EXTERNAL SENDER

Dear Sarah,

Please see the attached responsive records in regard to Open Records Request GA-GOV-20-3001. All of the responsive documents for the request are attached. Records were redacted pursuant to O.C.G.A. §§ 50-18-72(a)(2), 50-18-72(a)(20), 50-18-72(a)(21), 50-18-72(a)(25)(A)(i), 50-18-72(c), and 50-18-72(a)(39). I will send you an invoice via Shopify. Please make sure to check your email for the invoice.

Sincerely,
Open Records Officer

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - GA

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of October 30, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

Commercial volumes may be slightly understated due to several days of missing data for two distributors. Validation with distributors is ongoing.

Report generated on December 20, 2020. Data includes shipments through December 17, 2020 and deliveries through December 18, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on December 19 and may not reflect all PPE shipped by the end of December 19.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

Commercial volumes may be slightly understated due to several days of missing data for two distributors. Validation with distributors is ongoing.

Report generated on December 20, 2020. Data includes shipments through December 17, 2020 and deliveries through December 18, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on December 19 and may not reflect all PPE shipped by the end of December 19.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

Volumes in most recent week may be understated due to the holiday. Historical commercial volumes may be slightly understated due to several days of missing data for some distributors. Validation with distributors is ongoing.

Report generated on December 27, 2020. Data includes shipments through December 23, 2020 and deliveries through December 24, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on December 26 and may not reflect all PPE shipped by the end of December 26.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Volumes in most recent week may be understated due to the holiday. Historical commercial volumes may be slightly understated due to several days of missing data for some distributors. Validation with distributors is ongoing.

Report generated on December 27, 2020. Data includes shipments through December 23, 2020 and deliveries through December 24, 2020 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on December 26 and may not reflect all PPE shipped by the end of December 26.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - GA

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of October 30, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

Dates with Missing Data
Certified Bed Count
Component Hospitals
Week Ending
Days at 100%
Percentage of Required Fields Reported
Hospital Required to Report Wed Only

Required Fields

Hospitals in Suspense
Fields Required 7 Days a Week

Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays.

Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ.

This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

12/21/2020
12/11/2020 - 12/17/2020
Additional information about the fields in the report is listed below.

Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file.
Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through Teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.
If any, the dates when a facility did not fully report all required fields during the enforcement period
The certified bed count associated with the hospital in the CMS POS file.
The number of individual hospital campuses covered by the CCN level reported displayed in this report.
The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.
The number of the days in the prior 7 day period that the hospital reported 100% of required fields.
The percentage of required fields reported over the prior 7 day period.
Indicates whether a hospital is only required to report once a week, on Wednesdays.

The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.

A separate tab showing facilities currently in suspense regarding CoP requirements due to being in a work plan or other related reasons is shown if any facilities are currently in suspense. These CCNs will not be included in the tab listing all other hospitals or included in any summary counts while in suspense.

Days at 100%
Percentage of Required Fields Reported
Hospital Required to Report Wed Only

Required Fields

Hospitals in Suspense
Fields Required 7 Days a Week

Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays.

Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ.

This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

12/28/2020
12/18/2020 - 12/24/2020
Additional information about the fields in the report is listed below.

Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file.
Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through Teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.
If any, the dates when a facility did not fully report all required fields during the enforcement period
The certified bed count associated with the hospital in the CMS POS file.
The number of individual hospital campuses covered by the CCN level reported displayed in this report.
The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.
The number of the days in the prior 7 day period that the hospital reported 100% of required fields.
The percentage of required fields reported over the prior 7 day period.
Indicates whether a hospital is only required to report once a week, on Wednesdays.

The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.

A separate tab showing facilities currently in suspense regarding CoP requirements due to being in a work plan or other related reasons is shown if any facilities are currently in suspense. These CCNs will not be included in the tab listing all other hospitals or included in any summary counts while in suspense.

Days at 100%
Percentage of Required Fields Reported
Hospital Required to Report Wed Only

Required Fields

Hospitals in Suspense
Fields Required 7 Days a Week

Previous coverage reports initially focused on specific fields, primarily around remdesivir allocation, and also focused on a subset of priority hospitals. The Secretary's Guidance for Hospital Reporting and FAQ and the new CMS Interim Final Rule with Comment Period (IFC) require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within 1 business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, childrens, Medicaid only short term, Medicaid only childrens, Distinct Part Psychiatric Hospital, and Medicaid only long term hospitals and refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, 31) on Wednesdays.

Psychiatric, Rehabilitation, Medicaid only Childrens Psychiatric, Medicaid only Psychiatric, and Medicaid only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ.

This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% are shown as 7 if reported successfully for Wednesday and 0 otherwise. Individual fields are shown as Yes if reported successfully on Wednesday and No otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as Yes/No indicating if the fields was reported as required. All No indicators are shaded red. We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response. Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov

01/04/2021

12/25/2020 - 12/31/2020

Additional information about the fields in the report is listed below.

Hospital metadata fields including state, CCN (CMS certification number), facility name, street address, city, zip code, fips county, and provider subtype are pulled from the most recent Centers for Medicare and Medicaid Services (CMS) Provider of Service (POS) file. Reflects the source of hospital-reported data used for the completeness report. State indicates data submitted directly to HHS Protect by a state on behalf of hospitals, TT indicates data submitted through Teletracking, State/TT indicates data is submitted through both sources, N/A indicates no data was submitted. For hospitals with data from both State and Teletracking (TT), a single data source is used for each day of the week, but data source may be mixed over the week.

If any, the dates when a facility did not fully report all required fields during the enforcement period
The certified bed count associated with the hospital in the CMS POS file.
The number of individual hospital campuses covered by the CCN level reported displayed in this report.
The last day of the 7 day period used to asses reporting completeness. The 7 day period is the prior Friday to Thursday.
The number of the days in the prior 7 day period that the hospital reported 100% of required fields.
The percentage of required fields reported over the prior 7 day period.
Indicates whether a hospital is only required to report once a week, on Wednesdays.

The mandatory fields included in this report are listed below. Note a subset of fields related to supplies are only mandatory on Wednesdays.

A separate tab showing facilities currently in suspense regarding CoP requirements due to being in a work plan or other related reasons is shown if any facilities are currently in suspense. These CCNs will not be included in the tab listing all other hospitals or included in any summary counts while in suspense.

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - GA

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of October 30, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

Volumes in most recent week may be understated due to the holiday. Historical commercial volumes may be slightly understated due to several days of missing data for some distributors. Validation with distributors is ongoing.

Report generated on January 3, 2021. Data includes shipments through December 31, 2020 and deliveries through January 1, 2021 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on January 2 and may not reflect all PPE shipped by the end of January 2.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

Volumes in most recent week may be understated due to the holiday. Historical commercial volumes may be slightly understated due to several days of missing data for some distributors. Validation with distributors is ongoing.

Report generated on January 3, 2021. Data includes shipments through December 31, 2020 and deliveries through January 1, 2021 (assumes that PPE is delivered 1 day after shipment date, based on discussions with distributors). Shipments data is on a 2-day lag from distributor submission date due to variability in volume for the most recent shipment date. Data for US Government Distribution updated on January 2 and may not reflect all PPE shipped by the end of January 2.

PPE categorizations may differ between commercial distributors and USG resource logs. A small percentage of supplies may be counted in both USG and Commercial Distribution

Disclosure and Source of Attachment: Commercial Distributor data provided by major U.S. medical distributors (Cardinal, Concordance, Henry Schein, McKesson, Medline, and Owens & Minor). U.S. Government (USG) Resources data provided by FEMA. USG sources include FEMA procurements, Strategic National Stockpile, and donations. USG shipments do not include shipments to Veteran’s Affairs facilities or tribal nations. Product and geography classifications provided by distributors; totals may shift as classifications are updated. Dataset does not include supplies distributed outside of these medical distributors (e.g., manufacturer direct shipments or other distributors). Locations may not reflect final destination or end-user of the shipment (e.g., if sold to downstream distributors, retailers, or hospital networks); County designations have been mapped from zip codes; where zip codes are in multiple counties, deliveries have been allocated based on population. Units in “eaches.” All numbers rounded to nearest 100.

This document may contain confidential commercial information and is for official government use only. You may not distribute any information contained in this document to non-governmental entities without the express authorization of HHS.

FOR OFFICIAL GOVERNMENT USE ONLY

Shipments by U.S. Government and Commercial Distributors - GA

The information below reflects the combination of PPE delivered directly by the United States Government and PPE supplied by the six major distributors through the distributors’ regular supply chain which includes supplies through Project Airbridge.

As of October 30, 2020, several adjustments have been made to improve data quality, including addressing issues affecting ingestion of historical information and updating product classifications. As a result of these data improvements, there is a net increase in cumulative shipments across PPE categories nationally; however, some state- and county-level cumulative shipments may be lower than previously reported. Volumes may continue to fluctuate in the near term as a result of improvements in data processing.

WARNING SOS: ALABAMA'S "INEXCUSABLE DELAY OF DUTY" HAS BEEN SIGHTED AND CITED

APRIL 25, 2014 EDITION

<http://www.carlgallups.com/zullo-affidavit.pdf>

<https://acis.alabama.gov/displaydocs.cfm?no=565288&event=40Y0LG67K>

<http://judicial.alabama.gov/supreme.cfm>

In my 65 year-old judgment, rendering a 7- 2 "No Opinion"/dismissal/decision herein was a massive disservice to America's future well-being. Although I have never met or spoken to any person mentioned in this case, I do agree with the superlative wisdom of the dissenting opinions of Chief Justice Moore and Justice Parker. They got it right!

When my grandson is my age in Year 2073, when everyone involved in preparing this shameful "No Opinion"/dismissal decision is reclaimed by God and Nature, he will see why his "Papa" wrote this letter expressing disdain for a syndicated American judicial network that deliberately perjured their oaths of office in order to pimp and prostitute Lady Justice so as to knowingly damage America's future well-being, so as to damage my grandson's future prospects in America, by their systematic collusion today with a lawless ineligible Counterfeit President Soetoro-Obama in order to actively cover-up the true presidential identity sought in this case.

From the get-go on FEB 2, 2012 (some 10 months after Beth Chapman's husband had passed away, sadly), as this decision reads, **the Secretary of State's (SOS) office under Beth Chapman's leadership had already decided it was never going to do anything whatsoever to either "certify" or "verify" or "determine" or "investigate" Barack Soetoro-Obama or the other presidential candidates**, even with Maricopa County's LT Mike Zullo's compelling *sworn professional affidavit* in hand to conclusively reveal Soetoro-Obama's identification documents are bogus and fraught with fraud. **Why?**

LT Mike Zullo did the necessary in-depth "investigation" herein free of charge to Alabamians, but SOS Beth Chapman inexcusably abandoned her oath-taking tax-taking state and national duties by refusing to even secure a simple "certified" birth certificate for each presidential and vice-presidential candidate from said candidates' Secretaries of State. ***How long would that super-simple mundane task take to carry out? How much money would be needed to type official Alabama SOS letters-of-request-for-birth-certificates and mail those registered letters-of-request to other associated Secretaries of State? Now, compare that miniscule clerical cost with the cost to rebuild a divided and damaged America led for another four years by a fraudulent pro-Islam "President"!***

I have watched this shameful demoralizing historic presidential identity fraud situation continually unfold since Nancy Pelosi allowed Soetoro-Obama into apple pie America on August 28, 2008 at the Democratic National Convention, when she and Alice Germond allowed him to be a Constitutionally-eligible presidential candidate. *What original certified paper documents did Pelosi and Germond scrutinize to legally "certify" Soetoro-Obama as a fully legal natural-born presidential candidate (I believe Pelosi did no certification review and willfully decided on her own: "we'll have to vote him in to see what's in him!", so to speak).* ***Did SOS Beth Chapman and the Alabama Supreme Court know or even inquire which verifying documents, if any, Pelosi and Germond used in 2008, and Antonio Villaraigosa and Germond used in 2012, to irrefutably "certify" Soetoro-Obama's Constitutional eligibility?***

Apparently, there is not a court in America that wants this Soetoro-Obama "identification certification" case to land at their feet to have to deal with. Congress doesn't want to deal with it either, so its members actively corrupt themselves anew every day that they remain hush-hush on this matter. Meanwhile, American citizens continue to suffer scandalous consequences and on-going global humiliations as foisted upon their hearts and minds by an apparent bastard-at-birth, performing as a Bastard-in-Chief, intent on bastardizing America; an illegitimate Chicago mulatto Counterfeit President, due in largest part to the collusive cowardice and inexcusable dereliction of duty of America's courts, Congress, corporate-based media, the Democratic Party (for actively promoting unaccounted-for lawlessness by their Counterfeit President) and the Republican Party (for obeying and funding a Counterfeit President, Soetoro-Obama, without ever demanding his true identity).

If it is fear of being portrayed as racists, in the state of former Gov. George Wallace, that motivates the active evasion of identifying mulatto Soetoro-Obama herein, then, think of this: any judicial body that works to

deliberately evade its current laws in order to ensure that any one person in America will be placed at the back of the bus, *or* that any one person in America will be placed at the front of the bus, as relative to all other legal American citizens, either way, that same judicial body has actively, openly and notoriously engaged in the unlawful act of “negative **racial discrimination**” *or* “reverse/positive **racial discrimination**”, respectively.

But, unfortunately for SOS Beth Chapman and the Alabama Supreme Court (ASC), they had to go ahead with this unwanted case for at least two unique reasons:

- A. McInnish and Goode had standing and were legally entitled to have the Alabama courts review and render a decision on their grievances, whereas, many, if not most, other such attempts in courts throughout America have been summarily dismissed, conveniently, for supposed lack of standing.
- B. Chief Justice Moore, a West Point graduate with an ingrained sense of “duty, honor, country”, would not let his truthful conscience rest until Soetoro-Obama’s ID was earnestly “certified”. (Is Chief Justice Moore the only Justice herein that has served in the US military and has sworn an officer’s oath of allegiance, as I have, to defend America’s federal Constitution?)

So, it appears, SOS Beth Chapman and the Alabama Supreme Court (ASC) went thru the motions to make it publicly appear that justice was solemnly and duly carried out, with God our Creator supervising the whole perfunctory affair.

However, **perfunctory actions speak louder than perfunctory words**, and the actions described in the 83-page legal opinion herein, when translated into English, reveal the sad truths of this whole unwanted, yet seriously warranted, presidential identification exercise:

1. SOS Beth Chapman and the ASC uses laches defense of “inexcusable delay” to portray plaintiffs McInnish and Goode as unreasonably asking for something the SOS office could not possibly carry out in the time available.

English translation of Actions: *SOS Beth Chapman had to have known in her capacity as SOS since 2007 that American courts have been wrestling with this very same identification/ineligibility issue since Soetoro-Obama began his questionable and deliberately un-vetted ascent to the presidency in 2007.*

*SOS Beth Chapman had plenty of time to formally secure an everyday certified copy of Soetoro-Obama’s original paper birth certificate from Hawaii, if there is one, from FEB 2, 2012 until the general election on NOV 6, 2012, a “political gestation period” of some nine months that could perhaps have given birth to the truth in this case, but she and her office either (1) acted on their own and willfully exercised an “**inexcusable delay of duty**”, intentionally waiting for the general election to pass so as to make her delayed responsibilities moot, by actively refusing to do this simple task for some personal reasons, such as fear of appearing racist or (2) her office was secretly instructed by others, perhaps including Soetoro-Obama Administration operatives, to refuse to comply with this very doable task, or (3) SOS Beth Chapman and the ASC knew, or suspected, there is no valid certifiable original paper birth certificate for Soetoro-Obama in Hawaii and, therefore, they would be burdened to erect some vapor-thin veil of defenses to evade such a shocking revelation to their 310 million fellow Americans or (4) they knew, or hoped, the truth on Soetoro-Obama’s counterfeit identification documents would soon be exposed by others anyway or (5) fear of having to answer to overwhelming national notoriety should all candidates respond with bona fide birth certificates but Soetoro-Obama failed to comply or (6) other reasons not yet exposed.*

2. SOS Beth Chapman indicated she had no duty to do anything to discern Soetoro-Obama’s origins in any way; the 7 of the 9 justices of the ASC that defended her, pointed out that Alabama’s SOS office currently has no statutory framework or proper staffing or subpoena power or legal authority to discern Soetoro-Obama’s true identity in any way; that SOS Beth Chapman would be well-outside here limits of jurisdiction if she even attempted to seek a simple everyday certified birth certificate for any candidate.

Translation of Actions: *All these defenses appear flimsy since SOS Beth Chapman was under oath to obey the full letter and spirit of the laws she was entrusted with by her fellow Americans. Such modifiers associated with her domain of laws clearly encourage her to make prudent tie-breaker judgments on her own with the following deliberate and codified assembly of words to motivate her to act morally correct, not politically correct:*

- “...provided they [i.e., the persons entitled to have their names printed on Alabama voting ballots] **are otherwise qualified for the office they seek...**”
- “...the Secretary of State is the **chief elections official...**”

- “...the Secretary of State...shall **provide uniform “guidance” for election activities.**”
- “...and the Secretary of State **in all other cases...**”
- “...shall apply to presidential preference primary...**unless clearly inconsistent herewith or inappropriate for the conduct of a presidential preference primary...**”
- “...**If the Secretary of State has knowledge gained from an official source arising from the performance of duties prescribed by law, that a candidate has not met a certifying qualification, the Secretary of State should not certify the candidate.**”
- “When presidential electors are to be chosen, the Secretary of State of Alabama **shall certify to the judges of probate...**”
- “...[A]ll executive and judicial officers...of the several states, **shall be bound by Oath [or Affirmation], to support this [US] Constitution...**”
- “**I, Beth Chapman, solemnly swear that I will support the Constitution of the United States, and the Constitution of the State of Alabama, so long as I continue a citizen thereof; and that I will faithfully and honestly discharge the duties of the office upon which I am about to enter, to the best of my ability. So help me God.**”
- The last and closing clause of the [US] Constitution binds all executive and judicial officers “...**to guard against resistance to or evasion of its authority, on the part of a State.**”

Questions for the Alabama Supreme Court:

1. What written Alabama law(s), specifically, would SOS Beth Chapman have violated and what specific written fines/prison terms/punishments/reprimands would she have likely been subjected to if her SOS office had proceeded with requesting a certified birth certificate from Hawaii’s SOS for a candidate that might someday hold the keys to America’s nuclear arsenal?
2. Who would sue and prosecute SOS Beth Chapman and use said written Alabama law(s) against her for any of her supposed over-reach in this case?

Questions for Justice Bolin:

1. Who will actively approach the Alabama legislature to seek fully funded investigative capabilities for the SOS office for future in-depth candidate reviews? Will you be that person, Justice Bolin?
2. Did you read the full text of LT Mike Zullo’s sworn affidavit? Why do you act to ignore the findings of blatant presidential fraud in that affidavit? What is your opinion on the validity of that affidavit?
3. What law can you cite that says no legal American citizen has the unalienable right to know the full irrefutable identity of their President? If you cannot find that specific law, then, every legal American citizen has the unalienable right to know the full identity of any presidential candidate and incumbent President; why, then, did you compose 23 pages of said “No Opinion” opinion to make certain that every legal American citizen will be denied their unalienable right to know the full identity of their President?

Your said 23 pages herein make you the most indictable participant in this case for wrong-doing, Justice Bolin, because you worked most diligently to justify why 310 million fellow Americans should be denied the full identity of their own President, both before and after Soetoro-Obama was voted into office in 2012!

3. In April 2013 SOS Beth Chapman announced her desire to resign and on July 31, 2013 she formally resigned as Alabama’s Secretary of State. She had 17 months left in her term. She stated publicly that her SOS job “...is a job that was made for me and I was made for it...”. She also indicated publicly that the motivation to leave her publicly-declared perfect SOS job was that she had “...been given a once in a lifetime opportunity in the private sector...”.

Translation of Actions: *SOS Beth Chapman, being human, likely felt that her actions created the appearance of conflict of interest; that her actions appeared as an intentional and collusive dereliction of duty and the public mind was on to her deceit in this matter, so she had to bolt for the door to limit her family and political career's legal exposure to the mounting demands for accountability and its possible punishments.*

4. Justice Bolin seems to have had the last legal opinion on this decision by going over Chief Justice Moore's dissenting opinions and refuting them with the effect, if not deliberate intent, of over-ruling them in the public mind.

Translation of Actions: *Chief Justice Moore has stepped out of line, has breached the covert prejudiced agreement among all the courts in the land, and has provided ammunition for the relentless, advancing "birthers and truthers". So CJ Moore's dissenting, potentially volatile, comments to that anxious fringe "birther" audience had to be smothered, refuted, dismissed and whitewashed away lest that birther group be encouraged to continue its journey towards the whole truth end point; also, the on-looking Soetoro-Obama Administration might respond to CJ Moore's uncovered dissenting opinions with federal retributions against Alabama in general and the Alabama Supreme Court in particular.*

5. A "No Opinion" judgment was decided by a vote of 7 in favor of "No Opinion", with 2 Justices not in favor of "No Opinion". This "No Opinion" opinion, or Final Order dismissal, was rendered *the same day* associated final arguments were entered in court.

Translation of Actions: *As a lay person, it seems to me an expedient "No Opinion" opinion is tantamount to a phantom opinion that cannot be acted upon or challenged in the real world; like this case never even came before the ASC and, therefore, no judicial participants seem to be responsible or accountable for rendering such legal weightlessness, such intended legal avoidance.*

6. Beth Chapman chided the plaintiffs for not enjoining the Soetoro-Obama Administration or the leaders of the Democratic National Convention to secure their own remedies to their grievances. Later, the decision herein recommends that the Alabama legislature, after decades in existence, now enact special legislation to authorize and fund an entity within the SOS's office to fully investigate and fully staff, with full subpoena empowerment, any future candidate seeking ballot access in Alabama.

