RE: FOIA Request No. 2019-05253

Dear Ms. Rasheed:

This is the eighth rolling release in response to the above-referenced Freedom of Information Act (FOIA) request submitted by Bianca Tylek, Worth Rises Executive Director and Austin Evers, American Oversight Executive Director. Additional determinations and releases will be forthcoming.

Enclosed with this determination letter are 225 pages of records processed in response to Request No. 2019-05253. After careful review, our office determined 43 pages are appropriate for release in full, 57 pages are appropriate for release in part, 124 pages are duplicates, and one (1) page was non-responsive. Records were redacted pursuant to the following FOIA exemptions:

> **(b)(6)** - allows the withholding of records or information when release thereof would constitute a clearly unwarranted invasion of the personal privacy of third parties.

See 5 U.S.C. §§ 552 (b)(6). Copies of releasable records are enclosed.

If you have questions about this response please feel free to contact the undersigned: 202-616-7750; 320 First Street NW, Room 924, Washington, DC 20534; or ogc_efoia@bop.gov.

Sincerely,

Deborah Locke
for Eugene Baime, Supervisory Attorney

Greetings:

As the 2017-2019 Co-Chairs of the Behavioral Health Committee, (b)(6) and I would like to say "Hello" and thank you for your membership on this Committee. (b)(6) and I look forward to continuing the fine work of our Co-Chair predecessors - (b)(6) (b)(6) hank you (b)(6) for your outstanding leadership!!

We are excited to share with you the Charges from (b)(6) for the BH Committee, and to working with all of you to align with, and support (b)(6) vision. You'll note there are **4 Charges** (in attached document). We have some "asks" of you (see below) and request that you provide your feedback by **May 19, 2017**.

Charge 1: (b)(6) nd I would like your input on detailing our Committee's Action Plan so please send us your thoughts. We'll use your suggestions to clarify the final plan.

Charge 2: We are well under way on this Charge, with staff from the ACA team and members of the BH Committee addressing these Expected Practices.

Charge 3: We are charged with submitting workshops and articles throughout the year. If you are presenting during ACA in St. Louis, and would consider allowing the BH Committee to "sponsor" you, please send me your topic title so we can capture and get "credit" for the Team (Both (b)(6) and I have submitted or are participating on a panel - so we've got 2 out of the 5 required!!) Ideas for a Webinar or an Article are also appreciated.

Charge 4: We value collaboration with the other Committees and if you have thoughts or ideas about working together - please forward and allow the BH Committee to explore and develop with you.

(b)(6) nd I will be talking on the 25th of May to review your comments and suggestions. We also would like to schedule a Virtual Meeting with all of you sometime in early June. Thanks again for your willingness to advance the Behavioral Health Agenda for corrections. We'll be in touch.

CCS has the contract with the State. My purpose for writing is to let you know I'm looking for an Assistant State Medical Director to be based in Harrisburg in my Regional Office. I wouldn't think of stealing an active BOP M.D., but if you know someone who's retiring or thinking of leaving please refer them to me.

BTW, since I've been gone over a year and Pennsylvania has nothing to do with the BOP I'm not violating any ethics rules by contacting you. I wouldn't want any of us to violate ethics prohibitions.

Thanks for your consideration. (b)(6)

Hello Deborah,

I wanted you to know that this week (b)(6) (TN DOC Behavioral Health Director), (b)(6) (CoreCivic MH Director), and I plan to discuss a presentation idea related to the mentally ill and use of force involving chemical agents. Tennessee is an NIC grant recipient, and will be exploring this topic and related training in coming weeks. We'll send a draft outline to you, hopefully by week's end. If not needed for the August meeting, perhaps it can be considered for the January meeting.

To Alumni of Class 17,

In mid-December, I sent you an informational e-mail referencing NIC's highly regarded Executive Excellence (EE) program and the two programs we are offering which include classes 20 and 21. In three days, I will leave for the National Corrections Academy in Aurora, Colorado and be met by (b)(6) in welcoming EE Class 20 to the experience. It feels really good to be getting back down to business and the program. Pat, Lani, and I are very excited about next week and meeting the new class.

