Good morning Zhyrma,

We are reporting an anaphylaxis reaction to covid Pfizer vaccine in a 34 y/o female. She had swelling of her throat and lips and was treated with epinephrine. By the end of the date, we will submit a VAERS report and I have already contacted Pfizer as well.

Regards,
Ennie

Pfizer disputes DeSantis assertion on Covid-19 vaccine delay

By Arek Sarkissian

12/17/2020 01:42 PM EST

AMERICAN OVERSIGHT

Gov. Ron DeSantis blamed the delay of up to 450,000 doses of the Pfizer Covid-19 vaccine on production issues, but Pfizer fired back on Thursday with a statement saying there are millions of doses waiting and ready to go.

Details: DeSantis said Wednesday that production issues at Pfizer may leave Florida without the Covid-19 vaccine until the state begins receiving the new Moderna vaccine, which will not be for another two weeks. Pfizer released a statement Thursday saying there was no delay in production.

"We have millions more doses sitting in our warehouse but, as of now, we have not received any shipment instructions for additional doses," Pfizer said in the statement.

Florida has received at least 179,000 doses of the Pfizer vaccine since Monday, and it was supposed to receive another 450,000 over the next two weeks under estimates given to the state by HHS. DeSantis said Tuesday that production issues may delay all future shipments from Pfizer. Then on Wednesday, he said despite those production issues, the state may receive another 200,000 doses next week, according to plan.

Context: The Pfizer vaccine requires storage in extremely cold temps, leaving five Florida hospitals capable to start distributing doses to frontline health care workers, including first responders and the state's long-term care population. A new vaccine by Moderna, which is expected to receive emergency authorization from the U.S. Food and Drug Administration Friday, will be shipped to more than 180 Florida hospitals. If the state receives the 200,000 Pfizer doses next week, DeSantis had said the Moderna vaccine may arrive early enough to pick up the slack.

Subject: Pfizer extra doses

Please see below from FDA. Thank you.

https://twitter.com/US_FDA/status/1339363303185854470?ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1339363303185854470%7Ctwgr%5E%7Ctwcon%5Es1_&ref_url=https%3A%2F%2Fwww.news.meredithlmg.com%2Ftncms%2Fasset%2Feditorial%2Fc87205ee-4026-11eb-a7e1-d7f4f84c8e16%2F

"FDA is aware of the issue and working with Pfizer to determine the best path forward, and will share additional updates as we have them. At this time, given the public health emergency, FDA is advising that it is acceptable to use every full dose obtainable (the sixth, or possibly even a seventh) from each vial, pending resolution of the issue. However, since these are preservative free vials, it is critical to note that any further remaining liquid that does not constitute a full dose should not be pooled from multiple vials to create one."

"FDA is aware of the issue and working with Pfizer to determine the best path forward, and will share additional updates as we have them. At this time, given the public health emergency, FDA is advising that it is acceptable to use every full dose obtainable (the sixth, or possibly even a seventh) from each vial, pending resolution of the issue. However, since these are preservative free vials, it is critical to note that any further remaining liquid that does not constitute a full dose should not be pooled from multiple vials to create one."

Tallahassee, FL 32399-1719

Re: Priority Administration of COVID-19 Vaccine to Our Food Employees

As administration of the COVID-19 vaccine begins, I am writing to ensure that our food employees are prioritized in accord with the state's vaccination plan submitted to the Centers for Disease Control. Our company processes and distributes perishable and non-perishable foods to the foodservice industry. It is critical that our employees continue to fulfill their vital mission.

The food and agriculture sector has been designated as critical infrastructure under Presidential Policy Directive 21 (PPD-21), and the President's Coronavirus Guidance published on March 16, 2020 instructs employees of critical infrastructure industries to maintain normal work patterns during the pandemic. Further, the Cybersecurity and Infrastructure Agency (CISA) published guidance on March 19, 2020 identifying food and agriculture employees as critical infrastructure workers essential to the continued viability of this sector who should maintain normal work patterns pursuant to the President's Coronavirus Guidance.

Accordingly, I'm asking for direction on how to ensure that our employees are properly registered in the state's vaccination program. Please contact me at your earliest convenience with this information and thank you for your attention to this urgent matter.

Regards,

Donald Smith

Subject: RE: question - Pfizer

Halsey and Amy,

Great question. The second dose allocations will be added to your VTrckS ordering cap 14 days after the first dose allocations are added to the ordering cap. Orders for second doses (and more first doses) must be entered into VTrckS. In VTrckS, there is no difference between first doses and second doses. I hope this fully answers your question, but let me know if it doesn't.

Subject: ReadyOp Reporting - Vaccination Agreement Templates - COVID-19

Beginning, tomorrow December 9, 2020 please report by COB each Wednesday weekly progress on form 731 – CHD COVID Vaccine Required Activities. A pdf of form 731 and explanation of each requirement is attached. The link can be accessed at https://fdoh.readyop.com/fs/4cNL/2d40.

A tab has been created in ReadyOp called "CHD COVID Vaccine Req Activities" with links for all 67 CHDs. This is identical to previous reporting structures for COVID-19 Sit Rep/Hep A Sit Rep/Tropical Weather Sit Rep reporting. Go to the tab, click on the little icon in the box with your CHD's name. If you choose to access from the forms tab please scroll and find your existing entry to update weekly. Please do not submit multiple forms.

If anyone is unable to access, please send Erin Hess the username of the account being used to sign in and I will investigate.

Also, effective immediately Form 609 – CHD Situation report which reported response staffing weekly is no longer required.

Please contact Erin Hess (850-510-5430) with questions.

Subject: Vaccination Agreement Templates - COVID-19

AMERICAN OVERSIGHT

Dear Health Officer,

The attached agreements were previously distributed to assist local health departments with engagement of community partners for the purpose of collaborating in providing vaccination services to your counties. These agreements outline roles and responsibilities for community partners to assist with vaccinations, POD site locations and storage of vaccines. In an effort to assess our current local capabilities we will be asking each county health department to provide a list of all executed MOUs into ReadyOp. At this point we will not be asking for the agreements, just the type of agreement in place, partner involved and estimated number to be vaccinated.

We anticipate the ReadyOp form to be completed by Monday, December 7th, and will ask that it be populated with your county data by COB Wednesday December 9th, with weekly reporting thereafter of any newly executed agreements.

Should you have any questions or concerns please reach out to Erin Hess, Aaron Otis or myself.

AMERICAN OVERSIGHT

County Health Department (CHD) COVID Vaccine Required Activities

By December 30, 2020 CHDs are required to conduct the following activities and report progress weekly by COB on Wednesdays (12/09, 12/16, 12/23, 12/30) in ReadyOp:

1. Review and update your incident management structures to aligned with the statewide draft mass vaccination plan and ensure it includes expertise from your epidemiology, immunizations, preparedness and public information programs.

2. Register as a COVID-19 vaccine provider in FLShots. Instructions are posted on SharePoint.
https://floridahealth.sharepoint.com/:f:/s/DISEASECONTROL/EPI/EqYyJj9vAxhGt6B19QLHQcEB9B0tXD45A7k8pX_x_JuNDg

3. Conduct a meeting between the County Health Officer, County Emergency Management and other critical community partners regarding the imminent need to provide COVID-19 vaccination in your community. The date and list of community partners in attendance will need to be reported.

   Be sure to discuss each area of the subpopulations to be vaccinated as outlined in the Vaccination Planning Template. Additional discussion questions are included to guide your planning efforts.

Vaccine Coordination Information.docx

4. Provide a list of all executed MOUs for open PODs, closed PODs, limited use license and/or paramedicine agreements.

5. Determine resources needed to implement the Vaccination Plan and request resource assistance as needed via ReadyOp.

AMERICAN OVERSIGHT

Additional Community Partner Discussion Questions:

- **How will cold chain be handled?**
  - Ultra-cold vaccine
  - Frozen vaccine
  - Refrigerated vaccine

- **What are staffing needs?**
  - Drive thru vs walk up clinics
  - How will normal CHD operations and hours be maintained while supporting CHD ran PODs?
  - How will normal CHD operations and hours be maintained while supporting community based PODs?
  - Include plans for staff down time, days off, sick leave, etc.
  - How will volunteers be engaged and managed?

- **How many vaccines can be administered per hour (assuming a constant flow of population wanted vaccination)**
  - Estimate through put for walkup and drive thru scenarios

- **What supply needs are anticipated? (**remember vaccine administration kits will be provided which include needles, syringes, alcohol prep pads, vaccination cards and limited PPE)
  - PPE
  - Sharps containers
  - Tents
  - Signage

- **How will the 15-minute waiting period post-vaccination be handled?**
  - Non-congregated waiting area for any walk ups
  - Parking for drive-thrus
  - Staff needed for observation

- **How will needle sticks be handled in the field?**
  - Employees
  - Volunteers
  - Other/contracted staff

- **How and who will complete data entry into FLShots within 24 hours of vaccination?**

- **How will second dose vaccines be verified?**

AMERICAN OVERSIGHT

- Can you administer first and second dose at the same event?
- How will you verify first dose in FLShots on scene?

AMERICAN OVERSIGHT

DRAFT PLANNING TEMPLATE FOR ORGANIZATION OF COVID-19 VACCINATION DELIVERY

FDOH COVID-19 Vaccination Planning Workgroup

Version 1.73

November 9, 2020

AMERICAN OVERSIGHT

TEMPLATE FOR ORGANIZATION OF COVID-19 VACCINATION DELIVERY

INTRODUCTION

With the development of a vaccine for COVID-19, there is a need to plan for the administration of vaccinations nationwide. As such, the Centers for Disease Control and Prevention (CDC) has published their "COVID-19 Vaccination Program Interim Playbook for Jurisdiction Operations." This document states,*" Pandemic vaccination planning is a combined state, territorial, tribal, and local responsibility that requires close collaboration between public health, external agencies, and community partners. Depending on the specific jurisdiction's governance structure, the jurisdiction may play a key role in ensuring readiness at all levels*." It further highlights the need for communities to plan and have situational awareness, stating: *"Prior to plan development, it is important for jurisdictions to have full situational awareness."* This includes coordinating with a wide variety of agencies, including hospitals, long-term care facilities, public safety agencies, and others. The CDC guidance states, "*Local personnel likely have a better understanding of perceptions, unique challenges, and successful mitigation strategies within their communities. Aligning areas of responsibility as well as specific tasks can help to complement rather than duplicate efforts at either level, maximizing the efficient use of resources and overall quality of the COVID-19 Vaccination Program."*

Planning must take into consideration such topics as vaccine receipt and storage, vaccination location, dispensing agencies, logistics, supplies and equipment, staffing, registration, record keeping, adverse reaction monitoring, etc. In order to facilitate planning by County Health Departments (CHD), who will serve as the local coordination point for the vaccinations, this draft planning coordination tool or "template" has been created.

DRAFT

PURPOSE

The purpose of this template is to help CHDs organize the process for COVID-19 vaccinations in their respective county.

OBJECTIVES

The objectives of this template are to:

1) Help identify the key elements of the COVID-19 vaccination process,

2) Identify options available to the CHD and provide a draft planning mechanism for them to be applied to specific target groups,

3) Serve as a draft planning and coordination tool for actions that the CHD will take to ensure vaccination delivery in their jurisdiction.

KEY POINTS AND ASSUMPTIONS

AMERICAN OVERSIGHT

1) This draft planning template follows and works in conjunction with the CDC *COVID-19 Vaccination Program Interim Playbook for Jurisdictional Operations* guidance.

2) This draft planning template works in conjunction with and compliments the State plan that has been developed for the vaccination program. (a copy can be accessed at: https://floridahealthcovid19.gov)

3) Vaccinations will occur in phases, tied to both the availability of vaccine as well as to the prioritization of critical need.

4) The identified vaccination "Phases" include 1A, 1B, 2, 3, and 4. For the template, the following corresponding colors will be used to denote vaccination phase (Note – Some people may fit into more than one target group and should then default to the more urgent phase):

PHASE	GENERAL TARGET GROUPS
Phase 1 A	Health workers and first responders
Phase 1 B	People with high risk health conditions & congregate settings
Phase 2	Workers in critical positions & people with underlying conditions
Phase 3	Workers in general settings, children and young adults
Phase 4	Everyone who did not have access during previous phases

5) Administration of the vaccine will require coordination between local, state, and federal government agencies as well as with private businesses and citizens.

6) With a number of the vaccine candidates, plans will have to, in most cases, include a second dose of the vaccine being administered to be effective.

7) Communication about the vaccine and vaccinations will be needed to educate and inform people throughout the State.

8) CHDs will serve in a local coordination role for the delivery of vaccinations.

9) Specific requirements for receiving, storing, and dispensing of vaccine are necessary due to the "cold chain" nature of the vaccines.

10) The vaccination program will take place over a number of months with a start time in 2020 and extending well into 2021.

DRAFT

BLANK FORM

Targeted Group/Subgroup:	**(FACILITY TYPE HERE)**

AMERICAN OVERSIGHT

Responsible Agency:

DRAFT

FORM FIELD INFORMATION AND EXPLANATION

Targeted Groups / Subgroups
This block identifies the particular targeted group and subgroup who will be receiving vaccinations. Options include:

- Hospitals / Staff

AMERICAN OVERSIGHT

- Hospitals / Patients
- Long-term Care – Staff
- Long-term Care - Skilled Nursing Facilities
- Long-term Care - Assisted Living Facilities
- Long-term Care - Independent Living Facilities
- Long-term Care - Home Healthcare
- Long-term Care - Disability Centers
- Long-term Care - Mental Health Facilities
- Public Safety – EMS
- Public Safety - Law Enforcement
- Public Safety - Fire/Rescue
- Public Safety – Lifeguard
- Public Safety - Dispatch-Communications
- Veterans
- Critical Services Employees
- At Risk Populations - Over 65 Years of Age
- At Risk Population - Pre-existing Medical Conditions
- People Experiencing Homelessness
- Children
- Education – Preschool and K-12 Schools
- Education - Colleges and Universities
- Federally Qualified Healthcare Centers
- Tribes/Indigenous Peoples
- Migrant Farm Workers
- Correctional Facilities
- General Public
- Other

DRAFT

Responsible Agencies (Local)
This block identifies who will be responsible for ensuring that the targeted group and subgroup receive vaccinations. Options include:

- Hospital
- Long-term Care Facility
- County Health Department
- Public Safety Agency
- School/College/University
- Tribe
- Federally Qualified Healthcare Center
- Pharmacies
- Physician's Office

AMERICAN OVERSIGHT

- Other

Supportive Agencies
This block identifies the key supportive agencies or partners that can be used to plan for and deliver vaccinations to the targeted group and subgroup. Options include, but are not limited to:

- Florida Department of Health
- Florida Assisted Living Association
- Florida Senior Living Association
- Florida Healthcare Association
- LeadingAge Florida
- Hospital Associations
- Public Safety Associations
- State Fire Marshal's Office
- Florida Ambulance Association
- Agency for Healthcare Administration
- U.S. Health and Human Services
- Centers for Disease Control
- Florida Association of Community Healthcare Centers
- Florida Hospital Association
- Other

DRAFT

Phases
This block identifies when a particular targeted group and subgroup will receive vaccinations. The basic prioritization has been designated by CDC and has been identified in the State plan. The assignment of a particular targeted group and subgroup may change as further Executive Leadership guidance is received.

- 1A
- 1B
- 2
- 3
- 4

Locations of Delivery

This block identifies where the vaccinations will be delivered and, in some cases, identifies whether the point of dispensing will be limited to a particular group of people (closed POD) or open to others outside of the host organization (Open POD). Options include:

- Hospitals / Closed POD
- Hospitals / Open POD
- LTCs / Closed POD
- Public Safety Agencies
- County Health Departments

AMERICAN OVERSIGHT

- Drive-thru Mass Vaccination / Closed POD
- Drive-thru Mass Vaccination / Open POD
- Walk-up Mass Vaccination / Closed POD
- Walk-up Mass Vaccination / Open POD
- Pharmacies
- Physician Offices
- Tribal Reservations / Closed POD
- Specially Established Closed PODs
- Specially Established Open PODs
- Private Businesses
- Other

Methods of Delivery

Given that there may be multiple locations where vaccination will occur, this block lays out potential location for vaccination delivery. Options include:

- Hospital Facility Nurses
- Long-term Care Facility Nurses
- School/College/University Healthcare Center Nurses
- Contracted Medical Personnel – Mobile
- EMS Personnel
- County Health Department Personnel
- Pharmacy Personnel
- Physicians
- Mass Vaccination Clinic Personnel (combination of above)
- Other

DRAFT

Staffing Sources

This block identifies where both medical and non-medical staffing will come from to staff the vaccination site. Options include:

- Own Agency Medical Personnel
- County Health Department Personnel
- Public Safety Personnel
- Contracted Agency Personnel
- School/College/University Healthcare Personnel
- Other

Augmented Staffing Needed

This block identifies whether augmented staffing, to the host agency, will be required to deliver the vaccinations.

- Yes
- No
- Possibly

AMERICAN OVERSIGHT

Vaccine Source
This block identifies which of the primary sources of vaccine (state allocation, federal allocation, or other source) will be used for the particular targeted group and subgroup.

- State Allocation
- Federal Allocation
- Other

Vaccine Storage Location
This block identifies where the vaccine will be received and stored at for redistribution to the agencies that will be delivering vaccinations. Options include:

- County Health Department
- Hospital
- Other

CHD Cold Storage Capability
This block will identify whether the CHD has cold storage capability.

- Yes
- No

DRAFT

Needed Supplies and Equipment:
This block will identify supplies and equipment that will be needed to address vaccination for the specific target group / subgroup.

Communications / Marketing
This block would identify how the target group will receive communications about the vaccinations, including schedules, locations, times, etc.

Notes / Tasks
This block would provide a mechanism for explaining information in the template above including any information that will have an impact on the particular target group, etc. Additionally, it can be used to identify key tasks that must be completed to facilitate vaccination for the identified target group.

SAMPLE COMPLETED FORMS

The following are two pages show examples of completed forms. They are not a mandate on how the forms need to be completed but merely serves as an example of how a particular targeted group template form is completed. Each CHD will have to decide which combination of delivery methods, locations, agencies, etc. works for their particular circumstances.

AMERICAN OVERSIGHT

SAMPLE 1

Targeted Group/Subgroup:	**LONG-TERM CARE – SKILLED NURSING FACILITIES**
Responsible Agency:	Long-term Care Facility Pharmacies
Supportive Agencies:	Florida Assisted Living Association Florida Senior Living Association Florida Healthcare Association LeadingAge Florida Agency for Healthcare Administration
Estimated Number:	TBD
Phase:	1A or 1B
Location of Delivery:	Long-term Care Facility – Closed POD
Possible Methods of Delivery:	Pharmacies Long-term Care Facility Nurses EMS Personnel Contracted Medical Personnel – Mobile
Staffing Sources:	Pharmacy Personnel Long-term Care Facility Nurses EMS Personnel Contracted Medical Personnel – Mobile
Augmented Staffing Needed:	Possibly
Vaccine Source:	Federal Allocation State Allocation
Vaccine Storage Location:	Pharmacy

DRAFT

AMERICAN OVERSIGHT

CHD Cold Storage Capability	County Health Department Yes
Needed Supplies and Equipment:	TBD
Communications / Marketing:	CDC provided communication through the Pharmacy Clinic initiative.
Notes / Tasks: A plan is being developed for long-term care facilities to have their vaccinations delivered through the use of pharmacy established on-site clinics. Under this scenario, vaccine would come from the federal allocation and pharmacies would be responsible for receiving and storing vaccine, administering the vaccinations, and handling record keeping. An alternative would be the use of state allocated vaccine delivered by facility nurses, EMS personnel, or contracted medical personnel operating from a mobile unit, using vaccine stored at the County Health Department. Also, LTCs will have to plan for vaccination of new residents and staff beyond the time period when the pharmacy clinics are operational.	

SAMPLE 2

Targeted Group/Subgroup:	**PUBLIC SAFETY – EMS**
Responsible Agency:	Public Safety Agency Private EMS Agency
Supportive Agencies:	Local EMS Agencies Florida Fire Chief's Association Florida Fire Marshal's Office Florida Ambulance Association Private EMS Companies
Estimated Number:	TBD
Phase:	1A
Location of Delivery:	Public Safety Agency County Health Department Drive-thru Mass Vaccination – Closed POD
Possible Methods of Delivery:	EMS Personnel CHD Personnel Mass Vaccination Clinic (combination) Contracted Medical Personnel – Mobile
Staffing Sources:	Agency Paramedics and Nurses County Health Department Personnel Contracted Medical Personnel – Mobile
Augmented Staffing Needed:	No
Vaccine Source:	State Allocation
Vaccine Storage Location: **CHD Cold Storage Capability:**	County Health Department No

DRAFT

AMERICAN OVERSIGHT

Needed Supplies and Equipment:	TBD
Communications / Marketing:	The local Healthcare Coalition will be used as a mechanism to provide location, schedule, registration information, etc.
Notes / Tasks: EMS agencies include Fire/Rescue, County, and private companies. Given their critical response posture and exposure they would be included in Phase 1A for vaccination. While many agencies will be able to "self" vaccinate, other options are available to capture this critical group. EMS Survey results indicate that many agencies would not only be willing to vaccinate their own personnel but also serve to vaccinate other target groups. Given that most agencies will be able to administer vaccinations to their personnel, there should be no staffing issues with this group. A drive-thru option for this group, as well as other public safety personnel may be a viable option.

Please ensure ReadyOp has been updated for your CHD this week. The CHD Situation Report, Form 731, is due each Wednesday by COB and covers the previous Sunday – Saturday operational period.

Please call with questions. ~Erin

Erin E. Hess

To: County Health Systems <CountyHealthSystems@flhealth.gov>; DL DOH CHD Administrators_Directors <DLDOHCHDAdministrators_Directors@flhealth.gov>
Cc: DL DEPCS00 BPR Regional-County Planners <_67052@doh.state.fl.us>
Subject: ReadyOp Reporting - Vaccination Agreement Templates - COVID-19

Beginning, tomorrow December 9, 2020 please report by COB each Wednesday weekly progress on form 731 – CHD COVID Vaccine Required Activities. A pdf of form 731 and explanation of each requirement is attached.

A tab has been created in ReadyOp called "CHD COVID Vaccine Req Activities" with links for all 67 CHDs. This is identical to previous reporting structures for COVID-19 Sit Rep/Hep A Sit Rep/Tropical Weather Sit Rep reporting. Go to the tab, click on the little icon in the box with your CHD's name. If you choose to access from the forms tab please scroll and find your existing entry to update weekly. Please do not submit multiple forms.

If anyone is unable to access, please send Erin Hess the username of the account being used to sign in and I will investigate.

Also, effective immediately Form 609 – CHD Situation report which reported response staffing weekly is no longer required.

Please contact Erin Hess (850-510-5430) with questions.

~Erin

Subject: Vaccination Agreement Templates - COVID-19

Dear Health Officer,

The attached agreements were previously distributed to assist local health departments with engagement of community partners for the purpose of collaborating in providing vaccination services to your counties. These agreements outline roles and responsibilities for community partners to assist with vaccinations, POD site locations and storage of vaccines. In an effort to assess our current local capabilities we will be asking each county health department to provide a list of all executed MOUs into ReadyOp. At this point we will not be asking for the agreements, just the type of agreement in place, partner involved and estimated number to be vaccinated.

We anticipate the ReadyOp form to be completed by Monday, December 7th, and will ask that it be populated with your county data by COB Wednesday December 9th, with weekly reporting thereafter of any newly executed agreements.

Should you have any questions or concerns please reach out to Erin Hess, Aaron Otis or myself.

CDC Supplemental COVID-19 Vaccine Redistribution Agreement

The Centers for Disease Control and Prevention (CDC) plans to ship a minimum order size of COVID-19 vaccine, constituent products, and ancillary supplies at no cost directly to enrolled COVID-19 vaccination providers throughout the United States. The federally contracted vaccine distributor uses validated shipping procedures to maintain the vaccine cold chain and minimize the likelihood of vaccine loss or damage during shipment. There may be circumstances where COVID-19 vaccine needs to be redistributed beyond the identified primary CDC ship-to sites (i.e., for orders smaller than the minimum order size or for large organizations whose vaccine is shipped to a central depot and requires redistribution to additional clinic locations). In these instances, vaccination provider organizations/facilities, third-party vendors, and other vaccination providers may be allowed to redistribute vaccine, if approved by the jurisdiction's immunization program and if validated cold chain procedures are in place in accordance with the manufacturer's instructions and CDC's guidance on COVID-19 vaccine storage and handling. There must be a signed *CDC Supplemental COVID-19 Vaccine Redistribution Agreement* for the facility/organization conducting redistribution and a fully completed *CDC COVID-19 Vaccination Provider Profile Information* form (Section B of the CDC COVID-19 Vaccination Program Provider Agreement) for each receiving vaccination location.

The parties to this agreement are CDC and healthcare organizations, third-party vendors, and vaccination providers that redistribute COVID-19 vaccine. CDC cannot reimburse costs of redistribution beyond the initial designated primary CDC ship-to site(s), or for purchase of any vaccine-specific refrigerators or qualified containers. Therefore, organizations planning for redistribution of COVID-19 vaccine must carefully assess the associated risks and costs (e.g., vaccine loss due to temperature excursions, purchase of vaccine-specific portable refrigerators and/or containers) before planning this activity.

COVID-19 vaccination organization redistribution agreement requirements

To redistribute COVID-19 vaccine, constituent products, and ancillary supplies to secondary sites, this organization agrees to:

1. Sign and comply with all conditions as outlined in the CDC COVID-19 Vaccination Program Provider Agreement.
2. Ensure secondary locations receiving redistributed COVID-19 vaccine, constituent products, or ancillary supplies also sign and comply with all conditions in the CDC COVID-19 Vaccination Program Provider Agreement.
3. Comply with vaccine manufacturer instructions on cold chain management and CDC guidance in CDC's *Vaccine Storage and Handling Toolkit*, which will be updated to include specific information related to COVID-19 vaccine, for any redistribution of COVID-19 vaccine to secondary locations.
4. Document and make available any rrecords of COVID-19 vaccine redistribution to secondary sites to jurisdiction's immunization program as requested, including dates and times of redistribution, sending and receiving locations, lot numbers, expiration dates, and numbers of doses.
   Neither CDC nor state, local, or territorial health departments are responsible for any costs of redistribution or equipment to support redistribution efforts.

By signing this form, I understand this is an agreement between my Organization and CDC, implemented and maintained by my jurisdiction's immunization program. I also certify on behalf of myself, my medical practice, or other legal entity with staff authorized to administer vaccines, and all the practitioners, nurses, and others associated with this Organization that I have read and agree to the COVID-19 vaccine redistribution agreement requirements listed above and understand my Organization and I are accountable for compliance with these requirements. Non-compliance with the terms of this Redistribution Agreement may result in suspension or termination from the CDC COVID-19 Vaccination Program and criminal and civil penalties under federal law, including but not limited to the False Claims Act, 31 U.S.C. § 3729 et seq., and other related federal laws, 18 U.S.C. §§ 1001, 1035, 1347, 1349.

Good afternoon,

AdventHealth Orlando would like to redistribute 3 "pizza" boxes of 975 vaccines each to Orlando Health. Attached is the transfer form and the Redistribution Agreement that was sent into the required email that was in the Emergency Rule information last night.

Please confirm that this is OK and also there have been questions regarding the Redistribution Agreement. It is our understanding that only AH Orlando need to execute this Agreement. Please confirm.

Blessings,
Diane L. Godfrey

When receiving the vaccines listed below, please verify the vaccines are in viable condition and the cold-chain has not been compromised.

Name of the Vaccine/Mfg	Lot Number	NDC	Expiration Date	Number of Doses
COVID-19 PFIZER - COVID-19 Pfizer PFR-PFIZER, INC	EH9899	59267-1000-02	12/31/2069	2925

To avoid vaccines becoming unserviceable, the provider will ensure:

- all vaccines are immediately and properly stored.
- the refrigerator temperature for storage is within the range.
- to use the vaccines with the shortest expiration date first.

------ This is a packing slip. Please do not fax this form to the VFC program ------

Revision date: 9/15

AMERICAN OVERSIGHT

CDC Supplemental COVID-19 Vaccine Redistribution Agreement

The Centers for Disease Control and Prevention (CDC) plans to ship a minimum order size of COVID-19 vaccine, constituent products, and ancillary supplies at no cost directly to enrolled COVID-19 vaccination providers throughout the United States. The federally contracted vaccine distributor uses validated shipping procedures to maintain the vaccine cold chain and minimize the likelihood of vaccine loss or damage during shipment. There may be circumstances where COVID-19 vaccine needs to be redistributed beyond the identified primary CDC ship-to sites (i.e., for orders smaller than the minimum order size or for large organizations whose vaccine is shipped to a central depot and requires redistribution to additional clinic locations). In these instances, vaccination provider organizations/facilities, third-party vendors, and other vaccination providers may be allowed to redistribute vaccine, if approved by the jurisdiction's immunization program and if validated cold chain procedures are in place in accordance with the manufacturer's instructions and CDC's guidance on COVID-19 vaccine storage and handling. There must be a signed *CDC Supplemental COVID-19 Vaccine Redistribution Agreement* for the facility/organization conducting redistribution and a fully completed *CDC COVID-19 Vaccination Provider Profile Information* form (Section B of the CDC COVID-19 Vaccination Program Provider Agreement) for each receiving vaccination location.

The parties to this agreement are CDC and healthcare organizations, third-party vendors, and vaccination providers that redistribute COVID-19 vaccine. CDC cannot reimburse costs of redistribution beyond the initial designated primary CDC ship-to site(s), or for purchase of any vaccine-specific refrigerators or qualified containers. Therefore, organizations planning for redistribution of COVID-19 vaccine must carefully assess the associated risks and costs (e.g., vaccine loss due to temperature excursions, purchase of vaccine-specific portable refrigerators and/or containers) before planning this activity.

COVID-19 vaccination organization redistribution agreement requirements

To redistribute COVID-19 vaccine, constituent products, and ancillary supplies to secondary sites, this organization agrees to:

1. Sign and comply with all conditions as outlined in the CDC COVID-19 Vaccination Program Provider Agreement.
2. Ensure secondary locations receiving redistributed COVID-19 vaccine, constituent products, or ancillary supplies also sign and comply with all conditions in the CDC COVID-19 Vaccination Program Provider Agreement.
3. Comply with vaccine manufacturer instructions on cold chain management and CDC guidance in CDC's *Vaccine Storage and Handling Toolkit*, which will be updated to include specific information related to COVID-19 vaccine, for any redistribution of COVID-19 vaccine to secondary locations.
4. Document and make available any rrecords of COVID-19 vaccine redistribution to secondary sites to jurisdiction's immunization program as requested, including dates and times of redistribution, sending and receiving locations, lot numbers, expiration dates, and numbers of doses.
   Neither CDC nor state, local, or territorial health departments are responsible for any costs of redistribution or equipment to support redistribution efforts.

By signing this form, I understand this is an agreement between my Organization and CDC, implemented and maintained by my jurisdiction's immunization program. I also certify on behalf of myself, my medical practice, or other legal entity with staff authorized to administer vaccines, and all the practitioners, nurses, and others associated with this Organization that I have read and agree to the COVID-19 vaccine redistribution agreement requirements listed above and understand my Organization and I are accountable for compliance with these requirements. Non-compliance with the terms of this Redistribution Agreement may result in suspension or termination from the CDC COVID-19 Vaccination Program and criminal and civil penalties under federal law, including but not limited to the False Claims Act, 31 U.S.C. § 3729 et seq., and other related federal laws, 18 U.S.C. §§ 1001, 1035, 1347, 1349.

All,

This just came in as an update from the **FDA**:

“Given the public health emergency, it acceptable to use every full dose obtainable (the sixth, or possibly even a seventh) from each vial, pending our administrative solution to the issue. However, since these are preservative free vials, any further remaining liquid that does not constitute a full dose should not be pooled from multiple vials to create one.”

Very Respectfully,
Brandon

Subject: Region IV Quick Updates

Good Morning Region IV!

Here are a few quick items I wanted pass this morning:

-Pfizer second week allocations are loaded in Tiberius production module. Also note that allocation transfers have begun for the LTCF program. The total Pfizer 2nd week allocation is 4.3M doses, minus 5% safety stock and second dose, then pro rata based on total population. If you allocation doesn't match that math, it may be because of LTCF allocation transfers.
-Pfizer VTrckS ordering caps should be updated tomorrow, and I believe that any orders placed by 0930 Sunday will arrive either Monday or Tuesday, but I will work to get clarity on this.
-Moderna ordering will not open back up until EUA is issued. Unlike Pfizer orders, since Moderna is shipped by McKesson, those orders can't be held, so ordering must be delayed until EUA is issued.
-A decision was made to phase in Moderna pre-orders over 3 days, similar to Pfizer. First Moderna orders will likely arrive on Monday, 21 Dec (subject to change). Kits for Moderna preorders will begin shipping today, arriving tomorrow.
-Expecting Moderna 2 and Pfizer 3 allocations to be visible in Tiberius on 22 Dec. Fingers crossed.
-Current CDC guidance is to stick with only obtaining 5 doses per vial of Pfizer vaccine, with the reason being it is aligned with the EUA, but CDC leadership is working to get more clarity on this. More to come.

I'm sure there's more to come today and this week, but wanted to get this info to you ASAP. Have a great day!

Very Respectfully,
Brandon

They want us to send this FDA update out via VFC email blast today.

Can you work with Jim to draft something? I know not everyone that's enrolled as a VFC provider is not enrolled as a COVID provider, but I wasn't sure of another way to get something out to all COVID providers quickly. Any thoughts on how to do this another way I'm totally open to.

Good evening –

The following allocations have been placed into VTrckS for the remaining 97,200 Moderna doses.

Facilities	Doses
Escambia CHD	2600
Leon CHD	2500
Duval CHD	16000
Seminole CHD	8100
Orange CHD	16000
Lee CHD	12000
Palm Beach CHD	20000
Miami-Dade CHD	20000

Total Doses 97,200

Both allocation plans have been placed into Tiberius as well.

Please let me know if you have any questions or need anything else.

Thank you,
Amy

Subject: Requesting HAI program assistance-COVID 19

Good morning,

In an effort to ensure HAI prevention program resources are available to assist with the requests for IPC assessments being received through readyOP, the HAI team has implemented the following risk assessment to help prioritize. When entering a request for an IPC assessment please note the following information will be required:

1. Has an infection control assessment and response (ICAR) visit (onsite or remote) been completed in the past 2 weeks?
    a. If no, please complete an ICAR (or tele-ICAR) prior to submitting request for IPC assessment by HAI Prevention Program
    b. If yes,
        i. Upload completed ICAR in ReadyOp
        ii. What IPC concerns were identified during the ICAR?
        iii. Provide list of recommendations provided to the facility in response to the ICAR
        iv. Upon follow up with the facility (1-7 days after ICAR), are there any remaining IPC deficiencies based on recommendations provided?
            1. If so, describe remaining concerns.

