Re: Georgia Open Records Act Request – American Oversight

Dear Ms. Creighton:

As you know, I represent the Columbus, Georgia Consolidated Government (“CCG”) with regard to the attached Open Records Request and that I submit the following in response thereto. I have enclosed copies of documents responsive to your request. This letter and the enclosed documents complete CCG’s response to the attached Open Records Request.

Best regards,

PAGE, SCRANTOM, SPROUSE,
TUCKER & FORD, P.C.

Re: Open Records Request

Dear Records Custodian:

Pursuant to the Georgia Open Records Law (O.C.G.A. § 50-18-70 et seq.), American Oversight makes the following request for records.

Requested Records

American Oversight requests that your office produce the following within three business days:

1. All email communications (including emails, complete email chains, email attachments, calendar invitations, and attachments thereto), text messages, and messages on messaging platforms (such as The Buzz, Slack, GChat, Google Hangouts, Lync, Skype, or WhatsApp) between any of the county Board of Elections officials listed in Column A below and any of the Secretary of State officials listed below in Column B.
2. All records reflecting the substance of any oral communications (including any handwritten or electronic notes taken during any oral communications, summaries of any oral communications, materials exchanged before, during, or following any oral communications, or any other related materials) between any of the county Board of Elections officials listed in Column A below and any of the Secretary of State officials listed below in Column B.

Column A: Muscogee County Elections and Registration & Board of Elections Officials	Column B: Office of the Secretary of State
i. Director of Elections & Registration Nancy Boren or anyone communicating on her behalf ii. Board of Directors Member Margaret Jenkins iii. Board of Directors Member Uhland Roberts iv. Board of Directors Member Diane Scrimshire	a. Any official in the office of the Secretary of State of Georgia (including anyone communicating from an email address ending in @sos.ga.gov) b. Jordan Fuchs, Deputy Secretary of State (including

1030 15th Street NW, Suite B255, Washington, DC 20005 | AmericanOversight.org

v.	Board of Directors Member Linda Parker	but not limited to at jordyfuchs212@gmail.com)
vi.	Board of Directors Member Eleanor White	c. Gabriel Sterling, Voting System Implementation Manager
vii.	Board Secretary Tamisha Austin	(including but not limited to at sterlinginnovative@gmail.com)

Please provide all responsive records from December 10, 2020, to the date the request is received.

Please notify American Oversight of any anticipated fees or costs in excess of \$100 prior to incurring such costs or fees.

American Oversight seeks all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the term “record” in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. No category of material should be omitted from search, collection, and production.

In addition, American Oversight insists that your office use the most up-to-date technologies to search for responsive information and take steps to ensure that the most complete repositories of information are searched. American Oversight is available to work with you to craft appropriate search terms. **However, custodian searches are still required; your office may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.**

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search

or duplication costs. By working together at the outset, American Oversight and your office can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in electronic format by email or in PDF or TIF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

Conclusion

American Oversight is a 501(c)(3) nonprofit with the mission to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.¹

We share a common mission to promote transparency in government. American Oversight looks forward to working with you on this request. If you do not understand any part of this request, have any questions, or foresee any problems in fully releasing the requested records, please contact Khahilia Shaw at records@americanoversight.org or 202.539.6507.

Sincerely,

Austin R. Evers
Executive Director
American Oversight

Subject: [EXTERNAL] 12/1/2020 Runoff Election

Good Afternoon,

I know many of you have been inquiring about the runoff from 12/1 and if you are able to transfer voters yet. I was just advised that they are still in the process of certifying and you need to wait until there is a Buzz post released. We are hoping this will be posted early next week.

Thank you all for your patience.

Have a great day!

Good Afternoon Election Officials,

Dominion Voting Systems will be conducting open forums via Zoom for the upcoming election. The Dominion support staff will be available to answer your questions regarding L&A, election preparation, and any advance voting issues, if encountered for the upcoming January 5th election. Please feel free to join any of the meetings and stay for as long or as little as you wish. Dominion will send your county the zoom meeting links via email. If you have any questions, please contact Dominion Voting Systems Support.

.....
Bre,

I cannot seem to forward the calendar invite. I get bounce back emails from Microsoft. If I copy everyone in this email, can you send it to them?

Thanks,

To all of you that are copied in the email, please see the below message that I tried to send:

Good Afternoon All:

I know that all of you are crazy busy! I hope each of you are doing well. Chris Harvey has asked that Charlotte and I reach out to the Regional Facilitators to ask you to join us for a round table discussion on Friday. Please see the invite from Breanna Thomas below. This is just for the facilitators. What we discuss, you may take back to your region and share. We hope that you will join us! If you are no longer the facilitator, but know who is, please send me their contact information, and forward this invite to them.

Thank you all so much for everything that you do! I know you all are worn out! I think this will be a great meeting and it will give all of us the chance to share, ask questions and have some great discussions.

Hope to see all of you on Friday!

Sincerely,

Deidre

Subject: [EXTERNAL] FW: Buzz Post- Voter Challenges

Good Afternoon Everyone,
Please see below the buzz post from Chris. Please let us know if you have any questions.

"A new discussion has
been posted in The Buzz by Harvey, Chris on 12/18/2020 2:34 PM

Many counties are getting voter challenges filed under O.C.G.A. 21-2-230.

OCGA 21-2-230(b) requires that the BOE, "shall immediately consider such challenge(s) and consider whether probable cause exists to sustain such challenge(s)."

The steps are listing in the code section, and I strongly encourage you to review this code section with your board and attorney should you get such a challenge.

Chris Harvey, SOS Office"

Subject: [EXTERNAL] FW: Cure Affidavits Process
Attachments: December 8, 2020 Election Forum FINAL.pdf

Good Morning,

Many of you have reached out with questions regarding the cure affidavit process, please see attached from the December election forum- the video is on Firefly under webinars and Election Forums.

Additionally, many of you have asked if it is okay for a voter to come back in and sign their ballot instead of the affidavit. As the cure affidavit process is now in place, it is a best practice to have the voter sign the affidavit and not the ballot. It is best to follow the procedures so you have the paper trail and all the documents necessary in case they are requested.

Lastly, as these numbers were requested for November, we recommend that you begin tracking how many cure affidavits were sent, for what reasons and how many were cured. We may be sending out a spreadsheet for this data to assist you, but definitely recommend you begin tracking them as they go out.

If you have any additional questions, please let me know and I will be happy to help you with this process.

Have a great day!

Election Store/Orders

- The Election Store is open for supplies needed for the January 5, 2020 election. The store will close on December 28, 2020.
- Before placing your order, please check your current inventory .
- Ensure that the order is complete before checking out of the store.
- If the order is emailed make sure your county information is included. Orders with incomplete information will not be fulfilled.
- The December 2020 order form can be located on Firefly under Downloads.
- Orders can be placed in the Election Store or emailed to electionstore@sos.ga.gov

Election Store Shipments

- Please allow 7-10 business days for delivery of orders.
- Orders will be shipped according to the date received by the warehouse.
- Once your county receives an order, please thoroughly check the boxes/envelopes.
 - Our warehouse staff recycles boxes and a delivery may be sent in a box that is marked, for example, Voter Registration Applications, or CIV-L-OPTS-07.
- Different items may be packaged together. What you see at the top of the box may not be what's in the entire box.
- Please contact Rachell Simmons at rsimmons@sos.ga.gov if you need assistance with the Store or with an order.

March 16, 2021	DATE OF SPECIAL ELECTION FOR VACANCIES AND QUESTIONS O.C.G.A. § 21-2-540(c)

Special Training Topic

Residency

To be a qualified voter in Georgia:

- Registered as an elector in the manner prescribed by law;
- A citizen of this state and of the United States;
- At least 18 years of age on or before the date of the primary or election in which such person seeks to vote;
- A resident of this state and of the county or municipality in which he or she seeks to vote; and
- Possessed of all other qualifications prescribed by law.

If a voter used to be a resident of Georgia, but no longer lives in the state, they cannot legally vote in Georgia even if they are still on the list of registered voters.

Attorney Generals Opinion: Georgia law provides that it is a felony to either register to vote knowing one does not possess the qualifications for voting in Georgia (O.C.G.A. § 21-2-561) or to attempt to vote knowing one does not possess the qualifications for voting in Georgia (O.C.G.A. § 21-2-571). Those who are found to be in violation could subject themselves to prosecution.

It is the duty of the county board of registrars to determine the eligibility of each person applying to register to vote in their county. O.C.G.A. § 21-2-226(a). When reviewing an application for voter registration:

- The board of registrars shall determine an applicant's residency in Georgia and the county in which the application is submitted, using the criteria set forth in O.C.G.A. § 21-2-217. The registrar shall review all available evidence, including any identifying documents submitted with the application.

