Subject: Election

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this

AMERICAN OVERSIGHT

isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. "Rosco" Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens. I will continue to email you on this issue and get others to do so as well until you are out of office or till the elections are not corrupt.

Regards,
Roberson

You, *along with many others, are directly responsible for the deaths and destruction that took place on January* 6th. While this may not have been your original intention, your actions did, in fact, help to fuel the fire that lead to these events. Shame on you. Shame on your actions, shame on your denials, shame on you for what you have done to our democracy. It is time for you to go home, remove yourself from any kind of leadership role so that we can start to heal.

Here's an aerial photograph of Trump rally on January 6, 2020--approximately 1 MILLION strong.

These are the proud Americans the GOP has attacked for crimes committed by ANTIFA and Black Lives Matter this week.

Do YOU think THESE patriotic Americans will want to donate our hard-earned money to GOP candidates in the next 90 days?? In the next 6 months??
In the next 12 months?? In the next 2 years??

The GOP needs to deliver heart-felt apologies to Trump supporters for confusing them with violent psychopaths in Antifa & BLM
who rioted on Jan. 6 & stabbed a Trump woman between the eyes with a sharp weapon on Jan 5, trying to gouge her eye out the night before the rally.
You accused the WRONG people for crimes JOE BIDEN's SUPPORTERS have done to us.

Joe Biden must be IMPEACHED for violence committed by his supporters to stop the peaceful transition of power, also for pay to play corruption with China & Ukraine, China's interference in the 2020 elections; conspiracy to commit election fraud. And his threat to withhold $1 BILLION in foreign aid from Ukraine unless Kiev fired their Attorney General to stop the criminal investigation of Burisma.

Those are JOE BIDEN"S Crimes Against America. We the People will remove him from power by impeachment.

Mr. Finchem, I urge you to take action against the malicious and deceptive attacks against our American Constitution and free elections. The attacks on our nation's capitol must be harshly condemned and those complicit in those actions must be held to account. James Madison argued in Federalist Paper #55 that "as there is a degree of depravity in mankind which requires a certain degree of circumspection and distrust, so there are other qualities in human nature which justify a certain portion of esteem and confidence. Republican government presupposes the existence of these qualities in a higher degree than any other form." Our Constitution represents an imperfect agreement that relies upon the qualities in human nature which justify a certain portion of esteem and confidence that make our grand experiment in democracy so potent as a force for freedom from oppression while allowing for strong dissenting voices. What happened yesterday is the most dramatic strike at our nation's institutions that are larger than any one person's cult of personality. I urge you to take action to protect our rights as citizens of the State of Arizona and of our larger nation by urging the lawmakers and executive branch to investigate violations of our State election laws and to urge prosecution of laws that were broken. I further urge you to take the voices of your Arizona constituents (whether they voted for you or not), and reinforce the qualities that strengthen trust, confidence and truth as a basic expectation and a moral imperative for the safety of our democratic republic.

Subject: The March to Save America
Attachments: untitled-[2]

My friend in Utah sent this to me.

This is from my former classmate who attended the DC March to Save America:

Washington D.C., 06 Jan. 2021 Journal

07:15: Left Alexandria on the Metro, arriving Federal Triangle around 08:00. Made our way on foot to the Washington Monument, following the huge crowds streaming
in that direction, filling the streets and sidewalks, with the city streets empty of vehicles
except police units and other barriers to use other than pedestrian.
Around 08:45, merged with wall-to-wall Trumpsters, all waving banners, flags, signs, smiling,
chanting, and generally having a great, peaceful and convivial time on the grass East of the
Monument. The area between the Monument and the Ellipse including all grass and paved areas
was shoulder-to-shoulder "rioters", listening to songs over the P.A., the entire Trump family live
giving speeches (even though we could only see them on the Jumbotron), and assorted "characters",
including NYC's famous "Naked Cowboy" in his skivvies and cowboy hat in 40 degree, 15-knot
windy weather. The Epoch Times was well represented. It was refreshing to see so many YOUNG
people around college age acting for Trump.

We were getting really cold from the whipping wind off the Potomac, so around 11:00 pushed our
way out of the packed Monument area and headed up Constitution toward the Capitol. By this time,
we were quite cognizant of the paucity of portable toilets- Muriel Bowser had made certain that
out-of-town guests in large numbers would be uncomfortable. As we approached the Capitol, we
learned of some "facilities" available on 3rd St. which had a very long line. Without an alternative,
we stood in line 45 minutes, striking up conversations with like-minded individuals. One interesting
such occurred with a Shanghai Chinese gentleman, born to a well-off family

AMERICAN OVERSIGHT

, who fell afoul of the
infamous "Great Leap Forward". He and family spent 14 years in a labor camp, losing family members
and fortunes in the process. He was able to escape to the U.S. with $40 in his pockets, and became a
strong conservative voice in California's Bay area, an elected School Board member, and now a middle-
aged Trump supporter. (I've deleted many details of his amazing story here.)

By now it was approaching 13:00, and we were among the early arrivals at the Capitol's defensive perimeter,
which consisted of temporary moveable barriers and plastic snow-fence on metal poles driven into the grass-
covered West lawn. We didn't visit the Capitol East. The long line of motorcycle and police car-escorted
Congress members in black Chevy Tahoes was arriving to much siren fanfare. By a little after 13:00, the
crowd had arrived from the Washington Monument rally and within a few minutes the first breach was made.
With bullhorns shouting "It's YOUR house, come on in", siren sound effects and marching drumbeat effects,
the crowd, still peaceful, entered the West lawn area, extending into the temporary bleachers set up (apparently)
for an inauguration, then eventually occupying the 1st level balcony of the Senate balconies, the camera/broadcast 4-story platform (on which a giant "TRUMP 2020" flag was secured), and the approach walkways North and South, as well as most of the grassy area.
Those of us not breaching the barriers still covered the paved area between Pennsylvania and Independence Avenues, around the reflecting pool, and both sides of the Capitol.

There didn't appear to be much police resistance to the breach of their weak "perimeter"until all available space
inside the original boundary was occupied when reinforcements then arrived. We heard many flash-bangs and saw many clouds of apparent tear gas or pepper spray being used, but couldn't be certain who deployed them. Crowd rumor said that protesters had large water "squirt-guns" loaded with pepper spray.
Around 15:00, we heard about the 18:00 curfew enacted by Bowser, and since the crowd had started to thin, decided that before the Metro became too crowded we'd head back to Alexandria. The closest station to us was Capitol South, but it was closed due to a bomb threat, so we were directed to Federal Center, several blocks away.

As we left, the AR-15-toting police (National Guard?) were arriving in droves, with their magazines inserted, ballistic armor, hard helmets and face shields donned, and serious attitudes toward us "peaceful" Trump flag-and-sign bearing citizens.

The Metro ride back to Alexandria was much more lively than the earlier one. Now the cars were packed with Trumpsters, all recounting their experiences, including some very entertaining stories from some. Having

AMERICAN OVERSIGHT

been on our feet with no relief for 8 hours, and having shivered in the wind and walked from the Monument to Capitol plus 2 Metrostation searches, , the Metro seats felt absolutely luxurious!

Reflections:
This excursion brought home with force the biases, lies, sensationalism, double-standards, and uselessness of the Lame-stream media which now unfortunately, includes Fox News. (except for a couple of select anchors/commentators). We do not need to be lectured about "criminal behavior", "riotous acts", "sedition", "insurrection", "mobs" or "unhinged" behavior by the likes of Fox News, any Cuomo brother, any R.I.N.O. such as Turtle McConnell, or any Dumbascrap. Nor do we need any conspicuously-silent R.I.N.O like little M. Rubio saying our march was "anti-American anarchy". BTW-where is our Rick Scott in all this? Another conspicuously silent "Republican". Today's "outrage" was sorely absent during last Summer, when left-wing Sleepy One voters were truly rioting, burning, looting, murdering, and destroying public and private property in several major U.S. cities. Where was the outrage then?

To hear the LSM (Lamestream Media) say that President Trump "incited" our march is revolting and disgusting. Any American with 2 brain cells to rub together knows that The Sleepy One had the November election stolen from Donald Trump, not only by Big Tech, but by RINO Governors, weak-minded state legislatures (RINOs), and the Deep State Establishment. To resist such outright theft is conspiratorial?-I think not!

Good Morning Mr. Cooper,

Response from Representative Mark Finchem:

Representative Finchem was not a part of the crowd, in fact he was observing from the far end of the Capitol plaza from near the Supreme Court.
"What happened at the nation's Capital was not helpful in the protest of electoral college electors"

Representative Finchem was invited to speak at an organized event to be held on the Capitol steps with a few members of

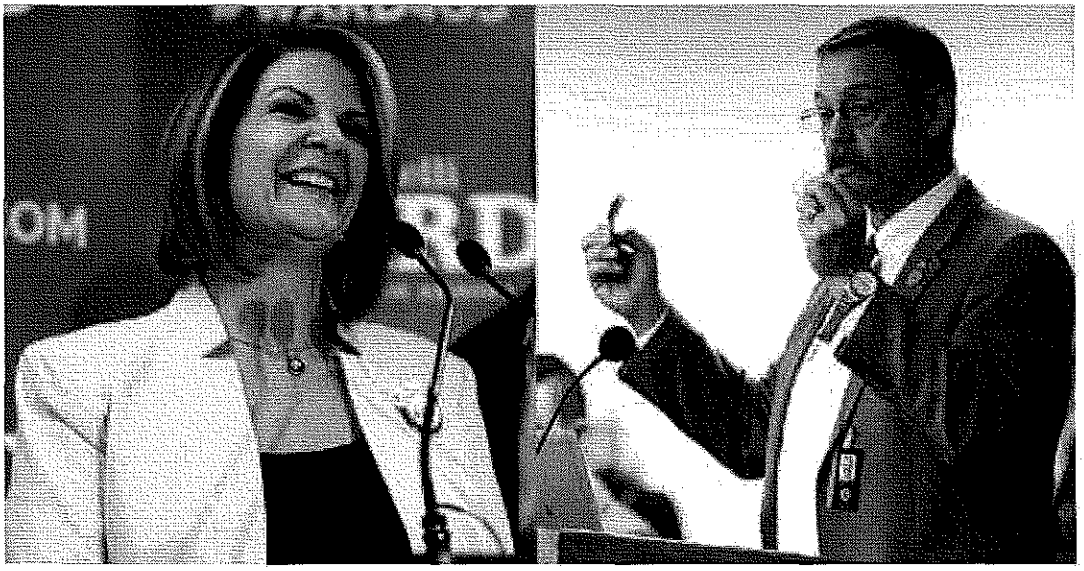
Ward and Finchem Disgrace Themselves With Their Reactions to the Trumpist Coup Attempt at the Nation's Capital

David Gordon



It is time for members of the Arizona Republican Party to decide what people they want to lead them.

In their reactions to the attempted insurrection by Trumpist mobs at the nation's capital, current Republican Party Chairperson Kelli Ward and Legislative District 11 State Representative Mark Finchem disgraced themselves and clearly showed that they should not be entrusted with any leadership positions.

Check out Ms. Ward's social media posts on Twitter yesterday (January 6, 2021.)

AMERICAN OVERSIGHT

These examples especially stand out.

https://twitter.com/kelliwardaz/status/1346917946170306563

This is simply bull fecal matter. What could have prevented this is people like Ms. Ward and Donald Trump not spoonfeeding their unhinged base two months of baseless lies about fraud and a rigged election. Trump and his enablers (like Rudy Giluani who called for trial by combat) that spoke at the rally that sparked the attempted coup that resulted in four deaths should be held accountable.

https://twitter.com/kelliwardaz/status/1346916480667930624

Another Lie from the Trump Zone and Fox Island. Joe Biden and other Democrats repeatedly condemned rioting during the summer while cheering on the great majority of peaceful protestors

https://twitter.com/kelliwardaz/status/1346906184557625345

The last tweet example is especially interesting considering Ms. Ward wants to run for reelection to remain the Chairperson of the Republican Party.

Compare Ms. Ward's reactions on Twitter with her Democratic Party counterpart, Felecia Rotellini who wrote:

"On December 14th, Arizona's eleven electoral votes were cast, pursuant to the will of the people, the laws of Arizona and the United States Constitution, for President-elect Joe Biden and Vice-President-elect Kamala Harris. Arizona's Electoral College vote happened after Republican Governor Doug Ducey declared the November 3 election was conducted with integrity, transparency and in accordance with Arizona laws.

Sadly, following the November presidential election, leaders in positions of power, including the President, have peddled lies and conspiracies in an effort to further their own political ambition. These unsupported allegations, that even Trump-appointed judges have rejected, continue to enable a president who cannot accept defeat in a fair fight; the popular vote of an overwhelming majority of Americans or the Electoral College's margin of victory, not dissimilar to his own 2016 victory. Now our president is fueling the protests, vandalism and violence on our Capitol. We are watching the events unfold and the scenes are despicable and shameful. It is terrifying to watch this seditious assault on our democratic republic. We pray for the safety of all and are grateful for the bravery of the Capitol Police and the law enforcement agencies that have come to their aid.

A dangerous precedent has been set by people more interested in appeasing Trumpism than living up to their oath of office. When leaders ignore the will of the people and make decisions based upon political ambition and blind faith in an ideology, government fails and terror and chaos results. To the Arizona Republican U.S. Representatives who objected to the Arizona Electoral vote, casting doubt on the

AMERICAN OVERSIGHT

integrity of the 2020 vote count, I ask you – How can you challenge the integrity of the vote without also placing your own election in question?

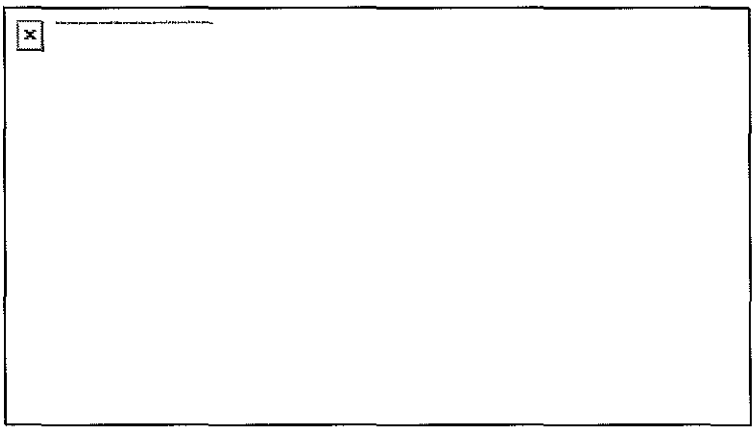
Despite these chaotic and unprecedented times, we deeply believe in America, our Constitution, and our Republic. We are so proud of our Arizona Democratic leaders who spoke with such eloquence and passion today in defense of Arizona's election system and their duty to serve all constituents, choosing the Republic over personal preferences, defending truth, and living up to this nation's promise.

As even Senate Majority Leader Mitch McConnell acknowledged today, Congress cannot declare itself the "national board of elections on steroids" and overruling the will of the people "will damage our republic forever" – Joe Biden is the next President of the United States."

One Party Chairperson (Ward) is a rabble-rouser. The other (Rotellini) is a statesman.

Hopefully, the people in the Republican Party will not reelect this disgrace and disgrace to public service.

While they are at it, the people of Legislative District 11 can recall Mark Finchem. His tweets are more unhinged than Wards. He apparently was at the nations capitol when the Domestic Terrorist attack occurred.



From Twitter

Please view some examples below.

Mr. Finchem: Believing baseless charges of political fraud spread by people like you is no excuse for committing acts of domestic terrorism.

Really. Following the Constitution and affirming the 2020 election results is how a Republic dies.

Commie Mayor of DC????

Newly elected Pinal County Democratic Party Chairperson (and LD 11 State Senate Candidate) JoAnna Mendoza reacted to Mr. Finchem's remarks writing:

AMERICAN OVERSIGHT

"What happened today at our nation's Capitol was an act of domestic terrorism. We and the rest of the world watched this attack on America's democracy, incited by an American President and carried out by citizens who have pledged allegiance to a man rather than to upholding our Constitution. This attack on our democracy was not a result of "people feeling like they have not been heard." Today was a deliberate result of lies, misinformation, and conspiracy theories. Today was a call to action by Trump and was answered by his enablers, including Mark Finchem. It's no secret that Mark Finchem is a member of the Oath Keepers, one of the largest radical anti-government militia groups in the United States. It is imperative that every elected official, Mark Finchem included, condemn the actions we witnessed today and encourage a peaceful transfer of power. Any action to overthrow our government is treasonous. Those committing and/or enabling these acts must be treated as domestic terrorists."

Doug Ducey is probably a Democrat in Mr. Finchem's mind.

By the way, Ducey at least struck the right note on yesterday's attack, writing on social media:

"In America, we practice peaceful transitions of power. We respect the law and law enforcement. The scene at the United States Capitol right now is wrong and has no place in our form of government. All should denounce, and it should end now."

Ward and Finchem, by spreading disinformation about the election results, are accomplices to the seditious behavior of their supporters and kindred spirits that attacked the center of American Democracy yesterday.

They should resign from public service forever.

If Finchem took an active part in the attack, he should be investigated and possibly arrested.

Recognizing that is not going to happen, it is time for mainstream Republicans to clean their political house of the vermin Ward, Finchem, and others like them represent.

People that excuse acts of domestic terrorism and insurrection against the Republic should not occupy positions of public responsibility. They should be shunned back into the wilderness where they belong.

·NEWS NOTES AND GOSSIP·

DEMOCRACY – IT WAS FUN WHILE IT LASTED

As armed Trump supporters battled police in the streets and stormed the US Capitol today, thousands of protesters showed up at the Arizona Capitol, bringing a guillotine and following a member of the press corps around accusing him of being an undercover Antifa member. Congress is supposed to certify the results of the Electoral College today, sparking protests across the country and violent insurrection in DC. The *Arizona Mirror's* Jerod MacDonald-Evoy tweeted this morning that a militia member told him protesters believe he's an undercover agent of Antifa. "Now it appears I'm being followed around the event," he wrote. Armed militia members have set up at the state Capitol building, and protesters were chanting "f*ck Joe Biden" and urging their ranks to stand up to the government "like they did in DC." Finchem, who is in DC for the riot there, egged on protesters and supported their attempt to violently overthrow Congress. "What happens when the People feel they have been ignored, and Congress refuses to acknowledge rampant fraud," Finchem tweeted. The protests in Arizona have so far remained peaceful, if tense, and have paled in comparison to the violent insurrection happening in DC. However, Kelli Ward and incoming Sen Wendy Rogers are both expected to speak at the Phoenix rally later, and Capitol denizens are concerned that the protest and violence could ramp up after Ward arrives. Ward, her communications director Zachery Henry and the official AZGOP Twitter have shared multiple tweets justifying the action in DC. "You know what could have prevented this? #ElectionIntegrity and full transparent investigations into 2020 fraud," Ward said in one tweet. "Funny to hear Democrats saying that people are 'desecrating' the Capitol. What did they say when BLM & Antifa vandalized, looted, terrorized, and burned? Seems like similar behavior called very different things," she said in another. The AZGOP twitter just last month asked its followers if they were ready to die for this cause. Meanwhile, the Senate sent its staff home after protesters began to pound on the doors of the House and Senate buildings. Hobbs, who has become accustomed to election-related threats, told her staff to stay home today in anticipation that the protests at the Capitol could get out of control.

BETTER LATE THAN NEVER

Meanwhile, a handful of Republicans forcibly condemned the rioting in DC, including the governor. "The scene at the United States Capitol right now is wrong and has no place in our form of government. All should denounce, and it should end now," Ducey tweeted. His denouncement did little to quell those within his own party, and only enraged Democrats, who accused him of being spineless and complicit with Trump's manufactured claims of fraud. Brnovich chimed in that people should demonstrate peacefully. "This is America. We do not destroy buildings and institutions in order to save them," he tweeted, still implying that protesters are attempting to save the nation from electoral fraud, despite his official stance that there has been no evidence of fraud in Arizona's election. Shope, Weninger, Osborn, Boyer and Carter are among a handful of legislators who denounced the rioters. "I support people there using their 1st amendment rights. But if you're being violent or vandalizing anything or breaking into congressional buildings, that is disgusting & I hope you are found & prosecuted," Weninger tweeted (LINK). Boyer joined in the call for prosecutions, tweeting "Arrest and prosecute those who trespassed and committed crimes in our nation's capitol. Conclude the proceeding and confirm" (LINK).

IT'S ALL FUN AND GAMES UNTIL THEY STORM YOUR BUILDING

Some of Arizona's most fervent conspiracy spreaders in Congress – the same lawmakers who have been urging their supporters to "hold the line" and be ready to fight for the country's soul – are locked down and tweeting for their supporters to go home. Gosar, who has been a vocal supporter of unfounded election fraud claims and subsequent protests, is suddenly not supportive of what his followers are doing in DC. "Ok. I said let's do an audit. Let's not get carried away here. I don't want anyone hurt. We are protesting the violation of our laws. We are builders not destroyers. BLM burns and loots. We build. If anyone on the ground reads this and is beyond the line come back," he tweeted. On the alt-right social media platform Parlor, he took a different tone, posting a photo of protesters climbing the walls of the Capitol and adding, "Americans are upset." Biggs, the state's other chief conspiracy theorist, has neither condemned the violence nor added more fuel to the fire today, and has been silent on social media. Lesko, who has been among Trump's top supporters, but has stopped short of going full-blown conspiracy theory about the election results, condemned the violence, saying, "Violence and breaking into the U. S. Capitol is dangerous and totally unacceptable."

IT'S CRAZY EVERYWHERE

Amid the protests happening at the Arizona Capitol, new security measures have already been put into place for the Executive Tower to limit access into the building for everyone. A Dept of Public Safety spokesman told our reporter they were monitoring the "stop the steal" rally at the Capitol, but sources inside said things have been relatively quiet and nothing like what is happening in DC. The Dept of Administration, however, has already been leading an effort to beef up security measures – mostly for the protection of Ducey and Hobbs, who've been dealing with their own threats and harassment over the November election. Nobody will have access to the basement, seventh, eighth or ninth floors of the building without an escort. Media and members of the public used to be able to access all but the ninth floor without a security badge. Neither DPS nor ADOA would provide our reporter with specific information on the new security measures that took effect on Dec 14 and will be in place indefinitely. "Security procedures at the State Capitol have been enhanced not for any one specific event but just to ensure the safety of the public. ... Our policy is not to discuss specific security measures," a DPS spokesman said.

TRUMP'S END IS NOT THE END OF TRUMPISM

Kelli Ward last night announced that she would seek re-election as chair of AZGOP, saying Trump told her she needed to run. "I'll be honest, even at that point, I was on the fence. But I thought I owed it to the president to give it some serious consideration," she said in a video posted to Twitter (LINK). She described her fellow Republicans who have refused to go along with unfounded conspiracies that the election was stolen as "cower(ing) to the mob" and pledged to continue fighting them. "There's some potentially dark days ahead of us in the Republican Party because we've been let down and abandoned by some of the people we elected and supported who refused to investigate allegations of fraud in our elections," she said. Democrats were giddy at the prospect of another term, arguing Ward is their best weapon to show how far from reality the GOP has roamed. Despite the fact that Republicans lost the presidential election and their final Senate seat under her leadership, even her Republican opponents argued she is probably unbeatable. So far, the only potential challenger we've heard of is AZGOP treasurer Bob Lettieri.

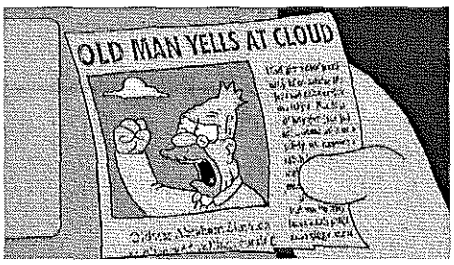
OLD ENOUGH TO REMEMBER WHEN JEFF FLAKE MATTERED

At their organizational meeting this weekend, Maricopa County Republicans will debate resolutions to demand lawmakers end Ducey's emergency orders, "support God's plan of two genders" and oppose gay marriage and urge Jeff Flake to become a Democrat. The Flake resolution states he has used his membership in the party to become a de facto spokesman for Democrats to the mass media and that he "purports to be a conservative but his endorsements prove otherwise." After noting that he backed Biden this year, the resolution resolves that Maricopa County Republican Committee "commends you, former Senator Flake, for standing up for your principles, but recognizes that those are not the principals of the Republican Party." The resolution encourages Flake to "take the next important step and join a party that is more in line with your endorsements, your actions, and your votes: the Democratic Party." Another resolution declares Ducey's stay-at-home order is an "unlawful mandate used to harass and intimidate citizens and businesses." That resolution states categorizing businesses as essential or not favors large corporations, and urges lawmakers to immediately repeal all of Ducey's emergency executive orders, as well as any local orders, and "allow unrestricted commerce to freely occur."

NOTHING HERE IS AGING WELL



Russell Pearce, the recalled former Senate president, authored a trio of resolutions for debate at the Maricopa County Republicans meeting, including the gay marriage resolution that claims God created two genders "and quit after that for good reason." The resolution states that the party believes "that marriage is to be one man and one woman" and states the left's support or tolerance of gender-neutral positions "is extremely harmful to our youth, and to families, and to the purpose of life." Among the whereases in that resolution is the gem that "whereas it is apparent that some of the millennials (in general) have no clue." Pearce is also pushing a resolution to defend the Electoral College, stating, "The chosen electors are bound by custom or by law in many states to support the presidential candidate who won their state's popular vote." His third resolution "condemns political malfeasance" that reads like an old school Pearce rant. "Whereas enough is enough. Mob violence under the name of protests. Policies that limit police enforcement, officials ignoring the law, damage to the rule of law, maimings, murders, costs to taxpayers and Whereas when are we going to hold our public officials accountable for their refusal to enforce our laws and honor their oath of office?" the resolution states, ironically, in light of today's developments. A copy of all resolutions proposed for debate Saturday can be found in our "documents" section (LINK).

Arizona Senate Democrats' Statement on Coup Attempt at our Nation's Capitol

Arizona Senate Democratic leadership released the following statement on the attempted coup happening at our Nation's Capitol.

PHOENIX-"Our nation's Capitol buildings and our democracy have been shattered today. America is in disgrace as armed traitors have violently overrun our nation's Capitol. This is the consequence of Trump and right wing, anti-American radicals refusing to acknowledge the laws of our democracy and honor a fair and legal election. While the American people made their voices clear and elected President Joe Biden, our current president encouraged and unleashed this violent coup attempt at our Capitol. This is a dark day in American history and these events fly in the face of our free and fair democracy. We condemn with the utmost urgency these shameful and despicable actions, and urge our Republican colleagues to immediately condemn these rioters and demand they be prosecuted according to the full extent of the law. We know our American democracy is strong and resilient. Although this is a disturbing day in our history, we have confidence that democracy, justice and the rule of law will prevail."

House Democrats Condemn Violent Extremist Coup Attempt in DC

PHOENIX— House Democratic Leadership team of Reginald Bolding, D-Phoenix, Assistant Leader Jennifer Longdon, D-Phoenix, and Whip Domingo DeGrazia, D-Tucson, released the following statement about the violent attempted coup in Washington DC today.

"Today we witnessed a violent, unlawful, seditious and un-American coup attempt in our nation's Capital. It's important to restate that there has been no credible evidence of election fraud brought forward in nearly 100 separate lawsuits throughout our country, and absolutely no justifications for armed extremists to break into the Capitol and try to disrupt the peaceful transfer of power that has defined our nation from its beginning. This is an insurrection based on lies. More importantly, their disgraceful efforts will not work. Our Democracy will prevail, and Joe Biden will be sworn in as our next President, and our nation will be better for it. The Republican elected officials and party leaders, including members of our own Arizona State Legislature and Congressional delegations, who participated, planned and incited this behavior should bow their heads in shame and must be held accountable."

Arizona Recognizes Human Trafficking Prevention Month

PHOENIX — Governor Doug Ducey today announced Arizona is once again recognizing Human Trafficking Prevention Month by lighting the State Capitol Dome blue every evening through January 31.

"Arizona remains a national leader in combating human trafficking, but we have much more work to do," said Governor Ducey. "My sincere gratitude goes to Arizona Human Trafficking Council Co-Chair Cindy McCain, all members of the Council, and everyone working to bring an end to human trafficking through increased intervention, awareness training, prevention, and support for victims. We will continue to work with community leaders, partners and service providers to protect Arizonans and bring human trafficking to an end."

Under the leadership of Co-Chairs Cindy McCain and Arizona Department of Homeland Security Director Gil Orrantia, the Arizona Human Trafficking Council (the Council) leads targeted statewide human trafficking prevention and awareness efforts and works to expand victim-centered services and support.

"I am pleased that Governor Ducey has once again proclaimed January as Human Trafficking Prevention Month in Arizona and appreciate the symbolic lighting of Arizona's Capitol and agency buildings blue to highlight the issue of human trafficking in our state," said Cindy McCain. "I am very proud of the work that the Arizona Human Trafficking Council continues to do to prevent human trafficking in Arizona, expand trauma-informed services available to victims and strengthen the ability to prosecute traffickers. The Council is adapting to meet the increased challenges and vulnerabilities of trafficked victims during the global pandemic, and working with our partners throughout the

state to share best practices and available resources. We have made tremendous progress in our state and there is much more to do and we are dedicated to continuing the fight."
In 2020, the Council conducted a statewide Human Trafficking Needs Assessment to evaluate services for victims and identify barriers to providing services. It also worked with victim service providers on best practices to adapt services amid the COVID-19 pandemic in support of vulnerable populations. Additional highlights include:

- **STRENGTH Court**: The Strength Through Resilience – Empower New Growth Through Hope (STRENGTH) Court, which focuses on the needs of child victims of trafficking, has continued operations during the pandemic by utilizing video and telephonic conferencing. Since STRENGTH Court's inception in 2018, there has been a significant decline in the number of minor victims who have fled placement and returned to the streets.
- **Training**: The Council helped expand awareness and facilitate training to more than 3,900 stakeholders and community members, including educators, social workers, and juvenile and adult probation officers.

Statement on Violence at U.S. Capitol Building

STATE CAPITOL, PHOENIX – House Speaker Rusty Bowers and Majority Leader Ben Toma together issued the following statement denouncing the violent and unlawful protests today at the U.S. Capitol Building in Washington, DC.

"In America, we respect and honor the fundamental right to expression and protest so long as it is done so peacefully. However, the behavior that occurred today at the U.S. Capitol Building was anything but. It was a despicable and dangerous assault on the very heart of representative government that cannot be tolerated or excused in a civil society.

"We should all revisit the wisdom of Abraham Lincoln whose words of hope resonate still, in this and many other contexts: 'We are not enemies, but friends. We must not be enemies. Though passion may have strained it must not break our bonds of affection. The mystic chords of memory, stretching from every battlefield and patriot grave to every living heart and hearthstone all over this broad land, will yet swell the chorus of the Union, when again touched, as surely they will be, by the better angels of our nature.'"

Dear Senator Johnson,

Thank you for hosting the hearing today on election integrity.

Factoring in error rates, the math speaks for itself.
DONALD TRUMP CLEARLY WON THE 2020 ELECTION FOR PRESIDENT.

Republicans in Washington D.C. and at the state level must find the will to lead. You have a duty, a sworn duty, to protect my vote NOW.

I know I speak for millions of voters who want the evidence of election fraud recognized and reviewed prior to January 6. It does not go unnoticed that states like Michigan presented a subpoena for evidence that is not due until January 12. That passive approach to protecting my vote is not nearly sufficient!

State legislators must draw the line between legal and illegal votes. Consider that as the state legislators relinquish their power to other administrators, they dilute your power in Washington D.C.

Why are you all sitting back and allowing our nation, our Constitution, to be undermined?

THE TIME TO SOLVE ISSUES OF ELECTION INTEGRITY IS NOW. Solve it NOW.

Don't blame the courts. We know, We Americans know, who is responsible.

I've been a Republican since I could register to vote some 36 years ago. I've stuck by this Grand Old Party while "leadership" allowed us to be recast as racist, xeno/homophobic. SHAME ON THE GOP! TAKE ACTION NOW TO RIGHT THIS WRONG!

Donâ€™t give up. Hundreds of thousands of voters in Arizona donâ€™t believe the Dominion voting machines were accurate. Until a full forensic audit of all voting machines is done, there is no proof of an honest election. Every law must be followed, but that didnâ€™t happen. Observers were obstructed. Subpoenas to allow access to the voting machines were denied. All voting materials are to be kept for at least two years and allowed to be examined by the State Legislature. What are the county supervisors hiding? We must want freedom more than we want comfort. Donâ€™t stop until the machines have been examined. A recall should be done for all county supervisors who refuse to allow the voting machines to be examined and refuse to comply with subpoenas from the Senate. In the future do not allow the *governor to usurp your legislative authority. Be sure that from this day forward the legislature is in session during all* elections. It is the state legislature that has authority to sign on the line certifying that the election is honest and complies with law. In the meantime â€“ donâ€™t give up. No matter what happens in Washington D.C. today you must keep fighting with every tool you have to audit the voting machines. Follow through on every complaint of election fraud. Throw out all illegal votes. Keep this process going until a full, honest count is done â€“ no matter how long it takes!

State Representative Finchem I find it absolutely reprehensible that you are prioritizing overturning the will of Arizona voters rather than fighting on behalf of struggling Arizona families. The COVID infection rate in AZ is skyrocketing out of control while you are traveling to Washington D.C. to promote an attempted coup. Small businesses across AZ are barely able to survive and need help but youâ€™ve decided to promote tyranny instead. AZâ€™s working families and businesses donâ€™t need an ideologue in the state legislature - they need someone committed to pragmatic solutions in times of need. Youâ€™re actions prove that you are totally out of touch and should resign your elected position immediately! The voters in LD11 will be made aware of your actions and priorities. I will do all I can to keep them informed and engaged. Garrett Myers Tucson, AZ LD11 Voter

To Arizona Republican Legislators and the (so called) republican Maricopa County Board of Supervisors,

YOU HAVE CERTIFIED A FRAUDULENT ELECTION!

Massive cover up by the Maricopa Board of Supervisors voting down the 3rd party audit of the cheating Dominion Voting Machines. Once again, establishment hack republicans have let the people down again. The cowardly republican supervisors are hiding from the truth of this massive election fraud and cheating. They are covering up a CRIME!!!!!!!!!!!!!!!!

All weak Republicans who did not fight to uncover this massive election fraud will be primaried in 2022! We will never forget what happened with the 2020 election.

Therefore, the AZ legislature should decertify this fraudulent election and pledge the Electors to President Trump on January 6th.

President Trump won Arizona and everyone knows it. We will not accept this fraudulent election result!!!!!!!!!!!

We have many examples of fraud and problems with this election including:

VOTES CANCELLED BY POLL WORKERS PRESSING THE "GREEN BUTTONS"

ABNORMAL SPIKES IN NURSING HOMES IN THE MIDDLE OF A PANDEMIC

36 THOIUSAND FEDERAL ELECTIONS VOTERS WITH NO PROOF OF CITIZENSHIP

DOMINION VOTING MACHINES ALLEGATION OF MANY THOUSAND OF VOTES SWITCHED FROM TRUMP TO BIDEN

THOUSANDS OF MISTAKES WITH ABSENTEE, ADJUDICATED AND DUPLICATE BALLOTS

DEAD PEOPLE ON THE VOTER ROLES

AMERICAN OVERSIGHT

BIDEN ONLY VOTE AND NO DOWN BALLOT VOTES

5 THOUSAND CONFLICTING OUT OF STATE NOTICES AND VOTES CAST

MANY REPUBLICAN BALLOTS WERE NOT COUNTED ON ELECTION DAY BECAUSE OF SHARPIE MARKERS!

As a 25 year resident of Arizona and Maricopa County and a lifelong Republican, I am urging our Arizona State Representatives and Maricopa County board of Supervisors to do the following:

1. We demand a FULL HAND COUNT of paper ballots by precinct.
2. We demand a FORENSIC audit of all votes including an audit of Absentee, Adjudicated and Duplicate Ballots!
3. A Third Party AUDIT of DOMINION voting machines/software.
3. Rino Governor Ducey should immediately open a special session of the AZ. Legislature.

We must have election transparency. Obvious voter and election fraud occurred in Arizona on November 3rd and "We The People" want something done about it from our state representatives. Plus, Dominion Voting Machines being used in Maricopa County is not right; where was the AZ GOP and the County Board of Supervisors when these suspicious machines were approved!!!!

Please do you your job!! If you don't then you will lose the Trump Base which is about 90% of the republican party!!!

If the above can't be achieved then we expect the AZ Electors to vote for Trump because this has been a fraudulent Election. TRUMP WON!! End of Story and we all know it! If the AZ GOP and AZ Legislators do not fight and expose this massive election fraud then you will lose the Trump voters for many years. We will walk or start our own MAGA party but we prefer to stay as a true conservative "America First" Republicans. Time will tell!

Please have courage and fight.

Subject: Please Object to Biden Electors from States with Fraud

Thank you to all the Representatives and Senators who have courageously spoken out against election fraud. I thank you from the bottom of my heart for looking out for the future of our children.

On the night of November 3, I watched as the voting results were coming in (MST). I saw several of the battleground states simultaneously stop counting when Trump was up by numerous votes. I watched the media call states that weren't ready to be called. Michigan was called for Biden when Trump had more votes. Fox called AZ for Biden way too soon. The next morning to see the voting results flipped was shocking. Then to hear the media, and democrats call Trump a liar when he states these facts is mind-blowing. Anyone who was paying attention that night saw what happened no matter how much the media, social media and democrats are trying to tell us it didn't.

Since the election, I've watched several hours of brave Americans testifying to serious allegations of election fraud. Those brave individuals need to be heard and taken seriously. I've also watched statisticians and mathematicians showing how the results from several counties are not even mathematically possible. We need to stop pretending there was no fraud when there is overwhelming evidence showing there was.

You were all elected to represent the American people. Lately, what I have been witnessing in the House and Senate I wonder who you are representing. Why do you think the decisions you are making and bills you are passing are what the American people want? Why is more money going to assist countries overseas than staying in our country to help struggling Americans? When you are voting on bills you have not even read, who are you representing?
We need to investigate these election irregularities now! If there was no fraud, why aren't these states proving it? Instead they've been concealing results which makes them more suspicious. No one should be sworn into the highest office of our country if they didn't receive the legal votes to win. This is about our democracy and our country having fair elections no matter which party you belong to.

I plead that on January 6th you object to the Biden electors from the 6 states that are full of fraud. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. Please demand that the vote be delayed so that extensive investigations can be conducted and reviewed and the state legislatures given the opportunity to change their certifications. Even if the commission says there was not enough fraud to change the results of the election, I expect you to use common sense and object to the Biden electors and do whatever else is necessary to correct this election. It is obvious that this election was fraudulent. If I can't count on current legislators to stand up against fraud and imminent socialism, I want them to be primaried, not out of vengeance, but because I need legislators I can count on. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators have not stood behind him and taken care of this fraud already. I demand that you stand up now against fraud and

support our President whether you like him or not. The American people get to decide with their legal votes who the next President is not a select group.

Hello Sir or Madam,
It has become clear that widespread, coordinated fraud took place in the November 3rd Presidential Election, effectively cheating President Donald J. Trump out of the 270 electoral votes required to secure his second term in office. This can be ascertained by the average citizen by simply reviewing voting and/or forensic data, listening to the testimony of sworn witnesses, and/or evaluating the unconstitutional actions of several states, including yours.
I am writing to you to request that you take a stand for the 74+ million voters who cast their vote in support of President Trump, and have been disenfranchised by these acts. Please object on January 6th and retroactively certify Trump Electors. As Conservatives, we will never ever have a voice in this country again if these fraudulent election results are allowed to stand. You have the power to make this right.

RE: Request for Delay of Congressional Election Certification & Seek Legislative Clarification on Proper Presidential Electors for Arizona

Dear Mr. Vice President,

I write to you on the eve of January sixth's joint session of the United States Congress to approve the certification of the 2020 presidential election to request that you, in your capacity as the President of the Senate and presiding officer over the aforementioned joint session of Congress, delay the certification of the election results and instead seek clarification from the Arizona legislature as to which slate of Presidential Electors are proper and accurate.

I understand the magnitude and historic nature of the actions that I am requesting; however, as an elected official and someone who reveres the United States Constitution, I see no other just outcome, given the systemic election irregularities and pervasive allegations of fraud, than to return the power to the level of government that is both constitutionally empowered and closest to 'We The People'—the state legislature.

The American people have observed your integrity and love of country for decades, Mr. Vice President. In this critical hour, when some in our nation have sought to devolve our civil discourse into chaos and uncertainty, America needs your judiciousness, discernment and steadfast resolve to uphold the civil right to free and fair elections for every citizen of the greatest nation on God's earth.

Just like the Scriptures teach through the life story of Esther, I believe that God has placed you, and you alone, in this precise moment in history, and in this precise role to protect this last bastion of freedom for all of mankind.

To allow external forces such as Democrats' partisan interests, media bullying, procedural expediency, or any other in a long line of inferior justifications, to dictate the course of our nation's destiny on this matter of historic importance would not only undermine our citizenry's confidence in our electoral system, it would lead to the devolution of our constitutional republic writ large.

AMERICAN OVERSIGHT

It is in this late hour, with urgency, that I respectfully ask that you delay the certification of election results for Arizona during the joint session of Congress on January 6, 2021, and seek clarification from the Arizona legislature as to which slate of electors are proper and accurate.

You are in our prayers, Vice President Pence.

Dear Arizona Congressperson,

Thank you for your service to our great country. To be honest, I haven't paid any attention to politics in the past and was among the sheep brainwashed by the media that took our freedoms for granted. The covid pandemic and blatant irregularities associated with our November 3rd election has led me to ask questions and seek truth.

My family fled Vietnam as refugees and 'boat people' in the 70's to escape communism. They risked EVERYTHING for a chance at a better life and future including freedom for their children in America. They believed that a future without God and without freedom for their children was worth risking their lives and was worth fighting for.

As a concerned citizen and registered voter in Illinois, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our Constitutional Republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

Subject: This is your opportunity to stand up for what is right and just

Hello,

https://www.stop2020fraud.com/

https://got-freedom.org/evidence/

The Constitution imposes an important duty on you this week. The votes of six states should be voided and decided by Constitutional means for in those states there is conclusive evidence of election irregularities, affecting more votes than the current number of ballots separating President Trump and former Vice President Biden. You are the last Constitutional deterrent to ensure that the unconstitutional results of these states are not validated.

The privilege of sitting as a United States Senator was bestowed upon you by your constituents. This privilege, as you know, comes with the responsibility to honor, serve and represent your constituents in all matters. There has never been a more critical moment in time to listen to the concerns of your constituents and act accordingly. Failing to properly review and evaluate the provable, quantifiable fraud in Pennsylvania, Georgia, Wisconsin, Arizona, Nevada, and Michigan is a dereliction of the duty owed by you to your constituents.

The fraud, deceit, and manipulation associated with the 2020 Presidential Election is unprecedented in the history of the United States and must be stopped. You owe it to your constituents and the millions of Americans who died to secure our most sacred right to object to the certification of the 2020 Presidential Election results in Pennsylvania, Georgia, Wisconsin,

AMERICAN OVERSIGHT

Arizona, Nevada, and Michigan.

The fraud of the 2020 Presidential Election was commonplace throughout these states—all of which failed to properly secure the voting process, whether intentionally or unintentionally. The attached chart identifies the conclusive evidence of fraud and tampering accumulated thus far for your convenience. The affidavits, declarations, videos and the like are broken down by individual states, with exhibits following. This evidence was collected by your constituents and those who continue to fight against an election that lacks transparency. This evidence is concrete and compelling. The evidence will only become stronger and more compelling when we are granted authority to fully examine the ballots and machinery. Contrary to the falsehoods spread by the media, none of the evidence contained herein has ever been ruled upon by a court of law.

Certification of these election results, in light of the quantifiable fraudulent acts which took place during the 2020 election, would insult the core of our constitutional right to vote and allow the dilution of legally cast ballots. Your constituents refuse to allow this fraud to continue and are willing to sign petitions to support your objection. Millions of constituents are ready, willing and able to execute petitions today to ensure that their voices are accurately reflected in your vote.

Forget the candidates, the parties, and the media, and instead focus on the unconstitutional election procedures implemented in each and every one of the states Page | 2 referenced above. The extensive alterations to voting procedures and tabulations by state officials prior to the 2020 Presidential election were unconstitutional. In a time when more safeguards were needed to protect the integrity of our elections, government officials relaxed and/or removed the much-needed safeguards casting doubt on the integrity of the 2020 Presidential Election. Removal of these safeguards, the majority done without approval of the state legislature, combined with the vulnerability of the voting machines, left the 2020 Presidential Election

AMERICAN OVERSIGHT

vulnerable to domestic and foreign interference. To reiterate, the number of absentee and mail-in ballots that were handled unconstitutionally, greatly exceeds the difference between the vote totals of the two candidates for President of the United States in each of the aforementioned states. In light of these constitutional violations, there is no alternative but to object to the certification of the election results in Pennsylvania, Georgia, Wisconsin, Arizona, Nevada, and Michigan on January 6, 2020 and/or to accept the votes cast by the alternate slate of electors.

This is your opportunity to stand up for what is right and just. Do not take the path of least resistance; make history. Every worthwhile moment in history began with one man or woman willing to risk it all to invoke change. This is your moment. How can we accept votes from out of state residents and dead people? As President Lincoln said "America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves." Do not let America destroy itself.

Very truly yours,

Subject:	Concerning the 2020 Election

Dear Honorable Representatives,

I am writing, as so many others have, to express concern over the 2020 election. Amid the frenzy of news, it is difficult to discern truth from untruth and to sort out the complex details of this election. I do not envy your position but I do respect it and urge you, for the sake of election integrity, truth, justice, and the future of free and fair elections, to either decertify the official results, as Wisconsin is now doing, or to request time to conduct a thorough forensic audit, possibly using the method of Mr. Jovan Pulitizer. If even a third of the allegations of irregularities are true, it is incumbent upon this representative body to get to the bottom of them and to act in accordance with the constitution. As Senator Cotton recently stated:

"There is one and only one path to victory for President Trump on January 6, 2021, and it depends on state legislatures certifying Trump electors in the states at issue, pursuant to state law and the U.S. Constitution, and based on a finding that votes lawfully cast in November were sufficient to produce a Trump victory," the statement read. "If they believe there was fraud — and if they believe that such fraud affected the outcome of the election — they must, as a body, convene immediately and send us that information, along with certified electoral votes cast by a Trump slate of electors. Absent such action, there is not a constitutional role for Congress to change the outcome of any state's vote."

My writing to you not out of a desire to see Trump in office another four years, rather, more fundamentally to ensure that this election and all future elections are clean and reflect the will of the people. As Senator Cruz stated in his reasoning behind challenging the EC certification:

"Whether or not our elected officials or journalists believe it, that deep distrust of our democratic processes will not magically disappear. It should concern us all. And it poses an ongoing threat to the legitimacy of any subsequent administrations."

Please decertify the AZ electoral college results or conduct a full forensic audit of the votes to ensure the integrity of this election.

Respectfully,
J

CHINA'S $400 MILLION PURCHASE OF DOMINION ON OCTOBER 8, 2020 & CYBER CONTROL OF ELECTION SOFTWARE ON NOVEMBER 3

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server seized by DOD military personnel in Frankfurt, Germany. Scott's phone # is in California. Arizona Rep. Gosar's staff interviewed Scott, and verified the facts.

Scott Bennett's disclosures are devastating --- China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, *including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin* and New Mexico--

Watch Scott's video deposition sworn under oath: https://www.youtube.com/watch?v=LBrt0vObx0c&feature=youtu.be

Also listen to Georgia Secretary of State Brad Raffsenperger in his own voice thank China for helping him get elected:

Expert testimony by Bennett's forensics team proves foreign interference and vote manipulation by China on election night beyond any shadow of doubt.

Consider China's interference in light of testimony to the Georgia Senate Judiciary Committee by Data Scientists Lynda McLaughlin, Justin Mealey and Dave Lobue last week. Their team crunched raw votes coming into the Edison Vote system for all the battleground states. Their findings show 12,173 Trump

votes switched to Biden in Georgia, and 33,000 Trump votes got erased entirely.

https://www.theepochtimes.com/georgia-election-data-shows-17650-votes-switched-from-trump-to-biden-data-scientists_3640670.html

Or Michigan's audit report that Dominion machines carried a 68 PERCENT error rate:

https://americanmilitarynews.com/2020/12/mi-judge-approves-release-of-audit-showing-68-error-rates-in-countys-dominion-voting-software/?utm_campaign=alt&utm_medium=facebook&utm_source=amn&fbclid=IwAR2-3Jf6X7r3I08pvib2JMTRWXDYCmDzHXxQi6wcWfGjU5N4tn3XlG1nk_Q

The ramifications for national security are staggering. China's interference in the 2020 elections justifies STRIKING ILLEGAL ballots and recertifying results in favor of TRUMP ELECTORS to be certified by Vice President Pence on January 6.

A warning to all-- Proof of election fraud is flooding our nation like a burst dam, and voter fury is explosive. Americans understand hostile foreign governments like China are striving to take out President Trump, our nation's best protection against destructive Globalist ambitions that seek to raise China First and pull down the United States.

Bottom line-- only crooked politicians defend crooked elections. In the aftermath-- what Joe Biden declares his "Dark Winter," when the economic crash comes--- lawmakers will have no place to hide, and no power to undo the damage. The time to defend our nation is now.

Good afternoon,

My name is James Dziwura and I am contacting you regarding my concern of the 2020 presidential election.

In the state of Arizona there have been countless examples of voter fraud that have not been corrected. The evidence has been presented and heard during hearings and it is irrefutable. But it seems that no legislator is willing to do anything to fix these problems. Election fraud occurred in your state, along with many others as well, enough so to change the outcome of the election.

I am humbly requesting you, and all other representatives and senators, to object to the certification of electors on January 6. The voter fraud has not been debunked, only ignored. The US Supreme Court gave the power to you to fix these issues when they declined to hear the lawsuit filed by the state of Texas.

If this election is not fixed, citizens will realize our votes and voices do not matter. No future election will matter in the United States if fraud is allowed to stand.

Please do the right thing and object on January 6th.

The ramifications for national security are staggering. China's interference in the 2020 elections justifies STRIKING ILLEGAL ballots and recertifying results in favor of TRUMP ELECTORS to be certified by Vice President Pence on January 6.

A warning to all-- Proof of election fraud is flooding our nation like a burst dam, and voter fury is explosive. Americans understand hostile foreign governments like China are striving to take out President Trump, our nation's best protection against destructive Globalist ambitions that seek to raise China First and pull down the United States.

Bottom line-- only crooked politicians defend crooked elections. In the aftermath-- what Joe Biden declares his "Dark Winter," when the economic crash comes--- lawmakers will have no place to hide, and no power to undo the damage. The time to defend our nation is now.

Subject: Please *retroactively* CERTIFY Trump Electors

Dear Legislatures,

As a concerned citizen and registered voter in California, I am writing to ask that you please retroactively certify Trump electors. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

Thank you to those who have already stated you would do so!

Sincerely,

Subject: Election Integrity/Reject Electoral Vote

Dear members of Congress,

I am writing to demand you reject the electoral vote scheduled for January 6, 2020, and as an official elected to represent the people of the United States of America under the oath of the United States Constitution, you call an Electoral Session to hear the evidence of election interference and voter fraud reported by thousands of patriots who have been continuously ignored from around our beloved Republic; and you aim to reclaim your electors before January 6th.

The Founders of this nation -that we are all so blessed to be a part- laid out your duty in the U.S. Constitution to guard against fraud at the State level. It is your duty to stop hiding behind your state Governors' refusal to acknowledge the mounting evidence of interference and fraud. It is a dereliction of your duty to ignore the threats to our nation and the infringements to our Constitution.

To the members that have already committed to objecting to the Electoral College votes, I thank you, and I look forward to your support for an Electoral Session to conduct a 10-day emergency audit of the election.

I am urgently sending this message not as a request but as a firm notification that I will be looking forward to your representation and commitment to objecting to the electoral college vote for appointing a Biden/Harris administration scheduled for January 6, 2021. It is not without complete evidence of election interference and voter fraud.

Evidence has been repeatedly ignored from thousands of witnesses and testimonies of irregularities and criminal behavior throughout many precincts of the states in question that unanimously stopped counting at the exact same moment in time, only to resume at the almost exact time the following morning with statistical anomalies of the almost exact same number of gains reported in favor of Biden and Harris. That issue let alone threatens election integrity, and repeated statistical and data analysis continue to show vote flipping.

I am beyond frustrated with the continued negligence and selective ignorance of ignoring these facts. Repeatedly, news outlets state there is no evidence, and courts have refused to hear any evidence. It is the will of the people to demand a complete investigation and total rejection of the fraudulent presidential election. It is further the power of the people and with hope in the new congress and representation that all facts, testimonies, eyewitness accounts, voting machines, voting software, and technological interference be acknowledged, heard, and presented fully to the people of the United States of America, and reject the electoral votes.

As reported by the Epoch Times, the 2020 election was tainted with fraud and interference at all levels:, including election laws and software being changed within weeks and days before the election, and counting beyond November 3, 2020 violates constitutional laws:

"in New Mexico- the state's use of ballot drop boxes, violates state election laws by allowing voters to return their absentee ballots in "drop boxes" placed outside polling locations instead of handing their ballot to a presiding election judge.

AMERICAN OVERSIGHT

"In Wisconsin, guardrails against fraud were repeatedly lowered by unelected bureaucrats who changed the rules on the eve of the election without authority to do so"

As well as the confirmed and documented visit of Joe Biden himself to the Ukraine for recruiting computer hackers to manipulate election software and hardware.

And, I also encourage you to not be so arrogant or ill-informed as to ignore further facts presented by former US Army Officer, Scott Bennett, in his deposition on election fraud involving "Union Bank of Switzerland Securities and its connection to the recent Dominion voter fraud", viewable at the link provided below.

https://www.youtube.com/watch?v=LBrt0vObx0c&feature=youtu.be

On behalf of my entire family, I again remind you to uphold your duty as an elected official to represent the people of the United States, and the irregularities of this election be questioned, heard, and resolved. You were elected with the duty to preserve our Republic. With the voices of 80 million and growing, we did not elect you so we could be ignored, or to sit back silently to watch more of the same from Washington elites. We will not accept your selected opinions, your personal views, or allow our god-given rights to be lost at the expense of your personal gain. You took an oath to the constitution, and I intend to remain engaged throughout your terms and beyond to hold you accountable.

You were not elected to make friends in Washington, or with big corporations. I look forward to your obligation to protect and preserve the United States Constitution.

We need heroes in DC, not more career politicians.

Which side of history will you be remembered on?

In solidarity,

RE: Reclamation of Electoral College Electors from Arizona

Dear Sir, January 1, 2021

We write to put a fine point on the controversy involving alleged fraud in the 2020 Arizona Election. In nearly every venue, institutions meant to protect the precious individual voting franchise that gives rise to the consent of the governed through free and fair elections, which is the foundation for the Guarantee Clause in the Constitution of the United States, have blocked Arizona voters from hearing and seeing evidence of fraud.

The courts have refused to hear a multitude of cases brought to introduce evidence of election process violations so that all could see substantive proof of ballot tampering. Even electronic calculation of votes —giving rise to fractional voting— where tabulation of whole numbers safeguards the legal norm under "one person, one vote," adopted under the Warren Court as a civil rights matter.

Under Article II, Section 1, Clause 2 [the Appointment Clause] of the Constitution of the United States, it is the Legislatures that possess plenary power to select Electoral College Electors. Nowhere in the Constitution is such power over Electors given to any other state government branch, not to the Executive Branch or the Judiciary. And when the Legislature has permitted the Executive branch to transmit the results of an uncontested election to you, such approval may be withdrawn by the Legislature under the same plenary power. Arizona legislators are at this very moment engaged in litigation, asking for relief in the form of preventing certification of Presidential electors and counting their votes where the Presidential electors did not receive state legislative post-election certification as required by Article II.

AMERICAN OVERSIGHT

The Legislature has received voluminous evidence and testimony. One example is the testimony of Dr. Shiva Ayyadurai, Ph.D. (M.I.T.) , on November 30, 2020; Dr. Ayyadurai is one of the most respected mathematicians and experts in pattern recognition in America engaged in the examination of election results in all of the contested states. He concludes that the only explanation for the actual voting results in Arizona is that 130% of Democrats voted for candidate Biden and a -30% voted for President Trump, and 100% of Republicans voted for President Trump, with "no party affiliation" voters split 36% for Biden, 58% for the President. In his words, such a demographic distribution is "highly implausible." (Exhibit 1). Coupled with the Maricopa County Board of Supervisors' outright refusal to comply with Arizona Senate subpoenas directing a forensic audit of Dominion ballot tabulation equipment and software and scrutiny of all mail-in ballot images, the evidence rises to the level of clear and convincing. It shows the 2020 Arizona Elections to be irredeemably flawed.

Never has the separation of powers been more tested than in this election. The Arizona Election Code requires that all person's voting in a election must be registered to vote 29 days prior to an election by law, and voter registration was extended by the federal judiciary to October 23 in direct conflict with A.R.S. § 16-101(A)(3), a clear usurpation by the federal Judicial branch of authority exclusively controlled by the State Legislature [emphasis added] and a crystal-clear violation of the separation of powers.

The Governor transmitted to you a document that advances Electors from the Democratic Party and has failed to notify you of the tainted nature of said Electors, despite the evidence thus far provided showing enough fraud. Even this cannot settle the matter, and neither candidate is a clear winner in the absence of a forensic audit.

There is no limitation in Article II, Section 1, Clause 2 on how the Legislature may notify you of the electors you should consider valid. *"Each State shall appoint, in such Manner as the Legislature thereof may direct."* You have received two slates, one Democratic Party Electors, and one Republican Party Electors. In this day of COVID-19 meeting restrictions, and out of an abundance of caution, face-to-face meetings have been made especially difficult. Such restrictions notwithstanding, whether the Legislature is in regular session as a body, called to a special session, or out of session, a communication from the majority of the body's Members is nonetheless a statement of the Legislature that must be considered. The Legislature defines the "manner," and that is what we seek to express to you with this writing. Neither the Executive nor the Judiciary is permitted to erect a barrier to the Legislature as it expresses its position in the matter, which is exactly what has been done.

Please find attached a sample of the voluminous evidentiary material in support of the Legislature's position, both Constitutional analysis and evidence presented at both the November 30, 2020, Public Hearing on Election Integrity, and December 14, 2020, Senate Judiciary Hearing on Election Integrity that resulted in the issuance of subpoenas to the Maricopa County Board of Supervisors to conduct a forensic audit of their election hardware and software, as well as the ballot images. While expressing the desire to have a transparent audit, the Maricopa County

AMERICAN OVERSIGHT

Board of Supervisors has fought that Senate subpoenas every step of the way, and thus far, they have refused to cooperate; instead, they took the matter to court. Both hearings are preserved as a video archive available for you to view the testimony and evidence.

Based upon the clear and convincing nature of the evidence, we respectfully ask that you recognize our desire to reclaim Arizona's Electoral College Electors and block the use of any Electors from Arizona until such time as the controversy is properly resolved through the pending litigation or a comprehensive forensic audit.

A RESOLUTION TO HOLD ARIZONA ELECTORS

Regarding a declaration of the results of statewide electoral contests in the 2020 General Election to be in dispute with probable cause to believe that multiple frauds were committed, and that so many fraudulent votes were commingled with legitimate votes across the State of Arizona that voter disenfranchisement has occurred, the undersigned Representatives and Senators, as the Legislature, the elected representation of the people, hearing testimony and receiving evidence of same recall and reclaim both slates of the 2020 Electoral College Electors:

WHEREAS, Article I, Section 4, Clause 1 of the United States Constitution empowers state legislatures, including the Legislature of the State of Arizona, to prescribe the "Times, Places, and Manner" of conducting elections; and,

WHEREAS, the definition of "Manner" is at the sole discretion of the Legislature; and,

WHEREAS, Article II, Section 1, Clause 2 of the United States Constitution empowers state Legislatures, including the Legislature of the State of Arizona, to direct the manner of appointing electors for President and Vice President of the United States; and,

WHEREAS, Article IV, Section 4, known as the "Guarantee Clause," Guarantees each state a republican form of government, the foundation of which is self-governance through free and fair elections accurately reflecting the will of the people; and,

WHEREAS, the Counties within the State of Arizona conducted an election on November 3, 2020 for federal offices, including selecting electors for President and Vice President of the United States; and

WHEREAS, the Legislature of the State of Arizona has exercised its authority to establish election administration procedures for the State under A.R.S. Title § 16, commonly known as the Arizona Election Code; and,

WHEREAS, the State Legislatures posses plenary authority to call themselves into session to perform federal duties as a simple majority, free from the dictates and constraints under the State Constitution and State statutes, therefore by simple majority under *Leser v. Garnett* which says, "But the function of a state Legislature in ratifying a proposed amendment to the federal Constitution, like the function of Congress in proposing the amendment, is a federal function derived

AMERICAN OVERSIGHT

from the federal Constitution; and it transcends any limitations sought to be imposed by the people of a state;" and,

WHEREAS, Any state law that would restrict a State Legislature ability to call itself into session to perform its duty under the constitution and laws of the United States would violate the "Supreme Clause" found in Article VI of the Constitution of the United States.

WHEREAS, U.S. Code, title 3, section 2 further empowers State Legislatures to appoint Electors if the election failed to produce a clear winner of an election due to tampering;

WHEREAS, the Arizona Election Code A.R.S. § 16-121.01(B)(2) requires, "That the registrant has not resided in this state for twenty-nine days next preceding the next election or other event for which the registrant's status as properly registered is in question;" and,

WHEREAS, the Arizona Election Code requires that all persons voting in an election must be registered to vote 29 days prior to an election by law, and voter registration was extended by the federal judiciary to October 23 in direct conflict with A.R.S. § 16-101(A)(3), a violation of the separation of powers; and

WHEREAS, the Arizona Election Code requires election officials at polling places and points where ballots are received via United States Postal Service to authenticate the signatures of in-person voters; and

WHEREAS, election day poll workers and observers testified to observing discrepancies in ballot handling, that ballot chain of custody was breached in case after case, that poll watchers and observers were not allowed to be onsite or close enough to observe whether poll workers were following proper identification processes, were made to stay seated and/or in a particular area far away from where voting activity was occurring, were reprimanded for asking questions, observed bias in voting i.e. some voters were made to vote a provisional ballot while others were instructed to simply retrieve proof of residence, improper and biased voting center activity when, in certain circumstances, workers were instructed to call the Elections Department for voter authorization as opposed to following standardized protocols applicable to all voters; and,

WHEREAS, testimony describing observations of trays of mail-in ballots to be brought in to tabulating rooms to be properly and independently checked and counted by processing teams of two different parties whose envelopes had already been pre-opened in the "mail-room"; batches/ trays of ballots by the thousands in one 4-5 hour shift carried to rooms and offsite where they were not overseen; workers in the ballot processing room allowed to retain their personal purses/ backpacks and observed rummaging through them, presenting opportunity for ballot tampering; ballots moved to rooms where there were no independent ballot watchers; signatures on absentee ballots that did not match and thousands more in a 4-5 hour period not verified before being counted or "run through" electronic signature adjudication, which alone, could comprise hundreds of thousands of ballots in Maricopa County, in which 1,875 million out of 2 million were

cast by mail; inadequate/improper oversight in which only one independent ballot observer from two different parties was assigned to observe the ballot processing activities of 90 tables at one time, and from a distance; and,

WHEREAS, election observers witnessed computers and laptops with internet connection capability in the tabulation centers; that over-votes for candidate Trump were not counted even when voter intent was clear; some ballots were changed from candidate Trump to candidate Biden but was never provided answers regarding how or when such was to be rectified; 30 of the same signature on 30 different ballots but the Attorney General's Election Fraud Unit was not notified; and,

WHEREAS, election volunteer Mark Lowe testified to observing 100,000 votes per day in the adjudication room over 3-days improperly processed and a Dominion employee making a copy of an entire voter file and taking it home with him; and,

WHEREAS, evidence was presented that individuals were permitted to vote in violation of A.R.S. § 16-122, "No person shall be permitted to vote unless such person's name appears as a qualified elector in both the general county register and in the precinct register or list of the precinct and election districts or proposed election districts in which such person resides, except as provided in sections 16-125, 16-135 and 16-584; and

WHEREAS, the Arizona Election Code authorizes "poll watchers," selected by candidates and political parties, to observe the process of canvassing absentee, and mail-in ballots in certain counties in the State, the watchers were not allowed to meaningfully observe the pre-canvassing and canvassing activities relating to absentee and mail-in ballots; and

WHEREAS, the Arizona Election Code is silent on contested elections where proof of fraud sufficient to alter the outcome of an election is predicted and testimony detailing the fraud is taken; and

WHEREAS, on November 30, 2020, Members of the Legislature of the State of Arizona sitting as a Public Fact-finding Hearing on Election Integrity Panel (the "Panel") heard testimony and received evidence that through extraordinary means the vote count in some counties was electronically altered to award enough votes to a candidate that did not actually receive said votes in such a volume to alter the outcome of the election; and

WHEREAS, it is well settled civil rights law under the "Equal Protection Clause" of the United States Constitution, that to protect individual franchise of sovereignty the legal doctrine of "one person, one vote" shall apply to all elections, and

WHEREAS, the Arizona Legislature has the duty to ensure that no citizen of this State is disenfranchised, to insist that all elections are conducted according to the law, and to satisfy the general public that every legal vote is counted accurately;

AMERICAN OVERSIGHT

WHEREAS, mathematical modeling evidence was presented to the Panel to explain how the slope of tabulation for the Presidential candidates could only explained by a vote count of 130% of one party's registered voters, revealing the violation of "one person, one vote, and

WHEREAS, on November 30, 2020, the Panel was shown evidence that while tabulation of votes using vote tabulation equipment was intended, through extraordinary means fractional vote calculation occurred awarding more than one vote to one candidate and less than one vote to another; and

WHEREAS, evidence related to a break in the chain of custody of paper ballots was provided; and

WHEREAS, evidence related to a match signatures of voters to those found on paper ballot envelopes was provided; and

WHEREAS, evidence was received by the November 30, 2020 Election Integrity Hearing Panel that votes for candidate Trump were intermittently, and in some cases, immediately assigned to candidate Biden, and votes for candidate Trump were not tabulated; and

WHEREAS, evidence showing that tabulation data was sent via the internet to a foreign location outside of the control and supervision of the state and county elections officials; and

WHEREAS, in 2016, the State of Arizona's general election results were certified on November 30, 2020, when the Arizona Secretary of State, the Governor of the State and the Attorney General of the State prematurely certified results of the November 3, 2020 even while a hearing was underway revealing election fraud, knowing that such action would deprive a candidate due process in the ongoing litigation regarding presidential electors; and

WHEREAS, the Maricopa County Board of Supervisors, a political subdivision of the State of Arizona, has refused to comply with multiple subpoenas specifically demanding that Maricopa County provide a forensic audit of the Maricopa County elections processing equipment, software and ballot images even after publicly expressing a willingness to do so,

THEREFORE, be it RESOLVED that the Members of the Legislature of the State of Arizona;

1. Recognizes substantial irregularities and improprieties associated with mail-in balloting, pre-canvassing, and canvassing during the November 3, 2020 election; and,

2. Disapproves of the infringement on the Legislature of the State of Arizona's authority pursuant to the United States Constitution under Legislative plenary power and the "Supremacy Clause" to regulate elections; and,

AMERICAN OVERSIGHT

3. Declares that the selection of presidential electors and other statewide electoral contest results in this State involving both federal and state offices remains in dispute; and,

4. Declares that based upon the clear and convincing nature of the evidence that there remains an irreconcilable controversy which will continue to exist until such time as the controversy is properly resolved through the pending litigation or a forensic audit in multiple states, including Arizona; and,

5. Acknowledges that the Office of the President of the United States is in fact the Chief Magistrate of these United States, charged with the duty of care under the Guarantee Clause of the Constitution as such, to maintain free and fair elections; and,

6. Hereby notifies the President of the United States Senate and the Arizona delegation of Representatives in the House of Representatives that it is the position of the undersigned that we reclaim and recall both slates of the 2020 Electoral College Electors due to the irredeemable fraud that has been perpetrated upon the People of the State of Arizona

Subject:	Special Session

Dear Sir,
I write you on behalf of the millions of American voters who are convinced that the 2020 presidential election was neither free nor fair. We are furious that the voluminous evidence of systemic fraud has been systematically suppressed. And we demand that, before the result of the Electoral College vote is certified, such evidence must be presented to and considered by the United States Congress and Vice President Pence.

For that to happen, you must do your duty and object to the slates of electors for the contested states as you are entitled to do under 3 U.S. Code Sec.15. You as legislators are in your full constitutional right to decertify electoral votes in the states where you are confident that the election was not free or fair. Other states can and must write letters of support and address them to Vice President Pence prior to January 6th.

You are in full right to assemble with no need of support from your Governor or anyone else. I ask and expect you to act now and will accept nothing less.

You are clearly under pressure from the Senate Republican leadership not to object. Were you to capitulate to such pressure, however, you are on notice – as are your leaders – that we will view your acquiescence to the fraud-

AMERICAN OVERSIGHT

enabled theft of this presidential race as adding insult to the gross injury of our being disenfranchised.

In that event, you will be held personally accountable for the predictable consequences, which include: the evisceration of our governing institutions; the end of elections that are honest and competitive; and the ascendancy of oppressive forces that will deprive us of our God-given, unalienable rights and mutate our country beyond recognition – and, almost certainly, beyond recovery.

I anticipate that Americans who voted for President Trump will not vote again for Republicans who are party to the theft of his reelection by virtue of failing to seek, and ensure the public is made aware of, the truth about this fraud-wracked presidential race.

For all these reasons, you must do your duty. Legislators in the battle ground states, decertify now. Senate and House members at minimum, you must object and request a delay in writing to adequately investigate the fraudulent misconduct in order to certify the accurate count of the election as delivered by the American people. I pray that you fear God and do the right thing. "All needed for evil to prevail is for good men to do nothing". This is not an option. The people who elected you deserve it.

Thank you and God bless you and the United States of America.

Subject: A request regarding the 2020 election (PLEASE READ)

HONORABLE MEMBERS OF THE ARIZONA LEGISLATURE:

I'm a US citizen residing in New Mexico, and I'm a registered voter who voted in the 2020 election at my local precinct. As the outcome of the presidential election in Arizona obviously has national implications, I hope you will take time to read my respectfully submitted comments below. They are not fueled by Republican or Democrat bias, but rather by the desire to see justice carried out in Arizona with regard to the presidential election results.

Over the past two months our nation has experienced the following very disturbing developments:

*First, the election was marked by unprecedented fraud of various types that pervaded Arizona and several other states. This fraud has been proven by numerous scholars including mathematicians and cybersecurity experts, and has been corroborated by affidavits and sworn testimony from literally thousands of individuals who either witnessed fraud or were suppressed from carrying out their duties to monitor vote tallying. The fact that fraud played out in almost identical fashion in multiple states implies that this was a coordinated effort, and now foreign influence on election night has been proven as well. I will point out the following references as a summary:

https://www.scribd.com/document/488495896/Navarro-Report#download&from_embed (Peter Navarro's document of the various types of fraud proven in multiple states)

https://wpcdn.zenger.news/wp-content/uploads/2020/12/24190822/2020-12-23-Sidney-Powell-Team-Binder-ZENGER-NEWS.pdf (Sidney Powell's document proving foreign interference in the voting process)

https://www.youtube.com/watch?v=9ntCNHr6-do (video of Prof Shiva at the legislative hearing exposing the Dominion software's "weighted race" feature that enables "vote flipping" and demonstrated the high statistical probability that a large number of votes in Maricopa County were flipped from Trump to Biden)

https://docs.google.com/spreadsheets/d/1dipTeX74jeYeT61mO736Aolb3FPJQVjX7aK1JVnKDq0/edit#gid=0 (list of illegally registered voters compiled by Matt Braynard, including those in Arizona)

*Additionally, the weeks following the election saw massive efforts on the part of the Arizona Governor, Secretary of State, and election officials to obstruct justice by delaying and/or denying requests for election data, and to certify Democrat (Joe Biden) electors for Arizona while the election outcome was still clearly in dispute. These individuals chose to ignore the fact that fraud has likely led to an unfair result, enraging millions of Arizonans, as well as the U.S. citizenry at large. Officials in several other states participated in similar obstruction, in some cases going so far as to DESTROY voting records and other election evidence. Meanwhile, most judges have not had the courage or proper judicial temperament to hear the election fraud cases that have been put before them. In fact, as of this writing, SCOTUS has either refused to hear every election fraud case brought before it or has docketed cases for AFTER the January 20 inauguration.

*Finally, many mainstream media outlets have chosen to drive the narrative that the certification for Biden in Arizona must be correct, while ignoring the blatant fraud, launching character attacks at whistleblowers and scholars, and even disrespecting concerned citizens bold enough to question the outcome.

Given the fact that far more votes have been thrown into doubt than the recorded margin of Biden's victory in Arizona (approx 11,000 votes), I believe every fair-minded individual understands that the will of the Arizona voters cannot be ascertained from the currently recorded vote tally. I've researched the issue carefully, watching the various Arizona hearings that occurred and studying the experts' analysis, and my conclusion is that Donald Trump was in fact the legitimate winner in Arizona.

Therefore, by Article II Section 1 of the U.S. Constitution, I request that the Arizona legislature formally DE-CERTIFY the Democrat (Joe Biden) electors for Arizona and formally ACCEPT the Republican (Donald Trump) electors.

I understand the reading of the electors by U.S. Congress is only days away, and many of you feel there isn't enough time to perform this action. But suppose for a moment that a Dominion official suddenly came forward confessing that the Dominion system did in fact flip votes from Trump to Biden, and that Trump was in fact the legitimate winner in Arizona. Obviously, the Arizona Legislature would immediately go to any lengths necessary to formally award Arizona's electoral votes to Trump. Indeed, to not do so would incite a riot on the steps of the State Capitol by Arizona voters infuriated that they've been disenfranchised! While no such "criminal confession" scenario is likely to arise, I argue that the overwhelming evidence of fraud—testimony, analysis, etc—is equally compelling and should motivate the Arizona

AMERICAN OVERSIGHT

Legislature to act immediately. If a formal declaration cannot be communicated to the Congress (particularly Sen McConnell, Congresswoman Pelosi, and Vice-President Pence) by January 6, I recommend that each of you contact these individuals stating your preference, and make your statement public as well.

Finally, I understand many of you may be experiencing coercion or intimidation regarding this matter. I'm truly sorry for this undue stress that has been thrust upon you, but I entreat you with every fiber of my being to preserve the will of the Arizona voters above all. I fear our nation will never recover from the injustice of this election if the Legislatures in Arizona and other states do not take action.

Thank you for taking my comments as a concerned citizen into consideration, but please reach out to the constituents in your respective districts for their opinions. They are the ones who will eventually vote for or against your re-election, and they are all watching very closely how you act during this critical time. I would add that potential contributors to your future campaigns are watching as well.

To our Honorable Public Servants, Arizona House Members: We are your kindred American Veterans, American Warriors, and most also sons and daughters of America's former Warriors, standing at America's Gates and on Her Walls today and, since our six (6) month winter encampment in General Washington's Continental Army at Valley Forge the Winter of 1777-1778. Today, January 5, 2021, we join united and extremely serious with one voice speaking to you at America's

Gates and on Her Walls to communicate this message, and also to our other elected House Members in the States of Georgia, Michigan, Nevada and Wisconsin. Now, relying on your "respect for our Heritage" as "We, the People" of this American Nation, "We" request you "Listen and Understand", with Great Care, this important "Clarion Call" from your "Band of Kindred Veterans" who've been presented clear evidence of sufficient and substantial "Voter Fraud" in the November 3rd, 2020 American Presidential Election in each of the above States which will change the Electoral College Votes Certification from Biden to a HISTORIC Trump Victory while supporting criminal charges being brought against many individuals participating in this "Worst Presidential Election Voter Fraud" in American History. Federal Election Law, as further governed exclusively by State Legislatures (no exceptions), requires ALL Original Ballots be cast properly; completed and signed by properly registered voters and, once counted and filed, securely maintained for 2 years, for recounts or audits, before they can be discarded {FOR OBVIOUS AUDIT REASONS}. Regardless of voting machine totals, those original ballots are the BIBLE AKA TRUE SOURCE to insure "NO FRAUD"!! This did not happen!! Ballots were copied, forged, or shredded so VOTE THIEVES could hide their dishonesty while leaving thousands of American Citizens' shredded votes cancelled!! This is the worst crime of all crimes in America!! INDEPENDENT Forensic Audit Professionals can ascertain and, if not shredded, count and report these "Authentic and Legal Ballots/Votes" within a week to 10 days at a central location in each of these States. These Authentic and Legal Ballots were found to be negligently lost, stolen and/or shredded and these culprits must be indicted for "Voter Fraud" as this is American Society's most destructive crime, not to be condoned.

AMERICAN OVERSIGHT

We request you hear our "Clarion Call" and "Cancel" any "Biden Electors" you may have sent for the January 6, 2021 Electoral College count pending a "Proper Independent Forensic Audit COUNT of nothing less than VOTES evidenced by an Original-Authentic-Legal Ballot signed by a Legally Registered LIVING Citizen and, during these Auditing Activities, Indictments will be rendered, insuring American Voters disenfranchised are compensated and perpetrators are held accountable!

Subject: *Object to Biden Electors*

Dear Representative,

I plead that on January 6th you **object to the Biden electors from the 6 states that are full of fraud.** The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current Republicans in office to stand up against fraud and imminent socialism, I want them to be primaried. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators are not correcting this fraudulent election. You need to decide now to stand up against fraud and support our President.
"

Look at the evidence and do not give into the smoke and mirrors of the media and big tech firms. Once they control our politicians they will control our laws and you.

I am part of a group of 100's of thousands of activists, growing in numbers. We all realize that we need to fight for good politicians. We will undo the psychological warfare on the people to give up their human rights and give up our founding principles. We have new communication channels outside of Big Tech. We are organizing and committed to supporting you.

We understand the pressure that you are under from your perception of reality from mainstream media, big tech and their violent wing of Antifa and other groups. This is not about President Trump, this is about the future of our country and the free world. It is one thing to fight/debate against each other about issues that we care deeply about. But to turn a blind eye to our whole system being taken down with this election is another.

We understand their manipulation tactics and will fight to support you. We are coming to have your back if you make the right decision.

MAKE THE RIGHT DECISION! HAVE COURAGE!

AMERICAN OVERSIGHT

Those who make the correct decision, will be remembered like the soldiers that stormed the beaches against global totalitarianism. Those that turn a blind eye to the crimes of the century will be remember as people who make an oath to defend the Constitution only looked for excuses. If they get away with this, it will only get worse for generations. I wish no harm to you, and our group is not like Antifa. But it seems like when Antifa threatens harm that is the only way to influence you. Do not fear.

We are all made in his image and can make the right decisions. We are also our Brother's, Sister's or Fellow Human's keeper. We have your back in doing the right thing. We will also work against your re-election and show the world who turned a blind eye to the theft of our country.

As a group of citizens, we know our responsibility is to fight and support the politicians who do the right thing. We commit to support you in doing the right thing. We also commit to challenging you in future elections. See the attached link and/or file summary of fraud! They are the same.

BE A HERO AND TAKE A STAND FOR FREE AND FAIR ELECTIONS. BE REMEMBERED AS THE POLITICIANS WHO DID NOT GIVE UP OUR ELECTIONS TO TERRORIST TACTICS AND FOUGHT OFF TOTALITARIAN RULE BY THE COMPANIES/OUTSIDE COUNTRIES THAT CONTROL OUR ELECTIONS!

May you be blessed with courage and the be a hero for the Free World no matter what side of the aisle you are on.

Sincerely,

Subject: Legal Elections Supremacy Clause

Dear Honorable House Representatives and Senate Members (Arizona Legislature):

For the sake of expediency, please forgive my collective message, verses, individual messages to each of you. Please invoke the "Supremacy Clause" of the United States Constitution and "call yourselves into session" before Wednesday, January 6th, 2021. It is my understanding that the federal law preempts the state law under this clause. Please assess and certify only the correct Slate of Electors! That is to say:

- Make an assessment of what happened in our election(s) and decertify the existing Slate of Electors if you are uncertain of the legal standing.
- Certify the correct Slates of Electors, if we can get rid of the illegal votes, certify only the legal ones, or legally remedy the circumstances.
- You can not, as Arizona Legislators, count "illegally certified or fraudulent votes"!

Recall is in order and must be considered and acted upon if we do not feel, as citizens of the United States of America and the State of Arizona, that we

have legal elections in our state. Be proud to do the right thing and secure Legal Elections for our state and nation.

Subject:	Election Integrity

Honorable Representative,

I used to consider myself a democrat, I believe is pro-choice. I voted for Trump in 2016 and 2020 because my brother has told me for years how corrupt The Clinton Administration was and their connections with the Obama/Biden Administration. I wasn't that crazy about Trump, I just felt confident in what he was doing for our country based on what my family told me. I would see the headlines tearing Trump apart and the Facebook posts saying he was such a horrible person. I would just think to myself well I don't have to hang out with him, but I trust him with our country.

My brother committed suicide this year and I wanted Trump to win for him, because it was what he would have wanted. I voted and I watched the news until around midnight on November 3. I went to sleep knowing my brother would be happy with the results. When I woke up the next morning, like so many others, I was confused. How Nevada just decided to stop 'counting' for days was a little bizarre. I kept doing the math...Trump won PA (that lead was too big to lose), as long as Georgia and one other state and it will be okay. Then all of the sudden every close state went blue.

I had to see what was going on, it didn't make sense. I have watched every minute all of the hearings in MI, PA, AZ and GA and follow all of the news in NV and WI. I have listened to all the whistleblowers, the witness testimonies, and the experts several times. Day after day, I am losing all faith in this country. There was so much evidence and I am at such a loss that no court would let Trump have his day in court. Why couldn't the evidence be heard? Why couldn't these signature audits take place? How can our court system be in on this too? Why is this about your party affiliation? How can anyone that watched the video at State Farm Arena in Fulton county not DEMAND an audit? How is Ruby Freeman not in prison? How are all of the whistleblowers and witness testimony just being ignored? How was the chain of custody broken with these ballets and nothing being done about it? How did Biden win against all odds and against all the improbabilities and impossibilities found in the statistical analysis found by specialists? How has no more action been taken across the country and in the state legislatures? How am I (and millions and millions of Americans) ever supposed to trust that this election was fair when I(we) have so many questions? Every time I think I am going to get an answer there is a new twist that prevents it (and the media twists it and/or buries it).

It all makes me sick to see the evil and dishonesty that is taking over our country. Every time I see a democrat in these hearings say some empty rhetoric about "the court said there was no evidence." I can't stand for it. The evidence was never heard! Stop stalling, stop running out the clock. I am deeply scared for the state of our country. I feel I am being lied to by many politicians. We The People want this to be properly investigated but we are being ignored. I am scared for the future of our country if our elected officials and our courts will so blatantly lie and stall. No one on "my side" wants to threaten democracy. We are trying to do the exact opposite. We want our elected officials to fight for us and do what is right. Fight for election integrity. Fight for my vote. Fight against all illegal and dead voters. Every single vote that is illegal disenfranchises every single legal vote that is cast. Please properly investigate the election in your state and send the correct electors to Congress.

AMERICAN OVERSIGHT

If Joe Biden wants to be our president, he should be demanding an investigation himself. He should be requesting audits that show the American people who truly won this election. If he is the rightful winner, he should want an audit and invite it to legitimize his presidency. At least 50% of the population (probably more) will not believe he is the rightful winner if he takes office without more answers. My honest opinion is Joe Biden knows how fraudulent this election was. He was in on it. He stood at a podium on November 3, when he was clearly losing and acted like he was winning. He needed to do that to help lead the narrative that the mainstream media was going to push the next day.

Please stand up on January 6th and OBJECT to the electors in the states that sent dueling electors. You should be up in arms fighting for answers. Set the standard that our votes matter! We want honest elections. That is all we are asking for and we need YOU to help us. That is what we elected you to do.

Respectfully,

Katie Giancola

P.S. The American people are not blind. We can see through the agenda that mainstream media is attempting to push. The story can no longer be fed to us through the 'fake news'. I didn't even understand this terminology 'fake news' from Trump until these last few months. Now I can't believe it took me so long it is blatant and obvious. I listened to the entire hour of Trump's phone call with Raffensperger et al and it is laughable how the mainstream media twisted that conversation. In the start of this email I stated that I didn't care for Trump, but after all I have seen I do now. Now that I have looked for the information myself, I believe that Trump was the best thing that ever happened to this country. I believe that the media has attempted to ruin his image for too long. I believe they have gone too far now and the American people are on to them. I trust Trump more than any other politician. The politicians that have stood up for a free and fair election are definitely catching my eye and my vote when the time comes.

Subject: Contest Electoral Votes on January 6, 2021

Good evening,

As a concerned citizen and registered voter in Texas, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states.

There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020, to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden.

The fate of our country hangs in the balance.

Dear Arizona Republican State Legislators: You must act! Decertify your election due to known irregularities, fraud, and illegal behavior. Contact every Republican member of Congress in both the U.S. House and the U.S. Senate and ask them to challenge the election on January 6, 2021 because the results are not trustworthy. The Founders provided all the legal remedies needed to address and cure a corrupted election. But they could not legislate courage or political will. Our country is facing serious issues. The time to take a principled stand is now. Well over 70% of Republicans now think the election is corrupted. 30% of Democrats think so (Rasmussen)! And this with the censorship by mainstream media of the facts, the hearings, and presentations of massive evidence! 75% of Republicans expect their GOP elected officials to advocate America First policies and that includes fighting for us and this election! There is no sweeping this under the carpet or business-as-usual. I implore you to search your individual consciences and then contact the GOP House and U.S. Senate and ask them to challenge the election. Decertify your state's results! Thank you. Subject: Arizona, DECERTIFY!