Please note: This risk assessment will be incorporated into the readyOp form, however until

AMERICAN OVERSIGHT

revisions are completed in the online form the team monitoring the requests will apply this risk assessment to each request.

The HAI program has made available to the CHDs the CDC ICAR tool to assist with evaluating LTCFs needs. This is a user-friendly resource that can be used onsite or remotely (e.g. tele-ICAR). I am also attaching it to this email. Please use this form when evaluating IPC practices in LTCFs. If you have questions about use of the form please do not hesitate to contact the HAI program: HAI_program@flhealth.gov.

We appreciate the growing requests for HAI program assistance and we are working to establish additional field support team members (local and regional) to add additional HAI capacity throughout the state over the next several months. Also, please note we collaborate continuously with the state regulating agency (AHCA) and the CMS Quality Improvement Network-Quality Improvement Organization (QIN-QIO) through Alliant Quality who are also conducting regulatory visits and providing quality advisors/IPC assessments to LTCFS, respectively. We work closely with these partners to ensure facilities are receiving IPC support as identified through the National Healthcare Safety Network (NHSN) COVID module data that is reported by LTCFS.

To ensure you are also aware of the data being reported into NHSN by the LTCFs we will begin sharing this report with you all on a weekly basis (Friday). We encourage you to view this data and use it to assist with your local outreach to the facilities to assess of any needs with IPC, testing, staffing, or identifying potential outbreaks. This weekly report contains the number of confirmed COVID-19 cases in residents and staff from the previous eight weeks. It also includes information on any current (within the last week) staffing shortages or anticipated personal protective equipment (PPE) shortages. There are also potential outbreak alerts if a non-outbreak facility has a new resident or staff with confirmed COVID-19 or if there are =30 resident cases reported during the prior week. Attached is a copy last week's report.

We hope you will find this information helpful and thank you all for your collaboration.

Infection Prevention and Control Assessment Tool for Nursing Homes Preparing for COVID-19

This is an infection control assessment and response tool (ICAR) that can be used to help nursing homes prepare for coronavirus disease 2019 (COVID-19). This tool may also contain content relevant for assisted living facilities.

The items assessed support the key strategies of:

- Keeping COVID-19 out of the facility
- Identifying infections as early as possible
- Preventing spread of COVID-19 in the facility
- Assessing and optimizing personal protective equipment (PPE) supplies
- Identifying and managing severe illness in residents with COVID-19

The areas assessed include:

- Visitor restriction
- Education, monitoring, and screening of healthcare personnel[1] (HCP)
- Education, monitoring, and screening of residents
- Ensuring availability of PPE and other supplies
- Ensuring adherence to recommended infection prevention and control (IPC) practices
- Communicating with the health department and other healthcare facilities

Findings from the assessment can be used to target specific IPC preparedness activities that nursing homes can immediately focus on while continuing to keep their residents and HCP safe.

Additional Information for Personnel Conducting Assessments:

- The assessment includes a combination of staff interviews and direct observation of practices in the facility and can be conducted in-person or remotely (e.g., Tele-ICAR via phone or video conferencing). Provide a copy of the tool to the facility before completing the Tele-ICAR and encourage nursing home staff to take their own notes as you conduct the assessment.
- Background information in the light green boxes above each section being assessed provides context for the ICAR user. You should not read this aloud during the assessment process but can refer to it as additional information.
- Keep in mind that the goal of the assessment is to convey key messages to nursing homes and identify their COVID-19-specific preparedness needs. Note any IPC questions and concerns and address them after the ICAR is completed. If you need additional support and technical assistance during an assessment, know that you can engage state HD healthcare-associated infections/antibiotic resistance (HAI/AR) Program leads for support.
- Assessment activities provide an opportunity for dialogue and information sharing.
  - » Discuss the purpose of the assessment. Emphasize that it is not a regulatory inspection and is designed to ensure the facility is prepared to quickly identify and prevent the spread of COVID-19.
  - » Promote discussion by asking additional questions to prompt or probe. Use this opportunity to address concerns and offer available resources.

[1]Health care personnel (HCP) are defined as paid and unpaid persons serving in health care settings who have the potential for direct or indirect exposure to patients or infectious materials

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention

AMERICAN OVERSIGHT

- To help you facilitate conversations with facilities, sample questions are provided in italics above each element being assessed. You do not have to ask these questions; however, they offer suggestions to help you continue the discussion, if needed. Be aware of applicable federal, state, county, or city rules, regulations such as CMS requirements for nursing homes and life safety code, and state government proclamations that may affect implementation of recommended practices.
- Provide feedback or a high-level summary immediately after the assessment, including elements in place and areas for improvement.
  - Consider providing a copy of your assessment or a brief summary with feedback, answers to the facility's questions, and recommended next steps directly to the facility within 2-3 days.
- Consider scheduling a follow-up call with the facility after the assessment findings are shared.

AMERICAN OVERSIGHT

Investigator: _____ Date: _____

Good morning/afternoon. My name is _____ and I am calling from the _____ Department of Health. May I speak with someone who is in charge of infection prevention and control (IPC) at your facility?

Greetings, _____. My name is _____ and I am calling to discuss infection prevention and control (IPC) preparedness activities that your facility can immediately put into place to combat COVID-19 while continuing to keep your residents and healthcare personnel safe. I would like to go through an IPC consultation with you and your team, that is non-regulatory in nature and meant to be helpful. Is now a good time to talk? If not, when would work best?

Great. As background, infection control assessment and response surveys, also referred to as ICARs (eye-cars), were developed by CDC to help health departments assess IPC practices and guide quality improvement activities. ICARs are particularly useful for stopping the spread of pathogens during outbreaks. ICAR findings will be shared between the health department's Healthcare Associated Infections Program and CDC.

Before we begin, may I get your name and contact information? Is there another person at your facility who would be the primary contact for the health department? If yes, can I get their information also?

Total number of units: _____

Specialty Units *(check all that apply)*: ☐ Vent/trach ☐ Dialysis ☐ Dementia/Memory ☐ Skilled Nursing ☐ Subacute Rehab ☐ Psychiatric care

These units have residents at higher risk for poor outcomes. Vent/trach units provide respiratory support and dementia/memory units are often secured, and limit resident movement to other locations.

Which of the following situations apply to the facility? *(Select all that apply)*

☐ No cases of COVID-19 currently reported in the surrounding community
☐ Cases reported in the surrounding community
☐ Sustained transmission reported in the surrounding community
☐ Cases identified in their facility (either among HCP and/or residents)
If yes, please specify the number of cases among residents _____ and among HCPs _____
☐ Cluster of influenza-like illness (ILI) in facility (either among HCP and/or residents)
If yes, please specify the number of cases among residents _____ and among HCPs _____

Have you received any prior information specific to preventing transmission of COVID-19? *(Select all that apply)*

☐ No
☐ Yes, from the health department
☐ Yes, from Centers for Medicare and Medicaid Services (CMS)
☐ Yes, from another source (Specify: _____)

AMERICAN OVERSIGHT

Visitor restrictions and non-essential personnel restrictions

Both CDC and CMS recommend restricting all visitors to nursing homes to prevent COVID-19 from entering the facility. Exceptions for compassionate care, such as end-of-life situations, may be considered on a case-by-case basis. All visitors should first have temperature and symptom screening (e.g., ***fever, new or worsening cough, difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell****) to safeguard residents. Ill visitors should not enter. Visitors who are granted access should perform frequent hand hygiene, wear a cloth face covering (for source control), and conduct their visit in a location designated by the facility such as the resident's room. Additional best practices include designating a single entrance for visitors, posting signage at entrances to the facility, and providing communication to residents and families.*

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
What is your current policy for visitors? **Facility restricts all visitation except for certain compassionate care situations, such as end-of-life situations.**	◯ Yes ◯ No	
Are there any exceptions to your visitation policy? What are those exceptions? **Decisions about visitation are made on a case-by-case basis.**	◯ Yes ◯ No	
If visitors are allowed in, what screening occurs? **Potential visitors are screened prior to entry for fever or symptoms of COVID-19. Those with symptoms are not permitted to enter the facility (e.g., fever, new or worsening cough, difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell).**	◯ Yes ◯ No	
Are there any restrictions or requirements on visitors once they enter? Do you provide them with any additional information on hand hygiene? **Visitors that are permitted inside, must wear a cloth face covering while in the building and restrict their visit to the resident's room or other location designated by the facility. They are also reminded to frequently perform hand hygiene.**	◯ Yes ◯ No	
What is your policy for volunteers or non-medical service providers like a beautician, barber, or massage therapist? **Non-essential personnel including volunteers and non-medical service providers (e.g., salon, barbers) are restricted from entering the building.**	◯ Yes ◯ No	
What has your facility done to communicate with family members of residents? What have you told family members about visiting? **Facility has sent a communication (e.g., letter, email) to families advising them that no visitors will be allowed in the facility except for certain compassionate care situations, such as end-of-life, and that alternative methods for visitation such as video conferencing will be made available by the facility.**	◯ Yes ◯ No	
Is the facility offering alternative means of communication instead of visits? What are those? **Facility has provided alternative methods for visitation such as video conferencing for residents.**	◯ Yes ◯ No	
Are there signs to prevent entrance into the facility (e.g., no visitors)? **Facility has posted signs at entrances to the facility advising that no visitors may enter the facility.**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Education, Monitoring, and Screening of Healthcare Personnel (HCP)

Education *of HCP (including consultant personnel) should explain how the IPC measures protect residents, themselves, and their loved ones, with an emphasis on hand hygiene, PPE, and* ***monitoring*** *of their symptoms. Consultant personnel are individuals who provide specialized care or services (for example, wound care or podiatry) to residents in the facility on a periodic basis. They often work at multiple facilities in the area and should be included in education and screening efforts as they can be exposed to or serve as a source of pathogen transmission. If HCP work while ill, they can serve as a source of pathogen transmission within the facility. HCP should be reminded not to report to work when ill. All HCP should self-monitor when they are not at work and be* ***actively screened*** *upon entering the facility. Ideally, this would occur at the entrance to the facility, before they begin their shift. Screening includes temperature check and asking about symptoms like subjective fever, new or worsening cough, difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell. If they have a fever of 100.0 F or higher or symptoms, they should be masked and sent home. Because symptom screening will not identify individuals who are infected but otherwise asymptomatic or pre-symptomatic, facilities should also implement universal source control policies requiring anyone in the facility to wear a facemask or cloth face covering. When available, facemasks are generally preferred over cloth face coverings for HCP as facemasks offer both source control and protection for the wearer against exposure to splashes and sprays of infectious material from others. Cloth face coverings should NOT be worn instead of a respirator or facemask if more than source control is required.*

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
Have you provided any in-service training or education to the staff due to COVID-19? What was included in those? **Facility has provided education and refresher training to HCP (including consultant personnel) about the following:** • **COVID-19 (e.g., symptoms, how it is transmitted)**	◯ Yes ◯ No	
• **Sick leave policies and importance of not reporting to or remaining at work when ill**	◯ Yes ◯ No	
• **New policies for source control while in the facility**	◯ Yes ◯ No	
Do you ever audit or record performance of things like hand hygiene? Selection and use of personal protective equipment? Environmental cleaning? **Facility monitors HCP adherence to recommended IPC practices, including:** • **Hand hygiene**	◯ Yes ◯ No	
• **Selection and use of PPE; have HCP demonstrate competency with putting on and removing PPE**	◯ Yes ◯ No	
• **Cleaning and disinfecting environmental surfaces and resident care equipment**	◯ Yes ◯ No	
What is your current staffing capacity? **Facility is aware of staffing needs and has a plan in the event of staffing shortages.**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
What is the current policy for facemasks for HCP inside the facility? What do you tell staff about wearing facemasks in common work areas with only co-workers present? If you are running low on facemasks, do you have a plan for when and which staff might use cloth face coverings for source control instead (those not providing direct care)? **Facility has implemented universal use of facemasks or cloth face coverings for HCP (for source control) while in the facility.**	◯ Yes ◯ No	
Facility has provided staff with education to use facemask or respirator if more than source control is required. *If there are shortages of facemasks, facemasks should be prioritized for HCP and then for residents with symptoms of COVID-19 (as supply allows). Cloth face coverings are not considered PPE and should not be worn instead of a respirator (or facemask if shortage of respirators) if more than source control is required.*	◯ Yes ◯ No	
What is the facility encouraging for staff in terms of social distancing? **All HCP are reminded to practice social distancing when in break rooms and common areas.**	◯ Yes ◯ No	
Have you started staff screening or check-ins? How does that work? Is this kept in a log? What do you do if someone has a fever or symptoms? **All HCP (including ancillary staff such as dietary and housekeeping and consultant personnel) are screened at the beginning of their shift for fever and symptoms of COVID-19 (actively records their temperature and documents they do not have fever, new or worsening cough, difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, or new loss of taste or smell).**	◯ Yes ◯ No	
• **If they are ill, they are instructed to keep their cloth face covering or facemask on and leave the facility. HCP with suspected or confirmed COVID-19 should notify their supervisor at any facility where they work.**	◯ Yes ◯ No	
Has your facility had any symptomatic staff? How are they tracked or monitored? **Facility keeps a list of symptomatic HCP.**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Education, Monitoring, and Screening, and Cohorting of Residents

Education of residents and their loved ones should include an explanation of steps the facility is taking to protect them and how visitors can serve as a source of pathogen transmission. The facility should ask residents to report if they feel feverish or have respiratory symptoms. They should actively monitor all residents upon admission and at least daily for fever and symptoms of COVID-19 (fever, new or worsening cough, difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell). If they have a fever (temperature of 100.0 F or higher) or symptoms, they should be restricted to their room and put into appropriate Transmission-Based Precautions. Group activities such as communal meals, religious gatherings, classes, and field trips should be stopped to promote social distancing (residents remaining at least 6 feet apart from one another).

Facilities should plan to dedicate space to care for residents with COVID-19 even before they have an active case. This could be a dedicated floor, unit, or wing in the facility or a group of rooms at the end of the unit that will be used to cohort residents with COVID-19 and would have dedicated HCP to deliver care within this space. Another consideration is how to manage new admissions or readmissions when COVID-19 status is unknown. Options may include placing the resident in a single-person room or in a separate observation area so the resident can be monitored for evidence of COVID-19. Residents could be transferred out of the observation area to the main facility if they remain afebrile and without symptoms for 14 days after their exposure (or admission). Testing at the end of this period could be considered to increase certainty that the resident is not infected. If an observation area has been created, residents in the facility who develop symptoms consistent with COVID-19 could be moved from their rooms to a single room in this area pending results of SARS-CoV-2 testing.

All recommended PPE should be worn during care of residents under observation; this includes use of an N95 or higher-level respirator (or facemask if a respirator is not available), eye protection (i.e., goggles or a disposable face shield that covers the front and sides of the face), gloves, and gown. Cloth face coverings are not considered PPE and should not be worn by HCP when PPE is indicated.

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
Have you provided any education to your residents on ways they can protect themselves (like washing hands, visitor restriction, social distancing)? **Facility has provided education to residents about the following:** • **COVID-19 (e.g., symptoms, how it is transmitted)**	◯ Yes ◯ No	
• **Importance of immediately informing HCP if they feel feverish or ill**	◯ Yes ◯ No	
• **Actions they can take to protect themselves (e.g., hand hygiene, covering their cough, maintaining social distancing)**	◯ Yes ◯ No	
• **Actions the facility is taking to keep them safe (e.g., visitor restrictions, changes in PPE use, canceling group activities and communal dining)**	◯ Yes ◯ No	
Are you screening residents? How are you screening them/what questions are you asking them? How often? What is included? **Facility assesses residents for fever and symptoms of COVID-19 (fever, new or worsening cough, difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell) upon admission and at least daily throughout their stay in the facility.**	◯ Yes ◯ No	
• **Residents with suspected COVID-19 are immediately placed in appropriate Transmission-Based Precautions.** ***Note:*** Older adults with COVID-19 may not show typical symptoms such as fever or respiratory symptoms. Atypical symptoms may include new or worsening malaise, new dizziness, or diarrhea. Identification of these symptoms should prompt isolation and further evaluation for COVID-19.	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
Are you keeping track of residents who are symptomatic? How? **Facility keeps a list of symptomatic residents (link to respiratory infection surveillance tool): https://www.cdc.gov/longtermcare/pdfs/LTC-Resp-OutbreakResources-P.pdf)**	◯ Yes ◯ No	
Has your facility made any changes to group activities (e.g., communal dining, religious activities [mass at Catholic facilities], gyms) or field trips? **Facility has stopped group activities inside the facility and field trips outside of the facility.**	◯ Yes ◯ No	
How are residents receiving meals? Has anything changed with communal dining? **Facility has stopped communal dining.**	◯ Yes ◯ No	
Additional actions when COVID-19 is identified in the facility or there is sustained transmission in the community (some facilities may choose to implement these earlier) *What is happening with resident movement in the facility? Are residents advised to stay in their rooms? Are they required to wear a facemask if they leave their rooms?* **Residents are encouraged to remain in their rooms.** • **If there are cases in the facility, residents are restricted (to the extent possible) to their rooms except for medically necessary purposes.**	◯ Yes ◯ No	
• **If residents leave their rooms, they should wear a cloth face covering or facemask (if tolerated), perform hand hygiene, limit movement in the facility, and perform social distancing.**	◯ Yes ◯ No	
How are ill residents monitored? How often are they monitored? What is included (e.g., symptoms, vitals, temp, oxygen saturation, respiratory exam)? • **The facility monitors ill residents at least 3 times daily including evaluating symptoms, vital signs, and oxygen saturation via pulse oximetry to identify and quickly manage clinical deterioration.**	◯ Yes ◯ No	
If there is a case within the facility in the future, have you made a plan for where the resident with COVID-19 will be placed? **Facility has dedicated a space in the facility to care for residents with confirmed COVID-19. This could be a dedicated floor, unit, or wing in the facility or a group of rooms at the end of the unit that will be used to cohort residents with COVID-19.**	◯ Yes ◯ No	
How will this dedicated space be staffed? **Facility has dedicated a team of primary HCP staff to work only in this area of the facility.**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
What is your plan for handling a resident who may have COVID-19? What is your plan for movement? What is your plan for testing? **Facility has a plan for how residents in the facility who develop COVID-19 will be handled (e.g., transfer to single room, prioritize for testing, transfer to COVID-19 unit if positive).** Closely monitor roommates and other residents who may have been exposed to an individual with COVID-19 and, if possible, avoid placing unexposed residents into a shared space with them.	◯ Yes ◯ No	
What is your plan for managing new admission or readmissions when the resident's COVID-19 status is unknown? What PPE will be worn when caring for residents who have unknown COVID-19 status and are under observation? **Facility has a plan for managing new admissions and readmissions whose COVID-19 status is unknown.**	◯ Yes ◯ No	
Additional actions when COVID-19 is identified in the facility or there is sustained transmission in the community **Facility uses all recommended PPE for the care of all residents on affected units (or facility-wide depending on the situation).** Because of the higher risk of unrecognized infection among residents, universal use of all recommended PPE for the care of all residents on the affected unit (or facility-wide depending on the situation) is recommended when even a single case among residents or HCP is identified in the facility; this should also be considered when there is sustained transmission in the community. The health department can assist with decisions about testing of asymptomatic residents.	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Availability of PPE and Other Supplies

Major distributors in the United States have reported shortages of PPE. Shortages of alcohol-based hand sanitizers and refills and certain disinfectants have also been reported. Facilities should assess their current supplies of PPE and other critical materials as soon as possible and begin implementing strategies to optimize their current supply of PPE (https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/index.html). Examples of strategies described in those documents include extended use of facemasks and eye protection, which allow the same facemask and eye protection to be worn for the care of more than one resident. Gowns could be prioritized for select activities such as activities where splashes and sprays are anticipated (including aerosol generating procedures) and high-contact resident care activities that provide opportunities for transfer of pathogens to hands and clothing of HCP. If a facility anticipates or has a shortage, they should engage their health department and healthcare coalition for assistance.

- *Link to identifying your state HAI coordinator: https://www.cdc.gov/hai/state-based/index.html*
- *Link to healthcare coalition/preparedness: https://www.phe.gov/Preparedness/planning/hpp/Pages/find-hc-coalition.aspx*

Disinfectants used at a facility should be EPA-registered, hospital-grade disinfectants with an emerging viral pathogens claim against SARS-CoV-2. List N on the EPA website lists products that meet EPA's criteria for use against SARS-CoV-2 (https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2)

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
How is your current supply of: facemasks and respirators; gowns; gloves; eye protection? Does your facility have enough supply of facemasks and respirators (gowns, gloves, etc.) for the next 1-2 weeks? **Facility has assessed current supply of PPE and other critical materials (e.g., alcohol-based hand sanitizer, EPA-registered disinfectants, tissues). (https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/burn-calculator.html)**	◯ Yes ◯ No	
What is your facility doing to try and conserve PPE? Are you aware of the recommendations to conserve PPE? Do you have a backup plan if you don't have enough? **If PPE shortages are identified or anticipated, facility has engaged their health department and/or healthcare coalition for assistance.**	◯ Yes ◯ No	
Facility has implemented measures to optimize current PPE supply (https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/index.html).	◯ Yes ◯ No	
Where is your PPE located? Is it readily available for staff that need it? **PPE is available in resident care areas including outside resident rooms.** • **PPE here includes: gloves, gowns, facemasks, N-95 or higher-level respirators (if facility has a respiratory protection program and HCP are fit-tested) and eye protection (face shield or goggles).**	◯ Yes ◯ No	
How much disinfectant does your facility have on hand? Do you expect a shortage? **EPA-registered, hospital-grade disinfectants with an emerging viral pathogens claim against SARS-CoV-2 are available to allow for frequent cleaning of high-touch surfaces and shared resident care equipment.**	◯ Yes ◯ No	
Are trash cans accessible throughout the facility? What about tissues? **Tissues and trash cans are available in common areas and resident rooms for respiratory hygiene and cough etiquette and source control.**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Infection Prevention and Control Practices

Alcohol-based hand sanitizer (ABHS) is the preferred method of hand hygiene; however, sinks should still be stocked with soap and paper towels. Hand hygiene should be performed in the following situations: before resident contact, even if PPE is worn; after contact with the resident; after contact with blood, body fluids, or contaminated surfaces or equipment; before performing aseptic tasks; and after removing PPE.

Recommended PPE when caring for residents with suspected or confirmed COVID-19 includes gloves, gown, N-95 or higher-level respirator (or facemask if respirators are not available or HCP are not fit-tested), and eye protection (face shield or goggles). PPE should be readily available outside of resident rooms, although the facility should consider assigning a staff member to shepherd supplies and encourage appropriate use.

All EPA-registered, hospital-grade disinfectants have a contact time which is required to kill or inactivate pathogens. Environmental surfaces must remain wet with the product for the entire contact time duration to work appropriately. Contact times range from 30 seconds to 10 minutes. Keeping a surface wet for 10 minutes is seldom accomplished with a single application. It is important for facilities to know that their product is appropriate (List N as above) and is being used for the entire contact time. Also, it is helpful for the facility to assign responsibility for cleaning and disinfection of specific surfaces and equipment (who cleans what).

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
When, during patient care, is hand hygiene expected? **HCP perform hand hygiene in the following situations:** • **Before resident contact, even if gloves will be worn**	◯ Yes ◯ No	
• **After contact with the resident**	◯ Yes ◯ No	
• **After contact with blood, body fluids, or contaminated surfaces or equipment**	◯ Yes ◯ No	
• **Before performing an aseptic task**	◯ Yes ◯ No	
• **After removing PPE**	◯ Yes ◯ No	
What does your facility recommend for hand hygiene? Is there a preference for soap and water or alcohol-based hand sanitizer? **Facility has preference for alcohol-based hand sanitizer over soap and water**	◯ Yes ◯ No	
What PPE is being used by HCP caring for anyone with suspected or confirmed COVID-19 **HCP wear the following PPE when caring for residents with suspected or confirmed COVID-19** • **Gloves**	◯ Yes ◯ No	
• **Isolation gown**	◯ Yes ◯ No	
• **N-95 or higher-level respirator (or facemask if a respirator is not available)**	◯ Yes ◯ No	
• **Eye protection (goggles or face shield)**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
How are staff taught to remove PPE? **PPE are removed in a manner to prevent self-contamination and hand hygiene is performed immediately after removal.**	◯ Yes ◯ No	
What product do you use for alcohol-based hand sanitizer – do you know the alcohol percentage? Are you experiencing any shortages in alcohol-based hand sanitizer? If so, how are you addressing? **Hand hygiene supplies are available in all resident care areas.** • **Alcohol-based hand sanitizer* with 60-95% alcohol is available in every resident room and other resident care and common areas.** ***If there are shortages of alcohol-based hand sanitizer, hand hygiene using soap and water is still expected.**	◯ Yes ◯ No	
Do you ever audit or record performance of things like hand hygiene? Selection and use of personal protective equipment? What do you do if you see someone not washing their hands appropriately? **Hand hygiene and PPE compliance are audited.**	◯ Yes ◯ No	
How often are shared equipment like blood pressure cuffs/machines cleaned? These need to be cleaned after every patient use. Who is responsible for that? Are you able to dedicate equipment to residents that may be symptomatic or a case like thermometers, BP cuffs, and stethoscopes? **Non-dedicated, non-disposable resident care equipment is cleaned and disinfected after each use.**	◯ Yes ◯ No	
What disinfectant is used at your facility? Is this ready-to-use (premixed) or does it need to be diluted by your staff? Have you checked to see if that product is effective for coronavirus (EPA List N)? **EPA-registered, hospital-grade disinfectants with an emerging viral pathogens claim* against SARS-CoV-2 are available to allow for frequent cleaning of high-touch surfaces and shared resident care equipment.** • ***See EPA List N: https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2** • **Name of EPA-registered disinfectant used in facility:** _____	◯ Yes ◯ No	
What is the contact time for the product? Remember that the contact time is how long a disinfectant needs to remain on a surface for it to be effective. The surface needs to be wet the entire time. Contact times can range from 30 seconds to 10 minutes; often the product is dry after 1-2 minutes so this means reapplying more until that contact time is met. [If they have a 10 minute product] Please make sure your staff are aware of that time and use it appropriately or consider changing to another product with a shorter time. **Facility is aware of the contact time for the EPA-registered disinfectant and shares this information with HCP.**	◯ Yes ◯ No	
Are disinfectants ready-to-use or do you have to mix/dilute them at the facility? How are they mixed/diluted? **EPA-registered disinfectants are prepared and used in accordance with label instructions.**	◯ Yes ◯ No	

AMERICAN OVERSIGHT

Communication

Communicating is essential during an outbreak—with HCP, residents, families, the health department, transport personnel, and receiving facilities. Facilities should notify the health department about any resident with severe respiratory infection resulting in hospitalization or death, any resident or HCP with suspected or confirmed COVID-19, or if the facility identifies 3 or more new onset cases of respiratory illness among residents and/or HCP in 72 hours. These situations should prompt further investigation and testing for SARS-CoV-2. Should a higher level of care be indicated for a resident with suspected or confirmed COVID-19, the facility should communicate this information with transport personnel, the receiving facility, and the health department.

Elements to be assessed	Assessment (Y/N)	Notes/Areas for Improvement
Have you ever talked to the health department before for your facility? Why? Moving forward, what would make you reach out to the health department now? You should reach out if you have a known or suspected case in a resident or healthcare provider; if you have a resident with a severe respiratory infection; or a cluster of new-onset respiratory symptoms among residents and or staff. Generally, we say 3 or more over the course of three days. **Facility notifies the health department about any of the following:** • **COVID-19 is suspected or confirmed in a resident or HCP**	◯ Yes ◯ No	
• **A resident has severe respiratory infection resulting in hospitalization or death**	◯ Yes ◯ No	
• **A cluster of new-onset respiratory symptoms among residents or HCP (≥3 cases over 72 hours)**	◯ Yes ◯ No	
If you have known or suspect cases of COVID-19, how do you plan to communicate this with staff? With residents? With family members? **Facility has process to notify residents, families, and staff members about COVID-19 cases occurring in the facility.**	◯ Yes ◯ No	
What about if you transfer a known or suspect case to the hospital, do you have a way to communicate their status to EMS; outpatient facility like dialysis or transfusion clinic; hospital? **Facility communicates information about known or suspected residents with COVID-19 to appropriate personnel (e.g., transport personnel, receiving facility) before transferring them to healthcare facilities such as dialysis and acute care facilities.**	◯ Yes ◯ No	

At the conclusion of the ICAR, give the facility an opportunity to ask questions. Provide them with information about what to expect next (e.g., that they will receive a copy of the completed ICAR form, a recommendation letter, etc.).

AMERICAN OVERSIGHT

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q
1	This line listing is a summary of COVID-19 information for all the Skiled Nursing Facilities (SNF) reporting to the NHSN Long-term Care COVID-19 module.																
2	Data included in the line list are as follows:																
3		Confirmed resident cases															
4		Confirmed Staff cases															
5		Staffing shortage															
6		PPE supply shortage															
7		COVID-19 potential outbreak alert															
8		Access to SARS-CoV-2 Testing															
9		Potential data quality issues (resident															
10																	
11	The line list also includes criteria developed to identify facilities with recent COVID-19 activity that may be indicative of an outbreak.																
12	These criteria are called "outbreak alerts" and have been applied to resident and staff confirmed COVID-19 case data																
13	The definitions for the outbreak alerts are listed below:																
14		Resident Alert: >= 1 confirmed resident cases in a facility where no confirmed resident case were reported during the 4-week period prior to the most recent week															
15		Staff Alert: >= 1 confirmed staff cases in a faciltiy where no confirmed staff cases were reported during the 4-week period prior to the most recent week															
16		>= 30 Res Case Alert: > = 30 confirmed resident cases in the last week															
17		Sort Factor: Sum of resident and staff cases in the past 4 weeks is used to organize facilities from highest case count to lowest case count

Nursing homes with a "Yes" indicator need a survey based on the data included in the report. They are either listed as a Super Hotspot or do not have an FIC survey in the ASPEN data used to create the report.

If the SA becomes aware of a large outbreak that causes a facility to be a Super Hotspot facility and conducts an FIC survey in that facility before the report is published, they

States may use this field to track survey completion.

Super Hotspots are facilities that report 30 or more new confirmed resident COVID-19 cases in the National Healthcare Safety Network (NHSN) data submitted to CDC.

---

Just clarifying, this says packing slip. Is this the correct transfer form that providers have to complete normally for us or is there another form as well as this packing slip?

Amy,

Based on the revised points you provided and our conversation this afternoon, please review the attached draft rule. I have a couple of questions about the timing of submissions in particular, but please also review to ensure that the correct webpages and/or email addresses are cited.

I welcome any additional comments.

Thank you,
Amanda

NOTICE OF EMERGENCY RULE

DEPARTMENT OF HEALTH
Division of Disease Control

RULE NO.:	RULE TITLE:
64DER20-44	COVID-19 Vaccine Redistribution Requirements

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC, HEALTH, SAFETY OR WELFARE: Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza. COVID-19 is a communicable disease with significant morbidity and mortality. As a result, it presents a severe danger to public health. In furtherance of state and federal government response efforts, the Florida Department of Health and the Centers for Disease Control and Prevention (CDC) seek to permit the redistribution of COVID-19 vaccine beyond the primary CDC ship-to-sites. Tracking the redistribution of COVID-19 vaccines in Florida is paramount to controlling this communicable disease and to ensure proper oversight by the CDC. Therefore, there is an immediate need to adopt rules setting forth the procedure for providers to request to redistribute COVID-19 vaccine in order to control the spread of COVID-19 to protect the health, safety and welfare of Florida's citizens.
REASONS FOR CONCLUDING THAT THE PROCEDURE USED IS FAIR UNDER THE CIRCUMSTANCES: COVID-19 presents a public health threat to the state of Florida. The Surgeon General has declared a statewide Public Health Emergency due to the spread of COVID-19. There is an immediate need to set forth procedures for the tracking of vaccine redistribution between enrolled COVID-19 vaccine providers in the effort to control this communicable disease in the State of Florida.
SUMMARY OF THE RULE: Emergency rule 64DER20-44 sets forth the requirements to permit the redistribution of COVID-19 vaccines between enrolled COVID-19 vaccine providers.
THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Carina Blackmore, Florida Department of Health, 4052 Bald Cypress Way, Tallahassee, Florida 32399-1703, (850) 245-4732.

THE FULL TEXT OF THE EMERGENCY RULE IS:

64DER20-44 COVID-19 Vaccine Redistribution Requirements

(1) Prior to any redistribution of COVID-19 vaccines between COVID-19 vaccine provider sites, all COVID-19 vaccine redistributions require approval from the Florida Vaccines for Children and Adults (VFC/VFA) Program.

(2) All COVID-19 vaccine redistributions must be to providers who are fully enrolled in the Florida State Health Online Tracking System (Florida SHOTS) and the VFC/VFA Program. In addition, all providers must have completed both sections A and B of the "CDC COVID-19 Vaccination Program Provider Agreement" (09/14/2020) which is available through the provider's Florida SHOTS account at http://www.flshotsusers.com/.

(3) In order to redistribute any COVID-19 vaccine product to an enrolled COVID-19 Vaccine Program outside of the provider's organization, a provider must complete a "CDC Supplemental COVID-19 Vaccine Redistribution Agreement" (09/29/20) which is incorporated by reference and available at http://www.floridahealth.gov/programs-and-services/immunization/COVID-19VaccineInfo/index.html. A copy of the completed redistribution agreement must be sent to the VFC/VFA program at FloridaVFC@flhealth.gov no less than 24 hours before the anticipated redistribution.

(4) A redistribution agreement is not required if the redistribution will occur between enrolled COVID-19 Vaccine Program providers within the same organization.

(5) A Florida SHOTS vaccine transfer form must be completed and signed by both the redistributing provider and the receiving provider for all vaccine redistributions. The transfer form is available through the provider's Florida SHOTS account at http://www.flshotsusers.com/. The completed form must be sent to the VFC/VFA program at FloridaVFC@flhealth.gov no less than 24 hours before the anticipated redistribution.

Rulemaking Authority 381.003(2), 381.0031(8), 381.005(3) FS. Law Implemented 381.0011(3), (4), 381.003(1), 381.0031, 381.005(1) FS. History–New 12-1X-2020

THIS RULE TAKES EFFECT UPON BEING FILED WITH THE DEPARTMENT OF STATE UNLESS A LATER TIME AND DATE IS SPECIFIED IN THE RULE.
EFFECTIVE DATE: December XX, 2020

AMERICAN OVERSIGHT

CDC Supplemental COVID-19 Vaccine Redistribution Agreement

The Centers for Disease Control and Prevention (CDC) plans to ship a minimum order size of COVID-19 vaccine, constituent products, and ancillary supplies at no cost directly to enrolled COVID-19 vaccination providers throughout the United States. The federally contracted vaccine distributor uses validated shipping procedures to maintain the vaccine cold chain and minimize the likelihood of vaccine loss or damage during shipment. There may be circumstances where COVID-19 vaccine needs to be redistributed beyond the identified primary CDC ship-to sites (i.e., for orders smaller than the minimum order size or for large organizations whose vaccine is shipped to a central depot and requires redistribution to additional clinic locations). In these instances, vaccination provider organizations/facilities, third-party vendors, and other vaccination providers may be allowed to redistribute vaccine, if approved by the jurisdiction's immunization program and if validated cold chain procedures are in place in accordance with the manufacturer's instructions and CDC's guidance on COVID-19 vaccine storage and handling. There must be a signed *CDC Supplemental COVID-19 Vaccine Redistribution Agreement* for the facility/organization conducting redistribution and a fully completed *CDC COVID-19 Vaccination Provider Profile Information* form (Section B of the CDC COVID-19 Vaccination Program Provider Agreement) for each receiving vaccination location.

