Subject: Meigs Georgia Green Energy/Covid Relief Project

Bryan,

The reason for this email today is to update you on a project we are working on here in Meigs Georgia that would be beneficial for the State of Georgia and the community itself by creating jobs in a designated opportunity zone which will also benefit the hospitals throughout the area. We understand that any Covid relief funds will return to the general fund after January 1 if not used and we have several States working with other groups on funding this process and would hope the Governor would look into our project as well.

I am working with a group that is registered here in the state under Georgia Green Energy Solutions LLC that will produce green energy from wood waste that is abundant in our area mixed with the coal fines from the Mitchell Power plant that is located 17 miles from this facility. This process is proven and will also produce medical grade oxygen for the hospitals in our area and in north Florida. I have attached several documents with a summary of the project that you can share.

The reason I decided to complete the 250 TPD Meigs design is so that you have an “Covid-related design”) to propose to the Georgia Governor. I felt that if you are going to do something today like contacting the Governor of Georgia (short amount of time left till the end of the year). Hopefully, we can qualify for some of the Covid Relief Funds (as a grant), before year’s end, since any remaining state Covid funds are supposedly returned to the General Fund in January.

A few comments are in order:

1. As I told you earlier, Matt Swenson of Carbon 2 Fuels group has been working hard with the governors of Wyoming and Kentucky. He has been notified by Wyoming that he **may** be receiving a \$13M grant from their Covid Relief Fund, by the end of the year. Matt and his team met with the Governor of Wyoming last month.
2. He was notified last week that he **may** also receive a \$10 million grant from Kentucky, from their remaining unused Covid Relief fund. Matt’s team will be meeting with Governor Bashir today (Monday the 21st). The “Green Coal” plant that we designed for Dotson Fork, is quite similar to what I have just designed for the Meigs site, with numerous changes of course because of location, sourcing feedstocks, cost of renewable power, etc.
3. I did some research and found that 7 or 8 states are looking for ways to use their large remaining coal resources and re-employ coal mine affiliated people, even though they are continually shutting down all the coal fired power plants. I saw that a few of these states were talking about “Green Coal” as a way of renewably resurrecting coal. As long as they use a minimum of 51% wood waste or other renewable biomass sources, with the remainder being coal. -- they can call it Green Coal. The beauty of this is that with 51% wood waste, you are eligible for 51% of the available RINs, which you are not eligible for with straight coal. The emissions are also much reduced.
4. This Meigs 250 TPD Green coal design goes 1 step further by also bringing to light the added Green Coal benefit, while still really providing true Covid support for the local area. This could be helpful for Georgia Power to remediate the large coal fine impoundment, 17 miles down the road in Mitchell. Specifically, pertaining more directly to the Covid problem, the 1.5 million SCFD of hospital grade (USP) O2 we produce can be used for inhalation needs for the hospitals, nursing homes, and stay-at-home convalescing Covid patients.
5. The 10 TPD mobile unit can pick up the regulated medical waste (RMW), and sanitize it (99.995%), before leaving the client’s site. We can issue a blockchain death certificate. Also, since the as-sanitized medical waste will be turned into a fuel within 24 hours, the med waste Generator is no longer responsible for the med waste from the time it leaves their facility, till the end of time (while it sits buried in a landfill).

Please review the attached documents and if you see an interest we can provide in depth financials with a full business model.

I look forward to Hear from you,

Joey Sumner

Governor Kemp,

We are asking for your consideration in standing up for this great country and doing whatever is within your rights as the Governor of Georgia to ensure your state ran a fair election for President of the U.S. in November.

We are running out of time, we need someone of your stature to stand up for the 75 million+ people, who have good reason to believe this election was not run equitably.

Some Examples of Election Issues in GA in November 2020:

- Confirmation voting machines were in fact connected to WiFi and not only could send data, but could also receive data.
- Tests confirming same ballots scanned through machine, 5 different times provided different results each time they were run through the voting tabulators.
- Video surveillance in Fulton County of poll workers (democratic) counting votes unlawfully without observers, media or state officials.
- Felons voting
- People no longer alive voting
- People who changed address and did not live in the state voting
- People who moved within GA and did not re-register to vote
- Excess votes

Despite the overwhelming voter fraud, you refuse to call a special session to overturn the election results. Instead, you have done everything you could to certify false election results in favor of Joe Biden.

We truly believe this is a defining point in our country and courage is contagious. Please Governor Kemp will you be the courageous hero we need and stand up for what is right and do everything in your power to stop your legislature from moving forward with an incorrect slate of electors based on the election fraud in your state?

With Sincerest Regards,
Jeff and Amy Rogers

Gov. Kemp, Dr. Toomey Announce Plans for Phase 1a Expansion

Atlanta, GA – Governor Brian Kemp and Commissioner Kathleen Toomey, M.D., M.P.H., tonight announced plans to add adults aged 65 and older, law enforcement officers, firefighters and first responders to the current group of individuals eligible to receive COVID-19 vaccination. Healthcare workers and staff and residents of long-term care facilities are already in this highest priority group. The expanded administration of vaccine is expected to begin within the next two weeks provided there is adequate vaccine supply available.

The Georgia Department of Public Health (DPH) is following the recommendations of the Centers for Disease Control and Prevention (CDC) and the Advisory Committee on Immunization Practices (ACIP) for prioritizing vaccination. States have the flexibility to tailor these recommendations based on their specific needs and available vaccine.

“Following the expert guidance of Dr. Toomey, the CDC, and the Advisory Committee on Immunization Practices, Georgia will move to expand Phase 1a vaccination criteria within the next two weeks to include the elderly, law enforcement officers, firefighters and first responders - provided the state continues to receive adequate vaccine supplies,” **said Governor Kemp**. “We will continue to monitor the administration efforts of our public

health workers and partners in the private sector, and the supply chain of both the Moderna and Pfizer vaccines to ensure eligible Georgians are vaccinated without delay.”

“Different areas of the state are completing Phase 1a at different times based on the number of healthcare workers and LTCF residents and staff they have to vaccinate,” **said Commissioner Toomey**. “This expansion of 1a eligible vaccination criteria will allow vaccine to be administered as quickly as possible to our most at-risk populations in terms of exposure, transmission and severity. It also gives healthcare providers and public health staff time to plan and work with local communities across the state to ensure safe and efficient deployment of limited vaccine supplies.”

It is critical that even as vaccine becomes available to more people, all Georgians must continue to wear a mask, practice social distancing and wash your hands frequently. While the COVID-19 vaccine is 95% effective in preventing illness in the individual being vaccinated, it is not yet known if the vaccine fully prevents person to person transmission or asymptomatic infections.

Kemp... very disappointed you have not called for a special session and that you continue to lie on FoxNews. You must think we the people are ignorant however it is you that is ignorant to think we cannot discern between legality and criminality... and this election has been nothing short of criminal. This is much bigger than Donald Trump, this is a fight for the integrity of our legal vote. You will be removed from office if you do not do the right thing and stand up against the democrats and the corporate interests. Try not to lie the next time you are on air, its not becoming!

The power of the people is far greater than the corporate interests.... do not sell the Georgia citizens down the drain to appease the corporations!

I have personally read the report and I am astounded by the amount of fraud which was allowed to take place in Georgia, which ultimately registered a false victory to Biden. If you take the time to go through the evidence you will come to the same conclusion as the 74m people who voted for President Trump, that he was / is undoubtedly the winner of Georgia. We all witnessed the vote count stopped in the middle of the night due to an alleged water main break which never occurred. We all witnessed the video showing poll workers to be sent home and bins of ballots being taken out from under a table and fed through the voter machines multiple times; I have never witnessed such a display of fraudulent. There were also numerous counts of 'pristine' mail-in ballots which is IMPOSSIBLE if the ballots were truly mailed in an envelope! Lastly there are also various cases of chain of custody issues.... I can go on and on and the evidence is apparent.

and more importantly our votes away! You must take action immediately and call a special session as we the people of the United States of America will not allow illegal votes to be counted over our legal votes!

I am respectfully asking that you stand up and do the damn right thing for OUR COUNTRY. Stand up, be heard and stop worrying about politics. Stop the games and DO THE RIGHT THING. Kick stacy abrahams and her law breaking sister from their BS, Start looking at the very evident FRAUD that is occurring in our country and IN YOUR STATE.

Shame on you for not supporting the President, and SHAME ON YOU for not putting a stop to the fraud. History will not judge you well.

I watched almost all of the Senate Hearing today. I hope you did as well. It is appalling that ordinary citizens care more about the rule of law, the constitution and election integrity than elected officials. You have sworn to uphold the constitution and must have the courage to do the right thing. Anyone who listened today must admit that there was so much fraud that there must be a special session to review and ultimately declare the Georgia electors for President Trump.

After watching the fraud that happened on November 3, there is no way that the same thing will not happen in the run off election. You must do your job, stop the steal and not be afraid. The people will support you if you say no to the corruption. If you do not stand up for the people, I am afraid our country will devolve into chaos. I am afraid that if Biden is allowed to be put in office and the Senate goes to the socialists, conservatives will never get back into office.

Your comments or response would be welcome.

Hello Governor

You need to speak up and call for a special council. You looked foolish today and if everyone stays home you have no one to blame but yourself.

Speak up for a special session, light up twitter, call for a special council, fight for Trump, Why the radio silence. Everything is not fine, you are in trouble if you do not speak up.

This election was stolen and the Georgia people showed you today.

Speak up loudly and start fighting.

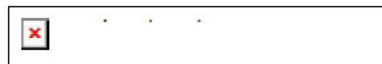

Kind Regards

Bob

Governor Kemp,

Why are you going on Fox news and flat right out lying to the American people?? You want us to believe you did EVERYTHING to support President Trump and his reelection efforts. Right! That's a joke! You should be ashamed of yourself.

Your behavior is nothing short of despicable, disgusting, shameful and maybe criminal. You don't represent the good people of Georgia. You certainly DO NOT represent the GA Republicans. You will not be getting reelected and you may end up getting recalled. I would certainly vote for that. For you to have stood by and allow this sham, scam, unlawful, unjust, unfair election to take place in GA is absolutely UNBELIEVABLE!!!

I am SO mad at you and Raffensperger and all the other spineless RINOs in this state and in this great country. You have all let us down.

We will NEVER forget it!!! Because of all this mess, our 2 GOP senators may well lose their election on January 5th. Good work there Governor. Really good work.

This will be written about in the history books and you will forever be in the history of this country as one who participated in the greatest fraudulent election this country has ever seen up to this point.

Extremely MAD resident of GA and proud Trump deplorable, patriot and LOVER of America, it's laws and the constitution,

After today's display of the overwhelming evidence during the hearing, you may want to take the president's advice and resign before you are recalled, which is inevitable. "We the People" will hold you and all of your cohorts accountable for this election fraud. I strongly encourage you to save your own skin and testify to what you know! The constitution is pretty explicit on the penalty for treason. Good luck!

Subject: General Election & Runoff - CALL FOR A SPECIAL SESSION

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Gov Kemp,

It is obvious to a majority of Georgians that the general election results are not trustworthy. There are so many instances of fraud, at least one of which we watched fellow citizens endure (finding out someone else had voted in their place). What has been shocking is the lack of an urgent, transparent, and open effort by our government to hear evidence, vet it, and address it to the satisfaction of all Georgians. Georgia is our state. We expect a fair, honest, and trustworthy election. We expect it to be robust and tight and secure. Although not ONE SINGLE VOTE should be fraudulent, this year, it has been overwhelming. Everyone knows it. Everyone sees it.

What evidence? Peter Navarro's "The Immaculate Deception" report is one: (<https://www.scribd.com/document/488495896/Navarro-Report>). Others are here: www.Everylegalvote.com and www.Hereistheevidence.com. There are others, of course, such as today's senate hearing.

The Senate hearing today (12/30/20) was so compelling that no one should have still had doubts. The data is undeniable. No Georgia representative/senator/executive should do anything but call immediately for a special session.

The reason that voters are staying home for the runoff is due to a lack of trust in the system because no substantive changes have been made from the general election. This is a SERIOUS situation.

We need a special session. We need changes to the mail-in voting to ensure that only legal votes are counted, even if it takes an extension. Illegal votes are not real votes. Illegal votes are no more real than counterfeit money is to our economic/financial system.

We need to see Georgia de-certified. Fix this general election FAIRLY to the satisfaction of all Georgians and the harmed party (the Trump campaign). Anything less is unacceptable. What has been done thus far does not address the real underlying concerns.

As such, we need to see you stand for Trump, VOTER INTEGRITY, and TRUTH.

We are running out of time. This should have happened a long time ago. This is the most important time in our country...and in our world...in modern time. No matter the risk or cost, we need to see leadership stand tall for what is RIGHT. Doing what is right is always the thing to do.

Thank-you,
Deryl Vassey

This evening my husband and I watched the Georgia State Senate hearing for voter fraud and we are shocked at what happened in Fulton and Cobb County! America is watching. You have the power to halt the theft of the Electoral Votes of Georgia. Rise to this moment in history and protect the Republic and Constitution to which you have sworn an oath.

It's imperative these ballots are examined via a transparent audit. You will have to sleep at night knowing you fundamentally changed America by being either weak & feckless or being paid and bought by corporate CCP interests? Will it be worth it?

After watching the GA State Senate hearing today its plain as day Trump overwhelming won Georgia before Fulton county / State Farm Arena "water main break" poll workers were asked to leave... EXCEPT for 5 criminal poll workers repeatedly scanning the same ballots for hours in the bogus Dominion machines...they screwed Trump, the people of Georgia and most likely Loeffler and Perdue, too! Unfortunately, Brad Raffensperger is a national disgrace that will be voted out next election cycle...no hope for that RINO!

The world is watching all of you, as well as your constitutions! Put your greed aside and think about the legacy you are leaving!! I've lost all confidence in Georgia's leadership.

Stop the destruction of America!

We need President Trump, Senators Perdue and Loeffler.

Dear Senator's,

You took an oath to uphold the Constitution and protect our Republic. Now do your job and protect election integrity 75 million people will not accept being disenfranchised. It should not be this difficult to remedy an invalid election and voter fraud. I request you exercise your Constitutional and statutory authority to object to the certification of any elector from any state that refuses to allow a meaningful audit of the November general election for electors to the Presidency, which must include:

- 1) a re-canvass of the vote that authorizes independent confirmation of a signature match using the same standards the same election officials use for nomination petitions, recall petitions, and initiative petitions;
- 2) publishing of the ballots for the world to review and observe, as states promised when they wrote large taxpayer checks to election machine companies like Dominion and others; and
- 3) audited review of the voter rolls to insure only qualified voters cast ballots for electors to the Presidency. If a state refuses to allow an honest audit of the vote, then I request you object to the certification of any electors from that state which has refused such an audit. At present, this includes the electors from Wisconsin, Michigan, Pennsylvania, Georgia, Arizona and Nevada.
Hold session or meet and decertify fraud electors today!! We are watching we will recall or call for impeachments.

