Good Evening Ryan,

We began submitting our poll watcher letters to the counties today and have received push back from Fulton and Dekalb County, because our letter does not specify one precinct the poll watcher will be at, but lists "All Locations." Attached is the election day letter we submitted.

For Advance Voting we submitted a similar letter and all counties, except Cobb (which eventually accepted it) accepted the letter. Attached is the advance voting letter.

Please give me a call at your earliest convenience.

Hi Jordan,

I hope you've had a pleasant holiday. We wanted to bring something to your attention and ensure that your office was aware of some concerns from voters at Early Vote locations.

Voters have reached out regarding food trucks at various locations across the state. Some have expressed concerns regarding possible attempts to influence the vote.

Attached are two photos of the trucks in Gwinnett and Bulloch counties. I don't have much more information on the activities happening there. However, some recent reports from voters in Fulton at Ponce De Leon and Northside Libraries suggest volunteers at these trucks are passing out literature for leftist organizations which may lead voters in a particular way.

Thanks for looking into this and we appreciate your efforts to secure the vote in Georgia.

Respectfully request you fire Dominion Voting System.

Respectfully request you override the consent decree signed with the Democrats earlier this year and require strict signature verification.

Respectfully request the preservation of the signed envelopes in which ballots are returned and staple them to the actual ballots so we know who invalid ballots voted for.

Respectfully request you require the names of all who voted be given to each party within four days of election and that they have seven

days to challenge ineligible voters.

If this can not be accomplished before January 5th, postpone the election until it can be done and leave in office the two Republican Senators in the interim.

I am extremely disappointed in the out right theft of the election in Georgia. I hate to say that Georgia appears to be incapable of a free and fair election. Enough already. In the last month I have received no less than 50 pieces of mail from your organizations for the upcoming special election. That is overkill.

Please remove my name and my husband, Robert Alvey, and our address from your mailing lists.

Between the designing, the printing, and mailing costs, the money you spent on these mailings would be put to better use by given to organizations to help the citizens of Georgia. A much better use of funds. Instead, I see the trash cans at the apartment complex full of these mailings.

Again, please delete our names and address immediately for current and future mailings. I do not want to receive, what I now consider to be junk mail, from your organizations.

Vincent and Alyssa wanted to make you aware of the below report from one of our investigators. The part that concerns me is that poll watcher Barbara Hartman admitted to printing an extra copy of Hartman's Official Poll Watcher Letter and using it gain access for someone who was not an official poll watcher.

Relevant part of the of investigator's initial report is below:

I interviewed poll manager Malva Henderson and complainants/poll watchers Barbara Hartman and Gayle Troyer. The poll manager stated all three republican poll watchers were in the precinct for the entire afternoon (3pm to 6pm) and she asked them to leave several times, but they refused to do so. The poll manager explained her process for accepting and spoiling surrendered AB's, which is in accordance with Board Rule 183-1-14-.06 Spoiled Absentee Ballots. I obtained a written statement from her.

Hartman and Troyer denied being in the precinct with the other republican poll watcher at the same time. They stated they took turns poll watching while the third would wait in the lobby of the library where voters were in line. Henderson confirmed the library was closed to the public and the entire building was considered the voting precinct.

Troyer was not on the precinct list of official poll watchers. She and Hartman admitted to printing an extra copy of Hartman's Official Poll Watcher Letter and using it to gain access to the precinct. She also created her own poll watcher name tag. Troyer stated she took an online poll watcher class and believed she was an official poll watcher. I recorded both telephone interviews and I plan to obtain written statements from them.

Good morning -

Attached is the Fulton Republican Party list of poll watchers for the runoff election on January 5, 2021. There are 375 line but remember the 1st line is the header line. I also attached the letters/emails we sent out. I will be sending our volunteers the Poll Watcher Guidelines that were suppose to be attached to the emails sent out.

I want you to know that everyone has been shifted out so no more than 2 people are poll watching at a time.

Our shifts if they didn't want to commit to the entire day are:

Shift 1: 5:30am-1pm

Shift 2: 1pm - Close

If you have any questions, please do not hesitate to call or email me.

Thank you for working with the GAGOP & the Fulton GOP in getting this list to you.

Regards,

Betsy Kramer

PS. I will put the extra name badge holders left over from EV in my RW-17 supply box. Hopefully the warehouse will get them to you.

Nadine,

Thanks for reaching out. Given the scrutiny around Tuesday's election, we think you should accept the list. Arguably, because the deadline falls on a weekend, it goes until Monday anyway under 21-2-14. If there are no Republican poll watchers allowed on Tuesday (even if it's their own fault), the uproar will not be helpful to either of us after the election.

Thanks,
Ryan

I also attached the letters/emails we sent out. I will be sending our volunteers the Poll Watcher Guidelines that were suppose to be attached to the emails sent out.

I want you to know that everyone has been shifted out so no more than 2 people are poll watching at a time.

Our shifts if they didn't want to commit to the entire day are:

Shift 1: 5:30am-1pm
Shift 2: 1pm - Close

If you have any questions, please do not hesitate to call or email me.

Thank you for working with the GAGOP & the Fulton GOP in getting this list to you.

