Today is the two week point and my ballot still hasn't been accepted. I spoke to someone at the Buckhead library who said they have been picking them up from the dropbox, The Registrar's office hasn't gotten back to me. If I don't get accepted by next week and want to vote in person, do I just show up and say my mailed ballot was lost or do I need someone to officially clear it and give me permission?

I don't know why this keeps happening to me.

Thanks for your help.

Received a call from Jerry Sweeney in reference to an issue at Park Place @ Newtown School

An Johns Creek Officer came over the radio asking for a supervisor then said "one in custody".

A voter became upset over being asked for ID to vote. Poll manager asked him to step outside to discuss so he would have the opportunity to vote but he became irate. Officer detained him and contacted an on duty officer. The voter calmed down and was subsequently released and left without voting. Johns Creek Police pulled a case number and will be providing Sweeney with a copy.

Rick,

These people were both cancelled their registrations with us on today. Stan made the cancellation. They sent Stan and email and he spoke Alyson. If they changed their driver's license information with Statesboro it will be updated once they process them from their DDS list. It also depends on if they went to DDS before the December 7th deadline or after the deadline. If they did it after the deadline, that DDS won't happen right now. As of today, they no longer registered in Fulton. I attached the email chain from Stan that includes their Deleted Certificate of Registration.

Thanks,
Pamela

Following is the information on Alyson & Will - as mentioned- they changed their address- drivers License and attempted to change voter registration when they moved to Statesboro November

20th. They were told

this morning that Fulton County would not release their
voter registration

to be transferred because the Ga election results were not
yet certified.

They are all either election day sites or taxpayer funded facilities.

Subject: Mobile Voting and question about Advance Voting locations

Rick,

Regarding your mobile voting busses, I looked at the schedule and see a lot of different locations.

OCGA 21-2-382 and SEB Rules (listed below) specify appropriate locations for advanced voting sites.

Do all of the sites where the mobile voting will be offered satisfy the requirements as either government buildings or Election Day polling places as required by the law and SEB Rules?

Rule 183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots

(1) Definitions. As used in this Rule and O.C.G.A. Section [21-2-382](#), the term:

- (a) "Government building generally accessible to the public" means any building or structure which is used by the public:
 - 1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and
 - 2. that is constructed or renovated in whole or in part by use of state, county, or municipal funds; the funds of any political subdivision of the State; or, to the extent not required otherwise by federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section [21-2-381](#) and for the purpose of voting absentee ballots under O.C.G.A. Section [21-2-385](#). Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be

utilized for such additional sites.

§ 21-2-382. Additional sites as additional registrar's office or place of registration for absentee ballots

(a) Any other provisions of this chapter to the contrary notwithstanding, the board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under Code Section 21-2-381 and for the purpose of voting absentee ballots under Code Section 21-2-385, provided that any such site is a branch of the county courthouse, a courthouse annex, a government service center providing general government services, another government building generally accessible to the public, or a location that is used as an election day polling place, notwithstanding that such location is not a government building.

(b) Any other provisions of this chapter to the contrary notwithstanding, in all counties of this state having a population of 550,000 or more according to the United States decennial census of 1990 or any future such census, any branch of the county courthouse or courthouse annex established within any such county shall be an additional registrar's or absentee ballot clerk's office or place of registration for the purpose of receiving absentee ballots under Code Section 21-2-381 and for the purpose of voting absentee ballots under Code Section 21-2-385.

My message to the SOS Office

While researching this issue I have discovered, via the Fulton County website, this equipment, referred to as "voting mobile units" seems to serve a much bigger role within the Fulton County Department of Election's plan of operations.

The county website describes this resource in the following way “The county’s new Mobile Voting Unit is an accessible voting unit that will create a simple, secure voting experience for voters of all ages and voters with disabilities. Two mobile voting units each with 8 to 10 voting stations will hit the streets when early voting kicks off on December 14.”

The website also has a schedule posted which lists the following dates and locations that these Mobile Voting Units will be moved around Fulton County and open for voting.

Greetings,
On 12/15/2020, Jerry SHADINGER contacted the Watchdesk to inform us on a tweet that was made by Lin Wood regarding the election and voter fraud.

Disposition: Logged in JIMNET and disseminated to the on call analyst, R10 Analysts, GISAC Supervisors, and GBI Voter Fraud Group FYSA.

Background: SHADINGER contacted the Watchdesk as a concerned citizen inquiring on whether the GBI was investigating the election fraud claims. SHADINGER reported seeing a twitter post from an attorney that depicted boxes of votes that were being stored in a warehouse, SHADINGER stated that the GBI, FBI, and others were tagged in the post. The post was found through open source searches as being made by known attorney "Lin Wood". The caption on the post is as follows: "Hey {[@FBI](#), [@GBI_GA](#), [@BrianKempGA](#), [@GeoffDuncanGA](#), & [@GASecofState](#)}, why are there boxes of GA Mail ballots hidden in a warehouse in Fulton County, many shipped from Arizona? GA Election was a fraud. Do your damn jobs". A snip of the post made is attached for review.

WOOD has made numerous posts regarding the election and the fraud claims.
SHADINGER was not positively identified. Two possible records were found for Jerry SHADINGER in GA.

Please see the attached scan of a notice from Fair Fight Georgia that was sent to a Fulton Resident. The current owner bought this house from the listed voter, Meron Fissha. She has not lived there in years and we have confirmed that she requested and voted a AB that was mailed to her in Maryland in November. She has requested a AB for January. The owner, Gabriel Sterling, would like to challenge this voters rights to be registered voter in Georgia and this vote. Can you please advise what steps will be taken to assure that this voter that is now residing in Maryland, using a residential address that she does not live at, is not allowed to vote in the January election.

If we have a case open in Fulton County for the January election for AB fraud we need to add this to the case and have someone contact the county- Rick Barron and Ralph Jones. The owner of the residence is Gabe. He bought the house from this person and she does not reside there and lives in Maryland. This request for January AB needs to be challenged and rejected. We will need statements from Gabe and from the voter Meron Fissha.

They need to get on this today. Let me know the case number

>> Description of Complaint: On Dec 14, 2020, I went to early voting at the High Museum of Art. When I arrived, I was not allowed to approach the High through the main entrance off Peachtree. A security guard was there to tell Me and my friends that we were not allowed there due to filming. We were told to walk around to the back alleyway. As we walked around, we tried to enter from another entrance near the symphony hall. Again we were told we could not pass due to filming. There was so signage at the regular entrances to say that we could not enter through there. There also wasn't any signage along the way to let us know where the new back alley way was. Eventually we found it, after a bit of a walk. The early voting website also did not mention this restriction. This is voter suppression, especially for elderly voters and voters with disabilities who had not planned to add that additional walk. It also created much confusion. I am very disappointed that the high museum was allowing a for-profit production to film there on a voting day, restricting access to county residents and their rights.

Leigh,

Can Representative Schofield let us know which locations she is referring to or particular incidents? Does she have contact information, names or people that have called? That would be helpful to both Rick and I so that we know where to target our efforts. Otherwise this doesn't help address the complaint that was registered.

Does that include signature verification of the Absentee Ballot application? If so, please confirm that observers are at the Darnell Center as allowed by Ga law. This was just restated by the SOS in a press conference this afternoon in which he said that an OEB for January 5th has been sent reminding counties that "all of the election processes are available for public viewing, including signature verification".

Ryan,

Would like to also flag for you an issue at the Buckhead library where we have had issues with the poll manager before. They are denying our poll watcher access to the voting area while allowing the democrat poll watcher access as well. This is the same issue we had on the first day of early voting for the general election.

Thank you for your attention to this matter.

We have had issues with monitors and observers using their phones, bringing telescopic lenses and binoculars. Those need to be addressed.

We want to have all observers check in their electronics with an officer and sign an agreement to the rules set by the superintendent.

We have been so patient with people that repeatedly violate our rules, but we started getting strict and electing people during the recount. I'm unsure if the SEB knows how aggressive and rude some of the monitors are.

It needs to be made clear that only parties within a candidate in the ballot can appoint to keep us from arguing over and over with Constitution Party members.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS... Teamwork makes the Dreamwork.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years." Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you.

If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected

confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*"The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information** and prevent interference with official duties."*

I agree that some guidelines from the SOS should be established for observers. That way 159 counties can work from the same set of guidelines. The monitors were extremely aggressive and rude in our county. When they arrive on Monday to find that they are going to have to check their electronics at the door and be made to stand at a distance that allows them to see the process, but to see no PII, they are going to complain and moan. I think they feel as though observers are the same as monitors.

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the

comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Chris Harvey

EXTERNAL EMAIL: Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the

closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*"The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.**"*

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all!" So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have to reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,

Sharon,

You might want to try copying only the voter IDs that represent valid check-ins. I'm not sure what the easyvote file looks like, but all we really need are the voter ids from valid check-ins. We don't need the other data.

Description of Violation: I arrived at the polling place around 9am. I handed the poll worker my ID and he handed me a yellow card for the machine. When I inserted it into the machine, a message came up that said there was already a vote recorded on that card. I alerted the poll manager, who observed the message on the screen. We removed the yellow card and returned to my original poll worker. Together they evaluated my ID and could not figure out an issue. The poll manager and I moved to a different voting machine with the card... same result. So I had to fill out a provisional ballot. I feel violated and disenfranchised.

Dear Ms. Watson,
Thank you for your email.
Below follows my complete report from my 3 day volunteer participation at the run-off polls.
Please forward to me the email address of the County Elections Board, or forward this to them with copy to me.

Thank you.
Robert Farrell

Here is a summary of my three days at the polls:

Early voting State Farm Arena 18 December 2020 1300-1700:

- * nothing unusual to report
- * poll workers were pleasant

Absentee ballot counting Georgia World Congress 2 January 2021 - 1300-1700

- * Poll Manager was rude and hostile. Would not answer politely posed questions, just barked orders.
- * barriers prevented any observation of the process. The nearest poll worker was 20 meters from the barrier, average distance about 50 meters. This cannot be explained by 'social distancing' requirements. It was obvious the purpose was to prevent meaningful observation.
- * military absentee ballots were processed behind barriers with cardboard facings, so it was not even possible to see who or how many people were doing that part of the counting. A consultant from SoS office explained that military ballots are received on regular letter paper, then transcribed onto machine readable ballots by poll workers in the unobservable area. This gross irregularity should require no further elaboration.
- * There were about 100 poll workers on duty. The poll workers in no way represented a cross section of Fulton County residents. In October I had applied to be a poll worker, having been notified by the Election commission that workers were desperately needed. In my application I wrote that I was willing to work at any location on any shift. Never heard back from them.

Election day poll monitoring - Benteen Elementary School 200 Casanova St SE - 0700-1500

- * Polling station was well managed by a Ms Shiela Moore.
- * at 1500 when my replacement David Bourne took over there were 192 vote card issued and 167 ballots thru the scanner. David later texted me that the final numbers tallied, that the final difference was made up by 20 ballots from the emergency slot that were fed thru under his supervision, making the final tally 260/260 cards to ballots.
- * Poll workers were pleasant and cordial.
- * A lawyer for ACLU was working in the voting area, issuing affidavits to voters who presumably has requested absentee ballots. These voters (about 10 as of 1500) signed affidavits and voted. The poll manager said she had no authority over the ACLU lawyer, which I think is odd. The lawyer did not allow any insight into what she was doing and got defensive when I asked questions. I was later told these lawyers are allowed to be in the voting area, but think it is not proper that they should not be supervised and not under the authority of the poll manger.

Suggestions for next time (if there is a next time):

- * No-excuse Absentee voting should not be permitted. Any fair minded person must agree that some degree of cheating will result.
- * The poll workers should represent a cross section of the county population. This could be achieved by each party submitting a list of volunteers, and the workers being picked at random in equal numbers from each party.
- * The SoS office needs to have more paid observers with more authority to correct irregularities on the spot. All our complaints afterward have little practical effect.

Sincerely,
Robert Farrell

Location of Violation: Benteen Elementary School - 01T

Description of Violation: I was an observer at Benteen Elementary polling station on 5 January from 0700 to 1500 hours.

There was woman named Merideth Regans who was not a poll worker, but was stationed next to the workers. She had a lap top and issued affidavit forms to around 10-12 voters who had an issue. According to Ms. Regans, she had access to a data base of registered voters, and issues the forms for the voters to sign. I asked to see the data base she was using, but she refused to provide any details about her information. She said she was 'deputized' by the Election Committee or the County, to perform this task. The Poll Manager Ms. Shiela Moore, said that she had no authority over Ms. Regan. There was no second person check of what she was doing. It seems odd to me that someone other than a poll worker could be involved in the process of issuing voter cards.

Sharon,

I also noticed that you sent 3 spreadsheets on December 29th. I looked at the voter ids in those spreadsheets. Attached are the list of ids that were in your lists but we did not give credit to them. In order to give credit to these voters, your team will need to use single or multiple voter participation.

I just talked with Rick. We have not been able to give credit to these voters in red. You will need to use the single voter participation or the multiple voter participation. Use one of those options even though credit might not appear on MVP.

Rick,

We're hearing that observers of the early scanning are being blocked by barriers from seeing what's going on at the early scanning.

It's most helpful to have meaningful observation of the process, and I don't see how barriers that obstruct the view are helpful.

Description of Violation: I am not sure if this is a violation, however, I noticed a lack of privacy while voting for the runoff that was mitigated during the general election. When voting this morning the location was entirely glass and there were no privacy screens/papers on the windows to block other voters standing in line from seeing who another voter casted their ballot for. Given everything that is going on regarding election integrity, this was fairly concerning as I felt like people were over my shoulder and that my vote was not able to be cast privately. I have photos where you can clearly see the voting machine screens from outside. Additionally there were no cameras of the registration process to help to protect the integrity of voters including no validation of a voters face to the ID that was presented at the time of registration.

Nadine,

Thanks for reaching out. Given the scrutiny around Tuesday's election, we think you should accept the list. Arguably, because the deadline falls on a weekend, it goes until Monday anyway under 21-2-14. If there are no Republican poll watchers allowed on Tuesday (even if it's their own fault), the uproar will not be helpful to either of us after the election.

Thanks,
Ryan

Good morning -

Attached is the Fulton Republican Party list of poll watchers for the runoff election on January 5, 2021. There are 375 line but remember the 1st line is the header line. I also attached the letters/emails we sent out. I will be sending our volunteers the Poll Watcher Guidelines that were suppose to be attached to the emails sent out.

I want you to know that everyone has been shifted out so no more than 2 people are poll watching at a time.

Our shifts if they didn't want to commit to the entire day are:

Shift 1: 5:30am-1pm
Shift 2: 1pm - Close

If you have any questions, please do not hesitate to call or email me.

Thank you for working with the GAGOP & the Fulton GOP in getting this list to you.

Regards,

Betsy Kramer

PS. I will put the extra name badge holders left over from EV in my RW-17 supply box. Hopefully the warehouse will get them to you.

Description of Violation: We have received multiple pieces of mail with the name Gia Elena Abata in the mail, with my residential address on the mail. I have received 3 pieces of mail addressed to Ms. Abata with my current address over the past 2 weeks. I checked all previous home owners names in the Fulton County Property Search, and none showed Ms. Abata or a relative of Abata as a previous owner. Today (12/31/2020) a voting volunteer came to my door asking for Ms. Abata and I told the volunteer Abata does not live here. At that time, I opened the 3 pieces of mail addressed to Abata and found (1) a Driver's License with her picture and name with my address, (2) a Georgia Certificate of Title vehicle registration with Abata's name and my home address listed that was transferred from Illinois, and (3) a political letter from a political party group welcoming Abata to Georgia as a registered voter. I do not know Ms. Abata. She does not live at my residence. I found someone on LinkedIn that matches her name and the picture on the state issued Driver's License appears to be the same person in the online picture. I would like to report this as potential fraudulent activity regarding the State of Georgia elections.

Good afternoon,

I am writing to check on the parameters of what is allowed at polling sites in Fulton County. My friend just voted at the Sandy Springs library on Roswell Road. As he was exiting, he was approached by three individuals asking him to commit to getting three more people to come put and vote. Is this allowed? I know it is not specifically considered campaigning, but is it on to have people on the polling site?

I just wanted to check.

Thanks,
Jan Russell

We are Fulton County, GA residents and our absentee ballots were mailed Dec. 2; however, we have not received the ballots. The voter registration hotline provided your name and email address to me as the best contact to resolve this matter in a timely fashion.

We have attached our affidavits AND pre-paid overnight UPS shipping labels for you to immediately send our new absentee ballots to us. We have included TWO labels - one for my ballot and one for

Bryan's. The absentee ballots should be mailed to: 2645 E. Avenida de Pueblo, Tucson, AZ 85718

We originally requested the ballots on/about Nov. 9. Our Fulton County address is 10702 Austen Bend, Alpharetta, GA 30022.

Please confirm that you have received this email and let me know when the new ballot will be sent to us.

Many thanks in advance,

Barbara, thank you for your response to this letter and I would like to add that I am very disappointed at the poll manager at the East Point library early voting precinct, because she did not tell the truth! The only time that three Republicans were in the polling area is when we first walked in and we met Kevin, which we had never met before and we immediately left the polling area and afterwards there were never three of us in the polling area at one time! Trey, as a reminder, I spoke with you in Milton at the Ivanka/Loeffler Rally and told you I was at the FC breakfast.

I sent David a letter earlier also regarding my concerns as Barbara has outlined below about the red ink pens and ballots thrown in the box which were never voided or canceled as I did in Forsyth county when I early voted a week ago! In my presence, and with my consent the poll worker opened my sealed absentee ballot envelope and marked void/canceled on the envelope and on the bottom left of my ballot and she initialed and I did as well! The manager told us at East point that they were instructed that all of their AB ballots would be shredded once they left there and I think she said at the warehouse? Obviously Fulton County elections leadership officials as well as all counties need to be running their precincts in accordance with state wide rules and not separately, county by county as we were told! This is a United States senatorial runoff race and there should be state wide rules superseding any county rules! If in fact red pens are being used by poll workers because of leaders instructing them to use them when instructed in writing to only use black and blue pens on the ballots, etc., not red, throws up flags as to why they are being instructed that way!

Senator John Albers and other elected officials need to get to the bottom of what is going on at polling places in Fulton County! All senators and representatives across our state need to be at the Front of the line investigating the fraudulent actions that is taking place in Fulton County and other counties across our state during the November general election and make sure that the same actions are not occurring now in this critical run off senatorial election! Senator Ligon and other members of the Senate sacrificially gave of their time and has given their recommendation and the entire legislature if has not read the testimony under oath sworn to God, then shame on them if they have not done it! It's not just our state in jeopardy but our entire country and the way of life that we have cherished since it's founding!

Sincerely,
Gayle Troyer

There were only two of us Republicans in the enclosed space at one time. The other stayed out of the enclosed area in either an area with the vending machine or the hall way. Gayle spent most of her time sitting in the vending area. The rule is I was told, two poll watchers at a time from each party are allowed. Betsy can attest that we had

2 Democrats and one Republican and one from SOS at our poll RW17. Also at Ocee there were two of us Republicans and one Democrat and no one complained. There were two Republicans me and Betty Price in Mobile unit 1. The gentleman poll worker at East Point and I don't know his name, had no idea what to look for. Therefore Trey, you should have some in person training classes for poll watchers who do not work in the polls and have no idea what the procedures should be. The gentleman poll watcher took a Dem sign stuck in the ground in front of the entrance down and the Dem poll workers had a fit. The sign with the message said something to the effect be woke...was placed by a very left leaning group and that should be addressed. Also AB ballots were not having cancelled written across the ballot only spoiled on the envelope and the Happy Faces workers were told to use a red pen which I was told by a Fulton warehouse worker cannot be read by a scanner.

Fulton County as well as the state GOP should be strongly speaking out to the media about the whistle blowing firing of Suzie and Bridgett. I haven't heard a word from either you or David. The termination letter was written and the signature was by Dwight Brower who retired a year ago and only came back because Ralph Jones begged him to come as a consultant for the Nov. 3 election. Cowardly and under the nose of Rob Pitts, Richard Barron, should have written that letter but the letter should not have been written to begin with. How are you and David sticking up for Suzi who was slandered unfavorably and publicly on WSB TV by incompetent Richard Barron? The GOP should have a lawyer coming to bat for these two ladies who are brave enough to report the fraudulent behavior they saw. I for one am fed up with the Democrats not being challenged and being allowed to continue their failure to follow the law. The GOP leadership in Ga starting with Brian Kemp, Brad Raffensperger and Gabe Sterling have let us all down and most of us are fed up. Fulton has never been able to run the elections smoothly. They are always late, can't seem to use common sense, always have missing seals, paperwork, etc for the polls on Election Day. Have pool pads that are not programmed for the right poll. In June the expensive carriers containing equipment were not secured in the trucks and slammed into each other and one carrier holding BMDS and printers and maybe a scanner fell completely on its side. The truck driver shared that information when we were having trouble with a BMD. Who was minding the store that time?

