you to require that counties take the following steps to address these issues for the runoff elections:

- Ensure
that poll pads are accurately programmed and any updates to the poll pad software are tested well in adva

- Provide
poll workers with more extensive and comprehensive training, so they can better understand how to troub

- Give
poll managers the authority and the corresponding technological permissions to quickly override inaccura

- Require
counties to allocate the number of poll pads in each precinct relative to the number of registered voters in

These solutions will alleviate many of the
issues both voters and poll workers experience when poll pads malfunction.

3. **Clarify Confusing**
Absentee Ballot Status Information on the My Voter Page and BallotTrax Websites.

The
Secretary of State's "My Voter Page" and "BallotTrax" websites should be clarified so that voters understand that "receipt" of their absentee ballot does mean that their absentee ballot has been accepted and will be counted. Currently, the "My Voter Page"
website marks absentee ballots as "accepted" when they are first received. The website does not disclose that absentee ballots that have been "accepted" may subsequently be rejected after further processing. Similarly, BallotTrax has a status label that marks
absentee ballots as "counted," which includes a warning message that voters may not vote again, but fails to notify voters that their absentee ballot could still be rejected.

Voters who use these websites reasonably
(but incorrectly) assume that their absentee ballots will not be rejected once they see confirmation that it has been "accepted" or "counted." Accordingly, voters have no reason to continue to monitor the websites to confirm their status. Moreover, due to
widely reported USPS delays, voters may not receive timely notice that their ballot was rejected. As a result, many voters will miss important opportunities to cure their rejected absentee ballots within the allotted three-day period because they are simply
unaware of the rejection.

We urge you to take the following steps to

AMERICAN OVERSIGHT

address these issues for the runoff elections:

- Revise the "My Voter Page" and "BallotTrax" websites to indicate when ballots are "received" by the county ele

- Post simple definitions for each absentee ballot status so voters understand the differences and whether there i

- Provide voters with an opportunity to sign up for email or text notifications of any updates to their ballot status.

- Require counties to immediately determine whether a ballot is accepted or rejected at the time it is received by the

These simple solutions will minimize voter confusion and are especially important for the upcoming runoff elections considering the large number of voters who are requesting absentee ballots.

4. **Mandate at Least One Drop Box for Every 15,000 to 20,000 Voters.**

We urge you to require all counties to provide at least one drop box for every 15,000 to 20,000 voters. According to the Cybersecurity and Infrastructure Security Agency (CISA) Elections Infrastructure Government Coordinating Council and Sector Coordinating Council's Joint COVID Working Group:

> Setting up ballot drop boxes and educating voters to use them mitigates a number of COVID-19-related risks associated with in-person voting. It also minimizes the number of people that will need to access voting locations, thereby providing more space for those who are engaged in in-person voting.

According to CISA, best practices to determine drop box quantity and locations include: (i) provide one drop box per 15,000 to 20,000 voters; (ii) install drop boxes in communities with historically low vote by mail usage; and (iii) use demographic data analysis to determine the needs of rural voters versus urban voters.

Drop boxes are essential to ensure that voters can safely and effectively vote, especially as COVID-19 rates are expected to continue to rise during the runoff elections period. Although some counties are providing some drop boxes, many counties are still failing to provide this option to voters, or are providing an insufficient number of drop boxes. We therefore urge you to mandate that all counties provide at least one drop box for every 15,000 to 20,000 voters.

AMERICAN OVERSIGHT

We urge you to take the steps identified above so that voters can effectively, equitably, and safely vote in Georgia's upcoming runoff elections.

Please contact Aklima Khondoker by **December 4, 2020** to inform us of the steps you will take to address the issues raised in this letter. Feel free to contact us should you have any questions.

The only way to VALIDATE the TRUE LEGAL Vote is to compare signatures of all ballots executed along with each having both Democrats and Republicans being part of the process.

You have caused the VOTE in Georgia to be illegitimate and YOU must FIX this problem or 'WE THE PEOPLE' will never trust another election in Georgia.

Thank you for reaching out.

Claims that signature match was weakened in Georgia are 100% false.

As Secretary of State, I was the first to take steps to limit voter fraud with absentee ballots since a Republican legislature voted for no-excuse absentee ballot voting in 2005.

