January 29, 2016

Ms. Shawna Powell, Secretary
Public Interest Legal Foundation
209 West Main Street
Plainfield, Indiana 46168

Dear Ms. Powell:

I am in receipt of your letter of January 12, 2016, regarding your claim that The Palm Beach County Supervisor of Elections Office is in violation of Section 8 of the National Voter Registration Act (NVRA).

The laws regarding voter file maintenance, Florida Statutes 98-065, are very clear in their requirement that Supervisors of Elections conduct list maintenance of our voter file in each odd-numbered year. Supervisors are required to submit the results to the Florida Division of Elections, who is responsible for submitting the Election Assistance Commission Report. The Palm Beach County Supervisor of Elections Office is in complete compliance with both the Florida Statutes and with the National Voter Registration Act, as demonstrated by the attached 2014 and 2015 Certifications of Eligibility Records Maintenance.

Not only does our office use change-of-address information supplied by the U.S. Postal Service as outlined in the NVRA, we also diligently investigate and act upon voter information received from the Florida Voter Registration Statewide Database maintained by the Florida Division of Elections Office, who is responsible by state law to obtain and report to each Supervisor determinations from reporting agencies that provide information about voter eligibility, including but not limited to deaths and convicted felons.

In reviewing the most recent American Community Survey provided by the U.S. Census Bureau, their Demographic and Housing Estimates for 2014 report an estimated population within Palm Beach County who are 18 years old or older as 1,087,676 individuals. At no time did Palm Beach County's voter registration come near that number of registered voters. In fact, to date we currently have 837,397 active registered voters; therefore, your claim "*In short, your county has an implausible number of registered voters compared to the number of eligible living citizens"* is inaccurate and I would suggest a simple review of the data I have cited would lead you to that conclusion.

AMERICAN OVERSIGHT

Additionally, our voter registration statistics are posted on our web site by precinct at www.pbcelections.org under *Election Information, Voter Statistics*. This information is updated on a weekly basis and is available for public review at any time. I have included copies of our Voter Registration totals by precinct from 1/8/15 and 1/7/16 for your review.

In closing, I have reviewed the Election Assistance Commission Report which was submitted by the Florida Division of Elections, which you refer to in your correspondence. Palm Beach County reported 850,638 active, registered voters and 67,067 inactive voters. I trust the information contained in this letter and other information available to the general public satisfies your assertion and nullifies your statutory notice of legal action, as stated within your correspondence.

If you have any further questions, please do not hesitate to contact us again.

Sincerely,

Susan Bucher

AMERICAN OVERSIGHT

January 16, 2019

Mr. Logan Churchwell
Public Interest Legal Foundation
32 E. Washington Street, Suite 1675
Indianapolis, IN 46204

Dear Mr. Churchwell:

We have completed estimates for the two public records requests that you made to our office on Nov. 6, 2018 and Nov. 21, 2018.

Our best estimate for your records request regarding voter list maintenance from January 1, 2006, is $4,564.32 which does not include the cost of copying the pages, as we are unable to determine how many documents we would find and it does not include an exact time for our Information Technology to create reports which would help identify voters removed by request or list maintenance. The cost per page is $.15 plus an hourly cost for copying of approximately $26.00 per hour and the cost for I.T. is $87.31 per hour.

Our best estimate for reviewing emails from 1/1/16 through 1/1/19 is approximately $11,961.47, as we have more than 493,000 emails. The hourly cost is $87.31 and would take approximately 137 hours.

In order to begin production of these records, our office would require a 50% deposit. Once we receive your deposit, we would be able to determine the time that we are able to allocate to these tasks while continuing regular business and while conducting municipal elections for 16 cities that we contract with who have elections and run-off election in March.

If we may provide you with any additional information regarding your requests, please contact me directly.

Sincerely,

Susan Bucher

Subject: Public records request

Good morning. I am in Tallahassee today, and my office just forwarded to me a request you had made of previous Supervisor Bucher. It appears that the latest correspondence was sent to an address that is not checked daily for such requests, although the letter indicates that it was sent to mailbox@pbcelections.org. We are not able to find your correspondence in that mailbox, which concerns me. Would you please forward to me the original email you sent to me so that I may have the IT department look into it?

It is the intent of my office to promptly and fully respond to all public records requests, and of course to follow all laws and regulations related to them. I want to accommodate you, and wondered if you would be available for a phone call? I want to better understand what you are seeking, so I can make sure we have what you need tomorrow. I will be returning from Tallahassee tomorrow and will not be in the office until mid-afternoon. As you may know, we have municipal elections on Tuesday, and much of our staff is working on that. I believe we can have some materials available for you, and want to better understand how we can be most responsive to your request.

My cell number is 5618152215. Please call me or send me a number to reach you, if you are available and willing to talk with me.

Please be assured that we will do all we can to comply with your request and to provide you access to the information you seek, to the extent that we are able to do so by law.

Thank you,
Wendy Link
Supervisor of Elections

Subject: Request for user manual for new VR system

Hi Ms. Link,

In advance of our meeting this Friday, I am wondering whether your office has a copy of the User Manual that you should have received with the new system. If so, I'd like to get a copy of it if possible so that I can determine whether some of the issues in data input are addressed and resolved by the new system manual. Thank you for your assistance. I look forward to seeing you Friday.

Subject: Re: Request for user manual for new VR system

We haven't started our VR conversion yet, so don't have a manual yet. I am trying to have someone from VR available for questions. If you have specific questions, perhaps you could send them in advance and I can try to get them answered.

Thanks,
Wendy

Sue,

It will be a while before we get to the point of a manual from VR. We are still developing our implementation schedule with them.

