ELECTION ADVISORY **NO. 2019-21**

TO: County Election Officers

FROM: Keith Ingram, Director of Elections 

DATE: October 15, 2019

RE: Texas Certification Procedures for Electronic Pollbooks

In accordance with House Bill 4130 (86th Legislature, 2019) the Texas Secretary of State shall prescribe specific requirements and standards for the certification of an electronic device used to accept voters under Chapter 63 of the Texas Election Code.

To meet this requirement, the Secretary of State has prescribed three separate documents outlining the initial certification process for electronic pollbooks.

- 1. Texas Certification Procedures for Electronic Pollbooks:** This document outlines the application requirements, certification process, and timeline for completion of the initial certification. It also contains information regarding modifications to certified electronic pollbooks and the timeline for the SOS to modify or amend electronic pollbook standards.
- 2. Texas Functional Testing Matrix for Electronic Pollbooks:** This document outlines the functional requirements of the electronic pollbook. This chart will be completed by employee examiners and utilized by the Texas Secretary of State's office in reviewing electronic pollbook functionality.
- 3. Texas Technical Testing Matrix for Electronic Pollbooks:** This document outlines the technical requirements of the electronic pollbook. This chart will be completed by a NIST-certified testing lab for completion of a report that will be provided to the Texas Secretary of State's office for consideration in making a determination on certification of a given electronic pollbook.

4. **Application for Certification:** This document serves as the application for certification. The application, along with accompanying technical documents, must be submitted to the Texas Secretary of State prior to scheduling the in-person functional examination. Details are outlined in the **Texas Certification Procedures for Electronic Pollbooks** document described in number 1 above.

Annual Certification Process

After the completion of the initial round of certifications, the Secretary of State may make modifications to the Technical and Functional Matrices for future electronic pollbook certifications. Any modifications made to the current process will be in place by **June 30, 2020** in order to provide vendors adequate time to ensure compliance with the revised standards.

Please contact us at 1-800-252-VOTE(8683) or at elections@sos.texas.gov if you have any questions.

Texas Certification Procedures for Electronic Pollbooks

In accordance with House Bill 4130 (86th Legislature, 2019), the Secretary of State shall prescribe specific standards and requirements for the certification of an electronic device used to accept voters under Chapter 63 of the Texas Election Code. The process and standards for the certification of these devices is outlined below.

Application Process

A vendor seeking certification of an electronic pollbook system in Texas must submit an Application for Certification with the Secretary of State's Office before the date of the Functional Examination by the Secretary of State's Office will be scheduled. That Application must include:

- A completed Application for Certification
- A Technical Data Package which includes the following documentation:
 - User Operating, Support, and Maintenance Manuals
 - Training Materials and Instruction Guides
 - Recommended Use Procedures
 - Software License Agreement
 - Software System Design
 - Warranty Information
 - Recommended Security Practices
- A list of certifications and denials of certification for the system in other jurisdictions
- A list of any and all known anomalies experienced with the use of the electronic pollbook system and a description of the resolution of each anomaly
- A list of all consumables required for the continued operation of the system, and the supply chain for those consumables
- A list of compatible peripheral devices used with the electronic pollbook system
- A statement regarding any foreign ownership interests in the electronic pollbook system
- A description of additional compatible languages (if any)
- A description of accessibility features (if any)
- Screenshots of all phases of the pollbook process that interact with election workers and/or voters

This application may be submitted in a paper or electronic format to the Secretary of State's Office at the following address:

Elections Division
Secretary of State
P.O. Box 12060
Austin, Texas 78711-2060

Certification Process

The certification process in Texas involves two phases:

- Technical Examination by a NIST-certified testing laboratory
- Functional Examination by the Secretary of State's Office

Technical Examination

The Technical Examination must be performed by a NIST-certified testing laboratory. The vendor must submit a copy of the Technical Data Package (TDP) to the testing lab, and the testing lab must assess the system's requirements with the Texas Technical Testing Matrix for Electronic Pollbooks. The vendor is responsible for any costs and fees associated with conducting these tests.

The vendor will satisfy this portion of the testing by submitting a test report from the testing lab demonstrating that the vendor provided the testing lab with a copy of the TDP and that the electronic pollbook system satisfies the requirements of the Texas Technical Testing Matrix for Electronic Pollbooks.

Functional Examination

The Functional Examination will be conducted by employees of the Secretary of State's Office according to the standards outlined in the Texas Functional Testing Matrix for Electronic Pollbooks.

The vendor will present the electronic pollbook system for an in-person examination, which will take place at the office of the Elections Division of the Secretary of State's Office. The examiners will conduct functional testing of the electronic pollbook system to determine whether that system meets the requirements outlined in the Texas Functional Testing Matrix for Electronic Pollbooks.

Before the date of the Functional Examination, the vendor must provide the Secretary of State's Office with a report from a NIST-certified testing laboratory demonstrating that the electronic pollbook system meets the requirements of the Texas Technical Testing Matrix for Electronic Pollbooks.

After reviewing the Application for Certification, the test report from the NIST-certified testing lab, and the examiner's completed Functional Testing Matrix, the Secretary of State will issue a decision on whether the electronic pollbook system will be certified for use in Texas elections.

