EXTERNAL SENDER

Hi,

Please see the attached documents responsive to your October 1, 2020, public records request.

For the attachment on p. 16, please see the attached spreadsheet.

I've also included a redacted copy of the attachment on pp. 69, 124, 125 of the PDF.

The redactions on pp. 66, 70 are to a confidential voter application # that could be used to trace a voter to a ballot.

Please let me know if you need anything else. If not, we will consider this public records request closed.

Thanks and happy holidays.

Pat

Subject: FW: IMb information from MDA
Date: Friday, July 31, 2020 8:27:40 AM

Hi Robert/Ann,

I just got this tidbit passed to me from my business unit and wanted to verify the validity of the highlighted lines? Please realize we currently only wish to use IMB for tracking purposes **only** at this stage in the game.

Regarding the IMB, the USPS technical resource guide specifies routing code as optional, not required. Is that documentation invalid?

My purpose for asking is that our system is old, and currently only supports 5-digit zips, so I need to know whether to continue on this.

James Lell

Subject: IMb information from MDA

Hi James,

I had a nice conversation with a Mail Design Analyst and got some good information about IMb.

First he said what we have meets layout, spacing and size standards. However we need to have the additional four digits on our zip codes.

He says a "courtesy reply" envelope (an envelope that requires postage to return it like our ballot envelope), requires the zip code + 4 both in the address and in the barcode.

For the barcode on the label to the voter you would also need the +4 for mail efficiency. Strongly encouraged but not required.

Additionally he says in the barcode you would also want to have the 2 digit delivery point code.

Zip Code gets you to an area, + four narrows that area to a few blocks, +2 narrows further to a handful of houses. This improves delivery speed and efficiency.

My new good friend Tim from USPS says that the software purchased should be able to do this. Please let me know if you need more information or if this presents a large problem anywhere.

Thank you,

Allison

To: Strange, Amy <amy.strange@ncsbe.gov>; Mallia, Jamie <Jamie.Mallia@ncsbe.gov>
Subject: USPS question - IMb encoding/decoding
Importance: High

Amy/Jamie,
Could you help me get an answer to this question?

I am unsure who the contact person for USPS would be for this question, but I wanted to verify they have no current library to support encoding/decoding, similar to what I find on this page for office: https://postalpro.usps.com/onecodesolution?selection=0?

If they no longer support this and rely on third-party product/vendors, that is fine, but we need to know if we need to purchase that encoding/decoding product.

Thanks,

Per your request Mr. Casallas:

In response to your inquiry concerning the return of certified mail pieces that was properly addressed to the NC Board of Election but returned to the sender in error.

I apologize that we mishandled your mail pieces. I have investigated and verified the delivery attempt was never made by the delivery office. It was determined that the certified mail pieces were inadvertently sent to the Raleigh Processing center to be returned to the sender.

The delivery unit manager is aware of the incident and will ensure that more care and attention is directed to mail that is endorsed for return. The manager has also put measures in place to prevent a recurrence.

Although I cannot undo the frustrations this incident caused, my Consumer Affairs Manager, Michelle Haywood, will be happy to make appropriate reimbursements to the senders. She is aware of the details of this case and can be reached at (336) 668-1376 or synehtia.m.haywood@usps.gov.

Again, I apologize for our failure to provide you the quality service you deserve.

Sincerely,

Burrell Brown

Date: Thursday, August 20, 2020 8:26:24 AM
Attachments: image001.png

Hi Jackie,

Thank you for reaching out through Wake County and letting us know you will now be in the position of Senior Shipping/Mail Solution Specialist.

We have an upcoming web meeting with our counties next Wednesday 8/26 at 10:00, that will include a segment featuring Ann Baker from the USPS/Greensboro. Would you be interesting in joining the webinar to listen to Ann's presentation and hear some of the county questions? I'm copying Jason Schrader who can include you in the webinar if you're interested.

We have recently received MIDs for all 100 counties specific to their absentee send and return process to connect in with our IMb program and our partnership with Ballottrax so that voters may track their absentee ballot from request through return and counties can sign up for informed delivery to manage their resources. We are excited but will definitely have questions along the way.

Best regards,

Allison

Hi Gary and Eva, I hope all is well.

The time is getting close and wanted to touch base. I'm sure Eddie Goldberg let you know he will be retiring within a week and I will be your main point of contact in this department of the USPS. He mentioned you have been working on tracking of the absentee and vote by mail ballots. Has that been implemented or do you need help with anything. I was on the conference call back in April with you and the state, but there were12 people on the call so I just listened. My schedule is flexible if you would like to have a conference call to review your needs.