By the way, I also signed an affidavit just inclined to not speak publicly, and I will also say Sharon had no answer to my questions. She just said procedural questions should go to Rick. She is in charge of early voting and should know the procedures. However, temp agency Happy Faces seems to have their own procedures and they now seem to control most of the votes in Fulton County with very little oversight from the county. They also do things differently from the way we are trained and yes, there is plenty of room for fraud. Happy Faces should not control Fulton polls. TIME TO CLEAN HOUSE IN FULTON COUNTY and time for our leadership to speak out. There was fraud committed in this election and Biden did not win. I witnessed the fraud and anyone who says no fraud occurred is a blind fool or a corrupt politician or a spineless leader.

Good afternoon,

In reviewing our records, we determined that 22 voters statewide with temporary mailing addresses had ballots initially mailed to an incorrect address for the January 5, 2021 Runoff Election. Any voters for your county potentially affected by this issue are in the attachment.

Along with the voter ID, we are also including the email address and/or phone number for the voter. Please contact the voter to determine the appropriate address to mail the ballot to. Alternatively, since the election is only one week away, you should encourage the voter to vote early in person or on Election Day.

Thank you,

Description of Violation: My family and I cast our ballots on Wednesday 12/23/20, at the New Beginnings Senior Citizen Center at 66 Brooks Drive, Fairburn, GA, 30213, between 5 and 5:15 and wanted to place our paper ballots in the scanner with the writing faced down in the machine to scan. We were told by the voting attendant to put the ballots in the machine with the writing faced upwards. We did so as she looked intently at whom each of us had voted for. We told her that we wanted to place the ballot faced down, but she said that the machine reads the paper ballot better if the ballot is placed print-side up. This very statement gives an indication that the machines are flawed or can be tampered with. After she looked at whom we voted for, she then took each of our green cards and vigorously rubbed them on a cloth with some kind of solution on it. She was rubbing so hard, I thought that she was going to damage the chip on the cards. When we voted in the primary and general elections we were also told to enter the paper ballots print-side up, but when we contested this, we were told that we could insert them print-side down. It seemed like we did not have a choice of how to enter the ballot into the machine during this runoff election. Something doesn't feel right about this. The machines should accept the printed ballots either way (print-side up or down) so that no one knows who you voted for. Having voted for Republicans in South Fulton County, this does not give me confidence that my vote will be counted. But, regardless of which county you are voting in, the voting attendant should not be doing this. They should not be aware of whom you are voting for and the machines should be this sensitive. They should be configured to only accept ballots print-side down for privacy. This needs to be investigated. Please maintain my confidentiality. Thanks.

This voter is on a list of voters that we did not send ballots to because they were involved in redistricting after their absentee application was put on file. We sent that list of voters to Fulton on November 24th and informed them that they needed to mail ballots to voters in the list. Frances, I will forward you that email.

I know that Fulton worked with Runbeck for some additional mailings after we mailed to rollover voters.

>>> Description of Violation: About December 14, my mother, Ruth Rados, called Fulton County to ask why her absentee ballot, which she had applied for early, had not arrived. She was told it was in the batch for voters over 65 and veterans, which had not yet been mailed out. Why would this group be separated and their ballots withheld for so long? As of December 22, it had still not arrived.

Hello Ralph and Pamela,

Mr. Dale Stein received a mailed ballot and FedEx opened the package when he mailed it back to the US as you can see in the pictures below.

He would like to cancel that ballot and receive an electronic ballot to send back to the county. Please let him know if you need additional information and keep me posted regarding his ballot.

Hello Mr. Stein,

If you are interested in an electronic ballot, you would receive a link via email where you can download your absentee ballot. That absentee ballot will include instructions, which will explain the process in filling out the ballot and returning it **by mail** directly to the county.

If you interested in this option please let me know and I will contact Fulton County on your behalf.

Dear Ms. Kinnemore,

My name is Dale Stein (a Fulton County registered voter) and we just spoke on the phone about an hour ago.

My concern is that being an international Georgia voter is already hard enough when trying to vote. However, I sent my official absentee ballot by Fedex to my sister to be posted by US mail. When she received the Fedex, she immediately informed me that everything had been opened.

My concern is that, at this point, receiving a new ballot to be sent back would not arrive on time. As it is, it took 25 days to receive the absentee ballot (shown in the pictures) due to slower than usual mail processing time.

What can I do in the situation?

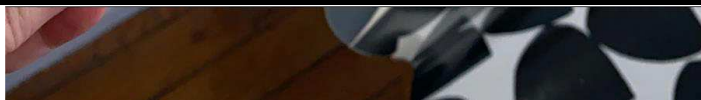

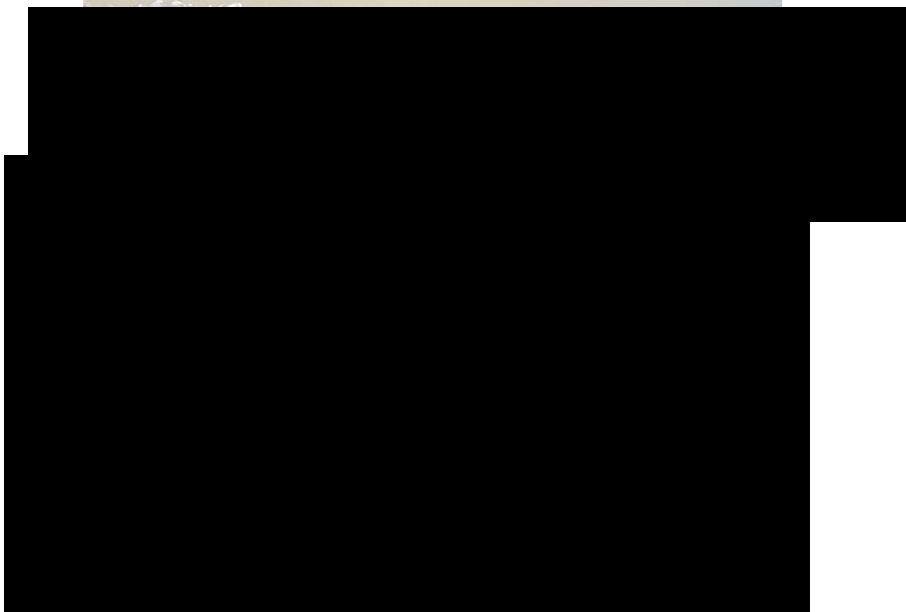

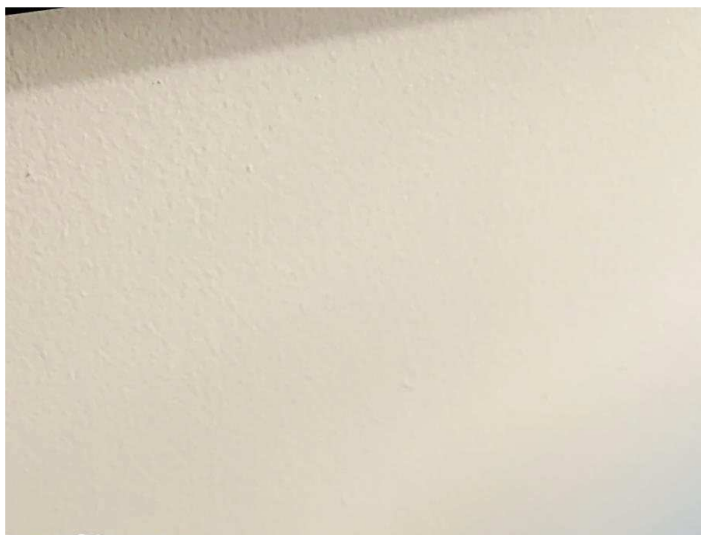

I will obviously file a complaint with Fedex as the opened absentee ballot serves as voter tampering (a federal offense) and therefore my fedex-ed letter was ruined.

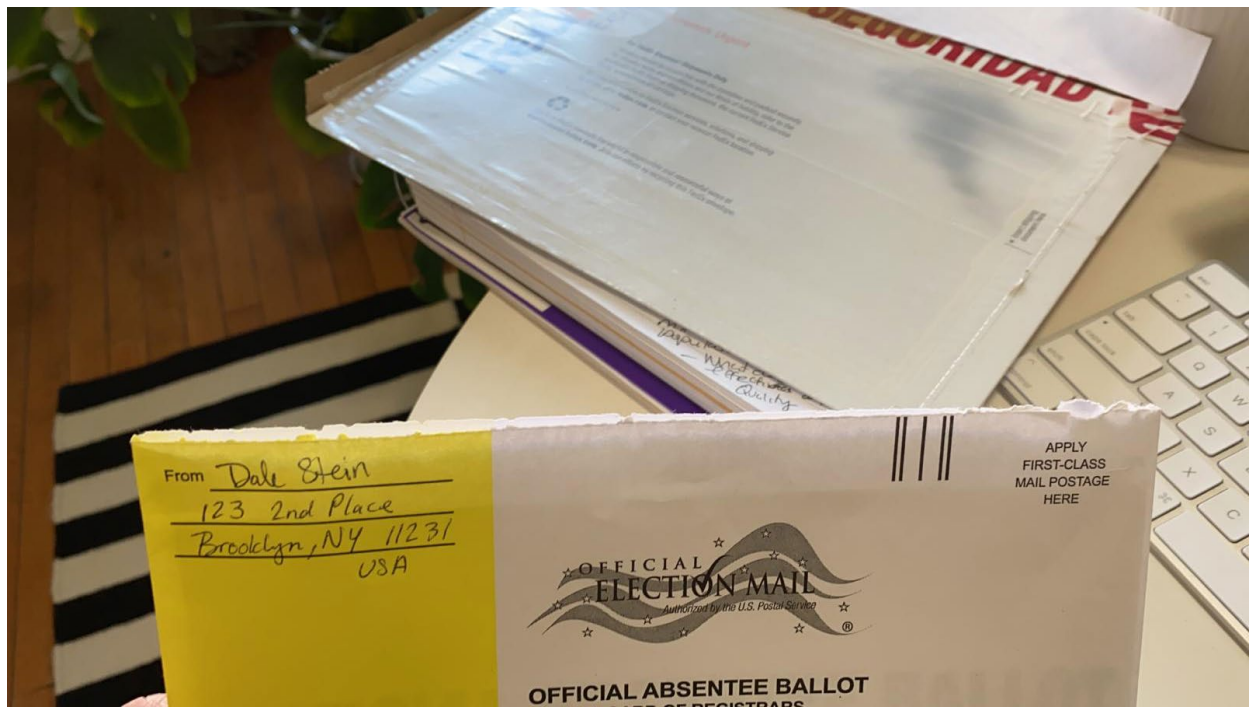

Please let me know what my options are at this point.

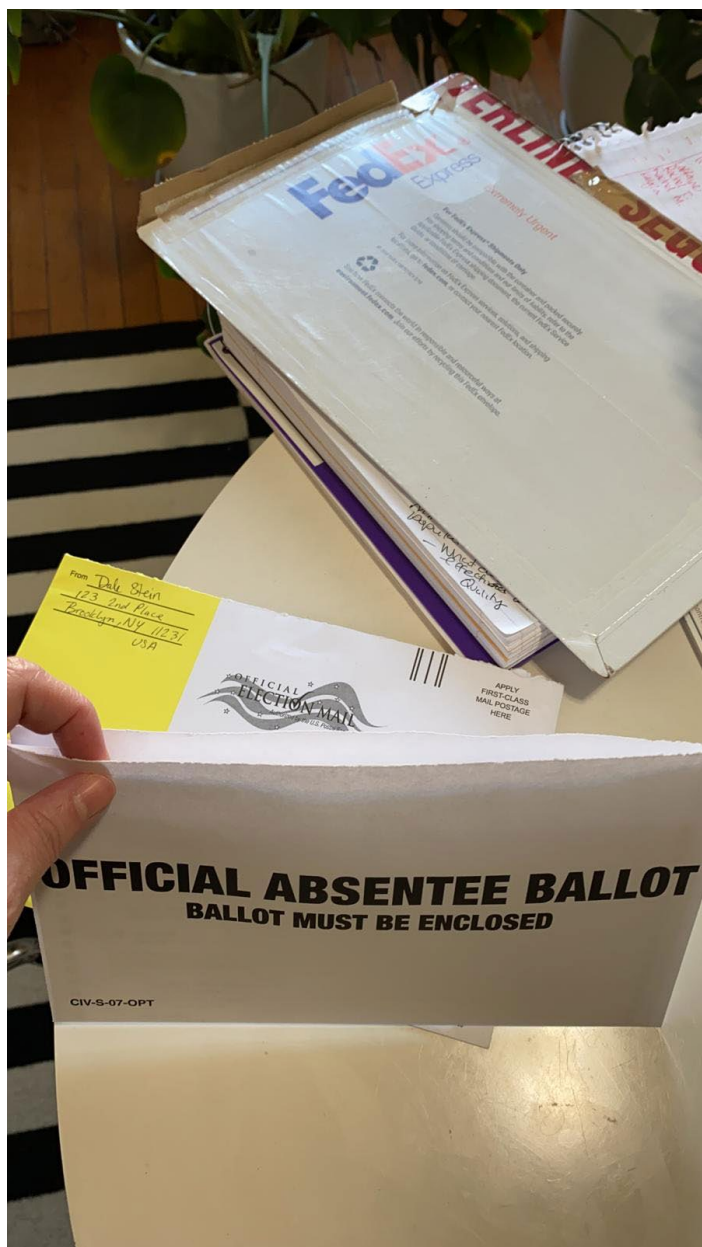

Thank you for all your help in advance,

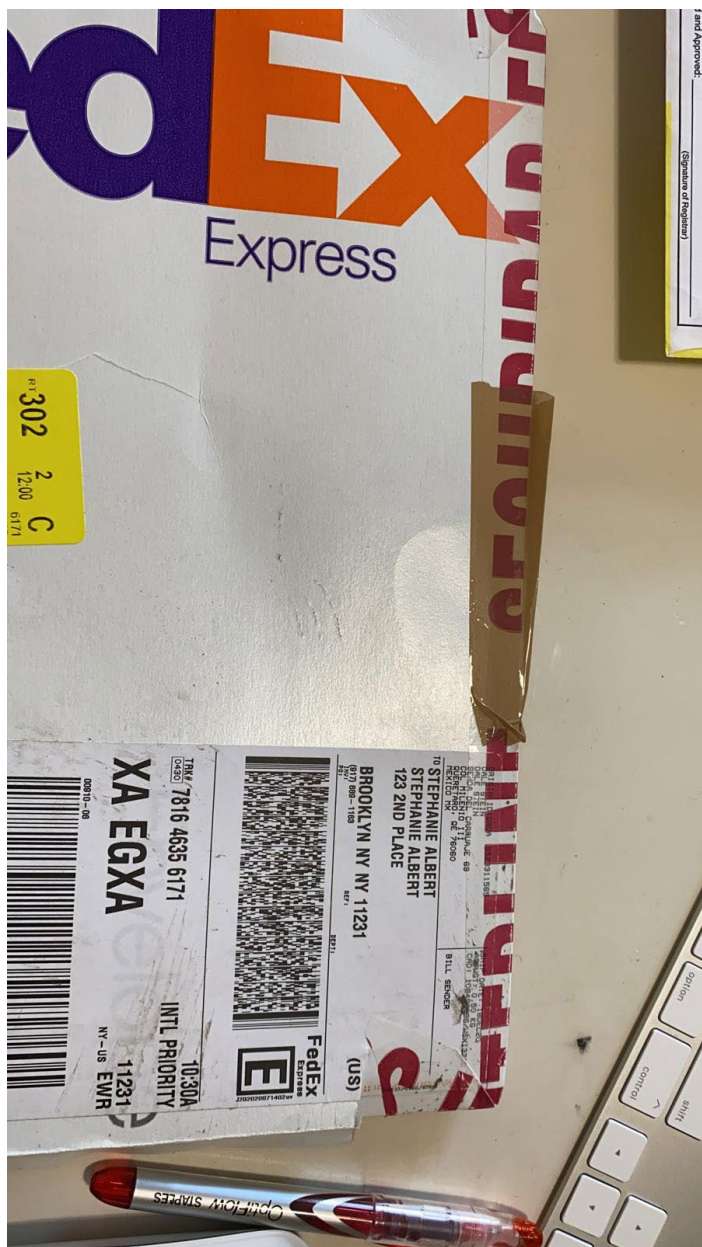

Dale Stein
Fulton county Registered voter

The ballot printed from the BMD is in the same format as it was in November. We list the incumbents associated to the US Senate races in the header so it can be easily seen which US Senate race is which. Since there is only one PSC race on the runoff ballot, we did not have to do this.

Location of Violation: The early voting bus at Crabapple government building in Milton, GA on 12/21/2020

Description of Violation: After voting i was stopped in the parking lot by a lady and told she was calling the police as that was not a legal voting site. She asked who o voted for and i told her that was not her concern. She asked if both parties were voting there and I told her that i have no idea someoneâ?Ts political affiliation by looking at them. She asked if i scanned my vote face up or face down. I told her it is not her concern. She stated i voted illegally. Also, sitting right next to the voting van were 2 trucks with giant Trump flags flying. They were parked there the entire i was at the voting location. I notified the poll workers of both situations as both felt like a violation of my right as a voter to not be questioned in the parking lot next to trump flags. The security officer was asked to address the situation but he sat in his truck next to the trump flags and truck and when asked to address the woman in the

parking lot he reluctantly walked towards her and clearly was not concerned but only going as the poll worker asked him to address her.

If they are taking the picture as evidence to challenge a potential out of state voter, that is likely not illegal.

Received a call from Jerry Sweeney in reference to an issue at Park Place @ Newtown School

An Johns Creek Officer came over the radio asking for a supervisor then said “one in custody”.

A voter became upset over being asked for ID to vote. Poll manager asked him to step outside to discuss so he would have the opportunity to vote but he became irate. Officer detained him and contacted an on duty officer. The voter calmed down and was subsequently released and left without voting. Johns Creek Police pulled a case number and will be providing Sweeney with a copy.

Case Number not available at this time.

Rick, Erica, and Shauna,
Several counties are getting lists of challenged voters. OCGA 21-2-230(b).
My understanding is that your county boards may have gotten written challenges for voters as well.
OCGA 21-2-230 requires the board to “immediately consider such challenge and determine if probable cause exists...”

Today is the two week point and my ballot still hasn't been accepted. I spoke to someone at the Buckhead library who said they have been picking them up from the dropbox, The Registrar's office hasn't gotten back to me. If I don't get accepted by next week and want to vote in person, do I just show up and say my mailed ballot was lost or do I need someone to officially clear it and give me permission?

I don't know why this keeps happening to me.

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong mailing address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their mailing address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their mailing address on record. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's mailing address on record.

Rick,

Regarding your mobile voting busses, I looked at the schedule and see a lot of different locations.

OCGA 21-2-382 and SEB Rules (listed below) specify appropriate locations for advanced voting sites.

Do all of the sites where the mobile voting will be offered satisfy the requirements as either government buildings or Election Day polling places as required by the law and SEB Rules?

Rule 183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots

(1) Definitions. As used in this Rule and O.C.G.A. Section [21-2-382](#), the term:

- (a) "Government building generally accessible to the public" means any building or structure which is used by the public:
 - 1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and
 - 2. that is constructed or renovated in whole or in part by use of state, county, or municipal funds; the funds of any political subdivision of the State; or, to the extent not required otherwise by federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section [21-2-381](#) and for the purpose of voting absentee ballots under O.C.G.A. Section [21-2-385](#). Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

§ 21-2-382. Additional sites as additional registrar's office or place of registration for absentee ballots

- a. Any other provisions of this chapter to the contrary notwithstanding, the board of registrars may establish additional sites as additional registrar's offices or places of registration **for the purpose of receiving absentee ballots under Code Section 21-2-381 and for the purpose of voting absentee ballots under Code Section 21-2-385, provided that any such site is a branch of the county courthouse, a courthouse annex, a government service center providing**

general government services, another government building generally accessible to the public, or a location that is used as an election day polling place, notwithstanding that such location is not a government building.

(b) Any other provisions of this chapter to the contrary notwithstanding, in all counties of this state having a population of 550,000 or more according to the United States decennial census of 1990 or any future such census, any branch of the county courthouse or courthouse annex established within any such county shall be an additional registrar's or absentee ballot clerk's office or place of registration for the purpose of receiving absentee ballots under Code Section 21-2-381 and for the purpose of voting absentee ballots under Code Section 21-2-385.

Location of Violation: Milton public library

Description of Violation: I early voted on Monday Dec 14 around 2:30 pm.

The election worker Marta informed me that I requested a mail in and/or absentee ballot therefore I needed to sign an affidavit.

IT WAS NOT ME!!!