Regards,

Betsy Kramer

PS. I will put the extra name badge holders left over from EV in my RW-17 supply box. Hopefully the warehouse will get them to you.

Has the SOS completed the signature matching Audit in Cobb and statewide? I don't believe I've seen anything published about so I am assuming no. If not, do you know when it will be conducted?

 Subject: Pollwatcher Gayle Troyer

Vincent and Alyssa wanted to make you aware of the below report from one of our investigators. The part that concerns me is that poll watcher Barbara Hartman admitted to printing an extra copy of Hartman's Official Poll Watcher Letter and using it gain access for someone who was not an official poll watcher.

Relevant part of the of investigator's initial report is below:

I interviewed poll manager Malva Henderson and complainants/poll watchers Barbara Hartman and Gayle Troyer. The poll manager stated all three republican poll watchers were in the precinct for the entire afternoon (3pm to 6pm) and she asked them to leave several times, but they refused to do so. The poll manager explained her process for accepting and spoiling surrendered AB's, which is in accordance with Board Rule 183-1-14-.06 Spoiled Absentee Ballots. I obtained a written statement from her.

Hartman and Troyer denied being in the precinct with the other republican poll watcher at the same time. They stated they took turns poll watching while the third would wait in the lobby of the library where voters were in line. Henderson confirmed the library was closed to the public and the entire building was considered the voting precinct.

Troyer was not on the precinct list of official poll watchers. She and Hartman admitted to printing an extra copy of Hartman's Official Poll Watcher Letter and using it to gain access to the precinct. She also created her own poll watcher name tag. Troyer stated she took an online poll watcher class and believed she was an official poll watcher. I recorded both telephone interviews and I plan to obtain written statements from them.

Good Evening Ryan,

We began submitting our poll watcher letters to the counties today and have received push back from Fulton and Dekalb County, because our letter does not specify one precinct the poll watcher will be at, but lists "All Locations." Attached is the election day letter we submitted.

For Advance Voting we submitted a similar letter and all counties, except Cobb (which eventually accepted it) accepted the letter. Attached is the advance voting letter.

Please give me a call at your earliest convenience.

Good Afternoon,

Our office received the attached request and has identified records responsive to this request. Prior to producing these records, our office will need additional time to review the identified records and determine what information contained in such records is required to remain confidential by law or is otherwise exempt from disclosure.

Redactions will be made only to the extent authorized by law. Pursuant to state law, such confidential or exempt information found in the responsive records will be redacted, including, but not limited to, the following: individuals' day and month of birth; unlisted telephone number; personal email address; personal cellular telephone number; social security number; driver's license number; financial information; health information; information that (if disclosed) would compromise election security; records of election cases pending investigation; communications subject to attorney-client privilege; and attorney-work product. See O.C.G.A. § 50-18-72(a)(1)-(4), (20) (A), (21), (25)(A), (34), (41), (42), and (44); O.C.G.A. § 21-2-225; and O.C.G.A. § 21-2-379.24.

In accordance with O.C.G.A. § 50-18-71(c)(1), the estimated cost for retrieving, reviewing, and redacting the identified records is \$43.35. Because the cost estimate is more than \$25.00, agreement to pay the estimated charges is required prior to conducting the search. The estimated cost and time does not include the first fifteen minutes, which are without charge and were used to conduct an initial search of our records.

In light of earlier open records requests received and the ongoing processing of such requests, the responsive, redacted records are estimated to be ready for production in 90 business days from our office's receipt of your acceptance of charges. Charges must be accepted within 7 business days or the request will be deemed abandoned and pre-payment must be received within 30 days or the request will be deemed abandoned.

Sincerely,

Re: *Georgia Open Records Request*

Dear Open Records Request Coordinator:

This law firm represents Donald J. Trump for President, Inc. and Donald J. Trump, individually in his capacity as the Republican Party nominee for President of the United States, and David J. Shafer in litigation related to the 2020 Presidential Election.

Pursuant to the Georgia Open Records Act § 50-18-70 et seq., this letter is a request for production and inspection of all communications, whether digital, electronic, or hard copy, between the Secretary of State Investigators and Lamar County Georgia Republican Party Chair Ashley Giles and the Lamar County Board of Elections officials from January 1, 2020 through the present.

These communications are expected to be provided in electronic format and as such no printing costs are expected. If there are any costs associated with this open records request, I respectfully ask that an invoice be sent along with the timely production of documents so as not to delay the production unnecessarily. These documents are in the public interest and relying on the statements of the Secretary of State are expected be produced without cost as it is an open records request related to information that is in the public interest and will significantly contribute to the public's understanding of the ballot security actions taken by the State of Georgia. This information is not being sought for commercial purposes.

Pursuant to O.C.G.A § 50-18-71 (b)(1)(A), if you are not able to provide copies of responsive records within three (3) days from the date of this request as required by law, you must provide us with a written description of such records, together with a timetable for their inspection and copying. You are further placed on official notice to preserve all such communications and place a litigation hold on all such documentation and information. If you violate this anti-spoliation notice, a court may award sanctions against you for spoliation of evidence.

