Dear Supervisors,

This is to follow-up on an matter mentioned at the Florida State Association of Supervisors of Elections' winter conference in Key West.

The Florida Department of Highway Safety and Motor Vehicles (DHSMV) is rolling out a program change today that will now capture voter registration information submitted through its existing online virtual office called "GoRenew<https://services.flhsmv.gov/virtualoffice/Lobby.aspx>." Any time a holder of a Florida driver license or state identification card renews or updates information using the GoRenew as relates to a driver license or state ID card, DHSMV will capture voter registration information unless the person declines to register or update. This means you will see an increase in the volume of voter registration information in your daily DHSMV suspense files. DHSMV's GoRenew averages about 2000-2500 daily transactions related to driver license or state identification card renewals or updates.

With few exceptions as noted below, the information will be the same as you already get in the DHSMV daily suspense file with the following additions:

* The remarks/comments field will reference "GoRenew Signature Date". This means the voter registration information was submitted using GoRenew instead of in person at a DHSMV office or tax collector's office. Additionally it will contain the date of the signature in the DHSMV records. This will allow you to take whatever action you believe appropriate regarding the DHSMV signature. For example, if the record is for a new voter and the signature is old enough that you want to reach out to the voter to get an update.

AMERICAN OVERSIGHT

* The remarks/comments field will also contain an 'unparsed' address. This is being provided to use to compare the parsed and unparsed addresses to be sure the parsing worked correctly. We use parsed addresses in FVRS.

Please be sure to forward this email to your appropriate staff. If you still have any questions about the daily DHSMV suspense file after you first work them, please contact:

* Chief Toshia Brown at Toshia.Brown@dos.myflorida.com or 850.245.6225

* Amber Marconnet at Amber.Marconnet@dos.myflorida.com<mailto:Amber.Marconnet@dos.myflorida.com> or 850.245.6224

Thank you.

Ms. Thompson:

Your email was forwarded to me with your questions about applying for the FEA funds and their use.

The intent of the MOA (and as worded) therein is that the request for funds must be accompanied by a plan for future use of the funds which must be approved prior to distribution of the funds. It is not a reimbursement scenario.

The proviso language, which we've attached to the MOA as Attachment A authorizes payments for activities to be done in the future, not reimbursements for expenditures already made: "Funds in Specific Appropriation 3064 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; poll worker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State. County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented."

So although the funds are available in the year that you had the activities, the funds have to be requested first concurrent with a plan for what it will be used which is why we encourage applying for the funds as soon as possible in the fiscal year they become available.

Hi Althera,

Thanks for your call. Looking at the subtle language changes in the MOA, we never would have inferred that the pattern of expenses we've been following for several years would no longer be allowed.

If it's possible for expenses from 10/1/16 through the signing of the MOA to be allowable as they have in the past, it would alleviate quite a bit of administrative burden for us in tracking the funds and interest across fiscal years and realigning our budget projections for the current year.

We'd gladly complete future MOA's prior to 10/1 each year so that the intention of your language change is met and things get simplified on your end.

We look forward to hearing next steps.

Thanks,
Holly

Maria,

I just received these two emails via BCC regarding an ACP voter. Reading through the various confusing email chains, it appears this voter's protected real address was provided to a company who disseminates voter info onto internet databases. The voter seems to have found out, and is rightfully upset.

I feel uncomfortable sending this email back and forth, but since we were both on the email, I will include it.

Can you look into this and get back to me with some information regarding this whole problem?

I do not think this person is even a voter in Leon County, but I would like to understand what is really going on here, and how to avoid these problems in the future.

AMERICAN OVERSIGHT

Hey Katrinia ~ Please forward this to Maria the staff attorney.

It is the record for the lady, R.L. from the ~March 18, 2015 Florida state voter file. Although this is an Excel worksheet in the eMerges file layout format---it t is an actual captured snapshot of the original data. Note her mail address is the PO Box 6298 which to me indicates that she was in the protection program at that time.

Be advised that several other records appear with the same PO Box but are of different people as you can see in the their respective address fields. Although RL's record does not appear on subsequent eM file years, other voters with full address and the same PO Box do in fact appear all the way through our December 2016 file.

I think we will redact all records with: PO Box 6298 Tallahassee 32314 as well as: 723 Truman Ave., Tallahassee should either address appear in either the home or mail address fields on the chance that all of these records were incorrectly released to the public.

If you need the names that we have redacted or the records of more recent similar data breaches, please contact me directly.

Thoughts?

The person who asked our client where they got her adress says she is under court protection and at risk of violence from her ex husband. She is in hiding with her kids---kind of like witness protection. She wants to know how our client got her suppressed actual street address

She says that any address as: PO Box 6298 Tallahassee Zip 32314 is always supposed to have the physical address (and even name and DOB) suppressed, ie eMerges and the other 500 or so requestor's of the Florida voter file were/are not supposed to get her or the others real address---only PO Boxes.

She even cites Statutes 741-465 Sec. 2 and 741.401-409.

As you know the state of Florida provided both a mail address and a home address for most voters. We researched our Florida voter records going backwards to around 2002. These are files we received directly from the state---no intermediaries. We found several records with the Tallahassee PO Box and Zip. We also found at least one record for her that included both her full residence street address and the PO Box!

In other words her address was being released during the period that she reports that she was under the protective order.

I am trying to understand what is going on. The Florida voter file is supposed to be an open and unrestricted public reocrd available to all requestor's and without any permissions required. Clearly eMerges and our client do not want to unwittingly be releasing information that you at the state accidentally released to eMerges.

Can we arrange a conversation at you all's immediate convenience?

Obviously if what I understand is factual, we all need to jump on this ASAP. I have copied the woman on this email and BCC'd my client. Thank you.

I am trying to understand what is going on. The Florida voter file is supposed to be an open and unrestricted available to all requestor's and without any permissions required. Clearly eMerges and our client do not war be releasing information that you at the state accidentally released to eMerges.

Can we arrange a conversation at you all's immediate convenience?

Obviously if what I understand is factual, we all need to jump on this ASAP. I have copied the woman on th BCC'd my client. Thank you.

Dear Secretary Detzner and Director Matthews,

As Director Matthews anticipated below, my office is receiving a substantial number (greater than 2 dozen so far) of calls relating to the Presidential Advisory Commission on Election Integrity, and that commission's request for Florida's "voter roll data".

The calls have been unanimous in demanding that my office, and Florida in general, not comply with the commission's request.

I and my staff are explaining what is and what is not public information per FL Statute, but these voters are rightfully concerned about the motives behind this commission and the release of their personal data.

They are expressing their belief that not only is the commission a fraud, but also their concern that their voter registration data is publicly available and is being released to further a political agenda instead of improving the integrity of elections.

As you know, every highly respected study that has looked into voter fraud confirms there is no widespread illegal voting. With all of the concerns being raised about election hacking and illegal voting, the real problem facing elections is maintaining public faith in the process.

While there are many steps that can be undertaken to improve public trust in the elections we administer, an obvious first step is NOT falsely claiming that there are millions of people voting illegally. That claim, in and of itself, is fraudulent and harmful to our democracy.

Another key step is the use of effective and transparent post election audits to validate the integrity of our elections, as I have worked tirelessly to implement in Leon County.

The concern and anger being expressed by the public is real. Many of our voters feel intimidated by the work of the commission, and several have asked me to remove them from the rolls to protect their personal data. So far, I and my staff have avoided the need to remove anyone. But instead of "preventing voter intimidation or disenfranchisement", the committee's work is causing voter intimidation and increasing the likelihood of voter disenfranchisement.

I understand that your offices face difficulty not complying with a request for public data, but I urge you to at least withhold all data pertaining to minors who have pre-registered to vote. These children are not registered voters. Thus they should fall outside of the request to provide "voter roll data".

AMERICAN OVERSIGHT

I also ask for your future support in protecting the personal data of our voters from misuse by statutorily limiting who can get voter data, and restricting the uses that data can be put towards.

