RE: Request for Records under the Missouri Sunshine Law, Chapter 610, Revised Statutes of Missouri-
MO-REP-21-1716

Ms. Marwah Adhoob:

My office has received your request dated 02-01/2022 for the following records:

All email communications (including emails, email attachments, complete email chains, calendar invitations, and calendar invitation attachments) and text messages or messages on messaging platforms between Representative Kelley and the following:

1. Mike Lindell
2. Former Wisconsin Supreme Court justice Michael Gableman (mgableman@yahoo.com or wispecialcounsel@gmail.com)
3. Sidney Powell, and/or anyone communicating on behalf of Sidney Powell, P.C. (federalappeals.com)
4. Former National Security Advisor Mike Flynn (@generalflynn.com), Joseph Flynn, or anyone communicating on behalf of America's Future
5. Rudolph Giuliani, and/or anyone communicating on his behalf (such as Jo Ann Zafonte, Christianne Allen, Beau Wagner (@giulianisecurity.com, giulianipartners.com, gdcillc.com)
6. Cleta Mitchell (cleta@cletamitchell.com, cmitchell@foley.com, or @bradleyfdn.org)
7. Thomas Datwyler (tcdatwyler@gmail.com), or anyone communicating on behalf of the American Voting Rights Foundation
8. Phill Kline (phillklineva@gmail.com), Jacqueline Timmer, or anyone communicating on behalf of the American Voter's Alliance (@gotfreedom.org)
9. Jenna Ellis, and/or anyone communicating on behalf of Liberty University's Falkirk Center (@falkirkcenter.com) or the Thomas More Society (@thomasmoresociety.org) or the American Greatness Fund (@americangreatnessfund.com)
10. Corey Lewandowski
11. Earl Eugene Kern, and/or anyone communicating on behalf of Wake Technology Services, Inc. (@waketsi.com)
12. Ben Cotton, and/or anyone communicating on behalf of CyFir (@cyfir.com)
13. Heather Honey, and/or anyone communicating on behalf of Haystack Investigations (@haystackinvestigations.com)
14. Doug Logan, and/or anyone communicating on behalf of Cyber Ninjas (@cyberninjas.com)
15. Colonel Phil Waldron (phil@onewarrior.com, JWRLLC@gmail.com, or p@bonfiresearch.org), Russell Ramsland (ryuks9sq@alliedspecialops.us), James Keet Lewis III (keet@jkeetlewis.com) and/or anyone communicating on behalf of Allied Security Operations Group (@alliedspecialops.us)
16. Jovan Hutton Pulitzer (jovanhuttonpulitzer@gmail.com)

17. Patrick Byrne or anyone communicating on behalf of the America Project (@americaproject.com)
18. Matthew DePerno or anyone communicating on behalf of the DePerno Law Office (@depernolaw.com)
19. Catherine Engelbrecht or anyone communicating on behalf of True the Vote (@truethevote.org)
20. John Eastman (jeastman@claremont.org, @attorneyeastman.com)
21. Lin Wood, including (lwood@fightback.law)
22. Shiva Ayyadurai (vashiva@vashiva.com)
23. Hogan Gidley, Ken Blackwell (kennethblackwell693@gmail.com) or anyone communicating on behalf of the America First Policy Institute (@americafirstpolicy.com)
24. Barry Farah (barry@barryfarah.com)
25. Douglas Frank (drdouglasfrank@protonmail.com)
26. Ron Watkins

The cost to produce the requested documents will be \$48.06 (*calculated as 2 hours x \$21.93/hour to cover the cost of staff time to produce the records as well as \$0.10 per page for the records, \$4.20.*) My office chooses not to email copies due to lack of security and/or the size of files.

If you wish to proceed, payment must be received by March 1, 2022 or the records request will be void. Please mail a check in that amount payable to the "house Revolving Fund" to the following address:

Representative Ann Kelley
201 West Capitol Ave., Room 403-B
Jefferson City, MO 65101

Upon receipt of payment, the information will be mailed to:

American Oversight
1030 15th Street NW, Suite B255
Washington, DC 20005

Best regards,

A handwritten signature in blue ink that reads "Ann Kelley".

where the reader can scan the code with a digital device and have quick access to all the clickable links.