The certification of the system is based on the specific configuration of that system that is presented during the Functional and Technical Examinations. If there are multiple potential configurations

that the vendor wishes to use in Texas elections, those must be presented during the examination process. Otherwise, those configurations will not be included in the certification of that system.

Initial Certification Process by January 1, 2020

Vendors who wish to offer their pollbooks to jurisdictions in Texas for elections occurring in 2020 will need to have those systems certified before January 1, 2020.

The Application for Certification (along with all accompanying documentation) must be submitted no later than December 2, 2019. Our office will schedule the in-person Functional Examination of the system as soon as the Application is received, and will be able to offer examination dates as early as October. The vendor will need to submit their system for testing with the testing lab and provide the report from the testing lab to the Secretary of State's Office before the date of the Functional Examination. The in-person Functional Examination will need to occur before December 15, 2019 for the system to receive a January 1, 2020 certification.

Once the examination has taken place, the Secretary of State's office will have 30 days to make a determination on certification. However, all applications submitted by December 2, 2019 will have a certification decision issued by January 1, 2020.

Conditional Certification

The Secretary of State has discretion to issue a conditional certification in the event that an electronic pollbook device is unable to meet certain requirements and standards listed in the Functional and Technical Matrices but is able to nonetheless comply with the requirements of Texas law or those standards by following other procedures. A pollbook device may also be conditionally certified in the event that the electronic device is unable to meet certain requirements on the device itself if the jurisdiction can otherwise meet those requirements by using paper records and documentation that address those requirements.

Acceptance Testing by Local Jurisdictions

Local jurisdictions who acquire a Texas-certified electronic pollbook system will need to complete Acceptance Testing on the newly acquired equipment to ensure that the system meets the functional standards required by the Texas Functional Testing Matrix for Electronic Pollbooks. Local jurisdictions should review the matrix and ensure that the system, as delivered, meets those functional requirements.

Modification Process

Minor modifications to a Texas-certified electronic pollbook system must be submitted to the Secretary of State's Office for administrative review. The request must be submitted in writing to the Secretary of State's Office, and must contain sufficient information to identify the changes to the system's most recently certified version. That request must also contain a statement from a NIST-certified testing laboratory approving the proposed modifications or stating that the proposed modifications do not warrant examination by the testing lab.

Upon receiving the request for review of a minor modification, the Secretary of State's Office has discretion as to whether to review the modification through this administrative process or whether a formal certification process is required for the approval of the modification.

If the request is reviewed through the administrative review process, then the employees of the Secretary of State's Office will determine whether the requested modification requires an in-person examination or whether it is a de minimis change that does not require an in-person examination of the modification. After this review is completed, the Secretary of State's Office will notify the vendor in writing whether the modification is approved or denied.

Recertification Process

Election Code 31.014 requires an electronic pollbook system that is used in Texas elections to be certified annually by the Secretary of State's Office. Accordingly, vendors will need to seek recertification of their system on an annual basis which will become effective on January 1 of the year in which the system will be used.

To seek recertification of a previously certified electronic pollbook system, the vendor will need to submit a new Application for Certification (along with all accompanying documents) by October 1 of the year preceding the year in which the system will be used. The vendor will not be required to submit the system for examination by a NIST-certified testing laboratory unless such testing is specifically requested by the Secretary of State's Office after review of the Application.

The Secretary of State's Office will issue a decision on recertification within 30 days of the receipt of the Application for Certification. The Secretary of State's Office may choose to grant the certification, deny the certification, or require additional in-person examination of the system before recertification may be granted.

A major modification to an electronic pollbook system will require the vendor to complete the full certification process, including the Technical Examination and Functional Examination phases. A major modification to an electronic pollbook system may not be certified through this administrative recertification process. The Secretary of State's Office retains discretion on whether a modification to an electronic pollbook system constitutes a major modification requiring the full certification process.

Modifications to Electronic Pollbook Standards

After the completion of the initial round of certifications, the Secretary of State may make modifications to the Technical and Functional Matrices for future electronic pollbook certifications. Any modifications made to the current process will be in place by **June 30, 2020** in order to provide vendors adequate time to ensure compliance with the revised standards.

OFFICIAL STATEMENT

The 11:56 p.m. Election Night Unofficial Cumulative Report provided results from 176 voting centers. The County Clerk team and Central Count Board are working diligently to get the results reported in a secure and efficient manner. As such, this most recent batch of results will be the last released until all results are tabulated.

We will be working through the early morning to get this done, and appreciate the patience of the media, voters, and candidates while we accomplish this task. As you may know, these changes were prompted by a last minute advisory from the Texas Secretary of State that changed our previously approved Election Night reporting process. Our office is as frustrated as everyone else because of the State's decision. This change requires a more manual process, whereas our previous plan involved transmitting results electronically over a secured encrypted private network, the intranet (as opposed to the internet) which is what we used in the May election.

Our contingency plan involved law enforcement officers picking up results from 10 drop off sites and delivering them to Central Count at our downtown office for tabulation. We had been advised by the County Attorney that our previous plan was legal and complied with election code. We are disappointed that we were not able to use the same system we utilized for the May election, the same system used by my predecessor in the last November election.

In conclusion, we are extremely pleased with the 231,419 voters who chose to cast their ballot on Election Day using the countywide polling system. This number exceeded the amount of Election Day votes in the November 2015 Election. Our office is committed to making voting easier and more convenient.