Hold special session for election fraud and correct the fraud. Votes were changed, duplicated etc. a fair solution must occur. Rumors swirl about WHY you have not DEMANDED Fair Elections in your state.

One such rumor is that you are thinking about a presidential run in the future.... Guarantee that will be dead, as the NATION sees your actions as being complicit in the theft of the Presidential Election and the Senatorial Election for the corrupt Democrats and their donors.

If you think that the 70 or so MILLION Trump Supporters are going to forget, especially after suffering from the socialist policies laid on us by the Biden Harris Administration, you are mistaken. That is assuming, after the success of stealing the vote, there is another "free" election.

It is not too late for YOU to show leadership and turn this around.

Subject: Special session on election results

Dear Governor Kemp,

I am not a resident of your fine State; however, you and I both share a love for our Republic and want what is best for our Nation.

GOD often looks for a man to stand in the gap, so that HE does not have to take action against a people. At this time in history, as a Patriotic American, you have been called to stand in the gap and defend our Nation.

I urge you, do not shrink from your Duty, Call the Special Session of the Georgia general assembly. The Georgia election report finds the results of your state's election cannot be trusted, the certification should be rescinded and the General Assembly should determine the proper electors. We are losing our republic if fraud is allowed to continue in our elections. This is the time to stand for what is right.

GOD knows your heart, Your fellow Georgians are looking to you to do the right thing. Secure your place in the history of American heroes, call the Special Session, save our Republic... for your constituents, for our nation and for your children.

Respectfully,

David Rasco

Mr. Kemp,

We have had it with you! You might as well beg to Stacy Abrams to become a Democrat, because you are finished in this state and the Republican party. It is very clear that you don't have the interest of the people who elected you in mind when you do nothing to stop the steal. Do you really think you and your underlings will be spared in any of your reelection bids? They will use the same tactics to oust you as they have with President Trump. You will all become a minority party in this state, and that will all fall on you, as will the loss of the two US Senate seats. You are a disgrace. I will be following, and donating, to the "Total Recall" effort of you and anyone that doesn't stand up for us. The only way you can save yourself is to immediately call or support a special session of the state legislature and decertify the Biden electors. That is it. This is a wound that won't heal and we will never forget.

Subject: Meigs Georgia Green Energy/Covid Relief Project

Bryan,

The reason for this email today is to update you on a project we are working on here in Meigs Georgia that would be beneficial for the State of Georgia and the community itself by creating jobs in a designated opportunity zone which will also benefit the hospitals throughout the area. We understand that any Covid relief funds will return to the general fund after January 1 if not used and we have several States working with other groups on funding this process and would hope the Governor would look into our project as well.

I am working with a group that is registered here in the state under Georgia Green Energy Solutions LLC that will produce green energy from wood waste that is abundant in our area mixed with the coal fines from the Mitchell Power plant that is located 17 miles from this facility. This process is proven and will also produce medical grade oxygen for the hospitals in our area and in north Florida. I have attached several documents with a summary of the project that you can share.

The reason I decided to complete the 250 TPD Meigs design is so that you have an “Covid-related design”) to propose to the Georgia Governor. I felt that if you are going to do something today like contacting the Governor of Georgia (short amount of time left till the end of the year). Hopefully, we can qualify for some of the Covid Relief Funds (as a grant), before year’s end, since any remaining state Covid funds are supposedly returned to the General Fund in January.

A few comments are in order:

1. As I told you earlier, Matt Swenson of Carbon 2 Fuels group has been working hard with the governors of Wyoming and Kentucky. He has been notified by Wyoming that he **may** be receiving a \$13M grant from their Covid Relief Fund, by the end of the year. Matt and his team met with the Governor of Wyoming last month.
2. He was notified last week that he **may** also receive a \$10 million grant from Kentucky, from their remaining unused Covid Relief fund. Matt’s team will be meeting with Governor Bashir today (Monday the 21st). The “Green Coal” plant that we designed for Dotson Fork, is quite similar to what I have just designed for the Meigs site, with numerous changes of course because of location, sourcing feedstocks, cost of renewable power, etc.
3. I did some research and found that 7 or 8 states are looking for ways to use their large remaining coal resources and re-employ coal mine affiliated people, even though they are continually shutting down all the coal fired power plants. I saw that a few of these states were talking about “Green Coal” as a way of renewably resurrecting coal. As long as they use a minimum of 51% wood waste or other renewable biomass sources, with the remainder being coal. -- they can call it Green Coal. The beauty of this is that with 51% wood waste, you are eligible for 51% of the available RINs, which you are not eligible for with straight coal. The emissions are also much reduced.
4. This Meigs 250 TPD Green coal design goes 1 step further by also bringing to light the added Green Coal benefit, while still really providing true Covid support for the local area. This could be helpful for Georgia Power to remediate the large coal fine impoundment, 17 miles down the road in Mitchell. Specifically, pertaining more directly to the Covid problem, the 1.5 million SCFD of hospital grade (USP) O2 we produce can be used for inhalation needs for the hospitals, nursing homes, and stay-at-home convalescing Covid patients.
5. The 10 TPD mobile unit can pick up the regulated medical waste (RMW), and sanitize it (99.995%), before leaving the client’s site. We can issue a blockchain death certificate. Also, since the as-sanitized medical waste will be turned into a fuel within 24 hours, the med waste Generator is no longer responsible for the med waste from the time it leaves their facility, till the end of time (while it sits buried in a landfill).

Please review the attached documents and if you see an interest we can provide in depth financials with a full business model.

I look forward to Hear from you,

Joey Sumner

Governor Kemp,

We are asking for your consideration in standing up for this great country and doing whatever is within your rights as the Governor of Georgia to ensure your state ran a fair election for President of the U.S. in November.

We are running out of time, we need someone of your stature to stand up for the 75 million+ people, who have good reason to believe this election was not run equitably.

Some Examples of Election Issues in GA in November 2020:

- Confirmation voting machines were in fact connected to WiFi and not only could send data, but could also receive data.
- Tests confirming same ballots scanned through machine, 5 different times provided different results each time they were run through the voting tabulators.
- Video surveillance in Fulton County of poll workers (democratic) counting votes unlawfully without observers, media or state officials.
- Felons voting
- People no longer alive voting
- People who changed address and did not live in the state voting
- People who moved within GA and did not re-register to vote
- Excess votes

Despite the overwhelming voter fraud, you refuse to call a special session to overturn the election results. Instead, you have done everything you could to certify false election results in favor of Joe Biden.

We truly believe this is a defining point in our country and courage is contagious. Please Governor Kemp will you be the courageous hero we need and stand up for what is right and do everything in your power to stop your legislature from moving forward with an incorrect slate of electors based on the election fraud in your state?

With Sincerest Regards,
Jeff and Amy Rogers

Gov. Kemp, Dr. Toomey Announce Plans for Phase 1a Expansion

Atlanta, GA – Governor Brian Kemp and Commissioner Kathleen Toomey, M.D., M.P.H., tonight announced plans to add adults aged 65 and older, law enforcement officers, firefighters and first responders to the current group of individuals eligible to receive COVID-19 vaccination. Healthcare workers and staff and residents of long-term care facilities are already in this highest priority group. The expanded administration of vaccine is expected to begin within the next two weeks provided there is adequate vaccine supply available.

The Georgia Department of Public Health (DPH) is following the recommendations of the Centers for Disease Control and Prevention (CDC) and the Advisory Committee on Immunization Practices (ACIP) for prioritizing vaccination. States have the flexibility to tailor these recommendations based on their specific needs and available vaccine.

“Following the expert guidance of Dr. Toomey, the CDC, and the Advisory Committee on Immunization Practices, Georgia will move to expand Phase 1a vaccination criteria within the next two weeks to include the elderly, law enforcement officers, firefighters and first responders - provided the state continues to receive adequate vaccine supplies,” **said Governor Kemp**. “We will continue to monitor the administration efforts of our public

health workers and partners in the private sector, and the supply chain of both the Moderna and Pfizer vaccines to ensure eligible Georgians are vaccinated without delay.”

“Different areas of the state are completing Phase 1a at different times based on the number of healthcare workers and LTCF residents and staff they have to vaccinate,” **said Commissioner Toomey**. “This expansion of 1a eligible vaccination criteria will allow vaccine to be administered as quickly as possible to our most at-risk populations in terms of exposure, transmission and severity. It also gives healthcare providers and public health staff time to plan and work with local communities across the state to ensure safe and efficient deployment of limited vaccine supplies.”

It is critical that even as vaccine becomes available to more people, all Georgians must continue to wear a mask, practice social distancing and wash your hands frequently. While the COVID-19 vaccine is 95% effective in preventing illness in the individual being vaccinated, it is not yet known if the vaccine fully prevents person to person transmission or asymptomatic infections.

Kemp... very disappointed you have not called for a special session and that you continue to lie on FoxNews. You must think we the people are ignorant however it is you that is ignorant to think we cannot discern between legality and criminality... and this election has been nothing short of criminal. This is much bigger than Donald Trump, this is a fight for the integrity of our legal vote. You will be removed from office if you do not do the right thing and stand up against the democrats and the corporate interests. Try not to lie the next time you are on air, its not becoming!

If you take the time to go through the evidence you will come to the same conclusion as the 74m people who voted for President Trump, that he was / is undoubtedly the winner of Georgia. We all witnessed the vote count stopped in the middle of the night due to an alleged water main break which never occurred. We all witnessed the video showing poll workers to be sent home and bins of ballots being taken out from under a table and fed through the voter machines multiple times; I have never witnessed such a display of fraudulent. There were also numerous counts of 'pristine' mail-in ballots which is IMPOSSIBLE if the ballots were truly mailed in an envelope! Lastly there are also various cases of chain of custody issues.... I can go on and on and the evidence is apparent.

I am respectfully asking that you stand up and do the damn right thing for OUR COUNTRY. Stand up, be heard and stop worrying about politics. Stop the games and DO THE RIGHT THING. Kick stacy abrahams and her law breaking sister from their BS, Start looking at the very evident FRAUD that is occurring in our country and IN YOUR STATE.

Shame on you for not supporting the President, and SHAME ON YOU for not putting a stop to the fraud. History will not judge you well.

I watched almost all of the Senate Hearing today. I hope you did as well. It is appalling that ordinary citizens care more about the rule of law, the constitution and election integrity than elected officials. You have sworn to uphold the constitution and must have the courage to do the right thing. Anyone who listened today must admit that there was so much fraud that there must be a special session to review and ultimately declare the Georgia electors for President Trump.

After watching the fraud that happened on November 3, there is no way that the same thing will not happen in the run off election. You must do your job, stop the steal and not be afraid. The people will support you if you say no to the corruption. If you do not stand up for the people, I am afraid our country will devolve into chaos. I am afraid that if Biden is allowed to be put in office and the Senate goes to the socialists, conservatives will never get back into office.

Your comments or response would be welcome.

You need to speak up and call for a special council. You looked foolish today and if everyone stays home you have no one to blame but yourself.

Speak up for a special session, light up twitter, call for a special council, fight for Trump, Why the radio silence. Everything is not fine, you are in trouble if you do not speak up.

This election was stolen and the Georgia people showed you today.

Speak up loudly and start fighting.

Governor Kemp,

Why are you going on Fox news and flat right out lying to the American people?? You want us to believe you did EVERYTHING to support President Trump and his reelection efforts. Right! That's a joke! You should be ashamed of yourself.

Your behavior is nothing short of despicable, disgusting, shameful and maybe criminal. You don't represent the good people of Georgia. You certainly DO NOT represent the GA Republicans. You will not be getting reelected and you may end up getting recalled. I would certainly vote for that. For you to have stood by and allow this sham, scam, unlawful, unjust, unfair election to take place in GA is absolutely UNBELIEVABLE!!!

I am SO mad at you and Raffensperger and all the other spineless RINOs in this state and in this great country. You have all let us down.

We will NEVER forget it!!! Because of all this mess, our 2 GOP senators may well lose their election on January 5th. Good work there Governor. Really good work.

This will be written about in the history books and you will forever be in the history of this country as one who participated in the greatest fraudulent election this country has ever seen up to this point.

Extremely MAD resident of GA and proud Trump deplorable, patriot and LOVER of America, it's laws and the constitution,

After today's display of the overwhelming evidence during the hearing, you may want to take the president's advice and resign before you are recalled, which is inevitable. "We the People" will hold you and all of your cohorts accountable for this election fraud. I strongly encourage you to save your own skin and testify to what you know! CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Gov Kemp,

It is obvious to a majority of Georgians that the general election results are not trustworthy. There are so many instances of fraud, at least one of which we watched fellow citizens endure (finding out someone else had voted in their place). What has been shocking is the lack of an urgent, transparent, and open effort by our government to hear evidence, vet it, and address it to the satisfaction of all Georgians. Georgia is our state. We expect a fair, honest, and trustworthy election. We expect it to be robust and tight and secure. Although not ONE SINGLE VOTE should be fraudulent, this year, it has been overwhelming. Everyone knows it. Everyone sees it.

What evidence? Peter Navarro's "The Immaculate Deception" report is one: (<https://www.scribd.com/document/488495896/Navarro-Report>). Others are here: www.Everylegalvote.com and www.Hereistheevvidence.com. There are others, of course, such as today's senate hearing.

The Senate hearing today (12/30/20) was so compelling that no one should have still had doubts. The data is undeniable. No Georgia representative/senator/executive should do anything but call immediately for a special session.

The reason that voters are staying home for the runoff is due to a lack of trust in the system because no substantive changes have been made from the general election. This is a SERIOUS situation.

We need a special session. We need changes to the mail-in voting to ensure that only legal votes are counted, even if it takes an extension. Illegal votes are not real votes. Illegal votes are no more real than counterfeit money is to our economic/financial system.

We need to see Georgia de-certified. Fix this general election FAIRLY to the satisfaction of all Georgians and the harmed party (the Trump campaign). Anything less is unacceptable. What has been done thus far does not address the real underlying concerns.

As such, we need to see you stand for Trump, VOTER INTEGRITY, and TRUTH.

We are running out of time. This should have happened a long time ago. This is the most important time in our country...and in our world...in modern time. No matter the risk or cost, we need to see leadership stand tall for what is RIGHT. Doing what is right is always the thing to do.

Thank-you,
Deryl Vassey

This evening my husband and I watched the Georgia State Senate hearing for voter fraud and we are shocked at what happened in Fulton and Cobb County! America is watching. You have the power to halt the theft of the Electoral Votes of Georgia. Rise to this moment in history and protect the Republic and Constitution to which you have sworn an oath.

It's imperative these ballots are examined via a transparent audit. You will have to sleep at night knowing you fundamentally changed America by being either weak & feckless or being paid and bought by corporate CCP interests? Will it be worth it?