I moved quite a large number of information points to a second document that can go into more detail. Future publications can also include more visuals as part of the deeper dive. I thought the order of what is developed can be determined by your perspectives and hopefully by readers reaching out to Keith with inquiries.

I am also happy for this work to live on a website or websites/social media where it can easily be accessed and shared. Thoughts about the best place?

This was frustrating, as I knew the **Missouri-specific** information existed, but it was difficult to find. But here is much of it. As part of the process, I was able to directly communicate via Telegram with both Dr. Draza Smith and Jeff O'Donnell (The Lone Raccoon).

We may not be able to have a mass printing of the document to hand out on January 6, but I think we should go ahead and green light it. Though most Missourians (and most Americans!! up to 59% - or more!) think the election was a fraud, many do not know the facts contained in the letter. So we can educate ourselves as we also communicate respectfully and accurately with our elected officials and personal circle of influence. If we have consensus in time, I may be able to have a large version of the QR code placed on sturdy poster board so folks at the rally can grab it there for future use as well.

Please "reply all" here so we can see the edits recommended by one another. Thanks so much! I think this information and future in-depth versions to follow, will serve to accelerate the growing momentum of this movement.

Respectfully,
Gwen Staples

Dear Missouri Elected Official:

The outcome of the 2020 presidential election was so absurd that it begs to be reviewed. The county clerks worked their tails off, countless volunteers worked pre-dawn to dark. And yet, in between the paper transactions of registering & voting a paper ballot, the reliable paper information was converted to digital “0”s and “1”s, where an unknown entity nullified the work, *and the solemn right*, of Missourians by changing our election decisions to their pre-planned outcome in the digital ethernet, where no one could see their manipulation (or so they thought). Inexplicable, irregular election activity is factually recorded - **right here in Missouri**. Consider the following anomalies in the 2020 **Missouri** presidential election and tell me if you still believe our reported election outcome is the genuine, as-voted will of the People. Every fact is sourced and nearly all use url links you can view on demand; everything in blue is a clickable link.

- In Missouri’s 2020 presidential election, over 90% of registered voters cast a ballot (minute 38:07 of video); 60-70% is typical (minute 45:45). Fraudulent voter registration padding seems to have begun in 1996 (minute 42:15).¹⁸ Very suspect.
- Why did the **vote totals** of every Missouri county, as reported directly to Edison ([who is Edison](#)⁹) get **wiped to zero** and “reset,” beginning shortly before 2:00am on November 4, 2020? ¹⁵ See the times and length (over 48 hours) of MO’s Edison reset [here](#). ¹⁷ Prior to the “Edison zero” the results reported by counties did **not match** the state-reported totals (reported from secretaries of state to the New York Times). After the reset, they match. ¹ This is a fake election event.
- Why did every state – **all 50 states** – have their county-based results wiped to zero in the same timeframe on election night? ¹ In many states, like MO, it was days before the “restore.” This is a fake election event.
- [Here](#) you can visibly see where a statistically impossibly high number of Biden votes was recorded all at one time, falling completely out of line for Missouri voters.¹⁶ This is a visual demonstration of a fake election event.
- Why did the computer system (not election officials) drop more than 20,000 Missouri ballots from the totals? ² (answer: to make room for fake, [phantom votes](#)²² and [here](#), minute 21:30-23:00 ²¹). Ballots that are cast, counted and reported to do get covertly erased. This is a fake election event.
- Why do many Missouri counties have more registered voters than eligible voters? ³ This is a fake election event.
- How can more people in a MO county vote than are registered? ³ This is a fake election event.
- [Jeff O’Donnell](#) reviewed vote totals provided by counties to Edison in select Missouri counties upon my request. He noted Jackson County had a large vote dump at 3:20 am that broke more than 2-1 for Biden; Jackson County removed 346 votes from the totals on 11/4, and another 992 on 12/9, but neither candidate’s total changed. St. Louis City had 5 updates, with mail-in and in-person tallies coming in large chunks (unusual). They had 111 removals on 11/14 and another 505 on 12/9. St. Louis County had a vote update of 8,371 votes on 11/20 (very late). Greene had 472 votes deleted on 12/9. Boone had 196 votes deleted on 11/14 and 158 on 12/9. St. Charles County had 183 votes deleted on 12/9 (though no adjustments were made to candidate totals) and 30 minutes later 23 votes were added. All counties above except St. Louis County had strange deletions on December 9.¹²
- Why can a physicist take the voter registration for any county and **predict** with near 100% accuracy the number of ballots cast in the 2020 election? ³ Because the outcomes were determined by formulas before election day.
- Why do 2020 “votes” plotted by age look like an identical copy of 2010 census data, even when it causes more votes than registered voters or more votes than residents? ⁷ The outcomes were set by formulas before election day.
- Why can a physicist take the 2010 census data and predict election turn out in nearly 100% of counties with near 100% accuracy? ¹³ Because the outcomes were determined by formulas before election day.
- Why does the degree of accuracy of registration-to-ballots cast ratio (mentioned above) always find its home with the sixth decimal point, the same number of decimal points used in common spreadsheet software like Excel? Numbers don’t behave this way on their own.⁴ The outcomes were determined by formulas before election day.
- Missouri has 114 counties. Pick a legal voting age and a county. Age 37, Atchison County. The same % of 37 year olds voted in Atchison county as in all other 113 counties. How about age 73, Ralls county. Same % of 73 year olds voted in