Ms Baker,

Here is an updated list of absentee requests by county:
https://s3 amazonaws com/dl ncsbe gov/Press/NC%20Absentee%20Ballot%20Requests%20for%202020%20General%20Election/Daily_Absentee_Request_Report_2020Aug20 pdf

There will be an updated file in the same location each day Hope it is helpful

Also, I ve received a number of calls from reporters today about whether the USPS in North Carolina has a policy through which mail carriers/employees may not witness absentee ballots for voters I ve told them all to call the Postal Service because I don t know, but didn t know if you could enlighten me at all about that or put me in touch with someone at USPS who can

Thanks,

Pat

I have provided the template to Allison Blackman, our business expert on Absentees, who is designing the new label template. She is the one working with the USPS group regarding the new envelope and labels for placement (regarding design and standards that you told me about). From the development side, we have proven we can create the IMB in our report documents, so I'm just awaiting the template and label purchase for testing those and sending samples to USPS.

If you wish to coordinate for the county meeting, I'd suggest speaking with Allison Blackman (Allison.blackman@ncsbe.gov) on anything business would like to join in on.

Hey James, thought I would check in on your progress.

We're scheduling a meeting with all the county BOES in about 2 weeks. Just want to go over everything that might affect their process. Seems like info and significance of the IMB should be a part of it.

For that, I'm thinking someone at the state level might want to join in. Your thoughts?

I am cc'ing both Lisa Berot (Project Manager) and Allison Blackman (Absentee Specialist) on this response.

- Is using trackable election mail, both outgoing and return something that the North Carolina State Board of Elections is planning to do?

Yes, the state board of elections is planning to implement IMB with labels that are put on the outbound and inbound absentee mailing envelopes. Samples have already been developed. The querying of these from USPS will be through the third party vendor BallotTrax.

- Have the specifics been worked out concerning the implementation of utilizing the Intelligent Mail barcode on these mail pieces?

I will need to let Allison speak about the specifics of this item.

- If so, will this affect all County Board of Elections in North Carolina?

The software the counties use to print the labels maintained by IT at the state board of elections. All counties will use this process. We in IT are currently putting in all the code changes needed for this.

There is a proposal on the table for us to have a zoom meeting that would include all NC BOE counties; however, we wanted to assess current needs prior to having such a meeting. Thanks in advance for your response.
As I suggested previously, I think Allison would be best to speak on a meeting with the counties.

Subject: RE: [External] Steps to Create Intelligent Mail Barcode

That is correct. Depending on how many mail pieces are being sent at a time you may be able to use the Intelligent Mail Small Business

Tool in the Business Customer Gateway. This tool will only allow the user to send a minimum of 200 standard or 500 First-Class mail pieces and a maximum of 9,999 pieces per mailing. It will generate the barcodes needed and an excel spreadsheet with the updated information to be used in a mail merge document if needed.

Business Customer Gateway - https://gateway.usps.com/eAdmin/view/signin
See screen shot below.

If you do not have access to the Business Customer Gateway, you can create an account. I only see two individuals with access to NCSBE BRM primary Business Reply Mail accounts on the gateway. I do not see a mailing permit for outgoing mail. Those individuals are Veronica Degraffenreid and Ted Fitzgerald.

Let me know if additional assistance is needed.

Yes, we got the font there, but I believe we need to encode the 31 digits of the tracking code plus the routing code into a 65 character string that the barcode font uses. Is that not correct? The encoding part is a separate piece right?

No, I have not received a response. I was about to move forward assuming that I would need to purchase a font encoder for IMb to use with our reports (for labels), as I could not find anything on the USPS that allow a download for it – there is some VB scripting download from 10 years ago, but we would not be able to use that.

If you do have an easy answer, it just helps me move forward.

Hi Jackie and Eddie,

Could you let us know if USPS provides the encoder to use for the 65 character, as explained below?

Thanks,
Amy

From: Lell, James <James.Lell@ncsbe.gov>
Sent: Thursday, June 25, 2020 8:37 PM
To: Strange, Amy <amy.strange@ncsbe.gov>
Subject: RE: [External] Steps to Create Intelligent Mail Barcode

The whole process of creating the IMb is something we do understand from the document and conversations. What we really need to know about is the highlighted portion of step 4 below. I just want to know if USPS provides the encoder to use, or it is something we would have to purchase, as we do not currently have an IMb encoder. If we get that answer, and we need to purchase it, we can start that process. Other than that, internally, we need to settle on the mailer ids (how we wish to manage that process), how the absentee labels need to change to support the IMb, and any other label/file that needs an IMb (e.g. the UOCAVA packet?). Once we can generate the IMb (through the purchase of a third party encoder or provided from USPS) and labels are purchased for testing, we can generate labels with the barcodes to verify with the USPS that they work correctly (meaning they can be read). I hope this helps.

STEP 4: PUT EVERYTHING TOGETHER
Once mailers have selected service(s), received a MID, and devised a unique serial number strategy, they are ready to put the five fields together to form the 20- to 31-digit string, encode it to 65 characters, and convert the 65-character string using the IMb font to form the 65-bar Intelligent Mail barcode as in the example below. On letters, the Intelligent Mail barcode can be placed in the address block or in the barcode clear zone. On flats, it can be placed on the address side at least 1/8 inch from the edge of the piece.

