*Northeast Regional Office
U.S. Custom House
2nd & Chestnut St., 7th Floor
Philadelphia, PA 19106*

August 27, 2020

Daniel A. McGrath.
American Oversight
1030 15th Street NW, Suite B255
Washington, DC 20005

FOIA Request Number: 2019-02979, 2019-02980 & 2019-02982

Dear Mr. McGrath:

This letter is in response to the above referenced Freedom of Information Act (FOIA) requests. It concerns the first interim release of 400 pages of e-mail correspondence.

Staff reviewed 556 pages of responsive records, which were forwarded to this office for a release determination. After the removal of duplicates and the referral of 11 pages of duplicates to OIP—which has already issued you a response as to those records—we determined that 400 pages are appropriate for release. Twelve pages are released in full and 388 pages are withheld in part or in full. Copies of releasable records are attached.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, records were redacted or withheld in full from disclosure to you under the following exemptions:

(b)(5)
(b)(6)
(b)(7)(C)
(b)(7)(E)
(b)(7)(F).

As you are aware, because of the complexity of your requests, the amount of time required to process your requests in their entirety has increased. In an effort to be as responsive to your requests as possible, we are processing the records currently available and will supplement the release as more records become available. Once the final set of records is provided to you, you will receive appeal rights that apply to the entire release, regardless of when the date you receive the records.

Sincerely,

/s/ John E. Wallace, for

Darrin Howard
Regional Counsel

Enclosure: 400 pages

Re: Conditions of MDC Prison of Brooklyn, NY

From (b)(6)
To Hugh Hurwitz
Date 2019/02/03 00:12
Subject: Re: Conditions of MDC Prison of Brooklyn, NY
Attachments: TEXT.htm, Mime.822

Dear Mr. Hurwitz,

It's my understanding you are the current acting director of the Federal Bureau of Prisons & MDC Prison (located in Brooklyn, New York) is your professional jurisdiction.

I'm writing to let you know this location needs attention, as reports from inmates & their families reveal an electrical and heating shortages while we experienced dangerously low freezing temperatures. Your staff has cut-off delivery of dress-code appropriate clothing for those inside the building. Your staff has also refused press & city & state government officials access to confirm or deny these reports.

I'm sure you can agree this timing for heat & electrical outages is not at all ideal. However, it is beyond disturbing as to why this building has not been a priority for maintenance during these extreme conditions.

The inactions of your office & staff rest squarely at your feet. The expectations that inmates are somehow unworthy of having heat during negative temperatures is not merely negligent but points to, given the amount of time these vital resources have been ignored, a human right's violation. You have people in your care.

I write for you to fix this now. Stop whatever it is your doing on your Sunday & get contractors on-site to begin a full repair of the building's heating & electrical systems. Perhaps allocating the money you have saved in heating the building over the last 7 days is a start to off-setting weekend contractor costs & materials.

Families & supporters will be holding 24-hr vigil in front of MDC until this is completely repaired.

It is difficult for me to judge those I don't know but it not hard to determine your inaction (and inaction of your offices) over the last 7 days is inhumane.

Brooklyn Resident,

(b)(6)

I just got off the phone with the contractor, the tubes for the 1 boiler have arrived and they are trying to arrange their schedules to get to Fairton on Monday to begin work on boiler #3. The tubes for boiler #2 are shipping from Canada and once they get a confirmed shipping tracking he will email me. If all goes according to plan at least one boiler should be back in operation next week.

J. Ray Ormond
Regional Director
Northeast Region
215-521-(b)(6);
(b)(7)(C)

>>> Ray Ormond 2/21/2019 2:39 PM >>>

Wardens - The agency had a situation this week (outside this region), where an institution was having outages in one of their utilities and the Region/Central Office were unaware of the issues and the institutions plan to resolve. Moving forward, if you have any outages in utilities (heat, water, electric, etc.) for any portion of your institution, regardless how limited the impact, please ensure we are talking live time about the issue and your plan of action to resolve. I know each one of you are capable of addressing your issues locally, but we need to ensure all parties are aware and concur with the plan so they can be properly addressed with outside stakeholders. Thanks in advance.

J. Ray Ormond
Regional Director
Northeast Region
215-521-(b)(6);

Re: Fwd: Dampers and A&E

From Ray Ormond
To Hugh Hurwitz
Date 2019/02/06 15:33
Subject: Re: Fwd: Dampers and A&E
Attachments: TEXT.htm, Ray Ormond.vcf

Good point. Let me check with the Facilities Admin to see if should be added in or would be a separate SOW/RAC.

J. Ray Ormond
Regional Director
Northeast Region
215-521- (b)(6);
(b)(7)(C)

>>> Hugh Hurwitz 2/6/2019 3:28 PM >>>

Ray, Sonya raised a good question...should the A&E or someone look at whole HVAC plant as well? The boilers were the source of the heat, and even when running, appear to have some issues. Certainly heat was part of the outage, even if unjustified.

>>> Ray Ormond 2/6/2019 2:48 PM >>>

Hugh - Follow up to your two questions:

1) "Protocol" for adjusting dampers when temperature begins dropping in any area: Facilities/Powerhouse Staff are notified by staff in the affected area. Facilities Staff go to the dampers/equipment supplying heat to that specific unit or office area and make adjustments to the airflow (adjust dampers). Once system begins supplying heat, provide time for temperature in building to rise.

2) Status of A&E: Statement of work is being drafted and will be approved by 2/7/19. RCA will be submitted to FAO by 2/7/19, and FAO has already been contacted and advised of the urgent and compelling need of these services. Facilities Administrator indicated that should push FAO to process within 1 to 2 weeks.

3) Scope of A&E: Assess "electrical distribution system, substations, primary switchgear, secondary switchgear, transformers, generators, conductors, breakers, protective and control relays, and meters". It's a complete investigation and assessment of the existing conditions. Firm wil submit a report describing recommended fixes for entire electrical system.

Let me know if you need anything else on this. Thanks

In talking to the Facilities Administrator, we already know what the HVAC system needs. It needs general maintenance to be accomplished i.e. cleaning, filter changes, motor adjustments, Louver adjustments, coil cleaning, freeze pump replacement, and freeze stat repairs. We are bringing HVAC staff in TDY to do this work (checking on specific dates). Once the repairs are done we can have an A&E perform an HVAC survey to review all of the work that we have accomplished and to ensure proper operation.

Mr. Becker,

You and Ms. Rosenfeld are approved to visit Mr. (b)(6); (b)(7)(C) in the hospital tonight. As mentioned in previous correspondence, please provide the escort staff with appropriate identification prior to the visit. Also, please advise of an approximate time of the visit so I can inform the escort staff. Take care.

Herman Quay, Warden
MDC Brooklyn

Dear Warden:

I would like to visit with Mr. (b)(6); (b)(7)(C) in the hospital this afternoon, this time with Katherine Rosenfeld, a Partner at the law firm Emery Celli Brinckerhoff & Abady LLP, who seeks to meet with Mr. (b)(6); (b)(7)(C) to follow up on his request to consult with civil legal counsel. I request that you grant authorization for Ms. Rosenfeld and me to make this visit. Ms. Rosenfeld will have all appropriate identification.

Thank you.

>>> Gary Becker <becker@garybeckerlaw.com> 2/6/2019 3:28 PM >>>
Dear Warden Quay and Ms. McFarland:

I have been informed that my client, (b)(6); (b)(7)(C) was taken on February 3, 2019 on an emergency basis from the MDC to Brooklyn Hospital, where he remains under guard by BOP officers (not the Marshal's Service). Mr. (b)(6); (b)(7)(C) suffers from a number of very serious illnesses and conditions, including ulcerative colitis. When last seen in Unit 62 on the evening of February 1, 2019 by senior representatives of the Federal Defenders, EDNY, and the United States Attorney's Office, EDNY, Mr. (b)(6); (b)(7)(C) had a large, untreated, pus-filled open wound on his very badly swollen leg. He awoke that day in a pool of blood and the blood-stained sheets on his bed had not been changed. His cell was dark and cold. These reports, and others, are directly contrary to Ms. McFarland's statement to me on the morning of February 1, 2019 that there had been no interruptions in the delivery of heat to Mr. (b)(6); (b)(7)(C)'s unit or cell and that he had been receiving all appropriate medical care and attention, even as recently as the day before, January 31, 2019.

I would like to visit with Mr. (b)(6); (b)(7)(C) in the hospital as soon as possible, preferably later this afternoon. The Marshal's Service tells me that I will not be permitted to do so without authorization from you. Please advise.

Additionally, please provide me with copies of all records of diagnoses and treatment provided to Mr. (b)(6); (b)(7)(C) during the entirety of his incarceration at the MDC.

Civil Rights Suit Filed Over 'Inhumane' Conditions at Brooklyn Federal Jail

Wall Street Journal

<https://www.wsj.com/articles/civil-rights-suit-filed-over-inhumane-conditions-at-brooklyn-federal-jail-11549302933>

Inmates at a federal jail in Brooklyn were subject to inhumane conditions after an electrical fire left many cells cold and dark for a week, according to a lawsuit filed on behalf of detainees Monday against the Bureau of Prisons.

The lights came back on Sunday night at the Metropolitan Detention Center, and Monday morning the Bureau of Prisons said normal operations would begin to resume. Families and civil-rights advocates had protested throughout the weekend to push for better treatment of detainees, faster electrical repairs and family visits, which were canceled after a partial power outage began Jan. 27.

The Federal Defenders of New York, a nonprofit whose attorneys represent indigent inmates, filed suit in federal court in Brooklyn saying there was a "humanitarian crisis" at the jail. The suit said the facility violated the constitutional rights of hundreds of men by denying access to counsel, because lawyers' visits were suspended during the outage, as well as during the recent federal shutdown.

The lawsuit seeks a special master to investigate inmates' treatment. After an initial hearing on the matter Monday, Judge LaShann DeArcy Hall issued an order requiring the facility to allow regular visits from lawyers. Further, she stated if lawyers' visits are suspended for security reasons, the facility must promptly notify the court with an explanation.

"The Bureau of Prisons has systematically undervalued the importance of the right to counsel," said Sean Hecker, an attorney representing the Federal Defenders, in an interview. "Now they're going to have to answer to the court."

A spokesman for the U.S. attorney's office for the Eastern District of New York, which represented the Bureau of Prisons, declined to comment.

The vast majority of the more than 1,600 detainees held at the jail are awaiting trial, the complaint noted.

Following the fire last month, inmates reported to attorneys at the Federal Defenders that there was little or no heating, limited hot water, and near total lack of access to certain medical services, the suit said. Inmates reported smelling noxious fumes, and seeing corrections officers wearing masks, but no masks were supplied to detainees, the suit said.

Wyn Hornbuckle, a spokesman for the Justice Department, which includes the Bureau of Prisons, said it would work with the Bureau of Prisons "to ensure the facility has the power, heat and backup systems in place to prevent the problem from reoccurring."

On Monday morning, a bomb threat required visitors to leave the facility for several hours until the New York Police Department determined it wasn't credible, a spokeswoman for the jail said.

Lawsuit: Power failure at federal jail a humanitarian crisis

Washington Post

https://www.washingtonpost.com/national/protesters-pushed-back-at-nyc-federal-jail-where-power-out/2019/02/03/86721b50-2810-11e9-906e-9d55b6451eb4_story.html?utm_term=.2a3e2b47d949

A weeklong power failure at a federal detention center in New York City spawned a humanitarian crisis that left inmates shivering in the dark and without access to visitors on some of the coldest days of the year, advocates said in a lawsuit filed Monday. The Federal Defenders of New York, a public defender organization, sued the Bureau of Prisons, alleging it violated the constitutional rights of inmates at the Metropolitan Detention Center in Brooklyn by denying legal visits during the outage. Gov. Andrew Cuomo, a Democrat, and a group of Democratic state lawmakers from the city also chimed in, saying they were also considering suing over conditions at the jail, where more than 1,600 inmates are held.

Brooklyn Jail to Be Visited by Federal Judge After Heat and Power Crisis

New York Times

<https://www.nytimes.com/2019/02/04/nyregion/lawsuit-brooklyn-jail.html>

The crisis at a troubled Brooklyn federal jail has drawn the attention of more than a half-dozen judges, with one planning to tour the jail on Tuesday to investigate complaints of freezing temperatures and darkness that followed a heating system breakdown and power failure in the facility. Another judge ordered the jail, known as the Metropolitan Detention Center, to allow inmates to begin meeting with their lawyers. Legal visits were canceled last week, leading to claims that inmates' constitutional rights to counsel were being violated. At least four other federal judges, in Brooklyn and Manhattan, were said to be calling hearings to examine complaints of deteriorating conditions at the jail, which holds more than 1,600 federal inmates, most of whom are awaiting trial and have not been convicted of a crime.

Lawsuit alleges "inhumane conditions" at Brooklyn federal jail where power failed

CBS News

<https://www.cbsnews.com/news/metropolitan-detention-center-brooklyn-jail-new-york-power-failure-outage-inhumane-conditions-inmates-lawsuit-filed/>

A lawsuit brought by lawyers for inmates at a federal detention center in New York City calls a weeklong power failure that left inmates with no electricity and limited heat for a week a "humanitarian crisis." The lawsuit, filed Monday in Brooklyn federal court by the Federal Defenders of New York, alleges that the Federal Bureau of Prisons violated the constitutional rights of about 1,600 inmates at the Metropolitan Detention Center by denying legal visits after a Jan. 27 fire caused the outage. The lawsuit said the outage caused "inhumane" conditions for inmates and the response was "woefully inadequate." It calls for the appointment of a special master to inspect the lockup.

Power Failure Created 'Humanitarian Crisis' at Federal Jail in New York City, Lawsuit Says

Time Magazine

<http://time.com/5520257/power-failure-new-york-jail-lawsuit/>

A power failure at a federal detention center in New York City spawned a humanitarian crisis worsened by authorities' response as guards wearing scarves and layers of clothing policed inmates who coped with "very cold" conditions in short-sleeve shirts and light pants, a lawsuit charged Monday. The lawsuit filed in Brooklyn federal court by the Federal Defenders of New York cited numerous disruptions caused by the outage that resulted from a Jan. 27 fire at the Metropolitan Detention Center in Brooklyn. Defense lawyers have not been able to visit inmates who were reporting little or no heat, little or no hot water, minimal electricity, near total lack of access to some medical services, or access to telephones, televisions, computers, laundry or commissary, it said.

