RE: NVRA public disclosure request

Dear Supervisor:

I am writing to request inspection or copies of records related to your office's voter list maintenance obligations under the National Voter Registration Act of 1993 (NVRA).

The National Voter Registration Act of 1993, 52 U.S.C. § 20501 *et seq.*, requires your office to make available for public inspection "all records concerning the implementation of programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters." 52 U.S.C. § 20507(i).

Pursuant to Section 20507(i) of NVRA, I request that your office reproduce or provide the opportunity to inspect the following:

1. Documents regarding all registrants who were identified as potentially not satisfying the citizenship requirements for voter registration from any official information source, including information obtained from the various agencies within the U.S. Department of Homeland Security, Georgia Department of Driver Services, and from the Elections Division of the Georgia Secretary of State's Office since January 1, 2006. This request extends to all documents that provide the name of the registrant, the voting history of such registrant, the nature and content of any notice sent to the registrant, including the date of the notice, the response (if any) of the registrant, and actions taken regarding the registrant's registration (if any) and the date of the action. This request extends to electronic records capable of compilation.

2. All documents and records of communication received by your office from registered voters, legal counsel, claimed relatives, or other agents since January 1, 2006 requesting a removal or cancellation from the voter roll for any reason related to non-U.S. citizenship. Please include any official records indicating maintenance actions undertaken thereafter.

3. All documents and records of communication received by your office from jury selection officials—state and federal—since January 1, 2006 referencing individuals who claimed to be non-U.S. citizens when attempting to avoid serving a duty call. This request seeks copies of the official referrals and documents indicating where your office matched a

claim of noncitizenship to an existing registered voter and extends to the communications and maintenance actions taken as a result that were memorialized in any written form.

Understanding that federal file retention laws may impact some disclosures, an optimal grouping of documents presented per registered voter disclosed would contain the following:

- The completed voter application form (redacted where necessary to prevent disclosures of claimed Social Security number and signature);

- Referral documents/transmissions for new or updated voter registration applications provided by state agencies charged with National Voter Registration Act (Motor Voter) duties;

- Records indicating the "voter profile" or "voter view" or similar feature provided within the computerized statewide voter registration database which details all information kept per voter, to include but is not limited to:
    - Full name on file (including previous names)
    - Date of birth
    - Voter ID number
    - Voter registration date (including previous dates of registration)
    - Date of last maintenance/update action
    - Reason code(s) for previous maintenance action(s)
    - County of registration
    - Detailed address information history (residential and mailing)
    - Political party designation history (if claimed/recorded)
    - Registration method history (e.g. self, NVRA agency transaction, third-party, etc.)
    - Assigned voting districts history
    - Election participation history in full
    - All internal memoranda stored within each "profile"

- All letters, postcards, and other mailings sent from your office to the voter in question with notations for types of postage or method of delivery indicated where possible;

- All letters, emails, logged phone calls, documents, and other communications from the voter in question to your office—including those communications from legal counsel or claimed relatives on their behalf—that is either affirmatively sent by the voter or in response to a mailing received by your office or other official entity;

- All documents your office may receive from federal entities to include but are not limited to the U.S. Department of Homeland Security/USCIS detailing inquiries regarding registered voters in your county and your responses given;

- All documents your office may generate upon request to the voter or federal agency concerned with immigration matters for the purpose of detailing a registration status history and voting history;

AMERICAN OVERSIGHT

- All documents and communications between your office and the registered voter in question with respect to pending immigration matters; and

- Any documents sent by your office to the voter to require that an affirmation of citizenship or noncitizenship be given in writing with responses included, where applicable.

If you wish to dispense with a public inspection and provide copies of these records instead, please send them to following address:

Re: Open Records Request dated November 6, 2018

Dear Mr. Churchwell:

This letter is written in response to your letter dated November 6, 2018, sent by email to the Gwinnett County Board of Voter Registrations and Elections. The letter has been assigned to me for a response. After reviewing your request, it has been determined that the Board and staff have custody of responsive records for some of the enumerated requests.

The following paragraphs set forth each of your requests and respond to address the availability of the records.

1. *Documents regarding all registrants who were identified as potentially not satisfying the citizenship requirements for voter registration from any official information source, including information obtained from the various agencies within the U.S. Department of Homeland Security, Georgia Department of Driver Services, and from the Elections Division of the Georgia Secretary of State's Office since January 1, 2006. This request extends to all documents that provide the name of the registrant, the voting history of such registrant, the nature and content of any notice sent to the registrant, including the date of the notice, the response (if any) of the registrant, and actions taken regarding the registrant's registration (if any) and the date of the action. This request extends to electronic records capable of compilation.*

   There are documents that partially respond to your request.

2. *All documents and records of communication received by your office from registered voters, legal counsel, claimed relatives, or other agents since January 1, 2006 requesting a removal or cancellation from the voter roll for any reason related to non-U.S.*

AMERICAN OVERSIGHT

citizenship. Please include any official records indicating maintenance actions undertaken thereafter.

There are no records responsive to this request.

3. *All documents and records of communication received by your office from jury selection officials—state and federal—since January 1, 2006 referencing individuals who claimed to be non-U.S. citizens when attempting to avoid serving a duty call. This request seeks copies of the official referrals and documents indicating where your office matched a claim of noncitizenship to an existing registered voter and extends to the communications and maintenance actions taken as a result that were memorialized in any written form.*

   There are no records responsive to this request.

As provided by O.C.G.A. § 50-18-71, you will be notified of the estimated cost to search, retrieve, copy and supervise inspection of the requested documents. At this time, the estimate cannot be provided because the records have not yet been collated with a final cost for time spent. The costs will be calculated as follows: a charge of $12.25 per hour after the first fifteen minutes and for copying at $.10/page. When I provide the final cost, please be prepared to remit the specified amount payable to Gwinnett County to the attention of Lynn Ledford, Division Director at 455 Grayson Highway, Suite 200, Lawrenceville, Georgia, 30046.

Gwinnett County, its departments, agencies, boards, bureaus, commissions, authorities, and other similar bodies of Gwinnett County are authorized to collect this charge in any manner authorized by law for the collection of taxes, fees, or assessments owed to the County by O.C.G.A. § 50-18-71(c)(3). I will notify you immediately when I have accurate information regarding the cost of the records and when the records are available and can be sent to you by mail or by electronic mail to the address provided in your letter.

Sincerely,

Daniela A. Doran
Senior Assistant County Attorney

While in pending status, you are still able to vote by showing proper identification and proof of citizenship at your polling place, but you should immediately take the below steps to resolve this issue in order to improve your voting experience.
