FOIA Request Numbers: 2019-02979, 2019-02980 & 2019-02982

Dear Mr. Evers:

This is in response to the above referenced Freedom of Information Act (FOIA) requests.

In response to your request, staff located 501 pages of responsive records, which were forwarded to this office for a release determination. After careful review, we determined 86 pages are appropriate for release in full, 408 pages are appropriate for release in part and 7 pages must be withheld in their entirety. Copies of releasable records are attached.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, records were redacted or withheld in full from disclosure to you under the following exemptions:

(b)(5)
(b)(6)
(b)(7)(C)
(b)(7)(E)
(b)(7)(F).

An explanation of the FOIA exemptions is attached.

As you are aware, because of the complexity of your requests, the amount of time required to process your requests in their entirety has increased. In an effort to be as responsive to your requests as possible, we are processing the records currently available and will supplement the release as more records become available. Once the final set of records is provided to you, you will receive appeal rights that apply to the entire release, regardless of when the date you receive the records.

Sincerely,

for

Darrin Howard
Regional Counsel

4. **Visiting Facilities:**

Ordinarily, visits not requiring additional security measures will be conducted in the institution Visiting Rooms. This may include inmates housed in the Special Housing Unit. Separate areas within the Visiting Room have been provided for attorney visits. The rooms will be made available to attorneys on a first come, first serve basis. These rooms will not be utilized for social visits without the Warden's approval.

A room is also set up and equipped for the children who are visiting inmates.

5. **Front Entrance Procedures:** All visitors will be processed into the institution in accordance with the institution supplement for Entrance Procedures.

Visitors will be required to complete and sign a Notification to Visitor Form (BP-A0224) prior to each visit, acknowledging that the guidelines were provided and declaring they do not have any articles in their

All institution visitors will be required to pass through the walk-thru metal detector which may require removal of shoes, belts, glasses, or other clothing accessories. Any visitor refusing will be denied the visit. To clear a visitor with the hand-held metal detector, the screening officer must have reasonable assurance the visitor is not in possession of a prohibited item.

All unsatisfactory results will be brought to the attention of the West Operations Lieutenant.

The processing of visitors will commence 30 minutes prior to the start of visiting hours. Visitors arriving to the institution within one hour prior to the end of visiting hours will not be processed or permitted to visit.

All visitors to the institution will be required to have his/her hand stamped for additional security and identification purposes.

6. **Social Visiting:**

For pretrial and holdover inmates, approved social visitors may visit for one hour per week at the time designated for that inmate's housing unit. The hour will begin once the inmate has arrived in the visiting room. Inmates are permitted only one social visit per day and a maximum of four social visitors at one time.

In an effort to accommodate the inmate population and alleviate congestion during evening visitations, an "Odd/Even" visiting system has been implemented. Social visits are scheduled to occur weekday afternoons (including those falling on federal holidays) from 12:00 p.m. until 2:00 p.m., evenings from 5:00 p.m. until 6:30 p.m., and weekends from 8:00 a.m. until 2:00 p.m.

An inmate alternates between afternoon and evening visiting each month based on the 5th digit of the inmate's

AMERICAN OVERSIGHT

register number. For example, an inmate with the register number 00005-053 would follow the "odd" number schedule; whereas, an inmate with the register number 00006-053 would follow the "even" number schedule.

During the even numbered months (February, April, June, October, and December) the "even" numbered inmates will visit in the afternoon, and the "odd" numbered inmates would visit in the evening. During the odd numbered months (January, March, May, July, September, and November), the visiting times reverse: the odd numbered inmates visit in the afternoon, and even numbered inmates visit in the evenings.

For designated inmates, approved social visitors may visit cadre inmates for the duration of 8:00 a.m. until 2:00 p.m. on each day designated for cadre unit visiting, space permitting.

On weekdays and holidays, visitors will not be permitted to enter the facility after 6:30 p.m. On weekends, visitors will not be permitted to enter the facility after 2:00 p.m.

Each visiting session permits an entire housing unit to visit during one specific date. The sessions are as follows:

East Building:
Sunday - Female Unit
Monday - Legal only
Tuesday - Legal only
Wednesday - Legal only
Thursday - Legal only
Friday - Legal only
Saturday - Female Unit

West Building:
Sunday - Male Cadre
Monday - 6th Floor (I)
Tuesday - 7th Floor (J) (K-83 # 00-32)
Wednesday - 5th Floor (H) (K-83 # 33-65)
Thursday - 4th Floor (G) (K-83 # 66-99)
Friday - 8th Floor (K) (K-84 and Cadre)
Saturday - Male Cadre

AMERICAN OVERSIGHT

Visits on federal holidays will be afforded to the Unit whose regular visiting days fall on the particular holiday date. **NOTE:** Should inmates be present in the Visiting Room during official count or institutional lock down accountability census checks, they will be recorded on an official out count/lock down census form and officially counted in the Visiting Room.

1. **Use of Restrooms:**
   Visitors and inmates will not be permitted to use the same restrooms in the Visiting Room. Restroom facilities are available in the Front Lobby for use by approved visitors. There are also separate restrooms for the visitors and inmates inside the Visiting Room. Any inmate using the restroom will be escorted by staff and remain under staff's constant supervision. Visitor restrooms may be monitored physically only with the Warden's written approval and only after it is determined there is a reasonable suspicion a visitor and/or inmate is engaged, or attempting to engage, in a criminal activity or other prohibited behavior. 7. **Visiting Limitations**: Inmates will be allowed only one social visit on a single day. Visitors may only visit one inmate at a time, unless the inmates are immediate family members.

Any questions related to visiting more than one inmate at a time will be addressed by the unit staff. Inmates that have children in excess of the maximum visitors allowed will need prior approval from the Unit Manager before the visit.

Ordinarily, social visitors will not be permitted to visit with inmates assigned to different housing units as visiting is based on an inmate's assigned housing unit.

Visitors on social visits will not be permitted to exchange places or alternate with another visitor outside the Visiting Room. Once a social visitor leaves the Visiting Room, the visit with that social visitor is considered completed and terminated. The visitor may not re-enter the Visiting Room until the next visiting day.

If overcrowding remains an issue, visitors who have been in the Visiting Room for the longest period of time will be requested to leave first.

All visitors arriving in the Visiting Room must report to the main desk and receive their assigned seat. Once assigned a seat, the visit will be conducted only at the assigned table. The Visiting Room Officer is responsible for assigning seating at all times.

Upon entering the Visiting Room, inmates will report to the main desk to be checked in and be directed to the assigned seat. An inmate is prohibited from relocating their assigned seat for the duration of the visit. Inmates are prohibited from using the vending machines.

One embrace and one brief kiss are permitted at the beginning and at the conclusion of a visit. Inappropriate physical contact between an inmate and his visitor will not be permitted and will be grounds for termination of the visit. At a minimum, the female visitor will drape her infant and chest with clothing so there will be minimal chance of an exposed breast. If, however, in a particular instance, the breastfeeding is conducted in a manner that is disruptive to other inmates or visitors, or is fascilltaing conduct prohibited under the BOP's disciplinary code, the visit will be terminated and further actions may be considered.**

AMERICAN OVERSIGHT

10. **Supervision of Visits:** Visiting Room Officers will monitor inmate visits and will be aware of any articles passed between the inmate and the visitor, if there is any reasonable basis to suspect materials are being passed between inmates and visitors, the Visiting Room Officer may examine the item(s). The Operations Lieutenant will be consulted in questionable cases. Inmates are responsible for ensuring their visitors conduct themselves in a dignified manner. Inmates and their visitors are responsible for the behavior of their children. Visits not conducted in an appropriate manner will be terminated. Requests for approved visits (after normal visiting hours) will be handled on a case by case basis. The Captain will be consulted for the purpose of providing staff supervision and approval.

11. **Parenting Room/Children's Area (Visiting Room):** Inmates are not permitted in the area designated for children, except when participating in an approved Education Parenting Program, or when Cadre inmates request and receive prior approval. Games are provided for the children while in the visiting room. However, the inmate and his/her visitors are responsible for their children's actions while in the visiting room. Failure to maintain control of their children may result in the inmate's visit being terminated.

12. **Meals:** Vending machines in the Visiting Room are stocked with various food and beverage items. Inmates not wishing to terminate their visits in order to eat in their respective units will remain in the Visiting Room during meal times. Meals will not be served in the Visiting Room. Meals will not be saved in the units for inmates in the Visiting Room to include legal visits.

13. **Interruption of Visit:** Any inmate or visitor who departs from the Visiting Room will not be allowed to resume the visit on that day, unless authorized by a Lieutenant or the Duty Officer. Visits will not normally be interrupted (other than for visiting rules violations) except when necessary to respond to institutional emergencies or at the direction of the Warden or designee (Operations Lieutenant).

14. **Penalty for Violation of Visiting Regulations:** Visit Terminations: The decision to limit or terminate a visit for Central Inmate Monitoring (CIM) concerns, security concerns, or for reasons of improper conduct by the inmate

AMERICAN OVERSIGHT

or visitors, will be made by the Operations Lieutenant or Duty Officer. The privilege to have future visits may be denied as part of a disciplinary action brought against the inmate.

Criminal prosecution may be initiated against the visitor, the inmate, or both, in cases of criminal violations.

Visit Denials: anytime a visit is denied, the Lobby Officer will complete the Visit Denial Memorandum Form (Attachment D). It will be approved by the Operations Lieutenant or Duty Officer and routed to the responsible Associate Warden.

15. **Exit Procedures:** Inmates requesting to depart the Visiting Room will not be re-admitted. All inmates will be identified by picture card prior to their visitor's departure from the Visiting Room.

Visitors will immediately depart the Visiting Room after completion of their visit. When exiting the visiting room each visitor will have their hand checked, verifying the hand stamp of the day, by the control center officer. Any visitor that cannot be identified will not be allowed to exit the institution until properly identified by the West Operations Lieutenant.

16. **Implementation of Visiting:** Ordinarily, within the first five working days after arrival, an inmate may establish a visiting list through their Unit Team; inmates will complete a Request for Visitor Approval Form (Attachment B), which is reviewed by Unit Staff with the inmate. If further background information is necessary or required, the "Visitor Information Form" (BP-A0629) will be completed and returned to the Unit Team. Each visitor will be provided written guidelines for visiting in the institution.

An inmate's visiting list will not be accepted until all information is completed in its entirety on the Visitor Information Form (BP-A0629). Once an individual has been approved for visitation, the Unit Counselor will enter the information into the visiting program.

A hard copy of the computerized visiting list will be placed in a backup system for the Visiting program.

AMERICAN OVERSIGHT

The Unit Counselor will notify the inmate of those visitors who have been approved.

A maximum of eight visitors on the visiting list will be authorized. After six months of clear conduct, two additional visitors can be added on an inmate's visiting list.

The Unit Counselor will provide the inmate information approved visitors should become familiar with, prior to their first visit. This information will provide them directions to the institution, proper attire, items allowed to bring into the visiting room, etc. It is the inmate's responsibility to inform the visitor of the rules of the Visiting Room. It is important for inmates to remember they are responsible for their visitors' conduct when they enter the institution.