I previously asked if they could provide you with a manual and was told that they do not share their manuals with anyone other than customers.

Best,
Wendy

Good afternoon,

Thanks again for meeting with me on Friday- I really appreciated your time. Attached is the county data that we discussed in an Excel spreadsheet with 12 sheets. Please let me know if you have any questions about it and what you determine after you have reviewed it. Thanks and have a good day.

Mr. Churchwell:

Thank you for your follow up and Happy New Year - also welcome to Palm Beach County.

We just concluded our 4 recounts on 12/20/18 and most of my key staff took advantage of the holidays to take some time off after the almost 4 months of working every day and sometimes 24/7 for days on end.

When my managers return next week, I have asked them to estimate how many hours/days it would take to search and review all of our emails from 1/1/16 to present, in order to locate the records you wish to review. Additionally, I have asked them to determine how far back our voter file maintenance records have been kept (law requires 2 years) and how long will it take to compile the information that you requested to review regarding notices, voter registrations redacted, cards mailed, responses received, etc and get an estimate of how many hours/days it would take our Business Manager to track the costs you wish us to document for you.

I would estimate that we could have a quote to you within the next few weeks.

I hope your stay in Palm Beach County is great!

Thank you.

Subject: Palm Beach County Public Records Requests

Mr. Churchwell:

I acknowledge both of your public records requests of 11/06/18 and 11/21/18. I am sorry it has taken so long to acknowledge, but we are still conducting recount elections in two statewide races, as required by Florida law. We anticipate completing these requirements sometime in late December.

Because your request of 11/06/18 would require us to search documents dating back to 2006, we must estimate the time and costs and we will provide that information as soon as is practicable.

Your request of 11/21/18 will also require us to search documents from January 1, 2016 to present and we must also estimate the time and costs and we will provide that information as soon as is practicable also.

Thank you.

Public Records Request Under Article I, section 24 of the Florida Constitution, and Chapter 119, Florida Statutes, et seq.

October 30, 2017

Public Records Custodian
Palm Beach County Supervisor of Elections

RE: Request for Records Regarding Election Complaints

On behalf of the Government Accountability Institute, a nonprofit journalism organization, and pursuant to Florida's Open Records Laws, please consider this public records request for certain agency records. The Government Accountability Institute engages in research, investigative journalism, and publication, with the goal of broadly disseminating public information obtained under open records and freedom of information laws to inform the public about the workings, operations and functions of government.

Please provide us, within two weeks, all records held by the *Palm Beach County Supervisor* of Elections that meet, or contain information meeting, the following description:

1. Copies of all election law complaints from July 1, 2016 through December 31, 2016.
2. A list of all election law complaints the *Palm Beach County Supervisor of Elections* forwarded to the Florida Department of Law Enforcement or the Florida Department of State, also from July 1, 2016 through December 31, 2016.

Request for Expedited Processing

By its narrow search terms and period of time covered this qualifies as a "simple" request not requiring voluminous review. We request expedited processing.

This information is being sought on behalf of the Government Accountability Institute for research and journalistic dissemination to the general public. Release of these records is of current interest to the public because it involves a fundamental function of government, and taxpayer-funded activities. Therefore, this request involves the protection of both Florida voters and taxpayers. Together, this constitutes a compelling public need for responsive records.

AMERICAN OVERSIGHT

Relevant to open records laws, please note the Government Accountability Institute's deadline is November 12, 2017.

If any element of this request is denied in whole or part, I ask that you justify all withholdings by reference to specific exemptions of the Law. We also request the release of all reasonably segregable portions in records containing exempt material.

I request the Florida Department of State provide responsive information in electronic format. As these are all electronic records this should facilitate the most-prompt response. Please provide all responsive information to me electronically, at steve.stewart@g-a-i.org.

We also request you consider waiving any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. It is likely to be disseminated on the Government Accountability Institute's print and online publications, and through its media partnerships, reaching tens of thousands of readers and viewers.

In the event the agency asserts it requires time beyond the statutory deadline to produce a substantial volume of records, we request a rolling production of records, such that the agency furnishes records to my attention as soon as they are identified, preferably electronically, but as needed then to my attention, at the address below.

If you have any questions, please do not hesitate to contact me. Thank you for your assistance.

Sincerely,

Stuart A. Christmas
General Counsel
Vice President for Legal Investigations

Subject: Confirmed residential address disc from Planning Commission

---

Good afternoon Robin,

I hope your municipal election went well. I was checking my notes from our March 7 meeting and had a quick question for you. You mentioned that the Planning Commission sends over a disc of confirmed residential addresses fairly often for your office to check new registration addresses against. Would it be possible to get a copy of that data on a disc? I could come pick it up on Monday as I will be in the area again next week. If you prefer a more formal request, please let me know. I know you are busy with post-election tasks so I didn't want to pile on with more letters.

Just let me know- thank you!

Subject: County HAVA Funds- Question re Change in Allocation

Good evening,

I went through the HAVA files your office produced (thank you!) and have a quick question regarding how the county determines how it will spend the HAVA funds every year. It is not a major issue; I just want to ask about the sample ballots. This category has received the bulk of the federal funding every year up until the most recent EAC application (2019). In that application, there is no money being requested for it at all. I assume this could be related to technological changes but I would like to confirm that with someone because for the last 11 years, about $150,000 has gone to "mailing or publishing sample ballots" every single year. I want to make sure I understand what that cost is. There is no rush - I am just being thorough in our county analysis. Thank you in advance for whatever input you can provide.

Kind regards,
Sue

AMERICAN OVERSIGHT

Robin,

[Feel free to simply forward this email, if you wish.]