What this note is about is that while EE Class 20 will be moving full speed ahead with lots of exciting new faculty and the ever stimulating fireside chats, I want to remind you that Class 21 starts April 23rd. The NIC Registrar reminded me yesterday that we need to make our selection for that class by March 10. That being said sometimes a candidate for a future class may not have registered for the program just yet. Therefore, if you had a candidate that you recommended please be sure they have registered and sent along all of their supplementary materials. If your candidate(s) have not registered for EE Class 21, there is still time and I am once again attaching the **"NIC How to Apply Instructions"** for your reference.

Each of you represents our best recruitment force and we appreciate your effort on our behalf. Again, Class 21 has what appears to be some excellent candidates in the queue. Your knowledge of the program and our expectations serves as an exceptional frame of reference for our future program. Again, my purpose in sending out this final e-mail is to encourage you to think about a colleague in your organization, who you feel could benefit by attending EE. This is an exciting time for our field, we need great leadership and I look forward to seeing your recommendation for Class 21 by March 6. Thank you for your consideration and prompt attention to this note

With my best personal regards,

AMERICAN OVERSIGHT

- Team Identifies Opportunities for Improvement
- Develops/Implements a Corrective Plan
- Measures Improvement
- Repeat Study if Required

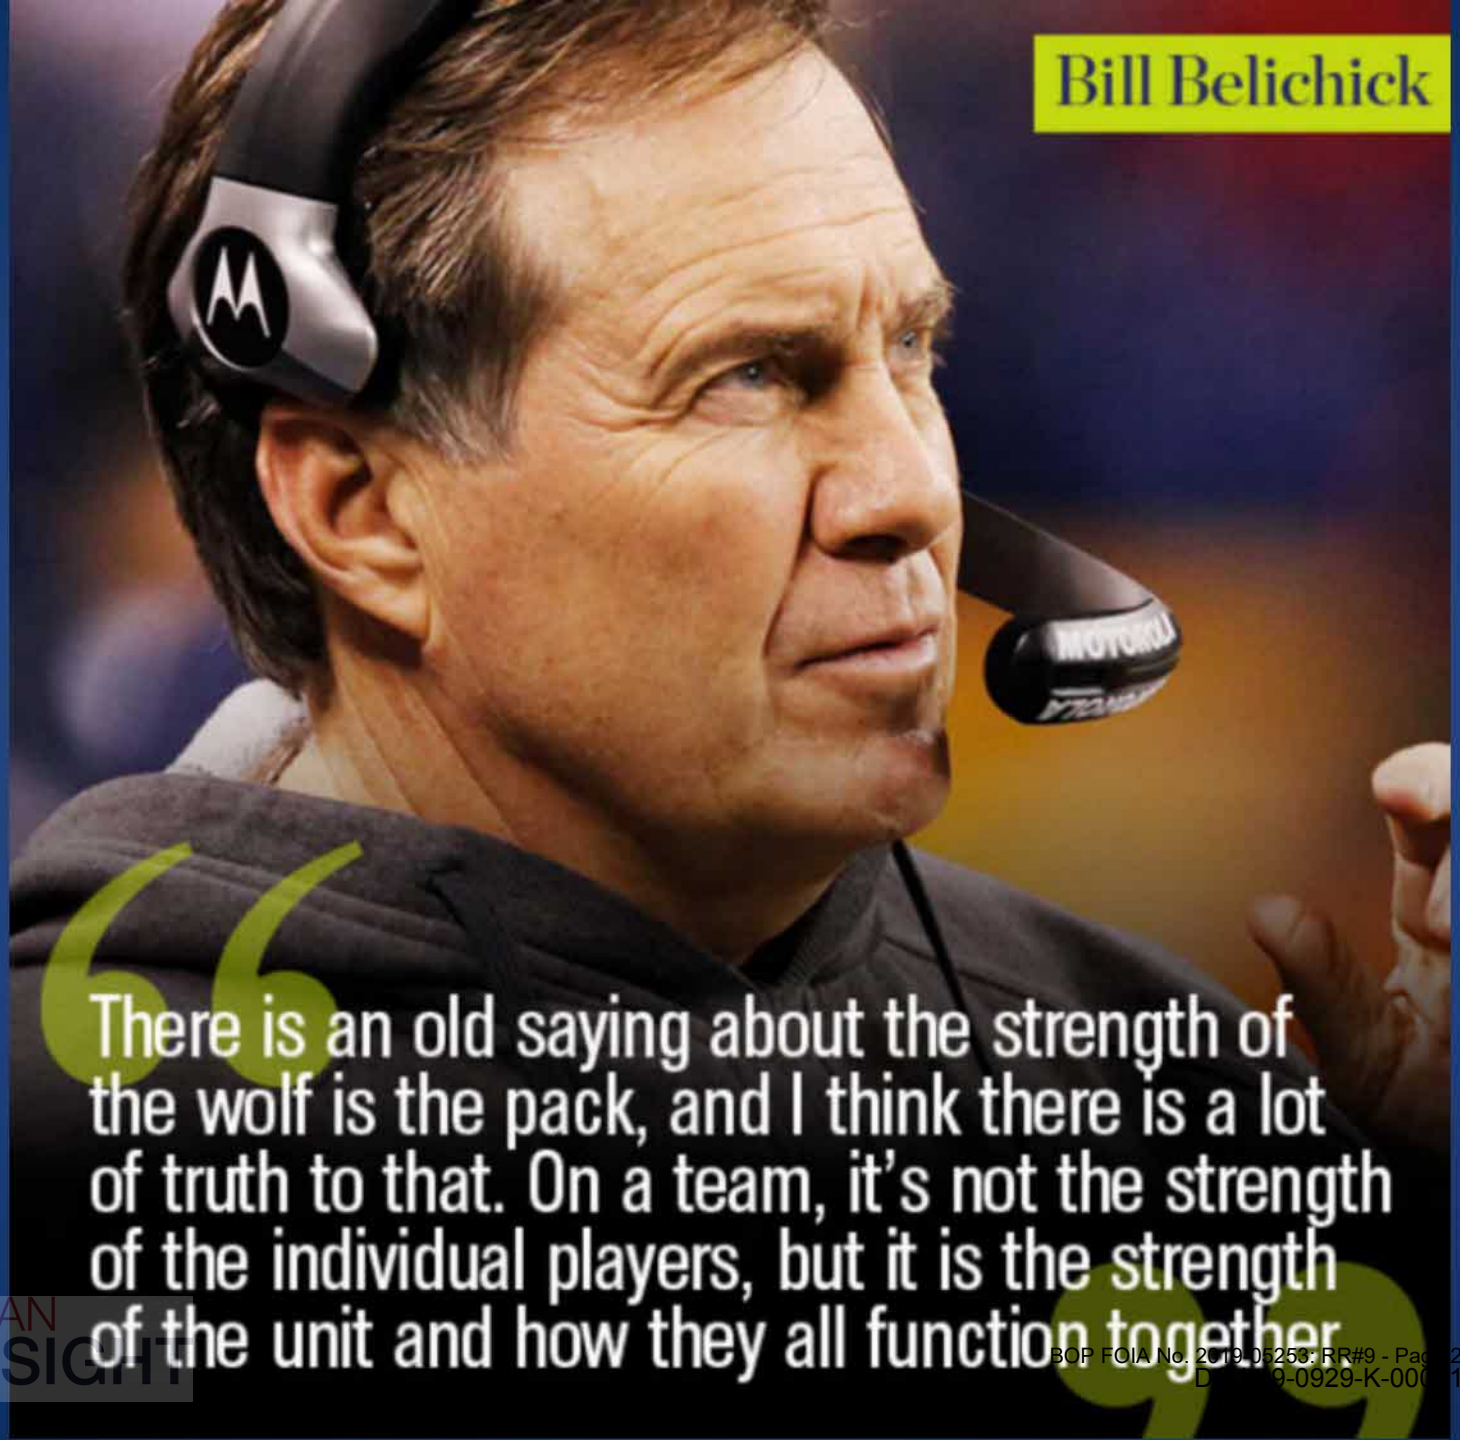

AMERICAN OVERSIGHT

Process vs. Outcome Studies

Outcome Study

- Examines if Mental Health Care is Improved Following the Study of a System of Care.
- Example: Study Examines if Change in Training on Recognition of Mental Health Symptoms Increases Positive Findings on Mental Health Screen and Decreases Emergent Mental Health Issues Post Intake.