Georgia Republican Party State Executive Committee
Resolution Regarding:
Georgia Secretary State's intent to Execute a Signature Audit

Whereas Secretary of State Brad Raffensperger has repeatedly refused calls from the Governor, the State Executive Committee of the Georgia Republican Party, and others, to conduct an absentee ballot signature verification audit, claiming he had no authority to order an audit;

Whereas the Secretary of State now has ordered an audit of Cobb County with forensically inexperienced students from the University of Georgia; and

Whereas Georgia Republicans stand solidly with President Trump in his effort to expose electoral wrongdoing and restore confidence in the integrity of our elections; now, therefore, be it

Resolved, that in view of the infamy surrounding tabulation of the Fulton County votes, the State Executive Committee of the Georgia Republican Party DEMANDS that the signature verification audit begin with Fulton County;

Further Resolved, that in view of the State Executive Committee DEMANDS that qualified handwriting experts from both the Republican Party and other political parties be permitted to participate in the audit.

Further Resolved, that the State Executive Committee declares that any audit which does not begin with Fulton County or include handwriting experts is a complete and utter farce that will make a mockery of signature verification and continue to erode public confidence in the electoral process.

Further Resolved, that the State Executive Committee expresses its profound disappointment in the Secretary of State and his staff for the epic failure that has necessitated this resolution.

Further, and Finally Resolved, that Rebecca Yardley is hereby appointed as a committee of one to deliver this resolution to the Secretary of State of Georgia Brad Raffensperger and obtain an immediate response.

Adopted without objection this 21 day of December, 2020 and

Signed this 21st day of December, 2020, on behalf
of the Georgia Republican Party Executive Committee by

Brian Gundy, GA GOP Assistant Secretary

RE: ILLEGAL BALLOT HARVESTING

Dear Gwinnett County Board of Registrations and Elections:

I am the Chairman of the Georgia Republican Party, Inc. (the "GAGOP"). An unknown individual was spotted putting five ballots into a ballot drop box located at Grayson Branch Library, 700 Grayson Parkway, Grayson, GA in Gwinnett County at 11:15AM on December 29, 2020. Before submitting the ballots, the individual appeared to take a photograph of himself posing with the five ballots in hand. Two photographs documenting the individual taking the "selfie" of himself are enclosed.

Pursuant to Georgia statute, submitting ballots on someone else's behalf, other than immediate family members or household members, is illegal in the state of Georgia. *See* O.C.G.A. § 21-2-385(a) (An absentee ballot may be returned by an "elector's mother, father, grandparent, aunt, uncle, brother, sister, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, sister-in-law, or an individual residing in the household of such elector"). The submission of five ballots at a drop box by an individual taking a selfie of himself conducting such an act presents significant concern that the individual may have been actively participating in illegal ballot harvesting.

The GAGOP requests that the ballots currently in this drop box (or any ballots removed from this drop box around 11:15AM on December 29, 2020) be sequestered until a thorough investigation is conducted into whether this individual's actions violated Georgia law. The sequestered ballots should be reviewed to determine if there are any instances of five ballots from the same household or immediate family members. If there are not five ballots from the same household or immediate family members, we request that all ballots in this drop box be sent through the cure process.

Please feel free to contact me at (505) 999-8241 or stewart@gagop.com if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Stewart Bragg".

Stewart Bragg
Executive Director of GAGOP

At least three days prior to the beginning of the advance voting period for such election, a copy of the letter shall be delivered to the superintendent and chief registrar of each county in which the poll watcher might serve.

(c) In counties or municipalities using direct recording electronic (DRE) voting systems or optical scanning voting systems, each political party may appoint two poll watchers in each primary or election, each political body may appoint two poll watchers in each election, each nonpartisan candidate may appoint one poll watcher in each nonpartisan election, and each independent candidate may appoint one poll watcher in each election to serve in the locations designated by the superintendent within the tabulating center. Such designated locations shall include the check-in area, the computer room, the duplication area, and such other areas as the superintendent may deem necessary to the assurance of fair and honest procedures in the tabulating center. The poll watchers provided for in this subsection shall be appointed and serve in the same manner as other poll watchers.

(d) Notwithstanding any other provisions of this chapter, a poll watcher may be permitted behind the enclosed space for the purpose of observing the conduct of the election and the counting and recording of votes. Such poll watcher shall in no way interfere with the conduct of the election, and the poll manager may make reasonable regulations to avoid such interference. Without in any way limiting the authority of poll managers, poll watchers are prohibited from talking to voters, checking electors lists, using photographic or other electronic monitoring or recording devices, using cellular telephones, or participating in any form of campaigning while they are behind the enclosed space. If a poll watcher persists in interfering with the conduct of the election or in violating any of the provisions of this Code section after being duly warned by the poll manager or superintendent, he or she may be removed by such official. Any infraction or irregularities observed by poll watchers shall be reported directly to the superintendent, not to the poll manager. The superintendent shall furnish a badge to each poll watcher bearing the words "Official Poll Watcher," the name of the poll watcher, the primary or election in which the poll watcher shall serve, and either the precinct or tabulating center in which the poll watcher shall serve or a statement that such poll watcher is a state-wide poll watcher. The poll watcher shall wear such badge at all times while serving as a poll watcher.