You, as State legislators MUST reassert their constitutional authority over the election.

On January 6th, our U.S. Senators and Representatives have a duty to validate the results of the Electoral College vote for our next President.

If they have reason to believe the Electors got it wrong, they also have a duty to reject those results.

For nearly two months, we have been told there's "no evidence" of electoral problems – at *least sufficient to affect the outcome of the presidential race.*

Actually, **there is such evidence – plenty of it**.

- All of the questionable ballots must be properly examined by a digital forensic expert.
- *State legislators MUST reassert their constitutional authority over the election.*
- U.S. Senators and Representatives must question the electoral vote unless until the ballots have been properly reviewed by the legislators.
- Our Vice President Pence must exclude any questionable electoral votes until the ballots have *been examined.*
- Every legal vote must be counted and every illegal vote must be set aside.

Our nation, our Constitution and our children's future requires us to do no less.

I pray you do the right thing and stand with virtue, dignity, honor and integrity and Decertify the contested Electoral Votes which have been sent to the US Government for counting on Wednesday!

Thank you,

Debra Sparks

"I urge you to object to the Electoral College votes in the states of Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin at the joint session of Congress on January 6.

The burden of proof should always be on those who seek to certify an election. That burden is especially difficult in a close election. That burden has not been met in the 2020 election for president.

In a year when the number of mail-in ballots increased by an order of magnitude, safeguards should have been increased. Instead, the safeguards were reduced. Indeed, state officials went so far as to circumvent state law in order to reduce safeguards.

- Requirements for voter and witness signatures were reduced or eliminated.
- Requirements for voters receiving blank ballots by mail were reduced or eliminated.
- Requirements for dropping off completed ballots were reduced or ignored.
- Regional counting centers were set up for the first time, requiring more transit of ballots, and allowing for enormous counting rooms so that official observers could be corralled far away from the action they were entitled to observe—yet still be told that they could not complain because, after all, they were in the room.

Evidence of illegal votes—minors voting, non-citizens voting, non-residents of states voting, individuals voting more than once, individuals without residential addresses voting, late votes being counted, broken chains of custody of ballots—has been identified, impacting many thousands of votes, far more than the slim margins of victory in more than enough states to swing the election.

Instead of investigating this evidence, state officials have ignored it, or—worse—have obstructed investigations into this evidence.

Hundreds if not thousands of sworn affidavits have testified to violations of election law or to outright fraud, again impacting many more votes than the margins of victory in various states.

Instead of investigating these allegations, state officials have ignored them and obstructed attempts to investigate these allegations.

The courts have mainly refused to consider the evidence, on the grounds of standing or laches. Plaintiffs were deemed either too early, with no harm yet inflicted, or too late.

Three Wisconsin Supreme Court Justices who actually considered evidence decided in favor of President Trump. But in most cases, when courts did consider evidence, the standard of evidence applied was that of a criminal case—though plaintiffs had a tiny fraction of the time usually needed in a criminal prosecution, and in the absence of investigation or even cooperation by law enforcement and other government agencies.

This posture by the courts gets wrong the burden of proof in this matter. The certifying of an election is a positive act, requiring proof of diligence in upholding the law to secure the election.

I urge you to demand such proof on January 6.

In the absence of such proof, there are other means our founders identified for electing our president. State legislatures, elected by the people, could select electors. The U.S. House, elected by the people, could elect the president.

AMERICAN OVERSIGHT

The elections of some state and United States legislators probably are also tainted—but not as badly as the presidential election, for one reason: The margin of victory in most elections of legislators is much greater than the margin of victory for president in the contested states.

Just as the Electoral College protects against regionalism and fraud in a given state, the election of legislators by legislative district protects against regionalism and fraud in a given part of a state.

The impact of fraud in one district is largely contained within that district. It is this district-level protection that our nation must now rely on to protect against the corruption that exists in specific districts of several states.

If we don't have fair national elections, we don't have a free country. The United States Congress, elected by the people of each Congressional district, may be our last chance to save freedom in our nation. "

Dear Legislator, I am pleading with you to take back the Biden electors and certify the Trump electors for Congress. There is no need to have Republicans in office if they are not going to stand up for something this obvious and important. I want all Republicans who don't stand up to this fraud and support President Trump, to be recalled. Also, all Dominion Voting machines need to be forensically examined. Make it happen! If mainstream media and social media were not censoring us, you would be getting 10 times as many contacts about this election.

I plead that on January 6th you object to the Biden electors from the 6 states that are full of fraud, including our own. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current Republicans in office to stand up against fraud and imminent socialism, I want them to be primaried. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators are not correcting this fraudulent election. You need to decide now to stand up against fraud and support our President.
America is watching. You have the power to halt the theft of the Electoral Votes of our state. Rise to this moment in history and protect the Republic and Constitution to which you have sworn an oath.

I can imagine that the pressures brought against you are formidable. However, right is right. Truth and truth. I remind you of the oath of service that you will swear as you assume your responsibilities in Washington:
"I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God."

An oath is an oath. And there are foreign and domestic enemies that have undermined the integrity of the election process through rampant fraud. Now is the time to act. Join with Mo Brooks from the House in objecting to these electoral votes on Jan 6, 2021. Mitch McConnell's recent statements congratulating Biden as President-elect and abandoning Trump's legal battles have caused me to totally abandon the Republican Party if people like yourself and others do not act.

Please do the right thing.

I do not live in Arizona but feel compelled to contact you to urge you to self-convene a special session to select a new slate of electors before January 6th. The entire nation has watched while your governor, secretary of state, and other elected bureaucrats have circumvented the power and the duty of your state legislature to choose electors. The result has been the most crooked election in modern history and the American people deserve better. You should know that you do not need the Governor's permission to call a special session as the federal constitution preempts the state constitution. The Supremacy Clause in the federal constitution clearly states you have the authority to call a special session. The majority of AZ voters know that the electors sent on December 14th were ILLEGALLY certified and need to be withdrawn. Hello,

I'm writing to ensure you hear from me, a citizen of the United States of America, the critical importance of challenging all electors from swing states (AZ, GA, MI, NV, PA, and WI) in the 2020 election. As a proud patriot, I feel hopeless and powerless against the fraud committed in key states outside my own, who now have the power to rob myself and our entire country of a free and fair election.

As a Christ-follower, my hope is ultimately in the Lord Jesus Christ, and I am confident this world is not our home. However, as long as I am alive I feel it my Christian duty to advocate for conservative Christian values built on Biblical principles which enable freedom of individual choice, and encourage dependence on God over government.

Thank you for listening; I trust you will act on behalf of your constituents and fellow citizens when electorates are counted on January 6th, 2021.

Subject: Prevent the Steal on January 6

Dear State Representative,

America and our cherished freedoms depend on the reliability of our elections. We should never see evidence of a single vote being altered or deleted, yet in 2020 we have seen incredible convincing evidence of widespread voter fraud and manipulation. This threatens our republic at its very core.

Battlegound states such as ours need to act prior to January 6 to prevent an election steal and a subsequent railroading of the results. It's clear the compromised leaders in the nation's Congress plan to force the illegitimate results of this fraudulent election on the American people.

I can think of no greater form of tyranny or injustice than to steal a national election… and to succeed at it. It's one thing to recognize that fraud has happened, and another to fail at preventing the aim of the crime.

State legislators must convene in special sessions and DE-CERTIFY Joe Biden's electoral votes PRIOR TO JANUARY 6. You are America's last line of defense. Certify to US Congress that Donald J. Trump is the rightful winner of the 2020 presidential election and only his electoral votes MUST be counted before the joint meeting of the House and Senate.

The future of our nation and every national election going forward is at stake. This is your moment to protect America!

Subject: URGENT REQUEST to Decertify ARIZONA Election Results (House)

Dear Honorable State Legislators,

I am an attorney practicing in the State of Massachusetts, located in Boston.

As an American citizen who regularly participates in state & federal elections, I harbor very great concerns that the General Election conducted in your state last November violated several election & voting laws that had been duly enacted by your state legislature.

In similar fashion with all seven of the swing states (i.e., AZ, GA, MI, NM, NV, PA, WI) involved in the November, 2020 election, your state's election appears to have been conducted in a manner which allowed enormous voting & election irregularities (e.g., counting absentee or mail-in ballots without proper observation of existing requirements to authenticate & validate voter eligibility, date of voting, voter signature & identity, timely submission of ballots, improper extension of ballot receipt dates, ballot harvesting, unlawful electronic manipulation of election tabulation results, disallowing meaningful observation to poll watchers, etc.)

As a result of what can only be properly characterized as extensive voting & election fraud, resulting in errors that far exceed the alleged margin of election victory in any of the swing states, your election results are simply without any legal merit.

These election results should never have been duly certified by your Secretary of State, nor your Governor, nor should they have appointed electors to cast their vote with the Electoral College in accordance with such unlawfully certified election results.

The type of election & voting law changes that were unlawfully enacted by individuals & groups within your state in advance of the November, 2020 election, as was done in all seven of the swing states (i.e., AZ, GA, MI, NM, NV, PA, WI) involved in this election, appear to have been implemented without proper consent or approval of your state legislature.

To the extent that these election & voting law changes were effectuated by various state election officials, including the Secretary of State, Governor, local voting registration clerks, or state courts, they are clearly in violation of your state's constitution, as well as the U.S. Constitution, which vest exclusive, plenary authority to enact such election & voting laws with your state legislature, and with no other executive, judicial or administrative bodies.

As such, several fundamental constitutional rights have been severely violated, and these violations have significantly & unfairly diminished legitimate votes cast by other citizens situated throughout the United

AMERICAN OVERSIGHT

States. The responsibility to remediate these grievances rests with each & every one of you in the state legislature.

On or prior to January 6, 2021, and most certainly prior to January 20, 2021, I would respectfully, but strongly, urge that you have a constitutional duty to decertify these unlawful, unconstitutional election results. Thereafter, I would suggest that you have only two choices remaining, namely:

1. Conclude that the election results, once properly audited by independent forensic experts (perhaps in accordance with the Electoral Commission being proposed by Senator Cruz et al.), warrant a certification in favor of Trump-pledged electors to vote in favor of reelecting President Trump (i.e., effectively override & supersede the certification by your Governor & Secretary of State, which certification authority had been improvidently delegated to them, apparently for administrative convenience); or

2. Conclude that the election results are so untrustworthy, that none of the electors appointed to vote with the Electoral College on December 14, 2020 should have been certified, and that no electoral votes from your state can be recognized by the Electoral College nor by Congress on January 6, 2021.

Thank you for your consideration of my concerns. I truly hope that you have the sense of constitutional responsibility & courage to do the right thing. Our Republic's future is dangerously close to being lost!

Respectfully,

Dear State Representatives for the State of Arizona:

As a citizen of this great country I am very concerned about the many issues with how the 2020 Presidential Election was conducted in Arizona. Each of you took an oath to uphold the constitution of the United States of America and the constitution of your state. As you are most certainly aware, Articles in the U.S.Constitution and your state constitution govern the elections for the President of the United States of America.

It is widely known that in Arizona, as well as other states (primarily swing states) there were numerous violations of our Federal and your state constitution governing elections. It is also widely known that election fraud of various types was committed throughout the election in Arizona; from mail-in ballots, casting of illegal ballots, adjudication of ballots, manipulation of the voting machines, tabulation of votes, not allowing poll watchers for Trump into the facilities to actually observe and participate in the ballot processing, among other types of fraud.

If you cannot acknowledge that this fraud and illegal activity took place, then you are either not smart enough to be a representative or you are willing to be complicit with violations of the U.S Constitution, Arizona constitution and with others' violations of the constitutions in the election of the President of the United States. YOU have an obligation to ensure that the electoral votes from Arizona are valid, cast as the outcome of a lawfully held election. If they were not, then YOU have an obligation to ensure that those electoral votes are not certified.

It is quite clear that the electoral votes for Biden are not lawful. I pray that you do everything in your power to demand a special session of congress, or by whatever means is possible, to make objections to electoral votes for Biden and that you take back your authority to send your own certified electors for Trump to the U.S, Congress on January 6, 2021. Please act with your heart and mind set on doing your constitutional duty and look at the truth of the fraud committed in the Arizona election. Votes were stolen and illegally given to Biden..

I pray that you ensure that there is a thorough investigation into the wide-spead election fraud. I strongly believe that a forensic audit of voting machines MUST be done. If there is no fraud then there should be no reason to not DO THE RIGHT THING.

Sincerely, Virginia Parmenter

Operation Warp Speed (COVID-19 Vaccines)

The U.S. Department of Health & Human Services Provides Operation Warp Speed / Vaccine Distribution Update (December 29, 2020) (**Tweet**)

- We have now allocated 19.88M first doses for delivery, with second doses on hand to be shipped in a few weeks, getting us to the goal of having enough doses available by the end of year for 20M Americans
- Data reported to the CDC significantly lags actual vaccinations administered. The CDC website says "A large difference between the number of doses distributed and the number of doses administered is expected at this point in the COVID vaccination program."
- We are grateful for the work jurisdictions and vaccinators are doing over the holidays, and we're working with jurisdictions who are already executing plans to ramp up rate of vaccinations and expand administration sites
- CDC **published** a COVID-19 vaccination playbook for jurisdictions in September, and has been working with them on their vaccination plans ever since -OWS is providing jurisdictions kits with the needed needles, syringes, and other supplies for vaccinations along with the vaccines
- CDC issued **$200M** to jurisdictions for flu/COVID vaccinations in September - CDC issued another **$140M** to jurisdictions for COVID vaccinations in December
- Across OWS, the DPA has been used 18 times. We have not hesitated to use the DPA, and Secretary Azar has made it clear he'll use every power at his disposal to ramp up vaccine production safely. There are, however, physical and operational limits to safe, quality, vaccine production.
- Vaccines are already free for Americans, thanks to the work of the Trump Administration -HHS has already launched a massive campaign to increase vaccine confidence and encourage uptake
- The first U.S. COVID-19 vaccine authorization was on **December 11** and the first U.S. COVID-19 vaccination was 15 days ago, on **December 14**
- As a reminder, distributing millions of safe and effective vaccines within a year after a novel virus hit our shores is a historic and remarkable accomplishment

On December 11, the Trump Administration **announced** the purchase of an additional 100 million doses of Moderna's COVID-19 vaccine.

CDC Launches COVID-19 Vaccine Data Tracker

The Centers for Disease Control and Prevention launched a vaccination data page with jurisdiction-level data. The page tracks the total number of COVID-19 vaccines administered in the United States. You can find the tracker **here**. Note that data reported to the CDC significantly lags actual vaccinations administered, or as stated by the CDC, "A large difference between the number of doses distributed and the number of doses administered is expected at this point in the COVID vaccination program."

As a reminder, the 64 jurisdictions - which encompasses all 50 States, 8 U.S. territories, and six major metropolitan areas - as well as five federal agencies - including the Indian Health Service, Department of Defense, and Department of Veterans Affairs - are responsible for administering vaccines. Each week, as doses are released by companies for distribution, planes and trucks transport the vaccine to States and jurisdictions across the country. Learn more about the distribution process **here**. Find distribution plans for all 64 jurisdictions **here**, the Indian Health Service **here**, and the Department of Veterans Affairs **here**. Local officials should coordinate with their respective States on any vaccine allocation and/or distribution questions.

On December 27, 2020, President Trump signed into law the Consolidated Appropriations Act of 2021, providing $1.4 trillion for the fiscal year ending September 30, 2021. In addition to funding the Federal government, the act delivers coronavirus emergency response and relief.

With the signing, the President released the following statement:

I will send back to Congress a redlined version, item by item, accompanied by the formal rescission request to Congress insisting that those funds be removed from the bill

Treasury and IRS Begin Delivering the Second Round of Economic Impact Payments to Millions of Americans

The Treasury Department and the Internal Revenue Service will begin delivering a second round of Economic Impact Payments to millions of Americans as part of the implementation of the Coronavirus Response and Relief Supplemental Appropriations Act of 2021. The initial direct deposit payments began arriving as early as December 29

AMERICAN OVERSIGHT

for some and will continue this week. Paper checks began to be mailed on Wednesday, December 30. This second round of payments will provide critical economic support to those who, through no fault of their own, have been adversely impacted by the COVID-19 pandemic.

Eligible individuals will receive an Economic Impact Payment of up to $600 for individuals or $1200 for married couples and up to $600 for each qualifying child. Generally, if you have adjusted gross income for 2019 up to $75,000 for individuals and up to $150,000 for married couples filing joint returns and surviving spouses, you will receive the full amount of the second payment. For filers with income above those amounts, the payment amount is reduced.

This second round of payments will be distributed automatically, with no action required for eligible individuals. If additional legislation is enacted to provide for an increased amount, Economic Impact Payments that have been issued will be topped up as quickly as possible.

The swift issuance of this second round of payments follows the successful delivery of more than $270 billion in CARES Act Economic Impact Payments earlier this year, providing crucial economic support to nearly 160 million Americans.

Eligible individuals may check the status of payments at **IRS.gov/GetMyPayment**. For more information about Economic Impact Payments, please visit **IRS.gov/EIP**.

Appropriations Bill Enhances Conservation, Outdoor Recreation & Wildfire Prevention

President Trump has made enhancing our nation's conservation initiatives a top priority, signing several historic conservation bills, including the John D. Dingell, Jr. Conservation, Management, and Recreation Act and the Great American Outdoors Act. Unlike other Administration's before it, the Trump Administration succeeded in enacting permanent full and mandatory funding for the Land and Water Conservation Fund and put in place funding to address the long discussed but never solved the

AMERICAN OVERSIGHT

problem of the maintenance backlog at our national parks and other public lands. The President also opened or expanded 4 million acres of land to new hunting and fishing opportunities, recovered the most endangered or threatened species in history for the first term of an Administration and treated 5.4 million acres of land to prevent wildfires – a 49 percent increase in comparison to the last 4 years of the previous Administration.

Here are some notable highlights in the Consolidated Appropriations Act of 2021 that Interior supported to improve conservation:

- **Great American Outdoors Act** – Provides full funding through the National Parks and Public Land Legacy Restoration Fund for priority projects addressing the maintenance backlog at national parks, wildlife refuges, public lands and American Indian schools and full funding through the Land and Water Conservation Fund to protect and conserve lands and waters across the country as identified by Interior.
- **Wildfire Management** – Provides $992.6 million ($40.3 million more than 2020) for Interior wildfire management activities, including fire preparedness, fire suppression, fuels management, burned-area rehabilitation, fire facilities and fire science, in addition to $310 million ($10 million more than 2020) for the Wildfire Suppression Operations Reserve Fund. The funding would allow Interior to provide grants to train non-Federal fire departments and similar groups to fight wildfires.
- **National Recreation and Preservation** – Provides two-year funding for the National Recreation and Preservation Account, allowing the National Park Service to more efficiently and effectively manage available resources and adjust for disruptions in a fiscal year.
- **Sage Grouse** – Provides $74 million for sage-grouse conservation.
- **Long Bridge Project** – Permits the National Park Service to convey lands for purposes of transportation and recreation for the Long Bridge project.
- **1908 Springfield Race Riot Site** – Authorizes the Secretary of the Interior to conduct a special resource study of areas associated with the 1908 Springfield Race Riot, which Secretary Bernhardt proclaimed as part of the African American Civil Rights Network on Aug. 21, 2020, and make recommendations on its possible inclusion as a unit of the National Park System.
- **New River Gorge National Park and Preserve Designation** – Redesignates the New River Gorge National River in West Virginia as the "New

River Gorge National Park and Preserve" totaling approximately 7,021 acres expanding recreational access.

Executive Order on Improving Price and Quality Transparency in American Healthcare

On Tuesday, December 29, the D.C. Circuit Court of Appeals affirmed a signature initiative of the Trump Administration, which ensures that American patients have access to the hospital pricing information they need when they need it, beginning January 1.

President Donald J. Trump: Because of the Trump Administration, hospitals are now required, effective immediately, to publish their REAL PROCES, which will create competition and drive downs costs MASSIVELY. Won lawsuit last week. Bigger than healthcare, it's called PRICE TRANSPARENCY.

HHS Secretary Alex Azar: Big win for American patients today. The DC Circuit ruling is another major victory for President Trump's transformative healthcare agenda. Starting January 1, Americans will have access to the actual prices paid for the most common hospital services.

In November 2019, President Trump signed an **Executive Order** on Improving Price and Quality Transparency in American Healthcare. As directed under the Executive Order, the Centers for Medicare & Medicaid Services (CMS) issued two rules that take historic steps to increase price transparency to empower patients and increase competition among all hospitals, group health plans and health insurance issuers in the individual and group markets. One of the rules - **the Calendar Year (CY) 2020 Outpatient Prospective Payment System (OPPS) & Ambulatory Surgical Center (ASC) Price Transparency Requirements for Hospitals to Make Standard Charges Public Final Rule** - requires hospitals to provide patients with clear, accessible information about their "standard charges" for the items and services

AMERICAN OVERSIGHT

they provide, including through the use of standardized data elements, making it easier to shop and compare across hospitals, as well as mitigating surprises.

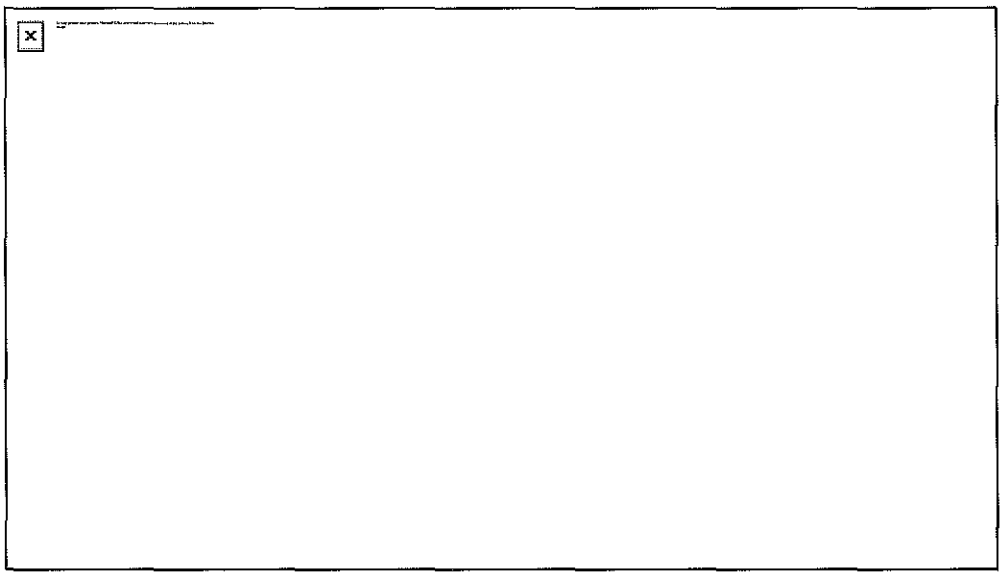
Executive Order on Expanding Educational Opportunity Through School Choice

On Monday, December 28, President Trump signed the **Executive Order** on Expanding Educational Opportunity Through School Choice. The Executive Order offers States and eligible entities the flexibility to provide certain disadvantaged children with emergency K-12 scholarships to access in-person learning opportunities.



Under the Executive Order, States and eligible entities may use available Federal Community Service Block Grants (CSBG) funds to provide life-changing scholarships to families whose children cannot access in-person learning. Scholarships provided with CSBG funds can help families pay for private school tuition, home schooling, micro schooling, learning-pod expenses, special education services, or tutoring.

HHS Secretary Alex Azar: **President Trump's executive order will help children and families without access to in-person schooling to secure it with scholarships and other funding mechanisms for private options where public options are not available.**

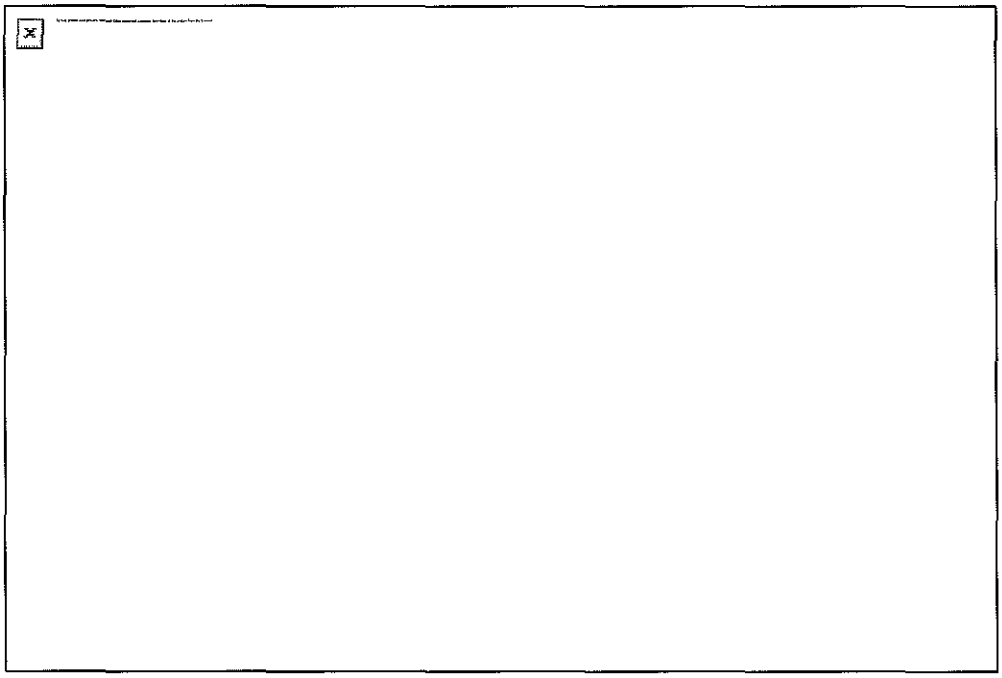
President's Commission on Law Enforcement - Report Released

On December 22, 2020, the President's Commission on Law Enforcement and the Administration of Justice released it's report following months of virtual meetings, testimony and study. This report represents the first comprehensive study of law enforcement in more than 55 years. Read the report **here**.

On October 28, 2019, President Donald J. Trump signed **Executive Order No. 13896**, which directed the Department of Justice to establish the "Commission on Law Enforcement and the Administration of Justice." The purpose of the Commission was to conduct a modern study of the state of American policing and determine specific measures to reduce crime and promote the rule of law. At the conclusion of this study, the Commission was to issue a report.



At a ceremony in **January 2020**, Attorney General Barr announced the establishment of the Commission and the individuals who would serve as commissioners. From January through July, the Commission met formally more than 50 times – adjusting to the challenges brought on by the COVID-19 pandemic – with the goal of making

AMERICAN OVERSIGHT

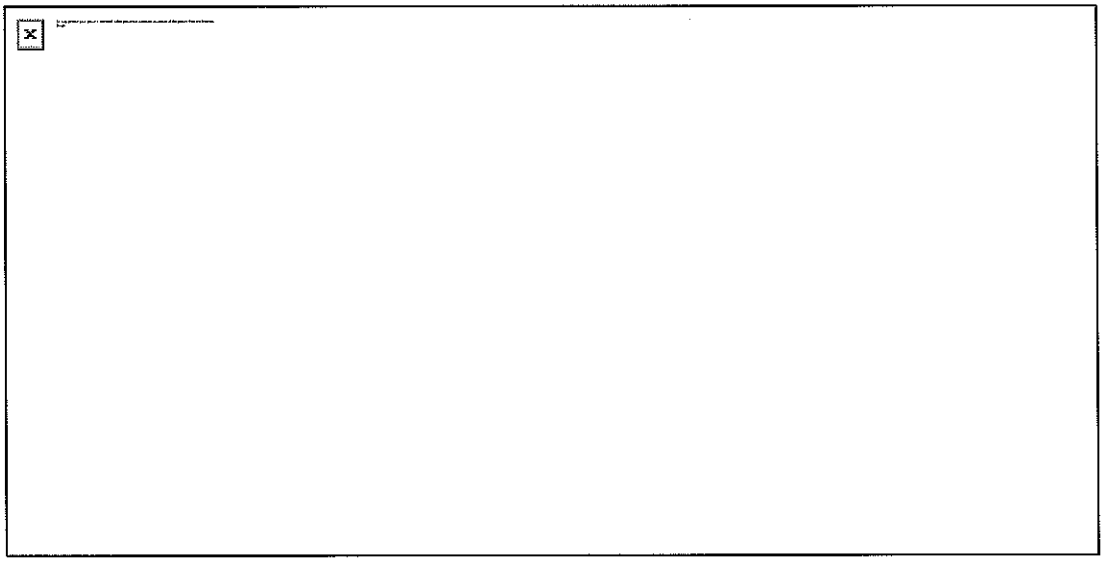
improvements to American law enforcement for years to come. Throughout that time, the Commission assembled a report that reviewed a variety of important issues affecting law enforcement and their capacity to safeguard American communities.

Operation Legend - Fighting Violent Crime and Delivering Results

On December 23, Attorney General Barr **announced the results** of Operation Legend, which was first launched in Kansas City, Missouri, on **July 8, 2020**, and then expanded to Chicago and Albuquerque, New Mexico, on **July 22, 2020**; to Cleveland, Ohio, Detroit, Michigan, and Milwaukee, Wisconsin, on **July 29, 2020**; to St. Louis, Missouri, and Memphis, Tennessee, on **August 6, 2020**; and to Indianapolis, Indiana, on **August 14, 2020**.

Since Operation Legend's launch on July 8, 2020, over 6,000 arrests – including approximately 467 for homicide – were made; more than 2600 firearms were seized; and more than 32 kilos of heroin, more than 17 kilos of fentanyl, more than 300 kilos of methamphetamine, more than 135 kilos of cocaine, and more than $11 million in drug and other illicit proceeds were seized.



Of the more than 6,000 individuals arrested, approximately 1,500 have been charged with federal offenses. Approximately 815 of those defendants have been charged with firearms offenses, while approximately 566 have been charged with drug-related crimes. The remaining defendants have been charged with various offenses.

AMERICAN OVERSIGHT

The Attorney General launched the operation as a sustained, systematic and coordinated law enforcement initiative in which federal law enforcement agencies work in conjunction with state and local law enforcement officials to fight violent crime. Operation Legend is named in honor of four-year-old LeGend Taliferro, who was shot and killed while he slept early in the morning of June 29 in Kansas City.

Subject: Election 2020 Must Not Stand

Good Day Ladies and Gentlemen:

I would like to know how many of you have seen the glaring evidence thus far uncovered. Because in my opinion, after seeing the hard evidence and hearing the sworn testimony of brave whistleblowers, it would be hard to deny that this election was wrought with foul play. Foul play that was, yes indeed, illegal. The slate of electors you have certified to congress is at the very least questionable and at the very most probability, wrong.

How can you put your name on a certification to which evidence has proven it to be seriously in doubt. There's the midnight hours ballot stuffing as evidenced by input spike trends, votes tabulated multiple times, illegally altering voting rules, multiple reports of denying legal watchers, the dead, the out of state, etc etc etc. In this area, there are votes a plenty to decertify Biden and recertify for Trump.

But, now the evidence of the machines and their associated software is coming to life. Were they illegally connected to the internet? Did votes mysteriously get reversed from one candidate to another? Why is there data with fractional votes, aren't our votes whole? Why did the vote trends dip negatively, aren't they supposed to only go up as votes are counted? Is there a reason that video of vote processing locations is not available everywhere? Was this intentional? How many of your citizen's votes were tampered with? How many were switched to another candidate through bloated adjudication processes?

Some of you may say the evidence is false. Well, that's a lot of evidence to fabricate. Have you seen it? We saw the hearings. Only a handful of your bodies were there. If you haven't seen the evidence for yourselves, how can you say it is false? How can you certify with so much evidence that screams for you to not to certify?

This cataclysmic event is far too important to simply brush off as false. The results of accepting this illegitimate election will be felt in America for a long time, if not forever. Our country may never be the same. All for what, power & greed? This is an election that was seen by over 75 MILLION AMERICANS as flat out wrong. Illegitimate.

Please reconsider your electors. Please send a new certified slate of electors to congress before January 6.

Sincerely
Lynn Whitehead
A voter whose vote was stolen.

Dear Representative Finchem:

Rep. Ken Buck issued a statement respecting states' authority to select their own electors. However, they do provide "one and only one path to victory for President Trump on January 6, 2021:

"Of the six states as to which questions have been raised, five have legislatures that are controlled by Republicans, and they all have the power to send a new slate of electoral votes to Congress if they deem such action appropriate under state law. Unless that happens between now and January 6, 2021, Congress will have no authority to influence the outcome of the 2020 presidential election.

There is one and only one path to victory for President Trump on January 6, 2021, and it depends on state legislatures certifying Trump electors in the states at issue, pursuant to state law and the U.S. Constitution, and based on a finding that votes lawfully cast in November were sufficient to produce a Trump victory. If they believe there was fraud—and if they believe that such fraud affected the outcome of the election—they must, as a body, convene immediately and send us that information, along with certified electoral votes cast by a Trump slate of electors. Absent such action, there is not a constitutional role for Congress to change the outcome of any state's vote."

Please call a special session and/or send a new slate of electoral votes to Congress before Wednesday! Or at the very least, decertify your existing electors pending Senator Ted Cruz's forensic audit. You are our only hope! Please remember your American ideals and what you're there for. Don't forget that this is a "government of the people, by the people, and for the people". Please make We the People proud. Please don't be afraid, the Lord is with you and so are we. Do the right thing and follow your soul; you will have a clear conscience and you will become a hero to this nation. This really isn't about President Trump, it's about our confidence in our elections. It's about freedom and democracy. Don't let them steal that from us. I will be praying for you and hoping that you deliver before January 6th.
Thank you,
We the People

Subject:	Call for Special Electoral Session

Dear State Representative:

My name is Victor Shapiro, and I am just one of 74 million Americans who are beyond concerned for the integrity of the 2020 Presidential elections, as well as the legitimacy of all elections following 2020. I am writing you with passion to ask for your support and courage in calling for a special electoral session in Arizona. I am not a partisan person, I vote independently, but I believe the 2020 presidential election in the state of Arizona to be very fairly questionable. The evidence is there if your care to look closely enough. Beyond the evidence, here are some other considerations:

* There are 74 million Americans who feel disenfranchised due to overwhelming, and apparent election fraud in 2020.

* There are 74 million angry Americans waiting for their *government representatives* to take a stand in favor of fair elections.

* We expect this to be rectified by you calling an Electoral session before January 6th, listening to the evidence, reclaiming your state's electors —we expect this to occur!

* If $1 was given by these 74 million voters to the opposing Republican in your next primary, that would be $74 million dollars.

* We the People will not burn down cities, we will not riot. Instead we will use our power as Americans to right this wrong. You must right this wrong.

* What is occurring in the 2020 election is an overthrow of our basic right for a free and legal election.

Subject: Please REJECT the electoral votes from your state

Dear AZ legislature:

I am a Chinese-American who escaped China under dictatorship government and socialism system to the free land to seek for liberty, freedom and prosperity. The behaviors done by Democratic past 4 years such as silencing and suppressing different voices, tearing down stature, rioting, looting, so-called BLM movement are concerned me greatly because it acts exactly like when I lived in China during Chinese Culture Revolution. I am stunned to see it is happening in the country. Furthermore, they used the pandemic year to pour in millions of unprecedent paper ballots to damage the most valuable human right from ordinary people and created constitutional chaos for our country and made me very unease.

I urge all of you to treat it very serious and assume your responsibility to defend the valuable constitution for the country with your courage, integrity, and patriotism. GOD IS CALLING YOU NOW TO PROTECT THE COUNTRY!

Please reject the electoral votes until all of election investigations are done (eliminate all ineligible paper ballots, exam the voting machines and so on). We need a clarity to ensure no one steals the value vote right for the people. If you have the reasonable doubt, please REJECT IT until you have great confidence.

PLEASE CALL FOR CONGRESSIONAL HEARING BEFORE JANUARY 6 TO INVESTIGATE THE ELECTION FRAUDS & ABUSE!

PLEASE CHALLENGE THE FRAUDULENT ELECTORAL VOTES AT THE JOINT SESSION ON JANUARY 6!

KEEP IN MIND you work for PEOPLE. If you dont act correctly, we the PEOPLE have the right not 1) donate for your campaigns 2) won't vote for you next run. More importantly we count on you to follow GOD and MORALITY to act!

Sincerely

Dear Arizona State Legislature,

As a concerned citizen and registered voter in North Carolina, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence.

Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI.

Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored.

We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

We need men and women of courage during this hinge point of US history. You have an army of Americans that have your back, and a loud, obnoxious minority that want you to capitulate to gaslighting and threats. Failure to act righteously will certainly be the end of your political career, yet even worse, it may be the end of our republic as we know it. Now is the time to stand with the truth! Fight for freedom, transparency, and accountability. Fight for America!

Sincerely,

Max Fulginiti

Dear Honorable Representatives and Senators,

I do know that there are those in the legislature who are in this fight. Thank you for the efforts those have taken. They are more than appreciated. I worry about Wednesday's vote in Congress. So many GOP are unwilling to stop this takeover of our nation by Neo-Marxists. My urgent plea is that the state legislatures in the swing states that the Democrats strategically targeted would take back those Biden Electors and assign them to President Trump. I feel that is the best safeguarded way for President Trump to remain our rightful President. Then after President Trump has won re-election then the laws for elections can be fought and righted. BUT, right now you must stand up and demand that the Electors be changed. Time is fleeing.

I implore you to read this warning:

'No stopping them': James Dobson sounds alarm bell for America – WND News Center

Also, listen to Mark Levin's opening monologue:

WATCH: Mark Levin exposes Democrats in killer monologue, explains what's at stake on January 6th... – The Right Scoop

Thank you for standing in the gap and having the courage. History and voters will remember those who did stand up and fight.

Blessings,

Dear Honorable Senators and Representatives,

You must call into a special session for the sole purpose of the Presidential Election. Your state constitution and laws do not preempt the US Constitution. You have the power but just need the courage to stand tall and right this wrong of the fraud that was perpetuated upon President Trump and the American People. The slate of electors that the Secretary of State submitted are invalid. You must decertify those electors for Biden and vote to submit the Trump electors.

The Supremacy Law of the Constitution states:

This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.

To keep our country out of the hands of the CCP and the Davos elites I beg you to not let their fraud stand. This has been a well coordinated effort on the part of Democrats and outsiders of our country. You must have courage and stand up right now before the Jan 6th date.

On behalf of the 75 million Trump supporters,

Subject: 2020 Election

To Honorable Governor, Representatives and Senators,

As a member of the American People I must urge you to take action to right the ship of this election debacle. President Donald J. Trump is the rightful winner of this election. There is massive election fraud and the evidence is immense. Peter Navarro has documented the evidence to show how this election was an attempted theft and coup de tat. https://www.scribd.com/document/488495896/Navarro-Report#from_embed

As Ken Blackwell stated on Steve Bannon's show today, "The main stream media and the left want us to believe that Donald Trump as evidence, as results has long coattails but no coat". Let me explain, Republicans won many seats in states and Congress due to the President's campaigning and the last four years results of his presidency, but he lost his bid for four more years. That is truly laughable. Ken Blackwell also stated that the trials have been thrown out for procedural standards or no standing, not on the evidence. He stated that Article II of the Constitution gives state legislatures the authority to self-convene. **You do not need Secretary of States or Governors to self-convene on the narrow issue of the Presidential issue and the Electoral College. You must take back the authority as an act of political will.** Blackwell also stated, **we are the majority party, act like it**.

As a life-long Republican, I have followed the Republican Party with my vote in every election since I was 18. That was 42 years ago. I have held my nose and voted for candidates that I didn't agree with just for the party's sake. Let me assure you, after seeing what I've seen the last four years, the disgusting display in the deep state and the swamp, and the spineless Republicans that will not take a stand for what is right and just, I will no longer support any in the GOP party or elect candidates that do not have a spine, courage and will stand for righteousness without taking money from those who wish to control or destroy our country. I will work till I'm dead to no longer support any of you that we see to be weak-kneed cowards that some of you are, and if you do not stand with our President in a time that evil domestic and foreign invaders of our country are trying to topple our great Constitutional Republic then I dust you off and will work to defeat you in every way I possibly can. WE THE PEOPLE (over 74 million) will not tolerate this behavior any longer. We are informed and have very long memories. HERE IS WHERE WE TAKE A STAND to save our Constitutional Republic.

The GOP is now the Trump Party, as we the people are not following Republicans any longer if they do not fight for this President and our Constitution. That is a fact. Some have taken a stand, but many more (all of you), need to stand up and fight. Give us Liberty or Give us Death. Do you want to be the generation of leaders that allowed foreign enemies to overtake our great nation? *It's either Freedom, the Constitution and liberty or it's a complete take over by the China* Communist Party. Stand up now and act before it's too late. Patriots or Traitors.

Thank you.

- In the latest example of his efforts to subvert the outcome of the Nov. 3 election, President Donald Trump was captured on a recording pressuring Georgia Secretary of State Brad Raffensperger "to find 11,780 votes" to overturn President-elect Joe Biden's victory in the state. Legal scholars said Trump's move to personally pressure the Georgia Republican could place him in legally questionable territory, and Democrats called for criminal investigations. (The Washington Post)

- All ten of the living former secretaries of Defense said in an op-ed that the time for questioning the presidential election's result "has passed," and warned that any effort to involve the military in a political dispute would take the country "into dangerous, unlawful and unconstitutional territory." - Several House and Senate Republicans criticized plans by a group of GOP senators led by Texas Sen. Ted Cruz to oppose the certification of Biden's Electoral College victory on Wednesday. Sen. Putin pay for what appeared to be the largest-ever hacking of United States government networks. In an interview on "GPS" on CNN, Jake Sullivan, who at 44 will become the youngest national security adviser in more than a half century, also said that as soon as Iran re-entered compliance with the 2015 nuclear deal - which he helped negotiate under President Barack Obama - there would be a "follow-on negotiation" over its missile capabilities.

Iran has resumed 20% uranium enrichment at an underground nuclear facility, the government said on Monday, breaching a 2015 nuclear pact with major powers and possibly complicating efforts by U.S. President-elect Joe Biden to rejoin the deal. The move is the latest Iranian contravention of the accord, which it started violating in 2019 in response to Washington's withdrawal from the agreement in 2018 and the reimposition of U.S. sanctions that had been lifted under the deal.

Denver Riggleman Has Seen the Future of the Republican Party

Minority-owned companies waited months for loans, data shows
Joyce M. Rosenberg and Justin Myers, The Associated Press

Thousands of minority-owned small businesses were at the end of the line in the government's coronavirus relief program as many struggled to find banks that would accept their applications or were disadvantaged by the terms of the program. Data from the Paycheck Protection Program released Dec. 1 and analyzed by The Associated Press show that many minority owners desperate for a relief loan didn't receive one until the PPP's last few weeks while many more white business owners were able to get loans earlier in the program.

Georgia Is Getting More Blue. The Senate Races Will Tell How Much.
Jonathan Martin and Astead W. Herndon, The New York Times

With President Trump touching down in North Georgia on Monday to court white rural voters and President-elect Joseph R. Biden Jr. rallying support from a diverse electorate in Atlanta, the high-stakes Senate runoffs are concluding with a test of how much the politics have shifted in a state that no longer resembles its Deep South neighbors. Should the two challengers win Tuesday and hand Democrats control of the Senate, it will be with the same multiracial and heavily metropolitan support that propelled Mr. Biden to victory in Georgia and nationally.

Incoming Puerto Rico Governor Declares 'Fiscal Emergency'
Jim Wyss, Bloomberg

Just hours after being sworn in as governor of Puerto Rico on Saturday, Pedro Pierluisi declared a "fiscal emergency," requiring government agencies to cut costs by limiting travel, reducing third-party contracting and refraining from opening new positions, among other measures. The executive order came after Pierluisi, 61, took the reins of the U.S. territory earlier in the day, promising to crush Covid-19, kick start a moribund economy and lead the U.S. territory out of a historic bankruptcy.

Subject: Urgent Message to State Legislators

The citizens of our country deserve to know that all elections are fair and free of fraud. However, estimates show that a large percentage—possibly even a majority— of the voting public in the United States feel that our recent presidential election was NOT fair and free of fraud. Due to the failure of our Supreme Court to uphold our Constitution, it is incumbent upon state legislatures to take appropriate action to ensure the integrity of the election results.

I Urge you to Call an Electoral Session of your state legislature before January 6th to recall its electoral votes and to hear the evidence claiming voter fraud.

This is an urgent matter and your immediate attention will be appreciated by the citizens of our great nation.

Subject: 2020 election

Dear Representative of the State of Arizona,

We the People expect that you call an emergency electoral session and reclaim your electors before January 6th. Conduct a thorough investigation and take into serious consideration the evidence for the illegitimacy of the 2020 election. 74 million Americans feel disenfranchised due to an overwhelming amount of data and testimony pointing to election fraud. This is an overthrow of our basic right for a free and legal election.

You must right this wrong. It is your duty as a duly elected state legislator to protect the Arizona election as outlined in the Constitution of the United States. We need you to take a stand! Please! We the People are waiting for you to act.

Do not hide behind the governor. We are aware. If just one dollar was given by these 74 million voters to the opposing Republican in the next primary, that would be $74 million dollars. We the People will not burn down cities and we will not riot. We will use our power as Americans to right this wrong.

Of course, We the People will lose our right to a free and fair election if you do not act. You will lose in your next election.

But ultimately, this is not about who wins. This is about making sure that the votes of the American people are authentic and not fraudulent. If there is even a possibility that our votes do not accurately reflect the will of the people, and there is nothing done to rectify this, I'm afraid that we will no longer be able to retain our Constitutional rights and liberties.

AMERICAN OVERSIGHT

We will no longer be a government of the people, by the people, for the people. Our republic literally hangs in the balance.

We're depending on you to step up and make this right.

RECLAIM YOUR CONSTITUTIONAL RIGHT TO CLAIM YOUR ELECTORS!

Sincerely,

Subject: OBJECT Biden slate of electors!

Dear members of the Arizona House of Representatives,

I am letting you know that you have my full support, and also my strong urging to please do all of the following in regards to the presidential election:

1. Hold a special session to hear all the evidence of illegal activities that WRONGFULLY resulted in a Biden win. (If you count ALL legal votes and do not count illegal votes, Trump is the rightful winner. The American people voted for Trump!).

2. Demand an audit of all ballots, to be performed by Jovan Pulitzer.

3. Decertify the unlawful election results that have been certified in the 6 contested states, where there is massive evidence of illegal ballots and fraud (PA,GA,WI,MI,AZ,NV).

4. OBJECT the BIDEN slate of electors on January 6th!

4. ACCEPT the rightful winner of this election on January 6th: Donald J. Trump!

I believe I speak for most of America when I say that, again, we are in full support of you doing all of these things. And more than that, we respectfully demand that you do. This is not only your right, but your duty. The majority of the American people feel this election was somehow, in some way stolen from Trump, and that he is the rightful winner.

The following is not a threat in any way. Please do not take it that way. Rather, it is a warning of what might have to happen if you fail to stand up for a fair election. If you fail to do your job and do not stand up for the rightful winner of this election, Donald J. Trump, the American people will be forced to take it into their own hands. We don't want to have to do that, but if it comes down to that, we will. The courts have failed us. It is down to you! So please, we urge you to do the right thing. Elect Donald J. Trump as president.

Thank you for all your hard work in supporting the American people and preserving our freedoms.

Sincerely,
Kristin M. Negley

Dear Congressman,

Millions of Americans are furious about how the last election was handled.
Millions of Americans went to bed on the night of November 3rd, believing Donald Trump had rightfully won the presidential election. They were denied that victory after a perfect storm of millions of mail-in ballots, ballot drop boxes, and the unsupervised counting of votes occurred in closely decided states, including Georgia, Pennsylvania, Arizona, Nevada, and Wisconsin. At this point, dozens of witnesses have come forward with credible allegations of fraud. The corruption and fraud is clear, you cannot deny it any longer.

For all those reasons, we ask that you voice your opposition and refuse to certify the presidential election on January 6th.

Any Congressional Republicans who move forward and certify this sham of an election will receive a well funded primary challenger in 2022. We will work to take over the state parties who do not recommend their delegations fight for Trump.

This is your chance to show some bravery and show Republican voters you're looking out for their interests and the President. The world is watching and hoping you meet the moment.

Subject: De-Certify Arizona's Fraudulent Election Results!

To the Elected Members of the US Federal and State Government(s):

I am a citizen of the United States of America and a resident of the Great State of Pennsylvania, and as such I formally demand that each and every one of you do your Constitutional duty this week. Depending on your role in government and capabilities, I request that you:

1) de-certify the obviously fraudulent election results before January 6, 2021.

2) object to the certification of the electoral votes of the obviously fraudulent election results on January 6, 2021.

3) stop pretending you can't SEE the fraudulent election results and decry this farce.

This is not up for debate. This is not a choice, or a personal decision for you. You have a duty. You swore an OATH to the Constitution, and by God, I expect you to UPHOLD IT.

If you are one of the intrepid Patriot souls already committed to the correct path, I commend and thank you. If you are one of the ones still unsure of your position, allow me to clarify it for you. YOU work for ME. You do what I want you to do, and you are not MY boss. This nation is a REPUBLIC, and therefore I am the boss of YOU. Many of you seem to have forgotten that. There is quickly coming a reckoning to remind you.

The American public has been asleep. We did not notice the slime of corruption seeping into the pristine halls of the greatest country on Earth. It was slow, and insidious. It has stained the very fabric of democracy for 30 years or so. But then you locked us in our houses for a year to hide from a fake pandemic. You thought we would just cower and watch cat videos. We didn't. We began to question, and dig. We found the truth and now we are awake. You boiled the frog too fast, and we figured it out. We the People are VERY, VERY ANGRY.

This is not really about Trump or Biden. It never was. It is about our sacred God-given right to vote in free and fair elections as prescribed by the Constitution and the belief that we were actually electing the leaders we sent to Washington to do the work of We the People, in the interest of ALL Americans. As it turns out all we had was the illusion of choice. Our leaders were lying and cheating, and we had our officials chosen for us. We have not been governing ourselves. We have been ruled, likely for decades. I question how many of you really won your races honestly. That ends now. We the People know that a select few of you are Patriots, steadfast and true. The rest are oblivious, weak, afraid, complicit, corrupt or flat out traitors. Unacceptable. And we are coming for you. What you do now will help determine how it goes for you.

Failure to act as we demand will result in every one of you being primaried, at best. If the corruption and fraud continue and that doesn't work at the ballot box fixed in your favor, it will escalate to civil war. We will take our country back from corruption, evil and deceit. That's a promise. We the People will not tolerate this scandalous and reprehensible behavior from our elected representatives one moment more. Make no mistake. Let me be clear: you will do the right thing. Now. We the People don't care if you don't like Trump. WE THE PEOPLE DO. You don't get to pick. We do. Nearly seventy-five million of us voted for this man. Unprecedented. That has NEVER been in doubt. The dog that isn't barking is just that. Trump got a record number of votes. Biden CHEATED.

You WILL object and fix this, and here's why. The fraud that I can see just from my living room:

AMERICAN OVERSIGHT

1) I stood in line for nearly TWO HOURS to vote on election day in tiny Lycoming County, in the middle of the work day. That has never happened in my LIFETIME. No one was there to vote for Biden.

2) I drive all over PA for my job. One day a week before the election I drove from home, to Lebanon, to Lancaster, to York, to Harrisburg and back home. I saw literally THOUSANDS of Trump flags, signs and displays. I saw maybe 25 for Biden. Don't forget the car and boat rallies. I even saw a tractor rally. The AMISH had Trump flags and showed up to vote. They brought their WOMEN to vote for Trump. Unheard of.

3) I attended 3 Trump rallies. Trump rallies were like Beatles appearances in the 60s. Sixty THOUSAND people in Allegheny county. There were more people in line for the bathrooms at a Trump rally than I ever saw at a Biden event. Ever. Don't pretend the virus kept them away. No one cared about Biden. Don't think we don't know about the Jeep dealership. That was just pathetic.

4) Multiple states, including my own PA, illegally changed their laws to accommodate the fraud. Our PA Courts legislated from the bench, bypassing the legislature, and defied Supreme Court Associate Justice Alito. That alone should invalidate the results of just my state. Other swing states did similarly illegal things while you just watched and did nothing. Nothing to see here! Shameful. They should ALL be invalidated, or at least de-certified.

5) Trump was winning everything on Election Night, even Virginia, if you were watching. Suddenly all the swing states all stopped counting. Then trucks started showing up and dumping ballots, literally hundreds of thousands for Biden. Are we supposed to just accept it wasn't planned and coordinated? Again, why do all these illicit shenanigans all favor Biden?

6) Arizona was immediately called for Biden seconds after the polls closed. Don't you think they should have COUNTED first? Or did they already know the outcome since they rigged it ….?

7) How about those miracle 55 votes found in a drawer a month after the election to push that democrat over the top who lost by 12 votes? That wasn't at all suspicious.

8) It is breathtaking that you ask us to accept that virtually every down ballot conservative candidate won, but not the Presidency. All that told me is that so many people voted in person for Trump that it broke the cheating algorithm on the voting machines and having to produce thousands and thousands of fake paper ballots in just a few hours demanded that they didn't have time to fill in Democrat candidates down ballot, just Biden. Don't give me conservative Never Trumpers. I don't know ONE.

9) There are literally THOUSANDS of affidavits sworn by Americans under penalty of prison testifying to the massive fraud in every swing state. Those people are risking everything to put their name on those.

10) Vote switching happened, right before our eyes. Voting is incremental, at no time should either candidate lose votes, yet Trump did, MULTIPLE TIMES, RIGHT ON TV. I saved the videos. Dominion voting machines are COMPROMISED.

11) Republican observers were bullied, threatened, removed and prevented from watching in every swing state. No transparency at all. If fair and honest, why not let anyone watch? BECAUSE THEY WERE CHEATING!!!

12) Courts in every state refusing to even look at evidence. A judge in GA is Stacy Abrams sister. No recusal for conflict of interest. Really? That certainly seems suspicious.

13) Officials in virtually every contested swing state have become mask and lockdown dictators in direct violation of the Constitution, and clearly do not value or obey our most sacred document. I have no problem believing they are together in a coordinated effort to overthrow our government. You think they care about voting integrity when they have proved they don't care about destroying their own constituents?

AMERICAN OVERSIGHT

14) It is against the law for voting machines to be connected to the internet. I have seen PROOF multiple times that they were consistently connected to the internet, the last of which was LIVE AT THE GEORGIA HEARING demonstrated by Joval Pultizer.

15) Mathematical models and statistics provided by multiple experts like Rich Baris, Matt Braynard, Larry Schweikert and Bobby Piton prove that what happened isn't possible. The numbers I see are 133 million registered voters, 74 million in person for Trump (not counting Dominion deducting from his total). That leaves 59 million for Biden, assuming every single person registered actually voted. Trump wins. Because facts and math don't care about feelings.

16) Polls and statistics show that Trump made substantial gains with every group - whites, blacks, Latinos, Christians, Jews, Asians ... who was left to vote for Biden? If Trump is such a racist, he stinks at it.

17) Just to say it, we all know that the voting machines are owned, funded or connected to a vast number of democrats, and some RINOs - in particular, the Clintons and Nancy Pelosi. We KNOW this. I have all the links and videos saved, all the documents. Looking at you, Georgia.

18) So, so many democrats and RINOs are covered in filthy Chinese (and other foreign) money. That now seems to be an open secret. Mr. Swalwell is still on the Intelligence Committee despite being tied definitively to a Chinese spy. Diane Feinstein's driver for years was also a Chinese spy. Tie that in with the Hunter Biden laptop that everyone wants to pretend doesn't exist and we have just a sampling of the reasons why China would interfere with and directly influence our elections. They are SALIVATING for Biden to win so they can finish us off and take us over. I also notice the same people screaming Russian interference in 2016 for FOUR SOLID YEARS are now the same people screaming that audits threaten democracy. Again, what are you hiding? It's going to come out, you know.

19) The Georgia Committee finally ruled for a full audit, and within a day mystery trucks arrived to take the ballots away never to be seen again. If that doesn't scream election fraud, I don't know what does. Again, video proof.

20) The Biden camp has not actually denied it, if you listen closely. All anyone ever says is there is no evidence of fraud, then ignores the evidence. No staunch denials, no outrage. They didn't say there isn't any fraud, just that there isn't proof. Some of us learned to think before education was ruined by liberals.

I could go on and on. It's disgusting. But that is just what I can see from tiny Lycoming County in Pennsylvania without really trying. How can you not see it, again? You are asking us to ignore our eyes. The truth. How DARE you. You must think we are really stupid. Proof of that is the Covid Stimulus Bill. That clearly proved that you care more about sexually confused Pakistanis than you do us. We all know that foreign aid is just cleverly disguised money laundering. How else do public servants get to be worth $100m dollars? Homosexuality has been illegal in Pakistan since 1860, yet I'm supposed to believe they need $10m for gender studies. That's our own money you won't give us. You know what $600 can buy? A fifty-five gallon drum of tar and ten pounds of chicken feathers. And we wouldn't NEED a stimulus package if you hadn't shut us down and ruined the economy. How can Florida and South Dakota be fine without lockdowns but Pennsylvania and New York not? Masks and lockdowns don't work. They ruin lives. We also saw you RINOs complain about Facebook yanking down the Georgia runoff Republican Fundraising website, AFTER you vetoed Trumps Defense Authorization Act which included potentially fixing Section 230 to control that very thing. We see you and your hypocrisy. And we'll remember. We're awake now, and paying attention.

We see you. We see every one of you. We don't trust you. We are VERY, VERY ANGRY. WE KNOW WHAT YOU DID TO OUR SACRED ELECTIONS. MAKE IT RIGHT. We the People demand that you do the right thing, your Constitutional duty and uphold your oath.

"...It is, Sir, the people's Constitution, the people's Government, made for the people, made by the people, and answerable to the people. The people of the United States have declared that this Constitution shall be the supreme law. We must either admit the proposition or dispute their authority."

-Daniel Webster, 1830

AMERICAN OVERSIGHT

Think hard about disputing our authority.

The sleeping giant has awakened. I am no longer a Republican, preferring simply Conservative. Now I've changed it to Patriot. For the last few years I have endured a circus of media clowns lying openly to the American public screaming Orange Man Bad, censorship from news and social media platforms, ridiculous new social(ist) norms, I have been called deplorable, racist, white supremist, chump and told to shut up, sit down and accept this. Hell, no. I will not. Not only will I not shut up, I'm waking everyone I know. There will be no unity or healing. That's just code for appeasement and submission. Never. America is wounded, on Her back, bleeding out. She must be saved, and we Patriots will save Her. If we need a new Patriot Party for that to happen, so be it. The current Uniparty of corruption and socialism is over, democrats and RINOs alike. You know what they say about the Tree of Liberty .....

Do the right thing, and fix and object to this FRAUDULENT travesty, this horrible, obscene lie. The truth will come out anyway. It always does.

We are watching you, and so is the world. History will remember you, one way or another. How will it remember you? Will you legacy be based in a lie? A fraud? Think very hard.

Thank you for your attention. We're coming for your answer on January 6 th.

Subject: AZ Legislative Session

I am writing to you today to request that you, as a Republican, stand shoulder to shoulder with President Trump to not only support him but stand for free and fair elections.

The other day the Subcommittee on Elections from the Georgia Senate Judiciary Committee held a hearing.

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to glaring statistical anomalies and mathematical impossibilities, to recent and shocking videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior.

The most compelling testimony that day came from Jovan Hutton Pulitzer of the Gold Institute of International Strategy. His team informed him "At this very moment at a polling location in the county, not only do we now have access to the devices to the poll pad—the system—but we are in. It's not supposed to have WiFi, and that's not supposed to be able to happen,"

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it.

Your Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" to call a special session to choose electors, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee last week.

It is no longer acceptable for you as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power to choose electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. For every one of them behind a tree, there is an American patriot behind every blade of grass. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I am now referring you to the correct constitutional procedure in ten easy steps.

AMERICAN OVERSIGHT

I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of choosing electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Georgia State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint an alternate slate of electors.

8) These Electors would meet in their state Capitols to vote on December 14th, or later (as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct.")

9) Your chosen legislative slate would be sealed and transported to the President of the Senate and D.C. Archivist. 10)

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a leading expert on Constitutional law.

AMERICAN OVERSIGHT

Time is of the essence Representative. You cannot send this to another committee. You all took an oath to defend not only Georgia but the United States from all enemies both foreign and domestic. Live up to that oath.

I implore you today to take up your US Constitutional duty, and as a joint body acting in a federal capacity, call a special session immediately to appoint electors and declare President Trump winner of your state.

Sincerely

William Horosz

Good Afternoon,

As a concerned citizen and registered voter in Massachusetts, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. Please decertify the Biden electors and certify the Trump electors as it has been proven numerous ways that he won your state. The fate of our country hangs in the balance.

Sincerely,

Subject: Telling Congress to reject Gov. Ducey's electors on January 6

I'm writing to ask that you pass a resolution endorsing as Arizona's legitimate electoral votes the votes cast by Republican electors who met on December 14 to cast their votes for President Trump and Vice President Pence so that you send "dueling electors" to Congress, or at the very least pass a resolution telling the U.S. House of Representatives and Senate that they should reject Gov. Ducey's electors as you have no idea who actually won Arizona due to the massive fraud.

IF YOU WILL NOT BE IN SESSION or can't pass such a resolution, PLEASE convince all Republicans in your legislature to sign on to letters to the U.S. House and Senate telling them to count the votes for Trump and/or to reject the electors from Ducey. Members of the Pennsylvania legislature have signed on to letters to the House and Senate telling them to reject their governor's electors as the fraud there made it impossible to know who won the state. Republicans in the Arizona, Pennsylvania, Georgia, Wisconsin, and Michigan legislatures, together with those in Congress, can act together to save the Republic. Thank you.

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server seized by DOD military personnel in Frankfurt, Germany. **Scott's phone # is ' in California. Arizona Rep. Gosar's staff interviewed Scott, and verified the facts.**

Scott Bennett's disclosures are devastating --- **China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.**

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin and New Mexico--

Expert testimony by his team proves foreign interference and vote manipulation by China on election night beyond any shadow of doubt. **China's interference with voting machines on election night justifies STRIKING brazenly ILLEGAL ballots and recertifying election results to guarantee ALTERNATE TRUMP ELECTORS are certified by Vice President Pence on January 6.** *Consider China's* interference in light of Michigan's audit report that Dominion machines carried a 68 PERCENT error rate: The ramifications for national security are staggering and changes the entire dynamic of audits in Arizona and Michigan of Dominion machines.

You as a Legislator representing your fellow citizens, must stand for the "Rule of Law" and election integrity. If the "Rule of Law" is gone are we left with "Natures Law"? I hope not. If we can't count on you to represent us then we don't have government "of the people, by the people, and for the people", i.e., government made up of citizens chosen by citizens for the benefit of citizens. We have government by a tyrannical ruling class.

The 2020 Presidential Election was a sham. Humans being who they are, some criminality/ fraud is to be expected, however the amount of election fraud, voter fraud, extra legislative shenanigans by the Democrat Party, courts, state bureaucracies and likely electronic tampering by the other governments was on a massive scale. So, to was the rampant censorship and propagandizing by "Big Tech" and "Social Media" and the mainstream news.

This malfeasance is at best felonious in nature and at worst rises to the level of treason.

If you believe as I do that there is ample evidence that this election was stolen and that there are serious questions to be answered before what amounts to a "Manchurian candidate" is installed in the oval office, then contest the election at the State level by refusing to send a bogus slate of electors to Washington D.C.

Please remember that this is the "United States of America" and not the State of America. The buck stops with you at the State level.

In retrospect, I and many of my fellow citizens believe that the "fix was in" as far back as a year ago, perhaps earlier. There are many factions that wish to see President Trump out of office and a return to the "status quo". There are those in fact who wish to see the United States supplanted as the preeminent world power, I pray that you are not among them.

Subject: *Please Stop The Steal!*

Hello – In a desperate attempt for justice I am urging you to call an Electoral Session, hear the evidence and reclaim the electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State *level….and you know it!*
Many politicians are hiding behind the Governors refusal to deal with this calamity.
That is simply not acceptable!

Everyone (both sides of the "aisle") knows that our elections were a disaster and riddled with fraud!
There is overwhelming proof of this in many states (and in all the swing states)!
We are on the brink of losing this great country if we allow these corrupt people to "steal our election (and our country) from us".
If we (you) cannot get this situation resolved and allow Joe Biden (and his proposed "regime") to govern (dominate) our country, it will be the end of the "American Way" as we know it. Our freedom and liberty will be stripped from every American! The very fabric of America will be gone….

Our Constitution was designed to protect Americans from exactly what is happening right now.
Our forefathers are "rolling over in their graves" watching this disaster "come down" on America!
If only they were still here….I know exactly what they would do.
They would do precisely what I am "asking (demanding)" that you do…uphold our Constitutional Rights!

As you know -
The United States Constitution's Electors' Clause -- Article II, Section 1 – Provides a method to correct such corrupt outcomes….it vests the state legislatures with exclusive power to determine how presidential electors are chosen, including the prerogative of appointing them and overriding the votes of their respective state's electoral college representatives. This means that your state legislators can pass a Reclamation Resolution and appoint your state's electors who are pledged to President Trump and correct the corrupt results of November's general election.

As you also know…. This federal Constitutional function cannot be limited or rejected by the governor's veto, the state constitution, or initiative and referendum.
"Reclamation Resolutions," if passed by your state legislature, can correct the voter fraud that corrupted your state's Electoral College vote.

AMERICAN OVERSIGHT

As of now, none of the seven (swing) states' legislatures -- even though all are GOP-controlled other than New Mexico and Nevada -- have formally voted on and adopted such a "reclamation" resolution intending to re-elect the Trump-Pence ticket to a second term. Why? There is no excuse for this lack of justice!
I am begging you to please use your constitutional authority to preserve the integrity of our elections. Utilize the Constitutional Rights that have been bestowed upon you (and all Americans) and bring justice where it is so badly needed.
Pass a "Reclamation Resolution" to reclaim the true election outcome for your state!
And please do it NOW!
We are all watching……
I welcome a response (or conversation) about this critical issue that will determine the future of our country!
I know that I can count on you….to "do what is right" for your country.
Regards,

Larry Willett

Subject: Slate of Electors

Senator Fann,

This election has been a travesty. A number of legal voters in Arizona rights have been harmed.

I watched all 10 hours of the hearings on November 30th. There were sworn witness affidavits, expert witnesses and examples of irregularities to call for an audit. At that time, this did not occur. Once the audit was called for (by Senate subpoena) the Maricopa Board of Supervisors, except of Supervisor Chucri, voted to take the issue to court. There are now recall petitions for all of the Supervisors.

Supervisors were asked, by me and I am sure others, what they were hiding in refusing to provide the information requested to conduct an audit. With all the "allegations" this should have been conducted. Again, what is everyone hiding? Then, a few days ago, there was a rally at the Capital held by the We the People AZ Alliance. They had a group of people who went out and canvased address's where people said they lived, and voted. The information they produced at the rally showed widespread fraud. From address's that did not exist, address's that did not have a structure on them, address at FedEx and UPS mail drop spots, even address used at the Phoenix tabulating center.

I was listening to Rudy Giuliani in an interview on Friday. He says he has proof of 8,000 dead people voting and 32,000 illegal aliens voting in Arizona. This evidence alone would show President Trump won the election. Then you have to ask yourself, what about the down ballot candidates. I think there is ample questions to audit every down ballot election. I do not believe Kelly legally won the Senate race. Although, that is for another day, and I hope that day comes.

The Arizona State Legislature needs to be immediately called into a special session to either de-certify the slate of Electors and/or appoint a slate of Electors for President Trump. The legislature can call itself into special session under the United States Constitution. The US Constitution "trumps" (no bun indented) the Arizona Constitution and the requirement for the Governor to call a special session. It is the overwhelming responsibility, and moral duty, to follow your Oath of Office and do so.

I do realize that you did not sign up for this when you ran for office. We are in historic times and this calls for unusual, yet Constitutional, measures. There has been evidence of voter fraud produced by a number of groups and people. In my opinion, elected representatives who refuse to follow their oath of office should resign from office. Our Republic is in jeopardy.

The silent majority is no longer silent. From the number, and volume of citizen's at these rallies show people do not have confidence that this was a fair and honest election. Please, show that the integrity of our elections are paramount to the State Legislature and call for a special session, this is your planetary duty and required by your oath of office. There is still time before January 6th. Show the rest of the nation Arizona stands for the rule of law and election integrity.

Subject: Fight for Me - S.O.S.

Dear Legislator,
On January 6th, Arizona will be the first slate of electors to be challenged. I understand that the gap between Trump and Biden is about 10,000 votes in AZ. I understand there were 32,000 illegal immigrants who voted in AZ. I understand there were 8,000 dead people who voted in AZ. Oh my gosh, how can you possibly live with the knowledge that Arizona may be a part of the crime of the century?

That 40,000 vote deduction more than makes up for Trump's 10,000 vote gap. (And that does not include the 50 Dominion voting machines that are supposed to be looked at that nobody can get their hands on--THAT'S NONSENSE!. I understand that these machines processed 60% of Arizona's votes!) You cannot turn a blind eye to all of this.

Now and going forward, my **constitutional right to vote has been violated and compromised**...and the responsibility for that rests with YOU.

Please fight for me--this is an S.O.S. Gov. Ducey has failed me...you MUST act to decertify the AZ electoral votes...YOU MUST! YOU MUST CLEAN UP OUR PRECIOUS ARIZONA!

Sincerely,
Susan Roberts

Subject: Your Responsibility!

Dear Honorable Representative,

Do your duty to uphold the Constitution that you swore an oath to uphold!

Before January 6, 2021, your state legislature must be called to session to evaluate the overwhelming evidence of election fraud and decertify the state's falsely certified electors.

You not only have the power to uncertify the illegal slate of electors, it is your responsibility in the Constitution (Article 2 Section 1 Clause 2).

"Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector."

This presidential election will be analyzed for years to come. Will history view you favorably? It is up to you!

Never before in the history of the United States of America or in the world has there been such criminal manipulation of voting machines and election officials. The use of Dominion and Smartmatic voting machines, and the companies' blatant and lying ignorance of their security issues and outside manipulation is horrific. When you consider the election results this coming deadline on Wednesday January 6, be sure to keep in mind the specific states that had voting count error rates hundreds of times more than ever before. Follow the protocols in the constitution, which doesn't permit even a tenth of these numbers of inconsistency. All of America is counting on you to follow your duty in preserving the integrity of America's elections as our forefathers intended. Otherwise it will be forever ruined for BOTH parties, not just Republicans. This is not just a Republican thing. This is a matter of the life or death of our nation.

Hello! As a concerned American citizen and registered voter, I am writing to demand that you OBJECT to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence.

Seven states sent dueling electors on December 14, 2020 to vote against the illegal electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI.
Allowing our election to be stolen will be devastating to our republic, from which we may never recover. We need our faith in free and fair elections to be restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6th 2021, against the electoral votes cast for Joe Biden. The fate of our country hangs in the balance.

Dear Senator,

My husband and I are the first generation immigrants from Taiwan. We love America because of religion, freedom and opportunity. Thanks to the courage of those patriots of July 4th, 1776, the American Republic stands today as the greatest, most exceptional, and the most virtuous nation in the history of the world.

But this year of the presidential election is turning everything upside down. The fraudulent 2020 election has turned the US into a joke of the world, or worse yet, the Biden/Harris administration would turn us into a prey of the ravenous Chinese Communist government. This very thought angers all freedom-loving Americans whom you represent.

We the people demand integrity of the election, which doesn't just mean that future elections will be safe from fraud, but also, perhaps more so, that the thieves should not be installed into office. After all, if there is no consequence of cheating, what would keep them from cheating in an even more creative way again?

PLEASE CALL FOR CONGRESSIONAL HEARING BEFORE JANUARY 6 TO INVESTIGATE THE ELECTION FRAUDS & ABUSE!
PLEASE CHALLENGE THE FRAUDULENT ELECTORAL VOTES AT THE JOINT SESSION ON JANUARY 6!

We know that the fake media and loud media mobs will do everything to smear and attack you. But be of good cheer, for the Lord is with you, and so are the majority of people.

"The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country; but he that stands it now, deserves the love and thanks of man ".

Subject: Electoral Vote Certification

January 2, 2021

Dear Sir or Madam:

As a citizen of the United States of America, I am appalled at the fraud and corruption that has been uncovered in Pennsylvania, Wisconsin, Michigan, Arizona, Georgia, and Nevada during our national presidential election on November 3rd, 2020. Ample evidence has been presented in various state hearings to their legislatures of ballot harvesting, ballot dumping, invalid votes, lack of chain of custody, deceased voters, duplicate ballots, etc. Multiple eyewitnesses and whistleblowers have stepped forward, risking their reputations and even their safety, to tell what they saw during and after the election. Various mathematicians and statisticians have testified to the statistical impossibility of the election outcome. If you would like to investigate further, a few very helpful websites are everylegalvote.com, hereistheevidence.com, and defendingtherepublic.org. I encourage you to review their information.

Equally appalling is the lack of judicial intervention. The U.S. Supreme Court's refusal to hear the Texas lawsuit, and its delay of the other emergency appeals until mid-January are mindboggling. The opposition of judges in the contested states to hear the lawsuits and allow the evidence to be presented in court confirms the idea that corruption was found in our presidential election.

We the people demand that this wrong be righted. Election integrity is one of the most important things that distinguishes this great country from others. If we cannot depend on free and fair election processes, then we can no longer claim to be a constitutional republic, and have slid into a form of totalitarianism. If this great fraud is not corrected in the face of such overwhelming evidence, then our republic is lost. Fair elections will be a thing of the past.

I am confident that you sought political office with the intention to serve your country honorably and with valor. I understand that this situation is unprecedented, and what I ask you to do is a difficult choice. Nevertheless, I implore you to do the right thing, to stand up for election integrity and to stand against this fraud on January 6, 2021. No matter what side of the political aisle you are on, true and honest elections are the bedrock of our political system. Nothing can be more important.

I am praying for you to make the right choice.

"Why stand we here idle? What is it that gentlemen wish? What would they have? Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty or give me death!"

It is now obvious to everyone in the world who is paying attention that there was massive election fraud in the November presidential election in Arizona. Subject: Electoral session

Dear Arizona Representatives:

My name is Jo Wilson and I live in Omaha, NE. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

DEAR LEGISLATOR,

IT IS ABSOLUtELY IMPERATIVE THAT YOU CHALLENGE THE FRAUDULENT BIDEN/HARRIS ELECTORAL VOTES ON JANUARY 6, 2021!!!

The 2020 Election has been proven to be grossly fraudulent. Everything possible must be done to restore peoples belief in our voting system not only in our own county but also the people of the world. Right now the world is looking at what is happening to our Republic and all the action to destroy it.

Please don't be part of certifying this fraudulent election. There is overwhelming evidence that this election was stolen by the Democrats. The politicians, media, and social media are trying to silence the more than 73 million people who voted for our great President Trump. If you certify this election and disenfranchise the people who have voted for Donald Trump, I can guarantee you that you will never be reelected to this office and will never be elected to any other office again.

We the people, the American electorate, have had enough and we are tired of our freedom, principles, values, and way of life being trampled on by politicians that are only worried about their own skin. We will not tolerate the stealing of this election! You need to wake up because we are not kidding!

I hope you will take this advice seriously and not be part of the greatest travesty in American history.

Subject: Need your support to challenge the integrity of our fraudulent elections - Call an Electoral Session

Hello – In a desperate attempt for justice I am urging you call an Electoral Session, hear the evidence and reclaim the electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level….and you know it!
Please stop hiding behind the Governors refusal to deal with this calamity.

Everyone (both sides of the "aisle") knows that our elections were a disaster and riddled with fraud!
There is overwhelming proof of this in many states (and in all the swing states)!
We are on the brink of losing this great country if we allow these corrupt people to "steal our election (and our country) from us".
If we (you) cannot get this situation resolved and allow Joe Biden (and his proposed "regime") to govern (dominate) our country, it will be the end of the "American Way" as we know it. Our freedom and liberty will be stripped from every American! The very fabric of America will be gone….

Our Constitution was designed to protect Americans from exactly what is happening now.
Our forefathers are "rolling over in their graves" watching this disaster "come down" on America!
If only they were still here….I know exactly what they would do.
They would do precisely what I am "asking (demanding)" that you do…uphold our Constitutional Rights!

As you know -
The United States Constitution's Electors' Clause -- Article II, Section 1 – Provides a method to correct such corrupt outcomes….it vests the state legislatures with exclusive power to determine how presidential electors are chosen, including the prerogative of appointing them and overriding the votes of their respective state's electoral college representatives. This means that your state legislators can pass a Reclamation Resolution and appoint your state's electors who are pledged to President Trump and correct the corrupt results of November's general election.

As you also know…. This federal Constitutional function cannot be limited or rejected by the governor's veto, the state constitution, or initiative and referendum.

"Reclamation Resolutions," if passed by your state legislature, can correct the voter fraud that corrupted your state's Electoral College vote.

As of now, none of the seven (swing) states' legislatures -- even though all are GOP-controlled other than New Mexico and Nevada -- have formally voted on and adopted such a "reclamation" resolution intending to re-elect the Trump-Pence ticket to a second term. Why? There is no excuse for this lack of justice!

I am begging you to please use your constitutional authority to preserve the integrity of our elections.

Utilize the Constitutional Rights that have been bestowed upon you (and all Americans) and bring justice where it is so badly needed.

Pass a "Reclamation Resolution" to reclaim the true election outcome for your state!

And please do it NOW!

We are all watching……

I welcome a response (or conversation) about this critical issue that will determine the future of our country!

I know that I can count on you…. to "do what is right" for your country.

Arizona Legislator,

As you probably are aware "We The People Arizona Alliance" was at the State Capitol on Dec. 30 2020 with hundreds of outraged citizens. Calling for the recall of Maricopa County BOS for their dereliction of duty.

Liz Harris' door knocker volunteers verifies voter fraud was and is still extensive in Arizona proving massive Phantom voters in the election on Sept. 3 2020.

Bobby Piton statistical research of 420,000 Phantom voters also verifies this same issue.

Article 2 Section 1 Clause 2 of the U.S. Constitution says the State Legislature is responsible in the "Manner" elections are conducted.

We all know of the evidence now is the time to do the right thing for all voters in Arizona. This is a universal issue. Everyone should want fair and free elections.

So it is time For the State Senate and State House to correct this fraud and illegal election results before January 6th.

Dear Mr. Finchem,

Please Wake Up to the power you already possess. You do not need the approval of Governor Ducey to do your legal Constitutional job. The Federal Government gives you the Constitutional authority and duty to appoint and send Republican Presidential electors on January 6, 2021 to Washington, D.C.

You must call yourselves into Session and decertify the previous slate of electors which are invalid because of Fraud, then certify the correct slate of electors before January 6, 2021. Get your fellow Representors lined up. The United States is watching.

Dear State Representative,

It is clear that the Constitutional responsibility of designating electors falls upon state legislators. Since your state has sent results for two sets of electors (dueling electors) to the joint session of the Congress on January 6th, it's necessary for you fix the situation prior to the official certification of the vote.

Please call a special session to de-certify all Joe Biden electors. A massive amount of evidence shows that Donald J. Trump was the rightful winner of the 2020 presidential election. To allow the activities of criminal operatives to succeed in stealing this election would be a grave blow to our *nation and to our Constitutional process*.

You are the country's last line of defense. The politicians in Washington DC are too slippery in nature to trust with this important task. Clarify the vote prior to January 6 by de-certifying your state's electors for Joe Biden and/or certifying Donald J. Trump as the official winner of the 2020 presidential election.

America is counting on you to get it right.

Subject: Demand to Call an Electoral Session

Dear Honorable Legislator,

The recent general election in your state is Unconstitutional at worst, and a potential fraud at best. This is extremely troubling for the future of our republic.

Therefore, I demand you take action to call an electoral session, hear the evidence, and reclaim your electors before the January 6, 2021 Electoral College vote.

Please allow me to reference a great historical American speech to convey my thoughts (please forgive my plagiarism).

Twelve score and four years ago our fathers brought forth on this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great climate of uncertainty, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are joined to dedicate the idea of a more perfect Union, as a final outpost to cherish those brave enough that this nation might live. It is altogether fitting and proper that we should do this.

But, in a larger sense, we can not modify - we can not devalue - we can not usurp - this idea. The brave men and women, living and dead, who struggle for it, have consecrated it, far above our poor power to add or detract. The world may little note, nor long remember what we do today, but it can never be forgotten what those have longed for. It is for us the living, rather, to be dedicated now to the unfinished work which they who fought have thus far so nobly advanced. It is rather for us to be now dedicated to the great task remaining before us - that from these honored dead we take increased devotion to that cause for which they gave that last full measure of devotion - that we now highly resolve that our dead shall have not died in vein - that this nation, under God, shall have a new birth of freedom - and that government of the people, by the people, and for the people, shall not perish from this earth.

Honorable Legislator, the latest news has the Honorable Senator Klobuchar stating the Senator Hawley's planned objection is a "coup attempt." This must be disregarded as the Honorable Senator Hawley is following Article XII of the United States Constitution. This is plane to see.

In the event we lived in a direct democracy, I would, without doubt, show up to vote to object in the strongest terms possible. However, we do not live in a direct democracy, we live in a Constitutional Republic, and you have been voted to be one to honorably represent our great Republic.

Therefore, I demand that you to be a leader with this issue. Reach out to the Honorable Senator Hawley

AMERICAN OVERSIGHT

to know his mind. Don't let your constituents and history see you stand on the sidelines in this critical time. Make your stand! Stand up for the United States of America!

Depending the actions of congressional members to affect the outcome of the Electoral College vote on January 6, 2021, I truly believe that this may be my last chance to have a voice in my government. A government that seems to be changing from one of the people, by the people, and for the people; to one of the government, and for the government.

Please don't let me down in this historically pivotal and fateful time.

I hope you had a Merry Christmas with your family and friends, and I'm wishing the best to you and yours for a Happy New Year.

Subject: The election frauds explained! The next step is Militia if you don't stop this!

The 2020 presidential election was, in several targeted battleground states, an unconstitutional electoral exercise. Even putting aside evidence of significant fraud, virtually none of which received a hearing by our courts, events leading up to and including the November national election constituted a radical and grave departure from the federal electoral system adopted by the framers of the Constitution and the state ratification conventions. Now, let's be clear: None of this matters to the Democrat Party, since it and its surrogates perpetrated these unconstitutional acts, as I shall soon explain. Nor does it matter to the media, which is utterly illiterate on the subject and unequivocally supports the supposed outcome in any event. But it should be of great moment and concern to the people of this country and especially to congressional Republicans in both Houses, for if the latter do not at least confront and challenge this lawlessness on January 6, when Congress meets to count the electors, it will be the GOP's undoing and, simultaneously, the undoing of our presidential electoral system. Ultimately, it will be the people of the United States who love our republic who will be the losers.

Win, lose, or draw, on January 6, the Republicans must not act as if "the people have spoken" and be cowered into passivity or worse, such as joining the Democrat Party and media hecklers, by insisting that they are part of a lawless party seeking to "reverse the results of the election." Too many Republicans have already buckled, including the Senate Republican leader, Mitch McConnell, Sen. John Thune, and Rep. Adam Kinzinger. No doubt others who are unreliable and cowardly when facing the organized mob will follow. But let us not be judged by those who have intentionally and strategically manipulated our politics and the law to undermine our constitutional order. It is they who must be condemned.

Specifically, Article II, Section 1, Clause 2 of the federal Constitution could not be more explicit. It states, in pertinent part: "Each State shall appoint, in such Manner as **the Legislature thereof may direct**, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress ..." This language was purposeful. During the Constitutional Convention, there were various proposals suggested for electing a president. Should the president be directly elected by the people? That proposal was rejected out of concern that such a purely democratic process could be hijacked by a temporary majority. Should the president be chosen in the first instance from within the national legislature? That proposal was

AMERICAN OVERSIGHT

also rejected on grounds of separation of powers. Should the judiciary play a role in the selection of the president? That idea was dispensed with as being the most objectionable, as judges were to be the least political of all public officials. The framers deliberatively and with much thought created the Electoral College process, in which the people and their elected legislatures — both state and national — would play important roles. But the electoral process rested first and foremost on the **state legislatures directing** how the electors would be chosen. The reason: While rejecting the direct election of a president, the framers concluded that the state legislatures were closest to the people in their respective states and would be the best representatives of their interests. At no time did the framers even raise the possibility that governors, attorneys general, secretaries of state, election boards, administrators, etc., would play any significant role in the electoral process. Indeed, certain of those offices did not even exist. Moreover, as I said, the courts were rejected out of hand. Thus, such an important power was to be exercised exclusively by the state legislatures.

After the 2016 election, the Democrat Party, its various surrogate groups, and eventually the Biden campaign unleashed hundreds of lawsuits and an unrelenting lobbying campaign in key states that had previously been won by President Trump, taking unconstitutional measures intended to stop President Trump from winning these states in the 2020 election, thereby literally undoing this critical constitutional provision. What had been carefully crafted at the Constitutional Convention and clearly spelled out in the Constitution was the main obstacle to defeating President Trump and winning virtually all future presidential elections. The problem for the Democrats was that in several of these battleground states, the Republicans controlled the legislatures, while the Democrats controlled state executive offices. The Constitution was not on their side. Therefore, they used the two branches of government that were to have no role in directing the appointment of electors to eviscerate the role of the Republican legislatures.