Judge Orders Prisoner at Cold Brooklyn Jail Taken to Hospital

U.S. News & World Report

<https://www.usnews.com/news/us/articles/2019-02-04/judge-orders-prisoner-at-cold-brooklyn-jail-taken-to-hospital>

<https://www.usnews.com/story/news/us/articles/2019-02-07-judge-orders-inmate-at-cold-brooklyn-jail-taken-to-hospital>

A New York judge on Monday ordered authorities to take a jailed asthma sufferer to a hospital but denied his request for emergency bail from a Brooklyn federal detention center where heat and power failed during last week's frigid weather. The order came as the law firm Kaplan Hecker & Fink LLP filed suit on Monday at U.S. District Court in Brooklyn, saying the Federal Bureau of Prisons has exposed prisoners to inhumane conditions at Metropolitan Detention Center (MDC). The conditions at MDC sparked protests outside the jail this weekend by friends and relatives of the prisoners and outcries from government officials.

Gillibrand Demands Urgent Action And Answers From Bureau Of Prisons (BOP) Concerning Inhumane Conditions At Metropolitan Detention Center In Brooklyn; Calls For Immediate Action To Restore Full Heat And Power To The Facility

Senate.gov

<https://www.gillibrand.senate.gov/news/press/release/gillibrand-demands-urgent-action-and-answers-from-bureau-of-prisons-bop-concerning-inhumane-conditions-at-metropolitan-detention-center-in-brooklyn-calls-for-immediate-action-to-restore-full-heat-and-power-to-the-facility>

In response to reports of detainees being held in inhumane conditions without heat or electricity at the Metropolitan Detention Center in Brooklyn, U.S. Senator Kirsten Gillibrand called on Acting Attorney General Matthew Whitaker and the Acting Director of the Federal Bureau of Prisons (BOP) Hugh Hurwitz to take immediate action to fix this situation and also provide a detailed plan within 24 hours for the full restoration of heat and power. *"These conditions are unacceptable for anyone in your care; and this says nothing of the guards who must work and serve the public in these conditions every day," wrote Gillibrand. "These basic human issues must be addressed immediately. None of us can accept conditions that have people 'frantic' and 'really really scared' without access to blankets, warm clothing, necessary medications and their lawyers. I write you to once again demand urgent attention to this matter in restoring this facility to full, and safe, operating capabilities without delay."* According to reports, more than a thousand detainees at the Metropolitan Detention Center in Sunset Park, Brooklyn, have had limited power and heat in freezing temperatures for at least a week. Detainees report poor heating, little to no hot water, and no lights in their cells. On Saturday, Gillibrand spoke with Acting Director Hurwitz to get answers and urge him to fix this situation immediately. Original attempts by Gillibrand's office on Friday to receive a full and straightforward assessment of the situation from the BOP were met with little information about the current conditions and no urgency to provide a remedy and explanation.

Bomb Threat at Brooklyn Jail Prevents Visits After Protests Over Heat Outages

Newsweek

<https://www.newsweek.com/bomb-threat-prevents-visits-brooklyn-prison-1316954>

A bomb threat has prevented visitations at the Metropolitan Detention Center, a federal jail in Brooklyn, New York, two *New York Times* reporters reported on Monday, that has been the site of recent protests over inmate conditions. "Lawyers ushered out of [Metropolitan Detention Center] Brooklyn after the facility received a bomb threat, police confirmed. Visitations suspended until further notice," *New York Times* reporter Christina Goldbaum tweeted. Goldbaum also posted that there was increased security outside the prison. When asked about the reported threat, the New York Police Department told *Newsweek* that the Metropolitan Detention Center was "a federal facility not under the jurisdiction of the NYPD."

See attached, if you need anything explained further please let me know.

What is the operation protocol for the HVAC system and damper operation at MDC Brooklyn?

The inmate cells at MDC Brooklyn are served by an HVAC system that provides 100% outside air units which means the dampers are always open, bringing fresh air in 100% of the time. The heat is provided by a hot water valve, the hot water valve is controlled by discharge air temperature, this valve opens when needed and will circulate the hot water through a heat transfer coil thereby producing warm air that is sent to the cells. The valve will close if the air temperature from the inmate cells reaches its set point.

There are also exhaust vents in each cell that is connected to an exhaust fan on the roof, which causes sucking the stale cell air from the area and exhausts it to the roof and to the outside atmosphere.

The large common area HVAC units operate with return air and the same manner as above the hot water valve is controlled by the return air temperature.

What are the procedures for remote temperature readings on the Building Management System?

Currently the repairs and upgrades to the west building energy management system is 85% complete. Currently floors 4 through 9 have the capability for BMS and are adjusted accordingly. Floors 1-3 are being assessed for needed repairs to the communications system.

This work is being addressed on UESC (Utility Energy Service Contract). A UESC is a limited-source contract between a federal agency and its serving utility for energy and water efficiency improvements and demand reduction services.

Status of the A&E

The statement of work is being drafted; once it has been reviewed and approved, an RCA (Request for Contract Action) package will be submitted to FAO for solicitation. FAO has been contacted and are aware of the urgent and compelling need of these services.

Scope of the A&E

The Contractor is required to visit the site to investigate and assess existing conditions and meet with site staff to discuss these. The Contractor's staff members to visit the site shall obtain security clearances prior to the site visit. They shall submit a list of all equipment, tools, measuring devices, laptops, cameras, etc. they need to perform the assessments for approval prior to the site visit.

The following will be assessed electrical distribution system, substations, primary switchgear, secondary switchgear, transformers, generators, conductors, breakers, protective and control relays, and meters.

At completion of investigation and assessment of the existing conditions, the contractor shall prepare and submit a draft report indicating findings and describe recommended fixes for the systems and equipment. The report shall include an order of magnitude cost estimate for the recommended fixes and an indication of an anticipated schedule for completion of the fixes.

During the survey, the contractor will perform the following tests.

Arc Flash Test in accordance with NFPA 70E

Short Circuit Coordination

Hi-Pot Test

Fwd: Unhealthful Working Condition Log

From Ray Ormond
To Herman Quay
Date 2019/01/24 07:36
Subject: Fwd: Unhealthful Working Condition Log
Attachments: TEXT.htm, __attachment_message__1548332882970.eml

Herman - See attached. Looks like your Safety manager sent this out on the 22nd and the union forwarded it to the national union last night. Safety Manager sent it to your AWs but not to you or the Warden box. Not sure if he had a discussion with the AW before sending.

Also, (b)(6); (b)(7)(C) sent Eric Young an email at 9:30 last night saying there is still no heat in the unit team areas. Please walk those areas with (b)(6); (b)(7)(C) this morning and have someone take temps while your there. Need to find out from (b)(6); (b)(7)(C) why he is not coming to you about these issues and going straight to Eric to inform the Acting Director. Let me know what you find out. Thanks.

Sent from my Verizon, Samsung Galaxy smartphone

(b)(6); (b)(7)(C)

Header

In compliance with PS 4200.12, during the winter season temperatures will be targeted at 68 degrees F. On January 22, 2019, (b)(6); (b)(7)(C) Union President, as well as several other staff members representing various departments filed a complaint regarding unhealthful working conditions, due to the extremely cold work environment existing within their respective work areas.

Please respond to this message providing the following information:

1. The reason for temperatures in various work areas falling below 68 degrees Fahrenheit
2. A plan of corrective action concerning this matter
3. What preventive measures can be taken to prevent recurrence

Recommendation

If it appears it may take an extended period of time to remediate this safety issue, during the interim, policy (PS 1600.11) does afford the use of mountable space heaters.

Please provide your response by close of business today (January 22, 2019).

Good afternoon all,

I spoke to the Federal Defenders today about the legal visitation cancellations and, despite stating they would await more information from me, they write the below to the Chief Judges and the USAO. As you can see from my message to the AUSA, they misstated what I told them in what they sent the Court. I wanted to get you all in the loop as to the below as I suspect the Courts may be reaching out soon.

Thank you,
Adam

>>> Adam Johnson 1/14/2019 12:50 PM >>>
Amy,

As an FYI, that statement was taken out of context. I told her it was unclear what was causing the staffing issues, but that it may be due to the fact that staff may not want to work overtime when there is no clear indication when they will be paid, and that some of them may be working second jobs to pay their bills. I am also disappointed that she would choose to write to the Court after I advised her and David I would look into the matter with MCC and MDC administrators. Finally, thank you for forwarding this since she did not cc me. Please let me know if you would like to discuss this further.

Thank you,
Adam

Subject: MDC and MCC Shutdown of Legal Visits

Dear Chief Judge Irizarry and Chief Judge Mann,

David Patton and I just spoke to Adam Johnson, the Supervising Attorney for MCC and MDC, about the constant stream of shutdowns of legal visiting over the last two weeks, and this weekend, continuing into today.

Legal visiting was shutdown entirely or delayed for hours at MDC on: 1/4/2019, 1/5/2019, 1/6/2019, 1/9/2019, 1/10/2019, 1/11/2019, and 1/14/2019.

Legal visiting was shutdown entirely or delayed for hours at MCC on: 1/1/2019, 1/11/2019, 1/12/2019, and 1/13/2019.

We are not receiving notice of the delays and shutdowns either at all (until an attorney arrives and is turned away), or until the morning of, when Legal Department staff arrives and realizes there is insufficient staffing to hold legal visits.

Adam explained that they have staff shortages at both facilities because staff are refusing to work overtime (since it is unclear when they will get paid for it). Many of the COs, Adam said, already have second jobs, so they are working more hours at those jobs and refusing all overtime. On several of the days the facilities did not even have enough staff to cover the housing units (raising additional security concerns for us, of course).

These shutdowns are severely impacting our and CJA counsel's ability to represent our clients. We will continue to keep the Court apprised of the situation, both generally and in individual cases in which it is impacting our clients' Sixth Amendment rights.

Please let me know if any additional information would be useful. In addition, it might be helpful to set up a telephone call with the wardens of both institutions (who have not been heard from in all this!) and the CJs of both SDNY and EDNY. Let me know if you would like me to try to arrange that. I have copied in Seth DuCharme, Orelia Merchant and Amy Busa from the U.S. Attorney's Office in case they have additional information or suggestions on how to ameliorate this situation.

Best,

Deirdre

DAG Agenda - February 22, 2019

From Kevin Pistro
To Hugh Hurwitz, Paul Perkins
Date 2019/02/21 13:07
Subject: DAG Agenda - February 22, 2019
Attachments: TEXT.htm, DAG Agenda 02222019_DRAFT_v6.docx

Good afternoon - attached below is the annotated agenda for the BOP meeting on February 22, 2019.

Thank you and please let me know if anything else is needed.

Annotated Agenda
BOP Monthly Meeting
February 22, 2019

MDC Brooklyn Update

The institution returned to normal operations February 4; BOP Director visited MDC Brooklyn again on February 11.

Ranking Member, House Judiciary Committee, Doug Collins toured the institution on February 11.

OIG arrived on-site on February 7, and departed on February 13. During the visit, OIG conducted 19 staff and 7 inmate interviews. BOP produced approximately 22,000 pages of requested materials. BOP also provided approximately 2,600 hours of institutional security camera footage.

Sporadic small protests continue, but are not impacting operations. During the past few weeks, at least [REDACTED] (b)(7)(E)

[REDACTED] (b)(7)(E)

BOP identified an after action review team that is examining all aspects of the incident including cause, BOP and local law enforcement response, contingency plans, and local and national communication processes.

BOP continues to work with OLA in developing responses to Congressional inquiries.

Atlanta Water

On February 1, BOP received water samples from USP Atlanta indicating elevated levels of arsenic.

Immediate measures were taken to provide bottled water to staff and inmates; information was communicated to staff, inmates, and the media. Since receiving those initial test results, the BOP has been working with the City of Atlanta to ensure the safety of the water supply.

The City of Atlanta conducted tests on water samples taken from areas around the prison which indicated no arsenic in the water supply to the surrounding community.

On February 8, a third party consultant collected water samples from USP Atlanta. Tests of these samples also showed no trace of arsenic and indicated the water meets drinking water standards.

Out of an abundance of caution, BOP will continue to supply bottled water to staff and inmates at USP Atlanta until which time the water is retested once again to confirm the safety of the water supply. Assuming the

upcoming tests scheduled during the next 2 weeks meet drinking water standards, bottled water distribution will be discontinued.

BOP will continue to test the water quarterly for one year in accordance with EPA safe drinking water standard protocols.

Additionally, BOP is investigating the cause of the initial, apparent false-positive reading.

Warden,

Please find attached the memo the Federal Defenders have submitted to the EDNY Court.

I know that you and your staff are working to resolve this situation. Obviously, however, the report raises serious concerns. Pursuant to requests from Office of the DAG and the AG, the report has been forwarded up to them.

The medical claims referenced in the memo regarding the following inmates raises some of the most acute concerns:

(b)(6); (b)(7)(C)

Please make sure those medical issues are prioritized.

Also, the Acting AG will be in Brooklyn tomorrow morning and I need to be prepared to brief him on the situation. As such, I would like to come by the facility today to get a first-hand look at the situation. Please let me know who I should ask for when I arrive.

Thanks,

Warden,

Thanks for the info below. We are now getting inquiries directly from members of Congress. I strongly suggest that, if you have not done so already, BOP release a public statement on the situation. Many public officials, including Presidential candidates, are making statements condemning the operation of the MDC and calling for immediate action.

Subject: Re: EDNY Inmates

Sir,

The below details the status of the institution.

On Saturday, January 26, 2019, the institution experienced an electrical fire in a mechanical room serving power to the institution. The institutional emergency resulted in the loss of power to parts of the institution. A contractor was brought in and has been working daily to repair damage to the mechanical room and is at the institution even today finishing work required to reconnect with Con Edison power. If all goes well, power could be fully restored as early as Monday.

Inmate housing units have been minimally impacted. All housing units have functional lighting, meaning the common areas have lighting; however, each cell does not currently have lighting. As such, inmates are permitted to move freely in the housing units to access leisure and recreational activities and are not required to be secured in their cells throughout the day. While televisions and computers are not operational during this partial power outage, the public defender phones are in service, and inmates can access the Courts. Heat and hot water has not been impacted. Temperatures within the institution are routinely monitored by staff to ensure appropriate temperatures are maintained daily. Current monitoring reflects comfortable temperature levels at the institution, to include offenders' living areas. The most recent temperature reading taken reflects an average of 70.2 degrees in the units' common areas and 70.1 in the units' cells. Inmate meals and access to medical care are not impacted. Inmates are receiving regularly scheduled hot meals each day and are being seen in the Health Services Department.