Translation of Actions: *It appears that these suggestions were never intended to actually be carried out. They were just flimsy defenses by colluding parties herein to attempt to shift the burden of SOS duties back onto the plaintiffs' shoulders and to shift the blame from any perceived SOS deficiencies onto the state legislature and its deficient statutes.*

I'm sure everyone involved in this case is an otherwise fine America citizen, well-educated contributors to an orderly society, and very accomplished practitioners in this world. However, when the Justices donned their gowns for this particular case, only two of them were wearing traditional black gowns, and the other 7 gowns might just as well have been white-with-rainbow polka-dot-clown-suits, dressed as milquetoast court jesters in the court of world opinion! Although I do not possess any monopoly of understanding of all things within this case, my 65 years of judging human situations reveals to me in this case: **SOS Beth Chapman and said 7 Justices willfully abandoned their oaths of office, thus failing their families, failing their state, failing their countrymen and, most likely, even failing their own true consciousness. Why?**

America is in real trouble with \$17.3T future-smothering debt from a life-of-its-own out-of-control obese King Government, with decline of leadership in the world that will result in deadly worldwide power vacuums, with an over-abundance of immoral domestic lifestyles and dependent unwed-broken-home families, with a stubborn stagnant economy, with unsecured national borders that have allowed the invasion of some 12 millions of dependent illegal aliens, with talks and encouraging signals projected to said 12 million illegal aliens with no secured borders like failed 1986 amnesty all over again, with world aggression mounting around US interests, and with a Counterfeit President who appears intent on sucking-off America's Exceptionalism while trampling upon her flag at the same time, and, yet, when this case came before SOS Beth Chapman and the Alabama Supreme Court, as perhaps the greatest test to their entire worldly existence, they decided to perform as clever jesters in the court of world opinion. Shame on SOS Beth Chapman and said 7 Justices for colluding together to hand over such a travesty decision to further demoralize their own fellow Americans!

Let this case re-open in the Alabama Supreme Court in the noble and necessary pursuit of the irrefutable verifiable truth in this matter, namely, the full life history identification of so called Barack Hussein Obama, aka Barry Soetoro, the current unidentified keeper of the keys to America's nuclear arsenal!

If this case is not re-opened to confirm the truth herein, I believe SOS Chapman and said 7 Justices herein should be held accountable for perjuring their oaths of office, with punishment meted-out to each of them to include removal from their present bench positions, removal of all their state pensions, disbarment from practicing law in Alabama and other punishments as normally commensurate with the crime of willful prejudiced dereliction of duty and active prostitution of our nation's blind-folded Lady Justice.

In lieu of said proposed punishments for intentional delay and intentional dereliction of duty, former SOS Beth Chapman and all 9 Justices and current SOS Jim Bennett and Rep. Trey Gowdy of US Congress shall work with the honorable plaintiffs McInnish and Goode and their legal counsel to re-open this shameful "No Opinion" case *to get to the irrefutable truth herein*. This time, however, all participants shall remodel their frames of mind from derelict believing-is-seeing to cooperative seeing-is-believing. I specifically recommend Rep. Harold Watson "Trey" Gowdy III be involved because among the establishment Congressmen, whom I tend to see as the "can kickers" who continually kicked the can down the road to satisfy their pandering careers at the expense of our very troubled America in 2014, Trey appears to be a young focused morally-bound experienced "can do" prosecutor. Don't say this cannot be done, for as we have all learned from our childhood experiences, *where there is a will, there is a way!*

Until this case is re-opened and until the full identity of so-called Barack Hussein Obama, aka Barry Soetoro, is made fully complete and transparent to all legal American citizens, America has no President (how could it?!) and all the pretentious Executive Orders beginning with pre-meditated and corruption-enabled EO 13489 on January 21, 2009 and all the actions, directives and signatures from Soetoro-Obama and the results from both general elections of 2008 and 2012 ARE ALL NULL AND VOID. In other words, America has been operating with no legal President at all since January 21, 2009, and continues to operate without a legal President, until Soetoro-Obama is irrefutably proven to be Constitutionally-eligible to even be a President.

WARNING SOS: Do not view these above passages as a layman's fanciful assembly of Pollyanna, rather, view them as a motivation, a solemn duty, *to do what is best for all America*.

>>>>>>> ALL THE SCANDALS AND WOES OF AMERICA THAT HAVE BEEN INFLICTED UPON ITS DEMORALIZED LEGAL CITIZENS SINCE 2009 VIA **EO 13489 IDENTITY-HIDING INTENSIONS** AND ALL THE NEW WOES NOT YET FULLY IMPOSED ON AMERICA, CAN BE TRACED BACK TO THE PRE-MEDITATED HI-JACKING OF AMERICAN GREATNESS BY PRO-ISLAM BARACK (ARABIC FOR "BLESSED") HUSSEIN (MUHAMMED'S CREATED NAME MEANING "HANDSOME") SOETORO (BARRY'S MUSLIM STEP-FATHER'S NAME) OBAMA (A MUSLIM FAMILY NAME IN KENYA) WHEN NANCY PELOSI WILLFULLY ALLOWED THIS UNIDENTIFIED NON-NATURAL-BORN TROJAN HORSE, FILLED WITH VENGEFUL DIVIDE-AND-CONQUER INTENSIONS, INTO APPLE PIE AMERICA ON AUGUST 28, 2008. NO EXCUSES, NO COVER-UPS, NO MEDIA BLACK-OUTS, NO POLITICAL CORRECTNESS, NO INTIMIDATION, NO HIDING UNDER THE COVER OF DARKNESS OF SKIN COLOR, NO PITIOUS POSITIVE DISCRIMINATION, NO MURDERS, NO CORRUPTED COURT DECISIONS SUCH AS THE ONE DISCUSSED HEREIN NOR ANY OTHER CONTRIVED MEASURES CAN ALTER THIS FACTUAL OBSERVATION. <<<<<<<<

Facts are stubborn things; and whatever may be our wishes, our inclinations, or the dictates of our passion, they cannot alter the state of facts and evidence. - John Adams in 1770

There is never a right way to do a wrong thing nor a wrong time to do the right thing. – J Mooers 2013

The accomplice to the crime of corruption is frequently our own indifference. - Bess Myerson

PC is like a probation officer that monitors freedom of thought and freedom of expression for violations of parole. – J Mooers 2014

Where raw honesty has an offensive odor to some, PC may offer an improvised perfume for all.- J Mooers 2014

IT IS THE UNALEINABLE RIGHT OF EVERY LEGAL AMERICAN CITIZEN TO KNOW THE FULL VERIFIABLE IDENTITY OF ANY PERSON WHO WOULD BE TEMPORARILY EMPOWERED TO BE THEIR PRESIDENT, AND IF SOME RISK HANGING FOR TREASONOUS ACTIVITIES INTENDED TO DENY AMERICAN CITIZENS THEIR RIGHT TO FULLY KNOW WHO THEIR PRESIDENT IS, IT BECOMES THE UNALIENABLE RIGHT AND MORAL DUTY OF EVERY LEGAL AMERICAN CITIZEN TO DEMAND FULL IDENTITY OF THEIR PRESIDENT OR EXPEDITIOUSLY REMOVE ANY UNIDENTIFIED OR PARTIALLY IDENTIFIED OR PARTIALLY ELIGIBLE PRESIDENT FROM OFFICE.

What duly enacted federal law specifically states that We the People shall not know the full identity of our President at any time during his candidacy or his tenure in office? I think the answer to this query is the manufactured counterfeit “law” made by a Counterfeit President Barry-Barack Soetoro-Obama, namely his enabled counterfeit creation, “Executive Order” 13489, is it not!?

JONATHAN DAVID MOOERS, PE (Structural- MA, ME, NH, NY, RI: wood-steel-concrete-masonry-aluminum), F.ASCE, MBA, LT (Ret.) US Army Corps of Engineers, Grandparent; Descendant of Edmund Mooers and Ann Travis who helped settle Newbury, MA circa 1638, and Gen. Benjamin Mooers who fought for America in the Revolutionary War and the War of 1812, and John Robert Mooers, my father, who endured 26 B-24 bombing missions over Germany, Italy and Austria in WWII, some through terrifying fields of bursting anti-aircraft fire, to preserve and protect America’s US Constitution; natural born American citizen of legally married/never divorced American parents, John and Mary Mooers, who were natural born American citizens at the time of my birth on Easter Sunday (April 17) 1949 in Bangor, Maine. *I have worked for America and America has worked for me, so, I say, redistribute my work ethic, not my wealth.*

BACKGROUND AWARENESS

WITHIN OUR GOD-PROVIDED UNIVERSE (some 13.8 billion years old), TRANSPORTED AND SUBSISTING UPON OUR GOD-PROVIDED PLANET EARTH (some 4.5 billion years old), LIVING INSIDE OUR GOD-PROVIDED BODIES, THE ONLY THING WE HUMANS CONTROL IN THIS WORLD IS OUR THINKING. I think, therefore, I am.- Descartes

We humans are just one heart-beat way from being physically reclaimed by Nature, spiritually reclaimed by God. We are but flawed and sinning organisms, the pip-squeak pawns of God and Nature, who rule serene and supreme over all of us.

Good thinking or bad thinking, and all the initiated bodily actions that follow, are all we humans can hope to control in this physical world we inherited.- J Mooers 2014

***Those Americans,, who would timidly surrender their inalienable rights for fear of an illegitimate Chicago mulatto and his army of riotous welfare warriors, attempted-murder-knockout-gamers and food stamp freedom fighters,, are the deserving victims of black male blackmail.* - J Mooers 2013**

Is it a fear that certain residents will riot if Soetoro-Obama is arrested for his failure to be eligible to be our so-called President? Whoever riots when Soetoro-Obama is arrested for hiding the truth of his identity should also be arrested for attempting to hijack that truth, kidnap that truth, intimidate that truth, keep that truth locked-down in its manufactured prison and lie-to-deny that truth from their own fellow American residents.

Dreams from My Father, John Robert Mooers

From my observations since 2007, **I have found the following about Counterfeit President Soetoro-Obama's supposed biological father, Barack Hussein Obama, Sr.:**

He was a negro born in Kenya as a Muslim member of the Luo tribe

He was an agitator during Kenya's Mau Mau rebellion, who vehemently despised white British colonialism; he was a socialist and a racist

He married a Kenyan village girl and they had one son before he abandoned her to go to America

He was air-lifted from Kenya to University of Hawaii as a British subject-foreign exchange student to major in economics

He impregnated 17 year-old Stanley Ann Dunham in a one-night sexual romp and then immediately abandoned her to selfishly embellish his ego with studies at Harvard University as a subsidized foreign exchange student; one public account indicates he was caught stalking young girls at school yards near Harvard looking to coax them into sexual engagements with his renowned Luo sexual prowess

He returns to Kenya and sufficiently agitates the Kenyan leaders with his relentless angry, boisterous, scotch-fueled comments of ungratefulness and personal arrogance; he eventually loses his Kenyan government job and dashes his former illustrious dreams with his own angry behavior

He drinks excessively and rants daily, often beating his wife(s); he has several severe car accidents while driving drunk to endanger himself and others

He severs both legs below the knee in one such car accident and, thereafter, hobbles around on steel pipe-legs

Finally, this wretched, angry, ungrateful self-centered delusional spirit kills himself in an apparent car-assisted suicide by driving into a tree in Nairobi, Kenya in 1982 at age 46

His willful angry conduct in this world succeeded in converting ANY youthful dreams into fitful adult nightmares, while leaving behind at least four wives and eight children, supposedly including his abandoned son, Barry-Barack Soetoro-Obama, our unwanted anti-American Congressional-corruption-enabled Counterfeit President.

The dreams from Barack Hussein Obama, Sr. are those of self-destruction, hatred for whites, willful polygamy and child abandonment, conceit, ungratefulness, jealousy of others and unbridled drunken vengeful rage against all his perceived worldly injustices; it would be a fairy tale to say this man was ever dreaming otherwise. Who in their right mind would attempt to fashion their life-journey on the life of Barack Hussein Obama, Sr. but none other than our adulterous homosexual cocaine-stained-brain Muslim-reared Marxist-mentored anti-American illegitimate Chicago mulatto phony President Soetoro-Obama! He may be your President, but he will never be my President!

The book, Dreams from My Father, supposedly written by Soetoro-Obama and unrepentant domestic terrorist Bill Ayers, reads like a convoluted arts-and-crafts summer-camp-Mein Kampf!

In stark contrast, I have the dreams from my father, John Robert Mooers. He and my Mom married in 1944 and remained married for 60 years until Dad died at age 80.

In many ways, I have conducted my life after my Dad's own experiences and that has empowered me to take on the Office of the President of the United States of America to work to remove its current illegal and traitorous occupant, Soetoro-Obama.

The family unit is the first government; an incubator for a growing child's values and affections. - J Mooers
2013

Dad never said the F-word in front of me, he drank very little although his dad was an alcoholic, he made his four sons attend to livestock chores on his large potato farm in northern Maine because he said it would build character doing chores that will likely be non-existent in the future. He and Mom made sure their mischievous sons attended the local Episcopal church sufficiently enough to guide their developing frames of mind.

He earned a degree in economics.

He risked his life on 26 B-24 Liberator bombing missions in WWII. A typical mission began with a briefing and the resulting tenseness. His crew slept in a make-shift canvas-covered hut on a make-shift base in Taranto, Italy. On nights before a mission, some crew members smoked in darkness near Dad, sorting out their own thoughts. In the morning, the crew would usually have breakfast of powdered eggs and black coffee, then go suit up in thermally-wired suits since it would be 40 degrees below zero at flight altitudes. Stuffed in the glass-domed tail of a B-24 bomber with twin 50-caliber machine guns, some missions fully loaded with 500 pound bombs, the four 1,200 horse-powered props had all they could do to get off the muddy air strip, still hovering just above the ocean as the B-24 made its laborious ascent up to its group formation altitude. These were men in their early twenties and the oldest member of my Dad's crew was the pilot, 26, who they called "Pops". Dad would sit in the tail-gun compartment on some missions on sunny days flying over the beautiful Alps below and ponder in the monotonous drone of a B-24 "flying fortress" formation, "What is a farm boy from Houlton, Maine doing here?"

As the Drop Zone came into view, be it industrial sites over Germany or Austria or over the Brenner Pass to cause a snow avalanche on retreating Germans, each crew member scurried around taking care of their assigned flight tasks. For Dad, he was to pull the arming pins of each of the bombs stacked in the vertical bomb racks, and keep these pins secure in case the mission was aborted and they would need to be re-inserted to disarm the bombs. Another task was to release "chaff" tin-foil strips to scramble the focus of radar-guided anti-aircraft batteries below. If Luftwaffe could send up fighters, Dad would need to keep an eye out for these fighters coming in from behind the B-24 aerial formation to shoot twin 50 caliber busts aimed *in front* of the fighters to fly into. Another task exclusively for Dad was to take photos of bombs "walking" (exploding) over the terrain below by pushing a hand-held plunger every 5 seconds to take aerial photos. Upon landing back at the Taranto base Dad was to immediately get his bomber's camera to Headquarters for film development and theater of operations updating.

With bursting anti-aircraft shells around him on some missions, Dad recorded on tape about 4 months before died in 2004 that one had to struggle to keep mission-focused as you were sometimes so terrified of being killed that you could panic. He said he just had to relax and surrender himself to God's inevitable plan.

On one mission part of Dad's glass-dome was blown off by flak. The worst mission was when his B-24 was returning over the Adriatic Ocean on their assigned azimuth off the Drop Zone when they were reduced to 1 ½ engines. They were losing altitude. The crew dumped much of its interior weights including machine guns and ammo; the pilot opened the bomb-bay doors and ordered all the crew to prepare to parachute thru the bomb-bay if he turned the overhead green light on. Dad remembered the crew formed around the bomb-bay was fearful of having to jump; one member had a visible moist circle around his groin area (pissed himself). The pilot was able to feather-out the engine fires sufficiently to get the bomber landed safely on a small British Spitfire base in Yugoslavia.

Dad was not perfect, but he was perfect enough for his four sons. He encouraged us to go to college and pay our own way in life. He taught us to work; he had us four boys work in the fields picking rocks, planting and harvesting over 200 acres of potatoes, raising and weeding corn, strawberries, squash and fields of grain for crop rotation and packaging potatoes into train cars.

Dad inspired my passion to write by his toiling for two months night after night at the farm's kitchen table on a national 25-word-limit contest for the Kordite plastic bags he packaged potatoes in. He won that national contest and took Mom to Europe for two weeks! I can still remember the crumpled papers with trial scribbled thoughts cast onto the kitchen floor in a focused effort to optimize word assemblies for maximum impression.

Probably the most inspirational thing Dad did, without his realizing it, was his frequent affectionate embrace of Mom. I recall us four boys sitting around the kitchen table at 5 o'clock on several occasions as Mom was preparing supper in the adjacent pantry. Dad would come in from the fields, enter the front porch, usually tired

and attired in dusty sun tan khaki shirt and pants. Upon his entry into the kitchen Mom would sometimes come out of the panty with her apron on, and Mom and Dad would caress. The cares of the day visibly melted away. They would hug each other like soul mates clearly in love with each other. I often wonder how many kids in America today ever see their natural parents display affectionate embraces. Very powerful, uplifting and comforting to remember incidents of genuine spontaneous affection at home!

I also have the dreams from my father-in-law, Robert Wilson Miller, to empower me to challenge Counterfeit President Soetoro-Obama. Robert was kind enough to let me marry his only child, Susan; and we have remained married since 1976. Robert Miller was a US Marine assigned to guard the USS Constitution in winter-cold Boston Harbor at the start of WWII. He later served on the USS Bunker Hill that took hits from two Japanese kamikaze A6M Zeros on the ship's approach to Okinawa invasion. He survived a flight deck that became filled with fire, bodies, bursting fueled fighter planes and errant machine gun fire from those burning planes. In response, the ship was maneuvered almost onto one side so that the burning planes, bodies and debris could slide off the deck into the sea. Robert survived this conflagration but some 389 sailors lost their lives in just that single WWII incident alone. Robert loved the Maine woods and taught me that in Nature's wilderness there is solace, playfulness and spirituality.

Some will see that this comparison of fathers was prepared so as to mock our so-called President; as an act of personal vanity and arrogance. Don't care. He deserves it. I do it to show that Soetoro-Obama was abandoned at birth, a one-night-full-term-sperm-of the-moment that went on to deride his white half and angrily package his black half as radical and piratical, enlisting hateful malcontents including Saul Alinsky, Stokely Carmichael, Malcom X, and David Axelrod, to fit his own political ambitions. Soetoro-Obama is a living packaged fraud. He is a danger to humanity just like his angry dad was. Soetoro-Obama has a passion for controlling the lives of other humans, through subsidized abortions, drone strikes, lawless directives and other means anywhere he can get away with it. I suspect his passionate addiction for human control is a sexual thing to satisfy his natural homosexual impulses (pigment politics? penis politics?); this control addiction may also be manifested by his desire bask in the glow of fawning adulation from others in order to fill the emptiness of childhood abandonment. Most Americans had nothing whatsoever to do with his shabby abandonment and radical life choices, but all Americans now suffer from his deceitful, callous and vengeful mindset. He and Michelle despise white Christian males, some of whom enlightened an otherwise dark and sinister humanity with the Magna Carta, the Mayflower Compact, the Declaration of Independence, the US Constitution and its Bill of Right Amendments, the Emancipation Proclamation, etc. Regardless of their carefully packaged public appearances and rhetoric of mellifluent coup code words, however, *their actions generally speak otherwise*. His endless lies. His disrespect for legal Americans. He works to jack-hammer apart traditional American values and to divide its citizens against each other. He passionately nurtures lawlessness and harnesses the chaos-promoting manipulation of illegal aliens and the underclasses among us to propel his own selfish political mad scientist trajectory.

Don't believe me? Read ***Obama Nation*** and ***Where's the Birth Certificate?*** by Dr, Jerome Corsi, and ***Manchurian Candidate, Fool Me Twice*** and ***Impeachable Offenses*** by Aaron Klein and Brenda Elliott, and ***Officer's Oath*** by Terrence Lakin. I have read those books and several others to form a clearer picture of just who this enigma, called Barry-Barack Soetoro-Obama, really is.

ARREST- TEST FOR ILLICIT DRUGS- IDENTIFY- PROSECUTE FOR TREASON AND HIGH CRIMES AGAINST AMERICA- SENTENCE- EXECUTE SENTENCE(S) on Barry-Barack Soetoro-Obama, Michelle Soetoro-Obama, Valerie Jarrett, Nancy Pelosi, Hillary Clinton, Joseph "Big f---ing deal" Biden, Eric [With-] Holder, Harry Reid and John Boehner as my 65 year-old fully American mind judges they are all candidates for the gallows for treason; Susan Rice, David Axelrod, Lois Lerner and others should be arrested and tried for equal or lesser crimes against America. How did America get in its current state of precarious affairs on the world stage? These nine so-called leaders are 100% responsible for leading us there since 2007 and they must be held accountable for our current national

demise! No presidential library for Soetoro-Obama since he worked passionately to bankrupt and progressively collapse America. No pardons, no pensions, no Secret Service protection, no health care coverage and no continued political careers for all nine so-called leaders in their imprisoned retirement years as they each worked to harass, intimidate, deceive and indenture all American citizens, some of whom naively empowered them temporarily with their votes to lead us astray.

http://teapartyorg.ning.com/forum/topics/nancy-pelosi-promotes-amnesty-by-washing-feet-of-immigrant?xg_source=msg_com_forum&id=4301673%3ATopic%3A2700941&page=5#comments

Do not waste valuable time and resources pretending to impeach Soetoro-Obama because our Congress has so many multi-term pensioner-peacocks who cannot possibly fly like eagles over this task, and so many sold-out political whores who cannot possibly re-establish their former political virginity as needed to carry out a real impeachment with real punishments; just look at the impotent impeachment of our former shameless sexual predator-President, William Clinton, as an example of Congress's limited ability to impeach one of their own.