The Unit Counselor will review visiting lists, ensuring their accuracy. Once the initial visiting list has been completed, it may be amended through the inmate's submission of an Inmate Request to Staff Member Form (COP-OUT) as often as every ninety (90) days.

a. **Procedures for Disapproving Proposed Visitors:** In the event staff proposed to disapprove a visitor, the respective Unit Team will route the request for disapproval through the Captain, Associate Warden (Programs), and the Warden for the final decision. Staff shall notify the inmate of the approval or disapproval of a requested person on the visiting list. The inmate is responsible for notifying the visitor of the approval or disapproval.

b. **Visiting Lists:** It is the inmate's responsibility to submit a visiting list request to the Unit Counselor. If a requested visitor is an immediate family member of the inmate (i.e., mother, father, siblings, wife by marriage, or child) and they have the same last name as the inmate, the visitor will be placed on the visiting list within three working days of the submission of the request. If an individual has a different last name, the Unit Team may require documentation prior to the initial visit. Pre-trial and Holdover inmates must provide documented proof of immediate family relationships.

AMERICAN OVERSIGHT

Common Law relationships are not recognized under New York State law therefore, Common Law relationships established in New York State are not considered immediate family members at MDC Brooklyn.

For inmates designated to MDC Brooklyn, in addition to immediate family members, the work cadre inmates may have up to four (4) other relatives or friends added to their approved visiting lists. The list may be changed every ninety (90) days. Other relatives and friends will be those persons with whom the inmate had an association with prior to incarceration. This association must be determined by the inmate's Unit Team to be a positive relationship. In addition, it is the inmate's responsibility to ensure visitors submit documentation that verifies their relationship. These relatives and friends will be added to the visiting list only after a favorable background check has been completed. The inmate will be notified of the approval or disapproval so that he/she can notify the proposed visitor. Exceptions to the prior relationship rule may be made, particularly for inmates without other visitors, when it is shown that the proposed visitor is reliable and poses no threat to the security or good order of the institution. This request will be submitted to the Unit Team and approved by the Unit Manager.

Visitors must complete a Request for Visit Form and submit a Release of Information Form for a background check. This form is available from the Unit Counselor and will be mailed to the visitor by the inmate. Once the prospective visitor completes the questionnaire, the form must be mailed back to the institution, directly to the Unit Counselor. If the visitor has no criminal record, he/she may be placed on the visiting list. Members of the immediate family will normally be approved without further investigation, except as noted above. The inmate will be required to forward the Visiting Regulations and the Information and Release Authorization Forms to the proposed visitors. The Visitor Information sheet (Attachment C) with the signed Release Authorization Form must be returned to the Unit Counselor by the proposed visitor, prior to any further action concerning visiting. Upon receipt of the completed authorization forms, the Unit Counselor will initiate an NCIC check.

AMERICAN OVERSIGHT

c. **Other Authorized Visitors:** Special visits may be authorized for former or prospective employers, sponsors, or from persons not on the approved social visitors list. Special visits may occur for purposes of a family emergency, pre-release planning, or other instances when visiting is not possible during scheduled visiting hours.

Such visits must be approved by the responsible Associate Warden or Administrative Duty Officer. When a special visit is approved, the Unit Counselor will forward a copy of the approving memorandum to the Front Lobby Officer, Visiting Room Staff and the Lieutenant's Office. If the visit will take place outside of normal visiting room hours, the staff member responsible for approving the visit will arrange supervision.

Consult Bureau of Prisons Program Statement 5267.09 (Dec. 10, 2015), *Visiting Regulations*, for further information regarding special visitors.

17. **Persons with Prior Criminal Convictions**: The existence of a criminal conviction alone does not preclude visits. Staff shall give consideration to the nature, extent, and recentness of convictions, as weighed against the security considerations of the institution. Specific approval of the Warden may be required before such visits take place.

Ordinarily, staff should obtain written authorization from the appropriate Federal or State probation/parole official prior to approving visitation privileges for an individual on probation, parole or supervised release. A copy of this authorization will be maintained in section 2 or the Privacy Folder in the Inmate Central File.

18. **Business Visitors:** Except for pretrial inmates, an inmate is not permitted to engage actively in a business or profession. An inmate who was engaged in a business or profession prior to commitment is expected to assign authority for the operation of such business or profession to a person in the community. Pretrial inmates may be allowed special visitors for the purpose of protecting the pretrial inmate's business interests. In those instances where an inmate has turned over the operation of a business or profession to another person, there still may be an occasion where a decision must be made which will

AMERICAN OVERSIGHT

substantially affect the assets or prospects of the business. The Warden accordingly may permit a special business visit in such cases. The Warden may waive the requirement for the existence of an established relationship prior to confinement for visitors approved under this paragraph.

19. **Religious Visits:** Religious visiting is identified as Minister of Record and Clergy.

An inmate wanting to receive visits from his/her Minister of Record must submit a written request to the Chaplain. Upon approval, Unit Staff will add the name and title (Minister of Record) to the inmate's visiting list. An inmate may only have one Minister of Record on his/her visiting list at a time.

The addition of the Minister of Record will not count against the total number of authorized regular visitors an inmate is allowed to have on his/her visiting list, and will not count against the number of social visits allowed.

The Chaplain may also recommend a religious visit for an inmate by a Clergyman or religious representative. The Chaplain will prepare and distribute an authorization memorandum, approved by the responsible Associate Warden, for each visit. These visits will not be counted as regular social visits. Clergy visits (other than the Minster of Record) will be in accordance with the general visitor procedures and will count against the total number of regular visits allowed.

Ordinarily, Clergy visits will not be accommodated unless requested by the inmate. However, the Chaplain may approve a visitation request initiated by the Clergy, if the inmate wishes to visit with the Clergy.

Clergy/Minister of Record visits will be accommodated in the Visiting Room during the regularly scheduled visiting hours and to the extent practicable, in an area of the Visiting Room which provides a degree of separation from other visitors. If a private area is not available, the visit maybe rescheduled.

The Warden may establish a limit to the number of Minister of Records and Clergy visits an inmate receives each month, consistent with available resources.

AMERICAN OVERSIGHT

However, during times of personal or family emergencies, an inmate will be authorized a visit from his/her Minister of Record.

20. **Prisoner Visitation and Support Service (PVS) Visits**: These visits are not to be counted as social visits. PVS visitors are authorized to carry into the institution a pen, pencil and paper for note taking purposes. PVS visitors must adhere to all institution and Visiting Room rules/regulations.

21. **Official Visits**: Representatives of law enforcement agencies, U.S. Parole/Probation Offices, U.S. Public Defenders, Court assigned Sentencing Officials, attorneys, approved attorney representatives and mental health professionals performing court ordered examinations, will receive priority when processing. Official visitors, with the exception of the Assistant U.S. Attorney, U.S. Parole/Probation Officers, U.S. Public Defenders and Law Enforcement Officers will be required to complete a Notification to Visitor Form (BP-224).

22. **Minor Children**: A signature of a parent or guardian will be necessary to process the visitation request of individuals less than eighteen (18) years of age. Visitors under the age of sixteen (16) must be accompanied by a parent or guardian. It is the responsibility of the adult accompanying the child to ensure that the child's behavior does not interfere with normal visiting operations. A child disrupting visiting room operations will be cause to cancel the visit. Young children, age four and under, who will remain on the visitors lap during the entire visit do not count towards the visitor limit of four. **No children of any age are allowed to sit in the lap of inmates during social visiting.**

Any visitor over the age of sixteen must provide verification of identity. This may be accomplished by comparing the photo and name on a valid driver's license, school identification card, or state or federal picture identification. The absence of an expiration date does not deem the above referenced forms of identification invalid; however, if identification appears questionable, another form of identification may be requested.

23. **Attorneys**: Attorneys and legal representatives are afforded visiting hours prior to the start of social visiting on weekdays. Exclusive attorney visiting hours are Monday - Friday, 7:30 a.m. to 12:00 p.m. Attorneys can utilize social visiting hours to meet with clients but are encouraged to utilize the legal visiting hours to avoid overcrowding.

Attorneys are permitted to request up to three clients at a time. If security concerns permit, all three inmates will be brought to the visiting room for the attorney to meet with each client individually. The attorney will meet with one client while the other two wait in the designated waiting area.

Special circumstances or visiting requirements not indicated in this Supplement should be addressed with MDC Brooklyn's Legal Department.

Attorneys and legal representatives are expected to follow all visiting room regulations and procedures outlined in Program Statement 1315.07, Inmate Legal Activities.

24. **Visits for Offenders Not In a Regular Population Setting:**

a. **Hospital Patients:** Inmates admitted to local hospitals for medical treatment will not be allowed any visits unless requested by the Unit Team, through the Captain, Associate Warden Programs, and the Warden for final approval. In those instances when a visit is authorized, the visitors will only be permitted to visit during the pre-arranged time as set forth by the Captain and appropriate Unit Manager. All United States Marshals/ICE inmates will be referred to the appropriate Marshals.

These visits shall not exceed more than one hour in duration and will be conducted with direct staff supervision. The escorting staff members will provide supervision during the social visit. Positive visitor identification, search, and all other required visiting procedures at the hospital will be in effect.

Visits may be prohibited or restricted for inmates under strict medical care, i.e., suffering from infectious disease, or who are psychotic, suicidal, or otherwise not in a condition to see visitors.

AMERICAN OVERSIGHT

The situation will be carefully explained to the visitor and documented in the inmate's central file. In such cases, Medical and/or Psychological staff, in conjunction with the Administrative Duty Officer, will determine whether a visit may take place. The aforementioned staff will also determine the location of the visit.

b. **No Visitors Requested:** If the inmate does not request to receive visits, a notation will be made in the Visiting program and documented in the inmate's central file. On the screen, where visitors are normally listed, it should display, "No Visitors Requested".

c. **Administrative Detention/Disciplinary Segregation:** Inmates in Administrative Detention or Disciplinary Segregation will only visit in the non-contact visiting rooms located in the Special Housing Unit, unless other arrangements are authorized by the Warden.

Attorney visits for inmates in Administrative Detention and Disciplinary Segregation will be conducted in the Special Housing Unit Attorney room located in the Special Housing Unit. The Operations Lieutenant will be notified when an inmate in the Special Housing Unit has a visit.

Inmates in the Special Housing Unit will visit on days they would normally visit according to their assigned unit, unless a CIM and/or security concerns exist. These instances will be handled on an individual case by case basis.

d. **CIM Concerns/Separation Cases:** Due to the unique mission of MDC Brooklyn, it is not uncommon to house inmates who have separate(s) inside the institution. To ensure the safety of these individuals, the Lobby Officer, C&A Officer and the Visiting Room #1 Officer must check their SENTRY rosters for any separation concerns, prior to the inmate being allowed into the Visiting Room. If CIM concerns exist, the Lobby Officer will notify the Visiting Room #1 Officer, prior to granting the visitors access. The Visiting Room #1 Officer will verify the inmate's CIM information, and contact the CIM Clearance Officer to properly clear the inmate for his/her social visit.

e. **Records Maintenance:** Unit Team will be responsible for all inmates visiting information records maintenance.

3. **PROCEDURES:**

A. Admission:

1. Pretrial inmates are delivered by agents of the U.S. Marshals Service or other authorized federal law enforcement agencies and admitted to the institution. For the purpose of this supplement, "pretrial inmate" means a person who is legally detained, but for whom the Bureau of Prisons have not received notification of conviction. Thus, "pretrial inmate" ordinarily includes a person awaiting trial, being tried, or awaiting a verdict. An inmate committed for civil contempt, or as a deportable alien, or as a material witness is also considered a pretrial inmate.

AMERICAN OVERSIGHT

2. A Prisoner Remand is completed and signed by the agent delivering the individual. Correctional Systems staff will verify that this document includes, at a minimum, the individual's name; information regarding the offense or details of the detention; personal information about the individual such as physical description, citizenship, address, phone, social security number, and separatee information.

