**Subject:** [EXTERNAL] Legislative Redistricting Commission

I was reading in the Great Falls Tribune the Montana Districting and Apportionment Commission will be meeting to draw maps with the 2020 Census data. I am requesting that you change the Legislative voting district of The Town of Fort Peck and the Lakeside cabin area to the Valley County voting district. Several years ago we voted in the Valley County district and then it was changed to the current district's of Hill and Roosevelt County. When I asked why, I was told so Rocky Boy (200 miles west) and Wolf Point (60 miles east) reservations could be connected. Is this common with other reservations being connected? When I have tried to contact Jonathan Windy Boy, or Bridgett Smith, neither bothered to get back to me. It would be nice to have a legislator closer that cares. The Tribune said each district shall be contiguous, meaning a district must be in one piece. Areas that meet only at points of adjoining corners shall not be considered contiguous. This part is found in the Montana Constitution. I hope you will do what is right and remove Fort Peck and put it back in the district that it was in when my family moved here in December 1970. Thank you for your consideration regarding this important issue to me. Sincerely, Jeanne Liebelt

**Subject:** RE: [EXTERNAL] prisoner reallocation  
**Date:** Monday, January 10, 2022 2:19:00 PM

---

Hey there. Oh goodness no. Ours is a long process. Congress is done of course, but the legislative districts go to the 2023 Legislature and then take effect in 2024.

Yes. Let's chat sometime. My January is atrocious. But chatting with you would make it better.

How are the dogs? My sweet Lolo has some kind of throat issue so we are awaiting some test results. And my cat Mr. Tuna appears to have blown out his thyroid which means until it's under control his litter box and the basement is a war zone of poo mines.

**Subject:** [EXTERNAL] prisoner reallocation

Hi Joe

I hope this message finds you well! How is the redistricting going? I saw that you are still recruiting for someone to do the prisoner reallocation (which was not a lot of fun at all here in CA, btw!!!) - I am guessing you're not done yet? If so: condolences! We are wrapped and nobody has sued us (knocking on wood).

I think the person who worked with California to do the RPV analysis may be coming your way/applying to do the reallocation project - Megan Gall, - she's great: really knows her stuff and is fantastic to work with.

Let's find some time to compare notes when you are done - would love to find out how the reallocation project is going to pan out and to hear about your process overall.

Take care

karin

Hi there. Would you have time next week to maybe give us a demo about what it can do and answer some questions from our IT folks? I'd really like to have that tool, but I need to be able to sell it a bit more.

Let me know some times and I'll see if I can wrangle the cats. We'd need to get the order in by the end of the month.

Hi, Joe,

Thank you for your reply. Great question. Annual maintenance after the first year is 15% (\$4,500).

Right now Wyoming is the only client, but it is early on.

Best regards,

**Tracy Horgan**

Hi, Joe,

Thank you for your message. The cost of the web plan viewer is \$30,000. The product is hosted on your own server and the price includes us setting things up for you.

I have attached an invoice for your convenience.

Please let us know if we can be of further assistance.

Hi Tracy,

I'm wondering if maybe we crossed lines somewhere last week. I'm a bit confused by you plan viewer. So I understand that it won't drop down and let you choose between multiple plans. But could we export Plan A to it and hyperlink that to a page. So someone clicks on Plan A, it opens up in the viewer with the associated report. And then they click on Plan B, and it opens in another Tab with associated report. Could each plan be it's own window?

After recent conversations, let's look at rescheduling this event for our next MSAE luncheon Feb. 10 at Noon. If that works for you, we can have you Zoom in and Rachel/Joe could be there in person in Helena. We envision opening the luncheon with simple welcomes, intros from our Board Chair, Pam O'Reilly of the Montana Bankers Assn. Then, we can start on lunch. At about 12:20 or so, Pam would introduce you and have you give about a 15-minute overview, the high level of what the Commission is all about and work so far. Then maybe Rachel/Joe could talk about the work ahead with the legislative districts for another 15 minutes or so. We could leave a little time for wrap-up from you. Does this sound like a plan? Happy to chat about any details before we confirm.

And by the way, this is Kathy. My husband Webb and I were co-Executive Directors of MSAE until he started his new job this month with the Montana Dental Association. Now I'll be the Executive

Director of MSAE. The e-mail is the same; my cell is 406-459-8045.