One of my first steps as Secretary of State was to OUTLAW ballot harvesting, which has let fraud to go unchecked in California.

For the first time in Georgia history, we launched an electronic portal that REQUIRED photo ID to request an absentee ballot.
Lastly, we worked with the Georgia Bureau of Investigation to train elections workers on signature match. These highly trained officials conduct signature match *twice* during the absentee ballot process, securing votes in Georgia and helping make sure that each person gets one vote.

Thank you for your support,

Brad Raffensperger
Secretary of State

As a Georgia resident and I'm quite concerned about what is taking place in the current recount. I am urging you not to certify electors until the election results, with a full recount, with Republican observers no more than three feet away, and with full verification of signatures and dates on which ballots were received, are verified. The agreement that you, the Georgia Secretary of State entered into with pressure from Stacey Abrams to accept ballots where

AMERICAN OVERSIGHT

signatures couldn't be verified is ludicrous, and should NOT stand. That needs to be corrected now and prior to the run-off election in January. The voters of this state need to have confidence in our Voting system, and today, I, and many more like myself, have NO CONFIDENCE that the system is fair and possibly has been compromised.

As you, the Secretary of State, to say "I was the first to take steps to **LIMIT** voter fraud with absentee ballots" is appalling. "LIMIT voter fraud" , how about ELIMINATE. Georgia's electronic voting machines made by foreign companies can be easily manipulated and it makes it all that more important to review EVERY SINGLE ballot by hand with VERIFICATION by each party to validate this election. You as Secretary of State should understand the IMPORTANCE to our votes!

Thank you for your time,

Tim Castagna

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Dear Secretary Raffensperger,
(CC: Speaker Ralston, Senator Perdue, Senator Loeffler, Governor Kemp, Lt. Governor Duncan)

I am following up on my Email sent to you/your office on November 20, 2020 with 4 Questions. I would like to add a 5th question, if I may.
Because I have not received an Email response to my previous Email, I am copying other leaders who might be able to provide us guidance.

As a resident of Georgia and a citizen of the United States, I simply want to know the truth regarding allegations of election fraud in Georgia; as we all expect only legal votes to be tabulated. It seems by the evidence in 2 recent Filings, subject to validation, that there may have been enough election fraud in our state to potentially change the outcome of the presidential election in our state. I am referring to Filings on November 17 and November 24 (Case Numbers 1:2020cv0404651-SDG and 1:2020cv04809).

The allegations, with affidavits, look relevant and meaningful and are enough to either "pause" certification, if possible, or to have our state call for a Special Session of the Georgia State Legislature to publicly review the information, or to take other actions to get to the truth, which includes NOT taking actions to impede getting to the truth.

My 5th Question is:
5. Will you take action to ensure the residents of the state of Georgia have full transparency to get to the truth on any and all election fraud allegations so we can have confidence in our election process?

My previous 4 Questions are:

1. Why did the Secretary of State and the Election Board change the manner in which absentee ballots were counted without going through the state legislature?

2. It seems validation of legal voters was lax for the mail-in votes as compared to in-person votes. Why was there a double-standard?

3. Why were there occurrences where ballots were not confirmed fairly by poll workers from both parties?

4. Why were some poll workers sent home when voting was stopped late November 3rd/early

AMERICAN OVERSIGHT

November 4th, yet some poll workers either returned and/or continued to work? What happened during that time?

For those CCed: Will you take appropriate action(s) to help Secretary Raffensperger get to the truth? The people of Georgia deserve to know.

Thank you very much,

Mark Schultz

>
> There are a lot more questions; but I will allow you to respond to these, first.
>
> As a resident of Georgia and a citizen of the United States, I am embarrassed for all of us. The narrative we will hear is “there was no wide-spread election fraud”; and we know the recount in Georgia is just counting what has already happened, legally and illegally. Regretfully, if there was just enough election fraud (~1%) in our state by candidate Biden supporters, it changed the outcome of the presidential election in our state. If this is the case, some legal voters had their vote cancelled or stolen. That should not ever happen in our country.
>
> Again, I thank you for your previous Email response and I look forward to a response to the 4 questions in this Email.