A handwritten signature in cursive script that reads "Diane Trautman".

Good Morning:

Dr. Trautman and Michael per our phone conversation this morning I have changed the roles in TEAM of Michael Winn and Maureen Fisbeck so that they can now see and enter into ENR for Harris County. I however, was not successful in finding profiles for Teneshia Hudspeth or Hector DeLeon, do they currently have profiles in TEAM? If not, they will need profiles created and I will need their email addresses for that. They will also need to take the TEAM Security Training upon creation of their profiles.

Please let me know how you would like for me to proceed with those two profiles.

Hi Kristi,

I have attended the ENR webinar for Harris County. When I go to login to TEAM, I don't see the ENR option as part of my "activities".

Has this been completed by someone else in our office...maybe I don't have permissions? It does say I am a "Senior" clerk.

I spoke to someone at SoS and they said I should speak with you, however you are currently at a seminar. I'll touch base again on Monday.

Thanks for your help.

OFFICIAL STATEMENT

Due to the [election advisory 2019-23](#), issued by the Texas Secretary of State Wednesday, October 23, 2019 the Harris County Central Count Plan has now changed. The Central Count Plan is established by the County Clerk's Office to outline the process and procedures for reporting results from the Central Count Station. This is required of all Texas county officials conducting elections.

This change, issued during Early Voting, will result in election night returns being delayed due to the process of now needing to bring the physical ballot boxes to the Central Count Station. Previously, the Harris County Clerk's Office had developed a plan that ensured secure election results would be delivered in a timely manner to the public.

A revised plan based off of these changes by the Secretary of State requires staff from the Harris County Clerk and Harris County law enforcement agencies to deliver mobile ballot box cards (MBBs) from each of the 757 Election Day locations to the downtown Central Count Station. The previous plan had included 10 drop off sites across the County to receive these MBBs in order to expedite the election reports.

The Harris County Clerk's Office is anticipating unofficial results will be released by approximately 2 a.m.; however, Early Voting and Mail Ballot returns will be available after the polls close at 7 p.m.

The Office of the Harris County Clerk strives to make elections secure and transparent, but will comply with the Texas Secretary of State's Office for all election related decisions.

Importance: High
Sensitivity: Personal

County Election Officials:

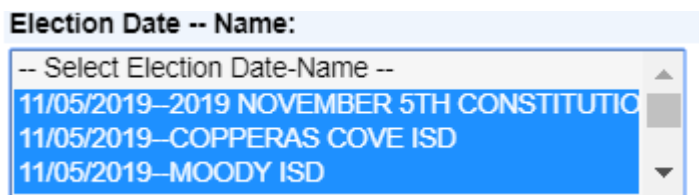

As you all know, we have been working to create a consolidated list of registered voters and ballot styles by date in TEAM. This has been a priority since the implementation of the requirement of separate Election IDs for each election. The consolidated lists, including the **Official List of Registered Voters** and **Ballot Style** report, **are now available** for the November 5, 2019 elections. This should be very useful for Poll Book vendors who are requesting one (1) single CSV file for poll books.

To consolidate the **Official List of Registered Voters**:

- Go to: **Reports > Internal Only Reports > Voter > Official List of Registered Voters**,
- Select **all** elections being held on November 5, 2019 by holding down the “Ctrl” key.
- Generate the list. **Note:** The only available format is CSV.

To consolidate the **Ballot Style Report**:

- Go to: **Reports>Public Reports> Ballot Style Report**:
- Select **all** elections being held on November 5, 2019 by holding down the “Ctrl” key.
- Generate the list. **Note:** The format options are CSV, PDF, or Excel.

The consolidated report will include the **Election ID** for each election (column D for Excel and CSV formats) to help identify each ballot style.

Subject: MASS EMAIL (CC/EA/VR-923) Early Voting Reminders

Sensitivity: Personal

County Election Officials,

Good morning! With the start of early voting, we wanted to send out a few reminders related to the new early voting reporting requirements.

As you know, all early voting rosters must be posted to the SOS website **no later than 11:00 a.m. the following day**. To meet this requirement, we ask that all counties enter/import voting history **by midnight each day**. The rosters will be generated using the submitted voter history in TEAM. There is no need for additional upload or transmission of the daily roster. Additionally, we will populate the early voting turnout information for all 254 counties from the voting history information.

Voting History Submission Reminders:

- All counties have the same Election ID for the **November 5, 2019 Constitutional Amendment Special Election**. It is **VERY IMPORTANT** that you are sending voting history to the correct **Election ID number**.
- For counties also conducting a special legislative election (HD 28, HD 100, HD 148), voting history will also be **required**. Please be sure to use the corresponding Election ID for your respective special elections.
- It is **not necessary** to submit voting history for local elections at this time.
- An **Electronic Poll Book Reporting** mini-manual is available on the TEAM DocShare as a reference entitled **“Voting History”**.
- If your county uses electronic poll books to upload voting history to TEAM, you may access the County Data Website to upload your daily voting history files. As a reminder, your poll book vendor is your primary contact for support.
- Be sure to include an **email address** in each voting history file for submission confirmation. Check the county data website for Error/Reject files. Once you receive the e-mail indicating the file was processed, you can run a Voting History Report to confirm the information was accepted.
- Please confirm that daily voting history files include voter specific information, the correct Election ID, a corresponding Polling Place ID, and the method of voting (AV, EV, ED). Please contact a member of the VR team to assist with any questions and/or concerns during early voting.
- The **naming convention** for daily voting history submissions should include the **county name and date**. Remember, if you have already submitted voting history, please **do not include it in subsequent submissions to avoid duplicating voter history**.