Hi Everyone,

James thanks for your responses.

We are still working out the details and working with the vendor to get all processes in place. Can you tell me a bit more about this proposal for a meeting with the counties?

One of the struggles I've run into as we are trying to implement this process is MDA review. We want to ensure label placement is accurate on our mail pieces. On multiple occasions I have provided samples to MDA and have had them fully approved, however when the printer gets a final review from a different MDA, they have been given edits. Is there a special election mail design analyst we should be speaking with instead of using the general MDA contact email? The MDA team has been very helpful, they just have differing thoughts on premium layout. After making these efforts to implement IMb we certainly don't want it to fail due to poor placement of a label on an envelope. Any guidance you have on this matter would be appreciated as we have a few more envelopes to clear.

Best regards,

Allison

NORTH CAROLINA
STATE BOARD OF ELECTIONS

From: Lell, James
Sent: Friday, July 24, 2020 4:22 PM
To: Baylor Jr, Robert W - Greensboro, NC <Robert.W.Baylor@usps.gov>
Cc: Baker, Ann C - Greensboro, NC <Ann.C.Baker@usps.gov>; Berot, Lisa <Lisa.Berot@ncsbe.gov>; Blackman, Allison <Allison.Blackman@ncsbe.gov>
Subject: RE: [External] Steps to Create Intelligent Mail Barcode

I am cc'ing both Lisa Berot (Project Manager) and Allison Blackman (Absentee Specialist) on this response.

- Is using trackable election mail, both outgoing and return something that the North Carolina State Board of Elections is planning to do?

Yes, the state board of elections is planning to implement IMB with labels that are put on the outbound and inbound absentee mailing envelopes. Samples have already been developed. The querying of these from USPS will be through the third party vendor BallotTrax.

- Have the specifics been worked out concerning the implementation of utilizing the Intelligent Mail barcode on these mail pieces?

I will need to let Allison speak about the specifics of this item.

- If so, will this affect all County Board of Elections in North Carolina?

The software the counties use to print the labels maintained by IT at the state board of elections. All counties will use this process. We in IT are currently putting in all the code changes needed for this.

There is a proposal on the table for us to have a zoom meeting that would include all NC BOE counties; however, we wanted to assess current needs prior to having such a meeting. Thanks in advance for your response.

As I suggested previously, I think Allison would be best to speak on a meeting with the counties.

Subject: RE: [External] Steps to Create Intelligent Mail Barcode

That is correct. Depending on how many mail pieces are being sent at a time you may be able to use the Intelligent Mail Small Business Tool in the Business Customer Gateway. This tool will only allow the user to send a minimum of 200 standard or 500 First-Class mail pieces and a maximum of 9,999 pieces per mailing. It will generate the barcodes needed and an excel spreadsheet with the updated information to be used in a mail merge document if needed.

Business Customer Gateway - https://gateway.usps.com/eAdmin/view/signin
See screen shot below.

If you do not have access to the Business Customer Gateway, you can create an account. I only see two individuals with access to NCSBE BRM primary Business Reply Mail accounts on the gateway. I do not see a mailing permit for outgoing mail. Those individuals are Veronica Degraffenreid and Ted Fitzgerald.

Let me know if additional assistance is needed.

Yes, we got the font there, but I believe we need to encode the 31 digits of the tracking code plus the routing code into a 65 character string that the barcode font uses. Is that not correct? The encoding part is a separate piece right?

No, I have not received a response. I was about to move forward assuming that I would need to purchase a font encoder for IMb to use with our reports (for labels), as I could not find anything on the USPS that allow a download for it – there is some VB scripting download from 10 years ago, but we would not be able to use that.

If you do have an easy answer, it just helps me move forward.

Sent: Thursday, June 25, 2020 8:37 PM

To: Strange, Amy <amy.strange@ncsbe.gov>
Subject: RE: [External] Steps to Create Intelligent Mail Barcode

The whole process of creating the IMb is something we do understand from the document and conversations. What we really need to know about is the highlighted portion of step 4 below. I just want to know if USPS provides the encoder to use, or it is something we would have to purchase, as we do not currently have an IMb encoder. If we get that answer, and we need to purchase it, we can start that process. Other than that, internally, we need to settle on the mailer ids (how we wish to manage that process), how the absentee labels need to change to support the IMb, and any other label/file that needs an IMb (e.g. the UOCAVA packet?). Once we can generate the IMb (through the purchase of a third party encoder or provided from USPS) and labels are purchased for testing, we can generate labels with the barcodes to verify with the USPS that they work correctly (meaning they can be read). I hope this helps.

