AMERICAN OVERSIGHT

From: Fuchs, Jordan <jfuchs@sos.ga.gov>
To: Raffensperger, Bradbrad@sos.ga.gov
Date: 12/9/2020 11:05:19 PM
Subject: Talking points

I'd like to take a moment to thank the many organizations and companies that stepped up to the plate to recruit poll workers around the state. Because of The Atlanta Chamber and companies like yours, we were able to provided 50,000 poll workers to counties across Georgia. Cox media, Delta, and Home Depot and Anheuser Busch contributed PPE, Secure Drop boxes and other elections materials so desperately needed in a time of COVID-19.

As Secretary of State I have worked to secure the vote for all Georgians. On day one we outlawed ballot harvesting, strengthened signature match through GBI training, and moved towards an auditable paper ballot system. I am the first Secretary of State to implement a driver's license requirement for online absentee ballot applications—which strengthened the security of our absentee ballot process.

Georgia is number one in the country for business because of great pro business policies. We must get back to business and Condemn disinformation regarding election administration. Integrity matters. Truth matters.

We are working with the counties to assure a fair, safe, and secure election for January 5. We will continue to take steps to assure that only legally registered Georgians will be casting votes.

Let's discuss where we are and where we are heading in Georgia. All this

AMERICAN OVERSIGHT

talk of a stolen election—whether its Stacey Abrams or the President of the United State--is hurting our state.

Georgia is number 1 state in the nation to do business for nearly a decade. Continuing to make debunked claims of a stolen election is hurting our state.

I started my business and built it from the ground up. I've employed hundreds and hundreds of men and women in those years. I know what it takes to build teams that work to strengthen buildings, restore and strengthen old landmarks—and I have also built a team that knows how to protect elect integrity and increase security of our elections. And I understand we need to focus on the future and growing businesses, getting through the COVID pandemic and bringing more good paying jobs to our state.

The vast majority of Georgians—Republicans and Democrats-- want us, all of us, as elected officials to focus on protecting and growing Georgia jobs, getting the vaccine out as efficiently as possible and getting back to normal.

The focus on November 3rd is drawing energy away from those goals. The President has his due process rights available to him.

It's time we all focus on the future and growth. I know there are people that are convinced the election was fraught with problems…but the evidence…the actual evidence—the facts-- tell a different story.

Business owners across Georgia know it is time to focus on the future.

AMERICAN OVERSIGHT

Georgians have serious issues that need to be addressed. I am looking forward to a great Christmas and then a good legislative session where will have our elections reform bill passed and where I, the Legislature, Governor Kemp, and Lieutenant Governor Duncan can all work together to help all of our businesses and make Georgia an even better place to do business so that each and every Georgian can get a good job…or those brave entrepreneurs can start the next great small business.

It is now is the time to direct our energies to January 5 and then to making Georgia and even better place for all of us.

Mr. Raffensperger-

We the people, have learned that you have decided to back out of testifying in front of the Georgia House Committee on 12/10 to discuss the Georgia election fraud. It is apparent to 74 million Americans that the 2020 Presidential election was improperly executed and potentially fraudulent. What makes it worse is your indifference to get to the bottom of these claims... by you neglecting to discuss this with your colleagues is telling and definitely makes you appear complicit. We the people demand accountability and will be watching. Please do the right thing for the American people.

Dear Secretary of State Raffensperger,

I'm emailing you on behalf of the American people to ensure a fair and free election process ... American elections need to remain fair and free from ALL corruption. We the American tax paying citizens are requesting you and your fellow Georgia lawmakers tocall for a special legislative session in Georgia to hold a full and fair election recount, audit and full oversight by the Georgia legislature. Whatever the final election outcome we the "people" need to be completely confident in our election process andelected officials. Also, please ONLY allow in person voting (and authorized absentee voting) in Georgia's upcoming Senate runoff elections. Finally, an election audit needs to be completed in front of representatives from both parties in true transparency.Thank you for your time, we the people will be watching how this process is carried out. Our freedom is on the ballot.

Regards,

Drew Shipp

Subject:

ANY QUESTION ABOUT Absentee Ballots:

1. I'd like to get straight to the point. My team secured and strengthened absentee ballots for the first time since 2005. As Secretary of State the first thing I did was push legislation that banned—OUTLAWED—absentee ballot harvesting in Georgia. That was me—my team.

2. Next, for the first time in the history of Georgia, Absentee ballots submitted through our electronic portal required photo ID. My team—we made that happen.

3. Lastly, let's address this disinformation about signature match. We strengthened signature match. We helped train election officials on GBI signature match—which is confirmed twice before a ballot is ever cast. Failed candidate Stacey Abrams loving Doug Collins is a liar. Period.

ANY QUESTION about Lin Wood:

1. Silly. Unwarranted under existing law. (changed after a few thoughts)
2. Our office has received multiple requests to match ballots back to voters exposing how a Georgia voter has voted. We stand ready to prevent any and all attempts from any party to intimidate voters. Georgian have a right to vote in secret without intimidation of any political candidate or party.

3. Yeah, we have a lot of mutual friends. Someone really needs to dig into his background really interesting reputation around town.

Any question about State Farm:

"That has already been debunked by multiple outlets." Full stop.

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Mr. Raffensperger. I came down with Covid this year so my wife and I were quarantined and not able to vote in person this year. We did request ballots, received them in time and put them into a drop box the day before the election. The one thing that we noted on our ballots was the date and time that the ballots needed to be turned in for them to be valid.

I am hearing through the media that in the great State of Georgia we are still counting ballots which came in after the due date and time.

I do not understand how this is happening and would like to know why late ballots are being counted and is this against our state law.

I am sure you have a lot on your mind right now and may not get back to me. I will tell you that this is my first time teaching out to any government official, as I find it very troubling and concerning that ballots received after the due date and time are being counted.

Please uphold the integrity of our votes and respond as to why late ballots are being counted.

FOR IMMEDIATE RELEASE
November 5, 2020

With 16,105 Votes Out, Officials Focused on Getting it Right

With counting continuing in numerous counties throughout Georgia, Secretary of State Brad Raffensperger said that as of 8:40 p.m. today there are approximately 16,105 ballots still outstanding.

"Officials in numerous counties are continuing to count ballots, with strong security protocols in place to protect the integrity of our election," said Raffensperger. "We have long anticipated – and said publicly – that counting would most likely take place into Wednesday night and perhaps Thursday morning. We're on pace to accomplish that responsibly, ensuring that the voice of every eligible voter is heard. It's important to act quickly, but it's more important to get it right."

Raffensperger noted numerous security measures in place to secure the vote and increase public confidence in the electoral process:

Subject: Georgia Being Stolen In Front of Your Eyes

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Mr Raffensbeger,

Georgia is being stolen by the Democrats in front of your eyes.

This is the timeline of today's wsb live feed. Note all the falsehoods and inconsistencies about the number of votes counted and left to be counted:

8:10 a.m.
Georgia Secretary of State Brad Raffensperger joined Good Morning America on Channel 2 to update the voting process.
¡°By midday, we should pretty much be through it. By the end of the day, wei¯ll definitely have it done," *he said. ¡°Fulton is a little behind I should mention.¡±*

Lie.

10:53 a.m.
Fulton County says it has around 67,000 absentee ballots left to be processed. ***Election director says they hope to be done by around 7 p.m. tonight.***

Lie.

11:30 a.m.
Georgia Secretary of State Raffensperger held a news conference to update. ***The secretary says there are at least 200,000 outstanding absentee ballots and another 43,000 early votes.***
¡°I want everyone to know by the sound of my voice that every legal vote in Georgia will count. We have about 200,000 ballots left to be counted. With the absentee ballot process, and there are also about 40,000 to 50,000 early votes that need to be counted.

Remember that 200,000 number.

11:48 a.m.
An update from the Secretary of Statei¯s Office: All early votes in Fulton have been counted. During an earlier news conference, the secretary of state said Fulton had 43,000 early votes left.

AMERICAN OVERSIGHT Justin Gray

@JustinGrayWSB
¡¤
10h
update from a State election official: as of 3pm, still around 200,000 votes in GA to be counted. ***Why has that not changed since noon? Thousands WERE counted...but counties are still just opening MORE ballots that were the last to arrive by 7pm tuesday in drop boxes/mail.***

Gee, I wonder which heavily Democratic counties in the Atlanta area all those "MORE" votes were coming from.

2:17 p.m.
The Fulton elections director now says results won¡¯t be available until between ***9 p.m. and midnight.***

Lie.

3:20 p.m.
Channel 2¡Çs Justin Gray *has learned that there are* ***still around 200,000 Georgia ballots left to count, according to state elections officials.***

Wait a minute. At 11:30 am, you said there were 200,000 votes to be counted. That was 4 hours before. What were you doing those 4 hours?

4:03 p.m.
Cobb County says it will have their ballots counted ***by the end of the day:***

Lie.

5:18 p.m.
The Secretary of State says there are about 185,000 unaccounted ballots in Georgia

You started the day with 243,000 votes. Now, at 5:18, you haven't even counted half of them. Since 4:03, you only counted 15,000 votes in 2 hours? What were you doing all that time?

8:24 p.m.
Secretary of State Brad Raffensperger says that as of 8:00 p.m., there are approximately 122,535 ballots still outstanding.

You only counted 60,000 votes in three hours? What were you doing? You're only averaging 20,000 votes per hour. This for a state of almost 4 million people. At this rate, you will be counting votes past Christmas.

8:57 p.m.
Secretary of State Brad Raffensperger says that as of just before 9:00 p.m., there are approximately 107,000 ballots still outstanding.
3 counties with most still outstanding:
- *FULTON: 37,000*

Wait a minute. At 11:48 am, you said Fulton only had 43,000 votes left. Now, 10 hours later, they still have 37,000 votes left. In 10 hours, Fulton counted only 6,000 votes. That is impossible to believe.

Mr Raffensperger, you have a huge staff. You have computers. You have scanners. You have the internet. Yet your office counted votes far more slowly than they did back in the 1950's. I find this impossible to believe.

And while you were counting votes at a snail's pace, Trump's lead went from >2 to <1. This was not an

AMERICAN OVERSIGHT

accident.

9:39 p.m.
Elections officials said Georgia will finish counting votes some time overnight, likely by 3 a.m.

I seriously doubt you will make that deadline any more than you did all the other deadlines you announced. But even if you do keep your word this time, I suspect you made slowed the process so dramatically that you made it possible for the Atlanta area Democrat counties to manufacture thousands of fake votes, and steal the election in Georgia.

Thank you for permanently removing all the confidence this voter had in the integrity of Georgia's electoral process. Now I know my state is an electoral banana republic.

Brad

While I hate that our time was tight this morning, it was impactful to have you participate on our Executive Committee Call this morning. Our business leaders value certainty and your leadership has been steadfast in support of state laws and our constitution. I also believe the message on continual improvement resonates when considering the work you've done up to this point to ensure fair and secure elections. We are proud of the partnership with your office and look forward to working together in the years ahead.

As always, we believe our business climate is strong due in part to the actions of our elected officials. Please let me know how we can further support you.

Stay well.

Katie

Subject:

ANY QUESTION ABOUT Absentee Ballots:

1. I'd like to get straight to the point. My team secured and strengthened absentee ballots for the first time since 2005. As Secretary of State the first thing I did was push legislation that banned—OUTLAWED—absentee ballot harvesting in Georgia. That was me—my team.

2. Next, for the first time in the history of Georgia, Absentee ballots submitted through our electronic portal required photo ID. My team—we made that happen.

3. Lastly, let's address this disinformation about signature match. We strengthened signature match. We helped train election officials on GBI signature match—which is confirmed twice before a ballot is ever cast. Failed candidate Stacey Abrams loving Doug Collins is a liar. Period.

ANY QUESTION about Lin Wood:

1. Silly. Unwarranted under existing law. (changed after a few thoughts)
2. Our office has received multiple requests to match ballots back to voters—exposing how a Georgia voter has voted. We stand ready to prevent any and all attempts from any party to intimidate voters. Georgian have a right to vote in secret without intimidation of any political candidate or party.

3. Yeah, we have a lot of mutual friends. Someone really needs to dig into his background—really interesting reputation around town.

Any question about State Farm:

"That has already been debunked by multiple outlets." Full stop.

Jordan,
Please see the draft for two emails today. Ryan previously approved the SEB explanation for email #2, and it will be helpful for members who don't understand the process for investigations.

Email 1 Subject: 12.08.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see this week's election updates from the Secretary of State, and additional information that may be helpful to you in addressing constituent inquiries.

November 3, 2020, Election Results:
Secretary of State Brad Raffensperger recertified the results of the November 3, 2020, presidential election.

- The recertification came following an audit-triggered hand recount and a formal recount requested by the Trump campaign. Both recounts upheld the original outcome of the race. The certified results of state and federal races can be found on the Secretary of State's website: https://results.enr.clarityelections.com/GA/105369/web.264614/#/summary
- Please see the press release here: https://sos.ga.gov/index.php/elections/secretary_of_state_certifies_election_kraken_case_dismissed
- The "Kraken" case brought by Sidney Powell and Lin Wood was dismissed by a federal judge. https://www.cnbc.com/2020/12/07/judge-dismisses-sidney-powell-lawsuit-challenging-trump-georgia-loss.html

Voting System Audit:
Please see the audit report attached (as a PDF) to this email on the machines conducted by Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory. The audit was conducted after the November 3rd election.

- The audit found the machines tested were working accurately.
- This post-election audit was conducted on Dominion Voting Systems throughout the state using forensic

AMERICAN OVERSIGHT

- techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Please view the public release here:
    - https://sos.ga.gov/index.php/elections/secretary_raffensperger_announces_completion_of_voting_machine_audit_using_forensic_techniques_no_sign_of_foul_play

Email 2 Subject: 12.08.2020 - Secretary of State Election Information - SEB

Dear Members of the General Assembly,

Please see information from the Secretary of State on the role of the State Election Board that may be helpful to you in addressing constituent inquiries.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
- State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board
- Rules and Rulemaking of the State Election Board: https://sos.ga.gov/index.php/elections/state_election_board
- RULE 183-1-14-0.8-.14 Secure Absentee Ballot Drop Boxes: https://sos.ga.gov/admin/uploads/Rule%20183-1-14-0.8-.14%20Secure%20Absentee%20Ballot%20Drop%20Boxes.pdf
- SEB Rule 183-1-14-0.9-.15 Processing Absentee Ballots Prior to Election Day: https://sos.ga.gov/admin/uploads/Rule%20183-1-14-0.9-.15%20Processing%20Absentee%20Ballots%20Prior%20to%20Election%20Day.pdf

Georgia State Senator Steve Gooch, I agree with you and are heartened by your dedication. I will definitely support you in the future, as will many of the 74 million other Trump supporters and those who want fair elections. Probably, also, some of the Democrat folks who believe that the Dems have stolen the election (up to 20 to 30% believe). We all want fair and legal elections.

Dear Secretary Raffensperger, members of the Georgia State Election Board, and members of the Richmond Board of Elections,

The purpose of writing to you is twofold. First, we have filed a federal suit for acts undertaken in your official capacities. To that end, you will find attached a courtesy copy of the suit that we filed today along with our emergency request for a TRO in the U.S. District Court for the Southern District of Georgia . I expect that a permanent case number will be assigned tomorrow.

Second, we would appreciate it if you would kindly waive service. If so, please let me know and I will send the requisite form for that purpose. Otherwise, the suit will be processed and sent out for private service.

If you have any questions or concerns, do not hesitate to contact me.

Sincerely,

Chris Kachouroff

Frances—let's add this to the investigation on out of state voters, and probably open up new ones for the alleged double voters (voting in more than one state).

Subject: Data files on potential 2020 vote fraud

** Do not click any links or open any attachments unless you trust the sender and know the content is safe. **

Sam, attached is a file with data that appear to show multiple categories of potential 2020 vote fraud.
Files include data on:
Names etc on individuals who voted in November 3 election in Ga and:
1) had filed with post office national change of address form moving from Ga
2) voted in another state
3) former Ga registered voters who subsequently registered to vote in another state

AMERICAN OVERSIGHT

With this :
1) If any of these were accurate and the individual was not legally able to cast a vote in this Ga election, who or what department at SOS office are the correct ones to get this information investigated?

2) Since I know the SOS office is appropriately very diligently researching potential vote fraud, can this be reviewed in the next 24 hrs, with feedback to Chm Blackmon and me?

Thanks for the prompt review and feedback!
Mark
Representative, Ga House District 123

Ryan,

Thanks for providing those answers. The version you edited didn't have the more detailed questions added by Gabe. **While this is on hold pending approval**, I am including the final draft I have for review in the text below and attached with everyone's combined edits.

November 11, 2020

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Every legal vote must be counted, and any credible instances of illegal voting must be promptly and thoroughly investigated. I understand many of you are getting calls and emails about elections. Please know that you have an open line of communication with me and my team. We are here to serve, and we will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system. This letter contains answers to frequently asked questions. If you or your office would like additional information, please do not hesitate to ask.

AMERICAN OVERSIGHT

What oversight power does the Secretary of State's office have to ensure county elections offices comply with election laws?

In Georgia, counties run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections. The Secretary of State's Office Investigations Division has POST-certified law enforcement officers that investigate any allegations of non-compliance with election law and regulations. Those investigations are then brought to the State Election Board, which decides the appropriate action.

How can we stop and prevent voter fraud?

My office investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

When can we expect official election results?

98 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th. After the state certifies the election results, the losing candidate may request a recount if the losing candidate is within 0.5% margin between the winning candidate.

Can ballots be accepted after the close of polls?

Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day in order to be counted. **Post marked dates are only applicable to military and overseas ballots in compliance with federal election law**. These military and overseas ballots must be postmarked by Election Day and received by Friday, November 6th, in order to be counted.

Did Fulton County count ballots without observation?

The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party appointed poll watchers may have left. **Since both the observer and investigator remained with Fulton County workers, scanning was observed by the Secretary of State's Office at all times.** Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go. This particular issue remains under investigation.

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?

Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors. Counties must provide a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. **It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter list.**

What was the breakdown of absentee and Election Day voting?

Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Why do we have absentee voting?

The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since 2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

Since I voted early in person, why does My Voter Page show me voting absentee?

Any time a voter votes before Election Day it is considered "absentee" voting**.** "Early voting" and "advanced voting" is absentee in-person voting.

Will there be a risk limiting audit?

Yes. On November 11, 2020, my office announced that the Presidential race will be audited. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the

AMERICAN OVERSIGHT

state to verify the election outcome of a statewide election to a 90-95% degree of confidence.

What is the difference between an audit and a recount?
An audit is done prior to state certification of the election and is required by law since the enactment of HB 316. A recount must be requested after state certification, and is a recount of each and every ballot.

How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.

Could counties scan absentee ballots before November 3rd?
Georgia counties had two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, my office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. The majority of Georgia counites had scanned the absentee ballots they received prior to Election Day, and were only scanning ballots received on Election Day after the close of polls.

When is the voter registration deadline for the January 5th runoff?
The last day to register to vote in the January 5, 2021, runoff is December 7, 2020. Only citizens who are legal, permanent residents of the county may register or vote. Learn more about the requirements for voter registration here: https://sos.ga.gov/index.php/Elections/register_to_vote

Again, if I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

Sincerely,

Brad Raffensperger

Gabe,
I added your answers and made minor edits. As I mentioned, this is a long letter. I would recommend that we have Tori send this as an email with the text in the email when it is approved.

Ryan,
Please review these answers carefully and send for approval. I believe this is more effective if we can get it out sooner than later.

November 10, 2020

Dear Representative:

As you know, election security is my top priority as the duly elected Secretary of State of Georgia. Please know that I will continue to fight against unsubstantiated claims and fake news seeking to cast doubt on the integrity of our elections system. **Please see the answers to frequently asked questions below and know that I value and appreciate your support as we work together to ensure every legal vote is counted, and credible instances of fraud are promptly and thoroughly investigated.**

What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?

Ryan

AMERICAN OVERSIGHT

Did Fulton County tell media and observers to go home and keep counting?
Late in the evening of election night, Tuesday, November 3,2020, a few Fulton County election workers completed their duties and left. These are workers who opened, sorted and stacked absentee ballots. As they left some allegedly stated that they were, "done counting for the night." At the same time those who were scanning ballots continued their work. Some party observers have stated they were told they needed to go. **This particular issue remains under investigation.** Regardless, the Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers as they continued to scan ballots through the night. Since both the observer and investigator remained with Fulton County Workers, scanning was observed by the Secretary of State's office at all times.

How can we stop and prevent voter fraud?
Citizens may use the online reporting form or call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

What was the breakdown of absentee and Election Day voting?
Nearly 5 million Georgians voted in the November 3rd General Election. Roughly 75% of Georgia voters utilized in-person voting, while roughly 25% utilized the option to vote no-excuse absentee by mail.

Since I voted early in person, why does My Voter Page show me voting absentee?
Any time a voter votes before Election Day it is considered "absentee" voting. "Early voting" and "advanced voting" is absentee in-person voting.

How do we know counties stopped collecting new ballots that did not meet the legal deadline in this state?
County election officials take an oath to uphold the laws of this state and country, and **it is a felony to commit voter fraud. Per Georgia law, ballots must be received by the county elections office by the close of polls on Election Day.** Ballots received after the close of polls must be kept separate. (The post mark date is only applicable to military and overseas ballots in compliance with federal election law.)

What is a military ballot?
What is often referred to as a "military ballot" is a UOCAVA ballot for military and overseas voters. The federal *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)* requires states and counties to accept the ballots of overseas citizens and members of the military and their spouses three days after the election as long as these UOCAVA ballots are postmarked by Election Day. 18,407 UOCAVA ballots were accepted and 7,786 ballots were not returned to county election offices by the legal deadline. Counties are required to mail UOCAVA ballots at least 45 days before a federal election.

Can the number of outstanding ballots increase after the election?
Since Georgia counties receive absentee ballots up to the close of polls on Election Day in compliance with state and federal law, they may not know the total number of ballots that have been received until after the close of polls when those ballots are reviewed for a signature match, opened, scanned, and recorded. 1,303,749 absentee ballots were requested, and 126,400 absentee ballots were requested and not cast.

Why do we have absentee voting?
The State of Georgia has allowed to option to vote absentee by mail and absentee in-person without an excuse since 2005. This law was signed by Republican Governor Sonny Perdue and voted for by a Republican legislature.

When can we expect official election results?
91 Georgia counties have already certified their elections results. Counties must certify their results by November 13th, and Georgia must audit and certify these results by November 20th.

Why did we have to wait for election results?
The federal *Voting Rights Act of 1993* requires our state to allow three additional days for provisional ballots to be cured and for military and overseas ballots post-marked by Election Day to be received. Georgia counties had over two weeks before the election to scan absentee ballots. While most states did not begin scanning absentee ballots until Election Day, the Secretary of State's Office promoted SEB Rule 183-1-14-0.9-.15, which allowed counties the option to start scanning absentee ballots at 8:00 A.M. on the third Monday prior to Election Day. Not all of the counties utilized this option, and some counties had a backlog of absentee ballots to scan on top of the new ballots that were received until the close of polls on Election Day.

AMERICAN OVERSIGHT

When will the recount occur?
The recount will occur after the state certifies election results.

What is the difference between an audit and a recount?
An audit is done prior to state certification of the election and is required by law. In this case the state has decided to do a risk limiting audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence. A recount is a recount of each and every ballot.

Will there be a risk limiting audit?
Yes, there will be a risk liming audit as required by the passage of HB 316. The November General Election statewide contest to be audited by all 159 counties will be announced on Wednesday, November 11, 2020 at 1:00 p.m. EST. This meeting will be held at 214 State Capitol, Atlanta, Georgia 30334, and it will be accessible via the following link: https://zoom.us/webinar/register/WN_VbWHeGFXSViTL0M-4zIMOw. Immediately following the announcement, the Secretary of State will oversee the random selection of the ballots to be audited. Counties will be notified of the ballots they must audit following their selection.

Are recounts automatic?
Recounts are not automatic in Georgia. After the state certifies the election results, the losing candidate *may request* a recount if the losing candidate is within a 0.5% margin between the winning candidate.

What mechanisms are in place to prevent felon voting?
Ryan?

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?
Per O.C.G.A. § 21-2-231, counties are responsible for removing deceased persons from their list of eligible electors and providing a monthly report to the Secretary of State's Office with a complete list of all persons, including addresses, ages, and other identifying information, who died during the preceding calendar month in the county. Counties may learn of deaths through obituaries published by local newspapers, death certificates, verifiable knowledge of the death, and information provided in writing and signed by a family member or members of the deceased person. It is recommended that families of deceased persons notify the county elections office where the deceased was registered to vote to remove them from the voter roll.

What mechanisms are in place to prevent double-voting?
When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.
How do we know that the software issue in Michigan did not occur in Georgia?
As we understand it, the issue in Michigan was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner when the correct process would have been to update all the scanners. In so doing, the database only recognized the data from the one scanner and none of the others.
Is there any validity to the red-flagged voter registration issue in Fulton County?
No. The data used by the media does not directly reference those who cast votes in the November 2020 election. Georgia uses the National Change of Address (NCOA) information in odd numbered years, as allowed under federal law for voter list maintenance, to send voters a verification card. If they do not return it, they are moved from active voter status to inactive status.

Again, thank you for your support in protecting Georgia's reputation as a leader in elections administration. If I may provide any additional information, please do not hesitate to contact me or my team. We are here to serve.

Sincerely,

Brad Raffensperger

>
> **What oversight authority does the Secretary of State's office have to ensure county elections offices comply with state and federal election laws?**

RYAN QUestion

> **What is the difference between an audit and a recount?**

An audit is done prior to state certification of the election and is required under our election law. In this case the state has chosen to do a Risk Limiting Audit. This will be a scientific, mathematically based examination of ballots across the state to verify the election outcome of a statewide election to a 90-95% degree of confidence.

A recount is just what it sounds like. A recounting of each and every ballot.

> **What mechanisms are in place to prevent felon voting?**

RYAN

> **What mechanisms are in place to prevent double-voting?**

The main thing is to give "credit for voting" in real time. This is especially true in early voting and absentee voting. As long as county election workers have given the credit for voting in the voter registration system that would prevent a voter from voting absentee or early and then vote again early or on election day.

> **How do we know that the software issue in Michigan did not occur in Georgia?**

AMERICAN OVERSIGHT

Because there was no software issue in Michigan. It was an error of a county clerk who failed to follow the processes and procedures correctly after she added a school board race she had left off the ballot in one of her seventeen precincts. The scanners/tabulators all recorded the votes properly. The issue occurred when she tried to put the results into her Election Management System (EMS). She had only updated the information on the one scanner she added the race to. She needed to do it for all 17. In so doing, the database only recognized the data from the one scanner and none of the others. It is like if one has formulas in a spreadsheet and they randomly add a column...the formulas aren't finding what they are supposed to. So again, this issue had zero to do with software and everything to do with human error in a process.

Is there any validity to the red-flagged voter registration issue in Fulton County?

No. This data has no direct reference to people who cast votes in the November 2020 election. The state uses the National Change of Address (NCOA) information in odd numbered years, as allowed under Federal Law, for voter list maintenance to send voters a verification card. If they do not return it, they are moved to inactive status.

Did Fulton County tell media and observers to go home and keep counting?

Late in the evening of election night, Tuesday, November 3, a portion of Fulton election workers completed their duties and were sent home. These are the workers who opened, sorted and stacked absentee ballots. As they left some said they were "done counting for the night". At the same time those who were scanning ballots continued their work. Party observers state they were told they needed to go. This particular issue remains under investigation. Regardless, the Secretary of State's office had both a State Monitor (which had been placed to keep an eye on Fulton) and a state POST Certified Investigator remained with the Fulton workers as they continued to scan ballots through the night. So the Fulton scanning was observed by my office at all times.

Thanks!

Hayley

Chris,

See below re. what a witness said about Coffee County today. I guess he's a board member. What he is saying about us not helping when asked is completely false. Frances—it may be good to try to talk to this guy while y'all are down there tomorrow.

- **Eric Chaney: Coffee County Georgia**
  -Election supervisor "could not truly under oath certify this election" due to the dilemma of the electronic recount was collecting more votes cast in the presidential race then the total number of votes reflected in the summary
  -The inconsistent vote could not be reconciled
  -SOS stated that if there was a 5-vote difference still use Nov 3 results, so we certified those results on Nov 9; 5 votes are ridiculous because EVERY VOTE COUNTS
  -We certified very uncomfortably.
  - "Internal inconstancy in stark contract to all other prior elections"
  -50 vote difference in the secondhand count that we could not reconcile
  -Coffee County submitted a letter to the SOS stating that identifying the concerns and issues with Dominion – heard nothing
  -Begged Chris Harvey to come to the elections office and listen to our concerns- we have been denied, SOS office has denied all helped
  -Asked SOS for help, absolutely have heard nothing from the office.

Lori,

Per our discussion, below is an email which I received today from one of the Walton County recount officials, a CPA who alleges data manipulation in our voter results.

I wanted to get this information to your office and I am copying my contacts at the Secretary of State's office for

AMERICAN OVERSIGHT

review and infestation.

I look forward to meeting with you in the morning at 9:00am to better understand what happened with the missing disk in the Between, Georgia precinct. Thank you and our entire team at the Walton County Board of Elections for your efforts to have safe and secure elections for our county!

Many thanks!

Resent-From: <bruce.williamson@house.ga.gov>

Senator Jones and Representative Williamson,

I was honored to recount votes in Walton County. I have no criticisms of the process and people involved there. I am a CPA and have experience with numbers and systems. After the count was completed, I requested and was given an electronic copy of the General Election and Recount results. I analyzed these results yesterday and found evidence of systems manipulation.

I've attached the e-mail I sent to Mayor Martinez of Loganville with my spreadsheets and copies of the questionable totals. Martinez was one of the official observers. I also sent this information to Rep. Jody Hice whose staffer suggested I send it to you as well.

Please get to the bottom of this election fraud. I support a recall of both the Secretary of State and the Governor. This should never have happened.

Subject: FW: Details from Walton Co Recount we discussed

Rey,

Thanks for returning my call yesterday. I am very excited to be a part of this important process to protect our Republic from those who would steal our freedoms.

In the attached Details for Martinez Excel file is a tab which shows the details from the missing batch from Between. I was told that omission has been corrected. They said that the software did not notify them that a batch was missing although it should have so they did not know to look for it until the recount and the questions raised by different totals.

I also created a tab for each of the 5 precincts details I summarized whose numbers did not add correctly and PDFs of those Election Summary Reports. In each of those incidences, the three candidates detail did not total to the calculated total (first number on my detail sheet). The only way I know of for this to happen is if there are invisible fractions of votes in the candidates numbers which make the final number larger than it should be. The 1 or 2 vote total difference in insignificant; the evidence of algorithmic manipulation is the critical issue.

Also, Ive attached a scanned copy of the Election Summary Report cover page 12/12/2020. I do not have a digital copy of that report. I circled the incorrect totals for Advanced Voting (off by 1) and Absentee by Mail (off by 7). How can this happen except through improper manipulation?

Again, I found no fault with any of the people involved in the Walton County recount.

Please let me know if I can be of any further service.

Frances,
I know these have been exceptionally busy times, and I appreciate the dedication to ensuring Georgia's election includes every legal vote and no illegal votes!
Chm Blackmon and I have been forwarding information on potential fraudulent registrations and/or votes.
Legislative liaison Sam Teasley reports he has forwarded to you and your investigation team several files on:
• Double Voters
• Out of State via NCOA
• Out of State via Subsequent Registration

I have added a file below on reported voter registrations using Georgia postal facilities with PO box numbers possibly disguised as apartment or unit numbers.

Two questions:
1) As we plan for a House Government Affairs Committee meeting next Thursday 12/10, we wanted to be certain you have received the files mentioned. Have you received these?
and
2) Have you or your team been able to begin evaluating these lists of voter names/DOB/registration dates/etc in terms of investigating whether votes may have been cast by individuals not eligible to vote in Georgia (which would be voter fraud)?

Thanks for a prompt response this evening or Saturday, as we can re-send info or clarify questions if needed, Mark Newton Ga House District 123 Chairman, Special Committee on Access to Quality Healthcare Majority Chief Deputy Whip

Jasmine- can you send the meeting notice and agenda to Kevin Fitts? Merritt says he can get it posted on SEB website since we can't get a hold of Eric.

Kevin- please get them posted ASAP here:

Subject: absentee ballots sent from one county to another

Chris,

Apparently Clarke County (and likely others) are sending absentee ballots they received for other counties in their drop boxes to the correct county. It's fine for them to send them, but those ballots should not be counted if they did not arrive at the correct registrar's office by 7 p.m. on Election Night. The receiving county should treat them as a late arriving ballot. Apparently there was some confusion about this at Columbia County. Can we send something out reminding counties of this?

Thanks,
Ryan

Subject: Speech

In a winner-take-all system, close margins of votes lead to fights that are as fierce after Election Day as the campaigns before. The passions we feel reflect voters' commitment to the ideals and principles they believe in. We all want our side to win because our side provides the best leadership for our nation and state. I know. I'm a passionate conservative, and as I've said before, I'm a proud Trump supporter. I was with him early in the 2016 election cycle, and he's governed the national by the same conservative principles that I hold dear. Like other Republicans, I'm disappointed our candidate didn't win Georgia's electoral votes.

Close elections sow distrust. People feel their side was cheated. We saw this from the Democrats in 2018. We see this from Republicans today.

Working as an engineer throughout my life, I live by the motto that numbers don't lie. As secretary of state, I believe that the numbers that we have presented today are correct. The numbers reflect the verdict of the people, not a decision by the secretary of state's office or of courts or of either campaign.

I want to do everything I can to build voters' trust in our electoral system. To that end, I want to work with the governor and legislators on legislation that improves on our current system.

First, I'd like to see legislation that allows for the state to intervene in counties that have systemic, ongoing problems in administering elections. Elections in our state are run by counties. Some do it great. Some don't. We need to have a remedy that allows the state to address problem areas and to get those counties moving in the right direction. The audit revealed that in some counties, not all of the votes had been counted. That doesn't mean those counties have systemic problems, but it does raise a concern. We must implement a reconciliation process that prevents such errors from happening in the future.

Second, we need some reforms to our absentee ballot laws. The state and counties performed admirably in rapidly transitioning our election system from one where a small percentage of the electorate voted by mail to one where a vast percentage voted by mail. Other states that have moved to vote-by-mail systems did that over a period of years. We did it in months. But such a large number of mail ballots has raised concerns about election integrity. I will work with legislators to find a solution that allows us to use the same security measures for votes by mail as we have for in-person voting. That would include a photo ID requirement. We know this works. We know this stops fraud. We know that claims that it would suppress votes have been proven wrong with empirical evidence. This move would have the added benefit of removing the controversial signature verification system that we use now. Democrats have long complained about it. Now Republicans are raising concerns too. We can move from a subjective [illegible]

AMERICAN OVERSIGHT

objective system and I think that should get done next year.

Third, because federal laws don't allow up to update our voter rolls as often as we need to, we need to have stricter controls that allow for challenges to voters who are suspected of not living where they are registered to vote. A simply tightening of the law would give teeth to these challenges and prevent people from voting illegally.

These measures will improve the security of our elections and that should lead to greater public trust. Our first goal is carrying out elections successfully and getting the results right. Our second goal is upholding people's faith in our democracy by demonstrating the integrity of our processes.

If we need a copy of one for an investigation, we're going to have to get it quicker than that. Maybe they should be making daily backups onto hard drives so they have them when they are asked (and they probably will be asked for them). We haven't had issues getting them quickly from Dekalb and Fulton, not sure how they are storing theirs.