every other MO county. The ratio for each specific age is different; the ratio for the same age in every county in a state is the same. The ratios are different in each state, but *inside* the state the same specific ratios are in play. **For all 50 states.** For each of 83 unique ages. And at times, the ratio doesn't apply just to the county, but it is precinct specific. This is true for just about 100% of the states/ages among all 50 US states.

When Kansas Citizens cross the Missouri-Kansas border, each age votes a different % in MO vs. KS. An artificial border determines different voter behavior that is defined by a one-year age span; or is an ill-written program unable to tell that Jackson County MO and Wyandotte County KS are part of one city? [This video](#) ⁵ explains the impossible phenomenon using the example of hair color instead of voter turnout. Outcomes set by formulas before election.

- The very short list of countries who use electronic voting devices reads like a who's who of third world countries. **Except the USA** is there. Just us; alone among industrialized nations. What countries have specifically outlawed it? Most of the rest of the industrialized world. ^{19, 20}
- Why would a malicious actor be interested in Missouri? Dr. Draza Smith explains here theory [here](#). ¹⁰

A December Rasmussen poll found that 56% of Americans believe the 2020 election was a fraud – **over half of the likely voters polled nationwide**. ¹⁴ We elect *you* to represent *us*, and we know this election is a fraudulent outcome. The USA will not be free of foreign and domestic election terror activity until we reclaim control of our election. Our decentralized elections were designed to be a safeguard against this fraud, but the decentralization is just a façade because of computerized election devices. We must have men and women of courage to reclaim our constitutional republic. Paper poll books only. Paper ballots only. Day-of-election voting only (with pre-COVID paper absentee protocols). Mandatory voter ID. Live-feed camera in every polling place's public spaces and all tabulation spaces. Verifiable vote selection by voter (QR code). Manufacturer-to-precinct traceable ballot paper (Authentix). The rest of the industrialized world refuses to use – and many **outright ban** – electronic voting devices. ^{20, 19} [See a map here](#).

More facts will follow, documenting in greater detail many of the points above, as well as others that have not been introduced yet. If you would like more information on a specific point, please contact Keith _____. Missouri voters are with you in this effort. We have your back; we will work for these election securities. We are monitoring the House and Senate progress on this – **the only priority that matters for the 2022 Missouri legislative session**.

Subject: Cyber symposium (South Dakota)

Honorable Mrs. Kelley:

I was able to catch some of the livestream from the Cyber Symposium hosted by Mr. Lindell last week and was very pleased to learn of your attendance there as a representative for MO.