**Subject:** Commission presentation at MSAE mtg Nov. 18

The Montana Society of Association Executives is the "association of associations" in Montana. That includes about 50 of the top associations in the state, from the Montana Bankers Association to the Montana Trial Lawyers Association. Our membership also includes about that same number of "Hospitality" members – those who host the meetings of associations, as well as the same number of "Affiliate" members who support associations in other ways (legal, accounting, marketing, etc.)

We schedule monthly programs for our members and invite you to update our members and others at the Nov. 18 program on the Commission. This would be over the Noon hour, with your presentation about 20-30 minutes with Q&A possible afterward. We are planning this as a virtual event again, with hopes of returning to in-person meetings for our holiday event in December. Most of our members are involved in government affairs and politics and would be very interested in this topic. In fact, we recently encouraged them all to become more educated and involved in the Oct. 19 meeting.

I would be happy to provide any further information should you be available and willing to join us.

Be well,

Webb

**Subject:** Commission presentation at MSAE mtg Nov. 18

The Montana Society of Association Executives is the “association of associations” in Montana. That includes about 50 of the top associations in the state, from the Montana Bankers Association to the Montana Trial Lawyers Association. Our membership also includes about that same number of “Hospitality” members – those who host the meetings of associations, as well as the same number of “Affiliate” members who support associations in other ways (legal, accounting, marketing, etc.)

We schedule monthly programs for our members and invite you to update our members and others at the Nov. 18 program on the Commission. This would be over the Noon hour, with your presentation about 20-30 minutes with Q&A possible afterward. We are planning this as a virtual event again, with hopes of returning to in-person meetings for our holiday event in December. Most of our members are involved in government affairs and politics and would be very interested in this topic. In fact, we recently encouraged them all to become more educated and involved in the Oct. 19 meeting.

I would be happy to provide any further information should you be available and willing to join us.

Be well,

Webb

**Subject:** Guest speakers

Hello,

Rachel Weiss and I staff the Montana Redistricting Commission, which is considering the reallocation of prisoners and wanted to hear from some national, nonpartisan experts in the area. The good folks at NCSL recommended you. Rachel and I are hoping you could join us via Zoom for maybe an hour on August 17. I think the commission would like to hear about the technical aspects, but also some insights on criteria for making some of those decisions.

We can be flexible with the schedule. I don't think you would need to do much of a presentation. Just give some history and context and then be available for question.

This offer comes with the offer of drinks, dinner, dessert or all three on us the next time we gather. Hope you are well.

Hi there. Thank you so much.

At this point, all I need is really a back of the napkin estimate on what you might charge to geocode our state prisoners and adjust our census tables to reallocate the prisoners to their known addresses. We have around 2,500 prisoners, not all of them have addresses. And the addresses are not quality checked.

What I need the estimate for is that once I have three estimates, I can hold some money back that otherwise goes away after June 30. If I can hold the money, then we would do a more formal process. What I'm saying is that it really is just a placeholder estimate and we wouldn't hold you to it, clearly, actual costs may vary widely.

Thanks.

Joe

Joe,

The desktop tool is not an absolute requirement. You could simply load plans from a shape file into the redistricting viewer. That is how we support externally created plans from ESRI Redistricting, Daves and RedistrictingR. The desktop software however makes it a one button process and provides interactivity which makes it easier to use.

The data processing as a standalone application is \$7000. Although if you have maptitude, I am not sure what the utility of having our data processing would be. I think they provide all the data you need for their system.

As far as integration with the desktop, for example in plan commenting, you would have to download the comments table, then import it into Maptitude so you could use them during the drawing process.

All of our software is standalone which means they do not need a GIS software. It may not be a bad idea for us to have a phone call, so I can better understand your end goal. I may be able to suggest a solution that works in your current configuration.

Thanks  
Fred

Hi Fred. That's great. Thank you.

Do all of these require your districting software? I mean, for the plan viewer at least it seems we can export out of Maptitude, which is what we've committed to for this cycle. (Though you are making a good case here). What about the data processing? We have ESRI licenses.