Attached are scans of the documents referenced in the following explanations regarding requests by Sue Becker (sbecker@publicinterestlegal.org) in her 04/26/2019 email.

1. Regarding "Attachment B to MOA 2013-2014-0001," which is a two-page document, it was stated that we supplied a Page 1 that has a file name ending with "FINAL.xls" whereas the Page 2 that we supplied has a file name ending with "FINAL-R" and has a later date. I checked our files again, but those two pages are all that we have. Apparently, someone in our office at the time matched together what had originally been two separate pages even though they were each from a different point in time. The good news is that, even if there might have been a change between the time of the first page and the time of the second page, it is the second page that is the later page and that has the information relative to Palm Beach County (us), therefore the information is correct for Palm Beach County. (I would think that the first page is not important for the purposes of the original request anyway.) Furthermore, the second page's figure regarding Palm Beach County ($145,827.63) is the amount that was ultimately funded to us, thus verifying its accuracy. Both pages are attached to this email.

2. Regarding "Attachment C to MOA 2015-2016-0001," I located the missing second page. It was on the back of a two-sided page and was missed when copies were made for this information request. My apologies to all. As with the item above, the amount shown for Palm Beach County ($142,850.21) is the amount that was ultimately funded to us, thus verifying its accuracy. The page is attached to this email.

Robin, you informed me that item number "3" in Sue Becker's request has already been taken care of, so my information above should complete the request.

Thank you.

Mark

Subject: HAVA files produced - request for a couple missing pages
To: Robin Rorapaugh <robin@pbcelections.org>
Cc: Logan Churchwell <lchurchwell@publicinterestlegal.org>, wendylink@pbcelections.org <wendylink@pbcelections.org>

Good morning Robin,

I was going through the HAVA file you produced to us on Wednesday and I think there may have been a couple pages missed in the copying. When you have a chance, could you please have someone check the originals for the following:

1. In the file marked 2013-2014 FEA, the second page of the county totals is missing, which is the page that includes Palm Beach. It is "Attachment B to MOA 2013-2014-0001" and noted as being the "FINAL-xls". A few pages later, there is a revised second page, noted as being "FINAL-R" and dated 1/13/14. That page includes Palm Beach, but the original page submitted is not in the file.

2. In the file marked 2015-2016 FEA, near the end, there is a second page missing from "Attachment C to MOA 2015-2016-0001" which again is the second page of county totals that includes Palm Beach.

3. Last, just a question- from 2006- 2014, the county totals state that they are for "Registered Voters" by county. In 2016, they are noted as being "Active Registered Voters" but then in the most recent application, the new county totals are for "Voting Age Population." Do you have documentation that explains and governs these definitions and this new way to calculate allocation of funds? In order to compare data, I'd like to know if the titles are accurate; i.e., are the numbers truly just "active" voters and do not include "inactive" registered voters? And the new population totals will yield a different analysis altogether.

AMERICAN OVERSIGHT

It may be something that the state handles but there is likely some documentation to the counties regarding this. Thanks in advance for whatever insight you can provide.

Have a nice weekend!
Sue

Sue-

Attached are the zipped files containing the correspondence, by year, for registrations that did not contain or had an incorrect DL# /SS#. Under each year you will see those sent and a second group of those who responded. The "response" file is a copy of the original or the second notice indicating we heard back from the voter.

I will be sending these by year.

Logan-

Former Supervisor Bucher had mailed you an estimate of cost for the two records request on January 17, 2019.

I noted a request for an update in the general inbox address to Supervisor Link dated January 24, 2019.

Have you received the cost estimate prepared by Ms. Bucher as of today?

Thank you so much and please let me know if you have any questions or concerns.

Subject: Public records request

Good morning. I am in Tallahassee today, and my office just forwarded to me a request you had made of previous Supervisor Bucher. It appears that the latest correspondence was sent to an address that is not checked daily for such requests, although the letter indicates that it was sent to mailbox@pbcelections.org. We are not able to find your correspondence in that mailbox, which concerns me. Would you please forward to me the original email you sent to me so that I may have the IT department look into it?

It is the intent of my office to promptly and fully respond to all public records requests, and of course to follow all laws and regulations related to them. I want to accommodate you, and wondered if you would be available for a phone call? I want to better understand what you are seeking, so I can make sure we have what you need tomorrow. I will be returning from Tallahassee tomorrow and will not be in the office until mid-afternoon. As you may know, we have municipal elections on Tuesday, and much of our staff is working on that. I believe we can have some materials available for you, and want to better understand how we can be most responsive to your request.

My cell number is 5618152215. Please call me or send me a number to reach you, if you are available and willing to talk with me.

Please be assured that we will do all we can to comply with your request and to provide you access to the information you seek, to the extent that we are able to do so by law.

Thank you,
Wendy Link
Supervisor of Elections

Sue- Our primary street index for voter registration is provided by the Division of Elections FVRS. If an address comes back from the state as not existing or being a business address, we then consult with the county utilizing their GIS department. On occasion, we will receive information from municipalities that annex areas so that the voters can be placed into the city for municipal elections.
Here is the link to the information we utilize from the county- http://discover.pbcgov.org/iss/cwgis/Pages/default.aspx.
Please see the information you can access on the right hand side of the homepage. Go to the DATA, and then request:

Sue-
Attached is a scan of a sample ballot for the 2018 Primary. As you will see, it is in Spanish and English and also contains all information required in a voter's guide. The first scan is of the outside of the mailer and the second scan has two copies each of the inside of the mailer. The Sample Ballot has traditionally contained the information that you see in this sample. It is a sample ballot and has information contained in a voter guide.

