EXTERNAL SENDER

Good afternoon,

Consistent with our June 3 email, please see the attached zipped folder containing documents responsive to your January 24 clarified request for information under Chapter 552 of the Texas Government Code.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on July 8, 2022. *See Tex. Gov't Code § 552.221(d).*

Kind regards,

Jennifer Williams

Via electronic mail [REDACTED]

Dear Mr. Bridgeman,

This letter is in response to the complaint you submitted to our office regarding Heider Garcia, Tarrant County Elections Administrator, for not providing curbside voting at every polling location.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. If you have additional information that was not included in your complaint that demonstrates that criminal conduct may have occurred, please send it to us for further review.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith Ingram".

III. NATURE OF ALLEGED VIOLATION**Page2**

If you believe that a criminal violation of the Code has occurred, please state the specific acts committed by the person or entity named in this complaint, along with a reference to the section of the Code alleged to have been violated, if known. If you need more space, please attach a separate sheet.

Failure of polling place to provide curbside voting, or a voter alert sign for handicapped voters.

IV. STATEMENT OF FACTS**Page 3**

State the facts constituting the alleged violation(s), including the dates on which or the period of time in which the alleged violation(s) occurred. Identify allegations of fact not personally known to the complainant, but alleged on information and belief. Please use simple, concise, and direct statements.

ELECTION IN WHICH VIOLATION(S) OCCURRED

NAME OF ELECTION 2020 General Election DATE OF ELECTION 1 1 0 3 2 0 2 0

Date of Alleged Violation: 10-16-2020

Location of Alleged Violation: Villages of Woodland Springs

I am a voter who is confined to a wheelchair. My wife had to open the ramp from our van in the middle of the parking lot because there were no spaces available. I searched outside for the handicapped alert sign that is required by law. There was no sign. And there was no option for curbside voting either.

So I was forced to ask people to move off the sidewalk so I could get inside the building. I found the handicapped alert sign just inside the doorway. But it had no button on it.

I asked to speak to the Elections Judge, and was informed that she had gone to lunch. So I asked to speak to whomever was in charge of the polling place. And there was no one else.

When I asked why curbside voting and disabled voting was not available, I was told that there was only one person who worked that polling place who was trained in taking the DRE outside so voters with disabilities could vote. And that person had called out with COVID-19 on Monday night October 12th. I was told that they would have a replacement person on Monday October 19th if I wanted to come back. I said that since I was already inside, could I go ahead and vote. She moved me to the front of the line, and I was able to vote.

Early Voting began on October 13th. So this polling place lacked the curbside and disabled voting required by law for an entire week.

VII. IMPORTANT INFORMATION

Pursuant to Section 31.006 of the Texas Election Code (the "Code"), the Office of the Secretary of State (the "Secretary of State") has the ability to refer elections complaints to the Office of the Attorney General (the "Attorney General"). If, after receiving a complaint alleging criminal conduct in connection with an election, the Secretary of State determines that there is reasonable cause to suspect that the alleged criminal conduct occurred, the Secretary of State shall promptly refer the complaint to the Attorney General. The Secretary of State shall deliver to the Attorney General all pertinent documents in the Secretary of State's possession.

Any person who believes that a criminal violation of the Code has occurred may file a complaint. In order to initiate the complaint process, a written and signed complaint must be filed with the Secretary of State. The complaint must allege the violation with particularity, identify the person(s) or entity responsible for the alleged violation, and contain a reference to the section of the Code alleged to have been criminally violated, if known.

The Secretary of State has no authority to order a new election, change an election result, or conduct a criminal investigation. This form is to be used solely to document alleged election irregularities and submit allegations of criminal violations of the Code to be referred to the Attorney General. Often complaints will be Code violations that do not amount to criminal violations or acts. These violations are election irregularities which may form the basis of an election contest, but do not carry a criminal penalty. These election irregularities will not be referred to the Attorney General for possible criminal prosecution.

Challenging an election result can be done either through (1) a recount or (2) an election contest. If you are seeking to alter the outcome of the election, you will need to use one of these methods of challenging the results, described below. **A complaint filed with this form will not alter the results of an election.**

Legal Remedies That May Alter the Election Outcome

1. Recount

Recounts are used only to recount the votes in a particular race (office) or measure. A recount does not have the scope or authority of an election contest in court, i.e., the recount committee will not look at the manner in which voters were qualified to vote in person or by mail or whether voters were eligible to vote in the election. The governing body of an entity cannot conduct a recount on its own motion, e.g., at the canvass.

Please note that recount request deadlines occur soon after the canvass - a recount must be requested not later than two days following the canvass. More information on filing recounts (including form, deposit information, and who and how to file) is available on the Secretary of State's website.

2. Election Contest

If a candidate disputes the outcome of the election, regardless of whether or not a recount has been conducted, and has discovered irregularities, fraud, or mistakes in the conduct of the election that affected or could have affected the outcome, he/she can file an election contest to challenge the election results. The legal question raised by an election contest is whether the outcome of the contested election, as shown by the final canvass, is not (or cannot be conclusively determined to be) the true outcome because (1) illegal votes were counted, or because (2) an election officer or other official administering the election either (i) prevented eligible voters from voting, (ii) failed to count legal votes, (iii) engaged in fraud or illegal conduct, or (iv) erred in some material way.

Contests involving county elections are filed in the district court in the relevant county. In most circumstances, the filing deadline for an election contest is 30 days after the canvass, except in the case of a primary or an election where a runoff is necessary, in which case the deadline for filing is 10 days after the final canvass. If a recount is held and the votes are changed, the date of the canvass of the recount (i.e., final canvass) becomes the new date by which the contest deadline is calculated.

Any losing candidate may contest an election. In a contest of an officer election, the contestant files suit against the election's winner (or in the event that the election outcome is determined by majority vote rather than plurality vote, the person or persons entitled to a place on the runoff ballot). Voters at large within a political subdivision do not possess standing to intervene as parties to an election contest for public office.

In an election contest, the court has the authority to: (1) examine ballots and equipment; (2) compel voters to reveal how they voted; (3) declare an election void if illegal votes are greater than or equal to the number of votes necessary to change the outcome or cannot ascertain the true outcome of the election; (4) order a new election (or new runoff election), if unable to ascertain true outcome; (5) subtract illegal votes, if able to determine the side for which an illegal vote was cast; or (6) declare outcome of election, if able to ascertain true outcome.

If you think either a recount or an election contest is the proper procedure for the remedy you seek, you may wish to consult private legal counsel regarding your legal options. The Secretary of State staff can provide general guidance on these procedures as well.

Here is what happened on May 1st, 2021, at Elzie Odom Rec center in Arlington, TX when I went to vote.

I went in and was planning on showing my daughter the process of voting. No issues with the first two people I met, they showed me where to go and made sure I had my ID. I was politely informed that when it was time for me to vote my phone shouldn't be out. I said I was juts doing some last minute info checks on candidates. She said that was fine as I was still in line to be checked in and I wasn't on the phone talking.

I got to the table to check in and had some questions about paper ballots, making sure we had them, and the brand of voting machines.

Well when I began asking questions to the poll worker who checked me in and was supposed to print my voting slip, she began to give me a website... But the "election Judge" next to her shut her down SO FAST and wouldn't allow her to give me info, said she needed to tell me to call the Sec. State. I said if you have a website for me to look at, I'd like it.

I was told to educate myself and come back later when I was ready to vote.

I refused, said I was ready to vote, and they handed me my ID and I moved down the line.

I went to the next table to get a ballot and he said I needed the slip, I told him they didn't print it. He said he would find out why, started to stand up, and I asked him if he knew the brand of voting machine by chance, and he said quickly, "Yes, it's Hart." Very easy. I thanked him, he went to talk to the ladies.

They said I was causing a disturbance and needed to leave. The man came back, he was the "alternate election judge" lightly placed his hands on me to push me out. I demanded he not touch me and he backed off.

I then called the cops and began filming. A woman tried to slap the phone from my hand in the video.

Police came, helped me vote, offered to file assault charges which I refused, maybe naively. They spoke with witnesses and poll workers. They gave me the numbers to call that the poll workers refused to give me, but gave to the police when asked.

The swiftness with which I was shut down seemed like a conditioned response. This same "election judge" (Alice Gandy, not a real judge) allowed BLM merch to be worn by pollsters in 2020. Never really had my concerns about that and the behavior of said BLM poll workers,

but they were horribly rude and it was tantamount to voter intimidation, maybe not really a violation of anything clearly spelled out.

Sorry if that was too long!!! Not a journalist!

Let me know if you want the video, I'll have to send you a link bc my phone won't let me attach it to emails. It's under 2 min, but file is too large.