3. Intake Screening will be completed on all new arrivals and court returns by Unit Management staff members Monday through Friday from 7:30 a.m. - 4:00 p.m. Intake Screening will be conducted by the Intake Screening Counselor Monday through Friday from 4:00 p.m. through 12:00 a.m., excluding Weekends and Holidays. Correctional Systems staff will conduct intake screening Monday through Friday from 12:00 a.m. - 7:30 a.m., excluding Weekends and Holidays. Correctional Services will conduct intake screening on Weekends should intake screening be necessary.

4. All newly admitted inmates will receive an Admission and Orientation handbook upon admittance to MDC Brooklyn. The handbook will consist of Inmate Rights and Responsibilities and the Bureau of Prisons Prohibited Acts and Disciplinary System. During intake screening, pretrial inmates are advised they may have contact with convicted inmates. The Intake Screener will ensure that the Federal Prison System Pretrial Inmate Work Waiver/ Notice of Separation (BP-S203), Acknowledgment of Inmate, Part 1 & 2 (BP-S407), and the Acknowledgment of Inmate, Part 3 & 4 (BP-S408) forms are completed during intake screening. Additionally, a PREA assessment will be completed to determine the risk of victimization and abusiveness on every inmate during the intake screening process. The Intake Screener will also complete the Pretrial Inmate Interview form (BP-S562). Pretrial inmates returning from court will be interviewed to determine if the inmate's status has changed as a result of a court appearance. All intake screening forms will be forwarded to the appropriate unit team by the Intake Screening Unit. A copy of the information received from the U.S. Marshals documenting an inmate's notoriety in the community, especially if he or she could bring attention to the Bureau of Prisons, will be forwarded to the Warden through the Associate Warden, Programs (AWP), with a copy to the Unit Manager and Case Management Coordinator (CMC).

5. After intake screening is complete, the Counts & Assignments (C&A) officer is responsible for keying inmates into the appropriate housing unit. All females will be assigned to the designated female housing unit. All designated cadre inmates once they are medically cleared, will be assigned to the Cadre Unit. All other male pretrial/holdover inmates will be assigned to the Intake Unit for the purpose of Medical Intake Screening. Once an inmate is medically clear he will be moved to a unit with available bed space. Housing unit assignments will be completed by the C&A officer once all newly committed inmates have been medically cleared. The C&A officer is solely responsible for keying these assignments into SENTRY. Housing unit demographics will be monitored via SENTRY by the assigned Unit Manager to ensure a balanced inmate population is maintained. Due to the many separation cases held at this facility, a PP10 Central Inmate Monitoring (CIM) Clearance and Separatee Data transaction will be accessed by the Intake Screener to ensure separation cases are not

AMERICAN OVERSIGHT

housed together. Inmates voicing safety concerns will be placed in the Special Housing Unit until a Threat Assessment is conducted by the SIS Department. Should an inmate require a change in a housing unit, the appropriate Unit Manager and/or Unit Team Counselor will review SENTRY information for possible separatees or other management concerns before the move occurs.

6. All inmates who may pose special management concerns will be brought to the attention of the Warden by the Intake Screener through notification to the AWP. This will be accomplished by forwarding a copy of the intake screening form to the AWP. The CMC will also receive a copy in the event of potential CIM concerns.

7. The Case Manager assigned to the housing unit will confirm and verify information on the intake screening forms supplied by the Intake Screener. Additionally, each pretrial inmate will be scheduled for an initial review by the assigned unit team within 21 calender days of arrival, and subsequent reviews will be conducted at least every 90 days thereafter. At a minimum, the pretrial program reviews will consist of two unit staff selected from among the unit manager, case manager, and counselor. The Pre-trial Inmate Review Report (BP-A561) will be used to complete each program review.

8. Unit staff will ensure all pretrial inmates are provided with information about how to receive counseling services in the event such services requested (utilizing an Inmate Request to Staff Member Form BP-S148.055). Additionally, inmates may submit requests to staff by use of the TRULINCS email system. This system allows inmates to make requests to various institutional departments and Executive Staff, by submitting the request directly to the intended designee.

9. At each program review, the unit team will review the inmates' court status and on occasion may need to contact the appropriate court officials to determine the judicial status of the inmate.

B. <u>Pre-trial Records and Files</u>

1. File Accountability: Files on pretrial inmates will consist of a six-part central file and will be counted daily in accordance with the procedures listed in Program Statement 5800.11, <u>Inmate Central File, Privacy Folder and Parole Mini-files</u>. The count and any changes such as transfers in and out of the unit or institution will be logged in a pretrial file accountability log. All file accountability documents including the weekly roster used for counting the pretrial files will be kept for a period of 90 days.

2. Should a pretrial inmate be sentenced or transferred, the Correctional Systems staff will notify the Unit Team who will then take the pre-trial file to the Correctional Systems Department. File material forwarded to the Correctional Systems Department will be placed with the Judgment & Commitment (J&C) file; then forwarded to the receiving institution after Correctional Systems staff completes the required sign-out procedures. This procedure will be a manual log out of the file, detailing reasons, date and staff concerned.

AMERICAN OVERSIGHT

C. Work Assignments

1. Pretrial inmates may not be compelled to work other than to perform housekeeping tasks in their cells and in the community living area. Pretrial inmates who elect to sign a work waiver can be assigned to any work assignment, other than those requiring cadre or gate pass status. When the inmate's behavior suggests an inability to comprehend the waiver, a referral to psychology staff will be completed prior to an assignment of the inmate to a work detail.

2. All work assignments for inmates housed on each housing unit will be made by the respective Unit Manager. Work assignments will be made in the chronological order in which they are received. Unit team staff will solicit requests for work assignments at the initial classification meetings. These requests will be documented via the Inmate Request to Staff Member Form.

D. Psychological or Medical:

The court shall be advised through the U.S. Marshals Service of any medication prescribed to a pretrial inmate, which may alter the inmate's courtroom behavior. A Department Head, ordinarily the Associate Warden of Programs will notify the court, via a memorandum through the appropriate US Marshal. This advisement will also be forwarded to the appropriate U.S. Attorney and the inmate's attorney. An Inmate Request to Staff Member Form can be submitted to psychology staff by an inmate who wishes to gain access to counseling services.

E. Discipline

Unit staff will advise the court of serious institutional misconduct or repetitive behavior problems by pretrial inmates via the appropriate US Marshals Service (Attachment 1). This advisement will also be forwarded to the appropriate Chief US Probation Officer, Assistant United States Attorney, and the appropriate Designations and Sentence Computation Center team after sentencing to facilitate appropriate institutional assignment.

F. Clothing

During the intake process, inmates will fill out a clothing form. Correctional Systems staff will issue one set of clothing to the inmate. The next business day, the laundry department will issue another set of clothing to the inmate on the Intake Unit. Inmates arriving on Friday will receive one set of clothing from Correctional Systems staff. A full issue of clothing items will be made available to the inmate on the next business day. The Unit Officer will issue hygiene items upon the inmate's arrival on the unit.

G. Legal Material in Law Library:

1. Attorneys are permitted to visit inmates according to the following schedule: Monday through Friday from 8:00 a.m. to 7:30 p.m. Saturday, Sunday and Federal Holidays from 8:00 a.m. to 3:00 p.m. Attorney visits will be conducted in the Visiting Room. Special visiting privileges are extended to Federal Probation Officials, bail bondsmen, local law enforcement officials and/or social service agencies.

2. In addition to what is available to inmates in the housing unit, access to legal materials will be available during the inmate law library times. CD's or DVD's may be sent directly to an inmate from a Defense Attorney or the Assistant United States Attorney. An inmate may possess up to 150 CD's in his personal locker; however, if the amount of CDs exceeds the 150 CD limit; they must store the excess CDs in the law library. Inmates may not have more than 15 CDs in their possession when visiting the law library or the visiting room to review discovery. CD's or DVD's can be viewed in the housing units on a daily basis and during the units scheduled library session. No personal electronic equipment is permitted (ear buds or head phones) in the education department. In certain circumstances, inmates may be provided a non-writeable hard drive to view their discovery material, which may be viewed in both the law library and the housing unit. The non-writeable hard drive will be stored in their personal property to provide greater access for viewing discovery on the housing unit.

H. Education/Leisure Library Access:

The library has fiction, non-fiction, paperback and hardback cover books, reference materials, periodicals, newspapers, and magazines for inmate use. All housing units are assigned a time for utilizing the leisure library. Inmates should check the unit bulletin boards for scheduled days and times. All inmates who desire to participate in programs available through Education Services will submit an Inmate Request to Staff Member form to the Supervisor of Education. These individuals will be scheduled for an individual interview to assess how education plans will be developed for enrollment in available programs. General Equivalency Diploma (GED) and English As a Second Language (ESL) programs are provided for Pre-Trial inmates, based upon the availability of unit based tutors. Additional programs are available based on education staff and volunteer schedules.

I. Court Clothing

Inmates are afforded the opportunity to have court clothing delivered to the institution. All court clothing must be authorized by the courts. If further exchange is required, the inmate or the courts will notify Correctional Systems Staff.

J. Commitment Prior to Arraignment

When Federal Agents arrive with an inmate who has not been arraigned, the following procedures will be adhered to:

1. Once the entire intake process is complete, the entire file will be placed into the court folder. This is to ensure that the arraignments are processed with the morning court line.

AMERICAN OVERSIGHT

2. In the event the agents have not picked the inmate up by 10:00 am on the arraignment date, the on-duty supervisor will make all attempts to contact the remanding agent, as well as, notify the Supervisory Deputy Marshal from the district which the inmate is to be arraigned to ensure the inmate will be picked-up for arraignment.

- User Text: As I was conducting rounds I saw some suspicious activities in Cell J02-726. Inmate (b)(7)(C); (b)(6) had his bunk covered. When I asked his cell mate inmate (b)(7)(C); (b)(6) to remove the prayer rug I saw inmate (b)(7)(C); (b)(6) quickly throw a shiney square object on to his bed. I have reason to believe its a cell phone.

Female Offender Manual

Approved: Thomas R. Kane
Acting Director, Federal Bureau of Prisons

1. PURPOSE AND SCOPE

To ensure the Bureau provides programs, services, and policies that are gender-responsive, trauma-informed, culturally sensitive, and address the unique needs of incarcerated females at facilities that house female offenders.

This policy addresses specific needs of female offenders within the Bureau of Prisons; this policy is not intended to provide preferential treatment based solely on gender.

Definitions

- *Gender-responsive* approaches are based on an understanding of the ways females are different from men. They aim to address issues of importance to females.
- *Trauma-informed* approaches recognize the experiences and outcomes of all types of trauma and take steps to address them through policy and programs.
- *Culturally sensitive* approaches understand persons of different ethnic or demographic backgrounds may differ or be similar, and value diversity regardless.
- *Stakeholders* are a person, group, or organization that has interest or concern in the Bureau of Prisons. Stakeholders can affect or be affected by the Bureau's actions, objectives, and policies. Some examples of key stakeholders are judges, directors, professors, employees, government agencies, unions, and community.

Federal Regulations from 28 CFR are shown in this type.
Implementing instructions are shown in this type.

Policy Rescinded
P5200.01 Female Offenders, Management of (8/4/1997)
P6070.05 Birth Control, Pregnancy, Child Placement, and Abortion (8/9/1996)

This policy has been extensively updated, and incorporates Program Statement 6070.05.

b. **Program Objectives**. Expected results of this program are:

- The unique needs of female offenders will be considered as Bureau policy is developed and revised.
- Divisions with institutional programs will develop measurable objectives to ensure female offenders and related special population inmates can access programs and services that meet their individual needs and prepare them to return to the community.
- Sufficient resources/staffing should be allocated to deliver appropriate programs and services to female offenders and related special populations. This goal is particularly important at female satellite facilities attached to male institutions.
- Inmates will have appropriate information about pregnancy prevention options, programs for pregnant females, and counseling or assistance offerings.
- Staff will receive adequate training, enabling them to work effectively with female offenders and related special populations.
- The Female Offender Branch's role is defined, maximizing efficiency of oversight and resource utilization.

c. **Institution Supplement**. None required. Should local facilities make any changes outside changes required in national policy or establish any additional local procedures to implement national policy, the local Union may invoke to negotiate procedures or appropriate arrangements.