I am having reports run which document every medication that has been dispensed since our power issue began. I will have this information on Monday.

Please let me know if you need further information or want to talk in advance of the hearing.

Take care

Warden,

I received a call from our Chief Judge this evening about conditions at the MDC and concerns the judges have. There is at least one hearing scheduled for Monday morning and they are calling an all-judges meeting at 1:00 on Tuesday, where they expect us to appear and report on the problems and what is being done to fix them.

In addition, a number of defendants have moved for release on bail, citing the conditions, and the individual judges are considering those motions.

One of my in-house investigators was over there this afternoon with the Chief of the Federal Defenders and I hear that, while the situation may not be what the FDs claim, there are issues. Most importantly, some inmates may not be getting required meds.

Please let me know what the situation is and what is being done to rectify whatever problems are lingering.

If I can assist in any way, let me know. If it would be helpful, I'll be happy to go up the chain in DC to let them know that you need resources to address this (1) to meet our obligations, and (2) before judges start taking steps that could compromise public safety.

Thanks,

Rich Donoghue

On February 2, 2019 at 12:00 am the H53 unit Officer reported that the inmates housed in cell H06-513 were unresponsive and had the cell window covered. The inmates, identified as (b)(6); (b)(7)(C) and (b)(6); (b)(7)(C) refused to respond to staff as well as refused to uncover the window, allowing staff to observe the inside of the cell. Multiple attempts were made to get both inmates to comply with orders, all of which were met with negative results. The Warden was notified and authorized a Calculated Use of Force Team to be assembled. Confrontation Avoidance was attempted and met with negative results. One (1), two second burst of OC was deployed.

On Sunday, **February 3, 2019, at approximately 12:40 p.m., protesters breached the West Building Front Lobby**, becoming disruptive and aggressive towards staff. While attempting to remove them from the lobby, some attempted to assault staff. Responding staff dispersed (2) two second busts of OC and 3 to 5 OC pepper-ball rounds to gain control and restore order to the Front Lobby. During the incident, several staff received injuries that did not require outside medical attention. Staff who were maintaining building security and those who responded to the incident, controlled and contained the situation, no one was seriously injured. As the NYPD barricades did not contain the crowd, MCC New York's DCT and USP Caanan's SORT was activated and responded to the institution to provide additional building security. Emergency teams will continue to be active throughout this disturbance.

On February 1, 2019 at 2:10 pm Unit Team staff reported of an inmate displaying disruptive behavior. Staff reported that inmate (b)(6); (b)(7)(C) had been encouraging other inmates to flood their cells. The unit Counselor entered the cell at which time (b)(6); (b)(7)(C) became combative and attempted to assault staff. (b)(6); (b)(7)(C) refused to comply with staff orders to cease his actions, where it was deemed necessary to deploy one (1) two second burst of OC in an attempt to gain control of (b)(6); (b)(7)(C) actions. Utilizing the least amount of force necessary, (b)(6); (b)(7)(C) was placed on the ground with hand and leg restraints being applied. (b)(6); (b)(7)(C) was searched, decontaminated, medically assessed and admitted tot he Special Housing Unit without further incident. Health Services staff reported (b)(6); (b)(7)(C) sustained minor injuries. No staff injuries were reported during the use of force subsequent movement of the inmate.

On **February 1, 2019, at approximately 9:30 a.m., the 7th floor secretary activated her body alarm** after inmate (b)(6); (b)(7)(C) became insolent, and refused staff directives to return to his assigned cell. Responding staff removed inmate (b)(6); (b)(7)(C) from the housing unit to be escorted to the Special Housing Unit, Due to his disruptive behavior. Inmate (b)(6); (b)(7)(C) refused to submit to hand restraints and attempted to spit on staff. Subsequently, he was placed on the floor due to his actions with the least amount of force necessary to gain control. Inmate (b)(6); (b)(7)(C) was placed into hand restraints and escorted to the Special Housing Unit where he was medically assessed, photographed and visually searched. There was no OC used in this incident. One staff member reported an injury to his arm.

On **January 31, 2019 at 5:55 pm** SIS staff conducted a search of cell **J02-701** on the **J71** housing unit, occupied by inmate (b)(5); (b)(6); (b)(7)(C). When ordered to exit the cell (b)(6); (b)(7)(C) disposed of an unknown item in to the toilet located in the cell. (b)(6); (b)(7)(C) was removed from the cell and ordered to submit to a pat search, where an unknown item was observed in his hand. (b)(6); (b)(7)(C) attempted to discard the item over the tier and became combative with staff attempting to strike them with a fist. In order to gain control of his actions, (b)(6); (b)(7)(C) was placed on the ground and placed in hand and leg restraints. (b)(6); (b)(7)(C) was escorted from the unit and admitted to the Special Housing Unit, where during the search and medical assessment process, he continued to verbally threaten staff and not comply with orders given. Due to his continued disruptive and threatening behavior (b)(6); (b)(7)(C) was placed in hard ambulatory restraints until a pattern of self control was demonstrated. The appropriate 15 minute and two hour checks were initiated. IDO, Health Services and Captain were notified. Recovery of the unknown discarded items was completed with it being discovered (b)(6); (b)(7)(C) was in possession of one (1) black coin cell battery. (b)(6); (b)(7)(C) was placed in hard ambulatory restraints until a pattern of self control was demonstrated. The appropriate 15 minute and two hour checks were initiated. IDO, Health Services and Captain were notified. Recovery of the unknown discarded items was completed with it being discovered (b)(6); (b)(7)(C) was in possession of one (1) black coin cell battery. (b)(6); (b)(7)(C) was placed in hard ambulatory restraints until a pattern of self control was demonstrated. The appropriate 15 minute and two hour checks were initiated. IDO, Health Services and Captain were notified. Recovery of the unknown discarded items was completed with it being discovered (b)(6); (b)(7)(C) was in possession of one (1) black coin cell battery.

that being discovered. Eason was in possession of one (1) black in color cell phone and fifty seven (57) 8mg doses of Suboxone.

At approximately 1:10 p.m. on **January 29, 2019**, **I63 housing** unit officer requested the Operations Lieutenant via radio. Responding staff gave several direct orders for inmate (b)(6); (b)(7)(C) and (b)(6); (b)(7)(C) to stop fighting and get on the ground. Inmate (b)(6); (b)(7)(C) refused verbal commands and walked toward responding staff in an aggressive manner with closed fists. Subsequently a two(2) second burst of OC was deployed by staff. (b)(6); (b)(7)(C) then turned towards staff again and began to charge when a second two (2) second burst was administered with desired results. Both inmates were placed in hand restraints searched and escorted to the Special Housing unit. Decontamination procedures were initiated and both inmates were photographed and medically assessed with minor injuries. an SIS investigation was initiated. no staff injuries occurred during this incident.

??? Unit???? ON JANUARY 29, 2019, AT APPROXIMATELY 11:02 A.M., HOUSING UNIT OFFICER ACTIVATED THEIR BODY ALARM DUE TO INMATES (b)(6); (b)(7)(C) AND (b)(6); (b)(7)(C) INVOLVED IN A PHYSICAL ALTERCATION. RESPONDING STAFF GAVE VERBAL COMMANDS TO STOP AND GET ON THE GROUND, BOTH INMATES COMPLIED AND WERE PLACED IN HAND RESTRAINTS PAT SEARCHED AND ESCORTED TO THE SPECIAL HOUSING UNIT. INMATES INVOLVED WERE PHOTOGRAPHED AND MEDICALLY ASSESSED. INMATE (b)(6); (b)(7)(C) RECEIVED INJURIES TO HIS FACIAL AREA. AN INVESTIGATION WAS INITIATED.

On January 29, 2019 at 8:18 am, a body alarm was activated in West SHU due to an inmate on inmate cell fight. Upon the arrival of the SHU Lieutenant, he witnessed inmate (b)(6); (b)(7)(C) having inmate (b)(6); (b)(7)(C) in a choke hold. Orders were given for inmate (b)(6); (b)(7)(C) to cease his actions but he refused. A (One) 2 second burst of OC was deployed with negative results. Inmate (b)(6); (b)(7)(C) refused to release the choke hold on inmate (b)(6); (b)(7)(C). Fearing for the safety of inmate (b)(6); (b)(7)(C) a (Second) 2 second burst of OC was deployed and proved effective. Both inmates submitted to restraints and were removed from the cell. Both inmates were then separated, searched, decontaminated and medically assessed. The inmate medical assessment showed no major injuries. During this immediate use of force, staff did not report any injuries.

On January 27, 2019 at 1:00 pm staff notified the control center of a fire located in the internal link between the East and West buildings of the institution. The institution was recalled and secured and FDNY was notified. At approximately 1:20 pm FDNY gained access to the facility, accessed and extinguished the fire which originated in a transformer located above the internal link between buildings. During the initial response multiple staff reported minor smoke inhalation and corresponding symptoms, all of which were medically assessed and photographed. The facility remains secured due to the widespread loss of electrical power. Due to the location of the fire, no inmate was injured by, exposed to or sustained any injuries stemming from the incident. The Executive Staff, IDO, Captain and Facilities Manager were notified.

Attachments: TEXT.htm

Good evening,

Please be advised there was a news report released today by the media with inaccurate information titled, "Inmates Again Without Heat at Brooklyn Detention Center". Additionally, several news media has contacted the institution as well as set up outside of the institution. Currently, there isn't any verified information on (b)(7)(E). However, we have proactively activated the DCT team and the Command Center until further notice. We will continue to monitor the situation and keep you informed. **Please see below time line of events.**

March 1, 2019

12:42 pm – NY Post requested info regarding heat being out for the past three days in three units at MDC Brooklyn). (Requested by Natalie Musumeci: nmusumeci@nypost.com) (Responded at 4:20 pm: "Contrary to media reports, the heat at MDC Brooklyn is fully operational and the institution is operating normally.")

2:39 pm – NY Post published article titled "Inmates again without heat at Brooklyn detention center" by Elizabeth Rosner and Natalie Musumeci

3:20 pm – Temperature readings began

3:39 pm – NBC Universal requested info asking for confirmation whether facility is without heat and what the problem is and what we are doing about inmates affected. Advise as they air at 4:30 (Requested by Roseann Colletti: Roseanne.colletti@nbcuni.com) (Responded at 4:20 pm: "Contrary to media reports, the heat at MDC Brooklyn is fully operational and the institution is operating normally.")

4:06 pm – Melissa del Valle Ortiz, from Congresswoman Velazquez's office emailed asking about CRB and that they have begun receiving calls stating that there has been fluctuating heat. They are requesting copies of heating records that have been taken since the electricity was restored.

(b)(6)

4:18 pm – Received approved statement from (b)(6); (b)(7)(C) **"Contrary to media reports, the heat at MDC Brooklyn is fully operational and the institution is operating normally."**

4:15 pm – DCT/Command Center Activated

4:20 pm – Statement sent to NBC Universal, Roseanne Colletti, "Contrary to media reports, the heat at MDC Brooklyn is fully operational and the institution is operating normally."

4:20 pm – Statement sent to NY Post, Natalie Musumeci, "Contrary to media reports, the heat at MDC Brooklyn is fully operational and the institution is operating normally."

4:21 pm – Channel 11 news truck out front of institution

4:45 pm – Temperature readings complete

4:55 pm – Warden requested to take temperature readings every two hours for tonight into tomorrow.

5:08 pm – NY Daily News published article titled, “Inmates without heat for second time in a month at Brooklyn federal lockup: lawyers” by Noah Goldberg and Molly Crane-Newman

5:23 pm – Request from Congresswoman Velazquez’s office forwarded to Sonya Thompson, Senior Deputy Assistant Director for IPPA

U.S. Justice Department orders investigation of frigid Brooklyn jail: media

Reuters

<https://www.reuters.com/article/us-new-york-prison/u-s-justice-department-orders-investigation-of-frigid-brooklyn-jail-media-idUSKCN1PW0EQ?feedType=RSS&feedName=domesticNews>

The U.S. Department of Justice late on Wednesday ordered an investigation into a Brooklyn jail where inmates said they spent days in frigid, dark cells after a fire cut power and heat during a cold snap in New York City, media reports said. In a statement published by the New York Times, the DOJ said its watchdog Office of the Inspector General will examine whether or not the Bureau of Prisons responded appropriately to the incident at the Metropolitan Detention Center in Brooklyn. "The Department of Justice (DOJ) and Federal Bureau of Prisons (BOP) are committed to the safe and humane living and working conditions of all inmates and employees," the department said in a statement also published by other media outlets.

N.Y. Today: Crisis at the Federal Jail in Brooklyn

NY Times

<https://www.nytimes.com/2019/02/06/nyregion/newyorktoday/ny-news-federal-jail.html>

When a building with more than a thousand people loses heat and power for more than a week in the dead of winter, it's a big story. When that building is a federal jail, it's a huge story. **What happened:** Last Friday, [my colleague Annie Correal reported](#) that inmates at the Metropolitan Detention Center in Brooklyn were being held in freezing cells, in darkness, unable to contact their families or meet with their lawyers. The story got national attention, as demonstrators massed, [inmates pounded at the windows](#) and lawmakers demanded action. Mayor Bill de Blasio sent blankets. Gov. Andrew M. Cuomo called for a Department of Justice investigation. Protesters tried to enter the jail and were [driven back with pepper spray](#).

MDC Brooklyn Has Long Been A Frigid Hellhole. The Polar Vortex Just Made It Worse

Huffington Post

https://www.huffingtonpost.com/entry/mdc-brooklyn-conditions_us_5c59bb62e4b00187b5556cdf

Andrea Whitmire was starting to fear the worst. She hadn't been able to get in touch with her husband, an inmate at Metropolitan Detention Center in Brooklyn, for days — an unusual circumstance given their frequent communication. She had last heard from him early Sunday morning. It was now Friday. Her sister-in-law couldn't reach him either, and frantic calls to jail officials just went in circles. Then Whitmire checked social media. Horrifying videos posted to Twitter showed MDC Brooklyn inmates banging on cell windows and using their reading lights to send makeshift S.O.S. signals to the outside world. The detainees were shouting that they had no heat as the so-called Polar Vortex whipped icy cold air across the city. "I'm like, 'Oh my god, that's where my husband is,'" Whitmire told HuffPost. "That's when I started panicking."