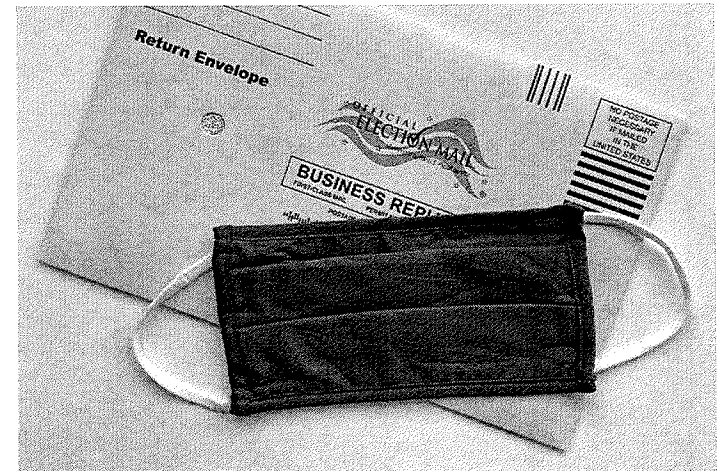

If the registrar determines that additional evidence is needed to determine residency:

- The registrar may utilize his or her statutory authority in O.C.G.A. § 21-2-228 to further evaluate the applicant's residency status using the criteria set forth in O.C.G.A. § 21-2-217, as well as other related statutes.

Special Training Topic

Absentee Ballots by Mail

- It is very important absentee ballot information is entered into ENET by the County Registrar or clerk as soon as possible.
- The status of absentee ballots being returned and accepted populates on MVP. Voters can check their absentee ballot status and ensure their ballot has been accepted.
- O.C.G.A. 21-2-381(b)(3) and O.C.G.A. 21-2-386(a)(1)(C) require that voters who submit absentee ballot applications and absentee ballot envelopes that fail signature verification for any reason, are required to be offered the opportunity to be “cured” through an affidavit completed by the voter.
 - Absentee Ballot Application Signature Cure Affidavit Form
 - Absentee by Mail Ballot Signature Cure Affidavit Form
- These “cure affidavits” are available on Firefly. You can locate these documents under Election Planner > Election Forms > Absentee Voting.

Special Training Topic

Absentee Ballot Applications – Mismatch Signature

O.C.G.A. 21-2-381(b)(3)

If found ineligible, the clerk or the board of registrars shall deny the application by writing the reason for rejection in the proper space on the application and shall promptly notify the applicant in writing of the ground of ineligibility, a copy of which notification should be retained on file in the office of the board of registrars or absentee ballot clerk for at least one year. However, an absentee ballot application shall not be rejected due to an apparent mismatch between the signature of the elector on the application and the signature of the elector on file with the board of registrars. In such cases, the board of registrars or absentee ballot clerk shall send the elector a provisional absentee ballot with the designation "Provisional Ballot" on the outer oath envelope and information prepared by the Secretary of State as to the process to be followed to cure the signature discrepancy. If such ballot is returned to the board of registrars or absentee ballot clerk prior to the closing of the polls on the day of the primary or election, the elector may cure the signature discrepancy by submitting an affidavit to the board of registrars or absentee ballot clerk along with a copy of one of the forms of identification enumerated in subsection (c) of Code Section 21-2-417 before the close of the period for verifying provisional ballots contained in subsection (c) of Code Section 21-2-419. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be sufficient, the absentee ballot shall be counted as other absentee ballots. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be insufficient, then the procedure contained in Code Section 21-2-386 shall be followed for rejected absentee ballots.

Special Training Topic

Absentee Ballot Applications – Mismatch Signature

If it is determined that there is a signature issue,

- Activities > Absentee Ballots > Maintain Absentee Ballots
- Search and confirm the correct voter has been selected.
- Select Add to go to the Issuing Screen.
- Complete the Ballot Request Information and Ballot Issued Information sections.
- Under the Ballot Return Information section in eNet, check the Provisional/Challenged box,
 - Under the Provisional/Challenged Status box, the Challenge Not Removed should be selected.
 - Under the Provisional/Challenged Reason box, Invalid Signature or Missing Signature should be selected.
- The Oath envelope should be marked or stamped with “Provisional Ballot”
- A letter should be sent along with the Cure Affidavit to the voter. The letter to the voter should provide an explanation on what is needed to resolve the provisional status.
- Each county office should have a process when the ballots marked provisional are received, as well as the return of the Cure Affidavits with copies of identification.

Absentee Ballot Applications – Mismatch Signature

- The voter has until the three days after the election by the close of business to provide the affidavit and copy of identification.
- The absentee ballot application signature cure affidavit must be returned by the provisional ballot deadline and include a copy of photo ID or HAVA ID.
 - See 21-2-417(c) for list of acceptable identification.
- Multiple ways the elector can return the affidavit and copy of ID:
 - Deliver personally or through a third party
 - Fax or email (attach the completed affidavit and copy of identification)
 - By mail
- Put the elector's registration number in the bottom right of the affidavit.
- Notify the elector by email and/or telephone, is possible.
- Affidavit does not need to be notarized.

ABSENTEE BALLOT APPLICATION SIGNATURE CURE AFFIDAVIT FORM

This affidavit is for a voter who completed an absentee ballot application and the signature on the application did not match the signature on the voter's file. Follow these instructions in order for your ballot to count.

INSTRUCTIONS

IN ORDER FOR YOUR PROVISIONAL ABSENTEE BY MAIL BALLOT TO COUNT, YOU MUST DO THE FOLLOWING:

1. Return your completed provisional absentee by mail ballot and signed oath by Election Day
2. Complete and sign the affidavit below
3. Make a copy of one of the following forms of identification (ID):
 - Georgia driver's license
 - Valid photo ID card issued by any entity of the state of Georgia, any other state, or the U.S.
 - Valid U.S. passport
 - Valid government employee photo ID
 - Valid U.S. military ID card with photo
 - Valid Tribal ID with photo
 - Current utility bill showing name and address
 - Current government check or paycheck showing name and address
 - Current government document showing name and address
 - Current bank statement showing name and address
4. Return the completed affidavit and the copy of your identification (ID) to your county registrar/election office within three (3) days after the election and by the close of business on the third day. Return can be made by one of the following methods:
 - Deliver personally or through a third party;
 - Fax or email (attach the completed affidavit and copy of identification); or
 - Mail this completed affidavit and copy of identification.

Address and other contact information for each county registrar's office is available at:
<https://elections.sos.ga.gov/Elections/countysregistrars.do>

THIS COMPLETED AFFIDAVIT AND IDENTIFICATION DOCUMENTATION MUST BE RECEIVED BY YOUR COUNTY REGISTRAR/ELECTION OFFICE WITHIN THREE (3) DAYS AFTER THE ELECTION AND BY THE CLOSE OF BUSINESS ON THE THIRD DAY, OR YOUR BALLOT WILL NOT COUNT. DO NOT ENCLOSE THE AFFIDAVIT AND IDENTIFICATION DOCUMENTATION WITH YOUR BALLOT. RETURN SEPARATELY FROM YOUR BALLOT.

AFFIDAVIT

I, the undersigned, do swear (or affirm) under penalty of perjury that I am registered and qualified to vote in the primary, election, or runoff in question; and that I previously completed and returned an absentee ballot application. I further understand that my failure to sign and timely return my provisional absentee ballot and this affidavit with the requested identification documentation will result in my provisional absentee by mail ballot not being counted.

Special Training Topic

Absentee Ballots – Mismatch/Missing Signature

O.C.G.A. 21-2-386(a)(1)(C)

If the elector has failed to sign the oath, or if the signature does not appear to be valid, or if the elector has failed to furnish required information or information so furnished does not conform with that on file in the registrar's or clerk's office, or if the elector is otherwise found disqualified to vote, the registrar or clerk shall write across the face of the envelope "Rejected," giving the reason therefor. The board of registrars or absentee ballot clerk shall promptly notify the elector of such rejection, a copy of which notification shall be retained in the files of the board of registrars or absentee ballot clerk for at least two years. Such elector shall have until the end of the period for verifying provisional ballots contained in subsection (c) of Code Section 21-2-419 to cure the problem resulting in the rejection of the ballot. The elector may cure a failure to sign the oath, an invalid signature, or missing information by submitting an affidavit to the board of registrars or absentee ballot clerk along with a copy of one of the forms of identification enumerated in subsection (c) of Code Section 21-2-417 before the close of such period. The affidavit shall affirm that the ballot was submitted by the elector, is the elector's ballot, and that the elector is registered and qualified to vote in the primary, election, or runoff in question. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be sufficient, the absentee ballot shall be counted.

