Dear Committee Members and Fellow Montanans, Thank you for your dedication to the security, laws and rules for the equal representation of our State citizens. Regarding the redistricting efforts currently underway, I offer the following for your consideration and guidance. The following standards MUST be followed: A) All Congressional Districts MUST be allocated by population as accurately as possible. Previous efforts have proven that an accuracy of 1% or less is possible. This Must be your standard throughout this process. B) Prison allocation MUST be addressed through this process. C) Congressional Districts MUST BE contiguous. D) Congressional Districts MUST BE based solely on POLITICAL SUBDIVISIONS. Any diversion from these standards will expose this Committee to be insincere in their efforts to be as fair and non-political as possible. Sincerely, Doug Bohn Victor, MT

Hello Mr. Beveridge,

You should be receiving the email link this afternoon once the remote meeting coordinator has a chance to process all the requests. The link will come from a different individual using an @mt.gov email. We haven't had too many problems with the emails going to spam filters, but you might check there tomorrow morning, too. If you don't have a link tomorrow morning, please let me know before 12 noon Mountain. After that time, please contact our IT staff at 406-444-0912.

Sincerely,

Rachel Weiss

Hi Rachel--

I also sent in a request to testify remotely, but I have yet to get info on how to do that. I realize that it is around 4 pm your time in Montana, but I want to make sure that I get the Zoom linke so I can testify.

Thanks.

Subject: [EXTERNAL] Procedure to Reallocate Prisoners for Redistricting in Montana

Dear Ms. Weiss:

Attached to this is a description of a method to reallocate prisoners to home residences for the purposes of redistricting. I have been led to believe that the Montana Districting and Apportionment Commission may be interested in such a process.

I have signed up to testify at the hearing on July 8th via ZOOM, and would appreciate it if the material attached is shared with the Commissioners before the meeting. I should make it easier for them to frame questions that they may want to ask.

I am also generally available by email or phone, if anyone wanted to discuss this with me before the hearing.

Thanks in Advance,

Sincerely,

Subject: [EXTERNAL] 2nd Congressional District

Commission,

I have considered for days what I could contribute to the re-districting effort which would tend to fairly apportion the State of Montana into two Congressional Districts. This is a hard one, but considering that the western part of the state is more prone to a progressive outlook and the eastern part of the state to a conservative outlook, I have the following suggestion:

Divide the state horizontally rather than vertically, to include roughly equal populations. The horizontal dividing line would produce two districts which would tend to represent a "cross-section" of the State. This should go a long way towards preventing Montana's representation from negating each other with diametrically opposed philosophies.

I appreciate this opportunity to comment,

Paul Pacini

Dear commissioners, As a 5th generation lifelong Montanan, I believe it is crucial to ensure fairness in the districting and apportionment process. To that end, I support: Strong compliance with Section 2 of the Voting Rights Act. Criteria to create fair districts that do not unduly favor any political party. The creation of a reasonable number of legislative districts where candidates from either party can win. I strongly urge you to support these criteria as well. Thank you for your work. Your Comment/Input:

District 1 (West) includes Counties of Flathead, Powell, Jefferson, Gallatin and all Counties west of them. District 2 (East) includes Counties of Glacier, Teton, Pondera, Lewis and Clark, Broadwater, and all Counties East of them. By adding the 2021 census data, using Montana Population of 1,085,024 people, Dist. 1 : 547,788 Dist 2 : 537236. This gives a variance of populations of 10,552. That figure is about .09 %. Less than 1 %. In the Decades to follow, variations in the populations of counties will continue, as statistics show a decline in populations on the Easterly side, and in increases in population in Counties with higher populations. In order to adjust the Districts in 2030 census, the counties of Park, Jefferson, DistMeagher, Teton, and/ or Glacier would adjust from one District to the other, in order to provide the Lowest Possible Variance in populations of each District. This method controls gerrymandering, which I personally oppose. It takes into account Geography, Traditional County Lines, Demographics. I did not used 'Red' or 'Blue' county

voting trends in my proposal. Good Luck, and compromise in order do what is Fair and Just. Read Aloud the Preamble to MT Constitution.

Your Comment/Input:

Is there anything in this entire country these days that is not subject to political partisan combat to the death? As a citizen grown sick of witnessing the hyper-partisanship of our supposedly vaunted two party system, count me as respectfully requesting that at least the Montana Districting Commission set aside partisan jockeying and make a good faith effort to create voting districts that don't show overt evidence of one party or the other putting their fingers and hands on the scale of fairness to the entire state. If ever there is a moment to expect equanimity from the Commissioners, it is now.

Your Comment/Input:

My name is Deborah Hanson and I have been a voting resident of Miles City for most of the past 50 years. Thank you for the opportunity to comment on the criteria for Congressional and Legislative Districts. The Discretionary Criteria crucial for the Commission to look at districts weighed through a handful of lenses. Following are the lenses I encourage you to strongly keep in mind. Preservation of communities of Interest: For the decades I have lived and voted in Miles City, we have largely had our own House District. This is key for our community - a mid-sized Montana town - because culturally, economically and otherwise we are distinct from our surrounding agricultural communities. We have been an eastern Montana hub. We have more in common with each other than with some of the immediate outlying areas. Miles City is not alone , e.g. Livingston and Havre should also be preserved to create a legislative district rather than chunked into pieces. Competitiveness: We all do better when our Congressperson or State Legislature compete for our votes. It requires them to be more responsive to their constituents when they have to work for it, actually talk to their local

constituents. In Miles City over the years we were considered a Legislative District that could switch from one party to the other regularly, depending upon the "person". That is very representative of the history of voting in Montana, paying attention to the candidate's policies and their efforts to actually hear from their constituents. This tradition has served us well. Native Majority Districts: The same principle applies to Montana's reservations. Wherever possible, reservation precincts should be kept together to preserve Montana's Native American-majority districts. I know you have a lot to balance in drawing districts. I encourage you to keep these criteria in mind as you proceed. Thank you for your time.

Dear Rachel:

It is 8 AM here, but I realize that it is 6 AM there. I still have not gotten a ZOOM Invite for the hearing this afternoon. I did call a number listed for issues. Which was 406-444-0912. Whoever answered the phone told me that they went out from an IT group, and she had gotten another call. She sent them an email, but I still have not received the invite. I checked my spam and nothing from mt.gov.

I will check later, probably around 9 am your time (11 my time) to see if it has arrived.

But it seems mine has not been emailed.

Thanks for all of your help.

Andy

Hello Mr. Beveridge,

You should be receiving the email link this afternoon once the remote meeting coordinator has a chance to process all the requests. The link will come from a different individual using an @mt.gov email. We haven't had too many problems with the emails going to spam filters, but you might check there tomorrow morning, too. If you don't have a

link tomorrow morning, please let me know before 12 noon Mountain. After that time, please contact our IT staff at 406-444-0912.

Hi Rachel--

I also sent in a request to testify remotely, but I have yet to get info on how to do that. I realize that it is around 4 pm your time in Montana, but I want to make sure that I get the Zoom linke so I can testify.

Thanks.

Subject: [EXTERNAL] Procedure to Reallocate Prisoners for Redistricting in Montana

Dear Ms. Weiss:

Attached to this is a description of a method to reallocate prisoners to home residences for the purposes of redistricting. I have been led to believe that the Montana Districting and Apportionment Commission may be interested in such a process.

I have signed up to testify at the hearing on July 8th via ZOOM, and would appreciate it if the material attached is shared with the Commissioners before the meeting. I should make it easier for them to frame questions that they may want to ask.

I am also generally available by email or phone, if anyone wanted to discuss this with me before the hearing.

Thanks in Advance,

Sincerely,

Your Comment/Input:

I have attempted a couple of times to obtain the login info for the criteria hearing tomorrow 7/8 but have not received it. I wanted to be sure that my comments were heard so I am submitting them in this format as well: To all the commissioners: Thank you for stepping up to serve in a thankless and relatively obscure position that nevertheless carries great weight in the crafting of public policy in Montana... and now the United States as a whole, considering the Census has awarded us a 2nd congressional district. We have seen increasingly bitter and partisan warfare dominating both our congress and our legislature. Much of this is due to the sort of candidates that are elected in the partisan primaries. We have the opportunity to lessen the effect of this bitter and destructive partisanship by drawing districts

where consensus candidates are more likely to be successful... districts where competitiveness is a criteria to be considered when drawing both our legislative and congressional boundaries. I have run for the legislature twice. Both times the end result in my race was less than 200 votes. This kind of result guarantees that candidates work hard to earn the vote of their potential constituents and get out into their communities to understand what their voters want. I urge the commission to adopt competitiveness as a discretionary criteria when formulating our districts... along with the mandatory criteria of compactness, respect for communities of interest and equivalent populations. Thank you for your consideration!

Your Comment/Input:

I signed up for commenting by computer on Tuesday evening. It said I would be contacted by 5PM yesterday as to the link and how to participate. I have not received anything. I also let several other people know that they should do the same. This does not lend itself to giving the public confidence that the public process is being followed and that all that want to participate are being heard.

Ms. Weiss,  
Please would you distribute the attached testimony to the Redistricting Commission asap. I was at the hearing on Thursday but had to leave to get back to work. Thank-you. Mary  
July 8<sup>th</sup>, 2021

Dear Madam Chair and Members of the Commission,

I'd like to start by thanking all the Commissioners for their service to our state by serving on the Districting and Apportionment Commission. It's a tough job that takes listening to lots of public input, and your dedication is appreciated. I first ran for office in 2004 in a newly constituted district, and the seat that I hold now is similar to the one that I held then.

It's a wonderful subsection of the greater Helena community, combining a part of our community that's incorporated with another section that's not incorporated. I have friends in my district that live on both sides of the city limits, and there is a strong community of interest in my district based upon many factors, including employment, income level, families and age. There's so much more for this Commission to learn about our community than the strict lines of city limits on a map that could split our community in half.

This Commission can leave itself open to learning more by making the criteria for political subdivisions discretionary in conjunction with adopting a discretionary criterion for taking into account communities of interest which can be defined by public input.

I'd also like to thank Commissioners Miller and Lamson for offering existing legislative districts as a political subdivision that should be taken into account when drawing lines. Adopting the current districts as a starting point for the new map is a terrific idea and will take into account the work that previous Commissions already performed identifying communities of interest. It will also have the added benefit of minimizing voter confusion as new lines come into effect.

Again, thank you all for your time and effort on this extremely important issue.

Sincerely,

Mary Caferro

[View as a webpage](#) / [Share \[Inks.gd\]](#)

# *Meeting Notice*

**Who: Montana Districting and Apportionment Commission**

**When: July 20, 2021**

**Where: State Capitol Room 102 and Zoom**

The Montana Districting and Apportionment Commission will meet on July 20 to continue a discussion on what criteria the commissioners will use to create and evaluate proposed maps for congressional and state legislative districts. The meeting starts at 10 a.m. in Room 102 of the Capitol in Helena and on Zoom.

An agenda and instructions on how the public can participate are available on the commission's [website \[lnks.qd\]](#).

The meeting is open to the public. The commission took public comment in person and on Zoom on the topic of redistricting criteria at a previous meeting and will not be taking additional verbal comments on that topic during this meeting. However, written comments on the topic of redistricting criteria may still be submitted. The commissioners will also take public comment on non-criteria topics.

The public may:

- attend the meeting and offer public comment on non-criteria topics in the Capitol;
- provide public comment on non-criteria topics either remotely via Zoom or in writing;

**Subject:** Written public comment information

**Categories:** DACRequest1688, PublicInfo1688

Hello Senator Tutvedt,

I've reached out to Presiding Officer Maylinn Smith about your question. In the meantime, I wanted to send the information about giving public comments in writing. The commission's procedure on submitting written testimony is here: <https://leg.mt.gov/content/Districting/2020/Public-Comment/how-to-submit-written-comments-dac-june-2021.pdf>. The webform is here: <https://leg.mt.gov/districting/2020-commission/redistricting-input/>. You can also email attachments to [districting@mt.gov](mailto:districting@mt.gov). The commissioners set a 72-hour deadline to give themselves time to read comments. That means comments provided by 5 pm on Friday, July 16 will get emailed to them after the deadline. Comments between the deadline and July 20 get printed and distributed to them at the meeting. All other comments will be sent to the commissioners prior to the August 17 meeting.

I hope this information helps. I'll be in touch when I hear more.

Sincerely,

Rachel Weiss  
Legislative Research Analyst

Subject: [EXTERNAL] New Congressional Ditsricts

Good morning. I thought I would put my two cents worth in on the issue because in 1984 I was a candidate running for the House when Montana had two seats. I was also hoping to run again but no census gave us back two seats until now.

I lost in 1984 to incumbent Pat Williams. Actually, we had a good race with five debates - but sad to say Pat won re-election.

To be quite honest, you as the redistricting committee could make it quite simple and basically make the two House seats fairly close to what we had in 1984. One House in the West and one in the East.  
Don't get too overly complicated. I lost to Williams because no other Republican even wanted to run against an incumbent. I had no primary challenge.

Just divide the state in half by population. It will be OK for both parties. Maybe, I might even run again. Wouldn't that be amazing? I could make it an interesting race, especially, if Pat Williams daughter ran on the Democrat ticket.

Thank you for all you are doing. Now get it done so we can move forward.

Gary K. Carlson  
Former political appointee in Reagan Admin.

Hi Jane,

This is Rachel Weiss. The email for the Districting Commission is [districting@mt.gov](mailto:districting@mt.gov). You can also submit comments using a webform, which is at: <https://leg.mt.gov/districting/2020-commission/redistricting-input/>. Any comments received by tomorrow (July 16) at 5 pm will be forward to the commissioners that evening. Comments received after that time but before July 20 will be distributed to the commissioners at the meeting. I've also cc'd Laura Sherley, a research assistant in our office. She's handling the public comment and can help with questions that might come up tomorrow. She can be reached at 406-444-3064.

Thanks again for your persistence.

Sincerely,

Rachel Weiss

**Subject:** Racially Polarized Voting Analysis information

**Categories:** DACRequest1688, PublicInfo1688

Hi Wendy,

It was nice to see the crew online yesterday. I was bummed to miss the SLC conference but needed those days to juggle some tasks. It sounded like Commissioner Miller found it informative and gave the commissioners an in-depth recap.

At a Tuesday meeting, our redistricting commission decided it wanted more information on racially polarized voting analysis. So I'm reaching out to see if you had already compiled some information related to that or would be able to send out a plea to other states (or parties/caucuses/commissions) for information. The questions they had are below. But I'm happy to talk with you a bit to narrow things down or adjust the wording to make things clear.

1. Could we get copies of RFIs or RFPs that other states have sent out to solicit information or bids for polarized voting analyses?
2. In other states' experiences, how much time does it take to complete this type of analysis?
3. Could other states give us a ballpark or range of about how much it cost them to complete this analysis?
4. Approximate population in the state? We'd love to get information from Western states of similar or at least somewhat comparable sizes (SD, AK, WY, WA, OR, AZ, NM, etc.)

The commission is meeting again on August 17, so that would be the ideal timeline for us to have more information. However, as I mentioned yesterday, we're getting a late start on this research and acknowledge this is definitely crunch time for redistricting. Again, I'm happy to follow up with a call at a time that works for you.

Thanks in advance for any advice or resources you have.

Sincerely,  
Rachel

**Categories:** DACRequest1688, PublicInfo1688

Hi Maylinn,

Sounds good. I think I probably was going to group the process agenda item with the commission's consideration of the public map submission process amendment. But maybe I'll break them out now into two separate items (timeline and process) so the commissioners can have discussion on them as separate items. I'll try to make it clear that the commission will be considering amendments to its operating procedures for accepting public maps.

Thanks and I'll be in touch soon with the draft agenda.

Sincerely,  
Rachel

Hello Maylinn,

I hope all is well and everyone is still weathering the heat and fires ok. I'm getting a draft agenda together for August 17. The tentative topics include:

- A discussion with experts in prisoner reallocation and also the Department of Corrections;
- An update on prisoner data, review of a draft letter to the Census Bureau and/or Congress, review of draft legislation on data collection;
- A discussion of the public hearing process and timeline for Congressional redistricting (and maybe state legislative, if they want to do that);
- An update on where we are with getting the Census data;
- An update on any information on racially polarized voting, if possible;

Were there any topics that you don't see listed there? If so, I'll get them added to the list. I hope to have a draft agenda out to you by the end of this week. We're still working on identifying speakers for the prisoner reallocation panel. With the August 16 data release, it's a bit of a tricky time for the experts. But fingers crossed it'll all work out.

Thanks in advance for any guidance you can provide.

Sincerely,

**Subject:** RE: [EXTERNAL] Re: Question for Caliper

**Categories:** DACRequest1688, PublicInfo1688

Hi Maylinn,

I'll ask Laura to check with Commissioner Smith so we can have the room all set up no matter who arrives first. The email from James Whitehorne with the Redistricting Data Office at the Census Bureau is available here: <https://leg.mt.gov/content/Districting/2020/Topics/Census/email-census-response-may-2021.pdf>. I'm not sure how much light it will shed on the 90-day question. But perhaps read in conjunction with some of the other Census materials (<https://leg.mt.gov/districting/2020-commission/meeting-information/>) that might help. I've cc'd Ginger on the email, too, so she's in the loop in case there are questions about timeline on the 10<sup>th</sup>.

I hope this Census information helps and hope you are enjoying the summer weather.

Rachel

**Subject:** [EXTERNAL] Re: Question for Caliper

I want to make sure that you didn't need any other information that Rachel and Joe could research for the commission. From what I understand based on the discussion at the last meeting, usable data should be available in August to allow the work on the congressional districts to begin. I am unsure when the official delivery date is for purposes of starting the 90 day count, but hopefully we will get a response to Rachel's email about that before the next meeting.

I also wanted to give you a heads up that I am letting each commissioner decide the seating arrangements for meetings on rotation. Commissioner Essmann did the first meeting, you can do the next meeting. Commissioner Stusek the next one and Commissioner Lamson the one after that and then we will start over.

Maylinn

On Tue, Jun 1, 2021, 7:09 AM Kendra Miller <[kendra.miller@mtleg.gov](mailto:kendra.miller@mtleg.gov)> wrote:

Chairwoman Smith and Rachel,

Hope you both had nice weather for the weekend. I wanted to make a request regarding the information surrounding the PL 94-171 data release. Rachel, I really appreciate you reaching out to James Whitehorn and compiling all of that information on our website. That's very helpful. On the question of our timeline moving forward, the heart of the question for me is when will the Commission have final PL 94-171 Census data in a useable format to begin our work drawing districts? When can redistricters start redistricting? I recognize that there is an additional legal question of when are we obligated by the Constitution to have districts adopted. I think the latter question about legal obligations is less clear, at least to me, given the duplicate release of the PL 94-171 data this year. But I do think the former question about when we will have final data to begin redistricting is clear based on what the Census Bureau, NCSL, and Caliper have previously said.

In an effort to make sure we are all working off of the same information and assumptions, I'm wondering if Rachel can reach out to our software vendor, Caliper, to ask them how long it will take them to process the legacy format of the PL 94-171 data when it is released in August. I have heard 5 business days for all 50 states, but I haven't communicated with Caliper directly on that and I think it's important to have a clear answer from them. I know in 2010 when data was received in this same format, it was a quick turnaround, but the data was also released to states in waves, so states with earlier deadlines could be prioritized. The Census Bureau will not be doing that staggered release this year, so that means data for all 50 states will be released at the same time in August. I expect that changes things for Caliper. I don't know how many states have contracted with Caliper, but since Montana has, I assume they can provide a timeline for when the data will be processed and available to the State of Montana via Maptitude.

So my question is whether Rachel can communicate with Caliper and ask them when the PL 94-171 data, which the Census Bureau has said will be released on or before August 16th, will be available to Montana in Maptitude. My hope is that Rachel could then provide that exchange to the entire Commission, as she has with her communication with the Census Bureau. If the Chair doesn't feel this is appropriate, I'm happy to contact Caliper myself to gather this information, but I recognize that it might be preferable if Rachel gathers the information and provides it to the entire Commission and public just like the other information she has gathered.

Happy to do the outreach if that's your preference, and I can provide my exchange with Caliper to the full Commission for consideration. Also happy to allow Rachel to be the conduit of information if that seems most appropriate.

Please let me know either way so I can reach out to Caliper, if need be. Thank you again for gathering all of the information into one place on our website, Rachel. That was a really quick turnaround from our meeting on Tuesday. Looking forward to discussing this and our other topics on the 10th.

**Subject:** [EXTERNAL] comments to the commission

We support a non-partisan approach to redistricting. Please seriously consider the reasons our constitution calls for an even-handed approach to this process. Both parties and all citizens will be living with these decisions for a long time. Fashionable rhetoric must give way to the long view.

We are looking for respectful dialogue and rational compromise.

Best Regards, Tor and Marianne Vigeland

**Date:** 3rd June 2021 14:11

**Your Full Name:**  
Fred Anderson

**Email Address:**  
professorchevy@hotmail.com

**Your Comment/Input:**

Dear Commission members: I am contacting you to advocate for dividing the state as it was in the years when we had two U.S. Congress seats. I believe that a North/South dividing line with 50% of the state's population on each side of the dividing line. I have seen proposals that make no logical sense and are clearly gerrymandering. Thank you for your consideration. Sincerely, Fred Anderson

## Weiss, Rachel

---

**From:** Weiss, Rachel  
**Sent:** Thursday, June 3, 2021 3:59 PM  
**To:** John Ilgenfritz  
**Subject:** RE: Public participation information for June 10 Districting Commission meeting

**Categories:** DACRequest1688, PublicInfo1688

Hello Mr. Ilgenfritz,

Thank you for the questions. The Montana Constitution does not provide a role for the Legislature or the Governor in determining the congressional district boundaries. For state legislative district boundaries, the commission must present a proposed set of districts to the Legislature during the first regular session after the Census results are available. The Legislature has 30 days to make recommendations to the commission. The commission may adjust the district lines to accommodate the recommendations, but it is not required to do so.

The Montana Constitutional provides a 90-day timeline for the commissioners to complete the congressional district after the availability of the final, official Census results. The deadline for the state legislative districts is 30 days after receiving the Legislature's recommendations for the state legislative districts. That is expected to be in early 2023.

The primary and general elections for the second congressional district will be held in 2022 on the same timeline as the elections for other federal offices. The state legislative districts will be used for elections held in 2024.

I hope this information helps. More information and links to the relevant constitutional provisions is available at: <https://leg.mt.gov/districting/>

Sincerely,

Rachel Weiss

**Subject:** [EXTERNAL] Re: Public participation information for June 10 Districting Commission meeting

Rachel,

Once a decision is made by the Districting Commission, is it final or can it be changed by the State Legislature or Governor?

In other words, how is the final say determined?

Also, is there a deadline for determining when it goes into effect and when can a second U.S. Representative election be held?

I am unsure if these questions are appropriate for the meeting mentioned below, but they are questions that many no doubt have.

Thanks for all you and other staff of these committees do as well as those who serve on the committees.

Sincerely,

john ilgenfritz

**Subject:** Public participation information for June 10 Districting Commission meeting

[View as a webpage](#) / [Share \[lnks.qd\]](#)

## Public participation information for June 10 Districting and Apportionment Commission meeting

The June 10, 2021, Districting and Apportionment Commission meeting is open to the public in the following ways:

- Members of the public may join the commission in the State Capitol meeting room.
- Members of the public who want to offer public comment remotely may join the meeting on Zoom for the public comment periods noted on the agenda.
- The meeting will be streamed live at [https://leg.mt.gov/\[lnks.qd\]](https://leg.mt.gov/[lnks.qd]) and broadcast on the Montana Public Affairs Network (MPAN) if you wish to view it only. An archived recording of the meeting will also be made immediately available on [https://leg.mt.gov/\[lnks.qd\]](https://leg.mt.gov/[lnks.qd]).

To offer public comment on Zoom, please contact Rachel Weiss at [districting@mt.gov](mailto:districting@mt.gov) by 12 p.m. (noon) on June 9th with the following information:

- your name; and
- whether you'll be providing comment by telephone or through the Zoom meeting platform via your computer. A sturdy Internet connection and a microphone are required to provide comment by Zoom.

After providing that information, you'll receive instructions by 5 p.m. on June 9th for joining and participating in the meeting.

During the public comment periods, the presiding officer will call for public comments from people attending in person and people attending on Zoom. People who have joined the meeting on Zoom must "raise their hand" to be recognized by the presiding officer or the remote meeting coordinator. The presiding officer may limit the amount of time provided for public comment.

Written public comment provided by email, online, or regular mail in advance of the meeting is accepted and encouraged. **Comments received by 5 p.m. on Monday, June 7 will be provided to commissioners in advance of the meeting.** Comments sent to the commissioners after that time or during or immediately after adjournment of the meeting will be provided to the commissioners prior to their next meeting. Written comments may be emailed to [districting@mt.gov](mailto:districting@mt.gov), submitted at <https://leg.mt.gov/districting/2020-commission/redistricting-input/> [\[lnks.gd\]](#), or mailed to Districting and Apportionment Commission, PO Box 201706, Helena, MT, 59620.

Any oral or written public comment provided to the committee is a public record that is recorded, archived, and available on the web.

The Montana Legislative Services Division will make reasonable accommodations for persons with disabilities who wish to participate in this public meeting. For questions about accessibility or to request accommodations, please contact Lenore Adams at 406-444-4456 or [leadams@mt.gov](mailto:leadams@mt.gov) as soon as possible before the meeting date.

**Your Comment/Input:**

I support the same districts we had when we had 2 Congressmen. Split the state down the middle; Billings would be East and Missoula would be West which would give each district large populations. Anything else would be confusing and as far as I'm concerned decided from a political standpoint WHICH IS WRONG.

**To:** Weiss, Rachel <RWeiss@mt.gov>  
**Subject:** [EXTERNAL] Congressional Redistricting in Montana

I am expressing my opposition to including Lincoln County with Missoula, the highline and Billings in an obvious attempt to disenfranchise voters from expressing their rights to vote for the candidate of their choice. I prefer the original division that we had when Montana previously had two Representatives to Congress.

Philip Emery

## Submit Your Input Regarding Redistricting in Montana

**Date:** 7th June 2021 08:04

**Your Full Name:**  
Leighton A Dresch

**Email Address:**  
[leightoninmt@gtfalls.com](mailto:leightoninmt@gtfalls.com)

**Your Comment/Input:**

Redistricting for the new Montana House seat must be done just as it was when we previously had two congressional seats. That would be based on an east/west divide. The economy, culture and demographics from east to west are obvious and anything else would deny realistic representation for a significant segment of Montanans. There must also be 0% margin variation allowed during the redistricting process Respectfully Leighton Dresch 35 Marmot Lane Great Falls, MT 59404 HP 406-761-0331

I would ask you to consider fair and bipartisan districts in Montana.

I ask that you remove the % of variance of population in each district.

I believe that eastern Montana has a different economy than western Montana. Their separate voices need to be heard in Washington DC. This is crucial to our state's economy.

Thank you for your consideration

**Subject:** RE: [EXTERNAL] Fwd: Reassignment to Last known address

**Categories:** DACRequest1688, PublicInfo1688

Good morning, Maylinn –

I'll have an update on the commissioners' inquiry to the Department of Corrections about what data on prisoners' last known addresses can be provided. The best information on what other states reallocate prisoners (and which types of prisoners) is available from the NCSL at: <https://www.ncsl.org/research/redistricting/reallocating-incarcerated-persons-for-redistricting.aspx>. I've linked to this on the commission's meeting materials page.

Is there a timeline for the legal challenges research? Is that something you wanted to review in August perhaps, after the criteria meetings in July?

Thanks and feel free to call at any point with questions.  
Sincerely,

Rachel Weiss

**Subject:** [EXTERNAL] Fwd: Reassignment to Last known address

I meant to send this last week, but those short weeks seem to get crazy and I was not in internet service range until late Friday. Can we see about getting someone to research prisoner reassignment issues for purposes of counting them where they come from. It would good to know options for representation if there are challenges to commissioner work, so update research on that topic would helpful.

Let me know what you need from me on both topics.

See you on Thursday.

Maylinn

Subject: Reassignment to Last known address

Madame Chair,

It feels good to be back at work again and having a path charted forward. Thanks for a good meeting. I saw old friends in Helena last night and am driving home today.

I wanted to offer one suggestion and a reminder on an earlier request.

I did stop up to the second floor and advise them that a request would be coming to DOC for information on the last known address of everyone residing in their group quarters on April 1, 2020 and that they should get going.

Even if we don't have all that ready by our June 10 meeting, I wanted to suggest that you have staff start looking for potential contractors to do the reassignment analysis. It would be best to get that contract executed before June 30 so the expiring appropriation is used wisely instead of reverting to the General Fund. I am sorry I didn't think to suggest this during the meeting.

I also wanted to repeat my request for a quick brief by Ginger Aldrich on who has defended the work of the Commission and made decisions on litigation strategy on past redistricting challenges in case they come. I hope we can avoid all that with clear objective rules and a transparent process, but we need to be mindful.

See you June 10.

Commissioner Jeff Essmann

**To:** Tracy Horgan  
**Cc:** Kolman, Joe  
**Subject:** Another Census data question for Tracy Horgan

**Categories:** DACRequest1688, PublicInfo1688

Hello Tracy,

I had another question related to the Census data and Caliper's handling of it. If the Census hadn't decided to release the 2020 PL data in two releases, would Caliper have processed for its users the PL data using the legacy format summary files that Caliper would process or would it have relied on the more polished set of data released by the Census? Or maybe put this way: did the Census decision to release the data in two formats change the technical aspects of how Caliper was processing the data for use in Maptitude? I'm happy to hop on the phone, too, if that wasn't very clear. I can walk you through the background of the question, if that would be helpful.

Thanks in advance for any help you can provide.

Sincerely,  
Rachel

Commissioners,

I am writing to remind you that the law (MCA 5-11-115) and the Montana Constitution and the recently passed and signed HB 506 REQUIRE you to set district boundaries with the following criteria:

- 1) The districts must be Compact & Contiguous Territory
- 2) The population of the districts must be "as equal as possible" That is there should be less than 1% difference in population from district to district.

I also demand that you set the congressional districts using the same criteria as for legislative districts.

It is your obligation and charge to follow the Montana Constitution and State law.

Please do not neglect your duty or engage in political schemes and gamesmanship.

Sincerely,

Joseph O'Rourke

**Your Full Name:**  
lee dresch

**Email Address:**  
[lad\\_4\\_ever73@yahoo.com](mailto:lad_4_ever73@yahoo.com)

**Your Comment/Input:**

i advise the new house seat be based on an east west divide. I also recommend 0% variation. Redistricting for the new Montana House seat must be done just as it was when we previously had two congressional seats. That would be based on an east/west divide. The economy, culture and demographics from east to west are obvious and anything else would deny realistic representation for the majority of Montanans. There must also be 0% margin variation allowed during the redistricting process. thank you. .

Commissioners,

I am writing to remind you that the law (MCA 5-11-115) and the Montana Constitution **REQUIRE** you to set district boundaries with the following criteria:

- Compact & Contiguous Territory
- Less than 1% difference in population

I also demand that you set the congressional districts using the same criteria as for legislative districts.

I am not asking for anything special. I am only asking you to follow the Montana Constitution and the law.

Sincerely,

Niki Sardot  
Missoula County Resident

I believe we should redistrict very close to the old boundaries when we had two US districts previously (around 1984?) in our state and that the voter preference differences in each district should be around 1 to 2 % between both sides, Republican and Democrat

**Subject:** [EXTERNAL] feedback on redistricting

To Whom It May Concern,

We are writing to express our thoughts on drawing the districting lines for the 2 House of Representative seats for Washington, D.C.. We're submitting these comments to be presented to the commission in advance of the meeting.

The best map/way to split would be using a method similar to how it was done last time Montana had 2 seats—with the line from North to South looking somewhat similar to the Continental Divide.

Use the basic guideline of population--start from the western edge of the state and move east until the line exists where the 2 parts of the state (w/a line north to south) have equal population. This seems the most unbiased way to draw the lines for the 2 districts.

We urge you not to use multiple other methods that skew the map and make this become a biased decision.

Keep it simple and honest.

Thank you,

I am writing as a concerned citizen, I was able to see a potential proposed Map of the new districting? I would like to think it was a joke, however we are in a season of a lot of one sided biases. To do a large C that includes all the reservations and Democratic cities is beyond wow! East West or North South cut seems to me to make the most sense. We will be watching to see what basis are played out.

Sincerely,

*Kathy Workman*

I Shelley Lustman residing at 1492 lower valley rd Kalispell Mt 59901 , strongly recommend that you follow our constitutional laws ! Recent legislation have made this requirement, contiguous and with less than a 1 percent variable ( which is easy to do with technology) no more breaking up communities! We had straight line districts 10 years ago and it worked fine! We the people are watching very closely as we are not going to stand for not having election integrity, thanking you in advance for your anticipated cooperation

[Kickingasparagus@gmail.com](mailto:Kickingasparagus@gmail.com)

**Your Comment/Input:**

Please return our MT Congressional Districts to the original district boundaries, that were in place, pre-2000 Census. If that is truly unworkable, please establish clear East and West districts, to ensure fair representation of citizens and their interests. From recent maps of populations, the East/West solution seems the most fair representation for Montana. Montanans are counting on you to ensure this process is transparent and reasonable. Please do not let us down. Thank you! Sally Tucker

**Subject:** [EXTERNAL] Criteria for the Districts

Dear members of the Districting and Apportionment Commission,

Thank you for your hard work to date on this critical role you Constitutionally hold. I am writing to ask that you adhere to the guidelines we set for you in HB 506 during the 67<sup>th</sup> Legislature. There has been grumblings that the bill was unconstitutional, but it is clear our Constitution does not spell out the districting for Congressional seats, except Article V, Sec 14 (1) "All districts shall be as nearly equal in population as is practicable."

The obvious conclusion, as elsewhere in the same Constitution, we see the Legislature has the authority to clarify in law the implementation, where it is not specifically defined. Therefore, please adhere to the clearly spelled out rules now found under MCA 5-1-115, new section 4 (HB 506) in your adoption of Mandatory Criteria.

I also ask that you further reduce the maximum population deviation to 1%, with today's modern census capabilities, the old school process allowing for wide discrepancies no longer exists. We can get to a much more exact number of folks per precinct. Anything else is just gaming totals to get desired outcomes based on political considerations.

Lastly, I ask that you keep all the criteria in the mandatory section, by including following the lines of political boundaries, following geographic boundaries, and keeping communities of interest intact. Allowing these critical elements to be discretionary (as the last commission did), results in poorly drawn amoeba districts. Which are only a desire for a political outcome, and not one of true commitment to these principles.

Thank you again for your hard work, and I look forward to a set of districts that Montanans can be proud of, districts that adhere to the beliefs we all can agree upon. Allowing for fair elections, bereft of political gamesmanship.

--

Please ensure that your redistricting plan includes no more than a 1% deviation in population from that recommended in HB 506. We don't need a divisive, partisan redistricting of this state. We need a redistricting plan that benefits all citizens of Montana, as ensured by HB 506.

Commissioners,

I am writing to remind you that the law (MCA 5-11-115) and the Montana Constitution **REQUIRE** you to set district boundaries with the following criteria:

- Compact & Contiguous Territory
- Less than 1% difference in population

I also demand that you set the congressional districts using the same criteria as for legislative districts.

I am not asking for anything special. I am only asking you to follow the Montana Constitution and the law.

Sincerely,

Pamela Riley  
Kalispell Montana

Hi, Rachel,

Thank you for your message. Normally the Census Bureau releases the PL 94-171 data one time only. Even if there were adjustments made through the Count Question Resolution program (CQR), Census never re-published, they simply published an errata. As a side note, in previous decades we did reprocess the data to reflect the errata as a benefit to our users. We will do the same this cycle.

So there are two parts to the change this decade:

1. The updated format (the more user-friendly format for those who use data directly from the Census download mechanisms) was requested by *data* users after the 2010 cycle. They commented that the format of the data for 2000 and 2010 was very difficult for lay persons to use.
2. Census never intended to have two releases of the PL data (legacy vs. official). However, the delays caused by COVID and the demonstrated need by the states to receive the data as early as possible, prompted Census to look at all ways that data might be delivered even a few weeks earlier. Enter the release in "legacy" format.

For these reasons, the question you pose may be a result of the confusion surrounding this entire census. If this were a "normal" census, there would not be two releases of PL data.

To your question about how we process the data, yes, we have modified our processing scripts. We will use a modified [to include new fields in the 2020 census] version of our data processing script which reads data in fixed-width and comma-delimited (the legacy) format. We have also modified that script to read data in pipe-delimited (the official) format.

The format of census data (fixed-width and comma-delimited vs. pipe-delimited) has no bearing on the way users access the data within Maptitude for Redistricting or the way it is used in the software. The user experience for drawing districts remains consistent.

Please let us know if we can be of further assistance.

Subject: Another Census data question for Tracy Horgan

>Hello Tracy,

>

>I had another question related to the Census data and Caliper's handling of it. If the Census hadn't decided to release the 2020 PL data in two releases, would Caliper have processed for its users the PL data using the legacy format summary files that Caliper would process or would it have relied on the more polished set of data released by the Census? Or maybe put this way: did the Census decision to release the data in two formats change the technical aspects of how Caliper was processing the data for use in Maptitude? I'm happy to hop on the phone, too, if that wasn't very clear. I can walk you through the background of the question, if that would be helpful.

Hello Ms. Dale,

Would you like me to provide your email to the commissioners as public comment for their June 10 meeting in addition to the ones you provided using the comment form? If so, I'd add your email to the packet of comments they'll receive at or just before the June 10 meeting.

Thanks and let me know if you have any questions.

Sincerely,

Rachel

**Subject:** [EXTERNAL] Ms. Weiss re: Redistricting

Dear Ms. Weiss,

Thank you for the information and update you gave me yesterday re: redistricting.

Montana voters are watching what is going on and looking for a fair, honest outcome so we can restore election integrity to our elections. In doing the research for the commission, I hope you and the commission will take into account House Bill 506. This Bill was supported, this past legislative session, by most all Helena Democrats and Republicans, then signed into Montana Law on 5/14/21 by Governor Gianforte. I attached HB 506 below for your reference. **HB 506 would require districts to be compact, contiguous, keeping rural with rural, urban with urban and less than 1% deviation in population.**

It would be nice to see a clean, simple, straight line running North and South down the Continental Divide. That would basically divide the State East side and West side. I know you do the research and the commission will make the rules, I hope everyone will take into serious consideration HB506 along with the other criteria.

<https://leg.mt.gov/bills/2021/billpdf/HB0506.pdf>

[LAWS Detailed Bill Information Page](#)

**LAWS Detailed Bill Information Page**

Thank you in advance for "ALL" the research you are doing to make this a fair process.

Sincerely,  
Connie Dale

**Your Comment/Input:**

As a registered voter in the county of Flathead, and seeing such a great increase in our population from large urban areas, we want the drawing of boundaries to coincide with HB506 and ensure the districts are re-drawn in a way that is NOT influenced by political affiliation or in any way that skews the general population's voting rights.

Follow the Law and Constitution When Redistricting

Commissioners,

I am writing to remind you that the law (MCA 5-11-115) and the Montana Constitution **REQUIRE** you to set district boundaries with the following criteria:

- Compact & Contiguous Territory
- Less than 1% difference in population

I also demand that you set the congressional districts using the same criteria as for legislative districts.

I am not asking for anything special. I am only asking you to follow the Montana Constitution and the law.

Sincerely,

Scotia Brosnan  
Flathead County Montana

**Your Comment/Input:**

We attended the Republican Dinner in Eureka a few days ago and learned about the redistricting plan coming up. The idea of a C shaped district that would connect our area with Eastern Montana and is over 60% Democrat is not acceptable to us. We want to keep rural with rural, and urban with urban. Thank you for considering our opinions, me and my husband. Dianne and David B. Hansen in Fortine, MT Registered Republicans 406 882-4050

**Your Comment/Input:**

I encourage the commission to support a plan that would include no more than a 1% population deviation as presented in HB 506. The ideal plan would keep districts compact, contiguous, and very importantly keep rural communities with rural and urban with urban communities. The needs of a rural community are far different than what individuals might want and need in a more developed / urban area. Please keep this in mind and ensure that residents of MT are kept in mind and this does not turn political. Our ranchers and farmers are the backbone of this state and it is imperative they continue to have a voice. Places like Bozeman should not dictate for the rest of Montana. Districts have been distorted and gerrymandered in many states and this cannot and should not happen in Montana! Thank you.

**City and State of Residence:**  
Kalispell, Montana

**Your Comment/Input:**  
Montana now qualifies for two Congressional Representatives. The planned redistricting effort must ensure the resulting district boundaries reflect parity between urban and rural voters. The new district boundaries must not result in political dominance by the democrat party.

**Your Comment/Input:**  
Please reestablish the districts as they were prior to the 2000 census. If there is a compelling reason why that is not possible then the most fair distribution would be an east west district split. The voters are entitled to a fair and transparent process. Thank you for making that occur.

## Submit Your Input Regarding Redistricting in Montana

**Date:** 9th June 2021 09:10

**Your Full Name:**

Nancy Leifer

**Email Address:**

[nancleifer@gmail.com](mailto:nancleifer@gmail.com)

**City and State of Residence:**

Missoula, Montana

**Your Comment/Input:**

Public Comment for June 10th Districting and Apportionment Commission Submitted by Nancy Leifer on behalf of the League of Women Voters of Montana Item 3:c Criteria for Congressional and Legislative Districts The League of Women Voters supports partisan-neutral redistricting criteria that reflect the diversity of the state (including racial and ethnic diversity and communities of interest), provide for overall competitiveness, and recognize political subdivisions. The League supports drawing of districts that allow for election of Native Americans to the legislature in proportion to their percentage of the state population, thereby ensuring an equal opportunity to participate in the political process. The League of Women Voters Montana urges this Commission to create, where possible, districts that are competitive for the candidates running for office. Competitive districts have been found to encourage more voter participation in elections and encourage elected representatives to pay closer attention to the concerns of their constituents than do

representatives in “safe” districts. Item 4:c Operating Procedures The League of Women Voters requests that the Commission clarify the application of the proposed language for the deadline for public comment to be included in the pre-meeting materials for Commission members. If the policy were in effect for today’s meeting, for example, what would be the effective deadline for submission to include a minimum of 72 hours and how would a weekend affect the deadline? 5:00 pm Monday June 7; Sunday, June 6 at 5:00 pm; or 5:00 pm Friday, June 4? The League of Women Voters also requests that the Commission include in its map submission criteria examples of user-friendly mapping software widely available now that would be compatible with the Maptitude software used by the Commission and meet submission criteria. Members of the public may not be aware of what software programs deliver data that have “equivalency files giving the census block to district assignments” or whether the files are in .dat, .dbf., or .txt format, or Esri Shapefiles (.shp) or Caliper data files (.cdf or .dbd). They may not know whether their maps are based on official Census geography (TIGER line) and P.L. 94-171 data. Listing examples of commonly accessible, free software (e.g., Representable, Dave’s Redistricting) that meet the criteria would assist the public in making sure the maps they draw fit the criteria needed for submission. Item 5:c Process, Data and Timeline The League of Women Voters urges the Commission to implement prison population reallocation to prisoner’s last known home address for in-state prisoners. Item 6: Any Other Concerns not on the Agenda The League of Women Voters commends and supports efforts by the Commission to encourage public participation in the redistricting process. The League will be offering informational programs to the public about Montana’s redistricting process and how to be involved. Our goal is to encourage Montanans to speak up by submitting comments and maps so that the Commission has the local community-level information needed to draw maps that fairly reflect the population of Montana.

Robert Larsson

**Email Address:**  
[andy@skinnersights.com](mailto:andy@skinnersights.com)

**City and State of Residence:**  
St. Ignatius, Montana

**Your Comment/Input:**

While considering redistricting in Montana, please apply some common sense and restrict the gerrymandering as we have seen in the past. One only needs to consider Senate Districts 8 and 16 to see obvious and intentional partisan gerrymandering at work in Montana. Please consider HB506 and help us restore integrity to the Montana voting process. Thank you all for the hard work. We appreciate the dedication and commitment it takes to serve our state in this way.

Hello Representative Stewart Peregoy,

The agenda is available at: <https://leg.mt.gov/content/Districting/2020/Meetings/June-10-2021/agenda-dac-june-2021.pdf> It doesn't list specific times for the comments, but there are 4 separate opportunities for comment on 4 different topic areas. So you'll need to raise your hand to be recognized when the presiding officer calls for comment on the specific agenda issue.

I hope this information helps. I'll get that Zoom link out to everyone later today.

Thanks!

Rachel

Hello,

The Zoom link for the Montana Districting and Apportionment Commission's June 10 meeting is below. A current meeting agenda and materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>

When the presiding officer calls for public comment on the agenda item on which you wish to speak, please click the "raise your hand" button (or dial \*9) to indicate you would like to provide comment. Please wait with your hand raised until the presiding officer calls your name to speak. At that point, you will be allowed to unmute yourself and begin speaking. If you do not raise your hand, the presiding officer might not recognize you to provide comment on that agenda topic.

Please help us maintain the security of the meeting: do not forward this link to others. The presiding officer may choose not to recognize individuals who didn't sign up to provide online testimony.

If you experience issues joining the meeting, please call the Office of Legislative Information Services Service Desk at 406-444-0912.

Sincerely,

Rachel Weiss  
Legislative Research Analyst  
406-444-5367

### To provide public comment for this meeting via phone or computer:

**To join Via Computer** (a sturdy internet connection and a microphone are required to provide verbal testimony):

**Click the Zoom meeting link:** <https://mt-gov.zoom.us/j/98209063403?pwd=MzRtZXFERlFJSW9zNFpWUUFF2dzhjQT09>

**Click:** 'Join from browser' or 'download the desktop application'.

Wait to be admitted into the meeting. To inform the committee that you would like to speak press 'raise hand' on the lower control bar.

### For Attendees Via phone

**Dial:** 1 646 558 8656

**Meeting number:** 982-0906-3403

**Press: #**

**Enter Password:** 406

**Press: #**

Once Admitted

**Dial:** \*9 to raise hand when you would like to provide public comment.

Good morning, Rep. Skees –

The Democrat proposal is here: <https://leg.mt.gov/content/Districting/2020/Topics/Criteria/miller-lamson-proposal-criteria-legislative-and-congressional-june-2021.pdf>. I'll be revising the website soon to prepare for the next meeting, but I don't think that link will change. If it does, the proposals will be posted at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>.

Thanks for letting me know.

Rachel

Good morning Ms. Weiss,

Could you please send me a link of the Democrat planned criteria they introduced yesterday, as I can't find it on the website. Thanks.

On Tue, Jun 8, 2021 at 3:19 PM Weiss, Rachel <[RWeiss@mt.gov](mailto:RWeiss@mt.gov)> wrote:

Hi Rep. Skees,

Thanks for the call. I have you on the list of folks to whom I'll email out the Zoom link tomorrow afternoon. If you don't see something from me by 4, feel free to call. Also, the deadline to sign up for Zoom is 12 noon tomorrow, if you hear of others who would prefer to provide comments on Zoom.

Also, the criteria proposals from Commissioners Stusek and Essmann are now available online at:

Congressional: <https://leg.mt.gov/content/Districting/2020/Topics/Criteria/stusek-essmann-proposal-criteria-congressional-june-2021.pdf>

State Legislative: <https://leg.mt.gov/content/Districting/2020/Topics/Criteria/stusek-essmann-proposal-criteria-legislative-districts-june-2021.pdf>

Other meeting materials are available at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>

I hope this helps. Feel free to give me a call with any questions.

Sincerely,

Rachel Weiss

Dear Sirs/Madam's: Please be advised that we live in a great state which you all know, but we also live here because of our family's love of outdoors and friends. We don't want anything to change that. Please keep the 1% of the urban and farms separate. I will just make things harder if you do not. If you change the power company, then we will start being more of a California state and not MT. They are turning their state into a complete mess and I would like to see our state and government to be for MT. Thank you.

**Your Comment/Input:**

Madam Chair, Commissioners, and Commission staff: In listening to the meeting today and the discussion of public submission of proposed maps, what I heard you all asking for was a "rationale" to accompany the map. Why this map? What are the key characteristics used in constructing the map? How does it address the criteria the commission has identify? And so on. Without an accompanying rationale, a map's utility is lessened and it is open to conjecture. With a rationale, the pros and cons can be analyzed more efficiently and more easily compared with other submissions. So I think what you are looking for is a rationale to accompany a map submission. And the commission can specify what that rationale should address and provide a meaningful format/frame for potential submitters. Thank you for the work you all are doing and for the orderly and collegial manner in which you are doing it. There is tremendous opportunity for

litigation in this process and its outcome. Do not let that frighten you or deter you. "In good faith" will get us all through this process. Hal Schmid Arlee, MT

**Your Comment/Input:**

Greetings, I have not been able to watch or closely follow your meetings, but I want to encourage the committee to use the most flexible and adjustable process possible for drawing legislative and congressional boundaries. Montana has a pretty distinct rural/urban divide which would tempt some to gerrymander the minority voters into districts dominated by majority voters. I would like to see the commission get creative to allow fair and equitable representation of generally progressive urban voters and generally conservative rural voters. I suspect it is not legal to do so, but one creative approach to establishing the two congressional districts would be to "bunch" approximately half of the state's population in the more urban areas together - for instance, those towns & cities that contain approximately half the state's population as one district with discontinuous borders, the other approximately half of the state's population in the more rural district that essentially surrounds the urban district. Regarding state legislative boundaries, again I

support a very flexible approach that would allow a similar representation of rural-urban voters. Thank you for your work on this important issue.

Thanks, Ms. Nolan, for your thoughtful message about issues for the 2023 legislative session. As I am a "termed out" senator, I will not be serving in 2023.

Good job in getting those important issues out now. I suggest you work with a legislator who serves on the health and human services committee about the potential for legislation, probably someone in the House.

All the best,

Senator Diane Sands

Senate Minority Whip

Missoula, MT 59803

On Sat, Jun 5, 2021 at 4:56 PM Cathy Nolan <[canolan4@outlook.com](mailto:canolan4@outlook.com)> wrote:

Dear Senator Ellie Hill Smith, Senator Diane Sands, and Representative Marilyn Marler,

I am writing you in the hopes that one or more of the issues I am concerned about can be studied for possible action in the 2023 legislative sessions.

These issues are:

- An Effective Breast Density Inform Law
- Increased penalties, safety campaign and enforcement for Unsecured Loads
- Sky Lantern Ban
- Develop a statewide recycling program designed by paint manufacturers, with oversight by Department of Environmental Quality to make it easier for residents and some businesses to recycle their unused and unwanted paint. This program is already in place in Washington and Oregon and is called PaintCare.
- Reversal of Montana's Pesticide Preemption

Below is more information on each of these issues.

### An Effective Breast Density Inform Law

As a woman who has dense breast and a personal history of breast cancer I would like to encourage you to draft and pass a law to require that all women who have mammograms are informed about their breast density category.

The imaging center that I see in Missoula, Advanced Imaging, provides notification to women about dense breasts however they are not required to by the state of Montana. Montana is one of the few states which does not have a density “inform” law.

Please consider these facts from DenseBreast-info.org’s website:

1. Breast density is determined through a woman’s mammogram and described as one of four categories: (A) Fatty; (B) Scattered fibroglandular density; (C) Heterogeneously dense; or (D) Extremely dense Breasts which are (C) Heterogeneously dense; or (D) Extremely dense are considered “dense breasts.”
2. Dense breasts are normal. 40% of women age 40 and over have dense breasts.
3. Although normal, dense breast tissue is a risk factor for developing breast cancer and the denser the breast, the greater the risk.
4. Mammography remains the standard screening test for breast cancer and is proven to reduce deaths due to breast cancer. However, in dense breasts, cancers can be hidden on mammography and may go undetected until they are larger and more likely to have spread.
5. Other screening tests, such as ultrasound or MRI, when added to mammography, substantially increase the detection of early stage breast cancer in women with dense breasts.

To get a sense of other state's legislation about additional imaging and notification, please refer to this table from [DenseBreast-info.org \[densebreast-info.org\]](https://densebreast-info.org): <https://densebreast-info.org/img/comparative-analysis-state-density-inform-efforts-insurance-coverage.pdf> [na01.safelinks.protection.outlook.com]

Please draft and pass a law requiring Density notification to both patients and their health care provider.

Should you have additional questions, I encourage you to reach out to JoAnn Pushkin, Executive Director of DenseBreast-info.

JoAnn Pushkin

375 Carll's Path, #997

### Unsecured Loads – increased penalties, safety campaign and enforcement

Since moving to Missoula in 2017 from Seattle, Washington, at least twice I have had to swerve to avoid hitting items on the roadway left by drivers driving with unsecured loads in their trailer or their pickup truckbed. I was surprised by this because in Washington state drivers could be fined and could serve prison time for unsecured loads.

Today, all 50 states have laws that make unsecured loads illegal with fines that range from \$10 to \$5,000. But only 16 states list jail time as a possible punishment for offenders, and only 11 states impose fines above \$500. (Source: [https://www.secureyourload.com/\[na01.safelinks.protection.outlook.com\]](https://www.secureyourload.com/[na01.safelinks.protection.outlook.com]))

Nearly 37 percent of all deaths in road debris crashes resulted from the driver swerving to avoid hitting an object. Overcorrecting at the last minute to avoid debris can increase a driver's risk of losing control of their vehicle and make a bad situation worse. (Source: [https://newsroom.aaa.com/2016/08/american-drivers-arent-securing-loads-road/\[na01.safelinks.protection.outlook.com\]](https://newsroom.aaa.com/2016/08/american-drivers-arent-securing-loads-road/[na01.safelinks.protection.outlook.com]))

In the state of Montana the penalty is Not less than \$10 or more than \$500 (dependent on number of incidents). Montana also allows an exemption for a vehicle transporting processed or unprocessed agricultural products or inputs, including but not limited to fertilizer, manure, and pesticides. (See: Montana Code Annotated 2019 TITLE 61. MOTOR VEHICLES CHAPTER 8. TRAFFIC REGULATION Part 3. Vehicle Operating Requirements Securing of Load -- Requirement – Exemptions)

Montana needs to provide stiffer penalties for unsecured loads including prison time. Additionally, the exemptions need to be modified. Who wants to encounter or hit fertilizer, manure, or pesticides on the roadway.

The modification in the law should also include a public safety campaign to educate the public about the importance of securing their load and how to do it.

### Sky Lantern Ban

Recently on Missoula Nextdoor neighbors were sending positive comments about Sky Lanterns that were sent off to commemorate a deceased loved one. I fear that more Sky Lanterns will soon be aloft as most people have no idea they are illegal in Missoula nor do they realize how hazardous they are. (See: [https://nbcmontana.com/news/local/sky-lanterns-banned-by-missoula-fireworks-ordinance-officials-remind-of-dangers/\[na01.safelinks.protection.outlook.com\]](https://nbcmontana.com/news/local/sky-lanterns-banned-by-missoula-fireworks-ordinance-officials-remind-of-dangers/[na01.safelinks.protection.outlook.com]))

Ordinance Number 3512 An ordinance generally amending Chapter 8.52 Missoula Municipal Code entitled “Fireworks,” to clarify definitions, enhance enforcement and revise penalty provisions.

<https://www.ci.missoula.mt.us/DocumentCenter/View/23643/Ordinance-3512?bidId=na01.safelinks.protection.outlook.com>)

For years, the National Association of Fire Marshals have been raising awareness of the dangers sky lanterns pose, even calling for a nationwide ban in 2013. In 2019, Municipal Research and Services Center (MRSC) estimated that at least 30 states have banned sky lanterns and floating luminaria. The miniature hot-air balloons may seem innocent and fun, but the damage they can cause is no joke. In addition to fire hazards sky lanterns pose, remnants of crashed lanterns show up as litter on the landscape as the balloon, wires, and bags often do not decompose.

I encourage you to review MRSC’s post on Regulating Sky lanterns (<http://mrsc.org/Home/Stay-Informed/MRSC-Insight/May-2019/Regulating-Sky-Lanterns.aspx> <na01.safelinks.protection.outlook.com>) to draft legislation banning them in the state of Montana. Montana cannot afford more human caused fires.

### PaintCare

Have you struggled with what to do with half-used or unused cans of paint. I bought a home in 2016 and had to deal with 30 plus cans of paint left by prior owners. I was able to get Home Resource to take the full cans but for other paint, it was a time consuming process to harden off the paint with kitty litter before I could dispose of it in the trash.

Washington and Oregon residents now have a better option, called PaintCare thanks to legislation passed by each state. (Oregon was one of the first states to pass a paint stewardship law. Washington state passed theirs in 2019 paint stewardship law. ) They can take their cans of paint to paint retail locations for safe disposal. Each can of paint is sold with a paint recycling fee that pays for the PaintCare program.

I think Montana should adopt the same program.

### Reversal of Montana's Pesticide Preemption

In the Constitution of the State of Montana I understand that I and the state shall maintain and improve the environment now and for the future.

Constitution of the State of Montana Article IX. Environment and Natural Resources, Section 1. Protection and improvement:

- (1) The state and each person shall maintain and improve a clean and healthful environment in Montana for present and future generations.
- (2) The legislature shall provide for the administration and enforcement of this duty.
- (3) The legislature shall provide adequate remedies for the protection of the environmental life support system from degradation and provide adequate remedies to prevent unreasonable depletion and degradation of natural resources.

I find that the Montana state law, 80-8,120, MCA, Local Pesticide Regulation which

limits local government's ability to require more than is already in the Montana ordinance to be in opposition to the Montana's Constitution.

I learned of this because I found on repeated occasions TruGreen spraying my next-door neighbor's trees (some trees were over 60 ft tall) with the pesticide Talstar as well as applying Triplet to their the lawn. After the aerial spraying, I could not be outside in my yard because the smell was so strong. Additionally, I am chemically sensitive. I contacted TruGreen and they have put me on their notify list which means I get a phone call 24 hours

in advance of their arrival and they also tell me what chemicals they will be using. Recently I found the courage to speak to my neighbor about this and suggested she find a company that does Integrated Pest Management (IPM) instead of spraying chemicals on a calendar basis. Though she has not stopped using the services of TruGreen she agreed to not spray trees near our fence line.

In addition to my own health concerns and my desire to have a yard that is pesticide free, I was concerned about this because a neighbor whose backyard borders this neighbor's has an outdoor pool used daily in the summer by their children. Additionally, Missoula aquifer is below us and the pesticides used are not low risk and can seep into the aquifer.

When I contacted the City of Missoula they informed me about the Montana state law preventing them from doing any local bans. They did inform me of their efforts to use IPM as well as having Pesticide free play and water parks.

Montana is one of the 29 states with preemption language that explicitly preempts localities from adopting stricter legislation that would regulate the use of pesticides. Preemption denies citizens the right to protect health and the environment.

Source: <https://www.beyondpesticides.org/assets/media/documents/lawn/activist/documents/StatePreemption.pdf>  
[\[na01.safelinks.protection.outlook.com\]](https://na01.safelinks.protection.outlook.com)

Please work to remove Pesticide Preemption language in the MCA.

Thank you for taking the time to read my letter. Please let me know what more I can do to move my suggestions into law for the people of Montana.

Stay well,

Catherine A. Nolan

**Subject:** RE: Draft agenda, July 8-9  
  
**Categories:** DACRequest1688, PublicInfo1688

Hi Maylinn,

No worries! I was getting caught up in emails this morning anyway. Friday on the suggested language will be good. I could post it on the Meeting Materials page if it's ready by then. I will notice the meeting Monday the 28<sup>th</sup>, so even by then is fine. I can also post it after the meeting notice and just update folks when it's up on the website.

For the public comment deadline, 72 hours from 1 pm on the 8<sup>th</sup> is 1 pm on July 5<sup>th</sup>. I could extend it to 5 pm to make it cleaner and give people a tad more time since the 5<sup>th</sup> is the holiday. I might not send things about until the AM of the 6<sup>th</sup>, though. It would give the public slightly more time and the commissioners slightly less. Would that timeline work for comments?

Thanks for reviewing the agenda. I'll update it with the public comment deadline and then have it ready for everyone on the 28<sup>th</sup>.

Sincerely,  
Rachel

Rachel,

I had planned to respond first thing this morning but that never seems to happen. The agenda looks good. I am hoping to try and submit suggested language for issues where I think there already is consensus or where consensus might be reached with some proposed language. I want to get it out this week so comments can be made on the suggested language. That may not happen until Friday though.

Good morning, Maylinn –

I had a chance to get going on the July DAC agenda. I've attached a draft to this email. I wasn't sure how you wanted to break out the public comments on the different topics and the times. So feel free to have me adjust things as needed so you think it will flow smoothly. I also wasn't sure of the end time for July 9, so I can adjust that, too. I'll be out the rest of this week, so there's no rush to get this back right away. I am aiming to notice the meeting by June 25, but June 28 is the deadline. So we'll have some time next week. I do plan to have the draft operating procedure on public map submissions revised with the commissioner comments by the notice date, too.

Thanks in advance for any guidance you have.

Sincerely,

Rachel

Rachel Weiss

Legislative Research Analyst

**City and State of Residence:**  
Bozeman, MT

**Your Comment/Input:**  
I am strongly supportive of the most OBJECTIVE, unbiased criteria available for redistricting — i.e. respect for established political subdivisions such as towns, cities and reservations. TAKE political bias out of the equation.

**Your Comment/Input:**

Thank you so much for all the hard work the Commission is doing on behalf of Montanans. I'm writing today to urge you to adopt a maximum deviation standard of 5%, which has historically worked well. The pandemic may have potentially caused undercounts in some of our most vulnerable communities, so it's especially important that the Commission return to its historical standard. Adopting a 5% standard will give the Commission flexibility to keep more counties, cities, towns, and communities of interest whole. A higher allowable deviation allows the Commission the flexibility it needs to balance all criteria, even if most districts can be drawn with much smaller deviation. Please don't unnecessarily split communities or ignore other important criteria in order to adhere to a strict deviation standard. Thank you for your time and your service to our state.

Dear Commissioners, I'm writing to request that the Districting and Apportionment Commission adopt a strong political fairness standard to guide your work adopting new legislative and congressional maps. We vote in elections to be represented fairly and equally in Helena and Washington. If the voters aren't able to turn those votes into representation, it strikes at the core of our political system. The Commission should aim to proportionally reflect the will of Montanans in the legislature. Thank you all for your hard work serving our great state and for allowing the public to have input in this critically important process. Best, Shibu Arens Missoula, Montana

**Your Comment/Input:**

I'm writing to ask your commission to adopt guidelines in regard to your adopting legislative and congressional maps. This is the only way to ensure strong political fairness standards will be used in your work. Montana voters, like me, rely on being represented fairly in both Helena and Washington, D.C. Without this representation our political system is inadequate, our votes don't really count. Your commission should aim to proportionally reflect the will of Montana voters. That is just Montana common sense. Thank you for your hard work serving our state and for allowing us to have input in the process. Mary Boschert-Brannin.

Anne Tate

**Email Address:**  
[anneltate@gmail.com](mailto:anneltate@gmail.com)

**City and State of Residence:**  
Bigfork

**Your Comment/Input:**

Districting and Apportionment Commissioners, Thank you so much for all the hard work the Commission is doing on behalf of Montanans. I'm writing today to urge you to adopt a maximum deviation standard of 5%, as the Montana Commission and many other states have historically adopted. In a census year dominated by a global pandemic that could have potentially caused undercounts in some of our most vulnerable communities, it's especially important that the Commission return to its historical standard. Adopting a 5% standard will give the Commission flexibility to keep more counties, cities, towns, and communities of interest whole and give flexibility to help our election administrators. This flexibility does not mean the Commission will be required to underpopulate half of districts by 5% and overpopulate half of districts by 5%. The average deviation between districts on the current plan was less than 1% (a roughly 90 person difference between districts), even though the allowable deviation was more than 3 times that limit. A higher

allowable deviation simply allows the Commission the flexibility it needs to balance all criteria, even if most districts can be drawn with much smaller deviation. Don't unnecessarily split communities to adhere to a strict deviation standard that conflicts with other important criteria. Thank you for your time. Anne Tate

Dear Commissioners,

A fair redistricting process is essential in setting up our second MT House district. While both political parties will be eager to see the districts drawn to solidify their power, a FAIR process will ensure that the voters are proportionally represented in our districts. Please, please, adopt a strong political fairness standard as you draw legislative and congressional maps. Thank you all for serving our great state.

Best,

Grace Decker

**City and State of Residence:**

Westby, MT

**Your Comment/Input:**

I can see people saying 5% deviation for the Democrats, and 1% deviation for the Republicans at future meetings. I would like to see the current legislative districts being redrawn based on the 2020 census results similar to the 2010 Existing Plan using 2% deviation per MT house district. The deviation could be raised to 3% if communities testify they want to maintain their community of interest like school districts, reservations and counties. The bottom line is the deviation could be maximized at 3% per MT house district. The Congressional districts need to be 1% or less because they are large in area and population.

Kalispell, Montana

**Your Comment/Input:**  
Congressional Districting - One of the more interesting ideas I have seen is dividing the state north/south rather than the traditional east/west to create the new, second Congressional District. In this way, each Congressional district will better represent the "whole" of Montana rather than just the very different geographic and demographic east/west divide.

**City and State of Residence:**  
Plains

**Your Comment/Input:**

I believe this redistricting should be done north to south in the middle of the state. We need a representative from the western side and one from the eastern side. I do not want to see gerrymandering benefit one party over another. This approach would be the most honest way to approach it and keep the politics out of such an important decision. We in Sanders County feel as if we do not have adequate representation on the national level. We do not have one representative west of the Continental Divide.

**Your Comment/Input:**

Hi I am very concerned about the upcoming redistricting agenda. Montana is very unique in regards to population, we are spread about a large area. Our cities like others are densely populated. But the large mass of people in a densely populated municipal area is vastly different than the majority population in rural areas. Rural areas have lost their voice in many states. I don't want that happening here in Montana. Please seriously consider this in your decision making. A district must consist of equal proportion of rural population to municipal population. So the district may cover hundreds of acres with only one or two large cities so they match appropriately. We must not have a district say with Missoula, Butte, Billings and Bozeman all in one district. That would be very disproportionate. City life and rural life have vastly different needs and districting must represent everyone fairly.

**Sent:** Friday, June 25, 2021 3:00 AM  
**To:** Districting <districting@mt.gov>  
**Subject:** [EXTERNAL] Re: Proposed Prisoner Reallocation Plan

Commissioners,

My name is Gerald Giebink, and I was a Census Field Manager for the United States Census Bureau in Montana during the 2020 Census. I am writing in opposition to the proposed plan to reallocate state prisoners from their physical location during the Census to their last known address. There are three very good reasons to oppose this plan: it is inconsistent with Montana State Code, it results in an inconsistent application of law/government policy, and it is impractical.

### INCONSISTENCY WITH MONTANA STATE CODE

Per the most recent version of the Montana Code Annotated (MCA), the proposed plan is at best inconsistent with state law, and at worst plainly illegal. The statute establishing the general redistricting criteria states:

"(1) Subject to federal law, legislative and congressional districts must be established on the basis of population." (Mont. Code Ann. § 5-1-115)

The key phrase here is "established on the basis of population". Population is defined exactly one time in the MCA:

"(16) 'Population' means the number of inhabitants as determined by an official federal, state, or local census or official population estimate approved by the department of commerce." (Mont. Code Ann. § 7-1-4121)

This proposed plan takes the actual population provided by an official federal census, and utilizes administrative records to alter it. It cannot be truly described as a "state census", since it is merely the alteration of an existing census based on administrative records and not an actual enumeration of individuals of the state. It clearly is not a federal or local census. Even if a "census" or "population estimate" was to be conducted, it would be subject to the approval of the Montana Department of Commerce, rather than simply a cooperative effort between the Commission and the Department of Justice.

In fine, the proposed plan does not base districts on an official population, as required by statute, but on a skewed and altered version of an official document. This opens the Commission up to costly litigation that could be avoided by simply utilizing data from the 2020 Census as delivered, rather than attempting to alter it.

As an extraneous point, should someone point out that the definition of "population" cited does not come from the same title as the statute establishing the Commission and its mandatory redistricting criteria, I would point to the following statute:

"Applicability of Definitions. Whenever the meaning of a word or phrase is defined in any part of this code, such definition is applicable to the same word or phrase wherever it occurs, except where a contrary intention plainly appears." (Mont. Code Ann. § 1-2-107)

Finally, to address a point brought up from Native American Rights Fund Staff Attorney Jaqueline De León, in her statement dated May

25, 2021. As proof that "under Montana election law, a person does not lose their original residency in a particular place as a result of being involuntarily kept at a public institution, such as a prison or a jail", she cites Mont. Code Ann. § 13-1-112, which establishes rules for residency "[f]or registration, voting, or seeking election to the legislature". There are two points this particular statute is not applicable. First, redistricting is based on population, which is defined as: "... the number of inhabitants as determined by an official federal, state, or local census or official population estimate approved by the department of commerce." (Mont. Code Ann. § 7-1-4121)

Note that it uses the word "inhabitants", not "residents". Generally speaking, one can be an inhabitant without establishing permanent residency. Moreover, this is in line with the policies and procedures used by the US Census Bureau. Focus was on whether the individual had lived at the address on census day, rather than if they intended to make it their permanent home.

Furthermore, this definition is not applicable, as it is specifically to be used "[f]or registration, voting, or seeking election to the legislature" (Mont. Code Ann. § 13-1-112). In fact, the term "resident" in the MCA and in the Administrative Rules of Montana is not even particularly consistent. For example, the requirements to be considered a "resident" for the purpose of getting a Montana driver's license (60 consecutive days, per Mont. Code Ann. 61-5-103) are significantly different from the requirements to establish residency for the purpose of buying a residential hunting or fishing license (180 consecutive days, per Mont. Code Ann. § 87-2-102), which are in turn different from the rules regarding residency for the purpose of in-state tuition (12 consecutive months\*). Rather than muddy the waters by choosing an interpretation of residency requirements, the Commission should stick to the report received from the US Census Bureau, using the locations that people actually inhabit.