The parties to this agreement are CDC and healthcare organizations, third-party vendors, and vaccination providers that redistribute COVID-19 vaccine. CDC cannot reimburse costs of redistribution beyond the initial designated primary CDC ship-to site(s), or for purchase of any vaccine-specific refrigerators or qualified containers. Therefore, organizations planning for redistribution of COVID-19 vaccine must carefully assess the associated risks and costs (e.g., vaccine loss due to temperature excursions, purchase of vaccine-specific portable refrigerators and/or containers) before planning this activity.

COVID-19 vaccination organization redistribution agreement requirements

To redistribute COVID-19 vaccine, constituent products, and ancillary supplies to secondary sites, this organization agrees to:

1. Sign and comply with all conditions as outlined in the CDC COVID-19 Vaccination Program Provider Agreement.
2. Ensure secondary locations receiving redistributed COVID-19 vaccine, constituent products, or ancillary supplies also sign and comply with all conditions in the CDC COVID-19 Vaccination Program Provider Agreement.
3. Comply with vaccine manufacturer instructions on cold chain management and CDC guidance in CDC's *Vaccine Storage and Handling Toolkit*, which will be updated to include specific information related to COVID-19 vaccine, for any redistribution of COVID-19 vaccine to secondary locations.
4. Document and make available any rrecords of COVID-19 vaccine redistribution to secondary sites to jurisdiction's immunization program as requested, including dates and times of redistribution, sending and receiving locations, lot numbers, expiration dates, and numbers of doses.
   Neither CDC nor state, local, or territorial health departments are responsible for any costs of redistribution or equipment to support redistribution efforts.

By signing this form, I understand this is an agreement between my Organization and CDC, implemented and maintained by my jurisdiction's immunization program. I also certify on behalf of myself, my medical practice, or other legal entity with staff authorized to administer vaccines, and all the practitioners, nurses, and others associated with this Organization that I have read and agree to the COVID-19 vaccine redistribution agreement requirements listed above and understand my Organization and I are accountable for compliance with these requirements. Non-compliance with the terms of this Redistribution Agreement may result in suspension or termination from the CDC COVID-19 Vaccination Program and criminal and civil penalties under federal law, including but not limited to the False Claims Act, 31 U.S.C. § 3729 et seq., and other related federal laws, 18 U.S.C. §§ 1001, 1035, 1347, 1349.

AMERICAN OVERSIGHT

CDC COVID-19 Vaccination Program Provider Agreement

AGREEMENT REQUIREMENTS	
I understand this is an agreement between Organization and CDC. This program is a part of collaboration under the relevant state, local, or territorial immunization's cooperative agreement with CDC. To receive one or more of the publicly funded COVID-19 vaccines (COVID-19 Vaccine), constituent products, and ancillary supplies at no cost, Organization agrees that it will adhere to the following requirements**:**	
1.	Organization must administer COVID-19 Vaccine in accordance with all requirements and recommendations of CDC and CDC's Advisory Committee on Immunization Practices (ACIP).[1]
2.	Within 24 hours of administering a dose of COVID-19 Vaccine and adjuvant (if applicable), Organization must record in the vaccine recipient's record and report required information to the relevant state, local, or territorial public health authority. Details of required information (collectively, Vaccine-Administration Data) for reporting can be found on CDC's website.[2] Organization must submit Vaccine-Administration Data through either (1) the immunization information system (IIS) of the state and local or territorial jurisdiction or (2) another system designated by CDC according to CDC documentation and data requirements.[2] Organization must preserve the record for at least 3 years following vaccination, or longer if required by state, local, or territorial law. Such records must be made available to any federal, state, local, or territorial public health department to the extent authorized by law.
3.	Organization must not sell or seek reimbursement for COVID-19 Vaccine and any adjuvant, syringes, needles, or other constituent products and ancillary supplies that the federal government provides without cost to Organization.
4.	Organization must administer COVID-19 Vaccine regardless of the vaccine recipient's ability to pay COVID-19 Vaccine administration fees.
5.	Before administering COVID-19 Vaccine, Organization must provide an approved Emergency Use Authorization (EUA) fact sheet or vaccine information statement (VIS), as required, to each vaccine recipient, the adult caregiver accompanying the recipient, or other legal representative.
6.	Organization's COVID-19 vaccination services must be conducted in compliance with CDC's Guidance for Immunization Services During the COVID-19 Pandemic for safe delivery of vaccines.[3]
7.	Organization must comply with CDC requirements for COVID-19 Vaccine management. Those requirements include the following: a) Organization must store and handle COVID-19 Vaccine under proper conditions, including maintaining cold chain conditions and chain of custody at all times in accordance with the manufacturer's package insert and CDC guidance in CDC's Vaccine Storage and Handling Toolkit[4], which will be updated to include specific information related to COVID-19 Vaccine; b) Organization must monitor vaccine-storage-unit temperatures at all times using equipment and practices that comply with guidance located in CDC's Vaccine Storage and Handling Toolkit[4]; c) Organization must comply with each relevant jurisdiction's immunization program guidance for dealing with temperature excursions;

This agreement expressly incorporates all recommendations, requirements, and other guidance that this agreement specifically identifies through footnoted weblinks. Organization must monitor such identified guidance for updates. Organization must comply with such updates.

AHCA/MAI OVERSIGHT

CDC COVID-19 Vaccination Program Provider Agreement

	d) Organization must monitor and comply with COVID-19 Vaccine expiration dates; and e) Organization must preserve all records related to COVID-19 Vaccine management for a minimum of 3 years, or longer if required by state, local, or territorial law.
8.	Organization must report the number of doses of COVID-19 Vaccine and adjuvants that were unused, spoiled, expired, or wasted as required by the relevant jurisdiction.
9.	Organization must comply with all federal instructions and timelines for disposing COVID-19 vaccine and adjuvant, including unused doses.[5]
10.	Organization must report moderate and severe adverse events following vaccination to the Vaccine Adverse Event Reporting System (VAERS).[6]
11.	Organization must provide a completed COVID-19 vaccination record card to every COVID-19 Vaccine recipient, the adult caregiver accompanying the recipient, or other legal representative. Each COVID-19 Vaccine shipment will include COVID-19 vaccination record cards.
12.	a) Organization must comply with all applicable requirements as set forth by the U.S. Food and Drug Administration, including but not limited to requirements in any EUA that covers COVID-19 Vaccine. b) Organization must administer COVID-19 Vaccine in compliance with all applicable state and territorial vaccination laws.

By signing this form, I certify that all relevant officers, directors, employees, and agents of Organization involved in handling COVID-19 Vaccine understand and will comply with the agreement requirements listed above and that the information provided in sections A and B is true.

The above requirements are material conditions of payment for COVID-19 Vaccine-administration claims submitted by Organization to any federal healthcare benefit program, including but not limited to Medicare and Medicaid, or submitted to any HHS-sponsored COVID-19 relief program, including the Health Resources & Services Administration COVID-19 Uninsured Program. Reimbursement for administering COVID-19 Vaccine is not available under any federal healthcare program if Organization fails to comply with these requirements with respect to the administered COVID-19 Vaccine dose. Each time Organization submits a reimbursement claim for COVID-19 Vaccine administration to any federal healthcare program, Organization expressly certifies that it has complied with these requirements with respect to that administered dose.

Non-compliance with the terms of Agreement may result in suspension or termination from the CDC COVID-19 Vaccination Program and criminal and civil penalties under federal law, including but not limited to the False Claims Act, 31 U.S.C. § 3729 *et seq*., and other related federal laws, 18 U.S.C. §§ 1001, 1035, 1347, 1349.

By entering Agreement, Organization does not become a government contractor under the Federal Acquisition Regulation.

Coverage under the Public Readiness and Emergency Preparedness (PREP) Act extends to Organization if it complies with the PREP Act and the PREP Act Declaration of the Secretary of Health and Human Services.[7]

[5] The disposal process for remaining unused COVID-19 Vaccine and adjuvant may be different from the process for other vaccines; unused vaccines must remain under storage and handling conditions noted in Item 7 until CDC provides disposal instructions; website URL will be made available.

CDC COVID-19 Vaccination Program Provider Profile Information

COVID-19 VACCINATION PROVIDER TYPE FOR THIS LOCATION (SELECT ONE)

- ☐ Commercial vaccination service provider
- ☐ Corrections/detention health services
- ☐ Health center – community (non-Federally Qualified Health Center/non-Rural Health Clinic)
- ☐ Health center – migrant or refugee
- ☐ Health center – occupational
- ☐ Health center – STD/HIV clinic
- ☐ Health center – student
- ☐ Home health care provider
- ☐ Hospital
- ☐ Indian Health Service
- ☐ Tribal health
- ☐ Medical practice – family medicine
- ☐ Medical practice – pediatrics
- ☐ Medical practice – internal medicine
- ☐ Medical practice – OB/GYN
- ☐ Medical practice – other specialty
- ☐ Pharmacy – chain
- ☐ Pharmacy – independent
- ☐ Public health provider – public health clinic
- ☐ Public health provider – Federally Qualified Health Center
- ☐ Public health provider – Rural Health Clinic
- ☐ Long-term care – nursing home, skilled nursing facility, federally certified
- ☐ Long-term care – nursing home, skilled nursing facility, non-federally certified
- ☐ Long-term care – assisted living
- ☐ Long-term care – intellectual or developmental disability
- ☐ Long-term care – combination (e.g., assisted living and nursing home in same facility)
- ☐ Urgent care
- ☐ Other (Specify: _____)

SETTING(S) WHERE THIS LOCATION WILL ADMINISTER COVID-19 VACCINE (SELECT ALL THAT APPLY)

- ☐ Childcare or daycare facility
- ☐ College, technical school, or university
- ☐ Community center
- ☐ Correctional/detention facility
- ☐ Health care provider office, health center, medical practice, or outpatient clinic
- ☐ Hospital (i.e., inpatient facility)
- ☐ In-home
- ☐ Long-term care facility (e.g., nursing home, assisted living, independent living, skilled nursing)
- ☐ Pharmacy
- ☐ Public health clinic (e.g., local health department)
- ☐ School (K – grade 12)
- ☐ Shelter
- ☐ Temporary or off-site vaccination clinic – point of dispensing (POD)
- ☐ Temporary location – mobile clinic
- ☐ Urgent care facility
- ☐ Workplace
- ☐ Other (Specify: _____)

APPROXIMATE NUMBER OF PATIENTS/CLIENTS ROUTINELY SERVED BY THIS LOCATION

Number of children 18 years of age and younger: _____ *(Enter "0" if the location does not serve this age group.)*
☐ Unknown

Number of adults 19 – 64 years of age: _____ *(Enter "0" if the location does not serve this age group.)*
☐ Unknown

Number of adults 65 years of age and older: _____ *(Enter "0" if the location does not serve this age group.)*
☐ Unknown

Number of unique patients/clients seen per week, on average: _____
☐ Unknown
☐ Not applicable (e.g., for commercial vaccination service providers)

INFLUENZA VACCINATION CAPACITY FOR THIS LOCATION

Number of influenza vaccine doses administered during the peak week of the 2019–20 influenza season:
_____ *(Enter "0" if no influenza vaccine doses were administered by this location in 2019-20)*
☐ Unknown

AMERICAN OVERSIGHT

CDC COVID-19 Vaccination Program Provider Profile Information

POPULATION(S) SERVED BY THIS LOCATION (SELECT ALL THAT APPLY)

- ☐ General pediatric population
- ☐ General adult population
- ☐ Adults 65 years of age and older
- ☐ Long term care facility residents (nursing home, assisted living, or independent living facility)
- ☐ Health care workers
- ☐ Critical infrastructure/essential workers (e.g., education, law enforcement, food/agricultural workers, fire services)
- ☐ Military – active duty/reserves
- ☐ Military – veteran
- ☐ People experiencing homelessness
- ☐ Pregnant women
- ☐ Racial and ethnic minority groups
- ☐ Tribal communities
- ☐ People who are incarcerated/detained
- ☐ People living in rural communities
- ☐ People who are under-insured or uninsured
- ☐ People with disabilities
- ☐ People with underlying medical conditions* that are risk factors for severe COVID-19 illness
- ☐ Other people at higher-risk for COVID-19 (Specify: _____)

DOES YOUR ORGANIZATION CURRENTLY REPORT VACCINE ADMINISTRATION DATA TO THE STATE, LOCAL, OR TERRITORIAL IMMUNIZATION INFORMATION SYSTEM (IIS)?

- ☐ Yes [List IIS Identifier: _____]
- ☐ No
- ☐ Not applicable

If "No," please explain planned method for reporting vaccine administration data to the jurisdiction's IIS or other designated system as required:

If "Not applicable," please explain:

ESTIMATED NUMBER OF 10-DOSE MULTIDOSE VIALS (MDVs) YOUR LOCATION IS ABLE TO STORE DURING PEAK VACCINATION PERIODS (E.G., DURING BACK-TO-SCHOOL OR INFLUENZA VACCINE SEASON) AT THE FOLLOWING TEMPERATURES:

Refrigerated (2°C to 8°C):	☐ No capacity	☐ Approximately _____ additional 10-dose MDVs
Frozen (-15° to -25°C):	☐ No capacity	☐ Approximately _____ additional 10-dose MDVs
Ultra-frozen (-60° to -80°C):	☐ No capacity	☐ Approximately _____ additional 10-dose MDVs

STORAGE UNIT DETAILS FOR THIS LOCATION

AMERICAN OVERSIGHT

INTEROFFICE MEMORANDUM

DATE: December 8, 2020

TO: Department of Health County Health Department Administrators/Directors

THROUGH: Ty Gentle, Director
Office of Budget and Revenue Management

FROM: Clayton Weiss, MPH, Chief
Bureau of Epidemiology

SUBJECT: Schedule C State Funding Increase
Contract Year 2020–2021

Action Required Revise appropriate sections of the county contract and submit to the Office of Budget and Revenue Management

---

Schedule C funding will be increased in federal funds as part of the Paycheck Protection Program and Healthcare Enhancements Act - Immunization and Vaccines for Children in response to COVID-19 in the amount of **$4,968,338** (CHD Revenue Receipt Object Code **007000**, OCA **ICV21**, Level 5 code **106**) for the contract year 2020-2021. Details by grant period and OCA are as follows:

OCA	Grant Expenditure Period	Amount
ICV21	July 1, 2020 to June 30, 2021	See Attached

The funds are to be utilized by CHDs to support ongoing COVID-19 vaccination planning and distribution efforts. Please note any deviation from approved allocation for this OCA will be disallowed. Funding will be allocated in **Special Category 105153**.

- Funding is to be used to support Personnel and Supplies required to administer the COVID-19 vaccine only as it becomes available.
- Equipment, Travel and Contractual Services are not allowable expenses.

Adjustments to Schedule C funding require updates to the revenue and expenditure sections of Attachment II of the county core contract. The following revised sections of the contract should be submitted to the Office of Budget and Revenue Management:

- Attachment II, parts II and III (changes highlighted)
- Copy of appropriate notification letter

AMERICAN OVERSIGHT

Copies of the revised contract pages must also be submitted to the Board of County Commissioners.

The projected revenue and expenditure data in the Financial and Information Reporting System Spending Plan should also be updated. If this funding adjustment generates a budget deficit, the additional budget needed will be transferred during the next reallocation of County Health Department Trust Fund budget.

If you have any questions regarding this adjustment, call Aman Punwani at 850-901-6804. If you need any assistance amending your contract, please contact Demonica Connell 850-245-4208.

Subject: Schedule C State Funding Adjustment - ICV21

Good Afternoon,

All County Health Departments will receive an increase in federal funding in the Epidemiology Program. Please see the attached Schedule C Adjustment Advice Letter for further details.

The Schedule C has been adjusted accordingly.

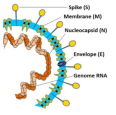
Vaccination Technology Through The Years

Edward Jenner 1796

The Latin word for cow is vacca, and cowpox is vaccinia; Jenner decided to call this new procedure vaccination.



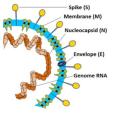
2

See notes below each slide for suggested talking points

AMERICAN OVERSIGHT

Advances in Medical Technology

- Killed Virus: e.g. Hepatitis A
- Live Attenuated Virus: e.g. Measles – took 10 years to produce
- Genetic manipulation of a benign virus
  - Astra Zeneca
  - Johnson and Johnson
- Piece of a Virus: e.g. Novavax – Purified Spike Protein
- Messenger RNA in a man-made virus-like lipid nanoparticle
  - Pfizer
  - Moderna

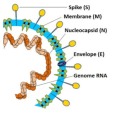


See notes below each slide for suggested talking points

AMERICAN OVERSIGHT

How did we get a vaccine so fast?

- Smallpox vaccine took thousands of years
- Next major advances took hundreds of years
- Measles live attenuated vaccine took a decade
- The Human Genome project was key for the next major advance



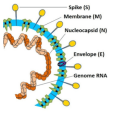
See notes below each slide for suggested talking points

AMERICAN OVERSIGHT

Human Genome Project

- **3 Billion Dollars**
- **Over 200 Labs in USA**
- **18 other countries**
- **Took 13 years (1990 – 2003)**

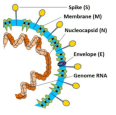
- **Currently: Can decode entire human genome in 24 to 48 hours for less than $1k**



AMERICAN OVERSIGHT

Comparative Size of Genetic Databases

- Human: 6 Billion Bases
- Fruit Fly: 123 Million Bases
- E Coli: 5 Million Bases
- COVID: 30 Thousand Bases

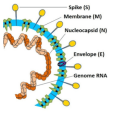


AMERICAN OVERSIGHT

FL-DOH-21-0168-A-076917

Messenger RNA Vaccines

- NOT A VIRUS!!
- mRNA codes for the target protein
- Can be used for infectious diseases and even cancer therapy
- Ultra rapid development process compared to prior vaccination technology
- 63 Days from SARS-CoV-2 genetic decoding to first human vaccine test injection
- Pandemic causes rapid exposure of treatment groups

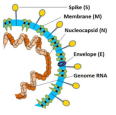


7

AMERICAN OVERSIGHT

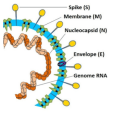
Pfizer-Biontech

- mRNA Vaccine
- Ultracold storage -80C: 6 months
- Refrigerator storage: 5 days
- Room Temperature: 6 Hours
- 44k Study Participants, Diverse background
- Zero safety concerns
- 95% Effective
- Both Antibody and T Cell Immunity
- Possibly 20M Doses by end of 2020



AMERICAN OVERSIGHT

Pfizer / Biontech



AMERICAN OVERSIGHT

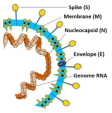
Side Effects of Pfizer mRNA Vaccine

SHOT NUMBER 1 Ages <55 and >55 y/o

- **Fatigue** 47.4% and 30.4%
- **Headache** 41.9% and 25.2 %
- **Muscle Pain** 21.3% and 13.9%
- Chills 14% and 6.3%
- Fever: 3.7% and 1.4%

SHOT NUMBER 2 Ages <55 and >55 y/o

- **Fatigue** 59.4% and 50.5%
- **Headache** 51.7% and 39%
- **Muscle Pain** 37.3% and 28.7%
- Chills 35.1% and 22.7%
- Fever: 15.8% and 10.9%



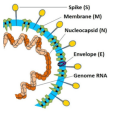
Source: Vaccines and Related Biological Products Advisory Committee Meeting December 10, 2020
FDA Briefing Document Pfizer-BioNTech COVID-19 Vaccine

10

AMERICAN OVERSIGHT

Known Unknowns

- Pregnancy
- Lactating
- Length of Immunity
- Asymptomatic Infection
- Children under age 16
  - Ongoing data collection for 12 to 16 y/o
- Immunosuppressed
  - Ongoing data collection

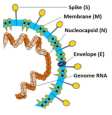


AMERICAN OVERSIGHT

Allergic Reactions

- Hypersensitivity-related adverse events in the
  - Vaccine group: (137 [0.63%])
  - Placebo group (111 [0.51%])

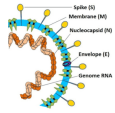
- 2 Cases from UK
  - Unconfirmed From News Reports – Both patients had prior history of severe allergic reaction, both had prior prescription for Epi, both recovered



AMERICAN OVERSIGHT

Moderna

- mRNA Vaccine
- **Normal Freezer storage: 6 months**
- Refrigerator storage: 7 days (Maybe 30 days)
- Once opened: 6 Hours
- 30k Study Participants, Diverse background
- Zero safety concerns
- Greater than 94% Effective
- Both Antibody and T Cell Immunity
- Possibly 20M Doses by end of 2020



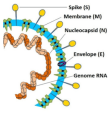
13

AMERICAN OVERSIGHT

Vaccine Supplies Included?

For centrally distributed vaccines, each kit will contain supplies to administer 100 doses of vaccine, including:

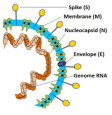
Needles: 25G 1 – 1.5 Inch 105 per kit
Syringes: 1 to 3 mL 105 per kit
Alcohol Prep Pads 210 per kit
4 Surgical Masks per kit
2 Face Shields per kit
Gloves?



AMERICAN OVERSIGHT

Astra Zeneca

- AZD1222 Vaccine: Chimpanzee Adenovirus
- Unable to replicate
- Genetically modified to carry the COVID-19 Spike Protein
- Early Results show both Antibody and T-Cell Immune Response
- May be ready for EUA early 2021

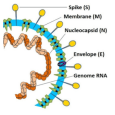


15

AMERICAN OVERSIGHT

Johnson and Johnson

- Ad26 Single Shot Vaccine: Adenovirus Vector similar to AZ
- Unable to replicate
- Genetically modified to carry the COVID-19 Spike Protein
- Early Results show both Antibody and T-Cell Immune Response
- Plan to study 60,000 adults 18 years old and older
- May be ready for EUA early 2021

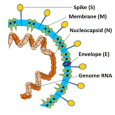


16

AMERICAN OVERSIGHT

Novavax

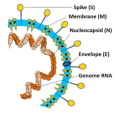
- NVX-CoV2373: Adjuvanted, recombinant, full-length spike protein manmade nanoparticle vaccine
- No virus, no viral nuclear material, just purified viral spike protein
- Early studies showed both antibody and T cell immunity
- Phase 3 results won't be ready till 2021
- Normal Refrigerator Storage



AMERICAN OVERSIGHT

Two Shots – Same Flavor

- Most vaccine candidates require a 2-shot series
- Second shot must be from same manufacturer
- Only J and J is single shot candidate

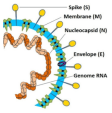


18

AMERICAN OVERSIGHT

Masks After Vaccination?

- Awaiting study results on rates of Asymptomatic Infection in those vaccinated
- Until known, masks are prudent at least until a significant percent of the population has been vaccinated and COVID transmission rates are much lower

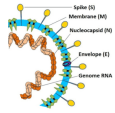


AMERICAN OVERSIGHT

Potential EMS Vaccination Strategies

Drive Through and walk-up Sites

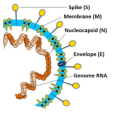
Need a separate supervised waiting lot / area for 15-minute post shot evaluation



AMERICAN OVERSIGHT

Mobile Vaccination Teams

Can bring care to populations with limited access to healthcare system

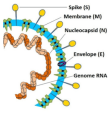


21

AMERICAN OVERSIGHT

Long Term Care Facilities

Mobile EMS Vaccination Teams can augment efforts to provide care to LTC's

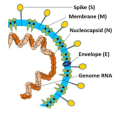


22

AMERICAN OVERSIGHT

Rural Hub and spoke model

Share resources among hospital and EMS agencies to expand capability for both

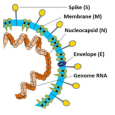


23

AMERICAN OVERSIGHT

Hospital vaccination force multiplier

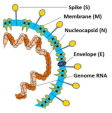
- Free up nurses for more critical care roles
- Expand capacity of Hospital Vaccination Program
- Can be used as part of Rural Spoke and Hub system



AMERICAN OVERSIGHT

What steps for EMS to take now

- Paramedics can provide immunizations per FL Statute 401.272
- Contact your local County DOH
- EMS MD sign MOU with DOH
- Train Medics: CDC Videos
- Checklist of training and keep in records
- Develop Closed or Open POD model



25

AMERICAN OVERSIGHT

Thank You!

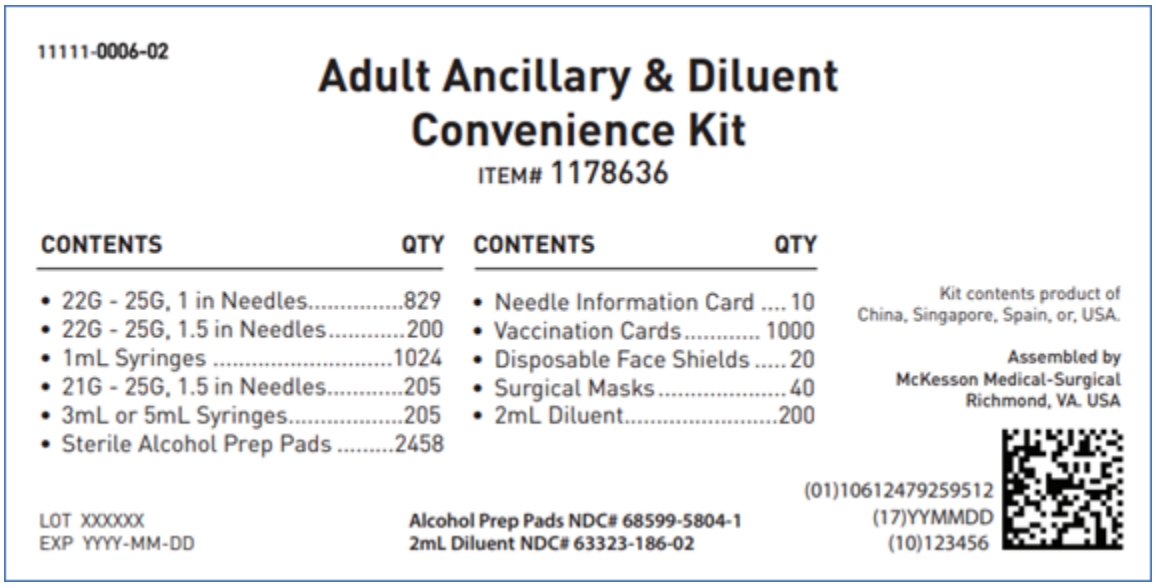
Contents and Quantities for Mega Kits to Support Pfizer Vaccine

December 11, 2020

This is a clarification about the needle and syringes included in the COVID-19 ancillary supply kits for administering Pfizer's ultra-frozen vaccine. Based on questions coming into our call centers supporting the distribution of the ancillary supply kits for Operation Warp Speed, there is some confusion about the quantities of needles and syringes included in the kits. Each kit is clearly labeled with a complete inventory list. (See example below.)



11111-0006-02

Adult Ancillary & Diluent Convenience Kit

ITEM# 1178636

CONTENTS	QTY
• 22G - 25G, 1 in Needles	829
• 22G - 25G, 1.5 in Needles	200
• 1mL Syringes	1024
• 21G - 25G, 1.5 in Needles	205
• 3mL or 5mL Syringes	205
• Sterile Alcohol Prep Pads	2458

CONTENTS	QTY
• Needle Information Card	10
• Vaccination Cards	1000
• Disposable Face Shields	20
• Surgical Masks	40
• 2mL Diluent	200

Kit contents product of China, Singapore, Spain, or, USA.

Assembled by
McKesson Medical-Surgical
Richmond, VA. USA

(01)10612479259512
(17)YYMMDD
(10)123456

LOT XXXXXX
EXP YYYY-MM-DD

Alcohol Prep Pads NDC# 68599-5804-1
2mL Diluent NDC# 63323-186-02

Procuring the sheer number of needles and syringes needed to support an operation of this size involves complex logistics, which is why vaccine administrators may see variance in how the supplies are packaged. The listed products may be received as a combo, defined as a single packaged needle and syringe, or as individual components. The quantities listed on the label represent the minimum number of total combinations in each kit.

- For example, if the kit above was shipped with (829) 1ml-25Gx1" syringe/needle combos and (200) 22Gx1.5" needles for administration, the kit would only contain (200) 1ml syringes to accompany the needles. This would yield a total of (1,029) needles with accompanying syringes (some packaged together, some individually).
- If a kit contained only individual needles and syringes, there may be 5 more needles than syringes. This is intentional and is designed to improve your experience and maximize the inventory across all kits built.
    - In this scenario, the adjustment was to the 22-25Gx1.5" needles. The kit was originally configured to have 195. This was increased by 5 (to 200) to improve the administrators' experience by using two whole boxes.

AMERICAN OVERSIGHT
FL-DOH-21-0168-A-076940

Please note there will be multiple configurations used as Operation Warp Speed continues to procure products to support the assembly of these and other ancillary supply kits. Regardless of configuration, the kit contents will meet the minimum quantities listed on the kit content labels and will support the same total number of doses.

We hope this communication helps your teams as they review the content in the kits to ensure their readiness for administration when you receive the vaccine doses.

Please direct any issues regarding the ancillary kits to support the Pfizer COVID-19 vaccine to McKesson Customer Service at:

Importance: High

While we work out the details on what else to include, I wanted to be clear on what we know will be required and by whom. As always, subject to change….

Due by 4 PM each day,

Danielle – send the number of vaccines administered for that day along with the total vaccinations administered cumulatively and an average vaccinations given per day.

Baskar – send the amount of each type of vaccine (Pfizer and Moderna, etc… as more become available) that has been shipped, the amount currently on hand in inventory.

AMERICAN OVERSIGHT

Jeff/Amy – amount of vaccine allocated to Florida that has not been designated to a particular facility.

Thanks,
Amy

Thank you!

Just an early Mock-Up of the Nightly Roll-Up… I'm sure their will be comments. We can eventually expand to include second doses.

Importance: High

While we work out the details on what else to include, I wanted to be clear on what we know will be required and by whom. As always, subject to change....

Due by 4 PM each day,

Danielle – send the number of vaccines administered for that day along with the total vaccinations administered cumulatively and an average vaccinations given per day.

Baskar – send the amount of each type of vaccine (Pfizer and Moderna, etc… as more become available) that has been shipped, the amount currently on hand in inventory.

Jeff/Amy – amount of vaccine allocated to Florida that has not been designated to a particular facility.

Thanks,
Amy

Pfizer-BioNTech COVID-19 Vaccine

Standing Orders for Administering Vaccine to Persons 16 Years of Age and Older

Note: For more information/guidance, please contact the immunization program at your state or local health department or the appropriate state body (e.g., state board of medical/nursing/pharmacy practice).

Purpose

- To reduce morbidity and mortality from coronavirus disease 2019 (COVID-19) by vaccinating persons who meet the criteria established by the Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices (ACIP).

Policy

- Where authorized under state law, standing orders enable eligible nurses and other healthcare professionals (e.g., pharmacists) to assess and vaccinate persons who meet the criteria in the "Procedure" section below without the need for clinician examination or direct order from the attending provider at the time of the interaction.

Procedure

- Assess persons 16 years of age and older for vaccination with Pfizer-BioNTech COVID-19 Vaccine based on the following criteria: No complete 2-dose COVID-19 vaccination history, regardless of brand. If 2 doses of a same-brand or mixed-brand series have been administered, no additional doses are recommended.
  - If the recipient has received 1 previous dose of Pfizer-BioNTech COVID-19 Vaccine, the second dose of the same brand should be administered.
  - This vaccine is administered in a **2-dose** series. Separate doses by at least 21 days.*
  - Pfizer-BioNTech COVID-19 Vaccine should not be administered at the same time with other vaccines. Separate Pfizer-BioNTech COVID-19 Vaccine from other vaccines by 14 days before or after the administration of COVID-19 vaccine.
- Screen for contraindications and precautions.
  - Contraindications
    - Severe allergic reaction (e.g., anaphylaxis) to a previous dose of Pfizer-BioNTech COVID-19 Vaccine or to a component of the vaccine.
  - Precautions
    - Severe allergic reaction (e.g., anaphylaxis) to a previous dose of any vaccine (not including Pfizer-BioNTech COVID-19 Vaccine).
    - Severe allergic reaction (e.g., anaphylaxis) to a medication that is injectable
    - Moderate to severe acute illness
- Provide Emergency Use Authorization (EUA) patient information.
  - Provide all recipients with a copy of the current federal EUA Fact Sheet for Recipients and Caregivers.
- Prepare to administer the vaccine.
  - Choose the correct needle gauge, needle length, and injection site for persons:
    - 16 through 18 years of age: 1-inch needle is recommended, administered in the deltoid muscle of the arm.
    - 19 years of age and older: See table below.

Sex and Weight of Patient	Needle Gauge	Needle Length	Injection Site**
Female or male fewer than 130 lbs	22–25	⅝*** –1"	Deltoid muscle of arm
Female or male 130–152 lbs	22–25	1"	Deltoid muscle of arm
Female 152–200 lbs	22–25	1-1½"	Deltoid muscle of arm
Male 153–260 lbs	22–25	1-1½"	Deltoid muscle of arm
Female 200+ lbs	22–25	1½"	Deltoid muscle of arm
Male 260+ lbs	22–25	1½"	Deltoid muscle of arm

* If the 2nd dose Pfizer vaccine was given as early as 17 days after the 1st dose, then do not repeat a 2nd dose.

** Alternatively, the anterolateral thigh also can be used.

*** Some experts recommend a 5/8-inch needle for men and women who weigh less 130 pounds. If used, skin must be stretched tightly (**do not bunch subcutaneous tissue**).

AMERICAN OVERSIGHT

- Mix Pfizer-BioNTech COVID-19 Vaccine with 0.9% sodium chloride (normal saline, preservative-free) diluent according to the manufacturer's instructions. Follow manufacturer's guidance for storing/handling mixed vaccine.