Your partner in democracy,

Mark

Dear Supervisors and staff including IT support,

As you know, we are in the final stages leading to the implementation of Online Voter Registration System. We mentioned at the Florida State Association of Supervisors of Elections Conference in June, we need your input on the following two matters at this time:

1. Residential Street Index for OVR Address Input: Keeping the residential street index is a current requirement of law (s. 98.015<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0000-0099/0098/Sections/0098.015.html>(12), Fla. Stat., and Rule 1S-2.039<https://www.flrules.org/gateway/RuleNo.asp?title=ELECTIONS&ID=1S-2.039>(12), Fla. Admin. Code), which is used for address validation with the Florida Voter Registration System (FVRS). We will also be using that index in the address input functionality of the OVR. This will ensure that OVR users can more easily find his or her residential address to pre-populate the address fields. For those counties that use a 3-digit city code, it will need to be replaced with the full city name. Please complete the review and upload of updated and/or corrected street index for your county by no later than Friday, August 15, 2017, 6 pm ET.

2. User Acceptance Testing/Online Voter Registration System: If your county participated in the User Acceptance Testing (UAT) on July 24 or July 25, no further action is required on your part of this email. All other counties: As promised, User Acceptance Testing (UAT) Kick-off teleconferences and UAT period have been set aside for you to interface with the OVR demonstration site.

Dear Supervisors:

Starting in September, we will be converting from frame-relay to MPLS (Multi-Protocol Label Switching) with an updated router for each of the 67 counties.

This change-over will not disrupt your county's access to or use of the Florida Voter Registration System (FVRS). However, it will require a site visit by our contractor, Harris Corporation, to install the new routers in your respective county offices.

The existing and new routers will co-operate side-by-side until the new router is confirmed to operate continuously for 15 days in each of the respective counties. If there is any interruption during that 15 day period, the clock resets.

A technician from Harris Corporation will be calling your office to arrange a date and time to install these new routers. They will also be providing the necessary support. This installation will not require any changes to your present configuration and will not constrain options under consideration for future updated network connectivity to FVRS.

Dear Supervisors:

On behalf of the Project Manager, Leila Thompson, her team, and me, we wanted to thank you for your participation in the User Acceptance Testing (UAT) activity of the Online Voter Registration system.

The testing period started on August 7, and was extended an additional 9 days beyond the original end date, to formally end on August 31, 2017.

The team's goal was to increase your understanding of the major features and functionality of the OVR system and to receive feedback on your experience using the OVR System.

The OVR UAT period is now closed and limited access to the OVR test environment terminated.

Please be sure to share this email with relevant staff.

Have a wonderful Labor Day weekend!

Respectfully,

Maria,

Hope you and yours are safe with the approach of Irma.

I cannot find the report on the SOE Portal. I looked under the Miscellaneous section, File Transfer Utility, Get files, View available files. There was nothing there. I also looked in the archive, but there were something like 20 pages to look through. So I gave up looking.

It's not a big deal, but I would like to read it at some point.

Dear Supervisors of Elections,

Please find attached a letter from the Secretary of State to you regarding the upcoming launch of Florida's new online voter registration website on Sunday, October 1, 2017.

Note that due to its size, the OVR Toolkit is available as a zipped file for download through the File Transfer Utility within the SOE Portal.

Please share with your staff as appropriate. And thanks to you and your staff for all input and continuing support.

Respectfully,

Maria Matthews, Esq.

Director Matthews,

Can your office put out some statewide totals on the OVR numbers today? I have received several questions about that.

So far in Leon County we have received

47 submissions
38 were updates
2 were new registrations

AMERICAN OVERSIGHT

7 were tests

We are very happy all submissions are hitting the suspense queue.

Dear Supervisors,

Great to see you all at the Florida State Association of Supervisors of Elections' mid-winter conference this week.

As I mentioned at the conference, please share with appropriate staff as needed relating to the following matter:

· Specifically and only as it relates to Florida's Online Voter Registration (OVR): Any eligible Florida citizen can access the RegistertoVoteFlorida.gov<https://registertovoteflorida.gov/en/Registration/Index> from any computer he or she so chooses at any time to submit an online voter registration application or to prefill a voter registration application for printing, signing and submitting to his or her county supervisor of elections' office. This effectively means that applications submitted electronically through the use of the RegistertoVoteFlorida.gov website, are not subject to laws/rules governing third-party voter registration organization (3PVRO) activities. Additionally, if an eligible Florida citizen prints, signs and submits his or her application directly to a county supervisor of elections' office, without handing it to someone else to mail or deliver, 3PVRO requirements would not apply.

· With regard to paper and/or printed applications: A person collecting a written application that was filled out using RegistertoVoteFlorida.gov<https://registertovoteflorida.gov/en/Registration/Index>, or an online fillable and downloadable form (English PDF<http://dos.myflorida.com/media/693757/dsde39.pdf>/ Español PDF<http://dos.myflorida.com/media/693758/dsde39_spa.pdf>), or completed by hand, may be subject to the third-party voter registration organization requirements. It is the responsibility of the entity or individual collecting the application to be informed as to the governing law<http://dos.myflorida.com/elections/for-voters/voter-registration/third-party-voter-registration-organizations/> and rule<https://www.flrules.org/gateway/RuleNo.asp?title=ELECTIONS&ID=1S-2.042> on whether he or she needs to register as a 3PVRO or, if acting on behalf of a 3PVRO that is already registered, to follow the procedures governing the collection and marking of such collected voter registration applications.

All currently registered 3PVROs will be notified of this matter as well.

If you have any questions, please let me know.

Dear Supervisors of Elections:

Governor Scott announced today the Department's plans to hire five cybersecurity specialists in advance of the 2018 elections. The cybersecurity specialists will serve as a resource for state and local election officials and will provide real-time guidance and expertise on cybersecurity issues.

As always, our goal is to provide you with as many resources as possible to assist in your election security efforts. More details on the positions and how they will function will be available soon.

Below is a copy of the press release from the Governor's Office on the announcement.

Gov. Scott: Department of State to Hire Additional Cybersecurity Specialists

TALLAHASSEE, Fla.- Governor Rick Scott today announced that the Florida Department of State (DOS) is proactively hiring five cybersecurity specialists in advance of the 2018 elections to serve as a resource for election officials. DOS' top priority is the security and integrity of Florida's elections and voter information. Florida's elections are supervised locally, and each supervisor of elections is in charge of the security of elections in their area.

Governor Scott said, "There is nothing more sacred to our democracy than fair, honest and accurate elections. Following a secure and successful election in 2016, Florida has been focused on continued election security efforts as we look ahead to 2018 and beyond. We must be proactive in our efforts to preserve the security and integrity of our elections, which is why I directed the Department of State to invest in a team of cybersecurity specialists that will serve as a resource to all of our election officials."

Secretary Ken Detzner said, "The Department and local election officials have taken significant steps to protect against the growing threat of cybercrime. The addition of five cybersecurity specialists will help us better anticipate and defend against potential cyber threats. I am proud of the proactive work my team is already doing and these specialists will offer an extra level of security that will benefit the nearly 13 million registered voters in Florida."

The cybersecurity specialists will be hired as consultants for election officials, and will provide real-time guidance and expertise on cybersecurity issues. The cybersecurity specialists will be in addition to the DOS' existing team of knowledgeable and highly capable Information Technology professionals who help ensure Department systems are secure.

"Florida is a leader among states when it comes to cybersecurity for elections," said Matt Masterson, Senior Cybersecurity Advisory with the U.S. Department of Homeland Security (DHS). "The State and the Supervisors of Elections have taken key steps to ensure the security and resilience of elections in Florida. DHS is fully committed to supporting their efforts by providing training, security assessments, and sharing information about potential threats in near real-time."

Prior to the 2016 election, DOS upgraded to state-of-the-art hardware, software and firewalls to safeguard voter information in the Florida Voter Registration System (FVRS) and prevent any possible hacking attempts from being successful. DOS' efforts are working as the FVRS remains secure. DOS is also enhancing the security of the Florida Election Watch website to ensure there is no disruption in election night reporting of results as well as strengthening protections of Florida's online voter registration website.

DOS has also been working diligently with Supervisors of Elections to help Florida counties modernize their voting systems. More than two-thirds of Florida counties have completed a voting equipment modernization and the majority of the remaining counties are in the process of completing a modernization or upgrade.