In Pennsylvania, considered the battleground of the battleground states, the Democrat governor, attorney general, and secretary of state made and enforced multiple changes to the state's voting procedures, all of which were intended to assist the Democrats and Biden. The Pennsylvania Supreme Court, whose seven justices are elected, has a 5-2 Democrat majority. (In 2018, there was a big push by the Democrat Party to fill three of the seats with Democrats, and it succeeded.) Just months before the general election, that court rewrote the state election laws to eliminate signature requirements or signature matching, eliminate postal markings that were intended to ensure votes were timely, and extended the counting of mail-in ballots to Friday at 5:00 p.m. (state law had a hard date and time — election day on Tuesday, which ended at 8:00 p.m. ET), thereby fundamentally altering Pennsylvania's election laws and nullifying the federal constitutional role of the Republican legislature.

AMERICAN OVERSIGHT

In Michigan, among other things, the Democrat secretary of state unilaterally changed the state's election laws with respect to absentee ballot applications and signature verification. Indeed, she sent unsolicited absentee ballot applications by mail prior to the primary and general elections. State law required would-be voters to request such ballots. She intentionally circumvented the Republican state legislature and violated the federal Constitution by issuing over 7 million unsolicited ballots. Furthermore, a court of claims judge, appointed by a Democrat, ordered clerks to accept ballots postmarked by Nov. 2 and received within 14 days of the election, the deadline for results to be certified. The ballots would be counted as provisional ballots. The state legislature had no role in these changes.

In Wisconsin, the Elections Commission and local Democrat officials in the state's largest cities, including Milwaukee and Madison, changed the state's election laws. Among other things, they placed hundreds of unmanned drop boxes in strategic locations in direct violation of state law. Not surprisingly, the locations were intended to be most convenient to Democrat voters. In addition, they told would-be voters how to avoid security measures like signature verification and photo ID requirements. These bureaucrats and local officials bypassed the Republican legislature in altering state election procedures.

In Georgia, the secretary of state is a Republican. Regardless, as explained in the Texas lawsuit brought against Georgia and the three other states mentioned above, "on March 6, 2020, in Democratic Party of Georgia v. Raffensperger, Georgia's Secretary of State entered a Compromise Settlement Agreement and Release with the Democratic Party of Georgia to materially change the statutory requirements for reviewing signatures on absentee ballot envelopes to confirm the voter's identity by making it far more difficult to challenge defective signatures beyond the 22 express mandatory procedures set forth at GA. CODE § 21-2-386(a)(1)(B). 71. Among other things, before a ballot could be rejected, the Settlement required a registrar who found a defective signature to now seek a review by two other registrars, and only if a majority of the registrars agreed that the signature was defective could the ballot be rejected but not before all three registrars' names were written on the ballot envelope along with the reason for the rejection. These cumbersome procedures are in direct conflict with Georgia's statutory requirements, as is the Settlement's requirement that notice be provided by telephone (i.e., not in writing) if a telephone number is available. Finally, the Settlement purports to require State election officials to consider issuing guidance and training materials drafted by an expert retained by the Democratic Party of Georgia." Georgia's Republican legislature had no role in these electoral changes resulting from consent decree.

Consequently, in each of these four battleground states — and there were others — whether through executive fiats or litigation, key, if not core, aspects of state election

AMERICAN OVERSIGHT

laws were fundamentally altered in contravention of the explicit power granted to the state legislatures and, therefore, in violation of the federal Constitution and the process set forth for directing the selection of electors. And this is before we even get to the issue of voter fraud. That said, in many instances, ballots that would have been rejected or, if counted, evidence of fraud, were now said to be legal — not by state legislatures but by those who unilaterally changed the election laws.

The United States Supreme Court had an opportunity before the election, and in this general election cycle, to make clear to the states that they must comply with the plain language of Article II, Section 1, Clause 2 of the Constitution. Indeed, when a federal district judge in Michigan altered that state's election laws, a closely divided U.S. Supreme Court overturned his order. Justice Gorsuch pointed out that the state legislature writes election laws. However, when a case was brought to the Court involving the Pennsylvania Supreme Court's interference in state election laws, the U.S. Supreme Court was paralyzed. Chief Justice Roberts attempted to distinguish between federal and state courts, which is irrelevant; in another instance, Justice Alito ordered the Pennsylvania secretary of state, not once but twice, to segregate certain mail-in ballots, but nothing came of it. A court divided against itself cannot stand, to paraphrase Abraham Lincoln. Its failure to enforce the Constitution (and by that I don't mean make law or intervene in legitimate state election decisions) has contributed mightily to our current plight.

Despite what has been reported and repeated, the president is not actually or officially chosen on Election Day. The president is not chosen upon the certification of electors by the states. The process ends in Congress. And on Jan. 6, Congress — following both the Constitution and its own procedural law — makes the final decision on who is to be president and vice president of the United States. Of course, in every election in my lifetime, up to now, while there have been some controversies, the process has proceeded without much attention. But this time is different, as it must be. The Democrat Party, its surrogates, and eventually the Biden campaign instituted an unprecedented legal and lobbying campaign, mostly under the radar, as it was not well covered by the usual media outlets, to undermine our Constitution, the Republican state legislatures, and the Trump re-election campaign, in favor of Biden. In other words, the Constitution's electoral process for choosing electors and ultimately the president and vice president was systematically and strategically attacked. It is now left to Congress, or at least the Republicans in Congress, to confront this. The Democrat Party has done severe damage to the nation's electoral system, to the point where the state legislatures are now in the position of having the least input on the manner in which elections are held and federal electors are chosen — the complete opposite of what the Constitution compels and the framers unequivocally intended. And the legislatures in Pennsylvania, Michigan, Wisconsin, and Georgia have, in a variety of ways, objected to what's occurred, underscoring the seriousness of the problem.

AMERICAN OVERSIGHT

If this outcome is allowed to stand without a fight on Jan. 6, it is difficult to see how this can be fixed. The Democrats will view this as a sure sign that they are free to do more and even worse. It will become extremely difficult for Republicans to win nationwide elections (something the ten or so GOP senators who wish to run for president should keep in mind). It will also become increasingly difficult to win a Republican majority in the Senate. And the 2020 constitutional violations will be used as a baseline for even more unconstitutional manipulations of the electoral system. The Democrat Party's goal is to turn the nation's electoral system into the one-party rule that exists in virtually all blue states, especially California with its supermajorities.

As I said earlier, win, lose, or draw, the congressional Republicans must act. It is the Democrats and their media who seek to undo election results by undoing the election system. Look at what they did in 2016 (need I remind everyone of the relentless assault against candidate and then President Trump?) and now 2020. And they have every intention, as they have boldly proclaimed, to further undermine our constitutional system should they win the Senate majority in a few days — by eliminating the filibuster and any ability to slow their radical legislative agenda; packing the Supreme Court with left-wing ideologues; and packing the Senate with four more Democrats from Puerto Rico and D.C. And that's just for starters. This is the same party that did not care that it had no hope of removing President Trump in the Senate, but impeached him anyway — on the most specious of grounds. They are playing for keeps and destroying our constitutional system, for which they have little regard. I am well aware that it takes a majority of both Houses to send the election of the president to the House of Representatives, where each delegation gets one vote, an extremely difficult hurdle.

Nonetheless, it is not asking too much for the Republicans to uphold the United States Constitution — which they all took an oath to do — and to fight to preserve and protect the plain words set forth in Article II. They must make the case to and on behalf of the American people. And they must make it clear to the Democrats that we, the people, who believe in this Republic, will not roll over! Now, let's see how many statesmen there are among Republican members of Congress.

Other than the excellent reporting by the Gateway Pundit team, most of the media—both print and electronic—are engaged in a full blown propaganda campaign to try to persuade the American public that claims of fraud are debunked conspiracy theories. Not since the bad old days of the Soviet Union have we witnessed such contemptible lying. Compared to Baghdad Bob's denial

AMERICAN OVERSIGHT

that US tanks had overrun Iraq—the equivalent of a grenade exploding–the current campaign of falsehoods is comparable to a fleet of B52s dropping hydrogen bombs.

The Democrat plan to steal the election went beyond the old tactics of voting the graveyard. This time it included manufactured ballots with only old Joe Biden's name attached and voting machines that would count those ballots in multiples while counting Donald Trump votes as less than one. All of these machines had a software backdoor that was accessed by Democrat operatives and their Silicon Valley helpers as well as the Chinese.

Using this combination of manufactured ballots and machine manipulation, the results in six key states are fraudulent and more than sufficient to prove that the Fraudulent votes exceeded Biden's alleged margin of victory in each of these states:

PENNSYLVANIA (20 Electoral votes)

Biden + 81,000 votes

Fraudulent: 121,000 votes

WISCONSIN (10 Electoral votes)

Biden + 20,000 votes

Fraudulent 200,000 votes

ARIZONA (11 Electoral votes)

Biden +10,000 votes

Fraudulent 300,000 votes

MICHIGAN (16 Electoral votes)

Biden +154,000 votes

Fraudulent 548,000 votes

GEORGIA (16 Electoral votes)

Biden + 12,000 votes

FRAUDULENT 204,000 votes

NEVADA (6 Electoral votes)

AMERICAN OVERSIGHT

Biden + 33,000 votes

Dead voters: 1500

Changed Addresses: 2500

Vacant addresses: 6000

Nonexistant: 8000

Commercial: 15,000

Out of state: 20,000

Double voting: 42,000

Fraudulent votes: 95,000 (the sum of the preceding).

The numbers tell the story. We are asked to believe that Joe Biden won more votes than Barack Obama. Do you remember the crowds Obama drew during the 2008 election? While they did not approach the masses that Donald Trump attracted in 2020, they were unprecedented at the time. There is no way that Joe Biden garnered 13 million more votes than Barack Obama. Obama had charisma and a following. Biden had Depends. A pile of garbage festering in a hot July sun drew more flies than Biden supporters to a campaign event.

Consider these facts (thanks to Patrick Basham's excellent analysis):

- President Trump received more votes than any previous incumbent seeking reelection and any previous candidate seeking election. He received 12 million more votes than in 2016, an increase of more than any incumbent in history.
- Trump grew his support among black voters by 50 percent over 2016. Nationally, Joe Biden's black support fell well below 90 percent, the level below which Democratic presidential candidates usually lose.
- Trump increased his share of the national Hispanic vote to 35 percent.
- Midwestern states Michigan, Pennsylvania, and Wisconsin always swing in the same direction as Ohio and Iowa, their regional peers. Ohio likewise swings with Florida. Current tallies show that, outside of a few cities, the Rust Belt swung in Trump's direction. Yet, Biden leads in Michigan, Pennsylvania, and Wisconsin because of an apparent avalanche of black votes in Detroit, Philadelphia, and Milwaukee. Biden's 'winning' margin was derived almost entirely from such voters in these cities, and coincidentally his black vote spiked only in exactly the locations necessary to secure victory.

AMERICAN OVERSIGHT

- Biden won with a record low of 17 percent of counties; he only won 524 counties, as opposed to the 873 counties Obama won in 2008.
- Late on election night, with Trump comfortably ahead, many swing states stopped counting ballots. In most cases, observers were removed from the counting facilities. Counting generally continued without the observers
- Statistically abnormal vote counts were the new normal when counting resumed. They were unusually large in size (hundreds of thousands) and had an unusually high (90 percent and above) Biden-to-Trump ratio
- Missing votes. In Delaware County, Pennsylvania, 50,000 votes held on 47 USB cards are missing
- Non-resident voters. Matt Braynard's Voter Integrity Project estimates that 20,312 people who no longer met residency requirements cast ballots in Georgia. Biden's margin is 12,670 votes
- Serious 'chain of custody' breakdowns. Invalid residential addresses. Record numbers of dead people voting. Ballots in pristine condition without creases, that is, they had not been mailed in envelopes as required by law
- Statistical anomalies. In Georgia, Biden overtook Trump with 89 percent of the votes counted. For the next 53 batches of votes counted, Biden led Trump by the same exact 50.05 to 49.95 percent margin in every single batch. This same scenario happened in Wisconsin, Michigan, Pennsylvania and Virginia.

The truth of the 2020 election is that Donald Trump won an historical victory. But the Deep State, those who profit from war and cozy relations with the Chinese and an international order that sacrifices American workers, are keen on eliminating Trump.

It remains to be seen if Donald Trump will prevail in the Supreme Court and the Congress. The future of the American Republic hinges on this moment. So far, the Department of Justice and the FBI have been missing in action. If they fail to do the right thing and uphold the law and bring the guilty to justice, the future of this nation is at risk.

If Joe Biden is inaugurated, his reign will be short and disastrous. Most of the 74 million Americans who voted for Donald Trump will not acknowledge him as a legitimate leader. The seeds of revolution will be sown and the established order that rules Washington will find itself facing a national opposition movement that is unprecedented in the history of this country.

I, along with you, pray this does not come to pass. But if we must resist the usurpers, then resist we must. This fraud cannot stand. And every Republican member of the Congress–House and Senate–are on notice. We will remember.

If there is a logical/factual explanation that effectively refutes the cumulative evidence and conclusion of widespread and coordinated fraud and corruption by the left, I'm willing to consider it. But dismissal due to "no court has found..." or "no credible media source has reported..." does not meet that standard.

President Trump has the right AND THE DUTY to take any and all constitutional measures necessary to defend our republic against the enemies, both foreign and domestic, who are trying to tear down our nation and take it over with tyranny and repression. We The People need him to use his Executive Powers to retain and restore order in the face of sedition and acts of war against these United States Of America!

Dear Representative,

Letter copied from a young bright man's post.

Personally I would have added, that in any other profession if you don't do your job, you get fired.

I live in Maricopa county. I'm upset with the process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:
- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.

I urge you to object to this complete and total travesty of an election on January 6th. We the American People will not stand for an establishment that seeks to destroy the citizens in which it governs. Myself and many others will not sit idly and watch as our great Nation is torn apart at the seams.

YOU, the elected officials have a choice; Cower in fear, or stand up and FIGHT for the American People!

Rome did not fall overnight and we cannot let ourselves go past the point of no return...

To All those listed here, I respectfully urge you to stop the validation of the November 2020 election on January 6th. The initial evidence of fraud is overwhelming and needs to be investigated by congress!

As a 69 year old grandma who has been around the block a few times, I am appalled at the lack of willingness on the part of our courts and legislatures to hear these cases and investigate the volume of reports of fraud!

Again, I urge you for the sake of our republic to take up these investigations and assure the American people that you care about voter integrity and fair elections.

I plead that on January 6th you object to the Biden electors from the 6 states that are full of fraud. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current legislators to stand up against fraud and imminent socialism, I want them to be primaried, not out of vengeance, but because I need legislators I can count on. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators have not stood behind him and taken care of this fraud already. I demand that you stand up now against fraud and support our President.

Dear Public Servant,

All Americans deserve to know the truth behind the election fraud allegations. Please support the investigation into finding out the truth. As a fellow patriot listed below:

* There are 74 million angry Americans waiting for you to take a stand.
* We expect this to be rectified by you calling an Electoral session before January 6th, listening to the evidence, reclaiming your state's electors —we expect this to occur!
* We the People are waiting for you to act.
* If $1 was given by these 74 million voters to the opposing Republican in your next primary, that would be $74 million dollars.
* We the People will not burn down cities, we will not riot. Instead we will use our power as Americans to right this wrong. You must right this wrong.

Dear Representative,
As a concerned citizen and registered voter in CA, I implore that you object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI.

Allowing our election to be stolen will be so devastating to our republic that we may never recover. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden.

The fate of our country hangs in the balance.

Please restore our faith in free and fair elections.

DONALD TRUMP CLEARLY WON THE 2020 ELECTION FOR PRESIDENT.

Republicans in Washington D.C. and at the state level must find the will to lead. You have a duty, a sworn duty, to protect my vote NOW.

I know I speak for millions of voters who want the evidence of election fraud recognized and reviewed prior to January 6. It does not go unnoticed that states like Michigan presented a subpoena for evidence that is not due until January 12. That passive approach to protecting my vote is not nearly sufficient!

State legislators must draw the line between legal and illegal votes. Consider that as the state legislators relinquish their power to other administrators, they dilute your power in Washington D.C.

Why are you all sitting back and allowing our nation, our Constitution, to be undermined?

THE TIME TO SOLVE ISSUES OF ELECTION INTEGRITY IS NOW. Solve it NOW.

Don't blame the courts. We know, We Americans know, who is responsible.

I've been a Republican since I could register to vote some 36 years ago. I've stuck by this Grand Old Party while "leadership" allowed us to be recast as racist, xeno/homophobic. SHAME ON THE GOP! TAKE ACTION NOW TO RIGHT THIS WRONG!

Thank you for your consideration,

I plead that on January 6th you OBJECT TO THE BIDEN ELECTORS from the 6 STATES that are FULL OF FRAUD! The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. The MILLIONS of Americans who voted for Trump KNOW THIS TRUTH. We will fight for what is right.

If I can't count on current Republicans in office to stand up against fraud and imminent socialism, I want them to be primaried. The enthusiasm in the Republican Party is for TRUMP, and it's shameful that Republican legislators are not correcting this massive fraudulent election. You need to decide now to stand up against the fraud and support our President. Please see Peter Navarro's Report with numbers and facts:

There is a plan for objections to the certification of the electoral votes provided by the State Electors. Alternate slates of electors for each state have been submitted as well.

The Republicans are planning on objecting to the slate of electors provided by the state electors. That is only part of what is needed.

Please see attached article and comments from Epoch Times.

YOU NEED TO CALL A SPECIAL SESSION AND PREPARE AND SUBMIT A "RECLAMATION RESOLUTION" TO TAKE BACK YOUR POWER TO NAME THE ELECTORS FOR YOUR STATE.

ACCORDING TO STEPHEN MEISTER, IF YOU FAIL TO DO THIS.....THEN THE PLANS FOR JANUARY 6TH INCLUDING *OBJECTIONS* WILL FAIL.

I BELIEVE RUDY GIULIANA AND JENNA ELLIS ALO STATED THIS TO YOU IN EVERY HEARING. YOU HAVE TO TAKE BACK YOUR POWER RATHER THAN JUST SUBMIT AN ALTERNATE SLATE OF ELECTORS BECAUSE RIGHT NOW, YOU GAVE THAT POWER AWAY SO YOUR ALTERNATE SLATE OF ELECTORS IS JUST A FUTILE ATTEMPT THAT WILL GO NOWHERE.

PLEASE ACT NOW!

If you fail to call a special electoral session to review the highly suspicious presidential election results from your state you will have failed this country and submitted to tyranny. The governor is not your slave master. He has no power to prevent you from exercising your constitutional authority in this matter. You have seen the evidence and testimony of widespread and rampant voter fraud in your state. For the sake of the nation, you must do the right thing and convene a special electoral session before the electors are counted in Congress on January 6th and review all the evidence. You must certify an amended slate of electors according to the determination of a free and fair election. It is your obligation. It is not an option.

AMERICA FIRST OVERSIGHT

Dear Arizona Representatives:

My name is David A. Lelli and I live in Rhode Island. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Subject: Election

Happy New Year! Now fix the election!

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

AMERICAN OVERSIGHT

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. "Rosco" Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens. I will continue to email you on this issue and get others to do so as well until you are out of office or till the elections are not corrupt.

Regards,
Roberson

Subject: November 3, 2020 Election

Elected Officials,

I implore you to do the right thing. The November 3, 2020 election was riddled with fraud, and the evidence supports this conclusion. I ask that you do your duty, call an electoral session to hear the evidence, and reclaim your electors **before January 6, 2021**. In the constitution, our founding fathers gave the state legislatures absolute dominion regarding elections, and it's time for you and your colleagues to act on your responsibility. At the same time, I ask that you reach out to your state's federal representatives and senators and demand they challenge the electoral college results. Biden did not legally win the election. Likewise, our voting system must be fixed to return confidence and integrity to the process. I feel disenfranchised, and I know the members of my social circle feel the same.

Honorable Legislator(s):

Thank you for your diligence investigating election irregularities.

If you believe that there is any evidence that the Presidential vote tallies in your state(s) are not accurate, the Constitution of the United States mandates that you take responsibility and act.

All you need to do to "arm" the House, Senate, and Vice President in Washington D.C. for January 6 is to send a simple letter or letters:

Signed by as-many-as-you-can-get state legislators saying that your state legislature

1. Does not approve the election results and electors selected by the Sec of State and/or Governor due to evidence of fraud, and
2. Either:
   a. Withdraws all the State's electors from the count

OR

   b. Approves the GOP slate of electors

Edited: Jan 1 –

PA has already implemented step 1, and they have already asked that Congress dispute the PA electors until more investigation can be done (let's call that option 2c). Personally, I am not sure that option 2c "requesting dispute" is as powerful as option 2a "withdrawing all electors". Under Option 2a, neither candidate would achieve 270 electors and the House would be forced to vote by State. Under option 2c, the democratic House would probably go along with the fraud so Biden would "win", and with the Senate's position unknown, that might not bring integrity into the final solution. Let's face it, it's been two months of investigation with very little results due to blocking by complicit individuals in government. I very much doubt that the American Patriots will tolerate a falsely-elected Biden presidency, so we depend on the state legislators to hold the line. Additionally, a falsely-elected Biden government will cause the Corrupt Deep State Corporate Globalists to go on a rampage and negate all the progress Humanity has made so far under President Trump's leadership.

- End edited section

(Ideally, the signatures could represent a majority in House and/or Senate; however, some may be "afraid" of losing funding or committee seats or being targeted by Antifa etc. and may abstain from making a stand.)

This action is mandated by the Constitution regarding a Federal Election and ought not depend on your state law / Governor to call a special session (nor should the execution of Federal obligations be permitted to be blocked by anyone at State level). You can convene very informally to gather signatures for this purpose. I am not an attorney, however I bet that your actions would hold up quite well in court – especially since many of your Governors have been blocking you for months now by refusing to call a special session!

AMERICAN OVERSIGHT

With many courts refusing to hear evidence and make judgements based on "lack of standing" (etc.), the judiciary is already supporting legislators accepting responsibility and acting.

Congressional Representatives and Senators have already committed to blocking fraudulent electors, and they need your support.

Thank you.

Hi, my name is Tyler Dears, I live in Maricopa county. I'm upset with the process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:

- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.

I urge you to object to this complete and total travesty of an election on January 6th. We the American People will not stand for an establishment that seeks to destroy the citizens in which it governs. Myself and many others will not sit idly and watch as our great Nation is torn apart at the seams.

YOU, the elected officials have a choice; Cower in fear, or stand up and FIGHT for the American People!

Dear Arizona House of Representatives members, as a concerned US citizen, retired military veteran and patriot I urge you to call an emergency electoral session to hear the mountains of evidence of fraud from the 2020 election in order to reclaim your electors before January 6th, 2021. I ask that you immediately join with the growing number of Republicans who have seen enough voter fraud and corruption and

Time is of the essence and everyone's voice is needed- but especially the voices of elected-leaders like yourself.

Dear representative Finchem,
I hope you are doing well. As a true American of this great country I ask you and the rest of the legislature to stand up for the truth of the American people to stop the steal of this election on January 6th Epiphany day. The courage to stand up and defend the Constitution of the United States by objecting to the electoral college results. We must secure our voting systems and question this type of interference particularly after the testimony of Mr. Pulitzer yesterday (December 30, 2020). He showed that voting machines were actually hooked up to WiFi which we have been assured can not happen.

We are so tired of our representatives rolling over (even when we have the power) for fear of what? The democrats take every inch they can and we just figure we'll be nice. Stop being nice! This is our freedom! We need to preserve our amazing country that my parents fled socialism and sought opportunity in this land of the ***free and home of the brave***. We need to stop pretending the Emperor has clothes when he is running around naked and blowing raspberries in our stupefied faces. Stop this steal!

We need to show that our elections can be verified instead of pretending we should just get over it. No more!

Trump has proven that being tough works! We are Americans. We are the ones who question what we know and can see is wrong and take the chance to fight against it.

Thank you again for having courage. I will support you as best I can in this effort to legally question this election.

You must do all in your purview and power, to STOP THE STEAL.... please do all you can, to see that **all the ballots are audited, by Jovan Pullitzer, and others...and also to DECERTIFY YOUR STATE'S VOTE!**

To Whom It May Concern:

I would like the AZ legislature to decertify the Biden electoral votes previously submitted to Congress before the January 6, 2021 count proceeds. It is within your power to exercise justice and deliver electoral votes for Trump. There are many examples of election fraud and irregularities in your state and others. I am convinced this election was stolen from Trump and have hopes you will come to the same conclusion after an objective study of facts. The Dominion hacking in GA alone should cause you to decertify at least long enough for further study. These same machines are used in your state. Many other examples of voter irregularities exist in your state to warrant review. Real review. Your Governor and Secretary of State are dishonorable and are not representing the citizens of AZ the way they deserve.

I am not a citizen of AZ but am an American citizen and 21-year armed forces veteran. Election fraud anywhere affects all legal votes everywhere.

Subject: For Your Action

Dear State Representative or Senator,

As an elected official, working *for the people* and responsible for astutely upholding truth and justice in accordance with our *Constitution-based Republic*, *we the people* demand that you boldly address the painfully obvious high degree of fraud, foreign intervention and the attack on our election system that occurred as part of the 2020 national presidential election. It's time to prove your worth as a representative of not only your state, but also as a citizen of this nation. Without your action, this nation will absolutely decline to nothing more than a tyrannical dictatorship. We can all agree that we DO NOT want this! Therefore, here's what *we the people* demand of you at this critical point in time:

- **Decertify the election results for your state on January 6, 2021.** The overwhelming and damning evidence -- captured in video and audio recordings, provided in legal affidavits, and demonstrated with the misuse of vulnerable and penetrable voting system hardware and software -- has been ***clearly presented*** in multiple forums. The overwhelming evidence is there, in our faces, and it is clear to tens of millions of true Americans this vote was simply engineered to create the outcome desired by those willing to lie, cheat and delegitimize the legal voting process defined in our Constitution.
- **Only send legitimate electors to Washington D.C.** *We the people* demand that you simply uphold the constitutional voting process and the selection and certification of legitimate electors. We are most interested in conducting and protecting a legal voting process, no matter the winner.
- **Call a special session in your state to hear the evidence.** It's difficult to believe the number of state representatives that claim they have not yet seen any evidence, or that the evidence they have seen is fruitless. Really?! Therefore, immediately schedule a focused, special session to present and review the demonstrable evidence.
- **Conduct a physical audit of all ballots.** Specifically, conduct the audit in accordance with the scientific approach offered by Jovan Pulitzer that rapidly scans ballots for physical evidence of legitimacy.

Here's the bottom line: TRUTH shall and will overcome just as light overcomes darkness! True American patriots will not give up on this republic and we will unceasingly fight to preserve and protect our Constitution and nation against enemies both foreign and domestic. With the loyalty of our nation's courts -- from the local level up to SCOTUS -- and other branches of government to the Constitution and the American people now in question, we need to change this nation's trajectory immediately using all peaceful means available.

So, it comes down to you and the path you'll take on January 6, 2021 that will subsequently define our nation's course. It's your moment in history to mightily stand with strength and courage, putting nation before self, and exhibit the confidence and integrity needed to Decertify the Election Results for Your State! This is your constitutional duty as an elected official and true American to precipitate a fair and legal national presidential election in accordance with Article II, Section 1 of the U.S. Constitution.

Our nation's freedom and future absolutely depend on what happens in these next few days. I pray that you and other elected officials will do everything to uphold the integrity of this and future elections and our faith and trust in this nation's leadership, institutions and constitution.

May God continue to bless and protect you and our great nation, the single remaining beacon of hope and freedom for this world!

"We're in a situation where, we have put together, and you guys did it for our administration – the President Obama's administration before this – **we have put together, I think, the most extensive and inclusive voter fraud organization in the history of American politics**," Joe Biden. The quote above cannot be explained as out-of-context, uninformed, biased, or as misspoken. The only explanation is dementia and a friendly audience. Joe Biden had a friendly audience and forgot to lie.

There is too much evidence of fraud to fully process in the time provided. This election was stolen. Worse than that, if allowed to stand, all future elections will be stolen. It is now or never.

As a concerned citizen and registered voter in Arizona, I am writing to ask that you please decertify the Biden slate of electors and/or certify the Trump slate. There has been widespread election fraud with overwhelming, irrefutable evidence. Tens of millions of Americans have now seen it. Dueling electors were selected on December 14th to then be able to vote in place of the electors chosen for Joe Biden in seven contested states. But Trump's slate needs to be retroactively certified quickly. Allowing our election to be stolen in light of this fraud will be devastating to our republic, from which we may never recover. Dear legislators,
I paid close attention to all of the hearings on election concerns that your state held. I applaud those hearings because I learned so much. After all I've seen, read, and heard, I urge you to decertify your 2020 presidential election results for Joe Biden. I also urge you to certify your electors for Donald J. Trump. As an incumbent President, he was disenfranchised using the premise of COVID-19 as a way to flood your system with mail-in votes. The mail-in votes allowed for an unprecedented level of fraud that it's a disgrace upon your state and our nation as a whole.
You have the opportunity to correct the situation if you act before January 6, 2021. This a crucial point in American History. We will be a banana republic if this fraud perpetrated on us is not corrected. America has never had a fraudulently elected President before. We cannot let it happen.
Again please decertify Joseph R. Biden electors in the electoral college for the state of Arizona, and certify the electors for Donald J. Trump who obviously won the election in Arizona handily when you account for the fraudulent adjudications, dead voters, voters of unknown addresses, voters who voted in another state, etc.

Here are some points I want to make:

* I am one of 74 million Americans who feel disenfranchised due to overwhelming amount election fraud.

* I am one of 74 million angry Americans waiting for you to take a stand.

* I expect this to be rectified by you calling an Electoral session before January 6th, listening to the evidence, reclaiming your state's electors —I expect this to occur!

* We the People are waiting for you to act.

* If $1 was given by these 74 million voters to the opposing Republican in your next primary, that would be $74 million dollars.

* We the People will not burn down cities, we will not riot. Instead we will use our power as Americans to right this wrong. You must right this wrong.

* This is an overthrow of our basic right for a free and legal election.

* This is your duty as a duly elected state legislator to protect the elections in the state you represent as outlined in the Constitution of the United States.

* Stop hiding behind your Governor. We are aware.

* If you do not act, We the People will lose our right to a free and fair election, you will lose in your next election.

* God help us.

Good afternoon,
The purpose of my email is to request that you object to your state's election results. The proof is astronomical, but apparently the corrupt judges' pockets are very deep. It's shameful and embarrassing for your state. Please support your President, but more importantly, support your country on January 6.
I like my freedom and I think I speak for most Americans in saying that would all like the United States of America to remain a free country. I pray to God that you'll do the right thing. Thank you for your time. God bless you and God bless the United States of America.

Subject: Election Fraud

Millions of Americans are furious about how the last election was handled. Millions of mail-in ballots, ballot drop boxes, and the unsupervised counting of votes occurred in closely decided states, including Georgia, Pennsylvania, Arizona, Nevada, and Wisconsin. Dozens of witnesses have come forward with credible allegations of fraud. There is just too much evidence that this election was fraudulent.

The American people deserve to have their votes counted and to have a fair election. There is so much evidence of a fraudulent election in 2020 that further investigations need to be done. Our constitution, our freedom, and our America depend on that and demand that. This is your chance to show some bravery and show voters you're looking out for their interests and that you stand by our Constitution, our freedom, and our republic. The world is watching and hoping you do the right thing on January 6th. *Joe Biden did NOT win this* election. He is NOT our next president. Please do not be part of the vast corruption and fraud taking place. Do the right thing. Our entire Republic depends upon it.

Comments:
Dear Congressman Finchem, I am writing today to ask you to stand up to the voter fraud committed in the recent election in this country. Thomas Jefferson famously stated that the first congress had given the nation a Republic, â€˜if we can keep it!â€™ Jeffersonâ€™s phrase rings like a resounding strike on the liberty bell housed in Pennsylvania. If we can keep our Republic depends very much on those whom we have elected into office, having the courage and backbone to do their duty and make sure that votes counted are actual legal votes and not fraudulent. 83 million Americans on both sides believe that fraudulent votes changed the course of this election and a steal has been perpetuated upon the citizenry. Without voter integrity we become a Banana Republic. Without men and women with courage to do the right thing and enter the fray, we lose this Republic and with it the free world. This being said, it is with urgency I ask that you choose right and act. Do not confirm any usurper. Pursue an honest result in the Congress in January. I ask you to look at the numbers; look at the evidence; seek the true result and as you do, Iâ€™m sure you will see that President Trump was overwhelmingly reelected by the people until counting dramatically changed in several blue battleground states after midnight. This is theft; this is fraud; this is not what we Americans are about, we are better than this. I ask along with many others that you stand for truth, stand for right and make an objection on January 6 to the fraudulent attempt by the DNC to steal this election. You Sir have the responsibility as our representative and you Sir, have the power in your hands to stop this. You may be asking who am I to tell you what to do, but I say have you forgotten who you work for? Who elects you? Who places power in your hands. We the people thatâ€™s who. Therefore. I say Mr. Congressman It is your duty as a member of the Congress and as a representative of the people who sore to defend the Constitution, this Constitution that has served us well for 231 years to defend it. It is in fact your sworn duty to uphold our Constitution and to use this same Constitution to stop this blatant theft of not just this election, not just 4 years, but the blatant theft of the Republic of the United States. Yes, it is that important! This is not just another election, this is not just politics, this is an attempt to turn us into a socialist country and flood our nation with illegal voters so never again will there ever be another Republican government. Never before in recent history has your role in the Congress been more crucial. I canâ€™t emphasize this enough. Perhaps, nothing I say can convince you, therefore, Iâ€™m relying on your upbringing on your remembering as a young boy in school standing in your classroom with your hand on your heart saying the pledge of allegiance to this Republic and meaning it. Iâ€™m relying on you remembering why you became a Congressman and Iâ€™m relying on Almighty God to bring this to your heart and your mind before it is too late. A dereliction of your duty now, will not go unobserved. Make no mistake, this stolen election is an attempt to stop this Republic. We are literally on the brink of destruction. Socialism is chanting at the bit. Globalism is a real threat. As much of a threat if not more than the threat Hitler posed on Europe. If this stolen election is not challenged then every subsequent election will not be genuine. If machines can be programed; if dead people can vote; if observers are sent home; if crates of phony ballots can be produced and counted and recounted and fed several times

through a machine, then our future is doomed. This is serious, this is not the usual political game this is our future and our childrenâ€™s future. Along with this Republic being doomed, your honor as a Congressman; your honor as an American and your honor as a man is at stake. You must decide; you must take courage and heed the call to fight for right. You must be part of history and stop this steal. This corruption at the highest level must be stopped. Our founders knew the cost and pledged their lives and their livelihoods in pursuit of the freedoms and liberty we now enjoy so I say to you today Congressman Finchem, choose to be part of the rescue of our Republic. Choose to be on the right side of history, our history, our rich history. Fight and indeed defend the Constitution. Our Constitution that is unique in the world and it worth defending. You Sir have power in your hands, the power to help save this Republic. I appeal to you to act on behalf of the people and this Republic. We have a history; we have a cause and we have a nation like no other. Congressman Finchem Sir - you can keep it! Yours sincerely, Vicki Kramer

Dear Legislator,

As a concerned citizen and registered voter in Massachusetts, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

I plead that on January 6th you object to the Biden electors from Arizona. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current legislators to stand up against fraud and imminent socialism, I want them to be primaried, not out of vengeance, but because I need legislators I can count on. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators have not stood behind him and taken care of this fraud already. I demand that you stand up now against fraud and support our President.

I still demand that the forensic audit takes place in Arizona. We are a laughingstock and disgrace to the country. I have friends and family who had spoken of moving here that now say they don't want to live in such a liberal, obviously corrupt state. We are "doing ourselves in." PLEASE DO THE RIGHT THING AND ACKNOWLEDGE THE ELECTION FRAUD AND CORRECT!

I am writing this as a citizen who has deep concerns about the integrity of the November 3rd Presidential election. With each passing day, more and more irrefutable evidence comes to light of election fraud in your state. Worse than that is the apparent unwillingness of any officials to get to the bottom of what is going on.

In light of all the evidence and the reality that the goal of this crime is coming to fruition, namely the election of Joe Biden, as legislators, you are obligated to act by calling a special legislative session and appoint electors to vote for Donald Trump on January 6th 2021. I urge you to act expeditiously to right this terrible wrong in accordance with the oath you took to uphold the Constitution and ensure the future integrity of our elections.

Thank you for your consideration.

Good morning,

Thousands of U.S. soldiers have given ther lives to secure freedom for our country. Recently, brave individuals in swing states risked their well- being by exposing pervasive fraud which they witnessed firsthand while serving at election polls. The future of our entire republic is at stake.
I respectfully request you exercise your Constitutional and statutory authority to object to certification of any elector from any state, that refuses to allow a meaningful, forensic audit of the November general election, for electors to the Presidency, which must include:
1) a re-canvass of the vote that authorizes independent confirmation of a signature match using the same standards the same election officials use for nomination petitions, recall petitions, and initiative petitions;
2) publishing of the ballots for the world to review and observe, as states promised when they wrote large taxpayer checks to election machine companies like Dominion and others; and
3) audited review of voter rolls to insure only qualified voters cast ballots for electors to the Presidency. If a state refuses to allow honest audit of the vote, I request you object to the certification of any electors from that state which has refused such an audit. At present, this includes the electors from Wisconsin, Michigan, Pennsylvania, Georgia, Arizona and Nevada.
Please refrain from insulting constituents whom have trusted you with only a form letter response to this urgent request. January 6th is not far away. Will you stand for America, We the People & the *Constitution? Will you object to tainted Electoral College votes? Without your standing up and* foregoing fear, there will be no meaningful honest election in the future.
Thank you for weighing this request before God Himself, whom you seem to indicate that you know and serve. Thank you in advance for doing right by the citizens of our great nation.

Inventor and Stanford researcher Jovan Pulitzer appeared in front of the Georgia Senate on Wednesday afternoon and revealed that he has gained access in real time to a voting machine and polling pad in Fulton County, Georgia through a WiFi connection as Georgia residents cast votes in the state's U.S. Senate runoff election. "At this very moment at a polling location in the county, not only do we have access through the devices to the poll pad – the system, but we are in," Pulitzer said. "And it's not supposed to have WiFi, and that's not supposed to be able to happen. So we've documented now it's communicating two ways in real time, meaning it's receiving *data and sending data – should never happen, shouldn't be WiFi, we've now documented it in real time.*" "That's going on right there where everybody's voting, and I just want to get it into the record," Pulitzer added, referencing the Senate runoff election.

Subject:	LETTER REGARDING ARIZONA ELECTION FRAUD

Attention: Arizona House Representatives

STOP THE STEAL!! As a resident of Washington State, where mail-in voting has destroyed any election integrity for over a decade, we are all too familiar with voter fraud. No republican has a chance of winning elections in this state, and Democrat Governor Jay Inslee, with his Marxist ideology and the support of massive voter fraud, has single-handedly destroyed our economy, bankrupted small businesses with his draconian lock-downs, and allowed the once beautiful city of Seattle to become a "sanctuary" city.

Like millions of people, my family and I watched in "real-time" and with disbelief the ballot dumps in the middle of the night where hundreds of thousands of votes were switched from President Trump and cast for Joe Biden. Our exact words were, "what just happened?" Since that time, we have followed closely the lawsuits, hearings, and listened to the testimonies of brave American citizens who witnessed first-hand the massive fraud that occurred on election night and the days thereafter. To our dismay, ALL of this compelling testimony, legitimate lawsuits and election hearings were summarily dismissed and completely discredited by the Democrats, the Media, and our Judiciary System. It is an utter sham!

We now find ourselves living in the "Twilight Zone" - where black is white, white is black, and truth and the rule of law no longer exists. In essence, we are supposed to believe that a "fake" candidate who ran a "fake" campaign and now won a "fake" election is for real.

As Christians, we firmly believe that it is time to take a stand of good over evil. That being said, we implore you to stand up to the obvious stolen election from Donald J. Trump NOW!

We are asking you to DO YOUR JOB! De-certify Arizona, demand a forensic audit, and rightfully cast the electoral votes for President Trump on January 6. If you do so, you will have the support of millions in this country and more around the world who value truth, freedom and democracy. A failure to act or *complacency is not an option! We, the people, DEMAND that you stand up for US and do the right thing.*

12/30/2020

Dear State Legislator:
I am a Arizona resident and it absolutely dumbfounds me, especially how Republican legislators, have become so complacent about the huge body of evidence revealing election fraud! I urge you to call an Electoral Session, hear the evidence in detail and recall or decertify your electors before January 6th. The Founders laid this out this option in the U.S. Constitution to guard against widespread fraud at the State level. Another thing you could do is to support, in whatever way you can, any potentially dissenting electors before they travel to the US congress on Jan 6. Formal decertification is not the only way, although, by far, it would be best. I will be sending this demand to our governor as well.

We all need to stop hiding behind the Governors actions or inactions. With Biden surrogates like the squad are pushing for large lists of Trump supporters to be disseminated to deny them future employment link to N.Y. Post. Similar efforts are mounting across the country. Thus, we are on the very cusp of a totalitarian state in which your inaction will roll out the red carpet!!!

As a Christian, I also had fears about encouraging you specifically in a similar way. Yet I recognize the fear of litigation or losing your job. That is a rational human response. But you are going to be losing your job anyway! Conservatives who VALUE the Constitution will never forget your inaction. Fear disables us from standing up for honesty and righteousness. In regard to dealing with such fears, I have written a blog some years ago on overcoming such fears. If fear in this situation is a factor in your consideration, I would encourage you to read it at the following link.

Subject:	Requesting special session to provide electors for the Nov 3 Presidential election

Dear Honorable Members of the Arizona State House:

The November 3 Presidential election was quite clearly stolen by Democrat cheating by a very wide variety of means. I, along with tens of millions of others who voted for President Trump, have been feeling helpless and disenfranchised. It was statistically impossible for Joe Biden to win this election. I am writing to request that you call an emergency special session to appoint new electors to represent your state on January 6, 2021. If the Democrats are allowed to get away with this kind of cheating, they will further entrench it into our election system and Republicans will never win any meaningful position again.

Sincerely,

You were all "elected" by the people FOR THE PEOPLE. Evidence has mounted pointing to election fraud in our state. As voters, we want to have faith in our elections. The Dominion voting machines should be allowed to be forensically inspected. Why on earth would that be disallowed if there are discrepancy's? You are either for clean elections or you are trying to hide something. If that is your motive you should all be FIRED and removed from public office.

Donald J Trump won the 2020 Presidential election and we implore you to cast your vote based on the mounting evidence of voter fraud in the State of Arizona that resulted in his election defeat. Subject: *Election Integrity*

Dear Arizona State Representatives,

When State Senator Elena Parent addressed Georgia's hearing on election fraud, she confirmed what millions of voters have come to fear most: that elected and appointed officials no longer hold the integrity of our elections paramount. That they are governed by a vested interest in seeing that there is no investigation or thorough review of the election. And that despite betraying her anxiety to the public, acknowledging the existence of voter irregularities, trivializing them as acceptable and then qualifying voter fraud, it would seem lost on her the notion that a representative's duty to the People is predicated on the will of the People, expressed rightly through true and fair elections.

We, the People, have lost trust in the electoral process, and whether or not you have benefitted from the many devices that have sown such mistrust, we hold the integrity of your position suspect. It is therefore necessary, in order to perform your duty to the People in good conscience, that every measure be taken to restore confidence in our elections, this one and the next. Only then could your standing with us be wholly redeemed.

Elena Parent said the hearings themselves bear the responsibility for undermining public trust in the elections. Do not give in to this narrative. Instead, ask why that would be. The opportunity to exercise such courage may never present itself again. Therefore, you should exercise all you possess in your power and will to fight for the truth. If you hold a public office, you play a role in either helping to further corruption in our country or in unmasking it.

If it follows to your office, I request you exercise your Constitutional and statutory authority to object to the certification of any elector from any state that refuses to allow a meaningful audit of the November general election for electors to the Presidency, which must include:

AMERICAN OVERSIGHT

1) a re-canvass of the vote that authorizes independent confirmation of a signature match using the same standards the same election officials use for nomination petitions, recall petitions, and initiative petitions;

2) publishing of the ballots for the world to review and observe, as states promised when they wrote large taxpayer checks to election machine companies like Dominion and others;

3) audited review of the voter rolls to insure only qualified voters cast ballots for electors to the Presidency.

Until this happens and we have a meaningful and sincere audit of the election then, on January 6th, you must refuse to endorse the electoral vote count on the basis of ongoing litigation in each of the contested states.

Endorsing would signal a deference to party leadership, not the obligation to exercise your constitutional prerogatives judiciously and with integrity. Reject the instinct to be complacent, for your service to the People is a privilege many will never know. Fulfill it faithfully, and you will have our support.

God bless,

R. Leighton Legg

I plead that on January 6th you object to the Biden electors from the 6 states that are full of fraud. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current legislators to stand up against fraud and imminent socialism, I want them to be primaried, not out of vengeance, but because I need legislators I can count on. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators have not stood behind him and taken care of this fraud already. I demand that you stand up now against fraud and support our President.

I am writing to you, as a concerned citizen of the United States, pertaining to the fraudulent presidential election of November 3, 2020. I am asking you as a representative of the American people to use the powers invested in you by the founding fathers of the United States Constitution. Review this abundant evidence of widespread fraud occurring at the State level and call an electoral session to correct this injustice.

I ask this not as a member of any political party but merely as an American who is worried about the disintegration of this great country. It is not too late to correct this problem, but know that the enemy is outside the gates as it always is, waiting. Waiting on the downfall of our country, a downfall experienced by all the great civilizations of history - the inevitable self-destruction from within.

I automatically assume no attention will be given to my plea, but at least I will be listed in your statistics.

Good evening,

As a concerned citizen and registered voter in America, I am writing to ask that you decertify the slate of electors for Joe Biden and retroactively certify Trump electors. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. I ask that you FIGHT to send only Republican electors to be counted on January 6th. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by sending the true slate of electors that represent your state's constituents on January 6, 2021. The fate of our country hangs in the balance. I pray that you have courage and stand up for TRUTH no matter the consequences. We all know the truth about the 2020 election. Now what are you going to do to honor that truth? Never forget that you have 75+ million Americans standing with you in this fight.

Dear Legislator,

I am writing today to encourage (and thank you in advance) for utilizing any and all methods available to you in your position as an Elected Official to **prevent** any and all *improper, fraudulent and illegal votes from being counted in the 2020 Election.*

I am further writing today to encourage (and thank you in advance) for utilizing any and all methods available to you in your position as an Elected Official to **ensure** that any and all *legal and proper votes do get counted in the certification of the 2020 Election.*

While I am not their Constituent, I fully support and applaud the actions that Congressman Mo Brooks (R-AL) and Senator Josh Hawley (R-MO) have indicated they will take on Wednesday, January 6, 2021. And I ask that as my Representative you will similarly OBJECT to electoral college vote submissions from states with such flawed election systems as to render their election results untrustworthy, such as AZ, PA, GA, MI and NV. For one source of information on the variety of fraud, misconduct and irregularities present in these States' election results, I am including a link to Peter Navarro's updated report (Source: https://vimeo.com/493565628). However, I encourage you to seek out whatever source of information you trust. But, be prepared to back up your decision with the facts that you use to make that decision. I will be asking specifically, during my next visit to your office.

As a citizen of the State of AZ and of this great nation I am invested in making sure that our electoral processes are jealously guarded and judiciously protected, so that every election truly reflects the Will of We The People. And I invite and require that, as my Representative, you will do the same, which is consistent with your Constitutional Oath of Office to protect and defend the United States Constitution.

Dearest Congressmen and Congresswomen -

As an elected official, you took an oath of office. This oath states:

"I .... do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter: So help me God."

Will you defend the Constitution on January 6th? Or will you commit treason and elect Biden who unlawfully won the 2020 Presidential election? Which do you choose? Are you a person of integrity? Of honor? Of decency? Do you represent the People of Arizona, or yourselves?

We are a nation of LAWS not MEN, as John Adams stated in 1780. Will you pervert the law for your own self interests? Rome fell for many reasons, but one which is on display today is that leadership has become self-serving, instead of serving the people they were elected to represent.

America is on the precipice of collapse from forces within and without. Will you stand by and tacitly watch, or will you proudly and loudly defend Her?

Subject: MAKE OUR ELECTIONS FAIR!

I support President Trump in our fight to make our elections fair.

On January 6 House Members must object to a fraudulent election. They must speak up against the worst election process I have ever seen in my life. We are being robbed of our true President, Donald Trump.

Federalist No. 68 makes it clear that the constitutional process of selecting our President has procedures to keep our elections fair and safe from corruption and foreign influence.

First, our election was not fair. We have witnesses and fact that prove:
- Observers were prevented from watching mail-in ballots being opened.
- Allowed curing of defects in ballots in democrat counties only.
- Voters denied the right to vote because they were told they already voted.
- Election officials were told not to look for ballot defects and to backdate ballots.
- Biden ballots only were run several times through machines.
- Absentee ballots accepted without applied for first.
- We had overvotes or more votes than registered voters in key states.
- Voting machines owned by companies with ties to Venezuela and left-wing donor George Soros.

Second, we know other countries were involved. Earlier this year, China declared 'Peoples War on America'. It's a Maoist term. It means every form of warfare except direct military confrontation: manipulating our medication, stealing technology, brainwashing kids and influencing Hollywood, biological warfare, riots in streets, interfering with elections. All to bring America into a destruction civil war. In October of this year, Xi Jinping told his troops to keep their focus on preparing for war. China has been influencing and controlling parts of our media and now our most treasured form of freedom, our election.

I pray that those, who have the power to step up for our country, do so to save our republic.

Subject: Election

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this

AMERICAN OVERSIGHT

isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. "Rosco" Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens. I will continue to email you on this issue and get others to do so as well until you are out of office or till the elections are not corrupt.

Regards,
Roberson

Representatives of the great state of Arizona,

I ask you to stop the steal of the 2020 election. We the people have seen the evidence & viewed in person some of the fraud that has been presented to you. Please respect the constitution and call an *Electoral Session, hear the evidence, & reclaim your electors before January 6th.* This voter fraud has undermined the faith in our votes counting. We deserve to know that our votes were cast as we intended!! We deserve to have at least 20% trust in our government. Right now I have less than a 1% trust in the government of The United States of America. That 1% is ONLY in our President. He won this 2020 presidential election by a landslide & you know it!! I encourage you to be men & women with integrity! I encourage you to act on behalf of the people you represent. If not you are asking for civil war & you know it!! We will not let this fraud be allowed. You know as well as everyone that Joe Biden didn't win. You know there was no way that he has the most votes of any president ever!! Wake up & answer the call to be men & women who are patriots, who want to honor the constitution that our forefathers laid out for exactly a time such as this! What side of history do you want to stand on? I suggest it be the side of the truth!!

Subject: CHINA's $400 MILLION PURCHASE OF DOMINION ELECTION SOFTWARE ON OCT 8, 2020
Attachments: SCOTT BENNETT.jpg

CHINA'S $400 MILLION PURCHASE OF DOMINION ON OCTOBER 8, 2020 & CYBER CONTROL OF ELECTION SOFTWARE ON NOVEMBER 3

We hereby demand an EMERGENCY HEARING regarding the Dominion Server seized by DOD military personnel in Frankfurt, Germany. Americans have a right to know. **China's interference with voting machines on election night justifies STRIKING brazenly ILLEGAL ballots and recertifying election results in Georgia, Pennsylvania, Wisconsin, Michigan, Nevada and Arizona.**

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server for two weeks in Washington DC. Scott is ready to bring multiple witnesses to testify TODAY before **STATE LEGISLATURES** about China's interference in the 2020 elections.

Most of Scott's team are local in the Washington DC area, and can assemble rapidly.
Scott's phone # is . in California.
Arizona Rep. Gosar's staff interviewed Scott, verified the facts, and strongly support our demand for a Senate hearing.

Scott Bennett's disclosures are devastating --- **China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.**

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin and New Mexico--whose legislatures are obligated to recertify election results, and guarantee ALTERNATE ELECTORS are certified by Vice President Pence on January 6.

Expert testimony proves foreign interference and vote manipulation by China on election night beyond any shadow of doubt. Consider China's interference in light of Michigan's audit report that Dominion machines carried a 68 PERCENT error rate: The

AMERICAN OVERSIGHT

ramifications for national security are staggering and changes the entire dynamic of audits in Arizona and Michigan of Dominion machines.

Only crooked politicians defend crooked elections. When the US economy inevitably crashes under Biden-- a Dark Winter, indeed--voters will punish politicians who endorsed election fraud to take out President Trump, our nation's best protection against destructive Globalist ambitions to raise China First and pull down the United States--especially as they learn more about China's interference in our elections.

There will be no place to hide. And you will have no power to undo the damage.

Subject: Please advocate for a fair and free election

Dear Honorable Representative,

My name is Kelly Donahue. I'm not somebody big and powerful; I'm a health psychologist working with the anxious, stressed, and depressed population and military for the last 12 years. I am also a citizen who loves this country and is terrified of the implications if this fraudulent election result stands. Please fight for fair and free elections on January 6th!

If I could believe the election was fair and free, I would graciously move on and wait for the next election cycle. However, I'm deeply troubled by all the massive evidence of election fraud. Thousands of sworn affidavits, corrupted voting machines, video evidence, forensic analysis, data experts, it goes on and on. As I've watched all the legislature and senate hearings, I've been sickened by all the corruption. From the election officials to the highest courts and everywhere in between. I know that if we look the other way now, at this crossroads, we will never have another free election in this country again.

You are our country's last hope!! If you do not act to uphold our constitution, our fate will be sealed as a country under tyranny--which will only increase as those who seek to exploit. We the People are becoming increasingly emboldened as their lawless rule goes unopposed.

I know the pressures must be great. I know to some the current result seems preferable with Joe Biden in office. Some reason that if we just let the result stand we can avoid immediate riots and unrest in our country by CCP paid militia posing as every day citizens. Some believe Joe Biden is the more peaceful option. Even so, I'm pleading with you to consider the long-term implications for our country. Our country is at war. The fight between democrats and republicans is our enemy's strategy. Divide and Conquer. What great country has ever turned over its keys to communist rule in the name of peace or the path of least resistance?

If you can't act on behalf of higher ideals of freedom, justice, truth and a love of the law, please consider your own personal interests. To every single citizen in this country, yourself included, our very freedom is at stake. Once the CCP conquers America, nobody will be safe. Dragons don't make for good pets. Nobody escapes communism unscathed. History tells that story repeatedly.

Please act courageously! Please uphold our constitution! Please save America!!
The future of my son depends on this.

Thank you for your time and service.

Subject: Voting integrity concern

Hello-

I am concerned about the state of the election. I am concerned that the machines are not being looked into, and that it appears that news about the evidence that has been uncovered is being suppressed. I know that election fraud has always been a thing, but the numbers that I am seeing reported along with video evidence tells me this needs to be looked into.

It is more important to me to know that voting is fair and accurate than is winning or losing, and at this point it appears that there is a cancel-culture going on that makes bringing this taboo. To be able to move forward with trust in our process, I would like verification.

I would like a special session of legislature to look into this before January 6th so that legitimate electors can be assigned.

Thank you for listening,

Peter

Importance: High

Dear President Fann, Speaker Bowers, and Members of the Legislature,

Free and fair elections are the cornerstone of the republic. When you took an oath to protect and defend the Constitution of the United States and uphold the laws of Arizona, your most precious obligation was to ensure the votes of the citizens counted. It is clear from all the evidence presented and the willful inaction by the Maricopa Board of Supervisors and others that the November 3rd election was far from free or legal. This issue is not going away. It will not go away on January 6th or 20th or any time after that. This is a wound that will not heal. The injustice that was purveyed on the citizens of our state cannot stand.

This is not about Donald Trump, or Martha McSally, or even the Republican Party. This is about the State of Arizona holding elections where we know that our one vote did count — that it was not diminished by fraud, ineptitude, or something worse. Whether you are a Republican, Democrat, Independent, or Green Party, your vote should count and under the Constitution the weight of that vote shall not be diluted.

On January 6th members of the U.S. House of Representatives along with Senator Josh Hawley and others will object to the electoral votes in the contested states. That means Arizona Electors will be challenged and possibly thrown out. Because we did not do a good job in our state, our chance to have our voices heard in a presidential election is in peril.

You, and only you, have the power to stop this. It is time. As I said above this is not going away. We are not the Republican Party of old. We are not compliant and docile, but fierce in our belief that the United States of America stands for something greater than ourselves, and its traditions and laws are not only worth preserving, but critical to the ongoing advancement of humanity.

I ask you to:

- Decertify the slate of Biden Electors
- Hold the Maricopa County Board of Supervisors in Contempt
- Employ all actions to enforce the Senate Subpoena and perform the Audit
- Certify the Electors of the candidate who received the most legal votes

Thank you for your time.

Subject: Electoral Session

To whom it may concern,
I, as an AMERICAN CITIZEN and a voter urge you to call an Electoral Session, ***hear the evidence***, and reclaim your electors before January 6th.

I am shocked, outraged and dismayed by the lack of transparency in this election, but mostly by the incredible and overwhelming evidence of vote tampering and election fraud. *Thousands* of citizens have risked the threat of perjury and jail to tell their stories/experiences of intimidation in being poll watchers, WITNESSING ballot counters feed the same stacks of ballots into machines, clearing of poll watchers from areas and then pulling out suitcases and boxes full of ballots that were fed through machines (video evidence), watching box after box of ballots taken through a back door in the middle of the night, postal workers that were *told by supervisors* to stamp ballots with the incorrect date, *"finding"* ballots or sim cards *after the election*, etc.....

Also consider the *laws* that were broken in multiple states by secretaries of state and judges who allowed massive mail in ballots and the extension of the valid receipt date without going through the Legislative Process.

These are just SOME of the instances that have been verified by regular citizens who care about the integrity of our election and love our country. In addition to all of this consider the incredible *"spike"* in Biden votes overnight, after counting stopped for hours, in states where President Trump was winning handily before the counting stopped. Add to this the countless people who say they received several "mail in ballots", people who went to vote in person being told they had already voted, people that were deceased receiving ballots (God rest their souls), people no longer living in states for years receiving ballots, ballots registered to false addresses, people who were not registered to vote receiving ballots or possibly votes cast in their name (even though they never registered), voters being "encouraged" to vote by offering prizes/gift cards for showing up to cast their vote..... There are many more instances to list, but one thing is clear to me.....

There was massive voter fraud/interference in our election and it has to be examined in order for American citizens to feel there was fairness in this election. I have voted since I was 18 years old (I am now almost 57), and this is the first time in my life I ever truly felt as though the election was rigged and that the voice of the people has not been heard. As elected officials it is your

Subject: STOP THE STEAL!!!

To the Arizona Legislature Members,

I am a very concerned US Citizen about the fairness and integrity (or lack thereof) of the 2020 Election. I cannot accept the outcome as it stands! The evidence is overwhelming that the election is being stolen. Many have come forward, while risking their safety, to sign affidavits and testify as to the election irregularities they witnessed. Numbers do not add up! Illegal votes have tainted the outcome! You all need to live up to your oath and obligations as legislators, regardless of party affiliation, to ensure we have an honest and legal outcome for 2020. Our Constitution needs to be protected and followed! Otherwise, we have no republic!

Please take this matter up immediately in session, to ensure the correct electors are chosen prior to January 6th. You must ensure a fair, moral, legal and constitutional outcome for the 2020 election!

Sincerely,

Subject: 2020 election fraud

My name is Arlene Rau and I live in New York and Arizona. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible, all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.What are you doing today to make this happen?

Subject: We need action

Hello,

When you receive this, January 6th is 1 week away. In 1 week, all your power to fix this farce of an election will be gone. You must Confirm the GOP electors as soon at possible. Before new years even. Ducey is corrupt, and I doubt he will consent to a special session. You must call it yourselves and be brave. The evidence is out for all to see if you just look. You even had your own hearings on the fraud. More evidence comes out seemingly daily. You can and should audit the vote, but at this rate, you have not enforced your subpoena and courts, as we know will be dragging this out for as long as possible. They are hiding illegal activity, that is the only explanation.

Arizonians and Americans are fed up with your inaction. Hearing are not action. Fixing the problem is action. The US constitution gives you the power to make election law. It also gives you the power to select electors at ANY TIME. It is confirmed in BUSH vs GORE. *Without action, the people of Arizona and of America will see you as cowards and traitors.* With action, you will save the republic. Blatant cheating across the country has damaged our trust in elections more than you fixing the problem ever could. The American people are angrier than they have ever been about something like this before. Without your action the republic is doomed. Avert this disaster immediately or the people will have to do something drastic.

Confirm the GOP electors. If you are evil enough to not care about your people, care about this. We will no longer support a party that won't support us. Out voices are silenced, our votes are stolen, and the courts are derelict in their duties. Try to guess what the response to this miscarriage of justice will be. Giving up is not an option for us.

Subject: Reclaim Electoral Votes

Dear Honorable Arizona State Representatives and Senators -

I am sure you are aware of the election fraud and vote stealing from President Trump in the Arizona, Georgia, Michigan, Nevada, Pennsylvania and Wisconsin, and the rest of the world is too .
I have friends in USA, Canada, Great Britain, and Australia that I have been communicating with and they all know the election was stolen from President Trump . They are watching eagerly
hoping and praying that the United States gets it right and returns the Presidency to President Trump via the Electoral Count Act and the US Constitution.
Our International Friends as well as Tax Paying American Citizens appreciate the Freedom the United States exhibits to the World and
they are scared of Socialism and the bad things that will happen in the world should the U.S. ever succumb to it .

Recent Polls by the Politico and others show that 83 % or Republicans and 24 % of Democrats and 31% of Independents think the election was stolen from President Trump .
This is over 106.3 Million people ! Think of that ! 100+ million Americans have your back !

Please - Call an Electoral Session, hear the evidence - I bet you have already seen it - and reclaim your state electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level.
You do not need to abide by the Governor's refusal.
The Founding Fathers put the power in the Hands of the States legislatures to determine the President .
They did this because you are the closest to the people.
We can't let the Cheaters Win.
I am also contacting My Minnesota Representatives because of our use of Dominion machines and asking them to do the same .

Thank you . -

I used to think so but no more. I cannot believe I'm watching our government completely dismiss half of the population in this election. The courts won't even hear the evidence, all of these people who have risked their jobs, their safety, being cancelled to do the right thing and report dishonesty and fraud just to be dismissed!! Our government is a joke, it's make believe, we are NOT in this together because you hate half of us and refuse to be transparent. If there is nothing to hide then you should be an open book. There is nothing legitimate about this election and you have lost all faith from millions of citizens who will never trust you again. I can't believe you allowed this to happen in the United States of America. I am the granddaughter of a WWII Purple Heart Veteran and the daughter of a Vietnam Purple Heart Veteran and my heart breaks to know all they suffered and sacrificed for a country that has now silenced and deserted us. You hold these offices and the right to vote only because Americans like my grandfather and father put duty before self now it's YOUR TURN to do the same and you do what it takes to be transparent so we can learn the truth whatever it ends up being. You have lost my faith, my trust and you have broken my heart and shaken my American spirit.

Dear AZ Republican legislators,
I have sent the below enclosed email to all of the Republican US Senators and US Representatives:
Dear Legislator,
I am depending on God to give me the courage to write this email to you in hopes that you will hear my voice; this is sent with much respect for your elected position. But as a citizen of the United States of America, I must voice my concerns about our recent election and ask you for a Call to Action.

Someone once said, "The only thing necessary for evil to triumph is for good men to do nothing." Fake signatures, illegal immigrant voters, dead voters, banned Republican vote watchers, MORE VOTES THAN ACTUAL VOTERS (check out Detroit & Philadelphia), thousands of affidavits, corruption and manipulation of machines, domestic and foreign interference, and much more.

In one of the most chilling moments in American history, there is credible evidence of the crime of the century! Anyone who is okay with ignoring the compelling evidence is part of the tyranny.
My ballot cries out for INTEGRITY and JUSTICE!

You can do something about this; however, it will take courage on your part, but I'm giving you the benefit of the doubt here. If I, a little widow lady from rural Arizona, can have the courage to write you this email, YOU will have the courage to stand with fellow legislators/patriots, including Marjorie Taylor Greene, on January 6th, 2021 and OBJECT and REJECT fraudulent electoral ballots. **You must reject the certification of the Electoral College.**

It will most likely be messy, but so is everything worth fighting for...just ask any disabled veteran. This is my Call to Action to you. I RESPECTFULLY EXPECT AND TRUST you to raise strong objections to the Electoral College votes for Joe Biden for multiple states. I TRUST you to support our America! I TRUST YOU TO REPRESENT ME BY **rejecting the certification of the Electoral College.**

As we must all find our moral spine, let us consider this quote (author unknown):

I am only one; but I am ONE
I cannot do everything; but I CAN DO SOMETHING
And what I CAN DO, I OUGHT TO DO
And what I OUGHT TO DO, BY THE GRACE OF GOD, I WILL DO!

Will you? May God give you the courage and grace to so.

Dear Representative & Fellow American,
I urge you to let your voice be heard on January 6th and vote to decertify the electoral college votes of the contested swing states and stand with President Trump. We, the American people demand that the proper presidential candidate be chosen based on the counting of LEGAL votes ONLY. This is not only an option for you, but it is your Constitutional right and duty and we the people will not forget what you choose to do in this moment. Tens of millions of Americans know that the 2020 election was fraudulent and we are angry! There is more than enough evidence of fraud to prove that this election was conducted in an unlawful and unconstitutional manner, and if you choose to sit idle on January 6th, and knowingly let a presidential candidate be selected based on illegal and fraudulent votes, then you are complicit in the fraud.

Do not let the American people down, there is too much at stake, and we are counting on you to do the right thing. We are on the precipice of losing our country and everything it stands for, to the most corrupt, arrogant, evil, and dangerous people we have ever had in America. If this kind of corruption and fraudulent behavior goes unchecked, and unpunished then our Republic is doomed. We will never have another fair election again. I urge you to do the right thing before we lose our country as we know it forever.

Find Attached a clip from the movie, The Sound of Music where Captain George Von Trapp, sings "Edelwiess" to an audience of his fellow Austrians asking for God's blessing over their homeland during the Nazi invasion. Similarly America's election process is being hijacked by sinister forces wanting to eliminate our Constitutional rights to fair & honest elections in an attempt to overthrow our Republic. I pray for godly wisdom, courage & guidance as you cast your vote on January 6th. May God bless our homeland forever.

Subject: Concerning the 2020 Election

Dear Congressmen and Congresswomen of the Arizona House of Representatives,

I am writing to you as a concerned American citizen from the suburbs of Boston, Massachusetts. While my state has no controversy surrounding it in regards to the recent presidential election, that doesn't mean that I am not affected by the events that have transpired in your state.

Over the past several weeks, President Trump has brought legal challenges against the results of the 2020 presidential election. At first, like many Americans, I dismissed it all as strange and unnecessary - that is, until I started paying attention to the court cases and testimonies of poll workers, poll challengers, and other men and women that were involved in counting ballots for the election. I watched the hearings and listened to these brave men and women recount the illegal acts of ballot counters (telling poll challengers to leave, then pulling hidden ballots out from under tables and counting them without any challengers or media present; thousands of vote dumps in the middle of the night for Biden with a tiny fraction going to Trump as if that'd thwart suspicion; animosity towards poll challengers and their being prevented from doing their jobs; state leaders breaking their own election laws; illegal immigrants having their votes counted; dead people having their votes counted, and so much more). The amount of evidence proving that Biden won the election fraudulently are overwhelming, appalling, and embarrassing to this nation. Whether or not Biden was even aware of this campaign of farce is irrelevant.

What's worse is that judges and lawyers aren't ignoring Trump's legal challenges because there's no evidence. They have either been blackmailed, threatened, bullied or harassed into throwing his cases out.

The curtains are being pulled back on our political and judicial systems, and what is being revealed to the American public is a corruption so inconceivable that it looks like it belongs in a cheap political-science drama straight out of Hollywood. But it's not. This is our reality.

I am writing to you Congressmen and Congresswomen in the hopes that you will see reason. In the hopes that, no matter how many mean tweets your social media is flooded with, no matter how frightened you are of losing your income (which is a reality that many Americans are currently living, including myself), no matter how much it may hurt your reputation as a politician, that you will choose to stand for justice, for truth, for the Constitution and for the American people, and hear what is happening in this country that you swore on

AMERICAN OVERSIGHT

oath to lead and to represent. Though I hate to use the phrase because of its more recent usage in the presidential campaign, it still rings true: character matters. Integrity matters more than your political status and more than an empty threat on a social media platform.

I urge you, members of the House, to call an electoral session in spite of any restrictions that other authoritative figures are trying to impose upon you, and to listen to the evidence of election fraud that has frightened Americans across this nation. Listen to it carefully. Heed it. And recall your electors before Congress meets next week on January 6th. Americans across the nation are suffering under this pandemic, and are terrified that if this election fraud stands, we will never have a free and fair election again. Our constitutional right to vote will be an empty formality that serves no purpose.

The world is watching us, and all of you. America stands as the embodiment of the free world. If our system ends up falling to such blatant corruption, it is unlikely that freedom and democracy will last long anywhere else on this planet.

No one can take away your constitutional rights nor your constitutional responsibilities. You have every right to stand up to people who are working against your good and the good of the people that you represent.

Call a hearing. Listen to the evidence. For the sake of America and all of her citizens, and in the name of God on whose word this nation was built. Because this isn't about Trump or Biden anymore. This is about preserving the integrity of the American election and the freedom of this country.

Sincerely,
Myranda Peterson

Subject: STAND FOR ELECTION TRANSPARENCY

Dear Member of Congress,

Do you agree that a free and fair election is the most important thing for our country's integrity? I DO! And most importantly you should too! I can't believe our United States is not standing for transparency! You are in a position of power and we do expect you to do what is BEST for OUR COUNTRY! If there is nothing wrong then transparency would prove that! Please do not shirk your responsibility!

I have a right to my opinion and so do many millions of other US citizens and we believe this election has been the biggest mess in this country! In my lifetime! It has been full of fraud, corruption, and impotence. Impotence you ask?……..yes because nobody has had the spine, the balls, the courage, the guts, or whatever you want to call it….to do the right thing! The media is a totally biased liberal organization and financially supported by liberals! Main Stream media is worthless filled with censorship and lying being part of the Democrat party with great bias against conservatives! You'd have to be blind not to see that! What happen to the Watergate media searching for and reporting FACTS! NOT GIVING US THEIR OPINIONS! This is a crime! So why are all these groups failing us? The national politicians (and even state ones like Gov. and SoS), the courts and judges, the Injustice Department (DOJ), etc. YOU are fighting against transparency. "We the People" have not been heard, the whistleblowers have not been heard, the evidence not examined, the videos not examined, the statisticians and anomalies not examined, etc……this is a crime and a dereliction of duty. If we can't have fair elections in this country where American Citizens have confidence that it was fair and void of corruption both foreign and domestic…..then we are no better than a third world country…..or even a communist one. What makes us different is our God inspired CONSTITUTION!!!!!

That is where you come in. I urge you to Call an Electoral Session, hear the evidence, reclaim your state electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Do the right thing…be bold, be courageous, and fear the God that you will stand before one day giving account of your actions! I urge you to do the right thing no matter if it is not popular, or easy. Hello Mark Finchem, I had emailed you yesterday. I also contacted Timothy Dunn 13th District. I am a registered voter. The recent election hasn't been fair and transparent especially with no forensic audit of the voting machines. The State Legislature has sole legal authority to bypass the Govenor and Secretary of State on electing the electors. Time is running out. You do not need a Special Session. Just send a Proclamation to VP Mike Pence to decertify what Governor Ducey had submitted. You may need to get a majority of the Republican members to sign off. Send the Proclamation so he will have it in hand on January 6th. You may also contact the other swing State Republican legislators to do the same thing. Like Pennsylvania, Michigan, Georgia, and Wisconsin. You can bypass the Govenor and Secretary of State since they have no constitutional authority to block it. No Special Sessions are needed to go this route. Just contact your colleagues by phone or approach them in person to get them on board. This is the quickest and straightforward way to get this done. Thanks.

Subject: Election Integrety

December 29, 2020

Honorable AZ Senator House:

As an American citizen, I am appalled and angered at the continued discovery of election fraud that occurred in your state. How did it happen that our elections got to the point that illegal mail-in ballots, vote tampering, rigged Dominion Election machines, and illegal/fabricated/deceased voters were used to steal the election from the entire nation? The nefarious, and illegal actions of your state along with four other swing states affected all of us.

You are an elected official and have sworn an oath to uphold and preserve your state's constitution and therefore, without saying, our nation's constitution. As a Constitutional Republic, the rest of us have been affected by the fraud that occurred in your state. We are outraged and shocked that you and your elected officials have stood by and allowed this to happen. The mail-in ballots were a known path of perpetrating fraud from the very beginning, yet you allowed that avenue of deceit to penetrate your election system from inception. And then, after you knew what happened, you allowed the votes to be certified and then sent electors to D.C. How is it that you allowed these things to happen without

AMERICAN OVERSIGHT

demanding an immediate and thorough investigation of this fraudulent activity affecting every legal and law-abiding citizen in this nation. By you action or inaction, you have become complicit in an elaborate plot to overthrow our country.

You have helped to show us just how hypocritical and corrupt our country has become. You have also succeeded in helping us to lose our credibility and standing in the world.

What you have also succeeded in doing is to help seed the polarization of an entire country. However, there is a ground swell of righteous opposition to the fraud and attempted overthrow of our government. On January 6th (if not before) there will be a massive objection and unified protest against the unconscionable, coordinated effort to overthrow a national election for the President of the United States. With God's help, all deep state subversives and collaborating foreign governments who have worked to nullify the will of every legal citizen and voter will be uncovered. This abomination cannot be tolerated. The evidence of fraud is massive and demands an honest, objective and thorough investigation. One which, to this day has been thoriated at every turn. If there is nothing to hide, show us the evidence.

I am writing to urge you to fulfill your sworn obligation to your state and its citizens, and to your country. Be the honorable patriot that history demands and ensure the integrity of the vote in every precinct in your state. Please, hear the evidence, call a special Electoral Session and recall the Democratic electors. Without this integrity of your vote count, how can "we the people" ever have confidence in our elections being fair and honest again.

Subject: Decertify Electors of the Great State of Arizona

Representatives of the Great State of Arizona:

I am writing to urge you to act to decertify the electors of your great State on January 6th, 2021 or sooner.

Over the past several weeks, evidence of the types and amount of fraud that took place in and around the November general election is so overwhelming that it is clear that the election was stolen from President Trump. At the very least, the election was so tainted by fraud and corruption that it is inconceivable that anyone would want to certify electors.

I have watched hearings and videos conducted by several State legislatures and committees that have brought forth witnesses with sworn affidavits that have seen firsthand instances of manipulation of ballots and voting machines, ballots counted multiple times, poll watcher abuse and other nefarious poll activities.

Others that are also concerned with the fraud that took place have studied and proven excessive error and adjudication rates of the voting machines and statistical anomalies, conducted forensic examinations of voting machines that show vote switching, and signature verification issues, investigated and proven instances of out-of-state, underage, illegal alien, and multiple voting. In other words, all the fraudulent methods that can be used to undermine the will of the people of Arizona and America have been exposed.

Additionally, if foreign interference in our election occurred as has been shown, wouldn't you want to expose that interference and DISALLOW tainted and fraudulent results to be used to elect a candidate to the most important and powerful position in the United States? Like it or not, Arizona's electors affect the other States in the Union and as such, must be carefully examined to prevent a deleterious effect our voting process and the Country.

Surprisingly, NOT ONE Democrat has stood up and stated "Yes, maybe there was voter fraud and we should investigate it to prove to ALL Americans that the election wasn't stolen and that Joe Biden won the election legitimately." If there was no fraud, wouldn't the Democrats – EVERYONE

AMERICAN OVERSIGHT

- support unimpeded investigations and lawsuits to prove that they and others did not commit any crimes?

Please consider your sacred duty to protect the Constitution of the United States of America and to preserve our democratic republic. If fraud like this is allowed to stand, our democratic republic, our American way of life, our election process and our sacred vote will be lost forever. Please have the courage and perseverance to do what is right for Arizona and the United States of America.

Respectfully,

Subject: Electorial Session to prevent a fraudulent election from succeeding

Respectfully to all herein named representatives, I urge you to call an Electoral Session, hear the evidence, and reclaim your electors before January 6th. No legislative body needs the governor's approval for a special session when that session pertains to a Federal election under the constitution. The constitution gives clear authority to the representatives of the people to convene for that purpose regardless of a State's Constitution. The Federal Constitution always takes precedence. During the Presidential election, there was clear evidence of fraud in Arizona taking place. Forensic analysis will prove it. Basic audits of numbers prove that there were clear irregularities. Why will no one force a forensic audit of the machines to happen? Is it because they are scared for their careers, or are they trying to purposely and fraudulently steal an election for their party. Fear the People, we are the ones who will throw everyone out who did not exercise their constitutionally granted powers to stop the theft of an election. Your names will go on a list for recall. We have grassroots organizations at the ready to make it happen. We the people will not stand for a corrupt system and will exercise our rights under the constitution to cast out anyone who does not represent their constituents on matters as critical to our sovereignty as this. Please for your sake and the sake of our country do the right thing or face the whirlwind of political consequences coming your way! 74 million of us are united on seeing this through and punishing those who are complicit! I urge you all to take a stand before it's too late!!!

Subject: Please De-Certify the Electoral Votes for Biden

Please de-certify the Results of the Presidential Electors for Biden before January 6th and please certify the electors for Trump. The Presidential Vote was stolen with a massive fraud! This is not a political issue but is an American Issue! Over 70% of Republican Voters feel their vote was stolen!

There is no way, statistically speaking, that Trump lost with 10 million more votes than any previous sitting President! It is impossible that Biden received 20 million more votes than Obama! Both Trump and Obama had 10's of thousands of people at each of their rallies. Biden had 12 at the most.

There is no way that 75 million people will go silently into the night when the Fraud is so evident at multiple levels. The Thousands of Eyewitness Affidavits attest to the fraud. The Hundreds of Videos on social media show the Fraud. Even the Constitution of Arizona, and the US Constitution were violated to disenfranchise 75 million plus voters and to get Biden into the White House.

We the people will be watching your vote or non-vote before January 6th and we will remember your decision.

Dear Senators,

We are urging you to call an Electoral Session, hear the evidence, and reclaim our electors before January 6th.
There have been videos and too many signed affidavits concerning irregular events during the vote counting process for this presidential election to be ignored. Those of us who value our freedoms and the right to have our votes correctly counted, have grown impatient with those who've been elected to protect our Constitutional rights and we are rapidly gaining a clear understanding about which of you possess the integrity to do what is right.

Subject: Election

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this

isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens. I will continue to email you on this issue and get others to do so as well until you are out of office or till the elections are not corrupt.

Regards,
Roberson

It is truly clear that there was election fraud during the November election. Any evidence of fraud must be investigated in order to guarantee that every legal vote is counted and not disenfranchised by fraudulent votes. It is critical that you call an Electoral Session, hear the evidence, and reclaim your electors prior to January 6th. Dear Arizona State Legislature,

As a concerned citizen and registered voter in North Carolina, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence.

Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI.

Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored.

We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

We need men and women of **courage** during this hinge point of history. To hell with threats and intimidation from the enemies of liberty! The truth is all that matters.

Subject: Time to Stand Tall

Dear State Legislators:

I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Dear elected official;

There is no way – NO WAY in any honest election – that a doofus who can't fill a walk-in closet with followers at a political rally – Joseph Biden – can win an election against the President of the United States, Donald Trump, who never holds a political rally that isn't standing room only with thousands upon thousands of supporters.

Either President Donald Trump won this election or no election was held as defined by the U.S. Constitution, the Constitution of the State of Arizona, and the laws of Arizona and the United States.

I DEMAND Arizona electors be reclaimed.

Dear Legislator Leader:

The election process has been compromised at an industrial level in many states.

I am amazed at how blatant the election authorities were in the current swing states at ignoring the election laws of America's constitution. Some of the illegal activities were counting incomplete ballots filled out by the clerks, high percentage of "incapacitated voters" with no identification, no verification of absentee ballot requests to the large number of absentee ballots submitted and the over 100% voter turnout in some districts. In addition there was an exceptionally high level of votes all for Mr. Biden during the early morning hours of Nov. 4th 2020.

I am asking you to please be one of the Senators to stand up and reject the Electoral College votes for Biden on January 6th and support the Republican electors for Trump from the swing states of Nevada, Arizona, Pennsylvania, Georgia and Wisconsin. I urge you to Call an Electoral Session, hear the evidence and reclaim the electors before January 6th. Regarding: Election Fraud

As a citizen of these United States of America, I am exercising my right to speak out and insist that the Arizona state legislature call an Electoral Session, to hear and consider all claims of fraud that may have occurred during the recent elections, and that you reclaim your state electors before January 6th.

It is with much disappointment that there has been no court willing to listen to the facts that clearly demonstrate that fraud took place. That this proclamation is supported by thousands of Americans whom have signed sworn statements / affidavits of having witnessed wrong doings. That those making these claims are individuals of both the Democrat and Republican parties. Furthermore, that the few allowed audits of the Dominion equipment and ballots have produced results which indicate irregular findings.

I ask that your state legislature be on the right side of history, and that its decision will be one that will clearly demonstrate to all Americans (not just one party) that serious consideration was given to all facts before re-assigning the votes of your state electors. As you're aware, the results of the recent election further added to the division of our country, and this makes it all the more important that you present with the final decision of your electors, an outline of the specifics considered with the final reporting.

Good evening

I am extremely concerned about the current state of our country. Our democracy is at stake if we do not address the voter fraud which has compromised the integrity of our Presidential election.

I urge you to call an Electoral Session!

Please hear the evidence!

Please RECLAIM your electors before January 6, 2021

Arizona GOP Electors, TX Congressman File Suit To Define Vice President Mike Pence's Constitutional Powers in His Official Capacity as President of the Senate and Presiding Officer Over the January 6, 2021 Joint Session of Congress

PHOENIX — Arizona's 11 Republican Electors joined a lawsuit that seeks to define the powers given to the Vice President under the Twelfth Amendment of the U.S. Constitution. The plaintiffs also filed a motion for an expedited hearing and a request for emergency injunctive relief.

The lawsuit, filed in the United States District Court for the Eastern District of Texas, Tyler Division, asks the Court to declare that Vice President Pence — acting in his official capacity as President of the Senate and Presiding Officer over the January 6, 2021 Joint Session of Congress — has the exclusive authority to determine whether to count or not count competing slates of electors from Arizona and other contested states.

Republican Party of Arizona Chairwoman Kelli Ward issued the following statement on the lawsuit:

"We are asking the Court to define Vice President Pence's exclusive authority and power under the Twelfth Amendment of the U.S. Consitution, as President of the Senate, in counting slates of electors from contested states. The contested states in question — Arizona, Georgia, Wisconsin, Michigan, and Pennsylvania — each sent competing slates of electors to Congress over concerns with how elections in each of these states were managed. The Electoral Count Act limits or eliminates the Vice President's ability to determine which electors may be counted. However, plain law cannot contradict a Constitutional Amendment, which is why we are challenging that the statute is unconstitutional and seeking to demonstrate to

the American people what the Vice President's constitutional powers are in this matter."

Subject: 2020 Election Fraud

Dear Arizona House Representatives:

My name is Dawn Desrosiers and I live in California. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president.

As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump.

In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land.

Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Most Sincerely,
Dawn Desrosiers

The US voting system is under attack.

This is an orchestrated and choreographed effort to undermine our election process.

The mainstream media is part of the corruption.

You must stop this. You have the power

There is no court in America that will even look at the evidence, out of fear, or they are complicit.

The evidence is overwhelming.

YOU CAN AND MUST CALL A SPECIAL ELECTORAL SESSION OF YOUR LEGISLATURE AND LOOK AT THE EVIDENCE.

REALIZE THEY ARE BLOCKING AS A TACTIC, IF THERE IS NOTHING TO HIDE WHY DO THEY NOT WANT TO BE TRANSPARENT?

SEND YOUR OWN SLATE OF ELECTORS TO CONGRESS ON JANUARY 6.

Subject: Call an Electoral Session

I am a disenfranchised voter who is frustrated that government officials could care less about each individual's right to a FAIR election. Many have died on battlefields and elsewhere for our right to vote and to have a fair election. We are not a third world country. For the past 4 years the Democrats have not accepted the election results, in fact over the past 20 years every time they lose they demonize the winners. This is not mature and this is not right. The voter fraud is very significant and Joe Biden said himself that he and Obama created the largest voter fraud machine in the world (as seen on Facebook and recorded by Fox News).

Corrupt Governors are refusing to do what our Founding Fathers laid out in the U.S. Constitution, to protect us from widespread fraud at the State level. Article 2, Section 1, Clause 2 of the U.S. Constitution says, "Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress." **Please call an Electoral Session, hear the evidence, take the power back from the Governor and Secretary of State and appoint your own electors. Reclaim your electors before January 6th.**

Subject: The future of the American democratic Republic is at stake

Dear Sir, Dear Madam,

There was undoubtedly massive widespread fraud in Georgia, Michigan, Nevada, Arizona, Pennsylvania and Wisconsin. You cannot listen to the thousands of affidavits (evidence!) from citizens that came forward during the hours and hours long hearings and still believe that there was no fraud. It is clear beyond a reasonable doubt. Because Legacy media reports none of this does not mean it didn't happen - democracy dies when real news is suppressed.

I strongly urge you to call a Special Session, hear all the evidence, and *reclaim your electors* before January 6. The future of the American democratic Republic is at stake. There has to be accountability for those who committed fraud. America cannot become another lawless Nation. People of America and around the globe are counting on you to stand up for the truth and are behind you!!

I was watching Mark Finchem on the Bannon show.

There is more than enough evidence of fraud in the Arizona election without looking at the Dominion machines in Maricopa County.

No more excuses. You need to meet in a special session on Tuesday, decertify the electors for Joe Biden and Kamala Harris, and certify the electors for Donald J. Trump and Michael Pence.

Remember, under the US Constitution, you are the absolute authority on selecting the electors for President.

In history books, the Arizona Legislature needs to be shown as voting for Trump and Pence.