Subject: RE: Open Records Request

From External Sender

The recordings are stored on 16 separate NVR□ (Network Video Recorders) located at facilities all across the county. We have to copy the video off of each one of these NVR□ across our network onto an external hard drive. If we are pulling a day of coverage, it is going to take hours and hours to copy onto the external drive. Your request was for video for 5 days at each of the 16 drop box locations. This is an enormous amount of video footage that our analyst is having to manually export and ensure the file copies complete. The time period of three weeks is due to the fact that this is an enormous amount of data and this is not their only job. We do not have an individual on staff whose only job is to export video. He has a lot of other tasks on his plate and although this will be a number one priority for him there are other things he has to work on. We could potentially get finished sooner, but should definitely be done within this time period.

Please let me know if you have any additional questions and if you would like to move forward.

Thanks,
Kimberly

Brad is making some changes:

Integrity Matters in Times of Uncertainty
By Georgia Secretary of State Brad Raffensperger
The past few weeks have been difficult for the voters of the Peach State.
As the nation and the world watched, Georgia took center stage in a battle that will define our country in a very practical sense for the next four years. But also, in a larger sense, how this country will move forward into the future.
Like Americans in every other state, Georgians went to the ballot box on and in the weeks leading up to November 3; to cast their vote for president, for senator, for mayor, or maybe just the local town council.
A record 1.3 million voters cast ballots absentee by mail here. Another 2.7 million cast ballots in-person during Georgia's gold-standard three weeks of early voting. Slightly more than 1 million waited on lines averaging a miniscule 3 minutes on Election Day.
By all accounts, Georgia had a wildly successful and smooth election. We finally defeated voting lines and put behind us Fulton County's now Notorious reputation for disastrous elections. This should be something for Georgians to celebrate, whether their favored presidential candidate won or lost. For those wondering, mine lost—my family voted for him, donated him and are now being thrown under the bus by him.

But in the days since, a different kind of pressure has come to bear on myself and the thousands of hard-working elections officials who span Georgia's second in the nation 159 counties.

Elections are the bedrock of our democracy. They need to be run fairly and, perhaps more important, impartially. That's not partisan. That's just American. Yet some don't seem to see it that way.
When I took office, I committed to running elections in Georgia with integrity. After any election, half of the voters will be happy and the other half will be disappointed. But I wanted to make sure everyone felt confident in the process and confident in the outcome.

And as November 3rd came to a close, Georgia's voters had every reason to be. Again, short lines on Election Day. Record turnout. Record early voting and record absentee by mail voting.

In the days that followed, a losing presidential campaign refused to accept the facts, following a playbook written by a failed gubernatorial candidate two years before. A failed senate candidate with nothing to do tried undermine the integrity of Georgia's elections. A self-described attorney for the

AMERICAN OVERSIGHT

damned took up the cause. An onslaught of fake news and unrepentant disinformation threatened t tear the fabric of our country apart. People on both sides of the aisle generated controversies out of nowhere to stir up trouble.
Even as Georgia embarked on its first statewide audit, a process that was only possible because of the state s new printed paper-ballot system, those who requested the full hand recount triggered by the audit of such a close race lined up to undermine its credibility. Those who had so long been beneficiaries of the electoral process sought to tear it apart at its very foundations.
But still, integrity matters.
When the nation is caught in turmoil, as it has been through several presidential terms, the people of Georgia and their fellow Americans will look to leaders with integrity for guidance.
Throughout my two years as Secretary of State, I have fought repeatedly to uphold the integrity of elections in Georgia. We worked with the Georgia Bureau of Investigation to strengthen signature matching for absentee ballot voters. We outlawed ballot harvesting and implemented a new voting system with printed paper-ballot that voters could hold and review before casting for the first time in nearly twenty years. We fought frivolous lawsuits from fringe groups and a failed gubernatorial candidate seeking to undermine laws passed by state legislators who were actually elected by the voters.
In times of uncertainty, when the integrity of our political system is most at risk, the integrity of our politicians is paramount.
Many of my fellow Republicans are men and women of integrity. They demonstrate it each and every day: fighting for their constituents, fighting for liberty, and fighting for fair and reliable elections.
In times like these, we need leaders of integrity to guide us through.

Beating Election Disinformation from Washington Requires Integrity

By Brad Raffensperger

Georgia's elections have received a lot of unfair and unwarranted criticism over the past two years, much of it spurred by disinformation. The successful November election and the smooth hand recount have proven our critics wrong.

Since I took office, we have made great strides in improving elections security, reliability, and efficiency in Georgia. We effectively eliminated voting lines on Election Day as voters waited on average only three minutes statewide. In the 10 months since covid-19 upended elections, we built the infrastructure to accommodate record levels of absentee voting by mail and record early in-person voting.

In Georgia, our voting system has never been more secure or trustworthy. A newly implemented statewide voting system gave Georgia voters printed paper-ballots for the first time in nearly 20 years. Voters can review those paper records and verify their choices are correct before casting their ballot. Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country help ensure that Georgia's election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure that each voter gets one vote — and only one vote. Voters who request an absentee ballot through the state's new online portal for absentee ballot requests provide a driver's license number for verification. Voter rolls are

AMERICAN OVERSIGHT

maintained to ensure that only living and qualified voters remain on the registration lists.

Georgia just finished its first statewide Risk Limiting Audit, a cutting-edge process developed for verifying the accuracy of election results that is considered to be the gold standard in election integrity. The closeness of the presidential race in Georgia required that all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt.

Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation. Since we selected the new voting system in 2019, partisan activists and their allies in Washington took steps to undermine the integrity of our new election system at every turn. While the recent unfounded attacks on Georgia's election system may seem new, partisans on the opposite side of the aisle wrote the playbook almost word for word over the past year. Disinformation about the reliability and security of Georgia's voting machines had been percolating since long before we even selected a voting system.

When I was first elected Georgia's secretary of state, I committed to overseeing Georgia's election with integrity. I knew that after any election, somewhere around half of the voters would be happy, and the other half would be sad. But I wanted all voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in our state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes -- and is praised for it by media pundits to this day, even as they attack a presidential candidate for running the same playbook.

The truth is that the people of Georgia—and across the country—should not have any remaining doubts about who was elected governor two years ago, or who won the presidential election earlier this month. The presidential outcome was remarkably close but the new paper-ballot system, the strong election security and integrity mechanisms in place, and the Risk Limiting Audit and hand recount, should combine to put to rest any doubts about the final outcome.

My office and my colleagues at the county and local level worked with integrity to ensure that Georgia's voters had a secure, reliable and efficient election this month.

As we move toward two closely-watched, high stakes Senate runoff elections on January 5th, I am confident that we will again be able to deliver the secure election and reliable results that the people of Georgia deserve.

Subject: RE: Op-ed?

Hi Jordan,

Thank you again, very much, for following through with the secretary's op-ed. I'm pasting below an edited draft with some questions and suggestions marked in brackets and bold. I fiddled with the top a bit, thinking about where the overall op-ed seemed to be going and the implicit messages throughout the text. None of the edits are intended to change his meaning in any way. And I'm not trying to put words in his mouth. He has, however, in interviews and some televised statements, gone further than this piece goes in describing some of the attacks on the process in Georgia. I totally understand if he doesn't want to name names or criticize fellow Republicans. I wondered, though, if it might be possible to be a little more specific in a couple of places.

AMERICAN OVERSIGHT

Can you let me know, please, what you think of this?

Thank you!

Autumn

Georgia's elections have received a lot of attention to over the past two years, much of it unfair and unwarranted. Now that the hand count of presidential ballots has concluded, the time has come to set the record straight.

The reality is that we have dramatically improved the administration, conduct and reliability of our state's voting processes. After years of disastrous elections in Fulton County, we effectively eliminated voting lines. This Election Day, voters waited on average only three minutes statewide. In the 10 months since covid-19 upended elections, we built the infrastructure to accommodate record levels of absentee voting by mail and record early in-person voting.

In Georgia, our voting system has never been more secure or trustworthy. A newly implemented statewide voting system gave Georgia voters printed paper-ballots for the first time in nearly 20 years. They could review those paper records and verify before casting their vote. Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country help ensure that Georgia's election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure that each voter gets one vote — and only one vote. Voters who request an absentee ballot through the state's new online portal for absentee ballot requests provide a driver's license number for verification. Voter rolls are maintained to ensure that only living and qualified voters remain on the registration lists and — more importantly — that it arrives at the correct address, not an old one.

Georgia just finished its first risk limiting audit **[[WHAT DOES RISK-LIMITING AUDIT MEAN? WHY NOT JUST CALL IT AN AUDIT? Or a hand-count audit?]]** of a statewide race, a new process that is considered to be the gold standard in election integrity. The closeness of the presidential race in Georgia required that all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt.

Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation. **[[TWO CONCERNS HERE: The lack of specificity is unhelpful; what allegations is he talking about? And how can he cite politicians in Washington, D.C. when the first high-profile criticisms came from Georgia's two U.S. senators? Or when Georgia Rep. Douglas Collins, also a Republican, has questioned the secretary's handling of the vote. I understand if he doesn't want to be too specific, though he might, without naming names, mention questioning the manufacturer of the state's voting machines and the integrity of its ballot handling. Wondering if you want to say something like: Nonetheless, some politicians and pundits have tried to mislead people in Georgia and elsewhere. OR: Nonetheless, some politicians and pundits – here and outside our state – have tried to mislead voters in Georgia and nationwide by criticizing our state's voting machines, the integrity of our ballot handling and more.?..]]**

Integrity is what can make up the difference.

AMERICAN OVERSIGHT

When I was first elected Georgia's secretary of state, I committed to overseeing Georgia's election with integrity. I knew that after any election in a state as closely divided as ours, somewhere around half of the voters would be happy, and the other half would be sad. But I wanted **[[ADD: all?]]** voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in the our state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes -- and is praised for it by media pundits to this day, even as they attack a presidential candidate for running the same playbook.

But I also know that as long as politicians with integrity step up, the odds can be overcome.
We saw it firsthand in Georgia, where voters enjoyed a secure, reliable, and efficient election in earlier this month. My office and my colleagues at the county and local level worked with integrity to make that happen.
Many of my fellow Republicans too are men and women of integrity who work to strengthen America's core institutions, whether it be elections or the courts, day in and day out.

The truth is that citizens in Georgia—and across the country—should not have any remaining doubts about who was elected governor two years ago, or who won the presidential election earlier this month. The presidential outcome was remarkably close, with just xxx votes separating the two candidates. But the procedures we put in place, the mechanism of the hand recount, and the patience to wait for an authoritative result combine to put to rest any doubts about the final outcome.

My office and my colleagues at the county and local level worked with integrity to ensure that Georgia's voters had a secure, reliable and efficient election this month. Many of my fellow Republican are men and women of integrity who work to strengthen America's core institutions, whether it be elections or the courts, day in and day out.

Working together, I know that we can beat back the tide of fake news that threatens elections in Georgia. Integrity matters.

[[Wondering if it is possible to look forward with the conclusion – either something about the special election or otherwise the path ahead. Maybe something like: **Now our state faces another challenge with the runoff election next month. I am confident that we are up to the task—and that those in either party who seek to use the results to peddle predetermined and self-interested narratives are doing a disservice to themselves and, more importantly, to the voters.**]]

Beating Election Disinformation from Washington Requires Integrity
By Brad Raffensperger

Few things present as large of a challenge to election integrity as Fake news. With a click of a button, outright disinformation goes viral. A pundit spreading misinformation hits every Twitter account. A politician capitalizing on inaccuracies reaches every home.
Fake news from Washington moves like wildfire. Unfortunately, the truth moves at a much slower pace. In Georgia, we know that integrity can bridge the gap.

Georgia has faced a lot of election disinformation over the past two years despite, or perhaps because of, historic success in running elections. After years of disastrous elections in Fulton County, we defeated voting lines. On Election Day, voters waited just three minutes statewide. In just the ten months since COVID-19 upended elections, we built the infrastructure to accommodate record absentee by mail voting and record early-in person voting.

Those watching the news out of Washington, D.C., where integrity often comes in short supply, and those experiencing it firsthand in Georgia seem to live in totally different worlds.
In Georgia, our voting system has never been more secure or reliable. A newly implemented statewide voting system gave Georgia voters printed paper-ballots, which they can review and verify before casting, for the first time in nearly twenty years.Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country, help ensure Georgia÷s election system remains secure from whatever threats loom on the horizon.

AMERICAN OVERSIGHT

In Georgia, signatures for absentee ballot voters are verified twice to ensure each voter gets one vote, and only one vote.Voters who request an absentee ballot through the state÷s new online absentee ballot request portal provide a Driver÷s license number for verification. Voter rolls are maintained to ensure only living and qualified voters remain on the registration lists“but more importantly“ it gets to your correct address, not an old one.

Georgia just finished its first risk limiting audit of a statewide race, a new process put in place that is considered by some to be the gold standard in election integrity. The closeness of the presidential race in Georgia required all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt. Beating Election Disinformation from Washington Requires Integrity

By Brad Raffensperger

Georgia's elections have received a lot of unfair and unwarranted criticism over the past two years, much of it spurred by disinformation. The successful November election and the smooth hand recount have proven our critics wrong.

Since I took office, we have made great strides in improving elections security, reliability, and efficiency in Georgia. We effectively eliminated voting lines on Election Day as voters waited on average only three minutes statewide. In the 10 months since covid-19 upended elections, we built the infrastructure to accommodate record levels of absentee voting by mail and record early in-person voting.

In Georgia, our voting system has never been more secure or trustworthy. A newly implemented statewide voting system gave Georgia voters printed paper-ballots for the first time in nearly 20 years. Voters can review those paper records and verify their choices are correct before casting their ballot. Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country help ensure that Georgia's election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure that each voter gets one vote — and only one vote. Voters who request an absentee ballot through the state's new online portal for absentee ballot requests provide a driver's license number for verification. Voter rolls are maintained to ensure that only living and qualified voters remain on the registration lists.

Georgia just finished its first statewide Risk Limiting Audit, a cutting-edge process developed for verifying the accuracy of election results that is considered to be the gold standard in election integrity. The closeness of the presidential race in Georgia required that all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt.

Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation. Since we selected the new voting system in 2019, partisan activists and

AMERICAN OVERSIGHT

their allies in Washington took steps to undermine the integrity of our new election system at every turn. While the recent unfounded attacks on Georgia's election system may seem new, partisans on the opposite side of the aisle wrote the playbook almost word for word over the past year. Disinformation about the reliability and security of Georgia's voting machines had been percolating since long before we even selected a voting system.

When I was first elected Georgia's secretary of state, I committed to overseeing Georgia's election with integrity. I knew that after any election, somewhere around half of the voters would be happy, and the other half would be sad. But I wanted all voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in our state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes -- and is praised for it by media pundits to this day, even as they attack a presidential candidate for running the same playbook.

The truth is that the people of Georgia—and across the country—should not have any remaining doubts about who was elected governor two years ago, or who won the presidential election earlier this month. The presidential outcome was remarkably close but the new paper-ballot system, the strong election security and integrity mechanisms in place, and the Risk Limiting Audit and hand recount, should combine to put to rest any doubts about the final outcome.

My office and my colleagues at the county and local level worked with integrity to ensure that Georgia's voters had a secure, reliable and efficient election this month.

As we move toward two closely-watched, high stakes Senate runoff elections on January 5th, I am confident that we will again be able to deliver the secure election and reliable results that the people of Georgia deserve.

Subject: RE: Op-ed?

Hi Jordan,

Thank you again, very much, for following through with the secretary's op-ed. I'm pasting below an edited draft with some questions and suggestions marked in brackets and bold. I fiddled with the top a bit, thinking about where the overall op-ed seemed to be going and the implicit messages throughout the text. None of the edits are intended to change his meaning in any way. And I'm not trying to put words in his mouth. He has, however, in interviews and some televised statements, gone further than this piece goes in describing some of the attacks on the process in Georgia. I totally understand if he doesn't want to name names or criticize fellow Republicans. I wondered, though, if it might be possible to be a little more specific in a couple of places.

Can you let me know, please, what you think of this?

Thank you!

Autumn

Georgia's elections have received a lot of attention to over the past two years, much of it unfair and unwarranted. Now that the hand count of presidential ballots has concluded, the time has come to set the record straight.

AMERICAN OVERSIGHT

The reality is that we have dramatically improved the administration, conduct and reliability of our state's voting processes. After years of disastrous elections in Fulton County, we effectively eliminated voting lines. This Election Day, voters waited on average only three minutes statewide. In the 10 months since covid-19 upended elections, we built the infrastructure to accommodate record levels of absentee voting by mail and record early in-person voting.

In Georgia, our voting system has never been more secure or trustworthy. A newly implemented statewide voting system gave Georgia voters printed paper-ballots for the first time in nearly 20 years. They could review those paper records and verify before casting their vote. Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country help ensure that Georgia's election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure that each voter gets one vote — and only one vote. Voters who request an absentee ballot through the state's new online portal for absentee ballot requests provide a driver's license number for verification. Voter rolls are maintained to ensure that only living and qualified voters remain on the registration lists and — more importantly — that it arrives at the correct address, not an old one.

Georgia just finished its first risk limiting audit **[[WHAT DOES RISK-LIMITING AUDIT MEAN? WHY NOT JUST CALL IT AN AUDIT? Or a hand-count audit?]]** of a statewide race, a new process that is considered to be the gold standard in election integrity. The closeness of the presidential race in Georgia required that all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt.

Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation. **[[TWO CONCERNS HERE: The lack of specificity is unhelpful; what allegations is he talking about? And how can he cite politicians in Washington, D.C. when the first high-profile criticisms came from Georgia's two U.S. senators? Or when Georgia Rep. Douglas Collins, also a Republican, has questioned the secretary's handling of the vote. I understand if he doesn't want to be too specific, though he might, without naming names, mention questioning the manufacturer of the state's voting machines and the integrity of its ballot handling. Wondering if you want to say something like: Nonetheless, some politicians and pundits have tried to mislead people in Georgia and elsewhere. OR: Nonetheless, some politicians and pundits – here and outside our state – have tried to mislead voters in Georgia and nationwide by criticizing our state's voting machines, the integrity of our ballot handling and more.?..]]**

Integrity is what can make up the difference.
When I was first elected Georgia's secretary of state, I committed to overseeing Georgia's election with integrity. I knew that after any election in a state as closely divided as ours, somewhere around half of the voters would be happy, and the other half would be sad. But I wanted **[[ADD: all?]]** voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in the our state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes -- and is praised for it by media pundits to this day, even as they attack a presidential candidate for running

AMERICAN OVERSIGHT

the same playbook.

But I also know that as long as politicians with integrity step up, the odds can be overcome.
We saw it firsthand in Georgia, where voters enjoyed a secure, reliable, and efficient election in earlier this month. My office and my colleagues at the county and local level worked with integrity to make that happen.
Many of my fellow Republicans too are men and women of integrity who work to strengthen America's core institutions, whether it be elections or the courts, day in and day out.

The truth is that citizens in Georgia—and across the country—should not have any remaining doubts about who was elected governor two years ago, or who won the presidential election earlier this month. The presidential outcome was remarkably close, with just xxx votes separating the two candidates. But the procedures we put in place, the mechanism of the hand recount, and the patience to wait for an authoritative result combine to put to rest any doubts about the final outcome.

My office and my colleagues at the county and local level worked with integrity to ensure that Georgia's voters had a secure, reliable and efficient election this month. Many of my fellow Republican are men and women of integrity who work to strengthen America's core institutions, whether it be elections or the courts, day in and day out.

Working together, I know that we can beat back the tide of fake news that threatens elections in Georgia. Integrity matters.

[[Wondering if it is possible to look forward with the conclusion – either something about the special election or otherwise the path ahead. Maybe something like: **Now our state faces another challenge with the runoff election next month. I am confident that we are up to the task—and that those in either party who seek to use the results to peddle predetermined and self-interested narratives are doing a disservice to themselves and, more importantly, to the voters.**]]

Beating Election Disinformation from Washington Requires Integrity
By Brad Raffensperger

Few things present as large of a challenge to election integrity as Fake news. With a click of a button, outright disinformation goes viral. A pundit spreading misinformation hits every Twitter account. A politician capitalizing on inaccuracies reaches every home.
Fake news from Washington moves like wildfire. Unfortunately, the truth moves at a much slower pace. In Georgia, we know that integrity can bridge the gap.

Georgia has faced a lot of election disinformation over the past two years despite, or perhaps because of, historic success in running elections. After years of disastrous elections in Fulton County, we defeated voting lines. On Election Day, voters waited just three minutes statewide. In just the ten months since COVID-19 upended elections, we built the infrastructure to accommodate record absentee by mail voting and record early-in person voting.

Those watching the news out of Washington, D.C., where integrity often comes in short supply, and those experiencing it firsthand in Georgia seem to live in totally different worlds.
In Georgia, our voting system has never been more secure or reliable. A newly implemented statewide voting system gave Georgia voters printed paper-ballots, which they can review and verify before casting, for the first time in nearly twenty years.Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country, help ensure Georgia÷s election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure each voter gets one vote, and only one vote.Voters who request an absentee ballot through the state÷s new online absentee ballot request portal provide a Driver÷s license number for verification. Voter rolls are maintained to ensure only living and qualified voters remain on the registration lists“but more importantly“ it gets to your correct address, not an old one.

Georgia just finished its first risk limiting audit of a statewide race, a new process put in place that is considered by some to be the gold standard in election integrity. The

AMERICAN OVERSIGHT

closeness of the presidential race in Georgia required all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt. Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation.

Beating Election Disinformation from Washington Requires Integrity

By Brad Raffensperger

Georgia's elections have received a lot of unfair and unwarranted criticism over the past two years, much of it spurred by disinformation. The successful November election and the smooth hand recount have proven our critics wrong.

Since I took office, we have made great strides in improving elections security, reliability, and efficiency in Georgia. We effectively eliminated voting lines on Election Day as voters waited on average only three minutes statewide. In the 10 months since covid-19 upended elections, we built the infrastructure to accommodate record levels of absentee voting by mail and record early in-person voting.

In Georgia, our voting system has never been more secure or trustworthy. A newly implemented statewide voting system gave Georgia voters printed paper-ballots for the first time in nearly 20 years. Voters can review those paper records and verify their choices are correct before casting their ballot. Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country help ensure that Georgia's election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure that each voter gets one vote — and only one vote. Voters who request an absentee ballot through the state's new online portal for absentee ballot requests provide a driver's license number for verification. Voter rolls are

AMERICAN OVERSIGHT

maintained to ensure that only living and qualified voters remain on the registration lists.

Georgia just finished its first statewide Risk Limiting Audit, a cutting-edge process developed for verifying the accuracy of election results that is considered to be the gold standard in election integrity. The closeness of the presidential race in Georgia required that all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt.

Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation. Since we selected the new voting system in 2019, partisan activists and their allies in Washington took steps to undermine the integrity of our new election system at every turn. While the recent unfounded attacks on Georgia's election system may seem new, partisans on the opposite side of the aisle wrote the playbook almost word for word over the past year. Disinformation about the reliability and security of Georgia's voting machines had been percolating since long before we even selected a voting system.

When I was first elected Georgia's secretary of state, I committed to overseeing Georgia's election with integrity. I knew that after any election, somewhere around half of the voters would be happy, and the other half would be sad. But I wanted all voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in our state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes -- and is praised for it by media pundits to this day, even as they attack a presidential candidate for running the same playbook.

The truth is that the people of Georgia—and across the country—should not have any remaining doubts about who was elected governor two years ago, or who won the presidential election earlier this month. The presidential outcome was remarkably close but the new paper-ballot system, the strong election security and integrity mechanisms in place, and the Risk Limiting Audit and hand recount, should combine to put to rest any doubts about the final outcome.

My office and my colleagues at the county and local level worked with integrity to ensure that Georgia's voters had a secure, reliable and efficient election this month.

As we move toward two closely-watched, high stakes Senate runoff elections on January 5th, I am confident that we will again be able to deliver the secure election and reliable results that the people of Georgia deserve.

AMERICAN OVERSIGHT

Can you let me know, please, what you think of this?

Thank you!

Autumn

Georgia's elections have received a lot of attention to over the past two years, much of it unfair and unwarranted. Now that the hand count of presidential ballots has concluded, the time has come to set the record straight.

The reality is that we have dramatically improved the administration, conduct and reliability of our state's voting processes. After years of disastrous elections in Fulton County, we effectively eliminated voting lines. This Election Day, voters waited on average only three minutes statewide. In the 10 months since covid-19 upended elections, we built the infrastructure to accommodate record levels of absentee voting by mail and record early in-person voting.

In Georgia, our voting system has never been more secure or trustworthy. A newly implemented statewide voting system gave Georgia voters printed paper-ballots for the first time in nearly 20 years. They could review those paper records and verify before casting their vote. Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country help ensure that Georgia's election system remains secure from whatever threats loom on the horizon.

In Georgia, signatures for absentee ballot voters are verified twice to ensure that each voter gets one vote — and only one vote. Voters who request an absentee ballot through the state's new online portal for absentee ballot requests provide a driver's license number for verification. Voter rolls are maintained to ensure that only living and qualified voters remain on the registration lists and — more importantly — that it arrives at the correct address, not an old one.

Georgia just finished its first risk limiting audit **[[WHAT DOES RISK-LIMITING AUDIT MEAN? WHY NOT JUST CALL IT AN AUDIT? Or a hand-count audit?]]** of a statewide race, a new process that is considered to be the gold standard in election integrity. The closeness of the presidential race in Georgia required that all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt.

Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation. **[[TWO CONCERNS HERE: The lack of specificity is unhelpful; what allegations is he talking about? And how can he cite politicians in Washington, D.C. when the first high-profile criticisms came from Georgia's two U.S. senators? Or when Georgia Rep. Douglas Collins, also a Republican, has questioned the secretary's handling of the vote. I understand if he doesn't want to be too specific, though he might, without naming names, mention questioning the manufacturer of the state's voting machines and the integrity of its ballot handling. Wondering if you want to say something like: Nonetheless, some politicians and pundits have tried to mislead people in Georgia and elsewhere. OR: Nonetheless, some politicians and pundits – here and outside our state – have tried to mislead voters in Georgia and nationwide by criticizing our state's voting machines, the integrity of our ballot handling and more.?..]]**

Integrity is what can make up the difference.

AMERICAN OVERSIGHT

When I was first elected Georgia's secretary of state, I committed to overseeing Georgia's election with integrity. I knew that after any election in a state as closely divided as ours, somewhere around half of the voters would be happy, and the other half would be sad. But I wanted **[[ADD: all?]]** voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in the our state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes -- and is praised for it by media pundits to this day, even as they attack a presidential candidate for running the same playbook.

But I also know that as long as politicians with integrity step up, the odds can be overcome.
We saw it firsthand in Georgia, where voters enjoyed a secure, reliable, and efficient election in earlier this month. My office and my colleagues at the county and local level worked with integrity to make that happen.
Many of my fellow Republicans too are men and women of integrity who work to strengthen America's core institutions, whether it be elections or the courts, day in and day out.

The truth is that citizens in Georgia—and across the country—should not have any remaining doubts about who was elected governor two years ago, or who won the presidential election earlier this month. The presidential outcome was remarkably close, with just xxx votes separating the two candidates. But the procedures we put in place, the mechanism of the hand recount, and the patience to wait for an authoritative result combine to put to rest any doubts about the final outcome.

My office and my colleagues at the county and local level worked with integrity to ensure that Georgia's voters had a secure, reliable and efficient election this month. Many of my fellow Republican are men and women of integrity who work to strengthen America's core institutions, whether it be elections or the courts, day in and day out.

Working together, I know that we can beat back the tide of fake news that threatens elections in Georgia. Integrity matters.

[[Wondering if it is possible to look forward with the conclusion – either something about the special election or otherwise the path ahead. Maybe something like: **Now our state faces another challenge with the runoff election next month. I am confident that we are up to the task—and that those in either party who seek to use the results to peddle predetermined and self-interested narratives are doing a disservice to themselves and, more importantly, to the voters.**]]

Subject: Re: Op-ed?

Beating Election Disinformation from Washington Requires Integrity
By Brad Raffensperger

Few things present as large of a challenge to election integrity as Fake news. With a click of a button, outright disinformation goes viral. A pundit spreading misinformation hits every Twitter account. A politician capitalizing on inaccuracies reaches every home.
Fake news from Washington moves like wildfire. Unfortunately, the truth moves at a much slower pace. In Georgia, we know that integrity can bridge the gap.

Georgia has faced a lot of election disinformation over the past two years despite, or perhaps because of, historic success in running elections. After years of disastrous elections in Fulton County, we defeated voting lines. On Election Day, voters waited just three minutes statewide. In just the ten months since COVID-19 upended elections, we built the infrastructure to accommodate record absentee by mail voting and record early-in person voting.

Those watching the news out of Washington, D.C., where integrity often comes in short supply, and those experiencing it firsthand in Georgia seem to live in totally different worlds.
In Georgia, our voting system has never been more secure or reliable. A newly implemented statewide voting system gave Georgia voters printed paper-ballots, which they can review and verify before casting, for the first time in nearly twenty years.Partnerships with the U.S. Department of Homeland Security, the Georgia Cyber Center at Augusta University, experts from Georgia Tech, and election security specialists from around the country, help ensure Georgia÷s election system remains secure from whatever threats loom on the horizon.

AMERICAN OVERSIGHT

In Georgia, signatures for absentee ballot voters are verified twice to ensure each voter gets one vote, and only one vote.Voters who request an absentee ballot through the state÷s new online absentee ballot request portal provide a Driver÷s license number for verification. Voter rolls are maintained to ensure only living and qualified voters remain on the registration lists“but more importantly“ it gets to your correct address, not an old one.

Georgia just finished its first risk limiting audit of a statewide race, a new process put in place that is considered by some to be the gold standard in election integrity. The closeness of the presidential race in Georgia required all ballots be hand recounted. Unsurprisingly, the original tally has been upheld with little doubt. Nonetheless, the politicians and pundits in Washington, D.C. try to mislead Georgia voters with fake news and misinformation.

Integrity is what can make up the difference.
When I was first elected Georgia Secretary of State, I committed to overseeing Georgia÷s election with integrity. I knew that after any election, half of the voters would be happy, and the other half would be sad. But I wanted Georgia voters to feel confident in the outcome.

I knew what we were up against. Media in New York and Washington, D.C. were committed to the narrative that Georgia was backwards and that elections in the state were unfair. A failed gubernatorial candidate refused to accept the outcome of an election she lost by 50,000 votes and is praised for it by media pundits to this day, even as they attack a presidential candidate for running the same playbook.

But I also know that as long as politicians with integrity step up, the odds can be overcome.
We saw it firsthand in Georgia, where voters enjoyed a secure, reliable, and efficient election in earlier this month. My office and my colleagues at the county and local level worked with integrity to make that happen.
Many of my fellow Republicans too are men and women of integrity who work to strengthen America÷s core institutions, whether it be elections or the courts, day in and day out.

Working together, I know that we can beat back the tide of fake news that threatens elections in Georgia. Integrity matters.

Is a draft still planned, or .?..

AMERICAN OVERSIGHT

I know that the secretary and others have been doing interviews and that your office has also put out statements. But I did think an op-ed on what we discussed looking at the results with a focus on integrity and what this process has been would be useful.

I also know that you are very busy!

AMERICAN OVERSIGHT

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to

AMERICAN OVERSIGHT

register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

AMERICAN OVERSIGHT

We tell ourselves that people of character are capable of wonderous things. In fact, more often than not, they simply do ordinary things under extraordinary circumstances.

On Monday, Secretary of State Brad Raffensperger stared into a howling tempest — which probably had its origins in the White House — and declared that two plus two equals four.

Those who claim the correct answer to be five or three, the Republican said, should be prepared to show their work.

"In these times that we live in, I think it's best to be very mindful of our speech," Raffensperger said. "What people really want at the end of the day — I think both sides should desire honest, fair elections. That's what we've been working for."

It was after 6 p.m. Monday, already dark outside and mostly empty inside the state Capitol. I was at one end of a long table, and Georgia's quiet, lanky secretary of state — the man in charge of the Nov. 3 election — was at the other.

Two security officers in business suits had pointed me to Raffensperger's interior office. There had already been death threats, you see.

Raffensperger's day had taken a sharp turn at 3:04 p.m., when U.S. Sens. David Perdue and Kelly Loeffler, both fellow Republicans, had — without warning — issued a joint statement calling for Raffensperger's resignation. The pair vaguely cited "mismanagement and lack of transparency."

Seventeen minutes later, President Donald Trump said this via Twitter: "Georgia will be a big presidential win, as it was the night of the Election!"

In other words, before metro Atlanta votes were counted.

The timing strongly hints at coordination between the senators and the White House. And the pairing of the message from Perdue and Loeffler suggests that they will be operating as a single ticket in the weeks leading up to the Jan. 5 runoff against Democrats Jon Ossoff and Raphael Warnock, respectively.

No one will say so in public, but the object of the senators' demand appears to be the dismissal — or at least the legal muddying — of a Georgia election that Raffensperger must certify by Nov. 20. The one in which the state's 16 electoral college votes are at stake, and now appear headed for President-elect Joe Biden. As of this writing, he's ahead of Trump by more than 12,000 votes.

If that's the case, we're talking outright larceny.

The kindest interpretation of Perdue and Loeffler's demand for Raffensperger's head is that they are victims of blackmail, hostages to the Twitter account of a president who, although defeated, still has the power to torpedo their campaigns in 140 characters or less.

Last week, during a rally at Georgia GOP headquarters in Buckhead, Donald Trump Jr. had promised a post-electoral fight "to the death" — and retribution against any Republican who does anything less.

Perdue and Loeffler have apparently taken his threat to heart, perhaps recognizing that the elder Trump will remain the dominant force in his Republican party long after he leaves the White House.

In private, beyond maligning a fellow Republican and sending a few Trumpish pitchforks his way, Perdue and Loeffler might admit that their demand carries no weight.

First of all, Raffensperger can't be forced to resign and has no intention of doing so. Secondly, blocking or delaying the certification of the Nov. 3 vote wouldn't just obstruct the presidential vote. It would negate some very good results that Republicans enjoyed down-ballot.

But if senators' Monday press release was a mere charade intended to appease a wounded Trump, a little warning would have been nice.

Raffensperger, 65, is a data man — a north Fulton resident and CEO of an engineering design firm. "In the business

AMERICAN OVERSIGHT

world that I live in, if we have an issue with people, we call them directly and we have our conversation," he said. "We don't just send it out to the world."

There were no calls or previous complaints from Perdue and Loeffler, he said. Both have his cell phone number, and he has theirs. "If that's how they want to do business, that's how they do business. I just don't do business that way," Raffensperger said.

Let us get something out of the way: By Georgia standards, the Nov. 3 election was custard-smooth, a vast improvement over the chaos of the June 9 primary that saw voters wait eight hours and more to cast a ballot.

"We had two-minute wait times during Election Day, so we defeated the issue of long lines. We're really grateful for that. We had record turnout, early turnout," Raffensperger said.

The secretary of state readily admits that he would prefer to see Trump ahead in Georgia. "But not enough folks turned out, and that's where we are right now," Raffensperger said. "But we're going to make sure that we follow through the process, that we're going to count every legal ballot, and the results will be the results. I'm a constitutional conservative. I follow the law."

Raffensperger's staff has opened investigations into the election operations in Fulton, DeKalb and Chatham counties. But the probes are concerned with procedural issues that are unlikely to have an impact on the presidential contest, the secretary of state said.

"Fulton County has really improved a lot. They still have a ways to go, but the State Farm Arena was a plus," Raffensperger said.

He is not blind to the fact that nearly 5 million ballots were cast in the general election, and that voters and election workers alike are human. Yes, accusations have been made, but evidence has been lacking.

"If they bring any credible information, actual intelligence, we will work on it," Raffensperger promised. You think drop boxes were tampered with? All had surveillance cameras aimed at them.