Special Training Topic

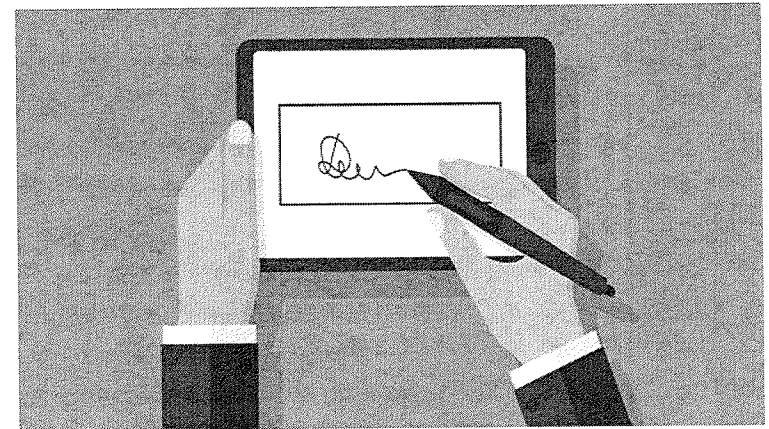

Absentee Ballot Signature Review

County registrars and absentee ballot clerks are required, upon receipt of each mail-in absentee ballot, to compare the signature or mark of the elector on the mail-in absentee ballot envelope with the signatures or marks in eNet and on the application for the mail-in absentee ballot. If the signature does not appear to be valid, registrars and clerks are required to follow the procedure set forth in O.C.G.A. § 21-2-386(a)(1)(C).

- When reviewing an elector's signature on the mail-in absentee ballot envelope, the registrar or clerk must compare the signature on the mail-in absentee ballot envelope to each signature contained in such elector's voter registration record in eNet and the elector's signature on the application for the mail-in absentee ballot.

Best Practice:

- If the registrar or absentee ballot clerk determines that the voter's signature on the mail-in absentee ballot envelope does not match any of the voter's signatures on file in eNet or on the absentee ballot application, the registrar or absentee ballot clerk should seek review from two other registrars, deputy registrars, or absentee ballot clerks.
- A mail-in absentee ballot should not be rejected unless a majority of the registrars, deputy registrars, or absentee ballot clerks reviewing the signature agree that the signature does not match any of the voter's signatures on file in eNet or on the absentee ballot application.

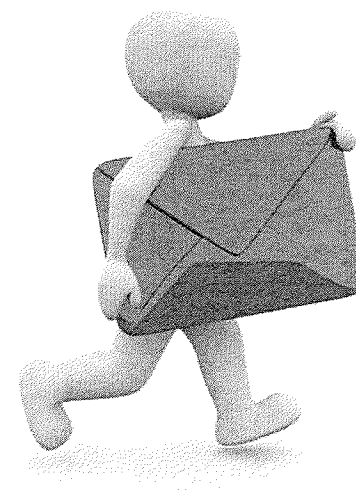

Special Training Topic

Prompt Notification of Absentee Ballot Rejection

SEB Rule 183-1-14-.13

When a timely submitted absentee ballot is rejected, the board of registrars or absentee ballot clerk shall send the elector notice of such rejection and opportunity to cure by mailing written notice, and attempt to notify the elector by telephone and email, if a telephone number or email is on the elector's voter registration record or absentee ballot application, **no later than the close of business on the third business day after receiving the absentee ballot.**

However, for any timely submitted absentee ballot that is rejected within **eleven days of Election Day**, the board of registrars or absentee ballot clerk shall send the elector notice of such rejection and opportunity to cure by mailing written notice, and attempt to notify the elector by telephone and email, if a telephone number or email is on the elector's voter registration record or absentee ballot application, **no later than close of business on the next business day.**

Special Training Topic

Absentee Ballots by Mail – Mismatch/Missing Signature

- If an elector has failed to sign the oath or if the signature does not appear valid, an affidavit should be sent to the elector with a letter. The letter to the voter should provide an explanation on what is needed to resolve the signature issue.
- The voter has until the three days after the election by the close of business to provide the affidavit and copy of identification. The absentee by mail ballot signature cure affidavit must be returned by the provisional ballot deadline and include a copy of photo ID or HAVA ID.
- Put the elector's registration number in the bottom right of the affidavit.
- Notify the elector by email and/or telephone, if possible.
- Affidavit does not need to be notarized.

ABSENTEE BY MAIL BALLOT SIGNATURE CURE AFFIDAVIT FORM

This affidavit is for a voter who returned an absentee by mail ballot that was missing an oath signature or the signature on the oath did not match the signature on the voter's file. Follow these instructions in order for your ballot to count.

INSTRUCTIONS

IN ORDER FOR YOUR ABSENTEE BY MAIL BALLOT TO COUNT, YOU MUST DO THE FOLLOWING:

1. Complete and sign the affidavit below.
2. Make a copy of one of the following forms of identification (ID):
 - Georgia driver's license

Returned Absentee Ballots

In any event, if an absentee ballot was not received by the county of origin by close of the polls on Election day, it cannot be counted, per O.C.G.A. 21-2-386.

If the ballot wasn't in the correct county's possession (office or county drop box) by the close of the polls on election night, the ballot cannot be counted and must be handled in accordance with O.C.G.A. 21-2-386(a)(1)(F) cited below:

"All absentee ballots returned to the board or absentee ballot clerk after the closing of the polls on the day of the primary or election shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or election. The board of registrars or absentee ballot clerk shall promptly notify the elector by first-class mail that the elector's ballot was returned too late to be counted and that the elector will not receive credit for voting in the primary or election. All such late absentee ballots shall be delivered to the appropriate clerk and stored as provided in Code Section 21-2-390."

Special Training Topic

Absentee Ballots: Returned Undeliverable

If a ballot is returned undeliverable, please make sure the ballot was mailed to the correct address submitted on the absentee ballot application. Try contacting the voter, if possible.

O.C.G.A. 21-2-334(b) requires: “When mailings to electors whose names appear on the list of electors, including, but not limited to, acknowledgments under Code Section 21-2-226, are returned undeliverable by the United States Postal Service, the confirmation notice described in this code section shall be sent to such electors.”

- A confirmation notice for returned mail should be sent to the voter, if an absentee ballot is returned undeliverable.
- This is required by law and helps to ensure accurate voter lists, proper assignment of voters and equipment to polling places, and for up-to-date mailing information for voters.
- Activities > Elector List Maintenance > Returned Mail

Special Training Topic

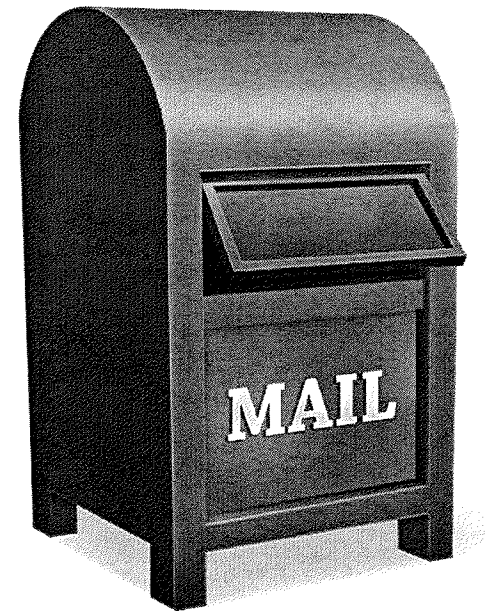

Drop Boxes

The county registrars must arrange for collection of the ballots from each drop box:

- Prior to the second Monday before Election Day at least once every 72 hours.
- Beginning on the second Monday before Election Day and up until 7:00 p.m. on Election Day, the county registrars must arrange for collection of the ballots from each drop box location at least once every 24 hours.
- On Election Day, every drop box shall be closed and ballots collected at 7:00 p.m.

After emptying the drop box on 7:00 p.m. on Election Day, the collection team shall close the drop box and indicate on the ballot transfer form that the drop box was emptied and closed.

The ballots from the drop box shall be immediately transported to the county registrar and processed and stored in the same manner as absentee ballots returned by mail are processed and stored.

Special Training Topic

Early Processing/Scanning of Absentee Ballots

On, November 23rd, the State Election Board updated the a SEB rule allowing counties to process and scan absentee ballots early. (SEB Rule 183-1-14-0.9-.15 Processing Absentee Ballots Prior to Election Day)

SEB Rule Updates:

- All county election superintendents shall begin processing absentee ballots no later than the second Monday before Election Day. (For January 5th Runoff - December 28th)
 - Proper notice must be published and sent to SOS by December 21st.

For the January 5th runoff, Counties can begin processing absentee ballots as early as 8:00 AM on December 21st, if proper notice is published.

The SEB rule is located on Firefly under Official Communications > 2020 General Information > 2020 State Election Board Rules.

