Mr. Austin Evers
American Oversight
1030 15th Street NW Suite B255
Washington, DC 20005

RE: Freedom of Information Act Request EPA-HQ-2019-004795; Final Release

Dear Mr. Evers:

1. SUMMARY OF REQUEST

This letter is in response to your Freedom of Information Act (FOIA) request, identified above, dated April 4, 2019, requesting:

1. Any records reflecting assessments of the potential or actual impact of the partial government shutdown that lasted from December 22, 2018, until January 25, 2019, on your agency's scientific research or data-collection programs—including memoranda, summaries, after action reports, final talking points, impact analyses or other internal reports for Agency leadership—including long-term consequences of the shutdown. Records addressing the potential, actual, or anticipated long-term consequences from the government shutdown on your agency's research programs should be considered responsive to this request.
2. To the extent not already included in part 1, records sufficient to identify any research programs or studies that were halted, delayed, postponed, rescheduled, canceled, impaired, or otherwise impacted as a result of the partial government shutdown that lasted from December 22, 2018, until January 25, 2019.
3. To the extent not already included in parts 1 and 2, all records reflecting communications (including email messages, attachments, and calendar invitations) regarding the halting, cancellation, or impairment of any research programs or studies as a result of the partial government shutdown that lasted from December 22, 2018, until January 25, 2019.
4. Records sufficient to identify any funds reprogrammed within your agency to mitigate any effects of the pause in federal funding from December 22, 2018, until January 25, 2019.
5. Any communications from nongovernmental groups or individuals (e.g., anyone communicating from an email address ending in .com, .net, .org, mail, or .edu) reporting

hampered research efforts, such as data blackouts, as a result of the partial government shutdown that lasted from December 22, 2018, until January 25, 2019.

6. Any resignation letters submitted between December 22, 2018, and February 1, 2019.
7. Any communications (including email messages, email attachments, memoranda, or calendar invitations) regarding the effect of the partial government shutdown on recruitment efforts at your agency, such as a decline in applications, canceled recruiting events, or other recruitment-related initiatives.

2. DISPOSITION

Partial Grant.

3. DESCRIPTION OF RECORDS

Ninety-six records have been found to be responsive to the first, second, third, and fifth bulleted items of your request. Three are being released in full. Sixty-six records are being records released with redactions pursuant to Exemption 5, 5 U.S.C. § 552(b)(5) (Deliberative) and Exemption 6, 5 U.S.C. § 552(b)(6) (Personal Privacy). Twenty-seven records were withheld in entirety pursuant to Exemption 5, 5 U.S.C. § 552(b)(5) (Deliberative). There were no records responsive to bullet no. 4. All responsive records in response to bullet nos. 6 and 7 were released under the first interim response to this FOIA Request.

4. COST INFORMATION

There are no costs to you associated with this request.

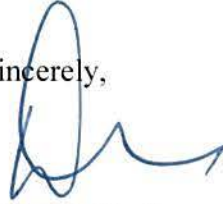

5. APPEAL RIGHTS AND CONTACT INFORMATION

This concludes the Agency's response to your request. You may appeal this response by email at hq.foia@epa.gov, or by mail to the National Freedom of Information Office, U.S. EPA, 1200 Pennsylvania Avenue, N.W. (2822T), Washington, DC 20460. Only items mailed through the United States Postal Service may be delivered to 1200 Pennsylvania Avenue. If you are submitting your appeal by hand delivery, courier service, or overnight delivery, you must address your correspondence to 1301 Constitution Avenue, N.W., Room 6416J, Washington, DC 20001. Your appeal must be in writing, and it must be received no later than 90 calendar days from the date of this letter. The Agency will not consider appeals received after the 90-calendar-day limit. Appeals received after 5:00 pm EST will be considered received the next business day. The appeal letter should include the FOIA tracking number listed above. For quickest possible handling, the subject line of your email, the appeal letter, and its envelope, if applicable, should be marked "Freedom of Information Act Appeal." Additionally, you may seek dispute resolution services from EPA's FOIA Public Liaison at hq.foia@epa.gov or (202) 566-1667, or from the Office of Government Information Services (OGIS). You may contact OGIS in any of the following ways: by mail, Office of Government Information Services, National Archives and

Records Administration, Room 2510, 8610 Adelphi Road, College Park, MD 20740-6001;
email, ogis@nara.gov; telephone, (301) 837-1996 or (877) 684-6448; or fax, (301) 837-0348.

If you have any questions regarding this response, please contact Ms. Rebecca Clausen, ORD
FOIA Officer, at clausen.rebecca@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Deborah Heckman', with a stylized flourish at the end.

Deborah Heckman

Subject: Resignation

Hi Yvette,

As we discussed earlier today, I am resigning from the EPA effective January 13th. My last day in the office will be Friday, January 11th. This is by and large a personal decision; I hope I have made it clear that I do not **want** to leave RAD at this time. I have been offered a position with RB (Reckitt Benckiser) in Montvale, New Jersey, which will put me only an hour away from my family. For now, this is what is best for me.

I cannot thank you enough for being the most fantastic supervisor. I was looking forward to learning a lot more from you...hopefully I will get the chance again in the future.

Please let me know what paperwork, etc. you need from me.