Iâ?Tve always voted in person and did not request it nor received it at my home.

I signed the affidavit but I have little faith in the integrity of this run off.

Location of Violation: Alpharetta Library - Early voting December 14th approximately 1:30pm

Description of Violation: The poll worker that checked my ID did not have me sign an Absentee Ballot form prior to me voting. It wasn't until after I voted that I noticed everyone else signing the form, but I wasn't offered one. I had my husband Ryan who was with me confront the poll manager and he printed the form apologizing for the mistake. I'm a registered Republican. If I didn't sign an Absentee Ballot, would my vote have counted?

Greetings,

On 12/15/2020, Jerry SHADINGER contacted the Watchdesk to inform us on a tweet that was made by Lin Wood regarding the election and voter fraud.

Disposition: Logged in JIMNET and disseminated to the on call analyst, R10 Analysts, GISAC Supervisors, and GBI Voter Fraud Group FYSA.

Background: SHADINGER contacted the Watchdesk as a concerned citizen inquiring on whether the GBI was investigating the election fraud claims. SHADINGER reported seeing a twitter post from an attorney that depicted boxes of votes that were being stored in a warehouse, SHADINGER stated that the GBI, FBI, and others were tagged in the post. The post was found through open source searches as being made by known attorney "Lin Wood". The caption on the post is as follows: "Hey { @FBI, @GBI_GA, @BrianKempGA, @GeoffDuncanGA, & @GASecofState }, why are there boxes of GA Mail ballots hidden in a warehouse in Fulton County, many shipped from Arizona? GA Election was a fraud. Do your damn jobs". A snip of the post made is attached for review.

WOOD has made numerous posts regarding the election and the fraud claims. SHADINGER was not positively identified. Two possible records were found for Jerry SHADINGER in GA.

Please see the attached scan of a notice from Fair Fight Georgia that was sent to a Fulton Resident. The current owner bought this house from the listed voter, Meron Fissha. She has not lived there in years and we have confirmed that she requested and voted a AB that was mailed to her in Maryland in November. She has requested a AB for January. The owner, Gabriel Sterling, would like to challenge this voters rights to be registered voter in Georgia and this vote. Can you please advise what steps will be taken to assure that this voter that is now residing in Maryland, using a residential address that she does not live at, is not allowed to vote in the January election.

If we have a case open in Fulton County for the January election for AB fraud we need to add this to the case and have someone contact the county- Rick Barron and Ralph Jones. The owner of the residence is Gabe. He bought the house from this person and she does not reside there and lives in Maryland. This request for January AB needs to be challenged and rejected. We will need statements from Gabe and from the voter Meron Fissha.

They need to get on this today. Let me know the case number

> Description of Complaint: On Dec 14, 2020, I went to early voting at the High Museum of Art. When I arrived, I was not allowed to approach the High through the main entrance off Peachtree. A security guard was there to tell Me and my friends that we were not allowed there due to filming. We were told to walk around to the back alleyway. As we walked around, we tried to enter from another entrance near the symphony hall. Again we were told we could not pass due to filming. There was so signage at the regular entrances to say that we could not enter through there. There also wasn't any signage along the way to let us know where the new back alley way was. Eventually we found it, after a bit of a walk. The early voting website also did not mention this restriction. This is voter suppression, especially for elderly voters and voters with disabilities who had not planned to add that additional walk. It also created much confusion. I am very disappointed that the high museum was allowing a for-profit production to film there on a voting day, restricting access to county residents and their rights.

Director Barron,

Attached is the questionnaire for the remaining employees that worked State Farm on November 03. Also, the spreadsheet with the names you provided. The names that are highlighted have already been interviewed so there is no need for them to fill out the questionnaire. I will also need an email from you in reference to your conversation with Ralph that night about staying to continue counting. If you have any questions please advise. When you get a grasp of how the attorneys want to handle this could you please tell me how long you think it will take to complete.

Thanks in advance

I understand your desire for guidance. The SEB may be providing specific guidelines soon. Until then, do the best you can while you have the authority to make those decision on your own. I appreciate the exchange of ideas and opinions. We all have different perspectives and challenges and everyone is worn very, very thin. I know that every one of you is trying to do the best you can for your voters and for the process, and I appreciate you and your efforts.

Thanks Chris, the code section may be short, but it definitely needs to be clarified; especially when someone at the State is not making it clear to the public. Also, what's your take on the Attorney General Opinion that follows 21-2-406?

Yes, please establish uniform guidelines to assist us. It takes one simple clarification notice to the political parties/public from the State. This needs to be done as soon as possible. We can send emails back and forth all day; however, to readily resolve this is to

**provide us with some uniform guidelines and clarify the process to the observers. I think this is a reasonable request to the SOS...

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, “If it’s difficult or inconvenient to perform a duty in public, you won’t have to make changes to the way you’ve done it for years.”

Instead, at 24 words, it’s probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you. If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*“The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information** and prevent interference with official duties.”*

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*"The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.**"*

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Just because the process has to be done in public does not mean that the observers have to see the details. They are seeing that the process is being done properly and publicly, and not critiquing or judging the accuracy of the comparison.

For example, if a person was sitting at a table “rubber stamping” the absentee ballots as approved without ever comparing a signature, an observer could see this and report it and object to the practice.

The fact that a person is at a table in public view and is obviously looking at a ballot envelop and then comparing it to a screen and/or another piece of paper can be observed by the public without the observer seeing either the signature on the envelope or the “known” signature to which they are comparing it. Now if the person doing this is so far away from the public that they can’t see the worker even handling the envelop, that could be problematic.

Feel free to call with specific situations or concerns.

IMPORTANT: The Public Records and commercially available data sources used on reports have errors. Data is sometimes entered poorly, processed incorrectly and is generally not free from defect. This system should not be relied upon as definitively accurate. Before relying on any data this system supplies, it should be independently verified. For Secretary of State documents, the following data is for information purposes only and is not an official record. Certified copies may be obtained from that individual state's Department of State.

The criminal record data in this product or service may include records that have been expunged, sealed, or otherwise have become inaccessible to the public since the date on which the data was last updated or collected.

Accurint does not constitute a "consumer report" as that term is defined in the federal Fair Credit Reporting Act, 15 USC 1681 et seq. (FCRA). Accordingly, Accurint may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or another permissible purpose under the FCRA.

Your DPPA Permissible Use: Court, Law Enforcement, or Government Agencies

Your GLBA Permissible Use: Law Enforcement Purposes

Your DMF Permissible Use: Legitimate Business Purpose Pursuant to a Law, Government Rule, Regulation, or Fiduciary Duty or Legitimate Fraud Prevention Interest

Subject: RE: Easy Vote

Sharon,

You might want to try copying only the voter IDs that represent valid check-ins. I'm not sure what the easyvote file looks like, but all we really need are the voter ids from valid check-ins. We don't need the other data.

Description of Violation: I arrived at the polling place around 9am. I handed the poll worker my ID and he handed me a yellow card for the machine. When I inserted it into the machine, a message came up that said there was already a vote recorded on that card. I alerted the poll manager, who observed the message on the screen. We removed the yellow card and returned to my original poll worker. Together they evaluated my ID and could not figure out an issue. The poll manager and I moved to a different voting machine with the card... same result. So I had to fill out a provisional ballot. I feel violated and disenfranchised.

Dear Ms. Watson,
Thank you for your email.
Below follows my complete report from my 3 day volunteer participation at the run-off polls.
Please forward to me the email address of the County Elections Board, or forward this to them with copy to me.

Thank you.
Robert Farrell

Here is a summary of my three days at the polls:

Early voting State Farm Arena 18 December 2020 1300-1700:

- * nothing unusual to report
- * poll workers were pleasant

Absentee ballot counting Georgia World Congress 2 January 2021 - 1300-1700

- * Poll Manager was rude and hostile. Would not answer politely posed questions, just barked orders.
- * barriers prevented any observation of the process. The nearest poll worker was 20 meters from the barrier, average distance about 50 meters. This cannot be explained by 'social distancing' requirements. It was obvious the purpose was to prevent meaningful observation.
- * military absentee ballots were processed behind barriers with cardboard facings, so it was not even possible to see who or how many people were doing that part of the counting. A consultant from SoS office explained that military ballots are received on regular letter paper, then transcribed onto machine readable ballots by poll workers in the unobservable area. This gross irregularity should require no further elaboration.
- * There were about 100 poll workers on duty. The poll workers in no way represented a cross section of Fulton County residents. In October I had applied to be a poll worker, having been notified by the Election commission that workers were desperately needed. In my application I wrote that I was willing to work at any location on any shift. Never heard back from them.

Election day poll monitoring - Benteen Elementary School 200 Casanova St SE - 0700-1500

- * Polling station was well managed by a Ms Shiela Moore.
- * at 1500 when my replacement David Bourne took over there were 192 vote card issued and 167 ballots thru the scanner. David later texted me that the final numbers tallied, that the final difference was made up by 20 ballots from the emergency slot that were fed thru under his supervision, making the final tally 260/260 cards to ballots.
- * Poll workers were pleasant and cordial.
- * A lawyer for ACLU was working in the voting area, issuing affidavits to voters who presumably has requested absentee ballots. These voters (about 10 as of 1500) signed affidavits and voted. The poll manager said she had no authority over the ACLU lawyer, which I think is odd. The lawyer did not allow any insight into what she was doing and got defensive when I asked questions. I was later told these lawyers are allowed to be in the voting area, but think it is not proper that they should not be supervised and not under the authority of the poll manger.

Suggestions for next time (if there is a next time):

- * No-excuse Absentee voting should not be permitted. Any fair minded person must agree that some degree of cheating will result.
- * The poll workers should represent a cross section of the county population. This could be achieved by each party submitting a list of volunteers, and the workers being picked at random in equal numbers from each party.
- * The SoS office needs to have more paid observers with more authority to correct irregularities on the spot. All our complaints afterward have little practical effect.

Sincerely,
Robert Farrell

Description of Violation: I was an observer at Benteen Elementary polling station on 5 January from 0700 to 1500 hours.

There was woman named Merideth Regans who was not a poll worker, but was stationed next to the workers. She had a lap top and issued affidavit forms to around 10-12 voters who had an issue. According to Ms. Regans, she had access to a data base of registered voters, and issues the forms for the voters to sign. I asked to see the data base she was using, but she refused to provide any details about her information. She said she was 'deputized' by the Election Committee or the County, to perform this task. The Poll Manager Ms. Shiela Moore, said that she had no authority over Ms. Regan. There was no second person check of what she was doing. It seems odd to me that someone other than a poll worker could be involved in the process of issuing voter cards.

Location of Violation: Online voter status shows that I am still active, but have not lived in Georgia for last 6 years.

Description of Violation: *** The address above was my home from approximately 2010 to 2015, but it is not my current address.

Current address is 3130 S. Garrison Chapel Road, Bloomington, IN 47403. All other contact information is the same.

I moved out of Georgia in 2015. The last and, I believe, only time that I recall voting in Georgia was the General Election in November 2011. I checked my voter registration status online today and it shows that I am an "active" voter, despite not having lived in the state of Georgia for the last 6 years. I looked for a means of changing that status online, but it requires a GA driver's license, which I do not have.

I would like to validate that my information has not been used to cast a vote in Georgia when I have not lived in the state. In addition, I would like remove myself from any active voter lists in Georgia as I am not a resident. Any

help would be appreciated.

This election (leading into the November 2020 general election) is unique in that I have received a large amount of Democratic party-based text messages to vote in Georgia (6-years after leaving the state and never recall receiving such messages in the past, while living in the state of Georgia). I do not vote for that party when another option is available. This could all be coincidence, but thought it would be relevant to bring up in addition to the above.

Sharon,

I also noticed that you sent 3 spreadsheets on December 29th. I looked at the voter ids in those spreadsheets. Attached are the list of ids that were in your lists but we did not give credit to them. In order to give credit to these voters, your team will need to use single or multiple voter participation.

I just talked with Rick. We have not been able to give credit to these voters in red. You will need to use the single voter participation or the multiple voter participation. Use one of those options even though credit might not appear on MVP.

Description of Complaint: I am in the hospital with ██████████ and filled out an absentee ballot form. I had no way to mail it in and feel disenfranchised. You should have had a way to make sure my votes could be counted as I fight for my life!!!

Rick,

We're hearing that observers of the early scanning are being blocked by barriers from seeing what's going on at the early scanning.

It's most helpful to have meaningful observation of the process, and I don't see how barriers that obstruct the view are helpful.

Good morning,

Could a staff member please assist Ms. Storch?

(a) At any time after receiving an official absentee ballot, but before the day of the primary or election, except electors who are confined to a hospital on the day of the primary or election, the elector shall vote his or her absentee ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out, subscribe, and swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall then mail or personally deliver same to the board of registrars or absentee ballot clerk, provided that delivery by a physically disabled elector may be made by any adult person upon satisfactory proof that such adult person is such elector's mother, father, grandparent, aunt, uncle, brother, sister, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, sister-in-law, or an individual residing in the household of such disabled elector. An elector who is confined to a hospital on a primary or election day to whom an absentee ballot is delivered by the registrar or absentee ballot clerk shall then and there vote the ballot, seal it properly, and return it to the registrar or absentee ballot clerk. If the elector registered to vote for the first time in this state by mail and has not previously provided the identification required by Code Section 21-2-220 and votes for the first time by absentee ballot and fails to provide the identification required by Code Section 21-2-220 with such absentee ballot, such absentee ballot shall be treated as a provisional ballot and shall be counted only if the registrars are able to verify the identification and registration of the elector during the time provided pursuant to Code Section 21-2-419.

Description of Violation: I am not sure if this is a violation, however, I noticed a lack of privacy while voting for the runoff that was mitigated during the general election. When voting this morning the location was entirely glass and there were no privacy screens/papers on the windows to block other voters standing in line from seeing who another voter casted their ballot for. Given everything that is going on regarding election integrity, this was fairly concerning as I felt like people were over my shoulder and that my vote was not able to be cast privately. I have photos where you can clearly see the voting machine screens from outside. Additionally there were no cameras of the registration process to help to protect the integrity of voters including no validation of a voters face to the ID that was presented at the time of registration.

Description of Complaint: I got an Absentee Ballot and I made a mistake. Following the directions that when it spoiled you write on both the ballot and the envelope SPOILED. I did it just as specify big and bold right across the ballot and the envelope.

I now discovered I vote already. I would like to know how I vote when SPOILED is written both on the ballot and the envelope. I would like to vote and I needed this to be straighten out. I'm sure my ballot should still be there and its stated SPOILED as I write it here. Big and Bold

Please look into thismatter for me.
Thank you.

Hello Ralph,

I hope you are having a good start to the new year. Could you please let me know if you have received the ballot from Tanya Anglin? She is concerned because her husbands ballot was accepted but hers is unaccounted for even though they were in the same outer envelope.

I posted my absentee ballot from Australia in early December. They were in the same postal envelope but separate envelopes inside.

His vote has been accepted and counted weeks ago. Mine has disappeared.

Description of Violation: On 12/22 I went to the Dorothy Benson center for early voting. Upon checking in, I was told that I had already cast an in person vote at the Etris Community Center in Union City on 12/15. This vote was definitely not cast by me. I was home quarantining with COVID on 12/15 and have never been to Union City in my life.

Since that day, I have contacted the voter registration department on several occasions and was directed to contact Sharon Benjamin and Pamela Coman. I have multiple messages for each of them and have not heard back.

Marjorie Richardson and Velma Yates at the Dorothy Benson center have contacted Ms. Coman and Ms. Benjamin directly and supposedly they were investigating this situation and working to correct it.

I have not been able to cast my vote for the January 5th runoff election and am very concerned that no one has returned my calls.

Location of Violation: Fulton County Election Board:withholding or misplacing my absentee ballot and outright lying to me when I followed up

Description of Violation: I'm a 67 year old resident of 67 that has lived at the same address since January of 1994 with my wife. On the evening of December 14th I was feeling like I was having a major [REDACTED] but after 50 years of managing it I knew it was not the normal. On the morning of the 15th I went for a [REDACTED] and began to self quarantine. My test results came back on the 18th and I headed right over to the [REDACTED] to the ER at [REDACTED] to check for [REDACTED] as neither are good for Asthmatics. As soon as I got back from treatment I went online and completed the form to get an absentee ballot. The system said it was accepted and on Monday the 21st I got an email that it was already on the mail. When it didn't arrive on the 24th I got concerned and called the SOS and they transferred me to a supervisor at the election board. He indicated that he would mail another one right away. I inquired if that would cause an issue as I might get 2. He clearly stated that they would only process 1 and I should not worry. On the 28th I learned .On the 28th I was informed by a person in the SOS that the second ballot was sent but that the first one was null and void. I still haven't gotten either.

I know there are games being played as in the primaries I requested an absentee ballot as I had scheduled a number

██████████ for the Monday before the primary . This request was made 2-3 weeks before the election. I wanted to vote I was not contagious so I got to my voting location at the Heard's Ferry Elementary school. Took me about 45 minutes as the poll manager was not aware or very willing to sign the necessary form. By the way that absentee ballot showed up on the Wednesday or Thursday after the primary.

In speaking to the supervisor he mentioned that absentee ballots are sent to the Crown road mail sorting location by the airport.

Might be a good idea for the GBI to pay them a visit tonight or early tomorrow as my guess that they have been held at the sorting location and will be delivered to local branches on Wednesday for delivery. GA needs to do better.

Being ██████████ and unable to secure an ██████████ showing ██████████ is taking away my right to vote. It's beyond shameful. . On Tuesday of last week I was told that my coughing, growing lack of taste, being dizzy and tired will be around for weeks. My ██████████ is now scheduled for the 20th. I did everything by the book and someone at the Fulton County Board of elections should be held accountable..

I give my permission to forward my information (and my husband Richard Wolownik's permission) as he never received his ballot either, to the investigation team. Both absentee ballots were requested, online on November 10, 2020. My phone number is 404-307-6121, however e-mail or text messages are the best way to reach me.

I must say the failure to mail our absentee ballots is totally acceptable. The subsequent text messages I received on December 5, 2020 from the Fulton County Registration and Elections, turned out to be false information (phone number provided 404-612-3816 in the event I needed to call them). We called on December 9 and were told that they could not track the ballot unless 10 days

had pasted since the text message date (which was 12/5/2020). So we waited, called again 12/14. This was the call where the young lady informed us and this is a direct quote here "oh the Secretary of State closed that web page down, no ballots were mailed".

Sorry we did not get her name.

This smacks of gross negligence on the part of your vendor at the very least, and looks and feels like voter suppression.

My sincerest thanks goes to State Senator, John Albers in assisting us through this web of inaccurate and miss leading information. We could not have gotten this far without his valuable assistance. Thank you John.

I look forward to receiving accurate information concerning this issue.

Oh by the way, I just received a text message, while composing this message to you dated December 31, 2020 at 2:44 pm and i quote "Records show you not have secured your vote yet. There's still time! Request your absentee ballot HERE: txtred.co/10212XHj~m-stop2end" wonder if this is good information??

Ms. Wolownik,

Unfortunately, since the state vendor did not mail your ballot, we are unable to tell you where the tracking of it is. I am sorry to hear that you have had this issue, and with your permission, would like to send it to our investigations team. Could I please have your phone number to provide to them as well? Also, do you have the name of the person you spoke to and the date you spoke with them regarding overnighting your ballot?

At this time, the best recommendation is that you contact your county elections office directly and see if they can explain where your ballot is. You can still vote in person January 5, 2020.

Nadine,

Thanks for reaching out. Given the scrutiny around Tuesday's election, we think you should accept the list. Arguably, because the deadline falls on a weekend, it goes until Monday anyway under 21-2-14. If there are no Republican poll watchers allowed on Tuesday (even if it's their own fault), the uproar will not be helpful to either of us after the election.

Thanks,
Ryan

Good morning -

Attached is the Fulton Republican Party list of poll watchers for the runoff election on January 5, 2021. There are 375 line but remember the 1st line is the header line. I also attached the letters/emails we sent out. I will be sending our volunteers the Poll Watcher Guidelines that were suppose to be attached to the emails sent out.

I want you to know that everyone has been shifted out so no more than 2 people are poll watching at a time.

Our shifts if they didn't want to commit to the entire day are:

Shift 1: 5:30am-1pm
Shift 2: 1pm - Close

If you have any questions, please do not hesitate to call or email me.

Thank you for working with the GAGOP & the Fulton GOP in getting this list to you.

Regards,

Betsy Kramer

PS. I will put the extra name badge holders left over from EV in my RW-17 supply box. Hopefully the warehouse will get them to you.