(e) No person shall be appointed or be eligible to serve as a poll watcher in any primary or election in which such person is a candidate.

Case Name: Cobb County- Absentee Ballot Signature Verifications

Date: 12/29/2020

Georgia Secretary of State/Georgia Bureau of Investigation ABM Signature Audit Report

Task

On Monday, December 14, 2020, Georgia Secretary of State Brad Raffensperger announced that a signature audit of absentee-by-mail (ABM) ballot oath envelopes would be conducted in Cobb County. The Secretary of State's Office partnered with the Georgia Bureau of Investigation (GBI) to review a statistically significant sample of signatures on oath envelopes from the November 3, 2020, General Election. Signatures and other identifying information on the ABM ballot oath envelopes would be compared to records in both the Cobb County Elections and Voter Registration Department database and the State of Georgia's voter registration system. The audit would be performed by law enforcement investigators with the Secretary of State's Office and GBI special agents.

Summary of Findings

The audit team, consisting of law enforcement officers with the Secretary of State's office and GBI, reviewed 15,118 ABM ballot oath envelopes from randomly selected boxes that stored the 150,431 ABM ballots received in Cobb County for the November 3, 2020 General Election. The sample size of oath envelopes reviewed was chosen in order to reach a 99% confidence

level in the results. Utilizing the decision guidelines set forth below, the audit team confirmed the accuracy of the initial determination of the Cobb County Elections Department in all but two cases. In the two cases where the audit team determined that the voter should have received a cure notification, the audit team was able to confirm by interviews with the voters that the actual voters in question cast the ballots. Based on the results of the audit, the Cobb County Elections Department had a 99.99% accuracy rate in performing correct signature verification procedures. The audit team was also able to confirm that the two ballots that should have initially been identified by Cobb County Elections Department staff as requiring a cure notification were actually cast by the voters to whom they were issued. No fraudulent absentee ballots were identified during the audit.

Method

Sample size: It was determined the audit sample size would be approximately 10% of the total ABM ballots as reported by the Cobb County Elections Department. The breakdown of ABM ballots was as follows:

- 149,988 **Accepted** ABM ballots
- 78 ABM ballots **rejected** due to missing signature, not cured (see SEB Rule 183-1-14-.13)
- 32 ABM ballots **rejected** due to invalid signature, not cured (see SEB Rule 183-1-14-.13)
- 333 ABM ballots **rejected** due to receipt after deadlines.
- 150,431 Total ABM ballots received

Sample selection: All ABM ballot oath envelopes were previously secured in boxes by the Cobb County Elections Department. The following was noted:

- All envelopes which contained Cobb County Elections Department rejected ABM ballots were audited. Ballots that were rejected due to receipt after the deadline were confirmed to have been received after the deadline.
- It was determined that the remaining sample size would be pulled from 30 randomly selected boxes of the accepted ABM ballots and one box identified as accepted Electronic Ballot Delivery ABM ballots.
- The boxes had previously been labeled with a unique box number.
- Those unique box numbers were entered into a random number generator application to determine which boxes would be selected for the sample.
- Envelopes were randomly selected and audited within each box.

Standard of comparison: OCGA 21-2-386(a)(1)(B): ... *The registrar or clerk shall then compare the identifying information on the oath with the information on file in his or her office, shall compare the signature or mark on the oath with the signature or mark on the absentee elector's voter registration card or the most recent update to such absentee elector's voter registration card and application for absentee ballot or a facsimile of said signature or mark taken from said card or application, and shall, **if the information and signature appear to be valid and other identifying information appears to be correct**, so certify by signing or initialing his or her name below the voter's oath.*

Signature comparison: Law enforcement officers (LEOs) would analyze and compare the known signatures, markings, and identifying information of the elector as stored in databases with the signature, markings, and identifying information on the elector's ABM ballot oath envelope. LEOs would look for distinctive characteristics and unique qualities such as letters and word spacing, letter and word slant, size and proportionality of letters and numbers, unusual and unique formations of letters and numbers, flourishes, baseline alignment, and other individual attributes of the signature, mark, or other identifying information. LEOs would evaluate the similarities and differences between the two and make a judgment of the validity of the signature on each envelope based on the totality of the documents.

Document comparison: LEOs were given access to the Cobb County Elections Department's database which included some or all of the following documents for comparison:

- Voter registration forms (including Department of Drivers Services, mail-in voter registration cards, Federal Postcard Applications)
- Absentee Ballot Applications
- Voter Certificates
- Confirmation Notices for voters
- Signature Cure Affidavits
- Passports
- Certificates of Naturalization

Decision Guidelines: The audit team, consisting of Secretary of State investigators and GBI special agents, was divided into 18 two-member teams identified as "inspection teams" and two three-member teams identified as "investigation teams" for the task of evaluating signatures, marks, and identifying information on envelopes.