Some counties may not have the technological capabilities to provide their own daily posting. Subject: MASS EMAIL (CC/EA/VR-923) Procedures Related to Website Reporting Requirements

Sensitivity: Personal

County Election Officials,

As you know, our office has been working to implement processes and procedures to ensure that all new reporting requirements outlined in Advisory 2019-19 are in place. Specifically, there are four reports that must be available in a downloadable format on the Secretary of State (SOS) website.

- **County Election Office Information (HB 933)**

County election office/officials information must include officials name, street address, mailing address (if different), city, zip code, email address, telephone number, and fax number. Though much of this information has previously been made available on our website, we have been working with your offices to obtain missing information and to update our website to include the additionally required fields. Please carefully review [this information](#) for your county office. If changes are necessary, please email Beva Kellison at BKellison@sos.texas.gov and we will update as soon as possible. This information should be live on the SOS website beginning **Tuesday, October 8, 2019**.

- **Polling Locations (HB 933)**

A list of polling locations for all county and local elections must be presented on the SOS webpage reflecting the name of the polling location as well as dates and hours of operation for each location. All counties have been working diligently to set up these elections in TEAM independently to produce a unique Election ID for each election. Additionally, you have associated your polling locations with each election for both early voting and election day voting. Our staff has been working with each county to collect the dates and hours of operation for each polling location and that information has been entered and associated with the Polling Place ID in our office. This has been a tremendous project and we greatly appreciate all of your hard work in helping us prepare for this requirement. Please carefully review the [polling locations](#) for your county. If changes are necessary, please contact a member of the VR Team and we will assist you in updating the information in a timely manner. This information should be live on the SOS website beginning **Tuesday, October 8, 2019**.

- **Early Voting Rosters (SB 902/HB 1850)**

Early voting rosters will be generated from TEAM. The available report will include the voter's name and VUID and **must be available by 11:00 a.m.** the following day. Please note that the SOS has opted to only post name and VUID numbers of voters as required under HB 1850. Due to differing requirements in SB 902 and HB 1850, we believe this complies with the legislative intent for both bills. We will be extracting the information for this report as well as populating the early voting statistics page for all 254 counties from the voting history information. **Submission of voting history will be required each day during early voting and the day after election day.** Please refer to the specific requirements of this submission below.

- **Election Day Turnout by Polling Location (SB 902)**

The total number of votes cast by precinct (polling location) on election day must be available **not later than the day after the election day**. Again, we will utilize the voting history process to generate this report.

As you can see, much of the information listed above will be extracted from the daily voter history files provided by your county. Therefore, it is necessary that the voter history be entered/submitted at the conclusion of **each day of early voting** and the **day following election day**. This data will be considered the unofficial early voting and election day turnout data. In order to meet the posting requirement of 11:00 a.m. the following day, we ask that **all voter history be updated/imported by midnight of each day during early voting**. All election day voting history must be **submitted to the SOS by noon on Wednesday, November 6, 2019**.

Reminders:

- All counties have the same Election ID for the **November 5, 2019 Constitutional Amendment Special Election**. It is **VERY IMPORTANT** that you are sending voting history to the correct **Election ID number**.
- For counties also conducting a special legislative election (HD 28, HD 100, HD 148), voting history will also be **required**. Please be sure to use the corresponding Election ID for your respective special elections.
- It is **not necessary** to submit voting history for local elections.
- An **Electronic Poll Book Reporting** mini-manual is available on the TEAM DocShare as a reference. If your county uses electronic poll books to upload voting history to TEAM, you may access the County Data Website to upload your daily voting history files. As a reminder, your poll book vendor is your primary contact for support.
- Be sure to include an **email address** in each voting history file for submission confirmation. Check the county data website for Error/Reject files. Once you receive the e-mail indicating the file was processed, you can run a Voting History Report to confirm the information was accepted.
- Please confirm that daily voting history files include voter specific information, the correct Election ID, a corresponding Polling Place ID, and the method of voting (AV, EV, ED). Please contact a member of the VR team to assist with any questions and/or concerns during early voting. **Note:** We will provide extended hours to assist you during early voting. More information will be provided.
- The **naming convention** for daily voting history submissions should include the **county name and date**. Remember, if you have already submitted voting history, please do not include it in subsequent submissions to avoid duplicating voter history.

Pursuant to Section 18.069 of the Texas Election Code, each county must submit the final/official voting history record to our office **no later than the 30th day after the date of election**. This information must be submitted on or before **Thursday, December 5, 2019**.

Some counties may not have the technological capabilities to provide their own daily posting. For those of you choosing to link to our website for public display of this information in order to meet your statutory web posting requirements, the link is <https://earlyvoting.texas-election.com/Elections/getElectionDetails.do>.

Finally, as a reminder, we will be hosting two webinars **this week** to discuss the reporting requirements in further detail. Additionally, we will review the reporting pages and downloadable document formats. Please join us Tuesday, **October 8, 2019** at 2:00 p.m. **OR** Wednesday, **October 9, 2019** at 10:00 a.m.