Special Training Topic

Early Processing/Scanning of Absentee Ballots

It is very important to have a process to keep track of your ballots for future audits and recounts.

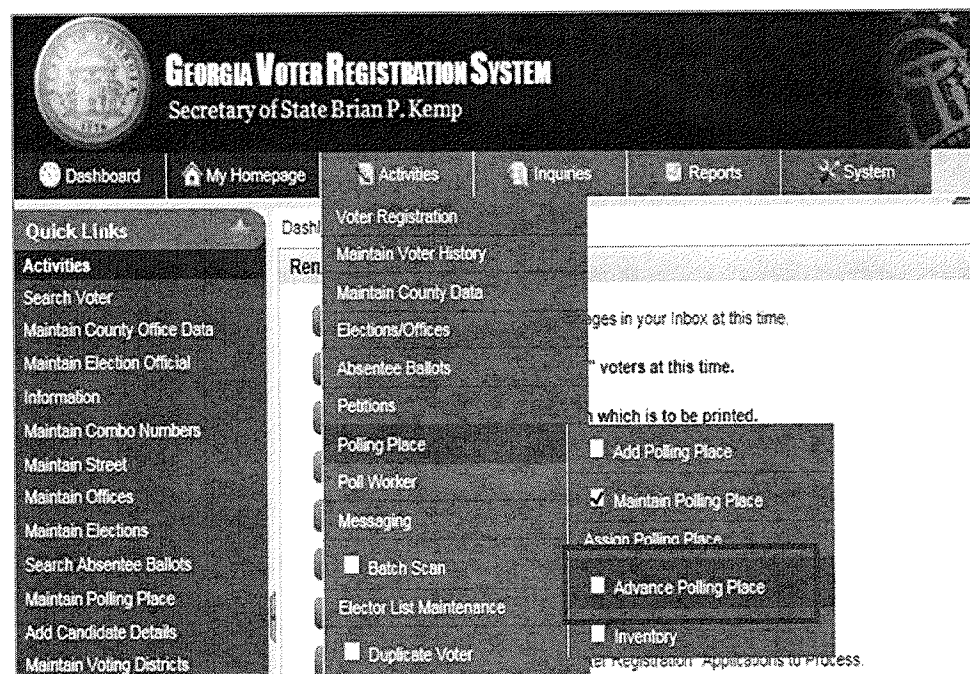

- Create a batch name formula for your county.
 - For Example:
 - Container – Batch Type – Batch Number
 - C2-AIP-101
- Keep track of your batches of ballots
 - Chain of Custody Forms
 - Election Batch Sheets
 - Batch Trackers/Spreadsheets
- Daily Reconciliation Plan
 - Confirm number of batches
 - Confirm batch names
 - Record Batch Types
 - Record number of ballots in each batch
 - Record storage location of batches

Special Training Topic

Advance Voting Locations & Times

- Please make sure the advanced polling place information is entered for the January 5th runoff election in eNet.
- To enter AIP information
 - Activities > Polling Place > Advance Polling Location
- Absentee in-person voting is scheduled to begin on December 14, 2020 and end December 31, 2020 or January 1, 2020.
 - State Holiday – January 1st
- No mandatory Saturday voting for a runoff.

Backup Procedures

SEB Rule 183-1-12-.11 (11) (a)

- If any voting system component malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the component until and unless the malfunction is corrected.
- The poll manager shall utilize appropriate backup procedures so that voting is not interrupted due to any equipment malfunctions.
 - Backup Procedures-Ballot Scanner
 - Backup Procedures-ICX-BMD
 - Backup Procedures-Poll Pad
 - Backup Procedures-Using Emergency Paper Ballots
- The election superintendent shall immediately arrange for the repair of the voting system component or shall provide a replacement component as soon as practicable.
- A replacement component shall not be used unless it has been appropriately tested prior to its use.

Please note that your county must post notice on your website and must send our office notice of the dates and location(s) "where absentee ballots will be processed and any rejected ballots will be adjudicated..." no later than close of business today to be in compliance with State Election Board Rule 183-1-14-0.9-.15. According to the rule, "all county election superintendents shall begin processing absentee ballots no later than the second Monday before Election Day." For the January 5th election, all counties must begin early processing by Monday, December 28th. We must receive your notice of early processing seven days before you begin.

If you have not already posted your notice on your website and sent it to your liaison, please do so by 5pm today. Once we receive your notice, we reflect the information on our website here:
https://sos.ga.gov/index.php/elections/intent_to_tabulate_early

Thank you!

Blake

Keval,

See attached from Muscogee County. Can you make each of these records "Challenged Electors" in Enet? Muscogee asked if it would be possible to have it done before early voting begins tomorrow morning?

Thanks,
Ryan

Ryan and Chris,

The Board received a challenge to residency on the attached list of electors and has determined valid challenges exist. In speaking with Ryan, would it be possible to add a challenged status to the voter's record in ENET? This would allow the voter to be issued a challenged/provisional ballot during early voting and on Election Day. Additionally, it would allow us to see if any absentee ballots have been requested or mailed.

Thanks,
Nancy

Ryan,

I've flagged the voters as "Challenged Electors" in ENET for Muscogee county. Total 4001 records from your list. Remaining 32 voters are not in Muscogee county so I didn't update them as Challenged Electors. Also, I didn't created any audit records or correspondence for this flag update. Please check with county and Let me know if any questions. Thank you.

Below voters are not updated as Challenged Electors from the list.

Keval,

See attached from Muscogee County. Can you make each of these records "Challenged Electors" in Enet? Muscogee asked if it would be possible to have it done before early voting begins tomorrow morning?

Thanks,
 Ryan

Ryan and Chris,

The Board received a challenge to residency on the attached list of electors and has determined valid challenges exist. In speaking with Ryan, would it be possible to add a challenged status to the voter's record in ENET? This would allow the voter to be issued a challenged/provisional ballot during early voting and on Election Day. Additionally, it would allow us to see if any absentee ballots have been requested or mailed.

Thanks,
Nancy

Ryan/Chris,

Attached is the list of voters who already has ABM/AIP record for Jan 5 election. These voters are part of the list you have provided. Let me know if any questions. Thank you.

Subject: [EXTERNAL] intent to early tabulate

Good Afternoon Everyone,

Many of you have been inquiring about the intent to tabulate/ process for January. I apologize in my delay in sending this to you. Please see below, if you have already sent me this information, please disregard. Please note the updated SEB rule which requires you to "begin" which can mean as simply as organizing your ballots on the 28th.

<https://firefly.sos.ga.gov/Documents/Training/Combined PPP and May Election 2020/Intent to Process or Tabulate Early Survey.pdf - search=intent%20to%20process>

<http://sos.ga.gov/admin/uploads/Rule 183-1-14-0.9-.15 Processing Absentee Ballots Prior to Election Day.pdf>

Please let me know if you have any additional questions.

Have a great day!

Robin Carr

Subject: [EXTERNAL] January 5th 2021 ENR

Good Morning Everyone,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Robin Carr

Subject: [EXTERNAL] OEB 12-09-2020 Signature Verification

Importance: High

Good Morning Everyone,
I hope you are doing well! Please note there is a new OEB on Firefly for you to read and familiarize yourself with. As many of you may begin to receive calls regarding this today, please take a moment to read through OEB 12-09-2020.

Please let me know if you have any questions,

Have a great day!

Robin Carr

Subject: [EXTERNAL] OEB 12-18-2020 Signature Comparison

Importance: High

Good Afternoon Everyone,

Please see below the buzz post from Chris.

“There is a new OEB on signature comparisons on Firefly.

This OEB addresses both the comparison process and some of the considerations for the public nature of the process.

The OEB can be found under Official Communications>Official Election Bulletins>2020 OEBs>OEB 12-18-2020 Signature Comparison Need to be Public.

I know specific situations vary from county to county, so feel free to call to discuss specific concerns.

Chris Harvey, SOS Office”

Have a great weekend!

Robin Carr

Subject: [EXTERNAL] Poll Pad Training

Good Morning Election Officials,

KnowInk is providing an updated training on loading the voter file on your poll pads and the deployment checklists. We understand this is a busy time and you may not be able to join the live training. The training will be recorded & posted on Firefly for you to review at a later time. The training will be held on Wednesday, December 16th at 10:30 AM. Please register for the training using the link below.

Register in advance for this webinar:

https://zoom.us/webinar/register/WN_YuSIGpdNQSmiO4k5IfeUAw

After registering, you will receive a confirmation email containing information about joining the webinar.

Have a great day!