#### INCONSISTENT APPLICATION OF STATE LAW/POLICY

Generally speaking, the state is obligated to treat similar groups similarly, unless there is a compelling reason to deviate. The mere fact that the individuals in question cannot vote does not justify arbitrarily changing their residency. Children and noncitizen residents similarly cannot vote, and yet they are not excluded from the counts of their respective counties. To treat prisoners differently, and to deprive the communities they affect of adequate representation based on their actual population, flies in the face of this principle. Moreover, because the amount of representation has a correlation with how funding is distributed among communities, this could lead to a disparate impact on districts that have prisons. Finally, both parties proposed redistricting criteria that include "keeping communities of interest intact", and while they both define "community of interest" differently, prisons fit squarely under both of their definitions. The Democratic proposal cites "social, cultural, and economic interest, or occupations and lifestyles", and no one can deny that prisons are communities with unique social systems and lifestyles. The Republican proposal cites "social and community commonalities", into which prisons similarly fit. All in all, this proposal sets bad precedent regarding the equitable application of state policy regarding redistricting.

#### IMPRACTICAL

This is a quite simple argument. Spending a third of the Commission's budget on a process where the results are uncertain is a poor use of state funds. Moreover, the requirement that, at the very least, the process be overseen and approved by the Montana Department of Commerce per the legal requirements mentioned above hurt the ability of the Commission to complete its work quickly and within the time allotted by statute.

In summary, the proposal is legally dubious at best, results in inconsistent applications of state policy, and is impractical.

I sympathize with the Native American Rights Fund's desire to ensure that the tribes of Montana are adequately represented. That is, after all, why I joined the US Census Bureau in the first place. During my year as a Census Field Manager, I managed areas that included 5 of the 6 federally recognized reservations of Montana. Our employees worked tirelessly, striving to obtain accurate numbers for the reservations in the face of impossible odds and shifting deadlines. We REFUSED to cut corners in Montana, and completed our work by the appointed time. I was there, in the Billings Area Census Office, when the last addresses came in, on the last day that we could continue to work. The work of thousands of enumerators and census field supervisors was laser-focused on making sure the tribes were accurately counted and adequately represented. Their work is what will lead the tribes to have the representation that they deserve, not a back-room alteration of the actual official population count. While the NARF's heart is in the right place, this is not the proper way to accomplish their goal. They are welcome to work to change the wording of the law, or to challenge it in court, but appealing to the Commission to change it is not right.

Should there be any questions, I am available via email or phone.

**Subject:** [EXTERNAL] Please don't delay congressional redistricting

Dear Members of the Districting and Apportionment Commission,

I encourage you to adopt a timely schedule for congressional redistricting that involves public hearings and public engagement as soon as the Census Bureau makes redistricting data available.

Governor Gianforte recently signed onto a letter with 14 other Governors across the country asking the Census Bureau to produce redistricting data before their current planned release on August 16th. The Census Bureau has indicated that August 16th is likely the earliest they can provide this redistricting data, but if state governments and redistricting bodies all across the country are trying to get data earlier to put districts in place in a timely manner, why would this Commission delay the process even more than necessary after official Census data is available in August?

As Governor Gianforte's letter (attached) notes, "We are now facing a nearly half-year delay beyond the statutory deadline for receiving redistricting data. This delay places an unreasonable burden on our states and undermines public trust in the foundations of our democratic republic."

This Commission should engage the public in robust debate and complete the congressional redistricting process within 90 days of availability of Census data, just as the Montana Constitution requires.

With the redistricting process already several months behind schedule across the nation, delaying the redistricting process further once official Census data is available would be a disservice to Montana.

Thank you for considering public comment on this important topic.

Sincerely,

*Terry*

**Your Comment/Input:**

Please be very careful with the mapping of the new split to two districts. I have seen where districts were split so voting could be very one-sided. Please do make the split based on the scientific split of land and by populations of both parties. Please no weighting of districts to favor a party. Keep integrity in the process.

I would like to ask you to consider the vast differences in rural vs city areas and make this redistricting as even/equal as possible. It certainly would not be fair allowing all our major cities to be included in one district. We must include a large section of rural area with A city to be on equal footing. Thank you.

Hi Rachel.

Nice to hear from you, and thanks for the heads up. We can handle if she gets in touch.

Our summer has been – and I say this with great appreciation – cooler and wetter than usual. I feel for our friends under the heat dome in WA and OR. I don't think you're getting hit with it.

Sincerely,

Wendy

**Subject:** [EXTERNAL] Reporter with question(s) on redistricting criteria

Hi Wendy and Ben,  
I hope all is well in Denver and that the prep for the SLC conference is going well. One of the Montana Public Radio reporters was looking for national experts to talk about redistricting criteria. Her name is Shaylee Ragar. I sent her your way in case either or both of you might help with information beyond the Montana perspective. I wanted to give you a heads up that she might give you a call or email about it.  
Thanks for all you do and I hope you're able to enjoy a little time out of the office this summer.  
Sincerely,  
Rachel

**Subject:** [EXTERNAL] Updating the video for November 4th

Hey Rachel and Joe,

I'm just quickly updating the video for the Thursday meeting. I modeled the language on the attached slide after the email you guys sent out on Saturday night. Let me know if the language should be less vague/more specific. Should I mention specific maps at all at this point?

Hope you all recovered from a long day Saturday. Thanks!

K'Lynn

Hey Rachel!

Are you in this morning? I'm working on updating the video for Thursday quick, and I was wondering a couple things –

Are all 4 maps still on the table?  
Should we just make it really generic about public comment in general?  
Is the chair still going for consensus?

(Full disclosure, I didn't watch the end of Saturday, but your email update was kind of vague so I can make the video a little vague too!)

(Also, I am here but because parenting in 2021 is still a nightmare I have two cute girls here with me, so cant' really come to you. You're welcome to call or come down if it works for you. )

**Categories:** DACRequest1688, PublicInfo1688

Hi Maylinn,  
Thanks for the quick review. I hope you were able to get some time away yesterday. I've attached a revised agenda. Ginger suggested adding time for public comment on the RFP, too. So I've added that language at 2pm so you could see what it looked like. If you'd like to focus on the congressional decisions, there will still need to be a meeting to revise and vote on RFP, so you'll have another chance for comment then. We'll be ready on the 9<sup>th</sup> to discuss a few of the possibilities for state legislative redistricting, too.  
Thanks for the help,  
Rachel

**Subject:** [EXTERNAL] congressional district maps

Dear Commissioners,

I am writing today to voice my support for Congressional District maps 13 and 11, and to voice strong opposition for map 12.

As a county commissioner for Liberty County I feel that Proposal 13 is a great compromise and is the best proposal on the table. The map does not split Flathead County, and adds two reservations into a competitive district (which tribes have asked for). It also keeps Helena with other historical Western Montana cities and towns with like-community interests.

Proposal 11 also creates a competitive district for Montana, although the map splits one county (Flathead) but does not split towns.

I am strongly opposed to Proposal 12. This plan is not competitive and intentionally draws both districts to heavily favor one political party. It violates the commission's goals of not unduly favoring any political party.

Thank you for your time and consideration.

Maureen "Morb" Wicks  
Liberty County Commissioner  
5238 Broadhurst Road  
Ledger, MT 59456

I support CP 12. It is not the best since CP 1 is most fair. Just because we share the 406 area code does not mean we share much else. Whitefish belongs in the West. We see how we are being has lit to keep dragging this out. Just because I believe in freedom just like everyone else does not mean I agree on what freedom means to you. My opinion is just as valid just as important and just as true. The difference is I am not trying to get something over on someone else. I dont have unlimited resources to take time off work everytime you decide you want to submit another angle. But if I go broke taking time off to deal with your issue. Then so be it.

Tammi Baer

Hi Mike,  
I've attached 4 reports, two for each plan. They contain two ways of looking at the same topic: split counties and precincts. You're right, in CP 12 there is one split county: Pondera. And in CP 13 there are three, the ones you list below. I hope this helps. Let me know if you have any trouble with the attachments or any questions.  
Sincerely,  
Rachel

Hi, Rachel,

Do you have the precinct/population breakdown for the split counties in maps 12 and 13?

For 12, I guess it would just be the ones in Pondera County? All other counties are whole?

And for 13, I see splits in Pondera, Lewis & Clark, and Gallatin counties?

**Subject:** [EXTERNAL] Redistricting website not working, so comments are included here so you get them by 5:00pm

Good day.

The website is taking forever to process comments. I've been waiting about 15 minutes for my comments to go through.

So I am including them here because I want them heard and read.

MAP 12- NO

Map 12 is so wrong. Map 11 was the best of the last choices. Map 12 is not competitive at all. Wasn't that a goal of the commission? It separates Butte from Jefferson County; intentionally separating union workers from each other. Why would they be separated?

It slices Park County from Gallatin County; two counties and many residents who share common interests and employment.

County splits should respect communities of interest.

This map also puts Lewis and Clark county in the eastern district which makes no sense at all. This county has very little in common with the eastern district.

Map 11 is still the best choice and fairest and competitive; giving all Montanans a voice. Please consider Map 11, not 12.

MAP 13- YES

This is certainly not ideal, but better than 12. What was wrong with 11 in the last round?

I don't like to split Bozeman and the suburbs, but this map fits the criteria better.

MAP 11- YES

Map 11 fits all the criteria and goals that you, the commission, set out to achieve.

It's competitive, keeps common communities together. It is fair to ALL Montanans and gives us all a voice.

Please consider 11.

Chair Smith and Commissioners,

I support Map CP12 because:

- It keeps Flathead County in the Western District.
- It includes both the CSKT and Blackfeet Reservations in the Western District, allowing for a stronger voice for the tribes in the new western district.

- It keeps Lewis and Clark, Flathead and Gallatin counties whole.
- It only splits 1 county

Thank you for your consideration.

Vickie Le Blanc

**Subject:** Re: [EXTERNAL] Thoughts

Rachel, thank you! I do not understand why blank pages appeared rather than my email. But, I sent another one. I am late because I have been watching my grandchildren and didn't get your email right away.

I also sent in a request to testify at the hearing on November 4th. I hope it got there.

If the email I just sent is blank, here is what I said. It isn't profound, but it is heartfelt. I am so worried about our country.

Again, thank you!

Dear Redistricting Committee:

I oppose Map 12 for the following reasons:

1. Map 12 does not keep communities of interest together, i.e. separating Butte from Jefferson County and Livingston from Gallatin County. I have spent a great deal of time in these areas and know how similar each of the pairs are. It is not inconceivable that the pairs might be joined as communities as Montana continues to grow. They have little in common with Eastern Montana.
2. Unions form communities of interest, too. Keeping Helena in the same district as Butte, Anaconda, and Deer Lodge gives the those unions a voice. They form a community of interest that is very important to economy of Montana.
3. Finally, minority rights are an important part of a healthy democracy. Giving one political party control over both Montana Districts, as is the case with Map 12, allows no room for the other party's voice. Although Democrats are a minority in this state, they are still an important population and deserve at least a chance to

have a voice. Giving one party total control of our state, when there is an option for at least giving the minority party a chance to win control in one of the districts, is unduly favoring one political party over another and not protecting the rights of a minority.

For these reasons, and more, I urge you to oppose Map 12 and support Map 13.

Thank you!

Hello Phil,  
I've attached a copy of the letter from Baucus and Racicot. I've also attached a copy of an email from a Robert Brown. However, I cannot confirm if this is the Bob Brown who served as Secretary of State. I also do not know if this is the letter referred to by the Lewis and Clark County commissioners. It is not uncommon for letters to go directly to the districting commissioners' emails. If so, I don't have access to those comments unless a commissioner forwards them on to us for inclusion in the comments you see posted online. You might check with the county commissioners or one of the districting commissioners to see if they have a copy of that letter.  
I hope this information helps.  
Sincerely,  
Rachel

Hi Rachel,  
The last paragraph of the Lewis and Clark County commissioners letter mentions a letter from former Sen. Baucus, former Gov. Marc Racicot and former SOS Bob Brown. Has that letter been officially submitted? If so, can I get a copy?  
Thanks,  
Phil

**Subject:** [EXTERNAL] Map #12--Unable to post "Dislike"

Good afternoon

While I have successfully commented on Maps 11 & 13 (in favor of both), I have made six total attempts between yesterday and today to post "Dislike" on Map 12 with no success. My comments are <50 words and I am attempting from the same desktop PC and browser I used before, using the same process of finding my address and dropping a pin to comment. Yesterday and today, the "Processing" button at the bottom of the completed "add Comment" pop up is highlighted but nothing else happens.

So.. please note that I am AGAINST Map #12, I live at 8150 W Riverside Dr in Missoula, I am a Montana native, I have lived both east and west of the divide and I pay my taxes and vote!

My comment:"I disagree with Map 12 as it divides Park and Gallatin Counties and excludes Lewis and Clark County from the Western District. These communities should be included with the Western district as they face similar challenges as other mountain communities facing explosive growth."

Thank you!  
Jessica Glebke

**Subject:** [EXTERNAL] processing error when trying to submit feedback on proposed maps

Good afternoon!

I have been trying to add a comment to [this website \[app.mydistricting.com\]](#) for the last two days to make my voice heard in the redistricting process, but the pop up window has not moved away from "Processing" once I try to submit. Screenshot attached, and I know I'm not the only one having this issue, as I have seen others on social media share similar concerns.

I am concerned that my voice will not be heard due to this technical malfunction, especially considering that I cannot go to the meeting in person tomorrow.

Do you have any suggestions?

Best,

Andy Bixler

Good day.

The website is taking forever to process comments. I've been waiting about 15 minutes for my comments to go through.

So I am including them here because I want them heard and read.

MAP 12- NO

Map 12 is so wrong. Map 11 was the best of the last choices. Map 12 is not competitive at all. Wasn't that a goal of the commission? It separates Butte from Jefferson County; intentionally separating union workers from each other. Why would they be separated?

It slices Park County from Gallatin County; two counties and many residents who share common interests and employment.

County splits should respect communities of interest.

This map also puts Lewis and Clark county in the eastern district which makes no sense at all. This county has very little in common with the eastern district.

Map 11 is still the best choice and fairest and competitive; giving all Montanans a voice. Please consider Map 11, not 12.

MAP 13- YES

This is certainly not ideal, but better than 12. What was wrong with 11 in the last round?

I don't like to split Bozeman and the suburbs, but this map fits the criteria better.

MAP 11- YES

Map 11 fits all the criteria and goals that you, the commission, set out to achieve.

It's competitive, keeps common communities together. It is fair to ALL Montanans and gives us all a voice.

Please consider 11.

**Subject:** [EXTERNAL] Opinion on CP 12

Montana Districting and Apportionment Commission,

How strange that Whitehall and Cardwell would be in the eastern district, while Bozeman and Butte are in the western. The best district boundaries run through rural areas and center on the civic and economic hubs of the region. This district break is a result of the unfortunate shape of Jefferson County, which breaks along a ridgeline on one side, and then the river bottom on another, and artificially separates these small towns from their surrounding communities, where someone can work and shop in one congressional district and live in another.

If we are going to break a county line somewhere, this would be a place to do it, with plenty of rural country to run through, and natural ways to connect the southern portion with it's regional hubs (Butte, Bozeman) and the northern with its own (Helena).

Best Regards,

Tait Sougstad  
Billings, Montana

Ps. I tried to submit this comment on the interactive map on 11/3/21 around noon, but after clicking "Add Comment", the button text changed to "Processing" and never resolved. I tried several times, but it never worked, and I never saw a new pin in the map, so I submitted it to this email address.

Mr. Harris,

I got your name from an email blast that was sent out by NCSL. You are looking for information related to prisoner reallocation. I am the chair of the Colorado Independent Legislative Redistricting Commission.

Our commission performed prisoner reallocation for Colorado state and house redistricting. We published a policy on how this was done by our nonpartisan staff.

A copy of the policy (Policy #2) is on our website. I am passing this information along to you as it might be helpful with your effort. See link below.

**Categories:** DACRequest1688, PublicInfo1688

Hello Commissioner Miller and Commissioner Smith –

I've posted a couple documents for this amendment online at the November 9 meeting page. I'll send out an email to all the commissioners next. The documents include:

1. [A description of the amendment](#) and the population changes
2. [A map of the amendment](#)
3. [A map of the differences](#) from the original CP 12

Please note the changes in the amendment don't include adjusting the 4 zero-population, non-contiguous sections. Those 4 blocks were cleaned up as a clerical change approved through Commissioners Stusek and Smith prior to posting the CP 12 and CP 13 plans online. The shapefiles and block equivalency files posted [online for CP 12](#) already reflected those adjustments.

If you think of other information or displays that will help the commissioners and public weigh the change, just let me know.

Sincerely,  
Rachel

Commissioner Miller,

WE will be addressing technical amendments at Tuesday's meeting. No problem posting it.

Maylinn

On Fri, Nov 5, 2021, 3:22 PM Kendra Miller <[kendra.miller@mtleg.gov](mailto:kendra.miller@mtleg.gov)> wrote:

Madam Chair and Rachel,

I've attached an amendment to the tentative final plan for Tuesday's hearing and vote. The amendment would exclusively use the boundary line of the Blackfeet Reservation in Pondera County rather than the arbitrary cut between Valier and Conrad. The amended plan would have a District 1 deviation of -1,538 (-0.28%) and a District 2 deviation of +1,537 (+0.28%). This overall total deviation of 3,075 people or 0.56% is smaller than the deviation upheld in *Tennant v. Jefferson County Commission* in 2011, which was an overall deviation of 0.79% in order to follow county lines.

I find exclusively following county lines and a reservation boundary to be a legitimate state objective to allow for this minor deviation based on the standard set forth in that case. Thus, I plan to move the amendment on Tuesday and wanted to provide you with time to review.

In addition to moving the Pondera County dividing line to the Blackfeet Reservation boundary, I have also cleaned up the non-contiguous Census blocks in Pondera County. As I'm sure the staff had recognized, there are 4 unpopulated Census blocks in Pondera County that are assigned to District 1 and non-contiguous from the district. They are along the Marias River, two roads along the southern border of Pondera/Teton Counties, and one block north of Conrad. This amendment would fix those as well.

Please let me know if you have any questions, and feel free to post it online in advance of the meeting if staff feel that is appropriate.

**Categories:** DACRequest1688, PublicInfo1688

Hi all,

This morning when I tried to open a layout file that I've been using pretty consistently and used last on Sunday, I got the attached error message. It seems like there's a .dbd file that is missing. When I went to use the layout again this morning, I got that error message. I searched by C drive to see about that file, but couldn't find it if it might have been moved. I also closed the plan and the program, but that didn't help solve the issue. I was hoping someone might be able to help me work through this error so I can start to use that layout again.

Thanks in advance for any help you can provide!

**Subject:** [EXTERNAL] Re: (Case 142628) Missing file on layout

Hi, Rachel,

Thank you for your message. I suspect you had a mask on a layer in the layout and accidentally saved the layout. The mask would have been created if it was a district layout, which it probably was...

Is this the standard layout, or have you customized it? My answer will depend on that information...

Please let us know if we can be of further assistance.

Subject: Missing file on layout

>Hi all,

>This morning when I tried to open a layout file that I've been using pretty consistently and used last on Sunday, I got the attached error message. It seems like there's a .dbd file that is missing. When I went to use the layout again this morning, I got that error message. I searched by C drive to see about that file, but couldn't find it if it might have been moved. I also closed the plan and the program, but that didn't help solve the issue. I was hoping someone might be able to help me work through this error so I can start to use that layout again.

>Thanks in advance for any help you can provide!

>Sincerely,

>

The following attachments have been stripped by your E-mail admin.

---

Thanks for the information. You can get around the error by doing something kind of strange...

Once you get the layout to open, drop the temporary file and save the layout. Then be sure to create a backup

Please let me know if you have any questions :)

Hey Tracy,  
Thanks for sending the file. I was able to access it, but the work around didn't work. However, my layout was pretty basic, so I'll just recreate that really quickly. And I'll back it up somewhere else this time! That's a good idea. Thanks for the tip and the help.

Hello Ms. Bennett -

I'll reach out to Commissioner Essmann to see if he can provide me with the map number of the public submission map that's the basis of CP 12. Once I know the map submission number, I can look up the person who submitted that public map. Because I received the files for CP 12 from the commissioners, I don't know what public map they used as the basis for CP 12. Thanks for providing additional information that can help me narrow down the list of possible maps.

Sincerely,

Rachel Weiss

Rachel-I was told by Commissioner Essmann that a member of the general public from Westby, MT created it and that you would know who that was.

His comment seems to contradict your email.

Message:

I believe this comment system is malfunctioning as I just attempted to send a lengthy comment. It did not appear to be accepted. In short, please do not let partisan power brokers sway your decision to use Map 12! It is the fairest and most sensible way for Montanans to represent their collective interests and different geoeconomics interests. Hopefully, this comment does not disappear like my previous one. Thank you

Hello Rachel and Joe!

My name is Aaron Navarro, I am a political producer tracking redistricting for CBS News (network, but based in DC). Wanted to confirm some bits I've seen on Twitter, has the Districting and Apportionment Commission adopted CP-12 as the final Congressional map? And does this mean it will be filed immediately with the Secretary of State and become law? Or is there another process with the legislature that it must go through?

Number is 202-763-3183 if that's any easier. Thanks!

Aaron

Hi Aaron,

You can sign up for [redistricting updates here](#). You'll get an email asking you to confirm your email and preferences. We have a press list and an option to receive information about the Districting Commission. The press list will get you all legislative releases and the commission list is specific just to the commission. Usually, the information I send on redistricting is the same for both lists, in case that helps you decide what ones to select.

Thanks,  
Rachel

**Categories:** DACRequest1688, PublicInfo1688

Hello Professor McKinnie,

Thanks again for your time on the phone. It's fun to hear about how people are using the files. If you wanted to know more about precincts and how to crosswalk data between different boundaries, you might reach out to Regina Plettenberg, who is the Ravalli County Clerk and Recorder. She's been around redistricting and definitely around precinct boundary changes. Commissioner Kendra Miller also is familiar with precinct boundaries and analysis around elections. Regina is at [recorder@rc.mt.gov](mailto:recorder@rc.mt.gov). Commissioner Miller is at [kendra.miller@mtleg.gov](mailto:kendra.miller@mtleg.gov).

Thanks again,  
Rachel

**Subject:** [EXTERNAL] missing CSV file on the mtredistricting webpage

Hi,

I am a math professor at the University of Montana. I have some students studying the redistricting maps. I looked this morning for the new csv block equivalency file for the tentative redistricting plan that was adopted on Nov 9th. It is not on the webpage like the other plans. Only the shape file is up. Can you please post the csv file as well? Or send it to me.

If you are not the right person to ask (I got your name and email from the website) can you please direct me to the right person?

Thanks!

Kelly

**Categories:** DACRequest1688, PublicInfo1688

Hello Craig,

Once the files are official, they will be posted online at the commission's website, [mtredistricting.gov](https://mtredistricting.gov), on the [Maps page](#). The current files for the various drafts, including the current tentative maps, are [also online](#). Once the commission adopts the final lines, I'll have that site updated by the end of the day Montana time. Please let me know if you have other questions.

Sincerely,

Rachel Weiss  
Legislative Research Analyst

**Subject:** [EXTERNAL] Shapefiles/Block files

Hi Rachel,

I saw the commission tentatively adopted a map. Once the lines are official, do you know where I would be able to download shapefiles and block files?

Thank you!

**Categories:** DACRequest1688, PublicInfo1688

Hello Aaron,

The shapefiles and block equivalency files for CP 12 (as well as the other [commission proposals](#)) are already available online at the commission's website, [mtredistricting.gov](https://mtredistricting.gov). If you click on the Maps header on the upper right-hand side of the home page, you'll find a [table of the proposals](#) and associated information. The files are also available for the current Tentative Commission Plan. We'll continue to make those files available after the plan is finalized and submitted to the Secretary of State.

Thanks for your interest and let me know if you have other questions or have trouble with the files.

Sincerely,

Rachel Weiss

**Subject:** [EXTERNAL] Request for block equivalency files for CP-12

Hello Rachel,

I would like to request the block assignment file and shapefile for CP-12, the approved congressional redistricting plan.

I'd also encourage the commission staff to publish these files for proposed legislative maps when they are posted on the commission website, so the public can use their own software (DistrictBuilder, Dave's Redistricting, etc.) to evaluate maps proposed by the commission.

Thank you so much!

Hello Ethan,  
The commission will meet again on November 12, this Friday, to take comments on a plan they tentatively adopted at today's meeting and to adopt a congressional plan. The commission amended the plan today to revise the district boundary in Pondera County. I've attached a pdf of the Tentative Congressional Plan and am happy to send shapefiles if you'd like.  
Please call if you have any questions.

**Subject:** [EXTERNAL] ETA on PDF of final congressional map?

Hi Rachel,

I'm trying to get a story on the final districting vote today out within the next hour or so in order to hit a deadline for MTFP's weekly email newsletter and am wondering if we'll have an official PDF of the final congressional map available in time to make that (apologies if that's already been posted somewhere I haven't found).

I know we're back to the original CP-12 proposal but it'd be nice to have an official "this is the final map" image, especially since there's been back-and-forth over the line in Pondera County.

Thanks so much for all you do,  
Eric

**Subject:** RE: [EXTERNAL] Map Submission Contacts

**Categories:** DACRequest1688, PublicInfo1688

Hello Mr. Dougherty,

Thank you for your questions. The tables of maps posted online do not contain the names of the submitters. The names of people who submitted the maps would be information that is subject to a public records request. I talked with the other commission staff this morning. None of us have responded to a request for that type of information. However, the public comments received via the webform or at [districting@mt.gov](mailto:districting@mt.gov) are also posted online. For example, the comments submitted by Oct. 2 are available online at the commission's meeting page for Oct. 5:

<https://leg.mt.gov/content/Districting/2020/Public-Comment/October5-2021-Comment/predeadline-comments-oct5-2021.pdf> Emails sent to [districting@mt.gov](mailto:districting@mt.gov) usually display the email address of the sender. So if you'd identified yourself as the author of a map in a public comment and/or sent in comments to [districting@mt.gov](mailto:districting@mt.gov), that information would be accessible by the public online.

I hope this information helps.

Sincerely,

Rachel Weiss  
Legislative Research Analyst

**To:** Weiss, Rachel <RWeiss@mt.gov>  
**Subject:** [EXTERNAL] Map Submission Contacts

Hello Rachel,

I was wondering if the contact information for the submitted maps is available to the public? I've looked all over your website and can't find any contact info, so I'm wondering if it is available to the people who attend meetings or visit your office. Has anyone submitted a FOIA request through your office for contact information?

The reason I'm asking is because I received an email about my map submission, and it caught me completely by surprise.

Thanks for your assistance.

**To:** Harris, K'Lynn  
**Cc:** Kolman, Joe  
**Subject:** RE: Proposal for Redistricting Videos

**Categories:** DACRequest1688, PublicInfo1688

Hi K'Lynn,

Thanks for sending this along. I'll run it by Joe, too, who might have some ideas since he is involved in both the website and the districting. One question I think I'll get asked is cost. Would you need funding from the commissioner or the LSD for the videos? Or would the partnership be a mutual benefit type of thing covered under the contract with PBS already? I think Joe might have to run this idea through other folks here, but I'll let you know. I've cc'd Joe on this reply, so he has the initial information and my reply.

We (the staff) don't necessarily need to be present. I think that would add to the scheduling challenges. We can be if they would like us to. But I think we could help with some ideas for topics and questions. The 19<sup>th</sup> and 21<sup>st</sup> meetings are likely to start around 10 am, so you might be able to catch a few of them then. Also, the commissioners will be back for a public hearing on October 30<sup>th</sup>, so that's another option for days. Given the start times of most of the meetings, even the out of town people often come early or stay over the night. So we could help do introductions and to coordinate with schedules.

Thanks for this and we'll be in touch.

**Sent:** Monday, October 4, 2021 3:03 PM  
**To:** Weiss, Rachel <RWeiss@mt.gov>  
**Subject:** [EXTERNAL] Proposal for Redistricting Videos

Hey Rachel!

Here's my very draft-type language to propose the videos to the commissioners. I'm happy to add any more language you think might be necessary. I'd like to shoot the Helena folks asap, maybe run to Bozeman for Commissioner Miller, but then plan to finish up with the Chair and the out of towners as necessary when they are here for the meeting. (If they are around but not otherwise booked on the in-between day in October.) Let me know what you think, or if we want to approach this in a different way. Does your staff want to be present for the interviews? Happy to clear the questions with you, make sure we have all the ones we need and get the content that will meet our needs.

Thanks!

K'Lynn

Redistricting and Apportionment Commission  
Public Outreach Video Project

In October, Legislative Services Division (LSD) and the Montana Public Affairs Network (MPAN) would like to conduct brief interviews with the five members of the commission. The purpose is to provide content to enhance the Districting and Apportionment website, draw a larger audience to it, and bolster public participation in the process through awareness.

With the content, MPAN in conjunction with LSD will create short videos for public outreach that can be added to the Commission's website and posted on social media in timely intervals to help draw attention to meetings, deadlines, and opportunities for public comment. The content may also be used for Public Service Announcements and interstitials for MPAN programming. It is a good opportunity for public outreach, and a way for the public to get to know the body entrusted with the redistricting process, a direct outreach from the commissioners to the public.

The crew is Helena and Bozeman based, so the interviews can be scheduled individually at a time and location convenient for the commissioners. We can conduct it in the Capitol or at a local location of your choosing (provided the desired production quality can be attained at the location.)

K'Lynn Sloan Harris, Production Manager at MPAN will be contacting you to schedule a time, or you can reach her at [klynn@montanapbs.org](mailto:klynn@montanapbs.org), or 406-438-5404.

**Categories:** DACRequest1688, PublicInfo1688

Hi Eric,

The block equivalency files and shapefiles for the maps are available at: <https://mtredistricting.gov/congressional-maps-proposed-by-the-commission/>. If you click on the "+" button by any of the proposal numbers, it'll open up a few additional table fields, including the GIS data. If you have any trouble with the files, just let one of us know. I've cc'd Joe Kolman on my reply. Between the two of us, someone will respond.

Thanks and reach out with any questions.

Sincerely,  
Rachel

**Cc:** Kolman, Joe <[jkolman@mt.gov](mailto:jkolman@mt.gov)>  
**Subject:** RE: Proposal for Redistricting Videos

Hi K'Lynn,

Thanks for sending this along. I'll run it by Joe, too, who might have some ideas since he is involved in both the website and the districting. One question I think I'll get asked is cost. Would you need funding from the commissioner or the LSD for the videos? Or would the partnership be a mutual benefit type of thing covered under the contract with PBS already?

I think Joe might have to run this idea through other folks here, but I'll let you know. I've cc'd Joe on this reply, so he has the initial information and my reply.

We (the staff) don't necessarily need to be present. I think that would add to the scheduling challenges. We can be if they would like us to. But I think we could help with some ideas for topics and questions. The 19<sup>th</sup> and 21<sup>st</sup> meetings are likely to start around 10 am, so you might be able to catch a few of them then. Also, the commissioners will be back for a public hearing on October 30<sup>th</sup>, so that's another option for days. Given the start times of most of the meetings, even the out of town people often come early or stay over the night. So we could help do introductions and to coordinate with schedules.

Thanks for this and we'll be in touch.

**Subject:** [EXTERNAL] Proposal for Redistricting Videos

Hey Rachel!

Here's my very draft-type language to propose the videos to the commissioners. I'm happy to add any more language you think might be necessary. I'd like to shoot the Helena folks asap, maybe run to Bozeman for Commissioner Miller, but then plan to finish up with the Chair and the out of towners as necessary when they are here for the meeting. (If they are around but not otherwise booked on the in-between day in October.) Let me know what you think, or if we want to approach this in a different way. Does your staff want to be present for the interviews? Happy to clear the questions with you, make sure we have all the ones we need and get the content that will meet our needs.

Thanks!

K'Lynn

Redistricting and Apportionment Commission  
Public Outreach Video Project

In October, Legislative Services Division (LSD) and the Montana Public Affairs Network (MPAN) would like to conduct brief interviews with the five members of the commission. The purpose is to provide content to enhance the Districting and Apportionment website, draw a larger audience to it, and bolster public participation in the process through awareness.

With the content, MPAN in conjunction with LSD will create short videos for public outreach that can be added to the Commission's website and posted on social media in timely intervals to help draw attention to meetings, deadlines, and opportunities for public comment. The content may also be used for Public Service Announcements and interstitials for MPAN programming. It is a good opportunity for public outreach, and a way for the public to get to know the body entrusted with the redistricting process, a direct outreach from the commissioners to the public.

The crew is Helena and Bozeman based, so the interviews can be scheduled individually at a time and location convenient for the commissioners. We can conduct it in the Capitol or at a local location of your choosing (provided the desired production quality can be attained at the location.)

K'Lynn Sloan Harris, Production Manager at MPAN will be contacting you to schedule a time, or you can reach her at [klynn@montanapbs.org](mailto:klynn@montanapbs.org), or 406-438-5404.

Hello Mr. Agnew,

I wanted to confirm that your comments about redistricting were received and will be provided to the commissioners after an October 16 deadline. Those comments and others received after that deadline but before October 19 will be posted online so you can view them. They will be posted at: <https://mtredistricting.gov/october-19-2021-meeting/>  
I hope this information helps.

Sincerely,

From: John D Agnew  
Residence: Bigfork, MT

Message:

When considering the division of Montana into representative districts I would keep in mind that urban Montana has the money and the population to pretty much generate the direction of the process. The urban towns of Missoula, Bozeman, Butte, and Helena in the west far out weigh the urban population of the east which resides primarily in the Billings/Laurel area. The continental divide continues to be the cultural and lifestyle meter between the west side and the east side and I believe it best reflects the political divide as well.

**Categories:** DACRequest1688, PublicInfo1688

Hello Mr. Oetinger,  
Thank you for your comments. They will be distributed to the commissioners after an October 16 deadline. PDF maps of the prior Congressional districts are available at: <https://mtredistricting.gov/districting-maps/>. If you scroll down to the Maps for Reference section, you'll see those map links.

Also, the interactive maps for the Commission Proposals should allow you to Zoom in to specific areas of the state, including towns. You can also change the view to see a regular map view or satellite images.

I hope this information helps.  
Sincerely,

Rachel Weiss

Message:  
CP 7 is my preference (assuming it has Bozeman in the west).

It is very difficult to tell which city is in which district, so adding at least the major cities, to the maps, would be helpful, especially Great Falls and Bozeman.

I'd like to know what the old 2 congressional districts were (I googled and could not find a map), so including a small history section and the old map to your webpage would be helpful. Those who do not learn from history are doomed to repeat it.

**Subject:** [EXTERNAL] CONGRESINAL DISTRICTING MAPS

This is in response to the map information posted on the front page of the 10/13/21 issue of the Billings Gazette. The only information given on each map is the percentage of votes that Trump and Biden received in the split. I couldn't care less. I want to know what percent of Montanans live on each side of the line. No town should be split and if at all possible, no county should be split.

Proposals #1, #3 and #5 look good but that is not knowing the % of voters on each side of the line. #7 is close. There is no rhyme or reason for #4 or #8. Proposals #2, #6, & # 9 are the Demarcates trying to concentrate their voting power, not the serving the Citizens of Montana.

Again, what is the percentage of voters on each side of the line? Not Republican or Demarcate but MONTANANS. The split should be within one percent.

**Subject:** [EXTERNAL] RE: Proposal for Redistricting Videos

Hey Rachel and Joe,

This project is covered under the scope of services that MontanaPBS is providing through the MPAN contract, so there is no need to worry about cost. That being said, it is probably not feasible for us to travel to Billings or Arlee – but we have other business needs we can meet when we go to Bozeman, should that be necessary to accommodate that commissioner. So hopefully, it will work to catch as many of the commissioners in Helena as we can.

We will certainly keep you, the commission staff, in the loop on all plans, appointments, and content ideas/requests and also welcome your direction as well. So any level of involvement LSD is up for or wanting works for us. Thank you for the insight on the commissioner's schedules, that would certainly work for us. I think the morning of the 19<sup>th</sup>, I may not have my additional production support (camera and producer) but we are good for the 20<sup>th</sup>/21<sup>st</sup> and 30<sup>th</sup>.

This is great, let me know what the next step is and how we should proceed in setting these up. Additionally if you need more language or have questions that need answered, let me know. Thank you!

K'Lynn

---

**To:** Harris, K'Lynn <[klynn@montanapbs.org](mailto:klynn@montanapbs.org)>  
**Cc:** Kolman, Joe <[jkolman@mt.gov](mailto:jkolman@mt.gov)>  
**Subject:** RE: Proposal for Redistricting Videos

Hi K'Lynn,

Thanks for sending this along. I'll run it by Joe, too, who might have some ideas since he is involved in both the website and the districting. One question I think I'll get asked is cost. Would you need funding from the commissioner or the LSD for the videos? Or would the partnership be a mutual benefit type of thing covered under the contract with PBS already? I think Joe might have to run this idea through other folks here, but I'll let you know. I've cc'd Joe on this reply, so he has the initial information and my reply.

We (the staff) don't necessarily need to be present. I think that would add to the scheduling challenges. We can be if they would like us to. But I think we could help with some ideas for topics and questions. The 19<sup>th</sup> and 21<sup>st</sup> meetings are likely to start around 10 am, so you might be able to catch a few of them then. Also, the commissioners will be back for a public hearing on October 30<sup>th</sup>, so that's another option for days. Given the start times of most of the meetings, even the out of town people often come early or stay over the night. So we could help do introductions and to coordinate with schedules.

Thanks for this and we'll be in touch.  
Rachel

**Cc:** Kolman, Joe <[jkolman@mt.gov](mailto:jkolman@mt.gov)>  
**Subject:** RE: Proposal for Redistricting Videos

Hi K'Lynn,  
Thanks for sending this along. I'll run it by Joe, too, who might have some ideas since he is involved in both the website and the districting. One question I think I'll get asked is cost. Would you need funding from the commissioner or the LSD for the videos? Or would the partnership be a mutual benefit type of thing covered under the contract with PBS already? I think Joe might have to run this idea through other folks here, but I'll let you know. I've cc'd Joe on this reply, so he has the initial information and my reply.

We (the staff) don't necessarily need to be present. I think that would add to the scheduling challenges. We can be if they would like us to. But I think we could help with some ideas for topics and questions. The 19<sup>th</sup> and 21<sup>st</sup> meetings are

likely to start around 10 am, so you might be able to catch a few of them then. Also, the commissioners will be back for a public hearing on October 30<sup>th</sup>, so that's another option for days. Given the start times of most of the meetings, even the out of town people often come early or stay over the night. So we could help do introductions and to coordinate with schedules.

Thanks for this and we'll be in touch.  
Rachel

**Subject:** [EXTERNAL] Proposal for Redistricting Videos

Hey Rachel!

Here's my very draft-type language to propose the videos to the commissioners. I'm happy to add any more language you think might be necessary. I'd like to shoot the Helena folks asap, maybe run to Bozeman for Commissioner Miller, but then plan to finish up with the Chair and the out of towners as necessary when they are here for the meeting. (If they are around but not otherwise booked on the in-between day in October.) Let me know what you think, or if we want to approach this in a different way. Does your staff want to be present for the interviews? Happy to clear the questions with you, make sure we have all the ones we need and get the content that will meet our needs.

Thanks!

K'Lynn

Redistricting and Apportionment Commission  
Public Outreach Video Project

In October, Legislative Services Division (LSD) and the Montana Public Affairs Network (MPAN) would like to conduct brief interviews with the five members of the commission. The purpose is to provide content to enhance the Districting and Apportionment website, draw a larger audience to it, and bolster public participation in the process through awareness.

With the content, MPAN in conjunction with LSD will create short videos for public outreach that can be added to the Commission's website and posted on social media in timely intervals to help draw attention to meetings, deadlines, and opportunities for public comment. The content may also be used for Public Service Announcements and interstitials for MPAN programming. It is a good opportunity for public outreach, and a way for the public to get to know the body entrusted with the redistricting process, a direct outreach from the commissioners to the public.

The crew is Helena and Bozeman based, so the interviews can be scheduled individually at a time and location convenient for the commissioners. We can conduct it in the Capitol or at a local location of your choosing (provided the desired production quality can be attained at the location.)

K'Lynn Sloan Harris, Production Manager at MPAN will be contacting you to schedule a time, or you can reach her at [klynn@montanapbs.org](mailto:klynn@montanapbs.org), or 406-438-5404.

Hey Rachel and Joe,

This project is covered under the scope of services that MontanaPBS is providing through the MPAN contract, so there is no need to worry about cost. That being said, it is probably not feasible for us to travel to Billings or Arlee – but we have other business needs we can meet when we go to Bozeman, should that be necessary to accommodate that commissioner. So hopefully, it will work to catch as many of the commissioners in Helena as we can.

We will certainly keep you, the commission staff, in the loop on all plans, appointments, and content ideas/requests and also welcome your direction as well. So any level of involvement LSD is up for or wanting works for us. Thank you for the insight on the commissioner's schedules, that would certainly work for us. I think the morning of the 19<sup>th</sup>, I may not have my additional production support (camera and producer) but we are good for the 20<sup>th</sup>/21<sup>st</sup> and 30<sup>th</sup>.

This is great, let me know what the next step is and how we should proceed in setting these up. Additionally if you need more language or have questions that need answered, let me know. Thank you!

K'Lynn

Joe and Rachel please put my two cents worth in again on the new districts. Don't complicate things. Go back to the previous two districts that we had. Remember that I survived running that way, and could survive again.

Gary

Commissioners,

The Montana Public Affairs Network is working with the Legislative Services Division to create videos for the Districting Commission and about redistricting with an eye to publicizing your work on state legislative redistricting. (MPAN broadcasts to television audiences statewide and also operates the cameras that stream your meetings live.) The attachment outlines the goals for the video project. The MPAN staff is hoping to set times to interview as many of you as are interested and available in the coming weeks. Next week, their staff will be available on Wednesday the 20<sup>th</sup> and prior to your meeting on the 21<sup>st</sup> to conduct interviews. I've cc'd the MPAN staff, K'Lynn Harris, on this email. If you are interested in setting up an interview time with her, please contact her ([klynn@montanapbs.org](mailto:klynn@montanapbs.org)). She's worked in the past on long-form video interviews with former legislators, legislative staff, and longtime lobbyists and reporters to capture some of Montana's legislative history. She has also worked to create short videos of legislators to help them explain their roles and districts to Montanans.

The attachment includes some sample questions in case you'd like a preview of what you can expect in terms of questions.

Thanks and don't hesitate to reach out with questions.

Sincerely,

Rachel Weiss

**Sent:** Saturday, October 16, 2021 3:06 PM  
**To:** Districting <districting@mt.gov>  
**Subject:** [EXTERNAL] Comment, proposed congressional district maps.

Commissioner Smith, Commissioners Essmann, Lamson, Miller, Stusek:

### I. The technical quality of the nine proposed maps is poor and unacceptable.

(1) Neither the PDF nor the online my [districting.com](https://www.districting.com) maps contain sufficient detail for citizens to render an informed opinion. Highways and cities and towns are omitted. The county names are followed with MT, which is redundant and unnecessary. The online maps are obscured with little spheres corresponding to comments. I had to consult non-commission maps to understand the commission's maps well enough to comment on them.

(2) The color scheme for the PDF maps — pale shades of red and green with almost identical brightnesses, and a yellow line for district boundaries — is hard on citizens with deficient color vision ( $\approx 5\text{--}8\%$  of men,  $\approx 0.5\%$  of women).

**Recommendation:** the final map should comply with federal accessibility standards (<https://www.usability.gov/get-involved/blog/2010/02/color-blindness.html> [usability.gov]).

(3) The supporting tables provide the populations of the districts, but neither the areas (miles<sup>2</sup>), the perimeter to area ratio, or measures of compactness.

(4) There are no maps displaying the current county populations and the county populations for 1980. Those data would provide a useful context for why the east-west boundaries set after 1980 now cannot meet the district population equality standards required by *Wesberry v. Sanders*.

(5) After the 2010 census, the redistricting commission provided the legislative district boundaries as KML (compressed version is KMZ) files that can be imported by Google Earth. That's a tremendously useful format.

**Recommendation:** provide KML files for the final congressional district map and for the yet to come legislative district maps.

## II. I prefer proposed maps six (6) and eight (8), which are functionally equivalent

(1) The districts are functionally identical in population, giving the commission the ability to relax population equivalence by a few hundred persons to better keep communities together.

(2) District 1 for both maps lean Republican but are politically competitive according to [fivethirtyeight.com](http://fivethirtyeight.com) [fivethirtyeight.com]. The table below displays 538's competitiveness ratings.

### 538 Partisan Lean

| Map | D-1  | D-2  |
|-----|------|------|
| 1   | R 18 | R 23 |
| 2   | R 5  | R 35 |
| 3   | R 18 | R 23 |
| 4   | R 8  | R 34 |
| 5   | R 15 | R 24 |
| 6   | R 4  | R 35 |
| 7   | R 18 | R 23 |
| 8   | R 3  | R 37 |
| 9   | R 5  | R 35 |

(3) Political competitiveness, meaning the major parties candidates have an approximately equal chance of winning, ensures that campaigns for political office are robust marketplaces of ideas and policy proposals. They foster the innovations for improving society that maintain a democracy. One-party rule, which defines non-competitive districts, shrinks the marketplace of ideas, narrowing its intellectual width. The real contest take place in the primary election of the dominant party. One-party rule diminishes the political and intellectual vitality of a congressional district in the same way that intellectual vitality is diminished in a family that has too many kissing cousins.

(4) Maps 6 and 8 are highly faithful to county lines and existing governmental divisions, and do not seem to split communities. Map 8 may include a small section of Billings — it's hard to tell given the lack of detail in the maps. If cities are split, the carveouts should be minimized.

(5) **Members of Congress represent people**, not cows, not pigs, not junkyards, not coal mines, not hayfields, not rivers, not lakes, not mountains, not prairies. Because district boundaries must consolidate communities, it does not matter whether boundaries cross mountain ranges or rivers.

(6) Montana would be better off with one two-seat at large district with ranked choice elections. I note this for the record because that scheme requires changing federal law and amending Montana's constitution.

James R. Conner

Best regards,  
Megan Maier

On Sat, Oct 16, 2021 at 3:43 PM Megan Maier <[meganmaierb@gmail.com](mailto:meganmaierb@gmail.com)> wrote:

Dear Montana Districting and Apportionment Commissioners:

Thank you for the opportunity to submit public comments during this important redistricting process. As a Montanan, I feel proud that the Commission is independent and I commend the Commission for deciding to allocate incarcerated Montanans at their last known address. I encourage the Commission to work to ensure every voter has an equal voice by adopting the fairest map possible.

To ensure fairness, follow the mandatory criteria, and meet as many of the Commission's adopted goals as possible, the Commission should adopt Map #2. However, if the Commission does not select Map #2, then the Commission should choose either Map #6 or Map #8.

The Commission should adopt a map that splits the populations of the two districts as equally as possible.<sup>1</sup> Redistricting is subject to the Voting Rights Act and, as stated in the Montana State Code, the most important criterion for redistricting is making the districts as equal as practicable.<sup>2</sup> Map #6 and Map #8 maintain an almost equal population division, while

Map #2 produces a de minimis deviation of only 0.02%. Other proposed maps create a relative deviation of as much as 0.7%. While the Commission would be within the constraints of the Montana State Code to adopt any of the proposed maps, none of which has more than a plus or minus 1% relative deviation,<sup>3</sup> the Commission should attempt to make the districts as equal as practicable by choosing one that creates districts with a small difference in population size.

Additionally, the Commission must aim to split the fewest number of counties and cities.<sup>4</sup> As stated in the Montana State Code, the second most important criterion in the development of legislative districts, which is subject to the Voting Rights Act, is matching district boundaries with the boundaries of political subdivisions of the state to the greatest extent possible.<sup>5</sup> To meet its adopted goals, the Commission should also avoid drawing lines through reservations. Map #2 splits no counties, while all other proposed maps split at least one county. While Map #6 and Map #8 split three and four counties, respectively, they avoid drawing lines through reservations. Additionally, while Map #8 splits Yellowstone County, this division abides by the Montana State Code.<sup>6</sup>

The Commission must also choose a map that creates districts that are contiguous and compact.<sup>7</sup> Each proposed map includes two contiguous districts and every map necessarily creates two districts that are smaller than the current at-large district. According to the Montana State Code, the compactness of a district is greatest when the length of the district and the width of a district are equal and a district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.<sup>8</sup> While some of the proposed maps divide the state vertically down the middle, creating more compact districts, this criterion is last in order of importance, according to the Montana State Code. To comply with the Voting Rights Act, the Commission should first consider the criteria discussed above before considering compactness.

Finally, the Commission should adopt Map #2 to allow for the possibility of at least one competitive congressional seat and to ensure that no party is unduly favored.<sup>9</sup> If the Commission does not select Map #2, the Commission should select either Map #6 or Map #8. All other proposed maps are likely to produce two noncompetitive seats.<sup>10</sup> When elected officials must compete for votes, they are more likely to be engaged and interested in their constituents' opinions.

In sum, I encourage the Commission to select a map that creates two districts that are nearly equal in population, fosters political competition, and does not split counties (but if it does, it should not divide reservations). Map #2 goes the farthest toward abiding by the Montana State Code, complying with the Voting Rights Act, and meeting the Goals for Congressional Districts adopted by the Montana Districting and Apportionment Commission in July 2021.

Thank you for considering my comments. Sincerely,  
Megan Maier, esq.

Hi Rachel,

Thanks so much for checking! I'd prefer the PDF only because the Sincerely is on its own line — my mistake in the email! However, the PDF you sent is also fine. But first: I'm wondering if I can reply to this email with a new PDF (or all text in the email) as there's a sentence I'd like to add. If it's too late to rescind and replace, I understand! Regardless, I should've noted that I live in Bozeman.

With much appreciation for your work,  
Megan

Apologies for the double email — I neglected to include a PDF of my comments for easier printing, if needed.

Best regards,

Megan Maier

On Sat, Oct 16, 2021 at 3:43 PM Megan Maier <[meganmaierb@gmail.com](mailto:meganmaierb@gmail.com)> wrote:

Dear Montana Districting and Apportionment Commissioners:

Thank you for the opportunity to submit public comments during this important redistricting process. As a Montanan, I feel proud that the Commission is independent and I commend the Commission for deciding to allocate incarcerated Montanans at their last known address. I encourage the Commission to work to ensure every voter has an equal voice by adopting the fairest map possible.

To ensure fairness, follow the mandatory criteria, and meet as many of the Commission's adopted goals as possible, the Commission should adopt Map #2. However, if the Commission does not select Map #2, then the Commission should choose either Map #6 or Map #8.

The Commission should adopt a map that splits the populations of the two districts as equally as possible.<sup>1</sup> Redistricting is subject to the Voting Rights Act and, as stated in the Montana State Code, the most important criterion for redistricting is making the districts as equal as practicable.<sup>2</sup> Map #6 and Map #8 maintain an almost equal population division, while Map #2 produces a de minimis deviation of only 0.02%. Other proposed maps create a relative deviation of as much as 0.7%. While the Commission would be within the constraints of the Montana State Code to adopt any of the proposed maps, none of which has more than a plus or minus 1% relative deviation,<sup>3</sup> the Commission should attempt to make the districts as equal as practicable by choosing one that creates districts with a small difference in population size.

Additionally, the Commission must aim to split the fewest number of counties and cities.<sup>4</sup> As stated in the Montana State Code, the second most important criterion in the development of legislative districts, which is subject to the

Voting Rights Act, is matching district boundaries with the boundaries of political subdivisions of the state to the greatest extent possible.<sup>5</sup> To meet its adopted goals, the Commission should also avoid drawing lines through reservations. Map #2 splits no counties, while all other proposed maps split at least one county. While Map #6 and Map #8 split three and four counties, respectively, they avoid drawing lines through reservations. Additionally, while Map #8 splits Yellowstone County, this division abides by the Montana State Code.<sup>6</sup>

The Commission must also choose a map that creates districts that are contiguous and compact.<sup>7</sup> Each proposed map includes two contiguous districts and every map necessarily creates two districts that are smaller than the current at-large district. According to the Montana State Code, the compactness of a district is greatest when the length of the district and the width of a district are equal and a district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.<sup>8</sup> While some of the proposed maps divide the state vertically down the middle, creating more compact districts, this criterion is last in order of importance, according to the Montana State Code. To comply with the Voting Rights Act, the Commission should first consider the criteria discussed above before considering compactness.

Finally, the Commission should adopt Map #2 to allow for the possibility of at least one competitive congressional seat and to ensure that no party is unduly favored.<sup>9</sup> If the Commission does not select Map #2, the Commission should select either Map #6 or Map #8. All other proposed maps are likely to produce two noncompetitive seats.<sup>10</sup> When elected officials must compete for votes, they are more likely to be engaged and interested in their constituents' opinions.

In sum, I encourage the Commission to select a map that creates two districts that are nearly equal in population, fosters political competition, and does not split counties (but if it does, it should not divide reservations). Map #2 goes the farthest toward abiding by the Montana State Code, complying with the Voting Rights Act, and meeting the Goals for Congressional Districts adopted by the Montana Districting and Apportionment Commission in July 2021.

Thank you for considering my comments. Sincerely,  
Megan Maier, esq.

**Subject:** RE: Redistricting Video Project

**Categories:** DACRequest1688, PublicInfo1688

Hi K'Lynn,  
I'm glad you got one booked. I wasn't sure if there was time on the 22<sup>nd</sup> for Commissioner Lamson, so I'll leave that to you to decide. I think if you wanted to send out the followup with specific suggestions of times that might be best. Then they can respond to you specifically. I also sent them a lot of emails this weekend, so you might get a different response with an email or call. I can get you numbers if you prefer to call.  
Thanks for working on this,  
Rachel

**Subject:** [EXTERNAL] RE: Redistricting Video Project

Hey Rachel!

I have only heard from Dan today. Let me know if you think it would be appropriate to send out a follow up with specific times? Either you could or I'd be happy to also.

I thought defining times might be helpful:

Wednesday, October 20th

9:30 – Dan Stusek

11:00 –

1:00 –

3:00 –

Thursday, October 21<sup>st</sup>

8:30 --

Or, the commissioner may arrange another time by reaching out to us.

Thanks!

K'Lynn

**Subject:** Redistricting Video Project

Commissioners,

The Montana Public Affairs Network is working with the Legislative Services Division to create videos for the Districting Commission and about redistricting with an eye to publicizing your work on state legislative redistricting. (MPAN broadcasts to television audiences statewide and also operates the cameras that stream your meetings live.) The attachment outlines the goals for the video project. The MPAN staff is hoping to set times to interview as many of you as are interested and available in the coming weeks. Next week, their staff will be available on Wednesday the 20<sup>th</sup> and prior to your meeting on the 21<sup>st</sup> to conduct interviews. I've cc'd the MPAN staff, K'Lynn Harris, on this email. If you are interested in setting up an interview time with her, please contact her ([klynn@montanapbs.org](mailto:klynn@montanapbs.org)). She's worked in the past on long-form video interviews with former legislators, legislative staff, and longtime lobbyists and reporters to capture some of Montana's legislative history. She has also worked to create short videos of legislators to help them explain their roles and districts to Montanans.

The attachment includes some sample questions in case you'd like a preview of what you can expect in terms of questions.

Thanks and don't hesitate to reach out with questions.

Sincerely,

Rachel Weiss  
Legislative Research Analyst

**Subject:** [EXTERNAL] Comments from a voter and Montana citizen regarding the redistricting of Montana for two Congressional Districts

Dear Appointed Officials Tasked with Drawing the Boundary Lines for two Montana Congressional Districts:

Since the deadline to submit written comments for the redistricting of our two Congressional districts is Oct. 19, I'm rushing to send this email to you. I hope others will use your emails to contact you today and tomorrow. Anyone in Montana can submit comments.

Logically, the highest population areas of Missoula, Kalispell Butte, Bozeman, Great Falls, Bozeman and Billings should be evenly divided between the two congressional districts along with the rural areas so all people in Montana are properly represented.

In that regard, as I look at the various map options, I prefer options CP1, CP3 and CP7 but seem to prefer CP3 the best because it looks like the most balanced. Some of the maps seem to have included all the cities or most of the cities in one of the districts and not the

other, which will not be fair to the population. I looked at all the maps at <http://mtredistricting.gov> [mtredistricting.gov] and reviewed that website. Several of the maps looked like commissioners were capturing how they thought voters voted in previous elections and not where voters lived, which violates law.

How certain areas of the state voted should not determine where you draw the map. The population distribution should determine the districts so that the most number of people in the state are properly represented.

I welcome comments to me from you. I am attending a funeral tomorrow so will not be able to attend your meeting in person in Helena that begins at 10 a.m. at State Capitol Room 102, but I hope the media will attend.

Please send me the connections so I can “attend” via ZOOM or telephone.

**Subject:** RE: [EXTERNAL] MDAC Comment from: John Oetinger

Hi Rachel,

Now that I've had some more time to review the maps and see that Bozeman is in the east in CP7, I want to change my feedback: CP9 is my preferred map.

The logic is:

I don't approve of gerrymandering, regardless of who benefits, and 2, 4, 6 and 8 are gerrymandering.

However, I do approve of districts including likeminded voters so that their representative can do a good job of representing their constituents, if that can be done without blatant gerrymandering.

1, 3, 5 and 7 divide the state roughly along a north south line, so minimal to no gerrymandering, but too much of a mix of contradictory constituents.

Therefore, CP9 is the best choice (too bad there are no native American tribes in the west in CP9, but you can't have everything).

Thanks

Message:  
CP 7 is my preference (assuming it has Bozeman in the west).

It is very difficult to tell which city is in which district, so adding at least the major cities, to the maps, would be helpful, especially Great Falls and Bozeman.

I'd like to know what the old 2 congressional districts were (I googled and could not find a map), so including a small history section and the old map to your webpage would be helpful. Those who do not learn from history are doomed to repeat it.

**Subject:** RE: [EXTERNAL] redistricting testimony

**Categories:** DACRequest1688, PublicInfo1688

Dear Ms. Gockel,

Thank you for providing your written comments. They will be included in a packet of comments the commissioners receive next week. During the 10/19 public hearing, the presiding officer called on every participant on Zoom with their hands raised. Because a number of people use Zoom to watch the meeting but don't intend to testify, you will not be called on if your hand is not raised.

The commission is hold another public hearing on October 30 to hear input on two proposals. More information about the meeting and the proposals is available at: <https://mtredistricting.gov/october-30-2021-meeting/>. Again, you can provide written comments or sign up for Zoom participation. If you do choose to participate on Zoom, please raise your hand when the presiding officer calls for public comments so she can see who would like to speak. Written comments are encouraged. Written comments are taken:

- directly on the interactive maps online ([https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links));
- through the commission's webform (<https://mtredistricting.gov/contact/>);
- by email at [districting@mt.gov](mailto:districting@mt.gov); or
- by mail to Districting and Apportionment Commission, PO Box 201706, Helena, MT 59620.

I hope this information helps. Please let me know if you have any questions.

Sincerely,

Rachel Weiss  
Legislative Research Analyst

Subject: [EXTERNAL] redistricting testimony

Good morning commissioners,

I participated in the redistricting meeting via Zoom on Tuesday for as long as I could but was never called to testify. I hope it's not too late to provide my input now.

Two of the goals of the commission that are important to me are to keep communities of interest together and to keep towns, cities, counties and reservations whole. Toward that end, I'd encourage keeping Madison County and all of Gallatin County together in the same district. Maps 2, 6 and 8 meet both of those goals.

Both Madison and Gallatin County have economies that are heavily dependent on outdoor recreation. People come from all over to fish our rivers and play on our gorgeous public lands. Not only are both of our economies dependent on outdoor recreation but they are also entwined when it comes to healthcare. When the people of Madison County need vision care or glasses, hearing aides or more advanced healthcare, we go to Bozeman. People live in Madison County but commute to Bozeman to work. And then there's Big Sky. Big Sky sits in both counties and is economically important for both. People also live in both Gallatin and Madison County and work in Big Sky.

Keeping Gallatin County whole and keeping Madison and Gallatin counties in the same district ensures towns are kept whole and communities of interest stay united. Keeping us in the same district will strengthen our ability to influence our member of congress when it comes to policies about healthcare and protecting our public lands and the National Park System that are vital to outdoor recreation.

I'm encouraging the commission to pick a map that keeps Madison and Gallatin counties together.

Thank you for your time in doing this difficult but so important work.

Cindy Gockel  
Ennis

Subject: [EXTERNAL] 10 and 11

Joe and Rachel: I think 10 and 11 might be OK with me. It is probably the closet dividing the state like it was before for two districts.

If I ran for the House or the US Senate I could win with 10 and 11.  
Oh well, I don't have enough money to run for anything.

Thanks for all you two have done on this committee..

Gary You will be receiving another issue of our newsletter the White Hat Express.

Based on the article and maps in the Missoulian yesterday (which are not very clear), I prefer the new map 11 over the new map 10.

Same logic:

I approve of districts including likeminded voters so that their representative can do a good job of representing their constituents.

It appears map 11 has Missoula, Butte, Helena and Bozeman in the west, and Great Falls and Kalispell in the east, which is fine. Like I said, the maps are not very clear in the Missoulian, so if that's incorrect, please clarify.

Thanks

Hi Rachel,

Now that I've had some more time to review the maps and see that Bozeman is in the east in CP7, I want to change my feedback: CP9 is my preferred map.

The logic is:

I don't approve of gerrymandering, regardless of who benefits, and 2, 4, 6 and 8 are gerrymandering.

However, I do approve of districts including likeminded voters so that their representative can do a good job of representing their constituents, if that can be done without blatant gerrymandering.

1, 3, 5 and 7 divide the state roughly along a north south line, so minimal to no gerrymandering, but too much of a mix of contradictory constituents.

Therefore, CP9 is the best choice (too bad there are no native American tribes in the west in CP9, but you can't have everything).

Thanks

Message:

CP 7 is my preference (assuming it has Bozeman in the west).

It is very difficult to tell which city is in which district, so adding at least the major cities, to the maps, would be helpful, especially Great Falls and Bozeman.

I'd like to know what the old 2 congressional districts were (I googled and could not find a map), so including a small history section and the old map to your webpage would be helpful. Those who do not learn from history are doomed to repeat it.

Hi Christi and Rachel.

Rachel called on Friday asking if we can share info about an RFI relating to redistricting with our distribution list. Christi, let's do that, and also give Rachel the list of vendors Ben has been updating (I'm not sure where it's stored). Rachel is at 406-444-5367.

Rachel, how quickly would you like this to go out? We've begun aiming for one email/week, on Fridays. That's by no means declarative.

Also, try calling me again on the Native American question—I just tried you, and am free at 10:45 MT if that works for you.

Subject: [EXTERNAL] Comments on two options

Re-districting is difficult, so kudos to the group for getting to this point. As a long-time Montanan, I'd be curious to see what the last 2 Congressional district map looked like. I've called Montana home for 40 years and I've lived and continue to do business and recreate on both sides of the Divide, and in both potential Congressional Districts. Maybe I've missed that comparison ... but then, what matters today is current demographic and voting patterns and how to split the state to create two 'equal' districts: equal in population and in competitiveness. Times have changed since the 1980's that's for sure! I used to work in central and eastern Montana and then you could count on about a third of voters identifying as 'independent' - which to them meant neither Republican or Democrat, but whomever they felt most genuine and suited for the task. Times have changed since the 1980's!

For compactness, both of the current proposals seem to fit that intuitive bill.

Both split a county, both counties that are growing faster than others. Both seem to make the split between rural and urban portions of the county. One county will therefore have possibly a greater logistical burden during Congressional elections, and placing this on a larger county (ostensibly with greater resources and ability to bear that burden) makes sense.

One split is in the mountains but east of the Divide, the other in the mountains west of the Divide. You could look at culture to assist and it would seem Flathead county is 'western' but Blackfeet Reservation 'eastern', but keeping Flathead in western (along with Gallatin) and Blackfeet in eastern would certainly not create competitive districts, so putting one community in eastern and one in western seems the appropriate way to go. Bozeman is east of the Divide, an old 'cow town' yet has a strong libertarian leaning that has toppled some of the State's most popular Democratic leaders. And, the notion of 'culture' is changing as more and more people from Georgia, Texas, and California move into mountainous Montana... the simplistic notion of western Montana being resource extraction and eastern Montana being agricultural production is breaking down.

Of the two, CP # 11 seems to do the best job of threading this complex needle.

Thank you for your consideration.

Anne Black,

Missoula and Carbon Counties

**Subject:** [EXTERNAL] Re: Nov. 4 tentative agenda

Rachel,

Looks good to me. Thanks. I may give you a call tomorrow to see if you can help me identify a map previously submitted that has been referred to a couple of times in comments

Maylinn

On Mon, Oct 25, 2021, 2:45 PM Weiss, Rachel <[RWeiss@mt.gov](mailto:RWeiss@mt.gov)> wrote:

Hi Maylinn,

Here's a copy of the tentative agenda for November 4. I added that the public comment portion will be on a map selected on October 30. If this still looks ok, I'll post it online and send out a note to the interested persons list. That way, the commission will be giving people a heads up on the time, location, and topic of the Nov. 4 meeting even if the specific map is yet to be decided.

Thanks in advance for your guidance, and I hope you enjoyed the weekend.

Sincerely,

Rachel

I was just teasing. I think you should use it as much as you want and need. That's the goal for sure. If it can be posted somewhere online, we could do a blog post about it and try to link from the commission's page. I could ask Trista to make a page for Outreach or videos or something like that before she leaves. I've cc'd Joe on it so he could see it.

Hi Maylinn and Dan,

CP 12 is going to be one of the maps posted online soon. There are a few non-contiguous areas that I found when running one of the scans in our redistricting software. Before I post them online, is it ok if I assign those non-contiguous areas to the right district? None of them involve any people. They are all small slivers of rivers or near county lines. I've attached screenshots. The other option is to post the map as is and amend the slivers if the map is needed to move forward. I consider these all clerical changes in that they don't affect population.

Thanks in advance for the advice.

**To:** [Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov) <[Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov)>

Dear Ma'am:

In my opinion, the Redistricting Commission should throw out all previous maps and go with this map proposed by Tonya Dyas that has NO SPLIT Counties or Reservations.

In addition, it ensures "communities of interest" have approximately equal representation in BOTH districts, as well as that BOTH districts have borders with Canada.

As Tonya wrote:

"I don't think more perfect maps could be drawn. These proposed maps are based strictly upon population & contiguous counties. Absolutely no gerrymandering was involved. No counties are divided and none of the Tribal groups are divided. Best yet, the population difference between District 1 & 2 is only +/- 50 people for a population deviation of 0% .

It complies with all the Montana statutes and constitutional requirements.

The population of the green district is 542,062 (-50) and the orange district is 542,163 (+51) for a net difference of 101. The big thing is that NOT ONE COUNTY IS SPLIT !"

The important point is that this map is LEGAL.

As I said in my comments last time, we should be focusing on COOPERATION as EQUALS, not on competition between those who accept Reality and their places in it and those who do not.

Thank you.

Theresa Holmes

**Subject:** Draft DAC agenda for 9/17

Good afternoon, Maylinn –

I hope all is well in Arlee. I've attached a draft agenda for September 17. It's all-Zoom unless you wanted to have the hybrid option. We have a room reserved so it's easy either way. I had a couple questions or notes, which I've listed below:

1. Question: Is the start time ok? We could go as early as 8. I wasn't sure how to allocate time for the map viewing. But I figured if it was a Zoom meeting, lunch would be easier for people to acquire quickly if we ran long. I also left break times up to your discretion since Zoom meetings are different in that sense, too. There's some extra time in the Work Session and maybe the final public comment. Though again, I'm not sure how to plan out that time.
2. Note: I added the letters and legislation approval to the start, so hopefully that will go quickly. I'll have revised drafts of each letter for the meeting. I'm working with Dan on the context he suggested adding. I didn't add more time for public comment, but I could if you wanted. [I changed this after talking with Ginger.]
3. Note: The Census results discussion is mostly just an initial high-level dive on the population changes. Commissioner Miller had suggested this for August when we'd just received the data. We could also just put the information on the website if you didn't want to devote meeting time to it.
4. Note: After a few weeks of receiving public maps, Joe Kolman and I have a suggested change to the operating procedures that cover public map submissions. A number of people are submitting links to maps they created online. The linked maps are pretty functional and don't require us to download any data to display the map for you. Some sites even allow us to download the data for a plan. I've attached a suggested amendment that could allow people to submit links going forward. If the commissioners wanted to base a plan off of someone's submission from a site that didn't already allow us to download the map, staff could contact the person to get the underlying data in a format we can load into Maptitude (block equivalency or shapefile). Here's an example of a map from a link: <https://districtr.org/plan/38824> [districtr.org]
5. Question: Is it ok if we keep accepting links even if the operating procedures don't mention it yet? We've been accepting those linked maps as public submissions so far simply because the maps seemed useable, and I didn't want to make people go back and download/send us data if the links would suffice. If you'd prefer the commission amend the procedures first, I can contact the submitters and see if they can send us files instead. I didn't anticipate the link method of submission.
6. Question: Is it ok to combine the public comment and map submissions deadlines? The 72-hour deadline for public comment is 5 pm September 14 (Tuesday). But the soft deadline for maps is 5 pm the next day, September 15. I was wondering if you thought it would be ok to combine those two deadlines on the 15<sup>th</sup>. It might be less confusing for people who would otherwise be facing a Tuesday deadline for public comments, a Wednesday deadline for map submissions, and a Thursday deadline to sign up for Zoom participation. The downside is that it gives the commissioners less time to review the comments.

I think that's it for now. I know that's a lot. So feel free to give me a call if that's easiest. I'll need to notice the meeting publicly on Tuesday the 7<sup>th</sup>. So there's some time to think.

Thanks in advance for the time and for your guidance on the agenda.

