Craig Rogers was the poll manager last Wednesday. His number is 678-521-7907.

Also, there is some video of the hallway outside the room, but it may not be available until the IT Director returns tomorrow. If you need it before then, I can give you her cell number as well.

Subject: Possible forgery

Attachment(s): "traylor 1.jpg", "traylor 2.jpg", "traylor 3.jpg"

Hello Frances,

I have a voter who first contacted us because she had not received her ballot, but we had received it back and accepted it based on signature matches in OnBase. Ms. Traylor swears that she has not received her January ballot and that it must not be her signature. I took photos and she attempted to view them on a friend's cell phone. The voter – Janice B. Traylor (03008962) – does not have email of her own. She has requested that we cancel this ballot, which we have done. She was very nice about the whole thing. We are mailing the Affidavit to Cancel form to her and she has said that she does not expect to be able to get another ballot in time to vote and that she will not be able to vote in person. Allison Schaeffer was here and heard that part of the conversation, as I expressed concern about the timing. The voter understands that canceling this ballot may be cancelling her own vote, but she is fairly certain that it could not be hers.

I told her that I would forward this information to your office and that she might be contacted. She lives in a retirement community and it is possible that the ballot was misdelivered, but if it's a forgery, it's someone who knows her signature.

Please let me know if there is any other information that you need.

Cordially,

Jennie Mayes
Cobb County Elections
Absentee Coordinator

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Leigh,
I'm curious if we know why the portal does this sometimes and if this has been fixed? We have had voters complain about their ballots being sent to odd addresses that they have no previous connection with.

Subject: Residence Address Issues

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their permanent residence address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their permanent residence address on file. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's permanent residence address on record.

Thank you,

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Subject: Glitch with SOS absentee ballot portal

Janine,
Are you aware of a glitch with the SOS absentee ballot portal that prevents some ballots being sent to voters with out-of-state mailing addresses? We are hearing about this in other counties and know it to be an issue. Is there some kind of an intervention so that we can ensure Cobb voters with out-of-state mailing addresses get their ballots?

Best regards,

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all!" So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Attachment(s): "Copy of Review List_12212020 737PM.xlsx","image001.png"

This is the second list. #59 provided documents to the DDS, but has ignored our attempts to get documents since 2016. The record was made active in accordance with 2016 citizenship lawsuit.

COBB COUNTY ELECTIONS & REGISTRATION

From: Combs
Sent: Monday, December 28, 2020 3:12 PM EST
To: Combs, Leigh <lcombs@sos.ga.gov>
BCC: janine.eveler@cobbcounty.org <janine.eveler@cobbcounty.org>
Subject: Active Voters by Precinct & Combo for 1/5/2021 Runoff
Attachment(s): "January 5 2021 EMS Active Voters by Precinct and Combo.xlsx"

Good Afternoon Election Officials,

Attached is a report containing the number of Active Voter by Precinct and Combo for the 1/5/2021 Runoff. The report is also listed under Downloads on Firefly with the file name " January 5, 2021 EMS Active Voters by Precinct and Combo." This information can be used to enter the number of active registered voters by precinct and combo into your EMS servers for the 1/5/2021 election.

You may notice that there are active voters in the precincts of 88888 and 99999. This indicates that you have active voters that are not currently assigned to a precinct , combo, or polling place. If you see this listed for your county, you should take immediate steps to resolve this issue. To locate these voters, navigate to Reports > Public Reports > Voter Reports > Alpha Voter List. On this screen you can select county precincts 88888 and 99999 and select the voter status of Active to retrieve a list of these voters.

Have a great day!

Leigh Combs

I have run this by my attorney. 408 says Each party can designate two people per voting location. That includes providing the name and polling location for each watcher. The rule expanded on that to allow a different set of two per voting location for advance voting.

Janine Eveler
Director
Cobb County Elections

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Subject: RE: [EXTERNAL] RE: OEB 12-09-2020

Thank you, Chris for your encouraging words. These are trying times, indeed. I whole heartedly echo Janine's comments.

After some reconfiguration of our set up, we have come up with a way to make this happen using a community room – the wonderful, beautiful Linda Beazley Community Room, in fact. Very appropriate, don't you think?

Observers will be permitted into the room to see the process. We will be using the same prohibitions for observers that are in place for early processing and protect voter's information by making sure that there is no direct view of the computer monitor and protecting our people by social distance properly as best we can. We hope to be set up to receive observers by tomorrow, but still

GA-COBB-20-2949-A-000184

have work to do to make that happen. We also expect to be saying "make a hole" often as staff moves in and out of the room. J

It is all going to be fine. This is what we do, you know? We rise up in difficult times and make stuff happen.

Hang in there!!

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, “If it’s difficult or inconvenient to perform a duty in public, you won’t have to make changes to the way you’ve done it for years.”
Instead, at 24 words, it’s probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director
Georgia Secretary of State

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

These are the attorneys for the Board of Elections. The code section that puts the absentee envelopes under seal of the Clerk of Superior Court is 21-2-390. If Ryan would like to contact them about why they are not under seal, I would appreciate it. I don't mean to be uncooperative, but I still find it odd that if the complaint you mentioned was from the primary, why the investigation/audit would be with ballots from the General Election.

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hi Ms. Watson,

I continue to be barraged, now with texts, now about requesting my absentee/mail ballot in Georgia ahead of the runoff. What was apparently begin by America Votes has snowballed to more special-interest groups than I knew existed. For this reason, replying "stop" does little good.

Are YOU able to do anything to erase my voting record in Georgia? If not, who can help? I've seen your office has made well-founded accusations against America Votes.

This thread has only your follow-up question and my reply. My first email gave the background: I've been a registered

GA-COBB-20-2949-A-000195

Arizona voter for almost four years, and I have not been a registered DeKalb voter for many more years than that.

The most recent texts, all hours, came from SEIU, Alliance for Youth Action, GA Dems, For Our Future, Democracy for America, Georgia Shift Action, Indivisible Action, and Black Voters Matter. It's become harassment.

King regards,
Brian

Good morning,

We have set up a series of recurring open zoom calls to help assist you in preparation and execution of the January 5 election. We have 3 times set up for various county sizes but please feel free to call into any session and stay as long or as little as you'd like. We will have representatives from operations and engineering on the calls to answer questions and assist you as needed.

Thanks you, we look forward to another successful election with you all.

Subject: Jan 5th ENR L&A Uploads

Good morning,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Leigh Combs

Subject: Re: Absentee Voting giving a reason

I apologize that I am just now responding to this thread. I also would not support this action in the upcoming meeting of the General Assembly. I recall when absentee voting was restricted to voters with a reason; elderly, disabled, religious holiday, military, out of town. I also recall when only the last week was offered as early voting while many voters crammed into our offices to cast their votes...going from 45 days of early voting to now having NR absentee voting and 21 days of advance voting. We should not go backwards, but find better ways of providing voting in a more effective and efficient ways is the answer. What will it take to get us there? I'm not sure, but studying some other States' electoral processes is a start. On a more personal note, I am not too pleased with all we have had to deal with this year on top of dealing with a pandemic. Nothing happened as we were told, from receiving our new equipment, grant reimbursements, etc. Just not good for us in Georgia. Our voters have been very negative towards us...regaining the integrity and trust is no where it should be from an election standpoint....but I have hope that many of us will stick around to see things get better. This year has been tough for almost 90% of us. Let us really work to make sure we do not lose ourselves in the future decision making and support one another as a team. So much has happened; in fact, much more than I can state without being disrespectful, so I will stop here by saying, bless us all through the rest of the Election cycle.

Subject: RE: Total number of absentee ballots in November election

According to eNet this is the breakdown of AB Ballots (not counting those that were cancelled by the voter).

1,411 - Accepted Electronic Ballot Delivery (EBD). We forgot about these and have about 4 additional boxes of this group – talk more later today

148,577 – Accepted Mailed ballots

149,988 Total Accepted

333 – Rejected, received after deadline

78 – Missing signature – not cured

32 – Invalid signature – not cured

443 Total rejected

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at

GA-COBB-20-2949-A-000212

10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Ms. Eveler,

We would like to schedule a time tomorrow morning for the following:

- Select and pickup boxes of AB envelopes
- Assist with transporting computers if needed
- Doing a brief walk-thru of your AB process
- Anything else we can do to help

As we discussed, we want to minimize this distraction as much as possible.

Please let us know what time is best.

Call with any questions/concerns. Thank you.

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move

the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Subject: RE: OEB 12-09-2020

Good Morning All and Happy Friday!

Thanks Chris☺!

INCLUDE IN OEB:

For those who are asking for a daily list of voters who returned their absentee ballot (accepted and rejected)...is it possible to note that the list may be obtained from the Absentee Voter File made available by the State. My concern is that we will be bombarded with these requests from these zillions of organizations. Just thinking out loud? I'm sure we will get more ORR for this. I currently have such a request from Voter Protection, however, they noted that they would obtain the information online, if we input the accepted and rejected in ENET (which we do anyway☺).

Also include what observers may and may not do (rules).

I understand your desire for guidance. The SEB may be providing specific guidelines soon.
Until then, do the best you can while you have the authority to make those decision on your own.
I appreciate the exchange of ideas and opinions. We all have different perspectives and challenges and everyone is worn very, very thin.
I know that every one of you is trying to do the best you can for your voters and for the process, and I appreciate you and your efforts.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states "Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject

to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter’s PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter’s full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don’t just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter’s/applicant’s personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

EARLY PROCESSING OF ABSENTEE BALLOTS

Pursuant to State Election Board Rule 183-1-14-0.9-.15, Cobb County will begin early processing of absentee ballots for the January 5, 2021 General/Special Election Runoff according to the following schedule:

Date	Day	Time
12/21 – 12/22	Monday - Tuesday	8am - 5:30pm
12/23/2020	Wednesday	8am – 2pm
12/26/2020	Saturday	8am – 5:30pm
12/28 – 12/30	Monday - Wednesday	8am – 5:30pm
12/31/2020	Thursday	8am – 2pm
1/2/2021	Saturday	8am – 5:30 pm
1/3/2021	Sunday	8am – 2pm
1/4/2021	Monday	8am – 5:30pm
1/5/2021	Tuesday	8am – 10pm

All early processing activities, including opening the outer envelope of accepted ballots, removing the contents, opening the inner envelopes, auditing and batching the ballots, scanning batches, adjudication of overvotes, duplication of damaged or adjudicated ballots and sealing of scanned batches, will be conducted at **Jim R. Miller Park Event Center**, 2245 Callaway Rd SW, Marietta, GA 30008. These activities are open to public view, but all observers must sign an Oath, receive and wear a badge, and are prohibited from bringing into the room any electronic recording or monitoring device or cellular telephone. Everyone entering the facility will be screened for fever and is required to wear a mask and a wristband. Observers must enter the grounds from Callaway Rd. through an access road leading to parking behind the Event Center. A map can be provided by emailing Janine.Eveler@CobbCounty.org or Allison.Schaeffer@CobbCounty.org

This 10th day of December 2020.

Subject: Poll Watchers

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

Hi Ms. Watson,

I continue to be barraged, now with texts, now about requesting my absentee/mail ballot in Georgia ahead of the runoff. What was apparently begin by America Votes has snowballed to more special-interest groups than I knew existed. For this reason, replying "stop" does little good.

Are YOU able to do anything to erase my voting record in Georgia? If not, who can help? I've seen your office has made well-founded accusations again America Votes.

This thread has only your follow-up question and my reply. My first email gave the background: I've been a registered Arizona voter for almost four years, and I have net been a registered DeKalb voter for many more years than that.

The most recent texts, all hours, came from SEIU, Alliance for Youth Action, GA Dems, For Our Future, Democracy for America, Georgia Shift Action, Indivisible Action, and Black Voters Matter. It's become harassment.

King regards,
Brian

Subject: Re: OEB 12-09-2020

We have had issues with monitors and observers using their phones, bringing telescopic lenses and binoculars. Those need to be addressed.

We want to have all observers check in their electronics with an officer and sign an agreement to the rules set by the superintendent.

We have been so patient with people that repeatedly violate our rules, but we started getting strict and electing people during the recount. I'm unsure if the SEB knows how aggressive and rude some of the monitors are.

It needs to be made clear that only parties within a candidate in the ballot can appoint to keep us from arguing over and over with Constitution Party members.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same
GA-COBB-20-2949-A-000234

setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined.

GA-COBB-20-2949-A-000235

There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the

GA-COBB-20-2949-A-000236

matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*“The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information** and prevent interference with official duties.”*

I completely agree. There needs to be a uniform message about how this is going to work. I know my local party was upset when I explained what we were working towards.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

Cynthia Willingham, Supervisor of Elections

Rockdale County Board of Elections

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away

GA-COBB-20-2949-A-000249

from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

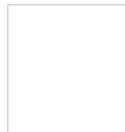

Chris Harvey

Elections Director

Georgia Secretary of State

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states "Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att'y Gen." Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the

GA-COBB-20-2949-A-000250

Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

Like Joseph, I also do not have the space allowing others to observe. We are currently using our City Hall to house a portion of our absentee ballot processors who are also verifying signatures and our City Hall is not open to the public. Can you image the exposure?

Subject: Re[2]: OEB 12-09-2020

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,
Joseph

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Ms. Eveler,
We would like to schedule a time tomorrow morning for the following:

- Select and pickup boxes of AB envelopes
- Assist with transporting computers if needed
- Doing a brief walk-thru of your AB process
- Anything else we can do to help

As we discussed, we want to minimize this distraction as much as possible.
Please let us know what time is best.
Call with any questions/concerns. Thank you.

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

VERIFYING SIGNATURES

To verify signatures:

Have the **OnBase** program open and all **Document Types** selected for viewing.
The OnBase icon will be displayed on the bottom tool bar.

- Applications: In **ENet** highlight the **Registration #**. To copy, type **Control C**, or right click and select **Copy**.
- Click **OnBase** icon on bottom tool bar.
- In the **Document Retrieval** window, place the cursor in the **Voter ID** box (under **Keywords** section).
 - Applications: To paste the registration #, type **Control V**, or right click and select **Paste**. The registration # may be typed in if necessary.
 - Ballot envelopes: Scan the bar code on the label or type in the registration #.
- Click **Find**. Compare **OnBase** signature(s) to the signature on the application or ballot envelope.
- Initial beside the signature if it matches.
 - If the signature does not match, place the application or ballot in the problem tray (with a problem cover sheet attached) for further research.
- Close all signature windows.
- Click **Clear Keywords** at the bottom of the window to clear the **Voter ID** field.
 - Applications: Click **ENet** icon on bottom tool bar to return to **Search Absentee Ballot**.
 - Ballots: Place the cursor in the **Voter ID** box to scan/enter the next registration #.

Subject: New OEB on Giving Things of Value for Voting and Approaching Voters

Good morning,

Please see the latest OEB posted on Firefly:

Harvey, Chris

There is a new OEB on Firefly clarifying the Secretary of State's Office position on giving things of value in exchange for voting. The OEB also addresses approaching voters in line to speak to them and solicit votes.

The OEB can be found under Official Communications>Official Election Bulletins>2020 OEBS>12-28-2020 OEB.

Feel free to call if you have questions.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris Harvey
Elections Director
Georgia Secretary of State

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director
Georgia Secretary of State

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Jennie,

After Brian reviewed this voter. He saw that the record has the UOCAVA communication method selected as "Electronic" but the ballot for January Runoff is marked as "Mail" and this is the reason the UOCAVA Ballots is not displaying for the voter on MVP. To resolve this the mismatch needs to be corrected and the ballot will show up for the voters on MVP. The county needs to change this.

Best regards,

Hello,

I am trying to help a voter, Mr. Samuel Galbraith, 03080922. He shows as having been issued a January OST ballot via email. His email address is correct. But when he goes to MVP page, he is not given the option for a UOCAVA ballot. I was able to send him a ballot, but I am trying to figure out why he did not receive his email (I checked on that, as well) and why he has no ballot link.

Any thoughts?

Janine,
When I submitted an Open Records Request to you for "a PDF copy or email containing a list of all Poll Workers (including Poll Manager and Assistant Managers)", I received it promptly the next business day at 9:32:39 AM. [Please see attached.] That was 4 months ago! What has changed?! You are clearly choosing to deliberately not provide me with the information that I have requested (not via ORR but per OCGA). Why?

More damning still is the fact that you are claiming that you do not have a list of the Assistant Managers appointed to Advance Voting Polling Locations for the January 5th 2021 Runoff. Early Voting begins TODAY!!! It is utterly untenable that you would not have this information readily available.

Sincerely,
George Balbona

Subject: ORR MR 5B Poll Worker Names

This one is quick and easy. I request a PDF copy or email containing a list of all Poll Workers (including Poll Manager and Assistant Managers) who worked at the Turner AME Chapel Polling Location for the Primary Runoff Election on August 11th 2020.

Thanks,
George Balbona

> Sorry for the delay. We have done research and this was issued from the portal, which means we have nothing except what the voter put in the system. At this time we were not printing reports from the portal. We started doing that after the 20th. I was going to call the voter because we had a message from the Call Center. I'm not really sure what to tell her. Whoever applied for her had her DL #.

Subject: Assistant Managers List

Janine,

I seriously doubt the veracity of the list you recently sent me. [Please see below.]

I have been told by an extremely knowledgeable person, that the list that you provided me is an "Old List"!!! Out of the 13 people on the Assistant Manager List, which you claimed Advance Voting Assistant Managers would be selected from, 7 are no longer active and one is on Medical Leave.

Could you please explain why you sent me this overwhelmingly bogus and outdated list?!

Sincerely,
George Balbona

Subject: Untenable (Part 2)

Janine,
When I requested from you the list of Area Supervisors and which Polling Locations they were responsible for during the Primary Election this year, I received the list in less than 2 hours. This list included 144 Polling Locations!!! [Please see attached.]
I am now requesting the current Appointment List of Advance Voting Poll Managers and Assistant Managers for 5 Polling Locations. There are 9 Cobb Advance Voting Poll Managers. Each of them should have 2 Assistant Managers. So this means the list I am requesting should contain 27 people. There are currently 28 Area Supervisors in Cobb County. By every metric, the list I am requesting is simpler and smaller than a list which took you less than 2 hours to email to me. What has changed?

Sincerely,
George Balbona

OFFICIAL ELECTION BULLETIN

January 30, 2019

TO: County Election Officials and County Registrars
FROM: Chris Harvey, State Elections Director
RE: Open Record Requests

Multiple counties have reported receiving Open Record Requests asking for data such as DRE audit logs, copies of DRE tapes and ballot image reports and/or copies of ballot images.

Parties that have an interest in or are actually involved in active litigation with the state regarding the security of the voting system might have made some of these requests. This fact does not diminish your requirement to comply with open record requests nor does it require any extra access to information that is not normally accessible under the Open Records Act.

Ballot images are not subject to open record requests per the advice of the Attorney General's office.

Michael Barnes can help provide technical help locating some records or data if your county attorney determines that you have responsive records.

As we usually emphasize, your county/BOE attorney is the best source of advice on these matters.

The backfile is made up of older or archived Registration forms.

We can use Absentee Ballot by Mail applications in conjunction with another source, but we do not like them to use it as their only source. For example, it may be a good way to doublecheck the voter's printing, especially if the signature is similar to your primary source.

Good morning,

We have set up a series of recurring open zoom calls to help assist you in preparation and execution of the January 5 election. We have 3 times set up for various county sizes but please feel free to call into any session and stay as long or as little as you'd like. We will have representatives from operations and engineering on the calls to answer questions and assist you as needed.

Thanks you, we look forward to another successful election with you all.

This is related to the November election. We show that they requested an AB on 4/21/2020 which was mailed on 9/18. They arrived to vote in-person at the S. Cobb Library and cancelled the AB. I would have to research whether there is a cancel affidavit for him or not. That location was very small and we were using two adjoining rooms, so she was directed into the second room. We will see if we can find out how they applied in April.

Zip Code: 30082
County: Cobb
E-mail: Tina_Eisenschmidt@att.net

Location of Violation: South Cobb Library Mableton, GA

Description of Violation: Neither my husband or I had the unsolicited absentee ballot sent us. Our ID was processed differently with me having to sign a paper cancelling the unsolicited ballot, but he did not. I was sent into a separate room with just 1 one other person voting although a long line outside. Poll worker stood 3" from me at the scanner obviously trying to see my vote, disregarding 6' Covid mandate. Received 50 phone calls requesting my voter info and address prior to voting. NO faith in the system or machines!!

I have run this by my attorney. 408 says Each party can designate two people per voting location. That includes providing the name and polling location for each watcher. The rule expanded on that to allow a different set of two per voting location for advance voting.

Janine,

For what it's worth, we would agree with Vincent's interpretation. They can have max two at a time, but the law doesn't prohibit them having different people take shifts.

Thanks,
Ryan

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Deidre,

I am shocked and disappointed that you gave Association support on legislation. If you discussed with the Executive Board, I was not included as Past President. The Association has always stated it would not support or oppose legislation. One individual does not have the authority to change that. I do not support this and believe you would find many if not most members wouldn't either.

I respectfully ask that you withdraw your statement that the Association supports this.

I look forward to your response

All:

I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

Thanks! Merry Christmas!

Subject: Voter signature - C. Ellet

I have just gotten off the phone with Mr. Charles Ellet (03094209) who was a rollover elderly voter. He did not receive his ballot, but he did receive an email from us regarding a mismatched signature on his ballot. It would appear that someone has taken his ballot and attempted to pass themselves off as him. The ballot was mailed (by the vendor) to the correct address.

We are cancelling that ballot in the system and reissuing a ballot to him, pending an Affidavit of Cancellation. Mr. Ellet was very nice about the whole thing.

I wanted to alert you of his call and how we are proceeding. Is there a particular way we not to handle the ballot we have received with the mismatched signature?

Cordially,

From: Combs, Leigh
Sent: Tuesday, December 22, 2020 9:18 AM
Subject: Jan 5th ENR L&A Uploads

Good morning,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Leigh Combs

E-mail: lilly11605@yahoo.com

Location of Violation: Fire station 4; Smyrna Georgia

Description of Violation: Iâ?Tm not saying itâ?Ts truly fraud but I dropped off my presidential absentee ballot at the drop off box at fire station.

I Have recently found out my vote was never counted.

I requested an absentee ballot for January runoff. After a couple weeks of receiving nothing; I called the voting number. Was told there is nothing regarding my request.

I have called Secretary of State who gave me Leiason number. Called that number and left message.

Getting disheartening regarding the entire situation.

Iâ?Tm a senior citizen. Now Iâ?Tm being asked to go in person

Thanks
Nancy

Subject: Re: Assistant Managers (Take 2)

Janine,

The fact that the current version of your Advance Voting Appointment List is deficient is NOT a valid excuse for you to continue violating OCGA. You have been made aware of the fact that your current Advance Voting Appointment List does not meet code. If you were a building, you would be condemned — so I am going to do the same. As a resident of Cobb County, I am condemning you and your willful failure to meet the required duties of your office as the Elections Director of Cobb County. You are currently in DIRECT AND KNOWING VIOLATION of OCGA 21-2-90 -- specifically for not providing me the Advance Voting Appointment List with both Poll Managers AND ASSISTANT MANAGERS!!!

You do NOT get to pick which Georgia Laws you follow!!! You do NOT get to continue cherry-picking in the Peach State!!!

You have until tomorrow to add the required positions and information to your Appointment List. This simple and brief act of data entry is far from a Herculean Labour. I assume that you and your staff know all of the people who have been appointed as Advance Voting Poll Managers and Assistant Managers for the January 5th 2021 Runoff. The Advance Voting Poll Manager Appointment List you sent me consisted of 9 people (soon to be expanded to 11 people). Each Poll Manager is assigned 2 Assistant Managers. So we're talking about adding 18 (and eventually 22) names to your Appointment List. This is clearly NOT A HARDSHIP!!! Furthermore, you should already possess all of their names and required information.

There are 2 obvious questions I'd like you to answer:

1) Why are you deliberately choosing to violate OCGA 21-2-90?!

2) What are you hiding?!

Elections are meant to be TRANSPARENT. Why are you being so opaque, Janine?

I look forward to receiving your updated Early Voting Appointment List promptly.

Sincerely,
George Balbona

P.S.— David, Chris and Frances, please consider this email thread an official complaint to the State Election Board. I am requesting that you please expedite your investigation given the pressing fact that Advance Voting for the January 5th 2021 Runoff begins this Monday, December 14th 2020.

P.P.S.— Hello Cobb County Board of Commissioners! Unfortunately, this is NOT an isolated incident of the manner in which Janine Eveler treats concerned Cobb County residents. I would very much enjoy meeting with you at your earliest convenience via Zoom to discuss Janine's notably less than transparent behavior this year. Please feel free to share this invite with Commissioners-Elect Jerica and Monique.

P.P.P.S.— The clock is ticking, Janine. Why not try exceeding expectations and do the right thing?

Janine,

As I made clear when I submitted my request for your Advanced Voting Appointment List this is NOT AN OPEN RECORDS REQUEST!!! Furthermore, this is NOT OPTIONAL!!!