Joe,

I have provided some marketing material on our redistricting software, both for the desktop and the web. The cost for a single desktop license is \$7500 with discounts available for additional seats. The standard version of the data processing tool is included with the EDGE desktop. Advance version which provides additional disaggregation options and tools for extracting county level databases is an additional \$7000. The EDGE Plan viewer/Who is my Legislator/Redistricting Portal are in a single product with a list price of \$30,000. Plan commenting, Communities of interest, Web Redistricting are also a single product at \$30,000. Licenses are perpetual, which means if purchased they are yours to use as long as you wish.

Maintenance and technical support for the desktop software is \$3800 per 5 seats. For the web products it is \$8000 per year. For the web products, the option to purchase the software as a service on a monthly basis is also available.

Depending on your specific requirements, we can customize a proposal which can better meet your needs. Please let me know if you have any other questions.

Hi Fred. I think we'd like to go with the plan comment tool and the who is my legislator tool. And sorry for the rush, but if we do this we need to get the purchase order signed and dated today.

I have a couple of questions.

These are both web based, so what does that entail getting them onto our site?

And the maintenance for both is \$8,000 a year each? Can you tell me what the maintenance includes?

Thanks.

Joe,

The desktop tool is not an absolute requirement. You could simply load plans from a shape file into the redistricting viewer. That is how we support externally created plans from ESRI Redistricting, Daves and RedistrictingR. The desktop software however makes it a one button process and provides interactivity which makes it easier to use.

The data processing as a standalone application is \$7000. Although if you have maptitude, I am not sure what the utility of having our data processing would be. I think they provide all the data you need for their system.

As far as integration with the desktop, for example in plan commenting, you would have to download the comments table, then import it into Maptitude so you could use them during the drawing process.

All of our software is standalone which means they do not need a GIS software. It may not be a bad idea for us to have a phone call, so I can better understand your end goal. I may be able to suggest a solution that works in your current configuration.

Thanks

Fred

Hi Fred. That's great. Thank you.

Do all of these require your districting software? I mean, for the plan viewer at least it seems we can export out of Maptitude, which is what we've committed to for this cycle. (Though you are making a good case here). What about the data processing? We have ESRI licenses.

**Subject:** [EXTERNAL] RE: Montana Districting products

Joe,

I have provided some marketing material on our redistricting software, both for the desktop and the web. The cost for a single desktop license is \$7500 with discounts available for additional seats. The standard version of the data processing tool is included with the EDGE desktop. Advance version which provides additional disaggregation options and tools for extracting county level databases is an additional \$7000. The EDGE Plan viewer/Who is my Legislator/Redistricting Portal are in a single product with a list price of \$30,000. Plan commenting, Communities of interest, Web Redistricting are also a single product at \$30,000. Licenses are perpetual, which means if purchased they are yours to use as long as you wish.

Maintenance and technical support for the desktop software is \$3800 per 5 seats. For the web products it is \$8000 per year. For the web products, the option to purchase the software as a service on a monthly basis is also available.

Depending on your specific requirements, we can customize a proposal which can better meet your needs. Please let me know if you have any other questions.

**Date:** Monday, February 22, 2021 11:28:00 AM

---

Hello Mr. Carpenter.

Just a quick reply since we are in the midst of session.

The data are not released yet. So the determination of congressional seats is not made.

Yes. The timeline is different for the legislature and congress. The commission has 90 days after the data are received to apportion the congressional seat or seats.

The legislative plan is submitted to the 2023 legislature and then the secretary of state. However, the plan does not go into effect until the 2024 elections.

This sheet is out of date on the first part because of census delays. But it provides more information at the end: <https://leg.mt.gov/content/Committees/Interim/2019-2020/Districting/Meetings/Nov-2019/DRAFT-possible-timeline-2019-2023-dac-version-10-7.pdf>

**Subject:** [EXTERNAL] Redistricting Questions

Hi. I have a couple of questions:

1. I've seen the rumor that we're getting a second congressional seat. Is it true?
2. Is the timeline on defining congressional districts different from the timeline on defining legislative districts?
3. Am I correctly understanding the timeline for legislative districts in thinking that the commission will present a plan to the legislature in January 2023, and it will be in effect in March of 2023?