Amy

Quentin X Jones
Director, Office of Technology Solutions
12/26/2018

Holly Greaves
Chief Financial Officer

Holly,

After 30 years and 3 months of federal government service (based on EPA calculated service computation date), effective immediately, I am resigning my federal service position as the OCFO Director of Technology Solutions. I have decided to pursue opportunities as an independent consultant. No payable time should be charged to my employee id after December 25th, 2018. I will contact Justina Fugh to provide the proper ethics procedures and protocols for SES's separating from the federal government. I currently have an EPA Verizon wireless internet mifi and RRB parking hang tag that I will ensure is properly returned. If I encounter any other items, I will ensure that they are returned as well.

This memo as my official notice of my resignation

Sincerely,

A handwritten signature in black ink, appearing to read "Quentin X Jones", with a long, sweeping horizontal line extending to the right.

Date: Thursday, December 27, 2018 11:00:29 AM

Dear Barbara,

I am writing to inform you of my resignation from the U.S. EPA and Federal Service, effective at the end of my tour of duty on January 10, 2019. The reason for my departure is that I was recently offered a new opportunity with a private company in New Jersey and have decided to take their offer.

This was not an easy decision to make. The past 9.5 years have been very rewarding. I have enjoyed working for you and my esteemed colleagues in the Human Resources Branch, Office of Regional Counsel, and Office of Policy and Management on the complex labor and employee relations matters.

I will miss the incredible people that I have had the pleasure of working with since my employment started at EPA. I cannot thank you enough for all the opportunities and experiences that you, Robert, Rich, Don, Amanda, and many others have entrusted me with over the years. While I look forward to the opportunities that await me in my own career, I will always remember the dedication that EPA employees have in their work.

I appreciate your support and understanding and wish you all the very best. Please let me know if I can be of any assistance during my last few weeks of my time here.

My forwarding address and contact information is as follows:

Hello, Robin and Jack -

I would like to notify you that I am resigning from my position as the Senior Policy Advisor for Oil and Natural Gas effective two weeks from today. I sincerely apologize for the abrupt timing of this announcement.

I am especially thankful for the opportunity to work across the EPA on environmentally-responsible oil and natural gas development. Mostly, I am grateful to the dedicated, talented and professional colleagues who so graciously assisted me in this role.

I have been appointed to Governor-Elect Michelle Lujan Grisham's cabinet as the Secretary of the New Mexico Environment Department and anticipate a formal public announcement this week. I look forward to working with you and my other colleagues at the EPA in this new capacity. In the meantime, please let me know how I can best assist you with this transition.

Sincerely,
Jim Kenney

The Honorable Andrew Wheeler
Acting Administrator
US Environmental Protection Agency
1200 Pennsylvania Ave NW
Washington, DC. 20460

December 14, 2018

Dear Administrator Wheeler:

It is with a great spirit of gratitude that I submit my official letter of resignation effective January 9, 2019. I am not leaving EPA as much as I am excited about the opportunity to serve my home state on Oklahoma Governor Kevin Stitt's Cabinet as the Secretary of Energy & Environment.

I can say without reservation that working for you and Ryan Jackson has been the greatest experience of my professional life. The opportunity to witness your leadership and learn from you and Ryan has enriched my life, and prepared me to be a better public servant for the people of Oklahoma. I will be watching and rooting for you as you go through a successful confirmation process. Having gotten to know you, and see your leadership in action, I have no doubt whatsoever that you are the right person to lead this great agency. You love the mission and care about our most valuable asset, the career employees who serve the public. The EPA's future has never been brighter than it is under your leadership.

Again, thank you and I cannot wait to work with you and the EPA to make Oklahoma an example of how you can clean up the air, land, and water while supporting a healthy growing economy.

Respectfully,

Kenneth E. Wagner

Dear Pamela,

Please let this email serve as official notice of my resignation from the U.S. EPA. I would like to end my service at the agency effective 1/11/2019. My final day in the office will be Friday, January 4th, and I would like to use approved leave from 1/7 to 1/11/2019.

It has been an honor to work at EPA for the last 12 years and I will very much miss working with all of you!

My best,
Felicia

Hi Dan,

Please accept this email as my official notice of resignation. My effective resignation date is Friday, January 4, 2019.

As someone who doesn't have a science background, I've certainly valued the opportunity to learn from many who do. It's been a great experience to work alongside you and our colleagues.

Thank you and all the best,
Alex

Subject: Retirement

Hello everyone,

After 25 years with EPA I've decided to retire. As many of you know EPA has been like a family to me in more ways than one. My husband, Jeff Houk, is a former EPA employee and will be retiring from the Federal Highway Administration at the end of the year and my mother Sondra Faulk retired from EPA. I've enjoyed working with all of you in my various capacities at EPA:

- Stay in School for the Municipal Systems Unit, the Water Program after the 1996/1997 Reorg and then Office of Communication and Public Involvement
- Environmental Protection Specialist for the State Assistance Program that is no longer
- Employee Development Specialist – Training Officer in Human Resources
- Environmental Protection Specialist in the Air Program - Particulate Matter Program Manager
- Community Involvement Coordinator within OCPI – Public Affairs and Involvement Unit
- Supervisor Public Affairs Specialist within OCPI – Public Affairs and Involvement Unit

In addition to the time I've spent with you at work I've also spent time with many of you outside of EPA enjoying road trips, breakfast and lunch gatherings, happy hours, downhill and cross country

skiing, backcountry hut trips, hiking and of course those annual rafting trips which will continue on. Thanks for being such a great support and a friend throughout the years. As many of you know over these last few years I've discovered just how short life can be and that there are so many other things in this world that need exploring. It's time to get out and have fun! Jeff and I have plans to travel to New Zealand in February, possibly Myrtle Beach in March, DC in the Fall, hopefully Africa in 2020 and ultimately live abroad at some point. In addition to travelling we will eventually be spending our time between Colorado and our home in San Diego (fingers crossed wildfires don't find San Diego!!). I will miss the comradery and hope that during what I've witnessed to be some of EPA's most challenging years that you all retain a sense of humor to survive the ups and downs and look to one another for collaboration and support as you focus on EPA's mission.