Elevated levels of arsenic found at Federal Penitentiary in Atlanta

NBC 11

<https://www.11alive.com/article/news/elevated-levels-of-arsenic-found-at-federal-penitentiary-in-atlanta/85-ecf4c149-a800-4295-a1b1-6ea8d56bf3af>

Water at the Federal Penitentiary in Atlanta is unsafe to drink, according to officials. The penitentiary said it first became aware of water issues in November 2018, after complaints of possible sediments in the drinking water. At that point, federal officials brought in an outside consultant to test the water. According to the Federal Bureau of Prisons, the consultant took seven samples, which showed elevated levels of arsenic in the water. As a result, the federal facility ordered a more widespread testing of water sources the following month - including from two points in which water entered the penitentiary property.

Unsafe levels of arsenic detected in prison drinking water

Fox 5

<http://www.fox5atlanta.com/news/unsafe-levels-of-arsenic-detected-in-prison-drinking-water>

Officials at the Atlanta Federal Penitentiary say its working with the city of Atlanta to figure out why the prison has unsafe levels of arsenic in the water. The Federal Bureau of Prisons officials say inmates are cooking with and drinking bottled water. Several tests late last year showed arsenic levels above safe standards. The tests were conducted between September 2018 and this past January. Federal prison officials say Atlanta Watershed tested the water again on Monday but those results were ready as of Wednesday evening.

Justice Department to probe conditions at Metropolitan Detention Center

New York Post

<https://nypost.com/2019/02/06/justice-department-to-probe-conditions-at-metropolitan-detention-center/>

The Department of Justice will probe the response by the Bureau of Prisons to the [power outage and other conditions](#) last week at a federal prison in Brooklyn, the agency announced Wednesday. The Office of Inspector General at DOJ — which conducts internal investigations into DOJ employees and programs — will oversee the probe in the Metropolitan Detention Center in Sunset Park, according to the Justice Department. "The Department of Justice and Federal Bureau of Prisons are committed to the safe and humane living and working conditions of all inmates and employees," the agency said in a statement. Sections of the federal lockup were left powerless in the freezing cold when an electrical panel caught fire on Jan. 27. Electricity was not fully restored until a week later. On Tuesday, a Manhattan federal judge [spoke to neglected inmates](#) and saw first-hand the dilapidated conditions of the jail.

Criminal justice reform bills advancing at the State Capitol

WLBT

<http://www.wlbt.com/2019/02/07/criminal-justice-reform-bills-advancing-state-capitol/>

President Donald Trump has recently discussed criminal justice reform. In fact, he referenced it during Tuesday night's State of the Union address. But there is similar work being done in Mississippi. Criminal justice reforms include more than a one-and-done kind of fix. Both the House and Senate bills have several proposed changes. So, let's hit the high points. First, they want to use more "problem-solving" or "intervention" courts. Think drug courts and the way that some offenders get alternative sentencing to address their addictions outside the prison. These bills would use the same format for other offenders. "Allow individuals who maybe have come in contact with the court because really of a mental illness and not so much criminal activity," said House bill author Rep. Jason White-R. "So that we don't have them sitting in a jail cell somewhere, when really what they need is medication and counselors. So, trying to divert them."

Federal inmates charged with escape following Angel San Juan special report

KFDM

<https://kfdm.com/news/local/federal-inmates-charged-with-escape-following-angel-san-juan-special-report>

Three federal prison inmates have been indicted for escaping from prison announced U.S. Attorney Joseph D. Brown today. The three federal inmates were charged with escape in three separate indictments returned by a federal grand jury today. According to the indictments on Jan. 12, 2019, the Jefferson County Sheriff's Office received a call from a citizen near the Bureau of Prisons Camp Facility in west Jefferson County, Ala. reporting they

had witnessed inmates crossing a pasture and getting picked up by a vehicle on Hillebrandt Road. A Jefferson County Sheriff's Deputy pulled over the vehicle shortly afterwards and found two of the escapees inside. The inmates were transported back to the prison facility by law enforcement officers. A third inmate returned to the facility on foot several hours later.

Union: Staffing shortage at Big Spring Federal Prison creating "extreme risks"

Your Basin

<https://www.yourbasin.com/news/union-staffing-shortage-at-big-spring-federal-prison-creating-extreme-risks/1758933822>

Members of the American Federation of Government Employees are voicing concern about staffing shortages at the federal prison in Big Spring. According to a release from the Union, the facility is under 80 percent staffed and is creating a dangerous situation for officers, inmates and the general public. "Right now, we are not even at 80 percent in custody staffing at our facility, and it's posing extreme risks to our officers, staff, inmates, and the surrounding Big Spring community," said AFGE Local 3809 President Paula Chavez. "During the longest ever government shutdown our sisters and brothers here were not paid while they were busy risking their lives, and we had more than 5,000 hours of overtime and more than 700 hours of augmentation hours to try and staunch the bleeding."

Russian pilot jailed in US seeks transfer to another facility for health reasons — wife

TASS

<http://tass.com/world/1043611>

Russian pilot Konstantin Yaroshenko, who is serving a 20-year sentence in the in the Danbury prison in Connecticut, USA, seeks transfer to another penitentiary facility due to lack of medical care, the pilot's wife Viktoria Yaroshenko told TASS on Thursday. The media said earlier the Russian Consulate in New York was verifying reports that the Russian pilot was not getting medical treatment. In November 2018, Yaroshenko requested the prison authorities provide him with medical assistance for his toothache, which was also the cause of digestion problems as he was not able to eat normally. "Konstantin asks to be transferred due to lack of medical care and poor incarceration conditions. Nothing has changed [concerning the state of his health] and he can't stand the situation any longer," Viktoria Yaroshenko noted.

(b)(7)(C)

>>> Ray Ormond 2/2/2019 5:38 PM >>>

Herman - I think we've talked about most, but to make sure I don't miss something, below are the areas I need replies to (some may repeat themselves):

- 1) Inmates have access to additional blankets, etc. Claims inmates have not had change of blankets or underwear; confirm they are getting clean clothes and sheets. How recent have they exchanged both and what do they have? Does every inmate have extra blankets.
- 2) Does not understand why we can't bring in generators to get cell lights on or bring in portable lights. Can we get anything from NY Emergency Ops or otherwise?
- 3) **Contractor says can't get part until Monday and then Con Ed and contractor can repair Monday. This is not acceptable; push contractor or look for another vendor. Can we drive and pick up parts? Let me know where we are. This is the biggest issue.**
- 4) Status of Con Ed and contractor arrival tomorrow and status of getting terminals by tomorrow
- 5) What items have we been offered by NYC Emergency Mgmt. Have we declined anything they offered? Reason?
- 6) Status of CPAP inmates?
- 7) Has medical stopped at each cell? Anyone with blood on sheets?

- 8) Institution Security - Are protesters on sight? Are staff safe to enter/exit. Is NYPD assisting?
- 9) How many DCT staff reported? Let me know your plan to rotate them to have DCT available tonight and tomorrow.
- 10) Do we have command center, or a manned phone, for all calls/issues related to this situation?

Wardens: Thanks to all of you that have already provided assistance MDC Brooklyn. The local staff and Exec Staff are doing a great job and I know they appreciate the support you have sent them.

The institution is currently operating normally inside. However, the community continues to create issues for the area surrounding the institution. We are doing preliminary planning just in case the protest continue for multiple days. **DO NOT** activate your teams; however, below is a plan for rotating staff and teams if it becomes necessary. **A decision will be made Thursday by noon.**

Warden Rotation: Quay / Vitale. If goes to Friday, will rotate Warden Bradley.

AWs: Three on sight plus Complex Captain from Fort Dix. If it goes to Friday, will rotate AW Danon Colbert from LEW.

SORT: Canaan until Friday if needed. LEW/ALX will take over Friday if needed. Teams will coordinate rotation time with BRO Command Center.

DCT: New York until Friday if needed. Otisville will take over Friday if needed. Teams will coordinate rotation time with BRO Command Center.

USP Canaan, will report to assist today, February 5, 2019.

Teams will initially be scheduled to stay overnight at the institution with resources provided by the institution. **Hotel stays for the teams will be decided night by night based on the intel received at the institution.**

NER Correctional Services: Please coordinate any other Command Center/EPO assistance they may need.

>>> "del Valle Ortiz, Melissa" <[REDACTED]> 3/1/2019 4:04 PM >>>
Good afternoon,

Hoping all is well. I am writing to follow up regarding last months request for a CRB meeting. In addition we have begun receiving calls stating that there has been fluctuating heat. Can you please provide copies of the heating records that have been taken since the electricity was restored?

I realize it is end of day and hope you can reply at your earliest.

Best,

Melissa

Hugh,

Are you planning to visit the facility this afternoon with USA EDNY? If so, can you please send an update to Corey, Andy, Ed, and me?

Thanks,
Paul

>>> "Hugh Hurwitz" 02/02/2019 08:00 >>>

Paul, there are numerous stories in media alleging no heat, power, or hot water in the facility in Brooklyn NY. The stories are inflammatory and misleading.

We are experiencing a partial power outage. The institution is operating on emergency power, and the cells have heat and hot water, there is lighting in the common areas and inmates are receiving hot meals. Repairs are being made to some equipment and Con Ed indicates power should be restored monday.

Late yesterday Congresswoman Velazquez and the Public Defender toured the facility. They observed that we had heat and hot water. The PD has never been a fan of ours so I'm not sure what she will be telling the Court. The Chief Judge EDNY wants a status hearing on Tuesday.

Let me know if you need any other info.

Retaliation against inmate seeking to know air and water temperatures

From Deirdre Vondornum
To (b)(6); (b)(7)(C) @bop.gov David Patton, Herman Quay Kannan Sundaram,
Nicole McFarland Seth Eichenholtz
Date 2019/03/05 14:49
Subject: Retaliation against inmate seeking to know air and water temperatures
Attachments: TEXT.htm, Mime.822

Warden Quay and Nicole:

I have just learned that inmate (b)(6); (b)(7)(C) was put in SHU on Sunday for repeatedly asking the COs and Facilities people who come to his unit (62) to take air and water temperatures if they can tell him the readings. Mr. (b)(6); (b)(7)(C) who is a small, soft-spoken man with no criminal record and no disciplinary problems was told that he was intimidating them by asking them the temperatures and asserting that he had a right to know what the temperatures are. (b)(6); (b)(7)(C)

This sounds like retaliation. I would like to meet with you about this as soon as possible. A person should not be put in the SHU for asking temperature readings, and I am uncertain why this is "secret" information in any event.

Thanks,
Deirdre

>>> Ray Ormond 2/2/2019 5:38 PM >>>

Herman - I think we've talked about most, but to make sure I don't miss something, below are the areas I need replies to (some may repeat themselves):

- 1) Inmates have access to additional blankets, etc. Claims inmates have not had change of blankets or underwear; confirm they are getting clean clothes and sheets. How recent have they exchanged both and what do they have? Does every inmate have extra blankets.
- 2) Does not understand why we can't bring in generators to get cell lights on or bring in portable lights. Can we get anything from NY Emergency Ops or otherwise?
- 3) **Contractor says can't get part until Monday and then Con Ed and contractor can repair Monday. This is not acceptable; push contractor or look for another vendor. Can we drive and pick up parts? Let me know where we are. This is the biggest issue.**
- 4) Status of Con Ed and contractor arrival tomorrow and status of getting terminals by tomorrow
- 5) What items have we been offered by NYC Emergency Mgmt. Have we declined anything they offered? Reason?
- 6) Status of CPAP inmates?
- 7) Has medical stopped at each cell? Anyone with blood on sheets?
- 8) Institution Security - Are protesters on sight? Are staff safe to enter/exit. Is NYPD assisting?
- 9) How many DCT staff reported? Let me know your plan to rotate them to have DCT available tonight and tomorrow.
- 10) Do we have command center, or a manned phone, for all calls/issues related to this situation?

The heat and water leaks are the same issue. Some of the coils in a couple air handler units sprung leaks resulting in heating issues in specific areas of the institution, not the entire institution.

Staff, including the Facility Manager, have been working on repairing the coils for much of the day and will continue repairs tomorrow.

Extra blankets have been handed out in affected areas to compensate for the heat issue.

You are welcome to meet with me tomorrow and I will give you an update on the progress.

Good evening Warden,

I have been made aware there has been no heat in the institution all day on the coldest day of the winter and I would like a continual updates on whats going on and What is the agency doing about keeping the staff and inmates warm since temp are plunging again to the teens tonight. This is clearly a condition of employment and is on its way of becoming a sickly building to the staff and the inmate population.

FYI: I was also informed that there is a water leakage from the 7th to the 5th floor as well, which probably is happening due to the water pipes freezing.

I will be waiting for your response to what the agency plans are regarding heating the building.

Respectfully,

Hugh,
“ Warden reports **no one has complained to him’ which is BS.**

Then you stated: ‘I guess my question is with all that is going on how come local president hasn't brought issues to Warden or EVP to RD instead of you and I dealing with this’? The email demonstrates the Local Union President has done that. It proves my point! I would never allow a Local President to bypass their Warden or RVP to come to me unless it's critical. I had multiple inquiries about BRO and MCC NY the past few days and trying not to bring anymore attention to those facilities given recent reports out of them. If I'm bringing you information it is for good cause. It shouldn't be an argument on every issue I bring to you Hugh. It's for information only. You and I both know some of the administrators do lie, you've seen a history of that over our years of working together. One last thing, if the heat went down again, why hasn't the Warden brought that issue back to you or the RD given your recent inquiry. My point proves sometimes the information is not credible. I have no reason why the Executive board (Local Leadership) all would be telling falsehoods about this. Look at things from my wanting to protect the agency not harm it. Sometimes I miss the old Hugh who had his eyes wide opened and evaluated the entire story versus one perspective. I mean that in a good way. Take care.

In Unity,

E.O. Young
National President

Good Morning Hugh - my name is (b)(6) Executive
Deputy Commissioner, NYS DOCCS. My Commissioner, (b)(6)
(b)(6) and I have been reading the papers about MDC and
wanted to offer any assistance.