I have three questions:

1. Were there any other state senators or representatives from Missouri in attendance at the symposium? (Bill Kidd is my representative and Mike Cierpiot my state Senator)
2. What was your take-away from the symposium?

My last question is two-fold and perhaps the most important:

3. How can I best support you in your efforts of focus for election integrity? And to whom may I lend all my energies in that support?

I feel that the people have been stolen from long before 2020 ever happened. And this having been discovered, the opportunity is fast closing upon us to correct this. And the world is depending on us to gain back for us all the ideals of freedom and self-governance America stands for. Of all the myriad issues we face in 2021, with secure elections the rest can be corrected.

Again, thank you for representing Missouri at the symposium and lending your energies to the "Election Integrity Caucus".

Direct me in how I can help.

With high regards,
Gina K Browne

Subject: full forensic audit of Missouri November, 2020 election results

I am a resident of [REDACTED], MO, not in your district, but that is irrelevant. It is clear to everyone that the election was stolen across the country, not only by the compromised machines which finds its roots in China, but by the criminal actors within the U.S. itself. I watched much of the Mike Lindell cyber symposium. I heard your name there. That is why I am e-mailing you. I request in the most urgent of terms that you share your findings/newly acquired knowledge with the full House and Senate of the State of Missouri. I myself would like to know what the actual vote count was for President Trump as opposed to the fraudulent vote. It is also imperative that the vote count be scrutinized for all those who were elected which are suspicious in nature. I think one name that comes to mind is the representative from the St. Louis area by the name of Cory Bush (I believe this is the name). It is not sufficient that President Trump won in Missouri; he was lucky there was so many voters for him. Missouri may not be so lucky the next time. You need to remove luck from the picture. You need to remove corruption which is rampant. This should become every legislators #1 priority; not getting reelected. As Mike Lindell says: If we don't fix this, we will not have a country. My view is that we are on a precipice. If this is not fixed, the future is loss of liberties and freedoms and a quick descent into absolute tyranny. We are seeing it already in the actions of the current administration, the FBI, the DHS, the DOJ, the silencing of dissenting opinions, the U.S. Senate, the U.S. House of Representatives, imprisoning Jan. 6th protestors into perpetuity without just cause or trial, the Jan. 6th riot set-up, Biden conflicts of interests with China (some would say he has been bought and sold), allowing hordes of unknown, illegal, (many hostile towards the U.S.), aliens into the U.S. carrying diseases of all sorts, targeting the FIRST and SECOND amendments, along with all the others. And, as much as I hate to say it, our Supreme Court is pretty much worthless. My opinion, not incompetent, but for some reason derelict in duty and have not lived up to the oath of office which they took for some reason. We can all have our own opinions about that. Are they scared? Have they been corrupted? How could they have said to President Trump that he did not have standing with respect to this election? To me, it is easy to extrapolate. Continue on the path of fraudulent elections, and welcome in never-ending tyranny and loss of all the freedoms that the Lord gave us. I think of the millions of people down the line whose souls, whose spirits, will be crushed by this impending disaster. I have only about 10 years left. I hope that when I leave, this country will still be the same one I grew up in.

Respectfully Nick
Schmedding

I am not elected what is suspicious in nature. I think one name that comes to mind is the request for the name of Cory Bush (I believe this is the name). It is not sufficient that President Trump won in Missouri. He was lucky there was so many voters for him. Missouri may not be so lucky the next time. You need to remove him from the picture. You need to remove corruption which is rampant. This should become every legislator's priority - not getting re-elected. As Mike Lindell says: "If we don't fix this, we will not have a country. My view is that we are on a precipice. If this is not fixed, the future's loss of liberties and freedoms and a quick descent into absolute tyranny. The evidence is already in the actions of the current administration, the FBI, the DHS, the DOJ, the silence of the U.S. Senate, the U.S. House of Representatives, imprisoning Jan 6, protecting intelligence, and the fact that the Jan 6 riot set-up, hidden conflicts of interest with China (some would say he has been paid to do so), allowing hordes of unknown, illegal, (many hostile towards the U.S.) aliens into the U.S. carrying out a takeover in all sorts, targeting the FIRST and SECOND Amendments, along with all the others. And, as much as I hate to say it, our Supreme Court is pretty much worthless. My opinion is not competent, but for some reason defect in duty. I have not lived up to the oath of office which they took for some reason. We can all have our own opinions about the election. Have they been corrupted? How could they have said to President Trump that he did not have to step down? This is a question. To me, it is easy to extrapolate. Continue on the path of fraudulent election results, and we are in never-ending tyranny and loss of all the freedoms that the Lord gave us. I think of the millions of people whose souls, whose spirits, will be crushed by this impending disaster. I have only about 30 years left. I hope that when I leave, this country will still be the same one I grew up in. Respectfully, Nick