Hi Joe,

I wanted to follow up with you regarding your request. Unfortunately, we don't have any information on how states plan to handle prisoner reallocation this cycle.

This is one of the reasons we're trying to gauge interest in getting a [working group \[docs.google.com\]](#) together on prisoner reallocation. We want to connect folks in other states that may have similar questions or concerns. I will give folks time to fill out the google doc and I hope we can garner interest in forming a working group on this topic. Would this be something you or other Montana folks might be interested in?

I reached out to Ben and Wendy to see if they had any additional information. According to Ben, just based on who has access to prisoner data, he doesn't think it's possible for states to ask their vendors to do it *unless* they can provide the vendor with a full and accurate inmate data file with previously known addresses. Illinois didn't have the information and they weren't collecting it, so they have opted to delay implementation.

I would suggest reaching out to Karin Mac Donald ([karin@statewidedatabase.org](mailto:karin@statewidedatabase.org)) and Aleks Kajstura ([akajstura@prisonpolicy.org](mailto:akajstura@prisonpolicy.org); she is the legal director for the Prison Policy Initiative) to see if they have any additional information.

I'm sorry, I wish I could have been more helpful. If there is anything else you need, please let me know.

Thanks,  
Christi

Good morning Joe,

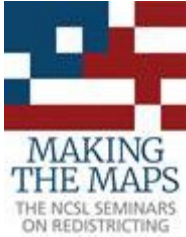

Thanks for reaching out and attending yesterday's meeting. I'm not sure if we have that information, but let me check to see what we do have about reallocating inmate data. Mostly, we have [general information \[ncsl.org\]](#) on the topic and a list of states that will reallocate.

As I mention, I'll look to see what additional information we have on this topic. I'll get back to you as soon as I can.

Thanks,  
Christi

Hi Christi,

Thanks for putting that on today. That was really great.

We are getting questions about how we could reallocate prisoners. Do you have any information handy about how other states are actually doing it? By that I mean, are they paying outside vendors to geocode and adjust the tables? It sounds like Karin is doing that all in her shop, but like she said, she's been working on it for years. We don't even have data yet. I think we could try to geocode what we get, but I'm not sure of my ability to adjust the tables with any degree of confidence.

We did talk with Maptitude. It sounds like they may be helping out on that regard. But it was likely expensive and may not be doable within our time frame.

Any information or references would be appreciated.

Thanks.

Joe

?????

The census affects residents in every state, whether they know it or not. Often, state officials talk about the census in relation to federal funding formulas. But reapportionment and redistricting are also uses of the census that matter to how people are represented. This roundtable discussion will touch on the role of the legislative branch to convey the importance of the information. Topics may range from uses of census data for legislative committees or policy work to displaying and creating maps for redistricting.

Ha. I had to think for a minute who you meant by illustrious. First time anyone has said that, even in jest.

Of course I agree with the distinguished chair. What do you think about “Census and Redistricting Update – What changed and what can legislative staff do to help people understand.”

Not all that catchy really. But I’d like to get people thinking about how this matters to the average Joe. Or below average Joe such as the case may be. I mean, everyone sees the stories about the money tied to census and one person, one vote. Blah Blah Blah. But I’m looking for creative ways to present the information too. Interactive maps? Podcasts? Dog and Pony shows around the state?

Hi Wendy. If you could load this PP from 2010, I'll start with it. I think it'll be a nice transition to what we are trying to do now a decade later. (Weird how there is another census coming and I've not aged a bit).

Also could you load up these two? They are not districting, but they show different uses for the story map that we've tried including me ad libbing with my dog and blowing a hole in the ground with legislative leadership.

Hello Professor Stebenne, Emily, Joe, Jerry and George.

Thanks, all, for agreeing to participate in our Saturday afternoon redistricting activities. I'm attaching an outline of the session.

Professor Stebenne, you really have the first hour to yourself. We'll all be glad to listen and learn. Everyone else, Emily Wendel will be the moderator for your session. I think the group will be fairly small, and probably mostly people with a real interest in how states get input from the public, and how states provide information to the public (and to their members). I will be with you throughout because this public part is going to be our next big project. It is possible, though unlikely, that a reporter will be in the room.

