Taylor Stoneman
American Oversight
1030 15th St NW, Suite B255
Washington, D.C. 20005

Dear M. Stoneman:

This letter is a response to your public records request made to Ginger Aldrich, Staff Attorney for the Montana Districting and Apportionment Commission (MDAC) on November 23, 2021. This is in response to your second request (MT-MDAC-21 - 1688).

All email communications (including emails, complete email chains, calendar invitation, and attachments thereto) sent by any of the Districting and Apportionment Commission members or staff listed below, to any email address ending in .com, .net, .org, .mail, .law, or .edu regarding the state or congressional redistricting processes.

Districting and Apportionment Commission Members and Staff:

- i. Maylinn Smith, Commission Chair (See 20220110 – Commissioner Smith)
- ii. Jeff Essman, Commissioner (See 20220110 – Commissioner Essmann – no results). Commissioner Essmann indicated that he has sent you his documents separately.
- iii. Joe Lamson, Commissioner (See 20220110 – Commissioner Lamson and 2021 CommissionEmails.zip)
- iv. Dan Stusek, Commissioner (See 20220110 – Commissioner Stusek)
- v. Kendra Miller, Commissioner (See 20220110 – Commissioner Miller, Public Records Request_Emails.zip, and Public Records Request_Email Attachments.zip)
- vi. Rachel Weiss, Research Analyst (See folder PublicInfor1688 – Weiss)
- vii. Joe Kolman, Research Analyst (See MDAC 21-1688_email.docx)
- viii. Ginger Aldrich, Staff Attorney (See folder American Oversight MT-MDAC-21-1688\Doc Request.pdf)
- ix. Laura Sherley, Research Assistant (See PIR – Districting – Email – Search – Laura Sherley)

The total time for these email searches (MT-MDAC-21 – 1688) and the requests made under MT-MDAC-21 - 1687 is 37 hours, and an invoice is attached. Please let me know if you have follow-up questions. If you need further assistance, please contact me.

Sincerely,

A handwritten signature in black ink that reads "Susan B Fox".

Susan B. Fox
Executive Director

Fox, Susan

Subject: FW: Public Records Requests for Districting and Apportionment Commission
Attachments: MT-MDAC-21-1687.pdf; MT-MDAC-21-1688.pdf

Hello Commissioners,

The Legislative Services Division received two public records requests related to the Districting and Apportionment Commission. Please see the following email and two attachments from Susan Fox with details about the requests, what records the Legislative Services Division has or can acquire, and what records you'll need to produce. Please call with any questions.

Susan Fox at 444-3066

Joe Kolman at 444-3747

Ginger Aldrich at 444-4464

Rachel Weiss at 444-5367

Sincerely,
Rachel

Subject: Public Records Requests for Districting and Apportionment Commission

Hi Rachel,

Could you please forward these two requests to the Districting and Apportionment Commission members? Please let them know that staff will compile as much of this information as we have and they only need to provide documents that are not on file.

1. In the first request (MT-MDAC-21-1687.pdf), we will be able to produce many of the documents, However, if a member has a document in their possession and they have a question on whether to include it, they can forward the question to us and we can help determine whether it is on file and already in our possession or if it needs to be produced.

#1 – contracts for ESRI, Maptitude, RFPs, Word Press, etc. – LSD will provide

#2 – note it requests unpublished documents – published ones are on the website.

#3 – any boundary proposals (not including electoral district maps or community of interest maps submitted as public comment) that Rachel or Joe helped you with will be in our files – if you have any other proposals or related data analyses produced by another person, you will need to produce that document.

#4 – 7 – staff will be able to provide much of this information. We will also reference the website and NCSL for trainings.

#8 – website

#9 – all public comment is posted. Would need any formal or informal appraisal of the public comment if you have any.

2. For the second request (MT-MDAC-21-1687.pdf), we will proceed with an email search of your mtleg.gov accounts and you will be given the opportunity to review the results for any private information. Please note that the request states:

All email communications (including emails, complete email chains, calendar invitation, and attachments thereto) **sent by** any of the Districting and Apportionment Commission members or staff listed below, to any email address ending in .com, .net, .org, .mail, .law, or .edu regarding the state or congressional redistricting processes.

Note, there is **no .gov extension** mentioned. They clarify that the “sent by” emails should include the entire chain of previous sent and received messages.

I have sent an email clarifying that this request will cost more than \$100, that including attachments increases the time and cost, and to confirm whether they want us to proceed.

Thanks, Susan

Susan Byorth Fox

Adopted by the Montana Districting and Apportionment Commission May 28, 2010

I. MANDATORY CRITERIA FOR CONGRESSIONAL DISTRICTS

1. Population equality. All congressional districts shall be as nearly equal in population as is practicable. (Article 1, Section 2 of the U.S. Constitution, U.S. Supreme Court cases).

II. MANDATORY CRITERIA FOR LEGISLATIVE DISTRICTS

1. Population equality and maximum population deviation. Each legislative district shall be as nearly equal in population as is practicable. (MT Constitution). It is the goal of the Commission that each district have a population of 9,894 people for each House district and 19,788 people for each Senate district. Any deviation may not exceed plus or minus 3% from this ideal population. Each deviation will be accompanied by an explanation of the mandatory or discretionary criteria justifying such deviation. An explanation for the deviation shall be articulated and made part of the written record that accompanies each district description in the Commission report.
2. Compact and contiguous districts. Each district shall consist of compact and contiguous territory. (MT Constitution). The Commission may use, but not be limited to, a general appearance test regarding compactness of the district and consider the district's functional compactness in terms of travel and transportation, communication, and geography.
3. Protection of minority voting rights and compliance with the Voting Rights Act. No district, plan, or proposal for a plan is acceptable if it affords members of a racial or language minority group "less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice." (42 U.S.C. 1973).
4. Race cannot be the predominant factor to which the traditional discretionary criteria are subordinated. (Shaw v. Reno, 509 U.S. 630 (1993)).

III. DISCRETIONARY CRITERIA FOR LEGISLATIVE DISTRICTS

1. Following the lines of political units. The Commission will consider the boundary lines of counties, cities, towns, school districts, Indian reservations, neighborhood commissions, and other political units.
2. Following geographic boundaries. District lines will be drawn to follow geographic boundaries as provided in the TIGER/Line files of the U.S. Bureau of the Census.
3. Keeping communities of interest intact. The Commission will consider keeping communities of interest intact. Communities of interest can be based on Indian reservations, urban interests, suburban interests, rural interests, neighborhoods, trade areas, geographic location, communication and transportation networks, media markets, social, cultural and economic interests, or occupations and lifestyles.

TO: Montana Districting Commission
FR: Joe Lamson, Commissioner

RE: Montana Constitutional Authority for Independent, Autonomous Commission

Commission's Constitutional Authority Clearly Established

Fundamental to the 1972 Montana Constitution was the establishment of a five person citizen Districting and Apportionment Commission. The constitutional convention accurately concluded the Montana legislature repeatedly failed and was incapable of creating redistricting plans fulfilling the basic citizen right of "one person, one vote."

Montana voters agreed and voted to ratify the new constitution. Montana was among the first states to pioneer the use of a citizen commission to redraw legislative and congressional districts. Commissions are now used exclusively in 13 states for all redistricting and seven additional states use commissions for some part of their process. Commissions are widely recognized as a successful alternative to the many abuses and problems inherent when state legislatures control the redistricting process.

The five paragraphs found in Article 5, Section 14 of the Montana Constitution simply and elegantly establish the key functions and authority of the commission. The intention of the delegates of the Constitutional Convention and Montana voters was crystal clear.

Henceforth, the Montana legislature's role in redistricting was limited to appointing four of the five citizen commissioners and making nonbinding legislative district recommendations on the proposed plan. The constitutional authority and responsibility for redistricting is vested solely in the commission.

It has been reaffirmed through decades of legal challenges that the legislature has **no constitutional authority** to statutorily limit how the commission draws districts to meet its responsibilities in the redistricting process.

Since 1973 the commission's authority has been clearly upheld first in an Attorney General's Opinion followed by no less than three district court and two unanimous Supreme Court decisions. Every one of those court decisions have upheld the commission's authority to redistrict without any statutory interference by the legislature.

The commission derives its authority from the people of Montana who ratified the constitution. The Commission's first and undivided duty is to uphold the Montana Constitution.

1973 Attorney General Robert Woodahl Opinion

Most of the discussion concerning Attorney General Woodahl's Opinion focuses on the question of whether the legislature or the commission has the constitutional authority to determine the size of the legislature.

What is overlooked in these discussions is that from the very beginnings of the first commission, the preeminent constitutional authority of the commission to create plans free from any statutory limitations by the legislature was clearly established. It was the bedrock opinion affirming the legislature can only make recommendations for redistricting plans but has no statutory authority to change them.

The Attorney General Opinion unambiguously stated, *"with the adoption of the new constitution, the people of Montana divested the legislature of all power concerning apportionment of the legislature, except for the power of recommendation cited above."* 35 A.G. Op. 12 (1973).

2003 Brown v. Montana Districting and Apportionment Commission, Judge Dorothy McCarter presiding, Montana First Judicial District Court

Events surrounding the 2000 plan submission were "contentious" indeed. They included numerous clashes between the commission majority and the legislature's Republican majority over nine pieces of legislation. During hearings on those bills, the Republican legislators repeatedly received testimony they chose to ignore that their actions were unconstitutional. Votes on all bills were split along party lines.

Besides introducing numerous bills and resolutions in opposition to the plan, House Republican legislators passed legislation to cut off funding to the commission. In addition, efforts were made to have one commissioner fired from his state agency position and threats were made to cut public education funding and state agency budgets.

Two members of the 2000 Commission, a delegation of American Indian and Democratic legislators, and citizens proceeded to the Secretary of State's Office to file the plan. They were met at the door by the Secretary of State who asserted the plan could not be filed unless it met conditions of Republican passed legislation.

The commissioners placed the plan on the front desk and declared the plan filed in accordance with their duties outlined in Article V, Section 14 (4) of the Montana Constitution.

The Secretary of State then sued the commission. In the resulting case, the commission was represented by the Attorney General and was joined by intervenors in support of the commission including American Indian legislators from all seven reservations and the Montana Wyoming Tribal Leaders Council.

Judge McCarter found the “*Secretary of State contends that this constitutional provision is intended to be implemented by the legislature. The Court disagrees, finding the provision to be **self-executing**, and needing no implementation by the legislature.*”

Judge McCarter further elaborated. “*Put another way, a constitutional provision is **self-executing** when it can be given effect without the aid of the legislature and there is nothing to indicate that the legislation is contemplated in order to render it operative.*”

Judge McCarter found just as Attorney General Woodahl before her that the legislature had a very limited role. “*The language of Article V, Section 14, does not indicate an intent to involve the legislature in this process, other than its selection of four commissioners pursuant to subsection (2), and its recommendations to the Commission pursuant to subsection (4).*”

Judge McCarter concluded the actions of the legislature and Secretary of State were “*not a valid implementation of Article V, Section 14, because that constitutional provision is **self-executing**, and because Article IV, Section 3, of the Montana Constitution does not authorize the legislature to interfere with the redistricting process beyond the express authority given to it in Article V, Section 14.*”

2004 Wheat, Tester, and Hansen v. Brown, Judge Jeffrey Sherlock presiding, Montana First Judicial District Court

Additional 2003 Republican legislation tried to usurp the power of the commission to assign holdover senators. Three sitting senators sued the Secretary of State to force him to recognize the commission’s holdover senator assignments.

Judge Sherlock affirmed the “*Commission is assigned the task of redistricting and reapportioning the state into legislative districts. The history of the constitution shows the purpose of the drafters was to ‘[b]ypass the Legislature from this point on.’ (Statement of Delegate Skari, Mont. Const. Conv. Tr. Vol. IX at 682.)*”

Judge Sherlock noted Judge McCarter’s finding in *Brown v. Commission* that Article V, Section 14 of the Montana Constitution “*does not indicate an intent to involve the legislature in the redistricting process other than the selection of commissioners and its recommendations to the Commission. Judge McCarter found the constitutional provision to be **self-executing** without any need for assistance from the legislature. Although Judge McCarter’s decision is not binding on this Court, it is persuasive, and this Court adopts that same rationale.*”

2004 Wheat, Tester, and Hansen v. Brown, Montana Supreme Court

Judge Sherlock's decision was appealed to the Montana Supreme Court. All seven justices of Supreme Court unanimously affirmed Judge Sherlock's decision.

Justice Leaphart wrote *"It is clear from the transcripts of the Constitutional Convention that, in recognition of the Legislature's inability to redistrict itself, the Convention assigned the task of redistricting to the Commission -- an independent, autonomous entity -- and limited the Legislature's role to that of making 'recommendations.'"*

The Court concluded *"that Article V, Section 14's mandate that the Commission effect redistricting is **self-executing** and that, as the history of implementation illustrates, the power to assign holdover senators to districts is an inherent part of the redistricting process. By granting redistricting authority to the Commission under Article V, Section 14, the Constitution denied the Legislature any latitude to invoke its plenary powers."*

2013 Willems, et al v. State of Montana, Judge Mike Menahan presiding, Montana First Judicial District Court

In 2013 a group of Fergus County Republicans sued the commission concerning an amendment on the assignment of holdover senators. The plaintiff's complaint alleged seven different counts against the commission's actions.

Two of those counts dealt specifically with the unconstitutional criteria passed by the 2003 Republican legislators and codified in Section 5-1-115, MCA.

Count VI alleged the commission unlawfully considered incumbent legislators' addresses in violation of Section 5-1-115(3)(a), MCA. Count VII alleged the commission unlawfully considered previous election results in redistricting in violation of Section 5-1-115 (3)(d), MCA.

The Commission was represented by Attorney General Tim Fox and Montana Solicitor General Lawrence VanDyke. On page 28 of the Defendant's Response and Brief in Support of Cross-Motion for Summary Judgement the Attorney General's brief argued:

"Those claims are clearly meritless in light of existing court rulings. Judge McCarter, in Brown v. Montana Districting and Apportionment Commission, has already determined that legislation attempting to limit the broad constitutional discretion of the redistricting commission, like Mont. Code Ann. Sections 5-1-115 (3) (a) and (d), 'impermissibly conflicts with Article V, Section 14 of the Montana Constitution, and is void on that basis.'"

And further the *"Montana Constitution does not authorize the Legislature to interfere with the redistricting process beyond the express authority to appoint four commissioners and provide recommendations."*

“To limit what the Commission may consider during the redistricting process, as the Legislature has attempted to do in MCA 15-1-115(3)(a) and (d), conflicts with the plain meaning of the Commission’s constitutionally delegated power as determined in both Brown and Wheat, and thus has no force or effect.”

In their reply brief to the Attorney General’s response as to the unconstitutionality of Section 5-1-115 (3)(a) and (d), MCA, the Plaintiff’s withdrew both Counts VI and VII.

2014 Willems, et al v. State of Montana, Montana Supreme Court

Judge Menahan’s Willems decision was affirmed by a unanimous decision by the Supreme Court. In the decision the Court reaffirmed their decision in Wheat v. Brown.

Justice Cotter wrote in “*Wheat v. Brown*, 2004 MT 33, 320 Mont. 15, 85 P.3d 765, we determined that the 1972 Constitutional Convention “assigned the task of redistricting to the Commission—an independent, autonomous entity—and limited the Legislature’s role to that of making ‘recommendations.’”

Conclusion

Since 1973 three Montana Attorney Generals, Attorney General Woodahl in his issued opinion and Attorney Generals McGrath and Fox in their defenses of the 2000 and 2010 districting plans have affirmed the Commissions’ independence from unconstitutional interference by the legislature.

As reviewed above there have been three District Court decisions and two unanimous Supreme Court decisions affirming the Commission’s independence from any attempts by the legislature to use their plenary powers to limit that independence.

The constitutional convention delegates wisely created a commission as an “independent, autonomous entity” to complete legislative and congressional redistricting every ten years to fulfill the promise of “one person, one vote” upon which our representative democracy is based.

June 10, 2020

TO: Montana Districting Commission
FR: Joe Lamson, Commissioner

RE: Montana Constitutional Authority for Independent, Autonomous Commission

Commission's Constitutional Authority Clearly Established

Fundamental to the 1972 Montana Constitution was the establishment of a five person citizen Districting and Apportionment Commission. The constitutional convention accurately concluded the Montana legislature repeatedly failed and was incapable of creating redistricting plans fulfilling the basic citizen right of "one person, one vote."

Montana voters agreed and voted to ratify the new constitution. Montana was among the first states to pioneer the use of a citizen commission to redraw legislative and congressional districts. Commissions are now used exclusively in 13 states for all redistricting and seven additional states use commissions for some part of their process. Commissions are widely recognized as a successful alternative to the many abuses and problems inherent when state legislatures control the redistricting process.

The five paragraphs found in Article 5, Section 14 of the Montana Constitution simply and elegantly establish the key functions and authority of the commission. The intention of the delegates of the Constitutional Convention and Montana voters was crystal clear.

Henceforth, the Montana legislature's role in redistricting was limited to appointing four of the five citizen commissioners and making nonbinding legislative district recommendations on the proposed plan. The constitutional authority and responsibility for redistricting is vested solely in the commission.

It has been reaffirmed through decades of legal challenges that the legislature has **no constitutional authority** to statutorily limit how the commission draws districts to meet its responsibilities in the redistricting process.

Since 1973 the commission's authority has been clearly upheld first in an Attorney General's Opinion followed by no less than three district court and two unanimous Supreme Court decisions. Every one of those court decisions have upheld the commission's authority to redistrict without any statutory interference by the legislature.

The commission derives its authority from the people of Montana who ratified the constitution. The Commission's first and undivided duty is to uphold the Montana Constitution.

1973 Attorney General Robert Woodahl Opinion

Most of the discussion concerning Attorney General Woodahl's Opinion focuses on the question of whether the legislature or the commission has the constitutional authority to determine the size of the legislature.

What is overlooked in these discussions is that from the very beginnings of the first commission, the preeminent constitutional authority of the commission to create plans free from any statutory limitations by the legislature was clearly established. It was the bedrock opinion affirming the legislature can only make recommendations for redistricting plans but has no statutory authority to change them.

The Attorney General Opinion unambiguously stated, *"with the adoption of the new constitution, the people of Montana divested the legislature of all power concerning apportionment of the legislature, except for the power of recommendation cited above."* 35 A.G. Op. 12 (1973).

2003 Brown v. Montana Districting and Apportionment Commission, Judge Dorothy McCarter presiding, Montana First Judicial District Court

Events surrounding the 2000 plan submission were "contentious" indeed. They included numerous clashes between the commission majority and the legislature's Republican majority over nine pieces of legislation. During hearings on those bills, the Republican legislators repeatedly received testimony they chose to ignore that their actions were unconstitutional. Votes on all bills were split along party lines.

Besides introducing numerous bills and resolutions in opposition to the plan, House Republican legislators passed legislation to cut off funding to the commission. In addition, efforts were made to have one commissioner fired from his state agency position and threats were made to cut public education funding and state agency budgets.

Two members of the 2000 Commission, a delegation of American Indian and Democratic legislators, and citizens proceeded to the Secretary of State's Office to file the plan. They were met at the door by the Secretary of State who asserted the plan could not be filed unless it met conditions of Republican passed legislation.

The commissioners placed the plan on the front desk and declared the plan filed in accordance with their duties outlined in Article V, Section 14 (4) of the Montana Constitution.

The Secretary of State then sued the commission. In the resulting case, the commission was represented by the Attorney General and was joined by intervenors in support of the commission including American Indian legislators from all seven reservations and the Montana Wyoming Tribal Leaders Council.

Judge McCarter found the “*Secretary of State contends that this constitutional provision is intended to be implemented by the legislature. The Court disagrees, finding the provision to be **self-executing**, and needing no implementation by the legislature.*”

Judge McCarter further elaborated. “*Put another way, a constitutional provision is **self-executing** when it can be given effect without the aid of the legislature and there is nothing to indicate that the legislation is contemplated in order to render it operative.*”

Judge McCarter found just as Attorney General Woodahl before her that the legislature had a very limited role. “*The language of Article V, Section 14, does not indicate an intent to involve the legislature in this process, other than its selection of four commissioners pursuant to subsection (2), and its recommendations to the Commission pursuant to subsection (4).*”

Judge McCarter concluded the actions of the legislature and Secretary of State were “*not a valid implementation of Article V, Section 14, because that constitutional provision is **self-executing**, and because Article IV, Section 3, of the Montana Constitution does not authorize the legislature to interfere with the redistricting process beyond the express authority given to it in Article V, Section 14.*”

2004 Wheat, Tester, and Hansen v. Brown, Judge Jeffrey Sherlock presiding, Montana First Judicial District Court

Additional 2003 Republican legislation tried to usurp the power of the commission to assign holdover senators. Three sitting senators sued the Secretary of State to force him to recognize the commission’s holdover senator assignments.

Judge Sherlock affirmed the “*Commission is assigned the task of redistricting and reapportioning the state into legislative districts. The history of the constitution shows the purpose of the drafters was to ‘[b]ypass the Legislature from this point on.’ (Statement of Delegate Skari, Mont. Const. Conv. Tr. Vol. IX at 682.)*”

Judge Sherlock noted Judge McCarter’s finding in *Brown v. Commission* that Article V, Section 14 of the Montana Constitution “*does not indicate an intent to involve the legislature in the redistricting process other than the selection of commissioners and its recommendations to the Commission. Judge McCarter found the constitutional provision to be **self-executing** without any need for assistance from the legislature. Although Judge McCarter’s decision is not binding on this Court, it is persuasive, and this Court adopts that same rationale.*”

2004 Wheat, Tester, and Hansen v. Brown, Montana Supreme Court

Judge Sherlock's decision was appealed to the Montana Supreme Court. All seven justices of Supreme Court unanimously affirmed Judge Sherlock's decision.

Justice Leaphart wrote *"It is clear from the transcripts of the Constitutional Convention that, in recognition of the Legislature's inability to redistrict itself, the Convention assigned the task of redistricting to the Commission -- an independent, autonomous entity -- and limited the Legislature's role to that of making 'recommendations.'"*

The Court concluded *"that Article V, Section 14's mandate that the Commission effect redistricting is **self-executing** and that, as the history of implementation illustrates, the power to assign holdover senators to districts is an inherent part of the redistricting process. By granting redistricting authority to the Commission under Article V, Section 14, the Constitution denied the Legislature any latitude to invoke its plenary powers."*

2013 Willems, et al v. State of Montana, Judge Mike Menahan presiding, Montana First Judicial District Court

In 2013 a group of Fergus County Republicans sued the commission concerning an amendment on the assignment of holdover senators. The plaintiff's complaint alleged seven different counts against the commission's actions.

Two of those counts dealt specifically with the unconstitutional criteria passed by the 2003 Republican legislators and codified in Section 5-1-115, MCA.

Count VI alleged the commission unlawfully considered incumbent legislators' addresses in violation of Section 5-1-115(3)(a), MCA. Count VII alleged the commission unlawfully considered previous election results in redistricting in violation of Section 5-1-115 (3)(d), MCA.

The Commission was represented by Attorney General Tim Fox and Montana Solicitor General Lawrence VanDyke. On page 28 of the Defendant's Response and Brief in Support of Cross-Motion for Summary Judgement the Attorney General's brief argued:

"Those claims are clearly meritless in light of existing court rulings. Judge McCarter, in Brown v. Montana Districting and Apportionment Commission, has already determined that legislation attempting to limit the broad constitutional discretion of the redistricting commission, like Mont. Code Ann. Sections 5-1-115 (3) (a) and (d), 'impermissibly conflicts with Article V, Section 14 of the Montana Constitution, and is void on that basis.'"

And further the *"Montana Constitution does not authorize the Legislature to interfere with the redistricting process beyond the express authority to appoint four commissioners and provide recommendations."*

“To limit what the Commission may consider during the redistricting process, as the Legislature has attempted to do in MCA 15-1-115(3)(a) and (d), conflicts with the plain meaning of the Commission’s constitutionally delegated power as determined in both Brown and Wheat, and thus has no force or effect.”

In their reply brief to the Attorney General’s response as to the unconstitutionality of Section 5-1-115 (3)(a) and (d), MCA, the Plaintiff’s withdrew both Counts VI and VII.

2014 Willems, et al v. State of Montana, Montana Supreme Court

Judge Menahan’s Willems decision was affirmed by a unanimous decision by the Supreme Court. In the decision the Court reaffirmed their decision in Wheat v. Brown.

On Tue, Dec 22, 2020, 1:36 PM Joe Lamson <joelamson49@icloud.com> wrote:

Maylinn,

The Census Bureau today released the annual American Communities Survey, ACS, which has their latest projections for US population increases.

It is widely used to project the apportionment of the congressional seats. The 2020 ACS projects Montana continuing to grow at a healthy rate. Montana grew three times faster than the national rate for the past year.

In addition nationally the 9 of the 10 states previously predicted to lose seats continued to lose population in the past year. If their population projections had stabilized or increased slightly it would put them in competition for the new Montana district.

So bottom line Montana slightly increased our chances of getting back our district. After the 2019 ACS Montana was projected to gain a seat in six studies. Our competing states for that seat have not improved their position the 2020 ACS.

So now we wait to see what the official numbers say.

Joe

Commission Begins Choosing Criteria To Draw Montana's Second U.S. House Seat

<https://www.ypradio.org/government-politics/2021-05-26/commission-begins-choosing-criteria-to-draw-montanas-second-u-s-house-seat>

The commission in charge of redrawing Montana's political boundaries this week met for the first time since federal census data revealed the state would regain its second U.S. House seat. Though it's early in the process, commissioners have different approaches for determining what the state's congressional districts should look like. Kevin Trevelyan with Yellowstone Public Radio has been following the commission. He shares his reporting with Nicky Ouellet.

2010 Districting
Criteria.docx

On Apr 7, 2021, at 2:04 PM, Kendra Miller <kjaniceh@gmail.com> wrote:

Here is a doc from Leg Services that will likely serve as a starting point for criteria discussions: [History of State Legislative Redistricting Criteria in MT](#). It lists all of the criteria that were ultimately adopted by each Commission since the 70's, but it isn't very detailed in explaining how the adopted criteria were precisely worded. Anything on here (and anything else we add) will be fair game in the criteria debate.

Here is a doc from 2010 that provides more of the language that was actually adopted: [2010 Checklist for Adopting Discretionary Criteria](#). This is a checklist of items that the 2010 Commission voted on, but I actually can't find the final list of formally adopted criteria online under the 2010 Commission. We can request it from Leg Services though.

Note that the 1990 Commission adopted "consideration to existing districts when practical" and "Political fairness, ie, districts may not be drawn for the purpose of favoring a political party or defeating an incumbent legislator." In addition to the criteria adopted by the 2000 and 2010 Commissions, I think these two from the 90's are at least worthy of debate. The exact language we use for these concepts will, of course, be up for much debate as well. The debate over definitions and wording will fall on Joe and I when the Commission is ultimately deciding to vote criteria up and down. But it will be important that the general concepts are raised during public testimony.

Subject: Empty Words

Commissioner Lamson,

Back in June, I greatly appreciated the fact you were willing to approach me and engage with me in a discussion. It's not every day that the other side is willing to engage in civil discourse and willing to listen to me. It was important and impactful.

At the time I didn't understand as much nor was I looking for strife. I was hoping that for once perhaps we can all put our differences aside and really work for the Montana community. I took what you said, and went out of my way to question and find the answers to the points you mentioned.

I took away 3 major things from that conversation.

1. C-Map

You asked me in what sense do I believe the Democrats were looking to Gerrymander. I told you about the C-Map that has been passed around and angered a lot of folks. You told me, that that was a Republican ploy and that in no way that was what the Democrats were after.

Not knowing any better, I believed you. And instead focused on the merit of your claims presented during the meetings than to make unfounded accusations.

However, behold you proposed maps that are similar or exactly the same as the C-Map that proved the accusations to be true.

I gave you the benefit of the doubt. Were you purposely lying to me? Or why would you give me the impression you weren't after such a map when you obviously are?

2. HB 506

You switched the conversation into asking me about HB 506 which again at the time I didn't know enough about it to speak on it.

You told me it was unconstitutional, unlawful, and that it didn't include the public.

I learned a lot about HB 506 and a number of things since then.

To this day, I don't understand what part is unconstitutional. The only argument you make is that you are an independent commission but never argue against the specifics of the Bill or annotated code.

What part of it is an issue when it matches the mandatory criteria?

3. You started by saying you were a man of action not just words in reference to my speech where I said the following:

"The same goes for the rest of you. It is your actions, not words, that will demonstrate your true intentions. Here is your chance to prove yourselves. Are you putting all Montanans first? Or is that nothing more than empty words? Is it just political virtue signaling to gain favor while you instead gain a corrupted advantage while undermining Montana citizens' right to a fair vote?"

Madam. Chair, members of the commission, the outcome of your decisions will answer my questions when the time comes, and we will hold each of you accountable."

I told you that I will do my research, become more knowledgeable in the subject and see what you have said to be

true or not.

The time has come and unfortunately found that you have only given me empty words. Your true intentions were to push for a C-Map all along while ignoring the Consitution and the law. I can say so much more about competitiveness amongst other things but I'm so disappointed.

Though my words during my testimonies seem personal, they aren't. I have no personal animosity towards anyone. However, I am the type to call a spade a spade with no apologies. So when I say your words are empty, though I'm sure it sounds offensive, it's not. It sounds personal but it's not. It's objectively what I see when you say one thing and end up doing another.

Despite all of this, I wanted to give you the opportunity to speak for yourself and hear what you have to say. Perhaps, there is a misunderstanding and you can clarify.

The truth is I want to see this commission work together doing what's right for all Montanans and take the politics out of it.

Subject: Fwd: Next meeting

Gois afternoon,

I am forwarding you the email, I sent to Rachel last Friday so you can block out the identified dates for initial meetings before the data is actually received. I'll plan on a hybrid meeting with both in person in Helena and Zoom for the unvaccinated or otherwise at risk group for these meetings and probably future ones as well.

Let me know what questions you have.

Rachel,

Thanks for identifying possible meeting dates. I would like to do the first meeting on May 25 and then plan future meetings occurring on June 10, July 9 and August 17. Let me know what else you need from me to start the process for the first meeting. I am free to talk until about 12:30 today. I am in a CLE all afternoon but can respond to emails.

Hi Commissioner Smith,

Once you decide when to meet next and whether you'd like to set any future meeting dates now, just let me know. I can start putting together the official agenda for the next meeting and let the public know of the day or dates. I'll be mostly out of the office next week, but will check my emails. I can get started on setting up the first meeting once I hear more. We're also working on plans for the website, including links to the current districts, some additional maps, and will have a place for links to other resources. I hope all is well and look forward to working with you on the meeting prep.

Sincerely,

Rachel

To: <maylinn.smith@mtleg.gov>

Dear Presiding Officer Maylinn Smith,

Dear Commissioners,

Thank you for the important work you are doing to create fair maps for Montana.

As you conduct this work, please support compliance with the Voting Rights Act and a 5% deviation standard between districts as a MANDATORY criterion. The 5% deviation is especially important this year to allow the commission to account for oddities in the 2020 Census data caused by the global pandemic and to better respond to unique circumstances in local communities.

Please additionally support discretionary criteria of political fairness, maintaining communities of interest, and political competitiveness (to ensure candidates have to earn the votes of Montanans in their districts).

Finally, please do NOT rank criteria so there is flexibility to balance the unique needs of each district and be responsive to public feedback.

Thank you!

Sincerely,
LAUREN CALDWELL

Subject: RE: Summary of Redistricting Plans Struck Down During 2010 Cycle

Hello Commissioner!

Happy to help. We do have such a chart, link here:

https://www.ncsl.org/Portals/1/Documents/Redistricting/Redistricting_actionplan_2010thru2020.pdf. It's part of this webpage on the success of redistricting plans going back to 1991:

<https://www.ncsl.org/research/redistricting/redistricting-plan-success-rates-636359876.aspx>.

Perhaps you have a better eye for this chart than I do--I find it to be highly confusing, which is one of the reasons why we don't share it more widely. But the gist is if you read it left-to-right within the columns for each district type following the legend at the bottom of the page, you can read how each state's redistricting plans fared in the courts. Slashes indicate differences in maps, if you had R/R/D (like you do for Florida senate), that means the first plan was rejected, the second plan was rejected, and then a court drew the third map.

If it's helpful to talk this through over a phone call, I'm happy to do so. Just let me know if you'd like to and I can set up a time.

Subject: [EXTERNAL] Summary of Redistricting Plans Struck Down During 2010 Cycle

Hi Ben,

I know NCSL compiles a lot of state-by-state redistricting information, and it's been very helpful on several topics to

have a centralized resource. You have a page with summaries of legal cases that is extremely helpful, but I have a specific question that I'm not quite sure how best to research and hoped someone at NCSL might just know the answer to from all of your other research.

Do you know how many states and which states had congressional or legislative maps that were struck down by a Court and had to be redrawn during the 2010 redistricting cycle? I know that Pennsylvania's congressional map and North Carolina's congressional and state legislative maps were both ruled unconstitutional by their respective State Supreme Courts and certain districts within the plans had to be re-drawn mid-decade. Those were both partisan gerrymandering cases where State Courts determined that the maps were in violation of their State Constitutions, but I'm really looking for any instances where a state was required to redistrict mid-decade (between 2012 and now) to comply with a Court order. Do you know the answer to this or have thoughts on how best to determine which states had maps struck down by a Court? I imagine the congressional is a little easier because mid-decade congressional redistricting probably got some press, but I'm hoping for a comprehensive list and don't want to miss anything just because it wasn't on my radar.

Thank you!

To: Eric Dietrich <edietrich@montanafreepress.org>

Thanks for the questions Eric. The constitutional question is of paramount importance for this legislation. It was one of the major reasons the Constitutional Convention was called. Three times the Montana Legislature failed to draw redistricting plans that ensured one person, one vote. The delegates, ratified by the voters, forever removed the legislature from the redistricting process except to appoint four of the commissioners and offer recommendations on the final legislative plan.

The specific problems with these "reasonable-seeming" criteria is in their mandatory ranking. The ranking is no accident. Each criterion might seem reasonable on its own. However, the cumulative results of the ranking creates a gerrymander strongly in favor of the Republicans.

All past redistricting commissions have established mandatory and discretionary criteria. HB506's first criteria 4(a) is for population equality. All past commissions have had this as a mandatory criterion. It's the reason we redistrict.

Their next criteria 4(b) recognizing political subdivisions has also long been a discretionary criterion for good reasons. At the same time HB506 raises its importance over previous mandatory criteria for contiguity 4(c) and compactness 4(d).

The political subdivision discretionary criteria suddenly has precedence over constitutionally mandated mandatory criteria. Fundamental to the redistricting task is achieving one person, one vote. What historically has complicated that process was the concentration of political power into political subdivisions that did not have the population to justify that political concentration. That continues today and why you always want to consider political subdivisions as a discretionary criterion not a mandatory criterion.

I don't know if you have seen LSD Legal review note that also raises serious constitutional problems with this amendment. I am also attaching a litigation summary that reaffirms the commission as an independent, autonomous entity free from the legislature's mandates.

Until the Constitution is changed the power for congressional and legislative redistricting remains solely within the commission. We always welcome and consider suggestions from legislators and all Montanans, and the commission has extensive opportunities for public comment on the redistricting process, adoption of redistricting criteria, and any proposed maps.

On Apr 27, 2021, at 9:58 AM, Eric Dietrich <edietrich@montanafreepress.org> wrote:

Thanks, Joe — other than the constitutional question, what specifically is there to be concerned about with that amendment? To my naive eye, it looks like they just want to add the reasonable-seeming legislative districting criteria as a guide for congressional districting?

Best,
Eric

On Mon, Apr 26, 2021 at 8:26 PM Joe Lamson <joelamson49@icloud.com> wrote:

A Free Conference Committee for HB506 meets 8 AM tomorrow morning. The Republicans are going to offer an unrelated amendment that once again unconstitutionally tries to put the Legislature into the redistricting process. The Constitution is clear. The Commission is the sole entity with the power to draw congressional districts. In fact it out lines no formal role at all for the legislature in congressional redistricting.

I just read this and saw that we have a "100-plus-year history" of a prairie district and a mountain district. I was mistakenly under the impression that we had only had one at-large district for the last 30 years. Glad I'm up to speed now 🙄 That must be a top talking point of theirs since Zinke used it a week or two ago. I'll be interested to have them explain to me how Bozeman is a prairie community. Maybe I'll walk out in my front yard and do a panorama to show them all of the mountain ranges surrounding me.

On Apr 26, 2021, at 1:47 PM, Kendra Miller <kjaniceh@gmail.com> wrote:

MDP Executive Board Members and Partners,

The Census Bureau announced apportionment numbers for the House of Representatives today and Montana will have two congressional seats for the next ten years. Doubling our representation in the House means representation on more committees and two voices to speak for our diverse communities and unique interests spread across our vast state.

Looking at the nation as a whole, the 2020 Census figures will result in 7 seats shifting among 13 different states. Six states gained congressional seats, with Texas gaining two and Montana, Oregon, Colorado, North Carolina, and Florida each gaining one seat.

<Apportionment.png>

Though the statewide total population figures needed to calculate apportionment are official and final today, the Census block-level data needed for redistricting purposes won't be released until August. This is the normal process and timeline of the Census Bureau to release the final statewide numbers prior to running additional quality checks on the in-state block-level data and applying differential privacy measures to the data that will be used to draw congressional and legislative districts. While the Districting and Apportionment Commission has work to do before August, the process of dividing the state into two equal population congressional districts can't happen until we receive the block-level redistricting data. Once we receive that data, the Montana Constitution provides 90 days for the Commission to adopt congressional districts. That means the two congressional districts will be in place by November 2021 for the 2022 election.

Legislative redistricting is on a separate timeline laid out in the Montana Constitution. Though we'll have the data needed to draw legislative districts in August, a new legislative map won't be adopted until early 2023 for the 2024 election. That means legislative races in 2022 will happen on the current legislative map, but new legislative districts will be in place for the 2024 election.

We'll have more news soon about the Districting and Apportionment Commission's meeting schedule over the next few months. To sign up for e-mail notices about Districting and Apportionment Commission business, [use this link](#). In the meantime, please feel free to reach out with any questions.

Good morning,

I want to touch base on a couple of issues before next week's meeting. A questions arose about maps submitted without the deviation being provided and the ability to get this information. If either party wants to know the deviation of a map, that they may wish to bring forward for public comment, but currently the information is not available, they can request that the staff reach out to the individual submitting the map to request deviation information on the identified map. Given the number maps received, I would only expect this request to occur for maps where there is interest in possibly bringing this configuration forward if the deviation is within an acceptable range.

I am hoping that each side can narrow the number of maps that they would like to receive public comment on to no more than 10 after the meeting next week. Ideally it would be fair fewer than that to allow for meaningful comment on the maps identified for public comment but I appreciate there are numerous variations of how the state should be split in two so selection may be difficult.

Subject: Montana Districting Litigation History

Maylinn,

Attached is the memo I wrote concerning the litigation history reaffirming the Commission's authority and independence from the Legislature.

I thought last week's webinar was one of NCSL's best. I am sure we'll never forget the strangeness of being in the webinar discussing the very foundations and basis of our democratic republic while Trump mobs stormed the Capitol.

Looking forward to our zoom call.

Take care.

Joe

Here's the election data Nelson gave us on the GOP Redistricting Committee's map. Can't tell if it's exactly the same as CP 1 that Dan proposed or not but looks to be. I thought Nelson said he drew it on Dave's, but Dave's doesn't even have 2012 election data. Wonder who drew it. The National Republican Gerrymandering Trust? That would explain why they are convinced that Bozeman has such a strong community of interest with the rural Eastern prairies. You might think that if you've never stepped foot in Montana.

I sort of feel like I am in a hurry up and wait pattern on census data. Is there some way this information gets disseminated to the general public from the commission?

Maylinn

On Wed, Jan 27, 2021, 1:20 PM Joe Lamson <joelamson49@icloud.com> wrote:

Today's Zoom call with the Census announced the new date for release of the official congressional apportionment data by April 30. The earliest they are projecting we receive the data to start drawing a new district would be sometime in August. That would trigger Montana's constitutional requirement to produce a new congressional district plan 90 days after the arrives. So hearings and work would be done optimistically sometime in September through late November.

Supreme Court upholds Arizona voting

Supreme Court upholds Arizona voting laws a lower court found were unfair to minorities

The justices reviewed two laws in Arizona that a lower court said hurt minority voters in the state, even though they are widely used elsewhere in the country. One throws out the ballots of those who vote in the wrong precinct, even if some races — such as for governor or president — are not dependent on precinct location. The other restricts who may collect ballots cast early for delivery to polling places, a practice detractors call “ballot harvesting.”

I think having public comment with each topic works better. Allows people wanting to make comments on specific area some flexibility instead of having to sit through the whole meeting. My experience has found it also tends to add focus to the comments.

I would like to address this question to Ginger. In the past legal challenges to the Districts drawn by the Commission who acted as counsel for the commission or whoever was named as defendant in the challenge and who made the decisions on directing the defense of the litigation? Am interested in the history of this since we have some, as well as any laws of Montana that would cover the subject.

Thank you.

Hello Commissioners,

Additional materials for your Tuesday meeting are now posted online at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>. Also, you'll be meeting in Room 102 of the Capitol.

The posted materials include:

- Draft timelines for congressional and state legislative redistricting
- The redistricting criteria materials you received at prior meetings
- A document with the past commission's operating procedure guiding public map submissions and some suggested changes should you wish to use the previous procedure as a starting point for adopting your own procedure

We'll have printed copies of the materials for you on Tuesday. If you have questions, please give me a call.

Sincerely,

Rachel Weiss

>

> I am hoping there might actually be some redistricting data in the near future. Two issues that have been raised in conversations I have had about redistricting work over the last couple of months involves establishing the criteria for what must be included in any proposed maps submitted in connection with this process and criteria for determining how the districts associated the hold over senator's should be handled.

>

> I am guessing they are other broad criteria type issues that the commission can consider before the redistricting process begins in earnest. Can you please let know what additional topics we can consider at a meeting that does require having the block data? I would like to schedule a meeting some time in May and wanted there to be sufficient to get an agenda and notice out.

>

> Looking forward to finally having a meeting to begin the redistricting discussion!

Agree.

On Jul 17, 2021, at 11:51 AM, Kendra Miller <kjaniceh@gmail.com> wrote:

In this [Legal Memo](#), our legislative staff attorney discusses the defending of Commission plans on pages 32 and 33.

In any event, unlike at the district court level, at the Montana Supreme Court, the Attorney General is statutorily required to "defend all causes in the supreme court in which the state or any officer of the state in the officer's official capacity is a party or in which the state has an interest."

Given that the AG is statutorily required to defend the work of the independent redistricting commission before the Montana Supreme Court, it seems inappropriate for him to thrust his extremist political ideology into this realm. Maybe he's unaware of his statutory obligations.

Regardless, I think it's clear that the AG's contempt for public comment that doesn't align with his "red wave" goals for our state makes him incapable of putting politics aside to do his job.

Subject: Today's Census Call, 4/23
Date: April 23, 2021 at 12:24 PM
To: Maylinn Smith arl4435blackfoot@gmail.com

The teasers continue.

Sometime today they will announce which day next week they will release the apportionment data and whether we get the new district.

They also said the "official" date for the release of the full 2020 Census data will be no later than Aug. 16. That will trigger Montana's constitutional requirement that a new congressional district plan be completed in 90 days.

Stay tuned.

Joe

Thanks Rachel. It worked.

One other quick question. I am looking for a copy the Jan. 20 House floor vote from Order of Business #9, the second motion to add Rep. Buttrey to the rules committee, passed 66-34. It was at 14:01 on the video.

Thanks.

Joe

Today's Zoom call with the Census announced the new date for release of the official congressional apportionment data **by April 30**. The earliest they are projecting we receive the data to start drawing a new district would be sometime in August. That would trigger Montana's constitutional requirement to produce a new congressional district plan 90 days after the arrives. So hearings and work would be done optimistically sometime in September through late November.

Hi Joe, I wonder if you might have a few minutes this week to talk about the redistricting commission. I'm just trying to get a sense of what we need to be monitoring as we get closer to having good census data. We were very involved in the Census and looking forward to those results. Obviously our interest is in a nonpartisan redistricting process... and I wonder if you have any insight as to how things might play out. I appreciate it - Liz

Subject: RE: Block-Level Census Data Released in August

Hello Kendra,

Thanks for reaching out. I hope all's well in Helena.

The data format that is being released in late August is the same format the data was in during the last decade, so if you have any data folks on staff who did redistricting ten years ago, they will be familiar with the format and should be able to use it without issue. In terms of data quality, it's identical to the data that will be released by September 30—no difference in the numbers. Only the format is different. Wendy or Christi can chime in if I've missed any finer details.

Incidentally, we're having a discussion about this later today on our biweekly "Office Hours" call. If you'd like to join, you can do so by clicking at the link below. The call starts at 1pm MT:

<https://ncsl.zoom.us/j/93456701747?pwd=QjRkTkZEV0hUeGYwUUpOeiRlZFlaQT09#success>

The discussion will be led by Kim Brace of Election Data Services. He's on a Census advisory board and has regular contact with James Whitehorn and other staffers at the Bureau. He'll take questions at the end of his presentation.

Would you be able to attend? We typically do not record office hours calls to facilitate a better conversation—some folks are more willing to ask questions if they know they won't be published online later.

I hope this helps!

Best,

Ben

P.S.: Hello Commissioner Lamson! I hope you're well.

Subject: [EXTERNAL] Block-Level Census Data Released in August

Wendy, Christi and Ben,

I wanted to reach out about the timing of the release of the PL 94-171 data set. I've cc'd Joe Lamson, one of my colleagues on the Montana redistricting commission. Like everyone following the Census saga from a redistricting perspective, I recently saw via court documents that it appears some form of the block-level redistricting data may be available in mid to late-August (prior to the official data release September 30th). I've tried to research a little, but it's very unclear to me what that format is and whether it would be useable or carry a higher risk of error than the format released at the end of September. I don't believe the Census Bureau has put out a formal statement, so part of the problem is likely that this information is coming out through court documents, and I'm hoping that the Bureau will further clarify. Does NCSL have any information on how the August data format differs from the Bureau's planned release at the end of September? If not, as I know this is a developing story, do you think NCSL will have a call to explain and discuss this once the Bureau releases more information?

I have really appreciated the Census update calls that you host, hearing from James Whitehorn, etc. I think more clear information from the Bureau on this August release of the block-level data would be very helpful to redistricters. I recognize there is an ongoing legal battle, so maybe they aren't willing to discuss the issue at this point in time. But as more information comes to light, it would be extremely helpful if we could get clarity on how useable the August data will be. It seemed to me that the Census Bureau didn't really want redistricters using the August data or they would have given that as the expected release date rather than September 30th. If they don't want states using that format, I assume there's a good reason and it would be helpful to understand their perspective and recommendations.

Thanks for all you do to keep up informed. This is my first redistricting cycle hearing from NCLS. I'm sure your support and guidance is helpful in all redistricting cycles, but I can't imagine a cycle where states are more in need of NCSL than 2020. The Census saga continues...:) Thanks for being so prompt in passing along the latest information!

Subject : Block-Level Census Data Released in August**To :** wendy.underhill <wendy.underhill@ncsl.org>, christi.zamarripa <christi.zamarripa@ncsl.org>, Ben Williams <Ben.Williams@ncsl.org>**Cc :** Joe Lamson <joe.lamson@mtleg.gov>

Wendy, Christi and Ben,

I wanted to reach out about the timing of the release of the P.L. 94-171 data set. I've cc'd Joe Lamson, one of my colleagues on the Montana redistricting commission. Like everyone following the Census saga from a redistricting perspective, I recently saw via court documents that it appears some form of the block-level redistricting data may be available in mid to late-August (prior to the official data release September 30th). I've tried to research a little, but it's very unclear to me what that format is and whether it would be useable or carry a higher risk of error than the format released at the end of September. I don't believe the Census Bureau has put out a formal statement, so part of the problem is likely that this information is coming out through court documents, and I'm hoping that the Bureau will further clarify. Does NCSL have any information on how the August data format differs from the Bureau's planned release at the end of September? If not, as I know this is a developing story, do you think NCSL will have a call to explain and discuss this once the Bureau releases more information?

I have really appreciated the Census update calls that you host, hearing from James Whitehorn, etc. I think more clear information from the Bureau on this August release of the block-level data would be very helpful to redistricters. I recognize there is an ongoing legal battle, so maybe they aren't willing to discuss the issue at this point in time. But as more information comes to light, it would be extremely helpful if we could get clarity on how useable the August data will be. It seemed to me that the Census Bureau didn't really want redistricters using the August data or they would have given that as the expected release date rather than September 30th. If they don't want states using that format, I assume there's a good reason and it would be helpful to understand their

MT-MDAC-21-1688-B-000113

perspective and recommendations.

Thanks for all you do to keep up informed. This is my first redistricting cycle hearing from NCLS. I'm sure your support and guidance is helpful in all redistricting cycles, but I can't imagine a cycle where states are more in need of NCLS than 2020. The Census saga continues...:) Thanks for being so prompt in passing along the latest information!

Hello all,

Sorry for the delay in sending this calendar out to you. I've added Commissioner Essmann's commitments. If you know of dates that don't work for your current plans feel free to send those to me. I'll add them to the calendar. As much as possible, I'll use Doodle polls to give the Presiding Officer details on what dates/times are best for specific meetings. This calendar just helps us start narrowing down potential dates. Also, staff is mostly keeping October through December free to account for the 90-day congressional timeline.

Thanks and let me know if you have questions.

Sincerely,

Rachel Weiss

Good to hear from you, Commissioner Essmann. Hope you and everyone else on the chain are well. I'm very flexible May through August. Rachel, I'm sure you're swamped right now with the session, but would it be possible to get one of those calendars circulated like you did last year with dates blocked out that staff and commissioners are unavailable? With legislative staff working overtime during the session, I expect that you will have all earned some well-deserved vacation time that you're using throughout the summer. I thought that calendar was a good starting point when we were planning our previous meetings.

Dear Chair and Commissioners,

I am writing to urge us to start working on a schedule for meetings for the Commission to set criteria for our congressional and legislative redistricting efforts.

At Kendra's suggestion the Commission had decided that we needed to hold hearings and adopt criteria prior to the receipt of data. Now that the Census Bureau has decided to issue data in mid August our time is getting limited.

Even though the data will not be in final format in August, I believe we should have our criteria set before then. With the stakes so high, it is best that the decisions on criteria be made based on policy rather than an attempt to game the system. I hope that remains our mutual goal.

I have informed Rachel of one travel commitment I made prior to this recent Census announcement, but I expect we will all be facing those issues soon.

So I urge the Chair to begin the process of allowing us to put together a schedule so we can begin our work. I look forward to hearing from you all.

Thank you.

Commissioner Jeff Essmann

Subject: Re: Spring and Summer meeting schedule

Good to hear from you, Commissioner Essmann. Hope you and everyone else on the chain are well. I'm very flexible May through August. Rachel, I'm sure you're swamped right now with the session, but would it be possible to get one of those calendars circulated like you did last year with dates blocked out that staff and commissioners are unavailable? With legislative staff working overtime during the session, I expect that you will have all earned some well-deserved vacation time that you're using throughout the summer. I thought that calendar was a good starting point when we were planning our previous meetings.

Subject: Spring and Summer meeting schedule

Dear Chair and Commissioners,

I am writing to urge us to start working on a schedule for meetings for the Commission to set criteria for our congressional and legislative redistricting efforts.

At Kendra's suggestion the Commission had decided that we needed to hold hearings and adopt criteria prior to the receipt of data. Now that the Census Bureau has decided to issue data in mid August our time is getting limited.

Even though the data will not be in final format in August, I believe we should have our criteria set before then. With the stakes so high, it is best that the decisions on criteria be made based on policy rather than an attempt to game the system. I hope that remains our mutual goal.

I have informed Rachel of one travel commitment I made prior to this recent Census announcement, but I expect we will all be facing those issues soon.

So I urge the Chair to begin the process of allowing us to put together a schedule so we can begin our work. I look forward to hearing from you all.

Thank you.

Commissioner Jeff Essmann

Chair and all,

I think Kendra has made excellent suggestions on how to approach our duties, particularly on the formatting of public submissions item. I hope we can get a timeline for 2021 and 22 in rough shape soon.

For now I am hoping we can set meetings for May : organizational, June: propose options on criteria and request public feedback on same, and July: decisions on criteria.

Looking forward to getting back to work.

Subject: Re: Redistributing meeting

Hi All,

I think a May meeting to discuss criteria and how we will solicit criteria testimony from the public would be very helpful. In addition to criteria, I think it would be helpful to have an agenda item related to timeline and how/when we will hold meetings for the remainder of the year. A year ago, we had a general timeline in place based on when the Census data would be released. That has obviously been completely upended, so I think it would be good to revisit our timeline and make sure everyone is on the same page about when we will solicit public testimony on potential redistricting criteria, and if we get two congressional seats, when we will hold public hearings on maps. I don't expect that we have to nail down exact dates that are months away, but I would find it helpful for planning purposes if we know we are getting block-level data in August and plan to hold public hearings in say October (or whatever everyone thinks makes sense). From the calendar Rachel circulated, it looked like June was pretty open, so maybe that would work for a public hearing(s) on criteria. I think it would also be helpful to determine the format of those public hearings. Since the legislative session was completely revamped to deal with the COVID pandemic, Rachel and Joe Kolman seem like the perfect experts to let us know what's possible and practical.

Lastly, I think it would be helpful to start working on language that we can post to the Commission website describing the technical requirements we would like members of the public to follow in submitting maps to the Commission. I would completely defer to Rachel and Joe on this since they will be the ones getting the maps through the Commission's email, but I think it's important to plan and prepare for maps to be electronically submitted by the public this cycle. For example, if we require or encourage publicly submitted maps to be block-equivalency files or shape files, then I think we should say that up front so we don't get maps in formats that are hard for Rachel and Joe to deal with. I'm sure Rachel and Joe have some thoughts on this based on last cycle because they did get a few shapefiles, but with advances in free, publicly-available mapping software, I assume that the number of maps submitted this cycle will increase exponentially. Thus, I'd rather lay out some written requirements or recommendations up front before we start getting all kinds of maps from the public and then have difficulty viewing them all (or inundate Rachel and Joe with files that are time-consuming to deal with in order for the Commission to view them in a useable way). This is definitely something that every state is preparing for and will need to deal with, so if NCSL has language we could use as a starting point, I think that would be great. Again, Rachel and Joe are probably the best people to tell us what they need for electronically submitted maps, but I think it would be great to add this to the agenda and then, ultimately, have the Commission formally adopt something that can be published on the website.