While serving at the Elzie Odom Recreation Center in Arlington, Texas on Saturday May 1, 2021 for election, this report, to the best my knowledge, is my recall of the incident as it happened between a perspective voter and members of our working staff as all of us tried to assist her:

I, Alice Gandy, the assigned judge, was at the time of the incident, helping a voter get signed in to vote. I was sitting beside Jennifer Dooley who was checking a voters identity to verify accuracy when the voter started yelling and shouting accusations that no one would answer her questions as to what happens if the information and person she voted for was not captured by the scanning

machine. When the clerk tried to explain the process to her she wouldn't listen and continued to shout. At this point, since I was sitting so close I tried to explain that when she scanned her ballot a flag would appear on the screen noting the voting was completed and the ballot had been accepted as the voter had marked. This voter would not listen and at that point I asked her to follow me to the next table where the alternate judge was processing voters with access codes and their ballots to go to the poll. She reluctantly followed me and I introduced her and her question to Alan, the alternate judge and she still would not accept an answer. She had her phone on and was asked to turn it off and she

shouted no one tells me what to do and I am recording everything going on. I then left the area and went downstairs to ask the manager to have security come up and give us help to have the voter to leave. He stated they did not have security but he would call 911 which he did and shortly the police arrived and took the voter outside and talked with her, I went out to check and the police asked if I could have the clerk come talk to them. Jennifer went out to talk with the police and after a fashion the voter returned to check in and voted and when she left she turned to the clerk working at the entrance and quietly said thank you. I was then called from voting headquarters and asked if I would have

each worker complete a standard affidavit and submit while this was fresh on their mind. I passed the message on and since we were still quite busy with voters no one expressed an interest in doing so. However, the alternate judge said he would do so. At the end when we closed the polls we broke down the equipment and cleared the area to leave it as we found it when we started the day. We all express a desire to have security present for our safety during voting at each site. This is my recollection of the incident.

Around 12:40pm on Saturday, May 1, 2021, I heard a female voter, in a very loud voice, shout if anyone was going to answer her questions. I was working at the ballot table at the time, which was several feet down the hallway (upstairs hallway above main gym at the Elzie Odom Rec Center on NE Green Oaks Blvd). I do not know how long the voter had been at the sign-in table prior to the shouting.

When I looked towards the sign-in table, I could see that our Election Judge, Alice Gandy, was trying to talk to the voter. Because of the distance between our two tables, I could not hear what Alice was saying. What I could hear was the voter repeatedly shouting about someone answering her questions. Every time I saw Alice open her mouth to talk, the voter would shout Alice down without giving her much of a chance to talk.

A couple of minutes later, Alice walked up to me at the ballot table and asked if I could help the voter. The voter, who was with an 8- to 10-year-old girl, marched up and, while Alice was still talking to me, started demanding if I was going to answer her questions. I asked the voter what it was she wanted to know. Despite being on the other side of the table from me, she shouted a question about who made the voting machines. I blanked at that moment on who made the machines and told her I wasn't sure, which angered her even more.

I tried to tell the voter she could call Tarrant County Elections for information about the voting machines, but she wasn't interested in hearing it and continued to shout. I happened to turn my head at that moment and saw the "H" logo on the Controller, which jogged my memory that the machines were made by Hart.

The voter then demanded to know what website to go to call the Secretary of State. I had no clue since I've never tried to look up their number. While I was trying to remember whether their number was on one of the signage we had to put up for the election, the voter demanded to know why I wasn't allowing her to vote.

Upon hearing this, I asked the voter for the barcode slip she had been given, to which she shouted that they hadn't given her one. I was fairly certain this meant she had never actually signed-in to vote. I got up from behind the table, walked around, and asked the voter to follow me to the other table so we could get her signed in. The voter immediately shouted that she had already signed-in and that I had to go get her slips now. I tried to explain that she would need to follow me, but the voter interrupted me by shouting that I can't tell her what to do and demanded I immediately go get her slips from them as they were trying to keep her from voting.

The voter continued shouting at me, alternating between telling me I can't tell her what to do, that I was preventing her from voting, and demanding to know how to contact the Secretary of State. I attempted to explain to the voter that I was trying to help her, but that she was going to need to calm down in order for that to happen. She made it clear that she did not need to calm down and that I needed to let her vote now.

After a few more attempts of trying to explain that she was going to need to calm down, I held up my left arm behind her shoulder and extended my right arm, palm extended, towards the sign-in table. I again explained she would need to follow me to the other table so we could get her signed in. She again shouted that she had already signed in, that I needed to go get her slips, and that I couldn't tell her what to do.

At this point my left hand touched the back of the voter's right shoulder. I do not know if I moved my hand forward, if she took a step back, or a little bit of both. The moment my hand and her shoulder touched, she exploded. She got even louder than before, telling me not to touching her and yelling to the other voters waiting for a ballot that I was touching her. She kept going back and forth between the two.

Since the voter was refusing to allow me to assist her but, instead, seemed intent to only cause a scene, I told her that we would no longer be able to assist her and that she would need to leave the building. She continued shouting in her even louder voice that I was preventing her from voting. I eventually told her that if she did not leave the building, I would call the police to have her removed. She continued to yell that she was not leaving.

I went back behind the table and took out my phone. I looked up and noticed that she was on the phone. I told her that it was against state law to use her phone within 100 feet of the voting booths. A voter who was waiting for a ballot picked up a "no cell phone" sign that was on the table near him and placed it in front of the voter, which just enraged her even more. I then heard her say she needed police out to the voting location because we were refusing to let her vote.

I placed my call to 911 and began to assist the other voters waiting for a ballot. I explained the situation to the operator. The operator had to look up the address of the rec center as I could not remember it off the top of my head. Once she got the address, she told me that it looked like police had already been dispatched because someone else had called. I told her it was probably the voter.

During my call to 911, I heard the voter again shouting and looked up. She was now pointing her phone in a way that made it clear that she was taking a video. The phone screen was pointed towards her, and I couldn't see it, so I don't know if she was videoing herself or if she was using the back cameras to video the voting area. I told the operator that the voter was using her phone to record video against state law. The voter immediately pointed the back of the phone towards me, repeatedly shouting that I was using my phone against state law.

Shortly after this, the voter began walking down the upstairs hallway we were in back towards the entrance. She continued yelling as she went, eventually disappearing out of sight as she took either the stairs or elevator back down to the first floor. This was the last I saw of her until sometime later (not sure how long), when she came back to the ballot table with a barcode slip. Neither she nor I said anything about what had happened previously, and she voted and left without any further incident.

Dear Ms. Russell,

This letter is in response to the complaint you submitted to our office regarding possible election irregularities in an election in Tarrant County.

In your complaint you indicated that you received a ballot by mail from Tarrant County in September 2020, but indicated that you had not requested that ballot and that you did not meet the eligibility requirements to vote by mail. You also indicated that you contacted the Tarrant County Elections Office about this issue and that they apologized for the error and cancelled the ballot after discovering the mistake.

After receiving your complaint, we also contacted Tarrant County about this issue, and they confirmed that their office had made a mistake and that they would be addressing the issue internally to ensure that this issue does not reoccur.

Our office does not have any investigative or enforcement authority, and we only have the authority to refer criminal conduct to the Office of the Attorney General when that criminal conduct constitutes a criminal offense under the Election Code. Because your complaint did not include any allegations of criminal conduct under the Election Code, we are unable to refer your complaint at this time.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

Sincerely,

If you need more space, please attach a separate sheet.

I am making an official complaint of voter fraud by the Tarrant County Elections Office. My voting rights have been compromised and I am aware that this is not an isolated case. I have heard from other Tarrant County residents that have also been affected. On 09/28/2020, I received an Official Ballot to vote by mail from the Texas Secretary of State. I did not apply for this early ballot by mail nor do I qualify for early voting by mail. Upon contacting the AG office of Texas on 9/29/2020, I was referred to the Tarrant County Elections Office. I called the Elections office of Tarrant County and spoke to a supervisor named Donna McClung. She explained that I do not have an application on file and apologized that I received an official ballot in error. Donna further explained that their system to process early voting by mail applications is to use "temporary workers" and they must have made a "keying error" when issuing the ballot. They have cancelled the ballot, however, I asked Donna if she has received this complaint from other Tarrant County residents. Her response was "yes". I am claiming this matter as voter fraud due to the fact of citizens not understanding the process and being lead to believe they qualify to vote by mail. This is a direct violation of voting rights and needs to be addressed immediately. Had I not been so diligent in understanding the process, sent in the official ballot, my vote would have been canceled out due to no application/signature on file. Due to the procedural error by the Tarrant County Elections Office, an individual who was approved to vote early by mail, has not received an official ballot. Therefore, every instance this has occurred, resulted in two voters being disenfranchised. This practice is wrong and I believe a full investigation of the Tarrant County Election Office is in order.