We are hoping to post Professor Stebenne's slides, and we'd be glad to have any other handouts (links or pdfs) that you think might be pertinent. Joe, I think that means we can link to the storymap. Joe, we could link to the session you did in Boston.

Thanks again!

Subject: [EXTERNAL] RE: An outline for next Saturday's session  
Mimecast Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

Hi Wendy, if you could load this PP from 2010, I'll start with it. I think it'll be a nice transition to what we are trying to do now a decade later. (Weird how there is another census coming and I've not aged a bit).  
Also could you load up these two? They are not distracting, but they show different uses for the story map that we've tried including me ad libbing with my dog and blowing a hole in the ground with legislative leadership.

Subject: [EXTERNAL] An outline for next Saturday's session

Hello Professor Stebenne, Emily, Joe, Jerry and George.  
Thanks, all, for agreeing to participate in our Saturday afternoon redistricting activities. I'm attaching an outline of the session.  
Professor Stebenne, you really have the first hour to yourself. We'll all be glad to listen and learn.

Everyone else, Emily Wendel will be the moderator for your session. I think the group will be fairly small, and probably mostly people with a real interest in how states get input from the public, and how states provide information to the public (and to their members). I will be with you throughout because this public part is going to be our next big project.

It is possible, though unlikely, that a reporter will be in the room.

We are hoping to post Professor Stebenne's slides, and we'd be glad to have any other handouts (links or pdfs) that you think might be pertinent. Joe, I think that means we can link to the storymap. Joe, we could link to the session you did in Boston.

Thanks again!

Hi Noah.

Renee did a paper for us on involving the public in the redistricting process.

My thought is to look through our committee pages and see if there is anything that interests you. Then let's chat a bit and see what we can come up with?

Hmmm. Well. Let's think on it a bit.

Rachel reminded me that Dr. Rinfret was interested in UM participating in districting; specifically in maybe being part of a public mapping project. Our idea was that maybe you could be in charge of facilitating public comment. Given the shorter timeline, maybe it would just be for the congressional districting if we get another seat. That would conclude in December. So the rough idea would be that you could work with UM (Dr. Rinfret) and devise a way to use public mapping to solicit comment. Dr. Rinfret is familiar with the guy who is doing this. If we do get another seat, this would be a great way to encourage public participation. You would also be in charge of some of the outreach and traditional public comment. You could basically work when you wanted for the most part. And since this would be the first time in nearly 30 years when we got another seat, it would provide you with a lot of material for an academic paper on how public participates in the process and also a look at how Montana may see itself differently than it did 30 years ago.

**Subject:** [EXTERNAL] Re: checking in

That is a lot, Joe! The experience officially **spans May 15 through July 15.**

When I originally posed both options to Dr. Rinfret, she was wholly on board with the indicators project if that's the route that best serves your office. Given the tangential applications to SHPO and other coursework and the lack of more direct study bills, the

indicators project seems like a good fit.

All that said, your additional suggestion of studying redistricting would be a once in a career experience and of definite interest to DPAP and me personally. Considering the additional workload now on your plate, it would be helpful to know your thoughts on this question when we meet: **Do you believe your office would benefit more from assistance with environmental indicators project or considering redistricting? Which would be more beneficial in a year or two?**

At this point both options are fascinating and feasible; so I would like to focus where I can be of best service to you.

Thanks for reaching out, Joe.

Though I've been watching the study bills progress, I am struggling to find one that clicks with our work at SHPO or MHS more broadly. I'm still definitely open to a more traditional report, simply because it's what I know. However, the environmental indicators project would be helpful geospatial experience and the newer delivery format is definitely most relevant to the

courses I'll be taking concurrently. From our previous conversation, that project also seems like it would have the greatest impact for your office's day-to-day work. After you've had some time to think next week, would you be willing to meet with me to nail down a feasible scope of work together? I'm around on Wednesday, Thursday, and Saturday afternoons.

Thank you!

**Subject:** RE: checking in

I'm sorry to be so scattered. But is it just three months? I somehow had it in my head it was a year. That would certainly dictate things a bit, since the interim really doesn't get rolling until June. But don't worry. We can figure something. I talked to my partner in crime on districting and she had some ideas.