At that post-election rally last week, Donald Trump Jr. was preceded by U.S. Rep. Doug Collins, the former candidate for U.S. Senate who has been placed in charge of the Trump recount effort.

"There was a little incident last night at State Farm Arena. They had a water break. So they told everybody to go home," Collins alleged. "They told our folks to go home. They told everybody else to go home," Collins said. "Except for one little problem. When everybody went home at 10 o'clock, they started counting again."

The leak was originally reported as a broken pipe, but was in fact an overflowing toilet. The incident occurred at 5:30 a.m. on Election Day, Raffensperger's staff now says. Fulton County officials reported the problem to the secretary of state in real time. No absentee ballots were damaged, but counting was delayed for a few hours.

Later that night, a crew assigned the task of slicing open absentee ballot envelopes for processing finished their job and packed up to go home. Witnesses went with them.

Whether staff told them to leave, or witnesses simply assumed their day was done is still being investigated. In any case, "our monitor was there the entire time," Raffensperger said. As was an investigator from the secretary of state's office.

At this moment, Raffensperger is a man who has been placed in political quarantine while his fellow partisans engage in choruses of "Stop the Steal!"

Many consider him radioactive. Others have called to offer support, but Raffensperger is not inclined to out them.

Gov. Brian Kemp, who is backing Senator Loeffler, has been cautious. "Georgia's election result will include legally cast ballots — and ONLY legally cast ballots. Period," the governor said via Twitter. One assumes that he also only serves edible food at his dinner table.

Raffensperger's most outspoken ally thus far has been Lt. Gov. Geoff Duncan, who like the secretary of state is

AMERICAN OVERSIGHT

demanding hard facts. “At this point we’ve not seen any sort of credible examples,” Duncan said.

Before I left the Capitol, I asked Raffensperger about that Tweet from the president — the one in which Trump predicted he would ultimately win Georgia.

As a Republican, the secretary of state said he hopes that’s the case. “And if he does, he’ll win it honestly. Because I’m going to stand on my integrity," Raffensperger said.

Two plus two equals four. Not five, and not three.

AMERICAN OVERSIGHT

No one will say so in public, but the object of the senators' demand appears to be the dismissal — or at least the legal muddying — of a Georgia election that Raffensperger must certify by Nov. 20. The one in which the state's 16 electoral college votes are at stake, and now appear headed for President-elect Joe Biden. As of this writing, he's ahead of Trump by more than 12,000 votes.

If that's the case, we're talking outright larceny.

The kindest interpretation of Perdue and Loeffler's demand for Raffensperger's head is that they are victims of blackmail, hostages to the Twitter account of a president who, although defeated, still has the power to torpedo their campaigns in 140 characters or less.

Last week, during a rally at Georgia GOP headquarters in Buckhead, Donald Trump Jr. had promised a post-electoral fight "to the death" — and retribution against any Republican who does anything less.

Perdue and Loeffler have apparently taken his threat to heart, perhaps recognizing that the elder Trump will remain the dominant force in his Republican party long after he leaves the White House.

In private, beyond maligning a fellow Republican and sending a few Trumpish pitchforks his way, Perdue and Loeffler might admit that their demand carries no weight.

First of all, Raffensperger can't be forced to resign and has no intention of doing so. Secondly, blocking or delaying the certification of the Nov. 3 vote wouldn't just obstruct the presidential vote. It would negate some very good results that Republicans enjoyed down-ballot.

But if senators' Monday press release was a mere charade intended to appease a wounded Trump, a little warning would have been nice.

Raffensperger, 65, is a data man — a north Fulton resident and CEO of an engineering design firm. "In the business world that I live in, if we have an issue with people, we call them directly and we have our conversation," he said. "We don't just send it out to the world."

There were no calls or previous complaints from Perdue and Loeffler, he said. Both have his cell phone number, and he has theirs. "If that's how they want to do business, that's how they do business. I just don't do business that way," Raffensperger said.

Let us get something out of the way: By Georgia standards, the Nov. 3 election was custard-smooth, a vast improvement over the chaos of the June 9 primary that saw voters wait eight hours and more to cast a ballot.

"We had two-minute wait times during Election Day, so we defeated the issue of long lines. We're really grateful for that. We had record turnout, early turnout," Raffensperger said.

The secretary of state readily admits that he would prefer to see Trump ahead in Georgia. "But not enough folks turned out, and that's where we are right now," Raffensperger said. "But we're going to make sure that we follow through the process, that we're going to count every legal ballot, and the results will be the results. I'm a constitutional conservative. I follow the law."

Raffensperger's staff has opened investigations into the election operations in Fulton, DeKalb and Chatham counties. But the probes are concerned with procedural issues that are unlikely to have an impact on the presidential contest, the secretary of state said.

"Fulton County has really improved a lot. They still have a ways to go, but the State Farm Arena was a plus," Raffensperger said.

He is not blind to the fact that nearly 5 million ballots were cast in the general election, and that voters and election workers alike are human. Yes, accusations have been made, but evidence has been lacking.

"If they bring any credible information, actual intelligence, we will work on it," Raffensperger promised. You think drop boxes were tampered with? All had surveillance cameras aimed at them.

AMERICAN OVERSIGHT

At that post-election rally last week, Donald Trump Jr. was preceded by U.S. Rep. Doug Collins, the former candidate for U.S. Senate who has been placed in charge of the Trump recount effort.

"There was a little incident last night at State Farm Arena. They had a water break. So they told everybody to go home," Collins alleged. "They told our folks to go home. They told everybody else to go home," Collins said. "Except for one little problem. When everybody went home at 10 o'clock, they started counting again."

The leak was originally reported as a broken pipe, but was in fact an overflowing toilet. The incident occurred at 5:30 a.m. on Election Day, Raffensperger's staff now says. Fulton County officials reported the problem to the secretary of state in real time. No absentee ballots were damaged, but counting was delayed for a few hours.

Later that night, a crew assigned the task of slicing open absentee ballot envelopes for processing finished their job and packed up to go home. Witnesses went with them.

Whether staff told them to leave, or witnesses simply assumed their day was done is still being investigated. In any case, "our monitor was there the entire time," Raffensperger said. As was an investigator from the secretary of state's office.

At this moment, Raffensperger is a man who has been placed in political quarantine while his fellow partisans engage in choruses of "Stop the Steal!"

Many consider him radioactive. Others have called to offer support, but Raffensperger is not inclined to out them.

Gov. Brian Kemp, who is backing Senator Loeffler, has been cautious. "Georgia's election result will include legally cast ballots — and ONLY legally cast ballots. Period," the governor said via Twitter. One assumes that he also only serves edible food at his dinner table.

Raffensperger's most outspoken ally thus far has been Lt. Gov. Geoff Duncan, who like the secretary of state is demanding hard facts. "At this point we've not seen any sort of credible examples," Duncan said.

Before I left the Capitol, I asked Raffensperger about that Tweet from the president — the one in which Trump predicted he would ultimately win Georgia.

As a Republican, the secretary of state said he hopes that's the case. "And if he does, he'll win it honestly. Because I'm going to stand on my integrity," Raffensperger said.

Two plus two equals four. Not five, and not three.

I think the certification part is just about how long you have to keep the data. I think it should be made available in your normal course of responding to open records requests without regard to certification.

Hi Ryan,

Quick question. We have received an open records request for video footage from our ab drop boxes. We have no doubt that the information is a matter of public record, but do have doubts about the timing of when it can be released as a public record. The language in the Rule seems to imply that access prior to the final certification would be limited to the Secretary of State Investigators and not available to the general public prior to final certification. And by final certification, we mean the State certification. Have you all discussed this or taken a position on this?

Thank you.

Importance: High

Good Morning Lynn,

I do not see any provision in the Georgia Open Records Act, the Election Code, or the SEB Rules that would exempt the video footage. However, I would recommend that we contact the State for guidance. SEB RULE 183-1-14-0.8-.14 (4) addresses the required video recording of the drop box location. RULE 183-1-14-0.8-.14 (5) requires that we retain the video recordings for 30 days after the final certification of the election . . .and shall be made available to Secretary of State investigators upon request. Unfortunately, it does not state whether there should be a restriction to the access of the video until after the Election is certified or conclusion of any election contest on the ballot, whichever is later. **In my opinion, the language of the Rule seems to imply that access prior to the final certification or resolution of an election contest would be limited to the Secretary of State's Office. Additionally, it would appear that the public would have access to the video during the 30 day (minimum) retention window after final certification or election contest resolution. It seems like the Secretary of State's Office would intervene if there were an Open Records Dispute as they have an interest in the required recordings prior to the final certification of the Election to do their own investigations.**

Best Regards,
Rachel Mack

Subject: Open Records Request for Video Footage
Importance: High

Good Morning Lynn,

AMERICAN OVERSIGHT

I do not see any provision in the Georgia Open Records Act, the Election Code, or the SEB Rules that would exempt the video footage. However, I would recommend that we contact the State for guidance. SEB RULE 183-1-14-0.8-.14 (4) addresses the required video recording of the drop box location. RULE 183-1-14-0.8-.14 (5) requires that we retain the video recordings for 30 days after the final certification of the election . . .and shall be made available to Secretary of State investigators upon request. Unfortunately, it does not state whether there should be a restriction to the access of the video until after the Election is certified or conclusion of any election contest on the ballot, whichever is later. **In my opinion, the language of the Rule seems to imply that access prior to the final certification or resolution of an election contest would be limited to the Secretary of State's Office. Additionally, it would appear that the public would have access to the video during the 30 day (minimum) retention window after final certification or election contest resolution. It seems like the Secretary of State's Office would intervene if there were an Open Records Dispute as they have an interest in the required recordings prior to the final certification of the Election to do their own investigations.**

Best Regards,
Rachel Mack

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Earlier today Senators Loeffler and Perdue called for my resignation.

Let me start by saying that is not going to happen. The voters of Georgia hired me, and the voters will be the one to fire me. As Secretary of State, I'll continue to fight every day to ensure fair elections in Georgia, that every legal vote counts, and that illegal votes don't count.

I know emotions are running high. Politics are involved in everything right now. If I was Senator Perdue, I'd be irritated I was in a runoff. And both Senators and I are all unhappy with the potential outcome for our President.

But I am the duly elected Secretary of State. One of my duties involves helping to run elections for all Georgia voters. I have taken that oath and I will execute that duty and follow Georgia law.

Here are the facts.

The election on Tuesday, November 3, 2020 in Georgia, from an election administration perspective was a resounding success. The average wait time to vote was 3 minutes. Almost 5 million Georgians cast a vote in this election…that is a record turnout. Nearly 75% of Georgia voters voted in person, while 25% to vote no excuse absentee. That no excuse absentee law was adopted by a Republican legislature, supported by Speaker David Ralston, and signed into law by then Governor Sonny Perdue.

President Trump received more votes than any other Republican presidential candidate in Georgia history, and Senator Perdue received more votes than the President

The process of reporting results has been orderly and followed the law. Where there have been specific allegations of illegal voting, my office has dispatched investigators. We have put a monitor in at Fulton County…one of our longtime problem Democrat run counties.

The investigation of potential double voters was the first of its kind done in the history of the Secretary of State's office, and we will investigate any of those instances from the general election as well.

I care about counting each and every legal vote…and assuring that illegal votes aren't counted.

And as far as lack of transparency…we were literally putting releases of results up at a minimum hourly. I and my office have been holding daily or twice daily briefings for the press to walk them through all the numbers. So that particular charge is laughable.

Was there illegal voting…I am sure there was. And my office is investigating all of it. Does it rise to the numbers or margin necessary to change the outcome to where President Trump is given Georgia's electoral votes. That is unlikely.

One thing I have learned in my time as Secretary of State is that a lot of difficulties in administering elections are caused by federal law. Federal law, not state law, is what makes it so difficult to keep clean voter rolls. Federal law, not state law, is what allows people to register to vote before a runoff even if they weren't registered for the general

AMERICAN OVERSIGHT

election. Now that Senators Perdue and Loeffler are concerned about elections, hopefully they can fix these federal laws.

My job is to follow Georgia law and see to it that all legal votes, and no illegal votes, are counted properly and accurately. As Secretary of State, that is my duty, and I will continue to do my duty. As a Republican, I am concerned about Republicans keeping the U.S. Senate. I recommend that Senators Loeffler and Perdue start focusing on that.

Thanks for asking. Here are the key counties we were concerned about on the drop box issue:

1. Fulton
2. Cobb
3. Dekalb
4. Spalding
5. Chatham
6. Gwinnett
7. Muscogee

Best,
Trey

AMERICAN OVERSIGHT

The quote in the Emory Wheel was as follows:

Emory students currently living in Georgia, regardless of where they previously registered, are eligible to register to vote in the runoff. Emory students who are currently registered in Georgia, regardless of where they are currently living, are eligible to vote in the runoff.

"This federal runoff is considered a new election," Emory Votes Initiative (EVI) Assistant Coordinator Sarah Zaslaw wrote in an email to the Wheel. "It is not double voting if someone [residing in Georgia] voted elsewhere in November and now registers in Georgia before this runoff."

Students who satisfy these requirements and will turn 18 by Jan. 5 are also eligible to vote.

Zaslaw acknowledged student confusion in the face of warnings from the Georgia Secretary of State that moving to the state for the purpose of voting in the runoff is illegal but emphasized that college students are in a unique legal position.

"College students are a special group known to have two plausible residences for purposes of voting, and they get to choose which one to use," Zaslaw wrote. "They are not in the same category as out-of-state adults who might contemplate moving to Georgia right now for the express purpose of registering to vote."

See https://emorywheel.com/a-college-voters-guide-to-the-georgia-runoffs/.

As discussed, the Wheel's instruction to students before the General Election was as follows: "*If you are already registered in Georgia but you would prefer to vote in your home state, you can change your registration. Although you are allowed to be registered to vote in more than one state, you cannot fill out a ballot in more than one state.*" *See* https://emorywheel.com/a-college-students-guide-to-voting/.

Should we open an investigation into this? I don't think it's right that college students have two plausible residences for voting and they get to choose which one to use. Everyone can only have one residence.

Students who satisfy these requirements and will turn 18 by Jan. 5 are also eligible to vote.

Zaslaw acknowledged student confusion in the face of warnings from the Georgia Secretary of State that moving to the state for the purpose of voting in the runoff is illegal but emphasized that college students are in a unique legal position.

"College students are a special group known to have two plausible residences for purposes of voting, and they get to choose which one to use," Zaslaw wrote. "They are not in the same category as out-of-state adults who might contemplate moving to Georgia right now for the express purpose of registering to vote."

See https://emorywheel.com/a-college-voters-guide-to-the-georgia-runoffs/.

As discussed, the Wheel's instruction to students before the General Election was as follows: *"If you are already registered in Georgia but you would prefer to vote in your home state, you can change your registration. Although you are allowed to be registered to vote in more than one state, you cannot fill out a ballot in more than one state." See* https://emorywheel.com/a-college-students-guide-to-voting/.

Best,

Trey

Subject: RE: voting question

Good morning, Ryan,

I can add "if there is a charge" to the end of the last sentence. That would better capture Ms. Le's motion.

(5) Video recordings of the drop box locations must be retained by the county registrars for 30 days after the final certification of the election, or until conclusion of any contest involving an election on the ballot in the county jurisdiction, whichever is later, and shall be made available to Secretary of State investigators upon request or to the public, upon request, as soon as possible at a charge that is not cost prohibitive to the public, if there is a charge.

What I sent him.

Chris Harvey
Elections Director
Georgia Secretary of State

Main 470-312-2777
Cell 404-985-6351

From: Harvey, Chris
Sent: Monday, November 30, 2020 4:44 PM
To: [redacted]
Subject: voting question

Mr. Andridge,
I had your email question forwarded to me. Your original question was:
"I am a registered voter in Fulton County and would like to vote in the U.S. Senate Runoff Election in Georgia. I plan to move to another state on December 6 when my apartment lease ends. Will I be able to vote in the runoff election?"
Here are some things to consider:
In order to be eligible to vote in Georgia, you must be a Georgia resident (OCGA 21-2-216).
Without knowing all the details of your move and your plans, I cannot give you an absolute answer.
The facts might depend on if you plan to return, or if you are moving temporarily, or if you are in the military, or college, etc.
The legality also could depend on if you voted absentee before you moved and stopped being a resident of the state.

The law for determining residency (OCGA 21-2-217) for voting is pasted below:

(a) In determining the residence of a person desiring to register to vote or to qualify to run for elective office, the following rules shall be followed so far as they are applicable:

(
1
)

The
residence
of
any
person
shall
be
held
to
be
in
that

AMERICAN OVERSIGHT

place in which such person ' s habitation is fixed , without any present intention of removing therefrom ;

(2) A person shall not be considered to have lost such person ' s residence who leaves such person ' s home and goes into another state or

AMERICAN OVERSIGHT

county or municipality in this state, for temporary purposes only, with the intention of returning, unless such person shall register to vote or perform other acts indicating a desire to change such person's citizenship and residence;

(3) A person shall not

AMERICAN OVERSIGHT

be considered to have gained a residence in any county or municipality of this state into which such person has come for temporary purposes only without the intention of making such county or municipality such person ' s permanent place of abode ;

(4)

If a person

AMERICAN OVERSIGHT

removes to another state with the intention of making it such person ' s residence , such person shall be considered to have lost such person ' s residence in this state ;

(4.1)

If a person removes to another county or municipality in this state with

AMERICAN OVERSIGHT

the intention of making it such person ' s residence , such person shall be considered to have lost such person ' s residence in the former county or municipality in this state ;

(5)

If a person removes to another state with the intention of remaining

AMERICAN OVERSIGHT

there
an
indefinite
time
and
making
such
state
such
person
'
s
place
of
residence
,
such
person
shall
be
considered
to
have
lost
such
person
'
s
residence
in
this
state
,
notwithstanding
that
such
person
may
intend
to
return
at
some
indefinite
future
period
;

(
6
)

AMERICAN OVERSIGHT

If a person removes to another county or municipality within this state with the intention of remaining there an indefinite time and making such other county or municipality such person ' s place of residence , such person shall be considered to have lost such person ' s residence in the former

AMERICAN OVERSIGHT

county or municipality, notwithstanding that such person may intend to return at some indefinite future period;

(7) The residence for voting purposes of a person shall not be required to be the same as the residence for voting purposes of his or her spouse.

AMERICAN OVERSIGHT

(8)

No person shall be deemed to have gained or lost a residence by reason of such person's presence or absence while enrolled as a student at any college, university, or other institution of learning in this state;

(9)

AMERICAN OVERSIGHT

The mere intention to acquire a new residence, without the fact of removal, shall avail nothing; neither shall the fact of removal without the intention;

(10) No member of the armed forces of the United States shall be deemed to have acquired

AMERICAN OVERSIGHT

a residence in this state by reason of being stationed on duty in this state ;

(11)

If a person removes to the District of Columbia or other federal territory , another state , or foreign country to engage in government service , such person shall not

AMERICAN OVERSIGHT

be considered to have lost such person ' s residence in this state during the period of such service ;

and the place where the person resided at the time of such person ' s removal shall be considered and held to be such person ' s place of residence ;

AMERICAN OVERSIGHT

(
12
)

If
a
person
is
adjudged
mentally
ill
and
is
committed
to
an
institution
for
the
mentally
ill
,
such
person
shall
not
be
considered
to
have
gained
a
residence
in
the
county
in
which
the
institution
to
which
such
person
is
committed
is
located
;

AMERICAN OVERSIGHT

13
)

If
a
person
goes
into
another
state
and
while
there
exercises
the
right
of
a
citizen
by
voting
,
such
person
shall
be
considered
to
have
lost
such
person
'
s
residence
in
this
state
;

(
14
)

The
specific
address
in
the
county
or

AMERICAN OVERSIGHT

municipality in which a person has declared a homestead exemption, if a homestead exemption has been claimed, shall be deemed the person's residence address;

and

(15) For voter registration purposes, the board of registrars and, for candidacy residency purposes

AMERICAN OVERSIGHT

,
the
Secretary
of
State
,
election
superintendent
,
or
hearing
officer
may
consider
evidence
of
where
the
person
receives
significant
mail
such
as
personal
bills
and
any
other
evidence
that
indicates
where
the
person
resides
.

(
b
)

In
determining
a
voter
'
s
qualification
to
register

AMERICAN OVERSIGHT

and
vote
,
the
registrars
to
whom
such
application
is
made
shall

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

Hi Ryan,
I would like to be there but have closings scheduled for 9a-12a but am completely free at 8a-9a.

If you already have a quorum, I will apologize and skip this one. If you need me for a quorum on Monday, can we do 8a-9a?

I have someone on standby to cover me 9a-10a Monday but he'll have to drive an hour to do so.

Thanks.
Anh

AMERICAN OVERSIGHT

Subject: SEB Meeting to Extend Emergency Rules

Board members,

I apologize for the late notice. Would it be possible to do a virtual meeting on Monday to vote to extend our emergency rules? Would 9 am work for everyone?

The absentee ballot portal one is good through January 10, so we don't need to do anything with that one. But the drop box and early scanning rule need to be re-adopted because they expire right before the election. I think we should re-adopt them just through the end of the January 5 election, but make early scanning mandatory during the last week to try to speed up results. I am also working on a new emergency rule to instruct counties how to confirm residency for new registrants pursuant to 21-2-228 and 21-2-217 given the uproar about people "moving" here solely to vote. I am less concerned about people moving here and more concerned about people who may attempt to register and vote absentee by mail without ever setting foot here. I will circulate drafts today.

Thanks,
Ryan

MEDIA ADVISORY
November 20, 2020

Secretary of State's Office Certifies General Election Results

Atlanta – The Georgia Secretary of State' Office today certified the results for the November 3, 2020 General Election. The certified results of state and federal races can be found on the Secretary of State's website: sos.ga.gov.

In certifying the results, the Secretary of State affirmed that all 159 counties have provided to the state the total votes tabulated for each state and federal candidate. Further, the Secretary of State affirms that the statewide consolidated returns for state and federal offices are a true and correct tabulation of the certified returns received by this office from each county.

With the certification, the two-business-day time period begins for a candidate who lost by less than 0.5% of the vote to request a recount. Certification does not preclude the state from continuing any current investigations related to the General Election or from pursuing any future allegations that may arise from these elections.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record turnout in 2020, with over 1.3 million absentee by mail voters and over 3.6 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

Ryan –

AMERICAN OVERSIGHT

Thanks for taking the time to speak with me this morning. As discussed, the NRSC is seeking updates and any available information on new voter registrations occurring after the November 3, 2020 General Election through December 7, 2020. In particular, we would like updates, as frequently as possible, on the number of new registrants and the names of those registrants. If you or someone in your office is able to provide this information, please have them provide that information directly to me at this email account.

We also discussed open access issues and hours of operation for the tabulation of ballots. I will gather some more information and be in touch next week on both.

Thanks again, and I look forward to working with you over the next few weeks.

Best,
Trey

Frances—can you open an investigation into the Studio Way address in the attached spreadsheet. Looks like multiple ballots were sent to the attention of Molly Honea. Could be a potential ballot harvesting issue or maybe she just handles the mail. It's a little weird to see that number of ballots going to a movie studio.

Thanks,
Ryan

Subject: Draft statement

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Earlier today Senators Loeffler and Perdue called for my resignation.

Let me start by saying that is not going to happen. The voters of Georgia hired me, and the voters will be the one to fire me. As Secretary of State, I'll continue to fight every day to ensure fair electionsin Georgia, that every legal vote counts, and that illegal votes don't count.

I know emotions are running high. Politics are involved in everything right now. If I was Senator Perdue, I'd be irritated I was in a runoff. And both Senators and I are all unhappy with the potential outcomefor our President.

But I am the duly elected Secretary of State. One of my duties involves helping to run elections for all Georgia voters. I have taken that oath and I will execute that duty and follow Georgia law.

Here are the facts.

The election on Tuesday, November 3, 2020 in Georgia, from an election administration perspective was a resounding success. The average wait time to vote was 3 minutes. Almost 5 million Georgians cast avote in this election…that is a record turnout. Nearly 75% of Georgia voters voted in person, while 25% to vote no excuse absentee. That no excuse absentee law was adopted by a Republican legislature, supported by Speaker David Ralston, and signed into lawby then Governor Sonny Perdue.

President Trump received more votes than any other Republican presidential candidate in Georgia history, and Senator Perdue received more votes than the President

The process of reporting results has been orderly and followed the law. Where there have been specific allegations of illegal voting, my office has dispatched investigators. We have put a monitor in at FultonCounty…one of our longtime problem Democrat run counties.

AMERICAN OVERSIGHT

The investigation of potential double voters was the first of its kind done in the history of the Secretary of State's office, and we will investigate any of those instances from the general election aswell.

I care about counting each and every legal vote…and assuring that illegal votes aren't counted.

And as far as lack of transparency…we were literally putting releases of results up at a minimum hourly. I and my office have been holding daily or twice daily briefings for the press to walk them throughall the numbers. So that particular charge is laughable.

Was there illegal voting…I am sure there was. And my office is investigating all of it. Does it rise to the numbers or margin necessary to change the outcome to where President Trump is given Georgia's electoralvotes. That is unlikely.

One thing I have learned in my time as Secretary of State is that a lot of difficulties in administering elections are caused by federal law. Federal law, not state law, is what makes it so difficult to keep clean voter rolls. Federallaw, not state law, is what allows people to register to vote before a runoff even if they weren't registered for the general election. Now that Senators Perdue and Loeffler are concerned about elections, hopefully they can fix these federal laws.

My job is to follow Georgia law and see to it that all legal votes, and no illegal votes, are counted properly and accurately. As Secretary of State, that is my duty, and I will continue to do my duty. Asa Republican, I am concerned about Republicans keeping the U.S. Senate. I recommend that Senators Loeffler and Perdue start focusing on that.

Earlier today Senators Loeffler and Perdue called for my resignation.

Let me start by saying that is not going to happen. The voters of Georgia hired me, and the voters will be the one to fire me. As Secretary of State, I'll continue to fight every day to ensure fair elections in Georgia, that every legal vote counts, and that illegal votes don't count.

I know emotions are running high. Politics are involved in everything right now. If I was Senator Perdue, I'd be irritated I was in a runoff. And both Senators and I are all unhappy with the potential outcome for our President.

But I am the duly elected Secretary of State. One of my duties involves helping to run elections for all Georgia voters. I have taken that oath and I will execute that duty and follow Georgia law.

AMERICAN OVERSIGHT

Here are the facts.

The election on Tuesday, November 3, 2020 in Georgia, from an election administration perspective was a resounding success. The average wait time to vote was 3 minutes. Almost 5 million Georgians cast a vote in this election…that is a record turnout. Nearly 75% of Georgia voters voted in person, while 25% to vote no excuse absentee. That no excuse absentee law was adopted by a Republican legislature, supported by Speaker David Ralston, and signed into law by then Governor Sonny Perdue.

President Trump received more votes than any other Republican presidential candidate in Georgia history, and Senator Perdue received more votes than the President

The process of reporting results has been orderly and followed the law. Where there have been specific allegations of illegal voting, my office has dispatched investigators. We have put a monitor in at Fulton County…one of our longtime problem Democrat run counties.

The investigation of potential double voters was the first of its kind done in the history of the Secretary of State's office, and we will investigate any of those instances from the general election as well.

I care about counting each and every legal vote…and assuring that illegal votes aren't counted.

And as far as lack of transparency…we were literally putting releases of results up at a minimum hourly. I and my office have been holding daily or twice daily briefings for the press to walk them through all the numbers. So that particular charge is laughable.

Was there illegal voting…I am sure there was. And my office is investigating all of it. Does it rise to the numbers or margin necessary to change the outcome to where President Trump is given Georgia's electoral votes. That is unlikely.

One thing I have learned in my time as Secretary of State is that a lot of difficulties in administering elections are caused by federal law. Federal law, not state law, is what makes it so difficult to keep clean voter rolls. Federal law, not state law, is what allows people to register to vote before a runoff even if they weren't registered for the general election. Now that Senators Perdue and Loeffler are concerned about elections, hopefully they can fix these federal laws.

My job is to follow Georgia law and see to it that all legal votes, and no illegal votes, are counted properly and accurately. As Secretary of State, that is my duty, and I will continue to do my duty. As a Republican, I am concerned about Republicans keeping the U.S. Senate. I recommend that Senators Loeffler and Perdue start focusing on that.

Ralph will have to investigate that. We'll likely have to go through all of the envelopes to make sure credit for voting was given to all. I don't know if you've ever watched batches get scanned, but I've the work many times. That scanning process for credit involved many error messages and they are unclear and it us hard to discern whether the information was scanned or saved on some batches. eNet us less than efficient. I'd invite you to come over and watch that sometime to give you an idea of what happened in that process from a as country perspective. It's very frustrating.

Good Afternoon Chris,

I hope you are doing okay.

I wanted to give you a heads up – a lawsuit was filed against my Board, and me, last night.

I have attached for your information.

It is my county attorney's opinion that these lists are not subject to open records.

An emergency hearing was called for this morning. I was in court until just after 11am. The judge ruled in our favor; we will not be providing these lists to requestors.

Please let me know if you have any questions.

Thank you,

Subject: Re: Fulton County video

Echoing Sam,

Can we confirm all the Fulton county absentee ballot drop boxes have video recording? I know by law they must, and want to confirm they do. **Legislators want to know the extent to our investigation into Fulton Arena, if GBI can do an investigation, and if they can get a report. Can you please draft an official response?**

The previous answer provided on the 11.20.2020 Legislator FAQ is listed below for reference:

Did Fulton County count ballots without observation? This particular issue remains under investigation. The Secretary of State's office had a State Election Monitor and a state POST Certified Investigator who remained with the Fulton County workers, even though some party-appointed poll watchers may have left. **Since both the observer and investigator remained with Fulton County workers, scanning was observed by the Secretary of State's Office at all times.** Late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left some allegedly stated that they were, "done counting for the night." Some party observers have stated they were told they needed to go.

Gabriel,

I saw a response you wrote on social media explaining what happened in Fulton County on someone else's post. Would you be willing to write up something more formalized that we can send to legislators? We are getting requests from legislators to help them understand what happened.

Also, I sent the following to Brian and Blake this morning. Please let me know if I should send it to someone else:

Are you guys able to get me the following information so that I can respond to legislators when they ask?

1. How many absentee ballots were accepted in Fulton?
2. How many absentee in person votes in Fulton?
3. How many Election Day voters were there in Fulton?
4. Are the number of voters checked in with Fulton equal the number of those three above added up? (It would be deeply troubling if the number of checked in voters is lower than those 3 above)
5. Do we have turnout percentages for the state and how Fulton compared in terms of turnout to the rest of the state?

Sam Teasley
Office of Secretary of State

Thanks, Ryan. Is there any way that you can provide a single comprehensive list? Our data team has been pulling the daily new voter registration tabs into their own master list, but they would like to double check that their master list matches the information your offices has compiled.

Interestingly, based on the lists provided to date, we have determined that at least 64 current inmates appear to have registered to vote. Our concern, of course, is that some of these inmates are felons. The first excel, Fulton County Prison New Reg, provides the names and details for 64 new registrants from the prison. All have registration status listed as pending. The second excel, Fulton County Prison ABs, shows that 52 of those 64 new registrants have requested an absentee ballot, with 51 having received an absentee ballot. The application date for all 64 of these applicants was 11/30, with the ballots being issued on 11/30 or 12/1.

The rest of the analysis on voters from out-of-state is progressing, and I hope to provide you a complete update on that within the next week.

Separately, have y'all had any success requesting video feed from the drop boxes? We are experiencing resistance from both Dekalb and Fulton Counties on obtaining daily video feeds.

RNC and GA GOP filed another lawsuit. Link is below and fox news story is here: https://www.foxnews.com/politics/rnc-georgia-lawsuit-gop-poll-watchers-senate-runoffs

They are suing to make sure observers are allowed in January 5 and to clarify rules around absentee ballot drop box observations, acc to the Fox news write up.

Draft statement:

"The Secretary of State's office has repeatedly instructed county elections officials to ensure access for observers. We have also made it clear that absentee ballot drop boxes need to be monitored 24/7. David Shafer and the Georgia GOP need to stop passing the buck for failing to deliver Georgia for Trump and actually focus on getting out the vote in January."

> And Mitchell Harrison's affidavit is immediately after Branton and it is identical to the previous one.
>
> He never said he was told to leave:
>
> 8. Sometime after 10 o'clock p.m., the counting activity slowed. Shortly afterward, a younger lady with long braided but blond hair yelled out to all of them they should stop working and come back tomorrow (the next day, Wednesday November 4th) at 8:30 A.M.. Thereafter, all but 4 election employees left State Farm, leaving just the blond haired lady (who Michelle and I assumed was the supervisor), two older ladies and Regina Waller at the location. This lady had appeared through the night and Michelle and I believed her to be the supervisor.
>
> Similar language by Branton:
>
> 7. As the night progressed, most of the staff processing the removal of the inner envelopes and ballots from the outer envelope of the Absentee Ballots stopped working; however, there was one employee that continued working when the others had stopped. That last employee to finish was a younger woman. After that last employee completed her stack at approximately 10:30 p.m., a woman across the room where the scanners were allegedly located yelled to everyone to stop working and to return the next day at 8:30 a.m. This lady had appeared through the night and Mitchell and I believed her to be the supervisor. The supervisor was an approximately 35-35 year old female, with hair that was blonde and braided which came at least to the middle of her back in length.
>
> 8. After the "supervisor" gave her instruction, nearly all of the staff workers left, except the supervisor described above, another much older lady that had a shirt on that said "Ruby" on it, and one other lady that I cannot recall her appearance, and Regina Waller, the Public Affairs Manager for Elections. so, at the time that work stopped at about 10:30 I recall those four employees remaining.

Subject: voting question

Mr. Andridge,
I had your email question forwarded to me. Your original question was:
"I am a registered voter in Fulton County and would like to vote in the U.S. Senate Runoff Election in Georgia. I plan to move to another state on December 6 when my apartment lease ends. Will I be able to vote in the runoff election?"
Here are some things to consider:
In order to be eligible to vote in Georgia, you must be a Georgia resident (OCGA 21-2-216).
Without knowing all the details of your move and your plans, I cannot give you an absolute answer.
The facts might depend on if you plan to return, or if you are moving temporarily, or if you are in the military, or college, etc.
The legality also could depend on if you voted absentee before you moved and stopped being a resident of the state.