We called MDC and spoke to Deputy Captain (b)(6); (b)(7)(C) to offer
assistance. He indicated that you had heat and hot water and were
on secondary power. Wen asked if he needed any assistance he
said he could use 500-700 blankets.

We have arranged for a staff person to come in and will be
transporting 1,000 blankets from Albany, NY to MDC. ETA is
approximately 4 hours.

The Deputy Capt said power should be restored tomorrow, however, If there is any further assistance we can offer please let us know. My cell phone number is (b)(6); (b)(7)(C)

Morning Tommy,

I'm being told that the previous power outage at MDC has caused a "health crisis" at the facility. District Marshals are meeting with the judiciary today to discuss the situation at a 1 pm meeting today. We are starting to get requests to take prisoners out for medical assessments and treatments. These are normally done at and by BOP staff because MDC is a consolidated facility. With 1500 prisoners housed at MDC – that will be overwhelming.

Does BOP/MDC have a plan (increasing medical staff, bringing in mobile equipment, etc....) to address the situation?

DOJ-19-0278, 19-0279, 19-0280-P-000124

the situation.

I know you are busy and dealing with a multitude of similar issues.

Anything you can provide would be appreciative.

We have a meeting at 1 pm.

Attachments: TEXT.htm, Mime.822

Mr. Hurwitz

I am sure you are aware of what's going on in New York. You have the privilege of holding the position as Acting Director of the Federal Bureau of Prisons. Please use your position to help re-establish heat, electricity and provide food for inmates.

Please also aid the staff with everything needed to operate the facility while ensuring safety. Why isn't this a priority? What is the warden doing? Why are we allowing human beings to be treated this way?

Ray,

(b)(6); (b)(7)(C); (b)(7)(F) [REDACTED] (USMS) just called me back. He confirmed that it was not any of the BRO staff. It was actually a bunch of Defense Attorneys who hit up the Federal Judges. They want the Judges to have the USMS take inmates out to local hospitals for medical assessments due to the "harsh conditions that these inmates have been exposed to". According to [REDACTED] they (USMS) were able to back the Judges down and help them realize it was not necessary.

----- Hugh Harwitz <hharwitz@doj.gov> 4/3/2019 10:47 AM -----

Ray let's discuss later keeping SORT there beyond tomorrow so we can be sure all protests are over. Fyi, below is what I told DOJ. Copying Sonya as well:

Apparently a protest is planned for this evening at 9pm. It's being billed as a national call in so I expect they will be broadcasting it on social media. We had planned on sending the SORT team home today but are now keeping them over until this is over. We are also bringing in another warden to ensure that we have wardens and AWs on site 24-7 until this is over. We are also notifying NYPD.

CHANGE NOTICE

MCC New York DCT will remain at MCC New York. FCI Otisville DCT in route to MCC Brooklyn to assist. Report times being coordinated by NER Corr Svc. If necessary, relief for Otisville DCT will be determined by noon Thursday, with rotation on Friday.

J. Ray Ormond
Regional Director
Northeast Region

215-521- (b)(6); (b)(7)(C)

>>> Ray Ormond 2/5/2019 2:22 PM >>>

Wardens: Thanks to all of you that have already provided assistance MDC Brooklyn. The local staff and Exec Staff are doing a great job and I know they appreciate the support you have sent them.

The institution is currently operating normally inside. However, the community continues to create issues for the area surrounding the institution. We are doing preliminary planning just in case the protest continue for multiple days. **DO NOT** activate your teams; however, below is a plan for rotating staff and teams if it becomes necessary. **A decision will be made Thursday by noon.**

Warden Rotation: Quay / Vitale. If goes to Friday, will rotate Warden Bradley.

AWs: Three on sight plus (b)(6); (b)(7)(C) Complex Captain from Fort Dix. If it goes to Friday, will rotate AW Danon Colbert from LEW.

SORT: Canaan until Friday if needed. LEW/ALX will take over Friday if needed. Teams will coordinate rotation time with BRO Command Center.

DCT: New York until Friday if needed. Otisville will take over Friday if needed. Teams will coordinate rotation time with BRO Command Center.

(b)(6); (b)(7)(C)

EPO, USP Canaan, will report to assist today, February 5, 2019.

Teams will initially be scheduled to stay overnight at the institution with resources provided by the institution. **Hotel stays for the teams will be decided night by night based on the intel received at the institution.**

NER Correctional Services: Please coordinate any other Command Center/EPO assistance they may need.

J. Ray Ormond
Regional Director
Northeast Region

Thanks. Have someone send me the injured staff names and their injuries. Thanks again.

J. Ray Ormond
Regional Director
Northeast Region
215-521-(b)(6); (b)(7)(C)

>>> Herman Quay 2/3/2019 5:43 PM >>>

Boss, below is a synopsis of an Front Lobby Disturbance involving the use of OC. Seventeen staff suffered minor injuries from this incident.

On February 3, 2019, at approximately 12:40 p.m., Front Lobby Staff requested assistance, due to civilian protesters and local media breaching the West Building Front Lobby, and being disruptive and aggressive toward staff. In an attempt to escort protesters and local media, out of the lobby, they began to assault staff. Responding staff dispersed (2) two second busts of OC and 3 to 5 OC pepper-ball rounds were dispersed in order to gain control and restore order to the Front Lobby. Numerous staff received minor injuries.

U.S. DEPARTMENT OF JUSTICE

FEDERAL BUREAU OF PRISON

1. Grievant(s) AFGE Local 2005 (on behalf of Powerhouse Staff)	2. Duty Station MDC Brooklyn
3. Representative of Grievant(s) American Federation of Government Employees Council of Prisons Locals CPL-33 Local #2005	4. Informal resolution attempted with (name Person) Facilities Manager (b)(6); (b)(7)(C) General Foreman (b)(6); (b)(7)(C)

5. Federal Prison System Directive, Executive Order, or Statute violated:
Master Agreement, Article 18, section (d)&(f) including all numerical sub-sections

Also any other applicable laws, rules, and/or regulations.

6. In what way were each of the above violated? Be specific.

The Powerhouse employee quarterly roster has been consistently late, or non-existent for the last 4 quarters. As per the Master Agreement, the quarterly roster shall be presented to employees "7 weeks prior to the upcoming quarter". I have had multiple meetings with the Facility Manager, and General Foreman of the Facilities Department. They had agreed to adhere to the Master Agreement, and submit the Powerhouse quarterly roster to the Union shop stewards 7 weeks prior to the new quarter change. This way shop stewards could resolve any issues with the schedule and meet with management. That has not occurred, and all attempts to reconcile this situation have failed.

7. Date(s) of violation(s)

2nd Quarter 2018 3/20/2018
3rd Quarter 2018 5/23/2018
4th Quarter 2018 7/11/2018
1st Quarter 2019 2/20/2019 and continuing.

8. Request remedy (i.e., what you want done)

Issue a cease and desist order; Order the agency to comply with the parties Master Agreement, Article 18 (Specifically roster committee's outside the Correctional Services Department) section (d) & (f) including all numerical sub-sections. Order the roster committee to be reconvened. Order management officials involved for training; and any other remedy deemed necessary and appropriate by a third party.

9. Person with whom filed	10. Title
11. Signature of recipient	12. Date signed

I hereby certify that efforts at informal resolution have been unsuccessful.

13. Signature of Grievant(s)	14. Signature of Representative (b)(6); (b)(7)(C) AFGE 2005

email: (b)(6); (b)(7)(C) @bop.gov

Ronald Reagan — ‘The greatest leader is not necessarily the one who does the greatest things. He is the one that gets the people to do the greatest things.’

The institution is currently running on emergency power. When will the electrical panel be replaced and the institution come back to full power?

- The institution is running on normal utility power at this time for Priority 1 and 2 electrical load, we are not running on generator power. The fire interrupted service to Priority 3 electrical load. The new panel is currently being installed by an outside contractor and work shall be completed by Monday February 4, 2019. A work ticket has been submitted (1/31/19) by the electrical contractor to the utility company for them to schedule a work crew to restore power to the new temporary service switch.

Powerhouse is stating that the heating system is being managed by a computer program that has been plagued with problems and has not been working properly.

- There is a new BMS system in the process of being installed under the Utility Energy Service Contract (UESC), the system is partially running at this time. Any adjustment required can be done manually in the field.

Whenever the temperature drops all the bravo units are freezing, but all the Charlie units are extremely hot. The alpha units are neither too cold nor too hot.

- Each area is operated independently from one another, the common areas and cells each have Air Handler Units that cover that area. The bravo units based on current temperature readings are slightly lower, but within recommended readings.

There is minimal lighting on all the unit and various other non-custody areas. One unit (72) has not lights at all.

- All areas have lights that are on the emergency lighting circuit which is being feed by the utility company. J72 originally had a tripped circuit breaker and once it was noticed it was corrected.

Staff are being advised by powerhouse to walk with a flashlight and use the bathroom before leaving an area because the power we are currently on will eventually go out and there is only a 2 hour backup battery. Once that battery dies there will be absolutely not power in the institution.

- This information is false. This information cannot be verified, MDC Brooklyn does have Uninterrupted Power Supply (UPS) which does provide 90 minutes of power if the Generators failed to switch over in the event of a power failure.

There is no hot water in the units. Even the hot water fountain is only giving out warm water.

- Inmate have hot water for showers and hot water in the sinks in the cell.
- There is no emergency electrical power which provides power to the hot water fountain.

The unit have no telephones, no computers and no televisions. There is not any electrical outlets that work on the units.

- The inmate telephones, inmate computer, and inmate televisions have no electrical power at this time because of the electrical issue. The inmate's public defender phones are operational.
- Staff telephones in the unit officer stations is operational.

Mr. (b)(6);(b)(7)(C) Chief Stuart Local 2005, and I discussed these questions together. Mr. (b)(6);(b)(7)(C) main concern was when we were going to get power restored at MDC Brooklyn. Mr. (b)(6);(b)(7)(C) attitude was positive and understanding with current issues. He additionally talked to all staff in the area where temperatures were taken.

Unit Temperatures 2/1/19 as of 3:00 PM, readings taken by the Facility Manager (b)(6); (b)(7)(C) and Union Official (b)(6); (b)(7)(C)

I have to brief DAG tomorrow am. I would like to use this document, but we need to get it finalized today. I will share with Patrick and see if this will suffice for the AG or if we need to convert to TPs.

Please review ASAP and edit. Let's be careful to not edit over each other. I am copying (b)(6); (b)(7)(C) so she can help keep version control. Note the items in CAPS. Those are questions I have that need to be answered/inserted.

Also note, I am told that the DAG is considering asking the IG to look into the whole situation. Can't say I am surprised. Will know more tomorrow.

Call me with questions. Thanks

>>> "Michael Bond" 02/11/2019 14:26 >>>
Boss,

The following is a list of the projects that we are in the process of contra allotting to fund various other emergencies through the NER and for funding that will be needed at Brooklyn for A&E services and repairs, there is a chance that more might be needed, but I will try and hold off for the time being. All the memos state, If this funding is still required, please re-submit during annual master planning.

Mike

ALX	2C9Z	Repair Concrete/Roadway - FCC	Contra \$60,000.00
DAN	2C6W	Abate Asbestos Auditorium	Contra \$70,000.00
FAI	2C9S	(b)(7)(E)	Contra \$231,000.00
LOR	2D1D	Repair Water Tower	Contra \$30,000.00
MCK	2C9V	Replace Grease Trap	Contra \$65,000.00
OTV	2C9W	Replace Exterior Doors and Locks	Contra \$150,000.00
PHL	2D1A	Upgrade SHU Showers	Contra \$98,000.00

PHI 2C5P Overhaul Centrifugal Chillers

Made edits - think I captured what you wanted. Michael gave me some insights following your conversation with one another yesterday. Once I finalize with you, I'll run past Michael one last time and I'll distribute from the COS box.

>>> Hugh Hurwitz <(b)(6); (b)(7)(C)@bop.gov> 1/8/2019 5:09 PM >>>
So couple questions.

--If notify by phone, how also notify ADs? They expected to make multiple calls?

--I think we need to be more specific. Why have some cases be "phone call and/OR email"? Seems to me we should be specific...all are email except in listed items that require a call or there is a need to discuss unusual circumstances or an urgent situation.

--I think if we limit calls as described above, then protocol should be call followed up by email.

--transportation accident resulting in death should probably be a call.

--staff homicide and suicide must be call.

--accidental death of staff if on duty must be a call.

Okay - admittedly not 100 percent....it would have to say "phone call and email" to cover documentation purposes.

Been working with CPD on this - what do you think? There is one typo I saw (IPP v. IPPA on page 2), but plan to finalize and to distribute from COS box to everyone tomorrow.

"Phone call and/or email" will cover the need to have some type of documentation rather than telemesssage only.

Included a remark that I am to be copied on everything you get.

Clear as mud.

Good morning -

Please see the attachment regarding Incident Report Guidelines for Regional Directors to use for all routine incident reporting to the Director and affected Assistant Directors.

Thank you as always.

Regional Director Incident Reporting Guidelines

The guidelines listed below will be used for all routine incident reporting to the Director* and affected Assistant Directors.

****Unless otherwise directed, all incident reporting to the Director will include a copy to the Chief of Staff.***

Type of Incident	Method of Notification	Additional Notification to AD
Activation of SORT or Disturbance Control Team	Phone call to Director with follow up Email to include affected AD(s) as listed	CPD IPPA
Disturbance including gang activity, group demonstration, food boycott, work strike, civil disturbance or protest	Phone call to Director with follow up Email to include affected AD(s) as listed	CPD IPPA OGC
Full lockdown of institution	Email to include affected AD(s) as listed; phone call to Director only if serious consequences are imminent or there may be unusual publicity	CPD IPPA
Fight or assault on staff resulting in life-threatening or other very serious injuries	Phone call to Director with follow up Email to include affected AD(s) as listed	CPD IPPA OGC RSD*
Fight or assault on inmates resulting in life-threatening or other very serious injuries	Email to include affected AD(s) as listed; phone call to Director only if serious consequences are imminent or there may be unusual publicity	CPD IPPA OGC RSD*

* If RRC or Juvenile related

DOJ-19-0278, 19-0279, 19-0280-P-000210

Regional Director Incident Reporting Guidelines

Escape from inside a secure perimeter institution	Phone call to Director with follow up Email to include affected AD(s) as listed	CPD IPPA OGC
Attempted escape from inside a secure perimeter institution	Email to include affected AD(s) as listed; phone call to Director only if serious consequences are imminent or there may be unusual publicity	CPD IPPA OGC
Escape from a minimum security facility, camp, or furlough	Email to include affected AD(s) as listed; phone call to Director only if serious consequences are imminent or there may be unusual publicity	CPD IPPA
Hunger strikes when medical intervention is needed	Email to include affected AD(s) as listed; phone call to Director only if serious consequences are imminent or there may be unusual publicity	CPD HSD IPPA OGC

This is a pretty comprehensive summary. I will talk from this tomorrow if needed. I suggest using this as a starting point for the AG TPs. Of course we will probably want to shorten it, but we can discuss that in the am.