**Subject:** [EXTERNAL] Re: checking in

That is a lot, Joe! The experience officially **spans May 15 through July 15.**

When I originally posed both options to Dr. Rinfret, she was wholly on board with the indicators project if that's the route that best serves your office. Given the tangential applications to SHPO and other coursework and the lack of more direct study bills, the indicators project seems like a good fit.

All that said, your additional suggestion of studying redistricting would be a once in a career experience and of definite interest to DPAP and me personally. Considering the additional workload now on your plate, it would be helpful to know your thoughts on this question when we meet: **Do you believe your office would benefit more from assistance with environmental indicators project or considering redistricting? Which would be more beneficial in a year or two?**

At this point both options are fascinating and feasible; so I would like to focus where I can be of best service to you.

**Subject:** RE: checking in

Hi there.

Yes, I'm looking forward to summer too.

I know. There hasn't been much in your area to this point. Things are a bit more complicated. My counterpart in research is leaving for a new job at DEQ so we are in a bit of flux so far as we go into the interim. I was looking back at some of the things Dr. Rinfret sent. Do you think it would be better to come out of this with a policy paper or report as opposed to a project like database? We also have redistricting coming up, which I know interests Dr. Rinfret and is a once a decade thing.

I don't think I can commit to anything for a meeting this week just yet. Let me see how it goes.

When is your start date for us?

**Subject:** Re: checking in

Thanks for reaching out, Joe.

Though I've been watching the study bills progress, I am struggling to find one that clicks with our work at SHPO or MHS more broadly. I'm still definitely open to a more traditional report, simply because it's what I know. However, the environmental indicators project would be helpful geospatial experience and the newer delivery format is definitely most relevant to the courses I'll be taking concurrently. From our previous conversation, that project also seems like it would have the greatest impact for your office's day-to-day work. After you've had some time to think next week, would you be willing to meet with me to nail down a feasible scope of work together? I'm around on Wednesday, Thursday, and Saturday afternoons.

Thank you!

Not at all, Joe. I'm grateful for the space to read, research, and write.

You can definitely share with the committee that Dr. Rinfret confirmed enthusiastically that UM is still willing and able to stand up a redistricting competition once the data becomes available. Since this week's meetings are focused on criteria, I'll be streaming the meeting from across the street.

If you have a chance next week, I'd love your thoughts on the draft. Please watch for a copy this weekend.

Thank you,

Good evening, Joe. My little one has been struggling with a bad cough, and this is the first I've been able to sit down off working hours to a computer since last Friday night. It is thankfully not COVID-related, but it is nonetheless a very frustrating bookend to a busy summer. I apologize for not getting a more complete draft to you early this week as intended.

The experience was officially intended to end tomorrow, Thursday, July 15, but I will need to extend through the weekend. My plan of attack is as follows: Though out of town, I'll have more family members around to help and will get the draft ready for your review. I'll be coming back to Helena on Tuesday morning, July 20, to drop off the laptop and fob. I'll keep a digital copy of the report and make any alterations you request by Friday, July 30. Do you have any thoughts or concerns to this timeline?

Thank you for your understanding. Please email or call me at (503) 307-7029 if you have any questions.

Hi Rachel and Joe,

My name is Ethan Cohen and I'm a producer here at CNN. As the redistricting process gets going, I was hoping you could help answer a few questions that will help us be ready for new district maps. These are just for our planning purposes and I totally understand that things can change, but any information or expectations you can share will be very helpful.

1. Will detailed information on the maps be immediately available when they're approved, or will it take some time?
2. What format will maps be shared in? Is it possible to get shapefiles of the new maps?
3. Will the map data released include a breakdown of census blocks included in each district?
4. How are you planning on releasing map data? (via an email, posted to a site etc.)

Thanks so much for your help and could you please add me to your press lists?