So, Chairwoman Smith, those would be my few suggested items to add to the agenda if you feel they are all relevant: 1) general criteria discussion, 2) public hearings/soliciting public testimony on criteria, 3) an updated timeline for the redistricting process (especially through 2021), and 4) establishing technical requirements for publicly submitted maps.

Looking forward to seeing everyone again next month!

Subject: Redistributing meeting

Good Evening all,

I am hoping there might actually be some redistricting data in the near future. Two issues that have been raised in conversations I have had about redistricting work over the last couple of months involves establishing the criteria for what must be included in any proposed maps submitted in connection with this process and criteria for determining how the districts associated the hold over senator's should be handled.

I am guessing they are other broad criteria type issues that the commission can consider before the redistricting process begins in earnest. Can you please let know what additional topics we can consider at a meeting that does require having the block data? I would like to schedule a meeting some time in May and wanted there to be sufficient to get an agenda and notice out.

Looking forward to finally having a meeting to begin the redistricting discussion!

I would like to schedule a meeting some time in May and wanted there to be sufficient to get an agenda and notice out.

Looking forward to finally having a meeting to begin the redistricting discussion!

Dear Mr. Wright,

Thank you for your suggestions. The Committee will discuss them at the first meeting we are able to schedule, hopefully in May after the legislative session has concluded.

Dear 2020 Commissioners,

My name is John Wright and I applied for the Chairperson position on your commission in the past when I taught in Cascade. I will be moving back to Montana from Arizona to teach and hope these ideas will help you along the way of creating legislative and congressional maps.

1. I liked the idea of lowering the deviation of 5% per district to 3% in 2010 and hope that continues in 2020.
2. It might be advantageous to only have ONE MAP using the current legislative districts as a template with modifications from the 2020 Census BEFORE public testimony, like the Existing Plan in 2010. The reason being is it would prevent people reading from a partisan card at the public meetings saying partisan talking points for the Democrat and Republican plans. I saw this being done at the Great Falls meeting in 2012. It is essential for citizens to speak from the heart and not from a Democrat or Republican card.
3. The 2020 (Existing Plan) Map should be modified AFTER public testimony is over. This way the commission will not act as a mini-legislature using partisanship to redraw lines in their favor. The committee members should not find ways to gerrymander or cheat the other side in future elections, which is against the spirit of the Montana Constitution.
4. If we get an extra House district (crossed fingers) there should be one North-South Map and one East-West Map for public comment. Each map would be created by one Democrat and one Republican to ensure bipartisanship. This way you should know which map is preferred by most citizens and how the districts should be drawn based on unbiased public testimony.

Thank you for your time and feel free to email me if you have any further questions.

Sincerely,
Mr. John Wright

Commissioner Lamson,

Is this the MindCentric logo you are referencing? (Hopefully the logo comes through in this email. If not, let me know)

If so, that is the correct logo for MindCentric's login.

If you have further questions or need more information, please contact me.

Thank you,
 Jeff

Hello Joe,

Thanks for the heads up. MindCentric is the company that runs the program we use for the legislative emails (the Mtleg.gov ones). "Runs" being a layman's term. But it sound kosher to me. I've ccd Jeff Thomas, who knows the email stuff backwards and forwards just in case I've missed something.

Thanks for letting us know. It's always better to check I think.

Subject: [EXTERNAL] Mind Centric?

Rachel,

I noticed when I log in or go to our leg mail box, there's new logo for "Mind Centric." Is this kosher?
 Our site seems to be a constant target for hackers, so I thought I'd check.

Hope you're getting some well earned rest.

MT-MDAC-21-1688-B-000134

Joe
Legislators are publicly elected officials. Legislator emails sent or received involving legislative business may be subject to the Right to Know provisions of the Montana Constitution and may be considered a "public record" pursuant to Montana law. As such, email, sent or received, its sender and receiver, and the email contents, may be subject to public disclosure, except as otherwise provided by Montana law.

Commissioner Lamson,

Is this the MindCentric logo you are referencing? (Hopefully the logo comes through in this email. If not, let me know)

If so, that is the correct logo for MindCentric's login.

If you have further questions or need more information, please contact me.

Thank you,
Jeff

Hello Joe,

Thanks for the heads up. MindCentric is the company that runs the program we use for the legislative emails (the Mtleg.gov ones). "Runs" being a layman's term. But it sound kosher to me. I've cc'd Jeff Thomas, who knows the email stuff backwards and forwards just in case I've missed something.

Thanks for letting us know. It's always better to check I think.
Rachel

Dear Joe,
 Thank you for your prompt reply.
 The Montana Constitution is somewhat vague on redistributing details. Montana HB 506 clarifies what the public understands to be a fair process. Please give that law due consideration too.
 Thanks.
 Joe

Commissioners,

I am writing to remind you that the law (MCA 5-11-115) and the Montana Constitution and the recently passed and signed HB 506 REQUIRE you to set district boundaries with the following criteria:

- 1) The districts must be Compact & Contiguous Territory
- 2) The population of the districts must be "as equal as possible" That is there should be less than 1% difference in population from district to district.

I also demand that you set the congressional districts using the same criteria as for legislative districts.

It is your obligation and charge to follow the Montana Constitution and State law.

Please do not neglect your duty or engage in political schemes and gamesmanship.

Sincerely,
 Joseph O'Rourke

Dear Commissioner,

Montana voters are paying attention and hope we see fair district boundaries that are a Compact & Contiguous Territory with less than 1% deviation in population. Please follow HB 506 recently signed into law by the governor.

Voters want election integrity and fairness.

Thank you.

Hello Commissioner Lamson: I report on Congress and elections for the Washington-based Bloomberg Government publication. I'm writing a story this week about congressional redistricting in Montana, noting how the 2021 map will be the first drawn since the 1980s.

I'd welcome speaking with you for this story about how the redistricting commission works, why Montana draws lines through a commission instead of by the legislature, what's been discussed at your public meetings to date, the timetable for drawing Montana's 2 congressional districts, and the criteria for drawing the two congressional districts.

Thank you for your consideration.

Sincerely,
Greg Giroux

Commissioners,

Integral to the process is meeting with the public throughout the period we receive the Census data to gather their ideas, suggestions, and build then into our 100 district map proposals for the public hearings next Spring. That's our job as commissioners.

Commissioners,

I was hoping to hear from the public and view their maps before we started drawing, not after.

But perhaps we can come up with new model that accomplishes the goals of both. I just hate to start with a fait accompli.

Commissioner Jeff Essmann

Subject: Re: Proposal for Step by Step Process for drawing Legislative Districts

Madam Chair and Fellow Commissioners,

I thought we have discussed this at previous meetings. I was under the impression we were leaning towards use the 2010 "Joe Kolman solution" where different map options for all 100 districts are drawn at once. Each 100 district map option emphasized different themes, and were followed by around 15 regional public hearings. The five different 100 district map themes included options emphasizing political subdivisions, one for the urban/rural split, one for existing districts, one for zero population deviations and one for communities of interest.

This is a highly transparent approach and provides the public with all the information so they can see all the aspects of different map proposals. Of course most people will focus on their specific areas when we hold hearings in different regions. Having different 100 district option proposals lays all the cards on the table up front and removes a good deal of the suspicions. It worked very well in 2010. After the hearings were completed the commission then met for an August week long public work executive session to develop the final plan for the 100 districts.

With all due respect Commissioner Essmann's proposal would return to the piece meal approach used by commissions prior to 2010. The serious downside of that approach was people were very suspicious as to why their specific areas weren't being addressed along side with other regions. They were fearful of the ripple effects caused by early decisions in different areas would preclude options when their areas were considered. This approach significantly added to a lot of public rancor because people really didn't like other areas taking priority over their areas. The "Kolman solution" removed these problems and long nonproductive discussions about where to start drawing districts

The "Kolman solution" was a simple and elegant solution. It removed the rancor and suspicions. It was very doable. We started out the public hearings with five different 100 map versions that presented different approaches by different commissioners and clearly laid out what all the ripple effects so the public could see options for their local areas as well as the big picture.

It was an excellent approach that worked and let people focus on specific areas. It's not broke and I would hope is used again.

Thanks for considering my two cents.

Subject: Proposal for Step by Step Process for drawing Legislative Districts

Madame Chair and Fellow Commissioners,

At our June 10 meeting we put off discussing in detail what we wanted from the public in terms of maps for our redistricting effort at my request. I wanted to offer for your consideration a step by step process for drawing legislative districts as we approach our July 8 and 9 meeting. Here is my proposal:

1. The first districts to be drawn would be the Voting Rights Act districts to comply with Section 2 of the Voting Rights Act. They would, of course, be drawn according to the mandatory and discretionary criteria the most important of which is the VRA. I believe I heard that the state of Oregon was also taking this approach.
2. The second set of districts to be drawn would be the six largest urban/suburban counties in order of descending size: Yellowstone, Missoula, Gallatin, Flathead, Cascade, and Lewis and Clark. The goal would be to draw as many districts as possible respecting city limits, then draw suburban districts being informed by the independent school districts, and if there is population remaining, leave that in a unit in the most rural region of the county to be dealt with as part of the rural districting effort.
3. The final set of districts to be drawn would be the rural districts starting at one of the corners of the state as in the past. I would suggest that we review how the current districts look from an over/under ideal population in order to decide at which rural point to start our effort.

This approach would have the advantage of breaking a large task into smaller logical pieces that the public can engage with more easily, especially if they wish to only offer maps of the region with which they are familiar. And it would allow the Commission and the public to focus on smaller maps in a manageable analytical fashion rather than the state as a whole.

Thank you for considering this proposal. I look forward to a good discussion.

Commissioner Jeff Essmann

Legislators are publicly elected officials. Legislator emails sent or received involving legislative business may be subject to the Right to Know provisions of the Montana Constitution and may be considered a "public record" pursuant to Montana law. As such, email, sent or received, its sender and receiver, and the email contents, may be subject to public disclosure, except as otherwise provided by Montana law.

Commissioners,

I was hoping to hear from the public and view their maps before we started drawing, not after.

But perhaps we can come up with new model that accomplishes the goals of both. I just hate to start with a fait accompli.

Commissioner Jeff Essmann

 Subject: Re: Proposal for Step by Step Process for drawing Legislative Districts

Madam Chair and Fellow Commissioners,

I thought we have discussed this at previous meetings. I was under the impression we were leaning towards use the 2010 "Joe Kolman solution" where different map options for all 100 districts are drawn at once. Each 100 district map option emphasized different themes, and were followed by around 15 regional public hearings. The five different 100 district map themes included options emphasizing political subdivisions, one for the urban/rural split, one for existing districts, one for zero population deviations and one for communities of interest.

This is a highly transparent approach and provides the public with all the information so they can see all the aspects of different map proposals. Of course most people will focus on their specific areas when we hold hearings in different regions. Having different 100 district option proposals lays all the cards on the table up front and removes a good deal of the suspicions. It worked very well in 2010. After the hearings were completed the commission then met for an August week long public work executive session to develop the final plan for the 100 districts.

With all due respect Commissioner Essmann's proposal would return to the piece meal approach used by commissions prior to 2010. The serious downside of that approach was people were very suspicious as to why their specific areas weren't being addressed along side with other regions. They were fearful of the ripple effects caused by early decisions in different areas would preclude options when their areas were considered. This approach significantly added to a lot of public rancor because people really didn't like other areas taking priority over their areas. The "Kolman solution" removed these problems and long nonproductive discussions about where to start drawing districts

The "Kolman solution" was a simple and elegant solution. It removed the rancor and suspicions. It was very doable. We started out the public hearings with five different 100 map versions that presented different approaches by different commissioners and clearly laid out what all the ripple effects so the public could see options for their local areas as well as the big picture.

It was an excellent approach that worked and let people focus on specific areas. It's not broke and I would hope is used again.

Thanks for considering my two cents.

Troy Libby Chapter

July 6, 2021

Commissioners Marylinn Smith, Jeff Essmann, Joe Lamson, Dan Stusek, and Kendra Miller:

We would like to thank Mr. Lamson for his response to our letter dated June 30, 2021, regarding the redistricting of Montana.

We have re-read the 1972 Montana Constitution and to his point; Article V, Section 14 (1) states in part:

"Each district shall consist of compact and contiguous territory. All districts shall be as nearly equal in population as is practicable."

This reinforces our position that Montana can only be divided North/South or West/East and furthers our point that the division should closely resemble the maps we previously provided, based on the current population of Montana's Counties.

We look forward to seeing the commission's proposal when it is available for public comment, which follows the Montana Constitution, Montana State Law, and does not divide counties within Montana.

Thank you,
Mitchell Walters
Troy Libby JBS Chapter Leader

Mr. Walters,

Thank you for sharing the thoughts of the Libby John Birch Society. I appreciate the time and thought that obviously went into them.

I have always found the Society to be strict constitutionalists. I would urge you to reread Article V section 14 of the Montana Constitution. The Constitution clearly vests all redistricting authority for preparing legislative and congressional districts with the independent, five citizen commission. The constitution assigns two specific roles for the legislature in the redistricting process. They appoint four of the commissioners and can make recommendations to the commission. The legislature has no constitutional authority to pass laws dictating how the commission draws the districts.

Since 1973 the independence of the commission has been consistently upheld in Attorney Generals opinions, three district court cases and two unanimous supreme court decisions.

Thanks again for your suggestions. Don't hesitate to share your comments as we continue the redistricting process.

Best regards.

Joe Lamson
Commissioner

Troy Libby Chapter

June 30, 2021

Commissioners Marylinn Smith, Jeff Essmann, Joe Lamson, Dan Stusek, and Kendra Miller:

I am writing on behalf of the Troy Libby Chapter, John Birch Society, located in Lincoln County Montana. We are very concerned about some of the current proposals for redistricting, in that they do not follow Montana law and are a clear attempt to gerrymander the districts in our State.

Our goal is to see that our elected officials and their appointments follow the laws, rules, and procedures that they created. We were disappointed that the Montana Supreme Court did not allow for public comment on the appointment of the commission's Presiding Officer; nevertheless, we expect that your commission will consider these two sections of the Montana Code Annotated very carefully:

5-1-115. Redistricting criteria Section 2,

(a) The districts must be as equal as practicable, meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census. The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

Although, "the ideal population" is up for interpretation, we believe that each district must closely represent 50% of Montana's population, within 1% relative deviation, and section (d) states that the districts must be compact. Therefore, with only two districts, your commission has only two options; one that bisects the state North and South or one that bisects the state West and East. To create lines across this state in any other grouping is clearly violating Montana State law.

We have researched Montana's population, as of 2021, and believe that the only fair and equitable solution is either;

1. North/South District, which utilize current county lines (please see attachment 1.) North population of 546,929 and South with a population of 538,075, the difference of 8,854 and a relative standard deviation of 0.816%.
2. West/East District, utilizing current county lines (please see attachment 2.) West population of 537,789 and the East with a population of 547,215, difference of 9,426 and a relative standard deviation of 0.869%

Finally, we look forward to seeing your commission's proposal when it is available for public comment, which follows Montana State Law and does not divide counties within Montana.

Thank you,
 Mitchell Walters

Mr. Walters,

Thank you for sharing the thoughts of the Libby John Birch Society. I appreciate the time and thought that obviously went into them.

I have always found the Society to be strict constitutionalists. I would urge you to reread Article V section 14 of the Montana Constitution.

The Constitution clearly vests all redistricting authority for preparing legislative and congressional districts with the independent, five citizen commission. The constitution assigns two specific roles for the legislature in the redistricting process. They appoint four of the commissioners and can make recommendations to the commission. The legislature has no constitutional authority to pass laws dictating how the commission draws the districts.

Since 1973 the independence of the commission has been consistently upheld in Attorney Generals opinions, three district court cases and two unanimous supreme court decisions.

Thanks again for your suggestions. Don't hesitate to share your comments as we continue the redistricting process.

Best regards,

Joe Lamson
 Commissioner

Troy Libby Chapter

June 30, 2021
 Commissioners Marylinn Smith, Jeff Essmann, Joe Lamson, Dan Stusek, and Kendra Miller:

MT-MDAC-21-1688-B-000160

I am writing on behalf of the Troy Libby Chapter, John Birch Society; located in Lincoln County Montana. We are very concerned about some of the current proposals for redistricting, in that they do not follow Montana law and are a clear attempt to gerrymander the districts in our State.

Our goal is to see that our elected officials and their appointments follow the laws, rules, and procedures that they created. We were disappointed that the Montana Supreme Court did not allow for public comment on the appointment of the commission's Presiding Officer; nevertheless, we expect that your commission will consider these two sections of the Montana Code Annotated very carefully:

5-1-115. Redistricting criteria Section 2,

- (a) The districts must be as equal as practicable, meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census. The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.
- (d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

Although, "the ideal population" is up for interpretation, we believe that each district must closely represent 50% of Montana's population, within 1% relative deviation, and section (d) states that the districts must be compact. Therefore, with only two districts, your commission has only two options; one that bisects the state North and South or one that bisects the state West and East. Dear Commissioner Joe Lamson,

As a Montanan and as an American, I am committed to our system of representative democracy. Our system does not work when it is biased against certain voters. Please take great care in drawing Congressional district boundaries that are fair. It is really important to me that you draw boundaries that respect the Voting Rights Act, especially as it relates to the rights of Indigenous Montanans to elect representatives of their choosing. I also ask that you support a 5% deviation standard between districts as a MANDATORY criterion as supported by federal law. The commission can use this to account for oddities in the 2020 census data that occurred as a result of the coronavirus pandemic. It is critically important that you support political fairness. Democracy does not work when one political party systematically disadvantages the other. Equally important is your support of political competitiveness. Make the politicians earn the votes by working hard to listen to potential constituents. Finally, please do not rank criteria so as to allow for flexibility in meeting the needs of each district and to promote responsiveness to public input.

I appreciate your time and consideration.

Sincerely,
Roger Fischer

Dear Commissioner Joe Lamson,

MT-MDAC-21-1688-B-000163

To Whom it May Concern,

I am writing you as a concerned montanana to please support compliance with the Voting Rights Act (especially as it relates to the rights of indigenous Montanans to elect representatives of their choice) as a MANDATORY criterion in considering district boundaries.

Please support a 5% deviation standard between districts as a MANDATORY criterion, as supported by federal law, to allow the commission to account for oddities in the 2020 Census data caused by the global pandemic and to better respond to unique circumstances in local communities. This just plain makes sense!

Please support criteria of political fairness (ensuring the legislative balance of power reflects the state and does not unduly advantage one party), maintaining communities of interest (like tribal nations), and political competitiveness (ensuring candidates have to earn the votes of Montanans in their districts).

Please do NOT rank criteria so there is flexibility to balance the unique needs of each district and be responsive to public feedback. Ranking criteria prematurely will tie the commission's hands. This will not help out in a any way moving forward into the new year in Helena.

Sincerely,
Timothy Rooney

Subject: [spam]Please Use Fair Criteria in Creating Montana's Maps and Make Montanans proud

Dear Commissioner Joe Lamson,

I am a concerned Montana voter that asks / expects this commission to ensure compliance with the Voting Rights Act as a MANDATORY criterion in establishing and considering district boundaries. I am very concerned about the rights of Native Americans to be able to elect representatives of their choice. And with a member of Matt Rosendale's staff on this committee, and given Rosendale's voting record since taking office, I am hoping this commission will serve all Montanans and not a singular political party.
I ask that the Commission NOT rank the criteria so that there is maximum flexibility to balance each districts unique needs with public input. I also expect the Commission to support a 5% deviation standard between districts as a MANDATORY condition as supported in federal law, commission should work to account for issues associated with the odd situation of the global pandemic during the 2020 census, and ensure response to unique circumstances in local communities.
Please ensure political fairness through balance of legislative power reflecting our whole diverse state and does not unduly reflect one political party. Please maintain cohesiveness of tribal nations and other communities of interest as well as political competitiveness whereby candidates must earn the votes of Montanans in their district. I expect this commission to act in the respectable manner that the original 1972 Constitutional Convention did that set the course for a proud Montana foundation protecting working class Montanans and their way of life. Thank you, do good work!!!

Sincerely,
Kristin Jacobson

Dear Commissioner Joe Lamson,

I write today to address a few different points in regards to the Districting and Appointment Commission and the districting process. First, I voice my support for a 5% deviation standard between districts as a mandatory criterion of federal law to allow the commission to account for oddities in the 2020 Census data caused by the global pandemic and to better respond to unique circumstances in local communities. I also ask that you support criteria of political fairness, maintaining communities of interest (particularly tribal nations), and political competitiveness. Finally I ask that you do not rank criteria so there is flexibility to balance the unique needs of each district and be responsive to public feedback, as ranking criteria prematurely will tie the commission's hands.

Sincerely,

 Hello my name is Joe Cohenour, i was an elected school board trustee for 15 years and understand how difficult elections and (re)districting can be.

I believe that with the recent census and the difficulty getting an accurate head count in Montana we need to us the 5% deviation standard as a mandatory criterion (as supported by federal law).

MT-MDAC-21-1688-B-000165

We need to have the new legislative districts reflect current voting blocks of people, such as school districts, reservations, thus maintaining communities of interest.

Please keep an open mind when designing the districts until the end. We need flexibility throughout the selection process so each person equals one vote!

Sincerely,
Joe Cohenour

Subject: [spam]Develope Fair Criteria in Creating Montana's Maps

Dear Commissioner Joe Lamson,

I am writing today because I have spent the last half a decade becoming a scientist, I now work as a scientist in Montana. One of my favorite classes was on population studies and the bias our sampling methods can cause in data collection, which is expanded upon during our analysis. I have read quite a lot about redistricting and specifically gerrymandering and I am fearful that as a resident this redistricting can lead to gerrymandering intentionally or accidentally. As a scientist and resident I demand that all peoples of Montana be fairly and accurately represented at the state level. In furtherance of this goal please support a 5% deviation standard between districts as a MANDATORY criterion, as supported by federal law, to allow the commission to account for oddities in the 2020 Census data caused by the global pandemic and to better respond to unique circumstances in local communities. Additionally it is essential to remain flexible at this stage of the process so I request that you do NOT rank criteria so there is the ability to balance the unique needs of each district and be responsive to public feedback. Without these provisions i fear Montana residents will not be fairly represented and prematurely tie the commission's hands of we rank the criteria before we begin.

Sincerely,
Damion Lynn

Dear Commissioner Joe Lamson,

I'm excited, as I am sure you are, that Montana is getting a second congressional seat. As you consider drawing boundaries for both the House and legislative districts, I hope you will try to make them as fair as possible, so that they don't necessarily favor either party. Competitive districts will help us elect politicians who listen to all the voters, not just members of their own party. When it comes to state legislative districts, I hope you'll also make sure the districts respect the Voting Rights Act, allowing Montana Indians the ability to elect voices that best represent them.

Sincerely,
Martha Kohl

Dear Commissioner Joe Lamson,

Dear Commissioners,

Please do not rank the criteria that way each district can have flexibility in regard to meeting their unique needs and can respond to the public feedback they receive. Please support a 5% deviation standard between districts as a mandatory criterion. This will allow the commission to account for the oddities that occurred in the 2020 Census procedures and data because of the global pandemic. This is a better way to respond to the circumstances experienced in local communities. Thank for your attention to my concerns. Mary Brannin

Dear Redistricting Commission Chair Smith and Commission Members Stusek, Miller, Lamson, and Essmann,

First, I would like to thank you for your work tackling the challenges of dividing our large, sparsely populated state into two Congressional Districts.

Looking at the nine maps proposed by Commission members, I favor Proposal Number 8. My second choice is Proposal Number 4. I believe that Proposal Numbers 3 and 5 should not be considered for selection because the proposed division of Montanans not even equally represented doesn't make sense.

The main reason I ask Commission members to focus on Proposals 8 and 4 for serious consideration is because these two maps have been drawn in ways such that, not only are they population equal, but at least one of the two new districts for Congress in competitive districts would have to take seriously the responsibilities of listening to and fairly representing all of their constituents. Competitive districts will help ensure that candidates listen to Montanans, not outside interests more responsive to constituent requests for assistance and constituent voices and opinions than a Congressperson that assumes s/he is a shoo-in when running for election or up for re-election.

I realize that Proposals 2 and 6 also have one competitive district, but I strongly favor Proposal 8 because it is the most fair and most respectful of Native American voters who live on reservations. Proposal 8 has three of our state's seven Indian Reservations as a stronger voice than the Proposals where all the reservations are lumped into one non-competitive District. Proposal 4 at least has two reservations in a competitive district, making it acceptable but not as strong as Proposal 8.

Please select Proposal 8 for Montana's two new Congressional Districts. With Proposal 4 as a possible runner-up.

Thank you.

Adela Awner
1109 Delphinium Drive
Billings

Dear Members of the Redistricting Commission:

We wish to provide feedback on the maps you're considering for redistricting Montana to form two congressional districts. It is our hope that the districts created by the process are competitive and fairly drawn. It has come to our attention that versions 1, 3, 5, and 7 do not result in even one competitive district. Competitive districts are essential because they meet the requirements set up by your commission. Furthermore, they require the candidates to pay attention to the needs of all Montanans. Competitive districts are found in maps 8, 6, 2, 9, and 4. We would like to advocate for map 8. What we appreciate about map 8 is that one of the districts is quite competitive, both districts include tribes, both representatives would have to consider, follow, and support rural issues. We encourage you all to support a map that is competitive and thus gives all Montanans a chance to be represented in Congress. Thank you for your consideration and benefit from your decision to have all Montanans represented in Congress.

Respectfully yours,
Carol and Robert Rydell,

Redistricting Commission — comments for Oct 19 meeting

I have lived in in Gallatin County for 30 years, most of the time in a rural area of the county. I favor maps 8, 6, and 9 because these maps do not split Gallatin County and map 8 is drawn to include some tribal communities. It's desirable to enhance their voice and gain consideration from their representative. Maps 8, 6, and 9 place Missoula and Bozeman, with large college-age and young professionals, in the same district would best serve the common interests of the young, competitive politically which is desirable for constituents and encourages candidates to communicate with and listen to the views of constituents as they consider the ways to best serve the interests of within their constituents. Candidates diversity of viewpoints and perspectives. Election is likely to depend on the ability of candidates in competitive districts to best serve the interests of the entire district. Competitive districts encourage voters to critically consider candidates they represent.

I urge you not to choose any of the maps (1, 3, 5 & 7) that divide various sections of Gallatin County into two districts. These maps are inappropriate for the final map since Gallatin County is one of the largest counties in population and common interests. Also, the way these maps have been split, they are noncompetitive politically. I favor having at least one district where legislators need to pay attention to their constituents to earn their seat in Congress. Since political parties have the commission to dismiss consideration of the maps that split Gallatin County.

Dear Members of the Districting Commission:

I am a citizen of the state of Montana and I am submitting this email as my written testimony to express my opinion regarding the upcoming decision to be made by the Commission concerning the proposed Congressional Districts. I respectfully request it be made a part of the official record of the Commission and be considered during your deliberations. I have reviewed the various maps and believe that Map CP-1 <https://leg.mt.gov/content/Districting/Proposals/cp1-congressional-october-19.pdf> is the most appropriate choice for Montana in that it follows the law established in House Bill 506 (https://leg.mt.gov/bills/2021/HB0599/HB0506_X.pdf) passed during the most recent session of our Legislature.

Map CP-1 has the best configuration for compactness where the width and length of both districts are most equal. It has the minimal difference in populations between the two districts (plus or minus one). It divides the fewest number of counties (2). CP-1 is the only map that best follows the intent of HB 506, which is the express will of the citizens of Montana. I believe that our Congressional districts must be formulated in accordance with HB 506.

There is an attempt by members of the Commission to ignore the law and gerrymander the boundaries of the two Congressional districts. Map CP-1 best meets the criteria set out in law by HB506 submitted/created, five clearly violate HB 506 and favor the Democrats and disadvantage Republicans. This is blatant partisan gerrymandering and completely unacceptable. These maps are offensive to all Montanans who believe in fair play and the rule of law.

In light of the foregoing, I most strongly urge you to adopt the boundaries for our proposed Congressional Districts as outlined in Map CP-1 and in accordance with the existing laws of Montana. Thank you for your time and attention to my concerns.

Respectfully,

Dear Commissioner Joe Lamson,

As you continue work on the redistributing process, please keep the following things in mind to ensure that the boundaries created accurately reflect the diversity of our state:

- *compliance with the Voting Rights Act as mandatory criteria in creating district boundaries
- *account for the impact the pandemic had on the 2020 census but incorporating a mandatory 5% deviation standard between districts
- *political fairness to ensure that the districts reflect the diversity of our state
- *no ranking of criteria. If a criteria is important enough to be included, it should have equal weight.

Sincerely,
Leslie Dalbey

Dear Commissioner Joe Lamson,

PLEASE,

I am asking as a Montana voter to please be aware and conscientious about the redistricting process our great state will be undergoing.

This isn't about the Republicans versus the Democrats, instead it is about making sure all the communities are represented. I see a state full of diverse, competent, and concerned citizens, so do your job and include all Montanans in creating this new district.

Sincerely,

Colleen Kivi

Dear Commissioner Joe Lamson,

MT-MDAC-21-1688-B-000173

(Please support compliance with the Voting Rights Act (especially as it relates to the rights of indigenous Montanans to elect representatives of their choice) as a MANDATORY criterion in considering district boundaries.
Please support a 5% deviation standard between districts as a MANDATORY criterion, as supported by federal law, to allow the commission to account for oddities in the 2020 Census data caused by the global pandemic and to better respond to unique circumstances in local communities.
Please support criteria of political fairness (ensuring the legislative balance of power reflects the state and does not unduly advantage one party), maintaining communities of interest (like tribal nations), and political competitiveness (ensuring candidates have to earn the votes of Montanans in their districts).
Please do NOT rank criteria so there is flexibility to balance the unique needs of each district and be responsive to public feedback. Ranking criteria prematurely will tie the commission's hands.

It is my sincere hope that you will consider the people of Montana and not the parties. Party politics has no place in our everyday lives and it is no fun being used as pawns in those games.

Thank you very much for listening.

Sincerely,

Hey Joe,

Thanks again for taking time the other day to chat, it really helped me to better understand the process you and the commission are undertaking. That being said, I am extremely interested in doing a larger scale story diving into how you guys are approaching the creation of a new district, how it may look and what it looked like the last time we had two seats. I was hoping to join the meeting this Thursday in-person. Would it be possible to bring a photographer as well?

Thanks,
Alex

Hey Joe, I was curious if you guys have any old maps of how the districts used to look when the state had two seats. If you do, would it be possible to check them out?

Subject: Montana's Second Seat

Hey Joe,

Thanks again for taking time the other day to chat, it really helped me to better understand the process you and the commission are undertaking. That being said, I am extremely interested in doing a larger scale story diving into how you guys are approaching the creation of a new district, how it may look and what it looked like the last time we had two seats. I was hoping to join the meeting this Thursday in-person. Would it be possible to bring a photographer as well?

Thanks,
Alex

Ms. Dale,

Be assured I take my oath very seriously and have defended the Montana and US Constitutions throughout my working years.
It is a supreme honor bestowed by my fellow Montanans through our constitution.

The Montana Constitution is crystal clear. The legislature has only two roles in redistricting. They appoint four of the commissioners and can make recommendations to the commission on the final legislative plan. The legislature has no authority to pass laws dictating how the commission draws the maps.

Thanks for your continuing comments. I look forward to your continued participation.

Joe Lamson
Commissioner

Dear Commissioner,

MT voters are paying laser attention to what the districting and apportionment committee's is doing. We need you to FOLLOW the rules in place and NOT try to manipulate the rules and boundaries to favor one party or the other. It's time we have honest, fair elections. Voters are insisting on election integrity....beginning to end!

I am writing to remind you that the law (MCA 5-11-115) and the Constitution REQUIRE YOU to set district boundaries with the following criteria:

- Compact & Contiguous Territory
- Less than 1% difference in population

I also urge you to set the congressional districts using the same criteria as for legislative districts.
I am not asking for anything special. I am ONLY asking YOU to follow the Constitution and Montana law.
Remember the Montana OATH of office YOU took:

Section 3. Oath of office. Members of the legislature and all executive, ministerial and judicial officers, shall take and subscribe the following oath or affirmation, before they enter upon the duties of their offices: "I do solemnly swear (or affirm) that I will support, protect and defend the constitution of the United States, and the constitution of the state of Montana, and that I will discharge the duties of my office with fidelity (so help me God)." No other oath, declaration, or test shall be required as a qualification for any office or public trust.
Voters will be watching. Thank you in advance for doing what is right.
Connie Dale

Subject: Montana's Districting Maps should be politically fair

Dear Commissioner Joe Lamson,

My name is Dr. Kate Eisele. I am a public school teacher, MFPE member, and resident of West Yellowstone. First, I want to thank you for doing your due diligence in deciding upon fair districting criteria for our new Congressional seat here in Montana. In these highly divisive political times, having reliable and straightforward criteria is important for the electorate to have trust in the entire voting process.

Second, in keeping with your recent decisions, I urge you to use the same (or similar) fair criteria for drawing new legislative districts in Montana. Using the same criteria will help eliminate confusion for voters statewide and increase citizen confidence in the validity of their votes and in the outcome of future elections. I also urge the adoption of a 5% deviation standard between districts as a MANDATORY criterion, as supported by federal law. This will allow the commission to deal with any outliers in 2020 Census data caused by the pandemic and to better respond to issues at a community level.

Finally, I would strongly urge the commission to AVOID use of ranking criteria in drawing new districts. A process that is hemmed in by ranked criteria does not fit with the traditions of a state that values the voice of its small towns and communities. Rather, this approach shuts out public comment before the maps and their long term effects on communities can even be seen.

Your work and efforts affect the lives of over 1 million Montanans. It's important to select legislative district criteria that highlight political fairness for all citizens.

Kind Regards,
Dr. Kate Eisele
West Yellowstone, MT

Commissioner Lamson,

Thanks very much for your email. NCSL policy is to list the laws as they are on the books, and then as specific laws are challenged we will remove them from the website if they are found constitutional. Until a court holds the new statute as unconstitutional (which your email suggests is very likely to happen based on historical precedent), the statute will remain on the NCSL website. That being said, we do add officially adopted guidance from commissions or legislative committees and add them to our criteria page, so I appreciate you sending those links along. We'll be sure to update the webpage with your commission's newly adopted criteria.

I hope that explanation is helpful, and I'm happy to discuss this further over the phone if you'd like.

Best,

Ben

 Subject: [EXTERNAL] Montana 2020 Congressional and Legislative Criteria

NCSL Friends,

On July 20, 2021 the Montana Districting and Apportionment Commission completed the criteria for congressional and legislative districts for the 2020 redistricting cycle. They are posted on the Commission's web site:

Congressional Criteria
<https://leg.mt.gov/content/Districting/2020/Topics/Criteria/adopted-criteria-congressional-dac-july-2021.pdf>

Legislative Criteria
<https://leg.mt.gov/content/Districting/2020/Topics/Criteria/adopted-criteria-state-legislative-dac-july-2021.pdf>

Most of the criteria built upon those adopted by previous Montana commissions. Of note the commission expanded the adopted goals in two new areas. Montana joined 15 other states in adopting a goal for political fairness for both congressional and legislative districts. In addition Montana joined five other states with the adoption of competitiveness as a state goal for both congressional and legislative districts.

Legislative Districts Can Be Drawn With Political Competitiveness In Mind, Commission Decides <https://www.ypradio.org/government-politics/2021-07-21/legislative-districts-can-be-drawn-with-political-competitiveness-in-mind-commission-decides>

Philosophy of fairness up for debate in Montana legislative district criteria <https://www.greatfalltribune.com/story/news/2021/07/23/philosophy-fairness-up-debate-montana-congressional-district-criteria/8071192002>

Political district-drawing commission finalizes its sideboards https://montanafreepress.org/2021/07/21/districting-commission-finalizes-montana-redistricting-rules/?utm_medium=email&mc_cid=8da0afd592&mc_eid=dd956d2b73

Correcting NCSL Criteria Web site regarding MCA 5-1-115.

MT-MDAC-21-1688-B-000179

Montana's Constitution specifically limits the legislature's redistricting authority to two narrow functions. They appoint 4 of the commissioners and make recommendations to the commission on the final plan. They have absolutely no authority to pass laws dictating how the commission draws the districts. Past legislature's complied with their constitutional role for the 1970, 1980, and 1990 redistricting cycles. The 2003, 2013, and now 2021 Republican legislative majorities have passed unconstitutional legislation codified in MCA 5-1-115 directing the commission how we are required to draw both legislative and congressional districts.

This is a blatant disregard for the Montana Constitution, Attorney Generals' actions, three District Court decisions and two unanimous Supreme Court decisions affirming the Commission's independence from any attempts by the legislature to use their plenary powers to limit that independence.

A Memo on the Montana Constitutional Authority for Independent, Autonomous Commission <https://leg.mt.gov/content/Districting/2020/Meetings/July-2021/lamson-memo-2020-districting-litigation-history.pdf>

Montana's Constitution has not been amended. The 2000, 2010 and 2020 commissions therefore have not complied with the unconstitutional dictates of MCA 5-1-115. Legislators are publicly elected officials. Legislator emails sent or received involving legislative business may be subject to the Right to Know provisions of the Montana Constitution and may be considered a "public record" pursuant to Montana law. As such, email, sent or received, its sender and receiver, and the email contents, may be subject to public disclosure, except as otherwise provided by Montana law.

Montana's Constitution specifically limits the legislature's redistricting authority to two narrow functions. They appoint 4 of the commissioners and make recommendations to the commission on the final plan. They have absolutely no authority to pass laws dictating how the commission draws the districts. Past legislature's complied with their constitutional role for the 1970, 1980, and 1990 redistricting cycles. The 2003, 2013, and now 2021 Republican legislative majorities have passed unconstitutional legislation codified in MCA 5-1-115 directing the commission how we are required to draw both legislative and congressional districts.

This is a blatant disregard for the Montana Constitution, Attorney Generals' actions, three District Court decisions and two unanimous Supreme Court decisions affirming the Commission's independence from any attempts by the legislature to use their plenary powers to limit that independence.

Commissioner Lamson,

Thanks very much for your email. NCSL policy is to list the laws as they are on the books, and then as specific laws are challenged we will remove them from the website if they are found constitutional. Until a court holds the new statute as unconstitutional (which your email suggests is very likely to happen based on historical precedent), the statute will remain on the NCSL website. That being said, we do add officially adopted guidance from commissions or legislative committees and add them to our criteria page, so I appreciate you sending those links along. We'll be sure to update the webpage with your commission's newly adopted criteria.

I hope that explanation is helpful, and I'm happy to discuss this further over the phone if you'd like.

Best,

Ben

 Subject: [EXTERNAL] Montana 2020 Congressional and Legislative Criteria

NCSL Friends,

On July 20, 2021 the Montana Districting and Apportionment Commission completed the criteria for congressional and legislative districts for the 2020 redistricting cycle. They are posted on the Commission's web site:

Congressional Criteria

<https://leg.mt.gov/content/Districting/2020/Topics/Criteria/adopted-criteria-congressional-dac-july-2021.pdf>

Legislative Criteria

<https://leg.mt.gov/content/Districting/2020/Topics/Criteria/adopted-criteria-state-legislative-dac-july-2021.pdf>

Most of the criteria built upon those adopted by previous Montana commissions. Of note the commission expanded the adopted goals in two new areas. Montana joined 15 other states in adopting a goal for political fairness for both congressional and legislative districts. In addition Montana joined five other states with the adoption of competitiveness as a state goal for both congressional and legislative districts.

Legislative Districts Can Be Drawn With Political Competitiveness In Mind, Commission Decides <https://www.ypradio.org/government-politics/2021/07-21/legislative-districts-can-be-drawn-with-political-competitiveness-in-mind-commission-decides>

Philosophy of fairness up for debate in Montana legislative district criteria <https://www.greatfalltribune.com/story/news/2021/07/23/philosophy-fairness-up-debate-montana-congressional-district-criteria/8071192002>

Hello Commissioner Lamson,

Rachel and I do not remember seeing your folder at the end of the meeting. Is there any document in particular you're looking for that I can send you, or would you like me to recreate the meeting folder and mail it to you? The minutes for the meeting should be up soon too so you can scan exhibits and public comment that was handed out during the meeting.

Thanks,
 Laura Sherley

Hello Commissioners,
 The public comments you've received since the July 20 meeting are linked below. I've also updated the Meeting Materials page (<https://leg.mt.gov/districting/2020-commission/meeting-information/>) for the 17th with two documents and a link to the U.S. Census Bureau's viewer of demographic data. I've provided the direct links below. We'll have copies at the meeting for those of you who want them printed.

Public comments: <https://leg.mt.gov/content/Districting/2020/Public-Comment/August-2021-Comment/predeadline-dac-comments-august-14-2021.pdf.pdf>
 Draft letter to the Governor: <https://leg.mt.gov/content/Districting/2020/Topics/Prisoner-Reallocation/draft-letter-to-governor-gianforte-august-2021.pdf>
 U.S. Census Bureau statement on the official data: <https://leg.mt.gov/content/Districting/2020/Topics/Census/FAQ-census-official-data-august-2021.pdf>
 U.S. Census Bureau Demographic Data Viewer: <https://mtgis-portal.geo.census.gov/arcgis/apps/MapSeries/index.html?appid=2566121a73de463995ed2b2fd7ff6eb7> [mtgis-portal.geo.census.gov]

Please let me know if you have questions.

Sincerely,

Rachel Weiss

I won't need an additional copy of any public comments you have sent.

I noticed there were several comments requesting information directly from me. This is the first time I've seen them. If it would be possible in the future please route them my way when you receive them.

Thanks.

Joe Lamson

Hey Joe,
 I'm not sure we've ever had that article posted permanently on the 2010 or 2020. It's been something we've distributed to people outside of meetings or as additional information that isn't necessarily part of a specific agenda item. I've attached a copy. It's something we can add to the document library as we have time between redistricting projects. I don't have a timeline on the new site besides we are aiming for it to be fully functional to use for the 9/17 meeting. I hope this helps. We're happy to help grab documents or resources as needed.
 Thanks,
 Rachel

 Subject: [EXTERNAL] Re: docs

Not at the moment. It was a comprehensive page for documents I often get requests for. So it was easy to go to that page rather than go through the minutes to find the document and forward a specific document. For instance if I want to find Regnier's law review article where will that be located on the new site? In meeting materials or testimony?

Can't wait for the new site to be up and fully functioning. Any notions when that might be?

Thanks.

Hi Commissioner Lamson,
 Once a meeting is over, we use the meeting materials page for the next meeting's documents. The documents used in the meeting are made exhibits in the summary minute files. Documents like reports and papers are placed in categories on the website. For example, the public comment files are all linked under public comment. Laura also has a hard copy in the commission's official files (paper). In the new website, we'll have all of the materials in the document library. Because we're transitioning to the new site, the old site still has the other materials in the blue expanding files under the old commissioner picture:
<https://leg.mt.gov/districting/2020-commission/>

Is there a particular document you were trying to find? We can help get that information to you.

Sincerely,
 Rachel

Commissioners and Chair Smith,

Please disregard the map I sent you yesterday = <https://districtr.org/plan/45542>

Either the Montana population data distribution changed yesterday, or the District.org tool had a glitch.

I went to recreate this map in the DistrictBuilder.org tool and couldn't. When I used District.org today, the data is different, but it matches the other 2 tools I used.

So I created a new map and I used 3 separate tools (District.org, DistrictBuilder.org & DavesRedistricting.org) to make sure all the data matched.

Here are links to the maps in each tool:

<https://districtr.org/plan/45763>

MT-MDAC-21-1688-B-000194

<https://app.districtbuilder.org/projects/e0a5c47f-4434-47ff-b0a9-01233ba3a87b>
<https://davesredistricting.org/maps#viewmap::334528d3-ffa6-4a4b-a2c3-c41547e87654>

This new map does not split ANY counties and the population is +/- 50

District 1 = 542,062
 District 2 = 542,163

Thank you and I'm sorry for the erroneous map from yesterday.
 Sincerely
 Tonia Dyas

Commissioners and Chair Smith,

I would like to submit a proposed map for the Federal Congressional Districts in Montana.

I don't think a more perfect map could be drawn. This proposed map is based strictly upon population, contiguous counties and contiguous districts.

Only 1 county is divided (Cascade). None of the tribal groups are divided. And best yet, the population difference between District 1 & 2 is only 47 people for a population deviation of 0%.

It complies with all the Montana statutes and constitutional requirements.

The population of district 1 is 542,136 and district 2 is 542,089 for a net difference of 47.

I've attached a CSV file with the data so you can recreate
 or you can look at my saved map here <https://district.org/plan/45542>

Good morning Commissioner Lamson,

I apologize for the inconvenience! There does seem to be an issue with at least four links in the document. I have a couple IT folks on the case, but while they work on it you may need to copy/paste the url links into your browser. I apologize for the work around but I will let you know as soon as possible when the links are up and working.

All map submissions, links, and their explanations will be posted to the website soon in a table format for you to be able to review. This packet only included some map links because they were accompanying comment submissions.

Let me know if you have any other trouble or questions. Thank you,

Laura Sherley
Research Assistant
Legislative Services Division

Good morning.

I can open the packet, but am unable to open the links accompanying comment.

Do I need to tell my computer something?

Thanks.

Joe

Good morning Commissioner Lamson,

I apologize for the inconvenience! There does seem to be an issue with at least four links in the document. I have a couple IT folks on the case, but while they work on it you may need to copy/paste the url links into your browser. I apologize for the work around but I will let you know as soon as possible when the links are up and working.

Commissioner Lamson,

I appreciate the information, and yet reading throughout the documents you provided, I still see no decision of any court stating that 5-1-115 is unconstitutional, esp the components we added last cycle. There is no stay applied for its use that I see has been filed, so again I ask you sir: where do you get the authority to ignore 5-1-115?

Subject: Empty Words

Commissioner Lamson,

Back in June, I greatly appreciated the fact you were willing to approach me and engage with me in a discussion. It's not every day that the other side is willing to engage in civil discourse and willing to listen to me. It was important and impactful.

At the time I didn't understand as much nor was I looking for strife. I was hoping that for once perhaps we can all put our differences aside and really work for the Montana community. I took what you said, and went out of my way to question and find the answers to the points you mentioned.

I took away 3 major things from that conversation.

1. C-Map

You asked me in what sense do I believe the Democrats were looking to Gerrymander. I told you about the C-Map that has been passed around and angered a lot of folks. You told me, that that was a Republican ploy and that in no way that was what the Democrats were after.

Not knowing any better, I believed you. And instead focused on the merit of your claims presented during the meetings than to make unfounded accusations.

However, behold you proposed maps that are similar or exactly the same as the C-Map that proved the accusations to be true.

I gave you the benefit of the doubt. Were you purposely lying to me? Or why would you give me the impression you weren't after such a map when you obviously are?

2. HB 506

You switched the conversation into asking me about HB 506 which again at the time I didn't know enough about it to speak on it.

You told me it was unconstitutional, unlawful, and that it didn't include the public.

I learned a lot about HB 506 and a number of things since then.

To this day, I don't understand what part is unconstitutional. The only argument you make is that you are an independent commission but never argue against the specifics of the Bill or annotated code.

What part of it is an issue when it matches the mandatory criteria?

3. You started by saying you were a man of action not just words in reference to my speech where I said the following:

"The same goes for the rest of you. It is your actions, not words, that will demonstrate your true intentions. Here is your chance to prove yourselves. Are you putting all Montanans first? Or is that nothing more than empty words? Is it just political virtue signaling to gain favor while you instead gain a corrupted advantage while undermining Montana citizens' right to a fair vote? Madam. Chair, members of the commission, the outcome of your decisions will answer my questions when the time comes, and we will hold each of you accountable."

I told you that I will do my research, become more knowledgeable in the subject and see what you have said to be true or not.

The time has come and unfortunately found that you have only given me empty words. Your true intentions were to push for a C-Map all along while ignoring the Constitution and the law. I can say so much more about competitiveness amongst other things but I'm so disappointed.

Though my words during my testimonies seem personal, they aren't. I have no personal animosity towards anyone. However, I am the type to call a spade with no apologies. So when I say your words are empty, though I'm sure it sounds offensive, it's not. It sounds personal but it's not. It's objectively what I see when you say one thing and end up doing another.

Despite all of this, I wanted to give you the opportunity to speak for yourself and hear what you have to say. Perhaps, there is a misunderstanding and you can clarify.

The truth is I want to see this commission work together doing what's right for all Montanans and take the politics out of it.

Ms. Johnson,

Thank you for your question. These are the congressional district criteria, <https://leg.mt.gov/content/Districting/2020/Topics/Criteria/adopted-criteria-congressional-dac-july-2021.pdf> adopted by the commission for drawing the congressional districts. We were proud to have joined our Republican colleagues in voting to establish state goals to create maps that do not unduly favor a political party and are competitive so a candidate from either party has an opportunity to win.

Analysis shows all four of the proposed Republican maps would create two solid Republican districts unduly favoring their party and therefore does not meet the commission's state goals for fairness and competitiveness. All five of the proposals submitted by Commissioner Miller and I comply with all the mandatory criteria for population equality, compactness, contiguity and the Voting Rights Act. All our proposals create one Republican district and one competitive district where the voters have a realistic opportunity to elect a representative of their choice from either party. The goal of competitive districts is to favor neither party which is what Commissioner Miller and I are proposing.

I hope this helps.

Best regards,

Joe Lamson
Commissioner

From: "Noelle Johnson" <noellemjohnson@outlook.com>**To:** "Joe Lamson" <Joe.Lamson@mtleg.gov>**Sent:** Wednesday, October 6, 2021 2:21:26 PM**Subject:** Confused about statement

Commissioner Lamson,
I am confused about a statement you made that was quoted in the Billings Gazette. (See screenshot below.) You seem to say opposite things. The maps from your colleagues are not competitive. And they not unduly favor one party. Wouldn't a map that is not competitive be one that does NOT favor a party? If a map was competitive, wouldn't it favor a party? Knowing your working definition of competitive would be helpful.

Democratic Commissioner Joe Lamson said the districts selected by
Republicans weren't competitive and he wouldn't support them.

"The basic problem with all our colleagues' maps are none of them are competitive," Lamson said. "They do not meet the stated goal of not unduly favoring one party over another and trying to create better maps. For that reason, we there can't really support them because they're not meeting the criteria."

Additionally, based on the Montana Code (see next screenshot) for the redistricting committee, a map "may NOT be drawn" to favor one party. The Billings Gazette article points out numerous times how the maps have differing degrees of democratic or republican histories. According to MCA 5-1-115 part 3, this should have NO roll in the process. It is disappointing that within 2 websites used for many of the maps, the voting histories were given.

I urge you and the committee to use the criteria established by the legislature, which took into account federal law as well.

MCA 5-1-115

- (1) A district may not be drawn for the purposes of favoring a political party or an incumbent legislator or member of congress. The following data or information may not be considered in the development of a plan:
- (a) addresses of incumbent legislators or members of congress;
 - (b) political affiliations of registered voters;
 - (c) partisan political voter lists; or
 - (d) previous election results, unless required as a remedy by a court.

Thank you,
Noelle Johnson
Great Falls, MT

Hello Commissioners,

People are figuring out the comments on the web. You can keep tabs on them by clicking on each map from this list: https://app.mydistricting.com/legdistricting/montana/comment_links

[\[app.mydistricting.com\]](https://app.mydistricting.com)

This is working really well so far and I just want you to know it took a village of folks to get this going. Rachel of course has done a ton of work, but Laura Sherley our indefatigable research assistant and Trista Hillman our master of all things web-related toiled behind the scenes to get the maps and comments onto the site and looking good. (Not to mention our IT folks and money folks) If you look at some other state districting sites, I think you will find that yours is easily among the best in terms of ease of use, access to information, and just plain looking good. (Insert horn tooting here).

All that said, everything is a work in progress. This endeavor is a marathon, not a sprint. If you or any of your constituents have questions, needs, or concerns about information on the site, please tell them to call or message Rachel or I directly. No need to wait until a commission meeting. If something has gone awry or there is a new great idea, we can react to most things fairly quickly for the benefit of everyone.

See you all soon.

Hi Joe,

If you'd like them to be included in the packet that we send to all of the commissioners and post on the website, sure. If you do that, please forward them to districting@mt.gov. It's hard for me to know if they duplicate statements that people sent through the webform, bcc, or districting@mt.gov, so it's really up to you to decide if you'd like to include them or just keep them in your files.

Thanks,

Rachel

Hello Commissioner Lamson,

Several of the emails you attached are duplicating ones we've already received. If you see districting@mt.gov or Districting; in the cc line, that means the person also cc'd the main districting email on the comment. If you see either of those two entries, you don't need to forward the email on to us for inclusion in the public comment packet. I've attached a screenshot of what you might see on those emails. Just a heads up on why you will probably see multiple duplicate emails in the packet you'll receive later today.

Sincerely,
 Rachel

SUBJECT: Proposed Congressional District Maps

Dear Members of the Districting Commission:

I live in a gerrymandered district that goes from Lake County to the Canadian Border. We never see our representatives and they show no interest in participating at our local level. I am extremely concerned with some of the possible proposed congressional district

I am a citizen of the state of Montana and I am submitting this email as my written testimony to express my opinion regarding the upcoming decision to be made by the Commission concerning the proposed Congressional Districts. I respectfully request it be made a part of your deliberations. I have reviewed the various maps and believe that Map CP-1 <https://leg.mt.gov/content/Districting/2020/Maps/Congressional/Commission-Proposals/cp1-congressional-october-19.pdf> is the most appropriate choice for Montana in that it follows the https://leg.mt.gov/bills/2021/HB0598/HB0596_X.pdf passed during the most recent session of our Legislature.

Map CP-1 has the best configuration for compactness where the width and length of both districts are most equal. It has the minimal difference in populations between the two districts (plus or minus one). It divides the fewest number of counties (2).

CP-1 is the only map that best follows the intent of HB 506, which is the express will of the citizens of Montana. I believe that our Congressional districts must be formulated in accordance with HB 506.

There is an attempt by members of the Commission to ignore the law and gerrymander the boundaries of the two Congressional districts. Map CP-1 best meets the criteria set out in law by HB506 Section 1, as noted above. Of the nine (9) maps submitted/created, five (5) are submitted by Democrats and four (4) by Republicans. This is blatant partisan gerrymandering and completely unacceptable. These maps are offensive to all Montanans who believe in fair play and the rule of law.

In light of the foregoing, I most strongly urge you to adopt the boundaries for our proposed Congressional Districts as outlined in Map CP-1 and in accordance with the existing laws of Montana. Thank you for your time and attention to my concerns.