Don't leave a coulda, shoulda, woulda to Vice President Pence on January 6.

Arizona Republicans are looking to see if you have the balls to do your job.

Honorable Member:

I STRONGLY URGE you to call an Electoral Session, hear the evidence, and reclaim your electors before January 6th. You need to SEE and HEAR the evidence.
Our founding fathers laid this out in the U.S. Constitution, specifically, to guard against widespread fraud at the State level.
At LEAST one third of the electorate has no faith in this election and part of that reason is because of what has happened in your state. If for no other reason than to assure these voters, you need to act. I am not willingly going to be disenfranchised in a Federal election because of what is going on in your state. Do something.
Please stop hiding behind your Governor's refusal to do what is right for "We The People".

Best Regards,

One of We The People,

In lieu of the election irregularities (unconstitutional election practice), fraud and social media undermining the integrity of our elections, I urge you to call an Electoral Session, hear the evidence and reclaim your state electors before January 6th. I implore you to fight for exposing the fraud and election irregularities the courts have shamefully ignored or dismissed outright! Subject: The future of the American democratic Republic is at stake

Dear Sir, Dear Madam,

There was undoubtedly massive widespread fraud in Georgia, Michigan, Nevada, Arizona, Pennsylvania and Wisonsin. You cannot listen to the thousands of affidavits (evidence!) from citizens that came forward during the hours and hours long hearings and still believe that there was no fraud. It is clear beyond a reasonable doubt. Because Legacy media reports none of this does not mean it didn't happen - democracy dies when real news is suppressed.

I strongly urge you to call a Special Session, hear all the evidence, and *reclaim your electors* before January 6. The future of the American democratic Republic is at stake. There has to be accountability for those who committed fraud. America cannot become another lawless Nation. People of America and around the globe are counting on you to stand up for the truth and are behind you!!

Sincerely,
Tesia Rynkiewicz

Dear Representatives:

As a concerned citizen and a registered voter in the state of Texas I am writing to implore you to act immediately and pursue every avenue in your power to counter the widespread election fraud that occurred in your state and for which there is overwhelming and irrefutable evidence. I am asking that you seek to decertify the illegitimate Presidential election results.

I am 77 years old. I have never, in my lifetime seen anything like what has transpired this past 4 years, culminating in this election farce. I am devastated at the rampant corruption that I see and have lost faith in our justice system, the willingness to turn a blind eye, either for fear of reprisal or hatred of our President. The American people need their faith in free and fair elections restored, The fate of our Country hangs in the balance. You have been entrusted with power by the people and by God. If you choose to go the cowards way because you fear reprisal, you will be judged by the people and by God for your cowardice. You swore a sacred oath to serve and protect the Constitution. If you can't do that, you should resign immediately.

I am praying for you. May God give you courage to do the right thing. Recall the courage of our forefathers who loved their Country more than life. I can recall my own father who gave his life in Papua, New Guinea in WWII when I was only 10 months old. My brother and I grew up without a father because of his sacrifice. Please be strong. if you choose to take the easy path, history will remember you as a coward and your own conscience will serve to convict you. You may mourn and repent of your decision later, but it will be too late for our Country and the consequences of your cowardice will be terrible. Its impact will reach beyond the borders of our nation and far beyond the years of your elected service.

You have the opportunity to leave a legacy of courage, strength and integrity to your descendants. Who knows how many generations of your descendants will be impacted by your actions on January 6, 2021.

Sincerely,

Sondra A. Winborne

Dear Representative Finchem,

President Trump is still in the fight, refusing to concede anything to Joe Biden, and he needs your help to protect the integrity of the election. To protect the legitimacy of the 2020 presidential election, stand up for voter integrity by telling Congress to affirm the Trump slate of electors.
Battleground states: Pennsylvania, Georgia, Wisconsin, Michigan, Arizona, and Nevada, sent two sets of electors. Congress must, through a Joint Session, certify those ballots and determine who won the election. Regardless of media reports, there is no "President-Elect" until the people's representatives - the Congress - says so by certifying the winner. Your U.S. Senators and U.S. House Representatives will be making these historic votes on January 6th to decide whether to correct the massive voter fraud which stole the presidential election. It is up to you to contact Congress because constitutionally, you decide which electors should be ceritified.

Subject: I urge you to call an electoral session

To our ELECTED officials, I urge you to Call an Electoral Session, hear the evidence, reclaim your electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. We are at that level now.
You need to stop hiding behind the Governors refusal. This is your time to have control, backbone, and heart to do what is right. We will never have an honest election again if you don't listen to the evidence and stand up for the truth. That's all we ask as a nation to listen to the evidence. Base it on the truth. This is very serious. This is my way of doing my part to address this crisis. I thought my vote did that job, but it was canceled out by fraud. I plead with you. My family and grandchildren plead you. My business pleads you. You can be part of that magnificent story that will go down in history. Or you can go down in history of being part of the problem. Along with saying goodbye to freedom and this country.

Grace and Peace be with you,

Subject: January 6 - Joint Sessions - Electoral Vote

Your Honor-

I am by no means a legal or constitutional law scholar. I am writing this as simply an American that loves his country and for all the Good it has done not only for myself and my fellow Americans, but for citizens around the world.

You have been elected by the people of your State to listen to their cries, speak on behalf and act upon their wishes. Your time and place in the history of America is etched in stone, forever. God put you in this position to make wise and hard decisions regarding the Presidential election of 2020, so clearly fraught with Fraud by the Democrat Party, which could have consequences that will undermine our Constitution and determine either the survival or destruction of this great country, and the Liberty we stand for. This is not hyperbole. It is a fact.

The basic question before you is whether or not a Presidential election, or any other election, can be determined in advance by a political party using election High Tech Fraud technologies which are provable in practice, but whose specific and ultimate effects may be unprovable in results. The Supreme Court of the United States and state and local courts have let the people down. They have not heard the merits of mounting evidence and testimonies from thousands of people, much less, the hear the case brought to the Supreme Court by The State of Texas. The evidence is there, not already found, but also being blocked by government officials hiding from the truth.

On January 6, 2021, the Joint Session of Congress will convene to count electoral votes. Our great nations leaders created the Constitution with remedies for instances like this. The Republican Electors of the battleground states did the right thing and cast their votes to President Trump leaving the door open on January 6 for Congress to challenge the slates of electors from the States that are contested due to fraud. It is now your duty and obligation to cast your vote for President Trump as the millions upon millions of disenfranchised voters have requested.

I will leave you with a verse from the Book of Esther as Esther is being asked to do hard things and stand up for the fate of the Jewish nation. "For if you remain silent at this time, relief and deliverance for the Jews will arise from another place, but you and your father's family will perish. **And who knows but that you have come to your royal position for such a time as this?**" – Esther 4:14

Sincerely,

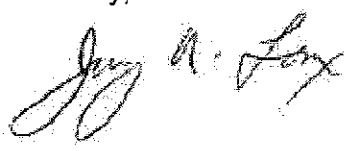
Subject: Request to verify proper election results

To whom it may concern:

This letter is my formal complaint and request that you do whatever it takes to ensure the integrity of the 2020 Presidential election. It is beyond obvious that there was massive fraud and that it has likely happened in prior elections too. If the United States cannot run fair and just elections, we as a nation are finished. God will judge all who are complicit in doing wrong and that wrong is according to his standards, not ours.
He gave 10 rather basic commandments to ensure that people can live in harmony with each other and with God. Here are two of them from Deuteronomy 5:
You shall not give false testimony….
You shall not steal.
As a leader in this country and specifically in your state, unless you stand for truth and do what is right, God will judge you more severely than others who don't have any control over these matters.
Therefore, you must as a matter of your standing before God, do the right thing and call an Electoral Session, hear the evidence, and reclaim your electors before January 6th.
This is not something that you should ignore. It is a terrible thing to fall into the hands of the living God. Hebrews 10:31
Please for your own sake and the sake of our country, do the right thing.

Sincerely,



Jerry A. Lomax

Subject: Call for an Electoral Session

I am writing to urge you to Call an Electoral Session to hear the massive amount of election fraud evidence and to reclaim your electors before January 6th. The Founders created this process in the U.S. Constitution to guard against widespread fraud at the State level. It is not the Governor's, Secretary of State's, the Courts, the News Media or Social Media that selects the President. It is We the People and as our Representatives, you have the power to make our voice heard.

Because of a corrupt and cowardly Judicial system, unwilling to even hear the evidence and corrupt News and Social Media organizations censoring all the evidentiary testimony, many Americans still believe that no election fraud has occurred. It is time to do what you have been elected to do, Uphold, Protect and Defend the Constitution. If you allow obvious election fraud to stand, you will have contributed to ending the Great American Experiment.

Sincerely,
Michael Wheeler

Subject: Appeal for America

Dear Congressperson,

As of a few days ago, over 62,000 people have promised to attend President Trump's inauguration event. Over 300,000 have expressed interest in going. This is just a small sampling of the 80 million Americans who are supporting his efforts to take back this stolen election. Many of us will be in Washington on January 6th.

I understand both parties are telling you that it's "bad optics" to support rejecting the certified electoral votes of the states in question. However, I suspect there are upwards of 80 million people who disagree with that. In fact, 80 million people like me who believe just the opposite with all their heart.

I realize you're in a tough spot, but that's why are you are in this job. We voted for someone who would stand up for us and our country, who would swear to defend against all enemies foreign and domestic! More evidence is coming out every day that foreign and domestic enemies are trying to take down our Republic. What will really look bad is if you miss the opportunity to stand up for America. You have children and grandchildren. What are you going to tell them if you don't take this opportunity now?

History will record one of two things: either you will be a courageous patriot who stood up for freedom or a corrupt coward who put on the blinders and let America die. I realize those are strong words, but this is one fight the American people will not forget! I implore you to consider throwing your considerable weight behind America and her citizens! You're a creative, seasoned veteran, and you can find a way! I have faith in you. Please do not let us down at a time when we need patriots with courage so badly!

Subject: Your constitutional authority

My name is Pat Farell and I live in Kentucky. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible, all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Subject: ELECTORAL SESSION

Dear Arizona Congressmen/women,

We urge you to call an urgent Electoral Session to hear the evidence of a fraudulent 2020 Presidential election. We urge you to reclaim your electors before January 6th. This election is far too important to NOT hear all evidence before the final certification of the election result. Our Founders gave legislatures this authority in the Constitution for this exact purpose.

We urge you to use your authority to convene an Electoral Session to hear the evidence, and not abdicate your responsibility by hiding behind the Governor's refusal to do this.

A grateful nation will thank you for this patriotic act.

Sincerely,

Dear Arizonia (Senators/Representatives):

My name is Ruth Ann Bekoff and I live in Philadelphia, Pa. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president.

As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump.

In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Sincerely yours,

Ruth Ann Bekoff

Subject: Election Fraud

Good afternoon,

My husband and I are very concerned about the election malfeasance that occurred in the state of Arizona. Elections laws and standards were ignored and the inability to forensically audit voting machines used makes the results further suspect.

What is the government of Arizona afraid of by letting these voting machines be forensically analyzed?

Until the facts are verified, kindly DO NOT allow electors sent from your state be included on January 6th. We encourage you to stand up for the American people by being brave and doing the right thing.

Respectfully,

Shelley Thomas

I will never accept this fraud of an election. And swearing in Joe Biden will be an Act of War! After January 6th we are going to know which way the wind blows. It will be time for our cold anger to turn hot! It will be time to stand and I don't mean hold rallies and protest, for those actions mean absolutely nothing to the other side. This evil throughout our country must be eliminated, right down to the very smallest of local levels. It's not going to be pretty. Millions of gallons of blood must run the streets. As the saying goes, the Tree of Liberty is looking mighty thirsty. Once this starts, it is going to be messy like nothing you've never seen. Best harden your hearts and get your mind wrapped around that. Do not even think of shedding a tear for these domestic enemies. They are enemies of our Republic and they hate everything that we cherish and stand for. We tried doing things the right way. We have exhausted all our options. The cartridge box is all that we have left now.

try to wrap your heads around what's coming for you all...

Open Letter to President Trump, Part II: Act Now! Do NOT Wait for Jan 6

President Trump,
Today, December 23, is the anniversary of the reading of Thomas Paine's The American Crisis, Number 1, to Washington's troops as they prepared their minds, bodies, and spirits for the critical battle of Trenton, which turned the tide of the war. General Washington had suffered defeat after defeat, and both he and his men were worn down. Many of his men were demoralized. He needed a victory, and to get one, he needed to go on the

AMERICAN OVERSIGHT

offensive. And he did. He ordered Thomas Paine's immortal words read aloud to his men, to get their minds right, and then General Washington penned a simple note to himself: "victory or death" – which became the password for the operation to cross the Delaware and attack the Hessians. At that time, there were many on both sides predicting his inevitable defeat, declaring that he was done, that the cause was lost. Many turned against him. But Washington did not listen to the doubting Thomas's who were urging him to give up, to try to make a deal with the enemy. Instead, he went on the offensive. He attacked. And he won.

Like Washington, you have suffered defeats, treachery, and people you trusted abandoning you, or even turning on you (modern day "Benedict Arnolds" abound). Like Washington, you have people in your ear, urging you to give up, to make a deal. Don't do it. Follow Washington's example and attack.

In our last open letter to you, we urged you to invoke the insurrection act, declaring an insurrection to be in existence by domestic enemies of the Constitution who are in allegiance with, and doing the biding of, Communist China and its globalist allies, intent on stealing the election and installing their puppet. We urged you to use SOCOM and other loyal military units to seize the data not just on election fraud, but also all data held by U.S. intelligence agencies and federal law enforcement that contain the dirt on all American elites who have been bribed or blackmailed by the Chinese Communist regime, or other foreign powers, or who are ideological fellow-travelers and willingly doing their bidding.

We urged you to use your absolute power to declassify ANY secret information and do a Wikileaks style data-dump of that information on the traitors, to expose them all (regardless of political party). This will show the American people who has been compromised and who is a traitor. And that will give you the credibility in the only court that really matters at this moment – the court of public opinion among the patriots, and among the military – to do what you must do, which is to walk the same path of decisive action that President Lincoln took.

We pointed out that this is a matter of duty, and is your final, last chance to save this Republic. To that, we add the following:

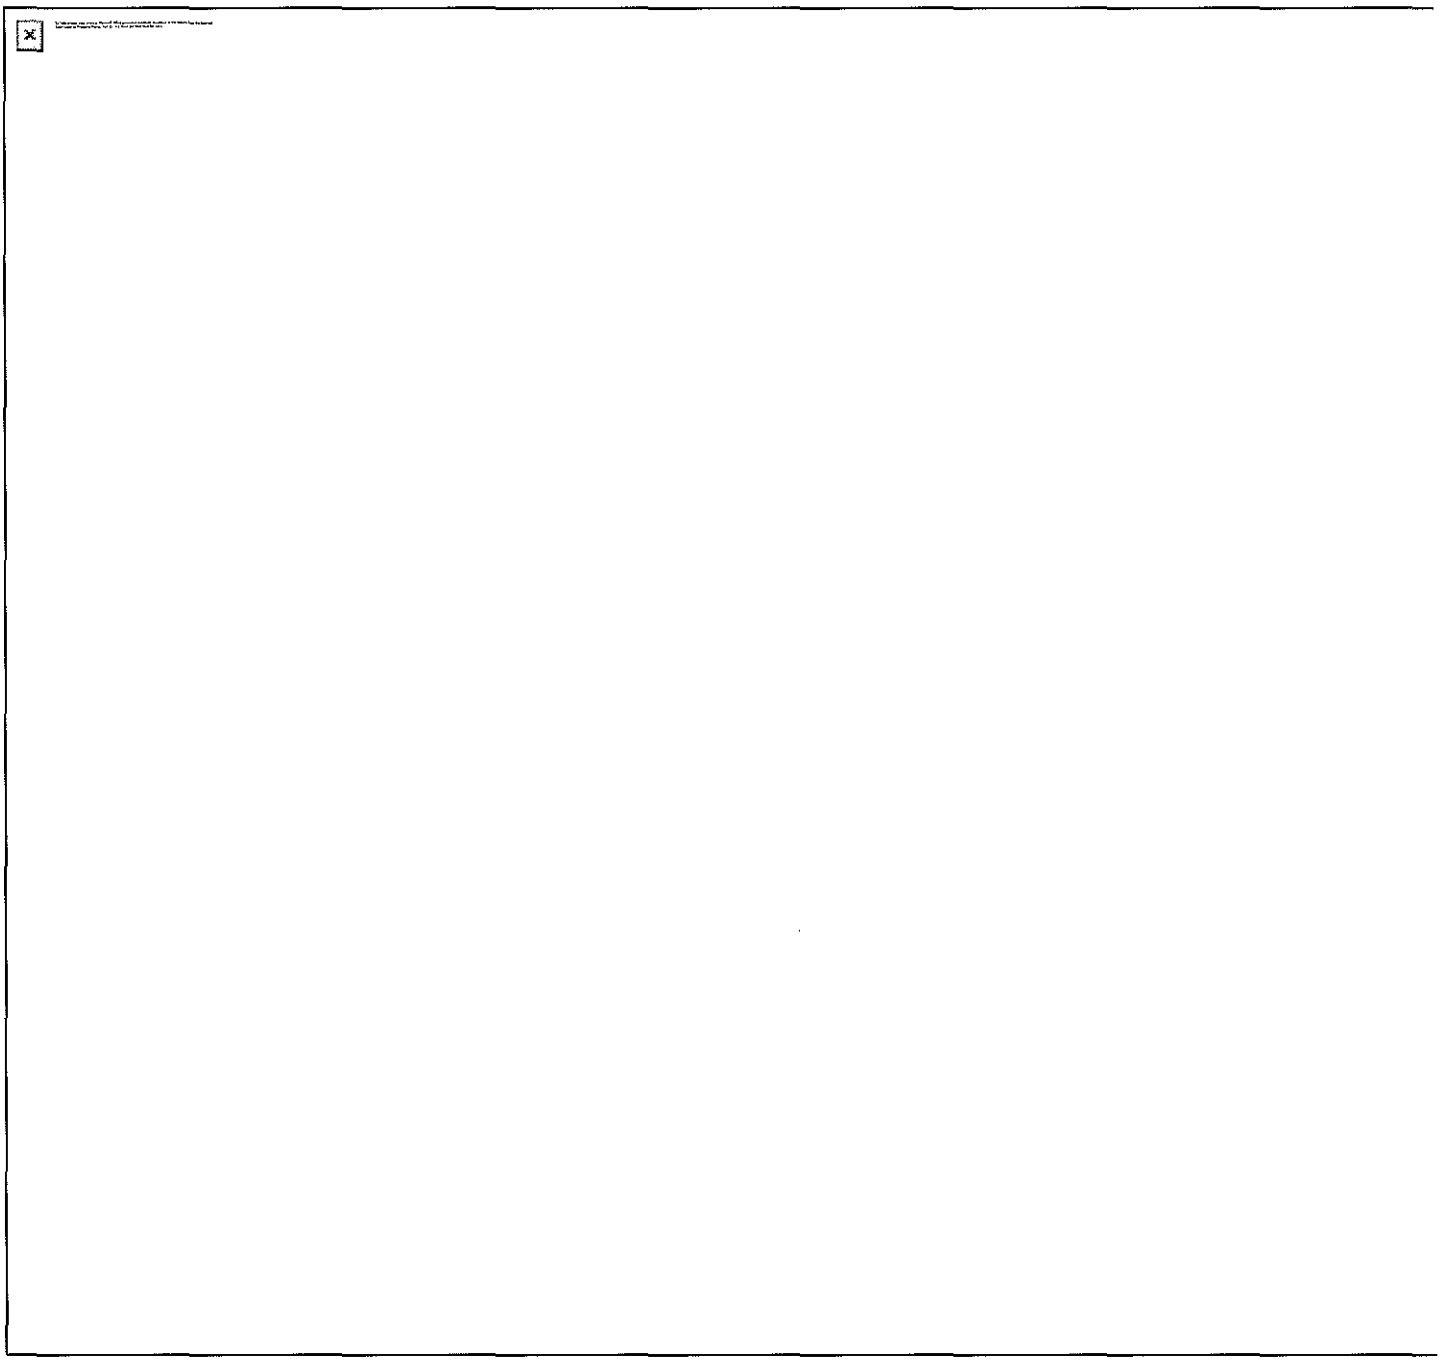
You are running out of time.

The Deep State strategy had been, from day one, to do to you what they did to President Reagan: Surround you with Deep State agents who will assist in containing you by giving you terrible advice and by refusing to take meaningful action in any of their posts (AG Barr is but one example) and then run the clock out on you, until you are gone (and stealing your re-election to avoid the risk of having you in for eight full years). Right now there are still "advisors" around you telling you that you cannot use the Insurrection Act or do a mass data seizure/data dump to expose the traitors, or take other decisive action to defend our Constitution. Or they are telling you that you must wait for various reasons – such as waiting until after January 6, when the joint session of Congress meets to process the electoral college votes. Do not listen to them. That's just part of the plan to run the clock out on you. Do your duty, and do it now. Recognize you are already in a war, and you must act as a wartime president, and there is not a minute to lose.

Do it now. And don't let the fact that it is Christmas stop you.

Remember, George Washington led his men across the frozen Delaware river on Christmas in 1776 to attack the Hessians at Trenton early the next morning. Do the same to the Deep State traitors and ChiCom puppets. Attack them now, using your most effective weapons – your irrefutable powers as Commander-in-Chief and the Insurrection Act of 1807. Give American patriots a grand Christmas present by dropping the hammer now. Attack our enemies and deal them a crushing blow while they sleep, wrapped in their arrogance.

AMERICAN OVERSIGHT



REMEMBER OUR HERITAGE. ACT ACCORDINGLY.

Why you should not wait until Jan 6, 2021:
The Republicans in Congress, in both the House and Senate (with a small handful of notable exceptions) are very likely to stab you in the back, just like the GOP controlled RINO state legislatures did. The Deep State wants you to wait till January 6, 2021 so their GOP puppets (such as Senate Majority Leader Mitch McConnell) can betray you yet again, violating their oaths, and certifying electors for a fraudulent imposter. And if you then take action, they will call you a dictator, accusing you of taking action only to stay in power. Under those circumstances, more military service-members may mistakenly believe that Biden is the legitimate President-elect and more of them will unwittingly obey stand down orders from turn-coat Generals. This does NOT mean that if you wait till then, that you *should not still take decisive action if that comes to pass.* You should still invoke the Insurrection Act and do what must be done. But it will be better for you to do it now, rather than after the 6th.
The GOP controlled state legislatures and other Republican officials in the swing states have already stabbed you in the back and betrayed their oaths, by certifying fraudulent elections that were not conducted according to the

AMERICAN OVERSIGHT

Constitutional mandate that "Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors …"
Those GOP controlled state legislatures, executive branches, and judiciaries knew that the voting was not done according to actual state law, but was instead done contrary to state law in multiple ways, making the selection of the electors unconstitutional. And they also knew there was fraud, all resulting the in the disenfranchisement of legitimate voters, who's right to equal protection of the laws was violated. And yet they still certified the fraudulent, unconstitutional results, and so far have refused and/or failed to decertify or overturn them.
And the courts, at every level, all the way up to the Supreme Court, have also refused to do their duty to defend the Constitution, and to secure the rights of the people, and have let this fraudulent farce go on.
Why should you expect anything better from even worse swamp creatures in the U.S. House and Senate? You should expect the dividing lines to be similar to the number of Republicans in Congress who voted "no" on the latest Stimulus Bill. Only a small handful of Republican Senators had any integrity. It will be the same with the Electoral College slates. The majority of them will join in with their Democratic fellow swamp creatures – even the ones you endorsed and helped get elected or re-elected. They will protect and preserve the swamp instead of the Constitution. They are loyal to the globalist oligarchy and to the interests of Communist China, instead of loyal to the Constitution or to the American people.
And you saw a similar breakdown on the U.S. Supreme Court, where only two out of nine upheld their oath and their duty to hear the Texas lawsuit against other states, despite it being clearly within their original jurisdiction to hear all cases between states. All three of your own Supreme Court nominees turned out to be swamp creatures who stabbed you and the American people in the back by shirking their duty. Only Justices Thomas and Alito stood tall.
The same will happen in the House and Senate. A small handful of actual patriots will stand tall. The rest will fold, with Congress also rubber stamping and certifying unconstitutional voting, and unconstitutional selection of electors in the states, going along with the most blatant theft of an election in U.S. history, to knowingly, willfully, install a fraudulent Chinese puppet and his equally illegitimate running mate.
They could not beat you in a fair election, so they stole it, and now their establishment fellow travelers and/or cowards at every level of government and in every branch are supporting that theft.

Invoking the Insurrection Act NOW Will Pressure Both the States and Congress to Finally Do the Right Thing.

You need to take decisive action now, calling all National Guard units into national service to keep the peace as you order SOCOM and loyal military intelligence units to seize critical data/evidence and begin exposing Deep State traitors (anyone who has been bribed or blackmailed by Communist China or other foreign entities), and any evidence of vote fraud that has not already been destroyed. This is bigger than this election. It's about insidious subversion and take over of our nation from within by globalist elites in league with one of our most deadly enemies – Communist China.
This will put the fear of God into all the Deep State minions, including any of the compromised Republicans at every level, both in the states and in the U.S. Congress, and will embolden the patriot office-holders to again push for doing the right thing. The states still have time to de-certify the elections/slates of electors, but time is running out. Put the bad guys on their heels now. They won't be able to know exactly what you now have on them, with all the data seizures all over the nation. They will begin turning on each other, and will roll over, seeking "deals" in exchange for testimony against each other. It's very similar to how you take down a crime syndicate or cartel.
You should have invoked the Insurrection Act immediately after it became apparent that the election was being stolen. Not doing so gave traitors time to destroy or manipulate evidence, covering their trail in the states. As any investigator or prosecutor knows, you don't leave evidence of criminal activity in the hands of the perpetrators – you seize the evidence as soon as possible to secure it.
You are already a month and a half behind, and now you have a crucial runoff election ongoing in Georgia, that is being stolen as we type this.

Invoke the Insurrection Act to Stop the Steal Going on Right Now in Georgia

Right now the runoff election in Georgia is being stolen. Georgia is using the exact same election model as they used in the November election – same machines, same process. And you can expect the same results. They will steal this election as well, giving the Democrats control of the U.S. Senate, and removing any possible barriers to their socialist agenda.
You need to call the Georgia National Guard (and any other state as you determine necessary) into federal service to stop the steal. Order them to monitor the voting, to secure the ballots and the voting machines, and to maintain chain of custody over every ballot and all the machines at every step of the process. Be prepared to relieve from command any commanding officer who will not do their duty. Expect it. The Deep State rot has unfortunately infested even the ranks of our military (as you are no doubt aware).

Appoint a true patriot as your Acting Attorney General.

AMERICAN OVERSIGHT

Someone who you know will be a fearless champion for the Constitution and will take on the deep state and fight them tooth and nail. Have that new A.G. appoint special prosecutors and all necessary tasks forces to go after not just election fraud, but after all of the deep state and their treason and corruption. It is time to truly drain the swamp.

White Hats have the Goods

There have always been a group of white hats around you, this group has provided you assistance before and are ready to be called into action. This group has meticulously collected and secured open source data pertaining to the illegal acts committed by the traitors within the government. Barr and many others have failed to utilize the provided information and there may be people still in your orbit obstructing today. Luke 10:19

You need to be working with Patriots from outside the beltway to accomplish the mission – this has always been the problem. Those within the beltway seek to maintain the status quo and have been working against your efforts to drain the swamp. The White Hats only need access to you to help you. They/we stand ready to assist you.

POST JANUARY 6

If you fail to act before January 6, 2021, and Congress at that time fails to defend the Constitution and stop the steal, as we expect them to, then we urge you to immediately take the following actions:

Declare that Congress has failed to defend the Constitution by rubber stamping a fraudulent and unconstitutional election. Further declare that the states also failed to defend the Constitution by failing to de-certify a fraudulent election and fraudulently selected electors. Also declare that seven out of nine of the Justices on Supreme Court has likewise failed in their duty, by refusing to hear a case squarely within their original jurisdiction. Declare that the American people are now being subjected to an extra-constitutional, illegitimate system that "rules" through systemic fraud, without the actual consent of the governed. And declare that therefore, you will honor your oath to "preserve, protect and defend the Constitution of the United States."

You will not concede to an unconstitutional fraudulent farce, you will not step down, and you will not leave the White House in the hands of an illegitimate, fraudulent imposter, who is a suspected agent of a foreign enemy.

along with the mass declassification and public data-dump (see below), the best thing you can do right now to show the American people, and the military service-members under your command, the reality of our predicament is to play the following videos for them, of a Communist Chinese professor bragging about how they control the inner circle of the American elite, at the very top:

Here is the full video of the Chinese University Professor's speech:

You are Commander-in-Chief. Order that those videos be shown to all current serving U.S. military personnel, immediately. *And also show them the below excellent documentary by Epoch Times, which goes into detail on how* the CCP is engaged in unrestricted warfare against the United States and has, over decades, subverted and infiltrated our nation, conquering it from within, including being directly involved in stealing the election for Biden:

Those are three videos every American should watch, and then come to terms with the truth that Wall Street sold out long ago, and then our political class, our legal class, and all mainstream media likewise sold out, for personal profit and power.

We need to take our country back, and you, Mr. President, need to help us finally get it done.

Invoke the Insurrection Act and call all National Guard units into national service to keep the peace.

Call all patriotic veterans into federal service as part of the militia.

One of your clearly described statutory powers as Commander-in-Chief, is to call any veteran until age 65 into federal service as the militia, to serve right there with the National Guard, under your command. Federal law provides for calling us veterans into service until age 65 because of our prior training and experience. We are all trained, each according to his or her M.O.S. Many of us are recent combat veterans of Iraq and/or Afghanistan. You can order veterans to report to their nearest military base or their nearest National Guard unit to be put to work, likewise assisting in keeping the peace and assisting you in anything else you need done.

Call all patriotic Americans of military age into service.

You can, and should, also call into service all able-bodied Americans between the ages of 17-45 who are still loyal to the Constitution. You need only issue the call and they will respond. In fact, tens of thousands of patriotic Americans, both veterans and non-veterans, will already be in Washington D.C., and many of us will have our mission-critical gear stowed nearby just outside D.C., and we will answer the call right then and there, if you call on us. Us veterans can quickly train, organize, and lead our non-veteran patriot brothers and sisters, to put them to work within their abilities (according to their skillsets and experience in civilian life that can be carried over into military service).

Again, be prepared to relieve from command all Deep State traitor officers in the ranks of the U.S. military and National Guard. Be prepared to promote loyal patriot officers or noncommissioned officers, or loyal veterans, into command.

AMERICAN OVERSIGHT

Immediately begin the mass declassification and Wikileaks style data-dump to expose all the traitors, freeing Julian Assange so he can assist in this vital task.

You need to do this mass data declassification and public data-dump immediately, but if you do wait until after January 6, it will be all the more critical that you do it as fast as you can, and with as much evidence of treason being disclosed to the American people as you can possibly facilitate in the short time you will have to do it before January 20. Again, the most critical court is the court of public opinion and the most critical portion of that will be the current serving military, and the veterans of this nation (to avoid as much bloodshed as possible). They must know the truth, and all of the truth, no matter how ugly it is, and about both major political parties. Do not spare the GOP traitors any more than you spare the Democrat traitors. Expose them all. Dump all their skeletons in the the street (all evidence of their bing bribed, blackmailed, or otherwise colluding with our enemies) for the people to see. That will maximize your credibility, and will maximize the number of military personnel and federal law enforcement who will side with the Constitution and the rights of the people, and it will maximize the number of Americans who finally have the veil lifted from their eyes so they can see evil in high places among the principalities of the earth.

Remember, this is really a world war of the people vs tyrants and evil oligarchs. The world is watching us to see what we do, just as the world watched the Founding Fathers to see what would happen, and when they shook off the chains of monarchy, the world followed their example, in one nation after another. The same will happen again. And it starts by exposing all the dark secrets.

Immediately order the U.S. military and National Guard units to conduct a new nationwide election that is an actually clean election using paper ballots. Order this to be done ASAP.

Do NOT concede to an illegitimate, fraudulent election, or illegitimate state and federal rubber stamping of that illegitimate election.

Declare that no electronic voting is secure or free from being manipulated, hacked, or otherwise used to commit vote fraud.

There needs to be a new election, nationwide, for all positions that were to be determined by the November election (and the GA runoff election), that is actually a clean election, giving true respect to the right of the people to elect their representatives, so that the consent of the governed is honored. And until that new election is undertaken, you must not step down. You cannot concede to an illegitimate election and allow a fraudulent "President" to take office. He must win by an actual election, if he is to win.

Carry out a clean election, as fast as is humanly possible, and honor the results, whatever they may be.

We recommend the following:

The new election *will be conducted by the national guard and veterans as part of the militia, and/or the U.S. military* over a two week period on paper ballots, with constant civilian observers and the public being able to observe at every stage of the process.

The paper ballots are to be assigned an ID number that can be given to the voter and the name and ID number should be registered in a live time voter database on a secure military server (creating a scrolling sheet that is constantly updating). There should be a concurrent manual ballot count, along with the entry into the database, indicating voter ID number, and votes (maintaining voter privacy but also allowing the voter to audit their own vote).

The voter will put their thumb print on the paper ballot with purple ink (just like we did in Iraq) so nobody can vote more than once. All voters must provided some form of government issued ID that proves identity and residency. For federal elections, they must also prove citizenship in some way (by federal law, only U.S. citizens can vote in federal elections. This law must be enforced).

The voter shall be given a photo copy of their ballot so they can audit it later at their command and discretion at any time during business hours at their local county clerks office to confirm that their vote was not changed, and that it was counted.

The paper ballots will be counted at the end of the two week period. All ballots are to be securely maintained during the voting period by the military and militia (including National Guard) under constant supervision by the military, by the militia, and by local civilian observers selected by lottery and will be counted in front of any other citizens who wish to monitor. The whole process should be transparent and open to the public to observe at every step. At the time of the count the ballot ID number will be acknowledged in the database as having been counted. The ballots will then be made available for audit by the individual voter.

We must also clean up all the other public offices from past elections. All local communities are to hold public referendums on their elected officials with the support of the military and/or militia to decide if they should remove from office any or all of their other sitting elected officials, and/or to conduct special elections using the same protocols as above.

AMERICAN OVERSIGHT

No party will be allowed to participate in such a referendum and only the citizens will determine if ALL other elected officials in their state are removed and a new special election held for all elected positions. Any new election will be conducted in the above described manner.

If we fail to root out the deep state, root and branch, NOW, this Republic is dead. We the People will not let that happen. But we need you, President Trump, to stand up and honor your oath, and do your duty as our President and Commander-in-Chief.

Know this: millions of American military and law enforcement veterans, and many millions more loyal patriotic American gun owners stand ready to answer your call to arms, and to obey your orders to get this done. Our goal is to honor our oaths to defend the Constitution and ultimately to restore our Constitutional Republic.

President Trump, you must be as decisive, if not more so, than President Lincoln was at the outset of the Civil War, when he issued an arrest warrant for the Chief Justice of the Supreme Court, issued arrest warrants for several members of Congress, for sitting state representatives and officials, as well as newspaper editors, as he suppressed an insurrection and rebellion that had spread throughout all branches of government at all levels.

If you fail to do your duty, you will leave We the People no choice but to walk in the Founders footsteps, by declaring the regime illegitimate, incapable of representing us, destructive of the just ends of government – to secure our liberty- and to be a mere puppet of a deadly foreign enemy. And, like the Founding generation, we will take to arms in defense of our God given liberty, we will declare our independence from that puppet regime, and we will fight for our liberty.

There are millions of American patriots standing ready. Do not forsake them. Do not leave them to have to do it all themselves. Keep your promise. Drain the Swamp. Do it now! We will help you at every step of the way.

PS – PATRIOTS, QUIT USING THE TERM "MARTIAL LAW."

The term "martial law" is nowhere in the constitutional text (go look. You won't find it there). The power of Congress to provide for calling forth the militia to suppress an insurrection, on the other hand, IS in the constitutional text, and Congress did so, starting in 1807, in the Insurrection Act (and all its amended versions since). Suppressing an insurrection and "martial law" are very different and should not be conflated or confused.

All the above recommended actions can be done under constitutional powers and authorities pursuant to the Insurrection Act, and pursuant to the President's powers and duties under Article II. President Trump does NOT need to try to step outside the Constitution to enforce it. He merely needs to use his constitutional powers in defense of that same Constitution, and in defense of the rights of the American people, pursuant to the Constitution (such as the right to vote, as well as the right to equal protection of the laws).

So please stop using the term "martial law" to describe actions President Trump can and must undertake to suppress this insurrection. You do a great disservice to the cause when you throw that term around instead of simply advocating his use of the Insurrection Act, and you only make it easier for our enemies to claim that President Trump is acting outside the Constitution and is a wanna-be dictator. Keep the focus on the Constitution, where it belongs.

Further, the Insurrection Act allows for the President to make his own determination of the facts regarding the existence of an ongoing insurrection. This is something else people seem to have a hard time understanding. He can invoke the Insurrection Act, and then gather the evidence of the extent of the insurrection and treason

AMERICAN OVERSIGHT

committed by individuals, for later prosecution in trials for treason, sedition, espionage, etc. He doesn't have to provide that evidence "beyond a reasonable doubt" up front. But he does need to articulate, to the American people, what is happening and why, and then he needs to seize the evidence and do that massive declassification and data-dump so the American people have a sense of just how widespread the corruption, treason, sedition, and espionage really is. Then comes the indictments, arrests, prosecutions, and public trials, before juries of We the People, as our Constitution requires. And that is where evidence beyond a reasonable doubt will need to be presented to the jury.

Dear Arizona Legislator,

I am writing you on behalf of the over 80 Million Americans who are Committed, Enthusiastic Supporters of President Trump. The President is THE ONLY REASON WE ARE REPUBLICANS. We support the President and his America-First Agenda, and we only support YOU to the extent that you strongly and vocally, with your words and actions, support the President in all he does.

The evidence of voter fraud, particularly in your state, is OVERWHELMING, and it is clear to all of us, and I suspect to you as well, that President Trump HANDILY won your state in the November 2020 Presidential election, and won a Landslide Victory nationwide to secure re-election. Only because of massive, widespread, Chinese-Communist Government Sponsored FRAUD is his re-election in doubt. Any and all who are complicit in this are guilty of Treason against the United States of America. Having corrupt elections, a stolen election, and the installation of a corrupt, addle-brained puppet in Joe Biden as President, will quickly lead the United States into ruin. However, it will not be a slow, gradual process. By your inaction in correcting this injustice, you are dangerously agitating tens of millions of Angry, Motivated, Heavily Armed Americans who will not stand down and accept this hostile takeover the country. People like me and my family will be caught in the crossfire.

Your cowardice and inaction are going to precipitate violence, unrest, injury, death, and some level of Civil War in America. By callously shattering the integrity of our presidential (and senatorial) elections, you are putting all of our lives in immediate and grave danger. Your life, My life, My family's life, Your Family's Life – NONE OF US will be safe, free, or prosperous if you participate in this heinous act of treason and fraud. Civil War will be an ugly, horrible thing. Nobody wants it, but we want less to live under Fraudulent Totalitarian Rule.

President Trump won re-election massively. Do the right thing. Stand up for him, fight for him. Decertify the Biden Electors. Send Trump Electors to the January 6 vote. Expose and PROSECUTE all acts of election fraud in your state to the maximum extent. It is the ONLY acceptable course of action.

If you think you're being cute and slick by laying low or "going along to get along" and retaining your perks and power, you are COMPLETELY WRONG. You are inviting DISASTER upon yourself and the people you Represent.

DO THE RIGHT THING. DECERTIFY BIDEN ELECTORS. EXPOSE, PROSECUTE, AND CORRECT THE FRAUD. SECURE THE ELECTION PROCESS IN YOUR STATE. SUPPORT TRUMP LIKE YOUR LIFE DEPENDS ON IT AND THE FATE OF AMERICA DEPENDS ON IT, BECAUSE IT DOES FOR ALL OF US!!! WE DO NOT WANT VIOLENCE OR CIVIL WAR!!!

Subject: Review the evidence of 2020 voter fraud...

Dear State Representative,
As a concerned registered voter and American citizen, I urge you to investigate the mounting evidence of voter fraud in the states of Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin during the 2020 presidential election.

I, along with millions of Americans, want to trust that our elections are free from fraud of any kind. And we need you to take action to make this happen.

I implore you to do the job we voted you into office to do **before January 6th, 2021**:

- Study the affidavits, forensic audits, and other evidence of fraud
- Call an Electoral Session
- Hear the evidence
- And based on the evidence, reclaim your state's electors

We are counting on you to not let the American people down!

Sincerely,
Paula Franetti

Subject: AZ Special Electoral Session

Dear Arizona Legislators:

I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Subject:	Please reclaim Arizona's electors before 1/1/2021

Dear Public Officials,

I am a very concerned American citizen. I am asking you to do the right thing, call an Electoral Session, hear *and listen to the evidence and reclaim the electors by January 6th. Please don't discredit information of exposed voter fraud since* it may be deemed as unpopular or difficult to admit. I want the evidence heard. I want our court decisions made on facts, not on technicalities. This is an incredible and serious time for America. I cannot imagine America's future if we do not stand up for transparency and truth now. As an individual, this is how I treat others when making an important decision. This is how I would want to be treated. Wouldn't you want to be treated the same way, if it were you?

I believe that your service in Government is to serve something bigger than a political party. ***I believe that you serve the people, the highest good of all people, regardless of political affiliation.*** If something was done illegally or incorrectly in our election, I believe that America, unlike most other countries, would want it investigated, exposed, and corrected, and to hold those who did it accountable. America states it is a home and a country for the free and the brave. *So many immigrants come to live in America for this exact reason.* That is why my grandparents came to America. I was taught growing up to do the right thing, to tell the truth, even when difficult, because it is the right thing to do. I was held accountable. I am calling on you, my public officials to do the same. If corruption was allowed in America's November 3rd election, please acknowledge it, understand how we allowed it, learn from it, take corrective steps to preclude it from happening again, and go on from there.

Please reclaim Arizona's electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Please do the right thing; don't get paralyzed by fear of what might happen. If you don't stand up now, America will not be what it is today in the future. Yes, we have our flaws, and need to do better in many areas, let's do that after we protect our country from illegal intrusion. If we do not do that, we will not have a country to protect. I beg you, I implore you, make your decision based on evidence. Please ask God, or whoever you believe in outside of yourself, for Divine Guidance, and stand up for TRUTH. **Whoever the evidence shows as the true winner of our presidential election, stand forward with that evidence and speak the truth. Stand up and stand tall for our freedoms.** I do not want to live in a country that is not free. Yes, I am saddened to think there was serious interference and corruption from other countries in our November 3rd election. Please don't turn your head to this egregious behavior in the highest levels of our government, if it is in fact found to be true and based on fact. We are better than that; we are more mature than that; we are Americans. Americans are very forgiving as a people, and

AMERICAN OVERSIGHT

Americans deserve to be told the truth. If we made a mistake as a country, we need to acknowledge it, correct it and start to heal as a nation. So many American families have sacrificed so much, *and some their lives*, for our country. They believed in the values of our country. *They deserve to be told the truth*. Please call for an Electoral Session, and call back our electors, and stand up for what is the right thing to do.

I pray there is a recounting of the election and an accounting of what has happened. I pray that the truth is exposed, and whoever is found to be the winner, I pray for your strength to stand up and do the right thing. I truly love our country, and I believe 99% of Americans love it to. *I pray for you and every American.* Thank you for your review.

Dear Arizona Congressmen and Congresswomen,

As a concerned citizen and registered voter in North Carolina. I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

Importance: High

I am writing to urge you to call an Electoral session, hear the evidence of election fraud, and reclaim your electors before January 6th.
The Founders laid-out this right in the U.S. Constitution to guard against widespread fraud at the state level.
Please disregard your Governor or Secretary of State's dismissive attitude and reclaim your power. This is no longer a partisan issue and whether President Trump is re-elected. This is about safe-guarding our Republic, honoring your constituents' votes, and doing the right thing! It's as simple as that.

Dear Mr. McConnell,

It appears you haven't reviewed the evidence of election fraud, or you would know you've been cheated out of your vote, too. Please do not become complacent in your long-standing role as a senator. It's an unfortunate syndrome we find ourselves in when the job gets too comfortable.

Mr. Peter Navarro's report is worth your consideration.

Thank you.

(copy to The Honorable Matt Hall noting that it broke my heart to watch the testimony of your good citizens who were fighting for my vote as much as they were fighting for their own.)

Dear Senator Johnson,

Thank you for hosting the hearing today on election integrity.

Like many of my fellow Americans, I have waded through news articles; election hearings in Pennsylvania, Wisconsin, Arizona, Georgia, Michigan, Nevada and Colorado; and I've reviewed the math and statistical probabilities.

Factoring in error rates, the math speaks for itself.
DONALD TRUMP CLEARLY WON THE 2020 ELECTION FOR PRESIDENT.

Republicans in Washington D.C. and at the state level must find the will to lead. You have a duty, a sworn duty, to protect my vote NOW.

I know I speak for millions of voters who want the evidence of election fraud recognized and reviewed prior to January 6. It does not go unnoticed that states like Michigan presented a subpoena for evidence that is not due until January 12. That passive approach to protecting my vote is not nearly sufficient!

State legislators must draw the line between legal and illegal votes. Consider that as the state legislators relinquish their power to other administrators, they dilute your power in Washington D.C.

Why are you all sitting back and allowing our nation, our Constitution, to be undermined?

THE TIME TO SOLVE ISSUES OF ELECTION INTEGRITY IS NOW. Solve it NOW.

Don't blame the courts. We know, We Americans know, who is responsible.

I've been a Republican since I could register to vote some 36 years ago. I've stuck by this Grand Old Party while "leadership" allowed us to be recast as racist, xeno/homophobic. SHAME ON THE GOP! TAKE ACTION NOW TO RIGHT THIS WRONG!

Thank you for your consideration,

Dear Arizona State Representative,

It is apparent to anyone with eyes and ears that massive election fraud likely occurred in your state.

Because the courts have refused to even consider the evidence, and to prevent the disenfranchisement of tens and potentially hundreds of thousands of voters, the state legislature should step in and investigate these allegations in a special session. Based on the results of the investigation, and according to The Constitution of the United States (Article 2), the state legislatures have the ultimate authority to decertify, certify, or declare the election results "in dispute."

I urge you to do what is necessary, right, and just before January 6, 2020, as the health and possibly the survival of our Republic and the Republican Party depends on it.

Subject: Save our Republic

Dear politician,

I am emailing you because I am from Iran and I saw what happened in Iran when a revolution happened in 1979 and then the Fascist Islamic Republic came into power happening here in America and YOU have the power to stop it.

People's freedoms were taken away, not suddenly, but slowly like a frog in water.

I see that a pandemic and a false sense of racial identity and victimhood was used, vulnerable people were used, freedom of expression was labeled racist and opposition to shutdowns and mandates were labeled dangerous and selfish. The politicians and electors were paid money or threatened to look the other way, the media was also paid to lie and twist the truth.

And now we have this situation where people's votes were not counted and MASSIVE election and voter fraud occurred in the 2020 election and the media did not report on it. None of the fraud was refuted, only ignored by the corrupt media and officials.

In many places from Austria during the rise of fascism, to Russia, to Iran, to China, to so many places, an oppressed and depressed economy was used to victimize and terrorize people through propaganda of lies to such a desperate situation that they listened to their oppressors and accepted the taking away of their freedoms. In those places, the people allowed the oppressors to become their dictators and tell them how to run their lives and how their economy should be run. I see this happening in America.

Don't let it happen. Stand up on January 6th, no matter what your affiliation, identity, spiritual beliefs, your sexual preferences, whatever you are, you are human first, a free human and you represent the free people of America. Stand up and speak against the fraudulent election and speak up for Trump, the rightful president of this next term. Do not let fascism rise in America. You don't want to be just another comfortable politician who lies and forgets the truth of what it means to be a politician of the people.

If you don't stand up, the people of America will not let their country be taken away.

I hope you will be helpful.
Yours sincerely,
Goli

I believe that the presidential election was stolen—thousands of affidavits from witnesses, Illegal ballots, suitcases and bags full of ballots of unknown origin, poll watchers prevented from performing their duties, midnight and early morning ballot counting without poll watchers, questionable election machines, failure to verify signatures on ballots by mail, dead people voting. The list goes on!

I believe you have a great responsibility to our nation and that your action or inaction greatly impacts our nation. I expect you to examine all of the evidence that has been found and to not allow it to be ignored or swept under the rug. If America's election integrity has been corrupted, our nation is at great risk.

I want you to demand that election machines be scrutinized. Our nation needs you and other elected leaders to do their jobs.

oh, hell, never mind. The election is void for nationwide FRAUD, see bellow; and President Trump was re-elected, anyway!

FRAUD-Election2020 Nationwide: More votes than Registered Voters !!?? = TREASON !

12-26-2020

214 million REGISTERED Voters in the US 2020 election; and, 66% of all Voters [historic Voter tum out], voted in the 2020 election, that equals 141 Registered Voters who voted in the 2020 election.

President Trump won 74 million votes from REGISTERED Voters; 141-74 = only 67 million votes remaining for Biden.

74-67= 7. Biden LOST by about 7-million. Biden total 83-M ? 83-67= 16-M FRAUD votes, I.e., FRAUD computer votes!

Biden stole the 2020Election with 16-M FRAUD votes from non-existing, non-Registered Voters.

This means 16 million duplicate or made up ballots were created and counted for Biden!

Biden, et.al., committed fraud in every imaginable way, but the big steal was in millions of fraudulent votes that were created to steal the election for Biden. MILLIONS of fake votes exceeding VOTERS!

President Trump is clearly and lawfully RE-ELECTED 2020 !

Remember Nov.3 mysterious count shutdown, and ballot dumps in the middle of the night when Trump was up by a landslide?

2020 will go down as the most corrupt election in U.S. history. An egregious attempt to steal our country= TREASON

The simple math proves their vicious fraud on every level in multiple states.

And Patriots must take a stand to stop this theft. Support immediate implementation of the Insurrection Act against this TREASONOUS ELECTION FRAUD ! Arrest them all, and, after short but fair trial, hang them all high!

Electoral College meets and submits their votes December 14, 2020. FRAUD moves forward into the Constitutional TRAP !!!

BUT, BE OF GOOD CHEER! Only Congress Can Certify The Presidential Election on January 6, 2021, per Art. 12

The 12th Amendment to the Constitution for the United States and Title 3 of the U.S. Code give Congress the CLEAR AUTHORITY AND DUTY to get to the bottom of the allegations of fraud in the 2020 Election and determine exactly who the American people LEGALLY chose to be the next President of the United States.Presidential Electors who then cast ballots for the President and Vice-President of the United States and the States forward the ballots of these electors to Congress, but it's the sworn duty of Congress to CERTIFY THESE ELECTORS BEFORE THE VOTES ARE EVEN COUNTED in Congress January 6, 2021.

Yes, Congress Certifies or REJECTS the votes from the Electoral College BEFORE THE VOTES ARE COUNTED. Federal law gives individual members of the House and Senate the power to challenge the results from the floor... TO SAFEGUARD AN ELECTION... The framers declared that the presidential election vote isn't official until lawmakers certify the integrity of the Presidential election, and then certify the Electoral College vote.

Any challenge to the Presidential election at that time January 6, 2021, in joint session, at least One Senator and One Representative must submit in writing a challenge against the Presidential election and/or the certification of the electors to thereby invoke a Congressional investigation before eventual certification.

The good news is that Congressman Mo Brooks has already stated that he will raise a challenge. Many other Reps. Should join him; and, at least One Senator, or the whole Senate majority could join him in writing to challenge this corrupted Presidential election to potentially save our Constitutional Republic from destruction by foreign and domestic Enemies.

Inventor of the QR Code Says It's "Really Easy" To Prove Which Ballots are Real and Which Are Frauds!

Inventor of the QR Code Says It's "Really Easy" To Prove Which Ballots are Real and Which Are Frauds!

NOW ALL AMERICANS must contact their senators and reps to DEMAND they too must RAISE A CHALLENGE on January 6, against this corrupted 2020 PRESIDENTIAL ELECTION AND THE CORRUPTED ELECTORAL COLLEGE VOTE, to save our Constitution FOR the USA.

Once a single Congressman and a single Senator challenge the certification in writing, EVERYTHING STOPS and the House and Senate adjourn and go into individual session.

Specifically, the Electoral Count Act (3 U.S. Code 15) states:

"Upon such reading of any such certificate or paper, the President of the Senate shall call for objections, if any. Every objection shall be made in writing, and shall state clearly and concisely, and without argument,

the ground thereof, and shall be signed by at least one Senator and one Member of the House of Representatives before the same shall be received.

Dear Legislator,

We the people of the United States in order to form a more perfect union, call on you to establish justice, and promote the general welfare by securing the blessings of liberty. We hold the inevitable truth of being endowed by our creator with the right to liberty.

Stop the spread of this evil communist takeover by the totalitarian techopolies, tyrannical mainstream media, and democrat dictatorship. There is clear and present evidence that the left engaged in severe voter fraud on this election (see attached PDF). Don't allow them to get away with it. You were elected to represent us, so please act out on what you were elected for and serve the will of the people.

President Trump won the LEGAL vote and therefore, won the election legally. You cannot look the other way while the left continues to rip this great country apart. We have been given a republic. You have been elected to keep it that way. I'm imploring you to please do what you were chosen to.

Reclaim your constitutional authority by meeting with and filing an alternative slate of electors. Your aggrieved state can then direct the U.S. Congress to step in on January 6, and reject the fraudulent tally of the electoral college from December 14.

You have the power to be an essential member of the resistance in this crucial moment in history. You can help turn the tide on the destruction of the greatest nation established by mankind under God. This will ensure that government by the people, of the people, and for the people shall not perish from this earth.

Thank you,

Concerned Patriot Citizen

There are 74 million angry Americans waiting for you to take a stand.
We expect this to be rectified by you calling an Electoral session before January 6th, listening to the evidence, reclaiming your state's electors —we expect You to pass a resolution to send the votes of the Republican slate of electors to Congress
We the People are waiting for you to act...It is your responsibility to right this wrong.
This is an overthrow of our basic right for a free and legal election.
If it did not personally affect your re-election this year, do you want to take a chance that it will not affect you in years to come?

If you do not act to correct this fraud, We the People will lose our right to a free and fair election.

What makes you think The Dominion voting machines that were used to reverse President Trumps win won't be used against each of you? They should never be used again by any state. Abolish mail in voting, picture ID and proof of citizenship are a must.

It is your duty as a duly elected state legislator to protect the elections in the state you represent as outlined in the Constitution of the United States

Do the job you were elected to do NOW and restore your states election integrity by certifying your states electors for President Trump

My vote matters! This election has clearly been rigged and stolen by socialist Democrats. We want you to be a voice for us. We cannot have courts, secretaries of state and governors changing laws, nor can we have our representatives not being courageous and standing up for President Trump . The only people that can change laws are you, the legislators. Push for a special session. Protect our election system by rejecting electors sent from states, including this state, where the results are in dispute over allegations of fraud and illegal conduct. Our cowardly Republican legislatures must show courage and support President Trump in keeping him in office. Do not be silent. You represent us, not yourselves and your decisions affect all U.S. citizens! We are so disgusted seeing how many cowards are actually in the government.

Subject: You are our last hope

Dear Arizona State Representative,

I am 75 years old and have never seen the level of voter fraud that took place in the November 3rd election. When I was 10 to 17 years old which was a long time ago, my Mom worked at the Pentagon as a secretary and we lived in Arlington, Virginia. When I went to college, I swore I would never live in the Washington DC area after the corruption I observed that was going on even back then.

America deserved an honest 2020 election. What they got instead was suitcases of ballots added in secret, massive late-night mail-in ballot drops in swing states, stuffing the ballot boxes (which is on video), double voters, dead voters, fake signatures, illegal immigrant voters, banned Republican vote watchers, MORE VOTES THAN ACTUAL VOTERS (check out Detroit, Atlanta & Philadelphia), and much more.

Our United States Election System looks like that of a third world country. Unfortunately, the Courts, the FBI and Justice Department all refused to do their job. Freedom of the press has been gone for a long time, it is Fake News, and now we have Big Tech (with Section 230) controlling what people can say.

The detailed report that Peter Navarro released last week about election fraud in the six battleground states, clearly shows there is enough evidence to warrant an urgent probe to potentially overturn the results.

Questions must be answered. Why was the vote count halted in key swing states on election night? What are the problems and potential fraud associated with mail-in ballots? Is Dominion Voting Systems secure or not? What lies behind the $400 million received by the parent company of Dominion Voting Systems less than a month before the election?

The People deserve elected officials like you fight for honest elections. Even the Supreme Court refused to look at the evidence, leaving the People nowhere to turn except to State legislators.

If successful, the President is seeking to invalidate illegal ballots and allow State legislatures to decide which Electoral College votes should be counted on January 6th.

As a State legislator, I implore you to make sure that truth wins this fight.

You are our last hope to make this right.

Sincerely,

Joseph Glvmph

Subject: Please reclaim Arizona's electors before 1-1-2021

Importance: High

Dear Public Officials,

I am a very concerned American citizen. I am a certified woman-owned business. My three businesses were decimated by the effects of Covid. Peoples' lives and our country have been nearly eradicated at the hands of another country. I am asking you to do the right thing, call an Electoral Session, hear *and listen* to the evidence and reclaim the electors by January 6th. Please don't discredit information of exposed voter fraud since it may be deemed as unpopular or difficult to admit. I want the evidence heard. I want our court decisions made on facts, not on technicalities. This is an incredible and serious time for America. I cannot imagine America's future if we do not stand up for transparency and truth now. As an individual, this is how I treat others when making an important decision. This is how I would want to be treated. Wouldn't you want to be treated the same way, if it were you?

I believe that your service in Government is to serve something bigger than a political party. ***I believe that you serve <u>the people</u>, the highest good of all people, regardless of political affiliation.*** If something was done illegally or incorrectly in our election, I believe that America, unlike most other countries, would want it investigated, exposed, and corrected, and to hold those who did it accountable. America states it is a home and a country for the free and the brave. *So many immigrants come to live in America for this exact reason.* That is why my grandparents came to America. I was taught growing up to do the right thing, to tell the truth, even when difficult, because it is the right thing to do. I was held accountable. I am calling on you, my public officials to do the same. If corruption was allowed in America's November 3rd election, please acknowledge it, understand how we allowed it, learn from it, take corrective steps to preclude it from happening again, and go on from there.

Please reclaim Arizona's electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Please do the right thing; don't get paralyzed by fear of what might happen. If you don't stand up now, America will not be what it is today in the future. Yes, we have our flaws, and need to do better in many areas, let's do that after we protect our country from illegal intrusion. If we do not do that, we will not have a

AMERICAN OVERSIGHT

country to protect. I beg you, I implore you, make your decision based on evidence. Please ask God, or whoever you believe in outside of yourself, for Divine Guidance, and stand up for TRUTH. **Whoever the evidence shows as the true winner of our presidential election, stand forward with that evidence and speak the truth. Stand up and stand tall for our freedoms.** I do not want to live in a country that is not free. Yes, I am saddened to think there was serious interference and corruption from other countries in our November 3rd election. Please don't turn your head to this egregious behavior in the highest levels of our government, if it is in fact found to be true and based on fact. We are better than that; we are more mature than that; we are Americans. Americans are very forgiving as a people, and Americans deserve to be told the truth. If we made a mistake as a country, we need to acknowledge it, correct it and start to heal as a nation. So many American families have sacrificed so much, *and some their lives*, for our country. They believed in the values of our country. *They deserve to be told the truth*. Please call for an Electoral Session, and call back our electors, and stand up for what is the right thing to do.

I pray there is a recounting of the election and an accounting of what has happened. I pray that the truth is exposed, and whoever is found to be the winner, I pray for your strength to stand up and do the right thing. I truly love our country, and I believe 99% of Americans love it to. *I pray for you and every American.* Thank you for your review.

Praying for each of you specifically by name every day - you CAN find the courage to do the right thing and what the American People you swore an oath of SERVICE to.

Dear Mark Finchem, State Senator, District 11

Regarding the historic 2020 election and stolen outcome.

On January 6, 2021, Washington DC, you will be called upon to submit our electoral vote for District 11 of which we live in.

Please be our champion in rectifying the 'theft' made by the Left. You know, of course, this is not just another presidential election, it is the turning point of America as we know it from Individualism to successful capitalism under the conservative leadership of President Trump, he has kept all his promises.

If Biden wins the electoral vote America will be a Marxist/Communist state in the coming decade. Biden didn't really win he stole the election thru: corruption, late mail-in ballots, Dominion manipulated computer counts, dead people voting, ballot harvesting, misleading instructions i.e. ballpoint vs marker pens, and brainwashing by MSM and Hollywood.

State Legislators are our only hope please don't let us down.

Vote President Trump

Sincerely,

Paul Hansen and Joann Hunt

I believe the science. Statistics IS science. And it and video recordings show beyond a doubt that the election was not valid; it was frauded.

Please, you need to stop hiding behind the Governor's refusal to act to protect us voters from the wonton fraud that has been perpetrated upon us and you. We need you to protect us from the stealing of this election because such unAmerican activity is so grossly unfair as to make my heart bleed.

We have entrusted you to protect us. Will you please live up to that trust?

To AZ House

I am a 66 year old professional retired woman who has 6 grandchildren from the ages of 1 to 11 years whom I adore. I am writing to you because of their future. I worry about them growing up in our USA due to the state of affairs with the left vs the right. I feel that there are deplorables on both sides and it's very difficult to weed out the bad over the good or the ones who really have the citizens best interest in mind or their own interest in gathering more wealth for themselves. I truly believe we are headed into an evil unknown. I am extremely disappointed in our supreme court who should have addressed Texas concerns regarding the Pennsylvania, Michigan, Wisconsin and Georgia violation of the equal protection, due Process and Elector's clauses of the constitution. Why was this? Can anyone answer why they did not address this concern? I NEED ANSWERS!!!! I need to know that this election was legitimate or else we have no faith in government or its election integrity. Since it is very difficult to know who is telling the truth, I am urging you to call an Electoral Session, hear the evidence, reclaim their electors before January 6th. Our Founding Fathers laid this out in the U.S. Constitution to guard against widespread fraud at the state level. I strongly believe there was widespread election fraud, with not only the mail in ballots but the Dominion voting machines and I do also believe it has been done in the past. This must be done now to preserve the election integrity of future elections.

thank you,

Subject: Fix the Election Fraud

This election has been the biggest mess in this country in my lifetime. It has been full of fraud, corruption, and impotence. Impotence you ask……..yes because nobody has had the spine, the balls, the courage, the guts, or whatever you want to call it….to do the right thing! The media, which is worthless, has not (what happen to the Watergate media), the national politicians (and even state ones like Gov. and SoS), the courts and judges, the Injustice Department (DOJ), etc. all have not. "We the People" have not been heard, the whistleblowers have not been heard, the evidence not examined, the videos not examined, the statisticians and anomalies not examined, etc……..that is a crime and a dereliction of duty. If we can't have fair elections in this country where everybody has confidence that it was fair and void of corruption both foreign and domestic…..then we are no better than a third world country…..or even a communist one. What makes us different is our God inspired CONSTITUTION!!!!!

That is where you come in. I urge you to Call an Electoral Session, hear the evidence, reclaim your state electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Do the right thing…be bold, be courageous, and fear the God that you will stand before one day giving account of your actions to like Joshua, Caleb, Moses, David, etc. did in the Bible. They did the right thing no matter if it was popular, or easy. This is similar to those patriots of old that signed their name to D of I, etc. It is scary, risky, and not easy but I am praying for you to do the right courageous thing!!!!!!!

Dear Arizona Representatives:

My name is David A. Lelli and I live in Rhode Island. I respectfully request that you call a special Electoral Session before January 6th in order to review the mounting evidence of voter fraud in your state before certifying any electors for president. As state legislators, you alone have the constitutional authority to designate the electors from your state that will vote for president. Before doing so, you need to fully verify that every legal vote has been counted and that every illegal vote is invalidated. Evidence exists of widespread illegal voting in every manner possible all backed up by eyewitnesses and all to benefit Joe Biden and to the detriment of President Trump. In your state, election laws were changed by those other than yourselves with no authority to do so and this enabled much of the fraud. You need to take back your constitutional authority and look carefully and objectively at the evidence of fraud in order to ensure a fair election. The whole nation is counting on you and the fate of the republic is in your hands. What a travesty it would be if we allowed an illegal result in the election for the highest office in the land. Our electoral process needs to have impeccable integrity and your legislative body is vital to ensure that it does.

Subject: Courage

Dear Arizona House Members,

I write to you as a concerned citizen of the US.

The Founders of this great country laid out plans in our Constitution to guard against widespread election fraud at the State level. We are facing such a crisis right now. There is a Constitutional procedure for us to reclaim our election process and protect our Country and our future against the fraud that occurred in association with the November 3, 2020 election in Arizona.

That procedure depends on your quick action. I urge you to call an electoral session to hear the evidence of election fraud and voter fraud in Arizona, and to reclaim your State's electors before January 6, 2021. Don't wait for the Governor to call the session. You can call it yourselves. To those of you who have already entered this fight, I commend you with deepest respect and appreciation.

To the rest of you, I urge you, please rise to this challenge for the sake of your children, your children's children and all generations after you. History will judge you based on your efforts in this crucial crossroads.

Thank you for your courage.

Sincerely,

Constance E. Murphy

As an American, I am appalled at the depths to which a formerly honorable Democratic Party has stooped to remove a duly elected American President from office.
I am also amazed at the Democrats' audacity to openly manipulate an American Presidential Election, even resorting to breaking numerous state and federal laws in order to deny American citizens their right to elect President Trump to a second term in office.
It is plainly obvious that all of the election documentation must be thoroughly scrutinized in order to place the American citizens' actual choice into place as President of America.
Please secure your Constitutional authority to correct the fraudulent results in your state of the recent Presidential election.
You can do this legally, ethically and morally by calling an Electoral Session, hearing all of the evidence and reclaiming your electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level.

Thank you for you attention.

Dear Senators,

How can this be happening in USA? The November 3rd election was so corrupt you need to be blind not see it and brain dead not to admit it unless you just don't understand the meaning of corrupt. Everyone understands right and wrong and whatever happened, cheating or incompetence, it's was wrong!

You all were elected to make and uphold the law and since this election was lawless and unfair you need to correct the wrong that has been done or resign from the office you were elected to. With all the fraud that has been discovered it is impossible that Donald Trump was not the winner and declaring Joe Biden the winner without **fully investigating** is unforgivable.

You must call an Electoral Session, hear the evidence , and reclaim your electors before January 6th, or resign! If after hearing the evidence you still maintain Biden was the winner...so be it. At least you fairly searched for the truth as you saw it.

Please do what is right and stand up for millions of very sad "Patriotic American Citizens" and voters who are very concerned about the direction of our country.

No more contributions, **ever,** to any republicans who do not have the courage to stand behind what is right and best for America.

Subject: Enough Proof to Flip State

Rudy has outlined that they have enough proof to flip the state.

https://youtu.be/NAzCECx8XeE

Now do your duty as outlined below.

GOP State Legislatures can call themselves into special sessions for the appointing of electors by a simple majority vote.

They do NOT need permission from their governors, nor a 2/3 vote.

State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is preempted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) & Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = they have "absolute" authority, and it cannot be questioned.

3) This right has not been exercised since 1876.

4) In McPherson, SCOTUS held Article II constrains each state's capacity to limit its legislature's ability to appoint electors.

5) In short, no state constitution's law can abrogate or alter the State Legislatures power in appointing electors.

6) Because on deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Pennsylvania State Legislature, via Zoom, could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in a open letter to the US Congress) and immediately appoint Trump loyal electors.

8) These Electors would meet in the US Capitol to vote on December 14th (or later, as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct."

9) Their votes (a slate) would be sealed and transported to the President of the Senate.

10) On January 6th, they're counted by the Prez of the Senate.

11) Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings.

Thanks,
Sarah

Subject: RECLAIM THE ELECTORS!!!!

To Whom It May Concern:
And if you're supposed to be representing the Republican party, you SHOULD BE CONCERNED!

We, the People, are angry, fed up, frustrated, and watching every move you make as one of our elected representatives. We, the American people, who have historically leaned toward politeness and affability, are infuriated enough at this point to develop sharp memories and vote you out of office if you fail to represent us by taking a middle-of-the-road, inoffensive approach to the irregularities in our country's general election. The evidence of election fraud abounds. We are watching our great America fall apart! We are fed up with the politically-correct pansies we have put into office. Millions upon millions of us are conversing and gaining strength in numbers online. You are faced with a historic, grass-roots movement that will mean the end of any politician's career if he or she turns a deaf ear to us. Are you going to be one of the politicians who is handed his or her hat after our next elections? BE AWARE THAT A RECENT POLL REVEALS THAT 37% OF DEMOCRATS ARE ALSO UPSET, INFURIATED, AND CALLING FOR TRANSPARENCY.

We, the People, urge you to call an Electoral Session in your state, hear the evidence, and reclaim your electors before January 6th. And we want you to be loud and bold when you do it, showing full support of the people you supposedly represent and for President Trump, the man for whom we cast a historic number of votes. Our aim is NOT to overturn a fair election, but we demand a transparent, fully-investigated election so that we can see for ourselves that it was indeed fair and legal. Without fair elections, our Republic will be forever lost.

The Founders of our country laid out in the U.S. Constitution a way to reclaim the Electors and guard against widespread fraud at the state level. Now, without a question, we see that the elections were fraught with cloak-and-dagger procedures, stonewalling of Republican observers, ballot harvesting, ballot stuffing, ballot dumps, machine ballot spikes, and on and on. We have been complacent, but that is a thing of the past. Stand up for us! If you don't, we will collectively knock you down and end your political careers. YOU WORK FOR US AND NOBODY ELSE.

Stop hiding behind the refusals of state governors to hear evidence, see evidence, and rule fairly in the defense of transparency. It is our God-given right as Americans to have fair and honest elections! If "you" allow that right to be trampled and denied, we will never forget your failure to act on our behalf.

Sincerely,
Adeline Anderson

Please know that I join many millions of fellow Americans who do not have confidence in the results of the 2020 Presidential election and appeal to State Legislatures that further action and consideration should be taken concerning it. I urge you to call an Electoral Session, hear available evidence and reclaim electors before January 6. If our legislators want the backing and confidence of the American people as a whole behind them, this is imperative, otherwise we will only have a fractured Republic, a shell of its former self. Subject: 2020 Presidential Election--Fraud

Dear State Legislators,

I urge you to call an electoral session and reclaim electors for President Trump before January 6, 2021.

The Founders laid this out in the U S Constitution to guard against widespread fraud at the state level.

Please stop hiding behind your Governor's refusal.

This year's November 3rd election was mis-managed by some obvious irregularities--i.e., PA, GA, AZ, NV, MI, and WI, in particular.

American citizens demand legal, chaos-free, legitimate voting practices.

Many experienced witnesses and poll watchers across the nation are alarmed by the 2020 Presidential Election irregularities. If American citizens are willing to sign legal affidavits under penalty of perjury, their honest eye-witness testimony and statements equal "evidence."

Please take the moral high ground.

Use common sense.

Allow 3rd party evidence gathering.

Make it right and truthful. Count only one legal vote for each legal resident of your State!

Our country's future depends on it!

Sincerely,

Deborah Fuller

Please support and pledge to fight for transparency for Pennsylvania citizens and taxpayers.

Subject:	Arizona Electoral Session concerning voting irregularities and voting fraud

As a member of the House of Representatives, you have been provided the opportunity and responsibility by the citizens of Arizona that expect you to represent them. The citizens you represent have witnessed an incredible amount of evidence of voting irregularities and fraud. This included Republican poll watchers being blocked by election officials, votes being cast in the names of deceased persons, evidence of discarded votes for Donald Trump, voting systems not meeting voting requirements and election-related rules being changed bypassing the state legislatures. Even statisticians have stated that in the review of the data, it is not improbable, it is impossible for the results to show Joe Biden winning. Not only has the fraud been evident in Arizona, but it also appears that Election officials and Poll workers in Arizona have conspired with additional states in a coordinated effort to over-throw this election which has disenfranchised voter rights for the legal votes submitted impacting the election results.

We are requesting that you call an Electoral Session immediately, hear evidence concerning these irregularities and evidence of fraud and reclaim your electors before January 6th. This process was laid out by our Founders in the U.S. Constitution specifically to guard against widespread fraud at the State level as witnessed in this election.

We expect you to support free and honest elections by challenging and rejecting the Electoral Votes from AZ. You have a responsibility to the citizens that voted you into office to use courage and properly represent them. If you fail to work to accomplish this with your fellow representatives, then you have failed the citizens of your state and your country and you will be judged accordingly for your efforts and results. If you are not a solution to this tyranny, then you are a part of it.

We respectfully request that you act **immediately** on this.

Sincerely,

Subject: The Election

More than half of the US population, many from both sides of the isle, are concerned that this was not a fair election. If the corruption is not totally exposed and fixed, there will be no faith in our electoral process. If like some of the AZ Representatives/Senators are saying there was no corruption, or it was too minor to make a difference, than why would you block the forensic exam of the voting machines? Either show the people the depth of the corruption or prove to us there was no corruption. In the absence of one of these 2 scenarios, not only do I lose faith in our election and the strength of our republic, but millions of others will lose faith in this as well.

Call an Electoral Session and HEAR THE EVIDENCE. Reclaim the proper electors before January 6. The brilliance of our founding Fathers is on clear display in the Constitution. Use the process laid out in the US Constitution to guard against widespread fraud. Do not hide behind the corrupt skirts of our governor. Be strong and brave for the people you represent.

.

Honorable AZ House Representative:

It is more than clear that the reported election results from your state are tainted. Between illegal mail-in ballots, vote tampering, rigged Dominion Election machines, and illegal/fabricated/deceased voters the outcome from your state are having an adverse and destructive effect on the entire nation.

We are a Constitutional Republic and you have sworn an oath to uphold and preserve your state's constitution. We the people, are outraged and shocked that elected officials from your state have stood by and allowed this to happen without demanding an immediate and thorough investigation of this fraudulent activity affecting every legal and law-abiding citizen in this nation.

On January 6th (if not before) there will be a massive objection and unified protest against the unconscionable, coordinated effort to overthrow a national election for the President of the United States ... and probably other high-ranking national and state offices as well... subverting and nullifying the will of every legal citizen and voter. This abomination cannot be tolerated. The evidence is massive and at the very

AMERICAN OVERSIGHT

least demands an honest, objective and thorough investigation. Otherwise, this nation cannot survive, as a house divided against itself cannot stand.

I am writing to urge you to fulfill your sworn obligation to your state and its citizens to do the honest, legal, and right thing in taking every step to insure the integrity of the vote in every precinct in your state. Without this confidence how can "we the people" ever have confidence in our elections being fair and honest again.

Thank you and respectfully,

Dear Mr. Finchem,
My name is Rev. Annemarie Sklaruk and I am a very healthy 75 year old citizen who is appalled at the goings on in your state. I write today to remind you that our constitution says that **YOU WORK FOR US. We DO NOT WORK FOR YOU.**

I am asking you nicely to Call an Electoral Session, hear the evidence, and reclaim your electors before January 6th. Our Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. You need to stop hiding behind your Governor's refusal and support President Trump.

Should you choose not to assist, I promise you that I will do whatever is in my power to make sure that you are NOT-RESEATED at your next election.

Thank you,

AMERICAN OVERSIGHT

try to wrap your heads around what's coming for you all...

Open Letter to President Trump, Part II: Act Now! Do NOT Wait for Jan 6

President Trump,

Today, December 23, is the anniversary of the reading of Thomas Paine's The American Crisis, Number 1, to Washington's troops as they prepared their minds, bodies, and spirits for the critical battle of Trenton, which turned the tide of the war. General Washington had suffered defeat after defeat, and both he and his men were worn down. Many of his men were demoralized. He needed a victory, and to get one, he needed to go on the offensive. And he did. He ordered Thomas Paine's immortal words read aloud to his men, to get their minds right, and then General Washington penned a simple note to himself: "victory or death" – which became the password for the operation to cross the Delaware and attack the Hessians. At that time, there were many on both sides predicting his inevitable defeat, declaring that he was done, that the cause was lost. Many turned against him. But Washington did not listen to the doubting Thomas's who were urging him to give up, to try to make a deal with the enemy. Instead, he went on the offensive. He attacked. And he won.

Like Washington, you have suffered defeats, treachery, and people you trusted abandoning you, or even turning on you (modern day "Benedict Arnolds" abound). Like Washington, you have people in your ear, urging you to give up, to make a deal. Don't do it. Follow Washington's example and attack.

In our last open letter to you, we urged you to invoke the insurrection act, declaring an insurrection to be in existence by domestic enemies of the Constitution who are in allegiance with, and doing the biding of, Communist China and its globalist allies, intent on stealing the election and installing their puppet. We urged you to use SOCOM and other loyal military units to seize the data not just on election fraud, but also all data held by U.S. intelligence agencies and federal law enforcement that contain the dirt on all American elites who have been bribed or blackmailed by the Chinese Communist regime, or other foreign powers, or who are ideological fellow-travelers and willingly doing their bidding.

We urged you to use your absolute power to declassify ANY secret information and do a Wikileaks style data-dump of that information on the traitors, to expose them all (regardless of political party). *This will show the American* people who has been compromised and who is a traitor. And that will give you the credibility in the only court that really matters at this moment – the court of public opinion among the patriots, and among the military – to do what you must do, which is to walk the same path of decisive action that President Lincoln took.

We pointed out that this is a matter of duty, and is your final, last chance to save this Republic. To that, we add the following:

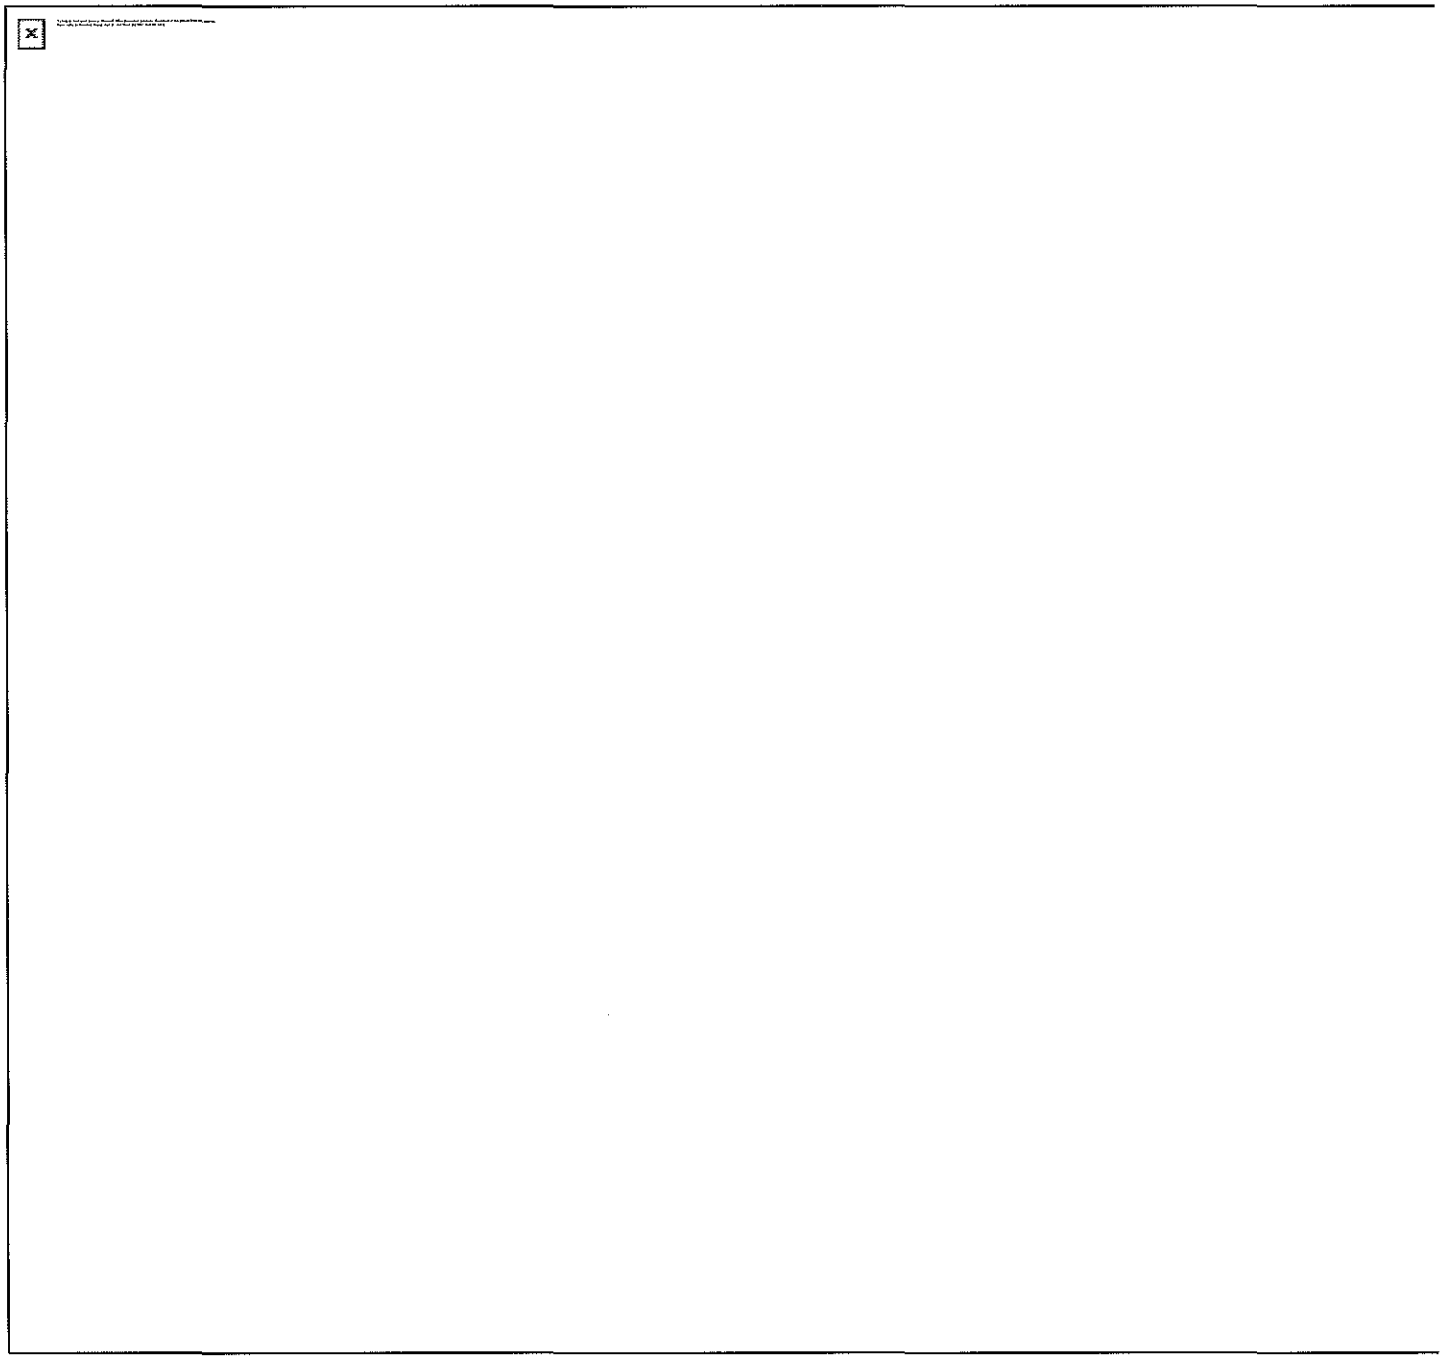
You are running out of time.

The Deep State strategy had been, from day one, to do to you what they did to President Reagan: Surround you with Deep State agents who will assist in containing you by giving you terrible advice and by refusing to take meaningful action in any of their posts (AG Barr is but one example) and then run the clock out on you, until you are gone (and stealing your re-election to avoid the risk of having you in for eight full years). Right now there are still "advisors" around you telling you that you cannot use the Insurrection Act or do a mass data seizure/data dump to expose the traitors, or take other decisive action to defend our Constitution. Or they are telling you that you must wait for various reasons – such as waiting until after January 6, when the joint session of Congress meets to process the electoral college votes. Do not listen to them. That's just part of the plan to run the clock out on you. Do your duty, and do it now. Recognize you are already in a war, and you must act as a wartime president, *and there is not a minute to lose.*

Do it now. And don't let the fact that it is Christmas stop you.

Remember, George Washington led his men across the frozen Delaware river on Christmas in 1776 to attack the Hessians at Trenton early the next morning. Do the same to the Deep State traitors and ChiCom puppets. Attack them now, using your most effective weapons – your irrefutable powers as Commander-in-Chief and the Insurrection Act of 1807. Give American patriots a grand Christmas present by dropping the hammer now. Attack our enemies and deal them a crushing blow while they sleep, wrapped in their arrogance.

AMERICAN OVERSIGHT



REMEMBER OUR HERITAGE. ACT ACCORDINGLY.