---

I talked with Sen. Flowers to see if I understood his expectations. I think we can let the note ride as written. I understand why we would ask for new money and that's fine. My experience is that every now and again, not everybody shows up. And if I lose just a couple of those big money members, I could absorb the cost. But that is neither here nor there. The other part Sen. Flowers has in there is that he's seeking gifts or donations. So he's pretty sure he can get someone to donate money, but when the time comes we would need to make sure that works. And lastly, in terms of staff time, I will ride herd on them for staff time. But since I'm not doing redistricting this round, I should have plenty of time. (:

**Subject:** RE: FN for SB 180 LEG, AGRIC, SOS 2-5-21

Hi Angie,

I made a couple tweaks (capitalized some of the member categories) and I highlighted a couple related areas. I don't think that farmers and ranchers will have an agency to pay their expenses, so I think that we should estimate about half would need salary along with expenses. I think #10 that I added is a technical concern or an assumption, you can decide. When you make these changes, would you send to me and Joe and ask him to comment.

Thank you, hope you're feeling better, Susan

[EXTERNAL EMAIL]

Ha. I had to think for a minute who you meant by illustrious. First time anyone has said that, even in jest.

Of course I agree with the distinguished chair. What do you think about "Census and Redistricting Update – What changed and what can legislative staff do to help people understand."

Not all that catchy really. But I'd like to get people thinking about how this matters to the average Joe. Or below average Joe such as the case may be. I mean, everyone sees the stories about the money tied to census and one person, one vote. Blah Blah Blah. But I'm looking for creative ways to present the information too. Interactive maps? Podcasts? Dog and Pony shows around the state?

Hello Joe,

I sent a note to the Montana Districting and Apportionment Commission members, it is copied below. I am hoping to have 3 to 5 of the members join us in November. I should have cc'd you on the original email, my apologies! Let me know what other information you might need. I am in Helena for the remainder of the week, so happy to stop by and visit too!

*This fall the Montana Farm Bureau Federation will be hosting our Annual Convention in Billings, MT; November 8-11. On the morning of the 9<sup>th</sup>, at 7am we will host our Century Club Breakfast. The Montana Farm Bureau Century Club is our members who voluntarily pay higher membership dues to go towards our legal and legislative efforts.*

*Typically at this breakfast we want to have a presentation of timely legislative or political matters. With the redistricting efforts going on now, it is certainly a timely topic to discuss! I want to extend the invitation to this entire commission to come, enjoy breakfast with our members and sit on a panel to discuss how your commission meetings have been going and the current state of it at the time of this breakfast. We would have a list of questions ahead of time as well.*

*I do understand that it may be challenging to get all five commission members to Billings for an early morning event, and would ask that we could have at least three members in attendance.*

*Please let me know if this is something you would be able and willing to do!*

Thanks,  
Rachel

Well. Maybe see who is interested. In the past, groups have had two speakers one from each party. Or you could just have the Chair. Rachel and I are also available to speak to the process and how it works.

Okay - thanks for that information, what is the best way to do this then, have less than a quorum? I have not heard back from any of the commission members, so we can certainly change up our ask to follow the rules.

**Subject:** RE: MFBF Annual Convention

Hi Rachel. Thanks for the heads up . Just FYI, we generally advise all our committees, including districting, to exercise caution when a quorum is present at any one place. Not that it can't be done, but everyone just needs to be very clear that there cannot be the appearance of public business being conducted without proper notice of a meeting.

**Subject:** [EXTERNAL] MFBF Annual Convention

Hello Joe,

I sent a note to the Montana Districting and Apportionment Commission members, it is copied below. I am hoping to have 3 to 5 of the members join us in November. I should have cc'd you on the original email, my apologies! Let me know what other information you might need. I am in Helena for the remainder of the week, so happy to stop by and visit too!

*This fall the Montana Farm Bureau Federation will be hosting our Annual Convention in Billings, MT; November 8-11. On the morning of the 9<sup>th</sup>, at 7am we will host our Century Club Breakfast. The Montana Farm Bureau Century Club is our members who voluntarily pay higher membership dues to go towards our legal and legislative efforts.*

*Typically at this breakfast we want to have a presentation of timely legislative or political matters. With the redistricting efforts going on now, it is certainly a timely topic to discuss! I want to extend the invitation to this entire commission to come, enjoy breakfast with our members and sit on a panel to discuss how your commission meetings have been going and the current state of it at the time of this breakfast. We would have a list of questions ahead of time as well.*

*I do understand that it may be challenging to get all five commission members to Billings for an early*

*morning event, and would ask that we could have at least three members in attendance.*

*Please let me know if this is something you would be able and willing to do!*

Thanks,  
Rachel