AMERICAN OVERSIGHT

During the 2018 Legislative Session, DOS received $1.9 million in funding to provide grants to Supervisors of Elections for the purchase of a Network Monitoring Security solution, called ALBERT, that is offered through the Multi-State Information Sharing and Analysis Center (MS-ISAC). MS-ISAC identifies and shares information about potential threats with states and assists with the 24-7 monitoring of state networks for suspicious activity. ALBERT will provide automated alerts about system threats that will allow counties to respond quickly when data may be at risk. Several Supervisors of Elections have completed the process to get ALBERT online in their county, and many others have initiated the process.

"Supervisors of Elections in Florida are taking advantage of the cybersecurity resources being made available to us through our state, federal, and non-governmental partners," said David Stafford, Escambia County Supervisor of Elections. "Supervisors are not only focused on cybersecurity but also on the physical security of our equipment and facilities. We are looking at elections security from every angle and are working diligently to be as prepared as possible for the 2018 election and beyond."

DOS continues to work closely with DHS, MS-ISAC, as well as the Agency for State Technology, Florida Department of Law Enforcement, Florida National Guard and the Federal Bureau of Investigation on election security.

As we discussed about the Albert server reimbursement, I do need clarification on that, yes.

But I was asking whether I need to resubmit the MOA for the HAVA Security funds without my edit of the Nov 30 date. And if so, how do I accomplish that? Just send an email with the new signed version, or amend via the grant portal?

Thank you.

I have asked Ms. Zayas for the names of these individuals and whether they can be specific about the error message. The system is operational. That being said, the system does contain error messages as you may recall during user testing- for example, if field is not entered correctly or if certain information can't be validated against DHSMV. It is a part of the system. Therefore it is important to know the nature of the error message.

Once I have more specific information, we will be able to research better. Thanks.

In fact, by testing it in the L&A we can confirm that our tabulation equipment is tabulating the ballots correctly before we even deploy our equipment. Maria and Linda,

We are preparing for our L&A and would like to include our post-election audit software (Clear Audit) in our testing. Can you please advise when the Certification will be completed so that we can continue with our processes? Time is running short and this is a system that is extremely beneficial to our county. Please advise in a "Reply All" so that all Clear Audit users will know the status. Thank you in advance.

I have asked Ms. Zayas for the names of these individuals and whether they can be specific about the error message. The system is operational. That being said, the system does contain error messages as you may recall during user testing- for example, if field is not entered correctly or if certain information can't be validated against DHSMV. It is a part of the system. Therefore it is important to know the nature of the error message.

Once I have more specific information, we will be able to research better. Thanks.

Thank you for responding so quickly Maria. Our county is used to conducting a 100% post-election audit and I really don't want to go backwards. Is there anyone we can speak to in upper management to let them know of the urgency? Almost every recommendation I have seen as it relates to cyber security recommends a more in-depth post-election audit. In fact, by testing it in the L&A we can confirm that our tabulation equipment is tabulating the ballots correctly before we even deploy our equipment. Anything you can do to assist us would be greatly appreciated.

Is there anyone we can speak to in upper management to let them know of the urgency? Almost every recommendation I have seen as it relates to cyber security recommends a more in-depth post-election audit. In fact, by testing it in the L&A we can confirm that our tabulation equipment is tabulating the ballots correctly before we even deploy our equipment. Anything you can do to assist us would be greatly appreciated.

I emphasize with your sense of urgency. The report recommending certification is in upper management hands. Please note delay was occasioned by ClearAudit's request for supplemental testing to address issue arising in original testing which in turn necessitated a revision to the recommendation and the report.

Maria and Linda,

We are preparing for our L&A and would like to include our post-election audit software (Clear Audit) in our testing. Can you please advise when the Certification will be completed so that we can continue with our processes? Time is running short and this is a system that is extremely beneficial to our county. Dear Supervisors of Elections:

As we have mentioned at the FSASE conferences and on the SOE monthly calls, DHSMV recently revise /State ID mail-in renewal form and proposed a scanned image process for making the returned forms ava through the Department of State.

Testing is now complete, code launched and the process has been implemented for all counties.

Starting today, these scanned image files will be placed on the FVRS secure FTP site for retrieval in the basis, Monday through Friday. You will receive an electronic notification through FVRS. See the attache for a high-level refresher on the process. As with any new process, there is a maturation period. We welc feedback to improve upon the process.

Also as a reminder since we have so many more ways that individuals can submit a voter registration app particularly within a closer period of time, please be sure to consult with your IT voter registration suppo determine how your local system is processing these multiple applications, including the suspended reco you want to know if your system is processing these records automatically or allows you to manually rev accepting so that you are able to view all applications and process in the appropriate order without inadve closing out an open OVR record, overriding existing FVRS information, or entering stale application dat

Over time, we expect the number of these scanned forms to decline as more driver license/state identifica holders will renew online rather than through the mail.

If you have any questions or comments, please do not hesitate to contact Toshia Brown (850-245-6225), Brown@dos.myflorida.com, or Amber Marconnet (850-245-6224); Amber.Marconnet@dos.myflorida.c

Dear Supervisors of Elections:

As we have mentioned at the FSASE conferences and on the SOE monthly calls, DHSMV recently revised its DL/State ID mail-in renewal form and proposed a scanned image process for making the returned forms available to you through the Department of State.

Testing is now complete, code launched and the process has been implemented for all counties.

Starting today, these scanned image files will be placed on the FVRS secure FTP site for retrieval in the AM on a daily basis, Monday through Friday. You will receive an electronic notification through FVRS. See the attached powerpoint for a high-level refresher on the process. As with any new process, there is a maturation period. We welcome your feedback to improve upon the process.

Also as a reminder since we have so many more ways that individuals can submit a voter registration application, particularly within a closer period of time, please be sure to consult with your IT voter registration support to determine how your local system is processing these multiple applications, including the suspended records. That is, you want to know if your system is processing these records automatically or allows you to manually review before accepting so that you are able to view all applications and process in the appropriate order without inadvertently closing out an open OVR record, overriding existing FVRS information, or entering stale application data.

Over time, we expect the number of these scanned forms to decline as more driver license/state identification card holders will renew online rather than through the mail.

If you have any questions or comments, please do not hesitate to contact Toshia Brown (850-245-6225), Toshia.Brown@dos.myflorida.com<mailto:Toshia.Brown@dos.myflorida.com>, or Amber Marconnet (850-245-6224); Amber.Marconnet@dos.myflorida.com.

I really like what you got here. By the way, it might be something you want to share with your co they start receiving these individualized requests. If the requester is satisfied, that's great but if actual application, I could see where you wouldn't have a choice and would have to submit a re version.

I told the first news outlet that they could have our submission, but it would be so redacted as to be nearly useless for a story. I offered the category percentage chart up instead and they thought it was great.

I would really like to see what your redacted version of our submission would look like. That would be a great help to me. Would you be willing to do that?

Thanks, Maria. I certainly agree that if they insist on the original, we would have to provide a redacted version.

I told the first news outlet that they could have our submission, but it would be so redacted as to be nearly useless for a story. I offered the category percentage chart up instead and they thought it was great.

I would really like to see what your redacted version of our submission would look like. That would be a great help to me. Would you be willing to do that?

Gov. Scott: Election Security Grant Applications Approved for all 67 Counties

AMERICAN OVERSIGHT

TALLAHASSEE, Fla. - Governor Rick Scott today announced that the Florida Department of State (DOS) has now approved Election Security Grant applications for all 67 Florida counties, totaling more than $14.5 million. Since Governor Scott announced the approval of grants for the first 49 counties last month, DOS has received and approved the remaining 18 Election Security Grant applications and submitted the applications to Chief Financial Officer Jimmy Patronis' office. At the Governor's direction, DOS drew down $19 million in federal funding for securing Florida's elections and worked quickly to make the funding available to Supervisors of Elections. Please find a list of approved applications and funding amounts HERE<https://urldefense.proofpoint.com/v2/url?u=https-3A__www.flgov.com_wp-2Dcontent_uploads_2018_08_Election-2DSecurity-2DGrant-2D8.9.18.pdf&d=DwMFAg&c=JDr0t6f77aOFP4neilo99w&r=hKhIC7Ozl99qGMDNb5XxecMT1XU4-Z8NAJgyVL7HolfBGZG-lKQhmiQIm3f2xtjo&m=ue90DS5fGk647OzXfRQw74C77YcJ6moDneGlfk2_r8A&s=ZscaWgXIGVHO_eL6y1NClIwDlcarsjKKPKumy8uIxFM&e=>.