- Administer 0.3 mL Pfizer-BioNTech COVID-19 Vaccine by intramuscular (IM) injection.Document vaccination.
- Document vaccination.
  - COVID-19 vaccination providers must document vaccine administration in their medical record systems within 24 hours of administration and use their best efforts to report administration data to the relevant system (e.g., Immunization Information System) for the jurisdiction as soon as practicable and no later than 72 hours after administration.
  - Document each recipient's vaccine administration information:
    - Medical record: The vaccine and the date it was administered, manufacturer, lot number, vaccination site and route, name and title of the person administering the vaccine
    - Vaccination record card: Date of vaccination, product name/manufacturer, lot number, and name/location of the administering clinic or healthcare professional. Give to the vaccine recipient.
    - Immunization information system: Report the vaccination to the appropriate state/local IIS.
- Additional preparation and administration information is available on the manufacturer's website at www.cvdvaccine.com.
- Be prepared to manage medical emergencies.
  - Vaccination providers should observe patients after vaccination to monitor for the occurrence of immediate adverse reactions:
    - Persons with a history of a any anaphylaxis: 30 min
    - All other persons: 15 minutes
  - Be prepared to manage a medical emergency related to the administration of vaccine by having a written emergency medical protocol available, as well as equipment and medications. For more information, please see:
    - **CDC's *General Best Practice Guidelines for Immunization*, "Preventing and Managing Adverse Reactions,"** at https://www.cdc.gov/vaccines/hcp/acip-recs/general-recs/adverse-reactions.html.
    - **Immunization Action Coalition's "Medical Management of Vaccine Reactions in Adults in a Community Setting"** at https://www.immunize.org/catg.d/p3082.pdf
- Report adverse events to the Vaccine Adverse Event Reporting System (VAERS).
  - While this vaccine is under Emergency Use Authorization (EUA), healthcare professionals are required to report to VAERS:
    - Vaccine administration errors (whether associated with an adverse event [AE] or not)
    - Serious AEs (irrespective of attribution to vaccination)
    - Multisystem inflammatory syndrome (MIS) in adults or children
    - Cases of COVID-19 that result in hospitalization or death
    - Any additional AEs and revised safety requirements per the Food and Drug Administration's conditions for use of an authorized vaccine throughout the duration of the EUA
  - Healthcare professionals are encouraged to report to VAERS:
    - Clinically important adverse events that occur after vaccination, even if you are not sure whether the vaccine caused the adverse event

Standing Orders Authorization

This policy and procedure shall remain in effect for all patients of the _____ effective _____ until rescinded or until _____.

Medical director (or other authorized practitioner)
_____/_____/_____.

Adapted from Immunization Action Coalition Standing Orders templates. These templates for routinely recommended vaccines can be found at https://www.immunize.org/standing-orders/. We thank the Immunization Action Coalition for the use of their resources.

AMERICAN OVERSIGHT

Pre-Vaccination Form for Pfizer-BioNTech COVID-19 Vaccine

For vaccine recipients:

The following questions will help us determine if there is any reason you should not get the COVID-19 vaccine today. If you answer "yes" to any question, it does not necessarily mean you should not be vaccinated. It just means additional questions may be asked. If a question is not clear, please ask your healthcare provider to explain it.

Patient Name _____

Age _____

	Yes	No	Don't know
1. Are you feeling sick today?			
2. Have you ever received a dose of COVID-19 vaccine? If yes, which vaccine product? ☐ Pfizer ☐ Another product _____			
3. Have you ever had a severe allergic reaction (e.g., anaphylaxis) to something? For example, a reaction for which you were treated with epinephrine or EpiPen®, or for which you had to go to the hospital?			
• Was the severe allergic reaction after receiving a COVID-19 vaccine?			
• Was the severe allergic reaction after receiving another vaccine or another injectable medication?			
4. Do you have a bleeding disorder or are you taking a blood thinner?			
5. Have you received passive antibody therapy as treatment for COVID-19?			

Form completed by _____ **Date** _____

Form reviewed by _____ **Date** _____

Adapted with appreciation from the Immunization Action Coalition (IAC) screening checklists

AMERICAN OVERSIGHT

Pre-Vaccination Form for Pfizer-BioNTech COVID-19 Vaccine

Information for Healthcare Professionals about the Pre-Vaccination Form for Pfizer-BioNTech COVID-19 Vaccine.

For additional information on COVID-19 vaccine recommendations, see:
https://www.cdc.gov/vaccines/covid-19/info-by-product/pfizer/clinical-considerations.html

For additional information on ACIP general recommendations, see:
https://www.cdc.gov/vaccines/hcp/acip-recs/general-recs/index.html

Are you feeling sick today?

There is no evidence that acute illness reduces vaccine efficacy or increases vaccine adverse events. However, as a precaution with moderate or severe acute illness, all vaccines should be delayed until the illness has improved. **Mild illnesses (e.g., upper respiratory infections, diarrhea) are NOT contraindications to vaccination.** Do not withhold vaccination if a person is taking antibiotics. **Vaccination of persons with current SARS-CoV-2 infection should be deferred until the person has recovered from acute illness and they can discontinue isolation.** While there is no minimum interval between infection and vaccination, current evidence suggests reinfection is uncommon in the 90 days after initial infection. Persons with documented acute SARS-CoV-2 infection in the preceding 90 days may delay vaccination until near the end of this period, if desired.

Have you ever received a dose of COVID-19 vaccine?

Two doses of the same COVID-19 vaccine product are recommended. Check medical records, immunization information systems, and vaccination record cards to help determine the initial product received. Those who received a trial vaccine should consult with the trial sponsors to determine if it is feasible to receive additional doses.

Have you ever had a severe allergic reaction (e.g., anaphylaxis) to something? For example, a reaction for which you were treated with epinephrine or EpiPen®, or for which you had to go to the hospital?

Allergic reactions, including severe allergic reactions, NOT related to vaccines or injectable therapies (e.g., food, pet, venom, environmental, or latex allergies; oral medications) are NOT a contraindication or precaution to vaccination with currently authorized COVID-19 vaccine. HOWEVER, individuals who have had severe allergic reactions to something, regardless of cause, **should be observed for 30 minutes after vaccination.** All other persons should be observed for 15 minutes.

Was the severe allergic reaction after receiving a COVID-19 vaccine?

History of severe allergic reaction (e.g., anaphylaxis) to a previous dose or component of the COVID-19 vaccine product being offered is a contraindication to that COVID-19 vaccine.

Was the severe allergic reaction after receiving another vaccine or another injectable medication?

A history of mild allergic reaction to a vaccine or injectable therapy is not a precaution to vaccination. History of severe allergic reaction (e.g., anaphylaxis) to another vaccine or a component of another vaccine OR anaphylactic reaction to any other injectable medication is a **precaution to currently authorized COVID-19 vaccine.** Vaccine may be given, but counsel patients about unknown risks of developing a severe allergic reaction and balance these risks against the benefits of vaccination. These individuals should be observed for 30 minutes after vaccination.

Do you have a bleeding disorder or are you taking a blood thinner?

COVID-19 vaccine may be given to these patients, if a physician familiar with the patient's bleeding risk determines that the vaccine can be administered intramuscularly with reasonable safety. ACIP recommends the following technique for intramuscular vaccination in patients with bleeding disorders or taking blood thinners: a fine-gauge needle (23-gauge or smaller caliber) should be used for the vaccination, followed by firm pressure on the site, without rubbing, for at least 2 minutes.

Have you received passive antibody therapy as treatment for COVID-19?

Based on the estimated half-life of monoclonal antibodies or convalescent plasma as part of COVID-19 treatment, as well as evidence suggesting that reinfection is uncommon in the 90 days after initial infection, **vaccination should be deferred for at least 90 days,** as a precautionary measure until additional information becomes available, to avoid interference of the antibody treatment with vaccine-induced immune responses.

»Considerations

Immunocompromise is not a contraindication to current COVID-19 vaccine, including those with cancer, leukemia, HIV/AIDS and other immune system problems or taking medication that affects their immune systems. However, patients should be informed that the vaccine might be less effective than in someone who is immunocompetent.

Pregnancy is not a contraindication to current COVID-19 vaccine. While there are currently no available data on the safety of COVID-19 vaccines in pregnant people, studies and results are expected soon. Pregnant people may choose to get vaccinated. Observational data demonstrate that while the absolute risk is low, pregnant people with COVID-19 have an increased risk of severe illness.

Lactation is not a contraindication to current COVID-19 vaccine. Lactating people may choose to be vaccinated. There is no data available for lactating people on the effects of mRNA vaccines.

Good morning –

I know Danielle is on her way in, but Azia if you could check that would be great. Wondering if our Moderna 162,000 got moved to production.

Thanks,
Amy

Importance:	High

Can you help prepare a response? This is what I came up with.

It does say all enrolled COVID providers must report. IF the LTCF is not enrolled as a COVID provider, the organization that is coming to their facility to administer the vaccine "owns" the vaccine and would be required to submit data to SHOTS.

Subject: To confirm - Florida SHOTs Emergency Rule Enrollment RE: POCs for 6 Facilities - FLSHOTS registration & COVID19 Vaccine Program Enrollment
Importance: High

Hi Amy,

I spoke with Steve McCoy to confirm – he said that nursing homes do not need to enroll into Florida SHOTS at this time, unless they are actually administering vaccine shots using their own nursing staff, then they are required to enroll and report.

He said that the organizations delivering the clinics to nursing homes – CVS, WAG and DOH Strike Teams – are responsible for reporting the data into Florida SHOTS within 24 hours of giving the shot.

The Emergency Rule Alert sent on December 14 was not specific in its language and it appeared to be saying that all facilities must enroll and report the vaccination data as of December 14.

If you have any further guidance, please let me know.

Thanks for your time,
Melanie

December 14, 2020

AHCA's ESS: Daily Long Term Care Facilities Reporting Update

Based on federal approval of the Pfizer-BioNTech COVID-19 Vaccine, effective December 14, 2020, the vaccine is being provided in Florida.

COVID-19 Vaccination Communication Toolkit
The Centers for Disease Control and Prevention (CDC) has created a COVID-19 Vaccination Communication Toolkit providing Medical centers, clinics, and clinicians with ready-made materials you can use to inform your healthcare teams and other staff.

Florida SHOTS Reporting
The Department of Health has adopted Emergency Rule 64DER20-43, F.A.C., requiring mandatory reporting fields of COVID-19 vaccine administration data into Florida SHOTS within 24 hours of vaccine administration. Please strive to update SHOTS by 9:00PM each day to assist with expedited vaccination information.

ESS Reporting
Effective December 14, 2020, the "Add'l Info" tab has also been updated to include questions about your facility's administration of COVID-19 vaccines.

These questions are related to the administration of the first doses of COVID-19 vaccine to facility staff and residents. All of the questions are found on the "Add'l Info" tab in ESS.

Please continue to report the current Bed Census and Available Beds and the Add'l Info tabs **daily** by 10 AM ET until further notice.

AMERICAN OVERSIGHT

- **Descriptions are available for each question for reporting correctly. Please refer to the revised questions and the "descriptions" posted on the ESS Resources page:**
  - Additional ESS Resources can be found on our COVID site: http://ahca.myflorida.com/COVID-19_Facilities.shtml#ESS
- All needs requests should be submitted to your local Emergency Operations Center.
  - https://www.floridadisaster.org/counties/

If needed, click the following link to access additional instructions for entering facility data for events (see pages 1-4 of the document "How to Locate and Enter Event Information" under the Details column) http://ahca.myflorida.com/MCHQ/Emergency_Activities/index.shtml.

If you require additional assistance with ESS, please contact your AHCA licensing unit:
Assisted Living Unit, 850-412-4304
Long Term Care Services Unit, 850-412-4303

The Agency for Health Care Administration is committed to better health care for all Floridians. The Agency administers Florida's Medicaid program, licenses and regulates more than 44,000 health care facilities and 53 health plans, and publishes health care data and statistics at www.FloridaHealthFinder.gov. Additional information about Agency initiatives is available via Facebook (AHCAFlorida), Twitter (@AHCA_FL) and YouTube (/AHCAFlorida).

Subject: UHC

Dear Chair Kitson

As mentioned, we are interested in identifying university health centers (UHCs) that can be potential COVID vaccine providers.

Initial vaccine prioritization is for health care workers and those in long-term care facilities.
Later individuals >65 yrs old and those with underlying medical conditions will be prioritized.