On Fri, Aug 13, 2021, 6:27 PM Ann Kelley <Ann.Kelley@house.mo.gov> wrote:

Thank you for your encouraging words.

Unfortunately, unless the AG will issue an audit, we will have to wait until January. It will have to be passed legislation, which session begins again in January. Monday, I am hoping to get a meeting scheduled with the AG.

We do have a special election committee meeting at the end of the month scheduled. Plus The Secretary of State already has stated he wants to meet and decide what needs to be done and what can be done now. Ballots are locked up at each county clerk's office and the only way to get them is thru court order, so we have to see if there are any loopholes because the ballots are the key. We also need to make sure the clerk's office does not allow anyone to come in and update machines. We have to have the information on those machines too. I think more important, right now, is educating everyone, so when the time comes everyone understands that this issue is relevant to Missouri too and not just the blue states.

Arizona has paved the way for us, so I hope they have received all the information they need to finish their audit, so we can get those results sooner than later. These results are crucial.

Thank you again for your interest and willingness to standup and fight for our state and our country. I am going to add you to my contact list, so when there are new developments I can keep you posted.

God Bless and keep fighting.

Subject: Cyber Symposium

Dear Rep. Kelly, I wanted to commend you on your attendance at Mike Lindell's Cyber Symposium. Thank you for representing the people of Missouri to discover how our 2020 election was stolen from us. Although the outcome for the office of President in our state is most likely correct, it seems there were votes stolen in every state. One vote stolen is too many! I would like to see a forensic audit done in Missouri, if not the whole state, at least in a larger city such as St. Louis. This cannot happen again. Our vote is all that we have left to keep Communism from taking us over, if it's not too late already. I would like to see legislation passed to stop any hacking of the voting machines. Certainly to get rid of ANY machines associated with Dominion, Smartmatic, etc. Although I'm not in your district, I want to thank you for being a brave patriot. My representative is Rodger Reedy. I'll be contacting him to let him know to get with you on what he can help you with. I pray for wisdom, strength, courage and power for you and all who will help you. Thank you again for your patriotic service. Velda Andes

Subject: Thank you for attending the Cyber Symposium

I wish more legislators would do the hard work that you did by attending and analyzing all of the information. I thank you for my children!

I am anxious to know what actions you will now be taking in Missouri.

The below is what I sent my district representative. I thought I should let you know.

Good afternoon. I am a member of the MO First Audit group. We are imploring our representatives to do the following. Please use your office and the law to impact the below. Thank you!

Please start by taking a hard look at [REDACTED]. The actual clerk did not have access to the passwords and a third party voting machine company ran that election as we are told by Patriots that already investigated this county. That county requires a full forensic audit along with Greene, Clay and St Charles. See Capt Seth Keshel's data analysis on history and trends. He predicted almost 100% the 2016 election results by county. He has the data for Missouri and he has worked with MO First Audit group to get public available data.

What the members of the MO First Audit Group expects our legislators to do is the following:

Repeal "Help America Vote Act" of 2002

Full Forensic Audit

Legislation for 100% paper ballots (100% voiting machines are accessed remotely via wireless cellular and moving thumb drives and embedded web access code). there is just no question of that!

Legislation for no 3rd Party Vote Machine company employees involved in our elections what-so-ever!

No 6 month time period to report vote results - that's ridiculous.