Governor Scott said, "As we approach the 2018 election season, there is nothing more important than ensuring the security and integrity of Florida's elections. In Florida, we are focused on 100 percent participation and zero fraud and this additional funding will help Supervisors of Elections build on their existing infrastructure and enhance security measures so that we can ensure Florida has another successful election in 2018. I greatly appreciate the hard work of Secretary Detzner and the team at the Department of State, the Florida Legislature and CFO Jimmy Patronis for their roles in expediting this funding."

Chief Financial Officer Jimmy Patronis said, "Cybersecurity must stay a top priority, especially in our elections process. My office will continue to speed up the payment process for our local officials so that they are equipped with the resources they need to protect our elections process."

Secretary of State Ken Detzner said, "The Department of State and county Supervisors of Elections have been working diligently to strengthen protections for our elections and ensure the safety of voter information. I applaud all Supervisors of Elections for working quickly to submit their grant applications in a timely manner so that we can get the funding approved and distributed to them before the 2018 elections."

Dear Supervisors of Elections,

A number of you had indicated that you had the received the email below (I used Supervisor Beasley email as an example) and that you were seeking guidance how to be responsive to the public inquiry and still be judicious about disclosing security matters particularly since elections has been designated as a critical infrastructure.

As we indicated on the SOE Monthly call yesterday, we offer the following example as a proposed communications response:

Thank you for your interest in securing elections in Florida. Both state and local election officials take security of the elections very seriously and will act upon any information we receive about threats to Florida elections to prevent and mitigate those threats. We follow security protocols necessary to secure voter registration data, registration systems and voting systems for elections. Due to the sensitivity and confidentiality of security protocols, we are not able to share specific details.

Respectfully,

The Florida Supreme Court took action on all proposed constitutional amendment cases that it had before the court. There is still a challenge making its way to the Florida Supreme Court regarding proposed constitutional revisions 7, 9, and 11. The case is currently with the 1st District Court of Appeals where the appeal by the state stayed the effect of the circuit court order to strike those amendments.

We do not know when this case will make it to the Florida Supreme Court and when it will be heard and/or ruled on. We don't have a timetable.

Hence the reason why you proceed as indicated in earlier email to you all.

Kristi,

I see that your office is stating that the rest of the CRC amendments are still on the ballot.

Are any of those still under review by the Supreme Court? Or is it 100% certain that they will ALL stay on the ballot except #8?

I know that the Supreme Court affirmatively decided that Amendments 6, 10, and 13 shall appear, but I thought that several were still under review by the court based on appeals.

Can you clarify?

Director Matthews,

I am not sure if Mark had a chance to respond due to his travel this week. If not, here are Leon County's answers to your questions.

I would also like to know how many of you offer sample ballots available:
1. online for a constituent voter to be able to find a sample ballot

Yes, in the Election Guide and specific ballot style lookup for voters.

2. By email (if offered in your county)
Yes, for those with an email on file

3. By mail (if done) and if so, whether to individual voters or to households
To all registered voters individually.

Leon County has included the Spanish version of the sample ballot in our Election Guide as ordered by the court. We will also have a full Spanish version of the Election Guide available for distribution. Our EG is currently in print production and should arrive it the mailboxes of voters the week before EV starts (which for us is Oct 22).

Director Matthews,

I am not sure if Mark had a chance to respond due to his travel this week. If not, here are Leon County's answers to your questions.

I would also like to know how many of you offer sample ballots available:
1. online for a constituent voter to be able to find a sample ballot

Yes, in the Election Guide and specific ballot style lookup for voters.

2. By email (if offered in your county)
Yes, for those with an email on file

3. By mail (if done) and if so, whether to individual voters or to households
To all registered voters individually.

Leon County has included the Spanish version of the sample ballot in our Election Guide as ordered by the court. We will also have a full Spanish version of the Election Guide available for distribution. Our EG is currently in print production and should arrive it the mailboxes of voters the week before EV starts (which for us is Oct 22).

Dear Supervisors:

A clarification is in order. The attachment is a list of persons who can designate poll watchers on behalf of the statewide campaign for Senator Bill Nelson.

Each designated poll watcher must still satisfy the requirements (including residency) for being a poll watcher including submitting a completed DS-DE 25<https://dos.myflorida.com/media/696684/dsde125.pdf> in your respective county.

Keep this letter on file so you will know if the person who submits the form is authorized to designate who can serve as a poll watcher for the campaign.

Share with appropriate staff as this email is only directed to you.

My apologies for the misunderstanding.

Dear Supervisors:

A clarification is in order. The attachment is a list of persons who can designate poll watchers on behalf of the statewide campaign for Senator Bill Nelson.

Each designated poll watcher must still satisfy the requirements (including residency) for being a poll watcher including submitting a completed DS-DE 25<https://dos.myflorida.com/media/696684/dsde125.pdf> in your respective county.

Keep this letter on file so you will know if the person who submits the form is authorized to designate who can serve as a poll watcher for the campaign.

Share with appropriate staff as this email is only directed to you.

My apologies for the misunderstanding.

Dear Supervisors:

A clarification is in order. The attachment is a list of persons who can designate poll watchers on behalf of the statewide campaign for Senator Bill Nelson.

Each designated poll watcher must still satisfy the requirements (including residency) for being a poll watcher including submitting a completed DS-DE 25<https://dos.myflorida.com/media/696684/dsde125.pdf> in your respective county.

Keep this letter on file so you will know if the person who submits the form is authorized to designate who can serve as a poll watcher for the campaign.

Share with appropriate staff as this email is only directed to you.

My apologies for the misunderstanding.

Respectfully,

Maria Matthews, Esq.

Dear Supervisors:

Attached is a list of poll watchers designated by the statewide campaign for Senator Bill Nelson.

Please note that each designated poll watcher must still submit a completed DS-DE 25<https://dos.myflorida.com/media/696684/dsde125.pdf> in your respective county.

Keep this letter on file so you will know if the person who submits the form is authorized to serve as a poll watcher for the campaign.

Share with appropriate staff as this email is only directed to you.

Thanks in advance.

Dear Supervisors:

A clarification is in order. The attachment is a list of persons who can designate poll watchers on behalf of the statewide campaign for Senator Bill Nelson.

Each designated poll watcher must still satisfy the requirements (including residency) for being a poll watcher including submitting a completed DS-DE 25<https://dos.myflorida.com/media/696684/dsde125.pdf> in your respective county.

Keep this letter on file so you will know if the person who submits the form is authorized to designate who can serve as a poll watcher for the campaign.

I have not done an official press release since that would give too much credence to this ridiculous story. We received about half a dozen calls. How did you here about it?

This has been my response, posted in similar form to Facebook:

Getting the Truth Out:

Regardless of what you might have heard, Leon County DOES NOT require voters of one party to pay postage to return their Vote-By-Mail ballots while letting voters of another party return their Vote-By-Mail ballots postage paid.

The Facts:

Military personnel, their dependents, and overseas civilians of any party do receive postage paid Vote-by-Mail ballot envelopes under the Uniformed and Overseas Civilian Absentee Voters Act (UOCAVA).

AMERICAN OVERSIGHT

We do not pay the postage of civilian voters who reside in the United States. **For the 2018 elections in Leon County, the required postage is One First-Class or Forever stamp, regardless of party affiliation.**

The incident that recently caused confusion involves a husband and wife. The wife requested a Vote-By-Mail ballot and chose the option for overseas military and their dependents, which was most likely a simple mistake on her part. We occasionally see this mistake by voters - of all parties. The husband requested a normal Vote-By-Mail ballot.

Since the husband was of one party and the wife of another party, it appeared that one party was being treated to a postage paid return of their voted ballot, while the other party was required to pay postage.