- Corrective Plan- Create and Provide an Improved MH Training Curriculum to all Intake Staff.

Title:

The Development of a State Prison Program to Reduce Offenders with Mental Illness in Administrative Segregation and Restrictive Housing Settings

Workshop Summary:

There has been a significant increase in offenders with mental disorders and serious mental illness. Seriously mentally ill prisoners often face challenges in successfully negotiating the many complexities within correctional settings. There is an associated risk of rule infractions leading to disciplinary violations, longer lengths of stay in prison, and being placed in restrictive housing settings formerly known as ad seg (e.g., administrative segregation). Correctional systems are examining strategies to reduce the number of offenders with mental illness who are housed in restrictive housing settings. Similarly, there is a need to improve the transition of individuals with high custody levels, security threat group affiliations, and assaultive and disruptive behaviors who have mental illness into less restrictive housing. The Texas Department of Criminal Justice (TDCJ) partnered with its health care provider, the University of Texas Medical Branch (UTMB) Correctional Managed Care (CMC) to create the Mental Health Therapeutic Diversion Program (MHTDP) at two TDCJ prison units. The goal of these two programs is to effectively and efficiently provide for the mental health needs of TDCJ Restricted Housing offenders identified as requiring such services with the goal of assisting them to achieve the optimal level of functioning in a therapeutic diversion setting so they can successfully transition into a less restrictive housing assignment.

Hello Deborah and (b)(6)

Thanks for the kind words regarding (b)(6) nd myself. I'm looking forward to the ways you will continue to advance the committee's efforts!

My thoughts on the charges:
Action Plan –