After watching the GA State Senate hearing today its plain as day Trump overwhelming won Georgia before Fulton county / State Farm Arena "water main break" poll workers were asked to leave... EXCEPT for 5 criminal poll workers repeatedly scanning the same ballots for hours in the bogus Dominion machines...they screwed Trump, the people of Georgia and most likely Loeffler and Perdue, too! Unfortunately, Brad Raffensperger is a national disgrace that will be voted out next election cycle...no hope for that RINO!

The world is watching all of you, as well as your constitutions! Put your greed aside and think about the legacy you are leaving!! I've lost all confidence in Georgia's leadership.

Stop the destruction of America!

We need President Trump, Senators Perdue and Loeffler.

Dear Senator's,

You took an oath to uphold the Constitution and protect our Republic. Now do your job and protect election integrity 75 million people will not accept being disenfranchised. It should not be this difficult to remedy an invalid election and voter fraud. I request you exercise your Constitutional and statutory authority to object to the certification of any elector from any state that refuses to allow a meaningful audit of the November general election for electors to the Presidency, which must include:

- 1) a re-canvass of the vote that authorizes independent confirmation of a signature match using the same standards the same election officials use for nomination petitions, recall petitions, and initiative petitions;
- 2) publishing of the ballots for the world to review and observe, as states promised when they wrote large taxpayer checks to election machine companies like Dominion and others; and
- 3) audited review of the voter rolls to insure only qualified voters cast ballots for electors to the Presidency. If a state refuses to allow an honest audit of the vote, then I request you object to the certification of any electors from that state which has refused such an audit. At present, this includes the electors from Wisconsin, Michigan, Pennsylvania, Georgia, Arizona and Nevada.
Hold session or meet and decertify fraud electors today!! We are watching we will recall or call for impeachments.

Thank You,

Shame on you all. Trump helped the Republican party gain seats, take back their party and we the people have the power to end you political careers. Hold special session for election fraud and correct the fraud. Votes were changed, duplicated etc. a fair solution must occur. Either toss illegal votes or host new election in disputed states. 75 million people will not tolerate being disenfranchised. Dear Governor Kemp: The election fraud in your state and other key swing states has been massive. You must for the sake of the country call a special session in Georgia. Your election results must be overturned they are an abomination on freedom and truth. The 2020 election was rigged for Biden. There was stealing and massive voter fraud in your state and other swing states. This election in Georgia needs to be overturned. The runoff for your two US Senators needs to be free of any fraud. Don't use voting machines that can be rigged. You need to stand up for our Constitutional Republic. If you don't you will go down in history as a traitor to our great nation. Our nation will be no more without free and fair elections.

We are all praying that the truth comes out, the voters overwhelmingly elected Trump do your duty. You were elected for a time like this. Help save our country and protect our freedoms.

Governor Kemp.

Rumors swirl about WHY you have not DEMANDED Fair Elections in your state.

One such rumor is that you are thinking about a presidential run in the future.... Guarantee that will be dead, as the NATION sees your actions as being complicit in the theft of the Presidential Election and the Senatorial Election for the corrupt Democrats and their donors.

If you think that the 70 or so MILLION Trump Supporters are going to forget, especially after suffering from the socialist policies laid on us by the Biden Harris Administration, you are mistaken. That is assuming, after the success of stealing the vote, there is another "free" election.

It is not too late for YOU to show leadership and turn this around.

Dear Governor Kemp,

I am not a resident of your fine State; however, you and I both share a love for our Republic and want what is best for our Nation.

GOD often looks for a man to stand in the gap, so that HE does not have to take action against a people. At this time in history, as a Patriotic American, you have been called to stand in the gap and defend our Nation.

I urge you, do not shrink from your Duty, Call the Special Session of the Georgia general assembly. The Georgia election report finds the results of your state's election cannot be trusted, the certification should be rescinded and the General Assembly should determine the proper electors. We are losing our republic if fraud is allowed to continue in our elections. This is the time to stand for what is right.

GOD knows your heart, Your fellow Georgians are looking to you to do the right thing. Secure your place in the history of American heroes, call the Special Session, save our Republic... for your constituents, for our nation and for your children.

Mr. Kemp,

We have had it with you! You might as well beg to Stacy Abrams to become a Democrat, because you are finished in this state and the Republican party. It is very clear that you don't have the interest of the people who elected you in mind when you do nothing to stop the steal. Do you really think you and your underlings will be spared in any of your reelection bids? They will use the same tactics to oust you as they have with President Trump. You will all become a minority party in this state, and that will all fall on you, as will the loss of the two US Senate seats. You are a disgrace. I will be following, and donating, to the "Total Recall" effort of you and anyone that doesn't stand up for us. The only way you can save yourself is to immediately call or support a special session of the state legislature and decertify the Biden electors. That is it. This is a wound that won't heal and we will never forget.

Governor Kemp, Lt. Governor Duncan, Secretary of State Raffensburger, Mr. Sterling:

Are you afraid? If you are *not* guilty of covering up crimes, you should *not* be afraid to release the ballots from Fulton County for forensic examination by Jovan Pullitzer.

We need to know, and could easily determine at no cost, in a matter of hours:

- where the ballots came from that were under the table at State Farm Arena - or at least, whether they were legitimate ballots, i.e. where they did *not* come from
- whether any ballots printed by unauthorized printers, mechanically marked, not folded, etc.
- whether ballots were run through counters *over and over* as is CLEARLY observable in the video in the absence of Republican observers

Further, we need to know:

- why can't those who remained behind and kept counting be questioned?
- who told the press there was a "water main break" - and whether Georgia coordinated with other states who stopped counting when it was clear Trump would soon reach the 270 electoral mark?

I pray you will recognize the seriousness of the fraud you are committing if you continue to disallow access to the ballots for a real and meaningful analysis of what happened at State Farm Arena, among other practices. I fear for the gravity of the compromises you made.

Also, we now know that during early voting, yesterday, December 30th, the system which was *not supposed to be online* was in fact accessible by "white hats" *in real time*.

Voters have no confidence in your leadership, statements, obfuscations and manipulations.

Your "recounts" and "audits" were not designed to reveal the truth, but to continue the sleight of hand to fool those who want to believe you because they wanted Biden to win - or - critically, those who are seeing only your side of the story because the mainstream media refuses to cover this historic issue. Think to yourselves what would be happening right now if this kind of fraud or even *appearance of fraud* had taken place after a loss, for instance, of Barack Obama.

You have the power to respond to the call for release of ballots for auditing by Jovan Pulitzer's group for a conclusive answer to what happened the night of the election.

These ballots *belong to the citizens of Georgia, not to you.*

The members of the Election Law Study Subcommittee are cc'd on this email.

Sincerely,

Elaine Hightower

Candice,
I hope you are well, question. Can you confirm that Covid overflow will be in Building A in January and Little Big South tournament in C building potentially at the same time?
And the bed capacity for the Covid unit is 200 beds like previous?
Thanks very much.

Dear David,

I have attached a draft professional bio below. I wasn't quite sure what to include, so I tried to follow the format of the bios included here <https://gov.georgia.gov/about-us/administration>. Let me know if you need me to make any changes to it!

Kelsey Finn holds a bachelor's degree in Political Science and a Juris Doctor from the University of Alabama. Finn will also receive her LL.M. in Tax and Business Transactions from Alabama Law this spring. While in law school, Finn served as a Student Attorney in the Entrepreneurship & Nonprofit Clinic and provided legal service to small business owners and nonprofits.

Finn started her career in Georgia interning for the Commercial Transactions and Litigation Division within the Office of the Attorney General. Finn has previously worked under a federal judge, for a business litigation firm, for an intellectual property pro bono organization, and also worked in national security and nuclear nonproliferation at the U.S. Department of State. Finn grew up in the suburbs of Chicago and has lived and worked in Illinois, Washington, D.C., Alabama, and Georgia. She loves the state of Georgia and is very excited to serve under the Governor Kemp administration.

Bert & Blake,

Please see the attached letter from Johnson Controls (JCI) CEO George Oliver to the Governor.

George would greatly appreciate an opportunity for a brief phone call in January with the Governor to discuss 1) essential workers and the Covid vaccine, 2) JCI's ability to retrofit freezers for vaccine storage if/as needed (with university freezers for example). Their industrial refrigeration also continues to service sectors (such as pharmaceutical facilities, hospitals & manufacturing sites, etc.) that are recognized by DHS as Critical Infrastructure Sectors.

We appreciate the consideration for the call.

Merry Christmas, Happy Holidays & Happy New Year.

Atlanta, GA – Governor Brian P. Kemp today announced his administration's floor leaders for the 2021-2022 General Assembly.

"I am proud to announce these great public servants as my floor leaders for the 2021-2022 legislative sessions of the Georgia General Assembly," **said Governor Kemp**. "In the first two years of my administration, we have made great strides to put hardworking Georgians first, passing over 50 healthcare bills to increase access and reduce costs, working to eradicate criminal street gangs in our communities, and fighting human trafficking. We've also worked together on budgets that reflect our priorities as a state by investing in education, prioritizing a historic teacher pay raise, and strengthening public safety. Our partnership with the General Assembly has been critical in the fight against COVID-19 as we have worked every day to protect lives and livelihoods. I am confident these outstanding legislators will carry that important work forward, and I appreciate their commitment to the people of Georgia."

YOU NEED TO DECERTIFY THE NOV 3RD ELECTION AND STOP THE FRAUD GOING ON IN THE RUNOFF. ARE YOU ALL STUPID OR SO FAR UP THE DEEP STATES BUTT THAT YOU SPOUT S__T EVERY TIME YOU SPEAK??

FOR GOD'S SAKE WAKE UP EVERYONE!!! DO WHAT IS RIGHT AND WHAT YOUR CONSITUENTS ARE ASKING OF YOU. THIS IS BIGGER THAN JUST PRESIDENT TRUMP. WE WILL NOT BE SILENCED. WE WILL NOT SURRENDER TO EVIL. YOU HAVE AWAKENED A MONSTER AND THE MONSTER IS GETTING STRONGER.

Governor Kemp,

The Chairman's Report of the Election Law from the Standing Senate Judiciary Committee has been released. This Committee, headed by Senator William Ligon, goes through detailed evidence of widespread fraud that occurred in Georgia during the November 3rd, 2020 election. Based on the evidence detailed in the Report, the committee recommends the leadership of the General Assembly and the Governor immediately convene to allow further consideration of the widespread fraud and discuss the need to certify Trump Electors.

The House Oversight held a hearing questioning the Secretary of State about this very fraud.

The Senate is hearing more evidence today.

Dr Peter Navarro has also released the "Immaculate Deception" which specifically diagrams the evidence of the fraud in Georgia.

You now have the evidence you stated you lacked three weeks ago. If you have not already, read these reports. They are on your desk. Now is the time to call the special session and retroactively certify the Trump electors. Your voters, your senators, your representatives are demanding it. Defend the Constitution and your citizens rather than defending business interests.

Sincerely,

Jacob Harvey

Subject: On this last day of 2020, how will you (and your actions) be remembered for all of history? Will you allow a Presidential Election to be Stolen with Fraud?

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear American Leaders,

on this last day of 2020, how will you (and your actions) be remembered for all of history?

Will you go down as a limp, lifeless, defenseless bystander, who bows down to the communist uprising and utter destruction of our great United States from within? Or will you, like so many who have served our country, many with the payment of their young lives, stand up and STOP this disgusting takeover of our election system and institutions?

If you choose to stand by and let it happen, you are not only enabling the STEAL of the election, but you are forfeiting your position as a leader. If you allow the steal, will you be able look your family, children, friends, colleagues, citizens, constituents, veterans, and so many others in the eye and tell them you did your best for America?

The evidence is overwhelming, this election is being stolen. There are 100s of millions of American citizens that know this is true. And unless you take action NOW and STOP IT FROM BEING STOLEN, this election will mark the END of the USA as we know it. The blood of an America lost, will be on your hands.

So I write, for one last time this 2020, WILL YOU PLEASE STAND UP AND STOP THIS ELECTION FROM BEING STOLEN BY joe biden?

Be a HERO and STOP THE STEAL! Call a state session now, and reverse the LIE! Certify the real winner of the election: President Donald Trump! Make GOOD on the will and sacrifice of all those 18 year-olds and all the other fantastic Americans who PAID THE ULTIMATE PRICE to provide us with FREEDOM with this great United States of America!

“A general dissolution of principles and manners will more surely overthrow the liberties of America than the whole force of the common enemy. While the people are virtuous they cannot be subdued; but when once they lose their virtue then will be ready to surrender their liberties to the first external or internal invader.”

— Samuel Adams

“They tell us, sir, that we are weak; unable to cope with so formidable an adversary. But when shall we be stronger? Will it be the next week, or the next year? Will it be when we are totally disarmed, and when a British guard shall be stationed in every house? Shall we gather strength by irresolution and inaction? Shall we acquire the means of effectual resistance by lying supinely on our backs and hugging the delusive phantom of hope, until our enemies shall have bound us hand and foot? Sir, we are not weak if we make a proper use of those means which the God of nature hath placed in our power.”

— Patrick Henry

Gov. Kemp,

Less than 16% of our state's vaccine doses have been administered, at this rate it will take about 13 years to vaccinate 90% of Georgians, long after 90% of Georgians have been infected by COVID.

Reported infection rates are at an all-time high, nipping at 10,000 a day, and likely to worsen after the holidays. Most hospital ICUs are now full. School systems are shutting down in-person instruction again.

The new more contagious COVID-19 variant is very likely active in Georgia. But, inexplicably, you continue to allow masks to be optional in most places, like gyms, and nightclubs are still open.

Rather than helping restart the economy, poor handling of COVID-19 will harm Georgia's economic future and competitive for decades.

Your lax, hands-off approach has failed. A "personal responsibility" approach is not working, that's not how viruses work, and thanks to the President you campaigned on behalf of, half the state thinks COVID is a hoax.

More Georgians are dying because you are aiming for some kind "middle ground" between the largest public health emergency in our lifetime and COVID denialists/conspiracy theorists. Worse, you do nothing in light of deteriorating conditions here in reality.

You claimed yesterday to be working to ensure hospital bed availability, but you aren't doing enough with a mask mandate, closures, or vaccinations to keep people from needing a hospital bed in the first place.

Now is the time for decisive action to get us through the final months of this, lest it prolong into another year, and take thousands of more Georgians.

We need to lock back down again, with a stricter executive order. Gyms, restaurants, and bars need to be closed. Or soon Atlanta will look like the photos coming out of LA. Georgia hospitals will have to begin deciding soon who is worthy of a ventilator and who is not. You can prevent that, if you chose to.

You need to call up more of the Georgia Guard immediately to manage vaccinations and take that burden off of DPH and hospitals. We need medical tents running 24/7 around the state giving vaccines on a first-come first-serve basis, getting them into

You should issue an executive order that allows individuals with lapsed medical licenses including former RNs, Paramedics, LPNs, PAs, PharmD's, who did not have their licensed revoked for disciplinary reasons, administer the

vaccine under MD or RN supervision. As a former Paramedic, Georgia 8305, I would gladly volunteer my time for free to give out vaccinations.