But of course, that was a simple misunderstanding that could have been corrected with a quick call to 850-606-8683.

Director Matthews,

I do, but I would not call it an article, I would refer to it as an rabid blog. Have you read it?

I have not done an official press release since that would give too much credence to this ridiculous story. We received about half a dozen calls. How did you here about it?

This has been my response, posted in similar form to Facebook:

Getting the Truth Out:

Regardless of what you might have heard, Leon County DOES NOT require voters of one party to pay postage to return their Vote-By-Mail ballots while letting voters of another party return their Vote-By-Mail ballots postage paid.

The Facts:

Military personnel, their dependents, and overseas civilians of any party do receive postage paid Vote-by-Mail ballot envelopes under the Uniformed and Overseas Civilian Absentee Voters Act (UOCAVA).

AMERICAN OVERSIGHT

We do not pay the postage of civilian voters who reside in the United States. For the 2018 elections in Leon County, the required postage is One First-Class or Forever stamp, regardless of party affiliation.
The incident that recently caused confusion involves a husband and wife. The wife requested a Vote-By-Mail ballot and chose the option for overseas military and their dependents, which was most likely a simple mistake on her part. We occasionally see this mistake by voters - of all parties. The husband requested a normal Vote-By-Mail ballot.
Since the husband was of one party and the wife of another party, it appeared that one party was being treated to a postage paid return of their voted ballot, while the other party was required to pay postage.
But of course, that was a simple misunderstanding that could have been corrected with a quick call to 850-606-8683.

Dear Supervisors,

We are in the final stretch to Election Day and beyond. We offer a few reminders to ensure our smoothly and that every eligible vote is counted. We ask that you also share this information wit canvassing board members as many of these reminders pertain to the canvassing board's resp the election:

Canvassing Board Duties and Responsibilities

Canvassing ballots
One of the primary duties of the canvassing board is the canvassing of ballots. It is important fo canvassing board to have established procedures and criteria for:

- Securing and handling returned voted ballots including preliminary review of ballot cert affidavits and comparison of signatures;
- Presenting unopened ballots for further canvassing to determine whether the ballot is l should be counted or not; and
- To record any action taken.

Please be sure to allot a reasonable time for challenges by the public. For example, those times set to occur before canvassing begins. The FSASE canvassing board manual contains valuable including references to laws, rules, forms and charts, including matrixes for determining how an canvass and count provisional ballots and vote-by-mail ballots.

Membership requirements for activities
Additionally, I am re-attaching DE Reference Guide 0020 which details what the membership re are for canvassing board activities. Please share this document with your other canvassing boa

In order to ensure there is continuity and relief for the canvassing board, as needed, it is also cr substitutes and alternatives be appointed or designated well in advance as set forth in section 1 Stat.

Election results reporting
Not least of the canvassing board duties is to timely report results. The deadlines for reporting r follows:

- **Preliminary Election Night Results** – Starting at 7 pm local time on November 6, prelimin including early voting and vote-by-mail ballots tabulated to date are due to be reported to t Then every 45 minutes thereafter, results updates are to be provided until completed.
- The **1st set of Unofficial Returns*** is due no later than Noon, Saturday, November 10, 201 102.141(5), F.S.) These results determine whether a machine recount will need to be orde local, county, multi-county, state or federal race.
- The **2nd set of Unofficial Returns*** is due no later than 3 pm, Thursday, November 15, 20 102.141(7)(c), F.S.) These results determine whether a manual recount will need to be orc local, county, multi-county, state, or federal race.
- **The Official Returns** are due no later than Noon, Sunday, November 18, 2018. (section 10 S.)

The **Elections Canvassing Commission** certifies the Official Returns at 9 am on Tuesday, No 2018. (section 102.111, F.S.)

AMERICAN OVERSIGHT

[*Note: *We ask that you do not submit official returns ahead of a state's determination of wheth is needed in a multi-county, state or federal race.]*

Mismatched and Missing Signatures
The law provides a detailed procedure for a voter's right to cure a returned vote-by-mail ballot w signed affidavit or with a signed affidavit in which the signature does not match the voter's signa record. As of 2017, the Supervisor of Elections is responsible for immediately notifying the vote her signature is either missing or does not match what is on the voter registration record. By wh means of notification, be sure to either include a copy of or to direct the voter to the 'cure affidav 137 (ENG/SPN)) whether online or by paper. A voter has until 5 pm local time on the day before Day to submit such affidavit. Procedures for mismatched and missing signatures is detailed in s 101.68(4), Fla. Stat.

Provisional Ballots
The law requires that provisional ballots be offered:

- Any time to any person who claims to be registered and eligible to vote but the person' cannot be determined;
- To any person whom an election official asserts is not eligible; and
- To any other person entitled under the Florida Election Code, including but not limited t person is unable to provide photo identification per section 101.043, Fla. Stat., at the po

Additionally, a provisional ballot is to be counted UNLESS the canvassing board determines by preponderance of the evidence that the person was not entitled to vote. Please be sure to refre yourselves, staff, poll workers, and canvassing board with procedures set out in section 101.04 and R1S-2.037, Fla. Admin. Code

requirements under the public records law. Supervisors of Elections should consult with their c attorney or legal counsel regarding any questions about public records, and the retention and/o of such records.

Recounts
A few machine and manual recounts in local, county-wide and multi-county jurisdictional races during the Primary Election. As was discussed on the SOE monthly calls, it is important to be p the possibility of a recount involving a local, state and/or federal contest in the General Election best proactive steps to take is to provide contingency public notice in the event a recount is ord will allow you, the staff, and canvassing board to start as soon as possible but no later than 18 h the order is issued.

The law and rules, however, provides detailed procedures for what triggers a recount, how to n recount, how to conduct a recount and when to report the results of a recount. The applicable l rules include but are not limited to the following:

- Section 102.141(7)-(8), Fla. Stat.
- Section 102.166, Fla. Stat.

- Rule 1S-2.027 Standards for Determining Voter's Choice on a Ballot
- Rule 1S-2.031 Recount Procedures
- Rule 1S-2.051 Standards for Determining Voter's Choice on a Federal Write-In Absentee

Our DE Reference Guide 0010 - Recount Procedure Summary may also serve as a resource.

In conclusion, we hope this information is helpful.

Mismatched and Missing Signatures

The law provides a detailed procedure for a voter's right to cure a returned vote-by-mail ballot without a signed affidavit or with a signed affidavit in which the signature does not match the voter's signature on record. As of 2017, the Supervisor of Elections is responsible for immediately notifying the voter that his or her signature is either missing or does not match what is on the voter registration record. By whatever means of notification, be sure to either include a copy of or to direct the voter to the 'cure affidavit' (DS-DE 137 (ENG<https://dos.myflorida.com/media/693306/dsde139.pdf>/SPN<https://dos.myflorida.com/media/693304/dsde139_spa.pdf>)) whether online or by paper. A voter has until 5 pm local time on the day before Election Day to submit such affidavit. Procedures for mismatched and missing signatures is detailed in section 101.68<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-

Provisional Ballots
The law requires that provisional ballots be offered:

* Any time to any person who claims to be registered and eligible to vote but the person's eligibility cannot be determined;

* To any person whom an election official asserts is not eligible; and

* To any other person entitled under the Florida Election Code, including but not limited to when a person is unable to provide photo identification per section 101.043<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-0199/0101/Sections/0101.043.html>, Fla. Stat., at the polls.

Additionally, a provisional ballot is to be counted UNLESS the canvassing board determines by a preponderance of the evidence that the person was not entitled to vote. Please be sure to refresh yourselves, staff, poll workers, and canvassing board with procedures set out in section 101.048<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-0199/0101/Sections/0101.048.html>, Fla. Public Records
As a public records custodian, you are responsible for the records you/your office obtain or create. Remember that not only does the General Elections Retention Schedule GS-3 govern your records management, retention and disposition, but retention of records are also governed by federal law including but not limited to the law governing the retention and preservation of "records and papers which come into [your] possession relating to any application, registration . . . . . or other act requisite to voting in such election." See also 52 U.S.C. 20701<http://uscode.house.gov/view.xhtml?req=granuleid:USC-prelim-title52-section20701&num=0&edition=prelim>

Under Florida law, "public records" consist of: a) All "documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software or other material, regardless of the physical form, characteristics, or means of transmission" (includes electronic communications like Facebook postings, text messages, emails, blog comments, tweets). b) Made or received pursuant to law or ordinance or in connection with the transaction of official business c) By any agency [including a private entity acting 'on behalf of' a public agency] d) Which are used to perpetuate, communicate, or formalize knowledge. For those utilizing voting systems that are programmed to capture images of ballots as they are scanned, those images may be subject to retention requirements under the public records law. Supervisors of Elections should consult with their county attorney or legal counsel regarding any questions about public records, and the retention and/or disclosure of such records.

