Hi all, The Council of State and Territorial Epidemiologists (CSTE), which facilitates the NSSP Community of Practice (NSSP CoP), now supports and moderates the new **NSSP CoP Slack Workspace**. This new Slack workspace is a communication tool and collaboration platform for advancing syndromic surveillance practice. Use it to easily share information with peers, plan projects, and accelerate data analyses. Reap the benefits of collectively working with health scientists at CDC, other federal agencies, and with state, territorial, local, and tribal (STLT) public health departments—all using NSSP's *BioSense Platform*! If you need quick access to syndromic surveillance experts and are affiliated with a federal agency or STLT health department as a full-time employee (FTE) or contractor, the NSSP CoP Slack Channel is designed for YOU. The NSSP CoP Slack Channel is not designed for public use. **To join, please submit your request [here](#). Starting October 20, 2020, CDC's NSSP staff will no longer participate in the Health Surveillance Slack.** Look for new NSSP-related channels on the **NSSP CoP Slack Workspace** beginning October 20, 2020. If you have questions about the NSSP CoP, its highly collaborative user groups, the NSSP CoP Slack Workspace, or syndromic surveillance, please email [syndromic@cste.org](mailto:syndromic@cste.org).