Sincerely,

Rachel Weiss

Good morning, Lori -

Thanks for emailing and for working to provide maps to the commissioners. We're not able to provide technical support for the various public mapping tools. Dave's does have a library of articles with tips on how the mapping features: <https://medium.com/dra-2020> and an email for questions is [feedback@davesredistricting.org](mailto:feedback@davesredistricting.org). Please know the commissioners are currently focusing on the Congressional maps because of a 90-day deadline to complete those districts. After the Congressional districts are done later this fall (early November) they will turn their attention to state legislative map suggestions. Other mapping tool options are listed at: <https://mtredistricting.gov/participate/> I hope this information helps and good luck with your map.

**Subject:** RE: redistricting

**Categories:** DACRequest1688, PublicInfo1688

Hello Senator Lang,

We're still working on some tools to help the redistricting commissioner see the population changes from 2010 to 2020 using the current district boundaries. One resource that I have been using in the meantime is at <https://www.redistrictingandyou.org/#map=3.5/38.5/-103> The link takes you to a view of the population figures and Congressional District boundaries. If you look at the upper left hand side of the page, though, you'll see an option to look at maps of the Upper and Lower chambers for state legislatures. You can also look at population changes from 2010 to 2020 or "difference from the average." The site uses different terms than we do in redistricting. We use "ideal district size" instead of average. They also haven't updated the names of the incumbent legislators. So there's that caveat. But overall, the site is pretty functional and loads quickly. The numbers generally seem to line up with what I'm seeing in our redistricting software. I hope this helps and let me know if you have any questions.

Joe and Rachel. For what it is worth, and my being a former candidate for Congress who ran when we had two House seats here is my opinion for a map.

Divide the state in half like we had in 1984. The public had accepted that and will again. Please do not make it complicated, and you can quote me to the committee. The 1984 map was fine. Use me as a source for this opinion as I had to follow it and did. I lost to Pat Williams and did not complain. I could maybe win this time with the same map.

Gary Please count this as my recommended map. Thank you Joe and Rachel

**Subject:** RE: Question from fellow staffer: can you help?

**Categories:** DACRequest1688, PublicInfo1688

Hello Ben,

Sorry for the delay in getting back to you. The 2010 redistricting commission adopted a procedure on the use of racial and ethnic data (<https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Other-Documents/1199RWFA-operating-procedures-7-12-2011.pdf> pages 5-6). The 2020 commission hasn't addressed the topic yet, but it might come up when they look at racially polarized voting analyses for state legislative districts. They are currently working on draft RFP language for that type of analysis. Until we have further guidance, I think the staff will use the DOJ/OMB fields in Maptitude. I'll let you know if something changes.

Thanks,  
Rachel

**Subject:** [EXTERNAL] Question from fellow staffer: can you help?

Hello members of the Redistricting Staff Network,

Wendy, Christi and I received a question from a legislative staffer about OMB vs. DOJ race categories used in redistricting. Is your state planning on using the OMB or DOJ race categories in your redistricting software? Any further context about your state's decision may be helpful and would be most welcome.

Thanks again for your assistance!

Best,

Subject: [EXTERNAL] Districting and Apportionment Map and Comment Submission

Districting and Apportionment Committee,

Here is my proposed map submission for the Congressional redistricting. I have reviewed this map and, while not perfect, it best supports the concept of an east/west split that I believe is the most sensible for Montanans. The issues of the largely agricultural east are different from those of the mountainous west, so this keeps issues of like concern bound together. This map also keeps the two large reservations, Browning and CSKT, in one district.

This map achieves a .02% population deviation--well within the required restrictions and in compliance with Montana constitutional requirements, and it also agrees with the precedent established when we previously had two House representatives. Naturally, I expect the commission to comply with HR506, the Montana Constitution, and other applicable and binding laws.

My map may not have attached, but in the east/west maps, keep Bozeman and Missoula in separate Congressional districts.

Thank you for your efforts and consideration.

Sincerely,  
Linda Finke

Dear Commissioners -

Please find attached a map for submission that has perfect population equality, while accounting for competitiveness in the 2020 presidential election. In addition, it keeps all Native American reservations intact entirely, with 4 in one district and 3 in the other.

Madame Chair,

I sent this suggestion to staff yesterday after seeing the deluge of plans coming in. I think we need some organization of the submitted plans that will allow us and the public to evaluate them. Staff told me they think Commission should make such a decision, so please review my suggestion below. I would ask you to have staff circulate prior to our Friday meeting and add an agenda item for Commission discussion.

Thank you.

Commissioner Jeff Essmann

Subject: Organization suggestion

All,

It appears the Commission is going to get a healthy number of suggested maps from members of the public. That's a good thing but it does raise the issue of how to uniquely identify each map in order to keep track of them. That task is complicated by the real possibility that it appears there may be duplicates or ones with smaller variations.

I just wanted to throw out an idea for you as a team to consider and potentially discuss with the Chair/Commission.

Assuming for example that there are, for example, 10 major themes in maps, you could start with groups lettered A through J. Each distinct map in the group could then be denominated A1, A2, and so forth. If there were duplicate maps you could denominate them A1.1, A1.2, and so forth.

Once that task is completed, you could build a spreadsheet listing the denominations that links to each map and other relevant information (submitter id? ).

The spreadsheet could then contain a column for the deviation each map is from desired population. Since that is numerical that is something you could do.

Then the Commission members could add columns for scoring each unique map (either objectively or subjectively) for the other mandatory criteria, compact, contiguous and the discretionary criteria. 1 through 10 scoring weighted by criteria for example.

Then the Commission members can spend the time from now through October 5 analyzing the maps in somewhat of an organized fashion.

Just a suggestion on how to organize a big job into smaller manageable pieces. Hope it might help.

Commissioner Jeff Essmann

Hello Rachel,

Thanks for the reply. I've been wondering how the Committee derives the Republican/Democrat data for the maps, as it certainly is not included in the Census data. Does it come from voter registrations at the precinct level? Wherever it comes from, would I be able to get a shapefile of the data? I'd like to be able to follow along when it comes to "competitiveness" of my map and other maps.

Thanks for your assistance.

Hi Debbie,

The link to the Meeting Materials page is here: [https://mtredistricting.gov/september-17-2021-meeting/\[mtredistricting.gov\]](https://mtredistricting.gov/september-17-2021-meeting/[mtredistricting.gov]) The Zoom signup button is on that page. You can also access the form directly at [https://mtredistricting.gov/remote-participation-request/\[mtredistricting.gov\]](https://mtredistricting.gov/remote-participation-request/[mtredistricting.gov]). There will be a small confirmation box that pops up just below Submit Request when your request has been submitted.

If you have any issues, please give me a call at 406-444-5367.

Sincerely,

Rachel

Rachel Weiss

Legislative Research Analyst

Dear Ms. Stockton,  
I'm one of the Montana legislative staff working with the Montana Districting and Apportionment Commission. The commissioners recently approved a letter to Representative Rosendale. The hard copy is in the mail. However, given the delays involved in sending mail to DC offices, I've also attached the letter to this email. Please let me know if you have any questions.  
Sincerely,

Rachel Weiss

**To:** cswanson@i-360.com  
**Cc:** Sherley, Laura  
**Subject:** RE: Deadline/Availability

**Categories:** DACRequest1688, PublicInfo1688

Hello Craig,

In Montana, the redistricting timelines are set by the state Constitution:

[https://leg.mt.gov/bills/mca/title\\_0000/article\\_0050/part\\_0010/section\\_0140/0000-0050-0010-0140.html](https://leg.mt.gov/bills/mca/title_0000/article_0050/part_0010/section_0140/0000-0050-0010-0140.html). The Districting and Apportionment Commission has 90 days from the time the official final decennial census numbers are available to draw congressional districts. Given the delays in census data delivery this cycle, the commissioners adopted this statement of when they would start the 90-day timeline: <https://mtredistricting.gov/wp-content/uploads/2021/08/adopted-90-day-timeline-congressional-dac-july-2021.pdf>. The commissioners determined that August 17 was the day the Census data was available and day 1 of their timeline. That means their deadline to complete congressional districts is November 14. A shapefile should be available on that date.

Because the constitution requires the commission to present a plan to the Montana Legislature, the state legislative districting timeline is longer. That plan won't be finalized until mid-winter in 2023, which is the next time that the Montana Legislature meets in regular session. In the 2010 cycle, the state legislative districts were available in mid-February 2013. Shapefiles were available shortly after the plan was adopted, but the exact date is impossible to determine at this point.

I hope this information helps. Don't hesitate to reach out with additional questions.

Sincerely,

Rachel Weiss

**Subject:** [EXTERNAL] Comments on PM 2

Hello Presiding Officer and Commissioners,

I will not be able to participate in the October 5<sup>th</sup> meeting so I am providing my additional thoughts on the PM 2 Map.

1. It was based on the Congressional map from 1980-1990 with modifications based on the 2020 Census results.
2. This map was created with bipartisanship in mind.
3. It keeps every county intact to ensure communities of interest are not broken up.
4. Lewis and Clark County remains in the same district as Jefferson County since they share economic interests. Travel to the west of Helena is more difficult because of McDonald Pass, especially in the winter months. This also provides more diversity for the Eastern District both economically and politically.
5. This map allows both Bozeman and Kalispell to remain in the West so the gerrymandering accusations are negated on both sides.
6. The 2020 Senate race should be most considered because the former Governor turned out to be the strongest Democratic candidate during the 2020 election. The proposed Western District voted under 51% Republican in a +10 GOP election for U.S. Senate. This makes the Western district a naturally competitive district with no cracking or packing needed.

7. The total deviation is only 0.19% with the reason for the deviation not being 0% is the counties are not broken up to ensure communities of interest remains intact.

PM 2 Map with 2020 Election details:

<https://districtr.org/plan/53968> [districtr.org] (Maximum deviation 0.19%)

Thank you for your time and consideration and feel free to email me questions

**Subject:** RE: Hearing on Congressional Maps Submitted by Public

**Categories:** DACRequest1688, PublicInfo1688

Hi K'Lynn,

These are pretty set in my book. I'll have agendas for the 19<sup>th</sup> and 21<sup>st</sup> pretty quickly. They look like 10 am starts and all-day timelines. I don't know the start/end times for the 30<sup>th</sup> yet, but that's also pretty firm unless something unexpected happens. It has been a year for the unexpected. I don't know what they might do on the 20<sup>th</sup>, but I don't have a meeting date planned for that.

I hope this helps! Keep your eyes peeled for the agendas soon.

Rachel

[View as a webpage](#) / [Share !\[\]\(a8f9309f944226d1420f5fed22e2b6e6\_img.jpg\) links.gd](#)

## Who: Montana Districting and Apportionment Commission

When: October 5, 10 a.m.

Where: State Capitol Room 317 and Zoom

---

The [Montana Districting and Apportionment Commission \[lnks.gd\]](#) meets October 5 to get comments on [numerous maps \[lnks.gd\]](#) that suggest lines for the state's congressional districts. The commission solicited the maps from the public. At the end of the October 5 hearing, the commissioners will select maps for more comments at a public hearing later in October.

The hearing starts at 10 a.m. in Room 317 of the Capitol. The public may join the commissioners in person at the Capitol or online using Zoom. The meeting is streamed live on the Montana Legislature's [website \[lnks.gd\]](#) and broadcast on the [Montana Public Affairs Network \[lnks.gd\]](#).

An agenda, links to the maps, and instructions on how the public can provide comments are now available on the [commission's website \[lnks.gd\]](#).

Written public comments are encouraged. Written comments received by **5 p.m. on Saturday, October 2** will be provided to commissioners in advance of the meeting. Comments received after that time but before October 5 will be given to the commissioners prior to or at the meeting. Comments received on October 5 or during the meeting will be provided to the commissioners prior to the next meeting.

Submit written comments online using the commission's [webform \[lnks.gd\]](#), through email to [districting@mt.gov](mailto:districting@mt.gov), or in the mail to Districting and Apportionment Commission, PO Box 201706, Helena, MT 59620.

Future meeting dates include:

- October 19 to hear from the public on maps selected on October 5;

- October 21 to select a tentative final Congressional map; and
- October 30 to hold a public hearing on the tentative final Congressional map and to vote on that final map.

For more information about the commission, visit the commission's website or contact its staff.

Commission website: [mtredistricting.gov/](http://mtredistricting.gov/) [\[lnks.gd\]](#)

Commission webform: [mtredistricting.gov/contact/](http://mtredistricting.gov/contact/) [\[lnks.gd\]](#)

**Subject:** AK Redistricting Board -- Staff Contact Info?  
**Date:** Friday, June 11, 2021 2:26:00 PM

---

Hi Wendy,

The Montana redistricting commission has a 90-day deadline “after the official final decennial census figures are available” to file its Congressional plan. Our Commission is trying to determine whether to use the August delivery date or the September delivery date as its trigger, and they have asked whether any other states with a similar deadline have made their determinations when their clock will start ticking. According to NCSL’s chart of deadlines, it looks like the only ones with a moving target like Montana’s is AK, PA, and ID. I found contact information on the internet for PA and ID, but I was wondering if you could provide me with contact information for the staff of the Alaska Redistricting Board? Thanks very much

With regards,

K. Virginia (“Ginger”) Aldrich

---

Hello Representative Skees,

Please find the memo we discussed attached. The background information on the criteria statute starts on page 11. I have also attached the case that is cited, that is a district court case, *Brown v. Montana Districting and Apportionment Commission*. I have attached HB 506 as introduced by Representative Fielder. The version as introduced did not have the redistricting criteria provisions in it (which is when it would have gone through legal review), and I do not see a legal note on it in the directory.

I dug around to find out when the the amendment that inserted section 5-1-115, and it was an amendment requested by Senator Fitzpatrick, amendment no. 506.3.2 (I didn't attach that one but you can find it linked on the HB 506 page on LAWS). The free conference committee that inserted the amendment was the 4/27 Free Conference regarding HB 506, and Senator Fitzpatrick moves that amendment at timestamp 08:04:50 – here's the video of that committee, and you can forward to that time stamp to see the discussion about that amendment:

[https://sg001-harmony.sliq.net/00309/Harmony/en/PowerBrowser/PowerBrowserV2/20210427/-1/43490#info\\_](https://sg001-harmony.sliq.net/00309/Harmony/en/PowerBrowser/PowerBrowserV2/20210427/-1/43490#info_)  
I hope this answers your questions, please let me know if you need anything else.

**Cc:** Kolman, Joe <jkolman@mt.gov>; Weiss, Rachel <RWeiss@mt.gov>; Sherley, Laura <LSherley@mt.gov>  
**Subject:** Districting Triggers in Other States -- Relevant Trigger Dates

Dear Commissioners,

At your last meeting, you asked that I identify any states with timeline triggers similar to Montana and research whether or not they had chosen which Census data release to use for their trigger. According to [NCSL's survey of state redistricting deadlines](#), the only relevant states appear to be the following:

| State Redistricting Deadlines                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| New Jersey<br>N.J. Const., Art. IV, Sec. III, Para. 1 | Legislative: One month of the receipt by the governor of the official decennial census or on or before Feb. 1 of the year following the year in which the census is taken, whichever date is later.<br>Congressional: On or before the third Tuesday of each year ending in 2, or within three months after receipt in each decade by the appropriate state officer of the official statement by the clerk of the United States House of Representatives.<br><br>*Note: On November 3, 2020, the voters in New Jersey approved a <a href="#">constitution amendment</a> . This amendment would add in a deadline date, of February 15, to receive the federal census data. If the census data arrives after February 15, redistricting would be delayed by two years and the previous maps would be used until the new maps can be drawn. |
| Pennsylvania<br>Pa. Const. Art. II, § 17              | Legislative: No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan.<br>Congressional: None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

The constitutional amendment recently approved by the New Jersey electorate relieves them of their deadline, so that leaves only AK, ID, and PA. I contacted redistricting staff for those three states to find out if any decisions had been made by their states concerning their deadlines.

Alaska's staff notes that Alaska is discussing the same question internally, and they note that the Census's emails on the subject are "less than clear" in what constitutes "official" reporting. They are hoping for additional clarity from the Census Bureau as they move forward.

Idaho's Commission has not yet been appointed, but the staff indicates that in Idaho, a statute directs their Commission to adopt the redistricting plan within 90 days of organization, so the Commission will likely use the date of organization for their trigger rather than the data date. However, the staff indicated that if the Commission felt it needed longer time, it might argue for the final data delivery date, but that is speculative and would likely only be the case if the Commission is unable to complete its work within 90 days of organization.

The Pennsylvania Commission has only recently been organized and has not yet taken a position on what date it will use as its trigger under the Pennsylvania Constitution.

With regards,

**Subject:** Oath  
**Date:** Tuesday, October 5, 2021 2:52:00 PM

---

Commissioner Smith,

You had previously asked about the oath of office for the Redistricting Commission, and I had forgotten to follow up on your request until the matter of the oath was mentioned at today's meeting. The oath is contained in the Constitution, and it provides:

Art. III, section 3 of the Montana Constitution provides:

Section 3. Oath of office. Members of the legislature and all executive, ministerial and judicial officers, shall take and subscribe the following oath or affirmation, before they enter upon the duties of their offices: "I do solemnly swear (or affirm) that I will support, protect and defend the constitution of the United States, and the constitution of the state of Montana, and that I will discharge the duties of my office with fidelity (so help me God)." No other oath, declaration, or test shall be required as a qualification for any office or public trust.

As you know, the Commission is a part of the Legislative Branch but the members are not members of the Legislature, so while the oath is clearly intended to capture most officers of the state, the actual language does not contemplate the unique role played by the Commission. I don't see any cases that address this issue either. In statute, section 2-16-211 provides slightly different wording than the Constitution but, likewise, does not address other officers of the legislative branch (besides members of the Legislature) as "officers" is modified by the "executive, ministerial, or judicial" wording:

2-16-211. Oaths — form — before whom — when. (1) Members of the legislature and all officers, executive, ministerial, or judicial, must, before they enter upon the duties of their respective offices, take and subscribe the following oath or affirmation: "I do solemnly swear (or affirm) that I will support, protect, and defend the constitution of the United States and the constitution of the state of Montana, and that I will discharge the duties of my office with fidelity (so help me God)."

(2) No other oath, declaration, or test must be required as a qualification for any office or public trust.

(3) Except when otherwise provided, the oath may be taken before any officer authorized to administer oaths.

Therefore, it does not appear that commissioners are required to take an oath before commencing their duties.

I hope this answers your question,

With regards,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature

Great, thanks very much to you both. I've heard back from ID, and although their commission hasn't been appointed yet, it sounds like they probably will try to use their 90 days from when the Commission is appointed because a statute limits them to that date rather than the availability of the data (both dates appear in their Constitution). I'll let you know what I hear from PA and AK.

Regards,

Ginger

Hi Ginger.

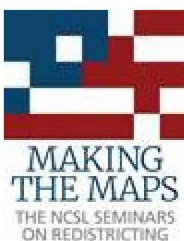

MT isn't the only state with this question, as you can see. We've been rattling around with it for a while, and our take—which is not legal advice—is that the clock starts when the state says it does. That means two states could have two different answers.

I'm copying Ben Williams here. He'll be able to put you in touch with Alaska.

Also, if you could share with us what you learn, so we can better answer the next time we get this question, that would be great!

Best wishes,

Wendy Underhill

**Subject:** [EXTERNAL] AK Redistricting Board -- Staff Contact Info?

Hi Wendy,

The Montana redistricting commission has a 90-day deadline "after the official final decennial census figures are available" to file its Congressional plan. Our Commission is trying to determine whether to use the August delivery date or the September delivery date as its trigger, and they have asked whether any other states with a similar deadline have made their determinations when their clock will start ticking. According to NCSL's chart of deadlines, it looks like the only ones with a moving target like Montana's is AK, PA, and ID. I found contact information on the internet for PA and ID, but I was wondering if you could provide me with contact information for the staff of the Alaska Redistricting Board? Thanks very much

With regards,

**Subject:** [EXTERNAL] Hello from NCSL's Elections and Redistricting Team

Hello K.V.,

I'm Diana Jordan, an intern with the National Conference of State Legislatures' (NCSL) Elections & Redistricting Program. We are reaching out to all members of the Redistricting and Elections Standing Committee (RESC) with an offer to join the Election Staff Network (ESN) and/or the Redistricting Staff Network (RSN).

Both the ESN and RSN are comprised of legislative staff only and joining the list would not require you to do much work. We use these lists to send out the occasional question from us or one of your peer states and to sometimes send updates about NCSL resources. You can expect 2-4 emails a month, often fewer.

In addition, we could add you to the Redistricting Distribution emailing list if you would like. This list is open to anyone and provides regular updates about the census and redistricting.

You may already be on some of these lists, but we wanted to see if you'd like to join the others. Please let us know.

Best,  
Diana

**Diana Jordan**

National Conference of State Legislatures

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

K. Virginia ("Ginger") Aldrich

Peter,

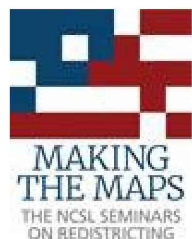

It's been a few weeks. I hope all's well up there.

I'm writing today to connect you with Ginger Aldrich. Ginger is a staffer with the Montana Legislature who, as part of their redistricting system, is assigned to the state's redistricting commission. She asked us a question about how states with similar redistricting deadlines to Montana, including Alaska, were interpreting language about delivery deadlines and when the clock is triggered, so to speak. Ginger, Peter is the director of Alaska's redistricting commission and has deep knowledge about the state's processes. He or someone on his staff should be able to help you.

Consider yourselves connected!

Hello Commissioner Smith,

I'm sorry I did not see your email until last night as I was out of email communication since Wednesday afternoon. In terms of your question, the House and the Senate are delegated constitutional authority to "make rules for [their] proceedings." Art. V, Section 10. The Montana Constitution's provision concerning Districting and Apportionment is silent on an enforcement mechanisms for Commission member behavior, but the rules of the Commission are its adopted operating procedures. The only applicable provision adopted by the Commission is this one in the Operating Procedures:

"The presiding officer is responsible for maintaining order within the commission room and its environs, scheduling hearings and executive action, supervising commission work, and deciding all questions of order, subject to a member's appeal to the commission."

Legislative chairs may exercise their power to maintain order by cautioning individuals who are not maintaining proper decorum, such as members of the public or members of a committee (or in this case, commission). For instance, the House and Senate have a custom that the proper names of individuals should not be used in discourse on the floor of the Senate or House or in a Committee, and Chairs of Committees have often cautioned individuals about breaking this unspoken rule. That is, as I mentioned, a custom specific to the House and the Senate, but certainly in your power as Chair, you have the discretion to warn or remove individuals from the meeting environs if their discourse is becoming personal, defamatory, or otherwise not maintaining an adequate level of civil discourse. The power to maintain order occurs while the Commission is meeting ("maintaining order within the commission room and its environs"), and as you note, there is no authority adopted by the Commission in its operating procedures or otherwise that would delegate disciplinary authority to the Chair outside of the power to maintain order.

Other than the operating procedures, the only other relevant provisions would be in the Code of Ethics, contained at Title 2, Chapter 2, part 1 and the Speech and Debate clause and the associated statute, located at Art. V, sec. 8, and 2-9-111, MCA. However, the Code of Ethics deals with conflicts between public duty and private interest and does not address conduct of this nature. Likewise, the Speech and Debate clause and the associated statute are oriented toward immunity from suits.

There is nothing that would prohibit the Commission from adopting further provisions concerning decorum, but the extent of what the Commission could likely do is already covered by the Chair's power to maintain order within the Commission room and its environs.

Please let me know if you have any additional questions,

With regards,

K. Virginia ("Ginger") Aldrich

**Subject:** [EXTERNAL] Fwd: Mr. Lamson

Ginger,

I received this request today. I think it is questionable that I have any disciplinary authority for actions occurring outside of the official meeting time by a commissioner. I had let Kendra know during the break shortly after Mr. Rivera's statement, that if Joe wanted to make an apology I would allow the commissioners to make statements when we started back. Commissioner Lamson did not make a statement during that time

Any guidance you might have would be appreciated.

Maylinn

Good afternoon Ms. Smith,  
I wanted to reach out to you for two reasons. The first is to say how impressed, and appreciative, I am with the way you handled the committee and the public during the redistricting hearings. My tip of the hat to you. I enjoyed being a part of the process.  
The second reason I am writing is out of concern for the apparent misbehavior of committee member Joe Lamson towards Mr. Denison Rivera last Thursday. I'm sure you have bigger fish to fry than this at this time. However, we feel the behavior of Mr. Lamson was highly inappropriate towards a citizen of Montana that was simply there to testify. It is irrelevant that Mr. Rivera is a candidate for House representation or any other matter. He was there as a citizen, and for Mr. Lamson to attack him should at a minimum call for a public reprimand and apology directly to Mr. Rivera.

Commissioner Smith,

I did put together some notes on the legal challenges in the legal brief last summer, but Commissioner Essmann did ask for more specifics concerning who represented the Commission, so I will try to dig that up if we can locate some pleadings from those actions. Although I wouldn't be able to get that together for Thursday's meeting, I could draft up a brief memo that re-summarizes the statute concerning the AG's responsibilities, etc., and I could send that out to the Commission when I have completed it – that would allow you to get something out relatively quickly and wouldn't require you to make it into an agenda item unless you think you needed to dedicate additional time to it.

Also, I was wondering if you might have a few minutes to discuss some related matters. I'll be unavailable tomorrow from about 10:00-11 and Wednesday morning from 9:15 – 10:30, but I could otherwise give you a call when convenient. Please let me know if there's a time that works for you.

Regards,

Ginger

**Subject:** RE: [EXTERNAL] Fwd: Reassignment to Last known address

Good morning, Maylinn –

I'll have an update on the commissioners' inquiry to the Department of Corrections about what data on prisoners' last known addresses can be provided. The best information on what other states reallocate prisoners (and which types of prisoners) is available from the NCSL at:

<https://www.ncsl.org/research/redistricting/reallocating-incarcerated-persons-for-redistricting.aspx> [[ncsl.org](https://www.ncsl.org)]. I've linked to this on the commission's meeting materials page.

Is there a timeline for the legal challenges research? Is that something you wanted to review in August perhaps, after the criteria meetings in July?

Thanks and feel free to call at any point with questions.

Sincerely,

Rachel Weiss

Madame Chair,

It feels good to be back at work again and having a path charted forward. Thanks for a good meeting. I saw old friends in Helena last night and am driving home today.

I wanted to offer one suggestion and a reminder on an earlier request.

I did stop up to the second floor and advise them that a request would be coming to DOC for information on the last known address of everyone residing in their group quarters on April 1, 2020 and that they should get going.

Even if we don't have all that ready by our June 10 meeting, I wanted to suggest that you have staff start looking for potential contractors to do the reassignment analysis. It would be best to get that contract executed before June 30 so the expiring appropriation is used wisely instead of reverting to the General Fund. I am sorry I didn't think to suggest this during the meeting.

I also wanted to repeat my request for a quick brief by Ginger Aldrich on who has defended the work of the Commission and made decisions on litigation strategy on past redistricting challenges in case they come. I hope we can avoid all that with clear objective rules and a transparent process, but we need to be mindful.

See you June 10.

Commissioner Jeff Essmann

Commissioner Smith,

That sounds great -- I just wanted a few minutes to chat, maybe 10 minutes -- I don't think it will take very long at all. I do plan on zooming in to the meeting, so a phone call would probably be easiest, but my schedule is pretty flexible. Would 1 PM work for you tomorrow? If so, let me know what number to call you at. If 1 doesn't work, anytime after 11 am tomorrow works for me, even into the evening.

With regards,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney

Ginger, I am not sure what my schedule for tomorrow will be since I believe at some point tomorrow morning I need to have an involuntary commitment hearing. I should have some time Wednesday later in the morning or early afternoon. Let me know what works for you. I can also come over earlier in the morning on Thursday if you want to talk before the meeting.

Maylinn

On Mon, Jun 7, 2021, 5:40 PM Aldrich, Ginger <[KVAldrich@mt.gov](mailto:KVAldrich@mt.gov)> wrote:

Commissioner Smith,

I did put together some notes on the legal challenges in the legal brief last summer, but Commissioner Essmann did ask for more specifics concerning who represented the Commission, so I will try to dig that up if we can locate some pleadings from those actions. Although I wouldn't be able to get that together for Thursday's meeting, I could draft up a brief memo that re-summarizes the statute concerning the AG's responsibilities, etc., and I could send that out to the Commission when I have completed it – that would allow you to get something out relatively quickly and wouldn't require you to make it into an agenda item unless you think you needed to dedicate additional time to it.

Also, I was wondering if you might have a few minutes to discuss some related matters. I'll be unavailable tomorrow from about 10:00-11 and Wednesday morning from 9:15 – 10:30, but I could otherwise give you a call when convenient. Please let me know if there's a time that works for you.

Regards,

Ginger

**Subject:** RE: [EXTERNAL] Fwd: Reassignment to Last known address

Good morning, Maylinn –

I'll have an update on the commissioners' inquiry to the Department of Corrections about what data on prisoners' last known addresses can be provided. The best information on what other states reallocate prisoners (and which types of prisoners) is available from the NCSL at: <https://www.ncsl.org/research/redistricting/reallocating-incarcerated-persons-for-redistricting.aspx> [ncsl.org]. I've linked to this on the commission's meeting materials page.

Is there a timeline for the legal challenges research? Is that something you wanted to review in August perhaps, after the criteria meetings in July?

Thanks and feel free to call at any point with questions.  
Sincerely,

Rachel Weiss  
Legislative Research Analyst

**Subject:** [EXTERNAL] Fwd: Reassignment to Last known address

I meant to send this last week, but those short weeks seem to get crazy and I was not in internet service range until late Friday. Can we see about getting someone to research prisoner reassignment issues for purposes of counting them where they come from. It would be good to know options for representation if there are challenges to commissioner work, so update research on that topic would be helpful.

Let me know what you need from me on both topics.

See you on Thursday.

Subject: Reassignment to Last known address

Madame Chair,

It feels good to be back at work again and having a path charted forward. Thanks for a good meeting. I saw old friends in Helena last night and am driving home today.

I wanted to offer one suggestion and a reminder on an earlier request.

I did stop up to the second floor and advise them that a request would be coming to DOC for information on the last known address of everyone residing in their group quarters on April 1, 2020 and that they should get going.

Even if we don't have all that ready by our June 10 meeting, I wanted to suggest that you have staff start looking for potential contractors to do the reassignment analysis. It would be best to get that contract executed before June 30 so the expiring appropriation is used wisely instead of reverting to the General Fund. I am sorry I didn't think to suggest this during the meeting.

I also wanted to repeat my request for a quick brief by Ginger Aldrich on who has defended the work of the Commission and made decisions on litigation strategy on past redistricting challenges in case they come. I hope we can avoid all that with clear objective rules and a transparent process, but we need to be mindful.

See you June 10.

Commissioner Jeff Essmann

Hello Commissioners,

Additional materials for your Tuesday meeting are now posted online at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>. Also, you'll be meeting in Room 102 of the Capitol.

The posted materials include:

- Draft timelines for congressional and state legislative redistricting

- The redistricting criteria materials you received at prior meetings
- A document with the past commission's operating procedure guiding public map submissions and some suggested changes should you wish to use the previous procedure as a starting point for adopting your own procedure

We'll have printed copies of the materials for you on Tuesday. If you have questions, please give me a call.

Sincerely,

Rachel Weiss

Ms. Bowen & Mr. Bybee,

I am the staff attorney for the Montana Districting and Apportionment Commission. From NCSL's website, I understand that Idaho's maps are due: "Within ninety days after the commission has been organized or the necessary census data are available, whichever is later...." Presumably, the deadline will be triggered by the date the census figures "are available", but the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. The Montana Commission has requested whether other states with similar deadlines have made any determinations about which date they will use as their trigger. To that end, has Idaho's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Idaho's deliberations concerning their deadline would be most helpful. Thank you,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

Ginger,

I received this request today. I think it is questionable that I have any disciplinary authority for actions occurring outside of the official meeting time by a commissioner. I had let Kendra know during the break shortly after Mr. Rivera's statement, that if Joe wanted to make an apology I would allow the commissioners to make statements when we started back. Commissioner Lamson did not make a statement during that time

Any guidance you might have would be appreciated.

Maylinn

Good afternoon Ms. Smith,  
I wanted to reach out to you for two reasons. The first it to say how impressed, and appreciative, I am with the way you handled the committee and the public during the redistricting hearings. My tip of the hat to you. I enjoyed being a part of the process.  
The second reason I am writing is our of concern for the apparent misbehavior of committee member Joe Lamson towards Mr. Denison Rivera last Thursday. I'm sure you have bigger fish to fry than this at this time. However, we feel the behavior of Mr. Lamson was highly inappropriate towards a citizen of Montana that was simply there to testify. It is irrelevant that Mr. Rivera is a candidate for House representation or any other matter. He was there as a citizen, and for Mr. Lamson to attack him should at a minimum call for a public reprimand and apology directly to Mr. Rivera.

Best Regards,

Hi Ginger.

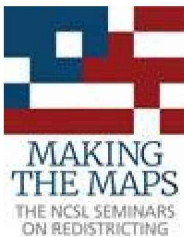

MT isn't the only state with this question, as you can see. We've been rattling around with it for a while, and our take—which is not legal advice—is that the clock starts when the state says it does. That means two states could have two different answers.

I'm copying Ben Williams here. He'll be able to put you in touch with Alaska.

Also, if you could share with us what you learn, so we can better answer the next time we get this question, that would be great!

Best wishes,

Wendy Underhill  
Director – Elections & Redistricting Program  
National Conference of State Legislatures  
303-856-1379 (o) | 303-802-6673 (c)

**July 14-16, 2021 seminar in Salt Lake City, Utah!** [Register now \[ncslcommunities.org\]](https://ncslcommunities.org).

**Redistricting is right around the corner!** [\[ncsl.org\]](https://ncsl.org)

NCSL's redistricting seminar will prepare you for this once-a-decade task. Join us for the final redistricting seminar.

**Subject:** [EXTERNAL] AK Redistricting Board -- Staff Contact Info?

Hi Wendy,

The Montana redistricting commission has a 90-day deadline “after the official final decennial census figures are available” to file its Congressional plan. Our Commission is trying to determine whether to use the August delivery date or the September delivery date as its trigger, and they have asked whether any other states with a similar deadline have made their determinations when their clock will start ticking. According to NCSL’s chart of deadlines, it looks like the only ones with a moving target like Montana’s is AK, PA, and ID. I found contact internet on the internet for PA and ID, but I was wondering if you could provide me with contact information for the staff of the Alaska Redistricting Board? Thanks very much

With regards,

K. Virginia (“Ginger”) Aldrich

Ginger,

I hope you had a nice weekend. I put you in touch with Peter Torkelson, the executive director of Alaska's Reapportionment Board—but that's not my only contact there. If Peter doesn't get back to you promptly let me know and I'll connect you with others there.

Thanks!

Ben

Dear Commissioners,

At your last meeting, you asked that I identify any states with timeline triggers similar to Montana and research whether or not they had chosen which Census data release to use for their trigger. According to [NCSL's survey of state redistricting deadlines \[ncsl.org\]](#), the only relevant states appear to be the following:

| State Redistricting Deadlines                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Alaska<br>Alaska Const. Art. VI, § 10                 | Legislative: 90 days after the board has been appointed and the official reporting of the decennial census, the board shall adopt a final redistricting plan and issue a proclamation of redistricting.<br>Congressional: None                                                                                                                                                                                                                            |
| Idaho<br>Idaho Const. Art. III, Section 2             | Legislative and congressional: Within 90 days after the commission has been organized or the necessary census data are available, whichever is later.                                                                                                                                                                                                                                                                                                     |
| New Jersey<br>N.J. Const., Art. IV, Sec. III, Para. 1 | Legislative: One month of the receipt by the governor of the official decennial census or on or before Feb. 1 of the year following the year in which the census is taken, whichever date is later.<br>Congressional: On or before the third Tuesday of each year ending in 2, or within three months after receipt in each decade by the appropriate state officer of the official statement by the clerk of the United States House of Representatives. |

\*Note: On November 3, 2020, the voters in New Jersey approved a [constitution amendment](#)

[\[state.nj.us\]](https://state.nj.us). This amendment would add in a deadline date, of February 15, to receive the federal census data. If the census data arrives after February 15, redistricting would be delayed by two years and the previous maps would be used until the new maps can be drawn.

---

|                                          |                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pennsylvania<br>Pa. Const. Art. II, § 17 | Legislative: No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan.<br>Congressional: None |
|------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

The constitutional amendment recently approved by the New Jersey electorate relieves them of their deadline, so that leaves only AK, ID, and PA. I contacted redistricting staff for those three states to find out if any decisions had been made by their states concerning their deadlines.

Alaska's staff notes that Alaska is discussing the same question internally, and they note that the Census's emails on the subject are "less than clear" in what constitutes "official" reporting. They are hoping for additional clarity from the Census Bureau as they move forward.

Idaho's Commission has not yet been appointed, but the staff indicates that in Idaho, a statute directs their Commission to adopt the redistricting plan within 90 days of organization, so the Commission will likely use the date of organization for their trigger rather than the data date. However, the staff indicated that if the Commission felt it needed longer time, it might argue for the final data delivery date, but that is speculative and would likely only be the case if the Commission is unable to complete its work within 90 days or organization.

The Pennsylvania Commission has only recently been organized and has not yet taken a position on what date it will use as its trigger under the Pennsylvania Constitution.

With regards,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature  
(406)444-4464

**To:** Byer, Robert L. <RLByer@duanemorris.com>  
**Subject:** Redistricting -- Availability of Data Deadline -- Request

Mr. Byer,

From the Pennsylvania Redistricting website, I understand you were appointed to serve as the Pennsylvania Redistricting Commission's Chief Legal Counsel. I am the staff attorney for the Montana Districting and Apportionment Commission. From NCSL's website, I understand that Pennsylvania's legislative maps are due: "No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan." Presumably, the deadline will be triggered by the date the federal decennial census figures "are available", but the data is being released in two cadres to states: the legacy file format is being released in August and then by September 30<sup>th</sup> the user-friendly format is being released. The Montana Commission has requested whether other states with similar deadlines have made any determinations about which date they will use. To that end, has Pennsylvania's Commission determined which date it will use as the 90 day trigger for its legislative maps? Any insight you can give on Pennsylvania's deliberations concerning their deadline would be most helpful. Thank you,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature  
(406)444-4464

**Subject:** DAC Memo & Clarification

Dear Commissioners,

Please find a memo concerning legal representation for your background information attached.

In addition, I wanted to clarify the question asked yesterday about taking public comment on a plan. As you know, I was out of the room while you were discussing the topic, and upon my return I was asked about public comment. I assumed that you were discussing offering public comments on maps, in general, as you proceed through the process. To the extent that you were talking about public hearings on the congressional “final plan” for congressional or legislative districts, please note 5-1-108:

5-1-108. Public hearing on plans. (1) Before the commission files its final congressional redistricting plan with the secretary of state, the commission shall hold at least one public hearing on it.

(2) Before the commission submits its legislative redistricting plan to the legislature, it shall hold at least one public hearing on the plan at the state capitol.

(3) The commission may hold other hearings as it deems necessary.

While one may certainly argue that the many public hearings leading up to the filing constitute the required public hearing under this statute, it would nonetheless be prudent to hold a public hearing on the congressional “final plan” to belay any criticism that the public did not have adequate notice of any changes to the plan and thereby was effectively denied the right to submit comments. A similar argument was made in *Willems v. State* during the last round, and although the Court found that Article II, section 8, of the Montana Constitution concerning public participation did not apply to the Commission, this Commission has specifically adopted certain operating procedures which require public comment to be accepted “prior to making a final decision that is of significant interest to the public” (essentially binding itself to the same principle). Likewise, because of the lack of caselaw interpreting this section, and because subsection (1) specifies the “final” plan (as opposed to subsection (2) which does not specify “final”), to minimize the Commission’s legal liability, I would advise that to the extent possible, the Commission should hold a public hearing on the “final” congressional redistricting plan before it is filed.

With regards,

K. Virginia (“Ginger”) Aldrich

Legislative Attorney

| New Jersey<br>N.J. Const., Art. IV, Sec. III, Para. 1 | Legislative: One month of the receipt by the governor of the official decennial census or on or before Feb. 1 of the year following the year in which the census is taken, whichever date is later.<br>Congressional: On or before the third Tuesday of each year ending in 2, or within three months after receipt in each decade by the appropriate state officer of the official statement by the clerk of the United States House of Representatives.<br><br>*Note: On November 3, 2020, the voters in New Jersey approved a <a href="#">constitution amendment [state.nj.us]</a> . This amendment would add in a deadline date, of February 15, to receive the federal census data. If the census data arrives after February 15, redistricting would be delayed by two years and the previous maps would be used until the new maps can be drawn. |
| Pennsylvania<br>Pa. Const. Art. II, § 17              | Legislative: No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

Congressional: None

The constitutional amendment recently approved by the New Jersey electorate relieves them of their deadline, so that leaves only AK, ID, and PA. I contacted redistricting staff for those three states to find out if any decisions had been made by their states concerning their deadlines.

Alaska's staff notes that Alaska is discussing the same question internally, and they note that the Census's emails on the subject are "less than clear" in what constitutes "official" reporting. They are hoping for additional clarity from the Census Bureau as they move forward.

Idaho's Commission has not yet been appointed, but the staff indicates that in Idaho, a statute directs their Commission to adopt the redistricting plan within 90 days of organization, so the Commission will likely use the date of organization for their trigger rather than the data date. However, the staff indicated that if the Commission felt it needed longer time, it might argue for the final data delivery date, but that is speculative and would likely only be the case if the Commission is unable to complete its work within 90 days of organization.

The Pennsylvania Commission has only recently been organized and has not yet taken a position on what date it will use as its trigger under the Pennsylvania Constitution.

Hi Ginger,

We are discussing the same question here internally. The emails we have received from the Census (on our website's Census Info page) are less than clear in guiding us on what constitutes "official" reporting.

We are hoping for additional clarity from the Census Bureau as we move forward.

P.

**Subject:** Redistricting -- Availability of Data -- Request

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

K. Virginia ("Ginger") Aldrich

Peter,

It's been a few weeks. I hope all's well up there.

I'm writing today to connect you with Ginger Aldrich. Ginger is a staffer with the Montana Legislature who, as part of their redistricting system, is assigned to the state's redistricting commission. She asked us a question about how states with similar redistricting deadlines to Montana, including Alaska, were interpreting language about delivery deadlines and when the clock is triggered, so to speak. Ginger, Peter is the director of Alaska's redistricting commission and has deep knowledge about the state's processes. He or someone on his staff should be able to help you.

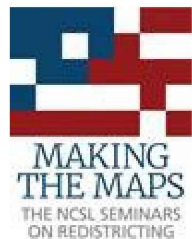

Consider yourselves connected!

Hi Ginger!

Our commission hasn't been appointed yet, so take this with a grain of salt, but I think we'll do our best to stay within the 90 days from when the commission first organizes. That language about the census data is from our state constitution, but we also have a statute that says date of organization only. If there turns out to be a real need to meet for a longer period, the commission might well end up arguing that the final data delivery date is the trigger, since the constitution obviously prevails over statute, but I'm hoping that won't be necessary.

Elizabeth

Ginger,

I received this request today. I think it is questionable that I have any disciplinary authority for actions occurring outside of the official meeting time by a commissioner. I had let Kendra know during the break shortly after Mr. Rivera's statement, that if Joe wanted to make an apology I would allow the commissioners to make statements when we started back. Commissioner Lamson did not make a statement during that time

Any guidance you might have would be appreciated.

Maylinn

Good afternoon Ms. Smith,  
I wanted to reach out to you for two reasons. The first it to say how impressed, and appreciative, I am with the way you handled the committee and the public during the redistricting hearings. My tip of the hat to you. I enjoyed being a part of the process.  
The second reason I am writing is our of concern for the apparent misbehavior of committee member Joe Lamson towards Mr. Denison Rivera last Thursday. I'm sure you have bigger fish to fry than this at this time. However, we feel the behavior of Mr. Lamson was highly inappropriate towards a citizen of Montana that was simply there to testify. It is irrelevant that Mr. Rivera is a candidate for House representation or any other matter. He was there as a citizen, and for Mr. Lamson to attack him should at a minimum call for a public reprimand and apology directly to Mr. Rivera.

Best Regards,  
Bart J. Crabtree

VIA EMAIL

Ginger Aldrich, Staff Attorney  
Districting and Apportionment Commission  
Montana State Legislature  
1301 East 6th Avenue  
Helena, MT 59601  
[kvaldrich@mt.gov](mailto:kvaldrich@mt.gov)

**Re: Public Records Act Request**

Dear Staff Attorney Aldrich:

Pursuant to Art. II, Section 9, of the Montana Constitution, and the Montana Public Records Act, Mont. Code Ann. §§ 2-6-1001 *et seq.*, American Oversight makes the following request for records.

**Requested Records**

American Oversight requests that the Districting and Apportionment Commission produce the following records in a timely manner:

1. A complete copy (including any attachments) of any contract, amendment, memorandum of understanding, or other written agreement regarding external entities providing services relevant to the state or congressional redistricting processes, including, but not limited to, agreements with providers of map drawing software, consultants, advisors, or legal counsel.

This request should be interpreted to include any copies of contractual documents pertaining to redistricting in possession of the Districting and Apportionment Commission or any member or staff of the Commission, including those to which the Commission, Commission members, Commission staff, or Montana State Legislature are not party.

2. A complete copy of any unpublished formal or informal guidance, directives, memoranda, criteria, or other policy document pertaining to redistricting issued by or in possession of the Districting and Apportionment Commission (including any Commission member or staff).
3. Any district boundary proposals produced by any member of the Districting and Apportionment Commission, any Districting and Apportionment Commission staff member, or any entity commissioned or contracted by the Districting and Apportionment Commission or the Montana State Legislature, as well as any related data analyses. Please note that this request

does not seek electoral district maps or community of interest maps submitted as public comment by members of the public.

4. Any records containing assessments, interpretations, or opinions concerning data from the 2020 Census or the 2020 American Community Survey (ACS).
5. Any records containing assessments, interpretations, or opinions concerning past election results.
6. Any records containing assessments, interpretations, or opinions concerning political party affiliation data, racial demographic data, or present incumbency.
7. Records sufficient to identify the redistricting-related roles or responsibilities of any member of the Districting and Apportionment Commission, any Districting and Apportionment Commission staff member, or any entity commissioned or contracted by the Districting and Apportionment Commission or the Montana State Legislature for redistricting-related work.
8. Records reflecting any training materials used to instruct any member of the Districting and Apportionment Commission, any Districting and Apportionment Commission staff member, or any entity commissioned or contracted by the Districting and Apportionment Commission or the Montana State Legislature for redistricting-related work, in their roles or responsibilities.
9. Any records containing any formal or informal appraisal of or comment on any content or public comment submitted to the Districting and Apportionment Commission by members of the public.

Please provide all responsive records from January 1, 2021, through the date the search is conducted.

Please notify American Oversight of any anticipated fees or costs in excess of \$100 prior to incurring such costs or fee.

### **Guidance Regarding the Search & Processing of Requested Records**

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics.
- In conducting your search, please understand the terms “record,” “document,” and “information” in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of

any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions.

- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

### **Conclusion**

American Oversight is a 501(c)(3) nonprofit with the mission to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information

gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>1</sup>

We share a common mission to promote transparency in government. American Oversight looks forward to working with your agency on this request. If you do not understand any part of this request, please contact Taylor Stoneman at [records@americanoversight.org](mailto:records@americanoversight.org) or (202) 848-1319.

Sincerely,

/s/ Taylor Stoneman

Ginger Aldrich, Staff Attorney  
Districting and Apportionment Commission  
Montana State Legislature  
1301 East 6th Avenue  
Helena, MT 59601  
[kvaldrich@mt.gov](mailto:kvaldrich@mt.gov)

**Re: Public Records Act Request**

Dear Staff Attorney Aldrich:

Pursuant to Art. II, Section 9, of the Montana Constitution, and the Montana Public Records Act, Mont. Code Ann. §§ 2-6-1001 *et seq.*, American Oversight makes the following request for records.

**Requested Records**

American Oversight requests that the Districting and Apportionment Commission produce the following records in a timely manner:

All email communications (including emails, complete email chains, calendar invitation, and attachments thereto) sent by any of the Districting and Apportionment Commission members or staff listed below, to any email address ending in .com, .net, .org, .mail, .law, or .edu regarding the state or congressional redistricting processes.

**Districting and Apportionment Commission Members and Staff:**

- i. Maylinn Smith, Commission Chair
- ii. Jeff Essman, Commissioner
- iii. Joe Lamson, Commissioner
- iv. Dan Stusek, Commissioner
- v. Kendra Miller, Commissioner
- vi. Rachel Weiss, Research Analyst
- vii. Joe Kolman, Research Analyst
- viii. Ginger Aldrich, Staff Attorney
- ix. Laura Sherley, Research Assistant

In an effort to accommodate your office and reduce the number of potentially responsive records to be processed and produced, American Oversight has limited its request to emails sent by the listed custodians. To be clear, however, American Oversight still requests that complete email chains be produced, displaying both sent and received messages. This means, for example, that both

Commission Chair Smith's response to an email concerning contracts for map drawing software and the initial received message are responsive to this request and should be produced.

Please provide all responsive records from January 1, 2021, through the date the search is conducted.

Please notify American Oversight of any anticipated fees or costs in excess of \$100 prior to incurring such costs or fee.

### **Guidance Regarding the Search & Processing of Requested Records**

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics.
- In conducting your search, please understand the terms "record," "document," and "information" in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled

basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Hi Ginger.

MT isn't the only state with this question, as you can see. We've been rattling around with it for a while, and our take—which is not legal advice—is that the clock starts when the state says it does. That means two states could have two different answers.

I'm copying Ben Williams here. He'll be able to put you in touch with Alaska.

Also, if you could share with us what you learn, so we can better answer the next time we get this question, that would be great!

Best wishes,

Wendy Underhill  
Director – Elections & Redistricting Program  
National Conference of State Legislatures

**Subject:** [EXTERNAL] AK Redistricting Board -- Staff Contact Info?

Hi Wendy,

The Montana redistricting commission has a 90-day deadline “after the official final decennial census figures are available” to file its Congressional plan. Our Commission is trying to determine whether to use the August delivery date or the September delivery date as its trigger, and they have asked whether any other states with a similar deadline have made their determinations when their clock will start ticking. According to NCSL’s chart of deadlines, it looks like the only ones with a moving target like Montana’s is AK, PA, and ID. I found contact internet on the internet for PA and ID, but I was wondering if you could provide me with contact information for the staff of the Alaska Redistricting Board? Thanks very much

With regards,

Ginger,

I hope you had a nice weekend. I put you in touch with Peter Torkelson, the executive director of Alaska's Reapportionment Board—but that's not my only contact there. If Peter doesn't get back to you promptly let me know and I'll connect you with others there.

Thanks!

Ben

**Subject:** DAC Memo & Clarification

Dear Commissioners,

Please find a memo concerning legal representation for your background information attached.

In addition, I wanted to clarify the question asked yesterday about taking public comment on a plan. As you know, I was out of the room while you were discussing the topic, and upon my return I was asked about public comment. I assumed that you were discussing offering public comments on maps, in general, as you proceed through the process. To the extent that you were talking about public hearings on the congressional “final plan” for congressional or legislative districts, please note 5-1-108:

5-1-108. Public hearing on plans. (1) Before the commission files its final congressional redistricting plan with the secretary of state, the commission shall hold at least one public hearing on it.

(2) Before the commission submits its legislative redistricting plan to the legislature, it shall hold at least one public hearing on the plan at the state capitol.

(3) The commission may hold other hearings as it deems necessary.

While one may certainly argue that the many public hearings leading up to the filing constitute the required public hearing under this statute, it would nonetheless be prudent to hold a public hearing on the congressional “final plan” to belay any criticism that the public did not have adequate notice of any changes to the plan and thereby was effectively denied the right to submit comments. A similar argument was made in *Willems v. State* during the last round, and although the Court found that Article II, section 8, of the Montana Constitution concerning public participation did not apply to the Commission, this Commission has specifically adopted certain operating procedures which require public comment to be accepted “prior to making a final decision that is of significant interest to the public” (essentially binding itself to the same principle). Likewise, because of the lack of caselaw interpreting this section, and because subsection (1) specifies the “final” plan (as opposed to subsection (2) which does not specify “final”), to minimize the Commission’s legal liability, I would advise that to the extent possible, the Commission should hold a public hearing on the “final” congressional redistricting plan before it is filed.

With regards,

K. Virginia (“Ginger”) Aldrich

|------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

The constitutional amendment recently approved by the New Jersey electorate relieves them of their deadline, so that leaves only AK, ID, and PA. I contacted redistricting staff for those three states to find out if any decisions had been made by their states concerning their deadlines.

Alaska's staff notes that Alaska is discussing the same question internally, and they note that the Census's emails on the subject are "less than clear" in what constitutes "official" reporting. They are hoping for additional clarity from the Census Bureau as they move forward.

Idaho's Commission has not yet been appointed, but the staff indicates that in Idaho, a statute directs their Commission to adopt the redistricting plan within 90 days of organization, so the Commission will likely use the date of organization for their trigger rather than the data date. However, the staff indicated that if the Commission felt it needed longer time, it might argue for the final data delivery date, but that is speculative and would likely only be the case if the Commission is unable to complete its work within 90 days or organization.

The Pennsylvania Commission has only recently been organized and has not yet taken a position on what date it will use as its trigger under the Pennsylvania Constitution.

Hi Ginger,

We are discussing the same question here internally. The emails we have received from the Census (on our website's Census Info page) are less than clear in guiding us on what constitutes "official" reporting.

We are hoping for additional clarity from the Census Bureau as we move forward.

P.

**Subject:** Redistricting -- Availability of Data -- Request

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

**Subject:** [EXTERNAL] Connecting you two

Peter,

It's been a few weeks. I hope all's well up there.

I'm writing today to connect you with Ginger Aldrich. Ginger is a staffer with the Montana Legislature who, as part of their redistricting system, is assigned to the state's redistricting commission. She asked us a question about how states with similar redistricting deadlines to Montana, including Alaska, were interpreting language about delivery deadlines and when the clock is triggered, so to speak. Ginger, Peter is the director of Alaska's redistricting commission and has deep knowledge about the state's processes. He or someone on his staff should be able to help you.

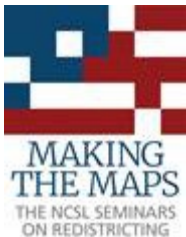

Consider yourselves connected!

Hi Ginger!

Our commission hasn't been appointed yet, so take this with a grain of salt, but I think we'll do our best to stay within the 90 days from when the commission first organizes. That language about the census data is from our state constitution, but we also have a statute that says date of organization only. If there turns out to be a real need to meet for a longer period, the commission might well end up arguing that the final data delivery date is the trigger, since the constitution obviously prevails over statute, but I'm hoping that won't be necessary.

Elizabeth

**Subject:** Redistricting -- Availability of Data -- Request

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

K. Virginia ("Ginger") Aldrich

**Subject:** [EXTERNAL] Connecting you two

Peter,

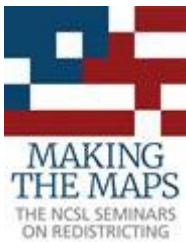

It's been a few weeks. I hope all's well up there.

I'm writing today to connect you with Ginger Aldrich. Ginger is a staffer with the Montana Legislature who, as part of their redistricting system, is assigned to the state's redistricting commission. She asked us a question about how states with similar redistricting deadlines to Montana, including Alaska, were interpreting language about delivery deadlines and when the clock is triggered, so to speak. Ginger, Peter is the director of Alaska's redistricting commission and has deep knowledge about the state's processes. He or someone on his staff should be able to help you.

Consider yourselves connected!

**Date:** Monday, June 14, 2021 9:09:43 PM

---

Dear Ginger,

Thank you very much for your inquiry. Our Commission has only recently been organized and has not taken a position on this question.

If we take a formal position on that question, I will let you know.

Meanwhile, I am sure that the Pennsylvania Commissioners would be interested in what the Montana Commission is doing and the information you have learned from other states with similar deadlines.

Rob

**Subject:** Redistricting -- Availability of Data Deadline -- Request

Mr. Byer,

From the Pennsylvania Redistricting website, I understand you were appointed to serve as the Pennsylvania Redistricting Commission's Chief Legal Counsel. I am the staff attorney for the Montana Districting and Apportionment Commission. From NCSL's website, I understand that Pennsylvania's legislative maps are due: "No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan." Presumably, the deadline will be triggered by the date the federal decennial census figures "are available", but the data is being released in two cadres to states: the legacy file format is being released in August and then by September 30<sup>th</sup> the user-friendly format is being released. The Montana Commission has requested whether other states with similar deadlines have made any determinations about which date they will use. To that end, has Pennsylvania's Commission determined which date it will use as the 90 day trigger for its legislative maps? Any insight you can give on Pennsylvania's deliberations concerning their deadline would be most helpful. Thank you,

**Subject:** AK Redistricting Board -- Staff Contact Info?  
**Date:** Friday, June 11, 2021 2:26:00 PM

---

Hi Wendy,

The Montana redistricting commission has a 90-day deadline “after the official final decennial census figures are available” to file its Congressional plan. Our Commission is trying to determine whether to use the August delivery date or the September delivery date as its trigger, and they have asked whether any other states with a similar deadline have made their determinations when their clock will start ticking. According to NCSL’s chart of deadlines, it looks like the only ones with a moving target like Montana’s is AK, PA, and ID. I found contact information on the internet for PA and ID, but I was wondering if you could provide me with contact information for the staff of the Alaska Redistricting Board? Thanks very much

With regards,

K. Virginia (“Ginger”) Aldrich

Hello Representative Skees,

Please find the memo we discussed attached. The background information on the criteria statute starts on page 11. I have also attached the case that is cited, that is a district court case, *Brown v. Montana Districting and Apportionment Commission*. I have attached HB 506 as introduced by Representative Fielder. The version as introduced did not have the redistricting criteria provisions in it (which is when it would have gone through legal review), and I do not see a legal note on it in the directory.

I dug around to find out when the the amendment that inserted section 5-1-115, and it was an amendment requested by Senator Fitzpatrick, amendment no. 506.3.2 (I didn't attach that one but you can find it linked on the HB 506 page on LAWS). The free conference committee that inserted the amendment was the 4/27 Free Conference regarding HB 506, and Senator Fitzpatrick moves that amendment at timestamp 08:04:50 – here's the video of that committee, and you can forward to that time stamp to see the discussion about that amendment:

[https://sg001-harmony.sliq.net/00309/Harmony/en/PowerBrowser/PowerBrowserV2/20210427/-1/43490#info\\_](https://sg001-harmony.sliq.net/00309/Harmony/en/PowerBrowser/PowerBrowserV2/20210427/-1/43490#info_)  
I hope this answers your questions, please let me know if you need anything else.

With regards,

Cause No. ADV 2003-72  
**DECISION AND ORDER**

---

¶1 Several motions are currently before the Court. Plaintiff and Defendant have filed cross motions for summary judgment. Intervenor has filed a motion to dismiss or for summary judgment. A hearing on the motions was held May 15, 2003. Plaintiff Bob Brown, Secretary of State was represented by Robert Cameron; Defendant Montana Districting and Apportionment Commission (Commission) was represented by Brian Morris; and Intervenor was represented by Beth Brennaman. The motions have been fully briefed and are submitted for decision.

## BACKGROUND AND UNDISPUTED FACTS

¶2 This case arises out of recent legislation pertaining to legislative districting. On January 6, 2003, the Commission submitted its plan for legislative districts to the 2003 legislature. The legislature appointed the Joint Select Committee on Districting and Apportionment to receive and consider testimony on the Commission's plan. After testimony, House Resolution No. 3 and Senate Resolution No. 2 were passed on February 4, 2003, which requested the Commission to reconvene and adopt a new plan. On that same day, Governor Martz signed HB 309, which was the basis for the legislative resolutions. The Commission met on February 5, 2003, where it considered the resolutions and ultimately adopted its original plan. The Commission tendered its plan to the Secretary of State for filing, but the Secretary refused to file it.

¶3 The Secretary of State filed a complaint for declaratory judgment, asking the Court to rule: (1) whether the Commission's plan is unconstitutional under Article V, Section 14, of the Montana Constitution; (2) whether the Commission's plan is unenforceable under HB 309; and (3) whether the Secretary of State's refusal to file the Commission's plan is valid under Montana law. All parties filed motions for summary judgment, and Intervenor also filed a motion to dismiss.

## LEGAL STANDARD

¶4 Summary judgment will only be granted when the record discloses no genuine issue of material fact and the moving party is entitled to judgment as a matter of law. *See* Rule 56(c), M.R.Civ.P.; ***Dillard v. Doe***, 251 Mont. 379, 382, 824 P.2d 1016, 1018 (1992). The moving party must establish both the absence of genuine issues of material fact and entitlement to judgment as a matter of law. ***Hadford v. Credit Bureau of Havre, Inc.***, 1998 MT 179, ¶ 14, 289 Mont. 529, ¶14, 962 P.2d 1198, ¶14. Once the moving party has met its burden, the opposing party must present material and substantive evidence, rather than mere conclusory or speculative statements, to raise a genuine issue of material fact. *Id.*

¶5 With respect to a motion to dismiss, the allegations of the complaint must be viewed in a light most favorable to plaintiffs, admitting and accepting as true all facts well-pleaded. ***United States Nat'l Bank of Red Lodge v. Montana Dep't of Rev.***, 175 Mont. 205, 207, 573 P.2d 188, 190 (1977), citing ***Bd. of Equalization v. Farmers Union Grain Terminal Ass'n***, 140 Mont. 523, 531, 374 P.2d 231, 236 (1962). A complaint will not be

dismissed for failure to state a claim unless it appears beyond any doubt that the plaintiff can prove no set of facts in support of his claim which would entitle him to relief.

## DISCUSSION

¶6 The motions raise several legal issues, none of which involve disputed issues of material fact.

### 1. Whether HB 309 constitutes an impermissible conflict with Article V Section 14 of the Montana Constitution.

¶7 Article V Section 14 of the Montana Constitution provides:

**Districting and apportionment.** (1) The state shall be divided into as many districts as there are members of the house, and each district shall elect one representative. Each senate district shall be composed of two adjoining house districts, and shall elect one senator. Each district shall consist of compact and contiguous territory. All districts shall be as nearly equal in population as is practicable.

(2) In the legislative session following ratification of this constitution and thereafter in each session preceding each federal population census, a commission of five citizens, none of whom may be public officials, shall be selected to prepare a plan for redistricting and reapportioning the state into legislative districts and a plan for redistricting the state into congressional districts. The majority and minority leaders of each house shall each designate one commissioner. Within 20 days after their designation, the four commissioners shall select the fifth member, who shall serve as chairman of the commission. If the four members fail to select the fifth member within the time prescribed, a majority of the supreme court shall select him.

(3) Within 90 days after the official final decennial census figures are available, the commission shall file its final plan for congressional districts with the secretary of state and it shall become law.

(4) The commission shall submit its plan for legislative districts to the legislature at the first regular session after its appointment or after the census figures are available. Within 30 days after submission, the legislature shall return the plan to the commission with its recommendations. Within 30 days thereafter, the commission shall file its final plan for legislative districts with the secretary of state and it shall become law.

(5) Upon filing both plans, the commission is then dissolved.

¶8 House Bill 309 included new sections, and amended Section 5-1111, MCA. The pertinent portions of the bill read as follows:

**Section 1. Redistricting criteria.** (1) In the drawing of legislative districts, the districting and apportionment commission shall comply with the following criteria:

(a) the districts must be compact and contiguous; and

(b) the districts must be as equal as practicable.

(2) For the purposes of this section, “as equal as practicable” means within a plus or minus 1 % relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census.

¶9 Section 5-1-111, MCA, as amended, reads in pertinent part:

**Final plan - dissolution of commission.** (1) Within 90 days after the official final decennial census figures are available, the commission shall file its final plan for congressional districts with the secretary of state and it shall become law.

(2) Within 30 days after receiving the legislative redistricting plan and the legislature's recommendations, the commission shall file its final legislative redistricting plan with the secretary of state. The secretary of state may not accept any plan that does not comply with the criteria in section 1. Upon acceptance of a plan by the secretary of state, the plan is considered filed and becomes law.

(3) Upon the acceptance and filing of both plans, the commission is dissolved.

¶10 The bill also contained a provision making it retroactive “to any legislative redistricting plan of the districting and apportionment commission that was not filed with the secretary of state on [the effective date of this act].”

¶11 In addressing this issue, the Court is mindful of well settled rules of law. One pertinent rule provides that in addressing a constitutional challenge to any statute, the statute is presumed constitutional, and the challenging party has the burden of establishing the statute's unconstitutionality. *Harper v. Greely*, 234 Mont. 259, 269, 763 P.2d 650, 656 (1988). If a doubt exists with respect to a finding of unconstitutionality, it must be resolved in favor of the legislation. *Id.* Another rule provides that the legislature can expand, but may not restrict rights guaranteed by the state or federal constitution. *See Marbury v. Madison*, 1 Cranch 137 (1803); *Noll v. City of Bozeman*, 166 Mont 504, 506, 534 P.2d 880, 881 (1975); *Shroyer v. Sokol*, 550 P.2d 309, 311 (Colo. 1976).

Finally, in interpreting provisions of the constitution, the Court is constrained and guided by various rules of construction applicable to interpreting legislation. *Great Falls Tribune Co. v. Great Falls Public Sch.Bd. of Trustees*, 255 Mont. 125, 129, 841 P.2d 502, 504 (1992). Accordingly, the Court must construe Article V, Section 14, of the Montana Constitution according to the plain meaning of the language therein. *State ex rel. Woodahl v. Dist. Ct.*, 162 Mont. 283, 511 P.2d 318 (1973). When the language of the provision is plain, unambiguous, direct and certain, the provision speaks for itself and there is nothing left for the court to construe. *Hammill v. Young*, 168 Mont. 81, 85-86, 540 P.2d 971, 974 (1975).

¶12 Article V, Section 14, of the Montana Constitution requires the Commission to create legislative districts that are “as nearly equal in population as is practicable.” This section lacks any more specific language. The Secretary of State argues that the legislature, using its “plenary power,” can “implement” this provision by enacting specifics, such as Section 1(2) of HB 309, which defines “as equal as practicable” as “a plus or minus 1% relative deviation from the ideal population of a district . . . .”

¶13 The Court finds no ambiguity in the language of Article V, Section 14, in this respect, and is therefore constrained from looking beyond the constitutional provision to interpret it.

¶14 The Secretary of State contends that this constitutional provision is intended to be implemented by the legislature. The Court disagrees, finding the provision to be self-executing, and needing no implementation by the legislature. A provision is self-executing if it supplies a sufficient rule by which the right given may be enjoyed and protected, or the duty imposed enforced; and is not when it merely indicates principles without laying down rules by which they may be given force of law. *State ex rel. Bennett v. State Bd. of Examiners*, 40 Mont. 59, 64, 104 P. 1055, 1057 (1909). Put another way, a constitutional provision is self-executing when it can be given effect without the aid of the legislature and there is nothing to indicate that the legislation is contemplated in order to render it operative. *State ex re. Stafford v. Fox-Great Falls Theatre Corp.*, 114 Mont. 52, 73, 132 P.2d 689, 700 (1942).

¶15 A reasonable and logical reading of the constitutional provision reveals that the Commission created pursuant to that provision is charged with the responsibility to designate the legislative districts, and in doing so, to exercise its own discretion and expertise in determining the equal as practicable factor. The language of Article V, Section 14, does not indicate an intent to involve the legislature in this process, other than its selection of four commissioners pursuant to subsection (2), and its recommendations to the Commission pursuant to subsection (4). Counsel cited no authority that validates the legislature seizing discretionary authority from a constitutional body such as the districting and apportionment commission. To the extent that HB 309 authorizes the legislature to preempt the Commission in determining the equal as practicable factor, the bill is void.

## 2. Whether HB 309 is a Valid Implementation of Article IV, Section 3, of the Montana Constitution

¶16 Article IV, Section 3, of the Montana Constitution provides:

**Elections.** The legislature shall provide by law the requirements for residence, registration, absentee voting, and administration of elections. It may provide for a system of poll booth registration, and shall insure the purity of elections and guard against abuses of the electoral process.

¶17 The Secretary of State argues that HB 309 is valid because its purpose is to insure the purity of the elections and guard against abuses of the electoral process. In making this argument, the Secretary of State asserts that the legislation removes partisan influence from the Commission, thereby protecting the redistricting process.

¶18 Again, in interpreting this provision, the Court is guided by the pertinent rules of statutory construction. *Great Falls Tribune Co.*, 255 Mont. at 129, 841 P.2d at 504. A fundamental rule of construction requires the words of a statute to be read in their context and with a view to their place in the overall statutory scheme. *Davis v. Mich. Dep't of Treasury*, 489 U.S.803 (1989), citing *United States v. Morton*, 467 U.S. 822, 828 (1984). Each statute should be read as a whole. *Dover Ranch v. Yellowstone County*, 187 Mont. 276, 283, 609 P.2d 711, 715 (1980). Applying these rules of construction, the Court concludes that Article IV, Section 3, of the Montana Constitution pertains to the mechanics of elections and not to the legislative redistricting process.

¶19 With respect to the Secretary of State's contention that legislative interference is needed to protect the redistricting process from political influence, the legislature is already substantially involved: Article V, Section 14(2), of the Montana Constitution provides that the majority and minority leaders of the legislature appoint four of the five members of the Districting and Apportionment Commission, who then select the fifth member. At the hearing on the motions for summary judgment, it became apparent that the members of the Commission constituted a good representation of the state population. The language of this constitutional provision indicates that the drafters of the constitution intended to protect the integrity of the redistricting process by requiring equal participation of both political parties in appointing the commissioners, and by prohibiting the commissioners from being public officials.

¶20 The argument that HB 309 is needed to protect the redistricting process is without merit.