Description of Violation: We have received multiple pieces of mail with the name Gia Elena Abata in the mail, with my residential address on the mail. I have received 3 pieces of mail addressed to Ms. Abata with my current address over the past 2 weeks. I checked all previous home owners names in the Fulton County Property Search, and none showed Ms. Abata or a relative of Abata as a previous owner. Today (12/31/2020) a voting volunteer came to my door asking for Ms. Abata and I told the volunteer Abata does not live here. At that time, I opened the 3 pieces of mail addressed to Abata and found (1) a Driver's License with her picture and name with my address, (2) a Georgia Certificate of Title vehicle registration with Abata's name and my home address listed that was transferred from Illinois, and (3) a political letter from a political party group welcoming Abata to Georgia as a registered voter. I do not know Ms. Abata. She does not live at my residence. I found someone on LinkedIn that matches her name and the picture on the state issued Driver's License appears to be the same person in the online picture. I would like to report this as potential fraudulent activity regarding the State of Georgia elections.

I give my permission to forward my information (and my husband Richard Wolownik's permission) as he never received his ballot either, to the investigation team. Both absentee ballots were requested, online on November 10, 2020. My phone number is [REDACTED], however e-mail or text messages are the best way to reach me.

I must say the failure to mail our absentee ballots is totally acceptable. The subsequent text messages i received on December 5, 2020 from the Fulton County Registration and Elections, turned out to be false information (phone number provided 404-612-3816 in the event I needed to call them). We called on December 9 and were told that they could not tract the ballot unless 10 days had pasted since the text message date (which was 12/5/2020). So we waited, called again 12/14. This was the call where the young lady informed us and this is a direct quote here "oh the Secretary of State closed that web page down, no ballots were mailed". Sorry we did not get her name.

This smacks of gross negligence on the part of your vendor at the very least, and looks and feels like voter suppression.

My sincerest thanks goes to State Senator, John Albers in assisting us through this web of inaccurate and miss leading information. We could not have gotten this far without his valuable assistance. Thank you John.

I look forward to receiving accurate information concerning this issue.

Oh by the way, I just received a text message, while composing this message to you dated December 31, 2020 at 2:44 pm and i quote "Records show you not have secured your vote yet. There's still time! Request your absentee ballot HERE: txtred.co/10212XHj-m-stop2end" wonder if this is good information??

Ms. Wolownik,

Unfortunately, since the state vendor did not mail your ballot, we are unable to tell you where the tracking of it is. I am sorry to hear that you have had this issue, and with your permission, would like to send it to our investigations team. Could I please have your phone number to provide to them as well? Also, do you have the name of the person you spoke to and the date you spoke with them regarding overnighting your ballot?

At this time, the best recommendation is that you contact your county elections office directly and see if they can explain where your ballot is. You can still vote in person January 5, 2020.

John I am so upset and feed up with the State of Georgia. I am still awaiting my mail in ballot. Requested it in November. First, on 12/5 received a text saying my ballot had been mailed. Then I called several days later, they could not help me because it had not been 10 days since I got the text. Waited 10 days my husband called they said the web page that sent out the text msg. had been shut down by the SOS 1st week of December. No ballots had been mailed however Ballots would be mailed 12/20. Well you can guess the rest of the story, no ballot yet, with the New Year holiday coming looks like my ballot will be to me after Jan 5. Totally disgusted with the whole system! Sorry for the rant. P.S. they verified my address so that is not the problem. Request ballot mailed to 273 Liberty Lane, Melbourne Beach FL 32951. The Liberty Lane address is the address that was verified as to where the Absentee Ballot to be mailed. They also informed us at the last phone call that we should "over night" the ballot back to make sure it is received.

Good afternoon,

I am writing to check on the parameters of what is allowed at polling sites in Fulton County. My friend just voted at the Sandy Springs library on Roswell Road. As he was exiting, he was approached by three individuals asking him to commit to getting three more people to come put and vote. Is this allowed? I know it is not specifically considered campaigning, but is it on to have people on the polling site?

I just wanted to check.

Thanks,
Jan Russell

This is Elizabeth Hartwick, writing on behalf of myself and my husband, Bryan Paquette (copied). We are Fulton County, GA residents and our absentee ballots were mailed Dec. 2; however, we have not received the ballots. The voter registration hotline provided your name and email address to me as the best contact to resolve this matter in a timely fashion.

We have attached our affidavits AND pre-paid overnight UPS shipping labels for you to immediately send our new absentee ballots to us. We have included TWO labels - one for my ballot and one for

Bryan's. The absentee ballots should be mailed to: 2645 E. Avenida de Pueblo, Tucson, AZ 85718

We originally requested the ballots on/about Nov. 9. Our Fulton County address is 10702 Austen Bend, Alpharetta, GA 30022.

Please confirm that you have received this email and let me know when the new ballot will be sent to us.

Many thanks in advance,

Elizabeth Hartwick (DOB [REDACTED]/79) and Bryan Paquette (DOB [REDACTED]/1974)

Hey Pamela,

Per our conversation concerning this voter [REDACTED]

This voter is saying that she never requested an absentee ballot by mail for the November 3rd election. I checked her status and Fulton county issued her a absentee ballot by mail on 10/07/2020 with an application date of 10/07/2020. In the absentee module in ENET, it shows that she cancelled her ballot so she can vote in person. I am needing you all to send me a PDF copy of her tangible application for absentee.

Thanks

Good morning,

Shirley Favors can't log onto Enet. I have reset her a couple of times. The logon screen has saved whatever she had in the past. When she enters the temporary password listed below, it won't let her log on and there are lot of dots appearing (longer than the one listed below), which she thinks is the old one that keeps populating. It is busy with Early Voting and we really need for her to be able to access Enet today.

Barbara, thank you for your response to this letter and I would like to add that I am very disappointed at the poll manager at the East Point library early voting precinct, because she did not tell the truth! The only time that three Republicans were in the polling area is when we first walked in and we met Kevin, which we had never met before and we immediately left the polling area and afterwards there were never three of us in the polling area at one time! Trey, as a reminder, I spoke with you in Milton at the Ivanka/Loeffler Rally and told you I was at the FC breakfast.

I sent David a letter earlier also regarding my concerns as Barbara has outlined below about the red ink pens and ballots thrown in the box which were never voided or canceled as I did in Forsyth county when I early voted a week ago! In my presence, and with my consent the poll worker opened my sealed absentee ballot envelope and marked void/canceled on the envelope and on the bottom left of my ballot and she initialed and I did as well! The manager told us at East point that they were instructed that all of their AB ballots would be shredded once they left there and I think she said at the warehouse? Obviously Fulton County elections leadership officials as well as all counties need to be running their precincts in accordance with state wide rules and not separately, county by county as we were told! This is a United States senatorial runoff race and there should be state wide rules superseding any county rules! If in fact red pens are being used by poll workers because of leaders instructing them to use them when instructed in writing to only use black and blue pens on the ballots, etc., not red, throws up flags as to why they are being instructed that way!

Senator John Albers and other elected officials need to get to the bottom of what is going on at polling places in Fulton County! All senators and representatives across our state need to be at the Front of the line investigating the fraudulent actions that is taking place in Fulton County and other counties across our state during the November general election and make sure that the same actions are not occurring now in this critical run off senatorial election! Senator Ligon and other members of the Senate sacrificially gave of their time and has given their recommendation and the entire legislature if has not read the testimony under oath sworn to God, then shame on them if they have not done it! It's not just our state in jeopardy but our entire country and the way of life that we have cherished since it's founding!

Sincerely,
Gayle Troyer

There were only two of us Republicans in the enclosed space at one time. The other stayed out of the enclosed area in either an area with the vending machine or the hall way. Gayle spent most of her time sitting in the vending area. The rule is I was told, two poll watchers at a time from each party are allowed. Betsy can attest that we had

2 Democrats and one Republican and one from SOS at our poll RW17. Also at Ocee there were two of us Republicans and one Democrat and no one complained. There were two Republicans me and Betty Price in Mobile unit 1. The gentleman poll worker at East Point and I don't know his name, had no idea what to look for. Therefore Trey, you should have some in person training classes for poll watchers who do not work in the polls and have no idea what the procedures should be. The gentleman poll watcher took a Dem sign stuck in the ground in front of the entrance down and the Dem poll workers had a fit. The sign with the message said something to the effect be woke...was placed by a very left leaning group and that should be addressed. Also AB ballots were not having cancelled written across the ballot only spoiled on the envelope and the Happy Faces workers were told to use a red pen which I was told by a Fulton warehouse worker cannot be read by a scanner.

Fulton County as well as the state GOP should be strongly speaking out to the media about the whistle blowing firing of Suzie and Bridgett. I haven't heard a word from either you or David. The termination letter was written and the signature was by Dwight Brower who retired a year ago and only came back because Ralph Jones begged him to come as a consultant for the Nov. 3 election. Cowardly and under the nose of Rob Pitts, Richard Barron, should have written that letter but the letter should not have been written to begin with. How are you and David sticking up for Suzi who was slandered unfavorably and publicly on WSB TV by incompetent Richard Barron? The GOP should have a lawyer coming to bat for these two ladies who are brave enough to report the fraudulent behavior they saw. I for one am fed up with the Democrats not being challenged and being allowed to continue their failure to follow the law. The GOP leadership in Ga starting with Brian Kemp, Brad Raffensperger and Gabe Sterling have let us all down and most of us are fed up. Fulton has never been able to run the elections smoothly. They are always late, can't seem to use common sense, always have missing seals, paperwork, etc for the polls on Election Day. Have pool pads that are not programmed for the right poll. In June the expensive carriers containing equipment were not secured in the trucks and slammed into each other and one carrier holding BMDS and printers and maybe a scanner fell completely on its side. The truck driver shared that information when we were having trouble with a BMD. Who was minding the store that time?

By the way, I also signed an affidavit just inclined to not speak publicly, and I will also say Sharon had no answer to my questions. She just said procedural questions should go to Rick. She is in charge of early voting and should know the procedures. However, temp agency Happy Faces seems to have their own procedures and they now seem to control most of the votes in Fulton County with very little oversight from the county. They also do things differently from the way we are trained and yes, there is plenty of room for fraud. Happy Faces should not control Fulton polls. TIME TO CLEAN HOUSE IN FULTON COUNTY and time for our leadership to speak out. There was fraud committed in this election and Biden did not win. I witnessed the fraud and anyone who says no fraud occurred is a blind fool or a corrupt politician or a spineless leader.

Rick,
Washington Secretary of State Kim Wyman is in town and is interested in seeing your set up at State Farm Arena.
Would you be able to host her and Sec. Raffensperger for a visit tomorrow around 1:30 pm. If there is time, they might also like to see your office.
I know you have a lot of things going on, but I appreciate your considering this.
Thanks

I'll be at GWCC at 10 am, but I have something with Atlanta Magazine that will tie me

Good afternoon,

In reviewing our records, we determined that 22 voters statewide with temporary mailing addresses had ballots initially mailed to an incorrect address for the January 5, 2021 Runoff Election. Any voters for your county potentially affected by this issue are in the attachment.

Along with the voter ID, we are also including the email address and/or phone number for the voter. Please contact the voter to determine the appropriate address to mail the ballot to. Alternatively, since the election is only one week away, you should encourage the voter to vote early in person or on Election Day.

Location of Violation: New Beginnings Senior Citizen Center

Description of Violation: My family and I cast our ballots on Wednesday 12/23/20, at the New Beginnings Senior Citizen Center at 66 Brooks Drive, Fairburn, GA, 30213, between 5 and 5:15 and wanted to place our paper ballots in the scanner with the writing faced down in the machine to scan. We were told by the voting attendant to put the ballots in the machine with the writing faced upwards. We did so as she looked intently at whom each of us had voted for. We told her that we wanted to place the ballot faced down, but she said that the machine reads the paper ballot better if the ballot is placed print-side up. This very statement gives an indication that the machines are flawed or can be tampered with. After she looked at whom we voted for, she then took each of our green cards and vigorously rubbed them on a cloth with some kind of solution on it. She was rubbing so hard, I thought that she was going to damage the chip on the cards. When we voted in the primary and general elections we were also told to enter the paper ballots print-side up, but when we contested this, we were told that we could insert them print-side down. It seemed like we did not have a choice of how to enter the ballot into the machine during this runoff election. Something doesn't feel right about this. The machines should accept the printed ballots either way (print-side up or down) so that no one knows who you voted for. Having voted for Republicans in South Fulton County, this does not give me confidence that my vote will be counted. But, regardless of which county you are voting in, the voting attendant should not be doing this. They should not be aware of whom you are voting for and the machines should be this sensitive. They should be configured to only accept ballots print-side down for privacy. This needs to be investigated. Please maintain my confidentiality. Thanks.

This voter is on a list of voters that we did not send ballots to because they were involved in redistricting after their absentee application was put on file. We sent that list of voters to Fulton on November 24th and informed them that they needed to mail ballots to voters in the list. Frances, I will forward you that email.

I know that Fulton worked with Runbeck for some additional mailings after we mailed to rollover voters.

Good morning Mr. McAdams,

Thank you for your email. I see that your ballot for the November 3rd 2020 General Election was not accepted into our state system. I have copied Ralph Jones and Pamela Coman with Fulton County Elections to provide more clarification.

Ralph or Pam, could either of you assist Mr. McAdams?

Please let me know if I can be of further assistance.

Thank you,

Hi Leigh,

My name is Kevin McAdams and I am contacting you because I am concerned that my absentee ballot did not get counted in the November election. I dropped off my absentee ballot on Saturday, October 31st at the Milton Branch Fulton County Library.

Based on a letter I received from the Official Voter Audit, it suggests that I did not vote in the 2020 general election.

Can you help me understand why my vote didn't get counted?

Thanks,

Kevin

Description of Violation: I went to vote today and they said I was registered in dekalb county. I have never lived in Dekalb county. In the 35 years I have lived in Georgia it has always been in Fulton county. What do I have to do to correct this and be able to vote in the election? It was changed on 11/1/2020. I voted early in the presidential election so I didnâ?Tt have this problem. How did this happen????

Description of Violation: On Thursday, December 17th, my husband & I voted in person at the above location. I selected my choices which were David Purdue, Kelly Loeffler and the third Republican candidate on the ballot. I then reviewed my choices which appeared correct on the screen. I then selected to print and out came a printed copy. I looked at it and walked the 5-6 steps to the scanner, and was instructed to submit it which then registered my vote as being cast. Upon meeting my husband in the lobby, I asked him what his paper looked like and he said there was a barcode with the names of the three Republicans underneath it. I then told him mine only showed a barcode! We went back in & I explained my concerns to Margaret Williams, poll worker, who then asked me why I submitted it in the scanner if there were no names. My response was "how should I know that the names should be listed below the barcode"? She attempted to call downtown to advise the Board of Elections ; However, no one answered the phones. This continued over the following days! On one of those days, she said someone finally responded to her email and said that an investigation was being escalated into my claims. By Wednesday, Dec. 23, I was told that my phone numbers were given to downtown & I would hear from them. I have NOT heard from anyone. Needless to say, I have NO idea if my vote has been counted, as well as I have no idea what names or what anything is on the BARCODE! Since every vote counts, I deserve an answer about my vote before the election results are announced on January 5, 2021!

Location of Violation: Absentee Ballot

Description of Violation: Iâ€™m now officially fed up. Iâ€™m currently living in Ireland and I have not yet received my absentee ballot for the Georgia Senate election. I requested on November 9th. I received notice it was mailed December 2nd and here it is December 24th and no ballot has arrived. This is wrong! This is voter suppression! This is fraud! My ballot for the presidential election conveniently arrived the day after the election which prevented me from casting my vote. The postmark on that ballot showed it was mailed out way later than the notice I received from Fulton County said it was mailed. Iâ€™ve recently posted holiday cards to the states on December 14th which have already arrived. I have also received holiday cards from the states. Typically it takes 5-7 business days for me to receive mail from the states to Ireland. It should not be taking this long! Iâ€™m prepared to take this to the press. I need some answers.

Description of Violation: My family and I cast our ballots on Wednesday 12/23/20, at the New Beginnings Senior Citizen Center at 66 Brooks Drive, Fairburn, GA, 30213, between 5 and 5:15 and wanted to place our paper ballots in the scanner with the writing faced down in the machine to scan. We were told by the voting attendant to put the ballots in the machine with the writing faced upwards. We did so as she looked intently at whom each of us had voted for. We told her that we wanted to place the ballot faced down, but she said that the machine reads the paper ballot better if the ballot is placed print-side up. This very statement gives an indication that the machines are flawed or can be tampered with. After she looked at whom we voted for, she then took each of our green cards and vigorously rubbed them on a cloth with some kind of solution on it. She was rubbing so hard, I thought that she was going to damage the chip on the cards. When we voted in the primary and general elections we were also told to enter the paper ballots print-side up, but when we contested this, we were told that we could insert them print-side down. It seemed like we did not have a choice of how to enter the ballot into the machine during this runoff election. Something doesn't feel right about this. The machines should accept the printed ballots either way (print-side up or down) so that no one knows who you voted for. Having voted for Republicans in South Fulton County, this does not give me confidence that my vote will be counted. But, regardless of which county you are voting in, the voting attendant should not be doing this. They should not be aware of whom you are voting for and the machines should be this sensitive. They should be configured to only accept ballots print-side down for privacy. This needs to be investigated. Please maintain my confidentiality. Thanks.

Dear Ms. Kinnemore,

My name is Dale Stein (a Fulton County registered voter) and we just spoke on the phone about an hour ago.

My concern is that being an international Georgia voter is already hard enough when trying to vote. However, I sent my official absentee ballot by Fedex to my sister to be posted by US mail. When she received the Fedex, she immediately informed me that everything had been opened.

My concern is that, at this point, receiving a new ballot to be sent back would not arrive on time. As it is, it took 25 days to receive the absentee ballot (shown in the pictures) due to slower than usual mail processing time.

What can I do in the situation?

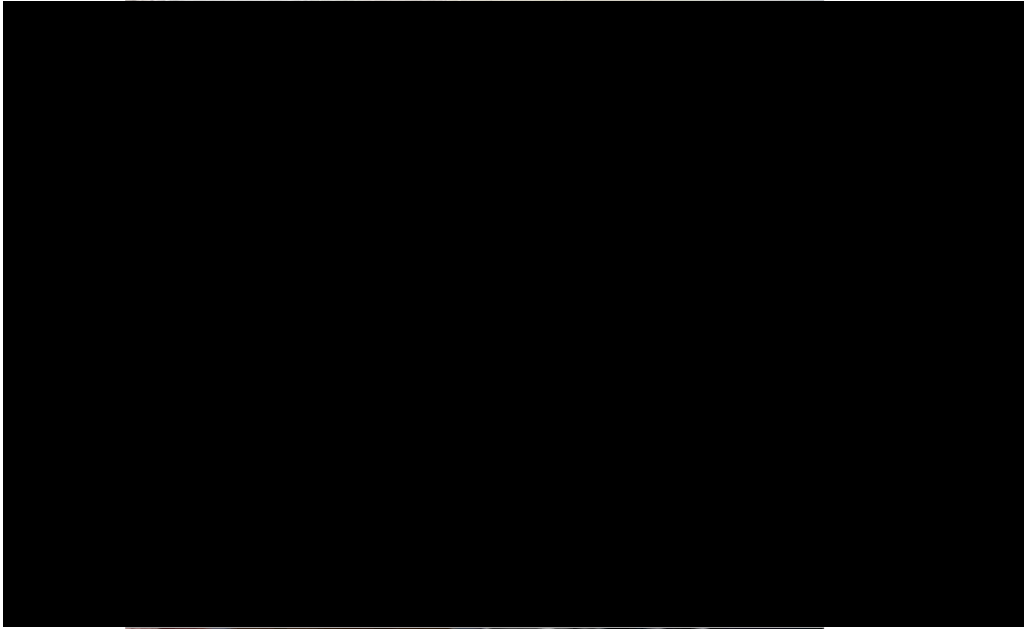

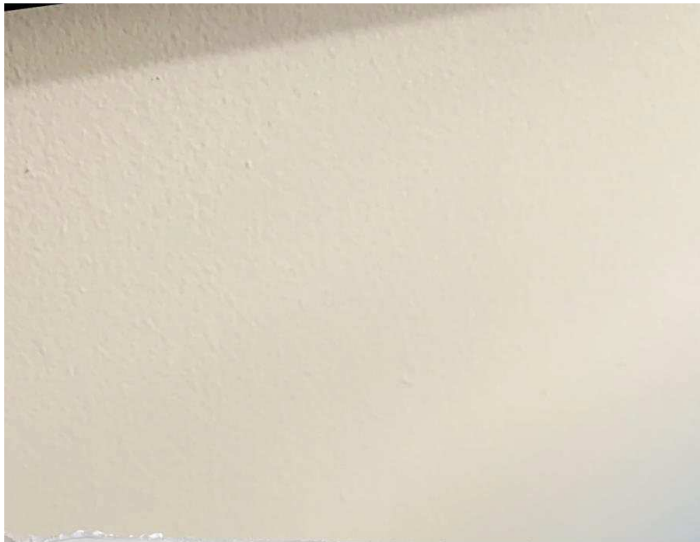

I will obviously file a complaint with Fedex as the opened absentee ballot serves as voter tampering (a federal offense) and therefore my fedex-ed letter was ruined.