Dear Members of the Districting Commission:

I have been a citizen of the state of Montana since 1962, and I am submitting this email as testimony to express my opinion in regards to the upcoming decision to be made by the Commission concerning the proposed Congressional Districts. I ask that this email be considered during your deliberations. I have reviewed the various maps and believe that Map CP-1 <https://leg.mt.gov/content/Districting/2020/Maps/Congressional/Commission-Proposals/cp1-congressional-october-19.pdf> is the most appropriate choice for Montana in https://leg.mt.gov/bills/2021/HB0506/HB0506_3.pdf passed during the most recent session of our Legislature.

Map CP-1 has the best configuration for compactness where the width and length of both districts are most equal. It has the minimal difference in populations between the two districts (plus or minus one). It divides the fewest number of counties (2).

CP-1 is the only map that best follows the intent of HB 506, which is the express will of the citizens of Montana. I believe that our Congressional districts must be formulated in accordance with HB 506.

It seems that some members of the Commission appear to ignore the law and gerrymander the boundaries of the two Congressional districts. Map CP-1 best meets the criteria set out in law by HB506 Section 1, as noted above. Of the nine (9) maps submitted/created, political party over another. This is blatant partisan gerrymandering and completely unacceptable. These maps are offensive to all Montanans who believe in fair play and the rule of law.

In light of the foregoing, I urge you to select the boundaries for our proposed Congressional Districts as outlined in Map CP-1 and in accordance with the existing laws of Montana. Thank you for your time and attention to my concerns.

Ladies and Gentleman;

I write to strongly recommend that you adopt Proposal #8.

Sometimes leaders are put in the position of needing to "protect the game" in lieu of always trying to win a game. Professional baseball is a good example. Regularly the owners adopt some policies and reject others in order
all of them. It is not in their collective interests to allow one team to dominate over all the others, a condition that could easily arise without management "of the game."

We are in such a window with our political "game." No matter that one team may have played better, invested more wisely, sold their view more effectively. For our political system (aka democracy) to work, the game must

Option 8 is the only proposal that has any chance of being competitive. You can't change other states; but can can demonstrate a Montana wisdom and an America first goal.

Thank you for your attention.

Very respectfully,
David Leslie

Hello,
I'm writing today to ask you to please choose CP 4 as Montana's new congressional district map. All Montanans deserve the chance to have their voice heard and their vote mean something.

Thank you for all your time and effort in this process.

Take care,

Subject : Our Choice for New National Congressional Districts

To : montana districting commission <districting@mt.gov>

Cc : Jeff.Essmann@mtleg.gov <jeff.essmann@mtleg.gov>, Joe.Lamson@mtleg.gov <joe.lamson@mtleg.gov>, Kendra.Miller@mtleg.gov <kendra.miller@mtleg.gov>, Maylinn.Smith@mtleg.gov <maylinn.smith@mtleg.gov>

Dear Montana Districting Commission,

We are citizens of the state of Montana and are submitting this email as our written testimony to express our opinion regarding the upcoming decision to be made by the Commission concerning the proposed Congressional Districts. We respectfully request that our comments be considered during your deliberations. We have reviewed the various maps and believe that Map CP-1 <https://leg.mt.gov/content/Districting/2020/Maps/Congressional/Commission-Proposals/cp1-congressional-act> follows the law established in House Bill 506 https://leg.mt.gov/bills/2021/HB0599/HB0506_X.pdf passed during the most recent session of our Legislature.

Map CP-1 has the best configuration for compactness where the width and length of both districts are most equal. It has the minimal difference in populations between the two districts (plus or minus one). It also divides the fewest number of counties.

CP-1 is the only map that best follows the intent of HB 506, which is the express will of the citizens of Montana. We believe that our Congressional districts must be formulated in accordance with HB 506.

There is an attempt by members of the Commission to ignore the law and gerrymander the boundaries of the two Congressional districts. Map CP-1 best meets the criteria set out in law by HB506 Section 1, as noted above. Of the nine (9) maps Democrats disadvantage Republicans. This is blatant partisan gerrymandering and completely unacceptable. These maps are offensive to all Montanans who believe in fair play and the rule of law.

In light of the foregoing, We most strongly urge you to adopt the boundaries for our proposed Congressional Districts as outlined in Map CP-1 and in accordance with the existing laws of Montana.

Thank you for your time and attention to our concerns.

Freeman and Mary Jane Robinson

P.O. Box 185, Big Arm, MT 59910

freestyle05@prodigy.net

I strongly support Map 8 as it has 1 competitive district - as opposed to gerrymandered maps 1, 3, 5, and 7 in which the same party is heavily favored in both districts. Ideally, Montana would have 2 competitive districts. I also like that Map 8 is divided.

As a resident of Park County, I think it is important for Park County to be kept with Gallatin County as their county impacts ours a great deal.

Subject : support for Map 8

To : Joe Lamson <Joe.Lamson@mtleg.gov>

I am writing to express my preference for the MAP 8 proposal from the Montana Districting and Apportionment Commission.

Map 8 is geographically balanced, population equal, and competitive in a way that reflects the political leanings of Montanans: a new R+3 1st district, and an R+37 2nd district led by incumbent Matt Rosendale. It is the only new district with exactly the same partisan lean as the state as a whole (R+0), and it also provides the incumbent with a solid R+37 district that the Republican party should easily hold onto in future elections.

Subject : Public comment on congressional maps proposed by the Districting & Apportionment Commission

To : maylinn smith <maylinn.smith@mtleg.gov>, jeff essmann <jeff.essmann@mtleg.gov>, Joe Lamson <Joe.Lamson@mtleg.gov>, dan stusek <dan.stusek@mtleg.gov>, kendra miller <kendra.miller@mtleg.gov>

Dear Commissioners Essman, Lamson, Miller, Smith, and Stusek,

Thank you for your vitally important work as members of the Districting & Apportionment Commission. I write to submit the following comment on the Commission's proposed maps:

Maps 2, 4, 6, 8, and 9 generally comply with the Commission's constitutionally and statutorily mandated criteria in that they are population equal, comply with the Voting Rights Act, and are (to a greater or lesser degree)

Among these compliant maps, Map 2 most closely adheres to the Commission's discretionary criteria as well in that it adheres to county lines, is competitive, and keeps communities of interest together. Maps 2, 6, and 8 as Montana the greatest assurance that their vote will contribute to the election of officials who will best represent their district's interests. To a lesser extent, maps 4 and 9 also accomplish that goal. Maps 4 and 8 each include representation across both districts.

By contrast, maps 1, 3, 5, and 7 do not comply with the mandatory and discretionary criteria the Commission have adopted.

All of these maps favor one party unduly, and fail to create competitive districts. Maps 3 and 5 do not meet the most basic mandatory criteria in that they are not population equal. Maps 1 and 7 slice through populous counties, Missoula and Bozeman, contain the State's flagship universities and have similar interests. Maps 1 and 7 divide Gallatin county and effectively separate communities with similar needs.

To summarize, the Commission should reject Maps 1, 3, 5, and 7 as non-compliant with both the Commission's mandatory and discretionary criteria. The Commission should retain and further consider Maps 2, 4, 6, 8, and 9 which appear to best embody the Commission's mandatory and discretionary criteria.

Thank you again for your hard work and consideration.

Best regards,

Melissa Hornbain
Helena, Montana

Dear Districting and Apportionment Commission Members,

I am writing to express my support for proposed districting maps 2, 4, 6, 8, and 9.

I believe that these maps best meet the criteria of not favoring one political party over another. They minimize dividing towns, counties, and federal reservations and keep communities of interest together. Finally, they are

Maps 1, 3, 5, and 7 are unacceptable.

Thank you for your work on this project.

Karen Ekstrom

From : Alisa Storrar <alisa.storrar@gmail.com>

Subject : Districting maps

To : maylinn.smith <maylinn.smith@mtleg.gov>, jeff.essmann <jeff.essmann@mtleg.gov>, joe.lamson <joe.lamson@mtleg.gov>, dan.stusek <dan.stusek@mtleg.gov>, kendra.miller <kendra.miller@mtleg.gov>

Dear Districting and Apportionment Commission Members,

I would like to advocate for maps 2, 4, 6, 8, and 9 for these reasons:

1. Map 2 is population equal, adheres to county lines, is compact and contiguous, and keeps communities of interest together.
2. Maps 2, 4, 6, and 9 are compact and contiguous with equal populations.
3. Maps 2, 6, 8, and to a lesser extent 4 and 9 are competitive and give the people of Montana true power in electing officials that will work for them. These candidates will have to campaign and get to know their constituents.
4. Maps 2, 4, 6, 8, and 9 are all population equal.

I would like maps 1, 3, 5, and 7 to be removed from consideration for these reasons:

1. Maps 3 and 5 are not population equal and should be thrown out. We have seven maps that are population equal and that was a main criteria selected by the commission in selecting a map.
2. Maps that slice through populous counties and divide communities should be thrown out. Missoula and Bozeman contain the flagship universities for the state and have similar interests. Maps 1 and 7 divide up Gallatin county.
3. Maps 1, 3, 5, and 7 favor one party unduly, as both districts are deemed uncompetitive and are disproportionately likely to elect the same party (Republicans).

Sincerely,

Alisa Storrar

Subject : redistricting

To : maylinn.smith <maylinn.smith@mtleg.gov>, jeff.essmann <jeff.essmann@mtleg.gov>, joe.lamson <joe.lamson@mtleg.gov>, dan.stusek <dan.stusek@mtleg.gov>, kendra.miller <kendra.miller@mtleg.gov>, districting@mt.gov

Putting all the counties with the big towns: Bozeman, Missoula, Butte and Helena all in one group is gerrymandering!

Joining the two Universities, Montana State University and University of Montana, in one district is gerrymandering and is NOT competitive.

Missoula County and Gallatin County should not be in the same district.

The most fair maps are CP1, CP3 and CP5.

Thank you for taking my observations into consideration.

Hello Chair Smith and members of the Districting and Apportionment Commission,

Proposal 11 is the only one of the two final maps that includes a competitive district. As a state representative in a very competitive district, all along I've testified for competitiveness, political fairness, and communities of interest. Proposal 10 will simply turn Congressional races into anointings--not fair and democratic (small 'd') elections. Republican party candidates will simply be anointed. They will not have to engage with voters and constituents to earn their elected seats. Races will not be competitive or give both political parties a fair and equal chance.

Also, Helena is a union town like Butte, Anaconda, and Deer Lodge. Helena should stay in the Western District with other union communities. Putting Helena in an Eastern District is union vote-busting and intentionally divides our community of interest from other Western Montana cities. It also divides a community of interest of state government workers by separating government employees who live in Lewis and Clark County from Jefferson County.

Please support Proposal 11 that respects our communities of interest, is competitive and fair. Thank you.

Regards,
Rep. Mary Ann Dunwell, HD 84 Helena/East Helena

Democrats are trying to steal new Montana congressional district.

Today is Oct 28, 2021, and this appeared in the opinion section of today's Daily Interlake newspaper.

Democrats are trying to steal new congressional district, by Al Olszewski

Because of failed socialist policies, radically left leaning states like California and New York lost congressional districts which were given to conservative states like Montana and Florida. Democrats know they will lose the U.S. House majority in 2022, so gerrymandering is their only hope at keeping Nancy Pelosi in power.

Montana law is clear on how lines for our new congressional district should be drawn, Unfortunately, the Democrat majority on Montana's redistricting commission made it clear from day one that they have no intention of following our Montana law. They are trying to gerrymander a western congressional district which is a safe seat for Democrats.

Unfortunately for them, Montana has become a state with solid conservative values. In 2020, voters rejected the radical policies of Montana Democrats by wide margins. Montana Democrats know they have only one solution that will dismiss the will of the Montana people.

Democrats have made it clear that they intend to exclude the two Republican candidates for Montana's new western district from this race. Voting for a gerrymandered map that excludes Flathead County from the western district will do nothing more than ensure a costly, drawn out court battle that will result in the commission having to go back and do the job it should have done in the beginning.

Montanans need to stand up and have their voices heard by the three Democrat redistricting commissioners. Flathead County is as western Montana as Missoula County. Stop trying to steal the western district by putting the Flathead County in the eastern congressional district. Excluding all two of the Republican candidates running in the new western district by placing their homes in Flathead County into the eastern congressional district is not only un-American, it violates Montanans' sense of fairness and philosophy of treating our neighbors with respect.

Al Olszewski is a Republican candidate for Montana's second U.S. House seat. He lives in Kalispell

The reason no link is given is because it's not yet up on Google or Duckduckgo. It's hand-typed verbatim, and you can verify that by comparing it to the actual article.

This article makes the issue simple enough to understand. It's good that the article appeared in time for Montanans to still get onboard with the Helena redistricting session on Saturday, 10/30. The meeting is at 9:30 AM. If this concerns you, as a Montanan, you can make sure that you're heard, either by showing up in person, or by emailing the redistricting commissioners, or by zoom. The following has been making the rounds, and bears repeating. This issue is very important, important enough to take time to address it personally. Flathead area people can still reserve a bus seat, at least as far as I know.

Non-Montanans are invited to see how the Democrats operate. This is not new in most states.

Here is the info you need if you want to say something:

Remote Participation Request ♦ MDAC Bus or Zoom

<https://mtredistricting.gov/remote-participation-request/> This is the link to get a spot on the zoom for the Saturday meeting on the redistricting map for House districts

There are several ways you can help:

1. Attend the next Districting and Apportionment Commission meeting "In-Person" on Saturday, October 30, 2021 @ 9:30 AM in the State Capitol, Room 102 and deliver your short (30 second) testimony to the Commissioners. (Talking points will be provided for you)

A bus has been chartered for Helena and the cost is FREE.

There are only 55 seats available on a "first call first served" basis but we need firm confirmation from each person.

Call John O'Neil at (406) 755-5714 or Lauralee O'Neil at (406) 407-5639 to reserve your seat and get more details.

Meet @ the Red Lion Inn parking lot in Kalispell at 4 AM on Saturday October 30, 2021 for the "ride of your life".

2. Send an email to the Chair and Commissioners here: districting@mt.gov

(suggested comments below)

3. Send the same e-mail directly to the Chair and Commissioners:

Maylinn.Smith@mtleg.gov, Jeff.Essmann@mtleg.gov, Joe.Lamson@mtleg.gov, Dan.Stusek@mtleg.gov, Kendra.Miller@mtleg.gov

(suggested comments below)

4. Send the same comments directly to the Commissioners through their website: <https://mtredistricting.gov/contact/>

(suggested comments below)

Subject: Congressional Redistricting Map

Chair Smith and Commissioners,

The two newly proposed maps (CP-10 and CP-11) are terrible maps as they are based on trying to carve out specific party districts and do not comply with Montana statutes and constitutional requirements.

Please throw out these two new maps and select map CP-1 as it's the best map that adheres to the law.

Thank you for your consideration.

Your Name, Address, Phone Number & d Email Address (this is required information)

5. Provide comments on the interactive maps for CP-10 or CP-11 by clicking below and following the directions:

Dear Joe,

I have not been able to find your telephone number so I will see if this email works. I would like to invite you to speak to the Democratic Study Group in Billings about reapportionment. We meet every Wednesday morning at 7:30 to 8:30 by Zoom. I do have the Wednesday after next, November 10, open. Are you available and are you willing to tell us a little bit about what is going on with the Commission. I understand that the Congressional Districts may be done by then but there is a lot more involved that won't be. We have about 20 to 25 dedicated Democrats attend each Wednesday morning (23 joined for Dorothy Bradley last Wednesday). Let me know if you are available. I also have November 24 or any time in December open. Let me know.

Thank you for serving on the commission!

Please consider:

Creating at least one Congressional district that can be competitive between Republican and Democratic candidates, since this was one of the goals of the commission.

Including as many Native American Reservations in a competitive district, rather than diluting their votes by splitting them between districts.

Returning to Proposal 11, since it had the most public support.

Not districting at all, but having both Congressional seats represent the entire state – won by the candidates with the most votes and the second-most votes.

Hello, I'm disappointed that your commission ignored the goals set up by the committee itself. Choice #12 ignores the native voice, splits labor heavy districts and does not represent the state equally. Your group needs to go back and discuss a more appropriate way of representing Montana. Proposal 11 looks to be the best for all citizens

To : Joe Lamson <Joe.Lamson@mtleg.gov>

I was discouraged to see that once again, partisanship and politics have attempted to muzzle the voices of *all* registered voters. Strategies designed to allow the minority opinion to rule is a mockery of what our country is supposed to represent. As a veteran and first generation citizen, I am deeply troubled that common sense, rational thought, and the common goal of "forming a more perfect union" based upon the highest ideals is being lost. My words are unlikely to change the tentative plan, but it is at least something to *try* and be heard.

Mr. Lamson,
I urge you to reject CP 12 and adopt proposal 11 which has broad tribal and public support. Our democracy is dependent upon equitable representation and not on partisan politics. The Commission should reconsider the tentative plan and put forth a map that meets all of the adopted Commission criteria and goals.
Respectfully submitted,

Dear Commission members,

I am very disappointed that two more proposals were added at the last minute. This raises suspicions of gerrymandering redistricting. I reiterate my very strong support for Proposal 11.

Map 11 is the only map under consideration that meets all the criteria and goals that the Commission has unanimously approved.

Map 11:

- Does not unduly favor a political party.
- Minimizes splitting of towns and counties.
- Considers communities of interest.
- Considers competitiveness.

Map 11 succeeds in not unduly favoring a political party. It splits only one county and does so in a way that does not split any communities or towns. It keeps all federal reservations whole. It keeps both Gallatin and Lewis and Clark counties in the Western District, in alignment with their cultural and economic interests.

Please follow your own approved guidelines for this process.

Trustingly, Rick Kerr

From: Rick Kerr**Sent:** Thursday, October 28, 2021 10:23 AM**To:** districting@mt.gov <districting@mt.gov>; Maylinn.Smith@mtleg.gov <Maylinn.Smith@mtleg.gov>; Jeff.Essmann@mtleg.gov <Jeff.Essmann@mtleg.gov>; Joe.Lamson@mtleg.gov <Joe.Lamson@mtleg.gov>; Dan.Stusek@mtleg.gov <Dan.Stusek@mtleg.gov>; Kendra.Miller@mtleg.gov <Kendra.Miller@mtleg.gov>**Subject:** Redistricting

To: Districting and Apportionment Commission

After reviewing Proposals 10 and 11, I strongly support Proposal 11.

Proposal 11 follows historic precedent of the 1980's Congressional districts. Only two counties are moved to reach population equality while maintaining economic connections and empowering indigenous voters.

Thank you for the opportunity to comment.

Dear Chairwoman Smith and Redistricting Committee Members,

For the third time I write to you because I feel so strongly about the importance of Montana's Redistricting process and its outcome, not the least of which reasons being that the outcome will impact all Montanans for, at a minimum, the next 10 years.

Of utmost importance to me is that as many Montanans, and our diverse lives and backgrounds, be represented in the U.S. Congress as possible. Geographic divisions drawn simply to achieve population equality will never achieve this. And, in any case, population "equality" is an empty promise of representation if Montana citizens are not truly represented by Congress people who have a sincere interest in listening to and representing Montana's diverse population. Nothing is perfect, however competitively drawn districts are the only possible hope of achieving the greatest true representation in Washington, D.C. for the most Montanans. That is why I strongly favor Proposal 11.

Please select Proposal 11 for Montana.

Thank you.

Adela Awner

This will be long, but hopefully readable.

With close to ten months into the Brandon (Biden) "administration", we have open borders, higher gas prices, supply line issues, rising inflation, to name the real issues, and we're told we all need to get vaccinated before things return to normal. Hmmm. Doesn't that sound fishy to you? Of course it is. These conditions mean things are going well only to a communist. Do you really think these Democrats, and a good number of Republicans too, are simply "ignorant", or "uninformed", about economics? They know exactly what they're doing, which is why they adopted this policy of stimulus checks for "unemployed" people. When you get to the point where there are plenty of jobs, and people still aren't working, you know it has to be because their "government money" makes work unnecessary for them, and that's exactly how the USA can be driven to bankruptcy, and ultimate dependence on Nations like China and Russia. Unearned "government money" leads only to decreasing supply, increasing demand, and higher and higher and higher prices. The law of supply and demand always kicks in. That's how we know that when they spout things like "redistribution of wealth", it sounds good, but in the real world, it always leads to redistribution of poverty. It's simple greed, power mongering, political thievery, which have always been the traits of Democrats, but when they tell us we have to get vaxxed before things will get better, it's unmistakable tyranny. The liberal colleges don't seem to teach something so simple. And Washington Republicans say NOTHING, and they do NOTHING. In fairness, some of them are verbally naking some overtures, but do they really mean it, or do they just know it's safe for them to say the "right thing" when they know nothing will ever change. That's how Rino candidates "took back" the House in 2010, promising to repeal Obamacare, knowing all the while that Obama would never sign anything. These Rinos are DEVIIOUS. At least the Dems have some transparency about their in-your-face corruption.

I still tune in to Fox News, and yesterday, Nov 9, Molly Hemingway had it right when she called the Republicans out for not doing what they should do. This is why I still watch Fox. Some of them actually get it right, but one still has to be careful. There's talk of a "red wave" in 2022. Oh boy. A majority of Rinos? The good part of this is that we see the people are waking up, but this has happened before, and the Rinos makes promises that never materialize. This is what was so appealing about Trump. He was rude, yes, but he didn't care which Party he aimed his "rudeness" at, and the majority of us knew he spoke for us. Majority? Yes. I believe he actually won the popular vote in 2016 if the votes were counted on a non-voting state as Joe Biden was.

MT-MDA-21-1688-B-000236

fraud, intended to get HRC "elected", but the number of Trump votes broke the algorithm that was in place then. It's the only thing that explains the shock we saw in the media. Do you really think anything else accounts for that? They can hate him all they want, but there was real shock and disbelief. I believe that only fraud, systematic electronic and old-style organic fraud, intended to sweep queen Hillary, who called us deplorables, into office, would account for that. If I've missed something, tell me what that is. Therefore, it only stands to reason that fraud was doubled down on in 2020. You can call it conspiracy theory, but there are just too many things pointing to it to call it coincidence.

For a bit of background, Anthony Fauci said, in his keynote address on pandemic preparedness at Georgetown U, on Jan 10, 2017, that the Trump administration would get a "surprise outbreak". Jan 10, 2017. That's ten days before Trump was inaugurated, and 2-1/2 years before covid hit. I have the video. I have the video. Repeat, I have the video. He knew it was coming. That alone blows any theory about "naturally jumping from bats to humans" out of the water. Or did the bats tell him? And we've since learned about Fauci's lies concerning NIH funding of the gain-of-function research in the Wuhan labs. What more do you need to know that this pandemic is a plandemic, engineered by some not-so-nice people. This happened in China. Hello. The NIH was financially involved. Why? What good purpose is served by clandestine involvement in developing a new coronavirus? Whether it was intended or not, the covid fear mongering resulted in unconstitutional voting laws in the swing states. Doesn't that raise a flag? Of course it does. That alone should have been sufficient to challenge the delegates on Jan 6, but no, there was an "insurrection", allegedly organized by Trump himself, that resulted in the House "certifying" Brandon in the dead of night. And the Senate Republicans said NOTHING. We've since seen that Trump did nothing to incite anything, hence the deep state and the media were pushing their own conspiracy theory. Did you buy into that one? Most of us now know there was no real insurrection anyway, unless it was engineering by the deep state to cast further accusations against President Trump. Has this escaped your attention, because you watch only CBS?

I've used the current state of things in the USA to point out why I think there was fraud in 2020. So far I've touched on covid as a possible way to establish control over the people, through fear.

Does that prove fraud? no, but it certainly suggests the deep state have no scruples whatsoever. Are there other factors that point to fraud?

*Organic fraud has been going on for a long time now. Fraud is used in elections. Democracy, the favorite word of Democrats, is not really represented, no matter which side of the fence you're on. All that's different now is that technology has made electronic fraud much more practical (safer). If you know that fraud has always been used, why would you doubt that maybe the 2020 election was stolen? Do you think W stole Florida in 2000? I think so. The only real difference is that before Trump came along, all we had were "choices" between hand-picked deep state "candidates". In other words, the fraud was irrelevant as to who got "elected", because establishment R and D are no different when it comes to "protecting" individual liberty. They want us ALL under their collective thumb. Then, when Trump got elected, things got messy for the deep state. There's some pushback being done "by the book", but it's happening veeeeeeery slowly. Maybe too slowly. All I know is, Trump drew crowds of 50,000 in cornfields, and Brandon couldn't get 500 in major cities. He stayed in his basement. I think the fix was in, so he knew he didn't have to campaign. This is why I don't think the GOP will take back control in 2022. We'll see.

I'll get to Trump at the end of this.

*There are plenty of reports about voting irregularities, enough to possibly swing the results, but these are dismissed as conspiracy theories, the favorite tactic of the deep state. The "Russia collusion" turned out to be something engineered by HRC herself. It's a conspiracy theory by whose standard? Here's a case in point, the 23,000 voters in Wisconsin with the same phone number. That's an obvious irregularity that needs to be investigated, but the explanation here, <https://leadstories.com/hoax-alert/2021/10/fact-check-23000-voters-registered-with-same-wisconsin-number-not-proof-of-election-fraud.html> attributes it to a "glitch". That fails to disprove anything, and in fact, only confirms the claim of 23,000 with the same phone number. It needs to be looked into. Before 2022.

*The obvious desperation of the deep state to eliminate Donald Trump from society altogether speaks volumes. It doesn't prove voter fraud, but it surely says the Democrats/deep state would sink to that level, because voter fraud is pretty well established, and has been for decades.

*The results of Seth Keshel and others are illuminating to everyone except for those who watch only CBS. Some people actually watch MSNBC. Wow.

*The mere suggestion that fraud occurred in Counties that went Trump is met with resentment from election officials, who hold themselves "above reproach", for believing that the voting tabulators can't be connected to the internet. The verdict is still out on that in my locale, but it's going sloooooow.

*We're told the 2020 election is the safest and most secure in history. You really believe that one? The only way that's true is if it's the safest to get the Democrat trifecta. Something's definitely fishy here.

*We're getting reports of more States than just Arizona who are demanding audits.

*There are reports that SCOTUS is willing to at least hear some of these cases. Voter integrity is at stake here, and if the perpetrators can prevent it or stall it long enough, they will remain "in power" unless it gets fixed before 2022.

I understand, there's no actual bulletproof proof of fraud that would overturn anything, but there are sufficient irregularities to demand audits, and it's odds on that any fraud would have favored Brandon (anyone but Trump), and it keeps getting dismissed by those who call it the safest election in history. It stinks to high heaven.

I said I'd address Trump.

Up 'til the plandemic, he delivered and delivered and kept delivering on his campaign promises. That's near unprecedented. Does that offend you? Why, when all the Democrats and most Republicans did was to try anything, by hook or by crook, to get rid of him. Then came the plandemic, and his handling of covid is a question mark, but there's nothing to actually show he's complicit. I'm cynical enough to think he might be, but the attitude of the deep state toward him gives him the benefit of the doubt. He couldn't really have handled it any differently and maintain any "credibility". And now he's in the news again, despite attempts to make sure he's irrelevant. I give him no chance of winning in 2024 unless voter fraud is properly addressed before then. It will just be a repeat of 2020. We may see proof of that in 2022 if the Democrats keep control of both chambers despite Brandon's sinking numbers. The people want a return to a good economy, and jobs, etc, and they want Trump or someone like him. We'll see how 2022 goes.

Here are three links, all from Google, about the Montana redistricting due to enough people moving here to require an additional House Rep. Montana is generally red (reddish purple), and the deep state has Montana in it's sights, and this took participation by a lot of citizens to swing things. Our thanks to Maylin Smith and Debbie Churchill. This activism will work in any State if enough people get involved.

<https://abcnews.go.com/Politics/wireStory/dems-disappointed-final-montana-congressional-districts-81066887>

<https://nbcmontana.com/news/local/dems-disappointed-with-final-montana-congressional-districts>

<https://theadbeacon.com/2021/11/09/dems-disappointed-with-final-montana-congressional-districts/>

And it appears that officials are starting to pay attention to these voting tabulators, thanks again to people rising up and demanding action. That can work in any State, but people need to speak up. This is about voter integrity. If that's ignored, democracy is only a meaningless word to exploit the people, which is what modern politicians nearly uniformly do in Washington. If Chuck Schumer set foot on my property, he'd be escorted off at gunpoint.

*The mere suggestion that fraud occurred in Counties that went Trump is met with resentment from election officials, who hold themselves "above reproach", for believing that the voting tabulators can't be connected to the internet. The verdict is still out on that in my locale, but it's going sloooooow.

*We're told the 2020 election is the safest and most secure in history. You really believe that one? The only way that's true is if it's the safest to get the Democrat trifecta. Something's definitely fishy here.

*We're getting reports of more States than just Arizona who are demanding audits.

*There are reports that SCOTUS is willing to at least hear some of these cases. Voter integrity is at stake here, and if the perpetrators can prevent it or stall it long enough, they will remain "in power" unless it gets fixed before 2022.

I understand, there's no actual bulletproof proof of fraud that would overturn anything, but there are sufficient irregularities to demand audits, and it's odds on that any fraud would have favored Brandon (anyone but Trump), and it keeps getting dismissed by those who call it the safest election in history. It stinks to high heaven.

I said I'd address Trump.

Up 'til the pandemic, he delivered and delivered and kept delivering on his campaign promises. That's near unprecedented. Does that offend you? Why, when all the Democrats and most Republicans did was to try anything, by hook or by crook, to get rid of him. Then came the pandemic, and his handling of covid is a question mark, but there's nothing to actually show he's complicit. I'm cynical enough to think he might be, but the attitude of the deep state toward him gives him the benefit of the doubt. He couldn't really have handled it any differently and maintain any "credibility". And now he's in the news again, despite attempts to make sure he's irrelevant. I give him no chance of winning in 2024 unless voter fraud is properly addressed before then. It will just be a repeat of 2020. We may see proof of that in 2022 if the Democrats keep control of both chambers despite Brandon's sinking numbers. The people want a return to a good economy, and jobs, etc, and they want Trump or someone like him. We'll see how 2022 goes.

Here are three links, all from Google, about the Montana redistricting due to enough people moving here to require an additional House Rep. Montana is generally red (reddish purple), and the deep state has Montana in it's sights, and this took participation by a lot of citizens to swing things. Our thanks to Maylin Smith and Debbie Churchill. This activism will work in any State if enough people get involved.

<https://abcnews.go.com/Politics/wireStory/dems-disappointed-final-montana-congressional-districts-81066887>

<https://nbcmontana.com/news/local/dems-disappointed-with-final-montana-congressional-districts>

<https://flatheadbeacon.com/2021/11/09/dems-disappointed-with-final-montana-congressional-districts/>

And it appears that officials are starting to pay attention to these voting tabulators, thanks again to people rising up and demanding action. That can work in any State, but people need to speak up. This is about voter integrity. If that's ignored, democracy is only a meaningless word to exploit the people, which is what modern politicians nearly uniformly do in Washington. If Chuck Schumer set foot on my property, he'd be escorted off at gunpoint.

Hello! We are excited that you are joining us for NCSL's Redistricting Seminar 2021. Please read this email as it contains important information regarding your access to the seminar platform.

Getting Started:

You will be able to access the NCSL Redistricting Seminar lobby starting at 10:15 a.m. EST on Jan. 6, 2021, by clicking on the event link below. Opening remarks will start promptly at 10:30 a.m. EST.

Event link: <https://spvirtualexperiences.com/NCSL>

Please use the email address you used to register, and the password below to log in:

Your Password: NCSL2021

Let's test your access now! Please click on the event link now to confirm that you can see the NCSL Redistricting Seminar lobby. If you have trouble logging in, or cannot see the landing page, please contact spvirtualteam@gmail.com for help.

<https://www.spvirtualexperiences.com/ncslcdc/>

On the day of the event, you can engage with fellow attendees using the chat feature. Be sure to write your full name in the "nickname" box when prompted in chat.

Thursday's Democratic and Republican Breakouts

Democrats and Republicans may want to spend time together thinking about redistricting ahead. These sessions are for legislators and partisan staff.

To get login information for these ancillary events:

Republicans, please contact Sonja Kiefer at the National Republican Redistricting Trust (sonja@republicanredistricting.org).

Democrats, please contact Jeff Wice at the National Democratic Redistricting Committee (wice@democraticredistricting.com).

Friday Session: The Constitutional Convention: A Madisonian Case Study

This session by Professor David Moss will only be available live. Look for a follow-up email with resources to review before the session and be ready to participate in this interactive discussion!

Want More?

[Sign up for NCSL's redistricting distribution list.](#) We share news about the census and major redistricting events and send a monthly news round-up and information about NCSL events. If you'd like to be added to the list, email Christi Zamarripa at christi.zamarripa@ncsl.org.

Fwd: NCSL - Minority Representation Question

From : Kendra Miller <kendra.miller@mtleg.gov>

Fri, Jan 08, 2021 05:14 PM

Subject : Fwd: NCSL - Minority Representation Question

To : Joe Lamson <joe.lamson@mtleg.gov>

Interesting stats here on minority representation. During the conference I was thinking he was talking more specifically about majority-minority districts, but the stat looks at total non-white percentage statewide vs. minority legislators. Interesting nonetheless.

Subject: RE: NCSL - Minority Representation Question

Kendra,

Thanks for your kind note.

What I did was use an NCSL website for the demographics of the legislature and a Census Bureau website for the demographics of the adult citizen population (citizen voting-age population, or CVAP).

Here's the NCSL site: <https://www.ncsl.org/research/about-state-legislatures/state-legislator-demographics.aspx>

Here's the Census Bureau site: https://www.census.gov/library/visualizations/2016/comm/citizen_voting_age_population.html

Here's the Census Bureau site for a specific state (using Montana as an example): https://www.census.gov/library/visualizations/2016/comm/citizen_voting_age_population/cb16-rs18-montana.html

Again, using Montana as an example, the Bureau shows the "White Alone, Not Hispanic or Latino" percentage for the state's adult citizens to be 89.2%; and NCSL shows the legislature to be 91% "White/Caucasian." So this is pretty close to proportional; but since the minority percentage in the state's adult citizen population (10.8%) is higher than the minority percentage in the legislature (9%), Montana was one of the 47 states where minority adult citizens were (at least somewhat) underrepresented in the legislature.

The three states where minority group members had a higher percentage in the legislature than in the state's adult citizen population (again, relying solely on these two sources) were Arizona, Hawaii, and Ohio. Although the direction of the relationship was the opposite of Montana (and 46 other states), the magnitude of the difference was, as in Montana, quite small in those three states:

Arizona (34.4% minority CVAP, 38% minority legislators)

Hawaii (73.2% minority CVAP, 76% minority legislators)

Ohio (16.7% minority CVAP, 18% minority legislators)

Other states had much more significant underrepresentation of minority adult citizens. For example, the state we discussed most today, Texas, is about 47% minority in CVAP, but only 36% minority in the legislature.

Regardless of the extent of any disproportionality, I think it's interesting that the breakdown was so lopsided, at 47 states versus 3 states. And of course the same holds true in both chambers of Congress.

Also, to be clear, and as Moon and I both explained this afternoon, the Voting Rights Act focuses on whether candidates are minority-preferred, not whether they belong to a minority group. So everything I'm writing about in this email (focusing on the demographics of the successful candidates who serve in the legislature) deals with an issue that, while not irrelevant, is certainly not identical to the Act's main concern.

Does this answer your question?

Again, thanks for writing -- and thanks for attending our session!

All the best,

Sam

Mr. Hirsch,

I was in the audience of your Audit the Class presentation with Moon Duchin during NCSL's redistricting conference today. It was excellent! Thank you so much for joining and sharing your insights.

You mentioned that your research showed that 47 out of 50 states do not have proportional minority representation in their Legislatures. I'm hoping you can tell me the 3 that do and share any information that you have in that area.

Thanks again for sharing your expertise at the conference today.

Here's the Census Bureau site: https://www.census.gov/library/visualizations/2016/comm/citizen_voting_age_population.html

Here's the Census Bureau site for a specific state (using Montana as an example): https://www.census.gov/library/visualizations/2016/comm/citizen_voting_age_population/cb16-tos18_montana.html

Again, using Montana as an example, the Bureau shows the "White Alone, Not Hispanic or Latino" percentage for the state's adult citizens to be 89.2%; and NCSL shows the legislature to be 91% "White/Caucasian." So this is pretty close to proportional; but since the minority percentage in the state's adult citizen population (10.8%) is higher than the minority percentage in the legislature (9%), Montana was one of the 47 states where minority adult citizens were (at least somewhat) underrepresented in the legislature.

The three states where minority group members had a higher percentage in the legislature than in the state's adult citizen population (again, relying solely on these two sources) were Arizona, Hawaii, and Ohio. Although the direction of the relationship was the opposite of Montana (and 46 other states), the magnitude of the difference was, as in Montana, quite small in those three states:

Arizona (34.4% minority CVAP, 38% minority legislators)

Hawaii (73.2% minority CVAP, 76% minority legislators)

Ohio (16.7% minority CVAP, 18% minority legislators)

Other states had much more significant underrepresentation of minority adult citizens. For example, the state we discussed most today, Texas, is about 47% minority in CVAP, but only 36% minority in the legislature.

Regardless of the extent of any disproportionality, I think it's interesting that the breakdown was so lopsided, at 47 states versus 3 states. And of course the same holds true in both chambers of Congress.

Also, to be clear, and as Moon and I both explained this afternoon, the Voting Rights Act focuses on whether candidates are minority-preferred, not whether they belong to a minority group. So everything I'm writing about in this email (focusing on the demographics of the successful candidates who serve in the legislature) deals with an issue that, while not irrelevant, is certainly not identical to the Act's main concern.

Does this answer your question?

Again, thanks for writing -- and thanks for attending our session!

All the best,

Sam

External Email - Exercise Caution

Mr. Hirsch,

I was in the audience of your Audit the Class presentation with Moon Duchin during NCSL's redistricting conference today. It was excellent! Thank you so much for joining and sharing your insights.

You mentioned that your research showed that 47 out of 50 states do not have proportional minority representation in their Legislatures. I'm hoping you can tell me the 3 that do and share any information that you have in that area.

Thanks again for sharing your expertise at the conference today.

Subject: RE: Block-Level Census Data Released in August

Hello Kendra,

Thanks for reaching out. I hope all's well in Helena.

The data format that is being released in late August is the same format the data was in during the last decade, so if you have any data folks on staff who did redistricting ten years ago, they will be familiar with the format and should be able to use it without issue. In terms of data quality, it's identical to the data that will be released by September 30—no difference in the numbers. Only the format is different. Wendy or Christi can chime in if I've missed any finer details.

Incidentally, we're having a discussion about this later today on our biweekly "Office Hours" call. If you'd like to join, you can do so by clicking at the link below. The call starts at 1pm MT:

<https://ncsl.zoom.us/j/93456701747?pwd=QIRhTkZlV0hUeGYwUUpOeitiZFhQOT09#success>

The discussion will be led by Kim Brace of Election Data Services. He's on a Census advisory board and has regular contact with James Whitehorn and other staffers at the Bureau. He'll take questions at the end of his presentation.

Would you be able to attend? We typically do not record office hours calls to facilitate a better conversation—some folks are more willing to ask questions if they know they won't be published online later.

I hope this helps!

Best,

Ben

P.S.: Hello Commissioner Lamson! I hope you're well.

Subject: [EXTERNAL] Block-Level Census Data Released in August

Wendy, Christi and Ben,

I wanted to reach out about the timing of the release of the PL 94-171 data set. I've cc'd Joe Lamson, one of my colleagues on the Montana redistricting commission. Like everyone following the Census saga from a redistricting perspective, I recently saw via court documents that it appears some form of the block-level redistricting data may be available in mid to late-August (prior to the official data release September 30th). I've tried to research a little, but it's very unclear to me what that format is and whether it would be useable or carry a higher risk of error than the format released at the end of September. I don't believe the Census Bureau has put out a formal statement, so part of the problem is likely that this information is coming out through court documents, and I'm hoping that the Bureau will further clarify. Does NCSL have any information on how the August data format differs from the Bureau's planned release at the end of September? If not, as I know this is a developing story, do you think NCSL will have a call to explain and discuss this once the Bureau releases more information?

I have really appreciated the Census update calls that you host, hearing from James Whitehorn, etc. I think more clear information from the Bureau on this August release of the block-level data would be very helpful to redistricters. I recognize there is an ongoing legal battle, so maybe they aren't willing to discuss the issue at this point in time. But as more information comes to light, it would be extremely helpful if we could get clarity on how useable the August data will be. It seemed to me that the Census Bureau didn't really want redistricters using the August data or they would have given that as the expected release date rather than September 30th. If they don't want states using that format, I assume there's a good reason and it would be helpful to understand their perspective and recommendations.

Thanks for all you do to keep up informed. This is my first redistricting cycle hearing from NCSL. I'm sure your support and guidance is helpful in all redistricting cycles, but I can't imagine a cycle where states are more in need of NCSL than 2020. The Census saga continues...} Thanks for being so prompt in passing along the latest information!

Subject: RE: Block-Level Census Data Released in August

Hello Kendra,

Thanks for reaching out. I hope all's well in Helena.

The data format that is being released in late August is the same format the data was in during the last decade, so if you have any data folks on staff who did redistricting ten years ago, they will be familiar with the format and should be able to use it without issue. In terms of data quality, it's identical to the data that will be released by September 30—no difference in the numbers. Only the format is different. Wendy or Christi can chime in if I've missed any finer details.

Incidentally, we're having a discussion about this later today on our biweekly "Office Hours" call. If you'd like to join, you can do so by clicking at the link below. The call starts at 1pm MT:

<https://ncsl.zoom.us/j/93456701747?pwd=QlRkTkZlV0hUeGYwUUpQeUdZFlaQT02#success>

The discussion will be led by Kim Brace of Election Data Services. He's on a Census advisory board and has regular contact with James Whitehorn and other staffers at the Bureau. He'll take questions at the end of his presentation.

Would you be able to attend? We typically do not record office hours calls to facilitate a better conversation—some folks are more willing to ask questions if they know they won't be published online later.

I hope this helps!

Best,

Ben

P.S.: Hello Commissioner Lamson! I hope you're well.

Hello all,
 Sorry for the delay in sending this calendar out to you. I've added Commissioner Essmann's commitments. If you know of dates that don't work for your current plans feel free to send those to me. I'll add them to the calendar. As much as possible, I'll use Doodle polls to give the Presiding Officer details on what dates/times are best for specific meetings. This calendar just helps us start narrowing down potential dates. Also, staff is mostly keeping October through December free to account for the 90-day congressional timeline.
 Thanks and let me know if you have questions.
 Sincerely,

Rachel Weiss

Dear Chair and Commissioners,

I am writing to urge us to start working on a schedule for meetings for the Commission to set criteria for our congressional and legislative redistricting efforts.

At Kendra's suggestion the Commission had decided that we needed to hold hearings and adopt criteria prior to the receipt of data. Now that the Census Bureau has decided to issue data in mid August our time is getting limited.

Even though the data will not be in final format in August, I believe we should have our criteria set before then. With the stakes so high, it is best that the decisions on criteria be made based on policy rather than an attempt to game the system. I hope that remains our mutual goal.

I have informed Rachel of one travel commitment I made prior to this recent Census announcement, but I expect we will all be facing those issues soon.

So I urge the Chair to begin the process of allowing us to put together a schedule so we can begin our work. I look forward to hearing from you all.

Thank you.

Commissioner Jeff Essmann

Good to hear from you, Commissioner Essmann. Hope you and everyone else on the chain are well. I'm very flexible May through August. Rachel, I'm sure you're swamped right now with the session, but would it be possible to get one of those calendars circulated like you did last year with dates blocked out that staff and commissioners are unavailable? With legislative staff working overtime during the session, I expect that you will have all earned some well-deserved vacation time that you're using throughout the summer. I thought that calendar was a good starting point when we were planning our previous meetings.

Subject: Spring and Summer meeting schedule

Dear Chair and Commissioners,

I am writing to urge us to start working on a schedule for meetings for the Commission to set criteria for our congressional and legislative redistricting efforts.

At Kendra's suggestion the Commission had decided that we needed to hold hearings and adopt criteria prior to the receipt of data. Now that the Census Bureau has decided to issue data in mid August our time is getting limited.

Even though the data will not be in final format in August, I believe we should have our criteria set before then. With the stakes so high, it is best that the decisions on criteria be made based on policy rather than an attempt to game the system. I hope that remains our mutual goal.

I have informed Rachel of one travel commitment I made prior to this recent Census announcement, but I expect we will all be facing those issues soon.

So I urge the Chair to begin the process of allowing us to put together a schedule so we can begin our work. I look forward to hearing from you all.

Thank you.

Commissioner Jeff Essmann

Not that I know of and I think that's unlikely. The Commission utilizes legislative staff and they are understandably swamped with the last week of the session. I do know that we're tentatively planning on meeting in May, but we don't have that date locked down yet. When we do select a date, it will be publicly noticed at least ten days prior.

Hi Sierra,

Hope you're well. As we prepare for redistricting here in Montana, I wanted to make sure you have a current list of Native legislators in the Montana legislature. I've attached the list with current legislators, as well as historic. I'm not sure how the makeup of legislatures in other states changed with the 2020 election, so if you compile that data for the rest of the country and have any updates, I'd love to know how Montana stacks up. With 12 Native legislators out of 150 legislative districts, we are at 8% of the Legislature (proportional to our 8% total American Indian population according to 2010 Census numbers). We'll find out shortly how that has changed with 2020 Census figures.

Hi Sierra,

Hope things are going well. I wanted to circle back with you. Our redistricting commission is meeting again this month, and we are likely to discuss the Voting Rights Act and its impact on Native American voting rights and representation in Montana. It looks like the [Native Vote Infographic Brochure](#) online still has Montana listed with 12 Native legislators instead of 11. Any chance you have an updated copy that you could send me that isn't posted online? Or any chance you could make that one small edit from 12 to 11 and share the updated copy with me?

It's such a great national overview that highlights the importance of the Voting Rights Act to redistricting in Montana. I'm hoping to share it with the rest of the Commission as we discuss the criteria we will use for the upcoming round of redistricting.

Thanks!

The list is attached. When I was compiling it, I actually came across a few errors from the counts listed on the MT Legislative website. Everything looked right back to 2003, but there were three sessions before that where their figures were incorrect. Those years are highlighted in red on the spreadsheet.

Hope this helps. Let me know if you have any questions.

Sierra,

Thank you so much for the quick and detailed response. I really appreciate the information on your data sources, as well as the information about the Census-related session at your annual conference.

Senator Lea Whitford served in the House (HD 16) for one 2-year term from 2013-2014. She then ran for the Senate (SD 8) in 2014 and served one 4-year term from 2015-2018. She didn't run again in 2018, and Sen. Susan Webber now represents SD 8 (her term will be 2019-2022). I'd love to get a copy of that updated document when you make changes so I can use it in the future.

MT-MDAC-21-1688-B-000267

If I find any additional historical figures about Native legislators as I continue to research, I'll definitely send them your way.

Thanks again!

Subject: Re: Native Vote Fast Facts

Good afternoon Ms. Miller,

My name is Sierra Watt, fellow at NCAI's Policy Research Center. I am writing to answer some of your questions about our Native Vote infographic.

1. For your first question, the fast facts document was made with information from the National Congress of State Legislatures (NCSL), which lists Montana as having 12 Native legislators and Oklahoma with 13. This data was provided by NCSL in August, 2019. Montana's proportional level of representation is absolutely something to celebrate.
2. For your second question, your list matches ours with one exception. It appears that your list does not include Senator Lea Whitford, who leaves office at the end of this year. Please let us know if this is not the case. At present we plan to do another update to our Native Vote materials so it will be up to date for 2020 at the end of this year.
3. For your last question, we wish we had historical data on Native legislators. Some of the historical figures are compiled in David Wilkin's textbook "American Indian Politics and the American Political System" for specific years. He notes [National Caucus of Native American State Legislators \(NCCASL\)](#) as a source for this information. At present this information is still something we are working on collecting. Thank you for sharing the Montana figures! What excellent data! If I have success in gathering national data from past years, I will let you know, and please let me know if you find that data as well.

Also, I have copied my colleague Saundra Mitrovich to this email. She works on civic engagement, specifically Native Vote. She asked that I share some information with you on our upcoming Native Vote session at our annual conference:

Sunday, October 20, 2019

9:00am – 4:00pm

Pre-Session Title: Developing Your Civic Engagement Plan of Action

Summary:

In this session, we encourage people involved in voter engagement and Census 2020 work within their tribal nations to participate in an interactive workshop focused on developing a civic engagement plan of action for their community. Different resources will be shared; tactics for increasing voter registration and increasing your overall count for community will be discussed. Materials will include an afternoon of developing social media campaign toolkits and some sample Get out the Native Vote and Indian Country Counts materials. Please bring a laptop or tablet to this session.

Facilitators/Presenters: NCAI Civic Engagement Team, ITCA, 4 Direction, PLAN, Create A Thon Labs, and NCAI PRC Staff

Thank you for reaching out. We are glad you have found the infographic useful. Please don't hesitate to be in touch in the future. It was a pleasure speaking with you.

 Subject: Native Vote Fast Facts

Hi Yvette,

I'm hoping to get some information from your Every Native Vote Counts campaign. Apologies if I'm not sending this to the right person. I tried to use the feedback form on the NCAI website, but I haven't gotten a response so I'm hoping you can help send me to the right person at NCAI. I thought your title of Research made the most sense from the staff directory.

On the NCAI website under the Native Vote campaign, there is a Native Vote Fast Facts document. It has excellent graphics comparing Native voting age populations and representation by state. I serve on the Commission that will redistrict in Montana after 2020 and am hoping to check some information and maybe get more stats from you. It looks like Montana has the second most Native legislators, with Oklahoma being first with 13. I wanted to confirm with you that those figures are current. I believe Montana currently has 11 Native legislators, not the 12 that are listed.

- HD 15 Marvin Weatherwax Jr
- HD 16 Tyson Running Wolf
- HD 24 Barbara Bessette
- HD 32 Jonathan Windy Boy
- HD 41 Rae Peppers
- HD 42 Sharon Stewart Perego
- HD 50 Jade Bahr
- HD 95 Shane Morigeau
- SD 8 Susan Webber
- SD 16 Frank Smith
- SD 21 Jason Small

If there are 12, I was hoping to figure out who I'm missing from the list. Or if it's a typo on that document, get an updated copy of the PDF with the correct figure listed. It's an excellent nation-wide view that I'd like to disseminate as we discuss redistricting in Montana so I'm hoping I can use it. Eleven Native legislators is the most ever to serve in the Montana legislature and, for the first time ever, proportionate to the 7% Native voting age population in Montana (according to 2010 Census figures). I think this statistic is something Montana should be very proud of and hope we will continue this progress in the future.

It's helpful to compare Montana to other states with large Native populations, so I have three requests:

1. I want to verify with you that the figures are current and Montana is second to Oklahoma in terms of Native legislators.
2. I'm hoping you can double-check the "12" figure for Montana and tell me if I'm missing anyone from my list of 11.
3. It would be helpful to show how Native representation has changed over time. Do you have figures for the number of Native legislators nationally from previous years? I have Montana figures (<https://leg.mt.gov/civic-education/facts/american-indian-legislators/>), but I don't know where to find national figures.

Thanks for any help you can provide me.

Dear Kendra,

You read my mind; that was on my to-do list for after an event we had earlier this week! Our team updated it today with the Montana information, and the new file is with our IT team, so they can update the link soon. Once again, I really appreciate you reaching out and hope the product is useful for you and your contacts! I hope the meeting goes well for such a key issue! Don't hesitate to reach out again in the future.

Thank you,
Sierra Watt

Hi Sierra,

Hope things are going well. I wanted to circle back with you. Our redistricting commission is meeting again this month, and we are likely to discuss the Voting Rights Act and its impact on Native American voting rights and representation in Montana. It looks like the [Native Vote Infographic Brochure](#) online still has Montana listed with 12 Native legislators instead of 11. Any chance you have an updated copy that you could send me that isn't posted online? Or any chance you could make that one small edit from 12 to 11 and share the updated copy with me?

It's such a great national overview that highlights the importance of the Voting Rights Act to redistricting in Montana. I'm hoping to share it with the rest of the Commission as we discuss the criteria we will use for the upcoming round of redistricting.

Thanks!

Sierra,

Thank you so much for the quick and detailed response. I really appreciate the information on your data sources, as well as the information about the Census-related session at your annual conference.

Senator Lea Whitford served in the House (HD 16) for one 2-year term from 2013-2014. She then ran for the Senate (SD 8) in 2014 and served one 4-year term from 2015-2018. She didn't run again in 2018, and Sen. Susan Webber now represents SD 8 (her term will be 2019-2022). I'd love to get a copy of that updated document when you make changes so I can use it in the future.

MT-MDAC-21-1688-B-000271

If I find any additional historical figures about Native legislators as I continue to research, I'll definitely send them your way.

Thanks again!

Subject: Re: Native Vote Fast Facts

Good afternoon Ms. Miller,

My name is Sierra Watt, fellow at NCAI's Policy Research Center. I am writing to answer some of your questions about our Native Vote infographic.

1. For your first question, the fast facts document was made with information from the National Congress of State Legislatures (NCSL), which lists Montana as having 12 Native legislators and Oklahoma with 13. This data was provided by NCSL in August, 2019. Montana's proportional level of representation is absolutely something to celebrate.
2. For your second question, your list matches ours with one exception. It appears that your list does not include Senator Lea Whitford, who leaves office at the end of this year. Please let us know if this is not the case. At present we plan to do another update to our Native Vote materials so it will be up to date for 2020 at the end of this year.
3. For your last question, we wish we had historical data on Native legislators. Some of the historical figures are compiled in David Wilkin's textbook "American Indian Politics and the American Political System" for specific years. He notes [National Caucus of Native American State Legislators \(NCCASL\)](#) as a source for this information. At present this information is still something we are working on collecting. Thank you for sharing the Montana figures! What excellent data! If I have success in gathering national data from past years, I will let you know, and please let me know if you find that data as well.

Also, I have copied my colleague Saundra Mitrovich to this email. She works on civic engagement, specifically Native Vote. She asked that I share some information with you on our upcoming Native Vote session at our annual conference:

Sunday, October 20, 2019

9:00am – 4:00pm

Pre-Session Title: Developing Your Civic Engagement Plan of Action

Summary:

In this session, we encourage people involved in voter engagement and Census 2020 work within their tribal nations to participate in an interactive workshop focused on developing a civic engagement plan of action for their community. Different resources will be shared; tactics for increasing voter registration and increasing your overall count for community will be discussed. Materials will include an afternoon of developing social media campaign toolkits and some sample Get out the Native Vote and Indian Country Counts materials. Please bring a laptop or tablet to this session.