OCGA 21-2-90 clearly states The superintendent shall make each appointment by entering an order which shall remain of record in the appropriate office and SHALL MAKE SUCH ORDER AVAILABLE FOR PUBLIC INSPECTION UPON REQUEST.

21-2-90 Appointment of chief manager and assistant managers.

GA-COBB-20-2949-A-000314

"All elections and primaries shall be conducted in each polling place by a board consisting of a chief manager, who shall be chairperson of such board, and two assistant managers assisted by clerks. The managers of each polling place shall be appointed by the superintendent. If the political parties involved elect to do so, they may submit to the superintendent, for consideration in making such appointment, a list of qualified persons. **When such lists are submitted to the appropriate office, the superintendent, insofar as practicable, shall make appointments so that there shall be equal representation on such boards for the political parties involved in such elections or primaries. The superintendent shall make each appointment by entering an order which shall remain of record in the appropriate office and SHALL MAKE SUCH ORDER AVAILABLE FOR PUBLIC INSPECTION UPON REQUEST. The order shall include the name and address of the appointee, his or her title, and a designation of the precinct and primary or election in which he or she is to serve.**"

Janine,
Please pay attention to the last sentence you just sent me: "The order shall include the name and address of the appointee, **his or her title**, and a designation of the precinct and primary or election in which he or she is to serve."

Why would this clause be necessary if the appointment list was only meant to include Poll Managers?!?! I don't think attorneys are required perhaps just a competent English teacher.

Sincerely,
George Balbona

On Dec 11, 2020, at 7:03 PM, Jorge BALBONA <balbonag@mac.com> wrote:

Janine,
You are cherry-picking in the Peach State again. Please read the following heading :
OCGA 21-2-90 Appointment of chief manager and assistant managers.

The relevant wording here is "All elections and primaries shall be conducted in each polling place by a board consisting of a chief manager, who shall be chairperson of such board, **AND TWO ASSISTANT MANAGERS** assisted by clerks." And of course, "**The superintendent SHALL MAKE EACH APPOINTMENT BY ENTERING AN ORDER WHICH SHALL REMAIN OF RECORD.**"

The superintendent SHALL make EACH APPOINTMENT on the record. The board consists of the Poll Manager, two Assistant Clerks AND clerks. You should be happy I'm not asking for the clerks.

Now hop to it!!!

Sincerely,
George Balbona

Janine,

I think the best course of action would be to treat absentee ballot processing after Election Day the same way you do early processing.

Thanks,
Ryan

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Ryan,

Since SEB Rule 183-1-14-0.9-.15 only applies to processing prior to Election Day, my assumption is that the designation of poll watchers/monitors for absentee processing on ED and in the days following is governed by 21-2-408(c). There may be multiple days of processing, now that so many ballots are received on ED through drop boxes. Also, processing will likely continue for Provisional ballots into Saturday for duplication and scanning of those deemed valid. Are the parties allowed to appoint just two individuals to be poll watchers for the entire 3-4 day period as 408(c) seems to indicate? And are those individuals to be designated under the same conditions and timing as election day poll watchers? Until this year, we almost never had poll watchers designated for the tabulation center and conditions have changed this year as well. I believe the parties want to have monitors come and go like they do during early processing.

I will take care of this tomorrow. I was assured that it was handled. Again. I sincerely apologize. I have spoken to two media outlets and told them that was not from the association.

I hope you all had a Merry Christmas and were able to spend time away from the office with those you love.

Looks like Association support wasn't taken out of the speech or at least not the press release. It's in this from 11Alive.

<https://www.11alive.com/mobile/article/news/politics/elections/georgia-secretary-of-state-wants-to-get-rid-of-no-excuse-absentee-voting/85-ce5ace48-7b66-4fd5-b99e-c522e0e0bf1c>

I'm not sure if there is anything that can be done now or not but if there is a way for it to be corrected I would like to request that it is. Does anyone know if that would be possible?

It's quite a while to the 2021 conference but if this news travels the state, there may be pushback and comments about it when we're all together. Only mentioning so it's in the back of our minds just in case.

Hope you all have a good day,
Kristi

I apologize that I am just now responding to this thread. I also would not support this action in the upcoming meeting of the General Assembly. I recall when absentee voting was restricted to voters with a reason; elderly, disabled, religious holiday, military, out of town. I also recall when only the last week was offered as early voting while many voters crammed into our offices to cast their votes....going from 45 days of early voting to now having NR absentee voting and 21 days of advance voting. We should not go backwards, but find better ways of providing voting in a more effective and efficient ways is the answer. What will it take to get us there? I'm not sure, but studying some other States' electoral processes is a start. On a more personal note, I am not too pleased with all we have had to deal with this year on top of dealing with a pandemic. Nothing happened as we were told, from receiving our new equipment, grant reimbursements, etc. Just not good for us in Georgia. Our voters have been very negative towards us...regaining the integrity and trust is no where it should be from an election standpoint....but I have hope that many of us will stick around to see things get better. This year has been tough for almost 90% of us. Let us really work to make sure we do not lose ourselves in the future decision making and support one another as a team. So much has happened; in fact, much more than I can state without being disrespectful, so I will stop here by saying, bless us all through the rest of the Election cycle.

It isn't a precinct, it's an advance voting location. That is in column AJ and I've already selected for location ID 033829 and sent you only those voters.

Good Evening. I was informed by my lead day worker of an incident involving a voter wearing a shirt with a candidates name. Unfortunately, I was told this person had already exited the secure area, before this was observed. I regret to say, I do not have the voters name. I have questioned every poll worker at my location and no one admits to advising a voter to "cover their shirt with a application". This is unacceptable and will be promptly addressed with everyone here.

Please let me know if you have any questions.

Thank You,

City: Atlanta
State: Ga
Zip Code: 30339
County: Cobb
E-mail: Johndixonvaughan@gmail.com

Location of Violation: Ward Recreation Center early voting location

Description of Violation: Voter, age approx. 20, female, allowed to enter the voting premises wearing a Biden/Harris shirt. Poll workers did not make her turn it inside out but instead told her to use her election piece of paper (the one that says Oath of Elector) to cover the markings. It's posted in multiple locations that campaigning is prohibited, including t-shirts, within the voting area. She should be forced to change, as this is a clear violation of the law.

Female, navy shirt Biden, white pants. Came to polling location with much older man in purple shirt and jeans.

Good Morning Election Officials,
Dominion Voting Systems will be conducting open forums via Zoom for the upcoming election. The Dominion support staff will be available to answer your questions regarding L&A, election preparation, and any advance voting issues, if encountered for the upcoming January 5th election. Please feel free to join any of the meetings and stay for as long or as little as you wish. Dominion will send your county the zoom meeting links via email. If you have any questions, please contact Dominion Voting Systems Support.

Subject: RE: OEB 12-09-2020

I agree that some guidelines from the SOS should be established for observers. That way 159 counties can work from the same set of guidelines. The monitors were extremely aggressive and rude in our county. When they arrive on Monday to find that they are going to have to check their electronics at the door and be made to stand at a distance that allows them to see the process, but to see no PII, they are going to complain and moan. I think they feel as though observers are the same as monitors.

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.
In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director
Georgia Secretary of State

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the

GA-COBB-20-2949-A-000334

following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

Rejected Absentee Ballot Survey

November 3, 2020 – General Election

Name:

County:

Section 1: Rejected Absentee Ballots – This section will ask you the total number of absentee ballots rejected in the November General Election.

1. What was the total number of absentee ballots rejected in the November General Election in your county?

Section 2: Rejected Absentee Ballots – This section will ask you to break down the total number of rejected absentee ballots by rejection reason.

1. How many absentee ballots in the November General Election were rejected due to the ballot being received after the deadline?
2. How many absentee ballots in the November General Election were rejected due to the voter being ineligible to vote?
3. How many absentee ballots in the November General Election were rejected due to an invalid signature?
4. How many absentee ballots in the November General Election were rejected due to a missing Signature?
5. How many absentee ballots in the November General Election were rejected due to the voter not providing required ID(MIDR)?

Please email your completed survey to your Liaison by close of business today.

Subject: January 5th 2021 ENR

Election Officials,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

The rule expanded on that to allow a different set of two per voting location for each day of advance voting.

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Subject: RE: Challenge of voters on the basis of failure to establish residency in Cobb County

Regarding the voters mentioned below:

They have applied for and received ballots through the Uniformed and Overseas Absentee Voting Act program as Overseas voters. As such, it is my understanding that they are allowed to use their last residence of record in the United States. Obviously I do not know if they have registered in another state, but I wanted to put that out there.

We will pull their applications and ballots and await word.

Thank you,

Here are another two challenged voters. These two are Overseas Temporary (OST) and received absentee ballots electronically delivered. The ballots have been returned and accepted. They both registered and requested ballots by using the Federal Postcard FPCA on 9/19/2020.

The person mentioned in the letter as the one currently inhabiting the residence, Ms. Deborah L. Lilly, is actually registered to vote in Cherokee County at 250 W RIDGE DR, CANTON 30114. She voted absentee from that address for 11/3/2020. She is listed as the owner of the property in Tax records.

Hey Janine,

Here's another. This may be a case of true election fraud. The homeowner Deborah Lilly brought it to our attention. We

GA-COBB-20-2949-A-000349

will be asking her to file a separate challenge since obviously she knows more having rented the house to the Sherman's until 2001. They have already turned in their absentee ballots.

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

The backfile is made up of older or archived Registration forms.

We can use Absentee Ballot by Mail applications in conjunction with another source, but we do not like them to use it as their only source. For example, it may be a good way to doublecheck the voter's printing, especially if the signature is similar to your primary source.

Location of Violation: Absentee Ballot

Description of Violation: Iâ?Tm now officially fed up. Iâ?Tm currently living in Ireland and I have not yet received my absentee ballot for the Georgia Senate election. I requested on November 9th. I received notice it was mailed December 2nd and here it is December 24th and no ballot has arrived. This is wrong! This is voter suppression! This is fraud! My ballot for the presidential election conveniently arrived the day after the election which prevented me from casting my vote. The postmark on that ballot showed it was mailed out way later than the notice I received from Fulton County said it was mailed. Iâ?Tve recently posted holiday cards to the states on December 14th which have already arrived. I have also received holiday cards from the states. Typically it takes 5-7 business days for me to receive mail from the states to Ireland. It should not be taking this long! Iâ?Tm prepared to take this to the press. I need some answers.

Mr. Odom,

I spoke to the poll manager at the East Cobb Government Center and she interviewed the clerk who handled your check-in to the poll. There was no absentee ballot issued against your record, and the clerk made a mistake by asking you to sign the affidavit. She told the poll manager that she realized it wasn't needed after the transaction and threw it into the bin of items that will be shredded after the election. The poll manager found the document in the shred bin in order to corroborate the clerk's account, and she will make sure that it is destroyed.

The paper ballot you scanned, Serial #: 00098 issued at 8:06am, was counted in the scanner. Now that that ballot is recorded on your record, no other ballot can be submitted on your name. I can only speculate about why the clerk acted the way she did, covering the form. She remembered the encounter and immediately explained it to the manager, so she may have felt awkward or embarrassed at the time.

I'm sorry you had these issues, but rest assured your vote is counted.

Subject: FW: Web E-Mail [Stop Voter Fraud] From David L Odom

Good Evening

I am sure that this gentleman is most likely on the roll over list. But can you confirm and have someone to contact him reference his questions.

Subject: Web E-Mail [Stop Voter Fraud] From David L Odom

Name: David L Odom
Phone: (770) 973-9575
Address: 4572 Karls Gate Dr
City: Marietta
State: GA
Zip Code: 30068

County: Cobb
E-mail: david_odom@yahoo.com

Location of Violation: East Cobb Government Center
4400 Lower Roswell Rd
Marietta Ga

Description of Violation: I voted on Dec 14. While checking the Id information I submitted, (Driver's license and a completed identification form with name, address, DOB, and signature) the poll worker asked me if I had my absentee ballot with me. I told her I did not have one nor had I requested or received one. She told me I must have unknowingly checked something to request one.

I Did No Such Thing!

I was given a second form to fill out and sign which I presume would invalidate a subsequent arrival of my mail in ballot which I Did Not Request and Never Saw. After I handed the poll worker the completed second form, I noted the ballot number she had recorded on my original identification form. When she saw me looking at my form with my PPI information, she covered it up.

For now I am keeping my ballot number to my self. My questions are the following:

1. How can I check to make sure that my in person ballot that I fed into your scanning machine on Dec 14 is the ballot that is counted on Jan 5 and any subsequent recount?
2. How can I check between now and Jan 5 to find out if an absentee ballot in my name has been submitted?
3. Why would the poll worker cover up my original form?

Thank you for your consideration,

David Odom

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all!" So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

OFFICIAL ELECTION BULLETIN

January 30, 2019

TO: County Election Officials and County Registrars
FROM: Chris Harvey, State Elections Director
RE: Open Record Requests

Multiple counties have reported receiving Open Record Requests asking for data such as DRE audit logs, copies of DRE tapes and ballot image reports and/or copies of ballot images.

Parties that have an interest in or are actually involved in active litigation with the state regarding the security of the voting system might have made some of these requests. This fact does not diminish your requirement to comply with open record requests nor does it require any extra access to information that is not normally accessible under the Open Records Act.

Ballot images are not subject to open record requests per the advice of the Attorney General's office.

Michael Barnes can help provide technical help locating some records or data if your county attorney determines that you have responsive records.

As we usually emphasize, your county/BOE attorney is the best source of advice on these matters.

Jennie,

After Brian reviewed this voter. He saw that the record has the UOCAVA communication method selected as "Electronic" but the ballot for January Runoff is marked as "Mail" and this is the reason the UOCAVA Ballots is not displaying for the voter on MVP. To resolve this the mismatch needs to be corrected and the ballot will show up for the voters on MVP. The county needs to change this.

Best regards,

Lisa Kinnemore

Hello,

I am trying to help a voter, Mr. Samuel Galbraith, 03080922. He shows as having been issued a January OST ballot via email. His email address is correct. But when he goes to MVP page, he is not given the option for a UOCAVA ballot. I was able to send him a ballot, but I am trying to figure out why he did not receive his email (I checked on that, as well) and why he has no ballot link.

Any thoughts?

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all!" So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Location of Violation: I guess it would be the absentee drop box at the government center on Lower Roswell Rd

Description of Violation: I voted absentee and dropped my ballot in the ballot box. It took a very long time for the website to verify that my ballot had been collected. Yesterday, 12/17/00, I got a letter saying "Official Voter Audit for Anne Lummus". It shows that I DID NOT vote in the 2020 General Election. I am very concerned that this letter is legitimate, and that my vote did not count. I sure would appreciate if you could find out if my vote counted. Thank you in advance.

Subject: Potential County Poll Workers
Attachment(s): "12.14.2020 STV Poll Worker Sign Ups.xlsx"

Good Morning Election Officials,

Attached you will find the weekly list of voters who are interested in becoming poll workers in your county. (Secure the Vote) The list is not broken down by county. You will have to filter the report by county to find the interested poll workers for their county. The decision to hire any of the voters on the list is up to your office. If you have any questions, please let me know. Have a great day!

Secure the Vote Poll Worker Signup Page: <https://securevotega.com/pollworker-signup/>

Leigh Combs
Liaison, Elections Division
Georgia Secretary of State

Subject: RE: Web E-Mail [Stop Voter Fraud] From Lucy Levy

Ms. Levy,

Your ballot was sent by the State's ballot mailing vendor, because you elected to receive absentee ballots all year when you applied back in March. That is the one with the yellow stripe. Your husband's ballot was mailed by my office after he applied on 12/1/2020. We have accepted his ballot for counting. We have not yet received your ballot, but if you dropped it off, we should have it shortly.

Subject: Web E-Mail [Stop Voter Fraud] From Lucy Levy

Name: Lucy Levy
Phone: (404) 644-3380
Address: 1714 Thorrs Rokk
City: Marietta
State: GA
Zip Code: 30068
County: Clayton
E-mail: lalevy661@gmail.com

Location of Violation: Mail in Ballots

Description of Violation: Help! My husband and I received mail-in ballots in envelopes and ballots that are different.

Should my outer return envelope be the same as his?

Mine has the yellow stripe on the left side. My husband's envelop is entirely yellow and smaller.

Should both of our ballots be the same size?

My ballot is larger and has the yellow tear off tab on the ballot. My husband's has no tab and is smaller.

Should the instruction sheets be printed on two different qualities of paper?

My husband's in on a slick quality paper.

We are ready to drop them off in a local drop box. We live in East Cobb County.

Thank you in advance for your help.

PS I don't want one of our ballots thrown out!!

Subject: Cobb Board attorney

Attachment(s): "Gregg Litchfield.vcf","Daniel White.vcf"

Jordan,

These are the attorneys for the Board of Elections. The code section that puts the absentee envelopes under seal of the Clerk of Superior Court is 21-2-390. If Ryan would like to contact them about why they are not under seal, I would appreciate it. I don't mean to be uncooperative, but I still find it odd that if the complaint you mentioned was from the primary, why the investigation/audit would be with ballots from the General Election.

Attachment(s): "Krohn, Absentee Ballot Requests.pdf"

I'm thinking this is what caused so many of those E&Ds not to include the 2021 election. See attached.

Subject: Krohn, Portal Absentee Ballot Requests Not recorded in Portal System

Jennie, thank you for your time today. Attached is a PDF record of portal requests and portal confirmation e-mails that did not generate requests visible on the State or Whitlock Office employee computer terminals.

We also talked about Kay Morgan, another senior who has not received an absentee ballot based on her request. Her Husband Howard Morgan did receive his ballot.

Georgia State Absentee Ballot Requests Are Being Blocked

SUMMARY:

What is described below can only happen through a serious programming error or by intentional design. I'm a retired aerospace Program Manager and Systems Engineer, age 69. I made two online requests (Nov 18 and Dec 4) for absentee ballots. I received from the system the downloaded PDF receipts, and the e-mailed "request received, ballot to be sent" messages for both requests, which would lead anyone to believe that a ballot will be delivered before the run-off. Not having received a ballot as my wife did (Age 58), I went to the Cobb County Elections office, Whitlock AVE Marietta, on Dec 7. A clerk showed me my computer record of voter activity. They claimed I had made no such requests for ballots, even when I showed them the system generated receipts!!! I called the GA SOS elections office Dec 8 and explained. The clerk, Julian, looked up my account and insisted that I had never made those requests as there was no record of them on his screen! I have all receipts. There is either a serious flaw in the State Computer Based Program or there is an INTENTIONAL ALGORITHM blocking or eliminating the selected requests. Because the State server responded to me with receipts, the State server and program should have that record internal in the application yet never processed a request for the ballots at the system level and never triggered the mailing of the absentee ballot. How many other seniors or people judged not likely to elevate the issue ARE WAITING FOR BALLOTS THEY WILL NEVER RECEIVE BEFORE THE RUN OFF?? HOW SMALL ARE THE MARGINS IN VOTES BETWEEN THE CANDIDATES.

Absentee Ballot Request

General election ballot request. Ballot received. Note Requesting of rest of the election year cycle was selected as YES by me, yet appeared as "No". See Dec 8 request and records.

Submission Time: September 4, 2020 9:44 PM
For Election: November 3, 2020

Question / Comment: Hello. My husband (Chris Richards) and I requested our absentee ballots for the January 2021 runoff election. The request was received Dec. 5 and the ballots issued Dec. 8; however, they have not arrived in the mail. We are concerned that there is an issue with the ballots. Is there a way to verify if the ballots have been mailed and will arrive shortly? Thank you for your help.

Sincerely,

Stephanie

Location of Violation: Request for an absentee ballot

Description of Violation: I requested an absentee mail ballot for the senate runoff in January. I received notifications that it was mailed to me but I never received it.

My husband received his ballot even though he requested it two weeks after I did.

I checked the status of my ballot today and it said canceled.

I called to find out why and they said they mailed my ballot to a home in Augusta and it came back undeliverable. I don't, and never have, live in Augusta, GA. I have lived in my residence since 2007 and my current address is the one I have on file with the voter site.

I contacted Cobb County and was told that I will receive a call from a supervisor once one is available to speak to me. I have not received a call yet.

I don't understand how my absentee ballot went to a home in Augusta.

Subject: Elections Supplies

Good morning,

The deadline to order supplies is 12:00 p.m., Thursday December 31st . This is to ensure that counties can receive supplies in time for the January 5, 2021 General Election Runoff.

Counties can order directly from the store or use the order form that is available at the Download link on Firefly. The completed order form can be emailed to electionstore@sos.ga.gov. You can also fax your order but please be mindful that if you do, the faxes are sometimes corrupted and I won't know who sent the fax.

Happy New Year!

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Awesome. Lynn, I am inspired to come up with a process that allows voters to sign up for a 15minute viewing time; ensuring that we are not overflowing with folks and not able to social distance. Also, allowing any person(s) who did not sign up for viewing/observing and place them in the rotation upon arrival.

Just need to find a place for it now. I am hopeful.

Thank you,

Thank you, Chris for your encouraging words. These are trying times, indeed. I whole heartedly echo Janine's comments.

After some reconfiguration of our set up, we have come up with a way to make this happen using a community room – the wonderful, beautiful Linda Beazley Community Room, in fact. Very appropriate, don't you think?

Observers will be permitted into the room to see the process. We will be using the same prohibitions for observers that are in place for early processing and protect voter's information by making sure that there is no direct view of the computer monitor and protecting our people by social distance properly as best we can. We hope to be set up to receive observers by tomorrow, but still have work to do to make that happen. We also expect to be saying "make a hole" often as staff moves in and out of the room. J

It is all going to be fine. This is what we do, you know? We rise up in difficult times and make stuff happen.

Hang in there!!

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform

guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, “If it’s difficult or inconvenient to perform a duty in public, you won’t have to make changes to the way you’ve done it for years.”
Instead, at 24 words, it’s probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.
In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential

AMERICAN
OVERSIGHT

GA-COBB-20-2949-A-000417

information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

Subject: RE: OEB 12-09-2020

Just because the process has to be done in public does not mean that the observers have to see the details. They are seeing that the process is being done properly and publicly, and not critiquing or judging the accuracy of the comparison.

For example, if a person was sitting at a table "rubber stamping" the absentee ballots as approved without ever comparing a signature, an observer could see this and report it and object to the practice.

The fact that a person is at a table in public view and is obviously looking at a ballot envelop and then comparing it to a screen and/or another piece of paper can be observed by the public without the observer seeing either the signature on the envelope or the "known" signature to which they are comparing it. Now if the person doing this is so far away from the public that they can't see the worker even handling the envelop, that could be problematic.

Feel free to call with specific situations or concerns.

Agreed. We have our area set up for them to be 12 feet away. No cameras, no binoculars, etc. will be allowed.

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with

GA-COBB-20-2949-A-000428

official duties.”

Subject: RE: Vote.org Food Trucks

Thank you for writing. This is allowed as long as they are not campaigning and they are offering the items to everyone. The items cannot be something of significant value such that it would be considered a gift for voting. We have asked that the trucks park at least 150 feet from the building and not take up voter parking if it is in short supply, so we will make sure they are complying at the East Cobb Government center.

Subject: Vote.org - second email

Earlier today I sent an email addressing why a Vote.org truck was allowed next to an East Cobb Government office supposedly offering free tacos.

I asked 3-4 poll workers about this and finally told by the assistant poll manager there that they were from Washington DC or funded by DC. I spoke to a young friendly man asking when I walked by his truck if I wanted a free taco. He said to his knowledge they were local. I asked where funds came from to offer these tacos. I said possibly DC or California and he doubted that. I mentioned that in my first email. With the entire United States eyes on our election, this looks poorly. A gal in line with me who I did not know was taking pictures of the truck as did I but kept taking pictures and then getting out of line embraced the group. They stand for something.

My concern is why would they show up in East Cobb?

I also sent a copy of my first email to Raffensburgs office. I may also ask people in the community with my picture to find out their opinion why that truck was there a few feet from polling place parked in a spot where employees usually park perhaps on Facebook, next door, and other local officials. Did the poll manager allow them? Over decades of voting in my life this has never happened before.

My point is vote.org is a 501 3c group stated as impartial in politics helping register people to vote all across the United States, trying to bring more technology to voting and voting by mail.

This groups headquarters I believe is in Washington DC. As any one voting as I did today have already registered to vote, why did the East Cobb Govt office allow them to park right next to the building? The idea of offering free food to poll workers as a kind thing is great but when in the past I worked the polls I was instructed to bring my own food for the entire day, which a responsible adult does. We applaud all election volunteer workers.

However, since permission was given to this group. does that mean in the future if any 501 3c group wants to be kind the same, the government office would allow another charity or a church group do the same?

My point is also that vote.org has board members corporate that DO have political persuasion as you can see when reading their bios, that speak of police abuse, white systemic racism and on and on.

Please address this or consider not allowing them to stay on government property (unless you would also allow a church group to do the same kindness) or to any 501 3c group. Why could they not have gone across the street.

With all the issues in this past election, many of us feel that this only adds to the lack of confidence that has arisen over the United States due to pushing mail in ballots and suspicion of fraud or just simple errors from changes in voting and lack of confidence (true or false) in the election process.