Recounts

A few machine and manual recounts in local, county-wide and multi-county jurisdictional races occurred during the Primary Election. As was discussed on the SOE monthly calls, it is important to be prepared for the possibility of a recount involving a local, state and/or federal contest in the General Election. One of the best proactive steps to take is to provide contingency public notice in the event a recount is ordered which will allow you, the staff, and canvassing board to start as soon as possible but no later than 18 hours after the order is issued.

The law and rules, however, provides detailed procedures for what triggers a recount, how to notice a recount, how to conduct a recount and when to report the results of a recount. The applicable laws and rules include but are not limited to the following:

* Section 102.141(<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.141&URL=0100-0199/0102/Sections/0102.141.html>7)-(8), Fla. Stat.

AMERICAN OVERSIGHT

including matrixes for determining how and when to canvass and count provisional ballots and vote-by-mail ballots.

Membership requirements for activities
Additionally, I am re-attaching DE Reference Guide 0020 which details what the membership requirements are for canvassing board activities. Please share this document with your other canvassing board members.

In order to ensure there is continuity and relief for the canvassing board, as needed, it is also critical that substitutes and alternatives be appointed or designated well in advance as set forth in section 102.141<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.141&URL=0100-0199/0102/Sections/0102.141.html>, Fla. Stat.

Election results reporting
Not least of the canvassing board duties is to timely report results. The deadlines for reporting results are as follows:

o Preliminary Election Night Results - Starting at 7 pm local time on November 6, preliminary results including early voting and vote-by-mail ballots tabulated to date are due to be reported to the State. Then every 45 minutes thereafter, results updates are to be provided until completed.

o The 1st set of Unofficial Returns* is due no later than Noon, Saturday, November 10, 2018. (section 102.141<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.141&URL=0100-0199/0102/Sections/0102.141.html>(5), F.S.) These results determine whether a machine recount will need to be ordered for a local, county, multi-county, state or federal race.

o The 2nd set of Unofficial Returns* is due no later than 3 pm, Thursday, November 15, 2018. (section 102.141<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.141&URL=0100-0199/0102/Sections/0102.141.html>(7)(c), F.S.) These results determine whether a manual recount will need to be ordered for a local, county, multi-county, state, or federal race.

o The Official Returns are due no later than Noon, Sunday, November 18, 2018. (section 102.112<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.112&URL=0100-0199/0102/Sections/0102.112.html>(2), F.S.)

The Elections Canvassing Commission certifies the Official Returns at 9 am on Tuesday, November 20, 2018. (section 102.111<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.111&URL=0100-0199/0102/Sections/0102.111.html>, F.S.)

[*Note: We ask that you do not submit official returns ahead of a state's determination of whether a recount is needed in a multi-county, state or federal race.]

Mismatched and Missing Signatures
The law provides a detailed procedure for a voter's right to cure a returned vote-by-mail ballot without a signed affidavit or with a signed affidavit in which the signature does not match the voter's signature on record. As of 2017, the Supervisor of Elections is responsible for immediately notifying the voter that his or her signature is either missing or does not match

what is on the voter registration record. By whatever means of notification, be sure to either include a copy of or to direct the voter to the 'cure affidavit' (DS-DE 137 (ENG<https://dos.myflorida.com/media/693306/dsde139.pdf>/SPN<https://dos.myflorida.com/media/693304/dsde139_spa.pdf>)) whether online or by paper. A voter has until 5 pm local time on the day before Election Day to submit such affidavit. Procedures for mismatched and missing signatures is detailed in section 101.68<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-0199/0101/Sections/0101.68.html>(4), Fla. Provisional Ballots

The law requires that provisional ballots be offered:

* Any time to any person who claims to be registered and eligible to vote but the person's eligibility cannot be determined;

* To any person whom an election official asserts is not eligible; and

* To any other person entitled under the Florida Election Code, including but not limited to when a person is unable to provide photo identification per section 101.043<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-0199/0101/Sections/0101.043.html>, Fla. Stat., at the polls.

Additionally, a provisional ballot is to be counted UNLESS the canvassing board determines by a preponderance of the evidence that the person was not entitled to vote. Please be sure to refresh yourselves, staff, poll workers, and canvassing board with procedures set out in section 101.048<http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-0199/0101/Sections/0101.048.html>, Fla. Public Records

As a public records custodian, you are responsible for the records you/your office obtain or create. Remember that not only does the General Elections Retention Schedule GS-3 govern your records management, retention and disposition, but retention of records are also governed by federal law including but not limited to the law governing the retention and preservation of "records and papers which come into [your] possession relating to any application, registration . . . . . or other act requisite to voting in such election." See also 52 U.S.C. 20701<http://uscode.house.gov/view.xhtml?req=granuleid:USC-prelim-title52-section20701&num=0&edition=prelim>

Under Florida law, "public records" consist of: a) All "documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software or other material, regardless of the physical form, characteristics, or means of transmission" (includes electronic communications like Facebook postings, text messages, emails, blog comments, tweets). b) Made or received pursuant to law or ordinance or in connection with the transaction of official business c) By any agency [including a private entity acting 'on behalf of' a public agency] d) Which are used to perpetuate, communicate, or formalize knowledge. See e.g., section

If you have records that are the subject of a request, they may be public record and subject to public disclosure. Additionally, regardless of whether a record exists in your possession is a public record or not, and required or not required under law, be sure to refer to provisions under the Florida Public Records Law including but not limited to section 119.071<http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=119.071&URL=0100-0199/0119/Sections/0119.071.html>, Fla. Stat. For those utilizing voting systems that are programmed to capture images of ballots as they are scanned, those images may be subject to retention requirements under the public records law. Supervisors of Elections should consult with their county attorney or legal counsel regarding any questions about public records, and the retention and/or disclosure of such records.

Recounts
A few machine and manual recounts in local, county-wide and multi-county jurisdictional races occurred during the Primary Election. As was discussed on the SOE monthly calls, it is important to be prepared for the possibility of a recount involving a local, state and/or federal contest in the General Election. One of the best proactive steps to take is to provide contingency public notice in the event a recount is ordered which will allow you, the staff, and canvassing board to start as soon as possible but no later than 18 hours after the order is issued.

The law and rules, however, provides detailed procedures for what triggers a recount, how to notice a recount, how to conduct a recount and when to report the results of a recount. The applicable laws and rules include but are not limited to the following:

* Section 102.141(<http://www.leg.state.fl.us/statutes/index.cfm?mode=View%20Statutes&SubMenu=1&App_mode=Display_Statute&Search_String=102.141&URL=0100-0199/0102/Sections/0102.141.html>7)-(8), Fla. Stat.

Subject: Reminders for Upcoming Elections

Sent to all Supervisors of Elections – Please share with staff too as needed.

Dear Supervisors,

We are in the final stretch to Election Day and beyond. We offer a few reminders to ensure our smoothly and that every eligible vote is counted. We ask that you also share this information wit canvassing board members as many of these reminders pertain to the canvassing board's resp the election:

Canvassing Board Duties and Responsibilities

Canvassing ballots
One of the primary duties of the canvassing board is the canvassing of ballots. It is important fo canvassing board to have established procedures and criteria for:

- Securing and handling returned voted ballots including preliminary review of ballot cert affidavits and comparison of signatures;
- Presenting unopened ballots for further canvassing to determine whether the ballot is l should be counted or not; and
- To record any action taken.