DCT is on sight, staged in front lobby

NYPD is on sight

Barricades are up and protesters have been moved away from institution

Command Center will be open throughout the night. I will get a phone number.

Herman spoke to the owner of the contract company. The owner, and the Facilities Manager, are online now trying to find the part. Herman offered staff to go get the parts if they can find them and he said he would come in tomorrow if they can get the parts.

(b)(6);
(b)(7)(C) @bop.gov

I just wanted to reach out to you once more and see if you're willing to provide a couple of basic facts regarding the situation inside the MDC and your handling of it last week as temperatures dropped. This article will likely go online tomorrow and we are very interested in hearing your perspective on what went wrong within the jail -- and what you and your staff did to address it.

Here are a few questions:

How cold did it get inside some of the cells over the last week?

Temperatures within the institution are routinely monitored by staff to ensure appropriate temperatures are maintained daily. Last week's monitoring reflects comfortable temperature levels at the institution, to include offenders' living areas. Temperature readings averaged 70.2 degrees in the units' common areas and 70.1 in the units' cells.

What did you or other staff do to ensure that patients did not freeze to death?

Temperatures within the institution are routinely monitored by staff to ensure appropriate temperatures are maintained daily. Contingency measures are reserved to maintain safe and humane living conditions. In the case of the polar vortex, additional blankets were provided to the inmate population as well as increasing the boiler's temperature to ensure enough hot water for inmate population. Medical attention continued to be accessible everyday as medical staff go to every unit, daily, to provide medication and address any health concerns inmates bring to their attention.

Were extra blankets and cold weather clothing distributed and if so how much per inmate?

Extra blankets were provided to the inmate population. Inmates with work details requiring them to be outdoors are provided cold weather gear. Inmates have access to purchase additional garments in addition to their standard issue they receive upon arrival.

How would you characterize the conditions within cells on the western side of the MDC on the 6th floor and up in the SHU?

The conditions within cells on the western side of the MDC on the 6th floor and in the SHU are in an environment that is safe, humane, and appropriately secure. When concerns are raised, the appropriate department responds to ensure any issues are expeditiously addressed.

Were you present at the jail on Wednesday and Thursday as temperatures dropped or over the weekend?

I was present at MDC Brooklyn throughout last week and this past weekend with the exception of Friday. I routinely went to each unit and SHU throughout the day. Temperature levels were appropriate and maintained throughout the day.

What steps were taken to improve conditions inside the jail over the past two weeks?

Routine monitoring and maintenance continued over the past two weeks. As is the case throughout the year, when an issue arises, the appropriate department responds to ensure they are expeditiously addressed. In response to the electrical fire on January 27, the Facilities Department responded immediately, ensured the fire was extinguished, and worked closely with a contractor to repair and replace what was damaged to return the institution to normal operations. Inmate housing units were minimally impacted. Heat, hot water, and hot meals were not affected by the partial power outage. Inmates had access to public defender telephones located in each unit. Inmates were permitted to move freely in the housing units and had access to leisure and recreational activities. They were not required to be secured in their cells throughout the day.

Notes from tour tonight

Outside of SHU Sallyport, there was a silver bin with one trash bag on top and four trash bags on the floor in the corner.

SHU Sallyport. Judge asked what she should be shown that would be of interest. Attorneys responded that it was dark, cold, and hard to get medical.

Went to range 3 in SHU. We walked around. DVD asked if all power working. DVD smirked. DVD stated cell with leak was 114. (b)(6); (b)(7)(C) asked inmate in Spanish if his cell was leaking. Inmate said no. DVD said she thought it was on the other side of SHU.

As the group was walking past cells, the judge saw an inmate trying to send a kite to another cell. They explained to her what a kite was. Inmates started screaming and banging doors as we left. "As soon as you leave, we're going to go back to the same shit. We are hungry. They keep threatening us if we talk."

DVD's minion asked judge to talk to inmate making claims. Judge stated she didn't feel the need to do so.

DVD asked specifically about cell number of two inmates.

Went to range 4 of SHU. Judge raised stopped under vent and raised hand. She stated it was blowing cold air. (b)(6); (b)(7)(C) took temperature reading of air coming from vent. It read 72.6 degrees.

Stopped at cell 114. Judge called stenographer.

Inmate number (b)(6); ??? Talked to (b)(6); (b)(7)(C) No heat. No extra blankets. Feeling suicidal and nobody came to help him. No thermal shirts, no hot water, cold food, couldn't see, read, read bible. No legal work due to no electricity. As they were leaving, he said, "Oh yea, one more thing...no medical attention."

Cell 113, inmate (b)(6); (b)(7)(C) Cellee going through mental breakdown and asked for attention. Officers were walking around only every hour (b)(6); (b)(7)(C) (staff name) was told but he took it as a joke. I physically had to take the noose out of my cellee's hand. Box on the door was on. This inmate asked for medical attention.

DVD asked Judge to speak to inmate (b)(6); (b)(7)(C)

Cell 111, (b)(6); (b)(7)(C) Judge said to stenographer, you can tell there is water damage. "Oh goodness." You can see mold on fluorescent lights. No heat or hot water. DVD asked if there was someone she could contact in his family. He gave rher name and number and she said she would call tonight when she returns to the office.

Inmates yelled they were scared of retaliation.

Judge requested to go to 6 and 7.

In the first floor lobby, attorneys requested special master to be appointed. No medical care. No confidence in medical care here. Terturn to courtroom for ruling. Judget told an attorney complaining of her inmate's medical issues (orbital) the time to do so was today in the courtroom and she did not submit any evidence.

Narrative

On February 2, 2019, protesters arrived at MDC Brooklyn and started protesting the perceived conditions inside the institution. On February 3, 2019, at approximately 12:47 p.m. the protesters pushed their way into the west building front lobby. Staff who were present in the lobby attempted to block the protesters from further entering the lobby. Staff called for assistance and when further staff arrived the protesters became violent and staff responded by using OC spray and deployment of pepperball rounds from the Pepper Ball Launcher. Staff were then able to guide the protesters out of the front lobby with no further incident. While reviewing the (b)(7)(E) it was discovered on the screen name (b)(6); (b)(7)(F) the following post; "This is what happened to my Sis (b)(7)(F) Officer (b)(6); (b)(7)(C) along with Officer (b)(6); (b)(7)(C) at the Metropolitan Detention Center brutality assaulted (b)(6); (b)(7)(C) and pepper sprayed her for no reason... This is the culture of the staff at MDC. Can you imagine what they are doing to the inmates?" In the comments section from this post, the screen name of (b)(6); (b)(7)(F) stated; "Officer (b)(6); (b)(7)(C) and (b)(6); (b)(7)(C) your days are numbered... You gone learn to put your hands on my beautiful people mf.." In another response to the same post, (b)(6); (b)(7)(F) continued to state; "It's ok I downloaded the video..I will get it out. Right before I kill them 2 mf officers. Now repost that @cnn. As of the righting of this report, protesters remain outside MDC Brooklyn.

On February 4, 2019, at 10:25 a.m. the east Control Center received a bomb threat from a male individual. The individual stated, "There is a bomb in the building." He then hung up with no other information given. (b)(7)(E)

(b)(7)(E)

(b)(6); (b)(7)(C);
(b)(7)(E); (b)(7)(F)

Given the (b)(7)(E) and the overall situation at MDC Brooklyn, it is possible (b)(7)(E) has a threat against him.

Inmate Message Below

----- (b)(6); (b)(7)(C) on 2/5/2019 1:38 PM wrote:

>

Dear Warden Quay,

Around 12-12:30 today Lieutenant (b)(6); (b)(7)(C) came to the unit K84 to check on CO (b)(6); (b)(7)(C) I stepped in the bubble and informed her that I was vomiting blood and my left side feels numb and needed medical attention. Mind you, about a month ago I was rushed to the hospital after I collapsed on the 8th and 3rd floor while seeking medical attention and rushed to Kingsbrook Jewish Medical Center for emergency surgery to remove my gall bladder. The doctor informed me if I had waited any longer I could have expired.

So when I seek medical attention I am not crying wolf. So when I asked the Lieutenant (b)(6); (b)(7)(C) she said, I quote, "I need medical attention for my head." She pointed to her head and was mocking me while she laughed. This is the same lieutenant when I was assaulted physically and sexually about a year ago, also did nothing and had the audacity to tell me I should learn to fight. In addition she embarrassed me in front of all staff when I was interviewed about the assault.

Warden, I have written numerous cop outs about various issues and received little if no response at all. This is unacceptable and inhumane to be treated this way. The last week summarized the inhumane treatment I and other have received. The Lieutenant's attitude today begs the question whether my initial investigation regarding the assaults were taken seriously at all.

My family has been contacted by the media repeatedly regarding the events of last week. I told them to not respond. But after what happened to me with the Lt. today I will be following up with my attorney and media regarding the disrespect and inhumane treatment I have received. My mother has cancer and when I asked, during the power outage, about contacting her, I was told that the only way I would be able to have contact with her is if she died.

The institution is currently running on emergency power. When will the electrical panel be replaced and the institution come back to full power?

Powerhouse is stating that the heating system is being managed by a computer program that has been plagued with problems and has not been working properly.

Whenever the temperature drops all the bravo units are freezing, but all the charlie units are extremely hot. The alpha units are neither too cold or too hot.

There is minimal lighting on all the unit and various other non custody areas. One unit (72) has not lights at all.

Staff are being advised by powerhouse to walk with a flashlight and use the bathroom before leaving an area because the power we are currently on will eventually go out and there is only a 2 hour backup battery. Once that battery dies there will be absolutely not power in the institution.

There is no hot water in the units. Even the hot water fountain is only giving out warm water.

The unit have no telephones, no computers and no televisions. There is not any electrical outlets that work on the units.

(b)(6);
(b)(7)(C) not sure what else is needed.

Ok, here is the latest. Please review tonight if possible as I am leaving at 8:30 am for the DAG meeting.
Thanks

> > > (b)(6); (b)(7)(C) 2/5/2019 2:02 PM > > >

Please see two documents attached. The first is a timeline with both Sonya's and Ray's changes (track changes). The second is a document with all the changes accepted (and it's probably a lot easier to read). The only issue I see that wasn't addressed by either was the first line of the document which is highlighted on the accepted version.

Thank you.

Please see the attached.

They submitted the grievance at the correct level. We have 30 days to respond. It looks like the only timely filing is against the 1st quarter 2019; the others are past the 40 day time frame.

We will need info on the quarterly roster procedure used in the powerhouse, to include dates the roster is posted and bidding starts. We'll also need info on what attempts at informal resolution were conducted.

6. In what way were each of the above violated? Be specific.

The Powerhouse employee quarterly roster has been consistently late, or non-existent for the last 4 quarters. As per the Master Agreement, the quarterly roster shall be presented to employees "7 weeks prior to the upcoming quarter". I have had multiple meetings with the Facility Manager, and General Foreman of the Facilities Department. They had agreed to adhere to the Master Agreement, and submit the Powerhouse quarterly roster to the Union shop stewards 7 weeks prior to the new quarter change. This way shop stewards could resolve any issues with the schedule and meet with management. That has not occurred, and all attempts to reconcile this situation have failed.

7. Date(s) of violation(s)

2nd Quarter 2018 3/20/2018
3rd Quarter 2018 5/23/2018
4th Quarter 2018 7/11/2018
1st Quarter 2019 2/20/2019 and continuing.

8. Request remedy (i.e., what you want done)

Issue a cease and desist order; Order the agency to comply with the parties Master Agreement, Article 18 (Specifically roster committee's outside the Correctional Services Department) section (d) & (f) including all numerical sub-sections. Order the roster committee to be reconvened. Order management officials involved for training; and any other remedy deemed necessary and appropriate by a third party.

9. Person with whom filed	10. Title
11. Signature of recipient	12. Date signed

I hereby certify that efforts at informal resolution have been unsuccessful.

13. Signature of Grievant(s)	1. (b)(6); (b)(7)(C) AFGE 2005

Brooklyn, New York 11232

February 2, 2019

MEMORANDUM FOR INMATE POPULATION

//S//

From: M. King, Associate Warden (C)

Subject: MDC Brooklyn's Update - Power Outage

In an effort to provide you an update on MDC Brooklyn's power outage, the below information is an update on the status:

- On Sunday, January 27, 2019, there was a fire which caused power outage impacting (TRU Lincs, telephones, televisions, etc).
- Contractors have been working diligently to fix impacted areas to restore power throughout the institution.
- Legal visits will resume on Sunday, February 3, 2018.
- We anticipate the power to be restored by Monday, February 4, 2019.

Although, we understand your frustration, you are encouraged to maintain positive behavior and follow rules and regulations. If positive behavior is maintained, we will re-access your behavior in order to resume modified operations until this matter has been resolved.

Statement on MDC Brooklyn Facility Issues

Washington, DC: The Department of Justice (DOJ) and Federal Bureau of Prisons (BOP) are committed to the safe and humane living and working conditions of all inmates and employees. In response to last week's power outage and other facility issues at the Metropolitan Detention Center (MDC) in Brooklyn, New York, the Department has requested that the OIG undertake a review of this matter to determine if BOP responded appropriately to the heat and electricity failures at MDC Brooklyn and to assess whether BOP has in place adequate contingency plans for such an incident. The BOP will also conduct a thorough investigation of the infrastructure at the facility and review the emergency response and contingency planning for this type of incident. DOJ and BOP will continue to work to ensure that MDC Brooklyn meets all required standards.

MDC Brooklyn is an Administrative security level facility that currently houses 1,654 male and female offenders in New York, New York.

Additional information about the Federal Bureau of Prisons can be found at www.bop.gov.