I am a professional engineer who has designed structures for 40 years. Some of my structures make up the National Aquarium in Baltimore

(<https://www.google.com/maps/place/National+Aquarium,+Baltimore/@39.285345,-76.608315,2a,90y,90t/data=!3m5!1e2!3m3!1s193854!2e1!3e10!4m2!3m1!1s0x0:0xc7f0a8617c7c7e8e!6m1!1e1>),

buildings within King Khalid Military City in Saudi Arabia (

http://en.wikipedia.org/wiki/King_Khalid_Military_City), a \$1 billion Sappi pulp and paper complex near Johannesburg, South Africa, electrical power generation plants in Holtsville, Long Island, NY and at the Brooklyn Navy Yard in NYC, a New York Times newspaper printing plant in Edison, NJ, a 26-story apartment building at Mission Park complex in Boston, MA, a biomass-to-energy power plant in Kingsburg, CA, several electrical substation yards (<http://cedb.asce.org/cgi/WWWdisplay.cgi?154601>), and if anyone herein attended the Rolling Stones concert in 1975, you would have seen a large \$1 million aluminum space frame stage used in several concerts across North America (see overhead space frame supporting lights in several frames herein, most notably, at 2:14 seconds <http://www.youtube.com/watch?v=K7TVDLWofXc>

Working with wood, steel, concrete, masonry and aluminum materials to comfort humanity has been gratifying, somewhat spiritual, since engineers can only control their thinking and only work with materials Nature left here on Plant Earth, and only assemble those limited materials in ways that will harmonize with the forever Laws of Nature.

Engineers optimize the assemblies of Earth's limited resources in order to resist or harness the forces of Nature.
– J Mooers 2012

No one likes gravity, but it's the Law. – J Mooers 2004

After working 40 years to solve physical problems with discrete stable materials, my attention is now directed at attempting to solve social problems. However, it is much more difficult solving social problems since one has to work with potentially explosive "materials" called, human beings. Nonetheless, there is some commonality in approaches that can be used to solve either physical or social problems.

America has many vexing social problems confronting our present and future generations: \$17.3T federal debt, some 90 M persons outside the labor force, a run-away-life-of-its-own federal Government, war in Afghanistan, gun violence, aggression outside our borders from Chinese and Russian ambitions, Muslim jihad insanity inside and outside our borders, failed \$16T war on poverty, illicit drug use among the populace, unsecured US-Mexico border and invasion of illegal aliens, etc.

The first and foremost problem that needs to be solved, as in ended, as in brought under measurable control, is our federal government, for an unhealthy capital makes for an unhealthy body politic. To do this:

1. **Recognize that the US Constitution and its Amendments is the Law of the Land.** There is no other human behavior law, not Sharia Law, nor a sitting President Soetoro-Obama who has not even been irrefutably proven to be Constitutionally eligible to even be our President, that America will recognize unless it is ordained in our sacred paid-for-in-American-blood US Constitution. Presently, citizens have to daily hold up the US Constitution in front of Obama Administration officials as a priest would hold up a Christ-crucifix before an assembly of advancing devils.

First order of business, then, is to **arrest and remove Soetoro-Obama and his 8 immediate collusive associates from America's political landscape**, as these humans are intent on ushering in the lawless and treasonous progressive collapse of America. Recognize and act on the knowledge that Soetoro-Obama is America's Public Enemy No.1, just as Germany should have recognized and acted on the knowledge that Adolf **Schiclegruber [Hitler]**, a lowly paper hanger who masterminded a military "grip of fear", was Germany's Public Enemy No. 1, before some 55 million souls lost their lives horribly during WWII.

2. **Support Convention of States**, now underway in all of America, to allow 38 to 50 state legislatures to propose and ratify practical, durable Amendments to the US Constitution per Article V, since Congress will not limit its power and will not control itself, as the past four decades of Congressional behavior clearly indicates. Proposed new Amendments that *Congress will have to obey* include **term limits** of 12 years of total service to end the formation of "long-term corruption centers" within Congress, **limits on federal budget** to only spend what is taken in with taxes, irrefutably **secure our national borders** and defend our sovereignty with US armed forces and American engineers so that the faithfully neglected invasion of illegal aliens is 99% restrained, and **no discussions of "amnesty-without-borders"** shall continue until said borders are irrefutably secured, and other Amendments to set limits, to supervise our out-of-control, life-of-its-own obese federal King Government.

1776- "TAXATION WITHOUT REPRESENTATION!"

2014- "TAXATION WITH LIMITATION!"

3. Because Steps 1 and 2 will greatly disturb existing social order, just like any great engineering project site would do, there will be huge resistance to these proposed changes. That resistance, I call "social inertia", since it will take considerable force to move forward and overcome the resistance forces of "static and dynamic friction".

To maintain national leadership during the treason trials of the Gang of Nine, Congress and the 50 state governors work closely together. Congress to elect among its body a President Pro-Temp and Vice-President Pro-Temp and other pro-temp officers with all the powers of their former, now incarcerated, associated officers. Primary and general elections (2014 and 2016, in particular) to be conducted per usual. The most important decision in all this re-establishment of leadership, is the selection of the Pro Tempore President. That individual must have a brain, literally, that is All-American, fully natural-born, has a military background, ideally, and is 100% dedicated in getting traditional American values re-set; in other words, a George Washington sort of person. The person that comes to mind for this Pro Tempore Presidential position is Mitt Romney or General **Petreus**. No distracting experiments with America's first woman (Pro Tempore) president, etc., as America is in dire need to SOLVE THIS LEADERSHIP PROBLEM WITH THINGS THAT HAVE PROVEN SUCCESSFUL IN THE PAST!

Prepare for strife in the streets and respond with local forces, not federal forces, as much as possible.

To overwhelm the frictional forces of Congress to going along with these changes, since Congress for way to long now has gotten away with serving its own interests, is to require an immediate freeze on all federal expansion, spending and money printing. Also, an independent financial center is to be established and all federal taxes are sent to that independent center, not to the US Treasury. A Taxation Committee made up of citizens with proven business and accounting experience oversees said independent financial center. All federal taxes to be paid on time but are to be held as long as necessary in this independent financial center and not released to the US Treasury *until after*, in quid pro quo fashion, at least four conditions are expeditiously met:

1. Gang of Nine trials are established and proceeding in earnest towards sentencing.
2. All discussions of “amnesty without borders” ceases completely; existing immigration laws are enforced including deportations; **US Army, Marines, Air Force and Coast Guard units are deployed along full length of US-Mexico border** with instructions to thoroughly inform Mexico our our firm intentions to close the border, then shoot to kill border trespassers. Enforce E-verify with US employers, much as originally intended. Our immigration system is likely not “broken” after all, but the weak will and selfish interests of pandering politicians willfully “broke” existing immigration laws and associated enforcement measures.
3. Term limits and federal budget Amendment are established on behalf of America’s well-being in Congress and ratified. Also, define in the US Constitution “natural-born” as being born within a US jurisdiction of two legally married, never divorced, man and woman parents who were born and raised their whole lives within an American jurisdiction, at the time of the presidential candidate’s birth.
4. Other quickly and prudently doable measures are imposed on Congress to discuss and act upon that are in America’s best national and foreign and military interests.

Only after these four conditions are satisfied will monies held in said private financial center be turned over to the US Treasury.

While these above-listed proposals may be woefully over-simplified, laughable to some, they are a start in the right direction. It will take **skillful and dedicated leadership** to bring these sort of measures to reality, but we must proceed since the alternative to continuing on the radical irresponsible lawless unstable chaos-tempting path imposed by a Counterfeit President Soetoro-Obama, is wholly dangerous and unfavorable to a trusting American public’s well-being.

Where there is a will, there is a way!

January 4, 2021

The media are lying about Trump's phone call with Raffensperger

By [Andrea Widburg](#)

The mainstream media and Georgia's secretary of state, Brad Raffensperger, are utterly disgraceful, dishonest, and manipulative people. Raffensperger released a private phone call that the media immediately claimed — falsely — showed Trump begging Raffensperger to fraudulently find enough votes for Trump to win. In fact, Trump called Raffensperger to get him to stop obstructing the fraud investigation. As Trump explained during the call, evidence proves Trump won Georgia by a massive margin, only to have victory stolen through equally massive fraud. Trump sought to avoid litigation forcing Raffensperger to do his job, which is to make at least a minimal effort to clear away enough fraud to allow Trump his actual and honest victory in Georgia.

Here are just two examples of the media's dishonest claim that Trump was trying to force Raffensperger to commit fraud. As you can see, their premise is that there is no evidence of fraud, so any action on Trump's part to claim victory is itself fraud. Theirs is a deliberate example of circular logic, where their premise and conclusion are the same thing.

[Washington Post](#): "The Washington Post obtained a [recording](#) of the conversation in which Trump alternately berated Raffensperger, tried to flatter him, begged him to act and threatened him with vague criminal consequences if the secretary of state refused to pursue his false claims, at one point warning that Raffensperger was taking 'a big risk.'"

[CNN](#): "In excerpts of the stunning one-hour phone call Saturday, Trump lambasted his fellow Republican for refusing to falsely say that he won the election in Georgia and repeatedly touted baseless claims of election fraud."

Here's what really happened on [the phone call](#). First, Trump wasn't the only person on the phone. Also present were Mark Meadows, Mike Pompeo, and multiple attorneys. There isn't the slightest chance that they would have allowed Trump to beg Raffensperger for illegal votes or to threaten him.

Second, contrary to what the media implied, Trump was not operating off the premise that he lost Georgia. If that had been the case, it would indeed have been wrong for Trump to beg for Raffensperger to "find" votes for him.

Instead, Trump was operating from the assertion that he *won* Georgia. He opened the call with a strong recitation of the facts showing massive fraud on Raffensperger's watch. According to Trump's evidence, he didn't lose by 11,780

votes; he won by well over 300,000 votes, including [votes for Trump that disappeared](#) and illegal votes for Biden. Here are some of Trump's statements in that regard:

"I think it's pretty clear that we won. We won very substantially in Georgia."

"We have ... anywhere from 250–300,000 ballots were dropped mysteriously into the rolls."

"We think that if you check the signatures — a real check of the signatures going back in Fulton County you'll find at least a couple of hundred thousand of forged signatures. ..."

"[I]n the 50s of thousands ... that's people that went to vote and they were told they can't vote because they've already been voted for."

"It's 4,502 who voted but they weren't on the voter registration roll which they had to be. ..."

"You had 18,325 vacant address voters. The address was vacant and they're not allowed to be counted."

Trump alluded to the faked water main break that allowed Fulton County election workers to count votes for hours after having sent observers home. He noted that the video of that after-hours voting indicated that at "the minimum it was 18,000 ballots, all for Biden."

Trump pointed to 4,925 illegal out-of-state voters, 2,326 absentee ballots from vacant addresses, 5,000 dead people voting, and improperly handled drop boxes. And he brought up the allegations that Georgia is shredding evidence as fast as it can.

The bottom line, as Trump accurately said, is that these infractions were "many, many times the 11,779 margin [sic] that they said we lost by."

Trump hammered over and over that he won the state. No matter how you look at it, he said he won, and he's got the evidence to prove it.

At this point, Mark Meadows stated what Trump's team wanted — and it wasn't to fake votes for Trump. It was, instead, an honest investigation: "What I'm hopeful for is there some way that we can ... find some kind of agreement to look at this a little bit more fully." Thus, Meadows sought an agreement "that we can at least have a discussion to look at some of these allegations to find a path forward that's less litigious."

Raffensperger pushed back, saying he'd already had to deal with lawsuits (ignoring that the courts refused to hear evidence). He also huffed that "we gave our state Senate about one and a half hours of our time going through the election issue by issue and then on the state House, the government affairs committee, we gave them about two and a half hours of our time, going back point by point on all the issues of contention. And then just a few days ago we met with our U.S. congressmen, Republican congressmen, and we gave them about two hours of our time talking about this past election."

Did you get that? The biggest election fraud claim in American history, the president on the phone, massive amounts of evidence, and Raffensperger whines that he's already given up *six and a half hours* of his time to the issue.

Trump again chimes in to say, "We won the state." In response to Raffensperger's complaint that he sacrificed *six and a half hours* to the matter, Trump suggests that Raffensperger does not need to invest massive time in investigating all 300,000-plus problematic votes. He just needs to investigate 11,779 to give Trump *his rightful victory*. For, as Trump says, "Because, what's the difference between winning the election by two votes and winning it by half a million votes? I think I probably did win it by half a million."

When Raffensberger pushes back again, saying his office disproved the cemetery vote contention, Cleta Mitchell, a Trump attorney, makes an important point: Georgia has been withholding records from the White House.

There's more in the conversation (much more, including a debate about [the video showing Ruby Freeman](#) repeatedly scanning the same ballots), but you get the gist. Trump won. A lazy, entitled, arrogant, and corrupt Raffensperger won't work with the White House to look for fraud (or prove the absence of fraud). And the corrupt, dissolute, dishonest American media, unless brought to heel, will be the downfall of our constitutional republic.

Governor Kemp,

I demand that a REAL signature audit with OBSERVERS allowed at the ballot auditing stations. How dare Raffensberger not allow even Mark Meadows up close to review the process? We know what's going on and that a lot of fraud will be found when you do this right. Now make it happen, sir.

Thank you.

Governor Kemp

Mark Meadows came down to check on the signature verification. Why did they keep him away from the tables and only allow him 15 minutes to check these signatures.

This hearing you have going on currently is a dog and pony show. Where is the chain of custody. How about the boxes of ballots that were pulled out from under the desk. Have those been removed. What about people who are dead that voted. You need to call for a SPECIAL SESSION. You have the authority, please make it happen. Thank you.

COVID-19 Legislative Update

December 14 2020

The COVID-19 Legislative Update is published on Monday evenings. **If we see a deal finalized, there will be another update this week.** For past updates, click [here](#). For updates before May 8, click [here](#). If you believe you have been accidentally unsubscribed, you can re-subscribe [here](#).

12.14.2020. COVID-19 Legislative Update

Legislation

Supplemental IV

Timeline: Negotiations continued over the weekend and the bipartisan group released bill text earlier today. Appropriators read out the appropriations bills this afternoon, with the aim to file the bill in the House tomorrow. If a COVID deal is reached, it could be added to the omnibus bill as an amendment (along with other end of year items) in the Rules Committee meeting on Wednesday.

Process/Politics: While the bipartisan group released text today (with the liability protection and state/local/tribal governments released separately), **the expectation is that there will be changes to the text as leadership negotiates the final pieces**. There's been cause for cautious optimism as there's been significant momentum in the right direction.

Leader McConnell has been calling for liability protection and aid to state, local, and tribal governments to be left out of the end of the year package and be negotiated later. While Democratic leadership has continued to push to keep it in, in recent days House Majority Whip Steny Hoyer and Senate Majority Whip Dick Durbin have made statements pushing for a vote on a COVID package even if it doesn't include a deal on aid to state, local, and tribal governments and liability protections.

Policy: Earlier today the bipartisan group released two separate pieces of text: a \$748 billion package with less controversial items and a \$160 billion package that includes funding for state, local, and tribal governments and liability protections. **While text has been released, it is by no means final**. Leadership will undoubtedly alter sections before passage.

Problem Solvers/Bipartisan Framework: [Text](#) on main package. [Summary](#) of the main package. [Text](#) on liability protection/state aid protections. December 9 [framework](#). December 1 press release [here](#). December 1 framework [here](#).

Highlights of the main package:

- \$300 billion for the SBA, \$138 billion repurposed from unspent **Paycheck Protection Program** (PPP) allocations.
 - Allows business expenses paid for with PPP loans to be tax deductible
 - Includes set-asides for small borrowers (10 or fewer employees) and CDFIs/MDIs
 - Includes support for restaurants, types of 501(c)(6)s, and live events
- \$180 billion for **Unemployment Insurance** (UI)
 - \$300/week for 16 weeks (through April 2021)
 - \$1 billion for state technology modernization/fraud prevention
- \$6 billion for **vaccine development/distribution**, including:
 - \$3.42 billion for direct grants to state/localities/tribes
 - \$2.58 billion for CDC vaccines distribution and infrastructure (\$129 million for tribes and relevant tribe-serving organizations).

- \$10 billion for **testing and tracing**, including:
 - \$3.5 billion in direct grants to state/localities/tribes,
 - \$2.32 billion to hot spots, and another \$827.5 million to be used for states at the Secretary's discretion,
 - \$350 million to tribes and relevant tribe-serving organizations.
 - \$2 billion for nursing homes, long term care, HCBS, and assisted living facilities.
 - \$700 million for additional research and medial supply needs
- \$35 billion for the Healthcare **Provider Relief Fund**, including
 - \$7 billion for rural providers and \$1 billion for tribes and relevant tribe-serving organizations.
 - Provisions that allow certain flexibilities with PRF funds (lost revenue calculations, movement of funds)
 - Authorized interstate compacts for COVID-19 tests and supplies
 - Extends telehealth flexibility through December 31, 2021.
- \$4.6 billion for **opioids and mental health**, including
 - \$3.15 billion for SAMHSA programs,
 - \$1.3 billion for State Opioid Response (SOR) Grants
- \$45 billion for **transportation** support, including
 - Extension of the Payroll Support Program from the CARES Act until March 31, 2021,
 - Funding for airlines/airports through March 31, 2021,
 - Funding for buses and motorcoaches, public transit systems, and Amtrack through March 31, 2021.
- \$10 billion for **Child Care Stabilization Grants**, funded through HHS for child care providers.
- \$13 billion for **farmers, ranchers, growers, and rural** communities, as well as \$600 million for fishery disaster relief.
- \$12 billion for emergency investments, including
 - \$2 billion for the **CDFI fund**, relief to minority communities, minority-owned lenders, (\$800 million for minority lending institutions),
 - \$10 billion for **CDFIs and MDIs** for immediate economic relief in low-income and minority communities hard hit by the pandemic.
- \$10 billion for U.S. Postal Service
- \$26 billion for nutrition/agriculture, including
 - Temporary increase to **SNAP** benefits,
 - Increased funding for school and child care meal programs,

- Funding for senior nutrition services and extends flexibilities,
- Funding for US territories not served by SNAP,
- Funding for food distribution programs on tribal reservations.
- \$25 billion for **rental assistance** to state, local, and tribal governments, including
 - Prioritization of low-income households,
 - Funding can be used for rent, utilities, and other related housing expenses,
 - Extension of current eviction moratorium to January 31, 2021.
- \$82 billion for **education**, including
 - \$7.5 billion for Governors Emergency Education Relief Fund (\$2.5 billion for private schools),
 - \$54 billion for K-12,
 - \$20 billion for higher education.
- Extension of student loan forbearance created in CARES to April 1, 2021.
- \$10 billion for **broadband**, including
 - \$6.25 billion for state grants,
 - \$3 billion for E-Rate,
 - \$475 million for FCC COVID-19 Telehealth Program,
 - \$100 million for the VA Telehealth and Connected Care Program.
- Reallocates \$429 billion in unused Treasury loans and excess funds from Federal Reserve.

Passed Legislation

Moving forward, this section will only include new information and guidance. For past information and guidance and passed legislation, please refer to the [archives](#). For a summary of all supplementals, please see [here](#).

New Implementation Information and Guidance

- There has been no new information and guidance since the previous update.

12.10.2020. COVID-19 Legislative Update

Legislation

Supplemental IV

Timeline/Process/Politics: The current discussions are the farthest we've gotten toward a bipartisan bill, and it seems that there is a significant amount of political will from members from both sides of the aisle to get a COVID relief package passed before Congress leaves town. However, time is running out – **it's unclear if negotiators will be able to reach a deal on liability protection in the time left.** Once a deal is agreed upon, it will take time to draft the bill and finalize the text. As of publishing, the Senate had yet to pass the one-week continuing resolution that would extend funding for the government until December

After a brief interlude on Tuesday, after the White House dropped a \$916 billion package with unemployment insurance numbers Speaker Pelosi and Leader Schumer called “unacceptable”, the bipartisan group has continued working towards a deal. **While we have yet to see text, the group released an [updated framework](#) on Tuesday with more details on various sections of the bill.** Later that day, the bipartisan group announced a deal on funding for state, local, and tribal governments, leaving liability protections as the last piece to be negotiated. Soon after that announcement, McConnell’s staff [notified](#) congressional leaders that the bipartisan group’s attempts to find a deal on aid to state, local, and tribal governments and liability protections would likely not be enough to placate Senate Republicans. **Leader McConnell has continued suggesting lawmakers leave out the two most contentious issues areas** – liability protections and funding for state, local, and tribal governments – in favor of including those issues in a later bill. Democratic leadership has continued to dismiss that idea and encourage bipartisan discussions to continue.

Policy: The bipartisan group introduced more details on their framework earlier this week and **should be seen as the primary base for any deal** that surfaces in the next week. The White House and Leader McConnell have both proposed alternative packages to the framework, but both have been rejected by Democratic leadership. It should be noted that the current bipartisan framework is a *framework*, and not bill text. Once a deal is agreed upon, the chairs of the authorizing committees will need time to write the bill and finalize details.

Problem Solvers/Bipartisan Framework: Last Tuesday, a bipartisan, bicameral group released a COVID package framework. December 9 [framework](#). December 1 press release [here](#). December 1 framework [here](#) and below.

- \$160 billion for state, local, and tribal governments
- \$180 billion for Unemployment Insurance (UI), \$300/week for 16 weeks (through April 2021)
- \$300 billion for the SBA, \$288 for Paycheck Protection Program (PPP), including support for restaurants, types of 501(c)(6)s, and live events, tax deductibility, and set-asides for small borrowers and CDFIs/MDIs
- \$12 billion for CDFI/MDIs
- \$45 billion for airlines/airports, transit, Amtrak

- \$16 billion for vaccine development/distribution and testing/tracing
- \$35 billion for the Healthcare Provider Relief Fund
- \$82 billion for education
- \$4 billion for student loans
- \$25 billion for rental housing assistance
- \$26 billion for nutrition/agriculture
- \$10 billion for U.S. Postal Service
- \$10 billion for child care
- \$10 billion for broadband
- \$5 billion for opioid and mental health funding
- Short-term liability protection

White House Proposal: On Tuesday, Secretary Mnuchin presented a \$116 billion proposal to Speaker Pelosi and Leader Schumer. Secretary Mnuchin statement [here](#). Proposal reportedly included \$600 stimulus checks, but significantly lower levels for unemployment insurance compared to the bipartisan group's framework.

Updated McConnell Plan: On December 1, Leader McConnell released an updated version of the \$500 billion COVID package he released earlier this fall. Summary [here](#).

Passed Legislation

Moving forward, this section will only include new information and guidance. For past information and guidance and passed legislation, please refer to the [archives](#). For a summary of all supplementals, please see [here](#).

New Implementation Information and Guidance

- 12/9 – CRS released a report on Pandemic-Related Statutory Provisions Expiring in 2020. Report [here](#).