I am resending an email that I had sent on 12/11/20. I have also found your election complaint form and will be submitting that as well. I think when there are so many election issues that we should perform an audit to reassure the voters of Tarrant County that the election was done correctly and accurately. I would appreciate a response about this issue soon—thank you.

I am writing to file a complaint about the 2020 election in Tarrant County. There were discrepancies with almost 20,000 mail-in ballots that were never satisfactorily explained. These ballots were counted and could easily have flipped Tarrant county, a traditionally red county, to blue. Why couldn't these ballots be read by the scanners? Were they official ballots? Are we sure? How many ballots were sent out? How many were returned? How many registered voters are there in Tarrant County? How many of these traditionally vote? Then there is the issue of a Smartmatic executive working as Elections Administrator—why is Heider Garcia working in our county? I realize that no one knew much about Smartmatic a few years ago, but I'd imagine that there were red flags on his background check, like connections to fraud in the Philippines! And now we have an anomaly, a traditionally red county flipped to blue.

There are no explanations you can give that will reassure me (and the rest of the residents in Tarrant County) that there were not any issues in this election—just the mail-in ballots alone were questionable. As a registered voter in Tarrant County, I would like to request or demand an investigation. The public should have the answers to the above questions, not only a reassurance from you at the SOS that there were no problems in the election. I think an audit is in order as well. With all the election problems all over the country, an audit is necessary to prove to residents that their voices were heard and votes were counted, not canceled out through fraud. This request/demand is even more legitimate after the Texas AG has filed suit in the Supreme Court against other states whose election fraud and corruption have disenfranchised us! I would appreciate your consideration and a timely response—I will be sharing it with a like-minded group of approximately 30 friends. Thank you.

Subject: formal complaint: disgraceful, unsafe Keller mayoral election run-off conditions and set-up (violation of state polling location guidelines)
Date: Saturday, November 28, 2020 12:26:22 PM

CAUTION: This email originated from OUTSIDE of the SOS organization. Do not click on links or open attachments unless you are expecting the email and know that the content is safe. If you believe this to be a malicious or phishing email, please send this email as an attachment to Informationsecurity@sos.texas.gov.

Dear election officials, elected representatives, and candidates:

I want to go on record making a formal complaint that whoever approved the lone location and logistics (or lack thereof) of the Keller mayoral election run-off should be held accountable for gross negligence by creating the most unsafe voting environment I have ever seen in my almost 30 years of consistent voting.

Given the known extreme levels of Covid-19 risk in our community, there is little doubt in my mind that whoever authorized this set-up has contributed to possibly the most risky environment for super-spreading Covid-19 throughout the community. Especially with my observation that there were many senior citizen poll workers and voters who are at higher risk of complications from Covid-19.

In fact, this situation is so incompetently dangerous, I literally have had to warn fellow family members (who have yet to vote) that I consider the situation so dangerous, I am advising them that it is not safe enough to allow them to vote. Therefore, I am also asking that the Texas Secretary of State's office (and Tarrant County Judge Whitley, who does not have a public email, but will receive a copy of this) to investigate the conditions of the polling which are in violation of Texas Secretary of State guidelines concerning elections as described here:

<https://www.sos.state.tx.us/elections/laws/advisory2020-19.shtml>

There is no excuse when the voting could take place in a safer location (even within Keller Town Hall, like the atrium).

Here is what I observed upon voting at the singular location allowed for voting at Keller Town Hall today:

- No order or instruction for queuing or approaching the room for the check-in table leading people to stand without being able to socially distance properly
- The voting room was small, cramped and appeared to have no adequate ventilation to mitigate the usage
- At least one voter did not have and was not wearing any type of mask-- while this may be allowed under absurd state law, it multiplies the risk of the set-up
- The voting "booths" were within 1-2 feet of each other, and aside from Covid, were so close it would be possible for someone to observe another person's voting very easily
- Besides the booths themselves, the process for check-in, going to a voting machine, turning in the ballot, and exiting was criss-crossing and people were essentially bumping into each other-- to be fair, this "set-up" was because the room was way too small to allow any safe functionality or social distancing.

One, I implore you all to take immediate actions to move the remaining of the Early Voting and Election Day to the atrium at Keller Town Hall or come up with a comprehensive plan to mitigate the risks I've laid out. Two, I ask that a full investigation be done on the gross incompetence for whoever authorized this dangerous set-up which is in such direct violation of the Texas Secretary of State guidelines, at a minimum is voter suppression and at its worst could outright lead to deaths as a result. This is a complete disgrace to the citizens of Keller.

Dear Mrs. McGrew,

This letter is in response to the complaint you submitted to our office regarding Precinct 4179 Election Judge, Joey Retana.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. If you have additional information that was not included in your complaint that demonstrates that criminal conduct may have occurred, please send it to us for further review.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

If you believe that a criminal violation of the Code has occurred, please state the specific acts committed by the person or entity named in this complaint, along with a reference to the section of the Code alleged to have been violated, if known. If you need more space, please attach a separate sheet.

Please allow me to introduce myself and explain why I am submitting this letter. My name is Meredith Fulton. I served as an alternate judge in the General Election on November 3, 2020 in Tarrant County located in Texas. My precinct, #4179, was located at the R.D. Evans Community Center in Fort Worth. I had high hopes of volunteering my time to be an alternate judge as a way of helping do my civic duty in Fort Worth.

On Monday, November 2, 2020 I received a call from a gentleman, Joey Retana, demanding to know if I was Meredith Fulton and if I was going to show up to work as the alternate judge at Precinct 4170 the following day. The number that the man called from was a Longview, Texas area code which seemed strange. His name was not the name given to me in official election mailings by Heider Garcia, the elections supervisor in Tarrant County. Given that his name was not familiar and that he was very aggressive and rude with me I told them that I wasn't comfortable having a discussion with him about Election day and where I may or may not be. I told him that I would call the Tarrant Elections office to verify the information he was asking me to discuss. With a quick phone call to the Tarrant County Elections office I was able to confirm that there had been a last-minute change and that the female judge I had been assigned to was no longer going to be the judge at precinct 4179 and that Mr. Joey Retana would in fact be the judge at the precinct I was scheduled to work the next morning.

On Tuesday morning I arrived at the R.D. Evans Community Center located at 3242 Lackland Road at 6:00 a.m. When I arrived, there were already a few election clerks setting up the voting equipment. It was clear that they had started earlier than the official 6:00 a.m. time that we had been instructed to. There was no formal meet and greet with the judge so I introduced myself to the following individuals:

- Joey Retana who told me he was the Election Judge for that location
- Jeffrey Eubanks who told me he was a poll worker as well as Mr. Retana's husband.
- Kathleen Cubrero who told me she was a poll worker.
- Doyle Fine who told me he was an alternate judge at a different precinct who was there helping out Mr. Retana at our precinct location because he was his "Godfather."
- Curtis Beethe who was a poll worker.

I thought it was odd that I had to force introductions to everyone in the room and that there was no meeting or pause by the election judge before the poll was opened. The voting equipment was laid out in a very confusing layout and whenever I tried to make suggestions I was told that "Doyle" was in charge because he's been doing this for 40 years. As this was my first year to help work an election location I followed the lead of everyone else and helped however I could to get the location up and running. I was alarmed at many things that unfolded throughout the day. I will bullet point these concerns for the sake of not making this note too long.

? Concerns about the actual voting equipment and set up:

o One of the duo machines was lacking a part of the power cord and was never set up. It remained by itself against a wall. On top of the voting machine sat a large bag filled with ink pads of some sort. When I inquired about what they were I was told by Mr. Retana that, "the items belonged to the community center and he didn't know what they were for." When I asked if I should call and report that a duo machine wasn't functioning to the Elections headquarters I was told that Mr. Fine had already done so and that it was no big deal to have one machine not set up.

VII. IMPORTANT INFORMATION

Pursuant to Section 31.006 of the Texas Election Code (the "Code"), the Office of the Secretary of State (the "Secretary of State") has the ability to refer elections complaints to the Office of the Attorney General (the "Attorney General"). If, after receiving a complaint alleging criminal conduct in connection with an election, the Secretary of State determines that there is reasonable cause to suspect that the alleged criminal conduct occurred, the Secretary of State shall promptly refer the complaint to the Attorney General. The Secretary of State shall deliver to the Attorney General all pertinent documents in the Secretary of State's possession.

Any person who believes that a criminal violation of the Code has occurred may file a complaint. In order to initiate the complaint process, a written and signed complaint must be filed with the Secretary of State. The complaint must allege the violation with particularity, identify the person(s) or entity responsible for the alleged violation, and contain a reference to the section of the Code alleged to have been criminally violated, if known.

The Secretary of State has no authority to order a new election, change an election result, or conduct a criminal investigation. This form is to be used solely to document alleged election irregularities and submit allegations of criminal violations of the Code to be referred to the Attorney General. Often complaints will be Code violations that do not amount to criminal violations or acts. These violations are election irregularities which may form the basis of an election contest, but do not carry a criminal penalty. These election irregularities will not be referred to the Attorney General for possible criminal prosecution.