> I went through the HAVA files your office produced (thank you!) and have a quick question regarding how the county determines how it will spend the HAVA funds every year. It is not a major issue; I just want to ask about the sample ballots. This category has received the bulk of the federal funding every year up until the most recent EAC application (2019). In that application, there is no money being requested for it at all. I assume this could be related to technological changes but I would like to confirm that with someone because for the last 11 years, about $150,000 has gone to "mailing or publishing sample ballots" every single year. I want to make sure I understand what that cost is. There is no rush - I am just being thorough in our county analysis. Thank you in advance for whatever input you can provide.

---

Sue- The information you have requested over the past few days will be forthcoming as soon as the appropriate staff member is available to answer. I hope to have it to you early next week.

As for the EAC reports, I will be sending you a disk with the missing 2011 report upon my receipt of the information from the Division of Elections. The age of the file prohibits it from being transmitted via email I have been advised by the Division.

The DS-DE 118 and DS-DE 117 that we had requested from the Division of Elections is not in their records. The Division only holds those reports for 2 years. I have looked through paper and email files for the years of 2006-2015 in our possession without success.

The DSDS 118 and 117 records that you received in March are the only records in our possession.

I am awaiting the cost estimate for the email search and will forward it to you as soon as I have it so that you may make a decision about moving forward.

Please do not hesitate to send more questions about the documents in hand.

Good morning,

Thank you for this information. So are sample ballots just a county-wide mailing to all registered voters showing the actual candidate names etc. so that voters can research and know what to expect? I wasn't sure since there is also a HAVA category for "mailings." Thanks and have a nice weekend.

Sue

Sue,

We had some funds allocated already to cover this for the next election, and so elected to use the funds for other necessary expenditures that were immediate, rather than "banking" the funds for future sample ballots.

Please let me know if I can be further assistance.

Sincerely,
Wendy

Sue-
Attached is a scan of a sample ballot for the 2018 Primary. As you will see, it is in Spanish and English and also contains all information required in a voter's guide. The first scan is of the outside of the mailer and the second scan has two copies each of the inside of the mailer. The Sample Ballot has traditionally contained the information that you see in this sample. It is a sample ballot and has information contained in a voter guide.

> 1. In the file marked 2013-2014 FEA, the second page of the county totals is missing, which is the page that includes Palm Beach. It is "Attachment B to MOA 2013-2014-0001" and noted as being the "FINAL-xls". A few pages later, there is a revised second page, noted as being "FINAL-R" and dated 1/13/14. That page includes Palm Beach, but the original page submitted is not in the file.
>
> 2. In the file marked 2015-2016 FEA, near the end, there is a second page missing from "Attachment C to MOA 2015-2016-0001" which again is the second page of county totals that includes Palm Beach.
>
> 3. Last, just a question- from 2006- 2014, the county totals state that they are for "Registered Voters" by county. In 2016, they are noted as being "Active Registered Voters" but then in the most recent application, the new county totals are for "Voting Age Population." Do you have documentation that explains and governs these definitions and this new way to calculate allocation of funds? In order to compare data, I'd like to know if the titles are accurate; i.e., are the numbers truly just "active" voters and do not include "inactive" registered voters? And the new population totals will yield a different analysis altogether. It may be something that the state handles but there is likely some documentation to the counties regarding this. Thanks in advance for whatever insight you can provide.

Yes, I am still awaiting some information but have the lion's share ready to go. I am also sending you the book closings by county statewide, for each general election. The reports are by county then separated by a variety of factors. Hopefully this will prove useful and satisfy the book closing registration numbers you were looking for. (saves on printing also).

Unfortunately, as we discussed, neither the SOE or the Division of Elections maintains the historical inactive numbers.

Look forward to seeing you.

Mr. Churchwell:

Thank you for your follow up and Happy New Year - also welcome to Palm Beach County.

We just concluded our 4 recounts on 12/20/18 and most of my key staff took advantage of the holidays to take some time off after the almost 4 months of working every day and sometimes 24/7 for days on end.

When my managers return next week, I have asked them to estimate how many hours/days it would take to search and review all of our emails from 1/1/16 to present, in order to locate the records you wish to review. Additionally, I have asked them to determine how far back our voter file maintenance records have been kept (law requires 2 years) and how long will it take to compile the information that you requested to review regarding notices, voter registrations redacted, cards mailed, responses received, etc and get an estimate of how many hours/days it would take our Business Manager to track the costs you wish us to document for you.

I would estimate that we could have a quote to you within the next few weeks.

I hope your stay in Palm Beach County is great!

Thank you.

AMERICAN OVERSIGHT

Ms. Bucher:

Happy New Year. Just checking in for a status update. I'll be in the county this week through Friday if an office visit would help at all. Happy to pick up or sift through any potential responsive documents in person.

From: Susan Bucher <susanbucher@pbcelections.org>
Sent: Thursday, November 29, 2018 15:41
To: Logan Churchwell
Subject: Palm Beach County Public Records Requests

Mr. Churchwell:

I acknowledge both of your public records requests of 11/06/18 and 11/21/18. I am sorry it has taken so long to acknowledge, but we are still conducting recount elections in two statewide races, as required by Florida law. We anticipate completing these requirements sometime in late December.

Because your request of 11/06/18 would require us to search documents dating back to 2006, we must estimate the time and costs and we will provide that information as soon as is practicable.

Your request of 11/21/18 will also require us to search documents from January 1, 2016 to present and we must also estimate the time and costs and we will provide that information as soon as is practicable also.

Thank you.

Subject: VR information for voters removed for non citizenship (1 of)

Sue-

Attached, please find the first of three emails with records of those voters removed from the voter file due to being non citizens.

The first page of each record is the screen print for the voter redacted.
The second page is the removal of the voter from the voter file ("K" status to "O" status).
Pages 3 and 4 for each voter is the local and FVRS voting history.