Thank you so much for assisting us with the collection of this information and for your work in updating the necessary information in TEAM. We continue to work on future enhancements to this process and to TEAM including an upload functionality for reporting this information in the future. Our intention is to provide

maximum assistance to you as county election officials as well as ensure efficient and highly effective reporting processes. Your feedback is always welcome and encouraged.

We look forward to working with you through our November elections and preparing for the 2020 election season. If we can do anything to assist you or if you have any questions, please do not hesitate to contact our office at (800)252-2216 or at Elections@sos.texas.gov.

Subject: MASS EMAIL (CC/EA-663): Upcoming Election Night Returns (ENR) Training Opportunities

Sensitivity: Personal

County Election Officials,

As you know, we have been working to integrate the Election Night Return (ENR) application into the TEAM system. We are happy to announce that the new ENR module should be available in TEAM next week.

In preparation for our upcoming November 5, 2019 Constitutional Amendment Special Election, we will be providing several training opportunities for county election officials responsible for ENR reporting. Though our overall process will remain consistent with previous years, we will all need to familiarize ourselves with the new layout and reporting requirements.

During the week of September 23rd – 27th, we will ask that all counties designate three ENR contacts and provide all necessary contact information. Counties will also need to provide the number of precincts and polling locations for the November election. Additionally, we will conduct county data entry and submission testing during the week of October 7th – 11th. This will allow you to utilize the new features and reporting capabilities of the new system as well as test the submission process. Specific instructions for each testing phase will be sent prior to the testing windows.

With this in mind, we will break our training sessions into the following two segments:

- Preparing for Election Night Returns (ENR): Part One – County Contacts and Polling Information (September 19 & 20)
- Preparing for Election Night Returns (ENR): Part Two – County Data Entry and Submission (October 1 & 2)

As you can see, we will be providing two opportunities to join us for each topic to accommodate your busy schedules. County election officials responsible for ENR will receive a Webex invitation for these sessions in the next few days. Please “accept” the date and time that you will be joining us. During each session, we will be providing training materials, mini-manuals, and a live walk through of the new system. Training materials will also be provided on our DocShare site following the webinars.

We are very excited about the integration and enhancements of the new TEAM ENR system and we hope you are as well. As always, if you have any questions or if we can assist you in any way, please do not hesitate to contact us at (512)252-8683 or at Elections@sos.texas.gov.

County Election Officials,

Pursuant to Section 68.034 of the Texas Election Code, county election officials must transmit the returns for the November 5, 2019 Constitutional Amendment Election to this office on election night. Although you will be reporting returns via the Internet, we need to populate our database with the names and phone numbers of personnel authorized to report your election returns. Additionally, we need to know the number of voting precincts and polling locations that will be reporting on election night. While we don't anticipate problems, it is imperative you provide accurate contact information so that our office will be able to reach you should an emergency occur.

All county contact and precinct/polling information should be updated in the TEAM system. As a reminder, training presentations, mini-manuals, and quick reference guides are available on the TEAM DocShare site.

When entering the number of precincts and polling locations, please remember to **add an additional location for the reporting of early voting totals**. For example, if you have 63 precincts, you will need to enter 64 into the TEAM system. Likewise, if you have 38 polling location, you will need to enter 39 into the TEAM system.

Last Days of Early Voting for the Joint General and Special Elections

(Houston, TX) – The Harris County Clerk's Office reminds citizens that this is the last week they can cast their votes ahead of the November 5th election. So far, 101,837 people have voted early in Harris County. There are 52 early voting sites across the county that are open from 7 a.m. to 7 p.m. through Friday, November 1st.

"Our goal is to make voting as easy, convenient, and available as possible," said Harris County Clerk Dr. Diane Trautman. "We hope that all eligible citizens exercise their right to vote, through the end of this week or on Election Day."

On Tuesday, November 5th, voters will be able to cast their ballots at any of the 757 voting centers within the county thanks to the Countywide Polling Place Program. Harris County is the largest county in the country to implement this program.

"We are confident that the transition to non-precinct based Election Day polling centers will make voting easier," added Dr. Trautman. "Instead of having to find an assigned polling location, voters can go to a voting center of their choice - near their home, work, school or wherever they may be on Election Day."

Harris County has been working diligently to educate communities about the Countywide Polling Place Program through its *Vote Your Way* campaign, an initiative that reminds citizens that they can vote at the polling location of their choice on Election Day between 7 a.m. and 7 p.m.

For election information and polling locations go to www.HarrisVotes.com. Mobile phone users can now text **VOTE** to **1-833-YES-0700** to find the nearest voting center.

Importance: High
Sensitivity: Personal

Jennifer,

I am working today to assist you all with this information. In looking at the information that must be included in our posting, we will need the following information:

- Polling Location Name (include building name, if needed for distinction)
- Physical Address (including zip code)
- Mailing Address (if different)
- Early Voting, Election Day, or Both
- Dates of Voting
- Hours of Voting

I believe you have most of this information on the spreadsheet. However, I would rather you designate each column appropriately rather than me making a determination. I am hopeful that any information that needs to be added should not take you much time to insert. Also, there are multiple sheets in the file that you sent me. Can you send only one sheet with the information so it eliminates any possibility of confusion or error in the inputting of this data?