Memorandum

FEDERAL BUREAU OF PRISONS

Metropolitan Detention Center

Brooklyn, New York 11232

February 2, 2019

MEMORANDUM FOR INMATE POPULATION

//S//

From: M. King, Associate Warden (C)

Subject: MDC Brooklyn's Update - Power Outage

In an effort to provide you an update on MDC Brooklyn's power outage, the below information is an update on the status:

- On Sunday, January 27, 2019, there was a fire which caused power outage impacting (TRU Lincs, telephones, televisions, etc).
- Contractors have been working diligently to fix impacted areas to restore power throughout the institution.
- Legal visits will resume on Sunday, February 3, 2019.
- We anticipate the power to be restored by Monday, February 4, 2019.

Although, we understand your frustration, you are encouraged to maintain positive behavior and follow rules and regulations. If positive behavior is maintained, we will re-access your behavior in order to resume modified operations until this matter has been resolved.

Nicole,

I understand from Judge Pauley's chambers that Mr. [REDACTED] will be meeting with an MDC doctor tomorrow or Thursday and that he will be counseled about his diet. I also understand that the medication(s) that he was prescribed previously are not available at the MDC.

It is far more likely that his blood sugar level is teetering on the verge of life threatening because he is not being given the medication he needs then because of a container of ramen noodles. I have forwarded a letter from Dr. (b)(6) Mr. (b)(6); (b)(7)(C) endocrinologist, that spells out the protocol that has successfully kept his diabetes in check. I ask that the type, dosage, and frequency of his medication, as prescribed by his doctor, be adhered to in order to avoid the dangerous consequences that ignoring this protocol can bring about.

I would very much appreciate being able to participate in the meeting via phone so that I can assist. I have also made a request for medical records and ask that these records include the notes from this meeting.

Thank you for your attention to this urgent matter.

Sarah

Our responses to red questions are in bold.

Valery Logan
Executive Assistant

(b)(6); (b)(7)(C) MDC Brooklyn
P.O. BOX 329001
Brooklyn, NY 11232
PH: (718) 840-
FAX: (718) 840-5005
(b)(6); (b)(7)(C) @bop.gov

What happened at the MDC? **An undetermined catastrophic failure within one of the three switchgears caused an internal fire in Priority Switch #3. The failed switchgear was by-passed in order to restore power to the systems energized by Priority Switch #3.**

There are reports that the facility holds 800-1600 inmates and the MCC page on BOP's site indicates 821 male and female inmates — is 821 the correct number of federal inmates? **Currently, MDC Brooklyn holds 1672 federal inmates.**

What is the further spilt between male and female inmates?
1635 male and 37 female

Are there any USMS detainees housed here and if so, approximately how many? How many of these detainees were impacted?
732 (710 male and 22 female)

Why isn't there a backup generator to provide electricity? **The switchgear is necessary to distribute electricity from the power source (main feed, generator). Therefore, until the damage to the switchgear was assessed and temporary repairs made, a backup generator would not have helped or solved the problem. A back up portable generator is in place.**

How many cells have no heat and how many inmates are impacted? **All cells have heat.**

When will this (heat and electricity) be fixed? **All immediate repairs are complete. An A&E firm will be solicited to determine a long term solution.**

In the Sandy Disaster supplemental, \$10 million was provided to BOP. Did any of that go to the MDC? If so, for what reason? **Yes, MDC Brooklyn received one project for \$623,063.05. From this project, they replaced Uninterruptable Power Supplies, hot water heaters, general building repairs from water damage, and electrical repairs in the basement due to flooding.**

There was also a news story from 2 weeks ago that all visits, both family and legal counsel, had been cancelled due to "staff shortages"

<https://www.google.com/amp/s/thehill.com/homenews/administration/425693-inmates-launch-hunger-strike-after-shutdown-prevents-family-visits%3famp>).

Is this correct, particularly on the legal counsel front?

On Monday, January 14, MDC Brooklyn's visitation room was closed for both social and legal visits due to staffing shortage. On Tuesday, January 22, MDC Brooklyn's visitation room was closed for both social and legal visits. This decision was made to ensure appropriate coverage for custody posts due to anticipated critical staffing shortage. January 22 was during the government shutdown, proceeded a federal holiday, and according to intel, was designated as a national day for federal law enforcement to not report to work in protest of the government shutdown.

If so, for what reason and for how long were inmates denied visits from their attorneys?

The visiting room was closed on Tuesday, January 22, and resumed normal operation the following day.

How often does BOP close facilities to legal counsel and for what length of time?

The visiting schedule at MDC Brooklyn is only affected when an event occurs that may hinder our ability to ensure the continued safety and security of confined offenders. The length of time legal counsel visits are affected is dependent on the requirements to ensure the continued safety and security of confined offenders.

Lubricated outside air dampers
Replaced belts
Greased motor and fan bearings
Connected outside air damper actuator to damper

AHU P-3

Disposed of burst HW and CW coils
Began installing HW coils

RETURN FAN 4-2

Cleaned fan
Aligned motor and fan pulleys
Changed belts
Greased motor and fan bearings

RETURN FAN 4-3

Cleaned fan
Aligned motor and fan pulleys
Changed belts
Greased motor and fan bearings

AHU P-3

Completed piping of HW coil

AHU 8-2

Troubleshooting fan motor overload

AHU P-1

Cleaned HW and CW Coils
Cleaned outside air dampers
Lubricated outside air dampers
Adjusted belts / greased motor and fan bearings
Connected outside air damper actuator to damper

AHU 2-10

Replaced two Freeze Stats Johnson Controls part# A70HA-1C
Cleaned/ pressure washed Hot water/Chilled water coils
Replaced air filters
Greased supply fan motor and blower wheel bearings

RETURN FAN 2-10

Greased motor bearings
Replaced two BX70 belts
Greased Blower wheel bearings

AHU 1-2

Replaced two ¼" Zerk fittings on Supply fan motor
Cleaned/Power washed Hot water/Chilled water coils
Greased bearings on Supply fan motor
Greased blower wheel bearings
Replaced two BX59 belts on supply fan motor

RETURN FAN 1-2

Greased motor and bearings
Replaced two BX56 Belts

AHU 2-9

Replaced two Freeze stats Johnson controls Part # A70HA-1C
Cleaned/Power Washed Hot water/Chilled water coils
**Note: Found unit needs new heating valve installed
(Johnson Controls issue) Checked air filters = Good

AHU 2-7

Replaced Freeze stat Johnson controls Part # A70HA-1C
Cleaned / Power washed Hot water / Chilled water coils
Greased motor bearings
Greased blower wheel bearings
Checked air filters = Good

RETURN FAN 2-7

Greased motor bearings
Greased blower wheel bearings
Replaced two BX42 belts

AHU 3-1

Fixed wiring to supply fan and mounted cover plate
Replaced two 5VX1320 belts
Cleaned/ Power washed Hot water/ Chilled water coils
Replaced all air filters
*Note: Outside air dampers are frozen shut. The Linkage all
needs replaced in order to control outside air
Installed Zerk fittings on supply fan motor
Replaced two Freeze stats Johnson controls part # A70HA-1C
Greased supply fan motor bearings /Greased blower wheel
bearings

AHU 3-2

Replaced two BX85 belts on supply fan motor
Greased motor bearings
Greased blower wheel bearings
Replaced all air filters
Repaired broken heat coil (brazed) provided part number for coil replacement
Replaced Freeze stat Johnson controls part # A70HA-1C
* Note: Johnson Controls needs to check Supply voltage wiring from VFD to main disconnect (Found contactor jumped)
* Note: needs new pre-heat temperature sensor Part number TE61001 17' coil (Johnson Controls issue)

AHU 3-3

Cleaned/ Pressure washed Hot water/Chilled water coils
Replaced freeze stat Johnson Controls Part # A70HA1-C
Replaced all air filters
Greased supply fan motor bearings
Greased blower wheel bearings
Installed new Zerk fittings on supply fan motor
Attempted to fix outside air dampers. Outside air dampers are beyond repair, recommend replacement of damper section.

RETURN FAN 3-3

Replaced bad return fan motor
New motor data: ¾ HP, 1750 RPM, manufacturer # H851V3
Installed new belt A42

AHU 2-8

Cleaned/ Power washed Hot water/Chilled water coils
Greased supply fan motor bearings
Greased blower wheel bearings
Checked air filters = Good
Replaced Freeze stat Johnson Controls part # A70HA1-C

RETURN FAN 2-8

Greased motor bearings
Greased blower wheel bearings
Replaced two AX42 belts

AHU 1-2

Repaired broken Hot water coil
Coil has been repaired multiple times
Recommend replacement of coil
Air handler Info:
Trane model # SWUD0294WF0F11011520D3CH1ABDGLUVWS
Serial # T92F02555
Sales order # B3-H657A

AHU 4-2

Replaced Freeze Stat Johnson controls Part # A70HA1-C

Piped and installed new B&G hot water freeze protection circulation Pump

AHU 4-5

Replaced Freeze Stat Johnson Controls part # A70HA1-C

AHU 4-1

Installed new B&G freeze protection circulation pump
Fabricated and mounted new motor bracket to support Freeze protection circulation pump

AHU 8-4

Found outside air dampers froze shut and not modulating
The actuator was mounted in the wrong position - removed the actuator and mounted it in the right position
Lubricated and worked dampers to move freely per the BMS System
Note: VFD not working in Auto only in Bypass
(Johnson Controls issue)

AHU 8-1

Found Outside air dampers froze shut and not modulating
Connected the actuator lubricated dampers to operate freely per the BMS
* Note: Outside air dampers have one new actuator attached to one half of the Damper section. The Actuator for the other side of damper section has not been installed.
(Johnson Controls issue)

AHU 8-6

Replaced dirty air filters
Found Outside air dampers froze shut and not modulating
Connected actuator lubricated dampers to operate freely per the BMS

AHU 8-3

Outside air dampers froze shut and not modulating
Connected the actuator lubricated dampers to operate freely per the BMS
Note: damper section should have two actuators but only one has been installed (Johnson Controls issue)

AHU 7-1

Installed new B&G freeze protection circulation pump

AHU 7-2

Installed new B&G freeze protection circulation pump

AHU 7-3

Installed new B&G freeze protection circulation pump

AHU 6-1

Installed new B&G freeze protection circulation pump

AHU 6-2

Installed new B&G freeze protection circulation pump

AHU 6-3

Installed new B&G freeze protection circulation pump

* Note: Tried to test communication through Johnson controls controller to Air handler. The controller does not communicate with the preheat valve and outside air dampers. (Johnson Controls issue)

AHU 6-4

* Note: Found wires to outside air dampers not connected hanging out of box. (Johnson Controls issue)

AHU 6-5

* Note: Tried to test communication through Johnson controls controller to Air handler. The controller does not communicate with the preheat valve and outside air dampers. (Johnson Controls issue)

AHU 5-1

Piped and installed new B&G hot water freeze protection circulation pump

Found outside air dampers froze shut and not modulating
Connected actuator lubricated dampers to operate freely per the BMS

* Note: Operation of outside air dampers was reversed. Normal operation is: "0" is closed and "100" is opened. This air handler was "0" Open and "100" was closed. (Johnson Controls issue)

AHU 5-2

Piped and installed new B&G hot water freeze protection circulation pump

Aligned Supply fan motor

The outside air dampers are froze shut and not modulating
Connected actuator lubricated dampers to operate freely per the BMS

AHU 5-3

Piped and installed new B&G hot water freeze protection circulation pump

*Note: Return air dampers and Outside air dampers on controller when trying to move positions reads "read only" on controller. (Johnson Controls issue)

Connected actuator to outside air dampers

Lubricated outside air dampers to move freely per the BMS

AHU 4-3

*Note: the B&G Hot water freeze protection circulation pump had a bad motor and body gasket seal out of the box. The pump will need to be sent back under warranty.

* Note: Found that the supply fan pressure switch jumped out and needs replaced.

AHU 4-4

Connected actuator to outside air dampers

Lubricated outside air dampers to move freely per the BMS

* Note: VFD on supply fan motor trips when selector switch is in "drive". The VFD will run in bypass when selected in "drive". (Johnson Controls issue)

AHU 4-6

Connected actuator to outside air damper

Lubricated outside air dampers to move freely per the BMS

* Note: fire mode enabled on controller

Work completed by TDY HVAC Foreman:

(b)(6); (b)(7)(C)	- FCC Butner
(b)(6); (b)(7)(C)	- FCC Butner
(b)(6); (b)(7)(C)	- USP Lee
(b)(6); (b)(7)(C)	- FPC Alderson
(b)(6); (b)(7)(C)	- FCI Milan
(b)(6); (b)(7)(C)	- FCI Fort Dix
(b)(6); (b)(7)(C)	- FCI Elkton
(b)(6); (b)(7)(C)	- FCC Butner
(b)(6); (b)(7)(C)	- FDC Philadelphia

The project 36D Emergency HVAC repairs, has accrued the following costs to date: S&E Expenditures - \$66,391.12 for supplies and \$14,331.50 in overtime costs. The second TDY crew just departed back to their home institutions on March 16, 2019.

B&F Project 2D2N - This project has been awarded for to Miller-Remick, LLC in the amount of \$437,388.55. This is for A&E services to find a root cause, perform a survey for any other possible electrical issues at MDC Brooklyn. The tasks are, conduct testing on all 480 volt and above electrical components, to provide an Arc flash study and will provide a design and necessary drawings in order to make repairs and replace to the switchboard #3 that failed.

The A&E firm will be on site Monday morning, March 18 & 19, 2019, to begin a survey the electrical system and to collect data

needed for the Arc Flash and Coordination Studies. The performance period is 73 calendar days to complete all work.

The facility management team at MDC Brooklyn has provided to the lead contractor (Constellation Energy) that is overseeing the UESC for the MDC, the list of repair issues identified by our TDY staff. We are anticipating these repairs will be completed by April 5, 2019.

The automatic transfer switch that will be used to tie in the emergency generator and priority #3 switchgear was received and the contractor will be on site to begin installation on Thursday, March 21, 2019. It is anticipated this work will be completed before Tuesday March 26, 2019.

TEXT.htm, Interview+Doc Request for MDC 2-27.docx

Herman,

Please see OIG's E-mail below and attached document which outlines their plan upon arrival, interviews, and follow-up questions for Wednesday, February 27, 2019.