Section 1. POLICIES AND APPLICABILITY

1. APPLICABILITY

This policy applies to all Bureau of Prisons institutions that house female offenders. Guidance that does not apply or differs for facilities housing pretrial or holdover inmates is noted below.

2. STAFF RESPONSIBILITIES

The following Bureau components are responsible for ensuring consistent establishment of the programs, services, and resource allocations necessary for female offenders.

a. Central Office

(1) The **Female Offender Branch** is the agency's source for expertise on classification, management, and intervention programs and practices for females in Bureau custody. The Branch is led by a licensed clinical psychologist and staffed by programming and policy authorities. The Branch is responsible for the following functions:

- Engaging with stakeholders, including serving as the primary point of contact on issues affecting incarcerated females. Feedback is obtained from stakeholders on at least an annual basis.
- Ensuring the Bureau offers appropriate services to inmates that are gender-responsive and trauma-informed.
- Preparing budgetary requests to deliver national and pilot programs or services affecting females.
- Providing guidance and direction to Regional staff and institution leadership.
- Developing and implementing staff training.
- Building a research-based foundation for the Bureau's work with females.
- Presenting at internal and external conferences/events regarding the agency's female offender practices.
- Developing and monitoring monthly reports on the female population and institutional programs.
- Issuing an annual report on the state of female offenders in the Bureau.
- Advising agency leadership on female offender needs through the submission of Executive Staff Papers.
- Obtaining feedback from female offenders on an annual basis and sharing results with internal and external stakeholders.
- Providing national oversight of pilot programs and initiatives serving female offenders.

- Launching recruitment and retention initiatives for staff interested in working with female offenders.

(2) The **Central Office Branches/Divisions** of Correctional Services, Psychology Services, Chaplaincy Services, Education, Correctional Programs, Reentry Affairs, Residential Reentry Management, Health Services, Social Work, Office of General Counsel, Program Review, Intelligence and Counter Terrorism, and Trust Fund meet annually with the Female Offender Branch to discuss female population needs and to evaluate current gender-responsive services. A national union representative from the Council of Prison Locals will be invited to these meetings. During these meetings, the Branches/Divisions share program participation information within their discipline area. The Program Review Division notifies the Branch quarterly of any deficient or acceptable ratings at female institutions within these disciplines based on policy.

b. **Regions**

- Ensure staffing at female facilities is appropriate. This includes satellite camps, which must have designated positions to provide programming.
- Establish a Regional Female Offender Coordinator Collateral Duty Assignment. This individual meets quarterly with the Female Offender Branch to discuss staffing and programming needs. He/she should be allotted twenty percent of his/her duty time to fulfill this role.
- Provide oversight to institutions regarding new programs and other relevant trends.
- Consult with the Female Offender Branch based on the branch's monitoring of program utilization.

c. **Institutions**

- Offer established programs and services that target the needs and interests of female offenders.
- Track participation in programs by updating SENTRY and other databases as appropriate.
- Compile a list of gender-responsive programs for posting at the facility, with a copy provided quarterly to the regional coordinator.
- Participate (Wardens) in quarterly meetings with the Female Offender Branch.
- Ensure institution volunteers are appropriately trained in the needs of female offenders.

3. STAFF TRAINING SPECIFIC TO FEMALE OFFENDERS

Staff learn to work with inmates from special populations through the completion of general and specialized training offered throughout their careers.

AMERICAN OVERSIGHT
DOJ-19-0278, 19-0279, 19-0280-K-000289

All staff at institutions or complexes housing female offenders are required to complete training developed by the Female Offender Branch and the trauma-informed correctional care module. Thereafter, refresher information is provided locally on annual basis.

Wardens shall remain aware of gender responsivity issues via mandatory quarterly videoconferences with the Female Offender Branch. The Union will be invited to participate.

4. SPECIAL POPULATIONS

Research has demonstrated that program effectiveness is maximized when services target specific population needs. While some programs may be appropriate for any inmates, offenders' needs may also vary based on gender, age, ability, or other factors. Policy must also take into account that not all inmates are the same, and ensure the needs of members of smaller populations are adequately addressed and treated. Individuals may be members of more than one special population. This section defines membership in special populations and identifies programming considerations for inmates who are also members of these populations.

Some special populations of offenders include:

- Geriatric Inmates.
- Lesbian, Gay, Bisexual, Transgender, or Intersex Inmates.
- Inmates from Unique Jurisdictions (e.g., Illegal Aliens).
- High Security Unit Females.

a. **Geriatric Inmates**. Geriatric inmates are defined as those at least 65 years of age or older, although aging inmates may seek similar services at age 50. Studies suggest members of the inmate population may present as physiologically older than their actual age due to a combination of lifestyle factors. Considerations for the management of elderly inmates may include the need for longer time to travel across the compound, the possibility of placement in a housing unit near Health Services or the dining hall, the need for an inmate companion, or housing on the bottom level of a facility. Programming considerations may include the need for larger print material or the need for specialty program implementation. The Female Offender Branch should be consulted about program implementation or modification issues.

b. **Lesbian, Gay, Bisexual, Transgender, or Intersex Females**. Lesbian, Gay, Bisexual, Transgender, or Intersex (LGBTI) inmates are a diverse population. Lesbian, gay, and bisexual refer to the sexual orientation of the inmate. Transgender refers to inmates who identify as being a different gender than that which they were designated at birth. Intersex inmates are persons who, due to prenatal development factors, may not fit into recognized chromosomal or reproductive categories of male or female. Females may fall into more than one of these

AMERICAN OVERSIGHT

2019-02980 290 of 494

categories. Staff are encouraged to consult the Bureau's current policies and practices concerning transgender inmates for additional guidance.

LGBTI individuals are more likely than some other inmate populations to have experienced victimization, which may affect their interactions with staff and inmates. Institutions are encouraged to provide access to self-help materials with reentry resource information for this population.

c. **Inmates from Unique Jurisdictions**. Female offenders from jurisdictions with unique rules may have different reentry needs from the rest of the population. Information about release to these areas is distributed to the field, and should be part of an inmate's release planning. The physical location of children and families in the designation and transfer of inmates who are not U.S. citizens should be considered.

d**. High Security Females.** Generally, females in the Bureau are classified at one of two security levels. A small, but service-intensive proportion of the female population requires more secure conditions of confinement due to behavioral/management or criminal history issues. Females requiring this level of security may require a higher rate of individualized services, as limited group options are likely to be available.

5. **POLICY**

Managers consider the needs of female offenders and consult with the Female Offender Branch as appropriate during the development of policy.

Section 2. MANAGEMENT OF FEMALE OFFENDERS

1. CLASSIFICATION AND DESIGNATION

The Bureau's classification system takes into account the different ways risk factors for re-offense may apply to females. Management variables should not be used to overclassify females.

a. **Distance from Home**. Females are incarcerated at much lower rates than males. As a result, there are fewer institutions housing female offenders, meaning females are, on average, housed at greater distances from home than men. Staff will consider location of children and families, not just release destination, and involve the inmates in a discussion of options.

b. **Female Administrative Unit**. High security female inmates may be housed in administrative units, such as the one currently at the Federal Medical Center (FMC) Carswell. The majority of female offenders are appropriate for housing at minimum or low security facilities. A very small number of females may require more secure confinement. Female offenders will receive mental health screening prior to placement on this unit consistent with the procedures for male inmates referred to the Administrative Maximum Penitentiary (ADX) described in the Program Statement **Treatment and Care of Inmates With Mental Illness**.

The Female Offender Branch can provide assistance in establishing appropriate programs for these inmates. In addition, the Regional Director will receive an annual justification from the Warden or designee for each inmate who continues to be placed in the administrative unit, except for those sentenced to death; this rationale is informed by an annual Extended Restrictive Housing Placement Review conducted by Psychology Services consistent with the format described in the Program Statement **Treatment and Care of Inmates With Mental Illness**. The Regional Director will provide this justification to the Assistant Director, Reentry Services Division.

If an inmate's mental health appears to have deteriorated during placement in the administrative unit, the institution's Chief Psychologist works with the Female Offender Branch and Psychology Services Branch to mitigate the impact or identify an alternative placement. Consultation will also be made with the Bureau's Chief Psychiatrist through the Psychology Services Branch.

2. CORRECTIVE ACTION

The purpose of this section is to provide guidance in dealing with female offenders. Discipline should be applied equally to all inmates for their actions according to the Program Statement **Inmate Discipline Program.**

Discipline should be corrective and not punitive when sanctioning inmates. The Discipline Hearing Officer (DHO) and Unit Disciplinary Committee (UDC) should consider all factors and the described behavior within the incident report when disciplining inmates. This entails focusing on the influence of trauma, gender, staff-inmate interactions, and input from both staff and inmates. For chronic infractions, referral to an appropriate program should be considered.

Section 3. FEMALE OFFENDER PROGRAMS

All institutions housing female offenders must meet basic standards for offering gender-responsive programs and for ensuring staff responsible for providing the programs have the knowledge and skills to deliver these services. Programs are divided into three categories: National Programs, Model Programs, and local activities or leisure-time programs.

1. NATIONAL PROGRAMS

National programs rely on standardized admission and delivery criteria across sites, which include at least one full-time staff position. Ordinarily, these programs are also supported by evidence of their impact on recidivism or other desired intervention targets. Examples include the Resolve Program and the Residential Drug Abuse Program. A complete list of national programs is maintained by the Reentry Services Division. Generally, these programs are offered to both male and female inmates, often via the same curricula with gender-appropriate modifications.

The decision to locate a national program at a particular institution is made by Central Office, based on capacity monitoring with existing programs or data demonstrating need for new programs. Ordinarily, all minimum and low security facilities housing female offenders have a Resolve Program. Administrative facilities housing primarily pretrial females are not required to offer the full Resolve Program, but ordinarily provide the Trauma in Life Workshop quarterly.

Offenders are encouraged to participate in national programs. In some cases, a determination will be made at the Central Office level that the needs of a particular population dictate a modified version of a national program be created. Examples of this approach include female versions of the RDAP, Skills, and Sex Offender Treatment Programs. In these cases, the Female Offender Branch Administrator will work with the appropriate Divisions and Regions to develop and implement the program.

2. MODEL PROGRAMS

The Inmate Model Programs Catalog (IMPC) contains a growing number of programs that have been determined to represent evidence-based or promising practices. Evidence-based and promising practices evolve quickly, therefore a full list is not provided in policy. Instead, these programs are maintained in the Bureau's online IMPC database. Local implementation of programs will be consistent with all procurement authorities, if applicable.

Evidence-based and promising programs from the IMPC specifically for female offenders are considered essential practices. If an institution has resources to deliver programming,

AMERICAN OVERSIGHT
DOJ-19-0278, 19-0279, 19-0280-K-000294
2019-02980 294 of 494

institutions will select from gender-responsive programs contained in the IMPC. If an institution identifies a program need area for which a gender-responsive program does not exist, the Regional Female Offender Coordinator should contact Central Office for program development consultation.