I commend Cobbs employees as they have helped me when trying to remove my deceased mother's name from the rolls and the employee great.

Please address this. Vote.org I believe is trying to influence how we do things in Georgia from others perspective. I may be incorrect, and would easily agree with that, but my sense from studying background of vote.orgs board, I sense my intuition shows there is political bias.

Georgia and Cobb County are wonderful places to live.

Sincerely

Dana schlup

Subject: Potential County Poll Workers
Attachment(s): "12.21.2020 STV Poll Worker Sign Up.xlsx"

Good Morning Election Officials,

Attached you will find the weekly list of voters who are interested in becoming poll workers in your county. (Secure the Vote) The list is not broken down by county. You will have to filter the report by county to find the interested poll workers for their county. The decision to hire any of the voters on the list is up to your office. If you have any questions, please let me know. Have a great day!

Secure the Vote Poll Worker Signup Page: <https://securevotega.com/pollworker-signup/>

Thank you,

Subject: directions to Prep center cobb county

Attachment(s): "DIR FOR MGRS.doc"

Thank you Rachell for sending out 40 boxes of 21 pads of instructions for ABM. (840 pads of instructions) I have attached the directions to the Prep Center.

Prep Team I know you are swamped, can you remove the glue strips? Let us know they are done and we will have a team from JRMP pick them up

Allison Schaeffer

Absentee Supervisor

Cobb County Board of Elections & Registration

(: (770) 528-1198

*: Allison.Schaeffer@cobbcounty.org

:: www.cobbelections.org

Directions for Picking Up Supplies

Please be prepared to **show Photo ID** when picking up your equipment on Sunday, _____. Only Poll Managers may pick up equipment for the poll.

For this election only, you will not be required to go to Big Shanty Park for staging before coming to the Prep Center for supplies or on Election Night.

Equipment will be picked up at the Elections Preparation Center at 2405 Cobb Parkway North in Kennesaw from _____. The phone number for the Prep Center is (770) 528 - 4345.

Directions:

From Marietta area or South, travel North on Cobb Parkway (Highway 41) past Barrett Parkway. At the traffic light at Kennesaw Due West Road, make a U turn and travel down the southbound side of Highway 41 where you will enter the Prep Center parking lot and proceed to pick up your supplies.

OR

Traveling South on Cobb Parkway (Highway 41), go through the light at Kennesaw Due West Road, stay in the right lane and enter the Prep Center parking lot and proceed to pick up your supplies.

Deidre,
I am shocked and disappointed that you gave Association support on legislation. If you discussed with the Executive Board, I was not included as Past President. The Association has always stated it would not support or oppose legislation. One individual does not have the authority to change that. I do not support this and believe you would find many if not most members wouldn't either.

I respectfully ask that you withdraw your statement that the Association supports this.

I look forward to your response

All:
I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

Thanks! Merry Christmas!

Copied and pasted this quote from the Washington Times article....

"which will be conducted in a partnership with the University of Georgia, will analyze a random sample of mail-in ballots. It will review the Election Day signature-matching process used across the state and check the signatures on random samples of ballots from each county."

What is the Election Day signature-matching process that is referenced in the quote?

Nancy

I was relieved to have escaped the New Georgia Project lawsuit. I saw that four counties got sued but I'm unsure who they are. I feel badly for them.

Subject: RE: Signature Verification

The signature audit has been illuminating. My absentee coordinator is training the GBI agents at 9am today, because they have not done this before and don't know what to look for. It has taken all week to set them up at a county facility, on the county network, and give them access to the signature depository.

Does anyone know anything about the audit that is going to happen in all 159 counties? Now for my HUGE GRIPE.....I think it is the worst, really inexcusable, to have to get our information from the media and press releases. Someone in the SOS office should be able to send out an email before we read it in the paper.....

Good Evening Janine

Would you have time to meet with myself and a GBI supervisor, Rich Bahan, tomorrow to discuss the logistics of what the audit would entail and how we can best work together to get the audit completed. If so, would 1 o'clock work for you?

Question / Comment: I SUBMITTED A REQUEST FOR AN ABSENEE
BALLOT FOR THE RUNOFF ON JAN 5.

I TRIED TO REGISTER FOR TEXT UPDATES FOR BALLOT CHANGES BUT A MESSAGE POPPED UP STATING MY NAME WAS NOT ON FILE.

I HAVE VOTED WITH THIS NAME FOR 35 YEARS. I VOTED BY ABSENTEE BALLOT IN NOVEMBER. PLEASE HELP ME RESOLVE THIS ISSUE.

SINCERELY,
DIONNE BEASLEY

Subject: Re: Canadian voter (FYI)

Hey Janine,

Regarding this voter again. Over the phone when we discussed this, I was under the impression that the voter needed to be registered as having the local court house as her address, however you advised that her previous address was okay to use, unless I misheard you. For the purposes of my report I have been unable to find the previous address part in the election law. Some of these code sections can be easy to miss and It would be helpful if you are able to direct me to the proper section.

What I've been able to find so far is 21-2-219 C: Permanent overseas citizens shall only be authorized to vote for presidential electors and United States senator or representative in Congress. Permanent overseas citizens shall be deemed to be residents of the precinct in which the county courthouse is located.

Also, since she was listed as a Temp overseas voter, did she get the full ballot that others who live in her area would have received, or did she just get federal candidates?

Thanks again,

Trent Anding

Hey Janine,

We talked about this one before briefly, Just wanted to give you an update since she is still registered as a voter in your county. After an interview she advised me that she is a permanent resident of Canada but is still a U.S. Citizen. She advised me that she has received a ballot in the mail for the upcoming election.

Subject: follow up to Mr. Ellet's ballot

It appears that a fellow resident of a retirement home signed his own name (Leon Isaacs) to the ballot, so it may not be a nefarious situation but a misdelivered ballot. We will follow up with Mr. Isaacs, who did request an Absentee Ballot (rollover) and has not had a ballot accepted. We will send him an Affidavit to reissue. I am still uncertain about what to do with Mr. Ellet's original ballot, however.

Thanks!

Good morning Lisa,

I have a voter who is overseas. He sent his returned EBD via DHL (see below message and photo). DHL opened everything, including the inside ballot envelope. I would like to have some way to verify from the voter that the ballot has not been altered. I believe we can check the signature through the tape, but it will be destroyed once we open it. Lisa, how do you recommend that we proceed?

Thanks,

Jennie

Subject: Ballot with signature covered from shipping company

Jennie,

My wife, Kristine Sauer, spoke to you earlier today about a ballot that I received from my father, Werner Sauer, while they are on holiday overseas.

Unfortunately, the shipping company, DHL, opened the sealed ballot, and re-taped it, covering up the signature. (See attachment).

I would like to know what we can do to make sure that my father's vote gets counted, if there is anything we can still possibly do to remedy this mishap. We realize time is not on our side in terms of mailing, but we will be able to communicate with my father as needed.

Thank you,
Waldemar Sauer

Subject: Jan 5th ENR L&A Uploads

Good morning,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Subject: Re: OEB 12-09-2020

We have had issues with monitors and observers using their phones, bringing telescopic lenses and binoculars. Those need to be addressed.

We want to have all observers check in their electronics with an officer and sign an agreement to the rules set by the superintendent.

We have been so patient with people that repeatedly violate our rules, but we started getting strict and electing people during the recount. I'm unsure if the SEB knows how aggressive and rude some of the monitors are.

It needs to be made clear that only parties within a candidate in the ballot can appoint to keep us from arguing over and over with Constitution Party members.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...Teamwork makes the Dreamwork😊.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."
Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris Harvey
Elections Director
Georgia Secretary of State

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is

done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director
Georgia Secretary of State

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are not required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has no signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: Re: Assistant Managers (Take 2)

Janine,

The fact that the current version of your Advance Voting Appointment List is deficient is NOT a valid excuse for you to continue violating OCGA. You have been made aware of the fact that your current Advance Voting Appointment List does not meet code. If you were a building, you would be condemned — so I am going to do the same. As a resident of Cobb County, I am condemning you and your willful failure to meet the required duties of your office as the Elections Director of Cobb County. You are currently in DIRECT AND KNOWING VIOLATION of OCGA 21-2-90 -- specifically for not providing me the Advance Voting Appointment List with both Poll Managers AND ASSISTANT MANAGERS!!!

You do NOT get to pick which Georgia Laws you follow!!! You do NOT get to continue cherry-picking in the Peach State!!!

You have until tomorrow to add the required positions and information to your Appointment List. This simple and brief act of data entry is far from a Herculean Labour. I assume that you and your staff know all of the people who have been appointed as Advance Voting Poll Managers and Assistant Managers for the January 5th 2021 Runoff. The Advance Voting Poll Manager Appointment List you sent me consisted of 9 people (soon to be expanded to 11 people). Each Poll Manager is assigned 2 Assistant Managers. So we're talking about adding 18 (and eventually 22) names to your Appointment List. This is clearly NOT A HARDSHIP!!! Furthermore, you should already possess all of their names and required information.

There are 2 obvious questions I'd like you to answer:

- 1) Why are you deliberately choosing to violate OCGA 21-2-90?!
- 2) What are you hiding?!

Elections are meant to be TRANSPARENT. Why are you being so opaque, Janine?

I look forward to receiving your updated Early Voting Appointment List promptly.

Sincerely,
George Balbona

P.S.— David, Chris and Frances, please consider this email thread an official complaint to the State Election Board. I am requesting that you please expedite your investigation given the pressing fact that Advance Voting for the January 5th 2021 Runoff begins this Monday, December 14th 2020.

P.P.S.— Hello Cobb County Board of Commissioners! Unfortunately, this is NOT an isolated incident of the manner in which Janine Eveler treats concerned Cobb County residents. I would very much enjoy meeting with you at your earliest convenience via Zoom to discuss Janine's notably less than transparent behavior this year. Please feel free to share this invite with Commissioners-Elect Jerica and Monique.

P.P.P.S.— The clock is ticking, Janine. Why not try exceeding expectations and do the right thing?

On Dec 11, 2020, at 7:03 PM, Jorge BALBONA <balbonag@mac.com> wrote:

Janine,
You are cherry-picking in the Peach State again. Please read the following heading :
OCGA 21-2-90 Appointment of chief manager and assistant managers.

The relevant wording here is "All elections and primaries shall be conducted in each polling place by a board consisting of a chief manager, who shall be chairperson of such board, **AND TWO ASSISTANT MANAGERS** assisted by clerks." And of course, "**The superintendent SHALL MAKE EACH APPOINTMENT BY ENTERING AN ORDER WHICH SHALL REMAIN OF RECORD.**"

The superintendent SHALL make EACH APPOINTMENT on the record. The board consists of the Poll Manager, two Assistant Clerks AND clerks. You should be happy I'm not asking for the clerks.

Now hop to it!!!

Sincerely,
George Balbona

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Craig has been training some of his poll workers to work with him when he opens Art Place on the 28th. He has scheduled them to come in while he is managing at East to instruct them in ENet and then let them sit with an experienced worker to see the process first hand. Yesterday and today, he has not been able to access ENet Training. I have also tried and get the same error message "An unexpected error has occurred". Is there any way we could get the training system back to train a few more workers?

Thanks,

Bonnie Barron

Subject: EBD voter

Hello,

I am trying to help a voter, Mr. Samuel Galbraith, 03080922. He shows as having been issued a January OST ballot via email. His email address is correct. But when he goes to MVP page, he is not given the option for a UOCAVA ballot. I was able to send him a ballot, but I am trying to figure out why he did not receive his email (I checked on that, as well) and why he has no ballot link.

Any thoughts?

Jennie Mayes

Craig Rogers was the poll manager last Wednesday. His number is 678-521-7907.

Also, there is some video of the hallway outside the room, but it may not be available until the IT Director returns tomorrow. If you need it before then, I can give you her cell number as well.

Subject: Esri Survey Email
Attachment(s): "COUNTY ENGAGEMENT SURVEY - JAN 5TH RUNOFF.pdf"

Election Officials:

As you probably remember, the Esri tool was used in the November election to measure wait times across the state. The tool is available for you to use again for the January 5th election. Please complete the attached survey and email the completed survey back to your liaison by 5:00PM today.

If you opt-in to using the tool, we have video training available so your poll workers can learn how to use the Esri app to report wait times. The app is very simple and user friendly.

Again, please return the survey by close of business today.

What they are doing seems be campaigning and should not be allowed to within 150 feet of a polling place. They say "these food trucks will be our last chance to reach Georgians before they vote." They also seem to be giving some of value for voting—otherwise it wouldn't matter if they were reaching people before they vote and it's not allowed to matter if the people are voting or not.

Subject: Cobb County Food Truck at Advanced Voting at Cobb Election Board on Whitlock - Sen Kay Kirkpatrick - Pam Reardon

Frances,

Per our earlier discussion, can someone on our team please contact Pam Reardon at 404-272-1767? She says she has video of a food truck with folks less than 25' from the voters at the Cobb Election Board on Whitlock? Sen Kirkpatrick is asking if this is legal and wants us to answer. Allegedly, the Cobb sheriff came by and said they shouldn't be on county property, but was allegedly dissuaded by election staff.

I included the email about this below:

From: Bridget Geraghty <info@vote.org>
Date: December 10, 2020 at 7:27:45 PM EST
To: kaykirkpatrickmd@gmail.com
Subject: Food trucks
Reply-To: info@vote.org

Kay,

During the general election, we sent Vote.org-branded food trucks to polling places with long lines to provide free food, water, and crucial nonpartisan information about voting rights.

Now we're gearing up to do it again for the January 5, 2021, runoff elections in Georgia.

These food trucks will be our last chance to reach Georgians before they vote.

[If we raise \\$153,000, we'll be able to send five food trucks stocked with free meals to early voting sites in Georgia. Chip in today — every dollar will help feed communities and increase voter turnout.](#)

DONATE NOW

If we can fully fund this program, food trucks will be parked in strategic locations across the state and voter ambassadors will refer Georgians who need support to 866-OUR-VOTE, the nonpartisan Election Protection hotline.

Each food truck will hand out between 500 and 750 free meals. **During a pandemic that has caused increased food insecurity for many communities, this program serves multiple community needs.**

Thanks to supporters like you, **we're already running a multilayered campaign to reach and turn out every eligible Georgia voter** for these consequential runoff elections. The results have the potential to determine control of the U.S. Senate.

Historically, runoff races have significantly lower turnout than general elections, especially in Georgia. This year, voters are expected to face additional barriers due to COVID-19 and misinformation about the election process. **We're doing everything we can to make sure every eligible Georgia voter has the accurate, timely information they need to make their voice heard.**

We can't do it alone. We need *your* support to help us reach even more communities in the days ahead. Our full Georgia food truck program will cost \$153,000 to supply and staff.

[Chip in now to ensure we're able to reach Georgia voters with crucial election messaging through our food trucks. The more money we raise, the more free meals and voter information we'll be able to distribute.](#)

DONATE NOW

Your support helps us continue to reduce barriers so that *nothing* stands in the way of voters and the ballot box.

Thank you,
Bridget Geraghty, Director of Donor Relations

I will check to see what we can do. If it will require software be loaded on their devices that may be an issue, but not impossible. We might be able to setup a virtual pc here and allow them to remote to it. I am checking with Juanita to see what we can accommodate. Do you know how many people would need access?

Thanks

Kimberly

You may have heard that the state is doing a signature audit on the absentee ballot envelopes. We do that match using scanned images in OnBase. Can we give them access to our portion of OnBase so that they can do their audit offsite? We would rather not share space with more people. I don't know what would be involved with giving access.

Hey y'all,

I posted about a job opening we have but The Buzz isn't emailing for some reason. If y'all know anyone who might be interested, please share.

Hope y'all are doing well. Merry Christmas and Happy Holidays.

- Kristi Royston

Elections Coordinator position posted until 12.27.2020. Oversees voter registration, absentee by mail, advance in person tasks. Responsible for supervising staff to ensure policies and procedures are followed. Includes tracking productivity, assigning workflow priorities, and determining needed goals and deadlines. Reports to Assistant Elections Supervisor (Registration). For more information and to apply, go to www.gwinnettcountryjobs.com and search for Elections Coordinator.

Merry Christmas and Happy Holidays,
Kristi, kristi.royston@gwinnettcountry.com

Subject: FW: The Buzz Post - Voter Challenges under OCGA 21-2-230

A [new discussion](#) has
been posted in The Buzz by Harvey, Chris on 12/18/2020 2:34 PM

Many counties are getting voter challenges filed under O.C.G.A. 21-2-230.
OCGA 21-2-230(b) requires that the BOE, "shall immediately consider such challenge(s) and consider whether probable cause exists to sustain such challenge(s)."
The steps are listing in the code section, and I strongly encourage you to review this code section with your board and attorney should you get such a challenge.

Deidre,

I am shocked and disappointed that you gave Association support on legislation. If you discussed with the Executive Board, I was not included as Past President. The Association has always stated it would not support or oppose legislation. One individual does not have the authority to change that. I do not support this and believe you would find many if not most members wouldn't either.

I respectfully ask that you withdraw your statement that the Association supports this.

I look forward to your response

All:

I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

Thanks! Merry Christmas!

Copied and pasted this quote from the Washington Times article....

"which will be conducted in a partnership with the University of Georgia, will analyze a random sample of mail-in ballots. It will review the Election Day signature-matching process used across the state and check the signatures on random samples of ballots from each county."

What is the Election Day signature-matching process that is referenced in the quote?

Nancy

The signature audit has been illuminating. My absentee coordinator is training the GBI agents at 9am today, because they have not done this before and don't know what to look for. It has taken all week to set them up at a county facility, on the county network, and give them access to the signature depository.

Ms. Eveler,
Frances said I needed to
specify my request to absentee ballots received by mail if I was looking for the total number of envelopes.
Thanks, Frances!

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Ms. Eveler,

We would like to schedule a time tomorrow morning for the following:

- Select and pickup boxes of AB envelopes
- Assist with transporting computers if needed
- Doing a brief walk-thru of your AB process
- Anything else we can do to help

As we discussed, we want to minimize this distraction as much as possible.

Please let us know what time is best.

Call with any questions/concerns. Thank you.

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be

GA-COBB-20-2949-A-000505

other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

Location of Violation: Absentee Ballot

Description of Violation: Iâ€™m now officially fed up. Iâ€™m currently living in Ireland and I have not yet received my absentee ballot for the Georgia Senate election. I requested on November 9th. I received notice it was mailed December 2nd and here it is December 24th and no ballot has arrived. This is wrong! This is voter suppression! This is fraud! My ballot for the presidential election conveniently arrived the day after the election which prevented me from casting my vote. The postmark on that ballot showed it was mailed out way later than the notice I received from Fulton County said it was mailed. Iâ€™ve recently posted holiday cards to the states on December 14th which have already arrived. I have also received holiday cards from the states. Typically it takes 5-7 business days for me to receive mail from the states to Ireland. It should not be taking this long! Iâ€™m prepared to take this to the press. I need some answers.

Subject: Jan 5th ENR L&A Uploads

Good morning,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia

GA-COBB-20-2949-A-000513

Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Leigh Combs

Subject: Voter Suppression

Dear Senator Kirkpatrick,

Two or three weeks ago my wife and I filled out, signed and mailed our absentee ballot applications. We have been registered to vote in Cobb County for at least 20 years (we registered at Fuller Park, east Cobb). About one week after we mailed the applications I received an email saying "your absentee ballots are on their way!" After a week or so, and knowing the presidential election was stolen from President Trump, I sent the below snot grams to the Cobb County Board of Elections (CCBOE). Today, I received the below email from them (BOE). As you probably know, the CCBOE is filled with Democrats...and it has been my experience Democrats have no principles, honor or values. They also are well known for being incompetent. They know I am an old white man and a Republican. That is two strikes against me.

I am retired veteran (senior master sergeant – 24 years under the hammer – 1960 - 1984) who helped bring down the Evil Empire (Vietnam veteran). Little did I know that 30 years later, the communists/socialists (Democrats) would, after four years of an attempted coup, take over the federal government through election fraud on a massive scale.

Would you please light a fire under the BOE's ass? They are disgusting deplorables.

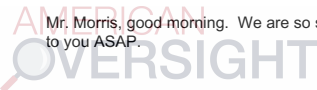

Thank you Senator,

Stephen G. Morris

Subject: RE: OEB 12-09-2020

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Elections Director

Georgia Secretary of State

Subject: RE: OEB 12-09-2020

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states "Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att'y Gen." Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: Re: Assistant Managers List

Janine,

While I appreciate your candor regarding the inadequacy and inaccuracy of the lists you have provided me regarding possible Advance Voting Assistant Managers, the fact remains that you still have not provided me with the information that by law you are required to provide.

I visited all 5 Cobb County Advance Voting Polling Locations and here is a brief synopsis of what I ascertained:

- 1) Main Office: No one, including Allison Shaffer Absentee Voting Supervisor, would tell me who were the Poll Managers or Assistant Managers!!! In fact, nobody could even verify if there were Poll Managers or Assistant Managers!!! I did not see Deborah Ross or Tawana Orders who you claim are the Poll Managers at the Main Office Polling Location. You have completely ignored my email requesting information regarding this incident. This is unacceptable.
- 2) East Cobb Government Service Center: Craig Rogers is a Poll Manager. Brenda Mills is primary Assistant Manager. And both are on your lists (this is an exception not the rule). Brenda Whitney broke her wrist. Reggie Burnett is an Assistant Manager and NOT on any of your lists.
- 3) Riverside EpiCenter: Kathleen Kinsbrunner is the only Poll Manager at this location. The Assistant Managers are Cathy Rutan (on list) and Roger Bennett (NOT on list).
- 4) Ron Anderson Recreation Center: Lisa Picard and Pat Devlib-Yustat are the Poll Managers (and both worked on Saturday). Neither Assistant Manager was on your list: Donna Ray and Carol Baker.
- 5) North Cobb Regional Library: Ken Parmer and Paula Jasina are the Poll Managers (and both worked on Saturday). I only got the first names of the Assistant Managers: Paula and Richard. If his last name is Morrison, Richard is on the list. There are no Paula's on the list.

Furthermore, I learned that there are 4 hours of "defined curriculum" training for Advance Voting Poll Managers. There are a series of PowerPoints for this training. Janine, you stated: "There aren't any classroom-type materials, it is done mostly on-the-job and as the workers gain experience they move up to assistant manager and manager." I have acquired a 4-page 2-Day "Training Topics/ Agenda" for Advance Voting Poll Managers which proves your statement to be blatantly FALSE!!! I submitted an ORR for ALL Cobb County Poll Worker and Poll Manager Training Materials. Clearly, the Advance Voting Training Materials falls under this umbrella; nevertheless, you chose NOT to include Advance Voting Training Materials. I am requesting that you correct this deliberate omission post haste. I can provide you with a PDF of the "Training Topics/Agenda" if you need help recalling what training materials Cobb County utilizes to train their Advance Voting Polling Managers.

I look forward to receiving responsive information ASAP.

Sincerely,
George Balbona

P.S.— Please don't forget to include the 10 Handouts listed in the Advance Voting Poll Manager "Training Topics/ Agenda."

On Dec 19, 2020, at 11:42 AM, Eveler, Janine <Janine.Eveler@cobbcounty.org> wrote:

The list was in a file folder marked as 2020. It had apparently not been updated. I have asked the absentee supervisor to provide the Main Office manager and assistant manager names that have signed the Oath of Manager so far for that location. Those listed will serve interchangeably at that location.

Tawana Orders, Allison Schaeffer, Deborah Ross and Undra Cummings as Manager
Sally Thomas, Saundra Jackson, Lourdes Sasso, Undra Cummings as Assistant Manager

This is a very fluid operation as it occurs over a three week period and others may also be appointed in these positions as we go. At the end of the Early Voting Period we can provide you with the final Oath of Managers for each location.

Subject: Assistant Managers List

Janine,
I seriously doubt the veracity of the list you recently sent me. [Please see below.]
I have been told by an extremely knowledgeable person, that the list that you provided me is an "Old List"!!! Out of the 13 people on the Assistant Manager List, which you claimed Advance Voting Assistant Managers would be selected from, 7 are no longer active and one is on Medical Leave.

Could you please explain why you sent me this overwhelmingly bogus and outdated list?!

Sincerely,
George Balbona

Subject: Untenable (Part 2)

Janine,
When I requested from you the list of Area Supervisors and which Polling Locations they were responsible for during the Primary Election this year, I received the list in less than 2 hours. This list included 144 Polling Locations!!! [Please see attached.]
I am now requesting the current Appointment List of Advance Voting Poll Managers and Assistant Managers for 5 Polling Locations. There are 9 Cobb Advance Voting Poll Managers. Each of them should have 2 Assistant Managers. So this means the list I am requesting should contain 27 people. There are currently 28 Area Supervisors in Cobb County. By every metric, the list I am requesting is simpler and smaller than a list which took you less than 2 hours to email to me. What has changed?

Sincerely,
George Balbona

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the

voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

The backfile is made up of older or archived Registration forms.

We can use Absentee Ballot by Mail applications in conjunction with another source, but we do not like them to use it as their only source. For example, it may be a good way to doublecheck the voter's printing, especially if the signature is similar to your primary source.