## 3. Whether the Secretary of State's Refusal to File the Commission's Plan was Legal

¶21 The Secretary of State refused to file the Commission's plan when he determined that it did not comply with HB 309. That legislation requires the Secretary of State to determine whether the Commission's plan provides for districts that are (1) compact and

contiguous, and (2) are as equal as practicable. Article V, Section 14(3) and (4), of the Montana Constitution require the Commission to file its plan with the Secretary of State “and it shall become law.” This constitutional provision does not give the Secretary of State discretion to refuse to file the Commission's plan. Thus, the statute and the constitution are in conflict.

¶22 If a constitutional provision and statute are in conflict, the constitutional provision prevails. *State ex rel. Nagle v. Stafford*, 97 Mont. 275, 289, 34 P.2d 372, 378 (1934).

¶23 The Montana Supreme Court has long recognized the limited office of the Secretary of State as primarily a ministerial one. *State ex rel. Lloyd v. Rotwitt*, 15 Mont. 29, 37, 37 P. 847, 847-48 (1894). Indeed, the duties of the office, which are set forth in Section 2-15-401, MCA, appear to be purely ministerial ones. The responsibility of the Secretary of State with respect to filing the Commission's plan is clearly a ministerial one. The ministerial character of the Secretary of State's role in the redistricting process is further illustrated by, and is consistent with, the rigid time lines for filing the plan as set forth in Article V, Section 14 (3) and (4). On the other hand, HB 309 charges the Secretary of State with the responsibility of determining whether the Commission's plan complies with the bill's substantive requirements, thus converting the Secretary of State's responsibilities from ministerial to discretionary.

¶24 Since the constitution does not contemplate discretionary involvement of the Secretary of State, the legislature's attempt to do so is in conflict with the constitution and is void.

#### **4. Whether the Secretary of State Has Standing to Seek a Declaratory Judgment on the Constitutionality of the Plan Adopted by the Commission**

¶25 Intervenors assert that the Secretary of State lacks standing to seek a declaratory judgment on the constitutionality of the plan adopted by the Commission and have moved to dismiss that portion of the complaint. The Commission raises the same issue in its answer to the complaint. As discussed above, the Secretary of State's role with respect to filing the commission's plan pursuant to Article V, Section 14, of the Montana Constitution is ministerial, and he therefore has no basis to exercise discretion in the process of filing the plan. In other words, when the Commission presents the plan to the Secretary of State, he must file it, and he has no authority to refuse to do so. The language of the constitutional provision is clear in this respect.

¶26 Intervenors assert that the Secretary of State's legal rights are not affected by the enactment of HB 309. However, the Court acknowledges that the enactment of HB 309 placed the Secretary of State between a rock and a hard place. On one hand, the constitution required him to file the plan upon presentation by the Commission, while on the other hand, HB 309 required him to refuse to file the plan if it did not comply with the terms of the bill. On this basis, a controversy clearly exists for the Secretary of State, but only to the extent that the Court should determine which provision the Secretary of State

must follow. Upon such determination by the Court, the Secretary of State is bound by law to follow that provision as a ministerial officer, and he has no legal interest in further legal challenges to the Commission's plan.

¶27 The test for the existence of a judicial controversy is: (1) that the parties have existing and genuine, as distinguished from theoretical, rights or interests; (2) the controversy must be one upon which the judgment of the court may effectively operate, as distinguished from a debate or argument invoking a purely political, administrative, philosophical or academic conclusion; and (3) the controversy must be one the judicial determination of which will have the effect of a final judgment in law or decree in equity upon the rights, status or legal relationships of one or more of the real parties in interest, or lacking these qualities, be of such overriding public moment as to constitute the legal equivalent of all of them. *Gryczan v. State*, 283 Mont. 433, 442, 942 P.2d 112, 117 (1997). The Secretary of State as a ministerial officer has neither a legal right nor interest in a declaratory judgment as to the constitutionality of the Commission's plan. On this basis, the Secretary of State has no standing to seek a judgment as to the constitutionality of the plan.

¶28 The Secretary of State argues that his duty as the chief election officer to obtain and maintain uniformity in the application, operation and interpretation of the election laws provides sufficient basis to give him standing to request a declaratory ruling on the constitutionality of the Commission's redistricting plan. He asserts that his standing arises from his interest in the effective discharge of his official duties and points to *Missoula City-County Air Pollution Control Bd. v. Bd. of Env'tl. Review*, 282 Mont. 255, 937 P.2d 463 (1997), in support of this assertion. However, the Court finds that case distinguishable for two reasons. First, as noted above, the Secretary of State's duty with regard to the redistricting process is strictly ministerial, and he has no regulatory authority over this constitutionally mandated process, nor does it impact the manner in which he performs his duties to oversee the election laws. Second, although this issue is undoubtedly one of importance to the general public of Montana, the interest of the Secretary of State is not distinguishable from or greater than the interest of the public generally.

¶29 The Secretary of State also argues that his standing arises from his sworn duty to support, protect and defend the Montana Constitution. He asserts that this position is supported by *Judge v. Legislative Fin. Comm.*, 168 Mont. 470, 543 P.2d 1317 (1975). Again, the Court finds that case distinguishable. *Judge* did not involve a general challenge to a statute based on an executive officer's duty to protect the constitution; the governor in that case was arguing that the statute at issue was an infringement on the separation of powers doctrine by allowing the legislature to exercise discretion exclusively reserved to the executive branch, thus directly impacting the manner in which he fulfilled his discretionary duties. Here, as already discussed, the Secretary of State's role is ministerial only and the redistricting plan does not affect the discharge of his discretionary duties. Furthermore, there was no discussion at all of standing in that case. The only discussion of the governor's duty to uphold the Constitution arose in the context

of whether the governor was estopped from challenging the acts because he had signed them.

### **SUMMARY**

¶30 HB 309 impermissibly conflicts with Article V, Section 14, of the Montana Constitution, and is void on that basis. HB 309 is not a valid implementation of Article V, Section 14, because that constitutional provision is self-executing, and because Article IV, Section 3, of the Montana Constitution does not authorize the legislature to interfere with the redistricting process beyond the express authority given to it in Article V, Section 14. The Secretary of State was required to file the Commission's plan, and his refusal to do so was therefore in violation of the Montana Constitution. Finally, the Secretary of State does not have standing to seek a declaratory judgment on the constitutionality of the Commission's plan.

### **ORDER**

¶31 Intervenors' motion to dismiss the Secretary of State's request for declaratory judgment on the constitutionality of the Commission's plan is GRANTED. The motions for summary judgment are GRANTED and DENIED in accordance with this decision.

---

DATED this 2<sup>nd</sup> day of July, 2003.

## 1 HOUSE BILL NO. 506

2 INTRODUCED BY P. FIELDER

3 BY REQUEST OF THE SECRETARY OF STATE

4  
5 A BILL FOR AN ACT ENTITLED: "AN ACT GENERALLY REVISING ELECTION LAWS; REVISING  
6 PROCEDURES FOR PROSPECTIVE ELECTORS TO REGISTER AND VOTE; CLARIFYING  
7 REQUIREMENTS FOR A BOARD OF COUNTY CANVASSERS; ELIMINATING THE EXPERIMENTAL USE  
8 OF VOTE SYSTEMS; AMENDING SECTIONS 13-2-205 AND 13-15-401, MCA; AND REPEALING SECTION  
9 13-17-105, MCA."

10  
11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

12  
13 **Section 1.** Section 13-2-205, MCA, is amended to read:

14 **"13-2-205. Procedure when prospective elector not qualified at time of registration. (1)** ~~An~~  
15 Subject to subsection (2), an individual who is not eligible to register because of residence or age requirements  
16 but who will be eligible on or before election day may apply for voter registration pursuant to 13-2-110 and be  
17 registered subject to verification procedures established pursuant to 13-2-109.

18 (2) Until the individual meets residence and age requirements, a ballot may not be issued to the  
19 individual and the individual may not cast a ballot."  
20

21 **Section 2.** Section 13-15-401, MCA, is amended to read:

22 **"13-15-401. Governing body as board of county canvassers. (1)** The governing body of a county  
23 or consolidated local government is ex officio a board of county canvassers and shall meet as the board of  
24 county canvassers at the usual meeting place of the governing body ~~within 14 days after each election,~~ at a  
25 time determined by the board, ~~to~~ and within 14 days after each election to complete the canvass the of returns.

26 (2) If one or more of the members of the governing body cannot attend the meeting, the member's  
27 place must be filled by one or more county officers chosen by the remaining members of the governing body so  
28 that the board of county canvassers' membership equals the membership of the governing body.

(3) The governing body of any political subdivision in the county that participated in the election may join with the governing body of the county or consolidated local government in canvassing the votes cast at the election.

(4) The election administrator is secretary of the board of county canvassers and shall keep minutes of the meeting of the board and file them in the official records of the administrator's office."

NEW SECTION. Section 3. Repealer. The following section of the Montana Code Annotated is repealed:

13-17-105. Experimental use of voting systems.

- END -

TO: Districting and Apportionment Commission

FROM: K. Virginia Aldrich, Staff Attorney

RE: Litigation Background and Districting and  
Apportionment Criteria

DATE: May 31, 2020 [REVISED June 12, 2020]

This memorandum was prepared as background information for the Districting and Apportionment Commission (Commission), and it does not represent any opinion or action on the part of the Commission.

#### I. Introduction and Important Deadlines

The U.S. Constitution provides that an "actual Enumeration" of the population must be made every ten years under provisions set by Congress.<sup>1</sup> Under federal law, the Secretary of Commerce is commanded to "take a decennial census of population as of the first day of April" every ten years.<sup>2</sup> Thus, April 1, 2020, is officially designated Census Day, the date that determines who is counted and where each person is counted. As a result, seats in the U.S. House of Representatives are apportioned to the states based on the census, and the federal government uses census numbers to help allocate federal funds.

By law, the U.S. Census Bureau must complete and report the total population count by state to the U.S. President within nine months after Census Day.<sup>3</sup> Within a week of the opening of the 117th Congress<sup>4</sup>, the President must transmit to Congress a statement showing the total population in each state and the number of congressional representatives to which each state is entitled.<sup>5</sup> P.L. 94-171 redistricting data must be reported to the "Governor of the State involved and the officers or public bodies having responsibility for legislative apportionment or districting of such State" within one year after the census date. This data consists of the small area census data necessary for legislative redistricting.

Due to the COVID-19 pandemic, the U.S. Census Bureau has requested relief from these statutory deadlines. The Census Bureau has requested additional time to deliver final apportionment counts to the President and additional time to deliver the small area census data to the states. If this request is granted by Congress, the Census Bureau has stated that it would deliver apportionment counts to the

---

<sup>1</sup> [U.S. Const. art. I, § 2.](#)

<sup>2</sup> [13 U.S.C. § 141\(a\).](#)

<sup>3</sup> [13 U.S.C. § 141\(b\).](#)

<sup>4</sup> The 117th United States Congress is currently scheduled to convene on January 3, 2021, but Congress may designate another day. [U.S. Const. amend. XX, § 2.](#)

<sup>5</sup> [2 U.S.C. § 2a\(b\).](#)

President by April 30, 2021, and redistricting data would be delivered to each state no later than July 31, 2021.<sup>6</sup>

The Districting and Apportionment Commission (Commission) is created under Article V, section 14, of the Montana Constitution, and the Commission has the responsibility to "prepare a plan for redistricting and reapportioning<sup>7</sup> the state into legislative districts and a plan for redistricting the state into congressional districts."<sup>8</sup>

Once redistricting data is delivered to the states by the U.S. Census Bureau, the Montana Constitution requires that the Commission file its final plan for congressional districts with the Secretary of State "[w]ithin 90 days after the official final decennial census figures are

**Article V, Section 14. Districting and apportionment.**

....

(3) Within 90 days after the official final decennial census figures are available, the commission shall file its final plan for congressional districts with the secretary of state and it shall become law.

....

<sup>6</sup> [U.S. Department of Commerce Secretary Wilbur Ross and U.S. Census Bureau Director Steven Dillingham Statement on 2020 Census Operational Adjustments Due to COVID-19, Census Bureau Press Release, April 13, 2020.](#)

<sup>7</sup> Even in the Constitutional Convention, there was some confusion about whether the Legislature or the Commission would set the size of the Legislature. See Montana Constitutional Convention 1971-1972, Verbatim Transcript, Vol. V., 1595, 1612-1613. In section [5-1-101\(2\)](#), MCA, the Legislature has asserted its authority to determine the number of districts in the legislative session before the Census. However, a 1973 Attorney General's opinion states that "with the adoption of the new constitution, the people of Montana divested the legislature of all power concerning apportionment of the legislature, except for the power of recommendation . . . . [T]he reapportionment commission is the only agency empowered by the constitution to determine the size of the legislative houses and their geographical makeup. . . . The commission is, however, bound by the constitutional limitations of 40 to 50 senators and 80 to 100 representatives." [35 A.G. Op. 12 \(1973\)](#). The power of the Commission to determine the size of the legislative houses and the geographical makeup of the congressional and legislative districts is "subject only to the restrictions of the Constitution." *Id.* Further, upon submission of the plans, "all previous statutory provisions in conflict with that plan are, in effect, repealed." *Id.* A subsequent legal opinion by the Director of Legal Services of the Montana Legislature disputed some portions of the Attorney General's opinion, including the conclusion that the Commission is not the sole body that may determine the size of the Legislature. "Determination of Size of Legislature", Gregory J. Petesch, June 1989. As noted in Petesch's memo, section [2-15-501\(7\)](#), MCA, provides that in the case of conflicting opinions by the Attorney General and an attorney retained by the state, "the attorney general's opinion is controlling unless overruled by a state district court or the supreme court." In addition, in a 2004 case concerning the reassignment of holdover senators to districts by the Legislature, a unanimous Montana Supreme Court stated that "[b]y granting redistricting authority to the Commission under Article V, Section 14, the Constitution denied the Legislature any latitude to invoke its plenary powers." [Wheat v. Brown, 2004 MT 33, ¶35, 320 Mont. 15, 25, 85 P.3d 765, 771](#). The same reasoning potentially may apply to apportionment. In any event, if the Commission contemplates reapportioning the number of legislative districts, there are several provisions of the Montana Constitution to consider, including Article V, section 2, concerning the size of the Legislature, Article V, section 3, concerning the election and terms of senators, and Article V, section 14(1), concerning the composition of legislative districts. A reduction in the size of the Legislature may raise questions about compliance with Article V, section 3, of the Montana Constitution because of inherent problems resulting from the terms of holdover Senators. Specifically, that provision requires that a senator's term is four years, and one-half of the senators must be elected every two years. *But see* Montana Constitutional Convention 1971-1972, Verbatim Transcript, Vol. V., 1568-1569. Attempts to reduce the size of the Legislature may reduce a senator's term or cause an unequal number of senators to be elected. The Legislature cannot be enlarged because it is currently at the maximum number of senators and representatives specified in the Montana Constitution. [Mont. Const. art. V, § 2.](#)

<sup>8</sup> [Mont. Const. art. V, § 14.](#)

available."<sup>9</sup> However, before it may file its final congressional redistricting plan, the Commission must hold "at least one public hearing on it."<sup>10</sup> When it files its plan with the Secretary of State, by historical practice and the recommendation of the Attorney General, the Commission should submit the plan with a cover letter signed by each Commission member to the Secretary of State for filing to signify that the Commission "duly and regularly adopted" the final plan.<sup>11</sup>

Legislative redistricting is subject to separate deadlines. Before it submits its legislative redistricting plan to the Legislature, the Commission must hold "at least one public hearing on the plan at the state capitol."<sup>12</sup> The Commission is required to submit its plan for legislative districts to the Legislature "at the first regular session after its appointment or after the census figures are available."<sup>13</sup> By statute, the Commission is instructed to submit its legislative redistricting plan to the Legislature "by the 10th legislative day"<sup>14</sup>. The Montana Constitution requires the Legislature to return the plan to the Commission with its recommendations "[w]ithin 30 days after submission."<sup>15</sup> However, the Legislature "has only the authority to recommend, not to adopt, alter or amend" the plan.<sup>16</sup>

**Article V, Section 14. Districting and apportionment.**

....

(4) The commission shall submit its plan for legislative districts to the legislature at the first regular session after its appointment or after the census figures are available. Within 30 days after submission, the legislature shall return the plan to the commission with its recommendations. Within 30 days thereafter, the commission shall file its final plan for legislative districts with the secretary of state and it shall become law.

(5) Upon filing both plans, the commission is then dissolved.

Within "30 days thereafter," the Commission must file its final legislative redistricting plan with the Secretary of State.<sup>17</sup>

After both plans are filed, the Commission is dissolved.<sup>18</sup>

<sup>9</sup> [Mont. Const. art. V, § 14\(3\)](#).

<sup>10</sup> Section [5-1-108\(1\)](#), MCA.

<sup>11</sup> [35 A.G. Op. 50](#) (1973).

<sup>12</sup> Section [5-1-108\(2\)](#), MCA.

<sup>13</sup> [Mont. Const. art. V, § 14\(4\)](#). This phrase has historically and judicially been understood to mean that the designated session "is either that *following* the appointment of the Commission or that *following* the availability of census figures, whichever is later" (emphasis added). *St. ex rel. Greely v. Mont. Districting & Apportionment Commn.*, First Jud. Dist., No. 46873 (Aug. 12, 1981). In 1999, Legislative Services Division prepared a memo on the availability of an expedited schedule, which is available [here](#). In addition, the Constitutional Convention specifically discussed requiring that the Commission submit the plan at the first *regular* session, rather than a special session.

<sup>14</sup> Section [5-1-109](#), MCA. Pursuant to section [5-2-103](#), MCA, the Legislature will convene on January 2, 2023. The 10th legislative day is currently projected to be Friday, January 13, 2023.

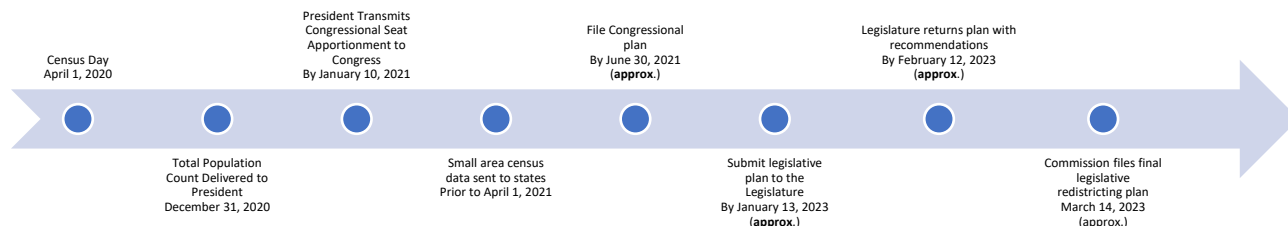

<sup>15</sup> [Mont. Const. art. V, § 14](#).

<sup>16</sup> [35 A.G. Op. 12](#) (1973).

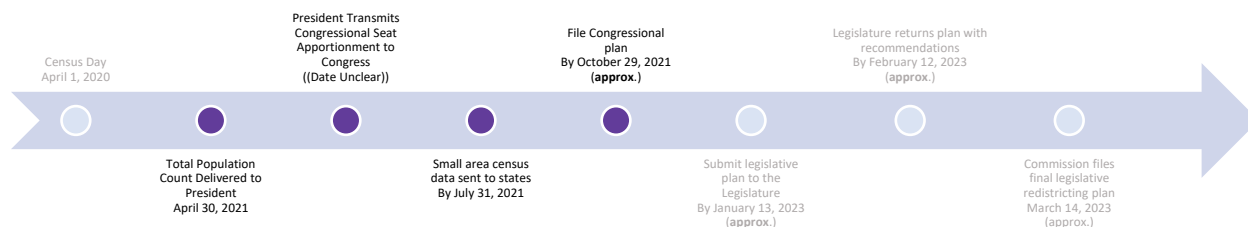

<sup>17</sup> [Mont. Const. art. V, § 14](#).

<sup>18</sup> [Mont. Const. art. V, § 14\(5\)](#); Section [5-1-111\(3\)](#), MCA.

## Current Timeline with approximate dates

## Changes to timeline if Congress grants current census extension request with approximate dates

If Congress grants the request by the Census Bureau to delay the delivery of Census data to the states due the COVID-19 pandemic, the Commission's constitutional deadline for submitting the congressional plan will fall approximately 120 days (depending on when the data is received) later than it would have otherwise because it is calculated from the date that the data is received. Assuming no further delays beyond the one already requested of Congress, there will not be an impact to the regular timeline for legislative redistricting.

## II. Recent History Regarding Districting in Montana<sup>19</sup>

### A. The Constitutional Convention and Early Legal Questions

Each decade since the Constitutional Convention has brought new hurdles and legal questions concerning redistricting in Montana. Following is a brief history of recent redistricting in Montana along with the associated legal challenges.

In 1972 during the Constitutional Convention, Delegate Skari outlined the history of redistricting in Montana:

The Montana experience was that in 1965 the Legislature was unable to reapportion. About a dozen bills were introduced, and not a single one was accepted. Consequently, it fell to the federal District Court to reapportion the state. In 1971, the Legislature drew up one plan which was invalid because of a 37 percent variance [among Senate districts]. After working through the regular session [and] one special session, the Legislature finally came up with the [1970's] plan in the second special session, which

<sup>19</sup> For a discussion of early Montana reapportionment and redistricting, see Ellis Waldron, [100 Years of Reapportionment in Montana](#), 28 Mont. L. Rev. 1 (1966).

the court allowed to stand for the election of [the Constitutional] Convention [delegates].<sup>20</sup>

The Constitutional Convention adopted a new section in the 1972 Constitution creating the Districting and Apportionment Commission, and the new section specified that previous multimember legislative districts<sup>21</sup> would be single-member legislative districts that were compact and contiguous. Five years earlier, Congress had passed legislation specifying that congressional seats must be elected from single-member districts.<sup>22</sup>

In the transition period after the adoption of the new state constitution, the first Commission was appointed in 1973 and adopted its legislative plan in early 1974.<sup>23</sup>

The new state constitution had provided for annual sessions, but in 1974, Montana voters also adopted a constitutional amendment to return to biennial sessions. Because both reapportionment plans could not be completed until after legislative review of the plans, the adoption of biennial sessions had unanticipated consequences on the redistricting cycle. As a result, the Districting and Apportionment Commission requested a legislative bill draft that would amend the Constitution to accelerate congressional redistricting within 90 days after receiving the official final decennial census figures, to specify that only the legislative district plan would be submitted to the legislature, to clarify that there were separate plans for congressional and legislative seats, and to state that the Commission would be dissolved upon the filing of both plans.<sup>24</sup> This proposal was placed on the ballot by the Legislature, and in 1984,<sup>25</sup> it was adopted by the people of Montana.<sup>26</sup>

Additionally, early questions arose about whether the Legislature could change the size of the legislative bodies after the final plan was adopted, an ability that could render a reapportionment plan ineffective. See n. 7, *supra*, for a discussion concerning this issue.

As a result of the 1990 census, Montana lost one of its two congressional seats, leaving it with one lone congressional seat. Montana filed suit, challenging the constitutionality of the congressional apportionment method, but ultimately, the state did not prevail,<sup>27</sup> and it has had only one congressional seat since then. However, data trends suggest Montana may gain a second congressional seat as a result of the 2020 apportionment.<sup>28</sup>

## B. Holdover Senators

In 1980, there was a controversy as to whether senators should be held over after redistricting or whether their terms of office would be shortened.<sup>29</sup> These senators who have 2 years remaining in their term of office at the time of redistricting are known as "holdover senators". The Commission did not assign holdover senators in its draft plan.

In response to a Senate request for an opinion on the issue, the Attorney General issued an opinion finding that the Constitution provides that senators are elected to a four-year term, and there was no legal authority to shorten or change a senator's term after reapportionment.<sup>30</sup> In making this determination, the Attorney General found that the assignment of holdover senators was the responsibility of the Commission and that "[t]he Commission has the inherent authority under the Montana Constitution Article V, section 14 to do what is necessary to implement a plan that complies with the State's law."<sup>31</sup> The 1983 Senate criticized the Commission for its failure to assign the holdover senators in the draft plan.<sup>32</sup>

During the next cycle in the 1990's, the Commission included assignments for holdover senators, and the plan became law.<sup>33</sup>

In 2003, after receiving the legislative plan from the Commission for comment, the Legislature passed section 5-1-116, MCA.<sup>34</sup> That section required the Legislature, rather than the Commission, to assign holdover senators to districts under the new plan for the remainder of their terms. The section specifically prohibited the Commission from assigning holdover senators to districts.<sup>35</sup> Then the 2003 Legislature passed another bill to repeal the transition section of the Districting and Apportionment Plan of 2003 which had assigned holdover senators to new districts.<sup>36</sup> In addition, the 2003 Legislature adopted a joint resolution assigning holdover senators to districts.<sup>37</sup>

Three holdover senators whose assigned districts differed between the Commission's assignments and the Legislature's assignments challenged the Legislature's authority to assign holdover senators.<sup>38</sup> The state District Court held that the two legislative bills and the joint resolution attempting to assign holdover senators were unconstitutional and of no force and effect, and the Secretary of State was ordered to give effect to the plan filed by the Commission, including the assignment of holdover senators.<sup>39</sup>

<sup>31</sup> *Id.*

<sup>32</sup> *Wheat*, 2004 MT 33, ¶25.

<sup>33</sup> *Id.* at ¶26.

<sup>34</sup> [Ch. 4, L. 2003](#). This section was repealed in 2005. [Ch. 357, L. 2005](#).

<sup>35</sup> *Id.*

<sup>36</sup> [Ch. 278, L. 2003](#).

<sup>37</sup> [SJ 23 \(2003\)](#).

<sup>38</sup> *Wheat v. Brown*, 2003 ML 3963 (Mont. Dist. 2003).

<sup>39</sup> *Id.* at ¶27-28.

On appeal, the Montana Supreme Court affirmed the District Court.<sup>40</sup> The Montana Supreme Court quoted the Constitutional Convention which provided that the Commission, after having been appointed, would "*in effect, bypass the Legislature from this point on*" (emphasis in original).<sup>41</sup> The Supreme Court found that the Constitutional Convention "assigned the task of redistricting to the Commission - an independent autonomous entity - and limited the Legislature's role to that of making 'recommendations.'"<sup>42</sup> The Supreme Court discussed the arguments made by the defendants, but noted that it did not need to "address the specifics of the [statutory criteria for assigning holdovers] since the issue presented is not whether the specific criteria are appropriate or well-intentioned. Rather, the more fundamental constitutional issue is whether the Legislature can inject itself into the redistricting process through the adoption of *any* criteria pertaining to holdovers" (emphasis in original).<sup>43</sup> Further, it found that "Article V, Section 14's mandate that the Commission effect redistricting is self-executing . . . . By granting redistricting authority to the Commission under Article V, Section 14, the Constitution denied the Legislature any latitude to invoke its plenary powers [with respect to assigning holdover senators]".<sup>44</sup>

Consequently, the unanimous Supreme Court affirmed the District Court's holding that all three legislative enactments were unconstitutional and of no force or effect.<sup>45</sup>

### C. Vote Dilution

Following the 1990s redistricting cycle, American Indian plaintiffs brought suit against the state, contending that the 1992 legislative redistricting plan diluted the voting strength of American Indians in violation of § 2 of the Voting Rights Act.<sup>46</sup> The District Court found that plaintiffs fulfilled two of the three threshold conditions (also known as *Gingles* factors, discussed later in section III(B)(1), *infra*), showing that the population of American Indians on the Blackfeet and Flathead Indian reservations was sufficiently large and geographically compact to constitute a majority in both an additional House district and an additional Senate district and that the American Indians were politically cohesive in the challenged districts.<sup>47</sup> However, the District Court found that white majority voters did not usually vote to defeat the preferred candidate of the Indian voters, failing the third threshold factor.<sup>48</sup>

On appeal, the Ninth Circuit found that in this determination, the District Court erroneously relied, in part, on the electoral success of Indian candidates in majority-Indian House districts when it concluded

---

<sup>40</sup> *Wheat v. Brown*, [2004 MT 33](#).

<sup>41</sup> *Id.* at ¶21 (citations omitted).

<sup>42</sup> *Id.* at ¶23.

<sup>43</sup> *Id.* at ¶29.

<sup>44</sup> *Id.* at ¶35.

<sup>45</sup> *Id.* at ¶36.

<sup>46</sup> *Old Person v. Cooney*, 230 F. 3d 1113 (9th Cir. 2000). At the District Court level, the plaintiffs alleged vote dilution in two separate geographic areas involving eight House districts, four in the northwest part of the state (plaintiffs offered the "Blackfeet-Flathead Plan as an alternative to these House districts) and four in the northeast (plaintiffs offered the "Rocky Boy-Fort Belknap-Fort Peck Plan" as an alternative to these House districts). *Id.* at 1119. The District Court rejected the claim of voting dilution, and the plaintiffs appealed only with respect to the four House districts in the northwest part of the state. *Id.*

<sup>47</sup> *Id.* at 1121.

<sup>48</sup> *Id.* at 1122.

that white bloc voting in majority-white House districts was legally insignificant.<sup>49</sup> Consequently, the Ninth Circuit found that the third threshold factor had been satisfied.<sup>50</sup>

If the threshold factors have been satisfied, courts look at a number of nonexhaustive factors to determine, based on the totality of the circumstances, whether the minority group has been denied an equal opportunity to participate in the political process and elect representatives of their choice. The District Court had found some of the factors favored finding a § 2 violation including a history of discrimination by the federal and state governments, lower socioeconomic status which hindered the ability of Indians to participate fully in the political process, evidence of racially polarized elections, and in some elections, subtle or overt racial appeals.<sup>51</sup> The District Court also found that some of the factors did not favor such a finding, including that the state did not have unreasonably large districts, voting practices that enhanced the opportunity for discrimination among Indian voters, or a candidate slating process, state officials were generally responsive to the needs of American Indians, the policies underlying the creation of existing district boundaries were not tenuous, and the number of American Indians elected to the state legislature was "roughly proportional" to their share of the voting age population in Montana.<sup>52</sup>

Ultimately, the District Court found that based on the totality of the circumstances, the 1992 redistricting plan did not impermissibly impair the ability of American Indians to elect their preferred representatives.<sup>53</sup>

However, the Ninth Circuit found that the District Court erred in its analysis of one of the most important factors, proportionality.<sup>54</sup> The Ninth Circuit found that although the 1992 plan for House districts might reflect rough proportionality, the Senate and combined House and Senate legislature figures did "not permit a finding of proportionality."<sup>55</sup> Because this error "may have affected the district court's ultimate finding that, in light of the totality of circumstances, there was no dilution of American Indian voting strength," and because the "case is sufficiently close that we cannot know whether or not the district court would have found dilution if it had correctly assessed the factor of proportionality", the Ninth Circuit reversed and remanded the judgment for further proceedings to determine whether vote dilution had occurred.<sup>56</sup>

In the original proceedings, the plaintiffs also claimed, based on Districting and Apportionment Commission member statements at Commission hearings and meetings, that the Commission members acted with a discriminatory purpose in violation of § 2 of the Voting Rights Act when they adopted the 1992 legislative redistricting plan.<sup>57</sup> The Ninth Circuit "recognize[d] that some of the Commissioners' comments were inflammatory" but affirmed the District Court's opinion that there was no

---

<sup>49</sup> *Id.* at 1117, 1127.

<sup>50</sup> *Id.*

<sup>51</sup> *Id.* at 1129.

<sup>52</sup> *Id.*

<sup>53</sup> *Id.* at 1128.

<sup>54</sup> *Id.*

<sup>55</sup> *Id.* at 1130. Under the plaintiffs' plan, the proposed majority Indian House district would be adjacent to a reconfigured, existing majority-Indian House district. These would be combined to create a majority-Indian Senate district. *Id.* at 1121.

<sup>56</sup> *Id.* at 1130.

<sup>57</sup> *Id.* at 1117.

discriminatory purpose in the adoption of the plan, finding that the Commission did not deviate from its criteria, the plan increased majority-Indian districts, and the plan did not burden Indians more than whites.<sup>58</sup>

In its discussion on appeal, the Ninth Circuit had drawn attention to the fact that the original trial court had considered the question of proportionality within the entire state, rather than in a geographic subset such as the districts challenged at trial, but because the parties had not objected to the scope, it did not decide whether the entire state was the proper frame of reference for a proportionality finding.<sup>59</sup> When the case returned to the district court level to correctly assess the factor of proportionality, the District Court held that statewide proportionality was not determinative of the narrow vote dilution issue in the challenged districts, but rather each district "requires sufficient evidence that district-wide proportionality is lacking".<sup>60</sup> Although admitting that on a statewide basis, proportionality was lacking, in looking at the "relevant geographic subset", the court found that there was satisfactory proportionality.<sup>61</sup>

Nevertheless, because the presence or absence of proportionality was only one factor under the totality of the circumstances, the trial court also reexamined the totality of the circumstances, but it narrowed its focus to the districts in which the "four remaining Plaintiffs reside and have standing to sue."<sup>62</sup> In doing so, it examined at least one subsequent election which supported the court's finding "that proportional representations of American Indians exist in the four legislative districts at issue".<sup>63</sup> The District Court did not disturb any of the prior trial court's findings, and it concluded that plaintiffs had not met their burden of establishing vote dilution in the relevant districts, noting that "the fact that of the four districts [two Senate and two House districts] at issue, both House Districts and one Senate District are already represented by Indian-preferred candidates strongly suggests that American Indians have an equal opportunity to elect candidates of their choice in the particular districts in which Plaintiffs in this action have standing to sue."<sup>64</sup>

The District Court also addressed a new issue raised by the state, which argued that even if the court were to find vote dilution existed, it could not find a violation of § 2 of the Voting Rights Act unless it determined that a constitutionally acceptable remedy existed.<sup>65</sup> When the case returned to district court, six years had passed since the original trial, and the 1998 and 2000 elections and 2000 federal decennial census had occurred.<sup>66</sup> "To a degree," the District Court wrote, "these events are relevant to this Court's vote dilution inquiry; more particularly to the question of whether a viable remedy is available to correct the effect of any vote dilution pending the completion of the work of the 2000 Montana Districting and Apportionment Commission."<sup>67</sup> The District Court concluded that because the 2002 election cycle then in process would be disturbed and because the Districting and Apportionment

<sup>67</sup> *Id.* at 1009.

Commission was proceeding with its work after the 2000 decennial census, "any action by this Court to compel partial redistricting would impair" the legitimate state electoral policy which allowed the Commission to accomplish its task in a comprehensive and coherent fashion.<sup>68</sup> The District Court went on to hold that:

without regard to whether the availability of a constitutionally acceptable remedy is deemed an essential element of a § 2 claim, given the particular circumstances of this case, it is an appropriate factor to be weighed in the § 2 totality of circumstances inquiry. Having done so, and for the reasons discussed above, the Court finds that this is the "unusual case" in which a viable short-term remedy is not available. The Court's conclusion in this regard is reinforced by the very real prospect that comprehensive and long-term relief designed to address vote dilution throughout the State of Montana is in the offing within a year under the auspices of the Montana Districting and Apportionment Commission, and further by the Court's finding that no vote dilution has been demonstrated in the particular legislative Districts at issue.

The case was again appealed to the Ninth Circuit.<sup>69</sup>

The Ninth Circuit addressed the District Court's holding that the plaintiff's claims failed, even if they showed vote dilution, because there was no adequate remedy for the alleged Voting Rights Act violation. The Ninth Circuit reversed the District Court's holding, concluding that barring valid claims because of disruption to the election process would defeat the purpose of the Voting Rights Act, even if the only practical effect would be declaratory relief after elections were held.<sup>70</sup>

In addition, the Ninth Circuit once again addressed proportionality, finding that "limiting the frame of reference to the plaintiffs' legislative districts would allow for an inaccurate proportionality calculus that may interfere with the goals of the Voting Rights Act."<sup>71</sup> The Ninth Circuit held that limiting a frame of reference to certain legislative districts was impermissibly narrow, and instead of considering the number of Indian-preferred candidates who had been elected, the District Court should have considered the Indians' share of majority-minority districts, a share that was not proportional.<sup>72</sup> Thus, the Ninth Circuit found, "the proportionality factor weighs in favor of a finding of vote dilution."<sup>73</sup>

Although the proportionality analysis was erroneous, because it was only one factor in the overall assessment, the Ninth Circuit had to face "the ultimate question as to whether our disagreement on proportionality analysis requires reversal." Because the ultimate legal question of whether vote dilution has occurred is to be treated as factual and reviewed for clear error rather than *de novo*, the Ninth Circuit stated:

This is one of those not unusual cases where our decision is controlled by the proper standard of review. On one side of the scale lies a history of official discrimination, the presence of racially polarized elections, the presence of socioeconomic factors limiting Indians' political participation, the use of racial appeals in elections, and

disproportionality. On the other side of the scale we see the absence of discriminatory voting practices, the viable policy underlying the existing district boundaries, the success of Indians in elections, and officials' responsiveness to Native Americans' needs. We have fully considered the legal issues presented and the detailed factual record with which the district court grappled. We cannot say that the district court's determination that there was no vote dilution, considered in the totality of circumstances, was clearly erroneous.<sup>74</sup>

#### D. Redistricting Criteria and the Constitutional Authority of the Commission

During the 2000 round of redistricting, the Commission submitted its legislative plan to the Legislature, but the plan proved contentious. The Legislature sent its recommendations back to the Commission, requesting that the Commission reconvene and adopt a new plan.<sup>75</sup> The Legislature also passed a bill, signed by the Governor on the same day the recommendations were returned to the Commission, that enacted statutory redistricting criteria.<sup>76</sup> The criteria included constitutionally mandated requirements under [Article V, section 14\(1\)](#), (specifically, that districts be compact and contiguous and that districts be as equal as is practicable).<sup>77</sup> In addition to restating constitutional requirements, the bill provided a legislative definition for the "as equal as practicable" population standard for legislative districts.<sup>78</sup> The bill, [HB 309](#), provided that "as equal as practicable" means "within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census."<sup>79</sup>

In addition to creating the new section, the bill amended what had previously been a statutory restatement of [Article V, section 14](#)'s constitutional requirements concerning the filing of the plans. The bill inserted language prohibiting the Secretary of State from accepting a plan that did not comply with the new 1% relative deviation criteria, and it made the dissolution of the Commission contingent upon acceptance of the plan by the Secretary of State.<sup>80</sup>

##### Ch. 3, L. 2003 (HB 309) provided:

**Section 1. Redistricting criteria.** (1) In the drawing of legislative districts, the districting and apportionment commission shall comply with the following criteria: (a) the districts must be compact and contiguous; and (b) the districts must be as equal as practicable. (2) For the purposes of this section, "as equal as practicable" means within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census.

##### Ch. 3, L. 2003 (HB 309) provided:

##### 5-1-111. Final plan -- dissolution of commission.

...

(2) Within 30 days after receiving the legislative redistricting plan and the legislature's recommendations, the commission shall file its final legislative redistricting plan with the secretary of state ~~and it shall become law. The secretary of state may not accept any plan that does not comply with the criteria in [section 1].~~ Upon acceptance of a plan by the secretary of state, the plan is considered filed and becomes law.

(3) Upon the acceptance and filing of both plans, the commission ~~shall be~~ is dissolved."

<sup>74</sup> *Id.* at 1050.

<sup>75</sup> [HR 3 \(2003\)](#), [SR 2 \(2003\)](#).

<sup>76</sup> *Brown v. Mont. Districting and Apportionment Commn.*, 2003 ML 1896 (Mont. Dist. 2003).

<sup>77</sup> [Ch. 3, L. 2003](#).

<sup>78</sup> *Id.*

<sup>79</sup> *Id.*

<sup>80</sup> *Id.*

The day after the Legislature sent its recommendations back to the Commission, the Commission considered the resolutions, but it ultimately adopted its original plan.<sup>81</sup> Subsequently, the Commission attempted to file the plan, but the Secretary of State refused to file it.<sup>82</sup>

The Secretary of State brought suit in *Brown v. Montana Districting and Apportionment Commission*,<sup>83</sup> arguing that the Legislature, using its plenary power, could implement Article V, section 14, by providing a definition for the Montana constitutional requirement that legislative districts "be as nearly equal in population as is practicable."

The District Court disagreed, finding that the constitutional provision was unambiguous and self-executing; in other words, the provision could be "given effect without the aid of the legislature and there [was] nothing to indicate that the legislation [was] contemplated in order to render it operative."<sup>84</sup> The District Court noted that the Commission had the responsibility to designate legislative districts, "and in doing so, to exercise its own discretion and expertise in determining the equal as practicable factor."<sup>85</sup>

Because the Constitution does not contemplate the Secretary of State exercising discretion in filing or refusing to file the plan, the District Court further found that the Legislature's attempt to convert the Secretary of State's ministerial involvement to discretionary was unconstitutional.<sup>86</sup> As a result of [HB 309](#)'s impermissible conflict with Article V, section 14, the District Court declared the bill void and found that the Montana Constitution "does not authorize the legislature to interfere with the redistricting process beyond the express authority given to it in Article V, Section 14."<sup>87</sup>

It is important to understand the background of *Brown* because during the 2003 session, the Legislature passed *another* bill concerning redistricting criteria, [SB 429](#).<sup>88</sup> [HB 309](#), the bill challenged in *Brown*, was technically codified *together* with [SB 429](#) at section [5-1-115](#), MCA, although the entirety of the section's content appeared independently in [SB 429](#).

In a nutshell, [SB 429](#) reused the definition of "as equal as practicable" which appeared in [HB 309](#) and which was challenged and overturned in *Brown*. In addition to this definition, [SB 429](#) expanded upon how constitutional criteria should be prioritized, interpreted, and defined. The bill also added additional restrictions, including requiring that districts cannot be drawn for the purposes of favoring a political party or incumbent and placing prohibitions on considering certain partisan data.

After the 2003 session ended, in July 2003 the *Brown* case was decided. [SB 429](#) was likely not challenged in the same action because it was passed late in the session.

<sup>88</sup> [Ch. 546, L. 2003](#).

It is well settled law that a statute is presumed constitutional, and the challenging party has the burden of establishing the statute's unconstitutionality.<sup>89</sup> Only the portion of section 5-1-115, MCA, concerning the definition of "as equal as practicable" has been declared void by the courts.<sup>90</sup>

Having said that, the issues inherent in section 5-1-115, MCA, are overwhelmingly similar to the issues decided in *Brown*, which is one of several judicial cases and Attorney General's opinions that have found that the Legislature's redistricting power is limited by Article V, section 14.<sup>91</sup>

Although most of the statute has not been voided by the courts, during the 2010 round, the Commission did not address the status of the statute. In an article for the Montana Law Review, the Chairman of the last Commission, retired Supreme Court Justice Jim Regnier, and Caitlin Boland Aarab wrote "[a]lthough the constitutionality of § 5-1-115 has not been litigated, its requirements are largely ignored and the Montana Supreme Court would likely find it unconstitutional for the

**5-1-115. Redistricting criteria.** (1) Subject to federal law, legislative and congressional districts must be established on the basis of population.

(2) In the development of legislative districts, a plan is subject to the Voting Rights Act and must comply with the following criteria, in order of importance:

(a) The districts must be as equal as practicable, **meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census.**

The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.

(b) District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.

(c) The districts must be contiguous, meaning that the district must be in one piece. Areas that meet only at points of adjoining corners or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

(3) A district may not be drawn for the purposes of favoring a political party or an incumbent legislator or member of congress. The following data or information may not be considered in the development of a plan:

- (a) addresses of incumbent legislators or members of congress;
- (b) political affiliations of registered voters;
- (c) partisan political voter lists; or
- (d) previous election results, unless required as a remedy by a court.

<sup>89</sup> *Wheat v. Brown*, [2004 MT 33](#), ¶15 (citations omitted).

<sup>90</sup> However, in *Willems v. State*, plaintiffs alleged that the Commission's actions were in violation of 5-1-115(3)(a) concerning the consideration of an incumbent legislator's address and 5-1-115(3)(d) concerning the consideration of previous election results. Upon stipulation of the plaintiffs, the court dismissed those claims. *Willems v. St.*, No. ADV-2013-509, slip op. (Mont. Dist. Dec. 6, 2013).

<sup>91</sup> See, e.g. [Wheat, 2004 MT 33, ¶35](#), (holding that the power to assign holdover senators is an inherent part of the redistricting process and because the Constitution granted redistricting authority to the Commission, it denied the Legislature "any latitude to invoke its plenary powers"); *Brown*, 2003 ML 1896 (holding that because the constitutional provision is self-executing and because the Legislature is not authorized "to interfere with the redistricting process beyond the express authority given to it in Article V, Section 14" an attempt to define "as equal as practicable" for purposes of redistricting was unconstitutional; [40 A.G. Op. 2 \(1983\)](#) (finding that the

same reasons the First Judicial District Court found House Bill 309 unconstitutional."<sup>92</sup>

If the Commission chooses to use the criteria in 5-1-115, MCA, no conflict with the statute exists. However, if the Commission decides to adopt alternative or conflicting criteria, it may decide to request an Attorney General's opinion. The Attorney General is required to give an opinion in writing, without fee, to "to the legislature or either house of the legislature, to any state officer, board, or commission . . . when required upon any question of law relating to their respective offices . . . . If an opinion issued by the attorney general conflicts with an opinion issued by a city attorney, county attorney, or an attorney employed or retained by any state officer, board, commission, or department, the attorney general's opinion is controlling unless overruled by a state district court or the supreme court."<sup>93</sup>

The Commission can also request a legislative bill to repeal the statute,<sup>94</sup> although it would need to identify a legislative sponsor to introduce the bill.

Either of these methods could help clarify the legal status of the statute for the Commission, the Legislature, and the public.

### E. Right to Know & Right of Participation

In 2013, plaintiffs brought a lawsuit regarding a last-minute amendment made by the Commission concerning placement of particular holdover senators.<sup>95</sup> Plaintiffs argued that the Commission's one-on-one discussions concerning the amendment should have been observed by the public, contending that the "Right to Know" under Article II, section 9, of the Montana Constitution includes the right to observe governmental deliberations that occur when a majority of the members communicate one-on-one among themselves (known as a "constructive quorum" or "walking quorum"). Although noting that the open meetings laws under the Montana Constitution must be liberally construed, the Montana Supreme Court declined to adopt the constructive quorum rule on the facts before it because there was no evidence that a majority of the commissioners reached an agreement concerning the amendment prior to the meeting or that a decision was made outside of the meeting.

**Article II, Section 9. Right to know.** No person shall be deprived of the right to examine documents or to observe the deliberations of all public bodies or agencies of state government and its subdivisions, except in cases in which the demand of individual privacy clearly exceeds the merits of public disclosure.

---

Commission has the inherent authority under the Constitution "to do what is necessary to implement a plan that complies with the State's laws" which includes designating holdover senators to the new districts); [35 A.G. Op. 12 \(1973\)](#) (finding that the Constitution denies the Legislature the ability to change the size of the Legislature after redistricting and providing that when the Commission submits its plan "that plan will become law and all previous legislative enactments [relating to the size of the legislative houses] must be, in effect, repealed").

<sup>92</sup> Caitlin Boland Aarab and the Honorable Jim Regnier, [Mapping the Treasure State: What States Can Learn From Redistricting in Montana](#), 76 Mont. L. Rev. 257, 265 (2015).

<sup>93</sup> Section [2-15-501\(7\)](#), MCA.

<sup>94</sup> The Commission has previously requested at least one bill draft, a Constitutional amendment, C-14 (1984), Ch. 421, L. 1983. The full text of the present section may be found here: [https://leg.mt.gov/bills/mca/title\\_0000/article\\_0050/part\\_0010/section\\_0140/0000-0050-0010-0140.html](https://leg.mt.gov/bills/mca/title_0000/article_0050/part_0010/section_0140/0000-0050-0010-0140.html)

<sup>95</sup> *Willems v. St.*, [2014 MT 82](#).

Although the Commission took public comment at the meeting, the plaintiffs also argued that the holdover amendment, made at the Commission's final meeting before submitting the plan, violated the public's right to participate because the Commission failed to provide adequate notice of the amendment and effectively denied the public the right to submit written comments on it.<sup>96</sup> However, Article II, section 8, unlike the broader application of Article II, section 9, *only* applies to "governmental agencies." Because the Legislature has defined governmental agency to exclude the Legislature, the Montana Supreme Court held that the Commission was part of the legislative branch and exempt from the requirements of Article II, section 8, and the statutes promulgating the right of participation.

**Article II, Section 8. Right of participation.** The public has the right to expect governmental agencies to afford such reasonable opportunity for citizen participation in the operation of the agencies prior to the final decision as may be provided by law.

Although Article II, section 8, does not apply to the Commission under this holding, the 2020 Commission has adopted its own public participation guidelines.<sup>97</sup> The Commission must ensure that it carefully follows its own operating procedures, as amended.

Further, the plaintiffs claimed that their right of suffrage was violated because the assignment of a holdover to Senate District 15 meant that the electorate would have to wait 6 years between Senate elections, but the Supreme Court found that "the shuffling of legislators is a necessary byproduct of the redistricting process when senators serve staggered four-year terms," and the requested remedy of striking the holdover amendment would merely shift the purported violation to another set of voters.<sup>98</sup>

### III. Legal Criteria

The Constitution of the United States requires that districts be equally populated, although there is a different standard of population equality that is applied to congressional districts and legislative districts. Additional federal requirements provide that in drawing districts, the state may not purposefully discriminate between individuals on the basis of race or impose a practice that results in the denial or abridgment of a citizen's right to vote on account of race, color, or status as a member of a language minority group.

In addition to federal requirements, the Montana Constitution requires that legislative districts be compact and contiguous. Each of these requirements will be discussed, in turn, below. Statutory law also provides standards for redistricting, as discussed previously.<sup>99</sup>

During the 2020 cycle, the Commission should ensure that it separately adopts criteria for congressional and legislative districts. In addition to the legal requirements contained in this memo, the Commission in its discretion may choose to adopt additional criteria. If the

**Article V, Section 14. Districting and apportionment.** (1) The state shall be divided into as many districts as there are members of the house, and each district shall elect one representative. Each senate district shall be composed of two adjoining house districts, and shall elect one senator. Each district shall consist of compact and contiguous territory. All districts shall be as nearly equal in population as is practicable.  
....

<sup>96</sup> *Id.* at ¶28.

<sup>97</sup> "[Operating Procedures of the 2020 Montana Districting and Apportionment Commission](#)," Revised Feb. 19, 2020.

<sup>98</sup> *Willems v. St.*, [2014 MT 82](#), ¶34.

<sup>99</sup> See section II(D), *supra*.

Commission does so, it should weigh how it will balance or prioritize particular criteria beyond the legal constraints outlined in this memo. Regardless of the specific criteria the Commission adopts, the Commission must vigilantly ensure that criteria are consistently applied to each district.

## **A. Equal Population<sup>100</sup>**

### **1. Congressional Districts**

Article I, section 2, of the United States Constitution requires that members of the House of Representatives be chosen "by the People of the several States. . . ." In *Wesberry v. Sanders*, the United States Supreme Court held that this phrase meant "that as nearly as is practicable one man's vote in a congressional election is to be worth as much as another's . . . . To say that a vote is worth more in one district than in another would not only run counter to our fundamental ideas of democratic government, it would cast aside the principle of a House of Representatives elected 'by the People,' a principle tenaciously fought for and established at the Constitutional Convention."<sup>101</sup> This has become known as the "one person, one vote" principle.

Shortly after *Wesberry* was decided, plaintiffs challenged Montana's two congressional seats under Article I, section 2.<sup>102</sup> At statehood, Montana had one congressional representative, but it gained a second seat following the 1910 census.<sup>103</sup> Until 1917, these were at-large seats.<sup>104</sup> From 1917 until the legal challenge in 1965, the Legislature had failed to revise the congressional boundaries even though state law at the time required the Legislature to reapportion seats after every state census made every five years and after the federal census "according to ratios fixed by law".<sup>105</sup> The deviation between the two congressional districts at the time was 18.7%.<sup>106</sup> The federal district court held that this violated Article I, section 2, of the U.S. Constitution, and it reapportioned the congressional districts by transferring seven counties from one congressional district to the other.<sup>107</sup>

In interpreting the "one person, one vote" principle, the U.S. Supreme Court has stated that "[s]tates must draw congressional districts with populations as close to perfect equality as possible."<sup>108</sup> For instance, in 1983, the U.S. Supreme Court struck down a New Jersey plan containing 14 congressional districts that, on average, deviated from the ideal-sized district by .1384% (approximately 726 people).<sup>109</sup> The Supreme Court has made clear that there is not a fixed population variance it would consider as *de minimus*, and it has stated that the "as nearly as practicable" standard:

---

<sup>100</sup> See also section [5-1-115](#), MCA, and the discussion of related case law at section II(D), *supra*.

<sup>101</sup> 376 U.S. 1 (1964), 7-8

<sup>102</sup> *Roberts v. Babcock*, 246 F. Supp. 396 (D. Mont. 1965).

<sup>103</sup> Congressional Districts, Email of Susan Fox (Feb. 23, 2017).

<sup>104</sup> *Id.*

<sup>105</sup> *Roberts*, 246 F. Supp. 396, 398.

<sup>106</sup> *Id.*

<sup>107</sup> *Id.* at 398-399.

<sup>108</sup> *Evenwel v. Abbott*, 136 S. Ct. 1120 (2016).

<sup>109</sup> *Karcher v. Daggett*, 462 U.S. 725 (1983), 730-731.

is inconsistent with adoption of fixed numerical standards which excuse population variances without regard to the circumstances of each particular case . . . . [It] requires that the State make a good faith effort to achieve precise mathematical equality . . . . Unless population variances among congressional districts are shown to have resulted despite such effort, the State must justify each variance, no matter how small. . . . Toleration of even small deviations detracts from these purposes. Therefore, the command of Art. I, § 2, that States create congressional districts which provide equal representation for equal numbers of people permits only the limited population variances which are unavoidable despite a good-faith effort to achieve absolute equality, or for which justification is shown"<sup>110</sup>

Thus, in drawing congressional districts, the Commission must make a good-faith effort to achieve population equality for each congressional district within the state, and it must ensure that any variance between congressional districts is necessary to achieve a legitimate state objective.<sup>111</sup>

What might a legitimate state objective be? The Supreme Court has stated that *consistently applied*, nondiscriminative legislative policies might justify small, acceptable variances in the population of congressional districts, such as making districts compact, not splitting political subdivisions, preserving the cores of prior districts, minimizing population shifts between districts, and avoiding contests between incumbent representatives.<sup>112</sup> Such legislative policies must be applied in a systematic manner to all congressional districts rather than in an *ad hoc* manner, and they may not result in unacceptably large variances.<sup>113</sup>

## 2. Legislative Districts: The 10% Standard

The principle of population equality in state legislative districts is not governed by the same standard as congressional districts. As mentioned, above, Congressional districts are subject to the strict standards of Article I, section 2, of the United States Constitution. Legislative districts, on the other hand are subject to a different standard established under the Equal Protection Clause of the 14th Amendment.

In *Reynolds v. Sims*, the U.S. Supreme Court held that the Equal Protection Clause required both houses of a bicameral legislature to be apportioned on a population basis.<sup>114</sup> There, the U.S. Supreme Court restated the phrase taken from *Wesberry* that votes must be equalized, "as nearly as is practicable," but

In a challenge under Article I, section 2, if plaintiffs can establish that population differences could have been practicably avoided, the burden shifts to the state to prove that population deviations in its plan were necessary to achieve some legitimate state objective. In doing so, the state may not rely on general assertions, but it must show with some specificity that a particular objective required the specific deviations in its plan. Furthermore, the burden is a flexible one, depending on the size of the deviation, the importance of the state's interests, the consistency with which the plan as a whole reflects those interests, and the availability of alternatives that might vindicate those interests but approximate population equality more closely. The Supreme Court has stated that it is willing to defer to state legislative policies "so long as they are consistent with constitutional norms, even if they require small differences in the population of congressional districts." *Tennant v. Jefferson County Comm.*, 567 U.S. 758 (2012), 760, citing *Karcher v. Daggett*, 462 U.S. 725 (1983), 740.

<sup>110</sup> *Kirkpatrick v. Preisler*, 394 U.S. 526 (1969), 530-531 (citations omitted).

<sup>111</sup> *Karcher*, 462 U.S. 725, 730-731.

<sup>112</sup> *Id.* at 741; *Tennant v. Jefferson County Comm.*, 567 U.S. 758 (2012), 764.

<sup>113</sup> *Id.* at 741. See also *Kirkpatrick v. Preisler*, 394 U.S. 526 (1969), 535 (discussing accuracy required for population shifts).

<sup>114</sup> *Reynolds v. Sims*, 377 U.S. 533 (1964).

recognized that "some distinctions may well be made between congressional and state legislative representation."<sup>115</sup>

Montana has also recognized the importance of this phrase denoting the one person, one vote principle, placing it directly in the Montana Constitution and requiring that "[a]ll districts shall be as nearly equal in population as is practicable."<sup>116</sup> Because the Montana Supreme Court has not interpreted this phrase, it is not clear whether it is more stringent than the population equality standard interpreted by the U.S. Supreme Court to legislative districts, described below.<sup>117</sup>

The U.S. Supreme Court has held that "[w]hile mathematical nicety is not a constitutional requisite", the "overriding objective must be substantial equality of population among various districts."<sup>118</sup> This requires "that a state make an honest and good faith effort to construct districts . . . as nearly of equal population as is practicable [because] it is a practical impossibility to arrange legislative districts so that each one has an identical number of residents, or citizens, or voters."<sup>119</sup>

Since *Reynolds v. Sims*, the Court has continued to refine the requirements of the Equal Protection Clause for legislative districts.

Specifically, a plan where the maximum population deviation between the largest and smallest district is more than 10% creates a *prima facie* case of discrimination and is presumptively impermissible.<sup>120</sup> Nevertheless, the state may offer a justification for the deviations by showing rational state policy considerations that cannot be achieved with plans of lower deviations.<sup>121</sup> The U.S. Supreme Court has stated that "when drawing state and local legislative districts, jurisdictions are permitted to deviate somewhat from perfect population equality to accommodate traditional districting objectives, among them, preserving the integrity of political subdivisions, maintaining communities of interest, and creating geographic compactness and contiguity."<sup>122</sup> In *Mahan v. Howell*, Virginia established legislative districts with a roughly maximum

In a challenge to a legislative district plan under the Equal Protection Clause, if a legislative plan has a maximum deviation of more than 10%, it is presumptively impermissible. However, the state may rebut this presumption by showing that it implemented a rational state policy that could not be achieved with plans of lower deviations.

If a legislative plan has a maximum deviation of less than 10%, it is presumptively valid. However, this presumption is also rebuttable. In this scenario, if the plaintiffs establish that illegitimate factors predominated in the redistricting process, the plan can still violate the Equal Protection Clause

<sup>115</sup> *Reynolds*, 377 U.S. 533, 577-578.

<sup>116</sup> [Mont. Const. art. V, § 14](#)(1). The Constitutional Convention did not substantively discuss the meaning and extent of this phrase, although some delegates referred to the "one man, one vote" standard in passing." See e.g. Montana Constitutional Convention 1971-1972, Verbatim Transcript, Vol. IV., 694.

<sup>117</sup> Note that "practicable" is defined as "capable of being put into practice or of being done or accomplished." Miriam-Webster Dictionary, <https://www.merriam-webster.com/dictionary/practicable>. This is a different standard from "practical." Something may be practicable but not practical, making practicable a more stringent standard. See also section [5-1-115](#), MCA, and the discussion of related case law at section II(D), *supra*.

<sup>119</sup> *Brown v. Thomson*, 462 U.S. 835 (1983), 842 (citing *Reynolds*, 377 U.S. 533, 577).

<sup>120</sup> *Id.* at 850; *Evenwel*, 136 S. Ct. 1120, 1124.

<sup>121</sup> See, e.g. *Voinovich v. Quilter*, 507 U.S. 146 (1993).

<sup>122</sup> *Evenwel*, 136 S. Ct. 1120, 1124; *Cox v. Larios*, 542 U.S. 947 (2004), 949.

variation of 16% to preserve the integrity of subdivision lines, but the Supreme Court cautioned that the percentage "may well approach tolerable limits."<sup>123</sup>

In Montana, in 1983, plaintiffs in Gallatin County brought a suit in federal court against the Commission's legislative plan where the total deviation was 10.94% between house districts and 10.18% between senate districts.<sup>124</sup> The Commission adopted the following criteria: (1) that, insofar as possible, consideration should be given to existing governmental boundaries; (2) that geographic boundaries must be respected, unless such boundaries should impede voting; (3) that communities of interest be considered as they relate to a particular area; (4) that existing district boundaries be given consideration wherever practical; and (5) that the Commission stay within a plus or minus 5% deviation from the ideal.<sup>125</sup> The federal District Court found that the deviation was justified because the Commission had considered legitimate state objectives.<sup>126</sup> Further, the criteria that the Commission had considered were not inflexible, but rather they were "considerations only" and that "the criteria as they existed within a district and as they existed between districts had to be balanced in arriving at a plan embracing the entire State."<sup>127</sup> Because "the adoption of any feasible plan would have to some extent departed from the objectives set by the criteria," the District Court found that the Commission made a good-faith effort to balance all of the legitimate State objectives and upheld the plan.<sup>128</sup>

Where the maximum deviation between the largest and smallest district is less than 10%, a legislative map "presumptively complies with the one-person, one-vote rule."<sup>129</sup> However, because the overriding objective of districting must be "substantial equality of population", deviations from substantial population equality are "permissible only if 'incident to the effectuation of a rational state policy.'"<sup>130</sup> Therefore, if plaintiffs can prove that impermissible factors predominated in the redistricting process such as regional protectionism or the selective protection of incumbents (protection of incumbent facilitated in a way that is not consistent and neutral), the map may still be declared constitutionally infirm.<sup>131</sup>

The Legislature has also adopted a statutory provision concerning population deviation which was challenged and overturned in *Brown v. Montana Districting and Apportionment Commission*.<sup>132</sup> See the sidebar for the relevant statutory text, and see section II(D), *supra*, for a discussion of related case law.

**5-1-115. Redistricting criteria.** (1) Subject to federal law, legislative and congressional districts must be established on the basis of population.

(2) In the development of legislative districts, a plan is subject to the Voting Rights Act and must comply with the following criteria, in order of importance:

(a) The districts must be as equal as practicable, **meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census.** The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.

### 3. Population Base Metrics

States almost universally use total population<sup>133</sup> as the metric for calculating compliance with "one person, one vote" requirements. Are there other population bases a state could use to comply with these requirements?

There are competing theories of representation that underly attempts to use different population metrics. A representational equality theory is based on the premise that a legislator represents all the residents of a district, regardless of their age or state citizenship, and the political body to which the legislator belongs affects all the residents of a district.<sup>134</sup> Thus, all individuals should be treated equally when districts are drawn. The competing theory, electoral equality, is based on the premise that a subset of the total population of a district, *i.e.* potentially eligible voters, should be equalized so that there is voting equality between districts.<sup>135</sup> These theories have been around for decades. For instance, it is clear that the apportionment of congressional seats as enshrined in the U.S. Constitution was based on representational equality.<sup>136</sup> More recently, there have been questions about whether legislative districts should be subject to electoral quality rather than representation equality.<sup>137</sup> Therefore, it is important here, once again, to draw a distinction between congressional and legislative districts.

As discussed above, equal population for congressional districts is based on Article I, section 2, of the U.S. Constitution. The 14th Amendment to the United States Constitution requires that United States Representatives be apportioned among the states "counting the whole number of persons in each state", in other words using total population. While this section specifies that "apportionment" (the act of proportionally dividing congressional seats) among the states is based on total population, it does not specifically address redistricting (the setting of boundaries by states to the seats apportioned to them). While the apportionment of seats to the states is calculated based on total population by the language of the 14th Amendment, there is not an explicit ruling limiting the redrawing of boundaries for representational districts to total population; although the U.S. Supreme Court has questioned "whether distribution of congressional seats except according to total population can ever be permissible under Art. I, § 2."<sup>138</sup> Nevertheless, given the historical background of Article I, section 2, the 14th Amendment, district court decisions, and related U.S. Supreme Court commentary,<sup>139</sup> an attempt to use a population

---

<sup>133</sup> The Census counts the "usual residents" of a state. "Usual residence" is defined by the Census as "the place where a person lives and sleeps most of the time." 83 Fed. Reg. 5526 (2/8/2018). It is not necessarily the same as the person's voting residence, their legal residence, or where they prefer to be counted. *Id.* The usual residents of a state make up "total population" for the purposes of this memo.

<sup>134</sup> "Issues Affecting the Apportionment Base," Bob Heath, Testimony Before the Texas Senate Committee on Redistricting, Oct. 29, 2019.

<sup>135</sup> *Id.*

<sup>136</sup> See note 58, *supra*.

<sup>137</sup> *Evenwel*, 136 S. Ct. 1120. In *Evenwel*, Texas voters challenged the state's use of total population for drawing legislative districts, arguing that it produced unequal voter-eligible populations. The Court found that pursuant to constitutional history, judicial decisions, and longstanding practice, a state may comply with the one-person, one-vote principle by designing its legislative districts based on total population. The court did "not resolve whether . . . States may draw districts to equalize voter-eligible population rather than total population." *Id.* at 1133.

<sup>138</sup> *Kirkpatrick*, 394 U.S. 526, 534.

<sup>139</sup> See discussion of historical background concerning Article I, section 2, and historical debates concerning section 2 of the Fourteenth Amendment in *Evenwel*, 136 S. Ct. 1120, 1127-1129. There, in addition to tracing the historical debates rejecting legal voter population as an apportionment base for the U.S. House of Representatives, the

base other than total population (or a population which approximates total population) for drawing congressional districts is unlikely to survive a legal challenge.

Because legislative districts are subject to the Equal Protection Clause of the 14th Amendment rather than Article I, section 2, there is latitude to use population metrics other than total population. In 1966, the U.S. Supreme Court noted that "the Equal Protection Clause does not require the States to use total population figures derived from the federal census as the standard by which [the] substantial population equivalency is to be measured."<sup>140</sup>

After statehood, Hawaii apportioned its legislative representative districts according to registered voter population pursuant to its state constitution.<sup>141</sup> The 1950 constitutional convention in Hawaii chose registered voters as an approximation of both citizen and total population because total population did not necessarily comport with traditional local boundaries and citizen population had been difficult to administer because statistics were not readily available.<sup>142</sup> After *Reynolds v. Sims*, Hawaii faced a challenge to its plan for legislative districts which included multimember districts based partially on geographic principles among the state's islands and representative districts based on registered voters.<sup>143</sup> As part of a multiprong challenge, plaintiffs questioned the distribution of seats according to registered voters.<sup>144</sup> Because of a large military presence, many of whom claim residency in other states and do not vote in Hawaiian elections, the U.S. Supreme Court stated that "Hawaii's special population problems might well have led it to conclude that state citizen population rather than total population should be the basis for comparison."<sup>145</sup> The Supreme Court noted that it did not suggest that a state must include "aliens, transients, short-term or temporary residents, or persons denied the vote for conviction of crime, in the apportionment base by which their legislators are distributed and against which compliance with the Equal Protection Clause is to be measured. The decision to include or exclude any such group involves choices about the nature of representation with which we have been shown no constitutionally founded reason to interfere."<sup>146</sup>

While the Equal Protection Clause did not necessarily forbid other population bases, Hawaii's use of *registered* voters depended on the particular extent of political activity of each individual making it "susceptible to improper influences" and highly dependent on potentially "sudden and substantial" fluctuations in the number of registered voters.<sup>147</sup> Drawing attention to this distinction, the Court held that Hawaii's apportionment "satisf[ies] the Equal Protection Clause *only* because on this record it was found to have produced a distribution of legislators not substantially different from that which would

---

Court pointed to *Wesberry's* conclusion that there "is no excuse for ignoring our Constitution's plain objective of making equal representation of *equal numbers of people* the fundamental goal for the House of Representatives. *Evenwel*, 136 S. Ct. 1120, 1129 (emphasis in original, citations omitted). See also *Travis v. King*, 552 F. Supp. 554 (D. Haw. 1982), 571 ("we hold that pursuant to article I, § 2 of the Constitution states must depend on total federal census figures to apportion congressional districts within their boundaries").

<sup>140</sup> *Burns v. Richardson*, 384 U.S. 73 (1966), 91.

<sup>141</sup> *Id.* at 77.

<sup>142</sup> *Id.* at 93.

<sup>143</sup> *Id.*

<sup>144</sup> *Id.*

<sup>145</sup> *Id.* at 93.

<sup>146</sup> *Id.* at 92.

<sup>147</sup> *Id.* at 92-93.

have resulted from the use of a permissible population basis" (emphasis added).<sup>148</sup> In doing so, the Court cautioned that "[w]e are not to be understood as deciding that the validity of the registered voters basis as a measure has been established for all time or circumstances, in Hawaii or elsewhere."<sup>149</sup>

A three-judge court later struck down a subsequent Hawaiian apportionment plan based on registered voters because of insufficient justifications for disparities in allocation.<sup>150</sup> Since 1992, the Hawaiian constitution has required that the population be apportioned on the basis of permanent residents (state citizens) for legislative districts, excluding nonresident students and nonresident military personnel and their family members, rather than registered voters.<sup>151</sup>

Should the Commission consider using another population base for legislative seats during this cycle, it should bear in mind that the Montana Constitution requires that "[a]ll districts shall be as nearly *equal in population* as is practicable" (emphasis added).<sup>152</sup> Although in the federal judicial context from which this phrase originates, as traced above, indicates that there is some room for additional population metrics at the legislative level, the Montana Supreme Court has not construed whether "population" in Article V, section 14(1), requires total population or may include other acceptable population bases.

The Montana Supreme Court applies the same rules of construction for the Constitution that are applied to statutory law, interpreting the Constitution by viewing the "plain meaning of the words used and applying their usual and ordinary meaning."<sup>153</sup> The "intent of the framers of the Constitution is controlling and that intent must first be determined from the plain language of the words used."<sup>154</sup> Indeed, the Court's responsibility is "[n]ot to insert what has been omitted or to omit what has been inserted."<sup>155</sup> Merriam-Webster's dictionary defines "population" as "the whole number of people or inhabitants in a country or region."<sup>156</sup> Thus, the Montana Supreme Court may construe this phrase to require total population to be equalized for legislative districts, rather than using a subset of the population, such as eligible voter population.