Ordinarily each minimum or low security institution housing female offenders should make every effort to ensure at least one program from the IMPC designed specifically for females is offered each quarter. Beyond this requirement, Foundation is offered at least once annually. Foundation is a program designed to assist women in assessing their individual needs and translating that information into attainable goals while building a supportive community. It is to be used for women at the beginning of their sentences and can help them plan future program choices. Copies of materials can be obtained from the Female Offender Branch. Completion of the program should be documented. Ordinarily, this program is delivered by the social worker.

Pretrial and holdover facilities housing female offenders offer at least one IMPC program annually. Gender-responsive programming options must also be available to females in restrictive housing and in FMC Carswell's Administrative Unit. The Regional Female Offender Coordinator tracks and reports each type of program being provided to the Female Offender Branch quarterly.

Model Programs not developed specifically for females may also be appropriate to offer at female facilities.

3. LOCAL ACTIVITIES AND LEISURE-TIME PROGRAMS

Beyond required services, institutions housing females offer a number of other activities to meet population needs and develop leisure-time skills. Institutions generally offer Recreation and Adult Continuing Education Programs on an ongoing basis. These programs are implemented based on an understanding of the unique needs of females and other special populations, and take into account females' activity preferences. These services may also be provided by volunteers from the community who demonstrate understanding of issues common to females in corrections.

4. PROGRAM SELECTION AND ASSIGNMENT

Assigning individual females to programs and services should be prioritized based on need; e.g., work history, skill level, resources, sentence length. Waiting lists should be maintained at the institution level for all female offender Model Programs.

DOJ-19-0278, 19-0279, 19-0280-K-000295
AMERICAN OVERSIGHT
2019-02980 295 of 494

Local programming at each institution may vary based on population needs. To ensure adequate availability of programming options, the Female Offender Branch will provide a forum for internal and external stakeholder feedback on an annual basis to identify potential IMPC submissions. In addition, because the Female Offender Branch relies on feedback from the field to make resource determinations, institutions should track program participation in SENTRY or other databases, and Regional Female Offender Coordinators monitor this information as needed to ensure adequate service delivery.

Specification of Vocational Certification and Apprenticeship Programs is beyond the scope of this policy. In implementing these programs locally, attention is given to workforce trends, and job skill or training opportunities are provided to females in male-dominated fields as well as more traditional career paths.

5. PROMOTING HEALTHY RELATIONSHIPS

Research has demonstrated the importance of family reunification and supportive community connections in preventing recidivism. In addition, inmates may have supportive relationships which fall outside legal definitions of family. The Bureau of Prisons encourages family engagement and maintenance of these support networks.

a. **Visiting Room Standards**. Visiting rooms at each institution should include child-friendly materials in the waiting area and in a Children's Center within the actual physical visiting space. Institutions are encouraged to contact Central Office for recommendations.

b. **Parent-Child Activities.** If parent-child activities are held at local facilities, local and national policies will be followed, to include dress code. Central Office, including the Female Offender Branch, must be consulted in the development of these activities.

c. **Peer Relationships**. Research has shown the formation and maintenance of relationships to be of particular importance to females. Many females enter prison as the result of criminal behavior tied to a significant relationship. When incarcerated females are separated from their families, they have a tendency to seek new relationships in prison. Sexual relationships are prohibited in all correctional facilities. The Bureau of Prisons supports healthy, appropriate relationships among female inmates. Female offenders benefit from common areas in which to congregate and engage in supportive social communities, and areas are designated for such activities when space allows.

6. **COMMISSARY**

All institutions housing females are required to implement standardized gender-responsive commissary lists. This information is available on the Women and Special Populations Branch Sallyport page.

Hair styling irons (curling iron, flat iron) and hair dryers must also be made available to inmates via locally established procedures, which are subject to local bargaining via the Master Agreement.

7. **PILOT PROJECTS**

Research on best practices with the female population are evolving quickly. Pilot Projects aimed at enhancing gender-responsive programs and services are to be anticipated. These initiatives must be approved in accordance with the Program Statement **Pilot Initiatives, Approval and Evaluation.**

8. **BIRTH CONTROL, PREGNANCY, CHILD PLACEMENT, AND ABORTION**

§551.20 Purpose and scope.

The Bureau of Prisons provides an inmate with medical and social services related to birth control, pregnancy, child placement, and abortion. The Warden shall ensure compliance with the applicable law regarding these matters.

Pregnant females in the Bureau represent a small population with a significant service need. The Bureau of Prisons provides programs to females, develops procedures for identifying pregnant females, and specifies any special precautions that apply to them.

§551.21 Birth control.

Medical staff shall provide an inmate with advice and consultation about methods for birth control and, where medically appropriate, prescribe and provide methods for birth control.

Medical staff shall provide interested inmates information pertaining to appropriate methods for birth control. The medical indication and appropriateness of prescribing birth control in a correctional environment ordinarily is limited to hormone replacement therapy. Refer to the Program Statement **Patient Care** for more information.

For inmates in or transferring to Residential Reentry Centers, on home confinement, or otherwise in a community setting while under Bureau supervision, birth control may be available under the terms of the Program Statement **Patient Care**.

§551.22 Pregnancy.

(a) The Warden shall ensure that each pregnant inmate is provided medical, case management, and counseling services.

(b) In order to ensure proper medical and social services, the inmate shall inform the institution medical staff as soon as she suspects she is pregnant.

(c) Medical staff shall arrange for the childbirth to take place at a hospital outside the institution.

Medical staff screen for pregnancy during intake, physical, and any contacts where this is appropriate. Upon learning of the inmate's pregnancy either by self-report or clinical diagnostics and assessment, medical staff immediately notify the case manager and the social worker. In cases where there is no local social worker, the Regional Social Worker is notified. All appropriate staff are then notified of a pregnant inmate at the facility; this information will be loaded in SENTRY by the Health Services staff member responsible for entering medical duty status assignments. This code is removed when the inmate is no longer pregnant.

The social worker meets with the inmate to discuss options for child placement, abortion, and programming.

§551.23 Abortion.

(a) The inmate has the responsibility to decide either to have an abortion or to bear the child.

(b) The Warden shall offer to provide each pregnant inmate with medical, religious, and social counseling to aid her in making the decision whether to carry the pregnancy to full term or to have an elective abortion. If an inmate chooses to have an abortion, she shall sign a statement to that effect. The inmate shall sign a written statement acknowledging that she has been provided the opportunity for the counseling and information called for in this policy.

When medical, religious, and social counseling sessions are completed, each staff member

AMERICAN OVERSIGHT

involved documents the session in a memorandum to the inmate's Central File.

A copy of each request for an elective abortion and the supporting documentation from the medical, religious, and social counseling sessions is sent for information purposes to the Medical Director's attention.

(c) Upon receipt of the inmate's written statements required by paragraph (b) of this section, ordinarily submitted through the unit manager, the Clinical Director shall arrange for an abortion to take place.

The Bureau assumes all costs associated with the abortion procedure only when the life of the mother would be endangered if the fetus is carried to term, or in the case of rape or incest. In all other cases non-Bureau funds must be used to pay for any abortion procedure, or else the planned abortion may not be performed. In all cases, however, whether the Bureau pays for the abortion or not, the Bureau may expend funds to escort the inmate to a facility outside the institution to receive the procedure.

Staff shall have knowledge of, and shall be guided by, applicable Federal and state laws and regulations. The Regional Counsel shall be consulted if there are questions concerning the interpretation of laws and regulations.

Pursuant to Section 103 of the Department of Justice Appropriations Bill for Fiscal Year 1996 (Public Law 104-134), the Bureau may not use appropriated funds to require any person to perform or facilitate the performance of an abortion. Staff who wish to have no involvement in facilitating the performance of abortions must advise their supervisor of this fact. Supervisors must not order a staff member's involvement in facilitating this procedure.

§551.24 Child placement.

(a) The Warden may not permit the inmate's new born child to return to the institution except in accordance with the Bureau of Prisons policy governing visiting.

(b) Child placement is the inmate's responsibility. The Warden shall provide opportunities for counseling by institution staff and community social agencies to aid the inmate with placement.

(c) The institution staff shall work closely with community agencies and persons to ensure the child is appropriately placed. The staff shall give notice to the responsible community agency of the inmate's plan for her child. Child welfare

workers may come to the institution in appropriate cases to interview and counsel an inmate.

Social work staff must establish a liaison with the welfare agency or its equivalent and ensure that this agency receives advance notice of the intended child placement to allow sufficient time for their investigation of potential home sites for the child.

Social workers also meet with the inmate to provide information regarding Bureau programs for pregnant females. These programs include Mothers and Infants Together (MINT) and the Residential Parenting Program (RPP). The social worker documents this informational contact in the Electronic Medical Record and notifies the Female Offender Branch Administrator, Regional Social Worker, and institution Clinical Director of any inmate wishing to participate in either program.

Administrative discretion is used in deciding to pay for immediate post-natal care of an inmate's child while in custody when the Bureau finds itself responsible for the cost by default (no other resources can be compelled to pay). It is reasonable that the Bureau provides for the child's medical expenses for the first three days after routine vaginal birth or up to seven days for a Caesarean section.

Prior to the birth, the mother must make arrangements for a custodian to take care of the child. At this time, the CEO ensures the person or agency taking custody of the child is also asked to be responsible for medical care costs beyond three days after birth. (**Note**: This may be extended by the Regional Director for an additional seven days for extenuating circumstances on a case-by-case basis.) The person(s) receiving custody of the child should sign a Statement of Responsibility for medical care costs, clearly indicating that the signing party accepts financial responsibility. Unit Management advises the inmate to obtain the statement while the inmate is still in the institution. Unit Management will then forward copies to the Health Services Administrator (HSA) for placement in the HSA's outside hospitalization file, and to the Business Office.

8. MOTHERS AND INFANTS TOGETHER (MINT) PROGRAM

MINT is a residential program promoting bonding skills for pregnant inmates. The inmate resides with the child at all times inside a contract Residential Reentry Center (RRC). Female inmates are eligible to enter the program at the RRC generally during their last two months of pregnancy. After birth, the mother is allowed at least three additional months to bond with the child, although a minimum of six months is recommended. The mother is then returned to an institution to complete her sentence, if necessary. If she is eligible for prerelease services, she

may remain at that facility only if she is going to be supervised in that judicial district.

The CEO may approve early or extended placements with a recommendation by the treating obstetrician and Clinical Director's concurrence. A placement extending beyond 180 days requires the Regional Director's approval. The Assistant Directors of Health Services and Reentry Services are advised of these placement approvals and denials. Direct court commitments have a secondary designation noted on the Inmate Load and Security Designation form (BP-A0337). This is used to determine the institution responsible for the inmate's medical expenses while she is confined in the MINT Program.

Health Services staff confirm an inmate's pregnancy and evaluate her medical condition. For inmates not yet in custody, reviews are conducted before arrival whenever possible to allow the inmate to go straight to a MINT site. Health Services staff indicate whether RRC placement is medically appropriate and document this on the Medical/Psychological Pre-Release Evaluation (BP-A0351), which is forwarded to Unit Management. Unit Management expeditiously completes the referral and forwards to the Residential Reentry Management Branch for consideration. When Unit Management has concerns regarding the appropriateness of such a placement, procedures are followed according to Section 10.i (2) of the Program Statement **Community Corrections Center (CCC) Utilization and Transfer Procedures**. Additional guidance on RRC placement concerns is located in that Program Statement. When a pregnant inmate is determined not medically appropriate for placement, the Female Offender Branch must be notified.

To qualify for the program, inmates must be pregnant upon commitment, with an expected delivery prior to release. The inmate or guardian must assume financial responsibility for the child's care, medical and support, while residing at the RRC. Should the inmate or the guardian be unable or unwilling to bear the child's financial cost, the inmate may be transferred back to her parent institution. An inmate who becomes pregnant while on furlough, has more than five years remaining to serve on her sentence(s), or plans to place her baby up for adoption must not be referred for MINT placement.