If you can have someone update this spreadsheet and send it back to me on Monday that would be great. If you have any questions, please do not hesitate to email or call me.

Hope conditions in and around Harris County are improving and the sun is shining!!!

Good afternoon Kristi,

Thank you so much for assisting our office with this huge mandated process.

Our team received an error message in the edit mode for the polling location. The error message said 'Cannot update this polling location because it was already assigned.'

Please do not to hesitate to call me on my cell if you need anything.

*Thank you,
Jennifer L. Ballard, CERA*

Jennifer,

As we discussed, please send us a spreadsheet with the list of polling locations, addresses, phone numbers, operating hours, and designation of early voting locations and election day locations. I will assist you with entering the information. Once it is entered, I will ask you to proof the information in the TEAM system.

Thank you for reaching out for assistance. I am so very sorry to hear of the flooding in the Harris county area and for your personal loss in the storms. If we can assist you all in any way, please do not hesitate to let me know.

Just wrapping things up on this end for you all. Can you please send me a list of your local elections? Are these polling locations consistent for all local elections?

Jennifer,

I am working today to assist you all with this information. In looking at the information that must be included in our posting, we will need the following information:

- Polling Location Name (include building name, if needed for distinction)
- Physical Address (including zip code)
- Mailing Address (if different)
- Early Voting, Election Day, or Both
- Dates of Voting
- Hours of Voting

I believe you have most of this information on the spreadsheet. However, I would rather you designate each column appropriately rather than me making a determination. I am hopeful that any information that needs to be added should not take you much time to insert. Also, there are multiple sheets in the file that you sent me. Can you send only one sheet with the information so it eliminates any possibility of confusion or error in the inputting of this data?

If you can have someone update this spreadsheet and send it back to me on Monday that would be great. If you have any questions, please do not hesitate to email or call me.

Hope conditions in and around Harris County are improving and the sun is shining!!!

Good afternoon Kristi,

Thank you so much for assisting our office with this huge mandated process.

Our team received an error message in the edit mode for the polling location. The error message said 'Cannot update this polling location because it was already assigned.'

Please do not hesitate to call me on my cell if you need anything.

Jennifer,

As we discussed, please send us a spreadsheet with the list of polling locations, addresses, phone numbers, operating hours, and designation of early voting locations and election day locations. I will assist you with entering the information. Once it is entered, I will ask you to proof the information in the TEAM system.

Thank you for reaching out for assistance. I am so very sorry to hear of the flooding in the Harris county area and for your personal loss in the storms. If we can assist you all in any way, please do not hesitate to let me know.

Jennifer,

As we discussed, please send us a spreadsheet with the list of polling locations, addresses, phone numbers, operating hours, and designation of early voting locations and election day locations. I will assist you with entering the information. Once it is entered, I will ask you to proof the information in the TEAM system.

Thank you for reaching out for assistance. I am so very sorry to hear of the flooding in the Harris county area and for your personal loss in the storms. If we can assist you all in any way, please do not hesitate to let me know.

Michael,

I apologize but I was out of the office yesterday afternoon. I know we spoke briefly on the phone earlier today but I wanted to follow up on this email.

When you and I spoke on the phone yesterday morning, you indicated that Harris County had submitted results for ENR. I confirmed our receipt of your vote totals while we were on the phone. I appreciate all of the work you and your team put in to getting the results in the system.

In regards to any changes or the addition of provisional votes, that can be reported during the canvass report of your official vote totals. The ENR results, or unofficial vote totals, are closed once we receive reporting from all counties. Any additional reporting by counties is made during the reporting of official votes totals following your county canvass.

Again, thanks to you and your team for all of the work. If you have any questions, please do not hesitate to let me know.

Subject: 11:27 am Cumulative Report.

Please know that several attempts were made to input the Constitutional amendment results and SRD 148 Special Election results from the cumulative report produced at 11:27 into TEAM as soon as the reports were received. The attempts were not successful because TEAM would not allow it.

After several attempts to communicate with someone at the SOS to get an answer about the issue, I was informed by Beva Kellison that the totals provided to them from the cumulative report produced at 6:09 am this morning could only be updated in the final canvas.

The difference in the vote totals from the 6:09 am and 11:27 am Harris County Cumulative Reports is only 688 votes. Of those 688 votes, 639 were Provisional.

Usually, the election results provided to the SOS always changed from election night to the date of the final canvas because of the provisional and overseas ballots that arrive post-election day.

Thank you.

I however, was not successful in finding profiles for Teneshia Hudspeth or Hector DeLeon, do they currently have profiles in TEAM? If not, they will need profiles created and I will need their email addresses for that. They will also need to take the TEAM Security Training upon creation of their profiles.

Good morning Kristi,

Our county canvass is scheduled at 2pm on Friday, November 15th. This was the earliest we could get our commissioners together.

Also, this has been planned for 2 months.

I wanted to keep you informed of this time frame since your office is requesting the canvass by noon.

Please let me know if you have any questions.

Respectfully,

County Election Officials,

As a reminder, pursuant to Section 67.007 of the Texas Election Code, the County Clerk/Elections Administrator must certify the county returns as canvassed by the commissioners court and deliver those returns to the Secretary of State **not later than 24 hours after the completion of the canvass**.