Considering that the universities have health services, attached in info as to how they can be registered as vaccine providers.

~~~
As of COB yesterday, there were 71 UHCs enrolled in SHOTS already.

This flowchart will walk them through the process of becoming a fully enrolled COVID provider.

They must be:
Enrolled in SHOTS
Enrolled in VFC/VFA Program
Complete Section A and Section B of the CDC Provider Agreement.

They can go to the www.flshots.com webpage and click on interested in becoming a COVID provider and it will initiate the process.

The COVID enrollment helpdesk can also be reached at CovidVaccineProgram@flhealth.gov

Copied in this note is Amy Riggen, of our Immunization section who can help with questions.
We can also arrange a call with DOH and the UHC teams if you wish.

Thanks

COVID-19 Vaccine Enrollment
Process for Providers

Florida Department of Health • FloridaHealth.gov • ImmunizeFlorida.org

1 Does your organization have an account in Florida SHOTS?

YES

2 All providers must complete both section A and B COVID-19 agreements. Login to FLSHOTS application and go to the COVID-19 vaccine enrollment page.

Complete one section A agreement for your organization.

Obtain signature from chief medical officer and chief executive officer.

Email signed PDF to **CovidVaccineProgram@flhealth.gov**

3 Is your organization a Vaccines for Children or Vaccines for Adults (VFC/VFA) provider?

YES

Complete one section B agreement for **each** individual site.

E-sign and submit each section B agreement within FLSHOTS.

Process complete! Stay tuned for information on vaccine availability.

NO

An enrollment specialist will call you to enroll your sites.

NO

Visit **FLShotsUsers.com** to enroll in FLSHOTS. Fill out application. Check the "COVID-19 Enrollment" check box to indicate your interest in the COVID-19 vaccination effort.

Receive completion of enrollment email from FLSHOTS.

Call FLSHOTS helpdesk to get your login credentials.

Login to FLSHOTS application and complete your account setup.

If you are new to FLSHOTS, you don't need to do anything. An enrollment specialist will call you.

AMERICAN OVERSIGHT

FL-DOH-21-0168-A-076973

Provider Information for COVID-19 Vaccine Enrollment

Florida Department of Health • FloridaHealth.gov • ImmunizeFlorida.org

Thank you for your interest in serving your community by providing COVID-19 vaccinations. To become a COVID-19 vaccine provider your organization must be enrolled in Florida SHOTS and the Vaccines for Children/Adult (VFC/VFA) Program.

1. Florida SHOTS

Providers must hold a valid and active medical license to enroll.

If you are not enrolled in Florida SHOTS:

Visit **FLShotsUsers.com** to complete an enrollment application. Be sure to check the "COVID-19 Enrollment" box. After your application has been processed, you will receive a confirmation e-mail with your login credentials.

If you are enrolled in Florida SHOTS:

Login using your ID, username and password. If you do not remember your login ID, call the Florida SHOTS help desk **(877-888-7468, Option 2)**. If you need to reset your password, click "Need Password Assistance" on the Florida SHOTS login page.

2. Vaccines for Children (VFC)/ Vaccines for Adults (VFA)

Each location or site where vaccine will be ordered and received must enroll in VFC/VFA. There is not an application or form to enroll in VFC/VFA. COVID-19 vaccine enrollment staff will call providers directly to conduct the enrollment process.

3. COVID-19 Vaccination Provider Agreement

All providers must complete two sections of the COVID-19 Provider Agreement.

Section A: Provider Requirements and Legal Agreement. One agreement must be completed for the organization and signed by both the Chief Medical Officer and Chief Executive Officer.

1. Log in to your Florida SHOTS account and visit the COVID-19 Enrollment Page.

2. Click "Submit COVID-19 Section A" to fill out the agreement. The pdf document must be downloaded, signed by both responsible parties, and emailed to **CovidVaccineProgram@flhealth.gov.**

Section B: Provider Profile. You will not be able to complete Section B until you have started the VFC/VFA enrollment process. One provider profile must be completed for **each** VFC/VFA enrolled location or site.

1. Log in to your Florida SHOTS account and visit the COVID-19 Enrollment Page.

2. Click "COVID-19 Enroll Section B" to complete and submit the provider profile.

The COVID-19 vaccine enrollment desk will contact organizations to provide further information on how to order and receive vaccines as available.

For additional information please contact the **Department of Health's Immunization Section at 877-888-7468.**

Providers can also direct questions to **CovidVaccineProgram@flhealth.gov.**

Subject: Update on Clinic Ids for CHDs

Good afternoon Megan,
The emergency strike team will be using Broward CHD and Pinellas CHD to document the vaccinations administered at the LTC facilities in those counties.

With respect to Pinellas CHD, currently the vaccines for it is going to be coming from Hillsborough CHD (pin 701221). Currently Amanda, is finalizing the enrollment for Pin 527003 under Pinellas CHD. The vaccines for this effort will be transferred from pin 701221 to 527003 (once its enrollment is complete). So the clinic ids that were set up under Hillsborough site (701221) needs to be removed and added under site (pin 527003 – IMM Outreach(?)) in Pinellas CHD.

The 527003 enrollment in COVID and transfer of vaccines in FLSHOTS from 701221 and 527003 must happen before the strike team staff be able to document the vaccination in SHOTS.

Megan/Brittany, let me know if you need help in setting up the Clinic Id under Pinellas CHD.

Thanks

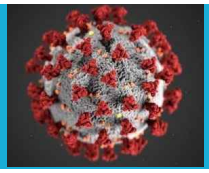
AMERICA OVERSIGHT



COVID-19 Vaccination Plan Template Overview

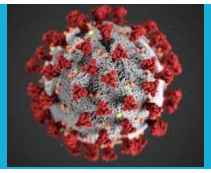
The COVID-19 Vaccination Plan template was provided by the Centers for Disease Control and Prevention (CDC) to assist with the development of a jurisdiction's COVID-19 vaccination plan.

The template is divided into 15 main planning sections, with brief instructions to assist with content development. While these instructions may help guide plan development, they are not comprehensive, and jurisdictions are reminded to carefully review the *CDC COVID-19 Vaccination Program Interim Playbook for Jurisdiction Operations* as well as other CDC guidance and resources when developing their plans. Jurisdictions are encouraged to routinely monitor local and federal COVID-19 vaccination updates for any changes in guidance, including any updates to the *CDC COVID-19 Vaccination Program Interim Playbook for Jurisdiction Operations.*

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT



Section 1: COVID-19 Vaccination Preparedness Planning

A. The Florida Department of Health (Department) is approaching COVID-19 vaccination planning using an integrated planning structure based on lessons learned from the H1N1 pandemic, seasonal influenza vaccination activities and the recent Hepatitis A vaccination program. Existing plans from those vaccination campaigns and after-action reports from these historical responses were reviewed and key lessons learned are serving as the framework to start the planning process for this response.

Key lessons learned and improvements include:

1. Simplifying and streamlining the enrollment processes into the state vaccine administration system to expedite and expand vaccine providers.
2. Expanding existing Closed Point of Dispensing Plans for Mass Prophylaxis to better support vaccination activities.
3. Increasing the inclusion of community partners to provide vaccinators.
4. Expediting timelines of reporting vaccine administration data.
5. Including individuals and partners with various areas of expertise to ensure a coordinated planning effort across the Department.

B. The Department is using seasonal influenza vaccination activities to test plans for administration of the COVID-19 vaccine. Florida's 67 county health departments (CHDs) will conduct a vaccine administration exercise by December 1, 2020. The exercises will focus on increasing daily vaccinations, implementing social distancing and COVID-19 mitigation measures into logistical planning for mass vaccination clinics, and expand use of personal protective equipment. Each CHD will report to the Department's State Health Office using a standardized after-action reporting template to identify successes and areas for improvement.

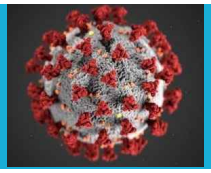
FL-DOH-21-0168-A-076983



Section 2: COVID-19 Organizational Structure and Partner Involvement

A. A modified Incident Command Structure has been established for the Department's COVID-19 vaccination initiative that includes representatives and subject matter experts from the immunizations program, public health preparedness, epidemiology, public health nursing, emergency medical services (EMS), emergency management, hospital and long term care associations, public information officers and legal counsel. This workgroup has an action plan of key tasks to complete in preparation of vaccination activities and has established operational sub-groups assigned to focused planning for vaccine administration within the specific areas of:

1. Hospitals
2. Long-term care facilities
3. First responders
4. Critical infrastructure personnel
5. CHD Mass Vaccination Clinics
6. State Mass Vaccination Clinics
7. Expanded traditional vaccine providers and retail providers

The planning team has also focused on expanding the Department's immunization program to address key tasks related to:

1. Enrollment of new vaccine providers
2. Expansion of Vaccines for Children (VFC) and Vaccines for Adults (VFA) programs
3. Readiness of Florida's Immunization Information System (IIS), Florida SHOTS

The organizational chart for the state-level planning team is shown on the following page.

DRAFT

AMERICA OVERSIGHT

FL-DOH-21-0168-A-076984

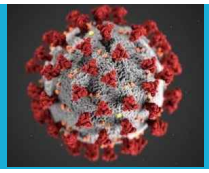

Figure 1. COVID-19 Vaccination Planning Workgroup Structure

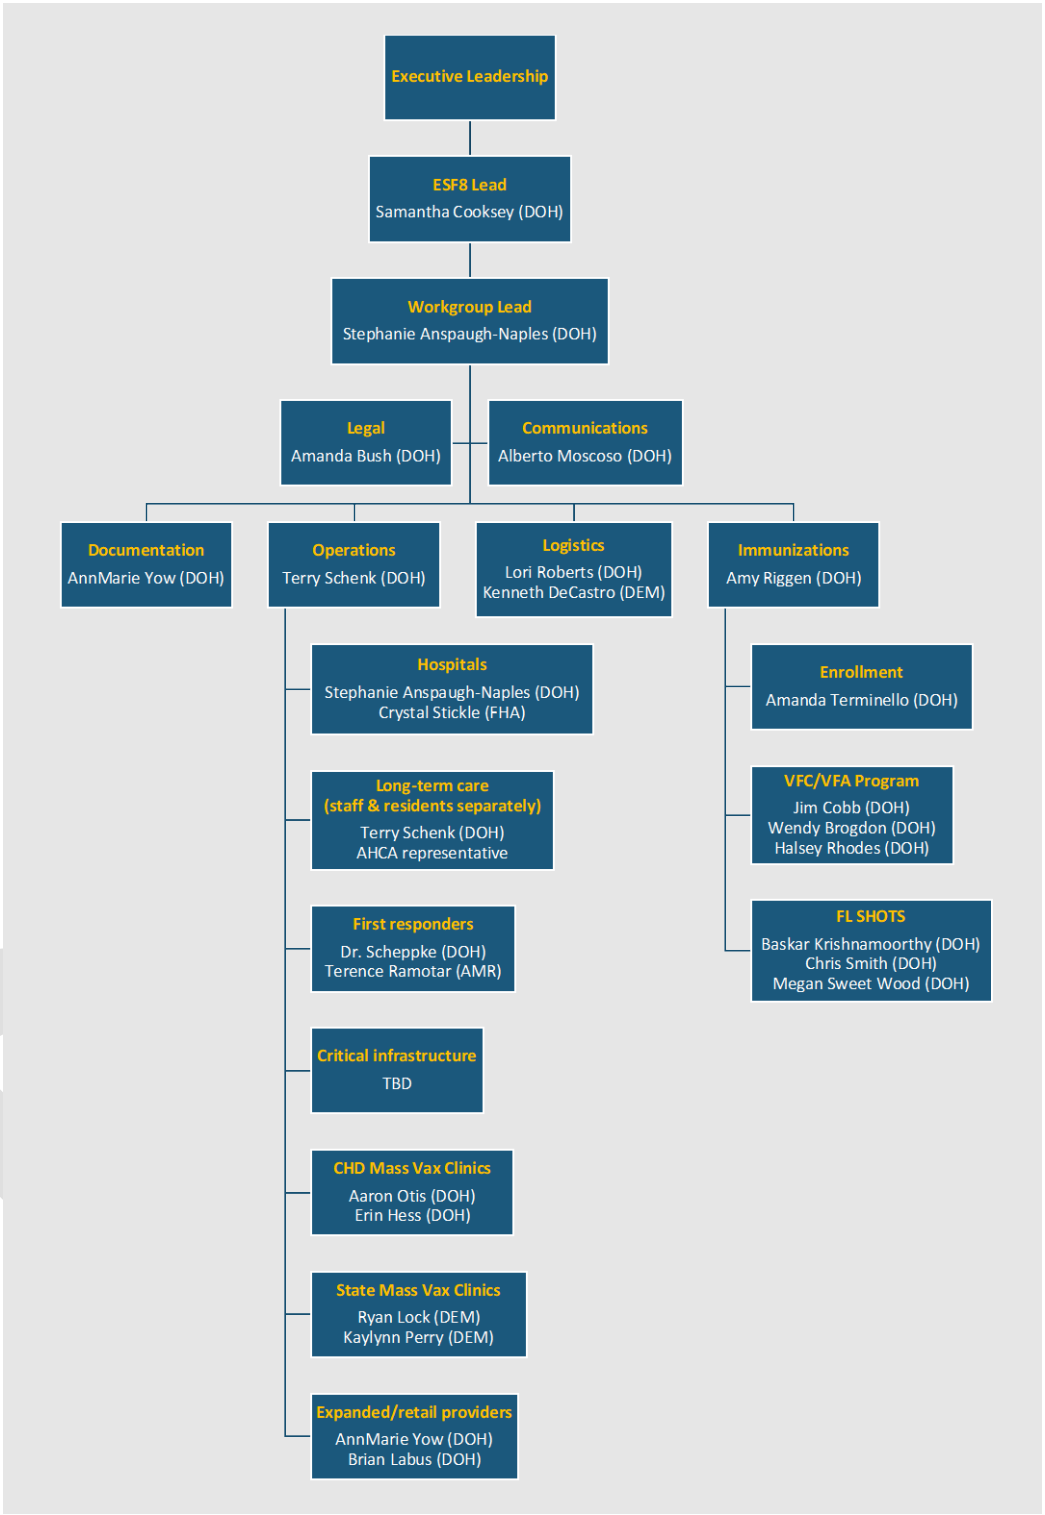
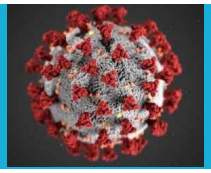


The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT



The organizational structure detailed on the previous page is the COVID-19 vaccination program planning and operational element for Florida. Leaders and personnel serving on this workgroup have been selected for their expertise in a number of health and medical disciplines, including medical countermeasures, medicine, immunizations, epidemiology, medical surge, EMS, incident management, communications, legal, regulation of health care facilities and county health department (CHD) operations and management.

1. Florida's state-level COVID-19 Vaccination Planning Workgroup was assembled through coordination of staff from the Department's Bureau of Preparedness and Response and the Immunization Section. Other staff were added to the group based on their subject matter expertise. Florida also has a CHD COVID-19 Vaccination Workgroup composed of CHD health officers, directors of nursing and preparedness staff from counties throughout the state, both urban and rural.
2. Each CHD has an incident management team focused on local implementation of statewide vaccine strategies.

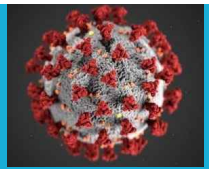
B. This goal has been accomplished through the development and use of the "organizational team." Department leaders are participating through the Executive Group and in "Command" and "General" staff leadership positions. Hospital associations, long-term care associations, personnel who work in everyday vaccination programs, Florida Agency for Health Care Administration personnel, medical directors, state emergency management personnel, the Department's Office of Communications personnel and a number of others representing various organizations are helping to formulate the strategy and are receiving updated information and key documents about the COVID-19 vaccination initiative.

C. The members of the Department's vaccination planning workgroup include:

- **Scott Rivkees, MD** – State Surgeon General
- **Shamarial Roberson, DrPH, MPH** – Deputy Secretary for Health
- **Carina Blackmore, DVM, PhD, Dipl. ACVPM** – State Epidemiologist, Director, Division of Disease Control and Health Protection
- **Samantha Cooksey** – State ESF8 Emergency Coordination Officer
- **Stephanie Anspaugh-Naples, MPH** – State Medical Countermeasure Coordinator
- **Amanda Bush** – Chief Legal Counsel, Administrative Practice Group
- **Alberto Moscoso, MA** – Communications Director
- **AnnMarie Yow** – Special Projects Coordinator
- **Terry Schenk, MS, CEM** – Medical Surge Response & Operations Coordination
- **Lori Roberts** – Logistics and Systems Manager
- **Amy Riggen, BSN, RN** – Immunizations Section Administrator
- **CDR Aaron Otis, MPH** – Public Health Advisor
- **Erin Hess, MNM** – Operations Consultant
- **Kenneth Scheppke, MD, FAEMS** – State EMS Medical Director
- **Terence Ramotar** – Director of Government Affairs, American Medical Response

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

DRAFT
AMERICA OVERSIGHT



- **Pete Gianas, MD** – Rural EMS Specialist
- **Lochlin Sturrock, MS, HSM** – Region IV Regional Medical Countermeasure Advisor, U.S. Department of Health and Human Services
- **Jeanne Eckes-Roper, RN, MBA** – Nurse Consultant/Region IV Regional Emergency Coordinator, U. S. Department of Health & Human Services
- **Ashley Davis, FPEM, CEM** – Operations, Florida Division of Emergency Management
- **Ryan Lock** – Planning, Florida Division of Emergency Management
- **Kenneth DeCastro** – Logistics, Florida Division of Emergency Management
- **Amanda Terminello, MPH, CPH** – Immunizations Enrollment Specialist
- **Jim Cobb** – Vaccines for Children Manager
- **Halsey Rhodes** – Senior Public Health Advisor
- **Wendy Brogdon** – Vaccines for Children Coordinator
- **Baskar Krishnamoorthy** – Florida SHOTS team
- **Chris Smith** – Florida SHOTS team
- **Megan Sweet Wood** – Florida SHOTS team
- **Nai Chen, PharmD** – Preparedness Pharmacist
- **Crystal Stickle, MS** – Florida Hospital Association
- **Brian Labus, JD** – Medical Quality Assurance
- **MAJ Melissa DeLeon** – Florida National Guard
- **Laura Rutledge, BSN, RN** – Nurse Consultant
- **Rita Smith, DNP, APRN, NP-C** – Statewide Nursing Director
- **Toby Philpot, JD** – Florida Healthcare Association
- **Molly McKinstry** – Agency for Health Care Administration
- **Laura MacLafferty** – Agency for Health Care Administration
- **Charlie Coyle, EMT-P** – Palm Beach County Fire/Rescue - EMS
- **Kimberly Smoak, MSH, QIDP** – Agency for Health Care Administration
- **Gail Matillo, MPA** – Florida Senior Living Association
- **Steve Bahmer** – Leading Age Florida
- **Veronica Catoe, LPN** – Florida Assisted Living Association
- **Melanie Motiska** – Florida Healthcare Association

D. The Department is a fully integrated health department with a centralized public health system. As established in section 20.43, Florida Statutes, the Department plans and administers its public health programs through its CHDs in each of the Florida's 67 counties. The Department's approach to COVID-19 vaccine planning focuses on a statewide strategy with local implementation. To implement this approach, the Department has taken several steps to ensure coordination between these various authorities.

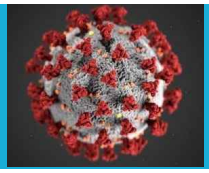
1) Bi-weekly planning conference calls are held with the organizational team. These calls include representatives from local, state and federal agencies.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

DRAFT

AMERICA OVERSIGHT

FL-DOH-21-0168-A-076987



2) Sub-groups in the organizational structure hold separate calls to deal with their areas of responsibility. As these calls have progressed, additional participants from various public and private agencies have been invited to participate and to provide input.

3) The workgroup briefs the CHD leadership to include the health officers, epidemiologists, directors of nursing, preparedness staff and immunization staff weekly during the CHD COVID-19 coordination call.

4) Members of the workgroup participate in appropriate medical association and CDC calls to gain additional information about the vaccination process and to provide input for decision making.

5) Another method being used is the deployment of surveys that are distributed to various organizations, such as hospitals, pharmacies, CHDs, and EMS organizations. Information gathered in the surveys will facilitate planning efforts.

E. Tribal communities are being integrated into planning through the Operations Section of the workgroup, in coordination with the Department's Office of Minority Health and Health Equity and other partners. The workgroup will engage the tribal communities on vaccine planning efforts.

F. The Department is engaging with a variety of internal and external partners regarding COVID-19 vaccine planning through both established public health partnerships and the State Emergency Operations Center, which is currently activated at a Level 1 in response to the COVID-19 pandemic. Activities related to specific target groups include:

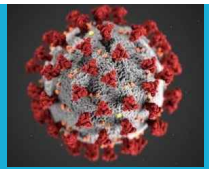
- ***Pharmacies:*** The Department is coordinating with pharmacies and pharmacists through multiple platforms. Statewide retail pharmacy partners are being engaged as potential vaccine administration partners through corporate infrastructure. Additionally, the state plans to support the federal initiative with pharmacies, that will, among other goals, establish clinics at long-term care facilities for vaccination delivery. Additionally, pharmacies will play a key role in the vaccination delivery to the general population in similar fashion to the way they provide annual flu vaccinations. The Department also issued Emergency Order 20-014, which allows pharmacists to vaccinate those in the pediatric age range and for U.S. Food and Drug Administration (FDA)-authorized COVID-19 vaccines during the time that a state of emergency is declared by the Governor of Florida.

- ***Correctional and detention facilities:*** There are several different types of correctional and detention facility entities in the state including the Florida Department of Corrections, private prisons and county jails. The Department will

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-076988



engage with these entities as well as the Florida Department of Juvenile Justice in vaccine planning efforts.

- ***Homeless shelters:*** CHDs across the state are engaged with homeless shelters in their communities and will facilitate vaccine delivery to this population. The Department will work with various partners to engage this population.
- ***Community-based organizations:*** Much of the vaccination delivery strategy centers on the use of CHDs to coordinate community vaccination activities. This approach is facilitated through good working relationships with the various community-based organizations in their jurisdictional area. Multiple options are being considered including CHD clinics, EMS delivery and walk-up/drive thru stations.
- ***Long-term care facilities:*** As mentioned previously in the "Pharmacies" portion of this plan, a federal strategy will, most likely, be used for vaccination delivery to long-term care facility residents, which includes various types (assisted living facilities, skilled nursing facilities, independent living facilities, home health care, disability centers, etc.), both large and small, in both urban and rural areas. Delivery of vaccinations to long-term care facility staff may be accomplished through local CHD initiatives, which may include delivery through EMS agencies, walk-up/drive thru stations CHD clinics, or other delivery methods.
- ***Public safety agencies****:* Public safety personnel for COVID-19 vaccination. As such, plans are being developed to use EMS personnel for vaccination delivery. Another strategy is using drive-thru vaccination stations similar to those established for COVID-19 testing. As a critical provider group, most public safety personnel may receive vaccinations through such initiatives, which will be established locally.
- ***Hospitals****:* Hospital staff and resident vaccination may be handled at hospital facilities, utilizing personnel from the enrolled hospital. In smaller and/or more rural hospitals, the local CHD will work with partners on vaccination delivery options in their community. Another option being considered for smaller or rural hospitals is the use of a larger hospital serving as a hub that can then assist them in vaccine storage and vaccination delivery. Hospitals that can provide ultra-cold (-60 to -80°C) storage will also be identified.

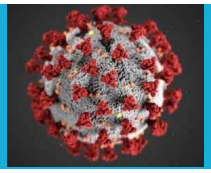
AMERICA OVERSIGHT

FL-DOH-21-0168-A-076989



Section 3: Phased Approach to COVID-19 Vaccination

A. The goal of the Florida COVID-19 Vaccination Plan is to develop and update, as needed, a plan for vaccinations as guidance is provided by the CDC. Prioritization of vaccine recipients is not yet determined by the CDC. Priority groups may vary based on the vaccine that is ultimately approved, vaccine availability and the groups it is authorized for. Based upon current federal guidance, it is expected that initial priority groups will include:

a. Health care personnel
b. Essential workers
c. Persons with medical conditions that place them at high-risk for COVID-19 complications.
d. Older adults (≥65 years of age)

B. Achieving this goal will require partnerships between the Department, health care providers, health systems and other partners. The Department will work with partners to coordinate vaccination efforts in Florida.

C. Florida will implement a phased vaccine administration strategy over the various phases outlined by the CDC's *COVID-19 Vaccination Program Interim Playbook for Jurisdiction Operations*. Initially, vaccine may be provided through a closed point of dispensing (POD)[1] model targeting priority groups. Pro-rata allocations will be made to vaccine administration sites that can adequately store, manage and administer the vaccine. The sites will be responsible for vaccinating individuals within the established priority groups as instructed by the CDC.

D. The following graphic depicts a time-phased vaccination strategy.

DRAFT

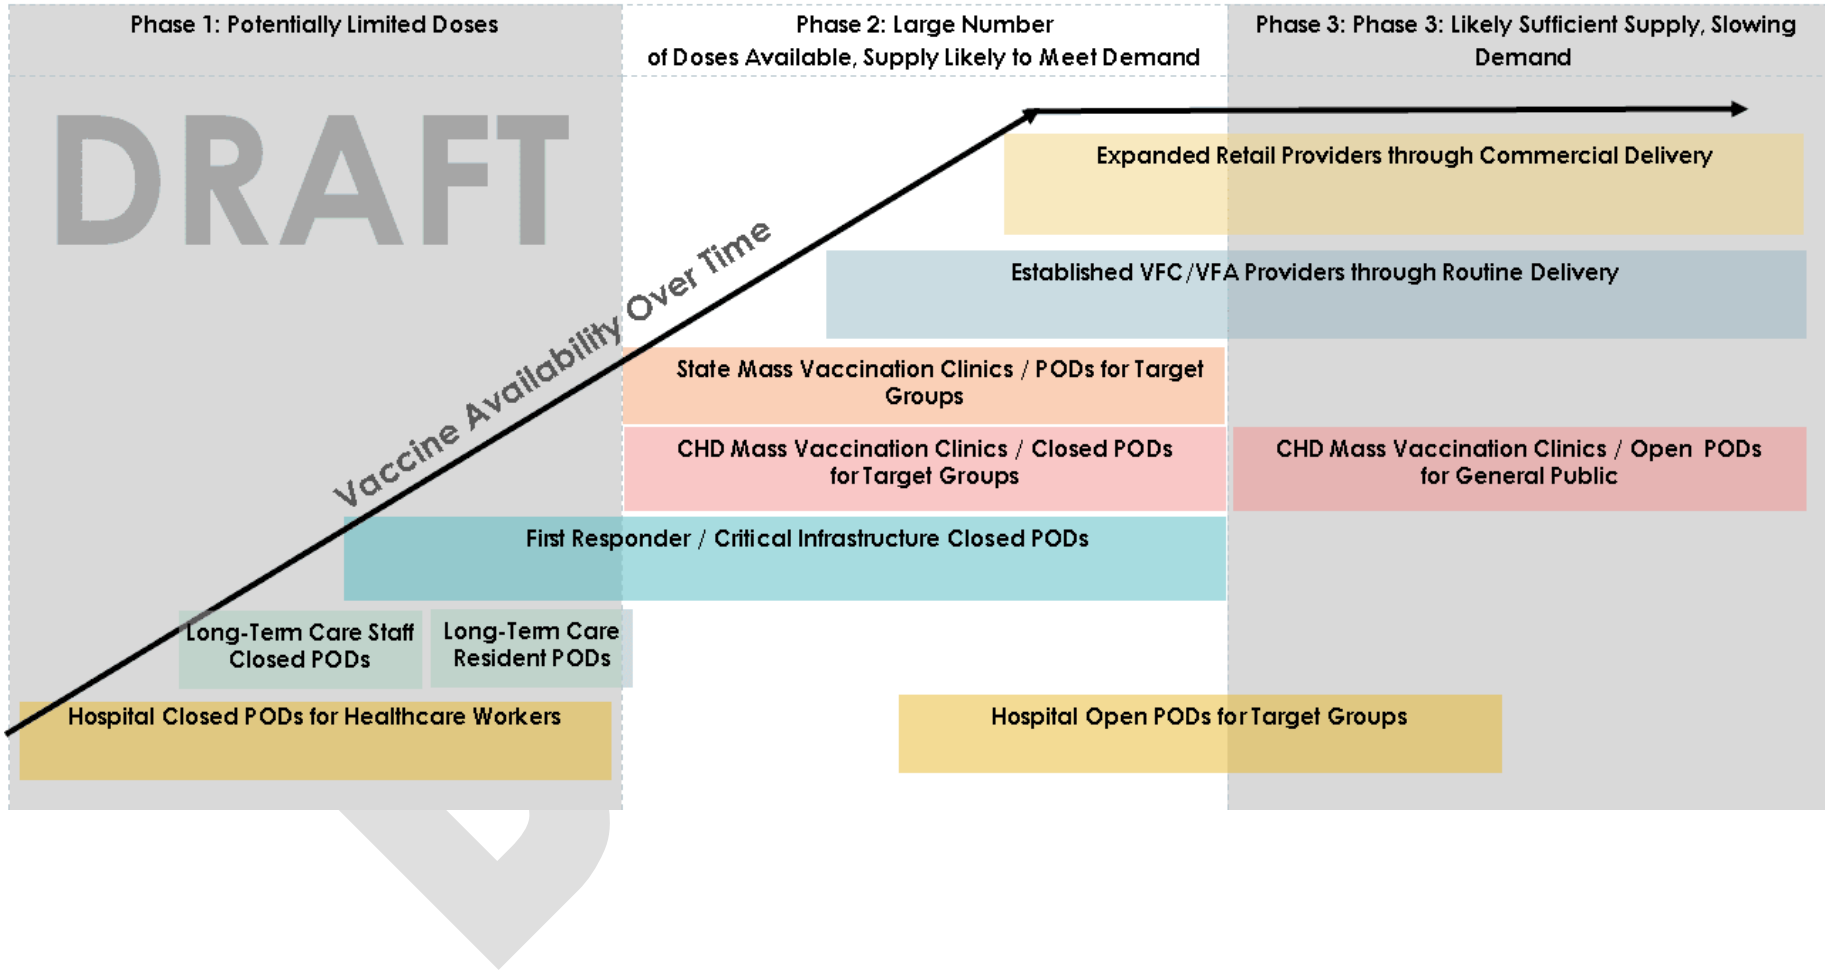
[1] The term POD and mass vaccination clinics are synonymous for purposes of this plan. Closed PODs are sites where vaccinations will be delivered to a specific target group within that organization or facility. Open PODs are sites where vaccinations are available to everyone.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-076990

Figure 2. COVID-19 Time-Phased Vaccination Strategy



AMERICAN OVERSIGHT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

Phase 1: Potentially Limited Dose Availability

In Phase 1, a projected limited supply of vaccine would require the state to provide vaccine in a prioritized manner and ensure that doses allocated to Florida be distributed to facilities that meet storage and data entry requirements. As additional vaccine becomes available, administration will expand to other priority groups in closed point of dispensing (POD) settings as directed by the CDC. During this phase, vaccine will be administered in the following settings:

a. **Hospital Closed PODs**: The Department will implement strategies to provide vaccines to hospitals based on guidance from the CDC to ensure efficiency in an effort to prevent vaccine waste. A survey is being conducted amongst Florida's hospitals to determine capacity as it relates to potential COVID-19 vaccine efforts. This potential setting will be provided vaccines based on guidance from the CDC. Prioritization of populations related to hospitals will be based on guidance from federal partners.

b. **Long-Term Care Staff and Resident PODs**: In this group employees of long-term care facilities including nursing homes, assisted living facilities and intermediate care facilities for the developmentally disabled may be vaccinated based on guidance. This may be accomplished through a multiple vaccine delivery approach which includes 1) partnership in federal initiatives to utilize retail pharmacies to vaccinate long-term care facilities, 2) CHD closed PODs for long-term care facilities and 3) distribution of vaccine to nursing homes and assisted living facilities capable of performing vaccinations of their employees. Staff and residents may be vaccinated at different times based on any applicable age restrictions of approved vaccines.

c. **First Responder and Critical Infrastructure Closed PODs**: PODs may be designed to vaccinate first responders, law enforcement officers and essential employees. These PODs can be conducted in a variety of methods including using EMS to assist in administration of first responder communities, CHDs administering vaccine to targeted groups and closed POD partners vaccinating their employees and staff using their resources.

Phase 2: Large Number of Doses Available, Supply Likely to Meet Demand

As more vaccine becomes available, traditional VFC and VFA providers, including pediatricians, primary care providers and pharmacies will receive doses. It is likely that in this phase, the CHDs will open Public Mass Vaccination Clinics, and the Department and/or Florida's Division of Emergency Management might open such clinics to ensure there is equitable distribution of the vaccine, in the same way COVID-19 testing was made available.

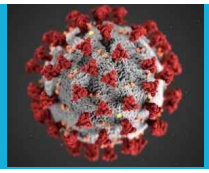
Some vaccine administration methods from Phase 1 will be continued and new administration sites will be added to include:

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

DRAFT

FL-DOH-21-0168-A-076992



a. **State Managed Vaccination Sites**: These sites could operate similarly to local mass vaccination sites to supplement vaccination efforts and to increase capacity in community-based settings.

b. **Established Vaccines for Children and/or Vaccines for Adult Providers**: Under this method, vaccine will be delivered in routine health care delivery settings. This type of administration will be contingent upon smaller dosed vials that allows clinics to vaccinate in routine patient care settings. Additional VFC and VFA providers will be actively recruited for expanded capability, including Florida's Federally Qualified Health Centers (FQHCs).

c. **Hospital Open PODs**: In this group, select hospital partners willing and able to serve as broader vaccine partners will begin expansion of vaccine to both in-patients and out-patients who seek care in their emergency departments, urgent care centers and out-patient settings.

d. **CHD Public Mass Vaccination Clinics**: These will be community-based vaccination sites lead by the local CHDs to vaccinate in large scale volume. CHDs will screen people who seek vaccination and limit administration to established priority groups at that time. Since COVID-19 has had a disproportional impact on minority groups, minority populations will also be a focus of these efforts.

Phase 3: Likely Sufficient Supply, Slowing Demand

Once the vaccine is widely available and demand for the vaccine stabilizes, the state will transition to providing the vaccine through routine health care delivery systems, including commercial pharmacies. CHDs will continue to offer vaccine clinics that are open to all members of the public as needed to meet vaccination goals.

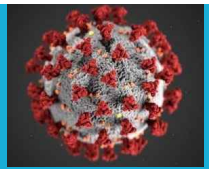
FL-DOH-21-0168-A-076993



Section 4: Critical Populations

A. Florida has a well-integrated public health and emergency management system that allows the state to identify at-risk populations and personnel across multiple disciplines, provide robust geographic information system (GIS) mapping capabilities and communicate with persons from various disciplines through an integrated emergency management structure. This structure includes public health, health care, first responders, law enforcement, essential businesses, critical infrastructure and more. The Department will leverage partner agencies to assist in the identification, messaging and coordination among these different groups.

Additionally, the Department has a robust data management system for mapping and quantifying populations through FLHealthCHARTS. This data system allows the Department to determine numbers of persons by age, race, health conditions, social vulnerability and other demographics at the county level. These data assist in the targeting of messaging and outreach activities to specific targeted groups.

Methods for identifying, estimating and locating specific critical populations are as follows:

1) ***Health care personnel:*** Florida has multiple methods of identifying, estimating and locating numbers of health care professionals in Florida.

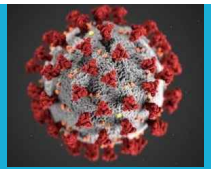
   i. The Department licenses health care professionals in Florida and has direct access to quantities, contact information and locations of licensed health care providers in Florida through the licensure database. This database is routinely used to communicate messages to health care providers and will be used to communicate vaccine information to health care providers. This database can be found at: https://mqa-internet.doh.state.fl.us/MQASearchServices/HealthCareProviders.
   ii. Florida's Agency for Health Care Administration maintains the Emergency Status System (ESS) database to collect various data points related to emergency situations. Vaccine data points will be integrated into the system as needed to collect data. Hospital facilities are required to report into this system. It can be used to report real-time numbers of employees in both direct patient care and support roles at any time.
   iii. The Department has conducted a survey of hospitals and hospital systems in Florida to determine the number of health care providers within their hospital systems to estimate the number of employees who they expect to be vaccinated.
   iv. The Florida Hospital Association produces a Hospital Economic Impact report that reports numbers of health care workers employed by Florida

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

DRAFT

FL-DOH-21-0168-A-076994



hospitals. The data in this report provide estimates of direct patient care employees and support staff within each county of Florida.

v. Through the Department's Division of Medical Quality Assurance, the state can identify all licensed health care providers in the state, as well.

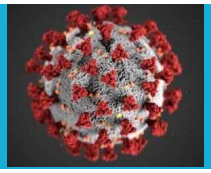
FL-DOH-21-0168-A-076997



The Florida Department of Economic Opportunity's Bureau of Workforce Statistics and Economic Research administers the Quarterly Census of Employment and Wages (QCEW) program for the state. The QCEW program produces detailed employment counts by industry and geography. The QCEW program count covers about 98 percent of all U.S. jobs. Detailed quarterly and annual employment levels and wages by industry sector can be found at: http://www.floridajobs.org/economic-data/quarterly-census-of-employment-and-wages-(qcew)/data-search

Additionally, CHDs are identifying these critical populations within their local jurisdictions.

3) ***Long-term care facility residents and staff:*** Florida's Agency for Health Care Administration maintains the ESS database to collect various data points related to emergency situations. Vaccine data points will be integrated into the system as needed to collect data. Long-term care facilities are required to report into this system.

The table below shows long-term care facility residents and staff data, as of September 2020. These reports can be updated at any time for planning estimates. These data are integrated into a GIS mapping system for geographic display of data.

Table 2. Long-Term Care Facilities Residents and Staff, September 2020

Provider Type	Total Number of Licensed Facilities in ESS Event	Licensed Beds	Resident Census	Total Employees
AFCH	300	1,386	890	487
ALF	3,107	110,278	75,614	79,657
CSU	51	1,225	915	8,137
HOSPICE	61	1,045	473	3,900
HSS	1	10	8	17
ICF	99	2,782	2,384	6,983

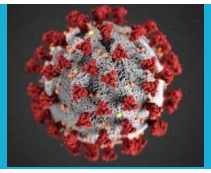
RTC	30	635	469	1,438
RTF	118	2,422	1,636	5,306
STRTF	4	95	55	128
TLF	14	316	175	870
Grand Total	**4,480**	**204,978**	**145,563**	**222,541**

(Key: AFCH = Adult family care center; ALF = Assisted living facility; CSU = Crisis stabilization unit ; HSS = Homes for special services; ICF = Intermediate care facility for the developmentally disabled; NH = Nursing home; RTC = Residential treatment center for children and adolescents; RTF = Residential treatment facility; STRTF = Short-term residential treatment facility; TLF = Transitional living facility.)

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-076998



4) ***People with underlying medical conditions who are at-risk of severe COVID-19 illness:*** The Department will utilize the health care licensure databases maintained within the Department to communicate directly with physicians, nurse practitioners and physician extenders regarding information and resources to vaccinate patients with underlying medical conditions for COVID-19. Additionally, the Department has existing programs for chronic disease prevention through the Division of Community Health Promotion and Office of Minority Health and Health Equity, which maintain relationships with national and statewide associations for persons with underlying health conditions and data regarding heart disease, diabetes and other health conditions. These data are mapped in FLHealthCHARTS (http://www.flhealthcharts.com/charts/default.aspx), and at-risk populations can be identified.

5) ***People 65 years of age and older:*** The Department works closely with the Florida Department of Elder Affairs to identify and communicate on issues that affect Florida's older adult population. The Florida Department of Elder Affairs has a robust data system, the Elder Needs Index (ENI) Tool (http://elderaffairs.org/doea/eni_home.php), to assist with planning for issues that affect the aging population. The ENI includes a five-map package, each scaled at the census tract, presenting population data to include:

   i. **ENI Map**: Depicts the percentage of the older adult population in each census tract who are in one of four risk groups: age 85 and older, minority, disability or poverty.
   ii. **Age Factor Map:** Depicts the percentage of the age 60 and older population who are age 85 and older.
   iii. **Minority Factor Map**: Depicts the percentage of the age 55 and older population who are members of racial or ethnic minority groups.
   iv. **Disability Factor Map:** Depicts the percentage of the age 65 and older population with one or more disability.
   v. **Poverty Factor Map:** Depicts the percentage of the age 55 and older population living below 125 percent of the Federal Poverty Level.

(Source: U.S. Census Bureau, State Population Characteristics: 2010-2019, https://www.census.gov/data/tables/time-series/demo/popest/2010s-state-detail.html)

6) ***People from racial and ethnic minority groups:*** The Department's Office of Minority Health and Health Equity has been engaged in vaccination planning and existing networks and data will be utilized to inform these efforts. Social vulnerability indexes are available in GIS platforms and communities with health disparities have been identified. There are testing sites for COVID-19 in neighborhoods with predominantly minority populations in many areas of the state that can be leveraged for vaccine administration and messaging. Additionally, the Department will leverage community partners, community health workers and health educators to identify, estimate and provide outreach to ensure health equity efforts.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

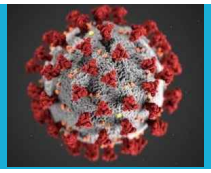
7) ***People from tribal communities:*** Florida is home to two federally recognized tribes: the Seminole Tribe of Florida (Seminole Tribe) and Miccosukee Tribe of Indians of Florida (Miccosukee Tribe). There are multiple health centers on Seminole reservation lands and two of those facilities are enrolled VFC and VFA providers. The Department will contact the Seminole Tribe regarding enrollment for the COVID-19 vaccination effort and will coordinate with the Miccosukee Tribe for COVID-19 vaccine planning efforts. There are also American Indians from other non-federally recognized tribes who live in Florida. The Department will work with the South East American Indian Council on COVID-19 planning efforts as it relates to non-federally recognized tribal communities in Florida. The CHDs will engage with tribal communities for local planning efforts. Please also see Table 13. Tribal Engagement Tool in the Appendix.

8) ***People housed in correctional and detention facilities:*** The Department will work with the Florida Department of Corrections and other partners to identify

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077001



populations and locations of people who are housed in correctional and detention facilities. The Department has existing partnerships with these entities as it relates to COVID-19 testing and epidemiological investigations.

Additionally, the Department has worked closely with local jails during the previous 18 months as a part of the Department's hepatitis A vaccination effort. Most local jails in Florida are enrolled as vaccine providers. CHDs will continue to work with local jails as it relates to vaccine planning efforts.

Table 4. Summary of Florida State Correctional Facilities, 2018-2019 Annual Report

Facility	Total	Male	Female	Population on June 30, 2019	Percentage of Population
Correctional Institutions	50	46	4	56,572	59.2%
Private Correctional Facilities	7	6	1	9,782	10.2%

9) ***People attending colleges/universities:*** The Florida Board of Governors has an established planning body for COVID-19 that is being utilized to identify, estimate and locate university populations. Additional partnerships will continue as it relates to other colleges and universities for vaccine planning.

10) ***People with disabilities:*** The Department will work with its Disability and Health Program and other state agencies, such as the Agency for Persons with Disabilities, and community partners to be inclusive of persons with disabilities as it relates to COVID-19 vaccination planning efforts. Florida maintains a Statewide Special Needs Registry that allows residents to self-register regarding disabilities and needs during times of emergencies. These data can be utilized to identify persons with disabilities locally. Additionally, the Department has established relationships with Centers for Independent Living that will be utilized to identify this population within local communities. Please see Table 14 in the Appendix for a county-by-county breakdown.

Table 7. Prevalence of People with and without Disabilities for Florida, 2018

Population	Total Number, Estimated	Disability		No Disability	
		Total Number, Estimated	Percentage, Estimated	Total Number, Estimated	Percentage, Estimated

11) ***People who are underinsured or uninsured:*** The Department's Immunization Section currently has 113 FQHCs enrolled as VFA providers and 174 enrolled as VFC providers. Under these programs, the Immunization Section provides childhood and adult vaccines to these facilities to vaccinate the uninsured and the underinsured. These partners, along with our CHDs, provide capacity in this space. These facilities will have the ability to offer COVID-19 vaccination at the appropriate phase of the response. The Immunization Section will seek the assistance of the Florida Association of Community Health Centers with the recruitment of additional vaccine providers. Please see Table 15 in the Appendix for a county-by-county breakdown.

AMERICA OVERSIGHT

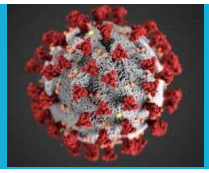
FL-DOH-21-0168-A-077005



Section 5: COVID-19 Provider Recruitment and Enrollment

A. Provider recruitment for the COVID-19 vaccination effort officially began on Monday, October 5, when Florida SHOTS became fully functional for COVID-19 enrollment. Targeted outreach to hospitals has begun. Other providers will also be permitted to complete their COVID-19 enrollment; however, initial emphasis will be placed on hospitals. Long-term care facilities, pharmacies and EMS providers will also be prioritized as they are also target groups in Phase 1, according to the most up-to-date guidance documents available. Florida SHOTS allows for providers to be designated into identified tiers so critical partners can be prioritized to receive vaccine, especially while vaccine is scarcely available.

B. Each enrollment step validates the provider's medical license information, and there are restrictions on license types built into Florida SHOTS and for VFC to identify vaccinators. Providers are enrolled if they fall into that license category. The Department's Immunizations Section created an enrollment internal process flow chart that details these steps, and this document is included in the Appendix.

C. Planning efforts for Phase 1 have focused on the critical populations identified in draft guidance documents as well as locations that can accommodate the time and dosing requirements laid out in the CDC Planning Scenarios. The initial facilities that have been identified as meeting both requirements are hospitals, as most have a large staff and some level of capacity for ultra-cold storage. Once additional federal guidance is received, further prioritization decisions will be made.

D. Florida is awaiting direction from CDC, as provider profile information will not be sent to vaccine tracking system (VTrckS) via provider master information. Separate extraction requirements will be needed to send the additional section B information.

E. Provider credentialing/license verification is built into the enrollment process in Florida SHOTS through an automated license check (on the back end). The Florida SHOTS help desk team can also click a button in the system to validate. When a provider makes a change, Florida SHOTS automatically checks the license. The validation is done at the provider/enrollee level, not the individual level of the person who administered the vaccine.

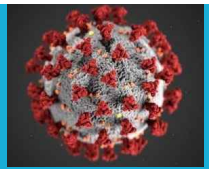
F. Florida is waiting for additional guidance and/or materials from CDC regarding COVID-19 specific training materials. The Florida SHOTS website provides links to live and recorded webinars on various topics (Florida SHOTS functionality, VFC, data reporting, storage and handling, etc.), which can be tracked by contracted training staff and reports can be provided as requested.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

DRAFT

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077006



G. Redistribution of vaccine may be authorized on a case-by-case basis. Standard policies and processes with regard to redistribution (transfer) of vaccines will be followed throughout the response. Currently, Florida SHOTS has inventory transfer capability, which can be tracked and documented within Florida SHOTS.