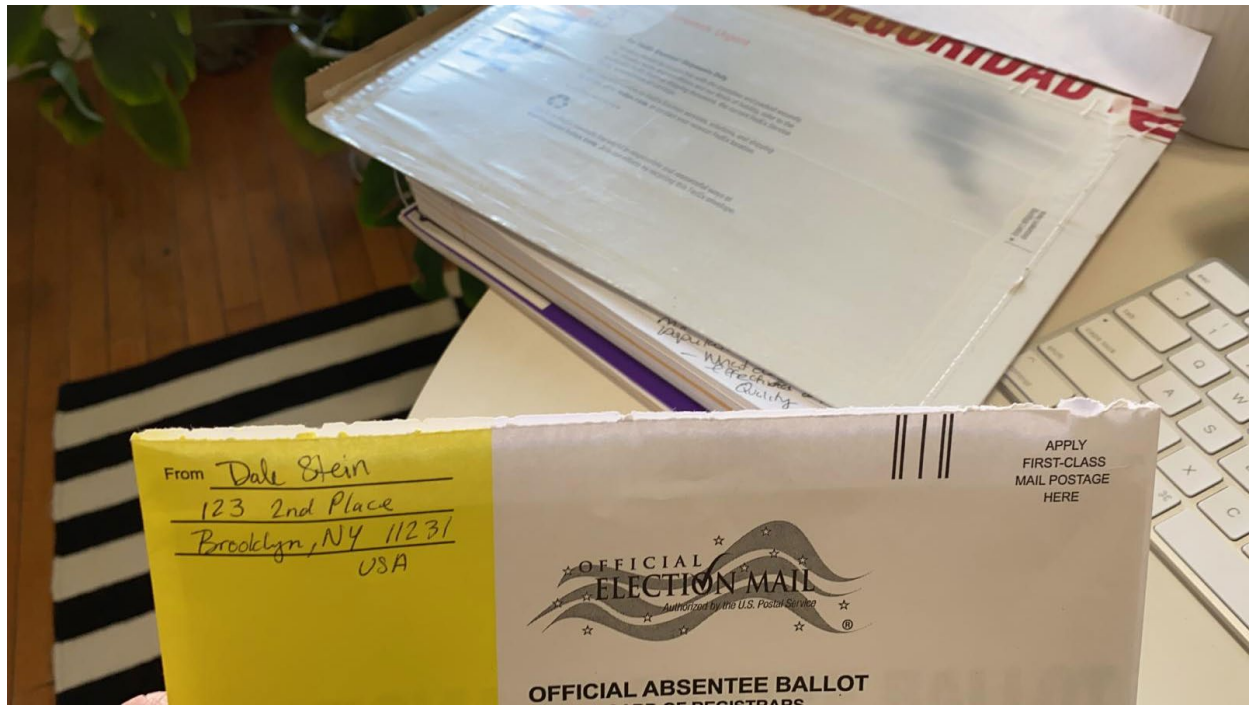

Please let me know what my options are at this point.

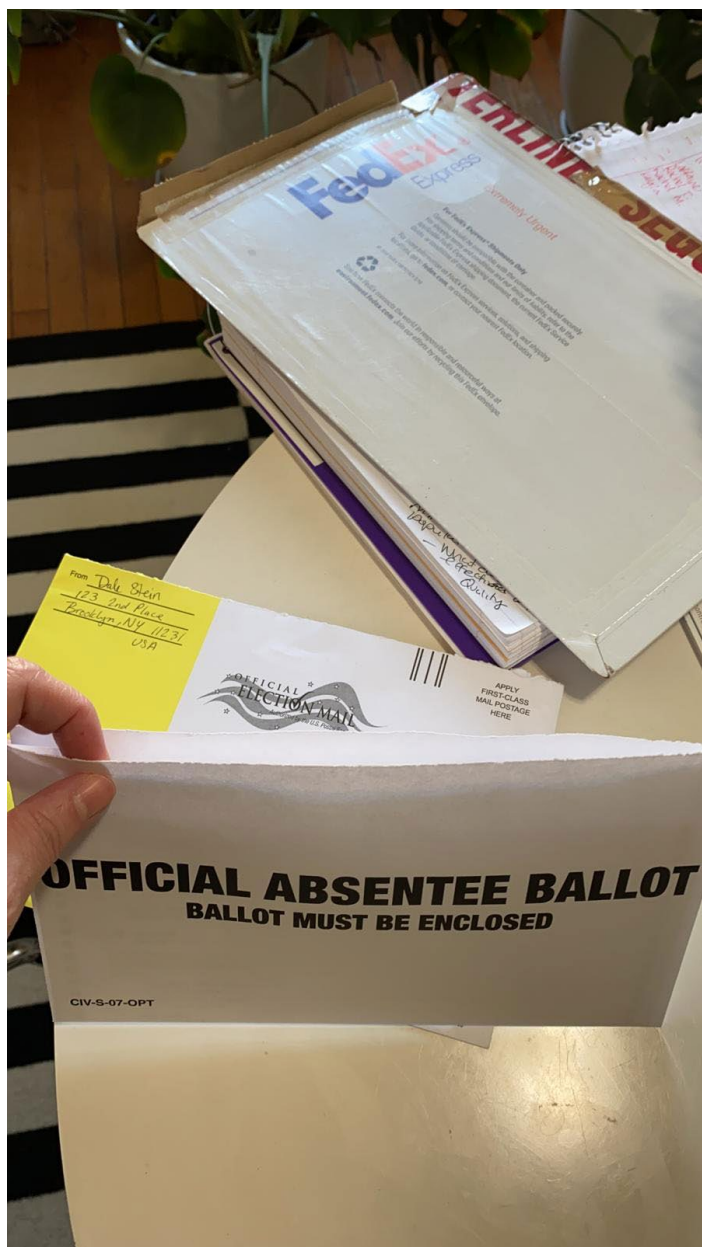

Thank you for all your help in advance,

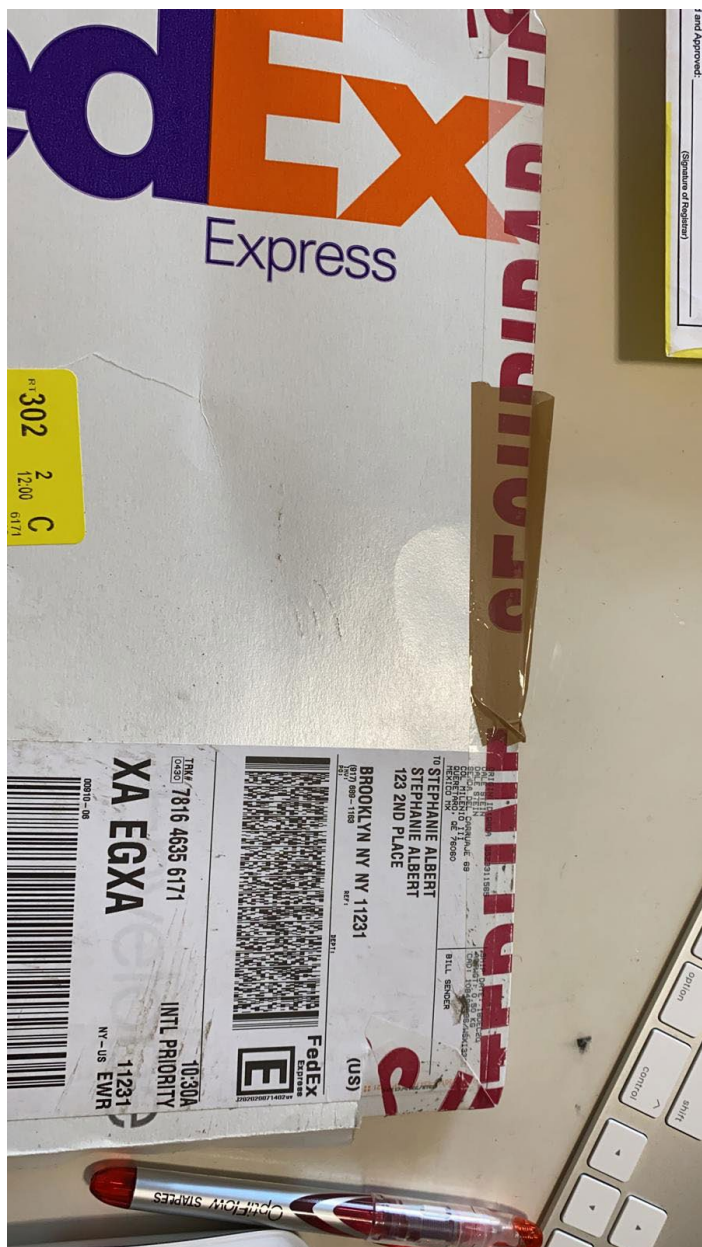

Dale Stein
Fulton county Registered voter

Below are the attached pictures of my opened absentee ballot:

Good morning Pam and Ralph,

Please see the email below from Ms. Ali Farmer, who works with Senator Albers.

Mr. Lloyd Massey requested a ballot and has yet to receive. I checked the tracking system and the last ballot mailed was on 09/23/2020. Could your office please re-issue a ballot for Mr. Massey?

Good morning!

Senator Albers has a constituent that requested an absentee ballot, but has not received it yet. Could you please tell me what needs to be done to get this worked out?

If someone in your office would prefer to contact the constituent directly, his name is Lloyd Massey and his number is 770-993-4859.

The ballot printed from the BMD is in the same format as it was in November. We list the incumbents associated to the US Senate races in the header so it can be easily seen which US Senate race is which. Since there is only one PSC race on the runoff ballot, we did not have to do this.

Location of Violation: The early voting bus at Crabapple government building in Milton, GA on 12/21/2020

Description of Violation: After voting i was stopped in the parking lot by a lady and told she was calling the police as that was not a legal voting site. She asked who o voted for and i told her that was not her concern. She asked if both parties were voting there and I told her that i have no idea someoneâ?Ts political affiliation by looking at them. She asked if i scanned my vote face up or face down. I told her it is not her concern. She stated i voted illegally. Also, sitting right next to the voting van were 2 trucks with giant Trump flags flying. They were parked there the entire i was at the voting location. I notified the poll workers of both situations as both felt like a violation of my right as a voter to not be questioned in the parking lot next to trump flags. The security officer was asked to address the situation but he sat in his truck next to the trump flags and truck and when asked to address the woman in the

parking lot he reluctantly walked towards her and clearly was not concerned but only going as the poll worker asked him to address her.

If they are taking the picture as evidence to challenge a potential out of state voter, that is likely not illegal.

Hi.

We just had a voter speak with a poll watcher about taking a picture of his out of state license plate. Thankfully our guard and sheriff are here to de-escalate the verbal interaction. What are the role of today's Poll watchers? We haven't ever had this type of interaction before.

Subject: Absentee Ballots Not Received

** Do not click any links or open any attachments unless you trust the sender and know the content is safe. **

Hi Leigh:

We received your contact information from Kim Allen. We live in Fulton County and applied for absentee ballots in May, 2020 for the primary election. When we had not as yet received them by early June, we reached out to Kim Allen to check on the status. She made some calls and Fulton County "issued" our Absentee Ballots on June 5, 2020. We never received them. We use USPS informed delivery so we know that they were never even in our mailbox. So we were unable to vote absentee. We are over 65 and my husband is blind/disabled so we did not want to risk voting in person.

Due to our experience in the primary election, we decided to mail-in applications for absentee ballots to insure that we would receive ballots for the general election. We mailed in the applications on July 2, 2020 with tracking so we know they were received by Fulton County on July 3, 2020. We have not received absentee ballots for the August 11th run-off election. Our My Voter page has not been updated since June 5th when it says our ballots had been issued.

I called the Secretary of State's hotline this morning and spoke with Seth Daniels who could not see any additional information. He indicated that I should get in touch with Fulton County.

Can you assist us in making sure that we receive Absentee Ballots? Our son who is currently residing with us also applied and never received his ballot.

Thanks for any help you can provide!

If they are taking the picture as evidence to challenge a potential out of state voter, that is likely not illegal.

Hello Ms. Beene,

Thank you for advising our office of this issue. My apologies for this unfortunate situation. The role of the poll watcher is and should be to be to watch/observe polling operations....not outside taking photos of voters vehicle license tags. Please provide me the name of the poll watcher and I will contact the appropriate party.

Hi.

We just had a voter speak with a poll watcher about taking a picture of his out of state license plate. Thankfully our guard and sheriff are here to de-escalate the verbal interaction. What are the role of today's Poll watchers? We haven't ever had this type of interaction before.

Hello,

I am Haviland Holbrook, a resident of Fulton County. I requested an absentee ballot for the Georgia runoff election. MyVoter page states that it was issued on 11/23/20. As of today 12/18/20 I have not received it.

What actions should I take to insure my vote is counted?

Thank you,

Description of Violation: I went to the library for early voting this past Tuesday, December 15th. Despite voting in November, my address had been changed in my voter profile. I have lived at the same address for 23 years. No one could give me a reason this might have happened - seems very suspect. Following directions from election officials at the voting site, I have since gone into the voter database and corrected my address. Election officials at the voting site said an absentee ballot had not been requested using my name so they told me not to worry about the discrepancy. I was able to vote but noted on my form - and was told it would be noted in the system - that my information was not correct. I can't envision any reason why my voter info would have been changed unless it was for an underhanded reason.

Frances,
Thanks for your reply.
If we are one of a few that this has happened to, perhaps you are right.
However, is it not a possibility that Fulton County officials do not actually send out the ballots to many people registered Republican? That is why I am reporting this; because if there are many of these, it might indicate some foul play.
I would love to vote in person, but since I am in Arizona at the present, that is impossible.
So how do I get a new ballot sent to the two of us? Who do I contact for that?

Russ Chandler

Thank you for your report. The delivery of the ballot is beyond our control.
If the county issued the ballot and it was mailed, the county is not in violation of the election code. You would need to contact the county Elections office to inquire if you should cancel the ballot or decide if you should vote in person. I am sorry that your delivery of your ballot has been problematic.

Ms Kinnemore: I am an overseas voter and want to know if my ballot for the January runoff has been accepted. I do not see the status on My Voter Page website. However my DHL tracking shows that it was accepted Monday at 12:44 pm by T Powell.

I have called several times for the status, was placed on hold, and told to check later. Since your office does not have a toll free number, I have to pay for the phone calls. Please, can you tell me the status? My information is below.

Received a call from Jerry Sweeney in reference to an issue at Park Place @ Newtown School

An Johns Creek Officer came over the radio asking for a supervisor then said “one in custody”.

A voter became upset over being asked for ID to vote. Poll manager asked him to step outside to discuss so he would have the opportunity to vote but he became irate. Officer detained him and contacted an on duty officer. The voter calmed down and was subsequently released and left without voting. Johns Creek Police pulled a case number and will be providing Sweeney with a copy.

Rick, Erica, and Shauna,
Several counties are getting lists of challenged voters. OCGA 21-2-230(b).
My understanding is that your county boards may have gotten written challenges for voters as well.
OCGA 21-2-230 requires the board to “immediately consider such challenge and determine if probable cause exists...”

Today is the two week point and my ballot still hasn't been accepted. I spoke to someone at the Buckhead library who said they have been picking them up from the dropbox, The Registrar's office hasn't gotten back to me. If I don't get accepted by next week and want to vote in person, do I just show up and say my mailed ballot was lost or do I need someone to officially clear it and give me permission?

I don't know why this keeps happening to me.

Today is the two week point and my ballot still hasn't been accepted. I spoke to someone at the Buckhead library who said they have been picking them up from the dropbox, The Registrar's office hasn't gotten back to me. If I don't get accepted by next week and want to vote in person, do I just show up and say my mailed ballot was lost or do I need someone to officially clear it and give me permission?

I don't know why this keeps happening to me.

Thanks for your help.

Hello,

SOMEONE CAME ON THE PROPERTY today (ETRIS COMMUNITY CENTER) TOOK THE ELECTION

(**No Campaigning**) SIGNS AND REPLACED THEM WITH A SIGN STATING: IF YOU VOTE TWICE, YOU WILL BE FINED OR PUT IN JAIL. I need NEW ONE'S. I had to put up torn, weather beaten signs in replace.

This was done while we've been open, TODAY!

Received a call from Jerry Sweeney in reference to an issue at Park Place @ Newtown School

An Johns Creek Officer came over the radio asking for a supervisor then said "one in custody".

A voter became upset over being asked for ID to vote. Poll manager asked him to step outside to discuss so he would have the opportunity to vote but he became irate. Officer detained him and contacted an on duty officer. The voter calmed down and was subsequently released and left without voting. Johns Creek Police pulled a case number and will be providing Sweeney with a copy.

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong mailing address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their mailing address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their mailing address on record. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's mailing address on record.

Thank you,

Rick,

These people were both cancelled their registrations with us on today. Stan made the cancellation. They sent Stan and email and he spoke Alyson. If they changed their driver's license information with Statesboro it will be updated once they process them from their DDS list. It also depends on if they went to DDS before the December 7th deadline or after the deadline. If they did it after the deadline, that DDS won't happen right now. As of today, they no longer registered in Fulton. I attached the email chain from Stan that includes their Deleted Certificate of Registration.

Thanks,
Pamela

Following is the information on Alyson & Will - as mentioned- they changed their address- drivers License and attempted to change voter registration when they moved to Statesboro November

20th. They were told

this morning that Fulton County would not release their
voter registration

to be transferred because the Ga election results were not
yet certified.

OCGA 21-2-382 and SEB Rules (listed below) specify appropriate locations for advanced voting sites.

Do all of the sites where the mobile voting will be offered satisfy the requirements as either government buildings or Election Day polling places as required by the law and SEB Rules?

Rule 183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots

(1) Definitions. As used in this Rule and O.C.G.A. Section [21-2-382](#), the term:

- (a) "Government building generally accessible to the public" means any building or structure which is used by the public:
 - 1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and
 - 2. that is constructed or renovated in whole or in part by use of state, county, or municipal funds; the funds of any political subdivision of the State; or, to the extent not required otherwise by federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section [21-2-381](#) and for the purpose of voting absentee ballots under O.C.G.A. Section [21-2-385](#). Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

§ 21-2-382. Additional sites as additional registrar's office or place of registration for absentee ballots

- a. Any other provisions of this chapter to the contrary notwithstanding, the board of registrars may establish additional sites as additional registrar's offices or places of registration **for the purpose of receiving absentee ballots under Code Section 21-2-381 and for the purpose of voting absentee ballots under Code Section 21-2-385, provided that any such site is a branch of the county courthouse, a courthouse annex, a government service center providing**

general government services, another government building generally accessible to the public, or a location that is used as an election day polling place, notwithstanding that such location is not a government building.

(b) Any other provisions of this chapter to the contrary notwithstanding, in all counties of this state having a population of 550,000 or more according to the United States decennial census of 1990 or any future such census, any branch of the county courthouse or courthouse annex established within any such county shall be an additional registrar's or absentee ballot clerk's office or place of registration for the purpose of receiving absentee ballots under Code Section 21-2-381 and for the purpose of voting absentee ballots under Code Section 21-2-385.

My message to the SOS Office

While researching this issue I have discovered, via the Fulton County website, this equipment, referred to as "voting mobile units" seems to serve a much bigger role within the Fulton County Department of Election's plan of operations.

The county website describes this resource in the following way “The county’s new Mobile Voting Unit is an accessible voting unit that will create a simple, secure voting experience for voters of all ages and voters with disabilities. Two mobile voting units each with 8 to 10 voting stations will hit the streets when early voting kicks off on December 14.”

The website also has a schedule posted which lists the following dates and locations that these Mobile Voting Units will be moved around Fulton County and open for voting.

Rule 183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots

(1) Definitions. As used in this Rule and O.C.G.A. Section [21-2-382](#), the term:

- (a) "Government building generally accessible to the public" means any building or structure which is used by the public:
 - 1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and
 - 2. that is constructed or renovated in whole or in part by use of state, county, or municipal funds; the funds of any political subdivision of the State; or, to the extent not required otherwise by federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Following is the information on Alyson & Will - as mentioned- they changed their address- drivers License and attempted to change voter registration when they moved to Statesboro November 20th. They were told this morning that Fulton County would not release their voter registration to be transferred because the Ga election results were not yet certified. " Voter Suppression"?? !!!

Location of Violation: Milton public library

Description of Violation: I early voted on Monday Dec 14 around 2:30 pm.

The election worker Marta informed me that I requested a mail in and/or absentee ballot therefore I needed to sign an affidavit.

IT WAS NOT ME!!!

Iâ?Tve always voted in person and did not request it nor received it at my home.

I signed the affidavit but I have little faith in the integrity of this run off.