Robin Carr

Subject: [EXTERNAL] Potential County Poll Workers 12/14
Attachments: 12.14.2020 STV Poll Worker Sign Ups.xlsx

Good Morning Election Officials,

Attached you will find the weekly list of voters who are interested in becoming poll workers in your county. (Secure the Vote) The list is not broken down by county. You will have to filter the report by county to find the interested poll workers for their county. The decision to hire any of the voters on the list is up to your office. If you have any questions, please let me know. Have a great day!

Secure the Vote Poll Worker Signup Page: <https://securevote.ga.com/pollworker-signup/>

Subject: [EXTERNAL] Potential County Poll Workers 12/21
Attachments: 12.21.2020 STV Poll Worker Sign Up.xlsx

Good Morning Election Officials,

Attached you will find the weekly list of voters who are interested in becoming poll workers in your county. (Secure the Vote) The list is not broken down by county. You will have to filter the report by county to find the interested poll workers for their county. The decision to hire any of the voters on the list is up to your office. If you have any questions, please let me know. Have a great day!

Secure the Vote Poll Worker Signup Page: <https://securevotega.com/pollworker-signup/>

Robin Carr

Liaison

Georgia Secretary of State Office

Subject: Forward Invite

Importance: High

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Bre,

I cannot seem to forward the calendar invite. I get bounce back emails from Microsoft. If I copy everyone in this email, can you send it to them?

Thanks,

To all of you that are copied in the email, please see the below message that I tried to send:

Good Afternoon All:

I know that all of you are crazy busy! I hope each of you are doing well. Chris Harvey has asked that Charlotte and I reach out to the Regional Facilitators to ask you to join us for a round table discussion on Friday. Please see the invite from Breanna Thomas below. This is just for the facilitators. What we discuss, you may take back to your region and share. We hope that you will join us! If you are no longer the facilitator, but know who is, please send me their contact information, and forward this invite to them.

Thank you all so much for everything that you do! I know you all are worn out! I think this will be a great meeting and it will give all of us the chance to share, ask questions and have some great discussions.

Hope to see all of you on Friday!

Sincerely,

Deidre

Ryan and Chris,

The Board received a challenge to residency on the attached list of electors and has determined valid challenges exist. In speaking with Ryan, would it be possible to add a challenged status to the voter's record in ENET? This would allow the voter to be issued a challenged/provisional ballot during early voting and on Election Day. Additionally, it would allow us to see if any absentee ballots have been requested or mailed.

Thanks,
Nancy

I agree that some guidelines from the SOS should be established for observers. That way 159 counties can work from the same set of guidelines. The monitors were extremely aggressive and rude in our county. When they arrive on Monday to find that they are going to have to check their electronics at the door and be made to stand at a distance that allows them to see the process, but to see no PII, they are going to complain and moan. I think they feel as though observers are the same as monitors.

I completely agree. There needs to be a uniform message about how this is going to work. I know my local party was upset when I explained what we were working towards.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters

P11. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any P11 needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any P11. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots

subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: [EXTERNAL] RE: OEB 12-09-2020
Attachments: Signature Matching Request - Supervisor State GOP.pdf

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are

mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Georgia Republican Party
470 East Paces Ferry Road, NE
Atlanta, GA 30305

December 4, 2020

SENT VIA EMAIL

Dear Supervisor:

We respectfully request to monitor absentee ballot signature matching for the January 5, 2021 Runoff Election.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

In addition to the comments made on November 24, 2020, we have received notification from the Secretary of State's office that members of the public, specifically a Republican and Democrat Party will be allowed to observe the process.

Georgia has a strong public policy in favor of open government, which is essential to a free, open, and democratic society, which should foster confidence in government, and ensure proper function of government institutions. O.C.G.A § 50-18-70(a).

For the reasons stated above, and to restore trust and integrity in the administration of the election process, we kindly ask to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election. At your earliest convenience, please let Alyssa Gonzales Specht (aspecht@gagop.org) know when and where your office performs the signature matching process and how you would like us to coordinate who will be the Republican representatives observing the absentee ballot signature matching process.

A handwritten signature in black ink, appearing to read "David J. Shafer".

David J. Shafer
Chairman

A handwritten signature in black ink, appearing to read "Michael Welsh".

Michael Welsh
Secretary

¹ "We" a member of the Republican and Democrat Party

² Zoom Meeting with Secretary of State Brad Raffensperger and the Georgia Republican Executive Committee, 24 November 2020, 01:14:25.

Just because the process has to be done in public does not mean that the observers have to see the details. They are seeing that the process is being done properly and publicly, and not critiquing or judging the accuracy of the comparison.

For example, if a person was sitting at a table "rubber stamping" the absentee ballots as approved without ever comparing a signature, an observer could see this and report it and object to the practice.

The fact that a person is at a table in public view and is obviously looking at a ballot envelop and then comparing it to a screen and/or another piece of paper can be observed by the public without the observer seeing either the signature on the envelope or the "known" signature to which they are comparing it. Now if the person doing this is so far away from the public that they can't see the worker even handling the envelop, that could be problematic.

Feel free to call with specific situations or concerns.

Good Morning All and Happy Friday!

Thanks Chris 😊!

INCLUDE IN OEB:

For those who are asking for a daily list of voters who returned their absentee ballot (accepted and rejected)...is it possible to note that the list may be obtained from the Absentee Voter File made available by the State. My concern is that we will be bombarded with these requests from these zillions of organizations. Just thinking out loud? I'm sure we will get more ORR for this. I currently have such a request from Voter Protection, however, they noted that they would obtain the information online, if we input the accepted and rejected in ENET (which we do anyway 😊).

Also include what observers may and may not do (rules).

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork😊.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31

years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that

will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Specify that 21-2-406 public view will be accommodated as space and security allows, especially if COVID mitigation measures are in effect. These may be different based on each county's facilities. Also that other code sections may restrict or diminish public view/access to some things.

We have had issues with monitors and observers using their phones, bringing telescopic lenses and binoculars. Those need to be addressed.

We want to have all observers check in their electronics with an officer and sign an agreement to the rules set by the superintendent.

We have been so patient with people that repeatedly violate our rules, but we started getting strict and electing people during the recount. I'm unsure if the SEB knows how aggressive and rude some of the monitors are.

It needs to be made clear that only parties within a candidate in the ballot can appoint to keep us from arguing over and over with Constitution Party members.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork 😊.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application

rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow

public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be

done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork😊.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."
Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork😊.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris Harvey

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

RE: Boards of Registrars are not required to make returned absentee ballots subject to inspection prior to the closing of the polls.

Request By: Honorable Max Cleland

Secretary of State

214 State Capitol

Atlanta, Georgia 30334

Opinion By: MICHAEL J. BOWERS, Attorney General
Prepared by: MICHAEL E. HOBBS, Senior Assistant
Attorney General

Opinion

You have requested the opinion of this office as to whether reasonable inspection should be allowed of returned absentee ballots prior to the closing of polls pursuant to O.C.G.A. § 21-2-406 and O.C.G.A. § 21-2-384(d). A review of the pertinent statutory provisions requires the conclusion that no inspection of returned absentee ballots is authorized.

O.C.G.A. § 21-2-406 requires election officials to conduct their duties in public. However, O.C.G.A. § 21-2-386 imposes an obligation upon the board of registrars to "keep safely" and "unopened" all absentee ballots received prior to the closing of the polls on the day of the primary or election. While the statute is not specific as to the manner unopened absentee ballots should be kept safely, it is my view that the legislative intent is to avoid any

potential loss of the ballots by misadventure or intentional tampering. [*2] If the ballots were subject to inspection, the possibility of tampering or loss is greatly increased.

While you correctly point out that any challenge to an absentee voter must be made prior to the closing of the polls on the day of the primary or election, O.C.G.A. § 21-2-384(d) appears to provide a means by which necessary information can be obtained for challenge purposes. This code section provides as follows:

Each board of registrars shall maintain for public inspection a master list, arranged by precincts, setting forth the name and residence of every elector to whom an official absentee ballot has been sent. Absentee electors whose names appear on the master list may be challenged by any elector prior to closing of the polls on the day of the primary or election.

By expressly providing for a list available for public inspection, the General assembly has afforded electors a means by which to obtain necessary information for absentee voter challenges. Under the maxim of statutory construction expressio unius est exclusio alterius (the expression of one is the exclusion of the other) the General Assembly has excluded any requirement that returned absentee ballots [*3] (even the outer envelopes containing the voter's name and oath) be made available for public inspection prior to the closing of the polls.

Therefore, it is my official opinion that Boards of Registrars are not required to make returned absentee ballots subject to inspection prior to the closing of polls.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork 😊.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."
Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris Harvey

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

As far as space for observing the signature verification – I am taking Chris at his word in the email response he sent Janine. I have a large window (half the wall) into the room where my EMS is located. This room is also where our returned ballots are stored and the voter registration cards are in an adjoining room. I am willing to set up a workstation in that room and people can watch someone sit at a computer and process ballot signatures. They can stand at the window as long as they don't impeded flow. That is the best I have to offer, as every other bit of space is allocated to Advance Voting.