H. Florida is working on a variety of options to offer vaccines to the population. GIS mapping of provider locations is being used to identify areas where there is a need to enroll additional providers. Florida's FQHCs are already enrolled as vaccine providers and they are key partners in ensuring access for vulnerable populations.

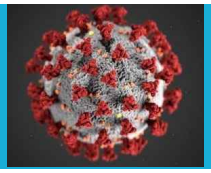
I. The Department will engage pharmacies via direct communication. In Florida, the Department licenses all pharmacies and those that are in a renewable license status have been identified and will be surveyed to gauge their interest in participating in the vaccination program. Additionally, the licensed pharmacies are being reviewed for their current enrollment status in Florida SHOTS. An analysis will be completed to see the location of all pharmacies interested in the vaccination program and those already enrolled in Florida SHOTS with the intent to assess gaps in vaccination coverage for all populations. If there are areas uncovered by a pharmacy, the Department will provide direct communication to pharmacies in those uncovered areas to encourage them to enroll. Overall, these pharmacies will be provided direct communication from the Department on how to enroll in the immunization program and how to order vaccine once available.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077007



Section 6: COVID-19 Vaccine Administration Capacity

A. Vaccine administration capacity is being estimated through targeted surveys sent out to key partners. The first survey was sent to hospitals and asks about their facility's vaccine storage capacity (refrigerated, frozen and ultra-cold), as well as their capacity to vaccinate. Similar surveys are being developed for pharmacies and EMS providers and ask about storage and vaccination capacity. A survey for CHDs is under development to understand their capacities for storage and vaccination.

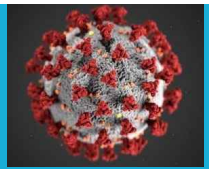
B. The information gathered in the surveys will be used to enhance planning efforts and target specific providers to enroll or complete any other necessary steps. Hospitals with the greatest capacity for both vaccine storage and vaccination will likely be the initial providers to receive vaccine, especially if the first vaccine authorized/approved is ultra-cold and/or a high number of doses per vial that must be used in a short time frame.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077008



Section 7: COVID-19 Vaccine Allocation, Ordering, Distribution and Inventory Management

A. Forthcoming recommendations from the Advisory Committee on Immunization Practices (ACIP) and the CDC will be used to guide decisions on the use of initially available COVID-19 vaccines. Based upon draft guidance currently available, populations for initial COVID-19 vaccination may include: health care personnel likely to be exposed to or treat people with COVID-19; those at higher risk for severe illness from COVID-19, including those with underlying medical conditions; and other essential workers.

B. Adherence to cold chain requirements will be required of providers for refrigerated and frozen vaccines. In Phases 2 and 3, providers will be asked to use a continuous data vaccine temperature monitoring system and submit their temperature log data before their requests for vaccine will be approved.

C. Florida SHOTS has a built-in allocation process that is used for ordering flu vaccine and it can be adjusted for COVID-19 requirements, once available. As an external information system (ExIS) grantee, Florida has been uploading provider profile information into VTrckS on a daily basis and will continue to use that feature for updating COVID-19 provider information in VTrckS.

D. Unplanned repositioning of COVID-19 vaccine will be discouraged. In the event it will need to occur, providers will require approval and decisions to be made on a case-by-case basis. Providers will be required to notify the VFC program prior to any unplanned repositioning of vaccine. Providers will need to verify that protocols are adhered to in terms of physical transport of vaccine, cold chain requirements and valid temperatures at the other location before the repositioning occurs. Providers will confirm that the receiving site has agreed to receiving vaccines and has sufficient storage and handling capacity. Providers will be required to immediately document inventory visibility in Florida SHOTS using the vaccine transfer form. Detailed procedures are included in the VFC Provider Handbook (See Appendix). For COVID-19 vaccine, the required redistribution agreement will also be signed.

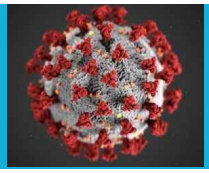
E. Florida SHOTS has the functionality to capture wastage and providers are asked to document wastage daily. Further guidance will be needed related to reporting waste for providers that will utilize the Vaccine Administration Management System (VAMS).

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077009



Section 8: COVID-19 Vaccine Storage and Handling

A. Vaccine storage and handling procedures will abide by guidance in the CDC VFC Storage and Handling Toolkit. Further guidance related to storage and handling of an ultra-cold chain vaccine will be necessary as it becomes available. Temperature reports from providers will be checked prior to order requests being approved or allocations sent. Providers must upload temperature reports weekly into Florida SHOTS and immediately notify the VFC help desk of any excursions.

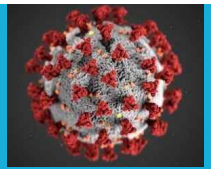
B. Providers are required to upload temperature reports into Florida SHOTS weekly and this will remain true for COVID-19 vaccine providers. There are currently no plans to establish depot sites as vaccines may be shipped directly to enrolled providers. Provider storage and temperature monitoring capabilities will be assessed during the enrollment process.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077010



Section 9: COVID-19 Vaccine Administration Documentation and Reporting

A. Florida will be using the existing IIS, Florida SHOTS. Currently, there are three options for providers to enter doses administered data:

i. Interactively by logging into the application
ii. By use of real-time web services
iii. By data batch file upload

In addition, the team is exploring options to use immunization (IZ) Gateway (if approved) to obtain data from any providers that will be using VAMS.

B. The Florida SHOTS team is testing the connectivity between the IZ Gateway and Florida's IIS. A connection for IZ Gateway to communicate with Florida SHOTS has been set up and it is currently under testing. The team is seeking legal approval to be able to use IZ Gateway to send vaccine administration data to CDC and they also anticipate CDC specifications on how to use IZ Gateway to send vaccine administration data.

C. During order processing, inventory verification is conducted. When a provider places an order request, there is a feedback process to look at data submitted by the provider to make sure the requirements are met. These requirements are discussed during the regular onboarding process. Once the providers are set up, they work with the implementation specialists to test connectivity and report data. They work together to ensure that the submission contains required data elements. The implementation specialists then promote the connection to production and monitor to ensure the providers are sending correct information. Implementation specialists train providers to review the log report via virtual trainings and other training materials. Providers need to acknowledge training receipt on Florida SHOTS.

D. Florida SHOTS is a web-based application that can be accessed through the Chrome, Firefox and Edge Internet browsers on laptops or tablets. Florida SHOTS has also been enhanced to use 2D barcodes on driver licenses/identification cards and vaccines for the purpose of rapid data entry.

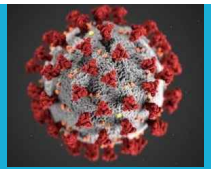
E. Reports can be run that present areas with missing data and vaccine orders will not be approved or shipped to these sites until the issues have been addressed. The IIS can also run a report that shows what was shipped to them and what was reported on. If necessary, additional fields can be added that are specific to the COVID-19 vaccine efforts. As it stands now, a pink box appears that shows when there are missing data. A data quality report exists that reports on the quality of data which the provider sends to the Department. Implementation specialists frequently look at those reports to monitor the providers that have been onboarded.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

DRAFT

FL-DOH-21-0168-A-077011



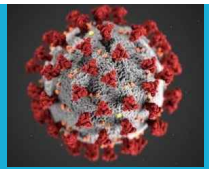
F. Existing county-based coverage reports are run on a regular basis and they can be tailored for COVID-19 vaccination efforts. Individual providers can run their own reports as well.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077012



Section 10: COVID-19 Vaccination Second-Dose Reminders

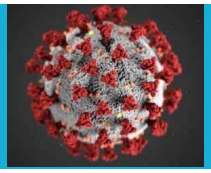
A. Florida SHOTS currently has reminder-recall functionality available for providers to recall their patient population and this functionality is being enhanced to include COVID-19 vaccines. Provider-generated recall files have phone numbers, physical addresses and email addresses and providers can choose which method they want to use to recall their patients. Reminder-recalls can also be run at the statewide level. The Immunizations Section is exploring options for text message, post card and/or email reminders. Paper vaccination cards that will be included in ancillary kit shipments will also be used. The Florida SHOTS team can develop a vaccination card modeled after the paper format for providers to be able to print their own cards in later phases, if needed.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICAN OVERSIGHT

FL-DOH-21-0168-A-077013



Section 11: COVID-19 Requirements for IISs or Other External Systems

A. The IIS will have a spreadsheet template for providers to capture vaccine administration data at mass vaccination sites when there is no solid network connectivity. In addition, a rapid data entry page is being designed so they can capture the patient and vaccination details. These functionalities will be available in the IIS by early December 2020.

B. The IIS currently captures the CDC recommended data elements:

1. Race can be captured, but ethnicity is only captured from records coming from vital statistics. If ethnicity will be a required data element, more guidance will be needed.
2. If risk indication codes are supplied by CDSI, chronic medical conditions can be captured.
3. Guidance is needed from CDC HL7 workgroup on how occupation and membership values will be transmitted to the IIS.
4. One data element, provider person, is not accepted because that provider person might not be in the system. As long as the person is listed and they use interactivity, they can use provider person. If they use upload, the provider person is not captured in the system.

C. The server infrastructure is being upgraded to include more capacity and higher performance, including increased transactions. The net result should improve the Department's ability to respond to COVID-19. The migration of production environment is estimated to be complete by the end of the 2020 calendar year.

D. Currently, 274 out of the 314 hospitals in Florida are enrolled in Florida SHOTS. The workgroup's current activities include enrolling the remaining hospitals and enhancing the help desk with additional staff and enrollment specialists.

E. IZ Gateway Connect is being reviewed by legal counsel. At this time, no determination has been made concerning the use of the Share component.

F. The Data Use Agreement with the Association of Public Health Libraries is under review by Department legal counsel whereas the other two documents have not yet been reviewed by legal counsel.

G. IIS will have a spreadsheet template for providers to capture data when Internet connectivity is unavailable.

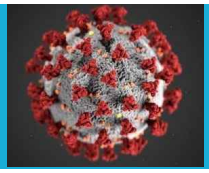
H. Reports can be run that present areas with missing data and vaccine orders will not be approved or shipped to these sites until the issues have been addressed. The IIS can also run a report that shows what was shipped to them and what was reported on. If necessary,

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICAN OVERSIGHT

DRAFT

FL-DOH-21-0168-A-077014



additional fields can be added that are specific to the COVID-19 vaccine efforts. Currently, a pink box appears that shows when there are missing data. A data quality report already exists that reports on the quality of data which the provider sends to the Department. Implementation specialists frequently look at those reports to monitor the providers that have been onboarded.

Section 12: COVID-19 Vaccination Program Communication

A. The Department's Immunizations Section has communication channels with providers that can be utilized. Information for providers on how to enroll in the COVID-19 vaccination program will also be posted on the Department's website as well as within Florida SHOTS. Messages will be channeled through the Department's Office of Communications.

B. Per the Department Crisis and Emergency Risk Communications (CERC) Annex to the Emergency Operations Plan (EOP), the following tasks should be accomplished:

1. State Surgeon General (SSG)

- **a.** Activates this Annex to the Department EOP whenever a threat or incident has the potential to exceed the capability of the Department's day-to-day mechanisms to communicate with target audiences.
- **b.** Reviews/approves critical public health messages, prior to dissemination.
- **c.** Serves as lead state public health spokesperson during a public health emergency.
- **d.** Ensures crisis and risk communications activities are coordinated with the Office of the Governor, and other key partners external to the Department.

2. Office of Communications (OOC)

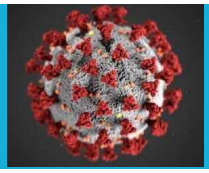
- **a.** OOC Director/Department Public Information Officer (PIO)
  - ***i.*** Serves as primary communications liaison with the Governor's Communications Director, ensuring that the Office of the Governor (and/or Governor's Communications Office) is updated as requested by the State Surgeon General and the Department Executive Management Team (EMT).
  - ***ii.*** Serves as the liaison with other state agency communications directors, including the Florida Department of Economic Opportunity, and the Florida Division of Emergency Management.
  - ***iii.*** Works with other members of the Department EMT and the response Incident Management Team (IMT) – Logistics – Staffing Unit to designate additional Department communication professionals to assist in managing state CERC-related activities during the activation.
  - ***iv.*** Identifies and briefs all incident-specific spokesperson(s) of record. Provides list of designated spokespersons to Department and incident management leadership, as appropriate.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077016



v. Serves as the only official source of incident-related information that is released to Department employees.

1. Works with the Department EMT to determine messages for the Department employee information line (a.k.a. Department status report hotline), when appropriate.

2. Coordinates proactive release of incident-specific Department bulletins to all employees, as appropriate.

vi. Ensures designated communications professionals receive timely and concise incident information, including:

1. Talking points

2. News briefs or statements

vii. Provides communications staff to work in the Emergency Support Function 14 (ESF14 – External Affairs) and/or other Joint Information Center/Joint Information System (JIC/JIS), when activated.

viii. Ensures any predeveloped and preapproved CERC materials are evaluated within three days of plan activation for potential edits/use in current incident.

ix. Monitors efforts of designated communication professionals activated to assist with CERC activities (duties noted below).

b. Department Press Secretary

i. Supports OOC CERC efforts by coordinating media-related activities, including:

1. Ensuring incident-related media coverage is monitored and status reports are shared with the SSG and Department EMT, the Department's Bureau of Preparedness and Response and CHD Public Information Officers, as well as ESF8 (Health and Medical) and ESF14, if activated.

2. Ensuring that detailed news releases are released only after approval by the SSG or his/her designee.

c. OOC Communication Specialists

i. During CERC activations, the OOC utilizes additional staff to complete CERC-related activities.

ii. These staff may be within the OOC, or from other preparedness funded Department units.

iii. Assist OOC by monitoring and completing assigned CERC tasks, as directed.

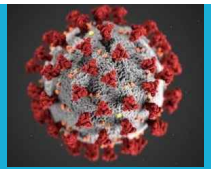
1. Attachment I.3 of the CERC plan contains a sample of an Information Management Branch (IMB) status board, which contains the following five spreadsheets:

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

DRAFT

FL-DOH-21-0168-A-077017



task list, staffing list, message board (key messages in progress), disseminated messages and status of speaker requests

iv. Monitor and utilize incident-specific Essential Elements of Information, identified by the Planning Section/Situation Unit, to develop and drive message development.

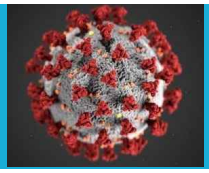
v. Work with OOC to promptly disseminate emails related to incident-related message guidance and updates.

vi. During ESF8 activations, monitor WebEOC, statewide emergency management platform, for public health and medical communication issues.

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICAN OVERSIGHT



Section 13: Regulatory Considerations for COVID-19 Vaccination

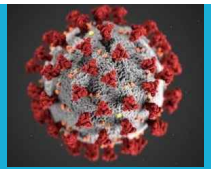
A. Florida will utilize the resources provided by CDC and the FDA to ensure consistency. A COVID-19 vaccination webpage will be developed with resources and links for providers, and Florida SHOTS will link to this webpage. The Florida SHOTS team has also added COVID-19 options on their help desk toll-free number and an email box with dedicated help desk staff to handle COVID-19 information. Providers will be made aware of where COVID-19 specific resources and information are located.

B. Section A #5 of the CDC COVID-19 Provider Agreement instructs providers to give each vaccine recipient the Emergency Use Authorization or Vaccine Information Statements (VIS) and it will be emphasized during the enrollment process. For interactive users, VIS distribution is a required field in the IIS. Providers will not be able to report their vaccination data without VIS information (date published).

DRAFT

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT



Section 14: COVID-19 Vaccine Safety Monitoring

A. Risk/Benefit: VIS are required by law to be provided to any person who receives a vaccine. Health care providers should advise anyone seeking vaccination for COVID-19 of the risk/benefit associated with receiving the COVID-19 vaccine.

Vaccines are tested for their safety and efficacy. However, unusual and unexpected reactions may arise. Persons who have received the vaccination should seek immediate medical care if a severe allergic reaction occurs which can include difficulty breathing, hoarseness or wheezing, hives, paleness, weakness, a fast heartbeat or dizziness. Patients should be directed to contact their health care provider if they experience any unusual conditions such as a high fever or behavioral changes. (https://www.cdc.gov/coronavirus/2019-ncov/vaccines/index.html)

Provider Responsibility: All vaccine providers will disseminate a 24/7 phone number to each person receiving the vaccination for reporting of severe adverse events. This phone number will be provided at the time of vaccination, as part of the post-counseling service. The vaccine provider will establish a process to triage any client requesting follow-up medical care. The vaccine provider will provide follow-up medical care or refer the client for appropriate medical care. Vaccine providers should advise vaccine recipients to seek immediate medical care if a severe allergic reaction occurs. Each vaccine provider will report any severe adverse reaction to the Vaccine Adverse Event System (VAERS).

B. The Department is in the process of establishing an agreement with the Florida Poison Information Center Network for serving as the centralized call center for Adverse Event Reporting, as was done in the H1N1 Pandemic in 2009. During H1N1, calls to the Florida Adverse Reaction Call Center were reviewed by the State VAERS Coordinator and forwarded to the designated CHD for the client's county of residence. CHD staff reviewed the reports and used professional, clinical judgment to determine if follow-up was required.

On a weekly basis, the State VAERS Coordinator received VAERS reports through the CDC Epidemic Information Exchange (Epi-X) Network. The report identifies self-reported severe adverse events, which were reported as: patient died, life threatening illness, short term hospitalization, prolonged hospitalization and permanent disability. CHD staff followed-up on all severe adverse events to determine if the client fully recovered, required ongoing medical care or could not be contacted. Reports related to adverse events are generated and reviewed by the Department on a regular basis.

Florida SHOTS can also capture adverse event reports and training guides on this functionality exist now. There is also a link to VAERS in the system that providers can use.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

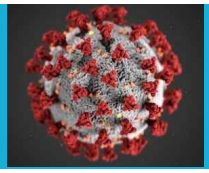
DRAFT

FL-DOH-21-0168-A-077020



Section 15: COVID-19 Vaccination Program Monitoring

A. Florida's process for monitoring will be as follows:

- Provider enrollment
  - Forms have been developed in ReadyOp, the Department's tool for establishing a common operating picture, to track appropriate metrics and ensure regular reporting related to the enrollment process. These forms can be sent to any partner to obtain information.
- Access to COVID-19 vaccination services by population in all phases of implementation
  - Multiple maps are being generated to visually describe provider locations throughout the state. Once vaccination efforts start, Florida SHOTS can provide administration data (ZIP codes of patient population who receive vaccines), as well as provider location data. The Department's Bureau of Preparedness and Response has data on critical populations and accessibility index scores.
- IIS or other designated system performance
  - The Florida SHOTS team has constant real-time monitoring of server performance and regular reporting capabilities, such as SolarWinds (performance monitoring tool). The IIS has built-in programmatic alerts when errors are detected.
- Data reporting to CDC
  - Currently awaiting additional guidance from CDC.
- Provider-level data reporting
  - Florida SHOTS has built-in reports to monitor provider-level data reporting.
- Vaccine ordering and distribution
  - Florida SHOTS has built-in reports to monitor vaccine ordering and distribution.
- 1- and 2-dose COVID-19 vaccination coverage
  - Currently, coverage reports can be run at provider population and county level. More guidance will be necessary if additional requirements are needed.

B. The Department will monitor budget, supplies and staffing through existing grant and budget management functions in coordination with the Office of County Health Systems to provide fiscal oversight.

C. Florida is taking a multi-phase approach to messaging that aligns with the phases of vaccine release described in federal guidance. The information provided below is from Florida's *COVID-19 Vaccine Distribution Communications Plan*.

Communication objectives are to:

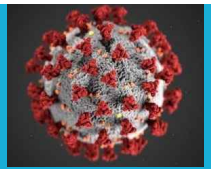
a. Provide clear and concise communication between federal and state partners.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

DRAFT

FL-DOH-21-0168-A-077021



b. Provide timely public updates as necessary when vaccines become more readily available.
c. Provide messaging to Floridians that will avert confusion and alleviate potential stressors at vaccination sites.

Target audience for communication are:

a. Floridians statewide
    - Vulnerable/at-risk populations
    - Critical occupational groups
b. Public health officials
c. Health care providers
d. Community partners and stakeholders
e. Elected officials

COMMUNICATION STRATEGIES

Pre-vaccine

Prior to vaccine availability, the Department will work to increase awareness and offer information about what to expect. This will include a press release and public service announcements through social media and YouTube. A dedicated website would still be under development at this time. The Department will also conduct additional outreach to pharmacies, health systems and long-term care partners that may be needed to rapidly execute a successful COVID-19 immunization program.

Table 9. Pre-Vaccine Communication Strategies

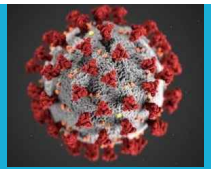
TOOL	PURPOSE	FREQUENCY
Press Release	To provide the public with information on the state's plans to implement a vaccine pilot program in coordination with CDC.	Issued as a formal announcement of the pilot program.
Webpage	To provide stakeholders and public with valuable information on what, when and where to expect implementation of the program.	Updated in real-time as either a page on the Department COVID-19 website or as a dedicated website.
Social Media	Increase outreach efforts to ensure that Floridians have ample access to information.	Posts 3-4 times weekly. Will increase frequency as program becomes operational.
Media	Increase outreach efforts to ensure that Floridians have ample access to information.	Will consider radio and television marketing campaigns similar to previous state COVID-19 campaigns.
Mail Outs	Using the Medical Quality Assurance database, a letter will be sent to health care practitioners informing them of the program and their potential role.	Single issue.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

DRAFT

AMERICA OVERSIGHT

FL-DOH-21-0168-A-077022



Limited Vaccine Availability

The number of vaccine doses distributed to each state is to be determined. A clear and concise message will be crafted to ensure that our most vulnerable populations as well as critical occupational groups are able to receive the vaccine first. Recommendations for target groups will likely change as the vaccine becomes readily available.

Table 10. Limited Vaccine Availability Communication Strategies

TOOL	PURPOSE	FREQUENCY
Press Release/Press Conference	To provide information to the public concerning the vaccine and availability. To outline where the vaccine will be administered and to whom.	Issued once as needed if there is a shortage.
Webpage	Providing access to information concerning location and times of vaccine administration and details regarding which individuals qualify.	Updated in real-time.
Social Media	Infographics and posts to deliver the message of who is currently eligible for vaccination.	As needed.
Communication with Partners	To ensure consistent messaging. Conference calls with Agency for Health Care Administration, Florida Medical Association, Florida Osteopathic Medical Association, Florida Hospital Association, etc.	Weekly.

Widespread Vaccine Availability

When a COVID-19 vaccine becomes readily and publicly available, the Department's Office of Communications will be prepared to deliver that message along with instructions on how to appropriately receive the necessary doses. This will be determined in accordance with how the vaccine will be administered.

Table 11. Widespread Vaccine Availability Communication Strategies

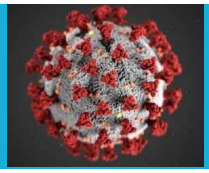
TOOL	PURPOSE	FREQUENCY
Press Release	Announcement of readily available vaccine and its administration.	Once.
Webpage	Updates on availability and location of vaccines as well as instruction for reservations if necessary.	Updated daily.
Social Media	Posts and infographics providing information on vaccine sites.	Multiple posts daily.
Advertising	Providing information to the public on locations and availability of vaccine through YouTube ads, Radio spots, Bus wraps, etc.	As needed.

The content in this COVID-19 Vaccination Plan is provisional and subject to change based on guidance from CDC.

AMERICA OVERSIGHT

DRAFT

FL-DOH-21-0168-A-077023



D. The Department has an established process for obtaining statewide situational awareness. During the hepatitis A outbreak in 2019, the Department established vaccination goals for each local jurisdiction and CHDs reported routinely on progress of those vaccination efforts, completion of assigned objectives, local vaccine targets, locations of vaccination clinics and community partner vaccine administration activities. A similar situation reporting template is under development for COVID-19 vaccination efforts.

In addition to local contributions to situation reports, health care facilities will report vaccination activities through the health care facility Emergency Status System, administered by the Florida Agency for Health Care Administration. Facilities will report number of staff who have been vaccinated, number of patients or residents vaccinated and vaccine supply.

This information, along with vaccine administration data collected through Florida SHOTS, will be collated for a comprehensive situation report.

DRAFT PLANNING TEMPLATE FOR ORGANIZATION OF COVID-19 VACCINATION DELIVERY

FDOH COVID-19 Vaccination Planning Workgroup

Version 1.73

November 9, 2020

AMERICAN OVERSIGHT

TEMPLATE FOR ORGANIZATION OF COVID-19 VACCINATION DELIVERY

INTRODUCTION

With the development of a vaccine for COVID-19, there is a need to plan for the administration of vaccinations nationwide. As such, the Centers for Disease Control and Prevention (CDC) has published their "COVID-19 Vaccination Program Interim Playbook for Jurisdiction Operations." This document states,*" Pandemic vaccination planning is a combined state, territorial, tribal, and local responsibility that requires close collaboration between public health, external agencies, and community partners. Depending on the specific jurisdiction's governance structure, the jurisdiction may play a key role in ensuring readiness at all levels*." It further highlights the need for communities to plan and have situational awareness, stating: *"Prior to plan development, it is important for jurisdictions to have full situational awareness."* This includes coordinating with a wide variety of agencies, including hospitals, long-term care facilities, public safety agencies, and others. The CDC guidance states, "*Local personnel likely have a better understanding of perceptions, unique challenges, and successful mitigation strategies within their communities. Aligning areas of responsibility as well as specific tasks can help to complement rather than duplicate efforts at either level, maximizing the efficient use of resources and overall quality of the COVID-19 Vaccination Program."*

Planning must take into consideration such topics as vaccine receipt and storage, vaccination location, dispensing agencies, logistics, supplies and equipment, staffing, registration, record keeping, adverse reaction monitoring, etc. In order to facilitate planning by County Health Departments (CHD), who will serve as the local coordination point for the vaccinations, this draft planning coordination tool or "template" has been created.

DRAFT

PURPOSE

The purpose of this template is to help CHDs organize the process for COVID-19 vaccinations in their respective county.

OBJECTIVES

The objectives of this template are to:

1) Help identify the key elements of the COVID-19 vaccination process,

2) Identify options available to the CHD and provide a draft planning mechanism for them to be applied to specific target groups,

3) Serve as a draft planning and coordination tool for actions that the CHD will take to ensure vaccination delivery in their jurisdiction.

KEY POINTS AND ASSUMPTIONS

AMERICAN OVERSIGHT

1) This draft planning template follows and works in conjunction with the CDC *COVID-19 Vaccination Program Interim Playbook for Jurisdictional Operations* guidance.

2) This draft planning template works in conjunction with and compliments the State plan that has been developed for the vaccination program. (a copy can be accessed at: https://floridahealthcovid19.gov)

3) Vaccinations will occur in phases, tied to both the availability of vaccine as well as to the prioritization of critical need.

4) The identified vaccination "Phases" include 1A, 1B, 2, 3, and 4. For the template, the following corresponding colors will be used to denote vaccination phase (Note – Some people may fit into more than one target group and should then default to the more urgent phase):

PHASE	GENERAL TARGET GROUPS
Phase 1 A	Health workers and first responders
Phase 1 B	People with high risk health conditions & congregate settings
Phase 2	Workers in critical positions & people with underlying conditions
Phase 3	Workers in general settings, children and young adults
Phase 4	Everyone who did not have access during previous phases

DRAFT

5) Administration of the vaccine will require coordination between local, state, and federal government agencies as well as with private businesses and citizens.

6) With a number of the vaccine candidates, plans will have to, in most cases, include a second dose of the vaccine being administered to be effective.

7) Communication about the vaccine and vaccinations will be needed to educate and inform people throughout the State.

8) CHDs will serve in a local coordination role for the delivery of vaccinations.

9) Specific requirements for receiving, storing, and dispensing of vaccine are necessary due to the "cold chain" nature of the vaccines.

10) The vaccination program will take place over a number of months with a start time in 2020 and extending well into 2021.

BLANK FORM

Targeted Group/Subgroup:	**(FACILITY TYPE HERE)**

AMERICAN OVERSIGHT

DRAFT

FORM FIELD INFORMATION AND EXPLANATION

Targeted Groups / Subgroups
This block identifies the particular targeted group and subgroup who will be receiving vaccinations. Options include:

- Hospitals / Staff

AMERICAN OVERSIGHT

- Hospitals / Patients
- Long-term Care – Staff
- Long-term Care - Skilled Nursing Facilities
- Long-term Care - Assisted Living Facilities
- Long-term Care - Independent Living Facilities
- Long-term Care - Home Healthcare
- Long-term Care - Disability Centers
- Long-term Care - Mental Health Facilities
- Public Safety – EMS
- Public Safety - Law Enforcement
- Public Safety - Fire/Rescue
- Public Safety – Lifeguard
- Public Safety - Dispatch-Communications
- Veterans
- Critical Services Employees
- At Risk Populations - Over 65 Years of Age
- At Risk Population - Pre-existing Medical Conditions
- People Experiencing Homelessness
- Children
- Education – Preschool and K-12 Schools
- Education - Colleges and Universities
- Federally Qualified Healthcare Centers
- Tribes/Indigenous Peoples
- Migrant Farm Workers
- Correctional Facilities
- General Public
- Other

DRAFT

Responsible Agencies (Local)
This block identifies who will be responsible for ensuring that the targeted group and subgroup receive vaccinations. Options include:

- Hospital
- Long-term Care Facility
- County Health Department
- Public Safety Agency
- School/College/University
- Tribe
- Federally Qualified Healthcare Center
- Pharmacies
- Physician's Office

AMERICAN OVERSIGHT

- Other

Supportive Agencies
This block identifies the key supportive agencies or partners that can be used to plan for and deliver vaccinations to the targeted group and subgroup. Options include, but are not limited to:

- Florida Department of Health
- Florida Assisted Living Association
- Florida Senior Living Association
- Florida Healthcare Association
- LeadingAge Florida
- Hospital Associations
- Public Safety Associations
- State Fire Marshal's Office
- Florida Ambulance Association
- Agency for Healthcare Administration
- U.S. Health and Human Services
- Centers for Disease Control
- Florida Association of Community Healthcare Centers
- Florida Hospital Association
- Other

DRAFT

Phases
This block identifies when a particular targeted group and subgroup will receive vaccinations. The basic prioritization has been designated by CDC and has been identified in the State plan. The assignment of a particular targeted group and subgroup may change as further Executive Leadership guidance is received.

- 1A
- 1B
- 2
- 3
- 4

Locations of Delivery

This block identifies where the vaccinations will be delivered and, in some cases, identifies whether the point of dispensing will be limited to a particular group of people (closed POD) or open to others outside of the host organization (Open POD). Options include:

- Hospitals / Closed POD
- Hospitals / Open POD
- LTCs / Closed POD
- Public Safety Agencies
- County Health Departments

AMERICAN OVERSIGHT

- Drive-thru Mass Vaccination / Closed POD
- Drive-thru Mass Vaccination / Open POD
- Walk-up Mass Vaccination / Closed POD
- Walk-up Mass Vaccination / Open POD
- Pharmacies
- Physician Offices
- Tribal Reservations / Closed POD
- Specially Established Closed PODs
- Specially Established Open PODs
- Private Businesses
- Other

Methods of Delivery
Given that there may be multiple locations where vaccination will occur, this block lays out potential location for vaccination delivery. Options include:

- Hospital Facility Nurses
- Long-term Care Facility Nurses
- School/College/University Healthcare Center Nurses
- Contracted Medical Personnel – Mobile
- EMS Personnel
- County Health Department Personnel
- Pharmacy Personnel
- Physicians
- Mass Vaccination Clinic Personnel (combination of above)
- Other

DRAFT

Staffing Sources
This block identifies where both medical and non-medical staffing will come from to staff the vaccination site. Options include:

- Own Agency Medical Personnel
- County Health Department Personnel
- Public Safety Personnel
- Contracted Agency Personnel
- School/College/University Healthcare Personnel
- Other

Augmented Staffing Needed
This block identifies whether augmented staffing, to the host agency, will be required to deliver the vaccinations.

- Yes
- No
- Possibly

AMERICAN OVERSIGHT

Vaccine Source
This block identifies which of the primary sources of vaccine (state allocation, federal allocation, or other source) will be used for the particular targeted group and subgroup.

- State Allocation
- Federal Allocation
- Other

Vaccine Storage Location
This block identifies where the vaccine will be received and stored at for redistribution to the agencies that will be delivering vaccinations. Options include:

- County Health Department
- Hospital
- Other

CHD Cold Storage Capability
This block will identify whether the CHD has cold storage capability.

- Yes
- No

DRAFT

Needed Supplies and Equipment:
This block will identify supplies and equipment that will be needed to address vaccination for the specific target group / subgroup.

Communications / Marketing
This block would identify how the target group will receive communications about the vaccinations, including schedules, locations, times, etc.

Notes / Tasks
This block would provide a mechanism for explaining information in the template above including any information that will have an impact on the particular target group, etc. Additionally, it can be used to identify key tasks that must be completed to facilitate vaccination for the identified target group.

SAMPLE COMPLETED FORMS

The following are two pages show examples of completed forms. They are not a mandate on how the forms need to be completed but merely serves as an example of how a particular targeted group template form is completed. Each CHD will have to decide which combination of delivery methods, locations, agencies, etc. works for their particular circumstances.

AMERICAN OVERSIGHT

SAMPLE 1

Targeted Group/Subgroup:	**LONG-TERM CARE – SKILLED NURSING FACILITIES**
Responsible Agency:	Long-term Care Facility Pharmacies
Supportive Agencies:	Florida Assisted Living Association Florida Senior Living Association Florida Healthcare Association LeadingAge Florida Agency for Healthcare Administration
Estimated Number:	TBD
Phase:	1A or 1B
Location of Delivery:	Long-term Care Facility – Closed POD
Possible Methods of Delivery:	Pharmacies Long-term Care Facility Nurses EMS Personnel Contracted Medical Personnel – Mobile
Staffing Sources:	Pharmacy Personnel Long-term Care Facility Nurses EMS Personnel Contracted Medical Personnel – Mobile
Augmented Staffing Needed:	Possibly
Vaccine Source:	Federal Allocation State Allocation
Vaccine Storage Location:	Pharmacy

DRAFT

AMERICAN OVERSIGHT

CHD Cold Storage Capability	County Health Department Yes
Needed Supplies and Equipment:	TBD
Communications / Marketing:	CDC provided communication through the Pharmacy Clinic initiative.
Notes / Tasks: A plan is being developed for long-term care facilities to have their vaccinations delivered through the use of pharmacy established on-site clinics. Under this scenario, vaccine would come from the federal allocation and pharmacies would be responsible for receiving and storing vaccine, administering the vaccinations, and handling record keeping. An alternative would be the use of state allocated vaccine delivered by facility nurses, EMS personnel, or contracted medical personnel operating from a mobile unit, using vaccine stored at the County Health Department. Also, LTCs will have to plan for vaccination of new residents and staff beyond the time period when the pharmacy clinics are operational.	

SAMPLE 2

Targeted Group/Subgroup:	**PUBLIC SAFETY – EMS**
Responsible Agency:	Public Safety Agency Private EMS Agency
Supportive Agencies:	Local EMS Agencies Florida Fire Chief's Association Florida Fire Marshal's Office Florida Ambulance Association Private EMS Companies
Estimated Number:	TBD
Phase:	1A
Location of Delivery:	Public Safety Agency County Health Department Drive-thru Mass Vaccination – Closed POD
Possible Methods of Delivery:	EMS Personnel CHD Personnel Mass Vaccination Clinic (combination) Contracted Medical Personnel – Mobile
Staffing Sources:	Agency Paramedics and Nurses County Health Department Personnel Contracted Medical Personnel – Mobile
Augmented Staffing Needed:	No
Vaccine Source:	State Allocation
Vaccine Storage Location: **CHD Cold Storage Capability:**	County Health Department No

DRAFT

AMERICAN OVERSIGHT

Needed Supplies and Equipment:	TBD
Communications / Marketing:	The local Healthcare Coalition will be used as a mechanism to provide location, schedule, registration information, etc.