In addition to the travel goals above I also had a goal of retire at 50. I turn 50 on Monday January 7 so my last day at EPA will be Friday, January 4. Just an FYI - I have volunteered to support the California wildfire response so if I am deployed I will have less time in the office between now and Jan. 4. Jeff and I are considering a joint happy hour downtown after I leave. More to come.

Feel free to share forward.

Sincerely, Libby

Libby Faulk, Program Manager

Subject: Notice of Retirement

Hello James and Troy,

It is with sadness and excitement that I let you know I will be leaving the EPA after 10 years of Federal service. It has been my privilege to have worked with some of the finest professionals like you and the HR team. This is the sad part because I have come to regard you all as friends. The support you haven given me (particularly over this past year) has been truly amazing as I journeyed through the most difficult time of my life in losing my spouse.

The excitement is for what comes next after this second retirement. I am looking forward to continuing to be productive in the areas of my passions. If I can ever be of assistance, please do not hesitate to call upon me.

I will make arrangements to close out my desk and return government property as soon as next Monday or when the EPA reopens for business.

Please let me know what else I need to do to effectively execute this separation.

Best regards,
Beverly

Subject: RE: did the pfbs/genx public comment site go down over the shutdown?

Dropped Andy and added Beth/Jason/Tina...

Let's continue to check the docket and if Brittany is back tomorrow she may be able to get more info from the docket folks about potential delays. I am thinking there WAS some impact as I've noticed so far at least two emails on comments in January that are not showing up on the docket right now.

I think we'll have to give a little time for the docket to update and for us to check our emails to see where we are with public comments. We'll also have to see if anything comes of this latest request for extension...

I figure we'll know more in a few days and can report up to our IOAAs as needed.

Welcome back everyone! ☺

Actually it says there were 37 comments received on the landing page (<https://www.regulations.gov/docket?D=EPA-HQ-OW-2018-0614>). I would assume that given the furlough many haven't been processed. Brittany is out today but will check on this with our docket POC this week.

Subject: did the pfbs/genx public comment site go down over the shutdown?

Hi Betsy, Samantha – I just went to the docket to get a sense of the comments received on the PFAS assessments – total of 10 comments, none after 12/27. Somewhat less than expected. Am I reading this correctly?

<https://www.regulations.gov/docketBrowser?rpp=25&so=DESC&sb=commentDueDate&po=0&dct=PS&D=EPA-HQ-OW-2018-0614>

Is it likely that the site was down during the shutdown, and if so, what might be the implications?

Colleagues,

To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information, and one submission for each major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.

Good afternoon EC members,

Please find attached the summary and materials from the Monday, January 28th EC meeting.

ACTION ITEM:

- EC members to submit additional shutdown impact topics (beyond those listed in the ORD Major Risks or Unknowns file, attached here) to Liz Blackburn by **COB Wednesday, January 30th**.

Reminders:

- Please let Jennifer know if you plan to join the gathering at her home on Feb 4th.
- Please let Anna Hassan (hassan.anna@epa.gov) know, by COB tomorrow, your lunch choices for Feb 5 and 6 and whether you plan to join the group dinner on Feb 5th.

See you all next week,

Megan

Cc: Terris, Carol <Terris.Carol@epa.gov>; 'Maria Williams' <Williams.Maria@epa.gov>
Subject: RE: Request for time sensitive information

Good afternoon,

We have received a follow-on request from OMB related to this data collection effort. Specifically, can you please modify your submission to us to include the three bullets below, as well as "key issues to be mitigated."

Please provide as much information as possible at this time. A complete mitigation plan is not required; however, you should note the key issues that will need to be addressed in each situation. If follow-up is needed, you can simply note that in your response.

In this second request, OMB noted a deadline of 9:00 am tomorrow – I recognize that is very short timing, but appreciate you providing a response as soon as possible today so that we can provide a consolidated list.

Thank you,
Holly

Subject: Info request and impact statement for EPA's Apple Developer Account (Urgent impact to the EPA Smoke Sense App availability)

Hi Rodney and Stefan,

My apologies for sending this to both of you, but I'm not sure whether OMS-EI contracts are currently being managed out of HQAD or IT AD. I was notified today that EPA's Apple Developer account lapsed during the government shutdown, and it is impacting the ability of users to download EPA Apps from the Apple store. There is a high level of interest in knowing when this service will be restored. Unfortunately, since this is a (former) OEI vehicle, we don't have the contract #, but are hoping you are well aware of the lapse and have an update you can provide.