#### 4. Reallocations and Exclusions from the Population Base

In a developing area of law, states have not necessarily been precluded from adjusting congressional and legislative data to correct perceived flaws, but there may be differences in the latitude between congressional and legislative districts for reallocating or excluding populations. While these concepts have not yet been developed in case law, one way of thinking of exclusions is to consider that they may

<sup>155</sup> *City of Missoula v. Cox*, 2008 MT 364, ¶11.

<sup>156</sup> Merriam-Webster Dictionary, <https://www.merriam-webster.com/>. But see section 1-2-106, MCA, "Words and phrases used in the statutes of Montana are construed according to the context and the approved usage of the language, but technical words and phrases and such others as have acquired a peculiar and appropriate meaning in law . . . are to be construed according to such peculiar and appropriate meaning or definition."

be related to the choice of a population base other than total population while reallocations merely adjust the location of individuals *within* the statewide population.

With respect to congressional districts, Maryland adjusted its 2010 Census data for congressional districts to reallocate prisoners from their place of incarceration to their last-known residence before incarceration.<sup>157</sup> The Maryland federal District Court, affirmed without comment by the U.S. Supreme Court, found that the use of adjusted census data was not barred, citing *Karcher* and *Kirkpatrick* for the premise that "[i]f a State does attempt to use a measure other than total population or to 'correct' the census figures, it may not do so in a haphazard, inconsistent, or conjectural manner."<sup>158</sup> Because of the potential legal difficulties with adjusting congressional data, states have generally not adjusted populations for congressional districts, and it is not yet clear how far a state may adjust data for congressional districts to correct "perceived flaws."

With respect to legislative districts, states have also adjusted data by reallocating prisoners. In the last cycle, New York<sup>159</sup> and Maryland adjusted their legislative data to reallocate prisoners. Several additional states have passed laws to reallocate prisoners during the 2020 cycle.<sup>160</sup>

In the 2010 cycle, Hawaii and Kansas extracted nonresident students and military personnel from their legislative data. Since that time, Kansas eliminated its extraction of students and military personnel under a legislative referendum passed in 2019.<sup>161</sup>

Hawaii successfully defended its nonresident military and student extractions against a court challenge where the record indicated the state extracted all nonpermanent populations that existed in sufficient numbers to affect the apportionment of districts about which it could obtain relevant, reliable data using a rational method of extraction.<sup>162</sup> However, if the exclusion had been "carried out with an eye to invidiously targeting only certain nonresident groups, it would raise serious constitutional concerns."<sup>163</sup>

In sum, if the Commission implements any adjustments to the census data, it must use accurate and reliable data in a systematic approach using clear guidelines<sup>164</sup>. The U.S. Supreme Court has been clear

<sup>162</sup> *Kostick*, 960 F. Supp. 2d 1074, 1090. Some of the difficulties in extracting populations depends on determining the individual locations for census purposes and the level of certainty about nonpermanent status. *See id.* Active duty military were not automatically excluded by Hawaii, and the extraction tracked residency requirements under Hawaiian law. *Id.* at 1087. Students were extracted on the basis of the payment of nonresident tuition or a home address outside of Hawaii and included students at both state and private collegiate institutions. For further information on the methods used by Hawaii, see *Kostick* at 1095-1098.

<sup>163</sup> *Id.* at 1093-1094 (citations omitted).

<sup>164</sup> *See, e.g.* Reallocating Incarcerated Persons for Redistricting, NCSL, <https://www.ncsl.org/research/redistricting/reallocating-incarcerated-persons-for-redistricting.aspx>.

that systematic, consistent policies must govern any attempt to correct census data.<sup>165</sup> Extractions may ultimately prove more problematic, but if they are used, they cannot unreasonably discriminate among nonresident groups<sup>166</sup>, and they must be free of any taint of arbitrariness or invidious discrimination against minority groups or the military<sup>167</sup>.

## B. Prohibition of Racial Discrimination

Federal constitutional and statutory law prohibit racial discrimination in the drawing of districts. This may happen in a variety of forms -- including "packing" minority voters into a district to minimize the districts they control, splitting minority voters between districts to dilute the strength of their votes ("cracking"), or purposefully drawing districts using race as the predominant factor without sufficient justification. The following sections discuss these federal law requirements that apply to both congressional and legislative districts, including how these principles interact with each other.

### 1. Minority Vote Dilution

Following the U.S. Civil War, the 15th Amendment to the U.S. Constitution was ratified, providing that the "right of citizens of the United States to vote shall not be denied or abridged . . . on account of race, color, or previous condition of servitude." However, the Amendment proved largely ineffective, so in 1965, Congress passed the Voting Rights Act of 1965<sup>168</sup> to enforce the 15th Amendment.<sup>169</sup>

Section 2<sup>170</sup> of the Voting Rights Act of 1965 (VRA) applies to Montana and its political subdivisions.<sup>171</sup> This section prohibits any state or political subdivision from imposing any voting qualification, standard, practice, or procedure

**Amendment XV to the U.S. Constitution.  
Section 1.**

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of race, color, or previous condition of servitude.

**Section 2.**

The Congress shall have power to enforce this article by appropriate legislation.

<sup>165</sup> *Karcher*, 462 U.S. 732, n. 4, and *Kirkpatrick*, 394 U.S. 526, 534-535.

<sup>166</sup> See *Carrington v. Rash*, 380 U.S. 89, 95 (1965), holding that although a state may impose reasonable residence requirements for voting, it may not deny the ballot to a bona fide resident merely because he is a member of the armed services.

<sup>167</sup> See *Kostick*, 960 F. Supp. 2d 1074, 1095.

<sup>168</sup> People often refer to the original sections of the Voting Rights Act of 1965. [This](#) is the original bill as enacted in 1965. However, the Act and amendments to the Act are now codified at [52 U.S.C. 10301, et seq.](#); [52 U.S.C. 10501, et seq.](#); and [52 U.S.C. 10701, et seq.](#)

<sup>169</sup> *S.C. v. Katzenbach*, 383 U.S. 301 (1966), 310-312.

<sup>170</sup> Other sections of the VRA include: § 4(a), which eliminates literacy tests and similar voting qualifications, and § 4(b), which contains a coverage formula determining which jurisdictions would be subject to § 5. Section 4(b) was declared unconstitutional in *Shelby County v. Holder*, 570 U.S. 529 (2013). Section 5 of the VRA requires changes by covered jurisdictions defined in § 4(b) to be precleared by the Attorney General or the federal court in the District of Columbia, and it was rendered ineffective due to the *Shelby County* holding that invalidated the preclearance coverage formula. However, if Congress enacted a new preclearance formula, this section may be used in the future. Nevertheless, Montana was not a jurisdiction subject to preclearance. Section 3(c) has similar provisions to § 5, except that it is initiated by court order after finding violations of the Fifteenth Amendment.

<sup>171</sup> Big Horn, Blaine, Flathead, Lake, Glacier, Pondera, Rosebud, and Roosevelt Counties have been involved with Voting Rights Act litigation. See *Wandering Medicine v. McCulloch*, 2014 U.S. Dist. LEXIS 183736 (D. Mont. 2014); *Old Person v. Brown*, 312 F.3d 1036 (9th Cir. 2002); *United State v. Blaine County*, 363 F.3d 897 (9th Cir. 2003); *Windy Boy v. County of Big Horn*, 647 F. Supp. 1002 (D. Mont. 1986); *Jackson v. Bd. of Trustees*, 2014 U.S. Dist. LEXIS 49830 (D. Mont. 2014); *U.S. v. Roosevelt Co.*, 2000 U.S. Dist. LEXIS 23974 (D. Mont. 2000).

that results in the denial or abridgment of any US citizen's right to vote on account of race, color, or membership in a language minority group.<sup>172</sup> The abridgment of the right to vote includes a racial or language group having "less opportunity than other members of the electorate . . . to participate in the electoral process and to elect representatives of their choice."<sup>173</sup> In essence, a § 2 claim is that "a certain electoral law, practice, or structure interacts with social and historical conditions to cause an inequity in the opportunities [between majority and minority voters] to elect their preferred representatives."<sup>174</sup> Thus, the VRA recognizes that in addition to absolute prohibitions on casting ballots, the right to vote can be affected by a dilution of a minority's voting power.<sup>175</sup>

The largest racial minority in Montana is its American Indian population,<sup>176</sup> and there have been challenges concerning American Indian vote dilution in Montana legislative districts, county districts, and school districts.<sup>177</sup>

Judicial determination of whether there is a violation of § 2 of the Voting Rights Act is a two-step process. First, plaintiffs must prove the existence of three threshold conditions. These were first identified in a case, *Thornburg v. Gingles*,<sup>178</sup> and they are known colloquially as *Gingles* preconditions, factors, or requirements. First, plaintiffs must show that "the minority group . . . is sufficiently large and geographically compact to constitute a majority in a single-member district."<sup>179</sup> Second, plaintiffs must show that "the minority group . . . is politically cohesive," and third, plaintiffs must show that the "majority votes sufficiently as a bloc to enable it -- in the absence of special circumstances . . . usually to defeat the minority's preferred candidate."<sup>180</sup> These three factors are necessary to show that the minority group has the potential to elect a representative of its own choice in a possible district but racially polarized voting prevents it from doing so in the district as actually drawn because it has been submerged in a larger majority voting population.<sup>181</sup>

If all three of these factors are present, courts proceed to the second step. A violation of § 2 may be found if, as a result of the challenged practice or structure:

based on the totality of circumstances, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) in that its

<sup>178</sup> 478 U.S. 30 (1986), 50-51.

<sup>179</sup> *Thornburg*, 478 U.S. 30, 50. In *Bartlett v. Strickland*, the Supreme Court rejected claims that a group's ability to influence elections was cognizable under § 2, requiring the plaintiffs to show that they were sufficiently numerous, e.g. more than 50% of the voting age population, to create a majority in a compact single-member district. 556 U.S. 1 (2009). Further, note that "compactness" for purposes § 2 means the compactness of the minority group whose vote is being diluted. *League of United Latin Am. Citizens v. Perry*, 548 U.S. 399 (2006), 433. This is different than the compactness of district lines, which is a traditional redistricting described at section III(C), *infra*.

<sup>180</sup> *Thornburg*, 478 U.S. 30, 51.

<sup>181</sup> *Cooper v. Harris*, 137 S. Ct. 1455, 1470 (2017).

members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. . . .<sup>182</sup>

To assess the "totality of the circumstances," the courts have looked to factors suggested by the Senate Committee on the Judiciary report that accompanied 1982 amendments to the VRA and subsequent case law.<sup>183</sup> These factors include:

- the history of voting-related discrimination in the state or political subdivision
- the extent to which voting in the elections of the state or political subdivision is racially polarized
- the extent to which the state or political subdivision has used voting practices or procedures that tend to enhance the opportunity for discrimination against the minority group
- the extent to which minority group members bear the effects of past discrimination in areas such as education, employment, and health, that hinder their ability to participate effectively in the political process
- the use of overt or subtle racial appeals in political campaigns
- the extent to which members of the minority group have been elected to public office in the jurisdiction
- whether elected officials are unresponsive to the particularized needs of the members of the minority group
- whether the policy underlying the use of the contested practice or structure is tenuous
- whether the number of districts in which the minority group forms an effective majority is roughly proportional to its share of the population in the relevant area

This is necessarily an analysis that is highly dependent on district-by-district facts. In *Thornburg v. Gingles*, the U.S. Supreme Court noted that:

Because loss of political power through vote dilution is distinct from the mere inability to win a particular election, a pattern of racial bloc voting that extends over a period of time is more probative of a claim that a district experiences legally significant polarization than are the results of a single election . . . . Also for this reason, in a district where elections are shown usually to be polarized, the fact that racially polarized voting is not present in one or a few individual elections does not necessarily negate the conclusion that the district experiences legally significant bloc voting. Furthermore, the success of a minority candidate in a particular election does not necessarily prove that the district did not experience polarized voting in that election; special circumstances such as the absence of an opponent, incumbency, or the utilization of bullet voting, may explain minority electoral success in a polarized contest.<sup>184</sup>

*Thornburg v. Gingles* further made clear that racially polarized voting does not refer to voting patterns for which the principle cause is race of the candidate.<sup>185</sup> Because causation is irrelevant to a § 2 inquiry, racially polarized voting simply refers to the situation where different races vote in blocs for different

<sup>182</sup> [52 U.S.C. § 10301](#).

<sup>183</sup> *League of United Latin Am. Citizens v. Perry*, 548 U.S. 399 (2006), 426 (citations omitted).

<sup>184</sup> *Thornburg*, 478 U.S. 30, 57

<sup>185</sup> *Id.* at 62-68.

candidates.<sup>186</sup> Similarly, the cause of the majority bloc voting is likewise unimportant under this analysis.<sup>187</sup>

The Court noted that proof that some minority candidates have been elected does not foreclose a § 2 claim, but if the minority candidates enjoyed sustained success, the success is evidence of persistent proportional representation, and persistent proportional representation is inconsistent with the claim that a minority's ability to be able to elect representatives of their choice is not equal to that of the majority.<sup>188</sup>

Ultimately, § 2 of the VRA is an important tool that prevents the unconstitutional vote dilution of minorities, but if a state invokes the VRA to justify race-based districting, it must show that it had "good reasons" to think it would transgress the Act if it did not draw a race-based district.<sup>189</sup> Otherwise, it will be in violation of the Equal Protection Clause, discussed in the next section.

## 2. Discrimination and Racial Gerrymandering

The Equal Protection Clause of the 14th Amendment to the U.S. Constitution provides that "[n]o state shall . . . deny to any person within its jurisdiction the equal protection of the laws."<sup>190</sup> This clause protects against the purposeful discrimination between individuals on the basis of race. Thus, in the absence of sufficient justification, a state cannot intentionally assign citizens to a district on the basis of race or use race as the predominant factor in drawing district lines.<sup>191</sup>

A racial gerrymander is the "deliberate and arbitrary distortion of district boundaries . . . for [racial] purposes."<sup>192</sup> A districting plan may be evaluated for a racial gerrymander if it distinguishes between citizens because of race or if it is so bizarre, even if it on its face it is race neutral, that it is unexplainable on grounds other than race.<sup>193</sup> The shape of the district is relevant only because it may be circumstantial evidence that race and not other districting principles was the dominant rationale in drawing the district's lines.<sup>194</sup>

In a racial gerrymandering claim, the plaintiff must prove that "race was the *predominant* factor motivating the legislature's decision to place a significant number of voters within or without a particular district" (emphasis added).<sup>195</sup> This entails showing that other objective factors, such as traditional race-neutral redistricting criteria,<sup>196</sup> were subordinated to race.<sup>197</sup> A plaintiff may prove this through direct evidence of legislative intent, circumstantial evidence including a district's shape and

<sup>196</sup> See section III(D), *infra*, for a list of traditional redistricting criteria.

<sup>197</sup> *Cooper*, 137 S. Ct. 1455, 1464.

demographics, or both.<sup>198</sup> A racial gerrymandering claim applies to individual districts, taken on a case-by-case basis, not the state as a whole.<sup>199</sup>

This does not mean that the Commission must be race-blind when drawing districts, but it does mean that race cannot be the dominant or controlling factor. The Supreme Court has explained:

Redistricting differs from other kinds of state decisionmaking in that [the decision-making body] always is aware of race when it draws district lines, just as it is aware of age, economic status, religious and political persuasion, and a variety of other demographic factors. That sort of race consciousness does not lead inevitably to impermissible race discrimination. . . . [A] reapportionment plan that concentrates members of the group in one district and excludes them from others may reflect wholly legitimate purposes. The district lines may be drawn, for example, to provide for compact districts of contiguous territory, or to maintain the integrity of political subdivision . . . . Put differently, we believe that reapportionment is one area in which appearances do matter. A reapportionment plan that includes in one district individuals who belong to the same race, but who are otherwise widely separated by geographical and political boundaries, and who may have little in common with one another but the color of their skin, bears an uncomfortable resemblance to political apartheid. It reinforces the perception that members of the same racial group -- regardless of their age, education, economic status, or the community in which they live -- think alike, share the same political interests, and will prefer the same candidates at the polls. We have rejected such perceptions elsewhere as impermissible racial stereotypes.<sup>200</sup>

If racial considerations predominated over other factors, the design of the district is subject to strict scrutiny, a difficult legal burden.<sup>201</sup> To uphold the design of the district, the burden shifts from the plaintiff to the state to prove that 'its race-based sorting of voters serves a "compelling interest" and is "narrowly tailored" to that end.'<sup>202</sup>

Because the Equal Protection Clause restricts consideration of race and the VRA demands consideration of race, a decision-making body attempting to produce a lawful districting plan is vulnerable to "competing hazards of liability."<sup>203</sup> The Supreme Court has said that "[i]n an effort to harmonize these conflicting demands, we have assumed that compliance with the VRA may justify the consideration of race in a way that would not otherwise be allowed. In technical terms, we have assumed that complying with the VRA is a compelling state interest . . . and that a State's consideration of race in making a districting decision is narrowly tailored and thus satisfies strict scrutiny if the State has 'good reasons' for believing that its decision is necessary in order to comply with the VRA."<sup>204</sup>

Consequently, one compelling interest is compliance with the VRA, as amended.<sup>205</sup> However, compliance with the VRA does not justify race-based districting "where the challenged district was not

<sup>202</sup> *Id.*

<sup>203</sup> *Abbott*, 138 S. Ct. 2305, 2315 (citing *Bush v. Vera*, 517 U.S. 952 (1996), 977).

<sup>204</sup> *Id.* (citations omitted).

<sup>205</sup> *Id.*

reasonably necessary under a constitutional reading and application of those laws."<sup>206</sup> This requires the state to have a "strong basis in evidence" for the conclusion that it must draw a race-based district to comply with the VRA.<sup>207</sup> This requires an assessment of the three *Gingles* preconditions and the totality of the circumstances test for minority vote dilution described in section III(B)(1), *supra*. Merely trying to avoid meritless litigation under the VRA is not a compelling interest.<sup>208</sup>

Another compelling interest is in remedying past or present discrimination, but it must be identified with some specificity before using "race-conscious relief" and there must be a "strong basis in evidence" to conclude that remedial action was necessary before embarking on an affirmative-action program.<sup>209</sup> Further, "an effort to alleviate the effects of societal discrimination is not a compelling interest", nor is a generalized assertion of past discrimination in a particular region or industry adequate.<sup>210</sup>

The Commission must be very careful as it draws districts, bearing in mind the federal protections against discrimination for all districts and ensuring that it does not discriminate against racial or language minorities. In sum, on the one hand, the Commission must be conscious of race to ensure electoral districts do not dilute minority votes, but on the other hand, race cannot be the predominant consideration when drawing districts except in the limited circumstances described above.

### C. Compactness & Contiguity

The Montana Constitution requires that legislative districts "shall consist of compact and contiguous territory." Compactness and contiguity are formal and relatively objective criteria that look to the geographic shape and characteristics of individual districts.

Compactness<sup>211</sup>, in geographic terms, means "occupying a small volume by reason of efficient use of space."<sup>212</sup> Because there are varying standards for compactness,<sup>213</sup> compactness is often determined by using a general appearance or "eyeball" test.<sup>214</sup>

Contiguity, on the other hand, means that all parts of the district be connected or touching in one unbroken sequence.

---

<sup>206</sup> *Miller*, 515 U.S. 900, 921.

<sup>207</sup> *Shaw v. Hunt*, 517 U.S. 899 (1996), 915.

<sup>208</sup> *Id.*

<sup>209</sup> *Id.* at 909-910.

<sup>210</sup> *Id.*

<sup>211</sup> Do not confuse the geographic term "compact" used here with the term used in the evaluation of federal section 2 claims under the Voting Rights Act (concerning whether race predominated in the drawing of lines). Under a section 2 claim, "compactness" refers to the compactness of the minority group whose vote is being diluted rather than the compactness of district lines. *League of United Latin Am. Citizens v. Perry*, 548 U.S. 399, 433.

<sup>212</sup> Merriam-Webster dictionary, <https://www.merriam-webster.com/dictionary/compactness>.

<sup>213</sup> Hofeller, Thomas B., *Compactness in the Redistricting Process*, <https://www.ncsl.org/documents/redistricting/Compactness-March-2010Hofeller.pdf> (2010).

<sup>214</sup> *Bush*, 517 U.S. 952, 960.

The Legislature has also provided statutory requirements concerning compactness and contiguity in section [5-1-115](#), MCA. See the sidebar for the statute's text and section II(D), *supra*, for a discussion of case law related to the criteria statute.

In evaluating compactness and contiguity, courts have also evaluated the functional aspects of the district, including ease of travel and communication in a district.<sup>215</sup>

Consequently, as the Commission draws proposed districts, it should attempt to ensure physical and functional compactness and contiguity by monitoring the shape, geography, road systems, and other physical aspects of the districts.

#### **D. Other Traditional Redistricting Criteria**

The preceding portions of this memo discussed federal and state legal requirements for districts, but there are numerous ways to draw district boundaries, and these can have dramatic political consequences.

In addition to the criteria required under federal and state law, many states, including previous Montana Commissions on Districting and Apportionment, have adopted additional criteria<sup>216</sup> to help consistently guide their decision-making throughout the districting process. These are generally long-standing traditional redistricting principles. From a practical perspective, these principles help to draw lines, but in a legal challenge, applying consistent, race-neutral criteria demonstrates to courts that decision-makers have not drawn boundaries with impermissible motives.

Traditional redistricting principles that have been judicially recognized on the federal level as permissible criteria include compactness,<sup>217</sup> contiguity,<sup>218</sup> preservation of counties and other political

#### **5-1-115. Redistricting criteria.**

...

(2)

...

(c) The districts must be contiguous, meaning that the district must be in one piece. Areas that meet only at points of adjoining corners or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

<sup>215</sup> See e.g. *Wilkins v. West*, 264 Va. 447, 464 (Va. 2002).

<sup>216</sup> Past congressional criteria adopted by the Montana Commission may be found in Appendix A. For ease of reading, the original document is available at <https://leg.mt.gov/content/Districting/2020/Topics/Legal/congressional-criteria-june-2020.pdf>. Past legislative district criteria may be found in Appendix B. For ease of reading, the original document is available at <https://leg.mt.gov/content/Districting/2020/Topics/Legal/history-districting-criteria-2020-version-january-2020.pdf>

<sup>217</sup> *Shaw*, 509 U.S. 630, 647.

<sup>218</sup> *Id.*

subdivisions,<sup>219</sup> preservation of communities of interest,<sup>220</sup> preservation of cores of prior districts,<sup>221</sup> and protection of incumbents.<sup>222</sup>

Previous commissions have chosen to adopt additional criteria such as following geographic boundaries (to the extent possible, drawing districts along geographic boundaries, such as mountain divides, ridge lines, creeks, rivers, or roads), following lines of political units (to the extent possible, drawing districts to follow the boundaries of counties, cities, towns, school districts, Indian reservations, precincts, and other political subdivisions),<sup>223</sup> consideration of communities of interest (consideration of populations where residents have common interests, often defined by geography, socioeconomic status, and economic activity), consideration of existing district boundaries where practical (existing districts may provide a starting point for the Commission's work to determine population variance from the ideal district population but existing districts may not comply with redistricting criteria because of updated population data), and a maximum deviation from the ideal district. Each of these criteria was found to be a legitimate state objective by the Montana federal district court in *McBride v. Mahoney*.<sup>224</sup>

Preserving political subdivisions was the subject of one portion of the criteria statute adopted by the Legislature at section [5-1-115](#), MCA. See the sidebar for the statute's text and section II(D), *supra*, for a discussion of case law related to the criteria statute.

In 1990, the Commission also adopted the criteria of "political fairness" so that districts could not be drawn for the purpose of favoring a political party or defeating an incumbent legislator.<sup>225</sup> This is also reflected in the

**5-1-115. Redistricting criteria.**

...

(2)

...

(b) District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.

...

(3) A district may not be drawn for the purposes of favoring a political party or an incumbent legislator or member of congress. The following data or information may not be considered in the development of a plan:

(a) addresses of incumbent legislators or members of congress;

(b) political affiliations of registered voters;

(c) partisan political voter lists; or

(d) previous election results, unless required as a remedy by a court.

<sup>219</sup> *Id.*

<sup>220</sup> *Miller*, 515 U.S. 900, 916 (1995); *Abrams v. Johnson*, 521 U.S. 74, 92 (1997). However, if communities of interest align racial boundaries, they may not be used to circumvent rules against racial gerrymandering. See *Bush*, 517 U.S. 952. Further, communities of interest must be considered at the time the plan is made, not as a post-hoc justification. *Id.*

<sup>221</sup> *Karcher*, 462 U.S. 725, 740.

<sup>222</sup> *Id.*

<sup>223</sup> See also section [5-1-115](#), MCA, and the discussion of related case law at section II(D), *supra*.

<sup>224</sup> 573 F. Supp. 913 (D. Mont. 1983).

<sup>225</sup> See Appendix B. In addition, numerous partisan gerrymandering (the practice of setting district boundaries to favor a particular political party) claims have been brought in various courts, but the Supreme Court has held that these are nonjusticiable political questions beyond the reach of the federal court. *Rucho v. Common Cause*, 139 S. Ct. 2484 (2019). In response, litigants are now turning to state courts using state constitutional grounds to try to find workable legal standards to adjudicate partisan gerrymandering claims. See, e.g. *League of Women Voters of Pa. v. Commonwealth of Pa.*, No. 159 MM 2017, slip op. (Pa. Feb. 7, 2018); *N.C. v. Common Cause*, 18 CVS 014001 (N.C. Super. Sept. 3, 2019).

redistricting criteria statute adopted by the Legislature, section [5-1-115\(3\)](#), MCA. See the sidebar for the statute's text and section II(D), *supra*, for a discussion of case law related to the criteria statute.

The criteria mentioned here are not an exhaustive list, and additional criteria, as long as they are race-neutral, may also be considered.<sup>226</sup>

### E. Prioritizing Criteria

Although federal and state constitutional requirements must be strictly applied, how can the Commission navigate the inevitable conflicts between criteria? The criteria adopted by the Commission will inevitably present conflicts, and these conflicts will require the Commission to make policy choices.

Some states choose to explicitly prioritize their criteria to help clarify the state's priorities, restrict policymaker choices, and reduce legal challenges.<sup>227</sup> The criteria statute adopted by the Legislature, section [5-1-115](#), MCA, discussed previous at section II(D), *supra*, specifically ranks criteria. However, prioritizing criteria also limits the Commission's flexibility to accommodate criteria ranked "less important."

In a 1983 lawsuit, plaintiffs alleged that the Commission did not follow its own criteria. The Court said, "[i]t is clear from the wording of the criteria and the Commission discussions that [the criteria] were considerations only and that the conflicts between the criteria as they existed within a district and as they existed between districts had to be balanced in arriving at a plan embracing the entire State."<sup>228</sup> In that case, the Commission had been presented with conflicts between its adopted criteria, and it had to make choices between criteria. The federal District Court found that "the adoption of any feasible plan would have to some extent departed from the objectives set by the criteria. It was the function of the Commission to interpret its own criteria -- to decide, for instance, what constituted a community of interest and then, looking at not just one county but all counties potentially affected, to balance the interests involved and arrive at a conclusion."<sup>229</sup>

Thus, the Commission should consider whether it wishes to balance criteria, as it has historically done, or to prioritize criteria. This choice should clearly be reflected on the record. Any prioritized criteria must be applied consistently. If the Commission chooses to balance criteria, it must make a good-faith effort to consider and balance all of the criteria it adopts, and it should diligently ensure that the record reflects these considerations.

## IV. Defending the Plans

As seen in the history since the Constitutional Convention, redistricting is often accompanied by litigation, though the legal issues have varied from plan criteria to open meeting laws. In this litigious environment, it is imperative that the Commission diligently follow federal and state constitutional law, engage in an open and public process, and ensure that a well preserved and carefully documented record reflects not only the Commission's decisions but the deliberations concerning *why* the Commission has made substantive decisions with regard to each district. Importantly, federal courts

---

<sup>226</sup> For new criteria recently being used by states, see "Emerging Criteria," *Redistricting 2020*, 80-82, National Conference of State Legislatures (2019).

<sup>227</sup> *Id.* at 82.

<sup>228</sup> *McBride*, 573 F. Supp. at 916.

<sup>229</sup> *Id.* at 917.

defer to state judicial determinations *and* state political determinations on redistricting, including districting criteria, as long as they are consistent with federal requirements.<sup>230</sup> Thus, commissioners must ensure that they make an adequate record of their decision-making process to ensure that the Commission's plans are upheld in any subsequent litigation at the state or federal level.

In the event that litigation is brought against the Commission, the Attorney General would be requested to represent the Commission at the district court level. Although the Attorney General has no statutory duty to do so, the Attorney General may represent the Commission at the district court level. If the Attorney General declines to represent the Commission, Legislative Services Division would contract with the Agency Legal Services Bureau to provide litigation services.

However, after the plans are filed, the Commission is dissolved.<sup>231</sup> Thus, a legal suit would routinely name the Secretary of State, the entity with which the plan is filed. In this case, the Secretary of State would determine the entity to defend itself, although the Attorney General may still represent the state's interests.

In any event, unlike at the district court level, at the Montana Supreme Court, the Attorney General is statutorily required to "defend all causes in the supreme court in which the state or any officer of the state in the officer's official capacity is a party or in which the state has an interest."<sup>232</sup>

### Notes

1. The 1974 Commission report does not mention commissioners discussing or adopting criteria. It states: "The Commission has made no changes in the existing Congressional districts since they already comply with the law."

2. November 16, 2000, meeting minutes: [https://leg.mt.gov/content/committees/interim/2001\\_2002/dist\\_apport/nov16min.pdf](https://leg.mt.gov/content/committees/interim/2001_2002/dist_apport/nov16min.pdf)

3. Congressional and Legislative Redistricting Criteria: <https://leg.mt.gov/content/Committees/Interim/2011-2012/Districting/Other-Documents/1124RWFA-corrected-criteria-updated-2011.pdf>

**Subject:** Districting Triggers in Other States -- Relevant Trigger Dates

Dear Commissioners,

At your last meeting, you asked that I identify any states with timeline triggers similar to Montana and research whether or not they had chosen which Census data release to use for their trigger. According to [NCSL's survey of state redistricting deadlines](#), the only relevant states appear to be the following:

| State Redistricting Deadlines                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

This amendment would add in a deadline date, of February 15, to receive the federal census data. If the census data arrives after February 15, redistricting would be delayed by two years and the previous maps would be used until the new maps can be drawn. |
| Pennsylvania<br>Pa. Const. Art. II, § 17              | Legislative: No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan.<br>Congressional: None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

The constitutional amendment recently approved by the New Jersey electorate relieves them of their deadline, so that leaves only AK, ID, and PA. I contacted redistricting staff for those three states to find out if any decisions had been made by their states concerning their deadlines.

Alaska's staff notes that Alaska is discussing the same question internally, and they note that the Census's emails on the subject are "less than clear" in what constitutes "official" reporting. They are hoping for additional clarity from the Census Bureau as they move forward.

Idaho's Commission has not yet been appointed, but the staff indicates that in Idaho, a statute directs their Commission to adopt the redistricting plan within 90 days of organization, so the Commission will likely use the date of organization for their trigger rather than the data date. However, the staff indicated that if the Commission felt it needed longer time, it might argue for the final data delivery date, but that is speculative and would likely only be the case if the Commission is unable to complete its work within 90 days of organization.

The Pennsylvania Commission has only recently been organized and has not yet taken a position on what date it will use as its trigger under the Pennsylvania Constitution.

With regards,

Commissioner Smith,

You had previously asked about the oath of office for the Redistricting Commission, and I had forgotten to follow up on your request until the matter of the oath was mentioned at today's meeting. The oath is contained in the Constitution, and it provides:

Art. III, section 3 of the Montana Constitution provides:

Section 3. Oath of office. Members of the legislature and all executive, ministerial and judicial officers, shall take and subscribe the following oath or affirmation, before they enter upon the duties of their offices: "I do solemnly swear (or affirm) that I will support, protect and defend the constitution of the United States, and the constitution of the state of Montana, and that I will discharge the duties of my office with fidelity (so help me God)." No other oath, declaration, or test shall be required as a qualification for any office or public trust.

As you know, the Commission is a part of the Legislative Branch but the members are not members of the Legislature, so while the oath is clearly intended to capture most officers of the state, the actual language does not contemplate the unique role played by the Commission. I don't see any cases that address this issue either. In statute, section 2-16-211 provides slightly different wording than the Constitution but, likewise, does not address other officers of the legislative branch (besides members of the Legislature) as "officers" is modified by the "executive, ministerial, or judicial" wording:

2-16-211. Oaths — form — before whom — when. (1) Members of the legislature and all officers, executive, ministerial, or judicial, must, before they enter upon the duties of their respective offices, take and subscribe the following oath or affirmation: "I do solemnly swear (or affirm) that I will support, protect, and defend the constitution of the United States and the constitution of the state of Montana, and that I will discharge the duties of my office with fidelity (so help me God)."

(2) No other oath, declaration, or test must be required as a qualification for any office or public trust.

(3) Except when otherwise provided, the oath may be taken before any officer authorized to administer oaths.

Therefore, it does not appear that commissioners are required to take an oath before commencing their duties.

I hope this answers your question,

With regards,

K. Virginia ("Ginger") Aldrich

Hi Anthony,

I had a few questions about how the AG's office works in terms of district court level cases that the Solicitor takes, and since you were the Solicitor General, I was wondering if you might have a couple minutes so I could ask you a few questions. Are you around tomorrow, Friday, at any time?

Thanks,

Hello Commissioner Smith,

I'm sorry I did not see your email until last night as I was out of email communication since Wednesday afternoon. In terms of your question, the House and the Senate are delegated constitutional authority to "make rules for [their] proceedings." Art. V, Section 10. The Montana Constitution's provision concerning Districting and Apportionment is silent on an enforcement mechanisms for Commission member behavior, but the rules of the Commission are its adopted operating procedures. The only applicable provision adopted by the Commission is this one in the Operating Procedures:

"The presiding officer is responsible for maintaining order within the commission room and its environs, scheduling hearings and executive action, supervising commission work, and deciding all questions of order, subject to a member's appeal to the commission."

Legislative chairs may exercise their power to maintain order by cautioning individuals who are not maintaining proper decorum, such as members of the public or members of a committee (or in this case, commission). For instance, the House and Senate have a custom that the proper names of individuals should not be used in discourse on the floor of the Senate or House or in a Committee, and Chairs of Committees have often cautioned individuals about breaking this unspoken rule. That is, as I mentioned, a custom specific to the House and the Senate, but certainly in your power as Chair, you have the discretion to warn or remove individuals from the meeting environs if their discourse is becoming personal, defamatory, or otherwise not maintaining an adequate level of civil discourse. The power to maintain order occurs while the Commission is meeting ("maintaining order within the commission room and its environs"), and as you note, there is no authority adopted by the Commission in its operating procedures or otherwise that would delegate disciplinary authority to the Chair outside of the power to maintain order.

Other than the operating procedures, the only other relevant provisions would be in the Code of Ethics, contained at Title 2, Chapter 2, part 1 and the Speech and Debate clause and the associated statute, located at Art. V, sec. 8, and 2-9-111, MCA. However, the Code of Ethics deals with conflicts between public duty and private interest and does not address conduct of this nature. Likewise, the Speech and Debate clause and the associated statute are oriented toward immunity from suits.

There is nothing that would prohibit the Commission from adopting further provisions concerning decorum, but the extent of what the Commission could likely do is already covered by the Chair's power to maintain order within the Commission room and its environs.

Please let me know if you have any additional questions,

With regards,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature  
(406)444-4464

**Subject:** [EXTERNAL] Fwd: Mr. Lamson

Ginger,

I received this request today. I think it is questionable that I have any disciplinary authority for actions occurring outside of the official meeting time by a commissioner. I had let Kendra know during the break shortly after Mr. Rivera's statement, that if Joe wanted to make an apology I would allow the commissioners to make statements when we started back. Commissioner Lamson did not make a statement during that time

Any guidance you might have would be appreciated.

Maylinn

Good afternoon Ms. Smith,  
I wanted to reach out to you for two reasons. The first it to say how impressed, and appreciative, I am with the way you handled the committee and the public during the redistricting hearings. My tip of the hat to you. I enjoyed being a part of the process.  
The second reason I am writing is our of concern for the apparent misbehavior of committee member Joe Lamson towards Mr. Denison Rivera last Thursday. I'm sure you have bigger fish to fry than this at this time. However, we feel the behavior of Mr. Lamson was highly inappropriate towards a citizen of Montana that was simply there to testify. It is irrelevant that Mr. Rivera is a candidate for House representation or any other matter. He was there as a citizen, and for Mr. Lamson to attack him should at a minimum call for a public reprimand and apology directly to Mr. Rivera.

Best Regards,

Good morning, Maylinn –

I'll have an update on the commissioners' inquiry to the Department of Corrections about what data on prisoners' last known addresses can be provided. The best information on what other states reallocate prisoners (and which types of prisoners) is available from the NCSL at:

<https://www.ncsl.org/research/redistricting/reallocating-incarcerated-persons-for-redistricting.aspx> [ncsl.org]. I've linked to this on the commission's meeting materials page.

Is there a timeline for the legal challenges research? Is that something you wanted to review in August perhaps, after the criteria meetings in July?

Thanks and feel free to call at any point with questions.

Sincerely,

Rachel Weiss

**Subject:** [EXTERNAL] Fwd: Reassignment to Last known address

I meant to send this last week, but those short weeks seem to get crazy and I was not in internet service range until late Friday. Can we see about getting someone to research prisoner reassignment issues for purposes of counting them where they come from. It would be good to know options for representation if there are challenges to commissioner work, so update research on that topic would be helpful.

Let me know what you need from me on both topics.

See you on Thursday.

Madame Chair,

It feels good to be back at work again and having a path charted forward. Thanks for a good meeting. I saw old friends in Helena last night and am driving home today.

I wanted to offer one suggestion and a reminder on an earlier request.

I did stop up to the second floor and advise them that a request would be coming to DOC for information on the last known address of everyone residing in their group quarters on April 1, 2020 and that they should get going.

Even if we don't have all that ready by our June 10 meeting, I wanted to suggest that you have staff start looking for potential contractors to do the reassignment analysis. It would be best to get that contract executed before June 30 so the expiring appropriation is used wisely instead of reverting to the General Fund. I am sorry I didn't think to suggest this during the meeting.

I also wanted to repeat my request for a quick brief by Ginger Aldrich on who has defended the work of the Commission and made decisions on litigation strategy on past redistricting challenges in case they come. I hope we can avoid all that with clear objective rules and a transparent process, but we need to be mindful.

See you June 10.

Commissioner Jeff Essmann

I meant to send this last week, but those short weeks seem to get crazy and I was not in internet service range until late Friday. Can we see about getting someone to research prisoner reassignment issues for purposes of counting them where they come from. It would be good to know options for representation if there are challenges to commissioner work, so an update research on that topic would be helpful.

Let me know what you need from me on both topics.

See you on Thursday.

Maylinn

Subject: Reassignment to Last known address

Madame Chair,

It feels good to be back at work again and having a path charted forward. Thanks for a good meeting. I saw old friends in Helena last night and am driving home today.

I wanted to offer one suggestion and a reminder on an earlier request.

I did stop up to the second floor and advise them that a request would be coming to DOC for information on the last known address of everyone residing in their group quarters on April 1, 2020 and that they should get going.

Even if we don't have all that ready by our June 10 meeting, I wanted to suggest that you have staff start looking for potential contractors to do the reassignment analysis. It would be best to get that contract executed before June 30 so the expiring appropriation is used wisely instead of reverting to the General Fund. I am sorry I didn't think to suggest this during the meeting.

I also wanted to repeat my request for a quick brief by Ginger Aldrich on who has defended the work of the Commission and made decisions on litigation strategy on past redistricting challenges in case they come. I hope we can avoid all that with clear objective rules and a transparent process, but we need to be mindful.

See you June 10.

Commissioner Jeff Essmann

I would like to address this question to Ginger. In the past legal challenges to the Districts drawn by the Commission who acted as counsel for the commission or whoever was named as defendant in the challenge and who made the decisions on directing the defense of the litigation? Am interested in the history of this since we have some, as well as any laws of Montana that would cover the subject.

Thank you.

Commissioner Jeff Essmann

Hello Commissioners,

Additional materials for your Tuesday meeting are now posted online at: <https://leg.mt.gov/districting/2020-commission/meeting-information/>. Also, you'll be meeting in Room 102 of the Capitol.

The posted materials include:

- Draft timelines for congressional and state legislative redistricting

- The redistricting criteria materials you received at prior meetings
- A document with the past commission's operating procedure guiding public map submissions and some suggested changes should you wish to use the previous procedure as a starting point for adopting your own procedure

We'll have printed copies of the materials for you on Tuesday. If you have questions, please give me a call.

Sincerely,

Rachel Weiss

Great, thanks very much to you both. I've heard back from ID, and although their commission hasn't been appointed yet, it sounds like they probably will try to use their 90 days from when the Commission is appointed because a statute limits them to that date rather than the availability of the data (both dates appear in their Constitution). I'll let you know what I hear from PA and AK.

Regards,

Ginger

Hi Ginger.

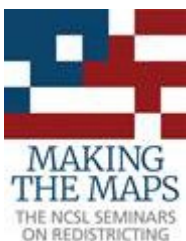

MT isn't the only state with this question, as you can see. We've been rattling around with it for a while, and our take—which is not legal advice—is that the clock starts when the state says it does. That means two states could have two different answers.

I'm copying Ben Williams here. He'll be able to put you in touch with Alaska.

Also, if you could share with us what you learn, so we can better answer the next time we get this question, that would be great!

Best wishes,

Wendy Underhill

**Subject:** [EXTERNAL] AK Redistricting Board -- Staff Contact Info?

Hi Wendy,

The Montana redistricting commission has a 90-day deadline "after the official final decennial census figures are available" to file its Congressional plan. Our Commission is trying to determine whether to use the August delivery date or the September delivery date as its trigger, and they have asked whether any other states with a similar deadline have made their determinations when their clock will start ticking. According to NCSL's chart of deadlines, it looks like the only ones with a moving target like Montana's is AK, PA, and ID. I found contact information on the internet for PA and ID, but I was wondering if you could provide me with contact information for the staff of the Alaska Redistricting Board? Thanks very much

With regards,

K. Virginia ("Ginger") Aldrich

Hello K.V.,

I'm Diana Jordan, an intern with the National Conference of State Legislatures' (NCSL) Elections & Redistricting Program. We are reaching out to all members of the Redistricting and Elections Standing Committee (RESC) with an offer to join the Election Staff Network (ESN) and/or the Redistricting Staff Network (RSN).

Both the ESN and RSN are comprised of legislative staff only and joining the list would not require you to do much work. We use these lists to send out the occasional question from us or one of your peer states and to sometimes send updates about NCSL resources. You can expect 2-4 emails a month, often fewer.

In addition, we could add you to the Redistricting Distribution emailing list if you would like. This list is open to anyone and provides regular updates about the census and redistricting.

You may already be on some of these lists, but we wanted to see if you'd like to join the others. Please let us know.

Best,  
Diana

**Diana Jordan**

**Subject:** Redistricting -- Availability of Data -- Request

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

K. Virginia ("Ginger") Aldrich

Ms. Bowen & Mr. Bybee,

I am the staff attorney for the Montana Districting and Apportionment Commission. From NCSL's website, I understand that Idaho's maps are due: "Within ninety days after the commission has been organized or the necessary census data are available, whichever is later...." Presumably, the deadline will be triggered by the date the census figures "are available", but the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. The Montana Commission has requested whether other states with similar deadlines have made any determinations about which date they will use as their trigger. To that end, has Idaho's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Idaho's deliberations concerning their deadline would be most helpful. Thank you,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature  
(406)444-4464

---

Hi Peter,

I hope you are doing well. From NCSL's website, I understand that Alaska's legislative maps are due: "No later than ninety days after the board has been appointed and the official reporting of the decennial census of the United States...." If the deadline is triggered by the date the "official reporting" of the decennial census, as you know, the data is being released in two cadres to states: the legacy file format is being released in August and then the user-friendly format is being released by September 30<sup>th</sup>. As the staff attorney for the Montana Districting and Apportionment Commission, the Montana Commission has asked me to reach out to other states with similar deadlines to find out if they have made any determinations about which date they will use as their trigger. To that end, has Alaska's Commission determined which date it will use as the 90 day trigger for its maps? Any insight you can give on Alaska's deliberations concerning their deadline would be most helpful.

Thank you,

K. Virginia ("Ginger") Aldrich  
Legislative Attorney  
Montana State Legislature

**Subject:** [EXTERNAL] Connecting you two

Peter,

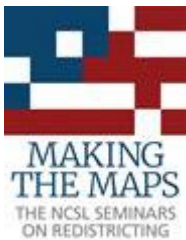

It's been a few weeks. I hope all's well up there.

I'm writing today to connect you with Ginger Aldrich. Ginger is a staffer with the Montana Legislature who, as part of their redistricting system, is assigned to the state's redistricting commission. She asked us a question about how states with similar redistricting deadlines to Montana, including Alaska, were interpreting language about delivery deadlines and when the clock is triggered, so to speak. Ginger, Peter is the director of Alaska's redistricting commission and has deep knowledge about the state's processes. He or someone on his staff should be able to help you.

Consider yourselves connected!

Mr. Byer,

From the Pennsylvania Redistricting website, I understand you were appointed to serve as the Pennsylvania Redistricting Commission's Chief Legal Counsel. I am the staff attorney for the Montana Districting and Apportionment Commission. From NCSL's website, I understand that Pennsylvania's legislative maps are due: "No later than 90 days after either the commission has been duly certified or the population data for the commonwealth as determined by the federal decennial census are available, whichever is later in time, the commission shall file a preliminary reapportionment plan." Presumably, the deadline will be triggered by the date the federal decennial census figures "are available", but the data is being released in two cadres to states: the legacy file format is being released in August and then by September 30<sup>th</sup> the user-friendly format is being released. The Montana Commission has requested whether other states with similar deadlines have made any determinations about which date they will use. To that end, has Pennsylvania's Commission determined which date it will use as the 90 day trigger for its legislative maps? Any insight you can give on Pennsylvania's deliberations concerning their deadline would be most helpful. Thank you,

K. Virginia ("Ginger") Aldrich

HOUSE BILL NO. 506

INTRODUCED BY P. FIELDER

BY REQUEST OF THE SECRETARY OF STATE

A BILL FOR AN ACT ENTITLED: "AN ACT GENERALLY REVISING ELECTION LAWS; ESTABLISHING  
PRIORITIES FOR DEVELOPMENT OF CONGRESSIONAL DISTRICTS; REVISING PROCEDURES FOR  
PROSPECTIVE ELECTORS TO REGISTER AND VOTE; CLARIFYING REQUIREMENTS FOR A BOARD OF  
COUNTY CANVASSERS; ELIMINATING THE EXPERIMENTAL USE OF VOTE SYSTEMS; AMENDING  
SECTIONS 5-1-115, 13-2-205, AND 13-15-401, MCA; ~~AND~~ REPEALING SECTION 13-17-105, MCA; AND  
PROVIDING EFFECTIVE DATES."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

**Section 1.** Section 5-1-115, MCA, is amended to read:

**"5-1-115. Redistricting criteria.** (1) Subject to federal law, legislative and congressional districts must be established on the basis of population.

(2) In the development of legislative districts, a plan is subject to the Voting Rights Act and must comply with the following criteria, in order of importance:

(a) The districts must be as equal as practicable, meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census. The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.

(b) District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.

(c) The districts must be contiguous, meaning that the district must be in one piece. Areas that meet

only at points of adjoining comers or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

(3) A district may not be drawn for the purposes of favoring a political party or an incumbent legislator or member of congress. The following data or information may not be considered in the development of a plan:

(a) addresses of incumbent legislators or members of congress;

(b) political affiliations of registered voters;

(c) partisan political voter lists; or

(d) previous election results, unless required as a remedy by a court.

(4) In the development of congressional districts and under the authority granted to the legislature by Article I, section 4, of the United States constitution, a congressional districting plan is subject to the Voting Rights Act and must comply with the following criteria, in order of importance:

(a) The districts must be as equal as practicable.

(b) District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.

(c) The districts must be contiguous, meaning that a district must be in one piece. Areas that meet only at points of adjoining comers or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act."

**Section 2.** Section 13-2-205, MCA, is amended to read:

"13-2-205. Procedure when prospective elector not qualified at time of registration. (1) An

Subject to subsection (2), an individual who is not eligible to register because of residence or age requirements but who will be eligible on or before election day may apply for voter registration pursuant to 13-2-110 and be registered subject to verification procedures established pursuant to 13-2-109.

(2) Until the individual meets residence and age requirements, a ballot ~~SUBMITTED BY THE INDIVIDUAL~~ ~~may not be issued to the individual and the individual may not cast a ballot~~ ~~PROCESSED AND COUNTED BY THE~~ ~~ELECTION ADMINISTRATOR~~ MAY NOT BE ISSUED TO THE INDIVIDUAL AND THE INDIVIDUAL MAY NOT CAST A BALLOT."

**Section 3.** Section 13-15-401, MCA, is amended to read:

"13-15-401. Governing body as board of county canvassers. (1) The governing body of a county or consolidated local government is ex officio a board of county canvassers and shall meet as the board of county canvassers at the usual meeting place of the governing body ~~within 14 days after each election~~, at a time determined by the board, ~~to~~ and within 14 days after each election to complete the canvass the of returns.

(2) If one or more of the members of the governing body cannot attend the meeting, the member's place must be filled by one or more county officers chosen by the remaining members of the governing body so that the board of county canvassers' membership equals the membership of the governing body.

(3) The governing body of any political subdivision in the county that participated in the election may join with the governing body of the county or consolidated local government in canvassing the votes cast at the election.

(4) The election administrator is secretary of the board of county canvassers and shall keep minutes of the meeting of the board and file them in the official records of the administrator's office."

NEW SECTION. **Section 4. Repealer.** The following section of the Montana Code Annotated is repealed:

13-17-105. Experimental use of voting systems.

NEW SECTION. **Section 5.** {standard} **Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its

1 applications, the part remains in effect in all valid applications that are severable from the invalid applications.

2  
3 **NEW SECTION. Section 6. Effective dates.** (1) Except as provided in subsection (2), [this act] is  
4 effective October 1, 2021.

5 (2) [Sections 1 and 5] are effective on passage and approval.

6 - END -

I just read this and saw that we have a "100-plus-year history" of a prairie district and a mountain district. I was mistakenly under the impression that we had only had one at-large district for the last 30 years. Glad I'm up to speed now 😊 That must be a top talking point of theirs since Zinke used it a week or two ago. I'll be interested to have them explain to me how Bozeman is a prairie community. Maybe I'll walk out in my front yard and do a panorama to show them all of the mountain ranges surrounding me.

Sen. Fitzpatrick really needs to bring down the deviation on this things. + or -9% just isn't going to pass constitutional muster.

Democratic Legislators,

As you may have seen in the news, final block-level 2020 Census figures were released today, which officially begins the redistricting process (not counting the prep work 😊). Attached are 2020 Census population figures by the current House and Senate Districts. Included in the spreadsheet is *2010 to 2020 Growth Rate*, which is the percentage that the districts have grown over the decade. It also includes a column for *2020 % Deviation from the Ideal District Size*. This figure shows how over or underpopulated the current districts are according to the new ideal district size for the next redistricting plan (roughly 10,842 people per House District). This column has a color scale with underpopulated districts highlighted in purple and overpopulated districts highlighted in green, according to that ideal figure.

Please note that because Montana grew at roughly 9.6% statewide over the decade, districts needed to grow by roughly that same rate to meet population requirements for the new districts on the next plan and not be underpopulated. Thus, even if a district has a positive growth rate, if it did not grow as fast as the state as a whole, it will still be underpopulated and need to take on population on the next map.

This is just a quick first glimpse that we wanted to share. Huge thanks to Jacob Hopkins who extracted and formatted the data to give us a sneak peak before our mapping software vendor can get it in a useable format to actually see the numbers on a map. Once the vendor provides this data to the State at the block-level needed for drawing districts, our official 90-day timeline to adopt congressional districts will commence. We'll have that by next week. After the congressional redistricting process is completed in November, the Commission will begin it's work on legislative redistricting. Legislative redistricting is a longer process that goes through 2022 and will ultimately put new districts in place for the 2024 election.

Please let us know if you have any questions.

Hi Kendra

Wow this is very interesting - thanks for sending! Can I ask a quick question about my district? HD 89 shows a deviation of -14%. My district includes the University of Montana dorms and surrounding area so my population goes up and down as students move around. Just to make sure I understand things correctly, the -14% means my district will need to grow in size to take on more people? Thank you for all that you do!

Katie

Hi Katie,

The census counts reflect population on April 1 2020. Your district will have to take on around 1400 people to become population equal.

Best,

Jacob Hopkins

Hi Rep. Sullivan,

Yes, the count in HD 89 is a troubling number. According to Census residency requirements, college students should have been counted where they live and go to school since that is their "usual place of residence" for more than half of the year. Because COVID hit and universities went remote in March of 2020, there was great concern that many students temporarily moved elsewhere (parents' homes) and would fail to be counted at their usual residence in Missoula. I think that the Census count there likely shows that that is what beared out.

MT-MDAC-21-1688-B-001535

Though we know enrollment has been down UM, there aren't vacant houses around the campus area in your districts so it seems unlikely to me that the growth rate was actually negative in your district between 2010 and 2020. So the short answer is that this is very problematic if there was an undercount of college students in the spring of 2020, but we also will have to use these numbers to redistrict. Your district is underpopulated so it will have to take on more population to meet legal population requirements. You can see that there was a lot of growth in HD 96 to the northwest of Missoula. That essentially means that all of the other districts in Missoula start shifting that direction to equalize population.

I do think there was likely an undercount of college students living around Missoula, based on what we see in these numbers. That impacts all of Missoula since college students live all over town but yours the most of course. Happy to talk more as we move into the legislative redistricting phase, but you're correct that your district will need to take on new population on the next map.

**3 X 1 GOP criteria**

4 messages

---

**Joe Lamson** <joelamson49@icloud.com>

Sun, May 16, 2021 at 8:39 AM

To: Kendra Miller &lt;kjaniceh@gmail.com&gt;, Jacob Hopkins &lt;jacob@montanademocrats.org&gt;

I took out my ruler and the LSD 2010 Map and roughly estimated how many and which current districts would not meet the proposed GOP criteria that no district's length can be more than 3 times its width.

I found 53 seats that would not meet their proposed criteria. Many of them supported by the 2010 GOP commissioners.

House 37  
Dem 13  
GOP 17  
Swing 7

Senate 16  
Dem 6  
GOP 7  
Swing 3

Thanks for this Joe! Is this a criteria they've historically pushed for?

I don't think that the Republican commissioners have ever pushed to adopt that standard, but it's what the GOP Legislature lays out in [HB 506](#) under 2b and 4b. Will be interesting to see if the Republican commissioners push to adopt these as formal criteria. In 2010 they did not (even though 2b was already in statute) because they recognized that it was unconstitutional. We'll find out in a week 🤔

MT-MDAC-21-1688-B-001539

The standard was put into “law” by 2003 GOP legislators. 2010 GOP commissioners didn’t push it because Regnier agreed the statute was unconstitutional. I will bet they try to push it this go round given its resurrection in HB506.

Great quote to lead off there, Joe! I also look forward to our Republican colleagues forcefully condemning personal attacks and social media trolling of individuals who submit maps that their mob doesn't care for. After all, we must all have courage in our convictions, and I'm sure they will stand tall against any extreme rhetoric coming from their side of the aisle.

## Can't find the map but here's what I'm hoping for...

2 messages

Kendra Miller &lt;kjaniceh@gmail.com&gt;

Thu, Aug 12, 2021 at 4:54 PM

To: Jacob Hopkins &lt;jacob@montanademocrats.org&gt;

A current HD choropleth map with 2020 % population deviation (i.e., how under and overpopulated are the current districts?)

Color buckets that show:

- 16% to 10% dark purple
- 10% to -5% medium purple
- 5% to -1% light purple
- 1% to 1% as white
- +1% to 5% as light green
- +5% to 10% as medium green

And then whatever buckets you deem appropriate after that to show variation for the extreme overpopulated outliers. Maybe two or three more buckets for the high growth districts like 10-15% and 15-20% and 20% plus. Whatever you think is appropriate to show that variation for Bozeman, Billings West End, etc.

Thank you!

FYI you're welcome to join this Census update call on Wednesday if you're interested. No pressure if you have other things going on. I can fill you in if they report out anything interesting, but you can certainly listen if you'd like. I'm hopeful that they'll have a more clear timeline on data availability to report now that Biden is in office. The career staff seemed to be on a pretty tight leash under the Trump Admin on what they could report on previous calls, but I'm hoping that has changed. It's probably still a pretty flexible timeline, but if they say July is the absolute earliest we can release block-level data, then that is good to know.

Here is a doc from Leg Services that will likely serve as a starting point for criteria discussions: [History of State Legislative Redistricting Criteria in MT](#). It lists all of the criteria that were ultimately adopted by each Commission since the 70's, but it isn't very detailed in explaining how the adopted criteria were precisely worded. Anything on here (and anything else we add) will be fair game in the criteria debate.

Here is a doc from 2010 that provides more of the language that was actually adopted: [2010 Checklist for Adopting Discretionary Criteria](#). This is a checklist of items that the 2010 Commission voted on, but I actually can't find the final list of formally adopted criteria online under the 2010 Commission. We can request it from Leg Services though.

Note that the 1990 Commission adopted "consideration to existing districts when practical" and "Political fairness, ie, districts may not be drawn for the purpose of favoring a political party or defeating an incumbent legislator." In addition to the criteria adopted by the 2000 and 2010 Commissions, I think these two from the 90's are at least worthy of debate. The exact language we use for these concepts will, of course, be up for much debate as well. The debate over definitions and wording will fall on Joe and I when the Commission is ultimately deciding to vote criteria up and down. But it will be important that the general concepts are raised during public testimony.

**Quotable: U.S. Sen. Steve Daines, R-Mont.**, in a statement this week after the proposed maps for Montana's new U.S. House of Representative seat were released ...

"The maps proposed by the Democrat Commissioners are highly partisan and do not remotely reflect the fair 'east/west' districts that for 70 years, always included Lincoln and Flathead Counties in the western district."

**Kendra Miller** <kjaniceh@gmail.com>

Fri, Oct 8, 2021 at 3:59 PM

To: Joe Lamson &lt;joelamson49@icloud.com&gt;

Cc: Jacob Hopkins &lt;jacob@montanademocrats.org&gt;

Fixed it:

"The maps proposed by the Republican Commissioners are highly partisan and do not remotely reflect the fair districts that, for 70 years, always included Gallatin County with Missoula County. Republicans have shown that we are unable to function as candidates in competitive districts, even if the districts still lean Republican, because we've been taken hostage by our extremist Republican primary electorate. How else can you explain my attempting to overturn a free and fair election when my party's presidential candidate lost an election?" - U.S. Sen. Steve Daines

Maybe he should also mention that both of the maps brought forward by Commissioner Essmann underpopulated the Eastern District substantially, which I think was an attempt to use deviation in a partisan way to make sure the Western districts they drew didn't even approach competitive whatsoever.

Mon, Oct 11, 2021 at 3:17 PM

Good afternoon Kenda,

Again, thank you and the committee for all of the hard work that you are doing on behalf of all Montanans. I am just trying to get some clarification on the date that the committee will be deciding on which map(s) will be used going forward? Will it be during the working meeting, or the November meeting?

Thanks,  
Keaton Sunchild, WNV

---

**Kendra Miller** <kjaniceh@gmail.com>  
To: Keaton Sunchild <ksunchild@westernnativevoice.org>

Mon, Oct 11, 2021 at 3:48 PM

Hi Keaton,

Tuesday, the 19th, is entirely set aside for public comment and then Thursday, the 21st, is a working meeting where the Commission will adopt a "tentative final plan."

We will then have one additional public hearing on October 30th to hear comments on the "tentative final plan" that we adopted on the 21st. After that, we will officially adopt a map and submit it to the Secretary of State. While we do have one additional date held available on November 9th, if need be, it's quite possible that we will adopt an official final plan on October 30th and it will become law. However, if the Commission decided to adjust a line on October 30th based on the feedback from the public, we have the option to hold the additional meeting on November 9th.

Let me know if you have any other questions!

To: Danny Tenenbaum &lt;drtenenbaum@gmail.com&gt;

Bcc: Kim Abbott &lt;kim.k.abbott@gmail.com&gt;

Thanks for the introduction, Kim! I'll move you to bcc and hopefully Danny and I can find a time to connect.

Nice to meet you, Danny. I'd love to talk to you about the issue of prisoner reallocation as it relates to redistricting. As Kim probably mentioned, I'm one of the two Democratic appointees to the 5-member Districting and Apportionment Commission that will draw legislative and possibly congressional district lines this cycle. Is there a time that we could jump on a Zoom or phone call? I know you're all incredibly busy right now with the Session, so I'm happy to work around your schedule. I'm very flexible on weekends and evenings and have two kids at home with me during regular business hours so daytime is a little more hectic. But if a time during the day between committees is what works for you, I can make that work as well.

Let me know what your availability looks like. Look forward to connecting soon!

Oh no! I must have missed when Montana amended the Constitution to give the Legislature authority over redistricting...

😬 It's just as unconstitutional this time as it was last time.

**Subject:** [redistrict-l] More census and redistricting related items

**Reply-To:** redistrict-l <[redistrict-l@lists.ncsl.org](mailto:redistrict-l@lists.ncsl.org)>

[If you would like to send information to this distribution list, please send your message to [Christi.Zamarripa@NCSL.org](mailto:Christi.Zamarripa@NCSL.org), [Ben.Williams@NCSL.org](mailto:Ben.Williams@NCSL.org) and [Wendy.Underhill@NCSL.org](mailto:Wendy.Underhill@NCSL.org) who can forward it to the list.]

Hello everyone,

I hope you are doing well. I'm reaching out with several census and redistricting related matters.

NCSL's June 4 Census Update Meeting

NCSL's next [2020 census update](#) meeting is on Friday, June 4 at 2 p.m. (Eastern Time). The meeting will focus on the latest updates on data delivery, differential privacy, the April demonstration data, and more. If you would like to attend this meeting, please [click here](#) to register. After registering, you will receive a confirmation email containing information about joining the meeting.

Census Bureau's Factsheet on Data

The bureau has released a fact sheet, [Which Data Set is Right For Me?](#), on its data sources. It provides a comparison between decennial census data, population estimates and American Community Survey (ACS) 1-year and 5-year estimates.

New Redistricting Guide by Civil Rights Organizations

The NAACP Legal Defense and Educational Fund, MALDEF (Mexican American Legal Defense and Educational Fund), and Asian Americans Advancing Justice released a [redistricting guide](#) to support Black, Latino, and Asian American communities' participation in the redistricting process.

American Statistical Association 2020 Census Quality Indicators

The American Statistical Association (ASA) posted [another update](#) on its quality indicators project. The researchers are working closely with the Census Bureau on the development of a series of tabulations, from which the ASA will create quality indicators for its reports. A recent push by the bureau to provide more resources for the researchers makes them optimistic they can release a first report in June.

If you have any questions, please feel free to reach out to me.

Thanks,

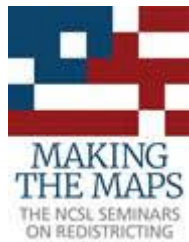

Christi

<[theknowbetters@gmail.com](mailto:theknowbetters@gmail.com)> wrote:

America First Patriots,

I've just received word that the BLM/ANTIFA Democrats are trying to "cancel" Maylinn Smith, Chair of the Montana Districting and Apportionment Commission (MDAC) due to her selection of Map 12 (CP12) last week. At this point, I don't know what "cancel" means, but we must send her personal emails of support directly to her thanking her for her wise decision. It is going to be tough for her to withstand *the firestorm of leftist activist hate* that is about to be brought down on her head, so *shore her up with emails of support!*

Below is what I wrote. You can steal from it as you see fit, modify it so it is your own, and zap it to her.

Tomorrow is an important day in the lives of all Montanans. We must continue to fight to *stop the steal*, so *support the chair*, testify, and send off support for Map 12 to the committee. It is never too late as long as it is before the meeting!

Tracy

\*\*\*\*\*My Comments to Madam Chairman  
Maylinn Smith \*\*\*\*\*  
Madam Chairman Smith,

I wanted to personally thank you for the way you have conducted these hearings. In the beginning, I had my doubts. However, I now am convinced that you have preserved and enhanced your reputation through the evenhanded manner in which you have conducted these proceedings.

When there wasn't enough public comment in the beginning, you adjusted and changed the format to allow comments. When absurd north-south gerrymandered maps were presented, you were instrumental in seeing that they were pushed aside in favor of a sensible east-west split. When the final absurdity of putting Flathead County and the Blackfoot Reservation (but not the

MT-MDAC-21-1688-B-001561

Confederated Salish and Kootenai Tribes (CSKT)) in the east, you saw through the obfuscated reasoning put forth to justify such a split and agreed to CP 12.

CP12 is right (if not perfect) and it **looks** right. No one viewing this map from outside of Montana would look at CP12 and say, "What the heck happened there?!?" No, instead the east-west split along the Rocky Mountains and near the Continental Divide line looks, seems, and is sensible. Clearly the entire way of life west of the mountains is different than that of our friends on the other side of the mountains. Our interests, needs, and even our weather are different in the west. Our communities of interest must be tied together so that representation, Democrat or Republican, can understand and court the shared voting interests of all of us on this side of the divide.

I applaud the way you have handled this tremendous responsibility, and you have earned my respect and admiration. Well done, and we will stand with you in weathering the complaints and abuse likely to come your way for having selected a map you truly believed to be legal, constitutional, and in the best interests of all Montanans.

## Western Montana Liberty Coalition

**! ACTION ALERT !**

Dear Kendra,

**If you can dedicate 30 minutes today, you can make a big impact for the future of Montana. Please read the urgent message below from Debbie Churchill, MTGOP Grassroots Director:**

Good Morning Montana Patriots!

We are at the final stage of the process of selecting our two Congressional Districts for Montana! It is important that our voice be heard at the next Commission meeting.

**WHAT WE NEED TO DO:**

1. We need to convince the Commission to adopt a map that complies with Montana law and reject a gerrymandered district in the West with an overwhelming number of people to provide written public comments by 5:00 pm this Saturday.
2. We need as many people as possible to rally together at the next Commission meeting on Tuesday, October 19th @ 9 am at the State Capitol. **MARK YOUR CALENDAR!**

**STEP BY STEP PROCESS:**

We **NEED** each one of you to do the following **TODAY** if possible:

1. Read the text below this section for all information.
2. Submit your written comments (**see instructions below**).
3. Make a list of 10 people you know who you can ask to submit their comments by Saturday at 5:00 pm. Include their name, phone number and email address.
4. Forward this email and attached document to all 10 people.
5. Follow up with a phone call to each person:
  - a. to make sure they received the email
  - b. help them through the process of submitting their comment.
  - c. find out if they are available on October 19th to attend in person or by Zoom

We need to act and **THE TIME TO ACT IS NOW**. This is the **MOST IMPORTANT** thing we, as Republicans, can do for the next decade. This will not only affect the next Congressional election, but will set the standards for decades to follow.

Let's DO this!

Debbie Churchill MTGOP Grassroots Director, 1300 Aspen Street, Ste. B, Helena, MT 59601(406) 442-6469 (office)(406) 799-8506 (cell)[debbie@mtgop.org](mailto:debbie@mtgop.org)

**HOW TO MAKE COMENTS**

The Montana Districting and Apportionment Commission met last week and put forward a total of nine maps for public comment. And while republican members of the commission put forward four maps that split the state into eastern and western districts and provide a balance between geographies, communities and populations similar to Montana's history with two districts (maps 1,3,5 and 7), Democrats proposed five partisan, gerrymandered maps that clearly draw one district in favor of their political party (maps 2,4,6,8, and 9).

**Ways you can help:**

1. Submit your written comments by **THIS SATURDAY, October 16th** no later than 5 pm. Pick one map that you like and comment on it. Then comment what you dislike on each of the gerrymandered

MT-MDAC-21-1688-B-001564

maps. So you will comment on six maps total. Below is the process to do it, and many points you can pick from to make.

### Step By Step Process For Submitting Comments:

1. Go to the commission website to submit your comments found [HERE](#).
2. Click on the “Interactive Map” tab next to a map that you want to comment on. You will see either a red, green or yellow dot of comments already made. You can also read comments off to the right.
3. Off to the right, click on the “Add Comment” button. Next, click anywhere on the map. It will bring up the form to fill out.
4. Click either Like, Dislike or Opinion button. Continue filling out the form with your name, address, email and phone number. In the last box add your comments.
5. Then click ADD COMMENT to submit.

2. Rally together at the Capitol next Tuesday, October 19th at 9 am as the Commission will be holding a public hearing on the nine proposed maps put forward. The meeting will be taking place at the State Capitol in Room 102 and will begin at 10 am. You can find the full agenda for the meeting [HERE](#).

3. **Can't attend the meeting in person?** Be sure to [register to attend virtually](#) no later than 5 pm on Monday, October 18th!

The redistricting process will determine the political makeup of our state for at least the next decade, and possibly even longer. Your participation is CRITICAL. We need your help to fight the gerrymandering by Democrats.

Thank you for all you do and we look forward to seeing you next week!

