Maria:
I took a look at the offices which had edits (OGC, NE and CESER) and have incorporated their input into this draft without any changes. I think these edits were good, and so I did not complete the matrix. I think this is good to go.

Thanks, -Paul

Paul:

The above mentioned control has cleared CAP. The documents were sent for review to GC, PA, FE, NE, OE and CESER. **GC, NE, and CESER reviewed with edits/comments.**

Please make any necessary revisions on the attached word file. If IA reviews and does not accept comments from any office please provide a comment matrix. The matrix should include the comments made by the program, where the comment can be found in the document (i.e. Page), and justification as to why IA does not want to accept the comment/edits.

Hi Paul

Here is a first cut at my changes. Please have a look to see if there are getting closer to what you're looking for. I haven't sent these to Vitally as they would require translation first.

(b) (5)

Let me know what you think. Maybe we can do a call later once you've had some time with it.

All the best.

Paul: the attachments are a bit messy with the edits, but it allows you to see how we dispositioned the comments. Chris Vogt has led this effort, and Mike and I have now gone over the comments, as well. The attachments are explained by Chris. When Cornelia gets the document pretty and the formatting resolved, I'll send that to you as well.

Jim –

I think we have a version of the Ukraine report that addresses the comments an in-line edits that we've received from all reviewers.

The first attachment (*cv.docx) incorporates all in-line edits received, and includes my comment resolution edits. If Cornelia is willing, this is the file that she should work from. She should check all the edits in the file, and either accept them or edit them as needed. Also, it appears that some formatting (titles, for example) got messed up somewhere.

The second attachment (*CJV_Response.docx) is the file that we received from State Dept (including USAID and Kiev embassy staff) that had all of their edits and comments. I inserted their in-line edits into the first attachment. Their comments remain in the second attachment. For each comment that I resolved, I added the note "OK-CJV" to the comment, and I often added a bit of text to the comment to indicate what I did. All the comment resolutions are in the first attachment (not the second attachment). The purposes of the second attachment are (1) show you all the comments

AMERICAN OVERSIGHT

from State, and (2) show which comments that I believe are resolved (and how resolved). If you go through the comments in the second attachment, you will see a couple comments that I did NOT resolve – I didn't think that they were substantive enough to make a difference.

(b) (5)

Still a lot of work for Cornelia!

Thanks,
Chris V.