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have tobe requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature match and am taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absenteevoting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

Thank you for your support,

Brad Raffensperger

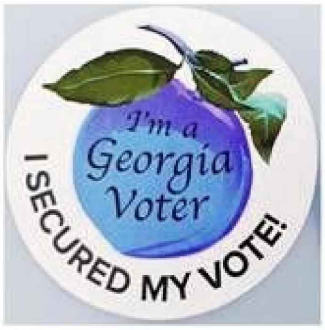
It seems the more we learn about the actions and non-actions of government leaders and some election workers before, during and after the most recent election, the clearer it becomes that many legal votes have been cancelled (not counted,stolen, replaced). Even worse, it seems

AMERICAN OVERSIGHT

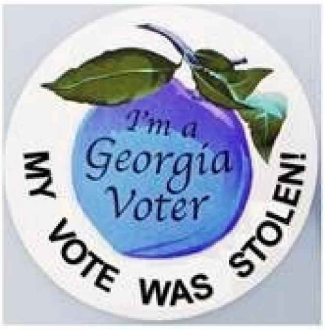


the current level of fraud, likely due to both incompetence and intent, is not being aggressively addressed to preserve our trust in the voting system for the state of Georgia.

Please call a Special Session of the Georgia State Legislature to address each of the issues that are eroding our liberties. The outcome of the session and the action taken should enable you, with absolute confidence, to attest and fullyprove that only legal votes were counted in our state: 1 vote each made by registered voters (no □identify theft□), who are individually validatec as residents of Georgia and citizens of the United States of America; and confirmed fairly by poll workers fromboth parties.

Sadly, I have low expectations the right actions will be taken unless someone else exposes the shenanigans. I expect just talk and finger pointing and cover-up pretending it was a fully fair election.

If things do not get fixed, perhaps you and the leadership of our state can decide which candidate sticker should replace the current ¤Georgia Voter sticker. Candidate 2 is how I feel and for good reason.



Current Sticker

Candidate 1

Candidate 2

Thank you for your attention and action on this critical matter. I look forward to your feedback.

Sincerely,

Mark H. Schultz

Hello all,

The House Governmental Affairs Committee will be meeting about the General Election on Thursday, December 10th, beginning at 9:00 AM.
Chairman Blackmon has requested that someone from the Secretary of State Office attend the hearing to speak with the committee and answer questions.

I know previously we have had Ryan Germany, Chris Harvey, and Gabriel Sterling with us and would love if they could join us again. Of course if the Secretary is available, the committee would appreciate his presence as well.

The hearing will be virtual, via Zoom. There will be other speakers, so we don't have an exact time for you guys yet. The morning session would last from 9:00 AM until 12:00 PM and if your office is only available for a certain portion of that, we can adjust the schedule to make sure we hear from your office at the best time for your schedules.

Please let me know if someone from the Secretary's Office can join us and I will get updated details to your office as soon as I have them.

Thank you so much,

** Do not click any links or open any attachments unless you trust the sender and know the content is safe. **Not an honest recount! Let's do an honest recount!What do you say to all the people swearing under oath? You call this a fair election? Please check your facts Your state is tainted, your governor and you are colluding with Stacy Abrams, and the Chinese government! You both sold out, why?Trumps not delusional, he won the election and you're going to cheat and try to steal the senatorial seats as well because you think you know better than the American people? Have you not learned from history? How can America first be offensive. Do you put your family first before other families? you harbor hatred for this country! We are the good guys and we share our wealth and understanding with the world. What's wrong with that? If you don't want to be an American then leave the country and see how you like it! We're America and we're gonna stay that way!You're not defending the working class the little guy,Are you naïve enough to think globalism works? Why didn't we let the Nazis take over then you must know that. China is no better, the CCP human rights abusers. The communist kill and destroy lives Ike breathing. They are godless, don't you see?They are going to take over the world, but you and your personal family will be fine,Because you're in bed with them and you will profit over this stolen election.The media swamp will not get away with this we know they're fake news! The American people will not stand for this, we're not deaf, dumb, or blind! Make things right before it's too late! We have a forgiving and loving God the communist only have nothing. Love conquers heat! Not the other way around.They put their trust in their power, very foolish! We put our trust in God. I suggest you do the same and ask Him Who reigns supreme for guidance!The founding fathers put the legislatures of the states in control under election inconsistencies and that's what will happen be on the right side of history Mr. secretary!Stop the Steal!!We've already been through "bought and paid for by Hillary Clinton"! you did not put on a fair and legal election! You are swamp and in bed with many people and it's sick! We the people will prevail, you and your Governor will not! That's not how the constitution works. Constitution and the Federalist papers give power to the legislature to decide a flawed election! The founding fathers new governors and individuals can be corrupted!We're not defeated! We never give up, ever. Sincerely, Miki HAMMELSent from my iPhone> On Nov 18, 2020, at 11:48 AM, Margaret L. Subject: House Governmental Affairs Committee- Elections Hearings- 12/10/20