There will be four OIG staff conducting this inspection visit:

(b)(7)(C)

Ray,

According to the attachment, OIG plans on interviewing you in the near future (page 2).

Brad and Sonya,

OIG will be interviewing specific staff from your divisions in the near future as well, which is outlined in the attached document (page 2).

In closing, my office will coordinate the interviews with Ray and the divisions once OIG provides us the tentative dates.

If there are any questions please let me know.

Thanks,

(b)(6); (b)(7)(C)

Subject: Interview Request and Supplementary Document Request for MDC Brooklyn Inspection

Hi Joe,

Our plan is to arrive at the facility for 8:30 am this Wednesday. I hope we can get these interviews done by COB on Wednesday. We have authorized travel through Thursday, so if we are unable to complete the field work in a day, we would like to come back and finish up on Thursday morning if that works for MDC Brooklyn management.

The attached document includes the list of interviews and the supplementary document request. I have also included a list of non-MDC Brooklyn BOP staff for future interviews.

As always, please feel free to reach out to clarify any request and we will be happy to discuss.

Best,

Mike

DOJ-19-0278, 19-0279, 19-0280-P-000377

Interviews (If BOP staff is unavailable, we are happy to speak by phone later).

1. Brief conversation with SIA on duty to better understand video footage
2. Lieutenant (b)(6); (b)(7)(C)
3. Two inmates who work in food service (BOP selection is fine)
4. Two Health Information Clerks/Medical Records Clerks (BOP selection is fine)
5. Correctional Officer (b)(6); (b)(7)(C)
6. Associate Warden King
7. Two staff members who can discuss the R&D process during the power outage (BOP selection is fine)
8. Staff member who can best speak to the progress of and future work required for ongoing energy efficiency project

Documents:

Please let us know if you have any questions or need clarification before gathering information. Also, not all documents are expected before we leave the facility, and can be provided electronically or mailed if necessary

1. Breakdown of when units were in lockdown status between January 27, 2019 – February 3, 2019 (already requested verbally)
2. List of inmates
 - a. Who attended court appearances between January 27, 2019 – February 3, 2019
 - b. Who had a court appearance rescheduled as a result of the January 27, 2019 – February 3, 2019 power outage and/or the inability to contact counsel and/or any other reason
 - c. Who missed a court appearance as a result of the January 27, 2019 – February 3, 2019 power outage and/or the inability to contact counsel and/or any other reason
3. List of any inmates that used staff phones to contact legal counsel during January 1, 2019 – February 3, 2019.
4. Inmate BP-8, 9, 10, or 11 filed between January 27, 2019 – February 15, 2019
5. Records of communications between MDC and EDNY/SDNY District Courts regarding the electrical outage and institution modified operations between January 27, 2019 – February 3, 2019. (If not all communication was electronic, a timeline describing any verbal communications).
6. Daily Assignment Roster Reports: December 1, 2018 – January 26, 2019
7. Project Work Statement for ongoing energy efficiency project
 - a. Additional documentation detailing work/tasks completed
 - b. Documentation detailing work/tasks that remain to be completed
 - c. Funds outlaid and committed to project work/tasks.
8. Boiler Operational Logs: January 1, 2019 – February 3rd 2019.

9. Any records or logs that detail corrective action taken following a low or high temperature reading in the facility between January 1, 2019 and February 15, 2019
10. MDC Brooklyn Annual Operating Budget for FY 2016-2019, broken down by major Budget Object Categories (with general description of categories)
11. Record of meals served (i.e. what was served) January 27, 2019 – February 3, 2019.

Future Interviews with BOP Regional and Central Office Staff

1. Regional Director Ormond
2. Central Office and/or Regional Staff responsible for facility management and design.
3. Central Office and/or Regional Staff responsible for oversight of energy efficiency projects
4. Central Office and/or regional staff responsible for media outreach related to MDC Brooklyn Power outage

***** Update *** Partial Power Outage at the Metropolitan Detention Center Brooklyn, NY**

Brooklyn, NY: On January 27, 2019, Metropolitan Detention Center (MDC) Brooklyn experienced a partial power outage due to a fire in the switch gear room. The West building has limited power in some areas; however, the East building was unaffected. All affected areas have lights that are on the emergency lighting circuit which is being fed by the utility company.

The new electrical panel was installed by an outside contractor on February 2nd and a work ticket has been submitted by the electrical contractor to schedule a work crew to restore power to the new temporary service switch once the remaining part is obtained. Work is expected be completed by Monday, February 4, 2019.

Heating to the building is provided via a boiler, which was not affected by the power outage. Inmates have hot water for showers and hot water in the sinks in the cell. Essential personal hygiene items and medical services continue to be provided. The facility has accepted resources from the New York City Emergency Management and the New York Department of Corrections. The inmate telephones, inmate computers, and inmate televisions do not have electrical power at this time because of the electrical issue. The inmate's public defender phones are operational. Staff telephones in the unit officer stations are operational.

Medical staff have checked and continue to check each inmate cell-by-cell periodically and continue to dispense required medications and address the medical needs of the inmate population. Legal visits will be available today.

Tours of the facility were provided on February 1st and 2nd to representatives and staff from the United States Congress. All representatives were able to walk the facility, talk to inmates and staff and observe institution conditions.

We continue to work expeditiously to restore power to the facility as quickly as possible.

Additional information about the Federal Bureau of Prisons can be found at www.bop.gov.

Re: BRO Timeline

From Sonya Thompson
To Hugh Hurwitz, (b)(6); (b)(7)(C) Ray Ormond
Date 2019/02/05 18:04
Subject: Re: BRO Timeline
Attachments: TEXT.htm, BRO Timeline-v3.docx

I made some minor edits. The only item I think might need additional clarification is whether the security incidents on 2/1 indicating minor injuries were injuries to staff or inmates:

- 2 separate security incidents involving disruptive inmates occurred with **2 minor injuries** in the first incident, no reported injuries in the second incident. As a result, the warden placed the institution in lockdown to ensure inmate and staff safety.

Also, I added some language at the end about additional maintenance having been performed because I talked to Brad today and he told me that (b)(6); (b)(7)(C) indicated they had replaced all the belts on the blower and now there's more air output.

From: Hugh Hurwitz
To: (b)(6); (b)(7)(C) Ormond, Ray; Thompson, Sonya
Date: 2/5/2019 5:31 PM
Subject: Re: BRO Timeline

Ok, here is the latest. Please review tonight if possible as I am leaving at 8:30 am for the DAG meeting.
Thanks

>>> (b)(6); (b)(7)(C) 2/5/2019 2:02 PM >>>

Please see two documents attached. The first is a timeline with both Sonya's and Ray's changes (track changes). The second is a document with all the changes accepted (and it's probably a lot easier to read). The only issue I see that wasn't addressed by either was the first line of the document which is highlighted on the accepted version.

Thank you.
(b)(6); (b)(7)(C)

Metropolitan Detention Center, Brooklyn, NY, Talking Points
1600 mostly pretrial detainees of varying security levels

1/5/2019 – Power outage

At 2:30 am electrical power was lost to the West Building in inmate cells, visiting room, staff offices, Receiving & Discharge, parts of Food Service, as well as to inmate televisions, phones and email.

Emergency power provided lights to housing unit common areas

Electrical Panel 3 had a short for an unknown reason and the generator was not picking up the load because of an under voltage issue.

Bag meals (cold meal) were provided for the lunch and evening meals because of power impact on Food Service.

Electrical contractor repaired and power restored by 2:30 p.m.

After 4:00 p.m. count, resumed normal operations.

1/21/2019 – Heating Coils broke

Inmate cells in 3 of 16 housing units, West SHU, and staff unit team offices lost heat

Blankets were provided to inmates as well as hot coffee packs

Staff provided coffee and offered work space in heated areas

1/22/2019 – Heat restored in housing units and West SHU, except Unit 62 – staff still working on broken coil; heat still out in staff offices – ordered \$4k part.

Although Heat had not been reported out in Food Service, Education, and Medical on 1/21, a Federal Holiday, when conducting checks throughout the institution, it was determined these areas were not receiving sufficient heat. Further checks revealed the fans controlling air flow to the areas had to be reset which fixed the issue.

1/23/2019 – Normal heat restored with exception of Unit 62 which was 63 degrees in common area and 59 in cells. Inmates provided additional linens and access to common areas. Continue to work on heating for this area.

1/24/2019 – Repairs on heat are completed. Temperature readings in all areas between 63 and 74, and rising.

1/27/2019 – Electrical switch gear fire in Electric Panel 3

East Building (Female inmates) not impacted.

West Building lost electrical power in inmate cells, visiting room, staff offices, Receiving & Discharge, parts of Food Service, as well as to inmate televisions, phones and email.

Emergency power provided lights to housing unit common areas

Heat in all areas, medical services, elevators and cameras remained operational.

Medical conducted pill line in each unit.

Box (cold) meal was provided to inmates (this was the only hot meal missed after the fire)

Con Edison (ConEd) came on site to begin to assess damage

1/28/2019 –

ConEd and Electrical contractor on-site to continue assessing

Northeast Region dispatched electrical engineer to institution

Electrical contractor began to build a temporary bypass for the switch gear
Cannot run a generator w/o the switch gear
Put portable lighting in Food Service for staff/inmate safety. Food service equipment worked so hot meals were provided.
With exception of x-ray machine, all of Health Services was working.
Inmates had access to common areas.

1/31/2019 –

Temperature checks were done throughout institution. Outside temperature dropped to 1 degree. Temperature dropped in two areas and HVAC Foreman adjusted dampers for increased heat/air flow. Those areas were Unit 62 (54 degrees), and education (57). No staff working in education. All areas of institution checked at 6am on 2/1/19 and readings between 63 and 74.

2/1/2019 –

NYT article appears claiming no power or heat
Article is inaccurate as heat was provided via a boiler which was not impacted by the fire. In addition, lighting was provided in the common areas, Food Service, and medical services continued
Due to extremely cold conditions, building was colder than normal. Dampers were adjusted on 1/31/19 when outside temperature dropped to 1 degree, which increased temperatures in all areas.
Protestors arrived outside of institution, likely due to misinformation posted on social media
Electrical contractor completed building the new switch gear panel. A part was needed to finish install; the part was scheduled to arrive Monday morning 2/4/19. Institution and contractor staff began calling to locate the part sooner.
2 separate security incidents involving disruptive inmates occurred with 2 minor injuries in the first incident, no reported injuries in the second incident. As a result, the warden placed the institution in lockdown to ensure inmate and staff safety.
Calculated use of force at noon in unit 53 due to disruptive inmates covering window and refusing to uncover and allow count and welfare check. One employee received minor injury.
During the entire lockdown inmates were fed all meals in their cells, medical staff dispensed medication and checked on each inmate daily.
Institution attorneys attended court conference in EDNY due to NYT article
At court direction, tours were conducted for representatives of the USAO EDNY and Federal Defenders. Separately, Congr. Nydia Velazquez requested a tour.
Mixon (USAO rep) appeared satisfied; Velazquez toured with 2 staff and inspected 8 units and SHU, observed temperatures in units and water temperature. Only expressed concern about temp in Sallyport
Federal defender rep (van Dornum) toured with Senior Investigator at the US Attorney's Office John Ross. Van Dornum was prompting inmates with question about whether they were cold.

2/2/2019 – 2/3/2019 –

(b)(7)(E)

Congressional visits from members (Velazquez, Nadler, Jeffries, Maloney, and the NY State AG).
BOP Director spoke with Booker, Gillibrand, Velazquez, and Nadler
Due to cold external temperatures and inaccurate information being reported in the media, staff made numerous temperature checks throughout the building. Temperatures varied depending

on location (windows vs air outputs; ceiling vs floor, etc), but generally ranged from 63 to 74 degrees.

Hot meals and medical visits continued to be provided

Hot showers were provided

Central Office and Regional Office Facilities staff arrived onsite to assess entire electrical and HVAC system and determine what repairs or equipment is needed to continue to safely and appropriately run the systems. Procurement of these needs has already begun.

2/3/2019 –

Facilities staffed worked continuously on the power, rerouting power in several areas, and were able to reroute the visiting room power to another source.

Legal visits were resumed.

Congr Nadler visited again, as did Congr Velazquez

Protestors pushed past the established sidewalk barricades and pushed into front lobby. OC Spray (tear gas) was used to regain control of the situation. 15 staff were injured during the incident.

NYPD increase police presence after this incident

Due to the incident, attorney visitation was cancelled

After continuing to try and locate the needed part, the contractor located the part from a supplier, picked it up and returned to the MDC to install it.

At approx. 6:30 pm, the work was completed and ConEd was able to restore power to the West Building

The inmates were provided the opportunity to watch the Super Bowl, continue showers, and call their families

2/4/2019 –

Facility was returned to normal operations, including visitation

At approximately 10:25 am, a bomb threat was called into the institution.

(b)(7)(E)

(b)(6); (b)(7)(C);
(b)(7)(E); (b)(7)(F)

After the 4 pm count, the institution was returned to normal operations, including visitation.

At approx. 5 pm, the FBI arrived to inform the warden that threats were identified against

(b)(6); (b)(7)(C); (b)(7)(E); (b)(7)(F)

2/5/2019 – SDNY Hearing in case brought by inmate concerning living conditions

At time of this draft no outcome from hearing.

Overall, staff are disheartened by inaccurate portrayals on the institution in the media. Unfair and untrue allegations have spread quickly. Some members of Congress were condescending to staff and outwardly cared more about the inmates than they did for the well-being of the staff. This demeanor was particularly hurtful to staff coming on the heels of the government shutdown where they were forced to work without pay.

Moving forward, facilities staff continue to do assessment, perform additional maintenance, and develop plans and procurement actions to make any needed changes to the physical plant.

In addition, the Bureau will conduct a large-scale After Action Assessment. A senior warden from outside the Region will lead the assessment. Staff from Correctional Services, Facilities, Legal, Public Affairs, and others will participate and examine all aspects of the incident.

CONFIDENTIAL - DRAFT

RE: EDNY Inmates

From "Donoghue, Richard (USANYE)"
To Herman Quay
Date 2019/02/05 16:45
Subject: RE: EDNY Inmates
Attachments: TEXT.htm, Mime.822

Warden,

Please send me your cell phone #. I'd like to update you on some developments with our judges today.

Thanks,

Rich Donoghue