- **Inspection team decision guidelines:**
 - If both team members agreed that signature/identifying information appeared valid, the envelope was accepted.
 - If both team members agreed that signature/identifying information appeared invalid, the envelope was submitted to an investigation team.
 - If team members were split on judging the validity of the signature/identifying information, a designated "referee" made the deciding vote on acceptance of the envelope or its submission to an investigation team.
 - Envelopes were submitted to investigations teams automatically when there was no signature or if there were no documents for the elector in the Cobb County Elections Department database to be used for comparison.
- **Investigation team decision guidelines:**
 - The investigation teams received copies of envelopes from the inspection teams for additional examination.

- The investigation team accessed the State of Georgia voter registration system database for additional elector documents and requested additional documents from the Cobb County Elections Department.
- After further evaluation, if two of the three investigation team members agreed that signature/identifying information appeared valid, the envelope was accepted.
- If two of the three investigation team members agreed that signature/identifying information appeared invalid, the elector would be located and interviewed.

Findings

- 15,118 ABM ballot oath envelopes were evaluated by the inspection teams. On six occasions, referees were called upon by the inspection teams as the third vote to decide to accept the signature/identifying information as valid or refer the envelope to the investigation teams.
- The inspection teams submitted 396 envelopes to the investigation teams for comparison with additional documents or follow-up with the elector.
- After evaluation of the inspection teams' envelopes, 386 were accepted as valid. The remaining ten envelopes were referred for contact with the elector for the following reasons:
 - 8 – Elector's signatures/identifying information did not appear to be consistent with documents on record.
 - 1 – Contained no signature or mark
 - 1 – Contained a signature, but was not the signature of the elector
- All ten electors were located, positively identified, and interviewed. Those interviews found the following:
 - All eight electors whose signatures were deemed valid by Cobb County Elections Department staff but not consistent by the LEOs conducting the audit, acknowledged completing and signing the ABM ballot oath envelope in question, verifying that the initial Cobb County Elections Department initial determination of validity was correct.
 - The elector whose envelope contained no signature or mark, acknowledged submitting the ABM ballot oath envelope in question, but reported signing the front of the envelope only. The final envelope in question was found to be mistakenly signed by the elector's spouse. The elector confirmed that he filled out the absentee ballot himself.
- **Of the 15,118 envelopes sampled, the following was found:**
 - **Two of the ten previously identified ABM ballot oath envelopes should have been identified by the Cobb County Elections Department as requiring an opportunity for the voter to cure the ballots prior to acceptance.**
 - **No fraudulent absentee ballots were identified during the audit.**

O.C.G.A. 21-2-386. Safekeeping, certification, and validation of absentee ballots; rejection of ballot; delivery of ballots to manager; duties of managers; precinct returns; notification of challenged elector

(a) (1) (A) The board of registrars or absentee ballot clerk shall keep safely, unopened, and stored in a manner that will prevent tampering and unauthorized access all official absentee ballots received from absentee electors prior to the closing of the polls on the day of the primary or election except as otherwise provided in this subsection.

(B) Upon receipt of each ballot, a registrar or clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or clerk shall then compare the identifying information on the oath with the information on file in his or her office, shall compare the signature or mark on the oath with the signature or mark on the absentee elector's voter registration card or the most recent update to such absentee elector's voter registration card and application for absentee ballot or a facsimile of said signature or mark taken from said card or application, and shall, if the information and signature appear to be valid and other identifying information appears to be correct, so certify by signing or initialing his or her name below the voter's oath. Each elector's name so certified shall be listed by the registrar or clerk on the numbered list of absentee voters prepared for his or her precinct.

(C) If the elector has failed to sign the oath, or if the signature does not appear to be valid, or if the elector has failed to furnish required information or information so furnished does not conform with that on file in the registrar's or clerk's office, or if the elector is otherwise found disqualified to vote, the registrar or clerk shall write across the face of the envelope "Rejected," giving the reason therefor. The board of registrars or absentee ballot clerk shall promptly notify the elector of such rejection, a copy of which notification shall be retained in the files of the board of registrars or absentee ballot clerk for at least two years. Such elector shall have until the end of the period for verifying provisional ballots contained in subsection (c) of Code Section 21-2-419 to cure the problem resulting in the rejection of the ballot. The elector may cure a failure to sign the oath, an invalid signature, or missing information by submitting an affidavit to the board of registrars or absentee ballot clerk along with a copy of one of the forms of identification enumerated in subsection (c) of Code Section 21-2-417 before the close of such period. The affidavit shall affirm that the ballot was submitted by the elector, is the elector's ballot, and that the elector is registered and qualified to vote in the primary, election, or runoff in question. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be sufficient, the absentee ballot shall be counted.

SEB Rule 183-1-14-.13. Prompt Notification of Absentee Ballot Rejection

When a timely submitted absentee ballot is rejected, the board of registrars or absentee ballot clerk shall send the elector notice of such rejection and opportunity to cure by mailing written notice and attempt to notify the elector by telephone and email, if a telephone number or email is on the elector's voter registration record or absentee ballot application, no later than the close of business on the third business day after receiving the absentee ballot. However, for any timely submitted absentee ballot that is rejected within eleven days of Election Day, the board of registrars or absentee ballot clerk shall send the elector notice of such rejection and

opportunity to cure by mailing written notice and attempt to notify the elector by telephone and email, if a telephone number or email is on the elector's voter registration record or absentee ballot application, no later than close of business on the next business day.