STEP 4: PUT EVERYTHING TOGETHER
Once mailers have selected service(s), received a MID, and devised a unique serial number strategy, they are ready to put the five fields together to form the 20- to 31-digit string, encode it to 65 characters, and convert the 65-character string using the IMb font to form the 65-bar Intelligent Mail barcode as in the example below. On letters, the Intelligent Mail barcode can be placed in the address block or in the barcode clear zone. On flats, it can be placed on the address side at least 1/8 inch from the edge of the piece.

Good morning Alison,

I apologize for the delay as I was out of the office on Friday.

After reviewing the files attached, I can say we are almost there but both envelopes still need two periods in the indicia. U.S. Postage Paid.

The return envelope still needs a space or lines in the upper left corner for the voter's return address.

Please "REPLY" to this email without changing the subject line to email me directly.

Hi Allison,

In the banner your piece says "Official Election Balloting Material-VIA First Class Mail" It must say "**Official Election Balloting Material-First-Class Mail**". *No Postage Necessary in the U.S. Mail—DMM 703.8.0* is correct on your envelope. Just the banner needs to be changed.

U.S. Postage Paid, 39 USC 3406 and it says that. Is it the periods in US and the comma after paid that you need? U.S. Postage Paid is on line one. 39 USC 3406 is on line 2. There are only 2 lines in the indicia. No comma after Paid.

I have attached a FIM C for your use.

Please "REPLY" to this email without changing the subject line to email me directly.

On 8/13/2020 3:15 PM, Blackman, Allison wrote:

CAUTION: This email originated from outside USPS. **STOP and CONSIDER** before responding, clicking on links, or opening attachments.

Hi Kim,

I'm trying to break this down so that I understand.

It looks like I need to invert two of the lines and make some language edits. I'm not sure what is meant by citing DMM 703.8.0 as that's what is in the sample sent. I'm also unsure what the issue is with the stamp area as it says what is indicated in the 8.2.5 paragraph.

8.2.5 Envelope

The envelope used to send balloting material and the envelope supplied for return of the ballots must have printed across the face the words "Official Absentee Balloting Material—First-Class Mail" (or similar language required by state law) in a rectangular box. Immediately below, the words "No Postage Necessary in the U.S. Mail—DMM 703.8.0" must be printed. Envelopes previously approved with the citation "DMM E080" must not be rejected. In the upper right corner of the envelope, in a rectangular box, the words "U.S. Postage Paid, 39 USC 3406" must be printed. An appropriate inscription or blank spaces for the return address of the sender must be shown in the upper left corner (see Exhibit 8.2.5).

Your notes say that it needs to say the following:
"U.S. Postage Paid, 39 USC 3406 and it says that. Is it the periods in US and the comma after paid that you need?

Both pieces have a FIM A however, they should either have a FIM B or C, depending on the barcode:

1.5.8 Facing Identification Mark (FIM)

A FIM must be printed on all letter-size BRM and on business reply labels affixed to letter-size mail (see 1.4.9d).

***FIM B** must be used with BRM without a barcode.*
***FIM C** must be used with any BRM printed with a barcode. The FIM must meet the physical standards in 202.8.0 .*

We are using intelligent mail barcodes on both pieces. The piece sizes are:

5 x 11 ½ . outgoing
1/2 x 10 3/8. Incoming

The barcodes are on 1 x 4 labels. They look like this (outgoing and incoming sample)

Which FIM do I need?

Would it be FIM C?

Where would I find one?

Thank you,

Allison

Hi Allison,

I have reviewed the attached mailpieces.

Both Military pieces need the following adjustments according to the DMM:

8.2.5 Envelope

The envelope used to send balloting material and the envelope supplied for return of the ballots must have printed across the face the words “Official Absentee Balloting Material—First-Class Mail” (or similar language required by state law) in a rectangular box. Immediately below, the words “No Postage Necessary in the U.S. Mail—DMM 703.8.0” must be printed. Envelopes previously approved with the citation “DMM E080” must not be rejected. In the upper right corner of the envelope, in a rectangular box, the words “U.S. Postage Paid, 39 USC 3406” must be printed. An appropriate inscription or blank spaces for the return address of the sender must be shown in the upper left corner (see Exhibit 8.2.5).

Please see exhibit 8.2.5.
*The indicia must say U.S. Postage Paid on line and 39 USC 3406 on line 2.
*Please remove "VIA" from the banner and put a hyphen between First-Class.

Both pieces have a FIM A however, they should either have a FIM B or C, depending on the barcode:

1.5.8 Facing Identification Mark (FIM)

A FIM must be printed on all letter-size BRM and on business reply labels affixed to letter-size mail (see 1.4.9d).

FIM B must be used with BRM without a barcode.

FIM C must be used with any BRM printed with a barcode. The FIM must meet the physical standards in 202.8.0 .

The return envelope will need space or lines for the return address in the upper left corner.

Please "REPLY" to this email without changing the subject line to email me directly.

CAUTION: This email originated from outside USPS. **STOP and CONSIDER** before responding, clicking on links, or opening attachments.

Thank you for the feedback. Can you review these updates?