Members of Congress in Quarantine or Treatment (new additions in bold)

Tested Positive (11): Rep. Don Young (R-AK), Sen. Rick Scott (R-FL), Rep. Tim Walberg (R-MI), Rep. Cheri Bustos (D-IL), Sen. Chuck Grassley (R-IA), Rep. Ed Perlmutter (D-CO), Rep. Dan Newhouse (R-WA), Rep. Doug Lamborn (R-CO), Sen. Kelly Loeffler (R-GA), Rep. Brian Steil (R-WI), Rep. Joe Courtney (D-CT)

Currently Self-Quarantined (1): Rep. Mark Pocan (D-WI)

Recovered (16): Sen. Rand Paul (R-KY), Rep. Joe Cunningham (D-SC), Rep. Ben McAdams (D-UT), Rep. Mario Diaz-Balart (R-FL), Rep. Mike Kelly (R-PA), Rep. Nydia Velazquez (D-NY), Rep. Neal Dunn (R-FL), Rep. Tom Rice (R-SC), Rep. Morgan Griffith (R-VA), Rep. Louie Gohmert (R-TX), Rep. Raúl Grijalva (D-AZ), Rep. Rodney Davis (R-IL), Sen. Bill Cassidy (R-LA), Rep. Jenniffer Gonzalez-Colon (R-Puerto Rico at large), Rep. Dan Meuser (R-PA), Rep. Jahana Hayes (D-CT), Sen. Mike Lee (R-UT), Sen. Thom Tillis (R-NC), Sen. Ron Johnson (R-WI), Rep. Salud Carbajal (D-CA), Rep. Mike Bost (R-IL), Rep. Bill Huizenga (R-MI), Rep. Drew Ferguson (R-GA)

Completed Quarantine (47): Sen. Ted Cruz (R-TX), Rep. Mark Meadows (R-NC)*, Sen. Lindsay Graham (R-SC), Rep. Don Beyer (D-VA), Rep. Sharice Davids (D-KS), Rep. Doug Collins (R-GA), Rep. Paul Gosar (R-AZ), Sen. Cory Gardner (R-CO), Sen. Rick Scott (R-FL), Rep. Matt Gaetz (R-FL), Rep. Jason Crow (D-CO), Rep. Julia Brownley (D-CA), Rep. Ben Ray Lujan (D-NM), Rep. Gwen Moore (D-WI), Rep. Stephanie Murphy (D-FL), Rep. John Yarmuth (D-KY), Rep. Adam Schiff (D-CA), Rep. Vincente Gonzalez (D-TX), Rep. Drew Ferguson (R-GA), Rep. David Schweikert (R-AZ), Rep. Anthony Brindisi (D-NY), Rep. David Price (D-NC), Rep. Ann Wagner (R-MO), Rep. Kathleen Rice (D-NY), Rep. Matt Cartwright (D-PA), Rep. Tom Cole (R-OK), Rep. Steve Scalise (R-LA), Rep. Frederica Wilson (D-FL), Rep. Andy Kim (D-NJ), Rep. Kendra Horn (D-OK), Sen. Mike Lee (R-UT), Sen. Mitt Romney (R-UT), Rep. Katie Porter (D-CA), Rep. Seth Moulton (D-MA), Rep. Lizzie Fletcher (D-TX), Rep. Josh Gottheimer (D-NJ), Rep. Ayanna Pressley (D-MA), Rep. Mikie Sherrill (D-NJ), Sen. Lamar Alexander (R-TN), Rep. Randy Weber (R-TX), Rep. Kay Granger (R-TX), Rep. Mike Johnson (R-LA), Rep. Jody Hice (R-GA), Rep. Guy Reschenthaler (R-PA), Sen. Ron Johnson (R-WI), Sen. Shelley Moore Capito (R-WV), Rep. Lisa Blunt Rochester (D-DE), Sen. Ben Sasse (R-NE), Sen. James Lankford (R-OK), Sen. Ted Cruz (R-TX), Rep. Mike Johnson (R-LA), Sen. Kamala Harris (D-CA)

The COVID-19 Legislative Update will be published on Monday evenings, until negotiations ramp up (or dissipate). **If we see text this week, there will be another update sent later this week.** For past updates, click [here](#). For updates before May 8, click [here](#). If you believe you have been accidentally unsubscribed, you can re-subscribe [here](#).

12.7.2020. COVID-19 Legislative Update

Legislation

Supplemental IV

Timeline: After an increasingly pessimistic couple of weeks, last week showed some momentum for passing a COVID relief package before the end of the year. Two proposals were released last week – an updated version of Leader McConnell's \$500 billion package and a framework unveiled by a bipartisan, bicameral group, including the Problem Solvers Caucus. The bipartisan group, [calling](#) themselves the "908 coalition", worked through the weekend, with the aim of dropping **text tomorrow or Wednesday**. If a COVID deal comes

together, it will be combined with the omnibus, so there's only one vote needed before members fly out. Although the current CR runs out this Friday, Congress is gearing up to pass a one-week CR, **extending the deadline to finalize any COVID relief deal to next week.**

Process/Politics: Right now, it seems the focus is on taking things out of the Bipartisan Package rather than putting new items in. **Liability protection will be the last item negotiated and the text could even be released this week with liability protection bracketed.** On Wednesday, Speaker Pelosi and Leader Schumer put out a [statement](#) endorsing the bipartisan framework, calling for it to serve as the base for negotiations between the two parties. At this point, it seems **Democrats are willing to support the bipartisan group's product – they've have indicated that as long as their main priorities are being addressed in some form, they will support the bill.**

Democratic leadership seems to be making the calculus that **with vaccine distribution ramping up early next year, there will be immense pressure for additional funding for vaccine distribution, and thus, another COVID bill.** A bill early next year would then include items that are left out of the current package. Some Democrats have been [calling](#) the current package as a “four-month emergency relief package”, assuming another will be necessary in another four months.

Policy: We saw two packages be released last week – an updated version of Leader McConnell's \$500 billion package and a framework unveiled by a bipartisan, bicameral group. The bipartisan framework clocks in at \$908 billion, almost double McConnell's \$500 billion proposal. However, the \$908 billion is not all new money – they're still a plan to repurpose unobligated funds from the Paycheck Protection Program and Treasury funds. Thus, the net cost is lower than the \$908 billion touted in the press. **Democrats and Republicans may characterize the topline differently**, however. Without getting too into the weeds, Democrats may refer to the bill's gross number (\$908 billion) rather than its net number.

Problem Solvers/Bipartisan Framework: Last Tuesday, a bipartisan, bicameral group released a COVID package framework. Press release [here](#). Framework [here](#) and below.

- \$160 billion for state, local, and tribal governments
- \$180 billion for Unemployment Insurance (UI)

- \$288 billion for the Paycheck Protection Program (PPP), including support for restaurants and live events, and tax deductibility
- \$12 billion for CDFI/MDIs
- \$45 billion for airlines/airports, transit, Amtrak
- \$16 billion for vaccine development/distribution and testing/tracing
- \$35 billion for the Healthcare Provider Relief Fund
- \$82 billion for education
- \$4 billion for student loans
- \$25 billion for rental housing assistance
- \$26 billion for nutrition/agriculture
- \$10 billion for U.S. Postal Service
- \$10 billion for child care
- \$10 billion for broadband
- \$5 billion for opioid funding
- Short-term liability protection

Updated McConnell Plan: Last Tuesday, Leader McConnell released an updated version of the \$500 billion COVID package he released earlier this fall. Summary [here](#).

Passed Legislation

Moving forward, this section will only include new information and guidance. For past information and guidance and passed legislation, please refer to the [archives](#). For a summary of all supplementals, please see [here](#).

New Implementation Information and Guidance

- There has been no new information and guidance since the previous update.

Members of Congress in Quarantine or Treatment (new additions in bold)

Tested Positive (7): Sen. Kelly Loeffler (R-GA), Rep. Brian Steil (R-WI), Rep. Joe Courtney (D-CT), **Rep. Susie Lee (D-NV), Rep. Austin Scott (R-GA), Rep. Ted Budd (R-NC), Rep. Robert Aderholt (R-AL)**

Currently Self-Quarantined (0):

Recovered (24): Sen. Rand Paul (R-KY), Rep. Joe Cunningham (D-SC), Rep. Ben McAdams (D-UT), Rep. Mario Diaz-Balart (R-FL), Rep. Mike Kelly (R-PA), Rep. Nydia Velazquez (D-NY), Rep. Neal Dunn (R-FL), Rep. Tom Rice (R-SC), Rep. Morgan Griffith

(R-VA), Rep. Louie Gohmert (R-TX), Rep. Raúl Grijalva (D-AZ), Rep. Rodney Davis (R-IL), Sen. Bill Cassidy (R-LA), Rep. Jenniffer Gonzalez-Colon (R-Puerto Rico at large), Rep. Dan Meuser (R-PA), Rep. Jahana Hayes (D-CT), Sen. Mike Lee (R-UT), Sen. Thom Tillis (R-NC), Sen. Ron Johnson (R-WI), Rep. Salud Carbajal (D-CA), Rep. Mike Bost (R-IL), Rep. Bill Huizenga (R-MI), Rep. Drew Ferguson (R-GA), Rep. Don Young (R-AK), Sen. Rick Scott (R-FL), Rep. Tim Walberg (R-MI), Rep. Cheri Bustos (D-IL), Sen. Chuck Grassley (R-IA), Rep. Ed Perlmutter (D-CO), Rep. Dan Newhouse (R-WA), Rep. Doug Lamborn (R-CO)

Completed Quarantine (48): Sen. Ted Cruz (R-TX), Rep. Mark Meadows (R-NC)*, Sen. Lindsay Graham (R-SC), Rep. Don Beyer (D-VA), Rep. Sharice Davids (D-KS), Rep. Doug Collins (R-GA), Rep. Paul Gosar (R-AZ), Sen. Cory Gardner (R-CO), Sen. Rick Scott (R-FL), Rep. Matt Gaetz (R-FL), Rep. Jason Crow (D-CO), Rep. Julia Brownley (D-CA), Rep. Ben Ray Lujan (D-NM), Rep. Gwen Moore (D-WI), Rep. Stephanie Murphy (D-FL), Rep. John Yarmuth (D-KY), Rep. Adam Schiff (D-CA), Rep. Vincente Gonzalez (D-TX), Rep. Drew Ferguson (R-GA), Rep. David Schweikert (R-AZ), Rep. Anthony Brindisi (D-NY), Rep. David Price (D-NC), Rep. Ann Wagner (R-MO), Rep. Kathleen Rice (D-NY), Rep. Matt Cartwright (D-PA), Rep. Tom Cole (R-OK), Rep. Steve Scalise (R-LA), Rep. GA - Supplies Red Report - Readme

Data provisional - For Internal Use Only (FIUD) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides an overview of this document.

Contact email w/ questions:	HHS Supply Chain Control Tower (OS/ASPB) <SCCT@hhs.gov>
Updated:	21 December 2020, 1700
Hospital data accessed:	18 December 2020, 1000
Hospital data current through:	16 December 2020, 2359
LTCF NHSN data updated through:	20 December 2020, 2359

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSN's LTCF COVID-19 module).

The dataset contains known data issues, including but not limited to:
i) inaccurate reporting by facilities or or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values

HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action.

OBJECTIVE
This file was created for purposes of briefing supplies status for healthcare provider facilities reporting in 5 critical PPE categories. It is based on data provided by HHS Protect Unified Hospital Supplies data and NHSN Long-term Care Facility (LTCF) supplies data.

ORGANIZATION OF DOCUMENT

- Hospital - all responses tab records the most recent supply survey response for any hospital submitting supplies data for the five PPE categories in the past week
- Hospital - low supply tab records the most recent supply survey response for any hospital submitting supplies data with supply issues (0-3 days of supply, cannot obtain, or cannot maintain 3 days supply) in the five PPE categories in the past week
- Hospital - non-reporting tab records a list of facilities that have not reported supplies data in the last week
- LTCF - all responses tab records the most recent supply survey responses for any LTCF for the five PPE categories for the week as indicated
- LTCF - low supply tab records the most recent supply survey responses for any LTCF indicating no current supply or not enough supply for a week in the five PPE categories in the latest week

DATA SOURCES:

- Data collected by TeleTracking, States, or submitted directly into HHS Protect, utilizing unified dataset for analyses
- Data collected by NHSN, submitted by long-term care facilities per NHSN LTCF COVID-19 Supply module (<https://www.cdc.gov/nhsn/ltc/covid19/index.html>)

DATA USAGE AND LIMITATIONS (HHS Protect Unified dataset):

- The dataset represents survey responses from US medical facilities; it is not currently a holistic view of all facilities and supplies in US healthcare providers.
- The dataset reflects responses of 3 questions:
 - On-hand supply (Duration)
 - Are you able to obtain this item?
 - Are you able to maintain a supply of this item?
 - On-hand supply (Units)
- The dataset reflects responses across 5 categories:
 - Masks - N95
 - Masks - Surgical/Procedural
 - Eye / Face Shields
 - Gowns - Isolation & Surgical
 - Gloves - Surgical & Exam
- All reporting should be captured in HHS Protect.
- Phone numbers, affiliated employees, and affiliated physicians merged in from HHS hospital database
- Data quality checks. A hospital is flagged for a 'data quality check' if the facility meets one (or more) of the below criteria in any PPE category:
 - Days on hand = 0 AND Units on hand > 0
 - Days on hand = 0 AND Able to maintain = "Yes"
 - Days on hand = 7+ AND Able to maintain = "No"

DATA USAGE AND LIMITATIONS (NHSN LTCF dataset):

- The datasets represents survey responses from US medical facilities; it is not currently a holistic view of all facilities and supplies in US healthcare providers.
- The worksheets for LTCF (NHSN dataset) reflects responses of "current supply" and "enough supply for one week" questions
- The dataset reflects responses across multiple PPE categories including:
 - Masks - N95
 - Masks - Surgical/Procedural
 - Eye / Face Shields
 - Gowns - Isolation & Surgical
 - Gloves - Surgical & Exam

DISCLOSURE:
For Official Government Use Only. No further distribution.
You may not distribute any information contained in this tool to non-governmental entities without the express authorization of HHS.

HOW TO READ THIS REPORT

'Hospitals' tabs: "Hospital - all responses"; "Hospital - low supply"

- Column B-O: Include a number of informational fields, such as hospital name, geographic fields, number of beds, etc.
- Column T: Indicates whether the facility failed one of the 5 data quality checks that we are performing to highlight responses that may be inconsistent (for example, a facility indicates 0 days of supply for N95 but indicates having units)
- Column U: Indicates the number of "low supply" responses based on 5 PPE categories (N95s, Surgical Masks, Eye protection, Gowns, Gloves) across the 3 supply questions: Days supply, Able to obtain, Able to maintain
- Columns V-AT: Provide the detailed responses for each of the 5 PPE categories across the 4 supply questions
- Column AU: Free text response, where a facility can provide more detail on any supply issues
- Columns AV-AY: Provide the detailed responses for each of the testing supplies categories

'LTCF' tabs: "LTCF - all responses"; "LTCF - low supply"

- Column B-N: Include a number of informational fields, such as facility name, geographic fields, etc.
- Column O: Indicates the number of PPE categories where the facility has indicated "no current supply" (max = 5)
- Column P: Indicates the number of PPE categories where the facility has indicated "less than 1 week supply" (max = 5)
- Columns Q-Z: Provide details responses across the 5 PPE categories based on two questions: "Do you have current supply?"; "Do you have enough supply for 1 week"

GA - Supplies Red Report - Hospitals latest responses

Data provisional - For Internal Use Only (FIUC)

This tab provides the list of hospitals and corresponding responses for PPE supplies and testing supplies based on self-reported values to Teletracking and direct to HHS Protect

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSS's LTCF COVID-19 module). The data includes known data issues for one or more of several reasons including: i) Data is reported incorrectly; ii) Systems issues for data transfers; iii) Data is not complete. All data should be validated before leveraging for action.

GA - Supplies Red Report - Hospitals latest responses

Data provisional - For Internal Use Only (FIUO)

This tab provides the list of hospitals and corresponding responses for PPE supplies and testing supplies based on self-reported values to Teletracking and direct to HHS Protect

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHCN's LTCF COVID-19 module). The data includes known data issues for one or more of several reasons including: i) Data is reported incorrectly; ii) Systems issues for data transfers; iii) Data is not complete. All data should be validated before leveraging for action.

GA - Supplies Red Report - Non-reporting hospitals

Data provisional - For Internal Use Only (FIUO)

This tab provides information of facilities that did not submit supplies data per the FAQ in the past week. Data intended to guide outreach to increase compliance.

Note: Some facilities may be reporting non-supplies data, therefore may have a submission in the past week, but did not report supplies data.

Link to FAQ (with detail on questions): <https://www.hhs.gov/sites/default/files/covid-19-faqs-hospitals-hospital-laboratory-acute-care-facility-data-reporting.pdf>

GA - Supplies Red Report - LTCFs latest responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.

Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time

Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

Updated:	21 December 2020, 1700
LTCF NHSN data updated through:	20 December 2020, 2359

Indicates a PPE category with "no current supply"
Indicates a PPE category with "less than one week supply"

GA - Supplies Red Report - LTCFs latest responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.
Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time
Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

Updated:	21 December 2020, 1700
LTCF NHSN data updated through:	20 December 2020, 2359

Indicates a PPE category with "no current supply"
Indicates a PPE category with "less than one week supply"

GA - Supplies Red Report - LTCFs latest responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.

Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time

Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

Updated:	21 December 2020, 1700
LTCF NHSN data updated through:	20 December 2020, 2359

Indicates a PPE category with "no current supply"
Indicates a PPE category with "less than one week supply"

						SUPPLIES - SUMMARY	
State	Facility name	City	ZIP	Facility Type	Week ending	Number of categories with no current supply (max. = 5)	Number of categories with less than 1-week supply (max. = 5)

GA - Supplies Red Report - Readme

Data provisional - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides an overview of this document.

Contact email w/ questions:	<a href="mailto:HHS Supply Chain Control Tower (OS/ASPR) <SCCT@hhs.gov>">HHS Supply Chain Control Tower (OS/ASPR) <SCCT@hhs.gov>
Updated:	28 December 2020, 1900
Hospital data accessed:	28 December 2020, 1000
Hospital data current through:	23 December 2020, 2359
LTCF NHSN data updated through:	27 December 2020, 2359

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSN's LTCF COVID-19 module).

The dataset contains known data issues, including but not limited to:

i) inaccurate reporting by facilities or or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values

HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action.

OBJECTIVE This file was created for purposes of briefing supplies status for healthcare provider facilities reporting in 5 critical PPE categories. It is based on data provided by HHS Protect Unified Hospital Supplies data and NHSN Long-term Care Facility (LTCF) supplies data.
ORGANIZATION OF DOCUMENT - Hospital - all responses tab records the most recent supply survey response for any hospital submitting supplies data for the five PPE categories in the past week - Hospital - low supply tab records the most recent supply survey response for any hospital submitting supplies data with supply issues (0-3 days of supply, cannot obtain, or cannot maintain 3 days supply) in the five PPE categories in the past week - Hospital - non-reporting tab records a list of facilities that have not reported supplies data in the last week - LTCF - all responses tab records the most recent supply survey responses for any LTCF for the five PPE categories for the week as indicated - LTCF - low supply tab records the most recent supply survey responses for any LTCF indicating no current supply or not enough supply for a week in the five PPE categories in the latest week
DATA SOURCES: - Data collected by TeleTracking, States, or submitted directly into HHS Protect, utilizing unified dataset for analyses - Data collected by NHSN, submitted by long-term care facilities per NHSN LTCF COVID-19 Supply module (https://www.cdc.gov/nhsn/ltc/covid19/index.html)
DATA USAGE AND LIMITATIONS (HHS Protect Unified dataset): - The dataset represents survey responses from US medical facilities; it is not currently a holistic view of all facilities and supplies in US healthcare providers. - The dataset reflects responses of 3 questions: - On-hand supply (Duration) - Are you able to obtain this item? - Are you able to maintain a supply of this item? - On-hand supply (Units) - The dataset reflects responses across 5 categories: - Masks - N95 - Masks - Surgical/Procedural - Eye / Face Shields - Gowns - Isolation & Surgical - Gloves - Surgical & Exam - All reporting should be captured in HHS Protect. - Phone numbers, affiliated employees, and affiliated physicians merged in from HHS hospital database - Data quality checks. A hospital is flagged for a 'data quality check' if the facility meets one (or more) of the below criteria in any PPE category: - Days on hand = 0 AND Units on hand > 0 - Days on hand = 0 AND Able to maintain = "Yes" - Days on hand = 7+ AND Able to maintain = "No"
DATA USAGE AND LIMITATIONS (NHSN LTCF dataset): - The datasets represents survey responses from US medical facilities; it is not currently a holistic view of all facilities and supplies in US healthcare providers. - The worksheets for LTCF (NHSN dataset) reflects responses of "current supply" and "enough supply for one week" questions - The dataset reflects responses across multiple PPE categories including: - Masks - N95 - Masks - Surgical/Procedural - Eye / Face Shields - Gowns - Isolation & Surgical - Gloves - Surgical & Exam
DISCLOSURE: For Official Government Use Only. No further distribution. You may not distribute any information contained in this tool to non-governmental entities without the express authorization of HHS.