Subject: Clarification

Janine,
Two quick points of clarification:

1) I am still requesting the Advance Voting Poll Manager and Assistant Manager Appointment List (with required information) for the January 5th 2021 Runoff as soon as possible. You may break it up into two documents: the 5 Polling Location Appointment List and then the Expanded Polling Location List.

2) It is NOT harassment to request information from your county Elections Director. It is YOUR JOB and THE LAW.

Sincerely,
George Balbona

Subject: Untenable (Part 2)

Janine,
When I requested from you the list of Area Supervisors and which Polling Locations they were responsible for during the Primary Election this year, I received the list in less than 2 hours. This list included 144 Polling Locations!!! [Please see attached.]
I am now requesting the current Appointment List of Advance Voting Poll Managers and Assistant Managers for 5 Polling Locations. There are 9 Cobb Advance Voting Poll Managers. Each of them should have 2 Assistant Managers. So this means the list I am requesting should contain 27 people. There are currently 28 Area Supervisors in Cobb County. By every metric, the list I am requesting is simpler and smaller than a list which took you less than 2 hours to email to me. What has changed?

Sincerely,
George Balbona

From: Combs, Leigh
Sent: Tuesday, December 22, 2020 9:18 AM
Subject: Jan 5th ENR L&A Uploads

Good morning,

The Election Night Reporting (ENR) website for the 01/05/2021 Federal Runoff is now ready for your county to submit a test upload that contains L&A data. Registered voters do not need to be entered into your EMS for this round of testing, but we would like L&A data if you still have an export that contains test data. This will allow us to test the website functionality. If you do not have L&A data, please notify me.

Please review your county specific ENR page after the upload to ensure that all races are displaying correctly, that all candidates are present, and the votes are assigned to the correct candidates. Once you have completed this review, remember to publish the upload. If you do not publish the upload, we cannot see the work that you have done. Let me know if you experience an error or notice any display settings that need to be adjusted when attempting your upload. For this election, we will be using the Georgia Export. Please complete this upload as soon as possible, but no later than Friday, 12/30/2020.

The ENR login portal can be accessed through the following link:

https://admin.enr.clarityelections.com/GA_Login.aspx

If you are unfamiliar with the ENR upload process, training materials can be found on Firefly by searching for "Scytl Updated ENR User Guide 2020" or by navigating to Training > ENR Resources and selecting the PDF document titled "Scytl Updated ENR User Guide 2020."

Once we have completed the testing, I will send you an email asking you to do another upload to clear the L&A data from the site.

Thanks,

Leigh Combs

Leigh,
I'm curious if we know why the portal does this sometimes and if this has been fixed? We have had voters complain about their ballots being sent to odd addresses that they have no previous connection with.

Subject: Residence Address Issues

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their permanent residence address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their permanent residence address on file. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's permanent residence address on record.

Thank you,

The FPCAs are in the packets with the UOCAVA returned EBDs. The packet is the manila envelope that you have with the ballots inside. Those apps are copies of the original registration documents. Please let me know if you have any questions about what you are seeing.

Good Evening. I was informed by my lead day worker of an incident involving a voter wearing a shirt with a candidates name. Unfortunately, I was told this person had already exited the secure area, before this was observed. I regret to say, I do not have the voters name. I have questioned every poll worker at my location and no one admits to advising a voter to "cover their shirt with a application". This is unacceptable and will be promptly addressed with everyone here.

Please let me know if you have any questions.

FYI

Do the poll workers have any identification for this voter?

Name: John Vaughan
Phone: (678) 925-8865
Address: 4501 Circle 75 pkwy, apt. 1327
City: Atlanta
State: Ga
Zip Code: 30339
County: Cobb
E-mail: Johndixonvaughan@gmail.com

Location of Violation: Ward Recreation Center early voting location

Description of Violation: Voter, age approx. 20, female, allowed to enter the voting premises wearing a Biden/Harris shirt. Poll workers did not make her turn it inside out but instead told her to use her election piece of paper (the one that says Oath of Elector) to cover the markings. It's posted in multiple locations that campaigning is prohibited, including t-shirts, within the voting area. She should be forced to change, as this is a clear violation of the law.

Female, navy shirt Biden, white pants. Came to polling location with much older man in purple shirt and jeans.

Subject: RE: Assistant Managers List
Attachment(s): "Satelitte Manager Best Practices.pdf"

George,

As I have told you previously, the list of Managers and Assistant Managers is fluid and the latest information of Managers and Assistant Managers who have worked so far at the Main Office has been provided. The completed list of all Managers and Assistant Managers will be sent out at the end of Advance Voting. Some managers are acting as Assistant Managers and positions change as the need arises, so that all three required positions are filled at all times.

Regarding training, no power point was used for AV Manager training. Whoever told you that probably assumed you were asking about the 4-hour poll worker training class for election day poll managers. As previously stated, AV Manager and Assistant training is mostly on the job, where the Assistant Manager learns the Manager role. Different tasks have instruction sheets, such as how to open or close the BMD daily, but no "defined curriculum" exists. Best Practices are discussed with Managers and Assistants prior to each election. The attached Best Practices Guide is provided to Managers in case questions arise. A request for poll manager training materials is NOT the same as a request for Advance Voting Manager training materials.

In case I don't hear from you again this week, Merry Christmas.

Subject: Re: Assistant Managers List

Janine,
While I appreciate your candor regarding the inadequacy and inaccuracy of the lists you have provided me regarding possible Advance Voting Assistant Managers, the fact remains that you still have not provided me with the information that by law you are required to provide.

I visited all 5 Cobb County Advance Voting Polling Locations and here is a brief synopsis of what I ascertained:

1) Main Office: No one, including Allison Shaffer Absentee Voting Supervisor, would tell me who were the Poll Managers or Assistant Managers!!! In fact, nobody could even verify if there were Poll Managers or Assistant Managers!!! I did not see Deborah Ross or Tawana Orders who you claim are the Poll Managers at the Main Office Polling Location. You have completely ignored my email requesting information regarding this incident. This is unacceptable.

2) East Cobb Government Service Center: Craig Rogers is a Poll Manager. Brenda Mills is primary Assistant Manager. And both are on your lists (this is an exception not the rule). Brenda Whitney broke her wrist. Reggie Burnett is an Assistant Manager and NOT on any of your lists.

3) Riverside EpiCenter: Kathleen Kinsbrunner is the only Poll Manager at this location. The Assistant Managers are Cathy Rutan (on list) and Roger Bennett (NOT on list).

4) Ron Anderson Recreation Center: Lisa Picard and Pat Devlib-Yustat are the Poll Managers (and both worked on Saturday). Neither Assistant Manager was on your list: Donna Ray and Carol Baker.

5) North Cobb Regional Library: Ken Parmer and Paula Jasina are the Poll Managers (and both worked on Saturday). I only got the first names of the Assistant Managers: Paula and Richard. If his last name is Morrison, Richard is on the list. There are no Paula's on the list.

GA-COBB-20-2949-A-000560

Furthermore, I learned that there are 4 hours of "defined curriculum" training for Advance Voting Poll Managers. There are a series of PowerPoints for this training. Janine, you stated: "There aren't any classroom-type materials, it is done mostly on-the-job and as the workers gain experience they move up to assistant manager and manager." I have acquired a 4-page 2-Day "Training Topics/ Agenda" for Advance Voting Poll Managers which proves your statement to be blatantly FALSE!!!

I submitted an ORR for ALL Cobb County Poll Worker and Poll Manager Training Materials. Clearly, the Advance Voting Training Materials falls under this umbrella; nevertheless, you chose NOT to include Advance Voting Training Materials. I am requesting that you correct this deliberate omission post haste. I can provide you with a PDF of the "Training Topics/Agenda" if you need help recalling what training materials Cobb County utilizes to train their Advance Voting Polling Managers.

I look forward to receiving responsive information ASAP.

Sincerely,
George Balbona

P.S.— Please don't forget to include the 10 Handouts listed in the Advance Voting Poll Manager "Training Topics/ Agenda."

On Dec 19, 2020, at 11:42 AM, Eveler, Janine <Janine.Eveler@cobbcounty.org> wrote:

The list was in a file folder marked as 2020. It had apparently not been updated. I have asked the absentee supervisor to provide the Main Office manager and assistant manager names that have signed the Oath of Manager so far for that location. Those listed will serve interchangeably at that location.

Tawana Orders, Allison Schaeffer, Deborah Ross and Undra Cummings as Manager
Sally Thomas, Saundra Jackson, Lourdes Sasso, Undra Cummings as Assistant Manager

This is a very fluid operation as it occurs over a three week period and others may also be appointed in these positions as we go. At the end of the Early Voting Period we can provide you with the final Oath of Managers for each location.

Subject: Assistant Managers List

Janine,

I seriously doubt the veracity of the list you recently sent me. [Please see below.]

I have been told by an extremely knowledgeable person, that the list that you provided me is an "Old List"!!! Out of the 13 people on the Assistant Manager List, which you claimed Advance Voting Assistant Managers would be selected from, 7 are no longer active and one is on Medical Leave.

Could you please explain why you sent me this overwhelmingly bogus and outdated list?!

Sincerely,
George Balbona

Subject: Untenable (Part 2)

Janine,
When I requested from you the list of Area Supervisors and which Polling Locations they were responsible for during the Primary Election this year, I received the list in less than 2 hours. This list included 144 Polling

Locations!!! [Please see attached.]

I am now requesting the current Appointment List of Advance Voting Poll Managers and Assistant Managers for 5 Polling Locations. There are 9 Cobb Advance Voting Poll Managers. Each of them should have 2 Assistant Managers. So this means the list I am requesting should contain 27 people. There are currently 28 Area Supervisors in Cobb County. By every metric, the list I am requesting is simpler and smaller than a list which took you less than 2 hours to email to me. What has changed?

Sincerely,
George Balbona

- **APPLICATIONS BY MAIL**---Leaving an application for a mailed ballot.
 - You will have applications for future elections IF they are available and IF they can be accepted at that time.
 - If a voter wishes to leave an application for a future election, they may do so. Make sure all information is complete. If time permits write their registration number on the application for processing.
 - Discuss options for best results in returning applications for the current election. Depending upon the time frame, a voter probably should not leave an application at a Satellite for a current election. However, they may still deliver/mail/fax/email one to the Main Office while satellites are open.

- **ATI KIT**

Make sure the ATI kit is plugged in every day.

- **ASSIGN JOBS** ---Satellite Manager should assign the following daily jobs:
 - Opening / Closing BMDs and completing Daily Balancing sheet.
 - Turning on / off computers, scanner, and Poll Pads.
 - Signs taken out and brought in.
 - Merging and counting completed applications, keeping them in alpha order within precinct order (first by party if a primary).
 - Closing each night & securing supplies (BMDs, computers, apps, etc.)
 - Assign Final Night closing responsibilities to make packing easier.
 - In a big election you will be asked to contact the Main Office periodically each day with your wait times.

- **CAMPAIGN ACTIVITY AT ADVANCE VOTING LOCATIONS**

NO campaigning, distribution or display of campaign literature, solicitation of signatures for petitions, electioneering, or solicitation of votes for any political party or political body or candidate or question on the ballot is allowed within 150 feet from the outer edge of the building in which Absentee Voting is located, within the voting location, or within 25 feet of a voter standing in line to vote.

 - Voters wearing clothing or accessories, or carrying items exhibiting campaign slogans or messages that might solicit votes in this election shall be asked to turn them inside out, remove them, or cover them. Their place in line is maintained while complying.
 - Voters refusing to comply with this request: Give the voter the hand out stating that their registration number will be reported to the Secretary of State's investigative division. When the voter reaches the computer area, record their reg# to turn in to the Main Office. We will relay the information to the SOS office.

See: **Communicating to Voters regarding the No Campaigning laws** document for more information.

- **CANCELLED BALLOT---Without ballot ---** Voter comes in to vote in person but **does not** have with them the ballot that was issued to them by mail.
 - The AB Clerk should verify with the Manager or Assistant Manager that a ballot needs to be cancelled before proceeding to ensure that all steps are followed.
Be sure the mailed ballot has NOT been ACCEPTED in ENet.
 - Voter completes the affidavit stating they have not received the ballot or did not bring it with them. Print a mailing label to place on the affidavit.
 - To cancel ballot: In ElectionNet, locate voter record in **Absentee Search**. Select correct election date and click **Update**. Open **Ballot Return Information** area and check box **Select if Ballot Cancelled**. Use drop-down box to select reason **Other**. Type in **Other** box **AIP-(location)**. Click **Update**, **OK** and **OK**. The record will indicate that the ballot has been cancelled.
 - To now issue as AIP:
 - If voter is not E/D - Click **Add** to proceed. Click **In Person**; notice that you are required to provide a reason for a Multiple Ballot Request (located under Vote Center ID box). As above, reason is **Other**; type in **Other** box **AIP- (location)**. Click Save and proceed as usual.
 - If voter is E/D – Cancel the existing ballot first. Then, on Absentee Voter Information screen, click to open **Elderly or Disabled Information**. Click **Status** drop-down and select the blank space. Click **Update Status**.
 *This will allow you to now issue an **In Person** ballot, following the instructions above. Email Elzora if E/D status is removed. Email Jennie if UOCAVA status is removed. If the voter wants to continue to receive ballots by mail for the rest of the election year, the voter will need to submit a new application.
 - If voter is UOCAVA-Cancel the existing ballot first. On Absentee Voter Info screen, click **UOCAVA Information** to open. Click **Status** drop-down and select blank space. Click **Update Status**. Follow from * above.

CANCELLED BALLOT---With ballot ---Voter comes in to vote in person and **has their ballot with them** that was issued by mail.

- The AB Clerk should verify with the Manager or Assistant Manager that a ballot needs to be cancelled before proceeding to ensure that all steps are followed. **Be sure the mailed ballot is for the current election.**
- AB Clerk will use the **Ballot Cancelled stamp** to stamp next to the label on the envelope. Write in red the **date** and **location**. An AB Clerk and one other person will sign their **1st initial/last name**.
- If the voter brings in the mailed ballot without the privacy envelope or the yellow envelope, print a label prior to cancelling the ballot to attach to an extra privacy envelope from your supplies. Seal the mailed ballot in the labeled envelope and follow the step above to stamp the envelope.
- To cancel ballot: In ElectionNet, locate voter record in **Absentee Search**. Select correct election date and click **Update**. Open **Ballot Return Information** area and check box **Select if Ballot Cancelled**. Use drop-down box to select reason **Other**. Type in **Other** box **AIP-(location)**. Click **Update**, **OK** and **OK**. The record will indicate that the ballot has been cancelled
- To now issue as AIP:
 - If voter is not E/D - Click **Add** to proceed. Click **In Person**; notice that you are required to provide a reason for a Multiple Ballot Request (located under Vote Center ID box). As above, reason is **Other**; type in **Other** box **AIP-(location)**. Click Save and proceed as usual.
 - If voter is E/D – Cancel the existing ballot first. On Absentee Voter Information screen, click to open **Elderly or Disabled Information**. Click **Status** drop-down and select the blank space. Click **Update Status**.
*This will allow you to now issue an **In Person** ballot, following the instructions above. Email Elzora if E/D status is removed. Email Jennie if UOCAVA status is removed. If the voter wants to continue to receive ballots by mail for the rest of the election year, the voter will need to submit a new application.
 - If voter is UOCAVA-Cancel the existing ballot first. On Absentee Voter Info screen, click **UOCAVA Information** to open. Click **Status** drop-down and select blank space. Click **Update Status**. Follow from * above.

• **CELL PHONE**---County cell phones are for official use only. Upon arriving at your satellite for set up, turn on the County cell phone. Verify that the phone is fully charged and working. If the battery is low, attach the cell phone to the charger and plug it into an electrical outlet to charge the battery. The TIME displayed on the cell phone will be the official time for opening and closing the satellite. You may program the phone with important numbers and use text to access ENet verification.

• **COMPLAINTS** ---The Satellite Manager will document any complaints and inform the AB Supervisor and/or Satellite Coordinator about the situation. You may also directly contact Beau Gunn, the Registration Manager, if necessary.

• **DECEASED VOTER**---If a voter comes in and offers information that another voter is now deceased, you may look up that voter to see if action has been taken. If the deceased is still “Active” in our system, give the voter a Registration contact number (7/528-2584 or 7/528-2678) so they may speak with a registrar for further instructions.

• **CANCELLED VOTERS IN SYSTEM**

- Voters may be cancelled for a variety of reasons: Moved OS, Moved OC, NOACT2GE, etc. Cancelled status voters are not eligible to vote in the current election.
- They must register again by completing a WHITE registration form. Please write their registration number in red on the form. They may leave it with you to be delivered to the Main Office or mail it to the address on the form. The voter will then be eligible to vote in the next election unless the next election is a runoff. (Exception: Registration deadlines for runoffs of Federal races are now reset 30 days before the runoff date.)
- If the voter insists there was a mistake in being cancelled, you may let them vote a Provisional Ballot and it will be researched at the Main Office. Any specific details may be written on the app and/or the Provisional Authorization form. DO NOT write any details on the Provisional Ballot envelope.
- DECEASED-Voter may have been Cancelled Deceased in error. Call a registrar; ask them to look at the current record and OnBase to possibly correct the error and give you further instructions.
- FELON (Font is purple in ENet)-The Voter would vote provisional. Make a note on the app and Provisional Authorization form that the voter is in Felon Status.

*** Please be discreet in addressing these situations. ***

- **EMERGENCY INFORMATION**---There is a deputy at each location for most elections. In addition to helping with line control, they are there to handle an emergency or a voter causing a disturbance. If the deputy is not present at the time, have an employee locate the deputy. If there is not a deputy assigned to your location, do not hesitate to dial 911.
- **EQUIPMENT PROBLEMS**---Any equipment problem should be reported to the AB Supervisor and/or Satellite Coordinator at the Main Office. If it is an equipment problem, you may have to close the machine until further notice. If a DYMO printer is the problem, use a back-up unit. The problem unit will then be replaced with another back-up. If there is a computer problem, the Satellite manager may use their own judgment in contacting our IT person themselves. If the State System is down, you will need to use the VoteMaster backup system. Don't assume that all locations are down. The problem could be unique to your location.
- **HOURS OF WORK**---All AB workers, including Day Workers or Temps, must be at the location as assigned by the Satellite Manager or by the person hiring Day Workers. If an AB worker or Day Worker is unable to report as assigned, they should contact the Satellite Manager or AB Supervisor as early as possible. Temps must also call the Temp Agency. ****PLEASE** make sure signatures are on day worker sheets. Day worker sheets must have the worker's Social Security number to be processed.** Keep the time sheets in a secure place to protect the information written on them. Do not record hours in military time. Managers will check time sheets for accuracy and sign in the shaded area at the bottom of the form. Temp times will be entered by the manager on a computer spreadsheet.
- **LARGE PLASTIC BAG** --- At the end of Advance Voting Week, place items for Friday night returns in the designated large plastic bag. A check list is provided for the bag. This large plastic bag will be unloaded with the AB Assistant Supervisor or Satellite Coordinator when you return to the Main office Friday evening.

- **LAST VOTER**

- Each night of Advance Voting- please email the Main Office after your last voter has been entered into ElectionNet and you have your totals. We can then request our daily report.
- Friday Night (or final night) - please contact the Main Office ASAP after your last voter has voted on the BMD, so we may request and print the reports. DO NOT wait to call until you have tallied for the day. Call your totals in when you have them. Record the time of the last voter of the last day on the Scanner Recap sheet.

- **MEDIA**---With permission from the Registration Director, media personnel may photograph the activity from outside the enclosed space but can in no way interfere with the process or zoom in on a person's ballot while they are voting.

- The media cannot question a voter as to how they voted as they exit the booth.
- Media is required to refrain from questioning voters until they are at least 150 feet from the outer edge of the building OR 25 feet from the last voter in line.
- AB workers are not authorized to conduct interviews with the media while on duty at the satellite. You may report how many people have voted; refer any additional questions to the Elections Office.

- **MILEAGE FORM**--- Satellite managers need to turn in their mileage forms at the end of each election. The mileage information is to be entered into the Mileage Form on the computer. To access the form: Go to the ICobb webpage. From the drop down at Employee Resources click Forms. Scroll down to "T" and click Travel Documents. Scroll down to Monthly Mileage Reimbursements and click T-4 Mileage Reimbursement under the image. Open the document and enter your information. Print the completed form, sign it, and turn it in to Allison with copies of maps showing the routes taken.

- **OATHS**---All AB workers / Day Workers / Temps must sign an oath prior to working. AB workers will have already signed a clerks or managers oath at the Main Office. When the satellites open, the positions of some workers change; each worker signs the clerks or managers oath according to their position at the satellite. An Assistant Manager should administer the oath to the Manager first, then the Manager can administer the oath to the Assistant Managers, Clerks, and temps. After the Lead Day Worker is sworn, he/she can administer the oath to the other Day Workers

- **PENDING ISSUES**

The voter status in ElectionNet is **Pending / (any reason except age)**. The Voter Information may be in red, which indicates a verification issue. It may indicate **ID Required**, SS / DDs Verification, or Invalid Address.

- Contact Kendra Reed in administration at 770-528-2302(office), 404-655-4138(cell), or Kendra.Reed@cobbcounty.org. She may be able to update the pending status immediately, allowing the voter to vote at the touch screen. You can take a photo with your cell phone of any proof documentation, then text or email it to Kendra directly.
- If they have no proof documents with them, the voter may vote a provisional ballot and would be given the Purple Challenged Notice letter from the provisional packet. ** It is the voter's responsibility to provide their qualification papers to the Elections Office before the provisional ballot can be counted. **

In ENet, the voter status is **Pending / Pending Age**.

- By Georgia Code, a voter may register to vote as early as the age of 17½. ENet recognizes if the voter will reach the age of 18 before the end of the day on election day.
- After locating the voter in **Search Absentee Ballots**, click **Add**. If the **Election Date - Name** are not populated, the voter will not be 18 until after election day and is not yet eligible to vote.
- If the **Election Date - Name** are populated, the voter will be 18 on election day and you may proceed with the normal issuing process.

- **POLL WATCHERS**---Poll watchers are issued a badge by the superintendent of elections, listing the precincts/satellites in which they may observe; their name, election date and type of election. The badge must be worn at all times. Poll watchers are issued a letter of introduction by the political party, political body, nonpartisan candidate, or independent candidate.
 - **POLL WATCHER FUNCTION**---They are **only** to observe. They are permitted within the enclosed space for the purpose of observing the conduct of the election but not allowed in the designated voting space. Poll Watchers **MAY** ask how many have voted **BUT NOT** who or how.
 - **POLL WATCHERS are PROHIBITED** from:
 - Talking to voters within the enclosed space
 - Using photographic or other electronic monitoring or recording devices within the enclosed space
 - Using cell phones within the enclosed space
 - Suggesting changes in set-up or procedures
 - Participating in any form of campaigning
 - Interfering with the voting process
 - Offering any input concerning perceived issues
- **PROVISIONAL**---Each Satellite location will be provided with Provisional Packets. They are self-explanatory as to which type of ballot is being voted, along with a letter to give to the provisional voter. **IF** there is any question regarding the voter's status in ENet (voter's eligibility or right to vote), the voter may vote Provisional.
 - **PROVISIONAL BALLOTS**
 - For an Election that has the Precinct and District Combo on the ballot, you will have a few of each type (usually a Primary or General Election).
 - For an Election where the ballot only has the Precinct and they are all the same type, you would still receive a few ballots for each precinct (usually for Special Elections or SPLOST).
 - Make sure all information is completed on the voter's AIP application, request for authorization form, provisional envelope, and the buff colored registration form if needed.

- If you process a Provisional Ballot, please notify the AB Supervisor and/or Satellite Coordinator at the Main Office. The Elections Manager may want the application and information sent in so research can begin. You will be instructed as to what to send to the Main Office.
 - Please make sure everything is documented, even if you need to write extra notes on the AIP application.
 - Do not hesitate to call the office if you have any questions regarding how to administer a provisional ballot.
- **PROVIDING VOTER INFORMATION**

A voter may request information regarding whether another person is or is not registered. You may look up the requested name and provide a yes or no as to registration and the county in which they are registered. (As an example, a parent may wish to know if their college student is registered – in their home county or the county in which the school is located.)

Requests for additional information must be directed to Registration in writing; either by fax, mail, or in person.
- **REGISTRATION SITUATIONS - REGISTRATION DEADLINE / MOVED WITHIN COBB / MOVED OUT OF COBB.**

Each election has a registration deadline. This date is usually 30 days prior to the election. If the **Voter** says they registered with DDS or Online prior to that date, contact a registrar at the Main Office for assistance. In a large election such as the Gubernatorial or Presidential the voter may vote a provisional ballot as you may not be able to reach a registrar to research the issue.

 - After speaking with a registrar and it is determined that the voter is not registered, the voter **is not eligible to vote on the BMD**. The Voter may vote a Provisional Ballot if they wish.
 - If the voter has **MOVED WITHIN COBB**, but has not updated their registration, they may vote one time using their former address/precinct. There is a box on the AIP application for the registered address or name as shown in ElectionNet (no need to scratch through “new” info). They will vote the ballot assigned to their registered address. If there is a runoff, the record will not be updated until after the runoff is complete. (Exception: Registration deadlines for runoffs of Federal races are now reset 30 days before the runoff date.)