Description of Violation: The poll worker that checked my ID did not have me sign an Absentee Ballot form prior to me voting. It wasn't until after I voted that I noticed everyone else signing the form, but I wasn't offered one. I had my husband Ryan who was with me confront the poll manager and he printed the form apologizing for the mistake. I'm a registered Republican. Greetings,
On 12/15/2020, Jerry SHADINGER contacted the Watchdesk to inform us on a tweet that was made by Lin Wood regarding the election and voter fraud.

Disposition: Logged in JIMNET and disseminated to the on call analyst, R10 Analysts, GISAC Supervisors, and GBI Voter Fraud Group FYSA.

Background: SHADINGER contacted the Watchdesk as a concerned citizen inquiring on whether the GBI was investigating the election fraud claims. SHADINGER reported seeing a twitter post from an attorney that depicted boxes of votes that were being stored in a warehouse, SHADINGER stated that the GBI, FBI, and others were tagged in the post. The post was found through open source searches as being made by known attorney "Lin Wood". The caption on the post is as follows: "Hey {[@FBI](#), [@GBI_GA](#), [@BrianKempGA](#), [@GeoffDuncanGA](#), & [@GASecofState](#)}, why are there boxes of GA Mail ballots hidden in a warehouse in Fulton County, many shipped from Arizona? GA Election was a fraud. Do your damn jobs". A snip of the post made is attached for review.

WOOD has made numerous posts regarding the election and the fraud claims.
SHADINGER was not positively identified. Two possible records were found for Jerry SHADINGER in GA.

Please see the attached scan of a notice from Fair Fight Georgia that was sent to a Fulton Resident. The current owner bought this house from the listed voter, Meron Fissha. She has not lived there in years and we have confirmed that she requested and voted a AB that was mailed to her in Maryland in November. She has requested a AB for January. The owner, Gabriel Sterling, would like to challenge this voters rights to be registered voter in Georgia and this vote. Can you please advise what steps will be taken to assure that this voter that is now residing in Maryland, using a residential address that she does not live at, is not allowed to vote in the January election.

If we have a case open in Fulton County for the January election for AB fraud we need to add this to the case and have someone contact the county- Rick Barron and Ralph Jones. The owner of the residence is Gabe. He bought the house from this person and she does not reside there and lives in Maryland. This request for January AB needs to be challenged and rejected. We will need statements from Gabe and from the voter Meron Fissha.

They need to get on this today. Let me know the case number

If we have a case open in Fulton County for the January election for AB fraud we need to add this to the case and have someone contact the county- Rick Barron and Ralph Jones. The owner of the residence is Gabe. He bought the house from this person and she does not reside there and lives in Maryland. This request for January AB needs to be challenged and rejected. We will need statements from Gabe and from the voter Meron Fissha.

They need to get on this today. Let me know the case number

Please see the attached scan of a notice from Fair Fight Georgia that was sent to a Fulton Resident. The current owner bought this house from the listed voter, Meron Fissha. She has not lived there in years and we have confirmed that she requested and voted a AB that was mailed to her in Maryland in November. She has requested a AB for January. The owner, Gabriel Sterling, would like to challenge this voters rights to be registered voter in Georgia and this vote. Can you please advise what steps will be taken to assure that this voter that is now residing in Maryland, using a residential address that she does not live at, is not allowed to vote in the January election.

>> Description of Complaint: On Dec 14, 2020, I went to early voting at the High Museum of Art. When I arrived, I was not allowed to approach the High through the main entrance off Peachtree. A security guard was there to tell Me and my friends that we were not allowed there due to filming. We were told to walk around to the back alleyway. As we walked around, we tried to enter from another entrance near the symphony hall. Again we were told we could not pass due to filming. There was so signage at the regular entrances to say that we could not enter through there. There also wasn't any signage along the way to let us know where the new back alley way was. Eventually we found it, after a bit of a walk. The early voting website also did not mention this restriction. This is voter suppression, especially for elderly voters and voters with disabilities who had not planned to add that additional walk. It also created much confusion. I am very disappointed that the high museum was allowing a for-profit production to film there on a voting day, restricting access to county residents and their rights.

> Description of Complaint: On Dec 14, 2020, I went to early voting at the High Museum of Art. When I arrived, I was not allowed to approach the High through the main entrance off Peachtree. A security guard was there to tell Me and my friends that we were not allowed there due to filming. We were told to walk around to the back alleyway. As we walked around, we tried to enter from another entrance near the symphony hall. Again we were told we could not pass due to filming. There was so signage at the regular entrances to say that we could not enter through there. There also wasn't any signage along the way to let us know where the new back alley way was. Eventually we found it, after a bit of a walk. The early voting website also did not mention this restriction. This is voter suppression, especially for elderly voters and voters with disabilities who had not planned to add that additional walk. It also created much confusion. I am very disappointed that the high museum was allowing a for-profit production to film there on a voting day, restricting access to county residents and their rights.

Location of Violation: text messages and phone calls. Mail issues.

Old Fulton County address above.
Have moved out of state and no longer a legal Georgia voter.

Description of Violation: I moved out of state in September and voted in the November election in another state after registering in October.
I did not vote in Georgia in Nov.

I continue to be bombarded by calls and messaging about voting in the runoff on Jan. 5th.

I have received multiple text messages saying absentee applications have been requested on my behalf and I should complete and send in as soon as possible. Although my mail is being forwarded, I have received no election related mail at my new address.

I do not feel it is appropriate that my personal information has been sent out and everyone from the Fulton County commissioner to random voting groups have contacted me. I can only imagine where the absentee applications are going and who is filling them out and returning. I always voted in person at Bitsy Grant tennis center and even then

the last few years I felt things were suspect with the operation.

It's very sad to see the state of affairs in Georgia right now. Please remove me from the voter records.

Leigh,

Can Representative Schofield let us know which locations she is referring to or particular incidents? Does she have contact information, names or people that have called? That would be helpful to both Rick and I so that we know where to target our efforts. Otherwise this doesn't help address the complaint that was registered.

Does that include signature verification of the Absentee Ballot application? If so, please confirm that observers are at the Darnell Center as allowed by Ga law. This was just restated by the SOS in a press conference this afternoon in which he said that an OEB for January 5th has been sent reminding counties that "all of the election processes are available for public viewing, including signature verification".

Ryan,

Would like to also flag for you an issue at the Buckhead library where we have had issues with the poll manager before. They are denying our poll watcher access to the voting area while allowing the democrat poll watcher access as well. This is the same issue we had on the first day of early voting for the general election.

Thank you for your attention to this matter.

They are denying our poll watcher access to the voting area while allowing the democrat poll watcher access as well. This is the same issue we had on the first day of early voting for the general election.

Thank you for your attention to this matter.

Ryan,

The Republican Party is still experiencing various issues with the counties in early voting, similar to what we discussed on Friday. Below is a list of counties and issues based on information provided by Joe Proenza, who works for the state party. I have copied Joe and Alyssa Specht who are handling early voting EDO for the party. They can provide additional information if necessary. Also, if there is someone in your office they should contact directly about these issues, please let me know.

- Hart: county claims that poll watcher letters are invalid unless they include permanent residential addresses
- Bibb: poll watchers are being placed in an observational area (chair off to the side)
- Muscogee: same restricted access issue as Bibb

- Cobb: county claims that poll watcher letters are invalid unless they include permanent residential addresses
- Liberty: county claims that poll watcher letters are invalid unless they include permanent residential addresses
- Jeff Davis: turning away poll watchers because of Covid; not allowing poll watchers inside the voting area at all
- Coweta: turning away poll watchers because of Covid; not allowing poll watchers inside the voting area at all

Thanks,

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their permanent residence address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their permanent residence address on file. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's permanent residence address on record.

Hello,

I requested my absentee ballot on November 10 and the tracker indicates that it was issued on November 20. However, I still have not received the ballot and believe it was either misdirected in the mail or possibly stolen from my mailbox. I would like to know what to do about this/whether I can simply request another ballot. Thank you in advance for your help.

We have had issues with monitors and observers using their phones, bringing telescopic lenses and binoculars. Those need to be addressed.

We want to have all observers check in their electronics with an officer and sign an agreement to the rules set by the superintendent.

We have been so patient with people that repeatedly violate our rules, but we started getting strict and electing people during the recount. I'm unsure if the SEB knows how aggressive and rude some of the monitors are.

It needs to be made clear that only parties within a candidate in the ballot can appoint to keep us from arguing over and over with Constitution Party members.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years." Instead, at 24 words, it's probably the shortest law in the election code.

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,
The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials
Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected

confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*"The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information** and prevent interference with official duties."*

Chris I disagree. Also, it definitely has been assumed that every county has the same setup in verification of signatures...which we do not. For my office, there is no viewing area as it relates to our processes of verifying signatures on absentee ballots, which is done inside our office at computers that also display voters PII. Our public viewing area does not have computers for staff to process absentee ballots. So in essence what the Secretary of State is asking is that we change our processes, regardless of what it takes, for something you all have never directed us to do in past elections.

Thanks for your response.

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process. Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any “meaningful access” will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*“The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information** and prevent interference with official duties.”*

I agree that some guidelines from the SOS should be established for observers. That way 159 counties can work from the same set of guidelines. The monitors were extremely aggressive and rude in our county. When they arrive on Monday to find that they are going to have to check their electronics at the door and be made to stand at a distance that allows them to see the process, but to see no PII, they are going to complain and moan. I think they feel as though observers are the same as monitors.

Hello again Chris, my Board is requesting that the Secretary of State make it clear that observers will not be able to view nor inspect any signatures. I just listened to Gabriel Sterling's press conference and again, it is not being made clear to the Political Parties and Public that observers will not be able to view nor inspect the signatures of voters and documents containing such.

We need the SOS to support us on this matter and clarify this process to the observers.

Thanks as always.

Cynthia,

I understand your position, but let me assure you that there is absolutely no assumption that every county has the same setup. We know some counties have tiny offices and some counties rent very large venues, and most are in between.

OCGA 21-2-406 does not read, "If it's difficult or inconvenient to perform a duty in public, you won't have to make changes to the way you've done it for years."

Instead, at 24 words, it's probably the shortest law in the election code.

What I am telling you is that the **law**, not the Secretary of State (though we tell you to follow the law), requires you to perform an election duty in public. How you choose to do that is up to you. If your county attorney advises you otherwise, I would be interested in hearing their reasoning.

We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we1 would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,2 which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections' responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

I am asking Chris, is this a mandate?

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

*"The elections superintendent must ensure that any public viewing area or video feed offers **meaningful access** to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the **processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties.**"*

Cynthia,

The OEB is an explanation of OCGA 21-2-406.

This is not an arbitrary decision of the Secretary of State, but a direction to follow the law.

There is no reason any PII needs to be compromised. Envelop examiners can sit in a public room with their monitors turned away from the public and handle the envelopes and compare signature without revealing any PII.

Online applications would not have a signature to compare, but the VR record would still need to be examined.

There is a wide variety of ways to situate this process to allow the public to observe the process.

Public viewing does not require observers to stand over shoulders and critique or comment on the comparisons made by your teams.

Finally, OCGA 21-2-406 is indeed a mandate:

21-2-406. Public performance of duties by officials

Superintendents, poll officers, and other officials engaged in the conducting of primaries and elections held under this chapter shall perform their duties in public.

As always, I encourage you to seek the advice of your county attorney if you are unsure about compliance with laws or SEB Rules.

In addition, you can call and we can discuss other details if you would like,

Good Day Everyone and Happy Thursday!

Chris, I am in total agreement with Janine on this matter. In addition, the Rockdale Board of Elections is concerned about maintaining the confidentiality of voters protected confidential information (PII) as required under O.C.G.A. §21-2-225. Also, O.C.G.A. §21-2-406 further includes an Opinion of the Attorney General which states “Inspection of returned absentee ballots prior to poll closing not require – Board of Registrars are no required to make returned absentee ballots subject to inspection prior to the closing of polls. 1990 Op. Att’y Gen.” Does this opinion still not stand?

Keep in mind, many of the Absentee Requests are received online, which has not signature and when the ballot is returned the Ballot Signature must be compared to the Voter Registration Application rather than the Absentee Application. How can we do this with monitors observing the process and not expose PII? In my 31 years in elections, we have never opened the process of signature verification to the public, why now?

According to the attached letter received for the State GOP, Secretary Raffensperger made the following statement which the Rockdale Board of Elections is in disagreement. The process of verifying signatures has never been open to the public partly due to O.C.G.A. §21-2-225. We must keep in mind that we owe it to the voter to be responsible for the confidentiality of their PII.

On November 24, 2020, Georgia Secretary of State Brad Raffensperger spoke to the Georgia State Republican Executive Committee, on the Zoom video conference call. Secretary of State Brad Raffensperger stated that we¹ would have access to observe the absentee ballot signature matching process for the January 5, 2021 Senate Runoff Election,² which would be included in the Official Election Bulletin for the January Senate Runoff.

It is the Board of Elections’ responsibility to protect the confidential information of its voters. There are no processes in place to allow public access. If we are mandated to follow this OEB, the Rockdale Board of Elections is prepared to seek legal advice on the matter.

Chris,

I do not understand how the early processing protocols will, in any way, protect the voter's PII if a similar process were in place for signature matching. During early processing, no PII is present, unlike the signature process. Any "meaningful access" will display the voter's full date of birth, prior to displaying the signature. To protect that information we will have to place observers at a distance that will make it impossible for them to see if the signature does match. They don't just want to verify that matching is taking place, they want to validate the match themselves.

"The elections superintendent must ensure that any public viewing area or video feed offers meaningful access to view the process, but the superintendent should also put in place reasonable regulations to protect the voter's/applicant's personal identification information (PII) and/or non-public data from public view and to ensure that no observer interferes with the verification process. A good template may be the processes you have put in place for the early processing of absentee ballots, which is also publicly viewable but has protections in place to protect confidential information and prevent interference with official duties."

Hello Brian,

Thank you for the opportunity to briefly discuss the issue we are having with the active voter count generated in our local poll locator document verses the count that is reflected in the daily voter file we receive via the SOS FT site. Per our conversation, we are seeking a mutually agreeable time to meet virtually with key stake holders for a resolution. Once you have coordinated with the vendor for a date and time, please advise and we can move forward from there. Thank you in advance for your assistance and we look forward to hearing from you.

That sounds great for counties that have enough space, but I don't have a room large enough to put everyone that will be comparing signatures in. We've been bouncing around ideas to accomplish the goal that include using board members, only checking signatures during certain times of the day, and even deputizing the observers so that they can get a little closer and I won't have to reconfigure the entire office. I'd love to hear how those of y'all that have smaller spaces are handling this request.

Thanks,
Joseph

Anyone else getting calls such as these? We've received six similar calls in the last two days from shooting up the place to making sure we all get infected with COVID. We're getting a myriad of others, but the last two days have turned really violent. A few others are getting calls personally, from two that worked at State Farm to Ralph and his son. Ralph's son works for Warnock as his Press Secretary. We are getting many ugly calls with racial slurs, too.

Hello: Ms. Pam

This is an email to follow up on per our conversation in your office about a threatening phone about a motor cycle gang that was supposed to come down to our office to kill all of us. I received a phone call right before 12:00 Noon and it was from an Unknown caller, it was a man. "He said we are going to pray for you all"! So I told him that he needs to pray for me, then he went on to say that a motor cycle gang is on its way down to Fulton County to kill all of us and that the National Guard will be there. Then he hung up the phone.

Just because the process has to be done in public does not mean that the observers have to see the details. They are seeing that the process is being done properly and publicly, and not critiquing or judging the accuracy of the comparison.

For example, if a person was sitting at a table “rubber stamping” the absentee ballots as approved without ever comparing a signature, an observer could see this and report it and object to the practice.

The fact that a person is at a table in public view and is obviously looking at a ballot envelop and then comparing it to a screen and/or another piece of paper can be observed by the public without the observer seeing either the signature on the envelope or the “known” signature to which they are comparing it. Now if the person doing this is so far away from the public that they can’t see the worker even handling the envelop, that could be problematic.

Feel free to call with specific situations or concerns.

Lisa,

Can you follow up and see if Fulton needs to resend a ballot to this voter? It sounds like the one they sent him was recovered by USPS and I'm not sure they forwarded it to him or not.

Mr. Harvey,

During a United States Postal Service, Office of Inspector General (USPS-OIG) investigation, Special Agents recovered 1 ballot on December 2, 2020, destined to the following voter; Corey Hill, 1-347 TSNB, Fort Bliss, TX 79916. The return address from the ballot is; Fulton, 130 Peachtree St. SW, Suite 2186, Atlanta, GA 30303. The ballot was given to the Postal Service for delivery. Since this is an active OIG investigation, we cannot share any additional details. If you have questions about this notification please contact Assistant Special Agent in Charge Michael Spolidoro, 703-682-7747, or Deputy Special Agent in Charge Mark Pappaioanou, 703-248-2380.

Regards,

Robert Parker

Special Agent

RE: Electors Identified on NCOA Voter List

Dear Sir/Madam:

You have been identified as a voter who has filed a National Change of Address notice with the United States Post Office indicating that you currently live out-of-state *and* have also requested an absentee ballot for the January 5, 2021 Runoff Election in the state of Georgia. This correspondence is to remind you that in order to vote in upcoming January 5, 2021 Runoff Election, Georgia law requires all voters to be a current resident of Georgia and of the county in which you are registered. Receipt of this letter does not mean that you are not deemed to be a valid Georgia resident or voter. Instead, this notice is to make you aware of the residency requirement to vote in Georgia elections and that voting when you know you do not possess the qualifications to vote in Georgia is a felony under Georgia law. *See* O.C.G.A. § 21-2-571.

To qualify as a valid Georgia voter, you must be a permanent resident and a citizen of the state of Georgia and of the county in which you have requested an absentee ballot. If you have moved out of state with the intention of making that state your residence, you have lost your residency in Georgia. If you have moved out-of-state temporarily with the intention of returning to Georgia, you may still be considered a Georgia resident. For instance, if you are a student, in the armed forces of the United States, or if you have removed to the District of Columbia or other federal territory, another state, or foreign country to engage in government service, you may still be considered a resident of Georgia unless you have registered to vote, voted, or performed other acts in your new state (such as receiving in-state tuition at an out-of-state college or university) indicating a desire to change your residence.

Thank you for your attention to this matter. Georgia Code Section 21-2-217 addresses voter residency requirements. You can review that code section at the following link https://sos.ga.gov/index.php/general/secretary_brad_raffensperger, click on "Important Links," and select "GA CODE." If you have any questions or concerns about your eligibility to vote in the state of Georgia, please do not hesitate to contact the Secretary of State's Office at (404) 656-2871 or your local county election official.

Respectfully,

Chris Harvey
Elections Director

INSTRUCTIONS FOR PREPARING AND RETURNING OFFICIAL ABSENTEE BALLOTS IN PRIMARIES AND ELECTIONS

The accompanying ballot and two envelopes are sent to you in response to a request made by you or a member of your family.

YOU MUST FOLLOW THESE INSTRUCTIONS FOR YOUR VOTE TO COUNT:

- Use a black or blue pen to mark your ballot. Be sure the ink is dry before folding the ballot and placing it in the envelope.
- Completely fill in the oval next to the name of the candidate for whom you wish to vote and the response you wish to give to a question (if applicable).
- To vote for a person whose name does not appear on the ballot for a general election or a special election, follow the directions on the ballot for casting a write-in vote. Write-in votes are not allowed in primary elections.

(Vote for One)
☐ CANDIDATE NAME
☐ CANDIDATE NAME
☐ Write-in _____

- If while voting you inadvertently make an error, spoil, or otherwise deface the ballot, IMMEDIATELY contact the Board of Registrars of your county or the municipal absentee ballot clerk, whichever is applicable, to receive a replacement ballot. **Note: No replacement absentee ballot can be mailed by the registrars or absentee ballot clerk's office on the day prior to a primary or election.**
- After voting your ballot, enclose and securely seal the ballot in the smaller of the two envelopes provided, which is white and on which is printed "Official Absentee Ballot."
- Place this envelope in the second (or larger) envelope, which is yellow, and complete the oath on the back of the envelope, then sign on the line provided.
- Personally mail or personally deliver to the Board of Registrars or the municipal absentee ballot clerk, whichever is applicable. Be sure to use sufficient postage if mailing.

Intent to Process or Tabulate Early for the _____ Election

O.C.G.A. § 21-2-386(a)(3) - A county election superintendent may, in his or her discretion, after 7:00 A.M. on the day of the primary, election, or runoff open the inner envelopes in accordance with the procedures prescribed in this subsection and begin tabulating the absentee ballots. If the county election superintendent chooses to open the inner envelopes and begin tabulating such ballots prior to the close of the polls on the day of the primary, election, or runoff, the superintendent shall notify in writing, at least seven days prior to the primary, election, or runoff, the Secretary of State of the superintendent's intent to begin the absentee ballot tabulation prior to the close of the polls. The county executive committee or, if there is no organized county executive committee, the state executive committee of each political party and political body having candidates whose names appear on the ballot for such election in such county shall have the right to designate two persons and each independent and nonpartisan candidate whose name appears on the ballot for such election in such county shall have the right to designate one person to act as monitors for such process. In the event that the only issue to be voted upon in an election is a referendum question, the superintendent shall also notify in writing the chief judge of the superior court of the county who shall appoint two electors of the county to monitor such process.