Please be sure to allot a reasonable time for challenges by the public. For example, those times set to occur before canvassing begins. The FSASE canvassing board manual contains valuable including references to laws, rules, forms and charts, including matrixes for determining how an canvass and count provisional ballots and vote-by-mail ballots.

Membership requirements for activities
Additionally, I am re-attaching DE Reference Guide 0020 which details what the membership re are for canvassing board activities. Please share this document with your other canvassing boa

In order to ensure there is continuity and relief for the canvassing board, as needed, it is also cr substitutes and alternatives be appointed or designated well in advance as set forth in section 1 Stat.

Election results reporting
Not least of the canvassing board duties is to timely report results. The deadlines for reporting r follows:

- **Preliminary Election Night Results** – Starting at 7 pm local time on November 6, prelimin including early voting and vote-by-mail ballots tabulated to date are due to be reported to t Then every 45 minutes thereafter, results updates are to be provided until completed.
- The **1st set of Unofficial Returns*** is due no later than Noon, Saturday, November 10, 201 102.141(5), F.S.) These results determine whether a machine recount will need to be orde local, county, multi-county, state or federal race.

- The **2nd set of Unofficial Returns*** is due no later than 3 pm, Thursday, November 15, 20
  102.141(7)(c), F.S.) These results determine whether a manual recount will need to be or
  local, county, multi-county, state, or federal race.
- **The Official Returns** are due no later than Noon, Sunday, November 18, 2018. (section 1
  S.)

The **Elections Canvassing Commission** certifies the Official Returns at 9 am on Tuesday, No
2018. (section 102.111, F.S.)

[*Note: *We ask that you do not submit official returns ahead of a state's determination of wheth
is needed in a multi-county, state or federal race.]*

Mismatched and Missing Signatures
The law provides a detailed procedure for a voter's right to cure a returned vote-by-mail ballot w
signed affidavit or with a signed affidavit in which the signature does not match the voter's signa
record. As of 2017, the Supervisor of Elections is responsible for immediately notifying the vote

AMERICAN OVERSIGHT

Dear Supervisors of Elections,

I hope that you, your staff and families had a wonderful Thanksgiving holiday.

I am in need of your assistance again. Judge Mark Walker has asked me for information in two separate federal court cases (orders attached in one document) as follows for which only you h

1. *Democratic Executive Committee of Florida, et al. v. Detzner* (Case 4:18-cv-00520-MW
   This case is about mismatched signatures on vote-by-mail ballots and cure affidavits. Ju
   is requesting the number of vote-by-mail ballots that were cured after the last order was
   (order was entered Thursday, November 15)..
2. *VoteVets Action Fund, et al v. Detzner* (Case 4:18-cv-524-MW-CAS).
   This case is about untimely received vote-by-mail ballots. Judge Walker is requesting th
   non-overseas vote-by-mail ballots that were postmarked before Election Day but receive
   Election Day. Also if the postmark was not clear or somehow does not have a postmark
   received untimely, please distinguish that count and let me know those numbers too.

Judge Walker's request is to have all of this information from me if at all possible no later than F November 30, 2018. However, I would appreciate it you could provide it to me by 5 pm, Thursda November 29, so I can complete the request and provide him the compiled information as soon Even if you had no voter who could have but did not take the opportunity to submit a cure, let m that I know you got this email.

I expect this information will also become of interest to the Florida Legislature during the 2019 le session.

Thank you in advance.

Maria,
Apologies that this is late getting to you, we had some things on our end last week that caused this to get by us without a response.
Question 1
We had 10 VBMs that were accepted during the extension of the Cure period.
Question 2
We had 135 domestic VBMs with a postmark on or before election day that came to our office after election day. Of that 135, 31 of them were domestic Military is that is an important number. We also had 47 that had no postmark or an unreadable postmark that were also received late. So that total number is 182 if you combine them.

Dear Supervisors,
I hate to bother you but I have either missed your email reply to my request below or have not received it yet. I hope to have all 67 counties reporting by tomorrow so I can submit the information the judge requested.
I know for Desoto, Gilchrist and Liberty you indicated previously that you had no ballots with mismatched signature issues but I am still in need of information under number 2 below.
Thank you in advance.

Subject: New Request for Data/Federal Court
Dear Supervisors of Elections,
I hope that you, your staff and families had a wonderful Thanksgiving holiday.
I am in need of your assistance again. Judge Mark Walker has asked me for information in two separate federal court cases (orders attached in one document) as follows for which only you have:
1. *Democratic Executive Committee of Florida, et al. v. Detzner* (Case 4:18-cv-00520-MW-MJF).
   This case is about mismatched signatures on vote-by-mail ballots and cure affidavits. Judge Walker is requesting the number of vote-by-mail ballots that were cured after the last order was entered (order was entered Thursday, November 15)..
2. *VoteVets Action Fund, et al v. Detzner* (Case 4:18-cv-524-MW-CAS).
   This case is about untimely received vote-by-mail ballots. Judge Walker is requesting the number of non-overseas vote-by-mail ballots that were

AMERICAN OVERSIGHT

postmarked before Election Day but received after Election Day. Also if the postmark was not clear or somehow does not have a postmark but still received untimely, please distinguish that count and let me know those numbers too.

Judge Walker's request is to have all of this information from me if at all possible no later than Friday, November 30, 2018. However, I would appreciate it you could provide it to me by 5 pm, Thursday, November 29, so I can complete the request and provide him the compiled information as soon as possible. Even if you had no voter who could have but did not take the opportunity to submit a cure, let me know so that I know you got this email.

I expect this information will also become of interest to the Florida Legislature during the 2019 legislative session.

Thank you in advance.

Maria, Apologies that this is late getting to you, we had some things on our end last week that caused this to get by us without a response. Question 1We had 10 VBMs that were accepted during the extension of the Cure period.Question 2We had 135 domestic VBMs with a postmark on or before election day that came to our office after election day. Of that 135, 31 of them were domestic Military is that is an important number. We also had 47 that had no postmark or an unreadable postmark that were also received late. So that total number is 182 if you combine them. Regards,

Dear Supervisors of Elections,
I hope that you, your staff and families had a wonderful Thanksgiving holiday.
I am in need of your assistance again. Judge Mark Walker has asked me for information in two separate federal court cases (orders attached in one document) as follows for which only you have:
1. Democratic Executive Committee of Florida, et al. v. Detzner (Case 4:18-cv-00520-MW-MJF).
This case is about mismatched signatures on vote-by-mail ballots and cure affidavits. Judge Walker is requesting the number of vote-by-mail ballots that were cured after the last order was entered (order was entered Thursday, November 15)..
2. VoteVets Action Fund, et al v. Detzner (Case 4:18-cv-524-MW-CAS).
This case is about untimely received vote-by-mail ballots. Judge Walker is requesting the number of non-overseas vote-by-mail ballots that were postmarked before Election Day but received after Election Day. Also if the postmark was not clear or somehow does not have a postmark but still received untimely, please distinguish that count and let me know

those numbers too.
Judge Walker's request is to have all of this information from me if at all possible no later than Friday, November 30, 2018. However, I would appreciate it you could provide it to me by 5 pm, Thursday, November 29, so I can complete the request and provide him the compiled information as soon as possible. Even if you had no voter who could have but did not take the opportunity to submit a cure, let me know so that I know you got this email.
I expect this information will also become of interest to the Florida Legislature during the 2019 legislative session.

Subject: New Request for Data/Federal Court

Dear Supervisors of Elections,
I hope that you, your staff and families had a wonderful Thanksgiving holiday.
I am in need of your assistance again. Judge Mark Walker has asked me for information in two separate federal court cases (orders attached in one document) as follows for which only you have:

1. *Democratic Executive Committee of Florida, et al. v. Detzner* (Case 4:18-cv-00520-MW-MJF).
   This case is about mismatched signatures on vote-by-mail ballots and cure affidavits. Judge Walker is requesting the number of vote-by-mail ballots that were cured after the last order was entered (order was entered Thursday, November 15)..
2. *VoteVets Action Fund, et al v. Detzner* (Case 4:18-cv-524-MW-CAS).
   This case is about untimely received vote-by-mail ballots. Judge Walker is requesting the number of non-overseas vote-by-mail ballots that were postmarked before Election Day but received after Election Day. Also if the postmark was not clear or somehow does not have a postmark but still received untimely, please distinguish that count and let me know those numbers too.