We need to follow the UK vaccine model, release the state's second doses immediately to get them into more people's arms, and get overall more people to 80% immunity. Then we focus on the second dose later to get them to 95%+ immunity. Let rural Georgia hospitals with excess doses start giving them out to anyone who wants them, or let the Guard transport them to Atlanta, Columbus, Macon, and Savannah where they are wanted.

The virus is still winning. You are the executive leader of our state. It is time to lead.

Suzanne,

That needs to be done. My guess is that if the Republican party does not respond to the egregious situation we're in, it will be decades, if ever, before it can recover. In fact, most of the people I speak to are white-hot furious and feel betrayed by Brian Kemp, Houston Gaines, Bill Cowsert, and all "establishment Republicans". I keep wondering: "What are they thinking". Do you have any idea?

General McInerney said on one of his videos that he knows Bill Barr and used to like and respect him. He said the only way he could have behaved as he has is that he's an idiot or he's complicit. He then said, "I know he's not an idiot". I feel the same way about many of our Republican leaders.

Anyway, back to your point: It would be great if Senator Harbin would get the legislature back in session and focus on proving that the real winner of legal votes gets GA's electoral votes.

Please keep me posted.

Thanks for all your efforts with this!

Hey, GOP: This is Your Do or Die Moment

By Brian C. Joondeph

Life seldom offers second chances. When opportunity knocks you can either answer the door or sit idly by as opportunity moves on to the next house, never to return. Opportunity is knocking on the doors of elected Republicans today. Will the door be answered? Do Republicans hear the knocking, or are their fingers in their ears, trying hard to not hear anything, reminiscent of Sergeant Schultz of Hogan's Heroes?

President Trump is the door knocker. He started knocking in June 2015 when he rode down the Trump Tower escalator promising to Make America Great Again. Some in the GOP answered his call and stood firm to support Trump's agenda and defend him against the Spygate coup.

Others like Paul Ryan, Mitt Romney, John McCain, Jeff Flake, and others went out of their way to throw roadblocks in Trump's path, and those still on the political scene continue nagging Trump to this day.

Republicans are oblivious to the obvious, that this is their last stand. It's do or die, sink or swim. The opportunity with orange hair and a Queen's accent won't be coming around again. In 2016, he easily dispatched the cream of the Republican crop, a gang of 16, all of whom would have lost badly to Hillary Clinton without him. Are there any heirs apparent? I don't see any. It's Trump or a long walk in the wilderness for the GOP.

If Democrats, the corporate media, and foreign interests can steal a presidential election, they can steal any congressional or gubernatorial election, easily. If a thief can rob Fort Knox with ease, any bank on Main Street will be child's play.

If they can weaponize the CIA, FBI, IRS, and DOJ to target their political enemies, without punishment, why won't they double down next time? For the left, crime does pay.

There has been no reckoning or accountability for the stolen 2020 presidential election. What's to stop every subsequent election from being stolen in the same way? I have no doubt that if the 2020 electoral fraud is given a pass, the same methods will be used in full force in Georgia, electing both Democrat candidates to the Senate, making current Senate Republicans irrelevant seat warmers.

Does anyone seriously believe that the Biden FBI or DOJ will lift a finger to investigate voter fraud? Forget Special Counsels as they can be fired with the stroke of a pen, cheered on by the DNC media. Republicans may cry foul, but so what? In the permanent minority, they have no power.

There is always a Plan B for the Democrats, aside from outright election theft. Create a few more states with Democrat senators, and elections don't need to be stolen, since with a simple vote, the senate filibuster becomes history. Democrats controlling two branches of government, with the third afraid of their shadows, creates one-party rule, guaranteed passage of every twinkle in the eyes of AOC, Bernie, or Pocahontas.

Add six more far-left justices to the Supreme Court and Trump's three nominees will have as much say as their clerks in interpreting the U.S. Constitution. Does that even matter as few current justices have any interest in something as constitutionally important as a free and fair election, instead choosing to hide under their black robes behind a wall of "standing"? How ironic that with a stacked Supreme Court, the three new "originalist" justices will have no standing against new fellow justices like Michelle Obama, Lawrence Tribe, Sally Yates, or Eric Holder.

Republicans talk a good game about "getting 'em next time" but there will not be a next time. Do Republicans say that in California, now that the Golden State has been renamed the Blue State, with not even a whiff of Republican red anywhere in sight? Such is the course for America.

Plan C for Democrats is to open the borders, granting amnesty, citizenship, and voting rights to millions of foreigners, mostly poor, eager to enjoy the largess of American workers and taxpayers, voting to keep the benefit spigot wide open. Flood Texas with immigrants, turn it blue, and it's lights out for the GOP, assuming Democrats haven't yet abolished the Electoral College. They won't even need to rig the election at that point.

Republicans may object to the Paris climate accords or the Iranian nuke deal but will be powerless to prevent any of it. How will they stop Medicare-For-All or the Green New Deal? Or a fracking ban and higher income taxes? They won't.

Their complaints will fall upon deaf ears. Just like the NeverTrump crybabies of the past five years, objecting to Trump implementing everything they advocated for in their subscription newsletters, op-eds, and cruise ship trips, yet suddenly find objectionable solely because the big mouth on Twitter actually got the job done, rather than only discuss it, as they did for decades.

Republicans can talk about new Republican voters, how "Hispanic, Asian vote shifted sharply to the right in 2020" but so what? If Democrats are allowed to steal an election, it doesn't matter who votes for Republicans, as the Democrat will always win.

Do Republicans not realize the realities of rigged elections? Although attributed to Josef Stalin, this is the electoral mantra of every dictator, "It's not the people who vote that count, it's the people who count the votes."

When Democrats can blatantly and brazenly steal the most important election in the world, using tactics that the UN would be screaming about if employed in any third-world backwater election, it's lights out for America.

This is the GOP's last stand. If they don't support the leader of their party, and he falls, that's it for their party. Many Trump supporters, myself included, would gladly walk away from the GOP, in votes and financial contributions, to a new party or no party at all, voting only in local races or ballot initiatives, telling the national GOP and RNC to go Trump themselves.

Are they that oblivious or do they simply not care, happy to serve as back benchers in a uni-party controlled by the far left, giving the Mitt Romney types a small spoon to feed from the trough of foreign and corporate slop?

This is their do-or-die moment. If they go wobbly on Trump, 75 million Trump supporters will go wobbly on the GOP, sending them the way of the Whigs.

Time to step up. If opportunity knocks and the GOP doesn't answer the door, then it's lights out for the Republican Party. And for many of us, good riddance.

A Call to Arms for All Patriots to Come to the Aid of Their Country

By Ron Wright

Our founders were visionary and provided ways to resolve disputed Presidential elections. Constitutional law expert Attorney Jenna Ellis, a Trump legal team member, outlined this procedure. The most straightforward solution is for the six contested states' legislatures to convene on their initiative by a simple majority vote without being called into session by a reluctant governor. Then by a resolution by a simple majority vote, reclaim their state's electors pledged for Biden and appoint electors for Trump before Congress meets Jan. 6, 2020.

Patriots in the contested states should immediately deluge by phone, fax, and email their representative to demand the retraction of the electors pledged to Biden. Warn the representatives there are 74 million disenfranchised voters who voted for Trump who are not going away, "... come back with your shield or on it!" Links to representatives in AZ, GA, MI, NV, PA, and WI. While not yet time for pitchforks and shovels, this has been done before. Shortly after WWII, Tennessee citizens faced a similar vote fraud by a corrupt government in McMinn County, "The Battle of Athens, Tennessee 1946."

Nov. 3, 2020, *a new day of infamy*, a devious covert attack shook the United States of America to its core. This attack was worse than Pearl Harbor or 9/11. The perpetrators were our elitist aristocracy and political class that reject the concept of self-governing by We the People. Complicit were our unelected administrative state, *the Deep State*, the mainstream media (MSM), Big Tech, *The New World Order* (Globalists – The Great Reset), and hostile foreign governments, specifically China. This evil coalition seeks to subvert the People's will by undermining our core beliefs, sovereignty, and overthrowing our government as created by our founders. As President Lincoln said, "A house divided against itself cannot stand."

As President Trump said, this coalition stole the 2020 Presidential election to prevent a duly elected President from serving a second term. This action was yet another coup to conceal the many past criminal acts of these perpetrators, e.g., treason, misprision of treason, rebellion or insurrection, and advocating the government's overthrow. Including violating the People's civil rights under the First, Second, Fourth, and Fifth Amendments and many other serious federal felonies that so far have gone unpunished.

This coalition's collective actions are a criminal conspiracy or a criminal enterprise, as defined in RICO, as I wrote previously in this article. See this article by Glenn Reynolds (AKA, Instapundit), a University of Tennessee law professor. Our law enforcement and other government agencies covered up these crimes - the Secretary of State, Department of Justice, Federal Bureau of Investigation, Central Intelligence Agency, Director of National Intelligence, and

others. They all went rogue and failed to defend the United States against all foreign and domestic enemies.

Is Joe Biden a compromised Manchurian Candidate? A puppet used by dark handlers to implement the radical agenda of the Leftists and Marxists? Their manifesto is the antitheses of the People's rights, ". . . *endowed by their Creator with certain unalienable Rights*," as declared in the Declaration of Independence and the US Constitution - *the free will of men and women*. These allegations pose severe national security consequences from China to the United States should former Vice President Joe Biden serve as President.

Before the election, organized domestic terrorist organizations would magically appear that committed acts of murders, riots, arson, insurrection, and destruction of both public and private property (BLM and Antifa). These organizations are akin to Hitler's Brownshirts. These organizations have ties and are funded by the perpetrators. The MSM colluded with outright lies and disinformation to suppress the vote in support of Biden. Big Tech censored social media to thwart the free flow of information and discussion of these issues.

COVID-19 mandates for masks and lockdowns were and are a sham. The hysteria generated was used to suppress the vote and to facilitate vote fraud. Whether accidentally released or not from a Chinese viral lab, China knew this virus was in the wild but hid this fact with the WHO's assistance. China banned travel from Wuhan within China but allowed international flights from Wuhan to continue. There is evidence to suggest China created COVID-19 as a bioweapon. The intentional release in either manner was an act of war.

The Hunter Biden investigation was kept secret from the voters for over a year by the DOJ and FBI. Evidence from this investigation contained exculpatory information that was withheld from the defense in President Donald J. Trump's sham impeachment trial. The DOJ should have disclosed this evidence no matter what its policy was. The People's interest far outweighed the DOJ's policy of nondisclosure. The co-conspiring MSM refused to cover the Hunter Biden story. Instead, they called it *Russian disinformation* until very recently. Twitter de-platformed the New York Post that broke the story. Why?

The Dominion vote system is a well-known corrupt vote tallying system within the cybersecurity community. Dominion was used to flip votes at will (here, here, and here). A forensic analysis of the voter machines in Antrim County, Michigan revealed ". . . [were] not the result of an error by the Republican clerk, as claimed, but 'machine error built into the voting software designed to create error.'"

Dominion has been accused of being financed by hostile governments. At a news

conference in Georgia on 12-02-2020, Attorney Lin Wood accused both the Governor and Secretary of State of Georgia of taking money from China (YouTube at 11:40).

Where are the DOJ and the FBI? Late out of the gate again -- like 9/11? Why? Time to pay the piper, either do your job or get off the pot. Time for real police work instead of playing to the media with dog and pony shows, e.g., the NASCAR *garage door noose*. The FBI's NASCAR response is the type of action necessary to root out and prosecute this conspiracy to commit organized and systemic vote fraud across many states in this election. The FBI has the Joint Terrorism Task Forces (JTTF), Fusion Centers, and the forensic financial and cyber resources to confirm these crimes were committed and identify the perpetrators.

At stake is whether our country survives as a constitutional republic from this covert, insidious attack both from within by the aid and comfort by elected and unelected officials and others owing allegiance to the United States and by the assistance of hostile foreign governments and The New World Order. As Benjamin Franklin said, our government is, *A republic, if you can keep it*. As explained by Richard Berman, “. . . democratic republics are not merely founded upon the consent of the people, they are also *absolutely dependent upon the active and informed involvement of the people for their continued good health*.” [My emphasis] We must preserve the rule of law and put an end to this unequal system of justice — *rules for thee, but not for me*. As John Adams said, “[We are] a Government of Laws, Not of Men.”

Please notice the single attachment below addressing the approach the MRC took that did not factor the DOJ/Harris suppressed evidence since before late 2019. Sen. Harris' "rating" when compared to "criminal actions" may have yielded orders of magnitude less votes than the MRC survey found.

As we are well into Georgia's early voting, it is critical to not lose more ground by making voters there fully "aware" of crimes committed by Sen. Harris/DOJ and others as found in my Senate Ethics Complaint found in the Google Drive link below.

Mr.Cahalay,

I fully agree with your statement in the first pdf below, and your survey results showing a tight race, but why should Georgia settle for such a race given the criminal censorship experienced throughout the entire election process (See first four pdf's)? Georgia's former House Speaker Newt Gingrich, crystallizes my thoughts as heard in his Podcast link directly below. I also sent Speaker Gingrich a communication as well (See #3)

[Newt Gingrich | Newt's World Podcast \(gingrich360.com\)](#) Episode 170, Scroll to 5:35 - 6:33.

The Media Research Center found a conclusion cited by Newt Gingrich in the link above, that Democratic voters who indicated in surveys that they would have "switched" their votes had Biden information suppression not taken place, then clearly given the information shared with you, that Sen. Kamala D. Harris', criminally suppressed information would have yielded far greater Democratic votes.

What MRC did is what I sought to interest the Trafalgar Group (Taf) in doing without knowing about the survey MCR conducted, and given the impact such a survey would have moving forward. I reached out to MRC (See #2) as well, and think that between the Taf and MRC leveraging my complaint and other evidence, that a golden opportunity to save Georgia, the Senate, and the presidency is within reach.

I look forward to working with you so, please do not hesitate to contact me.

Hey Elena,

This is urgent, and I'm going to get right to the point.

If you're a Georgia voter – and you have not cast your runoff ballot yet for Senator David Perdue and Senator Kelly Loeffler over their far-left opponents – then we need you to TAKE ACTION NOW!

You can still vote early. But time is running out... that opportunity ends TODAY!

And if you're not planning to vote early, mark your calendar, set an alarm on your phone, do whatever you need to do GET OUT TO VOTE next Tuesday!

Here's a link to our state's My Voter Page, where you can log in to find early voting information for your county and your Election Day polling location: <https://www.mvp.sos.ga.gov/MVP/mvp.do>

You've likely seen the latest news in these races. Both of our Republican senators are locked in DEAD HEAT runoff contests, with the Democrats and radical left pulling out all the stops to flip Georgia and put these seats in Chuck Schumer's pocket.

If they seize complete control of our federal government, they will DESTROY America as we've known it, plain and simple.

Stand up and be counted to KEEP GEORGIA RED and SAVE THE SENATE!