Challenging an election result can be done either through (1) a recount or (2) an election contest. If you are seeking to alter the outcome of the election, you will need to use one of these methods of challenging the results, described below. **A complaint filed with this form will not alter the results of an election.**

Legal Remedies That May Alter the Election Outcome

1. Recount

Recounts are used only to recount the votes in a particular race (office) or measure. A recount does not have the scope or authority of an election contest in court, i.e., the recount committee will not look at the manner in which voters were qualified to vote in person or by mail or whether voters were eligible to vote in the election. The governing body of an entity cannot conduct a recount on its own motion, e.g., at the canvass.

Please note that recount request deadlines occur soon after the canvass - a recount must be requested not later than two days following the canvass. More information on filing recounts (including form, deposit information, and who and how to file) is available on the Secretary of State's website.

2. Election Contest

If a candidate disputes the outcome of the election, regardless of whether or not a recount has been conducted, and has discovered irregularities, fraud, or mistakes in the conduct of the election that affected or could have affected the outcome, he/she can file an election contest to challenge the election results. The legal question raised by an election contest is whether the outcome of the contested election, as shown by the final canvass, is not (or cannot be conclusively determined to be) the true outcome because (1) illegal votes were counted, or because (2) an election officer or other official administering the election either (i) prevented eligible voters from voting, (ii) failed to count legal votes, (iii) engaged in fraud or illegal conduct, or (iv) erred in some material way.

Contests involving county elections are filed in the district court in the relevant county. In most circumstances, the filing deadline for an election contest is 30 days after the canvass, except in the case of a primary or an election where a runoff is necessary, in which case the deadline for filing is 10 days after the final canvass. If a recount is held and the votes are changed, the date of the canvass of the recount (i.e., final canvass) becomes the new date by which the contest deadline is calculated.

Any losing candidate may contest an election. In a contest of an officer election, the contestant files suit against the election's winner (or in the event that the election outcome is determined by majority vote rather than plurality vote, the person or persons entitled to a place on the runoff ballot). Voters at large within a political subdivision do not possess standing to intervene as parties to an election contest for public office.

In an election contest, the court has the authority to: (1) examine ballots and equipment; (2) compel voters to reveal how they voted; (3) declare an election void if illegal votes are greater than or equal to the number of votes necessary to change the outcome or cannot ascertain the true outcome of the election; (4) order a new election (or new runoff election), if unable to ascertain true outcome; (5) subtract illegal votes, if able to determine the side for which an illegal vote was cast; or (6) declare outcome of election, if able to ascertain true outcome.

If you think either a recount or an election contest is the proper procedure for the remedy you seek, you may wish to consult private legal counsel regarding your legal options. The Secretary of State staff can provide general guidance on these procedures as well.

Dear Mr. Mulligan,

This letter is in response to your election complaint regarding concerns with the Tarrant County Elections office.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. If you have additional information that was not included in your complaint that demonstrates that criminal conduct may have occurred, please send it to us for further review.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

Sincerely,

ELECTION IN WHICH VIOLATION(S) OCCURRED

NAME OF ELECTION Tarrant County - Joint and Special Elections DATE OF ELECTION 05 / 01 / 21
MM/DD/YYYY
COUNTY OR POLITICAL SUBDIVISION TARRANT COUNTY PRECINCT 3254

I. Date: 05/01/2021 — Time of Violation: 07:00 AM - 07:25 AM - Location: Pat May Center Polling Place / Election Center

Statement: I, Brody Mulligan / Complainant, arrived at the Pat May Center location at approximately 07:05 AM. The voting location was not open. I observed voters attempting to enter the location, unable to enter the location. Voters had to wait until the voting center / polling place opened its doors to the public, at or around 07:25 AM.

This was observed directly by the complainant (Brody Mulligan). Other candidates setting up their tents / tables also confirmed / informed me after my personal observation, that the voting center / polling place was not open at 07:00 AM. The polling location began to admit voters at approximately 07:25 AM.

II. Date: 05/01/2021 — Time of Violation: 07:00 AM - 07:00 PM - Location: Pat May Center Polling Place / Election Center

Statement: I, Brody Mulligan / Complainant, arrived at the Pat May Center location at approximately 07:05 AM. Upon setting up my campaign table and tent in the parking lot directly across from the entrance to the polling location, I searched for a distance marker.

This was observed directly by the complainant (Brody Mulligan):

There was no visible distance marker. Other candidates informed me of an informal line, dictated by a concrete crack in the parking lot as the informal distance boundary. At no time was a distance marker placed in any visible area.

Heider Garcia Elections Administrator for Tarrant County; previous employment with Scorecard, sister company of Dominion. Participated in the Philippines election in 2016 where Marcos Jr. was frauded of his vice presidency election. one thousand day of his official lawsuit and protest was in the year 2019, which probed ballots of various counties in the Philippines. The Philippines is rife with election fraud: sample ballots mailed out with money stapled to them, computer programs including Scorecard that eliminates an opposition using math algorithms.

My Demand is for Texas government officials of all counties to vet their hiring of people for influential positions. Heider Garcia was either not looked into at his past employers or hired for his experience in fraud of elections. It is my belief that he aided in turning Tarrant County blue for the first time since 1964. Tarrant County my home must not have an employee in such a prominent position as Elections Administrator that has been hired by a Communist company Scorecard and participated in a foreign election considered rife with fraud.

I no longer believe in state governing because of our state along with the five battleground states having completely let down the confidence of the American people. It is clear government officials have back door dealings corrupt and politically motivated that do not concern the freedom of those Americans who have actually served this country in the military which is true service rather than those college graduates who have not known service only imagine it in their heart.

I am committing my life now to the creation of a new political party that will eliminate your position as Secretary of State as it may just be influential to allow for corruption in state governing. Let me be clear your presence not the role of Secretary of State will be challenged along with the five battleground states positions for Secretary of State. election county governing officials will be challenged and exposed in blue counties in Texas soon. Communist tactics are being used in the state of Texas targeting large cities and minority populations. The majority will not be ruled by the minority. And targeting colored and poor will no longer be used against the minority for power and not valuing their existence.

Texas may not be red in the near future and not be turned blue; rather Texas will be as God made it Free. And the color of Free is not red or blue but a color only known to God Clear, True, Transparent. The color of Free will soon be known by servants of our country and those that call Texas Home.

Speculative/ or coincidence - only Not be either. No doubt working with Democratic organizers to find and fraud this 2020 election. Concerning this political climate of 2020 I believe Heria Garcia did commit corrupt dealings with Democratic governing officials. Audits must be performed in Tarrant County elections to retain Trust and assurance of a fair election in Tarrant County. My beliefs are based solely on the distrust created by the actions of the democratic party during this election. How can a person hate and have so much love for one person!? My sources are News Max, Politico.com, Tarrant County Texas meet the staff, The Spectator, Gulf News, ABS CBN News. I am very concerned who is vetting influential positions in Tarrant County. My concerns are highlighted in the current corrupt fraud; allegations that destroy the nature of transparent and honest elections.

I have no proof other than these sources to the intentions of Heria Garcia yet his position currently held must be considered a position of influence. Whether he worked with Democrats or not it is clear his background employers and previous election history makes Heria Garcia a danger to free and transparent elections in Tarrant County and the United States as a whole.

VII. IMPORTANT INFORMATION

Pursuant to Section 31.006 of the Texas Election Code (the "Code"), the Office of the Secretary of State (the "Secretary of State") has the ability to refer elections complaints to the Office of the Attorney General (the "Attorney General"). If, after receiving a complaint alleging criminal conduct in connection with an election, the Secretary of State determines that there is reasonable cause to suspect that the alleged criminal conduct occurred, the Secretary of State shall promptly refer the complaint to the Attorney General. The Secretary of State shall deliver to the Attorney General all pertinent documents in the Secretary of State's possession.

Any person who believes that a criminal violation of the Code has occurred may file a complaint. In order to initiate the complaint process, a written and signed complaint must be filed with the Secretary of State. The complaint must allege the violation with particularity, identify the person(s) or entity responsible for the alleged violation, and contain a reference to the section of the Code alleged to have been criminally violated, if known.

The Secretary of State has no authority to order a new election, change an election result, or conduct a criminal investigation. This form is to be used solely to document alleged election irregularities and submit allegations of criminal violations of the Code to be referred to the Attorney General. Often complaints will be Code violations that do not amount to criminal violations or acts. These violations are election irregularities which may form the basis of an election contest, but do not carry a criminal penalty. These election irregularities will not be referred to the Attorney General for possible criminal prosecution.