Facilitators/Presenters: NCAI Civic Engagement Team, ITCA, 4 Direction, PLAN, Create A Thon Labs, and NCAI PRC Staff

Thank you for reaching out. We are glad you have found the infographic useful. Please don't hesitate to be in touch in the future. It was a pleasure speaking with you.

Hi Sierra,

Hope things are going well. I wanted to circle back with you. Our redistricting commission is meeting again this month, and we are likely to discuss the Voting Rights Act and its impact on Native American voting rights and representation in Montana. It looks like the [Native Vote Infographic Brochure](#) online still has Montana listed with 12 Native legislators instead of 11. Any chance you have an updated copy that you could send me that isn't posted online? Or any chance you could make that one small edit from 12 to 11 and share the updated copy with me?

It's such a great national overview that highlights the importance of the Voting Rights Act to redistricting in Montana. I'm hoping to share it with the rest of the Commission as we discuss the criteria we will use for the upcoming round of redistricting.

Thanks!

Dear Kendra,
Thank you for sharing this information—this is great! I have reached out to a handful of contacts to try and get additional information for other states and will keep you posted on what I can gather!

Have a great start to the week,
Sierra

The list is attached. When I was compiling it, I actually came across a few errors from the counts listed on the MT Legislative website. Everything looked right back to 2003, but there were three sessions before that where their figures were incorrect. Those years are highlighted in red on the spreadsheet.

Hope this helps. Let me know if you have any questions.

I don't have a list and don't see one online through MT Leg, but I should be able to put together at least the last few sessions. I can probably find someone with longer institutional knowledge than I who can help me with the 1990s too. I'll work on putting together a list and get it to you sometime next week.

Dear Kendra,
Thank you for the explanation. We really appreciate it and will let you know when our Native Vote information is updated (that is a major priority for November).

Quick question, do you have the names of the individuals who served in the Montana legislature from the civic engagement page for previous years?

Once again, I'm glad that you reached out,
Sierra Watt

Sierra,

Thank you so much for the quick and detailed response. I really appreciate the information on your data sources, as well as the information about the Census-related session at your annual conference.

Senator Lea Whitford served in the House (HD 16) for one 2-year term from 2013-2014. She then ran for the Senate (SD 8) in 2014 and served one 4-year term from 2015-2018. She didn't run again in 2018, and Sen. Susan Webber now represents SD 8 (her term will be 2019-2022). I'd love to get a copy of that updated document when you make changes so I can use it in the future.

If I find any additional historical figures about Native legislators as I continue to research, I'll definitely send them your way.

Thanks again!

Subject: Re: Native Vote Fast Facts

Good afternoon Ms. Miller,
My name is Sierra Watt, fellow at NCAI's Policy Research Center. I am writing to answer some of your questions about our Native Vote infographic.

1. For your first question, the fast facts document was made with information from the National Congress of State Legislatures (NCSL), which lists Montana as having 12 Native legislators and Oklahoma with 13. This data was provided by NCSL in August, 2019. Montana's proportional level of representation is absolutely something to celebrate.
2. For your second question, your list matches ours with one exception. It appears that your list does not include Senator Lea Whitford, who leaves office at the end of this year. Please let us know if this is not the case. At present we plan to do another update to our Native Vote materials so it will be up to date for 2020 at the end of this year.
3. For your last question, we wish we had historical data on Native legislators. Some of the historical figures are compiled in David Wilkin's textbook "American Indian Politics and the American Political System" for specific years. He notes [National Caucus of Native American State Legislators \(NCSL\)](#) as a source for this information. At present this information is still something we are working on collecting. Thank you for sharing the Montana figures! What excellent data! If I have success in gathering national data from past years, I will let you know, and please let me know if you find that data as well.

Also, I have copied my colleague Saundra Mitrovich to this email. She works on civic engagement, specifically Native Vote. She asked that I share some information with you on our upcoming Native Vote session at our annual conference:

Sunday, October 20, 2019
9:00am – 4:00pm
Pre-Session Title: Developing Your Civic Engagement Plan of Action
Summary:

In this session, we encourage people involved in voter engagement and Census 2020 work within their tribal nations to participate in an interactive workshop focused on developing a civic engagement plan of action for their community. Different resources will be shared; tactics for increasing voter registration and increasing your overall count for community will be discussed. Materials will include an afternoon of developing social media campaign toolkits and some sample Get out the Native Vote and Indian Country Counts materials. Please bring a laptop or tablet to this session.

Facilitators/Presenters: NCAI Civic Engagement Team, ITCA, 4 Direction, PLAN, Create A Thon Labs, and NCAI PRC Staff

Thank you for reaching out. We are glad you have found the infographic useful. Please don't hesitate to be in touch in the future.
It was a pleasure speaking with you,

 Subject: Native Vote Fast Facts

Hi Yvette,

I'm hoping to get some information from your Every Native Vote Counts campaign. Apologies if I'm not sending this to the right person. I tried to use the feedback form on the NCAI website, but I haven't gotten a response so I'm hoping you can help send me to the right person at NCAI. I thought your title of Research made the most sense from the staff directory.

On the NCAI website under the Native Vote campaign, there is a Native Vote Fast Facts document. It has excellent graphics comparing Native voting age populations and representation by state. I serve on the Commission that will redistrict in Montana after 2020 and am hoping to check some information and maybe get more stats from you. It looks like Montana has the second most Native legislators, with Oklahoma being first with 13. I wanted to confirm with you that those figures are current. I believe Montana currently has 11 Native legislators, not the 12 that are listed.

- HD 15 Marvin Weatherwax Jr
- HD 16 Tyson Running Wolf
- HD 24 Barbara Bessette
- HD 32 Jonathan Windy Boy
- HD 41 Rae Peppers
- HD 42 Sharon Stewart Perego
- HD 50 Jade Bahr
- HD 95 Shane Morigeau
- SD 8 Susan Webber
- SD 16 Frank Smith
- SD 21 Jason Small

If there are 12, I was hoping to figure out who I'm missing from the list. Or if it's a typo on that document, get an updated copy of the PDF with the correct figure listed. It's an excellent nation-wide view that I'd like to disseminate as we discuss redistricting in Montana so I'm hoping I can use it. Eleven Native legislators is the most ever to serve in the Montana legislature and, for the first time ever, proportionate to the 7% Native voting age population in Montana (according to 2010 Census figures). I think this statistic is something Montana should be very proud of and hope we will continue this progress in the future.

It's helpful to compare Montana to other states with large Native populations, so I have three requests:

1. I want to verify with you that the figures are current and Montana is second to Oklahoma in terms of Native legislators.
2. I'm hoping you can double-check the "12" figure for Montana and tell me if I'm missing anyone from my list of 11.
3. It would be helpful to show how Native representation has changed over time. Do you have figures for the number of Native legislators nationally from previous years? I have Montana figures (<https://leg.mt.gov/civic-education/facts/american-indian-legislators/>), but I don't know where to find national figures.

Thanks for any help you can provide me.

 Subject: Native Vote Fast Facts

Hi Yvette,

I'm hoping to get some information from your Every Native Vote Counts campaign. Apologies if I'm not sending this to the right person. I tried to use the feedback form on the NCAI website, but I haven't gotten a response so I'm hoping you can help send me to the right person at NCAI. I thought your title of Research made the most sense from the staff directory.

On the NCAI website under the Native Vote campaign, there is a Native Vote Fast Facts document. It has excellent graphics comparing Native voting age populations and representation by state. I serve on the Commission that will redistrict in Montana after 2020 and am hoping to check some information and maybe get more stats from you. It looks like Montana has the second most Native legislators, with Oklahoma being first with 13. I wanted to confirm with you that those figures are current. I believe Montana currently has 11 Native legislators, not the 12 that are listed.

- HD 15 Marvin Weatherwax Jr
- HD 16 Tyson Running Wolf
- HD 24 Barbara Bessette
- HD 32 Jonathan Windy Boy
- HD 41 Rae Peppers
- HD 42 Sharon Stewart Perego
- HD 50 Jade Bahr
- HD 95 Shane Morigeau
- SD 8 Susan Webber
- SD 16 Frank Smith
- SD 21 Jason Small

If there are 12, I was hoping to figure out who I'm missing from the list. Or if it's a typo on that document, get an updated copy of the PDF with the correct figure listed. It's an excellent nation-wide view that I'd like to disseminate as we discuss redistricting in Montana so I'm hoping I can use it. Eleven Native legislators is the most ever to serve in the Montana legislature and, for the first time ever, proportionate to the 7% Native voting age population in Montana (according to 2010 Census figures). I think this statistic is something Montana should be very proud of and hope we will continue this progress in the future.

It's helpful to compare Montana to other states with large Native populations, so I have three requests:

1. I want to verify with you that the figures are current and Montana is second to Oklahoma in terms of Native legislators.
2. I'm hoping you can double-check the "12" figure for Montana and tell me if I'm missing anyone from my list of 11.
3. It would be helpful to show how Native representation has changed over time. Do you have figures for the number of Native legislators nationally from previous years? I have Montana figures (<https://leg.mt.gov/civic-education/facts/american-indian-legislators/>), but I don't know where to find national figures.

Thanks for any help you can provide me.

I don't have a list and don't see one online through MT Leg, but I should be able to put together at least the last few sessions. I can probably find someone with longer institutional knowledge than I who can help me with the 1990s too. I'll work on putting together a list and get it to you sometime next week.

Dear Kendra,
 Thank you for the explanation. We really appreciate it and will let you know when our Native Vote information is updated (that is a major priority for November).

Quick question, do you have the names of the individuals who served in the Montana legislature from the civic engagement page for previous years?

Once again, I'm glad that you reached out,
 Sierra Watt

Sierra,

Thank you so much for the quick and detailed response. I really appreciate the information on your data sources, as well as the information about the Census-related session at your annual conference.

Senator Lea Whitford served in the House (HD 16) for one 2-year term from 2013-2014. She then ran for the Senate (SD 8) in 2014 and served one 4-year term from 2015-2018. She didn't run again in 2018, and Sen. Susan Webber now represents SD 8 (her term will be 2019-2022). I'd love to get a copy of that updated document when you make changes so I can use it in the future.

If I find any additional historical figures about Native legislators as I continue to research, I'll definitely send them your way.

Thanks again!

Subject: Re: Native Vote Fast Facts

Good afternoon Ms. Miller,
 My name is Sierra Watt, fellow at NCAI's Policy Research Center. I am writing to answer some of your questions about our Native Vote infographic.

1. For your first question, the fast facts document was made with information from the National Congress of State Legislatures (NCSL), which lists Montana as having 12 Native legislators and Oklahoma with 13. This data was provided by NCSL in August, 2019. Montana's proportional level of representation is absolutely something to celebrate.
2. For your second question, your list matches ours with one exception. It appears that your list does not include Senator Lea Whitford, who leaves office at the end of this year. Please let us know if this is not the case. At present we plan to do another update to our Native Vote materials so it will be up to date for 2020 at the end of this year.
3. For your last question, we wish we had historical data on Native legislators. Some of the historical figures are compiled in David Wilkin's textbook "American Indian Politics and the American Political System" for specific years. He notes [National Caucus of Native American State Legislators \(NCAI\)](#) as a source for this information. At present this information is still something we are working on collecting. Thank you for sharing the Montana figures! What excellent data! If I have success in gathering national data from past years, I will let you know, and please let me know if you find that data as well.

Also, I have copied my colleague Saundra Mitrovich to this email. She works on civic engagement, specifically Native Vote. She asked that I share some information with you on our upcoming Native Vote session at our annual conference:

Sunday, October 20, 2019
 9:00am – 4:00pm
 Pre-Session Title: Developing Your Civic Engagement Plan of Action
 Summary:

In this session, we encourage people involved in voter engagement and Census 2020 work within their tribal nations to participate in an interactive workshop focused on developing a civic engagement plan of action for their community. Different resources will be shared; tactics for increasing voter registration and increasing your overall count for community will be discussed. Materials will include an afternoon of developing social media campaign toolkits and some sample Get out the Native Vote and Indian Country Counts materials. Please bring a laptop or tablet to this session.

Facilitators/Presenters: NCAI Civic Engagement Team, ITCA, 4 Direction, PLAN, Create A Thon Labs, and NCAI PRC Staff

Thank you for reaching out. We are glad you have found the infographic useful. Please don't hesitate to be in touch in the future.
 It was a pleasure speaking with you.

For your first question, the fast facts document was made with information from the National Congress of State Legislatures (NCSL), which lists Montana as having 12 Native legislators and Oklahoma with 13. This data was provided by NCSL in August, 2019. Montana's proportional level of representation is absolutely something to celebrate.
2. For your second question, your list matches ours with one exception. It appears that your list does not include Senator Lea Whitford, who leaves office at the end of this year. Please let us know if this is not the case. At present we plan to do another update to our Native Vote materials so it will be up to date for 2020 at the end of this year.
3. For your last question, we wish we had historical data on Native legislators. Some of the historical figures are compiled in David Wilkin's textbook "American Indian Politics and the American Political System" for specific years. He notes [National Caucus of Native American State Legislators \(NCNASL\)](#) as a source for this information. At present this information is still something we are working on collecting. Thank you for sharing the Montana figures! What excellent data! If I have success in gathering national data from past years, I will let you know, and please let me know if you find that data as well.

Also, I have copied my colleague Saundra Mitrovich to this email. She works on civic engagement, specifically Native Vote. She asked that I share some information with you on our upcoming Native Vote session at our annual conference:

Sunday, October 20, 2019

9:00am - 4:00pm

Pre-Session Title: Developing Your Civic Engagement Plan of Action

Summary:

In this session, we encourage people involved in voter engagement and Census 2020 work within their tribal nations to participate in an interactive workshop focused on developing a civic engagement plan of action for their community. Different resources will be shared; tactics for increasing voter registration and increasing your overall count for community will be discussed. Materials will include an afternoon of developing social media campaign toolkits and some sample Get out the Native Vote and Indian Country Counts materials. Please bring a laptop or tablet to this session.

Facilitators/Presenters: NCAI Civic Engagement Team, ITCA, 4 Direction, PLAN, Create A Thon Labs, and NCAI PRC Staff

Thank you for reaching out. We are glad you have found the infographic useful. Please don't hesitate to be in touch in the future.

It was a pleasure speaking with you.

Subject: Native Vote Fast Facts

Hi Yvette,

I'm hoping to get some information from your Every Native Vote Counts campaign. Apologies if I'm not sending this to the right person. I tried to use the feedback form on the NCAI website, but I haven't gotten a response so I'm hoping you can help send me to the right person at NCAI. I thought your title of Research made the most sense from the staff directory.

On the NCAI website under the Native Vote campaign, there is a Native Vote Fast Facts document. It has excellent graphics comparing Native voting age populations and representation by state. I serve on the Commission that will redistrict in Montana after 2020 and am hoping to check some information and maybe get more stats from you. It looks like Montana has the second most Native legislators, with Oklahoma being first with 13. I wanted to confirm with you that those figures are current. I believe Montana currently has 11 Native legislators, not the 12 that are listed.

- HD 15 Marvin Weatherwax Jr
- HD 16 Tyson Running Wolf
- HD 24 Barbara Bessette
- HD 32 Jonathan Windy Boy

MT-MDAC-21-1688-B-000287

- HD 41 Rae Peppers
- HD 42 Sharon Stewart Perego
- HD 50 Jade Bahr
- HD 95 Shane Morigeau
- SD 8 Susan Webber
- SD 16 Frank Smith
- SD 21 Jason Small

If there are 12, I was hoping to figure out who I'm missing from the list. Or if it's a typo on that document, get an updated copy of the PDF with the correct figure listed. It's an excellent nation-wide view that I'd like to disseminate as we discuss redistricting in Montana so I'm hoping I can use it. Eleven Native legislators is the most ever to serve in the Montana legislature and, for the first time ever, proportionate to the 7% Native voting age population in Montana (according to 2010 Census figures). I think this statistic is something Montana should be very proud of and hope we will continue this progress in the future.

It's helpful to compare Montana to other states with large Native populations, so I have three requests:

1. I want to verify with you that the figures are current and Montana is second to Oklahoma in terms of Native legislators.
2. I'm hoping you can double-check the "12" figure for Montana and tell me if I'm missing anyone from my list of 11.
3. It would be helpful to show how Native representation has changed over time. Do you have figures for the number of Native legislators nationally from previous years? I have Montana figures (<https://leg.mt.gov/civic-education/facts/american-indian-legislators/>), but I don't know where to find national figures.

Thanks for any help you can provide me.

Hi Dawn and Kendra,

Dawn, sorry for sending that along without thinking through the receipt part. I thought submitting the NCSL receipt for the fee would suffice. But I admit I didn't check closely for the hotel receipt. It's all fine to pay the hotel and per diem out of the next biennium budget. It's a drop in the bucket in the grand scheme of things. If you need something different than that NCSL receipt, I'll give NCSL a call to see what else they might be able to provide.

Kendra, thanks for trying to work with us on this one, and I apologize for having you do extra work on travel plans. Remembering how the interim works (and all the claims forms) is sometimes a challenge for my brain. I'll work with you to get the claim form and receipts for the conference and travel in July.

Thanks everyone for your patience.

Rachel

My apologies. I didn't understand that. I have attached the receipt for the registration fee for the conference, which is all I can provide in advance. I talked to the hotel on the phone and they said they can't charge my card in advance so I can't pre-pay and get a receipt. I guess I'll have to just submit the registration fee now, since I already paid that, and I will submit the hotel receipt after the stay in July. Cc'ing Rachel so she's in the loop.

Thanks for the clarification.

Hi Kendra,

What is attached are confirmations for bookings or reservations, and they not actual receipts. Travel is paid on a reimbursement basis pursuant to 2-18-5, MCA which states "claims for reimbursements must be documented by an appropriate receipt." Once you get the actual receipts to me, I will be able to process your reimbursements.

Please let me know if you have further questions.

Thank you,

Hi Dawn,

Thanks for reaching out. Attached are the receipts you requested for the hotel and registration for the NCSL redistricting conference next month. I also included two expense reimbursement forms depending on whether the State wants to pay those in advance so it can come from the commission's current budget or after the trip from the coming budget in July. My correspondence with Rachel is below, so you can choose whatever expense form make the most sense and use that one along with the two receipts.

Please let me know if you need anything else.

Hi Rachel,

Thanks for the follow-up on this. I booked the room and have attached the info for that 2-night stay. I also filled out the expense form. I actually did two (you should only use one) because I wasn't sure if you might be able to do the same thing with the 3 salary days claimed and meals. Thus, I filled out one form (Expenses) that you can submit if you think it's appropriate for me to do everything up-front (hotel, salary, meals). That would basically mean my whole trip goes on this budget year except for maybe the light rail that I'll use to the airport. If you'd rather not do that, I also filled a form out that doesn't include the salary and meals piece (Hotel). If you want to just submit the hotel and NCSL registration fee together and have me submit the other stuff after the trip, I can do that as well. So just choose whatever form is appropriate and ignore the other. I thought that was easier just to fill it out both ways in case you have to run it by someone in the Financial Office. Let me know if you need anything else for this.

Also wanted to follow-up on letting you know dates that I'm unavailable through the end of the year for scheduling purposes. There are really just 4 days, all in September, that are hard conflicts for me. September 1st, 2nd, 9th, and 14th. Other than that, I should be pretty easy.

Thanks for all you do, and see you in a couple weeks.

Hi Kendra,

Thanks again for helping make that meeting yesterday go smoothly. I hope your travel home was uneventful given all the rain. It sure poured here later that evening. I checked with our Financial Office staff on the NCSL pre-paid hotel idea. They thought that would be fine. I have attached a claim form that (I hope) is fillable. Once you book the hotel, if you could fill out the form and return back to me. Also, I've got the registration receipt that I'll submit along with the hotel claim since there isn't a box to enter information for the miscellaneous charge. Give me a call if you have any questions. Thanks for suggesting the idea. It hadn't occurred to me at all.

Sincerely,
 Rachel

Thanks for the follow-up on this. I booked the room and have attached the info for that 2-night stay. I also filled out the expense form. I actually did two (you should only use one) because I wasn't sure if you might be able to do the same thing with the 3 salary days claimed and meals. Thus, I filled out one form (Expenses) that you can submit if you think it's appropriate for me to do everything up-front (hotel, salary, meals). That would basically mean my whole trip goes on this budget year except for maybe the light rail that I'll use to the airport. If you'd rather not do that, I also filled a form out that doesn't include the salary and meals piece (Hotel). If you want to just submit the hotel and NCSL registration fee together and have me submit the other stuff after the trip, I can do that as well. So just choose whatever form is appropriate and ignore the other. I thought that was easier just to fill it out both ways in case you have to run it by someone in the Financial Office. Let me know if you need anything else for this.

Also wanted to follow-up on letting you know dates that I'm unavailable through the end of the year for scheduling purposes. There are really just 4 days, all in September, that are hard conflicts for me. September 1st, 2nd, 9th, and 14th. Other than that, I should be pretty easy.

Thanks for all you do, and see you in a couple weeks.

Subject: Hotel for NCSL update

Hi Kendra,
Thanks again for helping make that meeting yesterday go smoothly. I hope your travel home was uneventful given all the rain. It sure poured here later that evening. I checked with our Financial Office staff on the NCSL pre-paid hotel idea. They thought that would be fine. I have attached a claim form that (I hope) is fillable. Once you book the hotel, if you could fill out the form and return back to me. Also, I've got the registration receipt that I'll submit along with the hotel claim since there isn't a box to enter information for the miscellaneous charge. Give me a call if you have any questions. Thanks for suggesting the idea. It hadn't occurred to me at all.
Sincerely,
Rachel

Hi all,
Thanks for this memo, Commissioner Miller. I'll post it to the website, and we'll have printed copies for everyone at the meeting. When send out the public comments on Monday evening, I'll highlight that there are a few additional documents on the website, including this memo. The update from Caliper is that they are committed to providing the legacy format data to states within 5 business days of its release. Also, Laura will have the room set up according to these directions. Thanks for the heads up on that.
Sincerely,
Rachel

Subject: [EXTERNAL] Re: Question for Caliper

Chair Smith,

Thanks for the info on seating arrangement. I will have Commissioner Lamson and I on the same side of the table, closest to the door. Joe hears better out of his left ear so I'd like if he can be to the right of you and the staff so his left ear is towards you (Commissioner Stusek's seat last time for Joe).

I don't think I need any other information from Rachel or Joe in advance, beyond whatever they report from their conversation with Caliper. I would like to provide this legal memorandum from the Michigan Independent Citizen's Redistricting Commission related to their own deadlines and the release of redistricting data: https://www.michigan.gov/documents/micrc/MICRC_Legacy_Format_Data_Sub_Apr_14_722290_7.pdf [[michigan.gov](https://www.michigan.gov/documents/micrc/MICRC_Legacy_Format_Data_Sub_Apr_14_722290_7.pdf)]. I can provide this in hard-copy to all of the commissioners at the meeting if that is helpful, but I know it's nice for everyone to read in advance so Rachel can definitely post it online for the commissioners and public in advance.

Since Michigan is facing a different deadline dilemma that isn't the same as Montana's 90-day clock, I don't think all of the memo is relevant to us, but I do think the letter attached at the end from James Whitehorn at the Census Bureau has important information. Since the whole document was available online as a combined document, I think it's fine to include the whole memo, but I would like to be able to reference the open letter to redistricting data recipients from Mr. Whitehorn so I want to provide this in advance so others have an opportunity to read it.

Thanks for the follow-up. Looking forward to the meeting next week.

Subject: Re: Question for Caliper

I want to make sure that you didn't need any other information that Rachel and Joe could research for the commission. From what I understand based on the discussion at the last meeting, usable data should be available in August to allow the work on the congressional districts to begin. I am unsure when the official delivery date is for purposes of starting the 90 day count, but hopefully we will get a response to Rachel's email about that before the next meeting.

I also wanted to give you a heads up that I am letting each commissioner decide the seating arrangements for meetings on rotation. Commissioner Essmann did the first meeting, you can do the next meeting. Commissioner Stusek the next one and Commissioner Lamson the one after that and then we will start over.

Whitehorn and compiling all of that information on our website. That's very helpful. On the question of our timeline moving forward, the heart of the question for me is when will the Commission have final PL 94-171 Census data in a useable format to begin our work drawing districts? When can redistricters start redistricting? I recognize that there is an additional legal question of when are we obligated by the Constitution to have districts adopted. I think the latter question about legal obligations is less clear, at least to me, given the duplicate release of the PL 94-171 data this year. But I do think the former question about when we will have final data to begin redistricting is clear based on what the Census Bureau, NCSL, and Caliper have previously said.

In an effort to make sure we are all working off of the same information and assumptions, I'm wondering if Rachel can reach out to our software vendor, Caliper, to ask them how long it will take them to process the legacy format of the PL 94-171 data when it is released in August. I have heard 5 business days for all 50 states, but I haven't communicated with Caliper directly on that and I think it's important to have a clear answer from them. I know in 2010 when data was received in this same format, it was a quick turnaround, but the data was also released to states in waves, so states with earlier deadlines could be prioritized. The Census Bureau will not be doing that staggered release this year, so that means data for all 50 states will be released at the same time in August. I expect that changes things for Caliper. I don't know how many states have contracted with Caliper, but since Montana has, I assume they can provide a timeline for when the data will be processed and available to the State of Montana via Maptitude.

So my question is whether Rachel can communicate with Caliper and ask them when the PL 94-171 data, which the Census Bureau has said will be released on or before August 16th, will be available to Montana in Maptitude. My hope is that Rachel could then provide that exchange to the entire Commission, as she has with her communication with the Census Bureau. If the Chair doesn't feel this is appropriate, I'm happy to contact Caliper myself to gather this information, but I recognize that it might be preferable if Rachel gathers the information and provides it to the entire Commission and public just like the other information she has gathered.

Happy to do the outreach if that's your preference, and I can provide my exchange with Caliper to the full Commission for consideration. Also happy to allow Rachel to be the conduit of information if that seems most appropriate.

Please let me know either way so I can reach out to Caliper, if need be. Thank you again for gathering all of the information into one place on our website, Rachel. That was a really quick turnaround from our meeting on Tuesday. Looking forward to discussing this and our other topics on the 10th.

Hello Commissioners,

Thanks for the question on timeline for the Caliper update. Joe Kolman and I have a call on Thursday with Tracy Horgan at Maptitude. I'll make sure I have a good understanding of the timeline they are working with for the software to be updated with Montana data. I heard a similar timeline during training, but I'd like to check that with Tracy and confirm they are still operating on the same set of assumptions they were a few months ago. I should have something for everyone by the end of this week or, at the latest, June 10.

Thanks and I'll be in touch.

Rachel

Chairwoman Smith and Rachel,

Hope you both had nice weather for the weekend. I wanted to make a request regarding the information surrounding the PL 94-171 data release. Rachel, I really appreciate you reaching out to James Whitehorn and compiling all of that information on our website. That's very helpful. On the question of our timeline moving forward, the heart of the question for me is when will the Commission have final PL 94-171 Census data in a useable format to begin our work drawing districts? When can redistricters start redistricting? I recognize that there is an additional legal question of when are we obligated by the Constitution to have districts adopted. I think the latter question about legal obligations is less clear, at least to me, given the duplicate release of the PL 94-171 data this year. But I do think the former question about when we will have final data to begin redistricting is clear based on what the Census Bureau, NCSL, and Caliper have previously said.

In an effort to make sure we are all working off of the same information and assumptions, I'm wondering if Rachel can reach out to our software vendor, Caliper, to ask them how long it will take them to process the legacy format of the PL 94-171 data when it is released in August. I have heard 5 business days for all 50 states, but I haven't communicated with Caliper directly on that and I think it's important to have a clear answer from them. I know in 2018 when data was received in this same format, it was a quick turnaround, but the data was also released to states in waves, so states with earlier deadlines could be prioritized. The Census Bureau will not be doing that staggered release this year, so that means data for all 50 states will be released at the same time in August. I expect that changes things for Caliper. I don't know how many states have contracted with Caliper, but since Montana has, I assume they can provide a timeline for when the data will be processed and available to the State of Montana via Maptitude.

So my question is whether Rachel can communicate with Caliper and ask them when the PL 94-171 data, which the Census Bureau has said will be released on or before August 16th, will be available to Montana in Maptitude. My hope is that Rachel could then provide that exchange to the entire Commission, as she has with her communication with the Census Bureau. If the Chair doesn't feel this is appropriate, I'm happy to contact Caliper myself to gather this information, but I recognize that it might be preferable if Rachel gathers the information and provides it to the entire Commission and public just like the other information she has gathered.

Happy to do the outreach if that's your preference, and I can provide my exchange with Caliper to the full Commission for consideration. Also happy to allow Rachel to be the conduit of information if that seems most appropriate.

Please let me know either way so I can reach out to Caliper, if need be. Thank you again for gathering all of the information into one place on our website, Rachel. That was a really quick turnaround from our meeting on Tuesday. Looking forward to discussing this and our other topics on the 10th.

To : Kendra Miller <kendra.miller@mtleg.gov>, Maylinn Smith <maylinn.smith@mtleg.gov>

Hello Commissioners,

Thanks for the question on timeline for the Caliper update. Joe Kolman and I have a call on Thursday with Tracy Morgan at Maptitude. I'll make sure I have a good understanding of the timeline they are working with for the software to be updated with Montana data. I heard a similar timeline during training, but I'd like to check that with Tracy and confirm they are still operating on the same set of assumptions they were a few months ago. I should have something for everyone by the end of this week or, at the latest, June 10.

Thanks and I'll be in touch.

Rachel

Subject: [EXTERNAL] Question for Caliper

Chairwoman Smith and Rachel,

Hope you both had nice weather for the weekend. I wanted to make a request regarding the information surrounding the PL 94-171 data release. Rachel, I really appreciate you reaching out to James Whitehorn and compiling all of that information on our website. That's very helpful. On the question of our timeline moving forward, the heart of the question for me is when will the Commission have final PL 94-171 Census data in a useable format to begin our work drawing districts? When can redistricters start redistricting? I recognize that there is an additional legal question of when are we obligated by the Constitution to have districts adopted. I think the latter question about legal obligations is less clear, at least to me, given the duplicate release of the PL 94-171 data this year. But I do think the former question about when we will have final data to begin redistricting is clear based on what the Census Bureau, NCSL, and Caliper have previously said.

In an effort to make sure we are all working off of the same information and assumptions, I'm wondering if Rachel can reach out to our software vendor, Caliper, to ask them how long it will take them to process the legacy format of the PL 94-171 data when it is released in August. I have heard 5 business days for all 50 states, but I haven't communicated with Caliper directly on that and I think it's important to have a clear answer from them. I know in 2018 when data was received in this same format, it was a quick turnaround, but the data was also released to states in waves, so states with earlier deadlines could be prioritized. The Census Bureau will not be doing that staggered release this year, so that means data for all 50 states will be released at the same time in August. I expect that changes things for Caliper. I don't know how many states have contracted with Caliper, but since Montana has, I assume they can provide a timeline for when the data will be processed and available to the State of Montana via Maptitude.

So my question is whether Rachel can communicate with Caliper and ask them when the PL 94-171 data, which the Census Bureau has said will be released on or before August 16th, will be available to Montana in Maptitude. My hope is that Rachel could then provide that exchange to the entire Commission, as she has with her communication with the Census Bureau. If the Chair doesn't feel this is appropriate, I'm happy to contact Caliper myself to gather this information, but I recognize that it might be preferable if Rachel gathers the information and provides it to the entire Commission and public just like the other information she has gathered.

Rachel and Joe,

Thanks for compiling and sending this out. Is it possible to add a text box for address with the public comment portal: <https://leg.mt.gov/districting/2020-commission/redistricting-input/>. Our draft guidelines for the public to submit maps ask for the individual's location and some people add it to the comments, but most didn't who used the web page. I find that helpful to know if a person is from in-state or out-of-state, as well as where from within the state they are from if they're talking about specific regions or communities of interest.

Not sure how much engineering that takes but thought I'd ask. Thanks!

Hi Commissioner Miller,
Thanks for the request, and I'll pass it along. Another commissioner had the same request, so there might be a fix in the works. When people signed up for Zoom and could provide comments during the sign-up process, there was a field or two for location. So fingers crossed it isn't that hard to add it to the comment forms. But we'll see. These are the same forms used for the interim committees so sometimes what I think might be easy/quick isn't seen that way from the IT end...we'll keep you posted.
Thanks,
Rachel

Hey Kendra,
I've attached the list of everyone I have so far. I'll usually send out the link to people who sign up after the deadline but before the meeting day unless the presiding officer wants a strict cutoff time. Maylinn was ok with the 12 noon deadline being a soft deadline, so there might be a few more names added for tomorrow afternoon. The other caveat is that I don't know who is speaking on what agenda items yet. I think some folks will likely comment on more than one item. I think others are likely to be criteria commenters. For future meetings, we'll be able to break them up (somewhat) by topic.
I hope this helps and let me know if you need additional information.
Thanks,
Rachel

Subject: [EXTERNAL] Fwd: Clarification on P.L. 94-171 Data Availability

Chair Smith and Commissioners,

Hope everyone had a good weekend.

I reached out to James Whitehorne, who leads the U.S. Census Bureau's redistricting division, to ask for more clarification on the dual release of P.L. 94-171 redistricting data. Please see below my exchange with him, which I wanted everyone to have a copy of. It's clear that the Census Bureau does consider September 30th the "official delivery" of the data because they will send CDs and flash drives at that time. It is also clear that the data will be available to us and the rest of the public on their FTP site by August 16th and that it is both official P.L. 94-171 data and final data.

I have bcc'd commissioners since I know our public meeting next month is the appropriate place for discussion, but I did want to make sure everyone has this information and the full exchange in advance and that staff can make it a public document if appropriate.

Thanks.

Thank you so much for your response. In terms of the legal piece, the staff attorney for our Commission is looking into that for a future meeting, and I certainly wouldn't expect you to advise on that. I know that the September 30th date is what the Census Bureau considers the "official delivery" of the data. Our Constitution doesn't use the word "delivery" or "receipt" though. That's why I feel that this is more of a technical question of whether the data itself that the Census Bureau is making available on the FTP site is "official" data. Am I correct that the August 16th legacy format is official Census data and that it is final because it will not change?

Good afternoon Ms. Miller -
The legacy format summary file data being posted to the Census Bureau FTP site in August, and the DVDs/Flash drives and data.census.gov [data.census.gov] tools released in September, are all the P.L. 94-171 Redistricting Data, just in different formats. However, the Census Bureau will make an official active delivery by mailing DVDs/Flash Drives to the official state recipient list in the September timeframe. That list includes those recipients required under Public Law 94-171, Governors, state legislative leaders, commissions. Since the posting in August requires recipients to take an action to receive the data, Census is considering our active delivery the official delivery. All of that said, I think you would need the determinations of status as outlined in your questions to come from your legal advisors based off the description above.

I hope that is helpful.

Subject: Clarification on P.L. 94-171 Data Availability

Dear Mr. Whitehorne,

I am a member of Montana's Districting and Apportionment Commission, and I'm hoping you can provide some clarity on the August release of the "legacy format" P.L. 94-191 Census data. The Montana Constitution requires that a congressional plan be filed "within 90 days after the official final decennial census figures are available." My understanding of the August 16th "legacy format" available to redistricters is that it is official P.L. 94-171 data and that it is final because it will not change with the September format release that is delivered to official State recipients.

Can you please clarify two specific questions.

MT-MDAC-21-1688-B-000308

1/10/22, 3:39 PM

Zimbra

1. Is the August 16th format of the data "official" P.L. 94-171 data?
2. Is the August 16th format of the data "final" in that it is identical to the September data and will not change from one release to the next?

I understand the dual data availability dates of the Census data is unique to 2020, but I appreciate your expertise in explaining the technical aspects of the August 16th "legacy format" data.

Thank you for your time.

Chair Smith and Commissioners,

Hope everyone had a good weekend.

I reached out to James Whitehorne, who leads the U.S. Census Bureau's redistricting division, to ask for more clarification on the dual release of P.L. 94-171 redistricting data. Please see below my exchange with him, which I wanted everyone to have a copy of. It's clear that the Census Bureau does consider September 30th the "official delivery" of the data because they will send CDs and flash drives at that time. It is also clear that the data will be available to us and the rest of the public on their FTP site by August 16th and that it is both official P.L. 94-171 data and final data.

I have bcc'd commissioners since I know our public meeting next month is the appropriate place for discussion, but I did want to make sure everyone has this information and the full exchange in advance and that staff can make it a public document if appropriate.

Thanks.

Subject: Clarification on P.L. 94-171 Data Availability

Dear Mr. Whitehorne,

I am a member of Montana's Districting and Apportionment Commission, and I'm hoping you can provide some clarity on the August release of the "legacy format" P.L. 94-191 Census data. The Montana Constitution requires that a congressional plan be filed "within 90 days after the official final decennial census figures are available." My understanding of the August 16th "legacy format" available to redistricters is that it is official P.L. 94-171 data and that it is final because it will not change with the September format release that is delivered to official State recipients.

Can you please clarify two specific questions.

1. Is the August 16th format of the data "official" P.L. 94-171 data?
2. Is the August 16th format of the data "final" in that it is identical to the September data and will not change from one release to the next?

I understand the dual data availability dates of the Census data is unique to 2020, but I appreciate your expertise in explaining the technical aspects of the August 16th "legacy format" data.

Thank you for your time.

Thank you so much for your response. In terms of the legal piece, the staff attorney for our Commission is looking into that for a future meeting, and I certainly wouldn't expect you to advise on that. I know that the September 30th date is what the Census Bureau considers the "official delivery" of the data. Our Constitution doesn't use the word "delivery" or "receipt" though. That's why I feel that this is more of a technical question of whether the data itself that the Census Bureau is making available on the FTP site is "official" data. Am I correct that the August 16th legacy format is official Census data and that it is final because it will not change?

Good afternoon Ms. Miller -

The legacy format summary file data being posted to the Census Bureau FTP site in August, and the DVDs/Flash drives and data.census.gov tools released in September, are all the P.L. 94-171 Redistricting Data, just in different formats. However, the Census Bureau will make an official active delivery by mailing DVDs/Flash Drives to the official state recipient list in the September timeframe. That list includes those recipients required under Public Law 94-171, Governors, state legislative leaders, commissions. Since the posting in August requires recipients to take an action to receive the data, Census is considering our active delivery the official delivery. All of that said, I think you would need the determinations of status as outlined in your questions to come from your legal advisors based off the description above.

I hope that is helpful.

Hello Commissioner!

Happy to help. We do have such a chart, link here: https://www.ncsl.org/Portals/1/Documents/Redistricting/Redistricting_actionplan_2010thru2020.pdf. It's part of this webpage on the success of redistricting plans going back to 1991: <https://www.ncsl.org/research/redistricting/redistricting-plan-success-rates-636359876.aspx>.

Perhaps you have a better eye for this chart than I do—I find it to be highly confusing, which is one of the reasons why we don't share it more widely. But the gist is if you read it left-to-right within the columns for each district type following the legend at the bottom of the page, you can read how each state's redistricting plans fared in the courts. Slashes indicate differences in maps, if you had R/R/D (like you do for Florida senate), that means the first plan was rejected, the second plan was rejected, and then a court drew the third map.

If it's helpful to talk this through over a phone call, I'm happy to do so. Just let me know if you'd like to and I can set up a time.

Best,

Subject: [EXTERNAL] Summary of Redistricting Plans Struck Down During 2010 Cycle

Hi Ben,

I know NCSL compiles a lot of state-by-state redistricting information, and it's been very helpful on several topics to have a centralized resource. You have a page with summaries of legal cases that is extremely helpful, but I have a specific question that I'm not quite sure how best to research and hoped someone at NCSL might just know the answer to from all of your other research.

Do you know how many states and which states had congressional or legislative maps that were struck down by a Court and had to be redrawn during the 2010 redistricting cycle? I know that Pennsylvania's congressional map and North Carolina's congressional and state legislative maps were both ruled unconstitutional by their respective State Supreme Courts and certain districts within the plans had to be re-drawn mid-decade. Those were both partisan gerrymandering cases where State Courts determined that the maps were in violation of their State Constitutions, but I'm really looking for any instances where a state was required to redistrict mid-decade (between 2012 and now) to comply with a Court order. Do you know the answer to this or have thoughts on how best to determine which states had maps struck down by a Court? I imagine the congressional is a little easier because mid-decade congressional redistricting probably got some press, but I'm hoping for a comprehensive list and don't want to miss anything just because it wasn't on my radar.

Thank you!

Subject: [EXTERNAL] Verify Ravalli Deviation Figures from 2010 Plan

Joe and Rachel,

Per the discussion at the last meeting about deviation and the Chair's request that I provide some visuals of legislative districts that fell within the maximum + or -3% deviation but would not have met a + or -1% deviation, I am compiling some info from the 2010 Commission page. One of my examples is Ravalli County where all four districts are over the ideal district size, but four house districts are wholly contained within the county. On this Final Legislative Redistricting Plan document: <https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Other-Documents/2013-districting-final-report.pdf>, it lists HD 85 at 1.71% and HD 86 at 1.58% deviation. On this map snapshot of Ravalli County, it lists HD 85 at 2.23% and HD 86 at 0.97%: <https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Maps/Adopted-Plan/Maps/Senate/sch3-adopted-2-12-13.pdf>. I know there were some very minor changes made to legislative boundary lines at the very last Commission meeting based on a request from the Ravalli County clerk for election administration purposes. My guess is that one of these deviation figures reflects the total population numbers prior to the change and the other after the change. It's a very minor difference and I didn't find any other discrepancies between the two reports, but since I'm using this specific example to educate the public on how deviation standards impact line drawing, I want to use the most accurate figure from the adopted plan. Can either of you confirm which deviation figures are accurate for the current plan and the 2010 Census data? I think the 2.23% and 0.97% figures from the maps are the final numbers and that's what I should use, but I'm hoping to get verification of that before I send the document to the Chair and other Commissioners.

Thanks!

I know there were some very minor changes made to legislative boundary lines at the very last Commission meeting based on a request from the Ravalli County clerk for election administration purposes. My guess is that one of these deviation figures reflects the total population numbers prior to the change and the other after the change. It's a very minor difference and I didn't find any other discrepancies between the two reports, but since I'm using this specific example to educate the public on how deviation standards impact line drawing, I want to use the most accurate figure from the adopted plan. Can either of you confirm which deviation figures are accurate for the current plan and the 2010 Census data? I think the 2.23% and 0.97% figures from the maps are the final numbers and that's what I should use, but I'm hoping to get verification of that before I send the document to the Chair and other Commissioners.

Thanks!

To : Kendra Miller <kendra.miller@mtleg.gov>, Kolman, Joe <jkolman@mt.gov>

Hi Kendra,

Thanks for the email and for checking. I reached the same conclusion: the final report table needs to be updated with 2020 Census data. HD 85 and HD 86. I confirmed

<https://mail.mtleg.gov/zimbira/h/printmessage?id=C:8004,C:8057,C:8111,C:-8144,C:8152,C:8189,C:8323,C:8831,C:8875,C:9353,C:-9403,C:670,C:...> 80/195

those two numbers by looking at the drafted amendment that the 2010 Commission adopted at their final meeting and confirming that it was adopted. The population summary report based on the final plan is here: <https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Maps/Adopted-Plan/Reports/House/house-popsum-adopted-021213.pdf>. It lists those correct deviations for the two Ravalli districts. I'll work with Laura to get the 2010 final report updated with an errata notice so people looking at it going forward will have the correct numbers. I rechecked the Overall Plan numbers on page 15 of the Final Report and the population summary report. Those House numbers check out. Thanks for catching this and for letting us know. I hope to have the updated pdf of the Final Report up on the website soon. However, hopefully the population summary report will help.

Sincerely,
Rachel

Joe and Rachel,

Per the discussion at the last meeting about deviation and the Chair's request that I provide some visuals of legislative districts that fell within the maximum + or -3% deviation but would not have met a + or -1% deviation, I am compiling some info from the 2010 Commission page. One of my examples is Ravalli County where all four districts are over the ideal district size, but four house districts are wholly contained within the county. On this Final Legislative Redistricting Plan document: <https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Other-Documents/2013-districting-final-report.pdf>, it lists HD 85 at 1.71% and HD 86 at 1.58% deviation. On this map snapshot of Ravalli County, it lists HD 85 at 2.23% and HD 86 at 0.97%: <https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Maps/Adopted-Plan/Maps/Senate/sch43-adopted-2-12-13.pdf>. I know there were some very minor changes made to legislative boundary lines at the very last Commission meeting based on a request from the Ravalli County clerk for election administration purposes. My guess is that one of these deviation figures reflects the total population numbers prior to the change and the other after the change. Chair Smith,

Based on our discussion of allowable deviation standards at the last Commission meeting and your request for materials that better explain the issue in a way that the public can comment on, I put together the attached document that you are welcome to make available on our website. The maps, population figures, and specific deviation justifications from the previous Commission are all provided by legislative services and can be found on the 2010 Commission page (though I pulled them from different reports and compiled them in a way that I thought was most helpful). The introduction page is my own explanation to provide some context for the issue.

Please let me know if you have any questions or would suggest any changes to the document.

Thank you for laying that out and updating us, Ginger.

Hoping I can ask a clarifying question. Since the hearing would need to be held on a "final plan," is it true that there could be no changes at all to that plan after the hearing? So the hearing on the "final plan" would not allow any room to alter the plan before adoption?

If so, my feelings that I shared in the meeting yesterday about making abundantly clear to the public what those hearings are for and when the Commission will be agreeing on a "final plan" remain. I would ask that the hearing on the final plan be noticed well-over 10 days in advance and include an agenda that specifies that it is a hearing on the final plan agreed on by the Commission at a prior meeting and that the hearing will precipitate no changes to that plan.

Since most of our public hearings are designed to take input for future or potential future actions, I think it would be very important that the public know that that specific hearing for final adoption would solely be to accept comment on the previous action, or "final plan."

Thanks! And please let me know if I'm not understanding that correctly.

Ginger,

Thank you. I would anticipate that if a consensus remains the goal that a "final plan" might end up being a negotiated compromise not identical to any of the proposed plans.

Even if it were identical it would not have been identified as the "final plan" prior to the hearing. That is what raises procedural due process questions under the 14th and 15th Amendments as notice and a meaningful opportunity to comment would not have occurred.

Thanks for your counsel.

Commissioner Jeff Essmann

Subject: DAC Memo & Clarification

Dear Commissioners,

Please find a memo concerning legal representation for your background information attached.

In addition, I wanted to clarify the question asked yesterday about taking public comment on a plan. As you know, I was out of the room while you were discussing the topic, and upon my return I was asked about public comment. I assumed that you were discussing offering public comments on maps, in general, as your proceed through the process. To the extent that you were talking about public hearings on the congressional "final plan" for congressional or legislative districts, please note 5-1-108:

- 5-1-108. Public hearing on plans. (1) Before the commission files its final congressional redistricting plan with the secretary of state, the commission shall hold at least one public hearing on it.
(2) Before the commission submits its legislative redistricting plan to the legislature, it shall hold at least one public hearing on the plan at the state capitol.
(3) The commission may hold other hearings as it deems necessary.

While one may certainly argue that the many public hearings leading up to the filing constitute the required public hearing under this statute, it would nonetheless be prudent to hold a public hearing on the congressional "final plan" to relay any criticism that the public did not have adequate notice of any changes to the plan and thereby was effectively denied the right to submit comments. A similar argument was made in *Willem's v. State* during the last round, and although the Court found that Article II, section 8, of the Montana Constitution concerning public participation did not apply to the Commission, this Commission has specifically adopted certain operating procedures which require public comment to be accepted "prior to making a final decision that is of significant interest to the public" (essentially binding itself to the same principle). Likewise, because of the lack of caselaw interpreting this section, and because subsection (1) specifies the "final" plan (as opposed to subsection (2) which does not specify "final"), to minimize the Commission's legal liability, I would advise that to the extent possible, the Commission should hold a public hearing on the "final" congressional redistricting plan before it is filed.

Ginger,

Thank you. I would anticipate that if a consensus remains the goal that a "final plan" might end up being a negotiated compromise not identical to any of the proposed plans.

Even if it were identical it would not have been identified as the "final plan" prior to the hearing. That is what raises procedural due process questions under the 14th and 15th Amendments as notice and a meaningful opportunity to comment would not have occurred.

Thanks for your counsel.

Commissioner Jeff Essmann

Subject: DAC Memo & Clarification

Dear Commissioners,

Please find a memo concerning legal representation for your background information attached.

In addition, I wanted to clarify the question asked yesterday about taking public comment on a plan. As you know, I was out of the room while you were discussing the topic, and upon my return I was asked about public comment. I assumed that you were discussing offering public comments on maps, in general, as your proceed through the process. To the extent that you were talking about public hearings on the congressional "final plan" for congressional or legislative districts, please note 5-1-108:

- 5-1-108. Public hearing on plans. (1) Before the commission files its final congressional redistricting plan with the secretary of state, the commission shall hold at least one public hearing on it.
(2) Before the commission submits its legislative redistricting plan to the legislature, it shall hold at least one public hearing on the plan at the state capitol.
(3) The commission may hold other hearings as it deems necessary.

While one may certainly argue that the many public hearings leading up to the filing constitute the required public hearing under this statute, it would nonetheless be prudent to hold a public hearing on the congressional "final plan" to belay any criticism that the public did not have adequate notice of any changes to the plan and thereby was effectively denied the right to submit comments. A similar argument was made in *Willemis v. State* during the last round, and although the Court found that Article II, section 8, of the Montana Constitution concerning public participation did not apply to the Commission, this Commission has specifically adopted certain operating procedures which require public comment to be accepted "prior to making a final decision that is of significant interest to the public" (essentially binding itself to the same principle). Likewise, because of the lack of caselaw interpreting this section, and because subsection (1) specifies the "final" plan (as opposed to subsection (2) which does not specify "final"), to minimize the Commission's legal liability, I would advise that to the extent possible, the Commission should hold a public hearing on the "final" congressional redistricting plan before it is filed.

With regards,

K. Virginia ("Ginger") Aldrich
Legislative Attorney

Subject: [EXTERNAL] Prisoner Reallocation - Draft Letter to Gov. Gianforte

Hi Rachel,

Thanks for putting all of the materials online for our upcoming meeting. I'm working my way through them and have a question on the prisoner reallocation draft materials. In addition to the draft letters to the congressional delegation, Census Bureau, and draft legislation, would it make sense to have a draft letter to Governor Gianforte asking him if he could direct the DOC to start collecting last known address at intake? Basically, could Governor Gianforte's administration accomplish the same goals for data collection leading up to 2030 that the draft legislation would? If so, I think it would be great to also have a draft letter to him available for the Tuesday meeting.

I'm not sure whether Governor Gianforte would still want the legislation as well, which is great in my opinion, but he can obviously move faster than the Legislature meeting bi-annually. So if he can direct DOC to collect the data moving forward, that also seems like a good option.

Thanks!

Thanks a lot, Rachel. I think this is great to have as a starting point so we can work together on next steps at the meeting.

Can you change "stakeholders" to "Montanans"? And then I'm sure we can make any other edits or additions at the meeting based on the other commissioners' feedback.

Thanks again. See you Tuesday!

Hi Kendra,

I finally got to sit down and play with the new data (and the layouts, which I admit had me stymied last cycle). I've attached a map. Do these district numbers seem in line with what you were looking at? Any other bits of information you think might help the public understand the map? If it seems to mesh with your numbers, I'll post it as a pdf for now and work on an interactive display later.

Thanks for taking a look,
 Rachel

Hi Rachel and Joe,

I'm assuming you got the official Census data from Caliper today...exciting!! Not sure if you're working with it in Maptitude at all today, but if you are, would you be able to show us the 1980's congressional map with the new official 2020 population figures at tomorrow's meeting? It looks like the old 1st congressional district has almost 210,000 more people than the old 2nd district. I think it would be helpful and very interesting to the public and press if we could show that.

If this is not workable by tomorrow, I completely understand! Just wanted to touch base since I figured you might be working in Maptitude today, since the long awaited data has finally arrived:)

Hi Kendra,

I finally got to sit down and play with the new data (and the layouts, which I admit had me stymied last cycle). I've attached a map. Do these district numbers seem in line with what you were looking at? Any other bits of information you think might help the public understand the map? If it seems to mesh with your numbers, I'll post it as a pdf for now and work on an interactive display later.

Thanks for taking a look,
 Rachel

Hi Rachel and Joe,

I'm assuming you got the official Census data from Caliper today...exciting!! Not sure if you're working with it in Maptitude at all today, but if you are, would you be able to show us the 1980's congressional map with the new official 2020 population figures at tomorrow's meeting? It looks like the old 1st congressional district has almost 210,000 more people than the old 2nd district. I think it would be helpful and very interesting to the public and press if we could show that.

If this is not workable by tomorrow, I completely understand! Just wanted to touch base since I figured you might be working in Maptitude today, since the long awaited data has finally arrived:)

Hi Commissioner Miller,

Sorry for the delayed response. I was in a meeting. I'm checking with IT now, but as far as I know, we haven't gotten the Maptitude data yet. But if you bring your laptop, we can screen share through Zoom. Otherwise, we can put a review of the demographic changes of the old Congressional, current state legislative, and other geographies on the next meeting agenda.

Sincerely,
Rachel

Commissioner Miller,

So I've spoken with all of the contacts I reached out to, and they all said that they've never seen an RFP for prisoner reallocation work, and that they assumed all states did this work internally. One person we contacted said he believed states didn't contract out the reallocation work because of data privacy issues—not something I'd thought about, but worth passing on.

If you were to craft an RFP of your own, I think the best person to reach out to would be Karin MacDonald. She would know far better than I the things that would need to be included.

Sorry we weren't able to turn something up, but if you decide to pursue and RFP I hope you'll share it with NCSL so we'll have something to offer other folks in the future!

Best,

Ben

Subject: Re: Examples of Inmate Data Reallocation RFPs

Commissioner Miller,

Good to hear you decided on a course of action! It was an honor to testify before you and your fellow commissioners.

As to your question re:RFPs, we haven't gathered this information in the prisoner reallocation context--only in the racially polarized voting context. There are two ways we could gather it: (a) send a general query for such RFPs to our redistricting staff network, an informal list of legislative and commission staff in other states who agreed to crowdsource answers to difficult questions; or (b) ask folks we know who offer redistricting consulting services if they've collected such RFPs as part of their business.

I'd recommend going with option B because it can be difficult to get prompt responses from the redistricting staff network, but I understand if you'd rather avoid that for conflict of interest purposes.

Do either of those options work for you? Let me know if/how you'd like us to proceed.

