Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes the free speech, peaceful assembly and dissent that we, as citizens of the United States, are constitutionally guaranteed. This bill uses unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. This is the same thing DeSantis tried to propose in September, meant to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute ALREADY criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. Its only impact would be to let vigilante murder legal. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and underfunded education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not TRAVEL in Florida.

AMERICAN OVERSIGHT

they should not MOVE to Florida, they should not VISIT Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Natalie Brown,

I oppose this bill. Enforce the laws we have, fairly, and we don't need more, This one is outrageous. trump's Jan 6 behavior would would be cause for his arrest under this. I am so sick of having to fight like heck to stop unconstitutional legislation from being enacted, but it is the cost of being a free society. There are always some who want to take that freedom away, like DeSantis. This is another way to suppress voting, also, with the threat of FELONY charges. We have the right to protest peacefully. I see lots of abuse of this "law" in the future, as I imagine Desantis is aware with police self defining its interpretation. Do not support this bill, please!

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Meagan Hebel,

Howdy howdy the below is a form letter that I agree with, but I want y'all to know this bill is such racist crap. The problem isn't protesters. The problem is white supremacists. Take care of them and you won't have BLM protestors to be racist towards.
Anyway here's the form letter, have a nice day.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

AMERICAN OVERSIGHT

Natalie Brown,

The 2nd Amendment of the U.S. Constitution specifically addresses the freedom for people to assemble peacefully to voice their dissent with the government. I am writing to stongly oppose and disagree with passage of HB1.
I am outraged that this legislation would criminalize free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality and fair treatment by law enforcement.
Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system in Florida and the rising number of deaths from COVID.
HB1 repackages legislation put forward by Gov. DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution but which would affect any people from speaking out.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”
A statewide survey of Florida voters indicates lack of support for HB1.
Instead Gov. DeSantis’ amped his efforts to make up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority.

Finally, people only protest when believe they are being abused, oppressed, marginalized or violated. It's time for Florida legislators to address the REAL issues instead of finding ways to punish people who cared enough to peacefully assemble to voice their dissent.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

To: Hebel, Meagan <Hebel.Meagan@flsenate.gov>
Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

Hi,

I moved to Florida in 2019. I am a retired attorney, and I am aghast that HB1 even made it out of committee. Please oppose this bill, as it is redundant in its punishment of violent demonstrators, it clearly infringes on our constitutional rights of free speech and assembly, and it will cost this state a great sea of money in the challenges that are sure to follow if it is unwisely passed.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or

AMERICAN OVERSIGHT

violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

AMERICAN OVERSIGHT

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing.
We cannot fast-track this bill through on party lines. Florida HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing voices demanding basic human rights, equality, and fair treatment under the law.
Recently, we have seen police in Florida take a generally aggressive response to protests, and the public reactions have exposed the massive corrosive element of racism at the core of law enforcement and an authoritarian purpose of police: To serve and protect the property and interests of major corporations, ultra-rich, certain government entities, and special government officials. Even if it means police are to terrorize the very people they are assumed to protect.
Conditions will arise which require the people to take to the streets and protest, exercising their Constitutional right to petition their government for change. Despite the people's protection under the 1st amendment, many authoritarian leaders will stick with current strategies and response tactics, or ratchet-up the use of force with unconstitutional laws like HB1. The rank and file police officers will be stuck in an awkward and untenable position: on one hand, they are ordered by the authority to face down, beat down, and dominate innocent people, peacefully assembled. On the other hand, they will see Americans not unlike themselves, with similar social and economic problems, exercising their 1st amendment rights to protest. In the end, they will not follow insane orders to brutalize citizens as required by Florida HB1. Stop this bill now.
This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of protestors that is guaranteed to all people under the US Constitution.
The Executive Director of the ACLU of Florida, Micah Kubic, stated that "This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional."
The House Justice Appropriations Subcommittee should address the calls of Florida voters and people who care enough to peacefully assemble.
Floridians' health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation was assigned to a public hearing much less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions, HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. By issuing this bill, the Governor and the Florida Legislature are wasting taxpayer time and money on proposing solutions to a non-existent problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID-19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID-19.