This letter serves as proper notice, pursuant O.C.G.A. § 21-2-408(b)(2) and State Election Board Rule 183-1-13-.06, to serve as a Poll Watcher in COUNTY NAME during Election Day, and any subsequent activities conducted by the county and state to certify the election results, for the January 5, 2021 Runoff Election.

Polling Location(s): All in COUNTY NAME

A copy of this letter will be provided to the County Elections Superintendent and Chief Registrar at least three days prior to Election Day, as required by O.C.G.A. § 21-2-408(b)(3) and State Election Board Rule 183-1-13-.03.

Georgia Republican Party State Executive Committee
Resolution Regarding:
Georgia Secretary State's intent to Execute a Signature Audit

Whereas Secretary of State Brad Raffensperger has repeatedly refused calls from the Governor, the State Executive Committee of the Georgia Republican Party, and others, to conduct an absentee ballot signature verification audit, claiming he had no authority to order an audit;

Whereas the Secretary of State now has ordered an audit of Cobb County with forensically inexperienced students from the University of Georgia; and

Whereas Georgia Republicans stand solidly with President Trump in his effort to expose electoral wrongdoing and restore confidence in the integrity of our elections; now, therefore, be it

Resolved, that in view of the infamy surrounding tabulation of the Fulton County votes, the State Executive Committee of the Georgia Republican Party DEMANDS that the signature verification audit begin with Fulton County;

Further Resolved, that in view of the State Executive Committee DEMANDS that qualified handwriting experts from both the Republican Party and other political parties be permitted to participate in the audit.

Further Resolved, that the State Executive Committee declares that any audit which does not begin with Fulton County or include handwriting experts is a complete and utter farce that will make a mockery of signature verification and continue to erode public confidence in the electoral process.

Further Resolved, that the State Executive Committee expresses its profound disappointment in the Secretary of State and his staff for the epic failure that has necessitated this resolution.

Further, and Finally Resolved, that Rebecca Yardley is hereby appointed as a committee of one to deliver this resolution to the Secretary of State of Georgia Brad Raffensperger and obtain an immediate response.

Adopted without objection this 21 day of December, 2020 and

Signed this 21st day of December, 2020, on behalf
of the Georgia Republican Party Executive Committee by

Brian Gundy, GA GOP Assistant Secretary

RE: ILLEGAL BALLOT HARVESTING

Dear Gwinnett County Board of Registrations and Elections:

I am the Chairman of the Georgia Republican Party, Inc. (the "GAGOP"). An unknown individual was spotted putting five ballots into a ballot drop box located at Grayson Branch Library, 700 Grayson Parkway, Grayson, GA in Gwinnett County at 11:15AM on December 29, 2020. Before submitting the ballots, the individual appeared to take a photograph of himself posing with the five ballots in hand. Two photographs documenting the individual taking the "selfie" of himself are enclosed.

Pursuant to Georgia statute, submitting ballots on someone else's behalf, other than immediate family members or household members, is illegal in the state of Georgia. *See* O.C.G.A. § 21-2-385(a) (An absentee ballot may be returned by an "elector's mother, father, grandparent, aunt, uncle, brother, sister, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, sister-in-law, or an individual residing in the household of such elector"). The submission of five ballots at a drop box by an individual taking a selfie of himself conducting such an act presents significant concern that the individual may have been actively participating in illegal ballot harvesting.

The GAGOP requests that the ballots currently in this drop box (or any ballots removed from this drop box around 11:15AM on December 29, 2020) be sequestered until a thorough investigation is conducted into whether this individual's actions violated Georgia law. The sequestered ballots should be reviewed to determine if there are any instances of five ballots from the same household or immediate family members. If there are not five ballots from the same household or immediate family members, we request that all ballots in this drop box be sent through the cure process.

Please feel free to contact me at (505) 999-8241 or stewart@gagop.com if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Stewart Bragg".

Stewart Bragg
Executive Director of GAGOP

O.C.G.A. § 21-2-408

Current through the 2020 Regular Session of the General Assembly

GA - Official Code of Georgia Annotated. TITLE 21. ELECTIONS CHAPTER 2. ELECTIONS AND PRIMARIES GENERALLY ARTICLE 11. PREPARATION FOR AND CONDUCT OF PRIMARIES AND ELECTIONS PART 1. GENERAL PROVISIONS

§ 21-2-408. Poll watchers; designation; duties; removal for interference with election; reports by poll watchers of infractions or irregularities; ineligibility of candidates to serve as poll watchers

(a)

(1) In a primary or run-off primary, each candidate entitled to have his or her name placed on the primary or run-off primary ballot may submit the name of one poll watcher for each precinct in which he or she wishes to have an observer to the chairperson or secretary of the appropriate party executive committee at least 21 days prior to such primary or 14 days prior to such run-off primary. The appropriate party executive committee shall designate at least seven days prior to such primary or run-off primary no more than two poll watchers for each precinct, such poll watchers to be selected by the committee from the list submitted by party candidates. Official poll watchers shall be given a letter signed by the party chairperson and secretary, if designated by a political party, containing the following information: name of official poll watcher, address, precinct in which he or she shall serve, and name and date of primary or run-off primary. Date: 12/29/2020