_____ **We are holding an election, but will not be processing or tabulating absentee ballots early.**

_____ **Yes, we intend to tabulate absentee ballots early for the election we are holding.**

Location: _____ Date/Start Time: _____

RULE 183-1-14-0.7-.15 - Beginning at 8:00 a.m. on the third Monday prior to Election Day, county election superintendents shall be authorized to open the outer envelope of accepted absentee ballots, remove the contents including the absentee ballot, and scan the absentee ballot using one or more ballot scanners, in accordance with this rule, and may continue until all accepted absentee ballots are processed. However, no person shall tally, tabulate, estimate or attempt to tally, tabulate or estimate or cause the voting equipment to produce any tally or tabulation, partial or otherwise, of the absentee votes cast until the time for the closing of the polls on Election Day.

Hey @FBI @GBI_GA @BrianKempGA @GeoffDuncanGA & @GaSecofState, why are there boxes of GA mail ballots hidden in warehouse in Fulton County, many shipped from Arizona?

GA election was a fraud. Do your damn jobs.

SEB2020-203 Employee Questionnaire

- 1) Did you work at the State Farm Arena on November 03, 2020, for the general election?
- 2) Were you employed by Fulton County Elections, or a temporary employment agency?
What is the name of the agency?
- 3) What time did you arrive at the arena for work?
- 4) What was your job/assignment?
- 5) If you were present during the water leak, please give your version of the events concerning the leak.
- 6) Did you see anything that seemed suspicious to you? If yes, what did you see?
- 7) Did you alert anyone about suspicious activity? If yes, who did you alert?
- 8) Did you document any suspicious activity?
- 9) Did you see any suspicious activity concerning ballots, ballot boxes, seals, or scanning of ballots? If yes, what did you see?
- 10) Did you post any election activity from that day on social media? If yes, which social media platform?
- 11) What time did you leave the arena for the day?
- 12) Who told you to leave for the day?
- 13) Prior to November 3, 2020, did you work at the arena processing ballots?
- 14) If yes, did any of the procedures change on November 3, 2020? If yes, what changes?
- 15) Did you hear anyone tell any reporter, poll watcher, poll monitor, poll observer, or anyone viewing the tabulation to leave because the workers were finishing for the day? If yes, who told them to leave? What did they say specifically?
- 16) What time did you leave the arena for the day?

Description of Violation: I arrived at the polling place around 9am. I handed the poll worker my ID and he handed me a yellow card for the machine. When I inserted it into the machine, a message came up that said there was already a vote recorded on that card. I alerted the poll manager, who observed the message on the screen. We removed the yellow card and returned to my original poll worker. Together they evaluated my ID and could not figure out an issue. The poll manager and I moved to a different voting machine with the card... same result. So I had to fill out a provisional ballot. I feel violated and disenfranchised.

Location of Violation: Online voter status shows that I am still active, but have not lived in Georgia for last 6 years.

Description of Violation: *** The address above was my home from approximately 2010 to 2015, but it is not my current address.

Current address is 3130 S. Garrison Chapel Road, Bloomington, IN 47403. All other contact information is the same.

I moved out of Georgia in 2015. The last and, I believe, only time that I recall voting in Georgia was the General Election in November 2011. I checked my voter registration status online today and it shows that I am an "active" voter, despite not having lived in the state of Georgia for the last 6 years. I looked for a means of changing that status online, but it requires a GA driver's license, which I do not have.

I would like to validate that my information has not been used to cast a vote in Georgia when I have not lived in the state. In addition, I would like remove myself from any active voter lists in Georgia as I am not a resident. Any

help would be appreciated.

This election (leading into the November 2020 general election) is unique in that I have received a large amount of Democratic party-based text messages to vote in Georgia (6-years after leaving the state and never recall receiving such messages in the past, while living in the state of Georgia). I do not vote for that party when another option is available. This could all be coincidence, but thought it would be relevant to bring up in addition to the above.

Good morning,

Could a staff member please assist Ms. Storch?

(a) At any time after receiving an official absentee ballot, but before the day of the primary or election, except electors who are confined to a hospital on the day of the primary or election, the elector shall vote his or her absentee ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out, subscribe, and swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall then mail or personally deliver same to the board of registrars or absentee ballot clerk, provided that delivery by a physically disabled elector may be made by any adult person upon satisfactory proof that such adult person is such elector's mother, father, grandparent, aunt, uncle, brother, sister, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, sister-in-law, or an individual residing in the household of such disabled elector. An elector who is confined to a hospital on a primary or election day to whom an absentee ballot is delivered by the registrar or absentee ballot clerk shall then and there vote the ballot, seal it properly, and return it to the registrar or absentee ballot clerk. If the elector registered to vote for the first time in this state by mail and has not previously provided the identification required by Code Section 21-2-220 and votes for the first time by absentee ballot and fails to provide the identification required by Code Section 21-2-220 with such absentee ballot, such absentee ballot shall be treated as a provisional ballot and shall be counted only if the registrars are able to verify the identification and registration of the elector during the time provided pursuant to Code Section 21-2-419.

Description of Complaint: I got an Absentee Ballot and I made a mistake. Following the directions that when it spoiled you write on both the ballot and the envelope SPOILED. I did it just as specify big and bold right across the ballot and the envelope.

I now discovered I vote already. I would like to know how I vote when SPOILED is written both on the ballot and the envelope. I would like to vote and I needed this to be straighten out. I'm sure my ballot should still be there and its stated SPOILED as I write it here. Big and Bold

Frances,

Can we please investigate why Fulton said they couldn't help this voter track her ballot, they allegedly express mailed it, and neither she nor her husband received it? She also is missing credit for voting June 9. Although, I didn't talk to her and ask if she did vote.

I give my permission to forward my information (and my husband Richard Wolownik's permission) as he never received his ballot either, to the investigation team. Both absentee ballots were requested, online on November 10, 2020. My phone number is however e-mail or text messages are the best way to reach me.

I must say the failure to mail our absentee ballots is totally acceptable. The subsequent text messages i received on December 5, 2020 from the Fulton County Registration and Elections, turned out to be false information (phone number provided 404-612-3816 in the event I needed to call them). We called on December 9 and were told that they could not tract the ballot unless 10 days

had pasted since the text message date (which was 12/5/2020). So we waited, called again 12/14. This was the call where the young lady informed us and this is a direct quote here "oh the Secretary of State closed that web page down, no ballots were mailed".

Sorry we did not get her name.

This smacks of gross negligence on the part of your vendor at the very least, and looks and feels like voter suppression.

My sincerest thanks goes to State Senator, John Albers in assisting us through this web of inaccurate and miss leading information. We could not have gotten this far without his valuable assistance. Thank you John.

I look forward to receiving accurate information concerning this issue.

Oh by the way, I just received a text message, while composing this message to you dated December 31, 2020 at 2:44 pm and i quote "Records show you not have secured your vote yet. There's still time! Request your absentee ballot HERE: txtred.co/10212XHj~m-stop2end" wonder if this is good information??

Ms. Wolownik,

Unfortunately, since the state vendor did not mail your ballot, we are unable to tell you where the tracking of it is. I am sorry to hear that you have had this issue, and with your permission, would like to send it to our investigations team. Could I please have your phone number to provide to them as well? Also, do you have the name of the person you spoke to and the date you spoke with them regarding overnighting your ballot?

At this time, the best recommendation is that you contact your county elections office directly and see if they can explain where your ballot is. You can still vote in person January 5, 2020.

Nadine,

Thanks for reaching out. Given the scrutiny around Tuesday's election, we think you should accept the list. Arguably, because the deadline falls on a weekend, it goes until Monday anyway under 21-2-14. If there are no Republican poll watchers allowed on Tuesday (even if it's their own fault), the uproar will not be helpful to either of us after the election.

Thanks,
Ryan

Good morning -

Attached is the Fulton Republican Party list of poll watchers for the runoff election on January 5, 2021. There are 375 line but remember the 1st line is the header line. I also attached the letters/emails we sent out. I will be sending our volunteers the Poll Watcher Guidelines that were suppose to be attached to the emails sent out.

I want you to know that everyone has been shifted out so no more than 2 people are poll watching at a time.

Our shifts if they didn't want to commit to the entire day are:

Shift 1: 5:30am-1pm
Shift 2: 1pm - Close

If you have any questions, please do not hesitate to call or email me.

Thank you for working with the GAGOP & the Fulton GOP in getting this list to you.

Regards,

Betsy Kramer

PS. I will put the extra name badge holders left over from EV in my RW-17 supply box. Hopefully the warehouse will get them to you.

Description of Violation: We have received multiple pieces of mail with the name Gia Elena Abata in the mail, with my residential address on the mail. I have received 3 pieces of mail addressed to Ms. Abata with my current address over the past 2 weeks. I checked all previous home owners names in the Fulton County Property Search, and none showed Ms. Abata or a relative of Abata as a previous owner. Today (12/31/2020) a voting volunteer came to my door asking for Ms. Abata and I told the volunteer Abata does not live here. At that time, I opened the 3 pieces of mail addressed to Abata and found (1) a Driver's License with her picture and name with my address, (2) a Georgia Certificate of Title vehicle registration with Abata's name and my home address listed that was transferred from Illinois, and (3) a political letter from a political party group welcoming Abata to Georgia as a registered voter. I do not know Ms. Abata. She does not live at my residence. I found someone on LinkedIn that matches her name and the picture on the state issued Driver's License appears to be the same person in the online picture. I would like to report this as potential fraudulent activity regarding the State of Georgia elections.

I give my permission to forward my information (and my husband Richard Wolownik's permission) as he never received his ballot either, to the investigation team. Both absentee ballots were requested, online on November 10, 2020. My phone number is [REDACTED], however e-mail or text messages are the best way to reach me.

I must say the failure to mail our absentee ballots is totally acceptable. The subsequent text messages i received on December 5, 2020 from the Fulton County Registration and Elections, turned out to be false information (phone number provided 404-612-3816 in the event I needed to call them). We called on December 9 and were told that they could not tract the ballot unless 10 days had pasted since the text message date (which was 12/5/2020). So we waited, called again 12/14. This was the call where the young lady informed us and this is a direct quote here "oh the Secretary of State closed that web page down, no ballots were mailed". Sorry we did not get her name.

This smacks of gross negligence on the part of your vendor at the very least, and looks and feels like voter suppression.

My sincerest thanks goes to State Senator, John Albers in assisting us through this web of inaccurate and miss leading information. We could not have gotten this far without his valuable assistance. Thank you John.

I look forward to receiving accurate information concerning this issue.

Oh by the way, I just received a text message, while composing this message to you dated December 31, 2020 at 2:44 pm and i quote "Records show you not have secured your vote yet. There's still time! Request your absentee ballot HERE: txtrd.co/10212XHj-m-stop2end" wonder if this is good information??

Ms. Wolownik,

Unfortunately, since the state vendor did not mail your ballot, we are unable to tell you where the tracking of it is. I am sorry to hear that you have had this issue, and with your permission, would like to send it to our investigations team. Could I please have your phone number to provide to them as well? Also, do you have the name of the person you spoke to and the date you spoke with them regarding overnighting your ballot?

At this time, the best recommendation is that you contact your county elections office directly and see if they can explain where your ballot is. You can still vote in person January 5, 2020.

John I am so upset and feed up with the State of Georgia. I am still awaiting my mail in ballot. Requested it in November. First, on 12/5 received a text saying my ballot had been mailed. Then I called several days later, they could not help me because it had not been 10 days since I got the text. Waited 10 days my husband called they said the web page that sent out the text msg. had been shut down by the SOS 1st week of December. No ballots had been mailed however Ballots would be mailed 12/20. Well you can guess the rest of the story, no ballot yet, with the New Year holiday coming looks like my ballot will be to me after Jan 5. Totally disgusted with the whole system! Sorry for the rant. P.S. they verified my address so that is not the problem. Request ballot mailed to 273 Liberty Lane, Melbourne Beach FL 32951. The Liberty Lane address is the address that was verified as to where the Absentee Ballot to be mailed. They also informed us at the last phone call that we should "over night" the ballot back to make sure it is received.

Good afternoon,

I am writing to check on the parameters of what is allowed at polling sites in Fulton County. My friend just voted at the Sandy Springs library on Roswell Road. As he was exiting, he was approached by three individuals asking him to commit to getting three more people to come put and vote. Is this allowed? I know it is not specifically considered campaigning, but is it on to have people on the polling site?

I just wanted to check.

Thanks,
Jan Russell

Hey Pamela,

Per our conversation concerning this voter [REDACTED]

This voter is saying that she never requested an absentee ballot by mail for the November 3rd election. I checked her status and Fulton county issued her a absentee ballot by mail on 10/07/2020 with an application date of 10/07/2020. In the absentee module in ENET, it shows that she cancelled her ballot so she can vote in person. I am needing you all to send me a PDF copy of her tangible application for absentee.

Thanks

Good morning,

Shirley Favors can't log onto Enet. I have reset her a couple of times. The logon screen has saved whatever she had in the past. When she enters the temporary password listed below, it won't let her log on and there are lot of dots appearing (longer than the one listed below), which she thinks is the old one that keeps populating. It is busy with Early Voting and we really need for her to be able to access Enet today.

Good afternoon,

In reviewing our records, we determined that 22 voters statewide with temporary mailing addresses had ballots initially mailed to an incorrect address for the January 5, 2021 Runoff Election. Any voters for your county potentially affected by this issue are in the attachment.

Along with the voter ID, we are also including the email address and/or phone number for the voter. Please contact the voter to determine the appropriate address to mail the ballot to. Alternatively, since the election is only one week away, you should encourage the voter to vote early in person or on Election Day.

Location of Violation: New Beginnings Senior Citizen Center

Description of Violation: My family and I cast our ballots on Wednesday 12/23/20, at the New Beginnings Senior Citizen Center at 66 Brooks Drive, Fairburn, GA, 30213, between 5 and 5:15 and wanted to place our paper ballots in the scanner with the writing faced down in the machine to scan. We were told by the voting attendant to put the ballots in the machine with the writing faced upwards. We did so as she looked intently at whom each of us had voted for. We told her that we wanted to place the ballot faced down, but she said that the machine reads the paper ballot better if the ballot is placed print-side up. This very statement gives an indication that the machines are flawed or can be tampered with. After she looked at whom we voted for, she then took each of our green cards and vigorously rubbed them on a cloth with some kind of solution on it. She was rubbing so hard, I thought that she was going to damage the chip on the cards. When we voted in the primary and general elections we were also told to enter the paper ballots print-side up, but when we contested this, we were told that we could insert them print-side down. It seemed like we did not have a choice of how to enter the ballot into the machine during this runoff election. Something doesn't feel right about this. The machines should accept the printed ballots either way (print-side up or down) so that no one knows who you voted for. Having voted for Republicans in South Fulton County, this does not give me confidence that my vote will be counted. But, regardless of which county you are voting in, the voting attendant should not be doing this. They should not be aware of whom you are voting for and the machines should be this sensitive. They should be configured to only accept ballots print-side down for privacy. This needs to be investigated. Please maintain my confidentiality. Thanks.

Description of Violation: On Thursday, December 17th, my husband & I voted in person at the above location. I selected my choices which were David Purdue, Kelly Loeffler and the third Republican candidate on the ballot. I then reviewed my choices which appeared correct on the screen. I then selected to print and out came a printed copy. I looked at it and walked the 5-6 steps to the scanner, and was instructed to submit it which then registered my vote as being cast. Upon meeting my husband in the lobby, I asked him what his paper looked like and he said there was a barcode with the names of the three Republicans underneath it. I then told him mine only showed a barcode! We went back in & I explained my concerns to Margaret Williams, poll worker, who then asked me why I submitted it in the scanner if there were no names. My response was "how should I know that the names should be listed below the barcode"? She attempted to call downtown to advise the Board of Elections ; However, no one answered the phones. This continued over the following days! On one of those days, she said someone finally responded to her email and said that an investigation was being escalated into my claims. By Wednesday, Dec. 23, I was told that my phone numbers were given to downtown & I would hear from them. I have NOT heard from anyone. Needless to say, I have NO idea if my vote has been counted, as well as I have no idea what names or what anything is on the BARCODE! Since every vote counts, I deserve an answer about my vote before the election results are announced on January 5, 2021!

Location of Violation: Absentee Ballot

Description of Violation: Iâ€™m now officially fed up. Iâ€™m currently living in Ireland and I have not yet received my absentee ballot for the Georgia Senate election. I requested on November 9th. I received notice it was mailed December 2nd and here it is December 24th and no ballot has arrived. This is wrong! This is voter suppression! This is fraud! My ballot for the presidential election conveniently arrived the day after the election which prevented me from casting my vote. The postmark on that ballot showed it was mailed out way later than the notice I received from Fulton County said it was mailed. Iâ€™ve recently posted holiday cards to the states on December 14th which have already arrived. I have also received holiday cards from the states. Typically it takes 5-7 business days for me to receive mail from the states to Ireland. It should not be taking this long! Iâ€™m prepared to take this to the press. I need some answers.

Description of Violation: My family and I cast our ballots on Wednesday 12/23/20, at the New Beginnings Senior Citizen Center at 66 Brooks Drive, Fairburn, GA, 30213, between 5 and 5:15 and wanted to place our paper ballots in the scanner with the writing faced down in the machine to scan. We were told by the voting attendant to put the ballots in the machine with the writing faced upwards. We did so as she looked intently at whom each of us had voted for. We told her that we wanted to place the ballot faced down, but she said that the machine reads the paper ballot better if the ballot is placed print-side up. This very statement gives an indication that the machines are flawed or can be tampered with. After she looked at whom we voted for, she then took each of our green cards and vigorously rubbed them on a cloth with some kind of solution on it. She was rubbing so hard, I thought that she was going to damage the chip on the cards. When we voted in the primary and general elections we were also told to enter the paper ballots print-side up, but when we contested this, we were told that we could insert them print-side down. It seemed like we did not have a choice of how to enter the ballot into the machine during this runoff election. Something doesn't feel right about this. The machines should accept the printed ballots either way (print-side up or down) so that no one knows who you voted for. Having voted for Republicans in South Fulton County, this does not give me confidence that my vote will be counted. But, regardless of which county you are voting in, the voting attendant should not be doing this. They should not be aware of whom you are voting for and the machines should be this sensitive. They should be configured to only accept ballots print-side down for privacy. This needs to be investigated. Please maintain my confidentiality. Thanks.

Dear Ms. Kinnemore,

My name is Dale Stein (a Fulton County registered voter) and we just spoke on the phone about an hour ago.

My concern is that being an international Georgia voter is already hard enough when trying to vote. However, I sent my official absentee ballot by Fedex to my sister to be posted by US mail. When she received the Fedex, she immediately informed me that everything had been opened.

My concern is that, at this point, receiving a new ballot to be sent back would not arrive on time. As it is, it took 25 days to receive the absentee ballot (shown in the pictures) due to slower than usual mail processing time.

What can I do in the situation?

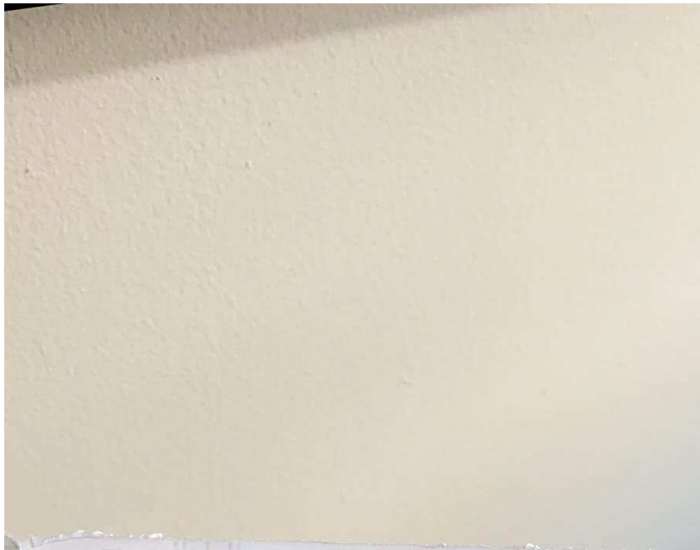

I will obviously file a complaint with Fedex as the opened absentee ballot serves as voter tampering (a federal offense) and therefore my fedex-ed letter was ruined.