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,
Joseph

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,
Joseph

Subject: [EXTERNAL] Residence Address Issue
Attachments: Muscogee Residence Address Voters.xlsx

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their permanent residence address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their permanent residence address on file. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's permanent residence address on record.

Subject: [EXTERNAL] Voter List

Our office is working on a case regarding excess voting in multiple counties during the November 3, 2020 election. It is our hopes that many of these can be resolved at the county level due to data entry errors, etc. We are contacting each county and providing a voter list, so that you can refer to your records to determine if there was an issue that can be resolved or explained. Please contact me if you have any questions and notify me of your findings. Thank you for your cooperation with this issue.

Re: Official Election Bulletin dated November 24, 2020

Dear Mr. Harvey:

On behalf of the Lawyers' Committee for Civil Rights Under Law, I write today regarding the Official Election Bulletin you issued to all Georgia County Election Officials and County Registrars on November 24, 2020 (the "OEB"). We request that a corrected Official Election Bulletin be issued to ensure that voters who properly have registered to vote in Georgia will be allowed to vote in January.

As a nonpartisan organization working to ensure that all registered voters have an equal opportunity to vote and to have that vote counted, we appreciate all of the efforts of the Secretary of State's office to identify and investigate legitimate complaints of actual voter fraud. We do not want concerns with legitimate voter fraud, however, to result in the disenfranchisement of any legal Georgia voters.

The first paragraph of the OEB states that voters who voted in another state in November cannot thereafter "decide" to become Georgia residents. Under Georgia law, any otherwise qualified person who has moved to and intends to remain in Georgia can register and vote, regardless of the person's motive for moving. See O.C.G.A. § 21-2-217; *Dozier v. Baker*, 283 Ga. 543, 545, 661 S.E.2d 543, 545 (2008) (affirming finding of residency based on "intent" to remain notwithstanding candidate's "motive" for moving); *Cook v. Bd. of Registrars of Randolph Cnty.*, 320 Ga. App. 447, 452-53, 740 S.E.2d 223, 227-28 (2013) (following *Dozier*). We request immediate issuance of a corrected OEB clarifying that an

Page Two

otherwise qualified person who has moved to and intends to remain in Georgia properly can register and, once registered, cast their vote.

The OEB goes on to note that the county boards of registrars have the power to ensure the proper residence of new and existing voter registrants, stating that a voter's registration may be rejected if a registrar cannot determine "to his or her satisfaction" the voter registrant's residency. This language invites and may even encourage county election officials to refuse to register new voters, or to challenge and remove existing registered voters, based on the officials' arbitrary and capricious determination of their personal "satisfaction" as to the residency or non-residency of the new or existing voters. Such an arbitrary and uncabined process violates both federal and Georgia law.

The National Voter Registration Act ("NVRA") mandates that any activity "to protect the integrity of the electoral process" by ensuring an accurate voter roll "shall be uniform, nondiscriminatory, and in compliance with the Voting Rights Act of 1965." 52 U.S.C. § 20507(b)(1). Allowing individual officials to reject registrations if proof of residency has not been established to that official's individual "satisfaction" would not be "uniform" and would create the risk of discriminatory disenfranchisement. To the extent the OEB constitutes a systematic program across Georgia to prevent or remove ineligible voters, moreover, it violated the prohibition on implementing such a program less than 90 days before an election. *See id.* § 20507(c)(2)(A); *Arcia v. Fla. Sect'y of State*, 772 F.3d 1335 (11th Cir. 2014) (striking down program that violated 90-day rule).

Georgia law similarly precludes the arbitrary refusal to allow a voter to register and the arbitrary removal of an existing voter. Where an elector challenges another elector's qualifications, for example, the challenger bears the burden of proof. O.C.G.A. § 21-2-229. Any such challenge must be made in writing and specify distinctly the grounds of the challenge. *Id.* § 21-2-230(a). Unless the board of registrars finds probable cause for the challenge, the challenge must be denied; while if probable cause has been found, the elector must be notified and given the opportunity to dispute the grounds of the challenge. *Id.* § 21-2-230(b)-(c); *see also, e.g., McIntosh Cnty. Bd. of Elections v. Deverger*, 282 Ga. 566, 567, 651 S.E.2d 671, 673 (2007) (holding rebuttable presumption of legality attaches to registration of voter who has been on list of

Page Three

official electors for 10 years even where voter registration card cannot be located or lacks a signature) (citing, *inter alia*, O.C.G.A. § 21-2-522.1).

The OEB further states that, in determining residency, the county official “shall review all available evidence, including any identifying documents submitted along with the application.” Where an applicant has presented or can present the proof of residency required by Georgia’s official voter registration form (https://registertovote.sos.ga.gov/GAOLVR/images/reg_form.pdf), then county officials should only deny registration “based on information in their possession establishing the applicant’s ineligibility.” *Arizona v. Inter Tribal Council of Arizona, Inc.*, 570 U.S. 1, 15 (2013). Thus, unless county officials possess credible information calling into question the voter’s residency, they should not require additional proof of residency beyond that normally required for registration.

Finally, the last paragraph of the OEB states that any submission of false registration information, even if not done knowingly, “shall” be referred for criminal prosecution. Under Georgia law, however, an applicant must “knowingly” give false information to commit a crime. O.C.G.A. § 21-2-561(3). Thus, the OEB mandates seeking prosecution for conduct that may not constitute a crime. The NVRA and other federal voting laws preclude threats or the initiation of improper criminal prosecutions that could have a chilling effect on registration and voting. *See, e.g., United States v. McLeod*, 385 F.2d 734 (5th Cir. 1967); *League of United Latin American Citizens – Richmond Region Council 4614 v. Public Interest Legal Foundation*, No. 1:18-cv-00423, 2018 WL 3848404, at *3-4 (E.D. Va. Aug. 13, 2018) (noting NVRA does not require intent to intimidate, only that actions have the effect of intimidating voters).

In addition to the NVRA, the Civil Rights Act prohibits concerted threats intended to dissuade any federal voter. *See* 42 U.S.C. § 1985(3); *see also* 5 U.S.C. § 10101(b) (barring threats intended to intimidate federal voters); 5 U.S.C. § 10307(b) (barring threats intended to intimidate persons encouraging others to vote). Federal law also criminalizes threats intended to interfere with any federal voter. 18 U.S.C. § 594; *accord* O.C.G.A. § 21-2-567 (criminalizing intimidation of voter registrants or electors).

Page Four

The Georgia registration form already requires applicants to affirm their residence and eligibility to vote in Georgia and correctly states that any person who "registers to vote *knowing* that such person does not possess the qualifications required by law, who registers under any name other than such person's own name, or who *knowingly* gives false information in registering shall be guilty of a felony." O.C.G.A. § 21-2-561 (emphasis added). Given this unambiguous existing prohibition, the OEB's threat of criminal prosecution is redundant and creates a substantial risk of chilling legitimate voter registration and participation. See generally *Bantam Books, Inc. v. Sullivan*, 372 U.S. 58, 68 (1963) (recognizing that "[p]eople do not lightly disregard public officers' thinly veiled threats to institute criminal proceedings against them . . .").

Accordingly, we request that you rescind the existing OEB and issue a corrected OEB stating that (a) a voter registrant who had moved to Georgia with the intent of remaining in Georgia can vote in the January election; (b) the voter registrant has no affirmative obligation to provide any documentary evidence of residency; (c) county election officials cannot arbitrarily refuse to register voters or remove existing voters, but can only do so where they possess evidence demonstrating the applicant's ineligibility; (d) any challenge to the residency of a registrant or voter must be supported by specific evidence demonstrating ineligibility; and (e) if the challenge is not immediately denied, the challenged registrant or elector has due process rights to defend their registration.

Thank you for your attention and consideration in this matter.

Regards,

Kristen Clarke
President and Executive Director

Subject: [ABSENTEE] [EXTERNAL] Virtual Voter Education

Good Day Mrs. Boren,

I want to extend an offer to any of your civic, community and faith based groups to have virtual voter education via FB Live on their page or Zoom. Not only do I cover statewide information but when I work in specific counties, I offer contact information and early/advance voting dates and locations for your voters.

If you have any groups in Muscogee who have expressed an interest in voter education or asking questions about how Georgia elections work, please give them my number 470-989-8833. Also, Here's a sample letter I send to make the public aware of my service. I would like the opportunity to help your office in any way to ensure voter confidence for the upcoming election. I've also attached a sample presentation, this one was done for an advocacy group for Georgians with a disability.