Notes / Tasks: EMS agencies include Fire/Rescue, County, and private companies. Given their critical response posture and exposure they would be included in Phase 1A for vaccination. While many agencies will be able to "self" vaccinate, other options are available to capture this critical group. EMS Survey results indicate that many agencies would not only be willing to vaccinate their own personnel but also serve to vaccinate other target groups. Given that most agencies will be able to administer vaccinations to their personnel, there should be no staffing issues with this group. A drive-thru option for this group, as well as other public safety personnel may be a viable option.

Subject:IMPORTANT: Information on redistribution of frozen Pfizer-BioNTech COVID-19 Vaccine

Dear Awardees,

CDC recognizes that **redistribution** of vaccine may be required by state and local immunization programs. Based on information to date from the manufacturer, for the Pfizer-BioNTech COVID-19 Vaccine, immunization planners should consider the following:

- *Jurisdictions should only start the redistribution process for product that will be used as soon as it arrives at the new location. You should not redistribute product to a new location for long term storage.*
- *Move only the amount of vaccine that is needed at the satellite locations/clinics.*
- *Once a vaccine vial has been removed from the tray, the thawing process has begun. The vial cannot be returned to the thermal shipping container or to an ultra-cold freezer.*
- *Vaccine, once thawed, is viable for up to 120 hours at 2-8C. Vaccine may be transported at 2-8C if needed. After 120 hours, vaccine must be used or discarded. Any hours used for transport count against the 120-hour limit.*
- *If needed, ultra-frozen vaccine may be transported in its original shipping container with dry ice or in a portable ultra-cold freezer that can maintain a temperature of -80º C, however, only full trays of vaccine can be redistributed using this method in order to reduce the likelihood of damaging the vaccine vials in transit.*

AMERICAN OVERSIGHT

If you are unsure on the integrity of vaccine in your possession, please call Pfizer Customer Service at 800-666-7248 (option 8) or email CVGovernment@pfizer.com.
This information will be updated as needed if additional product specific details are made available.

Additional information to remember based on the first day of vaccine distribution:

- Pfizer will send an email to sites when vaccine is on the way. Be sure to check your spam and white list the email address to ensure receipt
- Controlant temperature monitoring device may take 2-3 hours before you get the summary report log for the vaccine you receive. Be patient, it will come your way.
- We will provide an updated **Product Information Guide** tomorrow. Attached is an update on the **mega kit contents for Pfizer vaccine.**
- Please contact the Jurisdictional Watch Desk if you have any questions:

Product Information Guide Summary

»Purpose:

This guide provides specifications for COVID-19 vaccine and associated products. **This is NOT a catalog from which you can order products**. It provides key product information including product package dimensions and weight, minimum order quantities, product presentation, distribution method, storage information, and additional information. This guide will be updated as more products become available.

»How to use this guide

Jurisdictional immunization program staff–use this guide to help you:

- Learn about available COVID-19 vaccines and associated products.
- Provide answers to questions from COVID-19 vaccination providers.

COVID-19 vaccination providers–use this guide to help you:

- Learn about available COVID-19 vaccines and associated products.
- Prepare storage space to ensure ordered quantities can be stored at the proper temperature.
- Prepare staff responsible for receipt and storage of vaccine deliveries.

Refer to CDC's *Vaccine Storage and Handling Toolkit* for recommendations and best practices on related topics such as vaccine inventory management.

»Addendum:

The COVID-19 Vaccine Ancillary Supply Kit Guidance in the addendum (page 8) provides more specific information on the ancillary supply kits.

At this time, the products in this guide are only available for use in adults (i.e., persons aged 18 years or older). You will receive additional information, and this guide will be updated to reflect any changes COVID-19 age indications.

Additional COVID-19 vaccine may be authorized or licensed in the future. This guide will be updated as more products become available.

Vaccine Storage and Handling Toolkit: https://www.cdc.gov/vaccines/hcp/admin/storage/toolkit/index.html

AMERICAN OVERSIGHT

Centrally Distributed Vaccines and Ancillary Kits*

Vaccines (Centrally Distributed)

Manufacturer	**Moderna**
NDC # in VTrckS	80777-0273-99
Carton dimensions	53mm x 53mm x 137mm (approximately 2in x 2in x 5 3/8in)
Minimum order size and increment	100 doses
Presentation	10-dose multidose vial/10 MDV per carton
Items automatically added to your VTrckS order when you select this product	Ancillary supply administration kit: standard syringe
Vaccination schedule	2-dose series separated by at least 28 days
Age indications	TBD
On-site vaccine storage	• -25°C to -15°C (-13°F to 5°F) in vaccine storage unit • 2° to 8°C (36° to 46°F) in vaccine storage unit for up to 30 days if the vial is not entered. • Freezer temperature settings will require adjustment if storing this vaccine and varicella-containing vaccines in the same unit. The temperature range for this vaccine is limited compared to varicella-containing vaccines.

*Pfizer's COVID-19 vaccine is **not** centrally distributed; it is distributed directly from the manufacturer. Please refer to the next section for information on Pfizer COVID-19 vaccine.

Moderna: https://www.modernatx.com/

AMERICAN OVERSIGHT

Ancillary Supply Administration Kit: Standard Syringe (Centrally Distributed)

Kit description	Standard syringe kit for vaccine administration		
NDC # in VTrckS	11111-0001-01 (Adult)		
Kit dimensions/weight	14 in x 13 in x 9 in/3.5 lbs (standard ancillary adult kit)		
Minimum order size and increment	Kit to support administration of 100 doses (plus overage)		
Accompanies 0.5mL-dose vaccines	Moderna		
Order Intention	Initially only adult kits will be available, when authorized for use in younger populations, pediatric and mixed (pediatric and adult) will be available for ordering.		
Contents: Each kit contains a label on the outside of the box with a complete inventory list.	**Adult Kit** • 85 needles (22-25G x 1") • 20 needles (22-25G x 1.5") • 105 syringes (1mL or 3mL) • 210 alcohol pads • 100 vaccination record cards • 1 needle gauge and length chart • 2 face shields • 4 surgical masks	**Pediatric Kit** • 105 needles (25G x 1") • 105 syringes (1mL or 3mL) • 210 alcohol pads • 100 vaccination record cards • 1 needle gauge and length chart • 2 face shields • 4 surgical masks	**Mixed Kit** • 95 needles (25G x 1") • 10 needles (22-25G x 1.5") • 105 syringes (1mL or 3mL) • 210 alcohol pads • 100 vaccination record cards • 1 needle gauge and length chart • 2 face shields • 4 surgical masks

Additional information	• Products and brands for kit components may vary.
	• All needles for vaccine administration are safety needles.
	• Due to the limited supply of needles and syringes, specification of preferences for needles or syringes is not feasible.
	• Kit and pallet configuration
	  ○ 1 kit = 100 vaccinations (plus overage)
	  ○ 1 pallet = 36 kits (supports 3,600 vaccinations, plus overage)
	
	For more information about ancillary kits components: COVID-19 Vaccine Ancillary Supply Kit Guidance		

AMERICAN OVERSIGHT

Centrally Distributed Ancillary Supply Kit Volume

Vaccination provider sites will need to prepare space to store vaccine and ancillary kits. Large volume orders of vaccine can be compactly packaged, however, ancillary supply kits to support these orders will require much more storage space. For each 100 doses of vaccine, an ancillary kit measuring 14 in x 13 in x 9 in and weighing 3.5 pounds will be provided. The below picture demonstrates the number and volume of ancillary kits compared to vaccine in a large volume order of 4,000 doses.

AMERICAN OVERSIGHT

Direct-Ship Vaccine and Ancillary Kit

Pfizer Vaccine (Direct Ship)

Manufacturer	Pfizer
NDC # in VTrckS	59267-1000-02
Tray dimensions	229mm x 229mm x 40mm (approximately 9in x 9in x 1.5in)
Minimum order size and increment	975 doses
Presentation	5-dose multidose vial/195 MDV per tray
Items automatically added to your VTrckS order when you select this vaccine	Combined ancillary supply kit for administration and mixing (includes 0.9% preservative-free normal saline diluent)
Age indications	16 years of age and older
Vaccination schedule	2-dose series separated by at least 21 days
On-site vaccine storage	• -80°C to -60°C (-112°F and -76°F) in ultracold storage unit • -80°C to -60°C (-112°F and -76°F) in the original thermal shipping container with dry ice recharges. Please allow for forthcoming information on the maximum time for storage in these conditions. • 2° C to 8°C (36° F to 46°F) in a storage unit for up to 5 days (120 hours)
Additional information	• Vaccine will be shipped in a container that includes dry ice. Thermal shipping container dimensions are 400mm x 400mm x 560 mm (approximately 15 3/4in x 15 3/4in x 22in). • A thermal shipping container holds up to 5 cartons/trays. • If using the thermal shipping container to store vaccine, add dry ice pellets (9 mm to 16 mm) within 24 hours of delivery and every 5 days or as needed to maintain temperatures. • Unless a provider opts out, dry ice will be delivered within 24 hours of vaccine delivery to refill the thermal shipping container for the first re-ice only. Additional dry ice will not be provided. Locate a dry ice source if planning to use the shipping container to store vaccine for more than 5 days. • Do not use or store dry ice or liquid nitrogen ($LN_{2)}$ in confined areas, walk-in refrigerators, environmental chambers or rooms without ventilation. A leak in such an area could cause an oxygen-deficient atmosphere. • A full shipping container with vaccine and dry ice weighs approximately 80 pounds.

Pfizer: https://www.pfizer.com/

AMERICAN OVERSIGHT

Combined Ancillary Supply Kit for Administration and Mixing (Direct Ship)

Kit description	Combined kit with small syringes for vaccine administration, mixing supplies, and diluent		
NDC # in VTrckS	11111-0006-02 (Adult)		
Kit dimensions/weight	24 in x 20 in x 24 in/40 lbs		
Minimum order size and increment	Kit to support administration of 975 doses (plus overage), including 0.9% preservative-free normal saline diluent		
Accompanies 0.3mL-dose vaccines	Pfizer		
Order Intention	Initially only adult kits will be available, when authorized for use in younger populations, pediatric and mixed (pediatric and adult) will be available for ordering.		
Contents: Each kit contains a label on the outside of the box with a complete inventory list.	Adult Kit* • 829 needles (22-25G X 1") • 200 needles (22-25G X 1.5") • 205 mixing needles (21-25G X1.5") • 1024 syringes (1mL) • 205 syringes (3mL or 5mL) • 2458 alcohol pads • 1000 vaccination record cards • 10 needle gauge and length charts • 20 face shields • 40 surgical masks • 200 Diluent vials	Pediatric Kit* • 1024 needles (25G X 1") • 205 mixing needles (21-25G X1.5") • 1024 syringes (1mL) • 205 syringes (3mL or 5mL) • 2458 alcohol pads • 1000 vaccination record cards • 10 needle gauge and length charts • 20 face shields • 40 surgical masks • 200 Diluent vials	Mixed Kit* • 926 needles (25G X 1") • 100 needles (22-25G X1.5") • 205 mixing needles (21-25G X1.5") • 1024 syringes (1mL) • 205 syringes (3mL or 5mL) • 2458 alcohol pads • 1000 vaccination record cards • 10 needle gauge and length charts • 20 face shields • 40 surgical masks • 200 Diluent vials

Additional information	• Products and brands for kit components may vary.
	• All needles for vaccine administration are safety needles.
	• Mixing needles are conventional.
	• Due to the limited supply of needles and syringes, specification of preferences for needles or syringes is not feasible.
	• Kit and pallet configuration
	  ○ 1 kit = 975 vaccinations (plus overage)
	  ○ 1 pallet = 8 kits (supports 7,800 vaccinations, plus overage)
	
	For more information about ancillary kit components: COVID-19 Vaccine Ancillary Supply Kit Guidance		

*The total number of needles in each adult, pediatric, and mixed combined ancillary supply kit for administration and mixing will vary (adult–1,029; pediatric–1,024; mixed–1,026). The difference in total number is related to increasing the kit build efficiency.

AMERICAN OVERSIGHT

Dry Ice Kit (Direct Ship)

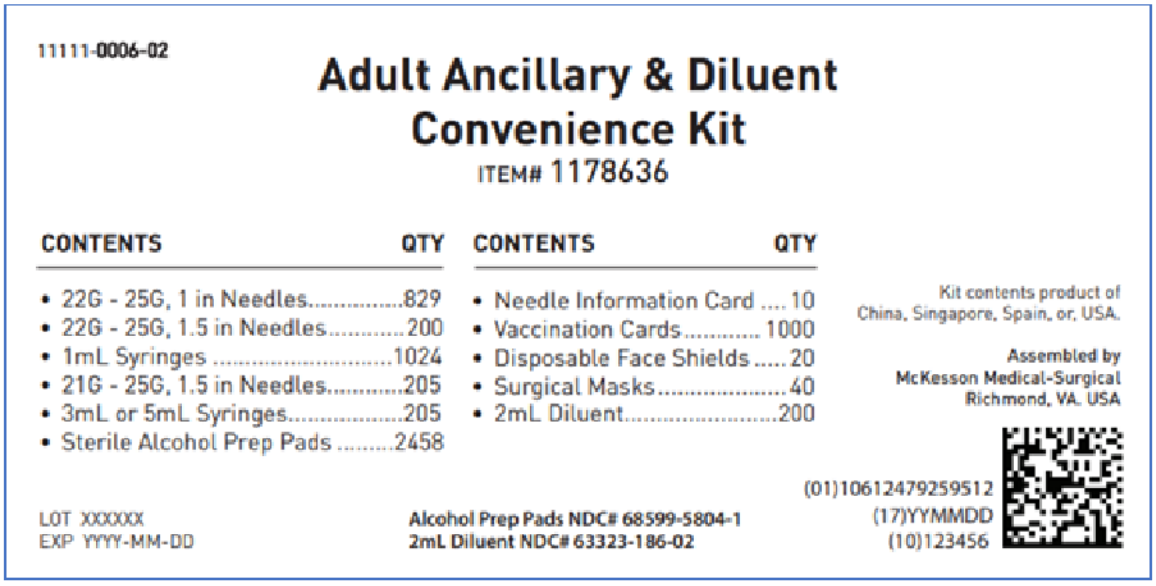
Kit description	Dry ice kit with starter materials
NDC # in VTrckS	11111-0007-03
Kit dimensions/weight	TBD
Minimum order size and increment	Kit to support initial dry ice recharge of one thermal shipping container
Accompanies ultracold vaccine	Pfizer
Contents	• Dry ice (~35 pounds) • Gloves for working with dry ice (1 pair) • Face shield (1) • Ice scoop (1) • OSHA dry ice safety card (1)
Additional information	• Products and brands for kit components may vary. -

AMERICAN OVERSIGHT

Contents and Quantities for Mega Kits to Support Pfizer Vaccine

December 11, 2020

This is a clarification about the needle and syringes included in the COVID-19 ancillary supply kits for administering Pfizer's ultra-frozen vaccine. Based on questions coming into our call centers supporting the distribution of the ancillary supply kits for Operation Warp Speed, there is some confusion about the quantities of needles and syringes included in the kits. Each kit is clearly labeled with a complete inventory list. (See example below.)



11111-0006-02

Adult Ancillary & Diluent Convenience Kit

ITEM# 1178636

CONTENTS	QTY	CONTENTS	QTY
• 22G - 25G, 1 in Needles	829	• Needle Information Card	10
• 22G - 25G, 1.5 in Needles	200	• Vaccination Cards	1000
• 1mL Syringes	1024	• Disposable Face Shields	20
• 21G - 25G, 1.5 in Needles	205	• Surgical Masks	40
• 3mL or 5mL Syringes	205	• 2mL Diluent	200
• Sterile Alcohol Prep Pads	2458		

Kit contents product of China, Singapore, Spain, or, USA.

Assembled by McKesson Medical-Surgical Richmond, VA, USA

(01)10612479259512
(17)YYMMDD
(10)123456

LOT XXXXXX
EXP YYYY-MM-DD

Alcohol Prep Pads NDC# 68599-5804-1
2mL Diluent NDC# 63323-186-02

Procuring the sheer number of needles and syringes needed to support an operation of this size involves complex logistics, which is why vaccine administrators may see variance in how the supplies are packaged. The listed products may be received as a combo, defined as a single packaged needle and syringe, or as individual components. The quantities listed on the label represent the minimum number of total combinations in each kit.

- For example, if the kit above was shipped with (829) 1ml-25Gx1" syringe/needle combos and (200) 22Gx1.5" needles for administration, the kit would only contain (200) 1ml syringes to accompany the needles. This would yield a total of (1,029) needles with accompanying syringes (some packaged together, some individually).
- If a kit contained only individual needles and syringes, there may be 5 more needles than syringes. This is intentional and is designed to improve your experience and maximize the inventory across all kits built.
    - In this scenario, the adjustment was to the 22-25Gx1.5" needles. The kit was originally configured to have 195. This was increased by 5 (to 200) to improve the administrators' experience by using two whole boxes.

AMERICAN OVERSIGHT

Please note there will be multiple configurations used as Operation Warp Speed continues to procure products to support the assembly of these and other ancillary supply kits. Regardless of configuration, the kit contents will meet the minimum quantities listed on the kit content labels and will support the same total number of doses.

We hope this communication helps your teams as they review the content in the kits to ensure their readiness for administration when you receive the vaccine doses.

Please direct any issues regarding the ancillary kits to support the Pfizer COVID-19 vaccine to McKesson Customer Service at:

AMERICAN OVERSIGHT

Addendum: COVID-19 Vaccine Ancillary Supply Kit Guidance

AMERICAN OVERSIGHT

COVID-19 Vaccine Ancillary Supply Kit Guidance

»Purpose:

This guidance provides an overview of the COVID-19 vaccine ancillary supply kits the U.S. Department of Health and Human Services (HHS) is providing to enrolled COVID-19 vaccination providers as part of the federal COVID-19 vaccination program. It includes a general description of seven different COVID-19 vaccine ancillary kit configurations, as well as a list of select corresponding products, product descriptions, and product quantities. For reference and to access additional product-specific information and training resources, this document also includes website hyperlinks and contact information for select product manufacturers.

»Background:

HHS is providing ancillary supply kits for the administration of COVID-19 vaccine. The Strategic National Stockpile (SNS), managed by the HHS Office of the Assistant Secretary for Preparedness and Response (ASPR), is partnering with McKesson Corporation to produce, store and distribute these vaccine ancillary supply kits on behalf of the SNS.

»How to use this guide:

Jurisdictional immunization program staff–use this guide to help you:

- Learn about products that will arrive in ancillary kit(s).

COVID-19 vaccination providers–use this guide to help you:

- Learn about products that will arrive in ancillary kit(s).
- Prepare storage space for the ancillary kit products you will receive.

»Ancillary kit basics:

How does a provider order ancillary kits?

You do not need to order ancillary kits. When you order COVID-19 vaccine in VTrckS, ancillary supplies will automatically be ordered in amounts to match the vaccine orders.

Note: To receive COVID-19 vaccine, vaccination provider facilities and organizations must enroll in the federal COVID-19 Vaccination Program coordinated through their jurisdiction's immunization program.

How much do ancillary kits cost?

Ancillary kits will be provided at no cost to enrolled COVID-19 vaccination providers.

What products are in ancillary kits?

Refer to page 11 for possible ancillary kits.

Each ancillary kit, **except for the kits designated for use with the Pfizer vaccine**, contains supplies to administer 100 doses of vaccine (with some overage). The **Pfizer vaccination kit** will support 975 doses of vaccine (with some overage). Refer to page 12 for possible variations on kit contents.

How will needles and syringes be packaged?

Needles and syringes for vaccine administration may be packaged as integrated units (i.e. NO assembly required) or as separate items in a kit (i.e. assembly required).

AMERICAN OVERSIGHT

Can I order specific brand(s) of needles and/or syringes?

Due to a limited supply of needles and syringes, specification of preferences for needles or syringes is not feasible. Products included in the kits may vary over time. In order to meet the demand for supplies, the federal government has purchased single-use, sterile needles and syringes from multiple manufacturers (to include foreign sources) to ensure adequate supplies. These products are approved by the Food and Drug Administration, safety-engineered and compliant with standards established by the Occupational Safety and Health Administration.

What is considered "pediatric" and "adult"?

For the purpose of immunizations **pediatric is birth through 18 years** and **adult is 19 years and older**. Refer to each product's EUA for age indications.

»Related guidance and resources:

- Preliminary Strategy for Distributing a COVID-19 Vaccine - PDF
- COVID-19 Vaccination Program Interim Playbook for Jurisdiction Operations - PDF

»Contact for questions:

Vaccination providers should contact the manufacturer with questions related to proper product use. Concerns related to needle/syringe quality and performance or other contents of the vaccine ancillary supply kit should be directed to the state or local health department.

To: County Health Systems <CountyHealthSystems@flhealth.gov>
Subject: Used Vaccine Needle disposal

Good morning. I am contacting Mr. Lander directly to inquire about supporting FL counties with the safest and most cost effective used needle disposal option upon COVID 19 vaccine distribution throughout the State. Our devices incinerate the used needle immediately at point of care and subsequently create a more cost effective, safe and environmentally friendly way to dispose of sharps and used needles. Please find the attached video content of our Sharps and Needle Destruction Devices.

- Incinerate a used needle and eliminate the Sharp in 3 seconds.
- Eliminate Bloodborne Pathogens.
- FDA Approved. OSHA Compliant.
- Minimize the risk of needle stick injuries and subsequent workers' compensation claim costs.
- **Save on sharps container and/or volume of medical waste disposal costs as the used syringe can be thrown out in Red Bag Waste instead.**

Please contact me directly with any questions or go to **NoMoreSharps.com**. Thank you very much.

Best Regards,

Philip

Subject: Vaccination Technology
When: Friday, December 11, 2020 1:30 PM-2:30 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Good morning,

We have welcomed Dr. Scheppke return to the State EOC and over the last couple of days he has been presenting on vaccination technology to numerous groups. Some of you may have participated in previous calls but wanted to make sure the county health departments had the opportunity to hear the presentation.

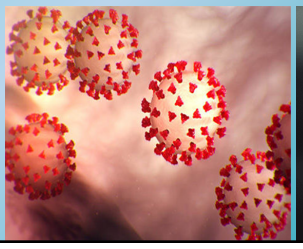
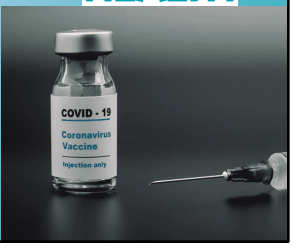
Florida Department of Health



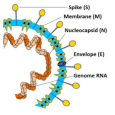


AMERICAN OVERSIGHT

Vaccination Technology Through The Years

Edward Jenner 1796

The Latin word for cow is vacca, and cowpox is vaccinia; Jenner decided to call this new procedure vaccination.



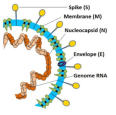
2

See notes below each slide for suggested talking points

AMERICAN OVERSIGHT

Advances in Medical Technology

- Killed Virus: e.g. Hepatitis A
- Live Attenuated Virus: e.g. Measles – took 10 years to produce
- Genetic manipulation of a benign virus
  - Astra Zeneca
  - Johnson and Johnson
- Piece of a Virus: e.g. Novavax – Purified Spike Protein
- Messenger RNA in a man-made virus-like lipid nanoparticle
  - Pfizer
  - Moderna



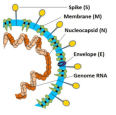
See notes below each slide for suggested talking points

AMERICAN OVERSIGHT

How did we get a vaccine so fast?

- Smallpox vaccine took thousands of years
- Next major advances took hundreds of years
- Measles live attenuated vaccine took a decade
- The Human Genome project was key for the next major advance

See notes below each slide for suggested talking points

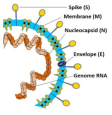


AMERICAN OVERSIGHT

Human Genome Project

- **3 Billion Dollars**
- **Over 200 Labs in USA**
- **18 other countries**
- **Took 13 years (1990 – 2003)**

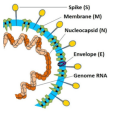
- **<u>Currently:</u> Can decode entire human genome in 24 to 48 hours for less than $1k**



AMERICAN OVERSIGHT

Comparative Size of Genetic Databases

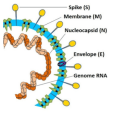
- Human: 6 Billion Bases
- Fruit Fly: 123 Million Bases
- E Coli: 5 Million Bases
- COVID: 30 Thousand Bases



AMERICAN OVERSIGHT

Messenger RNA Vaccines

- NOT A VIRUS!!
- mRNA codes for the target protein
- Can be used for infectious diseases and even cancer therapy
- Ultra rapid development process compared to prior vaccination technology
- 63 Days from SARS-CoV-2 genetic decoding to first human vaccine test injection
- Pandemic causes rapid exposure of treatment groups

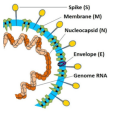


7

AMERICAN OVERSIGHT

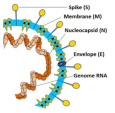
Pfizer-Biontech

- mRNA Vaccine
- Ultracold storage -80C: 6 months
- Refrigerator storage: 5 days
- Room Temperature: 6 Hours
- 44k Study Participants, Diverse background
- Zero safety concerns
- 95% Effective
- Both Antibody and T Cell Immunity
- Possibly 20M Doses by end of 2020



AMERICAN OVERSIGHT

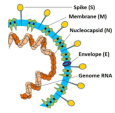
Pfizer / Biontech



AMERICAN OVERSIGHT

Moderna

- mRNA Vaccine
- **Normal Freezer storage: 6 months**
- Refrigerator storage: 7 days (Maybe 30 days)
- Once opened: 6 Hours
- 30k Study Participants, Diverse background
- Zero safety concerns
- Greater than 94% Effective
- Both Antibody and T Cell Immunity
- Possibly 20M Doses by end of 2020

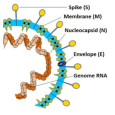


AMERICAN OVERSIGHT

Vaccine Supplies Included?

For centrally distributed vaccines, each kit will contain supplies to administer 100 doses of vaccine, including:

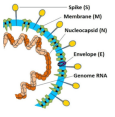
Needles: 25G 1 – 1.5 Inch 105 per kit
Syringes: 1 to 3 mL 105 per kit
Alcohol Prep Pads 210 per kit
4 Surgical Masks per kit
2 Face Shields per kit
Gloves?



AMERICAN OVERSIGHT

Astra Zeneca

- AZD1222 Vaccine: Chimpanzee Adenovirus
- Unable to replicate
- Genetically modified to carry the COVID-19 Spike Protein
- Early Results show both Antibody and T-Cell Immune Response
- May be ready for EUA early 2021

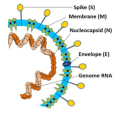


12

AMERICAN OVERSIGHT

Johnson and Johnson

- Ad26 Single Shot Vaccine: Adenovirus Vector similar to AZ
- Unable to replicate
- Genetically modified to carry the COVID-19 Spike Protein
- Early Results show both Antibody and T-Cell Immune Response
- Plan to study 60,000 adults 18 years old and older
- May be ready for EUA early 2021

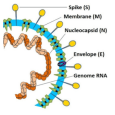


13

AMERICAN OVERSIGHT

Novavax

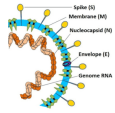
- NVX-CoV2373: Adjuvanted, recombinant, full-length spike protein manmade nanoparticle vaccine
- No virus, no viral nuclear material, just purified viral spike protein
- Early studies showed both antibody and T cell immunity
- Phase 3 results won't be ready till 2021
- Normal Refrigerator Storage



AMERICAN OVERSIGHT

Two Shots – Same Flavor

- Most vaccine candidates require a 2-shot series
- Second shot must be from same manufacturer
- Only J and J is single shot candidate



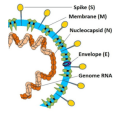
15

AMERICAN OVERSIGHT

Potential EMS Vaccination Strategies

Drive Through and walk-up Sites

Need a separate supervised waiting lot / area for 15-minute post shot evaluation

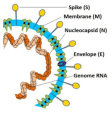


16

AMERICAN OVERSIGHT

Mobile Vaccination Teams

Can bring care to populations with limited access to healthcare system

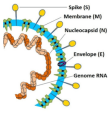


17

AMERICAN OVERSIGHT

Long Term Care Facilities

Mobile EMS Vaccination Teams can augment efforts to provide care to LTC's

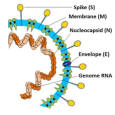


18

AMERICAN OVERSIGHT

Rural Hub and spoke model

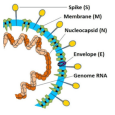
Share resources among hospital and EMS agencies to expand capability for both



AMERICAN OVERSIGHT

Hospital vaccination force multiplier

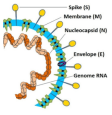
- Free up nurses for more critical care roles
- Expand capacity of Hospital Vaccination Program
- Can be used as part of Rural Spoke and Hub system



AMERICAN OVERSIGHT

What steps for EMS to take now

- Paramedics can provide immunizations per FL Statute 401.272
- Contact your local County DOH
- EMS MD sign MOU with DOH
- Train Medics: CDC Videos
- Checklist of training and keep in records
- Develop Closed or Open POD model



21

AMERICAN OVERSIGHT

Thank You!

Subject: Vaccination Technology
When: Friday, December 11, 2020 1:30 PM-2:30 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Good morning,

AMERICAN OVERSIGHT

We have welcomed Dr. Scheppke return to the State EOC and over the last couple of days he has been presenting on vaccination technology to numerous groups. Some of you may have participated in previous calls but wanted to make sure the county health departments had the opportunity to hear the presentation.

Aaron

Sent to: Health Officers, Director of Nurses, Preparedness, Epidemiology, and Immunization Staff.

AMERICAN OVERSIGHT

From: Otis, Aaron
To: McKay, Leslie W; Young, Shauna L; Leyvahasan, Denisse; Wright, Diane K
Subject: FW: Vaccination Technology
Attachments: Scheppke COVID PPT 2020.pptx
Importance: High

Please open the recorded call in the chat box to view the video presentation. If you need assistance, let me know. This is a call you should watch, as it will provide answers to questions you either have or will receive from the general public. If you have already seen it, please let me know that as well.

Leslie, if you feel the OPS COVID staff should view it, I would like to do that in the open area on the big screen, so if they have questions we can address them and to ensure we are all on the same page and level of understanding.

Thank you so much!

Kim Tuero, RN

Sr. Community Health Nursing Supervisor

Florida Department of Health-Martin

772-221-4988

772-215-6149- Cell

AMERICAN OVERSIGHT

Where: Microsoft Teams Meeting

Good morning,

We have welcomed Dr. Scheppke return to the State EOC and over the last couple of days he has been presenting on vaccination technology to numerous groups. Some of you may have participated in previous calls but wanted to make sure the county health departments had the opportunity to hear the presentation.

Aaron

Sent to: Health Officers, Director of Nurses, Preparedness, Epidemiology, and Immunization Staff.

Importance: High

Dawn,
Overall really useful! And so thank you for giving me the opportunity to provide a little input.
I opted to make the edits using track changes and also insert a few comments. I'm therefore sending the accepted changes/clean version (keeping the total 5 comments visible for you to review).
I used hyperlinks in the few locations I found it a value-add.
Regards,
Asim

Dr. Jani,

This is the draft version. I am still waiting on all of the directors to OK it, and to provide any other suggestions. Feel free to take a peek and let me know if the content for this document on 12.14.20 is ok.

COVID-19 Vaccine and Vaccine Adverse Event Hotline

Contents

Post Vaccine Administration Questions

Q400: I received the vaccine and am having some effects. Are these normal? (nurse or specialist)

Q401: When will my effects go away? (nurse or specialist)

Q402: I received the first Pfizer injection. When is the next shot?

Q403: Can I breast feed after receiving the vaccine?

Q404: I received the vaccine, but discovered I am pregnant?

Q405: I received the vaccine. Can I try to get pregnant?

Q406: I am a health care provider who was vaccinated but have COVID-19 symptoms? (nurse or specialist)

Q407: I received the vaccine and I am having severe effects (shortness of breath, swelling of tongue, etc) (nurse or specialist)

Q408: How can I treat the minor effects I am having? (nurse or specialist)

Q409: Can I still get COVID-19 now that I am vaccinated?

Q410: Do I still need to wear a mask now that I am vaccinated?

Q411: I missed my second dose of Pfizer vaccine, now what?

Q412: I accidentally was given two different COVID-19 vaccine products?

Q413: Can I report my effects to v-safe?

General Vaccine Questions

Q500: What are the ingredients in the Pfizer vaccine?

Q501: How is the Pfizer vaccine dosed?

Q502: How is the Pfizer vaccine stored?

Q503: How is the Pfizer vaccine reconstituted?

Q504: What is the efficacy of the Pfizer vaccine?

Q505: What populations were included in the Pfizer vaccine trials?

Q506: What side effects are common with the vaccine?

Q507: When do the effects occur and resolve?

Q508: Who is Pfizer vaccine approved to be used in?

AMERICAN OVERSIGHT

Q509: Can I receive the vaccine if I am pregnant or breastfeeding?

Q510: Will the vaccine give me COVID-19?

Q511: I have a history of severe allergies. Should I receive the Pfizer vaccine?

Q512: Can the COVID-19 vaccine be administered at the same time as other vaccines?

Post Vaccine Administration Questions

Q400: I received the vaccine and am having some effects? Are these normal?

Injection site pain, fatigue, headache, muscle aches, chills, joint pain, and fever can occur following COVID-19 vaccination. Lymphadenopathy and nausea have also been reported, but not as common.

Commented [Jani, Asim A1]: Altered the order - based on trial-based frequency as per the FDA EUA fact sheet.

Please seek medical attention if experiencing any shortness of breath, throat swelling, weakness, or diffuse body rash.

Cough, shortness of breath, rhinorrhea, sore throat, or loss of taste or smell are symptoms of SARS-CoV-2 or another infection and **not** consistent with post-vaccination symptoms.

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q401: When will my effects go away?

Most signs and symptoms occur within the first 3 days of vaccination and resolve within 1-2 days of onset. The effects are more common after the 2nd dose. Lymphadenopathy usually resolves within 10 days.

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q402: I received the first Pfizer injection. When is the next shot due? What if I'm late in getting the 2nd dose?

There is a total of 2 doses (0.3 mL each) given intramuscularly, 21 days apart. The same product should be administered for both doses.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

AMERICAN OVERSIGHT

Q403: Can I breast feed after receiving the vaccine?

Currently, the recommendations are to not breastfeed after receiving the COVID-19 vaccine.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q404: I received the vaccine, but discovered I am pregnant?

Contact your OB-GYN as they need to know that information.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q405: I received the vaccine. Can I try to get pregnant?

Currently, it is recommended that women of childbearing age avoid pregnancy for at least 2 months after their second dose of vaccine.

Commented [Jani, Asim A2]: This is from the UK govt; and I was unable to find this guidance in the original documents by Pfizer nor the CDC.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q406: I am a health care provider who was vaccinated but I have COVID-19 symptoms:

Review the chart at Post Vaccine Considerations for Healthcare Personnel | CDC to go over options.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q407: I received the vaccine and I am having severe effects (shortness of breath, swelling of tongue, etc)

Contact 911 immediately. What city are you calling from? I can try to connect you to your local EMS services.

Coding: Exposure, reason – adverse reaction drug

AMERICAN OVERSIGHT

Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q408: How can I treat the minor effects I am having?

Hotline staff should assess what medications and disease states the patient has prior to recommending over the counter analgesics or antihistamines.

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q409: Can I still get COVID-19 now that I am vaccinated?

Yes. Even though the vaccine is highly effective, there is still the chance that a vaccinated person might contract COVID-19.

Coding: info call/medical information/explanation of disease states
Substance: COVID-19 Not confirmed

Q410: Do I still need to wear a mask now that I am vaccinated?

Yes. It is recommended to continue to wear a mask, practice social distancing, and frequent hand-washing.

Coding: info call/medical information/disease prevention
Substance: COVID-19 Not confirmed

Q411: I missed my second dose of Pfizer vaccine, now what?

Administration of the second dose within a 4-day grace period (e.g., day 17-21) is considered valid. If greater than 21 days since the 1st dose, the second dose should be administered at the earliest opportunity. No dose needs to be repeated, but both doses are necessary for protection.

Coding: info call/drug information/medication administration
Substance: Code Pfizer COVID-19 vaccine

Q412: I was accidentally administered two different COVID-19 vaccines?

If two doses of different mRNA COVID-19 vaccine were inadvertently administered, no additional doses of either vaccine are recommended at this time.

Coding: Info call/drug information/medication administration
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

AMERICAN OVERSIGHT

Q413: Can I report my effects to V-safe?

Yes. **V-safe** is a smartphone-based tool that uses text messaging and web surveys to provide personalized health check-ins after you receive a COVID-19 vaccination. Through **V-safe**, you can quickly tell CDC if you have any side effects after getting the COVID-19 vaccine. Depending on your answers, someone from CDC may call to check on you. And **V-safe** will remind you to get your second COVID-19 vaccine dose if you need one. More information is located at: V-safe After Vaccination Health Checker | CDC

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

General Vaccine Questions

Q500: What are the ingredients in the Pfizer vaccine?

Nucleoside modified m-RNA, ALC-0315 = (4-hydroxybutyl) azanediyl)bis (hexane-6,1-diyl)bis(2-hexyldecanoate), ALC-0159 = 2-[(polyethylene glycol)-2000]-N,N-ditetradecylacetamide, 1,2-Distearoyl-sn-glycero-3-phosphocholine, cholesterol, potassium chloride, potassium dihydrogen phosphate, sodium chloride, disodium hydrogen phosphate dihydrate, sucrose, water for injection

Coding: info call/drug information/dosage form-formulation
Substance: Code Pfizer COVID-19 vaccine

Q501: How is the Pfizer vaccine dosed?

There is a total of 2 doses (0.3 mL each) given intramuscularly, 21 days apart. It was administered in the deltoid in clinical trials. The same product should be administered for both doses.

Coding: info call/drug information/medication administration
Substance: Code Pfizer COVID-19 vaccine

Q502: How is the Pfizer vaccine stored?

195 vials per tray (975 doses). Shipped in temperature controlled thermal shippers with dry ice. The shipper can contain up to 5 trays of vials (975 vials). A full shipper with dry ice weighs approximately 80 pounds. Recommended storage temperature conditions of -70C+/-10C. The vaccine can be stored for 5 days at refrigerated 2-8C conditions. Once thawed (It can take 2-3 hours for a carton to thaw in a refrigerator or 30 minutes at room temperature) and stored under 2-8C, the vials cannot be re-frozen or stored under frozen conditions. The vaccine can be stored diluted [vial or syringe, room temp or refrigerator] for six hours.

Coding: info call/drug information/stability-storage

AMERICAN OVERSIGHT

Substance: Code Pfizer COVID-19 vaccine

Q503: How is the Pfizer vaccine reconstituted?

There are 5 doses per vial. When thawed vial comes to room temperature, gently invert 10 times. Do not shake. Dilute with 1.8 mL of 0.9% sodium chloride inj, USP using a 21 gauge or narrower needle. Diluent is not provided with the product. Remove 1.8 mL of air to equalize pressure. Gently invert again 10 times. Should be an off-white solution with no particulates present.

Coding: info call/drug information/medication administration
Substance: Code Pfizer COVID-19 vaccine

Q504: What is the efficacy of the Pfizer vaccine?

The efficacy of the Pfizer COVID-19 vaccine may be up to 95% after the 2nd dose. The vaccine provides protection 7 days after the second dose (28 days after initial dose). Efficacy reported in 55 years and older was greater than 93%.

Coding: info call/drug information/pharmacology
Substance: Code Pfizer COVID-19 vaccine

Q505: What populations were included in the Pfizer vaccine trials?

The vaccine was studied in ages 16 and up, with more than 40 % being over the age of 55. In fact, more than 20 % were equal to or over age 65. Multiple races, ethnicities, baseline disease states (diabetes, COPD, liver disease, CHF, peripheral vascular disease, hypertension) and countries (USA, Turkey, Argentina, Brazil, Germany, S. Africa) were involved in the clinical trials.

Coding: info call/drug information/indications-therapeutic use
Substance: Code Pfizer COVID-19 vaccine

Q506: What side effects are common with the vaccine?

Injection site pain, fatigue, headache, muscle aches, chills, joint pain, and fever can occur following COVID-19 vaccination. Lymphadenopathy and nausea have also been reported, but not as common.

Cough, shortness of breath, rhinorrhea, sore throat, or loss of taste or smell are symptoms of SARS-CoV-2 or another infection and **not** consistent with post-vaccination symptoms.

Coding: info call/drug information/adverse effects (no known exposure)
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Commented [Jani, Asim A3]: Altered the order - based on trial-based frequency as per the FDA EUA fact sheet.

Commented [Jani, Asim A4]: Repeated the relevant text from the response to Q400.

AMERICAN OVERSIGHT

Q507: When do the effects occur and resolve?

Most signs and symptoms occur within the first 3 days of vaccination and resolve within 1-2 days of onset. The effects are more common after the 2nd dose.

Coding: info call/drug information/adverse effects (no known exposure)
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q508: Who is the Pfizer vaccine approved to be used in?

The FDA has authorized the emergency use of the Pfizer vaccine in individuals 16 years of age and older.

See Q16 for information about vaccine availability and distribution in Florida

Coding: info call/drug information/indications-therapeutic use
Substance: Code Pfizer COVID-19 vaccine

Q509: Can I receive the vaccine if I am pregnant or breastfeeding?

While safety data on the use of COVID-19 vaccines in pregnancy are not currently available, there are also no data to indicate that the vaccines should be contraindicated, and no safety signals generated from Developmental and Reproductive Toxicity (DART) studies for the Pfizer-BioNtech vaccine. The experts from the American College of Obstetrics and Gynecology (ACOG) therefore recommend that COVID-19 vaccines should not be withheld from pregnant individuals who meet criteria for vaccination based on ACIP-recommended priority groups. Pregnant individuals should be free to make their own decision in conjunction with their clinical care team.

Coding: info call/drug information/drug use during breast-feeding
Substance: Code which vaccine (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q510: Will the vaccine give me COVID-19?

No. The vaccine is not a live vaccine and does not contain SARS-CoV-2. It is a nucleoside-modified mRNA vaccine.

Coding: info call/drug information/pharmacology
Substance: Code which vaccine (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q511: I have a history of severe allergies. Should I receive the Pfizer vaccine?

AMERICAN OVERSIGHT

The **vaccine should not be given to anyone with** a history of severe allergic reaction (e.g., anaphylaxis) to any component of the PfizerBioNTech vaccine. (see response to Q500 for vaccine ingredients).

In contrast, **precaution to vaccination (but not an explicit contraindication) is in place** for those individuals with:

- History of severe allergic reaction (e.g., anaphylaxis) to another vaccine (not including Pfizer-BioNTech vaccine)
- History of severe allergic reaction (e.g., anaphylaxis) to an injectable medication

Finally, **vaccination can be offered** in those individuals who have:

- History of food, pet, insect, venom, environmental, latex, etc., allergies
- History of allergy to oral medications (including the oral equivalent of an injectable medication)
- Non-serious allergy to vaccines or other injectables (e.g., no anaphylaxis)
- Family history of anaphylaxis

The above is from slide#29 from a CDC presentation given on Dec. 13, 2020, entitled "What Clinicians Need to Know About the Pfizer-BioNTech COVID-19 Vaccine."

Commented [Jani, Asim A5]: I consider this 12/13/20 resource/table to be most aligned with the consensus recommendations from CDC on the topic. Hyperlinked to the PPT from 12/13.

Coding: info call/drug information/indications-therapeutic use
Substance: Code Pfizer COVID-19 vaccine

Q512: Can the Pfizer COVID-19 vaccine be administered at the same time as other vaccines?

No. Due to the lack of safety and efficacy data, the Pfizer COVID-19 vaccine should not be administered with another vaccine. It should be given a minimum interval of 14 days before or after another vaccine (e.g. flu shot). If the COVID-19 vaccine is accidentally given within 14 days of another vaccine, neither vaccine needs to be repeated.

Coding: info call/drug information/drug-drug interactions
Substance: Pfizer COVID-19 vaccine

Subject: RE: Vaccine Hotline Script 12.14.20 draft

Thanks! I accepted your changes on the document and updated question 405 to :

Q405: I received the vaccine. Can I try to get pregnant?
Currently, those who are trying to become pregnant do not need to avoid pregnancy after the Pfizer vaccine.

I appreciate your input on the script! The updated copy is here.

Importance: High

Dawn,
Overall really useful! And so thank you for giving me the opportunity to provide a little input.
I opted to make the edits using track changes and also insert a few comments. I'm therefore sending the accepted changes/clean version (keeping the total 5 comments visible for you to review).
I used hyperlinks in the few locations I found it a value-add.
Regards,
Asim

Dr. Jani,

This is the draft version. I am still waiting on all of the directors to OK it, and to provide any other suggestions. Feel free to take a peek and let me know if the content for this document on 12.14.20 is ok.

COVID-19 Vaccine and Vaccine Adverse Event Hotline

Contents

Post Vaccine Administration Questions

Q400: I received the vaccine and am having some effects. Are these normal? (nurse or specialist)

Q401: When will my effects go away? (nurse or specialist)

Q402: I received the first Pfizer injection. When is the next shot?

Q403: Can I breast feed after receiving the vaccine?

Q404: I received the vaccine, but discovered I am pregnant?

Q405: I received the vaccine. Can I try to get pregnant?

Q406: I am a health care provider who was vaccinated but have COVID-19 symptoms? (nurse or specialist)

Q407: I received the vaccine and I am having severe effects (shortness of breath, swelling of tongue, etc) (nurse or specialist)

Q408: How can I treat the minor effects I am having? (nurse or specialist)

Q409: Can I still get COVID-19 now that I am vaccinated?

Q410: Do I still need to wear a mask now that I am vaccinated?

Q411: I missed my second dose of Pfizer vaccine, now what?

Q412: I accidentally was given two different COVID-19 vaccine products?

Q413: Can I report my effects to v-safe?

General Vaccine Questions

Q500: What are the ingredients in the Pfizer vaccine?

Q501: How is the Pfizer vaccine dosed?

Q502: How is the Pfizer vaccine stored?

Q503: How is the Pfizer vaccine reconstituted?

Q504: What is the efficacy of the Pfizer vaccine?

Q505: What populations were included in the Pfizer vaccine trials?

Q506: What side effects are common with the vaccine?

Q507: When do the effects occur and resolve?

Q508: Who is Pfizer vaccine approved to be used in?

AMERICAN OVERSIGHT

Q509: Can I receive the vaccine if I am pregnant or breastfeeding?

Q510: Will the vaccine give me COVID-19?

Q511: I have a history of severe allergies. Should I receive the Pfizer vaccine?

Q512: Can the COVID-19 vaccine be administered at the same time as other vaccines?

Post Vaccine Administration Questions

Q400: I received the vaccine and am having some effects? Are these normal?

Injection site pain, fatigue, headache, muscle aches, chills, joint pain, and fever can occur following COVID-19 vaccination. Lymphadenopathy and nausea have also been reported, but not as common.

Please seek medical attention if experiencing any shortness of breath, throat swelling, weakness, or diffuse body rash.

Cough, shortness of breath, rhinorrhea, sore throat, or loss of taste or smell are symptoms of SARS-CoV-2 or another infection and **not** consistent with post-vaccination symptoms.

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q401: When will my effects go away?

Most signs and symptoms occur within the first 3 days of vaccination and resolve within 1-2 days of onset. The effects are more common after the 2nd dose. Lymphadenopathy usually resolves within 10 days.

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q402: I received the first Pfizer injection. When is the next shot due? What if I'm late in getting the 2nd dose?

There is a total of 2 doses (0.3 mL each) given intramuscularly, 21 days apart. The same product should be administered for both doses.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

AMERICAN OVERSIGHT

Q403: Can I breast feed after receiving the vaccine?

Currently, the recommendations are to not breastfeed after receiving the COVID-19 vaccine.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q404: I received the vaccine, but discovered I am pregnant?

Contact your OB-GYN as they need to know that information.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q405: I received the vaccine. Can I try to get pregnant?

Currently, those who are trying to become pregnant do not need to avoid pregnancy after the Pfizer vaccine.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
If no effects: **Info call/drug information/medication administration**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q406: I am a health care provider who was vaccinated but I have COVID-19 symptoms:

Review the chart at Post Vaccine Considerations for Healthcare Personnel | CDC to go over options.

Coding:
If having effects: **Exposure, reason – adverse reaction drug**
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q407: I received the vaccine and I am having severe effects (shortness of breath, swelling of tongue, etc)

Contact 911 immediately. What city are you calling from? I can try to connect you to your local EMS services.

Coding: Exposure, reason – adverse reaction drug

AMERICAN OVERSIGHT

Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q408: How can I treat the minor effects I am having?

Hotline staff should assess what medications and disease states the patient has prior to recommending over the counter analgesics or antihistamines.

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q409: Can I still get COVID-19 now that I am vaccinated?

Yes. Even though the vaccine is highly effective, there is still the chance that a vaccinated person might contract COVID-19.

Coding: info call/medical information/explanation of disease states
Substance: COVID-19 Not confirmed

Q410: Do I still need to wear a mask now that I am vaccinated?

Yes. It is recommended to continue to wear a mask, practice social distancing, and frequent hand-washing.

Coding: info call/medical information/disease prevention
Substance: COVID-19 Not confirmed

Q411: I missed my second dose of Pfizer vaccine, now what?

Administration of the second dose within a 4-day grace period (e.g., day 17-21) is considered valid. If greater than 21 days since the 1st dose, the second dose should be administered at the earliest opportunity. No dose needs to be repeated, but both doses are necessary for protection.

Coding: info call/drug information/medication administration
Substance: Code Pfizer COVID-19 vaccine

Q412: I was accidentally administered two different COVID-19 vaccines?

If two doses of different mRNA COVID-19 vaccine were inadvertently administered, no additional doses of either vaccine are recommended at this time.

Coding: Info call/drug information/medication administration
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

AMERICAN OVERSIGHT

Q413: Can I report my effects to V-safe?

Yes. **V-safe** is a smartphone-based tool that uses text messaging and web surveys to provide personalized health check-ins after you receive a COVID-19 vaccination. Through **V-safe**, you can quickly tell CDC if you have any side effects after getting the COVID-19 vaccine. Depending on your answers, someone from CDC may call to check on you. And **V-safe** will remind you to get your second COVID-19 vaccine dose if you need one. More information is located at: V-safe After Vaccination Health Checker | CDC

Coding: Exposure, reason – adverse reaction drug
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

General Vaccine Questions

Q500: What are the ingredients in the Pfizer vaccine?

Nucleoside modified m-RNA, ALC-0315 = (4-hydroxybutyl) azanediyl)bis (hexane-6,1-diyl)bis(2-hexyldecanoate), ALC-0159 = 2-[(polyethylene glycol)-2000]-N,N-ditetradecylacetamide, 1,2-Distearoyl-sn-glycero-3-phosphocholine, cholesterol, potassium chloride, potassium dihydrogen phosphate, sodium chloride, disodium hydrogen phosphate dihydrate, sucrose, water for injection

Coding: info call/drug information/dosage form-formulation
Substance: Code Pfizer COVID-19 vaccine

Q501: How is the Pfizer vaccine dosed?

There is a total of 2 doses (0.3 mL each) given intramuscularly, 21 days apart. It was administered in the deltoid in clinical trials. The same product should be administered for both doses.

Coding: info call/drug information/medication administration
Substance: Code Pfizer COVID-19 vaccine

Q502: How is the Pfizer vaccine stored?

195 vials per tray (975 doses). Shipped in temperature controlled thermal shippers with dry ice. The shipper can contain up to 5 trays of vials (975 vials). A full shipper with dry ice weighs approximately 80 pounds. Recommended storage temperature conditions of -70C+/-10C. The vaccine can be stored for 5 days at refrigerated 2-8C conditions. Once thawed (It can take 2-3 hours for a carton to thaw in a refrigerator or 30 minutes at room temperature) and stored under 2-8C, the vials cannot be re-frozen or stored under frozen conditions. The vaccine can be stored diluted [vial or syringe, room temp or refrigerator] for six hours.

Coding: info call/drug information/stability-storage

AMERICAN OVERSIGHT

Substance: Code Pfizer COVID-19 vaccine

Q503: How is the Pfizer vaccine reconstituted?

There are 5 doses per vial. When thawed vial comes to room temperature, gently invert 10 times. Do not shake. Dilute with 1.8 mL of 0.9% sodium chloride inj, USP using a 21 gauge or narrower needle. Diluent is not provided with the product. Remove 1.8 mL of air to equalize pressure. Gently invert again 10 times. Should be an off-white solution with no particulates present.

Coding: info call/drug information/medication administration
Substance: Code Pfizer COVID-19 vaccine

Q504: What is the efficacy of the Pfizer vaccine?

The efficacy of the Pfizer COVID-19 vaccine may be up to 95% after the 2nd dose. The vaccine provides protection 7 days after the second dose (28 days after initial dose). Efficacy reported in 55 years and older was greater than 93%.

Coding: info call/drug information/pharmacology
Substance: Code Pfizer COVID-19 vaccine

Q505: What populations were included in the Pfizer vaccine trials?

The vaccine was studied in ages 16 and up, with more than 40 % being over the age of 55. In fact, more than 20 % were equal to or over age 65. Multiple races, ethnicities, baseline disease states (diabetes, COPD, liver disease, CHF, peripheral vascular disease, hypertension) and countries (USA, Turkey, Argentina, Brazil, Germany, S. Africa) were involved in the clinical trials.

Coding: info call/drug information/indications-therapeutic use
Substance: Code Pfizer COVID-19 vaccine

Q506: What side effects are common with the vaccine?

Injection site pain, fatigue, headache, muscle aches, chills, joint pain, and fever can occur following COVID-19 vaccination. Lymphadenopathy and nausea have also been reported, but not as common.

Cough, shortness of breath, rhinorrhea, sore throat, or loss of taste or smell are symptoms of SARS-CoV-2 or another infection and **not** consistent with post-vaccination symptoms.

Coding: info call/drug information/adverse effects (no known exposure)
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

AMERICAN OVERSIGHT

Q507: When do the effects occur and resolve?

Most signs and symptoms occur within the first 3 days of vaccination and resolve within 1-2 days of onset. The effects are more common after the 2nd dose.

Coding: info call/drug information/adverse effects (no known exposure)
Substance: Code which vaccine administered (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q508: Who is the Pfizer vaccine approved to be used in?

The FDA has authorized the emergency use of the Pfizer vaccine in individuals 16 years of age and older.

See Q16 for information about vaccine availability and distribution in Florida

Coding: info call/drug information/indications-therapeutic use
Substance: Code Pfizer COVID-19 vaccine

Q509: Can I receive the vaccine if I am pregnant or breastfeeding?

While safety data on the use of COVID-19 vaccines in pregnancy are not currently available, there are also no data to indicate that the vaccines should be contraindicated, and no safety signals generated from Developmental and Reproductive Toxicity (DART) studies for the Pfizer-BioNtech vaccine. The experts from the American College of Obstetrics and Gynecology (ACOG) therefore recommend that COVID-19 vaccines should not be withheld from pregnant individuals who meet criteria for vaccination based on ACIP-recommended priority groups. Pregnant individuals should be free to make their own decision in conjunction with their clinical care team.

Coding: info call/drug information/drug use during breast-feeding
Substance: Code which vaccine (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q510: Will the vaccine give me COVID-19?

No. The vaccine is not a live vaccine and does not contain SARS-CoV-2. It is a nucleoside-modified mRNA vaccine.

Coding: info call/drug information/pharmacology
Substance: Code which vaccine (Pfizer or Moderna) if known. Use COVID-19 Vaccine (NOS) if unknown.

Q511: I have a history of severe allergies. Should I receive the Pfizer vaccine?

AMERICAN OVERSIGHT

The **vaccine should not be given to anyone with** a history of severe allergic reaction (e.g., anaphylaxis) to any component of the PfizerBioNTech vaccine. (see response to Q500 for vaccine ingredients).

In contrast, **precaution to vaccination (but not an explicit contraindication) is in place** for those individuals with:

- History of severe allergic reaction (e.g., anaphylaxis) to another vaccine (not including Pfizer-BioNTech vaccine)
- History of severe allergic reaction (e.g., anaphylaxis) to an injectable medication

Finally, **vaccination can be offered** in those individuals who have:

- History of food, pet, insect, venom, environmental, latex, etc., allergies
- History of allergy to oral medications (including the oral equivalent of an injectable medication)
- Non-serious allergy to vaccines or other injectables (e.g., no anaphylaxis)
- Family history of anaphylaxis

The above is from slide#29 from a CDC presentation given on Dec. 13, 2020, entitled "What Clinicians Need to Know About the Pfizer-BioNTech COVID-19 Vaccine."

Coding: info call/drug information/indications-therapeutic use
Substance: Code Pfizer COVID-19 vaccine

Q512: Can the Pfizer COVID-19 vaccine be administered at the same time as other vaccines?

No. Due to the lack of safety and efficacy data, the Pfizer COVID-19 vaccine should not be administered with another vaccine. It should be given a minimum interval of 14 days before or after another vaccine (e.g. flu shot). If the COVID-19 vaccine is accidentally given within 14 days of another vaccine, neither vaccine needs to be repeated.

Coding: info call/drug information/drug-drug interactions
Substance: Pfizer COVID-19 vaccine

AMERICAN OVERSIGHT

COVID-19 Vaccine Updates – Week of 12/7/2020

OVERVIEW

- Securing and distributing a COVID-19 vaccine is a top priority for the state of Florida. A COVID-19 vaccine will be a critical resource to preventing the further spread of the virus and allowing Floridians to return to the normal pace of life.
- The state of Florida is committed to providing timely and important updates regarding the distribution of a COVID-19 vaccine. The state is working alongside the federal government to answer key questions for Floridians and secure additional therapeutic treatments for our hospitals as we continue to respond to COVID-19 in our state.

Pfizer COVID-19 Vaccine

- Friday, Dec. 11, the U.S. Food and Drug Administration issued the first emergency use authorization (EUA) for a vaccine for the prevention of coronavirus disease 2019 (COVID-19). The emergency use authorization allows the Pfizer COVID-19 Vaccine to be distributed in the U.S.
- FDA has authorized emergency use of the Pfizer COVID-19 Vaccine in individuals 16 years of age and older
- The Pfizer COVID-19 Vaccine vaccination series is 2 doses given 3 weeks apart.

PREPARATION

- The State of Florida has been proactively preparing for vaccine distribution since July.
- The Florida Division of Emergency Management created a stockpile of resources in anticipation of distributing the COVID-19 vaccine. This includes 5 million syringes, 5 million needles, 5 million band-aids, etc. These initial purchases were made to prevent any delay in administering a vaccine, once it becomes available.
- The Department is working closely with the federal government to plan for the distribution of a COVID-19 vaccine. A draft plan was submitted to the Centers for Disease Control and the state and is available online at floridahealthcovid19.gov.
- As we gather more information from the federal government on vaccine availability and distribution, this plan will continue to be updated.

OVERALL DISTRIBUTION

AMERICAN OVERSIGHT

- In addition to working with CVS and Walgreens, the state is also launching a pilot in Broward and Pinellas counties to vaccinate long term care facilities in conjunction with their respective county health departments.
- In the initial planned distribution of 179,400 doses of Pfizer vaccine, 97,500 doses will be distributed amongst the 5 Florida pilot hospitals.
- 60,450 doses will be sent to the Federal Pharmacy Program with CVS and Walgreens for long-term care facility residents and staff.
- 21,450 doses will go directly to the Florida Department of Health to administer by strike teams in long term care facilities.
- They will then work with partners from the Florida National Guard and
- The vaccine is expected to arrive this week and distribution will begin almost immediately.

LONG TERM CARE FACILITIES

- The State of Florida is prioritizing the most at-risk populations to receive the initial round of vaccines. This includes:
    - Residents and staff of long-term care facilities
    - High risk frontline health care workers
- The state has prioritized the safety of these populations since the onset of the pandemic. These populations are the most at-risk to contract the virus and experience complications from the virus.
- The Department is working closely with partners to distribute the vaccine to long-term care facilities, including CVS and Walgreens.
- CVS and Walgreens are working under Operation Warp Speed to distribute the vaccine to long-term care facilities across the nation, and they are a critical partner here in Florida.
- The state is also working with the Agency for Health Care Administration to ensure that we are prioritizing the most vulnerable and are working closely with the administrators of long-term care facilities to address any challenges they face.
- AHCA has established emergency rules requiring that Nursing Homes and Assisted-Living Facilities enroll in the CVS/Walgreens Program. More than 97% of all facilities have already enrolled.

DISTRIBUTION TO HOSPITALS

AMERICAN OVERSIGHT

- As vaccines continue to be developed, the state of Florida has been aggressively working to secure adequate and reliable storage for the COVID-19 vaccine.
- The Pfizer vaccine requires extraordinary storage capabilities. Once this was announced, the state immediately began working to identify hospitals that are capable of storing this vaccine.
- The state surveyed all hospitals in Florida to determine demand and storage capabilities. The state then sent the collected information to the federal government and the federal government made the final determination of which hospitals will receive the initial vaccine supply. The five hospitals identified are:
    - Jackson Memorial Hospital in Miami-Dade County
    - Memorial Healthcare System in Broward County
    - Tampa General Hospital in Hillsborough County
    - Advent Health in Orange County
    - UF Health in Duval County

VACCINATION FOR THE GENERAL PUBLIC

- Following the initial distributions to high-risk frontline health care workers and long-term care facility staff and residents, the state will work to provide vaccine to additional priority groups, including first responders.
- The state is committed to providing the vaccine to each priority group and to the general public as quickly as possible, however, much of these plans are dependent on vaccine supply.
- Updates on timeline for the general public will be provided as those plans become available.

AMERICAN OVERSIGHT

Subject: FW: Vaccine Transfer

Please see below – any concerns with this plan? They will do the forms etc, but wanted to check with you first.

They clarified - Brooks Rehab Hospital is adjacent to Memorial Hospital which has agreed to store for them if necessary. However, the number to Brooks will be low and they plan to use their doses within 2 days. Transferring to them will reduce the FTE burden on UF Health since we won't have to station a pharmacist and support person with the vaccine at all times.

Subject: RE: Vaccine Transfer

I am sending you the step by step instructions for doing the transfer and ensuring it's in SHOTS. I wish we had thought to do this earlier, but wanted you to have it now.

I'm going to share with the other 4 hospitals doing transfers as well. We will definitely make this a formal document and have it for future reference to hopefully make this transfer process a little easier on everyone. This is new for everyone so we are learning many lessons along the way.

Thanks for all your hard work in getting this vaccine out there and in the arms of folks!

- Sender gets VFC PIN number for Receiver
- Sender fills out Redistribution Agreement form
- Sender emails Redistribution Agreement form to the VFC program at floridavfc@flhealth.gov with the VFC PIN numbers involved in the vaccine transfer
- VFC program will email Sender confirmation that the transfer has been approved
- Sender performs transfer by logging into FL SHOTS and clicking on Vaccine Inventory, then Vaccine Transfer and following prompts
- Sender prints out VFC Transfer form, signs and places with vaccines going to Receiver
- At time of transfer Receiver verifies correct inventory
- Receiver signs VFC Transfer form and emails to VFC Program at floridavfc@flhealth.gov
- Receiver applies the Pending Receipt via logging into FL SHOTS account, clicking on Vaccine Inventory, then Pending Receipt and following prompts
- Receiver then has the vaccine in their inventory and the transfer is complete

Please let me know if you have any questions,

To hope and healing.

December 11, 2020

Scott A. Rivkees, M.D.
Surgeon General, State of Florida
Florida Health
4052 Bald Cypress Way
Tallahassee, FL 32399

Dear Dr. Rivkees:

As the Florida Department of Health works through the process of allocation and distribution of the COVID -19 vaccines, I wanted to take the opportunity to advocate for our frontline healthcare workers and patients at the four facilities we operate for the Department of Children and Families; South Florida State Hospital, South Florida Evaluation and Treatment Center, Treasure Coast Forensic Treatment Center and Florida Civil Commitment Center.

I am proud of the dedication our frontline staff have shown since the beginning of this pandemic. As a company, we focus on treating vulnerable patients which can be challenging in the best of times. Our Wellpath team has stepped up and met the challenges of serving this population under what can best be described as difficult circumstances. Our company has been committed to doing what we can to show our gratitude, from increased pay during the early months of the pandemic, to additional paid time off for those testing positive, to dramatically increasing our procurement team to get our healthcare workers the personal protective equipment they need in order to stay safe while continuing to do their jobs with dignity and compassion. What I cannot get for them is the vaccine.

I am reaching out to you today on behalf of our Wellpath team members in Florida, to ask that they be included in phase 1 of vaccine distribution. As you know, they cannot socially distance in their environment, and yet they continue to show up every day to care for Florida's most vulnerable patients. We appreciate all that you and your department have done to assist us during this public health crisis. We look forward to continuing to work with you on ways we can protect our patients and team members from the COVID – 19 virus. I appreciate your consideration of my request.

Sincerely,

Jorge Dominicis
Chief Executive Officer

cc: Governor Ron DeSantis
Secretary Chad Poppell, Department of Children and Families

Subject: 2D Barcodes

Region IV Team,

Here are a few nuggets on 2D barcodes. I know nothing other than what is here.

Moderna vaccine vials will have a 2d barcode, but it's complicated. The vial will have a small 2D that will NOT work like normal vial 2d. Apparently it's for manufacturing line processing only. The carton will have 2 different ones: small one also for manufacture line processing and the larger one will be the one HCP can scan. They don't add the code until right before it's packaged, so we haven't actually seen the code on the box - just a blank where they say it will go.

CDC doesn't know yet how well the 2d will work while under EUA. Moderna said they will have GTN, placeholder date, & lot # on carton.
Normally we tell people to scan vial, though, and not the carton. There will be no expiration date on Moderna product. That can be found under the QR code or manufacturer web link. The provider will enter lot # and it will tell them what the actual expiration date is.

Subject: AdventHealth Altamonte Springs Florida Shot - COVID Enrollment

Good evening Amy,

AdventHealth Altamonte Springs was the only one of our hospitals that was missing from the Governor's listing of hospitals to receive Moderna. We see they are enrolled in Florida Shots along with all our campuses and we submitted a Section B of the CDC COVID-19 Vaccine Provider Agreement as we have with all of our hospital campuses.

With a 10 am deadline to make sure we are properly enrolled, we do not want to miss out on receiving Moderna at this location and need to understand what if anything is missing for AdventHealth Altamonte Springs.

Please do not hesitate to contact me at 321-228-6165.

Blessings,
Diane L. Godfrey

AIM Members –

So much going on!! This has been an historic weekend, and now we are in for a wild ride!! Put your seatbelts on !!

Pfizer Vaccine …..

- AIM Pfizer Webinar (Mon 12/7). What was new? Pfizer mentioned 30 mins observation time after vaccination, and recommended against redistribution saying that when the "pizza box" is opened and any vials are touched, none of the vials can go back into ultra cold. CDC says additional guidance on redistribution is coming. View the meeting minutes here.
- FDA VRBPAC meeting on Pfizer vaccine (Thurs. 12/10): Committee members voted that based on the totality of evidence, the benefits of Pfizer COVDI-19 vaccine outweighs its risk for individuals age 16+. View the presentation slides, AIM's summary and meeting minutes here. FDA press release on VRBPAC committee meeting.
- FDA Emergency Use Authorization for Pfizer/BioNTech COVID-19 Vaccine (Fri 12/11). View press release here.
- ACIP meeting on Pfizer vaccine recommendation (Fri 12/11-Sat 12/12) View presentation slides here. AIM Public Statement at ACIP attached.
- CDC MMWR for recommendation for Pfizer vaccine (Sun 12/13) MMWR Here
- CDC announced a very comprehensive call schedule for this week. Check NCIRD Awardee message Sun Dec 14 at 8:08pmET "Jurisdiction calls for week of 12-14-20" CDC held calls on Sat and Sun for partners and providers. If you missed them, meeting notes will be available from CDC soon.
- CDC NCIRD message 12/11 states CDC policy and communications groups are working hard to get a variety of materials out based on the EUA and pending ACIP recommendations, including:
    - Vaccine administration materials
    - Storage and handling materials including a expiration date tracker, checklist for unpacking a delivery, temperature log, dry ice general safety, and more
    - Product-specific clinical landing pages

AMERICAN OVERSIGHT

- General public webpages on Pfizer's vaccine and who is being recommended to get vaccinated
- V-safe information
- CDC's COVID-19 Vaccination Communication Toolkit for Medical Centers, Clinics, and Clinicians
- COCA call: What Every Clinician Should Know about COVID-19 Vaccine Safety
- Stakeholder engagement

- Pfizer's public-facing EUA site is live. Pfizer-BioNTech COVID-19 Vaccine | cvdvaccine.com. Pfizer will be uploading materials on Saturday and Sunday.
  - Fact sheet for Healthcare Providers/Vaccinators is uploaded. Click here.
  - Fact sheet for recipients and caregivers is uploaded**.** Click here.
  - Pfizer is hosting 2 trainings/day every day next week. AIM will send meeting information out when we receive it.

Moderna Vaccine …

- Moderna Announces Addition of Adolescents to Phase 3 Trial
- U.S. Government Purchases Additional 100 Million Doses of Moderna Vaccine
- Early shipment sites for Moderna vaccine were due to CDC Friday Dec 11.
- AIM will host Moderna COVID-19 Vaccine Updates Pt. 2 Webinar on **Tues. 12/15 at 11am ET.** Deadline to register is Tues. 12/15, 10am. Register here.
  - VRBPAC Meeting to discuss Moderna COVID-19 vaccine, Thurs Dec 17. Meeting announcement here. Meeting materials will be available 12/16. AIM will be watching the live webcast and will be providing meeting notes to members.
- ACIP Emergency Meeting to recommend Moderna vaccine, Fri Dec 18, Sun Dec 20. ACIP Webpage (no agenda yet)

Additional Updates….

- AIM December General Membership Webinar: **Thurs. 12/17 at 2:00pm ET**. Register here.
- **IIS Manager and IZ Program Managers ONLY:** AIM-AIRA Survey on health system employee data flow. The request is in response to concerns from the community regarding how employee health immunization data for health care workers will be captured by IIS for the COVID response. AIM and AIRA are gathering a better understanding of how these data may be received from hospitals and health systems and understanding the pain points related to this issue. **One response per jurisdiction**. Complete the survey here.
  - The Global Health Crisis Coordination Center (GHC3) released the Priority-based use of Allocated Vaccines Estimator (PAVE) tool. With Microsoft providing technical resources, the Global Health Crisis Coordination Center (GHC3) developed a calculator to help health departments and other entities receiving limited allotments of vaccines plan for and achieve priority based allocation to populations at high risk for SARS-CoV-2 morbidity and mortality. PAVE provides a conceptual framework and calculator to plan for the distribution of vaccines, messaging campaigns with targeted community engagement, positioning vaccines into locations that will increase access

AMERICAN OVERSIGHT

to them, considering communities disproportionately affected, and ultimately getting the vaccines into the arms of people within prioritized categories. You can access PAVE through the following link: Home · Starter Portal (powerappsportals.com). For more information contact Claire Hannan at channan@immunizationmanagers.org.

- Public Health Foundation (PHF) has created COVID-19 Vaccine Trainings available now on TRAIN. View training plan here.
- FDA Stakeholder Call with FDA Commissioner Stephen Hahn, FDA Director of CBER Peter Marks Mon. 12/14 at 12:30pm ET. Contact ajensen@immunizationmanagers.org for call-in information.
- NVAC Report – Preparing for COVID-19 Vaccination: Recommendations from National Vaccine Advisory Committee. Approved 12/4. Read report here.
- AIM Survey: ACIP Phase 1b – click to view the survey results.
- A bi-partisan group in Congress proposed a compromise COVID relief package which includes $6 billion for COVID vaccine response, including a little over $3 billion to be sent to awardees. ASTHO and AIM continue to advocate for $8.4 billion to fund COVID vaccine planning and implementation. Congress passed a one-week spending bill through 12/18.
- CDC will be releasing guidance in writing soon about re-distribution of Pfizer vaccine in ultra-cold temperatures. For now, refer to Pfizer's training presentation for information.

Talking Points… NEW!

- Shipments for Pfizer vaccine left the warehouse on Sunday. Vaccine is expected to arrive at the 636 early shipment sites across the country on Monday, Tuesday, or Wednesday.
    - The vaccine will be in limited supply for probably the next several months. Rollout of the vaccine will be in phases, with the earliest phase focused on healthcare workers and in those in nursing homes. Some states will be focusing on healthcare workers first, some states on long term care facilities, and most states doing a combination of both.
    - The long term care facility program is a partnership with CVS and Walgreens. Over 99% of skilled nursing facilities are enrolled in the program. States decide when to turn the program on; they need to have enough vaccine of one or the other brand to begin the program.
    - Vaccination in long term care facilities could begin in some states the week of December 21. But in most states, vaccination in long term care facilities will begin after the holidays.
    - The need for funding to support the rollout of the vaccine is critical. Funding is needed to enroll tens of thousands providers, hire community vaccinators and nurses, purchase equipment and supplies, and roll out comprehensive communication and training programs.
    - We're going to learn quite a bit as we vaccinate healthcare workers… how long it takes to vaccinate, how well we are managing the cold storage complications, how many people are accepting the vaccine, what questions recipients have about the vaccine ….. This information, combined with more predictable and stable vaccine allocations, will put us in a better position to prepare the public for what to expect and when to expect vaccine.
    - Consumer acceptance is risen from about 50% in September to about 60% this week, with about 18% undecided. Increased communication about the safety and efficacy of the vaccine is needed. A national campaign is expected.

AMERICAN OVERSIGHT

It is important to remember that the vaccine won't be available for everyone for another several months.
- The vaccine is safe and effective. We've been planning for months, and it's finally time to hit GO.
- It isn't going to be easy. A large scale vaccination campaign, with multiple vaccines, 2 doses, and phased roll out ??? We haven't attempted anything like this. There will be challenges, but we will make this work.

AMERICAN OVERSIGHT

ASSOCIATION OF IMMUNIZATION MANAGERS

ADVISORY COMMITTEE ON IMMUNIZATION PRACTICES (ACIP)
December 12, 2020
PUBLIC COMMENT

Thank you for the opportunity to provide public comment on this truly historic day. I am Claire Hannan, Executive Director of the Association of the Immunization Managers. Our nonprofit represents the state, territorial, large urban area public health immunization programs. These amazing government employees have been working with CDC, Operation Warp Speed, state health officials, governors, hospitals and other stakeholders across their jurisdictions to plan for the distribution of COVID 19 vaccine. Months of vaccine distribution and logistics planning are now coming to fruition.

Guidance on subsequent priority groups is needed immediately. Jurisdictions are working now to plan for vaccine allocations coming in the next month. They need to work closely with providers and communicate clearly with consumers about what to expect. Many have advisory committees and ethics groups designed to assure equity in distribution. They cannot effectively plan and communicate expectations without guidance from the ACIP.

I want to specifically speak to the dilemma facing jurisdictions with essential workers, those over 65, and those with underlying conditions. There is not consensus across states on this issue. Some governors have signaled the importance of vaccinating those most at risk for hospitalization and death, older Americans and those with multiple risk conditions. This may lead to very different approaches across states.

Essential workers may be in harm's way, and can spread the virus in communities. The current definition of essential workers is extremely broad. For example, the CISA list for essential workers encompasses almost 70% of the U.S. population. If this group is prioritized, states would appreciate guidance for which essential workers should be vaccinated first. Additionally, talking points and communication guidance will be needed to explain why essential workers who may not be at high risk for severe disease are being vaccinated before people 65 and older and those with underlying health conditions. I urge the ACIP to provide specific guidance on prioritization as soon as possible.

Eeducational materials are needed on exactly who should receive the vaccine, especially related to pregnant and lactating women, 16 to 17 year olds, and those with allergies. Screening questions that can be used by providers at administration sites would be very helpful, so I am very glad to hear about the CDC "what you need to know" information for potential vaccinees.

I would like to close by reminding the committee and everyone listening of the dire need for additional funding for state, territorial and local public health agencies. Public health agencies have received just $340 million, while more than $10 billion has been invested in vaccine research and production. Public health agencies desperately need funding to continue to enroll tens of thousands of providers, to hire community vaccinators and nurses, to purchase equipment and supplies, and to roll out large scale communication plans with websites, educational materials, and hotlines. Nothing is more important to the success of this of this vaccination campaign than the trust of healthcare workers, nursing home residents and eventually all Americans in every community about the safety effectiveness of this vaccine. Resources are needed to ensure this success.

Thank you.

Subject: Allocation and Moderna Vaccine

Hi Erin, need your assistance – I am fielding questions from our local hospital, Flagler Hospital, as to if I know why they are not getting an allocation of the Moderna vaccine? To where may I refer them?

Thanks

Dawn

Dawn C. Allicock, M.D., M.P.H., CPH

Subject: Another historic weekend as Moderna's vaccine is authorized and recommended for use

Good afternoon,

It has been another historic weekend as a second COVID-19 vaccine has been authorized and recommended for use. The new MMWR report on ACIP's COVID-19 vaccine recommendation for the Moderna vaccine is now available here. I believe that vaccines are the tools we'll use to end the pandemic.

Earlier today ACIP met and had a robust discussion around the next priority groups. Based on their discussion, ACIP voted 13 to 1 that when COVID-19 vaccine supply is limited the following groups should be offered vaccination:

- Phase 1b: persons aged =75 years and frontline essential workers
- Phase 1c: persons aged 65–74 years, persons aged 16–64 years with high-risk medical conditions, and other essential workers

We hope for Dr. Redfield's concurrence in the next day and plan to publish an MMWR and clinical considerations on Tuesday.

A few additional things to highlight:

- Earlier today CDC posted online the cumulative, national number of COVID-19 vaccine doses distributed and administered. This data will be updated daily after 3pm ET with data from the previous day.
- Distribution of Moderna's vaccine has begun and deliveries will take place Monday through Wednesday much like they did for Pfizer's vaccine.
- Vaccination administration information for Moderna's vaccine will be available online shortly.
- The clinical guidance for anaphylaxis is available online, as well as public facing page.

The photos and videos from last week's vaccination clinics were incredibly moving. CDC staff

AMERICAN OVERSIGHT

had an email chain going with every new photo, story, and social media post they found. We were overwhelmed by the enthusiasm among those getting vaccinated – you are truly vaccine ambassadors and heroes.

I know I've said it before, but I appreciate all the work you have done and the work I know you will continue to do. I hope you have seen the culmination of your work reflected in the people who have been vaccinated and encourage you to keep up the great work.

Thank you,
Nancy

Nancy Messonnier, MD
Director
National Center for Immunization and Respiratory Diseases

Subject: Clarification on ancillary supply kits

CDC's central distributor, McKesson, has received questions about the contents and quantities for ancillary supply kits that support Pfizer-BioNTech COVID-19 Vaccine. Please review the attached clarification from McKesson about needle and syringe product quantities.

For more information on products and ancillary supply kits, refer to the Product Information Guide provided in the December 10th All Awardee Weekly Summary email. This document will be updated and distributed as new information becomes available.

Please direct any issues regarding ancillary supply kits to McKesson Customer service (phone: 833-272-6634, email: SNSSupport@McKesson.com).

Subject: Covid Vaccine Transfer request

Good morning.
AdventHealth Orlando is requesting the ability to transfer 2 boxes of COVID vaccine (1950 doses, 390 vials) to HCA. One box will go to Pin number for Osceola regional Medical Center PIN 701459 and the other to PIN 701451 for Central Florida Regional. This transfer request is contingent on approval today (12/20) as our transfer plan to these facilities will be different if we're not able to initiate transfer until tomorrow. I have attached our signed transfer agreement for reference.