Thanks!

Ben

Subject: [EXTERNAL] Examples of Inmate Data Reallocation RFPs

Hi Ben,

Thanks for joining us to present to the Commission yesterday! Montana is going to move forward with putting out an RFP to get a better cost estimate for what it would take to reallocate our roughly 3,000 inmates who were housed in 7 secure facilities across Montana on April 1, 2020. We would need a vendor who could geocode inmates with a residential address and adjust the block-level P.L. 94-191 data for us according to the specific requirements and policy decisions that we would ultimately adopt. With Montana legislative redistricting being on a longer timeline than all other states (with final legislative map adoption in early 2023), we are in the unique position of not needing the adjusted population data until early next year, which may free up some vendors who are likely already booked by other states this fall.

Given that other states who will be reallocating inmate data for the 2020 cycle are all different in size and number of facilities and seem to have pretty disparate cost estimates, our goal with an RFP would be to get a more accurate cost estimate for Montana based on our number of inmates, quality of data, etc. One of my colleagues and I are working with staff to try to help draft an RFP that lays out specifically what we would need from the vendor (e.g., geocoding of available addresses, randomized assignment to the state at-large for inmates without a residential address, adjustment of the P.L. 94-191 data, etc.). Do you have copies of any RFP's from other states laying out their needs for inmate data reallocation that we could use as a starting point? We want to make sure we are very clear and specific about our needs so we can get accurate quotes from anyone interested in potentially working with us.

Thanks so much for any examples you might be able to provide!

Subject: RE: Physical Addresses for DOC Secure Facilities

Commissioner Miller,

Attached is a spreadsheet that contains the address information for each location we submitted. There were two separate locations for PHCF to separate the adult offenders and the youth offenders. That adult offenders on the adult side of that facility are not inmates, they are short term offenders that are there for the purpose of assessments or sanctions.

Only one location was reported for MWP and RSNU. MSP has several buildings on the campus that house offenders and we were required to report the population of each unique building.

The Regional Detention Facilities that had state inmate pods (DCCF and CCRP) and the private prison in Shelby were required to submit their own data for the Census and I do not have a copy of the data, other than what Rachel provided to me. The data she shared with me did not include the address information that was used in their reporting.

John

Subject: [EXTERNAL] Physical Addresses for DOC Secure Facilities

Hi John,

Thanks so much for talking to the Districting and Apportionment Commission on Tuesday about inmate address data. Montana is going to move forward with putting out an RFP to get a better cost estimate for what it would take to reallocate our roughly 3,000 inmates who were housed in 7 secure facilities across Montana on April 1, 2020. We would need a vendor who could geocode inmates with a residential address and adjust the block-level P.L. 94-191 data for us according to the specific requirements and policy decisions that we would ultimately adopt. With Montana legislative redistricting being on a longer timeline than all other states (with final legislative map adoption in early 2023), we are in the unique position of not needing the adjusted population data until early next year, which may free up some vendors who are likely already booked by other states this fall.

one of my colleagues to help gather some info for an RFP, so we can get a better idea of how much it would cost to have a vendor reallocate inmate data for us.

As you likely heard in some of the presentations before you, one of the first steps is simply to identify the Census block where those facilities were counted in the 2020 Census. Legislative Services provided us with some inmate statistics for 7 secure facilities: <https://leg.mt.gov/content/Districting/2020/Meetings/August-17-2021/montana-prisoner-address-information-mdac-august-2021.pdf>. I'm hoping I can get specific physical addresses for these facilities. Doing my own basic research, here is what I found online. Can you please confirm if these are accurate and/or provide me with accurate street addresses? Prisons are typically all within a single Census block and not particularly hard to find with a Google satellite view. Nonetheless, we certainly want to use the most precise physical address for all of these facilities, especially if there are multiple buildings.

Montana Department of Corrections includes 4 facilities:

Montana State Prison - 400 Conley Lake Rd, Deer Lodge, MT 59722; Montana Women's Prison - 701 S 27th St, Billings, MT 59101; Riverside Special Needs Unit - 2 Riverside Rd, Boulder, MT 59632; Pine Hills Correctional Facility - 4 N Haynes Ave, Miles City, MT 59301

Other secure facilities that housed prisoners on April 1, 2020:

Cascade County Regional Prison - 3800 Ulm North Frontage Rd, Great Falls, MT 59404; Crossroads Correctional Facility - 50 Crossroads Dr, Shelby, MT 59474; Dawson County Correctional Facility - 440 Colorado Blvd, Glendive, MT 59330

Thanks so much, and thank you for your time on Tuesday!

Hi Montana Patriots!

THE TIME IS NOW. WE NEED YOUR HELP!

UPDATE:

The Redistricting Commission is accepting maps for the Congressional Districts. The Democrats have submitted hundreds of maps showing a Southwest district to combine Bozeman and Missoula together. That is the only way they can gerrymander a district to have any chance of winning a congressional seat in Montana.

WHAT WE NEED TO DO:

#1 - We need an overwhelming number of people to submit proposed maps by 5:00 pm Wednesday, September 15th.

#2 - We need as many people as possible to attend the next Commission meeting and provide public comments in support of a traditional East-West map. The next meeting is scheduled for Thursday, September 17th @ 9:00 am at the State Capitol, Room 172.

STEP BY STEP PROCESS:

We NEED each one of you to do the following TODAY if possible:

1. Read the attached document for all information.
2. Submit your written comments TODAY. (Copy and paste the provided Comments on the attached document. We do not need original thought, we need sheer numbers to respond.)
3. Make a list of 10 people you know who you can ask to submit their comments by Wednesday, September 15th at 5:00 pm. Include their name, phone number and email address.
4. Forward this email and attached documents to all 10 people.
5. Follow up with a phone call to each person:
 - a. to make sure they received the email
 - b. help them through the process of submitting a map
 - c. find out if they are available on September 17th to attend in person or by Zoom

If you need help with making phone calls or emailing the information out, please provide me with your list of 10 people. We have volunteers who are willing to help. Call me on my cell phone.

Let's DO this!

Hi Keith (and cc'ing Arran for awareness as you continue to cover the work of the Districting & Apportionment Commission),

Thanks for reaching out to follow-up on the meeting and for the Daily Montanan's continued coverage of this important issue for our state.

Below is the MT Republican Party's call to action and attached maps and documents from their circulation. These three maps are what Commissioners were discussing when Commissioner Essmann requested that legislative staff identify duplicates for us. The request was that staff denote these duplicates in the full list of 231 submissions so the public could more easily view all of our unique submissions.

Thanks. And please let me know if you have any further questions.

4. Forward this email and attached documents to all 10 people.
5. Follow up with a phone call to each person:
 - a. to make sure they received the email
 - b. help them through the process of submitting a map
 - c. find out if they are available on September 17th to attend in person or by Zoom

If you need help with making phone calls or emailing the information out, please provide me with your list of 10 people. We have volunteers who are willing to help. Call me on my cell phone.

Let's DO this!

Hi Debbie,

I wanted to make sure you're aware that the Districting and Apportionment Commission meeting on Friday the 17th is a Zoom-only meeting. Commissioners are participating remotely and there will not be staff in any meeting rooms at the Capitol.

The agenda and other details about the upcoming meeting can be found here: <https://mtredistricting.gov/september-17-2021-meeting/>.

-Kendra Miller

To: Debbie Churchill <debbie@mtgop.org>

Hi Montana Patriots!

THE TIME IS NOW. WE NEED YOUR HELP!

UPDATE:

The Redistricting Commission is accepting maps for the Congressional Districts. The Democrats have submitted hundreds of maps showing a Southwest district to combine Bozeman and Missoula together. That is the only way they can gerrymander a district to have any chance of winning a congressional seat in Montana.

WHAT WE NEED TO DO:

#1 - We need an overwhelming number of people to submit proposed maps by 5:00 pm Wednesday, September 15th.

#2 - We need as many people as possible to attend the next Commission meeting and provide public comments in support of a traditional East-West map. The next meeting is scheduled for Thursday, September 17th @ 9:00 am at the State Capitol, Room 172.

STEP BY STEP PROCESS:

We NEED each one of you to do the following TODAY if possible:

1. Read the attached document for all information.
2. Submit your written comments TODAY. (Copy and paste the provided Comments on the attached document. We do not need original thought, we need sheer numbers to respond.)
3. Make a list of 10 people you know who you can ask to submit their comments by Wednesday, September 15th at 5:00 pm. Include their name, phone number and email address.
4. Forward this email and attached documents to all 10 people.
5. Follow up with a phone call to each person:
 - a. to make sure they received the email
 - b. help them through the process of submitting a map
 - c. find out if they are available on September 17th to attend in person or by Zoom

If you need help with making phone calls or emailing the information out, please provide me with your list of 10 people. We have volunteers who are willing to help. Call me on my cell phone.

Let's DO this!

Hi Kendra,
 Thanks for the heads up. That FSA one isn't much help. I resent the others the correct form. Thanks for troubleshooting with an older form.

I don't know for sure about the October 5, but I was planning for an all-day type meeting, with the start time around 10 am again and the ending subject to number and length of comments. I hope to know more soon, but that's how I'm planning for that day for myself. I don't know that it will start too much earlier just given everyone's usual preference for travel on the day of.

Rachel

Thanks, Rachel. My claim form is attached. Fyi I think you might have attached a different form by accident. I used the form from last time so I don't need it again, but in case it confuses anyone, wanted to give you a heads up.

One question for you. Do you have any idea what time of day our October 5th meeting will be? I know it's the Chair's discretion and don't need an exact start time, but if I know it's going to be a 10 am start time vs. an afternoon meeting, I will start to figure out school pick-up/drop-off, etc. If you don't have that figured out yet, no problem and I can wait until you have the agenda put together. But if you already have a good indication of whether it will start in the morning or afternoon, that would be great. Thanks!

Hello Commissioner Miller,
I've attached the original submission for PM 214. Please note that it also contains submissions for PM 215 and PM 216. Each submission does contain geographic files. It's one of the submissions for which we used pictures when possible and are going back through and adding the geographic files to the C maps table (the consolidated maps table). So the attachment contains the email, pictures, and geographic files for 3 maps. If you have any trouble with the attachment or the files, just let me know.
Sincerely,

Rachel Weiss

Hi Rachel,

Commissioner Stusek brought forward C-76 noting that it is a slight modification of the publicly submitted C-62. It looks like C-62 (PM 214) is a PNG map online with no public map link or block equivalency file and it's difficult to tell where the boundary line cuts in Gallatin County. Can you please forward me the email from the public submission of PM 214?

Thanks a lot!

Cc : Kolman, Joe <jkolman@mt.gov>, Aldrich, Ginger <KVAldrich@mt.gov>

Hello Commissioner Miller,
I've attached the original submission for PM 214. Please note that it also contains submissions for PM 215 and PM 216. Each submission does contain geographic files. It's one of the submissions for which we used pictures when possible and are going back through and adding the geographic files to the C maps table (the consolidated maps table). So the attachment contains the email, pictures, and geographic files for 3 maps. If you have any trouble with the attachment or the files, just let me know.
Sincerely,

Rachel Weiss

Subject: [EXTERNAL] Public Submission of PM 214

Hi Rachel,

Commissioner Stusek brought forward C-76 noting that it is a slight modification of the publicly submitted C-62. It looks like C-62 (PM 214) is a PNG map online with no public map link or block equivalency file and it's difficult to tell where the boundary line cuts in Gallatin County. Can you please forward me the email from the public submission of PM 214?

Thanks a lot!

Dear Districting Commission,

Thank you for the opportunity to submit maps for the Congressional Redistricting for Montana. The MTGOP would like to submit the following 3 maps for consideration.

The first map, labeled T_Continental Divide, takes the most historic and geographic split which follows the Continental Divide. The population deviation is +/-200 and only splits Gallatin County. We feel this map is the closest to what we had two seats. The maps were drawn with the established criteria of the commission for political competitiveness, for both parties and both seats. We felt using the 2018 US Senate race would best represent the most recent election. Our estimates show this split would result in a 51.66% to 45.64% advantage for the Democrats in the Western region and a 48.86% to 48.06% advantage for the Democrats in the Eastern district, making the Eastern district the West is growing more rapidly than the East and Bozeman is growing faster than anywhere. This configuration would probably keep similar populations in each district in the more distant future as we would approach the 2030 census.

The second map we are submitting is another East-West divide and splits only Silverbow County with a population deviation of 27. Our estimates show this split would result in a 51.79% to 45.53% advantage for the Democrats for the Democrats in the Eastern district, making the Eastern district slightly more competitive than the last one.

The last map we submit is based up on the controversial inclusion of competitiveness in the criteria. While this splits a few more counties and results in a population variance of just over 100, it uses political data to create the MTGOP our calculations on this would have the Western district from the 2018 Senate Race be 50.52% to 46.43% democrat favor while the East would be a very similar 50.16% to 47.10% democrat favor, making both districts as competitive as possible.

We look forward to working with the commission to adopt a fair map which is not gerrymandered to more unfairly benefit one party in either district.

Thank You,

--

Subject : RE: Congressional redistricting questions
To : Kendra Miller <kendra.miller@mtleg.gov>

Hi Kendra,

I hope you are well. I was wondering if you have time for a brief interview today ahead of the final commission meeting tomorrow on congressional redistricting. Specifically, I am hoping to hear from you about whether you think the western district in the final map is competitive and if there are any ways you think the commission might tweak the map tomorrow.

If you have time feel free to give me a call today at 406-594-7827.

Thanks,
 Iris

 Hi Iris,

Good talking to you earlier. To your question about someone who might be able to talk to you about why competitive elections are important and the shared community of interest between Bozeman and Missoula, Sen. Pat Flowers comes to mind. He testified before the commission over the summer about the importance of competitive districts in the lead up to the adoption of our criteria. Sen. Flowers was elected in a highly competitive Gallatin County seat in 2018, flipping it from Republican-held the prior election. He also represents MSU and it's surrounding area so I think he has good insight about the importance of the university in our community and how that interest is shared with UM and Missoula.

His contact info is (406) 580-0035 and patflowersformontana@gmail.com.

Subject: *** REDISTRICTING CALL TO ACTION***

Western Montana Liberty Coalition

! ACTION ALERT !

If you can dedicate 30 minutes today, you can make a big impact for the future of Montana. Please read the urgent message below from Debbie Churchill, MTGOP Grassroots Director:

Good Morning Montana Patriots!

We are at the final stage of the process of selecting our two Congressional Districts for Montana! It is important that our voice be heard at the next Commission meeting.

WHAT WE NEED TO DO:

1. We need to convince the Commission to adopt a map that complies with Montana law and reject a gerrymandered district in the West with an overwhelming number of people to provide written public comments by 5:00 pm this Saturday.
2. We need as many people as possible to rally together at the next Commission meeting on Tuesday, October 19th @ 9 am at the State Capitol. **MARK YOUR CALENDAR!**

STEP BY STEP PROCESS:

We **NEED** each one of you to do the following **TODAY** if possible:

1. Read the text below this section for all information.
2. Submit your written comments (**see instructions below**).
3. Make a list of 10 people you know who you can ask to submit their comments by Saturday at 5:00 pm. Include their name, phone number and email address.
4. Forward this email and attached document to all 10 people.
5. Follow up with a phone call to each person:
 - a. to make sure they received the email
 - b. help them through the process of submitting their comment.
 - c. find out if they are available on October 19th to attend in person or by Zoom

We need to act and **THE TIME TO ACT IS NOW**. This is the **MOST IMPORTANT** thing we, as Republicans, can do for the next decade. This will not only affect the next Congressional election, but will set the standards for decades to follow.

Let's DO this!

Debbie Churchill MTGOP Grassroots Director, 1300 Aspen Street, Ste. B, Helena, MT 59601 (406) 442-6469 (office) (406) 799-8506 (cell) debbie@mtgop.org

HOW TO MAKE COMMENTS

The Montana Districting and Apportionment Commission met last week and put forward a total of nine maps for public comment. And while republican members of the commission put forward four maps that split the state into eastern and western

districts and provide a balance between geographies, communities and populations similar to Montana's history with two districts (maps 1,3,5 and 7), Democrats proposed five partisan, gerrymandered maps that clearly draw one district in favor of their political party (maps 2,4,6,8, and 9).

Ways you can help:

1. Submit your written comments by **THIS SATURDAY, October 16th** no later than 5 pm. Pick one map that you like and comment on it. Then comment what you dislike on each of the gerrymandered maps. So you will comment on six maps total. Below is the process to do it, and many points you can pick from to make.

Step By Step Process For Submitting Comments:

1. Go to the commission website to submit your comments found [HERE](#).
2. Click on the "Interactive Map" tab next to a map that you want to comment on. You will see either a red, green or yellow dot of comments already made. You can also read comments off to the right.
3. Off to the right, click on the "Add Comment" button. Next, click anywhere on the map. It will bring up the form to fill out.
4. Click either Like, Dislike or Opinion button. Continue filling out the form with your name, address, email and phone number. In the last box add your comments.
5. Then click ADD COMMENT to submit.

2. Rally together at the Capitol next Tuesday, October 19th at 9 am as the Commission will be holding a public hearing on the nine proposed maps put forward. The meeting will be taking place at the State Capitol in Room 102 and will begin at 10 am. You can find the full agenda for the meeting [HERE](#).

3. **Can't attend the meeting in person?** Be sure to [register to attend virtually](#) no later than 5 pm on Monday, October 18th!

The redistricting process will determine the political makeup of our state for at least the next decade, and possibly even longer. Your participation is CRITICAL. We need your help to fight the gerrymandering by Democrats.

Thank you for all you do and we look forward to seeing you next week!

Sample comments for consideration, not intended to be all-inclusive, can pick and choose the points most important to you:

Map 1 – I like this map because

- it allows for two reservations to be included within the western district, allowing for a stronger voice for the tribes in the new western district.
- the population deviation is just 1 citizen (0%), creating one of the tightest maps by that measure, and both districts are almost the same shape, allowing for compact and contiguous parameters to meet the legal requirements in Montana.
- there are split counties in Cascade and Gallatin, but it keeps both major cities intact in the eastern district (Great Falls and Bozeman).
- this map splits the fastest growing 4 counties evenly between the east and west districts, allowing for the best reflection of population growth over the decade.
- when you follow the commissions' illegal goals of competitive, it is the closest number of voters for each party using the 2016 Governor's race and the 2018 Senate race for each district. This is the most competitive map for both parties in the choices available.
- most closely resembles the historical divide Montana had for 80 years when we had two districts before, adjusting for population and tribe inclusion.

Map 2 – I dislike this map because

- it is one of the worst examples of gerrymandering one could draw. Although it meets the population deviation requirement at 175 citizens (.02%), it is a travesty of compactness and a contiguous nightmare. A candidate would have to traverse over 700 miles to get from Libby to Miles City, spending 10 hours of time, and when they got to either, the needs of both communities are polar opposites as well.
- it obviously breaks the law, violating 5-1-115(3b,c,d) because when you search the political affiliation of registered voters in the counties represented, it creates a very strong democrat district in the SW, and a very strong Republican district everywhere else.
- this map creates only one congressional seat bordering the huge economic driver of Canada with the state.

- this map doesn't even begin to resemble the historical divide we had for 80 years with our previous two congressional seats, keeping communities of interest intact based upon the commonalities easily found in an east west divided map.

- it encircles Helena, Missoula, Butte and Bozeman to create a Democrat Super District, and should be voted "most likely to be sued by both the GOP and all Tribal governments" Map of 2021!

Map 3 – I like this map because

- it has all the characteristics of the CP-1 map, with a slightly larger population deviation at -560 (-0.1%). The only difference is the southern part of Gallatin around West Yellowstone and Hebgen Lake Estates will be in the western drawn map. Slight changes in the western parts of the county as well, but the cities of Great Falls and Bozeman remain intact and in the east.
- it does not favor a political party. Either district could be won by Republican or Democrat.
- it creates both districts of almost the same shape, allowing for compact and contiguous parameters to meet the legal requirements in Montana
- it splits the fastest growing 4 counties evenly between the east and west districts, allowing for the best reflection of population growth over the next decade.

Map 4 – I dislike this map because

- this gerrymandered map is the best example of violating keeping communities of interest intact. Kalispell is the county seat of government, is where all the airports reside, and is the social and economic hub for the county. When you look at the illegal criteria of competitiveness adopted by the Commission, the divide through the Flathead places all the strong republican precincts in the east, and the democrat ones in the west, linking them to the democrat strongholds of Helena with Butte and combines both major university town into one district. This has the double effect of dividing the political power of the strongest Republican county in the state. This obvious gerrymandering continues when you evaluate all the locations, creating another Democrat super district in the west, and a double digit political lead in the east for the Republicans.
- looking at future growth, this map will obviously favor the western district, and we can be sure the population will quickly ruin the equality of both these districts over the next decade of growth. Let's vote this one "the most likely to render the Ravalli county Republican stronghold and the majority Democrat eastern tribes in Montana impotent in their new seats!"
- it has only one positive feature, allowing for two reservations to be included within the western district. However, that is outweighed because it violates the compact and contiguous tests with the partisan half taken from Flathead County, placing Kalispell in the eastern district.

Map 5 – I like this map because

- it is an attempt to get three tribes in the western district as its primary goal, and falls just under the requirement of .75%, with 7551 population deviation (.7%). It could be argued to fall just under our requirements for compact and contiguous in the effort to get three tribes in the west, splitting the Rocky Boy Reservation components in Hill and Choteau counties off.
- it also closely resembles the historical divide Montana had for 80 years when we had two districts before, adjusting for population and tribe inclusion.
- It allows for an even divide of the 4 fastest growing counties in Montana, 2 on each side, thus insuring the population growth in both seats would keep things even as we grow in the next decade.
- it definitely keeps communities of interest intact and doesn't split any reservations. Again, if we consider the illegal requirement of competitiveness adopted by the commission, both of these districts are very competitive based upon 2016 Governor and 2018 US Senate race results, allowing for either major party in Montana a chance for victory. This map could easily be "the great compromise map of the lot."

Map 6 – I dislike this map because

- it has almost all the failures of the CP-2 map, and is once again another violation of the legal requirements of compact and contiguous. Even though it complies with population deviation of 1 citizen (.0%), you have to drive through the other district to get to Mineral and Sanders counties.
- it splits Sanders County, only so you can maintain the boundary of the only Tribe in district (CSKT).
- Even though it splits up the 4 fastest growing counties evenly, it fails the communities of interest test and leaves one Congressman representing the Canadian interface.

• This map creates a Super Democrat District out of the west, and a super republican one, which by the way has all the other tribes in it, for the east. This one could be very competitive however for being voted "most likely to be sued by both the GOP and all Tribal governments" Map of 2021!

Map 7 – I like this map because

• It most closely resembles the historical east west divide Montana had for 80 years, with the north south line actually being the Continental Divide for most of its length.

• it is tied with CP-1 for being the most compact and contiguous map in the mix, weighing in at just 9 citizens in population deviation (.09%).

• it keeps all communities of interest intact the very best, with farming in the east and forestry in the west, splitting only Gallatin county north of the expressway through Bozeman.

• both districts have shared borders with Canada, as it should be.

• both of these districts are within single digits for either party based upon the 2016 Governor and the 2018 US Senate races data, creating the second best "competitive map" for both districts.

Map 8 – I dislike this map because

• it is another example of gerrymandering prowess, with the only legal component being the population deviation is 1 citizen (.09%).

• it has all the failures of CP-2, with the added insult of having just one seat border Canada and surprisingly, most of Idaho as well! This map does have the distinction of being the most in violation of compact and contiguous, as well as totally splitting communities of interest in the west.

• this map is the most radically different from our historical division of 80 years, and although it is an attempt to put two tribes in the west, it is the CSKT and the Crow, which have never been in the same community of interest (coal anyone?).

• this map literally splits the city of Billings from the West End, the Heights and Lockwood. This fiasco places almost all 3 of the 4 fastest growing counties in the state in one district, and there is no way that even pencils out over the decade for being fair with the potential growth.

• with the measure of competitiveness, this map gets the award for the most Super Democrat district in the new west, and the most super district for the Republicans in the east. These are double digit differences, so a sure lock for both parties.

Map 9 – I dislike this map because

• it has all the failures of CP-2 map, including its only saving grace is the legality of its population deviation being 1 citizen (.09%). The biggest stand out failure of this map is in violation of Federal Election Law, where it actually has no tribal nations in the new western seat. This failure is compounded by the illegal competitive measure, when one realizes the new eastern seat is a double digit percentage favorite for the Republican Party, when looking at the 2016 Governor and 2018 US Senate race results. It still creates a Democrat super seat with the same power house groups of Cp-2 for the new western seat.

• it is an obvious violation of compact, contiguous and communities of interest, as well as once again allowing only one seat to represent the critical interface with Canada. The historical map also has nothing in common with this map, and honestly this maps only distinction will be "the most likely to be rejected first at the next Redistricting meeting."

Western Montana Liberty Coalition

! ACTION ALERT !

Dear Kendra,

If you can dedicate 30 minutes today, you can make a big impact for the future of Montana. Please read the urgent message below from Debbie Churchill, MTGOP Grassroots Director:

Good Morning Montana Patriots!

We are at the final stage of the process of selecting our two Congressional Districts for Montana! It is important that our voice be heard at the next Commission meeting.

WHAT WE NEED TO DO:

1. We need to convince the Commission to adopt a map that complies with Montana law and reject a gerrymandered district in the West with an overwhelming number of people to provide written public comments by 5:00 pm this Saturday.
2. We need as many people as possible to rally together at the next Commission meeting on Tuesday, October 19th @ 9 am at the State Capitol. **MARK YOUR CALENDAR!**

STEP BY STEP PROCESS:

We **NEED** each one of you to do the following **TODAY** if possible:

1. Read the text below this section for all information.
2. Submit your written comments (**see instructions below**).
3. Make a list of 10 people you know who you can ask to submit their comments by Saturday at 5:00 pm. Include their name, phone number and email address.
4. Forward this email and attached document to all 10 people.
5. Follow up with a phone call to each person:
 - a. to make sure they received the email
 - b. help them through the process of submitting their comment.
 - c. find out if they are available on October 19th to attend in person or by Zoom

We need to act and **THE TIME TO ACT IS NOW**. This is the **MOST IMPORTANT** thing we, as Republicans, can do for the next decade. This will not only affect the next Congressional election, but will set the standards for decades to follow.

Let's DO this!

Debbie Churchill MTGOP Grassroots Director, 1300 Aspen Street, Ste. B, Helena, MT 59601 (406) 442-6469 (office) (406) 799-8506 (cell) debbie@mtgop.org

HOW TO MAKE COMMENTS

The Montana Districting and Apportionment Commission met last week and put forward a total of nine maps for public comment. And while republican members of the commission put forward four maps that split the state into eastern and western districts and provide a balance between geographies, communities and populations similar to Montana's history with two districts (maps 1,3,5 and 7), Democrats proposed five partisan, gerrymandered maps that clearly draw one district in favor of their political party (maps 2,4,6,8, and 9).

Ways you can help:

1. Submit your written comments by **THIS SATURDAY, October 16th** no later than 5 pm. Pick one map that you like and comment on it. Then comment what you dislike on each of the gerrymandered maps. So you will comment on six maps total. Below is the process to do it, and many points you can pick from to make.

Step By Step Process For Submitting Comments:

1. Go to the commission website to submit your comments found [HERE](#).
2. Click on the "Interactive Map" tab next to a map that you want to comment on. You will see either a red, green or yellow dot of comments already made. You can also read comments off to the right.

3. Off to the right, click on the "Add Comment" button. Next, click anywhere on the map. It will bring up the form to fill out.

4. Click either Like, Dislike or Opinion button. Continue filling out the form with your name, address, email and phone number. In the last box add your comments.

5. Then click ADD COMMENT to submit.

2. Rally together at the Capitol next Tuesday, October 19th at 9 am as the Commission will be holding a public hearing on the nine proposed maps put forward. The meeting will be taking place at the State Capitol in Room 102 and will begin at 10 am. You can find the full agenda for the meeting [HERE](#).

3. **Can't attend the meeting in person?** Be sure to [register to attend virtually](#) no later than 5 pm on Monday, October 18th!

The redistricting process will determine the political makeup of our state for at least the next decade, and possibly even longer. Your participation is CRITICAL. We need your help to fight the gerrymandering by Democrats.

Thank you for all you do and we look forward to seeing you next week!

Sample comments for consideration, not intended to be all-inclusive, can pick and choose the points most important to you:

Map 1 – I like this map because

- it allows for two reservations to be included within the western district, allowing for a stronger voice for the tribes in the new western district.
- the population deviation is just 1 citizen (0%), creating one of the tightest maps by that measure, and both districts are almost the same shape, allowing for compact and contiguous parameters to meet the legal requirements in Montana.
- there are split counties in Cascade and Gallatin, but it keeps both major cities intact in the eastern district (Great Falls and Bozeman).
- this map splits the fastest growing 4 counties evenly between the east and west districts, allowing for the best reflection of population growth over the decade.
- when you follow the commissions' illegal goals of competitive, it is the closest number of voters for each party using the 2016 Governor's race and the 2018 Senate race for each district. This is the most competitive map for both parties in the choices available.
- most closely resembles the historical divide Montana had for 80 years when we had two districts before, adjusting for population and tribe inclusion.

Map 2 – I dislike this map because

- it is one of the worst examples of gerrymandering one could draw. Although it meets the population deviation requirement at 175 citizens (.02%), it is a travesty of compactness and a contiguous nightmare. A candidate would have to traverse over 700 miles to get from Libby to Miles City, spending 10 hours of time, and when they got to either, the needs of both communities are polar opposites as well.
- it obviously breaks the law, violating 5-1-115(3b,c,d) because when you search the political affiliation of registered voters in the counties represented, it creates a very strong democrat district in the SW, and a very strong Republican district everywhere else.
- this map creates only one congressional seat bordering the huge economic driver of Canada with the state.
- this map doesn't even begin to resemble the historical divide we had for 80 years with our previous two congressional seats, keeping communities of interest intact based upon the commonalities easily found in an east west divided map.
- it encircles Helena, Missoula, Butte and Bozeman to create a Democrat Super District, and should be voted "most likely to be sued by both the GOP and all Tribal governments" Map of 2021!

Map 3 – I like this map because

- it has all the characteristics of the CP-1 map, with a slightly larger population deviation at -.560 (-0.1%). The only difference is the southern part of Gallatin around West Yellowstone and Hebgen Lake Estates will be in the western drawn map. Slight changes in the western parts of the county as well, but the cities of Great Falls and Bozeman remain intact and in the east.
- it does not favor a political party. Either district could be won by Republican or Democrat.
- it creates both districts of almost the same shape, allowing for compact and contiguous parameters to meet the legal requirements in Montana

- it splits the fastest growing 4 counties evenly between the east and west districts, allowing for the best reflection of population growth over the next decade.

Map 4 – I dislike this map because

- this gerrymandered map is the best example of violating keeping communities of interest intact. Kalispell is the county seat of government, is where all the airports reside, and is the social and economic hub for the county. When you look at the illegal criteria of competitiveness adopted by the Commission, the divide through the Flathead places all the strong republican precincts in the east, and the democrat ones in the west, linking them to the democrat strongholds of Helena with Butte and combines both major university town into one district. This has the double effect of dividing the political power of the strongest Republican county in the state. This obvious gerrymandering continues when you evaluate all the locations, creating another Democrat super district in the west, and a double digit political lead in the east for the Republicans.

- looking at future growth, this map will obviously favor the western district, and we can be sure the population will quickly ruin the equality of both these districts over the next decade of growth. Let's vote this one "the most likely to render the Ravalli county Republican stronghold and the majority Democrat eastern tribes in Montana impotent in their new seats!"

- it has only one positive feature, allowing for two reservations to be included within the western district. However, that is outweighed because it violates the compact and contiguous tests with the partisan half taken from Flathead County, placing Kalispell in the eastern district.

Map 5 – I like this map because

- it is an attempt to get three tribes in the western district as its primary goal, and falls just under the requirement of .75%, with 7551 population deviation (.7%). It could be argued to fall just under our requirements for compact and contiguous in the effort to get three tribes in the west, splitting the Rocky Boy Reservation components in Hill and Choteau counties off.

- it also closely resembles the historical divide Montana had for 80 years when we had two districts before, adjusting for population and tribe inclusion.

- It allows for an even divide of the 4 fastest growing counties in Montana, 2 on each side, thus insuring the population growth in both seats would keep things even as we grow in the next decade.

- it definitely keeps communities of interest intact and doesn't split any reservations. Again, if we consider the illegal requirement of competitiveness adopted by the commission, both of these districts are very competitive based upon 2016 Governor and 2018 US Senate race results, allowing for either major party in Montana a chance for victory. This map could easily be "the great compromise map of the lot."

Map 6 – I dislike this map because

- it has almost all the failures of the CP-2 map, and is once again another violation of the legal requirements of compact and contiguous. Even though it complies with population deviation of 1 citizen (.0%), you have to drive through the other district to get to Mineral and Sanders counties.

- it splits Sanders County, only so you can maintain the boundary of the only Tribe in district (CSKT).

- Even though it splits up the 4 fastest growing counties evenly, it fails the communities of interest test and leaves one Congressman representing the Canadian interface.

- This map creates a Super Democrat District out of the west, and a super republican one, which by the way has all the other tribes in it, for the east. This one could be very competitive however for being voted "most likely to be sued by both the GOP and all Tribal governments" Map of 2021!

Map 7 – I like this map because

- It most closely resembles the historical east west divide Montana had for 80 years, with the north south line actually being the Continental Divide for most of its length.

- it is tied with CP-1 for being the most compact and contiguous map in the mix, weighing in at just 9 citizens in population deviation (.0%).

- it keeps all communities of interest intact the very best, with farming in the east and forestry in the west, splitting only Gallatin county north of the expressway through Bozeman.

Hey Kendra -- Thanks for sending. By way of explanation, I did receive the column from Essmann and Stusek, I've just not had any space to give to it. Local elections have me overloaded with letters.

Instead, I might look for a way to pair your column with theirs sometime this week.

Hi Michael,

Please see the attached op-ed that I'd like to submit on behalf of Commissioner Lamson and myself. It is a response to this Guest View by Commissioners Essmann and Stusek that ran earlier this week in several newspapers:

https://helenair.com/opinion/columnists/montana-is-not-a-pumpkin/article_d5250b34-5023-5738-b10e-2fcf235686ea.html?utm_medium=social&utm_source=email&utm_campaign=user-share

I have not seen it run in the Chronicle yet. Maybe they felt the Chronicle's audience would be less receptive to how their proposals cut up Gallatin County. Nonetheless, I'd like to submit our op-ed anyways.

Below is our contact info. The Commission meets Tuesday, October 19th for a hearing on map proposals. Please let me know if it would be possible to run the piece prior to that important public hearing. Apologies for short notice. It was short notice for us too:)

Ms. Miller,
Reid Wilson here from The Hill newspaper in DC. I'm working on a story about Montana's redistricting process, and I'd love to get your take on what US House maps would be most representative for the state. Would be great to hear from a commissioner herself!

Let me know if you have time to chat this week, and thanks a bunch for your help.

Reid

This sounds great! If you're around and it would work to do something next week in line with our meeting on Thursday, November 4th, that would work for me. Otherwise, we can plan out a little farther and work something out in Bozeman.

Hi Commissioner Miller!

Thank you for getting back to me – I wrote you back on Monday and never pressed send on the email. I'm so sorry. This week got really busy and I bet was also busy for you.

After going over the footage of Commissioner Stusek, and Presiding Officer Smith, we are in good shape and I'm not feeling the urgency that I was feeling last week. So we can absolutely look ahead to next week and beyond. (And if it needs to be after the big deadline, I'm good with that – but if you do end with some time in Helena when coming for meetings, we can make that happen too – whatever is easiest!) Feel free to suggest times, and I'll also check with my producer in Bozeman about days that might work for her (or early evenings, as you mentioned. Adorable kid cameos would make a great addition to the biographical portion. ☺)

We also published our first Districting & Apportionment video today and it's on the top of mtredistricting.gov if you just wanted to get a sneak peek of what's in your future. Thanks!

Hi K'Lynn,

Sorry for the slow response! Friday would work well for me if you can fit me in. I could do early in the morning on Friday in Bozeman (maybe 8 or 8:30 am) or I could do Friday afternoon in Helena since I'll drive over that day. Anytime after 1 pm should work in Helena.

Let me know how that would work. I could also do Monday or Tuesday in Bozeman late afternoon if that's better, but it would have to be 4:30 pm or later so my husband can take the kids. I'm not confident I could get them to entertain themselves quietly during an interview so they would likely end up as part of the interview.)

Good Morning Commissioner Miller!

I absolutely understand not doing it this week. These are a few very full days.

My producer that is helping me film is located in Bozeman. Would it be helpful for us to come to you next week? Let me know your thoughts.

We could pick a filming location together or have you come into the studio. I think for us, Monday would work, Tuesday afternoon, I think we may not be available Wednesday or Thursday, but could do Friday (in Helena or Bozeman.) I think we would also be widely available that first week in November, but I don't think I'd want to push it much past that.

Hope we can find something that works! Thank you so much for your willingness to participate.

Commissioners,
 The Montana Public Affairs Network is working with the Legislative Services Division to create videos for the Districting Commission and about redistricting with an eye to publicizing your work on state legislative redistricting. (MPAN broadcasts to television audiences statewide and also operates the cameras that stream your meetings live.) The attachment outlines the goals for the video project. The MPAN staff is hoping to set times to interview as many of you as are interested and available in the coming weeks. Next week, their staff will be available on Wednesday the 20th and prior to your meeting on the 21st to conduct interviews. I've cc'd the MPAN staff, K'Lynn Harris, on this email. If you are interested in setting up an interview time with her, please contact her (klynn@montanapbs.org). She's worked in the past on long-form video interviews with former legislators, legislative staff, and longtime lobbyists and reporters to capture some of Montana's legislative history. She has also worked to create short videos of legislators to help them explain their roles and districts to Montanans.

The attachment includes some sample questions in case you'd like a preview of what you can expect in terms of questions.

Thanks and don't hesitate to reach out with questions.

Sincerely,

AMERICAN

I'm happy to do an interview for the project. I'd rather not do it this week though. Can we figure out another time after this week? Maybe on Friday, the 29th, before the hearing on the 30th? Let me know and I can figure out scheduling.

Subject: Redistricting Video Project

1/10/22, 3:39 PM

Zimbra

Commissioners,

The Montana Public Affairs Network is working with the Legislative Services Division to create videos for the Districting Commission and about redistricting with an eye to publicizing your work on state legislative redistricting. (MPAN broadcasts to television audiences statewide and also operates the cameras that stream your meetings live.) The attachment outlines the goals for the video project. The MPAN staff is hoping to set times to interview as many of you as are interested and available in the coming weeks. Next week, their staff will be available on Wednesday the 20th and prior to your meeting on the 21st to conduct interviews. I've cc'd the MPAN staff, K'Lynn Harris, on this email. If you are interested in setting up an interview time with her, please contact her (klynn@montanapbs.org). She's worked in the past on long-form video interviews with former legislators, legislative staff, and longtime lobbyists and reporters to capture some of Montana's legislative history. She has also worked to create short videos of legislators to help them explain their roles and districts to Montanans.

The attachment includes some sample questions in case you'd like a preview of what you can expect in terms of questions.

Thanks and don't hesitate to reach out with questions.

Sincerely,

Rachel Weiss
Legislative Research Analyst

To: undisclosed-recipients:
Subject: CALL TO ACTION - 2020 DISTRICTING
 AND APPORTIONMENT COMMISSION

Patriots,

Action Time: 30 minutes

Please help **STOP THE STEAL** of elections in Montana by
 making your voice heard!

The Districting & Apportionment Commission voided the 9
 previous maps and came up with 2 new maps.

The map favored by the Democrats splits Flathead County in half
 and effectively neuters the most conservative county in the state.

Derek and Ronalee Skees spoke at length at our last meeting
 regarding the importance of sending our comments to the
 commission AND our presence in Helena next Saturday October
 30, 2021.

There are several ways you can help:

1. Attend the next Districting and Apportionment Commission
 meeting "In-Person" on **Saturday, October 30, 2021 @**

MT-MDAC-21-1688-B-000384

9:30 AM in the State Capitol, Room 102 and deliver your short (30 second) testimony to the Commissioners. (Talking points will be provided for you)

A bus has been chartered for Helena and the cost is **FREE**.

There are only 55 seats available on a "first call first served" basis but we need firm confirmation from each person.

Call John O'Neil at (406) 755-5714 or Lauralee O'Neil at (406) 407-5639 to reserve your seat and get more details.

Meet @ the Red Lion Inn parking lot in Kalispell at 4 AM on Saturday October 30, 2021 for the "ride of your life".

2. Send an email to the Chair and Commissioners

here: districting@mt.gov

(suggested comments below)

3. Send the same e-mail directly to the Chair and Commissioners:

Maylinn.Smith@mtleg.gov, Jeff.Essmann@mtleg.gov, Joe.Lamson@mtleg.gov, Dan.Stusek@mtleg.gov, Kendra.Miller@mtleg.gov

(suggested comments below)

4. Send the same comments directly to the Commissioners through their website: <https://mtredistricting.gov/contact/>

(suggested comments below)

Subject: Congressional Redistricting Map

Chair Smith and Commissioners,

The two newly proposed maps (CP-10 and CP-11) are terrible maps as they are based on trying to carve out specific party districts and do not comply with Montana statutes and constitutional requirements.

Please throw out these two new maps and select map CP-1 as it's the best map that adheres to the law.

Thank you for your consideration.

Your Name, Address, Phone Number & d Email Address (this is required information)

5. Provide comments on the interactive maps for CP-10 or CP-11 by clicking below and following the directions:

<https://mtredistricting.gov/congressional-maps-proposed-by-the-commission/>

6. Attend the meeting virtually and provide your comments. Click below and follow the directions:

<https://mtredistricting.gov/remote-participation-request/>

You **MUST** request remote participation online by 5 pm on Friday October 29, 2021 @ 5 PM.

ADDITIONAL INFO

Agenda for the commission meeting on Saturday is attached.

Pictures of the proposed new maps are attached and are posted below.

Please forward to friends, family, etc. who may be interested in this issue.

Rachel and Joe,

Attached is a block equivalency file for a consensus map that merges Proposals 10 and 11. Commissioner Lamson and I have provided this to Commissioners Stusek and Essmann for consideration, and they provided us with a proposal earlier in the week. While our discussions are obviously running down to the wire, I think it's appropriate to post both maps online as soon as possible to make sure they are publicly accessible. With the Chair's permission, could you please post these new proposed maps online tomorrow?

Here is the link Commissioner Essmann provided for their proposal: [https://urldefense.com/v3/https://davesredistricting.org/join/c205cdf03db-4efb-b2c5-f57053b58e49-;!!GaaboAl-vrqYI-7V9_vZtW4waAPyb5LRfAUPMa3xF6AatR7MGSS2UBYwarVTnCXLFfb_Q\\$](https://urldefense.com/v3/https://davesredistricting.org/join/c205cdf03db-4efb-b2c5-f57053b58e49-;!!GaaboAl-vrqYI-7V9_vZtW4waAPyb5LRfAUPMa3xF6AatR7MGSS2UBYwarVTnCXLFfb_Q$)

Hello Commissioner Miller,

I wanted to confirm that the plan loaded ok. I'll use the compare plan feature to help illustrate the differences between 11 and 11A (see the attached screenshot). If those colors don't work for commissioners' eyes, we can change that easily tomorrow.

Thanks,
Rachel

Rachel and Joe,

Attached is an amended Proposal 11 that adjusts some lines in the Flathead to better follow precinct lines and deal with a potential voter privacy issue. This new amended plan splits only two precincts in Flathead County with sufficient population on both sides to ensure voter anonymity.

Please let me know if you have any issues with the file.

Thank you!

Subject: RE: [EXTERNAL] Re: Blackfeet Amendment to Tentative Final Plan

Hello Commissioner Miller and Commissioner Smith –

I've posted a couple documents for this amendment online at the November 9 meeting page. I'll send out an email to all the commissioners next. The documents include:

1. [A description of the amendment](#) and the population changes
2. [A map of the amendment](#)
3. [A map of the differences](#) from the original CP 12

Please note the changes in the amendment don't include adjusting the 4 zero-population, non-contiguous sections. Those 4 blocks were cleaned up as a clerical change approved through Commissioners Stusek and Smith prior to posting the CP 12 and CP 13 plans online. The shapefiles and block equivalency files posted [online for CP 12](#) already reflected those adjustments.

If you think of other information or displays that will help the commissioners and public weigh the change, just let me know.

Sincerely,
Rachel

On Fri, Nov 5, 2021, 3:22 PM Kendra Miller <kendra.miller@mtleg.gov> wrote:

Madam Chair and Rachel,

I've attached an amendment to the tentative final plan for Tuesday's hearing and vote. The amendment would exclusively use the boundary line of the Blackfeet Reservation in Pondera County rather than the arbitrary cut between Valier and Conrad. The amended plan would have a District 1 deviation of -1,538 (-0.28%) and a District 2 deviation of +1,537 (+0.28%). This overall total deviation of 3,075 people or 0.56% is smaller than the deviation upheld in Tennant v. Jefferson County Commission in 2011, which was an overall deviation of 0.79% in order to follow county lines.

I find exclusively following county lines and a reservation boundary to be a legitimate state objective to allow for this minor deviation based on the standard set forth in that case. Thus, I plan to move the amendment on Tuesday and wanted to provide you with time to review.

In addition to moving the Pondera County dividing line to the Blackfeet Reservation boundary, I have also cleaned up the non-contiguous Census blocks in Pondera County. As I'm sure the staff had recognized, there are 4 unpopulated Census blocks in Pondera County that are assigned to District 1 and non-contiguous from the district. They are along the Marias River, two roads along the southern border of Pondera/Teton Counties, and one block north of Conrad. This amendment would fix those as well.

Please let me know if you have any questions, and feel free to post it online in advance of the meeting if staff feel that is appropriate.

Tom,

Apologies for the late reply. Commissioners have received thousands of emails over the last few days as public comment regarding the congressional proposals, and I missed this. Tuesday we have another Commission meeting so I would be unable to join you that day. Monday isn't great for me, but I might be able to make something work. Given that we will be adopting a final plan on Tuesday, though, would you prefer to do something later in the week so we can discuss that final decision and the adopted map? I have some availability Wednesday through Friday.

Hello Commissioners,
This is Tom Schultz, host of [Voices of Montana](#), a statewide (24 signals/15 markets), issue-oriented, Mon-Fri radio talk show that airs live 9am - 10am (Mtn.) from the Northern Broadcasting System, Billings, MT.

I have had the opportunity to broadcast live an interview with a Republican member of the Commission in the past, and would like to extend that invitation to either of you.

I have 9:39a – 9:58a available this week on Wednesday. I am also open for some time between 9am – 10am next Monday and Tuesday.

The interview would be approximately 20-25 minutes live, by phone. We do take listener calls and text messages, but manage the decorum closely.

The questions would be along the lines of discussing your support/opposition to the various maps submitted, along with discussing your support for the "competitive" criteria of the redistricting.

Please don't hesitate to reach out to me by phone if you have any questions regarding this request.

With appreciation
Tom Schultz

I have had the opportunity to broadcast live an interview with a Republican member of the Commission in the past, and would like to extend that invitation to either of you.

I have 9:39a – 9:58a available this week on Wednesday. I am also open for some time between 9am – 10am next Monday and Tuesday.

The interview would be approximately 20-25 minutes live, by phone. We do take listener calls and text messages, but manage the decorum closely.

The questions would be along the lines of discussing your support/opposition to the various maps submitted, along with discussing your support for the “competitive” criteria of the redistricting.

Please don't hesitate to reach out to me by phone if you have any questions regarding this request.

With appreciation

Tom Schultz

Zimbra

Hello Commissioners,

The agenda and materials for the Friday 12th Zoom meeting are [online now](#). This meeting starts at **9 am**. I'll send the Zoom link out later this week.

Among the materials, there's a draft letter to the Secretary of State that we'll have you finalize and approve during the meeting. The comment deadline is 5 pm on November 11. Anything that comes in after that time will be sent to you before your next meeting. It's a holiday, so we were trying to avoid a midnight deadline. I've also attached the reimbursement form for those of you who will be claiming salary. Please let us know if you have any questions.

Sincerely,

Rachel Weiss
Legislative Research Analyst

Hello-

Thanks so much for contacting me. I appreciate your engagement with the legislative process. Of course, we are currently in the Interim between sessions. Interim committees are meeting, there are studies going on, ARPA fund distribution is supposed to be happening, Budget committees continue to meet throughout.

I am serving as the Chair of the Revenue Interim Committee and I am a member of the Water Policy Interim Committee. I hope that you continue to hold us accountable to your needs and your voting power. I will keep the voice of Montana Families foremost in my work. Thanks so much -Jill

Senator Jill Cohenour
Senate District 42
East Helena, Montana
Phone: 406-227-1144

Hi All,

I wanted to reach out before your upcoming Legislative Council meeting on Monday to provide some context for an action item on your agenda concerning a request for funding from the Districting and Apportionment Commission. There are two projects important to legislative redistricting that require technical expertise beyond that of legislative services staff, and we'd like to move forward with hiring professional consultants to complete the work. The Commission sent your Council this [letter](#) requesting the funds, but I recognize that the letter explains what the funds are needed for without much explanation as to why the work is important to legislative redistricting. Thus, I wanted to make sure you had a little more background prior to the meeting and have my contact information if you have any other questions.

The two projects are Inmate Reallocation and Racial Bloc Voting Analysis. There is bipartisan support for completing this work prior to the drafting of legislative maps, and the desire to move forward with both tasks and submit a funding request was a unanimous action by the five commissioners. Because both projects are common in redistricting work, we looked to NCSL and other states for cost estimates. The total amount requested is \$50,000 (\$10,000 for Inmate Reallocation and \$40,000 for Racial Bloc Voting Analysis). These two RFIs ([Inmate Reallocation RFI](#) and [Racial Bloc Voting Analysis RFI](#)) describe some of the technical work that these projects require. But in addition to what we're trying to accomplish, I thought it might be helpful to provide some context as to why the work is important to legislative redistricting.

Background on Inmate Reallocation

During the 2020 Decennial Census, the U.S. Census Bureau counted incarcerated individuals as residents of the facilities where they were incarcerated rather than their home communities, or previous known addresses. This practice, often referred to as prison gerrymandering, distorts representation, inflates political power for some, and marginalizes communities most impacted by mass incarceration. Because Montana has low population density and a large Legislature relative to most states, incarceration facilities have a more extreme impact on representation in Montana than other states. Montana is often cited as an example of some of the most distorted representation in the country when it comes to prison gerrymandering. As a Commission, we agree that reallocating inmate data for incarcerated individuals counted at prison facilities better ensures equal and accurate representation for all Montana communities. There are roughly a dozen states adjusting inmate data in this manner, with many others exploring the option for the future. Montana is in a position to complete this work prior to drawing legislative districts that will be adopted in 2023.

Background on Racial Bloc Voting Analysis

Section 2 of the federal Voting Rights Act prohibits any voting qualification, standard, practice, or procedure that results in the denial or abridgement of the right to vote, including dilution of minority voting strength as it pertains to a redistricting plan. In addition, Article II, Section 4 of the Montana Constitution prevents racial discrimination in the exercise of political rights. Because racial and language minority communities are regularly at risk of minority vote dilution in the redistricting process, legal experts across the political spectrum strongly recommend that all states with sufficiently large and compact minority populations complete Racial Bloc Voting Analysis prior to adopting a redistricting plan to aid in compliance with the VRA. Montana has a history of Voting Rights Act litigation in the realm of redistricting, with the 1990's legislative plan resulting in a lengthy and costly Voting Rights Act lawsuit. Since then, case law has developed in a way that legal experts on both sides of the aisle agree Racial Bloc Voting Analysis should be completed prior to adoption of any redistricting plan, as Courts look unfavorably on redistricting bodies that don't do the technical work up front to ensure compliance. Voting Rights Act litigation is expected to be a preeminent legal issue in redistricting across the country this decade. Racial Bloc Voting Analysis is the very first thing a Court requires when a VRA violation is alleged against a redistricting plan. Completing the analysis now reduces legal liability, but because minority vote dilution is complicated, it also best ensures that our Commission can work together in a bipartisan way to meet our obligations in adherence to both the VRA and the Montana Constitution in the legislative redistricting process. Put more bluntly, we should *not* be debating whether or not we should adopt a legislative map that dilutes minority voting rights. That is a waste of everyone's time. The Commission understands that we *must* comply with the VRA, but the Racial Bloc Voting Analysis is necessary to tell us how.

MT-MDAC-21-1688-B-000403

Hopefully this is helpful in giving you a little more understanding of what we are hoping to accomplish and why it's important to legislative redistricting. I recognize there are likely many projects worthy of consideration for funding that might be competing with these requests. Please don't hesitate to give me a call if you have any further questions: (406) 590-4966.

Chair Smith and Rachel,

I'm hoping to touch base about the Legislative Council discussion of our funding request prior to our Commission meeting on Friday to discuss RFPs. I watched the Legislative Council meeting yesterday and have clipped the relevant portions of the meeting for your reference. The original discussion and vote is about 15 minutes, which you can view [here](#).

Given that our bipartisan request for funding the two projects died on a party-line vote and Sen. Blasdel said he wanted to reach out to some Commissioners for more information, I called Commissioner Essmann after the vote. He said he would reach out to Sen. Blasdel and explain why we needed the funding. He did, and later in the meeting, Sen. Blasdel brought up the funding request again to note that they could reconsider the request and potentially approve it on a Zoom meeting prior to their next Council meeting in January. That short exchange is clipped [here](#).

I talked to Commissioner Essmann again after the meeting and he said Sen. Blasdel told him they did not understand that we were requesting specific amounts and thought we were making a more general request for funding and waiting on more information. He also told Commissioner Essmann they could hold a Zoom to approve the request rather than waiting for the next Legislative Council meeting if they wanted to reconsider.

From the discussion in the meeting, the issue was left with Sen. Blasdel requesting the Commission provide Legislative Council more information from the RFIs after we got those back so they could reconsider with that additional information. Our RFIs are obviously closed, and we aren't going to have more information to provide them from that process. While I think we were all disappointed that no one responded to the RFIs, the amounts requested for the two projects are based on outreach to NCSL, public comment from individuals involved in similar processes in other states, and information obtained from other states who have completed similar work. I'm hoping we could clarify that to Legislative Council so they aren't waiting on information from those RFIs that are closed. I assume the best way to go about that is to write them another letter, but please let me know if it makes more sense for Legislative staff to clarify with them, Rachel.