Please be advised that Section 203.012 of the Code states that the commissioners court must canvass the returns for the Special Election for Texas House of Representatives District 148 **no later than Friday, November 15, 2019**. Only two members of the commissioners court are required to be present to canvass the returns. The votes from the late ballots and provisional ballots must be included in the official canvass by the court.

The official returns must be reported to our office through the Texas Election Administration Management (TEAM) system. As a reminder, instructional materials, quick reference guides, and training presentations are available on the TEAM DocShare site. Once county returns are submitted, please print, sign, date, affix your county seal, and **upload** your official report to our office through the TEAM system.

Please report official returns no later than noon on Friday, November 15, 2019.

This will help facilitate the canvass by the Governor.

If you have any questions, please contact our office at 1-800-252-8683 or at Elections@sos.texas.gov.

Good morning Kristi,

Our county canvass is scheduled at 2pm on Friday, November 15th. This was the earliest we could get our commissioners together.
Also, this has been planned for 2 months.

I wanted to keep you informed of this time frame since your office is requesting the canvass by noon.

Please let me know if you have any questions.

Respectfully,
Jennifer L. Ballard
Harris County Clerk's Office

County Election Officials,

As a reminder, pursuant to Section 67.007 of the Texas Election Code, the County Clerk/Elections Administrator must certify the county returns as canvassed by the commissioners court and deliver those returns to the Secretary of State **not later than 24 hours after the completion of the canvass.**

Please be advised that Section 203.012 of the Code states that the commissioners court must canvass the returns for the Special Election for Texas House of Representatives District 148 **no later than Friday, November 15, 2019.** Only two members of the commissioners court are required to be present to canvass the returns. The votes from the late ballots and provisional ballots must be included in the official canvass by the court.

The official returns must be reported to our office through the Texas Election Administration Management (TEAM) system. As a reminder, instructional materials, quick reference guides, and training presentations are available on the TEAM DocShare site. Once county returns are submitted, please print, sign, date, affix your county seal, and **upload** your official report to our office through the TEAM system.

Please report official returns no later than noon on Friday, November 15, 2019.
This will help facilitate the canvass by the Governor.

If you have any questions, please contact our office at 1-800-252-8683 or at Elections@sos.texas.gov.

Jennifer,

I am working today to assist you all with this information. In looking at the information that must be included in our posting, we will need the following information:

- Polling Location Name (include building name, if needed for distinction)
- Physical Address (including zip code)
- Mailing Address (if different)
- Early Voting, Election Day, or Both
- Dates of Voting
- Hours of Voting

I believe you have most of this information on the spreadsheet. However, I would rather you designate each column appropriately rather than me making a determination. I am hopeful that any information that needs to be added should not take you much time to insert. Also, there are multiple sheets in the file that you sent me. Can you send only one sheet with the information so it eliminates any possibility of confusion or error in the inputting of this data?

If you can have someone update this spreadsheet and send it back to me on Monday that would be great. If you have any questions, please do not hesitate to email or call me.

Hope conditions in and around Harris County are improving and the sun is shining!!!

Jennifer,

As we discussed, please send us a spreadsheet with the list of polling locations, addresses, phone numbers, operating hours, and designation of early voting locations and election day locations. I will assist you with entering the information. Once it is entered, I will ask you to proof the information in the TEAM system.

Thank you for reaching out for assistance. I am so very sorry to hear of the flooding in the Harris county area and for your personal loss in the storms. If we can assist you all in any way, please do not hesitate to let me know.

Jennifer,

I am working today to assist you all with this information. In looking at the information that must be included in our posting, we will need the following information:

- Polling Location Name (include building name, if needed for distinction)
- Physical Address (including zip code)
- Mailing Address (if different)
- Early Voting, Election Day, or Both
- Dates of Voting
- Hours of Voting

I believe you have most of this information on the spreadsheet. However, I would rather you designate each column appropriately rather than me making a determination. I am hopeful that any information that needs to be added should not take you much time to insert. Also, there are multiple sheets in the file that you sent me. Can you send only one sheet with the information so it eliminates any possibility of confusion or error in the inputting of this data?

If you can have someone update this spreadsheet and send it back to me on Monday that would be great. If you have any questions, please do not hesitate to email or call me.

Hope conditions in and around Harris County are improving and the sun is shining!!!

Thank you! If the Early Voting polling locations are the same as Election Day, no problem. When you associate the polling locations in TEAM, you will use the "Both Tab". Hello Kristi,

In going through the applications for SRD 148, we noticed the title for "Dr. Terah Isaacson" in the "how you want it to appear" on the ballot. In case she inquires, per the code, we will be removing the "Dr" title from her name.

Thanks a bunch!

Melanie,

Thanks for the feedback. We will look into this and put together a report. The location is Tracy Gee center. I did hear that someone did ask for assistance and the DOJ was there I believe while the voter was there. They reported all was fine. I will look into this specific complaint and get back to you.

Hi Michael,

Hope things are going well. I received the following complaint from a voter, Cornelia Amiri, phone number 832-588-1970.