First our **outgoing** UOCAVA (military or overseas voter) envelope – front only. We use this envelope to send the ballot to military voters away from home (may be in US) or to overseas citizens if they have requested to receive their ballot in the mail. This envelope is 5 x 11 ½ . It will have a 1x4 label with the voter's address and intelligent mail barcode in the area that shows as a dotted line on the front.

Second is the **incoming** ballot envelope with the affirmation on the back. It is 4 1/2 x 10 3/8. It will have intelligent mail barcode on the 1 x 4 label shown as an outline on the front of the envelope.

Let me know if these updates meet requirements.

Thank you,

Allison

Hi Alison,

You mentioned *the FIM B is without a preprinted barcode*. I'm not sure I understand what you mean. We will have a label with IMb on the envelopes. I apologize as I did not see that a label with an IMb would be applied.

The next question was about the placement of the return address in relation to the shield: *The return address needs to be in the upper left corner. The shield must be shifted down below the return address.* Do you mean the shield just needs to go lower on the page? Or

does the return address need to be moved over to go directly above the shield. The return address must be in the upper left corner. To keep the shield, it would need to be shifted down, below the return address. The shield is in the place where the return address should be.

Per the DMM:

8.2.5 Envelope

The envelope used to send balloting material and the envelope supplied for return of the ballots must have printed across the face the words "Official Absentee Balloting Material—First-Class Mail" (or similar language required by state law) in a rectangular box. Immediately below, the words "No Postage Necessary in the U.S. Mail—DMM 703.8.0" must be printed. Envelopes previously approved with the citation "DMM E080" must not be rejected. In the upper right corner of the envelope, in a rectangular box, the words "U.S. Postage Paid, 39 USC 3406" must be printed. **An appropriate inscription or blank spaces for the return address of the sender must be shown in the upper left corner** (see Exhibit 8.2.5).

Recently Christopher created the following envelope for Ohio which was approved through MDA and the seal was to the left of the return address but it is slightly lower in placement than the ones we sent. Would just shifting the shield down correct the issue with our envelopes? This mailpiece appears to be domestic so the same would not apply to the Military pieces attached.

Please "REPLY" to this email without changing the subject line to email me directly.

Yes I'll be sending back through once or designer makes updates.

I have another question. Can we place the county's mailing address as the address in the upper right hand corner on the return (just to ensure if something happens to the label it gets back to the county)? It's been recommended by Center for Civic Design and was approved on our Civilian Absentee return envelopes. I would like to be consistent but wanted to see if with this type of mail it would pose any problems.

Thank you,

Allison

You're welcome Allison.

A FIM A is used with a preprinted barcode. FIM B is without a preprinted barcode.
Will you be sending the adjusted samples in for review as well?

Thank you.

I may have follow up questions, but we have no choice but to include the address on the back of the mail piece. I've sent our absentee envelope for civilian ballots through and no one mentioned this. The good part is that the address on the back does not have an IMb, it's just a label with the voter's address as part of their affirmation and the barcode is not an IMb, it's a standard barcode with information imbedded for checking in the ballot. We have to use that information to check in the ballot. We never even open the envelope if the ballot isn't accepted and for that reason the application must be on the outside of the envelope and not inside the envelope.

What is the difference between FIM A and FIM B?

Thanks for your thorough review. This is very helpful.

Allison

Good afternoon Allison,

I won't be able to review the return address on either mailpiece but I have reviewed the rest of the placements.

After my review, here are my findings:

*The return address needs to be in the upper left corner. The shield must be shifted down below the return address.

*The OEM logo is the correct size however, I would recommend shifting it up and centered.

*The FIM A is incorrect. It should be a FIM B.

*The indicia content is correct but there should be two lines. Please review Exhibit 8.2.5

*The "official absentee..." should be under the logo and enclosed in a box and directly under the OEM logo as indicated in the DMM:

8.2.5 Envelope

The envelope used to send balloting material and the envelope supplied for return of the ballots must have printed across the face the words **"Official Absentee Balloting Material—First-Class Mail" (or similar language required by state law) in a rectangular box**. Immediately below, the words "No Postage Necessary in the U.S. Mail—DMM 703.8.0" must be printed. Envelopes previously approved with the citation "DMM E080" must not be rejected. In the upper right corner of the envelope, in a rectangular box,

the words “U.S. Postage Paid, 39 USC 3406” must be printed. An appropriate inscription or blank spaces for the return address of the sender must be shown in the upper left corner (see Exhibit 8.2.5).

Due to the possibility of mailpieces being fed backwards into the automation equipment, it is **STRONGLY** recommended that an address or Intelligent Mail barcode (IMb) is not placed on the back of the mailpiece unless it is the same address and IMb that is on the front of the mailpiece.

Our Facer Canceler machines view both sides of a mailpiece and determine which side of the piece is MOST likely to be the address side on a point and confidence system. If the Facer finds more confidence points on the back side of the mailpiece, it could use that address and/or IMb to sort the piece. Because of this, we STRONGLY suggest that when designing a reply mailpiece, customers should avoid printing the voter’s address and/or IMb on the back side as the machines may interpret them as the delivery address.