Challenging an election result can be done either through (1) a recount or (2) an election contest. If you are seeking to alter the outcome of the election, you will need to use one of these methods of challenging the results, described below. **A complaint filed with this form will not alter the results of an election.**

Legal Remedies That May Alter the Election Outcome

1. Recount

Recounts are used only to recount the votes in a particular race (office) or measure. A recount does not have the scope or authority of an election contest in court, i.e., the recount committee will not look at the manner in which voters were qualified to vote in person or by mail or whether voters were eligible to vote in the election. The governing body of an entity cannot conduct a recount on its own motion, e.g., at the canvass.

Please note that recount request deadlines occur soon after the canvass - a recount must be requested not later than two days following the canvass. More information on filing recounts (including form, deposit information, and who and how to file) is available on the Secretary of State's website.

2. Election Contest

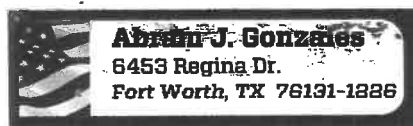

If a candidate disputes the outcome of the election, regardless of whether or not a recount has been conducted, and has discovered irregularities, fraud, or mistakes in the conduct of the election that affected or could have affected the outcome, he/she can file an election contest to challenge the election results. The legal question raised by an election contest is whether the outcome of the contested election, as shown by the final canvass, is not (or cannot be conclusively determined to be) the true outcome because (1) illegal votes were counted, or because (2) an election officer or other official administering the election either (i) prevented eligible voters from voting, (ii) failed to count legal votes, (iii) engaged in fraud or illegal conduct, or (iv) erred in some material way.

Contests involving county elections are filed in the district court in the relevant county. In most circumstances, the filing deadline for an election contest is 30 days after the canvass, except in the case of a primary or an election where a runoff is necessary, in which case the deadline for filing is 10 days after the final canvass. If a recount is held and the votes are changed, the date of the canvass of the recount (i.e., final canvass) becomes the new date by which the contest deadline is calculated.

Any losing candidate may contest an election. In a contest of an officer election, the contestant files suit against the election's winner (or in the event that the election outcome is determined by majority vote rather than plurality vote, the person or persons entitled to a place on the runoff ballot). Voters at large within a political subdivision do not possess standing to intervene as parties to an election contest for public office.

In an election contest, the court has the authority to: (1) examine ballots and equipment; (2) compel voters to reveal how they voted; (3) declare an election void if illegal votes are greater than or equal to the number of votes necessary to change the outcome or cannot ascertain the true outcome of the election; (4) order a new election (or new runoff election), if unable to ascertain true outcome; (5) subtract illegal votes, if able to determine the side for which an illegal vote was cast; or (6) declare outcome of election, if able to ascertain true outcome.

If you think either a recount or an election contest is the proper procedure for the remedy you seek, you may wish to consult private legal counsel regarding your legal options. The Secretary of State staff can provide general guidance on these procedures as well.

Dear Ms. Hasio,

This letter is in response to the complaint you submitted to our office regarding election workers at the UNT Health Science Center Fort Worth being rude and possibly discriminatory towards you.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. If you have additional information that was not included in your complaint that demonstrates that criminal conduct may have occurred, please send it to us for further review.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

Sincerely,

Unfriendly and discriminatory treatment towards me the voter (I am Asian-American) at UNT Health Science Center at 3500 Camp Bowie Blvd. in Fort Worth, Tx by employee (African-American female) who was hired to take registration and ID for early voting.

ELECTION IN WHICH VIOLATION(S) OCCURRED

NAME OF ELECTION EARLY VOTING ELECTION 2020 DATE OF ELECTION 11 / 03 / 20
 COUNTY OR POLITICAL SUBDIVISION Tarrant County PRECINCT UNT Health Science

I never really had good experiences (Oct. 22, 2020 and in the past in 2012) when I early voted at the UNT Health Science Center at 3500 Camp Bowie Blvd. in Fort Worth, Tx. I live right down the block and I am an Asian-American woman that is also a US Army veteran. I came there on 10/22/2020 around 2 PM. They were not busy and there were 3 people in front of me who were white that were greeted and welcomed. However, when I was next, the female just stared at me and said NOTHING but stuck her hand out expecting me to give her ID or registration. I feel absolutely unwelcome and the people that work there sitting at the front desks that give the numbers are unfriendly. I have NEVER been greeted. This happened the last election too in 2012. I came to vote at the same location and nobody in the front was nice to me. I remembered how I was treated the last 4 years too. Nobody was behind me but two white males and one white female. ALL of them were greeted and told "hello." However, when it was my turn, NOBODY working there greets me or even looks at me because I am Asian and they judge me negatively. They were unfriendly and the employee just stared at me and acted like I wasn't welcomed there at all. The three people that were in line in front of me were greeted but when it was my turn the female working there just gave me a cold hard stare and just stuck her hand out without saying one word to me when I was holding my ID. I found this very rude. Why can't I be treated with respect and dignity too like the white people that were greeted and welcomed? I am always given a cold hard stare and they say NOTHING to me. Nobody was in line behind me and they were not busy. This also happened at the Northwest TCC campus when I voted 2 years ago. Everyone white was greeted and I was ignored. I am sick and tired of being treated as if I were "less than" with no respect or acknowledgement. It is very bad manners. They should greet everyone, especially since they are not busy. I have to complain about this so I can teach people how to treat me and that shouldn't be that way.

It only takes one second to say "hi" and instead I remember how I was treated for the next 4 years. I was hoping they would greet me today on October 22, 2020 but they failed to do that again and succeeded in making me feel absolutely substandard compared to the white voters who were greeted and acknowledge because of their race. It makes me not want to vote next time for how I am treated. The people hired should be respectful to everyone regardless of what they look like or what race they are.

This was another BAD experience with the Tarrant County early voting place at the UNT Health Science Center at 3500 Camp Bowie Blvd. in Fort Worth, Texas. Please train your employees to be respectful to all who make an effort to come in and vote. I will not come back there again to vote in the future. It seems that they dislike Asians like me even though I am an American citizen, lived in Texas for decades and served in the US Army.

They also treated me the same way in 2012 and they just stared at me and said nothing while they greeted all the Caucasian voters in line in front of me. I remembered that for 4 years. I can tell the people hired working at the polls perceive the Caucasian voters as being more valued, which is why they got treated with respect and greeted and I was ignored, stared at and given dirty looks when I spoke up for myself. I stand up for myself when I am mistreated or not treated the same as the other voters of different races.

I hope a supervisor or manager higher up (not from that location) who will respond to my email because I already have had a bad impression of your employees from not saying anything to me.

I called Tarrant County Voting and the receptionist told me to send an email to electionsinfo@tarrantcounty.com.

I wrote them on Oct. 22 and they never responded to me at all.

I sent them another email on Oct. 29, 2020 which said, "Hi, I sent an email on October 22, 2020 (see below). Since nobody bothered to respond to my complaint, I will take the next step up the Chain of Command and write an email to the ELECTION COMPLAINT TO THE TEXAS SECRETARY OF STATE. Hopefully, they will respond or have you respond to me and take action."

VII. IMPORTANT INFORMATION

Pursuant to Section 31.006 of the Texas Election Code (the "Code"), the Office of the Secretary of State (the "Secretary of State") has the ability to refer elections complaints to the Office of the Attorney General (the "Attorney General"). If, after receiving a complaint alleging criminal conduct in connection with an election, the Secretary of State determines that there is reasonable cause to suspect that the alleged criminal conduct occurred, the Secretary of State shall promptly refer the complaint to the Attorney General. The Secretary of State shall deliver to the Attorney General all pertinent documents in the Secretary of State's possession.

Any person who believes that a criminal violation of the Code has occurred may file a complaint. In order to initiate the complaint process, a written and signed complaint must be filed with the Secretary of State. The complaint must allege the violation with particularity, identify the person(s) or entity responsible for the alleged violation, and contain a reference to the section of the Code alleged to have been criminally violated, if known.

The Secretary of State has no authority to order a new election, change an election result, or conduct a criminal investigation. This form is to be used solely to document alleged election irregularities and submit allegations of criminal violations of the Code to be referred to the Attorney General. Often complaints will be Code violations that do not amount to criminal violations or acts. These violations are election irregularities which may form the basis of an election contest, but do not carry a criminal penalty. These election irregularities will not be referred to the Attorney General for possible criminal prosecution.

Challenging an election result can be done either through (1) a recount or (2) an election contest. If you are seeking to alter the outcome of the election, you will need to use one of these methods of challenging the results, described below. **A complaint filed with this form will not alter the results of an election.**

Legal Remedies That May Alter the Election Outcome

1. Recount

Recounts are used only to recount the votes in a particular race (office) or measure. A recount does not have the scope or authority of an election contest in court, i.e., the recount committee will not look at the manner in which voters were qualified to vote in person or by mail or whether voters were eligible to vote in the election. The governing body of an entity cannot conduct a recount on its own motion, e.g., at the canvass.