Georgia Secretary of State/Georgia Bureau of Investigation ABM Signature Audit Report

Task

On Monday, December 14, 2020, Georgia Secretary of State Brad Raffensperger announced that a signature audit of absentee-by-mail (ABM) ballot oath envelopes would be conducted in Cobb County. The Secretary of State's Office partnered with the Georgia Bureau of Investigation (GBI) to review a statistically significant sample of signatures on oath envelopes from the November 3, 2020, General Election. Signatures and other identifying information on the ABM ballot oath envelopes would be compared to records in both the Cobb County Elections and Voter Registration Department database and the State of Georgia's voter registration system. The audit would be performed by law enforcement investigators with the Secretary of State's Office and GBI special agents.

Summary of Findings

The audit team, consisting of law enforcement officers with the Secretary of State's office and GBI, reviewed 15,118 ABM ballot oath envelopes from randomly selected boxes that stored the 150,431 ABM ballots received in Cobb County for the November 3, 2020 General Election. The sample size of oath envelopes reviewed was chosen in order to reach a 99% confidence

level in the results. Utilizing the decision guidelines set forth below, the audit team confirmed the accuracy of the initial determination of the Cobb County Elections Department in all but two cases. In the two cases where the audit team determined that the voter should have received a cure notification, the audit team was able to confirm by interviews with the voters that the actual voters in question cast the ballots. Based on the results of the audit, the Cobb County Elections Department had a 99.99% accuracy rate in performing correct signature verification procedures. The audit team was also able to confirm that the two ballots that should have initially been identified by Cobb County Elections Department staff as requiring a cure notification were actually cast by the voters to whom they were issued. No fraudulent absentee ballots were identified during the audit.

Method

Sample size: It was determined the audit sample size would be approximately 10% of the total ABM ballots as reported by the Cobb County Elections Department. The breakdown of ABM ballots was as follows:

- 149,988 **Accepted** ABM ballots
- 78 ABM ballots **rejected** due to missing signature, not cured (see SEB Rule 183-1-14-.13)
- 32 ABM ballots **rejected** due to invalid signature, not cured (see SEB Rule 183-1-14-.13)
- 333 ABM ballots **rejected** due to receipt after deadlines.
- 150,431 Total ABM ballots received

Sample selection: All ABM ballot oath envelopes were previously secured in boxes by the Cobb County Elections Department. The following was noted:

- All envelopes which contained Cobb County Elections Department rejected ABM ballots were audited. Ballots that were rejected due to receipt after the deadline were confirmed to have been received after the deadline.
- It was determined that the remaining sample size would be pulled from 30 randomly selected boxes of the accepted ABM ballots and one box identified as accepted Electronic Ballot Delivery ABM ballots.
- The boxes had previously been labeled with a unique box number.
- Those unique box numbers were entered into a random number generator application to determine which boxes would be selected for the sample.
- Envelopes were randomly selected and audited within each box.

Standard of comparison: OCGA 21-2-386(a)(1)(B): ... *The registrar or clerk shall then compare the identifying information on the oath with the information on file in his or her office, shall compare the signature or mark on the oath with the signature or mark on the absentee elector's voter registration card or the most recent update to such absentee elector's voter registration card and application for absentee ballot or a facsimile of said signature or mark taken from said card or application, and shall, **if the information and signature appear to be valid and other identifying information appears to be correct**, so certify by signing or initialing his or her name below the voter's oath.*

Signature comparison: Law enforcement officers (LEOs) would analyze and compare the known signatures, markings, and identifying information of the elector as stored in databases with the signature, markings, and identifying information on the elector's ABM ballot oath envelope. LEOs would look for distinctive characteristics and unique qualities such as letters and word spacing, letter and word slant, size and proportionality of letters and numbers, unusual and unique formations of letters and numbers, flourishes, baseline alignment, and other individual attributes of the signature, mark, or other identifying information. LEOs would evaluate the similarities and differences between the two and make a judgment of the validity of the signature on each envelope based on the totality of the documents.

Document comparison: LEOs were given access to the Cobb County Elections Department's database which included some or all of the following documents for comparison:

- Voter registration forms (including Department of Drivers Services, mail-in voter registration cards, Federal Postcard Applications)
- Absentee Ballot Applications
- Voter Certificates
- Confirmation Notices for voters
- Signature Cure Affidavits
- Passports
- Certificates of Naturalization

Decision Guidelines: The audit team, consisting of Secretary of State investigators and GBI special agents, was divided into 18 two-member teams identified as "inspection teams" and two three-member teams identified as "investigation teams" for the task of evaluating signatures, marks, and identifying information on envelopes.

- **Inspection team decision guidelines:**
 - If both team members agreed that signature/identifying information appeared valid, the envelope was accepted.
 - If both team members agreed that signature/identifying information appeared invalid, the envelope was submitted to an investigation team.
 - If team members were split on judging the validity of the signature/identifying information, a designated "referee" made the deciding vote on acceptance of the envelope or its submission to an investigation team.
 - Envelopes were submitted to investigations teams automatically when there was no signature or if there were no documents for the elector in the Cobb County Elections Department database to be used for comparison.
- **Investigation team decision guidelines:**
 - The investigation teams received copies of envelopes from the inspection teams for additional examination.