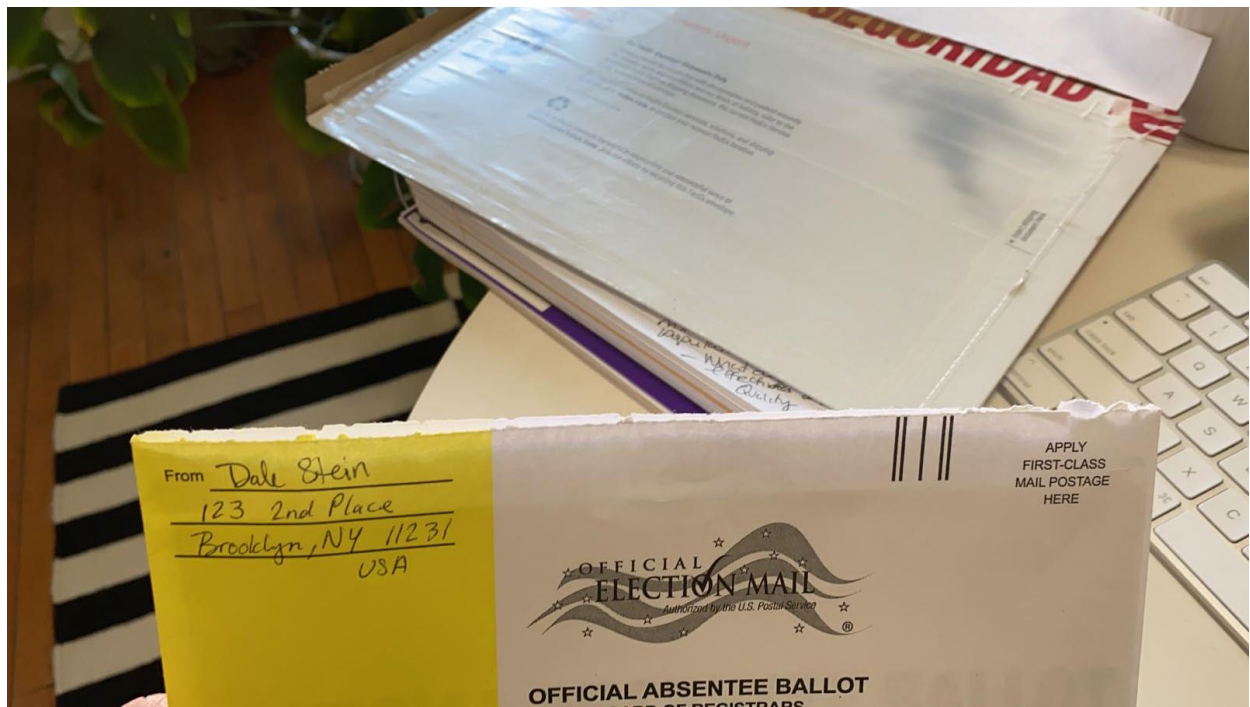

Please let me know what my options are at this point.

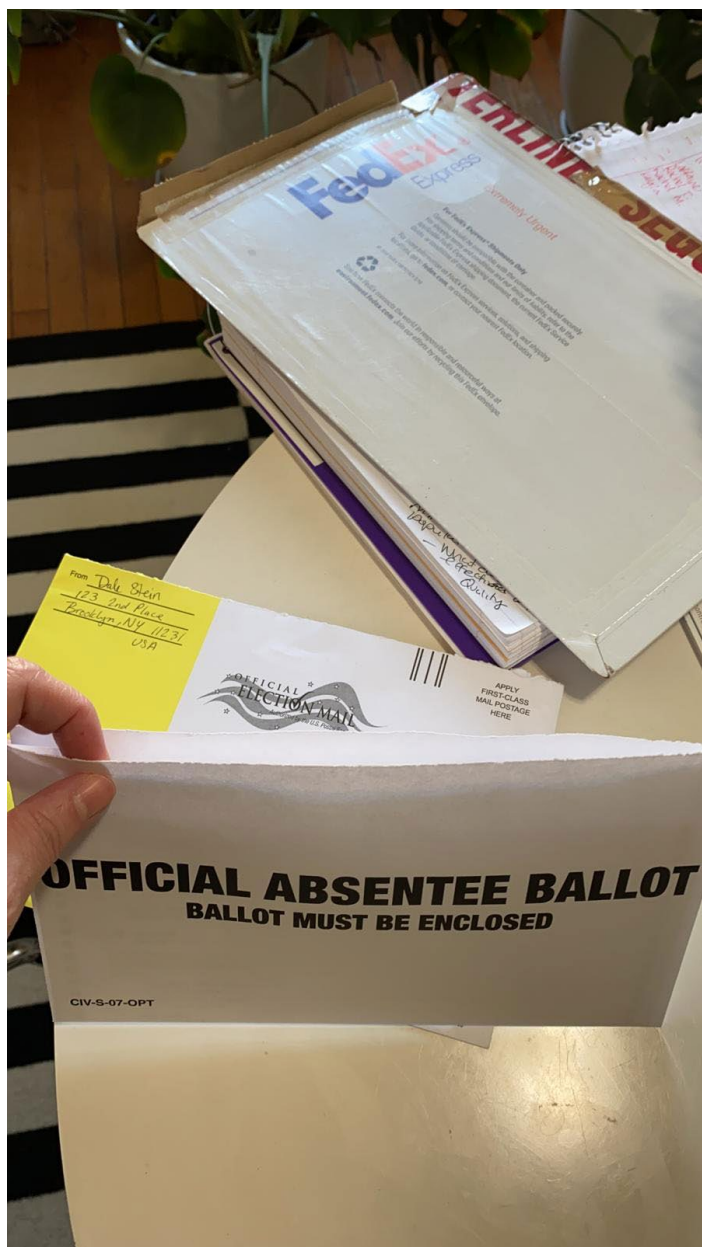

Thank you for all your help in advance,

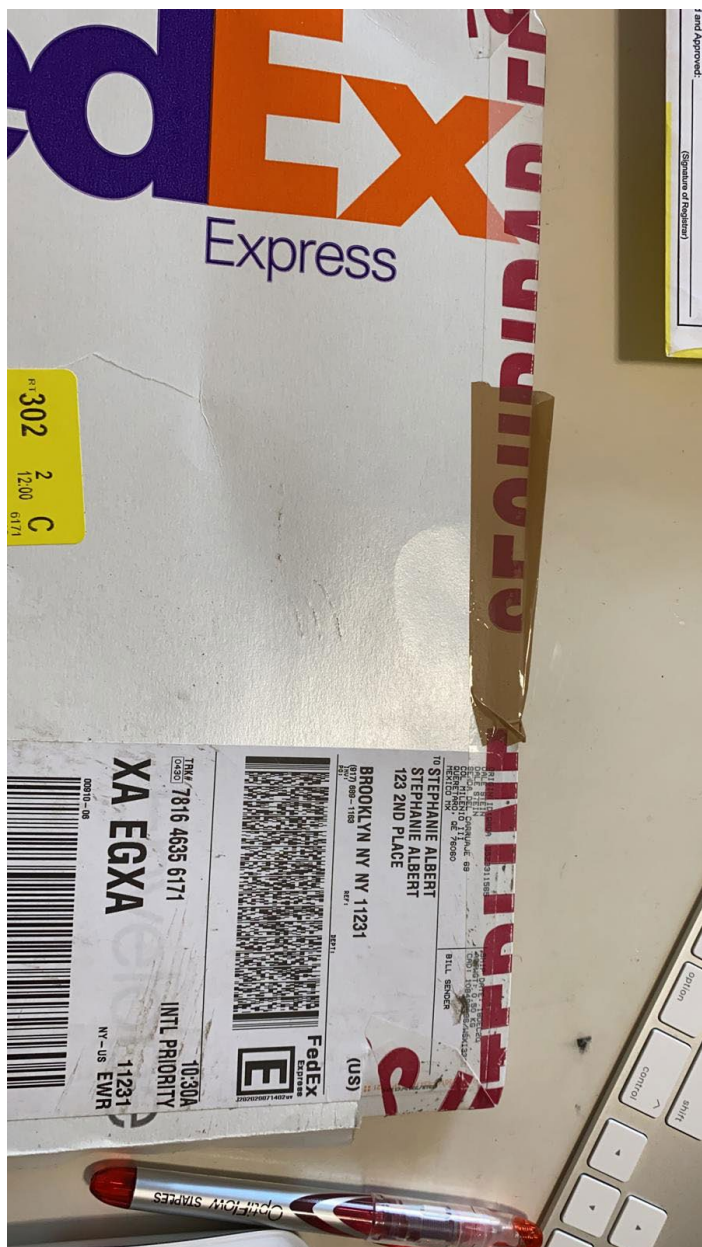

Dale Stein
Fulton county Registered voter

Please make sure that those with the mobile voting bus are posting no campaigning signs for the 150 feet zone around the bus and have the poll workers checking.

We will open this complaint and follow up.

Location of Violation: The early voting bus at Crabapple government building in Milton, GA on 12/21/2020

Description of Violation: After voting i was stopped in the parking lot by a lady and told she was calling the police as that was not a legal voting site. She asked who o voted for and i told her that was not her concern. She asked if both parties were voting there and I told her that i have no idea someoneâ?Ts political affiliation by looking at them. She asked if i scanned my vote face up or face down. I told her it is not her concern. She stated i voted illegally. Also, sitting right next to the voting van were 2 trucks with giant Trump flags flying. They were parked there the entire i was at the voting location. I notified the poll workers of both situations as both felt like a violation of my right as a voter to not be questioned in the parking lot next to trump flags. The security officer was asked to address the situation but he sat in his truck next to the trump flags and truck and when asked to address the woman in the

parking lot he reluctantly walked towards her and clearly was not concerned but only going as the poll worker asked him to address her.

Good Afternoon,

We dropped off our 3 completed absentee ballots in the drop box at the North Fulton Service Center on Roswell Rd on December 8, 2020. My absentee ballot was marked Received and Accepted on 12/9/2020 (Deborah Rich, D.O.B. [REDACTED]/1952) To this date, neither my husband's nor my son's absentee ballots show received on the Georgia My Voter page. This is a mystery since all 3 were dropped off at the same time.

Can you check this out for us?

Jed M. Rich same address, D.O.B. [REDACTED]/1983

Hello Again:

I am contacting you again on behalf of our son, Jed M Rich. He filled out an absentee ballot application for the November 3rd general election and we mailed

it to Fulton County absentee ballot division via USPS tracking on July 2, 2020. It was delivered and signed for on July 3, 2020. When checking his My Voter page, there is no indication that his absentee ballot application was acknowledged as received by Fulton County.

Please advise as to his status. He needs to vote absentee in order to limit our exposure to Covid 19.

Hello All:

I am attaching for your review photos of the applications

that my husband and I sent to Fulton County in May prior to the primary election on June 9th. Please note the language halfway down the page, "If you meet the following criteria you may choose to complete one application and receive a ballot for the General Primary, General Primary Runoff (if any), General Election....." We checked the box required. We are both over 65 and my husband is disabled. It is quite clear that we should receive absentee ballots for the August 11th Runoff WITHOUT reapplying and we hereby request that you send them immediately to us so that we may vote in a timely fashion.

Sincerely,

Hi Leigh:

We received your contact information from Kim Allen. We live in Fulton County and applied for absentee ballots in May, 2020 for the primary election. When we had not as yet received them by early June, we reached out to Kim Allen to check on the status. She made some calls and Fulton County "issued" our Absentee Ballots on June 5, 2020. We never received them. We use USPS informed delivery so we know that they were never even in our mailbox. So we were unable to vote absentee. We are over 65 and my husband is blind/disabled so we did not want to risk voting in person.

Due to our experience in the primary election, we decided to mail-in applications for absentee ballots to insure that we would receive ballots for the general election. We mailed in the applications on July 2, 2020 with tracking so we know they were received by Fulton County on July 3, 2020. We have not received absentee ballots for the August 11th run-off election. Our My Voter page has not been updated since June 5th when it says our ballots had been issued.

I called the Secretary of State's hotline this morning and spoke with Seth Daniels who could not see any additional information. He indicated that I should get in touch with Fulton County.

Can you assist us in making sure that we receive Absentee Ballots? Our son who is currently residing with us also applied and never received his ballot.

Thanks for any help you can provide!

Description of Violation: I went to the library for early voting this past Tuesday, December 15th. Despite voting in November, my address had been changed in my voter profile. I have lived at the same address for 23 years. No one could give me a reason this might have happened - seems very suspect. Following directions from election officials at the voting site, I have since gone into the voter database and corrected my address. Election officials at the voting site said an absentee ballot had not been requested using my name so they told me not to worry about the discrepancy. I was able to vote but noted on my form - and was told it would be noted in the system - that my information was not correct. I can't envision any reason why my voter info would have been changed unless it was for an underhanded reason.

Thanks for your reply.
If we are one of a few that this has happened to, perhaps you are right.
However, is it not a possibility that Fulton County officials do not actually send out the ballots to many people registered Republican? That is why I am reporting this; because if there are many of these, it might indicate some foul play.
I would love to vote in person, but since I am in Arizona at the present, that is impossible.
So how do I get a new ballot sent to the two of us? Who do I contact for that?

Thank you for your report. The delivery of the ballot is beyond our control.
If the county issued the ballot and it was mailed, the county is not in violation of the election code. You would need to contact the county Elections office to inquire if you should cancel the ballot or decide if you should vote in person. I am sorry that your delivery of your ballot has been problematic.

So how do I get a new ballot sent to the two of us? Who do I contact for that?

Thank you for your report. The delivery of the ballot is beyond our control.
If the county issued the ballot and it was mailed, the county is not in violation of the election code. You would need to contact the county Elections office to inquire if you should cancel the ballot or decide if you should vote in person. I am sorry that your delivery of your ballot has been problematic.

Ms Kinnemore: I am an overseas voter and want to know if my ballot for the January runoff has been accepted. I do not see the status on My Voter Page website. However my DHL tracking shows that it was accepted Monday at 12:44 pm by T Powell.

I have called several times for the status, was placed on hold, and told to check later. Since your office does not have a toll free number, I have to pay for the phone calls. Please, can you tell me the status? My information is below.

Rick, Erica, and Shauna,
Several counties are getting lists of challenged voters. OCGA 21-2-230(b).
My understanding is that your county boards may have gotten written challenges for voters as well.
OCGA 21-2-230 requires the board to “immediately consider such challenge and determine if probable cause exists...”

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong mailing address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their mailing address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their mailing address on record. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's mailing address on record.

Sorry, didn't realize he sent two different emails. Here is what you need

Following is the information on Alyson & Will - as mentioned- they changed their address- drivers License and attempted to change voter registration when they moved to Statesboro November 20th. They were told this morning that Fulton County would not release their voter registration to be transferred because the Ga election results were not yet certified.

Description of Violation: I early voted on Monday Dec 14 around 2:30 pm.

The election worker Marta informed me that I requested a mail in and/or absentee ballot therefore I needed to sign an affidavit.

IT WAS NOT ME!!!

Iâ?Tve always voted in person and did not request it nor received it at my home.

I signed the affidavit but I have little faith in the integrity of this run off.

Please see the attached scan of a notice from Fair Fight Georgia that was sent to a Fulton Resident. The current owner bought this house from the listed voter, Meron Fissha. She has not lived there in years and we have confirmed that she requested and voted a AB that was mailed to her in Maryland in November. She has requested a AB for January. The owner, Gabriel Sterling, would like to challenge this voters rights to be registered voter in Georgia and this vote. Can you please advise what steps will be taken to assure that this voter that is now residing in Maryland, using a residential address that she does not live at, is not allowed to vote in the January election.

If we have a case open in Fulton County for the January election for AB fraud we need to add this to the case and have someone contact the county- Rick Barron and Ralph Jones. The owner of the residence is Gabe. He bought the house from this person and she does not reside there and lives in Maryland. This request for January AB needs to be challenged and rejected. We will need statements from Gabe and from the voter Meron Fissha.

They need to get on this today. Let me know the case number

She has not lived there in years and we have confirmed that she requested and voted a AB that was mailed to her in Maryland in November. She has requested a AB for January. The owner, Gabriel Sterling, would like to challenge this voters rights to be registered voter in Georgia and this vote. Can you please advise what steps will be taken to assure that this voter that is now residing in Maryland, using a residential address that she does not live at, is not allowed to vote in the January election.

City: Atlanta

Description of Complaint: On Dec 14, 2020, I went to early voting at the High Museum of Art. When I arrived, I was not allowed to approach the High through the main entrance off Peachtree. A security guard was there to tell Me and my friends that we were not allowed there due to filming. We were told to walk around to the back alleyway. As we walked around, we tried to enter from another entrance near the symphony hall. Again we were told we could not pass due to filming. There was no signage at the regular entrances to say that we could not enter through there. There also wasn't any signage along the way to let us know where the new back alley way was. Eventually we found it, after a bit of a walk. The early voting website also did not mention this restriction. This is

voter suppression, especially for elderly voters and voters with disabilities who had not planned to add that additional walk. It also created much confusion. I am very disappointed that the high museum was allowing a for-profit production to film there on a voting day, restricting access to county residents and their rights.

Location of Violation: text messages and phone calls. Mail issues.

Old Fulton County address above.
Have moved out of state and no longer a legal Georgia voter.

Description of Violation: I moved out of state in September and voted in the November election in another state after registering in October.
I did not vote in Georgia in Nov.

I continue to be bombarded by calls and messaging about voting in the runoff on Jan. 5th.

I have received multiple text messages saying absentee applications have been requested on my behalf and I should complete and send in as soon as possible. Although my mail is being forwarded, I have received no election related mail at my new address.

I do not feel it is appropriate that my personal information has been sent out and everyone from the Fulton County commissioner to random voting groups have contacted me. I can only imagine where the absentee applications are going and who is filling them out and returning. I always voted in person at Bitsy Grant tennis center and even then

the last few years I felt things were suspect with the operation.

It's very sad to see the state of affairs in Georgia right now. Please remove me from the voter records.

Ryan,

Would like to also flag for you an issue at the Buckhead library where we have had issues with the poll manager before. They are denying our poll watcher access to the

voting area while allowing the democrat poll watcher access as well. This is the same issue we had on the first day of early voting for the general election.

Thank you for your attention to this matter.

Good afternoon,

Our office has identified voters in your county who were mailed a ballot to the wrong address, and they are listed in the attachment. The affected voters submitted a request through the online absentee ballot portal and requested that their ballot go to their permanent residence address.

To correct this, if you have already mailed a ballot to an affected voter, please cancel that ballot and mail another ballot to their permanent residence address on file. If you have not already mailed a ballot, please make sure that the ballot you issue is mailed to the voter's permanent residence address on record.

Hello Brian,

Thank you for the opportunity to briefly discuss the issue we are having with the active voter count generated in our local poll locator document verses the count that is reflected in the daily voter file we receive via the SOS FT site. Per our conversation, we are seeking a mutually agreeable time to meet virtually with key stake holders for a resolution. Once you have coordinated with the vendor for a date and time, please advise and we can move forward from there. Thank you in advance for your assistance and we look forward to hearing from you.

Mr. Harvey,

During a United States Postal Service, Office of Inspector General (USPS-OIG) investigation, Special Agents recovered 1 ballot on December 2, 2020, destined to the following voter; Corey Hill, 1-347 TSNB, Fort Bliss, TX 79916. The return address from the ballot is; Fulton, 130 Peachtree St. SW, Suite 2186, Atlanta, GA 30303. The ballot was given to the Postal Service for delivery. Since this is an active OIG investigation, we cannot share any additional details. If you have questions about this notification please contact Assistant Special Agent in Charge Michael Spolidoro, 703-682-7747, or Deputy Special Agent in Charge Mark Pappaioanou, 703-248-2380.

Intent to Process or Tabulate Early for the _____ Election

O.C.G.A. § 21-2-386(a)(3) - A county election superintendent may, in his or her discretion, after 7:00 A.M. on the day of the primary, election, or runoff open the inner envelopes in accordance with the procedures prescribed in this subsection and begin tabulating the absentee ballots. If the county election superintendent chooses to open the inner envelopes and begin tabulating such ballots prior to the close of the polls on the day of the primary, election, or runoff, the superintendent shall notify in writing, at least seven days prior to the primary, election, or runoff, the Secretary of State of the superintendent's intent to begin the absentee ballot tabulation prior to the close of the polls. The county executive committee or, if there is no organized county executive committee, the state executive committee of each political party and political body having candidates whose names appear on the ballot for such election in such county shall have the right to designate two persons and each independent and nonpartisan candidate whose name appears on the ballot for such election in such county shall have the right to designate one person to act as monitors for such process. In the event that the only issue to be voted upon in an election is a referendum question, the superintendent shall also notify in writing the chief judge of the superior court of the county who shall appoint two electors of the county to monitor such process.

_____ **We are holding an election, but will not be processing or tabulating absentee ballots early.**

_____ **Yes, we intend to tabulate absentee ballots early for the election we are holding.**