She went to the Tracy Dees Community Center. (I might not have spelled that correctly.) She is a voter with a disability. She walks with a cane and can only stand for limited periods. She informed the workers of this situation immediately. It took some time to get the voting station with the chair. There were issues about the chair being broken (and then apparently it wasn't), it took a while to get the attention of the presiding judge, and along the way, she felt that one of the workers made fun of her (which is obviously unacceptable). Additionally, this location was not all that busy; i.e., it was not as if other voters were ahead of her.

I know you are busy, but anything you can do to follow up with her would be greatly appreciated.

She did get to vote in the end, but felt this should not have been her experience. I agreed that this should not have been her experience. I also told her for her future reference that she might consider requesting curbside voting in future.

We appreciate all that you do!

Hi Maureen:

When we synced the role out to the counties we only gave to the official head of the office. Diane is the only person with this +ENR role. She would need to either let us know who she wants to have that role and we can change them or she can do this herself.

Please do let us know how we need to proceed and if there is anything else we can do for you.

Thank You;

Subject: MASS EMAIL ADVISORY (CC/EA/VR 843) Advisory 2019-12 - House Bill 1421 and Election Security Assessments

Dear County Election Officials:

As you may know, the 86th Texas Legislature passed [HB 1421](#), imposing certain requirements on the Secretary of State ("SOS") and counties as it pertains to election security. We have issued [Advisory 2019-12 - House Bill 1421 and Election Security Assessments](#) to explain the obligations imposed by this legislation.

There are two requirements that we want to draw your attention to:

- 1. Election Security Assessments:** HB 1421 provides that a county election officer must request an assessment of the cybersecurity of the county's election system from a qualified provider if SOS recommends an assessment and the necessary funds are available. Because funds are available and SOS has recommended the assessment, it is required that each county receive one. We want to make this process as streamlined as possible. Keep in mind that no county funds are required for the election security assessments – SOS will pay DIR directly for your county's assessment. If your county has not executed all of the necessary steps to schedule an assessment, please reach out to Gene Moore – AT&T – gm4738@att.com, [214-794-3149](tel:214-794-3149), as soon as possible. Gene will gather the required information, and will be your contact person during the preparation phase of the assessment. Additionally, if you have any questions for DIR, please call [1-855-275-3471](tel:1-855-275-3471) and ask to be connected to a Shared Services Contract Manager or email dirsharedservices@dir.texas.gov. If you have a county purchaser, it might be helpful to engage that person as well since they may be familiar with DIR.
- 2. County Cybersecurity Training:** HB 1421 requires county election officers to request training from the SOS on cybersecurity. The training we are providing is through The SANS Institute and is called "Securing the Human." This is a web-based training course. To sign up for the training,

please complete the form at the provided [link](#), so that we can assign your county users to the training modules. Every individual with TEAM access must complete this training by September 30, 2019. Users who have not completed their security training by this date will lose access to TEAM. If you have any additional questions about obtaining log-in credentials for the training, please contact us at electionsecurity@sos.texas.gov.

We hope this information has been helpful to you and we look forward to assisting you with your training needs. Please let us know if you have any questions or concerns.

Hi Beva,
I apologize for all the confusion. I am now learning that the TAC cybersecurity training is not the same thing that you are requiring for TEAM. I have submitted a request for Teneshia, Hector and myself through the link provided.
Thanks,
Maureen

Subject: MASS EMAIL ADVISORY (CC/EA/VR 843) Advisory 2019-12 - House Bill 1421 and Election Security Assessments

Dear County Election Officials:

As you may know, the 86th Texas Legislature passed [HB 1421](#), imposing certain requirements on the Secretary of State ("SOS") and counties as it pertains to election security. We have issued [Advisory 2019-12 - House Bill 1421 and Election Security Assessments](#) to explain the obligations imposed by this legislation.

There are two requirements that we want to draw your attention to:

1. **Election Security Assessments:** HB 1421 provides that a county election officer must request an assessment of the cybersecurity of the county's election system from a qualified provider if SOS recommends an assessment and the necessary funds are available. Because funds are available and SOS has recommended the assessment, it is required that each county receive

one. We want to make this process as streamlined as possible. Keep in mind that no county funds are required for the election security assessments – SOS will pay DIR directly for your county's assessment. If your county has not executed all of the necessary steps to schedule an assessment, please reach out to Gene Moore – AT&T – gm4738@att.com, [214-794-3149](tel:214-794-3149), as soon as possible. Gene will gather the required information, and will be your contact person during the preparation phase of the assessment. Additionally, if you have any questions for DIR, please call [1-855-275-3471](tel:1-855-275-3471) and ask to be connected to a Shared Services Contract Manager or email dirsharedservices@dir.texas.gov. If you have a county purchaser, it might be helpful to engage that person as well since they may be familiar with DIR.

2. **County Cybersecurity Training:** HB 1421 requires county election officers to request training from the SOS on cybersecurity. The training we are providing is through The SANS Institute and is called "Securing the Human." This is a web-based training course. To sign up for the training, please complete the form at the provided [link](#), so that we can assign your county users to the training modules. Every individual with TEAM access must complete this training by September 30, 2019. Users who have not completed their security training by this date will lose access to TEAM. If you have any additional questions about obtaining log-in credentials for the training, please contact us at electionsecurity@sos.texas.gov.

We hope this information has been helpful to you and we look forward to assisting you with your training needs. Please let us know if you have any questions or concerns.