Thank you, of course, if you've already cast your ballot, as more than 2 million Georgians have now done.

These races will likely go down to the wire. Every vote matters.

Make your voice heard, and encourage every Georgia voter you know to get out and vote for Senator David Perdue and Senator Kelly Loeffler!

- Brian

Happy New Year Traitor. I am so happy that people like you will be okay when Joe Biden becomes President. But it will not be good for us in the middle class. The November election showed me several things. What I learned in 2020 is my Republican Party leaders in the local, state, and federal government turn out to be no better than the leaders in the Democrat Party. Sad, very sad.

Dear Mr. Governor,

As a citizen and a legal voter, I demand that you support the audit of all the Dominion Election Machines in this country, particularly in Georgia. You need to acknowledge the extensive fraud that has taken place during election 2020.

We need you to stand up & support President Trump in seeking truth.

This is a turning point in the history of our nation; which side will you be on? Time and time again Republicans back down and disappoint their constituents. We need you to step up to the plate and act against the countless examples of election fraud perpetrated by the democrats and, according to DNI Ratcliffe, foreign actors.

If we don't do this now, we will never have another opportunity. Biden and the Democrats will make permanent the deadline extensions, mail in ballots, mail in ballots that are not requested, "Zuckerberg" boxes & these foreign Dominion voting machines that IT experts have proven to be corrupted and use nefarious algorithms to change the vote.

This is the most important crisis of our times. An election has been stolen and that means we are no longer a free republic. We are a banana republic. Biden will never be legitimate and millions will resist and become ungovernable if this isn't addressed. Let's see the facts and the truth explored. If the machines prove a Biden victory we can survive it; if we are denied the chance to examine the machines and consider election fraud witness & testimony we the people will never trust our government again.

Sincerely,

Grace Call

New Year's resolutions starter pack

By Ian Prasad Philbrick

New Year's resolutions can be difficult to keep. Most people abandon theirs by February, [studies show](#). So here's some advice if you're determined to set — and meet — a goal in 2021.

Make it specific and realistic. “Resolutions tend to be too big without any thought about whether they are practical or even possible,” says our colleague Tara Parker-Pope. Resolving to “exercise more” is vague, but resolving to add five or 10 minutes to each workout is measurable.

If you find yourself recycling a goal from years past, consider why it didn't stick. “The resolution ‘I'm going to lose weight’ doesn't address the underlying issue of why your diet isn't as healthful as you want it to be,” Tara says. “Maybe the resolution should be: ‘I'm going to stop buying packaged snack foods and snack on fruits and vegetables instead.’”

Go easy on yourself. If the thought of setting ambitious resolutions feels overwhelming, downsize them into smaller but still satisfying goals. “It's still important to celebrate that you're working toward making a positive change,” writes The Times's [Christina Caron](#).

Consider turning a positive change from 2020 into a longer-term habit. The pandemic will still shape much of 2021. But even after it ends, you may want to build on new habits you've developed, whether it's cooking

healthier meals or devoting more time to self-care. “Those things were all front and center during pandemic life,” Tara says. “We should keep them in post-pandemic life.”

Today kicks off a seven-day challenge from Tara and her colleagues on the Well desk to help build positive habits in 2021 and beyond. [Today’s challenge](#) is to make gestures of gratitude — like giving larger tips for delivery workers or appreciative texts to friends — a regular part of your day. Dear Governor Brian Kemp:

America is watching. You have the power to halt the theft of the Electoral Votes of your state. Rise to this moment in history and protect the Republic and Constitution to which you have sworn an oath.

Rest assured, if your administration fails to act, it is a choice you all are making, and history will judge you, and your voting constituency may remember this come reelection.

This is no longer about President Trump or Joseph Biden, in fact, I am an Independent (non-partisan); it is about the integrity of American elections, the cornerstone of our democracy. You all can hold hearings, invite witnesses, release documents, conduct audits, declare a special legislative session, vote your conscience to decertify the ill-gotten electors from the great State of Georgia, and more. Then make the decision in the light of day, not in smoke-filled backroom meetings with boarded-up windows or after the press and the public has left.

Thank you for your consideration.

Yours Truly,

A Concerned Citizen

TO: Secretary of the State of Maine, Matthew Dunlap

Thank you, Sir, for all you do for the State of Maine!

https://en.wikipedia.org/wiki/Matthew_Dunlap

I was born in Bangor, raised on a potato farm in Houlton, received my civil engineering degree from the University of Maine in Orono (and roomed near Stephen King on campus), married a girl from Presque Isle (43 years and counting), took my Professional Engineer's (PE) licensing exam in Augusta, and reside summers in Shapleigh. While I have resided several years in California, Massachusetts and Florida, I will always be a "Mainer" in spirit!

As you know, there are so many political issues saturating our minds these days. At age 70, it seems that the most important political issue today, and every day past/present/future, is **the state of mind of the elected occupant within The Office of the President of the United States of America**. Why so?

Because **the only thing humans control in their visible world is their invisible thinking**. Think of this: everything in the universe is God-designed and provided and Nature-sustained (including our own temporary/breathing bodies) except the control and assembly of life-sensitized invisible thoughts within the private bedrooms of our minds.

<https://www.youtube.com/watch?v=7T1LO6nOUdw>

For example, the **invisible thinking** of Maine soldier-statesman **Joshua Chamberlain** at Gettysburg was the turning point to begin the end of a horrible Civil War.

https://en.wikipedia.org/wiki/Joshua_Chamberlain

Another example is the **invisible thinking** of Maine engineer **Frank John Stevens** who jump-started the successful completion of the Panama Canal project after it had been abandoned by France with a loss of some 26,000 laborers and its \$300,000,000 investment.

<https://www.istor.org/stable/j.ctt16gzntg>

Therefore, **the invisible sole-USA-allegiance brain-thinking of any presidential candidate/incumbent president/ex-president is the most important political issue today**, and every day, especially because, THE CONSTITUTIONALLY-ELECTED PRESIDENT'S "natural born Citizen" NATURAL INVISIBLE THINKING, and SUBSEQUENT OBSERVABLE NATURAL BEHAVIOR, AFFECTS VIRTUALLY EVERY HUMAN ON PLANET EARTH...with the condition of virtually all other political issues functioning as mere symptoms, and by-products, of said presidential invisible thinking, don't you think?

On 08-28-08, U.S. Speaker Nancy Patricia D'Alesandro Pelosi, signed the documents allowing her known politically-expedient non-Constitutionally-eligible **foreign-thinking= foreign behaving presidential candidate**, unidentified-narrative **Barack Hussein Obama II**, to run for The Office of the President of the United States:

The Pelosi-Obama II CONSTITUTIONAL ELECTION FRAUD is THE MOST IMPORTANT PROBLEM THREATENING OUR CONSTITUTIONAL REPUBLIC 08-28-08- TODAY and all other issues (open borders, open citizenship, legal infanticide, Spygate et al) are merely its symptoms.

Only listen to Obama II's foreign behavior, not his utterances and writings, and it becomes evident that he possesses a life-acquired pro-islamic-foreign-thinking mind, which is exactly what John Jay, Secretary of Foreign Affairs at the time, attempted to avoid when he recommended in 1787 that "**natural born Citizen**" (= **born in sole-USA-allegiance-jurisdiction to sole-USA-allegiance-citizen-parents [like me and possibly you]**) be included in the U.S.

Constitution. In fact, John Jay went further when he proposed that the president and vice-president and all Congressmen be "natural born Citizens" due to his observations, both here and abroad, of the destabilizing affects of foreign allegiances, bribes and intrigues infested within various established national governments.

The family unit is the first government; an incubator for a growing child's values, affections and allegiances.

<http://www.fox13news.com/news/politics/trump-revives-suggestion-he-would-end-birthright-citizenship>

I have intermittently researched this term of art, "natural born Citizen" (nbC) since 2013. The U.S. Constitution is the supreme law of the land as John Jay's invisible thinking helped create and promote in 1787. One can either follow the U.S. Constitution, or amend it. To knowingly disobey it, then, is criminal, I believe. Speaker Pelosi, second-in-line to be president, on 08-28-08, willfully and invisibly thought to violate the U.S. Constitution by promoting an unidentified smiley-faced foreign islamic infiltrator, Barry Soetoro-Obama II, as the DNC's presidential candidate. Speaker Pelosi, therefore, remains an unindicted "nbC-criminal" 08-28-08-TODAY. PROVE me wrong, Matthew.

On 08-28-09, **The Post and Email began a website of worldwide fingertip-accessible "IN PLAIN SITE" daily publications of the Pelosi-Obama II election frauds** of 2008 and 2012, and the attempted election-coup of candidate Trump in 2016. 08-28-19 mill mark 10 continuous years of dedicated precise daily journalism of said "IN PLAIN SIGHT" Pelosi-Obama II "nbC-fraud". <https://www.thepostemail.com/>

While Congress et al have revised naturalization requirements for U.S. citizenship since 1787, **John Jay's invisible thinking of his term "natural born Citizen" has remained the original un-amended supreme law of the land when selecting/qualifying/vetting/consenting any presidential candidate/incumbent president/ex-president.** All attempts to define "natural born Citizen" may conform to anyone's personal bias and preference, but the true definition of John Jay's "natural born Citizen" remains unchanged since its ratification in 1789. PROVE me wrong, Matthew.

<https://www.amazon.com/John-Jay-Founding-Walter-Stahr/dp/1635763363>

In reading "John Jay- Founding Father" it becomes patently clear that the true meaning of "natural born Citizen" 1787- TODAY begins and ends with the invisible thinking and subsequent behavior of John Jay. As a check to ensuring that any U.S. President and U.S. Vice-president have **a minimum of foreign-philosophies brain-thinking**, the intentionally restrictive, and exclusive "natural born

Citizen" requirement proposed by John Jay in 1787, and fully ratified by the 13 states by 1789, becomes, and remains today, **the supreme presidential qualification of the land, beginning with the intentionally restrictive birth pedigree circumstances of being born within a sole-U.S.-jurisdiction of sole-U.S.-allegiance-citizen-parents, just like me being born at Eastern Maine General Hospital in Bangor, Maine on Easter Sunday 1949.** PROVE me wrong, Matthew.

Simplify nbC: The instant the United States of America was ratified as a Constitutional nation among nations on planet Earth, all residents on US soil who accepted sole-US-allegiance (i.e., had fought in the Revolutionary War on behalf of the US; had abandoned Loyalist sentiments by taking an oath of sole-US-allegiance et al) instantly became "grandfathered" Constitutionally-naturalized US-citizens. In that same instant, in that political snapshot in man's evolution, from within those same Constitutionally-naturalized US-citizens who accepted sole-US-allegiance, were US-citizen parents-to-be that were eligible to possibly produce a Constitutional "natural born Citizen" president by virtue of **birth pedigree**, like me. Those sole-US-allegiance citizen-parents would naturally raise their child with sole-US-allegiance values and affections in USA with a minimum of foreign influences and sympathies such that their child would naturally internalize a singular "America First" developing **brain-philosophy**, like me (and you?). If that child wanted to become a US president, if he had resided in USA for at least 14 years, if he had not given up his US-citizenship upon age of maturity, if he had shown good non-felon moral behavior and if he had attained the age of 35 years, he would be Constitutionally-eligible to be a US president, like me (and you?). **This is the simplest, least contested and least doubtful qualification to be considered as an "America First" presidential candidate/incumbent president/ex-president in USA.**

What undermines this simplest scenario is when a presidential candidate's parents-to-be are foreign-born and not naturalized as sole-US-allegiance citizen-parents (Kamala Harris et al) or the presidential candidate is foreign-born (Kenyan Obama II?; Canadian Rafael Cruz et al), or the presidential candidate satisfies this simplest nbC base-line model above but has consistently displayed a natural propensity for arrogant reckless felon-like behavior that inescapably indicates possession of a natural adult felon-thinking "Sell America" criminal mind (Hillary Clinton).

BOTTOM-LINE: Only presidential candidates who satisfy the simplest, least contested and least doubtful nbC-model above shall be allowed candidacy, occupancy and history within the highest office of the United States of America (and the world). To un-Constitutionally abandon this simplest nbC-model to experiment with dangerous subjective identity-politics mob-rule-vetting-hysteria like "America's first black president (Obama II)!" or "America's first female president (RICO-criminal Hillary, foreign-allegiance-parented Kamala et al)!" or "America's first male-male-married homosexual Commander-in-Chief (Buttigieg)!" is the commission of national suicide, is it not?

We are two Mainers in this together, Matthew; you, as one of 50-plus consented sworn-in Secretaries of State, and I, as a private natural born citizen of natural born citizen-parents on Maine Street USA. What legal basis did U.S. Speaker Pelosi willfully use to approve any presidential candidate with less sole-USA-allegiance birth and parentage circumstances than my

own (and your own)? I will be listening to your behavior upon your fully (?) internalizing this email. Sense> think> do; repeatedly.

Matthew, if the only thing you control, your invisible thinking, is consumed with sole-USA-allegiance motivations herein, **I will hear this in your subsequent behavior if you act in leading all other Secretaries of State to objectively do the following, and not issue any more "decoy documents", like the canned letter of nothingness issued to Mr. Laity herein, apparently intended to evade said multiple election-fraud issue:**

A. Encourage President Trump to Revoke Obama II's Executive Order 13489 so as to unseal all of Barry Soetoro-Obama II's identification documents for some 329,000,000 heretofore intellectual-property-robbed U.S.-citizens and duped voters of 2008 and 2012 and 2016 general elections

<https://cdrkerchner.wordpress.com/2016/03/02/bombshell-maine-governor-paul-lepage-endorsed-trump-because-hes-a-natural-born-citizen-and-eligible/>

All Secretaries of State will necessarily do this if they each agree naturally that **EVERY U.S.-CITIZEN HAS A NATURAL RIGHT TO KNOW (per U.S. Constitution Bill of Rights et al), A PRACTICAL NEED TO KNOW (who to vote for et al) AND A PATRIOTIC DUTY TO KNOW (every front-line soldier must know the Commander-in-Chief who may have inserted them in harms way et al) THE FULL IDENTIFICATION AND FULL LIFE HISTORY OF ANY PRESIDENTIAL CANDIDATE AND ANY INCUMBENT PRESIDENT AND ANY EX-PRESIDENT AT ANY TIME.** Do you agree with this statement and sentiment, Mr. Dunlap?

Going forward, ALL PRESIDENTIAL CANDIDATES should FULLY and VERIFIABLY IDENTIFY THEMSELVES (yield passports, college transcripts, birth certificate, parent's birth certificates, proof of sole US-citizenship, criminal record, Selective Service Form, Social Security Number et al), with all candidate's refusal to fully identify themselves under "privacy of information" rendering them ineligible to run for office due to their intentional "piracy of information" from voting public consumption, TO EACH SECRETARY OF STATE et al.