The criticality of the lapse of this service for ORD relates to the Smoke Sense App. It's current unavailability is impacting nationwide preparations for the wildfire season, delaying the publication of research results in two journal articles and delaying the development of at least one University's curriculum around Smoke Sense. I've provided the full description given to me by the ORD National Health and Environmental Effects Research Laboratory, Wayne Cascio, in case it is helpful in your efforts.

We have a few concerns specifically related to the Smoke Sense App. Wildfire season will soon be on us and it is critical that we get the app back up for new users to understand air quality in their area, and what they can do to reduce their exposure during smoke episodes. A blog highlighting Smoke Sense was published by the Fire Adapted Communities- Learning Network on January 30, and the app was not available for download. This community has members from local, state, and federal entities across the United States that are interested in communicating about various aspects of wildfire. Further, there are several Smoke Sense deliverables- including two journal articles - that are being held until the reviewers are able to download and use the app. There is also a University whose student population is disproportionately hispanic that was interested in developing a curriculum around Smoke Sense, and that opportunity has passed as they couldn't access the app.

Given that over 38% of mobile devices are apple products (<https://www.techspot.com/news/75658-iphone-sales-help-ios-grow-us-market-share.html>, <https://www.statista.com/statistics/266572/market-share-held-by-smartphone-platforms-in-the-united-states/>) we want to emphasize how important it is to get these mobile applications up and available as soon as possible to protect public health and the environment.

If you have any info you can provide, it would be greatly appreciated.

With Regards,
Yvonne

Subject: RE: Situational Awareness: EPA Apple License Agreement

I'm going to add the accept/reject topic to the agenda of the next monthly meeting with OAS. EMD is looking at the reject trends to identify actions ORD could take to improve the quality of our submissions and will share, probably at the OC level, but we will also express the expectation that OAS managers review the rejection comments and follow-up when staff appear to be inappropriately rejecting requisitions.

In this case of the OEI requisition for the apple license agreement, it was rejected because the requisitioner did not attach a vendor quote. Obtaining quotes is actually the contract specialists' job, though, which was the concern I raised to OAS management.

Yvonne,

Thank you for the expert detective work on this. I'm still a bit shocked and dismayed that someone would unilaterally (and arbitrarily?) reject a requisition without just cause. The impact of such an action has been substantial to our customers and researchers, and remains so until mended.

Subject: RE: Situational Awareness: EPA Apple License Agreement

Hi All,

I have an update on this requirement. The HQ Acquisition Division was very responsive to me yesterday evening, and this morning I was contacted by an individual (Rayna Brown) who is moving the acquisition forward in Mr. Irby's absence. Since this is really OEI's requirement, she is going to follow-up with them regarding a couple technical questions she has, but it's looking like the critical path is obtaining OGC review of the vendor terms and conditions. Given that this procurement has been successfully processed in the past, I'm pretty confident there should be an easy fix between the government and vendor for any objectionable terms. We also stated that OARS would be happy to place the purchase card order for OEI through one of our in house contract specialists if that is the only barrier to getting this done. She promised to get back to me asap with an update once she has spoken with the technical rep from OEI and had a plan to get this done.

Jerry- I don't know why this is being done quarterly. Perhaps the vendor wants to invoice quarterly, but that shouldn't stop the agency from issuing a contract for a longer term. Bottom line for the ORD perspective, I think, is that we need the lapse in service rectified and for it not to recur. Whatever deal OAS and OEI work out to make that happen is up to them.

One bit of trivia- apparently the requisition (PR-OEI-19-00007) was rejected in EAS by Mr. Irby on 10/30/2018. I didn't find the reason used to reject the requisition as valid and shared that with Rayna, but it does point to an area worth watching in ORD for our own requisitions. Once a buyer "rejects" a requisition, it is up to the requisitioner to fix the identified omissions and resubmit the requisition (or to elevate the matter if they think the rejection is unreasonable). If they don't, when OAS managers review the workload of their staff, the transaction won't stick out as an item requiring their follow-up because the action will appear to be in the program's "court". When we begin publishing OAS' requisition report to the LCOs (hopefully starting the end of this month), we'll call that point out to the readers.

With Regards,
Yvonne

Subject: Situational Awareness: EPA Apple License Agreement

Hi Kay,

During the shutdown the EPA Apple License Agreement lapsed (this is done quarterly, and was due for renewal in January). Again, existing users can use the app; however, new users cannot download from the Apple App store. Given the holiday, use or lose, and the shutdown we understand those dealing with contracts have a lot on their plate.

How this impacts Smoke Sense/NHEERL

Deliberative Process / Ex. 5

Wayne has been up to date on the issue and here are some notes on the status and plan:

1. We have been in communication with Ryan (Scott) Philbrick from the Office of Mission Support on this issue. See email thread attached. Scott has been doing his best – with his Office Director- to ameliorate the situation.
2. Since the EPA Apple License agreement is only Deliberative Process / Ex. 5 it is my understanding that there is not a true COR as there are on other contracts.
3. The CO is Kenneth Irby. Scott noted that Kenneth has not been in contact since November.
4. Wayne has elevated this issue to the EC and Jerry Blancato, and plans to bring this up at MBR and Jerry again this afternoon.
5. We have also explored contacts for the CO's supervisory chain/Division leadership in case we'd like to approach this from the bottom up.
6. Since the beginning, folks like Michelle Ibarra and Andrew Yuen from OMS (previously OEI?) have been fantastic to work with and we will be writing a letter indicating our appreciation of their efforts that Wayne will send to their management.