The law for determining residency (OCGA 21-2-217) for voting is pasted below:

(a) In determining the residence of a person desiring to register to vote or to qualify to run for elective office, the following rules shall be followed so far as they are applicable:

(
1
)

The
residence
of
any
person
shall
be
held
to
be
in
that
place
in
which
such
person
'
s
habitation
is
fixed
,

AMERICAN OVERSIGHT

without any present intention of removing therefrom;

(2) A person shall not be considered to have lost such person's residence who leaves such person's home and goes into another state or county or municipality in this state, for temporary purposes only

AMERICAN OVERSIGHT

,
with
the
intention
of
returning
,
unless
such
person
shall
register
to
vote
or
perform
other
acts
indicating
a
desire
to
change
such
person
'
s
citizenship
and
residence
;

(
3
)

A
person
shall
not
be
considered
to
have
gained
a
residence
in
any
county
or

AMERICAN OVERSIGHT

municipality of this state into which such person has come for temporary purposes only without the intention of making such county or municipality such person ' s permanent place of abode ;

(4)

If a person removes to another state with the intention of making it such

AMERICAN OVERSIGHT

person
'
s
residence
,
such
person
shall
be
considered
to
have
lost
such
person
'
s
residence
in
this
state
;

(
4.1
)

If
a
person
removes
to
another
county
or
municipality
in
this
state
with
the
intention
of
making
it
such
person
'
s
residence
;

AMERICAN OVERSIGHT

such person shall be considered to have lost such person's residence in the former county or municipality in this state;

(5) If a person removes to another state with the intention of remaining there an indefinite time and making such state such person

AMERICAN OVERSIGHT

s
place
of
residence
,
such
person
shall
be
considered
to
have
lost
such
person
'
s
residence
in
this
state
,
notwithstanding
that
such
person
may
intend
to
return
at
some
indefinite
future
period
;

(
6
)

If
a
person
removes
to
another
county
or
municipality
within

AMERICAN OVERSIGHT

this state with the intention of remaining there an indefinite time and making such other county or municipality such person ' s place of residence , such person shall be considered to have lost such person ' s residence in the former county or municipality , notwithstanding that such person may intend to

AMERICAN OVERSIGHT

return at some indefinite future period ;

(7)

The residence for voting purposes of a person shall not be required to be the same as the residence for voting purposes of his or her spouse ;

(8)

No person shall be deemed

AMERICAN OVERSIGHT

to have gained or lost a residence by reason of such person's presence or absence while enrolled as a student at any college, university, or other institution of learning in this state;

(9) The mere intention to acquire a new residence;

AMERICAN OVERSIGHT

without the fact of removal, shall avail nothing;

neither shall the fact of removal without the intention;

(10)

No member of the armed forces of the United States shall be deemed to have acquired a residence in this state by reason of being

AMERICAN OVERSIGHT

stationed on duty in this state;

(11) If a person removes to the District of Columbia or other federal territory, another state, or foreign country to engage in government service, such person shall not be considered to have lost such person's

AMERICAN OVERSIGHT

residence in this state during the period of such service;

and the place where the person resided at the time of such person's removal shall be considered and held to be such person's place of residence;

(12) If a person

AMERICAN OVERSIGHT

is
adjudged
mentally
ill
and
is
committed
to
an
institution
for
the
mentally
ill
,
such
person
shall
not
be
considered
to
have
gained
a
residence
in
the
county
in
which
the
institution
to
which
such
person
is
committed
is
located
;

(
13
)

If
a
person
goes

AMERICAN OVERSIGHT

into another state and while there exercises the right of a citizen by voting, such person shall be considered to have lost such person's residence in this state;

(14) The specific address in the county or municipality in which a person has declared

AMERICAN OVERSIGHT

a homestead exemption, if a homestead exemption has been claimed, shall be deemed the person's residence address;

and

(15) For voter registration purposes, the board of registrars and, for candidacy residency purposes, the Secretary of State, election

AMERICAN OVERSIGHT

superintendent
,
or
hearing
officer
may
consider
evidence
of
where
the
person
receives
significant
mail
such
as
personal
bills
and
any
other
evidence
that
indicates
where
the
person
resides
.

(
b
)

In
determining
a
voter
'
s
qualification
to
register
and
vote
,
the
registrars
to
whom

AMERICAN OVERSIGHT

such application is made shall consider , in addition to the applicant ' s expressed intent , any relevant circumstances determining the applicant ' s residence .

The registrars taking such registration may consider the applicant ' s financial independence , business pursuits , employment , income sources , residence for income

AMERICAN OVERSIGHT

tax purposes, age, marital status, residence of parents, spouse, and children, if any, leaseholds, sites of personal and real property owned by the applicant, motor vehicle and other personal property registration, and other such factors that the registrars may reasonably deem necessary to

AMERICAN OVERSIGHT

determine the qualification of an applicant to vote in a primary or election.

The decision of the registrars to whom such application is made shall be presumptive evidence of a person's residence for voting purposes.

Good morning, Ryan,

I can add "if there is a charge" to the end of the last sentence. That would better capture Ms. Le's motion.

(5) Video recordings of the drop box locations must be retained by the county registrars for 30 days after the final certification of the election, or until conclusion of any contest involving an election on the ballot in the county jurisdiction, whichever is later, and shall be made available to Secretary of State investigators upon request or to the public, upon request, as soon as possible at a charge that is not cost prohibitive to the public, if there is a charge.

Subject: Signature match settlement agreement

Here are the steps in the absentee process:

1. Voter requests absentee ballot. If requested from the online portal (about ⅓ of absentee mail voters used this option), they obviously don't sign, but it has to be matched to their Drivers License number. If they don't use the portal (other ⅔), then they have to sign the application and the county elections office checks that signature against what's on eNet. Once that signature is confirmed, the ballot is mailed to the voter.

2. Upon returning the absentee ballot, the county elections office verifies the signature off of what is on file (could be multiple versions of signatures) in eNet, or the signature from the application. Once the signature is confirmed, the ballot is then separated from the envelope and is ready to scan. Therefore, the secret ballot required by the GA Constitution is maintained and there is no way to now connect that signature on the envelope back to the ballot.

Regarding the settlement agreement from March:

The Democrats had sued to challenge the signature match provision. They sought to signature match unconstitutional due to alleged unequal application throughout the state. The settlement agreement that was reached required that the Democrats release all claims on that suit and the SOS agreed to issue an Official Elections Bulletin (OEB) to the counties setting forth a recommended process for conducting signature match. The standard for absentee applications is that they must be matched to a signature on file with eNet. The standard for returned absentee ballots is that the signature on the envelope would have to be matched to a signature on file with eNet or with the signature from the application (because the signature on the application has already been matched with the signature on file). If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature didn't match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already in use by many counties regarding signature match - so the effect of this settlement agreement was to have the OEB state what was already common practice.

The rejection rate for missing or non-matching signature on absentee ballots was the same for the 2018 and 2020 general elections. There are some saying that the rejection rate is considerably lower from 2018 to 2020. The most common I've seen is that the rejection rate was 3.5% from 2018 to .15% this year. Both of those numbers are wrong, and even using accraute numbers, it's like comparing one slice of an orange to an entire orange.The overall rejection rate for absentee ballots for all reasons in 2018 was 3%. That includes ballots

AMERICAN OVERSIGHT

returned after the deadline (which is the largest reason ballots are rejected). The number for signature issue rejections in 2018 was 0.18%; the same rate as 2020. And because we had a cure period in 2020, that means that counties initially flagged a higher rate of ballots for signature issues than 2018, but some were cured by the voter by turning in a signed affidavit and copy of their photo ID. The overall absentee ballot rejection rate for 2020 is not known yet because counties have not yet completed putting in absentee ballots that were rejected for arriving late. I expect the overall rejection rate in 2020 will be lower than 2018 given the attention that campaigns are parties were giving absentee ballots. The overall rejection rate for the 2020 primary was a little over 1%, and I wouldn't be surprised to see a similar rejection rate for the 2020 general. One thing we have not seen yet are credible allegations of widespread forgeries on absentee ballots. We have found a couple family members who voted for voters who died, and they are under investigation. If there are any specific allegations of forged signatures on absentee ballots, we will investigate all that we receive. If there are any credible allegations of counties not verifying signatures, we will investigate those too.

I just heard back from Ryan Germany, the General Counsel with the Secretary of State's Office.

Attached is the Emergency Rule that the State Election Board just adopted on drop boxes, the video footage, and open records.

Ryan noted:

> See attached. Where it landed was we are adding that the footage has to be made available to the public (it already would have been considered an open record) at a cost that is not prohibitive. I think counties will be getting a lot more open records request for this footage this time around than they did previously, so they should probably plan on having a way to provide it that is not too costly. Maybe going ahead and creating a daily backup for each drop box so that it can be made available upon request. I said in the meeting that our investigators had not had issues getting access to video footage, but we were generally asking for a specific box and specific time periods based on the allegation we were investigating. I think the requests you will get from campaigns/parties will be for the full footage for a day. One of their big concerns seems to be that the drop boxes are closed on time at 7:00 p.m. on Election night. Happy to discuss further at your convenience.

Thanks,
Ryan

Todd –

In addition to the underlined language, there were some changes in paragraph 3 from the original rule that you sent me. Those changes resulted in at least one typo and a phrase that lacks some clarity. I've highlighted those in the attached, for what it's worth and in case you believe those should be pointed out to Mr. Germany.

Frances—can you open an investigation into the Studio Way address in the attached spreadsheet. Looks like multiple ballots were sent to the attention of Molly Honea. Could be a potential ballot harvesting issue or maybe she just handles the mail. It's a little weird to see that number of ballots going to a movie studio.

Thanks,
Ryan

Subject: Election 2020 Fraud in Georgia

Prior to the election Cobb County Georgia published on the Internet, sensitive/confidential information for all registered voters.
This information includes voter's id, full name and state-id (which I presume could be a driver's license numer).
This allowed anyone with fraudulent intent, to pose as and vote on behalf of a registered voter without the voter's knowledge.
This is a violation of **Ga. Code Ann., § 21-2-225**, which states: "pursuant to subsection (c) of Code Section 21-2-220 and subsection (c) of Code Section 21-2-417, the month and day of birth, the social security numbers, and **driver's license numbers** of the electors, and the locations at which the electors applied to register to vote, which **shall remain confidential** and shall be used only for voter registration purposes; provided"

Here is the 1051 page list:
https://s3.us-west-2.amazonaws.com/cobbcounty.org.if-us-west-2/prod/2020-06/09Jun20Elections_VoterList.pdf

For posterity, I have archived the list here, in case someone tries to remove the original:
https://web.archive.org/web/*/https://s3.us-west-2.amazonaws.com/cobbcounty.org.if-us-west-2/prod/2020-06/09Jun20Elections_VoterList.pdf

Furthermore, I am a computer programmer, I have looked at the raw election return data, and I am willing to corroborate and testify under oath that votes were changed and how.

Gabriel Sterling, Georgia Secretary of State÷s office
Senator Burt Jones
Senator Bil Cowsert
Representative Tom Kirby
Secretary of State Brad Raffemspergerer
Lori,

Per our discussion, below is an email which I received today from one of the Walton County recount officials, a CPA who alleges data manipulation in our voter results.

I wanted to get this information to your office and I am copying my contacts at the Secretary of State÷s office for review and infestation.

I look forward to meeting with you in the morning at 9:00am to better understand what happened with the missing disk in the Between, Georgia precinct. Thank you and our entire team at the Walton County Board of Elections for your efforts to have safe and secure elections for our county!

Many thanks!

Senator Jones and Representative Williamson,

I was honored to recount votes in Walton County. I have no criticisms of the process and [illegible].

AMERICAN OVERSIGHT

I am a CPA and have experience with numbers and systems. After the count was completed, I requested and was given an electronic copy of the General Election and Recount results. I analyzed these results yesterday and found evidence of systems manipulation.

I've attached the e-mail I sent to Mayor Martinez of Loganville with my spreadsheets and copies of the questionable totals. Martinez was one of the official observers. I also sent this information to Rep. Jody Hice whose staffer suggested I send it to you as well.

Please get to the bottom of this election fraud. I support a recall of both the Secretary of State and the Governor. This should never have happened.

Margaret Hubbard

To: [redacted]; mark.elliott@mail.house.gov
Subject: FW: Details from Walton Co Recount we discussed

Rey,

Thanks for returning my call yesterday. I am very excited to be a part of this important process to protect our Republic from those who would steal our freedoms.

In the attached Details for Martinez Excel file is a tab which shows the details from the missing batch from Between. I was told that omission has been corrected. They said that the software did not notify them that a batch was missing although it should have so they did not know to look for it until the recount and the questions raised by different totals.

I also created a tab for each of the 5 precincts' details I summarized whose numbers did not add correctly and PDF's of those Election Summary Reports. In each of those incidences, the three candidates' detail did not total to the calculated total (first number on my detail sheet). The only way I know of for this to happen is if there are invisible fractions of votes in the candidates' numbers which make the final number larger than it should be. The 1 or 2 vote total difference in insignificant; the evidence of algorithmic manipulation is the critical issue.

Also, I've attached a scanned copy of the Election Summary Report cover page 12/12/2020. I do not have a digital copy of that report. I circled the incorrect totals for Advanced Voting (off by 1) and Absentee by Mail (off by 7). How can this happen except through improper manipulation?

Again, I found no fault with any of the people involved in the Walton County recount.

Please let me know if I can be of any further service.

Margaret Hubbard

Subject: RE: NCOA Data to Evaluate

Brian—is it possible to set up an owncloud link where Alex can share the below files with us that are too big to email?

Alex—would it be possible to look at the absentee file and get a file for any ballots that were mailed to an address within the same county as the registered voter, but different than the voter's registered address?

Thanks,

AMERICAN OVERSIGHT

Ryan

Jordan and Ryan,
Attached are two files. The first one is an NCOA file; it is filtered currently on Ballot Status = A and State everything other than GA. This used the postal service voter name and address to create its output.

The second file are some records where ballots were sent to a Studio business in the ATTN to a Molly Honea. You may have more records that include her, but it seemed odd to us. This file has a second tab, but I think the tab is just Mercer students, so that tab may be ok. I spot-checked some students, and some I was able to find as students and others I was not.

I hope this helps.

Good Afternoon C

I am sure you are aware of this□.but just in case□□ we have had several reports this morning from people □ some from assisted living communities, as well as the one below □ about someone going door to door asking for voter information in order to cure absentee ballots.

The person at the assisted living/senior community was apparently asking for social security number/date of birth and a copy of the voter□s ID. We have referred them to the Sheriff□s Office and they have been in touch to discuss.

Several people who have contacted us are not someone that we have a ballot for. Several never returned their ballot □ or we cancelled and reissued them a ballot weeks ago □ and never received the reissued ballot. It appears these groups are not reaching out to the correct voters on the list.

Please let me know if you have any questions.

Thank you,

-Mandi

This appears to be the follow up when a voter says they are interested in voting absentee. Is that a tracking link that counts how many people click on it?

The bvmga link goes to the ballot request portal.

Subject: RE: Election Board Rule - Drop Boxes

Liz and Todd,

See attached. Where it landed was we are adding that the footage has to be made available to the public (it already would have been considered an open record) at a cost that is not prohibitive. I think counties will be getting a lot more open records request for this footage this time around than they did previously, so they should probably plan on having a way to provide it that is not too costly. Maybe going ahead and creating a daily backup for each drop box so that it can be made available upon request. I said in the meeting that our investigators had not had issues getting access to video footage, but we were generally asking for a specific box and specific time periods based on the allegation we were investigating. I think the requests you will get from campaigns/parties will be for the full footage for a day. One of their big concerns seems to be that the drop boxes are closed on time at 7:00 p.m. on Election night. Happy to discuss further at your convenience.

Thanks,
Ryan

AMERICAN OVERSIGHT

Constituent Worried About Signature Match

Thank you for reaching out to us.

Claims that signature match was weakened in Georgia are 100% false.

As Secretary of State, I was the first to take steps to limit voter fraud with absentee ballots since a Republican legislature voted for no-excuse absentee ballot voting in 2005.

One of my first steps as Secretary of State was to OUTLAW ballot harvesting, which has let fraud to go unchecked in California.

For the first time in Georgia history, we launched an electronic portal that REQUIRED photo ID to request an absentee ballot.

Lastly, we worked with the Georgia Bureau of Investigation to train elections workers on signature match. These highly trained officials conduct signature match *twice* during the absentee ballot process, securing votes in Georgia and helping make sure that each person gets one vote.

Thank you for your support,

Brad Raffensperger
Secretary of State

Constituents Echoing Claim that the Recount Should Match Signatures Again

Thank you for reaching out to us.

As Secretary of State, I strengthened our signature match process. Any person who votes by absentee ballot needs to have their signature matched twice during the process. Those who requested a ballot online through our portal needed a photo ID, such as a drivers' license, to do so.

Absentee ballot voting is secure and double-verified.

We will not allow voter intimidation by caving to demands that we eliminate the secret ballot. Having absentee ballots be traceable to the person who voted them after the ballot has already been cast would do just that.

We take several steps to ensure all voters are legal voters and that all votes cast are legal ones. Any suggestion that Georgia's system is anything but 100% secure is false and total disinformation.

Thank you for your support,

Brad Raffensperger
Secretary of State

Constituent Worried About Absentee Voting Generally

Thank you for reaching out.

President Trump has repeatedly endorsed the absentee ballot system we have in Georgia. He has said several times on Twitter and in interviews that absentee ballots are fine as long as they have to be requested. In Georgia, absentee ballots have to be requested for every election.

As Secretary of State, I have strengthened signature and taking the first steps to increase the integrity of absentee ballot voting since a Republican state legislature passed no-excuse absentee voting in 2005. We have taken significant steps to clean our voter rolls regularly and get lists of felons and people who have passed away regularly to remove ineligible voters.

Our absentee ballot voting system is safe and secure. Any suggestion otherwise is a lie.

AMERICAN OVERSIGHT

Thank you for your support,

Brad Raffensperger
Secretary of State

Constituent Worried About Dominion

Thank you for reaching out.

Dominion Voting Systems is entirely American-owned. Any claims otherwise are totally false and inaccurate.

Additionally, Dominion Voting Systems do not change ballots. That has been proven false repeatedly. It is complete disinformation.

The audit-triggered hand recount focuses on the plain English written choices of the voters. If they voted in person, the ballots say either Donald J. Trump, Joseph R. Biden, or Jo Jorgensen, in plain English, and voters were told to double check their selection before casting. For absentee ballot voters, the selection will be identified by the oval filled in by the voter by hand.

After ballots were counted by scanners the first time around, this hand recount will provide verification of the security and reliability of Georgia's voting system. Any claim otherwise is 100% false.

Thank you for your support,

Brad Raffensperger
Secretary of State

Constituent Worried About Monitors for the Recount

Thank you for reaching out.

This recount is being conducted with unprecedented openness and transparency.

Every county is required under the rules and regulations set out by my office to allow party monitors unfettered access to watch the recount for any issues. I have stressed this issue repeatedly to the counties.

Each party is entitled to appoint one monitor per ten audit tables, a ratio that both the Republican and Democrat parties agreed to before the Georgia Republican Party later backtracked. Press and anyone else from the general public can watch from a designated zone to make sure they aren't interfering with the recount itself.

I have also called on counties to livestream the recount whenever possible.

This audit is open and transparent. Any suggestion otherwise is a lie and total fake news.

Thank you for your support,

Brad Raffensperger
Secretary of State

Secretary Raffensperger Issues Warning Against Activist Groups Helping Out of State Illegal Voters: 'We will catch you. We Prosecute.'

(ATLANTA) – Secretary of State Brad Raffensperger issued a warning to groups that are helping individuals move to Georgia solely for the purpose of voting in the January Senate runoffs elections. Groups that finance or organize such efforts are involved in conspiracy to commit voter fraud and could be charged under Georgia's Racketeering Conspiracy laws.

"Make no mistake about it, I will seek to prosecute those who seek to undermine our elections to the fullest extent of the law," said Raffensperger. "The integrity of our elections is paramount. Outside groups who seek to interfere with democracy in Georgia should be forewarned that the consequences will be severe."

Georgia law is clear about the seriousness of the crime committed by those who looking to come to Georgia solely for the purpose of voting in the January 5 Senate runoff elections.

OCGA § 21-2-21(a)(4) requires that registrants be "a resident of this state and of the county or municipality in which he or she seeks to vote." O.C.G.A. § 21-2-217(a)(1) adds that "the residence of any person shall be held to be in that place in which such person's habitation is fixed, without any present intention of removing therefrom;" this would include individuals who move to Georgia solely for the sake of casting a ballot in an election with no intention of remaining in the state.

False registration, i.e. someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).

Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors can also be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 PER COUNT (O.C.G.A. § 16-14-5).

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record overall, early, in-person, and absentee-by-mail turnout during the November 2020 elections.

Hey, here's my suggested revisions. I looked up what Yang said, and I all I could find was that he said he was "moving" here but never said he was going to register. He later clarified that he's not registering. Nevertheless, his comments raised this issue and concerned people. That's the direction I took, but kept the point.

Hi Blake, Ryan and Chris,

Would it be possible for you to forward the communication that you will be sending to the counties on the provisions of access that Carter Center monitors will receive?

We would like to be able to have that on file, and also be able to share it with our observers so that they can show it to county election officials if there any questions about the degree of access for our monitors since our current accreditation documentation calls us observers.

Many thanks,
Avery

Ryan –

Good morning. In case this hasn't crossed your radar yet (the Secretary is supposedly copied, along with outside counsel), multiple counties have received the attached request for documents associated with the Wood v. Raffensperger suit. I know that your office has issued some bulletins in recent times relating to election-related document requests. Please let me know if you'd be willing/able to discuss. From our end, we do want to help counties respond in a consistent and legally appropriate manner.

Thank you,
Larry

From: county-attorneys <COUNTY-ATTORNEYS@LISTSERV.ACCG.ORG> **On Behalf Of** Ramsey, Larry
Sent: Tuesday, November 24, 2020 12:50 PM
To: COUNTY-ATTORNEYS@LISTSERV.ACCG.ORG
Subject: State Elections Board - Rules adopted 11/23/20

All –

I have attached the rules adopted by the State Elections Board yesterday that will impact county elections operations for the upcoming runoffs. The "Scanning" rule now requires county election superintendents to open and scan absentee ballots in advance of election day (the prior version of the rule authorized such actions but did not mandate it).

The attached drop boxes rule adds language regarding public access to video recordings of drop boxes (paragraph 5). While not shown as changed text, paragraph 3 also is revised from the original rule (adopted earlier this year) to make it applicable to runoff elections. Yes, I recognize there is a typo and that the phrase at the end of the first sentence of paragraph 3 is unclear (it appears that the words "on Election Day" were not included). However, considering that first sentence relates to the elections that have already occurred this year, I don't believe that should pose a problem for the upcoming runoffs.

In a singular email:

State Farm Video Debunked by WSBTV:
https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/

For the third time, counties across Georgia have certified votes from November□s presidential election.

The outcome is not expected to change, but legal challenges are still underway.

One involves a video from State Farm Arena that has since gone viral. President Trump□s lawyers and other supporters call it the smoking gun, proving election fraud.

Content Continues Below

AMERICAN OVERSIGHT

Channel 2 investigative reporter Justin Gray spent the day with Georgia election officials, going through the video frame-by-frame to show everyone what really happened.

Gray looked not at just the short clip the Trump campaign shared, but the critical hours before and after that clip as well.

State election investigators have already spent hours analyzing the video showing what Trump's personal attorney Rudy Giuliani said was suitcases being pulled from under a table.

They were, in fact, official, sealed ballot containers.

"We can show exactly when they were placed in there," lead investigator France Watson said. "

Watson said they weren't mystery ballots that came from a mystery location.

Video taken hours before shows the table being brought into the room at 8:22 a.m. Nothing was underneath the table then.

At 10 p.m., with the room full of people, including official monitors and the media, video shows ballots that had already been opened but not counted placed in the boxes, sealed up and stored under the table.

The reason? Employees thought they were done for the night.

"They were closing things up and getting ready to leave," Watson said.

Here's where the confusion comes in:

Media and observers left as employees packed up. But Fulton's election director called a supervisor at State Farm a few minutes later, telling them to keep counting after the Secretary of State's office called and said they shouldn't stop counting for the night so early.

After that call, employees pulled the containers of ballots back out and went back

AMERICAN OVERSIGHT

to work.

¤No magically-appearing ballots,¤ Gabriel Sterling with the Secretary of State¤s office said. ¤These were ballots that were processed in front of the monitors, processed in front of the monitors and placed there in front of the monitors.¤

So what about the time gap between when the media and observers left and then the observers returned about an hour later? Employees scanned ballots.

¤These are just typical everyday election workers are just doing their jobs,¤ Sterling said. ¤This is not some Ocean¤s Eleven-level scheme being put together in the middle of the night.¤

There was about an hour that workers scanned ballots before a state monitor arrived, but video shows those moments. The monitor then observed counting until they stopped for the night. The lead election investigator has looked at all that video and said that she saw no evidence of any wrongdoing.

Subject: Final Approval requested 12.04.2020

Jordan,
Please see the final version for your consideration with review from Sam, Ryan, and Frances. We have had positive feedback on keeping these just the facts.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

- **Video footage from State Farm Arena has already been reviewed:** https://www.wsbtv.com/news/politics/georgia-election-officials-show-frame-by-frame-what-really-happened-fulton-surveillance-video/T5M3PYIBYFHFFOD3CIB2ULDVDE/
- The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
- Fulton County was assigned an independent elections monitor as part of the State Election Board investigation

AMERICAN OVERSIGHT

- into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries
- State Election Board Duties: https://sos.ga.gov/index.php/elections/state_election_board
- Rules and Rulemaking of the State Election Board: https://sos.ga.gov/index.php/elections/state_election_board
- RULE 183-1-14-0.8-.14 Secure Absentee Ballot Drop Boxes: https://sos.ga.gov/admin/uploads/Rule%20183-1-14-0.8-.14%20Secure%20Absentee%20Ballot%20Drop%20Boxes.pdf
- SEB Rule 183-1-14-0.9-.15 Processing Absentee Ballots Prior to Election Day: https://sos.ga.gov/admin/uploads/Rule%20183-1-14-0.9-.15%20Processing%20Absentee%20Ballots%20Prior%20to%20Election%20Day.pdf
- Sign up for State Election Board emails here: https://sos.ga.gov/elections/state_election_board/subscribe.htm

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the

AMERICAN OVERSIGHT

11. county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Ryan,

Will you please review/approve the draft of this version below. I talked with Frances on the Fulton points, and incorporated the changes you suggested on the phone.

Dear Members of the General Assembly,

Please see the information that may be helpful to you in addressing constituent inquiries.

State Farm Arena Video:

1. Video footage from State Farm Arena has already been reviewed: (Insert WSB Link)
   - The footage from the Senate hearing was reviewed by elections investigators, and this is an ongoing investigation.
   - Fulton County was assigned an independent elections monitor as part of the State Election Board investigation

AMERICAN OVERSIGHT

- into the June 9, 2020, Primary Election.
- This independent elections monitor remained with Fulton County throughout the Election Day.
- He left the Arena at approximately 8:30 P.M. and then went to observe tabulation at the Fulton County Warehouse, returning to the Arena at 11:52 P.M. and remaining until all ballots were scanned.
- It is the understanding of the Secretary of State's Office that late in the evening of election night, Tuesday, November 3, 2020, a few Fulton County election workers completed their duties and left. As they left, some allegedly stated that they were, "done counting for the night."
- The Secretary of State's Office is investigating if observers or monitors were told or asked to leave before scanning ended.
- At present, there is not evidence from the independent monitor nor the POST-certified investigator that shows any improper ballots were scanned. The evidence from the video and from SOS Investigator initial investigation is that the video depicts scanning of valid ballots following the same process that Fulton County used throughout the night.

The State Election Board:

- In Georgia, bipartisan county boards of elections and registrations (or in some counties, probate judges) run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections.
- When allegations of non-compliance with election law and regulations occur, the Secretary of State's Office Investigations Division has POST-certified law enforcement officers who investigate.
- Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.
- The State Election Board 2020 meeting minutes may be viewed here: https://sos.ga.gov/index.php/elections/2020_seb_meeting_notices_agendas_and_summaries

A simplified explanation of how votes are uploaded:

1. After a voter makes and confirms their selections using the BMD (Ballot Marking Device), the BMD prints out the voter's secure paper ballot.
2. The voter has the option to review the content of the printed ballot to confirm that the selections they made are present and accurate on the printed ballot. State regulations require a poll worker at the scanner to prompt the voter to review their ballot to ensure its accuracy.
3. The voter inserts their ballot into a precinct scanner.
4. The precinct scanner scans the content of the ballot and records voter's selections; the precinct scanner resides on a sealed ballot box, which then holds the scanned ballot.
5. The information collected by the scanner is saved to two separate compact flash cards sealed within the precinct scanner.
6. At the end of Election Day, a poll worker closes the election on the precinct scanner, and the precinct scanner tabulates all the information it has collected from the ballots inserted. This produces a vote tally tape for that single device.
7. The vote tally tape is posted at the precinct, and the compact flash cards containing the collected information are removed from the precinct scanner and placed in sealed containers for return to the county's vote tabulation center.
8. At the county's vote tabulation center, the compact flash cards are removed from the sealed container and inserted into the county's election management computer, which is not connected to any outside network, for tabulation.
9. The county will then produce election summary reports from the election management computer and export reports needed for the Secretary of State's election night reporting system.
10. The export reports are extracted from the county's election management computer and physically taken to another computer for upload into the Secretary of State's election night reporting system.
11. The Secretary of State's election night reporting system receives uploads from all counties and aggregates the

AMERICAN OVERSIGHT

11. county-calculated results, and displays them for the public.

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

It may be easier or more accessible for each county that has drop boxes to add a link to the footage on their website. We have a open case for Hancock concerning their video as they have reported the inability to retrieve it.

Subject: RE: Fulton County video

Sam,

As to your questions about number of ballots, it is typical for the number of ballots cast to not exactly line up with the credit for voting given. I would say it is more typical for them not to add up exactly. I would encourage legislators to talk to their own counties to see if their numbers add up exactly (they won't). Generally, this is because a poll worker or other worker does not properly enter credit for voting when checking in a voter. It's not evidence of fraud, and it's not like the mismatches only show up in absentee ballots. They show up in in-person voting too where all voters have to show photo ID prior to being allowed.

Subject: Fulton County video

Gabriel,

I saw a response you wrote on social media explaining what happened in Fulton County on someone else's post. Would you be willing to write up something more formalized that we can send to legislators? We are getting requests from legislators to help them understand what happened.

Also, I sent the following to Brian and Blake this morning. Please let me know if I should send it to someone else:

Are you guys able to get me the following information so that I can respond to legislators when they ask?

AMERICAN OVERSIGHT

1. How many absentee ballots were accepted in Fulton?
2. How many absentee in person votes in Fulton?
3. How many Election Day voters were there in Fulton?
4. Are the number of voters checked in with Fulton equal the number of those three above added up? (It would be deeply troubling if the number of checked in voters is lower than those 3 above)
5. Do we have turnout percentages for the state and how Fulton compared in terms of turnout to the rest of the state?

Secretary of State's Office Debunks Ware County Voting Machine Story

(ATLANTA) – The Secretary of State's Office said Monday there is no truth to allegations circulating in social media that voting machines in Ware County had been seized or that they somehow revealed tampering.

"This is another of the falsehoods being pedaled by conspiracy advocates trying to convince the gullible why the presidential election didn't turnout as they'd hoped," said Walter Jones, former conservative news journalist. "No voting machines have been seized. No one has unearthed evidence of 'vote flipping' because it didn't happen. And no one has discovered some secret algorithm for altering the election outcome because that's nonsense."

A statewide hand recount as part of a post-election audit resulted in a difference of 37 additional votes for the president in Ware County. That totals 0.26 percent, well below the average 1-2 percent variation demonstrated by academic research when comparing the accuracy of manual counts compared to machine counts because of normal human error. This small vote change is evidence of humans being less precise than machines at counting, and nothing more. To allege that it somehow proves the machines flipped votes is irresponsible and reckless, Sterling said. The results of the hand recount statewide would have showed a consistent variation similar to the one in Ware County if there really had been a secret algorithm. Instead, the hand recount showed the machine totals substantially reflected the plain text printed on the ballots.

Ware County Election Supervisor Carlos Nelson pooh-poohed the conspiracy theory as instead a "human-error tabulation issue."

"I can tell you this is —I don't want to cuss — this is a darned lie. Our vote machines are secure. There's no vote-flips," he told Politico on Monday.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record turnout in 2020, with over 1.3 million absentee by mail voters and over 3.6 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

Ryan -

Hope you are well. Sorry for just getting back to you – crazy Monday. Following up on our call from last night:

- **Signature Verification Process:** Can you please send me a copy of the bulletin once it goes out?
- **New Voter Registration List:** Can you please send me a copy of a comprehensive voter registration list? I will separately follow-up with you in another email tomorrow about the data we have been able to collect.
- **Voting Rights Groups Targeting Unqualified Voters:** As discussed, there may be both a federal and state basis for criminally pursuing the illegal out-of-state vote recruiters. The VRA (among other things) provides means for the DOJ to prosecute. *See* 52 U.S.C. §§ 10307(c), 20511(2). Separately, GA Code Section 16-2-20(a), which is even broader, provides a hook for the GA State AG or a County DA to prosecute this activity. *Id.* ("Every person concerned in the commission of a crime is a party thereto and may be charged with and convicted of commission of the crime.").
- **Voting Registration Lists Containing Voters in Other States:** I have discussed this issue with several individuals today and hope to have more information within the next day or two. Short story, there are active efforts being taken to collect this information. I'll provide a better update once I understand the current status of those efforts.

Let me know if you have any questions.

Best,
Trey

Thanks, Ryan. Is there any way that you can provide a single comprehensive list? Our data team has been pulling the daily new voter registration tabs into their own master list, but they would like to double check that their master list matches the information your offices has compiled.

Interestingly, based on the lists provided to date, we have determined that at least 64 current inmates appear to have registered to vote. Our concern, of course, is that some of these inmates are felons. The first excel, Fulton County Prison New Reg, provides the names and details for 64 new registrants from the prison. All have registration status listed as pending. The second excel, Fulton County Prison ABs, shows that 52 of those 64 new registrants have requested an absentee ballot, with 51 having received an absentee ballot. The application date for all 64 of these applicants was 11/30, with the ballots being issued on 11/30 or 12/1.

The rest of the analysis on voters from out-of-state is progressing, and I hope to provide you a complete update on that within the next week.

Separately, have y'all had any success requesting video feed from the drop boxes? We are experiencing resistance from both Dekalb and Fulton Counties on obtaining daily video feeds.

Hello all,

The House Governmental Affairs Committee will be meeting about the General Election on Thursday, December 10th, beginning at 9:00 AM.
Chairman Blackmon has requested that someone from the Secretary of State's Office attend the hearing to speak with the committee and answer questions.

I know previously we have had Ryan Germany, Chris Harvey, and Gabriel Sterling with us and would love if they could join us again. Of course if the Secretary is available, the committee would appreciate his presence as well.

The hearing will be virtual, via Zoom. There will be other speakers, so we don't have an exact time for you guys yet. The morning session would last from 9:00 AM until 12:00 PM and if your office is only available for a certain portion of that, we can adjust the schedule to make sure we hear from your office at the best time for your schedules.

Please let me know if someone from the Secretary's Office can join us and I will get updated details to your office as soon as I have them.

Thank you so much,

Molly Aziz

Attached is the list of voters who have requested an absentee by mail ballot for Jan. 5th and filed an out-of-state NCOA. Many of these people are going to be perfectly legitimate Georgia voters, but some are likely not. Given all the attention on this issue:

Gabrielle—can you draft a letter to send to these voters reminding them that they have to currently hold the qualifications to vote in Georgia to cast a legal ballot. One of those qualifications is that they be a resident of the state and county in which they are voting. Include the factors in 21-2-217 to help them determine residency and include in the letter the common reasons that someone can live out of state and not lose their residency (college, military or other government service, temporary relocation). This should just be very factual.

Chris—I think we should also send this data to the counties so that they are aware, and tell them that many of the voters on this list are going to be perfectly legitimate, but that they should be aware of the issue, especially due to their duties pursuant to 21-2-228 and 381. Their board should determine appropriate action after individualized review of each case.

> I was a poll worker on election day for the Whatley Precinct in Walton County, GA for the general election November 3, 2020. I also participated every day of the recount as a sorter/counter. I did not witness any irregularities in the actions of the Walton County election staff or volunteer workers. The problems that concern me relate to the electronic vote tabulating system. I strongly suspect there is election interference caused by that electronic system.

AMERICAN OVERSIGHT

I have attached my summary spreadsheet of the Walton County Electronic vs. Recount. I have additional documentation if necessary.

Election Day was the only Batch Type which I could segregate to compare to the electronic results since the electronic batches segregated by precinct while the paper ballots for non-Election Day were not similarly segregated. There is a tab on the attached spreadsheet which details the differences by precinct. The valid write-ins on Election Day for the Big 3 candidates totaled 230; they are added to the total at the bottom.