Sincerely,
Sharyl Sutton

Good Day,

I'd like to schedule virtual voter education for your community group on FB Live or Zoom to help your members with the upcoming Federal Elections Runoff and ask questions about Georgia elections.

It's typically a 45-minute presentation with slides about:

- Elections dates including Georgia's three weeks of early voting
- No excuse absentee voting in GA – how to request, track, receive alerts, fill out and return an absentee
- State elections board emergency rules to help voters and county offices
- Rights of people with disabilities
- How to vote in-person during COVID, the precautions our counties are taking and how to use the system
- How to report trouble at the polls
- How to vote when you're a Georgia college student living away from your parents
- How to get involved as a poll worker
- Specific information about your members county office specific advance voting sites/hours, location of drop boxes and email/fax/mail/physical address.

I've hosted more than 100 in the past year including the Savannah Rotary, A. Randolph Institute, many chapters of NAACP, college sororities and churches like St. Matthews Episcopal on MLK. I'm non-partisan, purely pro-voting. I can schedule for a night or weekend event as well as during the week. With so much misinformation swirling Georgia elections, I thought it would serve as a good Q&A opportunity for your members. If 45 minutes of presenting is too long, I've whittled it down to 15 minutes. Would like to hear from you, 470-989-8833, or email.

Do you have to be registered to vote in the General Election to vote in the General Election Runoff?

While O.C.G.A § 21-2-501(a)(10) indicates that only voters who were registered to vote in the General Election shall be able to vote in the runoff, a federal judge has ordered the state may not enforce this state code and must allow voters to register to vote up to 30 days before the election for federal offices. On October 13, 2017, the Hon. Timothy C. Batten, Sr., US District Court Judge, ordered that the Secretary of State is enjoined from enforcing Georgia law for the purpose of establishing the voter registration deadline for any election for federal office, including runoffs, that is later than the lesser of 30 days before the date of the election.

**SECURE
THE VOTE****Procedure for voting by absentee ballot; advance voting**

(a) At any time after receiving an official absentee ballot, and before the day of the primary or election, each elector who is permitted to a ballot on the day of the primary or election, the elector shall vote his or her absentee ballot, must fill the ballot and envelope and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the return box, on which is printed the name of the elector, the name and date of the person receiving it and any other required identifying information. The elector shall then fill out, sign, and seal the ballot and envelope. Such envelope shall then be securely sealed and the elector shall then personally mail or personally deliver same to the board of registrars or absentee ballot clerk, provided that mailing or delivery may be made by the elector's mother, father, grandparent, aunt, uncle, brother, sister, nephew, niece, daughter, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, sister-in-law, or an individual residing in the household of such elector. The absentee ballot of a disabled elector may be mailed or delivered by the caregiver of such disabled elector, provided that such caregiver resides in such disabled elector's household. The physical ballot of an elector who is in custody in a jail or other detention facility may be mailed or delivered by an employee of such jail or facility having custody of such elector, or an elector who is confined in a hospital on a primary or election day to whom an absentee ballot is delivered by the registrar or absentee ballot clerk shall then and there vote the ballot, seal it properly, and return it to the registrar or absentee ballot clerk. If the elector registered to vote for the first time in this state by mail and has not previously provided the identification required by Code Sections 21-2-219 and 21-2-220 with such absentee ballot, such absentee ballot shall be treated as a provisional ballot and shall be counted only if the registrars are able to verify the identification and registration of the elector during the time provided pursuant to Code Section 21-2-415.

(b) A physician, qualified or not, who shall receive notification or preparation for a ballot from any person of the elector's choice other than such elector's employer or the agent of such employer or an officer or agent of such elector's union, provided, however, that no person whose name appears on the ballot as a candidate at a particular

SECURE THE VOTE

§ 21-2-409. Assisting electors who cannot read English or who have disabilities

(a) No elector shall receive any assistance in voting at any primary or election unless he or she is unable to read the English language or he or she has a disability which renders him or her unable to see or mark the ballot or operate the voting equipment or to enter the voting compartment or booth without assistance. A person assisting an elector shall identify himself or herself to a poll worker who shall record such information on the disabled elector's voter certificate showing that such person provided assistance in voting to such elector.

(b) Any elector who is entitled to receive assistance in voting under this Code section shall be permitted by the managers to select one person of the elector's choice except such elector's employer or agent of that employer or officer or agent of such elector's union to enter the voting compartment or booth with him or her to assist in voting, such assistance to be rendered inside the voting compartment or booth. No person whose name appears on the ballot as a candidate at a particular election nor the mother, father, grandparents, aunt, uncle, sister, brother, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, or sister-in-law of that candidate shall offer assistance during that particular election under the provisions of this Code section to any voter who is not related to such candidate. For the purposes of this subsection, "related to such candidate" shall mean the candidate's mother, father, grandparents, aunt, uncle, sister, brother, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, or sister-in-law. Notice of the availability of such assistance shall be prominently posted at each voting place.

Georgia voter registration always ends 30 days before an election
December 7 is the last to register to vote in January 5 Runoff Elections

GEORGIA
SECRETARY OF STATE
BRAD RAFFENSPERGER

**SECURE
THE VOTE****When is the voter registration deadline for the January 5th runoff?**

The last day to register to vote in the January 5, 2021, federal runoff is December 7, 2020. **Only citizens who are legal, permanent residents of the county may register or vote.** Per O.C.G.A § 21-2-571, it is a felony to knowingly vote or attempt to vote in an election where a person does not meet the requirements (such as residency requirements) punishable by up to ten years in jail and a \$100,000 fine. The requirements for voter registration are listed here: https://sos.ga.gov/index.php/Elections/register_to_vote

SECURE
THE VOTE

mvp.sos.ga.gov

GEORGIA
SECRETARY OF STATE
BRAD RAFFENSPERGERSECURE
THE VOTE**Since I voted early in person, why does My Voter Page show me voting absentee?**

While more commonly referred to as early voting or advanced voting, the technical term is “absentee in-person” voting. Any time a citizen votes before Election Day, it is considered “absentee” voting.

What is the difference between an audit and a recount?

An audit is done prior to state certification of the election and is required by law since the enactment of HB 316. A recount must be requested after state certification, and is a recount of each and every ballot.

GEORGIA
SECRETARY OF STATE
BRAD RAFFENSPERGERSECURE
THE VOTE

GEORGIA
SECRETARY OF STATE
BRAD RAFFENSPERGERSECURE
THE VOTE**What mechanisms are in place to prevent double-voting?**

When county election workers check in a voter and follow the correct process to award the voter credit for voting in the voter registration system, the voter is prevented from voting again.

What mechanisms are in place to prevent the fraudulent use of a deceased person's identity to vote?

The Secretary of State's office receives monthly death records from the Bureau of Vital Statistics. Those records are matched against voter registration records and, per O.C.G.A. § 21-2-231, counties remove deceased persons from their list of eligible electors monthly.

GEORGIA
SECRETARY OF STATE
BRAD RAFFENSPERGER

**SECURE
THE VOTE****What oversight power does the Secretary of State's office have to ensure county elections offices comply with election laws?**

In Georgia, counties run elections. The Secretary of State's Office Elections Division provides resources and instruction to county election offices to help them administer their elections. The Secretary of State's Office Investigations Division has POST-certified law enforcement officers that investigate any allegations of non-compliance with election law and regulations. Those investigations are then brought to the State Election Board, which decides the appropriate punishment for any non-compliance.

GEORGIA
SECRETARY OF STATE
BRAD RAFFENSPERGER

**SECURE
THE VOTE****How can we stop and prevent voter fraud?**

The office investigates allegations of questionable elections activity. Citizens may use the online reporting form at

<https://sos.ga.gov/cgi-bin/EMailStopVoterFraud.asp> or

call the **Voter Fraud Hotline at 877-725-9797** to report questionable elections activity. A POST-certified investigator will contact them for more information if needed.

Intent to Process or Tabulate Early for the January 5, 2021 Runoff Election

O.C.G.A. § 21-2-386(a)(3) - A county election superintendent may, in his or her discretion, after 7:00 A.M. on the day of the primary, election, or runoff open the inner envelopes in accordance with the procedures prescribed in this subsection and begin tabulating the absentee ballots. If the county election superintendent chooses to open the inner envelopes and begin tabulating such ballots prior to the close of the polls on the day of the primary, election, or runoff, the superintendent shall notify in writing, at least seven days prior to the primary, election, or runoff, the Secretary of State of the superintendent's intent to begin the absentee ballot tabulation prior to the close of the polls. The county executive committee or, if there is no organized county executive committee, the state executive committee of each political party and political body having candidates whose names appear on the ballot for such election in such county shall have the right to designate two persons and each independent and nonpartisan candidate whose name appears on the ballot for such election in such county shall have the right to designate one person to act as monitors for such process. In the event that the only issue to be voted upon in an election is a referendum question, the superintendent shall also notify in writing the chief judge of the superior court of the county who shall appoint two electors of the county to monitor such process.