Assuming we need to write another letter, I wanted to raise this prior to the meeting so we aren't put in the position of drafting a letter live in the meeting. Rachel, would it be possible for staff to have a draft letter that we could work from on Friday to streamline the process?

I recognize this is short notice and that that might not be possible since I'm sure you have work for other committees that might be time sensitive this week. I'm happy to draft a letter if there are time constraints on your end. I also recognize that the vote was party-line and that I talked to all of the Democrats on the Council prior to the meeting to explain the request. They all voted for the request, so I have likely done all I can to get 6 of the 7 votes needed to approve the funding. The remaining vote would need to come from a Republican. Thus, my drafting the letter could do more harm than good, and it's quite possible that me not even signing the letter would increase the likelihood of getting the seventh vote. For that reason, I wanted to see what your preference is. Again, I'm happy to do the work of a draft, if need be, so that we can be most productive in our meeting on Friday. My goal is to ensure that we can move forward with providing Legislative Council any information they want in a timely manner, especially given that we will be running into the holidays soon.

At our last meeting Commissioner Essmann suggested that we have RFPs close on January 18th, and we discussed a tentative timeline for contractors to complete the work through the winter and early spring. If we don't put those RFPs out on Friday, I expect that that will delay our timeline and push our hearings on legislative maps further into the summer or even fall.

Please let me know your thoughts and whether it would be helpful for me to put together a draft response to Legislative Council's request for more information from us. Commissioner Essmann seemed to agree that these are both still priorities for us and felt that there is opportunity to figure this out on Friday and ensure Legislative Council understands what the projects are and why we're asking for the funding. I'm just hoping to avoid letter drafting from scratch in the meeting if we can, though Rachel and Joe are obviously quite good at that and showcased their skills during the criteria adoption ☺ We do have time on Friday with a shorter agenda, so maybe that will work just fine and be preferable.

Feel free to give me a call if either of you have questions.

Subject: [EXTERNAL] Draft RFP Edits

Rachel,

Thank you for sending out the draft RFPs for us to review before the meeting. I have a few potential edits that I would like to suggest and wanted to send them around in advance of the meeting so everyone can review and have them readily available on Friday since we will all be remote. I've bcc'd all of the Commissioners so everyone has them, along with staff.

Inmate Reallocation RFP

Through your research and discussions with NCSL around this topic, it sounds like many states completing inmate data reallocation used internal data staff for some or all of the reallocation process that we are seeking a contractor for. For this reason, I think limiting the qualifications requirements to only contractors who have specifically completed inmate data reallocation for congressional or legislative redistricting restricts our pool of potential applicants, and requiring 3 references for that very specific work might eliminate the pool entirely. Because the technical work we are asking for (e.g., address cleaning and standardization, geocoding, adjusting population data, etc.) is applicable to other work in the field of data, I think we can broaden the definition of previous experience while still ensuring any potential contractors are capable of demonstrating that they can do the work. Thus, my suggested edits to the "Offeror Qualifications" section are as follows:

OFFEROR QUALIFICATIONS

References

Offeror shall provide a minimum of three references using the attached client references forms. The references must be from clients that are currently using or have previously used geocoded addresses and Census data similar to the type proposed in this RFP. The references may include state governments or universities for whom the offeror, preferably within the last 10 years, has successfully completed address geocoding and merging that data to polygon shapefiles or similar mapping data or tables. At a minimum, the offeror shall provide the company name, location where the services were provided, contact person(s), contact telephone number, e-mail address, and a complete description of the data provided, and dates of service. These references may be contacted to verify offeror's ability to perform the contract. The State reserves the right to use any information or additional references deemed necessary to establish the ability of the offeror to perform the contract. Negative references may be grounds for proposal disqualification.

Company Profile and Experience

Offeror shall provide documentation establishing the individual or company submitting the proposal has the qualifications and experience to provide the specified in this RFP, including, at a minimum:

- a detailed description of any similar past projects where the contractor cleaned and geocoded residential addresses, merged addresses or points with polygons, and has worked with Census data shapefiles or similar formats, including a description of services provided and dates the services were provided;
- the client for whom the services were provided; and
- a general description of the firm including its primary source of business, organizational structure and size, number of employees, years of experience performing services similar to those described within this RFP.

I also think 8(b) of the "Scope of Work" section should say that the contractor will provide the final adjusted data to us but that Caliper, our redistricting software vendor, would do the actual upload to Maptitude. That potential edit would read:

Scope of Work & Contractor Responsibilities

The services must include the following tasks:

8. Return adjusted P. L. 94-171 data to the commission and Caliper for use in Maptitude. The dataset may only be considered to be returned to the commission when the contractor has:
 - (a) reestablished the tabular relationships between the adjusted P.L. 94-171 data and the TIGER/Line shapefiles; and
 - (b) provided all of the necessary files to Caliper for upload to Maptitude.

Commission Responsibilities

- Provide contractor with inmate addresses collected by the Montana Department of Corrections as an Excel or .csv file.
- Respond to contractor questions during the contract period to ensure the contractor has the guidance necessary to complete the task.
- Verify that the dataset has been received in the proper format and uploaded to Maptitude by Caliper.

Racial Bloc Voting Analysis RFP

For the Racial Bloc Voting Analysis RFP, I have two smaller suggested edits. The first is a clarification about VTDs in the "Introduction":

Introduction

Montana has complete coverage of voting districts (VTDs) for the 2020 Census but did not have complete VTD coverage for the 2010 Census. Of Montana's 56 counties, 20 did not participate in the U.S. Census Bureau's Voting District Project in 2010. Six of those counties include portions of five reservations. With adoption of the current legislative plan in 2013, counties adjusted/finalized current precinct lines prior to the 2014 election, with minimal precinct consolidation and splitting since 2013.

The second edit would be under the "Offeror Qualifications" section. Similar to the edits I'm suggesting for the Inmate Reallocation RFP, I think we should broaden the current language slightly to include potential contractors who may have completed racial bloc analysis for legal proceedings and served as expert witnesses. For this project, I think it's correct to require that they have completed the specific task of racial bloc voting analysis, but given how common racial bloc voting analysis is in VRA lawsuits and that the State wouldn't always necessarily be the client, I think we should add to the list of entities that might be references.

OFFEROR QUALIFICATIONS

References

Offeror shall provide a minimum of three references using the attached client reference forms. The references must be from clients that are currently using or have previously received racial bloc voting analysis of the type proposed in this RFP. The references may include state governments, organizations involved in legal disputes concerning Voting Rights Act claims, or other entities similar to the commission for whom the offeror, preferably within the last 10 years, has successfully completed a racial bloc voting analysis.

Please feel free to reach out if you have any questions or concerns about these edits that you want to discuss in advance of tomorrow.

Hi Commissioner Miller,
Thanks for sending these out to everyone. Would it be ok if I posted these online with the other materials for the meeting? That way, if any one watching wants to access them it's already up?
Thanks again,
Rachel

Subject: [EXTERNAL] Draft RFP Edits

Rachel,

Thank you for sending out the draft RFPs for us to review before the meeting. I have a few potential edits that I would like to suggest and wanted to send them around in advance of the meeting so everyone can review and have them readily available on Friday since we will all be remote. I've bcc'd all of the Commissioners so everyone has them, along with staff.

Inmate Reallocation RFP

Through your research and discussions with NCSL around this topic, it sounds like many states completing inmate data reallocation used internal data staff for some or all of the reallocation process that we are seeking a contractor for. For this reason, I think limiting the qualifications requirements to only contractors who have specifically completed inmate data reallocation for congressional or legislative redistricting restricts our pool of potential applicants, and requiring 3 references for that very specific work might eliminate the pool entirely. Because the technical work we are asking for (e.g., address cleaning and standardization, geocoding, adjusting population data, etc.) is applicable to other work in the field of data, I think we can broaden the definition of previous experience while still ensuring any potential contractors are capable of demonstrating that they can do the work. Thus, my suggested edits to the "Offeror Qualifications" section are as follows:

OFFEROR QUALIFICATIONS

References

Offeror shall provide a minimum of three references using the attached client references forms. The references must be from clients that are currently using or have previously used geocoded addresses and Census data similar to the type proposed in this RFP. The references may include state governments or universities for whom the offeror, preferably within the last 10 years, has successfully completed address geocoding and merging that data to polygon shapefiles or similar mapping data or tables. At a minimum, the offeror shall provide the company name, location where the services were provided, contact person(s), contact telephone number, e-mail address, and a complete description of the data provided, and dates of service. These references may be contacted to verify offeror's ability to perform the contract. The State reserves the right to use any information or additional references deemed necessary to establish the ability of the offeror to perform the contract. Negative references may be grounds for proposal disqualification.

Company Profile and Experience

Offeror shall provide documentation establishing the individual or company submitting the proposal has the qualifications and experience to provide the specified in this RFP, including, at a minimum:

- a detailed description of any similar past projects where the contractor cleaned and geocoded residential addresses, merged addresses or points with polygons, and has worked with Census data shapefiles or similar formats, including a description of services provided and dates the services were provided;
- the client for whom the services were provided; and
- a general description of the firm including its primary source of business, organizational structure and size, number of employees, years of experience performing services similar to those described within this RFP.

I also think 8(b) of the "Scope of Work" section should say that the contractor will provide the final adjusted data to us but that Caliper, our redistricting software vendor, would do the actual upload to Maptitude. That potential edit would read:

Scope of Work & Contractor Responsibilities

Thanks. Can you attach a copy of the complete final RFP too. So I don't have create an account to view the final text? Thanks!

Hi Kendra,
I could get in ok, but it might be because I'm on the state system. I've attached the document that's on the link. It's a pretty generic summary of what the RFP requires.
I hope this helps.
Thanks,
Rachel

Hi Rachel,

I saw that the three of us do not have the same availability that week in the Doodle. We can go ahead and do the afternoon of Jan 5th since that works for Chair Smith and Commissioner Essmann. I'll just have Avery but she's pretty good as long as the meeting doesn't go too long, and this doesn't seem like it should.

If it works for everyone else, it would be really helpful on my end if the meeting started at 1 pm or later in the afternoon like 3:30 pm. I have school pick-up at 3:15 pm so if we can finish up before then or start after, I can make it work. Let me know if either of those times work for Nolan and the rest of the staff.

Thanks! Happy holidays!

Hello Commissioners Smith, Essmann, and Miller –

Nolan Harris with the State Procurement Bureau is setting up a meeting to review the evaluation steps for the prisoner reallocation RFP. He suggested the first week of January so you have the information prior to the RFP close date (which is Jan. 14). A doodle poll is at: https://doodle.com/poll/m2p2yya86533x9et?utm_source=poll&utm_medium=link [doodle.com] I've used the usual AM/PM options, though I do not expect it to take more than 1 or 2 hours tops. If the January 3-7 doesn't work for you, we'll try to find a different date. I've cc'd both Nolan and Joe Kolman on this email in case you have questions.

Thanks,
Rachel

Hi Nolan,

Thanks for the explanation yesterday about filling out the conflict of interest form in advance. I was going to wait until I saw who the offerers are, but that makes sense that we can do it ahead of time and obviously speak up if something changes after the offers come in. My completed form is attached.

Please let me know if you need anything else.

All,

Thank you for agreeing to be on the evaluation committee. Here are some instructions to help you along the way. We need the Declaration form highlighted below (attached) before anyone can review responses. Also, SPB has developed a short (30-45) minute training course that you can review as well: [[https://urldefense.com/v3/https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOQpqltGnY37049SU*/;1w!!GaaboA!-61iqlGszqvFYIBhPsKyPsPNvGpzj29aW3ce-fyiQUyAUceAvdeWRksUergbuhjP9A\\$](https://urldefense.com/v3/https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOQpqltGnY37049SU*/;1w!!GaaboA!-61iqlGszqvFYIBhPsKyPsPNvGpzj29aW3ce-fyiQUyAUceAvdeWRksUergbuhjP9A$) | [https://urldefense.com/v3/https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOQpqltGnY37049SU*/;1w!!GaaboA!-61iqlGszqvFYIBhPsKyPsPNvGpzj29aW3ce-fyiQUyAUceAvdeWRksUergbuhjP9A\\$](https://urldefense.com/v3/https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOQpqltGnY37049SU*/;1w!!GaaboA!-61iqlGszqvFYIBhPsKyPsPNvGpzj29aW3ce-fyiQUyAUceAvdeWRksUergbuhjP9A$)] .

1. The RFP Evaluation document contains evaluation instructions. Please remember that to discuss the RFP responses we must be in a public meeting; therefore you cannot ask each other questions.

1. Declaration Form: this is a non-conflict of interest form. All members of the evaluation committee must sign this form before we can begin evaluating. Scanned or faxed copies of this form will suffice; no need to send me the original.

1. Individual and Committee evaluations use a scoring matrix (to be sent with responses). For individual scoring committee members can type in the document and print it off for the evaluation meeting or they can write on the document to do their initial scoring. The scoring matrix is set up so you can enter the percentage of the points earned and the scores will automatically calculate.

1. As part of the evaluation committee, you will begin by doing an individual review of each RFP response. You will need to make detailed notes and make your initial judgment score. When we meet as a committee everyone will discuss their individual scores and comments and come to a consensus score. Two points I would like to make regarding the scoring that are very important:

2.

1. Take numerous individual notes and record details you like and don't, it will make the committee evaluation process smoother
2. The scoring matrix document has a tab at the bottom labeled scoring guide. Pay attention to the definitions of superior response and good response, there is a lot of confusion regarding these two terms. The scoring guide was set forth in the RFP and if we don't follow it there is a chance we could end up with a protest.

Hello Commissioner Essmann,

The only contact that is not allowed during this process is once you and the other evaluation committee members begin evaluating responses. During your evaluation, we don't want committee members to discuss the responses so they can discuss scores during the public evaluation meeting after preparing their own justification comments. The reason for this is to allow a more objective process when scoring instead of allowing for an opportunity to arise where one member could influence another's scoring.

This will be discussed more this afternoon.

Best,

Nolan

I hope I can get all forms printed and either scanned or photographed and emailed back to you.

I have been in hundreds of public meetings as a former legislator and we have always had the ability to ask each other questions. Is there new legal guidance from our staff on this issue. I hope to have clarification on this prior to our meeting as I have benefited from prior experience of other Commission members and would hope to have that opportunity in this setting as well.

Mr. Kolman?

Jeff Essmann

Subject: Prisoner Reallocation RFP Pre-Eval Meeting

All,

Thank you for agreeing to be on the evaluation committee. Here are some instructions to help you along the way. We need the Declaration form highlighted below (attached) before anyone can review responses. Also, SPB has developed a short (30-45) minute training course that you can review as well: [https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOPqHtGnY37049SU#/ \[rise.articulate.com\]](https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOPqHtGnY37049SU#/ [rise.articulate.com]).

1. The RFP Evaluation document contains evaluation instructions. Please remember that to discuss the RFP responses we must be in a public meeting; therefore you cannot ask each other questions.
2. Declaration Form: this is a non-conflict of interest form. All members of the evaluation committee must sign this form before we can begin evaluating. Scanned or faxed copies of this form will suffice; no need to send me the original.
3. Individual and Committee evaluations use a scoring matrix (to be sent with responses). For individual scoring committee members can type in the document and print it off for the evaluation meeting or they can write on the document to do their initial scoring. **The scoring matrix is set up so you can enter the percentage of the points earned and the scores will automatically calculate.**
4. As part of the evaluation committee, you will begin by doing an individual review of each RFP response. You will need to make detailed notes and make your initial judgment score. When we meet as a committee everyone will discuss their individual scores and comments and come to a consensus score. Two points I would like to make regarding the scoring that are very important:
 - a. Take numerous individual notes and record details you like and don't, it will make the committee evaluation process smoother
 - b. The scoring matrix document has a tab at the bottom labeled scoring guide. Pay attention to the definitions of superior response and good response, there is a lot of confusion regarding these two terms. The scoring guide was set forth in the RFP and if we don't follow it there is a chance we could end up with a protest.
5. **Contact Only:** In the actual evaluation meeting one of you must be designated to record the scores of the committee and the comments to those scores on the scoring matrix. The Evaluation Committee document outlines your duties and my duties for the actual committee evaluation meeting. Also attached are the meeting minutes which will need to complete along with the scoring matrix. The attachment is only an outline to get you started.

Best,

Nolan

Hi Nolan,

Looking forward to the meeting tomorrow. I wanted to give you a heads up that I'm hoping you can tell us 1. If anyone has submitted an offer on the RFP yet, and 2. If not, if you've gotten any questions from potential applicants or if you know if anyone is working on an offer but hasn't submitted completely. I don't know if you have any way of knowing #2, but I thought I would ask in case you can see if people submit pieces and save prior to submitting the completed offer. Mainly I'm trying to get an idea of how much interest there has been and whether we need to do more to publicize through NCSL or other avenues to ensure that we have a qualified pool of applicants.

Thanks. Talk to you tomorrow.

Subject: Prisoner Reallocation RFP Pre-Eval Meeting

All,

Thank you for agreeing to be on the evaluation committee. Here are some instructions to help you along the way. We need the Declaration form highlighted below (attached) before anyone can review responses. Also, SPB has developed a short (30-45) minute training course that you can review as well: [<https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOPqhItGnY37049SU#/> | <https://rise.articulate.com/share/xAdTMIQ5HoKTDvWAOPqhItGnY37049SU#/>] .

1. The RFP Evaluation document contains evaluation instructions. Please remember that to discuss the RFP responses we must be in a public meeting; therefore you cannot ask each other questions.

1. Declaration Form: this is a non-conflict of interest form. All members of the evaluation committee must sign this form before we can begin evaluating. Scanned or faxed copies of this form will suffice; no need to send me the original.

1. Individual and Committee evaluations use a scoring matrix (to be sent with responses). For individual scoring committee members can type in the document and print it off for the evaluation meeting or they can write on the document to do their initial scoring. The scoring matrix is set up so you can enter the percentage of the points earned and the scores will automatically calculate.

1. As part of the evaluation committee, you will begin by doing an individual review of each RFP response. You will need to make detailed notes and make your initial judgment score. When we meet as a committee everyone will discuss their individual scores and comments and come to a consensus score. Two points I would like to make regarding the scoring that are very important:

2.
 1. Take numerous individual notes and record details you like and don't, it will make the committee evaluation process smoother
 2. The scoring matrix document has a tab at the bottom labeled scoring guide. Pay attention to the definitions of superior response and good response, there is a lot of confusion regarding these two terms. The scoring guide was set forth in the RFP and if we don't follow it there is a chance we could end up with a protest.

1. Contact Only : In the actual evaluation meeting one of you must be designated to record the scores of the committee and the comments to those scores on the scoring matrix. The Evaluation Committee document outlines your duties and my duties for the actual committee evaluation meeting. Also attached are the meeting minutes which will need to complete along with the scoring matrix. The attachment is only an outline to get you started.

Best,

Nolan

All,

Thank you for agreeing to be on the evaluation committee. Here are some instructions to help you along the way. We need the Declaration form highlighted below (attached) before anyone can review responses. Also, SPB has developed a short (30-45) minute training course that you can review as well: <https://rise.articulate.com/share/xAdTMIO5HoKTDvWAQPhItGnY37049SU#/>.

1. The RFP Evaluation document contains evaluation instructions. Please remember that to discuss the RFP responses we must be in a public meeting; therefore you cannot ask each other questions.
2. Declaration Form; this is a non-conflict of interest form. All members of the evaluation committee must sign this form before we can begin evaluating. Scanned or faxed copies of this form will suffice; no need to send me the original.
3. Individual and Committee evaluations use a scoring matrix (to be sent with responses). For individual scoring committee members can type in the document and print it off for the evaluation meeting or they can write on the document to do their initial scoring. **The scoring matrix is set up so you can enter the percentage of the points earned and the scores will automatically calculate.**
4. As part of the evaluation committee, you will begin by doing an individual review of each RFP response. You will need to make detailed notes and make your initial judgment score. When we meet as a committee everyone will discuss their individual scores and comments and come to a consensus score. Two points I would like to make regarding the scoring that are very important:
5.
 - a. Take numerous individual notes and record details you like and don't, it will make the committee evaluation process smoother
 - b. The scoring matrix document has a tab at the bottom labeled scoring guide. Pay attention to the definitions of superior response and good response, there is a lot of confusion regarding these two terms. The scoring guide was set forth in the RFP and if we don't follow it there is a chance we could end up with a protest.
5. **Contact Only:** In the actual evaluation meeting one of you must be designated to record the scores of the committee and the comments to those scores on the scoring matrix. The Evaluation Committee document outlines your duties and my duties for the actual committee evaluation meeting. Also attached are the meeting minutes which will need to complete along with the scoring matrix. The attachment is only an outline to get you started.

Best,

Nolan

Commissioner Smith,

Wanted to forward this along in case you're not on Mary Craigle's email list yet. The latest information from the Census Bureau is that the apportionment data won't be released until March 6th at the earliest. The block-level redistricting data is usually released roughly 3 months later, so we're likely looking at summer for that data. If I hear anything else, I'll forward along.

Good afternoon Dan

Now that the holidays are over and I have attended the NCSL redistributing training, I am trying to figure out times when I can meet with each of the commissioners to begin building a working relationship and determine what everyone's concerns are in this process. I am not sure what your availability is, but I have an easier time scheduling meetings on Fridays or the weekend. Depending on my court schedule I can sometimes do other days of the week, but that varies by the week. I can either do this by phone, video call or by a Zoom meeting if that would be available. I know the data is not going to be released anytime soon, but I hope we can discuss any issues, process concerns or other topics that you think would be helpful so this process is as collaborative as possible.

Please let me know if you are willing and available to talk sometime soon. I have include both the state email and my home. I am trying to get in the habit of checking the state email once a day, but my home email comes to my phone so I have ready access to it. Hope to hear from you soon. Have a good weekend.

Thanks,

Maylinn

Hello Jim, I am an attorney in Helena who went to undergraduate and law school in Missoula. I am from Billings originally. I interned for Senator Burns in Washington and have been involved in law and politics since that time. My favorite hobby is backpacking with the summit of Granite Peak being my greatest physical accomplishment to date.

Hi Dan,
 Jeff Essman pointed me in your direction since he is out for a few days.
 I was hoping we could do an interview either over the phone today or in person in Helena later this week regarding the latest with the districting and apportionment for MT. I know you all met yesterday but I am just looking for an update.

Thanks and hope you are doing well.

Hello Megan, I am happy to do either. I am available in Helena late tomorrow afternoon or most of the day Friday. I could do a phone call as well. Do you have a preference?

Dan

Hi Dan,
 Jeff Esman pointed me in your direction since he is out for a few days.
 I was hoping we could do an interview either over the phone today or in person in Helena later this week regarding the latest with the districting and apportionment for MT. I know you all met yesterday but I am just looking for an update.

Thanks and hope you are doing well.

Best,
 Megan Lewis

Commissioners,
 The Montana Public Affairs Network is working with the Legislative Services Division to create videos for the Districting Commission and about redistricting with an eye to publicizing your work on state legislative redistricting. (MPAN broadcasts to television audiences statewide and also operates the cameras that stream your meetings live.) The attachment outlines the goals for the video project. The MPAN staff is hoping to set times to interview as many of you as are interested and available in the coming weeks. Next week, their staff will be available on Wednesday the 20th and prior to your meeting on the 21st to conduct interviews. I've cc'd the MPAN staff, K'Lynn Harris, on this email. If you are interested in setting up an interview time with her, please contact her (klynn@montanapbs.org). She's worked in the past on long-form video interviews with former legislators, legislative staff, and longtime lobbyists and reporters to capture some of Montana's legislative history. She has also worked to create short videos of legislators to help them explain their roles and districts to Montanans.

The attachment includes some sample questions in case you'd like a preview of what you can expect in terms of questions.

Thanks and don't hesitate to reach out with questions.

Sincerely,

Rachel Weiss

I'm so sorry, I completely overlooked this email earlier. My apologies. Are you around in the morning before your next meeting starts?

Apologies again, I'll be more on top of my email now.

Thanks much,
 Reid

Wednesday would be great, I'm just about to rush out to get my kid from school -- and I see you all have a big day tomorrow, so I'd love to hear about the meeting as well. Thanks for your time, looking forward to chatting. Let me know what time would work for you and the best number to reach you on.

Mr. Stusek,
 Reid Wilson here from The Hill newspaper in DC. I'm working on a story about Montana's redistricting process, and I'd love to get your take on what US House maps would be most representative for the state. Would be great to hear from a commissioner himself!

Let me know if you have time to chat this week, and thanks a bunch for your help.

Reid

Hey, Mr. Stusek, Reid Wilson here from The Hill newspaper again. We're working on a big video series about redistricting -- the history, the how and why, all that fun stuff -- and I wanted to see if we might borrow you for one of the episodes. Basically, I'd like to ask you how you went about the whole process -- how you start thinking about lines, how you write drafts, etc. I imagine we could pull up Dave's Redistricting or something like that and do some live-drawing to show people the process.

We're pretty flexible on time, but I'd probably like to try to do something Friday or Monday if we could. Would probably need 20-30 minutes of your time, and we can obviously do it by zoom and record that way. I'd introduce you, ask you some open-ended questions, then we'd edit the whole thing into a manageable 5-7 minutes (people start dropping off if you go much longer than that).

Let me know what you think, I think Montana is the perfect state to look at because of the added district, and the fact that it's only two makes it manageable for viewers.

Hope all's well, thanks a ton for your time, and hope to talk soon.

Reid

Hello Terry,
Thanks for your email. I'm not having trouble with the first two links. But I've attached the pdfs that those links should bring up for you. Also, the third link was to a third-party site that had information about the districts. They've changed their link. We're going to repoint that link to:

[https://mslservices.mt.gov/Geographic Information/Data/DataList/datalist_Details.aspx?did={4C2BE3E2-5859-4469-9656-B6C82489A1C0}](https://mslservices.mt.gov/Geographic%20Information/Data/DataList/datalist_Details.aspx?did={4C2BE3E2-5859-4469-9656-B6C82489A1C0})

Thanks for pointing out the broken link and I hope you find this information helpful.

Sincerely,

Rachel Weiss

Good morning, Deputy Warden Barthel –

I just wanted to double-check that this snapshot was from April 1, 2020? When DOC ran the names on the roster through their OMIS, they got some offenders who were listed as residents of other facilities on that day. So I wanted to make sure I was understanding the information correctly.

Thanks in advance for any guidance you can provide.

Sincerely,

Rachel

Categories: DACRequest1688, PublicInfo1688

Hi Christi –

Thanks a million for all the help you and Ben have been providing us lately. I'll just leave the agenda generic for now, so no need to figure out a name until you're ready. The panel will start at 1 pm Mountain on August 17. All speakers will be Zoom at this point. I have budgeted 1.5 hours for the session given I think there will be a fair few questions from the commissioners. I am going to ask them for any questions they have in advance, too. If I get any questions, I'll send them along. I'm thinking 10 minutes? However long Ben or Wendy think they'll want to give an overview of the states and even the issue. We can be flexible. Michelle is going to give a few opening remarks and have just a few slides to show as examples. The format is supposed to be very discussion-oriented, so if you think you'd need less time, that's fine, too. I hope this helps! I'll get an agenda to you later this week along with the Zoom link. But if you have any questions, just let me know.

Thanks,
Rachel

Hi Joe,

It's great to hear that Michelle will be a speaker. And hopefully, Karin will be too.

For NCSL overview, it probably will be Wendy or Ben. Let me double check with them this morning and I'll get back to you as soon as I can. How long should the overview be? And is there a set time for the 17th?

Thanks,
Christi

Subject: RE: Speakers on prisoners

Hi Joe,

Thanks for reaching out. NCSL would be happy to give an overview on the reallocating of incarcerated persons for redistricting purposes. I agree with you, Karin Mac Donald, would be a great speaker. Another possible speaker could be Aleks Kajstura, legal director for the Prison Policy Initiative. Let me talk with Wendy and see if we can come up with additional names.

Also, thanks for asking about Salt Lake City. It was a fast and furious meeting with over 450 attendees, but it went really well.

Thanks,
Christi

Hi Christi,

Our commission is hoping to have a couple of speakers via Zoom at the Aug. 17 meeting regarding possibly adding reallocation to our duties. I think they were hoping someone from NCSL could maybe give an overview of what other states are doing, how they are doing it, maybe any issues that come up. And then maybe someone who's doing it. I'm really hoping Karin would do it, but maybe you can suggest some back ups too?

Thank you. Hope Salt Lake went well.

Sent: Wednesday, August 4, 2021 4:24 PM
To: Weiss, Rachel <RWeiss@mt.gov>; Kolman, Joe <jkolman@mt.gov>
Subject: [EXTERNAL] FW: Racially Polarized Voting Analysis information

Hi Rachel and Joe.

Thank you for your patience while we collected information. I reached out to legislative staffers and other experts for more information on racially polarized voting analysis. We did receive some helpful feedback. I did reach out to contacts in all the western states, but most have not done an analysis.

Below are the responses I have received, so far. If I receive additional information, I'll be sure to pass it along.

1. **Could we get copies of RFIs or RFPs that other states have sent out to solicit information or bids for polarized voting analyses?**
 - Massachusetts: [RFP \[commbuys.com\]](https://www.commbuys.com) for database compilation and racial bloc voting analysis for the Joint Redistricting Committee. For more information, [click here](#).
 - Alaska: VRA consultant [RFI \[aws.state.ak.us\]](https://aws.state.ak.us) (PDF).
 - Los Angeles County - LA County Task Order (indicates what the database will be for the analysis) – (PDF)
 - New Mexico: RFP for professional technical services (PDF)
2. **In other states' experiences, how much time does it take to complete this type of analysis?**
 - Alaska: The most time intensive portion is the preparation of the voting return databases and preferred candidate identification. Once those are built, and in many cases this work can begin now, the actual statistical runs are fairly quick. Like a week.
 - Dr. Lisa Handley: The time required to do this work varies depending on the quality of the database, the number of contests to be analyzed, and how many areas in the state must be examined separately as the analysis should not just be statewide but area specific. I would say analyzing voting in a state, including 2-3 areas of the state separately, can take anywhere from 75 to 150 hours.

3. **Could other states give us a ballpark or range of about how much it cost them to complete this analysis?**

- Alaska: Last cycle the board spent \$100-\$120k. However, Alaska was subject to preclearance at that time. We are hopeful that with the reduced work load of no preclearance requirement, our costs will come in substantially less.
- Lisa Handley: Almost all of this work is charged on an hourly basis. I think everyone who does this kind of work has a PhD in political science (or some other social science) and the rate reflects this level of expertise. I am guessing the range is perhaps 300-500/hour. I would advise putting between \$50,000 and \$75,000 aside for the project. I would also advise the state to create the database to be used. While this is usually not a problem as the rbv database is often the data that is being used for redistricting; this is less true in southern states that have voter registration by race.

4. **Approximate population in the state? We'd love to get information from Western states of similar or at least somewhat comparable sizes (SD, AK, WY, WA, OR, AZ, NM, etc.)**

- Alaska: 733,391
- New Mexico: 2.1 million

Other resources:

- Michigan: [RFP \[michigan.gov\]](#) for Voting Rights Act Legal Counsel
- California: [RFI \[wedrawthelines.ca.gov\]](#) for Litigation Counsel
- Paper recommended by Ben William's former colleague on the quantitative side of the Voting Rights Act. Apparently, the methodologies described here are very common. In case you would like to read it: <https://gking.harvard.edu/files/gking/files/eiintro.pdf> [gking.harvard.edu]. It's written by Gary King at Harvard who's done a lot of work in this space.

I hope this information is helpful. Let me know if you have any questions or need anything else.

Thanks,
Christi

Hi Rachel and Joe.

I am adding Christi and Ben here in part because I am going on vacation tomorrow.

Ben and Christi, if you could work on this together please do. I recommend reaching out to our contacts in those states directly and talk with Michelle Davis who I think can answer generally. You might connect with Lisa Handley as well.

This is good information for us to have, and I bet we can use it again.

Subject: [EXTERNAL] Racially Polarized Voting Analysis information

Hi Wendy,

It was nice to see the crew online yesterday. I was bummed to miss the SLC conference but needed those days to juggle some tasks. It sounded like Commissioner Miller found it informative and gave the commissioners an in-depth recap.

At a Tuesday meeting, our redistricting commission decided it wanted more information on racially polarized voting analysis. So I'm reaching out to see if you had already compiled some information related to that or would be able to send out a plea to other states (or parties/caucuses/commissions) for information. The questions they had are below. But I'm happy to talk with you a bit to narrow things down or adjust the wording to make things clear.

1. Could we get copies of RFIs or RFPs that other states have sent out to solicit information or bids for polarized voting analyses?
2. In other states' experiences, how much time does it take to complete this type of analysis?
3. Could other states give us a ballpark or range of about how much it cost them to complete this analysis?
4. Approximate population in the state? We'd love to get information from Western states of similar or at least somewhat comparable sizes (SD, AK, WY, WA, OR, AZ, NM, etc.)

The commission is meeting again on August 17, so that would be the ideal timeline for us to have more information. However, as I mentioned yesterday, we're getting a late start on this research and acknowledge this is definitely crunch time for redistricting. Again, I'm happy to follow up with a call at a time that works for you.

Thanks in advance for any advice or resources you have.

Sincerely,
Rachel

Categories: DACRequest1688, PublicInfo1688

Hi Ben, Christi, Michelle, and Karin -

Thanks to Ben and Christi for helping us organize the August 17 roundtable on prisoner reallocation for the Montana Districting and Apportionment Commission. Michelle and Karin, thanks for being willing to share your expertise with the commissioners.

I've attached the agenda for the meeting. Other meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>. I'll send you the Zoom link as the date gets closer. The prisoner roundtable starts at **1 pm Mountain (12 Noon Pacific and 3 pm Eastern)**. All of the presenters will be on Zoom. Four of the five commissioners will be in the room along with staff.

If I get any questions in advance, I'll send them along. The plan is to have Ben open up with a short (10 minutes or so) summary of the topic and what other states are doing. Michelle and Karin will do short openings and maybe cover a few key points they want to highlight. Then, it's supposed to be a pretty informal discussion between commissioners and the experts. John Daugherty from the Montana Department of Corrections will be there in case the commissioners have questions on the data we've been able to collect. We have about 90 minutes for the roundtable, so I think it should be a pretty good discussion.

Please know that all commission meetings in Montana are open to the public. They are streamed live at <http://sg001-harmony.sliq.net/00309/Harmony/en> and also recorded. The recordings are the official minutes of the meeting, so they will be posted online and accessible to the public.

Don't hesitate to reach out with any questions.

Hello Pete,

Thanks for your email. The commission's minutes are the audio or video recordings of their meetings. Those recordings are all available at: <https://leg.mt.gov/districting/2020-commission/>. If you open the blue accordion file for each year, you'll find the agendas and recordings for each meeting. The summary minutes for each meeting include time stamps for specific events during the meeting recording. Other information about the commission or produced during the commission's work is also available at that site. I hope this information helps. Please feel free to give me a call if you have further questions.

Sincerely,
Rachel

Rachel:

I am wondering is there are any minutes of prior meetings and/or information on proceedings of the present redistricting commission.

Appreciate the information.

Hello Dr. Remster,

Thank you for your email. We'll provide it as public comment that the commissioners will receive prior to their August 17 meeting. The commissioners will be discussing the topic of reallocation of prisoners at the meeting. If you'd like to provide verbal public comments during that meeting, the commissioners will take comments from people on Zoom. The agenda and other meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>. The 3rd page of the agenda provides instructions on how to provide public comment. The Zoom sign up button is near the top of the meeting materials page.

I hope this information helps.

Sincerely,

Rachel Weiss

Dear Commission staff,

I submitted a public comment online today before discovering your contact information. While I am happy to submit written testimony, my intention was to simply connect with you and the Commission members at this point—my apologies for the confusion. If possible, please delete my submission. Here is the content:

My name is Brianna Remster and I am a social science researcher studying prison gerrymandering and a professor at Villanova University. In 2019 my colleague Rory Kramer and I published a study in a peer reviewed academic journal in which we quantified the impact of counting prisoners as residents of correctional facilities on political representation in PA by removing and returning incarcerated persons to their home communities. We are currently assisting several states who are in the process of reallocating prisoners for this redistricting cycle along with our colleague, Montana State professor Cody Warner. The reallocation process is actually quite simple and achievable with existing DOC data and standard social science techniques. If you would like to discuss the data requirements and reallocation process, or prison gerrymandering more generally, feel free to contact me.

Thank you for your time.

Sincerely,

Brianna

Dear Mr. Essmann,

Thank you for contacting IHG Hotels & Resorts!

The following information details are the non-refundable charges made on your card for the immediate purchase of points applied on your Reward Night reservation:

Hotel Location: Holiday Inn Express Helena

Dates of Stay: July 20, 2021
No. of night(s): 1
Date of Purchase: July 20, 2021
Transaction Amount : \$104
IHG Rewards Club points purchased: 15,000
Hotel Confirmation Number: 49112633

Please see attached web-terminal electronic receipts for your perusal as requested by Rona.

These are the only receipt that we can provide as the charges were used for 15,000 points purchase that were applied on your Reward Night reservation. We do not provide VAT receipt or hotel invoice for your points purchase transaction.

If you have any questions or concerns regarding this charge, please contact your credit card or bank directly. If you have questions regarding IHG Rewards Club or need assistance with your account, please do not hesitate to contact us.

Mimecast Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

Hi Ben, Christi, Michelle, and Karin -

Thanks to Ben and Christi for helping us organize the August 17 roundtable on prisoner reallocation for the Montana Districting and Apportionment Commission. Michelle and Karin, thanks for being willing to share your expertise with the commissioners.

I've attached the agenda for the meeting. Other meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>. I'll send you the Zoom link as the date gets closer. The prisoner roundtable starts at **1 pm Mountain (12 Noon Pacific and 3 pm Eastern)**. All of the presenters will be on Zoom. Four of the five commissioners will be in the room along with staff.

If I get any questions in advance, I'll send them along. The plan is to have Ben open up with a short (10 minutes or so) summary of the topic and what other states are doing. Michelle and Karin will do short openings and maybe cover a few key points they want to highlight. Then, it's supposed to be a pretty informal discussion between commissioners and the experts. John Daugherty from the Montana Department of Corrections will be there in case the commissioners have questions on the data we've been able to collect. We have about 90 minutes for the roundtable, so I think it should be a pretty good discussion.

Please know that all commission meetings in Montana are open to the public. They are streamed live at <http://sg001-harmony.sliq.net/00309/Harmony/en> [sg001-harmony.sliq.net] and also recorded. The recordings are the official minutes of the meeting, so they will be posted online and accessible to the public.

Don't hesitate to reach out with any questions.

Sincerely,

Rachel Weiss

Subject: Redistricting commission follow up

Categories: DACRequest1688, PublicInfo1688

Hello Elijah,

There are a few ways to look at the current state legislative boundaries in Montana.

A legislator lookup map is here: <https://leg.mt.gov/map/>

Another helpful resource is here:

<https://redistricting.ils.edu/state/montana/?cycle=2010&level=State%20Lower&startdate=2003-02-05>. It has the state Senate and House districts.

PDF maps of the districts are available here: <https://leg.mt.gov/districting/2010-districting-commission/2010-districting-maps/legislative-redistricting-plan-2013/>

If you'd like to receive the Zoom link for the commission, please fill out the form located here:

<https://leg.mt.gov/districting/2020-commission/meeting-information/remote-participation-mdac/> If you'd like to stream the meeting instead, you can do that here: <http://sg001-harmony.sliq.net/00309/Harmony/en>

More information about the commissioner is available here: <https://leg.mt.gov/districting/2020-commission/>

Please feel free to follow up with any questions.

Sincerely,

Rachel Weiss

Subject: [EXTERNAL] Interview Request

Hello Rachel,

My name is Eric Young and I'm a news producer for the Northern Broadcasting System. I'm reaching out to you today because the 2020 Census Data was recently released and the Districting and Apportionment Commission is scheduled to

meet next week and I wanted to see if you might be available some time to discuss these topics with me for our statewide radio audience. Basically, I'd like to know how the census data will impact the upcoming meeting, if at all, and other details about the meeting itself.

This would be an interview for the Northern News Network, which consists of prerecorded and edited audio clips covering stories across the state. This means that the interview would be conducted over the phone, but would not be live, and only specific elements of the discussion would be utilized for one or more news reports.

Please let me know if you would be interested in speaking with me, when you would like to schedule it if so and any other questions you may have for me.

Thanks for taking the time to read this and I hope to hear from you soon!

Hello Dr. Remster,

Thanks for sending this along. We'll include it in the public comment packet. I am not sure about how much time will be given to each public commenter. The presiding officer has the discretion to set time limits. Sometimes it depends on how many people are signed up to provide comments either on Zoom or in the room. If there is a time limit, the presiding officer usually states that at the start of the comment time. I wish I had more details, but each presiding officer handles meetings and time limits slightly differently. Sometimes, they limit folks to 3-5 minutes. Other times there aren't time limits. At the previous meeting, the presiding officer didn't limit comments in terms of time. If you refer to your written comments when you speak, it does help them identify that there is additional information you've submitted and also makes them an exhibit that will be linked in the meeting minutes.

I hope this information helps.

Sincerely,
Rachel

Subject: [EXTERNAL] RE: prison gerrymandering reallocation experts

Hi Rachel,

Thank you, my written comments are attached. Can you tell me how many minutes I would have to speak virtually? I understand that my comments are probably a bit out of the norm so I would like to do whatever you think is best.

Thank you again for all your assistance. I wish all state commissions and staff were more like Montana's!

Subject: RE: prison gerrymandering reallocation experts

Hello Dr. Remster,

I just wanted to give you a heads up that public comments are due by 5 pm August 14 (tomorrow) in order to be received by the commissioners in time for them to review them before the meeting. Comments received after that time but before August 17 will be distributed to the commissioners at the meeting on Tuesday. If we don't hear from you before the deadline, we'll go ahead and include your original comments in the packet so they at least have those. I hope this information helps.

Sincerely,

Rachel Weiss

Hi Rachel,

Thank you for the information, this is very helpful. So as not to add to the Commission's mountain of work and avoid redundancy, could you please delete that public comment I submitted? I will be submitting written testimony that is more detailed than what I initially submitted by the deadline. My sincere apologies for the inconvenience, I'm a novice to this process and am learning so much. Thank you for your patience.

Sincerely,

Brianna Remster

Subject: RE: prison gerrymandering reallocation experts

Hello Dr. Remster,
Thank you for your email. We'll provide it as public comment that the commissioners will receive prior to their August 17 meeting. The commissioners will be discussing the topic of reallocation of prisoners at the meeting. If you'd like to provide verbal public comments during that meeting, the commissioners will take comments from people on Zoom. The agenda and other meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/> [nam04.safelinks.protection.outlook.com] [nam04.safelinks.protection.outlook.com]. The 3rd page of the agenda provides instructions on how to provide public comment. The Zoom sign up button is near the top of the meeting materials page.
I hope this information helps.

Dear Commission staff,

I submitted a public comment online today before discovering your contact information. While I am happy to submit written testimony, my intention was to simply connect with you and the Commission members at this point—my apologies for the confusion. If possible, please delete my submission. Here is the content:

My name is Brianna Remster and I am a social science researcher studying prison gerrymandering and a professor at Villanova University. In 2019 my colleague Rory Kramer and I published a study in a peer reviewed academic journal in which we quantified the impact of counting prisoners as residents of correctional facilities on political representation in PA by removing and returning incarcerated persons to their home communities. We are currently assisting several states who are in the process of reallocating prisoners for this redistricting cycle along with our colleague, Montana State professor Cody Warner. The reallocation process is actually quite simple and achievable with existing DOC data and standard social science techniques. If you would like to discuss the data requirements and reallocation process, or prison gerrymandering more generally, feel free to contact me.

Thank you for your time.

Sincerely,

Brianna

Subject: RE: Hello from NCSL's Elections and Redistricting Team

Categories: DACRequest1688, PublicInfo1688

Hi Diana,

Thanks for updating all the lists. I would like to be (or remain) part of both networks? I don't do as much election work as I used to, but I still dabble in that world at times. I am definitely still involved in redistricting, so that is the key network for me.

Also, could you add my colleague Rebecca Power (Rebecca.Power@mt.gov) to the Election Staff Network? She is cc'd on this email. She's a new staff, so I don't think we've had a chance to put her on an NCSL standing committee yet. But she's the research analyst that works with elections topics and bills in Montana. So if we need to do anything to get her added to a standing committee or the ESN, just let me know.

Thanks again and don't hesitate to reach out with any questions.

Sincerely,
Rachel

Subject: [EXTERNAL] Hello from NCSL's Elections and Redistricting Team

Hello Rachel,

I'm Diana Jordan, an intern with the National Conference of State Legislatures' (NCSL) Elections & Redistricting Program. We are reaching out to all members of the Redistricting and Elections Standing Committee (RESC) with an offer to join the Election Staff Network (ESN) and/or the Redistricting Staff Network (RSN).

Both the ESN and RSN are comprised of legislative staff only and joining the list would not require you to do much work. We use these lists to send out the occasional question from us or one of your peer states and to sometimes send updates about NCSL resources. You can expect 2-4 emails a month, often fewer.

In addition, we could add you to the Redistricting Distribution emailing list if you would like. This list is open to anyone and provides regular updates about the census and redistricting.

You may already be on some of these lists, but we wanted to see if you'd like to join the others. Please let us know.

Best,

Diana

Rachel,

Thanks, this articulates the adopted policy. Hopefully on Tuesday we can determine the exact date to include on the letter.

Maylinn

On Sat, Aug 14, 2021, 2:57 PM Weiss, Rachel <RWeiss@mt.gov> wrote:

Hi Maylinn,

I was thinking through how the Commission might let people know when the 90 days for Congressional redistricting starts and ends. For now, I put together a written announcement that you could issue to start the clock and set out the ending. It leaves the dates blank though we might know more by Tuesday. I can adjust it if so. If you have any revision or wanted to see how the commissioners wanted to handle that, just let me know. For now, this is just a draft and not online. But I can post it and distribute it to the commissioners as needed.

Thanks,

Rachel

Hello Michelle and Karin,

Thanks again for being willing to speak with our districting commission tomorrow. The Zoom link is below my signature.

The agenda remains unchanged at: <https://leg.mt.gov/content/Districting/2020/Meetings/August-17-2021/agenda-mdac-august-2021.pdf> The other meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/> We'll enable screen sharing so you can show slides or the like. If you have anything prepared, I'd be happy to include the materials on the meeting page so those participating remotely can access them. We have a Zoom manager who will be promoting people from the initial attendees screen to the panelist screen. She has your names so hopefully we'll make that transition quickly. Don't hesitate to reach out with any questions. I've cc'd the other commission staff on this email so you can just hit "reply all" to communicate with us during the meeting if anything goes wrong. One of us will be able to check email and help triage. I haven't received any specific questions from the commissioners, but will send anything on, if I do. Thanks again. I look forward to hearing from you both tomorrow. Sincerely,

Hello Ben and Christi,

Thanks again for being willing to speak with our districting commission tomorrow. The Zoom link is below my signature.

The agenda remains unchanged at: <https://leg.mt.gov/content/Districting/2020/Meetings/August-17-2021/agenda-mdac-august-2021.pdf> The other meeting materials are available at:

<https://leg.mt.gov/districting/2020-commission/meeting-information/> We'll enable screen sharing so you can show slides or the like. If you have anything prepared, I'd be happy to include the materials on the meeting page so those participating remotely can access them. We have a Zoom manager who will be promoting people from the initial attendees screen to the panelist screen. She has your names so hopefully we'll make that transition quickly. Don't hesitate to reach out with any questions. I've cc'd the other commission staff on this email so you can just hit "reply all" to communicate with us during the meeting if anything goes wrong. One of us will be able to check email and help triage. I haven't received any specific questions from the commissioners, but will send anything on, if I do.

Thanks again. I look forward to hearing from you both tomorrow.

Sincerely,

Rachel Weiss
Legislative Research Analyst

Categories: DACRequest1688, PublicInfo1688

Hello Eric,

Thanks for your time on the phone. The links to sign up for the commission's interested parties list is: <https://public.govdelivery.com/accounts/MTLSB/subscriber/new>. Usually, I send the same information to the press release list, but sometimes the press release goes out later than the interested parties list.

Don't hesitate to reach out with questions.

Thanks,
Rachel

Subject: [EXTERNAL] Info RE public participation in congressional districting process

Hi Rachel,

I'm looking at doing a 'How to participate in the congressional districting process' story at some point in the next few days and want to check quickly that I heard correctly today about what the districting commission settled on in terms of timeframe for the congressional districting process:

- Nov. 14 is the deadline, at 11:59 p.m.
- Planned meeting on 9/16 or 9/17, Zoom half-day meeting to review any maps that were submitted by 5 p.m. on 9/15.
- Oct. 5 - meeting to select maps for public comment
- Oct. 19 - Public hearing
- Oct. 21st, select final map (+ other agenda items)
- Oct. 30 (a Saturday) - Public hearing on tentative final map
- Nov. 9 - In reserve in case of need for final public hearing.
- Nov. 14, midnight - final deadline

Also, is there final guidance available at this point about how to go about submitting proposed maps as a member of the public and/or information on specific tools you suggest people use? If you don't have that compiled yet but will soon, I can be patient.

Thanks so much,
Eric

Categories: DACRequest1688, PublicInfo1688

Hi Christi,

Thanks for this follow up. It's helpful. I'll get this out to the commissioners. They are proceeding with RFPs for RPVA and prisoner reallocation. When we have final documents to issue for bids, I'll send those out to your for your database, too. Thanks again for the help. The commissioners found the overview helpful.

Subject: [EXTERNAL] RE: Racially Polarized Voting Analysis information

Hi Rachel,

It was nice to see you this afternoon. I hope the rest of the committee meeting went well.

I receive responses from Colorado re: racially voting bloc analysis. (The answers are in red.)

1. Do you have any copies of RFIs or RFPs that solicit information or bids for polarized voting analyses?
We did not use an RFI or RFP.

2. In your state's experiences, how much time does it take to complete this type of analysis?

We are providing our expert with a breakdown of population and demographics by precinct and a list of elections involving the minority candidates. With that she said that it would take her about a day for each region of the state that we ask her to look at.

3. Could you give a ballpark or range of about how much it cost to complete this analysis?

We were quoted \$400 an hour and we anticipate several hours on each area of the state we request an analysis on.

If I receive anything additional, I'll pass it along.

Thanks,
Christi

To: Weiss, Rachel <RWeiss@mt.gov>; Kolman, Joe <jkolman@mt.gov>

Subject: [EXTERNAL] FW: Racially Polarized Voting Analysis information

Hi Rachel and Joe.

Thank you for your patience while we collected information. I reached out to legislative staffers and other experts for more information on racially polarized voting analysis. We did receive some helpful feedback. I did reach out to contacts in all the western states, but most have not done an analysis.

Below are the responses I have received, so far. If I receive additional information, I'll be sure to pass it along.

1. Could we get copies of RFIs or RFPs that other states have sent out to solicit information or bids for polarized voting analyses?

- Massachusetts: [RFP \[commbuys.com\]](https://www.commbuys.com) for database compilation and racial bloc voting analysis for the Joint Redistricting Committee. For more information, [click here](#).
- Alaska: VRA consultant [RFI \[aws.state.ak.us\]](https://aws.state.ak.us) (PDF).
- Los Angeles County - LA County Task Order (indicates what the database will be for the analysis) – (PDF)
- New Mexico: RFP for professional technical services (PDF)

2. In other states' experiences, how much time does it take to complete this type of analysis?

- Alaska: The most time intensive portion is the preparation of the voting return databases and preferred candidate identification. Once those are built, and in many cases this work can begin now, the actual statistical runs are fairly quick. Like a week.
- Dr. Lisa Handley: The time required to do this work varies depending on the quality of the database, the number of contests to be analyzed, and how many areas in the state must be examined separately as the analysis should not just be statewide but area specific. I would say analyzing voting in a state, including 2-3 areas of the state separately, can take anywhere from 75 to 150 hours.

3. Could other states give us a ballpark or range of about how much it cost them to complete this analysis?

- Alaska: Last cycle the board spent \$100-\$120k. However, Alaska was subject to preclearance at that time. We are hopeful that with the reduced work load of no preclearance requirement, our costs will come in substantially less.
- Lisa Handley: Almost all of this work is charged on an hourly basis. I think everyone who does this kind of work has a PhD in political science (or some other social science) and the rate reflects this level of expertise. I am guessing the range is perhaps 300-500/hour. I would advise putting between \$50,000 and \$75,000 aside for the project. I would also advise the state to create the database to be used. While this is usually not a problem as

the rbv database is often the data that is being used for redistricting; this is less true in southern states that have voter registration by race.

4. **Approximate population in the state? We'd love to get information from Western states of similar or at least somewhat comparable sizes (SD, AK, WY, WA, OR, AZ, NM, etc.)**

- Alaska: 733,391
- New Mexico: 2.1 million

Other resources:

- Michigan: [RFP \[michigan.gov\]](#) for Voting Rights Act Legal Counsel
- California: [RFI \[wedrawthelines.ca.gov\]](#) for Litigation Counsel
- Paper recommended by Ben William's former colleague on the quantitative side of the Voting Rights Act. Apparently, the methodologies described here are very common. In case you would like to read it: <https://gking.harvard.edu/files/gking/files/eiintro.pdf> [gking.harvard.edu]. It's written by Gary King at Harvard who's done a lot of work in this space.

I hope this information is helpful. Let me know if you have any questions or need anything else.

Thanks,
Christi

Subject: [EXTERNAL] Racially Polarized Voting Analysis information

Hi Wendy,

It was nice to see the crew online yesterday. I was bummed to miss the SLC conference but needed those days to juggle some tasks. It sounded like Commissioner Miller found it informative and gave the commissioners an in-depth recap.

At a Tuesday meeting, our redistricting commission decided it wanted more information on racially polarized voting analysis. So I'm reaching out to see if you had already compiled some information related to that or would be able to send out a plea to other states (or parties/caucuses/commissions) for information. The questions they had are below. But I'm happy to talk with you a bit to narrow things down or adjust the wording to make things clear.

1. Could we get copies of RFIs or RFPs that other states have sent out to solicit information or bids for polarized voting analyses?
2. In other states' experiences, how much time does it take to complete this type of analysis?
3. Could other states give us a ballpark or range of about how much it cost them to complete this analysis?
4. Approximate population in the state? We'd love to get information from Western states of similar or at least somewhat comparable sizes (SD, AK, WY, WA, OR, AZ, NM, etc.)

The commission is meeting again on August 17, so that would be the ideal timeline for us to have more information. However, as I mentioned yesterday, we're getting a late start on this research and acknowledge this is definitely crunch time for redistricting. Again, I'm happy to follow up with a call at a time that works for you.