Why you should not wait until Jan 6, 2021:
The Republicans in Congress, in both the House and Senate (with a small handful of notable exceptions) are very likely to stab you in the back, just like the GOP controlled RINO state legislatures did. The Deep State wants you to wait till January 6, 2021 so their GOP puppets (such as Senate Majority Leader Mitch McConnell) can betray you yet again, violating their oaths, and certifying electors for a fraudulent imposter. And if you then take action, they will call you a dictator, accusing you of taking action only to stay in power. Under those circumstances, more military service-members may mistakenly believe that Biden is the legitimate President-elect and more of them will unwittingly obey stand down orders from turn-coat Generals. This does NOT mean that if you wait till then, that you should not still take decisive action if that comes to pass. You should still invoke the Insurrection Act and do what must be done. But it will be better for you to do it now, rather than after the 6th.
The GOP controlled state legislatures and other Republican officials in the swing states have already stabbed you in the back and betrayed their oaths, by certifying fraudulent elections that were not conducted according to the

AMERICAN OVERSIGHT

Constitutional mandate that "Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors …"
Those GOP controlled state legislatures, executive branches, and judiciaries knew that the voting was not done according to actual state law, but was instead done contrary to state law in multiple ways, making the selection of the electors unconstitutional. And they also knew there was fraud, all resulting the in the disenfranchisement of legitimate voters, who's right to equal protection of the laws was violated. And yet they still certified the fraudulent, unconstitutional results, and so far have refused and/or failed to decertify or overturn them.
And the courts, at every level, all the way up to the Supreme Court, have also refused to do their duty to defend the Constitution, and to secure the rights of the people, and have let this fraudulent farce go on.
Why should you expect anything better from even worse swamp creatures in the U.S. House and Senate? You should expect the dividing lines to be similar to the number of Republicans in Congress who voted "no" on the latest Stimulus Bill. Only a small handful of Republican Senators had any integrity. It will be the same with the Electoral College slates. The majority of them will join in with their Democratic fellow swamp creatures – even the ones you endorsed and helped get elected or re-elected. They will protect and preserve the swamp instead of the Constitution. They are loyal to the globalist oligarchy and to the interests of Communist China, instead of loyal to the Constitution or to the American people.
And you saw a similar breakdown on the U.S. Supreme Court, where only two out of nine upheld their oath and their duty to hear the Texas lawsuit against other states, despite it being clearly within their original jurisdiction to hear all cases between states. All three of your own Supreme Court nominees turned out to be swamp creatures who stabbed you and the American people in the back by shirking their duty. Only Justices Thomas and Alito stood tall.
The same will happen in the House and Senate. A small handful of actual patriots will stand tall. The rest will fold, with Congress also rubber stamping and certifying unconstitutional voting, and unconstitutional selection of electors in the states, going along with the most blatant theft of an election in U.S. history, to knowingly, willfully, install a fraudulent Chinese puppet and his equally illegitimate running mate.
They could not beat you in a fair election, so they stole it, and now their establishment fellow travelers and/or cowards at every level of government and in every branch are supporting that theft.

Invoking the Insurrection Act NOW Will Pressure Both the States and Congress to Finally Do the Right Thing.

You need to take decisive action now, calling all National Guard units into national service to keep the peace as you order SOCOM and loyal military intelligence units to seize critical data/evidence and begin exposing Deep State traitors (anyone who has been bribed or blackmailed by Communist China or other foreign entities), and any evidence of vote fraud that has not already been destroyed. This is bigger than this election. It's about insidious subversion and take over of our nation from within by globalist elites in league with one of our most deadly enemies – Communist China.
This will put the fear of God into all the Deep State minions, including any of the compromised Republicans at every level, both in the states and in the U.S. Congress, and will embolden the patriot office-holders to again push for doing the right thing. The states still have time to de-certify the elections/slates of electors, but time is running out. Put the bad guys on their heels now. They won't be able to know exactly what you now have on them, with all the data seizures all over the nation. They will begin turning on each other, and will roll over, seeking "deals" in exchange for testimony against each other. It's very similar to how you take down a crime syndicate or cartel.
You should have invoked the Insurrection Act immediately after it became apparent that the election was being stolen. Not doing so gave traitors time to destroy or manipulate evidence, covering their trail in the states. As any investigator or prosecutor knows, you don't leave evidence of criminal activity in the hands of the perpetrators – you seize the evidence as soon as possible to secure it.
You are already a month and a half behind, and now you have a crucial runoff election ongoing in Georgia, that is being stolen as we type this.

Invoke the Insurrection Act to Stop the Steal Going on Right Now in Georgia

Right now the runoff election in Georgia is being stolen. Georgia is using the exact same election model as they used in the November election – same machines, same process. And you can expect the same results. They will steal this election as well, giving the Democrats control of the U.S. Senate, and removing any possible barriers to their socialist agenda.
You need to call the Georgia National Guard (and any other state as you determine necessary) into federal service to stop the steal. Order them to monitor the voting, to secure the ballots and. the voting machines, and to maintain chain of custody over every ballot and all the machines at every step of the process. Be prepared to relieve from command any commanding officer who will not do their duty. Expect it. The Deep State rot has unfortunately infested even the ranks of our military (as you are no doubt aware).

Appoint a true patriot as your Acting Attorney General.

AMERICAN OVERSIGHT

Someone who you know will be a fearless champion for the Constitution and will take on the deep state and fight them tooth and nail. Have that new A.G. appoint special prosecutors and all necessary tasks forces to go after not just election fraud, but after all of the deep state and their treason and corruption. It is time to truly drain the swamp.

White Hats have the Goods

There have always been a group of white hats around you, this group has provided you assistance before and are ready to be called into action. This group has meticulously collected and secured open source data pertaining to the illegal acts committed by the traitors within the government. Barr and many others have failed to utilize the provided information and there may be people still in your orbit obstructing today. Luke 10:19

You need to be working with Patriots from outside the beltway to accomplish the mission – this has always been the problem. Those within the beltway seek to maintain the status quo and have been working against your efforts to drain the swamp. The White Hats only need access to you to help you. They/we stand ready to assist you.

POST JANUARY 6

If you fail to act before January 6, 2021, and Congress at that time fails to defend the Constitution and stop the steal, as we expect them to, then we urge you to immediately take the following actions:

Declare that Congress has failed to defend the Constitution by rubber stamping a fraudulent and unconstitutional election. Further declare that the states also failed to defend the Constitution by failing to de-certify a fraudulent election and fraudulently selected electors. Also declare that seven out of nine of the Justices on Supreme Court has likewise failed in their duty, by refusing to hear a case squarely within their original jurisdiction. Declare that the American people are now being subjected to an extra-constitutional, illegitimate system that "rules" through systemic fraud, without the actual consent of the governed. And declare that therefore, you will honor your oath to "preserve, protect and defend the Constitution of the United States."

You will not concede to an unconstitutional fraudulent farce, you will not step down, and you will not leave the White House in the hands of an illegitimate, fraudulent imposter, who is a suspected agent of a foreign enemy.

along with the mass declassification and public data-dump (see below), the best thing you can do right now to show the American people, and the military service-members under your command, the reality of our predicament is to play the following videos for them, of a Communist Chinese professor bragging about how they control the inner circle of the American elite, at the very top:

Here is the full video of the Chinese University Professor's speech:

You are Commander-in-Chief. Order that those videos be shown to all current serving U.S. military personnel, immediately. And also show them the below excellent documentary by Epoch Times, which goes into detail on how the CCP is engaged in unrestricted warfare against the United States and has, over decades, subverted and infiltrated our nation, conquering it from within, including being directly involved in stealing the election for Biden:

Those are three videos every American should watch, and then come to terms with the truth that Wall Street sold out long ago, and then our political class, our legal class, and all mainstream media likewise sold out, for personal profit and power.

We need to take our country back, and you, Mr. President, need to help us finally get it done.

Invoke the Insurrection Act and call all National Guard units into national service to keep the peace.

Call all patriotic veterans into federal service as part of the militia.

One of your clearly described statutory powers as Commander-in-Chief, is to call any veteran until age 65 into federal service as the militia, to serve right there with the National Guard, under your command. Federal law provides for calling us veterans into service until age 65 because of our prior training and experience. We are all trained, each according to his or her M.O.S. Many of us are recent combat veterans of Iraq and/or Afghanistan. You can order veterans to report to their nearest military base or their nearest National Guard unit to be put to work, likewise assisting in keeping the peace and assisting you in anything else you need done.

Call all patriotic Americans of military age into service.

You can, and should, also call into service all able-bodied Americans between the ages of 17-45 who are still loyal to the Constitution. You need only issue the call and they will respond. In fact, tens of thousands of patriotic Americans, both veterans and non-veterans, will already be in Washington D.C., and many of us will have our mission-critical gear stowed nearby just outside D.C., and we will answer the call right then and there, if you call on us. Us veterans can quickly train, organize, and lead our non-veteran patriot brothers and sisters, to put them to work within their abilities (according to their skillsets and experience in civilian life that can be carried over into military service).

Again, be prepared to relieve from command all Deep State traitor officers in the ranks of the U.S. military and National Guard. Be prepared to promote loyal patriot officers or noncommissioned officers, or loyal veterans, into command.

AMERICAN OVERSIGHT

Immediately begin the mass declassification and Wikileaks style data-dump to expose all the traitors, freeing Julian Assange so he can assist in this vital task.

You need to do this mass data declassification and public data-dump immediately, but if you do wait until after January 6, it will be all the more critical that you do it as fast as you can, and with as much evidence of treason being disclosed to the American people as you can possibly facilitate in the short time you will have to do it before January 20. Again, the most critical court is the court of public opinion and the most critical portion of that will be the current serving military, and the veterans of this nation (to avoid as much bloodshed as possible). They must know the truth, and all of the truth, no matter how ugly it is, and about both major political parties. Do not spare the GOP traitors any more than you spare the Democrat traitors. Expose them all. Dump all their skeletons in the the street (all evidence of their bing bribed, blackmailed, or otherwise colluding with our enemies) for the people to see. That will maximize your credibility, and will maximize the number of military personnel and federal law enforcement who will side with the Constitution and the rights of the people, and it will maximize the number of Americans who finally have the veil lifted from their eyes so they can see evil in high places among the principalities of the earth.

Remember, this is really a world war of the people vs tyrants and evil oligarchs. The world is watching us to see what we do, just as the world watched the Founding Fathers to see what would happen, and when they shook off the chains of monarchy, the world followed their example, in one nation after another. The same will happen again. And it starts by exposing all the dark secrets.

Immediately order the U.S. military and National Guard units to conduct a new nationwide election that is an actually clean election using paper ballots. Order this to be done ASAP.

Do NOT concede to an illegitimate, fraudulent election, or illegitimate state and federal rubber stamping of that illegitimate election.

Declare that no electronic voting is secure or free from being manipulated, hacked, or otherwise used to commit vote fraud.

There needs to be a new election, nationwide, for all positions that were to be determined by the November election (and the GA runoff election), that is actually a clean election, giving true respect to the right of the people to elect their representatives, so that the consent of the governed is honored. And until that new election is undertaken, you must not step down. You cannot concede to an illegitimate election and allow a fraudulent "President" to take office. He must win by an actual election, if he is to win.

Carry out a clean election, as fast as is humanly possible, and honor the results, whatever they may be.

We recommend the following:

The new election will be conducted by the national guard and veterans as part of the militia, and/or the U.S. military over a two week period on paper ballots, with constant civilian observers and the public being able to observe at every stage of the process.

The paper ballots are to be assigned an ID number that can be given to the voter and the name and ID number should be registered in a live time voter database on a secure military server (creating a scrolling sheet that is constantly updating). There should be a concurrent manual ballot count, along with the entry into the database, indicating voter ID number, and votes (maintaining voter privacy but also allowing the voter to audit their own vote).

The voter will put their thumb print on the paper ballot with purple ink (just like we did in Iraq) so nobody can vote more than once. All voters must provided some form of government issued ID that proves identity and residency. For federal elections, they must also prove citizenship in some way (by federal law, only U.S. citizens can vote in federal elections. This law must be enforced).

The voter shall be given a photo copy of their ballot so they can audit it later at their command and discretion at any time during business hours at their local county clerks office to confirm that their vote was not changed, and that it was counted.

The paper ballots will be counted at the end of the two week period. All ballots are to be securely maintained during the voting period by the military and militia (including National Guard) under constant supervision by the military, by the militia, and by local civilian observers selected by lottery and will be counted in front of any other citizens who wish to monitor. The whole process should be transparent and open to the public to observe at every step. At the time of the count the ballot ID number will be acknowledged in the database as having been counted. The ballots will then be made available for audit by the individual voter.

We must also clean up all the other public offices from past elections. All local communities are to hold public referendums on their elected officials with the support of the military and/or militia to decide if they should remove from office any or all of their other sitting elected officials, and/or to conduct special elections using the same protocols as above.

AMERICAN OVERSIGHT

No party will be allowed to participate in such a referendum and only the citizens will determine if ALL other elected officials in their state are removed and a new special election held for all elected positions. Any new election will be conducted in the above described manner.

If we fail to root out the deep state, root and branch, NOW, this Republic is dead. We the People will not let that happen. But we need you, President Trump, to stand up and honor your oath, and do your duty as our President and Commander-in-Chief.

Know this: millions of American military and law enforcement veterans, and many millions more loyal patriotic American gun owners stand ready to answer your call to arms, and to obey your orders to get this done. Our goal is to honor our oaths to defend the Constitution and ultimately to restore our Constitutional Republic.

President Trump, you must be as decisive, if not more so, than President Lincoln was at the outset of the Civil War, when he issued an arrest warrant for the Chief Justice of the Supreme Court, issued arrest warrants for several members of Congress, for sitting state representatives and officials, as well as newspaper editors, as he suppressed an insurrection and rebellion that had spread throughout all branches of government at all levels.

If you fail to do your duty, you will leave We the People no choice but to walk in the Founders footsteps, by declaring the regime illegitimate, incapable of representing us, destructive of the just ends of government – to secure our liberty- and to be a mere puppet of a deadly foreign enemy. And, like the Founding generation, we will take to arms in defense of our God given liberty, we will declare our independence from that puppet regime, and we will fight for our liberty.

There are millions of American patriots standing ready. Do not forsake them. Do not leave them to have to do it all themselves. Keep your promise. Drain the Swamp. Do it now! We will help you at every step of the way.

PS – PATRIOTS, QUIT USING THE TERM "MARTIAL LAW."

The term "martial law" is nowhere in the constitutional text (go look. You won't find it there). The power of Congress to provide for calling forth the militia to suppress an insurrection, on the other hand, IS in the constitutional text, and Congress did so, starting in 1807, in the Insurrection Act (and all its amended versions since). Suppressing an insurrection and "martial law" are very different and should not be conflated or confused.

All the above recommended actions can be done under constitutional powers and authorities pursuant to the Insurrection Act, and pursuant to the President's powers and duties under Article II. President Trump does NOT need to try to step outside the Constitution to enforce it. He merely needs to use his constitutional powers in defense of that same Constitution, and in defense of the rights of the American people, pursuant to the Constitution (such as the right to vote, as well as the right to equal protection of the laws).

So please stop using the term "martial law" to describe actions President Trump can and must undertake to suppress this insurrection. You do a great disservice to the cause when you throw that term around instead of simply advocating his use of the Insurrection Act, and you only make it easier for our enemies to claim that President Trump is acting outside the Constitution and is a wanna-be dictator. Keep the focus on the Constitution, where it belongs.

Further, the Insurrection Act allows for the President to make his own determination of the facts regarding the existence of an ongoing insurrection. This is something else people seem to have a hard time understanding. He can invoke the Insurrection Act, and then gather the evidence of the extent of the insurrection and treason

AMERICAN OVERSIGHT

committed by individuals, for later prosecution in trials for treason, sedition, espionage, etc. He doesn't have to provide that evidence "beyond a reasonable doubt" up front. But he does need to articulate, to the American people, what is happening and why, and then he needs to seize the evidence and do that massive declassification and data-dump so the American people have a sense of just how widespread the corruption, treason, sedition, and espionage really is. Then comes the indictments, arrests, prosecutions, and public trials, before juries of We the People, as our Constitution requires. And that is where evidence beyond a reasonable doubt will need to be presented to the jury.

Subject: DEMAND FOR EMERGENCY HEARING ON CHINA's $400 MILLION PURCHASE OF DOMINION ELECTION SOFTWARE ON OCT 8, 2020
Attachments: SCOTT BENNETT.jpg

CHINA'S $400 MILLION PURCHASE OF DOMINION ON OCTOBER 8, 2020 & CYBER CONTROL OF ELECTION SOFTWARE ON NOVEMBER 3

We hereby demand an EMERGENCY HEARING regarding the Dominion Server seized by DOD military personnel in Frankfurt, Germany. Americans have a right to know. **China's interference with voting machines on election night justifies STRIKING brazenly ILLEGAL ballots and recertifying election results in Georgia, Pennsylvania, Wisconsin, Michigan, Nevada and Arizona.**

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server for two weeks in Washington DC. Scott is ready to bring multiple witnesses to testify TODAY before **STATE LEGISLATURES** about China's interference in the 2020 elections.

Most of Scott's team are local in the Washington DC area, and can assemble rapidly. **Scott's phone # is in California. Arizona Rep. Gosar's staff interviewed Scott, and strongly support our demand for a Senate hearing.**

Scott Bennett's disclosures are devastating --- **China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.**

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin and New Mexico--whose legislatures are obligated to recertify election results, and guarantee ALTERNATE ELECTORS are certified by Vice President Pence on January 6.

Expert testimony proves foreign interference and vote manipulation by China on election night beyond any shadow of doubt. Consider China's interference in light of Michigan's audit report that Dominion machines carried a 68 PERCENT error rate: The ramifications for national security are staggering and changes the entire dynamic of audits in Arizona and Michigan of Dominion machines.

Only crooked politicians defend crooked elections. When the US economy inevitably crashes under Biden-- a Dark Winter, indeed--voters will punish politicians who endorsed election fraud to take out President Trump, our nation's best protection against destructive Globalist ambitions to raise China First and pull down the United States--especially as they learn more about China's interference in our elections.

There will be no place to hide.

Members of the Arizona House,

Enough is enough. I am writing to urge you to call an Electoral Session, hear the evidence and reclaim your electors, before January 6th.

All of you went into politics for some reason: fame, power, civic duty, etc. Well, regardless of the reason, now is the time to act. For those of you who insist that the election was free, fair and properly conducted, permit me to laugh. If you allow this travesty to continue, out of fear, ignorance, or the hope that you and your family will be left alone by the American Left, you are sadly mistaken. For you, the words of Pastor Martin Niemoller are particularly apt:

When Hitler came for the Jews... I was not a Jew, therefore, I was not concerned. And when Hitler attacked the Catholics, I was not a Catholic, and therefore I was not concerned. And when Hitler attacked the unions and the industrialists, I was not a member of the unions and I was not concerned. Then, Hitler attacked me and the Protestant church - and there was nobody left to be concerned.

When push comes to hard shove, many Americans will fight. Which side of the struggle will posterity find you on, standing for the Constitutional Republic and 241 years of liberty like an American patriot, or cowering on your knees like a *испуганный ребенок?*

Dear Representative,

As a citizen of the United States of America I am writing today to respectfully request that you call an Electoral Session, hear the evidence of election fraud and reclaim your electors before January 6th.

The right to vote is sacred in this country and by allowing this fraudulent result to stand you are in effect taking away that right from those citizens that cast a legitimate ballot. Further, more than half this country that has seen the evidence that you refuse to see or acknowledge and we know the results are fraudulent. It is painfully obvious. You cannot hide your head in the sand anymore. It is time to stand up for your local citizens, for your state and your country and do what is right and reclaim your electors.

Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our *election to be stolen will be devastating to our republic, from which we may never recover.* The American people need their faith in free and fair elections restored. Subject: *2020 Election Fraud*

Senators,

I have had enough of the cowardice that has been on display in our legislature and judicial branches. While I was happy to see many of you gathered to hear the words of the many witnesses who have filed affidavits of the fraud they witnessed, you have done very little since then to correct this great injustice.

I want you to know that while there appears to be no court in our once great country who has the balls to do the right thing, including our supreme court, the power lies with you to correct this mess. It has been given to you by our constitution. All you have to do is claim it! You don't need a court to say that the right is yours.

I insist that you recall the democrat electoral votes and instead send all electoral votes for President Donald Trump prior to January 6th.

Failure to comply will lead to many of you being primaried! So muscle up some courage and do the right thing. Play your part in protecting our constitution, country, and election integrity. Your constituents will have your back and will shield you from harm.

This is the first of many issues that you will have to face in the coming year. Those of you who lack courage should resign.

Sincerely,
Paul A. Roe

Elected Legislators:

As a very concerned voter, I am petitioning you to call an electoral session, hear the evidence of voter fraud, and reclaim your electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud which has overtaken our elections at the State level.
We in America no longer trust our electoral system and demand, for democracy's sake, that the evidence of election fraud be heard, weighed, and acted upon. Each of you were voted to stand up for our democracy and need to stop hiding behind the Governors refusal to listen to and act upon the evidence provided of election fraud!

State Legislatures can resume the power at any time.

Your State election was stolen, the State Legislatures may – and should – reassume your plenary power to select the Electors. America urges the State Legislators to be bold and do what is right.

Republicans must fight the fraud. Our Country is right now in the process of being overthrown and taken over by profoundly evil people. We better fight while we still can.

You need to stop hiding behind the Governors refusal.

You need to stop hiding behind your Governor's refusal. Call an Electoral Session, hear the evidence, and reclaim your electors before January 6th!! I Molly Costa am an American citizen. I urge you to Call an Electoral Session, hear the evidence, reclaim their electors before January 6th.

We the American people are calling upon you for action. As our legislators we request that you address the widespread election fraud we have seen on the November 3, 2020 Presidential Election. We understand that over half of the American voters believe that there has been election fraud in Arizona, Colorado, Florida, Georgia, Iowa, Maine, Michigan, North Carolina, Ohio, Pennsylvania, Texas, and Wisconsin. Many of our government leaders and the American people are being threatened if they go against the beliefs or goals of the group known as the dominant radical liberal Democratic Party. If we are indeed this traumatized by the dominant radical liberal Democratic Party there is something extremely wrong with our democracy here in the United States. It is time to stand up to the government leaders and to their foreign influencing leaders. Our mainstream media and social media platforms have played a huge part in election interference along with foreign influence from China. This is unacceptable to the American public. We are requesting that you hear the testimonies and read the swore statements from the individual citizens who have risked their life's to tell us about the election fraud. The recorded hearings and investigations are not televised on the mainstream media stations so that the American people can understand what it going on in our country. We are fighting for democracy, and voting and election integrity. We have never been a nation of mobsters or of the tyranny like we are seeing today with our government. This is our future. We need your help now.
Sincerely,
Molly Costa

The Left is in the process of undermining the U.S. Constitution and stealing the 2020 election. The evidence of election fraud in AZ is overwhelming. You swore an oath to defend and uphold the Constitution. I, and hundreds of thousands of Arizona voters, demand that Arizona's electors be reclaimed before January 6, 2020. Call an Electoral Session, hear the evidence, reclaim our electors before January 6th! The Founders of our nation predicted this possibility and accordingly expressly laid the procedure out in the U.S. Constitution to guard against such widespread fraud at the state level, as exists in AZ. Stop hiding behind Governor Ducey's refusals! Defend and uphold the U.S. Constitution! We U.S. citizens and legal voters in the November 2020 election deserve nothing less.

My name is Melanie Bacon, a citizen of the United States.

Our Nation is in crisis! There is overwhelming evidence of election fraud in several states, including the State of Arizona. The evidence does not cease to exist because it is ignored!

The American people demand fair and transparent elections and are taking a stand against fraud and corruption, as we fight to stop the theft of the 2020 election.

You took an oath to: ***"...support and defend the Constitution of the United States of America ..."***

As such, it is imperative that you take action in accordance with the Constitution's Elector's Clause - Article II, Section I, and proceed as follows:

Prior to January 6, 2021, you must call a special session and FORMALLY RECLAIM YOUR CONSTITUTIONAL AUTHORITY TO CHOOSE YOUR STATE ELECTORS. You cannot allow Arizona State officials to submit fraudulent election results and appoint fraudulent electors!

WE THE PEOPLE are fighting for justice. When you stand with us in the name of God, country and humanity, we can and will save our Republic. Communism is NOT an option.

Where do YOU stand and what do YOU intend to do?

To the one who serves and works for Americans,

I want my legal vote to count. I want the constitution to be upheld. I want you to do what is right. There is sufficient evidence of wide spread fraud that cancels out my vote. Election Laws were broken and your decision to certify was based on fraudulent votes.

I am asking you to decertify and allow the evidence to be seen heard and used in court.

Be courageous and stand for what is right. This election was stolen from Trump.

Dear Legislators,

As an American father, veteran, and concerned citizen I fear for our republic and the future of what we have inherited. The recent presidential election has major problems and I for one am having my faith in our institutions of government shaken to the core.

I urge you to Call an Electoral Session, hear the evidence, reclaim the electors in your state before January 6th. You hold the future of our children and grandchildren in your hands and history will judge your action.

Please do the right thing,

Subject:	2020 Election Integrity - Request for Remedy

Dear Arizona State Legislators:

I'm a longtime registered voter in Washington State. I am appalled the 2020 US election is riddled with fraud and illegal conduct in several states if not all. Elected officials have incorporated and purchased insecure and fraudulent election systems for which US citizens rely to vote. It is concerning to me we have a 3rd world system of voting in our great country. The voting machines (Dominion & others) are unreliable and not secure..they are easily manipulatws. YOU all have allowed this occur. This is WRONG! You are causing distrust and creating a method which endangers our country. Inaction is corrupt...ignoring evidence is negligent.....you are allowing illegal actions/fraud to prevail...tarnishing our country....causing citizens to distrust our elections. I am losing faith in our American politicians, judges, courts! If politicians and judges allow themselves to be intimidated, are fearful of investigating, hearing evidence, making tough decisions on behalf of American citizens....what hope do we have as a nation? It takes courage and integrity to be a strong leader. It's time for everyone to be brave.

The presidential election has been the subject of dozens of lawsuits alleging voter fraud, illegal voting, and election theft which, on January 6, 2021, may or will be the subject of extensive floor debate as Congress determines whether to accept or reject various states' electoral college vote submissions.To date, and as would be expected because federal elected office contest duties lie with Congress, federal courts and the Supreme Court have had no trials on, no substantive evidentiary hearings on, and declined to rule on the merits of numerous voter fraud, illegal voting and election theft allegations in dozens of lawsuits. America's republic is dependent on the actual and perceived honesty and accuracy of the elections which are the underpinning of all republic

Inasmuch as it is inevitable that Congress will face one or more election contests, likely to include that for President of the United States, the undersigned, request that your committees do their jobs on behalf of our country and immediately and without delay hold all evidentiary and other hearings necessary to fully investigate and probe the anomalies of the 2020 general election so that Congressmen and Senators will be fully informed as we face contests and questions about the legitimacy and validity of all federal elections held on November 3, 2020.

This request has particular urgency due to federal law mandating that all objections to the receipt of various state electoral college vote submissions be made on January 6, 2021.

Therefore, we ask that you immediately convene and hold hearings that:

AMERICAN OVERSIGHT

1. probe all allegations of illegal conduct concerning the November 3, 2020 elections.

2. investigate systemic problems affecting our elections.

3. hear from election experts to explore legislative solutions that lessen the impact of fraudulent and illegal votes and restores faith that America can hold a free and fair election.

4. I urge you Call an Electoral Session, hear the evidence, reclaim your electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Please stop hiding behind the Governors refusals.

We look forward to your prompt action on these matters that are critical to America's continued existence as a republic.

The provision to do this was put in the U.S. Constitution to guard against widespread fraud at the State level, which is exactly what seems to be happening–in Arizona and in some other states. We should not allow the Governor and appointed officials to disregard the strong evidence of fraud.

Subject: Arizona, Please Help Save Our Republic or "... we will inevitably end up with an oligarchy. a tyranny of the elite."

Please read below, call an Electoral Session, hear the evidence and help reclaim the electors (and our Republic) before January 6th. Thank you, Bill O'Quin

Thus, *democracy* itself is not a stable form of government but rather it is the gradual transition from limited government to the unlimited rule of an oligarchy. Understanding this progression, we as Americans are ultimately left with only two choices: we can keep our *republic,* or we will inevitably end up with an *oligarchy*... a tyranny of the elite.

We have sent this out as a ten-minute video before but far too many of you didn't view it. So, we have transcribed the entire The American Form of Government.

It appears below. PLEASE, PLEASE, PLEASE read this. It clearly explains what is happening today!

When Benjamin Franklin exited the Constitutional Convention, he was asked "Sir, what have you given us? His response was "A *republic*, if you can keep it."

Americans today have been persuaded that our nation's governmental system is a *democracy* and not a *republic.* The difference between these two is essential in understanding Americanism and the American system.

Before we discuss political systems, it's helpful to address the confusion that has been spread about the political spectrum. Many have been led to believe that the political spectrum places groups such as communists on the far left and fascists or dictators on the far right. A more accurate political spectrum will show government having zero power on the far right to having 100% power on the far left... at the extreme right there is no government and the extreme left is total government under such labels as communism, socialism, Nazism, fascism, dictators, kings or any form of total government. Those who claim that Nazis and fascists are right-wing never define their terms which results in spreading confusion.

Toward the middle of the political spectrum can be found the type of government limited to its proper role of protecting the rights of the people and that's where the constitution of the United States is positioned.

Let's now analyze the basic forms of government:

1. *Monarchy* or dictatorship rule by one,
2. *Oligarchy* ruled by a few,
3. *Democracy* ruled by a majority,
4. *Republic* rule by law and
5. *Anarchy* which is ruled by no one

In reviewing these five, we see that they can be narrowed down to even fewer.

First, *monarchy or dictatorship*, this form of government doesn't really exist in the practical sense. It's always a group that puts one of its members up front. A king has his nobles, and every dictator has his bureaucrats or commissars... the men behind the scenes. This isn't rule by one even though one person may be the visible leader; it's ruled by a group. We can eliminate *monarchy/dictatorship* because it never truly exists.

AMERICAN OVERSIGHT

Oligarchy which is ruled by a group is the most common form of government in all history and it is the most common form of government today. Most of the nations of the world are ruled by a powerful few and therefore *oligarchy* remains.

At the other end of the political spectrum, we find *anarchy* which means without government. Many of the worst crimes in history were committed by governments resulting in some people deciding that having no government might be a good idea. Unfortunately, without law there can be no freedom.

Our founding fathers agreed and held that some amount of government is a necessary force in any civilized orderly society. In a state of *anarchy*, everyone must guard life, liberty and property and the lives of family members. Everyone must be armed, and movement is severely restricted because citizens property has to be protected at all times. Civilized people have always hired someone to do the guarding... a sheriff, a police force or some branch of government. Once law enforcement was in place, the people were freer. They could leave their property, work in the fields, etc. So, the proper amount of government makes everyone freer.

There are some who advocate *anarchy* not because they want no government but because they don't like what they have and use *anarchy* as a tool for revolutionary change. These calculating anarchists work to break down the existing government with rioting, killing, looting and terrorism. Tragically the people living in such chaos often go to those best able to put an end to it and restore order. And who is best able to put an end to the chaos? The very people who started it... the anarchists who created the problem then create a government run by them in *oligarchy* where they have total power. This is exactly what happened in Russia and Germany. *Anarchy* is not a stable form of government... it's a quick transition to something desired by the power-hungry. Since it is a temporary condition, we can eliminate it as a form of government.

The word democracy comes from two Greek words "demos" meaning people and "kratien" meaning to rule. *Democracy* therefore means the rule of the people... the majority rule. This of sounds good but suppose the majority decides to take away one's home or business or children? Obviously there has to be a limit. The flaw in *democracy* is that the majority isn't restrained. If more than half the people can be persuaded to want something (no matter what that is) in a *democracy,* they rule.

Republic comes from the Latin words "res" meaning thing and "publica" meaning public. It means "the public thing" ... the law. A true *republic* is one where the government is limited by law leaving the people alone.

America's founders had a clean slate to write on and they could have set up an *oligarchy*. In fact there were some who wanted George Washington to be their king but the founding fathers knew history and they chose to give us the rule of law in a *republic* not the rule of a majority in a *democracy*.

Let's demonstrate the difference in the setting of the Old West. Consider a lynch mob in a democracy... thirty-five horseback riders chase one lone gunman. When they catch him, they vote thirty-five to one to hang him. *Democracy* has triumphed and there's one less gunman to contend with.

Now consider the same scenario in a *republic* the thirty-five horseback riders catch the gunman and vote thirty-five to one to hang him but the sheriff arrives and he says you can't kill him. He's got his right to a fair trial so they take the gunman back to town and jury of his peers is selected They hear the evidence and the defense and they decide if he shall hang or goes free. The rights of the government aren't subject
to the majority rule but to the law... this is the essence of a *republic.*

Many Americans would be surprised to learn that the word democracy does not appear in the Declaration of Independence or the US Constitution nor does it appear in any of the constitutions of the 50 states. The founders did everything they could to keep us from having a *democracy*. James Madison rightly known as the father of the Constitution, wrote in number 10 of the Federalist Papers: "Democracies have ever been spectacles of turbulence and contention have ever been found incompatible with personal security or the rights of property and have in general been in short in their lives as they have been violent in their deaths." Alexander Hamilton agreed when he stated, "We are a republican government. real liberty is never found in despotism or in the

AMERICAN OVERSIGHT

extremes of democracy." Samuel Adams stated, "Democracy never lasts long. It soon wastes, exhausts and murders itself."

The founders had good reason to look upon *democracy* with contempt because they knew that the democracies in the early Greek city-states produced some of the wildest excesses of government imaginable. In every case they ended up with mob rule then *anarchy* and finally tyranny under
an *oligarchy*.

During that period in Greece there was a man named Solon who urged creation of a fixed body of law not subject to majority whims but where the Greeks never adopted Solon's wise counsel. However, the Romans did. Based on what they knew of Solon's laws they created the Twelve Tables of the Roman law and in effect built a republic that limited government power and left the people alone. Because, government was limited, the people were free to produce with the understanding that they could keep the fruits of their labor. In time Rome became wealthy and the envy of the world.

In the midst of plenty, however, the Roman people forgot what freedom entailed; they forgot that the essence of freedom is the proper limitation of government. When government power grows, people's freedom recedes as happened once the Romans dropped their guard. Power seeking politicians began to exceed the powers granted them in the Roman Constitution and some learned that they could elect politicians who would use government power to take property from some and give it to others. Agriculture subsidies were introduced, followed by housing and welfare programs.

Inevitably, taxes rose and controls over the private sector were imposed. Soon a number of Rome's producers could no longer make ends meet and they went on the dole. Productivity declined, shortages developed and mobs began roaming the streets demanding bread and circuses from the government.
Many were induced to trade freedom for security.

Eventually, the whole system came crashing down. Rome went from a *republic* to a *democracy* and ended up with
an *oligarchy* under a progression of the Caesars.

Thus, *democracy* itself is not a stable form of government but rather it is the gradual transition from limited government to the unlimited rule of an oligarchy. Understanding this progression, we as Americans are ultimately left with only two choices: we can keep our *republic,* or we will inevitably end up with an *oligarchy*... a tyranny of the elite.

Subject: Arizona was not a Free and Fair Election, Arizona is FULL OF FRAUD

23 Dec 2020

Letter to Arizona Representatives, Senators, Government Officials:

I ask you to NOT ACCEPT THE ELECTORAL COLLEGE VOTE that occurred on December 14, 2020. I ask you to STAND and OBJECT to the fraudulent electoral college results on January 6, 2121. Our Republic depends upon you to do what is necessary to save our great country. We must stop this fraudulent, illegal, and unconstitutional coup attempt TODAY, not "next election." There will be no next "election." POrove to me that this election was free and fair. Prove that to me. Prove to me there was no fraud, no corruption, nothing illegal or unconstitutional. Prove it. Or the fraud will continue, as it has in many socialist, facist and communist states—Venezuela, Cuba, China, Russia, and more. I have 1000 times more proof of fraud than you do of a free and fair election. I TRUST NEITHER THE GOVERNMENT NOR ANY MEDIA—that includes Congress, the FBI (all of it, down to the lowest level), any intelligence entity, many state governments, any news media, TV, cable or internet, any social media, including facebook, youtube, google, and more. Tell me who has been held accountable in our government for illegal acts, such as targeting Tea Party groups, Fast and Furious, selling our nuclear material to Russia, and much more, including spying on Trump?

President Trump's victory was STOLEN THROUGH FRAUD AND CORRUPTION. The evidence is remarkable and shows systemic and organized behavior. The state legislature laws were ignored and "changed" through judges and government employees. My belief lies in the thousands of credible and factual reports of fraud, corruption and unconstitutional acts and actions with our vote on November 3, 2020. I will list some of these at the end of my letter.

Since I am not given power by any institution to make discovery, I rely on what I read and investigate despite a massive attempt to deny me the truth by virtually all large media and governmental agencies. If you were to listen to the media propagandists, you would think that there was absolutely no fraud, corruption, illegal or unconstitutional acts. In fact, there are thousands and thousands of demonstrated facts of these acts. If Biden is sworn in, he will NOT BE MY PRESIDENT. I will not stand and see my great country treated like it is being treated now.

Subject: Decertification

Dear Representative,

I am requesting you to exercise your Constitutional and statutory authority to object to the certification of electors from your state in the November 3rd Presidential Election. As republicans you must convene as a legislature this week in order to do this. *This is extremely important to every single citizen of the United States that your state, as well as AZ, MI,* GA,NM, NV, and PA do this. Otherwise our union will no longer be a union. The evidence is absolutely overwhelming and needs to be presented. We, the taxpayers, are funding and supporting all of you politicians and you owe us this responsibility. Please decertify the electoral votes for the integrity of the vote.

Once that is done you need to demand a meaningful audit of the election which must include: 1) a re-canvass of the vote that authorizes independent confirmation of a signature match using the same standards the same election officials use for nomination petitions, recall petitions, and initiative petitions; 2) publishing of the ballots for the world to review and observe, as states promised when they wrote large taxpayer checks to election machine companies like Dominion and others; and 3) audited review of the voter rolls to insure on qualified voters cast ballots for electors to the Presidency.

Time is of the essence in this case. This must be done before January 6th. Please do not let others intimidate you. We are 80 million strong and will never accept an illegal President in this White House or forget those Republicans who did *not support us during this time.*

Sincerely,

Kristi McNeal

Dear Arizona State legislator,

I, as an American Citizen, am urging you to call an Electors Session prior to January 6th, 2021 to hear the evidence of fraud that has occurred in your state.

The Founders laid this out in the US Constitution to guard against widespread fraud at the state level.

If you fail, you will undermine the faith of the electoral system in the United States which will have long term negative ramifications for the US.

Subject: OUR ELECTION

Isn't it time to call an Electoral Session, hear the evidence, reclaim electors before January 6th. It is a travesty that our courts will not look at evidence of voter fraud. Why isn't anyone out to prove that the election was a valid one?????? Since no one will even listen to the American people, we have lost all faith in our elected officials. This is a crime against the people of the United States of America that we cannot even be heard. How in the world can you justify your actions? This is a sad time for America. I never thought I would lose faith in my Country that I have loved for 77 years. This is the end of democracy. This is not a government Of the people, By the people, and For the people. We have lost our way. Such a sad time for America.

Dear elected representative:

When did Americans become such cowards as to kneel down to the evil and perverse people who seek by any means to steal, kill, and destroy our country from within? When did we refuse to stand for what the evidence declares to be true because we are afraid for our jobs, maybe our careers?
I refer of course to the current situation with voter abuse and election fraud.
Millions of Americans watched in fascination the proceedings and testimonies of many witnesses to this fraud.
Proceedings in front of A committee approved by our representatives. I am positive you have heard of these same testimonies even if you were not part of that committee.

There is no doubt in millions of minds and hearts that this election was in fact rigged, that our votes were stolen, yet many of our legislators will do nothing about it.

There is no doubt in millions of hearts and minds that this election was in fact stolen, yet career politicians do nothing to stand for truth. In fact they, you, will not even view the evidence and make the hard but correct decision to call an Election Session, hear the evidence for yourself, and reclaim your electors before January 6th.
It is your job to represent the people, not to do what YOU want to do. When you were running for office, you were in fact promising to keep your finger on the pulse of your constituents, and even America itself, and to vote accordingly.
If the job is too difficult, or if you are fearful to investigate, to look hard at the allegations of fraud and abuse, then maybe you should not be representing the people any longer. Maybe you should let somebody else in the assembly of legislators who are not afraid to stand for truth, justice, and the American way. Maybe we the people will see your action, or inaction as the case may be, and vote accordingly next voting term.
We the people are watching to see if you are REPRESENTING us. We are watching to see if you are being A good steward of the charge given you to vote the wishes of your constituents.
The fraud in this election CAN NOT be allowed to stand, to shame America before friends and foes alike all over the world!
It is not just the citizens of the U.S. who are watching. The eyes of the world are to watching to see if you will stand for what is right, or kneel before what is wrong.
Many in the Political realm and in the media have claimed there is no proof even as they are stepping all around it. Many will do no investigating to reveal the truth for themselves, and in fact will not even lift an eyelid to see the proof right before them.
The proof has been shown; and we the people have watched the proof being shown on national TV.
How many generations of our Children will the consequences of this fraud will affect?
Will YOU be one of the faithful servants and stand for what is right? Will you call for an Election Session? Will you hear and see the evidence for yourself, or be led like A sheep off the cliff of no return that we are ALL standing on?
We the people are not only watching, but also praying hard for You and your peers to do the right thing.
Please call an Election Session, hear the evidence, and recall your electors before January 6th.

Ladies and Gentlemen,

I have been raised to believe that everyone in this great country has a chance based on what our Founding Fathers sacrificed for us. The Constitution gives you a way to guard against widespread election fraud at the State level.

Even if your Governor will not do this you can call an Electoral Session, hear all the new evidence and reclaim your electors before January 6.

If this fraud is allowed to continue, we are no better than a "third world country" where elections are thrown every time. Too many Americans have given their lives since 1775 to keep this great Country FREE. Please do the right thing.

Subject: DEMAND FOR EMERGENCY HEARING ON CHINA's $400 MILLION PURCHASE OF DOMINION ELECTION SOFTWARE ON OCT 8, 2020
Attachments: SCOTT BENNETT.jpg

CHINA'S $400 MILLION PURCHASE OF DOMINION ON OCTOBER 8, 2020 & CYBER CONTROL OF ELECTION SOFTWARE ON NOVEMBER 3

We hereby demand an EMERGENCY HEARING regarding the Dominion Server seized by DOD military personnel in Frankfurt, Germany. Americans have a right to know. **China's interference with voting machines on election night justifies STRIKING brazenly ILLEGAL ballots and recertifying election results in Georgia, Pennsylvania, Wisconsin, Michigan, Nevada and Arizona.**

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server for two weeks in Washington DC. Scott is ready to bring multiple witnesses to testify TODAY before the U.S. Senate about China's interference in the 2020 elections.

Most of Scott's team are local in the Washington DC area, and can assemble rapidly. **Scott's phone # is in California. Arizona Rep. Gosar's staff interviewed Scott, and strongly support our demand for a Senate hearing.**

Scott Bennett's disclosures are devastating --- **China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.**

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin and New Mexico--whose legislatures are obligated to recertify election results, and guarantee ALTERNATE ELECTORS are certified by Vice President Pence on January 6.

Expert testimony proves foreign interference and vote manipulation by China on election night beyond any shadow of doubt. Consider China's interference in light of Michigan's audit report that Dominion machines carried a 68 PERCENT error rate: The ramifications for national security are staggering and changes the entire dynamic of audits in Arizona and Michigan of Dominion machines.

Only crooked politicians defend crooked elections. When the US economy inevitably crashes under Biden-- a Dark Winter, indeed--voters will punish politicians who endorsed election fraud to take out President Trump, our nation's best protection against destructive Globalist ambitions to raise China First and pull down the United States--especially as they learn more about China's interference in our elections.

There will be no place to hide.

There is an enormous amount of election fraud evidence throughout your state as well as others.

Our votes need to be worth something or our democracy is dead.

Do what is right as the people's representatives of Arizona.

Dear Sir or Madam,

I am a citizen of this great nation and I do not accept the results of the November 3, 2020 Presidential election. I am 61 years old and watched the election results unfold all through the day, night and the weeks proceeding the election. In all my 61 years, I have never seen anything remotely close to the amount of fraud that I believe was committed and what I also believe to be a stolen Presidential election, it was obvious!

If you allow the "certified" votes to move forward and Joe Biden becomes President, this nation will be on an unstoppable, corrupt path to Communism!

Please do the job you were sworn into doing, PROTECT THE CONSTITUTION from enemies foreign and domestic!
It is imperative that you Call an Electoral Session, hear the evidence, reclaim the electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Stop hiding behind the Governors refusal!

I believe President Donald Trump won this election in a landslide! Please save America, for all of us freedom loving American citizens and for all those that protect her freedom and last but not least, for all those that have paid the ultimate price with their lives!

Thank you!

Sincerely,
George Gardner

Subject: the election, the fraud, and doing the right thing

State Legislatures:

This election has been the biggest mess in this country in my lifetime. It has been full of fraud, corruption, and impotence. Impotence you ask.....yes because nobody has had the spine, the balls, the courage, the guts, or whatever you want to call it....to do the right thing! The media, which is worthless, has not (what happen to the Watergate media), the national politicians (and even state ones like Gov. and SoS), the courts and judges, the Injustice Department (DOJ), etc. all have not. "We the People" have not been heard, the whistleblowers have not been heard, the evidence not examined, the videos not examined, the statisticians and anomalies not examined, etc.....that is a crime and a dereliction of duty. If we can't have fair elections in this country where everybody has confidence that it was fair and void of corruption both foreign and domestic.....then we are no better than a third world country.....or even a communist one. What makes us different is our God inspired CONSTITUTION!!!!!

That is where you come in. I urge you to Call an Electoral Session, hear the evidence, reclaim your state electors before January 6th. The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level. Do the right thing...be bold, be courageous, and fear the God that you will stand before one day giving account of your actions to like Joshua, Caleb, Moses, David, etc. did in the Bible. They did the right thing no matter if it was popular, or easy. This is similar to those patriots of old that signed their name to D of I, etc. It is scary, risky, and not easy but I am praying for you to do the right courageous thing!!!!!!! And "we the people" plus God are watching!!!!!

Sincerely,

Paige Moortgat (who wished I had a chance to stand up now and do the right thing politically)

Subject: Stand up to fraud—Recall your Electors!

Hello,

I'm writing to urge you to call an Electoral Session, hear the evidence, and reclaim your state's electors before January 6th.

The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level.

The American people deserve to have confidence in their elections. Any allegations of fraud need to be investigated and righted. If our elections are able to be stolen then so are our voices. Stand up for the American people and fight for us!

You need to have courage and stop hiding behind the Governor's refusal.

Be Strong. The American people have your backs!

Subject: The election, the fraud and corruption, and doing the right thing

State Legislatures:

This election has been the biggest mess this country has seen in a long while. As technology gets more sophisticated....it can be used for good and it can be used for evil. Anybody that has even one brain cell knows that this election was stolen (with technology and other fraud).....the anomalies were too coincidental, plus the many whistleblowers, the videos , the mounds of evidence and just common sense (that's where the one brain cell comes into play) lead you to that conclusion.. Whether you like Trump or not "we the people" did and his rallies with hundreds of thousands are evident. You can't tell me that a 78 year old man with dementia, who has been in the DC SWAMP for 50 years (and done nothing by the way except enrich himself like all others in the swamp on both sides), who is now the lapdog of China through his loser son and getting paid as "the big guy", who spent the last 9 months in his basement, and who couldn't get more than a dozen to his press conferences or his "rallies" won fair and square. The mounds of whistleblowers and evidence was never even looked at or examined by courts, by the fake mainstream media (who are useless), the (DOJ)Injustice department, and many other entities (like SCOTUS). That is just plain wrong in all ways.....and the biggest way is that if foreign or domestic interference in elections where the election is stolen or rigged like in China, Venezuela, etc.....then WE ARE DONE AS A COUNTRY.

This great country 's founded by GOD has something unique compared to every other country and that is called the CONSTITUTION. I have it hanging on my wall!!! That is where you come in. Since nobody else has the spine and are impotent for standing up and doing the right thing..... I urge all of you to do the right thing and call an Electoral Session, hear the evidence (since nobody else did), reclaim your electors before January 6th. That means for all who know their Bible.....having courage, boldness, and conviction, plus a healthy fear of God to do the right thing like Joshua, Caleb, David, Moses, etc. in the Bible. That again means doing the right thing.....not the popular thing or the easy thing.

The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State level.

I am a resident of the state of Illinois. I believe your state has demonstrated that there were significant voter abuses in your state that have compromised the integrity of the presidential election voter system. Your state's Supreme Court judges as well as the US Supreme Court judges negated their constitutional duty to hear your states cases. Your actions taken or not will set the course of our country for generations to come. Therefore, I urge you to call an Electoral Session, hear the evidence, reclaim your electors before January 6 th.

The election results from November 3rd are completely and totally unreliable, based on affidavits filed by countless witnesses of fraud. The evidence of fraud is overwhelming.

Therefore, I ask you to
1) de-certify your state's election results for all candidates
2) contest election results for MI, AZ, WI, PA, GA, NV on January 6th. Even more appropriate would be to meet before January 6th and put forth the electors for Donald Trump.

Subject: Please convene a special session

Importance: High

Please convene a joint session of the legislature before January 6 and give legal force to the slate of alternate electors selected on December 14.

News reports of a forensic audit of Dominion voting machines in Antrim County MI reveal a 68% error rate. The reluctance of the Maricopa County Board of Supervisors to comply with the demands of the Legislature to have a similar forensic audit conducted leads me to believe there is something nefarious to hide there. I have lost all faith in the vote count in the presidential election.

While neither side can claim victory with any certainty, I am now convinced that President Trump most likely was the legitimate winner here in Arizona. I am even more certain that he won in Georgia and Michigan and probably in Pennsylvania, Wisconsin, and Nevada as well.

It would be a travesty of epic proportion to see a verifiably illegitimate president take office in the United States. I believe strongly that the evidence will eventually prove that this election is being stollen through deliberate fraud, but what recourse will we have after January 20th?

It must be prevented, and the state legislatures are the only places left where it can be stopped. The opportunity to save our Republic is literally in your hands. This isn't just politics; it is world changing history. Election integrity is not partisan.

Few people have ever had as great a burden as the one you have facing you in the next two weeks. The odds are great, and the stakes couldn't be higher. Fate has put the future of America in your hands.

I don't suppose he knew it, but when Franklin said we have a Republic if we can keep it, he was talking to you. Only you can save our Republic now.

Sincerely,

Those of you that are hiding right now should be ashamed of yourselves and do not belong in your position of power. I'm sure you all have kids and grandkids, are they not worth fighting for?!?! Do you want all their rights stripped away and made to live under communism? If you clowns think this "Great Reset" is a joke, it's not!
It just amazes me how many of you are willing to just sit this fight out! You are all a disgrace and do not belong calling yourselves an American! This is no longer about how much money you can make, or how many crooked deals your position can make for you! Subject: FIXED ELECTION

Dear Fellow Republican,

Recently I witnessed electors from the GOP in the states of GA, WI, MI, NM, PA, NV and AZ stand up for the constitution and cast votes in defiance of Joe Biden and the stolen election. These brave patriots understand what many of us understand, our nation is Republic and is worth saving. Because of their bravery, it appears that our nation is now headed towards a contested election.

What does that mean? It means that the fight is not over yet. Not by a long shot. So now I am writing this letter to you to implore you to do the right thing and support President Trump on January 6th at the joint session of Congress. How can you do this?

First, when the challenge comes in the joint session of Congress on January 6th, I am asking you to stand with the President. Challenge each vote for Joe Biden. Work with your fellow Republicans to stop the blatant theft of this election. We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, and we got the exact opposite.

It is up to you, in this moment, to do your constitutional duty. You cannot certify a fraudulent election. It goes against everything we stand for as a nation. How can we expect to lead the free world, when we can't even preform the most basic task of our government? It is your duty to protect our election.

As a Republic, we have remedies to this fraud. If and when this farce becomes a contested election, it will be incumbent upon you to support the President. He MUST win.

I want to be as clear as I possibly can be. If you do not support President Trump in his fight to stop this blatant fraud, I pledge to do the following.

I will actively campaign against you in your upcoming primary.

I will donate to your opponent.

I will cease all further donations to the GOP as a whole.

Please understand that my loyalty is to the country. If your position is to cling to power, and abandon our President, consider this your last term in the Congress. Our President is fighting for the soul of this country. A Biden administration will pack the courts, add states to the union, and steal the senate. They will push anti-gun legislation, effectively stripping of us of our 2nd amendment rights. They will open the borders and give amnesty to millions of illegal immigrants. Any hope of a GOP majority in the Congress will disappear, and you will have done nothing to prevent it.

AMERICAN OVERSIGHT

Now is the time to fight. Either step up and do the right thing, or kiss your career goodbye.

The choice is yours.

Respectfully,

R. SHUTTER-REPUBLICAN CONTRIBUTIONS

Saturday, December 26, 2020

Sir
I am a United State Veteran. My purpose for contacting you is regarding several issues regarding the November 3 election held this year. As things unfold in the coming days with a couple dates being key, specifically January 6,2022 and January 20,2021, I insist you take into consideration multiple, provable issues that call the Biden Electors into question. *It is my belief that you swore an oath to defend the Constitution and the Country from enemies both Foreign and Domestic and it is required that you do so unequivocally without fear or fervor.*
These facts you must consider are:

1. Fraud occurred on many levels in many states
2. A conspiracy exists because many of the frauds occurring in the swing states and have similar exacting methods
3. Many levels of state government officials committed treason to their sworn oath of allegiance to their office and state and federal constitution
4. Thousand of sign affidavits exist from patriotic citizens that attest to fraud or violation of state and federal laws.

I believe you will be in violation of the United States Constitution which you took an oath to uphold, by validating a fraudulent election result.
I urge you to view these points made by the President and well informed News Sources:

I believe you will make the right decision when the crucial time to do so comes, but reserve my right to do what you fail to do which is uphold the Constitution Of The United States.

Subject: Jan 6 Electoral Objection

Dear Arizona Representatives,

I am writing as a registered independent voter who is deeply concerned with the apparent widespread fraud in our national election. I am also deeply concerned with the reports of state governors and judges not feeling compelled to view the evidence presented to them regarding the fraud and international tampering with the election. It is appalling that elected officials have chosen to ignore the massive and coordinated fraud that dismantled the integrity of elections in our country. You have an obligation to the People to demand that legal votes only count.
The upcoming Congressional meeting on January 6 is one of our last chances to stand up for our country that we all love. That is why I am calling on you to do what you swore to do when you took the oath of office, and that is to preserve the integrity of our Constitution and serve your constituents. If you do not have the power in your position to do so, please urge those who do to support our President.
We the People do not want to live under Communist rule.
Please stand with us and do what is right for our beautiful country. Do what is right for your children and grandchildren. United we stand and divided we fall. Do you truly want to see our country destroyed?
Respectfully,

Article II, Section 1, Clause 3 of the U.S. Constitution gives you the *explicit and plenary power* (not the Governor or any other government entity) *to control their Electors* – at least until January 6, 2021 and, perhaps, up to and including inauguration day.

The benefit of any credible doubt about the integrity of the election in your state should dictate that you decertify your electors and put the election into the hands of an Article XII slate of Electors chosen by each of the 50 states.

The people are relying on you to protect the electoral process. We are watching and won't forget. Don't fail us.

Dear Legislators,
As a concerned citizen and registered voter in (Minnesota), I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting to decertify the current Biden electoral slate and certify the Trump electors prior to January 6, 2021. The fate of our country hangs in the balance.

Subject: Election

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this

AMERICAN OVERSIGHT

isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens. I will continue to email you on this issue and get others to do so as well until you are out of office or till the elections are not corrupt.

Regards,
Roberson

P.S. Stop this covid nonsense, stop the mask mandates (no mask Ducey) and we will not comply with mandated vaccines. So don't even try it.

Subject: Please fight for fair and free elections on January 6th!

Dear Honorable Representative,

My name is Shelah Maul. I'm not somebody big and powerful, just a speech pathologist working with elementary students in the public schools the past 18 years. Just an everyday citizen who loves this country and is terrified of the implications if this fraudulent election result stands.

If I could believe the election was fair and free, I would graciously move on and wait for the next election cycle. However, I'm deeply troubled by all the massive evidence of election fraud. Thousands of sworn affidavits, corrupted voting machines, video evidence, forensic analysis, data experts, it goes on and on. As I've watched all the legislature and senate hearings, I've been sickened by all the corruption. From the election officials to the highest courts and everywhere in between. I know that if we look the other way now, at this crossroads, we will never have another free election in this country again.

You are our country's last hope!! If you do not act to uphold our constitution, our fate will be sealed as a country under tyranny--which will only increase as those who seek to exploit *We the People* are becoming increasingly emboldened as their lawless rule goes unopposed.

I know the pressures must be great. I know to some the current result seems preferable with Joe Biden in office. Some reason that if we just let the result stand we can avoid immediate riots and unrest in our country by CCP paid militia posing as every day citizens. Some believe Joe Biden is the more peaceful option. Even so, I'm pleading with you to consider the long-term implications for our country. Our country is at war. The fight between democrats and republicans is our enemy's strategy. Divide and Conquer. What great country has ever turned over its keys to communist rule in the name of peace or the path of least resistance?

If you can't act on behalf of higher ideals of freedom, justice, truth and a love of the law, please consider your own personal interests. To every single citizen in this country, yourself included, our very freedom is at stake. Once the CCP conquers America, nobody will be safe. Dragons don't make for good pets. Nobody escapes communism unscathed. History tells that story repeatedly.

Please act courageously! Please uphold our constitution! Please save America!!

Sincerely,
Shelah L. Maul

Subject: Challenge the Electoral College Vote Submissions on Jan 6th

To the Arizona House members,
August 28th, 2020 was the day I registered to vote, and this year was the first time I've ever voted in a long time. I decided to in all this time because this truly seemed like the most important election in our history, and I felt proud to do my part for the first time in a long time.

However, the 2020 election is now mired in controversy, doubt and confusion, allegations of fraud, impropriety, threats to election officials and poll challengers plagues this entire election process, and the certification of unsure and possibly fraudulent results on December 14th, has done nothing to ease those worries.

I, like many other fellow Americans, are scared for the future of our elections and what it may mean if we let all of this pass without addressing the clear issues that riddle this election process.

That is why I ask that you **object to the electoral college votes that will be presented on January 6th, 2021.** For the sake of future elections and making sure that votes like mine and many other Americans matter, we cannot let these controversial electoral votes be counted, unchallenged. If you do not, the faith of millions of Americans in the system will be shake, and in an already divided country will be devastating to all of us.

Thank you for reading, and I hope you all do what's right

Though not all state elections are in question, the swing states where fraud was perpetrated cannot be allowed to stand. Subject: STAND UP AGAINST THIS FRAUDULENT ELECTION—January 6th

I am angered beyond words by the widespread fraud committed during the 2020 presidential election. My family has fought and died for the right to a free and fair election of our government. We CONSENT to be governed—not the other way around. I implore you to contest the democratic slate of electors sent from AZ, NV, MI, WI, GA and PA. This CANNOT stand.

If you're concerned with protests from the mob should Trump stay in office, you are being short-sighted. The silent majority is alive and well and can become quite vocal, if need be. Good, honest, hard-working Americans are watching and thoroughly engaged. Please, do the right thing. This isn't about Trump—it's about saving our republic and the American way of life.

Dear Congressperson,
Please Use your constitutional authority to call your fellow legislators to decertify the election results.
There is overwhelming evidence of fraud, if you take the time to look:
https://hereistheevidence.com/

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.-- That to secure these rights, Governments are instituted among Men, ***deriving their just powers from the consent of the governed****"*
- Declaration of Independence, July 4th, 1776.

Our Founders believed that Tyranny is when the government exercises power without the consent of the governed.

You do not have my consent to certify a fraudulent election.
And without an audit, you don't know whose consent you have

In light of this, I ask that you please,
- Vote to decertify electors based on a fraudulent election
- Vote to start a forensic audit
- Pass a resolution to demand your federal representative object on January 6th
- Make the Audit findings public
- Take the necessary actions to ensure that fraud can never happen againThank you for your efforts if fulfilling your duty, and thank you for your time in considering this message.
Sincerly, Rose Smit

Subject: January 6th/fair elections

Hello from a concerned citizen of the United States of American,

Merry Christmas and Happy New Year! What a year it has been!

I am contacting you regarding my vote and election integrity. Allowing some states to disregard the US Constitution *and/or their state constitution concerning elections, results in* ALL voters being cheated! I believe enough evidence has been presented for all honest, law abiding citizens to question the outcome in every state election, especially the states listed below. This is not about the candidates/issues of my choice, and it shouldn't be about yours either. If you are truly American and for America, then you, the elected, will do whatever it takes to show us, the American people, that you are for fair elections. The way to demonstrate your true belief is by challenging and rejecting the electoral votes from AZ, MI, NM, PA, GA, and WI.

We want the truth! Understand that the majority believes this election was compromised. The only way to move forward in any form of unity is to prove it was or it wasn't. This means that the courts and the politicians need to get busy figuring this out. Quit with all of the games. We, the People, are not that stupid! This should not be left to some citizens, a party, or a candidate. *All of you are responsible to the American people to create and execute fair* elections. It is your RESPONSIBILITY!!!!

Recounting votes that have not been validated as legal seems incredibly useless. It does not take a genius to understand how flawed this approach is. What are you going to do to make this right? You have been elected and paid to be our watch keepers for our entire country. Where are you? Now is your time to do your job of representing the people of this great country. Go down in history as being someone that stood up for honesty and transparency! We, the People, are watching and depending on you! Will you be that upright person or someone that goes along with possible fraud? Who are you? I would love a response!

Watching,

Nancy K Allen

To Whom It May Concern:

In the past few days, I have witnessed electors from the GOP in the states of GA, WI, MI, NM, PA, NV and AZ stand up for the constitution and cast votes in defiance of Joe Biden because they know, like us, that the election has been stolen. There is so much evidence of fraud. And there is Joe Biden, himself, stating "We have put together I think the most extensive and inclusive voter fraud organization in the history of American politics."

These brave patriots understand what many of us understand, our nation is worth saving. Because of their bravery, it appears that our nation is now headed towards a contested election. The fraud is so great, that the Governor of Michigan tried to stop these brave representatives from casting their dueling votes.

For me and for the millions of Americans who voted for Trump legally, the fight is not over yet. Not by a long shot. Our vote deserves to be counted. Our voice needs to be heard. We will not go silently.

I am writing this letter to you to beseech you to do the right thing and support President Trump and a legal election on January 6th at the joint session of Congress. I want my vote to count. I do not want my vote to be disenfranchised. YOU CAN DO THIS.

First, when the challenge comes in the joint session of Congress on January 6th, stand with the President and stand with us. Challenge each vote for Joe Biden. Work with your fellow Republicans to stop the blatant theft of this election. We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, but we got the exact opposite. Our votes matter.

It is up to you, in this moment, to do your constitutional duty. You cannot certify a fraudulent election. It goes against everything we stand for as a nation. How can we expect to lead the free world, when we cannot even perform the most basic task of our government? It is your duty to protect our election.

As a Republic, we have remedies to this fraud. We cannot wait until 2024 because if we do not do somehting now, we will lose our nation. If and when this farce becomes a contested election, it will be incumbent upon you to support the President. He MUST

Let me make this clear. If you do not support President Trump and me in his fight to stop this blatant fraud, I pledge to fight for and donate to candidates that will. Conversely, I will not continue to donate and support you because you do not.

Subject: De-certify Joe Biden's electors

Dear Congressman or Congresswoman,

Our constitutional republic is in a battle for its existence and you must choose which side of the political divide you will stand on. On one side, are the institutions controlled by our nation's enemies. On the other side, are the people of this great nation and the values of liberty and personal responsibility that we have held dear for 244 years. Evidence of voter fraud and election manipulation could not be made any clearer. People who continue to play the "idiot card" after being shown a preponderance of evidence have sided with our country's immoral opponents.

I'm asking you to stand on the side of the people of this great country who just elected President Trump for another four years but are watching enemy operatives steal the outcome right in front of us. You have the power to correct their wrong-doing now.

Vote YES to de-certify Joe Biden's fraudulently acquired electors before January 6th. Vote YES in support of Donald J. Trump's electors being put forth by your state for the official electoral college count on January 6th at the joint meeting of the House and Senate. This will get the clean-up ball rolling!

We have a long way to go in order to pry our nation's valuable institutions back out of the hands of our adversaries. You can be a part of a new awakening to expose corruption by supporting Donald J. Trump's lawful and rightful win of the 2020 election. America watched him win on November 3rd. It's time to stop the steal and take our country back!

Sincerely yours,

Please understand that allowing a fraudulent set of electors to be counted on January 6th from your state would make you complicit in the fraud. This is a form of perjury which is a federal felony. There is overwhelming evidence that fraud occurred in your state. It is the State Legislatures responsibility to make sure the electors sent represent the honest and fair vote of the citizens. President Trump stated that legislatures that certify fraudulent electors could be committing a serious punishable crime. Sidney Powell said she "might lead a class action lawsuit against the State Legislatures [if they participate in sending fraudulent electors.]" I would take Sidney at her word.

YOU MUST CONVENE THE LEGISLTURES AND VOTE TO CERTIFY THE ELECTORS THAT REPRESENT THE HONEST AND FAIR VOTES OF YOUR STATE WHICH ARE ELECTORS FOR DONALD TRUMP. OR, VOTE FOR THE CURRENT CERTIFIED ELECTORS TO NOT BE COUNTED ON JAN 6TH.

God is with you always and will be your source of strength, courage and wisdom. Please do not knowingly participate in lying, cheating and stealing. We all have to face God on Judgement day. We hereby demand an EMERGENCY HEARING in the U.S. Senate regarding the Dominion Server seized by DOD military personnel in Frankfurt, Germany. We are giving Congress advance notice before making this declaration public on the blogs because American voters have an urgent RIGHT TO KNOW.
The Senate must do its job. China's interference with voting machines on election night requires Senate hearings before January 6, and justifies STRIKING brazenly ILLEGAL ballots exposed in Georgia, Pennsylvania, Wisconsin, Michigan, Nevada and Arizona.
Only crooked politicians defend crooked elections.

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server for two weeks in Washington DC. Scott is ready to bring multiple witnesses to testify TODAY before the U.S. Senate about China's interference in the 2020 elections.

Scott Bennett's disclosures are devastating --- China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin and New Mexico--whose voters are

The ramifications for national security are staggering and changes the entire dynamic of audits in Arizona and Michigan of Dominion machines.

I ask that you remember the oath you took when entering your office.

Oath of Office

I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter: So help me God.

I demand on behalf of the 80 + Million "Deplorables" who voted for President Trump to Stand with President Trump on January 6.

This election was stolen. A blind man can see that!! How can you turn your back on your country and live with yourself???

The swing states were full of fraud and illegalities as confirmed by the 1000 affidavits and videos gathered by the Guiliani team.

There is no way a man who did not even campaign could garner that many votes. Who only won 450 + counties in the entire United States.

AMERICAN OVERSIGHT

It must be assumed that you are complaisant, cowardly or a traitor to the nation by your failure to act.

Millions of men and woman have fought and died in wars fighting against the very thing you are embracing. Freeing the European continent from Hitlers Fascism and the Imperialist regime of Japan (*including saving China from them*).

Do not betray the 80 + Million people who voted for him and continue to support him 100%.

We will remember those who supported him/us on January 6 and those who did not.

Those Senators who think McConnell can protect them in a re-election are making a grave miscalculation. *McConnell has sold himself to the CCP with his shipping company he and his* wife own. Using CCP loans to build the ships and Chinese crews to man them.

Trump is far more popular than any senator in his/her home state.

Exhibit 1 is John Thune. Thune's career is over now that Trump has called for him to be primaried because of his betrayal of the 80 + Million Trump voters.

I and millions of citizens DO NOT WANT to live in a Socialist\Communist country. It has failed in every country that has ever tried it.

Decertify the fraudulent Electoral Votes for Joe Biden and send the actual winners vote on January 6th. AOC may be making her list but so are all the Patriots in this country. You work for US we don't work for you!!!

Keep that in mind!!!

Thank you.

Dear Senator,

I am asking that you look at the included information pointing to voter fraud in order to stand with the American people and not disenfranchise them on January 6th. Here is just a small sampling of the overwhelming evidence:

As an American citizen and voter, I am asking you to stand up to those who want to disenfranchise millions of American voters by legitimizing this election fraud and this stolen election. There is massive, overwhelming evidence of election fraud (videos, affidavits, eyewitness testimony, mathematical and statistical analysis, and forensic audits of Dominion voting machines). More is coming out every day. The Democrats want us to roll over and accept this criminality and pretend it didn't happen. We cannot do that. Election fraud is not a victimless crime. Millions of Americans were disenfranchised in this election, and our Constitution was delegitimized. If we don't have free and fair elections, we no longer have a republic. I am asking you and your colleagues to stand for free and fair elections, for holding those who stole this election accountable, and for insisting that the rightful winner of this election is installed into office on January 20th. On January 6th, reject the fraudulent and illegal votes from the swing states and install the actual people's choice in this election, President Donald J. Trump.

Thank you,

Subject: Decertify Fraudulent Election Results

Dear Arizona Congressperson,

I compel you to use your constitutional authority to decertify the election results. There is overwhelming evidence of fraud, if you take the time to look:
https://hereistheevidence.com/
Navarro Report

With this much evidence of fraud, you cannot certify without a FULL forensic Audit.

In light of this, I ask that you please,
- Vote to decertify electors based on a fraudulent election
- Vote to start a forensic audit
- Pass a resolution to demand your federal representative object on January 6th
- Make the Audit findings public
- Take the necessary actions to ensure that fraud can never happen again

While I am not an Arizona Resident, I do often work in Arizona. I have done work on two projects in Maricopa County in just the past few months. I am also a US citizen, and therefore this election carries impact for me.

Further:

> *"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights,* ***Governments are instituted among Men, deriving their just powers from the consent of the governed****"*
>
> *- Declaration of Independence, July 4th, 1776.*

Our Founders believed that Tyranny is when the government exercises power without the consent of the governed.

You do not have my consent to certify a fraudulent election.
And without an audit, you don't know whose consent you do or don't have

Thank you for your efforts if fulfilling your duty, and thank you for your time in considering this message.

Sir, I am writing to implore you to object to the results of the electoral college vote on January 6th. This election was stolen and these are desperate times where brave men who stand up for what's right will be the heroes. Surely this bible message applies here, "Maybe you were put in this position for a time such as this". Most of the population is not fooled, is in support of Trump and does not want to become a socialist country. If you remain silent and do nothing you will regret it the rest of your life. But if you stand up and help right this wrong you will be among other revered people in history.

The USA is an amazing country of which there is nothing comparable. Many soldiers died to preserve our freedoms and I am counting on you to keep the objections going until January 18th so we can have the Contingent Presidential Election and correct our voting system which has succumbed to fraud.

Dear All,

My name is Katelyne Parker. I beg you: Please send LAWFUL electors in Support of 4 more years of President Donald J. Trump. I voted for him. I believe he won by a landslide. Please STOP the fraudulent election results now!

I am ABSOLUTELY certain that this election was STOLEN from President Trump and the American people. This is injustice. I don't believe it was stolen because I have a gut feeling, I KNOW it was stolen because I took the time to search and study all the evidence that has been presented thus far. I am dedicated to the truth no matter where it leads and I believe the truth is on the side of President Trump's re-election. It blows my mind that so many judges, elected officials, and the like have refused to see the evidence, act with honesty, and show moral courage. That tells me that we have people in high office that are either fearful, disingenuous, corrupt, and/or compromised.

I'm expecting all Georgia representatives to stand up and support President Trump starting today and until January 6th! I'll be fasting, watching, and praying for you and your families. God will protect you!

Sincerely,

Katelyne Parker

Subject: Concerned voter

Dear. Elected official,

As a concerned citizen and registered voter in (Indiana), I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

Sincerely,

Jeanie Langschied

You recently stated that you needed to see evidence of election fraud in order to stand with the American people and not disenfranchise them on January 6th.

As an American citizen and voter, I am asking you to to stand up to those who want to disenfranchise millions of American voters by legitimizing this election fraud and this stolen election. There is massive, overwhelming evidence of election fraud (videos, affidavits, eyewitness testimony, mathematical and statistical analysis, and forensic audits of Dominion voting machines). More is coming out every day. The Democrats want us to roll over and accept this criminality and pretend it didn't happen. We cannot do that. Election fraud is not a victimless crime. Millions of Americans were

disenfranchised in this election, and our Constitution was delegitimized. If we don't have free and fair elections, we no longer have a republic. I am asking you and your colleagues to stand for free and fair elections, for holding those who stole this election accountable, and for insisting that the rightful winner of this election is installed into office on January 20th. On January 6th, reject the fraudulent and illegal votes from the swing states and install the actual people's choice in this election, President Donald J. Trump. Thank you,

Subject:	Electoral College January 6, 2021

I am writing to request that you object to the certification of the Electoral College vote submissions on January 6, 2021. You must stand up for the tens of millions of Americans who want answers to the irregularities surrounding this election. It is your duty to ensure the integrity of our election is unwavering, and the American people deserve to feel confident their vote matters.

The allegations and reports of voter fraud from witnesses with sworn affidavits is overwhelming. Statistical analysis has been done showing unexplained spikes in Biden/Harris vote counts after the poles closed during the wee hours of the morning following election day. Mathematical and statistical models from university experts show impossible results without ballot stuffing and fraud. Videos showing poll workers removing suitcases of questionable ballots from under draped tables after sending poll observers and media members home offers visible proof of corruption. Dead people voting. Votes exceeded registered voters by millions. Corrupt players continue to prevent audits of Dominion's equipment. Election officials refuse to answer subpoenas. The evidence is right in front of your eyes!

In addition to the fraud allegations and irregularities, the facts that foreign countries, tech companies, and Democrats "worked together" against Trump and his supporters to steal this election is nauseating.

There needs to be a full audit of every ballot in states like Georgia, Arizona, Michigan, and Pennsylvania. If the audit isn't completed, you would be doing the country a disservice by certifying the Electoral College results.

Please save our democracy and honor the oath to which you have sworn.

Good afternoon,

I am writing to urge you guys to consider calling a special session of the legislature to investigate the massive amount of voter fraud in the Nov. 3rd presidential election. I feel it is imperative for you to at least review the evidence. I don't think you have to rule one way or the other, but at the **bare minimum** you should have a look at the massive amount of evidence in a formal setting. I personally believe there is more than enough mounting evidence to overturn and decertify the electors for Joe Biden in all swing states. Below is a website for some of the evidence since the mainstream media has been in a complete blackout of all of this information some of you might not have been aware of how bad this has become.

https://hereistheevidence.com/

Again, I understand if you feel like this evidence isn't enough although I would disagree, but 74 million Americans or most likely more, deserve to have a voice and have you guys come back to work early if needed to have a serious in depth look into these issues. Congress will most likely be doing this on January 6th, but it is your job and solely your job to certify the electors. If you certify electors for a rigged election you are responsible for setting the precedent for either side to steal every election in the future. This will turn our republic into a banana republic. Regardless of which side of the aisle you are on politically I would hope you would do the right thing. I used to be a democrat and I even voted for Obama twice but once I saw what the party was beginning to evolve into over the past 5-10 years I couldn't continue to support that type of behavior. What I am seeing in this election only highlights why I did vote for Trump this time around. I am sure that some of you might have been threatened by leftist, BLM, or Antifa to shut up and

keep moving on and keep quiet. However, I strongly urge you to not give into that, to trust your own inner voice, and have a real look into this.

Hello AZ Lawmakers –
I appreciate your public service; it is always necessary...but even more so in times like these! Greetings from the **Volunteer State;** I hope this note finds you and your family healthy and happy.

The 2020 Presidential Election ultimate outcome remains in question. The following events have happened over the past few weeks. The facts are as follows:

- "More than half of the House Republican Caucus [126 total] in the 116th Congress signed an amicus brief (dated December 10, 2020) asking the Supreme Court to allow a lawsuit filed by the state of Texas seeking to overturn the results of the 2020 presidential election in Georgia, Michigan, Pennsylvania and Wisconsin — swing states where former Vice President Joe Biden defeated President Donald Trump." Source: http://bit.ly/3nCiAxC
- On Friday, December 11, 2020, the US Supreme Court denied the State of TX's filing that called for the overturning GA, MI, PA and WI's 2020 results in the Presidential election. The Court ruled that Texas did not have the legal standing to viably object to how these states conduct their elections.
- The Electoral College met in all 50 states and the District of Columbia on Monday, December 14, 2020. It is reported that Joe Biden exceeded the 270 votes required for Electoral College election.
- "Republican electors in PA, GA, MI, WI, AZ, NV, and NM cast alternative slates of votes for President Donald Trump on Dec. 14, as the certified Democrat electors in the same states cast votes for former Vice President Joe Biden. While there's precedent for dueling sets of electors casting votes in a presidential election, ***the number of states involved in the action sent the 2020 election into uncharted territory."*** Source: http://bit.ly/3aiqete
- The US Senate Committee on Homeland Security & Governmental Affairs Hearing on Fraud & Irregularities in the 2020 Election" held a hearing on Wednesday, December 16, 2020.

- ***From www.azcentral.com: On Tuesday, December 15, 2020, Republicans in Arizona Senate issue subpoenas to Maricopa County for ballots, election equipment. Link to Story: http://bit.ly/2WidSJy***

Our Nation is in turmoil. Families are torn apart by COVID and real distrust in our Federal Election process (by a decent percentage of SILENT Democrats and a growing VOCAL majority of Republican, Libertarians, Constitutionalists, and Independents). That is so troubling to my heart, mind, and soul! As a West Point graduate, I strive every day to live out the Academy's ideals of Duty, Honor, and Country. Like my friend and fellow Patriot, TN Congressman Dr Mark Green (West Point, 1986), I want to ensure we have valid elections every cycle, including 2020 and for generations to come. At home, my wife and I have discussed this multiple times; our kids deserve to know that there LEGAL vote counts and will not be negated by a dead person's vote or another unconstitutional shenanigan!

We are not alone: numerous Patriots of the Libertarian, Republican, and Independent variety are in full or almost 100% agreement with this principle! States represented include: New York, Kansas, Virginia, Missouri and of course Tennessee! *We are planning our trip to DC to march in support of ELECTION INTEGRITY on January 5-6, 2021.*

As a reminder, a few documented examples of LIKELY fraud from around the country:

- the State Farm Arena in Atlanta GA (leaking toilet, ballot cases under tables)
- the issues in Michigan (Wayne and Antrim Counties)
- the "get out the vote" gift card shenanigans in Nevada (Nevada Native Vote Project)
- USPS Whistleblowers in the Northeast
- challenges with Republican Observer Access in numerous cities such as Detroit and Philadelphia

It simply is amazing that many American citizens are turning a blind eye to these "issues." No doubt, our friends in the Mainstream Media and Big Tech are significantly influencing the narrative.

For me, this is not about Trump or presidential politics! My initial Commander in Chief (CinC) was Bill Clinton. As a Citizen-Soldier for 12+ years, my first CinC was Barrack Obama. I have AND ALWAYS WILL salute and obey the lawful orders of the President. If Joe Biden becomes President Biden under either of the following two conditions:
A. if it is PROVEN he fairly won the White House OR B. if evidence fails to substantiate large amounts of fraud and/or irregularities. Then I will salute and move out!

However, the current messaging out there is anti-transparency ("nothing to see here"); you are seditious if questioning the DT/JB results. That is Orwellian...if not Socialist or Communist!

As a reminder, 3 Congressmen stood up on January 6, 2016 and contested the Electoral College's results with Donald J. Trump as the President-Elect. Ironically enough, Joe Biden oversaw the Joint Session of Congress that day. However, as we know no Senators did (pretty certain I know why...). So, it quietly died...funny how history is conveniently forgotten when the tables are turned.

Over the past several days and weeks, multiple Congressmen and Congresswomen have raised their hand (AL, GA, NC)...confident Rand Paul (KY), Tommy Tuberville (AL Senator Elect (SE)) or one of TN's Senators (Blackburn or SE Haggerty) will join from the Senate. *Are you willing to do the same for the Grand Canyon State?*

In closing, the ultimate TRUTH in this Presidential Election is critical to America's success – both at home and abroad. The world is watching....the clock is ticking. May the Arizona legislature *RISE UP* and invalidate the current Presidential election results. Only LEGAL votes count....without this principle, we are no better than Venezuela, Cuba, North Korea, or any less than democratic nation.

May God Almighty Bless This Union and the Fine Citizens of Arizona! Merry Christmas and Happy Holidays!

Subject: Call to Decertify the Results of the 2020 Presidential Election in Arizona

Dear Legislator,

On Wednesday, December 23, there will be a special session in which the Arizona State Legislature will vote whether to decertify the fraudulent results which have been exposed in the 2020 Presidential Election, of which there is more than enough to warrant decertification. Know that your fellow citizens in the state of Arizona are with you, the 80-90+% of Republicans across multiple reputable polling firms which have concluded that the so-called "official" results of the election are fraudulent, as well as the 70+ million Americans who voted for Donald J. Trump (many of whom I expect to show up at Washington D.C. on January 5th to support the President). I pray that you have both the courage and the wisdom to act accordingly and stand for your constituents and approve decertification of the vote in this great state. If you refuse to support these measures, the Republican Party in which you represent will lack the words to describe their disappointment and will attempt to vote you out in the upcoming primary. The future of the Republic, the Republican Party, and your careers as elected officials representing the people of Arizona hang in the balance.

Thank you, God bless you, and Godspeed.

Subject: Maricopa County Audit of voting machines and ballots, the issue of Electors and January 6th Congressional Meeting

Honorable Members of Arizona House of Representatives:

As you are in the position to effect the course of events in regard to counting Electors and the issue of dueling Electors on January 6th in the Congress of the United States, I am respectfully contacting you as a concerned citizen of the United States, imploring you to do whatever is in your power to ensure the integrity of the 2020 Presidential election.

Given the massive amount of evidence that has been presented within the various states, it is unconscionable that our government would proceed before fully investigating all relevant election-related materials, testimonies, and all information on voting machines prior to certifying an Electoral College. From the many allegations of mishandling of ballots in Georgia, to the issue of violating State and Federal Constitutions in Pennsylvania and possibly other states, all of these issues and more, need to be resolved for the outcome of this election to be a legitimate one. It is also necessary if we are ever to have an honest election in the future. This cannot be swept under the rug and dismissed.

Your legislative House and Senate body has the sole and exclusive authority for your state under the Constitution to demand that the rule of law prevails over anarchy. The consequences will be dire for the Republic unless and until you act with the full force of your authority to protect the rule of law in this nation.

May the hand of Almighty God guide and protect you.

Thank you.

The 7 swing state Legislatures need to take back their power the constitution gives them. Take that power to a court and have the Biden Elector's Vote thrown out as unconstitutional. That is their right under the constitution. Article II Section I and the 12th Amendment are clear. No popular vote, Governor, or SOS have the power to select Electors, only the State Legislature. State laws have clouded this fact, however no Constitutional amendment has been passed to change the federal law which still dictates the manner of Presidential Elections.

A small federal court could decide the case on its merits without over turning even a state's election. No pressure to rock the boat.

The federal law is clear, the state laws have never been challenged, but when was the last time we had Dueling Electors? 1960

A small federal court would not have to rule on voter or election fraud, it would not have to listen to statistical or complicated computer evidence. It would simply ask the legal question of each of these 7 states: who holds the Constitutional power to select their Electors. The Legislature holds that power. Electors are NOT chosen by popular vote, NOT by the governor or SOS, The Legislature and only the Legislature. The fact is any state law which changes this fact is UNCONSTITUTIONAL! Time is short, the swamp creatures will all meet down at the swamp on January 6th.

January 6th is our last best chance for our government to right the ship. Subject: Election 2020 Ballot Integrity: Arizona Legislature

I am reaching out to urge each Arizona legislator to ensure that only legal ballots are certified from the 2020 federal and state elections.

Rumors are there is "no evidence" in Arizona for fraud and uncertified ballots. I disagree.

The recent claims in written comments by the Maricopa Board of Supervisors needs closer scrutiny. The five persons do not own the voting machines (the Dominion 5.5B Suite)! They are playing games and may have something to hide from the public view by rejecting the subpoena for a forensic audit.

The issue for every citizen of Arizona is not about Trump or Biden. It is about the U.S. Constitution and whether Arizona's election process had full integrity.

I urge the Legislature to meet in joint session, hear the evidence, secure the physical voting machines for inspection / auditing/ integrity, and either reach a point of an elector's ability to avoid perjury by having the ballots fully certified, or in the case of the lack of legislative initiative, to consider the ballots to be unverifiable. My understanding is that if this is not completed, on January 6th, Arizona's electors will face a two-hour disclosure from the U.S. Congress, in Washington, D.C. Arizonans will be watching closely.

I urge immediate action. Inactive legislators will not be able to hide in the darkness after this historical series of illegal and fraudulent actions by elites at every level of state and federal government!

There is a reason you are in public office. You were given a mandate by the people. We trust you to represent us. We need you to do your job and stand up for

what is right! Stand up for the

republic. Stand for the constitution and the rule of law. Keep America free.

Demand for governors in these contested swing states call

for special sessions. Demand for voting

machines to be audited. After all, nothing

needs to be hidden if there is nothing to hide. You must demand that the

correct electors be sent on January 6, those representing President Trump. You must demand for justice not simply sit

idly by while you benefitted from Donald Trump's leadership.

This election was an illustration of massive fraud. The general public knows exactly what

happened. We saw it with our own eyes

and recognize foul play when we see it. We

will not follow an illegitimate president and will never vote for anyone who

does not stand up for President Trump in any future elections.