One concern is the difference between electronic and paper ballots by precinct. However, the differences in the counts are considerably higher precinct by precinct. See those differences in Column AA of the spreadsheet. All the differences showed fewer paper ballots than electronic ballots. With the Election Day write-ins for the big 3, the difference is 77 paper ballot votes fewer than electronic. That is distributed as follows:

				Trump	Biden	Jorgensen	
Recount Election Day Total			Total w/WI's	9162	2111	222	11495
ELECTRONIC SYSTEM			Electronic	9202	2145	225	11572
DIFFERENCES Electronic Minus Recount				40	34	3	77
% by Party Differences				51.9%	44.2%	3.9%	
% by Party Recount Election Day Only				79.7%	18.4%	1.9%	

The distribution by party of the differences is considerably off from the total election day proportions. That proportional difference could be caused by the relatively small difference compared to the total. However, remember this is only election day. Election day was only about 23% of the total votes cast. There may also be similar problems in the other batches which warrant further analysis.

On the electronic sheets by precinct, the sum for one of the columns each for Good Hope, South Monroe, West Monroe, Walnut Grove and West Walton was 1 or 2 higher than the correct calculated total. There were no similar differences for the other 16 precincts. How is this possible with whole numbers and small totals? It is possible with an algorithm shaving fractional votes. The fractional votes do not appear. There is no such thing as a fractional vote. However, if there was a .3 or .4 after each of the absentees, the total votes would be 241 rather than the correct 239. See example below:

AMERICAN OVERSIGHT

Precinct	Good Hope		
General Election	Election Day	Advanced Voting	Absentee by Mail
Trump	631	640	154
Biden	52	103	84
Jorgensen	8	6	1
Total Votes	691	749	239
			241
			Wrong Total
			2

I apologize for the somewhat clumsy/clunky spreadsheets and presentation but time is of the essence. This is a critically important issue for Walton County, Georgia and the United States of America.

There seems to be ample evidence for further investigation into the integrity and reliability of the electronic counting system.

Please contact me if I may be of further service.

WALTON COUNTY UPDATE INFORMATION!

AMERICAN OVERSIGHT

To: Gabriel Sterling, Georgia Secretary of State÷s office

Lori Wood, Chair Walton County Board of Elections
Jennifer Phipps, Director Walton County Board of Elections
Kevin Little, Chairman Walton County Board of Commissioners

David Thompson, Chair-elect Walton County Board of Commissioners
Senator Burt Jones
Senator Bil Cowsert
Representative Tom Kirby

Secretary of State Brad Raffensperger

To all concerned:

I failed to copy Mrs. Margaret Hubbard, CPA on my previous email yesterday. A native of Walton County, she and her husband are both CPA÷s and are very well respected members of our community. She assisted in the hand recount at the Walton County Board of Elections, per her introduction at the bottom of this email. She just advised me by phone that she has a more detailed analysis of election day voting, which clearly outlines a 336 vote discrepancy on the reconciliation of the Election Day voting. It is my understanding that the machine tally÷s are 336 votes higher than the paper ballots.

In the interest of time, I have requested that she provide her analysis and explanation via email by copying all of us with this updated information. **I would certainly appreciate the SOS office sending out an investigator to review this situation as soon as possible.**

Kind regards,

Bruce

Lori,

Per our discussion, below is an email which I received today from one of the Walton County recount officials, a CPA who alleges data manipulation in our voter results.

I wanted to get this information to your office and I am copying my contacts at the Secretary of State÷s office for review and infestation.

I look forward to meeting with you in the morning at 9:00am to better understand what happened with the missing disk in the Between, Georgia precinct. Thank you and our entire team at the Walton County Board of Elections for your efforts to have safe and secure elections for our county!

Many thanks!

Bruce

Subject: Details from Walton Co Recount
Date: November 18, 2020 at 10:46:55 AM EST
To: "burt.jones@senate.ga.gov" <burt.jones@senate.ga.gov>,
"bruce.williamson@house.ga.gov" <bruce.williamson@house.ga.gov>
Resent-From: <bruce.williamson@house.ga.gov>

Senator Jones and Representative Williamson,

I was honored to recount votes in Walton County. I have no criticisms of the process and people involved there. I am a CPA and have experience with numbers and systems. After the count was completed, I requested and was given an electronic copy of the General Election and Recount results. I analyzed these results yesterday and found evidence of systems manipulation.

I÷ve attached the e-mail I sent to Mayor Martinez of Loganville with my spreadsheets and copies of the questionable totals. Martinez was one of the official observers. I also sent this information to Rep. Jody Hice whose staffer suggested I send it to you as well.

Please get to the bottom of this election fraud. I support a recall of both the Secretary of State and the Governor. This should never have happened.

AMERICAN OVERSIGHT

Rey,

Thanks for returning my call yesterday. I am very excited to be a part of this important process to protect our Republic from those who would steal our freedoms.

In the attached Details for Martinez Excel file is a tab which shows the details from the missing batch from Between. I was told that omission has been corrected. They said that the software did not notify them that a batch was missing although it should have so they did not know to look for it until the recount and the questions raised by different totals.

I also created a tab for each of the 5 precincts÷ details I summarized whose numbers did not add correctly and PDF÷s of those Election Summary Reports. In each of those incidences, the three candidates÷ detail did not total to the calculated total (first number on my detail sheet). The only way I know of for this to happen is if there are invisible fractions of votes in the candidates÷ numbers which make the final number larger than it should be. The 1 or 2 vote total difference in insignificant; the evidence of algorithmic manipulation is the critical issue.

Also, I÷ve attached a scanned copy of the Election Summary Report cover page 12/12/2020. I do not have a digital copy of that report. I circled the incorrect totals for Advanced Voting (off by 1) and Absentee by Mail (off by 7). How can this happen except through improper manipulation?

Again, I found no fault with any of the people involved in the Walton County recount.

Please let me know if I can be of any further service.

Margaret Hubbard

AMERICAN OVERSIGHT

Georgia Secretary of State Brad Raffensperger states in this letter, dated April 15th, requesting an almost 11 million dollar grant that they mailed out 6.9 million absentee ballot applications for the primary election and that a contractor was mailing the ballots to voters. Raffensperger also stated that they may mail out applications for the primary runoff and general election. Thank goodness the outcry from Republican grassroots about Raffensperger's plans for the primary stopped him from sending out absentee ballot applications during the general election.

Gabriel Sterling is listed in this letter as the Voting System Implementation Manager and gives Sterling's business email address sterlinginnovative@gmail.com Using a gmail address for communication about the voting system is not secure. Sterling previously used gsterling@sos.ga.gov as his email address. Sterling has been all over media giving interviews as a SOS official defending the security of voting machines.

A few questions that I hope will be answered with open records requests that I intend to pursue vigorously .

1. Is Gabriel Sterling still an employee of the Secretary of State's office and if not, when did he leave?

2. Did Raffensperger outsource voting system to Sterling's company and how much did Sterling's company get paid?

3. How many other contractors/business entities received contracts involving voting system implementation/training since January of 2019 and what were the amounts of the contracts?

CLICK TO READ LETTER

Mona Harrington, Acting Executive Director
U.S. Election Assistance Commission
1335 East-West Highway, Suite 4300
Silver Spring, MD 20910

Dear Ms. Harrington:

The purpose of this letter is to certify that the state of Georgia will

AMERICAN OVERSIGHT

use the funds provided under the Notice of Grant Award, Agreement GA2010CARES, for activities consistent with the laws described in Section 906 of HAVA and will not use the funds in a manner that is inconsistent with the requirements of Title III of HAVA. We further certify that we have reviewed and accept the terms of the award as specified in the Notice of Grant Award. Our UEI number 099660420 and the signed Certifications are enclosed.

We are requesting $10,875,912. We will use the funds to prevent, prepare for, and respond to coronavirus, domestically or internationally, for the 2020 Federal election cycle. To address the effects of the coronavirus on the election we have already taken significant steps to mitigate the impact of the crisis on elections in Georgia.

Our office postponed the Presidential Preference Primary twice and the state primary one time to protect voters and poll workers from having to vote at or near peak periods of virus impact.

Georgia mailed 6.9 million absentee ballot applications to voters for the Presidential Preference Primary and is paying to have a contractor mail the requested absentee ballots to the voters who apply for absentee ballots. Georgia may consider providing similar services for the primary runoff and November General Election.

In order to handle the increased volume of absentee ballots, our office will also be purchasing high speed scanners/tabulators for use in the counties. I have also directed electronic adjudication systems be procured and deployed to the counties to allow for a unified and speedier system for ascertaining voter intent on ballots that are in question.

Georgia is attempting to located and purchase PPE and

AMERICAN OVERSIGHT

GA-SOS-20-2913-007474

sanitation supplies for voters and poll workers for all elections this year. Georgia is also offering a grant reimbursement program to counties who expend their own funds in efforts to mitigate the impact of Covid-19 on their election offices, polling places, and other additional expenses caused by the pandemic.

The office will be offering a grant program to counties to allow for monitored drop boxes to allow voters to drop their absentee ballots securely to their county election offices.

If you have any questions about this request, please contact our Statewide Voting System Implementation Manager, Gabriel Sterling, at sterlinginnovative@gmail.com

In addition to the recount being done at the request of the Trump campaign, PSC Commissioner "Bubba" McDonald has requested a recount. He obtained 49.91% of the vote.

Bubba is such a great public servant, I am keeping my fingers crossed he can avoid a runoff.

Note: Links are in red.

NEW: Georgia Elections Officials Extend Use of Ballot Drop Boxes For January Twin Senate Runoff

Excerpts:

Georgia elections officials on Monday voted to extend the use of ballot drop boxes for the January 5 twin Senate runoff where the Republican majority in the Senate is on the line.

The use of ballot drop boxes, which opens the door for illegal ballot harvesting, was set to expire in December, but the 5-member Georgia State Election Board voted to extend the use of drop boxes.

AMERICAN OVERSIGHT

The five-member Georgia State Election Board, chaired by Republican Secretary of State Brad Raffensperger, voted on Monday to extend the use of the 24/7 monitored drop boxes for use through the runoffs. Use of the boxes was originally set to expire in late December.

The move comes amid a surge in absentee ballot requests in the runoff elections. Officials said that as of Monday morning 762,000 requests for absentee ballots had been submitted.

A second rule adopted allows counties to continue to begin processing absentee ballots two weeks before Election Day – but now also mandates them to start processing them no later than a week and one day ahead of the election. But as per Georgia law, none of the ballots would be tabulated and counted until the polls close on Jan. 5.

READ MORE

This is in direct violation of Georgia law.
Georgia Code Title 21. Elections § 21-2-385 clearly states that absentee ballots are supposed to be either mailed or delivered in person to the local election board office. A drop box is not an election board office. The state election board requires they be monitored by video, but the videos are not made public and the local election board can charge you up to $ 15,000 to get a copy so you can view them.

The rule allowing counties to begin processing absentee ballots two weeks before election day violates Georgia law.

During this time the local election board would verify signatures and make sure the ballot is filled out. Will poll watchers be allowed during this time ? The rule violates Georgia Code Title 21. Elections § 21-2-386 (3) which states the processing cannot begin until at 7:00 am election day.

The settlement that Secretary of State Brad Raffensperger agreed to in order to appease Stacey Abrams and the Democrats is in direct violation of Georgia law.

Raffensperger agreed to allowing absentee ballot signatures to match either what is on file with the local election board office OR match the signature on the absentee ballot request. This is a major issue that opens the door wide open to ballot harvesters and election fraud. The settlement also agrees that if the initial review finds that the signature doesn't match, a review panel looks at it for final determination.

AMERICAN OVERSIGHT

This is direct violation of Georgia Code Title 21. Elections § 21-2-386

**which states: "*(B) Upon receipt of each ballot, a registrar or clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or clerk shall then compare the identifying information on the oath with the information on file in his or her office, shall compare the signature or mark on the oath with the signature or mark on the absentee elector's voter registration card or the most recent update to such absentee elector's voter registration card and application for absentee ballot or a facsimile of said signature or mark taken from said card or application, and shall, if the information and signature appear to be valid and other identifying information appears to be correct, so certify by signing or initialing his or her name below the voter's oath. Each elector's name so certified shall be listed by the registrar or clerk on the numbered list of absentee voters prepared for his or her precinct.*

(C) If the elector has failed to sign the oath, or if the signature does not appear to be valid, or if the elector has failed to furnish required information or information so furnished does not conform with that on file in the registrar's or clerk's office, or if the elector is otherwise found disqualified to vote, the registrar or clerk shall write across the face of the envelope "Rejected," giving the reason therefor. The board of registrars or absentee ballot clerk shall promptly notify the elector of such rejection, a copy of which notification shall be retained in the files of the board of registrars or absentee ballot clerk for at least two years. Such elector shall have until the end of the period for verifying provisional ballots contained in subsection (c) of Code Section 21-2-419 to cure the problem resulting in the rejection of the ballot. The elector may cure a failure to sign the oath, an invalid signature, or missing information by submitting an affidavit to the board of registrars or absentee ballot clerk along with a copy of one of the forms of identification enumerated in subsection (c) of Code Section 21-2-417 before the close of such period. The affidavit shall affirm that the ballot was submitted by the elector, is the elector's ballot, and that the elector is registered and qualified to vote in the primary, election, or runoff in question. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be sufficient, the absentee ballot shall be counted.

ACTION ITEM

Call Governor Brian Kemp and ask him to either call a special session of the legislature in order to secure the election and ballot security or to file a court action against Brad Raffensperger and the Georgia Election Board for changing Georgia law when they did not have the Constitutional Authority to do so and render both the rule changes and settlement agreement null and void.

AMERICAN OVERSIGHT

GAGOS-2020-007477

Phone number - 404-656-1776

Newt Gingrich also encouraged Brian Kemp to take action. Newt's Tweets from earlier today are below.

"Governor Kemp may have an opportunity to make real progress on election reform in Georgia.Last friday November 20 he called for the Secretary of State Raffensberger to audit the absentee ballot envelopes for signature match with applications.He also called for election law reform"

"Would have been better if Governor Kemp had acted on November 12 when Trump Recount Chair Doug Collins and GOP state chair David Shafer wrote Raffensberger asking for a review of the signatures on absentee ballot applications and envelopes."

"Why did Governor Kemp wait until AFTER certification to ask for an audit of the absentee envelopes? In 2018 3.5% of the absentee votes were thrown out for not matching signatures and not being valid. In 2020 with 4 times as many absentee ballots only 0.3% have been rejected."

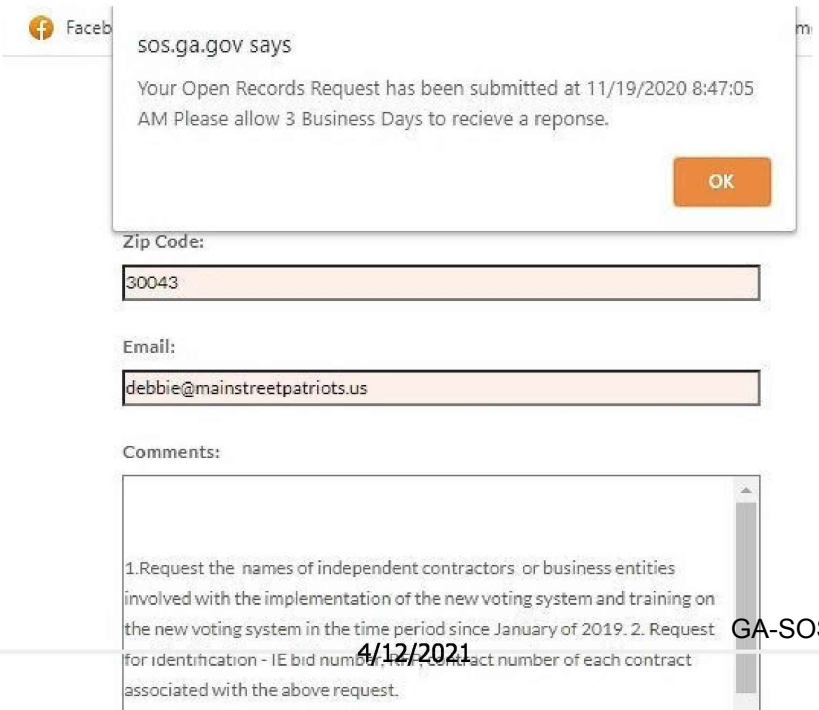
"The difference in absentee ballot acceptance from 2018 to 2020 is about 39,000 votes. Biden's entire margin in Georgia is 12,670 so if the normal absentee ballot rejection rate had been implemented it would be more than three times Biden's margin of winning."

Georgia election official pours cold water on signature audit

President Donald Trump has repeatedly called for checking voter signatures as part of a recount in the race, which he lost to Joe Biden by more than 12,000 votes. And Gov. Brian Kemp and the Georgia Republican Party have called for auditing voter signatures to double-check the work of local election workers.

AMERICAN OVERSIGHT

But at a press conference Monday, a top state election official confirmed it would be impossible to fulfill Trump's request. And though the kind of audit sought by the governor is technically feasible, the election official said there is no specific evidence of wrongdoing to warrant more scrutiny of voter signatures.



"We can't open investigations based on generalized, `we're not happy with the outcome'" of the election, said Gabriel Sterling, the state's voting system manager. "If somebody comes to us with specific evidence, we investigate that."

ACTION ITEM

Contact Secretary of State Brad Raffensperger and the SOS Voting System Manager Gabriel Sterling and demand they conduct an audit of signatures.

Brad Raffensperger - 404.656.2881
Gabriel Sterling - sterlinginnovative@gmail.com

I filed an open records request with the Georgia Secretary of State's office last Thursday. I want to get to the bottom of who may have profited from the deployment of the Dominion voting system. This request is just the beginning and still waiting to hear back from SoS about the cost. Will keep you updated.

Samantha,
Attached you will find the Excel spreadsheet updated with invoice information for 4 invoices to 4 separate entities to pay for the 25 ballot boxes ($2218 each). I have included their e-mails and their physical mailing address. I think all of the entities prefer e-mail/electronic invoice.

We still need our Elections Director, Chris Harvey, copied here to share information with us on the intended counties for 12 of the boxes. I will get you that information ASAP for manufacturing the labels and setting up shipping. I know you have already started on the indicated 13 specific counties on the attached.

Thank you! We are excited to see these boxes in mid-December!

Hi,
Will the use of drop boxes need to be SEB approved again prior to upcoming runoffs?

Gabe good morning,

I corresponded with you several weeks ago concern the grant deadline for the drop box and you assured me that I could continue with the purchase and installation of the drop box and it would be accepted for the grant. Please see my invoicesfor the drop box and installation in our Elections and Registration□s parking lot. Fortunately we already had adequate security (Cameras) installed prior to this.

Please advise if there is additional information. I know in the past we have had problems with our mailing address which is listed below(PO Box 110, Thomasville, GA 31799-0110).

Chris,

AMERICAN OVERSIGHT

Lumpkin County would really like to receive a drop box. We currently are using a reconfigured old-style ballot box, and we would really like a ballot box we could have as a permanent fixture that voters would feel more confident in utilizing. The ballot box would be stationed here at our office. Please let me know if you need anything further!

Sincerely,

Brittani Conner

Chris,

I read your Buzz post about the free drop boxes and think that's great for those counties which do not have one.

AMERICAN OVERSIGHT

Fortunately we order ours prior to the General Election and placed in our office parking lot. We also already had surveillance so that worked good for us. Given all that I have said brings up the point that when we purchased out box we were told that the Cares Grant would supplement the cost. I talked to Gabe Sterling and he assured me that we would get the grant monies. I emailed the grant request back in October and have since sent a second reminder but have not received the money nor a response. I recently saw several Buzz post that mentioned they were having the same problem. I would appreciate hearing from you regarding the status of the grant request.

Thanks,

Good Afternoon Chris,

I am sure you are aware of this….but just in case……we have had several reports this morning from people – some from assisted living communities, as well as the one below – about someone going door to door asking for voter information in order to cure absentee ballots.

The person at the assisted living/senior community was apparently asking for social security

AMERICAN OVERSIGHT

number/date of birth and a copy of the voter's ID. We have referred them to the Sheriff's Office and they have been in touch to discuss.

Several people who have contacted us are not someone that we have a ballot for. Several never returned their ballot – or we cancelled and reissued them a ballot weeks ago – and never received the reissued ballot. It appears these groups are not reaching out to the correct voters on the list.

Please let me know if you have any questions.

Thank you,

-Mandi

The first 5 should go (one each) to:
Clinch
Camden
Baldwin
Lumpkin
Irwin

That leaves 7 to go.

Samantha,
Attached you will find the Excel spreadsheet updated with invoice information for 4 invoices to 4 separate entities to pay for the 25 ballot boxes ($2218 each). I have included their e-mails and their physical mailing address. I think all of the entities prefer e-mail/electronic invoice.

We still need our Elections Director, Chris Harvey, copied here to share information with us on the intended counties for 12 of the boxes. I will get you that information ASAP for manufacturing the labels and setting up shipping. I know you have already started on the indicated 13 specific counties on the attached.

Thank you! We are excited to see these boxes in mid-December!

Chris,

Lumpkin County would really like to receive a drop box. We currently are using a reconfigured old-style ballot box, and we would really like a ballot box we could have as a permanent fixture that voters would feel more confident in utilizing. The ballot box would be stationed here at our office. Please let me know if you need anything further!

Sincerely,

Brittani Conner

This is notification the system received a new Open Records Request or a request has been reassigned to you.

Below is the link to the specific request.

https://columbiacountyga.mycusthelpadmin.com/WEBAPP/ZAdmin/ServiceRequests/Details.aspx?id=3807

Overview of the Request

Create Date: 11/19/2020 4:56:25 PM

Reference # P003807-111920

Type of Record: Other - Board of Elections

Description of Record Requested: Pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), the National Defense Committee makes the following request for records and information regarding voting and election information under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), 42 U.S.C. Section 1973ff, et seq., as amended. The National Defense Committee requests Columbia County produce the following within three business days for this data County-wide throughout the county, or provide a written description of any responsive records and information, with a timetable for their production, within three business days. 1. Complete data on UOCAVA voters for this cycle (i.e., general election held November 3, 2020 and U.S. Senate runoff elections to be held January 5, 2021), in accordance with, among other statutes and regulations, Ga. Comp. R. & Regs. 183-1-14-.04, and Ga. Code Ann. §§ 21-2-211, 21-2-224, 21-2-225, 21-2-384, 21-2-386, 21-2-390: a. Individual UOCAVA voters: i. Name ii. Voting Residence address, iii. absentee ballot delivery address, iv. absentee ballot delivery email address (if applicable), v. UOCAVA classification (Uniformed Services, Overseas Citizen, Uniformed Services dependent, etc.), vi. date of UOCAVA ballot application, vii. status of application, viii. date ballot transmitted to the voter, ix. method of transmission (electronic or postal), x. date ballot received by election office, xi. whether ballot was rejected or accepted, xii. reason for rejection (if applicable), xiii. date and time of communications to UOCAVA voter notifying them of the need to cure their ballot (if applicable), and xiv. Status of curing the ballot b. Overall UOCAVA data: i. Number of UOCAVA absentee ballot applications, by: 1. UOCAVA voter classification, 2. The number of UOCAVA absentee ballot applications received prior to the 45-day deadline for transmitting UOCAVA ballots, and the number received after that deadline, and 3. Number of absentee ballot applications by UOCAVA voters who used a non-UOCAVA form, such as a local or State absentee ballot application, but

AMERICAN OVERSIGHT

who were still afforded UOCAVA status. ii. Number of UOCAVA ballot application rejections, by UOCAVA voter classification, iii. Number of UOCAVA absentee ballots transmitted by UOCAVA voter classification, iv. Number of UOCAVA absentee ballots returned as undeliverable: 1. By UOCAVA voter classification, 2. By date of UOCAVA absentee ballot application date. v. Number of UOCAVA absentee ballots returned by voters to be cast, by UOCAVA voter classification, and vi. Number and specific reason of UOCAVA absentee ballots rejected by UOCAVA voter classification. 2. Images (scans or copies) of the oath of elector side of each rejected UOCAVA ballot envelope, as well as (if it was not the same side) the stamped side of each rejected UOCAVA ballot envelope with "REJECTED" and reason for the rejection; 3. The steps your county board of elections took in curing any UOCAVA ballots (due to rejection, spoilation, or otherwise) in as much detail as possible (including any data, records, or notes) and 4. Email addresses of anyone who requested a UOCAVA ballot to be delivered by electronic means (whether they are entitled to receive it this way or not). Section 21-2-384(d of the Georgia Annotated Code requires each board of registrars or absentee ballot clerk to maintain a public master list, arranged by precincts, that sets forth the name and residence of every elector to whom an official absentee ballot has been sent, and because e-mail addresses are the equivalent to a postal mail delivery address for such UOCAVA voters, they should be provided to the public as well. Also, pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), I would like to obtain the following regarding Federal Write-in Absentee Ballots (FWAB) (see e.g., Ga. Code Ann. § 21-2-381.1): 1. Name of voters who submitted a FWAB, 2. UOCAVA classification of voters who submitted a FWAB, 3. Date of original voter registration of voters who submitted a FWAB, 4. Date of registrar's receipt of Federal Post Card Application from UOCAVA voter using a FWAB, 5. Voting history for the last six years for voters who submitted a FWAB, 6. Method and results of certifying the identity of voters who submitted a FWAB for their original UOCAVA absentee ballot application, including detail as to whether such proof was a Georgia driver's license number, Social Security numbers, or other form of identification, and if other, what specifically that method was, 7. Whether the FWAB submitted was counted as the voter's ballot, or if another voting method was used by the voter, and 8. Method the county used to ensure the FWAB was not counted when another voting method was used by the voter. National Defense Committee seeks all responsive records and information, regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in the broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages, transcripts, notes, minutes of any meetings, telephone messages, or discussions, electronic "chat" or internal coordination system messages such as through systems like Slack. Our request includes any attachment to these records. Not category of material should be omitted from search, collection, and production. In addition, National Defense Committee insists your office use the most up-to-date technologies to search for responsive information and take steps to ensure the most complete repositories of information are searched. National Defense Committee is available to work with you to craft appropriate search terms. However, custodian searches are still required; your office may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts. In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release. Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. Conversely, please prioritize the delivery of records in response to this request to maximize the records which can be provided within three business days. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records. To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, National Defense Committee welcomes an opportunity to discuss its request while you undertake your search or incur search or duplication costs. By working together at the outset, National Defense Committee and the county can decrease the likelihood of costly and time-consuming litigation in the future. Unless otherwise specified above, please provide the requested information in electronic format

AMERICAN OVERSIGHT

through email, DropBox, Google Drive, or other electronic transfer system. If that is not possible, then through standard media device(s), such as disc or thumb drive. Please send any responsive material by email to Bob.Carey@Empire-Capitol.com, or to National Defense Committee, 6100 Bradley Boulevard, Bethesda, MD 20817. If it will accelerate release of responsive records to National Defense Committee, please also provide responsive material on a rolling basis. I understand that pursuant to O.C.G.A. § 50-18-71, I may be charged administrative and copying fees for the cost to search, retrieve, copy, and supervise inspection of the requested documents, images, and data. I agree to pay all copying and administration costs incurred in fulfilling my open records request. Conversely, we are willing to accept these documents in electronic format. If the expenses will exceed $1,000, we request you notify us first before incurring such an expense with an estimate of the expected total cost. If you have any questions, whatsoever, please feel free to contact me. Very Respectfully, Bob Carey CAPT, USN (Ret) Senior Fellow National Defense Committee 202-779-1598 Bob.Carey@Empire-Capitol.com

Requester: Senior Fellow Bob Carey

Be cautious of sender, content, attachments, and links. Use caution when following links as they could open malicious web sites, malware, or viruses.

Hi,

I'm reaching out on behalf of the Democratic Senatorial Campaign Committee (DSCC) after speaking to your office earlier today. I have a few questions about the upcoming runoff. Please feel free to just provide brief answers.

1. **When is the county's first wave of absentee ballots being mailed out (exact date)?**
2. **What is included in that first wave? (E.g., rollover list, UOCAVA (overseas voters), requests received by a certain date, etc.?)**
3. **Who is handling the processing and mailing of the initial wave of absentee ballots (this might be a company called Runbeck or Tattnall or the county itself)? What about subsequent waves?**
4. **Can you email a copy of the ballot design or a sample ballot?**
5. **How many drop boxes are you planning to provide? Is that the same number as what was offered in the November general?**
6. **Are those locations publicly available on your website? If not, when will they be?**
7. **Would you add more if you were able to? If so, what are the obstacles to doing so? Funding?**
8. **What weekend dates will Early Vote be offered during that period?**

AMERICAN OVERSIGHT

9. **How many Early Vote sites will you have? Is that the same number as what was offered in the November general?**
10. **What dates and times will Early Vote sites be available?**
11. **Are those locations, dates and hours publicly available on your website?If not, when will they be?**
12. **What is the correct email address for voters to send in the documentation needed to cure absentee ballots?**

Most counties have provided us with the answers to these questions over the phone, so please feel free to call me at (201) 835-2024 if that is easier.

Best,
Brandon

Type of Record: Other - Board of Elections

Description of Record Requested: Pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), the National Defense Committee makes the following request for records and information regarding voting and election information under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), 42 U.S.C. Section 1973ff, et seq., as amended. The National Defense Committee requests Columbia County produce the following within three business days for this data County-wide throughout the county, or provide a written description of any responsive records and information, with a timetable for their production, within three business days. 1. Complete data on UOCAVA voters for this cycle (i.e., general election held November 3, 2020 and U.S. Senate runoff elections to be held January 5, 2021), in accordance with, among other statutes and regulations, Ga. Comp. R. & Regs. 183-1-14-.04, and Ga. Code Ann. §§ 21-2-211, 21-2-224, 21-2-225, 21-2-384, 21-2-386, 21-2-390: a. Individual UOCAVA voters: i. Name ii. Voting Residence address, iii. absentee ballot delivery address, iv. absentee ballot delivery email address (if applicable), v. UOCAVA classification (Uniformed Services, Overseas Citizen, Uniformed Services dependent, etc.), vi. date of UOCAVA ballot application, vii. status of application, viii. date ballot transmitted to the voter, ix. method of transmission (electronic or postal), x. date ballot received by election office, xi. whether ballot was rejected or accepted, xii. reason for rejection (if applicable), xiii. date and time of communications to UOCAVA voter notifying them of the need to cure their ballot (if applicable), and xiv. Status of curing the ballot b. Overall UOCAVA data: i. Number of UOCAVA absentee ballot applications, by: 1. UOCAVA voter classification, 2. The number of UOCAVA absentee ballot applications received prior to the 45-day deadline for transmitting UOCAVA ballots, and the number received after that deadline, and 3. Number of absentee ballot applications by UOCAVA voters who used a non-UOCAVA form, such as a local or State absentee ballot application, but

AMERICAN OVERSIGHT

who were still afforded UOCAVA status. ii. Number of UOCAVA ballot application rejections, by UOCAVA voter classification, iii. Number of UOCAVA absentee ballots transmitted by UOCAVA voter classification, iv. Number of UOCAVA absentee ballots returned as undeliverable: 1. By UOCAVA voter classification, 2. By date of UOCAVA absentee ballot application date. v. Number of UOCAVA absentee ballots returned by voters to be cast, by UOCAVA voter classification, and vi. Number and specific reason of UOCAVA absentee ballots rejected by UOCAVA voter classification. 2. Images (scans or copies) of the oath of elector side of each rejected UOCAVA ballot envelope, as well as (if it was not the same side) the stamped side of each rejected UOCAVA ballot envelope with "REJECTED" and reason for the rejection; 3. The steps your county board of elections took in curing any UOCAVA ballots (due to rejection, spoilation, or otherwise) in as much detail as possible (including any data, records, or notes) and 4. Email addresses of anyone who requested a UOCAVA ballot to be delivered by electronic means (whether they are entitled to receive it this way or not). Section 21-2-384(d of the Georgia Annotated Code requires each board of registrars or absentee ballot clerk to maintain a public master list, arranged by precincts, that sets forth the name and residence of every elector to whom an official absentee ballot has been sent, and because e-mail addresses are the equivalent to a postal mail delivery address for such UOCAVA voters, they should be provided to the public as well. Also, pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), I would like to obtain the following regarding Federal Write-in Absentee Ballots (FWAB) (see e.g., Ga. Code Ann. § 21-2-381.1): 1. Name of voters who submitted a FWAB, 2. UOCAVA classification of voters who submitted a FWAB, 3. Date of original voter registration of voters who submitted a FWAB, 4. Date of registrar's receipt of Federal Post Card Application from UOCAVA voter using a FWAB, 5. Voting history for the last six years for voters who submitted a FWAB, 6. Method and results of certifying the identity of voters who submitted a FWAB for their original UOCAVA absentee ballot application, including detail as to whether such proof was a Georgia driver's license number, Social Security numbers, or other form of identification, and if other, what specifically that method was, 7. Whether the FWAB submitted was counted as the voter's ballot, or if another voting method was used by the voter, and 8. Method the county used to ensure the FWAB was not counted when another voting method was used by the voter. National Defense Committee seeks all responsive records and information, regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in the broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages, transcripts, notes, minutes of any meetings, telephone messages, or discussions, electronic "chat" or internal coordination system messages such as through systems like Slack. Our request includes any attachment to these records. Not category of material should be omitted from search, collection, and production. In addition, National Defense Committee insists your office use the most up-to-date technologies to search for responsive information and take steps to ensure the most complete repositories of information are searched. National Defense Committee is available to work with you to craft appropriate search terms. However, custodian searches are still required; your office may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts. In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release. Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. Conversely, please prioritize the delivery of records in response to this request to maximize the records which can be provided within three business days. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records. To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, National Defense Committee welcomes an opportunity to discuss its request while you undertake your search or incur search or duplication costs. By working together at the outset, National Defense Committee and the county can decrease the likelihood of costly and time-consuming litigation in the future. Unless otherwise specified above, please provide the requested information in electronic format

AMERICAN OVERSIGHT

through email, DropBox, Google Drive, or other electronic transfer system. If that is not possible, then through standard media device(s), such as disc or thumb drive. Please send any responsive material by email to Bob.Carey@Empire-Capitol.com, or to National Defense Committee, 6100 Bradley Boulevard, Bethesda, MD 20817. If it will accelerate release of responsive records to National Defense Committee, please also provide responsive material on a rolling basis. I understand that pursuant to O.C.G.A. § 50-18-71, I may be charged administrative and copying fees for the cost to search, retrieve, copy, and supervise inspection of the requested documents, images, and data. I agree to pay all copying and administration costs incurred in fulfilling my open records request. Conversely, we are willing to accept these documents in electronic format. If the expenses will exceed $1,000, we request you notify us first before incurring such an expense with an estimate of the expected total cost. If you have any questions, whatsoever, please feel free to contact me. Very Respectfully, Bob Carey CAPT, USN (Ret) Senior Fellow National Defense Committee 202-779-1598 Bob.Carey@Empire-Capitol.com

Overview of the Request

Create Date: 11/19/2020 4:56:25 PM

Reference # P003807-111920

Type of Record: Other - Board of Elections

Description of Record Requested: Pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), the National Defense Committee makes the following request for records and information regarding voting and election information under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), 42 U.S.C. Section 1973ff, et seq., as amended. The National Defense Committee requests Columbia County produce the following within three business days for this data County-wide throughout the county, or provide a written description of any responsive records and information, with a timetable for their production, within three business days. 1. Complete data on UOCAVA voters for this cycle (i.e., general election held November 3, 2020 and U.S. Senate runoff elections to be held January 5, 2021), in accordance with, among other statutes and regulations, Ga. Comp. R. & Regs. 183-1-14-.04, and Ga. Code Ann. §§ 21-2-211, 21-2-224, 21-2-225, 21-2-384, 21-2-386, 21-2-390: a. Individual UOCAVA voters: i. Name ii. Voting Residence address, iii. absentee ballot delivery address, iv. absentee ballot delivery email address (if applicable), v. UOCAVA classification (Uniformed Services, Overseas Citizen, Uniformed Services dependent, etc.), vi. date of UOCAVA ballot application, vii. status of application, viii. date ballot transmitted to the voter, ix. method of transmission (electronic or postal), x. date ballot received by election office, xi. whether ballot was rejected or accepted, xii. reason for rejection (if applicable), xiii. date and time of communications to UOCAVA voter notifying them of the need to cure their ballot (if applicable), and xiv. Status of curing the ballot b. Overall UOCAVA data: i. Number of UOCAVA absentee ballot applications, by: 1. UOCAVA voter classification, 2. The number of UOCAVA absentee ballot applications received prior to the 45-day deadline for transmitting UOCAVA ballots, and the number received after that deadline, and 3. Number of absentee ballot applications by UOCAVA voters who used a non-UOCAVA form, such as a local or State absentee ballot application, but who were still afforded UOCAVA status. ii. Number of UOCAVA ballot application rejections, by UOCAVA voter classification, iii. Number of UOCAVA absentee ballots transmitted by UOCAVA voter classification, iv. Number of UOCAVA absentee ballots returned as undeliverable: 1. By UOCAVA voter classification, 2. By date of UOCAVA absentee ballot application date. v. Number of UOCAVA absentee ballots returned by voters to be cast, by UOCAVA voter classification, and vi. Number and specific reason of UOCAVA absentee ballots rejected by UOCAVA voter classification. 2. Images (scans or copies) of the oath of elector side of each rejected UOCAVA ballot envelope, as well as (if it was not the same side) the stamped side of each rejected UOCAVA ballot envelope with “REJECTED” and reason for the rejection; 3. The steps your county board of elections took in curing any UOCAVA ballots (due to rejection, spoilation, or otherwise) in as much detail as possible (including any data, records, or notes) and 4. Email addresses of anyone who requested a UOCAVA ballot to be delivered by electronic means (whether they are entitled to receive it this way or not). Section 21-2-384(d of the Georgia Annotated Code requires each board of registrars or absentee ballot clerk to maintain a public master list, arranged by precincts, that sets forth the name and residence of every elector to whom an official absentee ballot has been sent, and because e-mail addresses are the equivalent to a postal mail delivery address for such UOCAVA voters, they should be provided to the public as well. Also, pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), I would like to obtain the following regarding Federal Write-in Absentee Ballots (FWAB) (see e.g., Ga. Code Ann. § 21-2-381.1): 1. Name of voters who submitted a FWAB, 2. UOCAVA classification of voters who

AMERICA OVERSIGHT

submitted a FWAB, 3. Date of original voter registration of voters who submitted a FWAB, 4. Date of registrar's receipt of Federal Post Card Application from UOCAVA voter using a FWAB, 5. Voting history for the last six years for voters who submitted a FWAB, 6. Method and results of certifying the identity of voters who submitted a FWAB for their original UOCAVA absentee ballot application, including detail as to whether such proof was a Georgia driver's license number, Social Security numbers, or other form of identification, and if other, what specifically that method was, 7. Whether the FWAB submitted was counted as the voter's ballot, or if another voting method was used by the voter, and 8. Method the county used to ensure the FWAB was not counted when another voting method was used by the voter. National Defense Committee seeks all responsive records and information, regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in the broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages, transcripts, notes, minutes of any meetings, telephone messages, or discussions, electronic "chat" or internal coordination system messages such as through systems like Slack. Our request includes any attachment to these records. Not category of material should be omitted from search, collection, and production. In addition, National Defense Committee insists your office use the most up-to-date technologies to search for responsive information and take steps to ensure the most complete repositories of information are searched. National Defense Committee is available to work with you to craft appropriate search terms. The voter history files are uploaded each day here https://sos.ga.gov/index.php/elections/voter_history_files

The drop box locations should be the same as they were for the General Election. We will add any new locations if any new boxes are added.
We will have the advance voting locations by Wednesday of next week, but I expect them to very closely resemble the locations for the general elections.