100% voter official ID - no bills, no statements, no invoices - easily obtained official state issued ID

I urge you to learn about the brave county clerk in Mesa Colorado who at great peril to herself exposed what her constituents asked her to look into and what it revealed. The people pursuing the truth are risking everything. The least we can expect each of our representatives to do is to give this your full attention. There is simply nothing more important. The trust has been broken and if it does not get restored here and now regarding the 2020 election, we lose this great Democratic Republic. I'm a parent. I am not going to let that happen. I support any candidate in the next election that vows to put Patriots first and not either of the 2 parties in this country.

Visit [Frankspeech.com](https://www.Frankspeech.com) to find the video of "Absolute Proof" every single elected official should look at all of this compelling information. If you don't, you are failing "We The People" who are extremely concerned the power block is winning and the people are losing. And, what we are losing is a future for our children. That is something we will fight for and no consequence for that fight is too great.

Ok, so there are two chapters to this massive voter fraud. Chapter One. The criminals did not want Our Votes to be counted fairly because Pres Trump would win again. Step 1: criminals inflated registered voter rolls nationwide by preventing voters from being removed (moved away, dead etc.), by adding back previously removed voters, allowing new voters to be registered without I.D. check, mailing new absentee ballots, delivering drop box ballots without chain-of-custody, etc. Net result, criminals created over 8 million extra fake voters to add to actual Biden vote count which they thought would beat Our real votes for Pres. Trump. Step 2: program vote count machines to use formula for counting votes. The formula begins by multiplying 90% times 2010 Census reported voting age citizens to create fake total registered voter count for 2020 election. Next, formula multiplies fake total registered voter count by 86% to create fake total ballot count for each age group (e.g. 18 yr old, 19,20,21,22 etc. up to 100 yr old). Finally, formula sets Biden to receive 53 votes for every 47 votes Pres Trump gets. Now, in targeted precincts, IF actual Pres Trump votes get to 47 but actual Biden vote counts fall short, say 40, then machine formula will deduct 13 votes from the fake register voter pool (8 million) and add it to actual Biden vote count so that Biden is ahead, again, with 53 [i.e. 40 real votes plus 13 fake votes=53 fake Biden total] against Pres Trump's 47 actual votes. Criminals thought they had the race fixed.

Chapter Two. BUT Patriots turned Out in Historic breaking numbers to vote for Our Pres Trump, along with Patriots who never voted before (e.g. Pennsylvania Amish, former blue collar Dems, so called rednecks, Evangelical Christians, etc.) Bottom line Pres Trump's actual ballot vote count exceeded Biden actual ballot count by 15 million which is 7 million more than the 8 million fake registered voter pool that the criminals were counting on to win election. Criminals had BIG problem, criminals had to create another 8 million fake votes to beat Pres Trump on election night. Mike Lindell will show how criminals instructed their vote count machines, on election night and days after, to 'switch actual votes from Pres. Trump to Biden, and add new fake ballots, etc. So the answer is the criminals had to resort to two different fraudulent vote count schemes. See when the criminal's first fraudulent vote count scheme failed, the criminals had to enter the vote count machines to do a second fraudulent vote count. But Mike Lindell's whistleblower sources caught

these criminals red-handed with PCAPs doing all this fraud. It is good to ask questions, because WE have to develop an easy-to-understand explanation. We will have to explain all this soon to get Our Representatives to clean the registered voter rolls, and do forensic audit on vote count machines, etc. In fact, Pennsylvania Senate fired the private company that was used to 'manage' Pennsylvania voter registration rolls, and hired a new company to completely overhaul voter rolls statewide. We need to do the same here.

Our group is growing by the day and we are all in the same boat waging the same fight to save our children's futures. And we appreciate having you in the boat with us. You have my respect!

Respectfully,
Kim Edwards

I agree with your defense of the county clerks and the push for a full forensic audit (music to my ears!). Now that we know for certain hacking of the election machines is possible and was done in some states, let's get to the bottom of if/how/to-what-extent it happened in Missouri counties in 2020. Thank you for being a brave shining light for our state!

As far as your question about who is in charge of the purchasing of voting machines in each state, I do not know the answer to that yet. I will research and get back to you as soon as possible.