Without honest and fair elections America becomes just another country with the right to vote but meaningless. **This is China, Russia, North Korea, Venezuela -not America**l. If there is the slightest chance that our elections were rendered meaningless by any unethical, immoral, illegal means, by any state then it is your duty as an American to stand up for AMERICA against those who engaged in this attack on America. On January 6 be counted as a patriotic American and not a political partisan with no character. Ask that the tainted electors for Georgia, Pennsylvania, Wisconsin, and Michigan not be allowed to overturn this election results for the all the Americans that voted thinking their vote was going to be important for the country. Honorable Representative - You have read / seen the mainstream mediaâ€™s representations regarding the past election. The mockery is â€œthere is no evidence of fraudâ€ . I know that you have read / seen crystal clear evidence of massive fraud across the country, specifically directed to the swing states. You have read / seen this. Be brave, and study these links, reporting by Peter Navarro - https://finance.yahoo.com/video/peter-navarro-talks-report-2020-141920114.html and https://www.scribd.com/document/488495896/Navarro-Report For you to now cower to this disclosed fraud you will have to say that it is dark as midnight, at noon day; For you to now cower to the implied threats of physical harm, the potential loss of your elected position in government and its gravy-train income and benefits, and whatever else you fear; You have a momentous decision to make. NOW. The fraud has been exposed, â€œprovenâ€ . The evidence has been presented, to the public. The courts are unwilling to allow evidential hearings. They know the result, and are afraid of the consequences. They want to run the clock out. Are you afraid? You probably ought to spend some time reading Paineâ€™s works, and get a spine. What was at stake in his day is now at stake in ours. This is no babble-speak. This is the truth. AND YOU KNOW IT. YOU ARE GOING TO PUBLICLY HAVE TO TAKE A STAND. WHETHER NOW, OR ON JANUARY 6TH, YOU ARE GOING TO PUBLICLY HAVE TO TAKE A STAND. AND WE ARE GOING TO FIND OUT WHO YOU REALLY ARE. I trust you recognize that I am not a crazy. Attachments: SUMMARY OF ELECTION FRAUD EVIDENCE.pdf

This is just a short list of the widespread and pervasive fraud related to the 2020 election and the blatant attempts to overturn and ultimately destroy the foundation of democracy in the United States forever.

Should these results stand, there will never be an honest election again, no honest attempts or recalls will be possible and the almost non existent faith in government will be extinguished completely.

It doesn't matter where you fall on this issue, whether you agree with the results or not - The arbiters of truth today may be CNN, Twitter and Youtube but in the next election it may be Rebel News, Parler and TDN - There is no way to know how the tools used against this president will be turned against the next and everyone following, or by who - internal or external forces.

The president has called for the nation to stand with him on January 6th and get to the bottom of this. Those that don't will likely be expelled the next election cycle.

Thank you and god bless the United States of America

Dear Arizona Representatives,
I am writing as a registered independent voter who is deeply concerned with the apparent widespread fraud in our national election. I am also deeply concerned with the reports of state governors and judges not feeling compelled to view the evidence presented to them regarding the fraud and international tampering with the election.
The upcoming Congressional meeting on January 6 is one of our last chances to stand up for our country that we all love. That is why I am calling on you to do what you swore to do when you took the oath of office, and that is to preserve the integrity of our Constitution and serve your constituents. If you do not have the power in your position to do so, please urge those who do to support our President.
We the People do not want to live under Communist rule.
Please stand with us and do what is right for our beautiful country. Do what is right for your children and grandchildren. United we stand and divided we fall. Do you truly want to see our country destroyed?
Respectfully,

I continue to see more and more as facts and information comes out to make me think Joe Biden did not in fact win but was the beneficiary of massive fraud.

I hope you will advocate for investigation in your state.

I hope you will do everything in your constitutional power to not allow Joe Biden to be inaugurated under such a cloud of doubt never seen in American history.

How did Joe Biden get 10 million plus more votes than Barack Obama, while at the same time winning half the counties as Barack Obama?

That should at least peak your interest to look into the evidence of fraud, facilitate investigation and take a stand.

Take a stand for me and my family.

Subject: January 6th Joint Meeting of Congress

Dear Congressman or Congresswoman

The American people are horrified at what we're seeing in our elections. Widespread corruption and fraud seem poised to alter the real outcome of our national election and government. This cannot be allowed to happen. Every representative at both the state and national level should rise up and oppose this corruption. If necessary, we should schedule another election with paper-only ballots and hand counts so we can get it right. A majority of Americans do not accept the results of this election and that will cause much more unrest than a few paid leftist protestors ever thought of causing.

We ask you to do your part to stop the steal. This has gone way too far, and we are asking our representatives to step up and put an end to the craziness. For seven battleground states where dual voter delegations arrive to the Senate/House meeting, REJECT Joe Biden's illegally certified electoral votes that came from corrupt and compromised governors and corrupt and compromised election officials on January 6th. Instead, ACCEPT Donald J. Trump's constitutionally supported electoral votes coming to you from state legislators. These delegations of electors sent from state legislators correctly represent the true vote from the people they represent. Trump deserves the office he won while playing fairly. This is America... not Venezuela.

Sincerely yours,

Jason Hanks

Dear Representatives,

The AZ Legislature DOES have the plenary power to call a special session before the January 6th counting of electoral college votes!

"The Arizona Legislature does not need a two-thirds majority nor does it require the authorization of the governor to call a special session to appoint electors. Nationally recognized Constitutional experts, two of which are Joe Wolverton and Democrat Alan Dershowitz, state that the Legislature has plenary power to call a special session and with GOP majorities may appoint their own electors. In addition, the experts state that the governor is completely powerless in this process."

I am writing to you to ask
you to please, defend our constitution. Stop the communist takeover. What had happened is unconstitutional and can't be tolerated.

You know that:
- the US constitution gives the legislature absolute power over electors
- your state constitution has been violated without regard for the law
- there are hundreds of US citizens that are risking their lives, their family's safety, their jobs in order to denounce, under oath, what they have seen and experienced
- there has been blatant disregard for election rules
- you have witness how observers have been banned, electors banned, ballots counted several times -there have been lies like the water main aka toilet in GA so that fraud can happen
- there are very suspicious anomalies in the reported votes where serious respected analysts have reported the improbability of the events occurring as they did
- the election interference by the media and big tech plus the money from Hollywood and billionaires is irrefutable
- this interference affected the election in many ways.

You are the American people only hope to ensure that elections are fair and carried out in a clean way.

It's not about President Trump winning, although he did, it's about not allowing all of these people and organizations and courts make a mockery of our elections and trample all over our constitution.

You are the designated body to ensure elections are carried out properly. You need to choose the electors that represent the outcome of a fair election without all of the extra illegal votes. The courts clearly bounced the ball to your lap. If you don't take it and carry it and score, the damage to our country and the confidence in elections will be irreversible damaged. Ultimately you are responsible fir the outcome in January 6th.

Do your duty. Stand for the constitution. You are the only ones that can do it.

Thank you,

Good afternoon,

I am writing to implore you to contest the 2020 election on January 6th. This election has been a total scam and fraud and if it continues uncontested, our great nation will no longer exist as we know it. Americans will no longer have faith in the electoral process and we become one step closer to a socialistic society. Our Constitution gives clear instruction on what to do in this situation AND obvious treason. We all know that President Trump won in a landslide but the votes have been manipulated and mainstream media has suppressed this information.

Please do what is right for our state and country, support our President and we will continue to support you. Voters will remember your actions come next election.

Subject: Election Fraud

Dear Sirs/Ma'ams,

I am writing to remind you that, we the people of these United States, are not stupid. I am also writing to remind you that ***you***, as ELECTED officials, work for ***us***, not the other way around.

I am not a constituent of yours but it is too late to save my home state of Virginia (which had fraud as well but isn't a swing state so is being ignored). Therefore I am sharing my opinion with you as an American citizen who will be greatly affected by what you do.

That said, attentive and knowledgeable Americans know there was widespread fraud and "irregularities" during the November 3, 2020 Presidential Election. It does not matter what CNN, MSNBC, The Washington Post or the New York Times say or write. It does not matter what Twitter or Facebook censors or not. We have seen it with our own eyes and our eyes do not lie (unlike the mainstream media and many politicians).

This sham of "President-Elect Biden" must stop. Over 74,000,000 Americans voted for Donald Trump this November and right before our very eyes, the election was stolen from him and therefore us. We are angry, we are frustrated and, above all, we are disappointed in the representatives that perpetrated the theft. We will not stand for it.

Do the right thing to restore our confidence in the government. Make this situation right. Go against the politicians that don't care who they hurt in order to retain their power. In other words, send electorates on January 6 to vote the rightful man into office, *Donald John Trump... because Joe Biden not only didn't EARN* the office of the presidency, he is incapable of running it.

Should you have questions, please don't hesitate to contact the undersigned.

Otherwise, kind regards and please stay well.

Dear Legislator

I am imploring you to speak the will of the people on January 6th. We, your constituents are tired of the lies, the fraud and the bullying!! We are feed up and tired. What point is voting if your vote doesn't count? What point is having elected officials if they don't have the courage to speak for us! 70% of Republicans are discouraged, disheartened and ready to fight! Where is justice!!! There are videos. There are pictures. There are statistics. There is NO doubt that the cheating was overwhelming. My father was in WWII. He, along with thousands of other young men risked their lives. They risked EVERYTHING! Growing up I heard the stories of the unmatched devotion and patriotism. What for!?

You on the other hand don't need to risk your life. You need only speak up! Stop this dishonesty! You were elected to speak for us. So please, speak up!! This goes deep. We all know. It's clear this has been planned for years. It's clear it involves both parties.

BUT, this is the end of our democracy. No one is going gently into that night. There will be war. But there will be war regardless of the outcome. People are willing and ready to fight for their liberty and freedom. Are you?

Do not let them confirm this ridiculous sham! Please, speak for us! Be brave and be honest!!

This lying and manipulation has to stop!

Subject:	2020 Election-Voter Fraud in Arizona

Dear Arizona Congress,

Voter fraud in Arizona with various "anomalies " has been reported by various credible sources (other than those leftist media outlets like CNN and when not blocked by Facebook and Twitter). A total embarrassment to the state of Arizona. As a voter in Georgia, I forced myself to go to the polls last Friday, December 18, 2020 for the Federal senate run-off and with cynicism dropped my ballot into the Dominion voting machine. This is the last time. There is no confidence out here and many are feeling the same way as me---"why bother", my vote will be erased anyway. This is abject voter disenfranchisement. Further to the point where those like me who want honest and fair elections vs those on the other side of the aisle who are perfectly fine with doing whatever is necessary to achieve their desired outcome--even if it involves cheating. For the Republican members in the Arizona house and senate, unless you all do the right thing right now, your current tenure will likely be your last, because we conservative Republicans will not bother even voting anymore if we believe it is just an exercise--like we do right now.

As an attorney, I know you do not need to rely upon a special session called by your governor to exercise your legislative powers protected by the US Constitution. The supremacy clause of the US Constitution states that anything in the respective state laws that is contrary to the US Constitution--the US Constitution shall take precedence. You all as the Arizona legislature have "plenary" power to immediately establish a new process for the States to appoint presidential electors. And there is nothing any other sovereign can do to legally stop you. Having such power, should the Arizona State Legislature not immediately take rehabilitative action, then it is complicit in this vexatious atrocity (i.e. complicit in fraud).

In addition, certain federal laws are in play:

3 USC §1 requires the State to appoint the electors on Election Day, while 3 USC §2 provides an extension of time to the State should it fail to appoint the electors before expiration of Election Day, which date is prescribed by law, this year falling on November 3rd. Whereas, 3 USC §7 prescribes the day the electors shall "give their votes" in December.

3 USC §1 and §2 work in tandem to create a safety net protecting against electoral mischief. The early legislators of this nation were all too familiar with the temptations of governing power. That is a protection of §1, which sets a uniform day, "in each State", when electors shall be appointed. If a State has enacted procedures controlling the popular vote for presidential electors, that State has until midnight on Election Day to appoint its electors.

AMERICAN OVERSIGHT

In Bush v. Gore, 531 U.S. 98, 104 (2000), the Supreme Court affirmed again, the longstanding fundamental power of the State Legislatures to unilaterally take back the right to vote in any State election, even after the right has been exercised, so long as the Legislature's action is applied equally throughout the state, so as not to violate equal protection:

"The individual citizen has no federal constitutional right to vote for electors for the President of the United States unless and until the state legislature chooses a statewide election as the means to implement its power to appoint members of the electoral college. U.S. Const., Art. II, §1. This is the source for the statement in McPherson v. Blacker, 146 U.S. 1, 35 (1892), that the state legislature's power to select the manner for appointing electors is plenary; it may, if it so chooses, select the electors itself, which indeed was the manner used by state legislatures in several States for many years after the framing of our Constitution. Id., at 28-33. History has now favored the voter, and in each of the several States the citizens themselves vote for Presidential electors. When the state legislature vests the right to vote for President in its people, the right to vote as the legislature has prescribed is fundamental; and one source of its fundamental nature lies in the equal weight accorded to each vote and the equal dignity owed to each voter. The State, of course, after granting the franchise in the special context of Article II, can take back the power to appoint electors. See id., at 35 (" '[T]here is no doubt of the right of the legislature to resume the power at any time, for it can neither be taken away nor abdicated' ") (quoting S. Rep. No. 395, 43d Congress., 1st Sets., 9 (1874))."

This Supreme Court precedent is paramount; the State Legislature can take back the power to vote at any time (i.e. decertifying previously certified electors), before, during, or after an election. And, as long as the State Legislatures cancel the votes of all voters, and not just some voters, it will be impossible for any voter to claim an equal protection violation.

So, I am asking you all DE-CERTIFY the elector slate for Biden that has been sent up to the President of the US Senate prior to January 6, 2021. The fact that your governor and/or SOS has sent previously certified electors is superseded when the Arizona Legislature acting on its own and as protected by the US Constitution and relevant case law "takes back" the power to appoint electors as stated previously.

Thank you, and sincerely.

Subject: Trump is the legitimate winner

Dear Representatives,

I am just one of millions of American voters who believe our 2020 election was rigged by the democrats and some republicans. We cannot stand for this as a nation. All other nations look to our country for an example of democracy, and with all of your help on January 6th, we will be able to achieve an even greater example of democracy that we have not had for decades. I understand it is easier to just go with the default, sit back, let corruption take over, and continue to accept bribes or let intimidation and fear take hold of your very being. But if everyone works together, maybe, just maybe the majority of the good ones will rise up and squash the (not so) good politicians. I am a Chinese American, first and only one in my family born in the USA. And from childhood, I learned about the evils of communism. I do not consent to Chinese communist party. I have great sorrow for the citizens of China who are being sent to re-education camps, working as slaves in factories, being forced testing, imprisoned for religion and political beliefs, harvesting of human organs, the list goes on and on. Trump has been the only president who has stood against China's lack of human rights. If Biden becomes president (god forbid), China is very likely to invade Taiwan. Anyway, even with partisan ideals cast aside, cheating the American people of votes is a big problem to democrats, republicans, and anyone else who votes in our elections. This is it, January 6th, 2021. If you all do not take action against the fraud, our republic will be over. Cheating has been going on for years I'm sure, but with god and the good side of the internet, alternative information has been crucial in the understanding of a different reality that has been shielded from us for decades (don't get me started on the censoring of conservative ideas...or any ideas opposed to the democrats narrative they want to push. Tulsi gabbard was an amazing Democrat candidate who was overtly censored by mainstream media). Right now, alternative media IS the new media. Right now We the People are the ones in charge, trump supporters are the way things are going, money will be going towards these kinds of grassroots movements. Will you join us in this support? If and when you do, the people of this nation won't forget it. You will be the ones we vote for in our elections. You will be the NEW heros. Become a part of this uprising and together we can defeat the globalist evil (or whatever you call it). I have never been this political in my life, but I understand my LIFE and your lives are on the line here. What is the point of siding with the devil (or corrupt politicians/corrupt big tech, Wall Street, etc) to only become pawns for him and later be disposed of like trash?
God bless all of you and the souls of this world.

ps. THANK YOUs to Anthony Kern, Kelli Ward, Paul Gosar, Andy Biggs (plus anyone else that is in support of challenging the fraudulent election in Arizona!)

Our office is putting together a master memo on the valid grounds objecting. We are hoping that for the Senators, having this work done will make it more enticing to join in our effort.

If you remain undecided or unconvinced about how this November 3 election was conducted, please read and consider carefully the information below This email.

Please choose freedom! Please choose liberty! Please choose free and fair elections!

We The People of the United States of America call on The Arizona Legislature to designate the Republican electors for Arizona to cast their votes for Donald Trump in the January 6 joint session of Congress!

Your alternative is to subject our country to globalist/radical left-wing forces who want to destroy the United States of America!

Please choose the right path for our country!

AMERICAN OVERSIGHT

By Larry Johnson
Published December 9, 2020 at 7:40am

With each passing day the evidence of electoral fraud in the Presidential election mounts. Other than the excellent reporting by the Gateway Pundit team, most of the media—both print and electronic—are engaged in a full blown propaganda campaign to try to persuade the American public that claims of fraud are debunked conspiracy theories. Not since the bad old days of the Soviet Union have we witnessed such contemptible lying. Compared to Baghdad Bob's denial that US tanks had overrun Iraq—the equivalent of a grenade exploding–the current campaign of falsehoods is comparable to a fleet of B52s dropping hydrogen bombs.

The Democrat plan to steal the election went beyond the old tactics of voting the graveyard. This time it included manufactured ballots with only old Joe Biden's name attached and voting machines that would count those ballots in multiples while counting Donald Trump votes as less than one. All of these machines had a software backdoor that was accessed by Democrat operatives and their Silicon Valley helpers as well as the Chinese.

Using this combination of manufactured ballots and machine manipulation, the results in six key states are fraudulent and more than sufficient to prove that the Fraudulent votes exceeded Biden's alleged margin of victory in each of these states:

PENNSYLVANIA (20 Electoral votes)

Biden + 81,000 votes

Fraudulent: 121,000 votes

WISCONSIN (10 Electoral votes)

Biden + 20,000 votes

Fraudulent 200,000 votes

ARIZONA (11 Electoral votes)

Biden +10,000 votes

Fraudulent 300,000 votes

MICHIGAN (16 Electoral votes)

Biden +154,000 votes

AMERICAN OVERSIGHT

Fraudulent 548,000 votes

GEORGIA (16 Electoral votes)

Biden + 12,000 votes

FRAUDULENT 204,000 votes

NEVADA (6 Electoral votes)

Biden + 33,000 votes

Dead voters: 1500

Changed Addresses: 2500

Vacant addresses: 6000

Nonexistant: 8000

Commercial: 15,000

Out of state: 20,000

Double voting: 42,000

Fraudulent votes: 95,000 (the sum of the preceding).

The numbers tell the story. We are asked to believe that Joe Biden won more votes than Barack Obama. Do you remember the crowds Obama drew during the 2008 election? While they did not approach the masses that Donald Trump attracted in 2020, they were unprecedented at the time. There is no way that Joe Biden garnered 13 million more votes than Barack Obama. Obama had charisma and a following. Biden had Depends. A pile of garbage festering in a hot July sun drew more flies than Biden supporters to a campaign event.

Consider these facts (thanks to Patrick Basham's excellent analysis):

- President Trump received more votes than any previous incumbent seeking reelection and any previous candidate seeking election. He received 12 million more votes than in 2016, an increase of more than any incumbent in history.
- Trump grew his support among black voters by 50 percent over 2016. Nationally, Joe Biden's black support fell well below 90 percent, the level below which Democratic presidential candidates usually lose.
- Trump increased his share of the national Hispanic vote to 35 percent.

AMERICAN OVERSIGHT

- Midwestern states Michigan, Pennsylvania, and Wisconsin always swing in the same direction as Ohio and Iowa, their regional peers. Ohio likewise swings with Florida. Current tallies show that, outside of a few cities, the Rust Belt swung in Trump's direction. Yet, Biden leads in Michigan, Pennsylvania, and Wisconsin because of an apparent avalanche of black votes in Detroit, Philadelphia, and Milwaukee. Biden's 'winning' margin was derived almost entirely from such voters in these cities, and coincidentally his black vote spiked only in exactly the locations necessary to secure victory.
- Biden won with a record low of 17 percent of counties; he only won 524 counties, as opposed to the 873 counties Obama won in 2008.
- Late on election night, with Trump comfortably ahead, many swing states stopped counting ballots. In most cases, observers were removed from the counting facilities. Counting generally continued without the observers
- Statistically abnormal vote counts were the new normal when counting resumed. They were unusually large in size (hundreds of thousands) and had an unusually high (90 percent and above) Biden-to-Trump ratio
- Missing votes. In Delaware County, Pennsylvania, 50,000 votes held on 47 USB cards are missing
- Non-resident voters. Matt Braynard's Voter Integrity Project estimates that 20,312 people who no longer met residency requirements cast ballots in Georgia. Biden's margin is 12,670 votes
- Serious 'chain of custody' breakdowns. Invalid residential addresses. Record numbers of dead people voting. Ballots in pristine condition without creases, that is, they had not been mailed in envelopes as required by law
- Statistical anomalies. In Georgia, Biden overtook Trump with 89 percent of the votes counted. For the next 53 batches of votes counted, Biden led Trump by the same exact 50.05 to 49.95 percent margin in every single batch. This same scenario happened in Wisconsin, Michigan, Pennsylvania and Virginia.

The truth of the 2020 election is that Donald Trump won an historical victory. But the Deep State, those who profit from war and cozy relations with the Chinese and an international order that sacrifices American workers, are keen on eliminating Trump.

It remains to be seen if Donald Trump will prevail in the Supreme Court and the Congress. The future of the American Republic hinges on this moment. So far, the Department of Justice and the FBI have been missing in action. If they fail to do the right thing and uphold the law and bring the guilty to justice, the future of this nation is at risk.

If Joe Biden is inaugurated, his reign will be short and disastrous. Most of the 74 million Americans who voted for Donald Trump will not acknowledge him as a

AMERICAN OVERSIGHT

legitimate leader. The seeds of revolution will be sown and the established order that rules Washington will find itself facing a national opposition movement that is unprecedented in the history of this country.

I, along with you, pray this does not come to pass. But if we must resist the usurpers, then resist we must. This fraud cannot stand. And every Republican member of the Congress–House and Senate–are on notice. We will remember.

If there is a logical/factual explanation that effectively refutes the cumulative evidence and conclusion of widespread and coordinated fraud and corruption by the left, I'm willing to consider it. But dismissal due to "no court has found..." or "no credible media source has reported..." does not meet that standard.

President Trump has the right AND THE DUTY to take any and all constitutional measures necessary to defend our republic against the enemies, both foreign and domestic, who are trying to tear down our nation and take it over with tyranny and repression. We The People need him to use his Executive Powers to retain and restore order in the face of sedition and acts of war against these United States Of America!

Subject: Do Your Duty

Dear Representative,

I am not a resident of Arizona; but just like you, I am a resident of the United States of America; I have a right – and I demand to be heard! I believe that there was massive voter fraud taking place in your state (and several other states) before, on, and after November 3, 2020.

You have a duty to honor and uphold the Constitution of our republic. This means that you must ensure that we, as citizens, are guaranteed a fair and honest election: that only every LEGAL VOTE is counted.

Therefore I am holding you to the oath that you swore before God and your Country, to uphold the Constitution. This means that you thoroughly look at all the evidence of possible voter fraud. If, after reviewing it, you can honestly say that this was an honest and fair election, then you did your due diligence as an elected official. But if, after reviewing the evidence, you see that voter fraud did take place, you must de-certify the electoral votes that your state is poised to cast on January 6, 2021!

You will be held accountable by your constituents; but more importantly, you will be held accountable by God!

Sincerely,

Michael Wigand

Dear Senators,

PLEASE protect our constitutional rights and stop the steal of our 2020 election! The American People SEE what is going on. I have NEVER been so disturbed by what has occurred.

You have Article II authority through the Constitution of the United States to act and we are asking that you do; otherwise, you are party to the greatest election theft in US History.

You should have no qualms about using your full powers under the Constitution. You can name your own electors, so do it. Since Democrats are willing to win by any means necessary, you should also be willing to win in the same manner. We deserve it!

THE AMERICAN PEOPLE HAVE WOKEN UP to all the Shenanigans going on! We are 75,000,000+ people strong, powerful, and growing daily.

We like our FREEDOM and will not give it up to socialism, communism, or Satan! In my humble opinion, there is an exceedingly small, albeit very loud minority who are attracted to it. And there are outside forces that are fanning those flames and we know it is real. They want us divided. BUT the extraordinarily strong and powerful majority DOES NOT want any of this!

The greatest victory is that which requires no battle. All warfare is based on deception. During chaos, there is also opportunity. The real threats are interests from abroad and beyond who have infiltrated our open society because, well, it is easier to do in an open society.

AMERICAN OVERSIGHT

The leaders of our country need to remember what the majority of Americans want: FREEDOM, social solutions, fiscal responsibility and common-sense solutions and the courage to compromise.

TRUTH will always win. It is obvious things need to change in government. We Americans realize EVERYTHING is on the line.

You have the power to fix this, so I am begging you to protect We-The-People!!!

Respectfully,

Dear Arizona Representatives,

We do not live in Arizona, but as American citizens in Colorado, we respectfully request you to stand up for truth and a free and fair election on January 6, 2021. Please investigate the truth and defend our election and the future of our republic. We are praying for you to stand for truth and for your protection. Our country needs an election epiphany and we are calling on other Americans to pray as well.

Epiphany For Our Country

Congress meets to count the Electoral College votes on January 6, 2021, the same day as Epiphany, the celebration of Jesus Christ's manifestation or revelation to the Gentiles. Our country needs Christ and truth now. We are calling on Americans to pray for revelation of truth. Each night from now until January 5, 2021, gather your family at 8 p.m. local time and pray for our country and then again at 8 a.m. on January 6, 2021.

Pray for:

- Truth to be revealed.
- Congress to stand for truth.
- Freedom to win.
- Protection for those standing for truth.
- Many to come to Christ for salvation.
- The rightful President to take office.

To whom it may concern,

I am very disturbed by the wholesale sell-out and established voter fraud against President Trump and others in November. The evidence (evidence!) of videos, witness statements, statistical anomalies, dead voter rolls, and breach of state laws including in YOUR state is a failure to all American citizens since this is a federal election for POTUS that impacts us all.

I am calling on you to follow the constitution of the US which I swore an oath to, you swore an oath to, and stand in the gap to investigate AS FAST AS POSSIBLE, count only LEGAL votes, and send Trump Slates of Electors to DC on January 6th. Do this and our country lives to fight another day - betray your country, your conscience and our citizens, and your children will see you as the cowards and establishment corruption you appear to be. But you still have a chance to fix this!

If you do not, myself and my family/patriots will relentlessly protest, recall, and primary you out office and prosecute you to the fullest extent of the law if required. We will canvas, donate, call and organize to end your career, no matter what state you are in.

I am a veteran and for the blood I've spilled in defense of this nation, do the same - stand in the gap, fight for the legal victory Trump one, and expose/right the steal!

December 21, 2020

Today, we are poised to accomplish a similar strike and defeat the Tories and mercenaries of today, in the revolution to secure President Trump's electoral victory and overturn the immense vote fraud in the November 3, 2020 election. This battle, to date, has demonstrated both the corruption of our institutions and the intellectual bankruptcy and cowardice of our enemy. Faced with overwhelming evidence of outright fraud, the courts have simply refused to grant a hearing in which claims could be examined—blocking the hearing of evidence on procedural grounds. It is the legal equivalent of the media's censorship. But, as Lyndon LaRouche and others have noted, the Courts under our system are not equipped to declare the winners of a presidential election. They should have heard the evidence, and as John Marshall said in Marbury v. Madison, should have said what the law is. But the ultimate decision rests with the people and their state representatives.

The state legislatures must renew their hearings on the vote fraud in the six battleground states: Arizona, Nevada, Pennsylvania, Michigan, Georgia, and Wisconsin. They should officially certify alternative electors to the Congress, pledged to Donald Trump. The Congress itself must, at the same time, be overwhelmed by the demands of the citizens to act in this unprecedented situation. A gross and foul attack has been made against the Republic. How this affair was conducted must be shown and proved to the entire citizenry of every political persuasion: unconstitutional use of the intelligence agencies for more than four years against the President, the use of the media and Silicon Valley to censor and sway the vote, and the calculated vote fraud itself.

AMERICAN OVERSIGHT

Congress must hold urgent hearings airing and correcting all of this. For these wrongs, natural law and legal equity say there must be a remedy. That remedy is that upon consideration of the Congress, after such hearings, both in Congress and in the states, Donald Trump be declared President of the United States. Congress and the state legislatures remain our targets. Visit the website at the end of this leaflet for the phone numbers to call, and other things to do.
We are putting out an APB to all patriots to join us in targeting the legislators in the battleground states and their own Representatives and Senators in Congress, with the same determination General Washington and his troops demonstrated in crossing the Delaware on Christmas Eve.

What is at Stake if We Lose?

If the globalist, "deep state" forces, led by British financiers, are allowed to get away with usurping the vote, the resulting crisis will be global and generational, perhaps even existential. These puppet-masters running Biden and Harris would end the great experiment we began in 1776-81. They would forbid the USA (and thus the world) from new great achievements in space exploration, international diplomacy, resource development, and progress in mankind's standard of living. Instead, they would enforce a victimized view of humanity that sees poverty alleviation as bad for the environment, while using identity politics to foment civil strife and fragment their opposition. They would point to convenient bogeymen—like Russia, China, climate change, racism, and terrorism—to try to make us accept a collapse in living standards. Biden's choice of nominees makes clear he would install everyone from the worst of the social justice warriors and their "1619 Project," to the worst of the beltway think-tanks with their endless wars and their global bailout of a rigged financial system. If the forces running the Biden-Harris charade are allowed to return to power now, it is only a matter of time before a global emergency (real or staged) worse than COVID-19 or 9/11 strikes. It will be used to attempt to create an outright globalist bankers' dictatorship in the name of crisis management.

What is at Stake if We Win?

The British Integrity Initiative has pointed out that Trump's re-election signifies the end of their paradigm, described in summary above. Their exposure in the perpetration of frauds like the Russiagate hoax, the bogus impeachment, the election heist, media fraud and censorship, illegal wars and other major crimes, will cause a popular demand for justice that will reach back through several previous administrations. In such a drive for righting wrongs, we can expect the exoneration of important leaders and whistleblowers who have been wrongly persecuted by this empire for seeking to expose and supersede it with our Constitutional republican American System. Most notably, these include Lyndon LaRouche, Edward Snowden, Julian Assange, Chelsea Manning, and Bill Binney.

The American System, established by Alexander Hamilton and revived in the 20th century by Lyndon LaRouche during his presidential campaigns, was designed to eliminate empire by establishing a world of sovereign nation-states acting freely in the best interests of each other, to pursue the common aims of mankind. Key among these aims are peace, the elimination of poverty and famine, economic prosperity, improved literacy, eradication of disease, and the exploration and domestication of the universe we inhabit through a robust human space program–along with other major jobs projects. The LaRouche PAC website hosts an extensive archive of these projects, such as returning to the Moon as the gateway to Mars, the North American Water and Power Alliance, the World Landbridge, and the development of widespread nuclear fusion power, as well as the economic reforms needed to finance such jobs programs without giving veto-power to Wall Street derivatives bubbles or radical Malthusian environmentalism.

The United States of America has been and will continue to be a leader in the world by the way we drive forward on such great new initiatives. Key among the principles of our exceptionalism is our openness to work

AMERICAN OVERSIGHT

with other great nations and develop trade deals that link us together and help us overcome our differences, while also making great strides towards the common aims listed above. Even those whom many today view as enemies, like Russia and China, have a long history of collaboration with the USA in the common fight against the globalist geopolitics of British imperial meddling in our internal affairs.

This is the new renaissance we hope to achieve, but it requires an energized and active population to demand the better world we were born to create. As grand and inspiring as all these great projects are, still, from today through January 6, 2021, we must maintain a laser focus on demanding the Congress and states intervene in this electoral coup d'etat being run on behalf of the Biden-Harris ticket. The world will no sooner forget our actions today, or our failure to act in these waning days of 2020, than it will forget Washington's crossing of the Delaware on that Christmas Eve long ago.

Subject: Certify the Trump Electors!

GOP State Legislatures can call themselves into special sessions for the appointing of electors by a simple majority vote.

They do NOT need permission from their governors, nor a 2/3 vote.

State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is preempted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) & Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = they have "absolute" authority, and it cannot be questioned.

3) This right has not been exercised since 1876.

4) In McPherson, SCOTUS held Article II constrains each state's capacity to limit its legislature's ability to appoint electors.

5) In short, no state constitution's law can abrogate or alter the State Legislatures power in appointing electors.

6) Because on deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Pennsylvania State Legislature, via Zoom, could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in a open letter to the US Congress) and immediately appoint Trump loyal electors.

8) These Electors would meet in the US Capitol to vote on December 14th (or later, as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct."

9) Their votes (a slate) would be sealed and transported to the President of the Senate.

10) On January 6th, they're counted by the Prez of the Senate.

11) Prof. Eastman spoke on it during the GA hearings.

Thanks,
Sarah

Subject: The AZ legislature should decertify this fraudulent election and pledge the Electors to President Trump.

To Arizona Republican Legislators and the (so called) republican Maricopa County Board of Supervisors,

YOU HAVE CERTIFIED A FRAUDULENT ELECTION!

Massive cover up by the Maricopa Board of Supervisors voting down the 3rd party audit of the cheating Dominion Voting Machines. Once again, establishment hack republicans have let the people down again. The cowardly republican supervisors are hiding from the truth of this massive election fraud and cheating. They are covering up a CRIME!!!!!!!!!!!!!!!!

Therefore, the AZ legislature should decertify this fraudulent election and pledge the Electors to President Trump on January 6th.

President Trump won Arizona and everyone knows it. We will not accept this fraudulent election result!!!!!!!!!!!

We have many examples of fraud and problems with this election including:

VOTES CANCELLED BY POLL WORKERS PRESSING THE "GREEN BUTTONS"

ABNORMAL SPIKES IN NURSING HOMES IN THE MIDDLE OF A PANDEMIC

36 THOIUSAND FEDERAL ELECTIONS VOTERS WITH NO PROOF OF CITIZENSHIP

DOMINION VOTING MACHINES ALLEGATION OF MANY THOUSAND OF VOTES SWITCHED FROM TRUMP TO BIDEN

THOUSANDS OF MISTAKES WITH ABSENTEE, ADJUDICATED AND DUPLICATE BALLOTS

DEAD PEOPLE ON THE VOTER ROLES

BIDEN ONLY VOTE AND NO DOWN BALLOT VOTES

AMERICAN OVERSIGHT

5 THOUSAND CONFLICTING OUT OF STATE NOTICES AND VOTES CAST

MANY REPUBLICAN BALLOTS WERE NOT COUNTED ON ELECTION DAY BECAUSE OF SHARPIE MARKERS!

As a 25 year resident of Arizona and Maricopa County and a lifelong Republican, I am urging our Arizona State Representatives and Maricopa County board of Supervisors to do the following:

1. We demand a FULL HAND COUNT of paper ballots by precinct.
2. We demand a FORENSIC audit of all votes including an audit of Absentee, Adjudicated and Duplicate Ballots!
3. A Third Party AUDIT of DOMINION voting machines/software.
3. Rino Governor Ducey should immediately open a special session of the AZ. Legislature.

We must have election transparency. Obvious voter and election fraud occurred in Arizona on November 3rd and "We The People" want something done about it from our state representatives. Plus, *Dominion Voting Machines being used in Maricopa County* is not right; where was the AZ GOP and the County Board of Supervisors when these suspicious machines were approved!!!!

Please do you your job!! If you don't then you will lose the Trump Base which is about 90% of the republican party!!!

If the above can't be achieved then we expect the AZ Electors to vote for Trump because this has been a fraudulent Election. TRUMP WON!! End of Story and we all know it! If the AZ GOP and AZ Legislators do not fight and expose this massive election fraud then you will lose the Trump voters for many years. We will walk or start our own MAGA party but we prefer to stay as a true conservative "America First" Republicans. Time will tell!

Please have courage and fight.

There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. The politicians, media, and social media are trying to silence the more than 73 million people who voted for our great President Trump. Please stand by our President Trump by doing the followings:
1. Request a special session, which provides the platform for Mayor Rudy Giulani and his team to demonstrate how the Dominion voting machines change votes and how the machines were used to steal the presidential election by Biden and his party!

Ted Noel 12/20/20:

The State Legislatures Can Still Rescue the Presidential Election (Or Not)

"Anyone who thinks he knows how things will develop when the Electoral College votes are counted on January 6 is probably smoking something. In theory, since all the electors have been "certified," there's nothing the legislatures can do now. To quote Porgy and Bess, "It ain't necessarily so."

Article II, Section 1 of the Constitution says, "Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors..." The date is set by Congress in 3 USC 7. 3 USC 15 sets the January 6 date for counting the electoral votes. Neither date is in the Constitution. The only date in the Constitution is noon on January 20, which is when the term of the president ends.

The Supreme Court plainly stated in Bush v. Gore that the power of the legislatures is presidential elections is "plenary." That means that the legislatures can do pretty much anything they want. The Florida legislature can, after the fact, declare that Florida's EC votes for Donald Trump will be thrown out and votes will be cast for Joe Biden. Or vice versa in Georgia and so on. And they can do it at any time before the actual count in DC. That's a pretty radical thought, but fully supported by the case law cited in Texas v. Pennsylvania. The state legislature is the final authority. If the voters in the state get mad, there's another election coming for them to settle that score.

AMERICAN OVERSIGHT

If the Georgia Legislature wants to change the certification of electors and their vote, they have to get together to vote before Congress meets on January 6. In Georgia, the governor ordinarily has to call them into a special session, and Governor Kemp has shown no inclination to do so. But the US Constitution, under which the state constitution operates, says otherwise.

"Wait!" you say. The US Constitution doesn't have any language about how legislatures are called into session. That's true, but completely irrelevant. Under Bush v. Gore, that "plenary" power of the legislature over electors means that they can call themselves into session, sua sponte. They don't need the governor to do anything.

Put bluntly, every state legislature can do this. It doesn't have to be just the contested six or seven. But those are the ones with a motivation to act. In Pennsylvania and Georgia, they may have a particularly strong incentive, since the governors and secretaries of state in both states were frankly hostile. In Georgia, it was an illegal consent decree that gutted safeguards for absentee voting. In Pennsylvania, it was a lawless suit that led to complete disregard for all standards established for the election.

But why would they bother? The electoral vote in each state has been certified. This brings us back to the 12th Amendment. "The President of the Senate shall, in the presence of the Senate and House of Representatives, open all *the certificates and the votes shall then be counted.*" This sounds pretty simple. Open all the envelopes of electoral votes and count. But there's a hitch here. In seven states (GA, AZ, WI, PA, MI, NV, NM) two slates of electors have sent certificates of their votes. Only one slate was certified by the Governor, but there will still be two envelopes. If both envelopes are opened and counted, 270 votes won't be a majority. Joe Biden would have 306, and Donald Trump would have 316. That's an impossible result, and there are confusing procedures on how to handle it, with the governor's certification as the tie-breaker.

What if VP Pence decides to open only the Trump votes, declaring that the Biden votes were contrary to the will of the legislature? Again, the uproar would reverberate around the world. The VP has the authority, but martial law might be the short-term outcome.

What would happen if the legislatures met and voted? There are three major possibilities. First, they may choose to ratify the certified vote so that Biden wins. They could choose to certify the Trump electors so that Trump wins. The protests would again be impressive. Or they could choose a third route, simply voting to declare the election "in dispute."

Declaring the election "in dispute" would countermand the certification of the Democrat slate made by the governor. Again, complaints would be deafening, but the legislature would be acting according to the facts in play. Several have held hearings where testimony of material malfeasance has been presented. So a contested election would be both the legal and factual truth. And the legislature would be saying that the state would present zero electoral votes to be counted because it's not possible to determine which slate is correct.

The drama that follows on January 6 could follow several paths, almost all of them doomed to loud complaints. The *simplest is count the "certified" votes and elect Joe Biden.* But if some of the legislatures declare an election dispute, things get interesting.

If AZ, GA, MI, NV, PA, and WI all declare a dispute, the remaining vote is 232 to 222 in favor of Donald Trump. The president of the Senate, VP Pence, could then declare that Trump has won, since he has a majority of the actual votes. If he chooses to be less political, he could choose to say there is no winner, since no one has 270 votes. This would send the election to the House as a contingent election, *where presumably the 27-23 Republican lead in states will re-elect* Trump.

The cleanest answer comes from state legislatures acting to declare disputes. This would mean that VP Pence would not be an interested party making decisions that benefit himself like Thomas Jefferson did in 1800. But will the six state legislatures all vote? Not likely. This brings a different possibility into view.

AMERICAN OVERSIGHT

I simply do not see VP Pence opening both sets of votes from contested states. That would lead to the House and the Senate separately voting on which set of electors to accept. While Republicans hold the majority in both houses, guaranteeing a Trump decision in each case is foolhardy. It's possible, but very uncertain. But Pence has a different path available as president of the Senate, the ultimate authority in this situation.

Suppose that VP Pence chooses to declare the dispute on his own. He would be justified in doing so, since there is testimony to major malfeasance in all six states. He can declare that since election officials failed to follow state law, they did not conduct an election. If there is no election, then there are no electors. If Pennsylvania has dueling slates of electors, "certification" does not matter. Neither slate is legitimate. If a state has not submitted a valid slate of electors, then it has no votes to submit. VP Pence can then throw the certificates in the trash, leaving zero votes for Trump and zero for Biden from that state.

The potential scenarios would be enough for Alice to cry "Curiouser and curiouser!"

Subject:	STEP UP ARIZONA LEGISLATURE

December 20, 2020

Who has the power to appoint presidential electors?

By Leo Donofrio

Now that inferior election (county supervisors) officials in Arizona have rejected a legally issued legislative subpoena from the Arizona Senate Judiciary committee to turn over Dominion machines and software for inspection, the Legislature of Arizona must use its enforcement powers to compel these officials to respect their *plenary authority over presidential elector appointment.*

But what enforcement authority is available to the Arizona Legislature? It's not the Judiciary. And it's not a sheriff, or state capital police. The Arizona Legislature has plenary authority over appointing presidential electors. All it has to do is self-convene by quorum in each branch, or by joint ballot, then vote to send Trump electors; then send the slate to Washington, D.C. That's how you enforce the subpoena.

But then you do one more thing, Arizona Legislature. You *sprint* into federal district court, and you demand a Writ of Prohibition against Vice President Pence, ordering him not to open the previous slate of presidential electors sent by Arizona. And you will win that writ. Here's why:

3 USC §§5–15 ARE UNCONSTITUTIONAL

Congress cannot order a state Legislature regarding how to exercise its plenary authority. All Congress can do is set the time presidential electors must be appointed (see the federal Election Day statute) and when electors must meet and give their ballots. My previous report on the timing proved that the hard deadline is January 4, 2021 and that December 14 was not the last possible date. There's still time for each contested result to be set straight by the state Legislatures.

Everyone should read and study the undisputed SCOTUS precedent on plenary authority of the state Legislatures over choosing presidential electors, *McPherson v. Blacker*, 146 U.S. 1, 36 (1892):

AMERICAN OVERSIGHT

'Whatever provisions may be made by statute, or by the state constitution, to choose electors by the people, there is no doubt of the right of the legislature to **resume the power at any time**, for it can neither be taken away nor abdicated.'

Unfortunately, too many state Legislatures think, *or at least want you to think*, that they had the power to abdicate plenary authority over presidential electors when they allowed a popular vote. No. The Legislatures did not abdicate authority, nor could they have abdicated such authority, according to the United States Supreme Court's holding in *McPherson v. Blacker*.

We understand that feckless politicians want badly to pretend they have abdicated their powers, but it's a lie, a delusion, an illusion, attempting to make you believe that nothing can be done. I call foul on all state Legislatures who are running this cowardly play.

In Michigan, the Supreme Court held that the election there was illegally conducted as to indefinitely confined voters. Truly handicapped people deserve equal protection of law. Those handicapped people saw their votes nullified by criminals who stole from them — a courtesy the Legislature designed to protect their rights. Those criminals parked in handicapped spaces. Where is the Michigan Legislature now? Why aren't legislators taking action? They know that close to 200,000 of those ballots were illegally cast. What more do they need? And like Arizona, Michigan has enforcement power. It is plenary, and it cannot be abdicated.

The words "at any time" are unambiguous, but they must be read in light of the power of Congress to set the time. But "time" is the *only* power Congress has over electors. Congress cannot choose which slate of presidential electors will be counted on January 6. This is why 3 USC §15 is unconstitutional versus the plenary authority of state Legislatures, and this is why they must do two things *fast*:

1. *Resume* your plenary power to choose electors "at any time" immediately, and then ship the slate to Congress.
2. March into federal district court for a Writ of Prohibition preventing the vice president from opening any other slate.

If the district court fails to follow the law, appeal up to SCOTUS, and you will win.

Texas lost at SCOTUS, but did anyone notice how fast the Court handled the issue? Lightning fast. *That* is what everyone needs to take away from the Texas suit. Texas did not have standing. SCOTUS did the right thing in rejecting that case. But the Court did send a clear signal that it will act *fast* when states come before them as to presidential electors.

If the Arizona Legislature will enforce its subpoena by using the nuclear option, *nobody will stop it*. All the legislators have to do to turn the tables is self-convene and vote on a new slate of presidential electors. Suddenly, it will be the Biden team running to court, and time won't be on their side, nor will law.

Only the state Legislatures have plenary authority over which electors they determine. The governors, secretaries of state, attorneys general, election boards, Congress, and the vice president of the United States, all have absolutely *zero* percent authority over the choosing of presidential electors under our federal Constitution, and all judicial precedents issued by the United States Supreme Court support such plenary authority.

The only thing standing in the way of the Arizona state Legislature, and the other state Legislatures, is *will*. *Do the legislators have the will to follow the law?* Which side of history do they want to be on? Because everyone knows that more and more evidence is coming. The state Legislatures are the tribunals given umpire/police power over popular elections for presidential electors. The Framers put them in this position, and the Constitution binds them to this power. They cannot run from it. Indecision *is* decision.

AMERICAN OVERSIGHT

I will close with a judicial statement by Justice Thomas in 2013 regarding the plenary authority of state Legislatures in appointing presidential electors (emphasis added):

2. **This Court has recognized, however, that 'the state legislature's power to select the manner for appointing [presidential] electors is plenary;** it may, if it chooses, select the electors itself.' Bush v. Gore, 531 U.S. 98, 104, 121 S.Ct. 525, 148 L.Ed.2d 388 (2000) (per curiam) (citing U.S. Const., Art. II, § 1, and McPherson v. Blacker,146 U.S. 1, 35, 13 S.Ct. 3, 36 S.Ct. 869 (1892)) ... **Constitutional avoidance is especially appropriate in this area because the NVRA purports to regulate presidential elections, an area over which the Constitution gives Congress no authority whatsoever.** Arizona v. Inter Tribal, 570 U.S. 1 (2013) (Footnote 2, J. Thomas, Dissent.)

There has been widespread election fraud with overwhelming, irrefutable evidence. Investigations are still ongoing and are uncovering even more evidence.

I personally watched many of the hearings from these states in which everyday citizens testified (with sworn affidavits). I admire the **COURAGE** it took for them to step up and tell what they personally experienced. Manty have faced job loss, ridicule, & threats all because they are doing their civic duty as a U.S. citizen. What if one of these brave citizens were YOUR mother, father, sister, brother, son, daughter or close friend? Would you discount their testimony? There are just too many to be swept under the rug.

Dear Representatives and Senators,

As a citizen of the US, wrongdoings in State elections and the unConstitutional practice of the Judicial and Executive branches legislating, impacts every American, even those from outside those states. This is a Federal issue caused by the illegal practices of key swing states impacting a Presidential Election! That is why I am contacting you, in spite of living in a different state.

We are at a crossroads in the history of this great Republic. Even if one chooses to ignore the volumes of evidence showing foreign influence and voting fraud that gave Joe Biden millions of illegitimate votes that were either fraudulent or intended for President Trump, one cannot ignore the illegality of State Judicial and Executive branches changing election law!

Once the US Congress objects to Biden Electors from the states/commonwealths of PA, GA, MI, WI, NV, and AZ, you must retroactively certify Trump Electors from those states/commonwealths instead on January 6, 2021, either due to the aforementioned legislating by unqualified branches and/or due to massive evidence of election wrongdoings presented at hearings.

Please do NOT reply if you are going to weakly reference what has been done in the past and/or why you cannot do this. You CAN do it as has been shown in some historical 19th century elections, in Bush v Gore's Supreme Court ruling more recently, and in our US Constitution. The ONLY question that remains is whether you will have the backbone and fortitude to do the right thing.

Will you be heroic or will you take the easy path? The 75 million plus peaceful ; yet quietly seething patriots WILL be watching and will hold you accountable if you do NOT do your duty. Subject: Request that you stand with President Trump and Against Lack of Transparency and Lawlessness

Dear Arizona Legislators,

I am writing to you today to request that you stand with President Trump. Six different state legislatures: AZ, MI, PA, WI, CO and GA, have now conducted hearings regarding election integrity, while a U.S. Senate Committee Hearing is ongoing today.

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to academics citing glaring statistical anomalies and mathematical impossibilities, testimony of trucks and ballots of ballots being transported across state lines, to recent videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior. Further, I invite you to read the **Antrim County Dominion Forensic Audit that reveals, among many things, a high "error rate" in election software of 68.05%.** Please read the full report.

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it. The governor, attorney general and secretary of state have closed their eyes to the irregularities in your state. They have done nothing to legitimatize voters concerns thus leaving this election result the travesty they orchestrated.

The Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" **to call a special session to retroactively certify the Trump Electors**, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee.

It is no longer acceptable as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power over electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I must reiterate this point to you: you do *NOT require a special session as prescribed by your state constitution. In the capacity of electors, you have federal plenary* power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

AMERICAN OVERSIGHT

5) *Consequently, no state constitution's law can abrogate or alter the State Legislatures'* power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Arizona State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint or retroactively certify an alternate slate of electors.

8) President Trump Electors met in your state Capitol on December 14th to vote,

9) Their slate was sealed and transported to the President of the Senate and D.C. Archivist.

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a leading expert on Constitutional law. I implore you to take up your US Constitutional duty now, and as a joint body acting in a federal capacity, **call a special session to retroactively certify the Trump Electors and decertify the Biden Electors.**

Certification of Electoral college votes for president Donald J Trump in your legislature

Dear Legislators,

Further to my email below I want to show my full support, as all law abiding and patriotic Americans do, for you all to retroactively certify the Trump electors from Monday 14th December.

This must be done to save our republic. If this fraud is let unchallenged and Biden becomes President, then America is lost.

History and the world are watching you.

Please do the right thing!

Dear Senator ,

I am writing to you today to request that you, as a Republican, stand shoulder to shoulder with President Trump. Four different state legislatures: AZ, MI, PA, and GA, have now conducted hearings regarding election integrity, while Wisconsin is expected to hold formal hearings on December 11th. Court hearings have been proposed and docketed as SCOTUS to allow through the constitution, for legislators to send their own electors to Congress in January.

AMERICAN OVERSIGHT

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to academics citing glaring statistical anomalies and mathematical impossibilities, to recent and shocking videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior. Iam sure you are aware of the same anomalies in your own state.

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it.

Your Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" to call a special session to choose electors, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee last week.

It is no longer acceptable for you as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power to choose electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. For every one of them behind a tree, there is an American patriot behind every blade of grass. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I am now referring you to the correct constitutional procedure in ten easy steps.

I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of choosing electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Arizona State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint an alternate slate of electors.

8) These Electors would meet in their state Capitols to vote on December 14th, or later (as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct.")

9) Your chosen legislative slate would be sealed and transported to the President of the Senate and D.C. Archivist. 10)

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a

AMERICAN OVERSIGHT

leading expert on Constitutional law. I implore you to take up your US Constitutional duty now, and as a joint body acting in a federal capacity, call a special session to appoint electors and declare President Trump the winner of your state.

Thank you for your time and American patriotism.

Sincerely,

Danny Turn

Re: The U.S. Constitution Upholds Your Election Authority -- Use It Re Electoral College

Dear Representative Finchem,

The 2020 election chaos and suspected fraud have been extremely concerning. The actions by bureaucrats, other executive branch officials, and courts to expand mail-in voting and loosen anti-fraud safeguards have contributed significantly to this situation. Also, local officials lacked transparency in vote-counting, and the courts were unwilling to examine the situation.

All of this is concerning, and I worry about the integrity of the election results.

But the solution is clear -- you have explicit authority, under the Constitution, over selecting the Electoral College. It's true that it already voted, but alternate electors also voted, and the legislature can still send its own electors.

Article II, Section 1, of the U.S. Constitution gives you explicit control over choosing electors. Not only this, but various Supreme Court precedents, including McPherson v. Blacker (1892), Bush v. Gore (2000), and Chiafalo v. Washington (2020) acknowledge your control over the Electoral College and your ability to reclaim that control at any time irrespective of conflicting statutes. And Article VI nullifies all state and federal laws that contradict the Constitution.

If you were to pass a resolution sending your own electors to Congress to count on January 6, those electors would become the official ones. Please take action on this.

In addition to this, Article I, Section 4, gives you explicit authority over setting the rules for U.S. House and Senate elections, unless Congress has made its own rules on a particular aspect. However, the governor, secretary of state, courts, and others have taken your authority. You MUST reassert this authority. Any ballot cast contrary to the legislative rules you have set MUST be rejected.

Overall, please take real action, and remember the authority given to you by the Constitution.

Sincerely,
Genevieve Anderson

Subject: Request to Object to Biden Electoral Slates

Dear Representative,

I call upon you to reject the fraudulently-certified Biden electoral slates when Congress convenes on January 6th.

It is apparent that the levels of fraud we witnessed in this year's election were unprecedented.

Failure to act now will result in the erosion of our most fundamental rights as Americans. Those rights have been fought to preserve over hundreds of years with the bloodshed of over a million patriots.

We are at a crossroads in our nation's history and we stand to lose our republic forever. As a child of legal immigrants, I've heard the horrors and suffering under communist rule and that is exactly where we are heading. I cannot allow that to happen and nor should you.

Are you willing to look the other way and allow this fraud to happen? Will you be able to look your children and grandchildren in the eyes and speak of an America in the past tense where we once cherished basic freedoms? If we don't stand up now we won't have a country to speak about.

Whether you support or dislike our president is irrelevant. I beg you to put yourself over petty differences and grudges and act on the principles of fairness and righteousness.

God has placed you in a pivotal role in determining the fate of our nation. I pray you will do the right thing.

God Bless,

Subject: Request to Certify Trump Electors for ARIZONA

Dear Mark Finchem, ARIZONA House Representative

We have become accustomed to a certain level of fraud in our elections. Recent technological and communications advances have been adopted without much thought to how they affect the checks needed to ensure the democratic principle of "one eligible person, one vote". As a result, checks on voter ID and residency verification have been weakened, facilitating fraud.

So we say to ourselves, "If it isn't close, they can't win by cheating." And we work harder to persuade people to vote for our preferred candidates. Then when fraud is apparent we say, "Yes, there was a little fraud, but it wasn't enough to change the outcome." And then, win or lose, we move on to more important matters. The margin of error has been replaced by the margin of fraud.

But this time, it's worse. Much worse. This time there was a massive, focused, coordinated effort to steal this election by fraud. The data is compelling and more evidence is appearing every day. The evidence presented to us so far is overwhelming. I won't belabor you with the details – you wouldn't be doing your job if you didn't know all that I know and more by now. It's obvious our election process has been attacked by dishonorable enemies foreign and domestic, and that honorable, law abiding citizens of all political parties, races, and creeds have been disenfranchised.

We're now at a crossroads in our history. What road we choose going forward will affect our nation for all time. I write to urge you to take the Right and Righteous road. If you believe election fraud in your state was enough to invalidate the results as certified, or even if it was enough to make it impossible to know who actually won, you have a duty under your oath of office to defend the true voters of your state and our Republic. You will be defending the will of the people, not overturning an election. You will be following the law and the US Constitution as intended, while those who commit fraud do not.

Our founders gave state legislatures plenary powers over Federal elections in US Constitution Article II for circumstances precisely like this. They didn't give it to the courts, they didn't give to the governors, they gave it to you – because you represent the people of your state. State legislatures have even used this power and the failsafe measures in Amendment 12 of the US Constitution in the past to resolve contested federal elections.

The first step in this failsafe process has already been done. After seeing the overwhelming evidence of fraud in this election, and believing President Donald J Trump would have won ARIZONA in the absence of that fraud, Electors for President Trump met in your state Capitol on December 14th to vote. Their slate was sealed and transported to the President of the Senate and the D.C. Archivist. On January 6th, their votes will be counted by the President of the Senate – *if you certify them.*

AMERICAN OVERSIGHT

Therefore, as a US citizen affected by your action or inaction, I respectfully ask you to call a special session to retroactively certify the slate of Trump electors for ARIZONA.

Because you are acting in a Federal capacity, you do not require a special session as prescribed by your state constitution, but can call a special session yourselves, without restraints from your state constitution or the acquiescence of your governor or needing a 2/3 vote. You can also retroactively certify or decertify slates of electors as you see fit. This was confirmed by Professor John C. Eastman, who testified before the Georgia senate oversight committee.

I understand I am asking you to do something that will take bravery and fortitude. The perpetrators of this fraud are not going quietly, and they have threatened and harmed witnesses against them, poll observers, and Republican electors. They might threaten your jobs, smear you and call you racists and bigots. They might even go farther than that. But don't let the angry mobs sway you from doing your duty. More than 75 million honorable and grateful US citizens have your backs.

This election will go down as the most fraud-ridden election in US history. This is your opportunity to take your own place in history as one who was able to help save us from this dumpster fire by using the plenary powers given to you by the US Constitution for this very reason. It could very well save our Republic.

Thank you for hearing my plea,

LeeAnne Egge

These brave patriots understand what many of us understand, our nation is Republic and is worth saving. Because of their bravery, it appears that our nation is now headed towards a contested election.

What does that mean? It means that the fight is not over yet. Not by a long shot. So now I am writing this letter to you to implore you to do the right thing and support President Trump on January 6th at the joint session of Congress. How can you do this?

First, when the challenge comes in the joint session of Congress on January 6th, I am asking you to stand with the President. Challenge each vote for Joe Biden. Work with your fellow Republicans to stop the blatant theft of this election. We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, and we got the exact opposite.

It is up to you, in this moment, to do your constitutional duty. You cannot certify a fraudulent election. It goes against *everything we stand for as a nation. How can we expect to lead the free world, when we can't even preform the most* basic task of our government? It is your duty to protect our election.

As a Republic, we have remedies to this fraud. If and when this farce becomes a contested election, it will be incumbent upon you to support the President. He MUST win.

I want to be as clear as I possibly can be. If you do not support President Trump in his fight to stop this blatant fraud, I pledge to do the following.

I will actively campaign against you in your upcoming primary.

I will donate to your opponent.

I will cease all further donations to the GOP as a whole.

Please understand that my loyalty is to the country. If your position is to cling to power, and abandon our President, consider this your last term in the Congress. They will push anti-gun legislation, effectively stripping of us of our 2nd amendment rights. They will open the borders and give amnesty to millions of illegal immigrants. Any hope of a GOP majority in the Congress will disappear, and you will have done nothing to prevent it.

Subject: STAND UP FOR PRESIDENT TRUMP!!!

Dear Senators and Representatives,

Yesterday I witnessed electors from the GOP in the states of GA, WI, MI, NM, PA, NV and AZ stand up for the constitution and cast votes in defiance of Joe Biden and the stolen election. These brave patriots understand what many of us understand, our nation is Republic and is worth saving. Because of their bravery, it appears that our nation is now headed towards a contested election.

What does that mean? It means that the fight is not over yet. Not by a long shot. So now I am writing this letter to you to implore you to do the right thing and support President Trump on January 6th at the joint session of Congress. How can you do this?

First, when the challenge comes in the joint session of Congress on January 6th, I am asking you to stand with the President. Challenge each vote for Joe Biden. Work with your fellow Republicans to stop the blatant theft of this election. We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, and we got the exact opposite.

It is up to you, in this moment, to do your constitutional duty. You cannot certify a fraudulent election. It goes against everything we stand for as a nation. How can we expect to lead the free world, when we can't even preform the most basic task of our government? It is your duty to protect our election.

AMERICAN OVERSIGHT

As a Republic, we have remedies to this fraud. If and when this farce becomes a contested election, it will be incumbent upon you to support the President. He MUST win.

I want to be as clear as I possibly can be. If you do not support President Trump in his fight to stop this blatant fraud, I pledge to do the following.

I will actively campaign against you in your upcoming primary.

I will donate to your opponent.

I will cease all further donations to the GOP as a whole.

Please understand that my loyalty is to the country. If your position is to cling to power, and abandon our President, consider this your last term in the Congress. Our President is fighting for the soul of this country. A Biden administration will pack the courts, add states to the union, and steal the senate. They will push anti-gun legislation, effectively stripping of us of our 2nd amendment rights. They will open the borders and give amnesty to millions of illegal immigrants. Any hope of a GOP majority in the Congress will disappear, and you will have done nothing to prevent it.

Now is the time to fight. Either step up and do the right thing, or kiss your career goodbye.

The choice is yours.

Respectfully,

Thomas F Smelser II

It is beyond obvious to most of the US electors, citizens also known as YOUR BOSSES that the most recent General Election was irredeemably compromised deliberately to steal the election from Donald J Trump. We know that the reason for this is literally an attempt to take over our Country by enemies both foreign and domestic. This is literally treason and there are no political parties left, only Patriots and traitors.

If you take the side of the traitors, we the American People will ensure that you are fully punished to the gravest extent of the law. We will not allow this election and country to be stolen.

So, wake up and know that we REQUIRE you to OBJECT on January 6th, assign the electors from your State to the rightful winner, Donald J Trump. Fixing this for the next election is NOT ACCEPTABLE. You must fix THIS ONE NOW or face the wrath of the American People.

Subject: Retroactively Certify Trump Electors January 6th

As you may have heard most of the US is unsettled by the amount of fraud that took place in the 2020 Election. I am from AZ and in my experience I took my mail in ballot to the polls on Election Day. (I didn't know I could surrender it and vote in person) I do my signature with a heart and I wanted to make sure I used that on my ID which I had. (Reason I checked is because my grandma in Iowa said that many ballots were disqualified for signatures not being matched) When pulling it out the poll worker then told me. "Don't worry, they won't look at it, it doesn't matter" I then asked if I needed the outside envelope (the one with the address) she told me I did not just the signature one with my phone number. I then thought without my printed name how would they even know that was me? Nobody even looked at my ID, if I had wanted I could have easily went somewhere else and voted again. With the such close race in AZ and use of Dominion Machines and people not being able to watch signature matching this whole process was a scam. It was not transparent. It is not ok! This election was a massive scheme to disenfranchise hard working Americans from their voice being heard. I don't care who wins the election if proven 100% Joe Biden is the winner. But funny how when more and more evidence comes out it seems as if Trump is really the rightful truthful elected candidate. 1 person 1 vote! No decimals are included in that. The more I see online is gravely concerning more and more every day.

Please do the right thing and object to Joe Biden on January 6th.
It's completely obscured that a candidate who:
Can not speak clearly,
Ties to China (Son Hunter and Brother Jim)
Racist (Richard Byrd funeral, Antifa.com even redirects to his campaign sight!)
Didn't barely even campaign and didn't amass 1/1000th of a Trump event
On his 3rd time running for President got the most votes ever in history.
This is all ridiculous, this isn't what America is about. Not at all. This is the biggest lie I've ever seen in my life. Sold by Democrats RINOs and Media.

Let's not even get deep into the fraud.
Let's just talk about dominion using SolarWind
Or maybe that Antrim county report. Which is not false like that idiot sell out said at the hearing.

Please don't make us have another 1776
You as representative should be representing us. We shouldn't have to fight this hard to get you to do what is right.
Do what's right.

Hi, my name is Elichia Renteria, I live in Tonopah, Maricopa County. I'm upset with the process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:
- Oversight of the election
- Oversight of certification
-Standing with Mo Brooks on January 6th
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."
If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.
Call for a special session RIGHT NOW.

Dear Congressman,

Time is of the essence. You need to act before January 6. The Country is watching and there is a mountain of evidence proving the Election was stolen. Are you going to just sit there and allow an illegitimate person to be installed in the Presidency? The Governor and Secretary of State have committed a crime by certifying the Biden slate of Electors. Please don't allow this Election Theft to go down.

You have a Constitutional duty and every opportunity to call the Legislature back into a special session for the purpose of voting on which slate of delegates you are going to send to congress. Then you can officially send the delegates for the legitimate winner, President Trump and end this crisis.
Don't disenfranchise 74 million Americans.

This is a Historic moment and you can either step up and save the Republic or allow it to end in 2020. I hope you make the right decision.

Subject: Concerned American

Republican Legislators of Arizona,

My name is Steven Carter, and while I do not live in Arizona, the decisions that are and will be made there in the coming days will have a profound effect on my own life as an American citizen. As a college student at the University of Idaho, I am hopeful that America can continue to be the greatest country on earth, even with all the problems we face.

With that, I am deeply disappointed in many elected officials who ought to be working for the people who elect them to protect our rights and defend the law. I'm in my 20s, and I want to live in a country that has what any free country must have, and that is free and fair elections. As Benjamin Franklin said, "we have a republic, if you can keep it." It is contingent upon us, the American people, to preserve what our Founders and all those who went before us fought for.

I urge you to hold a special session of the legislature in order to retroactively certify the slate of electors pledged to President Trump (and Vice-President Pence). Some may think this is an "extreme" proposal, but we must understand the history of our own nation. The election of 1876, 1960, and 1824 were similarly fraught with questions of legitimacy, and the Founders understood that it was incumbent on the state legislatures, most of all, to fix issues with a compromised election since they are the ones closest to the people.

If such a special legislative session cannot happen, then what cause do people like me have to vote for Republicans when they do not uphold and defend the Constitution and the integrity of our laws? Indeed, we would have no cause.

Please call for a special session immediately and certify the slate of electors pledged to the President for the process on January 6th in Congress.

Sincerely,
Steven Carter, Idaho

Subject: I urge you to call a special session to retroactively certify the Trump Electors

Dear Arizona Legislators,

I am writing to you today to request that you stand with President Trump. Six different state legislatures: AZ, MI, PA, WI, CO and GA, have now conducted hearings regarding election integrity, while a U.S. Senate Committee Hearing is ongoing today.

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to academics citing glaring statistical anomalies and mathematical impossibilities, testimony of trucks and ballots of ballots being transported across state lines, to recent videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior. Further, I invite you to read the **Antrim County Dominion Forensic Audit that reveals, among many things, a high "error rate" in election software of 68.05%.** Please read the full report.

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it. The governor, attorney general and secretary of state have closed their eyes to the irregularities in your state. They have done nothing to legitimatize voters concerns thus leaving this election result the travesty they orchestrated.

The Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" t**o call a special session to retroactively certify the Trump Electors**, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee.

It is no longer acceptable as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power over electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

AMERICAN OVERSIGHT

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

---

5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Arizona State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint or retroactively certify an alternate slate of electors.

8) President Trump Electors met in your state Capitol on December 14th to vote,

9) Their slate was sealed and transported to the President of the Senate and D.C. Archivist.

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a leading expert on Constitutional law. I implore you to take up your US Constitutional duty now, and as a joint body acting in a federal capacity, **call a special session to retroactively certify the Trump Electors and decertify the Biden Electors**.

Sincerely,

Bethany Donovan

Electoral College meets and submits their votes December 14, 2020. FRAUD moves forward into the Constitutional TRAP !!!

BUT, BE OF GOOD CHEER! Only Congress Can Certify The Presidential Election on January 6, 2021, per Art. 12

The 12th Amendment to the Constitution for the United States and Title 3 of the U.S. Code give Congress the CLEAR AUTHORITY AND DUTY to get to the bottom of the allegations of fraud in the 2020 Election and determine exactly who the American people LEGALLY chose to be the next President of the United States.Presidential Electors who then cast ballots for the President and Vice-President of the United States and the States forward the ballots of these electors to Congress, but it's the sworn duty of Congress to CERTIFY THESE ELECTORS BEFORE THE VOTES ARE EVEN COUNTED in Congress January 6, 2021.

Yes, Congress Certifies or REJECTS the votes from the Electoral College BEFORE THE VOTES ARE COUNTED. Federal law gives individual members of the House and Senate the power to challenge the results from the floor... TO SAFEGUARD AN ELECTION... The framers declared that the presidential election vote isn't official until lawmakers certify the integrity of the Presidential election, and then certify the Electoral College vote.

Any challenge to the Presidential election at that time January 6, 2021, in joint session, at least One Senator and One Representative must submit in writing a challenge against the Presidential election and/or the certification of the electors to thereby invoke a Congressional investigation before eventual certification.

The good news is that Congressman Mo Brooks has already stated that he will raise a challenge. Many other Reps. Should join him; and, at least One Senator, or the whole Senate majority could join him in writing to challenge this corrupted Presidential election to potentially save our Constitutional Republic from destruction by foreign and domestic Enemies.

NOW ALL AMERICANS must contact their senators and reps to DEMAND they too must RAISE A CHALLENGE on January 6, against this corrupted 2020 PRESIDENTIAL ELECTION AND THE CORRUPTED ELECTORAL COLLEGE VOTE, to save our Constitution FOR the USA.

Once a single Congressman and a single Senator challenge the certification in writing, EVERYTHING STOPS and the House and Senate adjourn and go into individual session.

Specifically, the Electoral Count Act (3 U.S. Code 15) states:

"Upon such reading of any such certificate or paper, the President of the Senate shall call for objections, if any. Every objection shall be made in writing, and shall state clearly and concisely, and without argument, the ground thereof, and shall be signed by at least one Senator and one Member of the House of Representatives before the same shall be received.

I'm going to get straight to the point. Arizona MUST DECERTIFY election results! I am on Parler taking the pulse of the population, and I'm not certain of the extent to which our Republican elected officials truly understand how ***very dire*** this situation is progressing to become!

These so-called "80 Million" votes Biden got? They aren't REAL! The ***actual human votes*** this befuddled man legitimately received, are **less than** the 64 million votes Clinton received in 2016. Everybody knows this, or they should!

Meanwhile, 80 Million ***actual Americans***, of which I am one, voted to re-elect our President! **WE WILL NEVER ACCEPT NOR ABIDE BY, A "BIDEN PRESIDENCY!"**

The will of the majority CAN NOT be subverted by a SOCIALIST MINORITY, regardless of the COUP ATTEMPT we are seeing now, to remove a DULY RE-ELECTED PRESIDENT, FROM OFFICE!

Hasn't the DNC, "mainstream" media and "Big Tech" ever heard the old adage: **"Every action has an equal and opposite reaction?"** Do members of State and Federal legislators have ANY idea of WHAT THIS REACTION MAY BE?

I'm watching my own gated community, talking to my neighbors, listening to the people talking in the supermarket. Do you know what WE THE PEOPLE are doing, whether subconsciously or by intent? We are **PREPARING FOR WAR!** Stockpiling everything from weapons to water. Propane for generators, bulk food supplies of "non-perishables." The Supreme Court really screwed up, and when they showed themselves as COWARDS, the people were MOBILIZED!

TOO MANY PEOPLE know that Texas DID NOT "lack standing," since the Supreme Court has ORIGINAL JURISDICTION! You don't need the law school background like I have, to understand that. Just people like ME, on platforms like PARLER, EDUCATING THE PEOPLE ON THE MALFEASANCE OF SCOTUS!

If the people of North Carolina are ***literally preparing for war, and gearing up for the imposition of Martial Law,*** you can be certain that other states are doing the same! When my 15 year old, who I literally had to send to "higher ground," since I know that all Hell is literally going to break loose and my gated community accessible by foot, tells me that there are TRUMP RALLIES with swarms of people in BERKELEY, CALIFORNIA of all places, you can be certain that THE American people, the PATRIOTS of this nation, HAVE BEEN PUSHED TOO FAR!

Unless this Coup is SHUT DOWN by our Elected officials, there WILL be an UPRISING of the American people, the likes of which has never been seen, in modern-day history! So please, people, PLEASE. I don't want the hand of the EIGHTY MILLION of us to be forced! I am now armed, and am putting my ducks in a row, for a SIX MONTH PERIOD OF EXTENDED "UNREST," beginning mid-January! I stand ready to do MY PART, because I'll be DAMNED, if MY CHILD is forced to turn 18, under an EVIL, SOCIALIST "ADMINISTRATION!"

This is AMERICA, NOT AMERIZUELA, and WE, THE PEOPLE, HAVE HAD IT!

Despite the BULLSHIT MEDIA stories to the contrary, the FACT is that before EIGHTY MILLION REAL AMERICANS will roll over and accept this Socialist SCUM ticket in the White House, we WILL support the Insurrection Act, we WILL support

AMERICAN OVERSIGHT

MARTIAL LAW, and if need be, we WILL proceed to Civil War!

This COUP needs to start to take a MAJOR REVERSAL NOW! A good start would to be to DE-CERTIFY RESULTS in these "Swing States!" Once the FIRST DOMINO falls on top of the DNC's diabolical plot, the rest will follow.

There MUST be a Contingent Election on the House floor on January 6th, to give our President the second term, he LAWFULLY EARNED on Election Day. This is the ONLY outcome that THE AMERICAN MAJORITY OF WE, THE PEOPLE, WILL ACCEPT! Don't worry about recrimination or retaliation by the BLM/ANTIFA Mooks. I can ASSURE YOU, that **THE AMERICAN PEOPLE, PEOPLE LIKE ME, WILL TAKE CARE OF THEM!!**

I implore you to listen to what I am saying here, and to take the action required to stave off what is coming! Thank you.

Subject: Call a special session to retroactively certify the Trump Electors

Dear Arizona Legislators,

I am writing to you today to request that you stand with President Trump. Six different state legislatures: AZ, MI, PA, WI, CO and GA, have now conducted hearings regarding election integrity, while a U.S. Senate Committee Hearing is ongoing today.

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to academics citing glaring statistical anomalies and mathematical impossibilities, testimony of trucks and ballots of ballots being transported across state lines, to recent videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior. Further, I invite you to read the **Antrim County Dominion Forensic Audit that reveals, among many things, a high "error rate" in election software of 68.05%.** Please read the full report.

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it. The governor, attorney general and secretary of state have closed their eyes to the irregularities in your state. They have done nothing to legitimatize voters concerns thus leaving this election result the travesty they orchestrated.

The Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" t**o call a special session to retroactively certify the Trump Electors**, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee.

It is no longer acceptable as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power over electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

AMERICAN OVERSIGHT

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Arizona State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint or retroactively certify an alternate slate of electors.

8) President Trump Electors met in your state Capitol on December 14th to vote.

9) Their slate was sealed and transported to the President of the Senate and D.C. Archivist.

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a leading expert on Constitutional law. I implore you to take up your US Constitutional duty now, and as a joint body acting in a federal capacity, **call a special session to retroactively certify the Trump Electors and decertify the Biden Electors**.

Sincerely,

Jacob Harvey

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this

isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens.

Challenge the electoral votes when counted! Our Constitution is at stake, and the very structure of our Government. There are numerous questionable activities, hundreds of testimonials, and now, more and more, statisticians who are analyzing data and identifying discrepancies that show astronomical probabilities in numbers we are told to believe as "fact". But in this election, numeric “facts” do not represent the truth. Numbers don't always speak for themselves; many have stories behind them. Listen and learn from the analyses being shared. There is tremendous meaning in their message!

This is not about Trump vs. Biden, although many will make it out to be because that is the easy cop out to not take action. No one wants to "disenfranchise" people. It is NOT disenfranchisement if there is questionable activity that does not allow for a clear line of sight to the winner!

This is about the fabric of our country being ripped apart by those who want to change our country, take away our freedom and control the masses. This is about power and greed. This is about corruption and a swamp that wants to go back to being unexposed, or worse, destroy our democracy so it doesn’t matter what they do! For many, it almost seems impossible or unreal to imagine the insanity a small group of people could levy on the American people. But it is not impossible and it is happening... on a daily basis.

The American people are tired of no accountability for those who take advantage of their positions We are tired of hearing about new policies and legislation. Now is NOT the time to put more layers of bureaucracy on the situation. Now is the time to step boldly on January 6!

Have the courage & conviction to do what is right! So few have demonstrated that at a time when it is desperately needed. Even the Supreme Court shirked its responsibilities. Don’t avoid yours! If you, and others do not question the integrity of the election results based on all that has come to light , you will be no different than the people who seek the power, who harbor the greed and who hide the truth in darkness. **Don’t go there.**

Dear Congress

Yesterday I witnessed electors from the GOP in the states of GA, WI, MI, NM, PA, NV and AZ stand up for the constitution and cast votes in defiance of Joe Biden and the stolen election. These brave patriots understand what many of us understand, our nation is Republic and is worth saving. Because of their bravery, it appears that our nation is now headed towards a contested election.

What does that mean? It means that the fight is not over yet. Not by a long shot. So now I am writing this letter to you to implore you to do the right thing and support President Trump on January 6th at the joint session of Congress. How can you do this?

First, when the challenge comes in the joint session of Congress on January 6th, I am asking you to stand with the President. Challenge each vote for Joe Biden. Work with your fellow Republicans to stop the blatant theft of this election. We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, and we got the exact opposite.

It is up to you, in this moment, to do your constitutional duty. You cannot certify a fraudulent election. It goes against everything we stand for as a nation. How can we expect to lead the free world, when we can't even preform the most basic task of our government? It is your duty to protect our election.

AMERICAN OVERSIGHT

As a Republic, we have remedies to this fraud. If and when this farce becomes a contested election, it will be incumbent upon you to support the President. He MUST win.

I want to be as clear as I possibly can be. If you do not support President Trump in his fight to stop this blatant fraud, I pledge to do the following.

I will actively campaign against you in your upcoming primary.

I will donate to your opponent.

I will cease all further donations to the GOP as a whole.

Please understand that my loyalty is to the country. If your position is to cling to power, and abandon our President, consider this your last term in the Congress. Our President is fighting for the soul of this country. A Biden administration will pack the courts, add states to the union, and steal the senate. They will push anti-gun legislation, effectively stripping of us of our 2nd amendment rights. They will open the borders and give amnesty to millions of illegal immigrants. Any hope of a GOP majority in the Congress will disappear, and you will have done nothing to prevent it.

Now is the time to fight. Either step up and do the right thing, or kiss your career goodbye.

The choice is yours.

These brave patriots understand what many of us understand, our nation is Republic and is worth saving. Because of their bravery, it appears that our nation is now headed towards a contested election.

What does that mean? It means that the fight is not over yet. Not by a long shot. So now I am writing this letter to you to implore you to do the right thing and support President Trump on January 6th at the joint session of Congress. How can you do this?

First, when the challenge comes in the joint session of Congress on January 6th, I am asking you to stand with the President. Challenge each vote for Joe Biden. Work with your fellow Republicans to stop the blatant theft of this election. We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, and we got the exact opposite.

It is up to you, in this moment, to do your constitutional duty. You cannot certify a fraudulent election. It goes against everything we stand for as a nation. How can we expect to lead the free world, when we can't even preform the most basic task of our government? It is your duty to protect our election.

AMERICAN OVERSIGHT

As a Republic, we have remedies to this fraud. If and when this farce becomes a contested election, it will be incumbent upon you to support the President. He MUST win.

I want to be as clear as I possibly can be. If you do not support President Trump in his fight to stop this blatant fraud, I pledge to do the following.

I will actively campaign against you in your upcoming primary.

I will donate to your opponent.

I will cease all further donations to the GOP as a whole.

Please understand that my loyalty is to the country. If your position is to cling to power, and abandon our President, consider this your last term in the Congress. Our President is fighting for the soul of this country. A Biden administration will pack the courts, add states to the union, and steal the senate. They will push anti-gun legislation, effectively stripping of us of our 2nd amendment rights. They will open the borders and give amnesty to millions of illegal immigrants. Any hope of a GOP majority in the Congress will disappear, and you will have done nothing to prevent it.

Now is the time to fight. Either step up and do the right thing, or kiss your career goodbye.

The choice is yours.

Respectfully,

Thomas F Smelser II

Dear Senator,

Further to the information below from my previous email. I am again reaching out to you to use your plenary power to oppose the Biden electoral slates and support the certification of your Trump electors in the 6th January count. Much more evidence of fraud is now being exposed and Iam sure that you as Republicans wish to be on the side of history and keep your roles as senators in this great country of ours.

I thank you for your support and help in this historical fight for our great constitution and Republic.

Tens of millions of American citizens and the whole world is counting on you to do the right thing and have a second Republican term for President Trump and the Republican party.

Thank you,

Dear Senator ,

I am writing to you today to request that you, as a Republican, stand shoulder to shoulder with President Trump. Four different state legislatures: AZ, MI, PA, and GA, have now conducted hearings regarding election integrity, while Wisconsin is expected to hold formal hearings on December 11th. Court hearings have been proposed and docketed as SCOTUS to allow through the constitution, for legislators to send their own electors to Congress in January.

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to academics citing glaring statistical anomalies and mathematical impossibilities, to recent and shocking videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior. Iam sure you are aware of the same anomalies

AMERICAN OVERSIGHT

in your own state.

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it.

Your Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" to call a special session to choose electors, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee last week.

It is no longer acceptable for you as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power to choose electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. For every one of them behind a tree, there is an American patriot behind every blade of grass. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I am now referring you to the correct constitutional procedure in ten easy steps.

I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of choosing electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Arizona State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint an alternate slate of electors.

8) These Electors would meet in their state Capitols to vote on December 14th, or later (as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct.")

9) Your chosen legislative slate would be sealed and transported to the President of the Senate and D.C. Archivist. 10)

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a leading expert on Constitutional law. I implore you to take up your US Constitutional duty now, and as a joint body acting in a federal capacity, call a special session to appoint electors and declare President Trump the winner of your state.

Thank you for your time and American patriotism.

Subject: Please Exercise Constitutional Power and Duty to De-Certify Elector Election and Directly Appoint Electors

Representative Finchem:

Please act to de-certify the presidential elector election in your state and directly appoint the GOP electors. As I am sure you are aware, the deadline that maximizes success by this action is Sunday, December 13 because it will provide your approval of those electors meeting and voting on the date Congress has chosen, December 14, and then sending their results to the President of the U.S. Senate.

YOUR U.S. CONSTITUTIONAL POWER AND DUTY

I hope that you understand your Constitutional power and duty to take these actions.

The Source of Your Power

Art. II, Sec. 1, §2 of the U.S. Constitution says "Each State shall appoint, in such Manner as the Legislature thereof may direct . . ." the electors to vote for president. The Supreme Court in *Bush v. Gore* put it this way, "the state legislature's power to select the manner for appointing electors is plenary." 531 U.S. 98, 104 (2000). Webster defines plenary as "full; entire; complete."

You Are the Fact Finder and the Judge of What Evidence is Germane and Credible and Which Burden of Proof to Apply

Part of your plenary power is oversight to determine whether the election was conducted in the manner your state's legislature has directed in law. Since you are the final decision maker, you get to – indeed are required to -- decide what burden of proof, what evidentiary standard, what evidence you consider, and the persuasiveness of the evidence you have seen.

If you choose, you can de-certify the election only because the law has not been followed in the conduct of the election. You can place the burden on the people conducting and certifying the election to prove to you that the law was complied with. And you can require that they prove it beyond a reasonable doubt. Given the evidence available in your state, there is certainly reasonable doubt about whether your state's election law has been followed and whether any results of the unlawful process are trustworthy.

The epistemological question we face is the reality that once illegal ballots have been mixed in with legal ballots, it is very difficult, if not impossible, to determine the extent of the corruption. That is why it is important to get the rationale for your decision, the burden of proof, and the evidentiary standard down properly.

I have heard the Democrats and media imply that evidence has to be ruled upon by a fact finder in a court of law before you can make a decision about it. That is simply not true under the Constitution. In the elector selection process, plenary means that you decide everything and as the fact finders in this process, it is your judgment and wisdom that matters.

The Buck Stops With You

The Constitution does not allow you to sluff off this decision or your independent judgment to someone else.

AMERICAN OVERSIGHT

The bottom line is that the buck stops with you on the selection of electors from your state. The fate of rule-of-law, election integrity, and the future of our Republic and liberty fall squarely on your shoulders.

The Courts Might Opine on Whether Your Election Law was Violated, but You Alone Can Provide the Remedy

The U.S. Supreme Court ***might*** save you from having to do your duty to determine whether the election was conducted in the manner in which you directed. I wouldn't count on it. But they might.

But even if they do, you and your fellow legislators alone still have the duty to remedy a failed, de-certified election. You also have the unquestioned, unreviewable power to remedy the situation by directly appointing the GOP electors from your state.

Supreme Court precedent and federal law is clear about your ability to remedy a failed election for electors. You can directly appoint GOP electors once the election is de-certified for lack of reliability.

"The State, of course, after granting the franchise in the special context of Article II, can take back the power to appoint electors. See [*McPherson v. Blacker*, 146 U.S. 1,] 35 (1892)" '[T]here is no doubt of the right of the legislature to resume the power at any time, for it can neither be taken away nor abdicated'" *Bush v. Gore*, 531 U.S. 98, 104 (2000).

The *McPherson* case quoted former Justice Joseph Story from his Commentaries on the Constitution where he said that "direct choice by the legislature" of electors "has been firmly established in practice ever since the adoption of the Constitution, and does not now seem to admit of controversy ***even if a suitable tribunal existed to adjudicate upon it***." (emphasis added). Clearly the judiciary has never thought it had the power to tell state legislatures how to pick its electors. The judiciary might opine on whether the election was conducted in the manner in which you directed, but I seriously doubt that it will remedy any deficiencies in that regard.

Chief Justice Fuller hammered the point home in *McPherson*: "The power and jurisdiction of the state is exclusive." And "The question before us is not one of policy, but of power."

Federal law also supports your Constitutional duty to provide the remedy. Title 3 of the United States Code, §2 reads: "Failure to make choice on prescribed day - Whenever any State has held an election for the purpose of choosing electors, and has failed to make a choice on the day prescribed by law, the electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct."

When Your State Constitution Constrains You and the U.S. Constitution Empowers You, Which is Supreme?