HOW TO READ THIS REPORT 'Hospitals' tabs: "Hospital - all responses"; "Hospital - low supply" - Column B-D: Include a number of informational fields, such as hospital name, geographic fields, number of beds, etc. - Column T: Indicates whether the facility failed one of the 5 data quality checks that we are performing to highlight responses that may be inconsistent (for example, a facility indicates 0 days of supply for N95 but indicates having units) - Column U: Indicates the number of "low supply" responses based on 5 PPE categories (N95s, Surgical Masks, Eye protection, Gowns, Gloves) across the 3 supply questions: Days supply, Able to obtain, Able to maintain - Columns V-AT: Provide the detailed responses for each of the 5 PPE categories across the 4 supply questions - Column AU: Free text response, where a facility can provide more detail on any supply issues - Columns AV-AY: Provide the detailed responses for each of the testing supplies categories 'LTCF' tabs: "LTCF - all responses"; "LTCF - low supply" - Column B-N: Include a number of informational fields, such as facility name, geographic fields, etc. - Column O: Indicates the number of PPE categories where the facility has indicated "no current supply" (max = 5) - Column P: Indicates the number of PPE categories where the facility has indicated "less than 1 week supply" (max = 5) - Columns Q-Z: Provide details responses across the 5 PPE categories based on two questions: "Do you have current supply?"; "Do you have enough supply for 1 week"

GA - Supplies Red Report - Hospitals latest responses

Data provisional - For Internal Use Only (FIUC)

This tab provides the list of hospitals and corresponding responses for PPE supplies and testing supplies based on self-reported values to Teletracking and direct to HHS Protect

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSN's LTCF COVID-19 module). The data includes known data issues for one or more of several reasons including: i) Data is reported incorrectly; ii) Systems issues for data transfers; iii) Data is not complete. All data should be validated before leveraging for action. GA - Supplies Red Report - Hospitals latest responses

Data provisional - For Internal Use Only (FIUO)

This tab provides the list of hospitals and corresponding responses for PPE supplies and testing supplies based on self-reported values to Teletracking and direct to HHS Protect

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSN's LTCF COVID-19 module). The data includes known data issues for one or more of several reasons including: i) Data is reported incorrectly; ii) Systems issues for data transfers; iii) Data is not complete. All data should be validated before leveraging for action.

GA - Supplies Red Report - Non-reporting hospitals

Data provisional - For Internal Use Only (FIUO)

This tab provides information of facilities that did not submit supplies data per the FAQ in the past week. Data intended to guide outreach to increase compliance.

Note: Some facilities may be reporting non-supplies data, therefore may have a submission in the past week, but did not report supplies data.

Link to FAQ (with detail on questions): <https://www.hhs.gov/sites/default/files/covid-19-faqs-hospitals-hospital-laboratory-acute-care-facility-data-reporting.pdf>

GA - Supplies Red Report - LTCFs latest responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.
Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time
Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

GA - Supplies Red Report - Readme

Data provisional - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides an overview of this document.

Contact email w/ questions:	<a href="mailto:HHS Supply Chain Control Tower (OS/ASPR) <SCCT@hhs.gov>">HHS Supply Chain Control Tower (OS/ASPR) <SCCT@hhs.gov>
Updated:	4 January 2021, 1200
Hospital data accessed:	3 January 2020, 1900
Hospital data current through:	30 December 2020, 2359
LTCF NHSN data updated through:	2 January 2020, 2359

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSN's LTCF COVID-19 module).

The dataset contains known data issues, including but not limited to:

i) inaccurate reporting by facilities or or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values

HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action.

OBJECTIVE This file was created for purposes of briefing supplies status for healthcare provider facilities reporting in 5 critical PPE categories. It is based on data provided by HHS Protect Unified Hospital Supplies data and NHSN Long-term Care Facility (LTCF) supplies data.
ORGANIZATION OF DOCUMENT - Hospital - all reponses tab records the most recent supply survey response for any hospital submitting supplies data for the five PPE categories in the past week - Hospital - low supply tab records the most recent supply survey response for any hospital submitting supplies data with supply issues (0-3 days of supply, cannot obtain, or cannot maintain 3 days supply) in the five PPE categories in the past week - Hospital - non-reporting tab records a list of facilities that have not reported supplies data in the last week - LTCF - all responses tab records the most recent supply survey responses for any LTCF for the five PPE categories for the week as indicated - LTCF - low supply tab records the most recent supply survey responses for any LTCF indicating no current supply or not enough supply for a week in the five PPE categories in the latest week
DATA SOURCES: - Data collected by TeleTracking, States, or submitted directly into HHS Protect, utilizing unified dataset for analyses - Data collected by NHSN, submitted by long-term care facilities per NHSN LTCF COVID-19 Supply module (https://www.cdc.gov/nhsn/ltc/covid19/index.html)
DATA USAGE AND LIMITATIONS (HHS Protect Unified dataset): - The dataset represents survey responses from US medical facilities; it is not currently a holistic view of all facilities and supplies in US healthcare providers. - The dataset reflects responses of 3 questions: - On-hand supply (Duration) - Are you able to obtain this item? - Are you able to maintain a supply of this item? - On-hand supply (Units) - The dataset reflects responses across 5 categories: - Masks - N95 - Masks - Surgical/Procedural - Eye / Face Shields - Gowns - Isolation & Surgical - Gloves - Surgical & Exam - All reporting should be captured in HHS Protect. - Phone numbers, affiliated employees, and affiliated physicians merged in from HHS hospital database - Data quality checks. A hospital is flagged for a 'data quality check' if the facility meets one (or more) of the below criteria in any PPE category: - Days on hand = 0 AND Units on hand > 0 - Days on hand = 0 AND Able to maintain = "Yes" - Days on hand = 7+ AND Able to maintain = "No"
DATA USAGE AND LIMITATIONS (NHSN LTCF dataset): - The datasets represents survey responses from US medical facilities; it is not currently a holistic view of all facilities and supplies in US healthcare providers. - The worksheets for LTCF (NHSN dataset) reflects responses of "current supply" and "enough supply for one week" questions - The dataset reflects responses across multiple PPE categories including: - Masks - N95 - Masks - Surgical/Procedural - Eye / Face Shields - Gowns - Isolation & Surgical - Gloves - Surgical & Exam
DISCLOSURE: For Official Government Use Only. No further distribution. You may not distribute any information contained in this tool to non-governmental entities without the express authorization of HHS.

HOW TO READ THIS REPORT 'Hospitals' tabs: "Hospital - all responses"; "Hospital - low supply" - Column B-D: Include a number of informational fields, such as hospital name, geographic fields, number of beds, etc. - Column T: Indicates whether the facility failed one of the 5 data quality checks that we are performing to highlight responses that may be inconsistent (for example, a facility indicates 0 days of supply for N95 but indicates having units) - Column U: Indicates the number of "low supply" responses based on 5 PPE categories (N95s, Surgical Masks, Eye protection, Gowns, Gloves) across the 3 supply questions: Days supply, Able to obtain, Able to maintain - Columns V-AT: Provide the detailed responses for each of the 5 PPE categories across the 4 supply questions - Column AU: Free text response, where a facility can provide more detail on any supply issues - Columns AV-AY: Provide the detailed responses for each of the testing supplies categories 'LTCF' tabs: "LTCF - all responses"; "LTCF - low supply" - Column B-N: Include a number of informational fields, such as facility name, geographic fields,etc. - Column O: Indicates the number of PPE categories where the facility has indicated "no current supply" (max = 5) - Column P: Indicates the number of PPE categories where the facility has indicated "less than 1 week supply" (max = 5) - Columns Q-Z: Provide details responses across the 5 PPE categories based on two questions: "Do you have current supply?"; "Do you have enough supply for 1 week"
--

GA - Supplies Red Report - Hospitals latest responses

Data provisional - For Internal Use Only (FIUC)

This tab provides the list of hospitals and corresponding responses for PPE supplies and testing supplies based on self-reported values to Teletracking and direct to HHS Protect

DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through HHSN's LTCF COVID-19 module). The data includes known data issues for one or more of several reasons including: i) Data is reported incorrectly; ii) Systems issues for data transfers; iii) Data is not complete. All data should be validated before leveraging for action.

GA - Supplies Red Report - Hospitals latest responses

Data provisional - For Internal Use Only (FIUC)

This tab provides the list of hospitals and corresponding responses for PPE supplies and testing supplies based on self-reported values to Teletracking and direct to HHS Protect
DISCLAIMER: This data is based on self-reported values from hospitals (through Teletracking and directly to HHS Protect from states) and LTCFs (through NHSN's LTCF COVID-19 module). The data includes known data issues for one or more of several reasons including: i) Data is reported incorrectly; ii) Systems issues for data transfers; iii) Data is not complete. All data should be validated before leveraging for action.

GA - Supplies Red Report - Non-reporting hospitals

Data provisional - For Internal Use Only (FIUO)

This tab provides information of facilities that did not submit supplies data per the FAQ in the past week. Data intended to guide outreach to increase compliance.

Note: Some facilities may be reporting non-supplies data, therefore may have a submission in the past week, but did not report supplies data.

Link to FAQ (with detail on questions): <https://www.hhs.gov/sites/default/files/covid-19-faqs-hospitals-hospital-laboratory-acute-care-facility-data-reporting.pdf>

GA - Supplies Red Report - LTCFs latest responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.

Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time

Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

GA - Supplies Red Report - LTCFs latest responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.

Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time

Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

Updated:	4 January 2021, 1200
LTCF NHSN data updated through:	2 January 2020, 2359

Indicates a PPE category with "no current supply"
Indicates a PPE category with "less than one week supply"

GA - Supplies Red Report - LTCFs latest low responses

Data are provisional until officially released from CDC - For Internal Use Only (FIUO) - For Official Use Only (FOUO) - Sensitive But Unclassified (SBU)

This tab provides the latest response of all facilities (CMS & non-CMS) responding to NHSN.
Note: Data are self-reported by facilities; not all facilities report to NHSN consistently over time
Link with more detail on the COVID-19 module for the NHSN survey: <https://www.cdc.gov/nhsn/covid19/report-overview.html>

Updated:	4 January 2021, 1200
LTCF NHSN data updated through:	2 January 2020, 2359

Indicates a PPE category with "no current supply"
Indicates a PPE category with "less than one week supply"

GA Nursing Home State Overview

Number of Facilities: 357

Data Source: CDC NHSN | Data as of: 12/27/2020 | Report Date: 12/30/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Summary of all GA Nursing Homes

Residents New Weekly Confirmed Cases:	608
Residents Total Confirmed Cases:	13,461
Residents Weekly COVID-19 Deaths:	66
Residents Total COVID-19 Deaths:	2,401
% of Facilities with New Resident Cases this Week:	27%
% of Facilities with New Staff Cases this Week:	44%
% of Facilities with New Resident Deaths this Week:	8%

Numbers of Nursing Homes in Red/Yellow/Green Counties

Test Positivity Rates in GA Counties:

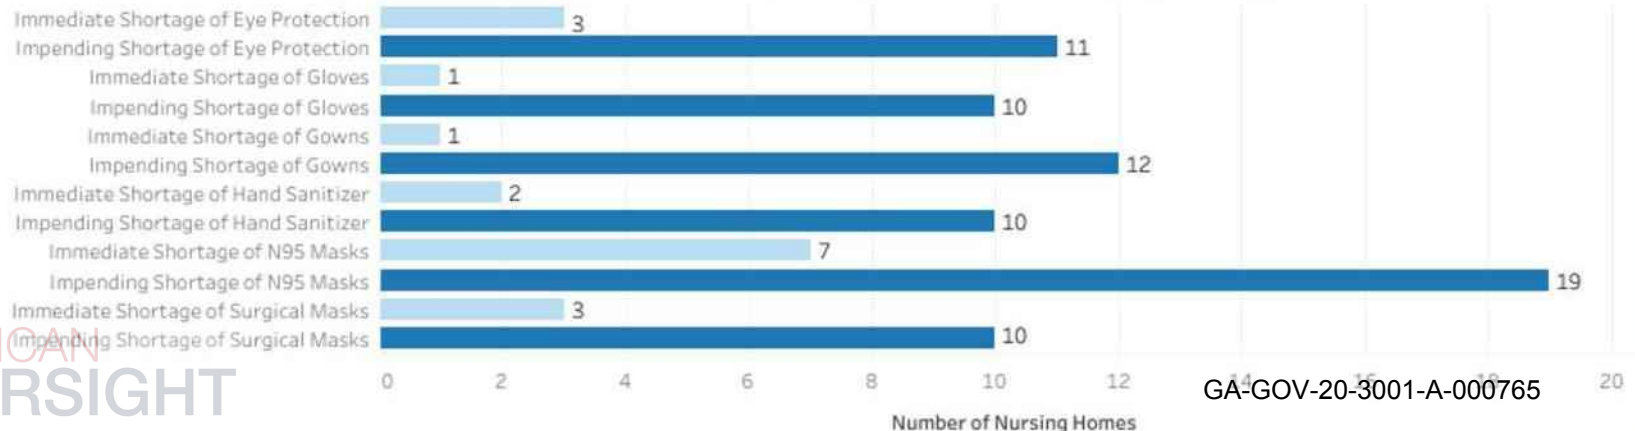

Green < 5% | Yellow 5-10% | Red >10% | Gray No Information Provided

Nursing Homes Reporting a Shortage in Personnel

Nursing Homes with Immediate and Impending (1 Week Out) Supply Shortages

GA Nursing Homes That Require a Survey Due to First Case or Three or More Cases This Week

Number of Facilities: **357** | Facilities that Require a Survey: **53** | % of Facilities that Require a Survey: **15%**

A survey is an on-site visit to evaluate compliance with federal health and safety requirements.

Data Source: CDC NHSN | Data as of: 12/27/2020 | Report Date: 12/30/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week.

Nursing Homes with an Initial Case

1 GA nursing homes reported their first case in the last week (see below).
53 GA nursing homes reported 3 or more cases in the last week (not shown).
53 GA nursing homes met at least one of these criteria and will be prioritized for survey visits in the next 2-5 days to help quickly control transmission.

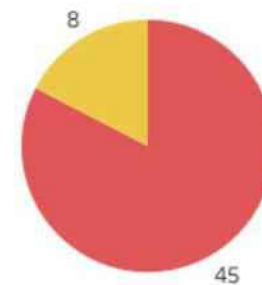

Federal Provider

Number	Provider Name	County
115529	PRUITTHEALTH - GRIFFIN	Spalding

Nursing Homes that Need Surveys in Red/Yellow/Green Counties

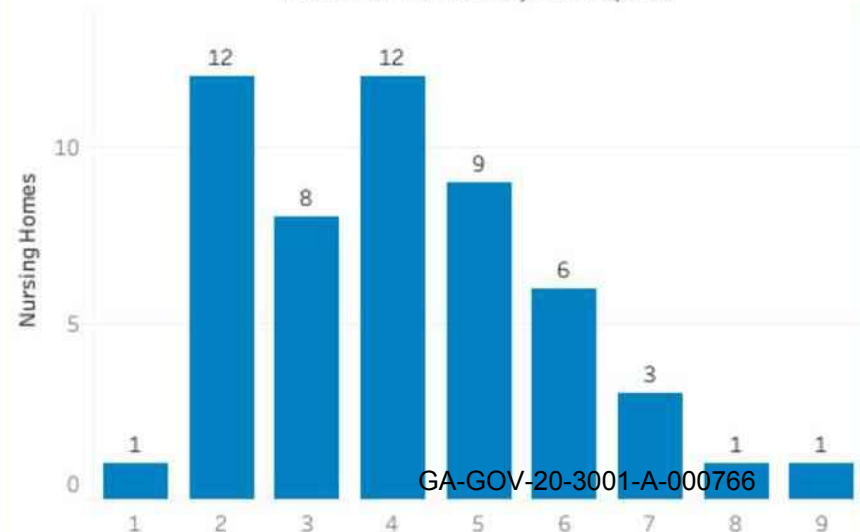

Test Positivity Rates in GA Counties:

Green < 5% | Yellow 5-10% | Red >10% | Gray No Information Provided

Number of Times the Nursing Homes Required a Survey

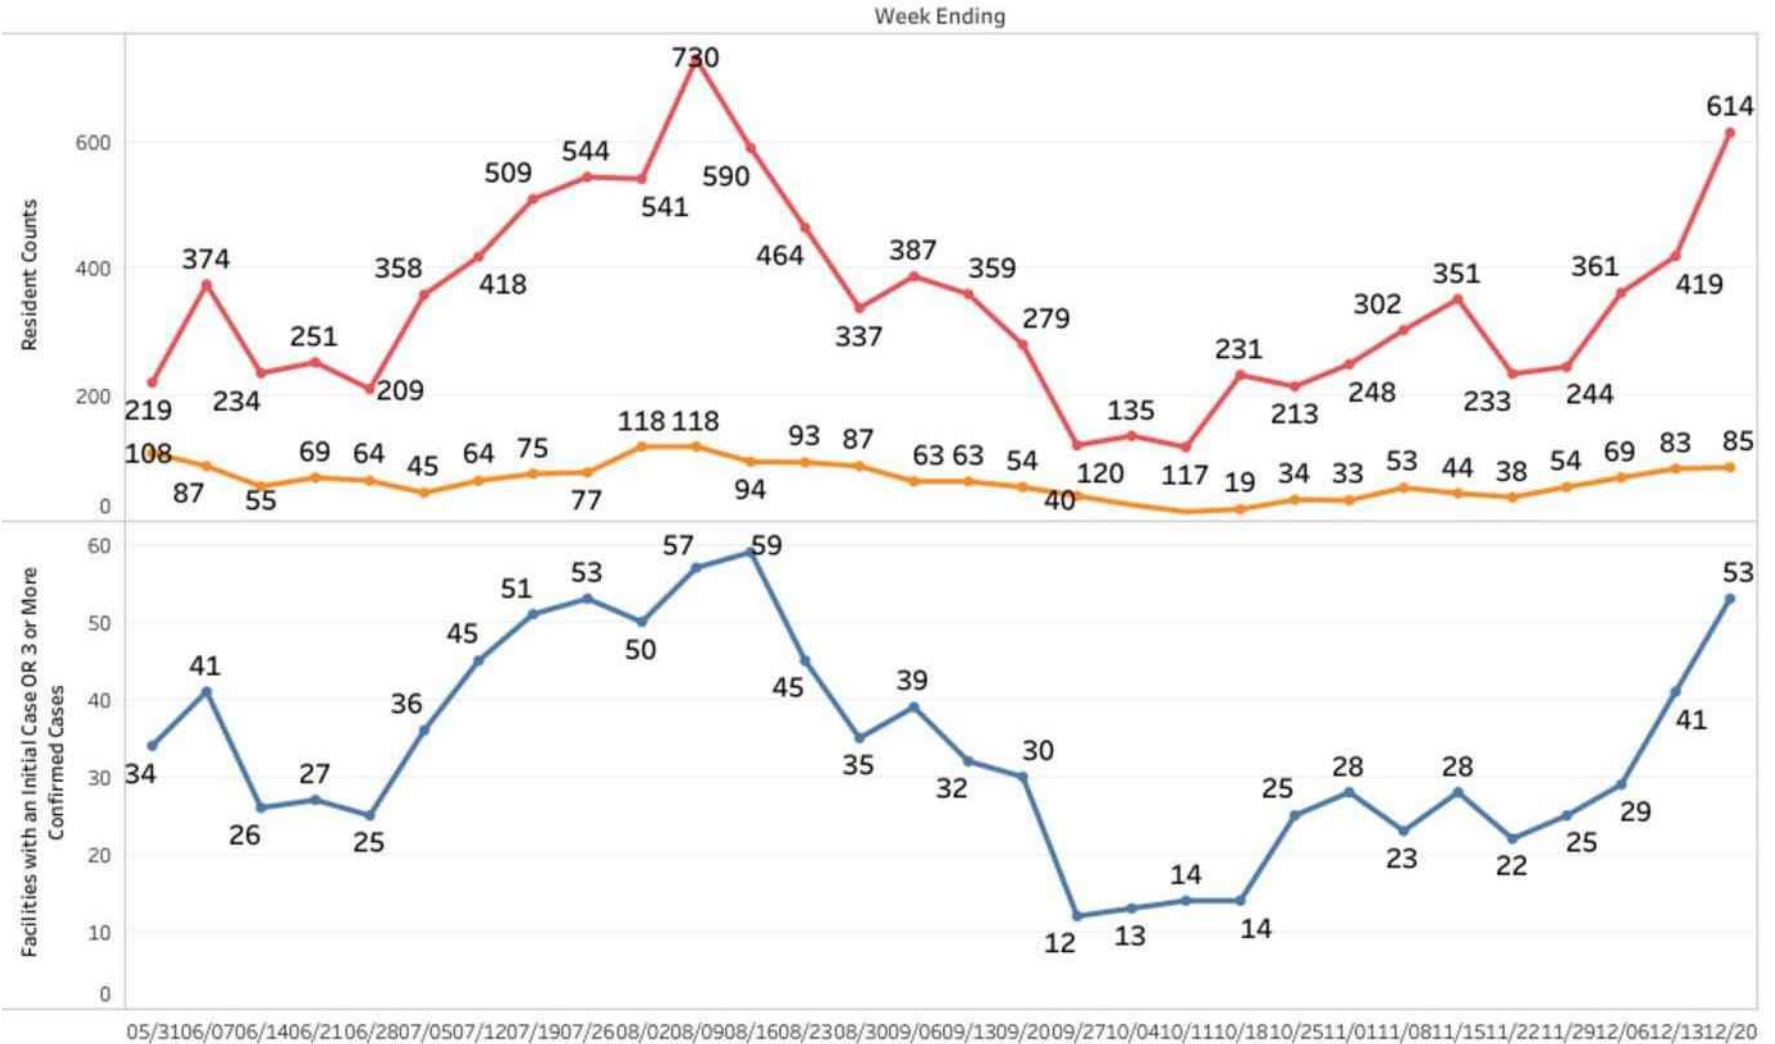

Number of Times Survey was Required

GA Weekly Resident and Facility COVID-19 Counts

Data Source: CDC NHSN | Data as of: 12/20/2020 | Report Date: 12/30/2020.

Note that the last week of reported data is provisional due to updates to the data; numbers may fluctuate up to 15% over the next reporting week. Therefore, the last reporting week is excluded from the trend lines.