It ends the Friday before the election day, which is a state holiday (January 1). The law states that advance voting is done during regular business hours, and as I suspect each county would be closed on that day, the last day would practically be Thursday, December 31, 2020.

Subject: RE: [External]RE: GA Senate Runoff

We've never mailed ballots to everyone.
Our law allows elderly and disabled voters to request ballots for an entire election cycle, and those "Rollover Voters" get ballots mailed to them automatically (as do UOCAVA voters) but those are the only ballots automatically mailed. Every other ballot has to be specifically requested by the voter (or a qualified family member of the voter.)

The voter history files are uploaded each day here https://sos.ga.gov/index.php/elections/voter_history_files

The drop box locations should be the same as they were for the General Election. We will add any new locations if any new boxes are added.
We will have the advance voting locations by Wednesday of next week, but I expect them to very closely resemble the locations for the general elections.

We've never mailed ballots to everyone.
Our law allows elderly and disabled voters to request ballots for an entire election cycle, and those "Rollover Voters" get ballots mailed to them automatically (as do UOCAVA voters) but those are the only ballots automatically mailed. Every other ballot has to be specifically requested by the voter (or a qualified family member of the voter.)

Good Afternoon Chris,

I am sure you are aware of this….but just in case……we have had several reports this morning from people – some from assisted living communities, as well as the one below – about someone going door to door asking for voter information in order to cure absentee ballots.

AMERICAN OVERSIGHT

The person at the assisted living/senior community was apparently asking for social security number/date of birth and a copy of the voter's ID. We have referred them to the Sheriff's Office and they have been in touch to discuss.

Several people who have contacted us are not someone that we have a ballot for. Several never returned their ballot – or we cancelled and reissued them a ballot weeks ago – and never received the reissued ballot. It appears these groups are not reaching out to the correct voters on the list.

Please let me know if you have any questions.

Thank you,

-Mandi

Date: 11/5/2020 11:35:22 AM
Subject: RE: 11-05-2020 OEB Late Delivered Ballots Not Accepted and Counted

Hi Chris,

I am not sure if you heard from Ryan, but what do you think about tightening up the first sentence? I also added some minor changes to the body of the OEB. I think it is very good – short and sweet.

County election officials and the Secretary of State's Office and are in the process of returning voted absentee ballots that were improperly or erroneously delivered to their offices. or to the counties that should have received the ballots.

This original erroneous delivery may be because a voter put a ballot for County A in a drop box for County Z or because USPS delivered a ballot to County B when it should have gone to county Y.

In any event, if an absentee ballot was not received by the county of origin (the county that issued it) by close of the polls on November 3, 2020, it cannot be counted, as per O.C.G.A. 21-2-386.

It does not matter that the ballot was received by the wrong county by the close of the polls on election night.

It does not matter that the USPS or someone else mistakenly delivered the ballot to the wrong county or location.

If the ballot wasn't in the original correct county's possession (office or county drop box) by the close of the polls on election night, the ballot cannot be counted and must be handled in accordance with O.C.G.A. 21-2-386(a)(1)(F) cited below:

(F) All absentee ballots returned to the board or absentee ballot clerk after the closing of the polls on the day of the primary or election shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or election. The board of registrars or absentee ballot clerk shall promptly notify the elector by first-class mail that the elector's ballot was returned too late to be counted and that the elector will not receive credit for voting in the primary or election. All such late absentee ballots shall be delivered to the appropriate clerk and stored as provided in Code Section 21-2-390 .

Overview of the Request

Create Date: 11/19/2020 4:56:25 PM

Reference # P003807-111920

Type of Record: Other - Board of Elections

Description of Record Requested: Pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), the National Defense Committee makes the following request for records and information regarding

AMERICAN OVERSIGHT

voting and election information under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), 42 U.S.C. Section 1973ff, et seq., as amended. The National Defense Committee requests Columbia County produce the following within three business days for this data County-wide throughout the county, or provide a written description of any responsive records and information, with a timetable for their production, within three business days. 1. Complete data on UOCAVA voters for this cycle (i.e., general election held November 3, 2020 and U.S. Senate runoff elections to be held January 5, 2021), in accordance with, among other statutes and regulations, Ga. Comp. R. & Regs. 183-1-14-.04, and Ga. Code Ann. §§ 21-2-211, 21-2-224, 21-2-225, 21-2-384, 21-2-386, 21-2-390: a. Individual UOCAVA voters: i. Name ii. Voting Residence address, iii. absentee ballot delivery address, iv. absentee ballot delivery email address (if applicable), v. UOCAVA classification (Uniformed Services, Overseas Citizen, Uniformed Services dependent, etc.), vi. date of UOCAVA ballot application, vii. status of application, viii. date ballot transmitted to the voter, ix. method of transmission (electronic or postal), x. date ballot received by election office, xi. whether ballot was rejected or accepted, xii. reason for rejection (if applicable), xiii. date and time of communications to UOCAVA voter notifying them of the need to cure their ballot (if applicable), and xiv. Status of curing the ballot b. Overall UOCAVA data: i. Number of UOCAVA absentee ballot applications, by: 1. UOCAVA voter classification, 2. The number of UOCAVA absentee ballot applications received prior to the 45-day deadline for transmitting UOCAVA ballots, and the number received after that deadline, and 3. Number of absentee ballot applications by UOCAVA voters who used a non-UOCAVA form, such as a local or State absentee ballot application, but who were still afforded UOCAVA status. ii. Number of UOCAVA ballot application rejections, by UOCAVA voter classification, iii. Number of UOCAVA absentee ballots transmitted by UOCAVA voter classification, iv. Number of UOCAVA absentee ballots returned as undeliverable: 1. By UOCAVA voter classification, 2. By date of UOCAVA absentee ballot application date. v. Number of UOCAVA absentee ballots returned by voters to be cast, by UOCAVA voter classification, and vi. Number and specific reason of UOCAVA absentee ballots rejected by UOCAVA voter classification. 2. Images (scans or copies) of the oath of elector side of each rejected UOCAVA ballot envelope, as well as (if it was not the same side) the stamped side of each rejected UOCAVA ballot envelope with “REJECTED” and reason for the rejection; 3. The steps your county board of elections took in curing any UOCAVA ballots (due to rejection, spoilation, or otherwise) in as much detail as possible (including any data, records, or notes) and 4. Email addresses of anyone who requested a UOCAVA ballot to be delivered by electronic means (whether they are entitled to receive it this way or not). Section 21-2-384(d of the Georgia Annotated Code requires each board of registrars or absentee ballot clerk to maintain a public master list, arranged by precincts, that sets forth the name and residence of every elector to whom an official absentee ballot has been sent, and because e-mail addresses are the equivalent to a postal mail delivery address for such UOCAVA voters, they should be provided to the public as well. Also, pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), I would like to obtain the following regarding Federal Write-in Absentee Ballots (FWAB) (see e.g., Ga. Code Ann. § 21-2-381.1): 1. Name of voters who submitted a FWAB, 2. UOCAVA classification of voters who submitted a FWAB, 3. Date of original voter registration of voters who submitted a FWAB, 4. Date of registrar’s receipt of Federal Post Card Application from UOCAVA voter using a FWAB, 5. Voting history for the last six years for voters who submitted a FWAB, 6. Method and results of certifying the identity of voters who submitted a FWAB for their original UOCAVA absentee ballot application, including detail as to whether such proof was a Georgia driver’s license number, Social Security numbers, or other form of identification, and if other, what specifically that method was, 7. Whether the FWAB submitted was counted as the voter’s ballot, or if another voting method was used by the voter, and 8. Method the county used to ensure the FWAB was not counted when another voting method was used by the voter. National Defense Committee seeks all responsive records and information, regardless of format, medium, or physical characteristics. In conducting your search, please understand the term “record” in the broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages, transcripts, notes, minutes of any meetings, telephone messages,

AMERICAN OVERSIGHT

or discussions, electronic “chat” or internal coordination system messages such as through systems like Slack. Our request includes any attachment to these records. Not category of material should be omitted from search, collection, and production. In addition, National Defense Committee insists your office use the most up-to-date technologies to search for responsive information and take steps to ensure the most complete repositories of information are searched. National Defense Committee is available to work with you to craft appropriate search terms. However, custodian searches are still required; your office may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts. In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release. Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. Conversely, please prioritize the delivery of records in response to this request to maximize the records which can be provided within three business days. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records. To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, National Defense Committee welcomes an opportunity to discuss its request while you undertake your search or incur search or duplication costs. By working together at the outset, National Defense Committee and the county can decrease the likelihood of costly and time-consuming litigation in the future. Unless otherwise specified above, please provide the requested information in electronic format through email, DropBox, Google Drive, or other electronic transfer system. If that is not possible, then through standard media device(s), such as disc or thumb drive. Please send any responsive material by email to Bob.Carey@Empire-Capitol.com, or to National Defense Committee, 6100 Bradley Boulevard, Bethesda, MD 20817. If it will accelerate release of responsive records to National Defense Committee, please also provide responsive material on a rolling basis. I understand that pursuant to O.C.G.A. § 50-18-71, I may be charged administrative and copying fees for the cost to search, retrieve, copy, and supervise inspection of the requested documents, images, and data. I agree to pay all copying and administration costs incurred in fulfilling my open records request. Conversely, we are willing to accept these documents in electronic format. If the expenses will exceed $1,000, we request you notify us first before incurring such an expense with an estimate of the expected total cost. If you have any questions, whatsoever, please feel free to contact me. Very Respectfully, Bob Carey CAPT, USN (Ret) Senior Fellow National Defense Committee 202-779-1598 Bob.Carey@Empire-Capitol.com

It ends the Friday before the election day, which is a state holiday (January 1). The law states that advance voting is done during regular business hours, and as I suspect each county would be closed on that day, the last day would practically be Thursday, December 31, 2020.

Subject: RE: [External]RE: GA Senate Runoff

We've never mailed ballots to everyone.
Our law allows elderly and disabled voters to request ballots for an entire election cycle, and those "Rollover Voters" get ballots mailed to them automatically (as do UOCAVA voters) but those are the only ballots automatically mailed. Every other ballot has to be specifically requested by the voter (or a qualified family member of the voter.)

Great, thanks so much. Additionally, is GA mailing absentee ballots to all registered voters, or to only a certain group (only voters who requested one)?

Hey Chris,

I hope you are hanging in there! I know you all are swamped, so I will keep this brief.
We are prepping for the January 5th Senate Runoff races. When can we expect to see a list of advanced voting locations specific to the January runoff?

Any other information regarding the Senate Runoff races would be greatly appreciated.

Thank you!

Hi Axiver,

It is unfortunate that we inform you of this matter:

1. We discovered two UOCAVA Ballots that we should have counted on Election Day. These two ballots were placed in our "received basket", but we failed to collect them at the end of the day; we just notice the ballots in the basket with date stamp of November 3rd, late yesterday evening.
2. Also, while unlocking our drop boxes, we discovered four ballots at four different locations that did not get to us on Election Day. It is obvious that our drop box collectors either did not confirm that they had retrieved all of the ballots or the ballots were stuck inside, and while our staff verified that our boxes were emptied before unlocking them for us to begin receiving applications and ballots for the December 1 Runoff, the ballots made themselves to the bottom of the box.

We need directions for what we can or should do as we have already certified our Election. Is it something we can include in our Recount?

Thank you in advance for your attention to this matter.

Hi Chris,
I'm way confused (not unusual) about the drop boxes. Seb rule says open on the day that Advance voting begins for a runoff either federal or state. Should we have had them open?

Claire

I don't think it means anything legally.
Obviously, you are still required to preserve election records in accordance with existing law, but you've also got to prepare for the next election.
As far as the signature audit goes, I'm not sure exactly what they mean by that, but I suspect we haven't heard the last of calls for a signature audit.

Subject: FOR IMMEDIATE RELEASE

AMERICAN OVERSIGHT

FOR IMMEDIATE RELEASE
Dec. 8, 2020

Majority Statement on Elections

The Georgia Senate Republicans have heard the calls of millions of Georgians who have raised deep and heartfelt concerns that state law has been violated and our elections process abused in our November 3, 2020 elections. We will fix this.

Our state constitution precludes us from calling a special session due to the lack of a three-fifths majority in both chambers. As constitutionalists, we must respect that. Even if we could secure the requisite numbers to convene, our laws provide no avenue for us to retroactively alter the results from November 3, 2020. However, an avenue to move this matter even quicker than special session now exists and is pending before the United States Supreme Court.

As the upper chamber of the General Assembly and consistent with our prerogatives for legislative oversight:

1. We are calling upon the elections officials to engage the GBI to investigate any and all fraudulent activities, including those which were brought to light during Senate committee hearings on December 3, 2020.
2. We insist that all counties immediately preserve all data from the November 3, 2020 General Election in order to conduct a forensic audit. We also call on these counties to perform a signature audit. We call on the State Elections Board to oversee and monitor that closely.
3. We will continue to conduct public hearings up to and through January 5, 2021 to ensure that fraud and misconduct do not taint the next election.
4. We will fully fund the Secretary of State's call to investigate out-of-state residents who attempt to move here for the sole purpose of voting in our run-off. We will make sure that these criminals are prosecuted to the fullest extent of the law.
5. We call upon the Secretary of State to immediately release a certified list of all voters in the November 3, 2020 General Election and a certified list of all newly registered voters in Georgia from October 5-December 7, 2020.
6. As soon as we may constitutionally convene, we will pass legislation to reverse the detrimental effects of the consent decree which was entered into in March 2020.
7. As soon as we may constitutionally convene, we will reform our election laws to secure our electoral process by eliminating at-will absentee voting. We will require photo identification for absentee voting for cause, and we will crack down on ballot harvesting by outlawing drop boxes.

AMERICAN OVERSIGHT

Posterity and legitimacy of our Republic – guaranteed to us by our Constitution – require no less than our diligence, our time, and our utmost attention. Do not fall prey to the ploys of the Left, who would have you stay home and not exercise your right to vote on January 5, 2021. We cannot protect the Republic without you. Join the Senate Republican Caucus to ensure we get every possible legal vote cast in the run-off election. An overwhelming victory for our Senators and our Public Service Commissioner on January 5, 2021 will send a strong message!

I don't think it means anything legally.
Obviously, you are still required to preserve election records in accordance with existing law, but you've also got to prepare for the next election.
As far as the signature audit goes, I'm not sure exactly what they mean by that, but I suspect we haven't heard the last of calls for a signature audit.

Hey Chris,

What does the below press release mean for us? Have you guys had time to analyze yet? I am particularly interested in #2.

Any info you can send our way is appreciated. Media brought this to my attention.

Thanks!

AMERICA OVERSIGHT

FOR IMMEDIATE RELEASE
Dec. 8, 2020

Majority Statement on Elections

The Georgia Senate Republicans have heard the calls of millions of Georgians who have raised deep and heartfelt concerns that state law has been violated and our elections process abused in our November 3, 2020 elections. We will fix this.

Our state constitution precludes us from calling a special session due to the lack of a three-fifths majority in both chambers. As constitutionalists, we must respect that. Even if we could secure the requisite numbers to convene, our laws provide no avenue for us to retroactively alter the results from November 3, 2020. However, an avenue to move this matter even quicker than special session now exists and is pending before the United States Supreme Court.

As the upper chamber of the General Assembly and consistent with our prerogatives for legislative oversight:

1. We are calling upon the elections officials to engage the GBI to investigate any and all fraudulent activities, including those which were brought to light during Senate committee hearings on December 3, 2020.
2. We insist that all counties immediately preserve all data from the November 3, 2020 General Election in order to conduct a forensic audit. We also call on these counties to perform a signature audit. We call on the State Elections Board to oversee and monitor that closely.

AMERICAN OVERSIGHT

3. We will continue to conduct public hearings up to and through January 5, 2021 to ensure that fraud and misconduct do not taint the next election.
4. We will fully fund the Secretary of State's call to investigate out-of-state residents who attempt to move here for the sole purpose of voting in our run-off. We will make sure that these criminals are prosecuted to the fullest extent of the law.
5. We call upon the Secretary of State to immediately release a certified list of all voters in the November 3, 2020 General Election and a certified list of all newly registered voters in Georgia from October 5-December 7, 2020.
6. As soon as we may constitutionally convene, we will pass legislation to reverse the detrimental effects of the consent decree which was entered into in March 2020.
7. As soon as we may constitutionally convene, we will reform our election laws to secure our electoral process by eliminating at-will absentee voting. We will require photo identification for absentee voting for cause, and we will crack down on ballot harvesting by outlawing drop boxes.

Posterity and legitimacy of our Republic – guaranteed to us by our Constitution – require no less than our diligence, our time, and our utmost attention. Do not fall prey to the ploys of the Left, who would have you stay home and not exercise your right to vote on January 5, 2021. We cannot protect the Republic without you. Join the Senate Republican Caucus to ensure we get every possible legal vote cast in the run-off election. An overwhelming victory for our Senators and our Public Service Commissioner on January 5, 2021 will send a strong message!

AB just email to tell me that there will be two deliveries – one tomorrow and one on Friday. They have both your cell and JD's cell, so hopefully this will be relatively easy to coordinate, but let me know if there are any problems.

Just keep swimming. You're doing a great job!

Thanks Amy. We have demonstrators outside our warehouse and at some county offices and the tensions seem to be rising.
We should have our recount results tomorrow morning
I think we're in pretty good shape for PPE at the moment. We've got a great group here, GA. Voting Works, that has done a great job of mobilizing the business community to donate funds for PPE and ballot drop boxes (and Clif bars…more Clif bars than a marathoner could eat in a lifetime!)
We'll keep our eye out for the Anhueser-Busch truck (all the information you provided was still good.)

I'm still waiting for the cyanide tooth that I ordered for myself from Amazon to come in. It must be stuck in with all the holiday packages…

Chris,

I know you've had bigger fish to fry, but I didn't forget about this. Getting info from AB is...tough.

As of Monday, it's looking pretty good that they can provide 60,000 ounces of sanitizer – 1 pallet of 8 ounce bottles (2,310 bottles) and 2 pallets of gallons (168 gallons per pallet, so 336 gallon jugs). I gave them the same address as previously (120 Interstate North Parkway), as well as JD Marks' contact info AND your contact info. I asked for an approximate ETA or when we would know or anything in realm of specifics and I haven't heard back. No go on backing over you with a truck, though, but we always knew that was a longshot.

If there is **anything** else you need for January, let me know – I found a bunch of suppliers for November (masks, gloves, wipes, shields, pens, gowns, water, etc), so I can go back to them. I was also able to get funds to have things donated for November, and I'm happy to see if we can do the same for you for January.

All of NASED stands with you and your entire team right now, and if there's anything your colleagues across the country can do to help you, I know that they will and I'm happy to pass on the ask. I can't imagine how hard this has been and to know you have to go back into the hurricane in a month is a daunting thought. Gabe's remarks last night were heartbreaking – as you know, I am not a particularly emotional person, but I was weeping watching him, and then every time I heard them replayed.

Amy

Do you need hand sanitizer for either the work that's going on over the next few weeks or your runoff in January? AB says they might be able to get their hands on 2-3 pallets. I know they weren't the easiest, but wanted to check!

Just keep swimming, Chris. You're doing a great job, and all of NASED is proud of the work that you and your colleagues are doing.

Subject: RE: NCOA'd files

Chris,

Attached is the list of records matched (11,983) while comparing USPS data (showing out of GA address from provided USPS files – Total 276,165 records) and who voted in Nov 3rd election as ABM and USPS change notice date is prior than Nov 3rd. You will find in the attached results that no value for USPS change notice date because USPS didn't provided that date in the file "GABE8.zip" and "GABE9.zip" but address is out of GA state.

Also, I didn't use the below file in comparison from USPS.
"Gabe1.zip" - Data is different than other files and doesn't included Voter ID

Below fields are included in attached result. Please review and let me know if any questions. Thank you.

- REGISTRATION_NUMBER
- COUNTY_NAME
- LASTNAME
- FIRSTNAME
- MIDDLENAME
- VOTER_STATUS
- DESIGNATION/REASON_ISSUE
- ABM_REQUEST_DATE

Keval,
I have a little more clarity on this request.
These attached spreadsheets are the people who filed an NCOA notice with the USPS that our office got from a USPS vendor.
We need a spreadsheet showing any of these listed voters who:

Voted by mail in the November 3, 2020 election;
And Filed an NCOA notice prior to voting by mail on November 3 (and a column showing when the NCOA notice was filed);
And moved to an out of Georgia address (and a column showing their new out of state address and a column showing their pre-NCOA Georgia address)

Chris,

I know you've had bigger fish to fry, but I didn't forget about this. Getting info from AB is…tough.

As of Monday, it's looking pretty good that they can provide 60,000 ounces of sanitizer – 1 pallet of 8 ounce bottles (2,310 bottles) and 2 pallets of gallons (168 gallons per pallet, so 336 gallon jugs). I gave them the same address as previously (120 Interstate North Parkway), as well as JD Marks' contact info AND your contact info. I asked for an approximate ETA or when we would know or anything in realm of specifics and I haven't heard back. No go on backing over you with a truck, though, but we always knew that was a longshot.

If there is **anything** else you need for January, let me know – I found a bunch of suppliers for November (masks, gloves, wipes, shields, pens, gowns, water, etc), so I can go back to them. I was also able to get funds to have things donated for November, and I'm happy to see if we can do the same for you for January.

All of NASED stands with you and your entire team right now, and if there's anything your colleagues across the country can do to help you, I know that they will and I'm happy to pass on the ask. I can't imagine how hard this has been and to know you have to go back into the hurricane in a month is a daunting thought. Gabe's remarks last night were heartbreaking – as you know, I am not a particularly emotional person, but I was weeping watching him, and then every time I heard them replayed.

Dear Secretary of State Raffensperger and State Election Board members:

Please find attached and below a letter signed by several in-state partners requesting that your office consider critical election administration fixes ahead of the January 5 runoff. We humbly respect a response from your office confirming receipt of this letter by **this Friday December 4.**

Sent via email

November 30, 2020

Honorable Brad Raffensperger
Georgia Secretary of State
214 State Capitol
Atlanta, GA 30334

Re: Urgent Action Needed to Ensure Safe and Accessible Voting

in Georgia's Runoff Elections

Dear Secretary of State Raffensperger:

On behalf of All Voting is Local, Georgia, the NAACP Legal Defense and Educational Fund, Inc., SPLC Action Fund, and the undersigned organizations, we urge you to take the following critical steps to ensure that all voters can safely and securely exercise their right to vote in the January 5th runoff elections: (1) mandate specific weekend early voting dates; (2) address widespread technological and training issues with poll pads; (3) clarify confusing absentee ballot status information on the My Voter Page and BallotTrax websites; and (4) mandate at least one drop box for every 15,000 to 20,000 voters.

Not only will these nonpartisan and commonsense steps help ensure voters are able to safely cast their

AMERICAN OVERSIGHT

ballot in the upcoming runoff, they will also instill confidence in both voters and nonpartisan voting rights and civic organizations that rely on your leadership to improve our elections. These actions are especially important now as Georgia's COVID-19 rates are climbing and voters need safe and reliable methods to vote.

1. **Mandate Specific Weekend Early Voting Dates.**

It is widely expected that voter turnout for the January 5 runoff elections will be extremely high. The early voting period for runs from December 14 through January 1, coinciding with the holiday season. State offices are closed for official holidays on December 25 and January 1, and we anticipate most counties will not offer early voting on those days. We also anticipate some counties may not offer early voting on December 24 or December 31. This expected shortening of the available days for early voting during the holiday season will make it more difficult for voters to utilize early voting options and is likely to increase the number of voters who will vote in-person on January 5th, leading to long lines and increased risks of COVID-19.

To mitigate the likelihood of long lines on January 5th, counties should be directed to add additional early voting days and hours to account for any reduction due to the conflicts with the holidays. We urge you to mandate that all counties offer early voting for at least two weekend dates during the early voting period. Alternatively, we recommend extending voting hours to make up for lost time. All changes should be mandatory across the state in order to reduce the risk of voter confusion and guarantee that every voter has the same opportunity to cast their ballot regardless of where they live.

2. **Address Widespread Technological and Training Issues with Poll Pads.**

On Election Day, voters encountered widespread problems with poll pads, including poll pads that were slow, non-operational, or that did not arrive on time. Many poll workers were not able to quickly address and resolve these widespread issues. These issues caused voter confusion, longer wait times, and increased strain on poll workers. We urge you to require that counties take the following steps to address these issues for the runoff elections:

- Ensure that poll pads are accurately programmed and any updates to the poll pad software are tested well in advance of use.
- Provide poll workers with more extensive and comprehensive training, so they can better understand how to troubleshoot problems.
- Give poll managers the authority and the corresponding technological permissions to quickly override inaccurate poll pad information (i.e., "already voted").
- Require counties to allocate the number of poll pads in each precinct relative to the number of registered voters in that precinct.

These solutions will alleviate many of the issues both voters and poll workers experience when poll pads malfunction.

3. **Clarify Confusing Absentee Ballot Status Information on the My Voter Page and BallotTrax Websites.**

The Secretary of State's "My Voter Page" and "BallotTrax" websites should be clarified so that voters understand that "receipt" of their absentee ballot does mean that their absentee ballot has been accepted and will be counted. Currently, the "My Voter Page" website marks absentee ballots as "accepted" when they are first received. The website does not disclose that absentee ballots that have been "accepted" may subsequently be rejected after further processing. Similarly, BallotTrax has a status label that marks absentee ballots as "counted," which includes a warning message that voters may not vote again, but fails to notify voters that their

AMERICAN OVERSIGHT

absentee ballot could still be rejected.

Voters who use these websites reasonably (but incorrectly) assume that their absentee ballots will not be rejected once they see confirmation that it has been "accepted" or "counted." Accordingly, voters have no reason to continue to monitor the websites to confirm their status. Moreover, due to widely reported USPS delays, voters may not receive timely notice that their ballot was rejected. As a result, many voters will miss important opportunities to cure their rejected absentee ballots within the allotted three-day period because they are simply unaware of the rejection.

We urge you to take the following steps to address these issues for the runoff elections:

- Revise the "My Voter Page" and "BallotTrax" websites to indicate when ballots are "received" by the county election office and provide specific updates to reflect whether the ballot is "counted," "challenged pending further information," or "rejected."
- Post simple definitions for each absentee ballot status so voters understand the differences and whether there is a possibility that their ballot could still be rejected.
- Provide voters with an opportunity to sign up for email or text notifications of any updates to their ballot status.
- Require counties to immediately determine whether a ballot is accepted or rejected at the time it is received by the county election office, and ensure that if a ballot is rejected, it is marked as such immediately and the voter is notified without delay.

These simple solutions will minimize voter confusion and are especially important for the upcoming runoff elections considering the large number of voters who are requesting absentee ballots.

4. **Mandate at Least One Drop Box for Every 15,000 to 20,000 Voters.**

We urge you to require all counties to provide at least one drop box for every 15,000 to 20,000 voters. According to the Cybersecurity and Infrastructure Security Agency (CISA) Elections Infrastructure Government Coordinating Council and Sector Coordinating Council's Joint COVID Working Group:

> Setting up ballot drop boxes and educating voters to use them mitigates a number of COVID-19-related risks associated with in-person voting. It also minimizes the number of people that will need to access voting locations, thereby providing more space for those who are engaged in in-person voting.

According to CISA, best practices to determine drop box quantity and locations include: (i) provide one drop box per 15,000 to 20,000 voters; (ii) install drop boxes in communities with historically low vote by mail usage; and (iii) use demographic data analysis to determine the needs of rural voters versus urban voters.

Drop boxes are essential to ensure that voters can safely and effectively vote, especially as COVID-19 rates are expected to continue to rise during the runoff elections period. Although some counties are providing some drop boxes, many counties are still failing to provide this option to voters, or are providing an insufficient number of drop boxes. We therefore urge you to mandate that all counties provide at least one drop box for every 15,000 to 20,000 voters.

* * *

We urge you to take the steps identified above so that voters can effectively, equitably, and safely vote in Georgia's upcoming runoff elections.

AMERICAN OVERSIGHT

Subject: Urgent Action Needed to Ensure Safe and Accessible Voting in Georgia's Runoff Elections

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Dear Secretary of State Raffensperger and State Election Board members:

Please find attached and below a letter signed by several in-state partners requesting that your office consider critical election administration fixes ahead of the January 5 runoff. We humbly respect a response from your office confirming receipt of this letter by **this Friday December 4.**

AMERICAN OVERSIGHT

Sent via email

November 30, 2020

Honorable Brad Raffensperger
Georgia Secretary of State
214 State Capitol
Atlanta, GA 30334

Re: Urgent Action Needed to Ensure Safe and Accessible Voting

in Georgia's Runoff Elections

Dear Secretary of State Raffensperger:

On behalf of All Voting is Local, Georgia, the NAACP Legal Defense and Educational Fund, Inc., SPLC Action Fund, and the undersigned organizations, we urge you to take the following critical steps to ensure that all voters can safely and securely exercise their right to vote in the January 5th runoff elections: (1) mandate specific weekend early voting dates; (2) address widespread technological and training issues with poll pads; (3) clarify confusing absentee ballot status information on the My Voter Page and BallotTrax websites; and (4) mandate at least one drop box for every 15,000 to 20,000 voters.

Not only will these nonpartisan and commonsense steps help ensure voters are able to safely cast their ballot in the upcoming runoff, they will also instill confidence in both voters and nonpartisan voting rights and civic organizations that rely on your leadership to improve our elections. These actions are especially important now as Georgia's COVID-19 rates are climbing and voters need safe and reliable methods to vote.

1. **Mandate Specific Weekend Early Voting Dates.**

It is widely expected that voter turnout for the January 5 runoff elections will be extremely high. The early voting period for runs from December 14 through January 1, coinciding with the holiday season. State offices are closed for official holidays on December 25 and January 1, and we anticipate most counties will not offer early voting on those days. We also anticipate some counties may not offer early voting on December 24 or December 31. This expected shortening of the available days for early voting during the holiday season will make it more difficult for voters to utilize early voting options and is likely to increase the number of voters who will vote in-person on January 5th, leading to long lines and increased risks of COVID-19.

To mitigate the likelihood of long lines on January 5th, counties should be directed to add additional early voting days and hours to account for any reduction due to the conflicts with the holidays. We urge you to mandate that all counties offer early voting for at least two weekend dates during the early voting period. Alternatively, we recommend extending voting hours to make up for lost time. All changes should be mandatory across the state in order to reduce the risk of voter confusion and guarantee that every voter has the same opportunity to cast their ballot regardless of where they live.

2. **Address Widespread Technological and Training Issues with Poll Pads.**

On Election Day, voters encountered widespread problems with poll pads, including poll pads that were slow, non-operational, or that did not arrive on time. Many poll workers were not able to quickly address and resolve these widespread issues. These issues caused voter confusion, longer wait times, and increased strain on poll workers. We urge you to require that counties take the following steps to address these issues for the runoff elections:

AMERICAN OVERSIGHT

- Ensure that poll pads are accurately programmed and any updates to the poll pad software are tested well in advance of use.

- Provide poll workers with more extensive and comprehensive training, so they can better understand how to troubleshoot problems.

- Give poll managers the authority and the corresponding technological permissions to quickly override inaccurate poll pad information (i.e., "already voted").

- Require counties to allocate the number of poll pads in each precinct relative to the number of registered voters in that precinct.

These solutions will alleviate many of the issues both voters and poll workers experience when poll pads malfunction.

3. **Clarify Confusing Absentee Ballot Status Information on the My Voter Page and BallotTrax Websites.**

The Secretary of State's "My Voter Page" and "BallotTrax" websites should be clarified so that voters understand that "receipt" of their absentee ballot does mean that their absentee ballot has been accepted and will be counted. Currently, the "My Voter Page" website marks absentee ballots as "accepted" when they are first received. The website does not disclose that absentee ballots that have been "accepted" may subsequently be rejected after further processing. Similarly, BallotTrax has a status label that marks absentee ballots as "counted," which includes a warning message that voters may not vote again, but fails to notify voters that their absentee ballot could still be rejected.