Answer: The U.S. Constitution delegation of power to you is supreme over your state constitution. If your state constitution requires a super majority for the legislature calling itself into session or even prohibits the legislature from calling itself into session, your U.S. Article II mandate overrules those state constitutional restrictions. You can constitutionally call your legislature into session. And it is your duty to do so under these circumstances.

Another angle on this action on behalf of your federally delegated powers is that a meeting to de-certify and/or directly appoint electors is not a special session as usually meant by that term. It is an emergency meeting to fulfill federal constitutional duties.

While the following of the constitutional scheme is always to be admired, it is a misunderstanding of what the federal constitutional path and grant is to state that the state constitution prohibits your exercise of your plenary power.

AMERICAN OVERSIGHT

It is indeed seemingly paradoxical that the Article VI supremacy clause enables state sovereignty against a state constitution, but once one applies the supremacy clause to Article II's delegation of plenary power to you and your fellow legislators, it makes sense.

Put another way, plenary is just another way for saying no one will stop you. Nor should anyone stop you from doing what is necessary to perform your constitutional duty to insure that the selection of presidential electors is done according to rule of law.

What Happens if You Don't Remedy a Failed (i.e., un-certified or de-certified) Elector Election?

Answer: You take your state out of the race and make it much more likely that the fraudulent/illegal election in your state will mean that Biden wins.

The Twelfth Amendment details how elector votes are to be counted. The important words to be focused upon are "a majority of the . . . Electors appointed." We see in Article II that states appoint electors. If every state and the District of Columbia (see the 23rd Amendment) appoints electors, the magic number of electoral votes needed to avoid kicking the decision to Congress is 270.

But what if you and your state legislature or a court de-certifies the election, but no remedy to appoint new electors is provided by you? Your state is out of the game completely. And THAT changes the number elector votes necessary ("a majority . . . appointed") to pick the president without going to Congress.

Let's do the math on one scenario. Assume that all five (PA, MI, GA, AZ, and WI) of the GOP controlled legislatures out of the six states in play (or a court) declare(s) the election fraudulent. And assume that the Democrat-controlled legislature in Nevada and the courts allow its governor to certify the Biden electors. That would mean that the total electors appointed would be 465 instead of the expected 538. A majority for picking the president would then be 233. Before counting the six states in play, Trump leads Biden by 232 to 227. If Nevada is added to that array for Biden and if the 5 other states have walked off the field by refusing to appoint electors, Biden wins 233 to 232 without going to Congress.

The point is that stopping certification of your state's election alone, without you directly appointing electors, is unlikely to stop the corruption of the election from rewarding the malefactors in your state with a Biden victory.

THE "RESULTS" OF A CORRUPTED ELECTION REPRESENT THE THWARTING OF THE WILL OF THE PEOPLE

Politically, the biggest argument against doing your duty to enforce the election laws of your state and the U.S. Constitution is the charge that by de-certifying and remedying that with direct appointment you are "thwarting the will of the people" or "reversing the results of an election."

Those charges, of course, are completely untrue. If the corruption in question produces reasonable doubt about the integrity of the "results," they do NOT represent the will of the people. Corrupted results represent a victory for those who would steal our rule-of-law, our Constitutional Republic, and our liberty. Corrupted results represent the will of wannabe tyrants – not the people.

Put another way, a corrupted election no more represents the will of the people than a bank heist represents the will of the depositors.

SOURCES AND AUTHORITIES

I have done my own research on this topic by reading the Constitution, the Supreme Court precedent, the federal statutes in question, as well as the commentary by the Congressional Research Service.

AMERICAN OVERSIGHT

The source that has most influenced me was the presentation of Chapman constitutional law professor John Eastman to a committee of the Georgia Senate on December 3, 2020. This direct testimony and his answers to questions is a constitutional tour-de-force on the issues you face in this decision. There is no better time spent than to watch the 37 minutes of this video if you have not seen it. Professor Eastman makes clear that the plenary power delegated to you by the U.S. Constitution is supreme to your state constitution and statutes. He says that means that you can call your chamber into session with a simple majority for this purpose, even if your state constitution says differently in other circumstances:

https://www.facebook.com/texasconstitutionalenforcement/videos/1354286434913314

I first started thinking about this issue after reading this article by Daniel Horowitz (https://www.theblaze.com/op-ed/horowitz-yes-state-legislatures-do-indeed-have-the-final-say-over-this-election). That was a follow up to his original article (https://www.theblaze.com/op-ed/horowitz-state-legislatures-rectify-election-fraud).

I found a great introduction to the federal statutes on the elector process at the Congressional Research Service: https://crsreports.congress.gov/product/pdf/IF/IF11641

These two articles on the general topic of the role of the state legislatures in elector selection may be useful as well. The first is entitled, "State Legislatures' Exclusive Power to Choose Electors." (https://www.texasfreepress.com/post/state-legislatures-exclusive-power-to-choose-electors) The second is entitled, "Presidential Endgame Being Set Now." (https://www.texasfreepress.com/post/presidential-endgame-being-set-now).

FALLBACK POSITIONS IN CASE YOU CANNOT PERSUADE YOUR FELLOW LEGISLATORS BY DEC. 13

The Rutherford Hayes Strategy

If your fellow state legislators fail to join you by December 13 in directly selecting electors, I have a fallback plan called the "Rutherford Hayes Strategy." Persuade the GOP electors in your state to meet on December 14, vote, and send their results to the President of the Senate.

This will buy you time between December 14 and January 6 when the envelopes are opened by Vice President Pence for you and your fellow legislators to directly appoint them. When Vice President Pence is confronted with two slates of votes from your state, he will be constitutionally bound to use the elector votes from those you have appointed. I wrote this article to discuss that idea more:

https://www.texasfreepress.com/post/independent-gop-elector-action-can-buy-time

The Election Day Failure Strategy

This might be called the "Never Retreat, Never Surrender" legal strategy. The argument is that the federal statute says that a state has to select electors on one day, general election day, November 3, 2020. If the selection is not made on that day, the statute says it is a failed election and the selection is void. For the states in that position (one of which the author maintains is yours) to have valid electors, the state legislature must directly appoint them.

Here is the link to the paper on this topic: https://www.thepostemail.com/2020/11/18/elections-undecided-by-midnight-are-void-9-0-decision

The author says that the right people (and I presume you as a legislator would have standing) in each state merely have to file a federal suit to this effect and it is highly likely to win. He cites Supreme Court precedent to back up his argument.

AMERICAN OVERSIGHT

Note that if this argument is successful, it will be the federal judiciary (probably the Supreme Court) that de-certifies, and IF the states in question are going to get electors, you will STILL be on the hook as a state legislator to appoint your electors directly.

I note that without the six states in question, Trump currently has a lead of 232 to 227. Of the six states in play, the state legislatures in five of them for a total of 73 electoral votes are controlled by GOP legislatures. Only Nevada with 6 votes has a Dem-controlled legislature.

CONCLUSION

I consider you to be like the men at the Battle of the Bulge. In the war to protect rule of law, election integrity, the Constitution, and our liberty, you are in the breach while the enemies of all that are trying to punch through right now. I can only watch from afar and hope that you stem the tide. I urge you to lead your legislature to exercise your constitutional power and duty, and save the Union. And please do it now! The clock is ticking.

Subject: State Legislatures' Plenary Power re Electors.

Dear Representative,

☑ I request, given the constitutional violations during the Presidential and VP elections by the states of AZ, GA, MI, NV, PA, and WI, that electors either be sent as Trump loyal electors or NO slate of electors be sent to the President of the Senate.

"A recent poll by the reputable Rasmussen polling firm indicates that 47% of all Americans (including 75% of Republicans and 30% of Democrats), believe that it is "likely" or "very likely" the election was stolen from the current incumbent President." December 8th.

🔍 Can you do this? State Legislatures' Plenary Power re Electors.

🔍 🔍 🔍 GOP State Legislatures can call themselves into special sessions for the appointing of electors by a simple majority vote. They do NOT need permission from their governors, nor a 2/3 vote. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is preempted by US statutes & Supreme Court decisions.

🔍 Per McPherson v. Blacker (1893) & Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power. 🔍 Plenary = they have "absolute" authority, and it cannot be questioned. This right has not been exercised since 1876.

🔍 In McPherson, SCOTUS held Article II constrains each state's capacity to limit its legislature's ability to appoint electors. In short, no state constitution's law can abrogate or alter the State Legislatures power in appointing electors. 🔍 Because on deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

🔍 For example, the Pennsylvania State Legislature, via Zoom, could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress) and immediately appoint Trump loyal electors. 🔍 These Electors would meet in the US Capitol to vote on December 14th (or later, as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct.") 🔍 Their votes (a slate) would be sealed and transported to the President of the Senate. 🔍 On January 6th, they're counted by the President of the Senate.

🔍 🔍 Texas v GA, MI, PA, and WI case. Here's the summary:

AMERICAN OVERSIGHT

Texas states that there are only TWO elected positions that are voted on by every American - the President and the VP. Therefore, every state has the responsibility to follow the statutory laws and ensure an honest election because their actions have a huge effect on all the other states in the US.

The lawsuit outlines that the states acted outside of their state election laws, behaved in ways that favored one candidate. There are many witnesses and videos of "rampant lawlessness." A statistical analysis of the election data shows that Biden overcoming Trump's lead as of 3 AM on Nov. 4th is less than a 1 in 1,000,000,000,000,000 chance.

Problems with equipment: A laptop and USB drives used to program Dominion machines were stolen in PA in October. The Dominion machines "glitched" causing 6000 Trump votes to count to Biden. A flash drive containing 10s of 1000s of votes was left unattended in the early hours of Nov 4th.

🔍🔍Then, the lawsuit breaks downstate to state issues:

🔍 Pennsylvania: PA received 400,000 MORE mail-in ballots than they mailed out. PA was ordered BY THE SUPREME COURT OF THE UNITED STATES to separate any ballots that came in after the state law required deadline of November 3rd - but the election officials refused and mixed the late ballots with ones that came in by the lawful cut-off date making a re-count impossible - and in complete disregard of the Supreme Court of the US ruling. PA opened mail-in ballots prior to Election Day, against state law, in Democrat counties only, so they could "cure" the ballots prior to Election Day. There are more violations ... but that's a summary.

🔍 Georgia: The Georgia Democratic Party, in March 2020, took GA to court and reached a settlement with the Secretary of State (who did not have the legal authority to make this settlement) that made it more difficult to reject a ballot for non-matching signature. Training on this program for poll workers was agreed to be done by the Democratic Party itself. This court settlement with the GA Secretary of State was never made GA law and therefore violates the Constitution's requirements for this election. If the process of signature verification had not been altered illegally, it likely would have meant an increase of 25,587 votes for Trump and a win in the state.

🔍 Michigan: MI law allows voters to request mail-in ballots without a reason (as of 2018). Michigan's Secretary of State, without authority, decided to send a mail-in ballot to every registered voter instead of only to those who requested it. By law, a voter MUST REQUEST a ballot to vote mail-in. This resulted in 7.7 MILLION mail-in ballots being sent out - something that the voting process in MI was not prepared to handle. In June 2020, the Secretary of State had also launched a program, without authority, to eliminate signature verification from the mail-in ballot approval process. It is estimated that these illegal modifications to the election process shorted Trump by 322,925 votes overall.

🔍 Also in MI, signed affidavits exist for poll workers and for one whistleblower who is an employee of the City of Detroit Elections Dept. The whistleblower (a 10-year city employee) states that, while processing mail-in ballots, they were instructed to ignore signature matching altogether. This tabulating site counted 174,384 votes with NO REGISTRATION NUMBER - in other words, not tied or associated to any voter ... but other ballots did have a registration number so it could be traced to a specific voter.

🔍 More in MI: The number of mail-in ballots collected did not match the number tabulated confirming what poll watchers believe - that the same ballots were run through multiple times. The Republican members of the MI Board that votes to "certify the election" rescinded their initial approval of the certification based on being told inaccurate election info by the Democratic side and because of being threatened and bullied by the Democratic side.

🔍 Wisconsin: The Wisconsin Election Committee created over 500 mail-in ballot drop boxes that were unmanned and unmonitored throughout the state, contrary to state law. Collection facilities must be in county clerk type offices and manned and staffed at all times. State law specifically says that these dropbox ballots are not allowed to be counted. On March 25, 2020, the WEC instructed voters to declare themselves to be "indefinitely confined" - a status that allows the ballot to bypass signature verification and photo ID requirements. The Republican Party took WEC to the

AMERICAN OVERSIGHT

WI Supreme Court and this was ruled legally incorrect (to falsely say you are indefinitely confined). Even so, WEC refused to remove any voter from this status thru the voting season even if the voter requested to be removed.

🔍 In WI, the law requires that mail-in ballots have the voter signature and an additional "witness signature" to affirm the address of the voter. Poll workers were told to add addresses for the witnesses where they were missing - against state law - and count the vote.

🔍 In WI, a USPS subcontractor signed an affidavit that he witnessed USPS employees backdating ballots' postmarks that were received after the election cutoff. He also heard a senior USPS manager state that USPS employees had lost a batch of 100,000 ballots and were searching for them after Election Day.

🔍🔍 Texas summarizes with three charges: Electors Clause, Equal Protection, and Due Process.

🔍 1) The Electors must be legally selected following the state laws or they cannot cast constitutionally valid votes in the Electoral College.
🔍 2) Equal Protection requires that all ballots be given equal treatment.
🔍 3) Due Process was violated because laws were not followed with the purpose of favoring one candidate over another.

🔍🔍 What is the lawsuit asking for the Supreme Court to do?

✔ Declare that these states acted outside their own state election laws, that any electoral college votes cast by electors sent due to these elections not be counted, that a count of electors must be delayed while this lawsuit is pending, and direct the states to appoint new electors to the Electoral College by special election or appointment.

☑ I request, given the constitutional violations during the Presidential and VP elections by the states of AZ, GA, MI, NV, PA, and WI, that electors either be sent as Trump loyal electors or NO slate of electors be sent to the President of the Senate.

"A recent poll by the reputable Rasmussen polling firm indicates that 47% of all Americans (including 75% of Republicans and 30% of Democrats), believe that it is "likely" or "very likely" the election was stolen from the current incumbent President." December 8th.

Thank you for your consideration,

Subject: You have plenary authority!

Dear Legislators of Arizona,

State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is preempted by US statutes & *Supreme Court decisions.*

1) Per McPherson v. Blacker (1893) & Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = they have "absolute" authority, and it cannot be questioned.

3) This right has not been exercised since 1876 .

4) In McPherson, SCOTUS held Article II constrains each state's capacity to limit its legislature's ability to appoint electors.

5) In short, no state constitution's law can abrogate or alter the State Legislatures power in appointing electors.

6) Because on deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Pennsylvania State Legislature, via Zoom, could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in a open letter to the US Congress) and immediately appoint Trump loyal electors.

🤓 *These Electors would meet in the US Capitol to vote on December 14th (or later, as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct."*

9) Their votes (a slate) would be sealed and transported to the President of the Senate.

10) On January 6th, they're counted by the Prez of the Senate .

11) Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings.

Subject: URGENT SPECIAL SESSION

Dear Rep. Finchem ,
I writing to you today to request that you, as a Republican, stand shoulder to shoulder with President Trump. Four different state legislatures, AZ, MI, PA, and GA have now conducted hearings regarding election integrity, while Wisconsin is expected to hold formal hearings on December 11th.
The evidence is now overwhelming. From thousands of eye whiteness with sworn affidavits, to academics citing glaring statistical anomalies and mathematical impossibilities, to recent and shocking videos form Fulton County, GA showing clear violations of GA state election law and probable criminal behavior. The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it.
Your (insert state) legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote of (insert state) was corrupted. Establishing this, your legislature has "plenary power" to call a special session to choose electors, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee last week.
It is no longer acceptable for you as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power to choose electors for good reason - for precisely these circumstances. Do not be afraid of intimidated by the mob. For every one of them behind a tree there is an American patriot behind every blade of grass. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I am now referring you to the correct constitutional procedure in ten easy steps.

I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of choosing electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.
You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is preempted by US statutes & Supreme Court decisions.
1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.
2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.
3) This right was exercised by the Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.
4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".
5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.
6) This is because on deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Pennsylvania State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint an alternate slate of electors.
8) These Electors would meet in their state Capitols to vote on December 14th, or later (as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct.")

9) Your chosen legislative slate would be sealed and transported to the President of the Senate and D.C. Archivist. 10)
On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is leading expert on Constitutional law. I implore you to take up your US Constitutional duty now, and as joint body acting in a federal capacity, call a special session to appoint electors and declare President Trump the winner of your state.
Sincerely, Ryan Keane

Subject: Election

Our November election in Arizona was filled with corruption and fraud. Having sat through the meeting that was held which presented evidence from numerous sources indicating that there were statistical anomalies, sharpies were used in polling stations when the ballots clearly stated that pens should be used, people were voting with California licenses from two apartment buildings, votes were changed from Trump to Biden during a testing session with the Dominion hardware/software, etc. It was a lengthy session but I was glad to see that my representatives were willing to listen to the people who actually worked the polls.

I believe the citizens of Arizona would have objected to the use of the Dominion hardware/software had we been informed that this corrupt system was going to be used in our elections. Why would we want our votes to be sent to a foreign country?

I am also convinced that there were people who voted in this election illegally. Voting is a privilege and duty for citizens of this nation. It should not be abused by people who are not citizens.

It is time to do the right thing and fight election fraud. We, the people, did our duty and voted. Now it is time for you to fight for your electoral base. We need a forensic audit and if this

AMERICAN OVERSIGHT

isn't possible, invalidate the certification and reject the electors. The passing of this election by any person would be considered unlawful and illegal, those which had already blessed off on it, (ie: Gov. "Rosco" Ducey), needs to be investigated. January 6th is still a date in which the decision for the presidency remains to be further adjudicated, legislatively.

Thank you for the work you do for this state and its citizens. I will continue to email you on this issue and get others to do so as well until you are out of office or till the elections are not corrupt.

Regards,
Roberson

While this may not have been your original intention, your actions did, in fact, help to fuel the fire that lead to these events. Shame on you. Shame on your actions, shame on your denials, shame on you for what you have done to our democracy. These are the proud Americans the GOP has attacked for crimes committed by ANTIFA and Black Lives Matter this week.

Do YOU think THESE patriotic Americans will want to donate our hard-earned money to GOP candidates in the next 90 days?? In the next 6 months??
In the next 12 months?? In the next 2 years??

The GOP needs to deliver heart-felt apologies to Trump supporters for confusing them with violent psychopaths in Antifa & BLM
who rioted on Jan. 6 & stabbed a Trump woman between the eyes with a sharp weapon on Jan 5, trying to gouge her eye out the night before the rally.
You accused the WRONG people for crimes JOE BIDEN's SUPPORTERS have done to us.

Joe Biden must be IMPEACHED for violence committed by his supporters to stop the peaceful transition of power, also for pay to play corruption with China & Ukraine, China's interference in the 2020 elections; conspiracy to commit election fraud. And his threat to withhold $1 BILLION in foreign aid from Ukraine unless Kiev fired their Attorney General to stop the criminal investigation of Burisma.

Those are JOE BIDEN"S Crimes Against America. We the People will remove him from power by impeachment.

Mr. Finchem, I urge you to take action against the malicious and deceptive attacks against our American Constitution and free elections. The attacks on our nation's capitol must be harshly condemned and those complicit in those actions must be held to account. James Madison argued in Federalist Paper #55 that "as there is a degree of depravity in mankind which requires a certain degree of circumspection and distrust, so there are other qualities in human nature which justify a certain portion of esteem and confidence. Republican government presupposes the existence of these qualities in a higher degree than any other form." Our Constitution represents an imperfect agreement that relies upon the qualities in human nature which justify a certain portion of esteem and confidence that make our grand experiment in democracy so potent as a force for freedom from oppression while allowing for strong dissenting voices. What happened yesterday is the most dramatic strike at our nation's institutions that are larger than any one person's cult of personality. I urge you to take action to protect our rights as citizens of the State of Arizona and of our larger nation by urging the lawmakers and executive branch to investigate violations of our State election laws and to urge prosecution of laws that were broken. I further urge you to take the voices of your Arizona constituents (whether they voted for you or not), and reinforce the qualities that strengthen trust, confidence and truth as a basic expectation and a moral imperative for the safety of our democratic republic.

Subject: The March to Save America
Attachments: untitled-[2]

My friend in Utah sent this to me.

This is from my former classmate who attended the DC March to Save America:

Washington D.C., 06 Jan. 2021 Journal

07:15: Left Alexandria on the Metro, arriving Federal Triangle around 08:00. Made our way on foot to the Washington Monument, following the huge crowds streaming
in that direction, filling the streets and sidewalks, with the city streets empty of vehicles
except police units and other barriers to use other than pedestrian.
Around 08:45, merged with wall-to-wall Trumpsters, all waving banners, flags, signs, smiling,
chanting, and generally having a great, peaceful and convivial time on the grass East of the
Monument. The area between the Monument and the Ellipse including all grass and paved areas
was shoulder-to-shoulder "rioters", listening to songs over the P.A., the entire Trump family live
giving speeches (even though we could only see them on the Jumbotron), and assorted "characters",
including NYC's famous "Naked Cowboy" in his skivvies and cowboy hat in 40 degree, 15-knot
windy weather. The Epoch Times was well represented. It was refreshing to see so many YOUNG
people around college age acting for Trump.

We were getting really cold from the whipping wind off the Potomac, so around 11:00 pushed our
way out of the packed Monument area and headed up Constitution toward the Capitol. By this time,
we were quite cognizant of the paucity of portable toilets- Muriel Bowser had made certain that
out-of-town guests in large numbers would be uncomfortable. As we approached the Capitol, we
learned of some "facilities" available on 3rd St. which had a very long line. Without an alternative,
we stood in line 45 minutes, striking up conversations with like-minded individuals. One interesting
such occurred with a Shanghai Chinese gentleman, born to a well-off family

AMERICAN OVERSIGHT

, who fell afoul of the
infamous "Great Leap Forward". He and family spent 14 years in a labor camp, losing family members
and fortunes in the process. He was able to escape to the U.S. with $40 in his pockets, and became a
strong conservative voice in California's Bay area, an elected School Board member, and now a middle-
aged Trump supporter. (I've deleted many details of his amazing story here.)

By now it was approaching 13:00, and we were among the early arrivals at the Capitol's defensive perimeter,
which consisted of temporary moveable barriers and plastic snow-fence on metal poles driven into the grass-
covered West lawn. We didn't visit the Capitol East. The long line of motorcycle and police car-escorted
Congress members in black Chevy Tahoes was arriving to much siren fanfare. By a little after 13:00, the
crowd had arrived from the Washington Monument rally and within a few minutes the first breach was made.
With bullhorns shouting "It's YOUR house, come on in", siren sound effects and marching drumbeat effects,
the crowd, still peaceful, entered the West lawn area, extending into the temporary bleachers set up (apparently)
for an inauguration, then eventually occupying the 1st level balcony of the Senate balconies, the camera/broadcast 4-story platform (on which a giant "TRUMP 2020" flag was secured), and the approach walkways North and South, as well as most of the grassy area.
Those of us not breaching the barriers still covered the paved area between Pennsylvania and Independence Avenues, around the reflecting pool, and both sides of the Capitol.

There didn't appear to be much police resistance to the breach of their weak "perimeter"until all available space
inside the original boundary was occupied when reinforcements then arrived. We heard many flash-bangs and saw many clouds of apparent tear gas or pepper spray being used, but couldn't be certain who deployed them. Crowd rumor said that protesters had large water "squirt-guns" loaded with pepper spray.
Around 15:00, we heard about the 18:00 curfew enacted by Bowser, and since the crowd had started to thin, decided that before the Metro became too crowded we'd head back to Alexandria. The closest station to us was Capitol South, but it was closed due to a bomb threat, so we were directed to Federal Center, several blocks away.

As we left, the AR-15-toting police (National Guard?) were arriving in droves, with their magazines inserted, ballistic armor, hard helmets and face shields donned, and serious attitudes toward us "peaceful" Trump flag-and-sign bearing citizens.

The Metro ride back to Alexandria was much more lively than the earlier one. Now the cars were packed with Trumpsters, all recounting their experiences, including some very entertaining stories from some. Having

AMERICAN OVERSIGHT

been on our feet with no relief for 8 hours, and having shivered in the wind and walked from the Monument to Capitol plus 2 Metrostation searches, , the Metro seats felt absolutely luxurious!

Reflections:
This excursion brought home with force the biases, lies, sensationalism, double-standards, and uselessness of the Lame-stream media which now unfortunately, includes Fox News. (except for a couple of select anchors/commentators). We do not need to be lectured about "criminal behavior", "riotous acts", "sedition", "insurrection", "mobs" or "unhinged" behavior by the likes of Fox News, any Cuomo brother, any R.I.N.O. such as Turtle McConnell, or any Dumbascrap. Nor do we need any conspicuously-silent R.I.N.O like little M. Rubio saying our march was "anti-American anarchy". BTW-where is our Rick Scott in all this? Another conspicuously silent "Republican". Today's "outrage" was sorely absent during last Summer, when left-wing Sleepy One voters were truly rioting, burning, looting, murdering, and destroying public and private property in several major U.S. cities. Where was the outrage then?

To hear the LSM (Lamestream Media) say that President Trump "incited" our march is revolting and disgusting. Any American with 2 brain cells to rub together knows that The Sleepy One had the November election stolen from Donald Trump, not only by Big Tech, but by RINO Governors, weak-minded state legislatures (RINOs), and the Deep State Establishment. To resist such outright theft is conspiratorial?-I think not!

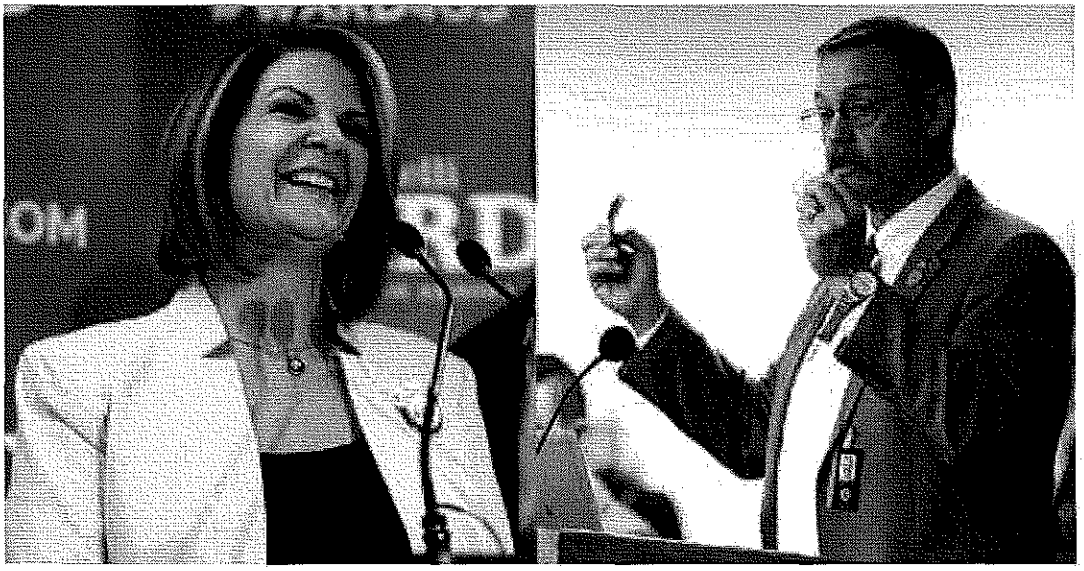
Ward and Finchem Disgrace Themselves With Their Reactions to the Trumpist Coup Attempt at the Nation's Capital

David Gordon



It is time for members of the Arizona Republican Party to decide what people they want to lead them.

In their reactions to the attempted insurrection by Trumpist mobs at the nation's capital, current Republican Party Chairperson Kelli Ward and Legislative District 11 State Representative Mark Finchem disgraced themselves and clearly showed that they should not be entrusted with any leadership positions.

Check out Ms. Ward's social media posts on Twitter yesterday (January 6, 2021.)

AMERICAN OVERSIGHT

These examples especially stand out.

https://twitter.com/kelliwardaz/status/1346917946170306563

This is simply bull fecal matter. What could have prevented this is people like Ms. Ward and Donald Trump not spoonfeeding their unhinged base two months of baseless lies about fraud and a rigged election. Trump and his enablers (like Rudy Giluani who called for trial by combat) that spoke at the rally that sparked the attempted coup that resulted in four deaths should be held accountable.

https://twitter.com/kelliwardaz/status/1346916480667930624

Another Lie from the Trump Zone and Fox Island. Joe Biden and other Democrats repeatedly condemned rioting during the summer while cheering on the great majority of peaceful protestors

https://twitter.com/kelliwardaz/status/1346906184557625345

The last tweet example is especially interesting considering Ms. Ward wants to run for reelection to remain the Chairperson of the Republican Party.

Compare Ms. Ward's reactions on Twitter with her Democratic Party counterpart, Felecia Rotellini who wrote:

"On December 14th, Arizona's eleven electoral votes were cast, pursuant to the will of the people, the laws of Arizona and the United States Constitution, for President-elect Joe Biden and Vice-President-elect Kamala Harris. Arizona's Electoral College vote happened after Republican Governor Doug Ducey declared the November 3 election was conducted with integrity, transparency and in accordance with Arizona laws.

Sadly, following the November presidential election, leaders in positions of power, including the President, have peddled lies and conspiracies in an effort to further their own political ambition. These unsupported allegations, that even Trump-appointed judges have rejected, continue to enable a president who cannot accept defeat in a fair fight; the popular vote of an overwhelming majority of Americans or the Electoral College's margin of victory, not dissimilar to his own 2016 victory. Now our president is fueling the protests, vandalism and violence on our Capitol. We are watching the events unfold and the scenes are despicable and shameful. It is terrifying to watch this seditious assault on our democratic republic. We pray for the safety of all and are grateful for the bravery of the Capitol Police and the law enforcement agencies that have come to their aid.

A dangerous precedent has been set by people more interested in appeasing Trumpism than living up to their oath of office. When leaders ignore the will of the people and make decisions based upon political ambition and blind faith in an ideology, government fails and terror and chaos results. To the Arizona Republican U.S. Representatives who objected to the Arizona Electoral vote, casting doubt on the

AMERICAN OVERSIGHT

integrity of the 2020 vote count, I ask you – How can you challenge the integrity of the vote without also placing your own election in question?

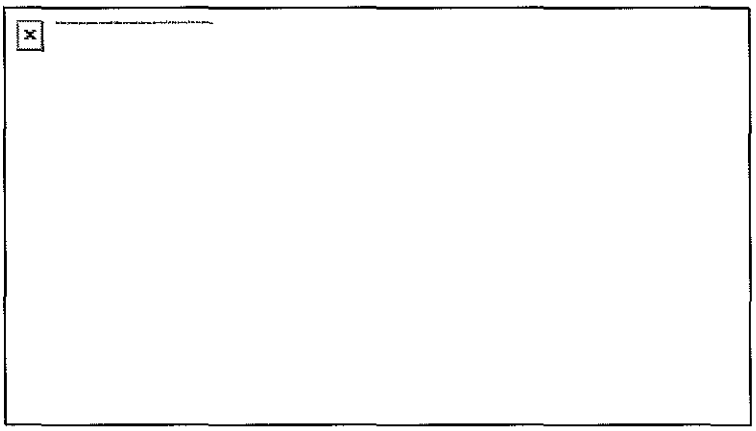
Despite these chaotic and unprecedented times, we deeply believe in America, our Constitution, and our Republic. We are so proud of our Arizona Democratic leaders who spoke with such eloquence and passion today in defense of Arizona's election system and their duty to serve all constituents, choosing the Republic over personal preferences, defending truth, and living up to this nation's promise.

As even Senate Majority Leader Mitch McConnell acknowledged today, Congress cannot declare itself the "national board of elections on steroids" and overruling the will of the people "will damage our republic forever" – Joe Biden is the next President of the United States."

One Party Chairperson (Ward) is a rabble-rouser. The other (Rotellini) is a statesman.

Hopefully, the people in the Republican Party will not reelect this disgrace and disgrace to public service.

While they are at it, the people of Legislative District 11 can recall Mark Finchem. His tweets are more unhinged than Wards. He apparently was at the nations capitol when the Domestic Terrorist attack occurred.



From Twitter

Please view some examples below.

Mr. Finchem: Believing baseless charges of political fraud spread by people like you is no excuse for committing acts of domestic terrorism.

Really. Following the Constitution and affirming the 2020 election results is how a Republic dies.

Commie Mayor of DC????

Newly elected Pinal County Democratic Party Chairperson (and LD 11 State Senate Candidate) JoAnna Mendoza reacted to Mr. Finchem's remarks writing:

AMERICAN OVERSIGHT

"What happened today at our nation's Capitol was an act of domestic terrorism. We and the rest of the world watched this attack on America's democracy, incited by an American President and carried out by citizens who have pledged allegiance to a man rather than to upholding our Constitution. This attack on our democracy was not a result of "people feeling like they have not been heard." Today was a deliberate result of lies, misinformation, and conspiracy theories. Today was a call to action by Trump and was answered by his enablers, including Mark Finchem. It's no secret that Mark Finchem is a member of the Oath Keepers, one of the largest radical anti-government militia groups in the United States. It is imperative that every elected official, Mark Finchem included, condemn the actions we witnessed today and encourage a peaceful transfer of power. Any action to overthrow our government is treasonous. Those committing and/or enabling these acts must be treated as domestic terrorists."

Doug Ducey is probably a Democrat in Mr. Finchem's mind.

By the way, Ducey at least struck the right note on yesterday's attack, writing on social media:

"In America, we practice peaceful transitions of power. We respect the law and law enforcement. The scene at the United States Capitol right now is wrong and has no place in our form of government. All should denounce, and it should end now."

Ward and Finchem, by spreading disinformation about the election results, are accomplices to the seditious behavior of their supporters and kindred spirits that attacked the center of American Democracy yesterday.

They should resign from public service forever.

If Finchem took an active part in the attack, he should be investigated and possibly arrested.

Recognizing that is not going to happen, it is time for mainstream Republicans to clean their political house of the vermin Ward, Finchem, and others like them represent.

People that excuse acts of domestic terrorism and insurrection against the Republic should not occupy positions of public responsibility. They should be shunned back into the wilderness where they belong.

·NEWS NOTES AND GOSSIP·

DEMOCRACY – IT WAS FUN WHILE IT LASTED

As armed Trump supporters battled police in the streets and stormed the US Capitol today, thousands of protesters showed up at the Arizona Capitol, bringing a guillotine and following a member of the press corps around accusing him of being an undercover Antifa member. Congress is supposed to certify the results of the Electoral College today, sparking protests across the country and violent insurrection in DC. The *Arizona Mirror's* Jerod MacDonald-Evoy tweeted this morning that a militia member told him protesters believe he's an undercover agent of Antifa. "Now it appears I'm being followed around the event," he wrote. Armed militia members have set up at the state Capitol building, and protesters were chanting "f*ck Joe Biden" and urging their ranks to stand up to the government "like they did in DC." Finchem, who is in DC for the riot there, egged on protesters and supported their attempt to violently overthrow Congress. "What happens when the People feel they have been ignored, and Congress refuses to acknowledge rampant fraud," Finchem tweeted. The protests in Arizona have so far remained peaceful, if tense, and have paled in comparison to the violent insurrection happening in DC. However, Kelli Ward and incoming Sen Wendy Rogers are both expected to speak at the Phoenix rally later, and Capitol denizens are concerned that the protest and violence could ramp up after Ward arrives. Ward, her communications director Zachery Henry and the official AZGOP Twitter have shared multiple tweets justifying the action in DC. "You know what could have prevented this? #ElectionIntegrity and full transparent investigations into 2020 fraud," Ward said in one tweet. "Funny to hear Democrats saying that people are 'desecrating' the Capitol. What did they say when BLM & Antifa vandalized, looted, terrorized, and burned? Seems like similar behavior called very different things," she said in another. The AZGOP twitter just last month asked its followers if they were ready to die for this cause. Meanwhile, the Senate sent its staff home after protesters began to pound on the doors of the House and Senate buildings. Hobbs, who has become accustomed to election-related threats, told her staff to stay home today in anticipation that the protests at the Capitol could get out of control.

BETTER LATE THAN NEVER

Meanwhile, a handful of Republicans forcibly condemned the rioting in DC, including the governor. "The scene at the United States Capitol right now is wrong and has no place in our form of government. All should denounce, and it should end now," Ducey tweeted. His denouncement did little to quell those within his own party, and only enraged Democrats, who accused him of being spineless and complicit with Trump's manufactured claims of fraud. Brnovich chimed in that people should demonstrate peacefully. "This is America. We do not destroy buildings and institutions in order to save them," he tweeted, still implying that protesters are attempting to save the nation from electoral fraud, despite his official stance that there has been no evidence of fraud in Arizona's election. Shope, Weninger, Osborn, Boyer and Carter are among a handful of legislators who denounced the rioters. "I support people there using their 1st amendment rights. But if you're being violent or vandalizing anything or breaking into congressional buildings, that is disgusting & I hope you are found & prosecuted," Weninger tweeted (LINK). Boyer joined in the call for prosecutions, tweeting "Arrest and prosecute those who trespassed and committed crimes in our nation's capitol. Conclude the proceeding and confirm" (LINK).

IT'S ALL FUN AND GAMES UNTIL THEY STORM YOUR BUILDING

Some of Arizona's most fervent conspiracy spreaders in Congress – the same lawmakers who have been urging their supporters to "hold the line" and be ready to fight for the country's soul – are locked down and tweeting for their supporters to go home. Gosar, who has been a vocal supporter of unfounded election fraud claims and subsequent protests, is suddenly not supportive of what his followers are doing in DC. "Ok. I said let's do an audit. Let's not get carried away here. I don't want anyone hurt. We are protesting the violation of our laws. We are builders not destroyers. BLM burns and loots. We build. If anyone on the ground reads this and is beyond the line come back," he tweeted. On the alt-right social media platform Parlor, he took a different tone, posting a photo of protesters climbing the walls of the Capitol and adding, "Americans are upset." Biggs, the state's other chief conspiracy theorist, has neither condemned the violence nor added more fuel to the fire today, and has been silent on social media. Lesko, who has been among Trump's top supporters, but has stopped short of going full-blown conspiracy theory about the election results, condemned the violence, saying, "Violence and breaking into the U. S. Capitol is dangerous and totally unacceptable."

IT'S CRAZY EVERYWHERE

Amid the protests happening at the Arizona Capitol, new security measures have already been put into place for the Executive Tower to limit access into the building for everyone. A Dept of Public Safety spokesman told our reporter they were monitoring the "stop the steal" rally at the Capitol, but sources inside said things have been relatively quiet and nothing like what is happening in DC. The Dept of Administration, however, has already been leading an effort to beef up security measures – mostly for the protection of Ducey and Hobbs, who've been dealing with their own threats and harassment over the November election. Nobody will have access to the basement, seventh, eighth or ninth floors of the building without an escort. Media and members of the public used to be able to access all but the ninth floor without a security badge. Neither DPS nor ADOA would provide our reporter with specific information on the new security measures that took effect on Dec 14 and will be in place indefinitely. "Security procedures at the State Capitol have been enhanced not for any one specific event but just to ensure the safety of the public. ... Our policy is not to discuss specific security measures," a DPS spokesman said.

TRUMP'S END IS NOT THE END OF TRUMPISM

Kelli Ward last night announced that she would seek re-election as chair of AZGOP, saying Trump told her she needed to run. "I'll be honest, even at that point, I was on the fence. But I thought I owed it to the president to give it some serious consideration," she said in a video posted to Twitter (LINK). She described her fellow Republicans who have refused to go along with unfounded conspiracies that the election was stolen as "cower(ing) to the mob" and pledged to continue fighting them. "There's some potentially dark days ahead of us in the Republican Party because we've been let down and abandoned by some of the people we elected and supported who refused to investigate allegations of fraud in our elections," she said. Democrats were giddy at the prospect of another term, arguing Ward is their best weapon to show how far from reality the GOP has roamed. Despite the fact that Republicans lost the presidential election and their final Senate seat under her leadership, even her Republican opponents argued she is probably unbeatable. So far, the only potential challenger we've heard of is AZGOP treasurer Bob Lettieri.

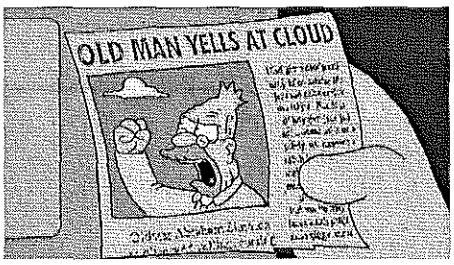
OLD ENOUGH TO REMEMBER WHEN JEFF FLAKE MATTERED

At their organizational meeting this weekend, Maricopa County Republicans will debate resolutions to demand lawmakers end Ducey's emergency orders, "support God's plan of two genders" and oppose gay marriage and urge Jeff Flake to become a Democrat. The Flake resolution states he has used his membership in the party to become a de facto spokesman for Democrats to the mass media and that he "purports to be a conservative but his endorsements prove otherwise." After noting that he backed Biden this year, the resolution resolves that Maricopa County Republican Committee "commends you, former Senator Flake, for standing up for your principles, but recognizes that those are not the principals of the Republican Party." The resolution encourages Flake to "take the next important step and join a party that is more in line with your endorsements, your actions, and your votes: the Democratic Party." Another resolution declares Ducey's stay-at-home order is an "unlawful mandate used to harass and intimidate citizens and businesses." That resolution states categorizing businesses as essential or not favors large corporations, and urges lawmakers to immediately repeal all of Ducey's emergency executive orders, as well as any local orders, and "allow unrestricted commerce to freely occur."

NOTHING HERE IS AGING WELL



Russell Pearce, the recalled former Senate president, authored a trio of resolutions for debate at the Maricopa County Republicans meeting, including the gay marriage resolution that claims God created two genders "and quit after that for good reason." The resolution states that the party believes "that marriage is to be one man and one woman" and states the left's support or tolerance of gender-neutral positions "is extremely harmful to our youth, and to families, and to the purpose of life." Among the whereases in that resolution is the gem that "whereas it is apparent that some of the millennials (in general) have no clue." Pearce is also pushing a resolution to defend the Electoral College, stating, "The chosen electors are bound by custom or by law in many states to support the presidential candidate who won their state's popular vote." His third resolution "condemns political malfeasance" that reads like an old school Pearce rant. "Whereas enough is enough. Mob violence under the name of protests. Policies that limit police enforcement, officials ignoring the law, damage to the rule of law, maimings, murders, costs to taxpayers and Whereas when are we going to hold our public officials accountable for their refusal to enforce our laws and honor their oath of office?" the resolution states, ironically, in light of today's developments. A copy of all resolutions proposed for debate Saturday can be found in our "documents" section (LINK).

Arizona Senate Democrats' Statement on Coup Attempt at our Nation's Capitol

Arizona Senate Democratic leadership released the following statement on the attempted coup happening at our Nation's Capitol.

PHOENIX-"Our nation's Capitol buildings and our democracy have been shattered today. America is in disgrace as armed traitors have violently overrun our nation's Capitol. This is the consequence of Trump and right wing, anti-American radicals refusing to acknowledge the laws of our democracy and honor a fair and legal election. While the American people made their voices clear and elected President Joe Biden, our current president encouraged and unleashed this violent coup attempt at our Capitol. This is a dark day in American history and these events fly in the face of our free and fair democracy. We condemn with the utmost urgency these shameful and despicable actions, and urge our Republican colleagues to immediately condemn these rioters and demand they be prosecuted according to the full extent of the law. We know our American democracy is strong and resilient. Although this is a disturbing day in our history, we have confidence that democracy, justice and the rule of law will prevail."

House Democrats Condemn Violent Extremist Coup Attempt in DC

PHOENIX— House Democratic Leadership team of Reginald Bolding, D-Phoenix, Assistant Leader Jennifer Longdon, D-Phoenix, and Whip Domingo DeGrazia, D-Tucson, released the following statement about the violent attempted coup in Washington DC today.

"Today we witnessed a violent, unlawful, seditious and un-American coup attempt in our nation's Capital. It's important to restate that there has been no credible evidence of election fraud brought forward in nearly 100 separate lawsuits throughout our country, and absolutely no justifications for armed extremists to break into the Capitol and try to disrupt the peaceful transfer of power that has defined our nation from its beginning. This is an insurrection based on lies. More importantly, their disgraceful efforts will not work. Our Democracy will prevail, and Joe Biden will be sworn in as our next President, and our nation will be better for it. The Republican elected officials and party leaders, including members of our own Arizona State Legislature and Congressional delegations, who participated, planned and incited this behavior should bow their heads in shame and must be held accountable."

Arizona Recognizes Human Trafficking Prevention Month

PHOENIX — Governor Doug Ducey today announced Arizona is once again recognizing Human Trafficking Prevention Month by lighting the State Capitol Dome blue every evening through January 31.

"Arizona remains a national leader in combating human trafficking, but we have much more work to do," said Governor Ducey. "My sincere gratitude goes to Arizona Human Trafficking Council Co-Chair Cindy McCain, all members of the Council, and everyone working to bring an end to human trafficking through increased intervention, awareness training, prevention, and support for victims. We will continue to work with community leaders, partners and service providers to protect Arizonans and bring human trafficking to an end."

Under the leadership of Co-Chairs Cindy McCain and Arizona Department of Homeland Security Director Gil Orrantia, the Arizona Human Trafficking Council (the Council) leads targeted statewide human trafficking prevention and awareness efforts and works to expand victim-centered services and support.

"I am pleased that Governor Ducey has once again proclaimed January as Human Trafficking Prevention Month in Arizona and appreciate the symbolic lighting of Arizona's Capitol and agency buildings blue to highlight the issue of human trafficking in our state," said Cindy McCain. "I am very proud of the work that the Arizona Human Trafficking Council continues to do to prevent human trafficking in Arizona, expand trauma-informed services available to victims and strengthen the ability to prosecute traffickers. The Council is adapting to meet the increased challenges and vulnerabilities of trafficked victims during the global pandemic, and working with our partners throughout the

state to share best practices and available resources. We have made tremendous progress in our state and there is much more to do and we are dedicated to continuing the fight."
In 2020, the Council conducted a statewide Human Trafficking Needs Assessment to evaluate services for victims and identify barriers to providing services. - **STRENGTH Court**: The Strength Through Resilience – Empower New Growth Through Hope (STRENGTH) Court, which focuses on the needs of child victims of trafficking, has continued operations during the pandemic by utilizing video and telephonic conferencing. Since STRENGTH Court's inception in 2018, there has been a significant decline in the number of minor victims who have fled placement and returned to the streets.
- **Training**: The Council helped expand awareness and facilitate training to more than 3,900 stakeholders and community members, including educators, social workers, and juvenile and adult probation officers.

Statement on Violence at U.S. Capitol Building

STATE CAPITOL, PHOENIX – House Speaker Rusty Bowers and Majority Leader Ben Toma together issued the following statement denouncing the violent and unlawful protests today at the U.S. Capitol Building in Washington, DC.

"In America, we respect and honor the fundamental right to expression and protest so long as it is done so peacefully. However, the behavior that occurred today at the U.S. Capitol Building was anything but. It was a despicable and dangerous assault on the very heart of representative government that cannot be tolerated or excused in a civil society.

"We should all revisit the wisdom of Abraham Lincoln whose words of hope resonate still, in this and many other contexts: 'We are not enemies, but friends. We must not be enemies. Though passion may have strained it must not break our bonds of affection. The mystic chords of memory, stretching from every battlefield and patriot grave to every living heart and hearthstone all over this broad land, will yet swell the chorus of the Union, when again touched, as surely they will be, by the better angels of our nature.'"

Dear Arizona Legislators,

Your legislature MUST come into session and address this situation. I'm not in D.C. protesting today, but I wish I were.

For our leaders, like Mitch McConnell, to deny that evidence exists or that this election was legal is disgusting. I will be among those looking to vote them out of office at the earliest opportunity.

Please fight for our nation.

Dear Senator Johnson,

Thank you for hosting the hearing today on election integrity.

Like many of my fellow Americans, I have waded through news articles; election hearings in Pennsylvania, Wisconsin, Arizona, Georgia, Michigan, Nevada and Colorado; and I've reviewed the math and statistical probabilities.

Factoring in error rates, the math speaks for itself.
DONALD TRUMP CLEARLY WON THE 2020 ELECTION FOR PRESIDENT.

Republicans in Washington D.C. and at the state level must find the will to lead. You have a duty, a sworn duty, to protect my vote NOW.

I know I speak for millions of voters who want the evidence of election fraud recognized and reviewed prior to January 6. It does not go unnoticed that states like Michigan presented a subpoena for evidence that is not due until January 12. That passive approach to protecting my vote is not nearly sufficient!

State legislators must draw the line between legal and illegal votes. Consider that as the state legislators relinquish their power to other administrators, they dilute your power in Washington D.C.

Why are you all sitting back and allowing our nation, our Constitution, to be undermined?

THE TIME TO SOLVE ISSUES OF ELECTION INTEGRITY IS NOW. Solve it NOW.

Don't blame the courts. We know, We Americans know, who is responsible.

I've been a Republican since I could register to vote some 36 years ago. I've stuck by this Grand Old Party while "leadership" allowed us to be recast as racist, xeno/homophobic. SHAME ON THE GOP! TAKE ACTION NOW TO RIGHT THIS WRONG!

Donâ€™t give up. Hundreds of thousands of voters in Arizona donâ€™t believe the Dominion voting machines were accurate. Until a full forensic audit of all voting machines is done, there is no proof of an honest election. Every law must be followed, but that didnâ€™t happen. Observers were obstructed. Subpoenas to allow access to the voting machines were denied. All voting materials are to be kept for at least two years and allowed to be examined by the State Legislature. What are the county supervisors hiding? We must want freedom more than we want comfort. Donâ€™t stop until the machines have been examined. A recall should be done for all county supervisors who refuse to allow the voting machines to be examined and refuse to comply with subpoenas from the Senate. In the future do not allow the governor to usurp your legislative authority. Be sure that from this day forward the legislature is in session during all elections. It is the state legislature that has authority to sign on the line certifying that the election is honest and complies with law. In the meantime â€“ donâ€™t give up. No matter what happens in Washington D.C. today you must keep fighting with every tool you have to audit the voting machines. Follow through on every complaint of election fraud. Throw out all illegal votes. Keep this process going until a full, honest count is done â€“ no matter how long it takes!

To Arizona Republican Legislators and the (so called) republican Maricopa County Board of Supervisors,

YOU HAVE CERTIFIED A FRAUDULENT ELECTION!

Massive cover up by the Maricopa Board of Supervisors voting down the 3rd party audit of the cheating Dominion Voting Machines. Once again, establishment hack republicans have let the people down again. The cowardly republican supervisors are hiding from the truth of this massive election fraud and cheating. They are covering up a CRIME!!!!!!!!!!!!!!!!

All weak Republicans who did not fight to uncover this massive election fraud will be primaried in 2022! We will never forget what happened with the 2020 election.

Therefore, the AZ legislature should decertify this fraudulent election and pledge the Electors to President Trump on January 6th.

President Trump won Arizona and everyone knows it. We will not accept this fraudulent election result!!!!!!!!!!!

We have many examples of fraud and problems with this election including:

VOTES CANCELLED BY POLL WORKERS PRESSING THE "GREEN BUTTONS"

ABNORMAL SPIKES IN NURSING HOMES IN THE MIDDLE OF A PANDEMIC

36 THOIUSAND FEDERAL ELECTIONS VOTERS WITH NO PROOF OF CITIZENSHIP

DOMINION VOTING MACHINES ALLEGATION OF MANY THOUSAND OF VOTES SWITCHED FROM TRUMP TO BIDEN

THOUSANDS OF MISTAKES WITH ABSENTEE, ADJUDICATED AND DUPLICATE BALLOTS

DEAD PEOPLE ON THE VOTER ROLES

AMERICAN OVERSIGHT

BIDEN ONLY VOTE AND NO DOWN BALLOT VOTES

5 THOUSAND CONFLICTING OUT OF STATE NOTICES AND VOTES CAST

MANY REPUBLICAN BALLOTS WERE NOT COUNTED ON ELECTION DAY BECAUSE OF SHARPIE MARKERS!

As a 25 year resident of Arizona and Maricopa County and a lifelong Republican, I am urging our Arizona State Representatives and Maricopa County board of Supervisors to do the following:

1. We demand a FULL HAND COUNT of paper ballots by precinct.
2. We demand a FORENSIC audit of all votes including an audit of Absentee, Adjudicated and Duplicate Ballots!
3. A Third Party AUDIT of DOMINION voting machines/software.
3. Rino Governor Ducey should immediately open a special session of the AZ. Legislature.

We must have election transparency. Obvious voter and election fraud occurred in Arizona on November 3rd and "We The People" want something done about it from our state representatives. Plus, Dominion Voting Machines being used in Maricopa County is not right; where was the AZ GOP and the County Board of Supervisors when these suspicious machines were approved!!!!

Please do you your job!! If you don't then you will lose the Trump Base which is about 90% of the republican party!!!

If the above can't be achieved then we expect the AZ Electors to vote for Trump because this has been a fraudulent Election. TRUMP WON!! End of Story and we all know it! If the AZ GOP and AZ Legislators do not fight and expose this massive election fraud then you will lose the Trump voters for many years. We will walk or start our own MAGA party but we prefer to stay as a true conservative "America First" Republicans. Time will tell!

Please have courage and fight.

Subject: Please Object to Biden Electors from States with Fraud

Thank you to all the Representatives and Senators who have courageously spoken out against election fraud. I thank you from the bottom of my heart for looking out for the future of our children.

On the night of November 3, I watched as the voting results were coming in (MST). I saw several of the battleground states simultaneously stop counting when Trump was up by numerous votes. I watched the media call states that weren't ready to be called. Michigan was called for Biden when Trump had more votes. Fox called AZ for Biden way too soon. The next morning to see the voting results flipped was shocking. Then to hear the media, and democrats call Trump a liar when he states these facts is mind-blowing. Anyone who was paying attention that night saw what happened no matter how much the media, social media and democrats are trying to tell us it didn't.

Since the election, I've watched several hours of brave Americans testifying to serious allegations of election fraud. Those brave individuals need to be heard and taken seriously. I've also watched statisticians and mathematicians showing how the results from several counties are not even mathematically possible. We need to stop pretending there was no fraud when there is overwhelming evidence showing there was.

You were all elected to represent the American people. Lately, what I have been witnessing in the House and Senate I wonder who you are representing. Why do you think the decisions you are making and bills you are passing are what the American people want? Why is more money going to assist countries overseas than staying in our country to help struggling Americans? When you are voting on bills you have not even read, who are you representing?
We need to investigate these election irregularities now! If there was no fraud, why aren't these states proving it? Instead they've been concealing results which makes them more suspicious. No one should be sworn into the highest office of our country if they didn't receive the legal votes to win. This is about our democracy and our country having fair elections no matter which party you belong to.

I plead that on January 6th you object to the Biden electors from the 6 states that are full of fraud. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. Please demand that the vote be delayed so that extensive investigations can be conducted and reviewed and the state legislatures given the opportunity to change their certifications. Even if the commission says there was not enough fraud to change the results of the election, I expect you to use common sense and object to the Biden electors and do whatever else is necessary to correct this election. It is obvious that this election was fraudulent. If I can't count on current legislators to stand up against fraud and imminent socialism, I want them to be primaried, not out of vengeance, but because I need legislators I can count on. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators have not stood behind him and taken care of this fraud already. I demand that you stand up now against fraud and

support our President whether you like him or not. The American people get to decide with their legal votes who the next President is not a select group.

Hello Sir or Madam,
It has become clear that widespread, coordinated fraud took place in the November 3rd Presidential Election, effectively cheating President Donald J. Trump out of the 270 electoral votes required to secure his second term in office. This can be ascertained by the average citizen by simply reviewing voting and/or forensic data, listening to the testimony of sworn witnesses, and/or evaluating the unconstitutional actions of several states, including yours.
I am writing to you to request that you take a stand for the 74+ million voters who cast their vote in support of President Trump, and have been disenfranchised by these acts. RE: Request for Delay of Congressional Election Certification & Seek Legislative Clarification on Proper Presidential Electors for Arizona

Dear Mr. Vice President,

I write to you on the eve of January sixth's joint session of the United States Congress to approve the certification of the 2020 presidential election to request that you, in your capacity as the President of the Senate and presiding officer over the aforementioned joint session of Congress, delay the certification of the election results and instead seek clarification from the Arizona legislature as to which slate of Presidential Electors are proper and accurate.

I understand the magnitude and historic nature of the actions that I am requesting; however, as an elected official and someone who reveres the United States Constitution, I see no other just outcome, given the systemic election irregularities and pervasive allegations of fraud, than to return the power to the level of government that is both constitutionally empowered and closest to 'We The People'—the state legislature.

The American people have observed your integrity and love of country for decades, Mr. Vice President. In this critical hour, when some in our nation have sought to devolve our civil discourse into chaos and uncertainty, America needs your judiciousness, discernment and steadfast resolve to uphold the civil right to free and fair elections for every citizen of the greatest nation on God's earth.

Just like the Scriptures teach through the life story of Esther, I believe that God has placed you, and you alone, in this precise moment in history, and in this precise role to protect this last bastion of freedom for all of mankind.

To allow external forces such as Democrats' partisan interests, media bullying, procedural expediency, or any other in a long line of inferior justifications, to dictate the course of our nation's destiny on this matter of historic importance would not only undermine our citizenry's confidence in our electoral system, it would lead to the devolution of our constitutional republic writ large.

AMERICAN OVERSIGHT

It is in this late hour, with urgency, that I respectfully ask that you delay the certification of election results for Arizona during the joint session of Congress on January 6, 2021, and seek clarification from the Arizona legislature as to which slate of electors are proper and accurate.

You are in our prayers, Vice President Pence.

Dear Arizona Congressperson,

Thank you for your service to our great country. To be honest, I haven't paid any attention to politics in the past and was among the sheep brainwashed by the media that took our freedoms for granted. The covid pandemic and blatant irregularities associated with our November 3rd election has led me to ask questions and seek truth.

My family fled Vietnam as refugees and 'boat people' in the 70's to escape communism. They risked EVERYTHING for a chance at a better life and future including freedom for their children in America. They believed that a future without God and without freedom for their children was worth risking their lives and was worth fighting for.

As a concerned citizen and registered voter in Illinois, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our Constitutional Republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

Subject: This is your opportunity to stand up for what is right and just

Hello,

https://www.stop2020fraud.com/

https://got-freedom.org/evidence/

The Constitution imposes an important duty on you this week. The votes of six states should be voided and decided by Constitutional means for in those states there is conclusive evidence of election irregularities, affecting more votes than the current number of ballots separating President Trump and former Vice President Biden. You are the last Constitutional deterrent to ensure that the unconstitutional results of these states are not validated.

The privilege of sitting as a United States Senator was bestowed upon you by your constituents. This privilege, as you know, comes with the responsibility to honor, serve and represent your constituents in all matters. There has never been a more critical moment in time to listen to the concerns of your constituents and act accordingly. Failing to properly review and evaluate the provable, quantifiable fraud in Pennsylvania, Georgia, Wisconsin, Arizona, Nevada, and Michigan is a dereliction of the duty owed by you to your constituents.

The fraud, deceit, and manipulation associated with the 2020 Presidential Election is unprecedented in the history of the United States and must be stopped. You owe it to your constituents and the millions of Americans who died to secure our most sacred right to object to the certification of the 2020 Presidential Election results in Pennsylvania, Georgia, Wisconsin,

AMERICAN OVERSIGHT

Arizona, Nevada, and Michigan.

The fraud of the 2020 Presidential Election was commonplace throughout these states—all of which failed to properly secure the voting process, whether intentionally or unintentionally. The attached chart identifies the conclusive evidence of fraud and tampering accumulated thus far for your convenience. The affidavits, declarations, videos and the like are broken down by individual states, with exhibits following. This evidence was collected by your constituents and those who continue to fight against an election that lacks transparency. This evidence is concrete and compelling. The evidence will only become stronger and more compelling when we are granted authority to fully examine the ballots and machinery. Contrary to the falsehoods spread by the media, none of the evidence contained herein has ever been ruled upon by a court of law.

Certification of these election results, in light of the quantifiable fraudulent acts which took place during the 2020 election, would insult the core of our constitutional right to vote and allow the dilution of legally cast ballots. Your constituents refuse to allow this fraud to continue and are willing to sign petitions to support your objection. Millions of constituents are ready, willing and able to execute petitions today to ensure that their voices are accurately reflected in your vote.

Forget the candidates, the parties, and the media, and instead focus on the unconstitutional election procedures implemented in each and every one of the states Page | 2 referenced above. The extensive alterations to voting procedures and tabulations by state officials prior to the 2020 Presidential election were unconstitutional. In a time when more safeguards were needed to protect the integrity of our elections, government officials relaxed and/or removed the much-needed safeguards casting doubt on the integrity of the 2020 Presidential Election. Removal of these safeguards, the majority done without approval of the state legislature, combined with the vulnerability of the voting machines, left the 2020 Presidential Election

AMERICAN OVERSIGHT

vulnerable to domestic and foreign interference. To reiterate, the number of absentee and mail-in ballots that were handled unconstitutionally, greatly exceeds the difference between the vote totals of the two candidates for President of the United States in each of the aforementioned states. In light of these constitutional violations, there is no alternative but to object to the certification of the election results in Pennsylvania, Georgia, Wisconsin, Arizona, Nevada, and Michigan on January 6, 2020 and/or to accept the votes cast by the alternate slate of electors.

This is your opportunity to stand up for what is right and just. Do not take the path of least resistance; make history. Every worthwhile moment in history began with one man or woman willing to risk it all to invoke change. This is your moment. How can we accept votes from out of state residents and dead people? As President Lincoln said "America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves." Do not let America destroy itself.

Very truly yours,

Subject:	Concerning the 2020 Election

Dear Honorable Representatives,

I am writing, as so many others have, to express concern over the 2020 election. Amid the frenzy of news, it is difficult to discern truth from untruth and to sort out the complex details of this election. I do not envy your position but I do respect it and urge you, for the sake of election integrity, truth, justice, and the future of free and fair elections, to either decertify the official results, as Wisconsin is now doing, or to request time to conduct a thorough forensic audit, possibly using the method of Mr. Jovan Pulitizer. If even a third of the allegations of irregularities are true, it is incumbent upon this representative body to get to the bottom of them and to act in accordance with the constitution. As Senator Cotton recently stated:

"There is one and only one path to victory for President Trump on January 6, 2021, and it depends on state legislatures certifying Trump electors in the states at issue, pursuant to state law and the U.S. Constitution, and based on a finding that votes lawfully cast in November were sufficient to produce a Trump victory," the statement read. "If they believe there was fraud — and if they believe that such fraud affected the outcome of the election — they must, as a body, convene immediately and send us that information, along with certified electoral votes cast by a Trump slate of electors. Absent such action, there is not a constitutional role for Congress to change the outcome of any state's vote."

My writing to you not out of a desire to see Trump in office another four years, rather, more fundamentally to ensure that this election and all future elections are clean and reflect the will of the people. As Senator Cruz stated in his reasoning behind challenging the EC certification:

"Whether or not our elected officials or journalists believe it, that deep distrust of our democratic processes will not magically disappear. It should concern us all. And it poses an ongoing threat to the legitimacy of any subsequent administrations."

Please decertify the AZ electoral college results or conduct a full forensic audit of the votes to ensure the integrity of this election.

Respectfully,
J

Dear Congress Men and Women of Arizona,

Today I plead with you, as do millions and millions of other Americans, to fight for truth and justice and for the authenticity of our election process. The people you represent demand special sessions in your state legislature to provide legitimate electors to Washington D.C. We are not asking you to lie, cheat, or steal, but to be honest about the evidence at hand, admit their was fraud, and stand up and do something about it. It does not matter your political party, this is about preserving our republic. Your job is to give the electors to the person your constituents voted for. And we all know that President Trump clearly won in your state and it IS the will of the people he be the next president of the United States of America. Please do not be cowards any longer. Stand up and fight for the people who cannot fight for themselves. Now is the time to stand, for who knows, maybe it if for such a time as this you were created.

Blessings,

CHINA'S $400 MILLION PURCHASE OF DOMINION ON OCTOBER 8, 2020 & CYBER CONTROL OF ELECTION SOFTWARE ON NOVEMBER 3

Terror financing expert, Scott Bennett was part of the analytics team that examined the Dominion Server seized by DOD military personnel in Frankfurt, Germany. Scott's phone # is in California. Arizona Rep. Gosar's staff interviewed Scott, and verified the facts.

Scott Bennett's disclosures are devastating --- China's Vice President and Mayor of Beijing orchestrated the purchase of the DOMINION Election Software Co. for $400 MILLION on October 8, 2020 through a shell corporation set up by Union Bank of Switzerland (UBS) shell corporation called STAPLE STREET CAPITAL.

You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, *including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin* and New Mexico--

Expert testimony by Bennett's forensics team proves foreign interference and vote manipulation by China on election night beyond any shadow of doubt.

Consider China's interference in light of testimony to the Georgia Senate Judiciary Committee by Data Scientists Lynda McLaughlin, Justin Mealey and Dave Lobue last week. Their team crunched raw votes coming into the Edison Vote system for all the battleground states. Their findings show 12,173 Trump

The ramifications for national security are staggering. China's interference in the 2020 elections justifies STRIKING ILLEGAL ballots and recertifying results in favor of TRUMP ELECTORS to be certified by Vice President Pence on January 6.

A warning to all-- Proof of election fraud is flooding our nation like a burst dam, and voter fury is explosive. Subject: Concerns of 2020 Election

Good afternoon,

My name is James Dziwura and I am contacting you regarding my concern of the 2020 presidential election.

In the state of Arizona there have been countless examples of voter fraud that have not been corrected. The evidence has been presented and heard during hearings and it is irrefutable. But it seems that no legislator is willing to do anything to fix these problems. Election fraud occurred in your state, along with many others as well, enough so to change the outcome of the election.

I am humbly requesting you, and all other representatives and senators, to object to the certification of electors on January 6. The voter fraud has not been debunked, only ignored. The US Supreme Court gave the power to you to fix these issues when they declined to hear the lawsuit filed by the state of Texas.

If this election is not fixed, citizens will realize our votes and voices do not matter. No future election will matter in the United States if fraud is allowed to stand.

Please do the right thing and object on January 6th.

Best,

James

Dear Legislatures,

As a concerned citizen and registered voter in California, I am writing to ask that you please retroactively certify Trump electors. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

Thank you to those who have already stated you would do so!

Subject: Election Integrity/Reject Electoral Vote

Dear members of Congress,

I am writing to demand you reject the electoral vote scheduled for January 6, 2020, and as an official elected to represent the people of the United States of America under the oath of the United States Constitution, you call an Electoral Session to hear the evidence of election interference and voter fraud reported by thousands of patriots who have been continuously ignored from around our beloved Republic; and you aim to reclaim your electors before January 6th.

The Founders of this nation -that we are all so blessed to be a part- laid out your duty in the U.S. Constitution to guard against fraud at the State level. It is your duty to stop hiding behind your state Governors' refusal to acknowledge the mounting evidence of interference and fraud. It is a dereliction of your duty to ignore the threats to our nation and the infringements to our Constitution.

To the members that have already committed to objecting to the Electoral College votes, I thank you, and I look forward to your support for an Electoral Session to conduct a 10-day emergency audit of the election.

I am urgently sending this message not as a request but as a firm notification that I will be looking forward to your representation and commitment to objecting to the electoral college vote for appointing a Biden/Harris administration scheduled for January 6, 2021. It is not without complete evidence of election interference and voter fraud.

Evidence has been repeatedly ignored from thousands of witnesses and testimonies of irregularities and criminal behavior throughout many precincts of the states in question that unanimously stopped counting at the exact same moment in time, only to resume at the almost exact time the following morning with statistical anomalies of the almost exact same number of gains reported in favor of Biden and Harris. That issue let alone threatens election integrity, and repeated statistical and data analysis continue to show vote flipping.

I am beyond frustrated with the continued negligence and selective ignorance of ignoring these facts. Repeatedly, news outlets state there is no evidence, and courts have refused to hear any evidence. It is the will of the people to demand a complete investigation and total rejection of the fraudulent presidential election. It is further the power of the people and with hope in the new congress and representation that all facts, testimonies, eyewitness accounts, voting machines, voting software, and technological interference be acknowledged, heard, and presented fully to the people of the United States of America, and reject the electoral votes.

As reported by the Epoch Times, the 2020 election was tainted with fraud and interference at all levels:, including election laws and software being changed within weeks and days before the election, and counting beyond November 3, 2020 violates constitutional laws:

"in New Mexico- the state's use of ballot drop boxes, violates state election laws by allowing voters to return their absentee ballots in "drop boxes" placed outside polling locations instead of handing their ballot to a presiding election judge.

AMERICAN OVERSIGHT

"In Wisconsin, guardrails against fraud were repeatedly lowered by unelected bureaucrats who changed the rules on the eve of the election without authority to do so"

As well as the confirmed and documented visit of Joe Biden himself to the Ukraine for recruiting computer hackers to manipulate election software and hardware.

And, I also encourage you to not be so arrogant or ill-informed as to ignore further facts presented by former US Army Officer, Scott Bennett, in his deposition on election fraud involving "Union Bank of Switzerland Securities and its connection to the recent Dominion voter fraud", viewable at the link provided below.

https://www.youtube.com/watch?v=LBrt0vObx0c&feature=youtu.be

On behalf of my entire family, I again remind you to uphold your duty as an elected official to represent the people of the United States, and the irregularities of this election be questioned, heard, and resolved. You were elected with the duty to preserve our Republic. With the voices of 80 million and growing, we did not elect you so we could be ignored, or to sit back silently to watch more of the same from Washington elites. We will not accept your selected opinions, your personal views, or allow our god-given rights to be lost at the expense of your personal gain. You took an oath to the constitution, and I intend to remain engaged throughout your terms and beyond to hold you accountable.

You were not elected to make friends in Washington, or with big corporations. I look forward to your obligation to protect and preserve the United States Constitution.

We need heroes in DC, not more career politicians.

Which side of history will you be remembered on?

RE: Reclamation of Electoral College Electors from Arizona

Dear Sir, January 1, 2021

We write to put a fine point on the controversy involving alleged fraud in the 2020 Arizona Election. In nearly every venue, institutions meant to protect the precious individual voting franchise that gives rise to the consent of the governed through free and fair elections, which is the foundation for the Guarantee Clause in the Constitution of the United States, have blocked Arizona voters from hearing and seeing evidence of fraud.

The courts have refused to hear a multitude of cases brought to introduce evidence of election process violations so that all could see substantive proof of ballot tampering. Even electronic calculation of votes —giving rise to fractional voting— where tabulation of whole numbers safeguards the legal norm under "one person, one vote," adopted under the Warren Court as a civil rights matter.

Under Article II, Section 1, Clause 2 [the Appointment Clause] of the Constitution of the United States, it is the Legislatures that possess plenary power to select Electoral College Electors. Nowhere in the Constitution is such power over Electors given to any other state government branch, not to the Executive Branch or the Judiciary. And when the Legislature has permitted the Executive branch to transmit the results of an uncontested election to you, such approval may be withdrawn by the Legislature under the same plenary power. Arizona legislators are at this very moment engaged in litigation, asking for relief in the form of preventing certification of Presidential electors and counting their votes where the Presidential electors did not receive state legislative post-election certification as required by Article II.

AMERICAN OVERSIGHT

The Legislature has received voluminous evidence and testimony. One example is the testimony of Dr. Shiva Ayyadurai, Ph.D. (M.I.T.) , on November 30, 2020; Dr. Ayyadurai is one of the most respected mathematicians and experts in pattern recognition in America engaged in the examination of election results in all of the contested states. He concludes that the only explanation for the actual voting results in Arizona is that 130% of Democrats voted for candidate Biden and a -30% voted for President Trump, and 100% of Republicans voted for President Trump, with "no party affiliation" voters split 36% for Biden, 58% for the President. In his words, such a demographic distribution is "highly implausible." (Exhibit 1). Coupled with the Maricopa County Board of Supervisors' outright refusal to comply with Arizona Senate subpoenas directing a forensic audit of Dominion ballot tabulation equipment and software and scrutiny of all mail-in ballot images, the evidence rises to the level of clear and convincing. It shows the 2020 Arizona Elections to be irredeemably flawed.

Never has the separation of powers been more tested than in this election. The Arizona Election Code requires that all person's voting in a election must be registered to vote 29 days prior to an election by law, and voter registration was extended by the federal judiciary to October 23 in direct conflict with A.R.S. § 16-101(A)(3), a clear usurpation by the federal Judicial branch of authority exclusively controlled by the State Legislature [emphasis added] and a crystal-clear violation of the separation of powers.

The Governor transmitted to you a document that advances Electors from the Democratic Party and has failed to notify you of the tainted nature of said Electors, despite the evidence thus far provided showing enough fraud. Even this cannot settle the matter, and neither candidate is a clear winner in the absence of a forensic audit.

There is no limitation in Article II, Section 1, Clause 2 on how the Legislature may notify you of the electors you should consider valid. *"Each State shall appoint, in such Manner as the Legislature thereof may direct."* You have received two slates, one Democratic Party Electors, and one Republican Party Electors. In this day of COVID-19 meeting restrictions, and out of an abundance of caution, face-to-face meetings have been made especially difficult. Such restrictions notwithstanding, whether the Legislature is in regular session as a body, called to a special session, or out of session, a communication from the majority of the body's Members is nonetheless a statement of the Legislature that must be considered. The Legislature defines the "manner," and that is what we seek to express to you with this writing. Neither the Executive nor the Judiciary is permitted to erect a barrier to the Legislature as it expresses its position in the matter, which is exactly what has been done.

Please find attached a sample of the voluminous evidentiary material in support of the Legislature's position, both Constitutional analysis and evidence presented at both the November 30, 2020, Public Hearing on Election Integrity, and December 14, 2020, Senate Judiciary Hearing on Election Integrity that resulted in the issuance of subpoenas to the Maricopa County Board of Supervisors to conduct a forensic audit of their election hardware and software, as well as the ballot images. While expressing the desire to have a transparent audit, the Maricopa County

AMERICAN OVERSIGHT

Board of Supervisors has fought that Senate subpoenas every step of the way, and thus far, they have refused to cooperate; instead, they took the matter to court. Both hearings are preserved as a video archive available for you to view the testimony and evidence.

Based upon the clear and convincing nature of the evidence, we respectfully ask that you recognize our desire to reclaim Arizona's Electoral College Electors and block the use of any Electors from Arizona until such time as the controversy is properly resolved through the pending litigation or a comprehensive forensic audit.

A RESOLUTION TO HOLD ARIZONA ELECTORS

Regarding a declaration of the results of statewide electoral contests in the 2020 General Election to be in dispute with probable cause to believe that multiple frauds were committed, and that so many fraudulent votes were commingled with legitimate votes across the State of Arizona that voter disenfranchisement has occurred, the undersigned Representatives and Senators, as the Legislature, the elected representation of the people, hearing testimony and receiving evidence of same recall and reclaim both slates of the 2020 Electoral College Electors:

WHEREAS, Article I, Section 4, Clause 1 of the United States Constitution empowers state legislatures, including the Legislature of the State of Arizona, to prescribe the "Times, Places, and Manner" of conducting elections; and,

WHEREAS, the definition of "Manner" is at the sole discretion of the Legislature; and,

WHEREAS, Article II, Section 1, Clause 2 of the United States Constitution empowers state Legislatures, including the Legislature of the State of Arizona, to direct the manner of appointing electors for President and Vice President of the United States; and,

WHEREAS, Article IV, Section 4, known as the "Guarantee Clause," Guarantees each state a republican form of government, the foundation of which is self-governance through free and fair elections accurately reflecting the will of the people; and,

WHEREAS, the Counties within the State of Arizona conducted an election on November 3, 2020 for federal offices, including selecting electors for President and Vice President of the United States; and

WHEREAS, the Legislature of the State of Arizona has exercised its authority to establish election administration procedures for the State under A.R.S. Title § 16, commonly known as the Arizona Election Code; and,

WHEREAS, the State Legislatures posses plenary authority to call themselves into session to perform federal duties as a simple majority, free from the dictates and constraints under the State Constitution and State statutes, therefore by simple majority under *Leser v. Garnett* which says, "But the function of a state Legislature in ratifying a proposed amendment to the federal Constitution, like the function of Congress in proposing the amendment, is a federal function derived

from the federal Constitution; and it transcends any limitations sought to be imposed by the people of a state;" and,

WHEREAS, Any state law that would restrict a State Legislature ability to call itself into session to perform its duty under the constitution and laws of the United States would violate the "Supreme Clause" found in Article VI of the Constitution of the United States.

WHEREAS, U.S. Code, title 3, section 2 further empowers State Legislatures to appoint Electors if the election failed to produce a clear winner of an election due to tampering;

WHEREAS, the Arizona Election Code A.R.S. § 16-121.01(B)(2) requires, "That the registrant has not resided in this state for twenty-nine days next preceding the next election or other event for which the registrant's status as properly registered is in question;" and,

WHEREAS, the Arizona Election Code requires that all persons voting in an election must be registered to vote 29 days prior to an election by law, and voter registration was extended by the federal judiciary to October 23 in direct conflict with A.R.S. § 16-101(A)(3), a violation of the separation of powers; and

Subject: Special Session

Dear Sir,
I write you on behalf of the millions of American voters who are convinced that the 2020 presidential election was neither free nor fair. We are furious that the voluminous evidence of systemic fraud has been systematically suppressed. And we demand that, before the result of the Electoral College vote is certified, such evidence must be presented to and considered by the United States Congress and Vice President Pence.

For that to happen, you must do your duty and object to the slates of electors for the contested states as you are entitled to do under 3 U.S. Code Sec.15. You as legislators are in your full constitutional right to decertify electoral votes in the states where you are confident that the election was not free or fair. Other states can and must write letters of support and address them to Vice President Pence prior to January 6th.

You are in full right to assemble with no need of support from your Governor or anyone else. I ask and expect you to act now and will accept nothing less.

You are clearly under pressure from the Senate Republican leadership not to object. Were you to capitulate to such pressure, however, you are on notice – as are your leaders – that we will view your acquiescence to the fraud-

AMERICAN OVERSIGHT

enabled theft of this presidential race as adding insult to the gross injury of our being disenfranchised.

In that event, you will be held personally accountable for the predictable consequences, which include: the evisceration of our governing institutions; the end of elections that are honest and competitive; and the ascendancy of oppressive forces that will deprive us of our God-given, unalienable rights and mutate our country beyond recognition – and, almost certainly, beyond recovery.

I anticipate that Americans who voted for President Trump will not vote again for Republicans who are party to the theft of his reelection by virtue of failing to seek, and ensure the public is made aware of, the truth about this fraud-wracked presidential race.

For all these reasons, you must do your duty. Legislators in the battle ground states, decertify now. Senate and House members at minimum, you must object and request a delay in writing to adequately investigate the fraudulent misconduct in order to certify the accurate count of the election as delivered by the American people. I pray that you fear God and do the right thing. "All needed for evil to prevail is for good men to do nothing". This is not an option. The people who elected you deserve it.

Thank you and God bless you and the United States of America.

Subject: A request regarding the 2020 election (PLEASE READ)

HONORABLE MEMBERS OF THE ARIZONA LEGISLATURE:

I'm a US citizen residing in New Mexico, and I'm a registered voter who voted in the 2020 election at my local precinct. As the outcome of the presidential election in Arizona obviously has national implications, I hope you will take time to read my respectfully submitted comments below. They are not fueled by Republican or Democrat bias, but rather by the desire to see justice carried out in Arizona with regard to the presidential election results.

Over the past two months our nation has experienced the following very disturbing developments:

*First, the election was marked by unprecedented fraud of various types that pervaded Arizona and several other states. This fraud has been proven by numerous scholars including mathematicians and cybersecurity experts, and has been corroborated by affidavits and sworn testimony from literally thousands of individuals who either witnessed fraud or were suppressed from carrying out their duties to monitor vote tallying. The fact that fraud played out in almost identical fashion in multiple states implies that this was a coordinated effort, and now foreign influence on election night has been proven as well. I will point out the following references as a summary:

https://www.scribd.com/document/488495896/Navarro-Report#download&from_embed (Peter Navarro's document of the various types of fraud proven in multiple states)

https://wpcdn.zenger.news/wp-content/uploads/2020/12/24190822/2020-12-23-Sidney-Powell-Team-Binder-ZENGER-NEWS.pdf (Sidney Powell's document proving foreign interference in the voting process)

https://www.youtube.com/watch?v=9ntCNHr6-do (video of Prof Shiva at the legislative hearing exposing the Dominion software's "weighted race" feature that enables "vote flipping" and demonstrated the high statistical probability that a large number of votes in Maricopa County were flipped from Trump to Biden)

https://docs.google.com/spreadsheets/d/1dipTeX74jeYeT61mO736Aolb3FPJQVjX7aK1JVnKDq0/edit#gid=0 (list of illegally registered voters compiled by Matt Braynard, including those in Arizona)

*Additionally, the weeks following the election saw massive efforts on the part of the Arizona Governor, Secretary of State, and election officials to obstruct justice by delaying and/or denying requests for election data, and to certify Democrat (Joe Biden) electors for Arizona while the election outcome was still clearly in dispute. These individuals chose to ignore the fact that fraud has likely led to an unfair result, enraging millions of Arizonans, as well as the U.S. citizenry at large. Officials in several other states participated in similar obstruction, in some cases going so far as to DESTROY voting records and other election evidence. Meanwhile, most judges have not had the courage or proper judicial temperament to hear the election fraud cases that have been put before them. In fact, as of this writing, SCOTUS has either refused to hear every election fraud case brought before it or has docketed cases for AFTER the January 20 inauguration.

*Finally, many mainstream media outlets have chosen to drive the narrative that the certification for Biden in Arizona must be correct, while ignoring the blatant fraud, launching character attacks at whistleblowers and scholars, and even disrespecting concerned citizens bold enough to question the outcome.

Given the fact that far more votes have been thrown into doubt than the recorded margin of Biden's victory in Arizona (approx 11,000 votes), I believe every fair-minded individual understands that the will of the Arizona voters cannot be ascertained from the currently recorded vote tally. I've researched the issue carefully, watching the various Arizona hearings that occurred and studying the experts' analysis, and my conclusion is that Donald Trump was in fact the legitimate winner in Arizona.

Therefore, by Article II Section 1 of the U.S. Constitution, I request that the Arizona legislature formally DE-CERTIFY the Democrat (Joe Biden) electors for Arizona and formally ACCEPT the Republican (Donald Trump) electors.

I understand the reading of the electors by U.S. Congress is only days away, and many of you feel there isn't enough time to perform this action. But suppose for a moment that a Dominion official suddenly came forward confessing that the Dominion system did in fact flip votes from Trump to Biden, and that Trump was in fact the legitimate winner in Arizona. Obviously, the Arizona Legislature would immediately go to any lengths necessary to formally award Arizona's electoral votes to Trump. Indeed, to not do so would incite a riot on the steps of the State Capitol by Arizona voters infuriated that they've been disenfranchised! While no such "criminal confession" scenario is likely to arise, I argue that the overwhelming evidence of fraud—testimony, analysis, etc—is equally compelling and should motivate the Arizona

AMERICAN OVERSIGHT

Legislature to act immediately. If a formal declaration cannot be communicated to the Congress (particularly Sen McConnell, Congresswoman Pelosi, and Vice-President Pence) by January 6, I recommend that each of you contact these individuals stating your preference, and make your statement public as well.

Finally, I understand many of you may be experiencing coercion or intimidation regarding this matter. I'm truly sorry for this undue stress that has been thrust upon you, but I entreat you with every fiber of my being to preserve the will of the Arizona voters above all. I fear our nation will never recover from the injustice of this election if the Legislatures in Arizona and other states do not take action.

Thank you for taking my comments as a concerned citizen into consideration, but please reach out to the constituents in your respective districts for their opinions. They are the ones who will eventually vote for or against your re-election, and they are all watching very closely how you act during this critical time. I would add that potential contributors to your future campaigns are watching as well.

Now, relying on your "respect for our Heritage" as "We, the People" of this American Nation, "We" request you "Listen and Understand", with Great Care, this important "Clarion Call" from your "Band of Kindred Veterans" who've been presented clear evidence of sufficient and substantial "Voter Fraud" in the November 3rd, 2020 American Presidential Election in each of the above States which will change the Electoral College Votes Certification from Biden to a HISTORIC Trump Victory while supporting criminal charges being brought against many individuals participating in this "Worst Presidential Election Voter Fraud" in American History. Federal Election Law, as further governed exclusively by State Legislatures (no exceptions), requires ALL Original Ballots be cast properly; completed and signed by properly registered voters and, once counted and filed, securely maintained for 2 years, for recounts or audits, before they can be discarded {FOR OBVIOUS AUDIT REASONS}. Regardless of voting machine totals, those original ballots are the BIBLE AKA TRUE SOURCE to insure "NO FRAUD"!! This did not happen!! Ballots were copied, forged, or shredded so VOTE THIEVES could hide their dishonesty while leaving thousands of American Citizens' shredded votes cancelled!! This is the worst crime of all crimes in America!! INDEPENDENT Forensic Audit Professionals can ascertain and, if not shredded, count and report these "Authentic and Legal Ballots/Votes" within a week to 10 days at a central location in each of these States. These Authentic and Legal Ballots were found to be negligently lost, stolen and/or shredded and these culprits must be indicted for "Voter Fraud" as this is American Society's most destructive crime, not to be condoned.

We request you hear our "Clarion Call" and "Cancel" any "Biden Electors" you may have sent for the January 6, 2021 Electoral College count pending a "Proper Independent Forensic Audit COUNT of nothing less than VOTES evidenced by an Original-Authentic-Legal Ballot signed by a Legally Registered LIVING Citizen and, during these Auditing Activities, Indictments will be rendered, insuring American Voters disenfranchised are compensated and perpetrators are held accountable!