It is time to get to work and recognize the totally fraudulent results from the Nov 3rd election.
You have no right to take away the meaning of my vote that was legally cast in Florida by allowing this take over.
They must have some major dirt on you that keeps you from acting. You wouldn't even be governor if it wasn't for Trump.
This is disgusting and un-American.
Fix it now.

Dear Governor Kemp,

Quite disappointed that you have continued to take the position you have regarding the election. At this point I see no alternative but to support the effort to recall you. You are doing a massive dis-service to all of Georgia, and everyone in the USA, for not insuring your elections are secure, and legal. Instead, your legacy will be forever the man who over-saw the most fraudulent election in history. Quite a legacy for your family to endure over time.

I would hope common sense would come to you and you'd make a rapid change in position but I do not hold out much hope for that.

What does anyone have to gain from not properly reviewing the allegations and sworn statements and bringing the issues into the light?

If I had done anything, anywhere close to that at any time throughout my career, I would have been summarily removed from my position and fired.

Ladies and Gentleman,

I am NOT stopping the call for a special session; your corruption is on full and complete display (Mr Kemp, Mr Ralston, Mr Dugan). This will only get worse; you've awoken the sleeping giant and this wont JUST go away, the digging will continue and your involvement will be revealed. No matter how hard you try to make it go away, the quest for the truth will continue. In fact its funny how this works; the harder you do try to hide it the more curious EVERYONE becomes. Speaking of which..

I've also read that after an inspection of the ballots in Fulton County was approved, shredder trucks showed up at the facility; your panic is likewise calling attention to the fact that something just doesn't seem right.

Just like the clowns in Maricopa County AZ keep drawing more attention to themselves with their stonewalling on the machines; after all this pressure you would think that IF there was in fact nothing to hide, they would have relented. But the fact that they have gone WAY out of the way to block a forensic audit has only drawn a brighter spotlight on the problem.

However, keep doing what you're doing with respect to the coverup though; it only swells the ranks of the "curious turned outraged" segment of the American electorate.

Governor Kemp,

The Chairman's Report of the Election Law from the Standing Senate Judiciary Committee has been released. This Committee, headed by Senator William Ligon, goes through detailed evidence of widespread fraud that occurred in Georgia during the November 3rd, 2020 election. Based on the evidence detailed in the Report, the committee recommends the leadership of the General Assembly and the Governor immediately convene to allow further consideration of the widespread fraud and discuss the need to certify Trump Electors.

The House Oversight held a hearing questioning the Secretary of State about this very fraud.

The Senate is hearing more evidence today.

Dr Peter Navarro has also released the "Immaculate Deception" which specifically diagrams the evidence of the fraud in Georgia.

You now have the evidence you stated you lacked three weeks ago. If you have not already, read these reports. They are on your desk. Now is the time to call the special session and retroactively certify the Trump electors. Your voters, your senators, your representatives are demanding it. Defend the Constitution and your citizens rather than defending business interests.

Governor Kemp,

I am asking for your consideration in standing up for this great country and doing whatever is within your rights as the Governor of Georgia to ensure your state ran a fair election for President of the U.S. in November.

We are running out of time, we need someone of your stature to stand up for the 75 million+ people, who have good reason to believe this election was not run equitably.

Some Examples of Election Issues in GA in November 2020:

- Confirmation voting machines were in fact connected to WiFi and not only could send data, but could also receive data.
- Tests confirming same ballots scanned through machine, 5 different times provided different results each time they were run through the voting tabulators.
- Video surveillance in Fulton County of poll workers (democratic) counting votes unlawfully without observers, media or state officials.
- Felons voting
- People no longer alive voting
- People who changed address and did not live in the state voting
- People who moved within GA and did not re-register to vote
- Excess votes

Despite the overwhelming voter fraud, you refuse to call a special session to overturn the election results. Instead, you have done everything you could to certify false election results in favor of Joe Biden.

We truly believe this is a defining point in our country and courage is contagious. Please Governor Kemp will you be the courageous hero we need and stand up for what is right and do everything in your power to stop your legislature from moving forward with an incorrect slate of electors based on the election fraud in your state?

Sincerest Regards,
Kelly Grau

Subject: PRESIDENT TRUMP WON - STOP THIS STEAL OF THE ELECTION BY THE OTHER SIDE!

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Governor Kemp, here's the email I sent to the Legislature. Please do all you can to get past the FRAUD in this election and award the true winner - President Trump.

It's January 1st 2121 and I'm writing because we have arrived at a very dark, dark place in our country's history.

People in America right now, are witnessing the abject failure of our institutions:

Law and Order have been entirely dismissed
Due process has been laughed at and removed
Ethics and honesty have been completely bastardized
Good people have been stained with corruption
Fair elections have been destroyed

The main-stream-media and the democrats, would have us believe that President Trump is the source of all of the above evil. But nothing could be further from the Truth. President Trump is the honorable one here! It's President Trump that has lifted our country to the lowest unemployment numbers and greatest prosperity for Americans from ALL walks of life - regardless of race, origin, or religion. It's President Trump that has brought so many GOP members to prominence and success!

And yet, here we stand - Watching as so many "GOP" turn and proverbially stab a knife into the back of President Trump!

WHEN YOU STAB PRESIDENT TRUMP - YOU ARE STABBING ME AND MILLIONS LIKE ME!

President Trump has done more than that past 4 Presidents (at least) in terms of making great things happen in America! President Trump does NOT deserve to be treated the way the GOP is treating him! It's entirely disgusting! And again, as you treat President Trump this way - you are actually treating US this way - President Trump's millions and millions of supporters!

So, upon creation of our Constitution, the framers expected the states to have elections and send up the results, yes.. But, they also put into the Constitution, a mechanism to HELP IN TIMES LIKE THESE. It's a mechanism where CONGRESS can help to RECTIFY situations where there is TERRIBLE FRAUD and when STATES FAIL to be ETHICAL and DO THE RIGHT THING! Congress has the power to reverse the FRAUDULENTLY SEATED ELECTORS!

The best thing that can happen here is for the State Legislatures to CORRECT THE ERROR OF SEATING ELECTORS FOR FRAUDULENT VOTES! But in absence of Leadership at the STATE level, we need LEADERSHIP and REPRESENTATION AT THE CONGRESSIONAL LEVEL! Saying that - oh the states should decide, is a COP OUT.. If it were only the states to decide, then the SAFETY MECHANISM of CONGRESS having a say, would not have been put in the Constitution!

WE NEED THIS FRAUD TO BE REVERSED! THE COUNTRY IS AT STAKE! ELECTIONS WILL NEVER MATTER AGAIN IF THIS IS NOT CORRECTED! THE GOP WILL BE DESTROYED AND REPLACED IF NO HELP IS PROVIDED HERE! YOU WILL BE PRIMARIED BY MILLIONS OF US! AND FINALLY, THE USA AS WE KNOW IT - IT'S VERY DANGEROUS - WILL BE DESTROYED!

These are DIRE times. We need leadership to right a wrong here! Don't cower away! FIX THIS!

I will leave you with this snippet from an article by Ronald Jones - as I cannot say it better myself:

'The message to Republican senators (especially the two who are asking for your vote in a January run-off election, David Perdue and Kelly Loeffler) specifically needs to be: We, your voters, expect you to publicly express, right now, your intent to object to the slates of electors from states where there has been voluminous evidence of fraud, and we will read your silence as your retirement announcement.

Similarly, the message to Republican representatives needs to be: We, your voters, expect you to publicly express, right now, your intent to vote for Donald Trump if and when the states vote for president by state delegation, and we will read your silence, or a "no" vote for President Trump (or an abstention), as your retirement announcement.

There are far too many Republicans in Congress who view their destinies as separate from those of President Trump and other Republicans. They are sadly mistaken. This is not about Never Trumpers, nor is this about the historic lack of party discipline that is generally fatal to Republican success, although both are problems. Rather, this goes to a fundamental misunderstanding of what is actually at stake here, and only unity of effort will ensure that Republicans ever have a shot at winning office — any office — again.'

<https://www.revolver.news/2020/12/republicans-challenge-electors-janury-6th/>

Make this right! STOP THE FRAUD! Stand up NOW - while there's still a chance!

With all due respect:

Stunning turn of events in PA may lead to Trump victory

By [James Arlandson](#)

On Dec. 28, Pennsylvania lawmakers concluded that "[Numbers Don't Add Up, Certification Of Presidential Results Premature and In Error](#)."

President Trump [tweeted about it](#):

Breaking News: In Pennsylvania there were 205,000 more votes than there were voters. This alone flips the state to President Trump.

The key paragraphs from the PA lawmakers' two-page statement:

A comparison of official county election results to the total number of voters who voted on November 3, 2020 as recorded by the Department of State shows that 6,962,607 total ballots were reported as being cast, while DoS/SURE system records indicate that only 6,760,230 total voters actually voted. Among the 6,962,607 total ballots cast, 6,931,060 total votes were counted in the presidential race, including all three candidates on the ballot and write-in candidates.

The difference of 202,377 more votes cast than voters voting, together with the 31,547 over- and under-votes in the presidential race, adds up to an alarming discrepancy of 170,830 votes, which is more than twice the reported statewide difference between the two major candidates for President of the United States. On November 24, 2020, Boockvar certified election results, and Wolf issued a certificate of ascertainment of presidential electors, stating that Vice President Joe Biden received 80,555 more votes than President Donald Trump.

The PA lawmakers have done their job (so far). Now what is the next step? These lawmakers need to recall the slate of electors and tell the House and Senate that the election results cannot be ascertained in their state. They should probably hold a vote that overturns the certification of the awful election. The bottom line is that the slate of electors is not permitted to vote on Jan. 6. This reasonable and fair action may have a domino effect on the other embattled states, whose lawmakers should follow suit. If this happens, Trump will win in the Electoral College. (I had erroneously [stated](#) that if no one reaches 270 votes, then the House decides.) Instead, [the Twelfth Amendment states](#): "[T]he votes shall then be counted[.] ... The person having the greatest number of votes for President, shall be the President[.]"

But will PA's Legislature, where the real power resides, do this? And will the other embattled states do the same? If so, then Trump (rightly) wins: 232 to 222. This is the best, constitutionally speaking, and probably the only real option remaining for Trump.

Therefore, the solution is, once again, that we the people need to put maximum pressure on the heroic and truthful PA legislators to send word to the House and Senate, reminding them that the legislatures decide things, not a governor or a secretary of state. They should even hold a vote, overturning the certification of the election. And we need to put the same pressure on the legislatures of the other embattled states, where fraud obviously happened, to follow Pennsylvania's lead.

On December 30th, 2020, we were shown irrefutable proof of 30 thousand votes having been removed in front of our eyes from President Trump in a total of 3 counties in GA. The source was the electronic feed of official data that was also transmitted to SoS and news outlets. The video below, made from live events on Election night - is the actual "smoking gun" evidence of fraud/trickery and there's not anyone who is up in arms about it besides the 75+ million voters for President Trump. We are seething with anger about NOTHING being done about this stolen election!

THE VOTES THAT ARE SHOWN TO HAVE BEEN SWITCHED FROM PRESIDENT TRUMP'S TOTAL, ARE ENOUGH TO FLIP THE STATE FOR PRESIDENT TRUMP AND THERE'S NO DENYING IT!

To the Senators of Georgia and Brian Kemp Governor,

I as an American citizen, a Republican and a Vietnam Veteran who was put under heavy enemy fire by up to 15 plus North Vietnam Army troops with all automatic weaponry with tracer lines in the air above, to the left, to the right in such huge amount as to light up the ground just by the light of the tracers, have earned the right to tell you to call yourselves into special session. You most likely can do it over zoom or meet in one day anytime. Call yourself into session and just de-certify the electors that your Governor Kemp has certified.

Are you going to just ignore this illegal and fraudulent election and say it was OK for SWEETIES? Have any of you read C.S. Lewis' book THE LION, THE WITCH AND THE WARDROBE? Edward sold out his brother and sisters and the kingdom of Narnia for SWEETIES to the wicked witch.

Are you going to allow the Democratic Party to become the NAZI party of today and turn the country into a one party government? Are you going to allow the Democratic Party to behave against the citizens of the United States like the CCP in China? There is no guarantee that you will ever have your position in the Senate of Georgia in the future. If the Democratic Party gets there way they won't need a Republican Party opposition. And all of this for SWEETIES?

Also all the election changes made by your (inept) Secretary of State with Stacy Abrams are totally illegal. He does not have that authority, the State Legislature does. The election in Georgia was then made totally illegal. Are you going to approve a totally illegal election for SWEETIES?

There is no guarantee that your two Republican Senate candidates will win on January 5th. Why? Because your Secretary of State made a totally illegal agreement with Stacy Abrams which allows her to continue in her use of voter fraud, illegal voters, stuffed ballots, illegal drop boxes financed by a private outside source, Mark Zuckerberg. All this is totally illegal under Georgia State law and any other scheme she can dream up. Also you have seen the video from November 3rd. There were no observers as required by State law, done after all had been told to leave the building, 4 suitcase like containers rolled out from under a curtained table and then scanned on Dominion systems with a total of over 100,000 votes going to Biden, 2,000 to Trump by estimate. The minimum number could have been over 46,000 votes. This is a total illegal action. Of course the seven workers that stayed behind will never be brought to justice for their illegal activity because the Democrats will award them when they get into permanent power as Mark Zuckerberg and his illegal election interference. If the Democrats gain permanent power he most likely will be knighted if they could.

And all of this will be allowed just for SWEETIES.

Take courageous action and do the right thing for your office, your oath, your state, your party and for your country.

This Vietnam Veteran who was actually promoted while in Vietnam. Promotions while in country were totally not done.

They never told me why. I did in the action I described got my fellows with me and myself out of harms way.

All it takes is 50 plus 1. Do it for the country or that country will be turned into a one party dictatorship run by Democrats.

Ask Germany in 1933.

Ladies and Gentleman,
Your responses (thank you to those who have) have indicated an emerging trend; “the election controversy is up to congress now; write them, while we work to correct the injustice before the next election”.

Let me say plainly, if you do nothing to CORRECT THIS FRAUDULENT ELECTION (like calling a special session), you are creating a perception that you are either unable, or unwilling (or both) to do anything about this injustice and therefore will be just as feckless in the future. And as they say PERCEPTION IS REALITY.

Furthermore, your future endeavors to “fix” the problems will be seen for the kabuki theater it is; logic dictates if you got beat this time, and had no spine to fix it when the heat was on, the dems will beat you again.

In fact, many cynical folks actually believe you think we will forget like we have on so many issues, and after a few months of kabuki theater it will be business as usual.
Not this time; I promise you, DO SOMETHING NOW.

Please help stop the fraud, too many dots are connecting to let this fraud continue, every time these actions get denied its chipping away at our great American country as we know it. A total re vote should have happened just to prove to people our vote counts but instead we are denied due process. This is not about trump , this is about a free country trying to survive. My own mother received a ballot already filled out just telling her all she needed to do was sign it. My cousins dead father received ballot, another friend had someone bring to her grandmother in nursing home already filled out. Proof of the machines getting hacked on live tv dec 30. Too much to keep denying.