Thanks in advance for any advice or resources you have.

Sincerely,
Rachel

Subject: Proposed Congressional Maps based on 2020 Census

Hello Presiding Officer and Commissioners,

Here are my 2020 proposed maps that were created using county boundaries and keeping Reservations intact. The East-West Map puts Helena (Lewis and Clark County) in the East because it is more difficult to travel west from that area because of the mountain passes (Rogers and McDonald) and it allows Helena to be in the same district as Jefferson County who has close ties with it economically.

The North-South Map allows the representatives to care about a diverse set of voters from the ranchers/farmers in the east to the timber industry in the west. The South District has Billings, Bozeman and Butte/Anaconda which makes it

competitive and diverse in its needs and values. The North District has Missoula, Great Falls, and Havre which also allows for a competitive and diverse district.

East-West Map:

<https://distrctr.org/plan/37345> [distrctr.org] (Maximum population deviation 0.19%)

North-South Map:

<https://distrctr.org/plan/37342> [distrctr.org] (Maximum population deviation 0.02%)

Thank you for your time and consideration and feel free to email me questions

Hello Mr. Gerrity,

Thank you for your public comments, which will be provided to the Montana Districting and Apportionment Commission. The commission is required by the state and federal constitutions to redraw the congressional districts to balance populations to keep the districts in compliance with the legal principle of "one person, one vote". Because of population shifts from the 1980s to the 2020s, the 1980 districts differ in size by more than 200,000 people. The following map displays the exact numbers using the current 2020 Census results and the 1980 district lines:

<https://leg.mt.gov/content/Districting/2020/Maps/Congressional/1980-congressional-districts-2020-population-map.pdf>

More information about the "whys" of redistricting can be found at: <https://redistrictingonline.org/whatisredistricting/>

A legal memo explaining more of the Montana-specific background for redistricting is available at:

<https://leg.mt.gov/content/Districting/2020/Topics/Legal/REV%20legal-memo-litigation-background-criteria-june-2020.pdf>

I hope you find this information helpful. Please don't hesitate to reach out with additional questions.

To: Cohen, Ethan; Kolman, Joe
Subject: RE: CNN: A few technical/planning questions
Attachments: congressional-redistricting-2021-timeline-Aug26.pdf

Categories: DACRequest1688, PublicInfo1688

Hello Ethan,

Thanks for the email and questions. I've provided answers to the questions below. But feel free to call me with any further questions or if you need clarifications. Also, the following link takes you to our signup page for emailed updates: <https://public.govdelivery.com/accounts/MTLSB/subscriber/new>. You can sign up for the press list but I'd also sign up for the interested parties list for the Montana Districting and Apportionment Commission. Usually, the announcements are the same text for redistricting matters, but you'll get other legislative happenings on the press list.

1. I think it might depend on what kind of details you'll need and how the commissioners decide to adopt maps. If they adopt a map that was used in the public hearings, information will already be online or will be available quickly. If they make changes or come up with their own map, things like block equivalency files, shapefiles, or other basic geographic or demographic information should be available soon after the meeting at which the commissioners adopt the final Congressional map. When I say soon, I mean within a day or less. It might depend on what time of day the final meeting adjourns. The State Legislative districts might take more time, depending again on the time the meeting ends and how many final amendments are made. I anticipate those State Legislative files will be available mid-to-late February of 2023. Also, feel free to email both Joe Kolman and myself if you don't see what you need online. Our typical practice is to put as much information as we can online so people can access it without needing to email or call us. But we sometimes don't catch everything you might want or need for a story.
2. We will make shapefiles of the new map accessible, both for Congressional and State Legislative. Ten years ago, we also put up pdfs of the districts, counties, and larger cities. That took some time, but the shape files were available as soon as we'd made the final amendments.
3. The data can include a breakdown of the census blocks. Ten years ago, we release the block equivalency files and plan to do the same this round for Congressional and State Legislative Districts. The official file sent to the Montana Secretary of State was a block equivalency file. If there's another type of file you'd prefer, just let us know. We will see what we can do.
4. We will post information on the mtredistricting.gov site. But if you prefer email, we can send that to you. It is unlikely I'll send out data over the interested parties list. Instead, I'd notify people the information was available online so they can access it at their leisure.

I've attached the tentative schedule for 2021 to complete the Congressional district.

I hope this information helps. Please don't hesitate to call with any questions.

Sincerely,

Rachel Weiss

Subject: [EXTERNAL] CNN: A few technical/planning questions

Hi Rachel and Joe,

My name is Ethan Cohen and I'm a producer here at CNN. As the redistricting process gets going, I was hoping you could help answer a few questions that will help us be ready for new district maps. These are just for our planning purposes and I totally understand that things can change, but any information or expectations you can share will be very helpful.

1. Will detailed information on the maps be immediately available when they're approved, or will it take some time?
2. What format will maps be shared in? Is it possible to get shapefiles of the new maps?
3. Will the map data released include a breakdown of census blocks included in each district?
4. How are you planning on releasing map data? (via an email, posted to a site etc.)

Thanks so much for your help and could you please add me to your press lists?

Categories: DACRequest1688, PublicInfo1688

Hello Ms. Singer,

Thank you for sending in your proposal for Montana Congressional districts. Would you send the proposed map as either a shapefile or a block equivalency file? I can view the map using that link, but not download the data that will allow us to import the map into our software program. More information about the files is available on page 5 of the commission's operating procedures: <https://leg.mt.gov/content/Districting/2020/Topics/Administrative/adopted-operating-procedures-districting-revised-july-2021.pdf> In addition to the file types listed there, we can also use block equivalency files that are submitted in .csv. Don't hesitate to reach out if you have any questions on the files types.

Sincerely,

Rachel Weiss

Submit Your Input Regarding Redistricting in Montana

Date: 18th August 2021 00:07

Your Full Name:
Marilou Singer

Email Address:
mlousinger@yahoo.com

City and State of Residence:
Great Falls, MT

Your Comment/Input:

Here is my proposed map based on the 2020 census data. The districts are compact and only one county is split in order

to maintain equal population. Additionally, the map is drawn to keep the vast majority of the Native American population united in a single district. Finally, district 2 would be somewhat competitive. I think this is a fair map that does a good job of adhering to the criteria laid out by the commission. <https://davesredistricting.org/join/efa56266-688f-4f59-8777-c81881e3cb6e>

Subject: RE: Prisoner reallocation

Categories: DACRequest1688, PublicInfo1688

Hi Ben,

No, you're using it correctly. The commissioners didn't vote (yet) to send the letters they discussed. The same with the draft legislation they considered. Those two topics will be on their Sept. 17 meeting agenda. By the time they got to their work session, they forgot to consider them. But they did vote on a motion to get an RFP going. The vote is just to get draft language ready for consideration in October. But they didn't vote officially to reallocate at this point. We're getting the summary minutes finalized for that meeting. They go along with the official recorded minutes and will have the motions and votes marked by time stamps. When they vote to approve issuing an RFP and to send these letters, I'll let you know. Feel free to call, too, if you have questions or need further clarification.

Thanks,
Rachel

Subject: [EXTERNAL] Prisoner reallocation

Hi Rachel,

I'm trying to update NCSL's webpage on prisoner reallocation, and I'm looking for some documentation from the commission making official the decision to reallocate inmate data from prisons to last known addresses, but I can't seem to find anything on the website. I'm sure this is user error, but would you mind sending any such documentation along—particularly a web link, if you have it—so I can link to it on our webpage?

Thanks for your help!

Subject: RE: Map request

Categories: DACRequest1688, PublicInfo1688

Hi Julie,

Thanks for the call this afternoon. Sorry I couldn't find it right off the top of my head, but I did just after we hung up. The maps of the 2014-2022 legislative districts are available at: <https://leg.mt.gov/districting/2010-districting-commission/2010-districting-maps/legislative-redistricting-plan-2013/> The one you'll likely want to use is the [Poster-sized Map](#), which is near the top. This is the one we used to print the copies we gave to legislators and made available to the public. There are also some 8.5x11 size maps of each district, but it sounds like the poster one might work best for you.

Did you used to work at the COPP a few years back? Your name looks very familiar.

I hope this helps. Don't hesitate to give me a call with any questions. And I hope you enjoy the weekend.

Sincerely,
Rachel

Hi Mat,

Thanks for sending the example of what you're looking to find. We don't produce any maps along those lines. We use the interactive [Legislator Lookup map](#) to provide the current legislative roster. It should update when there are legislator changes every two years and in between. But we don't create a printable version of that map given the scale issues between the large, rural districts and the small urban/suburban districts. A [large-format \(poster size\) map](#) of the current legislative districts is available for download. It only shows the district lines not the current legislators. We used to have printed copies available but distributed the last of our supply several years ago. It's the best statewide, printable map that we have available. We do have [8.5x11 size pdf maps of individual districts](#) available online. They print well but don't show a statewide perspective or list individual legislators. I hope this information helps, though I know none of the options is a great solution to the problem you're looking to solve. Please feel free to reach out with questions.

Sincerely,
Rachel

Angie and Rachel,

Good morning!

Thanks for getting this to us, it's super helpful and we appreciate it.

Just to give everyone an idea of what we're trying to create, I developed two (crude) maps for MCV to utilize in the meantime. I've attached the MT House Map we developed for reference. Go easy on me, I'm not a mapmaker. Hahaha!

Do you know if your team has anything close to this type of map? In the future, our hope is to print the map w/ the corresponding roster if possible. Hopefully, this makes sense! Please let me know if you have any questions at all.

Thanks again,

Hello Webb –

Thanks for following up. Your prior email caught us in a busy moment this fall for redistricting. I apologize that a reply slipped through the cracks. Though Joe Kolman and I usually defer to the commissioners if they have an interest in presenting as individuals or in pairs, we have also done nonpartisan, informational redistricting presentations to organizations. If you wanted to reach out to other commissioners about January, their contact emails are online at the [commission's website](#). I have an interim committee meeting on January 19, so I will be unavailable for that meeting. I hope this information helps. I'm in the office all this week, so feel free to give me a call if that would be helpful to review some possibilities to get your organization the information it would like about the redistricting process.

Sincerely,

Subject: Commission presentation at MSAE mtg Nov. 18

The Montana Society of Association Executives is the “association of associations” in Montana. That includes about 50 of the top associations in the state, from the Montana Bankers Association to the Montana Trial Lawyers Association. Our membership also includes about that same number of “Hospitality” members – those who host the meetings of associations, as well as the same number of “Affiliate” members who support associations in other ways (legal, accounting, marketing, etc.)

We schedule monthly programs for our members and invite you to update our members and others at the Nov. 18 program on the Commission. This would be over the Noon hour, with your presentation about 20-30 minutes with Q&A possible afterward. We are planning this as a virtual event again, with hopes of returning to in-person meetings for our holiday event in December. Most of our members are involved in government affairs and politics and would be very interested in this topic. In fact, we recently encouraged them all to become more educated and involved in the Oct. 19 meeting.

I would be happy to provide any further information should you be available and willing to join us.

Be well,

Webb

Hey Ben,

The Montana commissioners decided on exclusion. The actual language they approved is cut/paste below. We haven't issued the RFP yet, but I think the procurement staff will do that soon.

"4. Assign all partial or imprecise inmate addresses to smallest geographic unit possible (e.g., city/town, etc.).

5. Exclude from the total population count and specific Census blocks all remaining inmates that cannot be reallocated to the smallest geographic unit, are missing a residential address, list an out-of-state address, or are incarcerated in the federal portion of a facility."

I hope this helps. See you all at office hours later.

Rachel, one more question. Do you know if under the policy adopted by the commission how prisoners whose last known address will be treated—will they be treated as residents of the prison or excluded from the count? And would this policy differ if the prisoner were a federal or state inmate?

Thank you!

Categories: DACRequest1688, PublicInfo1688

Dear Mr. Cherry –

Thanks for the email and questions. I don't have information about Dave's Redistricting's algorithms or documentation. You'll need to reach out to the site operator's for more information on those topics. The commissioners did not rank the [mandatory criteria and goals it adopted for state legislative districts](#), so I'm also unable to provide information related to that question. More information about starting points used by past commissions is available in a [table of state legislative criteria](#) that is online.

I hope this information helps as you think about state legislative redistricting.

Sincerely,

Rachel Weiss

Subject: [EXTERNAL] upcoming Mapping algorithms, process

Rachel -

Hope you are safe and healthy for the Holidays.

I have a few questions about the next round of ReDistricting for our House districts. In terms of where the mapping process starts, each commission decides on the process it will use. A [table of the history of state legislative criteria](#) includes information about the starting point for each commission, if the commission adopted and used one starting point.

Presuming davesredistricting (or another vendor?) will generate draft maps for each of the 100 districts: does their algorithm(s), somehow, take in to account Competitiveness? If yes, is there a Documentation reference or statement to that effect?

If the Commission moved that competitiveness Criterion's priority up its scale, say from #8 to #4, would that affect Dave's algorithms or proposals? Like yield a MORE Competitive Draft for the Commission to finalize?

I see districts 1-20 from the HiLine as NONcompetitive (outside 55-45) in the past. As you recall it, does the Process always start in that Northwest corner? and move, while adding a rough 1,000 residents (per 2020 Census) each, across to the Northeast corner?

Certainly open to your suggestions on how the Process can modulate partisan-Lean; Dave's seems to indicate a modest 1.5% swing could move the state to a minimally competitive stage.

Let me know what you have seen or project on these first-chance. Thanks in advance for your assistance,
Tom C

Submit Information to the Redistricting Commission

Date: 23rd December 2020 11:51

Your Full Name:
Clayton Vine

Email Address:
cvine@rooseveltcounty.org

Subject Line:
Redistricting Boundary Description

Your Comment:
When your Commission meets and creates the new Redistricting Boundaries best practice is to use the Public Lands Survey System (PLSS) to describe the new Boundary along with Property Boundaries lines. In the past the Redistricting Boundary has been described in Metes and Bounds descriptions that meandered all over the place. Make it look nice. Thanks, Roosevelt County Geographical Information Systems Administrator.

Subject: [EXTERNAL] Person responsible for managing apportionment data?

Dear Rachel:

I hope this email finds you well in the New Year.

I am hoping to find out who is responsible for receiving and managing the PL 94-171 Census apportionment data for Montana during the 2021 redistricting cycle. I understand that the data file is sent to the governor and legislative leaders by law. But I believe there is also a specific person (or persons) - designated by the state - who is responsible for storing and managing the data file, such as a GIS specialist, demographer, or legislative liaison. I found your contact information on [this website](#).

Any information you can provide would be greatly appreciated.

Thank you kindly,

Kate

Subject: RE: for congressional redistricting
Attachments: April decision expected for Montana's second U.S. House seat _ 406 Politics _ mtstandard.com.pdf
Categories: DACRequest1688, PublicInfo1688

Hi Wendy,

Thanks for the email. I've been thankful for all the Census updates NCSL has been sending our way. It's been helpful to know I don't have to keep up with it all because you and Christi and everyone would let us know the minute something happened. My brain can only hold so much information at once and this year is straining my capacity!

If Montana gets a second congressional seat back, the commission would have 90 days to create districts. That deadline was created by a constitutional amendment in 1984 (I think). The purpose was to avoid a lengthy delay in creating congressional district caused by a previous amendment to go back to biennial sessions. But we've never used a 90-day process because Montana immediately lost the second seat in the 1990 round. So we didn't know how it might work in practice. Given the big delay in the delivery of Census data, that tight deadline might actually work in the state's favor this time around. Even assuming the data doesn't come until the last day, 90 days should still give the commission time to finalize the districts for a 2022 election. We have a June primary, so filing usually starts in early January. In 2020, the start of filing was Jan. 9 (<https://sosmt.gov/wp-content/uploads/2020-Election-Calendar.pdf>). Although assumptions are risky in the middle of a legislative session, I'd assume similar dates for 2022. That leaves just about enough time for the commission to complete its work.

Any more delays, though, and even our relatively flexible timeline (compared to other states' laws) would be stretched. There are lots of assumptions underlying all of this, but that's my initial take. But we're lucky in that we don't have to wait for commissioners to be appointed, we have June primaries, we have the summer to adopt criteria, we don't have to do legislative districts under the same timeline, and we have the new-found wonder of Zoom to help with larger scale public hearings.

I've attached a recent article in which the commissioners talk about the potential district gain, too.

That's my thinking on the question today. I'll let you know if I think of another possibility. I supposed if the commission couldn't get the work done (data delay or otherwise) then it'd go to the courts to figure out the next step. But that's just a guess. I'd have to consult more with Ginger to see what her legal mind thought would be likely.

I hope this helps!
Rachel

Subject: [EXTERNAL] for congressional redistricting

Hello Rachel.

I hope you're well. I've had Montana on my mind – Rep McKamey is going to be on a webinar with me next week.

Today I have a question about redistricting. Do you know yet, if MT gets a second congressional district whether the commission will draw the two seats before the 2022 election? The only alternative I can think of is to run two congressional elections at large, and then redistrict in 2023 for future elections. I'm guessing that the commission can come together in time, but am checking.

Thank you.

Dear Susan and Rachel,

Your presentation was just perfect today! Thanks so much for presenting about the legislature and redistricting. These topics are very much top-of-mind for many of our members, and I was glad that a member of the public (Debbie Hannamen, chair, Jefferson County Democratic Party) joined us.

I received several emails telling me what a good program you provided, and I am so glad that Susan cleared up my three-readings confusion. It is clear as a bell to me now. I bet that all the folks interested in redistricting will sign up for the Commission emails.

So what a great public service you did. We had close to 30 in attendance, and many conversations will spread out from there at the dinner table and over coffee. The Helena League is lucky to have people like you to help us understand the legislative process.

Good luck in finishing strong in another legislative session. Summer is coming!

Kind regards,
Margaret Bentwood

Your Comment/Input:

Move district lines to account for cultures and communities in Cut Bank, MT. I live on the west side of Mountain View Blvd in Cut Bank MT. The east side of the street is under HD9 and SD18, which are representatives that align with the cultural and community values of the general Cut Bank area. However, my representational districts of HD8 and SD16 are controlled by the vast majority of their population that live in and around Browning, MT on the Blackfeet Indian Reservation. The representatives for my district have refused to take one phone call, return a voice message, or return an email because I obviously am not politically aligned with the vast majority of their constituents. It makes no sense for my representation to not come from my community and for me to not have representation of my community's values in the state legislature. Please consider redistricting along true community/cultural lines.

If MT gets another US House seat, I hope you will consider northern and southern districts. This would maybe produce more similar districts, and force candidates to appeal to constituencies in both districts more closely reflective of the state as a whole.

Good Evening all,

I am hoping there might actually be some redistricting data in the near future. Two issues that have been raised in conversations I have had about redistricting work over the last couple of months involves establishing the criteria for what must be included in any proposed maps submitted in connection with this process and criteria for determining how the districts associated the hold over senator's should be handled.

I am guessing they are other broad criteria type issues that the commission can consider before the redistricting process begins in earnest. Can you please let know what additional topics we can consider at a meeting that does require having the block data? I would like to schedule a meeting some time in May and wanted there to be sufficient to get an agenda and notice out.

Looking forward to finally having a meeting to begin the redistricting discussion!

Subject: RE: State redistricting webpages and resources

Categories: DACRequest1688, PublicInfo1688

Hi Christi,

The link to the Montana commission page looks good. Here's the link to the Constitutional provision for the commission:
https://leg.mt.gov/bills/mca/title_0000/article_0050/part_0010/section_0140/0000-0050-0010-0140.html

I hope this helps.

Thanks for all you do.

Rachel

Subject: [EXTERNAL] State redistricting webpages and resources

Hello all,

I hope everyone is doing well. As we gear up for this redistricting cycle, I'm gathering a list of state redistricting webpages and resources. I'm reaching out because I want to make sure I'm capturing the correct information, and this is where I need your help.

I would be grateful if you could review your state's information on the attached document and provide any feedback. I know a lot of you are busy, but I would appreciate your help in letting me know if I'm missing information or if you see any problems or errors.

Thank you for your help. If anyone has any questions, please let me know.

Best,
Christi

Hi Mary - thank you for this information, and for the quick response.

I just want to clarify that there is no specific individual who is an "official receiver" (some states I have contacted used that terminology, but that may not apply in your case!) of the data but, rather, the State Data Center as a whole is responsible for managing this data file?

My apologies for the follow up, I just want to make sure I phrased my question clearly.

Thank you again,

Kate

Hi Kate:

As the official State Data Center for Montana, we get a file copy as well. Our plan is, the minute we get the PL94 file, to provide the information on our website (ceic.mt.gov). We are currently going through a web software

conversions, so the site is sparse at the moment. But as the Census releases 2020 information for Montana, we will be providing the information through Tableau dashboards and maps.

The current estimate release date for the PL94 now the first of March according to the latest I have heard from the Bureau. Hope this answers your questions and let me know if there is anything else you need.

Best,
Mary

Hi Mary - I'm not sure if you received my original inquiry, but I am trying to find out whether there is a specific individual responsible for storing and managing the PL 94-171 Redistricting File that will be sent by the Census Bureau to Montana. I understand the governor and legislative leaders receive this data, but in some states I've contacted there is a specific person designated as responsible for storing and managing the core data file that will be used for redistricting. I would be most grateful for any information you can provide in this regard.

Thank you,

Kate

Dear Rachel:

I hope this email finds you well in the New Year.

I am hoping to find out who is responsible for receiving and managing the PL 94-171 Census apportionment data for Montana during the 2021 redistricting cycle. I understand that the data file is sent to the governor and legislative leaders by law. But I believe there is also a specific person (or persons) - designated by the state - who is responsible for storing and managing the data file, such as a GIS specialist, demographer, or legislative liaison. I found your contact information on [this website](#).

Any information you can provide would be greatly appreciated.

Thank you kindly,

Kate

Subject: [EXTERNAL] (Case CC312473) Maptitude for Redistricting Training, April 20-22, 2021

Hello,

Thank you for registering for the virtual Maptitude for Redistricting training held April 20-22, 2021.

This training will be held from 10 am Eastern to 5 pm Eastern each day, with a one-hour lunch break from 1 pm Eastern to 2 pm Eastern.

Setting Up for the Training

Please reply to this message with your Maptitude for Redistricting serial number so that we can provide access to the proper region prior to the training. **If you do not have a license for Maptitude for Redistricting, we are happy to provide you a training license for the training; be sure to let us know!**

Please do the following prior to next week's training:

1. Download and install Maptitude for Redistricting 2020 , the USA data, and state data provided with your license.
2. Download the [training data \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b) (<https://caliper.sharefile.com/d-sb20fff571904640b> [\[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b)) and extract it to c:\TrainingData.
3. Download the [training guide \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a) (<https://caliper.sharefile.com/d-s2a91d94a6664161a> [\[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a)).
4. Confirm the software was installed and activated by clicking on the shortcut on your desktop to open the software.

Training Format

The training is a virtual three day course using GoToTraining. GoToTraining provides the capability to see the presenter's screen and share your own screen. You can join the audio portion using your computer or the mobile app; you can use a webcam if desired. We recommend using two monitors, or a computer and a tablet, so you can see the trainer's screen and your own at the same time.

Please provide your contact information to GoToTraining to receive meeting information automatically:

<https://attendee.gototraining.com/r/8382844189785874689> [attendee.gototraining.com]

After providing your information you will receive an email containing information about the training.

If you are physically located with colleagues and would like to join together, you can join from a computer that will serve as a display (i.e. projecting for the group) and dial in so you can share audio, or you can join individually.

Need Help?

If you encounter difficulties while setting up for the training, please contact us before 5 pm Eastern on Monday, April 19, 2021 by phone (617-531-4155) or email (sales@caliper.com).

I look forward to working with you next week,

Tracy Horgan

Dear Mr. Hayfield,

Thank you for your interest in the Montana Districting and Apportionment Commission. The commissioners will be meeting soon to determine next steps for their work in dividing the state in to congressional and legislative districts. Those decisions will include timelines to start and complete their work, as well as about how the public will be able to submit comments, feedback, and maps. Once they select a next meeting date, information will be available at their website: <https://leg.mt.gov/districting/2020-commission/>. On that page, you can sign up to receive emailed updates about the commission, including meeting dates. That's the best way to stay up-to-date with commission happenings. I hope this information helps.

Sincerely,

Subject: [EXTERNAL] Montana Redistributing and Apportionment Committee

Dear Mrs. Sherley,

I am writing as a person from the United Kingdom who was so taken by a recent BBC documentary about Montana that, having decided a long time ago that the United Kingdom was no longer for me, has virtually moved (if not physically moved) into the state and would therefore like to know if I make a formal submission to your committee following the announcement that Montana is to gain a second congressman.

If this is possible, may I ask in what manner the submission may be made so that the committee can best understand my idea and whether or not (due to the seven hour time difference between the UK and Montana) when the committee meets to receive submissions, it would be possible to do so over the Internet (ideally by Zoom but whichever platform the committee feels is best) in order to explain my reasoning for my suggestion.

Yours sincerely
Harry Hayfield

Subject: MT information on website incorrect

Categories: DACRequest1688, PublicInfo1688

Hello Ms. Chen,

I am a research analyst with the Montana State Legislature. I work with the state's Districting and Apportionment Commission. I am reaching out to you to let you know that some information on the Princeton Gerrymander Project website related to Montana is incorrect. I couldn't use the "Submit Feedback" link on your site because certain sites like that are blocked by our IT firewall. When I read that you research in the area of state redistricting process, I thought you'd know who I could contact to provide the correct information.

The page for Montana (<https://gerrymander.princeton.edu/reforms/MT>) mentions that this is the first time Montana will use a commission for congressional redistricting. However, Montana's independent redistricting commission has been in place since the new constitution was adopted by voters in the early 1970s. The commission drew congressional lines in 1974 and the 1980s before Montana lost its second congressional seat in the 1990s round of apportionment.

If you or someone else at the project would like to have pdf copies of the commission reports from those two cycles to document this information, I'd be happy to send those. They are large files, so I didn't want to send them without checking the correct person first.

Thank you for your time. Please feel free to contact me with any questions.

Subject: License term?

Categories: DACRequest1688, PublicInfo1688

Hi Tracy,

I didn't want to hassle the others with this question. But do you know how long we have until we need to renew our license? For some reason, it seemed to us like we might need to renew that soon. If so, hopefully our IT people can make that happen sooner rather than later given the speed with which things seem to be changing in the redistricting world these days.

Thanks and thanks for meeting with us again!

Your Full Name:

Shawn

Email Address:

fowlerprecision@gmail.com

Your Comment/Input:

It is very important to avoid the mistakes that places like California make. DO NOT tie urban areas to rural areas when redistricting. That disenfranchises people in the rural areas which have a very different culture than some of the urban areas. Major cities should be their own voting districts. Thanks for considering my comment.

Hi, Rachel,

It was so nice to see you and Joe again today! We just sent the renewal for your licenses on Monday (attached here as well). They are up for renewal on May 31, 2021.

Best regards,

Tracy Horgan

Hi Maylinn,

I've attached a Word copy of the tentative agenda. I'm free any time you want to call. If today gets swamped and we don't touch base, we'll use this to notice the May 25th meeting. But it can be updated. I'll have to add the meeting room when I get assigned one and we can always add more specific details about how long agenda items might take, if you wanted.

Thanks for the review,

Rachel

Hello Commissioner Smith,

I apologize for the delay in response. I'll be back in the office tomorrow and send you a short agenda for the May 25th meeting that lists the items you and I spoke about, as well as the items suggested by Commissioner Lamson. We'll get the meeting noticed with that tentative agenda. If you have any changes to that tentative document after I send it to you, we can update before May 25. I'll start draft agendas for the June, July, and August meetings next week. Those we can work on after the commissioners have a chance to discuss next steps at the May 25 meeting. I'll book it for 1 to 5 and make it a hybrid meeting so folks can attend on Zoom. I'll give you a call tomorrow, too. I've cc'd Joe Kolman on this email, too.

Thanks,

Rachel

Your Comment/Input:

I was disappointed (albeit not surprised) to learn that the Supreme Court appointed Maylinn Smith as Presiding Officer of the Montana Districting and Apportionment Commission, a selection process which occurred behind closed doors without any public involvement. So much for taxpayer input and transparency. It is not lost on me that Ms. Smith has a long history supporting the Democratic party, and recent mapping of districts seem to favor her political ideology. That said, I am extremely concerned about fair and unpartisan redistricting of legislative boundaries. As do all Montana taxpayers, I expect the Commission to create Congressional Districts that would ensure accurate, nonpartisan representation for the people of Montana. To that end, I would urge the Commission to redistrict the boundaries North to South for East/West representation. Thank you for your time concerning this important matter.

Starting to hear about montanans interested in running for the new fed house seat. I would like to see the State in North / South districts so each Rep would be considering input from both conservative and liberal viewpoints from east and west sides of the state.

Dear Commissioners:

As you deliberate the decision about redistricting Montana for the second Congressional seat, I hope careful consideration will be given to an East – West division as was done in prior years when we had the two Congressional seats.

I feel representation is more evenly divided by a line drawn from north to south creating two approximately equal size districts. Montana is very unique taking into consideration the types of land that we see to the East versus what is in the West along with a very diverse population.

The north to south boundary line worked well in the past and I believe it can continue to work as well today giving us all an equal voice in Congress.

I wish you success in your deliberations.

Sincerely,
Alice Tully

Hi Bob,

I hope the post-session life is treating you well. I was down in the Park City neck of the woods recently. It was looking green and with a ton more houses than I remembered.

I finally got around to mapping the old MT congressional district lines. I could find 4 iterations. The links are below:

- 1980s: <https://leg.mt.gov/content/Districting/2020/Maps/montana-congressional-districts-1980s.pdf>
- 1970s: <https://leg.mt.gov/content/Districting/2020/Maps/montana-congressional-districts-1970s.pdf>
- Late 1960s: <https://leg.mt.gov/content/Districting/2020/Maps/montana-congressional-districts-late-1960s.pdf>
- 1918 to mid-1960s: <https://leg.mt.gov/content/Districting/2020/Maps/montana-congressional-districts-1900s.pdf>

Have fun mapping.

Categories: DACRequest1688, PublicInfo1688

Hey Christi,

Yikes, sorry I'm just getting back to this one. I was sorting through my inbox after a bit of time away. First of all, thanks for the kind words! I really enjoy working with all the NCSL staff and especially the redistricting crew. I consider my relationships with NCSL staff and other states' staff that I've met through NCSL one of the big bonuses of my job.

I don't think I'm going to be there for this one. I am trying to juggle an interim committee and redistricting this interim. We've got a redistricting commission meeting likely on July 9, an interim committee organizational meeting sometime in late June or early July, and I have a few days scheduled for time off during July (ironically in SLC). As much as I'd love to be there, I don't think I can swing more time away in July. But thank you for thinking of me. I think one of our commissioners and maybe Ginger, the commission's staff attorney, are attending. So Montana will benefit from the conference. I bet the energy level will be high and fun with the data release just around the corner.

Thanks again and I hope planning is going smoothly.

Hi Rachel,

I hope the week is treating you well. You had mention that you were unsure if you would be able to attend the last redistricting seminar in Salt Lake City. I was wondering if there is a possibility that you may be able to join us?

We were wondering and hoping that you would be willing and able to be a speaker for a session on Wednesday, July 14 at 2 pm.

Here is a brief description of the session:

2:00 – 3:30 p.m.: OPTIONAL: Redistricting Basics

If this is your first redistricting cycle, join us for this session. Experienced legislative staff will provide a foundation on redistricting based on NCSL's [Redistricting Starter Kit \[ncsl.org\]](https://www.ncsl.org/redistricting-starter-kit).

This will be an optional panel session and will focus on redistricting basics. I wanted to reach out to gauge your interest in being a speaker. I have attached the latest agenda. If you have any questions, please let me know.

Thank you for your consideration,
Christi

P.S. In celebration of Legislative Staff Week, I would be remiss not to mention how much the NCSL Redistricting team appreciates you. You have been a wonderful supporter and collaborator. The standing committee is very lucky to have you as a staff vice chair. Thank you for all that you do!

Subject: Redistricting Ideas

4-13-2021

Dear 2020 Commissioners,

My name is John Wright and I applied for the Chairperson position on your commission in the past when I taught in Cascade. I will be moving back to Montana from Arizona to teach and hope these ideas will help you along the way of creating legislative and congressional maps.

1. I liked the idea of lowering the deviation of 5% per district to 3% in 2010 and hope that continues in 2020.
2. It might be advantageous to only have ONE MAP using the current legislative districts as a template with modifications from the 2020 Census BEFORE public testimony, like the Existing Plan in 2010. The reason being is it would prevent people reading from a partisan card at the public meetings saying partisan talking points for the Democrat and Republican plans. I saw this being done at the Great Falls meeting in 2012. It is essential for citizens to speak from the heart and not from a Democrat or Republican card.

3. The 2020 (Existing Plan) Map should be modified AFTER public testimony is over. This way the commission will not act as a mini-legislature using partisanship to redraw lines in their favor. The committee members should not find ways to gerrymander or cheat the other side in future elections, which is against the spirit of the Montana Constitution.
4. If we get an extra House district (crossed fingers) there should be one North-South Map and one East-West Map for public comment. Each map would be created by one Democrat and one Republican to ensure bipartisanship. This way you should know which map is preferred by most citizens and how the districts should be drawn based on unbiased public testimony.

Thank you for your time and feel free to email me if you have any further questions.

Sincerely,

Mr. John Wright

Subject: [EXTERNAL] Question regarding adjustments to the PL data

Hello all,

I'm reaching out because a fellow legislative staffer, Jerry Barry, nonpartisan staff in Colorado, has a question regarding adjustments to the PL 94-171 data for redistricting purposes.

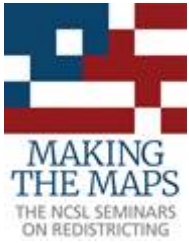

Colorado is one of nine states that now requires incarcerated people to be "[reallocated \[ncsl.org\]](#)" for redistricting purposes from their last known addresses. Jerry is interested in learning if any other states are considering reallocating any other populations or adjusting the PL data in any other way? These might be military or student populations, for instance.

You can respond by Monday to Jerry directly at jerry.barry@state.co.us (in which case copy me please), or you can write back to me and I'll compile the answer and share it with Jerry.

If you have any questions or can provide feedback, please let me know.

Thanks,
Christi

Your Comment/Input:

Comments of the League of Women Voters Montana Montana Districting and Apportionment Commission Meeting May 25, 2021 Commission Chair Smith and members of the Commission: My name is Nancy Leifer, and I am here on behalf of the League of Women Voters of Montana to offer comment on the criteria for redistricting in Montana. The League of Women Voters encourages the Commission to implement the following: 1. Full counting of all persons who reside in a jurisdiction —regardless of age, citizenship status, or ability to vote—for the purposes of reapportionment and redistricting. 2. Formalized transparency and public participation measures, including disclosing timelines, decision-making processes, underlying data sets and all consultants/experts hired, and allowing for full public participation. 3. Partisan-neutral redistricting criteria that reflect the diversity of the state (including racial and ethnic diversity and communities of interest), provide for overall competitiveness, and recognize political subdivisions. 4. Assignment of prison populations to their home communities to avoid prison-based gerrymandering. 5. Redistricting processes that are accessible for and inclusive of as many diverse communities as possible. Last August, the League of Women Voters sponsored a webinar hosted by the Brennan Center for Justice that provided an introduction for the public to Montana's

redistricting process. We thank Commissioners Essmann and Lamson for their participation in that webinar. The League looks forward to hosting more virtual public events going forward to help the people of Montana understand the redistricting process and how they can participate in Commission meetings and hearings. Thank you for this opportunity to comment.

Subject: [EXTERNAL] Comments from a voter and Montana citizen regarding the new Second Montana Congressional District

Dear Appointed Officials Tasked with Drawing the Boundary Lines for the Second Montana Congressional District:

I know your "official" name of your commission is called "2020 Districting and Apportionment Commission" but that really doesn't tell many people what you really are doing, so I address you so your title makes sense. Maylinn is the presiding officer who was appointed by the Democrat-leaning Montana Supreme Court; Jeff and Dan are appointed by Republican leadership; and Kendra and Joe are appointed by Democrat leadership. I'm also sending this to your staff of the commission since they process all the comments.

I hope others will use your emails I have in this comment to send their comments to all of you and will circulate my comments to their friends to motivate them to also send comments to you.

I urge this commission to properly represent the voters of Montana by making sure there are eastern and western Congressional District that includes cities, towns and rural areas so all aspects of Montana voters are properly represented. Please keep in mind, Commissioners, that the majority of voters in the 2020 election voted for Republicans at the local, state and national levels in Montana, so each district should represent the voters across the state. When Montana had two representatives back in 1990, we had the western

and eastern House of Representative districts, not the northern and southern districts as has been discussed by Democrats.

Naturally, a representative works for ALL citizens, whether they vote or not. I know that. But, when it is said and done, the only people who are counted in our republic are those that step up to the voting booth as legal citizens and vote. Democrats call us a democracy but we are a republic. Voters are the citizens that put a new representative into office, not any citizen, but the representative will work for every citizen, even those citizens that never lift a finger to vote. That is why I ask you to think of the voters first when drawing the district lines for the eastern and western districts. Please use active voter rolls when selecting where the lines are drawn for each U.S. Montana representative's district. Being a valuable citizen is voting. People risk everything to come to America because we are a nation that provides such freedom and opportunity. Voting gives all of us that right, and citizenship is that avenue to voting.

Two House Representatives are very special and we want you as commissioners to make sure you draw those boundary lines properly to reflect the voters of Montana that care the most about our state and nation, no matter what party they select. A voter is a very special person. Citizenship in the United States of America is also very special.

I urge Republicans Jeff and Dan to stand tall and strong against the three other commission members to make sure the lines drawn in Montana for the two Congressional Districts properly reflect the fact that is Montana we are Republican, conservative, God-loving, flag-waving Americans. I hope all five of you remember that.

God Bless America and God Bless all of you.

Your Comment/Input:

Public Comment of Aleks Kajstura Legal Director & Ginger Jackson-Gleich Policy Counsel Prison Policy Initiative Submitted to the Montana Districting and Apportionment Commission Re: Avoiding Prison Gerrymandering in Montana May 25, 2021 Thank you, Presiding Officer Smith and members of the Commission for providing the opportunity to submit public comment on the upcoming Montana redistricting process. This comment specifically addresses the problem known as "prison gerrymandering," which arises from the Census Bureau's practice of crediting incarcerated people to census blocks that contain prisons, rather than the census blocks that contain their home addresses. This results in a significant enhancement of representation in districts with prisons, and consequently a dilution of representation for the residents of all other districts. We are the Legal Director of and Policy Counsel for the Massachusetts-based Prison Policy Initiative. For nearly two decades, our organization has been leading the national effort to urge the Census Bureau to count incarcerated people as residents of their legal home addresses, rather than as residents of the correctional facilities where they are detained. At the same time, we work closely with state and local governments to develop interim solutions to the harmful distortion of democracy caused by the Census Bureau's current

approach to counting incarcerated people. Today, we urge the Redistricting Commission to avoid these distortions in the upcoming redistricting cycle by employing one of several solutions available to state governments. Many state governments have already adopted the approaches described here. For example, at least ten states now count incarcerated people as residents of their home communities by using data from their Departments of Corrections to adjust Census data. Other states minimize the impact of prison gerrymandering by using Census data to avoid concentrating prison populations within a single district. By adopting one of the solutions proposed here, the Redistricting Commission can ensure that the vast majority of Montanans enjoy truly equal representation and do not have their political power diluted relative to those who live near the state's correctional facilities. In doing so, the state would join the national trend towards solving this critical problem. The problem As you know, population equality enables everyone to have equal representation from elected officials. However, the Census frustrates this principle by counting incarcerated people as residents of the places in which they are detained instead of at their home addresses. The Bureau does this even though (1) people in prison typically lack a constituent relationship with the elected officials serving prison districts, and (2) most incarcerated people remain legal residents of their home addresses while imprisoned and return home upon release. Because of the divergence between these practical realities and Census practice, raw Census data fails to accurately reflect the number of local residents in places with correctional facilities. After the 2010 Census, prison gerrymandering affected numerous legislative districts in Montana. For example, state House District 78 is 17% incarcerated, while two other districts (House Districts 18 and 49) are both more than 5% incarcerated. These numbers mean that each group of 83 actual residents in House District 78 was given as much representation as 100 residents in districts without prisons (and that each group of 95 residents in House Districts 18 and 49 was given as much representation as 100 residents elsewhere). Importantly, the practice of counting incarcerated people as residents of the facilities where they are incarcerated is also inconsistent with Montana law, which explicitly states that a prison cell is not a residence. (Montana Annotated Code § 13-1-112(2).) The optimal solution As noted above, there are multiple solutions to the problem of prison gerrymandering, and all of them create more equitable districts than what results when prison gerrymandering is simply ignored. However, among those various solutions, the optimal one requires states to adjust the raw data they receive from the Census in order to count incarcerated people at their home addresses. For states interested in pursuing the optimal solution, they must collect home residence data from incarcerated people and use that data to adjust the federal Census prior to redistricting. This procedure may sound arduous, but the Census Bureau will do the data adjustment for states that are able to provide it with address data, and experienced demographers are also able to complete the adjustment with primarily automated processes. Step-by-step implementation of the optimal solution To pursue the optimal approach, the Redistricting Commission should request that the Department of Corrections (DOC) immediately report an electronic record of the legal residence, presumptively outside of the facility, and other demographic data for any person in its custody on Census Day (April 1, 2020). At a minimum, this record should contain the last known complete street address prior to incarceration, the person's race, whether the person is of Hispanic or Latino origin, and whether the person is over the age of 18. It is important to note that home address datasets may be incomplete or imperfect (this may be especially likely in Montana, where Native American populations are disproportionately represented in the criminal justice system and may be less likely to report having a specific street address prior to becoming incarcerated). However, missing home address data should not foreclose adjustment of the Census data, and indeed all states that have adopted this approach have home address datasets in which addresses are missing for some percentage of people incarcerated in those states. The data from the DOC should include: (i) a unique identifier, not including the name, or SID (state offender ID) number, for each incarcerated person subject to the jurisdiction of the department on the date for which the decennial census reports population. The unique identifier should permit the Commission to address inquiries about specific address records to the Department of Corrections, without making it possible for anyone outside of the Department of Corrections to identify the inmate to whom the address record pertains; (ii) the street address of the correctional facility in which such person was incarcerated at the time of such report; (iii) the last known address of such person prior to incarceration or other legal residence (if known); (iv) the person's race, whether the person is of Hispanic or Latino origin, and whether the person is over the age of 18 (if known); Notwithstanding any other provision of law, this information should not include the name of any incarcerated person or allow for the identification of any such person therefrom, except by the Department of Corrections. The information should be treated as confidential, and should not be disclosed by the Redistricting Commission except as redistricting data aggregated by census block. The Redistricting Commission should also request that every agency that operates a federal facility in Montana that incarcerates persons convicted of a criminal offense to provide the Commission with a report including the information listed above. The

Bureau of Prisons has historically refused to share this data with states, but it is best practice to request the data anyway. Once the Redistricting Commission has the address data, they need to “geocode” the addresses – this is just a fancy term for “mapping.” Geocoding is a process that takes an address like “123 Main St.” and matches it to coordinates on a map. This step makes it possible to take the list of addresses from the DOC and match them up to their corresponding Census blocks. Most GIS software can do this as an automated process. And the Census Bureau, acknowledging that many states are counting incarcerated people at their home addresses this decade, has instituted a new procedure for states to use the Bureau’s geocoder tool for large batches of addresses (https://www.census.gov/programs-surveys/decennial-census/about/rdo/summary-files/2020/GQAssistance_CensusGeocoder.html). We understand that Montana may have an unusually high number of incomplete addresses, particularly in rural areas. Automated geocoding will likely struggle to find effective matches for some of these addresses. But many could be manually mapped onto randomly assigned blocks within the home community. For example, if only a town name is available, and that town is so small that it will not be split when districts are drawn, it does not matter where in the town a person’s address is located, and any random block in the town will do – for state or congressional redistricting purposes. This data preparation should start immediately to eliminate any unnecessary delay once the Census releases the PL 94-171 redistricting data in August or September. Once all the home address data are mapped out, it will be a relatively quick process to adjust the block populations in the state’s copy of the redistricting data received from the Census Bureau. Policy considerations for the optimal solution Making the data adjustment is sound policy that will remedy a significant distortion of Montana’s democracy. Here, we address additional concerns that often accompany discussion of these sorts of adjustments, as well as some of the more subtle benefits. Funding is not affected. Adjusting redistricting data to count incarcerated people at their home address does not impact funding formulas. The actions proposed here would result in the creation of a new dataset for use in state redistricting. This dataset would not affect the distribution of federal or state funds simply because there is no federal or state funding formula that is distributed on the basis of redistricting data. Both state law and common sense dictate that incarcerated people are residents of their homes, not the correctional facilities where they are detained. The changes we propose here would make the data used for redistricting in Montana consistent with the state’s statutory definition of residence: “For registration, voting, or seeking election to the legislature, the residence of an individual must be determined by the following rules as far as they are applicable: The residence of an individual is where the individual’s habitation is fixed and to which, whenever the individual is absent, the individual has the intention of returning. . . . An individual may not gain or lose a residence while kept involuntarily at any public institution, not necessarily at public expense; as a result of being confined in any prison; or solely as a result of residing on a military reservation.” (Montana Annotated Code § 13-1-112(2).) While correctional facilities may look permanent, the individuals who are inappropriately tabulated there are typically quite transient. We’ve occasionally heard the argument that it makes sense to count incarcerated people as residents of the prisons where they are detained because they will be incarcerated there for a long time. However, the reality is that prison populations are actually surprisingly transient. For example, the majority of people released from state prisons in 2014 served less than one year. In addition, most people in state prisons do not stay in any given facility for long. Incarcerated people are transferred frequently between facilities, at the discretion of the prison’s administration, and nearly 75% of incarcerated people are moved between facilities before they return home. In fact, 30% of people in federal and state prisons have been at the current facility for less than six months. Half have been there for under a year. An alternative stop-gap solution A partial solution is also available if the Commission cannot get address data from the Department of Corrections; by adopting a stop-gap solution, the Commission can still limit the impact of prison gerrymandering in drawing the lines this redistricting cycle. Essentially, the Commission can minimize prison gerrymandering when drawing the lines using unadjusted PL 94-171 redistricting data by distributing correctional facilities among multiple districts (rather than concentrating them within a small number of districts), and then using the allowable population deviations to correct for the distribution of the prison population. Under this approach, the commission would use the deviation budget to lower the apparent populations in districts where incarcerated people disproportionately come from (knowing that many of their residents were counted toward the total of the districts containing correctional facilities). And similarly, they can should use the population deviations to include a bit of extra population in the districts that contain the prisons (knowing that their population on paper over-states their actual resident count.) This alternative stop-gap solution is not as optimal as counting incarcerated people at their home addresses, but it is a valuable partial solution if collecting home address data proves impossible. Conclusion We hope that the Redistricting Commission will adopt the optimal solution discussed above – it is the best option for ensuring truly equal representation for Montanans. However, if that is not possible, we urge the

Commission to distribute correctional facilities among multiple districts and use allowable population deviations to correct for the presence of prison populations. Both approaches would significantly enhance equality of representation in Montana and permit the state to join the national trend of jurisdictions choosing to end the practice of prison gerrymandering. Please do not hesitate to contact us if we can answer any questions or provide you with additional resources. We thank you for the opportunity to present this testimony. Subject: [EXTERNAL] Proposed Congressional Map Templates for 2022

Hello,

Here are my East-West and North-South Congressional House map templates. I don't have knowledge on the actual population of each district and based each map on the county lines with competitiveness in mind. Cascade county/Great Falls should be put in the West district because it is a swing county and it often votes for the stronger candidate, regardless of party.

Thank you,
John Wright

Adjusting redistricting data to count incarcerated people at their home address does not impact funding formulas. The actions proposed here would result in the creation of a new dataset for use in state redistricting. This dataset would not affect the distribution of federal or state funds simply because there is no federal or state funding formula that is distributed on the basis of redistricting data. Both state law and common sense dictate that incarcerated people are residents of their homes, not the correctional facilities where they are detained. The changes we propose here would make the data used for redistricting in Montana consistent with the state's statutory definition of residence: "For registration, voting, or seeking election to the legislature, the residence of an individual must be determined by the following rules as far as they are applicable: The residence of an individual is where the individual's habitation is fixed and to which, whenever the individual is absent, the individual has the intention of returning. . . . An individual may not gain or lose a residence while kept involuntarily at any public institution, not necessarily at public expense; as a result of being confined in any prison; or solely as a result of residing on a military reservation." (Montana Annotated Code § 13-1-112(2).) While correctional facilities may look permanent, the individuals who are inappropriately tabulated there are typically quite transient. We've occasionally heard the argument that it makes sense to count incarcerated people as residents of the prisons where they are detained because they will be incarcerated there for a long time. However, the reality is that prison populations are actually surprisingly transient. For example, the majority of people released from state prisons in 2014 served less than one year. In addition, most people in state prisons do not stay in any given facility for long. Incarcerated people are transferred frequently between facilities, at the discretion of the prison's administration, and nearly 75% of incarcerated people are moved between facilities before they return home. In fact, 30% of people in federal and state prisons have been at the current facility for less than six months. Half have been there for under a year. An alternative stop-gap solution A partial solution is also available if the Commission cannot get address data from the Department of Corrections; by adopting a stop-gap solution, the Commission can still limit the impact of prison gerrymandering in drawing the lines this redistricting cycle. Essentially, the Commission can minimize prison gerrymandering when drawing the lines using unadjusted PL 94-171 redistricting data by distributing correctional facilities among multiple districts (rather than concentrating them within a small number of districts), and then using the allowable population deviations to correct for the distribution of the prison population. Under this approach, the commission would use the

deviation budget to lower the apparent populations in districts where incarcerated people disproportionately come from (knowing that many of their residents were counted toward the total of the districts containing correctional facilities). And similarly, they can should use the population deviations to include a bit of extra population in the districts that contain the prisons (knowing that their population on paper over-states their actual resident count.) This alternative stop-gap solution is not as optimal as counting incarcerated people at their home addresses, but it is a valuable partial solution if collecting home address data proves impossible. Conclusion We hope that the Redistricting Commission will adopt the optimal solution discussed above – it is the best option for ensuring truly equal representation for Montanans. However, if that is not possible, we urge the Commission to distribute correctional facilities among multiple districts and use allowable population deviations to correct for the presence of prison populations. Both approaches would significantly enhance equality of representation in Montana and permit the state to join the national trend of jurisdictions choosing to end the practice of prison gerrymandering. Please do not hesitate to contact us if we can answer any questions or provide you with additional resources. We thank you for the opportunity to present this testimony. Rachel,
Generally I am not available on Mondays and Wednesdays since those are my normal court days. I will be unavailable from October 7 - 20 for in person meetings but could potentially do Zoom if needed. Other than that week I can be available most times outside of my Monday/Wednesday limitation and any holidays through the end of this year.

Hi Renee,
I've finally found where we stashed the outreach documents from 2010. I've attached them, but they're also at S:\Redistricting 2020\Documents\Past Commission Administrative Documents now for safekeeping until I forget where they are.

As you can see, they're pretty text-heavy but print nicely. Joe and I aren't great at making things pretty.

Subject: RE: Offer redistricting help in Montana

Categories: DACRequest1688, PublicInfo1688

Hey Ben,

I meant to reply to you quickly yesterday but got sidetracked by...the commission's first meeting with its new presiding officer. I'm glad I was delayed because I did get a few questions with which I know you'll be able to help.

One was on prisoner reallocation and what other states are doing, so I'll use what is on the NCSL website to provide perspective on what other states are doing.

I also received a request from the commissioners to find out what types of procedures/policies/rules other commissions adopt to guide public map submissions and public comment. Our commissioners are working to review the 2010 commission's requirements for map submissions. We're all expecting to receive many more submissions this cycle and are hoping to be prepared as possible. I know you have presented research you've done of public comment requirements and was wondering if you'd also looked at what types of guidelines states were issuing related to public map submissions.

I've cc'd a colleague here in Montana, Renee Kelley. Renee is working on a research project for her Masters' studies at the University of Montana. She's going to provide some much-needed assistance to us with the public comment and map submissions.

Thanks for the offer of help! You're our first stop with all questions redistricting.

Subject: [EXTERNAL] Offer redistricting help in Montana

Hey Rachel,

How are you? I hope all's well up there. It's finally starting to feel like spring in Colorado after a very snowy spring.

I'm writing today to let you know that NCSL is ready and able to help with Montana's redistricting process however we can. That would include testifying before the legislature, offering a training to the commissioners, doing something for staff, or anything inbetween. If there's a way Wendy and I can be of assistance, please let us know. We're here to help.

I think your timeline is later than in other states, so I understand any help we could offer may not be needed until much later. I only ask that you keep our offer in mind.

Thanks!

Rachel,

I think the agenda covers everything we talk about addressing at the next meeting. It might be more efficient taking comment after each section, but I would like to get input from the commissioners on this process issue.

I will send out an email and tell them to let you know if they have a strong preference.

Maylinn

Sent from my iPad

On May 27, 2021, at 9:33 AM, Weiss, Rachel <RWeiss@mt.gov> wrote:

Hi Maylinn,
Housekeeping question for you: Do you want a name tag and business cards specific to your presiding officer role? Laura and I remembered that we'd purchased name tags and cards at the request of the other commissioners. The name tags are grey and in the shape of the state. If you'd like, we'll get one or both ordered for you.

I've attached a draft agenda for your review. I'll need to notice the meeting tomorrow afternoon. I broke some of the topics out into different agenda items. But you could group them all together, too, similar to the last agenda. Also, I wasn't sure how you wanted to take public comment and handle the work sessions. Sometimes, presiding officers want to take public comment on different agenda topics and sometimes they like to group as many of the comment times together as they can. Also, if you'd prefer to have a work session after each agenda item, I can revise it to do that. Lots of options!

I added the 72 hour notice for written public comments to this agenda and will make sure it's in the information we notice to the public. It might be a bit short on the 72 hours, with the 1 pm start time and a 5 pm deadline, but it should give you 2.5 days to review any written comments.

Let me know if you have revisions, additions, and questions. I'll be in the office today and tomorrow.

Thanks!

Rachel

Subject: RE: missing CSV file on the mtredistricting webpage

Categories: DACRequest1688, PublicInfo1688

Hi Kelly,

I wonder if I exported the files differently. I'll check and see what I can figure out. In the meantime, the State Library maintains [current boundary files](#), including for counties and voting districts. Because they update the files periodically, the boundaries are likely to be more current than the ones included as the Census Tiger/Line shapefiles. If the counties have shifted voting precinct boundaries since the Census produced the Tiger/Line files, the State Library files would reflect that better. My understanding from the public hearings is that the Pondera split is not along precinct lines in all places, so the county will adjust those precinct lines as needed.