- The investigation team accessed the State of Georgia voter registration system database for additional elector documents and requested additional documents from the Cobb County Elections Department.
- After further evaluation, if two of the three investigation team members agreed that signature/identifying information appeared valid, the envelope was accepted.
- If two of the three investigation team members agreed that signature/identifying information appeared invalid, the elector would be located and interviewed.

Findings

- 15,118 ABM ballot oath envelopes were evaluated by the inspection teams. On six occasions, referees were called upon by the inspection teams as the third vote to decide to accept the signature/identifying information as valid or refer the envelope to the investigation teams.
- The inspection teams submitted 396 envelopes to the investigation teams for comparison with additional documents or follow-up with the elector.
- After evaluation of the inspection teams' envelopes, 386 were accepted as valid. The remaining ten envelopes were referred for contact with the elector for the following reasons:
 - 8 – Elector's signatures/identifying information did not appear to be consistent with documents on record.
 - 1 – Contained no signature or mark
 - 1 – Contained a signature, but was not the signature of the elector
- All ten electors were located, positively identified, and interviewed. Those interviews found the following:
 - All eight electors whose signatures were deemed valid by Cobb County Elections Department staff but not consistent by the LEOs conducting the audit, acknowledged completing and signing the ABM ballot oath envelope in question, verifying that the initial Cobb County Elections Department initial determination of validity was correct.
 - The elector whose envelope contained no signature or mark, acknowledged submitting the ABM ballot oath envelope in question, but reported signing the front of the envelope only. The final envelope in question was found to be mistakenly signed by the elector's spouse. The elector confirmed that he filled out the absentee ballot himself.
- **Of the 15,118 envelopes sampled, the following was found:**
 - **Two of the ten previously identified ABM ballot oath envelopes should have been identified by the Cobb County Elections Department as requiring an opportunity for the voter to cure the ballots prior to acceptance.**
 - **No fraudulent absentee ballots were identified during the audit.**

O.C.G.A. 21-2-386. Safekeeping, certification, and validation of absentee ballots; rejection of ballot; delivery of ballots to manager; duties of managers; precinct returns; notification of challenged elector

(a) (1) (A) The board of registrars or absentee ballot clerk shall keep safely, unopened, and stored in a manner that will prevent tampering and unauthorized access all official absentee ballots received from absentee electors prior to the closing of the polls on the day of the primary or election except as otherwise provided in this subsection.

(B) Upon receipt of each ballot, a registrar or clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or clerk shall then compare the identifying information on the oath with the information on file in his or her office, shall compare the signature or mark on the oath with the signature or mark on the absentee elector's voter registration card or the most recent update to such absentee elector's voter registration card and application for absentee ballot or a facsimile of said signature or mark taken from said card or application, and shall, if the information and signature appear to be valid and other identifying information appears to be correct, so certify by signing or initialing his or her name below the voter's oath. Each elector's name so certified shall be listed by the registrar or clerk on the numbered list of absentee voters prepared for his or her precinct.

(C) If the elector has failed to sign the oath, or if the signature does not appear to be valid, or if the elector has failed to furnish required information or information so furnished does not conform with that on file in the registrar's or clerk's office, or if the elector is otherwise found disqualified to vote, the registrar or clerk shall write across the face of the envelope "Rejected," giving the reason therefor. The board of registrars or absentee ballot clerk shall promptly notify the elector of such rejection, a copy of which notification shall be retained in the files of the board of registrars or absentee ballot clerk for at least two years. Such elector shall have until the end of the period for verifying provisional ballots contained in subsection (c) of Code Section 21-2-419 to cure the problem resulting in the rejection of the ballot. The elector may cure a failure to sign the oath, an invalid signature, or missing information by submitting an affidavit to the board of registrars or absentee ballot clerk along with a copy of one of the forms of identification enumerated in subsection (c) of Code Section 21-2-417 before the close of such period. The affidavit shall affirm that the ballot was submitted by the elector, is the elector's ballot, and that the elector is registered and qualified to vote in the primary, election, or runoff in question. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be sufficient, the absentee ballot shall be counted.

SEB Rule 183-1-14-.13. Prompt Notification of Absentee Ballot Rejection

When a timely submitted absentee ballot is rejected, the board of registrars or absentee ballot clerk shall send the elector notice of such rejection and opportunity to cure by mailing written notice and attempt to notify the elector by telephone and email, if a telephone number or email is on the elector's voter registration record or absentee ballot application, no later than the close of business on the third business day after receiving the absentee ballot. However, for any timely submitted absentee ballot that is rejected within eleven days of Election Day, the board of registrars or absentee ballot clerk shall send the elector notice of such rejection and

opportunity to cure by mailing written notice and attempt to notify the elector by telephone and email, if a telephone number or email is on the elector's voter registration record or absentee ballot application, no later than close of business on the next business day.
