EXTERNAL SENDER

Good afternoon,

To clarify, the attachments in the previous email are the remaining records responsive to your requests.

After finding them to not be trade secrets we are releasing them, no information was withheld.

This will complete request Monahan, C. 01 and Monahan C. 02-G and they will be closed.

Best regards,

Miguel Vassallo
Open Government Coordinator

Subject: Florida Store List

Hi Jon,

Attached is the Florida store list for next week's Pfizer allocation.

We're getting an expected 52,650 doses for FL to open up ~30 ymas / Navarro locations and ~15 other locations across the state for a total of ~45 stores.

As we selected stores we used the following process:

- Prioritized stores that had a high percentage of Black and then Hispanic Race
- Sorted by jurisdiction ranking, which gives higher weights to Health Hubs and SVI. It also deprioritizes stores with Ethernet issues, storage issues, pending construction and Target channel stores (for now)
- We also made sure the stores were not too clustered in any one city or county and more spread out. For example – If you're wondering if this is the top list of highest % Black stores in the state, the answer would be: not all of them. In many cases if we only picked the top % Black stores they would cluster significantly in a small number of cities and counties as we're trying to strike the balance of coverage in high % Black communities as well as coverage across the state. Hope that makes sense. We do feel good that the % Black and % Hispanic meaningfully over-index the standard.

There are two tabs:

- Tab 1: 15 Florida (non-ymas / non-Navarro) stores
 - Average % Black = 40% vs our total store presence in the state of 12%

Tab 2: 30 Florida ymas / Navarro stores

- Average % Black = 5% due to these stores being Hispanic dominant locations. Average % Hispanic is 81% vs our total store presence in the state of 25%

We're currently working on the other states were the jurisdiction rank will be heavily weighted for % Black and then Hispanic populations instead of just non-white.

Please let us know if you have feedback or need anything else.

Jon