Referrals should state a specific date of placement approximately two months prior to the inmate's expected delivery date.

The RRC's Terminal Report should fully describe the inmate's experience in, and reaction to, the MINT Program. It should also summarize counseling received in the program and include medical or program recommendations for the institution to facilitate the inmate's transition.

Inmates in need of foster care placement assistance are referred to the institution social worker, or, if the institution does not have a social worker, the regional social worker, who should

facilitate community assistance.

9. RESIDENTIAL PARENTING PROGRAM (RPP)

The Bureau has an agreement with the Washington Department of Corrections (WADOC) to place qualified, interested pregnant inmates in the RPP at the Washington Correctional Center for Females in Gig Harbor. This voluntary program allows pregnant inmates to reside with their child for up to 30 months post-delivery. After 30 months, inmates are released to their home residence if their sentences have been completed, or placed in home confinement if their sentences have not been completed and they meet the statutory requirements for home confinement. Participating females are transferred to WADOC upon acceptance and are responsible for caring for the child while living in a supervised environment. Inmates in the program are eligible for a variety of services (mental health and medical care, vocational training, etc.); childcare is provided while the inmate is participating in these activities.

The Bureau provides for the infant's medical expenses for the first three days after routine vaginal birth or up to seven days for a Caesarean section. Postnatal care and future expenses of the child born to an inmate in the program will be covered by the Department of Social and Health Services in Washington State.

Upon notification of interest from the social worker and verification of pregnancy from medical staff, the Unit Team completes the BP-A0210, Institutional Referral for CCC Placement, and submits it to the Seattle Residential Reentry Manager. Furloughs are only accepted Tuesdays through Thursdays at RPP. Release residence can be to any state.

The Designation and Sentence Computation Center (DSCC) may also refer initial designations to the Seattle Residential Reentry Manager, with a copy to the Female Offender Branch Administrator.

To qualify for the program, inmates must:

- Be pregnant upon commitment, with an expected delivery date prior to release.
- Be scored as Minimum security with Out or Community custody.
- Have release dates or home detention eligibility dates within 30 months of the expected delivery date.
- Have no 200 or higher series incident reports in the last six months.
- Have satisfactory or higher work evaluations (if available).
- Be clear of all serious disciplinary violations of an aggressive/assaultive nature.
- Have no current no-contact orders with minor children, no sex offense convictions, no crimes against a child, no domestic violence or other violent convictions, and no contact-founded

allegation or inconclusive referrals for neglect or abuse with Child Protective Services.

- Be physically and mentally capable of caring for a child as determined by medical and mental health staff.
- Volunteer, and acknowledge program participation entails involvement in prenatal and postnatal programming related to parenting, use of the child development center and approved inmate caregivers, and maintenance of a schedule.

10. SPECIAL CONSIDERATIONS

Some pregnant inmates may choose not to participate or may be unqualified for participation in the above-described programs. Because these inmates may require special accommodations as the pregnancy progresses, the Unit Team arranges for inmates to wear different uniforms upon notification of pregnancy. These items are tailored to allow comfort during pregnancy-related weight gain.

Generally, pregnancy does not interfere with an inmate's ability to participate in Bureau programs. When medical exemption from programming is necessary, Medical staff indicate this through the SENTRY and EMR Medical Duty Status functions. Staff are also reminded of other considerations related to pregnant inmates:

- The Department of Justice's "Report and Recommendations Concerning The Use of Restrictive Housing" states, "Women who are pregnant, who are post-partum, who recently had a miscarriage, or who recently had a terminated pregnancy should not be placed in restrictive housing. In very rare situations, a woman who is pregnant, is postpartum, recently had a miscarriage, or recently had a terminated pregnancy may be placed in restrictive housing as a temporary response to behavior that poses a serious and immediate risk of physical harm. Even in such cases, this decision must be approved by the agency's senior official overseeing women's programs and services, in consultation with senior officials in health services, and must be reviewed every 24 hours."
- The Bureau of Prisons will carefully consider restrictive housing placements affecting females in any of the specified categories, taking into account the severity of the inmate's behavior and the Program Statements **Inmate Discipline Program** and **Special Housing Units**. When placing any of these offenders in restrictive housing, the Warden must contact the Female Offender Branch Administrator, the Bureau Medical Director, and the Correctional Services Administrator for further guidance and continuation of care.
- There are significant special considerations on the use of restraints with pregnant females. Refer to the Program Statement **Escorted Trips** for information.
- Medical staff may authorize additional nutritional or commissary items. This information is documented and provided to the Food Service Administrator and Trust Fund Supervisor.
- Unit staff may consider giving additional family visits or telephone calls, consistent with

DOJ-19-0278, 19-0279, 19-0280-K-000303
AMERICAN OVERSIGHT
2019-02980 303 of 494

policy, as the time of delivery nears, and after the birth of the child.

- Medical staff may recommend a change in housing (closer to Health Services) or lower bunk for safety reasons.
- Post-natal care of the inmate does not necessarily end when she returns from the hospital. Medical staff will evaluate and indicate through SENTRY and EMR Medical Duty Status functions any activity limits. Inmates are also referred to the institution's Social Worker (or Regional Social Worker if a local position is vacant) to address any concerns following return to prison.
- Females who have given birth have the option to pump breast milk with a pump provided by the institution for as long as desired. Pumping allows the mother to nurse the child during visits or to retain her milk supply until her release. Ordinarily, this milk is not stored, but rather is disposed of by the inmate under staff supervision. There may be exceptions when milk is stored at the facility; in these rare instances, the Warden requests approval from the Health Services Division.
- Nursing infants is permitted in the visiting room.

Special Housing Units

Approved: Thomas R. Kane
Acting Director, Federal Bureau of Prisons

1. **PURPOSE AND SCOPE**

§ 541.20 Purpose.

This subpart describes the Federal Bureau of Prisons' (Bureau) operation of special housing units (SHU) at Bureau institutions. The Bureau's operation of SHUs is authorized by 18 U.S.C. 4042(a)(2) and (3).

a. **Program Objectives**. The expected results of this program are:

- Special Housing Unit placement should always serve a specific penological purpose.
- Inmates are housed in the least restrictive setting necessary to ensure their own safety, as well as the safety of staff, other inmates, and the public.
- A safe and orderly environment will be provided for staff and inmates.
- Living conditions for inmates in disciplinary segregation and administrative detention will meet or exceed applicable standards.
- Accurate and complete records will be maintained on conditions and events in special housing units.

Federal Regulations from 28 CFR are shown in this type.
Implementing instructions are shown in this type.

AMERICAN OVERSIGHT

b. **Summary of Changes**

Policy Rescinded
P5270.10 Special Housing Units (7/29/11)
Memorandum from Assistant Director Scott Dodrill, Secure Housing Unit Operations, dated 3/2/10
Memorandum from Assistant Director Frank Strada, Special Housing Unit Training, dated 4/17/2015

The following changes have been incorporated into the policy:

- Several changes have been implemented to adhere to Department of Justice recommendations regarding guiding principles.
- Training standards have been updated.
- Alternate Clothing guidance is provided.
- Objectives were defined.
- Forms have been updated.
- Circumstances under which pregnant inmates can be placed in SHU have been defined.
- Psychological concerns regarding SHU placements have been addressed.

c. **Institution Supplement**. None required. Should local facilities make any changes outside the required changes in the national policy or establish any additional local procedures to implement the national policy, the local Union may invoke to negotiate procedures or appropriate arrangements.

2. **SPECIAL HOUSING UNITS (SHUS)**

§ 541.21 Special Housing Units (SHUs).

Special Housing Units (SHUs) are housing units in Bureau institutions where inmates are securely separated from the general inmate population, and may be housed either alone or with other inmates. Special housing units help ensure the safety, security, and orderly operation of correctional facilities, and protect the public, by providing alternative housing assignments for inmates removed from the general population.

For inmates with suspected or confirmed contagious diseases, refer to the Program Statements **Intake Screening**, **Infectious Disease Management**, and **Patient Care**, and, when applicable, the Pandemic Influenza Plan**.**

AMERICAN OVERSIGHT

Alternative segregation housing arrangements outside the Special Housing Unit itself must be proposed by the Warden to the Regional Director, and ultimately approved by the Assistant Director, Correctional Programs Division, before activation. Alternative segregation housing of this type will only be approved as SHU overflow for inmates in administrative detention or disciplinary segregation status. Operation of such alternative segregation housing requires compliance with all Bureau rules, policies, staffing, and post orders for operating Special Housing Units.

General population inmates are not permitted to enter a secure housing unit to interact with inmates for dispute resolutions, intelligence gathering, or security threat group/disruptive group meetings. This also applies to removing inmates from a secure housing unit to meet with inmates in general population. Institution staff must rely on trained investigative techniques, link analysis, and other means of gathering information without allowing inmates into a secure housing setting to conduct face-to-face meetings with one another.

Inmates who are pregnant, who are post-partum (up to 8 weeks), who recently had a miscarriage (up to 4 weeks), or who recently had a terminated pregnancy (up to 4 weeks) should not be placed in restrictive housing. In rare situations, these inmates may be placed in restrictive housing as a temporary response to behavior that poses a serious and immediate risk of physical harm or to ensure the safety, security, and orderly running of a BOP facility.

3. **STATUS WHEN PLACED IN THE SHU**

§ 541.22 Status when placed in the SHU.

When placed in the SHU, you are either in administrative detention status or disciplinary segregation status.

(a) *Administrative detention status.* Administrative detention status is an administrative status which removes you from the general population when necessary to ensure the safety, security, and orderly operation of correctional facilities, or protect the public. Administrative detention status is non-punitive, and can occur for a variety of reasons.

The Warden may impose temporarily more restrictive conditions on an inmate (which may be in an area ordinarily set aside for disciplinary segregation and therefore requires the withdrawal of privileges ordinarily afforded in administrative detention status, until a hearing before the DHO can be held) who:

AMERICAN OVERSIGHT

- Is causing a serious disruption (threatening life, serious bodily harm, or property) in administrative detention.
- Cannot be controlled within the physical confines of administrative detention.
- Upon advice of qualified health personnel, does not require confinement in the institution hospital if the institution has one for mental or physical treatment, or who would ordinarily be housed in the institution hospital for mental or physical treatment, but who cannot safely be housed there because the hospital does not have a room or cell with adequate security provisions.

Inmate confined under these more restrictive conditions must have their status reviewed and fully documented on a new BP-A0321 every 5 days.

The Warden may delegate this authority no further than to the official in charge of the institution when the move is necessary.

A fully documented report Special Housing Unit − Temporary Restrictive Housing Order (BP-A0321) is maintained in the Inmate Central File.

(b) *Disciplinary segregation status.* Disciplinary segregation status is a punitive status imposed only by a Discipline Hearing Officer (DHO) as a sanction for committing a prohibited act(s).

4. **ADMINISTRATIVE DETENTION STATUS**

§ 541.23 Administrative detention status.

You may be placed in administrative detention status for the following reasons:

(a) *Pending Classification or Reclassification.* You are a new commitment pending classification or under review for Reclassification.

This includes newly arrived inmates from the Bus, Airlift, and U.S. Marshals Service.

(b) *Holdover Status.* You are in holdover status during transfer to a designated institution or other destination.