- To update voters' registration records that have **MOVED WITHIN COBB**, have them complete a buff colored registration form. Write the registration number in RED on the card. Return these to the Main Office.
 - If the voter has **MOVED OUT OF COBB** to another county in Georgia, they can be given a white registration form to complete and mail to their current county's election office or to the Secretary of State's address printed on the registration form.
- **RETURNED VOTED BALLOT for a voter or another person---**
 A voter may hand deliver their own mailed ballot or the ballot of a member of their household for transport to Main. It must have the signature or mark of the voter. If assisting a disabled voter in voting their ballot, they must sign the **Oath of Person Assisting** and check one of the boxes indicating the reason for assisting on the yellow envelope.
 - Place the voted ballot in a manila envelope designated for this use. Send any voted ballots to the Main Office with your courier at their next visit. They will be transferred to the team assigned to verify and accept ballots.
- **SCHEDULING WORKERS**
 - Once you have been assigned day workers, the schedule is then yours. Make any changes you find necessary. If you find that you need to replace a Day Worker or need more Day Workers, please call Bonnie or Claudia.
 - Scheduling Temps: Managers will be given a list of the names of the temps assigned to their location and a schedule form, will set the temp schedule, and contact the temps with their schedules. You will also make sure that each has been entered into **Maintain Users** in ENet.
 - Verification emails/texts: Managers decide if verification codes for the temps are to be sent to the location's county phone, the manager's email/phone, or the cell phone of the temp. If the delivery of a code just will not come through, the temp may start voting people using the manager's or assistant manager's ENet login while attempts are made to correct the issue. Please email Allison or Bonnie, so we will know they are voting people under someone else's login.
 - You will have the phone numbers of the temp agencies to contact in the event of no-shows. Also, please let Allison know about no-shows or any other issues.

- **SUPPLIES**----Each Satellite Manager packs their own supplies using lists provided. If you need more supplies during AV week, contact the Main Office. There is a courier assigned to each location that will deliver and bring back items as needed.

- **VOTER ACCESS CARD**---Workers need to be very careful when issuing voter access cards. Correct precinct, district combo, and party (if a primary) must be selected. Do not remove card until screen displays **Processed Successfully**. It is very important to program the card correctly.

- **VOTER CHANGES THEIR MIND or SPOILS THEIR BALLOT**
 - If a voter changes their mind PRIOR to printing their ballot at the BVD, or PRIOR to inserting it into the Scanner, the Satellite Manager can cancel/change the ballot in ElectionNet as necessary. Once the ballot is ACCEPTED INTO THE SCANNER, it is TOO LATE to reverse it.
Examples:
 - Wants to change Party
 - Not ready to vote
 - Has a question about district or absence of a candidate on their ballot
 - If a voter's ballot is not accepted by the scanner, the ballot should be returned to the AV worker that issued it. The worker will mark the ballot "Spoiled" and issue another voter access card so the voter may start the process again.
 - If the printer at the BMD reprints a ballot unnecessarily, the ballot should be marked "Spoiled".
 - If the voter leaves the enclosed voting space without removing the ballot from the printer, or laying the ballot on the scanner without "casting" the ballot, the ballot is deemed "Abandoned" and must be spoiled.
 - The spoiled ballots must be put in the "Spoiled Ballots" manila envelope to be returned to Main as Evidence. Record these ballots on the log attached to the envelope.

- **VOTER LEAVES WITHOUT CASTING BALLOT**

If a voter leaves without printing their ballot and the Access Card remains in the BMD, the card will be removed by the manager and the BMD cleared for the next voter. If the voter leaves without placing their ballot in the scanner, your count of applications and scanner totals will not match at the end of the day. You probably will not know the identity of the voter, so you will not be able to cancel anything in ElectionNet. Even if you do know who the voter is, just relay the information when you notify the Main Office of the situation.

- **VOTER OVER 75 OR DISABLED**

Electors who are 75 years of age or older OR who are disabled and require assistance in casting an absentee ballot in person, shall, upon request to a designated office employee, vote immediately at the next available voting booth without waiting in line.

- **VOTER REQUIRING ASSISTANCE**

- A voter may receive assistance if he or she is unable to read the English language or if the voter has a disability which renders him or her unable to see or mark the ballot or operate the voting equipment.
- If a voter elects to use the MAGNIFIED Ballot or ATI kit unassisted, he or she DOES NOT need to have the assisted voter information on the back of the AIP Application completed.
- If a voter elects to have someone assist him or her, the person assisting must identify himself or herself to the AB Clerk. It may be anyone of the voter's choosing except their employer or agent of their union. The worker must then have the person assisting complete the Oath on the back of the AIP Application.
- There is no limit to the number of voters a single person may assist.

- **WEATHER RELATED ISSUES**----In the event of life-threatening weather the Satellite Manager should be aware of their location's emergency procedures. The Satellite Manager may also contact the Main Office for information. If conditions permit, take these steps to safely secure the following:

- Unvoted Provisional Ballots---secure in a blue bag.
- Orange Provisional ballot Bag----secure in a blue bag.
- BMDs---
- Poll Pads---
- Scanners---
- AIP completed Applications----secure in a blue bag
- If a voter has not finished voting and they need to move to a secure location, the ballot on the BMD should be cleared and the voter re-issued a voter access card as soon as the weather situation has passed.
- Assign jobs as to who would be responsible for each task listed above.

- **WORKERS FOR EACH LOCATION**—Each satellite will be staffed according to the need, location and volume expected for the election being conducted.
 - Satellite Manager
 - Floater Manager
 - Assistant Managers (ideally 2)
 - Absentee workers that have been working at the Main Office.
 - Day Workers: There is usually one person that will hire these workers, then you will be given a schedule with their names and numbers. Satellite Managers will call and confirm schedules with each Day Worker. The Satellite Manager may make changes in the schedule if necessary.
 - Temporary Workers from an agency as needed
 - Sheriff's Deputy (for most elections)
 - Couriers will be assigned to each location to assist with problems or deliver items to you or back to the Main office.

Subject: **Glitch with SOS absentee ballot portal**

Janine,
Are you aware of a glitch with the SOS absentee ballot portal that prevents some ballots being sent to voters with out-of-state mailing addresses? We are hearing about this in other counties and know it to be an issue. Is there some kind of an intervention so that we can ensure Cobb voters with out-of-state mailing addresses get their ballots?

Best regards,
Jacquelyn Bettadapur

Question / Comment: I am a senior citizen and received an Absentee ballot.
I do not remember the signature I had signed during application.
I would like to see my original signature so that I can repeat it.
Will it be acceptable to have signature as is on driver's license or USA passport?
Do handwriting expert determine if I am the one who wrote the signature?
Thank you and regards

Avinash Joshi

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

Ms. Lummus,

I see no indication that we received a ballot from you. Is it possible that you did not put your ballot in the yellow oath envelope? We always have some that come in that way. Or could it be possible that you put your ballot in the tax payment box on the same government center property? Our ballot drop box is painted red, white and blue.

What website was it that said your ballot had been collected? We also don't know what the "official audit" letter would be. Does it say who sent that?

Location of Violation: I guess it would be the absentee drop box at the government center on Lower Roswell Rd

Description of Violation: I voted absentee and dropped my ballot in the ballot box. It took a very long time for the website to verify that my ballot had been collected. Yesterday, 12/17/00, I got a letter saying "Official Voter Audit for Anne Lummus". It shows that I DID NOT vote in the 2020 General Election. I am very concerned that this letter is legitimate, and that my vote did not count. I sure would appreciate if you could find out if my vote counted. Thank you in advance.

Re: Official Election Bulletin dated November 24, 2020

Dear Mr. Harvey:

On behalf of the Lawyers' Committee for Civil Rights Under Law, I write today regarding the Official Election Bulletin you issued to all Georgia County Election Officials and County Registrars on November 24, 2020 (the "OEB"). We request that a corrected Official Election Bulletin be issued to ensure that voters who properly have registered to vote in Georgia will be allowed to vote in January.

As a nonpartisan organization working to ensure that all registered voters have an equal opportunity to vote and to have that vote counted, we appreciate all of the efforts of the Secretary of State's office to identify and investigate legitimate complaints of actual voter fraud. We do not want concerns with legitimate voter fraud, however, to result in the disenfranchisement of any legal Georgia voters.

The first paragraph of the OEB states that voters who voted in another state in November cannot thereafter "decide" to become Georgia residents. Under Georgia law, any otherwise qualified person who has moved to and intends to remain in Georgia can register and vote, regardless of the person's motive for moving. See O.C.G.A. § 21-2-217; *Dozier v. Baker*, 283 Ga. 543, 545, 661 S.E.2d 543, 545 (2008) (affirming finding of residency based on "intent" to remain notwithstanding candidate's "motive" for moving); *Cook v. Bd. of Registrars of Randolph Cnty.*, 320 Ga. App. 447, 452-53, 740 S.E.2d 223, 227-28 (2013) (following *Dozier*). We request immediate issuance of a corrected OEB clarifying that an

Page Two

otherwise qualified person who has moved to and intends to remain in Georgia properly can register and, once registered, cast their vote.

The OEB goes on to note that the county boards of registrars have the power to ensure the proper residence of new and existing voter registrants, stating that a voter's registration may be rejected if a registrar cannot determine "to his or her satisfaction" the voter registrant's residency. This language invites and may even encourage county election officials to refuse to register new voters, or to challenge and remove existing registered voters, based on the officials' arbitrary and capricious determination of their personal "satisfaction" as to the residency or non-residency of the new or existing voters. Such an arbitrary and uncabined process violates both federal and Georgia law.

The National Voter Registration Act ("NVRA") mandates that any activity "to protect the integrity of the electoral process" by ensuring an accurate voter roll "shall be uniform, nondiscriminatory, and in compliance with the Voting Rights Act of 1965." 52 U.S.C. § 20507(b)(1). Allowing individual officials to reject registrations if proof of residency has not been established to that official's individual "satisfaction" would not be "uniform" and would create the risk of discriminatory disenfranchisement. To the extent the OEB constitutes a systematic program across Georgia to prevent or remove ineligible voters, moreover, it violated the prohibition on implementing such a program less than 90 days before an election. *See id.* § 20507(c)(2)(A); *Arcia v. Fla. Sect'y of State*, 772 F.3d 1335 (11th Cir. 2014) (striking down program that violated 90-day rule).

Georgia law similarly precludes the arbitrary refusal to allow a voter to register and the arbitrary removal of an existing voter. Where an elector challenges another elector's qualifications, for example, the challenger bears the burden of proof. O.C.G.A. § 21-2-229. Any such challenge must be made in writing and specify distinctly the grounds of the challenge. *Id.* § 21-2-230(a). Unless the board of registrars finds probable cause for the challenge, the challenge must be denied; while if probable cause has been found, the elector must be notified and given the opportunity to dispute the grounds of the challenge. *Id.* § 21-2-230(b)-(c); *see also, e.g., McIntosh Cnty. Bd. of Elections v. Deverger*, 282 Ga. 566, 567, 651 S.E.2d 671, 673 (2007) (holding rebuttable presumption of legality attaches to registration of voter who has been on list of

Page Three

official electors for 10 years even where voter registration card cannot be located or lacks a signature) (citing, *inter alia*, O.C.G.A. § 21-2-522.1).

The OEB further states that, in determining residency, the county official “shall review all available evidence, including any identifying documents submitted along with the application.” Where an applicant has presented or can present the proof of residency required by Georgia’s official voter registration form (https://registertovote.sos.ga.gov/GAOLVR/images/reg_form.pdf), then county officials should only deny registration “‘based on information in their possession establishing the applicant’s ineligibility.’” *Arizona v. Inter Tribal Council of Arizona, Inc.*, 570 U.S. 1, 15 (2013). Thus, unless county officials possess credible information calling into question the voter’s residency, they should not require additional proof of residency beyond that normally required for registration.

Finally, the last paragraph of the OEB states that any submission of false registration information, even if not done knowingly, “shall” be referred for criminal prosecution. Under Georgia law, however, an applicant must “knowingly” give false information to commit a crime. O.C.G.A. § 21-2-561(3). Thus, the OEB mandates seeking prosecution for conduct that may not constitute a crime. The NVRA and other federal voting laws preclude threats or the initiation of improper criminal prosecutions that could have a chilling effect on registration and voting. *See, e.g., United States v. McLeod*, 385 F.2d 734 (5th Cir. 1967); *League of United Latin American Citizens – Richmond Region Council* 4614 v. *Public Interest Legal Foundation*, No. 1:18-cv-00423, 2018 WL 3848404, at *3-4 (E.D. Va. Aug. 13, 2018) (noting NVRA does not require intent to intimidate, only that actions have the effect of intimidating voters).

In addition to the NVRA, the Civil Rights Act prohibits concerted threats intended to dissuade any federal voter. *See* 42 U.S.C. § 1985(3); *see also* 5 U.S.C. § 10101(b) (barring threats intended to intimidate federal voters); 5 U.S.C. § 10307(b) (barring threats intended to intimidate persons encouraging others to vote). Federal law also criminalizes threats intended to interfere with any federal voter. 18 U.S.C. § 594; *accord* O.C.G.A. § 21-2-567 (criminalizing intimidation of voter registrants or electors).

Page Four

The Georgia registration form already requires applicants to affirm their residence and eligibility to vote in Georgia and correctly states that any person who "registers to vote **knowing** that such person does not possess the qualifications required by law, who registers under any name other than such person's own name, or who **knowingly** gives false information in registering shall be guilty of a felony." O.C.G.A. § 21-2-561 (emphasis added). Given this unambiguous existing prohibition, the OEB's threat of criminal prosecution is redundant and creates a substantial risk of chilling legitimate voter registration and participation. See generally *Bantam Books, Inc. v. Sullivan*, 372 U.S. 58, 68 (1963) (recognizing that "[p]eople do not lightly disregard public officers' thinly veiled threats to institute criminal proceedings against them . . .").

Accordingly, we request that you rescind the existing OEB and issue a corrected OEB stating that (a) a voter registrant who had moved to Georgia with the intent of remaining in Georgia can vote in the January election; (b) the voter registrant has no affirmative obligation to provide any documentary evidence of residency; (c) county election officials cannot arbitrarily refuse to register voters or remove existing voters, but can only do so where they possess evidence demonstrating the applicant's ineligibility; (d) any challenge to the residency of a registrant or voter must be supported by specific evidence demonstrating ineligibility; and (e) if the challenge is not immediately denied, the challenged registrant or elector has due process rights to defend their registration.

Thank you for your attention and consideration in this matter.

Regards,

Location of Violation: Mail in Ballots

Description of Violation: Help! My husband and I received mail-in ballots in envelopes and ballots that are different.

Should my outer return envelope be the same as his?

Mine has the yellow stripe on the left side. My husband's envelop is entirely yellow and smaller.

Should both of our ballots be the same size?

My ballot is larger and has the yellow tear off tab on the ballot. My husband's has no tab and is smaller.

Should the instruction sheets be printed on two different qualities of paper?

My husband's in on a slick quality paper.

We are ready to drop them off in a local drop box. We live in East Cobb County.

Thank you in advance for your help.

PS I don't want one of our ballots thrown out!!

One more thing, as far as we can tell they are not campaigning. They have given out napkins with the food that have a QR code to <https://www.vote.org/election-protection/> and has the election protection hotline number on it. They give food to everyone, including voters, poll workers, and other employees in the government complex. I am having a hard time justifying why they need to stop doing any of this.

What they are doing seems be campaigning and should not be allowed to within 150 feet of a polling place. They say "these food trucks will be our last chance to reach Georgians before they vote." They also seem to be giving some of value for voting—otherwise it wouldn't matter if they were reaching people before they vote and it's not allowed to matter if the people are voting or not.

Frances,

Per our earlier discussion, can someone on our team please contact Pam Reardon at 404-272-1767? She says she has video of a food truck with folks less than 25' from the voters at the Cobb Election Board on Whitlock? Sen Kirkpatrick is asking if this is legal and wants us to answer. Allegedly, the Cobb sheriff came by and said they shouldn't be on county property, but was allegedly dissuaded by election staff.

I included the email about this below:

From: Bridget Geraghty <info@vote.org>
Date: December 10, 2020 at 7:27:45 PM EST
To: kaykirkpatrickmd@gmail.com
Subject: Food trucks
Reply-To: info@vote.org

Kay,

During the general election, we sent Vote.org-branded food trucks to polling places with long lines to provide free food, water, and crucial nonpartisan information about voting rights.

Now we're gearing up to do it again for the January 5, 2021, runoff elections in Georgia.

These food trucks will be our last chance to reach Georgians before they vote.

[If we raise \\$153,000, we'll be able to send five food trucks stocked with free meals to early voting sites in Georgia. Chip in today — every dollar will help feed communities and increase voter turnout.](#)

[DONATE NOW](#)

If we can fully fund this program, food trucks will be parked in strategic locations across the state and voter ambassadors will refer Georgians who need support to 866-OUR-VOTE, the nonpartisan Election Protection hotline.

Each food truck will hand out between 500 and 750 free meals. **During a pandemic that has caused increased food insecurity for many communities, this program serves multiple community needs.**

Thanks to supporters like you, **we're already running a multilayered campaign to reach and turn out every eligible Georgia voter** for these consequential runoff elections. The results have the potential to determine control of the U.S. Senate.

Historically, runoff races have significantly lower turnout than general elections, especially in Georgia. This year, voters are expected to face additional barriers due to COVID-19 and misinformation about the election process. **We're doing everything we can to make sure every eligible Georgia voter has the accurate, timely information they need to make their voice heard.**

We can't do it alone. We need *your* support to help us reach even more communities in the days ahead. Our full Georgia food truck program will cost \$153,000 to supply and staff.

[Chip in now to ensure we're able to reach Georgia voters with crucial election messaging through our food trucks. The more money we raise, the more free meals and voter information we'll be able to distribute.](#)

[DONATE NOW](#)

Your support helps us continue to reduce barriers so that *nothing* stands in the way of voters and the ballot box.

Thank you,
Bridget Geraghty, Director of Donor Relations

I hope you all had a Merry Christmas and were able to spend time away from the office with those you love.

Looks like Association support wasn't taken out of the speech or at least not the press release. It's in this from 11Alive.

<https://www.11alive.com/mobile/article/news/politics/elections/georgia-secretary-of-state-wants-to-get-rid-of-no-excuse-absentee-voting/85-ce5ace48-7b66-4fd5-b99e-c522e0e0bf1c>

I'm not sure if there is anything that can be done now or not but if there is a way for it to be corrected I would like to request that it is. Does anyone know if that would be possible?

It's quite a while to the 2021 conference but if this news travels the state, there may be pushback and comments about it when we're all together. Only mentioning so it's in the back of our minds just in case.

Hope you all have a good day,
Kristi

I apologize that I am just now responding to this thread. I also would not support this action in the upcoming meeting of the General Assembly. I recall when absentee voting was restricted to voters with a reason; elderly, disabled, religious holiday, military, out of town. I also recall when only the last week was offered as early voting while many voters crammed into our offices to cast their votes....going from 45 days of early voting to now having NR absentee voting and 21 days of advance voting. We should not go backwards, but find better ways of providing voting in a more effective and efficient ways is the answer. What will it take to get us there? I'm not sure, but studying some other States' electoral processes is a start. On a more personal note, I am not too pleased with all we have had to deal with this year on top of dealing with a pandemic. Nothing happened as we were told, from receiving our new equipment, grant reimbursements, etc. Just not good for us in Georgia. Our voters have been very negative towards us...regaining the integrity and trust is no where it should be from an election standpoint....but I have hope that many of us will stick around to see things get better. This year has been tough for almost 90% of us. Let us really work to make sure we do not lose ourselves in the future decision making and support one another as a team. So much has happened; in fact, much more than I can state without being disrespectful, so I will stop here by saying, bless us all through the rest of the Election cycle.

AMERICAN
OVERSIGHT

From: Eveler
Sent: Tuesday, December 29, 2020 11:02 AM EST
To: Combs, Leigh <lcombs@sos.ga.gov>
Subject: RE: Esri Survey Email
Attachment(s): "Re_ Cobb County January Runoff Election.pdf"

The survey indicates the possibility of the FSTs doing the wait time updates again. However, we have been told that Dominion Techs will not be doing that (attached). So is the only choice our own staff doing the updates?

Janine Eveler

Director,
Cobb County Elections & Registration
770-528-2312
770-528-2519 Fax
678-315-0439 Cell

From: Combs, Leigh [mailto:lcombs@sos.ga.gov]
Sent: Tuesday, December 29, 2020 10:41 AM
To: Combs, Leigh <lcombs@sos.ga.gov>
Subject: Esri Survey Email
Importance: High

Election Officials:

As you probably remember, the Esri tool was used in the November election to measure wait times across the state. The tool is available for you to use again for the January 5th election. Please complete the attached survey and email the completed survey back to your liaison by 5:00PM today.

If you opt-in to using the tool, we have video training available so your poll workers can learn how to use the Esri app to report wait times. The app is very simple and user friendly.

Again, please return the survey by close of business today.

Thank you,

Leigh Combs
Liaison, Elections Division
Georgia Secretary of State
Main: 470-312-2741
Cell: 470-867-7773

CAUTION: This email originated outside Cobb County Government. Please exercise caution when opening links/attachments in this email .

Subject: Re: Cobb County January Runoff Election
Date: Thursday, December 10, 2020 11:50:05 AM
Attachments: [image001.png](#)

Thank you for providing us with this feedback. FSTs will not have access to creating a ticket this election. All FSTs materials and documentation will be returned to the Cobb County warehouse instead of your office. We will create the google document to assign the FSTs to their polling location but I will send it to you first to review before we make it available to the FSTs. Thank you again and hope you enjoy the remainder of your week!

On Tue, Dec 8, 2020 at 1:23 PM Reed, Kendra <Kendra.Reed@cobbcounty.org> wrote:

Hi Glenn,

1. I would prefer you and/or Shay assign your employees...
 - a. As these folks are not Cobb County employees
 - b. FST's cannot touch the equipment
 - c. there needs to be a delineation between our 2 entities.
2. A google doc containing assignments would suffice for FST's
3. Our polling locations have updated, due to an emergency update (see attached)
4. If an FST is not available for every poll, we can discuss our needs at that time.

Additional feedback/opportunities:

- Are FST's being trained on how to close or update tickets they have created?
- Lastly, a decision was made (without any communication) in November that FST's were to return their timesheets and other documentation to our office on Whitlock, after the polls closed. Please ensure this doesn't happen for January, and that FST's are returning their paperwork to your office. We have too many moving parts in our office to be responsible for a Dominion worker's timecare.

Thank you so much for your assistance!

Kendra Reed

Subject: Re: Cobb County January Runoff Election

Good Afternoon Kendra,

I hope all is well with you today! Just an update from our last email, we are now preparing to start training next week for the Field Service Technicians. There are two items I would like to bring to your attention listed below:

1. How would you like to assign the FSTs to their polling locations? A suggestion Shay and myself have right now would be to create a comment-only spreadsheet that each FSTs can select a location themselves according to what may be most convenient depending upon their home address. In addition, your office and my team would have access to this document and may help keep a track on what individuals are assigned to a particular polling location. Please let me know your thoughts.

2. As of right now, we have not confirmed we will have 145 FSTs for Cobb County. In the event that we have less than 145 FSTs for Cobb County, could you specify which polling locations than others serve as high priority in needing an FSTs present on election day?

On Fri, Dec 4, 2020 at 6:00 PM Glenn Wiggins <glennwiggins@gmail.com> wrote:

Thank you for this information. I hope you have a wonderful weekend!

On Fri, Dec 4, 2020 at 9:25 AM Reed, Kendra <Kendra.Reed@cobbcounty.org> wrote:

Good morning Glenn,

Sounds great! Here are your answers...

1. We have 145 polls, so we need 145 FST's (1 per Polling Place)
2. Polling Locations and Addresses for Cobb County are attached. NOTE: should an emergency occur, an address change will occur. This can happen all the way up to and including election day.
3. As with all of Georgia, the polling hours are 7am to 7pm.

Thank you,

Kendra Reed

Subject: Cobb County January Runoff Election

Hi Kendra,

I hope all is well with you today! Great pleasure in speaking with you on the other day regarding the upcoming election. Some of the grievances that were mentioned in our conversation are currently being addressed as we speak. I have CC'd Shay Nelson who will also be assisting us in making sure things run smoothly for this election. She is one of the Regional Trainers within the Atlanta Metro area.

There are a few items that I would love to have your assistance with to start the process of addressing your concerns with Cobb County:

- **Could you provide an exact number of Field Service Technicians that will be needed for Cobb County ?**
- **Could you provide the addresses of all polling locations?**
- **Verify the time all polling locations will open for the January election?**

These few items of information will develop a starting point in making this election a success for Cobb County! Please don't hesitate to reach out to me if you have any questions or concerns. Hope you have a wonderful weekend!