- Residents Weekly Confirmed COVID-19
- Residents Weekly COVID-19 Deaths
- Facilities with an Initial Case OR 3 or More Confirmed Cases

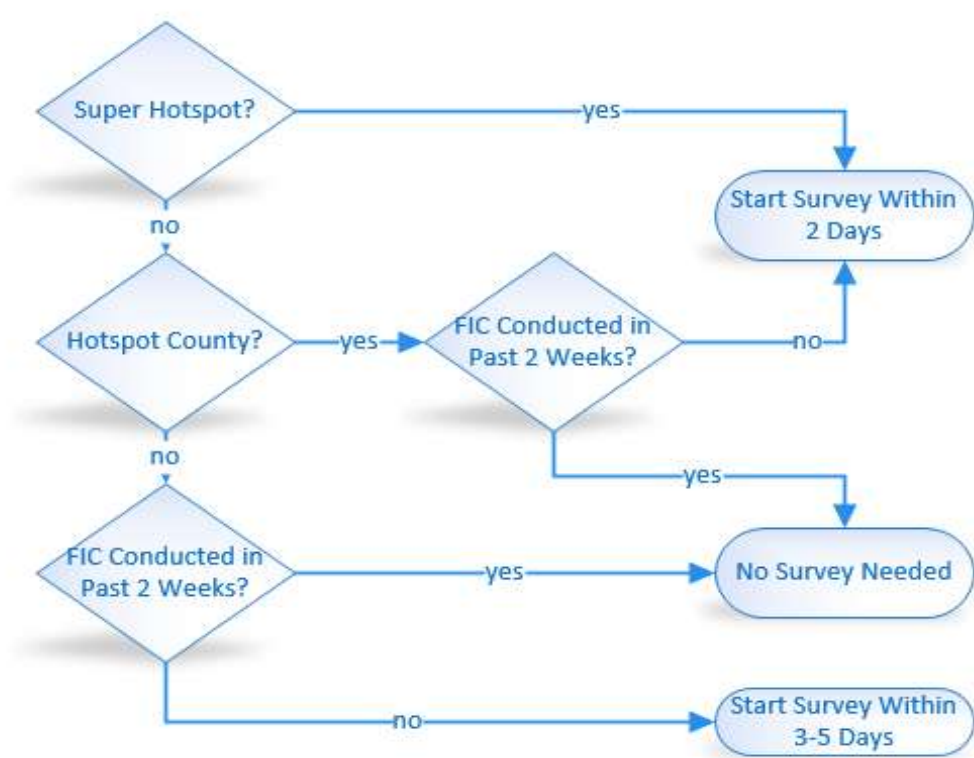

This Testing Dashboard provides monitoring of the following types of nursing home testing:
1) Which nursing homes are conducting COVID-19 routing staff testing and outbreak testing under nursing home requirements; and
2) Which nursing homes are reporting results of COVID-19 tests that have been conducted under Clinical Laboratory Improvement Amendment (CLIA) requirements.
NOTE: This information indicates if noncompliance may be more likely, but cannot conclusively determine if noncompliance exists. Actual noncompliance needs to be determined by inspection from surveyors.
Summary of Content:
State tab: Aggregated information for all nursing homes in each state
County tab: Aggregated information for all nursing homes in each county
Facility tab: A listing of each nursing home's individual county positivity classification and reported testing.
State and County Tabs Section/Column Descriptions:
Facilities w/New Cases: The number and percentage of facilities reporting one new COVID-19 resident case after being COVID-free, or reporting 3 or more COVID-19 resident cases.
Positivity Testing: The number of facilities in each state and county with a moderate community positivity classification (5-10% - Yellow), and a high community positivity classification (>10% - Red). Facilities in yellow counties should be testing staff once a week, and facilities in Red counties should be testing staff twice a week.
Routine Staff Testing: The number and percent of facilities that reported no staff testing in the current week, while residing in a yellow or red county (lower is better). Facilities that report no staff testing have a higher likelihood of noncompliance.
weeks, but also reported no tests conducted in the last week (lower is better). Facilities reporting at least one case should be conducting "outbreak testing". Facilities that report no testing have a higher likelihood of noncompliance.
Reporting POC Test Results: The number Point-Of-Care (POC) tests conducted, reported, and the percent of test results resported out of the number of tests conducted.
Facility Tab Section/Column Descriptions:
Routine Staff Testing: Each facility's county positivity classification and whether or not (Y/N) the facility conducted staff testing in the last week. An entry of "Yellow" or "Red" in column K, coupled with "N" in column L, indicates a higher likelihood of noncompliance.
Outbreak Testing: Whether or not (Y/N) a facility reported at least one COVID-19 case in the last two weeks, and if the facility conducted tests of residents and staff in the last week (Y/N). An entry of "Y" in column M, coupled with "N" in column O, indicates a higher likelihood of noncompliance.
percent of test results reported out of the number of tests conducted. Note: Some facilities percentage of test results reported may exceed 100% because they reported the results from tests that were conducted in previous weeks.
NOTE: We recommend not printing the County and Facility Tabs.

			Facilities w/New Cases			Positivity Testing				Routine Staff Testing					Outbreak Testing				Reporting POC Test Results

Input for States: Planning Estimates for Agency-identified Federal Critical Infrastructure Workforce, by State and by Agency

JUSTIFICATION and MISCELLANEOUS NOTES Columns:

The Justification column includes overall planning estimates provided by Federal agencies, based on a Federal agency's identification and description of essential workers in their workforce (as of 12/22/20). Numbers within this spreadsheet should be considered "For Official Use Only" (FOUO) and are not for distribution, and are planning estimates used to help inform your States prioritization and planning processes - they do not represent a one-to-one assessment of all Federal critical infrastructure workers in your State.

The highlighted employees from the Department of Justice (DOJ) and Department of Interior (DOI) are in addition to those DOJ and DOI employees included in the first Federal Critical Infrastructure employee spreadsheet sent in mid-December. NOTE: Additional agencies and employees are being handled directly. Those individuals have been deconflicted from the information provided in this document.

The Miscellaneous Notes column includes, in some limited instances, agencies that needed to include essential contractors to meet specific requirements.

Estimates were developed based on the publicly available CISA guidance at:

https://www.cisa.gov/sites/default/files/publications/ECIW_4.0_Guidance_on_Essential_Critical_Infrastructure_Workers_Final3_508_0.pdf

The information contained in this spreadsheet is publicly available through Fedscope.gov. The information we are providing is for convenience so states do not have to individually extract the information from Fedscope.gov.

Georgia				
Total number of Agency-identified Critical Infrastructure Workers: 20,066				
Agency	Number of employees (subtotals)	Number of employees (TOTAL)	Justification(s)	Miscellaneous Notes
CFPB	4		Phase 1b Financial Institution Examiners, Reg. Director, Reg.Enforcement Attorney's	
	2		Phase 1b Regional Support Personnel (IT, Travel, Admin, etc.)	
CFPB TOTAL		6		
Federal Reserve System	123	123	Federal Reserve Law Enforcement and Cash Handling Operations - Atlanta	
CPSC	1	1	Phase 1b: The employee is a Port inspector co-located with Custom and Border Protection (CBP) staff at US ports of entry. The agency has not designated the employee as a critical infrastructure worker however, this employee is unable to fully support the agency mission remotely under telework.	
TVA	8	8	Justification based on CISA "Guidance on the Essential Critical Infrastructure Workforce" for IT workers (pp. 17-19) and other community- or government-based operations and essential functions (p. 19).	
NARA	1		Phase 1b: Critical infrastructure - Information Technology - Cyber security staff and contractors, IT operations for federal facilities, software and hardware engineers in support of federal facilities	Estimate includes 1 contractor.
NARA	42		Phase 1b: Critical infrastructure - directly supports the critical infrastructure that enable workers to complete their jobs safely - facility managers, building security, and contractor support.	Estimate includes 40 contractors.
NARA TOTAL		43		
RRB	1	1	Phase 1b: Other Government-Based Operations/Essential Functions-- (Bureau of Field Services) -- public facing/customer service component of benefits administration	
USPS	19436	19436	The USPS has an established designation as an essential service provider and throughout the pandemic, the organization's front-line employees ensured that households and businesses throughout the country received the medicines, health supplies, benefit checks, financial statements and other important correspondence and sustaining goods they depend upon -- as they continue to provide critical mail service to the American public.

GEORGIA

STATE REPORT

01.03.2021

Issue 29

SUMMARY

- Georgia is in the red zone for cases, indicating 101 or more new cases per 100,000 population, with the 9th highest rate in the country. Georgia is in the red zone for test positivity, indicating a rate at or above 10.1%, with the 8th highest rate in the country.
- Georgia has seen high new cases despite a significant decline in testing, an increase in test positivity, and rapidly rising COVID hospital admissions. All are consistent with a full pandemic resurgence.
- The following three counties had the highest number of new cases over the last 3 weeks: 1. Gwinnett County, 2. Fulton County, and 3. Cobb County. These counties represent 24.5% of new cases in Georgia.
- 97% of all counties in Georgia have moderate or high levels of community transmission (yellow, orange, or red zones), with 95% having high levels of community transmission (red zone).
- During the week of Dec 21 - Dec 27, 30% of nursing homes had at least one new resident COVID-19 case, 48% had at least one new staff COVID-19 case, and 9% had at least one new resident COVID-19 death.
- Georgia had 499 new cases per 100,000 population, compared to a national average of 413 per 100,000.
- Current staff deployed from the federal government as assets to support the state response are: 27 to support operations activities from FEMA; 9 to support operations activities from ASPR; 8 to support epidemiology activities from CDC; and 4 to support operations activities from USCG.
- Between Dec 26 - Jan 1, on average, 690 patients with confirmed COVID-19 and 204 patients with suspected COVID-19 were reported as newly admitted each day to hospitals in Georgia. This is an increase of 10% in total new COVID-19 hospital admissions.
- As of Jan 2, 445,550 vaccine doses have been distributed to Georgia. 75,157 individuals have received the first dose.

RECOMMENDATIONS

- Data reporting has been unstable for the past week, but hospital reporting has been stable and the United States remains at a high plateau of 140-150,000 confirmed and suspected COVID admissions per week and 120-125,000 total inpatients. Significant continued deterioration, from California across the Sunbelt and up into the Southeast, Mid-Atlantic, and Northeast, despite low testing rates during the holidays, suggests aggressive community spread.
- This fall/winter surge has been at nearly twice the rate of rise of cases as the spring and summer surges. This acceleration suggests there may be a USA variant that has evolved here, in addition to the UK variant that is already spreading in our communities and may be 50% more transmissible. Aggressive mitigation must be used to match a more aggressive virus; without uniform implementation of effective face masking (two or three ply and well-fitting) and strict social distancing, epidemics could quickly worsen as these variants spread and become predominant.
- Messaging must be focused on proactive testing of those under 40 to prevent asymptomatic silent spread to their household members and on a call to action for immediate testing and rapid infusion of monoclonal antibodies for those at risk for severe disease. Every hospital should have outpatient infusion sites immediately available to save lives.
- Strongly recommend the creation of young adult testing sites with BinaxNOW to encourage rapid testing and, for those testing positive, immediate isolation and aggressive protection of vulnerable household members.
- Do not delay the rapid immunization of those over 65 and vulnerable to severe disease; recommend creation of high throughput vaccination sites with use of EMT personnel to monitor for potential anaphylaxis and fully utilize nursing students. No vaccines should be in freezers but should instead be put in arms now; active and aggressive immunization in the face of this surge would save lives.
- Careful planning, efficient implementation, and transparent balanced messaging on the state's vaccination campaign are all critical to maintaining public confidence and maximizing vaccine acceptance. Multiple states have launched vaccine-specific dashboards with regular updating of the number of individuals vaccinated to date, as well as vaccine-related information and messaging; these are a best practice. Michigan and Nebraska are excellent examples. Given persistent vaccine hesitancy, continued active encouragement by the Governor, health officials, and community influencers are needed; televised immunizations are potentially useful.
- Georgia's post-holiday numbers raise significant concerns with rising test positivity and increasing hospitalizations, suggesting a resurgence of community spread. This requires a combination of aggressive mitigation with further restrictions and a substantial acceleration of vaccinations, utilizing all pathways from pharmacies, from high throughput sites and a simplification of vaccine tiers to single age bands (e.g.: everyone over 65). Creating complexity is resulting in poor immunization rates.
- The high percent of LTCFs with staff members testing positive is consistent with persistently high community spread.
- Ensure all universities have expanded testing and require that all students on and off campus are tested weekly at a minimum to decrease silent spread in the university community.
- Specific, detailed guidance on community mitigation measures can be found on the [CDC website](#).

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback.

NUMBER OF HOSPITALS WITH SUPPLY SHORTAGES (PERCENT)	19 (14%)	-2% (-10%*)	159 (17%)	1,075 (21%)
NUMBER OF HOSPITALS WITH STAFF SHORTAGES (PERCENT)	36 (26%)	-5% (-12%*)	181 (20%)	1,109 (22%)

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

† Skilled nursing facility data entry is experiencing a data submission lag. Therefore, the most current week's data should not be compared to previous data. 92% of facilities reported during the most current week.

DATA SOURCES – Additional data details available under METHODS

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: State values are calculated by aggregating county-level data from a CDC managed aggregate county dataset that is compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 1/1/2021; previous week is 12/19 - 12/25.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data through 12/30/2020. Previous week is 12/17 - 12/23.

SNFs: Skilled nursing facilities. National Healthcare Safety Network. Data are reported separately for cases among residents and staff. Data is through 12/27/2020, previous week is 12/14-12/20.

Admissions: Unified hospitalization dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the totals. Totals include confirmed and suspected COVID-19 admissions.

Shortages: Unified hospital dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Includes hospitals reporting a staffing shortage currently or projected within one week. Low supply is defined as a hospital reporting 0 or 1-3 days' supply, not able to obtain, or not able to maintain a 3-day supply of N95s, face masks, gloves, gowns, or eye protection. Values presented show the latest reports from hospitals in the week ending 1/1/2021.

Percent of hospitals with supply/staff shortages	≤0%		1% - 9%	10% - 19%	20% - 24%	25% - 29%	≥30%	
Change in percent of hospitals with supply/staff shortages	≤-10%	-9% - -5%	-4% - 0%	1% - 4%	5% - 9%		≥10%	

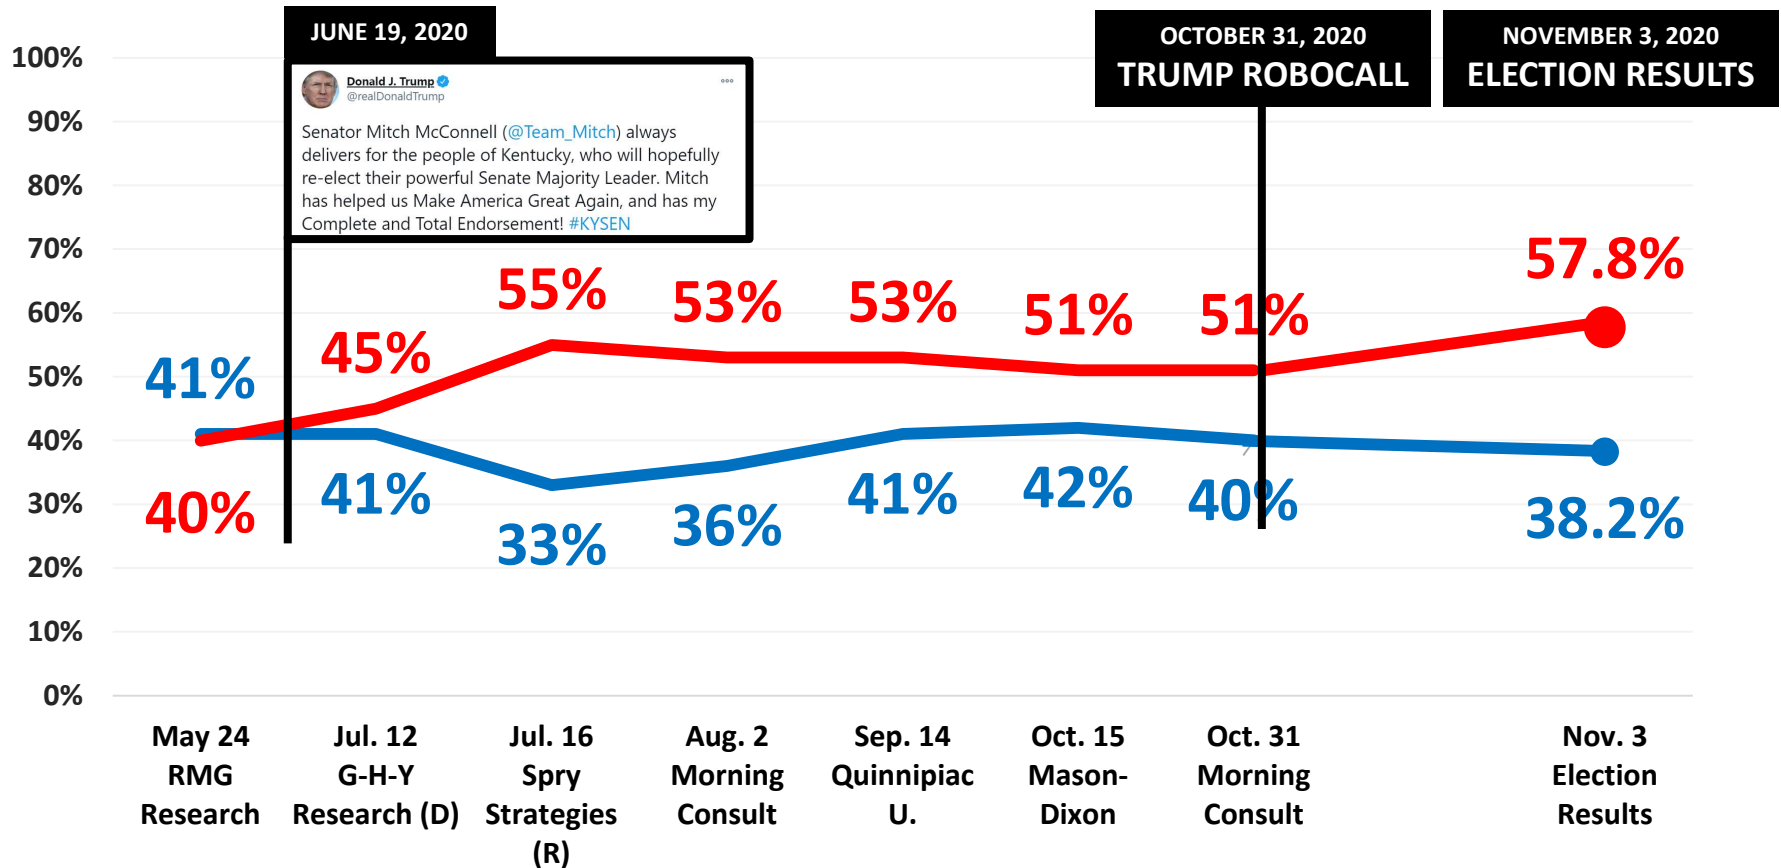

- Some dates may have incomplete data due to delays and/or differences in state reporting. Data may be backfilled over time, resulting in week-to-week changes. It is critical that states provide as up-to-date data as possible. Figures and values may also differ from state reports due to differing methodologies.
- Color threshold values are rounded before color classification.
- Cases and Deaths:** County-level data from CDC managed aggregate county dataset as of 15:54 EST on 01/03/2021. State values are calculated by aggregating county-level data. Data are reviewed on a daily basis against internal and verified external sources and, if needed, adjusted.
- Testing:** The data presented represent viral COVID-19 laboratory diagnostic and screening test (reverse transcription polymerase chain reaction, RT-PCR) results—not individual people—and exclude antibody and antigen tests, unless stated otherwise. CELR (COVID-19 Electronic Lab Reporting) state health department-reported data are used to describe county-level viral COVID-19 RT-PCR result totals when information is available on patients' county of residence or healthcare providers' practice location. HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs) are used otherwise. Because the data are deidentified, total RT-PCR tests are the number of tests performed, not the number of individuals tested. RT-PCR test positivity rate is the number of positive tests divided by the number of tests performed and resulted. Last week data are from 12/24 to 12/30; previous week data are from 12/17 to 12/23; the week one month before data are from 11/26 to 12/2. HHS Protect data is recent as of 15:54 EST on 01/03/2021. Testing data are inclusive of everything received and processed by the CELR system as of 19:00 EST on 01/02/2021.
- Hospitalizations:** Unified hospitalization dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. The data presented represents raw data provided; we are working diligently with state liaisons to improve reporting consistency. Data is recent as of 16:00 EST on 01/03/2021.
- Hospital PPE:** Unified hospitalization dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is recent as of 13:27 EST on 01/03/2021.
- Skilled Nursing Facilities:** National Healthcare Safety Network (NHSN). Data report resident and staff cases independently. Quality checks are performed on data submitted to the NHSN. Data that fail these quality checks or appear inconsistent with surveillance protocols may be excluded from analyses. Data presented in this report are more recent than data publicly posted by CMS. Last week is 12/21-12/27, previous week is 12/14-12/20.
- County and Metro Area Color Categorizations**
 - Red Zone:** Those core-based statistical areas (CBSAs) and counties that during the last week reported both new cases at or above 101 per 100,000 population, and a lab test positivity result at or above 10.1%.
 - Orange Zone:** Those CBSAs and counties that during the last week reported both new cases between 51-100 per 100,000 population, and a lab test positivity result between 8.0-10.0%, or one of those two conditions and one condition qualifying as being in the "Red Zone."
 - Yellow Zone:** Those CBSAs and counties that during the last week reported both new cases between 10-50 per 100,000 population, and a lab test positivity result between 5.0-7.9%, or one of those two conditions and one condition qualifying as being in the "Orange Zone" or "Red Zone."
- Shortages:** Unified hospital dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Includes hospitals reporting a staffing shortage currently or projected within one week. Low supply is defined as a hospital reporting 0 or 1-3 days' supply, not able to obtain, or not able to maintain a 3-day supply of N95s, face masks, gloves, gowns, or eye protection. Data is recent as of 13:27 EST on 01/03/2021.
- Vaccinations:** [CDC COVID Data Tracker](#). Data includes both the Moderna and Pfizer BioNTech COVID-19 vaccines and reflects current data available as of 09:00 EST on 01/02/2021.

SADLY, MITCH FORGOT. HE WAS THE FIRST ONE OFF THE SHIP!

KENTUCKY-SENATE

Senator Mitch McConnell (R) | General Election: November 3, 2020

GENERAL ELECTION POLLING: McGRATH vs. McCONNELL

2020 PRESIDENTIAL ELECTION RESULTS IN KENTUCKY

Trump 62.1%

Biden 36.2%

2020 MARGIN IN KENTUCKY

Trump +25.9%

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19. Before we get to this week's data reports, we first wanted to highlight the incredible action taken this weekend. The U.S. Food and Drug Administration issued the second emergency use authorization (EUA) for a vaccine for the prevention of coronavirus disease in individuals 18 years of age and older. The EUA allows the Moderna COVID-19 Vaccine to be distributed in the U.S.