Please “REPLY” to this email without changing the subject line to email me directly.

Ann,
We have an informational meeting with all County Directors and some staff every two weeks and would be glad to have you share information with them in that forum. I can set up a meeting if you would like to discuss with our group via Teams or on the phone. Our upcoming dates for 'The Huddle - Election Information Meeting' are August 12 & August 26.
Thanks,
Jason

Hello Allison,
I called earlier and left you a voicemail.

I was able to scan the barcode and the information looks correct but it failed on my ERM 3 because of variations in the bars within the barcode. I think it is just from the format they went in when put in the pdf as I still could not reproduce the image the way I believe it was originally produced.

Maybe if you scanned the image as it is currently printed on the paper you have and then sent as a pdf attachment I would get a better result.

Thanks, Tim

Hi Tim,

This is just a page of labels.

We do not have printed version of the envelopes. The top two of every four labels will go on mailing envelopes.

Attached are the envelope samples as well.

Top label left label goes on a 9x12
Top right label goes on the front of our absentee return envelope that is 11.38 x 6

Is there anything you can tell from receiving these documents online vs seeing printed versions?

Thank you,

Allison

Good Morning Allison,
I would be happy to scan these for you but I can't when they are in the body of the email.

Any chance you could send them as a pdf?

Thanks, Tim

Hi Tim,

Could you scan these to see if the IMbs are working? Unfortunately I don't have a pdf to send. I've taken a printed version to my local post office and they can't test it.

Thank you,

Allison

Hi Tim,

This is just a page of labels.

We do not have printed version of the envelopes. The top two of every four labels will go on mailing envelopes.

Attached are the envelope samples as well.

Top label left label goes on a 9x12
Top right label goes on the front of our absentee return envelope that is 11.38 x 6

Is there anything you can tell from receiving these documents online vs seeing printed versions?

Thank you,

Allison

I'm just making sure the font and spacing on the label is appropriate for readability by your machines. I'm not sure the best way to test this. I've gotten approval on the two envelopes (absentee by mail send and return) with the placement of the IMbs outlined. I just haven't gotten approval of the label/IMb layout itself.

Now I just need to make sure the IMbs themselves will work. No reason to believe they won't, as we've been following guidelines, but I do want to double check.

Thank you,

Hello Allison,
I called earlier and left you a voicemail.

I was able to scan the barcode and the information looks correct but it failed on my ERM 3 because of variations in the bars within the barcode. I think it is just from the format they went in when put in the pdf as I still could not reproduce the image the way I believe it was originally produced.

Maybe if you scanned the image as it is currently printed on the paper you have and then sent as a pdf attachment I would get a better result.

I am working on setting up the meeting for next week and have a few questions. Do you currently use Microsoft Teams or if not are you able to download the Microsoft Teams app in order to present next week? Are you available on Monday afternoon (let me know the best time) for a practice session. This would only take 30 minutes or less. Just a chance for all presenters to see if they can login and get technical issues worked out.
Thanks,
Jason

Hello Jason,

Thank you for allowing us to attend your upcoming meeting Wednesday, August 12, 2020. I cover fifty five(55) of the counties in North Carolina and the remaining counties are handled by the Mid-

Carolinas District. I have included the Political Mail Coordinators on this email so you can include them on the meeting invite as well. Let me know if you need any additional information.

Thank you,

Ann,
We have an informational meeting with all County Directors and some staff every two weeks and would be glad to have you share information with them in that forum. I can set up a meeting if you would like to discuss with our group via Teams or on the phone. Our upcoming dates for 'The Huddle - Election Information Meeting' are August 12 & August 26.
Thanks,
Jason

Hi Ann and Jason,

I'm emailing you both so that we can coordinate an open dialogue with the counties with USPS. Ann is our contact with Greensboro USPS and is helping us navigate all of our vote by mail processes. Jason is a Specialist on our Training Team and coordinates our online meetings with all of the counties.

@Baker, Ann C - Greensboro, NC I believe Jason may have some questions for you.

@Schrader, Jason Here is Ann's contact information.

Ms. Baker,
Our election information meeting (The Huddle) will be next Wednesday 8/26 at 10:00. We will have other content as part of the meeting as well. As we get a bit closer I can try to give you a more exact time that we expect your segment to start if that would be helpful. I generally plan to have a practice session on Friday afternoon or sometime on Monday for presenters just to test our audio and sharing your screen for the presentation. Which day would work best for you and your team?
Thanks,
Jason

Ann,
Thank you for your willingness to share this information with our county directors and staff on 8/26. I am including Allison on this email so that we can coordinate with you and the others what type of presentation and information that you have to share with us. Will you have a PowerPoint or other materials that you will need to share? How much time will you need for your presentation? Will you also be able to take questions from the attendees?
Thanks,
Jason

Ann,
We have an informational meeting with all County Directors and some staff every two weeks and would be glad to have you share information with them in that forum. I can set up a meeting if you would like to discuss with our group via Teams or on the phone. Our upcoming dates for 'The Huddle - Election Information Meeting' are August 12 & August 26.