Please note that recount request deadlines occur soon after the canvass - a recount must be requested not later than two days following the canvass. More information on filing recounts (including form, deposit information, and who and how to file) is available on the Secretary of State's website.

2. Election Contest

If a candidate disputes the outcome of the election, regardless of whether or not a recount has been conducted, and has discovered irregularities, fraud, or mistakes in the conduct of the election that affected or could have affected the outcome, he/she can file an election contest to challenge the election results. The legal question raised by an election contest is whether the outcome of the contested election, as shown by the final canvass, is not (or cannot be conclusively determined to be) the true outcome because (1) illegal votes were counted, or because (2) an election officer or other official administering the election either (i) prevented eligible voters from voting, (ii) failed to count legal votes, (iii) engaged in fraud or illegal conduct, or (iv) erred in some material way.

Contests involving county elections are filed in the district court in the relevant county. In most circumstances, the filing deadline for an election contest is 30 days after the canvass, except in the case of a primary or an election where a runoff is necessary, in which case the deadline for filing is 10 days after the final canvass. If a recount is held and the votes are changed, the date of the canvass of the recount (i.e., final canvass) becomes the new date by which the contest deadline is calculated.

Any losing candidate may contest an election. In a contest of an officer election, the contestant files suit against the election's winner (or in the event that the election outcome is determined by majority vote rather than plurality vote, the person or persons entitled to a place on the runoff ballot). Voters at large within a political subdivision do not possess standing to intervene as parties to an election contest for public office.

In an election contest, the court has the authority to: (1) examine ballots and equipment; (2) compel voters to reveal how they voted; (3) declare an election void if illegal votes are greater than or equal to the number of votes necessary to change the outcome or cannot ascertain the true outcome of the election; (4) order a new election (or new runoff election), if unable to ascertain true outcome; (5) subtract illegal votes, if able to determine the side for which an illegal vote was cast; or (6) declare outcome of election, if able to ascertain true outcome.

If you think either a recount or an election contest is the proper procedure for the remedy you seek, you may wish to consult private legal counsel regarding your legal options. The Secretary of State staff can provide general guidance on these procedures as well.

Dear Ms. Julius,

This letter is in response to your election complaint regarding the Tarrant County Signature Verification Committee.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. I called to verify that my mail-in ballot was received. The Tarrant office stated that it had, but that it was under review. They told me that all mail-in ballots would not be counted until election day (11/3) and that a committee would arrive on that day to verify the signatures.

I stated to the person that I talked too, that because I have had a stroke, my signature might not match the signature on my mail-in ballot.

Additionally, this team, whoever they are, cannot eye-ball all signatures on ballots and make a judgement where the ballot is valid.

This is an out-rage that they would wait till November 3 to start counting mail-in ballots, let alone having people manually eye-ball the signatures.

In Tarrant County, there were approximately 15,000 mailed ballots that did not scan. These ballots were entered by hand and counted. With all the election irregularities, I think it is only prudent to examine these ballots to make sure that they are actually official ballots. I also would like to know how many ballots were mailed out in Tarrant County and how many were returned. I want to make sure if there is an audit that we do it properly with a Republican and a Democrat present, both counting. We shouldn't have to say this but have seen audits done questionably in this election cycle!

I am one of many residents of Texas who are disappointed and disenfranchised with the election process. We have irregularities and questions about the ballots that could not be scanned in Tarrant County and, in the current environment, deserve complete answers not just empty reassurances. Dear Mrs. Meserve,

This letter is in response to the complaint you submitted to our office regarding polling site security.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. If you have additional information that was not included in your complaint that demonstrates that criminal conduct may have occurred, please send it to us for further review.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith Ingram".

I AM CONTACTING YOU REGARDING WHOEVER CALLED THE HEAD OF TARRANT COUNTY ELECTIONS ABOUT A VOTER COMPLAINING ABOUT AN OFFICER BEING AT A POLLING LOCATION AND FEELING INTIMIDATED.

I WORK AT THAT LOCATION (BEDFORD LIBRARY) AND THE OFFICERS WERE INSTRUMENTAL IN KEEPING THE VOTERS CALM, KEEPING THE LINE FLOWING AND GIVING THE POLLWORKERS A FEELING OF SAFETY.

WITH IN MINUTES OF THE OFFICER LEAVING A VOTER COLAPSED. HAVING A OFFICER THERE WOULD OF BEEN A TREMENDOUS HELP. ALSO, AN ARGUMENT BROKE OUT IN THE LINE ABOUT WEARING FACE MASKS.

WE, THE POLL WORKERS, ARE IN THE AGE RANGE OF 60 TO 80 AND YET HAVE CHOSEN TO PUT OURSELVES AT RISK OF GETTING COVID-19 BECAUSE OF OUR DEDICATION TO THE ELECTION PROCESS.

HAVING AN OFFICER THERE MEANT A LOT TO US. HOW ABOUT PUTING OUR SAFETY ABOVE ONE PERSONS FEAR OF THE POLICE.

VII. IMPORTANT INFORMATION

Pursuant to Section 31.006 of the Texas Election Code (the "Code"), the Office of the Secretary of State (the "Secretary of State") has the ability to refer elections complaints to the Office of the Attorney General (the "Attorney General"). If, after receiving a complaint alleging criminal conduct in connection with an election, the Secretary of State determines that there is reasonable cause to suspect that the alleged criminal conduct occurred, the Secretary of State shall promptly refer the complaint to the Attorney General. The Secretary of State shall deliver to the Attorney General all pertinent documents in the Secretary of State's possession.

Any person who believes that a criminal violation of the Code has occurred may file a complaint. In order to initiate the complaint process, a written and signed complaint must be filed with the Secretary of State. The complaint must allege the violation with particularity, identify the person(s) or entity responsible for the alleged violation, and contain a reference to the section of the Code alleged to have been criminally violated, if known.

The Secretary of State has no authority to order a new election, change an election result, or conduct a criminal investigation. This form is to be used solely to document alleged election irregularities and submit allegations of criminal violations of the Code to be referred to the Attorney General. Often complaints will be Code violations that do not amount to criminal violations or acts. These violations are election irregularities which may form the basis of an election contest, but do not carry a criminal penalty. These election irregularities will not be referred to the Attorney General for possible criminal prosecution.

Challenging an election result can be done either through (1) a recount or (2) an election contest. If you are seeking to alter the outcome of the election, you will need to use one of these methods of challenging the results, described below. **A complaint filed with this form will not alter the results of an election.**

Legal Remedies That May Alter the Election Outcome

1. Recount

Recounts are used only to recount the votes in a particular race (office) or measure. A recount does not have the scope or authority of an election contest in court, i.e., the recount committee will not look at the manner in which voters were qualified to vote in person or by mail or whether voters were eligible to vote in the election. The governing body of an entity cannot conduct a recount on its own motion, e.g., at the canvass.

Please note that recount request deadlines occur soon after the canvass - a recount must be requested not later than two days following the canvass. More information on filing recounts (including form, deposit information, and who and how to file) is available on the Secretary of State's website.

2. Election Contest

If a candidate disputes the outcome of the election, regardless of whether or not a recount has been conducted, and has discovered irregularities, fraud, or mistakes in the conduct of the election that affected or could have affected the outcome, he/she can file an election contest to challenge the election results. The legal question raised by an election contest is whether the outcome of the contested election, as shown by the final canvass, is not (or cannot be conclusively determined to be) the true outcome because (1) illegal votes were counted, or because (2) an election officer or other official administering the election either (i) prevented eligible voters from voting, (ii) failed to count legal votes, (iii) engaged in fraud or illegal conduct, or (iv) erred in some material way.

Contests involving county elections are filed in the district court in the relevant county. In most circumstances, the filing deadline for an election contest is 30 days after the canvass, except in the case of a primary or an election where a runoff is necessary, in which case the deadline for filing is 10 days after the final canvass. If a recount is held and the votes are changed, the date of the canvass of the recount (i.e., final canvass) becomes the new date by which the contest deadline is calculated.

Any losing candidate may contest an election. In a contest of an officer election, the contestant files suit against the election's winner (or in the event that the election outcome is determined by majority vote rather than plurality vote, the person or persons entitled to a place on the runoff ballot). Voters at large within a political subdivision do not possess standing to intervene as parties to an election contest for public office.

In an election contest, the court has the authority to: (1) examine ballots and equipment; (2) compel voters to reveal how they voted; (3) declare an election void if illegal votes are greater than or equal to the number of votes necessary to change the outcome or cannot ascertain the true outcome of the election; (4) order a new election (or new runoff election), if unable to ascertain true outcome; (5) subtract illegal votes, if able to determine the side for which an illegal vote was cast; or (6) declare outcome of election, if able to ascertain true outcome.