☐ We are holding an election, but will not be processing or tabulating absentee ballots early.

☒ Yes, we intend to tabulate absentee ballots early for the election we are holding.

Location: City Services Center, 3111 Citizens Way Date/Start Time: 12/22 10:00am

RULE 183-1-14-0.7-.15 - Beginning at 8:00 a.m. on the third Monday prior to Election Day, county election superintendents shall be authorized to open the outer envelope of accepted absentee ballots, remove the contents including the absentee ballot, and scan the absentee ballot using one or more ballot scanners, in accordance with this rule, and may continue until all accepted absentee ballots are processed. However, no person shall tally, tabulate, estimate or attempt to tally, tabulate or estimate or cause the voting equipment to produce any tally or tabulation, partial or otherwise, of the absentee votes cast until the time for the closing of the polls on Election Day.

☒ Yes, we intend to process absentee ballots early for the election we are holding.

Subject: Fw: List of voters - Challenged
Attachments: Muscogee Match File.xlsx

Ryan and Chris,

The Board received a challenge to residency on the attached list of electors and has determined valid challenges exist. In speaking with Ryan, would it be possible to add a challenged status to the voter's record in ENET? This would allow the voter to be issued a challenged/provisional ballot during early voting and on Election Day. Additionally, it would allow us to see if any absentee ballots have been requested or mailed.

Thanks,
Nancy

Subject: [EXTERNAL] Additional Printer Bags

Good evening,

We have completed the requests for additional transport bags at our facility in Smyrna, GA. At the time we would like to know if your county would like to pick them up or have us deliver them with a delivery fee.

Beau Roberts - CRA, GA

Good evening,

We have completed the requests for additional transport bags at our facility in Smyrna, GA. At the time we would like to know if your county would like to pick them up or have us deliver them with a delivery fee.

A new discussion has
been posted in The Buzz by Blake Evans on 12/21/2020 11:20 AM

Please note that your county must post notice on your website and must send our office notice of the dates and location(s) "where absentee ballots will be processed and any rejected ballots will be adjudicated..." no later than close of business today to be in compliance with State Election Board Rule 183-1-14-0.9-.15. According to the rule, "all county election superintendents shall begin processing absentee ballots no later than the second Monday before Election Day."

For the January 5th election, all counties must begin early processing by Monday, December 28th. We must receive your notice of early processing seven days before you begin.

If you have not already posted your notice on your website and sent it to your liaison, please do so by 5pm today. Once we receive your notice, we reflect the information on our website here:

https://sos.ga.gov/index.php/elections/intent_to_tabulate_early

Thank you!

Blake

State: AL
Zip Code: 36801

County: Lee
E-mail: sumokitty@gasperllc.com

Location of Violation: 3401 Quail Cove
Opelika, AL 36801

Description of Violation: We lived in Greensboro, GA 2010-2015; in Columbus 2015-2016.

Moved to Opelika, AL in 2016 and have been living at the above Alabama address ever since. We are registered Alabama voters.

Yet we keep getting requests to register and vote in GA. Repeated requests to take us off the voter registration list have failed now for the past 5 years.

The most recent request to vote in Georgia has come from the Republican Party encouraging us to vote for Loeffler and Perdue giving us precise directions to our polling location for the runoff election on January 5th.

Are you all saying we could vote as out-of-state citizens in all Georgia elections? The Democrats have sent us similar flyers to encourage us to vote for their candidates.

Something is rotten in Georgia's election process.

Frances,

I looked at the information you provided regarding Ms. Alverson. She is an active registered voter in Muscogee County, Georgia. She was cancelled for no activity in 2014. However, she renewed her driver's license August 14, 2018 although she has not voted since 2004. Based on that information, how would you like for me to proceed?

Thanks,
Nancy

Ryan,

I've flagged the voters as "Challenged Electors" in ENET for Muscogee county. Total 4001 records from your list. Remaining 32 voters are not in Muscogee county so I didn't update them as Challenged Electors. Also, I didn't created any audit records or correspondence for this flag update. Please check with county and Let me know if any questions. Thank you.

Below voters are not updated as Challenged Electors from the list.

Ryan and Chris,

The Board received a challenge to residency on the attached list of electors and has determined valid challenges exist. In speaking with Ryan, would it be possible to add a challenged status to the voter's record in ENET? This would allow the voter to be issued a challenged/provisional ballot during early voting and on Election Day. Additionally, it would allow us to see if any absentee ballots have been requested or mailed.

Thanks,
Nancy

Ryan and Chris,

The Board received a challenge to residency on the attached list of electors and has determined valid challenges exist. In speaking with Ryan, would it be possible to add a challenged status to the voter's record in ENET? This would allow the voter to be issued a challenged/provisional ballot during early voting and on Election Day. Additionally, it would allow us to see if any absentee ballots have been requested or mailed.

Thanks,
Nancy

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Awesome. Lynn, I am inspired to come up with a process that allows voters to sign up for a 15minute viewing time; ensuring that we are not overflowing with folks and not able to social distance. Also, allowing any person(s) who did not sign up for viewing/observing and place them in the rotation upon arrival.

Just need to find a place for it now. I am hopeful.

Thank you,

Subject: RE: [EXTERNAL] RE: OEB 12-09-2020

Thank you, Chris for your encouraging words. These are trying times, indeed. I whole heartedly echo Janine's comments.

After some reconfiguration of our set up, we have come up with a way to make this happen using a community room – the wonderful, beautiful Linda Beazley Community Room, in fact. Very appropriate, don't you think?

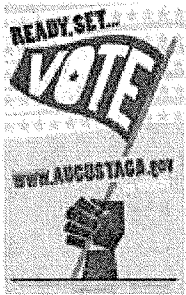

Observers will be permitted into the room to see the process. We will be using the same prohibitions for observers that are in place for early processing and protect voter's information by making sure that there is no direct view of the computer monitor and protecting our people by social distance properly as best we can. We hope to be set up to receive observers by tomorrow, but still have work to do to make that happen. We also expect to be saying "make a hole" often as staff moves in and out of the room. ☺

It is all going to be fine. This is what we do, you know? We rise up in difficult times and make stuff happen.

Hang in there!!

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork😊.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."
Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31

years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that

will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director
Georgia Secretary of State

Subject: RE: OEB 12-09-2020

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Thank you, Chris for your encouraging words. These are trying times, indeed. I whole heartedly echo Janine's comments.

After some reconfiguration of our set up, we have come up with a way to make this happen using a community room – the wonderful, beautiful Linda Beazley Community Room, in fact. Very appropriate, don't you think?

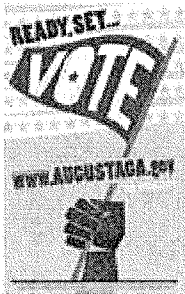

Observers will be permitted into the room to see the process. We will be using the same prohibitions for observers that are in place for early processing and protect voter's information by making sure that there is no direct view of the computer monitor and protecting our people by social distance properly as best we can. We hope to be set up to receive observers by tomorrow, but still have work to do to make that happen. We also expect to be saying "make a hole" often as staff moves in and out of the room. ☺

It is all going to be fine. This is what we do, you know? We rise up in difficult times and make stuff happen.

Hang in there!!

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork 😊.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

I agree completely. Although the people who come to observe will not have that same expectation. We will have to school them on what is acceptable and what is not - period. Again, they will likely not agree, but it is the way it will be.

Hang in there everyone. These are certainly troublesome times across the board. It makes it difficult to remember that we once really loved and appreciated our jobs and the service that we provide.

It's all well and good to say that 21-2-406 says everything must be done in public, but there are many exceptions in other code sections about what can be seen/provided by non-sworn officials.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris Harvey

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Rejected Absentee Ballot Survey

November 3, 2020 – General Election

Name:

County:

Section 1: Rejected Absentee Ballots – This section will ask you the total number of absentee ballots rejected in the November General Election.

1. What was the total number of absentee ballots rejected in the November General Election in your county?

Section 2: Rejected Absentee Ballots – This section will ask you to break down the total number of rejected absentee ballots by rejection reason.

1. How many absentee ballots in the November General Election were rejected due to the ballot being received after the deadline?
2. How many absentee ballots in the November General Election were rejected due to the voter being ineligible to vote?
3. How many absentee ballots in the November General Election were rejected due to an invalid signature?
4. How many absentee ballots in the November General Election were rejected due to a missing Signature?
5. How many absentee ballots in the November General Election were rejected due to the voter not providing required ID(MIDR)?

Please email your completed survey to your Liaison by close of business today.