Let me know if you have any questions.

Jerry- I don't know why this is being done quarterly. Perhaps the vendor wants to invoice quarterly, but that shouldn't stop the agency from issuing a contract for a longer term. Bottom line for the ORD perspective, I think, is that we need the lapse in service rectified and for it not to recur. Whatever deal OAS and OEI work out to make that happen is up to them.

One bit of trivia- apparently the requisition (PR-OEI-19-00007) was rejected in EAS by Mr. Irby on 10/30/2018. I didn't find the reason used to reject the requisition as valid and shared that with Rayna, but it does point to an area worth watching in ORD for our own requisitions. Once a buyer "rejects" a requisition, it is up to the requisitioner to fix the identified omissions and resubmit the requisition (or to elevate the matter if they think the rejection is unreasonable). If they don't, when OAS managers review the workload of their staff, the transaction won't stick out as an item requiring their follow-up because the action will appear to be in the program's "court". When we begin publishing OAS' requisition report to the LCOs (hopefully starting the end of this month), we'll call that point out to the readers.

With Regards,
Yvonne

OMG, all of this is because a \$100 order has not been issued?! I am familiar with Kenneth Irby, and will call his boss' boss right now. If they have a requisition in hand and let us take it, we can probably have a SACO process it by lunch time tomorrow.

Hi Yvonne,

I know you are well aware of the SmokeSense App issue w/Apple. Below is a good summary of impacts and actions planned. We appreciate your help in solving this w/contracts. If you have specific questions or if you need additional info, please let us know.

Thanks,

K

Subject: Situational Awareness: EPA Apple License Agreement

Hi Kay,

During the shutdown the EPA Apple License Agreement lapsed (this is done quarterly, and was due for renewal in January). Again, existing users can use the app; however, new users cannot download from the Apple App store. Given the holiday, use or lose, and the shutdown we understand those dealing with contracts have a lot on their plate.

How this impacts Smoke Sense/NHEERL

Deliberative Process / Ex. 5

Wayne has been up to date on the issue and here are some notes on the status and plan:

1. We have been in communication with Ryan (Scott) Philbrick from the Office of Mission Support on this issue. See email thread attached. Scott has been doing his best – with his Office Director- to ameliorate the situation.
2. Since the EPA Apple License agreement is only Included in Ex. 5 it is my understanding that there is not a true COR as there are on other contracts.
3. The CO is Kenneth Irby. Scott noted that Kenneth has not been in contact since November.
4. Wayne has elevated this issue to the EC and Jerry Blancato, and plans to bring this up at MBR and Jerry again this afternoon.

5. We have also explored contacts for the CO's supervisory chain/Division leadership in case we'd like to approach this from the bottom up.
6. Since the beginning, folks like Michelle Ibarra and Andrew Yuen from OMS (previously OEI?) have been fantastic to work with and we will be writing a letter indicating our appreciation of their efforts that Wayne will send to their management.

Let me know if you have any questions.

Jennifer – we just received this from Arkansas. I thought I'd share in case you have any comment. We are planning a call with ADEQ tomorrow.
David

Here is the proposal from our on-call contractor. We have not decided on an alternative. Governor Hutchinson approved the site preparation work that will have to be done with any alternative (estimated cost \$1.5M). This is depicted on drawing C 2.0. ADEQ request EPA review the proposal and either give us written comments or set up a conference call to discuss.

Colleagues,

To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information, and one submission for each major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.

Fred/Kacee,

Valerie sent out the following message to PSCs yesterday to let know about the new RARE schedule and proposal review dates. I think we should also share this new timeline with NPDs and their staff so they know when they're expected to review the proposals.

Fred, would you like to send this message to NPDs or would you like us to do that?

Program Support Coordinators,

We have just confirmed revised dates for the RARE proposal process and wanted to share with you as key partners in coordinating the RARE review. Please see the updated schedule below.

the ORD review will now take place from 4/10/19 to 5/8/19. Post-selection activities shown in yellow are tentative dates. We will be meeting in the coming weeks with the ORD Communications Staff to confirm and will provide those final dates as soon as possible.

Please feel free to contact me or Maggie with any questions.

Looking forward to your reviews.

Regards,
Valerie

Subject: Request for time sensitive information

Colleagues,

To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information,

and one submission for each major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.

Subject: Request for time sensitive information

Colleagues,

To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information, and one submission for each

major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.

Subject: Happy New Year and update

Hi all and hope everyone enjoyed the holidays. I wanted to send a note to check in and let you know what we've heard thus far. OMB has had cross agency calls, followed by an internal EPA leadership call that Chris and John have participated. I was able to call in today. Henry Darwin and Holly Greaves also participated. Updates were given on timecards, travel, budget, public affairs, congressional updates etc.

You all should have received an email from John about travel – basically travel for next week is canceled, unless it is an emergency which I don't believe applies to anyone in ORD.

A Mass Mailer went out stating that the OCFO help desk will not be available for the rest of the shutdown. Due to confusion on time card entries, OCFO will centrally handle timecards for this paypd.

More than 10,000 EPA employees have read/received their furlough notices. A new report will run next Wed and remaining employees who have not read their notices will be sent notices thru regular mail, should we still be in shutdown status.