--

Kind Regards,

Glenn M. Wiggins

IF an email address is available on the application, a standard email is sent. A copy of the email is attached to the ballot and also scanned as correspondence. The voter always gets a letter in the mail regarding the rejection, along with the affidavit. We did not reach out to voters in phone calls as a general rule, so as to have a record of what the voter was actually told and how to cure it. It was a lot of information and even with correspondence the voter was occasionally confused.

Subject: Voter Suppression

Dear Senator Kirkpatrick,

Two or three weeks ago my wife and I filled out, signed and mailed our absentee ballot applications. We have been registered to vote in Cobb County for at least 20 years (we registered at Fuller Park, east Cobb). About one week after we mailed the applications I received an email saying "your absentee ballots are on their way!" After a week or so, and knowing the presidential election was stolen from President Trump, I sent the below snot grams to the Cobb County Board of Elections (CCBOE). Today, I received the below email from them (BOE). As you probably know, the CCBOE is filled with Democrats...and it has been my experience Democrats have no principles, honor or values. They also are well known for being incompetent. They know I am an old white man and a Republican. That is two strikes against me.

I am retired veteran (senior master sergeant – 24 years under the hammer – 1960 - 1984) who helped bring down the Evil Empire (Vietnam veteran). Little did I know that 30 years later, the communists/socialists (Democrats) would, after four years of an attempted coup, take over the federal government through election fraud on a massive scale.

Would you please light a fire under the BOE's ass? They are disgusting deplorables.

Thank you Senator,

Stephen G. Morris

Jennie,

My wife, Kristine Sauer, spoke to you earlier today about a ballot that I received from my father, Werner Sauer, while they are on holiday overseas.

Unfortunately, the shipping company, DHL, opened the sealed ballot, and re-taped it, covering up the signature. (See attachment).

I would like to know what we can do to make sure that my father's vote gets counted, if there is anything we can still possibly do to remedy this mishap. We realize time is not on our side in terms of mailing, but we will be able to communicate with my father as needed.

Thank you,
Waldemar Sauer

Subject: RE: OEB 12-09-2020

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Subject: RE: OEB 12-09-2020

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this

GA-COBB-20-2949-A-000622

chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

Subject: follow up to Mr. Ellet's ballot

It appears that a fellow resident of a retirement home signed his own name (Leon Isaacs) to the ballot, so it may not be a nefarious situation but a misdelivered ballot. We will follow up with Mr. Isaacs, who did request an Absentee Ballot (rollover) and has not had a ballot accepted. We will send him an Affidavit to reissue. I am still uncertain about what to do with Mr. Ellet's original ballot, however.

Thanks!

December 4, 2020

SENT VIA EMAIL

Dear Supervisor:

We respectfully request to monitor absentee ballot signature matching for the January 5, 2021 Runoff Election.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

In addition to the comments made on November 24, 2020, we have received notification from the Secretary of State's office that members of the public, specifically a Republican and Democrat Party will be allowed to observe the process.

Georgia has a strong public policy in favor of open government, which is essential to a free, open, and democratic society, which should foster confidence in government, and ensure proper function of government institutions. O.C.G.A § 50-18-70(a).

For the reasons stated above, and to restore trust and integrity in the administration of the election process, we kindly ask to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election. At your earliest convenience, please let Alyssa Gonzales Specht (aspecht@gagop.org) know when and where your office performs the signature matching process and how you would like us to coordinate who will be the Republican representatives observing the absentee ballot signature matching process.

A handwritten signature in black ink, appearing to read "D. Shafer".

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the

GA-COBB-20-2949-A-000640

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

We have had issues with monitors and observers using their phones, bringing telescopic lenses and binoculars. Those need to be addressed.

We want to have all observers check in their electronics with an officer and sign an agreement to the rules set by the superintendent.

We have been so patient with people that repeatedly violate our rules, but we started getting strict and electing people during the recount. I'm unsure if the SEB knows how aggressive and rude some of the monitors are.

It needs to be made clear that only parties within a candidate in the ballot can appoint to keep us from arguing over and over with Constitution Party members.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Deidre,

I am shocked and disappointed that you gave Association support on legislation. If you discussed with the Executive Board, I was not included as Past President. The Association has always stated it would not support or oppose legislation. One individual does not have the authority to change that. I do not support this and believe you would find many if not most members wouldn't either.

I respectfully ask that you withdraw your statement that the Association supports this.

I look forward to your response

All:

I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

Thanks! Merry Christmas!

Copied and pasted this quote from the Washington Times article....

"which will be conducted in a partnership with the University of Georgia, will analyze a random sample of mail-in ballots. It will review the Election Day signature-matching process used across the state and check the signatures on random samples of ballots from each county."

What is the Election Day signature-matching process that is referenced in the quote?

Nancy

Subject: RE: Signature Verification

The signature audit has been illuminating. My absentee coordinator is training the GBI agents at 9am today, because they have not done this before and don't know what to look for. It has taken all week to set them up at a county facility, on the county network, and give them access to the signature depository.

Subject: RE: [EXTERNAL] RE: OEB 12-09-2020

Thank you, Chris for your encouraging words. These are trying times, indeed. I whole heartedly echo Janine's comments.

After some reconfiguration of our set up, we have come up with a way to make this happen using a community room – the wonderful, beautiful Linda Beazley Community Room, in fact. Very appropriate, don't you think?

Observers will be permitted into the room to see the process. We will be using the same prohibitions for observers that are in place for early processing and protect voter's information by making sure that there is no direct view of the computer monitor and protecting our people by social distance properly as best we can. We hope to be set up to receive observers by tomorrow, but still have work to do to make that happen. We also expect to be saying "make a hole" often as staff moves in and out of the room. J

It is all going to be fine. This is what we do, you know? We rise up in difficult times and make stuff happen.

Hang in there!!

Lynn Bailey, CERA

I understand your desire for guidance. The SEB may be providing specific guidelines soon.
Until then, do the best you can while you have the authority to make those decision on your own.
I appreciate the exchange of ideas and opinions. We all have different perspectives and challenges and everyone is worn very, very thin.
I know that every one of you is trying to do the best you can for your voters and for the process, and I appreciate you and your efforts.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."
Instead, at 24 words, it's probably the shortest law in the election code.

GA-COBB-20-2949-A-000662

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

GA-COBB-20-2949-A-000663

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

Subject: RE: Cobb County Food Truck at Advanced Voting at Cobb Election Board on Whitlock - Sen Kay Kirkpatrick - Pam Reardon

What they are doing seems to be campaigning and should not be allowed to within 150 feet of a polling place. They say "these food trucks will be our last chance to reach Georgians before they vote." They also seem to be giving some of value for voting—otherwise it wouldn't matter if they were reaching people before they vote and it's not allowed to matter if the people are voting or not.

Subject: Cobb County Food Truck at Advanced Voting at Cobb Election Board on Whitlock - Sen Kay Kirkpatrick - Pam Reardon

Frances,

Per our earlier discussion, can someone on our team please contact Pam Reardon at 404-272-1767? She says she has video of a food truck with folks less than 25' from the voters at the Cobb Election Board on Whitlock? Sen Kirkpatrick is asking if this is legal and wants us to answer. Allegedly, the Cobb sheriff came by and said they shouldn't be on county property, but was allegedly dissuaded by election staff.

I included the email about this below:

From: Bridget Geraghty <info@vote.org>

Date: December 10, 2020 at 7:27:45 PM EST

To: kaykirkpatrickmd@gmail.com

Subject: Food trucks

Reply-To: info@vote.org

Kay,

During the general election, we sent Vote.org-branded food trucks to polling places with long lines to provide free food, water, and crucial nonpartisan information about voting rights.

Now we're gearing up to do it again for the January 5, 2021, runoff elections in Georgia.

These food trucks will be our last chance to reach Georgians before they vote.

[If we raise \\$153,000, we'll be able to send five food trucks stocked with free meals to early voting sites in Georgia. Chip in today — every dollar will help feed communities and increase voter turnout.](#)

DONATE NOW

If we can fully fund this program, food trucks will be parked in strategic locations across the state and voter ambassadors will refer Georgians who need support to 866-OUR-VOTE, the nonpartisan Election Protection hotline.

Each food truck will hand out between 500 and 750 free meals. **During a pandemic that has caused increased food insecurity for many communities, this program serves multiple community needs.**

Thanks to supporters like you, **we're already running a multilayered campaign to reach and turn out every eligible Georgia voter** for these consequential runoff elections. The

results have the potential to determine control of the U.S. Senate.

Historically, runoff races have significantly lower turnout than general elections, especially in Georgia. This year, voters are expected to face additional barriers due to COVID-19 and misinformation about the election process. **We're doing everything we can to make sure every eligible Georgia voter has the accurate, timely information they need to make their voice heard.**

We can't do it alone. We need *your* support to help us reach even more communities in the days ahead. Our full Georgia food truck program will cost \$153,000 to supply and staff.

[Chip in now to ensure we're able to reach Georgia voters with crucial election messaging through our food trucks. The more money we raise, the more free meals and voter information we'll be able to distribute.](#)

[DONATE NOW](#)

Your support helps us continue to reduce barriers so that *nothing* stands in the way of voters and the ballot box.

Thank you,
Bridget Geraghty, Director of Donor Relations

Gregg,

Last time I checked the Cobb County BRE works for the citizens of Cobb County and that includes me.

Furthermore, I am NOT asking for a "legal opinion." I am asking you to clarify a statement that YOU made to ME!!! Here's the email you sent me on September 22nd, 2020 (at 3:49PM) in its entirety:

"Mr Balbona - I am in receipt of your emails regarding the request for the Zero taped that was printed at the poll before votes were cast. We are not in receipt of this tape - The tape that is in the possession of the Secretary of State and which you received is the original Zero tape that was run when we Zeroed out the scanner and rescanned all the ballots for that poll. The tape you have from the SOS shows there were no ballots before the rescan. It is the Official tape.. The tape you are seeking may be in the possession of the Clerk of Superior Court with all the other evidence- But I cannot guaranty that it is – as it was not the valid tape. We cannot access that evidence because it is under seal with the Clerk of Superior Court and would require a Superior Court Judge to unseal and search. You are more than welcome to request that from a Superior Court Judge.

Thank you

Gregg Litchfield

Could a member of the Cobb BRE please ask your "Legal Counsel" to clarify the statement he made to me regarding a Primary Election Document being "under seal"?

Sincerely,
George Balbona

Gregg,

Under what legal authority do you believe the Original MR5B Zero Tape for the Georgia June 9th 2020 Primary Election is being held under seal?

This is contrary to OCGA 21-2-72. [Please see below.]

"OCGA 21-2-72 Primary and election records to be open to public

Except when otherwise provided by law or court order, the primary and election records of each superintendent, registrar, municipal governing authority, and committee of a political party or body, including registration statements, nomination petitions, affidavits, certificates, tally papers, returns, accounts, contracts, reports, and other documents in official custody, except the contents of voting

machines, shall be open to public inspection and may be inspected and copied by any elector of the county or municipality during usual business hours at any time when they are not necessarily being used by the custodian or his or her employees having duties to perform in reference thereto; provided, however, that such public inspection shall only be in the presence of the custodian or his or her employee and shall be subject to proper regulation for the safekeeping of such documents and subject to the further provisions of this chapter. The custodian shall also, upon request, if photocopying equipment is available in the building in which the records are housed, make and furnish to any member of the public copies of any of such records upon payment of the actual cost of copying the records requested."

I look forward to hearing from you post haste.

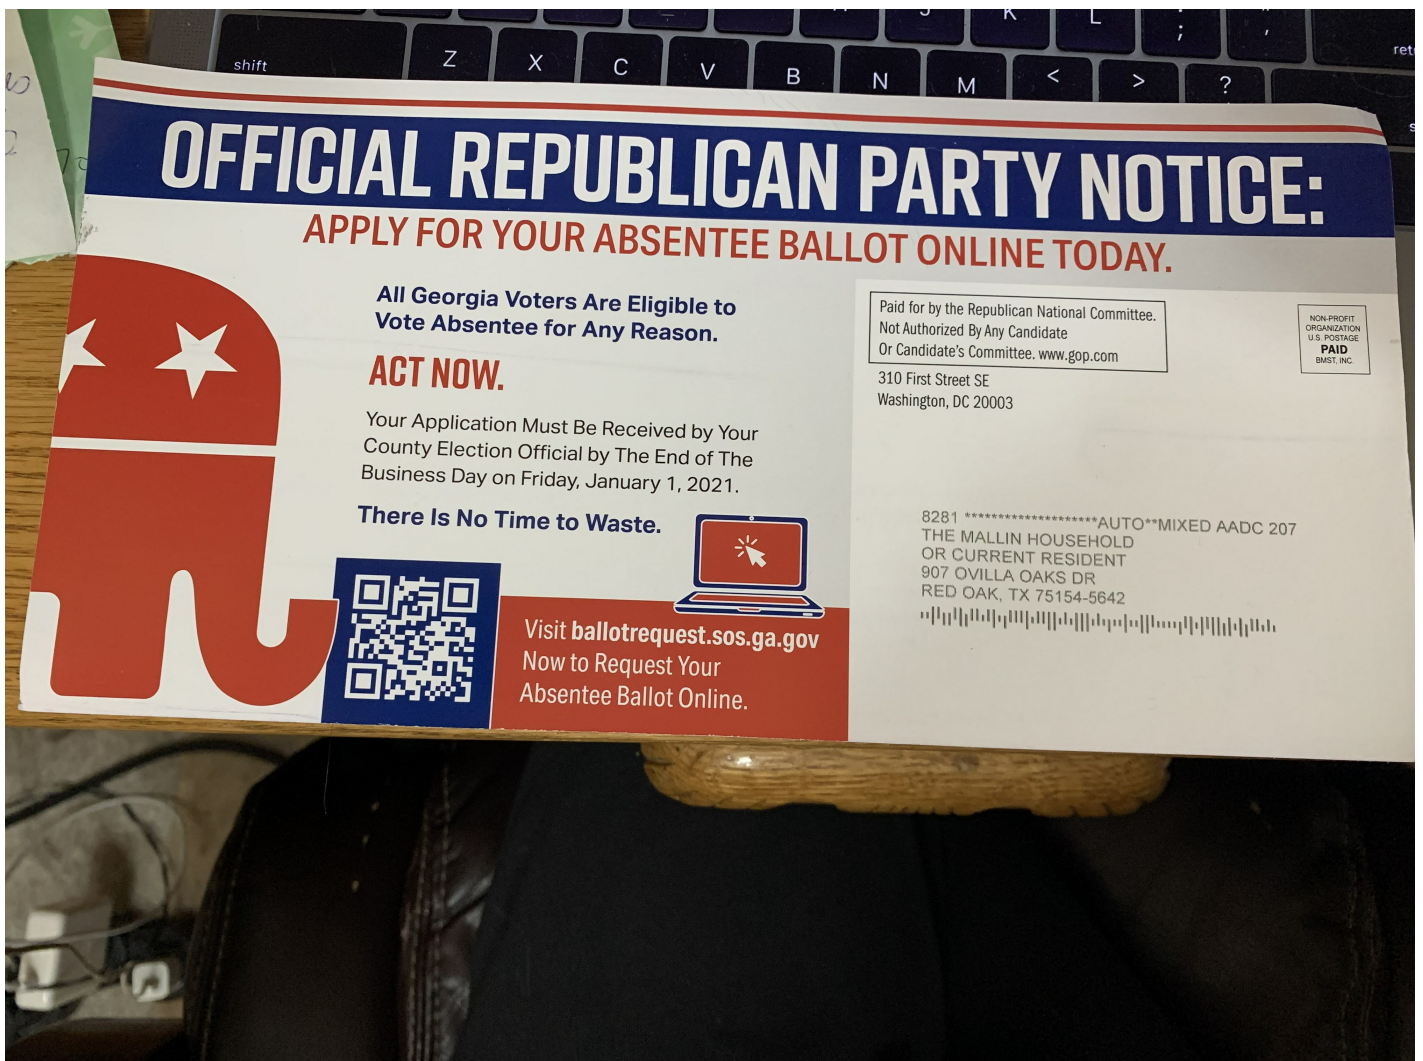

Sincerely,
George Balbona

Janine,

When I requested from you the list of Area Supervisors and which Polling Locations they were responsible for during the Primary Election this year, I received the list in less than 2 hours. This list included 144 Polling Locations!!! [Please see attached.]

I am now requesting the current Appointment List of Advance Voting Poll Managers and Assistant Managers for 5 Polling Locations. There are 9 Cobb Advance Voting Poll Managers. Each of them should have 2 Assistant Managers. So this means the list I am requesting should contain 27 people. There are currently 28 Area Supervisors in Cobb County. By every metric, the list I am requesting is simpler and smaller than a list which took you less than 2 hours to email to me. What has changed?

Sincerely,
George Balbona

Attachment(s): "Clerk of Court Evidence.pdf"

George,

Please review 21-2-500 and if you need further explanation, you may want to obtain your own legal counsel. I have also attached the list of items that go to the Clerk of Court, as provided by the SOS.

Janine Eveler

Subject: Re: Quick Question

Gregg,

Last time I checked the Cobb County BRE works for the citizens of Cobb County and that includes me.

Furthermore, I am NOT asking for a "legal opinion." I am asking you to clarify a statement that YOU made to ME!!! Here's the email you sent me on September 22nd, 2020 (at 3:49PM) in its entirety:

"Mr Balbona - I am in receipt of your emails regarding the request for the Zero taped that was printed at the poll before votes were cast. We are not in receipt of this tape - The tape that is in the possession of the Secretary of State and which you received is the original Zero tape that was run when we Zeroed out the scanner and rescanned all the ballots for that poll. The tape you have from the SOS shows there were no ballots before the rescan. It is the Official tape.. The tape you are seeking may be in the possession of the Clerk of Superior Court with all the other evidence- But I cannot guaranty that it is – as it was not the valid tape. **We cannot access that evidence because it is under seal with the Clerk of Superior Court** and would require a Superior Court Judge to unseal and search. You are more than welcome to request that from a Superior Court Judge.

Thank you

Gregg Litchfield

fax- 770-955-8900
gel@hlclaw.com

Could a member of the Cobb BRE please ask your "Legal Counsel" to clarify the statement he made to me regarding a Primary Election Document being "under seal"?

Sincerely,
George Balbona

Gregg,

Under what legal authority do you believe the Original MR5B Zero Tape for the Georgia June 9th 2020 Primary Election is being held under seal?

This is contrary to OCGA 21-2-72. [Please see below.]

"OCGA 21-2-72 Primary and election records to be open to public

Except when otherwise provided by law or court order, the primary and election records of each superintendent, registrar, municipal governing authority, and committee of a political party or body, including registration statements, nomination petitions, affidavits, certificates, tally papers, returns, accounts, contracts, reports, and other documents in official custody, except the contents of voting machines, shall be open to public inspection and may be inspected and copied by any elector of the county or municipality during usual business hours at any time when they are not necessarily being used by the custodian or his or her employees having duties to perform in reference thereto; provided, however, that such public inspection shall only be in the presence of the custodian or his or her employee and shall be subject to proper regulation for the safekeeping of such documents and subject to the further provisions of this chapter. The custodian shall also, upon request, if photocopying equipment is available in the building in which the records are housed, make and furnish to any member of the public copies of any of such records upon payment of the actual cost of copying the records requested."

I look forward to hearing from you post haste.

Sincerely,
George Balbona

Name: Paul D Burch
Phone: (404) 849-3436
Address: 2654 DEVIN CT SE
City: SMYRNA
State: GA
Zip Code: 30080
County: Cobb
E-mail: pdburch@gmail.com

Location of Violation: Cobb and Gwinnett counties.

Description of Violation: Someone stole my identity and registered me to vote in Gwinnett County. I discovered it after trying to order my absentee ballot for the runoff. I went down a rabbit hole after discovering Cobb (where I have lived for 13 years) no longer showed me registered to vote. I can send screen shots etc.

I will check to see what we can do. If it will require software be loaded on their devices that may be an issue, but not impossible. We might be able to setup a virtual pc here and allow them to remote to it. I am checking with Juanita to see what we can accommodate. Do you know how many people would need access?

Thanks
Kimberly

You may have heard that the state is doing a signature audit on the absentee ballot envelopes. We do that match using scanned images in OnBase. Can we give them access to our portion of OnBase so that they can do their audit offsite? We would rather not share space with more people. I don't know what would be involved with giving access.

Janine and Deidre,

I understand there is some confusion about assigning poll watchers for Advanced Voting.

See the SEB Rule below regarding Advance Voting Poll Watchers:

Rule 183-1-13-.06 Poll Watchers for Advance Voting

For the purposes of applying O.C.G.A. § 21-2-408(a)(2) and (b)(3)(A), a political party, a political body, or independent or non-partisan candidate may designate, or a candidate may submit to a political party, a different poll observer or set of poll observers for each day of advance voting.

The restriction on two per location at a time still stands.

Subject: RE: OEB 12-09-2020

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect

that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: RE: OEB 12-09-2020

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.
There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.
Online applications would not have a signature to compare, but the VR record would still need to be examined.
There is a wide variety of ways to situate this process to allow the public to observe the process.
Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director
Georgia Secretary of State

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

To: Ryan Germany <rgermany@sos.ga.gov>
Subject: Processing absentee ballots on Election day and following
Ryan,

Since SEB Rule 183-1-14-0.9-.15 only applies to processing prior to Election Day, my assumption is that the designation of poll watchers/monitors for absentee processing on ED and in the days following is governed by 21-2-408(c). There may be multiple days of processing, now that so many ballots are received on ED through drop boxes. Also, processing will likely continue for Provisional ballots into Saturday for duplication and scanning of those deemed valid. Are the parties allowed to appoint just two individuals to be poll watchers for the entire 3-4 day period as 408(c) seems to indicate? And are those individuals to be designated under the same conditions and timing as election day poll watchers? Until this year, we almost never had poll watchers designated for the tabulation center and conditions have changed this year as well. I believe the parties want to have monitors come and go like they do during early processing.

Good Evening. I was informed by my lead day worker of an incident involving a voter wearing a shirt with a candidates name. Unfortunately, I was told this person had already exited the secure area, before this was observed. I regret to say, I do not have the voters name. I have questioned every poll worker at my location and no one admits to advising a voter to "cover their shirt with a application". This is unacceptable and will be promptly addressed with everyone here.

Please let me know if you have any questions.

Thank You,

FYI

Do the poll workers have any identification for this voter?

Name: John Vaughan
Phone: (678) 925-8865
Address: 4501 Circle 75 pkwy, apt. 1327
City: Atlanta
State: Ga
Zip Code: 30339
County: Cobb
E-mail: Johndixonvaughan@gmail.com

Location of Violation: Ward Recreation Center early voting location

Description of Violation: Voter, age approx. 20, female, allowed to enter the voting premises wearing a Biden/Harris shirt. Poll workers did not make her turn it inside out but instead told her to use her election piece of paper (the one that says Oath of Elector) to cover the markings. It's posted in multiple locations that campaigning is prohibited, including GA-COBB-20-2949-A-000717

t-shirts, within the voting area. She should be forced to change, as this is a clear violation of the law.

Female, navy shirt Biden, white pants. Came to polling location with much older man in purple shirt and jeans.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all!" So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Janine,

I understand that is your interpretation of the rule. The point I was trying to get across in my emails this morning is that is not our office's interpretation of the rule. As Chris has advised multiple times this election cycle, in interpreting the law abs rules, you should always err on the side of transparency. We do not see anything legally wrong with what the GOP has proposed for how to set up their advance voting poll watchers.

Thanks,
Ryan

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

I have gone over OCGA 21-2-408 and Rule 183-1-13-.06 with our Board's attorney who is copied here and our understanding is that the party may designate no more than two poll watchers per location, per day of advance voting.

21-2-408(b)(3)(A) allows the party to designate no more than two poll watchers per precinct (also polling location in 21-2-408(a)(2)). The letter provided by the party three days before the start of the voting period and the badge provided by the superintendent must have the name of the watcher and the precinct/polling location in which he may serve.

Rule 183-1-13-.06 states that for the purposes of applying these two subsections in 21-2-408, the party may designate a different set of poll observers for each day of advance voting. The term "set of poll observers" is not defined in the rule, but our interpretation is that it refers to the original designation of two watchers per precinct/polling location. Therefore, the badges that we provided show a location and date, such that only two watchers are designated per location for each day of advance voting.

Subject: Poll Watchers

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Jennie,

After Brian reviewed this voter. He saw that the record has the UOCAVA communication method selected as "Electronic" but the ballot for January Runoff is marked as "Mail" and this is the reason the UOCAVA Ballots is not displaying for the voter on MVP. To resolve this the mismatch needs to be corrected and the ballot will show up for the voters on MVP. The county needs to change this.

Best regards,

Lisa Kinnemore

Hello,

I am trying to help a voter, Mr. Samuel Galbraith, 03080922. He shows as having been issued a January OST ballot via email. His email address is correct. But when he goes to MVP page, he is not given the option for a UOCAVA ballot. I was able to send him a ballot, but I am trying to figure out why he did not receive his email (I checked on that, as well) and why he has no ballot link.

Any thoughts?