### Sample comments for consideration, not intended to be all-inclusive, can pick and choose the points most important to you:

Map 1 – I like this map because

- it allows for two reservations to be included within the western district, allowing for a stronger voice for the tribes in the new western district.
- the population deviation is just 1 citizen (0%), creating one of the tightest maps by that measure, and both districts are almost the same shape, allowing for compact and contiguous parameters to meet the legal requirements in Montana.
- there are split counties in Cascade and Gallatin, but it keeps both major cities intact in the eastern district (Great Falls and Bozeman).
- this map splits the fastest growing 4 counties evenly between the east and west districts, allowing for the best reflection of population growth over the decade.
- when you follow the commissions' illegal goals of competitive, it is the closest number of voters for each party using the 2016 Governor's race and the 2018 Senate race for each district. This is the most competitive map for both parties in the choices available.

- most closely resembles the historical divide Montana had for 80 years when we had two districts before, adjusting for population and tribe inclusion.

Map 2 – I dislike this map because

- it is one of the worst examples of gerrymandering one could draw. Although it meets the population deviation requirement at 175 citizens (.02%), it is a travesty of compactness and a contiguous nightmare. A candidate would have to traverse over 700 miles to get from Libby to Miles City, spending 10 hours of time, and when they got to either, the needs of both communities are polar opposites as well.
- it obviously breaks the law, violating 5-1-115(3b,c,d) because when you search the political affiliation of registered voters in the counties represented, it creates a very strong democrat district in the SW, and a very strong Republican district everywhere else.
- this map creates only one congressional seat bordering the huge economic driver of Canada with the state.
- this map doesn't even begin to resemble the historical divide we had for 80 years with our previous two congressional seats, keeping communities of interest intact based upon the commonalities easily found in an east west divided map.
- it encircles Helena, Missoula, Butte and Bozeman to create a Democrat Super District, and should be voted "most likely to be sued by both the GOP and all Tribal governments" Map of 2021!

Map 3 – I like this map because

- it has all the characteristics of the CP-1 map, with a slightly larger population deviation at -560 (-0.1%). The only difference is the southern part of Gallatin around West Yellowstone and Hebgen Lake Estates will be in the western drawn map. Slight changes in the western parts of the county as well, but the cities of Great Falls and Bozeman remain intact and in the east.
- it does not favor a political party. Either district could be won by Republican or Democrat.
- it creates both districts of almost the same shape, allowing for compact and contiguous parameters to meet the legal requirements in Montana
- it splits the fastest growing 4 counties evenly between the east and west districts, allowing for the best reflection of population growth over the next decade.

Map 4 – I dislike this map because

- this gerrymandered map is the best example of violating keeping communities of interest intact. Kalispell is the county seat of government, is where all the airports reside, and is the social and economic hub for the county. When you look at the illegal criteria of competitiveness adopted by the Commission, the divide through the Flathead places all the strong republican precincts in the east, and the democrat ones in the west, linking them to the democrat strongholds of Helena with Butte and combines both major university town into one district. This has the double effect of dividing the political power of the strongest Republican county in the state. This obvious gerrymandering continues when you evaluate all the locations, creating another Democrat super district in the west, and a double digit political lead in the east for the Republicans.

- looking at future growth, this map will obviously favor the western district, and we can be sure the population will quickly ruin the equality of both these districts over the next decade of growth. Let's vote this one "the most likely to render the Ravalli county Republican stronghold and the majority Democrat eastern tribes in Montana impotent in their new seats!"
- it has only one positive feature, allowing for two reservations to be included within the western district. However, that is outweighed because it violates the compact and contiguous tests with the partisan half taken from Flathead County, placing Kalispell in the eastern district.

#### Map 5 – I like this map because

- it is an attempt to get three tribes in the western district as its primary goal, and falls just under the requirement of .75%, with 7551 population deviation (.7%). It could be argued to fall just under our requirements for compact and contiguous in the effort to get three tribes in the west, splitting the Rocky Boy Reservation components in Hill and Choteau counties off.
- it also closely resembles the historical divide Montana had for 80 years when we had two districts before, adjusting for population and tribe inclusion.
- It allows for an even divide of the 4 fastest growing counties in Montana, 2 on each side, thus insuring the population growth in both seats would keep things even as we grow in the next decade.
- it definitely keeps communities of interest intact and doesn't split any reservations. Again, if we consider the illegal requirement of competitiveness adopted by the commission, both of these districts are very competitive based upon 2016 Governor and 2018 US Senate race results, allowing for either major party in Montana a chance for victory. This map could easily be "the great compromise map of the lot."

#### Map 6 – I dislike this map because

- it has almost all the failures of the CP-2 map, and is once again another violation of the legal requirements of compact and contiguous. Even though it complies with population deviation of 1 citizen (.0%), you have to drive through the other district to get to Mineral and Sanders counties.
- it splits Sanders County, only so you can maintain the boundary of the only Tribe in district (CSKT).
- Even though it splits up the 4 fastest growing counties evenly, it fails the communities of interest test and leaves one Congressman representing the Canadian interface.
- This map creates a Super Democrat District out of the west, and a super republican one, which by the way has all the other tribes in it, for the east. This one could be very competitive however for being voted "most likely to be sued by both the GOP and all Tribal governments" Map of 2021!

#### Map 7 – I like this map because

- It most closely resembles the historical east west divide Montana had for 80 years, with the north south line actually being the Continental Divide for most of its length.
- it is tied with CP-1 for being the most compact and contiguous map in the mix, weighing in at just 9 citizens in population deviation (.0%).
- it keeps all communities of interest intact the very best, with farming in the east and forestry in the west, splitting only Gallatin county north of the expressway through Bozeman.

MT-MDAC-21-1688-B-001567

- both districts have shared borders with Canada, as it should be.
- both of these districts are within single digits for either party based upon the 2016 Governor and the 2018 US Senate races data, creating the second best “competitive map” for both districts.

Map 8 – I dislike this map because

- it is another example of gerrymandering prowess, with the only legal component being the population deviation is 1 citizen (.0%).
- it has all the failures of CP-2, with the added insult of having just one seat border Canada and surprisingly, most of Idaho as well! This map does have the distinction of being the most in violation of compact and contiguous, as well as totally splitting communities of interest in the west.
- this map is the most radically different from our historical division of 80 years, and although it is an attempt to put two tribes in the west, it is the CSKT and the Crow, which have never been in the same community of interest (coal anyone?).
- this map literally splits the city of Billings from the West End, the Heights and Lockwood. This fiasco places almost all 3 of the 4 fastest growing counties in the state in one district, and there is no way that even pencils out over the decade for being fair with the potential growth.
- with the measure of competitiveness, this map gets the award for the most Super Democrat district in the new west, and the most super district for the Republicans in the east. These are double digit differences, so a sure lock for both parties.

Map 9 – I dislike this map because

- it has all the failures of CP-2 map, including its only saving grace is the legality of its population deviation being 1 citizen (.0%). The biggest stand out failure of this map is in violation of Federal Election Law, where it actually has no tribal nations in the new western seat. This failure is compounded by the illegal competitive measure, when one realizes the new eastern seat is a double digit percentage favorite for the Republican Party, when looking at the 2016 Governor and 2018 US Senate race results. It still creates a Democrat super seat with the same power house groups of Cp-2 for the new western seat.
- it is an obvious violation of compact, contiguous and communities of interest, as well as once again allowing only one seat to represent the critical interface with Canada. The historical map also has nothing in common with this map, and honestly this maps only distinction will be “the most likely to be rejected first at the next Redistricting meeting.”

Subject: CALL TO ACTION - 2020 DISTRICTING AND APPORTIONMENT COMMISSION  
To:

Patriots,

**Action Time: 15 minutes****Written Comments must be sent BEFORE Tuesday November 2, 2021 @ 5:00 PM**

The Montana Districting and Apportionment Commission met Saturday to hear testimony on Maps CP10, CP11, CP12 and CP13. We had a great day! Republicans dominated the testimony - approximately 104 Republicans testified compared to 38 Democrats.

This week is our last opportunity to get Chair Smith on our side. Time is of the essence, so please do this as quickly as possible.

Let's now seal the deal and get CP-12 officially adopted!

We need YOU and all your friends to submit your comments by Tuesday November 2, 2021 @ 5:00 PM.

The Commission set the next meeting for public comments on Thursday November 4, 2021 @ 9:30 AM at the State Capitol, Room 317.

Chair Maylinn Smith specifically wants **public comment on Map CP-12**, which is the map put forward by the Republican Commissioners. So far, Chair Smith has been very receptive to public comment.

MT-MDAC-21-1688-B-001570

Written comments are crucial!

Here is how you can help:

- Comment directly on Map CP-12 [HERE](#).
- Send comments directly to the Commissioners through their website: <https://mtredistricting.gov/contact/>
- Send an email to the Chair and Commissioners here: [districting@mt.gov](mailto:districting@mt.gov)
- Send the same e-mail directly to the Chair and Commissioners:

[Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov); [Jeff.Essmann@mtleg.gov](mailto:Jeff.Essmann@mtleg.gov); [Joe.Lamson@mtleg.gov](mailto:Joe.Lamson@mtleg.gov);  
[Dan.Stusek@mtleg.gov](mailto:Dan.Stusek@mtleg.gov); [Kendra.Miller@mtleg.gov](mailto:Kendra.Miller@mtleg.gov)

**Subject:** Congressional Redistricting Map - Support CP-12

Chair Smith and Commissioners,

I support Map CP12 because:

- It keeps Flathead County in the Western District.
- It includes both the CSKT and Blackfeet Reservations in the Western District, allowing for a stronger voice for the tribes in the new western district.
- It keeps Lewis and Clark, Flathead and Gallatin counties whole.
- It only splits 1 county

Thank you for your consideration.

Your Name, Address, Phone Number & Email Address (this is required information)

Attend the meeting virtually and provide your comments. Click below and follow the directions: <https://mtredistricting.gov/remote-participation-request/>

You **MUST** request remote participation online by 5 PM on Wednesday November 3, 2021.

You will receive an email with the login information by midnight the night before the meeting.

### **ADDITIONAL INFO**

Agenda for the commission meeting on Saturday is attached.

Pictures of the proposed new CP-12 is attached and posted below.

Please forward to friends, family, etc. who may be interested in this issue.

**To:** undisclosed-recipients;  
**Subject:** CALL TO ACTION - 2020 DISTRICTING AND  
APPORTIONMENT COMMISSION

Patriots,

MT-MDAC-21-1688-B-001573

**Action Time: 30 minutes**

Please help **STOP THE STEAL** of elections in Montana by making your voice heard!

The Districting & Apportionment Commission voided the 9 previous maps and came up with 2 new maps.

The map favored by the Democrats splits Flathead County in half and effectively neuters the most conservative county in the state.

Derek and Ronalee Skees spoke at length at our last meeting regarding the importance of sending our comments to the commission AND our presence in Helena next Saturday October 30, 2021.

There are several ways you can help:

1. Attend the next Districting and Apportionment Commission meeting "In-Person" on **Saturday, October 30, 2021 @ 9:30 AM in the State Capitol, Room 102** and deliver your short (30 second) testimony to the Commissioners. (Talking points will be provided for you)

A bus has been chartered for Helena and the cost is **FREE**.

There are only 55 seats available on a "first call first served" basis but we need firm confirmation from each person.

Call John O'Neil at (406) 755-5714 or Lauralee O'Neil at (406) 407-5639 to reserve your seat and get more details.

Meet @ the Red Lion Inn parking lot in Kalispell at 4 AM on Saturday October 30, 2021 for the "ride of your life".

2. Send an email to the Chair and Commissioners here: [districting@mt.gov](mailto:districting@mt.gov)

(suggested comments below)

3. Send the same e-mail directly to the Chair and Commissioners:

[Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov), [Jeff.Essmann@mtleg.gov](mailto:Jeff.Essmann@mtleg.gov), [Joe.Lamson@mtleg.gov](mailto:Joe.Lamson@mtleg.gov), [Dan.Stusek@mtleg.gov](mailto:Dan.Stusek@mtleg.gov), [Kendra.Miller@mtleg.gov](mailto:Kendra.Miller@mtleg.gov)

(suggested comments below)

4. Send the same comments directly to the Commissioners through their website:

<https://mtredistricting.gov/contact/>

(suggested comments below)

**Subject:** Congressional Redistricting Map

Chair Smith and Commissioners,

The two newly proposed maps (CP-10 and CP-11) are terrible maps as they are based on trying to carve out specific party districts and do not comply with Montana statutes and constitutional requirements.

Please throw out these two new maps and select map CP-1 as it's the best map that adheres to the law.

Thank you for your consideration.

Your Name, Address, Phone Number & d Email Address (this is required information)

5. Provide comments on the interactive maps for CP-10 or CP-11 by clicking below and following the directions:

<https://mtredistricting.gov/congressional-maps-proposed-by-the-commission/>

6. Attend the meeting virtually and provide your comments. Click below and follow the directions:

<https://mtredistricting.gov/remote-participation-request/>

You **MUST** request remote participation online by 5 pm on Friday October 29, 2021 @ 5 PM.

**ADDITIONAL INFO**

Agenda for the commission meeting on Saturday is attached.

Pictures of the proposed new maps are attached and are posted below.

Please forward to friends, family, etc. who may be interested in this issue.

For Truth, Freedom and Health,

Flathead Liberty Coalition

**Subject:** Fwd: Clarification on P.L. 94-171 Data Availability

Chair Smith and Commissioners,

Hope everyone had a good weekend.

I reached out to James Whitehorne, who leads the U.S. Census Bureau's redistricting division, to ask for more clarification on the dual release of P.L. 94-171 redistricting data. Please see below my exchange with him, which I wanted everyone to have a copy of. It's clear that the Census Bureau does consider September 30th the "official delivery" of the data because they will send CDs and flash drives at that time. It is also clear that the data will be available to us and the rest of the public on their FTP site by August 16th and that it is both official P.L. 94-171 data and final data.

I have bcc'd commissioners since I know our public meeting next month is the appropriate place for discussion, but I did want to make sure everyone has this information and the full exchange in advance and that staff can make it a public document if appropriate.

Thanks.

**Sent:** Friday, June 11, 2021 12:24:19 PM  
**Subject:** Re: Clarification on P.L. 94-171 Data Availability

You are correct. It is one format of the official data and it will not change between August and September.

Best Regards

**Subject:** Re: Clarification on P.L. 94-171 Data Availability

Thank you so much for your response. In terms of the legal piece, the staff attorney for our Commission is looking into that for a future meeting, and I certainly wouldn't expect you to advise on that. I know that the September 30th date is what the Census Bureau considers the "official delivery" of the data. Our Constitution doesn't use the word "delivery" or "receipt" though. That's why I feel that this is more of a technical question of whether the data itself that the Census Bureau is making available on the FTP site is "official" data. Am I correct that the August 16th legacy format is official Census data and that it is final because it will not change?

---

**From:** "James Whitehorne" <[James.Whitehorne@census.gov](mailto:James.Whitehorne@census.gov)>

**To:** "Kendra Miller" <[kendra.miller@mtleg.gov](mailto:kendra.miller@mtleg.gov)>

**Sent:** Friday, June 11, 2021 10:22:43 AM

**Subject:** Re: Clarification on P.L. 94-171 Data Availability

Good afternoon Ms. Miller -

The legacy format summary file data being posted to the Census Bureau FTP site in August, and the DVDs/Flash drives and [data.census.gov](https://data.census.gov) tools released in September, are all the P.L. 94-171 Redistricting Data, just in different formats. However, the Census Bureau will make an official active delivery by mailing DVDs/Flash Drives to the official state recipient list in the September timeframe. That list includes those recipients required under Public Law 94-171, Governors, state legislative leaders, commissions. Since the posting in August requires recipients to take an action to receive the data, Census is considering our active delivery the official delivery. All of that said, I think you would need the determinations of status as outlined in your questions to come from your legal advisors based off the description above.

I hope that is helpful.

Best Regards

James

Dear Mr. Whitehorne,

I am a member of Montana's Districting and Apportionment Commission, and I'm hoping you can provide some clarity on the August release of the "legacy format" P.L. 94-191 Census data. The Montana Constitution requires that a congressional plan be filed "within 90 days after the official final decennial census figures are available." My understanding of the August 16th "legacy format" available to redistricters is that it is official P.L. 94-171 data and that it is final because it will not change with the September format release that is delivered to official State recipients.

Can you please clarify two specific questions.

1. Is the August 16th format of the data "official" P.L. 94-171 data?
2. Is the August 16th format of the data "final" in that it is identical to the September data and will not change from one release to the next?

I understand the dual data availability dates of the Census data is unique to 2020, but I appreciate your expertise in explaining the technical aspects of the August 16th "legacy format" data.

Thank you for your time.

**From:** "Dennison Rivera" <drivera@montanayoungrepublicans.com>**To:** "Joe Lamson" <Joe.Lamson@mtleg.gov>**Sent:** Wednesday, October 6, 2021 12:23:22 PM**Subject:** Empty Words

Commissioner Lamson,

Back in June, I greatly appreciated the fact you were willing to approach me and engage with me in a discussion. It's not every day that the other side is willing to engage in civil discourse and willing to listen to me. It was important and impactful.

At the time I didn't understand as much nor was I looking for strife. I was hoping that for once perhaps we can all put our differences aside and really work for the Montana community. I took what you said, and went out of my way to question and find the answers to the points you mentioned.

I took away 3 major things from that conversation.

**1. C-Map**

You asked me in what sense do I believe the Democrats were looking to Gerrymander. I told you about the C-Map that has been passed around and angered a lot of folks. You told me, that that was a Republican ploy and that in no way that was what the Democrats were after.

Not knowing any better, I believed you. And instead focused on the merit of your claims presented during the meetings than to make unfounded accusations.

However, behold you proposed maps that are similar or exactly the same as the C-Map that proved the accusations to be true.

I gave you the benefit of the doubt. Were you purposely lying to me? Or why would you give me the impression you weren't after such a map when you obviously are?

**2. HB 506**

You switched the conversation into asking me about HB 506 which again at the time I didn't know enough about it to speak on it.

You told me it was unconstitutional, unlawful, and that it didn't include the public.

I learned a lot about HB 506 and a number of things since then.

To this day, I don't understand what part is unconstitutional. The only argument you make is that you are an independent commission but never argue against the specifics of the Bill or annotated code.

What part of it is an issue when it matches the mandatory criteria?

3. You started by saying you were a man of action not just words in reference to my speech where I said the following:

*"The same goes for the rest of you. It is your actions, not words, that will demonstrate your true intentions. Here is your chance to prove yourselves. Are you putting all Montanans first? Or is that nothing more than empty words? Is it just political virtue signaling to gain favor while you instead gain a corrupted advantage while undermining Montana citizens' right to a fair vote?"*

*Madam. Chair, members of the commission, the outcome of your decisions will answer my questions when the time comes, and we will hold each of you accountable."*

I told you that I will do my research, become more knowledgeable in the subject and see what you have said to be true or not.

The time has come and unfortunately found that you have only given me empty words. Your true intentions were to push for a C-Map all along while ignoring the Consitution and the law. I can say so much more about competitiveness amongst other things but I'm so disappointed.

Though my words during my testimonies seem personal, they aren't. I have no personal animosity towards anyone. However, I am the type to call a spade a spade with no apologies. So when I say your words are empty, though I'm sure it sounds offensive, it's not. It sounds personal but it's not. It's objectively what I see when you say one thing and end up doing another.

Despite all of this, I wanted to give you the opportunity to speak for yourself and hear what you have to say. Perhaps, there is a misunderstanding and you can clarify.

The truth is I want to see this commission work together doing what's right for all Montanans and take the politics out of it.

Dennison Rivera

Subject: REDISTRICTING - IMMEDIATE CALL TO ACTION  
To: Debbie Churchill <[debbie@mtgop.org](mailto:debbie@mtgop.org)>

Hi Montana Patriots!

THE TIME IS NOW. WE NEED YOUR HELP!

UPDATE:

The Redistricting Commission is accepting maps for the Congressional Districts. The Democrats have submitted hundreds of maps showing a Southwest district to combine Bozeman and Missoula together. That is the only way they can gerrymander a district to have any chance of winning a congressional seat in Montana.

WHAT WE NEED TO DO:

#1 - We need an overwhelming number of people to submit proposed maps by 5:00 pm Wednesday, September 15th.

#2 - We need as many people as possible to attend the next Commission meeting and provide public comments in support of a traditional East-West map. The next meeting is scheduled for Thursday, September 17th @ 9:00 am at the State Capitol, Room 172.

STEP BY STEP PROCESS:

We NEED each one of you to do the following TODAY if possible:

1. Read the attached document for all information.
2. Submit your written comments TODAY. (Copy and paste the provided Comments on the attached document. We do not need original thought, we need sheer numbers to respond.)
3. Make a list of 10 people you know who you can ask to submit their comments by Wednesday, September 15th at 5:00 pm. Include their name, phone number and email address.
4. Forward this email and attached documents to all 10 people.
5. Follow up with a phone call to each person:
  - a. to make sure they received the email
  - b. help them through the process of submitting a map
  - c. find out if they are available on September 17th to attend in person or by Zoom

If you need help with making phone calls or emailing the information out, please provide me with your list of 10 people. We have volunteers who are willing to help. Call me on my cell phone.

FYI this was forwarded to me. It's the maps we've been getting, but it also tells people to go to the Capitol in-person on Friday. So I emailed Debbie and told her it's a Zoom meeting. I don't know if they are doing this intentionally or what so they can say the Commission isn't allowing them to participate?? But now she for sure knows so hopefully people don't show up in-person on Friday.

To the Committee,

It always amazes me when government asks you to do something for them, then they ignore all your hard work and tell you they have a better plan because you are just not up to the task. So my words of advice are don't waste my time, and don't ignore the citizens of this state ever again. Discard your maps that this committee created to disenfranchise the citizens of this state and choose a map from the final group of nine that you selected. If you do choose to move forward with one your maps developed without our input, feeling that you are better than all the rest of us, then you deserve any form of derision, any form of contempt that Montana Citizens will choose to exercise against this committee in the future.

This decision has no validity.

Dear Members of the Districting Commission:

I am a citizen of the state of Montana and I am submitting this email as my written testimony to express my opinion regarding the upcoming decision to be made by the Commission concerning the proposed Congressional Districts. I respectfully request it be made a part of the official record of the Commission and be considered during your deliberations. I have reviewed the various maps and believe that Map CP-1 (<https://leg.mt.gov/content/Districting/2020/Maps/Congressional/Commission-Proposals/cp1-congressional-october-19.pdf>) is the most appropriate choice for Montana in that it follows the law established in House Bill 506 ([https://leg.mt.gov/bills/2021/HB0599/HB0506\\_X.pdf](https://leg.mt.gov/bills/2021/HB0599/HB0506_X.pdf)) passed during the most recent session of our Legislature.

Map CP-1 has the best configuration for compactness where the width and length of both districts are most equal. It has the minimal difference in populations between the two districts (plus or minus one). It divides the fewest number of counties (2). CP-1 is the only map that best follows the intent of HB 506, which is the express will of the citizens of Montana. I believe that our Congressional districts must be formulated in accordance with HB 506.

There is an attempt by members of the Commission to ignore the law and gerrymander the boundaries of the two Congressional districts. Map CP-1 best meets the criteria set out in law by HB506 Section 1, as noted above. Of the nine (9) maps submitted/created, five clearly violate HB 506 and favor the Democrats and disadvantage Republicans. This is blatant partisan gerrymandering and completely

unacceptable. These maps are offensive to all Montanan's who believe in fair play and the rule of law.

In light of the foregoing, I most strongly urge you to adopt the boundaries for our proposed Congressional Districts as outlined in Map CP-1 and in accordance with the existing laws of Montana. Thank you for your time and attention to my concerns.

I'll have to dig into the charts more but wanted to pass this along. I'm looking for all of the examples where following the lines of political subdivisions was mandatory and still resulted in a Court having to re-draw a map. I think PA and NC are good examples since those were extreme partisan gerrymanders, but I'll have to study the chart more to see if there are others.

Hello Commissioner!

Happy to help. We do have such a chart, link here: [https://www.ncsl.org/Portals/1/Documents/Redistricting/Redistricting\\_actionplan\\_2010thru2020.pdf](https://www.ncsl.org/Portals/1/Documents/Redistricting/Redistricting_actionplan_2010thru2020.pdf). It's part of this webpage on the success of redistricting plans going back to 1991: <https://www.ncsl.org/research/redistricting/redistricting-plan-success-rates-636359876.aspx>.

Perhaps you have a better eye for this chart than I do—I find it to be highly confusing, which is one of the reasons why we don't share it more widely. But the gist is if you read it left-to-right within the columns for each district type following the legend at the bottom of the page, you can read how each state's redistricting plans fared in the courts. Slashes indicate differences in maps, if you had R/R/D (like you do for Florida senate), that means the first plan was rejected, the second plan was rejected, and then a court drew the third map.

If it's helpful to talk this through over a phone call, I'm happy to do so. Just let me know if you'd like to and I can set up a time.

Best,

MT-MDAC-21-1688-B-001595

Hi Ben,

I know NCSL compiles a lot of state-by-state redistricting information, and it's been very helpful on several topics to have a centralized resource. You have a page with summaries of legal cases that is extremely helpful, but I have a specific question that I'm not quite sure how best to research and hoped someone at NCSL might just know the answer to from all of your other research.

Do you know how many states and which states had congressional or legislative maps that were struck down by a Court and had to be redrawn during the 2010 redistricting cycle? I know that Pennsylvania's congressional map and North Carolina's congressional and state legislative maps were both ruled unconstitutional by their respective State Supreme Courts and certain districts within the plans had to be redrawn mid-decade. Those were both partisan gerrymandering cases where State Courts determined that the maps were in violation of their State Constitutions, but I'm really looking for any instances where a state was required to redistrict mid-decade (between 2012 and now) to comply with a Court order. Do you know the answer to this or have thoughts on how best to determine which states had maps struck down by a Court? I imagine the congressional is a little easier because mid-decade congressional redistricting probably got some press, but I'm hoping for a comprehensive list and don't want to miss anything just because it wasn't on my radar.

Thank you!

--

**Date:** Thu, Nov 11, 2021 at 8:13 AM  
**Subject:** VICTORY – CONGRESSIONAL REDISTRICTING MAP CP-12 WAS SELECTED  
**To:**

Patriots,

We achieved a great victory on Tuesday when the Districting and Apportionment Committee finalized their selection of Map CP-12.

We thank all of you who took action and submitted comments, attended in person in October and even attended the meeting remotely.

All our hard work has paid off with a congressional map that, although is not the “best”, it is about as good as we could hope for in the charged political environment we find ourselves in.

Why is this important?

CP-12 keeps the western tribes in the Western Congressional District

CP-12 keeps Flathead County in the Western Congressional District

CP-12 keeps Flathead County intact and whole

If you feel so inclined you may send a note of thanks to the three commissioners that voted FOR Map CP-12 here:

Maylinn Smith: [Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov)

Jeff Essmann: [Jeff.Essmann@mtleg.gov](mailto:Jeff.Essmann@mtleg.gov)

Dan Stusek: [Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov)

[Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov); [Jeff.Essmann@mtleg.gov](mailto:Jeff.Essmann@mtleg.gov); [Dan.Stusek@mtleg.gov](mailto:Dan.Stusek@mtleg.gov)

Bask in this victory for now but know that we have many, many battles ahead in this war on our Constitution and our Constitutional Republic.

For Truth, Freedom and Health,

***Flathead Liberty Coalition***

**From:** eric knutson <ericknutson007@gmail.com>**Date:** October 28, 2021 at 9:23:05 AM MDT**To:** undisclosed-recipients;

Democrats are trying to steal new Montana congressional district.

Today is Oct 28, 2021, and this appeared in the opinion section of today's Daily Interlake newspaper.

Democrats are trying to steal new congressional district, by Al Olszewski

Because of failed socialist policies, radically left leaning states like California and New York lost congressional districts which were given to conservative states like Montana and Florida. Democrats know they will lose the U.S. House majority in 2022, so gerrymandering is their only hope at keeping Nancy Pelosi in power.

Montana law is clear on how lines for our new congressional district should be drawn. Unfortunately, the Democrat majority on Montana's redistricting commission made it clear from day one that they have no intention of following our Montana law. They are trying to gerrymander a western congressional district which is a safe seat for Democrats.

Unfortunately for them, Montana has become a state with solid conservative values. In 2020, voters rejected the radical policies of Montana Democrats by wide margins. Montana Democrats know they have only one solution that will dismiss the will of the Montana people.

Democrats have made it clear that they intend to exclude the two Republican candidates for Montana's new western district from this race. Voting for a gerrymandered map that excludes Flathead County from the western district will do nothing more than ensure a costly, drawn out court battle that will result in the commission having to go back and do the job it should have done in the beginning.

Montanans need to stand up and have their voices heard by the three Democrat redistricting commissioners. Flathead County is as western Montana as Missoula County. Stop trying to steal the western district by putting the Flathead County in the eastern congressional district. Excluding all two of the Republican candidates running in the new western district by placing their homes in Flathead County into the eastern congressional district is not only un-American, it violates Montanans' sense of fairness and philosophy of treating our neighbors with respect.

Al Olszewski is a Republican candidate for Montana's second U.S. House seat. He lives in Kalispell

The reason no link is given is because it's not yet up on Google or Duckduckgo. It's hand-typed verbatim, and you can verify that by comparing it to the actual article.

This article makes the issue simple enough to understand. It's good that the article appeared in time for Montanans to still get onboard with the Helena redistricting session on Saturday, 10/30. The meeting is at 9:30 AM. If this concerns you, as a Montanan, you can make sure that you're heard, either by showing up in person, or by emailing the redistriction commissioners, or by zoom. The following has been making the rounds, and bears repeating. This issue is very important, important enough to take time to address it personally. Flathead area people can still reserve a bus seat, at least as far as I know.

Non-Montanans are invited to see how the Democrats operate. This is not new in most states.

Here is the info you need if you want to say something:

Remote Participation Request ♦ MDAC Bus or Zoom

MT-MDAC-21-1688-B-001599

<https://mtredistricting.gov/remote-participation-request/> This is the link to get a spot on the zoom for the Saturday meeting on the redistricting map for House districts

There are several ways you can help:

1. Attend the next Districting and Apportionment Commission meeting "In-Person" on Saturday, October 30, 2021 @ 9:30 AM in the State Capitol, Room 102 and deliver your short (30 second) testimony to the Commissioners. (Talking points will be provided for you)

A bus has been chartered for Helena and the cost is FREE.

There are only 55 seats available on a "first call first served" basis but we need firm confirmation from each person.

Call John O'Neil at (406) 755-5714 or Lauralee O'Neil at (406) 407-5639 to reserve your seat and get more details.

Meet @ the Red Lion Inn parking lot in Kalispell at 4 AM on Saturday October 30, 2021 for the "ride of your life".

2. Send an email to the Chair and Commissioners here: [districting@mt.gov](mailto:districting@mt.gov)

(suggested comments below)

3. Send the same e-mail directly to the Chair and Commissioners:

[Maylinn.Smith@mtleg.gov](mailto:Maylinn.Smith@mtleg.gov), [Jeff.Essmann@mtleg.gov](mailto:Jeff.Essmann@mtleg.gov), [Joe.Lamson@mtleg.gov](mailto:Joe.Lamson@mtleg.gov), [Dan.Stusek@mtleg.gov](mailto:Dan.Stusek@mtleg.gov), [Kendra.Miller@mtleg.gov](mailto:Kendra.Miller@mtleg.gov)

(suggested comments below)

4. Send the same comments directly to the Commissioners through their website:

<https://mtredistricting.gov/contact/>

(suggested comments below)

Subject: Congressional Redistricting Map

Chair Smith and Commissioners,

The two newly proposed maps (CP-10 and CP-11) are terrible maps as they are based on trying to carve out specific party districts and do not comply with Montana statutes and constitutional requirements.

Please throw out these two new maps and select map CP-1 as it's the best map that adheres to the law.

Thank you for your consideration.

Your Name, Address, Phone Number & d Email Address (this is required information)

5. Provide comments on the interactive maps for CP-10 or CP-11 by clicking below and following the directions:

<https://mtredistricting.gov/congressional-maps-proposed-by-the-commission/>

**From:** eric knutson <ericknutson007@gmail.com>**Date:** November 10, 2021 at 10:52:28 AM MST**To:** undisclosed-recipients;

This will be long, but hopefully readable.

With close to ten months into the Brandon (Biden) "administration", we have open borders, higher gas prices, supply line issues, rising inflation, to name the real issues, and we're told we all need to get vaccinated before things return to normal. Hmmm. Doesn't that sound fishy to you? Of course it is. These conditions mean things are going well only to a communist. Do you really think these Democrats, and a good number of Republicans too, are simply "ignorant", or "uninformed", about economics? They know exactly what they're doing, which is why they adopted this policy of stimulus checks for "unemployed" people. When you get to the point where there are plenty of jobs, and people still aren't working, you know it has to be because their "government money" makes work unnecessary for them, and that's exactly how the USA can be driven to bankruptcy, and ultimate dependence on Nations like China and Russia. Unearned "government money" leads only to decreasing supply, increasing demand, and higher and higher and higher prices. The law of supply and demand always kicks in. That's how we know that when they spout things like "redistribution of wealth", it sounds good, but in the real world, it always leads to redistribution of poverty. It's simple greed, power mongering, political thievery, which have always been the traits of Democrats, but when they tell us we have to get vaxxed before things will get better, it's unmistakable tyranny. The liberal colleges don't seem to teach something so simple. And Washington Republicans say NOTHING, and they do NOTHING. In fairness, some of them are verbally naking some overtures, but do they really mean it, or do they just know it's safe for them to say the "right thing" when they know nothing will ever change. That's how Rino candidates "took back" the House in 2010, promising to repeal Obamacare, knowing all the while that Obama would never sign anything. These Rinos are DEVIOUS. At least the Dems have some transparency about their in-your-face corruption.

I still tune in to Fox News, and yesterday, Nov 9, Molly Hemingway had it right when she called the Republicans out for not doing what they should do. This is why I still watch Fox. Some of them actually get it right, but one still has to be careful. There's talk of a "red wave" in 2022. Oh boy. A majority of Rinos? The good part of this is that we see the people are waking up, but this has happened before, and the Rinos makes promises that never materialize. This is what was so appealing about Trump. He was rude, yes, but he didn't care which Party he aimed his "rudeness" at, and the majority of us knew he spoke for us. Majority? Yes. I believe he actually won the popular vote in 2016 if the votes were counted on a one-vote-per-registered-voter basis. I believe there was fraud, intended to get HRC "elected", but the number of Trump votes broke the algorithm that was in place then. It's the only thing that explains the shock we saw in the media. Do you really think anything else accounts for that? They can hate him all they want, but there was real shock and disbelief. I believe that only fraud, systematic electronic and old-style organic fraud, intended to sweep queen Hillary, who called us deplorables, into office, would account for that. If I've missed something, tell me what that is. Therefore, it only stands to reason that fraud was doubled down on in 2020. You can call it conspiracy theory, but there are just too many things pointing to it to call it coincidence. For a bit of background, Anthony Fauci said, in his keynote address on pandemic preparedness at Georgetown U, on Jan 10, 2017, that the Trump administration would get a "surprise outbreak". Jan 10, 2017. That's ten days before Trump was inaugurated, and 2-1/2 years before covid hit. I have the video. I have the video. Repeat, I have the video. He knew it was coming. That alone blows any theory about "naturally jumping from bats to humans" out of the water. Or did the bats tell him? And we've since learned

MT-MDAC-21-1688-B-001601

about Fauci's lies concerning NIH funding of the gain-of-function research in the Wuhan labs. What more do you need to know that this pandemic is a plandemic, engineered by some not-so-nice people. This happened in China. Hello. The NIH was financially involved. Why? What good purpose is served by clandestine involvement in developing a new coronavirus? Whether it was intended or not, the covid fear mongering resulted in unconstitutional voting laws in the swing states. Doesn't that raise a flag? Of course it does. That alone should have been sufficient to challenge the delegates on Jan 6, but no, there was an "insurrection", allegedly organized by Trump himself, that resulted in the House "certifying" Brandon in the dead of night. And the Senate Republicans said NOTHING. We've since seen that Trump did nothing to incite anything, hence the deep state and the media were pushing their own conspiracy theory. Did you buy into that one? Most of us now know there was no real insurrection anyway, unless it was engineering by the deep state to cast further accusations against President Trump. Has this escaped your attention, because you watch only CBS?

I've used the current state of things in the USA to point out why I think there was fraud in 2020. So far I've touched on covid as a possible way to establish control over the people, through fear. Does that prove fraud? no, but it certainly suggests the deep state have no scruples whatsoever. Are there other factors that point to fraud?

\*Organic fraud has been going on for a long time now. Fraud is used in elections. Democracy, the favorite word of Democrats, is not really represented, no matter which side of the fence you're on. All that's different now is that technology has made electronic fraud much more practical (safer). If you know that fraud has always been used, why would you doubt that maybe the 2020 election was stolen? Do you think W stole Florida in 2000? I think so. The only real difference is that before Trump came along, all we had were "choices" between hand-picked deep state "candidates". In other words, the fraud was irrelevant as to who got "elected", because establishment R and D are no different when it comes to "protecting" individual liberty. They want us ALL under their collective thumb. Then, when Trump got elected, things got messy for the deep state. There's some pushback being done "by the book", but it's happening veeeeeeeery slowly. Maybe too slowly. All I know is, Trump drew crowds of 50,000 in cornfields, and Brandon couldn't get 500 in major cities. He stayed in his basement. I think the fix was in, so he knew he didn't have to campaign. This is why I don't think the GOP will take back control in 2022. We'll see.

I'll get to Trump at the end of this.

\*There are plenty of reports about voting irregularities, enough to possibly swing the results, but these are dismissed as conspiracy theories, the favorite tactic of the deep state. The "Russia collusion" turned out to be something engineered by HRC herself. It's a conspiracy theory by whose standard? Here's a case in point, the 23,000 voters in Wisconsin with the same phone number. That's an obvious irregularity that needs to be investigated, but the explanation here, <https://leadstories.com/hoax-alert/2021/10/fact-check-23000-voters-registered-with-same-wisconsin-number-not-proof-of-election-fraud.html> attributes it to a "glitch". That fails to disprove anything, and in fact, only confirms the claim of 23,000 with the same phone number. It needs to be looked into. Before 2022.

\*The obvious desperation of the deep state to eliminate Donald Trump from society altogether speaks volumes. It doesn't prove voter fraud, but it surely says the Democrats/deep state would sink to that level, because voter fraud is pretty well established, and has been for decades.

\*The results of Seth Keshel and others are illuminating to everyone except for those who watch only CBS. Some people actually watch MSNBC. Wow.

\*The mere suggestion that fraud occurred in Counties that went Trump is met with resentment from election officials, who hold themselves "above reproach", for believing that the voting tabulators can't be connected to the internet. The verdict is still out on that in my locale, but it's going slooooooow.

\*We're told the 2020 election is the safest and most secure in history. You really believe that one? The only way that's true is if it's the safest to get the Democrat trifecta. Something's definitely fishy here.

\*We're getting reports of more States than just Arizona who are demanding audits.

\*There are reports that SCOTUS is willing to at least hear some of these cases. Voter integrity is at stake here, and if the perpetrators can prevent it or stall it long enough, they will remain "in power" unless it gets fixed before 2022.

I understand, there's no actual bulletproof proof of fraud that would overturn anything, but there are sufficient irregularities to demand audits, and it's odds on that any fraud would have favored Brandon (anyone but Trump), and it keeps getting dismissed by those who call it the safest election in history. It stinks to high heaven.

I said I'd address Trump.

Up 'til the plandemic, he delivered and delivered and kept delivering on his campaign promises. That's near unprecedented. Does that offend you? Why, when all the Democrats and most Republicans did was to try anything, by hook or by crook, to get rid of him. Then came the plandemic, and his handling of covid is a question mark, but there's nothing to actually show he's complicit. I'm cynical enough to think he might be, but the attitude of the deep state toward him gives him the benefit of the doubt. He couldn't really have handled it any differently and maintain any "credibility". And now he's in the news again, despite attempts to make sure he's irrelevant. I give him no chance of winning in 2024 unless voter fraud is properly addressed.

MT-MDAC-21-1688-B-001602

before then. It will just be a repeat of 2020. We may see proof of that in 2022 if the Democrats keep control of both chambers despite Brandon's sinking numbers. The people want a return to a good economy, and jobs, etc, and they want Trump or someone like him. We'll see how 2022 goes.

Here are three links, all from Google, about the Montana redistricting due to enough people moving here to require an additional House Rep. Montana is generally red (reddish purple), and the deep state has Montana in it's sights, and this took participation by a lot of citizens to swing things. Our thanks to Maylinn Smith and Debbie Churchill. This activism will work in any State if enough people get involved.

<https://abcnews.go.com/Politics/wireStory/dems-disappointed-final-montana-congressional-districts-81066887>

<https://nbcmontana.com/news/local/dems-disappointed-with-final-montana-congressional-districts>

<https://flatheadbeacon.com/2021/11/09/dems-disappointed-with-final-montana-congressional-districts/>

And it appears that officials are starting to pay attention to these voting tabulators, thanks again to people rising up and demanding action. That can work in any State, but people need to speak up. This is about voter integrity. If that's ignored, democracy is only a meaningless word to exploit the people, which is what modern politicians nearly uniformly do in Washington. If Chuck Schumer set foot on my property, he'd be escorted off at gunpoint.

Sen. Bennett and Rep. Running Wolf,

Wanted to get us all on the same email thread. It sounds like you two are on the free conference committee tomorrow morning with this bizarre, unconstitutional bill. Joe wrote an excellent litigation summary last summer about the unconstitutionality of the Legislature encroaching on the independent redistricting commission's powers laid out in the Montana Constitution. The summary is attached.

There is absolutely no reason to debate any of the content of the criteria they are trying to adopt because they have no authority to adopt criteria. Whether any of the specific criteria are good, bad, or neutral is irrelevant. Legislators, just like all members of the public, are welcome to submit recommendations to the Districting and Apportionment Commission on discretionary criteria, but the Legislature has no authority to pass criteria as legislation. This gross overreach to restrict the independent commission has already been deemed unconstitutional. Since Montanans haven't amended the Constitution to change Article V, Section 14, it's still unconstitutional.

This is a blatant partisan power grab, and it's exactly why Montana was one of the first states in the country to lay out an independent commission structure and remove the process of redistricting from the Legislature.

Please feel free to reach out if you have any questions. My cell is (406) 590-4966 and Joe's is (406) 202-2636. Republicans definitely know this is unconstitutional, so all I can assume is that it's a stunt to get attention from the press who they are hoping will give them a platform for their thoughts on redistricting.

Wanted to follow up on this since it sounds like it *may* be on the floor today. Bryce got the legal review note (Thank you, Bryce!) and it is attached. Among other things, it says "LC 330 mandates the specific ranking of redistricting criteria and specifies certain definitions for redistricting criteria specified by the Montana Constitution, rather than making recommendations. This is inconsistent with the Montana Supreme Court's analysis that the Commission has the responsibility for creating a redistricting plan, and afterward, it may receive "recommendations" from the Legislature pursuant to Article V, section 14."

In committee it seemed as if Republicans know the bill is unconstitutional and aren't even going to try to defend it as constitutional, instead opting to say that "it is sending a message." In what universe is that a responsible use of the Legislature's authority, time, and tax-payer money, to pass a law that they recognize in advance is unconstitutional because they would like to "send a message" to an independent body with plain and clear constitutional authority over redistricting in Montana? The Districting and Apportionment has previously held and plans to hold numerous public hearings throughout the process of redistricting, as previous Commissions have done. That is the appropriate place for public comment on redistricting criteria and legislators are welcome to attend those hearings or send in their public comments.

On the floor, I think it would be helpful to ask something along the lines of:

**Question:** Can you show me in the [Montana's Constitution](#) any language that gives the Legislature any power in redistricting beyond 1. Appointing four of the five commissioners, and 2. Making *recommendations* on a legislative map after the commission has submitted the plan to the Legislature?

**Answer:** Blah blah blah, it's not in there but we're doing it anyways because we're drunk with power and "sending a message."

**Follow-Up:** So despite the fact that previous legislation attempting to interfere and usurp the authority of the independent redistricting commission has been struck down by the Courts and upheld by two unanimous Supreme Court decisions, you would like this body to pass legislation that we know is unconstitutional as some sort of a partisan political statement?

**Answer:** Yes, that's exactly what we're doing here because we have no respect for the Montana Constitution or separation of powers.

**Speak to the Bill:** Three Attorney Generals have affirmed the Commission's independence from unconstitutional interference by the Legislature, including most recently Republican Attorney General Tim Fox and Solicitor General Lawrence VanDyke during the last round of redistricting in 2013. And there have been three District Court decisions and two *unanimous* Supreme Court decisions striking down attempts by the Legislature to limit the independence of the independent redistricting commission. The independent commission has a process for establishing redistricting criteria. They hold public hearings and accept public comment from all Montanans, including legislators who might have thoughts or opinions. The Legislature has no authority whatsoever to legislate redistricting criteria.

Bryce noted that Sen. Fitzpatrick can be slippery with questions, so maybe the House is the better place for questions, but I don't know how Fitzpatrick would answer these questions either other than to use the term "gerrymandering" lots of times over and over. I don't know what they think gerrymandering means, but it doesn't mean districts they don't like. Gerrymandering is manipulating district boundaries to unduly favor a political party or establish an unfair political advantage. It shouldn't be lost on anyone that while they use the term a lot, their bill doesn't actually address partisan gerrymandering by advising that the commission analyze maps using partisan fairness measures or political neutrality standards. It does strange things like set an arbitrary average district length vs. average district width standard that someone just made up.

For background, since I know the Republican Legislature has shown utter disdain and lack of respect for the judiciary this session, here's what their Republican Attorney General Fox and Solicitor General VanDyke had to say about the Legislature's unconstitutional overreach in their [Cross-Motion for Summary Judgement](#) in 2013.

**Legislation attempting to limit the broad constitutional discretion of the redistricting commission, like Mont. Code Ann. gg 5-1-115(3)(a) and (d), "impermissibly conflicts with Article V, Section 14, of the Montana Constitution, and is void on that basis. "This is so because the "Montana Constitution does not authorize the legislature to interfere with the redistricting process beyond the express authority" to appoint four Commissioners and provide "recommendations." (Page 28)**

Thanks for being the voice of reason! I fully trust you and the rest of the caucus to argue the points that make the most sense and avoid messaging or questioning that you don't think is helpful, but I wanted to put this all down in writing so you can feel like you know what's going on and use your best judgement about how to approach this on the floor.

Thank you!

In the spirit of keeping everyone on the same page since Republicans have really gone off the rails on this thing, this map is being circulated around the Legislature today and they seem to be talking to as much press as possible. I had never seen this map until I was sent a picture of it this afternoon. Part of the beauty of redistricting in 2020 is that there are multiple publicly-available mapping websites that allow anyone to draw their own maps (currently with population estimates and later with real Census data when that is available). This is great for a fair and open public process because anyone can draw and submit any map to the Commission to review. It also means any maps proposed or considered by the Commission can be analyzed by any member of the public, which is great for a transparent process where the public can decide for themselves whether maps provide an unfair partisan advantage rather than relying on those with expensive software to tell them.

I just talked to a reporter who let me know that Sen. Fitzpatrick had given him a copy of this map and explained that their justification for the need to adopt the criteria in HB 506 despite it being unconstitutional is that they were able to cook up this weird map. I'm not sure how Steve Fitzpatrick getting creative on Dave's Redistricting or whatever site he used is justification for violating the Constitution to usurp the authority of an independent commission. I'm not sure what criteria or

rationale Fitzpatrick used in drawing this map or where he got it, but if he'd like to submit it to the Commission, he's more than welcome and we can review it along with any other maps submitted during this process. We would, of course, ask for a rationale for the plan and evaluate it based on the criteria that we are soon to adopt after public hearings and a public process. Interesting that, unlike the independent redistricting commission who holds public hearings before adopting criteria, Republicans gave no opportunity for the public to comment on their criteria in HB 506 when they dropped it as an amendment to a bill last night that has nothing to do with redistricting.

Bottom line is that Fitzpatrick cooking up random maps isn't a justification for the Legislature to violate the Montana Constitution.

## HB 506 Legal Memo for Press

2 messages

Kendra Miller &lt;kjaniceh@gmail.com&gt;

Tue, Apr 27, 2021 at 10:02 AM

To: nathanandrewstein@gmail.com

Cc: Hannah VanHoose &lt;hannah.vanhoose@gmail.com&gt;, Erin Loranger &lt;erin.loranger@gmail.com&gt;

Hey Nathan,

You can and should circulate Joe's memo to press concerning HB 506's unconstitutional power grab to usurp the authority of the independent redistricting commission. The document is attached.

It was discussed and is part of the public record from the June 10, 2020 Districting and Apportionment Commission meeting. You can find it here: <https://leg.mt.gov/content/Districting/2020/Meetings/June-10-2020/Minutes/June-10-2020.pdf> as Exhibit 6, but feel free to just send around the copy to anyone inquiring about the bill.

The Conclusion should be our lead. This isn't a "both sides" issue where we *believe* something is unconstitutional and they disagree. Three Attorney Generals have affirmed the Commission's independence from unconstitutional interference by the Legislature, including most recently Republican Attorney General Tim Fox and Solicitor General Lawrence VanDyke. And there have been three District Court decisions and two *unanimous* Supreme Court decisions striking down attempts by the Legislature to limit the independence of the independent redistricting commission. The commission has a process for establishing redistricting criteria. We welcome the thoughts and opinions of all Montanans on those criteria. The Legislature has no authority whatsoever to legislate redistricting criteria.

Here's some language from Attorney General Fox and Solicitor General VanDyke's [Cross-Motion for Summary Judgement](#). On page 28, they argue:

**Legislation attempting to limit the broad constitutional discretion of the redistricting commission, like Mont. Code Ann. gg 5-1-115(3)(a) and (d), "impermissibly conflicts with Article V, Section 14, of the Montana Constitution, and is void on that basis. "This is so because the "Montana Constitution does not authorize the legislature to interfere with the redistricting process beyond the express authority" to appoint four Commissioners and provide "recommendations."**

Let me know if you need anything else.

And here is the legal review note in which Todd Everts says:

"LC 330 mandates the specific ranking of redistricting criteria and specifies certain definitions for redistricting criteria specified by the Montana Constitution, rather than making recommendations. This is inconsistent with the Montana Supreme Court's analysis that the Commission has the responsibility for creating a redistricting plan, and afterward, it may receive "recommendations" from the Legislature pursuant to Article V, section 14."

Hi,

My family and I are in Missoula this weekend visiting my sister-in-law, and I wanted to see if you're around and available to sit down and chat? I'm happy take a quick drive up to Arlee and we can have coffee or whatever works best for you. If you're busy or not up for it, I completely understand. I would not blame you if you need a little break from Commission stuff 😊 If so, I'll see you next month in Helena and try to sit down with you next time I make it to Missoula. I just don't make it over this way too often, so I wanted to touch base while I'm here.

Let me know what you think and if there's a good time between now and Sunday. And, regardless, hope you have a good weekend.

## It's Official: 2 Seats for Montana!

5 messages

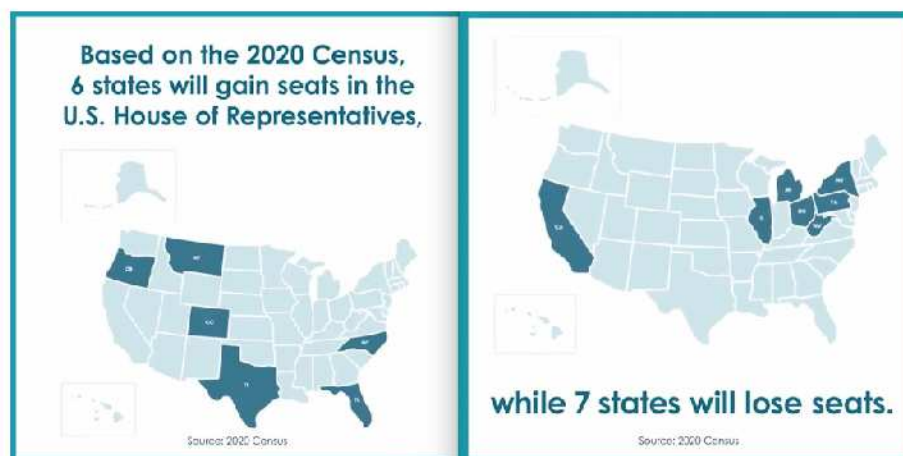

**Kendra Miller** <kjaniceh@gmail.com>  
 To: CCchairs2019@montanademocrats.org  
 Cc: Joe Lamson <joelamson49@icloud.com>

Mon, Apr 26, 2021 at 1:54 PM

Democratic Central Committee Chairs,

The Census Bureau announced apportionment numbers for the House of Representatives today and Montana will have two congressional seats for the next ten years. Doubling our representation in the House means representation on more committees and two voices to speak for our diverse communities and unique interests spread across our vast state.

Looking at the nation as a whole, the 2020 Census figures will result in 7 seats shifting among 13 different states. Six states gained congressional seats, with Texas gaining two and Montana, Oregon, Colorado, North Carolina, and Florida each gaining one seat.

Though the statewide total population figures needed to calculate apportionment are official and final today, the Census block-level data needed for redistricting purposes won't be released until August. This is the normal process and timeline of the Census Bureau to release the final statewide numbers prior to running additional quality checks on the in-state block-level data and applying differential privacy measures to the data that will be used to draw congressional and legislative districts. While the Districting and Apportionment Commission has work to do before August, the process of dividing the state into two equal population congressional districts can't happen until we receive the block-level redistricting data. Once we receive that data, the Montana Constitution provides 90 days for the Commission to adopt congressional districts. That means the two congressional districts will be in place by November 2021 for the 2022 election.

Legislative redistricting is on a separate timeline laid out in the Montana Constitution. Though we'll have the data needed to draw legislative districts in August, a new legislative map won't be adopted until early 2023 for the 2024 election. That means legislative races in 2022 will happen on the current legislative map, but new legislative districts will be in place for the 2024 election.

We'll have more news soon about the Districting and Apportionment Commission's meeting schedule over the next few months. To sign up for e-mail notices about Districting and Apportionment Commission business, [use this link](#). In the meantime, please feel free to reach out with any questions.

To: Jacob Hopkins <[jacob@montanademocrats.org](mailto:jacob@montanademocrats.org)>, [korbin@montanademocrats.org](mailto:korbin@montanademocrats.org)

Hey Jacob and Korbin,

I got a bounce back on the county chairs email that I was using before for redistricting updates. Can one of you please forward this on to Dem chairs for me or let me know what the new group email is? Thanks!

MDP Executive Board Members and Partners,

The Census Bureau announced apportionment numbers for the House of Representatives today and Montana will have two congressional seats for the next ten years. Doubling our representation in the House means representation on more committees and two voices to speak for our diverse communities and unique interests spread across our vast state.

Looking at the nation as a whole, the 2020 Census figures will result in 7 seats shifting among 13 different states. Six states gained congressional seats, with Texas gaining two and Montana, Oregon, Colorado, North Carolina, and Florida each gaining one seat.

Though the statewide total population figures needed to calculate apportionment are official and final today, the Census block-level data needed for redistricting purposes won't be released until August. This is the normal process and timeline of the Census Bureau to release the final statewide numbers prior to running additional quality checks on the in-state block-level data and applying differential privacy measures to the data that will be used to draw congressional and legislative districts. While the Districting and Apportionment Commission has work to do before August, the process of dividing the state into two equal population congressional districts can't happen until we receive the block-level redistricting data. Once we receive that data, the Montana Constitution provides 90 days for the Commission to adopt congressional districts. That means the two congressional districts will be in place by November 2021 for the 2022 election.

MT-MDAC-21-1688-B-001617

Legislative redistricting is on a separate timeline laid out in the Montana Constitution. Though we'll have the data needed to draw legislative districts in August, a new legislative map won't be adopted until early 2023 for the 2024 election. That means legislative races in 2022 will happen on the current legislative map, but new legislative districts will be in place for the 2024 election.

We'll have more news soon about the Districting and Apportionment Commission's meeting schedule over the next few months. To sign up for e-mail notices about Districting and Apportionment Commission business, [use this link](#). In the meantime, please feel free to reach out with any questions.

Rep. Stewart Peregoy,

Hope you are well and have been able to recover somewhat from the legislative session. I would understand if you need several more weeks to be fully recovered after a difficult four months.

I wanted to let you know that Jacob Hopkins will be reaching out to you soon to talk to you about redistricting and how legislators can play a role in public comment on the upcoming process and provide an important perspective. Jacob is the Montana Democratic Party's lead on redistricting and is working to make sure legislators and other allies are informed about the process and how they can help. Jacob has a (501) area code phone number so I wanted to give you a heads up since I often don't answer numbers I don't recognize.

I hope you'll be able to talk soon. It's critical that we hear from leaders in Indian Country about how redistricting impacts representation at the legislature.

Thanks for your service and advocacy during the last legislative session and throughout your career.

Rep. Flowers,

I wanted to reach out and see if you might be available this weekend or Monday evening to grab coffee and talk about redistricting since we're both here in Bozeman. We appreciate you being available to testify at the meeting on Thursday. We can talk about that and anything else you'd like to discuss about the process. I'm very flexible this weekend if you're around, and I can also do anything after 4:30 p.m. on Monday. I'll be leaving town on Tuesday for the meeting in Helena on Thursday and a few other meetings scheduled around that, so if we can't find a time before I leave, maybe we can shoot for the following week.

Please let me know what works for you. Looking forward to chatting.

Hi Kendra — Thanks for your note. Unfortunately I have company in town for the weekend and leave for Helena tomorrow morning for a two day Legislative Audit meeting. I would be happy to talk on the phone tomorrow morning sometime if that works for you or after tomorrow's meeting. Please let me know if you want to talk on the phone tomorrow.

Cheers,  
Pat

That works for me. I'll actually be in Helena on Tuesday if you wanted to meet up after your Legislative Audit meeting that day. After two days in meetings though, I definitely understand if you want to just head back to Bozeman when you finish up on Tuesday. If that's the case, a phone call on Monday night works well. I can do anytime in the evening.

Let me know what works for you. I also just noticed that I called you Rep. instead of Senator in the first email. Sorry about that 😊

That's some spooky shit. Jacob, on the most recently posted video, can you clip from 1:09:00 to 1:32:50?

Joe, I was trying to skip around on the second video with the map and the creepy fake cowboy, but I can't do it anymore after hearing that psycho say that his Uncle died from the COVID vaccine. Is there anything about redistricting on that video, or is it just the first one with Skees?

Here's the election data Nelson gave us on the GOP Redistricting Committee's map. Can't tell if it's exactly the same as CP 1 that Dan proposed or not but looks to be. I thought Nelson said he drew it on Dave's, but Dave's doesn't even have 2012 election data. Wonder who drew it. The National Republican Gerrymandering Trust? That would explain why they are convinced that Bozeman has such a strong community of interest with the rural Eastern prairies. You might think that if you've never stepped foot in Montana.

This is a good article. Just one law after another chipping away at voting rights. Revamped BIPA, eliminating Election Day reg...for what? Even when they are winning elections, the fear of people voting is deeply ingrained. Easier to just limit who votes I guess and not have to worry about how the next generation might vote.

Hey Kendra! It's Faith Scow. Aside from my role at MFPE I am also the Chair of the Central Committee in Butte! I wanted to reach out to see if you would be available to Zoom in on October 6th to give our group a run-down on how redistricting works and your role in that process. We can be pretty flexible on time since it will be virtual.

Let me know what you think, thanks!

Thanks Kendra,

We look forward to the presentation. We'll work on getting the word out to the local Dems. We typically try to promote the talk with social media posts, emails, and a direct mail post card to some of our members, and we're like to have a title or description of the talk to use as we promote the event. Will you please help me out with that and provide a title and/or brief description on what you plan to discuss?

Thanks for agreeing to do this, and we'll be in touch as we get closer to the presentation with the Zoom info, etc. If you have any questions about the Burros Club, the BSB Dems, or the format/structure of the presentation, don't hesitate to ask. This email is the best way to contact me.

Leo

Kendra,

Hello! I am the Treasurer for the Central Committee and on a board member for the Butte Burros as well. I am assisting the team with getting the information out and we need to get postcards mailed asap. Could you let me know if this looks/sounds good to you? If you have a better photo/headshot, please send it to me. (That was the best I could do from cyber-stalking).

Also, if you would like to change the blurb on what we'll be discussing, go ahead and send any edits back.

**The link to the call will be at:** <https://bit.ly/burrosoct>

We will shoot to hop on 10-15 min early to test video/audio and to make you a host.

Thank you!

Cassandra

Hi Cassandra.

If you can pull down this photo from our website, it might be better quality: <https://mtredistricting.gov/about/>. If that is a pain, feel free to use the one you have. There is also a group photo of the Commission.

A few small edits below. If you run out of room and need to cut or want to edit, feel free. Let me know if you need anything else!

#### A Zoom Meeting with Commissioner Kendra Miller

After 30 years of a single at-large congressional district for the state of Montana, we learned in April that Montana will once again send two representatives to the U.S. House for the next decade. Join Kendra Miller, Democratic appointee to the Montana Districting & Apportionment Commission, to discuss the process for adopting the new congressional map this fall and legislative map next year. She'll provide an overview of the critical work of Montana's 5-member, independent Commission tasked with drawing congressional and legislative lines and explain how the public can weigh in and ensure fair maps for our state. For more information on the redistricting process in Montana, visit [mtredistricting.gov](https://mtredistricting.gov).

Hi Kendra,

Good question... we usually shoot for a 20-30 minute presentation, leaving 10-15 mins for questions. This meeting is our first on Zoom, but I would like to generally follow our past meeting structure with a few modifications. Here is how I see the meeting progressing:

- Let's log in around 6:45-6:50 for a tech check. Faith and Cass will moderate the zoom meeting—mute/unmute folks, make us presenters, etc. So, I think it's good to have the four of us logged in a few minutes early.
- I'd like to start the meeting promptly at 7:00pm and say a few words as folks join in... make some announcements, etc. I expect this to run a little longer than normal, maybe 10 minutes or so.
- Then, I'll do a quick intro of Kendra and turn it over to her. Kendra, can you send me a brief bio intro that you'd like me to use?
- Then, we have the main presentation 20-30 mins, followed by the Q&A and we should be wrapped by 8:15 at the latest.

How does that work for everyone? Please let me know.

Cassie and Faith, I'll be in touch to discuss my intro and get your input there. Then Kendra, if you just send me the bio/into info, we'll be all set.

Thanks,

This all sounds good to me. Below is an intro for me. Let me know if you need anything else. See you on Wednesday!

Kendra Miller is one of two Democratic appointees to Montana's independent Districting and Apportionment Commission, the body tasked with drawing Montana's two congressional districts and 150 legislative districts that will be in place for the next decade. Kendra grew up on a farm north of Choteau and graduated from the University of Montana before joining the world of politics as a field organizer working on legislative races. She worked on redistricting ten years ago and served as Data Director for the Montana Democratic Party and the Montana Votes table before moving into independent data consulting work. Kendra and her husband, Drew, have lived in Bozeman for the last seven years where they spend most of their time trying to keep up with their two active kids.

Wow! Jeff and Dan are much better map drawers than I thought if they came up with a district that is 56-58% D. Is their main point that the Montana Republican Party sometimes runs weak candidates who substantially underperform their presidential candidates?

I'm not sure how a district that has been won half of the time by a Democrat and half of the time by a Republican is unfair to them. But I suppose if you plan to run extremists, there is sometimes opportunity for a Tester or a Bullock to pick off Republican voters. What does that say about them and their party if they can acknowledge that the baseline presidential numbers give them somewhere around a 15 point advantage and they still can't beat Jon Tester? But I appreciate that they used the term "average Republican voting strength." We can absolutely use an average to calculate competitiveness.

Also pretty clear that they have zero intention of complying with our criteria on competitiveness and not unduly favoring their party. Weird how they voted for it in July. I guess this is what running to the Right looks like when you're terrified of your base.

I can see where Jeff gets his figures on political subdivisions. From this NCSL cart. However the chart includes Montana as having it as a required criteria. I think we need to dig a little deeper and go to a sampling of state redistricting websites.

Both Pennsylvania and North Carolina "require" the following of political subdivisions and both states had maps struck down for egregious partisan gerrymanders that violated their free and fair elections clauses and had to be redrawn by Courts mid-decade. So if Montana is an "outlier," maybe that's a good thing.

Hey Jacob,

Can you send Joe and I a spreadsheet with the raw number population estimates on the current 100 HDs? I know the estimates could end up varying quite a bit from what we actually get in August, but I'd like to get a sense of which districts are likely to be most under and overpopulated.

Thanks!

Not my fanciest 😊 Maptitude is much prettier than QGIS, but here's a visual to go with the estimates for the current HDs. Purple is underpopulated and green overpopulated. Missoula, Yellowstone, and L&C might be a little overpopulated when we get the real figures, but since these are estimates and we really don't know how accurate they will end up being, I categorized them as roughly matching the statewide growth rate. There's definitely variation within counties from seat to seat, though, which is good to look at. Though we know these are estimates and it's hard to know what the official numbers will look like, I think it's safe to say that the highly underpopulated and highly overpopulated seats will ultimately be under and overpopulated when we get the official data. Will be interesting to see how much all of the other estimates line up.

I'm anticipating that we should be seeing a little bit more population than these estimates in Helena, Missoula, and Gallatin. I ran the numbers across states comparing the 2020 Census Estimates with the actual counts used for apportionment, and correlated it with the educational attainment rate. It ended up explaining around 20% of the variance in the percentage miss. I wouldn't be surprised if there were an overcount of college educated voters and an undercount of everyone else.

Very interesting. Did you think there was variance related to the percentage of Hispanic population in the state? With big misses in AZ, TX, and FL, it seems likely to me that there were undercounts of undocumented immigrants, but maybe that was not the case outside of a few states.

To: "Joe Lamson (joelamson49@icloud.com)" &lt;joelamson49@icloud.com&gt;, "kjaniceh@gmail.com" &lt;kjaniceh@gmail.com&gt;

Cc: "dstusek@gmail.com" &lt;dstusek@gmail.com&gt;

Good afternoon, we have attached a proposal for review. We have included election results using an updated list of 19 races based off the list Commissioner Miller provided during our previous meeting. We have substituted the 2017 US House race for the two 2014 races. We believe this is a more accurate representation as 2014 races are excluded from analysis in national models and the 2017 House race is relevant as it involves the same race we are drawing and is more recent. Based on previous competitiveness criteria presented, both our proposal and CP 11 would include 15 of 19 races with the +/- 5% deviation. This allows Flathead County to be kept whole while also keeping Gallatin County whole and placing both in a western district. We believe this is a fair compromise. Please consider and advise us on whether this is something you would consider for approval.

The first attachment above include the summary of the election results and our analysis. The second is the breakdown of the raw vote totals from the precincts in Pondera that would be included in the West district.

<https://davesredistricting.org/join/c205cdff-03db-4efb-b2c5-f57053b58e49>

Sincerely,

Dan and Jeff

Hi y'all,

Here's this spreadsheet that Kendra and I have been working on to document the public map submissions. (Thanks for the help Kendra). I'll be adding more columns with stats in the next few days, but wanted to send it off to y'all if you wanted to add columns with your own notes.

I got 168 duplicates (flagged in yellow) and then everything in purple in the first column is what I thought was unique and didn't have obvious major issues like massive pop equality issues or noncontiguous. Let me know if you catch where I missed something or any other duplicates. It's hard to tell for sure with some of the people who took a picture of a paper map or didn't include any population figures when forwarding someone else's map. I found 40+ unique maps.

Glorious! Thanks for all the good work.

Wow. 40+ original maps. I hope Karen doesn't hear there's that much original thought still bouncing around Montana.

The Commission is anticipating adopting a tentative final plan on Saturday and then will hold a hearing on that plan on November 4th. We also have November 9th held for a meeting, if need be. Thus, the earliest a final plan would be adopted is the 4th and the latest the 9th.

Hi Jessica,

I drop my son off for school right at that time. Any chance you could push me to like 8:20? If not, I can check with my husband to see if he could do drop-off and be a little late to work, but if it's at all possible to have me go even 10 or 15 minutes later, that would be really appreciated. Sorry this is such a pain to schedule, but I'm happy to give an update from the meeting Saturday and inform the public how they can weigh in at or before the next meeting on November 4th.

## Redistricting Convo with Legislators

5 messages

Kendra Miller &lt;kjaniceh@gmail.com&gt;

Cc: Joe Lamson <joelamson49@icloud.com>, Jacob Hopkins <jacob@montanademocrats.org>

Hi All,

Joe and I wanted to touch base about scheduling an opportunity in January for us plus Jacob to talk to legislators about redistricting. We're pretty open to whatever you think works, but I'm thinking a Zoom on an evening weeknight makes the most sense for availability of the most people. We can provide an update on where we're at, what timeline we are anticipating for legislative redistricting this coming year, take questions, hear feedback, etc.

As far as timeline for next year, we are currently looking at our next Commission meeting being early March. We moved forward today with issuing an RFP for a contractor to assist us in reallocation of inmate data for legislative redistricting (one of the two projects we asked Legislative Council for funding for). The other RFP will go out if/when Legislative Council approves the funding we need for racial bloc voting analysis to help tell us how to comply with the Voting Rights Act. Those projects will not be done before April 1st, so it's unlikely we would have any sort of hearings on potential draft maps until late spring or summer. So because of this reallocation work that needs to be completed before we'll have the adjusted Census data, public engagement in the redistricting process (i.e., hearings) will not be happening until May or June at the earliest. We certainly want to be talking to you regularly over the next few months leading up to this, but I want to note that general timeline so people understand that the Commission won't have many meetings early in the year, and we wouldn't adopt a tentative legislative map until late summer or even fall. That tentative plan would then be submitted to the Legislature in January 2023 for recommendations before final adoption.

Please let us know what you think might work for scheduling a Zoom in January that would allow as many legislators as are interested to attend. If there are certain weeks or dates that you know should be out of consideration, we can start there too and then do a Doodle poll.