Thanks,
Jason

Subject: USPS and county meeting

Hi Ann and Jason,

I'm emailing you both so that we can coordinate an open dialogue with the counties with USPS. Ann is our contact with Greensboro USPS and is helping us navigate all of our vote by mail processes. Jason is a Specialist on our Training Team and coordinates our online meetings with all of the counties.

@Baker, Ann C - Greensboro, NC I believe Jason may have some questions for you.

@Schrader, Jason Here is Ann's contact information.

Ann Baker
Greensboro District BME Manager
ann.c.baker@usps.gov
☏336-668-1250 | 🖷651-306-6086

Thank you both for helping get this set up.

Allison

Hi Jason,

I have recently been advised that I can't send out the PowerPoint without prior approval from HQ. I will ask the Area Coordinator if this will be allowed. We will be on this afternoons meeting and hopefully it will work.

Thanks so much for your willingness to share this information with our counties today! I could tell how much they all appreciate you by the comments.
I wanted to give you a chance to answer the two questions below for our official Q&A document that we share after the session. Also any additional information that you would like for me to share. Are you able to share the PowerPoint? If not that is fine, they can view the recording of the presentation.
How long does it take for the 191 tags to be delivered if ordered from the website.

I have received some 191 tags but it has a date of July 2007. Will I be able to use these?
Thanks,
Jason

Thanks so much for your willingness to share this information with our counties today! I could tell how much they all appreciate you by the comments.
I wanted to give you a chance to answer the two questions below for our official Q&A document that we share after the session. Also any additional information that you would like for me to share. Are you able to share the PowerPoint? If not that is fine, they can view the recording of the presentation.
How long does it take for the 191 tags to be delivered if ordered from the website.

I have received some 191 tags but it has a date of July 2007. Will I be able to use these?
Thanks,
Jason

Hi Jamelle,

We have a lot of absentee data that can be found on our public absentee data page.

https://www.ncsbe.gov/results-data/absentee-data

Hope this helps.

Thank you,

Allison

Good Afternoon Jason,

I hope all is well.

Do you have a report that will tell us how many ballots requests were made per county. One of my counterparts receives this for his state.

Good afternoon Jason,

Sorry for the late response! Unfortunately, we are unable to send the presentation. In regards to the tags, I believe Mrs. Whitney stated that the labels would take about 2 weeks to be delivered. We have not updated the dates on the Green Tag 191 since 2007, but they are valid and can be used.

Thank you again for allowing us to participate in your Huddle and we would be glad to participate in any other upcoming meetings that you may have.

Sincerely,

Ann Baker

Hi Ann,

We have heard concerns about the outgoing barcodes.

We do not have the ability to create a +4 and +2 on the voter's addresses.

On the return we have the +4 but again our system will not allow the additional +2.

From talks with MDA, it has been my understanding that they can still be scanned and with the +5 can move through the mail stream with the +5 level of sorting and then the regular process gets them to their final destination. The IMb themselves will allow us to track in the partner system Ballottrax that those outgoing and incoming envelopes are in the mail stream. If I have a misunderstanding of the mail process then definitely please help me to understand. I'm new at this.

Thanks for all your help and communication.