If you think either a recount or an election contest is the proper procedure for the remedy you seek, you may wish to consult private legal counsel regarding your legal options. The Secretary of State staff can provide general guidance on these procedures as well.

Secretary of State

November 17, 2020

Via electronic mail: [REDACTED]

Dear Ms. Perry,

This letter is in response to the complaint you submitted to our office regarding your voting experience in Tarrant County on October 24, 2020. Our understanding is that you are registered to vote in Tarrant County. However, when you presented to vote in person, you were informed that someone had already voted under your name. As such, you cast a provisional ballot.

As an example, provisional voting is designed to allow a voter whose name does not appear on the list of registered voters due to an administrative error to vote. There are other circumstances under the Election Code which would allow a voter to cast a provisional ballot. The voter-marked provisional ballots are kept separate from the regular ballots, and the voter's records will be reviewed by the provisional voting ballot board (the early voting ballot board), to determine if the ballot is to be counted or rejected.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed your concerns. However, our office is not referring this matter to the Texas Attorney General for investigation at this time because additional information is needed. Please note that our office is forwarding a copy of your complaint, along with our response, to the Tarrant County Elections Administrator, Heider Garcia, so that he may review this matter further and advise our office as to his findings.

In the interim, if you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-VOTE (8683).

I, Lori Beimel Perry, went to vote on Saturday, October 24, 2020, at approximately 7:15 AM. When I checked in by giving my drivers license and voter's registration card, they looked me up in the system and then told me that I had already voted. She said - "Here's another one." I then had to sit with the polling manager while she called the election office to find out what to do. I had to fill out a green envelope and place my ballot in the envelope. She then gave me a ballot and told me to bring it back to her after I voted. I did so and she then placed my ballot in a large canvas bag with hundreds of other green envelopes to be taken to the election office. And gave me the attached notice which says my vote may or may not count.

Notice to Provisional Voter

A determination whether your ballot will be counted will be made by the early voting ballot board after the election. A notice will be mailed to you within 50 days of the election at the address you provided on your affidavit to vote a provisional ballot, indicating either:

- (1) that your ballot was counted or
- (2) if it was not counted, the reason your ballot was not counted.

Your affidavit will be retained by the voter registrar who will use the information on the affidavit to update your voter registration information or, if you are not a registered voter, the affidavit will be submitted to the voter registrar as a new voter registration application. If you have any questions, call the Secretary of State's Office toll free 1-800-252-4076 (8683).

Dear Election Board,

I am a victim of voter fraud. When I went to the polls on Saturday, October 24, I was told that I had already voted and "here's another one". My right to vote has been robbed by the corruption of how this election is being handled with mail in ballots. Someone stole my identity and voted in my name. Attached is the complaint forms that I have filled out and signed detailing this terrible injustice.

Please investigate!

Best regards,

Lori Perry

Via electronic mail: [REDACTED]

Dear Ms. Perry,

This letter is in response to the complaint you submitted to our office regarding your voting experience in Tarrant County on October 24, 2020. Our understanding is that you are registered to vote in Tarrant County. However, when you presented to vote in person, you were informed that someone had already voted under your name. As such, you cast a provisional ballot.

As an example, provisional voting is designed to allow a voter whose name does not appear on the list of registered voters due to an administrative error to vote. There are other circumstances under the Election Code which would allow a voter to cast a provisional ballot. The voter-marked provisional ballots are kept separate from the regular ballots, and the voter's records will be reviewed by the provisional voting ballot board (the early voting ballot board), to determine if the ballot is to be counted or rejected.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed your concerns. However, our office is not referring this matter to the Texas Attorney General for investigation at this time because additional information is needed. Please note that our office is forwarding a copy of your complaint, along with our response, to the Tarrant County Elections Administrator, Heider Garcia, so that he may review this matter further and advise our office as to his findings.

In the interim, if you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-VOTE (8683).

Sincerely,

A handwritten signature in black ink, appearing to read "Keith Ingram".

I, Lori Beimel Perry, went to vote on Saturday, October 24, 2020, at approximately 7:15 AM. When I checked in by giving my drivers license and voter's registration card, they looked me up in the system and then told me that I had already voted. She said - "Here's another one." I then had to sit with the polling manager while she called the election office to find out what to do. I had to fill out a green envelope to place my ballot in the envelope. She then gave me a ballot and told me to bring it back to her after I voted. I did so and she then placed my ballot in a large canvas bag with hundreds of other green envelopes to be taken to the election office. and gave me the attached notice which says my vote may or may not count.

Dear Mrs. Perry,

This letter is in response to the complaint you submitted to our office regarding possible voter fraud.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns. There may be potential crimes under the Texas Election Code, but not enough factual information has been provided for us to refer your complaint to the Texas Attorney General at this time. You may send additional detailed information so that we may make a further determination. I am copying the county of this complaint.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

Hello Mr. Strong,

Thank you for sharing this feedback. All of our City elections are contracted with Tarrant County Elections Administration, including layout, signage, staffing, etc. I am including Elections Administrator Heider Garcia on this thread so that he may address your concerns.

I can tell you that city staff shared similar concerns with county elections staff regarding the setup of this year's election (including the general election on Nov. 3) and have already requested that machines be spaced further apart, the flow of activity be improved, etc. I'm very sorry to hear that you do not feel you can safely encourage others to vote at the Keller Town Hall location. As a reminder, Tarrant County voters have the ability to vote at ANY polling location in the county, so while Town Hall is the only location within our city limits, residents may vote at any other early voting location if they prefer the setups elsewhere. You can find a list of all the early voting locations for the runoff election here: <https://www.cityofkeller.com/home/showpublisheddocument?id=25423>

The response from the Texas Secretary of State indicates that the multiple violations I've cited under their directive (Election Advisory No. 2020-19) is solely the result of the decision of the City of Keller and not Tarrant County or the state.

Is someone planning to look into this promptly and consider taking the necessary actions to protect the citizens for this dangerous and incompetent set-up and operation? I have refrained from going to the

media at this point, because my goal is to simply get y'all to take the health risk seriously and mitigate it quickly, but if shining a spotlight on this publicly to create the pressure to do the right thing, that will be my next step.

Dear election officials, elected representatives, and candidates:

I want to go on record making a formal complaint that whoever approved the lone location and logistics (or lack thereof) of the Keller mayoral election run-off should be held accountable for gross negligence by creating the most unsafe voting environment I have ever seen in my almost 30 years of consistent voting.

Given the known extreme levels of Covid-19 risk in our community, there is little doubt in my mind that whoever authorized this set-up has contributed to possibly the most risky environment for super-spreading Covid-19 throughout the community. Especially with my observation that there were many senior citizen poll workers and voters who are at higher risk of complications from Covid-19.

In fact, this situation is so incompetently dangerous, I literally have had to warn fellow family members (who have yet to vote) that I consider the situation so dangerous, I am advising them that it is not safe enough to allow them to vote. Therefore, I am also asking that the Texas Secretary of State's office (and Tarrant County Judge Whitley, who does not have a public email, but will receive a copy of this) to investigate the conditions of the polling which are in violation of Texas Secretary of State guidelines concerning elections as described here:

<https://www.sos.state.tx.us/elections/laws/advisory2020-19.shtml>

There is no excuse when the voting could take place in a safer location (even within Keller Town Hall, like the atrium).

Here is what I observed upon voting at the singular location allowed for voting at Keller Town Hall today:

- No order or instruction for queuing or approaching the room for the check-in table leading people to stand without being able to socially distance properly
- The voting room was small, cramped and appeared to have no adequate ventilation to mitigate the usage
- At least one voter did not have and was not wearing any type of mask-- while this may be allowed under absurd state law, it multiplies the risk of the set-up
- The voting "booths" were within 1-2 feet of each other, and aside from Covid, were so close it would be possible for someone to observe another person's voting very easily
- Besides the booths themselves, the process for check-in, going to a voting machine, turning in the ballot, and exiting was criss-crossing and people were essentially bumping into each other-- to be fair, this "set-up" was because the room was way too small to allow any safe functionality or social distancing.

One, I implore you all to take immediate actions to move the remaining of the Early Voting and Election Day to the atrium at Keller Town Hall or come up with a comprehensive plan to mitigate the risks I've laid out. Two, I ask that a full investigation be done on the gross incompetence for whoever authorized this dangerous set-up which is in such direct violation of the Texas Secretary of State guidelines, at a minimum is voter suppression and at its worst could outright lead to deaths as a result. This is a complete disgrace to the citizens of Keller.

Sincerely,
Matt Strong

Ms. Ballard and Mr. Garcia,

Thank you Kelly for the response, and some confirmation that I don't think I was exaggerating that there are multiple issues ongoing with the KTH voting. Usually things seem to function well in Keller, so it surprised me when the SoS office indicated this was a city-determined issue.