The fifth page is the actual voter registration application redacted.

If there is no application, the voter came to Palm Beach County through suspense from either another county or from the DMV. I have marked which on the screen shoots.

As discussed on your first visit, the majority of these voters were removed at their request. The remaining were removed after following the process as required by Florida Statute 98.075.

There are 68 voter records in total between the three emails.

Mr. Christmas:

The Palm Beach County Supervisor of Elections Office is in receipt of your records request and below is our response:

1. None. Election law complaints by Florida law are filed with the Florida Elections Commission.

2. None. We did not forward any election law complaints to the FDLE or to the Florida Dept, of State during July 1, 2016 though Dec. 1, 2016.

If we may provide you with any additional information, please let us know.

Thank you.

Public Records Request Under Article I, section 24 of the Florida Constitution, and Chapter 119, Florida Statutes, et seq.

October 30, 2017

Public Records Custodian

Palm Beach County Supervisor of Elections

RE: Request for Records Regarding Election Complaints

On behalf of the Government Accountability Institute, a nonprofit journalism organization, and pursuant to Florida's Open Records Laws, please consider this public records request for certain agency records. The Government Accountability Institute engages in research, investigative journalism, and publication, with the goal of broadly disseminating public information obtained under open records and freedom of information laws to inform the public about the workings, operations and functions of government.

Please provide us, within two weeks, all records held by the Palm Beach County Supervisor *of Elections that meet, or contain information meeting, the* following description:

AMERICAN OVERSIGHT

1. Copies of all election law complaints from July 1, 2016 through December 31, 2016.

2. A list of all election law complaints the Palm Beach County Supervisor of Elections *forwarded to the Florida Department of Law Enforcement* or the Florida Department of State, also from July 1, 2016 through December 31, 2016.

Request for Expedited Processing

By its narrow search terms and period of time covered this qualifies as a "simple" request not requiring voluminous review. We request expedited processing.

This information is being sought on behalf of the Government Accountability Institute for research and journalistic dissemination to the general public. Release of these records is of current interest to the public because it involves a fundamental function of government, and taxpayer-funded activities. Therefore, this request involves the protection of both Florida voters and taxpayers. Together, this constitutes a compelling public need for responsive records.

Relevant to open records laws, please note the Government Accountability Institute's deadline is November 12, 2017.

If any element of this request is denied in whole or part, I ask that you justify all withholdings by reference to specific exemptions of the Law. We also request the release of all reasonably segregable portions in records containing exempt material.

I request the Florida Department of State provide responsive information in electronic format. As these are all electronic records this should facilitate the most-prompt response. Please provide all responsive information to me electronically, at steve.stewart@g-a-i.org.

AMERICAN OVERSIGHT

We also request you consider waiving any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. It is likely to be disseminated on the Government Accountability Institute's print and online publications, and through its media partnerships, reaching tens of thousands of readers and viewers.

In the event the agency asserts it requires time beyond the statutory deadline to produce a substantial volume of records, we request a rolling production of records, such that the agency furnishes records to my attention as soon as they are identified, preferably electronically, but as needed then to my attention, at the address below.

If you have any questions, please do not hesitate to contact me. Thank you for your assistance.

Sincerely,

Stuart A. Christmas

General Counsel

Vice President for Legal Investigations

Government Accountability Institute

Subject: Palm Beach County Public Records Requests

Mr. Churchwell:

I acknowledge both of your public records requests of 11/06/18 and 11/21/18. I am sorry it has taken so long to acknowledge, but we are still conducting recount elections in two statewide races, as required by Florida law. We anticipate completing these requirements sometime in late December.

Because your request of 11/06/18 would require us to search documents dating back to 2006, we must estimate the time and costs and we will provide that information as soon as is practicable.

Your request of 11/21/18 will also require us to search documents from January 1, 2016 to present and we must also estimate the time and costs and we will provide that information as soon as is practicable also.

Thank you.

Mr. Churchwell:

Thank you for your follow up and Happy New Year - also welcome to Palm Beach County.

We just concluded our 4 recounts on 12/20/18 and most of my key staff took advantage of the holidays to take some time off after the almost 4 months of working every day and sometimes 24/7 for days on end.

When my managers return next week, I have asked them to estimate how many hours/days it would take to search and review all of our emails from 1/1/16 to present, in order to locate the records you wish to review. Additionally, I have asked them to determine how far back our voter file maintenance records have been kept (law requires 2 years) and how long will it take to compile the information that you requested to review regarding notices, voter registrations redacted, cards mailed, responses received, etc and get an estimate of how many hours/days it would take our Business Manager to track the costs you wish us to document for you.

I would estimate that we could have a quote to you within the next few weeks.

I hope your stay in Palm Beach County is great!

Thank you.

Mr. Churchwell:

I acknowledge both of your public records requests of 11/06/18 and 11/21/18. I am sorry it has taken so long to acknowledge, but we are still conducting recount elections in two statewide races, as required by Florida law. We anticipate completing these requirements sometime in late December.

Because your request of 11/06/18 would require us to search documents dating back to 2006, we must estimate the time and costs and we will provide that information as soon as is practicable.

Your request of 11/21/18 will also require us to search documents from January 1, 2016 to present and we must also estimate the time and costs and we will provide that information as soon as is practicable also.

Thank you.

Subject: Supervisor feedback

Dear Supervisor Bucher:

The American Civil Rights Union is interested in determining the use of certain voter list maintenance procedures. I hope that you will assist us by answering the following questions. (Please just reply to info@theacru.org and add your answers.)