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and reallocate their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions, we need legislation that answers the call of the people in the streets. People protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will inform others they should not travel in Florida or move to Florida because our government is not utilizing all of their resources to keep individuals safe and supported. Public health and the economy should be your top priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing much less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Meagan Hebel,

I know a lot of the following is boilerplate, but between trump and this idiocy, you're running screaming from the ideals of the enlightment that have made our flawed and troubled nation a beacon of hope. We ain't perfect, but the ideas enshrined in the bill of rights, the 13th, and 14th amendments, these things are the only thing that save our souls.

Stop acting like this. Stop being the part of the lowest common denominator and lead for chrissakes. Protect the poor and the downtrodden, as christ demanded of us. Shut up about abortion, which he never mentioned. Tax the rich, house the poor, let people protest, be stewards of the earth. Christ wasn't subtle, he directly told y'all to do this shit and to love your fellow man and you just refuse over and over again.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

Hi, yall are monsters. I dont know what happened to you in childhood that made you so full of hatred for other people but i hope you get better soon.

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

AMERICAN OVERSIGHT

Kimberly Simon,

The 2nd Amendment of the U.S. Constitution specifically addresses the freedom for people to assemble peacefully to voice their dissent with the government. I am writing to stongly oppose and disagree with passage of HB1.
I am outraged that this legislation would criminalize free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality and fair treatment by law enforcement.
Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system in Florida and the rising number of deaths from COVID.
HB1 repackages legislation put forward by Gov. DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution but which would affect any people from speaking out.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”
A statewide survey of Florida voters indicates lack of support for HB1.
Instead Gov. DeSantis’ amped his efforts to make up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority.

Finally, people only protest when believe they are being abused, oppressed, marginalized or violated. It's time for Florida legislators to address the REAL issues instead of finding ways to punish people who cared enough to peacefully assemble to voice their dissent.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I firmly believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

AMERICAN OVERSIGHT

Meagan Hebel,

The 2nd Amendment of the U.S. Constitution specifically addresses the freedom for people to assemble peacefully to voice their dissent with the government. I am writing to stongly oppose and disagree with passage of HB1.
I am outraged that this legislation would criminalize free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality and fair treatment by law enforcement.
Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system in Florida and the rising number of deaths from COVID.
HB1 repackages legislation put forward by Gov. DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution but which would affect any people from speaking out.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”
A statewide survey of Florida voters indicates lack of support for HB1.
Instead Gov. DeSantis’ amped his efforts to make up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority.

Finally, people only protest when believe they are being abused, oppressed, marginalized or violated. It's time for Florida legislators to address the REAL issues instead of finding ways to punish people who cared enough to peacefully assemble to voice their dissent.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation was assigned to a public hearing much less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions, HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. By issuing this bill, the Governor and the Florida Legislature are wasting taxpayer time and money on proposing solutions to a non-existent problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID-19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID-19.

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and reallocate their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions, we need legislation that answers the call of the people in the streets. People protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will inform others they should not travel in Florida or move to Florida because our government is not utilizing all of their resources to keep individuals safe and supported. Public health and the economy should be your top priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.
Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

To: Brown, Natalie <Brown.Natalie@flsenate.gov>
Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing.

This proposed legislation (HB1) is flawed in several ways: (1) it's unconstitutional as it restricts/chills the exercise of free speech rights under the 1st Amendment to the US Constitution;
(2) it's also unconstitutional as it tries to ban our right to petition our government for redress from "public spaces" (State property); (3) it's unnecessary as existing laws already adequately cover those who engage in violence (at or near protests); and (4) it's likely to encourage some people (vigilantes) to violently engage with even peaceful protesters (we don't need to extend "stand your ground" doctrine to this arena).

I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to

AMERICAN OVERSIGHT

“defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Meagan Hebel,

Please OPPOSE HB1. This bill criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

This legislation would make it legal for motorists who strike protestors with their vehicle even if the incident results in someone's death.

Also, this legislation also preempts municipalities' control over their budgets. State officials do not know and should not dictate the needs of cities and towns regarding public safety.