While I realize the November General Election was a Herculean task and would likely result in some issues, there is no excuse in my mind for what's going on now-- Covid cases are spiking and there is the bandwidth to deal with runoff elections. As Mr. Garcia can see by my record, I did not vote at KTH last month, so I cannot "compare" but it's a moot point anyway based on the previous two points.

Heider, I've seen you report to the County Commission on the issues with scanning VBM, so I believe you intend to do the right thing.

Therefore, I assume you will immediately address these major issues or I'm going to keep escalating this up to the County Commission, Judge Whitley, the Secretary of State's office, and the local media. Please don't think your office can "run out the clock" on this election, because I'm not going to let this de facto voter suppression go (since I've felt compelled to warn family members about the high risk environment).

I repeat a statement I've made, I've voted in almost every single election for almost 30 years, and I've never seen conditions that have led me to conclude that it is unsafe to exercise the right to vote until this runoff election-- the fact that there are multiple violations outlined by the Secretary of State and your office has been notified by other entities in the past is particularly damning evidence in my mind.

Sincerely,
Matt Strong

Dear election officials, elected representatives, and candidates:

I want to go on record making a formal complaint that whoever approved the lone location and logistics (or lack thereof) of the Keller mayoral election run-off should be held accountable for gross negligence by creating the most unsafe voting environment I have ever seen in my almost 30 years of consistent voting.

Given the known extreme levels of Covid-19 risk in our community, there is little doubt in my mind that whoever authorized this set-up has contributed to possibly the most risky environment for super-spreading Covid-19 throughout the community. Especially with my observation that there were many senior citizen poll workers and voters who are at higher risk of complications from Covid-19.

In fact, this situation is so incompetently dangerous, I literally have had to warn fellow family members (who have yet to vote) that I consider the situation so dangerous, I am advising them that it is not safe enough to allow them to vote. Therefore, I am also asking that the Texas Secretary of State's office (and Tarrant County Judge Whitley, who does not have a public email, but will receive a copy of this) to investigate the conditions of the polling which are in violation of Texas Secretary of State guidelines concerning elections as described here:

<https://www.sos.state.tx.us/elections/laws/advisory2020-19.shtml>

There is no excuse when the voting could take place in a safer location (even within Keller Town Hall, like the atrium).

Here is what I observed upon voting at the singular location allowed for voting at Keller Town Hall today:

- No order or instruction for queuing or approaching the room for the check-in table leading people to stand without being able to socially distance properly
- The voting room was small, cramped and appeared to have no adequate ventilation to mitigate the usage
- At least one voter did not have and was not wearing any type of mask-- while this may be allowed under absurd state law, it multiplies the risk of the set-up
- The voting "booths" were within 1-2 feet of each other, and aside from Covid, were so close it would be possible for someone to observe another person's voting very easily

- Besides the booths themselves, the process for check-in, going to a voting machine, turning in the ballot, and exiting was criss-crossing and people were essentially bumping into each other-- to be fair, this "set-up" was because the room was way too small to allow any safe functionality or social distancing.

One, I implore you all to take immediate actions to move the remaining of the Early Voting and Election Day to the atrium at Keller Town Hall or come up with a comprehensive plan to mitigate the risks I've laid out. Two, I ask that a full investigation be done on the gross incompetence for whoever authorized this dangerous set-up which is in such direct violation of the Texas Secretary of State guidelines, at a minimum is voter suppression and at its worst could outright lead to deaths as a result. This is a complete disgrace to the citizens of Keller.

Sincerely,
Matt Strong

Good afternoon Mr. Strong,

I will talk with Ms. Ballard about this. We have to work with the space that the city makes available, we cannot force ourselves into any specific area of the building. That means we have 2 choices here:

1. Reduce the number of machines at the location to space them out in the current area.
2. Find a larger area within the building and relocate.

I will let you know which way we go after Ms. Ballard and I talk about this.

EXTERNAL EMAIL ALERT! Think Before You Click!

Ms. Ballard and Mr. Garcia,

Thank you Kelly for the response, and some confirmation that I don't think I was exaggerating that there are multiple issues ongoing with the KTH voting. Usually things seem to function well in Keller, so it surprised me when the SoS office indicated this was a city-determined issue.

While I realize the November General Election was a Herculean task and would likely result in some issues, there is no excuse in my mind for what's going on now-- Covid cases are spiking and there is the bandwidth to deal with runoff elections. As Mr. Garcia can see by my record, I did not vote at KTH last month, so I cannot "compare" but it's a moot point anyway based on the previous two points.

Heider, I've seen you report to the County Commission on the issues with scanning VBM, so I believe you intend to do the right thing.

Therefore, I assume you will immediately address these major issues or I'm going to keep escalating this up to the County Commission, Judge Whitley, the Secretary of State's office, and the local media. Please don't think your office can "run out the clock" on this election, because I'm not going to let this de facto voter suppression go (since I've felt compelled to warn family members about the high risk environment).

I repeat a statement I've made, I've voted in almost every single election for almost 30 years, and I've never seen conditions that have led me to conclude that it is unsafe to exercise the right to vote until this runoff election-- the fact that there are multiple violations outlined by the Secretary of State and your office has been notified by other entities in the past is particularly damning evidence in my mind.

Sincerely,
Matt Strong

Hello Mr. Strong,

Thank you for sharing this feedback. All of our City elections are contracted with Tarrant County Elections Administration, including layout, signage, staffing, etc. I am including Elections Administrator Heider Garcia on this thread so that he may address your concerns.

I can tell you that city staff shared similar concerns with county elections staff regarding the setup of this year's election (including the general election on Nov. 3) and have already requested that machines be spaced further apart, the flow of activity be improved, etc. I'm very sorry to hear that you do not feel you can safely encourage others to vote at the Keller Town Hall location. As a reminder, Tarrant County voters have the ability to vote at ANY polling location in the county, so while Town Hall is the only location within our city limits, residents may vote at any other early voting location if they prefer the setups elsewhere. You can find a list of all the early voting locations for the runoff election here:

The response from the Texas Secretary of State indicates that the multiple violations I've cited under their directive (Election Advisory No. 2020-19) is solely the result of the decision of the City of Keller and not Tarrant County or the state.

Is someone planning to look into this promptly and consider taking the necessary actions to protect the citizens for this dangerous and incompetent set-up and operation? I have refrained from going to the media at this point, because my goal is to simply get y'all to take the health risk seriously and mitigate it quickly, but if shining a spotlight on this publicly to create the pressure to do the right thing, that will be my next step.

Sincerely,
Matt Strong

Thank you for your inquiry,

We appreciate your detailed feedback on the issues you encountered. The Early Voting Clerk is the office who oversees the polling locations and their staff. Each entity runs their own election, independent of our office and we do not have any authority to order them to arrange their location in a particular way. Dear Mr. Woodling,

This letter is in response to the complaint you submitted to our office regarding your concerns about a polling location in Haslet, Texas and the workers that were working there.

The Office of the Texas Secretary of State does not have any authority to investigate allegations of criminal conduct. However, if our office receives a complaint that provides reasonable cause to suspect that alleged criminal conduct occurred in connection to an election, our office is required to refer the complaint to the Texas Attorney General for investigation. Tex. Elec. Code § 31.006 (2015).

Our office has reviewed each of your concerns, but none of the facts that you have presented to us in your complaint appear to involve criminal matters under the election code. Therefore, our office is not referring this matter to the Texas Attorney General for investigation. If you have additional information that was not included in your complaint that demonstrates that criminal conduct may have occurred, please send it to us for further review.

If you have any further questions, please do not hesitate to contact the Elections Division toll-free at 1-800-252-(VOTE) 8683.

If you need more space, please attach a separate sheet.

My wife, (Sandra Woodling) and I attempted to vote on opening day 13 October 2020 at 505 Schoolhouse Road , Haslet , Texas. We waited in line and when it was our turn we notified the voting personnel that we had absentee ballots with us and were surrendering them so we could vote in person. We were given ballots but were told they would be provisional and after we voted they were to be given to the Voting Supervisor. We voted and were not able to have our votes scanned and were told to give them to Supervisor and we did. I asked when would our votes be recorded. He told me not to worry and then opened up both of our ballots that were recorded and reviewed them thoroughly, looked over them and folded them up and put them in a open black zipper case with many other ballot like ours. I complained and called the Republican Voting local office and was told that this process was flawed. When we surrendered our ballots they should have called and cancelled our absentee ballots and allowed us to vote.

This illegal process appeared to me as a way of deciding whose vote is eventually processed, since he thoroughly reviewed our choices before putting them in the open case just lying on a table by the window. Were our votes counted?, I don't know but there were many other people who were Republicans trying to vote in person and were handled the same way . Given provisional ballots and then putting them in the black unzipped case seemed suspicious.

The process used was suspicious and the reviewing of our ballots was not in line with the private voting system our constitution allows.