Stacey Abrams intended to harvest votes with support of outside GA funding from Zuckerberg and is now doing it again for the run off election for senators by her own assertion yesterday. The question is what legally can you now do without Kemp calling a special session? How can you vote for a slate of electors and NOT be in session at which point, if you both file a motion to forensically audit the results, thus nullifying or delaying a vote on certification, can you seize control of the Georgia electoral process and fix it, If not WHAT can you do? I clearly do not know the legal remedies available to you, please advise. 2 out of 3 Republicans believe fraud is afoot. I think this is low.

Are you aware of Software and data integrity concerns with the voting system? Did you sample mail in/ absentee ballots with the named voter on the envelope to ensure they are alive? Still at legal address and that they actually voted?? Can you audit same now? Or has chain of custody been broken by separating envelope from the ballot? Have you reviewed a sample of TroupCounty ballots recently against the ballot ID record to see if the vote has changed today vs original entry date for candidates selected? How can so much evidence of treasonous behavior by the election committees for the 6 main states in question go by unanswered? Our beloved Country has lowered itself to a level I have never seen. There are thousands of sworn affidavits by American citizens saying these seditious acts were carried out! How can you, the Supreme Court just sit there and not do your job? You have a duty to us, the American patriots to do the right, courageous thing and to put a stop to this stolen election. Sedition I believe is against the law. And the main news media covers a broader range of offenses, notably the expression of opinion that casts our Government (Mr. Trump) in a negative light.....The Sedition Act of 1918.

Please ensure that the Legislative Body comes together in GA which it has full authority to do under the US Constitution, to hear the massive evidence of election and voter fraud, decertify the illegal electoral votes presented to the US Government and reassign.

Now, to add to the mountains of evidence, Chinese whistleblowers have confirmed that as many as five million fake ballots were printed in communist China and shipped to the USA to be used in the 2020 election. This is clear evidence of collusion with a foreign government to overthrow the US government and it is treason. We are on the pinnacle of losing our Democracy and there is no time to spare. If this horrific travesty of an election is allowed to stand, then we have lost everything. Communism is one of the greatest enemies of humanity. There can not be Americans who don't know that communists have committed mass murder, forced labor, torture, and imprisonment of dissidents worldwide for 103 years? U.S. politicians who have collaborated with the CPC to overthrow our duly elected president are traitors of the first degree. If there are those who haven't seen any evidence of this, they haven't been looking at all.

The very instant that the Dominion machines were PROVEN to have been interconnected and online during the Georgia hearings this runoff election was invalid and proven to be corrupted. Nothing else matters -- it must be stopped -- it is dishonest! Every vote is now invalid and must be discarded. There can be no further discussion there can be no other action. This cannot stand and any who demands it continue after this are either compromised or openly traitors and enemies of this Republic. For months we were all told that these machines would not and could not be interconnected and online and the danger it posed if they were. That was a lie, it was publicly proven decisively and in dramatic fashion that these machines were both interconnected to each other and online to the web while early voting was taking place. Instantly nothing else matters this election is corrupted it's dishonest and cannot continue.

If any elected official does NOT object to this fraudulent election, then they are effectively endorsing fraud! That must not happen. Will it? Courage is revered and those who stand in it make a mark in history and their names remain. Cowards are also remembered There is no in-between! The time is now!

If the tables were turned and the Democrats had this immense mountain of evidence of voter fraud against a republican; if President Trump, or you, for that matter, had stolen this election, they would be holding NOTHING back – they would be on full attack mode and they would not stop fighting against such as this. Democrats certainly objected during the Electoral College certification in 2004 and 2016 and yet they

and too many members of our own GOP are freaking out about the Americans demanding that Republicans stand up to this fraud?

History will play out and will expose those with the courage to stand at a time like this. I promise you that 74+ Million of us will make famous those men and women who will stand and, sadly those men and women who will not.

Please, do the right thing and do it now!

Praying for you,

Brian,

I'm shocked and appalled that you would throw this country into a constitutional crisis because of your allegiance to petty self-aggrandizing politics. You swore an oath before God and the good people of Georgia that you would uphold the Constitution. It's patently obvious that there was rampant election and voter fraud in this recent election and, will be, going forth in the coming runoff. By not satisfactorily remedying this illegal voting system, for the sake of a transparent process, you are single-handedly suppressing the vote of your own constituency and, in so doing, cutting off your Republican nose to spite your face! Unless it's by design, which based on your actions or, more accurately described, inactions, of late, I wouldn't put past you or your unctuous ilk. You, your family, cohorts and friends prosper off the generosity and bounty that America so richly affords you, only to stab her in the back when she's not looking! What kind of God fearing man/leader would do that to his country, canceling

out it's fallen heroes sacrifice of blood treasure and dashing the hope and trust of its citizens for a constitutional republic laid out before us so eloquently by our founding fathers toiling under the divine guidance of a loving and just God. There is no other way to describe this moral flinching in the face of obligation of duty other than sickening and diabolical. When I ponder this betrayal, Judas and his thirty pieces of silver comes to mind. When it's all said and done and the pursuits of man come to pass, rest assured, that unlike the president's and others cases being erroneously dismissed without a hearing of evidence, your case, won't be so easily and cavalierly thrown out for lack of standing, because God, unlike our mortal feckless judges, has a vested interest in revealing the truth and administering perfect justice. If appealing to your higher self doesn't move you to, "do the right thing", then maybe this threat to your carnal self will: If you don't immediately execute the tasks enumerated below, I will dedicate my time, talents and resources to defeat you and drive you out from an office that you neither revere nor deserve! Then you can go into that night, as Judas did so many years ago, after his betrayal of Jesus, to look and reflect upon the image in the mirror of a disgusting traitor for the rest of your wretched and miserable life! Unless of course, in a display of solidarity of conscienceness with the worlds most

notorious backstabber, you decide to assuage your suffering and enshrine your weakness for all posterity to see by quickly and quietly performing the ultimate act of cowardice.

I demand as a citizen and voter in Georgia that you must:

Hear the evidence

Correct false statements

Demand a vote on decertification

Normally, I would have no real interest in Georgia elections, as I live in Tennessee. But we are in the midst of a national crisis, a Constitutional crisis that affects every single American, born and unborn. There was MASSIVE ELECTION FRAUD that took place in your state. I watched the recent hearings and the evidence is overwhelming. How can you let this happen? What about election integrity? What about the future of our Republic? The Biden electors should have NEVER been certified. Americans know this and we are watching.

The senatorial elections going on right now in your state are also being stolen. They should have been postponed until after the November 3 election was sorted out. Why are you letting this happen?

You have the power to halt the theft of the Electoral Votes of your state. Rise to this moment in history and protect the Republic and Constitution to which you have sworn an oath. Please DECERTIFY the Biden electors. This is sooooo much bigger than Trump or Biden. Please, for the sake of our country, DO THE RIGHT THING! Thank you and Happy New Year.

Subject: Special Session for De-certification of Georgia's 16 Presidential Electoral Votes and Voiding the Unconstitutional consent decree between the Secretary of State and Stacey Abrams

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Honorable Governor Kemp:

We are a Nation founded on the principal of government by the people and for the people. All citizens should be alarmed over the lack of transparency in the recent 2020 election. There are far too many voting irregularities to be just coincidence.

Georgia republican voters demand calling a Special Session of the Georgia Legislators to address PROVEN evidence of widespread voter fraud in the November 3rd Election; we demand de-certification of Georgia's 16 Presidential Electoral Votes, as well as voiding the unconstitutional consent decree between the Secretary of State and Stacey Abrams.

We the people demand a vote recount and a vote audit in all areas of the country where Voter Fraud is suspected.

A vote audit must:

1. Ensure that every single vote matches a living person who is a US Citizen.
2. Check that there are no duplicate or multiple votes by one individual.
3. Certify that all ballots are valid.
4. Confirm that all voting laws were followed and that all voting processes were ethical and legal.

As citizens of Georgia and the United States, we demand election integrity. We are entitled to an accurate vote count and to have our voices heard. In order to ensure a free and fair election it is the demand of the American people to create a fair audit team to review state by state the validity of each mail in vote with bipartisan federal oversight. This request required a deadline no later than January 1st 2021.

The election 2020 is a corrupted and rigged election. Some of the states did not allow to watch the place where ballots are counted. In many states, millions of illegal mail-in ballots were found. Many of the ballots were delivered after the deadline. Many cases of rigged election and fraud are reported and witnessed. We cannot stand this illegal behavior. They are stealing the election. It is very serious crime and treason.

Please investigate thoroughly, and prosecute those people who plotted, and others including governors who helped the fraud. They should be punished in prison.

The integrity of the presidential election is in doubt. We the People, implore you to demand statehouses conduct

statewide audits before they certify the election.

We have seen ballots delivered in the middle of the night and no one can trace where they are even from.

Poll watchers blocked from watching the vote count, a violation of election law.

Equal protection rights issues now exist in states due to the disparate treatment of voters from different counties.

What is this about? The integrity not just of this election, but every election going forward. This is a watershed moment, where the people expect and demand a free and fair election. Our democracy depends on it.

We fully support Donald Trump continue to be the President since there are too many evidences showing that the Democratic Party did fraud in the Presidential election.

President Trump's twitter was banned from twitting for numerous times, yet no accusations against Donald Trump was banned. It is already a very suspicious suppression from organizations behind the scene. Such suppression is a infringement on freedom of speech and the basic spirit of the establishment of the US.

These frauds can be investigated ONLY if Donald Trump remains in the his office, so please show your support to him. Your inaction would be essentially the same as accessory to voter fraud.

IT IS NOT ONLY AN ELECTION BETWEEN AMERICAN PARTIES, BUT A WAR BETWEEN JUSTICE AND EVIL. So may God help us.

Please support the interest of your constituents so that future legal elections are possible to re-elect conservative Republicans, such as yourselves. Thank you for standing up and saving our country.

Respectfully,

Dave Edwards

Dear Senator's,

You took an oath to uphold the Constitution and protect our Republic now it is time you lead. Now do your job and protect election integrity 75 million people will not accept being disenfranchised. It should not be this difficult to remedy an invalid election and voter fraud. I request you exercise your Constitutional and statutory authority to object to the certification of any elector from any state that refuses to allow a meaningful audit of the November general election for electors to the Presidency, which must include:

- 1) a re-canvass of the vote that authorizes independent confirmation of a signature match using the same standards the same election officials use for nomination petitions, recall petitions, and initiative petitions;
- 2) publishing of the ballots for the world to review and observe, as states promised when they wrote large taxpayer checks to election machine companies like Dominion and others; and
- 3) audited review of the voter rolls to insure only qualified voters cast ballots for electors to the Presidency. If a state refuses to allow an honest audit of the vote, then I request you object to the certification of any electors from that state which has refused such an audit. At present, this includes the electors from Wisconsin, Michigan, Pennsylvania, Georgia, Arizona and Nevada.
Hold session or meet and decertify fraud electors today!! We are watching we will recall or call for impeachments.

Welcome to the Weekend Briefing. We're covering the Georgia Senate races, a new vaccine protocol in Britain and a look ahead at winter TV.

Audra Melton for The New York Times

1. 2020 may be over, but election season is not.

Control of the Senate — and with it, the fate of President-elect Joe Biden's agenda — will be determined on Tuesday as voters in Georgia head to the polls in twin Senate runoff elections. Both [the Rev. Raphael Warnock](#) and Jon Ossoff need to defeat the Republican incumbents [Kelly Loeffler](#) and [David Perdue](#) for Democratic control of the chamber. Above, early voting in Marietta, Ga.

While polls suggest that the state's crucial Senate seats are up for grabs, Republicans have [grown worried about strong turnout](#) in Democratic areas and [mixed messages from President Trump](#), who baselessly called the Senate races "illegal and invalid."

Congress meets on Wednesday to certify Mr. Biden's victory. Twelve Republicans, including Senators Ted Cruz, Josh Hawley and Marsha Blackburn, [plan to back a futile attempt](#) to overturn Mr. Biden's win by voting "no," defying the results of a fair and free election. Vice President Mike Pence, who also serves as the presiding officer of the Senate, signaled his support.

The last-ditch effort comes after another failed litigation attempt. A judge dismissed a lawsuit that aimed to pressure Mr. Pence [to overturn the election results](#).

Erin Schaff/The New York Times

2. The 116th Congress will end today much as it began: filled with anticipation yet bitterly divided.

Even with a few legislative accomplishments, partisan gridlock forced lawmakers to punt on their hopes that this Congress could be the one to do difficult things. [Here are some of the moments that defined the 116th Congress](#). The 117th Congress will be sworn in today.

There was at least one element of change on Capitol Hill: The politics of debt are shifting, driven by populism and the pandemic. As public support for more generous relief has increased, some Republicans who once scolded about fiscal austerity [are now embracing government spending](#).

Separately, the homes of Mitch McConnell, the Senate majority leader, and Nancy Pelosi, the House majority leader, [were vandalized over the weekend](#).

Alexey Nikolsky/Sputnik, via Agence France-Presse — Getty Images

3. As U.S. officials learn more about the recent hacking by Russian agents, alarm is growing over just how spectacularly America's defenses failed.

While officials are still trying to understand whether what the Russians pulled off was simply an espionage operation or something more sinister, it's clear the breach of upward of 250 federal agencies and businesses [was far broader than first believed](#).

Intentions behind the attack remain unknown. Some analysts say the Russians may be trying to demonstrate their cyberarsenal to gain leverage against President-elect Joe Biden before nuclear arms talks. Above, President Vladimir Putin of Russia last month.

Joshua Bright for The New York Times

4. Researchers are scrambling to learn why some coronavirus patients lose their sense of smell and taste. Some experts fear huge numbers of people may lose them permanently.

Once a rare diagnosis, a loss of smell and taste is often the first — and sometimes only — symptom of the coronavirus. Most patients regain their senses, usually within weeks. But for a minority of people like Michele Miller, above, the loss persists, [putting them at risk for nutritional deficits and unintended weight loss](#).

And in California, Los Angeles County, already in the throes of a devastating surge in coronavirus cases after Thanksgiving travel and gatherings, [is being hit with a spike from Christmas festivities](#).

Erika P. Rodriguez for The New York Times

5. Desperate to control a new variant of the coronavirus, Britain quietly changed vaccination procedures to allow for a mix-and-match regimen.

If a second dose of the vaccine a patient originally received isn't available, or if the manufacturer of the first shot isn't known, [another coronavirus vaccine may be substituted](#), health officials said. The new guidance contradicts guidelines in the U.S., where regulators noted that the authorized coronavirus vaccines "are not interchangeable."

Meanwhile, the U.S. is falling behind in its vaccination campaign because federal officials left much of the planning to [overstretched local health officials and hospitals](#), like the one in Puerto Rico, above. "We've taken the people with the least amount of resources and capacity," one expert said, "and asked them to do the hardest part of the vaccination."