Voters who use these websites reasonably (but incorrectly) assume that their absentee ballots will not be rejected once they see confirmation that it has been "accepted" or "counted." Accordingly, voters have no reason to continue to monitor the websites to confirm their status. Moreover, due to widely reported USPS delays, voters may not receive timely notice that their ballot was rejected. As a result, many voters will miss important opportunities to cure their rejected absentee ballots within the allotted three-day period because they are simply unaware of the rejection.

We urge you to take the following steps to address these issues for the runoff elections:

- Revise the "My Voter Page" and "BallotTrax" websites to indicate when ballots are "received" by the county election office and provide specific updates to reflect whether the ballot is "counted," "challenged pending further information," or "rejected."

- Post simple definitions for each absentee ballot status so voters understand the differences and whether there is a possibility that their ballot could still be rejected.

- Provide voters with an opportunity to sign up for email or text notifications of any updates to their ballot status.

- Require counties to immediately determine whether a ballot is accepted or rejected at the time it is received by the county election office, and ensure that if a ballot is rejected, it is marked as such immediately and the voter is notified without delay.

These simple solutions will minimize voter confusion and are especially important for the upcoming runoff elections considering the large number of voters who are requesting absentee ballots.

4. **Mandate at Least One Drop Box for Every 15,000 to 20,000 Voters.**

AMERICAN OVERSIGHT

We urge you to require all counties to provide at least one drop box for every 15,000 to 20,000 voters. According to the Cybersecurity and Infrastructure Security Agency (CISA) Elections Infrastructure Government Coordinating Council and Sector Coordinating Council's Joint COVID Working Group:

> Setting up ballot drop boxes and educating voters to use them mitigates a number of COVID-19-related risks associated with in-person voting. It also minimizes the number of people that will need to access voting locations, thereby providing more space for those who are engaged in in-person voting.

According to CISA, best practices to determine drop box quantity and locations include: (i) provide one drop box per 15,000 to 20,000 voters; (ii) install drop boxes in communities with historically low vote by mail usage; and (iii) use demographic data analysis to determine the needs of rural voters versus urban voters.

Drop boxes are essential to ensure that voters can safely and effectively vote, especially as COVID-19 rates are expected to continue to rise during the runoff elections period. Although some counties are providing some drop boxes, many counties are still failing to provide this option to voters, or are providing an insufficient number of drop boxes. We therefore urge you to mandate that all counties provide at least one drop box for every 15,000 to 20,000 voters.

* * *

We urge you to take the steps identified above so that voters can effectively, equitably, and safely vote in Georgia's upcoming runoff elections.

Please contact Aklima Khondoker by **December 4, 2020** to inform us of the steps you will take to address the issues raised in this letter. Feel free to contact us should you have any questions.

Respectfully,

Should we open an investigation into this? I don't think it's right that college students have two plausible residences for voting and they get to choose which one to use. Everyone can only have one residence.

Ryan –

The quote in the Emory Wheel was as follows:

Emory students currently living in Georgia, regardless of where they previously registered, are eligible to register to vote in the runoff. Emory students who are currently registered in Georgia, regardless of where they are currently living, are eligible to vote in the runoff.

"This federal runoff is considered a new election," Emory Votes Initiative (EVI) Assistant Coordinator Sarah Zaslaw wrote in an email to the Wheel. "It is not double voting if someone [residing in Georgia] voted elsewhere in November and now registers in Georgia before this runoff."

AMERICAN OVERSIGHT

Students who satisfy these requirements and will turn 18 by Jan. 5 are also eligible to vote.

Zaslaw acknowledged student confusion in the face of warnings from the Georgia Secretary of State that moving to the state for the purpose of voting in the runoff is illegal but emphasized that college students are in a unique legal position.

"College students are a special group known to have two plausible residences for purposes of voting, and they get to choose which one to use," Zaslaw wrote. "They are not in the same category as out-of-state adults who might contemplate moving to Georgia right now for the express purpose of registering to vote."

See https://emorywheel.com/a-college-voters-guide-to-the-georgia-runoffs/.

As discussed, the Wheel's instruction to students before the General Election was as follows: *"If you are already registered in Georgia but you would prefer to vote in your home state, you can change your registration. Although you are allowed to be registered to vote in more than one state, you cannot fill out a ballot in more than one state." See* https://emorywheel.com/a-college-students-guide-to-voting/.

Best,

Trey

Subject: Fox News: Fla. lawyer calling for out-of-state registrations

Jordan and Frances,

The Daily Briefing Show is doing a story on a Florida attorney named Bill Price who is on Facebook telling the Dade County GOP to urge out-of-state residents to claim his brother's Paulding County, Ga., address so they can register to vote in the Jan. 5 runoff.

They want to know if we are investigating Price and if we have any comment. I pointed him to this morning's announcement of investigating third-party groups making similar suggestions, but they are really interested in the Price story.

Draft statement:
"Secretary Raffensperger has made it clear he has no tolerance for election wrongdoing and will investigate any credible evidence of it. Only permanent residents are eligible to vote in Georgia. Registering without the intention of permanent residency is a felony."

Jordan
Thank you for your time today.

Per our conversation:
Election Summary Report from Gwinnett County – Shows that #of Ballots Cast is 811,836
https://www.gwinnettcounty.com/static/departments/elections/2020_Election/pdf/11.03.2020%20General%20Election%20Unofficial%20and%20Incomplete%20-%20Election%20Summary.pdf

Photos taken of the DeKalb County Election Office on the morning of November 4, 2020
Storage of the ballots in DeKalb County Elections Office this evidence was presented by Kal Faris on the morning of November 4th. Her # 678-907-7071. I would strongly suggest you call her to get an account of what she saw on the morning following election day. She was not credentialed but volunteered to be a poll observer the morning of November 4th. Please take a look at all the photos but specifically of **IMG_3441.JPG** and text screen shot **IMG_3435.jpg.** The text exchange was between Robert Sinners (Trump Victory, Kel Faris and me.

Contact information of Ben Hendricks-VRP
He served on the VRP representing the DeKalb GOP on November 4, 2020. He said he saw several ballots that had a vote for Biden only on them.
Cell – 770-241-3363
Ben@hendrickfamily.com

Voter Review Panel in DeKalb is NOT Neutral
As I mentioned during our call, I am on the Voter Review Panel for DeKalb County representing the DeKalb GOP. Our role is to review and adjudicate the absentee ballots that cannot be processed by the scanners.

AMERICAN OVERSIGHT

Following a review of the ballot whether on the computer screen or via the original ballot, our role and are to determine the voter's intent. Our panel is comprised of four people – One Democrat, One Republican, Two Non-Partisans. The Non-Partisans are Democrats and are being put forth by the Women's League of Voters. The non-partisans are Democrats. I am very concerned by the integrity of how our absentee ballots are being counted in DeKalb County, Georgia.

With the aforementioned issues on November 4, 2020 during my 12 pm – 4 pm EST shift, my panel was asked to review a set of paper ballots. They were given to us by an election worker. We were seated at the table and came across a ballot that clearly had gotten wet but the ink had run. After a review the ballot, the 1 Democrat, 2 Non-Partisans and myself were in a disagreement around the voter's intent to a 3-1 ruling. However, I strongly disagreed with the ruling and we were told determined that we should bring this forth to the election officer worker. We did and she ruled in favor with the aforementioned panelists. However, the process was totally on the fly and the ballot was tossed in a pile to manually transcribe the ballot to be counted by the scanners.

Furthermore, it was not until Sunday, November 1st that the Non-Partisans stopped ruling independently on the U.S. Senate Special Election. In that there were NO Republican nor Democrat participating in the voter review panel. Essentially there were two separate panels – one comprised of a Republican and Democrat to analyze the General Election candidates. And one panel for the special election and constitutional amendments and questions. However, there was no controls in place to change protect the decisions made by either panel as the ballots go into a quarantine mode. So whomever was the last panel to review the ballot transmits it to be completed but can still edit the previous panels work. Furthermore the General Election categories were the only ones that were neutral – and but hundreds of ballots were put into quarantine mode and sent to 'non-partisans" without any oversight nor controls.

(See supporting email correspondence in DropBox).

Item Three: The Processing of the Absentee Ballots

I came across two different absentee ballots during the voter review that were deemed to be valid during the opening and processing stage that were unable to be read by the scanners but turned out to be Presidential Primary Ballots. As the envelopes were no longer affiliated with the two ballots, they were kicked out and disqualified. Apparently this is a common error where a voter does not realize which ballot that have completed and returned. But they are supposed to be caught at the time of the opening and validation as well as signature matched. At that time the DeKalb Elections Office contacts the voter to submit the correct ballot. There was one Trump / Republican and One Biden/ Democrat. But both ballots should have never gotten to us. This occurred on November 3, 2020 during my 12 – 2pm shift.

Supporting documentation for all the above:

Book everything. Break through this narrative.

Here are your talking points:

Brad Raffensperger Talking points week Nov 16th:

ANY QUESTION ABOUT Absentee Ballots:

1. I'd like to get straight to the point. My team secured and strengthened absentee ballots for the first time since 2005. As Secretary of State the first thing I did was push legislation that banned—OUTLAWED—absentee ballot harvesting in Georgia. That was me—my team.

2. Next, for the first time in the history of Georgia, Absentee ballots submitted through our electronic portal required photo ID. My team—we made that happen.

3. Lastly, let's address this disinformation about signature match. We strengthened signature match. We helped train election officials on GBI signature match—which is confirmed twice before a ballot is ever cast. Failed candidate Stacey Abrams loving Doug Collins is a liar. Period.

ANY QUESTION about Lin Wood:

1. Silly. Unwarranted under existing law. (changed after a few thoughts)
2. Our office has received multiple requests to match ballots back to voters exposing how a Georgia voter has voted. We stand ready to prevent any and all attempts from any party to intimidate voters. Georgian have a right to vote in secret without intimidation of any political candidate or party.

3. Yeah, we have a lot of mutual friends. Someone really needs to dig into his background—really interesting reputation around town.

Hey, here's my suggested revisions. I looked up what Yang said, and I all I could find was that he said he was "moving" here but never said he was going to register. He later clarified that he's not registering. Nevertheless, his comments raised this issue and concerned people. That's the direction I took, but kept the point.

RNC and GA GOP filed another lawsuit. Link is below and fox news story is here: https://www.foxnews.com/politics/rnc-georgia-lawsuit-gop-poll-watchers-senate-runoffs

They are suing to make sure observers are allowed in January 5 and to clarify rules around absentee ballot drop box observations, acc to the Fox news write up.

Draft statement:

"The Secretary of State's office has repeatedly instructed county elections officials to ensure access for observers. We have also made it clear that absentee ballot drop boxes need to be monitored 24/7. David Shafer and the Georgia GOP need to stop passing the buck for failing to deliver Georgia for Trump and actually focus on getting out the vote in January."

It would focus on election topics broadly and the Senate runoff specifically. I see where the secretary rebuked some groups who are trying to register voters and should not vote in the upcoming runoff… I'd love to discuss that with him. Also just talk about how his faith allowed him to boldly do his job even under pressure from Washington during the presidential election.

In terms of when I can be flexible with his schedule anytime between tomorrow and Friday.

Integrity Matters in Times of Uncertainty
By Georgia Secretary of State Brad Raffensperger
The past few weeks have been difficult for the voters of the Peach State.
As the nation and the world watched, Georgia took center stage in a battle that will define our country in a very practical sense for the next four years. But also, in a larger sense, how this country will move forward into the future.
Like Americans in every other state, Georgians went to the ballot box on and in the weeks leading up to November 3; to cast their vote for president, for senator, for mayor, or maybe just the local town council.
A record 1.3 million voters cast ballots absentee by mail here. Another 2.7 million cast ballots in-person during Georgia's gold-standard three weeks of early voting. Slightly more than 1 million waited on lines averaging a miniscule 3 minutes on Election Day.
By all accounts, Georgia had a wildly successful and smooth election. We finally defeated voting lines and put behind us Fulton County's now Notorious reputation for disastrous elections. This should be something for Georgians to celebrate, whether their favored presidential candidate won or lost. For those wondering, mine lost— my family voted for him, donated him and are now being thrown under the bus by him.

But in the days since, a different kind of pressure has come to bear on myself and the thousands of hard-working elections officials who span Georgia's second in the nation 159 counties.

Elections are the bedrock of our democracy. They need to be run fairly and, perhaps more important, impartially. That's not partisan. That's just American. Yet some don't seem to see it that way.
When I took office, I committed to running elections in Georgia with integrity. After any election, half of the voters will be happy and the other half will be disappointed. But I wanted to make sure everyone felt confident in the process and confident in the outcome.

And as November 3rd came to a close, Georgia's voters had every reason to be. Again, short lines on Election Day. Record turnout. Record early voting and record absentee by mail voting.

In the days that followed, a losing presidential campaign refused to accept the facts, following a playbook written by a failed gubernatorial candidate two years before. A failed senate candidate with nothing to do tried undermine the integrity of Georgia's elections. A self-described "attorney for the damned" took up the cause. An onslaught of fake news and unrepentant disinformation threatened to tear the fabric of our country apart. People on both sides of the aisle generated controversies out of nowhere to stir up trouble.
Even as Georgia embarked on its first statewide audit, a process that was only possible because of the state's new printed paper-ballot system, those who requested the full hand recount triggered by the audit of such a close race lined up to undermine its credibility. Those who had so long been beneficiaries of the electoral process sought to tear it apart at its very foundations.
But still, integrity matters.
When the nation is caught in turmoil, as it has been through several presidential terms, the people of Georgia and their fellow Americans will look to leaders with integrity for guidance.
Throughout my two years as Secretary of State, I have fought repeatedly to uphold the integrity of elections in Georgia. We worked with the Georgia Bureau of Investigation to strengthen signature

AMERICAN OVERSIGHT

matching for absentee ballot voters. We outlawed ballot harvesting and implemented a new voting system with printed paper-ballot that voters could hold and review before casting for the first time in nearly twenty years. We fought frivolous lawsuits from fringe groups and a failed gubernatorial candidate seeking to undermine laws passed by state legislators who were actually elected by the voters.

In times of uncertainty, when the integrity of our political system is most at risk, the integrity of our politicians is paramount.

Many of my fellow Republicans are men and women of integrity. They demonstrate it each and every day: fighting for their constituents, fighting for liberty, and fighting for fair and reliable elections.

In times like these, we need leaders of integrity to guide us through.

214 State Capitol, Atlanta, GA 30334

MEDIA ADVISORY
December 4, 2020

Secretary of State Certifies Election, Kraken Case Dismissed

(ATLANTA)-Secretary of State Brad Raffensperger today recertified the results of the November 3, 2020 presidential election. The recertification came following an audit-triggered hand recount and a formal recount requested by the Trump campaign. Both recounts upheld the original outcome of the race. The certified results of state and federal races can be found on the Secretary of State's website: sos.ga.gov.

Also this morning, the "Kraken" lawsuit launched by former Trump lawyer Sidney Powell was dismissed by judge of the United States District Court of the Northern District of Georgia Timothy Batten.

"Today is an important day for election integrity in Georgia and across the country," said Secretary Raffensperger. "The claims in the Kraken lawsuit prove to be as mythological as the creature for which they're named. Georgians can now move forward knowing that their votes, and only their legal votes, were counted accurately, fairly, and reliably."

In recertifying the results, the Secretary of State affirmed that all 159 counties have provided to the state the total votes tabulated for presidential candidates in the November 3, 2020 presidential election. Further, the Secretary of State affirms that the statewide consolidated returns for the presidential election are a true and correct tabulation of the certified returns received by this office from each county.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record turnout in 2020, with over 1.3 million absentee by mail voters and over 3.6 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

In recertifying the results, the Secretary of State affirmed that all 159 counties have provided to the state the total votes tabulated for presidential candidates in the November 3, 2020 presidential election. Further, the Secretary of State affirms that the statewide consolidated returns for the presidential election are a true and correct tabulation of the certified returns received by this office from each county.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record turnout in 2020, with over 1.3 million absentee by mail voters and over 3.6 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

Subject: 12.03.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see the information below that may be helpful to you in addressing constituent inquiries.

Absentee Ballot Drop Boxes:

- Absentee Ballot Drop Boxes are temporarily allowable by State Election Board emergency rule through **January 5, 2020**. *At this time, their use is not approved beyond January 5, 2020.*
- **The emergency provision of the secure, video-monitored drop box was cited in court as a reason Georgia did not have to extend the absentee ballot deadline to November 6 due to COVID-19.**
- On August 31, 2020, U.S. District Judge Eleanor Ross ordered that absentee ballots that are postmarked by Election Day and arrive at county election offices by 7 p.m. three business days later be counted. Please see this article for more information: https://apnews.com/article/c7dc45f6e37d3c743469978220754aa6
- While Georgia law allows this three day postmarked window for military and overseas ballots (UOCAVA ballots), this ruling would have allowed all mailed ballots to be accepted after Election Day as long as it was postmarked by Election Day, November 3, and received by Friday, November 6.
- The Secretary of State's Office successfully appealed this ruling in the 11th District Court.
- **Please see the full court opinion in favor of preserving Georgia's Election Day deadline in The New Georgia Project, et al. v. Brad Raffensperger, et al. here and an excerpt below:** https://media.ca11.uscourts.gov/opinions/pub/files/202013360.pdf
    - "...the evidence shows that Georgia's Election Day deadline does not implicate the right to vote at all. **Georgia has provided numerous avenues to mitigate chances that voters will be unable to cast their ballots.** Voters may request absentee ballots as early as 180 days before the election and may receive the ballots as early as 49 days before the election. See O.C.G.A. § 21-2-381(a)(1)(A); O.C.G.A. §

AMERICAN OVERSIGHT

- 21-2-384(a)(2). **They can return their ballots through the mail, hand-delivery, or a drop box; dozens of drop boxes are available through Election Day in numerous locations, and all jurisdictions have the authority to add them.** See O.C.G.A. § 21-2-385; Ga. Comp. R. & Regs. 183-1-14-0.8-.14. Voters also have the option to participate in early in-person voting. O.C.G.A. § 21-2-385. Even those who have already requested and received an absentee ballot can vote in person on Election Day if they properly cancel their absentee ballot. O.C.G.A. § 21-2-388. And though delays in the postal service may (not will) delay when some voters receive their absentee ballots, all of these avenues remain open to any and all voters."

- There is a posted sign with all absentee ballot drop boxes showing that:
  - The drop box is under 24 hours, video surveillance.
  - Only the voter, the voter's approved family members, an individual residing in same household, or a caretaker of a voter with a disability can drop off the voter's ballot.
  - A violation can result in a fine of up to $10,000 and 10 years in prison.

Recount:

- All counties have uploaded their recount results for the November 3, 2020, Election, but not all have certified as of 4:00 PM today.
- Recount results may be viewed here: https://results.enr.clarityelections.com/GA/107231/web.264614/#/summary
  - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
  - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Voting System Audit:

- After the election, Pro V&V, an independent U.S. Election Assistance Commission-certified testing laboratory, conducted an audit of a random sample of Dominion Voting Systems throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.
- The ICP (precinct ballot scanners), ICX (ballot marking devices), and ICC (central absentee ballot scanners) components were all subject to the equipment audit.
- Pro V&V found no evidence of the machines being tampered.
- Additionally, the votes recorded by the Dominion scanners were proven accurate by the full manual tally of every paper ballot.
- Audit teams physically examined the printed text on every paper ballot for the presidential race to verify the results are accurate.
- Please see this press release for more information: https://sos.ga.gov/index.php/elections/historic_first_statewide_audit_of_paper_ballots_upholds_result_of_presidential_race

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Subject: 12.02.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see the links to today's election updates from the Secretary of State and additional information that may be helpful to you in addressing constituent inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and the New Georgia Project, that have repeatedly and aggressively sought to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020, Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).

AMERICAN OVERSIGHT

- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from the New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from the New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said the New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from the New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
    - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of State's Office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and it also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

AMERICAN OVERSIGHT

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

Sincerely,

Hayley

Secretary of State's Office to Hold Press Conference

What: A press conference
When: Tuesday, December 1, 3:30 p.m.
Where: Georgia State Capitol, South Stairs

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been

AMERICAN OVERSIGHT

called the “gold standard”), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record primary turnout in 2020, with over 1.1 million absentee by mail voters and over 1.2 million in-person voters utilizing Georgia’s new, secure, paper ballot voting system.

Subject: Notification: New Open Records Request Received

AMERICAN OVERSIGHT

This is notification the system received a new Open Records Request or a request has been reassigned to you.

Below is the link to the specific request.

https://columbiacountyga.mycusthelpadmin.com/WEBAPP/ZAdmin/ServiceRequests/Details.aspx?id=3807

Overview of the Request

Create Date: 11/19/2020 4:56:25 PM

Reference # P003807-111920

Type of Record: Other - Board of Elections

Description of Record Requested: Pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), the National Defense Committee makes the following request for records and information regarding voting and election information under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), 42 U.S.C. Section 1973ff, et seq., as amended. The National Defense Committee requests Columbia County produce the following within three business days for this data County-wide throughout the county, or provide a written description of any responsive records and information, with a timetable for their production, within three business days. 1. Complete data on UOCAVA voters for this cycle (i.e., general election held November 3, 2020 and U.S. Senate runoff elections to be held January 5, 2021), in accordance with, among other statutes and regulations, Ga. Comp. R. & Regs. 183-1-14-.04, and Ga. Code Ann. §§ 21-2-211, 21-2-224, 21-2-225, 21-2-384, 21-2-386, 21-2-390: a. Individual UOCAVA voters: i. Name ii. Voting Residence address, iii. absentee ballot delivery address, iv. absentee ballot delivery email address (if applicable), v. UOCAVA classification (Uniformed Services, Overseas Citizen, Uniformed Services dependent, etc.), vi. date of UOCAVA ballot application, vii. status of application, viii. date ballot transmitted to the voter, ix. method of transmission (electronic or postal), x. date ballot received by election office, xi. whether ballot was rejected or accepted, xii. reason for rejection (if applicable), xiii. date and time of communications to UOCAVA voter notifying them of the need to cure their ballot (if applicable), and xiv. Status of curing the ballot b. Overall UOCAVA data: i. Number of UOCAVA absentee ballot applications, by: 1. UOCAVA voter classification, 2. The number of UOCAVA absentee ballot applications received prior to the 45-day deadline for transmitting UOCAVA ballots, and the number received after that deadline, and 3. Number of absentee ballot applications by UOCAVA voters who used a non-UOCAVA form, such as a local or State absentee ballot application, but who were still afforded UOCAVA status. ii. Number of UOCAVA ballot application rejections, by UOCAVA voter classification, iii. Number of UOCAVA absentee ballots transmitted by UOCAVA voter classification, iv. Number of UOCAVA absentee ballots returned as undeliverable: 1. By UOCAVA voter classification, 2. By date of UOCAVA absentee ballot application date. v. Number of UOCAVA absentee ballots returned by voters to be cast, by UOCAVA voter classification, and vi. Number and specific reason of UOCAVA absentee ballots rejected by UOCAVA voter classification. 2. Images (scans or copies) of the oath of elector side of each rejected UOCAVA ballot envelope, as well as (if it was not the same side) the stamped side of each rejected UOCAVA ballot envelope with ¤REJECTED and reason for the rejection; 3. The steps your county board of elections took in curing any UOCAVA ballots (due to rejection, spoilation, or otherwise) in as much detail as possible (including any data, records, or notes) and 4. Email addresses of anyone who requested a UOCAVA ballot to be delivered by

AMERICAN OVERSIGHT

electronic means (whether they are entitled to receive it this way or not). Section 21-2-384(d of the Georgia Annotated Code requires each board of registrars or absentee ballot clerk to maintain a public master list, arranged by precincts, that sets forth the name and residence of every elector to whom an official absentee ballot has been sent, and because e-mail addresses are the equivalent to a postal mail delivery address for such UOCAVA voters, they should be provided to the public as well. Also, pursuant to the Open Records Act (O.C.G.A. § 50-18-70 et seq.), I would like to obtain the following regarding Federal Write-in Absentee Ballots (FWAB) (see e.g., Ga. Code Ann. § 21-2-381.1): 1. Name of voters who submitted a FWAB, 2. UOCAVA classification of voters who submitted a FWAB, 3. Date of original voter registration of voters who submitted a FWAB, 4. Date of registrar's receipt of Federal Post Card Application from UOCAVA voter using a FWAB, 5. Voting history for the last six years for voters who submitted a FWAB, 6. Method and results of certifying the identity of voters who submitted a FWAB for their original UOCAVA absentee ballot application, including detail as to whether such proof was a Georgia driver's license number, Social Security numbers, or other form of identification, and if other, what specifically that method was, 7. Whether the FWAB submitted was counted as the voter's ballot, or if another voting method was used by the voter, and 8. Method the county used to ensure the FWAB was not counted when another voting method was used by the voter. National Defense Committee seeks all responsive records and information, regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in the broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages, transcripts, notes, minutes of any meetings, telephone messages, or discussions, electronic "chat" or internal coordination system messages such as through systems like Slack. Our request includes any attachment to these records. Not category of material should be omitted from search, collection, and production. In addition, National Defense Committee insists your office use the most up-to-date technologies to search for responsive information and take steps to ensure the most complete repositories of information are searched. National Defense Committee is available to work with you to craft appropriate search terms. However, custodian searches are still required; your office may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts. In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release. Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. Conversely, please prioritize the delivery of records in response to this request to maximize the records which can be provided within three business days. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records. To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, National Defense Committee welcomes an opportunity to discuss its request while you undertake your search or incur search or duplication costs. By working together at the outset, National Defense Committee and the county can decrease the likelihood of costly and time-consuming litigation in the future. Unless otherwise specified above, please provide the requested information in electronic format through email, DropBox, Google Drive, or other electronic transfer system. If that is not possible, then through standard media device(s), such as disc or thumb drive. Please send any responsive material by email to Bob.Carey@Empire-Capitol.com, or to National Defense Committee, 6100 Bradley Boulevard, Bethesda, MD 20817. If it will accelerate release of responsive records to National Defense Committee, please also provide responsive material on a rolling basis. I understand that pursuant to O.C.G.A. § 50-18-71, I may be

AMERICAN OVERSIGHT

charged administrative and copying fees for the cost to search, retrieve, copy, and supervise inspection of the requested documents, images, and data. I agree to pay all copying and administration costs incurred in fulfilling my open records request. Conversely, we are willing to accept these documents in electronic format. If the expenses will exceed $1,000, we request you notify us first before incurring such an expense with an estimate of the expected total cost. If you have any questions, whatsoever, please feel free to contact me. Very Respectfully, Bob Carey CAPT, USN (Ret) Senior Fellow National Defense Committee 202-779-1598 Bob.Carey@Empire-Capitol.com

Subject: Georgia Open Records Act Request: Public Records Request

Good Afternoon,

Please see below for a new request.

Due Wednesday 11/4!!

Secretary of State
ORA Office
214 Capitol Place Southwest
Atlanta, GA 30303

October 30, 2020

To Whom It May Concern:

Pursuant to the Georgia Open Records Act, I hereby request the following records:

All electronic communications sent and received by the Secretary of State and any individuals acting on behalf of the Secretary of State, and the following state legislators and entities:

1. Sen. Bruce Thompson
2. Rep. Matthew Dollar
3. Sen. Steve Gooch
4. @ALEC.org
5. American Legislative Exchange Council

The search for records may be limited between March 1, 2020 through to the date this request is processed.

Individuals acting on behalf of the Secretary of State should be understood as a deputy, assistant, scheduler, executive assistant and/or chief of staff.

The search for electronic communications records, whether in an electronic or print medium, original or copy, or draft or final form, should include sent and received correspondence (please include all attachments), text messages (i.e., SMSmessages) and other mobile-phone-based/computer-based text communications, and voicemails.

The search for records should include all email accounts used to conduct official business, including personal email addresses such as a "gmail", "yahoo", "aol" and/or campaign account.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 3 business days, as the statute requires.

AMERICAN OVERSIGHT

Sincerely,

Jamie Corey

I have been requesting this information since November 5th. I have checked the chain of command, and you have the ability to walk this request through personally. This has gone on long enough. I have saved every email, + 37 recorded phone calls, including a detailed list of names involved, I have made to the governor and Secretary of State. With these recorded phone calls and emails, I have more than enough proof that I have been denied access to public information as outlined in the Georgia Information Act. I have asked for this information as a voter of the state of Georgia, more importantly, as someone who loves this state. I have no intentions of using these materials maliciously, nor do I have any intent on posting it publicly. However, if the majority of my request is not fulfilled by 4 p.m. today, I have 2 Media Outlets and my local Republican office standing by to receive copies of all my correspondence, and detailed list of names involved. I have been nothing but patient, polite, and forthcoming in this matter, despite the fact I was met with nothing but hostility on the telephone on at least 29 of those phone calls. According to legal counsel I have received, I have not asked for any information out of the scope of the Georgia Information Act. I was also informed I reserve the right, and I intend on exercising that right,to post all of my emails and recorded phone conversations, including names of everyone involved, as I see fit. Considering the time frame when I started this request, if the majority of my request or not met by 4 p.m., I intend on exercising that right. I would appreciate a speedy turnaround, and anticipate hearing from you today. I understand it may take a day or two to get the video together, but there should be no problem fulfilling the rest of my request by the end of the day.

Sincerely,
Mark Kacsir
Proud Georgia Resident,

Consider this an open records request for the following, D-Suit 5.5 -A Test Report Completed and signed on August 7, 2019, Michael Walker and Wendy Owens, project managers of before mentioned report. There are 13 pages of this report missing from Ga. Records online. Also, the CCTV Footage from State Records involving all Ballot Drop Boxes from 12pm -3pm November 1, 2020 - November 6, 2020. Also, we request Receipt total of said Dominion Voting Systems Equipment, Georgia residents have a right to know what we spent the funds on, and who benefited from said purchase, records avail. online are INCOMPLETE. Our calculated totals, based on pricing in July, do not correspond with what was reported when equipment was purchased. We are also hereby requesting names of those individuals issued Access drives, admin login ability, and those individuals who had access to Dominion Switches, I also hereby request information regarding individuals involved in the purchase of said Dominion Voting systems, Sales representatives names, purchasers names, and an accurate count of Dominion Equipment purchased, as records avail. are INCOMPLETE. Any individual name requested will be required for subpoenas if I decide to move forward. I am requesting this information under the protection of Georgia information ACT..

Thank You, Mark Kacsir.

Good morning, Julie,

Do you have a list of people who have purchased voters lists from 2017 to 2019? If you don't have their names, do you have the data showing how many times this request was made from 2017-2019?

Thank you for your help!

Hello

I hereby request the logs of sales of voter registration lists. I would like records of who has purchased these lists from 2017-2019.
If the identity of the purchaser cannot be disclosed, I would like aggregate data of how many times this data has been purchased. Thank you.

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Afternoon Superintendent,

I am writing on behalf of the Donald J. Trump for President, Inc. campaign. Please find an Amended Public Information Request from the request submitted on Friday, November 6. As time is of the essence, I emphasize that that it is essential to receive your response within the three-day time period required by Georgia Law. O.C.G.A. § 50-18-71.

Thank you,

Alyssa Gonzales Specht
Georgia Election Day Operations Senior Advisor
Donald J. Trump for President, Inc.

Hi Investigator Anding,

It was nice to see you today!

I attached the Official Election Bulletin regarding residency requirements for voters, as well as the Code Sections 21-2-216 which outlines the qualifications of electors and 21-2-217 which details the residency requirements needed to be a voter in Georgia.

I hope this is helpful! Please let me know if you need anything else.

Kind regards,

SOS/Elections News

Georgia's GOP secretary of state says recount results will show 'no substantial changes'

By Jason Morris, Chandelis Duster and Tori Apodaca, CNN

News of the looming recount results is yet another blow to President Donald Trump, who continues to baselessly claim widespread voter fraud in the state and has pursued legal challenges in the state. The President has repeatedly attacked Republican state officials, including Raffensperger and Gov. Brian Kemp, for not overturning the outcome in his favor, though the two men have distinguished themselves from other national party leaders by consistently rejecting his claims of fraud.

"We have seen no substantial changes to the results from any county so far. And that's what we expected, and

AMERICAN OVERSIGHT

I think that's what most other people have also," Raffensperger said at a press conference from the south stairs of the Georgia Capitol.

Fact-checking claims signature audits in Georgia would uncover fraud

By Amara Walker and Tara Subramaniam, CNN

President Donald Trump has repeatedly insisted the election results in Georgia were rigged while state election officials maintain there's no evidence of widespread fraud. In an effort to promote the falsehoods, Trump and his allies have continued to call for a signature audit of the absentee ballot envelopes in Georgia, while making false or misleading claims about the potential process.

Georgia News

Georgia group founded by Stacey Abrams under investigation for seeking out-of-state, dead voters

By Brooke Singman | Fox News

Georgia Secretary of State Brad Raffensperger has launched investigations into several groups, including one founded by former Georgia gubernatorial candidate Stacey Abrams, for seeking to “aggressively” register “ineligible, out-of-state, or deceased voters” before the state’s Jan. 5 Senate runoff elections.

Raffensperger’s office on Wednesday said the investigations are into groups including America Votes, Vote Forward and The New Georgia Project — which was founded by Abrams and previously chaired by Democratic Senate candidate Raphael Warnock.

'They have not earned your vote': Trump allies urge Georgia Republicans to sit out Senate runoffs

Joey Garrison, USA TODAY

Allies of President Donald Trump's efforts to overturn the election urged Republicans in Georgia on Wednesday to stay at home for the Jan. 5 Senate runoff elections, arguing Trump supporters shouldn't take part in another "rigged election."

National News

Arizona Democrat Mark Kelly sworn in as newest senator

By MARIANNE LEVINE, POLITICO

Democrat Mark Kelly of Arizona was sworn in Wednesday as the newest member of the Senate, bringing the GOP majority down to 52-48.

Kelly, a former astronaut and U.S. Navy Captain, beat GOP Sen. Martha McSally in a special election this November. While Kelly has never held public office before, he was widely viewed as a star recruit for the Democratic party this election cycle and is married to former Rep. Gabby Giffords (D-Ariz.), who is now an advocate for stricter gun laws after surviving a 2011 assassination attempt.

AMERICAN OVERSIGHT

Biden says he won't remove Trump's tariffs on China immediately

BY JORDAN WILLIAMS, THE HILL

President-elect Joe Biden says he won't immediately remove the tariffs that President Trump imposed on China. In an interview with The New York Times published Wednesday, Biden said he would not "make any immediate moves" on tariffs, adding that he was "not going to prejudice my options."

He told the newspaper that he wants to review existing agreements with China and then turn to allies in Asia and Europe "so we can develop a coherent strategy."

To: McCloud, Hayley <hmccloud@sos.ga.gov>
Cc: Teasley, Sam <samteasley@sos.ga.gov>
Subject: 12.02.2020 - Secretary of State Election Update

Dear Members of the General Assembly,

Please see the links to today's election updates from the Secretary of State and additional information that may be helpful to you in addressing constituent inquiries.