Subject: *Object to Biden Electors*

Dear Representative,

I plead that on January 6th you **object to the Biden electors from the 6 states that are full of fraud.** The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current Republicans in office to stand up against fraud and imminent socialism, I want them to be primaried. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators are not correcting this fraudulent election. You need to decide now to stand up against fraud and support our President.
"

Look at the evidence and do not give into the smoke and mirrors of the media and big tech firms. Once they control our politicians they will control our laws and you.

I am part of a group of 100's of thousands of activists, growing in numbers. We all realize that we need to fight for good politicians. We will undo the psychological warfare on the people to give up their human rights and give up our founding principles. We have new communication channels outside of Big Tech. We are organizing and committed to supporting you.

We understand the pressure that you are under from your perception of reality from mainstream media, big tech and their violent wing of Antifa and other groups. This is not about President Trump, this is about the future of our country and the free world. It is one thing to fight/debate against each other about issues that we care deeply about. But to turn a blind eye to our whole system being taken down with this election is another.

We understand their manipulation tactics and will fight to support you. We are coming to have your back if you make the right decision.

MAKE THE RIGHT DECISION! HAVE COURAGE!

AMERICAN OVERSIGHT

Those who make the correct decision, will be remembered like the soldiers that stormed the beaches against global totalitarianism. Those that turn a blind eye to the crimes of the century will be remember as people who make an oath to defend the Constitution only looked for excuses. If they get away with this, it will only get worse for generations. I wish no harm to you, and our group is not like Antifa. But it seems like when Antifa threatens harm that is the only way to influence you. Do not fear.

We are all made in his image and can make the right decisions. We are also our Brother's, Sister's or Fellow Human's keeper. We have your back in doing the right thing. We will also work against your re-election and show the world who turned a blind eye to the theft of our country.

As a group of citizens, we know our responsibility is to fight and support the politicians who do the right thing. We commit to support you in doing the right thing. We also commit to challenging you in future elections. See the attached link and/or file summary of fraud! They are the same.

BE A HERO AND TAKE A STAND FOR FREE AND FAIR ELECTIONS. BE REMEMBERED AS THE POLITICIANS WHO DID NOT GIVE UP OUR ELECTIONS TO TERRORIST TACTICS AND FOUGHT OFF TOTALITARIAN RULE BY THE COMPANIES/OUTSIDE COUNTRIES THAT CONTROL OUR ELECTIONS!

May you be blessed with courage and the be a hero for the Free World no matter what side of the aisle you are on.

Subject: Legal Elections Supremacy Clause

Dear Honorable House Representatives and Senate Members (Arizona Legislature):

For the sake of expediency, please forgive my collective message, verses, individual messages to each of you. Please invoke the "Supremacy Clause" of the United States Constitution and "call yourselves into session" before Wednesday, January 6th, 2021. It is my understanding that the federal law preempts the state law under this clause. Please assess and certify only the correct Slate of Electors! That is to say:

- Make an assessment of what happened in our election(s) and decertify the existing Slate of Electors if you are uncertain of the legal standing.
- Certify the correct Slates of Electors, if we can get rid of the illegal votes, certify only the legal ones, or legally remedy the circumstances.
- You can not, as Arizona Legislators, count "illegally certified or fraudulent votes"!

Recall is in order and must be considered and acted upon if we do not feel, as citizens of the United States of America and the State of Arizona, that we

have legal elections in our state. Be proud to do the right thing and secure Legal Elections for our state and nation.

Subject:	Election Integrity

Honorable Representative,

I used to consider myself a democrat, I believe is pro-choice. I voted for Trump in 2016 and 2020 because my brother has told me for years how corrupt The Clinton Administration was and their connections with the Obama/Biden Administration. I wasn't that crazy about Trump, I just felt confident in what he was doing for our country based on what my family told me. I would see the headlines tearing Trump apart and the Facebook posts saying he was such a horrible person. I would just think to myself well I don't have to hang out with him, but I trust him with our country.

My brother committed suicide this year and I wanted Trump to win for him, because it was what he would have wanted. I voted and I watched the news until around midnight on November 3. I went to sleep knowing my brother would be happy with the results. When I woke up the next morning, like so many others, I was confused. How Nevada just decided to stop 'counting' for days was a little bizarre. I kept doing the math...Trump won PA (that lead was too big to lose), as long as Georgia and one other state and it will be okay. Then all of the sudden every close state went blue.

I had to see what was going on, it didn't make sense. I have watched every minute all of the hearings in MI, PA, AZ and GA and follow all of the news in NV and WI. I have listened to all the whistleblowers, the witness testimonies, and the experts several times. Day after day, I am losing all faith in this country. There was so much evidence and I am at such a loss that no court would let Trump have his day in court. Why couldn't the evidence be heard? Why couldn't these signature audits take place? How can our court system be in on this too? Why is this about your party affiliation? How can anyone that watched the video at State Farm Arena in Fulton county not DEMAND an audit? How is Ruby Freeman not in prison? How are all of the whistleblowers and witness testimony just being ignored? How was the chain of custody broken with these ballets and nothing being done about it? How did Biden win against all odds and against all the improbabilities and impossibilities found in the statistical analysis found by specialists? How has no more action been taken across the country and in the state legislatures? How am I (and millions and millions of Americans) ever supposed to trust that this election was fair when I(we) have so many questions? Every time I think I am going to get an answer there is a new twist that prevents it (and the media twists it and/or buries it).

It all makes me sick to see the evil and dishonesty that is taking over our country. Every time I see a democrat in these hearings say some empty rhetoric about "the court said there was no evidence." I can't stand for it. The evidence was never heard! Stop stalling, stop running out the clock. I am deeply scared for the state of our country. I feel I am being lied to by many politicians. We The People want this to be properly investigated but we are being ignored. I am scared for the future of our country if our elected officials and our courts will so blatantly lie and stall. No one on "my side" wants to threaten democracy. We are trying to do the exact opposite. We want our elected officials to fight for us and do what is right. Fight for election integrity. Fight for my vote. Fight against all illegal and dead voters. Every single vote that is illegal disenfranchises every single legal vote that is cast. Please properly investigate the election in your state and send the correct electors to Congress.

AMERICAN OVERSIGHT

If Joe Biden wants to be our president, he should be demanding an investigation himself. He should be requesting audits that show the American people who truly won this election. If he is the rightful winner, he should want an audit and invite it to legitimize his presidency. At least 50% of the population (probably more) will not believe he is the rightful winner if he takes office without more answers. My honest opinion is Joe Biden knows how fraudulent this election was. He was in on it. He stood at a podium on November 3, when he was clearly losing and acted like he was winning. He needed to do that to help lead the narrative that the mainstream media was going to push the next day.

Please stand up on January 6th and OBJECT to the electors in the states that sent dueling electors. You should be up in arms fighting for answers. Set the standard that our votes matter! We want honest elections. That is all we are asking for and we need YOU to help us. That is what we elected you to do.

Respectfully,

Katie Giancola

P.S. The American people are not blind. We can see through the agenda that mainstream media is attempting to push. The story can no longer be fed to us through the 'fake news'. I didn't even understand this terminology 'fake news' from Trump until these last few months. Now I can't believe it took me so long it is blatant and obvious. I listened to the entire hour of Trump's phone call with Raffensperger et al and it is laughable how the mainstream media twisted that conversation. In the start of this email I stated that I didn't care for Trump, but after all I have seen I do now. Now that I have looked for the information myself, I believe that Trump was the best thing that ever happened to this country. I believe that the media has attempted to ruin his image for too long. I believe they have gone too far now and the American people are on to them. I trust Trump more than any other politician. The politicians that have stood up for a free and fair election are definitely catching my eye and my vote when the time comes.

Subject: Contest Electoral Votes on January 6, 2021

Good evening,

As a concerned citizen and registered voter in Texas, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states.

There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020, to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden.

The fate of our country hangs in the balance.

Sincerely,
Nicole Stevens

Dear Arizona Republican State Legislators: You must act! Decertify your election due to known irregularities, fraud, and illegal behavior. Contact every Republican member of Congress in both the U.S. House and the U.S. Senate and ask them to challenge the election on January 6, 2021 because the results are not trustworthy. The Founders provided all the legal remedies needed to address and cure a corrupted election. But they could not legislate courage or political will. Our country is facing serious issues. The time to take a principled stand is now. Well over 70% of Republicans now think the election is corrupted. 30% of Democrats think so (Rasmussen)! And this with the censorship by mainstream media of the facts, the hearings, and presentations of massive evidence! 75% of Republicans expect their GOP elected officials to advocate America First policies and that includes fighting for us and this election! There is no sweeping this under the carpet or business-as-usual. I implore you to search your individual consciences and then contact the GOP House and U.S. Senate and ask them to challenge the election. Decertify your state's results! Thank you. Subject: Arizona, DECERTIFY!

You, as State legislators MUST reassert their constitutional authority over the election.

On January 6th, our U.S. Senators and Representatives have a duty to validate the results of the Electoral College vote for our next President.

If they have reason to believe the Electors got it wrong, they also have a duty to reject those results.

For nearly two months, we have been told there's "no evidence" of electoral problems – at *least sufficient to affect the outcome of the presidential race.*

Actually, **there is such evidence – plenty of it**.

- All of the questionable ballots must be properly examined by a digital forensic expert.
- *State legislators MUST reassert their constitutional authority over the election.*
- U.S. Senators and Representatives must question the electoral vote unless until the ballots have been properly reviewed by the legislators.
- Our Vice President Pence must exclude any questionable electoral votes until the ballots have *been examined.*
- Every legal vote must be counted and every illegal vote must be set aside.

Our nation, our Constitution and our children's future requires us to do no less.

I pray you do the right thing and stand with virtue, dignity, honor and integrity and Decertify the contested Electoral Votes which have been sent to the US Government for counting on Wednesday!

Thank you,

Debra Sparks

Subject: Re: Take a Stand

"I urge you to object to the Electoral College votes in the states of Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin at the joint session of Congress on January 6.

The burden of proof should always be on those who seek to certify an election. That burden is especially difficult in a close election. That burden has not been met in the 2020 election for president.

In a year when the number of mail-in ballots increased by an order of magnitude, safeguards should have been increased. Instead, the safeguards were reduced. Indeed, state officials went so far as to circumvent state law in order to reduce safeguards.

- Requirements for voter and witness signatures were reduced or eliminated.
- Requirements for voters receiving blank ballots by mail were reduced or eliminated.
- Requirements for dropping off completed ballots were reduced or ignored.
- Regional counting centers were set up for the first time, requiring more transit of ballots, and allowing for enormous counting rooms so that official observers could be corralled far away from the action they were entitled to observe—yet still be told that they could not complain because, after all, they were in the room.

Evidence of illegal votes—minors voting, non-citizens voting, non-residents of states voting, individuals voting more than once, individuals without residential addresses voting, late votes being counted, broken chains of custody of ballots—has been identified, impacting many thousands of votes, far more than the slim margins of victory in more than enough states to swing the election.

Instead of investigating this evidence, state officials have ignored it, or—worse—have obstructed investigations into this evidence.

Hundreds if not thousands of sworn affidavits have testified to violations of election law or to outright fraud, again impacting many more votes than the margins of victory in various states.

Instead of investigating these allegations, state officials have ignored them and obstructed attempts to investigate these allegations.

The courts have mainly refused to consider the evidence, on the grounds of standing or laches. Plaintiffs were deemed either too early, with no harm yet inflicted, or too late.

Three Wisconsin Supreme Court Justices who actually considered evidence decided in favor of President Trump. But in most cases, when courts did consider evidence, the standard of evidence applied was that of a criminal case—though plaintiffs had a tiny fraction of the time usually needed in a criminal prosecution, and in the absence of investigation or even cooperation by law enforcement and other government agencies.

This posture by the courts gets wrong the burden of proof in this matter. The certifying of an election is a positive act, requiring proof of diligence in upholding the law to secure the election.

I urge you to demand such proof on January 6.

In the absence of such proof, there are other means our founders identified for electing our president. State legislatures, elected by the people, could select electors. The U.S. House, elected by the people, could elect the president.

AMERICAN OVERSIGHT

The elections of some state and United States legislators probably are also tainted—but not as badly as the presidential election, for one reason: The margin of victory in most elections of legislators is much greater than the margin of victory for president in the contested states.

Just as the Electoral College protects against regionalism and fraud in a given state, the election of legislators by legislative district protects against regionalism and fraud in a given part of a state.

The impact of fraud in one district is largely contained within that district. It is this district-level protection that our nation must now rely on to protect against the corruption that exists in specific districts of several states.

If we don't have fair national elections, we don't have a free country. The United States Congress, elected by the people of each Congressional district, may be our last chance to save freedom in our nation. "

Subject: Take a Stand

Dear Legislator, I am pleading with you to take back the Biden electors and certify the Trump electors for Congress. There is no need to have Republicans in office if they are not going to stand up for something this obvious and important. I want all Republicans who don't stand up to this fraud and support President Trump, to be recalled. Also, all Dominion Voting machines need to be forensically examined. Make it happen! If mainstream media and social media were not censoring us, you would be getting 10 times as many contacts about this election.

I plead that on January 6th you object to the Biden electors from the 6 states that are full of fraud, including our own. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current Republicans in office to stand up against fraud and imminent socialism, I want them to be primaried. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators are not correcting this fraudulent election. You need to decide now to stand up against fraud and support our President.
America is watching. You have the power to halt the theft of the Electoral Votes of our state. Rise to this moment in history and protect the Republic and Constitution to which you have sworn an oath.

I can imagine that the pressures brought against you are formidable. However, right is right. Truth and truth. I remind you of the oath of service that you will swear as you assume your responsibilities in Washington:
"I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God."

AMERICAN OVERSIGHT

An oath is an oath. And there are foreign and domestic enemies that have undermined the integrity of the election process through rampant fraud. Now is the time to act. Join with Mo Brooks from the House in objecting to these electoral votes on Jan 6, 2021. Mitch McConnell's recent statements congratulating Biden as President-elect and abandoning Trump's legal battles have caused me to totally abandon the Republican Party if people like yourself and others do not act.

Please do the right thing.

I do not live in Arizona but feel compelled to contact you to urge you to self-convene a special session to select a new slate of electors before January 6th. The entire nation has watched while your governor, secretary of state, and other elected bureaucrats have circumvented the power and the duty of your state legislature to choose electors. The result has been the most crooked election in modern history and the American people deserve better. Congress will be challenging electoral votes in your state on January 6th, but without a second set of electors sent by YOU and your state legislature, they have no hope of upholding our constitution. We The People demand you call a special session before this Wednesday, January 6th, to decertify the electoral vote due to voter fraud evidence. You should know that you do not need the Governor's permission to call a special session as the federal constitution preempts the state constitution. The Supremacy Clause in the federal constitution clearly states you have the authority to call a special session. The majority of AZ voters know that the electors sent on December 14th were ILLEGALLY certified and need to be withdrawn. Dear Honorable House Representatives and Senate Members (Arizona Legislature):

For the sake of expediency, please forgive my collective message, verses, individual messages to each of you. Please invoke the "Supremacy Clause" of the United States Constitution and "call yourselves into session" before Wednesday, January 6th, 2021. It is my understanding that the federal law preempts the state law under this clause. Please assess and certify only the correct Slate of Electors! That is to say:

STOP the STEAL

- There are 74 million Americans who feel disenfranchised due to overwhelming amount election fraud.
- There are 74 million angry Americans waiting for you to take a stand.
- We expect this to be rectified by you calling an Electoral session before January 6th, listening to the evidence, reclaiming your state's electors —we expect this to occur!
- We the People are waiting for you to act.
- If $1 was given by these 74 million voters to the opposing Republican in your next primary, that would be $74 million dollars.
- We the People will not burn down cities, we will not riot. Instead, we will use our power as Americans to right this wrong. You must right this wrong.
- This is an overthrow of our basic right for a free and legal election.
- This is your duty as a duly elected state legislator to protect the elections in the state you represent as outlined in the Constitution of the United States.
- Stop hiding behind your Governor. We are aware.
- If you do not act, We the People will lose our right to a free and fair election, you will lose in your next election.

Subject: January 6th Electorate Tabulation

Hello,

I'm writing to ensure you hear from me, a citizen of the United States of America, the critical importance of challenging all electors from swing states (AZ, GA, MI, NV, PA, and WI) in the 2020 election. As a proud patriot, I feel hopeless and powerless against the fraud committed in key states outside my own, who now have the power to rob myself and our entire country of a free and fair election.

As a Christ-follower, my hope is ultimately in the Lord Jesus Christ, and I am confident this world is not our home. However, as long as I am alive I feel it my Christian duty to advocate for conservative Christian values built on Biblical principles which enable freedom of individual choice, and encourage dependence on God over government.

Thank you for listening; I trust you will act on behalf of your constituents and fellow citizens when electorates are counted on January 6th, 2021.

Subject: Prevent the Steal on January 6

Dear State Representative,

America and our cherished freedoms depend on the reliability of our elections. We should never see evidence of a single vote being altered or deleted, yet in 2020 we have seen incredible convincing evidence of widespread voter fraud and manipulation. This threatens our republic at its very core.

Battlegound states such as ours need to act prior to January 6 to prevent an election steal and a subsequent railroading of the results. It's clear the compromised leaders in the nation's Congress plan to force the illegitimate results of this fraudulent election on the American people.

I can think of no greater form of tyranny or injustice than to steal a national election… and to succeed at it. It's one thing to recognize that fraud has happened, and another to fail at preventing the aim of the crime.

State legislators must convene in special sessions and DE-CERTIFY Joe Biden's electoral votes PRIOR TO JANUARY 6. You are America's last line of defense. Certify to US Congress that Donald J. Trump is the rightful winner of the 2020 presidential election and only his electoral votes MUST be counted before the joint meeting of the House and Senate.

The future of our nation and every national election going forward is at stake. This is your moment to protect America!

Dear Representative Finchem,

My name is Kate Kilpatrick. I am a 17 year old, one of the next generation of young Americans that will inherit the privilege of preserving freedom. As a Republican and proud American, I urge you to decertify your election results before January 6, 2021. The sake of the nation requires that you do your duty. Do not fall weak from the Democrats' bullying tactics. Investigate the rampant voter fraud in this election. This election will be written of in history books. A defiance of duty and rejection of the people's demand slim your chances for re-election, and incur the disapproval of future generations. You were elected to stand for Republicans, and anything short of outstanding courage is failure. History will not paint you the hero for slipping by in this election, but it will remember you among the brave if you stand up to the atrocities committed against Trump. The American people urge you do nothing short of your Constitutional duty. Do not disgrace the position you have been given.

Subject: URGENT REQUEST to Decertify ARIZONA Election Results (House)

Dear Honorable State Legislators,

I am an attorney practicing in the State of Massachusetts, located in Boston.

As an American citizen who regularly participates in state & federal elections, I harbor very great concerns that the General Election conducted in your state last November violated several election & voting laws that had been duly enacted by your state legislature.

In similar fashion with all seven of the swing states (i.e., AZ, GA, MI, NM, NV, PA, WI) involved in the November, 2020 election, your state's election appears to have been conducted in a manner which allowed enormous voting & election irregularities (e.g., counting absentee or mail-in ballots without proper observation of existing requirements to authenticate & validate voter eligibility, date of voting, voter signature & identity, timely submission of ballots, improper extension of ballot receipt dates, ballot harvesting, unlawful electronic manipulation of election tabulation results, disallowing meaningful observation to poll watchers, etc.)

As a result of what can only be properly characterized as extensive voting & election fraud, resulting in errors that far exceed the alleged margin of election victory in any of the swing states, your election results are simply without any legal merit.

These election results should never have been duly certified by your Secretary of State, nor your Governor, nor should they have appointed electors to cast their vote with the Electoral College in accordance with such unlawfully certified election results.

The type of election & voting law changes that were unlawfully enacted by individuals & groups within your state in advance of the November, 2020 election, as was done in all seven of the swing states (i.e., AZ, GA, MI, NM, NV, PA, WI) involved in this election, appear to have been implemented without proper consent or approval of your state legislature.

To the extent that these election & voting law changes were effectuated by various state election officials, including the Secretary of State, Governor, local voting registration clerks, or state courts, they are clearly in violation of your state's constitution, as well as the U.S. Constitution, which vest exclusive, plenary authority to enact such election & voting laws with your state legislature, and with no other executive, judicial or administrative bodies.

As such, several fundamental constitutional rights have been severely violated, and these violations have significantly & unfairly diminished legitimate votes cast by other citizens situated throughout the United

AMERICAN OVERSIGHT

States. The responsibility to remediate these grievances rests with each & every one of you in the state legislature.

On or prior to January 6, 2021, and most certainly prior to January 20, 2021, I would respectfully, but strongly, urge that you have a constitutional duty to decertify these unlawful, unconstitutional election results. Thereafter, I would suggest that you have only two choices remaining, namely:

1. Conclude that the election results, once properly audited by independent forensic experts (perhaps in accordance with the Electoral Commission being proposed by Senator Cruz et al.), warrant a certification in favor of Trump-pledged electors to vote in favor of reelecting President Trump (i.e., effectively override & supersede the certification by your Governor & Secretary of State, which certification authority had been improvidently delegated to them, apparently for administrative convenience); or

2. Conclude that the election results are so untrustworthy, that none of the electors appointed to vote with the Electoral College on December 14, 2020 should have been certified, and that no electoral votes from your state can be recognized by the Electoral College nor by Congress on January 6, 2021.

Thank you for your consideration of my concerns. I truly hope that you have the sense of constitutional responsibility & courage to do the right thing. Our Republic's future is dangerously close to being lost!

Respectfully,

JOHN A. RISSMAN

Subject:	Investigate the Election Fraud, Take back your constitutional right to designate lawful elector

Dear State Representatives for the State of Arizona:

As a citizen of this great country I am very concerned about the many issues with how the 2020 Presidential Election was conducted in Arizona. Each of you took an oath to uphold the constitution of the United States of America and the constitution of your state. As you are most certainly aware, Articles in the U.S.Constitution and your state constitution govern the elections for the President of the United States of America.

It is widely known that in Arizona, as well as other states (primarily swing states) there were numerous violations of our Federal and your state constitution governing elections. It is also widely known that election fraud of various types was committed throughout the election in Arizona; from mail-in ballots, casting of illegal ballots, adjudication of ballots, manipulation of the voting machines, tabulation of votes, not allowing poll watchers for Trump into the facilities to actually observe and participate in the ballot processing, among other types of fraud.

If you cannot acknowledge that this fraud and illegal activity took place, then you are either not smart enough to be a representative or you are willing to be complicit with violations of the U.S Constitution, Arizona constitution and with others' violations of the constitutions in the election of the President of the United States. YOU have an obligation to ensure that the electoral votes from Arizona are valid, cast as the outcome of a lawfully held election. If they were not, then YOU have an obligation to ensure that those electoral votes are not certified.

It is quite clear that the electoral votes for Biden are not lawful. I pray that you do everything in your power to demand a special session of congress, or by whatever means is possible, to make objections to electoral votes for Biden and that you take back your authority to send your own certified electors for Trump to the U.S, Congress on January 6, 2021. Please act with your heart and mind set on doing your constitutional duty and look at the truth of the fraud committed in the Arizona election. Votes were stolen and illegally given to Biden..

I pray that you ensure that there is a thorough investigation into the wide-spead election fraud. I strongly believe that a forensic audit of voting machines MUST be done. If there is no fraud then there should be no reason to not DO THE RIGHT THING.

Sincerely, Virginia Parmenter

The U.S. Department of Health & Human Services Provides Operation Warp Speed / Vaccine Distribution Update (December 29, 2020) (**Tweet**)

- We have now allocated 19.88M first doses for delivery, with second doses on hand to be shipped in a few weeks, getting us to the goal of having enough doses available by the end of year for 20M Americans
- Data reported to the CDC significantly lags actual vaccinations administered. The CDC website says "A large difference between the number of doses distributed and the number of doses administered is expected at this point in the COVID vaccination program."
- We are grateful for the work jurisdictions and vaccinators are doing over the holidays, and we're working with jurisdictions who are already executing plans to ramp up rate of vaccinations and expand administration sites
- CDC **published** a COVID-19 vaccination playbook for jurisdictions in September, and has been working with them on their vaccination plans ever since -OWS is providing jurisdictions kits with the needed needles, syringes, and other supplies for vaccinations along with the vaccines
- CDC issued **$200M** to jurisdictions for flu/COVID vaccinations in September - CDC issued another **$140M** to jurisdictions for COVID vaccinations in December
- Across OWS, the DPA has been used 18 times. We have not hesitated to use the DPA, and Secretary Azar has made it clear he'll use every power at his disposal to ramp up vaccine production safely. There are, however, physical and operational limits to safe, quality, vaccine production.
- Vaccines are already free for Americans, thanks to the work of the Trump Administration -HHS has already launched a massive campaign to increase vaccine confidence and encourage uptake
- The first U.S. COVID-19 vaccine authorization was on **December 11** and the first U.S. COVID-19 vaccination was 15 days ago, on **December 14**
- As a reminder, distributing millions of safe and effective vaccines within a year after a novel virus hit our shores is a historic and remarkable accomplishment

Treasury and IRS Begin Delivering the Second Round of Economic Impact Payments to Millions of Americans

The Treasury Department and the Internal Revenue Service will begin delivering a second round of Economic Impact Payments to millions of Americans as part of the implementation of the Coronavirus Response and Relief Supplemental Appropriations Act of 2021. The initial direct deposit payments began arriving as early as December 29

AMERICAN OVERSIGHT

for some and will continue this week. Paper checks began to be mailed on Wednesday, December 30. This second round of payments will provide critical economic support to those who, through no fault of their own, have been adversely impacted by the COVID-19 pandemic.

Eligible individuals will receive an Economic Impact Payment of up to $600 for individuals or $1200 for married couples and up to $600 for each qualifying child. Generally, if you have adjusted gross income for 2019 up to $75,000 for individuals and up to $150,000 for married couples filing joint returns and surviving spouses, you will receive the full amount of the second payment. For filers with income above those amounts, the payment amount is reduced.

This second round of payments will be distributed automatically, with no action required for eligible individuals. If additional legislation is enacted to provide for an increased amount, Economic Impact Payments that have been issued will be topped up as quickly as possible.

The swift issuance of this second round of payments follows the successful delivery of more than $270 billion in CARES Act Economic Impact Payments earlier this year, providing crucial economic support to nearly 160 million Americans.

Eligible individuals may check the status of payments at **IRS.gov/GetMyPayment**. For more information about Economic Impact Payments, please visit **IRS.gov/EIP**.

Appropriations Bill Enhances Conservation, Outdoor Recreation & Wildfire Prevention

President Trump has made enhancing our nation's conservation initiatives a top priority, signing several historic conservation bills, including the John D. Dingell, Jr. Conservation, Management, and Recreation Act and the Great American Outdoors Act. Unlike other Administration's before it, the Trump Administration succeeded in enacting permanent full and mandatory funding for the Land and Water Conservation Fund and put in place funding to address the long discussed but never solved the

AMERICAN OVERSIGHT

problem of the maintenance backlog at our national parks and other public lands. The President also opened or expanded 4 million acres of land to new hunting and fishing opportunities, recovered the most endangered or threatened species in history for the first term of an Administration and treated 5.4 million acres of land to prevent wildfires – a 49 percent increase in comparison to the last 4 years of the previous Administration.

Here are some notable highlights in the Consolidated Appropriations Act of 2021 that Interior supported to improve conservation:

- **Great American Outdoors Act** – Provides full funding through the National Parks and Public Land Legacy Restoration Fund for priority projects addressing the maintenance backlog at national parks, wildlife refuges, public lands and American Indian schools and full funding through the Land and Water Conservation Fund to protect and conserve lands and waters across the country as identified by Interior.
- **Wildfire Management** – Provides $992.6 million ($40.3 million more than 2020) for Interior wildfire management activities, including fire preparedness, fire suppression, fuels management, burned-area rehabilitation, fire facilities and fire science, in addition to $310 million ($10 million more than 2020) for the Wildfire Suppression Operations Reserve Fund. The funding would allow Interior to provide grants to train non-Federal fire departments and similar groups to fight wildfires.
- **National Recreation and Preservation** – Provides two-year funding for the National Recreation and Preservation Account, allowing the National Park Service to more efficiently and effectively manage available resources and adjust for disruptions in a fiscal year.
- **Sage Grouse** – Provides $74 million for sage-grouse conservation.
- **Long Bridge Project** – Permits the National Park Service to convey lands for purposes of transportation and recreation for the Long Bridge project.
- **1908 Springfield Race Riot Site** – Authorizes the Secretary of the Interior to conduct a special resource study of areas associated with the 1908 Springfield Race Riot, which Secretary Bernhardt proclaimed as part of the African American Civil Rights Network on Aug. 21, 2020, and make recommendations on its possible inclusion as a unit of the National Park System.
- **New River Gorge National Park and Preserve Designation** – Redesignates the New River Gorge National River in West Virginia as the "New

River Gorge National Park and Preserve" totaling approximately 7,021 acres expanding recreational access.

Executive Order on Improving Price and Quality Transparency in American Healthcare

On Tuesday, December 29, the D.C. Circuit Court of Appeals affirmed a signature initiative of the Trump Administration, which ensures that American patients have access to the hospital pricing information they need when they need it, beginning January 1.

President Donald J. Trump: Because of the Trump Administration, hospitals are now required, effective immediately, to publish their REAL PROCES, which will create competition and drive downs costs MASSIVELY. Won lawsuit last week. Bigger than healthcare, it's called PRICE TRANSPARENCY.

HHS Secretary Alex Azar: Big win for American patients today. The DC Circuit ruling is another major victory for President Trump's transformative healthcare agenda. Starting January 1, Americans will have access to the actual prices paid for the most common hospital services.

In November 2019, President Trump signed an **Executive Order** on Improving Price and Quality Transparency in American Healthcare. As directed under the Executive Order, the Centers for Medicare & Medicaid Services (CMS) issued two rules that take historic steps to increase price transparency to empower patients and increase competition among all hospitals, group health plans and health insurance issuers in the individual and group markets. One of the rules - **the Calendar Year (CY) 2020 Outpatient Prospective Payment System (OPPS) & Ambulatory Surgical Center (ASC) Price Transparency Requirements for Hospitals to Make Standard Charges Public Final Rule** - requires hospitals to provide patients with clear, accessible information about their "standard charges" for the items and services

they provide, including through the use of standardized data elements, making it easier to shop and compare across hospitals, as well as mitigating surprises.

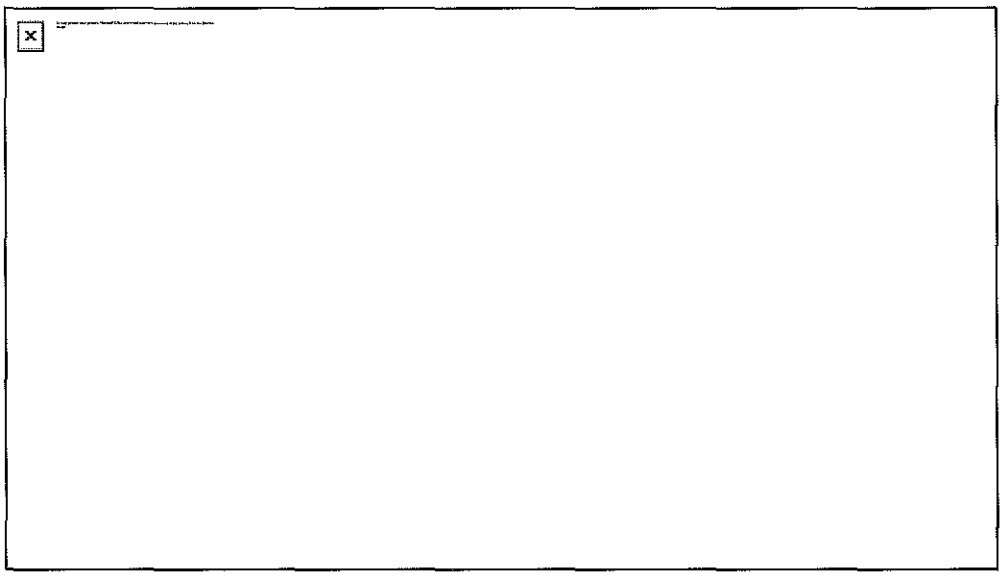
Executive Order on Expanding Educational Opportunity Through School Choice

On Monday, December 28, President Trump signed the **Executive Order** on Expanding Educational Opportunity Through School Choice. The Executive Order offers States and eligible entities the flexibility to provide certain disadvantaged children with emergency K-12 scholarships to access in-person learning opportunities.



Under the Executive Order, States and eligible entities may use available Federal Community Service Block Grants (CSBG) funds to provide life-changing scholarships to families whose children cannot access in-person learning. Scholarships provided with CSBG funds can help families pay for private school tuition, home schooling, micro schooling, learning-pod expenses, special education services, or tutoring.

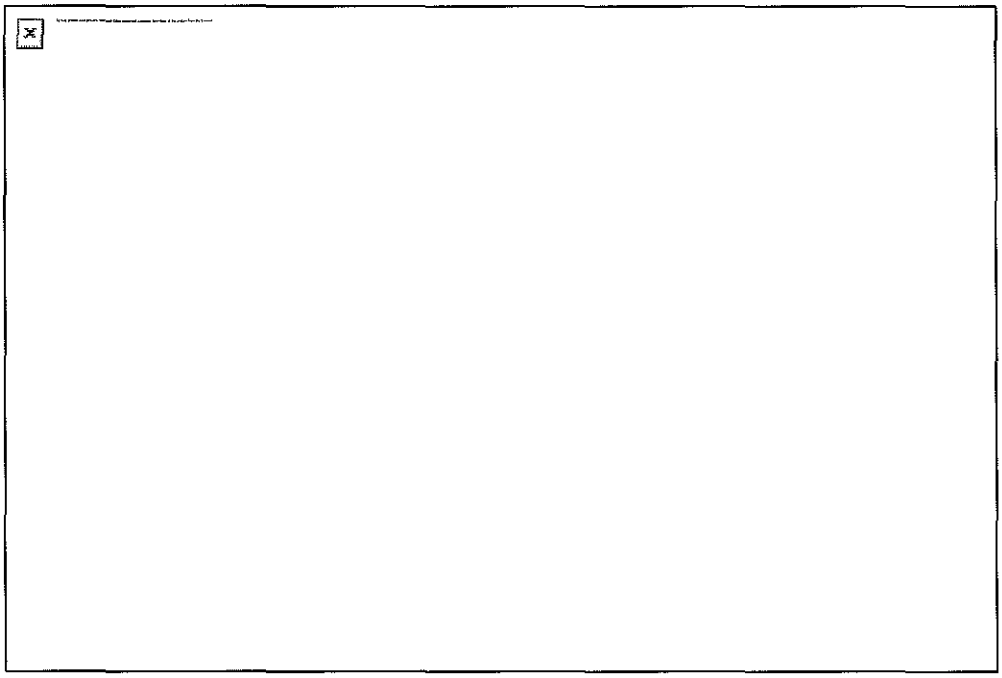
The purpose of the Commission was to conduct a modern study of the state of American policing and determine specific measures to reduce crime and promote the rule of law. At the conclusion of this study, the Commission was to issue a report.



At a ceremony in **January 2020**, Attorney General Barr announced the establishment of the Commission and the individuals who would serve as commissioners. From January through July, the Commission met formally more than 50 times – adjusting to the challenges brought on by the COVID-19 pandemic – with the goal of making

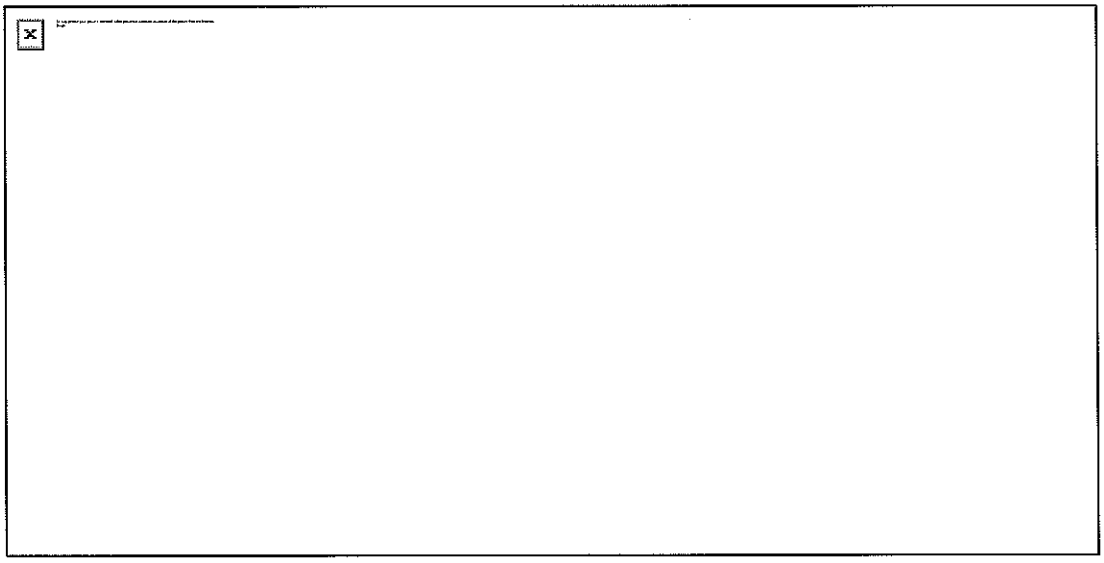
improvements to American law enforcement for years to come. Throughout that time, the Commission assembled a report that reviewed a variety of important issues affecting law enforcement and their capacity to safeguard American communities.

Operation Legend - Fighting Violent Crime and Delivering Results

On December 23, Attorney General Barr **announced the results** of Operation Legend, which was first launched in Kansas City, Missouri, on **July 8, 2020**, and then expanded to Chicago and Albuquerque, New Mexico, on **July 22, 2020**; to Cleveland, Ohio, Detroit, Michigan, and Milwaukee, Wisconsin, on **July 29, 2020**; to St. Louis, Missouri, and Memphis, Tennessee, on **August 6, 2020**; and to Indianapolis, Indiana, on **August 14, 2020**.

Since Operation Legend's launch on July 8, 2020, over 6,000 arrests – including approximately 467 for homicide – were made; more than 2600 firearms were seized; and more than 32 kilos of heroin, more than 17 kilos of fentanyl, more than 300 kilos of methamphetamine, more than 135 kilos of cocaine, and more than $11 million in drug and other illicit proceeds were seized.



Of the more than 6,000 individuals arrested, approximately 1,500 have been charged with federal offenses. Approximately 815 of those defendants have been charged with firearms offenses, while approximately 566 have been charged with drug-related crimes. The remaining defendants have been charged with various offenses.

AMERICAN OVERSIGHT

The Attorney General launched the operation as a sustained, systematic and coordinated law enforcement initiative in which federal law enforcement agencies work in conjunction with state and local law enforcement officials to fight violent crime. Operation Legend is named in honor of four-year-old LeGend Taliferro, who was shot and killed while he slept early in the morning of June 29 in Kansas City.

Subject: Election 2020 Must Not Stand

Good Day Ladies and Gentlemen:

I would like to know how many of you have seen the glaring evidence thus far uncovered. Because in my opinion, after seeing the hard evidence and hearing the sworn testimony of brave whistleblowers, it would be hard to deny that this election was wrought with foul play. Foul play that was, yes indeed, illegal. The slate of electors you have certified to congress is at the very least questionable and at the very most probability, wrong.

How can you put your name on a certification to which evidence has proven it to be seriously in doubt. There's the midnight hours ballot stuffing as evidenced by input spike trends, votes tabulated multiple times, illegally altering voting rules, multiple reports of denying legal watchers, the dead, the out of state, etc etc etc. In this area, there are votes a plenty to decertify Biden and recertify for Trump.

But, now the evidence of the machines and their associated software is coming to life. Were they illegally connected to the internet? Did votes mysteriously get reversed from one candidate to another? Why is there data with fractional votes, aren't our votes whole? Why did the vote trends dip negatively, aren't they supposed to only go up as votes are counted? Is there a reason that video of vote processing locations is not available everywhere? Was this intentional? How many of your citizen's votes were tampered with? How many were switched to another candidate through bloated adjudication processes?

Some of you may say the evidence is false. Well, that's a lot of evidence to fabricate. Have you seen it? We saw the hearings. Only a handful of your bodies were there. If you haven't seen the evidence for yourselves, how can you say it is false? How can you certify with so much evidence that screams for you to not to certify?

This cataclysmic event is far too important to simply brush off as false. The results of accepting this illegitimate election will be felt in America for a long time, if not forever. Our country may never be the same. All for what, power & greed? This is an election that was seen by over 75 MILLION AMERICANS as flat out wrong. Illegitimate.

Please reconsider your electors. Please send a new certified slate of electors to congress before January 6.

Sincerely
Lynn Whitehead
A voter whose vote was stolen.

Dear Representative Finchem:

Rep. Ken Buck issued a statement respecting states' authority to select their own electors. However, they do provide "one and only one path to victory for President Trump on January 6, 2021:

"Of the six states as to which questions have been raised, five have legislatures that are controlled by Republicans, and they all have the power to send a new slate of electoral votes to Congress if they deem such action appropriate under state law. Unless that happens between now and January 6, 2021, Congress will have no authority to influence the outcome of the 2020 presidential election.

There is one and only one path to victory for President Trump on January 6, 2021, and it depends on state legislatures certifying Trump electors in the states at issue, pursuant to state law and the U.S. Constitution, and based on a finding that votes lawfully cast in November were sufficient to produce a Trump victory. If they believe there was fraud—and if they believe that such fraud affected the outcome of the election—they must, as a body, convene immediately and send us that information, along with certified electoral votes cast by a Trump slate of electors. Absent such action, there is not a constitutional role for Congress to change the outcome of any state's vote."

Please call a special session and/or send a new slate of electoral votes to Congress before Wednesday! Or at the very least, decertify your existing electors pending Senator Ted Cruz's forensic audit. You are our only hope! Please remember your American ideals and what you're there for. Don't forget that this is a "government of the people, by the people, and for the people". Please make We the People proud. Please don't be afraid, the Lord is with you and so are we. Do the right thing and follow your soul; you will have a clear conscience and you will become a hero to this nation. This really isn't about President Trump, it's about our confidence in our elections. It's about freedom and democracy. Don't let them steal that from us. I will be praying for you and hoping that you deliver before January 6th.
Thank you,
We the People

Subject:	Call for Special Electoral Session

Dear State Representative:

My name is Victor Shapiro, and I am just one of 74 million Americans who are beyond concerned for the integrity of the 2020 Presidential elections, as well as the legitimacy of all elections following 2020. I am writing you with passion to ask for your support and courage in calling for a special electoral session in Arizona. I am not a partisan person, I vote independently, but I believe the 2020 presidential election in the state of Arizona to be very fairly questionable. The evidence is there if your care to look closely enough. Beyond the evidence, here are some other considerations:

* There are 74 million Americans who feel disenfranchised due to overwhelming, and apparent election fraud in 2020.

* There are 74 million angry Americans waiting for their *government representatives* to take a stand in favor of fair elections.

* We expect this to be rectified by you calling an Electoral session before January 6th, listening to the evidence, reclaiming your state's electors —we expect this to occur!

* If $1 was given by these 74 million voters to the opposing Republican in your next primary, that would be $74 million dollars.

* We the People will not burn down cities, we will not riot. Instead we will use our power as Americans to right this wrong. You must right this wrong.

* What is occurring in the 2020 election is an overthrow of our basic right for a free and legal election.

* This is your duty as a duly elected state legislator to protect the elections in the state you represent as outlined in the Constitution of the United States.

AMERICAN OVERSIGHT

* If you do not act, We the People will lose our right to a free and fair election and you may well lose in your next election, not as a threat, but as a mere argument of reason.

** This is a moment of history in the making. How will your actions or inactions be recorded? We the People are waiting for you to act.*

May God help you make the right decision.

Dear AZ legislature:

I am a Chinese-American who escaped China under dictatorship government and socialism system to the free land to seek for liberty, freedom and prosperity. The behaviors done by Democratic past 4 years such as silencing and suppressing different voices, tearing down stature, rioting, looting, so-called BLM movement are concerned me greatly because it acts exactly like when I lived in China during Chinese Culture Revolution. I am stunned to see it is happening in the country. Furthermore, they used the pandemic year to pour in millions of unprecedent paper ballots to damage the most valuable human right from ordinary people and created constitutional chaos for our country and made me very unease.

I urge all of you to treat it very serious and assume your responsibility to defend the valuable constitution for the country with your courage, integrity, and patriotism. GOD IS CALLING YOU NOW TO PROTECT THE COUNTRY!

Please reject the electoral votes until all of election investigations are done (eliminate all ineligible paper ballots, exam the voting machines and so on). We need a clarity to ensure no one steals the value vote right for the people. If you have the reasonable doubt, please REJECT IT until you have great confidence.

PLEASE CALL FOR CONGRESSIONAL HEARING BEFORE JANUARY 6 TO INVESTIGATE THE ELECTION FRAUDS & ABUSE!

PLEASE CHALLENGE THE FRAUDULENT ELECTORAL VOTES AT THE JOINT SESSION ON JANUARY 6!

KEEP IN MIND you work for PEOPLE. If you dont act correctly, we the PEOPLE have the right not 1) donate for your campaigns 2) won't vote for you next run. More importantly we count on you to follow GOD and MORALITY to act!

Dear Arizona State Legislature,

As a concerned citizen and registered voter in North Carolina, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence.

Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI.

Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored.

We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

We need men and women of courage during this hinge point of US history. You have an army of Americans that have your back, and a loud, obnoxious minority that want you to capitulate to gaslighting and threats. Failure to act righteously will certainly be the end of your political career, yet even worse, it may be the end of our republic as we know it. Now is the time to stand with the truth! Fight for freedom, transparency, and accountability. Fight for America!

Dear Honorable Representatives and Senators,

I do know that there are those in the legislature who are in this fight. Thank you for the efforts those have taken. They are more than appreciated. I worry about Wednesday's vote in Congress. So many GOP are unwilling to stop this takeover of our nation by Neo-Marxists. My urgent plea is that the state legislatures in the swing states that the Democrats strategically targeted would take back those Biden Electors and assign them to President Trump. I feel that is the best safeguarded way for President Trump to remain our rightful President. Then after President Trump has won re-election then the laws for elections can be fought and righted. BUT, right now you must stand up and demand that the Electors be changed. Time is fleeing.

I implore you to read this warning:

'No stopping them': James Dobson sounds alarm bell for America – WND News Center

Also, listen to Mark Levin's opening monologue:

Thank you for standing in the gap and having the courage. History and voters will remember those who did stand up and fight.

Dear Honorable Senators and Representatives,

You must call into a special session for the sole purpose of the Presidential Election. Your state constitution and laws do not preempt the US Constitution. You have the power but just need the courage to stand tall and right this wrong of the fraud that was perpetuated upon President Trump and the American People. The slate of electors that the Secretary of State submitted are invalid. You must decertify those electors for Biden and vote to submit the Trump electors.

The Supremacy Law of the Constitution states:

This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.

To keep our country out of the hands of the CCP and the Davos elites I beg you to not let their fraud stand. This has been a well coordinated effort on the part of Democrats and outsiders of our country. You must have courage and stand up right now before the Jan 6th date.

On behalf of the 75 million Trump supporters,

Subject: 2020 Election

To Honorable Governor, Representatives and Senators,

As a member of the American People I must urge you to take action to right the ship of this election debacle. President Donald J. Trump is the rightful winner of this election. There is massive election fraud and the evidence is immense. Peter Navarro has documented the evidence to show how this election was an attempted theft and coup de tat. https://www.scribd.com/document/488495896/Navarro-Report#from_embed

As Ken Blackwell stated on Steve Bannon's show today, "The main stream media and the left want us to believe that Donald Trump as evidence, as results has long coattails but no coat". Let me explain, Republicans won many seats in states and Congress due to the President's campaigning and the last four years results of his presidency, but he lost his bid for four more years. That is truly laughable. Ken Blackwell also stated that the trials have been thrown out for procedural standards or no standing, not on the evidence. He stated that Article II of the Constitution gives state legislatures the authority to self-convene. **You do not need Secretary of States or Governors to self-convene on the narrow issue of the Presidential issue and the Electoral College. You must take back the authority as an act of political will.** Blackwell also stated, **we are the majority party, act like it**.

As a life-long Republican, I have followed the Republican Party with my vote in every election since I was 18. That was 42 years ago. I have held my nose and voted for candidates that I didn't agree with just for the party's sake. Let me assure you, after seeing what I've seen the last four years, the disgusting display in the deep state and the swamp, and the spineless Republicans that will not take a stand for what is right and just, I will no longer support any in the GOP party or elect candidates that do not have a spine, courage and will stand for righteousness without taking money from those who wish to control or destroy our country. I will work till I'm dead to no longer support any of you that we see to be weak-kneed cowards that some of you are, and if you do not stand with our President in a time that evil domestic and foreign invaders of our country are trying to topple our great Constitutional Republic then I dust you off and will work to defeat you in every way I possibly can. WE THE PEOPLE (over 74 million) will not tolerate this behavior any longer. We are informed and have very long memories. HERE IS WHERE WE TAKE A STAND to save our Constitutional Republic.

The GOP is now the Trump Party, as we the people are not following Republicans any longer if they do not fight for this President and our Constitution. That is a fact. Some have taken a stand, but many more (all of you), need to stand up and fight. Give us Liberty or Give us Death. Do you want to be the generation of leaders that allowed foreign enemies to overtake our great nation? *It's either Freedom, the Constitution and liberty or it's a complete take over by the China* Communist Party. Stand up now and act before it's too late. Patriots or Traitors.

Thank you.

Biden Plans Renewed Nuclear Talks With Russia While Punishing Kremlin, Adviser Says
David E. Sanger, The New York Times

President-elect Joseph R. Biden Jr.'s incoming national security adviser said on Sunday that the new administration would move quickly to renew the last remaining major nuclear arms treaty with Russia, even while seeking to make President Vladimir V. Putin pay for what appeared to be the largest-ever hacking of United States government networks. In an interview on "GPS" on CNN, Jake Sullivan, who at 44 will become the youngest national security adviser in more than a half century, also said that as soon as Iran re-entered compliance with the 2015 nuclear deal - which he helped negotiate under President Barack Obama - there would be a "follow-on negotiation" over its missile capabilities.

Biden's Strategy for a Predecessor Who Won't Go Away: Ignore Him
Justin Sink, Bloomberg

Joe Biden faces historic challenges when he enters the White House on Jan. 20: a raging pandemic, persistently high unemployment, simmering tensions with China and Russia - and a predecessor who won't go away. Aware of the chaos and distraction Donald Trump has proved he can muster, the president-elect and his advisers have developed a strategy they believe is the only way to neutralize the threat: ignore him.

Biden Inauguration to Feature Virtual Parade
Tarini Parti, The Wall Street Journal

President-elect Joe Biden's inauguration will include a virtual parade as part of a series of events on Jan. 20 that have been scaled-down because of the coronavirus pandemic, the inaugural committee said Sunday. After being sworn in on the west side of the Capitol, Mr. Biden, Vice President-elect Kamala Harris and their spouses will participate in Pass in Review, a

Delayed AG pick raises pressure on Biden to field a diverse leadership team at Justice Department
Jessica Schneider and Christina Carrega, CNN

The longer that President-elect Joe Biden takes to select his pick for US attorney general, the more pressure builds on him to staff his Justice Department with a diverse leadership team. What Biden had initially anticipated would be announced by Christmas Day, has stretched into the new year.

'Break up the groupthink': Democrats press Biden to diversify his tech picks
Cristiano Lima, Politico

Democrats for years have pressured Silicon Valley companies to address their poor track records on workforce diversity. Now they're calling on President-elect Joe Biden to do the same for federal agencies that oversee the tech industry. Failing to do so, lawmakers and civil rights experts say, could hinder the administration's efforts to address critical tech issues such as rooting out biases in artificial intelligence and expanding internet connectivity for communities of color.

Will Biden Pump the Brakes on Trump's Moon Race?
David Axe, The Daily Beast

It was supposed to be a crowning achievement of Donald Trump's second term. By 2024, the Trump administration aimed to put astronauts on the moon for the first time in more than a half-century, cementing a long-term American presence on the lunar surface for science and mining-and as a waystation for a future mission to Mars.

Trump's powers fail him
Alayna Treene, Axios

President Trump's caught-on-tape effort to bully the Georgia secretary of state shows that the powers Trump used to cajole his way to the top of business - and into the presidency - are now failing him in his White House final days. "The clock is ticking," a longtime friend and Trump adviser told me.

Feds may cut Moderna vaccine doses in half so more people get shots, Warp Speed adviser says
Brianna Ehley, Politico

The federal government is in talks with Moderna about giving half the recommended dose of the company's Covid-19 shot to speed up immunization efforts, the head of the Trump administration's vaccine rollout said on Sunday. Operation Warp Speed chief adviser Moncef Slaoui said there is evidence that two half doses in people between the ages of 18 and 55 gives "identical immune response" to the recommended one hundred micorogram dose, but said the final decision will rest with the FDA.

US surgeon general contradicts Trump on Covid-19 death toll
Devan Cole, CNN

US Surgeon General Dr. Jerome Adams on Sunday said he has "no reason to doubt" the US Centers for Disease Control and Prevention's Covid-19 death toll, contradicting President Donald Trump's claim that the agency has "exaggerated" its numbers. "From a public health perspective, I have no reason to doubt those numbers," Adams told CNN's Jake Tapper on "State of the Union" when asked about Trump's claim.

Trump to give Reps. Jim Jordan and Devin Nunes Presidential Medal of Freedom
Alayna Treene and Jonathan Swan, Axios

President Trump is expected to give Reps. Jim Jordan (R-Ohio) and Devin Nunes (R-Calif.) the Presidential Medal of Freedom, three sources familiar with the plans tell Axios. These key Trump allies both played crucial roles during Trump's impeachment hearings. Nunes, who's expected to get medal Monday, launched a fierce attack on Democrats at Trump's impeachment hearing that helped set the stage for the GOP argument that it was partisan and unfair and an extension of the 2016 Russia investigation.

In Reversal, Pentagon Announces Aircraft Carrier Nimitz Will Remain in Middle East
Eric Schmitt, The New York Times

The Pentagon said on Sunday that it had ordered the aircraft carrier Nimitz to remain in the Middle East because of Iranian threats against President Trump and other American officials, just three days after sending the warship home as a signal to de-escalate rising tensions with Tehran. The acting secretary of the defense, Christopher C. Miller,

Mike Allen, Axios

The Republican battle lines being formed in President Trump's final days - his loyalists vs. Senate Majority Leader Mitch McConnell's establishment - will shape American politics for the next four years. Subject: Urgent Message to State Legislators

The citizens of our country deserve to know that all elections are fair and free of fraud. However, estimates show that a large percentage—possibly even a majority— of the voting public in the United States feel that our recent presidential election was NOT fair and free of fraud. Due to the failure of our Supreme Court to uphold our Constitution, it is incumbent upon state legislatures to take appropriate action to ensure the integrity of the election results.

I Urge you to Call an Electoral Session of your state legislature before January 6th to recall its electoral votes and to hear the evidence claiming voter fraud.

This is an urgent matter and your immediate attention will be appreciated by the citizens of our great nation.

Respectfully submitted,

Subject: 2020 election

Dear Representative of the State of Arizona,

We the People expect that you call an emergency electoral session and reclaim your electors before January 6th. Conduct a thorough investigation and take into serious consideration the evidence for the illegitimacy of the 2020 election. 74 million Americans feel disenfranchised due to an overwhelming amount of data and testimony pointing to election fraud. This is an overthrow of our basic right for a free and legal election.

You must right this wrong. It is your duty as a duly elected state legislator to protect the Arizona election as outlined in the Constitution of the United States. We need you to take a stand! Please! We the People are waiting for you to act.

Do not hide behind the governor. We are aware. If just one dollar was given by these 74 million voters to the opposing Republican in the next primary, that would be $74 million dollars. We the People will not burn down cities and we will not riot. We will use our power as Americans to right this wrong.

Of course, We the People will lose our right to a free and fair election if you do not act. You will lose in your next election.

But ultimately, this is not about who wins. This is about making sure that the votes of the American people are authentic and not fraudulent. If there is even a possibility that our votes do not accurately reflect the will of the people, and there is nothing done to rectify this, I'm afraid that we will no longer be able to retain our Constitutional rights and liberties.

AMERICAN OVERSIGHT

We will no longer be a government of the people, by the people, for the people. Our republic literally hangs in the balance.

We're depending on you to step up and make this right.

RECLAIM YOUR CONSTITUTIONAL RIGHT TO CLAIM YOUR ELECTORS!

Sincerely,

Joshua and Melody Jones

Subject: OBJECT Biden slate of electors!

Dear members of the Arizona House of Representatives,

I am letting you know that you have my full support, and also my strong urging to please do all of the following in regards to the presidential election:

1. Hold a special session to hear all the evidence of illegal activities that WRONGFULLY resulted in a Biden win. (If you count ALL legal votes and do not count illegal votes, Trump is the rightful winner. The American people voted for Trump!).

2. Demand an audit of all ballots, to be performed by Jovan Pulitzer.

3. Decertify the unlawful election results that have been certified in the 6 contested states, where there is massive evidence of illegal ballots and fraud (PA,GA,WI,MI,AZ,NV).

4. OBJECT the BIDEN slate of electors on January 6th!

4. ACCEPT the rightful winner of this election on January 6th: Donald J. Trump!

I believe I speak for most of America when I say that, again, we are in full support of you doing all of these things. And more than that, we respectfully demand that you do. This is not only your right, but your duty. The majority of the American people feel this election was somehow, in some way stolen from Trump, and that he is the rightful winner.

The following is not a threat in any way. Please do not take it that way. Rather, it is a warning of what might have to happen if you fail to stand up for a fair election. If you fail to do your job and do not stand up for the rightful winner of this election, Donald J. Trump, the American people will be forced to take it into their own hands. We don't want to have to do that, but if it comes down to that, we will. The courts have failed us. It is down to you! So please, we urge you to do the right thing. Elect Donald J. Trump as president.

Thank you for all your hard work in supporting the American people and preserving our freedoms.

Sincerely,

Hello,

As a concerned citizen and registered voter in New York, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. There has been widespread election fraud with overwhelming, irrefutable evidence. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI. Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the electoral votes cast for Biden. The fate of our country hangs in the balance.

A concerned citizen,

I ask that you stand up on January 6th to challenge the electors that have voted to continue this fraud, and we demand a fair and legal election. This one had not been fair nor has it been transparent. This is your job and commitment to the oath that you took for us the American citizens .

There has been much fraud revealed and we ask that all fair and legal ballots count and all illegal ones and those who perpetrated this fraud be exposed, and if you don't take that stand to challenge this, our republic will be ruled by ungodly socilalist that will continue to destroy what we know as the United States of America, and will you have betrayed not only the American people but our founding fathers.

Our prayer is for you to pray and consider carefully your duty to demand a fair election for all.

Thank you.

Dear Congressman,

Millions of Americans are furious about how the last election was handled.
Millions of Americans went to bed on the night of November 3rd, believing Donald Trump had rightfully won the presidential election. They were denied that victory after a perfect storm of millions of mail-in ballots, ballot drop boxes, and the unsupervised counting of votes occurred in closely decided states, including Georgia, Pennsylvania, Arizona, Nevada, and Wisconsin. At this point, dozens of witnesses have come forward with credible allegations of fraud. The corruption and fraud is clear, you cannot deny it any longer.

For all those reasons, we ask that you voice your opposition and refuse to certify the presidential election on January 6th.

Any Congressional Republicans who move forward and certify this sham of an election will receive a well funded primary challenger in 2022. We will work to take over the state parties who do not recommend their delegations fight for Trump.

This is your chance to show some bravery and show Republican voters you're looking out for their interests and the President. The world is watching and hoping you meet the moment.

Respectfully submitted,
Stop the steal

Subject: De-Certify Arizona's Fraudulent Election Results!

To the Elected Members of the US Federal and State Government(s):

I am a citizen of the United States of America and a resident of the Great State of Pennsylvania, and as such I formally demand that each and every one of you do your Constitutional duty this week. Depending on your role in government and capabilities, I request that you:

1) de-certify the obviously fraudulent election results before January 6, 2021.

2) object to the certification of the electoral votes of the obviously fraudulent election results on January 6, 2021.

3) stop pretending you can't SEE the fraudulent election results and decry this farce.

This is not up for debate. This is not a choice, or a personal decision for you. You have a duty. You swore an OATH to the Constitution, and by God, I expect you to UPHOLD IT.

If you are one of the intrepid Patriot souls already committed to the correct path, I commend and thank you. If you are one of the ones still unsure of your position, allow me to clarify it for you. YOU work for ME. You do what I want you to do, and you are not MY boss. This nation is a REPUBLIC, and therefore I am the boss of YOU. Many of you seem to have forgotten that. There is quickly coming a reckoning to remind you.

The American public has been asleep. We did not notice the slime of corruption seeping into the pristine halls of the greatest country on Earth. It was slow, and insidious. It has stained the very fabric of democracy for 30 years or so. But then you locked us in our houses for a year to hide from a fake pandemic. You thought we would just cower and watch cat videos. We didn't. We began to question, and dig. We found the truth and now we are awake. You boiled the frog too fast, and we figured it out. We the People are VERY, VERY ANGRY.

This is not really about Trump or Biden. It never was. It is about our sacred God-given right to vote in free and fair elections as prescribed by the Constitution and the belief that we were actually electing the leaders we sent to Washington to do the work of We the People, in the interest of ALL Americans. As it turns out all we had was the illusion of choice. Our leaders were lying and cheating, and we had our officials chosen for us. We have not been governing ourselves. We have been ruled, likely for decades. I question how many of you really won your races honestly. That ends now. We the People know that a select few of you are Patriots, steadfast and true. The rest are oblivious, weak, afraid, complicit, corrupt or flat out traitors. Unacceptable. And we are coming for you. What you do now will help determine how it goes for you.

Failure to act as we demand will result in every one of you being primaried, at best. If the corruption and fraud continue and that doesn't work at the ballot box fixed in your favor, it will escalate to civil war. We will take our country back from corruption, evil and deceit. That's a promise. We the People will not tolerate this scandalous and reprehensible behavior from our elected representatives one moment more. Make no mistake. Let me be clear: you will do the right thing. Now. We the People don't care if you don't like Trump. WE THE PEOPLE DO. You don't get to pick. We do. Nearly seventy-five million of us voted for this man. Unprecedented. That has NEVER been in doubt. The dog that isn't barking is just that. Trump got a record number of votes. Biden CHEATED.

You WILL object and fix this, and here's why. The fraud that I can see just from my living room:

AMERICAN OVERSIGHT

1) I stood in line for nearly TWO HOURS to vote on election day in tiny Lycoming County, in the middle of the work day. That has never happened in my LIFETIME. No one was there to vote for Biden.

2) I drive all over PA for my job. One day a week before the election I drove from home, to Lebanon, to Lancaster, to York, to Harrisburg and back home. I saw literally THOUSANDS of Trump flags, signs and displays. I saw maybe 25 for Biden. Don't forget the car and boat rallies. I even saw a tractor rally. The AMISH had Trump flags and showed up to vote. They brought their WOMEN to vote for Trump. Unheard of.

3) I attended 3 Trump rallies. Trump rallies were like Beatles appearances in the 60s. Sixty THOUSAND people in Allegheny county. There were more people in line for the bathrooms at a Trump rally than I ever saw at a Biden event. Ever. Don't pretend the virus kept them away. No one cared about Biden. Don't think we don't know about the Jeep dealership. That was just pathetic.

4) Multiple states, including my own PA, illegally changed their laws to accommodate the fraud. Our PA Courts legislated from the bench, bypassing the legislature, and defied Supreme Court Associate Justice Alito. That alone should invalidate the results of just my state. Other swing states did similarly illegal things while you just watched and did nothing. Nothing to see here! Shameful. They should ALL be invalidated, or at least de-certified.

5) Trump was winning everything on Election Night, even Virginia, if you were watching. Suddenly all the swing states all stopped counting. Then trucks started showing up and dumping ballots, literally hundreds of thousands for Biden. Are we supposed to just accept it wasn't planned and coordinated? Again, why do all these illicit shenanigans all favor Biden?

6) Arizona was immediately called for Biden seconds after the polls closed. Don't you think they should have COUNTED first? Or did they already know the outcome since they rigged it ….?

7) How about those miracle 55 votes found in a drawer a month after the election to push that democrat over the top who lost by 12 votes? That wasn't at all suspicious.

8) It is breathtaking that you ask us to accept that virtually every down ballot conservative candidate won, but not the Presidency. All that told me is that so many people voted in person for Trump that it broke the cheating algorithm on the voting machines and having to produce thousands and thousands of fake paper ballots in just a few hours demanded that they didn't have time to fill in Democrat candidates down ballot, just Biden. Don't give me conservative Never Trumpers. I don't know ONE.

9) There are literally THOUSANDS of affidavits sworn by Americans under penalty of prison testifying to the massive fraud in every swing state. Those people are risking everything to put their name on those.

10) Vote switching happened, right before our eyes. Voting is incremental, at no time should either candidate lose votes, yet Trump did, MULTIPLE TIMES, RIGHT ON TV. I saved the videos. Dominion voting machines are COMPROMISED.

11) Republican observers were bullied, threatened, removed and prevented from watching in every swing state. No transparency at all. If fair and honest, why not let anyone watch? BECAUSE THEY WERE CHEATING!!!

12) Courts in every state refusing to even look at evidence. A judge in GA is Stacy Abrams sister. No recusal for conflict of interest. Really? That certainly seems suspicious.

13) Officials in virtually every contested swing state have become mask and lockdown dictators in direct violation of the Constitution, and clearly do not value or obey our most sacred document. I have no problem believing they are together in a coordinated effort to overthrow our government. You think they care about voting integrity when they have proved they don't care about destroying their own constituents?

AMERICAN OVERSIGHT

14) It is against the law for voting machines to be connected to the internet. I have seen PROOF multiple times that they were consistently connected to the internet, the last of which was LIVE AT THE GEORGIA HEARING demonstrated by Joval Pultizer.

15) Mathematical models and statistics provided by multiple experts like Rich Baris, Matt Braynard, Larry Schweikert and Bobby Piton prove that what happened isn't possible. The numbers I see are 133 million registered voters, 74 million in person for Trump (not counting Dominion deducting from his total). That leaves 59 million for Biden, assuming every single person registered actually voted. Trump wins. Because facts and math don't care about feelings.

16) Polls and statistics show that Trump made substantial gains with every group - whites, blacks, Latinos, Christians, Jews, Asians ... who was left to vote for Biden? If Trump is such a racist, he stinks at it.

17) Just to say it, we all know that the voting machines are owned, funded or connected to a vast number of democrats, and some RINOs - in particular, the Clintons and Nancy Pelosi. We KNOW this. I have all the links and videos saved, all the documents. Looking at you, Georgia.

18) So, so many democrats and RINOs are covered in filthy Chinese (and other foreign) money. That now seems to be an open secret. Mr. Swalwell is still on the Intelligence Committee despite being tied definitively to a Chinese spy. Diane Feinstein's driver for years was also a Chinese spy. Tie that in with the Hunter Biden laptop that everyone wants to pretend doesn't exist and we have just a sampling of the reasons why China would interfere with and directly influence our elections. They are SALIVATING for Biden to win so they can finish us off and take us over. I also notice the same people screaming Russian interference in 2016 for FOUR SOLID YEARS are now the same people screaming that audits threaten democracy. Again, what are you hiding? It's going to come out, you know.

19) The Georgia Committee finally ruled for a full audit, and within a day mystery trucks arrived to take the ballots away never to be seen again. If that doesn't scream election fraud, I don't know what does. Again, video proof.

20) The Biden camp has not actually denied it, if you listen closely. All anyone ever says is there is no evidence of fraud, then ignores the evidence. No staunch denials, no outrage. They didn't say there isn't any fraud, just that there isn't proof. Some of us learned to think before education was ruined by liberals.

I could go on and on. It's disgusting. But that is just what I can see from tiny Lycoming County in Pennsylvania without really trying. How can you not see it, again? You are asking us to ignore our eyes. The truth. How DARE you. You must think we are really stupid. Proof of that is the Covid Stimulus Bill. That clearly proved that you care more about sexually confused Pakistanis than you do us. We all know that foreign aid is just cleverly disguised money laundering. How else do public servants get to be worth $100m dollars? Homosexuality has been illegal in Pakistan since 1860, yet I'm supposed to believe they need $10m for gender studies. That's our own money you won't give us. You know what $600 can buy? A fifty-five gallon drum of tar and ten pounds of chicken feathers. And we wouldn't NEED a stimulus package if you hadn't shut us down and ruined the economy. How can Florida and South Dakota be fine without lockdowns but Pennsylvania and New York not? Masks and lockdowns don't work. They ruin lives. We also saw you RINOs complain about Facebook yanking down the Georgia runoff Republican Fundraising website, AFTER you vetoed Trumps Defense Authorization Act which included potentially fixing Section 230 to control that very thing. We see you and your hypocrisy. And we'll remember. We're awake now, and paying attention.

We see you. We see every one of you. We don't trust you. We are VERY, VERY ANGRY. WE KNOW WHAT YOU DID TO OUR SACRED ELECTIONS. MAKE IT RIGHT. We the People demand that you do the right thing, your Constitutional duty and uphold your oath.

"...It is, Sir, the people's Constitution, the people's Government, made for the people, made by the people, and answerable to the people. The people of the United States have declared that this Constitution shall be the supreme law. We must either admit the proposition or dispute their authority."

-Daniel Webster, 1830

AMERICAN OVERSIGHT

Think hard about disputing our authority.

The sleeping giant has awakened. I am no longer a Republican, preferring simply Conservative. Now I've changed it to Patriot. For the last few years I have endured a circus of media clowns lying openly to the American public screaming Orange Man Bad, censorship from news and social media platforms, ridiculous new social(ist) norms, I have been called deplorable, racist, white supremist, chump and told to shut up, sit down and accept this. Hell, no. I will not. Not only will I not shut up, I'm waking everyone I know. There will be no unity or healing. That's just code for appeasement and submission. Never. America is wounded, on Her back, bleeding out. She must be saved, and we Patriots will save Her. If we need a new Patriot Party for that to happen, so be it. The current Uniparty of corruption and socialism is over, democrats and RINOs alike. You know what they say about the Tree of Liberty .....

Do the right thing, and fix and object to this FRAUDULENT travesty, this horrible, obscene lie. The truth will come out anyway. It always does.

We are watching you, and so is the world. History will remember you, one way or another. How will it remember you? Will you legacy be based in a lie? A fraud? Think very hard.

Thank you for your attention. We're coming for your answer on January 6 th.

Subject: AZ Legislative Session

I am writing to you today to request that you, as a Republican, stand shoulder to shoulder with President Trump to not only support him but stand for free and fair elections.

The other day the Subcommittee on Elections from the Georgia Senate Judiciary Committee held a hearing.

The evidence is now overwhelming. From thousands of eye-witnesses with sworn affidavits, to glaring statistical anomalies and mathematical impossibilities, to recent and shocking videos from Fulton County, GA showing clear violations of GA state election law and probable criminal behavior.

The most compelling testimony that day came from Jovan Hutton Pulitzer of the Gold Institute of International Strategy. His team informed him "At this very moment at a polling location in the county, not only do we now have access to the devices to the poll pad—the system—but we are in. It's not supposed to have WiFi, and that's not supposed to be able to happen,"

The evidence is so overwhelming, it ensures anyone in good conscience, no matter their political persuasion, could not possibly deny it.

Your Arizona legislature is majority republican controlled and you have the means under the Constitution of the United States to conclude the popular vote was corrupted. Establishing this, your legislature has "plenary power" to call a special session to choose electors, without restraints from the state constitution, or the acquiescence of the governor. This was confirmed by Professor John C. Eastman who testified before the Georgia senate oversight committee last week.

It is no longer acceptable for you as a legislature to attempt to pass the buck to either the courts or the executive departments. The Founding Fathers gave you plenary power to choose electors for good reason - for precisely these circumstances. Do not be afraid of, or intimidated, by the mob. For every one of them behind a tree, there is an American patriot behind every blade of grass. So please, have the courage to stand up for what you know to be right! Be brave, like so many men and women who have given their blood, sweat, and tears for this great nation. I am now referring you to the correct constitutional procedure in ten easy steps.

AMERICAN OVERSIGHT

I must reiterate this point to you: you do NOT require a special session as prescribed by your state constitution. In the capacity of choosing electors, you have federal plenary power. As such, you are acting in a FEDERAL capacity under the US Constitution (Article 2). The US Constitution supersedes any limitations the state constitution, or prior legislation, may have placed on the current legislative body.

You have PLENARY power. Exercise it. State constitutional requirement requiring the acquiesce of governors, or a 2/3 vote, is pre-empted by US statutes & Supreme Court decisions.

1) Per McPherson v. Blacker (1893) and Bush v. Gore (2000), re their role in appointing electors, state legislatures have "plenary" power.

2) Plenary = "absolute" authority with regards to a duty, and it cannot be questioned.

3) This right was exercised by Florida, South Carolina, Louisiana, and Oregon during the 1876 Election. It was also being exercised in Florida during the 2000 Election, before SCOTUS intervened to end the recounts.

4) In McPherson, SCOTUS held Article II "constrains each state's capacity to limit its legislature's ability to appoint electors".

5) Consequently, no state constitution's law can abrogate or alter the State Legislatures' power in appointing electors. Even a state's typical special session requirements (such as a governor's agreement, or call, or a 2/3 majority) are not relevant.

6) This is because in deciding the manner of choosing electors, a state is NOT acting as a state body, but as a federal body.

7) For example, the Georgia State Legislature could reintroduce their Joint-Resolution and take a vote tonight rejecting their state's certified results as "corrupted" (as they have in an open letter to the US Congress), and immediately appoint an alternate slate of electors.

8) These Electors would meet in their state Capitols to vote on December 14th, or later (as the deadline is not fixed when a state is contested, per 3 U.S. Code § 2: "electors may be appointed on a subsequent day in such a manner as the legislature of such State may direct.")

9) Your chosen legislative slate would be sealed and transported to the President of the Senate and D.C. Archivist. 10)

On January 6th, the slates would be counted by the President of the Senate. Sadly, few State Legislators know this. However, Prof. Eastman spoke on it during the GA hearings. I encourage you to listen to his presentation as he is a leading expert on Constitutional law.

AMERICAN OVERSIGHT

Time is of the essence Representative. You cannot send this to another committee. You all took an oath to defend not only Georgia but the United States from all enemies both foreign and domestic. Live up to that oath.

I implore you today to take up your US Constitutional duty, and as a joint body acting in a federal capacity, call a special session immediately to appoint electors and declare President Trump winner of your state.

Sincerely

William Horosz

I'm writing to ask that you pass a resolution endorsing as Arizona's legitimate electoral votes the votes cast by Republican electors who met on December 14 to cast their votes for President Trump and Vice President Pence so that you send "dueling electors" to Congress, or at the very least pass a resolution telling the U.S. House of Representatives and Senate that they should reject Gov. Ducey's electors as you have no idea who actually won Arizona due to the massive fraud.

IF YOU WILL NOT BE IN SESSION or can't pass such a resolution, PLEASE convince all Republicans in your legislature to sign on to letters to the U.S. House and Senate telling them to count the votes for Trump and/or to reject the electors from Ducey. Members of the Pennsylvania legislature have signed on to letters to the House and Senate telling them to reject their governor's electors as the fraud there made it impossible to know who won the state. You read that right. THREE Weeks before the election, China assumed principle ownership of the Dominion company running elections in 29 of the United States, including Arizona, Nevada, Georgia, Pennsylvania, Michigan, Wisconsin and New Mexico--

Subject: 2020 Election

You as a Legislator representing your fellow citizens, must stand for the "Rule of Law" and election integrity. If the "Rule of Law" is gone are we left with "Natures Law"? I hope not. If we can't count on you to represent us then we don't have government "of the people, by the people, and for the people", i.e., government made up of citizens chosen by citizens for the benefit of citizens. We have government by a tyrannical ruling class.

The 2020 Presidential Election was a sham. Humans being who they are, some criminality/ fraud is to be expected, however the amount of election fraud, voter fraud, extra legislative shenanigans by the Democrat Party, courts, state bureaucracies and likely electronic tampering by the other governments was on a massive scale. So, to was the rampant censorship and propagandizing by "Big Tech" and "Social Media" and the mainstream news.

This malfeasance is at best felonious in nature and at worst rises to the level of treason.

If you believe as I do that there is ample evidence that this election was stolen and that there are serious questions to be answered before what amounts to a "Manchurian candidate" is installed in the oval office, then contest the election at the State level by refusing to send a bogus slate of electors to Washington D.C.

Please remember that this is the "United States of America" and not the State of America. The buck stops with you at the State level.

In retrospect, I and many of my fellow citizens believe that the "fix was in" as far back as a year ago, perhaps earlier. There are many factions that wish to see President Trump out of office and a return to the "status quo". There are those in fact who wish to see the United States supplanted as the preeminent world power, I pray that you are not among them.

Sincerely,

Eric J. Robb

Dear Arizonian Elected Official,

As a concerned citizen and registered voter in California, I am writing to ask that you please object to the electoral votes for Joe Biden from contested states. American citizens have seen evidence of widespread election fraud which cannot be ignored. Seven states sent dueling electors on December 14, 2020 to vote against the electoral votes cast for Biden in the contested states of PA, AZ, GA, NM, MI, NV and WI.

Allowing our election to be stolen will be devastating to our republic, from which we may never recover. The American people need their faith in free and fair elections restored. We trust that you will be a part of maintaining the integrity of our elections in the United States by voting on January 6, 2021, against the illegal electoral votes cast for Biden.

Sincerely,

Dear Legislator,

Please spearhead a majority and call for a SPECIAL SESSION before January 6th.

I do NOT feel confident at all...that Biden won this election. Conversely, I feel VERY strongly that this election was stolen from Trump and the American people.

Finally, after 51 years in America, I NOW realize what is going on. We, the people, have been betrayed by our elected officials and we are being sold out to the CCP / PLA...and...globalist elites...with the help of American traitors.

Please make sure that ONLY legal votes get counted...and that each and every traitor (including individuals and corporations) who did anything illegal during this election, must be charged with treason.

The fate of our BEAUTIFUL country depends on your actions.

God bless America.

State Representative Finchem

I find it absolutely reprehensible that you are prioritizing overturning the will of Arizona voters rather than fighting on behalf of struggling Arizona families. The COVID infection rate in AZ is skyrocketing out of control while you are traveling to Washington D.C. to promote an attempted coup. Small businesses across AZ are barely able to survive and need help but you've decided to promote tyranny instead.

AZ's working families and businesses don't need an ideologue in the state legislature - they need someone committed to pragmatic solutions in times of need. You're actions prove that you are totally out of touch and should resign your elected position immediately!

The voters in LD11 will be made aware of your actions and priorities. I will do all I can to keep them informed and engaged.

Subject: Please Stop The Steal!

Hello – In a desperate attempt for justice I am urging you to call an Electoral Session, hear the evidence and reclaim the electors before January 6th.
The Founders laid this out in the U.S. Constitution to guard against widespread fraud at the State *level….and you know it!*
Many politicians are hiding behind the Governors refusal to deal with this calamity.
That is simply not acceptable!

Everyone (both sides of the "aisle") knows that our elections were a disaster and riddled with fraud!
There is overwhelming proof of this in many states (and in all the swing states)!
We are on the brink of losing this great country if we allow these corrupt people to "steal our election (and our country) from us".
If we (you) cannot get this situation resolved and allow Joe Biden (and his proposed "regime") to govern (dominate) our country, it will be the end of the "American Way" as we know it. Our freedom and liberty will be stripped from every American! The very fabric of America will be gone….

Our Constitution was designed to protect Americans from exactly what is happening right now.
Our forefathers are "rolling over in their graves" watching this disaster "come down" on America!
If only they were still here….I know exactly what they would do.
They would do precisely what I am "asking (demanding)" that you do…uphold our Constitutional Rights!

As you know -
The United States Constitution's Electors' Clause -- Article II, Section 1 – Provides a method to correct such corrupt outcomes….it vests the state legislatures with exclusive power to determine how presidential electors are chosen, including the prerogative of appointing them and overriding the votes of their respective state's electoral college representatives. This means that your state legislators can pass a Reclamation Resolution and appoint your state's electors who are pledged to President Trump and correct the corrupt results of November's general election.

As you also know…. This federal Constitutional function cannot be limited or rejected by the governor's veto, the state constitution, or initiative and referendum.
"Reclamation Resolutions," if passed by your state legislature, can correct the voter fraud that corrupted your state's Electoral College vote.

AMERICAN OVERSIGHT

As of now, none of the seven (swing) states' legislatures -- even though all are GOP-controlled other *than New Mexico and Nevada -- have formally voted on and adopted such a "reclamation" resolution* intending to re-elect the Trump-Pence ticket to a second term. Why? There is no excuse for this lack of justice!
I am begging you to please use your constitutional authority to preserve the integrity of our elections. Utilize the Constitutional Rights that have been bestowed upon you (and all Americans) and bring justice where it is so badly needed.
Pass a "Reclamation Resolution" to reclaim the true election outcome for your state!
And please do it NOW!
We are all watching……
I welcome a response (or conversation) about this critical issue that will determine the future of our country!
I know that I can count on you….to "do what is right" for your country.
Regards,

Larry Willett

Subject: Slate of Electors

Senator Fann,

This election has been a travesty. A number of legal voters in Arizona rights have been harmed.

I watched all 10 hours of the hearings on November 30th. There were sworn witness affidavits, expert witnesses and examples of irregularities to call for an audit. At that time, this did not occur. Once the audit was called for (by Senate subpoena) the Maricopa Board of Supervisors, except of Supervisor Chucri, voted to take the issue to court. There are now recall petitions for all of the Supervisors.

Supervisors were asked, by me and I am sure others, what they were hiding in refusing to provide the information requested to conduct an audit. With all the "allegations" this should have been conducted. Again, what is everyone hiding? Then, a few days ago, there was a rally at the Capital held by the We the People AZ Alliance. They had a group of people who went out and canvased address's where people said they lived, and voted. The information they produced at the rally showed widespread fraud. From address's that did not exist, address's that did not have a structure on them, address at FedEx and UPS mail drop spots, even address used at the Phoenix tabulating center.

I was listening to Rudy Giuliani in an interview on Friday. He says he has proof of 8,000 dead people voting and 32,000 illegal aliens voting in Arizona. This evidence alone would show President Trump won the election. Then you have to ask yourself, what about the down ballot candidates. I think there is ample questions to audit every down ballot election. I do not believe Kelly legally won the Senate race. Although, that is for another day, and I hope that day comes.

The Arizona State Legislature needs to be immediately called into a special session to either de-certify the slate of Electors and/or appoint a slate of Electors for President Trump. The legislature can call itself into special session under the United States Constitution. The US Constitution "trumps" (no bun indented) the Arizona Constitution and the requirement for the Governor to call a special session. It is the overwhelming responsibility, and moral duty, to follow your Oath of Office and do so.

I do realize that you did not sign up for this when you ran for office. We are in historic times and this calls for unusual, yet Constitutional, measures. There has been evidence of voter fraud produced by a number of groups and people. In my opinion, elected representatives who refuse to follow their oath of office should resign from office. Our Republic is in jeopardy.

The silent majority is no longer silent. From the number, and volume of citizen's at these rallies show people do not have confidence that this was a fair and honest election. Please, show that the integrity of our elections are paramount to the State Legislature and call for a special session, this is your planetary duty and required by your oath of office. There is still time before January 6th. Show the rest of the nation Arizona stands for the rule of law and election integrity.

Thanking you in advance,

John Mattes

Dear Legislator,
On January 6th, Arizona will be the first slate of electors to be challenged. I understand that the gap between Trump and Biden is about 10,000 votes in AZ. I understand there were 32,000 illegal immigrants who voted in AZ. I understand there were 8,000 dead people who voted in AZ. Oh my gosh, how can you possibly live with the knowledge that Arizona may be a part of the crime of the century?

That 40,000 vote deduction more than makes up for Trump's 10,000 vote gap. (And that does not include the 50 Dominion voting machines that are supposed to be looked at that nobody can get their hands on--THAT'S NONSENSE!. I understand that these machines processed 60% of Arizona's votes!) You cannot turn a blind eye to all of this.

Now and going forward, my **constitutional right to vote has been violated and compromised**...and the responsibility for that rests with YOU.

Please fight for me--this is an S.O.S. Gov. Ducey has failed me...you MUST act to decertify the AZ electoral votes...YOU MUST! YOU MUST CLEAN UP OUR PRECIOUS ARIZONA!

Sincerely,
Susan Roberts

Subject: Your Responsibility!

Dear Honorable Representative,

Do your duty to uphold the Constitution that you swore an oath to uphold!

Before January 6, 2021, your state legislature must be called to session to evaluate the overwhelming evidence of election fraud and decertify the state's falsely certified electors.

You not only have the power to uncertify the illegal slate of electors, it is your responsibility in the Constitution (Article 2 Section 1 Clause 2).

"Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector."

This presidential election will be analyzed for years to come. Will history view you favorably? It is up to you!

Never before in the history of the United States of America or in the world has there been such criminal manipulation of voting machines and election officials. The use of Dominion and Smartmatic voting machines, and the companies' blatant and lying ignorance of their security issues and outside manipulation is horrific. When you consider the election results this coming deadline on Wednesday January 6, be sure to keep in mind the specific states that had voting count error rates hundreds of times more than ever before. Follow the protocols in the constitution, which doesn't permit even a tenth of these numbers of inconsistency. All of America is counting on you to follow your duty in preserving the integrity of America's elections as our forefathers intended. Otherwise it will be forever ruined for BOTH parties, not just Republicans. This is not just a Republican thing. This is a matter of the life or death of our nation.