Hi Kendra,

Thanks for asking! I think our folks would really appreciate that. We do have a monthly meeting with the House caucus to just check in/touch base, our January meeting is scheduled for Sunday, Jan. 9th at 8p. If that would work for you and Joe, I can talk to Rep. Marler who's our caucus chair about inviting you to that and you could present that info (and whatever else you'd like) to the House side. Let me know what you think and I can get the ball rolling on that.

Thanks again!

Hannah

Hi Mary,

Yes, the Gallatin Dems put together an excellent website! Sending in written comment is great. If you're able to testify on Tuesday (19th), we could really use verbal testimony as well. There is a Zoom option or in-person at the Capitol (starts at 10 a.m. and will probably go for most of the day). If you're free that day and interested, I'll connect you with Jacob at the Party and he can answer any questions.

## Redistricting News & Meeting Info

2 messages

Kendra Miller &lt;kjaniceh@gmail.com&gt;

Wed, Jun 30, 2021 at 8:10 AM

To: chairs@montanademocrats.org

Cc: Joe Lamson &lt;joelamson49@icloud.com&gt;, Jacob Hopkins &lt;jacob@montanademocrats.org&gt;

Central Committee Chairs,

As we head into two important redistricting meetings next week, we wanted to lift up this excellent opinion editorial by two former Democratic Districting and Apportionment Commissioners, Sheila Rice and Carol Williams, about the importance of adopting fair criteria in the redistricting process. Commissioner Rice of Great Falls served on the 2000 Districting and Apportionment Commission, and Commissioner and former Senate Minority Leader Carol Williams of Missoula served on the 2010 Commission. We appreciate them using their experiences and voices to weigh in on this important issue: [Montanans Deserve Fair and Competitive Congressional and Legislative Districts | Helena IR](#).

Additionally, for those interested in the meetings next week, you can find the agendas here, with directions on how to participate via Zoom if you wish to provide public comment: [Agenda - July 8th & 9th](#). You can also [listen in live](#) next Thursday and Friday.

Lastly, though many of you have already interfaced with him (and, no doubt, been impressed), we also want to introduce you to Jacob Hopkins and make sure you have his contact info. Jacob is leading redistricting efforts for the Montana Democratic Party, in addition to his other work as Data Director at MDP.

Jacob Hopkins

[jacob@montanademocrats.org](mailto:jacob@montanademocrats.org)

(501) 944-9864

Please feel free to reach out to Jacob with any questions, thoughts, or interest in redistricting. He keeps us organized, and, amazingly, we've found the one person in the state who likes talking redistricting as much as the two of us 😊

Hope you all enjoy a wonderful 4th of July weekend!

-Commissioners Kendra Miller & Joe Lamson

Democratic Legislators,

As we head into two important redistricting meetings next week, we wanted to lift up this excellent opinion editorial by two former Democratic Districting and Apportionment Commissioners, Sheila Rice and Carol Williams, about the importance of adopting fair criteria in the redistricting process. Commissioner Rice of Great Falls served on the 2000 Districting and Apportionment Commission, and Commissioner and former Senate Minority Leader Carol Williams of Missoula served on the 2010 Commission. We appreciate them using their experiences and voices to weigh in on this important issue: [Montanans Deserve Fair and Competitive Congressional and Legislative Districts | Helena IR.](#)

Additionally, for those interested in the meetings next week, you can find the agendas here, with directions on how to participate via Zoom if you wish to provide public comment: [Agenda - July 8th & 9th](#). You can also [listen in live](#) next Thursday and Friday.

Lastly, though many of you have already interfaced with him (and, no doubt, been impressed), we also want to introduce you to Jacob Hopkins and make sure you have his contact info. Jacob is leading redistricting efforts for the Montana Democratic Party, in addition to his other work as Data Director at MDP.

Jacob Hopkins

[jacob@montanademocrats.org](mailto:jacob@montanademocrats.org)

(501) 944-9864

Please feel free to reach out to Jacob with any questions, thoughts, or interest in redistricting. He keeps us organized, and, amazingly, we've found the one person in the state who likes talking redistricting as much as the two of us 😊

Hope you all enjoy a wonderful 4th of July weekend!

-Commissioners Kendra Miller & Joe Lamson

Democratic Legislators,

We wanted to give you a brief update on redistricting and some Districting and Apportionment Commission news. Earlier this month, Chairwoman Sheila Stearns resigned from her role as the presiding officer of the Commission due to health reasons. In addition to her extensive background as a leader and consensus-builder in education, Chairwoman Stearns brought patience, intelligence, and wit to her role as chair. Her leadership will be greatly missed by the Commission, but we understand her need to focus on her health and wish her a complete recovery.

Pursuant to the Montana Constitution, the Montana Supreme Court is tasked with appointing a new chair to manage the critical task of redistricting. Earlier today, the Court met and appointed Dr. Maylinn Smith of Arlee as the new presiding officer of the Districting and Apportionment Commission. Dr. Smith is the Civil Prosecutor for the Confederated Salish and Kootenai Tribes and has served as a Tribal Appellate Court Justice and lower court judge. She has also served as a faculty supervisor for the Montana Innocence Project and as an associate professor at The University of Montana's Alexander Blewett III School of Law for almost 25 years, including as Clinical Supervisor and Director of the Margery Hunter Brown Indian Law Clinic.

Though we have not yet had the opportunity to meet her, it is clear from her unanimous appointment that she is highly respected both in the field of law and the legal education community. We look forward to getting to know her and working with her to achieve a fair map for Montana.

### Uncertain Census Timeline & Redistricting

In addition to this important news today, we want to keep you informed about the work that lies ahead for the Commission. We continue to adjust our redistricting timeline according to an uncertain timeline for the release of official Census data. In addition to numerous lawsuits in progress concerning the Trump Administration's mismanagement of the 2020 Census, the Census Bureau recently announced that official apportionment counts will not be available by the statutory deadline of December 31, 2020. [Leaked documents](#) have shown that several post-processing data anomalies have been discovered that will take additional time to correct. These sorts of anomalies are not unique to the 2020 Census, but they are especially relevant and problematic because the current Administration has severely condensed the requested post-processing timeline in an attempt to release apportionment counts before President Trump leaves office on January 20, 2021.

Though the timeline is fluid, given the extent of the irregularities discovered in the data thus far, the Census Bureau has estimated that in order to correct the anomalies, the earliest date that apportionment counts could be available is January 26, 2021. That timeline could continue to be extended as they work through cleaning and deduplicating the data over the next few weeks. We hope that the Census Bureau will take all the time that they need to utilize administrative records and provide the most complete and accurate Census count possible for 2020.

Over the next few months, we plan to keep you all up-to-date as a final redistricting timeline is finalized. Currently, the Commission is still working on what our schedule might look like for the spring and public participation. The Commission is committed to holding a public hearing on the redistricting criteria that we will use to draw maps. Though that could happen as early as February 2021, the Census delays likely provide more time for that process. Logistically, it may make more sense to engage the public and increase public participation by holding that hearing after the Legislative session is complete.

In addition, if Montana gains a second congressional district through the apportionment process, the Commission will have 90 days from the time the data is released to finalize a congressional map. We'll be sure to keep you informed as we have a clear timeline for that and public hearings are scheduled, but we would currently expect that to happen in the late spring or summer.

For more information about the upcoming redistricting process, feel free to visit the Commission website: <https://leg.mt.gov/districting/2020-commission/>. To sign up for e-mail notices about Districting and Apportionment Commission business, [use this link](#).

Please feel free to reach out to either of us with any questions. Happy holidays!

-Commissioners Kendra Miller & Joe Lamson

Hi Rep. Fern,

If Montana gets a second congressional district (we'll likely know in January or February), those two congressional seats will be in place for the 2022 election. But the legislative redistricting process is longer and will go through 2022. The new legislative districts won't be in place until the 2024 election, so we have one more cycle with the current legislative districts.

Kendra & Joe,

Thank you for the update and for all of your good work to-date. While I am ending my tenure as a member of the legislature at the end of the year, I would request that you please keep me on your email list so I can stay in the loop. Given my involvement with the census process through MNA, and my new role as a Gallatin County Commissioner, I may still be of use to you. (And if not, I'd still love to be kept in the loop just for the sake of my own curiosity.)

Be well, and Happy Holidays to you and yours.

Zach Brown  
Candidate, Gallatin County Commission 2020  
Representative, House District 63: *Southwest Bozeman, including the campus of Montana State University*  
Chairman | Water Policy Interim Committee  
Vice Chair | House Taxation Committee  
Cell: (406)579-5697

Hey Kendra,

Thanks for sharing this. I really appreciate it.

I was wondering if you had any insight on how our prospects are looking for a second seat now that the dust is settling a bit. Also curious how the Supreme Court ruling on citizenship and the census might affect us here in Montana.

Thanks for your leadership on the commission.

Hi Rep. Bennett,

Unfortunately, the short answer to whether I have any insight into our likelihood of gaining a second congressional seat is no: We just really have no idea at this point. If this had been a normal Census process, the data was showing (and there

was pretty much complete agreement among the experts) that Montana would end up with two seats. So, essentially, if this had been a complete and accurate Census, we were likely to get the second district. Because this Census process was so compromised, though, I don't think anyone knows how accurate the data is going to be. We also don't know whether the inaccuracy could help or hurt our chances of being apportioned the second district. We can't see the data and we really don't know what is going on at the Census Bureau right now. Thus, it isn't that we are *less* likely to get the second seat now, it's just that we are in the dark so there isn't good data to make an informed prediction.

The more time the Bureau is given to do their job and utilize administrative records, the more confident I would be that Montana will get a second district, but at this point, there's still a lot of uncertainty (and I expect that will continue until January 20th). Once Biden is inaugurated, I don't think there will be much incentive from anyone (including Republicans in Congress) to rush the Bureau to release apportionment counts. Once Biden is in office, everyone should just want to allow the Bureau to do their job and provide the most accurate data they can. But up until that point, there continues to be this weird dynamic where Trump wants to force the Bureau to give him data that isn't ready and that is obviously going to create legal drama.

In terms of the Supreme Court's recent ruling on whether congressional seats can be apportioned based on a Census count that excludes people presumed to be undocumented, I think it was a fine ruling for us. The conservative justices basically said that there was too much uncertainty for them to rule on the issue. My assessment is that they basically punted because they don't think the data is going to be ready in time for Trump to use it so they didn't need to rule. I think this is concerning long term because they've definitely left the door open to rule on the issue in the future. It happened this time that Trump isn't in a position to execute, but this issue is sure to arise again in 2030 or 2040 if we have a Republican President in office. None of the previous apportionment estimates were based on the expectation that citizenship estimations would be used in apportionment, so the ruling doesn't change anything for us.

All in all, Montana is still very much in the running to end up with 2 congressional seats. We likely won't know until late January or February, though, and there is likely to be drama before then if Trump tries to apportion seats with incomplete data (in which case the Supreme Court will have to weigh in).

Quick update on the Census front. Yesterday, the Census Bureau released new state-by-state population estimates for 2020. These are only an *estimate* and independent of the official enumeration process, but like previous annual Census estimates, they give us a glimpse into what apportionment outcomes are most likely next month. Because of the pandemic-related challenges of the 2020 Census along with mismanagement by the Trump Administration, there remains uncertainty as to how closely Bureau estimates will match the final official Census count. In the past, however, the estimates have been very good, so we trust them to at least closely mirror the final apportionment figures.

The conclusion from yesterday's Census estimates is that Montana continues to make the cut and gain a second congressional district: [Latest Population Estimate Favors MT for Second House Seat | Missoulian](#). This is consistent with previous estimates and projections produced by the Bureau over the last few years. Though it's encouraging to see Montana in the "+1 seat" column again, we also know that, like previous estimates, Montana is making the cut-off by less than 10,000 people. In other words, it's extremely close, but we are cautiously optimistic that if the Bureau takes the time they need to complete their post-collection data processing, an accurate count will give Montana a second congressional seat.

If you'd like to read more about how the 2020 Census might impact apportionment across the country, Election Data Services released [this report](#) detailing how the new estimates differ from previous projections and how legal cases continue to contribute to some uncertainty. Based on the new estimates, however, their best projection is the below map with Montana in the light green category of +1 seat.

We'll continue to keep you in the loop as we hear more about the official Census data that will be used for redistricting.

Happy holidays!

Hi All,

The Census Bureau put out a [statement](#) today confirming what we've known for some time about their inability to meet statutory Census deadlines due to COVID-19 related delays in the enumeration process. They clarified a new schedule for releasing Census data that includes more time for quality checks before redistricting data is provided to states.

The new schedule is as follows:

**Apportionment Numbers Released: by April 30, 2021** *(this is a 4-month delay from the statutory deadline of December 31, 2020)*

- This is when we'll know for sure whether or not Montana will have two congressional districts or a single, at-large congressional district for the next decade. We will not have any official data to draw the districts at this time, but the official apportionment counts will be announced for the nation.

**Census Redistricting Data Released: by September 30, 2021** *(this is a 6-month delay from the statutory deadline of March 31, 2021)*

- This is when we'll receive the block-level Census data needed for the redistricting process and begin our work of redistricting. If Montana is apportioned two congressional seats, the Commission has 90 days to adopt congressional districts so they would be in place before the end of the year.

[NPR has reported](#) that Senate Democrats are in the process of introducing a new bill to formally extend the current statutory deadlines to bring them in line with this new timeline. Though these delays are not ideal and will likely cause problems for other states with earlier primaries and filing deadlines for 2022, we're relieved that the Biden Administration and Congress are listening to the career Census Bureau experts about their need for an extended timeline to produce the most accurate data they can.

We'll keep you in the loop as we learn more and the Districting and Apportionment Commission develops our own Montana timeline for the rest of the year. Don't hesitate to reach out if you have questions. Stay warm!

Thank you for your email; it answers questions I've had about the federal census data and the delays we might expect. Two questions: are any changes needed by the Montana Legislature (target dates, hard deadlines, etc.?) Will redistricting be done in time for the state legislative election next year (2022)?

Senator JP Pomnichowski

Cc: Joe Lamson <joelamson49@icloud.com>

Wed, Dec 16, 2020 at 5:34 PM

Democratic County Chairs,

We wanted to give you a brief update on redistricting and some Districting and Apportionment Commission news. Earlier this month, Chairwoman Sheila Stearns resigned from her role as the presiding officer of the Commission due to health reasons. In addition to her extensive background as a leader and consensus-builder in education, Chairwoman Stearns brought patience, intelligence, and wit to her role as chair. Her leadership will be greatly missed by the Commission, but we understand her need to focus on her health and wish her a complete recovery.

Pursuant to the Montana Constitution, the Montana Supreme Court is tasked with appointing a new chair to manage the critical task of redistricting. Earlier today, the Court met and appointed Dr. Maylinn Smith of Arlee as the new presiding officer of the Districting and Apportionment Commission. Dr. Smith is the Civil Prosecutor for the Confederated Salish and Kootenai Tribes and has served as a Tribal Appellate Court Justice and lower court judge. She has also served as a faculty supervisor for the Montana Innocence Project and as an associate professor at The University of Montana's Alexander Blewett III School of Law for almost 25 years, including as Clinical Supervisor and Director of the Margery Hunter Brown Indian Law Clinic.

Though we have not yet had the opportunity to meet her, it is clear from her unanimous appointment that she is highly respected both in the field of law and the legal education community. We look forward to getting to know her and working with her to achieve a fair map for Montana.

### Uncertain Census Timeline & Redistricting

In addition to this important news today, we want to keep you informed about the work that lies ahead for the Commission. We continue to adjust our redistricting timeline according to an uncertain timeline for the release of official Census data. In addition to numerous lawsuits in progress concerning the Trump Administration's mismanagement of the 2020 Census, the Census Bureau recently announced that official apportionment counts will not be available by the statutory deadline of December 31, 2020. [Leaked documents](#) have shown that several post-processing data anomalies have been discovered that will take additional time to correct. These sorts of anomalies are not unique to the 2020 Census, but they are especially relevant and problematic because the current Administration has severely condensed the requested post-processing timeline in an attempt to release apportionment counts before President Trump leaves office on January 20, 2021.

Though the timeline is fluid, given the extent of the irregularities discovered in the data thus far, the Census Bureau has estimated that in order to correct the anomalies, the earliest date that apportionment counts could be available is January 26, 2021. That timeline could continue to be extended as they work through cleaning and deduplicating the data over the next few weeks. We hope that the Census Bureau will take all the time that they need to utilize administrative records and provide the most complete and accurate Census count possible for 2020.

Over the next few months, we plan to keep you all up-to-date as a final redistricting timeline is finalized. Currently, the Commission is still working on what our schedule might look like for the spring and public participation. The Commission is committed to holding a public hearing on the redistricting criteria that we will use to draw maps. Though that could happen as early as February 2021, the Census delays likely provide more time for that process. Logistically, it may make more sense to engage the public and increase public participation by holding that hearing after the Legislative session is complete.

In addition, if Montana gains a second congressional district through the apportionment process, the Commission will have 90 days from the time the data is released to finalize a congressional map. We'll be sure to keep you informed as we have a clear timeline for that and public hearings are scheduled, but we would currently expect that to happen in the late spring or summer.

For more information about the upcoming redistricting process, feel free to visit the Commission website: <https://leg.mt.gov/districting/2020-commission/>. To sign up for e-mail notices about Districting and Apportionment Commission business, [use this link](#).

MT-MDAC-21-1688-B-001674

Please feel free to reach out to either of us with any questions. Happy holidays!

To: Kendra Miller <kjaniceh@gmail.com>, joelamson49@icloud.com

Thank you for the update. I will pass this information to our folks in Gallatin County.

Much more than that, thank you for serving as two of the five on the committee. I very much like the idea of having a Native American-affiliated person serve as the chair. I hope Sheila Sterns has a thorough recovery.

I hope the committee can do something at least a little similar to the last census where there were hearings across the state taking input. In this case, it will likely be online, but still more than one opportunity or vehicle for public comment would be good.

Thanks for being our voice and brains in the room.

Elizabeth

MDP Executive Board Members and Partners,

We wanted to give you a brief update on redistricting and some Districting and Apportionment Commission news. Earlier this month, Chairwoman Sheila Stearns resigned from her role as the presiding officer of the Commission due to health reasons. In addition to her extensive background as a leader and consensus-builder in education, Chairwoman Stearns brought patience, intelligence, and wit to her role as chair. Her leadership will be greatly missed by the Commission, but we understand her need to focus on her health and wish her a complete recovery.

Pursuant to the Montana Constitution, the Montana Supreme Court is tasked with appointing a new chair to manage the critical task of redistricting. Earlier today, the Court met and appointed Dr. Maylinn Smith of Arlee as the new presiding officer of the Districting and Apportionment Commission. Dr. Smith is the Civil Prosecutor for the Confederated Salish and Kootenai Tribes and has served as a Tribal Appellate Court Justice and lower court judge. She has also served as a faculty supervisor for the Montana Innocence Project and as an associate professor at The University of Montana's Alexander Blewett III School of Law for almost 25 years, including as Clinical Supervisor and Director of the Margery Hunter Brown Indian Law Clinic.

Though we have not yet had the opportunity to meet her, it is clear from her unanimous appointment that she is highly respected both in the field of law and the legal education community. We look forward to getting to know her and working with her to achieve a fair map for Montana.

### Uncertain Census Timeline & Redistricting

In addition to this important news today, we want to keep you informed about the work that lies ahead for the Commission. We continue to adjust our redistricting timeline according to an uncertain timeline for the release of official Census data. In addition to numerous lawsuits in progress concerning the Trump Administration's mismanagement of the 2020 Census, the Census Bureau recently announced that official apportionment counts will not be available by the statutory deadline of December 31, 2020. [Leaked documents](#) have shown that several post-processing data anomalies have been discovered that will take additional time to correct. These sorts of anomalies are not unique to the 2020 Census, but they are especially relevant and problematic because the current Administration has severely condensed the requested post-processing timeline in an attempt to release apportionment counts before President Trump leaves office on January 20, 2021.

Though the timeline is fluid, given the extent of the irregularities discovered in the data thus far, the Census Bureau has estimated that in order to correct the anomalies, the earliest date that apportionment counts could be available is January 26, 2021. That timeline could continue to be extended as they work through cleaning and deduplicating the data over the next few weeks. We hope that the Census Bureau will take all the time that they need to utilize administrative records and provide the most complete and accurate Census count possible for 2020.

Over the next few months, we plan to keep you all up-to-date as a final redistricting timeline is finalized. Currently, the Commission is still working on what our schedule might look like for the spring and public participation. The Commission is committed to holding a public hearing on the redistricting criteria that we will use to draw maps. Though that could happen as early as February 2021, the Census delays likely provide more time for that process. Logistically, it may make more sense to engage the public and increase public participation by holding that hearing after the Legislative session is complete.

MT-MDAC-21-1688-B-001679

In addition, if Montana gains a second congressional district through the apportionment process, the Commission will have 90 days from the time the data is released to finalize a congressional map. We'll be sure to keep you informed as we have a clear timeline for that and public hearings are scheduled, but we would currently expect that to happen in the late spring or summer.

For more information about the upcoming redistricting process, feel free to visit the Commission website: <https://leg.mt.gov/districting/2020-commission/>. To sign up for e-mail notices about Districting and Apportionment Commission business, [use this link](#).

Please feel free to reach out to either of us with any questions. Happy holidays!

Quick update on the Census front. Yesterday, the Census Bureau released new state-by-state population estimates for 2020. These are only an *estimate* and independent of the official enumeration process, but like previous annual Census estimates, they give us a glimpse into what apportionment outcomes are most likely next month. Because of the pandemic-related challenges of the 2020 Census along with mismanagement by the Trump Administration, there remains uncertainty as to how closely Bureau estimates will match the final official Census count. In the past, however, the estimates have been very good, so we trust them to at least closely mirror the final apportionment figures.

The conclusion from yesterday's Census estimates is that Montana continues to make the cut and gain a second congressional district: [Latest Population Estimate Favors MT for Second House Seat | Missoulia](#). This is consistent with previous estimates and projections produced by the Bureau over the last few years. Though it's encouraging to see Montana in the "+1 seat" column again, we also know that, like previous estimates, Montana is making the cut-off by less than 10,000 people. In other words, it's extremely close, but we are cautiously optimistic that if the Bureau takes the time they need to complete their post-collection data processing, an accurate count will give Montana a second congressional seat.

If you'd like to read more about how the 2020 Census might impact apportionment across the country, Election Data Services released [this report](#) detailing how the new estimates differ from previous projections and how legal cases continue to contribute to some uncertainty. Based on the new estimates, however, their best projection is the below map with Montana in the light green category of +1 seat.

We'll continue to keep you in the loop as we hear more about the official Census data that will be used for redistricting.

Happy holidays!

Hi All,

The Census Bureau put out a [statement](#) today confirming what we've known for some time about their inability to meet statutory Census deadlines due to COVID-19 related delays in the enumeration process. They clarified a new schedule for releasing Census data that includes more time for quality checks before redistricting data is provided to states.

The new schedule is as follows:

**Apportionment Numbers Released: by April 30, 2021** (*this is a 4-month delay from the statutory deadline of December 31, 2020*)

- This is when we'll know for sure whether or not Montana will have two congressional districts or a single, at-large congressional district for the next decade. We will not have any official data to draw the districts at this time, but the official apportionment counts will be announced for the nation.

**Census Redistricting Data Released: by September 30, 2021** (*this is a 6-month delay from the statutory deadline of March 31, 2021*)

- This is when we'll receive the block-level Census data needed for the redistricting process and begin our work of redistricting. If Montana is apportioned two congressional seats, the Commission has 90 days to adopt congressional districts so they would be in place before the end of the year.

[NPR has reported](#) that Senate Democrats are in the process of introducing a new bill to formally extend the current statutory deadlines to bring them in line with this new timeline. Though these delays are not ideal and will likely cause problems for other states with earlier primaries and filing deadlines for 2022, we're relieved that the Biden Administration and Congress are listening to the career Census Bureau experts about their need for an extended timeline to produce the most accurate data they can.

We'll keep you in the loop as we learn more and the Districting and Apportionment Commission develops our own Montana timeline for the rest of the year. Don't hesitate to reach out if you have questions. Stay warm!

In this [Legal Memo](#), our legislative staff attorney discusses the defending of Commission plans on pages 32 and 33.

In any event, unlike at the district court level, at the Montana Supreme Court, the Attorney General is statutorily required to "defend all causes in the supreme court in which the state or any officer of the state in the officer's official capacity is a party or in which the state has an interest."

Given that the AG is statutorily required to defend the work of the independent redistricting commission before the Montana Supreme Court, it seems inappropriate for him to thrust his extremist political ideology into this realm. Maybe he's unaware of his statutory obligations.

Regardless, I think it's clear that the AG's contempt for public comment that doesn't align with his "red wave" goals for our state makes him incapable of putting politics aside to do his job.

Very good! A few edits below:

5th Paragraph: add the word "to" -- purpose was to build

5th Paragraph: I would add the word "precise" or "exact" liking at the end -- It's clear they aren't just providing some general advice. They expect the district to be exactly how they want it or they are going to sue.

7th Paragraph: I think you should use the word "ensure" instead of "create" -- common criteria used to ensure political fairness

9th Paragraph: delete "of" so it just reads "coordinate with SOS Jacobsen"

9th Paragraph: I would change "might want to" to "should" -- little less snark, still the same point 😊

9th Paragraph: add the word "the" before Commission in the last sentence

House Rebuttal: You accidentally have Laurie listed twice instead of Kim as the second rebuttal.

To work in Jacob's point, I think you could add a sentence to your 3rd paragraph. After the sentence you have, you could add "With no adequate notice to the public, the bill was passed through a free conference committee and through both chambers on the floor in a single day." Or "in a matter of hours."

Send around the final copy, Joe, and Jacob, you should send the final to Bryce and Moffie with the TPs. They'll have more than enough for testimony.

I listened to the floor remarks this morning. Big Saturday morning for me 😊 I can confirm that Sen. Fitzpatrick did say they do not want "buck splatter" like the map they drew and distributed.

I also thought some of Sen. Hertz's comments were interesting and I think it would be good to include some of his quotes under his section in the memo. He said "This is the potential map of two Montana U.S. congressional districts" and Fitzpatrick called it one of the "proposals." I think it goes to the point that they drew up this map so they could call it a "potential map" and "proposal", even though we obviously don't have any proposals before the commission right now, nor do we even have Census data to draw potential districts. I'm indifferent whether or not you add that but just thought it was interesting listening back how they really leaned in on pretending like their map was some kind of proposal the commission was considering.

The quote I do think is worth adding is that Hertz said:

"The districts we should have should probably just match the East and West like we had our districts split before. And that's what we're hoping for. That's why we need this language in this bill."

It's clear that they wrote and ranked this criteria trying to create a specific outcome. They are "hoping" for a specific configuration and, before the commission has even adopted criteria or received Census data, they have decided what the districts "should" be.

I also liked Sen. Fitzpatrick's quote in his closing, "It's good public policy to have fair districts." I couldn't agree more, so it's curious that they avoided fairness principles in their criteria.

On to Tuesday...

I'm indifferent whether or not you add that but just thought it was interesting listening back how they really leaned in on pretending like their map was some kind of proposal the commission was considering.

The quote I do think is worth adding is that Hertz said:

"The districts we should have should probably just match the East and West like we had our districts split before. And that's what we're hoping for. That's why we need this language in this bill."

It's clear that they wrote and ranked this criteria trying to create a specific outcome. They are "hoping" for a specific configuration and, before the commission has even adopted criteria or received Census data, they have decided what the districts "should" be.

I also liked Sen. Fitzpatrick's quote in his closing, "It's good public policy to have fair districts." I couldn't agree more, so it's curious that they avoided fairness principles in their criteria.

On to Tuesday...

Very good! A few edits below:

5th Paragraph: add the word "to" -- purpose was to build

5th Paragraph: I would add the word "precise" or "exact" liking at the end -- It's clear they aren't just providing some general advice. They expect the district to be exactly how they want it or they are going to sue.

7th Paragraph: I think you should use the word "ensure" instead of "create" -- common criteria used to ensure political fairness

9th Paragraph: delete "of" so it just reads "coordinate with SOS Jacobsen"

9th Paragraph: I would change "might want to" to "should" -- little less snark, still the same point 😊

9th Paragraph: add the word "the" before Commission in the last sentence

House Rebuttal: You accidentally have Laurie listed twice instead of Kim as the second rebuttal.

To work in Jacob's point, I think you could add a sentence to your 3rd paragraph. After the sentence you have, you could add "With no adequate notice to the public, the bill was passed through a free conference committee and through both chambers on the floor in a single day." **Or** "in a matter of hours."

Send around the final copy, Joe, and Jacob, you should send the final to Bryce and Moffie with the TPs. They'll have more than enough for testimony.

I listened to the floor remarks this morning. Big Saturday morning for me 😊 I can confirm that Sen. Fitzpatrick did say they do not want "buck splatter" like the map they drew and distributed.

I also thought some of Sen. Hertz's comments were interesting and I think it would be good to include some of his quotes under his section in the memo. He said "This is the potential map of two Montana U.S. congressional districts" and Fitzpatrick called it one of the "proposals." I think it goes to the point that they drew up this map so they could call it a "potential map" and "proposal", even though we obviously don't have any proposals before the commission right now, nor do we even have Census data to draw potential districts. I'm indifferent whether or not you add that but just thought it was interesting listening back how they really leaned in on pretending like their map was some kind of proposal the commission was considering.

The quote I do think is worth adding is that Hertz said:

Thanks for the questions Eric. The constitutional question is of paramount importance for this legislation. It was one of the major reasons the Constitutional Convention was called. Three times the Montana Legislature failed to draw redistricting plans that ensured one person, one vote. The delegates, ratified by the voters, forever removed the legislature from the redistricting process except to appoint four of the commissioners and offer recommendations on the final legislative plan.

The specific problems with these "reasonable-seeming" criteria is in their mandatory ranking. The ranking is no accident. Each criterion might seem reasonable on its own. However, the cumulative results of the ranking creates a gerrymander strongly in favor of the Republicans.

All past redistricting commissions have established mandatory and discretionary criteria. HB506's first criteria 4(a) is for population equality. All past commissions have had this as a mandatory criterion. It's the reason we redistrict.

Their next criteria 4(b) recognizing political subdivisions has also long been a discretionary criterion for good reasons. At the same time HB506 raises its importance over previous mandatory criteria for contiguity 4(c) and compactness 4(d).

The political subdivision discretionary criteria suddenly has precedence over constitutionally mandated mandatory criteria. Fundamental to the redistricting task is achieving one person, one vote. What historically has complicated that process was the concentration of political power into political subdivisions that did not have the population to justify that political concentration. That continues today and why you always want to consider political subdivisions as a discretionary criterion not a mandatory criterion.

I don't know if you have seen LSD Legal review note that also raises serious constitutional problems with this amendment. I am also attaching a litigation summary that reaffirms the commission as an independent, autonomous entity free from the legislature's mandates.

Until the Constitution is changed the power for congressional and legislative redistricting remains solely within the commission. We always welcome and consider suggestions legislators and all Montanans.

Looks great. Only edit is to add the word "from" to the last sentence. I might add:

We always welcome and consider suggestions from legislators and all Montanans, and the commission has extensive opportunities for public comment on the redistricting process, adoption of redistricting criteria, and any proposed maps.

HOUSE BILL NO. 506

INTRODUCED BY P. FIELDER

BY REQUEST OF THE SECRETARY OF STATE

A BILL FOR AN ACT ENTITLED: "AN ACT GENERALLY REVISING ELECTION LAWS; ESTABLISHING PRIORITIES FOR DEVELOPMENT OF CONGRESSIONAL DISTRICTS; REVISING PROCEDURES FOR PROSPECTIVE ELECTORS TO REGISTER AND VOTE; CLARIFYING REQUIREMENTS FOR A BOARD OF COUNTY CANVASSERS; ELIMINATING THE EXPERIMENTAL USE OF VOTE SYSTEMS; AMENDING SECTIONS 5-1-115, 13-2-205, AND 13-15-401, MCA; ~~AND~~ REPEALING SECTION 13-17-105, MCA; AND PROVIDING EFFECTIVE DATES."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

**Section 1.** Section 5-1-115, MCA, is amended to read:

**"5-1-115. Redistricting criteria.** (1) Subject to federal law, legislative and congressional districts must be established on the basis of population.

(2) In the development of legislative districts, a plan is subject to the Voting Rights Act and must comply with the following criteria, in order of importance:

(a) The districts must be as equal as practicable, meaning to the greatest extent possible, within a plus or minus 1% relative deviation from the ideal population of a district as calculated from information provided by the federal decennial census. The relative deviation may be exceeded only when necessary to keep political subdivisions intact or to comply with the Voting Rights Act.

(b) District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.

(c) The districts must be contiguous, meaning that the district must be in one piece. Areas that meet

only at points of adjoining comers or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act.

(3) A district may not be drawn for the purposes of favoring a political party or an incumbent legislator or member of congress. The following data or information may not be considered in the development of a plan:

(a) addresses of incumbent legislators or members of congress;

(b) political affiliations of registered voters;

(c) partisan political voter lists; or

(d) previous election results, unless required as a remedy by a court.

(4) In the development of congressional districts and under the authority granted to the legislature by Article I, section 4, of the United States constitution, a congressional districting plan is subject to the Voting Rights Act and must comply with the following criteria, in order of importance:

(a) The districts must be as equal as practicable.

(b) District boundaries must coincide with the boundaries of political subdivisions of the state to the greatest extent possible. The number of counties and cities divided among more than one district must be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions must be divided before the less populous, unless the boundary is drawn along a county line that passes through a city.

(c) The districts must be contiguous, meaning that a district must be in one piece. Areas that meet only at points of adjoining comers or areas separated by geographical boundaries or artificial barriers that prevent transportation within a district may not be considered contiguous.

(d) The districts must be compact, meaning that the compactness of a district is greatest when the length of the district and the width of a district are equal. A district may not have an average length greater than three times the average width unless necessary to comply with the Voting Rights Act."

**Section 2.** Section 13-2-205, MCA, is amended to read:

"13-2-205. Procedure when prospective elector not qualified at time of registration. (1) An

Subject to subsection (2), an individual who is not eligible to register because of residence or age requirements but who will be eligible on or before election day may apply for voter registration pursuant to 13-2-110 and be registered subject to verification procedures established pursuant to 13-2-109.

(2) Until the individual meets residence and age requirements, a ballot SUBMITTED BY THE INDIVIDUAL may not be issued to the individual and the individual may not cast a ballot PROCESSED AND COUNTED BY THE ELECTION ADMINISTRATOR MAY NOT BE ISSUED TO THE INDIVIDUAL AND THE INDIVIDUAL MAY NOT CAST A BALLOT."

**Section 3.** Section 13-15-401, MCA, is amended to read:

"13-15-401. Governing body as board of county canvassers. (1) The governing body of a county or consolidated local government is ex officio a board of county canvassers and shall meet as the board of county canvassers at the usual meeting place of the governing body ~~within 14 days after each election~~, at a time determined by the board, to and within 14 days after each election to complete the canvass the of returns.

(2) If one or more of the members of the governing body cannot attend the meeting, the member's place must be filled by one or more county officers chosen by the remaining members of the governing body so that the board of county canvassers' membership equals the membership of the governing body.

(3) The governing body of any political subdivision in the county that participated in the election may join with the governing body of the county or consolidated local government in canvassing the votes cast at the election.

(4) The election administrator is secretary of the board of county canvassers and shall keep minutes of the meeting of the board and file them in the official records of the administrator's office."

NEW SECTION. Section 4. Repealer. The following section of the Montana Code Annotated is repealed:

13-17-105. Experimental use of voting systems.

NEW SECTION. Section 5. {standard} **Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its

1 applications, the part remains in effect in all valid applications that are severable from the invalid applications.

2  
3 **NEW SECTION. Section 6. Effective dates.** (1) Except as provided in subsection (2), [this act] is  
4 effective October 1, 2021.

5 (2) [Sections 1 and 5] are effective on passage and approval.

6 - END -

DRAFT

May 20, 2021

FR: Joe Lamson, Commissioner

RE: House and Senate Floor Debates on HB506

I thought it useful to get down precisely what were the GOP legislative leadership's expressed purposes for attempting to unconstitutionally again interject themselves now in the Congressional redistricting process.

This "transcript" includes the verbatim remarks of HB506 authors and floor managers. It also summarizes the opposition remarks of Democratic legislators.

HB506 was drafted behind closed doors by Republican leaders and passed with no public hearings the day following President Biden's announcement Montana would be receiving a second congressional district.

The GOP was repeatedly warned HB506 was in violation of Montana's Constitution and numerous precedent setting court cases. The Legislative Services Division's legal review of the amendment outlined a series of constitutional concerns raised by the amendments.

The Republicans attempted to dismiss those concerns and argued the US Constitution gave them authority over congressional redistricting. They claimed they were establishing criteria to direct the Commission on how to draw the new Congressional districts. In no uncertain terms they stated their purpose was build their case to sue the Commission in the federal courts if the Commission does not meet their demands and draw congressional districts to their liking.

The GOP "rationale" for the need to unconstitutionally insert themselves into the redistricting process was their patently fake map purporting to show plans for Democratic gerrymandering. The map was distributed out of the Senate and House GOP leadership offices and the Montana Republican Party headquarters.

Even though HB506's GOP supporters stated purpose was to stop gerrymandering there is not a single mention of gerrymandering in HB506. And none of the GOP criteria include any commonly acknowledged criteria used to create political fairness.

The heads of two other Republican executive branches have also joined the GOP legislators in attempting to interject themselves unconstitutionally into the redistricting process.

Rep. Fielder in his closing remarks verified HB506 was “coordinated” with of Secretary of State Jacobson and her legal department. The Secretary’s legal experts might want to read the 2003 case Brown v. Montana Districting Commission where the court found the Secretary of State has no authority in redistricting beyond the purely ministerial duty to file the plans submitted by Commission to that office for codification.

Governor Gianforte on May 14, 2021, signed HB506 interjecting himself into the redistricting process. Article 5 Section 14 of the Montana Constitution outlines absolutely no role for the governor in the independent, citizen districting commission’s work.

## **SENATE FLOOR DEBATE: HB506 FREE CONFERENCE COMMITTEE REPORT**

April 27, 2021

<http://sg001-harmony.sliq.net/00309/Harmony/en/PowerBrowser/PowerBrowserV2/20210427/-1/41161#agenda>

### **Senator Steve Fitzpatrick (R-Great Falls) Opening Remarks:**

“This is a bill called ‘Revise Election Laws.’ What we did was we went to free conference and we added, I think a very important amendment coming up because of the new addition for the new congressional seat. We added some language for pertaining to redistricting....

It basically asks we use good redistricting processes. That we don’t try and gerrymander the seat and really try and suppress the will of the voters which is what gerrymandering is.

So, the language we added is specific to the congressional seat. That way in case there is gerrymandering going on we will have some grounds for litigation particularly through the federal courts if the redistricting commission decides to really act in a very partisan way and a way that

hurts Montanans and really their ability to choose the representative they want.

I hope we can get a green light on this. I don't think the type of gerrymandering we've seen coming out of the redistricting commission in the past is what we want to see in Montana. I think it is very unfair.

**Senator Bryce Bennett (D-Missoula)** Summary of key points of his opposition to HB506.

- The bill's criteria forces gerrymandering rather than eliminating it.
- There is a long history of the courts ruling the power for redistricting lies solely with the citizen commission and not the legislature.
- The commission was formed precisely to keep groups like this one (GOP Legislative Majority Caucus) from gerrymandering the state.
- This bill puts a big thumb on the scale favoring Republican gerrymandering.

**Senator Greg Hertz (R-Polson)** argued the bill was needed to prevent terrible gerrymandering like the map he placed on each Senator's desk. The map was a complete hoax distributed by the GOP Leadership offices and the Montana Republican Party headquarters.

**Senator Steve Fitzpatrick (R-Great Falls)** Summary of closing remarks.

- Agreed with Senator Hertz' map hoax as the need to prevent gerrymandering.
- The bill was just good practices. There was no need for someone to be filing a lawsuit over this bill.

- We can't be having things like this [??buck splatter??] referencing Senator Hertz' map.
- HB506 is just a reflection of whether or not you believe in good policy. We need to have fair districts and not ones that are gerrymandered.

## **HOUSE FLOOR DEBATE: HB506 FREE CONFERENCE COMMITTEE REPORT**

April 27, 2021

<http://sg001-harmony.sliq.net/00309/Harmony/en/PowerBrowser/PowerBrowserV2/20210427/-1/41103#agenda>

### **Rep. Paul Fielder (R-Thompson Falls) Opening Remarks:**

First, he summarized the original purpose of HB506 before the congressional redistricting amendment was added. "This bill went to a conference committee and basically it added language to prevent gerrymandering in the future. It aligns with Article I Section 4 of the United States Constitution, the Voting Rights Act and puts in some criteria on congressional districts so they would be defined equally and without an opportunity for much gerrymandering."

### **Rep. Laurie Bishop (D-Livingston) Summary of key points of her opposition to HB506:**

- The 1972 Constitutional Convention specifically formed a commission because of the problems past legislatures had with drawing districts that met the most basic requirement of one person, one vote.
- This language is trying to put constraints on the independent commission.

### **Minority Leader Rep. Laurie Bishop (D-Livingston) Summary of key points of her opposition to HB506:**

- This is another undercutting of a Constitutional entity that was meant to be a check against the Legislature's power and balance the power in our Constitution. It is frustrating we are doing this again.
- The Legislature has no authority over the redistricting process by design. The Legislature has no authority over it and that's important.
- All legislators are welcome to submit their recommendations to the Commission.
- The Legislature has no authority to pass criteria and we should not be doing that.
- This is an overreach to restrict the independent commission. The Montana Constitution has not changed. Let the Commission do their job and hopefully we'll get some good, fair districts out of this.

**Rep. Paul Fielder (R-Thompson Falls) Closing Remarks:**

"This amendment basically puts the language of the United States Constitution into our Montana law. It's been coordinated with the Secretary of State and the Legal Department within the Secretary of State's office.

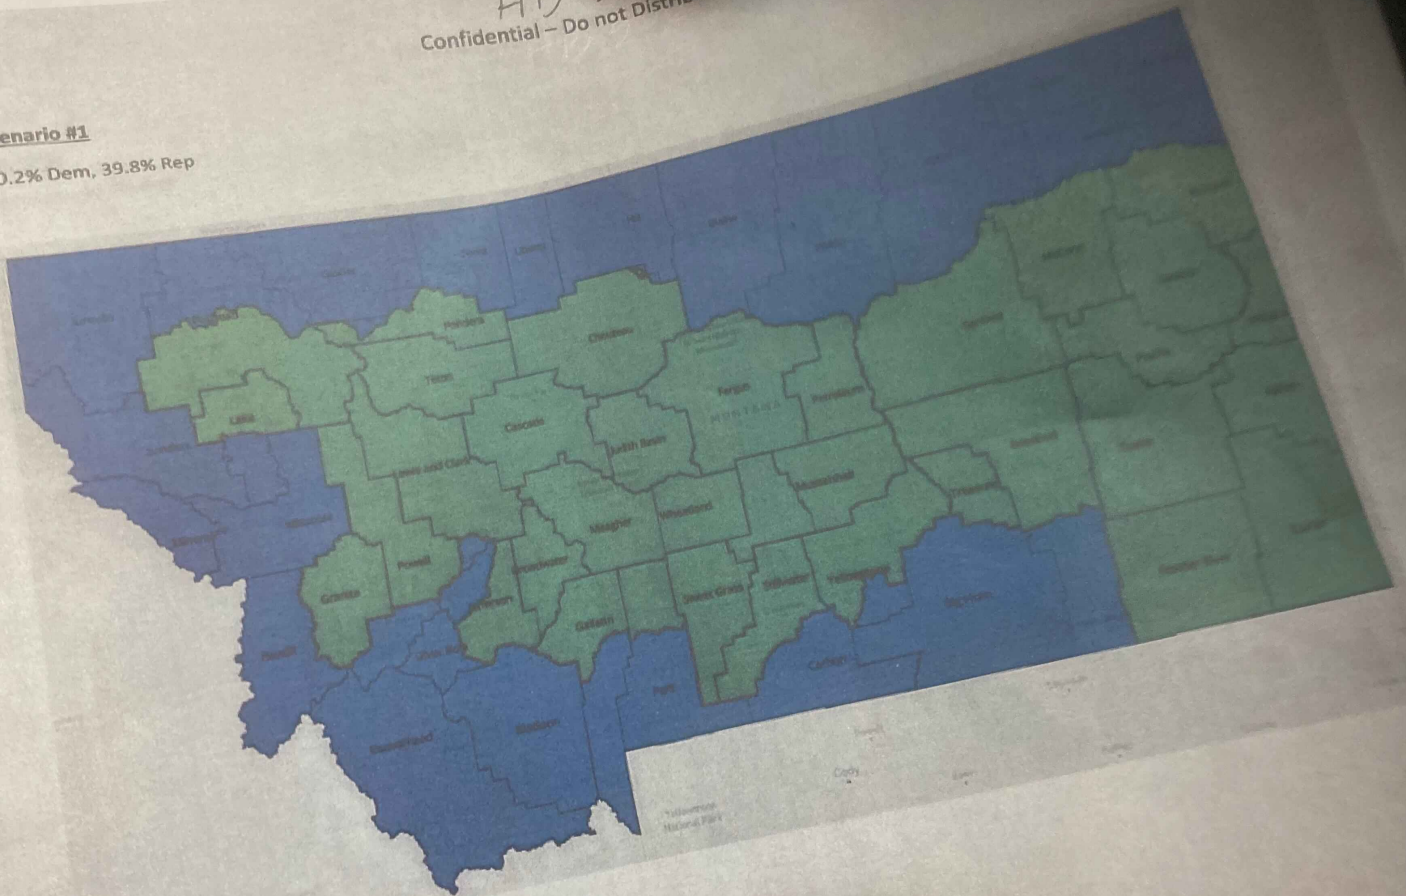

It's a good bill, I think. It prevents gerrymandering. I don't think anyone wants to see legislative [Sic] districts where one is a big "C" around another core area there. So, we want to make our congressional districts as compact as we can. And I ask for a green vote on this Mr. Chair."

## LEGAL REVIEW NOTE

**Bill No.:**

**LC#:** LC 330, To Legal Review copy, as of February 16, 2021

**Short Title:** Establishing priorities for development of congressional districts

**Attorney Reviewer:** Todd Everts

**Date:** February 17, 2021

### CONFORMITY WITH STATE AND FEDERAL CONSTITUTIONS

*As required pursuant to section 5-11-112(1)(c), MCA, it is the Legislative Services Division's statutory responsibility to conduct "legal review of draft bills". The comments noted below regarding conformity with state and federal constitutions are provided to assist the Legislature in making its own determination as to the constitutionality of the bill. The comments are based on an analysis of jurisdictionally relevant state and federal constitutional law as applied to the bill. The comments are not written for the purpose of influencing whether the bill should become law but are written to provide information relevant to the Legislature's consideration of this bill. The comments are not a formal legal opinion and are not a substitute for the judgment of the judiciary, which has the authority to determine the constitutionality of a law in the context of a specific case.*

*This review is intended to inform the bill draft requestor of potential constitutional conformity issues that may be raised by the bill as drafted. This review IS NOT dispositive of the issue of constitutional conformity and the general rule as repeatedly stated by the Montana Supreme Court is that an enactment of the Legislature is presumed to be constitutional unless it is proven beyond a reasonable doubt that the enactment is unconstitutional. See *Alexander v. Bozeman Motors, Inc.*, 356 Mont. 439, 234 P.3d 880 (2010); *Eklund v. Wheatland County*, 351 Mont. 370, 212 P.3d 297 (2009); *St. v. Pyette*, 337 Mont. 265, 159 P.3d 232 (2007); and *Elliott v. Dept. of Revenue*, 334 Mont. 195, 146 P.3d 741 (2006).*

#### Legal Reviewer Comments:

LC 0330, as drafted, may raise potential constitutional concerns associated with Article V, section 14, of the Montana Constitution.

In *Wheat v. Brown*, the Montana Supreme Court specifically addressed the issue of which constitutional body could assign holdover senators. 2004 MT 33. In Chapter 4, L. 2003, the Legislature claimed the right to "assign holdover senators to a district for the remainder of those senators' terms." Chapter 4, L. 2003, forbade the Districting and Apportionment Commission

(Commission) from "assign[ing] holdover senators to districts for the remainder of those senators' terms." ¶27.

Unlike *Wheat v. Brown*, this bill draft does not assign holdover senators. Rather, it prioritizes congressional redistricting criteria and elucidates on the meaning and applicability of criteria provided in the Montana Constitution, such as the provision of district boundaries and the meanings of "contiguous" and "compact." Section 1, LC 330.

As part of the *Wheat v. Brown* case, the Montana Supreme Court traced the history of Article V, section 14, of the Montana Constitution that provides:

- (2) [A] commission of five citizens . . . shall be selected to prepare a plan for redistricting and reapportioning the state into legislative districts and a plan for redistricting the state into congressional districts . . .
- (4) The commission shall submit its plan for legislative districts to the legislature . . . Within 30 days after submission, the legislature shall return the plan to the commission with its recommendations.

The Court noted that the Constitutional Convention allowed legislative leadership to help make Commission appointments, but that after that, the process "*would, in effect, bypass the Legislature from this point on*" (emphasis in original). ¶20. Further, pursuant to the Court's analysis, the Court agreed that "no plan for redistricting could be complete without identifying the correspondence between the new and the old districts." ¶17. Likewise, a plan for redistricting could not be complete without producing and ranking or arranging redistricting criteria.

As a result of its analysis, the Montana Supreme Court noted that the transcripts of the Convention pointed to an "independent, autonomous entity—and limited the Legislature's role to that of making 'recommendations.'" ¶23.

The Montana Supreme Court did not address the specifics of the criteria for assigning holdover senators embodied in 5-1-116, MCA, despite the fact that they might be "appropriate or well-intended." Instead, the Court noted, "the more fundamental constitutional issue is whether the Legislature can inject itself into the redistricting process through the adoption of *any* criteria pertaining to holdovers" (emphasis in original). ¶29. In finding that the power to assign holdovers was reserved to the Commission, the Montana Supreme Court stated that the Constitution mandated "that the Commission effect redistricting is self-executing" and powers inherent to redistricting are likewise granted to the Commission, alone. ¶35. Indeed, the Montana Supreme Court stated, "[b]y granting redistricting authority to the Commission under Article V, Section 14, the Constitution denied the Legislature any latitude to invoke its plenary powers." ¶35.

LC 330 mandates the specific ranking of redistricting criteria and specifies certain definitions for redistricting criteria specified by the Montana Constitution, rather than making recommendations. This is inconsistent with the Montana Supreme Court's analysis that the Commission has the responsibility for creating a redistricting plan, and afterward, it may receive "recommendations" from the Legislature pursuant to Article V, section 14. ¶17.

While not addressing the broader issue of redistricting criteria, the Montana Supreme Court's conclusion in *Wheat* concerning holdover senators is consistent with previous district court and Attorney General opinions concerning the role and limitations of the Legislature's power in the districting and apportionment area. *See e.g.* 40 A.G. Op. 2 (1983) (finding that the Commission has the inherent authority under the Constitution "to do what is necessary to implement a plan that complies with the State's laws," which includes designating holdover senators to the new districts); 35 A.G. Op. 12 (1973) (finding that the Constitution denies the Legislature the ability to change the size of the Legislature after redistricting and providing that when the Commission submits its plan "that plan will become law and all previous legislative enactments [relating to the size of the legislative houses] must be, in effect, repealed"); and *Brown v. Mont. Districting and Apportionment Commn.*, 2003 ML 1896 (Mont. Dist. 2003) (holding that the constitutional provision in Article V, section 14, is unambiguous and self-executing). As with holdover senators, "decades of consensus" provides for the Commission's authority to provide and prioritize relevant redistricting criteria. *See* ¶26.

Thus, LC 0330 may raise potential constitutional concerns associated with Article V, section 14, of the Montana Constitution.

#### **Requester Comments:**

## **Mandatory Criteria for Congressional Districts**

1. Congressional Districts must be as equal in population as is practicable. (Art I, Sec 2. US Const.)
2. Congressional Districts must comply with Section 2 of the Voting Rights Act. Race cannot be the predominant factor to which other criteria are subordinated. (Voting Rights Act, Equal Protection Clause)
3. Congressional Districts must be compact. Compactness is greatest when a district's length and its width are equal, as is a circle.
4. Congressional Districts must be contiguous, meaning that a district must be in one piece. Areas that meet only at points of adjoining corners or areas separated by natural geographical or artificial barriers that prevent transportation within a district by vehicle on a maintained road shall not be considered to be contiguous.
5. Congressional District boundaries shall coincide with political subdivisions of the state and federal reservations to the greatest extent possible. The number of cities, towns, counties and federal reservations divided among more than one district must be as small as possible. When there is a choice between dividing any of these entities the more populous of same must be divided before the less populous, unless the boundary is drawn along a county line or reservation boundary that passes through a city.
6. Criteria shall be prioritized and uniformly applied in the order listed above.

## **Discretionary Criteria for Congressional Districts**

1. No districting plan shall be drawn with the intent to favor or disfavor a political party or an incumbent. (Florida Constitution)
2. Congressional Districts should keep communities of interest intact. Communities of interest are based upon economic, geographic, school district, social and community commonalities.
3. Criteria shall be prioritized and uniformly applied in the order listed above.

## Mandatory Criteria for Legislative Districts

1. Legislative Districts must be as equal in population as is practicable meaning within a maximum deviation of no more than plus or minus one per cent from the ideal population of 10,842 persons. (Art I, Sec 2. US Const. and MT Constitution Art. V, Sec. 14)
2. Legislative Districts must comply with Section 2 of the Voting Rights Act. Race cannot be the predominant factor to which other criteria are subordinated. (Voting Rights Act, Equal Protection Clause)
3. Legislative Districts must be compact. Compactness is greatest when a district's length and its width are equal, as is a circle.
4. Legislative Districts must be contiguous, meaning that a district must be in one piece. Areas that meet only at points of adjoining corners or areas separated by natural geographic or artificial barriers that prevent transportation within a district by vehicle on a maintained road shall not be considered to be contiguous.
5. Legislative District boundaries shall coincide with political subdivisions of the state, including towns, cities, counties, and school districts, and federal reservations to the greatest extent possible. The number of towns, cities, counties, school districts and federal reservations divided among more than one district shall be as small as possible. When there is a choice between dividing these entities the more populous of same must be divided before the less populous, unless the boundary is drawn along a county line or reservation boundary that passes through a city or school district.
6. Holdover Senators shall be assigned to the Senate District which contains the greatest number of residents of the district from which they were previously elected.
7. Criteria shall be prioritized and uniformly applied in the order listed above.

## Discretionary Criteria for Legislative Districts

1. No districting plan shall be drawn with the intent to favor or disfavor a political party or an incumbent. (Florida Constitution)
2. Legislative Districts should keep communities of interest intact. In rural areas of expanse, communities of interest shall include the districts and divisions created by the Montana High School Association. In areas of density inside cities, communities of interest shall include elementary school boundaries and city ward boundaries. In suburban areas outside of cities but adjacent thereto communities of interest shall include elementary and high school districts.
3. Communities of interest may also be based upon economic, geographic, social and community commonalities.
4. Discretionary Criteria shall be prioritized and uniformly applied in the order listed above.

Hi Karin,

I know Aug. 17 is maybe kinda a big day, but still hoping you might spare some time to talk about prisoners. It's zoom and we can be pretty flexible.

Hope you are well.

Joe

Hi Fred,

I think I was waiting for you on the note below. I want to pay ahead for as much of the hosting as possible.

---

**From:** Kolman, Joe  
**Sent:** Monday, August 30, 2021 3:00 PM  
**To:** 'Fred Hejazi' <[fhejazi@citygategis.com](mailto:fhejazi@citygategis.com)>  
**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

You can just send me the invoice. I'm sorry, but I'm still not clear on all the costs. For right now, let's do the map maker and comment tool. I have \$50,000.

So after the \$6,500 can I spend the rest on paying ahead for hosting? So that would be 14 months of hosting?

---

**From:** Fred Hejazi <[fhejazi@citygategis.com](mailto:fhejazi@citygategis.com)>

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

No. We can host that along with the public commenting. After public commenting is over we can see about moving it to a state sever. It is not a particularly CPU intensive application. Please let me know how the invoicing should get done. I need to set that up when we get the Amazon server setup.

Thanks

Fred

Joe,

We can get this up fairly quickly. We were waiting on a decision from you regarding how it was going to be hosted. If you are okay with us hosting, I will go ahead and get it spun up with data and get it going. As far as billing ahead, let me know how many months you want it billed for and I will send it in for that.

Thanks

Fred

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

Joe,

Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks

Fred

Ha. I had to think for a minute who you meant by illustrious. First time anyone has said that, even in jest.

Of course I agree with the distinguished chair. What do you think about “Census and Redistricting Update – What changed and what can legislative staff do to help people understand.”

Not all that catchy really. But I’d like to get people thinking about how this matters to the average Joe. Or below average Joe such as the case may be. I mean, everyone sees the stories about the money tied to census and one person, one vote. Blah Blah Blah. But I’m looking for creative ways to present the information too. Interactive maps? Podcasts? Dog and Pony shows around the state?

Hi Fred,

I'm avoiding preparations for Thanksgiving, so I thought I'd put in one place a few questions.

- I attached the email string about offensive comments. Wondering why they show up on download sheet but not on the map?
- I can't seem to make the block equivalency file convert to shape with the tool.
- This one isn't redistricting. I want to use the comment feature on a map of conservation districts. I have a shapefile of the districts. I guess I can't quite figure out how to get around making it a "plan." Thoughts?

Thanks Fred. Happy Thanksgiving.

Hi Joe!

I hope you're well.

I am searching for the redistricting storymap from a few years ago and can't find it. If you are still sharing it with the public, would you please send a link along? Here's why: my colleague Ben Williams is planning on sending a note to the redistricting staff network highlighting a new video out of GA, and a dry report from WI and (we hope) your story map, to illustrate three ways in which leg staff are helping their states understand the process. I guess I should ask, is that ok with you?

Thanks!

Wendy

Microsoft Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

Hi Wendy, if you could load this PP from 2010, I'll start with it. I think it'll be a nice transition to what we are trying to do now a decade later. (Weird how there is another census coming and I've not aged a bit).

Also could you load up these two? They are not distrusting, but they show different uses for the story map that we've tried including me ad libbing with my dog and blowing a hole in the ground with legislative leadership.

Hello Professor Stebenne, Emily, Joe, Jerry and George.

Thanks, all, for agreeing to participate in our Saturday afternoon redistricting activities. I'm attaching an outline of the session.

Professor Stebenne, you really have the first hour to yourself. We'll all be glad to listen and learn.

Everyone else, Emily Wendt will be the moderator for your session. I think the group will be fairly small, and probably mostly people with a real interest in how states get input from the public, and how states provide information to the public (and to their members). I will be with you throughout because this public part is going to be our next big project.

It is possible, though unlikely, that a reporter will be in the room.

We are hoping to post Professor Stebenne's slides, and we'd be glad to have any other handouts (links or pdfs) that you think might be pertinent. Joe, I think that means we can link to the storymap. Joe, we could link to the session you did in Boston.

Thanks again!

Hi Wendy,

I'm hoping this works. ArcGIS made everything more complicated.

Hi Joe!

I hope you're well.

I am searching for the redistricting storymap from a few years ago and can't find it. If you are still sharing it with the public, would you please send a link along? Here's why: my colleague Ben Williams is planning on sending a note to the redistricting staff network highlighting a new video out of GA, and a dry report from WI and (we hope) your story map, to illustrate three ways in which leg staff are helping their states understand the process. I guess I should ask, is that ok with you?

Thanks!

Wendy

Hi Wendy. If you could load this PP from 2010, I'll start with it. I think it'll be a nice transition to what we are trying to do now a decade later. (Weird how there is another census coming and I've not aged a bit).

Also could you load up these two? They are not districting, but they show different uses for the story map that we've tried including me ad libbing with my dog and blowing a hole in the ground with legislative leadership.

**Subject:** [EXTERNAL] An outline for next Saturday's session

Hello Professor Stebenne, Emily, Joe, Jerry and George.

Thanks, all, for agreeing to participate in our Saturday afternoon redistricting activities. I'm attaching an outline of the session.

Professor Stebenne, you really have the first hour to yourself. We'll all be glad to listen and learn. Everyone else, Emily Wendel will be the moderator for your session. I think the group will be fairly small, and probably mostly people with a real interest in how states get input from the public, and how states provide information to the public (and to their members). I will be with you throughout because this public part is going to be our next big project. It is possible, though unlikely, that a reporter will be in the room.

We are hoping to post Professor Stebenne's slides, and we'd be glad to have any other handouts (links or pdfs) that you think might be pertinent. Joe, I think that means we can link to the storymap. Joe, we could link to the session you did in Boston.

Thanks again!

**Subject:** [EXTERNAL] CNN: A few technical/planning questions

Hi Rachel and Joe,

My name is Ethan Cohen and I'm a producer here at CNN. As the redistricting process gets going, I was hoping you could help answer a few questions that will help us be ready for new district maps. These are just for our planning purposes and I totally understand that things can change, but any information or expectations you can share will be very helpful.

1. Will detailed information on the maps be immediately available when they're approved, or will it take some time?
2. What format will maps be shared in? Is it possible to get shapefiles of the new maps?
3. Will the map data released include a breakdown of census blocks included in each district?
4. How are you planning on releasing map data? (via an email, posted to a site etc.)

Thanks so much for your help and could you please add me to your press lists?

**Subject:** RE: FN for SB 180 LEG, AGRIC, SOS 2-5-21  
**Date:** Monday, February 8, 2021 4:51:00 PM

---

I talked with Sen. Flowers to see if I understood his expectations. I think we can let the note ride as written. I understand why we would ask for new money and that's fine. My experience is that every now and again, not everybody shows up. And if I lose just a couple of those big money members, I could absorb the cost. But that is neither here nor there. The other part Sen. Flowers has in there is that he's seeking gifts or donations. So he's pretty sure he can get someone to donate money, but when the time comes we would need to make sure that works. And lastly, in terms of staff time, I will ride herd on them for staff time. But since I'm not doing redistricting this round, I should have plenty of time. (:

**Subject:** RE: FN for SB 180 LEG, AGRIC, SOS 2-5-21

Hi Angie,

I made a couple tweaks (capitalized some of the member categories) and I highlighted a couple related areas. I don't think that farmers and ranchers will have an agency to pay their expenses, so I think that we should estimate about half would need salary along with expenses. I think #10 that I added is a technical concern or an assumption, you can decide. When you make these changes, would you send to me and Joe and ask him to comment.

Thank you, hope you're feeling better, Susan

Hi Rachel. Thanks for the heads up . Just FYI, we generally advise all our committees, including districting, to exercise caution when a quorum is present at any one place. Not that it can't be done, but everyone just needs to be very clear that there cannot be the appearance of public business being conducted without proper notice of a meeting.

---

Hello Joe,

I sent a note to the Montana Districting and Apportionment Commission members, it is copied below. I am hoping to have 3 to 5 of the members join us in November. I should have cc'd you on the original email, my apologies! Let me know what other information you might need. I am in Helena for the remainder of the week, so happy to stop by and visit too!

*This fall the Montana Farm Bureau Federation will be hosting our Annual Convention in Billings, MT; November 8-11. On the morning of the 9<sup>th</sup>, at 7am we will host our Century Club Breakfast. The Montana Farm Bureau Century Club is our members who voluntarily pay higher membership dues to go towards our legal and legislative efforts.*

*Typically at this breakfast we want to have a presentation of timely legislative or political matters. With the redistricting efforts going on now, it is certainly a timely topic to discuss! I want to extend the invitation to this entire commission to come, enjoy breakfast with our members and sit on a panel to discuss how your commission meetings have been going and the current state of it at the time of this breakfast. We would have a list of questions ahead of time as well.*

*I do understand that it may be challenging to get all five commission members to Billings for an early morning event, and would ask that we could have at least three members in attendance.*

*Please let me know if this is something you would be able and willing to do!*

Thanks,  
Rachel

*Rachel Cone*

Hi Joe – Do you have a block-assignment file for the amended CP12 congressional map that was passed by the commission? I see the shapefile on the meeting website, but a block file would be useful.

Thanks,  
Aaron

**Subject:** [EXTERNAL] Shapefiles/block assignments for congressional maps

Hello –

Are there shapefiles and/or block-assignment files available for the nine proposed congressional maps advanced by the redistricting commission?

Thanks,  
Aaron Bycoffe

Hi Christi,

We got Michelle and are still hoping for Karin.

Will you be giving the overview from NCSL?

Thanks.  
Joe

Hi Joe,

Here is our second choice for a speaker on prisoners: Michelle Davis, Maryland.

Michelle L. Davis  
Redistricting Coordinator  
Maryland Department of Legislative Services  
Office of Policy Analysis  
90 State Circle, Rm. 107  
Annapolis, Md. 21401  
410.946.5215

**Subject:** RE: Speakers on prisoners

Hi Joe,

Thanks for reaching out. NCSL would be happy to give an overview on the reallocating of incarcerated persons for redistricting purposes. I agree with you, Karin Mac Donald, would be a great speaker. Another possible speaker could be Aleks Kajstura, legal director for the Prison Policy Initiative. Let me talk with Wendy and see if we can come up with additional names.

Also, thanks for asking about Salt Lake City. It was a fast and furious meeting with over 450 attendees, but it went really well.

Thanks,  
Christi

**Subject:** [EXTERNAL] Speakers on prisoners

Hi Christi,

Our commission is hoping to have a couple of speakers via Zoom at the Aug. 17 meeting regarding possibly adding reallocation to our duties. I think they were hoping someone from NCSL could maybe give an overview of what other states are doing, how they are doing it, maybe any issues that come up. And then maybe someone who's doing it. I'm really hoping Karin would do it, but maybe you can suggest some back ups too?

Thank you. Hope Salt Lake went well.

**Subject:** [EXTERNAL] (Case CC312573) [Action Needed] Maptitude for Redistricting Training, April 20-22, 2021

Hello, Joel,

I am following up on the email I sent last week about the upcoming Maptitude for Redistricting Training.

**We need your response with your serial number so we can ensure you are set up for the training.**

This training will be held from 10 am Eastern to 5 pm Eastern each day, with a one-hour lunch break from 1 pm Eastern to 2 pm Eastern.

#### Setting Up for the Training

***Please reply to this message with your Maptitude for Redistricting serial number so that we can provide access to the proper region prior to the training. \*\*If you do not have a license for Maptitude for Redistricting, we are happy to provide you a training license for the training; be sure to let us know!\*\****

Please do the following prior to next week's training:

1. Download and install Maptitude for Redistricting 2020 , the USA data, and state data provided with your license.
2. Download the [training data \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b) ([https://caliper.sharefile.com/d-sb20fff571904640b \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b)) and extract it to c:\TrainingData.
3. Download the [training guide \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a) ([https://caliper.sharefile.com/d-s2a91d94a6664161a \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a)).
4. Confirm the software was installed and activated by clicking on the shortcut on your desktop to open the software.

#### Training Format

The training is a virtual three day course using GoToTraining. GoToTraining provides the capability to see the presenter's screen and share your own screen. You can join the audio portion using your computer or the mobile app; you can use a webcam if desired. We recommend using two monitors, or a computer and a tablet, so you can see the trainer's screen and your own at the same time.

Please provide your contact information to GoToTraining to receive meeting information automatically:

<https://attendee.gototraining.com/r/8382844189785874689> [attendee.gototraining.com]

After providing your information you will receive an email containing information about the training. If you are physically located with colleagues and would like to join together, you can join from a computer that will serve as a display (i.e. projecting for the group) and dial in so you can share audio, or you can join individually.

#### Need Help?

If you encounter difficulties while setting up for the training, please contact us before 5 pm Eastern on Monday, April 19, 2021 by phone (617-531-4155) or email ([sales@caliper.com](mailto:sales@caliper.com)).

I look forward to working with you next week,

**Tracy Horgan**

No. We can host that along with the public commenting. After public commenting is over we can see about moving it to a state sever. It is not a particularly CPU intensive application. Please let me know how the invoicing should get done. I need to set that up when we get the Amazon server setup.

Thanks

Fred

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks

Fred

Joe,

Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks

Fred

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.

---

Thanks Fred.

I'm trying to import a congressional map to start playing with it. When I import it seems to only give me house or senate options.

That would really be great. The commission deadline for submitting public maps is Sept. 17. So it would be great if we could allow the public to make maps and start commenting on them next week. The commission is very eager to get that up there and have said so in several public meeting.

You can just send me the invoice. I'm sorry, but I'm still not clear on all the costs. For right now, let's do the map maker and comment tool. I have \$50,000.

So after the \$6,500 can I spend the rest on paying ahead for hosting? So that would be 14 months of hosting?

---

**From:** Fred Hejazi <[fhejazi@citygategis.com](mailto:fhejazi@citygategis.com)>

No. We can host that along with the public commenting. After public commenting is over we can see about moving it to a state sever. It is not a particularly CPU intensive application. Please let me know how the invoicing should get done. I need to set that up when we get the Amazon server setup.

Thanks  
Fred

Joe,

We can get this up fairly quickly. We were waiting on a decision from you regarding how it was going to be hosted. If you are okay with us hosting, I will go ahead and get it spun up with data and get it going. As far as billing ahead, let me know how many months you want it billed for and I will send it in for that.

Thanks

Fred

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

Joe,  
Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.  
If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks  
Fred

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links

again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.

You can just send me the invoice. I'm sorry, but I'm still not clear on all the costs. For right now, let's do the map maker and comment tool. I have \$50,000.

So after the \$6,500 can I spend the rest on paying ahead for hosting? So that would be 14 months of hosting?

---

**From:** Fred Hejazi <[fhejazi@citygategis.com](mailto:fhejazi@citygategis.com)>

No. We can host that along with the public commenting. After public commenting is over we can see about moving it to a state sever. It is not a particularly CPU intensive application. Please let me know how the invoicing should get done. I need to set that up when we get the Amazon server setup.