Subscribers help make Times journalism possible. To support our efforts, [please consider subscribing today](#).

6. Assassins in Afghanistan are killing civil servants, media figures, rights workers and security force members. But no one has taken responsibility.

The Afghan government would not provide the exact number of assassinations recorded in the country last year, but The Times has documented the deaths of at least 136 civilians and 168 security force members in such killings, [worse than any other year of the war](#) in the past two decades. Above, the coffin of the journalist Malalai Maiwand in Jalalabad, Afghanistan, last month.

Most officials believe that the Taliban are behind the attacks, but others fear that factions are using chaos as a cover to settle scores, in an echo of Afghanistan's past civil war. The killings are a worrying sign of how much remains uncertain as the U.S. prepares to withdraw troops from the country.

Sima Diab for The New York Times

7. Ancient pharaohs rowed the Nile. Now Egyptians have rediscovered the practice, finding a new perspective on the river that shaped their country.

The Nile birthed Egyptian civilization thousands of years ago, and still sustains it. But few Cairenes [have ever seen the body of water itself](#) because restaurants, private clubs and cruises have hidden much of the Nile from all but those who can pay.

During a year with limited travel possibilities, our World Through a Lens series offered Times readers a weekly escape. [Here are some of the highlights.](#)

8. Kai Jones skis way out of bounds.

The 14-year-old can be found vaulting off the sheer face of a boulder as he executes double back-flips and other tricks ready-made to go viral. He is already a pro and [emblematic of freeskiing's growth](#). (Yes, his mom gets a little nervous.)

In more traditional arenas, our college sports reporter looked at how a season of chaos will [end with a powerhouse matchup](#). Alabama and [Ohio State](#) took different paths to the Jan. 11 national championship game, with twists that showed how much college football wanted its biggest stage to feel familiar.

Lauren Fleishman for The New York Times

9. Just when you thought you'd run out of streaming options, here comes 2021.

For Vanessa Kirby's first lead in a film, the actress wanted [a character as challenging as many of those she's played onstage](#). She found it in "Pieces of a Woman" as Martha, a pregnant woman whose home birth goes horribly wrong.

Ms. Kirby wanted to portray the labor as authentically as possible. "That was terrifying, because I didn't want to let women down," she said. The film debuts Jan. 7 on Netflix.

TV rolls ahead on a mostly steady course this winter, our critic writes. He's made a list of [21 new and returning shows for your consideration](#).

Ryan Christopher Jones for The New York Times

10. And finally, catch up on some great journalism.

Look at the evidence and it is easy to see that the November election was stolen.

Here is some of the evidence.

Lynda McLaughlin from the Data Integrity Group, along with data scientists Justin Mealey and Dave Lobue, presented the results before the Georgia Senate Judiciary Subcommittee on Elections.

Georgia election data indicates 24,658 votes were removed from President Donald Trump and another 12,173 votes were switched to Democratic presidential candidate Joe Biden, data scientists testified on Wednesday during a state Senate hearing.

At least 24,658 votes were allegedly removed from Trump as result, including 17,650 votes in Dougherty County and 7,008 votes in Dodge County.

So my question to you is why have you not done anything about the election fraud?

60 Years: Anniversary of Desegregation

In January 1961, Hamilton Holmes and Charlayne Hunter became the first Black students to enroll at the University of Georgia. Their courageous act was a landmark event in University history and in the broader struggle for civil rights.

As part of a larger University-wide acknowledgement of this historic event, the UGA Libraries have a number of exhibits and virtual events planned and are making digital collections available to the public.

Exhibits

On Friday, January 8th at the [Main Library](#), a [new exhibit will open](#) honoring the 60th anniversary of desegregation at UGA. This exhibit displays original items held by the UGA Special Collections Libraries and items loaned by the Holmes family. Graphic panels will highlight moments in Black history at UGA over the decades - marking additional milestones and the evolving campus community.

Additionally, [Making Space: Fighting for Inclusion. Building Community at UGA](#), will open in the [Hargrett Library Gallery](#) on Friday January 15, 2021, in the Special Collections Libraries Building. A digital version of this exhibit will launch in March 2021.

Digital Collections

The [Hargrett Rare Book and Manuscript Library](#) partnered with the [Digital Library of Georgia](#) to make available the collections of Omer Clyde "O.C." Aderhold, president of UGA from 1950-1967, and that of William Tate, who served as Dean of Men at UGA from 1946-1971.

The digitized collections are available here:

Oral Histories

In 2019, to help fill a gap in this historical record, the Hargrett Rare Book and Manuscript Library created the Black Alumni Oral History Project. Started with funding from a Giving Voice to the Voiceless grant, established by Charlayne Hunter-Gault and her husband, Ron Gault, the project seeks to collect stories from Black alumni, documenting their experiences at UGA and expanding an understanding of the Black experience on campus over the decades.

Governor Kemp,

It has been clear for quite some time that there has been massive fraud in the 2020 presidential election. It is now even more clear with Senator Ligon's Report (included below) that there are serious issues that need to be addressed.

We the People demand that you call a general session and address this immediately.

Why are you avoiding this? We have ZERO confidence in this election and therefore ZERO confidence in the Senator runoff race to be free and fair. Stand up for what is right. Allow only legal votes to count.

Support Donald J. Trump! It is clear that he won GA, multiple swing states and thus the Presidency!

Sincerely,

Good Morning Mr. Brian Kemp

Hello my name is Linda Wagner
I'm new at emailing government/ governors.

My heart is very heavy with lots of concerns this day about the latest voting fraud here in Georgia and sorry to say very disappointed in You.

Mr.Kemp I am at a loss for words on how You can sit back and not do anything about voting fraud here in Georgia!
WHY?? WHY wont YOU call for a Special Session to investigate this!!?

We have proof!!

WHY won't YOU make an appeal to protect OUR CONSTITUTIONAL RIGHTS! (sorry I'm not really yelling - oh wait yes I am)

As a voter here in Georgia and a citizen...YOU were elected to represent and protect .

I voted for YOU! I believed in You and what You stood for.

But then something happened. YOU changed. YOU turned YOUR back on us! The people of Georgia! YOUR heart changed.

And YOU! Turned YOUR back on the man that endorsed YOU.

That man is President Donald Trump!

Mr. Brian Kemp!! "Governor "

Do the right thing! YOU owe us!

The voters! Please! Make an appeal

Call for an investigation!

I don't want our country to become like the rest of the world.

I Don't want my FREEDOM taken away!

What do YOU have to lose!

Question?- Are YOU a believer in Jesus Christ?

If so.. Would Jesus approve of YOUR actions.

I don't think He would.

Ps- Thank you for taking the time to hear / read my email and hear my heart.

Your a good man- show it !

And please prove it by calling a Special session and protect our constitutional rights.

And if not I pray the LORD Jesus has mercy on us all.

Thank you for your time.

The SOS audit of the Dominion system is in question as to validity by your own committee member questions. The SOS is not who is empowered and accountable to the voters to select electoral college members. You are.. what are you going to do? Did Muscogee county use valid process for signature match? Have they certified their vote? I still have no reply from you and now I see why on television. The election is NOT certifiable. Do so and your support of this constituent will be in doubt. Now is your opportunity to use your law enforcement experience to investigate the vote, especially absentee ballots. Clearly SOS is sending you an SOS. No one is standing for the people. This is my conclusion based on what I saw this morning. What is yours???

In case you are not familiar with GA law for recall of elected officials, here is the code. Stacey Abrams intended to harvest votes with

support of outside GA funding from Zuckerberg and is now doing it again for the run off election for senators by her own assertion yesterday. The question is what legally can you now do without Kemp calling a special session? How can you vote for a slate of electors and NOT be in session at which point, if you both file a motion to forensically audit the results, thus nullifying or delaying a vote on certification, can you seize control of the Georgia electoral process and fix it, If not WHAT can you do? I clearly do not know the legal remedies available to you, please advise. 2 out of 3 Republicans believe fraud is afoot. I think this is low.

Second request!! What is in place to ensure accuracy of my vote in run off election in Troup County? How do I confirm my vote was counted accurately on Nov 3 election? Are you aware of Software and data integrity concerns with the voting system? Did you sample mail in/ absentee ballots with the named voter on the envelope to ensure they are alive? Still at legal address and that they actually voted?? Can you audit same now? Or has chain of custody been broken by separating envelope from the ballot? Have you reviewed a sample of TroupCounty ballots recently against the ballot ID record to see if the vote has changed today vs original entry date for candidates selected? How was Recount conducted to ensure all votes are LEGAL votes?

Ladies and Gentleman,

Look what I found (no not your spines.. sadly those are still missing) and I'm not even in elected office.
3 USC, Section 2;

"Whenever any State has held an election for the purpose of choosing electors, and has failed to make a choice on the day prescribed by law, the electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct." -<https://www.law.cornell.edu/uscode/text/3/2>

Consider the fact that nearly all the swing states had in one shape or form broke or disregarded their own election laws and codes; this in turn led to each swing state sending TWO sets of electors to DC. One can rationally conclude that based on these circumstances, all have "failed to make a choice on the day prescribed by law". If I am wrong why were TWO sets of electors sent to DC?

Moreover, not only does the supreme law of the land (US Constitution Article II, Section 1, Clause 2) say it is incumbent upon you it's also in US code.

Again you don't need the governors permission, nor the secretary of state's permission, nor Stacey Abrams permission (not just a Georgia thing.. I think she has proclaimed herself Supreme Leader), nor Hillary Clinton's lawyers permission, nor the Chinese Communist Party's permission (special inclusion for Kemp and Ralston), nor your mommies permission.

Get it done, do your jobs and stop hiding behind every made-up convenient excuse.

There is enough evidence to show something tainted your election. Maybe Biden won, maybe Trump won. It is a fact that courts are throwing out cases based on standings, not merits, because they know you are the closest office to your constituents and it is your responsibility to uphold the law for your people. If you have legitimate explanations for all of the anomalies in this election and can prove that it was fair then please give it to the media so this can stop. Otherwise...

Decertify you electors.

I'm not asking you to certify Trump, just decertify Biden because you can't prove who actually garnered the most legal votes.

I'm an independent voter, suburban mother of 3 who is highly concerned about the legitimacy of this election and our future elections.

Trump demands Georgia elections official overturn his defeat in hourlong call

President Donald Trump badgered and berated Secretary of State Brad Raffensperger in a call Saturday, repeating falsehoods about his election defeat in Georgia — the latest example of the extraordinary pressure he's exerted on state Republican officials ahead of critical runoffs for control of the U.S. Senate.

Hello Governor Kemp. My name is Paula Terrell and I am an American citizen with a deep heart for the constitution and freedom.

I remember Donald Trump cheering you on to be the Governor of Georgia and how excited I was when you won. Any one who cares about this country can NOT ignore the terrible mess that happened between midnight on Nov 3, and 6:00 a.m. the next morning during our presidential election.

I have been spending endless hours researching and reading affidavits and watching people just like me coming forward and testifying of what they saw. It is NOT possible that so many citizens are ALL lying and swearing that what they saw was illegal and fraudulent.

You swore an oath to your state and OUR country and I know you must have a conscience enough to put all self interest aside and DEMAND that your election must be audited. Be brave...be a hero... prove to everyone in America that you want the truth....not by saying it...but by proving it!

It will be the most important thing you will ever do in your life if you love AMERICA!

You owe Donald J Trump AND you owe HONESTY AND TRANSPARENCY to the citizens of Georgia who trusted YOU when they voted for you....try to imagine if your candidacy was stolen from you in the middle of the night when you were hundreds of thousands of votes ahead....would you accept it KNOWING the other candidate broke laws and cheated...in the middle of the night...and for days afterwards???!!...no you would NOT.

Please demand that ONLY legal votes will be counted and make it happen so that ALL Georgians and Americans know the truth...Donald Trump won the 11/3/2020 election in your state!

Mr. Raffensperger:

Wow! What a sleazy thing to do to record a phone call with our President and release it to the Washington Post! I read that you have changed your party to Democrat and it's a good thing because Republicans will never vote for you again. All of our elected officials in GA have turned out to be corrupt!

How long can you deny the mounting evidence that election fraud occurred in this past election? What part of History will you be on? This is a real historical event that will be recorded and included in American History books. Where will your names appear in this history and on what side will your actions/inaction show you? You need to think about this - do you think mankind is greater than our Creator? He is in Control.

Below is an excerpt from a January 3, 2021 Epoch Times news-feed:

"A six-person team that included Rudy Giuliani and Peter Navarro on Saturday briefed hundreds of state lawmakers on evidence of election irregularities.

The Zoom meeting included hundreds of legislators across Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin, Navarro, the White House director of trade and manufacturing policy, said during an appearance on Fox News.

"These legislators, they're hot, they're angry, they want action," Navarro said. "We gave them the receipts. We explained exactly how the Democrat Party, as a matter of strategy, stole this election from Donald J. Trump."

According to Got Freedom?, a nonprofit election integrity watchdog, the meeting included an address by President Donald Trump. Nearly 300 legislators heard from the president, Navarro, and Trump's lawyer, Giuliani.

John Eastman and John Lott were also part of the briefing. Eastman represented Texas in the now-dismissed interstate challenge to the outcome of the election. Lott, a senior adviser for research and statistics for the Department of Justice, authored a recently released [report](#) on election theft.

Legislators were briefed on evidence of alleged voter, ballot, and [election fraud](#), which can be viewed on [a webpage](#) hosted by Got Freedom?

"This information should serve as an important resource for state legislators as they make calls for state legislatures to meet to investigate the election and consider decertifying their state election results," Phill Kline, who heads the Thomas More Foundation's Amistad Project and who hosted the call on behalf of the group, said in a statement.

"The integrity of our elections is far too important to treat cavalierly, and elected officials deserve to have all relevant information at their disposal as they consider whether to accept the reported results

of the 2020 elections, especially in states where the process was influenced by private interests,” he added.'

Bert & Blake,

Please see the attached letter from Johnson Controls (JCI) CEO George Oliver to the Governor.

George would greatly appreciate an opportunity for a brief phone call in January with the Governor to discuss 1) essential workers and the Covid vaccine, 2) JCI's ability to retrofit freezers for vaccine storage if/as needed (with university freezers for example). Their industrial refrigeration also continues to service sectors (such as pharmaceutical facilities, hospitals & manufacturing sites, etc.) that are recognized by DHS as Critical Infrastructure Sectors.

We appreciate the consideration for the call.

Merry Christmas, Happy Holidays & Happy New Year.

Bert,

Thanks again for the time last week. Hope you're having a good week thus far.

Attached I wanted to provide some more information on the fiberglass rebar to which I was referring.

We would greatly appreciate the opportunity (in the new year), to further connect with you on this solution and how it provides long-term value to coastal and transportation infrastructure projects.

Additionally, we would appreciate the opportunity to connect with appointed members/leadership at the Port Authority and GA DOT.

Appreciate your consideration.