Does your office receive juror change of address updates from your Clerk of Circuit Court?
[__] YES [__] NO
If yes, how often? _____

Does your office receive information on the ineligibility of jurors (i.e. felon, non-citizen) from your Clerk of Circuit Court? [__] YES [__] NO
If yes, how often? _____

In what format do you receive this information (i.e. spreadsheet, copy of questionnaires?)_____

AMERICAN OVERSIGHT

If you wish to provide additional detail about the sharing of data between the Clerks of Circuit Court, Division of Elections or DMV and your office, please tell us how in your reply.

Thank you very much for providing this information. Please don't hesitate to call me if you have any questions.

Sincerely,

Jan Tyler
Florida Director

Subject: Re: County HAVA Funds- Question re Change in Allocation

---

Sue,

We had some funds allocated already to cover this for the next election, and so elected to use the funds for other necessary expenditures that were immediate, rather than "banking" the funds for future sample ballots.

Please let me know if I can be further assistance.

Sincerely,
Wendy

Subject: County HAVA Funds- Question re Change in Allocation

Good evening,

I went through the HAVA files your office produced (thank you!) and have a quick question regarding how the county determines how it will spend the HAVA funds every year. It is not a major issue; I just want to ask about the sample ballots. This category has received the bulk of the federal funding every year up until the most recent EAC application (2019). In that application, there is no money being requested for it at all. I assume this could be related to technological changes but I would like to confirm that with someone because for the last 11 years, about $150,000 has gone to "mailing or publishing sample ballots" every single year. I want to make sure I understand what that cost is. There is no rush - I am just being thorough in our county analysis. Thank you in advance for whatever input you can provide.

Hi Wendy,

I think we are set up for a meeting on Friday June 14 to go over what we found. One thing that is important and I think you can check with SOS Lee on this is to get a good understanding of the VRS system and get a current user manual from the vendor. I have one that I've marked up that I got from Miami-Dade but perhaps we can have your IT person sit in on the meeting as well to help us understand the database. I am hopeful that some of the issues can be fixed with better database use (duplicate registrations for example) but hearing from someone who knows it will help us identify issues that the vendor needs to fix. Just a thought.

Subject: HAVA files produced - request for a couple missing pages

---

Good morning Robin,

I was going through the HAVA file you produced to us on Wednesday and I think there may have been a couple pages missed in the copying. When you have a chance, could you please have someone check the originals for the following:

1. In the file marked 2013-2014 FEA, the second page of the county totals is missing, which is the page that includes Palm Beach. It is "Attachment B to MOA 2013-2014-0001" and noted as being the "FINAL-xls". A few pages later, there is a revised second page, noted as being "FINAL-R" and dated 1/13/14. That page includes Palm Beach, but the original page submitted is not in the file.

2. In the file marked 2015-2016 FEA, near the end, there is a second page missing from "Attachment C to MOA 2015-2016-0001" which again is the second page of county totals that includes Palm Beach.

3. Last, just a question- from 2006- 2014, the county totals state that they are for "Registered Voters" by county. In 2016, they are noted as being "Active Registered Voters" but then in the most recent application, the new county totals are for "Voting Age Population." Do you have documentation that explains and governs these definitions and this new way to calculate allocation of funds? In order to compare data, I'd like to know if the titles are accurate; i.e., are the numbers truly just "active" voters and do not include "inactive" registered voters? And the new population totals will yield a different analysis altogether. It may be something that the state handles but there is likely some documentation to the counties regarding this. Thanks in advance for whatever insight you can provide.

Have a nice weekend!
Sue

Subject: Over 20,000 Double Active Voter Registrations Between Palm BeachCounty and 3 States So Far

---

Good afternoon,

I wanted to update you both as to our continued efforts to ensure NVRA list maintenance is occurring in Florida. A recent analysis that was completed after the date of our written report indicates that approximately 20,000 Palm Beach residents have a second ACTIVE voter registration in another state. The numbers are below. The next step is comparing the voter records to confirm which elections these residents voted in, and whether they voted twice in the same election. As you know, voting twice is a felony. Because New York does not require voter ID, Floridians who maintain a second home in NY could do so without NY realizing it. This is why it is imperative to check state registrations against other states, especially in Florida. Here are the numbers we have confirmed so far:

PB to NY: 15,776
PB to PA: 3,573
PB to RI: 1,130
20,479

I would like to discuss this with you both at your earliest convenience. While I do not think that the counties are under an obligation to search for duplicate registrations, the Department may be. I'd appreciate your input at your convenience.

Thank you.

Subject: Public records request

Good morning. I am in Tallahassee today, and my office just forwarded to me a request you had made of previous Supervisor Bucher. It appears that the latest correspondence was sent to an address that is not checked daily for such requests, although the letter indicates that it was sent to mailbox@pbcelections.org. We are not able to find your correspondence in that mailbox, which concerns me. Would you please forward to me the original email you sent to me so that I may have the IT department look into it?

It is the intent of my office to promptly and fully respond to all public records requests, and of course to follow all laws and regulations related to them. I want to accommodate you, and wondered if you would be available for a phone call? I want to better understand what you are seeking, so I can make sure we have what you need tomorrow. I will be returning from Tallahassee tomorrow and will not be in the office until mid-afternoon. As you may know, we have municipal elections on Tuesday, and much of our staff is working on that. I believe we can have some materials available for you, and want to better understand how we can be most responsive to your request.

My cell number is 5618152215. Please call me or send me a number to reach you, if you are available and willing to talk with me.

Please be assured that we will do all we can to comply with your request and to provide you access to the information you seek, to the extent that we are able to do so by law.