Any new employees scheduled to start 1/6/19 have been notified not to report until further notice.

Last night and this am, the Senate confirmed Alex Dunn and Chad Macintosh to be AA's for OCSPP and OITA respectively. They now need to have their confirmation certified by the President.

With the new congress sworn in, talks and negotiations should pick up. It's unclear how long this will go, could resolve over the weekend, or into the next week, possibly longer. The longest previous shutdown in the 90's was 21 days. Our most recent was 16 days.

There will be another call Monday afternoon. We will let you know of any updates. In the meantime keep up with the news, enjoy the extra days and hope to see you all soon!

Good afternoon,

We have received a follow-on request from OMB related to this data collection effort. Specifically, can you please modify your submission to us to include the three bullets below, as well as “key issues to be mitigated.”

Please provide as much information as possible at this time. A complete mitigation plan is not required; however, you should note the key issues that will need to be addressed in each situation. If follow-up is needed, you can simply note that in your response.

In this second request, OMB noted a deadline of 9:00 am tomorrow – I recognize that is very short timing, but appreciate you providing a response as soon as possible today so that we can provide a consolidated list.

Thank you,
Holly

Colleagues,

To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information, and one submission for each major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.

Hi Jennifer,
Cindy's team put together this list for NRMRL PFAS efforts. More than is probably needed, but included for your to select the most critical. Andy Gillespie was brought into the discussion late so he may send you additional input. I think with Tim's summary, this is inclusive of the highest priority work.

Email to excepted list – adding Suzanne, Jeff and Liz. You have now been added on the excepted list.

I will need everyone's help the end of this week on responses to QFRs following the Andrew Wheelers testimony Wed. We expect QFRs to be sent to us on the 18th and the schedule is as follows:

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

Let's have another check in call this Wed the 16th at 3:00 pm

Personal Matters / Ex. 6

Looking ahead till the 8th of Feb, let me know of key mtgs we will need to cancel or where you might not participate in should the shutdown continue. Are any of these likely to draw media interest?

Deliberative Process / Ex. 5

Please email your responses to me, thanks

Let me know if you have any questions and talk with you Wed

Thanks all!

Subject: RE: Request for time sensitive information

Good afternoon,

We have received a follow-on request from OMB related to this data collection effort. Specifically, can you please modify your submission to us to include the three bullets below, as well as "key issues to be mitigated."

Please provide as much information as possible at this time. A complete mitigation plan is not required; however, you should note the key issues that will need to be addressed in each situation. If follow-up is needed, you can simply note that in your response.

In this second request, OMB noted a deadline of 9:00 am tomorrow – I recognize that is very short timing, but appreciate you providing a response as soon as possible today so that we can provide a consolidated list.

Thank you,
Holly

Subject: Request for time sensitive information

Colleagues,

To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information, and one submission for each major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.

Good Afternoon Mr. Robbins,

In reference to the email conversation below. I have been advised to reach out to you for approval prior to Scott Tharp being allowed to adjust and submit a updated excepted letter for the O+M contractors, to provide further maintenance, correction, and cleanup. Currently the staff is running on a reduced crew, which isn't an issue if everything is running properly, but we are having a lot of issues with the geothermal system, that need to be corrected to ensure that further issues don't arise. I am not sure on how much information you may need for a proper justification, but I can send you a list of the laboratory alarm going off, as well as heat pump leaks in the offices and labs. Please advise, thank you

Good morning Mr. lavastida,

In reference to the letters attached and the mechanical systems going down, leaks, and cleanups that need to be corrected throughout the building. A phone conversation with JCI has me concerned that the lack of repair and maintenance will cause more issues to geothermal system. Please change your staff schedule back to full schedule immediately. Thank you and please confirm that you have received this email.

"Advancing EPA's Mission Through Acquisition"

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
CINCINNATI, OHIO 45268

January 24, 2019

Malvern Panalytical, Inc.
117 Flanders Rd.
Westborough, MA 01581

Sent via Email to:

PBI / Ex. 4

Subject: EP-17-C-000070 – Impact of Federal Government Shutdown due to Absence of Appropriations

Dear PBI / Ex. 4

This letter provides notification the Continuing Resolution that has provided appropriations under which the Environmental Protection Agency (EPA) has been operating expired effective December 28, 2018. Effective December 31, 2018, there were no longer appropriations supporting EPA. As a result, the EPA will shut down most activities with limited exceptions.

It is determined the subject Purchase Order includes excepted activities that are considered to be in direct support of the protection of life or property for which the EPA has responsibility. Therefore, you are directed to continue annual maintenance and emergency repair service for the PANalytical Axios Spectrometer (SN DY1349) during Option Period 1 (4/1/18 – 3/31/19). However, for any new work in support of authorized excepted activities, the contractor is hereby notified that such action will be undertaken "subject to the Anti-Deficiency Act exception for emergencies involving the safety of human life or the protection of property where the threat can be reasonably said to be near at hand and demanding of immediate response (excepted activities)".

If the excepted activities are performed at an EPA facility, you shall provide Scott Tharp (Phone: 513-487-2020) with a list of the names of contractor employees who will be performing work on-site and will require access to the EPA facility as soon as possible. Individuals whose names are not on the list will not be granted access to the EPA facility.