I hope this helps. I'll check on the shapefile to see if I can include other layers.

Sincerely,

Rachel

Hello Mr. Cherry –

Happy New Year to you. Thanks for your questions. The commission hasn't yet set a schedule for 2022. There will be a few procurement-related meetings coming up soon and likely a full commission meeting in early March. Other than a required public hearing on the full proposed state legislative redistricting plan prior to submitting the plan to the 2023 Legislature and the submission to the Legislature itself, there aren't other projected work plan milestones at this time. The commission's next meeting agenda will likely address some of those topics. As meeting dates and topics become available, we'll notify the interested persons via the email list.

I hope this information helps and that you enjoy the weekend.

Sincerely,

Rachel Weiss

Happy New Year, Rachel.

Might you have a tentative 2022 Schedule for the districting Commission? If you could send me Hearing dates, etc. I'd appreciate it.

Also if you have some projected Work Plan milestones.

Thanks in advance,

Tom c

Subject: Use redistricting listserv for RFP post?

Categories: DACRequest1688, PublicInfo1688

Hello Wendy, Christi, and Ben –

The Montana Districting/Appportionment Commission has issued an RFP to hire a consultant to help with a racial bloc voting analysis. Would you be able to send out a note to the listserv to help spread the word? If so, I've got some additional information below about the RFP. If it's not a good time or use of the listserv, that's no problem at all.

"The [Montana Districting and Apportionment Commission](#) issued an RFP seeking a contractor to complete a racial bloc voting analysis. The RFP number is LEG-RFP-2022-0019NH and is posted at bids.mt.gov. The RFP closes on February 18, 2022. Questions can be directed to Nolan Harris at Nolan.Harris@mt.gov."

Thanks in advance for any help you can provide.

Sincerely,
Rachel

Dear Ms. Ahenakew –

The next Law and Justice Interim Committee meeting is March 21-22. It will be in Helena and on Zoom. The next State Tribal Relations Committee meeting is likely to be held in March, though a date isn't yet set. If you want to receive emailed updates on either committee, please sign up online at:
<https://public.govdelivery.com/accounts/MTLSB/subscriber/new> .

While I cannot add you to the agenda, you can attend a committee meeting to give public comment during the times indicated on the agendas. If the committee would like further information, they can request that for a future meeting.

I hope this information helps.

Dear Mr. Butterfly,

When the recording for the RFP scoring meeting on Jan. 20, 2022, is available, it will be posted at the commission's [Meeting Archives page](#). The materials for the meeting are still available on the [specific meeting page online](#). The meeting recordings usually are online a few days after a meeting, so you might check back next week for the recording. I hope this information helps.

After recent conversations, let's look at rescheduling this event for our next MSAE luncheon Feb. 10 at Noon. If that works for you, we can have you Zoom in and Rachel/Joe could be there in person in Helena. We envision opening the luncheon with simple welcomes, intros from our Board Chair, Pam O'Reilly of the Montana Bankers Assn. Then, we can start on lunch. At about 12:20 or so, Pam would introduce you and have you give about a 15-minute overview, the high level of what the Commission is all about and work so far. Then maybe Rachel/Joe could talk about the work ahead with the legislative districts for another 15 minutes or so. We could leave a little time for wrap-up from you. Does this sound like a plan? Happy to chat about any details before we confirm.

And by the way, this is Kathy. My husband Webb and I were co-Executive Directors of MSAE until he started his new job this month with the Montana Dental Association. Now I'll be the Executive Director of MSAE. The e-mail is the same; my cell is 406-459-8045.

Thank you very much for getting back to me! And thank you, Rachel for following up, as well. We can do this by Zoom, altho our meetings are in person now. Another option, as Rachel had suggested was for her and/or Joe to present, as well, and then we could have you Zoom in for perspective. I do know that Rachel has Law & Justice on the 19th, so we could move it to the 26th, if that were the case. Or Joe could maybe do it on the 19th. We're flexible, obviously. Our interest is in the whole process of redistricting, from timing, to process, to public involvement, etc. For instance, I don't see any future meetings on the calendar. When will they start regarding legislative districts?

Subject: Commission presentation at MSAE mtg Nov. 18

The Montana Society of Association Executives is the “association of associations” in Montana. That includes about 50 of the top associations in the state, from the Montana Bankers Association to the Montana Trial Lawyers Association. Our membership also includes about that same number of “Hospitality” members – those who host the meetings of associations, as well as the same number of “Affiliate” members who support associations in other ways (legal, accounting, marketing, etc.)

We schedule monthly programs for our members and invite you to update our members and others at the Nov. 18 program on the Commission. This would be over the Noon hour, with your presentation about 20-30 minutes with Q&A possible afterward. We are planning this as a virtual event again, with hopes of returning to in-person meetings for our holiday event in December. Most of our members are involved in government affairs and politics and would be very interested in this topic. In fact, we recently encouraged them all to become more educated and involved in the Oct. 19 meeting.

I would be happy to provide any further information should you be available and willing to join us.

Be well,

Webb

Subject: RE: State House and Senate New District lines

Categories: DACRequest1688, PublicInfo1688

Hello Matt –

Thanks for your question. The Montana Districting and Apportionment Commission hasn't adopted state legislative lines yet. The process will continue this year and into next when the commission submits draft lines to the 2023 Legislature for review. After the Legislature has a chance to make recommendations, the commission will finalize the districts for use in the 2024 elections. During the last cycle, the state legislative lines were finalized and submitted to the Secretary of State in mid-February 2013 in case that helps plan.

I hope this information helps.

Your Comment/Input:

Suggestions for increased bipartisanship: 1. Have the seating arrangement with the Democrats and Republicans alternating seats like they did during the 1972 Montana Con-Con. This would encourage increased communication among both parties and decrease the Us vs. Them mentality. 2. Have each map created with one Republican and one Democrat working together with disagreements settled by a coin flip or the Chair making the tie-breaking vote. Have the committee people who sit next to each other create each map. This way the testimony would be less partisan and more from the standpoint of what is best for each district. Thank you

Your Comment/Input:
Partisan redistricting or 'Gerrymandering' is poison to the democratic process. If you can't win in fairly drawn districts then you shouldn't win. Districts should be drawn to be roughly equal in population and should follow clear, logical and natural boundaries.

Your work is essential to all Montanans, both Republican and Democratic and Other. Ergo, we all benefit if this commission builds on the criteria used by the previous commissions (as required in our constitution). So, we need politically neutral maps and fairness measures that can be constructed with election data. Again, please follow the intent of our constitution, work to provide fair and competitive congressional and legislative districts. YOU CAN DO IT. MONTANANS WANT YOU TO DO IT. Thank you.

Your Comment/Input:

Gerrymandering - parties and politicians picking their voters rather than the other way around - is perhaps the most despicable thing that occurs in our politics these days. Don't do it. Eliminating bias altogether isn't possible, but you can at least start by choosing not to avail yourselves of the sort of granular data that might lead you down darker avenues. Focus your efforts on drawing districts that adhere, to the extent possible, already existing city, county, and neighborhood boundaries. For the second US Congressional district, aim for maximizing compactness. These are both straightforward standards any layperson can easily understand. Do the right thing. DO NOT GERRYMANDER.

To Whom it May Concern, I strongly support the creation of fair and competitive congressional and legislative districts. I want to see it done properly, fair, and effectively. Montanans deserve it to be done the right way so we have trust in our government and our processes. Though we have a history of doing it one way, that doesn't necessarily mean it should be done that way in 2021. Times change and therefore so do the processes. Please keep it fair and competitive. Thanks,
Brett Allen Concerned Missoulian

Your Comment/Input:

I strongly support the redistricting proposals put forth by this commission. For years, Republicans, in Montana and nationwide, have been involved in gerrymandering, an attempt for them to maintain minority control of the country. This proposal will make the electoral process fairer, helping ensure that every vote counts equally. The only way to overcome the scourge of gerrymandering is for districts to be drawn by independent professionals who are not beholden to either party.

Subject: [EXTERNAL] New Congressional Districts

Troy Libby Chapter

June 30, 2021

Commissioners Marylinn Smith, Jeff Essmann, Joe Lamson, Dan Stusek, and Kendra Miller:

I am writing on behalf of the Troy Libby Chapter, John Birch Society; located in Lincoln County Montana. We are very concerned about some of the current proposals for redistricting, in that they do not follow Montana law and are a clear attempt to gerrymander the districts in our State.

Our goal is to see that our elected officials and their appointments follow the laws, rules, and procedures that they created. We were disappointed that the Montana Supreme Court did not allow for public comment on

the appointment of the commission's Presiding Officer, nevertheless, we expect that your commission will consider these two sections of the Montana Code Annotated very carefully:

5-1-115. Redistricting criteria Section 2,

(a) The districts must be as equal as practicable, meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census. The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

Although, "the ideal population" is up for interpretation, we believe that each district must closely represent 50% of Montana's population, within 1% relative deviation, and section (d) states that the districts must be compact. Therefore, with only two districts, your commission has only two options; one that bisects the state North and South or one that bisects the state West and East. To create lines across this state in any other grouping is clearly violating Montana State law.

We have researched Montana's population, as of 2021, and believe that the only fair and equitable solution is either;

1. North/South District, which utilize current county lines (please see attachment 1.) North population of 546,929 and South with a population of 538,075, the difference of 8,854 and a relative standard deviation of 0.816%.
2. West/East District, utilizing current county lines (please see attachment 2.) West population of 537,789 and the East with a population of 547,215, difference of 9,426 and a relative standard deviation of 0.869%

Finally, we look forward to seeing your commission's proposal when it is available for public comment, which follows Montana State Law and does not divide counties within Montana.

Thank you,

Mitchell Walters

Your Comment/Input:

As a PhD in political science and incoming tenure track professor (Fall 2021) in that field, I strongly urge the committee to draw two maximally competitive districts. The peer-reviewed literature in political science and adjacent fields makes abundantly clear that electoral competition breeds higher rates of civic interest and civic behavior -- including, most importantly, voting -- which is of utmost importance to the health of any representative democracy. I further urge the commission to draw these districts in such a way that maximizes the competitiveness of both because it is the right thing to do for Montana based on my understanding of our state as a 6th generation Montanan. Montana is a politically diverse and complex state, which distinguishes us from our neighboring states, and the districts should reflect that. Creating uncompetitive districts would be out of step with the true fabric of our great state and doing so ought to be avoided.

Subject: [EXTERNAL] Please Use Fair Criteria in Creating Montana's Maps and Make Montanans proud

Dear Montana Districting and Apportionment Commissioners (via email),

I am a concerned Montana voter that asks / expects this commission to ensure compliance with the Voting Rights Act as a MANDATORY criterion in establishing and considering district boundaries. I am very concerned about the rights of Native Americans to be able to elect representatives of their choice. And with a member of Matt Rosendale's staff on this committee, and given Rosendale's voting record since taking office, I am hoping this commission will serve all Montanans and not a singular political party.

I ask that the Commission NOT rank the criteria so that there is maximum flexibility to balance each districts unique needs with public input. I also expect the Commission to support a 5% deviation standard between districts as a MANDATORY condition as supported in federal law, commission should work to account for issues associated with the odd situation of the global pandemic during the 2020 census, and ensure response to unique circumstances in local communities.

Please ensure political fairness through balance of legislative power reflecting our whole diverse state and does not unduly reflect one political party. Please maintain cohesiveness of tribal nations and other communities of interest as well as political competitiveness whereby candidates must earn the votes of Montanans in their district. I expect this commission to act in the respectable manner that the original 1972 Constitutional Convention did that set the course for a proud Montana foundation protecting working class Montanans and their way of life. Thank you, do good work!!!

Sincerely,
Kristin Jacobson

Dear Committee Members, Please follow the law in MCA5-1-115. It clearly states in Section 2(a) "must be .. within a plus or minus 1% relative deviation." The details in the law are intended to decrease the ability to create relative advantage and decrease "flexibility". Please do not deviate from the tenets of the legislation so that the commission can conduct its important work without concerns of bias and impropriety. Montana will be watching. Sincerely, David Ingram, MD

Good morning,

Please ensure that Montana's new districts are not politically motivated ... they are Citizen motivated... By which I mean boundary lines are drawn by common sense and physical terrain, not political and gain. Please consider using a simple north-south boundary, perhaps along the continental divide so that representatives can easily actually represent the people of their district, without having to struggle with continental divide in winter.

Thank you for common sense.

Glenda Brown
330 Goodrich Rd.
Kalispell Montana

Your Comment/Input:

I respectfully ask the commission to focus on a fair plan that is politically neutral. Please provide for population equality and a +/- 5% deviation to allow commissioners to balance population equality with other important criteria like keeping a county intact or ensuring political fairness. Please make every district as competitive as possible, so that each party has to earn our votes in their district. This will result in a healthier democracy for our state. Thank you for considering my thoughts.

Your Comment/Input:

As you undertake the critical role of setting legislative districts for Montana I ask that you set the criteria so that the population deviation be +/- 5%, that each district be politically fair when practical, which to me means that either party could win each district, and that the other criteria used be unranked and co-equal. Good luck in your deliberations and decisions. Ted Mead

Your Comment/Input:

I think the state should be split along an East West access so both Representatives work across the state. This would give agriculture and tourism equal interest for both offices. The East West split also ensures the Representatives will spend time through all parts of the state. If the split is North South then one Representative will have a much smaller district.

Subject: [EXTERNAL] Criteria

Commissioners -

Here's some further thoughts on your efforts to establish Mapping Criteria for Legislative districts. (My sense is the Congressional part is your easier, more straightforward, task.):

Equal Populations above All-Else (10,000 for House, 21,000 for Senate districts)
Racial Fairness/tribal could be an easy Building-Block at your outset.

The requirement for compactness and contiguousness is almost another Given; with over 50 counties under 20,000 population it would have to be in the "discretionary" column.

There seem to be ample prohibitions on incumbents, party affiliations and/or partisan data. No need for more contrivances like HB 506/Election Laws; preempting the Commission's autonomy has been attempted and failed in the past. An outstanding staff, that lives and dies with Legislative relations, is another "check" on Discretion(s). Remotely compelling from NCSL might be the Continuity of Representation; sounds a lot like maintenance of Market-Share(s) for Institutional Memory? The time for any major/new Competitiveness criterion has probably

past. (Almost prohibited by Partisan “balance” or use of election results.) Equivalent to Partisan Fairness as well.

Save the Hi-Line's railroad/Amtrak communities, the State's AGriculture and Urban pockets are too widespread for ready manipulation. Simply Another "discretionary" for Commissioners to sort out in final allocations. Given the balloon-like context or dynamic, many Gains one place often come around to Losses elsewhere.

Institutional Memory resides with staff as well as one certain Commissioner. Past administrative precedents are not feelings nor hard-fasts but guideposts to be accepted or modified in 2021. **By the Ones!** With No History of *creating* contests between incumbents (or 2010 names/dates/places of Abuse) in-hand, it seems to be the natural order of mapping processes. There are also Golden Rules of cartographic styling and conventions you could harangue in to the night (2 x 4 better than 3 tall X 2 wide!*?); those who've not cited specifics from the old (2010) Minutes by now, have probably dug this nuance deeper than it need be.

With no major atrocities from 2010 (and *some* GREAT steps forward) I'd suggest strong adherence to the previous 2010 Commission's Criteria. Not too hard to see a compromise on the Standard Deviation -- at 3%. But the Legislator covering Hell Creek to Alzaeda is hanging in the balance; that kind of finalization "step" is to be expected (and it's less likely to be repeated with one of the other deviations) Hopefully you can get it as-right as the 2010 Commission; too rigid impairs your Group's ability to deliver a viable product timely.

My own opinion is that many of our communities could benefit from a Glacier/Yellowstone dichotomy for the Congressional Districts. And it can be done without advantage for either Party. No need to tie your hands too much. It's an Area Code!

Please don't let it go to some Judge in Schnectady for resolution. If nothing else, WE, in Montana, know Better than any of those. Continued Best in your endeavours.

Happy Fourth of July,
Tom Cherry

I support HB 506 (as signed into law by Gov. Gianforte) and respectfully encourage the Commission to draw boundaries so that the districts: (1) are contiguous {leave the pretzel shapes to Auntie Annes}; (2) count prisoners in the town where they reside, not where they're incarcerated; (3) equity in population, no more than a 1% population deviation {in the year 2000 < 5%; year 2010 < 3%; let's make 2021 ≤ 1%}; and (4) establish a clear, simple East-West division. Thank you, in advance, for all your hard work to ensure that the redistricting process is fair, non-partisan, and will result in an equitable representation of all Montanans.

We still live in a nation of laws, and Montana law is clear as to how reapportioning must proceed. I would urge the committee to give all Montanans fair and equal treatment in reapportioning both the national congressional and state legislative districts. Moreover, the committee's duty is to abide by the law- including MCA 5-1-115 section 2a - in proposing districts within 1% of each other in population. Thank you, Mark Smith, Lavina, MT

Dear Commissioners, As you undertake the task of redistricting in Montana this year I urge you to create fair and competitive congressional and legislative districts. Voting rights and voter districts are of great importance to all of us living in the great state of Montana. As an election judge (paid volunteer) I am a strong supporter of every voter having equal opportunities to vote in a competitive district - not districts that are purposely 'stacked' to favor a political party. Tampering with any voter's rights is about as un-American as it gets! Sincerely, Mark Payne Bozeman, MT

Dear Commissioners, I'm writing to ask the Districting and Apportionment Commission to adopt a strong political fairness standard to guide your work adopting legislative and congressional maps. Montanans vote in elections so that they can be represented fairly in Helena and Washington. If voters aren't adequately able to turn those votes into representation, it strikes at the heart of our political system. The Commission should aim to proportionally reflect the will of Montana voters in the legislature. That's just Montana common sense. Thank you all for your hard work serving our great state and for allowing the public to have input in this process. Best, Tom Arvidson

Your Comment/Input:

I appreciate that the mandatory criteria for congressional and legislative redistricting comply with the appropriate provisions of the Voting Rights Act. The following comments regard the discretionary criteria. As a voter I am following and participating in this process and have high expectations for fair and competitive districts to be developed by the commission. 1. I request that while the districts be approximately equal in size that the federally allowable deviation, plus or minus 5%, be used by the commission in maintaining population equality among the districts. Allowing the maximum deviation provides the opportunity to maintain small towns, school districts, counties, communities of interest, and areas such as tribal reservations intact. This would reduce confusion among voters in a single county or area of common interest trying to accurately ascertain their newly assigned district. The possibility of census undercounts could be better addressed if the maximum deviation were allowed. Census counting during the pandemic

was incredibly challenging and unusual in many ways which increased the risk of undercounting, especially in underserved communities. 2. Although not every district can be designed to ensure competitiveness, I request that the commission aim to develop districts that will be competitive. As a voter, I want my vote and my views to be heard and addressed by candidates. Eligible voters of all or no parties are less likely to vote when districts are viewed as being uncompetitive. I want candidates to recognize that they need to earn the votes of constituents, not to assume that they need not meet with or communicate with the electorate. 3. I request that commissioners give priority to political fairness regarding developing district maps. Neutral maps should be the goal. Political parties should not be favored or disfavored because of the maps. I support use of the political fairness criteria that has been used by redistricting commissions in the past. 4. Instead of ranking the criteria, I advocate for co-equality of criteria to enable the commission to balance special needs most effectively in each district and can fully consider input from communities. Thank you for the opportunity to participate in this process.

Subject: [EXTERNAL] Redistricting comment

Members of the Districting and Apportionment Commission,
I'd like to thank you for asking for public comment before you adopt criteria for this redistricting process. I want to submit public comment on the issue of adopting a politically neutral map that doesn't unduly favor any political party. I was encouraged to see both proposals put forward by four members of the commission with criteria aimed at preventing plans that unduly favor one party. I can't think of anything more important to the redistricting process than this basic goal of redistricting. Average Montanans don't want redistricting plans that put a finger on the scale to tip the balance in a way that skews elections. Redistricting plans should be totally neutral to both parties so the makeup of districts reflect the whole state and how that state votes in any given election. Gerrymandering is a loaded term that gets used a lot by both sides, but the one thing I think everyone can agree on is that it's bad and unfair. No one wants gerrymandering, so how do we avoid it? A while back I read an article in the Washington Post that stuck with me, and I've included the graphic from it called "Gerrymandering, explained."

It shows a group of 50 people and 3 different ways that they could be drawn into districts. It's an oversimplification of redistricting and gerrymandering, but I think it's an important way to think about how district lines can skew the outcomes

of elections in a way that doesn't reflect the will of voters. The first example is called "Perfect representation" because it reflects the will of the voters. The second is called "Compact, but unfair" because the districts look fair enough and might even look to the naked eye like a reasonable way to draw districts, but when you actually consider the effect of the lines, it's extreme gerrymandering that skews the will of those voters. The last example is called "Neither compact nor fair." This is the most obvious example of gerrymandering which, again, skews the will of the voters. What struck me from these examples, though, is that the third example is easy to pick out as gerrymandering but the second might not be. The second example, "Compact, but unfair," is actually the worst example of gerrymandering shown because it gives one party 2 more seats than the voters intended, while the third more obvious example gives one party 1 extra seat. Just because something looks reasonable on the surface, doesn't mean it's fair. I hope this Commission will remember that and choose to dig deeper than just asking if they like the looks of a map and hoping that no one notices how a map will provide undue advantage. This is an awesome responsibility and one that I expect won't always be easy, but to me, there's nothing more important to redistricting than trying to ensure basic fairness. When it comes to redistricting, people often say things like voters should choose their politicians, not the other way around. Now it comes down to you five to ensure that this is the case here in Montana. Please avoid maps that unduly favor or disfavor a political party. A map that looks fair on its face might not achieve the basic principle of fair representation. Only this Commission has the power to avoid that."

Sincerely; Kim Flohr, Billings, Mt

I strongly support the creation of fair and competitive congressional and legislative districts. I am a political independent who works tirelessly each election season for candidates of both parties in various districts based on their positions on policy critical to enhancing the welfare of all Montanans. The more fair and balanced the districts are, the better candidates we get and the better legislative outcomes we get for Montana residents.

Your Comment/Input:

To: Redistricting Committee Members Fr: Mark Good, 917 3rd Ave South, Great Falls, MT 59405 Re: Comments on redistricting I would hope that all commissioners would want the outcome of this process to be a map that that is viewed as fair to all parties and does not provide an unfair advantage to any political party. Our democracy requires that voters have confidence in the process of electing our representatives to government, and a key part of that process is creating districts that reflect the uniqueness and differences of each state as a whole. As you go about your work there are several criteria that I believe should guide your decisions: 1. Ideally every district should be competitive. Voters should get to choose their leaders and not the other way around. Every candidate should have to earn the votes of residents in their district. A competitive district creates a healthier democracy and one better representative of all the voters in the district. Better candidates tend to run for office in a district where they believe an honest discussion of

issues and hard work gives them a reasonable chance of winning. By contrast, the least competitive districts tend to elect the most extreme candidates that are unresponsive to those in the minority. It probably isn't possible to make every district competitive, but where possible, the effort should be made. A fair map should be politically neutral, one where neither side enjoys an unfair advantage. 2. Districts should be roughly equal in size, but to help make them competitive and better selective of the interests of communities, commissioners should have the flexibility to balance population with other criteria. There may be legitimate disagreement about how much deviation should be allowed, but setting the deviation standard at 5 percent (the federal allowable maximum) would better ensure that political subdivisions like counties or communities of interest are not unnecessarily divided to meet population requirements. This deviation would also allow the commission to account for census undercounts, which likely occurred because of limitations of the census count as a result of the pandemic. 3. The fairness of the map should be judged by how closely the number candidates of elected from each political party corresponds to the votes as a whole. The redistricting plan should be politically neutral. 4. The criteria used should also be unranked or co-equal so that the commission can balance the needs of each district and reflect feedback from the public. Ranking criteria will likely lead to lower ranking criteria being ignored in favor of higher ranking criteria. Communities and areas are not the same, so commissioners should have the flexibility to equally consider all criteria in their decision making. Because of our constitution, Montana has a history of creating fair and equitable districting. I very much appreciate living in a state with an independent districting commission and having the opportunity to comment on how the district boundaries will be drawn. I also appreciate your efforts in this important and often under appreciated process.

Subject: [EXTERNAL] District mapping for state and congressional districts

Dear Commissioners,

I have been a cattle rancher in Montana since 1978 and care deeply about the political life of our state. I am sorry I am unable to be present for your hearings but because I feel the decisions you are about to make and the criteria you will use in making them are so important, I am submitting the following comments.

First and foremost, political fairness is essential to a democratic process. That is why we have chosen to have an independent commission rather than letting the leaders pick their voters. I count on you to make sure that the median seats will look like and vote like the state as a whole.

I urge you also to not rely on ranked criteria which ends up giving undue weight to some criteria and little to none to others. Unranked criteria will allow you to apply your wisdom and independent judgement in the process.

Similarly using a deviation of +/- 5% rather than be handcuffed by a +/- 1% deviation will allow modest flexibility where merited.

Our state has long been a leader in fair and equitable districting. It is a point of pride for me that we are among very few (my state of origin, Michigan, being another) to have an independent districting commission. Thank you for serving on the Commission and for considering my perspective on these matters.

Subject: [EXTERNAL] Redistricting

To the Redistricting Commission:

As you begin your work to redraw Montana's legislative and congressional districts, I urge you to adopt a set of criteria that will ensure fair and competitive district maps.

Specifically, I urge you to adopt the maximum federally allowable population equality deviation to balance this criterion with other important criteria, and that your criteria be unranked and co-equal in their consideration. This will provide maximum flexibility to help make the overall mapping politically neutral, competitive and without unnatural divisions in communities and counties where possible. The goal and impact should be to ensure that voters pick their representatives, who must earn their votes, and not that representatives get to pick their voters.

The electorate has a right to fair elections, and fair and sensible redistricting is one of the foundations of this right.

It's an important task; I wish you success in your work.

Regards,

Jim Manning

Subject: [EXTERNAL] Follow the Law and The Constitution when Redistricting

7/5/2021

Districting and Apportionment Commission

Greetings,

Please follow the Law!

Recent legislature was passed, and Governor Gianforte signed into law MCA 5-1-115 which establishes the Redistricting Criteria for establishing legislative districts in Montana. It is now the Law of the State of Montana.

I fully support this bill and the enumerated criteria for state-wide redistricting. Specifically, I find Section 2(a) to be essential when it says: "*The districts must be as equal as practicable, meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census. The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.*"

Also essential are Sections (b), (c), and (d): (b) *"District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.*

(c) *The districts must be contiguous, meaning that the district must be in one piece. Areas that meet only at points of adjoining corners or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.*

(d) *The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act."*

Do the laws of Montana have any import? If so you, should follow the requirements specified in this Montana statute and in the Montana Constitution.

Your failure to do so at a minimum, would show the people of Montana that 1) you do not respect the law, 2) you consider yourselves to be above the law, 3) you put political considerations over a fair and equitable process and 4) you ignore the Montana Constitution, specifically Article V, Section 14(1) which says: "**Section 14. DISTRICTING AND APPORTIONMENT.** (1) *The state shall be divided into as many districts as there are members of the house, and each district shall elect one representative. Each senate district shall be composed of two adjoining house districts, and shall elect one senator. Each district shall consist of compact and contiguous territory. All districts shall be as nearly equal in population as is practicable.*"

If you choose to ignore the Law, at a minimum, you will show the people of Montana that you treat democracy as a sham which you choose to override, by not honoring the will of the majority people.; Or, at worst, it will lead to judicial action which may invalidate your decision and throw the whole redistricting process into chaos.

Please do your job. Follow the Constitution. Follow the Law.

Your Comment/Input:
Please make every effort to provide Montana with fair and competitive redistricting and avoid partisan gerrymandering. Due to census problems and to allow flexibility the federally allowed 5% deviation should be used. Criteria should be unranked and divisions set to allow politically neutral competitive races to the extent practical. Community and tribal boundaries should remain intact.

Your Comment/Input:
Commissioners, I am writing to remind you that the law (MCA 5-11-115) and the Constitution REQUIRE you to set district boundaries with the following criteria: • Compact & Contiguous Territory • Less than 1% difference in population I also demand that you set the congressional districts using the same criteria as for legislative districts. I am not asking for anything special. I am only asking you to follow the Constitution and the law. Sincerely, Lynn Noble Kalispell, MT

To my way of thinking, districting should represent voting citizens in a way which ensures that voters get to pick their leaders, leaders don't get to pick their voters.

Hi Rep. Skees,

I did enjoy the 4th and the time away. I hope you did the same. I finally set up the online registration form for Zoom participation in Districting Commission meetings. It's available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/remote-participation-mdac/>. You can send any written comments to districting@mt.gov or rweiss@mt.gov. The Zoom link should be sent to you by 5 pm on July 7. If not, please let me know.

Meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>.

I hope this helps, and let me know if you have any questions.

Thanks,
Rachel

Your Comment/Input:

Dear Commissioners, I appreciate your service on the Redistricting Commission and ask that you create legislative districts that provide fair representation for all Montanans and resist the temptation to lock districts for either party. I come from a large family whose roots in Montana stem from our grandparents determination to survive and flourish on their homestead. Some of us are republicans and some are democrats and we all deserve fair representation. I know the temptation is great, but so is your responsibility to give fair voice to all Montanans. Thank you.

Thank you for your time and for working through this important process. I understand that there are many criteria you are considering at the moment. When you decide on the criteria you'll choose in drawing the map, I encourage you to consider un-ranking the criteria. Because each district is unique, different criteria may need to be prioritized for different circumstances. For example, while it isn't always possible to ensure that a district is competitive, striving to create competitive districts should be a highly ranked criteria when possible. Not only do competitive districts often allow for moderate candidates to win elections, but they also ensure that politicians remain accountable to us, the voters, because their seat is not guaranteed. Thank you, again, for allowing public testimony and I look forward to continuing to participate in this process. Sincerely, Amanda Garant Bozeman, MT 59715

Your Comment/Input:

As I understand it previous districting commissions have implemented criteria which was in line with both the U.S. and Montana Constitutions as well as Section 2 of the Voting Rights Act. This adherence would seem to make sense and generate broad support by most Montanans. I sense that Montanans would benefit from more competitive districts, so voters would have a sense that their votes actually have an impact, in other words, their vote counts. Montanans generally benefit most when neither party has an overwhelming majority; legislatures in which parties have to work across the aisle, compromising when possible to craft legislation which has broader support. I remember when compromise was a good thing. I would like to see a return to those days. Legislation which benefits rural and urban as well as tribal entities. We need criteria in which folks whether they are conservative, moderate or liberal can believe that their communities and they were treated fairly in the districting process and their voices will not be muted by residing in districts, which have been structured primarily to benefit one party or the other. Hopefully, the final decision

will not be decided on a 3 to 2 vote, but a unanimous decision in which Montanans, who do not follow such matters closely can say, "well done"! Criteria to create fair districts that do not unduly favor any political part The creation of a reasonable number of legislative districts where candidates from either party can win.

Commissioners - I urge your adoption of redistricting criteria that creates fair, winnable opportunity for either Republican or Democratic Party candidates. Partisan competition is a good thing. It defines the meaning of our democracy. Contrived monopolistic political control of political districts is not. It defies the meaning of our democracy. Give us, the people, a choice every election in who might represent us in congress and our state legislature. Thank you.

Your Comment/Input:

It is critical for the commission to provide opportunities for all Montanans to be represented by assuring competitive legislative districts where no one political party has a choke hold on the Legislature or on our State's congressional offices. Voters should be able to chose competent candidates that appeal to voters through leadership not party. This can only be done by strict adherence to Section 2 of Montana's Voting Rights Act. Go beyond party and provide for fair and competitive elections in Montana.

Your Comment/Input:

The Redistricting Commission will best serve all Montanans by establishing a voting structure that complies with the Montana Constitution, the U.S. Constitution and Section 2 of the Voting Rights Act. We also need a district structure that ensures electoral competitiveness and fairness. Only through such an approach will the resulting legislature represent the diversity of Montana's communities. And only through such an approach will our legislature retain the responsiveness to adapt to America's and Montana's rapidly changing political, social and economic landscape. In contrast, any approach that seeks to lock in political power for either party would be a complete disservice to Montana. Proposals that guarantee a stagnant political system only benefit entrenched interests, and deny the benefits of representative democracy to the vast majority of Montanans. Please work to establish an open, fair and responsive voting structure for all Montanans.

Your Comment/Input:

Art I, Sec 2. US Const. says nothing about party affiliation, or communities of interest. Founding principles state we ALL are equal, so "equal in population" is ONLY about quantity not classification of persons. "Competitive Districts" designed on political party biases is classification, therefore an unequal criteria for districting. Continuity of boundaries, keeping political subdivisions as a criteria will help our Election Offices.

Your Comment/Input:

As a former member of the Montana Legislature I am quite interested in adopting districts that will comply wholeheartedly in both the legal sense and the spirit of Section 2 of the Voting Rights Act. This is a task that should be approached with the goal of creating balanced districts which allow for competitive elections between candidates and avoids gerrymandering by any party for political advantage. Anything less than the establishment of truly "fair and balanced" opportunities for candidates will result in a diminished slate of options for the people of Montana on Election Day.

Subject: [EXTERNAL] Procedure to Reallocate Prisoners for Redistricting in Montana

Dear Ms. Weiss:

Attached to this is a description of a method to reallocate prisoners to home residences for the purposes of redistricting. I have been led to believe that the Montana Districting and Apportionment Commission may be interested in such a process.

I have signed up to testify at the hearing on July 8th via ZOOM, and would appreciate it if the material attached is shared with the Commissioners before the meeting. I should make it easier for them to frame questions that they may want to ask.

I am also generally available by email or phone, if anyone wanted to discuss this with me before the hearing.

Thanks in Advance,

City and State of Residence:

Helena, MT

Your Comment/Input:

Hello Commissioners We are writing to urge you to adopt criteria for drawing up our new Congressional and legislative districts that comply with the Montana and US Constitutions and Section 2 of the Voting Rights Act. We do not support the proposed "priority ranking" proposal because we do not believe it complies with Section 2 of the Voting Rights Act. We are supportive of criteria that create fair districts that do not favor any political party and are a reflection of the diversity of views in the state. Thank you for your consideration and service to the people of Montana. Chris and Carol Hunter

Hello Ms. Zubler,

Thank you for your email. As nonpartisan staff for the Montana Legislature who are assigned to staff the Districting Commission, we do not take positions on legislation or initiatives nor do we speculate on the prospects of proposed changes to Montana statutes or the Montana Constitution. If you would like to reach out to individual commissioners to gather their views, you'll find their contact information at <https://leg.mt.gov/districting/2020-commission/>. Thank you for your email and for understanding our limited role in the redistricting process.

Sincerely,

Rachel Weiss

Subject: [EXTERNAL] The Princeton Gerrymandering Project

Dear Ms. Weiss,

My name is Cecilia Zubler. I work for Princeton University's Gerrymandering Project and Electoral Innovation Lab. We are a nonprofit, non-partisan organization directed by Professor Sam Wang. At the Project, we use law, data, and outreach to fight for fair, non-partisan redistricting in the United States.

To be specific, we do a couple of different things: provide analysis that proves gerrymandering, design tools to help gerrymandered communities, use legal analysis, write reports for commissions, and build networks of activists and organizations in all fifty states.

We'd be interested in hearing more what you think about any future prospects for redistricting reform in Montana. At your convenience, of course. If you're interested in talking with us, would sometime after July 12 work for you?

Best,

Cecilia

Categories: DACRequest1688, PublicInfo1688

Hello Senator MacDonald –

The presiding officer hasn't been limiting public comments for time yet. But it's always a possibility that she could decide to do that. The public comment will start shortly after the meeting commences at 1 pm on the 8th. There are technically 3 different sessions, one for several operational topics, one for criteria, and the general catch-all one at the end of the day. The meeting is scheduled to recess around 5 pm, though as you know, that is sometimes a moving target. Hopefully, there will be a time in that four-hour block that you could be recognized. I don't know how strict the presiding officer will be about topics, but you can always submit written comments later if there are additional items you'd like to highlight. I hope all is well and that your travels go smoothly.

Sincerely,
Rachel

Subject: [EXTERNAL] Request to present testimony July 8

Hi Rachel,

I have submitted the on-line form to present testimony on July 8. I was wondering if you can tell me what the guidelines are for length of time that statements are limited to, and also when public testimony begins and ends, etc.

It will be a bit tricky for me as I am actually in transit during part of the day from Billings to Virginia, via air. I'm hoping that my time on the ground will overlap with public testimony so I can offer my remarks via Zoom.

Thanks for your work!

We all want fairness, but that is hard to measure. Overloading a district to lean toward one political party or the other certainly would not be fair. Your decision will determine whether or not people in Montana are truly represented by their elected officials. Please do not let a few populated cities be the voice for the entire state, that is not true representation. Thank You for your service in this endeavor, Peggy Bates

Your Comment/Input:

I urge the Commission to adopt criteria that will result in fair districts, not unduly favoring any particular political party. Districts should not be intentionally drawn to result in biased districts. Everyone needs to believe they have a say in electing representation from these districts. There must be a reasonable number of legislative districts where candidates from either political party can win. If one party is favored, it discourages people from voting. Thank you for considering these comments. Most importantly, Montana needs - and deserves - strong compliance with Section 2 of the Voting Rights Act. Sincerely, Joan Miles

Your Comment/Input:

Montana gaining another seat in our national House of Representatives is an exciting moment for our state. As such, great responsibility is placed on the redistricting committee to ensure compliance with Montana and federal law, as well as to ensure an equal and just voting environment. Please remember that it is necessary to consider a 5% deviation standard between districts as a to account for oddities in the 2020 Census data to better respond to unique circumstances in local communities. Additionally, please group districts together by communities of interest, not solely for political gain. Montana is a great state, and I couldn't bear to see it Jerrymandered for one or another political party's gain. Let Montana be a leading example of democracy and fairness when it comes to electing our national representatives. Thank you.

Your Comment/Input:

I urge the Commission to keep counties intact to the full extent practicable in setting Congressional and legislative districts, even if this means allowing maximum permissible population variations. I moved back to Missoula from Austin, Texas in Travis County, which was represented by 6 different US House districts instead of the 3 its population would support because of gerrymandering run amok. The state senate situation was even worse. There should be a way to ensure ample Native-American representation in the Legislature without carving up counties. All this media talk about a need for "competitive" districts is nonsensical because issues and ideas determine competitiveness. Montana is now a Republican state as seen in the 2020 statewide election results, and our population growth resulting in a new US House seat apparently results from more Republican voters coming into the state. The last few primaries also show a lot more Republican than Democratic voters. Nothing this Commission does changes these facts, so let's keep our counties intact

to create geographically sensible districts. If and when Democrats can develop candidates issues and ideas able to attract more voters the politics will even out. FYI: I am a lifelong Democrat.

Your Comment/Input:

First, Montana's redistricting process must employ balanced requirements that do not favor one political party. Fair criteria will result in fair representation for all citizens. Second, the process must remain in strong compliance with Section 2 of the Voting Rights Act. It would be foolish and expensive to create a process that would ultimately be deemed illegal and hence nullified. We are better than that.

Your Comment/Input:

Dear commissioners: I want to thank you all for your service to Montana. During your deliberations I encourage you to maintain compliance with Section 2 of the Voting Rights Act and embrace the theme of our State and US Constitutions - protection for the rights and security of all our citizens. Those rights include full participation in our democratic process of selection of those individuals elected to govern. Diversity of our population, especially in Indian Country, deserves to be recognized in our state legislature and in your deliberations. District lines should consider the political diversity of our state, as well. I believe it is in the best interest of our economy and Montana way of life to encourage voter participation by establishing as many swing districts as possible. Political gerrymandering showing favoritism only serves to further polarize our political institutions and discourage public participation. In short, I hope that your work will establish guidelines allowing for all Montanans to fully engage in our democratic process. Thank you, Don Judge

Your Comment/Input:

Commissioners... Thank you for allowing your fellow citizens to comment on our most important redistricting plan that you are in the process of adopting. There are many Montana values that we share whether we live in the rural areas or more urban areas of our state and we expect that the Commission will continue to look to both the US Constitution and Montana's constitution to make sure all citizens can fully participate in free and fair elections as articulated in Section 2 of the Voting Rights Act. The Commission's criteria should encourage and ensure that there are more competitive legislative districts. In doing so, all Montanans will have a voice at the table in the legislature and the diversity of our communities, towns and cities will be broadly represented. I strongly recommend the Commission ensure compliance with Section 2 of the Voting Rights Act and that the criteria adopted ensure that legislative districts are drawn fairly so neither political party has an undue advantage over another. In addition, there should be a reasonable number of legislative districts where candidates have a 50-50 chance and either party can win. To gerrymander the legislative

districts so one party has a super majority not only flies in the face of fairness but does not represent the best of Montana values. Thank you for your service and for doing what is best for ALL Montana citizens...regardless of party affiliation and who call this place our home.

Your Comment/Input:

Dear Montana Redistricting Commissioners: I write today to request your adherence to principals of fairness, equity, and competitiveness as you approach your work in designing a redistricting plan for Montana. Up until this year the great majority of Americans believed that our elections were fair, equitable and free of fraud. That is not the case now. A great number of Americans have opted to believe otherwise simply because they have been told by politicians that our elections are 'rigged', been swayed by lies perpetuated on social media and convinced by biased news outlets that that is the case - despite overwhelming evidence to the contrary (see analysis performed by the non-partisan Brennan Center for Justice, New York City School of Law -

https://www.brennancenter.org/sites/default/files/analysis/Briefing_Memo_Debunking_Voter_Fraud_Myth.pdf). This erosion of voter confidence is an erosion at the very base of our democracy and our democratic institutions. And the work you are embarking on has a fundamental place and part in helping reverse this devastating trend in our country or

continuing to enable it. Gerrymandering is a contributor to voter cynicism. If a voter feels 'their vote doesn't count', they lose the motivation to participate. This Commission can, and should at the most fundamental level of its work and eventual product, insure that each and every voter in Montana feels that their vote does in fact count and that their vote can in fact make a difference. The route to this belief in each and every one of us in Montana is to create a redistricting product that emphasizes: a) competitiveness of districts, b) a just reflection of the diversity of the state and those who live in our established communities and rural geographies, and c) a voice for indigenous peoples. To that end I urge the Commission to reject the politics of partisan Gerrymandering and to forcefully be guided by principles as established in Section 2 of the Voting Rights Act. I urge the Commission to create fair districts that endeavor in the best possible way to not favor one political party over another. I urge you to put your collective shoulders to the wheel and endeavor to create as many districts as possible in which the candidate from either party can win and in which the power of ideas and voter communication take sway over political labels and simple partisan rhetoric. In the end the work you do - like similar work being done right now across every state in this nation - should not be undermined by political gamesmanship. In the end we here are all Montanans and we have a shared belief in fairness and equity. We need to do our part to re-establish the full trust of our citizenry around the fairness inherent in our election system. That job begins with the work your are doing, and I ask you to follow those values of fairness, balance, and equity as you embark on your work ahead.

Dear Commissioner Essman, First of all, thank you for your work on the Montana Redistricting Commission. Your time, effort and care into the reapportionment process for our state is truly important for all and especially appreciated by me. My name is Missey Dore, and I am a 5th grade public school teacher in Bozeman. For several years, I've organized a field trip to Helena so that students experience state government personally. Next year, I'll be excited to share how Montana gained more political representation because our population increased. Second, I know you will be under much pressure from many interested parties. As an individual citizen, my basic interest is the Commission's independence from political pressure. I am speaking of gerrymandering, of course. I urge you to draw up the new district based on where the most growth has occurred. A natural line would be a western district and an eastern district. This delineation would be a return to the previous two congressional districts, and it reflects cultural differences and political leanings of our state. It is the most fair, un-skewed and manifests Montana's historically "purple" demographic. Third,

please consider the unique needs and constitutionality--both federal and state--of how the redistricting will affect tribal nations. As an educator, I am charged with teaching Indian Education for All as outlined in our state constitution. In Bozeman School District, each grade level focuses on a few of the seven Essential Understandings. In fifth grade we examine the principle of sovereignty and citizenship. While non-native American citizens enjoy rights on the federal and state level, Native Americans claim three levels of citizenship: federal, state and tribal. It is imperative that the reapportionment process and boundary selection uphold federal law (The Voting Rights Act 1965) and allow for Indians to participate fully in the political process. Finally, please keep a 5% flexibility window as you count population and consider natural groupings like political boundaries such as counties; specific communities such as tribal nations, Hutterite colonies or ranch clusters; and geographical features such as large lakes or mountain ranges. Moreover, this 5% flexibility will allow for the uncertainty of the 2020 census due to the pandemic. I am proud that our state has earned this second congressional seat and that we continue our independent-minded approach with a non-partisan commission to draw the new districts. I also am grateful for the opportunity to weigh in on the process as an ordinary citizen. I trust you will work collaboratively with the other Commissioners to examine legal ramifications, consider myriad perspectives of the many stakeholders, weigh public input and then reason what is best on the whole for our wonderful state. With aloha, Missey Dore

Your Comment/Input:
YES! Redistricting must be done with the following criteria in mind: Strong compliance with Section 2 of the Voting Rights Act. Create fair districts that do not unduly favor any political part Creation of a reasonable number of legislative districts where candidates from either party can win. Please do the right thing!

Your Comment/Input:

Thank you for the opportunity to comment on Montana's redistricting criteria – here are my comments. For mandatory criteria, I ask that you support compliance with the Voting Rights Act, especially as it relates to Native Americans Montanans to elect representatives of their choice. Also support a 5% deviation standard between districts, to allow the commission to better ensure that communities of interest and other important criteria are considered. (Note that federal law supports this level of deviation.) For discretionary criteria, please support communities of interest (like tribal nations) being considered and kept whole when possible. And please also support political fairness as discretionary criteria – this will ensure the legislative balance of power reflects that of the state as a whole and does not unduly advantage one party over the other. In closing, I am grateful we in Montana have this independent commission – and I thank for your important work in creating fair maps for Montana voters.

Subject: [EXTERNAL] July 8 meeting, criteria for redistricting

Dear Committee Members,

As you move forward with establishing the criteria for the redistricting of our state, I urge you to follow state law (MCA 5-11-115). This means, among other things, keeping the population deviation under one percent and creating contiguous, compact districts.

I object to Members of the Commission seeking greater flexibility to make their decisions by not adhering to these provisions.

Commission members are fulfilling a role, and must not bring their own ideas or desires into this process. The law is there to guide the Commission.

If the MCA feels too restrictive to a Member of the Commission, then said member should not serve on this Committee!

Respectfully,
Carmen Cuthbertson
Kalispell

Your Comment/Input:

Commissioners: I write today to urge you to consider carefully the impact of the every ten year reapportionment process on the voters of Montana. Please do all you can to encourage voting by using a process that maintains competitiveness and avoids to the extent possible too many one-party districts. The past five districting commissions have all used criteria complying with the Montana and US Constitutions, and Section 2 of the Voting Rights Act. It is my hope you would maintain that practice and work for fairness and diversity. Attracting quality candidates results in quality office holders. A fair apportionment process is good for democracy. Thank you.

If this decision is made by a 3-2 vote, we will all know that it is a one sided political decision, that ALL Montanans were not considered, and ALL Montanans will not be represented. A consensus is needed. I hope that Ms. Smith will be able to honor her goal of not being the deciding vote. Thank You for your time.

Your Comment/Input:

Keep Montana the great Democratic state it has been without Fascism governing the voting process as you draw the Congressional voting districts for the next 10 years. While finalizing the redistricting for Montana for 2021 please comply with the Voting Rights Act. One (1) person one (1) vote all of which count to elect individuals who will represent all voters. Tribal areas should be separated and not lumped in with counties. Counties are a poor choice for voting districts. Livingston and Park County are good examples. Livingston is lumped in with Sweet Grass County and our votes do not count. Livingston should be in with Gallatin County in the western district not with Meagher or Sweet Grass County. Another example of why county lines are not appropriate. Gerrymandering county lines and moving tribal areas and voting areas to smother votes should not be the way voting districts are determined. Every person should be represented and their vote should count to elect someone who will hear their concerns about how their lives are affected by government. Dividing the state into an eastern and western district is the best way to allow all citizens to

have representation as they should have in a Democracy. Support the 5% deviation between districts for population. If more population is needed for an Eastern District, Flathead County area or portions of it minus the Indian Reservations would be a good choice to add to the Eastern District to make voting fairer. Please support competitiveness so that all voters know that their representatives will actually be there to listen to their concerns. Do NOT use county lines exclusively as the voting district lines. The commission has a very serious job which affects the lives of all Montanans and this effect on lives for the next 10 years should be the top concern in your decision making. Thank you for your work on this commission and please make the results fair to all Montanans

Your Comment/Input:

I urge careful and complete compliance with Section 2 of the Voting Rights Act. Additionally, create a reasonable number of districts without contorting boundaries to assure victories of a single party. Rather, create districts wherein quality candidates regardless of party could prevail. Voters will benefit from hearing from for all candidates seeking office rather than voting a straight party ticket because the outcome is designed to be predetermined by gerrymandering. Create fair elections through your work.

Your Comment/Input:

Should gerrymandering occur when putting together any and all redistricting maps I will make it my life's goal to make sure the ones responsible pay with their jobs. I will not stand for such behavior going on in other states with regard to redistricting. The current legislators and governor are in enough trouble for decimating our voting rights in Montana- what they have done to the poor, people of color and the indigenous population is obscene-so any attempt to create a gerrymandered map will be met with retaliation. I can canvass and man the phones with the best of them having done so my most of my life: I started when I was 11 years old. Be warned and be very, very careful. I am already speaking to people and writing on various forums just how bad the voting laws are in this state now. I am encouraging people to stay AWAY from Montana for what has already been done to our voting rights. I suggest you all do not add to the pile with this redistricting.

have representation as they should have in a Democracy. Support the 5% deviation between districts for population. If more population is needed for an Eastern District, Flathead County area or portions of it minus the Indian Reservations would be a good choice to add to the Eastern District to make voting fairer. Please support competitiveness so that all voters know that their representatives will actually be there to listen to their concerns. Do NOT use county lines exclusively as the voting district lines. The commission has a very serious job which affects the lives of all Montanans and this effect on lives for the next 10 years should be the top concern in your decision making. Thank you for your work on this commission and please make the results fair to all Montanans."

Your Comment/Input:

Thank you for your work on the Commission for Redistricting. Please consider the following as you deliberate. Please follow the Voting Rights Act since that applies in Montana to Indian Country. Also, support drawing the boundaries with political fairness so there is not an overwhelming advantage one party, considering communities of interest (like tribes and particular communities) to be sure that candidates have an even advantage so they earn the votes of Montanans in their districts. I also heard about this idea of ranking criteria, which would be unfair and short sighted, so please do NOT rank criteria. We need flexibility to balance the needs of each district and be responsive to public feedback. Ranking criteria will tie the commission's hands. Thanks again for your work and considering my opinions.

Your Comment/Input:

"Keep Montana the great Democratic state it has been without Fascism governing the voting process as you draw the Congressional voting districts for the next 10 years. While finalizing the redistricting for Montana for 2021 please comply with the Voting Rights Act. One (1) person one (1) vote all of which count to elect individuals who will represent all voters. Tribal areas should be separated and not lumped in with counties. Counties are a poor choice for voting districts. Livingston and Park County are good examples. Livingston is lumped in with Sweet Grass County and our votes do not count. Livingston should be in with Gallatin County in the western district not with Meagher or Sweet Grass County. Another example of why county lines are not appropriate. Gerrymandering county lines and moving tribal areas and voting areas to smother votes should not be the way voting districts are determined. Every person should be represented and their vote should count to elect someone who will hear their concerns about how their lives are affected by government. Dividing the state into an eastern and western district is the best way to allow all citizens to

have representation as they should have in a Democracy. Support the 5% deviation between districts for population. If more population is needed for an Eastern District, Flathead County area or portions of it minus the Indian Reservations would be a good choice to add to the Eastern District to make voting fairer. Please support competitiveness so that all voters know that their representatives will actually be there to listen to their concerns. Do NOT use county lines exclusively as the voting district lines. Your Comment/Input:

Your commission has a tough, but very important job to divide our state into new congressional and legislative seats that the public feels is fair and provides opportunity for voters to really chose between candidates of political parties. Districts that unduly favor a political party disenfranchise voters which only denigrates our democracy. Of course, there are parts of this state that are truly more Republican and Democratic districts, but there are many places that political views are quite mixed and this is where elections should be a fair contest. It is important to our democracy that there are plenty of districts where either party can win a seat. The criteria you use for redistricting should not only comply with the US and Montana Constitutions, as well as the Voting Rights Act, but go further to ensure fair and competitive elections. Strong compliance with section 2 of the Voting Rights Act is essential as it is key to assuring that all Montanans are treated equally in the voting process. We are a diverse population and our voting districts and elected officials need

to reflect that. Finally, the redistricting criteria should not skew the chances of one party to hold political control for the next ten years. I appreciate the tough job you have taken on. Thanks for considering my brief remarks.

Your Comment/Input:

The new redistricting lines should simple be Western Montana and Eastern Montana. Use the I-15 corridor to divide the two districts. This would give Western Montana the key cities of Missoula, Dillon, Hamilton, and Kalispell. Eastern Montana would counter balance with Billings, Bozeman, Miles City, and Havre. The cities of Butte, Helena and Great Falls would split both districts along the I-15 corridor. This plan ensures that the unique nature of Western and Eastern Montana's economies and lifestyles are represented by a single Congressperson. At the same time it gives a balanced fusion of the state with Helena, Great Falls and Butte representing both districts. A "donut hole" where you combine the center of the state with Missoula, Bozeman, Helena, Butte and Great Falls against Billings and the rural areas would create an instant political stigma of Republican voters verse Democrat voters. It's a little "Balkanized" by dividing strictly on political leanings. Let's divide Montana simply by East and West. That is, Cats verse Griz! Thanks for your attention.

Your Comment/Input:

Please use common sense, and divide the state East and West. If you do the DONUT HOLE you will political divide the state even more then Bullock did while he was in office. Besides if you have not realized it more conservative are moving to the state. If you do the donut hole we might never get a Democrat Governor again for a long time.

I encourage and support the Montana districting commissions to use current criteria that comply with Montana and US Constitutions, and Section 2 of the Voting Rights Act. I support a plan that builds a legislature that represents the diversity of Montana's communities. I support criteria that create fair districts that do not unduly favor any political party and create a reasonable number of legislative districts where candidates from either party can win.