1. We may want to comment on 2016's work by the committee (with the other health committees) in revising and updating performance based standards and outcome measures for Adult Correctional Institutions. I'm sure more could be done by fresh eyes on the ACI outcome measures. From there, I would seek (b)(6) guidance on her sense of priority: ALDF vs. Juvenile or other standards areas.
2. With the new restrictive housing standards pilot, the committee will be well-positioned to hear the results of the pilot and offer input on recommended adjustments. Perhaps more importantly, (b)(6) has asked that we define and set standards for related issues – one key area involves diversion programs for the mentally ill and alternate management / treatment settings where their needs can be better addressed than restrictive housing. Our ACI standards review subcommittee began to grapple with this, but didn't make substantive progress. Perhaps (b)(6) can help marshal NIC's resources to join with the committee and the coalition of health authorities to poll agencies for best practices?
3. As standards change – the committee should host further webinars and conference workshops to share critical updates with the field.

I hope some of those thoughts useful.

Morning Deb. We're having a discussion with the DOC about treating inmates on dialysis for Hepatitis C. I'm curious to know what the BOP is doing.

Are you treating inmates for Hepatitis C if they're on dialysis?

If so, roughly how many dialysis patients have been treated for Hepatitis C?

What medication is the BOP using?

Thank you. Best wishes as you move into a new era for the BOP. I'm thinking about you and my other friends there often.

For inmates w UOF with CA, OP MI are about 5 times the rate of non-MI (excludes IP pop').

Aloha Deborah:

I will not be able to serve my appointment on the MH committee as due to budgetary constraints, I will not be able to attend any future ACA conferences.

Hopefully I will see you all again during the educational function in Sept.