Best regards,

Allison

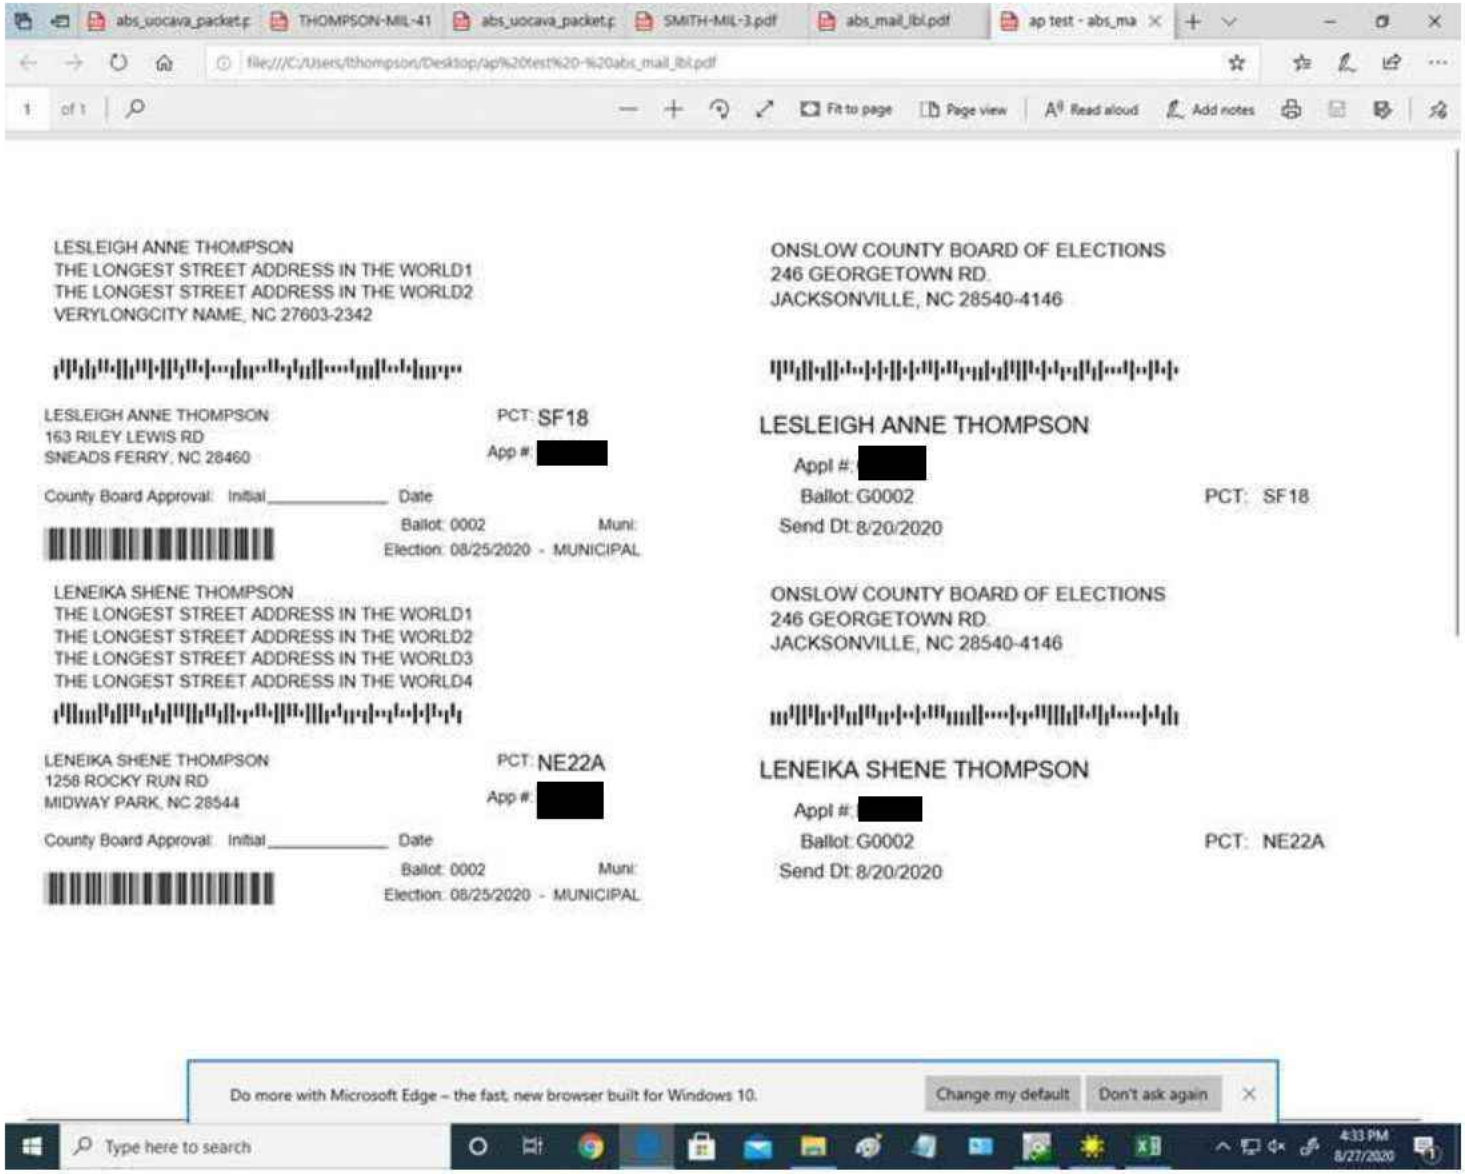
Subject: USPS and county meeting
Date: Friday, August 7, 2020 9:28:25 AM

Hi Ann and Jason,

I'm emailing you both so that we can coordinate an open dialogue with the counties with USPS. Ann is our contact with Greensboro USPS and is helping us navigate all of our vote by mail processes. Jason is a Specialist on our Training Team and coordinates our online meetings with all of the counties.

@Baker, Ann C - Greensboro, NC I believe Jason may have some questions for you.

@Schrader, Jason Here is Ann's contact information.



Ann Baker
Greensboro District BME Manager
ann.c.baker@usps.gov
☏336-668-1250 | 🖷651-306-6086

Thank you both for helping get this set up.

Allison