The Governor's State Weekly Report is available by request from White House Intergovernmental Affairs, please email Tucker Obenshain at anne.t.obenshain@ovp.eop.gov to request Issue #27. They are available now.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- CMS Testing Dashboard (1 Attachment)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Vaccine Distribution Information (See Below)
- Other Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal Emergency Management Agency (FEMA) partners.

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (as of December 21, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a **letter** from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – December 18, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on December 16, 2020. The LTCFs data is current as of 11:59 p.m. Eastern Time on December 20, 2020.

Nursing Home COVID-19 State Analysis (as of December 17, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.***

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) **National Healthcare Safety Network** (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

CMS Testing Dashboard (as of December 17, 2020) (See Attachment)

This file shows the number and percent of facilities in each state and county that may not be testing residents and staff as required to detect COVID-19 early and prevent its spread. States can identify facilities that should have reported resident and/or staff testing based on their county positivity rate or based on an outbreak. Once identified, we encourage states to take action to understand why a facility reported that they didn't conduct testing and identify the solutions to ensure the appropriate type of testing is conducted. We note that this information is based on self-reported data from nursing homes and therefore, may contain some errors. For instructions, users should view the "Readme" tab, which explains the data on subsequent tabs.

Hospital-Level Data Collection Report by State (December 11, 2020 – December 17, 2020) (See Attachment)

- **Background:** The **Secretary's Guidance for Hospital Reporting and FAQ** and the new **CMS Interim Final Rule Comment (IFC)** require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.
- **Feedback:** *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.* Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard (Website Link):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov (Website Link):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - **Raw Data**
 - **Dashboard Map View with Search by Hospital**
 - **Hospital Reporting Trend Dashboard**
 - **State Certification Status for Hospital Reporting**

Vaccine Distribution Information

As mentioned above, this weekend saw the [second FDA authorization of a COVID-19 vaccine](#) in the United States. Since yesterday, vaccines have been arriving at designated locations across the country and are being administered to healthcare providers. This incredible achievement is a testament to the emphasis that the Administration has placed on combatting the pandemic. While you should be in touch with your individual planning cells on the logistics of distribution, we also wanted to provide some call center numbers that can be used by state elected and appointed officials to ask technical questions 24 hours a day/7 days a week. The call centers are broken down by [HHS/FEMA region](#), and the numbers are listed below.

Vaccine Coordination Center Call Center Numbers:

- Regions 1-4: Toll Free: 1-833-731-5110; Local: 404-718-8110
- Regions 5-7: Toll Free: 1-833-348-7409; Local: 404-718-8111
- Regions 8-10: Toll Free: 1-833-896-8952; Local: 404-718-8112

If there are any questions, don't hesitate to reach out and we can work to alleviate any concerns.

Other Items of Note

- **Portfolio of COVID-19 Medical Countermeasures**
 - [Eli Lilly and Co's bamlanivimab](#)
 - [Regeneron's casirivimab/imdevimab](#)

- [FEMA COVID-19 Pandemic: Vaccination Planning FAQ](#)
- [HHS Amends PREP Act Declaration, Including to Expand Access to COVID-19 Countermeasures via Telehealth](#)
- [Memorandum on Extension of Governors' Use of the National Guard to Respond to COVID-19 and to Facilitate Economic Recovery](#)

If you have any questions about this information, please let us know.

Subject: CDC/White House Technical Assistance Follow-up – Georgia – January Information

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Georgia Health Officials,

Thank you for your continued partnership in the COVID-19 response. Your support remains critical as part of achieving our goal of expanding test capacity and fully leveraging the national testing ecosystem.

The purpose of this letter is to provide you with an update regarding allocations of swabs and media in January. This is part of the Federal government's broader approach to support expanded testing that includes investing in new testing technologies like the procurement of 150 million Abbott BinaxNOW rapid tests, using the Defense Production Act, establishing surge testing sites, increasing testing capacity and support in vulnerable and underserved communities such as nursing homes, and providing testing technical assistance. The information below provides an overview of what to expect for the next several weeks for your allocation of swabs and media for COVID-19 testing.

Jan 3rd – Jan 30th

For the month of January, some sample collection supplies (swabs and media) will be provided by the Department of Health and Human Services (HHS) and direct-shipped from manufacturers to states and other federal partners. It is anticipated that each contracted vendor will ship once per week over the course of the month. States and other federal partners may therefore receive multiple shipments throughout a week, which when combined together will total approximately 25% of the overall monthly supply each week.

The monthly allocation of swabs will include a mixture of individually wrapped nasal flocked, nasal foam and nasopharyngeal flocked swabs. In addition, the monthly allocation of media is expected to be all viral transport media (VTM). Note if you previously submitted swab/media preferences, we will do our best to honor those preferences based on inventory levels.

These supplies will arrive at the address where your prior shipments have been sent, per the following table.

Total January Swab & Media Allocation and Delivery Location:

January Swabs	420,000
January Media	420,000
Shipping Address	[REDACTED]
Delivery POC Name	Leah Hoffacker
Delivery POC Number	[REDACTED] 404-463-1420 (office)
Delivery POC Email	leah.hoffacker@dph.ga.gov

The Trump Administration is pleased to be able to meet your specific January swab and media request as communicated to your Testing and Diagnostics SME point of contact. If you determine that you need additional swabs and media throughout the month of January due to increased demand, please let your SME know. Note that there will be multiple shipments from different vendors. Deliveries are not expected over the weekend. Questions related to missing or damaged deliveries should first be directed to the vendor. Otherwise, general swab and media supply questions should be directed to COVID19TestSupplies@hhs.gov.

We appreciate your continued partnership as part of the COVID-19 response, and look forward to **supporting your state-wide testing by providing swabs and media through March**. As always, feel free to reach out to your Testing and Diagnostics SME (Whitni Davidson, eocevent487@cdc.gov) if you need technical assistance or would like to discuss ways to increase testing capacity.

Kind Regards,

Alicia Dunajcik

eocevent375@cdc.gov

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

If he doesn't call a special session....he should IMMEDIATELY RESIGN!!!!

What is Kemp hiding????

If he isn't hiding his own involvement in the cover-up of Georgia election fraud, why doesn't he call a special session?

It doesn't make sense!!!!

According to polls, 91% of voters disapprove of this guy's job performance.

Georgia voters should recall this guy!!!!

Hey Kemp, just resign. You failed the voters of Georgia and America!!!

Sorry, I am not interested in an auto-reply generated email; I am only interested in you and Kelly Loeffler standing up and announcing to the American public specifically ALL GEORGIANS that you stand with OUR GREAT PRESIDENT DONALD J TRUMP in getting to the bottom of ELECTION FRAUD IN GEORGIA AND ALL THE BATTLEGROUND STATES, AND THAT THE TWO OF YOU ARE GOING TO FIGHT BY REJECTING THE GEORGIA ELECTORS, ACCEPTING THE DUELING REPUBLICAN ELECTORS FOR DONALD J TRUMP INSTEAD ON JANUARY 6, 2021. The meeting today in Georgia was sham; a total disgrace. We want the Dominion machines confiscated and forensically examined. The three recounts are worthless; a total joke along with all of the partial checking of signatures in a county without the most fraud. The governor and secretary of state violated the constitution; they took an oath to protect our constitution and county from all evil doers domestic and foreign. We will not be mocked; you cannot mock "The Lord."

President Trump has stood with and for both of you through thick and thin; so have Georgians who went to the polls and voted on November 3rd, 2020. It is a disgrace that the two of you are not interested in Our Constitution of the Republic, much less using Dominion voting machines for this January 5th, runoff election. It makes no sense whatsoever for us to use the same method in this runoff that was a fraud in the November 3rd, election.

CALL **PUBLICALLY** FOR A SPECIAL SESSION NOW FOR AMERICA; OUR COUNTRY IS WORTH SAVING FROM COMMUNIST CHINA, PERIOD!!! NO ONE WORLD ORDER, NO SOCIALISM, NO MARXISM!!! WE WILL NOT ALLOW IT!!! **ONLY FREEDOM!!!** THE TRUTH HAS COME OUT AND THE AMERICAN PEOPLE ARE FIGHTING FOR OUR GREAT COUNTRY AND FREEDOMS GIVEN TO US BY ALMIGHTY GOD, HIMSELF, AND YOU AND NO ONE ELSE WILL EVER BE ABLE TO TAKE THEM FROM US, PERIOD, BEFORE THE RESTRAINER THE HOLY SPIRIT IS REMOVED AT THE TIME OF THE RAPTURE!!!

TRUTH PREVAILS, RIGHTEOUSNESS PREVAILS AND EXHALTS A NATION, THE LORD REIGNS FOREVER AND FOREVER AND FOREVER!!!

"LET FREEDOM RING"!!!

Stand up in the Name of Christ Jesus Our Lord,

Cynthia Herring

Subject: Re: SPECIAL SESSION/STAND UP FOR THE PRESIDENT AND THE PEOPLE OF GEORGIA AND THE US OF AMERICA/CONSTITUTION

Dear Ms. Herring:

I ran for the U.S. Senate because, like you, I was frustrated by the direction our country was going and fed up with business as usual in Washington. As an outsider and business guy, I saw an opportunity to shake things up; but we can only get the job done by listening to you. Your input helps me focus on the issues that are affecting millions of Georgians like yourself, and lets me know how Washington can better answer to you. From reining in out-of-control spending and growing our economy, to tackling our national debt crisis, there is no shortage of big problems that need to be addressed. Rest assured that your message is being reviewed by the appropriate member on my team. Please continue to reach out to me with your thoughts and concerns, and I will keep working on your behalf to get the results that you deserve.

If you are experiencing problems with a federal agency, including the VA, please reach out to my Atlanta office at 404-865-0087 and my team will be happy to assist you.

Kindest regards,

David Perdue
United States Senator

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

The Governor's State Weekly Report is available by request from White House Intergovernmental Affairs, please email Tucker Obenshain at anne.t.obenshain@ovp.eop.gov to request Issue #28.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- CMS Testing Dashboard (1 Attachment)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Vaccine Distribution Information (See Below)
- Other Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal Emergency Management Agency (FEMA) partners.

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (through week of December 28, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On September 28, our Nation's Governors,

along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a **letter** from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – December 25, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on December 23, 2020. The LTCFs data is current as of 11:59 p.m. Eastern Time on December 27, 2020.

Nursing Home COVID-19 State Analysis (as of December 23, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.***

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) **National Healthcare Safety Network** (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

CMS Testing Dashboard (as of December 23, 2020) (See Attachment)

This file shows the number and percent of facilities in each state and county that may not be testing residents and staff as required to detect COVID-19 early and prevent its spread. States can identify facilities that should have reported resident and/or staff testing based on their county positivity rate or based on an outbreak. Once identified, we encourage states to take action to understand why a facility reported that they didn't conduct testing and identify the solutions to ensure the appropriate type of testing is conducted. We note that this information is based on self-reported data from nursing homes and therefore, may contain some errors. For instructions, users should view the "Readme" tab, which explains the data on subsequent tabs.

Hospital-Level Data Collection Report by State (December 11, 2020 – December 17, 2020) (See Attachment)

- **Background:** The **Secretary's Guidance for Hospital Reporting and FAQ** and the new **CMS Interim Final Rule Comment (IFC)** require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting

date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.

- **Feedback: *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.*** Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard ([Website Link](#)):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov ([Website Link](#)):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - **[Raw Data](#)**
 - **[Dashboard Map View with Search by Hospital](#)**
 - **[Hospital Reporting Trend Dashboard](#)**
 - **[State Certification Status for Hospital Reporting](#)**

We saw a higher level of hospitals missing compliance this week, most likely due to the Christmas holiday. If hospitals submit their by 9 am Wednesday the 30th for the dates of December 18-24, they will still be considered in compliance for this week. We encourage hospitals to ensure they met the required fields for all 7 days. The data from these reports will also be updated on <https://protect-public.hhs.gov/pages/covid19-module> later today. If hospitals have questions, they can always reach out to the HHS Protect Service Desk at protect-servicedesk@hhs.gov.

Vaccine Distribution Information

Vaccines have been arriving at designated locations across the country and are being administered to designated population on a daily basis. This incredible achievement is a testament to the emphasis that the Administration has placed on combatting the pandemic. While you should be in touch with your individual planning cells on the logistics of any distribution specifics, we also wanted to provide some call center numbers that can be used by state elected and appointed officials to ask technical questions 24 hours a day/7 days a week. The call centers are broken down by [HHS/FEMA region](#), and the numbers are listed below.

Vaccine Coordination Center Call Center Numbers:

- Regions 1-4: Toll Free: 1-833-731-5110; Local: 404-718-8110
- Regions 5-7: Toll Free: 1-833-348-7409; Local: 404-718-8111
- Regions 8-10: Toll Free: 1-833-896-8952; Local: 404-718-8112

If there are any questions, don't hesitate to reach out and we can work to alleviate any concerns.

Other Items of Note

- **[COVID-19 Vaccine Distribution Allocations by Jurisdiction – Pfizer](#)**
- **[COVID-19 Vaccine Distribution Allocations by Jurisdiction - Moderna](#)**

- **Portfolio of COVID-19 Medical Countermeasures**
 - [Eli Lilly and Co's bamlanivimab](#)
 - [Regeneron's casirivimab/imdevimab](#)
- [FEMA COVID-19 Pandemic: Vaccination Planning FAQ](#)
- [HHS Amends PREP Act Declaration, Including to Expand Access to COVID-19 Countermeasures via Telehealth](#)
- [Memorandum on Extension of Governors' Use of the National Guard to Respond to COVID-19 and to Facilitate Economic Recovery](#)

If you have any questions about this information, please let us know.

Subject: 12/28 State-Specific COVID-19 Response & Recovery Information - GA

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

The Governor's State Weekly Report is available by request from White House Intergovernmental Affairs, please email Tucker Obenshain at anne.t.obenshain@ovp.eop.gov to request Issue #28.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)

- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (2 Attachments)
- CMS Testing Dashboard (1 Attachment)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Vaccine Distribution Information (See Below)
- Other Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal Emergency Management Agency (FEMA) partners.

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (through week of December 28, 2020) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home health/hospice agencies, nursing homes, and HBCUs. On September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a **letter** from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – December 25, 2020) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on December 23, 2020. The LTCFs data is current as of 11:59 p.m. Eastern Time on December 27, 2020.

Nursing Home COVID-19 State Analysis (as of December 23, 2020) (See Two Attachments)

This week we are providing a new analysis and data on nursing homes in your state. Attached are two files (PDF and Excel file). ***We would appreciate your feedback on these new nursing home analysis.***

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) **National Healthcare Safety Network** (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.

- *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.
- **Excel File:** The Excel file included contains line level information for each nursing home that reported data to NHSN last week, as well as information summarizing upcoming nursing home survey activity.

CMS Testing Dashboard (as of December 23, 2020) (See Attachment)

This file shows the number and percent of facilities in each state and county that may not be testing residents and staff as required to detect COVID-19 early and prevent its spread. States can identify facilities that should have reported resident and/or staff testing based on their county positivity rate or based on an outbreak. Once identified, we encourage states to take action to understand why a facility reported that they didn't conduct testing and identify the solutions to ensure the appropriate type of testing is conducted. We note that this information is based on self-reported data from nursing homes and therefore, may contain some errors. For instructions, users should view the "Readme" tab, which explains the data on subsequent tabs.

Hospital-Level Data Collection Report by State (December 11, 2020 – December 17, 2020) (See Attachment)

- **Background:** The **Secretary's Guidance for Hospital Reporting and FAQ** and the new **CMS Interim Final Rule Comment (IFC)** require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.
- **Feedback:** ***We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.*** Please let us know of any discrepancies or issues you find in the report by emailing **protect-servicedesk@hhs.gov**.
- **Public Dashboard (Website Link):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov (Website Link):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - **Raw Data**
 - **Dashboard Map View with Search by Hospital**
 - **Hospital Reporting Trend Dashboard**
 - **State Certification Status for Hospital Reporting**

We saw a higher level of hospitals missing compliance this week, most likely due to the Christmas holiday. If hospitals submit their by 9 am Wednesday the 30th for the dates of December 18-24, they will still be considered in compliance for this week. We encourage hospitals to ensure they met the required fields for all 7 days. The data from these reports will also be updated on <https://protect-public.hhs.gov/pages/covid19->

[module](#) later today. If hospitals have questions, they can always reach out to the HHS Protect Service Desk at protect-servicedesk@hhs.gov.

Vaccine Distribution Information

Vaccines have been arriving at designated locations across the country and are being administered to designated population on a daily basis. This incredible achievement is a testament to the emphasis that the Administration has placed on combatting the pandemic. While you should be in touch with your individual planning cells on the logistics of any distribution specifics, we also wanted to provide some call center numbers that can be used by state elected and appointed officials to ask technical questions 24 hours a day/7 days a week. The call centers are broken down by [HHS/FEMA region](#), and the numbers are listed below.

Vaccine Coordination Center Call Center Numbers:

- Regions 1-4: Toll Free: 1-833-731-5110; Local: 404-718-8110
- Regions 5-7: Toll Free: 1-833-348-7409; Local: 404-718-8111
- Regions 8-10: Toll Free: 1-833-896-8952; Local: 404-718-8112

If there are any questions, don't hesitate to reach out and we can work to alleviate any concerns.

Subject: 12/30 State-Specific Critical Infrastructure Federal Employee Information - GA
Attachments: Georgia.xlsx

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Governor, Governor's Senior Staff, & State Leaders:

Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

As a follow on to the email sent to you on Tuesday, December 15th, we are providing each state with additional information regarding the number of critical infrastructure Federal employees that work in your state. For transparency for governors and their senior leadership teams, we are providing you this information directly – the information will also be shared by the Operation Warp Speed (OWS) team with vaccine distribution and administration team leaders at the State level. The information contained in this spreadsheet is publicly available through Fedscope.gov, the publicly available CISA guidance, and the Office of Personnel Management website. The information we are providing is for convenience so states do not have to individually extract the information from Fedscope.gov. Please note, the attached information is For Official Use Only and is Not For Distribution.

On the attached spreadsheet, you will find the following information for use in your planning activities:

- **Estimate of additional critical infrastructure Federal employees** for your state that should be incorporated into your jurisdictional planning, prioritization, and distribution efforts. A few notes as you review this information:
 - o **These entries include Federal employees from the following organizations:**
 - ***Small and independent agencies***
 - ***Department of Interior (DOI) and Department of Justice (DOJ)– *numbers are in addition to those DOI and DOJ employees included in the state spreadsheets distributed on 12/15 and are highlighted on the attached spreadsheet***
 - ***United States Postal Service***
 - o These numbers have already deconflicted any Federal agency/employee that will be covered in a direct allocation.
 - o The inventory of Federal employees and justification for inclusion on this list is guided by the DHS CISA Guidance -- Guidance on the Essential Critical Infrastructure Workforce: Ensuring Community and National Resilience in COVID-19 Response (cisa.gov)
 - o A key and guide to the agency information is included on the first tab of the spreadsheet.

- The second tab includes a count of (additional) critical infrastructure Federal employees who perform duties that are not able to be fulfilled remotely and a breakout of these employees by agency/by state.
- **Agency Point of Contact (POC) Roster** (tab three) that lists the designated Agency coordinators and contact information, in the event there are follow-on questions. As you continue your prioritization process, please work with these Agency POCs to ensure that you incorporate these listed Federal employees into your plans.

We encourage you to continue to work with Federal agency representatives in your State, to the extent they have been involved in situational awareness and planning efforts and exercises. Of note, Agency POCs involved in the vaccine implementation effort have also received contact information for your State Immunization Program Managers. If you are already working with Federal agencies in your states, please continue that line of effort.

If you have any questions about this information, please let us know.

Tom, et al,

HAPPY NEW YEAR 2021!

Using the previous email as evidence, **I believe that Trump won the 2020 Election by a landslide**, and that Democriminals, and some Republicans, led a massive organized fraud effort to steal the election for Biden-Harris.

EXHIBIT A: SOS Beth Chapman and Alabama Supreme Court's *refusal* to vet foreign citizen muslim infiltrator, Obama II...OUR NATION'S ENTIRE ELECTION SYSTEM IS APPARENTLY FRAUGHT WITH FRAUD and IN NEED OF VOTER ID et al.

Let's pray that **existing prescribed Constitutional law will prevail on JAN 6**; that VP Pence will simply discard fraud-based Electors; that several Senators and Reps will question Elector tallies, and **Trump will be reinstated as President 2020- 2024.**

Thank you for listening,

JD Mooers, PE, MBA, MADE IN USA

<https://www.thepostemail.com/2019/08/13/response-received-on-natural-born-citizen-letter/>

TO: Secretary of the State of Maine, Matthew Dunlap

Thank you, Sir, for all you do for the State of Maine!

https://en.wikipedia.org/wiki/Matthew_Dunlap

I was born in Bangor, raised on a potato farm in Houlton, received my civil engineering degree from the University of Maine in Orono (and roomed near Stephen King on campus), married a girl from Presque Isle (43 years and counting), took my Professional Engineer's (PE) licensing exam in Augusta, and reside summers in Shapleigh. While I have resided several years in California, Massachusetts and Florida, I will always be a "Mainer" in spirit!

As you know, there are so many political issues saturating our minds these days. At age 70, it seems that the most important political issue today, and every day past/present/future, is **the state of mind of the elected occupant within The Office of the President of the United States of America**. Why so?

Because **the only thing humans control in their visible world is their invisible thinking**. Think of this: everything in the universe is God-designed and provided and Nature-sustained (including our own temporary/breathing bodies) except the control and assembly of life-sensitized invisible thoughts within the private bedrooms of our minds.

<https://www.youtube.com/watch?v=7T1LO6nOUdw>

For example, the **invisible thinking** of Maine soldier-statesman **Joshua Chamberlain** at Gettysburg was the turning point to begin the end of a horrible Civil War.

https://en.wikipedia.org/wiki/Joshua_Chamberlain

Another example is the **invisible thinking** of Maine engineer **Frank John Stevens** who jump-started the successful completion of the Panama Canal project after it had been abandoned by France with a loss of some 26,000 laborers and its \$300,000,000 investment.