Thank you!

[REDACTED]

Dear Ms. Kelley,

I wanted to say thank you for being a representative from Missouri that was willing to attend Mike Lindell's Cyber Symposium. I hope that it has been informative and eye opening, and you were able to find other representatives who are in this fight with you for election integrity. I know the people of Missouri are behind you.

Since I saw that you went, I wanted to make you aware of an email I received from the county clerk in Cedar County when I sent an invitation asking her to attend and/or watch the live-streamed symposium. This is not an attempt to call her out, because I truly appreciated her taking the time to even respond back to me (most clerks did not). I simply want to make you aware of the lack of understanding from your county clerks of the capabilities of these election machines. Her response is below....

I am unable to attend this presentation due to a prior scheduled engagement. Furthermore, my election machines are not connected to the internet at any time, nor is our election tabulating machine, therefore there can be no PCAP data on my machines.

In Service,

Heather York

Cedar County Clerk

Phone: [417.276.6700](tel:417.276.6700) E.222

I am very curious to know if any PCAP data was captured from Cedar County, if you are able to get that information while you are at the symposium.

I want to reiterate how very grateful I am as a Missourian to have a representative who is willing to stand up for the truth and help fix the 2020 election. Thank you, again.

Sincerely,
Sarah Busick

Just wanted to drop a note saying thanks for taking time to attend the symposium put on by Mike Lindell about voter integrity.

I am a Missouri resident living in S [REDACTED] currently and was shocked by the alignment of data and suggested invalid votes presented by the three data scientists. I am a network engineer by trade and technology geek at heart and appreciated them "getting into the weeds" with the numbers.

Checking into some of the information from a few of their websites they suggest that around 49000 votes were given to Joe Biden that should not have been. The integrity of the vote is important to me as it should be for all citizens.

Are you aware of groups of citizens in Missouri that may be working on ideas to assure accurate vote counting and reporting in Missouri? I am just a concerned citizen looking to get involved however I can.

Thanks,
Kurt

Representative Kelley,

I really appreciate hearing that you attended Mike Lindell's cyber symposium.

While I live in [REDACTED] and not in your district, you still represent my interests as a Missouri Representative. Please let me know if there is anything I can do to support you moving forward.

Thank you and God Bless You

Subject: Symposium

Honorable Ann Kelley,

I live in [REDACTED] Wildwood, MO. I am involved in the movement to take back our Republic, and have been openly addressing our [REDACTED] St. Louis County Council in defense of our rights against mask mandates and mandatory injections.

I watched as much as I could of Mike Lindell's symposium. We desperately need to reform our election system. I am a poll worker here and can see the vulnerabilities.

Thank you for attending Mike Lindell's symposium and representing our state. Add me to your mailing list and let me know if there is something I can do to help. You need to know that you are definitely not alone, that you are on the right side, and that we will win this fight.

Hi Representative Kelley,

My wife and I live across the state in [REDACTED]. Justin Hill is our representative.

We wanted to thank you for taking time to be a Lindell's symposium. We understand there was a second Missouri Person attending too. If he/she is also in the legislature, we would be pleased to follow up too. We can write to Justin too.

While the information was interesting and he had many experts that showed how voting systems could be compromised, we're not really sure what the next steps are? He showed Missouri with the votes, and what the should have been, based on his analysis. While the overall outcome didn't change, it showed a shifting of votes. And that had an impact on the country wide totals.

Does and should Missouri have a full forensic audit? Are our voting machines secure?

Any thoughts or direction would be greatly appreciated.

Sincerely,
Bill boedeker

Dear Representative Kelley,

Thank you for attending the Cyber Symposium in South Dakota. I watched all three days worth of coverage. I was very impressed with the information presented even though the streams were attacked and a little disjointed at times.

I appreciate your support of our state performing a full forensic audit of the 2020 Election. One person, one honest vote.

I know you do not represent my district but you do represent the state of Missouri and I hope you can urge the rest of your colleagues in the Missouri House and the Republican Caucus in particular to demand an audit with the intention to guarantee free and fair elections and secure them from fraud and attack.

Kind regards,