Thank you,
Wendy Link
Supervisor of Elections

Subject: Questions for VR vendor

Hi Wendy,

Sorry for the lateness of this. Here are the primary questions I want to ask the VR vendor:

- Can the software pre-population be turned off; currently it automatically checks the US citizenship box requiring the user to manually uncheck it. p. 32
- When searching for existing voter files before processing what appears to be a new one, why isn't the DOB search set to find transposed DOB with a wildcard? p.15
- Can the vague directives to search be given specific parameters with built-in wildcards to catch the duplicates? p. 19 states to enter various combinations of data to find them in a FVRS general search.
- Are the potential matches based solely on the way the user inputs the wildcards or does the system have preprogrammed searches it automatically performs?
- Is there a way to systematically check for duplicates, as opposed to one name at a time? Can searches be scheduled to run automatically and reports generated, i.e. reports for all people whose birthdays are the same date- this would bring up duplicate files
- Who has access to the Florida Voter Registration Application that is required to use the Application module? p. 18
- How does the user check the validity of an address with a new application? The EDIT address button does it but does not appear to be geared towards checking validity- only "edited" p. 17 Is there an "Invalid Address" message available in all versions of the software and is it automatically done? p. 23
- What is the address checked against? Can it be checked against commercial addresses?

Subject: Re: County HAVA Funds- Question re Change in Allocation

---

Sue- The information you have requested over the past few days will be forthcoming as soon as the appropriate staff member is available to answer. I hope to have it to you early next week.

As for the EAC reports, I will be sending you a disk with the missing 2011 report upon my receipt of the information from the Division of Elections. The age of the file prohibits it from being transmitted via email I have been advised by the Division.

The DS-DE 118 and DS-DE 117 that we had requested from the Division of Elections is not in their records. The Division only holds those reports for 2 years. I have looked through paper and email files for the years of 2006-2015 in our possession without success.

The DSDS 118 and 117 records that you received in March are the only records in our possession.

I am awaiting the cost estimate for the email search and will forward it to you as soon as I have it so that you may make a decision about moving forward.

Please do not hesitate to send more questions about the documents in hand.

It is not a major issue; I just want to ask about the sample ballots. This category has received the bulk of the federal funding every year up until the most recent EAC application (2019). In that application, there is no money being requested for it at all. I assume this could be related to technological changes but I would like to confirm that with someone because for the last 11 years, about $150,000 has gone to "mailing or publishing sample ballots" every single year. I want to make sure I understand what that cost is. There is no rush - I am just being thorough in our county analysis. Thank you in advance for whatever input you can provide.

Good morning,

Thank you for this information. So are sample ballots just a county-wide mailing to all registered voters showing the actual candidate names etc. so that voters can research and know what to expect? I wasn't sure since there is also a HAVA category for "mailings." Thanks and have a nice weekend.

Sue

Sue,

We had some funds allocated already to cover this for the next election, and so elected to use the funds for other necessary expenditures that were immediate, rather than "banking" the funds for future sample ballots.

Please let me know if I can be further assistance.

Sincerely,
Wendy

Sue-
Attached is a scan of a sample ballot for the 2018 Primary. As you will see, it is in Spanish and English and also contains all information required in a voter's guide. The first scan is of the outside of the mailer and the second scan has two copies each of the inside of the mailer. The Sample Ballot has traditionally contained the information that you see in this sample. It is a sample ballot and has information contained in a voter guide.

> 1. In the file marked 2013-2014 FEA, the second page of the county totals is missing, which is the page that includes Palm Beach. It is "Attachment B to MOA 2013-2014-0001" and noted as being the "FINAL-xls". A few pages later, there is a revised second page, noted as being "FINAL-R" and dated 1/13/14. That page includes Palm Beach, but the original page submitted is not in the file.
>
> 2. In the file marked 2015-2016 FEA, near the end, there is a second page missing from "Attachment C to MOA 2015-2016-0001" which again is the second page of county totals that includes Palm Beach.
>
> 3. Last, just a question- from 2006- 2014, the county totals state that they are for "Registered Voters" by county. In 2016, they are noted as being "Active Registered Voters" but then in the most recent application, the new county totals are for "Voting Age Population." Do you have documentation that explains and governs these definitions and this new way to calculate allocation of funds? In order to compare data, I'd like to know if the titles are accurate; i.e., are the numbers truly just "active" voters and do not include "inactive" registered voters? And the new population totals will yield a different analysis altogether. It may be something that the state handles but there is likely some documentation to the counties regarding this. Thanks in advance for whatever insight you can provide.

Subject: Re: Request for user manual for new VR system

We haven't started our VR conversion yet, so don't have a manual yet. I am trying to have someone from VR available for questions. If you have specific questions, perhaps you could send them in advance and I can try to get them answered.

Thanks,
Wendy

> In advance of our meeting this Friday, I am wondering whether your office has a copy of the User Manual that you should have received with the new system. If so, I'd like to get a copy of it if possible so that I can determine whether some of the issues in data input are addressed and resolved by the new system manual. Thank you for your assistance. I look forward to seeing you Friday.

Subject: VR information for voters removed for non citizenship (1 of)

Sue-

Attached, please find the first of three emails with records of those voters removed from the voter file due to being non citizens.

The first page of each record is the screen print for the voter redacted.
The second page is the removal of the voter from the voter file ("K" status to "O" status).
Pages 3 and 4 for each voter is the local and FVRS voting history.

The fifth page is the actual voter registration application redacted.

If there is no application, the voter came to Palm Beach County through suspense from either another county or from the DMV. I have marked which on the screen shoots.

As discussed on your first visit, the majority of these voters were removed at their request. The remaining were removed after following the process as required by Florida Statute 98.075.

There are 68 voter records in total between the three emails.