Thanks

Fred

Joe,

We can get this up fairly quickly. We were waiting on a decision from you regarding how it was going to be hosted. If you are okay with us hosting, I will go ahead and get it spun up with data and get it going. As far as billing ahead, let me know how many months you want it billed for and I will send it in for that.

Thanks

Fred

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

Hi Fred, I guess I need a few more details on your note below. So the \$37,500 means we are buying the server to use for all time? And the support is for the software and the server? So we get the

public map making feature, the comment feature, and the find my legislator feature for all that?

Joe,

Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.  
If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks  
Fred

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links

again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.

---

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

**Subject:** [EXTERNAL] Legislative Redistricting Commission

I was reading in the Great Falls Tribune the Montana Districting and Apportionment Commission will be meeting to draw maps with the 2020 Census data. I am requesting that you change the Legislative voting district of The Town of Fort Peck and the Lakeside cabin area to the Valley County voting district. Several years ago we voted in the Valley County district and then it was changed to the current district's of Hill and Roosevelt County. When I asked why, I was told so Rocky Boy (200 miles west) and Wolf Point (60 miles east) reservations could be connected. Is this common with other reservations being connected? When I have tried to contact Jonathan Windy Boy, or Bridgett Smith, neither bothered to get back to me. It would be nice to have a legislator closer that cares. The Tribune said each district shall be contiguous, meaning a district must be in one piece. Areas that meet only at points of adjoining corners shall not be considered contiguous. This part is found in the Montana Constitution. I hope you will do what is right and remove Fort Peck and put it back in the district that it was in when my family moved here in December 1970. Thank you for your consideration regarding this important issue to me. Sincerely, Jeanne Liebelt

Joe,

The desktop tool is not an absolute requirement. You could simply load plans from a shape file into the redistricting viewer. That is how we support externally created plans from ESRI Redistricting, Daves and RedistrictingR. The desktop software however makes it a one button process and provides interactivity which makes it easier to use.

The data processing as a standalone application is \$7000. Although if you have maptitude, I am not sure what the utility of having our data processing would be. I think they provide all the data you need for their system.

As far as integration with the desktop, for example in plan commenting, you would have to download the comments table, then import it into Maptitude so you could use them during the drawing process.

All of our software is standalone which means they do not need a GIS software. It may not be a bad idea for us to have a phone call, so I can better understand your end goal. I may be able to suggest a solution that works in your current configuration.

Thanks

Fred

Hi Fred. That's great. Thank you.

Do all of these require your districting software? I mean, for the plan viewer at least it seems we can export out of Maptitude, which is what we've committed to for this cycle. (Though you are making a good case here). What about the data processing? We have ESRI licenses.

**Subject:** [EXTERNAL] RE: Montana Districting products

Joe,

I have provided some marketing material on our redistricting software, both for the desktop and the web. The cost for a single desktop license is \$7500 with discounts available for additional seats. The standard version of the data processing tool is included with the EDGE desktop. Advance version which provides additional disaggregation options and tools for extracting county level databases is an additional \$7000. The EDGE Plan viewer/Who is my Legislator/Redistricting Portal are in a single product with a list price of \$30,000. Plan commenting, Communities of interest, Web Redistricting are also a single product at \$30,000. Licenses are perpetual, which means if purchased they are yours to use as long as you wish.

Maintenance and technical support for the desktop software is \$3800 per 5 seats. For the web products it is \$8000 per year. For the web products, the option to purchase the software as a service on a monthly basis is also available.

Depending on your specific requirements, we can customize a proposal which can better meet your needs. Please let me know if you have any other questions.

Hi Fred. That's great. Thank you.

Do all of these require your districting software? I mean, for the plan viewer at least it seems we can export out of Maptitude, which is what we've committed to for this cycle. (Though you are making a good case here). What about the data processing? We have ESRI licenses.

---

**Subject:** [EXTERNAL] RE: Montana Districting products

Joe,

I have provided some marketing material on our redistricting software, both for the desktop and the web. The cost for a single desktop license is \$7500 with discounts available for additional seats. The standard version of the data processing tool is included with the EDGE desktop. Advance version which provides additional disaggregation options and tools for extracting county level databases is an additional \$7000. The EDGE Plan viewer/Who is my Legislator/Redistricting Portal are in a single product with a list price of \$30,000. Plan commenting, Communities of interest, Web Redistricting are also a single product at \$30,000. Licenses are perpetual, which means if purchased they are yours to use as long as you wish.

Maintenance and technical support for the desktop software is \$3800 per 5 seats. For the web products it is \$8000 per year. For the web products, the option to purchase the software as a service on a monthly basis is also available.

Depending on your specific requirements, we can customize a proposal which can better meet your needs. Please let me know if you have any other questions.

Hi Fred. I think we'd like to go with the plan comment tool and the who is my legislator tool. And sorry for the rush, but if we do this we need to get the purchase order signed and dated today.

I have a couple of questions.

These are both web based, so what does that entail getting them onto our site?

And the maintenance for both is \$8,000 a year each? Can you tell me what the maintenance includes?

Thanks.

Joe,

The desktop tool is not an absolute requirement. You could simply load plans from a shape file into the redistricting viewer. That is how we support externally created plans from ESRI Redistricting, Daves and RedistrictingR. The desktop software however makes it a one button process and provides interactivity which makes it easier to use.

The data processing as a standalone application is \$7000. Although if you have maptitude, I am not sure what the utility of having our data processing would be. I think they provide all the data you need for their system.

As far as integration with the desktop, for example in plan commenting, you would have to download the comments table, then import it into Maptitude so you could use them during the drawing process.

All of our software is standalone which means they do not need a GIS software. It may not be a bad idea for us to have a phone call, so I can better understand your end goal. I may be able to suggest a solution that works in your current configuration.

Thanks

Fred

Hi, Joe,

Thank you for your reply. Great question. Annual maintenance after the first year is 15% (\$4,500).

Right now Wyoming is the only client, but it is early on.

Best regards,

**Tracy Horgan**

Great. And is it \$30,000 a year?

Any other states using it?

Hi, Joe,

Thank you for your reply.

The capabilities:

- You provide the boundaries for your chambers (Congress, House, Senate or a subset) and the boundaries display on a map or satellite background.
- An info tool that provides information about each district -- anything you want to provide from legislator name, photo and info to info about the district, it is customizable.
- A find tool that makes it easy to search for an address
- The ability to include any reports you want for each chamber

Please let us know if we can be of further assistance.

Hi Tracy,

I'm wondering if maybe we crossed lines somewhere last week. I'm a bit confused by you plan viewer. So I understand that it won't drop down and let you choose between multiple plans. But could we export Plan A to it and hyperlink that to a page. So someone clicks on Plan A, it opens up in the viewer with the associated report. And then they click on Plan B, and it opens in another Tab with associated report. Could each plan be it's own window?

**Subject:** RE: Commission presentation at MSAE mtg

After recent conversations, let's look at rescheduling this event for our next MSAE luncheon Feb. 10 at Noon. If that works for you, we can have you Zoom in and Rachel/Joe could be there in person in Helena. We envision opening the luncheon with simple welcomes, intros from our Board Chair, Pam O'Reilly of the Montana Bankers Assn. Then, we can start on lunch. At about 12:20 or so, Pam would introduce you and have you give about a 15-minute overview, the high level of what the Commission is all about and work so far. Then maybe Rachel/Joe could talk about the work ahead with the legislative districts for another 15 minutes or so. We could leave a little time for wrap-up from you. Does this sound like a plan? Happy to chat about any details before we confirm.

And by the way, this is Kathy. My husband Webb and I were co-Executive Directors of MSAE until he started his new job this month with the Montana Dental Association. Now I'll be the Executive

Director of MSAE. The e-mail is the same; my cell is 406-459-8045.

**Subject:** RE: Commission presentation at MSAE mtg

Thank you very much for getting back to me! And thank you, Rachel for following up, as well. We can do this by Zoom, altho our meetings are in person now. Another option, as Rachel had suggested was for her and/or Joe to present, as well, and then we could have you Zoom in for perspective. I do know that Rachel has Law & Justice on the 19<sup>th</sup>, so we could move it to the 26<sup>th</sup>, if that were the case. Or Joe could maybe do it on the 19<sup>th</sup>. We're flexible, obviously. Our interest is in the whole process of redistricting, from timing, to process, to public involvement, etc. For instance, I don't see any future meetings on the calendar. When will they start regarding legislative districts?

The Montana Society of Association Executives is the "association of associations" in Montana. That includes about 50 of the top associations in the state, from the Montana Bankers Association to the Montana Trial Lawyers Association. Our membership also includes about that same number of "Hospitality" members – those who host the meetings of associations, as well as the same number of "Affiliate" members who support associations in other ways (legal, accounting, marketing, etc.)

We schedule monthly programs for our members and invite you to update our members and others at the Nov. 18 program on the Commission. This would be over the Noon hour, with your presentation about 20-30 minutes with Q&A possible afterward. We are planning this as a virtual event again, with hopes of returning to in-person meetings for our holiday event in December. Most of our members are involved in government affairs and politics and would be very interested in this topic. In fact, we recently encouraged them all to become more educated and involved in the Oct. 19 meeting.

I would be happy to provide any further information should you be available and willing to join us.

Be well,

Webb

Thank you very much for getting back to me! And thank you, Rachel for following up, as well. We can do this by Zoom, altho our meetings are in person now. Another option, as Rachel had suggested was for her and/or Joe to present, as well, and then we could have you Zoom in for perspective. I do know that Rachel has Law & Justice on the 19<sup>th</sup>, so we could move it to the 26<sup>th</sup>, if that were the case. Or Joe could maybe do it on the 19<sup>th</sup>. We're flexible, obviously. Our interest is in the whole process of redistricting, from timing, to process, to public involvement, etc. For instance, I don't see any future meetings on the calendar. When will they start regarding legislative districts?

The Montana Society of Association Executives is the "association of associations" in Montana. That includes about 50 of the top associations in the state, from the Montana Bankers Association to the Montana Trial Lawyers Association. Our membership also includes about that same number of "Hospitality" members – those who host the meetings of associations, as well as the same number of "Affiliate" members who support associations in other ways (legal, accounting, marketing, etc.)

We schedule monthly programs for our members and invite you to update our members and others at the Nov. 18 program on the Commission. This would be over the Noon hour, with your presentation about 20-30 minutes with Q&A possible afterward. We are planning this as a virtual event again, with hopes of returning to in-person meetings for our holiday event in December. Most of our members are involved in government affairs and politics and would be very interested in this topic. In fact, we recently encouraged them all to become more educated and involved in the Oct. 19 meeting.

I would be happy to provide any further information should you be available and willing to join us.

Be well,

Webb

Hi Kathy.

I'm sorry, but in the vast string of emails I've lost a little bit of sight of what you'd like from me? I think the Chair can handle most things and I'd defer to her completely on things. Certainly happy to fill in where needed though. And did you want me there in person or on zoom also?

After recent conversations, let's look at rescheduling this event for our next MSAE luncheon Feb. 10 at Noon. If that works for you, we can have you Zoom in and Rachel/Joe could be there in person in Helena. We envision opening the luncheon with simple welcomes, intros from our Board Chair, Pam O'Reilly of the Montana Bankers Assn. Then, we can start on lunch. At about 12:20 or so, Pam would introduce you and have you give about a 15-minute overview, the high level of what the Commission is all about and work so far. Then maybe Rachel/Joe could talk about the work ahead with the legislative districts for another 15 minutes or so. We could leave a little time for wrap-up from you. Does this sound like a plan? Happy to chat about any details before we confirm.

And by the way, this is Kathy. My husband Webb and I were co-Executive Directors of MSAE until he started his new job this month with the Montana Dental Association. Now I'll be the Executive Director of MSAE. The e-mail is the same; my cell is 406-459-8045.

Hello,

Rachel Weiss and I staff the Montana Redistricting Commission, which is considering the reallocation of prisoners and wanted to hear from some national, nonpartisan experts in the area. The good folks at NCSL recommended you. Rachel and I are hoping you could join us via Zoom for maybe an hour on August 17. I think the commission would like to hear about the technical aspects, but also some insights on criteria for making some of those decisions.

We can be flexible with the schedule. I don't think you would need to do much of a presentation. Just give some history and context and then be available for question.

This offer comes with the offer of drinks, dinner, dessert or all three on us the next time we gather. Hope you are well.

Hi there. Thank you so much.

At this point, all I need is really a back of the napkin estimate on what you might charge to geocode our state prisoners and adjust our census tables to reallocate the prisoners to their known addresses. We have around 2,500 prisoners, not all of them have addresses. And the addresses are not quality checked.

What I need the estimate for is that once I have three estimates, I can hold some money back that otherwise goes away after June 30. If I can hold the money, then we would do a more formal process. What I'm saying is that it really is just a placeholder estimate and we wouldn't hold you to it, clearly, actual costs may vary widely.

Thanks.

Hello Mr. Carpenter.

Just a quick reply since we are in the midst of session.

The data are not released yet. So the determination of congressional seats is not made.

Yes. The timeline is different for the legislature and congress. The commission has 90 days after the data are received to apportion the congressional seat or seats.

The legislative plan is submitted to the 2023 legislature and then the secretary of state. However, the plan does not go into effect until the 2024 elections.

This sheet is out of date on the first part because of census delays. But it provides more information at the end: <https://leg.mt.gov/content/Committees/Interim/2019-2020/Districting/Meetings/Nov-2019/DRAFT-possible-timeline-2019-2023-dac-version-10-7.pdf>

**Subject:** [EXTERNAL] Redistricting Questions

Hi. I have a couple of questions:

1. I've seen the rumor that we're getting a second congressional seat. Is it true?
2. Is the timeline on defining congressional districts different from the timeline on defining legislative districts?
3. Am I correctly understanding the timeline for legislative districts in thinking that the commission will present a plan to the legislature in January 2023, and it will be in effect in March of 2023?

Hi Joe,

I wanted to follow up with you regarding your request. Unfortunately, we don't have any information on how states plan to handle prisoner reallocation this cycle.

This is one of the reasons we're trying to gauge interest in getting a [working group \[docs.google.com\]](#) together on prisoner reallocation. We want to connect folks in other states that may have similar questions or concerns. I will give folks time to fill out the google doc and I hope we can garner interest in forming a working group on this topic. Would this be something you or other Montana folks might be interested in?

I reached out to Ben and Wendy to see if they had any additional information. According to Ben, just based on who has access to prisoner data, he doesn't think it's possible for states to ask their vendors to do it *unless* they can provide the vendor with a full and accurate inmate data file with previously known addresses. Illinois didn't have the information and they weren't collecting it, so they have opted to delay implementation.

I would suggest reaching out to Karin Mac Donald ([karin@statewidedatabase.org](mailto:karin@statewidedatabase.org)) and Aleks Kajstura ([akajstura@prisonpolicy.org](mailto:akajstura@prisonpolicy.org); she is the legal director for the Prison Policy Initiative) to see if they have any additional information.

I'm sorry, I wish I could have been more helpful. If there is anything else you need, please let me know.

Thanks,  
Christi

Confirmation

Hi Christi,

Thanks for putting that on today. That was really great.

We are getting questions about how we could reallocate prisoners. Do you have any information handy about how other states are actually doing it? By that I mean, are they paying outside vendors to geocode and adjust the tables? It sounds like Karin is doing that all in her shop, but like she said, she's been working on it for years. We don't even have data yet. I think we could try to geocode what we get, but I'm not sure of my ability to adjust the tables with any degree of confidence.

We did talk with Maptitude. It sounds like they may be helping out on that regard. But it was likely expensive and may not be doable within our time frame.

Any information or references would be appreciated.

Thanks.

Joe

**Date:** Monday, January 10, 2022 2:19:00 PM

---

Hey there. Oh goodness no. Ours is a long process. Congress is done of course, but the legislative districts go to the 2023 Legislature and then take effect in 2024.

Yes. Let's chat sometime. My January is atrocious. But chatting with you would make it better.

How are the dogs? My sweet Lolo has some kind of throat issue so we are awaiting some test results. And my cat Mr. Tuna appears to have blown out his thyroid which means until it's under control his litter box and the basement is a war zone of poo mines.

**Subject:** [EXTERNAL] prisoner reallocation

Hi Joe

I hope this message finds you well! How is the redistricting going? I saw that you are still recruiting for someone to do the prisoner reallocation (which was not a lot of fun at all here in CA, btw!!!) - I am guessing you're not done yet? If so: condolences! We are wrapped and nobody has sued us (knocking on wood).

I think the person who worked with California to do the RPV analysis may be coming your way/applying to do the reallocation project - Megan Gall, - she's great: really knows her stuff and is fantastic to work with.

Let's find some time to compare notes when you are done - would love to find out how the reallocation project is going to pan out and to hear about your process overall.

Take care

karin

?????

The census affects residents in every state, whether they know it or not. Often, state officials talk about the census in relation to federal funding formulas. But reapportionment and redistricting are also uses of the census that matter to how people are represented. This roundtable discussion will touch on the role of the legislative branch to convey the importance of the information. Topics may range from uses of census data for legislative committees or policy work to displaying and creating maps for redistricting.

**Subject:** agenda

Ha. I had to think for a minute who you meant by illustrious. First time anyone has said that, even in jest.

Of course I agree with the distinguished chair. What do you think about “Census and Redistricting Update – What changed and what can legislative staff do to help people understand.”

Not all that catchy really. But I’d like to get people thinking about how this matters to the average Joe. Or below average Joe such as the case may be. I mean, everyone sees the stories about the money tied to census and one person, one vote. Blah Blah Blah. But I’m looking for creative ways to present the information too. Interactive maps? Podcasts? Dog and Pony shows around the state?

Hmmm. Well. Let's think on it a bit.

Rachel reminded me that Dr. Rinfret was interested in UM participating in districting; specifically in maybe being part of a public mapping project. Our idea was that maybe you could be in charge of facilitating public comment. Given the shorter timeline, maybe it would just be for the congressional districting if we get another seat. That would conclude in December. So the rough idea would be that you could work with UM (Dr. Rinfret) and devise a way to use public mapping to solicit comment. Dr. Rinfret is familiar with the guy who is doing this. If we do get another seat, this would be a great way to encourage public participation. You would also be in charge of some of the outreach and traditional public comment. You could basically work when you wanted for the most part. And since this would be the first time in nearly 30 years when we got another seat, it would provide you with a lot of material for an academic paper on how public participates in the process and also a look at how Montana may see itself differently than it did 30 years ago.

**Subject:** [EXTERNAL] Re: checking in

That is a lot, Joe! The experience officially **spans May 15 through July 15.**

When I originally posed both options to Dr. Rinfret, she was wholly on board with the indicators project if that's the route that best serves your office. Given the tangential applications to SHPO and other coursework and the lack of more direct study bills, the

indicators project seems like a good fit.

All that said, your additional suggestion of studying redistricting would be a once in a career experience and of definite interest to DPAP and me personally. Considering the additional workload now on your plate, it would be helpful to know your thoughts on this question when we meet: **Do you believe your office would benefit more from assistance with environmental indicators project or considering redistricting? Which would be more beneficial in a year or two?**

At this point both options are fascinating and feasible; so I would like to focus where I can be of best service to you.

Given the tangential applications to SHPO and other coursework and the lack of more direct study bills, the indicators project seems like a good fit.

All that said, your additional suggestion of studying redistricting would be a once in a career experience and of definite interest to DPAP and me personally. Considering the additional workload now on your plate, it would be helpful to know your thoughts on this question when we meet: **Do you believe your office would benefit more from assistance with environmental indicators project or considering redistricting? Which would be more beneficial in a year or two?**

At this point both options are fascinating and feasible; so I would like to focus where I can be of best service to you.

Renee Kelley

**Subject:** RE: checking in

Hi there.

Yes, I'm looking forward to summer too.

I know. There hasn't been much in your area to this point. Things are a bit more complicated. My counterpart in research is leaving for a new job at DEQ so we are in a bit of flux so far as we go into the interim. I was looking back at some of the things Dr. Rinfret sent. Do you think it would be better to come out of this with a policy paper or report as opposed to a project like database? We also have redistricting coming up, which I know interests Dr. Rinfret and is a once a decade thing.

I don't think I can commit to anything for a meeting this week just yet. Let me see how it goes.

When is your start date for us?

Hello again, Joe. Just wanted to give you a quick lay of the land in case a window opens in your schedule. Wednesday after 4:00 PM and Saturday and Sunday morning are clear this week. Next week, Thursday and Friday are wide open, as is Monday morning. Good luck in these final weeks of the session! Looking forward to shifting toward the summer soon!

Renee Kelley

**Subject:** Re: checking in

Thanks for reaching out, Joe.

Though I've been watching the study bills progress, I am struggling to find one that clicks with our work at SHPO or MHS more broadly. I'm still definitely open to a more traditional report, simply because it's what I know. However, the environmental indicators project would be helpful geospatial experience and the newer delivery format is definitely most relevant to the courses I'll be taking concurrently. From our previous conversation, that project also seems like it would have the greatest impact for your office's day-to-day work. After you've had some time to think next week, would you be willing to meet with me to nail down a feasible scope of work together? I'm around on Wednesday, Thursday, and Saturday afternoons.

Thank you!

Renee Kelley

Not at all, Joe. I'm grateful for the space to read, research, and write.

You can definitely share with the committee that Dr. Rinfret confirmed enthusiastically that UM is still willing and able to stand up a redistricting competition once the data becomes available. Since this week's meetings are focused on criteria, I'll be streaming the meeting from across the street.

If you have a chance next week, I'd love your thoughts on the draft. Please watch for a copy this weekend.

Thank you,

Renee Kelley

Good evening, Joe. My little one has been struggling with a bad cough, and this is the first I've been able to sit down off working hours to a computer since last Friday night. It is thankfully not COVID-related, but it is nonetheless a very frustrating bookend to a busy summer. I apologize for not getting a more complete draft to you early this week as intended.

The experience was officially intended to end tomorrow, Thursday, July 15, but I will need to extend through the weekend. My plan of attack is as follows: Though out of town, I'll have more family members around to help and will get the draft ready for your review. I'll be coming back to Helena on Tuesday morning, July 20, to drop off the laptop and fob. I'll keep a digital copy of the report and make any alterations you request by Friday, July 30. Do you have any thoughts or concerns to this timeline?

Thank you for your understanding. Please email or call me at (503) 307-7029 if you have any questions.

Renee Kelley

Ha. I had to think for a minute who you meant by illustrious. First time anyone has said that, even in jest.

Of course I agree with the distinguished chair. What do you think about "Census and Redistricting Update – What changed and what can legislative staff do to help people understand."

Not all that catchy really. But I'd like to get people thinking about how this matters to the average Joe. Or below average Joe such as the case may be. I mean, everyone sees the stories about the money tied to census and one person, one vote. Blah Blah Blah. But I'm looking for creative ways to present the information too. Interactive maps? Podcasts? Dog and Pony shows around the state?

VII. Public Map Submissions A. The commission accepts redistricting plans drawn by individual citizens or organizations. B. Publicly submitted maps should comply with federal and state redistricting laws and commissioner adopted criteria. C. For each submitted plan, an individual or entity must provide: (1) current contact information for the individual or entity making the submission, including name, address, telephone number, and e-mail address; (2) a description of what goals the individual or entity aims to accomplish in the plan; and (3) a written explanation for each congressional district in the plan of the mandatory and/or discretionary criteria used and how those criteria justify any deviation from the ideal district population. D. (1) Although the commission encourages entities to submit electronic files, it will accept paper submissions. (2) Submitted plans must be based on official Census geography (TIGER line) and P.L. 94- 171 data. (3) The commission staff will use Maptitude for Redistricting by the Caliper Corporation as their software for redistricting. Because redistricting plans submitted electronically must be imported into this software, the commission prefers that computer-drafted plans be submitted as equivalency files giving the census block to district assignments. **These files may be submitted in .dat, .dbf., or .txt files.** (4) Plans may also be submitted as Esri Shapefiles (.shp) or Caliper data files (.cdf or .dbd). E. Although the commission must consider the statewide impact of any local or regional state legislative district map, the commission will accept partial local or regional maps.

### Mandatory Criteria for Congressional Districts

- \* Districts must be as equal in population as is practicable (Article 1, Section 2, U.S. Constitution).
- \* Protection of minority voting rights are guaranteed in Article II, Section 4 of the Montana Constitution and through compliance with the Voting Rights Act. No district, plan, or proposal for a plan is acceptable if it affords members of a racial or language minority group “less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice.” (42 U.S.C. 1973). Race cannot be the predominant factor to which traditional redistricting criteria are subordinated. (Shaw v. Reno, 509 U.S. 630 1993).
- \* Each district shall consist of compact territory. (Article 5, Section 14 of the Montana Constitution). The Commission shall consider the district’s functional compactness in terms of travel and transportation, communication, and geography.
- \* Each district shall be contiguous, meaning that a district must be in one piece. (Article 5, Section 14 of the Montana Constitution). Areas that meet only at points of adjoining corners shall not be considered contiguous. Areas separated by natural geographical or artificial barriers that prevent transportation by vehicle on a maintained road shall be avoided when not in conflict with the commission's adopted criteria.

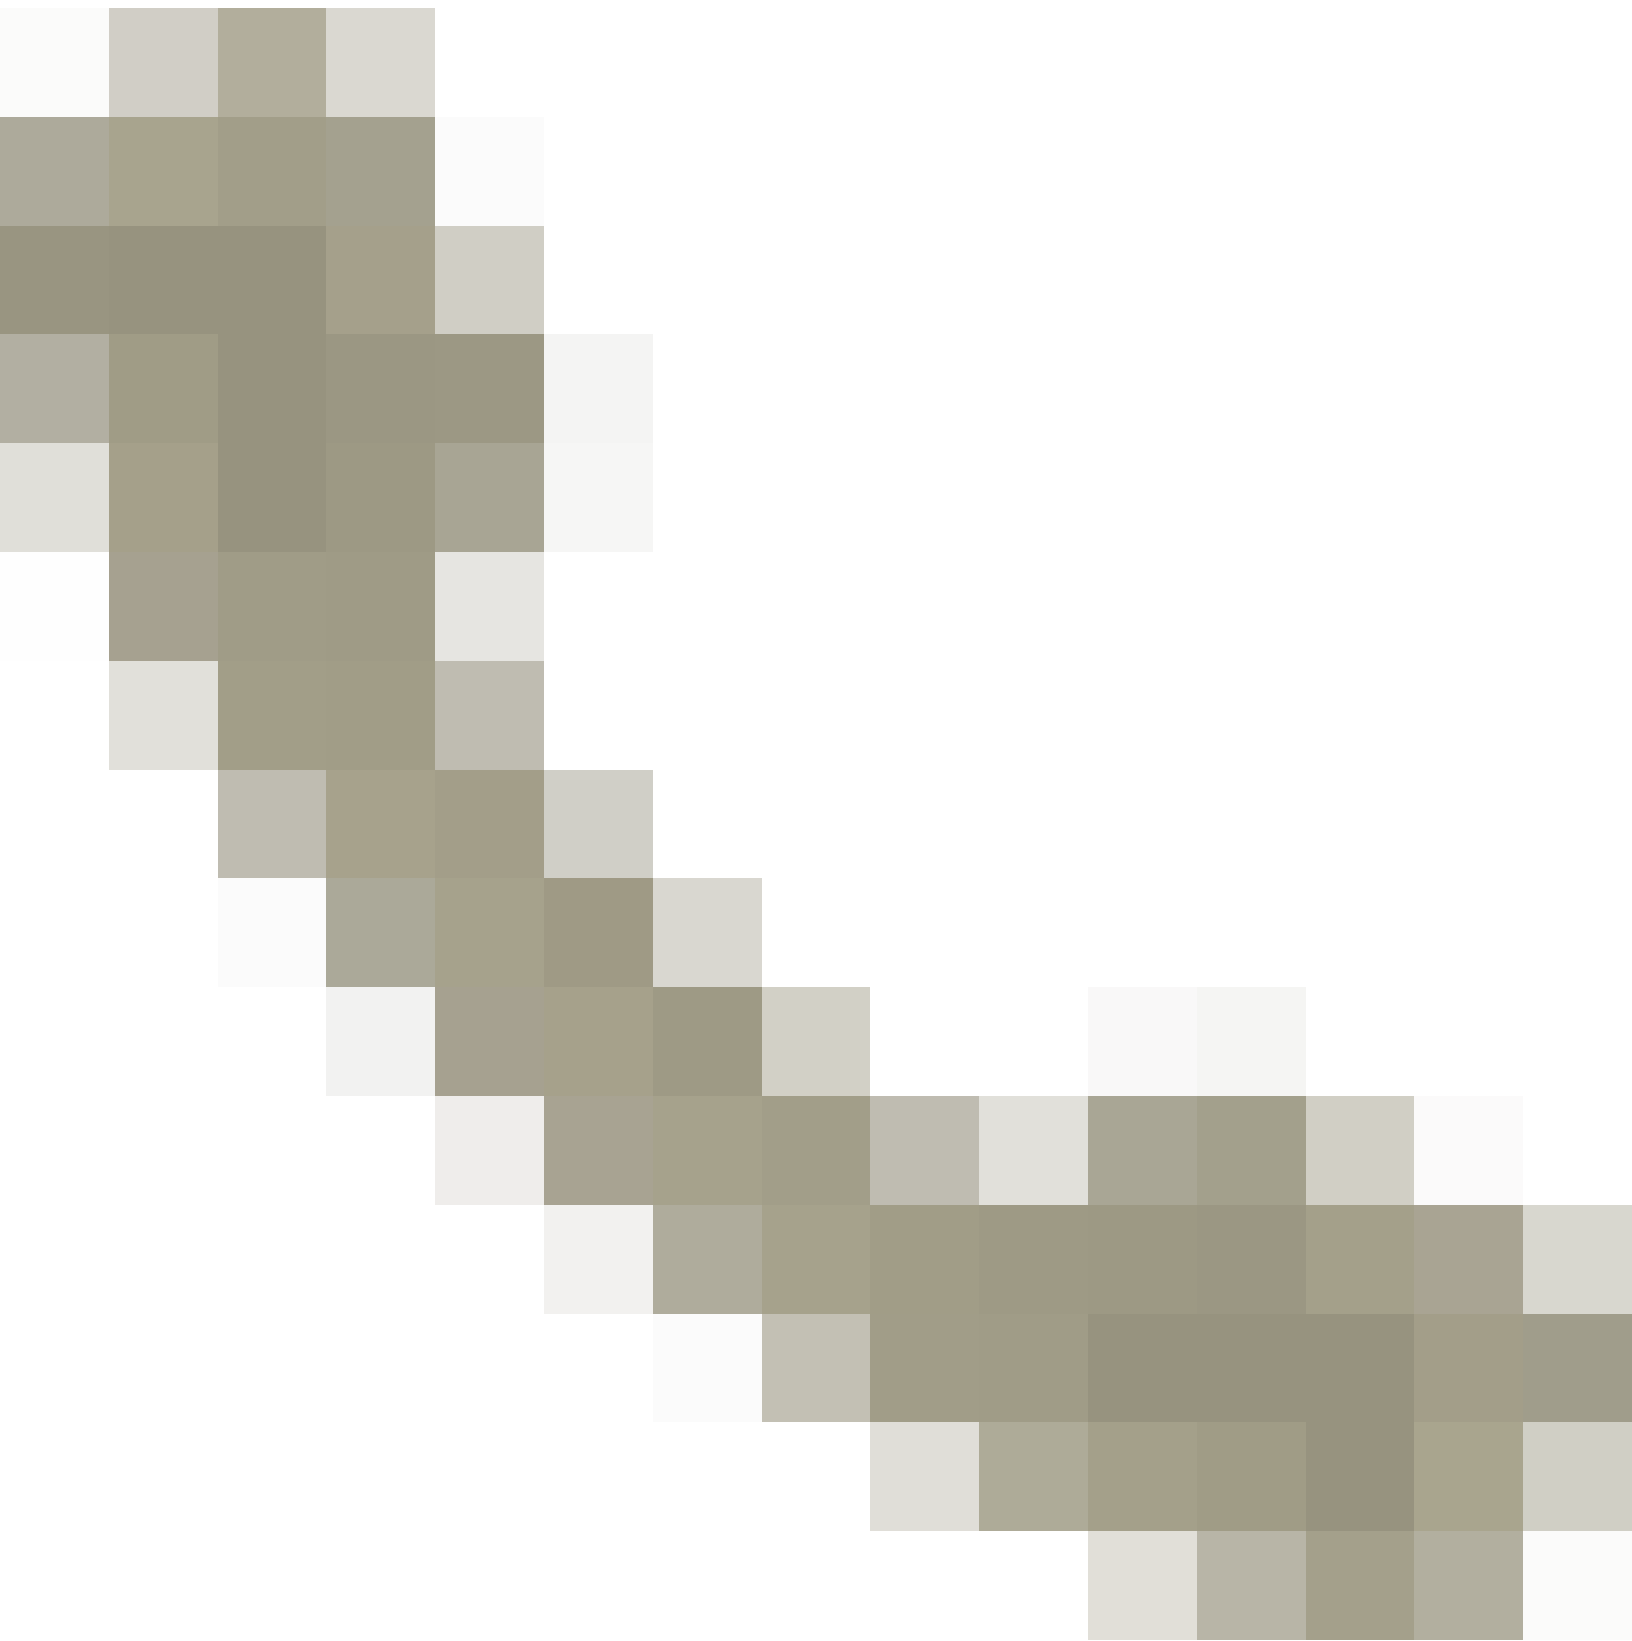

### Goals for Congressional Districts

- \* No plan may be drawn to unduly favor a political party.
- \* The commission shall attempt to minimize dividing cities, towns, counties and federal reservations between two districts when possible.
- \* Keeping communities of interest intact. The Commission may consider keeping communities of interest intact. Communities of interest can be based on Indian reservations, urban interests, suburban interests, rural interests, tribal interests, neighborhoods, trade areas, geographic location, demographics, communication and transportation networks, social, cultural, historic, and economic interests and connections, or occupations and lifestyles.

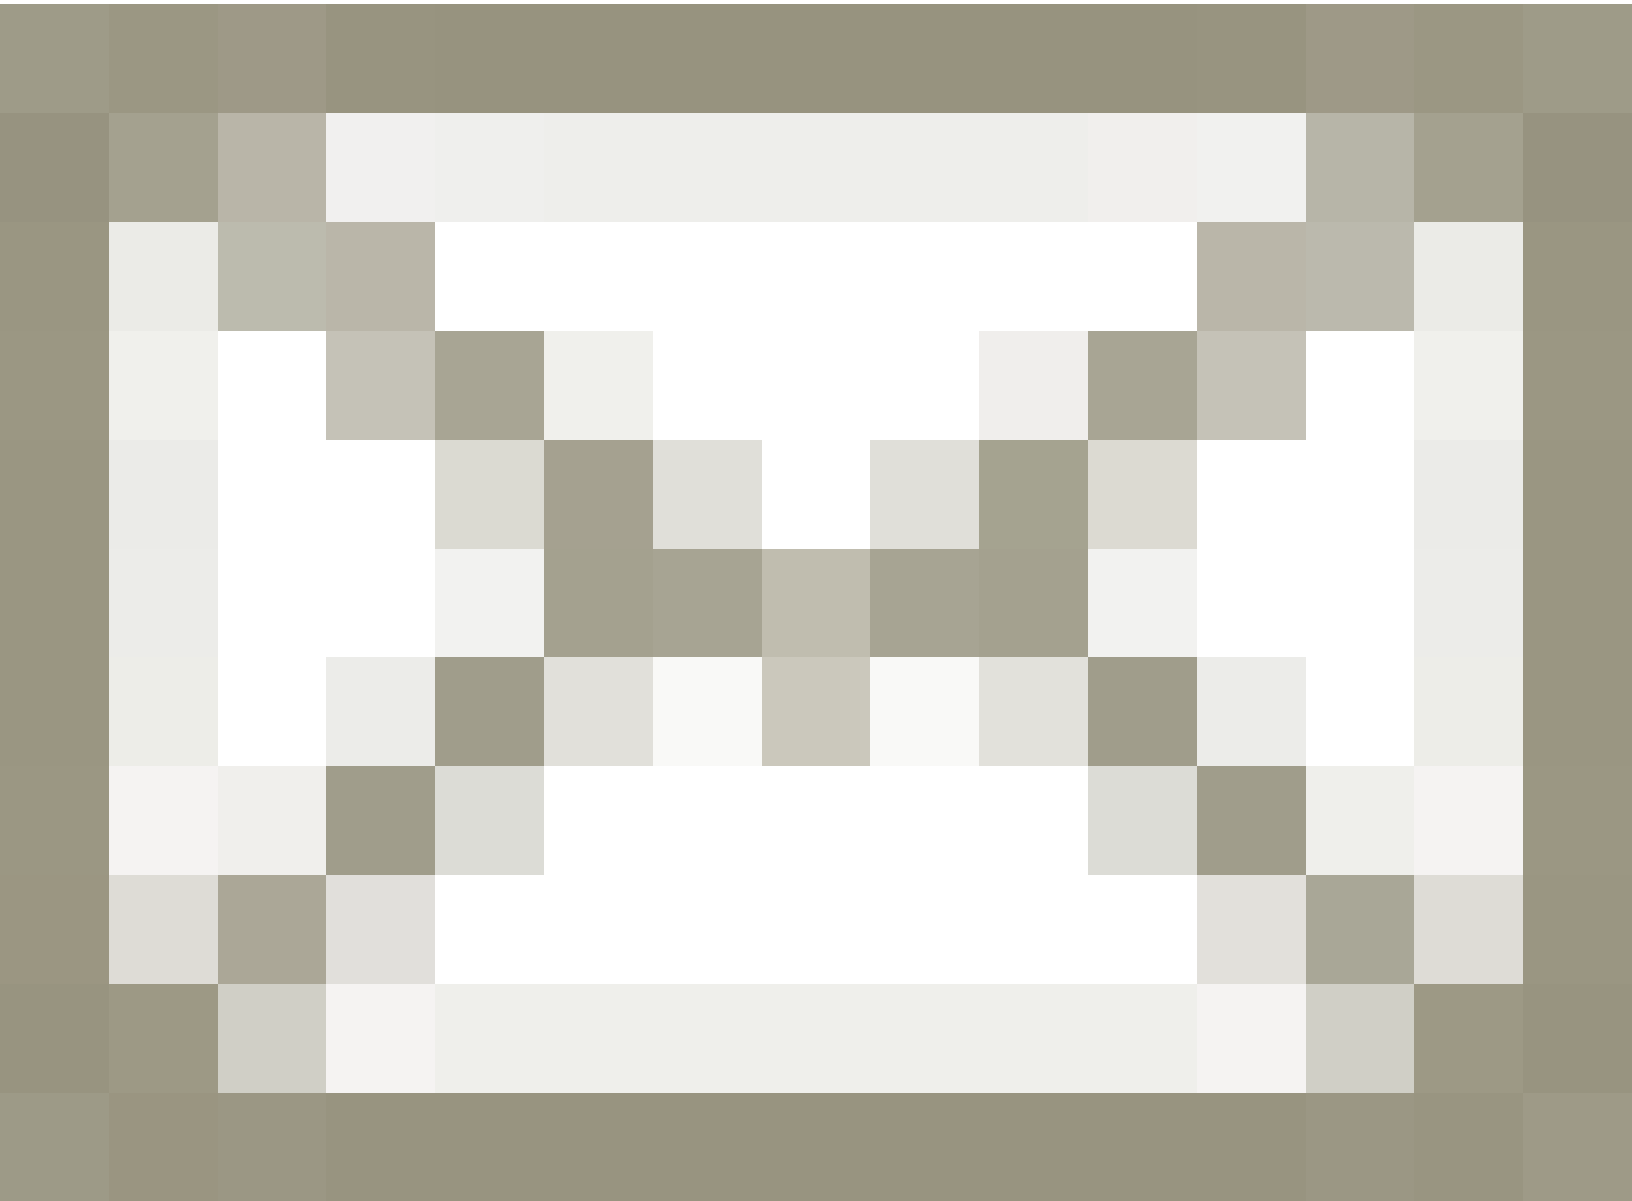

\* The commission may consider competitiveness of districts when drawing plans.

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

You can just send me the invoice. I'm sorry, but I'm still not clear on all the costs. For right now, let's do the map maker and comment tool. I have \$50,000.

So after the \$6,500 can I spend the rest on paying ahead for hosting? So that would be 14 months of hosting?

---

**From:** Fred Hejazi <[fhejazi@citygategis.com](mailto:fhejazi@citygategis.com)>

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

No. We can host that along with the public commenting. After public commenting is over we can see about moving it to a state sever. It is not a particularly CPU intensive application. Please let me know how the invoicing should get done. I need to set that up when we get the Amazon server setup.

Thanks

Fred

Joe,

We can get this up fairly quickly. We were waiting on a decision from you regarding how it was going to be hosted. If you are okay with us hosting, I will go ahead and get it spun up with data and get it going. As far as billing ahead, let me know how many months you want it billed for and I will send it in for that.

Thanks

Fred

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

Hi Fred. I guess I need a few more details on your note below. So the \$37,500 means we are buying the server to use for all time? And the support is for the software and the server? So we get the public map making feature, the comment feature, and the find my legislator feature for all that?

Joe,

Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks

Fred

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.

Ha. I had to think for a minute who you meant by illustrious. First time anyone has said that, even in jest.

Of course I agree with the distinguished chair. What do you think about “Census and Redistricting Update – What changed and what can legislative staff do to help people understand.”

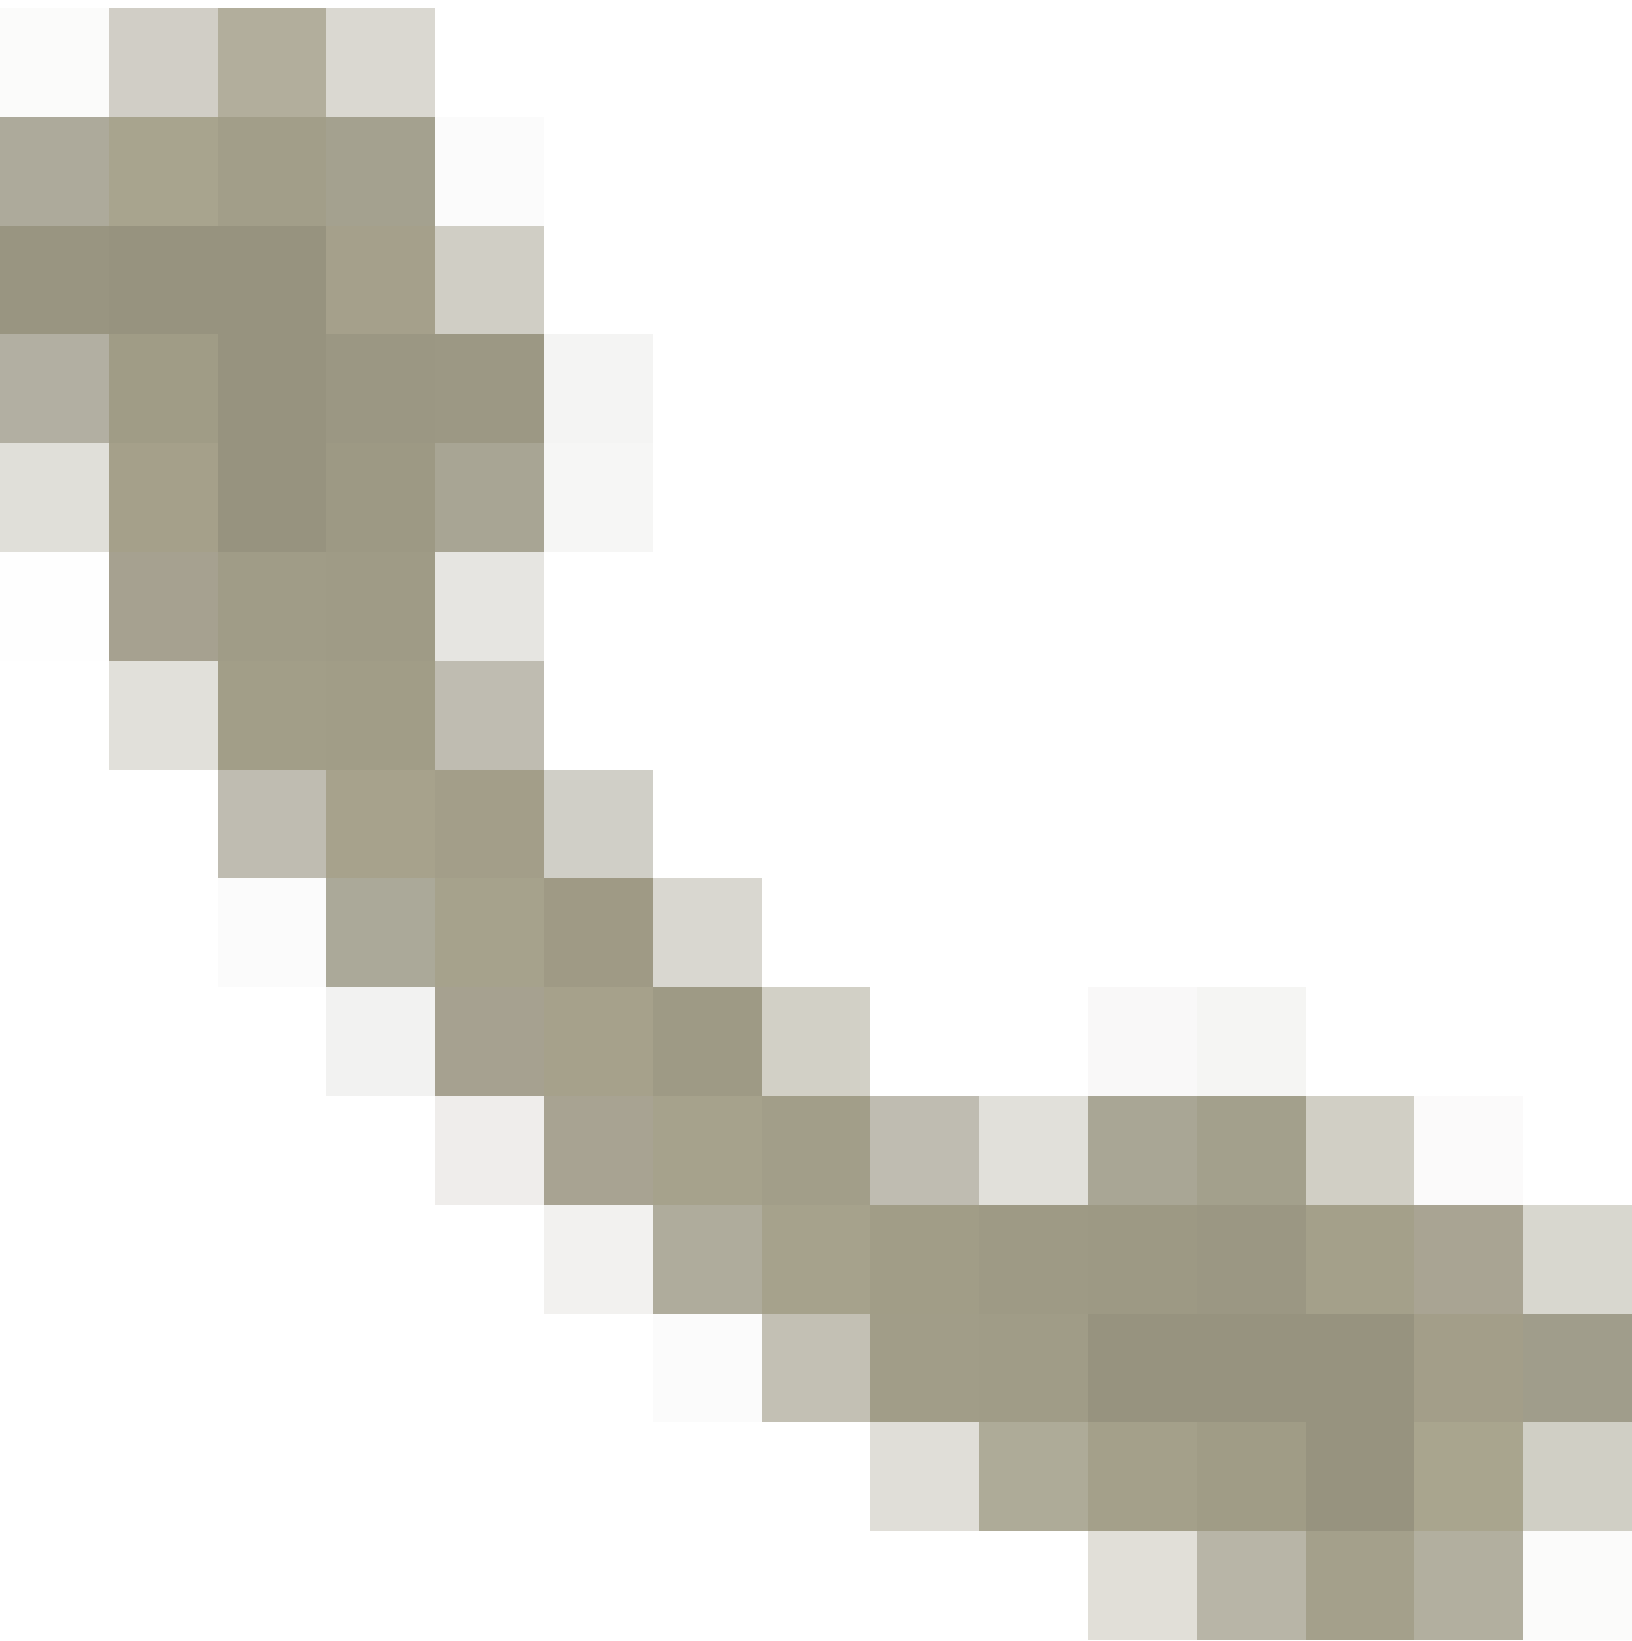

Not all that catchy really. But I’d like to get people thinking about how this matters to the average Joe. Or below average Joe such as the case may be. I mean, everyone sees the stories about the money tied to census and one person, one vote. Blah Blah Blah. But I’m looking for creative ways to present the information too. Interactive maps? Podcasts? Dog and Pony shows around the state?

Hello,

Rachel Weiss and I staff the Montana Redistricting Commission, which is considering the reallocation of prisoners and wanted to hear from some national, nonpartisan experts in the area. The good folks at NCSL recommended you. Rachel and I are hoping you could join us via Zoom for maybe an hour on August 17. I think the commission would like to hear about the technical aspects, but also some insights on criteria for making some of those decisions.

We can be flexible with the schedule. I don't think you would need to do much of a presentation. Just give some history and context and then be available for question.

This offer comes with the offer of drinks, dinner, dessert or all three on us the next time we gather. Hope you are well.

Provide historical overview of public comment during reapportionment/districting for last 3 to 4 cycles. For this cycle, look at options available. Including other states. (maybe the academic part of this is looking at the value/means of obtaining public opinion in policy related areas).

Concentrate on public mapping (Mike McDonald). <http://www.publicmapping.org/> Maybe UM wants to be part of this? (We have configured the software so it can be easily run on [Amazon Web Services](#) following our [installation instructions](#). It is important to understand while the software is free, the Amazon Web Services web hosting is not. Other server configurations are not free, and can have significant monthly fees, a maximum of approximately \$1,600/month for the highest capacity server configuration. Smaller configurations will have lower costs, and you can even manage your costs by turning on and off the server as you need it.)

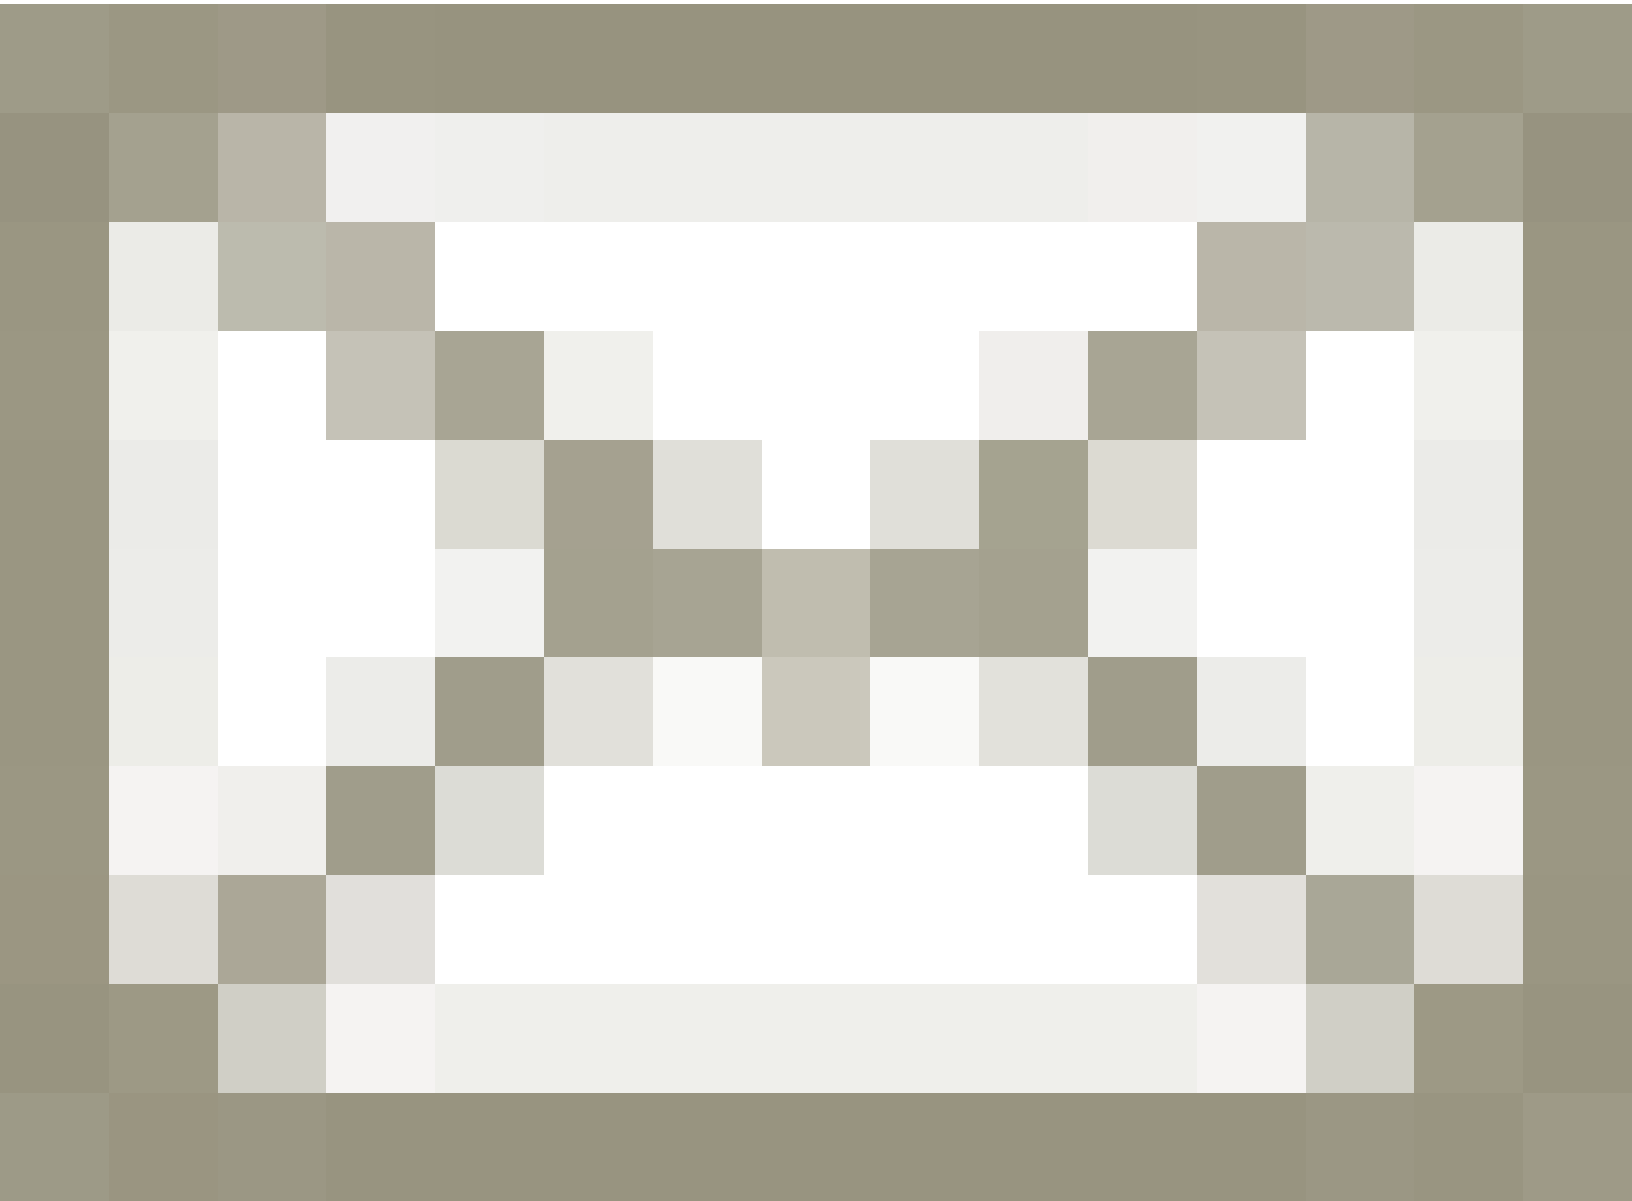

Start setting up a framework to receive mostly electronic public comment. Include ideas to solicit, file, analyze disseminate.

Work with website analyst to integrate public comment receipt and dissemination into the redistricting site.

Hi Fred,

I'm avoiding preparations for Thanksgiving, so I thought I'd put in one place a few questions.

- I attached the email string about offensive comments. Wondering why they show up on download sheet but not on the map?
- I can't seem to make the block equivalency file convert to shape with the tool.
- This one isn't redistricting. I want to use the comment feature on a map of conservation districts. I have a shapefile of the districts. I guess I can't quite figure out how to get around making it a "plan." Thoughts?

Thanks Fred. Happy Thanksgiving.

VII. Public Map Submissions A. The commission accepts redistricting plans drawn by individual citizens or organizations. B. Publicly submitted maps should comply with federal and state redistricting laws and commissioner adopted criteria. C. For each submitted plan, an individual or entity must provide: (1) current contact information for the individual or entity making the submission, including name, address, telephone number, and e-mail address; (2) a description of what goals the individual or entity aims to accomplish in the plan; and (3) a written explanation for each congressional district in the plan of the mandatory and/or discretionary criteria used and how those criteria justify any deviation from the ideal district population. D. (1) Although the commission encourages entities to submit electronic files, it will accept paper submissions. (2) Submitted plans must be based on official Census geography (TIGER line) and P.L. 94- 171 data. (3) The commission staff will use Maptitude for Redistricting by the Caliper Corporation as their software for redistricting. Because redistricting plans submitted electronically must be imported into this software, the commission prefers that computer-drafted plans be submitted as equivalency files giving the census block to district assignments. **These files may be submitted in .dat, .dbf., or .txt files.** (4) Plans may also be submitted as Esri Shapefiles (.shp) or Caliper data files (.cdf or .dbd). E. Although the commission must consider the statewide impact of any local or regional state legislative district map, the commission will accept partial local or regional maps.

**Subject:** [EXTERNAL] (Case CC312573) [Action Needed] Maptitude for Redistricting Training, April 20-22, 2021

Hello, Joel,

I am following up on the email I sent last week about the upcoming Maptitude for Redistricting Training.

**We need your response with your serial number so we can ensure you are set up for the training.**

This training will be held from 10 am Eastern to 5 pm Eastern each day, with a one-hour lunch break from 1 pm Eastern to 2 pm Eastern.

#### Setting Up for the Training

***Please reply to this message with your Maptitude for Redistricting serial number so that we can provide access to the proper region prior to the training. \*\*If you do not have a license for Maptitude for Redistricting, we are happy to provide you a training license for the training; be sure to let us know!\*\****

Please do the following prior to next week's training:

1. Download and install Maptitude for Redistricting 2020 , the USA data, and state data provided with your license.
2. Download the [training data \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b) ([https://caliper.sharefile.com/d-sb20fff571904640b \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b)) and extract it to c:\TrainingData.
3. Download the [training guide \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a) ([https://caliper.sharefile.com/d-s2a91d94a6664161a \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a)).
4. Confirm the software was installed and activated by clicking on the shortcut on your desktop to open the software.

#### Training Format

The training is a virtual three day course using GoToTraining. GoToTraining provides the capability to see the presenter's screen and share your own screen. You can join the audio portion using your computer or the mobile app; you can use a webcam if desired. We recommend using two monitors, or a computer and a tablet, so you can see the trainer's screen and your own at the same time.

Please provide your contact information to GoToTraining to receive meeting information automatically:

<https://attendee.gototraining.com/r/8382844189785874689> [attendee.gototraining.com]

After providing your information you will receive an email containing information about the training. If you are physically located with colleagues and would like to join together, you can join from a computer that will serve as a display (i.e. projecting for the group) and dial in so you can share audio, or you can join individually.

#### Need Help?

If you encounter difficulties while setting up for the training, please contact us before 5 pm Eastern on Monday, April 19, 2021 by phone (617-531-4155) or email ([sales@caliper.com](mailto:sales@caliper.com)).

I look forward to working with you next week,

**Tracy Horgan**  
**Director, Redistricting Services | Caliper Corporation**

1. Download and install Maptitude for Redistricting 2020 , the USA data, and state data provided with your license.
2. Download the [training data \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b) ([https://caliper.sharefile.com/d-sb20fff571904640b \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-sb20fff571904640b)) and extract it to c:\TrainingData.
3. Download the [training guide \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a) ([https://caliper.sharefile.com/d-s2a91d94a6664161a \[caliper.sharefile.com\]](https://caliper.sharefile.com/d-s2a91d94a6664161a)).
4. Confirm the software was installed and activated by clicking on the shortcut on your desktop to open the software.

#### Training Format

The training is a virtual three day course using GoToTraining. GoToTraining provides the capability to see the presenter's screen and share your own screen. You can join the audio portion using your computer or the mobile app; you can use a webcam if desired. We recommend using two monitors, or a computer and a tablet, so you can see the trainer's screen and your own at the same time.

Please provide your contact information to GoToTraining to receive meeting information automatically:

<https://attendee.gototraining.com/r/8382844189785874689> [attendee.gototraining.com]

After providing your information you will receive an email containing information about the training. If you are physically located with colleagues and would like to join together, you can join from a computer that will serve as a display (i.e. projecting for the group) and dial in so you can share audio, or you can join individually.

#### Need Help?

If you encounter difficulties while setting up for the training, please contact us before 5 pm Eastern on Monday, April 19, 2021 by phone (617-531-4155) or email ([sales@caliper.com](mailto:sales@caliper.com)).

I look forward to working with you next week,

**Tracy Horgan**

### Mandatory Criteria for Congressional Districts

- \* Districts must be as equal in population as is practicable (Article 1, Section 2, U.S. Constitution).
- \* Protection of minority voting rights are guaranteed in Article II, Section 4 of the Montana Constitution and through compliance with the Voting Rights Act. No district, plan, or proposal for a plan is acceptable if it affords members of a racial or language minority group “less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice.” (42 U.S.C. 1973). Race cannot be the predominant factor to which traditional redistricting criteria are subordinated. (Shaw v. Reno, 509 U.S. 630 1993).
- \* Each district shall consist of compact territory. (Article 5, Section 14 of the Montana Constitution). The Commission shall consider the district’s functional compactness in terms of travel and transportation, communication, and geography.
- \* Each district shall be contiguous, meaning that a district must be in one piece. (Article 5, Section 14 of the Montana Constitution). Areas that meet only at points of adjoining corners shall not be considered contiguous. Areas separated by natural geographical or artificial barriers that prevent transportation by vehicle on a maintained road shall be avoided when not in conflict with the commission's adopted criteria and goals.

### Goals for Congressional Districts

- \* No plan may be drawn to unduly favor a political party.
- \* The commission shall attempt to minimize dividing cities, towns, counties and federal reservations between two districts when possible.
- \* Keeping communities of interest intact. The Commission may consider keeping communities of interest intact. Communities of interest can be based on Indian reservations, urban interests, suburban interests, rural interests, tribal interests, neighborhoods, trade areas, geographic location, demographics, communication and transportation networks, social, cultural, historic, and economic interests and connections, or occupations and lifestyles.
- \* The commission may consider competitiveness of districts when drawing plans.

## Mandatory Criteria for State Legislative Districts

- Legislative districts must be as equal in population as is practicable. The commission shall remain within plus or minus 1% deviation, to be exceeded within federally allowable standards only for purposes of complying with the Voting Rights Act, maintaining political subdivisions, or other constitutionally mandatory criteria. The maximum average deviation of all House districts shall be no more than plus or minus 1% deviation. The commission may adjust this deviation if undercount analysis from the U.S. Census Bureau demonstrates that systematic undercounting occurred among identified geographic or demographic groups.
- Protection of minority voting rights are guaranteed in Article II, Section 4 of the Montana Constitution and through compliance with the Voting Rights Act. No district, plan, or proposal for a plan is acceptable if it affords members of a racial or language minority group “less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice.” (42 U.S.C. 1973). Race cannot be the predominant factor to which traditional redistricting criteria are subordinated. (Shaw v. Reno, 509 U.S. 630 1993).
- Each district shall consist of compact territory. (Article 5, Section 14 of the Montana Constitution). The Commission shall consider the district’s functional compactness in terms of travel and transportation, communication, and geography.
- Each district shall be contiguous, meaning that a district must be in one piece. (Article 5, Section 14 of the Montana Constitution). Areas that meet only at points of adjoining corners shall not be considered contiguous. Areas separated by natural geographical or artificial barriers that prevent transportation by vehicle on a maintained road shall be avoided when not in conflict with the commission's adopted criteria and goals.

## Goals for State Legislative Districts

- No plan may be drawn to unduly favor a political party.
- The commission shall attempt to minimize dividing cities, towns, counties and federal reservations when possible.
- Keeping communities of interest intact. The Commission may consider

keeping communities of interest intact. Communities of interest can be based on Indian reservations; urban interests, suburban interests, rural interests, including elementary and high school districts; tribal interests; neighborhoods; trade areas; geographic location; demographics; communication and transportation networks; social, cultural, historic, and economic interests and connections; or occupations and lifestyles.

- The commission may consider competitiveness of districts when drawing plans.
- The commission shall consider assigning holdover senators to the Senate District which contains the greatest number of residents of the district from which they were previously elected when possible.

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

**Subject:** RE: [EXTERNAL] FW: Montana Details for mydistricting

Joe,

Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks

Fred

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks  
Fred

Joe,  
Sorry about the delay. It took a little bit of effort to get your plan imported and tested. Here are the links

Link for users to create Communities of Interest:

<https://app.mydistricting.com/legdistricting/montana/community> [app.mydistricting.com]

Link for seeing the communities that have been created:

[https://app.mydistricting.com/legdistricting/montana/community\\_links](https://app.mydistricting.com/legdistricting/montana/community_links) [app.mydistricting.com]

Link for the users to comment on the map you provided:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Link for seeing what comments have been entered:

[https://app.mydistricting.com/legdistricting/montana/comment\\_links](https://app.mydistricting.com/legdistricting/montana/comment_links) [app.mydistricting.com]

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.  
If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks  
Fred

That would really be great. The commission deadline for submitting public maps is Sept. 17. So it would be great if we could allow the public to make maps and start commenting on them next week. The commission is very eager to get that up there and have said so in several public meeting.

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This

cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks

Fred

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.

---

You can just send me the invoice. I'm sorry, but I'm still not clear on all the costs. For right now, let's do the map maker and comment tool. I have \$50,000.

So after the \$6,500 can I spend the rest on paying ahead for hosting? So that would be 14 months of hosting?

No. We can host that along with the public commenting. After public commenting is over we can see about moving it to a state sever. It is not a particularly CPU intensive application. Please let me know how the invoicing should get done. I need to set that up when we get the Amazon server setup.

Thanks  
Fred

Joe,

We can get this up fairly quickly. We were waiting on a decision from you regarding how it was going to be hosted. If you are okay with us hosting, I will go ahead and get it spun up with data and get it going. As far as billing ahead, let me know how many months you want it billed for and I will send it in for that.

Thanks

Fred

**Importance:** High

Hi Fred.

What do we need to do to get this up and going? We are getting plans for the congressional district in now that we need to display and allow comment on.

So if I'm finally understanding, maybe, the \$6,500 gets us the public comment and the public map making ability. Then it's \$3,000 a month for hosting. Right? And then the find my legislator is another \$10,000? And does that require hosting too? (I'm not worried about that yet. We can handle that next year).

What I'd like to do is pay ahead for as many months hosting as I can with enough money left over for the Find my legislator. But the immediate need, like this week, is to get the plan commenter up and going.

Thank you.

Joe

Joe,

Yes, if you are purchasing the sever, then it is a perpetual license. That applies to all of our products. I provided the cost for annual support. It includes both the software and the server. My assumption was that you are still planning to use Maptitude for redistricting, so our desktop software was just going to be used for managing the server.

The price while I quoted was for the Public Map making, Commenting, and communities of interest which also includes single plan viewing. Find my legislator can be added for \$10K as an option. The plan viewer which allows plan comparisons and integrates with the bill drafting system is a separate piece of software. It is \$20K. I didn't think you were interested in that.

Thanks

Fred

Here is the link for user to try on the mobile

The cost of the server if you wish to run it yourself is \$37500. Plus \$8000 for annual support. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.  
If you want to have us host it. The cost is \$6500 for setup then \$3000 per month for hosting. This cost includes a copy of AutoBound EDGE desktop and MT 2020 data.

Thanks  
Fred

Hi Fred,

I'm meeting with some of our IT folks to talk about hosting in a couple of hours. I tried those links

again and it doesn't appear the current districts are there. I tried to upload some xml files just to see, but it said there was an invalid structure. If possible I'd like them to see what we are talking about. Thanks.