Jennie Mayes

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,

Joseph

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offer: meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: Follow-up on America Votes Fraudulent Activity: problem worsening

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hi Ms. Watson,

I continue to be barraged, now with texts, now about requesting my absentee/mail ballot in Georgia ahead of the runoff. What was apparently begin by America Votes has snowballed to more special-interest groups than I knew existed. For this reason, replying "stop" does little good.

Are YOU able to do anything to erase my voting record in Georgia? If not, who can help? I've seen your office has made well-founded accusations again America Votes.

This thread has only your follow-up question and my reply. My first email gave the background: I've been a registered Arizona voter for almost four years, and I have net been a registered DeKalb voter for many more years than that.

The most recent texts, all hours, came from SEIU, Alliance for Youth Action, GA Dems, For Our Future, Democracy for America, Georgia Shift Action, Indivisible Action, and Black Voters Matter. It's become harassment.

King regards,
Brian

Hi Ms. Watson,

Here are the scans, including the supplied return envelope. No other inserts.

Any outcome may be none of my business, but a follow-up later would be greatly appreciated.

My best to you,
Brian

Subject: Temporary Address Issue

Attachment(s): "Cobb.xlsx"

Good afternoon,

In reviewing our records, we determined that 22 voters statewide with temporary mailing addresses had ballots initially mailed to an incorrect address for the January 5, 2021 Runoff Election. Any voters for your county potentially affected by this issue are in the attachment.

Along with the voter ID, we are also including the email address and/or phone number for the voter. Please contact the voter to determine the appropriate address to mail the ballot to. Alternatively, since the election is only one week away, you should encourage the voter to vote early in person or on Election Day.

Thank you,

Leigh Combs

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

Subject: RE: proposed order

All:

Mr. White contacted me showing he and his clients have obviously been noticed. An email was also sent prior to Director Eveler as well as a series of emails regarding pending litigation attached in the complaint.

For purposes of a TRO, notice has been satisfied. Moreover, the code states on what notice "if any" was given. That is because you don't even need notice for a TRO to be granted.

My clients are entitled to a TRO whether notice was given or not – which it was considering Mr. White just emailed everyone. This is the TRO stage, not the preliminary injunction stage.

If Mr. White wants to consent to the proposed order since his clients are now claiming they are following the direction of the Secretary of State's Office, I will be happy draft one.

Merry Christmas everyone,

Jason

Subject: FW: proposed order

Mary Catherine, Mimi, and Tom,

Cobb County Board of Elections was informed of the attached pending lawsuit and proposed TRO order this afternoon. The matter
GA-COBB-20-2949-A-000745

was apparently filed this morning and assigned to Judge Ingram, but the order is prepared for Judge Leonard to sign. However, I know these matters often end up in front of a senior judge, which is why I've included all three out of you out of an abundance of caution to let you know that Cobb County BoE objects to any order being entered without a properly noticed hearing or an opportunity to respond in writing. We do not believe Plaintiffs' counsel made sufficient efforts under 9-11-65(b) to give notice of this action prior to seeking a TRO and given that the next two days are a State Holiday, we would ask that no hearing be set until next week at the earliest so that the parties have sufficient time to respond and prepare for a hearing.

I have copied Plaintiff's counsel on this email. Additionally, because this lawsuit ostensibly seeks to have Cobb County BoE follow the Secretary of State's procedures regarding observation of the absentee voting and advance voting process, and Cobb BoE has already agreed to follow the Secretary of State's regulations and bulletins regarding these processes, I have also copied Ryan Germany, general counsel for the Secretary of State's Office, on this email.

Subject: proposed order

Daniel:

Got your call. I tried to file this proposed order earlier and the clerk's office rejected it with the original filing telling me to refile everything without it – then to file in after the original filing is accepted.

I did that and they rejected the proposed order again and wanted me to send it via email to the judge's office.

I sent it to the Senior Judge's staff attorney and realized I did not cc you on it. Here it is. You may already have it from my initial email to Director Eveler.

Hello,

I am trying to help a voter, Mr. Samuel Galbraith, 03080922. He shows as having been issued a January OST ballot via email. His email address is correct. But when he goes to MVP page, he is not given the option for a UOCAVA ballot. I was able to send him a ballot, but I am trying to figure out why he did not receive his email (I checked on that, as well) and why he has no ballot link.

Any thoughts?

> All:
> I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

> Subject: RE: Signature Verification

>

> The signature audit has been illuminating. My absentee coordinator is training the GBI agents at 9am today, because they have not done this before and don't know what to look for. It has taken all week to set them up at a county facility, on the county network, and give them access to the signature depository.

Agreed. We have our area set up for them to be 12 feet away. No cameras, no binoculars, etc. will be allowed.

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Something I forget to ask today. What is the last date a party has to submit their poll watcher designation letters to the Superintendent? Is it December 31 or January 1?

Subject: SEB Rule

Janine and Deidre,
I understand there is some confusion about assigning poll watchers for Advanced Voting.

See the SEB Rule below regarding Advance Voting Poll Watchers:

Rule 183-1-13-.06 Poll Watchers for Advance Voting

For the purposes of applying O.C.G.A. § 21-2-408(a)(2) and (b)(3)(A), a political party, a political body, or independent or non-partisan candidate may designate, or a candidate may submit to a political party, a different poll observer or set of poll observers for each day of advance voting.

The restriction on two per location at a time still stands.

Subject: RE: Canadian voter (FYI)

Trent,

I believe that that part of 21-2-219 is for a person who has never lived in the USA. There is information about UOCAVA residence here: <https://www.fvap.gov/citizen-voter/voting-residence>

I have also added Lisa Kinnemore, military liaison, to this and she can probably explain it better.

We have changed the voter's designation to OSP, so she will only get federal ballots now.

Subject: Re: Canadian voter (FYI)

Hey Janine,

Regarding this voter again. Over the phone when we discussed this, I was under the impression that the voter needed to be registered as having the local court house as her address, however you advised that her previous address was okay to use, unless I misheard you. For the purposes of my report I have been unable to find the previous address part in the election law. Some of these code sections can be easy to miss and it would be helpful if you are able to direct me to the proper section.

What I've been able to find so far is 21-2-219 C: Permanent overseas citizens shall only be authorized to vote for presidential electors and United States senator or representative in Congress. Permanent overseas citizens shall be deemed to be residents of the precinct in which the county courthouse is located.

Also, since she was listed as a Temp overseas voter, did she get the full ballot that others who live in her area would have received, or did she just get federal candidates?

Thanks again,

Trent Anding

Hey Janine,

We talked about this one before briefly, Just wanted to give you an update since she is still registered as a voter in your county. After an interview she advised me that she is a permanent resident of Canada but is still a U.S. Citizen. She advised me that she has received a ballot in the mail for the upcoming election.

Subject: Buzz Post

Election Officials:

Please see the following Buzz post:

Please note that your county must post notice on your website and must send our office notice of the dates and location(s) "where absentee ballots will be processed and any rejected ballots will be adjudicated..." no later than close of business today to be in compliance with State Election Board Rule 183-1-14-0.9-.15. According to the rule, "all county election superintendents shall begin processing absentee ballots no later than the second Monday before Election Day." For the January 5th election, all counties must begin early processing by Monday, December 28th. We must receive your notice of early processing seven days before you begin.

If you have not already posted your notice on your website and sent it to your liaison, please do so by 5pm today. Once we receive your notice, we reflect the information on our website here: https://sos.ga.gov/index.php/elections/intent_to_tabulate_early

Thank you!

Rejected Absentee Ballot Survey

November 3, 2020 – General Election

Name:

County:

Section 1: Rejected Absentee Ballots – This section will ask you the total number of absentee ballots rejected in the November General Election.

1. What was the total number of absentee ballots rejected in the November General Election in your county?

Section 2: Rejected Absentee Ballots – This section will ask you to break down the total number of rejected absentee ballots by rejection reason.

1. How many absentee ballots in the November General Election were rejected due to the ballot being received after the deadline?
2. How many absentee ballots in the November General Election were rejected due to the voter being ineligible to vote?
3. How many absentee ballots in the November General Election were rejected due to an invalid signature?
4. How many absentee ballots in the November General Election were rejected due to a missing Signature?
5. How many absentee ballots in the November General Election were rejected due to the voter not providing required ID(MIDR)?

Please email your completed survey to your Liaison by close of business today.

Subject: follow up to Mr. Ellet's ballot

It appears that a fellow resident of a retirement home signed his own name (Leon Isaacs) to the ballot, so it may not be a nefarious situation but a misdelivered ballot. We will follow up with Mr. Isaacs, who did request an Absentee Ballot (rollover) and has not had a ballot accepted. We will send him an Affidavit to reissue. I am still uncertain about what to do with Mr. Ellet's original ballot, however.

Thanks!

What they are doing seems to be campaigning and should not be allowed to within 150 feet of a polling place. They say "these food trucks will be our last chance to reach Georgians before they vote." They also seem to be giving some of value for voting—otherwise it wouldn't matter if they were reaching people before they vote and it's not allowed to matter if the people are voting or not.

Subject: Cobb County Food Truck at Advanced Voting at Cobb Election Board on Whitlock - Sen Kay Kirkpatrick - Pam Reardon

Frances,

Per our earlier discussion, can someone on our team please contact Pam Reardon at 404-272-1767? She says she has video of a food truck with folks less than 25' from the voters at the Cobb Election Board on Whitlock? Sen Kirkpatrick is asking if this is legal and wants us to answer. Allegedly, the Cobb sheriff came by and said they shouldn't be on county property, but was allegedly dissuaded by election staff.

I included the email about this below:

From: Bridget Geraghty <info@vote.org>
Date: December 10, 2020 at 7:27:45 PM EST
To: kaykirkpatrickmd@gmail.com
Subject: Food trucks
Reply-To: info@vote.org

Kay,

During the general election, we sent Vote.org-branded food trucks to polling places with long lines to provide free food, water, and crucial nonpartisan information about voting rights.

Now we're gearing up to do it again for the January 5, 2021, runoff elections in Georgia.

These food trucks will be our last chance to reach Georgians before they vote.

[If we raise \\$153,000, we'll be able to send five food trucks stocked with free meals to early voting sites in Georgia. Chip in today — every dollar will help feed communities and increase voter turnout.](#)

DONATE NOW

If we can fully fund this program, food trucks will be parked in strategic locations across the state and voter ambassadors will refer Georgians who need support to 866-OUR-VOTE, the nonpartisan Election Protection hotline.

Each food truck will hand out between 500 and 750 free meals. **During a pandemic that has caused increased food insecurity for many communities, this program serves multiple community needs.**

Thanks to supporters like you, **we're already running a multilayered campaign to reach and turn out every eligible Georgia voter** for these consequential runoff elections. The results have the potential to determine control of the U.S. Senate.

Historically, runoff races have significantly lower turnout than general elections, especially in Georgia. This year, voters are expected to face additional barriers due to COVID-19 and misinformation about the election process. **We're doing everything we can to make sure every eligible Georgia voter has the accurate, timely information they need to make their voice heard.**

We can't do it alone. We need *your* support to help us reach even more communities in the days ahead. Our full Georgia food truck program will cost \$153,000 to supply and staff.

[Chip in now to ensure we're able to reach Georgia voters with crucial election messaging through our food trucks. The more money we raise, the more free meals and voter information we'll be able to distribute.](#)

DONATE NOW

Your support helps us continue to reduce barriers so that *nothing* stands in the way of voters and the ballot box.

Thank you,
Bridget Geraghty, Director of Donor Relations

E-mail: guy@coresouth.com
Complaint Type: Turned Away at the Poll
Election Date:
County: Cobb
City:

Description of Complaint: Anthony Cavalcante 06/26/1956 - The State has made it where I cannot vote in this election. As a business man I am voting absentee. Having applied for an absentee ballot I called and was told the ballots were not being mailed out until December 14th which was after my departure date. I then went in to the office in Cobb County to request it be sent to my location out of state. Before I left for my trip I received the ballot at home in Georgia. I filled it out and mailed it in. Cobb County then canceled that ballot. Cobb then mailed the ballot out of state. Per USPS they returned it to sender without delivery. To date Cobb County has not received it and therefore cannot send another. There is little time to finish the required circuit. I have a vote in but it is cancelled. My vote is cancelled this is an outrage

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Correct. They may designate two watchers per location per day. They want six or eight people per day for each location each day.

I have run this by my attorney. 408 says Each party can designate two people per voting location. That includes providing the name and polling location for each watcher. The rule expanded on that to allow a different set of two per voting location for advance voting.

Janine Eveler
Director
Cobb County Elections

Janine,

For what it's worth, we would agree with Vincent's interpretation. They can have max two at a time, but the law doesn't prohibit them having different people take shifts.

Thanks,
Ryan

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Good morning,

We have set up a series of recurring open zoom calls to help assist you in preparation and execution of the January 5 election. We have 3 times set up for various county sizes but please feel free to call into any session and stay as long or as little as you'd like. We will have representatives from operations and engineering on the calls to answer questions and assist you as needed.

Thanks you, we look forward to another successful election with you all.

Subject: Residence Address Issues

Attachment(s): "Cobb Residence Address Voters.xlsx"

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their permanent residence address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their permanent residence address on file. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's permanent residence address on record.

Thank you,

Leigh Combs

Subject: Advance Voting Poll Managers at Main Office Polling Location

Janine,
I visited the Main Office Polling Location today as a Public Observer.

I asked a Poll Worker who was the Poll Manager and she told me Henry Holliman. Henry soon explained to me that he was the "Lead for the Day" This is a term and position I have not encountered before. I asked Henry who was the Poll Manager and he didn't seem to think that there was a Poll Manager. Henry instructed me to speak with Allison Shaffer, the Absentee Voting Supervisor. Henry stated that she was in charge. I met with Allison and she was less than informative. I asked her who was the Poll Manager and she told me to speak with you. I asked her who were the Assistant Managers and she told me to speak with you. I asked her about the hierarchy of Poll Workers for Advance Voting at the Main Office. You can guess here reply. As I made my way to the designated observation area, I heard Allison berating a Poll Worker for giving me information!!! I observed for a while from the designated area. A Poll Watcher informed me that a red headed woman in a safety vest had been telling Poll Workers what to do all day. I asked the red head to please flip over her name tag. She complied and promptly left before I could read it. Upon leaving I saw Henry and the red headed woman standing together in front of the building. I noted that the woman's name tag read "Cecily Tripp." Suddenly, Henry was aggressive towards and willfully not answering any of my questions anymore. I mentioned that I had heard Allison giving them a tongue lashing. Henry and Cecily denied this. Henry asked me "Are you here to vote?" I answered "No, I voted on December 3rd." He told me if I had any questions I needed to speak to Janine Eveler. Cecily Tripp parroted his recommendation. As I turned to go, Cecily walked up to a Security Officer and told him to "Keep an eye on him" while pointing at me. I had already introduced myself to both of them as a Public Observer. Disgusted by my treatment, I turned and left. I noticed something very striking during my time at the Main Office Polling Location on Thursday December 17th 2020: there was no sign of either of the two Poll Managers you had listed on the Poll Manager Appointment List for Advance Voting at the Main Office for the January 5th 2021 Runoff!!! When I asked multiple Poll Workers who was their Poll Manager, no one seemed to know!! Furthermore, when I asked them if Deborah Ross and/or Tawana Orders were the Poll Managers at this location, no one (including Allison Shaffer, Henry Holliman and Cecily Tripp) seemed to know!!! This is unacceptable!!!

I visited another Polling Location and spoke at length with the Poll Manager. Yes, they had a "Poll Manager"!!! Does the Main Office have a different hierarchy than all of the other Polling Locations?! The fact that neither of the Poll Managers which you listed on the Appointment List you sent me were present at the Main Office, leads me to believe that you may have supplied me with A FRAUDULENT APPOINTMENT LIST!!!

You stated that Assistant Managers would come from the last lists you sent me; nevertheless, one of the Assistant Managers at one of the Polling Locations I visited today was NOT on either of the lists you sent me. You stated that "It could be any of these people."

Could you please clarify whether you are knowingly providing me with false information or whether you simply do not know what is going on during Advance Voting?

Thanks.

Sincerely,
George Balbona

This is related to the November election. We show that they requested an AB on 4/21/2020 which was mailed on 9/18. They arrived to vote in-person at the S. Cobb Library and cancelled the AB. I would have to research whether there is a cancel affidavit for him or not. That location was very small and we were using two adjoining rooms, so she was directed into the second room. We will see if we can find out how they applied in April.

Thank you so much for sending the copies, I do appreciate your help and time. It is a great relief to know there was a signed request. Everyone in line at the poll was told to complete the forms as though it was a normal part of voting procedure. At that time we only did it as part of the process, not because we actually wanted an absentee ballot, and the forms were forgotten until we just saw your copies. I do apologize for stating I never requested an absentee ballot in my life as the form title clearly states I did; however, without a clear understanding of it's intended use. My opinion of the voting machines does remain unchanged with no faith in the voting results. Thank you again for your prompt and thorough investigation.

On Dec 16, 2020, at 10:25 AM, Eveler, Janine <Janine.Eveler@cobbcounty.org> wrote:

Ms. Eisenschmidt,

Attached are the two applications we received in April for you and your husband. You both checked the box that you were over 65 and would like ballots mailed to you for every election in this cycle. That is why there were absentee ballots already issued on your record when you went to the South Cobb Library to vote on 10/23/2020. You both should have filled out the form to cancel the absentee ballots, so I am not sure why only you were asked to fill it out. At that time, we cancelled the ballots issued for the November election and any future ballots being sent for runoffs. The South Cobb location was very small and we were using two adjoining rooms, so that is why you were directed into the second room. I hope we see you both come out and vote for the January Runoff.

Sincerely,

Janine Eveler

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all!" So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to

GA-COBB-20-2949-A-000809

place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: SEB Rule

Janine and Deidre,

I understand there is some confusion about assigning poll watchers for Advanced Voting.

See the SEB Rule below regarding Advance Voting Poll Watchers:

Rule 183-1-13-.06 Poll Watchers for Advance Voting

For the purposes of applying O.C.G.A. § 21-2-408(a)(2) and (b)(3)(A), a political party, a political body, or independent or non-partisan candidate may designate, or a candidate may submit to a political party, a different poll observer or set of poll observers for each day of advance voting.

The restriction on two per location at a time still stands.

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."
Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.
If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey
Elections Director

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states "Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att'y Gen." Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

to see if someone created an online account with your information. – I opened a case with them and DDS confirmed this is what happened. I've attached a copy of my DL. How quickly can we get me switched back?

Paul Burch 404-849-3436

On Wed, Dec 16, 2020 at 8:08 AM Reaves, Kevin <Kevin.Reaves@cobbcounty.org> wrote:

Good morning Mr. Burch,

Your information was forwarded to us for further investigation into your voter registration issue. As a precaution, because this occurrence has happened to a number of voters in Cobb being transferred to other counties, I would suggest that you contact the Department of Driver Services in Gwinnett County to see if someone created an online account with your information. We have discovered that in most of these cases, someone created an online account through DDS and used voters information to register them in another county for whatever purpose they intend to use their identity. If this is the case with you, they should be able to provide you the email address used for that account that may help you with law enforcement, should you want to report this further.

In regards to your registration, if you could provide us with a screen shot of your Driver's license to start the process so that we can verify the issue date and compare that to what is currently on DDS, we can then notify Gwinnett County and transfer you back to Cobb. This is the discrepancy that has been found proving that the voter never moved to another county.

If you should have any questions, please feel free to contact us.

Best regards,

As far as space for observing the signature verification - I am taking Chris at his word in the email response he sent Janine. I have a large window (half the wall) into the room where my EMS is located. This room is also where our returned ballots are stored and the voter registration cards are in an adjoining room. I am willing to set up a workstation in that room and people can watch someone sit at a computer and process ballot signatures. They can stand at the window as long as they don't impeded flow. That is the best I have to offer, as every other bit of space is allocated to Advance Voting.

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,

Joseph

What they are doing seems to be campaigning and should not be allowed to within 150 feet of a polling place. They say "these food trucks will be our last chance to reach Georgians before they vote." They also seem to be giving some of value for voting—otherwise it wouldn't matter if they were reaching people before they vote and it's not allowed to matter if the people are voting or not.

Frances,

Per our earlier discussion, can someone on our team please contact Pam Reardon at 404-272-1767? She says she has video of a food truck with folks less than 25' from the voters at the Cobb Election Board on Whitlock? Sen Kirkpatrick is asking if this is legal and wants us to answer. Allegedly, the Cobb sheriff came by and said they shouldn't be on county property, but was allegedly dissuaded by election staff.

I included the email about this below:

From: Bridget Geraghty <info@vote.org>
Date: December 10, 2020 at 7:27:45 PM EST
To: kaykirkpatrickmd@gmail.com
Subject: Food trucks
Reply-To: info@vote.org

Kay,

During the general election, we sent Vote.org-branded food trucks to polling places with long lines to provide free food, water, and crucial nonpartisan information about voting rights.

Now we're gearing up to do it again for the January 5, 2021, runoff elections in Georgia.

These food trucks will be our last chance to reach Georgians before they vote.

[If we raise \\$153,000, we'll be able to send five food trucks stocked with free meals to early voting sites in Georgia. Chip in today — every dollar will help feed communities and increase voter turnout.](#)

DONATE NOW

If we can fully fund this program, food trucks will be parked in strategic locations across the state and voter ambassadors will refer Georgians who need support to 866-OUR-VOTE, the nonpartisan Election Protection hotline.

Each food truck will hand out between 500 and 750 free meals. **During a pandemic that has caused increased food insecurity for many communities, this program serves multiple community needs.**

Thanks to supporters like you, **we're already running a multilayered campaign to reach and turn out every eligible Georgia voter** for these consequential runoff elections. The results have the potential to determine control of the U.S. Senate.

Historically, runoff races have significantly lower turnout than general elections, especially in Georgia. This year, voters are expected to face additional barriers due to COVID-19 and misinformation about the election process. **We're doing everything we can to make sure every eligible Georgia voter has the accurate, timely information they need to make their voice heard.**

We can't do it alone. We need *your* support to help us reach even more communities in the days ahead. Our full Georgia food truck program will cost \$153,000 to supply and staff.

[Chip in now to ensure we're able to reach Georgia voters with crucial election messaging through our food trucks. The more money we raise, the more free meals and voter information we'll be able to distribute.](#)

DONATE NOW

Your support helps us continue to reduce barriers so that *nothing* stands in the way of voters and the ballot box.

Thank you,
Bridget Geraghty, Director of Donor Relations

First of all, I sincerely apologize for this. I apologize for creating confusion and trouble. I have spoken with Jordan Fuchs and withdrew the comments/statement. She is taking care of this immediately. Again, I hope you will all forgive me. I am truly sorry. I have requested that Jordan send me a copy of the corrected statement. I will copy all of you on this as soon as I receive it from her.

Sincerely,

Deidre B. Holden

Deidre,
I am shocked and disappointed that you gave Association support on legislation. If you discussed with the Executive Board, I was not included as Past President. The Association has always stated it would not support or oppose legislation. One individual does not have the authority to change that. I do not support this and believe you would find many if not most members wouldn't either.

I respectfully ask that you withdraw your statement that the Association supports this.

I look forward to your response

All:
I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

Thanks! Merry Christmas!

Copied and pasted this quote from the Washington Times article....

"which will be conducted in a partnership with the University of Georgia, will analyze a random sample of mail-in ballots. It will review the Election Day signature-matching process used across the state and check the signatures on random samples of ballots from each county."

What is the Election Day signature-matching process that is referenced in the quote?

Nancy

I really want to know what our timeline will be. I had time off – lots of it – planned after the January 5th Runoff is certified. Wondering if I will be cancelling airline tickets. I really don't think it is too much to ask to be notified before the press. I really am becoming a very bitter Grinch this morning.

Veronica

Subject: RE: Signature Verification

The signature audit has been illuminating. My absentee coordinator is training the GBI agents at 9am today, because they have not done this before and don't know what to look for. It has taken all week to set them up at a county facility, on the county network, and give them access to the signature depository.

Subject: FW: Signature Verification

Does anyone know anything about the audit that is going to happen in all 159 counties? Now for my HUGE GRIPE.....I think it is the worst, really inexcusable, to have to get our information from the media and press releases. Someone in the SOS office should be able to send out an email before we read it in the paper.....

Veronica

Subject: Re: Signature Verification

Raffenspoerger Announcement

"Deputy Secretary of State Jordan Fuchs said. "After the countywide audit, we will look at the entire state. We will look at the entire election to make sure signature match was executed properly."

Subject: Active Voters by Precinct & Combo for 1/5/2021 Runoff
Attachment(s): "January 5 2021 EMS Active Voters by Precinct and Combo.xlsx"

Good Afternoon Election Officials,

Attached is a report containing the number of Active Voter by Precinct and Combo for the 1/5/2021 Runoff. The report is also listed under Downloads on Firefly with the file name " January 5, 2021 EMS Active Voters by Precinct and Combo." This information can be used to enter the number of active registered voters by precinct and combo into your EMS servers for the 1/5/2021 election.