Subject: Records Request

Public Records Request Under Article I, section 24 of the Florida Constitution, and Chapter 119, Florida Statutes, et seq.

October 30, 2017

Public Records Custodian
Palm Beach County Supervisor of Elections

RE: Request for Records Regarding Election Complaints

On behalf of the Government Accountability Institute, a nonprofit journalism organization, and pursuant to Florida's Open Records Laws, please consider this public records request for certain agency records. The Government Accountability Institute engages in research, investigative journalism, and publication, with the goal of broadly disseminating public information obtained under open records and freedom of information laws to inform the public about the workings, operations and functions of government.

Please provide us, within two weeks, all records held by the *Palm Beach County Supervisor* of Elections that meet, or contain information meeting, the following description:

1. Copies of all election law complaints from July 1, 2016 through December 31, 2016.
2. A list of all election law complaints the *Palm Beach County Supervisor of Elections* forwarded to the Florida Department of Law Enforcement or the Florida Department of State, also from July 1, 2016 through December 31, 2016.

Request for Expedited Processing

By its narrow search terms and period of time covered this qualifies as a "simple" request not requiring voluminous review. We request expedited processing.

This information is being sought on behalf of the Government Accountability Institute for research and journalistic dissemination to the general public. Release of these records is of current interest to the public because it involves a fundamental function of government, and taxpayer-funded activities. Therefore, this request involves the protection of both Florida voters and taxpayers. Together, this constitutes a compelling public need for responsive records.

Relevant to open records laws, please note the Government Accountability Institute's deadline is November 12, 2017.

AMERICAN OVERSIGHT

If any element of this request is denied in whole or part, I ask that you justify all withholdings by reference to specific exemptions of the Law. We also request the release of all reasonably segregable portions in records containing exempt material.

I request the Florida Department of State provide responsive information in electronic format. As these are all electronic records this should facilitate the most-prompt response. Please provide all responsive information to me electronically, at steve.stewart@g-a-i.org.

We also request you consider waiving any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. It is likely to be disseminated on the Government Accountability Institute's print and online publications, and through its media partnerships, reaching tens of thousands of readers and viewers.

In the event the agency asserts it requires time beyond the statutory deadline to produce a substantial volume of records, we request a rolling production of records, such that the agency furnishes records to my attention as soon as they are identified, preferably electronically, but as needed then to my attention, at the address below.

If you have any questions, please do not hesitate to contact me. Thank you for your assistance.

Sincerely,

Stuart A. Christmas
General Counsel

Mr. Churchwell:

Thank you for your follow up and Happy New Year - also welcome to Palm Beach County.

We just concluded our 4 recounts on 12/20/18 and most of my key staff took advantage of the holidays to take some time off after the almost 4 months of working every day and sometimes 24/7 for days on end.

When my managers return next week, I have asked them to estimate how many hours/days it would take to search and review all of our emails from 1/1/16 to present, in order to locate the records you wish to review. Additionally, I have asked them to determine how far back our voter file maintenance records have been kept (law requires 2 years) and how long will it take to compile the information that you requested to review regarding notices, voter registrations redacted, cards mailed, responses received, etc and get an estimate of how many hours/days it would take our Business Manager to track the costs you wish us to document for you.

I would estimate that we could have a quote to you within the next few weeks.

I hope your stay in Palm Beach County is great!

Thank you.

Ms. Bucher:

Happy New Year. Just checking in for a status update. I'll be in the county this week through Friday if an office visit would help at all. Happy to pick up or sift through any potential responsive documents in person.

From: Susan Bucher <susanbucher@pbcelections.org>
Sent: Thursday, November 29, 2018 15:41
To: Logan Churchwell
Subject: Palm Beach County Public Records Requests

Mr. Churchwell:

I acknowledge both of your public records requests of 11/06/18 and 11/21/18. I am sorry it has taken so long to acknowledge, but we are still conducting recount elections in two statewide races, as required by Florida law. We anticipate completing these requirements sometime in late December.

Because your request of 11/06/18 would require us to search documents dating back to 2006, we must estimate the time and costs and we will provide that information as soon as is practicable.

Your request of 11/21/18 will also require us to search documents from January 1, 2016 to present and we must also estimate the time and costs and we will provide that information as soon as is practicable also.

Thank you.

Subject: Public records request

Good morning. I am in Tallahassee today, and my office just forwarded to me a request you had made of previous Supervisor Bucher. It appears that the latest correspondence was sent to an address that is not checked daily for such requests, although the letter indicates that it was sent to mailbox@pbcelections.org. We are not able to find your correspondence in that mailbox, which concerns me. Would you please forward to me the original email you sent to me so that I may have the IT department look into it?

It is the intent of my office to promptly and fully respond to all public records requests, and of course to follow all laws and regulations related to them. I want to accommodate you, and wondered if you would be available for a phone call? I want to better understand what you are seeking, so I can make sure we have what you need tomorrow. I will be returning from Tallahassee tomorrow and will not be in the office until mid-afternoon. As you may know, we have municipal elections on Tuesday, and much of our staff is working on that. I believe we can have some materials available for you, and want to better understand how we can be most responsive to your request.

My cell number is 5618152215. Please call me or send me a number to reach you, if you are available and willing to talk with me.

Please be assured that we will do all we can to comply with your request and to provide you access to the information you seek, to the extent that we are able to do so by law.

Thank you,
Wendy Link
Supervisor of Elections
--

*PLEASE NOTE: Under
Florida law, email addresses are public records. If
you do not want your
email address released in response to a public records

AMERICAN OVERSIGHT

request, do not send
electronic mail to this entity. Instead, contact this
office by phone or
in writing. Florida Statute 668.6076*