If this legislation passes I will be letting people know that they should not travel in Florida, they should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Natalie Brown,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Meagan Hebel,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.

Subject: Oppose HB1 and Protect Floridian's First Amendment Rights

Kimberly Simon,

I am writing to you to ask you to please OPPOSE HB1 at the House Justice Appropriations meeting when it is scheduled for a hearing. I am outraged that this legislation even got assigned to a public hearing must less that it has been fast-tracked through the House on party lines. Florida currently faces the worst economic and public health crisis in history and instead of working to find solutions HB1 criminalizes free speech, peaceful assembly and dissent through unconstitutional language that is targeted at silencing Black voices demanding basic human rights, equality, and fair treatment by law enforcement.

Instead of addressing the horrendous housing crisis, the broken unemployment system, the failing healthcare system, the disorganized and chaotic education system, AND the rising number of deaths, poverty, job loss and sickness in Florida HB1 repackages legislation put forward by Governor DeSantis as a “response to the violent insurrectionist mobs” that attempted a coup on the nation’s Capitol. This language is a smokescreen for the true intent of the bill which is to circumvent the mess that Florida has as a consequence of the pandemic and lack of support for Florida’s poverty impacted and oppressed. I am not fooled by this. This is the same legislation it was back in September with the same purpose - to limit the basic civil rights of BLM protestors that is guaranteed to all people under the US Constitution.

I believe that HB1 is being used to distract media and organizers from focusing on the real problem: lack of support for those in need across the state. How dare the Governor and the Florida Legislature waste taxpayer time and money on proposing solutions to a made up problem. Section 870 of the Florida Statute already criminalizes riots, unlawful assemblies, and looting but this legislation would actually make it legal for motorists who strike protestors with their vehicle, even if the incident results in someone’s death. It limits people’s ability to apply to Florida’s already broken unemployment system if they have been convicted under the proposed legislation and allows victims of violent crimes to recover civil damages from a local government that is deems responsible for grossly negligent “policing” during a “riot”. Meanwhile, the Florida Legislature is fast-tracking HB7/SB72 to create COVID19 liability immunity for the real victims of negligence by businesses, government agencies, schools, and religious organizations who have caused the spread of COVID19.

The Executive Director of the ACLU of Florida, Micah Kubic, stated that “This (bill) is not an attempt to make our communities safer. This proposed legislation by DeSantis is nothing more than a campaign political stunt. Now, it is being disguised as a response to the failed violent coup at the US Capitol. And, it is just as unconstitutional.”

A statewide survey of Florida voters put out after the attack by Donald Trump’s supporters on the US Capitol suggested a lack of support for HB1 and Governor DeSantis’ push to amp up criminal penalties for “disorderly” protests. Ninety-percent of those asked stated their support for “protecting our constitutional right to free assembly and free speech by legally protesting without fear of criminal charges”. Seventy-one percent of Democrats and 74% of Republicans deemed the issue a top priority. Eighty percent of respondents said they were more likely to support a legislator who voted to protect that priority, and 56% were “much more likely”. On the other hand, 83% of respondents thought that it was important to strengthen unemployment protections for people who lost their jobs because of COVID-19, 63% said that this was “very important”. (1)

Finally, this legislation also creates a preemptive attack on local municipalities that might want to “defund” the police and put their money towards more humanitarian initiatives to provide real solutions to small business and economic crises caused by the pandemic. Instead of restricting local government’s ability to find solutions we need legislation that answers the call of the people in the streets. People only protest when they are being abused, oppressed, marginalized or violated. It's time the House Justice Appropriations Subcommittee address the calls of Florida voters and people who cared enough to peacefully assemble. We need to face the issues head on and answer to the humanity and dignity of working class, black, brown, and immigrant families in Florida who are suffering with workable policies that help the state grow and prosper.

If this legislation passes I will be letting people know that they should not travel in Florida, they

AMERICAN OVERSIGHT

should not move to Florida, they should not visit Florida, because our government does not support them and keep them safe. Public health and the economy should be your number one priority. Please OPPOSE HB1 and support legislation that provides real solutions to the real problems Floridians face today.