9:30 AM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-state-press-conference

- Attorney General William Barr declared Tuesday the U.S. Justice Department has uncovered no evidence of widespread voter fraud that could change the outcome of the 2020 election. Please see this AP article for more details: https://apnews.com/article/barr-no-widespread-election-fraud-b1f1488796c9a98c4b1a9061a6c7f49d
- There are over 250 open investigations into the election being carefully evaluated by the Secretary of State's Investigations Division. Sufficient evidence of widespread fraud that could change the outcome of this election has not been discovered.
- While third-party groups are not prohibited from trying to register eligible voters, they need to do so responsibly.
- Secretary Brad Raffensperger has launched an investigation into several groups, including America Votes, Vote Forward, and the New Georgia Project, that have repeatedly and aggressively sought to register ineligible, out-of-state, or deceased voters before the January 5 Senate runoff elections.
- Some groups have falsely claimed they get their mailing list containing deceased and ineligible voters from the Secretary of State's files. Secretary Raffensperger received three identical postcards addressed to his deceased son with a QR code to register to vote. Our office checked, and his son is not on our voter rolls.
- The results from the December 1, 2020, Special Elections are located here: https://sos.ga.gov/index.php/Elections/current_and_past_elections_results
    - The projected winners are:
        - US House District 5 Special Election Runoff - Kwanza Hall
        - State Senate District 39 Special Democratic Primary - Sonya Halpern
        - District Attorney - Western - Special - Deborah Gonzales

3:30 PM Election Update: https://www.gpb.org/events/news/2020/12/02/secretary-of-states-office-election-briefing

- **As of 3:30 PM, 132 counties have finished the recount.**
    - If any county has a 1 vote difference after the recount, the county will need to recertify their election. If the county recertifies, the state will have to recertify.
    - Counties have until noon Friday to recertify. SOS expects to recertify Friday afternoon. The Governor will then need to recertify and send the electoral list to Washington, D.C.

Investigations:

- For several weeks, the Secretary has issued warnings against efforts to register individuals who are ineligible to cast ballots in the January runoffs or to encourage people to come to Georgia solely to cast ballots.
- False registration, i.e., someone who registers to vote knowing that they do not possess the qualifications required by law, is a felony and can be punished by between one and ten years in prison, and/or up to a $100,000 fine (O.C.G.A § 21-2-561).

AMERICAN OVERSIGHT

- Any individual or group who organizes or finances efforts to bring individuals to Georgia to register falsely as electors may also potentially be charged with felony racketeering under O.C.G.A. § 16-14-3(5)(A)(xxii), which can be punishable by between 5 and 20 years in prison and a fine of up to $25,000 per count (O.C.G.A. § 16-14-5).
- One Fulton County resident reported receiving 5 postcards from the New Georgia Project soliciting a registration for the same dead person.
- A Cherokee County resident received a voter registration solicitation from the New Georgia Project for his spouse who is ineligible to vote.
- A third complaint said the New Georgia Project sent a voter registration solicitation to his daughter who is not registered to vote in Georgia and had lived in a different state for five years.
- A fourth individual reported receiving a package of postcards at her home in New York City from the New Georgia Project encouraging people to register to vote in the Georgia Senate runoffs.
- Operation New Voter Registration GA encouraged Emory students to register fraudulently to vote in the January 5 runoffs.
    - A flier from the group told students that Your current residence can be another state. You are simply changing your state of residence now; and it can be switched back for future elections (your option).
- **To register to vote in Georgia, individuals must be residents of the state with no intention to leave.**
- Vote Forward sent a letter to a long-deceased Alabama resident, encouraging her to register to vote.
- America Votes sent two absentee ballot applications in one week to an individual at an address where they had not resided since July 1994.
- The Office of the Secretary of State investigates allegations of questionable elections activity. Citizens may use the online reporting form at https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp or call the Voter Fraud Hotline at 877-725-9797 to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Voter List Maintenance:

- Georgia conducts regular list maintenance in accordance with the National Voter Registration Act (NVRA). Please see this link from the DOJ to learn more: https://www.justice.gov/crt/national-voter-registration-act-1993-nvra
- The Secretary of State's Office outlines the process of list maintenance here: https://sos.ga.gov/index.php/elections/2019_list_maintenance
- Systematic maintenance is conducted no later than 90 days prior to the general election. However, pursuant to Sec. 8 of the NVRA, we are able to perform list maintenance regarding a voter's felony status, mental capacity, death, or by the request of the voter.
- Georgia is also a member of the Electronic Registration Information Center (ERIC): https://ericstates.org/ The mission of ERIC is to assist states in improving the accuracy of voter rolls, and it also increase access to voter registration for eligible citizens. ERIC uses resources such as the Social Security death index and NCOA data.

Settlement Agreement:

- **The settlement agreement on March 6, 2020, does not and did not change the law.**
- The Democratic Party of Georgia had sued to challenge the signature match provision.
- In order to protect the requirement of a signature match, the Secretary of State's Office agreed to send counties an Official Elections Bulletin (which is not a rule or law change, but an advisory opinion on how to enforce existing laws) regarding the recommended process for conducting signature match in compliance with existing Georgia code.
- County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet ***and*** on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. 21-2-386.
- If there is a question about whether the signature matches, the county would consult multiple versions of the signature (application, voter registration card, and any other signatures on file). Further, if the absentee clerk reviewing the signature believed that the signature did not match, they would be required to find two other county election staff to review with them. If a majority of those staff agreed that the signature should be rejected, they would mark it as rejected and write their names on the face of the envelope. It should be noted that this was very similar to the methods already widely used by counties regarding signature match.
- **The effect of this settlement agreement was to have SOS send an Official Election Bulletin that officially states what was already common practice for many counties.**

AMERICAN OVERSIGHT

Advanced Voting for January 5, 2021:

- Advanced Voting starts Monday, December 14, 2020.
- Since Friday, January 1, is a holiday, some counties may end advanced voting on December 31, 2020, and others may end on January 1, 2021. *This is a county decision. Some counties may also be closed for Christmas and Christmas Eve and not offer voting on those days.*
- Please see the election date calendar here: https://sos.ga.gov/index.php/elections/elections_and_voter_registration_calendars

If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley. We appreciate your service and are here to help!

SOS/Elections News

Georgia's 50%+1 vote threshold does not apply to the presidential race

Fox News

Georgia's quirky election rules do not apply to the 2020 presidential contest.

According to the Peach State's election laws, if no congressional candidate receives a more than 50%+1 vote majority on Election Day, the two top candidates advance to a January 5, 2021 runoff.

Georgia's Republican secretary of state shoots down Republican senators' call for his resignation

By Paul LeBlanc, CNN

Georgia Secretary of State Brad Raffensperger on Monday rebuked calls from Republican US Sens. Kelly Loeffler and David Perdue to resign as both of their Senate races appear to be headed for a January runoff.

"Earlier today Senators Loeffler and Perdue called for my resignation," Raffensperger, who is also a Republican, said in a statement. "Let me start by saying that is not going to happen. The voters of Georgia hired me, and the voters will be the one to fire me."

"As Secretary of State, I'll continue to fight every day to ensure fair elections in Georgia, that every legal vote count, and that illegal votes don't count," Raffensperger continued.

Georgia News

Doug Collins to lead Trump recount effort in Georgia

BY ARIS FOLLEY, THE HILL

AMERICAN OVERSIGHT

Rep. Doug Collins (R-Ga.) will lead a recount effort for President Trump's reelection campaign in Georgia, where President-elect Joe Biden holds a razor-thin lead as ballots continue to be counted in the state.

In a statement announcing Collins had been tapped to lead the recount team, Matt Morgan, general counsel for the Trump campaign, said there are concerns "about the lack of transparency in the tabulation process," citing what he referred to as "reports of irregularities and improper ballot harvesting in Georgia."

Andrew Yang moving to Atlanta to help Democrats win Senate runoffs

By: WSBTV.com News Staff

Former Democratic presidential candidate Andrew Yang announced Saturday that he will be moving to Georgia to help Democrats clinch two crucial Senate runoffs in January.

The 45-year-old entrepreneur from New York made the announcement on Twitter, saying the best way to help President-Elect Joe Biden is to get him a Democratic Senate.

Republicans Kelly Loeffler and David Perdue will face Democratic challengers Raphael Warnock and Jon Ossoff (respectively) on Jan. 5.

National News

Daniel Cameron joins Republican AGs in challenging Pennsylvania mail-in ballots

Emma Austin, Louisville Courier Journal

Two days after former Vice President Joe Biden was declared the winner of the 2020 presidential election, Kentucky's attorney general will join other Republican AGs Monday in taking "major legal action" in the case challenging Pennsylvania's mail-in ballots.

Don't Believe the Hype: GOP Favored in Georgia Runoffs

By John Fund, National Review

It looks as if control of the Senate will be determined by a pair of January runoff elections in Georgia.

Democrats insist they will win both seats and tie the Senate 50-50 (with Vice President Kamala Harris breaking the tie). But history is not on their side.

Georgia Senate runoff showdowns draw potential 2024 GOP presidential contenders

By Paul Steinhauser | Fox News

The twin Senate runoff elections in Georgia will decide whether the Republicans keep their Senate majority of if the Democrats control both houses of Congress as well as the White House.

But the showdowns -- which are fast becoming the main event in the campaign world, with both major parties and outside groups getting ready to pour massive amounts of money and resources into the two contests -- are also serving as an early testing ground for potential 2024 GOP White House hopefuls.

Subject: NCOA_VOTERS_ABM_RECORDS_FOR_JAN-5 Election.xlsx

Attached is the list of voters who have requested an absentee by mail ballot for Jan. 5th and filed an out-of-state NCOA. Many of these people are going to be perfectly legitimate Georgia voters, but some are likely not. Given all the attention on this issue:

Gabrielle—can you draft a letter to send to these voters reminding them that they have to currently hold the qualifications to vote in Georgia to cast a legal ballot. One of those qualifications is that they be a resident of the state and county in which they are voting. Include the factors in 21-2-217 to help them determine residency and include in the letter the common reasons that someone can live out of state and not lose their residency (college, military or other government service, temporary relocation). This should just be very factual.

Chris—I think we should also send this data to the counties so that they are aware, and tell them that many of the voters on this list are going to be perfectly legitimate, but that they should be aware of the issue, especially due to their duties pursuant to 21-2-228 and 381. Their board should determine appropriate action after individualized review of each case.

Thanks, Jordan. I think I spoke with your colleague Walter last night. (He was very helpful—and patient!) It occurred to me this morning, although I am sure it is very present for all of you, that you might want to mention that the integrity of your count has implications for both U.S. Senate races. It's important on all levels, of course. But unlike most others, in your state and elsewhere, two of the elections aren't done this month.
I am not trying to inject words; it just seemed worth mentioning in case a reference to the ongoing status of those races is something you want to include.
I will be online, and my phone number is (202) 486-7224. Happy to answer any questions and looking forward to seeing the draft.

Thank you and best regards,

Subject: Re: Draft release on Ware County voting machines -- Approval needed

Secretary of State's Office Debunks Ware County Voting Machine Story

(ATLANTA) – The Secretary of State's Office said Monday there is no truth to allegations circulating in social media that voting machines in Ware County had been seized or that they somehow revealed tampering.

"This is another of the falsehoods being pedaled by conspiracy advocates trying to convince the gullible why the presidential election didn't turnout as they'd hoped," said Walter Jones, former conservative news journalist. "No voting machines have been seized. No one has unearthed evidence of 'vote flipping' because it didn't happen. And no one has discovered some secret algorithm for altering the election outcome because that's nonsense."

A statewide hand recount as part of a post-election audit resulted in a difference of 37 additional votes for the president in Ware County. That totals 0.26 percent, well below the average 1-2 percent variation demonstrated by academic research when comparing the accuracy of manual counts compared to machine counts because of normal human error. This small vote change is evidence of humans being less precise than machines at counting, and nothing more. To allege that it somehow proves the machines flipped votes is irresponsible and reckless, Sterling said. The results of the hand recount statewide would have showed a consistent variation similar to the one in Ware County if there really had been a secret algorithm. Instead, the hand recount showed the machine totals substantially reflected the plain text printed on the ballots.

Ware County Election Supervisor Carlos Nelson pooh-poohed the conspiracy theory as instead a "human-error tabulation issue."

"I can tell you this is —I don't want to cuss — this is a darned lie. Our vote machines are secure. There's no vote-flips," he told Politico on Monday.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record turnout in 2020, with over 1.3 million absentee by mail voters and over 3.6 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

November 17, 2020

Secretary of State's Office to Hold News Conference

What: A news conference on the post-election audit/hand recount

When: Tuesday, November 17, 4 p.m.

Where: Zoom link:here

Please click on the three dots (more) to raise your hand to be recognized for a question.

Note: This is a new Zoom link from this mornings news conference.

Georgia is recognized as a national leader in elections. It was the first state in the country to implement the trifecta of automatic voter registration, at least 16 days of early voting (which has been called the "gold standard"), and no-excuse absentee voting. Georgia continues to set records for voter turnout and election participation, seeing the largest increase in average turnout of any other state in the 2018 midterm election and record primary turnout in 2020, with over 1.1 million absentee by mail voters and over 1.2 million in-person voters utilizing Georgia's new, secure, paper ballot voting system.

Subject: UPDATE: Data files on potential vote fraud

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Jordan,

Please find the attached file. In the 1,157 records you provided, you have 938 that actually ballot status of A. We went through these records and can confirm that the addresses are associated with one of the categories listed below. The majority of these are not in residential addresses, except for the records that have the words apartments. In these cases, you will see that these apartments are located in the malls which contain UPS, FedEx, etc., which means you would have to talk to the facility to see whether the residents used their addresses or the FedEx shipping center. I have a call into a contact at FedEx to see if they can provide some assistance here.

On the file, we have a AddressSort Pivot tab, you can click on the number, and it will show you all the records associated with that address. I would be happy to walk someone through the file if they have questions. Let me know.

Tags	'Count Voter Registration # w/ A Ballots

Mall / Apartments / Fedex	5
Office Buildings	4
Grand Total	**938**

In an unrelated question.

We paid for a voter registration file, which we got, but it was missing people (we validated), so the file is inaccurate. I have reached out to Frechette, Eric efrechette@sos.ga.gov to see if we can get an accurate file but have not heard back from them. This file is what we use to match data across your other public files. Can you help us here?

Subject: Data files on potential vote fraud

Frances,
I know these have been exceptionally busy times, and I appreciate the dedication to ensuring Georgia□s election includes every legal vote and no illegal votes!
Chm Blackmon and I have been forwarding information on potential fraudulent registrations and/or votes.
Legislative liaison Sam Teasley reports he has forwarded to you and your investigation team several files on:

- □ Double Voters
- □ Out of State via NCOA
- □ Out of State via Subsequent Registration

I have added a file below on reported voter registrations using Georgia postal facilities with PO box numbers possibly disguised as apartment or unit numbers.

Two questions:
1) As we plan for a House Government Affairs Committee meeting next Thursday 12/10, we wanted to be certain you have received the files mentioned. Have you received these?
and

AMERICAN OVERSIGHT

2) Have you or your team been able to begin evaluating these lists of voter names/DOB/registration dates/etc in terms of investigating whether votes may have been cast by individuals not eligible to vote in Georgia (which would be voter fraud)?

Thanks for a prompt response this evening or Saturday, as we can re-send info or clarify questions if needed, Mark Newton Ga House District 123 Chairman, Special Committee on Access to Quality Healthcare Majority Chief Deputy Whip

Name: **Marci Baer McCarthy** Phone: [redacted]
County: **DeKalb County** Address: [redacted]

AFFIDAVIT

COMES NOW, **Marci Baer McCarthy**, after being duly sworn makes the following statement under Oath.

1. My name is **Marci Baer McCarthy**.
2. I am over the age of 18 years and I AM under no LEGAL disability which would prevent me from giving this declaration. If called to testify in a court of law with proper jurisdiction, I would testify under oath to the following facts.

I declare under penalty of perjury that the foregoing is true and correct. Executed this the 4th day of December, 2020.

My name is Marci McCarthy. I am a successful businesswoman who owns a marketing and events company in the cyber security industry. I am also the Vice Chairman of Communications for the DeKalb GOP, serve on the GAGOP Foundation Board of Governors and was elected as a 2020 National Delegate at the Republican National Convention (RNC) representing Georgia's 6th Congressional District.

I served on the Voter Review Panels (VRP) representing the DeKalb GOP - during the June Presidential

AMERICAN OVERSIGHT

Primary, August Run-offs and the General/Special Elections in November. Serving in this capacity, I noted the processes and controls that we used in the June and August elections were removed for the General/Special Elections. As a result there was no chain of custody for all adjudicated absentee and military ballots in DeKalb County for the General/Special Election. The decision to change these processes was made independently by the Erica Hamilton who is the Director of DeKalb County Voter Registration and Elections.

The role of the VRP is to review and adjudicate the absentee ballots that cannot be processed by the scanners. Absentee ballots are filled out by hand by the registered voter and sent into the county elections office. When the elections office receives them and the absentee ballot is authenticated, they are run through a high-speed scanner. But a significant percentage of the ballots cannot be read the scanners for a variety of reasons which include damage, use of the wrong pen or disfiguration which requires a new ballot to be transcribed. The role of the VRP is to determine the voter's intent in an unbiased manner. This is accomplished by reviewing an absentee ballot that was scanned by the computer and rejected or via the original paper ballot when it could not be scanned by the computer. Please note that military ballots cannot be read by these scanners and each requires duplication by a person.

During the entire time of the General/Special Election there was a significant difference in the "duplication" process of the absentee ballots from the Presidential Primary/Run Off Elections. My role in the VRP during the earlier elections was to review the absentee ballots and duplicate (transcribe and copy) absentee and military ballots in their entirety which were rejected by the scanner. This process was done by a pair of VRP members - a Republican and a Democrat. One person would read the contents of the original ballot while the other would duplicate to a clean ballot with a special black marker that could easily be read via the scanner.

We then swapped the ballots and called out the contents of the original ballot and audited that against the new ballot. This was overseen by a DeKalb Voter Registration and Elections Supervisor. We also adjudicated ballots in a special room that required an entry into a logbook and signature for entry and departure. Using this process, the absentee ballot could be read by the scanner even though the absentee ballot was not filled out properly by the voter – i.e. the candidate was selected via an X or check mark rather than coloring in the circle completely with black ink.

Additional instances existed where there was overvoting - where the voter marked both circles equally and the intention could not be determined. Thus the vote for the candidate (not the entire ballot) would be rejected. There were also cross outs, but in all instances the truly bi-partisan VRP adhered to oath the decision as the voter intention was clear. However, during the General/Special Election the duplication was done by election workers in a separate location without any oversight from the VRPs. The VRP would only see a paper absentee or military ballot to review if the election worker claimed that they could not determine the voter intent – in that they could not distinguish the vote. It is my understanding that Erica Hamilton implemented this process change independently. Additionally, she claimed that the other county election offices did it this way too. Ultimately during the General/Special Elections, the duplication of absentee and military ballots was done by unsupervised election workers without the oversight of a bi-partisan VRP with no ability to attribute responsibility for these entries to any particular election employee.

During the combined Presidential Primary/Run Off Election the VRP was comprised of a Republican and Democrat. The General/Special Election VRP was comprised of four people – one (1) Democrat, one (1) Republican and two (2) Non-Partisans. The Non-Partisans were also Democrats, designated by the League of Women Voters (LWV) and operating independently as their own VRP for the Special Election from October 19, 2020 to November 1, 2020. The LWV officially claims to be nonpartisan in that it neither supports nor opposes candidates or parties. However, it does support a variety of progressive public policy positions that are in direct alignment with the Democrat's political platform, including campaign finance reform, universal health care, abortion rights, climate change action and environmental regulation, and gun control.

Although the Georgia Secretary of State's Office authorized a start date of October 19, 2020, the VRP Panels in DeKalb County did not commence their shifts until October 28, 2020 when Erica Hamilton delayed the

AMERICAN OVERSIGHT

Flynn, DeKalb GOP Chairman, via email on October 27, 2020 at 3:53 pm - that she was allowing the panelists to coordinate the schedule. From all past VRP experiences, the Democrats were working directly with Erica and taking the lead on running the VRP for everything from scheduling to onsite operations. This also seemed to be the case with all aspects of the recounts.

I have included copies of these aforementioned emails to incorporate *with* my testimony herein.

In an email on October 27, 2020 at 3:53 pm EST Erica Hamilton writes:

From: Hamilton, Erica <ehamilton@dekalbcountyga.gov>

Phone: 404.298.4040
Fax: 404.298.4038

Elizabeth Burns (the lead Democrat coordinating the VRP) was coordinating everything with the "Non-Partisans" as well as the Democrats. Also, here is what Elizabeth emailed to Erica and copied the Elections Board members as well as Lane Flynn and Bobbie Frantz, DeKalb GOP Treasurer and DeKalb GOP VRP Member:

Hi Erica,

Just following up about the contact information of the nonpartisan vote review panel members. As you know, it is a bit of a team sport since we need the balanced panels so discussing schedules with the VRP members we have not met yet will help both the Democratic and Republican panels coordinate our volunteers.

I do already have the email addresses of the three women who were there yesterday and am coordinating with their schedule. Feel free to give them my email as well.

Thanks!
Elizabeth

As noted previously there were NO Republican nor Democrat participating in the VRP Process for the Special Election until November 1, 2020. Essentially there were two separate VRPs – one comprised of a Republican and Democrat to analyze the General Election candidates. And one VRP comprised of the two Non-Partisans for the special election and constitutional amendments and questions. However, there was no system controls in place nor was there an audit trail to protect the decisions made by either panel as the ballots go into a system (computer) quarantine mode. Essentially, there was no way to lock the scanned ballots being viewed on a

AMERICAN OVERSIGHT

computer.

So whomever was the last VRP to review the ballot, transmits it to be completed which casts the ballot, but can still edit the previous VRP's work when the ballot is in quarantine.

Furthermore, the General Election categories were the only ones that were comprised of a truly bi-partisan VRP (in that the composition of the VRP was a Democrat and a Republican) which is the spirit of the VRP.

But approximately over 800 ballots were put into quarantine mode from October 28 – November 1, 2020 and sent to the 'Non-Partisans" VRP without any oversight nor controls – and vice-versa to the Republican /Democrat VRP. It was done this way to "expediate" the workflow of the VRPs due to high volume of paper absentee ballots and the delayed start of processing them by the VRPs.

More importantly the computers being used by the VRPs to review the ballots were signed into by various DeKalb Election Office Workers – all sharing the same User IDs. Those IDs had the ability to simultaneously access multiple workstations – by the same person or by multiple people – thus there was no possible way to track who was actually logged into any of the computers.

Other than receiving an authorization letter from either the affiliated political party and being sworn in at the time of your shift, there were zero records being maintained of which VRP representatives were logging into a particular computer - not even a paper log file. There was no record of which VRP representatives worked on a batch of ballots to review nor a timeframe of facilitating the ballot reviews. Furthermore, the badging was ad-hoc in that some VRPs had laminated badges while most had stickers.

There were no changes made until I expressed my grave concerns to Lane Flynn on October 29, 2020 following my VRP Shift about the opportunity for two Democrats to collaborate and take an overvote of five Democrat Senatorial candidates and award that vote to Raphael Warnock as there would be no checks and balances in place to truly and independently determine the voter intent. Lane expressed our concerns to Robert Sinners who is the Georgia State EDO Director for the Trump Victory Campaign, via email on October 29, 2020 at 7:31 pm EST. The most common error on the absentee ballots was an overvote of the Democrat Senatorial Candidate, as there were five candidates to selection from on the ballot. (See supporting email correspondence).

Another area of concern occurred when I came across two different absentee ballots during my VRP on November 3, 2020 from 12:00 – 2:00 pm. After an initial review of the absentee ballot where the VRP was trying to determine the nature of the issue with the ballot, our VRP was stunned to find a Presidential Primary /Run Off Ballot included with the General Election absentee ballots. The ballot was put aside while we awaited an elections supervisor to tell us what to do. This was a Republican ballot voting for President Donald J. Trump at the top of the ticket. Then we came across a second Primary/Run Off Ballot that was a Democrat ballot where Vice President Joe Biden was at the top of the ticket.

The elections supervisor was unsure as to what should be done with it either and because it was the wrong ballot from an election that has already occurred. Thus it was unable to be read by the scanners, she took the ballots with her. After a short period of time, she returned and said that the aforementioned absentee ballots were deemed to be valid during the opening and processing stage.

As the envelopes were no longer affiliated with the two absentee ballots, they were kicked out, spoiled and then disqualified. Apparently after asking her some additional questions, we learned that this was a common error where a voter does not realize which election cycle that the absentee ballot they are completing and returning. This error should have been caught at the time of the opening and validation of the absentee ballot. At that time the DeKalb Elections Office contacts the voter and offers them an opportunity to submit the correct ballot. Neither ballot should have reached VRP –especially two in the same batch. Overall, two DeKalb County Voters had their absentee ballots accepted but unknown to them were disenfranchised as their ballots were spoiled due to the clerical errors of an election worker that was unsupervised

AMERICAN OVERSIGHT

On November 4, 2020 during my 12:00 pm – 4:00 pm EST shift, my VRP was asked to review a set of paper absentee ballots. They were given to us by an election worker. We were seated at the table and came across a ballot that clearly had gotten wet and the ink had run. After a review the ballot, the 1 Democrat, 2 Non-Partisans and myself were in a disagreement around the voter's intent – 3 favoring Raphael Warnock and 1 against. Due to my strong disagreement with the decision, we sought the advice/knowledge of an election officer/supervisor to determine the correct resolution to this vote. She ruled in favor with the aforementioned panelists. However, the process was totally on the fly and the ballot was tossed in a pile to duplicate (manually transcribe) by the unsupervised election workers the ballot to be later counted by the scanners.

In conclusion, my testimony demonstrates there is blatant disregard for the spirit and oath of the VRP, which is to protect the voter's intent in a bi-partisan manner. There were human errors, system and communication breakdowns that continually had me questioning the integrity of our election process in Georgia.

Furthermore, it is evident from my first-hand account *from serving as* a VRP representing the Republicans, that there is a significant bias from the coordination of the Democrats taking the lead on scheduling the VRPs for themselves and with the "Non-Partisans". Combined with a *dereliction* of duties including inadequate communications and a bias from Erica Hamilton – the top DeKalb Election Official. As a cyber security and technology professional, I was appalled at the lack of system controls, logs and documentation *in place to protect* our most sacred right - being able to legally vote as an American citizen. To be abundantly clear to log into my credit card account to make a payment, it requires a multi-factor authentication process that includes entering my account information, last four digits of my social security number, user ID, password and then I receive a text message with a 5-digit authentication code – and only then I can log into my account to view my balance and then make a payment. Systems which allowed election employees to manually over-ride the regular ballot entry process to enter votes into the system has few physical and no personal identification controls. As Georgians – and more importantly as Americans, we can and should be doing better to protect our election integrity.

Subject: absentee ballots sent from one county to another

Chris,

Apparently Clarke County (and likely others) are sending absentee ballots they received for other counties in their drop boxes to the correct county. It's fine for them to send them, but those ballots should not be counted if they did not arrive at the correct registrar's office by 7 p.m. on Election Night. The receiving county should treat them as a late arriving ballot. Apparently there was some confusion about this at Columbia County. Can we send something out reminding counties of this?

Thanks,
Ryan

Nov. 4, 2020

With 200,000 votes out, officials focused on getting it right

With counting continuing in numerous counties throughout Georgia, Secretary of State Brad Raffensperger said that as of 4 p.m. today there are approximately 200,000 ballots still outstanding.

Officials in numerous counties are continuing to county ballots, with strong security protocols in place to protect the integrity of our election, said Raffensperger. We have long anticipated and said publicly that counting would most likely take place into Wednesday night and perhaps Thursday morning. We're on pace to accomplish that responsibly, ensuring that the voice of every eligible voter is heard. It's important to act quickly, but it's more important to get it right.

Raffensperger noted numerous security measures in place to secure the vote and increase public confidence in the electoral process:

- Absentee drop boxes were locked at 7 p.m. Tuesday evening, preventing illegal voting or potential fraud.
- Surveillance cameras monitored drop boxes at all time.
- State monitors are in the room for all counts and the public is welcome to observe county as an added layer of transparency.
- A post-certification audit will ensure that all votes are accounted for.

We're well aware that with a close presidential election and the possibility of runoffs in some elections that the eyes of the state and the nation are upon at this time, Raffensperger said. We're as anxious as anyone to see the final results and to start work on certification and planning for our runoff elections. As the work goes on, I want to assure Georgia voters that every vote was legally cast and accurately counted.

What do you think? …

Good morning,

It's been a long 34 days since the Election on November 3rd. We have now counted legally cast ballots three times—the results remain unchanged.

As Secretary of State I have worked to secure the vote for all Georgians. On day one we outlawed ballot harvesting, strengthened signature match through GBI training, and moved towards an auditable paper ballot system. I am the first Secretary of State to implement a driver□s license requirement for online absentee ballot applications—which strengthened the security of our absentee ballot process.

Whether it is the President of the United State or a failed Gubernatorial candidate, disinformation regarding election administration should be condemned and rejected. Integrity matters. Truth matters.

Today the Secretary of State□s office will be re-certifying our state□s election results. Then the Safe Harbor under the U.S. Code to name electors is tomorrow and then they will meet on December 14 to officially elect the next President.

While we will continue our investigations to their conclusion, and where prosecution is necessary, we will work with the State Election Board to refer them to the proper prosecutorial authorities.

We are working with the counties to assure a fair, safe, and secure election for January 5. We will continue to take steps to assure that only

AMERICAN OVERSIGHT

legally registered Georgians will be casting votes.

Let's discuss where we are and where we are heading in Georgia. All this talk of a stolen election—whether its Stacey Abrams or the President of the United State--is hurting our state.

Georgia is number 1 state in the nation to do business for nearly a decade. Continuing to make debunked claims of a stolen election is hurting our state.

I started my business and built it from the ground up. I've employed hundreds and hundreds of men and women in those years. I know what it takes to build teams that work to strengthen buildings, restore and strengthen old landmarks—and I have also built a team that knows how to win an election. And I understand we need to focus on the future and growing businesses, getting through the COVID pandemic and bringing more good paying jobs to our state.

The vast majority of Georgians—Republicans and Democrats-- want us, all of us, as elected officials to focus on protecting and growing Georgia jobs, getting the vaccine out as efficiently as possible and getting back to normal.

The focus on November 3rd is drawing energy away from those goals. The President has his due process rights available to him.

It's time we all focus on the future and growth. I know there are people that are convinced the election was fraught with problems—but the evidence—the actual evidence—the facts-- tell a different story.

Business owners across Georgia know it is time to focus on the future. Georgians have serious issues that need to be addressed. I am looking forward to a great Christmas and then a good legislative session where will have our elections reform bill passed and where I, the Legislature, Governor Kemp, and Lieutenant Governor Duncan can all work together to help all of our businesses and make Georgia an even better place to do

AMERICAN OVERSIGHT

business so that each and every Georgian can get a good job for those brave entrepreneurs can start the next great small business.

It is now is the time to direct our energies to January 5 and then to making Georgia and even better place for all of us.

Thank you.

Frances,
I know these have been exceptionally busy times, and I appreciate the dedication to ensuring Georgia's election includes every legal vote and no illegal votes!
Chm Blackmon and I have been forwarding information on potential fraudulent registrations and/or votes. Legislative liaison Sam Teasley reports he has forwarded to you and your investigation team several files on:

- Double Voters
- Out of State via NCOA
- Out of State via Subsequent Registration

I have added a file below on reported voter registrations using Georgia postal facilities with PO box numbers possibly disguised as apartment or unit numbers.

AMERICAN OVERSIGHT

Two questions:
1) As we plan for a House Government Affairs Committee meeting next Thursday 12/10, we wanted to be certain you have received the files mentioned. Have you received these?
and
2) Have you or your team been able to begin evaluating these lists of voter names/DOB/registration dates /etc in terms of investigating whether votes may have been cast by individuals not eligible to vote in Georgia (which would be voter fraud)?

Thanks for a prompt response this evening or Saturday, as we can re-send info or clarify questions if needed, Mark Newton Ga House District 123 Chairman, Special Committee on Access to Quality Healthcare Majority Chief Deputy Whip

Attached is the list of voters who have requested an absentee by mail ballot for Jan. 5th and filed an out-of-state NCOA. Many of these people are going to be perfectly legitimate Georgia voters, but some are likely not. Given all the attention on this issue:

Gabrielle—can you draft a letter to send to these voters reminding them that they have to currently hold the qualifications to vote in Georgia to cast a legal ballot. One of those qualifications is that they be a resident of the state and county in which they are voting. Include the factors in 21-2-217 to help them determine residency and include in the letter the common reasons that someone can live out of state and not lose their residency (college, military or other government service, temporary relocation). This should just be very factual.

Chris—I think we should also send this data to the counties so that they are aware, and tell them that many of the voters on this list are going to be perfectly legitimate, but that they should be aware of the issue, especially due to their duties pursuant to 21-2-228 and 381. Their board should determine appropriate action after individualized review of each case.

Walter,

I pulled the copy from the STV home page and made some edits and added some info.
You will see in yellow the changed and additions. I added registration section.

Can you confirm and add dates where I have them blank.

AMERICAN OVERSIGHT

Also, I have reached out to the team that made the video to see if they can remove the Oct. date displayed on the bottom of the video.
I will get that approved by Jordan first.

Send back the document with your edits and I will make the changes.
Also include the copy for the audits. If we place those in the boxes on the FAQ page, make sure to keep the copy short as the boxes are small.

Thanks,

Good afternoon,

We've had a few questions from out-of-state voters about what their options are if they've requested an absentee ballot but still haven't received it.
Outside of contacting their local elections office and driving to GA to vote in-person...are there any other options for them?
Here is one such example from a 3x Olympian from GA who is currently training out of state in NY:

Subject: RE: Final Approval Requested - Legislator FAQ they can share

Jordan,

Since legislators are requesting a FAQ only version of the letter they can share, **do you approve me sending just the FAQ attached, the OEB, and letting them know in a new email that they can share this with their constituents?** I highlighted the changes from the version you approved in yellow below and added one question on residency using Ryan's language.

Do you have to be registered to vote in the General Election to vote in the General Election Runoff?
While O.C.G.A § 21-2-501(a)(10) indicates that only voters who were registered to vote in the General Election shall be able to vote in the runoff, a federal judge has ordered the state may not enforce this state code and must allow voters to register to vote up to 30 days before the election for federal offices. On October 13, 2017, the Hon. Timothy C. Batten, Sr., US District Court Judge, ordered that the Secretary of State is enjoined from enforcing Georgia law for the purpose of establishing the voter registration deadline for any election for federal office, including runoffs, that is later than the lesser of 30 days before the date of the election.

Is it a crime to fraudulently register to vote?
To register to vote in Georgia, you must be a resident of Georgia. Registering to vote if you are not a resident is a felony punishable by up to 10 years in prison and a fine of up to $100,000 (O.C.G.A § 21-2-561). To be considered a resident of Georgia, a person must have a fixed habitation in Georgia with no intention of removing therefrom (OCGA 21-2-217). A person shall not be considered to have gained residence in Georgia if they have come for temporary purposes only without the intention of making the state such person's permanent place of abode per O.C.G.A § 21-2-217(a)(3). The county board of registrars has the right and duty to examine any registrant's qualifications to register to vote, including examining their residency (O.C.G.A § 21-2-217). When you become a resident of Georgia, Georgia law requires that you update your driver's license to a Georgia driver's license within 30 days. The Secretary of State's office is working on an emergency State Election Board Rule to clarify how county election boards can ensure that new registrants are in fact residents of Georgia.

Email text:
Dear Honorable Members of the General Assembly:

AMERICAN OVERSIGHT

Many of you have requested an election FAQ document that can be shared with your constituents. Please see the attached Election FAQ and Official Election Bulletin. If you have any questions, please do not hesitate to reach out to me or our Director of External Affairs, Sam Teasley.

Sincerely,

Hayley

Hey, here's my suggested revisions. I looked up what Yang said, and I all I could find was that he said he was "moving" here but never said he was going to register. He later clarified that he's not registering. Nevertheless, his comments raised this issue and concerned people. That's the direction I took, but kept the point.

Jordan,
Here is the Andrew Yang presser. I wrote and ran by Walter. Let me know if you would like me to proceed with this.
Thanks,
AC