(c) *Removal from general population.* Your presence in the general population poses a threat to life, property, self, staff, other inmates, the public, or to the security or orderly running of the institution and:

AMERICAN OVERSIGHT

(1) *Investigation.* You are under investigation or awaiting a hearing for possibly violating a Bureau regulation or criminal law;

(2) *Transfer.* You are pending transfer to another institution or location;

(3) *Protection cases.* You requested, or staff determined you need, administrative detention status for your own protection; or

(4) *Post-disciplinary detention.* You are ending confinement in disciplinary segregation status, and your return to the general population would threaten the safety, security, and orderly operation of a correctional facility, or public safety.

Staff must obtain approval from a Lieutenant or the Captain before placing an inmate in Administrative Detention status pending investigation of a disciplinary violation. When considering approval for Administrative Detention, the seriousness of the violation should be reviewed.

In making Special Housing determination, officials should consider the seriousness of the alleged offense, including whether the offense involved violence, involved escape, or posed a threat to institutional safety or the orderly running of the institution.

If an inmate is terminating confinement in disciplinary segregation and staff determine placement in the general population is not prudent, the inmate may be placed in administrative detention status if warranted by the conditions established above. The decision for post-disciplinary detention must be based on a separate review, not solely on the initial hearing before the DHO that resulted in the inmate's placement in disciplinary segregation.

The Segregation Review Official (SRO) advises the inmate of this determination and the reason for the action via an Administrative Detention Order (ADO; BP-A0308). The Warden or shift supervisor can order immediate segregation. Ordinarily, within 24 hours of an inmate's placement in Administrative Detention, a supervisory official not involved in the initial placement will review and approve the placement decision.

Except for pretrial inmates or inmates in a control unit program, staff ordinarily, within 90 days of an inmate's placement in post-disciplinary detention, must either return the inmate to the general inmate population or request a transfer of the inmate to a more suitable institution using Form EMS-A409, Request for Transfer/Application of Management Variable. The Regional Correctional Programs Administrator will be copied on the completed form.

AMERICAN OVERSIGHT

The institution must generate a regional referral for each inmate in post-disciplinary detention in excess of 90 days that includes case-specific information stating why the inmate is not appropriate for return to general population or immediate transfer. The Regional Director must submit a recommendation for post-disciplinary detention in excess of 90 days and every additional 60 days thereafter to the Assistant Director, Correctional Programs Division (CPD) for concurrence. Distribution includes a copy to the GroupWise mailbox BOP-CPD/DHO~.

The institution generates an ADO that cites the same case-specific information and includes documentation indicating that the SRO has advised the inmate of the basis for the extended stay.

5. DISCIPLINARY SEGREGATION STATUS

§ 541.24 Disciplinary segregation status.

You may be placed in disciplinary segregation status only by the DHO as a disciplinary sanction.

6. NOTICE RECEIVED WHEN PLACED IN THE SHU

§ 541.25 Notice received when placed in the SHU.

You will be notified of the reason(s) you are placed in the SHU as follows:

The Lieutenant or other correctional supervisor prepares an Administrative Detention Order (ADO; BP-A0308). The specific reason for placement in SHU must be supported by objective evidence and clearly articulated in the narrative section of the ADO. A new ADO is required if an inmate's status in administrative detention changes. Inmates will remain in SHU for no longer than necessary to address the specific reason for placement. Distribution of copies is indicated on the ADO.

(a) *Administrative detention status.* When placed in administrative detention status, you will receive a copy of the administrative detention order, ordinarily within 24 hours, detailing the reason(s) for your placement. However, when placed in administrative detention status pending classification or while in holdover status, you will not receive an administrative detention order.

Pending classification refers to newly arrived inmates.

(b) *Disciplinary segregation status.* When you are to be placed in disciplinary segregation status as a sanction for violating Bureau regulations, you will be informed by the DHO at the end of your discipline hearing.

AMERICAN OVERSIGHT

7. REVIEW OF PLACEMENT IN THE SHU

§ 541.26 Review of placement in the SHU.

Your placement in the SHU will be reviewed by the Segregation Review Official (SRO) as follows:

(a) *Three day review.* Within three work days of your placement in administrative detention status, not counting the day you were admitted, weekends, and holidays, the SRO will review the supporting records. If you are in disciplinary segregation status, this review will not occur.

For reviews of Protection Cases see section 9.

(b) *Seven day reviews.* Within seven continuous calendar days of your placement in either administrative detention or disciplinary segregation status, the SRO will formally review your status at a hearing you can attend. Subsequent reviews of your records will be performed in your absence by the SRO every seven continuous calendar days thereafter.

(c) *Thirty day reviews.* After every 30 calendar days of continuous placement in either administrative detention or disciplinary segregation status, the SRO will formally review your status at a hearing you can attend.

(d) *Administrative remedy program.* You can submit a formal grievance challenging your placement in the SHU through the Administrative Remedy Program, 28 CFR part 542, subpart B.

28 CFR Part 542, Subpart B, refers to the Program Statement **Administrative Remedy Program.**

The SRO refers to the individual at each Bureau institution assigned to review the status of each inmate housed in disciplinary segregation and administrative detention. The SRO must conduct the required reviews. The SRO does not have to be a DHO. Ordinarily, the SRO is the Captain (may be delegated to a Lieutenant responsible for supervision of the SHU). This review must include:

- A review of the inmate's records while in the SHU (Special Housing Unit Record, BP-A0292).
- All available memoranda from staff (including psychology staff).

AMERICAN OVERSIGHT

- All available investigatory memoranda.
- The SRO completes a Special Housing Review (BP-A0295) after review of the Special Housing Unit Record and other relevant documentation. Maintain permanent logs.

A multidisciplinary team that includes, at a minimum, institution executive staff, Correctional Services, unit staff, Health Services, and psychology staff reviews the inmate's initial and ongoing placement in SHU. This committee meets on a regular basis, ordinarily weekly.

8. **PROTECTION CASE − PLACEMENT IN ADMINISTRATIVE DETENTION STATUS**

§ 541.27 Protection case − placement in Administrative Detention status.

You may be placed in administrative detention status as a protection case in the following circumstances.

(a) *Victim of inmate assault or threats.* You were the victim of an inmate assault, or are being threatened by other inmates, including threats of harm if you do not act in a certain way, for example, threats of harm unless you engage in sexual activity.

(b) *Inmate informant.* Your safety is threatened because you provided, or are perceived as having provided, information to staff or law enforcement authorities regarding other inmates or persons in the community.

(c) *Inmate refusal to enter general population.* You refuse to enter the general population because of alleged pressures or threats from unidentified inmates, or for no expressed reason.

(d) *Staff concern.* Based on evidence, staff believe your safety may be seriously jeopardized by placement in the general population.

When an inmate is placed in Administrative Detention for an investigative period and the threat is verified, correctional officials should seek alternative housing, by transferring the threatened inmate either to the general population of another institution or to a special-purpose housing unit for inmates who face similar threats, with conditions comparable to those of the general population.

When the inmate poses such security risk that even a special-purpose housing unit is insufficient to ensure the inmate's safety and the safety of staff, other inmates, and the public, the inmate

AMERICAN OVERSIGHT

may be housed in more restrictive conditions. The inmate's placement should be regularly reviewed to monitor any medical or mental health deterioration and to determine whether the security risks have subsided.

9. PROTECTION CASE − REVIEW OF PLACEMENT IN THE SHU

§ 541.28 Protection case − review of placement in the SHU.

(a) *Staff investigation.* Whenever you are placed in the SHU as a protection case, whether requested by you or staff, an investigation will occur to verify the reasons for your placement.

(b) *Hearing.* You will receive a hearing according to the procedural requirements of § 541.26(b) within seven calendar days of your placement. Additionally, if you feel at any time your placement in the SHU as a protection case is unnecessary, you may request a hearing under this section.

(c) *Periodic review.* If you remain in administrative detention status following such a hearing, you will be periodically reviewed as an ordinary administrative detention case under § 541.26.

When an inmate is placed in administrative detention for protection, the Warden or designee (ordinarily the Captain), must review the placement within two work days of the placement to determine if continued protective custody is necessary. This review includes documents that led to the inmate being placed in protective custody status and any other documents pertinent to the inmate's protection.

10. STAFF VERIFICATION OF NEED FOR PROTECTION

§ 541.29 Staff verification of need for protection.

If a staff investigation verifies your need for placement in the SHU as a protection case, you may remain in the SHU or be transferred to another institution where your status as a protection case may not be necessary, at the Warden's discretion.

AMERICAN OVERSIGHT

11. LACK OF VERIFICATION OF NEED FOR PROTECTION

§ 541.30 Lack of verification of need for protection.

If a staff investigation fails to verify your need for placement in the SHU as a protection case, you will be instructed to return to the general population. If you refuse to return to the general population under these circumstances, you may be subject to disciplinary action.

Inmates refusing placement in general population should be maintained in Administrative Detention status and, if appropriate, initiate disciplinary action.

12. CONDITIONS OF CONFINEMENT IN THE SHU

§ 541.31 Conditions of confinement in the SHU.

Your living conditions in the SHU will meet or exceed standards for healthy and humane treatment, including, but not limited to, the following specific conditions:

(a) *Environment.* Your living quarters will be well-ventilated, adequately lighted, appropriately heated, and maintained in a sanitary condition.

(b) *Cell Occupancy.* Your living quarters will ordinarily house only the amount of occupants for which it is designed. The Warden, however, may authorize more occupants so long as adequate standards can be maintained.

(c) *Clothing.* You will receive adequate institution clothing, including footwear, while housed in the SHU. You will be provided necessary opportunities to exchange clothing and/or have it washed.

The Warden's written approval is required prior to placing an inmate on alternate clothing/linen status. The Warden or Acting Warden may not delegate the authority to place an inmate in alternate clothing/linen (e.g., paper). The memorandum must include, at a minimum, the signature of the Warden, Health Services Administrator, and a psychologist. A written explanation of the reason(s) for alternate clothing/linen status must be included in the Warden's authorization. This status will be reviewed every 3 days. Inmates will not be authorized to remain in alternate clothing/linen for more than 6 days. After 6 days, the inmate is removed from the alternate clothing/linen status, or, if necessary, a new authorization is generated. Inmates must be offered a change of clothing daily and the clothing must be adequate to the temperature in the SHU.

AMERICAN OVERSIGHT

Alternate clothing/linen is authorized when an inmate alters, destroys, or uses a clothing/linen issued article in a manner that poses a threat to safety, security, or good order of the SHU or to herself/himself, other inmates, or staff.

Alternate clothing/linen will not be used as punishment or during external transportation (i.e., outside the secure perimeter). Inmates that originate from BOP facilities will not be transported in alternate clothing for any reason. Ordinarily, inmates with serious mental illness and those with identified chronic or acute suicide risk are not placed in paper clothing. Paper clothing is not used on suicide watch.

(d) *Bedding.* You will receive a mattress, blankets, a pillow, and linens for sleeping. You will receive necessary opportunities to exchange linens.

If the institution issues the combination mattress with a pillow incorporated, a separate pillow will not be issued. Staff may remove an inmate's mattress during non-sleeping daytime hours as a "loss of privilege" sanction imposed by the Unit Discipline Committee (UDC)/DHO. Removal of an inmate's mattress is otherwise prohibited, absent life or safety concerns as specifically documented and authorized by the Warden, or his/her designee.

(e) *Food.* You will receive nutritionally adequate meals.

Refer to the Program Statement **Food Service Manual** for standards and guidelines for feeding inmates in Special Housing Units. When an inmate uses food products, Food Service items, or the feeding process itself in a manner that poses a threat to the safety, security, or good order of the institution, or to the inmate him-/herself, other inmates, or staff, a written explanation of the reason(s) for alternate meal status must be included in the CEO's authorization and approved by Health Services. The Warden's written approval is required prior to placing an inmate on alternative meal status. After 7 days, the inmate is removed from the alternative meal service or, if necessary, a new authorization is generated.