<https://www.jstor.org/stable/j.ctt16gzntg>

Therefore, **the invisible sole-USA-allegiance brain-thinking of any presidential candidate/incumbent president/ex-president is the most important political issue today**, and every day, especially because, THE CONSTITUTIONALLY-ELECTED PRESIDENT'S "natural born Citizen" NATURAL INVISIBLE THINKING, and SUBSEQUENT OBSERVABLE NATURAL BEHAVIOR, AFFECTS VIRTUALLY EVERY HUMAN ON PLANET EARTH...with the condition of virtually all other political issues functioning as mere symptoms, and by-products, of said presidential invisible thinking, don't you think?

On 08-28-08, U.S. Speaker Nancy Patricia D'Alesandro Pelosi, signed the documents allowing her known politically-expedient non-Constitutionally-eligible **foreign-thinking= foreign behaving presidential candidate**, unidentified-narrative **Barack Hussein Obama II**, to run for The Office of the President of the United States:

<https://canadafreepress.com/2009/williams091209.htm>

https://www.conservapedia.com/Obama%27s_Religion

DIRIGO, Latin for "I Lead", is the motto for our fine State of Maine.

https://en.wikipedia.org/wiki/Seal_of_Maine

I encourage you, Mr. Secretary, to work with Mr. Laity and me and others, including AG William Barr, to LEAD THE NATION in responding, fully and truthfully, to Mr. Robert Laity's letter (above) to all our nation's Secretaries of State.

https://en.wikipedia.org/wiki/National_Association_of_Secretaries_of_State

<https://www.nass.org/about-nass>

While you may skirt this request because you may privately think you would be indicting the State of Maine for now leading the full identification, and possible prosecution, of Barry Soetoro-Obama II for election-ID-fraud in 2008 and 2012, and for attempted presidential-election-coup in 2016 et al, I BELIEVE EVERY SECRETARY OF STATE REMAINS INDICTABLE EVERY DAY SINCE 08-28-08 FOR COMPLICITY IN ALLOWING A NON-IDENTIFIED NON-"natural born Citizen" anti-USA-allegiance, Barry Soetoro-Obama II, TO BE A **FOREIGN-THINKING=FOREIGN BEHAVING** presidential candidate, incumbent president and ex-president.

<https://www.wnd.com/2018/12/foreign-leader-obama-guilty-of-facilitating-persecution-of-christians/>

<https://www.youtube.com/watch?v=KrefKCaV8m4>

EXHIBIT A:

According to the Laws of Nature relative to natural birth, **Barry Soetoro-Obama II ("Obama II") NEVER WAS, NEVER IS and NEVER WILL BE THE 44th CONSTITUTIONAL PRESIDENT OF THE UNITED STATES**, because this self-proclaimed "world citizen" and unidentified foreign operative (UFO) of multi-allegiances, Barry Soetoro-Obama II, never had, never has and never will

have Constitutional life-sensitized sole-USA-allegiance brain-thinking, as John Jay et al originally intended:

1. By **NATURAL LAW** (Narrative-Obama Senior passes his DNA, surname, British Subject Kenyan-allegiance citizenship et al to his son, Obama II)

<http://newswithviews.com/JBWilliams/williams296.htm>

<http://newswithviews.com/JBWilliams/williams297.htm>

<http://newswithviews.com/JBWilliams/williams321.htm>

2. By **PRECEDENT** (72 of 74 [97%] parents of non-nbC-grandfathered presidents were U.S. citizens at time of president's birth, except for Arthur and Obama II)

<https://www.scribd.com/doc/48856102/All-U-S-Presidents-Eligibility-Grandfather-Clause-Natural-Born-Citizen-Clause-or-Seated-by-Fraud>

3. By **ADMISSION OF FOREIGN BIRTH**

<https://www.thepostemail.com/2018/07/23/obama-says-he-is-from-kenya/>

<https://www.breitbart.com/politics/2012/05/17/the-vetting-barack-obama-literary-agent-1991-born-in-kenya-raised-indonesia-hawaii/>

4. By **SEALED or FRAUDULENT IDENTIFICATION DOCUMENTS** (with U.S Government and Corporate Media and State-licensed Attorney-criminal Complicity; TRUMP: REVOKE FAKE EXECUTIVE ORDER 13489)

<https://www.youtube.com/watch?v=QM2GJn6hpJE>

<https://www.youtube.com/watch?v=aszpJ1luroo>

<https://www.thepostemail.com/2011/01/20/repeal-executive-order-sealing-obamas-records/>

5. By **100% NATIONAL SYNDICATION OF JUDICIARY COMPLICITY**

<http://www.americanresistanceparty.org/2016/07-16/ballotchallenge.pdf>

<https://www.thepostemail.com/2015/02/27/dr-terry-lakin-congressmen-admitted-they-did-not-know-who-obama-is/>

<https://www.wnd.com/2010/04/142101/>

<https://www.goodreads.com/book/show/38633557-the-russia-hoax>

The Pelosi-Obama II CONSTITUTIONAL ELECTION FRAUD is THE MOST IMPORTANT PROBLEM THREATENING OUR CONSTITUTIONAL REPUBLIC 08-28-08- TODAY and all other issues (open borders, open citizenship, legal infanticide, Spygate et al) are merely its symptoms.

Only listen to Obama II's foreign behavior, not his utterances and writings, and it becomes evident that he possesses a life-acquired pro-islamic-foreign-thinking mind, which is exactly what John Jay, Secretary of Foreign Affairs at the time, attempted to avoid when he recommended in 1787 that "**natural born Citizen**" (= **born in sole-USA-allegiance-jurisdiction to sole-USA-allegiance-citizen-parents [like me and possibly you]**) be included in the U.S.

Constitution. In fact, John Jay went further when he proposed that the president and vice-president and all Congressmen be "natural born Citizens" due to his observations, both here and abroad, of the destabilizing affects of foreign allegiances, bribes and intrigues infested within various established national governments.

<https://dlc.library.columbia.edu/jay>

<https://www.thepostemail.com/2018/09/17/constitution-day-17-sep-2018-a-lesson-from-history/>

The family unit is the first government; an incubator for a growing child's values, affections and allegiances.

<http://www.fox13news.com/news/politics/trump-revives-suggestion-he-would-end-birthright-citizenship>

I have intermittently researched this term of art, "natural born Citizen" (nbC) since 2013. The U.S. Constitution is the supreme law of the land as John Jay's invisible thinking helped create and promote in 1787. One can either follow the U.S. Constitution, or amend it. To knowingly disobey it, then, is criminal, I believe. Speaker Pelosi, second-in-line to be president, on 08-28-08, willfully and invisibly thought to violate the U.S. Constitution by promoting an unidentified smiley-faced foreign islamic infiltrator, Barry Soetoro-Obama II, as the DNC's presidential candidate. Speaker Pelosi, therefore, remains an unindicted "nbC-criminal" 08-28-08-TODAY. PROVE me wrong, Matthew.

On 08-28-09, **The Post and Email began a website of worldwide fingertip-accessible "IN PLAIN SITE" daily publications of the Pelosi-Obama II election frauds** of 2008 and 2012, and the attempted election-coup of candidate Trump in 2016. 08-28-19 mill mark 10 continuous years of dedicated precise daily journalism of said "IN PLAIN SIGHT" Pelosi-Obama II "nbC-fraud". <https://www.thepostemail.com/>

While Congress et al have revised naturalization requirements for U.S. citizenship since 1787, **John Jay's invisible thinking of his term "natural born Citizen" has remained the original un-amended supreme law of the land when selecting/qualifying/vetting/consenting any presidential candidate/incumbent president/ex-president.** All attempts to define "natural born Citizen" may conform to anyone's personal bias and preference, but the true definition of John Jay's "natural born Citizen" remains unchanged since its ratification in 1789. PROVE me wrong, Matthew.

<https://www.amazon.com/John-Jay-Founding-Walter-Stahr/dp/1635763363>

In reading "John Jay- Founding Father" it becomes patently clear that the true meaning of "natural born Citizen" 1787- TODAY begins and ends with the invisible thinking and subsequent behavior of John Jay. As a check to ensuring that any U.S. President and U.S. Vice-president have **a minimum of foreign-philosophies brain-thinking**, the intentionally restrictive, and exclusive "natural born

Citizen" requirement proposed by John Jay in 1787, and fully ratified by the 13 states by 1789, becomes, and remains today, **the supreme presidential qualification of the land, beginning with the intentionally restrictive birth pedigree circumstances of being born within a sole-U.S.-jurisdiction of sole-U.S.-allegiance-citizen-parents, just like me being born at Eastern Maine General Hospital in Bangor, Maine on Easter Sunday 1949.** PROVE me wrong, Matthew.

Simplify nbC: The instant the United States of America was ratified as a Constitutional nation among nations on planet Earth, all residents on US soil who accepted sole-US-allegiance (i.e., had fought in the Revolutionary War on behalf of the US; had abandoned Loyalist sentiments by taking an oath of sole-US-allegiance et al) instantly became "grandfathered" Constitutionally-naturalized US-citizens. In that same instant, in that political snapshot in man's evolution, from within those same Constitutionally-naturalized US-citizens who accepted sole-US-allegiance, were US-citizen parents-to-be that were eligible to possibly produce a Constitutional "natural born Citizen" president by virtue of **birth pedigree**, like me. Those sole-US-allegiance citizen-parents would naturally raise their child with sole-US-allegiance values and affections in USA with a minimum of foreign influences and sympathies such that their child would naturally internalize a singular "America First" developing **brain-philosophy**, like me (and you?). If that child wanted to become a US president, if he had resided in USA for at least 14 years, if he had not given up his US-citizenship upon age of maturity, if he had shown good non-felon moral behavior and if he had attained the age of 35 years, he would be Constitutionally-eligible to be a US president, like me (and you?). **This is the simplest, least contested and least doubtful qualification to be considered as an "America First" presidential candidate/incumbent president/ex-president in USA.**

What undermines this simplest scenario is when a presidential candidate's parents-to-be are foreign-born and not naturalized as sole-US-allegiance citizen-parents (Kamala Harris et al) or the presidential candidate is foreign-born (Kenyan Obama II?; Canadian Rafael Cruz et al), or the presidential candidate satisfies this simplest nbC base-line model above but has consistently displayed a natural propensity for arrogant reckless felon-like behavior that inescapably indicates possession of a natural adult felon-thinking "Sell America" criminal mind (Hillary Clinton).

BOTTOM-LINE: Only presidential candidates who satisfy the simplest, least contested and least doubtful nbC-model above shall be allowed candidacy, occupancy and history within the highest office of the United States of America (and the world). To un-Constitutionally abandon this simplest nbC-model to experiment with dangerous subjective identity-politics mob-rule-vetting-hysteria like "America's first black president (Obama II)!" or "America's first female president (RICO-criminal Hillary, foreign-allegiance-parented Kamala et al)!" or "America's first male-male-married homosexual Commander-in-Chief (Buttigieg)!" is the commission of national suicide, is it not?

We are two Mainers in this together, Matthew; you, as one of 50-plus consented sworn-in Secretaries of State, and I, as a private natural born citizen of natural born citizen-parents on Maine Street USA. What legal basis did U.S. Speaker Pelosi willfully use to approve any presidential candidate with less sole-USA-allegiance birth and parentage circumstances than my

own (and your own)? I will be listening to your behavior upon your fully (?) internalizing this email. Sense> think> do; repeatedly.

Matthew, if the only thing you control, your invisible thinking, is consumed with sole-USA-allegiance motivations herein, **I will hear this in your subsequent behavior if you act in leading all other Secretaries of State to objectively do the following, and not issue any more "decoy documents", like the canned letter of nothingness issued to Mr. Laity herein, apparently intended to evade said multiple election-fraud issue:**

A. Encourage President Trump to Revoke Obama II's Executive Order 13489 so as to unseal all of Barry Soetoro-Obama II's identification documents for some 329,000,000 heretofore intellectual-property-robbed U.S.-citizens and duped voters of 2008 and 2012 and 2016 general elections

<http://edwinvieira.com/edwin84.htm>

<http://politicalliars.com/Top-PoliticalLiar/Obamas-40-alarming-quotes-about-Islam-and-Christianity-Allen-B-West/946.html>

<https://cdrkerchner.wordpress.com/2016/03/02/bombshell-maine-governor-paul-lepage-endorsed-trump-because-hes-a-natural-born-citizen-and-eligible/>

All Secretaries of State will necessarily do this if they each agree naturally that **EVERY U.S.-CITIZEN HAS A NATURAL RIGHT TO KNOW (per U.S. Constitution Bill of Rights et al), A PRACTICAL NEED TO KNOW (who to vote for et al) AND A PATRIOTIC DUTY TO KNOW (every front-line soldier must know the Commander-in-Chief who may have inserted them in harms way et al) THE FULL IDENTIFICATION AND FULL LIFE HISTORY OF ANY PRESIDENTIAL CANDIDATE AND ANY INCUMBENT PRESIDENT AND ANY EX-PRESIDENT AT ANY TIME.** Do you agree with this statement and sentiment, Mr. Dunlap?

Going forward, ALL PRESIDENTIAL CANDIDATES should FULLY and VERIFIABLY IDENTIFY THEMSELVES (yield passports, college transcripts, birth certificate, parent's birth certificates, proof of sole US-citizenship, criminal record, Selective Service Form, Social Security Number et al), with all candidate's refusal to fully identify themselves under "privacy of information" rendering them ineligible to run for office due to their intentional "piracy of information" from voting public consumption, TO EACH SECRETARY OF STATE et al.

<http://www.fox13news.com/news/politics/trump-revives-suggestion-he-would-end-birthright-citizenship>

B. Encourage President Trump to pardon LTC Terry Lakin

C. Encourage AG Barr to investigate and prosecute Pelosi-Obama II for election-nbC-ID-fraud in 2008 and 2012, and for attempted nbC-election-coup of candidate Trump in 2016

Again, Thank You! and your staff for all you do for the great State of Maine, and for your immediate considerations herein,

Jonathan David Mooers, PE (Structural- MA, ME, NH, NY), MBA, Fellow and Life Member- American Society of Civil Engineers, LT (Ret.)- US Army Corps of Engineers, MADE IN USA CEL [REDACTED] -

Governor, Governor's Senior Staff, & State Leaders:

Happy New Year! Thank you for your efforts in the whole-of-America approach to responding to and recovering from COVID-19.

The Governor's State Weekly Report is available by request from White House Intergovernmental Affairs, please email Tucker Obenshain at anne.t.obenshain@ovp.eop.gov to request Issue #29.

Below and attached you will find state-specific information for the State-Federal COVID-19 response and recovery:

- Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State Distribution (1 Attachment)
- Supply Chain Control Tower Updates
 - Weekly State & County-Level PPE Shipment Data (1 Attachment)
 - Hospital & Long-Term Care Facility Supplies Data (1 Attachment)
- Summary of Nursing Home COVID-19 State Analysis (1 Attachments)
- CMS Testing Dashboard (1 Attachment)
- Hospital-Level Data Collection Report by State (1 Attachment)
- Vaccine Distribution Information (See Below)
- Other Items of Note (See Below)

At the request of the White House Coronavirus Task Force, this state-specific information is being sent to governors and their senior staff, state health official, state emergency manager, state epidemiologist, state lab director, and state preparedness director. We have also included our U.S. Department of Health & Human Services (HHS) and Federal Emergency Management Agency (FEMA) partners.

Abbott Laboratories BinaxNOW Rapid Point-of-Care Tests – State-Distribution (through week of January 4, 2021) (See Attachment)

The attached State-specific file provides detailed information of BinaxNOW tests deployed to your state to date including tests for state distribution along with direct distribution by the Federal government to protect vulnerable communities at assisted living facilities, home

health/hospice agencies, nursing homes, and HBCUs. On September 28, our Nation's Governors, along with their health and emergency management teams, were briefed on the distribution of 100 million Abbott BinaxNOW tests to our nation's Governors and received a **letter** from President Trump on this announcement. Additionally, the Federal government is directly deploying BinaxNOW rapid point-of-care tests to our Nation's higher-risk, vulnerable populations. Additional information about the upcoming wave of BinaxNOW test shipments to your state for state distribution will be provided by HHS to your state BinaxNOW shipping point-of-contact.

Supply Chain Control Tower Updates (2 Attachments)

- **Weekly State & County-Level PPE Shipment Data (March 1, 2020 – January 1, 2021) (1 Attachment; PDF):** Attached you will also find information on personal protection equipment (PPE) and other critical supplies distributed by commercial distributors and FEMA at the county- and state-level. PPE was distributed by commercial distributors to healthcare facilities in your state through the normal commercial supplier distribution system. The information shared with you is for official use only and is not for further distribution.
- **Hospital & Long-Term Care Facility Supplies Data (1 Attachment; Excel File):** This is data on hospital and long-term care facility supplies status reporting in five critical PPE categories. The data in these reports are based on self-reported values from hospitals (through Teletracking and directly to HHS Protect) and LTCFs (through NHSN's LTCF COVID-19 module). The dataset contains known data issues, including but not limited to: i) inaccurate reporting by facilities or other parties reporting on behalf of facilities; ii) data transfer or parsing issues resulting in inaccurate or incomplete data; iii) outdated reporting values. HHS is actively working to investigate and improve data quality; in the meantime, data and supplies status should be validated with individual states and facilities prior to taking action. Data for hospitals is current as of 11:59 p.m. Eastern Time on December 30, 2020. The LTCFs data is current as of 11:59 p.m. Eastern Time on January 3, 2021.

Nursing Home COVID-19 State Analysis (as of December 30, 2020) (See Attachment)

- **PDF:** The Summary of Nursing Home COVID-19 State Analysis contains three slides that reflect the information found in the Centers for Disease Control & Prevention (CDC) **National Healthcare Safety Network** (NHSN) file.
 - *Slide 1:* Shows state-wide nursing home information with respect to COVID-19 data elements.
 - *Slide 2:* Shows state-level nursing home information for those facilities that have either had their initial case, or three or more cases this week. Those nursing homes require a survey, which is an on-site visit to evaluate compliance with federal health and safety requirements.
 - *Slide 3:* Shows state-wide trends for nursing home residents and facilities with respect to COVID-19 information. The third slide's information does not include the last reporting week, which means that the numbers from slide 2 and 3 will be different. This is due to the changes in the data reported in the last reporting week that affect trend lines.

CMS Testing Dashboard (as of December 30, 2020) (See Attachment)

This file shows the number and percent of facilities in each state and county that may not be testing residents and staff as required to detect COVID-19 early and prevent its spread. States can identify facilities that should have reported resident and/or staff testing based on their county positivity rate or based on an outbreak. Once identified, we encourage states to take action to understand why a facility reported that they didn't conduct testing and identify the solutions to ensure the appropriate type of testing is conducted. We note that this information is based on self-reported data from nursing homes and therefore, may contain some errors. For instructions, users should view the "Readme" tab, which explains the data on subsequent tabs.

Hospital-Level Data Collection Report by State (December 25, 2020 – December 31, 2020) (See Attachment)

- **Background:** The **Secretary's Guidance for Hospital Reporting and FAQ** and the new **CMS Interim Final Rule Comment (IFC)** require all hospitals who are licensed to provide 24 hour care to report all of the mandatory non-supply fields seven days a week within one business day of the reporting date (except for psychiatric and rehabilitation facilities who must report weekly). This includes short term, long term, critical access, children, Medicaid-only short term, Medicaid-only children, distinct part psychiatric Hospital, and Medicaid-only long term hospitals. This refers to items 1 - 24 in the Guidance for

Hospital Reporting and FAQ. Hospitals are only required to report supply related fields (items 26, 27, 29, 30, and 31) on Wednesdays. Psychiatric, Rehabilitation, Medicaid-only children Psychiatric, Medicaid-only Psychiatric, and Medicaid-only Rehabilitation hospitals are required to report all mandatory fields on Wednesdays only. This refers to items 1 - 24, 26, 27, 29, 30, and 31 in the FAQ. This Hospital Data Coverage Report covers the last week from Friday to Thursday and lists each hospital in the state, the percentage of mandatory fields reported, the number of days reported at 100%, whether a hospital is required to report on Wednesdays only, and lists each required field with the number of days that specific field was reported for the week. For facilities that are only required to report once a week, the overall count of days at 100% and individual field counts are shown as 7 if reported successfully for Wednesday and 0 otherwise. To support identification of missing fields, cells showing required fields are shaded as follows: Fields reported 0-3 times are shaded red, fields reported 4-6 times are shaded yellow. Fields that are only required to be reported on Wednesdays are listed as 'Yes/No' indicating if the fields was reported as required. All 'No' indicators are shaded red.

- **Feedback:** *We appreciate your feedback on this collaborative effort to improve COVID-19 hospital reporting for the pandemic response.* Please let us know of any discrepancies or issues you find in the report by emailing protect-servicedesk@hhs.gov.
- **Public Dashboard (Website Link):** HHS launched a public dashboard using this HHS Protect hospital data. The dashboard publishes all the data HHS receives in the most transparent way possible, representing the raw inputs HHS is receiving (including reports with missing data elements).
- **HealthData.Gov (Website Link):** HHS also launched a data-sharing webpage, healthdata.gov, where researchers and the general public can access COVID-19 data sets for analysis.
- **You can find additional information including data and trends:**
 - [Raw Data](#)
 - [Dashboard Map View with Search by Hospital](#)
 - [Hospital Reporting Trend Dashboard](#)
 - [State Certification Status for Hospital Reporting](#)

Vaccine Distribution Information

Vaccines have been arriving at designated locations across the country and are being administered to designated population on a daily basis. This incredible achievement is a testament to the emphasis that the Administration has placed on combatting the pandemic. While you should be in touch with your individual planning cells on the logistics of any distribution specifics, we also wanted to provide some call center numbers that can be used by state elected and appointed officials to ask technical questions 24 hours a day/7 days a week. The call centers are broken down by [HHS/FEMA region](#), and the numbers are listed below.

Vaccine Coordination Center Call Center Numbers:

- Regions 1-4: Toll Free: 1-833-731-5110; Local: 404-718-8110
- Regions 5-7: Toll Free: 1-833-348-7409; Local: 404-718-8111
- Regions 8-10: Toll Free: 1-833-896-8952; Local: 404-718-8112

If there are any questions, don't hesitate to reach out and we can work to alleviate any concerns.