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hello all,

The House Governmental Affairs Committee will be meeting about the General Election on Thursday, December 10th, beginning at 9:00 AM.
Chairman Blackmon has requested that someone from the Secretary of State Office attend the hearing to speak with the committee and answer questions.

I know previously we have had Ryan Germany, Chris Harvey, and Gabriel Sterling with us and would love if they could join us again. Of course if the Secretary is available, the committee would appreciate his presence as well.

The hearing will be virtual, via Zoom. There will be other speakers, so we don't have an exact time for you guys yet. The morning session would last from 9:00 AM until 12:00 PM and if your office is only available for a certain portion of that, we can adjust the schedule to make sure we hear from your office at the best time for your schedules.

Please let me know if someone from the Secretary's Office can join us and I will get updated details to your office as soon as I have them.

Thank you so much,

Molly Aziz

What do you think? …

Good morning,

It's been a long 34 days since the Election on November 3rd. We have now counted legally cast ballots three times—the results remain unchanged.

As Secretary of State I have worked to secure the vote for all Georgians. On day one we outlawed ballot harvesting, strengthened signature match through GBI training, and moved towards an auditable paper ballot system. I am the first Secretary of State to implement a driver□s license requirement for online absentee ballot applications—which strengthened the security of our absentee ballot process.

Whether it is the President of the United State or a failed Gubernatorial candidate, disinformation regarding election administration should be condemned and rejected. Integrity matters. Truth matters.

AMERICAN OVERSIGHT

Today the Secretary of State's office will be re-certifying our state's election results. Then the Safe Harbor under the U.S. Code to name electors is tomorrow and then they will meet on December 14 to officially elect the next President.

While we will continue our investigations to their conclusion, and where prosecution is necessary, we will work with the State Election Board to refer them to the proper prosecutorial authorities.

We are working with the counties to assure a fair, safe, and secure election for January 5. We will continue to take steps to assure that only legally registered Georgians will be casting votes.

Let's discuss where we are and where we are heading in Georgia. All this talk of a stolen election—whether its Stacey Abrams or the President of the United State--is hurting our state.

Georgia is number 1 state in the nation to do business for nearly a decade. Continuing to make debunked claims of a stolen election is hurting our state.

I started my business and built it from the ground up. I've employed hundreds and hundreds of men and women in those years. I know what it takes to build teams that work to strengthen buildings, restore and strengthen old landmarks—and I have also built a team that knows how to win an election. And I understand we need to focus on the future and growing businesses, getting through the COVID pandemic and bringing more good paying jobs to our state.

The vast majority of Georgians—Republicans and Democrats-- want us, all of us, as elected officials to focus on protecting and growing Georgia jobs, getting the vaccine out as efficiently as possible and getting back to normal.

The focus on November 3rd is drawing energy away from those goals. The

AMERICAN OVERSIGHT

President has his due process rights available to him.

It's time we all focus on the future and growth. I know there are people that are convinced the election was fraught with problems but the evidence the actual evidence the facts-- tell a different story.

Business owners across Georgia know it is time to focus on the future. Georgians have serious issues that need to be addressed. I am looking forward to a great Christmas and then a good legislative session where will have our elections reform bill passed and where I, the Legislature, Governor Kemp, and Lieutenant Governor Duncan can all work together to help all of our businesses and make Georgia an even better place to do business so that each and every Georgian can get a good job or those brave entrepreneurs can start the next great small business.

It is now is the time to direct our energies to January 5 and then to making Georgia and even better place for all of us.

Thank you.