You may notice that there are active voters in the precincts of 88888 and 99999. This indicates that you have active voters that are not currently assigned to a precinct , combo, or polling place. If you see this listed for your county, you should take immediate steps to resolve this issue. To locate these voters, navigate to Reports > Public Reports > Voter Reports > Alpha Voter List. On this screen you can select county precincts 88888 and 99999 and select the voter status of Active to retrieve a list of these voters.

Have a great day!

Leigh Combs

Subject: RE:

IF an email address is available on the application, a standard email is sent. A copy of the email is attached to the ballot and also scanned as correspondence. The voter always gets a letter in the mail regarding the rejection, along with the affidavit. We did not reach out to voters in phone calls as a general rule, so as to have a record of what the voter was actually told and how to cure it. It was a lot of information and even with correspondence the voter was occasionally confused.

Subject: Re[2]: OEB 12-09-2020

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,
Joseph

On Dec 10, 2020, at 9:01 AM, Eveler, Janine <Janine.Eveler@cobbcounty.org> wrote:

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*"The elections superintendent must ensure that any public viewing area or video feed offer **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information** and prevent interference with official duties."*

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

OATH OF ELECTOR

I, the undersigned, do swear (or affirm) that I am a citizen of the United States and of the State of Georgia; that I possess the qualifications of an elector required by the laws of the State of Georgia; that I am entitled to vote in the precinct containing my residence in the primary or election in which this ballot is to be cast; that I am eligible to vote by absentee ballot; that I have not marked or mailed any other absentee ballot, nor will I mark or mail another absentee ballot for voting in such primary or election; nor shall I vote therein in person; and that I have read and understand the instructions accompanying this ballot; and that I have carefully complied with such instructions in completing this ballot. I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.

SIGN HERE:

Signature or Mark of Elector

Printed Name of Elector

No Elector assist needed
Hannah C. Sparks
Oath of Person Assisting Elector (if any): I, the undersigned, do swear (or affirm) that I assisted the above-named elector in marking such elector's absentee ballot as such elector personally communicated such elector's preference to me; and that such elector is entitled to receive assistance in voting under provisions of subsection (a) of Code Section 21-2-409.

This, the 1 day of Dec, 2020.

Signature of Person Assisting Elector

Printed Name of Person Assisting Elector

Reason for assistance (Check appropriate square):

- ☐ Elector is unable to read the English language.
☐ Elector requires assistance due to physical disability.

Subject: OnBase access for sig audit
Attachment(s): "OnBase Account Request Form(Elections).pdf"

Attached is the form for OnBase access. We are coordinating for you to be at the Civic Center on the upper level. There may be other things going on in that building on the gym floor, but you would be able to work on the terrace overlooking and above the gym floor. We are still finalizing the arrangements. Can you tell me what days and times you would need access to the facility?

OnBase Vendor Account Request Form - Cobb OnBase Test/Dev/Prod

This form is intended for use by all vendors who require access to the Cobb County OnBase **Test/Dev/Prod** Systems. A separate form is required for each individual needing access. *Users granted a User ID with access to the Cobb County's computing assets and/or network shall secure their User ID's to prevent unauthorized use. Users shall have an assigned User ID and associated password. To protect and secure the Cobb County network, sharing passwords with any other individual for any system or remote access is prohibited. User ID's should be cancelled immediately by notifying Cobb IS in writing when access is no longer required by the User.*

Asterisk (*) indicates a required field.

I will take care of this tomorrow. I was assured that it was handled. Again. I sincerely apologize. I have spoken to two media outlets and told them that was not from the association.

I hope you all had a Merry Christmas and were able to spend time away from the office with those you love.

Looks like Association support wasn't taken out of the speech or at least not the press release. It's in this from 11Alive.

<https://www.11alive.com/mobile/article/news/politics/elections/georgia-secretary-of-state-wants-to-get-rid-of-no-excuse-absentee-voting/85-ce5ace48-7b66-4fd5-b99e-c522e0b1f1c>

I'm not sure if there is anything that can be done now or not but if there is a way for it to be corrected I would like to request that it is. Does anyone know if that would be possible?

It's quite a while to the 2021 conference but if this news travels the state, there may be pushback and comments about it when we're all together. Only mentioning so it's in the back of our minds just in case.

Hope you all have a good day,
Kristi

I apologize that I am just now responding to this thread. I also would not support this action in the upcoming meeting of the General Assembly. I recall when absentee voting was restricted to voters with a reason; elderly, disabled, religious holiday, military, out of town. I also recall when only the last week was offered as early voting while many voters crammed into our offices to cast their votes....going from 45 days of early voting to now having NR absentee voting and 21 days of advance voting. We should not go backwards, but find better ways of providing voting in a more effective and efficient ways is the answer. What will it take to get us there? I'm not sure, but studying some other States' electoral processes is a start. On a more personal note, I am not too pleased with all we have had to deal with this year on top of dealing with a pandemic. Nothing happened as we were told, from receiving our new equipment, grant reimbursements, etc. Just not good for us in Georgia. Our voters have been very negative towards us...regaining the integrity and trust is no where it should be from an election standpoint....but I have hope that many of us will stick around to see things get better. This year has been tough for almost 90% of us. Let us really work to make sure we do not lose ourselves in the future decision making and support one another as a team. So much has happened; in fact, much more than I can state without being disrespectful, so I will stop here by saying, bless us all through the rest of the Election cycle.

> I just sent a statement as requested by Jordan Fuchs on behalf of the Association stating that we would support legislation requiring voters to give a reason, like they used to be required to, in order to receive an absentee by mail. There is some type of hearing going on right now and it was necessary. I feel strongly about this and I hope you all so as well. I think people would take absentee more seriously.

Subject: Web E-Mail [Stop Voter Fraud] From David L Odom

Name: David L Odom
Phone: (770) 973-9575
Address: 4572 Karls Gate Dr
City: Marietta
State: GA
Zip Code: 30068
County: Cobb
E-mail: david_odom@yahoo.com

Location of Violation: East Cobb Government Center
4400 Lower Roswell Rd
Marietta Ga

Description of Violation: I voted on Dec 14. While checking the Id information I submitted, (Driver's license and a completed identification form with name, address, DOB, and signature) the poll worker asked me if I had my absentee ballot with me. I told her I did not have one nor had I requested or received one. She told me I must have unknowingly checked something to request one.

I Did No Such Thing!

I was given a second form to fill out and sign which I presume would invalidate a subsequent arrival of my mail in ballot which I Did Not Request and Never Saw. After I handed the poll worker the completed second form, I noted the ballot number she had recorded on my original identification form. When she saw me looking at my form with my PPI information, she covered it up.

For now I am keeping my ballot number to my self. My questions are the following:

1. How can I check to make sure that my in person ballot that I fed into your scanning machine on Dec 14 is the ballot that is counted on Jan 5 and any subsequent recount?
2. How can I check between now and Jan 5 to find out if an absentee ballot in my name has been submitted?
3. Why would the poll worker cover up my original form?

Thank you for your consideration,

David Odom

Subject: RE: OEB 12-09-2020

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris Harvey

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to

GA-COBB-20-2949-A-001000

our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the

GA-COBB-20-2949-A-001002

voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

You may have heard that the state is doing a signature audit on the absentee ballot envelopes. We do that match using scanned images in OnBase. Can we give them access to our portion of OnBase so that they can do their audit offsite? We would rather not share space with more people. I don't know what would be involved with giving access.

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Subject: RE: Poll Watchers

I have gone over OCGA 21-2-408 and Rule 183-1-13-.06 with our Board's attorney who is copied here and our understanding is that the party may designate no more than two poll watchers per location, per day of advance voting.

21-2-408(b)(3)(A) allows the party to designate no more than two poll watchers per precinct (also polling location in 21-2-408(a)(2)). The letter provided by the party three days before the start of the voting period and the badge provided by the superintendent must have the name of the watcher and the precinct/polling location in which he may serve.

Rule 183-1-13-.06 states that for the purposes of applying these two subsections in 21-2-408, the party may designate a different set of poll observers for each day of advance voting. The term "set of poll observers" is not defined in the rule, but our interpretation is that it refers to the original designation of two watchers per precinct/polling location. Therefore, the badges that we provided show a location and date, such that only two watchers are designated per location for each day of advance voting.

Subject: Poll Watchers

Janine and Chris,

I am reaching out to hopefully avoid an unnecessary legal dispute. I understand from Jason Thompson (copied) that Cobb County is only allowing two people to be designated as poll watchers per precinct. Of course, only two people can serve at a time by statute, but if two people serve the morning shift and two people serve the afternoon shift, as an example, there is nothing in the law or regulations that I am aware of prohibiting it.

I have asked Jason if he would be willing to speak with you before this escalates, and he agreed. Do you have any availability today to for a call? I am hopeful we can get on the same page.

Thanks,

Vincent

Janine,

When I submitted an Open Records Request to you for "a PDF copy or email containing a list of all Poll Workers (including Poll Manager and Assistant Managers)", I received it promptly the next business day at 9:32:39 AM. [Please see attached.] That was 4 months ago! What has changed?! You are clearly choosing to deliberately not provide me with the information that I have requested (not via ORR but per OCGA). Why?

More damning still is the fact that you are claiming that you do not have a list of the Assistant Managers appointed to Advance Voting Polling Locations for the January 5th 2021 Runoff. Early Voting begins TODAY!!! It is utterly untenable that you would not have this information readily available.

Sincerely,
George Balbona

to see if someone created an online account with your information. – I opened a case with them and DDS confirmed this is what happened. I've attached a copy of my DL. How quickly can we get me switched back?

Paul Burch 404-849-3436

On Wed, Dec 16, 2020 at 8:08 AM Reaves, Kevin <Kevin.Reaves@cobbcounty.org> wrote:

Good morning Mr. Burch,

Your information was forwarded to us for further investigation into your voter registration issue. As a precaution, because this occurrence has happened to a number of voters in Cobb being transferred to other counties, I would suggest that you contact the Department of Driver Services in Gwinnett County to see if someone created an online account with your information. We have discovered that in most of these cases, someone created an online account through DDS and used voters information to register them in another county for whatever purpose they intend to use their identity. If this is the case with you, they should be able to provide you the email address used for that account that may help you with law enforcement, should you want to report this further.

In regards to your registration, if you could provide us with a screen shot of your Driver's license to start the process so that we can verify the issue date and compare that to what is currently on DDS, we can then notify Gwinnett County and transfer you back to Cobb. This is the discrepancy that has been found proving that the voter never moved to another county.

If you should have any questions, please feel free to contact us.

Subject: Web E-Mail [Stop Voter Fraud] From Phil Wofford

Name: Phil Wofford
Phone: (770) 547-5190
Address: 4618 Waters Edge Ln Nw
City: Acworth
State: Georgia
Zip Code: 30101
County: Cobb
E-mail: pwofford@gmail.com

Location of Violation: Mail box

Description of Violation: I received in my home mailbox a voter registration precinct card for Lisa Mei Eeraerts I at first didnt think anything about it, until I looked the registration date of 07/22/2020.
This lady has not lived at this residence for 10 years (I believe she was the previous owner).
So does that mean she registered using my address in July of this year?
Could she be voting twice?
Please take this seriously.
Thank you
Phil

Subject: RE: Challenge of voters on the basis of failure to establish residency in Cobb County

Regarding the voters mentioned below:

They have applied for and received ballots through the Uniformed and Overseas Absentee Voting Act program as Overseas voters. As such, it is my understanding that they are allowed to use their last residence of record in the United States. Obviously I do not know if they have registered in another state, but I wanted to put that out there.

We will pull their applications and ballots and await word.

Thank you,

Jennie Mayes

Here are another two challenged voters. These two are Overseas Temporary (OST) and received absentee ballots electronically delivered. The ballots have been returned and accepted. They both registered and requested ballots by using the Federal Postcard FPCA on 9/19/2020.

The person mentioned in the letter as the one currently inhabiting the residence, Ms. Deborah L. Lilly, is actually registered to vote in Cherokee County at 250 W RIDGE DR, CANTON 30114. She voted absentee from that address for 11/3/2020. She is listed as the owner of the property in Tax records.

Hey Janine,

Here's another. This may be a case of true election fraud. The homeowner Deborah Lilly brought it to our attention. We will be asking her to file a separate challenge since obviously she knows more having rented the house to the Sherman's until 2001. They have already turned in their absentee ballots.

What they are doing seems be campaigning and should not be allowed to within 150 feet of a polling place. They say "these food trucks will be our last chance to reach Georgians before they vote." They also seem to be giving some of value for voting—otherwise it wouldn't matter if they were reaching people before they vote and it's not allowed to matter if the people are voting or not.

Frances,

Per our earlier discussion, can someone on our team please contact Pam Reardon at 404-272-1767? She says she has video of a food truck with folks less than 25' from the voters at the Cobb Election Board on Whitlock? Sen Kirkpatrick is asking if this is legal and wants us to answer. Allegedly, the Cobb sheriff came by and said they shouldn't be on county property, but was allegedly dissuaded by election staff.

I included the email about this below:

GA-COBB-20-2949-A-001039

From: Bridget Geraghty <info@vote.org>
Date: December 10, 2020 at 7:27:45 PM EST
To: kaykirkpatrickmd@gmail.com
Subject: Food trucks
Reply-To: info@vote.org

Kay,

During the general election, we sent Vote.org-branded food trucks to polling places with long lines to provide free food, water, and crucial nonpartisan information about voting rights.

Now we're gearing up to do it again for the January 5, 2021, runoff elections in Georgia.

These food trucks will be our last chance to reach Georgians before they vote.

[If we raise \\$153,000, we'll be able to send five food trucks stocked with free meals to early voting sites in Georgia. Chip in today — every dollar will help feed communities and increase voter turnout.](#)

DONATE NOW

If we can fully fund this program, food trucks will be parked in strategic locations across the state and voter ambassadors will refer Georgians who need support to 866-OUR-VOTE, the nonpartisan Election Protection hotline.

Each food truck will hand out between 500 and 750 free meals. **During a pandemic that has caused increased food insecurity for many communities, this program serves multiple community needs.**

Thanks to supporters like you, **we're already running a multilayered campaign to reach and turn out every eligible Georgia voter** for these consequential runoff elections. The results have the potential to determine control of the U.S. Senate.

Historically, runoff races have significantly lower turnout than general elections, especially in Georgia. This year, voters are expected to face additional barriers due to COVID-19 and misinformation about the election process. **We're doing everything we can to make sure every eligible Georgia voter has the accurate, timely information they need to make their voice heard.**

We can't do it alone. We need your support to help us reach even more communities in the days ahead. Our full Georgia food truck program will cost \$153,000 to supply and staff.

[Chip in now to ensure we're able to reach Georgia voters with crucial election messaging through our food trucks. The more money we raise, the more free meals and voter information we'll be able to distribute.](#)

DONATE NOW

Your support helps us continue to reduce barriers so that *nothing* stands in the way of voters and the ballot box.

Thank you,
Bridget Geraghty, Director of Donor Relations

Ms. Eisenschmidt,

Attached are the two applications we received in April for you and your husband. You both checked the box that you were over 65 and would like ballots mailed to you for every election in this cycle. That is why there were absentee ballots already issued on your record when you went to the South Cobb Library to vote on 10/23/2020. You both should have filled out the form to cancel the absentee ballots, so I am not sure why only you were asked to fill it out. At that time, we cancelled the ballots issued for the November election and any future ballots being sent for runoffs. The South Cobb location was very small and we were using two adjoining rooms, so that is why you were directed into the second room. I hope we see you both come out and vote for the January Runoff.

Sincerely,

Mr. Odom,

I spoke to the poll manager at the East Cobb Government Center and she interviewed the clerk who handled your check-in to the poll. There was no absentee ballot issued against your record, and the clerk made a mistake by asking you to sign the affidavit. She told the poll manager that she realized it wasn't needed after the transaction and threw it into the bin of items that will be shredded after the election. The poll manager found the document in the shred bin in order to corroborate the clerk's account, and she will make sure that it is destroyed.

The paper ballot you scanned, Serial #: 00098 issued at 8:06am, was counted in the scanner. Now that that ballot is recorded on your record, no other ballot can be submitted on your name. I can only speculate about why the clerk acted the way she did, covering the form. She remembered the encounter and immediately explained it to the manager, so she may have felt awkward or embarrassed at the time.

I'm sorry you had these issues, but rest assured your vote is counted.

Subject: Web E-Mail [Stop Voter Fraud] From David L Odom

Name: David L Odom
Phone: (770) 973-9575
Address: 4572 Karls Gate Dr
City: Marietta
State: GA
Zip Code: 30068
County: Cobb
E-mail: david_odom@yahoo.com

Location of Violation: East Cobb Government Center
4400 Lower Roswell Rd
Marietta Ga

Description of Violation: I voted on Dec 14. While checking the Id information I submitted, (Driver's license and a completed identification form with name, address, DOB, and signature) the poll worker asked me if I had my absentee ballot with me. I told her I did not have one nor had I requested or received one. She told me I must have unknowingly checked something to request one.

I Did No Such Thing!

I was given a second form to fill out and sign which I presume would invalidate a subsequent arrival of my mail in ballot which I Did Not Request and Never Saw. After I handed the poll worker the completed second form, I noted the ballot number she had recorded on my original identification form. When she saw me looking at my form with my PPI information, she covered it up.

For now I am keeping my ballot number to my self. My questions are the following:

1. How can I check to make sure that my in person ballot that I fed into your scanning machine on Dec 14 is the ballot that is counted on Jan 5 and any subsequent recount?
2. How can I check between now and Jan 5 to find out if an absentee ballot in my name has been submitted?
3. Why would the poll worker cover up my original form?

Thank you for your consideration,

David Odom

We are finding some that do not have a signature in onbase or enet. So we are not able to resolve here. Would there be someone that we could meet tomorrow that could help us pull or locate the documents to resolve them? Maybe after lunch tomorrow around 1-2?

Would it be helpful if we sent the names tonight from those from today?

Subject: Elections Supplies

Good morning,

The deadline to order supplies is 12:00 p.m., Thursday December 31st . This is to ensure that counties can receive supplies in time for the January 5, 2021 General Election Runoff.

Counties can order directly from the store or use the order form that is available at the Download link on Firefly. The completed order form can be emailed to electionstore@sos.ga.gov. You can also fax your order but please be mindful that if you do, the faxes are sometimes corrupted and I won't know who sent the fax.

Happy New Year!

Janine,
I'm not picky. I do not care what Polling Locations the Assistant Managers work. I just want a complete roster of the people appointed to be Assistant Managers for Advance Voting in Cobb County for the January 5th 2021 Runoff.

The players on a Volleyball Team rotate positions constantly; nevertheless, if I ask the coach for his/her complete roster of players he/she can provide it. Why are you unable (or unwilling) to do the same?

Sincerely,
George Balbona

Janine,
When I submitted an Open Records Request to you for "a PDF copy or email containing a list of all Poll Workers (including Poll Manager and Assistant Managers)", I received it promptly the next business day at 9:32:39 AM. [Please see attached.] That was 4 months ago! What has changed?! You are clearly choosing to deliberately not provide me with the information that I have requested (not via ORR but per OCGA). Why?

More damning still is the fact that you are claiming that you do not have a list of the Assistant Managers appointed to Advance Voting Polling Locations for the January 5th 2021 Runoff. Early Voting begins TODAY!!! It is utterly untenable that you would not have this information readily available.

Sincerely,
George Balbona

Subject: follow up to Mr. Ellet's ballot

It appears that a fellow resident of a retirement home signed his own name (Leon Isaacs) to the ballot, so it may not be a nefarious situation but a misdelivered ballot. We will follow up with Mr. Isaacs, who did request an Absentee Ballot (rollover) and has not had a ballot accepted. We will send him an Affidavit to reissue. I am still uncertain about what to do with Mr. Ellet's original ballot, however.

Thanks!

A [new discussion](#) has
been posted in The Buzz by Harvey, Chris on 12/18/2020 2:34 PM

Many counties are getting voter challenges filed under O.C.G.A. 21-2-230.
OCGA 21-2-230(b) requires that the BOE, "shall immediately consider such challenge(s) and consider whether probable cause exists to sustain such challenge(s)."
The steps are listing in the code section, and I strongly encourage you to review this code section with your board and attorney should you get such a challenge.

Subject: RE: Threatening Phone Call

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Subject: RE: OEB 12-09-2020

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Subject: follow up to Mr. Ellet's ballot

It appears that a fellow resident of a retirement home signed his own name (Leon Isaacs) to the ballot, so it may not be a nefarious situation but a misdelivered ballot. We will follow up with Mr. Isaacs, who did request an Absentee Ballot (rollover) and has not had a ballot accepted. We will send him an Affidavit to reissue. I am still uncertain about what to do with Mr. Ellet's original ballot, however.

Thanks!

According to eNet this is the breakdown of AB Ballots (not counting those that were cancelled by the voter).

1,411 - Accepted Electronic Ballot Delivery (EBD). We forgot about these and have about 4 additional boxes of this group – talk more later today

148,577 – Accepted Mailed ballots

149,988 Total Accepted

333 – Rejected, received after deadline

78 – Missing signature – not cured

32 – Invalid signature – not cured

443 Total rejected

We can deliver items to the Civic Center after 1pm tomorrow. Our IT people will meet us there to install the laptops and make sure the connections work. I have a meeting at 2pm, so I will have to leave shortly after making introductions. What we would like to do is meet you at Jim Miller Park at 10:30 or 11, depending on how much time you want to spend with an overview of the ballot receipt processes, then pack up the laptops and boxes to be at the Civic Center at 1pm. On Friday at 8am, I plan to send you our Absentee Coordinator, Jennie Mayes, to train you and be there for the morning or however long needed to get you started. Does this work?

Bain & Frances,

We believe we have everything worked out for the Civic Center from the 18th – 23rd, 8am – 8pm daily, including weekends. The only issue noted was that on the 23rd the staff will want to leave earlier than 8pm. We can work something out for that if needed. We will work on the IT items tomorrow and plan to start setting up on Thursday. You can move the materials over on Thursday afternoon or Friday morning and we can test the connections and train the main group. The building will be locked at night, but I don't know if you want to secure the materials in some other way. I have included on this email the PARKS Director, Michael Brantley, our Agency Director, William Tanks, and the Information Services Director, Kimberly Lemley. I will contact you tomorrow with a status.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork☺.

Cynthia,
I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCCA 21-2-406 does not read, “If it’s difficult or inconvenient to perform a duty in public, you won’t have to make changes to the way you’ve done it for years.”

Instead, at 24 words, it’s probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in

GA-COBB-20-2949-A-001083

past elections.

Thanks for your response.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law. There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII. Online applications would not have a signature to compare, but the VR record would still need to be examined. There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules. In addition, you can call and we can discuss other details if you would like,

Chris Harvey

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

“The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.”

RE: Boards of Registrars are not required to make returned absentee ballots subject to inspection prior to the closing of the polls.

Request By: Honorable Max Cleland

Secretary of State

214 State Capitol

Atlanta, Georgia 30334

Opinion By: MICHAEL J. BOWERS, Attorney General
Prepared by: MICHAEL E. HOBBS, Senior Assistant Attorney General

Opinion

You have requested the opinion of this office as to whether reasonable inspection should be allowed of returned absentee ballots prior to the closing of polls pursuant to [O.C.G.A. § 21-2-406](#) and [O.C.G.A. § 21-2-384\(d\)](#). A review of the pertinent statutory provisions requires the conclusion that no inspection of returned absentee ballots is authorized.

[O.C.G.A. § 21-2-406](#) requires election officials to conduct their duties in public. However, [O.C.G.A. § 21-2-386](#) imposes an obligation upon the board of registrars to "keep safely" and "unopened" all absentee ballots received prior to the closing of the polls on the day of the primary or election. While the statute is not specific as to the manner unopened absentee ballots should be kept safely, it is my view that the legislative intent is to avoid any

potential loss of the ballots by misadventure or intentional tampering. **[*2]** If the ballots were subject to inspection, the possibility of tampering or loss is greatly increased.

While you correctly point out that any challenge to an absentee voter must be made prior to the closing of the polls on the day of the primary or election, [O.C.G.A. § 21-2-384\(d\)](#) appears to provide a means by which necessary information can be obtained for challenge purposes. This code section provides as follows:

Each board of registrars shall maintain for public inspection a master list, arranged by precincts, setting forth the name and residence of every elector to whom an official absentee ballot has been sent. Absentee electors whose names appear on the master list may be challenged by any elector prior to closing of the polls on the day of the primary or election.

By expressly providing for a list available for public inspection, the General assembly has afforded electors a means by which to obtain necessary information for absentee voter challenges. Under the maxim of statutory construction *expressio unius est exclusio alterius* (the expression of one is the exclusion of the other) the General Assembly has excluded any requirement that returned absentee ballots **[*3]** (even the outer envelopes containing the voter's name and oath) be made available for public inspection prior to the closing of the polls.

Therefore, it is my official opinion that Boards of Registrars are not required to make returned absentee ballots subject to inspection prior to the closing of polls.

Subject: Nick Pavey VR # 6402534
Attachments: Untitled.PDF

Nick Pavey was transferred to Paulding on 12/08. Cobb issued ABM ballot 12/9 from the portal. This is a problem. We will send correspondence to Nick Pavey that he needs to submit an application for a ballot from Paulding.

Allison Schaeffer
