The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

Hi,

I moved to Florida in 2019. I am a retired attorney, and I am aghast that HB1 even made it out of committee. Please oppose this bill, as it is redundant in its punishment of violent demonstrators, it clearly infringes on our constitutional rights of free speech and assembly, and it will cost this state a great sea of money in the challenges that are sure to follow if it is unwisely passed.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. AMERICAN OVERSIGHT

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing.
We cannot fast-track this bill through on party lines. Florida HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing voices demanding basic human rights, equality, and fair treatment under the law.
Recently, we have seen police in Florida take a generally aggressive response to protests, and the public reactions have exposed the massive corrosive element of racism at the core of law enforcement and an authoritarian purpose of police: To serve and protect the property and interests of major corporations, ultra-rich, certain government entities, and special government officials. Even if it means police are to terrorize the very people they are assumed to protect.
Conditions will arise which require the people to take to the streets and protest, exercising their Constitutional right to petition their government for change. Despite the people's protection under the 1st amendment, many authoritarian leaders will stick with current strategies and response tactics, or ratchet-up the use of force with unconstitutional laws like HB1. The rank and file police officers will be stuck in an awkward and untenable position: on one hand, they are ordered by the authority to face down, beat down, and dominate innocent people, peacefully assembled. On the other hand, they will see Americans not unlike themselves, with similar social and economic problems, exercising their 1st amendment rights to protest. In the end, they will not follow insane orders to brutalize citizens as required by Florida HB1. Stop this bill now.
This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of protestors that is guaranteed to all people under the US Constitution.
The Executive Director of the ACLU of Florida, Micah Kubic, stated that "This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional."
The House Justice Appropriations Subcommittee should address the calls of Florida voters and people who care enough to peacefully assemble.
Floridians' health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Natalie Brown,

Please OPPOSE HB1. This bill criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

This legislation would make it legal for motorists who strike protestors with their vehicle even if the incident results in someone's death.

Also, this legislation also preempts municipalities' control over their budgets. State officials do not know and should not dictate the needs of cities and towns regarding public safety.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

Greetings, I am writing to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing much less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing. That it has been fast-tracked through the House on party lines is Un-American. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

And by extent seeking to silence anyone opposing them!

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

And therefore ANYY protestor in the future.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem!

Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

My name is Kayden Karmazin and I am a resident of Palm Beach Gardens, Florida. I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

Please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.
Just remember desantis is a FASCIST MAGGOT!!!!!!!

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

AMERICAN OVERSIGHT

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing.
We cannot fast-track this bill through on party lines. Florida HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing voices demanding basic human rights, equality, and fair treatment under the law.
Recently, we have seen police in Florida take a generally aggressive response to protests, and the public reactions have exposed the massive corrosive element of racism at the core of law enforcement and an authoritarian purpose of police: To serve and protect the property and interests of major corporations, ultra-rich, certain government entities, and special government officials. Even if it means police are to terrorize the very people they are assumed to protect.
Conditions will arise which require the people to take to the streets and protest, exercising their Constitutional right to petition their government for change. Despite the people's protection under the 1st amendment, many authoritarian leaders will stick with current strategies and response tactics, or ratchet-up the use of force with unconstitutional laws like HB1. The rank and file police officers will be stuck in an awkward and untenable position: on one hand, they are ordered by the authority to face down, beat down, and dominate innocent people, peacefully assembled. On the other hand, they will see Americans not unlike themselves, with similar social and economic problems, exercising their 1st amendment rights to protest. In the end, they will not follow insane orders to brutalize citizens as required by Florida HB1. Stop this bill now.
This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of protestors that is guaranteed to all people under the US Constitution.
The Executive Director of the ACLU of Florida, Micah Kubic, stated that "This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional."
The House Justice Appropriations Subcommittee should address the calls of Florida voters and people who care enough to peacefully assemble.
Floridians' health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing. That it has been fast-tracked through the House on party lines is Un-American. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

And by extent seeking to silence anyone opposing them!

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

And therefore ANYY protestor in the future.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem!

Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. Meagan Hebel,

Come on this is unconstitutional and will only be enforced for POC. Don't do this, don't waste money and time on this when it'll be challenged by the aclu.
Let's work on healthcare and affordable housing and addressing poverty instead of this BS.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a "response to the violent insurrectionist mobs" that attempted a coup on the nation's Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida's poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone's death. It limits people's ability to apply to Florida's already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent "policing" during a "riot". Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that "This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional."

A statewide survey of Florida voters put out after the attack by Donald Trump's supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis' push to amp up criminal penalties for "disorderly" protests. Ninety-percent of those asked stated their support for "protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges". Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were "much more likely". On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was "very important". (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to "defund" the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government's ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida

voters and people who cared enough to peacefully assemble. We need to face the issues head

AMERICAN OVERSIGHT

on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

AMERICAN OVERSIGHT

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing much less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions, this bill is a distraction and the exact opposite of what you should be spending your time on as a legislator.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone's death.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that "This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.

Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am disapointed that this legislation has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the the housing crisis, the unemployment crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida, this legislation is presented as smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida's poverty impacted and oppressed.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone's death. It limits people's ability to apply to Florida's already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent "policing" during a "riot". Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that "This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional."

A statewide survey of Florida voters put out after the attack by Donald Trump's supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis' push to amp up criminal penalties for "disorderly" protests. Ninety-percent of those asked stated their support for "protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges". Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Natalie Brown,

I know a lot of the following is boilerplate, but between trump and this idiocy, you're running screaming from the ideals of the enlightment that have made our flawed and troubled nation a beacon of hope. We ain't perfect, but the ideas enshrined in the bill of rights, the 13th, and 14th amendments, these things are the only thing that save our souls.

Stop acting like this. Stop being the part of the lowest common denominator and lead for chrissakes. Protect the poor and the downtrodden, as christ demanded of us. Shut up about abortion, which he never mentioned. Tax the rich, house the poor, let people protest, be stewards of the earth. Christ wasn't subtle, he directly told y'all to do this shit and to love your fellow man and you just refuse over and over again.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing.

This proposed legislation (HB1) is flawed in several ways: (1) it's unconstitutional as it restricts/chills the exercise of free speech rights under the 1st Amendment to the US Constitution;
(2) it's also unconstitutional as it tries to ban our right to petition our government for redress from "public spaces" (State property); (3) it's unnecessary as existing laws already adequately cover those who engage in violence (at or near protests); and (4) it's likely to encourage some people (vigilantes) to violently engage with even peaceful protesters (we don't need to extend "stand your ground" doctrine to this arena).

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. Natalie Brown,

I am writing to you to ask you to have a spine and OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. AMERICAN OVERSIGHT

Meagan Hebel,

Please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing.

I could write a lot about it, but basically, it isn't needed, and seems an attempt to stop people from protesting.

I abhor violence and destruction, and have never engaged personally, but I have attended protests. I have seen how some peaceful protestors are manhandled and when that happens, that is not right and will get people angry.

I think Black Lives Matter and I firmly believe that Black people are often treated worse and more roughly by police. I'm not saying all police are authoritarian and racist, but quite a few are and FBI studies show white supremacists have infiltrated law enforcement. It's real.

Also, I think our LEO move much too quickly to maximum response and have too much "war" type training. They are dealing with fellow citizens. Police shouldn't act like they are dealing with the "enemy."

When something is really wrong, and has been for decades (I've lived long enough to remember the 1960s- Newark, Detroit, etc.) and nothing is done about it, and unarmed black people continue to be killed on the streets over small things (fake currency, loose cigarettes being sold) THAT is the problem, not people being sick of it.

Get to the root problems, solve those, and make it so there isn't anything to protest.

Back to the original point: we have laws for property destruction, violence, etc. No need to make anyone who is innocently involved in a protest responsible for what one person might do. Go after the guilty party/ies and don't consider everyone guilty by association unless they've actually done something or can be proved to have encouraged someone else to do something violent or destructive.

This legislation appears to exist for the sole purpose of dampening ALL protests.

People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. AMERICAN OVERSIGHT

Kimberly Simon,

HB 1 is clearly unconstitutional. It invites government infringement on our individual liberties- our first amendment rights- and paves the way for State overreach into local matters.

You each took an oath to uphold and defend the constitution. So with that in mind, it should be very simple for you to vote no on HB 1 and kill it in this committee.

Thank you

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.