Further, since this work is considered excepted and can continue during the shutdown, a limited number of Government employees will be available to address necessary technical and contractual matters. The point of contact for contractual matters at the EPA will be Scott Tharp (Phone: 513-487-2020), who may provide you with additional technical or contractual direction supplementing the general guidance provided in this letter.

The direction in this letter is in effect until an appropriation authorizing EPA to operate is signed by the President at which time this direction is rescinded.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott Tharp', with a stylized, cursive script.

Subject: RE: EP-C-15-008 Updated Shutdown Letter- Request for Excepted ODC Purchasing for Monthly Property Lease

Matthew,

Additional information has come to me regarding periodic payments which would be best for the agency to continue as excepted operations due to the added expense of returning equipment from remote locations or of additional fees involved with contract stoppage with vendors.

Unifirst [REDACTED] PBI / Ex. 4 per week. Cancelling this service would require buying the laboratory coats, etc. which are in the system in order to stop the laundry service which is used to protect against contamination being taken off-site.

Kentucky Electric - [PBI / Ex. 4] per month. This service is related to the same site as the land lease. Stopping this service would instigate additional fees for disconnection and fees for reconnection when we resume. It may also require a travel to the remote site to attend the disconnection.

Linde - [PBI / Ex. 4] per month. This is a compressed gas cylinder rental agreement for a very specialized custom blend which required months to prepare and receive. Cancelling it would require remote travel to package up as hazardous shipment to return to the vendor.

GASCO - [PBI / Ex. 4] per month. This is a compressed gas cylinder rental agreement for a specialized calibration gas. Cancelling it would require remote travel to package up to return as hazardous shipment to the vendor.

Waste Industries - [PBI / Ex. 4] per month rental for the rental of the dumpster. This is already on WA-3-001, but we are requesting the exception. Returning the dumpster would require vendor access to the EPA-RTP site.

Verizon – SIMs (data) [PBI / Ex. 4] per month. This would require cancellation of the contract which could incur cancellation fees, and would incur initiation fees upon start up.

Ting – SIMs (data) - [PBI / Ex. 4] per month. This would require cancellation of the contract which could incur cancellation fees, and would incur initiation fees upon start up.

Thank you for considering these operational expenses as excepted operations to be used on WA-3-001 if invoices come due during the shutdown.

Subject: [EXTERNAL] EP-C-15-008 Updated Shutdown Letter- Request for Excepted ODC Purchasing for Monthly Property Lease

Hi [PBI / Ex. 4]

We have reviewed Jacob's request and consider the lease payment described to be included with the excepted work under WA 3-001. An updated shutdown letter is attached specifically identifying this ODC as a necessary expense related to the excepted work under the contract.

Thank you,
Matt

PBI / Ex. 4

Subject: Request for Excepted ODC Purchasing for Monthly Property Lease

Hello, Mr. Tharp,

In response to Mr. Pfeffer’s letter dated December 31, 2018, I am writing to request an additional excepted activity on the Jacobs EPA-RLS contract # EP-C-15-008.

I have been informed that Jacobs is processing a monthly payment of **PBI / Ex. 4** for a property lease with a company called **PBI / Ex. 4** that is currently active on the EPA-RLS contract. The EPA currently has instrumentation deployed at the location which would need to be removed if we were to stop the lease. Additionally, there is fencing and electrical service on the site which would need to be dismantled and removed and the site landscape repaired from their removal. Traveling to and Stopping this portion of the contract would mean the Agency would incur significant costs beyond the continued **PBI / Ex. 4** month lease payment.

Please consider including these payments in the excepted work on WA-3-001.

Thank you,

PBI / Ex. 4

PBI / Ex. 4

Subject: REVISED EP-C-15-008 – Impact of Federal Government Shutdown due to Absence of Appropriations

Dear **PBI / Ex. 4**

This letter provides notification that the Continuing Resolution that has provided appropriations under which the Environmental Protection Agency (EPA) expired effective December 28, 2018. Effective December 31, 2018, there were no longer appropriations supporting EPA. As a result, EPA has shut down most activities with limited exceptions.

It is determined that the contract includes excepted activities that are considered to be in direct support of the protection of life or property for which the EPA has responsibility. Therefore, you are directed to continue Work Assignment 3-001, titled "Model, Machine, Fabrication, and Electronic Shop Support", although under no circumstances are you authorized to exceed any total cost, price, or ceiling already established. In addition, Jacobs Technology may include under this excepted Work Assignment continuing the **PBI / Ex. 4** month lease payment with Immanuel Reality in Louisville, Kentucky in order to secure and protect the EPA instrumentation currently at that field site; **PBI / Ex. 4** week uniform service with Unifirst to protect against contamination being taken off-site; **PBI / Ex. 4** month utility service with Kentucky Electric at the field site; **PBI / Ex. 4** month compressed gas cylinder rental with Linde for the very specialized custom blend; and **PBI / Ex. 4** month compressed gas cylinder with GASCO for the specialized calibration gas. However, for any new work in support of authorized excepted activities, the contractor is hereby notified that such action will be undertaken "subject to the Anti-Deficiency Act exception for emergencies involving the safety of human life or the protection of property where the threat can be reasonably said to be near at hand and demanding of immediate response (excepted activities)".

The additional Other Direct Costs (ODCs) associated with Work Assignment 3-001 requested to be considered (e.g. **PBI / Ex. 4** month with Waste Industries; **PBI / Ex. 4** month with Verizon; and **PBI / Ex. 4** month with Ting) could not be justified for inclusion in this excepted work assignment.