(f) *Personal hygiene.* You will have access to a wash basin and toilet. You will receive personal items necessary to maintain an acceptable level of personal hygiene, for example, toilet tissue, soap, toothbrush and cleanser, shaving utensils, *etc.* You will ordinarily have an opportunity to shower and shave at least three times per week. You will have access to hair care services as necessary.

(g) *Exercise.* You will receive the opportunity to exercise outside your individual quarters at least five hours per week, ordinarily on different days in

AMERICAN OVERSIGHT

one-hour periods. You can be denied these exercise periods for a week at a time by order of the Warden if it is determined that your use of exercise privileges threatens safety, security, and orderly operation of a correctional facility, or public safety.

If weather, resources, and staffing permit, the inmate shall receive outdoor exercise periods. "Week" means one calendar week.

Plans for increasing recreation time are developed locally for each institution in an effort to provide additional out of cell time. These plans will be developed considering the views and input from the local union.

The following factors must be considered when developing plans to increase out of cell time for recreation:

- Inmate to correctional services staff ratio in SHU.
- Total number of inmates in SHU.
- Limitations of the physical plant and infrastructure, especially regarding spaces used for recreation.

When an institution possesses the resources identified within the three factors listed above to implement these plans, it should do so.

A memorandum for the plan will be generated. The Warden will review the plan at least annually and make adjustments as necessary.

Restriction or denial of exercise is not used as punishment. The Warden or Acting Warden may not delegate the authority to restrict or deny exercise. Exercise periods are only restricted or denied when the inmate's activities pose a threat to the safety, security, and orderly operation of a correctional facility, or health conditions of the unit.

The appropriate staff member recommends recreation restrictions to a supervisor who then makes the recommendation to the Warden in writing. The recommending staff member describes briefly the reason for recommending a restriction and its proposed extent. The Warden reviews the recommendation and approves, modifies, or denies the restriction. If the Warden approves a restriction, it must be based on the conclusion that the inmate's actions pose a threat to the safety, security, and orderly operation of a correctional facility or health conditions of the unit.

AMERICAN OVERSIGHT

(h) *Personal property.* In either status, your amount of personal property may be limited for reasons of fire safety or sanitation.

(1) In administrative detention status you are ordinarily allowed a reasonable amount of personal property and reasonable access to the commissary.

(2) In disciplinary segregation status your personal property will be impounded, with the exception of limited reading/writing materials, and religious articles. Also, your commissary privileges may be limited.

(3) Personal property ordinarily allowed in administrative detention (if not otherwise a threat to institution security) includes:

- Bible, Koran, or other scriptures (1).
- Books, paperback (5).
- Eyeglasses, prescription (2).
- Legal material (see the Program Statement **Inmate Legal Activities**).
- Magazine (3).
- Mail (10).
- Newspaper (1).
- Personal hygiene items (1 of each type) (no dental floss or razors*).
- Photographs (25).
- Authorized religious medals/headgear (e.g., kufi).

- Soft drinks, powdered (1 container).
- Stationery/stamps (20 each).
- Wedding band (1).

*Razors are controlled by SHU staff. Only disposable razors are used.

The Warden may modify the quantity and type of personal property allowed. Personal property may be limited or withheld for reasons of security, fire safety, or housekeeping.

Unauthorized use of any authorized item may result in the restriction of the item. If there are numerous misuses of an authorized item, the Warden may determine that the item will not be issued in the SHU.

AMERICAN OVERSIGHT

Reading Material. The inmate will receive a reasonable amount of non-legal reading material, not to exceed five books per inmate at any one time, on a circulating basis. Staff shall provide the inmate the opportunity to possess religious scriptures of the inmate's faith.

(i) *Correspondence*. You will receive correspondence privileges according to part 540, subpart B.

Part 540, Subpart B, refers to the Program Statement **Correspondence**.

(j) *Telephone*. You will receive telephone privileges according to part 540, subpart I.

Part 540, Subpart I, refers to the Program Statement **Inmate Telephone Regulations**.

If the inmate has not been restricted from telephone use as the result of a specific disciplinary sanction, he/she is allowed to make one telephone call per month. Meaning, the inmate should receive a phone call within the first 30 calendar days of placement in the Special Housing Unit and within every 30 calendar days thereafter.

(k) *Visiting*. You will receive visiting privileges according to part 540, subpart D.

Part 540, Subpart D, refers to the Program Statement **Visiting Regulations**.

(l) *Legal activities*. You will receive an opportunity to perform personal legal activities according to part 543, subpart B.

Part 543, Subpart B, refers to the Program Statement **Inmate Legal Activities**.

(m) *Staff monitoring*. You will be monitored by staff assigned to the SHU, including program and unit team staff.

Program staff, including unit staff, arrange to visit inmates in a SHU within a reasonable time after receiving the inmate's request.

In addition to direct supervision by the unit officer, qualified health personnel and one or more responsible officers the Warden designates (ordinarily the Institution Duty Officer) visit each segregated inmate daily, including weekends and holidays. A Lieutenant must visit the SHU during each shift to ensure all procedures are followed.

AMERICAN OVERSIGHT

Duress buttons, if present, will be utilized only for emergency and/or life-threatening situations, to include health-related issues. The use of the duress button for anything other than an emergency and/or life-threatening situation is subject to disciplinary action.

(n) *Programming activities.* In administrative detention status, you will have access to programming activities to the extent safety, security, orderly operation of a correctional facility, or public safety are not jeopardized. In disciplinary segregation status, your participation in programming activities, *e.g.*, educational programs, may be suspended.

All out of cell time will be recorded in BP-A0292, Special Housing Unit Record.

(o) *Administrative Remedy Program.* You can submit a formal grievance challenging any aspect of your confinement in the SHU through the Administrative Remedy Program, 28 CFR part 542, subpart B.

28 CFR Part 542, Subpart B, refers to the Program Statement **Administrative Remedy Program**.

13. MEDICAL AND MENTAL HEALTH CARE IN THE SHU

§ 541.32 Medical and mental health care in the SHU.

(a) *Medical care.* A health services staff member will visit you daily to provide necessary medical care. Emergency medical care is always available.

While in a SHU, inmates may continue taking their prescribed medications.

(b) *Mental health care.* After every 30 calendar days of continuous placement in either administrative detention or disciplinary segregation status, mental health staff will examine you, including a personal interview. Emergency mental health care is always available.

Generally, an inmate who has been identified by Psychology/Health Services as a Care-3 (MH), Care-4 (MH), psychology alert in SENTRY, or identified on the monthly SHU advisory should not be placed in Special Housing unless he/she presents an immediate and/or serious danger to self, staff, or the orderly running of a facility.

If an inmate who has been identified by Psychology/Health Services as a Care-3 (MH), Care-4 (MH), psychology alert in SENTRY, or identified on the monthly SHU advisory (Hot List), is placed in Special Housing, psychology services should be notified and conduct a mental health

AMERICAN OVERSIGHT

evaluation within 24 hours of placement. Staff should conduct a psychiatric or psychological assessment, including a personal interview, when administrative detention continues beyond 30 days. The assessment, submitted to the SRO in a written report with a copy to the inmate's central file, addresses:

- The inmate's adjustment to surroundings.
- The threat the inmate poses to self, staff, and other inmates.

Staff conduct a similar psychiatric or psychological assessment and report at 30-day intervals should detention continue for an extended period.

14. RELEASE FROM THE SHU

§ 541.33 Release from the SHU.

(a) *Administrative detention status.* You will be released from administrative detention status when the reasons for your placement no longer exist.

(b) *Disciplinary segregation status.* You will be released from disciplinary segregation status after satisfying the sanction imposed by the DHO. The SRO may release you earlier if it is determined you no longer require disciplinary segregation status.

Ordinarily, inmates nearing the end of their term of incarceration will not be placed in SHU, except when their presence in General Population threatens the safety, security, or the orderly running of a BOP facility.

Every effort should be made to avoid releasing an inmate directly from SHU to the community. If the inmate remains in SHU within 180 days of release, options to release the inmate to less restrictive settings should be considered. If a less restrictive setting is not possible, the inmate will receive targeted reentry programming to prepare for return to the community.

A clear plan for returning the inmate to less restrictive conditions will be developed and is ordinarily shared with the inmate.

The SRO may not increase any previously imposed sanction(s). When considering release from disciplinary segregation, the SRO first consults with the Captain and must notify the Discipline Hearing Officer (DHO) of the inmate's release from disciplinary segregation before satisfying the imposed sanction.

AMERICAN OVERSIGHT

15. TRAINING

Completion of quarterly training will be required for staff assigned to SHU prior to the start of each new quarter, regardless of how many times a staff member has completed the training. When assignment to a SHU post is known sufficiently in advance, each staff member should be afforded a reasonable amount of duty time to complete the training. For instances when last-minute assignments to the SHU occur, the employer must advise the staff of the general requirements of a SHU post and answer any questions.

This training session may include, but is not limited to, search procedures, escort procedures, application of restraints, use of force, orderly supervision, cell/unit sanitation, emergency response, suicide prevention, and dealing with mentally ill inmates, as well as other security procedures related to the unit. If this in-person training is completed, a training sheet will be completed documenting the training, and will be routed to the Captain and Human Resources Department for retention.

Hi Dr. (b)(6); (b)(7)(C)

Here is a summary of documents by doc type since 10/1 for BRO.....followed by a summary by date/doc type (same data, just more detail). It looks like my data only goes thru 1/25.....I guess the extract process started early AM on 1/26. Or there wasn't any activity on 1/26??

I will get Tx Plan and Tx Group data this afternoon....It's a little more complex...

Thanks (b)(6); (b)(7)(C)

Hi Dr. (b)(6); (b)(7)(C)

Here is a summary of documents by doc type since 10/1 for BRO.....followed by a summary by date/doc type (same data, just more detail). It looks like my data only goes thru 1/25.....I guess the extract process started early AM on 1/26. Or there wasn't any activity on 1/26??

I will get Tx Plan and Tx Group data this afternoon....It's a little more complex...

Thanks (b)(6); (b)(7)(C)

Valery Logan - Re: Info Request Needed ASAP

From: (b)(6); (b)(7)(C)
To: Valery Logan
Date: 2/8/2019 1:39 PM
Subject: Re: Info Request Needed ASAP
Attachments: OIG Treatment infomation.pdf; OIG Suicide Watch Date 11.1.18 to 2.8.19.pdf

Ms. Logan,
Please see attached information. The only thing missing are copies of the suicide watch log books. This will take some time as there are over 25 individual books that will need to have each page individually copied. This will take some time.

In the interim please note the following summary:

From October 1, 2018 - February 8, 2019, Psychology Services has 2,348 clinical and administrative contacts with inmates, plus 2 groups (Drug Education and Basic Cognitive Skills).
From January 27, 2019 - February 8, 2019 (the time period from the fire until now), Psychology Services has had 249 clinical and administrative contacts.
From October 1, 2018 - February 8, 2019, 25 inmates were placed on suicide watch.

Again, I will get you copies of the suicide watch log books as soon as possible.

Please let me know if you have any questions or require additional information.

Thanks,

Good afternoon-

An institutional emergency resulted in the west visiting room being unusable at this time. In addition, social phone calls have been impacted. The east visiting room has not been impacted and remains operational.

Visitation in the west building remains closed and will reopen once the room is usable. If visitation is not returned to normal by next week, a temporary procedure will be implemented to allow for legal visits to take place in the east visiting room.

I trust this responds to your inquiry.