Judge Walker's request is to have all of this information from me if at all possible no later than Friday, November 30, 2018. However, I would appreciate it you could provide it to me by 5 pm, Thursday, November 29, so I can complete the request and provide him the compiled information as soon as possible. Even if you had no voter who could have but did not take the opportunity to submit a cure, let me know so that I know you got this email.
I expect this information will also become of interest to the Florida Legislature during the 2019 legislative session.
Thank you in advance.
Respectfully,

Subject: New Request for Data/Federal Court
Dear Supervisors of Elections,
I hope that you, your staff and families had a wonderful Thanksgiving holiday.
I am in need of your assistance again. Judge Mark Walker has asked me for information in two separate federal court cases (orders attached in one document) as follows for which only you have:
1. *Democratic Executive Committee of Florida, et al. v. Detzner* (Case 4:18-cv-00520-MW-MJF).
   This case is about mismatched signatures on vote-by-mail ballots and cure affidavits. Judge Walker is requesting the number of vote-by-mail ballots that were cured after the last order was entered (order was entered Thursday, November 15)..
2. *VoteVets Action Fund, et al v. Detzner* (Case 4:18-cv-524-MW-CAS).
   This case is about untimely received vote-by-mail ballots. Judge Walker is requesting the number of non-overseas vote-by-mail ballots that were postmarked before Election Day but received after Election Day. Also if the postmark was not clear or somehow does not have a postmark but still received untimely, please distinguish that count and let me know those numbers too.

Judge Walker's request is to have all of this information from me if at all possible no later than Friday, November 30, 2018. However, I would appreciate it you could provide it to me by 5 pm, Thursday, November 29, so I can complete the request and provide him the compiled information as soon as possible. Even if you had no voter who could have but did not take the opportunity to submit a cure, let me know so that I know you got this email.
I expect this information will also become of interest to the Florida Legislature during the 2019 legislative session.
Thank you in advance.

We appreciate your language. We've drafted two versions that use your language with the second half of the first sentence deleted because it repeats what's in the second sentence. Otherwise, we keep your language in tact.

One version adds the language as subsection (2) and (3) of 101.56075 and the other versio appends the language to 97.021(41) Voter Interface Device. We think they do much the sa thing and can work with either.

We moved a comma which provides clearer intent at our new (1) that preserves "marksens ballot."

We used "voter-verifiable paper output" as the term of art adopted for the paper contempl here, and prefer it slightly over "voter-verifiable paper trail," which we think should be "v verifiable paper audit trail" if used. We're agnostic on "verified" vs "verifiable" but happy work with the one you prefer, "verifiable."

We also understand there is language in the works addressing the portion of the ballot reac recount and look forward to considering that when it is ready. We know that language is a important to a number of other advocacy groups we have spoken to.

With these adjustments, we look to be able to lend our support to the bill and support it remaining clean. We appreciate the urgency to pass this bill in 2019 and appreciate workir with others to reach agreement, even with some thoughtful compromise.

We look forward to your comments on the attached and the recount language when that is

Dan,

I am including Director Matthews and Supervisor Lux on this thread.

I have fairly complete technical manuals for the ICE voting machine, its hardware, and software.

Although the documents provided by Dominion that detail the design and function of the Dominion ICE product are provided with a strict Nondisclosure agreement, it is clear that all the vote tabulation, although the hardware and software share some components, is based entirely upon a scan of filled ovals on a marked marksense ballot.

Based upon this, it is evident that parts of the ballot path that processes the ballot paper thought the scanners (which are used to determine votes as well as to determine the ballot style as the initial part of the ADA VID process) are used jointly by the tabulation and the VID hardware and software.

BUT, the key requirement we are all trying to achieve is that the acquisition or tabulation of votes in any system is based upon a tabulation scan of a marked, voter verifiable paper record or marksense ballot.

This paper record can be marked by the voter using a standard marksense ballot, a VID which prints filled voter targets on a standard marksense ballot such as a stand-alone AutoMark VID or a hybrid VID/tabulation voting device such as the ImageCast Evolution (ICE) product built by Dominion, or a voter verifiable barcoded summary ballot printed out by a stand-alone VID that several manufacturers produce, but currently only ES&S has certified in Florida.

Therefore, I would suggest that sufficient language to prevent a VID from accumulating votes based directly upon a voter's "ADA" interface inputs instead of upon a scan of a marksense ballot or voter verifiable paper output (the goal) might be:

No voter interface device may contain hardware or software capable of tabulating votes except based upon a separate scan of the printed voter verifiable paper output or marksense ballot. If a component of the voting system that tabulates votes is housed in a single piece of equipment that also contains a voter interface device, vote tabulation must be based upon a subsequent scan of the marked vote verifiable paper output or marksense ballot after the VID process has been completed.

Dan,

I am including Director Matthews and Supervisor Lux on this thread.

I have fairly complete technical manuals for the ICE voting machine, its hardware, and software.

Although the documents provided by Dominion that detail the design and function of the Dominion ICE product are provided with a strict Nondisclosure agreement, it is clear that all the vote tabulation, although the hardware and software share some components, is based entirely upon a scan of filled ovals on a marked marksense ballot.

Based upon this, it is evident that parts of the ballot path that processes the ballot paper thought the scanners (which are used to determine votes as well as to determine the ballot style as the initial part of the ADA VID process) are used jointly by the tabulation and the VID hardware and software.

BUT, the key requirement we are all trying to achieve is that the acquisition or tabulation of votes in any system is based upon a tabulation scan of a marked, voter verifiable paper record or marksense ballot.

This paper record can be marked by the voter using a standard marksense ballot, a VID which prints filled voter targets on a standard marksense ballot such as a stand-alone AutoMark VID or a hybrid VID/tabulation voting device such as the ImageCast Evolution (ICE) product built by Dominion, or a voter verifiable barcoded summary ballot printed out by a stand-alone VID that several manufacturers produce, but currently only ES&S has certified in Florida.

Therefore, I would suggest that sufficient language to prevent a VID from accumulating votes based directly upon a voter's "ADA" interface inputs instead of upon a scan of a marksense ballot or voter verifiable paper output (the goal) might be:

No voter interface device may contain hardware or software capable of tabulating votes except based upon a separate scan of the printed voter verifiable paper output or marksense ballot. If a component of the voting system that tabulates votes is housed in a single piece of equipment that also contains a voter interface device, vote tabulation must be based upon a subsequent scan of the marked vote verifiable paper output or marksense ballot after the VID process has been completed.

Supervisors of Elections,

Many elections offices were targeted by a spear phishing email on March 21st. The Florida Dep
State and the Florida Voter Registration System remain secure.

Phishing attacks are common and expected, which is why it remains critical that staff is well-trai
to recognize and handle a potential suspicious email.

What We Know:

- Emails targeted elections staff that used the name of a SOE staff member in order to exp
- Emails came directly from DropBox to prevent easy tracing to the attacker and to bypass
  as DropBox and similar file sharing services are often whitelisted
- Emails included a tracking pixel which marketers and attackers alike use to determine wh
  opened the message
- PDF payload of unknown origin and malicious content

How the Department of State Took Action:

- Reached out to SOE staff member listed in the phishing email
- Notified DropBox of abuse. DropBox quickly disabled the box so that the link in the spear
  email no longer worked.
- Confirmed file link was pulled by DropBox
- Notified FDLE

Recommended Next Steps:

- Alert staff to the phishing scam
- Review protocols for how to recognize and handle suspicious emails with staff
- Maintain open communications with the Department and the Cyber Navigators, especially
  closer to the 2020 election
- Only use previously approved and vetted communications and sharing platforms
- Report abuse to services being taken advantage of for malicious intent, ex. - https://www.

Ransomware (such as Locky and LockerGoga) continues to be a major threat, and it is often de
campaigns similar to the one this week where attackers are abusing legitimate file sharing servi
DropBox, to bypass spam filters and deliver their payloads.

If you need assistance with cleaning ransomware infections, working to prevent ransomware att

excellent resource for Supervisors of Elections as they can provide expertise, guidance and sup