Further, since this work is considered excepted and can continue during the shutdown, a limited number of Government employees will be available to address necessary technical and contractual matters. The point of contact for contractual matters at the EPA will be Scott Tharp

(Phone: 513-487-2020), who may provide you with additional technical or contractual direction supplementing the general guidance provided in this letter.

The direction in this letter is in effect until an appropriation authorizing EPA to operate is signed by the President at which time this direction is rescinded.

Sincerely,

Scott Tharp
Contracting Officer

PBI / Ex. 4

Subject: EP-C-15-010 Work Assignment 3-23 – Impact of Federal Government Shutdown due to Absence of Appropriations

Dear Mr. Hennessey:

This letter provides notification the Continuing Resolution that has provided appropriations under which the Environmental Protection Agency (EPA) has been operating expired effective December 28, 2018. Effective December 31, 2018, there were no longer appropriations supporting EPA. As a result, the EPA will shut down most activities with limited exceptions.

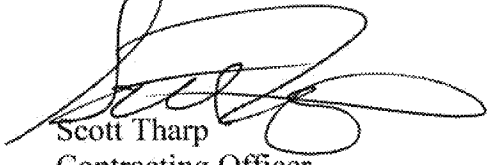

It is determined the subject work assignment includes excepted activities that are considered to be in direct support of the protection of life or property for which the EPA has responsibility. Therefore, you are directed to continue WA 3-23 "Technical and Analytical Support for Drinking Water Corrosion Research" to specifically conduct pipe scale analyses on pipe samples received from the City of Newark, NJ. However, for any new work in support of authorized excepted activities, the contractor is hereby notified that such action will be undertaken "subject to the Anti-Deficiency Act exception for emergencies involving the safety of human life or the protection of property where the threat can be reasonably said to be near at hand and demanding of immediate response (excepted activities)".

If the excepted activities are performed at an EPA facility, **you shall provide Scott Tharp (Phone: 513-487-2020) with a list of the names of contractor employees who will be performing work on-site and will require access to the EPA facility by Noon Wednesday, January 23, 2019. Individuals whose names are not on the list will not be granted access to the EPA facility.**

Further, since this work is considered excepted and can continue during the shutdown, a limited number of Government employees will be available to address necessary technical and contractual matters. The point of contact for contractual matters at the EPA will be Scott Tharp (Phone: 513-487-2020), who may provide you with additional technical or contractual direction supplementing the general guidance provided in this letter.

The direction in this letter is in effect until an appropriation authorizing EPA to operate is signed by the President at which time this direction is rescinded.

Sincerely,

Importance: High

All

Sorry to be the bearer of bad news, but...

Due to the extended furlough and time all of the liquid nitrogen in the dewar evaporated. I was surprised because I checked the dewar right after Christmas and it was $\frac{3}{4}$ full.

All the cells are currently at room temperature and have been so for an unknown period of time.

My guess nothing remain viable, but if you desire to try to bring anything back please take your tubes by 12:00 pm 1-31-19 after that everything will be autoclaved.

[REDACTED]

Dear Ms. Montgomery,

The Cincinnati Shared Service Center (HRSSC) has been informed you retired voluntarily under the Civil Service Retirement System (CSRS) and are now a reemployed annuitant with the U. S. Environmental Protection Agency.

The HRSSC conducted a review of your personnel records verifying that you are entitled to an election for CSRS retirement contribution deductions to be withheld from your pay at the rate of 7% during the period of reemployment. If you elect to have the contributions deducted from your pay, you would avoid interest accrual, unless you decided to make the deposit later to receive credit for the service. The effective date of the CSRS retirement deductions would be the first day of the pay period, following the pay period, in which the notice of request to have CSRS retirement deductions withheld is received in the HRSSC.

However, you may elect to continue paying into Social Security which is the Federal Insurance Contributions Act tax (FICA) at the rate of 6.2% withheld from your pay.

Please initial your election below. You must make your election **within 30 days of the date of this letter** otherwise, you will remain in the current retirement system under Social Security only (FICA).

I, Joyce B. Montgomery

CSA # [REDACTED]

☒ elect to have Civil Service Retirement deductions withheld from my pay during reemployment. I understand my election is irrevocable as long as I am employed without a break in service.

☐ elect to continue having only Social Security deductions withheld from my pay during reemployment. I understand my election is irrevocable as long as I am employed without a break in service.

Signed:

Joyce B. Montgomery

Hi Rhonda,

Yes that will work! Thank you so much. You're right, a campus job will be more understanding of my grad school oddities and stresses! I was holding off because I have January off of school and I was thinking I might do something for the Region 1 office for that month. But I just found out I got into a class that is going to Colombia for two weeks in January so that is no longer an option.

So Jan 6 is completely fine by me.

I did have a wonderful Christmas, thank you! Glad to hear your's was also good.

Best,
Julia

Hi Rhonda,

Thanks for the update! I do not think I will be able to secure a Region 1 job before 1/31. Sadly, I haven't been successful trying to find something in Region 1 but on the plus side, I've been able to find research positions on campus. I think it might make sense to change the effective date to a sooner date, what do you think?

How are you? Did you have a nice holiday? Are you all working right now?

Julia
